

Perfect WD 1321

Chapter 1321 - Opposition

Immortal Wang, this was a matchless expert. However now, he felt apprehensive, not daring to rashly act out.

It was because the diagram in Great Elder's hands was too frightening, the mountains and rivers within magnificent, great stars moving about, everything completely real. This was a supreme treasure.

This was something that displayed great brilliance in the war of Immortal Ancient's last phase, killing foreign experts until ghosts weeped and deities howled, establishing a glorious reputation. This diagram was too well-known, absolutely world-shaking!

Zheng!

A light shout sounded that was like a dragon cry or a tiger roar. A war halberd emerged from between Immortal Wang's brows, releasing dazzling immortal light. The sound it released was cold, making one's soul tremble.

No one pierced his frontal bone, but rather a weapon emerged he created himself!

A war halberd that only three inches of itself appeared, incredibly powerful, immortal light dazzling, killing energy overflowing. This was a terrifying weapon that left others with a deep impression.

It was because it carried immortal energy, immortal splendor revolving around it, an immortal weapon. However, it carried a wave of killing intent, defying the auspiciousness of immortal dao, spreading through the weapon, turning it into a deity slaughtering weapon.

Shi Hao trembled inwardly. That aura was too chilly. When a bit of the radiance surged, it tore open the void.

This was especially the case when Immortal Wang faced the sky, the war halberd firing light that pierced the sky dome, penetrating the great stars of outer space, several of them exploding like fireworks!

"This is..." The golden little ant's face became extremely unpleasant.

Immortal Wang used his clan's supreme treasure, something his ancestor left behind. The action just now was merely intimidating, easily blasting down stars from outer space. Just how terrifying was this weapon?

This was a display of might to counteract the Ten Realms Diagram in Great Elder's hands.

"Do you wish to fight it out against me? I do not mind!" Great Elder said with a smile.

At this time, he remained calm and unhurried, not nervous at all. While speaking, the Ten Realms Diagram in his hands releasing hualala sounds, starting to move. The surrounding space immediately collapsed.

Meanwhile, the stone ancient palace shone, sacrificial voices sounding, extremely clear and grand, blocking that type of terrifying might.

“Meng Tianzheng, you dare?!” The nine dragons weren’t the only ones who began to panic, even Immortal Wang glared at him, feeling a bit of fear.

It was because this ancient palace was the clan’s immortal’s place of seclusion, their ancestral palace. They couldn’t let it be destroyed, this was their clan’s spiritual symbol.

This palace recorded their glory. As long as it towered here, it would grant this clan a type of transcendence, a type of confidence. Their ancestor was an immortal!

However, this palace truly was unordinary, shining on its own, stopping this type of fluctuation. It didn’t break apart under the Ten Realms Diagram’s power.

This was worthy of being this clan’s ancestor’s place of seclusion. It had previously bathed in immortal splendor, witnessing long life, extremely heaven-defying.

“Why wouldn’t I dare? Only you all are allowed to bully my disciple, I am not allowed to come and settle the debt?” Great Elder spoke extremely powerfully.

Immortal Wang’s eyes were ice-cold, his previously radiant smile completely gone. The battle intent he displayed was extremely great, about to attack at any time. This was a true stance of confrontation.

Previously, the two were all smiles, looking like old friends, but they actually didn’t get along. Now, their true relationship was revealed.

Hong!

Large amounts of light beams lit up, the entire Wang Family ancient land was shining. There were ten thousand great peaks in total, not more, not less. They swayed back and forth, forming the most complex great formation, hiding the sky and covering the sun.

This was an immortal formation, even though it was damaged, not that complete, it was still world shocking!

The ancestral palace was wrapped within all types of symbols, protected first.

“You are forcing my hand. Injuring my children, you will be suppressed today!” Immortal Wang said coldly.

His expression became completely different. Even though he was still extremely delicate and handsome, eyes clear, there was an indescribable frightening pressure being released, as if a demonic sovereign had revived!

He was previously radiating sunlight, possessing a type of immortal dao quality. Even though he was still wrapped within immortal energy, surrounded by pure white mist, he was now incredibly forceful, making one tremble inwardly.

It was as if an immortal killing sword was unsheathed, killing intent surging, the heavenly dome about to fall into chaos!

“Is that so? It seems like you plan on abandoning some of your children. Good, I’ll exercise these old arms and legs again, prepare to unleash a proper slaughter!”

Great Elder's voice was ice-cold. At the same time, a wave of ice-cold and faint killing intent covered everything, spreading from him at the center, extending in all directions.

All life within a radius of a hundred thousand li shivered inwardly, their souls pounding. Many vicious birds and beasts were shaking in fear, quickly kneeling down, kowtowing in this direction.

This was the result after already going through the Wang Family's formation. Otherwise, if Great Elder unleashed all of his power, it would simply be unimaginable.

Picking stars and capturing the moon with a raise of the hand, this was not a legend, it really could be done. Great Elder definitely had this type of terrifying unmatched magical force.

Right now, Wang Da, Wang Er, and the others' expressions became ugly. They felt like right now, they really weren't Great Elder's opponent, that they were too hasty earlier.

Even Wang Family's old eight who was extremely arrogant frowned, feeling apprehension. He really wanted to challenge Great Elder, but now, after seeing his power, he knew that he wasn't a match.

Only Wang Jiu whose gray hair scattered, looking to be around thirty years old, looking much younger than his older brothers, still remained calm, stars falling within his eyes, the scenes terrifying.

This was a terrifying individual. At this moment, he finally spoke, saying, "Father, lend me the war halberd. I wish to fight a decisive battle against him!"

Wang Jiu's voice wasn't loud, but it was imposing and awe-inspiring, allowing one to understand that this person would definitely become an overlord in the future, become unmatched in the Nine Heavens Ten Earths.

"No, we will not tolerate any losses today. The nine of you will move together, and so will I. Capture him. With the formation and ancestral weapon here, he can't escape!" Immortal Wang refused.

It was because he knew that Great Elder was extremely terrifying. There might be a great disaster if they showed even the slightest bit of carelessness.

Immortal Wang was stunning, the outside world always suspecting that he was an immortal core sealed from the last great era. However, even with his astonishing status and unmatched combat strength, it still wasn't enough to suppress Great Elder.

He had previously fought with Great Elder twice, both times pulling back after a draw, unable to defeat the other party.

"Fine, let's go up together and kill him. Since this old thing dares come up to our doors, we'll let him know that our Wang Family's dignity will not tolerate blaspheme!" Wang Da said.

It was because he really was a bit fearful. This old man was still like the past, making him feel tremendous pressure. When he truly erupted with power, he was still an unmatched existence.

"You're right, this is an extremely rare opportunity. Since he paid us a visit, then we'll get rid of him today to eliminate a future grievance!" Wang Er also spoke up, his golden daoist robes fluttering about, his entire being wrapped within chaotic energy, raising his fighting strength to the peak.

Hong!

Streak after streak of patterns shone on the ground, interweaving in the void, covering heaven and earth.

This was the immortal dao magical formation Wang Family's ancestor carved, now activating, about to attack. Patterns filled this place densely like golden swords, surrounding Great Elder.

Shi Hao and the golden little ant's mind sunk, feeling a suffocating pressure.

If not for the radiance Great Elder released protecting them, Void Dao Realm individuals would definitely explode to pieces here, difficult for them to resist this type of heavenly might!

Correct, the immortal family's magical formation revived, about to wipe out all enemies. For these people in the Void Dao Realm, it could be said to be undefiable heavenly might!

"Meng Tianzheng, you are too arrogant, actually daring to force me!" Immortal Wang said coldly.

In the space between his brows, a small war halberd was pulled out inch by inch, about to turn into an unmatched immortal weapon to deal with the Ten Realms Diagram.

This was extremely bizarre. This clan possessed the Chaos Calming Art, the most powerful sword dao art since the ancient time, yet their ancestral weapon was a war halberd! There were definitely some hidden secrets.

"It is you who is too self-confident." Great Elder said. Around him, a rag that was soaked in blood appeared, fluttering in the wind. A wave of terrifying energy immediately swept out, killing force matchless!

What was this?

Forget about Shi Hao, even Wang Da, Wang Er, and the others' heads were pounding, feeling shocked. That blood-soaked cloth looked like something used to wrap corpses, why did it have such terrifying power?

It was because at this moment, the radiance Wang Family's formation released was all neutralized, prevented from getting closer.

"What? You had Xu Family's formation banner on you?" Immortal Wang's expression changed, becoming extremely shocked.

"That war formation banner from back then? Immortal King Corpse Cloth!" Wang Da cried out in alarm, his expression becoming extremely unpleasant.

"Why would Xu Family lend this type of thing to you? This is their life-line! Don't they fear that someone else might take advantage of it and use it to attack them?" Immortal Wang released a light sigh. This matter was too serious, exceeding his predictions.

The so-called Xu Family, was precisely the long life imperial court Xu Family.

Princess Yao Yue came from this family, the imperial lord of the clan was his father, Xu Mingxuan.

When Shi Hao heard the name of that rag, he immediately felt a headache. At the same time, he sensed a terrifying aura that hid the sky and covered the earth, endless shouts of war shaking the skies, erupting here.

He knew that this rag had shocking origins, related to even more past events filled with blood and tears.

Chapter 1322 - Immortal Ancient Banner

Xu Family's supreme treasure was a rag, yet this made Immortal Wang's expression become serious, even more so making Wang Da, Wang Er, and a few others feel incredibly shocked.

Shi Hao felt his scalp turn numb. He could hear endless war cries from that piece of cloth.

The cloth Great Elder had was extremely shabby, and it was wrinkled all over as well, some holes visible on its surface. It looked like it was going to completely fall apart.

One could roughly make out that this was a banner. There were all types of blood traces on it, the passage of time leaving behind too many imprints on it, clearly an ancient artifact.

"Back then, during Immortal Ancient's last phase great battle, this was previously an iron-blood war banner that was held by a true immortal, leading the various clans to face the other side's great army..." Immortal Wang said to himself.

Even he felt a bit of regret.

"Correct, it is precisely this war banner!" Great Elder said.

This war flag, in the past, was perhaps only an iron-blood war banner, a symbol, but its significance later was completely different. There were Immortal Kings that died, used to bind the corpses when they were brought back.

Moreover, it wasn't just one, but two!

One could see just how miserable the final battle was. The most powerful Immortal Kings of a realm were killed in battle, disappearing in defeat.

It was unknown just how many people were killed, corpses filling this place.

This war banner was used as cloth to wrap corpses, previously bringing back the ruined bodies of two Immortal Kings. Meanwhile, their essence blood also unavoidably soaked through this banner.

Its material was sturdy, originally weaved out of precious threads. Now, together with Immortal Kings' most fundamental essence blood soaking through it, it became even more unordinary.

Soon afterwards, it directly developed spirituality!

Later on, it ended up in the Xu Family's hands, after a process of refinement, it became a supreme treasure with immortal dao formations engraved on it, becoming something in between a formation and a weapon.

Not far out, there were quite a few Wang Family disciples who were watching what was happening. When the elders spoke about these secrets in a low voice, everyone became greatly shocked.

Even Shi Hao was shaken up. What was this? It was the iron-blood banner of Immortal Ancient War!

The significance of this thing was too unordinary. Regardless of what its power was like, it was enough to leave everyone in this realm shaken up.

It was simply a piece of history itself, the war banner of the past. It was heavy like a mountain!

No wonder war cries sounded endlessly, it was all because of the true meanings stored within this banner. It originated from the battlefield, soaked in the blood of endless experts.

When the day came where they had to face the other side, this war banner would undoubtedly be the most suitable banner to wave once more. The war spirits of the past would be with them, blood sacrifices made with the blood of the enemy!

Should this banner be raised once more, it would definitely be a grand occasion, one accompanied by blood boiling battles!

"Xu Family, they really were willing to part with it!" Immortal Wang said.

Xu Family and Wang Family were old enemies, the two clans not getting along with each other. In Heavenly Deity institution, Princess Yao Yue always stood against Wang Xi, from this alone one could see that the clans carried great hatred towards each other.

Meanwhile, the discord between the two clans could be traced all the way back to Immortal Ancient times!

They were both long life families after all, so even their gratitudes and grudges were terrifyingly long, moreover not going away all this time, everything tangled together.

"Isn't it merely a tattered banner, already about to fall apart? What is so special about this?" There was someone watching the battle from the horizon. An expert from Wang Family said quietly, not attaching all that much importance to this banner.

"Heng!" Great Elder released a heavy snort. That person immediately exploded, turning into a blast of bloody mist.

"You..." The expression of some of Wang Family's Nine Dragons changed, feeling like Meng Tianzheng was too unrestrained, actually killing someone right in front of them.

"Meng Tianzheng, you are too insolent!" Wang Er shouted.

"Wang Family is just like in the past after all, not caring much about Immortal Ancient's last phase battle all that much, even daring to disrespect the sacred object that has wrapped immortal kings' corpses, not attaching importance to it." Great Elder said.

This time, Immortal Wang didn't say anything, only some individuals among the Nine Dragons who didn't accept this.

Immortal Wang knew that the significance of this banner was too great. For someone like Great Elder, it was an unmatched sacred object to the extent where its value was even greater than the Ten Realms Diagram.

As a war banner that had soaked in the blood of ancient people, and even serving as the cloth that wrapped around two great Immortal Kings, this tattered banner, in some people's eyes, was equivalent to some type of spirit, even more so a type of soul.

That was why Immortal Wang didn't retort this, not opposing Great Elder on this matter. Otherwise, it would force the other party to retaliate with even greater ferocity.

"Things are a bit troublesome." Wang Jiu said, transmitting sound to a few of his older brothers that had more fiery tempers.

"I refuse to believe that he can face our Wang Family just by relying on this ancient banner!" Wang Da said coldly.

"It is indeed a bit troublesome, this banner both a formation and a weapon. Now that it has made an appearance, my Wang Family's immortal dao formation can't do anything to it, it can cut open a path. I never expected the Xu Family to be this generous, daring to lend out this type of thing." Immortal Wang secretly transmitted to his nine sons.

"This... could it be that we can't do anything to him?" Wang Er found this hard to accept, still wanting to keep Great Elder here.

"Immortal Kings' wrapping cloth, after it was refined into a supreme treasure, even if it doesn't allow one to walk through our formations like level ground, it is pretty close. At the very least, he can move through it, and with the Ten Realms Diagram as well, Meng Tianzheng will bring tremendous destruction to my clan's ancient land." Immortal Wang said.

He felt like even if they made Great Elder stay behind, perhaps even kill him, Wang Family would have to pay a tremendous price they would find hard to bear.

"This old thing, I really want to immediately kill him. Could it be that after he barged into our clan's pure land, we can only watch him leave without doing anything?" Wang Da was furious.

Immortal Wang's expression was incredibly overcast, only a while later did he seem to have come to some kind of decision. He looked towards Great Elder, and then said, "Today's matters, let's end it here, I will no longer pursue it. It is because I respect this war banner greatly, not wishing to take arms against it."

When Great Elder heard this, he roared with laughter. While carrying an expression of ridicule, he said, "You respect this war banner? It is hard to say whether your Wang Family even acknowledges that battle. Someone like you would feel like this banner is a sacred object?"

It was because he could tell just from the reactions of the disciples, which was why he didn't hesitate to directly kill a powerful expert from this clan.

Then, Great Elder's expression became cold. "You won't pursue this matter, implying that you are graciously letting us go. However, I want you to know that I am pursuing it further, that I came today to demand an explanation!"

"You... Meng Tianzheng, don't go too far! My Wang Family has spoken benevolently. What kind of place are you treating this as?!" Wang Er shouted.

"A place where I will get an explanation." Great Elder replied coldly. His eyes released two sharp beams of radiance, killing intent roiling, staring straight at Wang Family's old second.

"What do you want to do?" Immortal Wang asked.

"It is simple, I want you to restrict your heirs, vow not to target Shi Hao anymore." Great Elder said.

"You... are forcing father to make a vow?" Wang Da was truly angry, immortal mist on his body surging.

"For the sake of an ant, you are going so far, even wanting my father to make a promise, what qualifications do you have to do this?!"

Great Elder spoke coldly, saying, "Do you feel that you are that special, high up above? However, in my eyes, you are only a bit more remarkable. After a period of time, Shi Hao will be stronger than you!"

nOVE-LB-In

Then, Great Elder said, "He is my disciple, just like you are Immortal Wang's children. I am declaring right now that if Wang Family dares harm Shi Hao again, I will not stay my hands from the Nine Dragons, kill one when I see one!"

These words were resounding and deafening, ringing through this entire ancient land, all creatures within several tens of thousands of li hearing them, stirring up great waves.

Who was this? He actually dared threaten the Wang Family!

"Dao brother, you have crossed the line." Immortal Wang said.

"This time, I, Meng Tianzheng, every word I speak is like a nail, meaning precisely what I say. If your Wang Family dares cross this line again, I will definitely unleash a great slaughter, a few of the Nine Dragons will definitely die!" Great Elder's words were like thunder, resounding through this ancient land.

"It's Meng Tianzheng!"

"Heavenly Deity Institution's Great Elder!"

"He is taking action for Huang's sake, actually threatening our old great ancestor!"

The atmosphere became extremely tense, ready to erupt into a world-shocking great battle at any time.

"For these things, you had to barge into my Wang Family? Why didn't you inform us through a letter?" Immortal Wang said.

"Father!" Wang Da' couldn't restrain his anger, feeling like his father wasn't acting bold enough.

"My true body came, yet you all still wanted to suppress me, so what will a letter accomplish?" Great Elder said coldly.

"I gained some realizations recently. Let us exchange a few moves, if I lose, then everything will be as you wish." Immortal Wang said, about to fight Great Elder.

"Fine, however, there is one more thing. You all must pay a certain price. This time, you harmed my disciple, so I cannot just let things end like this!" Great Elder said.

“What more do you want?” Immortal Wang said coldly.

He found it a bit hard to hold back now. If not for his apprehension towards the corpse wrapping cloth and Ten Realms Diagram, as well as the danger to his own children, he would have taken action a long time ago.

“Wu, what do you want?” Great Elder asked Shi Hao.

At this moment, Shi Hao was overwhelmed by emotions. Great Elder really possessed matchless divine might, even this domineering after coming to Wang Family, opposing Immortal Wang with equal harshness. He truly was worthy of being a peerless expert.

“I... wish to examine the Chaos Calming Art.” Shi Hao said.

When they heard this line, everyone from Wang Family became furious.

Even the corners of Immortal Wang’s lips twitched slightly.

Wang Da, Wang Er, and the others were truly angered badly. It was just a young man, yet he dared to casually ask for their sect protecting scripture. How could they just let this happen?!

The Chaos Calming Art was high up above, its strength matchless throughout the world, known to be one of the three most powerful sword arts from past until present. It was an unrivaled scripture.

In the earlier years of Immortal Ancient, just by relying on this art, there were people who forced back foreign enemy troops, maintaining the peace of a certain period of time. The words ‘chaos calming’ came precisely from this.

This was enough to prove how astonishing and glorious the Chaos Calming Art was!

“This cannot be done.” Immortal Wang said coldly.

“It can’t?” Shi Hao felt regretful.

Great Elder was a bit speechless. Wasn’t this basically asking for Wang Family’s lives? If they really demanded it, perhaps Immortal Wang really would stake it all against them, fight with their lives.

“You should change the request. Forget it, I’ll make the decision in your place, help you think of something.” Great Elder said. He feared that Shi Hao would raise some type of unrealistic condition, so he hurriedly added.

Great Elder discussed things with Immortal Wang, and then the two took action!

They naturally wouldn’t use the Ten Realms Diagram, war halberd, and other things, only exchanging bare-handedly, fight with their true strength.

“I’ve gained some insights recently, so you should watch yourself!” Immortal Wang said coldly. He took action.

Everyone was horrified, scared that they might be turned into bloody paste by the unmatched magical force blast waves. However, at the same time, they were extremely curious, wishing to see what kind of matchless methods were going to be displayed.

However, everyone was disappointed.

Immortal Wang didn't release divine force fluctuations, nor were there any boundless natural laws that interweaved, the winds and clouds calm. When his great sleeves moved, his right hand formed the shape of a crane mouth, piercing towards Great Elder.

What was this? It wasn't some legendary great divine ability!

However, Great Elder's reaction was completely different from everyone's anticipations, becoming extremely serious. He stared at his opponent, and then his right leg slowly moved back. Like a vicious tiger swinging its tail, it lashed out at the crane mouth.

"This..."

Everyone was speechless. Was this a battle at the very peak? Why did their techniques seem ordinary, lacking the slightest fluctuation of power, even more so no chaos or disorder appearing?

Then, Immortal Wang was like a spiritual ape, moving his arms and releasing a fist.

It was as if Great Elder was embracing the moon, guiding force.

"What is father doing? Why doesn't he take action domineeringly, cut him down with the Chaos Calming Art?!" Wang Da said quietly.

Only Wang Jiu's expression was serious, incredibly grave, even his breathing stopped as he stared at these two. He saw through the enlightenment, saying with a low voice, "They are turning the complex into the simple, transforming the ten thousand dao of the world into a single motion, comparable to matchless methods!"

"It looks ordinary, just a single move, but father has merged several killing methods of the Vicious Ten. You tell me if this is dangerous or not?" Wang Jiu said with a sunken voice.

Then, he closed his mouth, feeling like he was suffocating.

It was because the two of them already completed the three moves.

"I do not feel like this type of attack has any power." Wang Da was puzzled.

However, his expression immediately changed, because a giant mountain behind him cracked with a kacha noise, and then it exploded.

Forget about him, even the expressions of others from Wang Family changed. How could the great mountain crack apart?

One had to understand that there were a total of ten thousand spiritual mountains in this immortal family ancient land, every single one of them possessing immortal symbols. However now... one of them collapsed.

Everyone understood that even though Immortal Wang and Great Elder's competition looked simple, extremely easygoing, clouds and winds light, the power was unimaginable!

Once it ignited, heavens would fall and earth would split, everything falling to ruin!

Chapter 1323 - Peerless Expert

Immortal Wang leaped into the air. He looked extremely young, as if an eagle hatchling was spreading its wings, his arms in harmony, mouth releasing sound, throwing himself at Great Elder.

There was no light, no great dao symbols that appeared, it was just that direct, not like a confrontation between matchless experts at all.

Great Elder moved to the side, his right arm like a snake, suddenly curling, shooting towards the sky with an inconceivable angle, as if a python was devouring the moon.

Peng!

The two collided, releasing a muffled noise. The skies didn't break apart, only the areas of the body that made contact releasing strange sounds.

Shi Hao opened his heavenly eyes, his breathing about to stop. He carefully watched everything, because all the way until now, he still didn't see the profoundness of this. He wanted to understand.

Chi!

He finally captured a few things. In the two extreme experts' surroundings, the void that collapsed merged together, needle like radiance interweaving, and then quickly disappearing.

The two great experts' energy was definitely terrifying, yet not the slightest trace leaked out, instead devouring the power of the void instead. The sharp needle-like radiance from just now should be the essence extracted from the great world.

This... was unimaginable!

Shi Hao had a vague feeling that if the two individuals were to attack without any restraint, the sun, moon, and stars would even be blasted down, simply able to tear apart the great cosmos!

Only, they were restricting themselves!

Shi Hao couldn't see through this, couldn't understand. This wasn't because he wasn't talented enough, because not even Wang Da, Wang Er, and the others could understand. One had to understand that their cultivations were profound to an unimaginable level!

The nine dragons had cultivated for endless years, arriving from the ancient past until today. Both of them could sweep through all enemies in their path, impossible to measure.

Meanwhile now, only old eight and old nine, these two could see through these two peerless figures' confrontation.

"Merging true immortal natural laws, changing the complex into the simple, condense the profound mysteries of the heavens into a few moves. This type of ability, this type of cultivation, we are still too far off." Wang Family's old eight released a light sigh.

Wang Da frowned. Right when he was about to speak up, the second immortal dao symbol great mountain suddenly broke apart, and then it completely exploded.

“Heavens, how could it be like this? These are the immortal dao remains of my clan, a part of the unmatched formation. How could it collapse now?”

Wang Family erupted into disorder, many youngsters and a few elders becoming nervous. This was something that had never happened before. Just how powerful did the enemy have to be to accomplish this?

Many people believed firmly that regardless of what happened in the immortal family remains, it wouldn't result in its destruction. However now, what happened toppled their understanding, producing fear and alarm within their minds!

“Why is that old man so powerful? We really have to immediately get rid of him, or else there will always be a great mountain blocking our path!” Wang Da said with a low voice.

Great Elder switched from defense to offense, his long clothes fluttering about. He rushed into the heavens like a vicious bird, attacking Immortal Wang!

Just like before, there was no great disturbance, yet for some reason, everyone felt like they were suffocating, feeling a deep pressure, as if this strike was going to knock down large amounts of stars from the sky.

Hou!

Immortal Wang released a great roar, as if a vicious tiger was crying out. A primal chaos tiger appeared, baring its fangs and brandishing its claws, throwing himself at Great Elder.

At the same time, Great Elder's simple and ordinary figure also finally displayed changes. There was a giant bird in front of him, also transformed from primal chaos, extremely blurry. It rushed outwards.

“Not good, they aren't able to hold themselves back anymore. This is the final strike, as well as the most terrifying confrontation!” Wang Jiu said.

He operated the formation himself. Great mountains all resonated, trembling as well, putting up a defense.

At this moment, the skies were shaking, affected by the power of the two great experts.

This type of scene was simply unimaginable!

Shua!

The great sun in the sky grew dim, oppressed by the two great matchless experts' brilliance. A starry sky emerged, many stars rumbling, about to crush down.

Hou!

The two roared out together. They really couldn't hold back anymore, simultaneously rushing into the heavens. At the same time, one tiger, one bird also clashed, erupting with primal chaos radiance.

Hong!

This was absolutely world-shaking. Cracks began to appear in outer space, every single great crack extending for who knew how many tens of thousands of li, the scene horrifying to the extreme.

The two great experts arrived in outer space in an instant, standing in the starry sky, carrying out the final ultimate strike.

One could see Immortal Wang's hand become incomparably terrifying. He grabbed a string of enormous stars, refining them into weapons, smashing them towards Great Elder.

Peng!

Stellar light splashed outwards. A few great stars exploded, shattered by Great Elder's sleeve, and then he activated a fist imprint, smashing it towards Immortal Wang's chest.

Chi!

Immortal Wang released a long roar, shattering a few stars around him. The space between his brows shone, a black ancient sword appearing, hacking towards Great Elder.

Chaos Calming Art, primordial spirit sword core!

This was an unmatched sword dao, an unrivaled technique. From past until present, there were just too many legends about it. This was a wondrous technique that shook the past and present.

Sure enough, Great Elder's expression became grave. His fist imprint was overlaying power, becoming stronger and stronger. It was as if a stormy sea of a thousand waves converged together.

In addition, Great Elder's arms moved, carrying out nine revolutions. The surroundings waves erupted, fist radiance incomparable, surging like a stellar sea. Everything attacked at one area, striking that primordial spirit sword core.

One could see just how serious Great Elder was, concentrating all of his power on that sword.

Chi!

The two individuals leapt out, both of them entering the depths of the great cosmos!

It was because the attack power of this strike was too great, the consequences difficult to predict.

Peng!

Countless symbols exploded, erupting in a starry dome. The primordial spirit sword core carried out a great collision with Great Elder's Nine Revolutions Fist Imprint, terrifying to the extreme.

In a flash, the battle of Immortal Ancient's last years, the blood energy of the most powerful experts appeared once more, that group of individuals returning.

This type of intense battle was difficult to witness in this world, only seen in the last great era.

There were stars burning, this expanse of cosmos splitting apart, the cracks extending outwards. In the end, starry light flickered, everything completely extinguished, this place becoming dark.

If others were to find out about this scene, they would definitely be horrified. The fierce battle happening in the great cosmos was just too shocking, exceeding the imaginations of the mortal world's experts.

In the late stages of Immortal Ancient's last phase, it was precisely because there were too many experts, the power too great, that it ultimately led to the destruction of the ancient world, turning it into the Nine Heavens Ten Earths.

"What ended up happening?" In Wang Family's ancient land, a group of people were uneasy, nervous to the extreme.

The result of the battle between these two peerless experts was too great, because if one side died, then the other party's descendants, inheritance, and other things couldn't be protected.

"Capture him first! Everything is happening because of him!" At this moment, Wang Da spoke, his eyes ice-cold, as if there were two blades resting in his eye sockets.

He stared at Shi Hao, determined to capture him first. Regardless of whether Great Elder won or lost, this would become a captive that they could use for bargaining.

Wang Jiu shook his head, hinting for Wang Da to look in Shi Hao's direction.

There was a piece of cloth on his body that was dyed in dark red blood, some holes on its surface, the cloth looking extremely old-fashioned. It was unknown just how many years it had existed for.

It was precisely the corpse wrapping cloth, the former Immortal Ancient war banner that had wrapped around two immortal kings, on it the blood and grievances of endless generations past!

Shi Hao felt a strange type of feeling, as if he was standing on a boundless battlefield, shouts of war shocking the world. There were powerful creatures that fell from the skies one after another, blood dyeing the great earth red, corpses piled up like mountains!

This was a moving and tragic scene. The blood of the ancient people poured down, as if the heavens itself were crying. The war banner witnessed everything, and it was soaked in the blood of these warriors, the unwillingness and grief condensing into spirit.

"The war banner is on his body, that old thing putting it onto his body before leaving, but I believe that this should be useless. Could it be that this thing can stop us? After all, this youngster is still extremely lacking, not growing up." Wang Da said coldly.

He directly took action, about to grab forward. If he could seize this war banner, it would be quite the contribution.

However, an astonishing thing happened. The war banner moved, releasing an angry roar, accompanied by world-shaking war shouts. Wang Da was sent flying, blood flowing out from the corners of his mouth.

"That old thing left behind a bit of vital energy!" Wang Da said hatefully.

"Brat, do you think that just because you have a Meng Tianzheng behind you, everything is fine? The people my Wang Family has wished to kill have never continued living. Towards ants like you, we just

have to directly crush you! I believe that Meng Tianzheng will definitely experience a great defeat, and then he'll have nothing to say. When that time comes, your end will be extremely pitiful."

Wang Da said coldly. Moreover, he called over a few of his brothers, wishing to break through this Immortal King Corpse Cloth, seize this supreme treasure to cut off Great Elder's path of retreat.

Chi!

A streak of divine rainbow descended from above, landing by Shi Hao's side.

At the same time, Immortal Wang also returned, standing in front of the nine dragons.

The two both remained quiet. The battle ended. The three or four moves they spoke about before, had actually already been exceeded.

"Let's just stop at a draw." Immortal Wang said.

"Fine, but the conditions have not changed. You must deal with matters as I have previously stated!" Great Elder said.

"Father!" Wang Da and the others walked up, filled with unwillingness. Someone barged into their home, yet they were actually going to give up, it really left them feeling sulen.

"From today forth, you all are not permitted to deal with that youngster." Immortal Wang said. Then, he turned around, leaving without saying another word.

"Spoken words are meaningless, please write down a decree. Apart from this, what about the special herbs I asked for from Wang Family's immortal earth? There better not be a single stalk missing!" Great Elder said.

"You are going too far!" Wang Da roared out.

"Are only you all allowed to bully my disciple? Am I not allowed to pay you all a visit?" Great Elder's voice was cold.

"You all, back down!" Immortal Wang berated, having the present family leader come out and write a decree, informing the clan that they could not start a fight with Great Elder's people for no reason.

Everyone was shocked. Immortal Wang actually agreed, moreover so directly! ~~nOVe-LB~~-In

If this matter spread, all of Immeasurable Heaven will be in chaos. It would produce a great commotion!

Chapter 1324 - Great Disturbance

Wang Family's family lord felt a wave of hesitation, not daring to believe what his ears were hearing. He was actually going to write this type of decree, the family going to compromise, actually agreeing to these types of conditions.

Moreover, they had to announce it to the world!

The meaning of the decree was just that, to tell the world that Wang Family would no longer make things difficult for Shi Hao, that the grudges between the two have already ended.

It seemed like the two were going to have their grudges neutralized, that they would coexist peacefully from here on forth, that there would be no more disputes between them, but the inner details would soon no longer be secrets, but would instead quickly spread. At that time, this decree would make the Wang Family look really bad.

It was because this was the result of Meng Tianzheng barging into their home, forcing Wang Family to write this decree. This was definitely going to produce a great disturbance!

For the Wang Family Lord of this generation, this was a type of humiliation. Being forced to write this type of decree really was losing too shameful, what kind of face would he have left?

From past until now, the Wang Family had never been forced to do anything by another, let alone sign a treaty unfavorable to themselves. However, this was completely shattered today!

When the decree was released, it would definitely trigger great waves, the outside world would look at Wang Family with suspicious eyes, accompanied with all types of criticism. The situation would be extremely bad!

It was because everyone felt like the Wang Family admitted defeat this time. This was a sign of powerlessness!

"This really is shameful... not only does it bring shame to me as this generation's family lord, it is also shame for my Wang Family itself. How can we show this type of weakness?" Wang Family's lord released a long sigh.

Right now, Great Elder already brought Shi Hao into the Wang Family's divine medicine garden, personally picking several stalks of Immortal Execution Grass, not paying any attention to the matters behind them, calmly waiting for Wang Family's decree to spread through the world.

Purple boulders rested one after another, from the size of a table to over ten meters tall, the rocks of all different shapes and sizes. This was a sparkling purple stone forest. However, Great Elder instead told Shi Hao that this was Wang Family's immortal medicine garden.

There were no fields, no soil, so how could divine herbs grow here?

Soon afterwards, Shi Hao understood why these were rare divine medicines only Wang Family had. After walking into the depths of this place, he saw seven or eight stalks of divine herbs rooted in the purple boulders.

"This is Purple Manor Herb, a rare divine medicine that can't be found outside of this place." Great Elder explained. These medicinal herbs could strengthen one's primordial spirit, make it indestructible.

One could tell how rare it was just from its name, because the purple manor was the accupoint where the primordial spirit was located. If this place could be solidified, then it would naturally be able to protect it from hundred disasters!

"The origins of this place is mysterious. You shouldn't underestimate these purple stones, thinking that they are ordinary, there are legends that they were left behind after an immortal expert's purple manor was shattered." Great Elder told him about these inner details.

This left Shi Hao shocked. The purple manor fragments of an immortal expert? Right now, he really wanted to bring away all of the rock fragments on the ground. These were priceless treasures!

No wonder they could produce purple manor divine herbs, there was nothing more precious than this.

“What a pity, under the corrosion of time, even the best things’ essence will scatter. You can see that there are only seven or eight stalks of divine herbs left, there were far more than these before. Moreover, during the initial phase of the archaic years, there was previously a stalk of immortal medicine that grew here, Purple Manor Long life Herb!” Great Elder sighed.

Shi Hao could not calm himself down. Wang Family’s backing was actually this great! The origins of this medicinal garden was too frightening! The fragments of an immortal experts’ primordial spirit purple manner had previously produced a priceless immortal medicine.

Great Elder only picked a single stalk of Purple Manor Herb here.

According to what he said, just half a stalk was already enough, eating more would be useless.

This stalk, if it was paired with the Octadic Treasure Unicorn and other things, it would be enough to allow several individuals to simultaneously enjoy the best effects.

“Wang Family has the Chaos Calming Art, able to cultivate the primordial spirit sword core, so the value of this Purple Manor Herb is unimaginable for them.”

This was precisely the reason why Wang Family saw this as their lifeline. If Great Elder wanted to pick a second stalk, Immortal Wang would most likely not be able to sit still.

Every stalk of Purple Manor Herb needed many tens of thousands of years to grow, they were just too precious!

Then, Great Elder brought Shi Hao to another medicinal garden in Wang Family. Auspicious energy rose in this place. He picked several other types of divine herbs.

Of course, even though they were both divine medicines, for Wang Family, its significance wasn’t as great as the Purple Manor Herb, because even though other divine medicines had substitutes, the Purple Manor Herb couldn’t be substituted. It was greatly tied to the Wang Family’s ability to cultivate the Chaos Calming Art.

“Indeed, these medicines are difficult to find in the outside world. Wang Family’s medicinal garden really is plentiful, I wouldn’t mind taking up long term residence here.” Great Elder said with a sigh.

The elders guarding the medicinal garden’s faces were dark, but they didn’t dare say anything. It was because compared to Great Elder, their so-called strength really was insignificant.

“What is that over there?” Shi Hao discovered that the divine medicinal gardens were surroundings a piece of hidden land.

“Wang Family’s long life medicine garden. It is located at the center of the divine medicine gardens, a restricted land. Apart from Immortal Wang, no one can take even a half step inside.” Great Elder said.

"Their family has a long life medicine?" Shi Hao was stunned. Then, he was greatly shaken. This was but something that could allow one to pry into the immortal dao, allow one to see long life!

"It is only a dried up medicinal root, something that was discovered from Immortal Ancient and nurtured all the way until now. It is unknown just how many types of divine springs and spiritual liquid has been poured on it, yet none of it was able to make it germinate."

Of course, this medicinal root still showed signs of recovering. It was no longer dried up, now having a bit of life force. It might even truly revive in the future.

Shi Hao was speechless. Truly worthy of being a long life family, able to retain hopes of reviving even after a great era of time. This was too heaven defying!

"Has the decree been finished yet?"

When they returned to Wang Family's ancestral palace, Great Elder directly asked. This made many people develop anger, yet they didn't dare retort, nor did they dare oppose him.

Immortal Wang already left, entering seclusion, not paying attention to any of the following matters.
nove(1B-1n

A few of the nine dragons came, their expressions all unkind, immortal energy surrounding their bodies, fists tightly clenched. They really wanted to immediately take action.

"Fine, I'll write it!" The family lord of this generation released a long sigh. It was because he saw that not even the nine dragons said anything after coming, so it was useless even if he resisted.

"How can it be like this? I oppose this! My Wang Family has never been wiped out even after experiencing Immortal Ancient's great war, let alone this present era. Why do we have to cower back, let a single Meng Tianzheng force us to this step? We should be taking action!"

Right at his time, a white haired elder walked over, his figure large and tall, looking extremely valiant. He looked towards Wang Da, this was Wang Da's grandson, a powerful figure from Wang Family.

"Your family's ancestor already gave his word, yet you still want to stop this?" Great Elder said with a laugh.

"I oppose! This decree must not be written!" This elder had a large frame, his gaze penetrating, staring at the family lord.

Wang Da really wanted to say something as well, but he didn't in the end. Only, his eyes carried vicious light, looking towards the distant Shi Hao, and then at Great Elder.

"It was me who gave the order to eliminate this future grievance. Right now, I still carry the same attitude, we cannot show weakness to the outside world!" That white-haired elder said, persisting with his viewpoint.

"Oh, you are quite unyielding towards outsiders, then let me ask you, this time, my disciple was harmed by your Wang Family, was this order also given by you?" Great Elder's expression became slightly cold.

The white-haired elder was close to a zhang in height, not appearing that old, instead possessing a valiant type of aura. He didn't feel any fear, his voice extremely cold. "He is so weak, still not enough for me to pay any attention. I just happened to hear about his whereabouts and randomly said that we shouldn't just watch a future disaster happen."

"This means that this matter has a lot to do with you, that it all began because of you?" Great Elder berated severely.

"So what if it does? My Wang Family's decision, what right does outsiders have to interfere? Even if your divine abilities are matchless, it will still be difficult for you to display might in my long life family!"

When the white-haired elder said this, his eyes flickered with light, because he had always coveted the position of family lord. Now, he saw a good opportunity.

Right now, the current family lord had to write a decree of shame, while he maintained such a strong viewpoint, so if he played his cards right, there was a good chance he would replace the other party.

"Wang Da, you really have quite the grandson." Great Elder laughed coldly.

"Meng Zhengtian, what are you trying to do?" Wang Da was alarmed, shouting out loudly.

"I have already said that if your Wang Family dares touch my disciple, I will start with the nine dragons, hunt you all down one by one, definitely wouldn't show mercy. However, since we already reached an agreement, I decided I wouldn't act forcefully. However, now, this main culprit is appearing before me, precisely the one who put my disciple in danger, so I naturally want an explanation" Great Elder said coldly.

No one expected Great Elder to suddenly be so domineering, his temperament completely changing from before.

That white-haired elder suddenly felt lacking in confidence, realizing that he put on too great of a display, possibly placing himself in danger.

"You... what do you want to do? This is the Wang Family, an undying long life family!" He shouted loudly, showing strength while weak inside.

Pa! Right at this time, Great Elder took action. When Wang Da saw this, he rushed up, exchanging a palm, as a result, staggering backwards, unable to stop him.

Pu!

In the next instant, that white-haired elder's brains were blasted apart, as if a melon was blown up, dying on the spot.

"Don't think that I, Meng Tianzheng, is easy to bully. If some younger generation barks noisily a few times, I can ignore it, but if they try to kill my disciple again and again, I will not tolerate it!" Great Elder spoke coldly.

"You..." Wang Da was originally furious. His own grandson was killed right before his eyes, how could he tolerate this? However, when he saw Great Elder's murderous appearance, he was intimidated, momentarily unable to roar back.

"We're leaving!" Great Elder said. He brought Shi Hao with him, and then with a swing of his great sleeve, he brought away that decree.

It was because Wang Family's present family lord already finished writing it just now.

Soon afterwards, Great Elder left Wang Family, disappearing from the long life ancient land.

"Meng Tianzheng, you old thing, I am not finished with you!" Wang Da roared. He was angered to the extreme. Today's experiences left him just too sullen.

Great Elder brought Shi Hao into the distance. Along the way, he already tossed the decree into a great sect that was attached to Heavenly Deity Institution.

As a result, the contents of this decree was spread throughout Immeasurable Heaven at astonishing speed the same day, everyone learning of it.

"What? Wang Family acted weakly, lowering their heads just like that, exchanging weapons of war for gifts of jade and silk?"

Many people didn't dare believe what they were seeing, but reality was right before their eyes.

Furthermore, many people verified this through some important channels, in the end discovering with alarm that Great Elder personally visited Wang Family, even fighting against Immortal Wang.

This triggered sky shocking waves, not just limited to Immeasurable Heaven, but even extending to other territories.

At the very least, a few long life families in the Nine Heavens Ten Earths all learned about this, a few ancient sects understanding what happened. Huang was Great Elder's disciple, not someone who could be bullied.

This was an extremely major event. Meng Zhengtian, for the sake of a youth, visited a long life family, not hesitating to fight a battle, issuing an extremely terrifying message.

"This youth cannot be touched. It seems like Meng Tianzheng has entrusted too much hope onto him. Right now, anyone who touches him will die!"

"This matter is a warning, that youngster named Huang cannot be looked down on, even more so cannot be provoked. Otherwise, Meng Tianzheng will act out."

These were the conversations a few important individuals in long life families were having. One could see just how great the effects of this matter was!

In the nine heavens above, a few ancient sects were all warning their clansmen not to act recklessly.

While a great storm was sweeping through all lands, an even greater disturbance erupted. However, the various powerful clans of the Nine Heavens Ten Earths still weren't aware of it.

At the borders of the foreign region, the place adjacent to the other shore, a great barrier that had remained sealed for who knew how long cracked. Then, it suddenly released a great noise, breaking apart!

Chapter 1325 - Desolate Border Emergency

Wang Family's decree was passed around, shaking up all sides!

Only, this time, it was different from before, it wasn't a display of Wang Family's might.

Great Elder's battle against Immortal Wang was world shocking!

Huang's name was even more so transmitted to every clan, drawing the attention of all different sides, strictly warning their disciples not to provoke him.

The effects of this battle could clearly be seen. The various great families all said they wouldn't act against Shi Hao, all of them seeing what kind of attitude Great Elder had towards this situation, knowing that he wouldn't tolerate any provocation.

"This really is..." Cao Yusheng was stupefied. When he received the news, he was dumbstruck, a bit doubtful of whether this was real or fake.

It was because the disturbance that was created this time was too great. For the sake of Huang, Great Elder actually fought against a long life family, putting on a great display, not hesitating to fight a great decisive battle.

Many youngsters wiped at their cold sweat. They felt both envy and jealousy. Heavenly Deity Institution's number one expert, one of the Nine Heavens Ten Earths most powerful experts, Meng Tianzheng, expressed his stance, protecting his disciple. Who dared provoke him?

With this type of master, one could walk unhindered through the Nine Heavens Ten Earths.

"Wang Family deserved it, this is how things should be. They think they are the overlords of the Nine Heavens Ten Earths, that they can casually decide the lives and deaths of others? This time, Great Elder has taken them down a notch, it really is a joyous thing!" A few people commented.

Many people from Heavenly Deity Institution were excited.

The exploration of the underground immortal cave came to an end, those young experts all coming out, including Purple Sun Heavenly Monarch, Great Xu Tuo, Lan Xian, Qi Gu, and others.

When Wang Xi heard everyone's discussions, her expression changed slightly. She really wanted to immediately leave.

Comparatively, Princess Yao Yue was extremely happy to see the family she opposed suffer. There was nothing that made happier than this, because the two were old enemies.

Princess Yao Yue's father was Xu Mingxuan. This time, the Xu Family lent out the immortal ancient war banner to Great Elder, clearly a type of alliance, can be considered to be advancing and retreating together. Great Elder barged into Wang Family's ancestral land with the power of the corpse wrapping cloth, displaying the power of Xu Family's supreme treasure, this could also be considered helping them act against their old enemy.

"Fairy Wang Xi, there is no need for you to worry. With how stunning Immortal Wang old ancestor is, known to be an immortal core, he shouldn't have been defeated this time." Someone consoled Wang Xi.

Quite a few people from Sacred Academy surrounded over, expressing that Jin Zhan is about to come out of seclusion, walk out from Sacred Academy. When that time comes, he might fight a decisive battle against Huang.

Jin Zhan was known to be the pride of heaven of this generation, a legend. No one could estimate his depths, in the present world methods path, he exceeded all those before him.

Only, no matter how the others consoled, everyone's minds still felt a bit heavy, because Shi Hao used the body as the seed, surpassing all predecessors. He was the only one who succeeded, this type of natural talent was too terrifying.

"Huang cultivates the ancient method, Senior Brother Jin Zhan cultivates the present world techniques. As for who is stronger and who is weaker, we will know after this battle."

"Moreover, I heard that he had only just taken that step, still needing time to further fumble about. Even among the young supreme beings, he might not necessarily be able to rank in the top three." A few people said. Sacred Academy's people all attached great importance to Jin Zhan.

"Why don't we arrange a date for them to have a showdown? I'll help you all contact Huang, while you all invite Jin Zhan?" Princess Yao Yue said while giggling.

Sacred Academy's people immediately looked over.

In the distance, Purple Sun Heavenly Monarch was silent. He was previously the focal point of everyone's attention, known to be one of this generation's most powerful experts, yet after his battle against Huang, suffering a great defeat, he lost the qualifications to aim for the number one spot.

Great Xu Tuo, Qi Gu, and the others were still better off. Even though they did trade moves, they couldn't be said to have fought a decisive battle against Shi Hao.

"What time is it already? You all are still noisy chatting about these things. All of you should just focus on increasing your own cultivation, the creatures of the other side might cross over at any time." An elder from Immortal Academy scolded.

Right at this time, heavenly winds swept about, Great Elder brought Shi Hao back.

In reality, the two of them should have returned two days ago, but they picked a few divine medicines along the way for the sake of refining the Purple Manor Herb. It needed many types of old medicines as supplementary ingredients.

Unfortunately, they still weren't able to gather everything. There were some divine medicines that were too rare, not even someone as powerful as Great Elder could find any traces of them after going into various dangerous areas. **noVe/lb-1n**

However, there was no rush. Purple Manor Herb could strengthen one's primordial spirit, and it was effective no matter when it was taken. It hadn't been long since Shi Hao came out of seclusion, only recently breaking through, so there was no need to immediately advance. This could be set aside for later.

"Great Elder!" Many people cried out, walking up to pay their respects.

Shi Hao was also surrounded. The Lunar Jade Rabbit, Chang Gongyan, Feng Wu, and the others were all extremely happy. This time, Shi Hao definitely barely averted dangers, no one daring to harm him any longer.

“Hey, hey, hey, all of you, be careful! Stop patting his shoulder! With this king here, all of you should cease your impudence!” The golden little ant on Shi Hao’s shoulder cried out in discontent, avoiding those large hands.

Shi Hao laughed. The commotion that was raised this time really was a bit big. He felt gratefulness towards Great Elder from the bottom of his heart.

Right now, his mind wasn’t that calm, because he mentioned a few questions. With Immortal Wang’s matchless strength, why would he still compromise like this?

One had to understand that Great Elder’s battle ended in a draw, not being defeated, worthy of his reputation as a peerless expert.

At that time, Great Elder’s expression was serious. With a light sigh, he had said that it was because Immortal Wang was too sharp, noticing something, wishing to avoid being caught up in a storm because of this matter.

This battle perhaps gave Immortal Wang an excuse to temporarily enter seclusion. He wasn’t going to come out again.

That was why on the return path, Shi Hao always felt a bit uneasy. Regardless of whether it was Great Elder or Immortal Wang, they were both matchless experts of the present world, their intuition definitely ridiculously terrifying, yet there was actually this type of reaction.

“Wu, since everyone is now here, shall we discuss where we should build the foundation of the three academies’ joint immortal land?” An old man from Sacred Academy said.

This wasn’t a sudden decision, it had been mentioned beforehand already. Immortal Academy, Sacred Academy, Heavenly Deity Institution were going to join together to allow their disciples to interact, exchange pointers, to spur them on in becoming even stronger.

Of course, the main reason was because they discovered a few immortal family dao rites that had now been dug out. The resources inside could be used to nurture the three academies’ disciples.

Previously, Great Elder wasn’t here, bringing Shi Hao way. Now that he returned, as an important figure, they obviously had to ask him for his opinion.

That was why this time, quite a few elders personally arrived.

Apart from this, these people also wanted to ask about the details regarding Great Elder’s battle against Immortal Wang, after all, this was just too shocking. Many people were shocked and curious.

“The ancient lands are all extremely heaven defying, all of them the caves of true immortals. If they are all excavated, and then moved to one area, it would produce an unimaginable precious land.” An elder said.

“Your intention is to move away those caves and combine them? The difficulty of this is just too great, after all, it is the cave of a true immortal, so there will be all types of terrifying formation patterns.” Someone frowned.

Everyone discussed things among themselves, trying to decide what they were going to do, where exactly they were going to establish the institution.

Right at this time, a shocking wave of fluctuations emerged between heaven and earth. The void exploded, a tattered warship rushing out, carrying bloody mist and terrifying fiendish energy.

“Who dares trespass into Heavenly Deity Institution?” An elder shouted.

Great Elder moved his hand, not letting him shout out. His expression was incredibly serious as he stared at this bronze warship.

At this moment, everyone was shocked. They looked into the sky, all of them staring at the blood covered metal ship.

What happened? Why did this ship that was half broken charge into this place? There were drops of blood that continuously dripped down from this surface.

“It came from the border!” Great Elder’s expression was grave. When he spoke these words, everyone here immediately felt a wave of coldness.

This ship’s style was unique to the border area. In addition, there was a clear war banner imprint on its surface, carved into the ship. It was an iron blood war banner, a flag dripping with blood!

No clans were allowed to use this symbol when moving through the Nine Heavens Ten Earths, only allowed to do so on the border.

After the bronze warship rushed out, there was no more activity. It became extremely still, without any sound.

Chi!

Great Elder rushed into the air, quickly flying over. The other elders also hurriedly followed.

“Wake up!” Great Elder climbed onto the boat, immediately noticing an unconscious middle-aged man with only half his body left, dripping with blood.

Great Elder helped him replenish a bit of divine force, moreover stimulating his body, slowly waking him.

“Things are bad... the impregnable pass has collapsed, powerful individuals from the other side have appeared!” The middle-aged man shouted. Even though he was extremely weak, his voice was still extremely loud, resounding through the sky dome.

“What?!”

At this moment, countless cries of alarm sounded. Then, everyone felt their scalps go numb, chills run down their backs. These words were too shocking, this place immediately erupting with noise.

This was world-shocking information!

Perhaps it could be immediately called grievous news!

There was nothing more terrible than this. The situation at the order has changed, what everyone was most worried about happened.

Everyone knew that the day would come when the creatures of the other side would appear, slaughtering their way into this world again. When that time came, the world would be in chaos, blood flowing like seas, bones endless.

When that day truly arrived, it would definitely be a dark time that signaled blood and bones. The world would no longer be peaceful.

Who would have expected that this day would come today? It was just that sudden, difficult to accept.

Everyone's minds went cold. They still didn't finish their preparations, yet the creatures of the other side were already going to slaughter their way over!

Many people trembled inwardly. Perhaps... the most terrifying times had now begun!

Chapter 1326 - State of Despair

The most terrifying age of the history has arrived!

When they thought of these astonishing changes, everyone shivered inwardly, everyone's minds sunken like an abyss. The great battle... came just like that, so sudden no one was able to make proper mental preparations.

Pertaining to the other side, those terrifying opponents' cruelty and mercilessness, there were just too many legends. It represented the underworld, a land of distress!

Moreover, based on previous speculations, the great disaster of this era was going to exceed the past, overturn the entire universe. They were going to enter the darkest age.

"This is just too sudden! Why is the chaos happening just like this? I still haven't even prepared myself for it!" A youngster cried out.

Many people shivered inwardly. Who here finished their preparations? Almost no one did! They were all hoping for that time to arrive later, the later the better!

Even Great Elder, Sacred Academy's living fossil, and Immortal Academy's old man's expressions changed greatly, these individuals also extremely shocked, clearly stunned by this information.

It was because these people had previously joined hands to analyze the impending disaster, believing that the age of darkness wouldn't arrive this early, at the very least still a few thousand years of time left.

"This is just too fast, how were they able to break past? The impregnable pass is sturdy and unbreaking, forged from immortal dao flesh and blood. There should be no chance of it breaking apart!" Someone said quietly, finding this hard to believe even now.

"Wake up, don't remain muddle-headed anymore! Tell us about all of the details!" Great Elder pointed at the space between the middle-aged man's brows, helping him treat his injuries through magical force.

The middle-aged man's injuries were too serious, just like the bronze warship, losing half his body. Regardless of whether it was the flight magical artifact or his body, they both suffered serious damage.

Moreover, his primordial spirit also cracked apart.

"Senior Meng, it was just too cruel, the border has turned into hell. It is unknown just how many people died, countless souls howling, so miserable one cannot bear to watch!" Tears flowed down from the middle-aged man's eyes.

He was truly overwhelmed with grief. His brothers, his loved ones, his friends, many people he was familiar with were instantly killed, unable to even retaliate in the slightest.

When they heard what he said, many people's fine hairs stood on end. The foreign attackers were too fierce, the experts who took action were simply unimaginable, immediately breaking down the impregnable pass.

In that instant, many people were buried on the spot in the ruins, flesh, blood, and city collapsing together, forming a bloody paste. It was a spectacle too horrible to endure!

"You said that you came from Great Scarlet Sky" Great Elder frowned. He still didn't lose his cool, continuing to maintain his calmness.

"Correct, Great Scarlet Sky, the ancient land known to be sturdy and unbreakable, has suffered a never before seen disaster. The situation is terrible, that place becoming a realm of ghosts!" The middle-aged man's body was dripping with blood, in grief and indignation.

Right now, an elder from Immortal Academy produced a purple-gold divine pill, having him eat it. The middle-aged man's surroundings shone, divine force surging.

Then, the bones within his body continuously released ka ka sounds, flesh and blood wriggling about. The lower half of his body began to grow at a visible rate.

It was clear that this was a divine pill, one that allowed him to recover in the shortest amount of time!

"Many thanks to senior!" The middle-aged man expressed his thanks. With his cultivation, there was no way he would become crippled because of this either, after a period of time for rest, he could regenerate his broken limbs.

Right now, he was only experiencing extreme exhaustion and grief.

"Wasn't Great Scarlet Sky forged from the bones of immortals? That path should be impossible to open, so how could it have broken down?"

The elders all frowned, their expressions overcast. If this turned out to be true, then the situation would be extremely bad.

In their eyes, if the creatures of the other shore really did slaughter their way over, they would come through the three thousand provinces' Desolate Border, because that was the place where it was most unstable.

After endless years, it was unknown just how many of the most powerful experts went there to guard that ancient city.

In the Nine Heavens Ten Earths, only the three thousand provinces' Desolate Border wasn't so sturdy. After endless years passed, even though those of the other side were never able to invade over, they still brought great troubles to this side.

That was why the formidable individuals generation after generation, when they didn't have much of their lifespans left, they would head there to use up the last of their strength, igniting themselves with their world-shocking cultivations to carry out the final battle of their lives.

"If Great Scarlet Sky has displayed changes, then things would become much more troublesome. This means that the other passages are likely not safe either, because they are similar level ancient passes." Great Elder released a light sigh. nove(1B-1n

How could it be like this? The peace of so many generations came to an end just like that, blood and flames about to burn the great earth.

"Hurry and request for the Ancestral Dragon Horn, quickly blow it, order the great clans of the nine heavens above to all come and offer assistance to Great Scarlet Sky!" Great Elder quickly gave the order, because the situation was dire.

Everyone trembled, their souls shaking. Just now, they were listening to the middle-aged man's recounting of events, and now, they were truly going to enter war.

Even though they knew a long time ago that this would happen, when things truly arrived, when they thought about the different possibilities that could happen, every person here couldn't help but feel their heart pound, their fists clenched. There were some who felt fear, their bodies trembling.

These weren't just words, they really were going to have to stake it all with their lives. Their fathers, brothers, even themselves might quickly become blood that dyes the battlefield, might die!

"Tell us everything you know. Why did Great Scarlet Sky break open? What kind of signs were there before?!" An old man from Sacred Academy said with a sunken voice.

"At that time, there weren't any abnormalities in that ancient city. It was shrouded in immortal mist, the city should still be sturdy. However, early in the morning, when the sun's fist strand of golden multicolored brilliance scattered down, the city suddenly released ka ka sounds, and then it cracked apart, in the end exploding to pieces!"

The middle-aged man carefully described the terrifying scenes of what happened, making many people feel nervous, as if they themselves were there.

When the imperishable ancient city built from the flesh and blood of the ancient people collapsed, many people saw a terrifying 'pot' that tore apart everything, not even the city that was made from the bones of immortals enough to withstand this power.

When he heard up to here, Shi Hao's expression immediately changed. He thought of something, and then looked at the Heavenly Horned Ant on his shoulder.

"Could it be... The Immortal Smelting Pot?" The golden little ant couldn't help but tremble.

Not long ago, they had previously seen a pot before Imperishable Peak, roaring through the mountains and rivers, absorbing the essence blood of the most powerful beings, terrifying to the extreme.

Those were the imprints left behind from Immortal Ancient's last phase!

It was rumored that this pot was forged precisely to refine true immortals to death, its vicious might matchless.

Meanwhile, it originally belonged to an unimaginable existence on the other shore. However, the only comforting thing was that this person had lived for too long, already passing away.

For some reason, in the great battle of the last great era, the Immortal Smelting Pot didn't appear. Someone had said that the pot was buried along with that person.

Only, Shi Hao and the Heavenly Horned Ant didn't believe this. Ever since they went to Imperishable Peak, they learned a few truths. After the last great era ended, He Wushuang had previously brought this pot to that battlefield to collect essence blood.

"Wuwu..." A heavy and oppressed bugle horn sounded, cutting short Shi Hao's thoughts.

This bugle sound echoed through this place like muffled thunder, resounding through Immeasurable Heaven. Then, it passed through the realm wall, spreading throughout the Nine Heavens Ten earths.

This was refined from the horn of a True Dragon. After being used by endless powerful individuals, this horn had long developed spirituality, becoming unimaginable, the sound continuous and drawn-out, able to pass through realm walls, summon the most powerful families.

They couldn't waste any time, they had to immediately contact all of the great clans, have them prepare for war!

The Dragon Horn normally wouldn't be blown, and in reality, it had only been used once or twice in all of history. Only when a terrifying event that endangered the Nine Heavens Ten Earths happened would it be used!

When this bugle horn sounded, it meant that the age of darkness had arrived!

The horn of a True Dragon was a precious treasure hard to find in this world to begin with. After it was refined into a bugle horn, one could well imagine its power. However, this bugle horn's sound didn't injure the soul, even though it resounded through heaven and earth, it didn't make one's blood energy surge, there was no danger of self-explosion.

The moment the bugle horn sounded, many elders felt great respect. There were some youngsters who sensed a great bleak feeling, hot blood surging, wishing they could immediately throw themselves into the great battle. There were others whose faces were pale white, filled with fear, their bodies shaking.

"The impregnable pass has broken down, ninety percent of those guarding it have died miserably, that heavenly might too hard to resist..." The middle-aged man continued.

After the Immortal Smelting Pot appeared, it broke down everything. All cultivators inside the impregnable pass were crushed into a bloody paste without any suspense, only a strand of innate essence blood was sucked clean by the pot's mouth.

This was an extremely terrifying scene, leaving everyone shocked. Who could resist this type of demonic might?

The only thing that left them confused was that the Immortal Smelting Pot floated above the ruins, not completely rushing over, and in the end, it withdrew again, returning to the other side of the realm wall.

However, the scene that followed was still terrifying. A large black hand reached out from that passage, rushing out from the ruins, surrounding the border region, crushing all life.

Regardless of whether they were male, female, old, young, whether their cultivations were profound, everything turned into a bloody paste under that claw. The ones who weren't in the city also died, everyone wiped out.

This was a devastating blow, cruel and ruthless!

"Moreover, that seemed to be a type of sacrificial ceremony, using the blood of our side's creatures to open up the sturdy passage!" The middle-aged man's teeth were clenched, his eyes even becoming red. It was because his loved ones, his friends, all died inside.

They didn't die in battle, but had their lives reaped, obliterated. Humiliation and grief filled his mind.

"Everyone died. In Great Scarlet Sky's border, even the children who were only a few years old died under that claw, dead but eyes still open! I can't accept this!" The middle-aged man roared. Even his great-great-grandchildren died miserably, rage filling his heart, a mouthful of blood spraying out.

Back then, he was extremely far away. When he ran over frantically, the powerful winds stirred by the great hand brushed his body from the distance, completely destroying half the ship and his body!

When everyone heard up to here, they all felt a chill run from head to toe. This person was extremely strong, almost half a step into becoming a supreme being, yet he still almost died there without any strength to resist.

Just the astral winds that swept over from the distance were already this terrifying, if the enemy's large hand really crushed down, who could resist that type of power?

Everyone became quiet, finding it hard to speak. They really were alarmed.

According to what the middle-aged man said, the Nine Heavens Ten Earths were most likely going to be finished soon. It was because no one could stop that type of power!

Many of them suspected that this was most likely an undying individual who took action, someone who truly lived from the ancient past until now that came over. Who in this realm could face this kind of person? There were no creatures like that in this world!

"He didn't pursue you?" A living fossil level elder from Immortal Academy asked.

"I do not know why, but that large hand withdrew, not truly crossing over." The middle-aged man's eyes were full of hot tears. When he thought of his loved ones who all died, he really wanted to go crazy.

It was precisely because he knew that the difference between himself and that large hand, as well as the Immortal Smelting Pot was too great that he didn't throw away his life, instead immediately hurrying over to deliver the news.

Unfortunately, there were realm walls between the Nine Heavens Ten Earths, the formation platform was crushed and destroyed by that large hand, so it took him a long time to break through the realm walls and arrive.

"Are you all scared? Do you feel fear?" Great Elder spoke, looking towards everyone.

Right now, there was no way everyone wasn't alarmed and flustered. There were no long life beings in the present world, no true immortals, so what were they supposed to bring out to face the undying, to face those people who remained imperishable throughout endless time?

It was completely like a mantis trying to stop a chariot, a situation of inevitable death. There wasn't the slightest trace of hope!

Right now, many people became quiet, feeling like even the skies became dark. Everyone was full of despair, unable to see a path of life!

"Let me tell all of you, do not feel fear, do not be scared. No matter how powerful those of the other side are, they will still be forced back by us!" Great Elder shouted.

"Do you all know, when they slaughtered their way into this world, why they backed off? It is because there is a power that exists!" Great Elder roared. "This era does not need to feel despair, because they will still be forced back again. They will not be able to set their footing in this world!"

He was stirring up everyone's confidence, couldn't allow them to panic and lose confidence.

"Wuwu..." The True Dragon Bugle Horn sounded, echoing through this place, shaking up the mountains and rivers, making everyone's minds surge greatly.

It was because the bugle horn's sound became resounding, impassioned, stirring up everyone's fighting spirits!

Chapter 1327 - Summoning Warriors

A True Dragon's horn was polished into a bugle horn, the sound ringing able to ring throughout the ages, stirring up everyone's courage and fighting spirit. Everyone felt their bodies shaken up, as if they were becoming stronger!

"There is nothing to be scared of, at worst, we will just die. Could it be that the creatures of the other side won't die? We'll exchange lives for lives, blood for blood, fight them to the end!"

"Bullying our side again and again, do they think that there is no one here? Invading unbridledly, slaughtering all under the sky, do they really think that we are pigs? We are going to stake it all against them, fight to the death!"

...

Many great roars sounded, some people clenching their fists, their head of hair flying about, the corners of their eyes about to crack apart.

“Great Elder, please tell us more clearly, what kind of power does our world have that was able to force back the terrifying creatures of the other shore back then? They are ridiculously powerful with undying existences, while the true immortals of this side have already been killed in battle!”

There were people who were still doubtful, speaking up like this, asking Great Elder to speak about the secrets of the past.

In reality, this was something that everyone knew about. Back then, even though the foreign side achieved a great victory, killing all of the most powerful creatures of this world, even the powerful Vicious Ten’s Heavenly Horned Ant, True Dragon, Kun Peng, and others were defeated, all of them dying. Even Immortal King Without End and Reincarnation Immortal King’s blood was shed, giving up their lives on the battlefield.

How miserable were things back then? The most powerful group of people were all killed in battle, blood dyeing the borderland.

However, in the end, the creatures of the other shore didn’t stay here for a long time. After staying here for a period of time, for some reason, they quietly backed up.

This was something that had left everyone confused for a long time, unable to understand why this happened. It had remained a controversial topic for a long time.

Great Elder looked at everyone. He rose up, his long sleeves fluttering about. “The world is one of balance, all power comes with conditions, let alone those vicious people from the other side. In the end, they will be defeated. As for what kind of experts it will be who take action, you all will know when the time comes. You all do not need to worry!”

“The creatures of the other side will be defeated in the end!” Sacred Academy’s elder also cried out.

Then, everyone was inspired, losing their flusteredness, also shouting out, battle intent clearly surging.

Shi Hao’s pupils contracted, because he was close to Great Elder, also understanding him. He saw that when he spoke these words, the corners of his lips trembled slightly, clearly a bit forced. **novel**(**IB-1n**

When he saw this scene, Shi Hao’s mind immediately sunk. Great Elder spoke these words to stir up everyone’s confidence. The truth itself might not be that perfect.

Shi Hao was inwardly shaken. He remained silent for a long time, feeling as if he was suffocating, as if there was a great pressure.

One had to understand that in Immortal Ancient’s last phase, even when the most powerful individuals of this world were killed in battle, there was still no one else that took action. There was no one who interfered with the creatures of the other side.

Comparatively speaking, even if there was someone who ultimately took action, they waited until this world became silent, and only then did they deal with those of the other side.

At that time, what meaning would there be left? The world was already covered in skeletal remains, everyone in this world killed in battle, not many individuals left. It was already equivalent to a purge of the world!

Just how cruel of a reality was this? However, those existences who had the ability to interfere, why didn't they act sooner?

There were definitely secrets that were hidden, the truth perhaps bloody, extremely terrifying. That was why Great Elder didn't speak about it too clearly, only talking about half of it, saying these things just so that everyone wouldn't feel fear.

"History's darkest age!" This line appeared in Shi Hao's mind. This was a prediction, as well as a type of reveal, perhaps something that spoke about the entirety of the situation.

In the future, perhaps there was something even more frightening than what everyone has imagined, exceeding the tragedy of Immortal Ancient, the bones that piled up like mountains, blood that contaminated the rivers. Just what kind of dismal scene would there be?

One that exceeded generations, making everyone feel utter despair. The most terrifying chaos was about to unfold!

Shi Hao thought of many things. Those existences who could interfere with this world's great battle, were they allies, or were they enemies? It was hard to say!

If they were enemies, then that was terrible to the extreme, far more frightening than what they imagined.

Could it be that the so-called history's darkest age was precisely because of this? This involved just too much.

Just what kind of creatures were they exactly? Shi Hao more or less had some suspicions, because three years ago when he was informed about the experiences of another, it truly moved him, bringing him great enlightenment.

Wu...

Whistling sounds could be heard from above. A white bone warship that was incomparably large quickly arrived, closing in on Heavenly Deity Institution.

"Who?"

"White Bone Mountain's Clan Lord has led all of the clan's greatest experts here, making an appearance for the Ancestral Dragon Bugle Horn!" Someone gave a reply, voice extremely resounding.

An extremely powerful clan came. White Bone Mountain was a secret land that was difficult for outsiders to enter. White bones covered that place, someone saying that the creatures there were all formed from bone spirits.

Chi!

A meteorite rushed over from outer space. A long tail of light was dragged behind it, the falling star possessing sky shocking might, appearing above Heavenly Deity Institution.

This was a warship, just that it was refined from a star. When it stabilized, it looked simple and ancient, the gray stone body sturdy and rigid.

“Solemn Orchid Clan’s experts have all arrived!” A great clan had arrived.

Hu... Great winds roared. A large purple-colored ship moved over, passing through the realm wall. Its size was incomparably massive, far larger than a star as it floated in the heavenly dome.

“That is... long life imperial court’s Xu Family’s people have come!” Someone said with a low cry. This was Princess Yao Yue’s clan! The edge of the ship was full of elders dressed in the same color, several thousand people in total, every one of their blood energies overflowing, powerful to the extreme.

“The old ancestors all came?!” Princess Yao Yue cried out in alarm.

Then, flight magical artifacts appeared one after another, long life families hurrying over in succession. This was definitely the most top level fighting strength, the scene shocking to the extreme.

With the great disaster here, the clans all moved out their forces. It was because if Great Scarlet Sky was broken through, which clan could escape disaster?

Soon afterwards, warships filled the skies. There were just too many powerful clans in the Nine Heavens above. When they heard the True Dragon Bugle Horn sound, they were all shaken up, stopping everything and quickly gathering all their experts, hurrying over.

“Go, we will immediately hurry to Great Scarlet Sky, there is no time to waste. Have those who come afterwards head straight to Great Scarlet Sky, we will set off first!” Great Elder shouted.

Time was too pressing. Unforeseen events have taken place in Great Scarlet Sky, now no one knowing what things are like. Perhaps... it had already completely fallen into enemy hands!

However, regardless of what happened, everyone had to hurry over. If they had to face a great war, then they had to do it, if they had to strengthen the border and set up another line of defense, then they would do just that. Either way, time was pressing.

“Great Elder, I want to go as well!” Shi Hao said. He wanted to go there and take a look.

“What can an infant like you do there? You cannot accomplish anything in this type of battle. Stay behind!” An elder from Immortal Academy berated.

“What is the use in me staying behind? Will I have time to grow? With the darkest times of history here, what time is there left to cultivate?” Shi Hao said.

He felt extremely helpless. This battle came too early, not giving him any time to grow up.

Right now, the other young supreme beings were all extremely regretful. None of them had truly risen up, yet this type of great event already happened.

“All of you better obediently go back and cultivate. Right now, it is still not your turn. The great war might persist for many years. When we’ve all fallen in battle, or the elders died in meditation, it won’t be too late for you all to come out!” An elder from Sacred Academy roared.

The youngsters were all moved, but they were also filled with a feeling of powerlessness, hating the fact that they were born at the wrong time, that they still didn’t reach the peak of their lives!

“We are known as geniuses for nothing, powerless to kill the enemy, good-for-nothing!” A young supreme being released a long sigh. The timing was too terrible, they didn’t even stand at the peak of this world yet.

“What are you all in such a rush for? The time will come for all of you to take action!” Great Elder spoke. He looked towards all of the youngsters and said, “Did you think that us old folks entrusted all of our hopes onto yourselves? Let me tell you right now, there are geniuses in every generation! Many stunning figures of history are still alive, still healthy. You all do not need to worry, all of you go into seclusion, wait until you’ve risen up!”

Great Elder was shouting as he spoke this. He leaked out a piece of extremely shocking information to appease everyone, to stop them from panicking!

Geniuses rose up from every generation, all of them dominating hundreds of thousands of years!

This was a portrayal of the changes to the world of cultivation. In this world, there were many geniuses who appeared, some returning to being ordinary, some aging, some whose whereabouts were unknown.

After hearing Great Elder’s words, everyone was shaken up. Those geniuses have always advanced forward, never being cut short, the past young supreme beings already grown up, so it was time for these people to set out.

This type of information was enough to shock many people!

“Wait for us to take action. You all should just cultivate at ease!”

Right at this time, on a few giant warships, a few creatures appeared, ranging from middle-aged to elders, their ages extremely great!

“Right now, watch us take action, let us old supreme beings face them. All of you should focus on breaking through, not think about anything else!” These people shouted loudly, voices shaking heaven and earth.

A few young experts’ eyes turned sour, and then hot tears surged.

Those were all the Pride of Heaven that disappeared! However now, they stepped forward bravely, wishing to participate in the battle. Meanwhile, this separation might be eternal, they might be killed in battle in Great Scarlet Sky!

“We wish to take a look from the distance!” Right at this time, Lan Xian, Princess Yao Yue, and others spoke up. This was a group of young ladies, all peerless geniuses, but now, their eyes carried tears.

Women would always be a bit more gentle than men. They knew that once these past young supreme beings, now elders, went, most of their blood would dye the battlefield, never able to return again.

“That is fine as well, bring them along, let them see what the foreign creatures are really like, how cruel the great battle will be. They will see how their seniors fought, and then take revenge for us in the future!”

Right at this time, an elder from Immortal Academy nodded his head in agreement, but he required complete preparations, that they can open a great formation to send the younger generation back at any time.

“Set sail!” Great Elder roared.

Under the True Dragon Bugle Horn’s sound, great ships moved out one after another!

Chapter 1328 - Great Scarlet Sky

Warships were like clouds, covering the sky!

There were thousands to tens of thousands of great ships, their sizes ranging from mountains to stars, of all different sizes, close and numerous, completely covering the sky dome. No sun could be seen, as if a dark night had descended.

Under the sounds of the True Dragon Bugle Horn, all of the ships moved out together through the skies, as if celestial troops and generals sent to battle together, shaking up the sun, moon, rivers, and mountains, the entire world trembling as a result!

In the depths of Heavenly Deity Institution, there was a giant stone platform that had endless symbols engraved on it, resplendent light released from it. A vast tunnel was opened up, as if it was a great passage leading into the great cosmos.

Hu...

Crazy winds swept about, heaven and earth breaking apart. Many warships roared by, rushing towards that wide tunnel together, heading toward Great Scarlet Sky.

This was already not a spatial gate of normal meaning, because it was just too large, as if the stellar dome caved in, causing time to warp. It was extremely shocking.

In order to head into Great Scarlet Sky, they had to cross over a realm wall. Heavenly Deity Institution had this type of altar, able to open up a ‘sky path’, allowing them to smoothly move between the Nine Heavens Ten Earths.

Otherwise, if one really wanted to head to Great Scarlet Sky by relying on their own strength, there weren’t many people who could do so in this world. The amount of time needed to do so would also be tremendous.

“Kill! Stop the vicious creatures of the other side!”

Someone shouted, waves of killing intent rising. Then, an ancient ship shone, clouds of light rushing out, battle intent overflowing!

“Kill! Stop the enemies’ advance, guard our mountains and rivers, defend our territory, protect our wives, children, and elders!”

Warships rushed up one after another, releasing dazzling light, rushing into the passage.

Shi Hao and the others were silent, quietly watching everything. There were a few young ladies whose eyes were moist, also ascending this ship, wishing to see their seniors kill their enemies.

Everyone knew that if they truly encountered the creatures of the other shore, many people were going to die. They would have to pay an unimaginably terrifying price.

“We’re going!” Sacred Academy’s elder leapt out, directly entering that boundless passage, not moving together with the warship, instead moving on his own.

There were warships everywhere, all of them quickly moving. Once they passed this passage, it would mean that they entered Great Scarlet Sky. A world shocking great battle would break out.

Shi Hao and the others’ ship was extremely sturdy, the ship a faint red color, flickering with scarlet multi-colored light. It was because there was quite a bit of the unmatched treasure Scarlet Blood Immortal Gold mixed within, known as an immortal dao material.

This was a long life family’s precious ship, even though it wasn’t that large, far from being comparable to those starships or great warships, it was sturdy and unbreaking, enough for carrying several thousand people. Aside from a few elders whose strength were immeasurably deep, they were all young geniuses.

There was no need to question the worth of this ship. It could tear through the great cosmos, quickly change directions, and even more so block the most powerful attacks.

This was a great treasure, one rarely seen in this world!

Its use was precisely to protect the young geniuses, allow them to watch the battlefield from the distance. When needed, it could bring them away from the dangerous situation at any time.

This warship flickering with scarlet multicolored light was the last to enter the passage, all of this for the sake of the younger generation’s safety.

Hong!

Finally, all of the warships moved through the spatial passage, entering another world. Dense spiritual essence immediately surged, engulfing all of the ships.

Great Scarlet Sky!

They arrived! Everyone entered this ancient land that was known to be one of the Nine Heavens!

There were many legends tied to this place, full of mysteries and brilliance.

However, all of this was no longer important right now. What was more pressing than the foreign invasion. This was tied to the safety and fates of all clans, it could easily result in the annihilation of this entire world.

“The Primordial Ancient World had previously been divided up into many areas, the Nine Heavens Ten Earths all a part of the former ancient land. Later on, Immortal Ancient’s last phase battle broke it apart, some ancient realms forever disappearing, only these parts of the Nine Heavens Ten Earths remaining.” Great Elder said.

Then, he raised his voice, shaking up all of the warship. “Great Scarlet Sky was previously called Hate Parting Heaven, so even without me saying too much, you all should understand just how many eternal regrets this place carries!”

Everyone was shaken up. This was indeed the case, the people of the last great era slaughtered until blood flowed like rivers, corpses piled like mountains, resentment too great, difficult to resolve the regrets of the past.

“Great Scarlet Sky, also called Hate Parting Heaven, this was what was recorded in ancient history. It is because the true immortals carried hatred. Their skeletons were piled up together, hatred and regrets too hard to disperse. Those of later generations piled up their bones into an impregnable pass to protect this realm, block up that great world crack.” An elder from Sacred Academy said.

Great Scarlet Sky was extremely vast. When they entered this place, everyone saw endless mountains and rivers go by. Their speed was too fast, directly entering the bordering ancient land.

“True immortals have been killed in battle, the most powerful group of people of the last great era wiped out. This is already extremely lamentable and regrettable, yet today, even the city made from their bones was broken through! This is a type of humiliation, our world’s great hatred. We must stop them!” Immortal Academy’s elders roared.

The ones who set out were the present world’s most powerful clans, the ones who came all experts, the warships naturally astonishing, speed inconceivably fast, moving like mirages.

The borders were extremely far, but under the speed of these divine ships, they still quickly closed the distance.

Right now, everyone was nervous, because they were approaching the battlefield.

“We are here. Be careful!”

“Prepare for battle. All ancient ships, start up the great attack formations!”

Ancient ships shone one after another, divine force surging, all types of symbols representing their clans’ most powerful symbols lit up, about to carry out a great decisive battle.

Great Scarlet Sky’s border was right before them.

This was a mysterious ancient land. Stars floated in the sky one after another, extremely close, as if they were just above their heads. Chaotic energy surrounded them.

It could be said that this was the end of the world, the edge of this realm.

Later on, they saw a few stars were right in their path. There were a few stars that fell down onto the endless great earth.

En?

Many people cried out in shock, because quite a few people came to this type of place for the first time. They had never seen this type of scenery before in their lives.

There were a few giant mountains below, as well as a few great peaks that towered into the clouds. Their mountainous surface still had a few stars that weren't too large hanging from them.

It was to the extent where a few massive ancient peaks were surrounded by chaotic energy, suns laying in disarray above.

This place was just like the rumors of immortal families, giving one a type of unreal feeling. There were all types of stars, some floating, some directly growing on the ground.

This wasn't an illusion, a few celestial bodies truly produced from the mountain range. They absorbed the chaotic essence energy of when the world was opened, produced star cores, and then gradually left the earth surface.

"True Dragon Lair!" Someone released a low cry.

There was a stone monument in front of a giant mountain, in that place an ancient hole. The ancient characters 'True Dragon Lair' were carved on it, draconic energy pervading outwards.

"There was previously a True Dragon that took residence here, building its lair from star cores, producing True Dragon eggs through chaotic energy, but now, it has long been abandoned. The draconic energy is sparse to the point where it can be overlooked." Someone explained.

Then, everyone saw a giant Golden Crow corpse that was still shining, the heat released turning a mountain region into a sea of flames and magma, vast and endless, accompanied by primal chaos.

This was precisely the border area of the Great Scarlet Sky, all types of strange ancient remains here. One could see just how glorious this place was before.

This border was the border of a realm, adjacent to primal chaos. Not only were there the remains of creatures from the world's creation, there were all types of extremely rare species and other things.

In the past, this place could also be considered a cultivation holy land, but it was still destroyed, its value no longer as great as before.

"Prepare for war!" Great Elder roared.

It was because they now truly arrived at their destination.

The ancient land ahead had mountain ranges, giant valleys, and also plains, vast and boundless. When they assembled together, they formed this borderland.

Right now, it was not as peaceful and auspicious as before, evil winds roaring past, creatures weeping.

They had just approached this place, yet they could already smell a pungent bloody smell. This was just too shocking!

When they gazed forward, they saw city ruins one after another, turned to debris. Broken walls and building remains were everywhere, as for the ground, there was no complete corpse to be found at all, all in pieces, blood turning black, bones in pieces.

It was too tragic, not a single living being to be seen. One had to understand that there were many ordinary people living here, that this was an ordinary place of residence.

The borderland was where many creatures lived, this place continuing to develop until it reached its present population.

“Just how many people were there here? There were at least ten million, yet they all died so miserably, not a single person left alive!” Someone sighed mournfully.

As the warship advanced, more and more city ruins could be seen. It was torn apart by a great claw, everything falling in a single day. n/-o/.v/-e()L//b-/1--n

Of course, even more of the city was destroyed by the powerful winds, taking the lives of many experts and ordinary people.

Along the way, from the number of the residences, they suspected that these tribes and cities had a total population in the hundreds of millions!

This was just too tragic!

There wasn't a single person alive. The only reason they heard howls was because of unwilling spirits that were screaming out, still not scattering yet.

Figures were everywhere, ghost energy overflowing into the heavens. This place was like hell on earth!

At the very front, black energy surged, tearing apart the heavens, terrifying fluctuations released. Great Scarlet Sky's impregnable pass was over there, the city ruins made from immortal bones located ahead.

All of the sinister, bloody, and malevolent energy pointed there. It was the source of destruction.

The foreign creatures came precisely from that location; this was where they unleashed their slaughter.

The plains, mountains, abyss, all terrain was shaking, because there was a low roar sounding from that area. It wasn't that loud, but it was world-shaking, wishing to make the whole world collapse.

“Lowly servants, have you all arrived? This world will soon return to the embrace of the undying!” The voice that sounded from that direction was incomparably awe-inspiring.

“Kill!” Sacred Academy's old man roared.

Everyone's eyes were bright red. They witnessed too much death along their way here, many creatures wiped out. Now, it was time for their revenge.

Chapter 1329 - Confrontation

The city created from the bones of the ancient people was crushed, countless lives massacred. A hundred thousand li of Great Scarlet Sky was turned to ruins, all life eradicated, no life to speak of. Just how cruel was this?

That was why the cultivators who rushed here were all utterly furious, a wave of blood surging within their chest, wishing to get revenge!

A single 'kill' word expressed what everyone was feeling inside. Right now, it was unknown just how many ancient ships shone at the same time, giant symbols rising one after another.

These were the symbols of all clans, profound mysterious of all of the most powerful bloodlines. They all activated at the same time, attacking the ruins together, wishing to obliterate the enemy.

Even though they knew that those were foreign creatures, that they might have likely stepped foot into an unimaginable domain, high above them, right now, no one wanted to just surrender. They were going to fight to the end!

Hong!

Raging flames surged, divine light overflowed, killing energy overflowing into the heavens. The symbols of all different clans gathered together, producing a terrifying reaction, forming unmatched scriptures.

This wave of power was world-shockingly great, shaking up everyone's minds.

Before this, none of them knew that the symbols of ten thousand clans would be this powerful when they gathered together!

Only Great Elder, Sacred Academy, Immortal Academy, and a few living fossil level figures from long life families had some idea, previously hearing about it and made their own suspicions. They had read a few lines about this from ancient books, finding a few clues. Now, everything was verified.

"Good, it should be like this!" An elder shouted.

The symbols of all clans rumbled, producing unimaginable matchless power, crushing the ruins, surging fiercely, simply as if they were going to establish a new world!

Kacha!

The void exploded, primal chaos surging, black lightning interweaving streak after streak. The borderland expanding, gradually becoming larger. It was as if this world was being reconstructed, that the heavens were going to be opened up again!

This type of scene was too terrifying! In the end, reincarnation void figures even appeared, leaving everyone in disbelief!

"Turns out our symbols are actually this powerful, the profound mysteries of all clans able to resonate with each other. When they are merged like this, the divine might is matchless!" There was someone who cheered in pleasant surprise.

"Too frightening... this is excellent! Suppress and kill the foreign enemies! A few people roared out, stirred up and excited.

Heaven and earth trembled, many great stars trembling here.

Just as everyone was carrying great hopes, full of expectation, under the collapsed impregnable pass, a ruthless and cold voice sounded from a black tunnel.

“The lowly will be lowly. No matter how hard you all try, no matter how you struggle, it can’t change reality. Too weak.”

The voice was extremely cold, not all that loud, clearly not minding this attack that much. For everyone, this was a type of contempt, completely looking down on them.

Under everyone’s horrified eyes, a large hand reached out from the black abyss below the ruins. It was pitch-black like ink, carrying some scales. It faced the symbols that crushed down.

Pu!

This was just a single claw, yet it made the over ten thousand symbols break apart, turning them into mountains and seas, everything surging crazily like a flood.

This was just too frightening! The joint force of all clans, all of the warships shining, activating their killing formations, yet they still couldn’t injure it!

The most crucial thing was that this joint attack was blasted through by that large hand. What kind of power was this? It left everyone’s souls deeply shaken!

How were they even supposed to fight now?

How were they supposed to face this kind of enemy?

The large black hand collapsed the universe, scattered the clouds, tearing apart the symbols of all clans, moreover making the few moons suspending in the sky dome explode, fall down onto the ground one after another!

What kind of terrifying scene was this?

At this moment, everyone became stunned, simply unable to accept this type of reality. They couldn’t believe what they were seeing.

In that instant, many people’s expressions became pale, lacking color. Their morale, the battle intent they had just stirred up, was completely crushed by this claw.

This type of existence, how were they supposed to fight against it? They weren’t even on the same order of magnitude!

Even though many people came, the experts of all clans all present, it was useless no matter how many of them were here. They couldn’t contend against the enemy.

This made many people’s expression become bitter, even more so feel despair!

They mustered great forces, hurrying over, yet in the end, they discovered that everything was futile. When facing the other side, their power was too weak, unable to contend against them at all!

There was nothing that dealt greater of a mental blow than this, turning all hope to dust.

Many people’s confidence wavered. Were they supposed to continue fighting? Were they still going to choose to battle? If this continued, they would only die for no reason, it would be a one-sided massacre!

This place quieted down, actually no one saying anything. n.-o)-V-)E))l(-b.(l))n

This type of scene was extremely strange. Originally, with all the people from various clans here, shouts of war shook the skies, but after that giant black claw descended, heaven and earth became deathly still.

The atmosphere was too terrifying!

“Truly is disappointing, getting worse with every generation. You all are too weak, cannot even take a single blow, not even comparable to Immortal Ancient’s creatures.” This type of voice sounded from the ruins.

It wasn’t all that resounding, not extremely impassioned, only a type of calmness, coldness. This was precisely the reason why everyone felt as if the difference between them was too great, impossible to catch up to.

No one argued back. They all felt incredibly grieved. They carried great hatred and resentment inside, yet they were powerless to resist, far from being the other side’s opponents.

“The people of the last great era, those so called ancient people should be your predecessors, right? They thought they were extremely strong, not willing to submit, wishing to fight us to the end. However, what was the end result like? They were all wiped out! The so-called true immortals, so-called unmatched experts, didn’t they all lay at our feet in the end, their corpses everywhere? Hesitating until forced to do even more, isn’t it precisely this? Meanwhile, you all, as their descendents, have their blood flowing through you, traditions truly get passed on... All of you refuse to be convinced until you are faced with grim reality, after learning that we descended once more, you actually dare to challenge us. Do you all not know the difference between life and death?!”

The other side didn’t mince his words at all. This was a type of humiliation, moreover carrying a type of truth. It shook up Great Scarlet Sky, spreading through the four seas, making all creatures of this world tremble, their minds shaking greatly.

Moreover, when the last few words were roared out, berating the creatures of this world not knowing the immensity of heaven and earth, not knowing the difference between being dead or alive, it was completely a type of contempt, a stance of looking down from above, showing disdain towards all creatures of this world.

It was just a single enemy, yet it was going to destroy everyone’s conviction!

This was too frightening, he intimidated them with his power alone, using fact to tell them that the creatures of the other side couldn’t be stopped, that the individuals of this world were still far too lacking.

How were they supposed to respond? How could they resist?

Many of them were surging with rage, wishing to roar out, curse, berate the other side, but in the end, they discovered that everything was meaningless.

It was because if they didn’t truly fight and only roared out, it would only make them a joke!

Right now, dejectedness, a feeling of defeat spread. Every single person became silent, their beliefs no longer firm.

“Calm your minds!”

Right at this time, a thunderous sound erupted, ringing through everyone's ears, making everyone wake up, snapping back to reality.

It was released precisely by Great Elder, his expression serious. He stood up in the end, his spacious dao robes fluttering, releasing hu hu noises. He shouted loudly, "What is there to feel dejected about? We have only begun to face each other, what point is there in losing heart? If you all knew who you were facing just now, who you all were confronting, you wouldn't feel bad. He is an undying creature, an expert who lived from the last great era, someone who participated in the battle of the last era!"

Great Elder's words were like great waves, sweeping through the world, waking up everyone.

"It has just begun, yet undying beings have already taken action, trying to discourage us, what does this mean? It means that they are lacking in confidence, not having that much certainty, which is why they are doing this!" Great Elder roared.

Sacred Academy, Immortal Academy, and a few elders from long life families all came out, agreeing with what he said. At the same time, there were others who spoke up.

"It is precisely as we previously speculated, how could the realm wall be that easy to break? If they really could easily sweep through our realm, would those undying beings waste their breath on us? They would have long taken action, unleashed a great massacre."

"Precisely. Just now, when we took action together, releasing the symbols of all clans, we were able to face someone from the last great era without suffering a defeat, the exchange ending in a draw!"

Several elders spoke up, loudly speaking.

Everyone was first stunned, and then they came to realization, as if they understood many things.

"Lowly beings, are you trying to boost your own morale? This is somewhat amusing." A cold voice sounded from the abyss below the ruins.

"In reality, you really are lacking in confidence. You all are still not going to come over, which is why you sent over a matchless expert from the very start to intimidate us." Great Elder said.

"Moreover, you can only cross over a set amount of distance, still rejected and suppressed by this world's natural laws. As time passes, the effects you will suffer will become gradually greater, which is why even though you are undying, you cannot truly sweep through our world!" Great Elder said a step further.

"What a joke. If this is what you believe, then I will start from you! Die!" That voice in the abyss below the ruins became even colder. Then, it suddenly erupted with power, giant fluctuations rippling outwards. Heaven and earth trembled, making all of the warships tremble, about to explode.

That large black hand reached out again, directly grabbing towards Great Elder, covering the sky and hiding the sun, incomparably terrifying.

"Everyone, watch carefully, the so-called undying beings, the so-called paramount figures of the last great era, is nothing more than this!" Great Elder roared. Then, he unexpectedly didn't evade, didn't run, instead facing the enemy. He used himself as an example to boost their morale!

Chapter 1330 - Challenging the Undying

“Great Elder!”

Many people screamed out.

It was because this was just too dangerous, simply like throwing his life away!

Just now, anyone with eyes could see that creature’s vicious might couldn’t be challenged, not even the clans working together could do anything to him. How terrifying was this? This could definitely be considered matchless divine might!

Everyone knew that Great Elder was extremely strong, but compared to an undying being, he was definitely still lacking somewhat. He wasn’t the other party’s opponent, this was just throwing his life away.

“Great Elder, stop!” Shi Hao shouted. His mind was overwhelmed with worry. He clenched his fists, truly wanting to immediately rush over.

The faces of everyone from Heavenly Deity Institution immediately turned white, fearing that Great Elder would fall on the spot. That would be a tremendous loss they could not afford.

At this moment, a large black hand reached out from the abyss below the ruins. It was like a dark cloud, covering heaven and earth, crushing down forward. Everything in its path was destroyed.

The void broke apart, the mountain peaks collapsed, great cracks extending. The rotating stars fell, suspended moons exploding, great rivers on the earth even more so long dried-up.

The scene was too terrifying. There was nothing that could stop his advance!

There were originally eighteen blood moons in the sky, but now, only two were left, the rest not grabbed down by the large hand, instead swept down by the most powerful shockwaves.

This was world destroying, overturning sky and earth, stars collapsing. There was nothing more horrifying than this.

Under the vast sky, all things were annihilated, all life extinct, chaotic energy surging like a sea, about to purge the world of all past traces.

It was frightening to the extreme, making everyone’s eye sockets feel like they were splitting.

Great Elder was like a moth flying into a flame, looking extremely insignificant there.

Even though his body released resplendent light, natural laws interweaving, order constructed, compared to that large hand, he was like a firefly, completely insignificant.

“The lowly will always be this pitiful. Killing you truly is a meaningless task, just like brushing off the dust on one’s body.” That voice was indifferent, calm, not attaching importance to anything in this world, possessing a type of ‘I am the sole sovereign’ manner.

The great hand shone, black waves overflowing, instantly covering Great Elder. Then, with a ferocious grip, it completely closed to kill Great Elder.

“Great Elder!” Shi Hao screamed, his eyes even becoming red, his head of hair all standing on end, feeling incredible pain. Was the extraordinary talent of a generation going to fall just like this?

Wuwuw...

Suddenly, heaven-splitting noises sounded, the noise shaking up the heavens. Great Scarlet Sky even began to tremble, this entire world seemingly breaking apart.

“Ancestral Dragon Bugle Horn!” Someone said quietly.

It was a simple and ordinary looking horn without much luster, looking like it was polished from gray stone. It suddenly appeared between that large black hand, releasing heaven-shaking sounds.

That horn’s tip was extremely sharp, even though it wasn’t accompanied by flickering gold light, one could tell from a single look that it could tear apart the cosmos, destroy stellar streams.

En?

The moment the large black hand closed, its owner released a light grunt.

The Ancestral Dragon horn shone, and then it became sparkling and translucent, resplendent to the extreme. Blazing natural laws instantly surged, more frightening than any weapon, blasting through that large black hand.

Pu. Blood splashed out, that blood actually black-colored, not red, moreover carrying a strong aura of ruin,

“Insect! Despicable, you dare injure me?!” This creature roared out. It unexpectedly suffered a counterattack, making it reveal some rage, its voice making the sky break apart.

Hong!

The True Dragon Horn enlarged in size. Great Elder’s long robes fluttered about, his head of hair standing on end, operating the Ancestral Dragon Horn with full strength, supporting it with all of his attention, offering it a blood sacrifice!

The True Dragon’s sturdiest area, its most powerful weapon, rumbled at this moment. It quickly transformed, a great dragon vaguely visible. It moved through the cosmos, immortal horns resting on its head, claws tearing apart stellar streams, throwing itself murderously at the great black hand.

“It’s actually this item... a supreme treasure, the Ancestral Dragon’s weapon!” This creature was finally moved, revealing an expression of shock.

Peng!

Heaven and earth split apart, primal chaos energy erupting. The True Dragon Horn and great black hand smashed together, stirring up a heaven overflowing storm!

Hu!

Great winds rose. This was produced by energy, derived from natural laws. Winds swept into outer space, a few great stars unable to hold on any more, falling down one after another.

There were even more so some stars that exploded in midair, turning into dazzling light!

This was a type of incomparably magnificent scene, the shockwaves reaching into outer space. The greatest power was released, not much that could stop it.

“True Dragon, you already fell in battle back then, what viciousness can you even show now? Die!” The foreign existence roared, large hand turning into a fist, smashing towards the True Dragon Bugle Horn.

Ang... A draconic cry resounded through the Nine Heavens, resounding and impassioned, making one’s primordial spirit resonate as well. It was as if the first dao sound from when the world was opened was spreading.

The great dragon was majestic, boundless like a stellar stream. It moved its body about, horn splitting the skies, smashing towards that fist.

A world-shaking great collision broke out, great destruction ensuing!

In the end, gray mists pervaded the air, a low roar spreading. Everyone was shocked, because they saw that black blood scattered down once more, pouring down like rain, landing on the ground, corroding all living things.

One could see that the fist was bloody, black blood scattering in all directions, revealing some finger bones.

“You dare injure me, despicable ant, I will kill you first!” This paramount existence’s words were cold. The large hand reached across the sky, avoiding the Ancestral Dragon Horn, directly grabbing towards Great Elder.

With a turn of his hand, the sky dome collapsed, no longer existing, the only thing left a black hole, as well as a splitting cosmos abyss.

This was too terrifying. Just how powerful was this level of creature? It was simply impossible to even estimate. Everyone shivered deeply in fear, only able to watch from afar.

Everyone felt like their hearts were gripped. They didn’t want Great Elder to die. Just now, they saw him use the True Dragon Horn, able to resist the undying existence. They all cried out, hoping that he could stop the enemy.

This was the first true battle, none of them wishing for this side to be defeated. If they could stop the other side, then that would undoubtedly boost everyone’s morale. Otherwise, they wouldn’t be able to see the slightest bit of hope.

Hua!

A painting scroll unfolded, illuminating the sky, releasing a terrifying aura. It was as if an Immortal King descended, opening up an imperishable great world.

Ten Realms Diagram!

Great Elder used this supreme treasure. It moved with the wind, unfolding. It was like battle armor, but also like a shield, blocking before him, protecting Great Elder.

Peng!

When the large black hand was about to smash down, the light released by the Ten Realms Diagram was like a flame, blinding to the extreme, blocking him, forcing him back.

The world trembled greatly, sun and moon sinking.

Ao... The True Dragon Horn dove down again, turning into a sky shocking streak of rainbow light, piercing the back of that large black hand, making blood scatter down on the void once more.

“Good!”

One of Sacred Academy’s elders roared.

“Excellent strike!” A few elders from Sacred Academy also shouted.

Then, the other clans all began to cheer as well, voices filling the clouds, shaking up Great Scarlet Sky.

Everyone carried a feeling of gloominess, feeling extremely dejected. Now that they saw the so-called high and mighty undying existence injured, they naturally all became excited, the resentment they felt vented a bit.

“Great Elder, kill him!”

“Great Elder’s divine might is matchless!”

A few youngsters cried out, every one of them wishing they could turn into Great Elder and personally fight, kill that hateful enemy.

Chi!

Immortal multicolored light blossomed. The Ten Realms Diagram protected Great Elder, bringing him quickly back. Then, he stood in the sky, confronting the great hand before him, facing him from the distance.

At the same time, the True Dragon Bugle Horn released wuwu sounds, also moving back, appearing in Great Elder’s hands, ready to attack at any moment again.

“Insignificant insect, relying on the True Dragon Horn to attack me, using the Ten Realms Diagram in defense, it can only temporarily protect your life. Relying on the weapons of your ancestors, how long will it keep you alive for?” That voice was still extremely calm, but it became much colder, releasing a bone piercing killing intent.

Everyone’s minds sunk. Indeed, if they relied on their true strength, then there wasn’t a single person in this world who could forcefully face the undying!

It was because there were no immortals left in this world. In terms of cultivation realms, they were a whole level off!

“You look calm, as if you do not mind, but you really wish to immediately kill me, right? What a pity, you are not able to do it!” Great Elder did not feel ashamed. After using two supreme treasures, he wasn’t injured, and he could even continue fighting.

“As an undying being, a powerful existence from the last great era, when facing us, don’t tell me I cannot even use similar level weapons?” Great Elder said slowly.

“If not for this world having problems, displaying unforeseen changes, preventing us from taking that final step, how could we tolerate you acting recklessly? If I was given an environment that permitted the achievement of immortality, I only need a hundred years, no, just ten years, and that’ll be enough for me to kill you!” Great Elder directly roared out the last few words.

Everyone was greatly alarmed when they heard this. How powerful was Great Elder at this moment? He fully displayed his matchless boldness!

“Kill me?” That creature laughed, only his aura became even colder, as if it could seep directly into one’s soul.

“Correct, kill you. Give me a perfect world, an environment that permits the achieving of immortality. I only need ten years! At that time, I can suppress and kill you with just a raise of my hand!” Great Elder’s eyes had powerful flames burning within them, a type of blazing heat, even more so a type of regret.

It wasn’t that his aptitudes weren’t enough. He had already reached the final stage, only half a step away before stepping into the long life realm, but this world’s environment changed greatly, not allowing one to achieve immortality.

If this was Immortal Ancient, he would have long risen up, overlooking the heavens!

“What bold words. Never has anyone acted this presumptuous before me!” The undying existence’s voice rumbled out, ringing through this place like thunder.

“I already used immortal dao weapons to prove that this level of power is enough to kill you. If I step foot into immortal dao, you would be nothing!” Great Elder’s hair danced about crazily. When his eyes opened and closed, it was as if lightning tore through the darkness, erupting in the void.

At this moment, he went completely berserk. This was a type of arrogance, a type of confidence. It was only because this world changed that he was left with regrets, unable to achieve immortality.

Otherwise, with his talent, he would have definitely become an unmatched expert who shocked past and present.

Many people were moved. Immortal Academy, long life families, and a few other elders released a low roar. The environment changed, leaving them helpless, feeling inwardly bitter, even more so feeling disappointment and frustration.

However, as experts, their convictions still remained!

“If you cannot achieve long life, cannot become true immortals, then you all will remain as ants. It is pointless no matter what you say.” That owner of that large black hand said coldly.

“There is no way to achieve immortality now, but that does not mean that it is impossible in the future.” Great Elder released a light sigh. Then, he faced everyone, transmitting sound, roaring out, “Do you all see? The foreign so-called paramount level creature is nothing more than this, even with my cultivation as a half long life being, I can injure him, make him bleed. Perhaps this generation might not be able to achieve immortality, but it is different for you all. There is still time. When the time comes, the

environment changes once more, you all might be able to step foot into the immortal dao domain, able to kill them!”

“We will definitely rise up and kill the foreign enemies!” Many people cried out.

“What a joke. Even if this was Immortal Ancient times, how many people could achieve immortality? Even if the environment returned to how it was, how many people could succeed? Even those so-called ancient people, even when they achieved immortality, didn’t they all still die in battle, let alone you all! Moreover, do you all think that we will give you all the chance? Daring to rebel like this, all of you will be slaughtered, your bloodlines completely extinguished!” This creature said coldly.

“Are you threatening us? However, can you even come over? There is definitely a reason why you all attacked Great Scarlet Sky, plotting something. You all still cannot cross over. With the realm walls torn apart, slightly connecting the two worlds, the changes to the environment might happen soon!” Great Elder said.
