

Perfect WD 1341

Chapter 1341 - Next

The blood was thick. The dark golden centipede body thrashed about, struggling in the void. It was torn into two pieces, the pain too hard for it to bear.

Chi!

The upper half of its body tried to flee, struggling free, but it paid the price for this. Another piece of its body came off, injuries added upon injuries, centipede blood scattering about.

Everyone was stunned. In that instant, the two great experts decided life and death, this type of change happening. The Mantis Centipede was defeated, moreover in such a miserable manner, its body in tatters.

Who would have expected the battle to be this intense, only this short of time used up? They all felt like it had just happened, yet it already ended!

It was too sudden, everyone finding this a bit hard to believe!

“How could it lose? The Mantis Centipede had its body torn apart by another! Isn’t its body known to be sturdy and unbreaking, golden body imperishable?” In the back, a group of foreign young kings were moved, their expressions serious for the first time.

Forget about others, even the Mantis Centipede felt awful, in disbelief. It was previously full of confidence, possessing absolute faith in itself that it could subdue the Nine Heavens Ten Earths’ experts, yet in the end, it fell to this state, just too tragic.

As for the Nine Heavens Ten Earths’ side, they had long erupted into commotion. They had been sullen for too long. Now that they finally saw a great victory, everyone cheered. They longed for dawn, and now, they finally saw it.

For this side, from the start until now, everything was just too hard to bear!

It was first a million year supreme being Xiang Feng who was killed, and then Crimson Hair Divine Monarch fell. Afterwards, it was Lu Hong, Purple Sun Heavenly Monarch, and others, geniuses with perfect ancient seeds killed. It truly was lamentable, making one feel as if the world became dark, even breathing difficult.

“You... harming my dao body, breaking my golden body, the grudge between us will not end until death!” The Mantis Centipede said, angered to the extreme.

Just now, it almost died. If not for it decisively severing a segment of its own body to struggle free, it really would have been killed by that youngster.

The Mantis Centipede had never thought that it would lose to someone from the Nine Heavens Ten Earths. This young man was too terrifying, actually even more savage than it, like a prehistoric beast that reappeared in this world.

“Then you can just die!” Shi Hao replied, pressing forward, expression indifferent and unhurried. He was more like a demon king than the Mantis Centipede, killing intent surging.

The Mantis Centipede’s gaze was cold and deep. It didn’t have any other choice, this type of decisive battle couldn’t be fled from. The Immortal Tortoise Shell Fragment selected an opponent, so based on regulations, only when one side fell could it be considered complete.

“I am going to kill you!”

The Mantis Centipede produced a crystal, within it sealed a drop of bright red liquid, brilliant and dazzling. It was like a red sun stone, the essence blood of its ancestor.

It raised its head and drank it, ruined body quickly regrowing. This wasn’t a simple reconstruction of the flesh, but rather a comprehensive restoration of vital energy, quickly restoring it to its peak.

Chi!

The Mantis Centipede moved, the dark golden body breaking apart the void, attacking Shi Hao with extreme speed. It didn’t face him head-on anymore, instead carrying out a normal battle.

It believed that if they truly fought a great battle, displaying all methods, there was no way this youngster could break its body. A battle between the two of them would take at least a few hundred moves, could not be condensed to one move deciding life and death!

Not long ago, that was a forceful clash, lacking technique, even less profound mysteries to speak of.

Now, it was different. It relied on its battle skill that allowed it to roam freely under the sky to strike down Shi Hao.

Sure enough, this Mantis Centipede possessed extraordinary skill, battle instincts astonishing. It surrounded Shi Hao while attacking, turning into a sphere of light.

On the Nine Heavens Ten Earths, many people’s hearts were raised, fearing that something unexpected would happen. They finally achieved a great victory, but if the situation was now reversed, it would make one vomit blood, feel as if the entire world was dark.

“I’ll help send you to the afterlife!” Shi Hao only had these words. He displayed terrifying methods, Kun Peng wings on his back, Earth to Inches Great Divine Ability below his feet, stirring on lightning at the same time. Three types of secret methods supported each other, his speed reaching an unimaginable level.

Dang!

For the Mantis Centipede, the current Shi Hao was terrifying. He used those unstoppable fists to smash against its body, bombarding it with murderous strikes.

This seemed to be done intentionally, using world-shocking oppressive fists to strike its body!

It could tell that Shi Hao’s battle technique was shockingly high, definitely grown step by step. This wasn’t a ‘Pride of Heaven’ fostered through a family’s endless resources.

However, Shi Hao didn't use those techniques, liking to use the most powerful fist imprints to smash at its body.

"You...!" The Mantis Centipede was furious.

This wasn't like a battle, but more like humiliation, tossing and turning it about, only using his fists to exert his dominance!

In reality, the reason why Shi Hao did this was because one, he wanted to powerfully kill it, and second because he wanted to study the Imperishable Scripture, operating it on his fists, discovering that it was terrifying and astonishing after all.

Hong!

The Mantis Centipede couldn't hide, entering a desperate situation. It was forced to trade blows with Shi Hao. It brandished its mantis arms, snow-white blades illuminating the sky dome, blade energy covering the world.

This made many people's expressions change. However, the result was tragic.

Dang!

Sky shocking sounds rang out. Shi Hao faced the mantis arm head-on, breaking apart its body.

Pu!

The Mantis Centipede was in despair. It was just like it when it killed Purple Sun Heavenly Monarch, brimming with confidence, power unmatched. Now, the other side was precisely dealing with it in this type of state, not someone it could face forcefully.

Pu!

Shi Hao's fist shot out, carrying great dao energy. Grand and boundless fist intent filled heaven and earth, as if an expanse of boundless stars appeared. Great stars swirled one after another, crushing downwards.

The Mantis Centipede revealed a bitter smile, difficult for it to move in the slightest. It was suppressed there, watching with its eyes open as that fist smashed down like a comet onto the great earth.

Pu!

This fist smashed through its body. That centipede's body was originally connected in segments, but now, it completely exploded, blood and crushed shell pieces flying in all directions.

"Ah..." The Mantis Centipede screamed, struggling, wishing to protect its primordial spirit.

However, Shi Hao's right fist shone, carrying surging resplendent divine light. It was as if the most terrifying volcano erupted, magma connecting the heavens above and earth below.

Pu!

The Mantis Centipede's head was blasted through, splitting apart into pieces. Then, that fist passed through, the scene fixed in place, leaving everyone shocked.

A foreign young king of this generation was killed, its life ended just like that!

Dead, the Mantis Centipede was killed in battle!

The battlefield was quiet. The foreign kings were all alarmed, finding this extremely difficult to bear. Their side's powerful Mantis Centipede was actually defeated, slaughtered!

On the Nine Heavens Ten Earths' side, a sky-shaking cheering erupted. When the dust settled, they were the ones who won this battle!

"Thank you, Huang!" In the distance, Purple Sun Heavenly Monarch's attendant knelt down, hot tears falling, kowtowing in Shi Hao's direction, expressing his gratitude. n()O-)V/(E-(l-/b..l/-n

There were others who shouted out, this place immediately becoming incredibly noisy.

According to the rules, Shi Hao could choose to step down.

However, right now, he stood there on the battlefield like a pine tree, not moving for a long time.

"Next!" Finally, Shi Hao's cold voice rang through the battlefield.

"You... are truly unbridled!" The Snake Yaksha berated angrily.

"If you aren't willing, then come over. I'll cut you down just the same!" Shi Hao's words were concise. He stared at the Snake Yaksha, as well as the Golden Devil Bird and silver-haired woman, really wishing to kill these three creatures.

Previously, they were arrogant, overlooking the cultivators of the Nine Heavens Ten Earths, even killing Lu Hong, Xuan Kun, and others. Only blood could return blood, wash away their humiliation.

"You think I don't dare? Just wait for me to kill you!" The Snake Yaksha was extremely strong-tempered, its entire body silvery-white. A pair of wings moved about, heavenly wind sweeping about, blowing apart the void. A silver snake tail even more so smashed apart several million jin of boulders.

"Then just come and accept death!" Shi Hao said.

However, the Immortal Tortoise Shell Fragment shone, already choosing an opponent for him.

This was a strange person with twelve pairs of arms, as well as a pair of horns on its head. It had a goat-like face, its fur golden. An extremely astonishing fluctuation was released from its body.

"Just die!" This foreign young king rushed over, directly roaring, using the most decisive attitude to express its will, murderous energy rushing into the heavens.

The twelve arms all formed imprints, secret techniques appearing one after another, this place submerged in magical force.

Hong!

Shi Hao retaliated with domineering methods, not hiding at all. He used the most intense secret methods to respond to this foreigner, violently counterattacking just this directly.

All of the secret methods were scattered by him, fist radiance heaven overflowing!

“Eternal Demon Wall, suppress!” That creature’s expression changed, using its innate divine ability. It chanted an incantation, twelve pairs of arms forming imprints, summoning a black demonic wall. It was dyed with bloody traces, its pitch-black surface carrying bloody pearls, everything crushing down at this moment.

The demon wall descended, trying to suppress and kill Shi Hao!

On the Nine Heavens Ten Earths’ side, a few long life families’ elders sucked in a breath of cold air. This was not a normal type of divine ability, but an ancestral method belonging to the other side!

This was a divine ability that was different from the past!

A race grasped a type of secret method, and the more people it killed, the stronger the secret method would become, the inheritance would thus also gradually become increasingly formidable.

Right now, one could see that the black demon wall was dyed in blood, red from the blood of powerful individuals its ancestors killed, forged through the blood of many creatures.

Ancestral method, the more ancient its inheritance, the greater its power. This was the accumulation of a clan’s killing through successive generations.

Of course, if the descendants of later generations wished to use it, they had to activate it themselves, fully comprehend it themselves.

Hong!

The black demon wall was sticky with blood. It dropped down from above on Shi Hao, forcefully crushing down.

“The so-called foreign inheritance is just this? Nothing special after all!” Shi Hao released a short shout. His entire body surged, several types of precious techniques overlaying. He erupted with domineering power, facing it head-on.

Chi!

Behind him, divine chains made of willow branches were formed one after another. They rushed at the black wall, wishing to pierce through.

Kacha!

Lightning surged endlessly, accompanied by primal chaos. Thunder surged, Shi Hao’s entire body releasing electricity, hacking at that wall.

Then, a Kun Peng appeared, spreading its wings, supporting the black demon wall on its back, forcefully overturning it, and then attacking it furiously!

...

Precious techniques erupted one after another, Shi Hao attacking with the most powerful methods.

Finally, with a honglong sound, the black demon wall cracked apart, and then it exploded, a rain of blood scattered down. It completely broke apart, destroyed.

The ancestral method failed, making the expression of that creature creature with twelve pairs of arms turn pale, mouth coughing out large amounts of blood. It staggered backwards, suffering the most terrifying backlash.

Shi Hao didn't give it a chance, long since rushing over, condensing a fist imprint. Streak after streak of fist radiance erupted, all of them smashing over murderously.

"You..." This creature was shocked and angry, at the same time feeling fear. It was not a match, feeling the aura of death.

Pu!

In the end, Shi Hao's fist blasted it apart. It couldn't stop the strike at all, its entire body exploding into a rain of blood, dyeing the skies red.

The second foreign young king fell!

This battlefield became extremely quiet, everyone looking at Shi Hao.

"Next!" Shi Hao coldly said, powerful beyond compare. He kept his word, wishing to face everyone with his strength alone.

"You..." On the other side, the group of young kings were shocked and angry.

The Golden Devil Bird, silver-haired woman, Snake Yaksha, and others even more so shivered inwardly, because right now, Shi Hao was staring at them.

"You all can't escape. Since there are ten people in total, just come one by one, everything will be settled!" Shi Hao said coldly.

Chapter 1342 - Anlan

How could the foreign young kings not be alarmed and furious? That youngster on the stage actually said next, his attitude just too carefree. Was he looking down on them?!

For them, this type of indifference, this type of contempt was truly a type of humiliation. Who dared to disregard them like this, shout at them so casually?

"I am going to kill him!" The Snake Yaksha said with a low voice, its silver body shining, releasing strand after strand of symbols.

Apart from the Golden Devil Bird who became more and more worried, the other young kings' eyes all released cold light. That person was too unbridled, they had to teach him an unforgettable lesson, had to suppress and kill him!

The blood on the ground was extremely thick, the bright red carrying a type of light golden color, the blood of young foreign kings who had just passed away.

After that strange person was killed, it turned into its original form, a golden goat. No wonder its face was like that of a goat, on its head a pair of horns, its original body was precisely like this. Its golden fur shone, extremely resplendent, blood flowing with astonishing innate essence energy.

Those twelve arms all turned into goat feet, sturdy and powerful.

Only, right now, it was in pieces, because it was blasted apart by Shi Hao, only a ruined body left behind that released a light golden light, laying on the ground.

It was just like the Mantis Centipede, after the battle, it was in pieces from Shi Hao's attacks, flesh and blood everywhere.

"Help me properly wrap up this goat and that Mantis Centipede." Shi Hao said, telling the golden little ant and Cao Yusheng behind him.

Everyone was stunned, but they quickly recalled his nature. They were all speechless, because they knew what he was going to keep the corpses for.

"I will kill you!" The Snake Yaksha roared.

"If I am given the chance to go up, I will definitely kill him! A white-robed king said. He was extremely strong, standing over there. The void in his surroundings distorted, a few people feeling great restraining fear towards him.

"There has never been anyone who dared threaten and look down on us. Execute this person!" Someone else said.

"Next!" Shi Hao didn't have any other words, still just this word, his voice resounding through the skies.

This made the expressions of the creatures on the other side change. Those young kings' eyes all released sharp light, a few individuals' thick long hair even flying about, aura intimidating.

As for those from the Nine Heavens Ten Earths, they all vented a wave of resentment, as if they had eaten a ginseng fruit, all of their pores relaxing, feeling extremely comfortable.

From the start until now, the Nine Heaven Ten Earths were continuously defeated, heroes dying one after another. It was extremely tragic, the atmosphere constrained to the extreme.

Now, Shi Hao obtained two great victories for their side in a row, completely changing everything, eliminating their gloominess, making their blood boil.

A people couldn't help but cry out, cheering Shi Hao on.

"Huang, you've killed them well! You are undefeated, kill them! Get revenge for the dead!"

...

Shi Hao stared forward. The ones he wanted to kill the most were the Snake Yaksha, Golden Devil Bird, and the others, really wishing that they could take the initiative to step up themselves, because victors had this type of choice opportunity.

If was just like how after he won two great battles, he still stood here to continue fighting. At the same time, he could also choose to back down.

"No one has ever dared act this insolently before us. He has to be killed in the simplest and most direct manner, remove his head!

That white-robed youngster spoke again. His figure was extremely tall. When he spoke like this, there were people in the surroundings who nodded along, agreeing with his words.

At this time, the Immortal Tortoise Shell Fragment shone, accompanied by chaotic energy. It floated up, and then with a chi sound, a shell piece flew out, choosing Shi Hao's opponent.

En?

Everyone became shocked, because that shell fragment landed before the white-robed youngster, just happening to choose him.

Many people looked over, revealing surprised looks. It actually gave him this chance, having him walk up, fight against that young man named Huang.

"Excellent, heavenly fate is profound, my wish granted just by speaking up. Even the heavens are acknowledging me, wanting me to suppress and kill this person!" The white-robed youngster said ruthlessly.

He began to take large steps forward, walking towards this place, white robes fluttering about. His entire body released blinding radiance, as if a war god revived, about to descend powerfully into this world.

"Kill him!"

When this person moved, a few youngsters from the other side shouted out, their mouths calling for murder, telling him to kill Shi Hao with the most powerful methods, display unmatched might.

Shi Hao's eyes were clear, calmly waiting for this person to press forward.

This youngster was untainted by a speck of dust, even his socks snow-white colored, complexion fine like jade, could be called an exceptionally beautiful man. He was like a child of fate!

As he walked, heaven and earth moved, rumbling with noise. The great earth below his feet even more so fissured, mountains collapsing, giant rocks flying, scattering the clouds in the sky.

Outside his body was a divine ring, brilliant and intimidating. It was as if a terrifying undying existence was walking over.

"Encountering me is your misfortune. I'll grant you death!" This young man stared at Shi Hao, directly speaking like this.

Chi!

Suddenly, the shell fragment corresponding to this young man shone, producing a few symbols. It was extremely shocking.

At the same time, the shell piece corresponding to Shi Ha was also trembling, producing a few strange symbols. However, it quickly disappeared with a flash.

"What does this mean?" Shi Hao was confused. This was the first time he encountered this type of situation. The shell piece that corresponded to him actually displayed an abnormality just now.

“Those characters are the surname of an unmatched existence!” A few individuals from the other shore cried out in alarm.

Why was it like this?

A group of youngsters trembled inwardly, all of them extremely confused.

“Zhan Feng’s mother is a descendant of that unmatched existence, Zhan Feng has some of that clan’s true blood within his body!” Right at this time, an elder from the foreign side explained.

The white-robed youngster was named Zhan Feng, the family his mother was from was extremely terrifying, not even many experts from the other side daring to carelessly talk about them.

Everyone trembled. Was this caused by the portion of true blood within Zhan Feng’s body? It was stimulated, producing that family name.

“To be more precise, it is Zhan Feng’s maternal grandmother’s family, which is why he has a fourth of that family name’s true blood!” Someone said with a low sigh.

Forget about others, even Shi Hao who was only thinking about cutting the enemy down was stunned. Just what kind of family was that, for the foreign creatures to treat it with such importance?

At the same time, Shi Hao’s mind also trembled. That family name appeared on the shell fragment, even though it disappeared again, it still definitely implied some things. Was he going to be tangled with this family name in the future?

It was because when he previously used the Immortal Tortoise Shell Fragment, there were already people discussing that the one chosen would not only fight in the battlefield, there was karma between them as well, that it would involve the ‘fate of clans’ and other things.

“Your origins seem to be quite unordinary, are you someone important?” Shi Hao said, extremely direct.

This was also quite rarely seen. His intention was that he was going to slaughter his way forward, not wishing to waste words with the foreign cultivators!

“I have a fourth of Anlan Clan’s true blood!” Zhan Feng said extremely coldly.

Anyone could see that this was an arrogant person. When he said the family name Anlan, there was a brilliance that flashed past his eyes, this radiance originating from pride.

“A fourth of true blood is enough to make you this arrogant?” Shi Hao mocked, finding this a bit difficult to understand.

“Audacious!” At this moment, it wasn’t just Zhan Feng who spoke up, even those others in the back speaking up, loudly berating Shi Hao!

It was clear that this family name possessed extraordinary strength, making many powerful clans feel endless reverence. They wouldn’t tolerate the disrespect of others.

“Is Anlan Clan that strong, that special?” Shi Hao said to himself.

However, right at this moment, his mind was shaken. When he spoke the family name Anlan, a wave of heaven shocking killing energy filled the sky.

This left Shi Hao stupefied. He widened his eyes, feeling that this was inconceivable. He stared into the void.

A golden pike that seemed to be able to tear through all living things was resting there, releasing bits of radiance, possessing a type of malevolent murderous intent that overflowed the heavens.

This was too frightening. When the family name was just mentioned, it would already produce this type of irregular scene, a golden pike visible.

Shi Hao had a type of feeling that this type of irregular scene would appear when some creatures said this family name.

“The power of a true name, that existence is still alive after all, still overlooking the heavens!” On the Nine Heavens Ten Earths side, Great Elder sighed, the expression on his face incredibly serious.

“Who is that?” Someone asked.

“An unmatched existence, terrifying beyond imagination. When his family name is spoken, it would be like calling out his true name, his weapon and some of his power would become visible.” Great Elder said with a light sigh.

This was a terrifying existence, someone who made everyone feel fear.

At this moment, Shi Hao finally understood how unordinary the Anlan surname was. It really was too frightening!

However, when he spoke, he didn’t seem that concerned. He looked at that white-robed young man and said, “Only one-fourth true blood, yet it is worth feeling arrogant over?”

Many foreign creatures became quiet, only looking at him with cold expressions.

Anlan, this family name’s individuals were extremely few in number. The clan was extremely frightening, but they didn’t have many people, which was why the white-robed youth having one fourth of the bloodline was already extremely astonishing.

It was because it was unknown just how many years it had been since the ancient land where those with the Anlan family name resided produced a child!

“You are speaking like that only because you are ignorant, you will never understand the power of this family name. You are going to pay the price for this!” Zhan Feng said coldly.

“Anlan!” Shi Hao said this to himself again. The irregular scenes appeared again, he saw that golden pike once more. It was as if it could directly tear through the great universe.

This weapon was too frightening, at the same time leaving Shi Hao shaken. He felt that it looked familiar, as if he had seen it before.

En? Soon afterwards, he remembered where he had seen it before.

When he was in Heavenly Deity Institution's underground cave, he had previously seen the imprint left behind by the golden little ant's father, the golden-haired middle-aged man known as one of the Vicious Ten.

Shi Hao had interacted with him, spoke to that middle-aged man, seeing a few scenes before his death.

At that time, one of the Vicious Ten, the golden-haired man, Heavenly Horned Ant with matchless divine strength, had previously encountered the attacks of unmatched existences, injuring him, making him bleed.

The deepest impression Shi Hao was left with was that at the final critical moment, a golden long spear tore through the great cosmos, abruptly descending, piercing through the Heavenly Horned Ant's body with a pu sound.

"This long spear... it's that one!" Shi Hao's expression immediately changed completely.

"Anlan Clan won't tolerate any blasphemy. Your disrespect will have to be repaid through blood. Atone for your crimes!" The white-robed young man Zhan Feng shouted.

Anlan, just the mentioning of this family name was enough to touch upon the power of true name. Just how terrifying was this? This was power only unmatched experts from the other side possessed.

It was rumored that the owner of the Immortal Smelting Pot also had this level of power!

"Forget about someone like you with one-fourth true blood, even if a pure-blooded person came, he would still undoubtedly die under my hands, killed without exception!" This was Shi Hao's reply, his words powerful. nove-1b.1n

"Brazen!" Zhan Feng berated, taking action. When the other side said the word 'pure-blooded', wasn't this mocking him for being a mixed breed?

Chapter 1343 - True Blood Defeated

Hong!

Zhan Feng walked out, white-robos fluttering about with the heavenly winds. His great sleeve moved, large amounts of murderous energy rushing out, attempting to suppress and kill Shi Hao.

He was extremely arrogant, when he took action, it was extremely powerful. When the great sleeve moved, stars flickered about, as if a stellar dome was revolving within his sleeve, carrying terrifying power.

Towards this type of attack, Shi Hao faced it directly. His arms moved, as if a Green Sky Peng spread its wings, rushing into the heavens.

It truly was a Kun Peng spreading its wings, wings like clouds that covered the sky, vast and boundless. It could directly rush into the cosmos, shatter heavenly stars, power immeasurable!

At this time, Shi Hao directly used the Kun Peng Method, its natural law profound mysteries grand, smashing the great sleeve that contained stellar power into pieces. This place immediately became covered in brilliance.

“En?” Zhan Feng was shocked. He had the qualifications to be arrogant, his strength great, able to easily defeat others among his peers, yet right now, they had just began, yet that sleeve was already destroyed.

It was as if large amounts of butterflies fluttered about, the damaged sleeve turning into pieces, scattering across the sky.

Zhan Feng’s expression became cold. He was extremely handsome, even though he wasn’t human, he looked no different from one. No one knew what his original form was like.

Right now, that arm of his was exposed. There were golden pike patterns that were revealed.

This left everyone shocked, even Shi Hao shivered inwardly, becoming even more vigilant and careful. It was because he already knew that Zhan Feng had a fourth of Anlan Clan’s true blood, possessing unfathomable and mysterious power!

“After disrespecting Anlan Clan like this, you have to pay the price!” Zhan Feng shouted coldly, walking over step by step. In his surroundings, the void distorted, exceptionally sharp radiance appeared.

Qiang!

Sure enough, the radiance completely appeared, forming golden weapons one after another, cutting through the void. They were all long spears, their radiance intimidating, killing energy heaven overflowing!

It was unknown just how many tens of thousands of golden spears there were, wherever the speartips passed, the radiance was terrifying, able to penetrate all living things.

At this time, all of the long spears were trembling slightly, the metal sounds ear-splitting, murderous energy covering heaven and earth. These golden spears were all aimed at Shi Hao.

However, Shi Hao didn’t feel any fear at all, instead laughing coldly and saying, “You talk about the Anlan Clan as soon as you open your mouth, considering yourself a part of it, but you aren’t surnamed Anlan, so what are you so proud of, what are you so arrogant for? You think you are worth anything?!”

“You actually dare talk to me like this? The Anlan Clan’s power is ever-present, you will definitely die miserably for this!” Zhan Feng shouted, his handsome face overcast.

“You serve under the name of another, looking up to the unmatched strength of the clan’s ancestor. Let me ask you, what do you have yourself? A true expert can establish a clan himself, one comparable to Anlan, while you... are not enough!” Shi Hao said coldly, taking the initiative to attack.

Qiang!

Zhan Feng was furious. In his surroundings, the tens of thousands of long spears cried out together, the noises intimidating. They turned into streak after streak of golden divine multicolored light, hacking towards Shi Hao.

This type of scene was too terrifying, because the world was immediately penetrated, the void exploding!

Tens of thousands of pikes flew out, golden light erupting, impossible to stop. This type of attack was just too ferocious.

This wasn't a normal type of weapon, but rather the embodiment of ancestral techniques, the personification of a type of great power!

If there was an unmatched ancestor who created a method, and then generation after generation of descendants after him displayed that method, the ancestral technique would become more and more powerful.

Hu!

Shi Hao opened his mouth, spitting out a stellar stream. If one looked carefully, they would see that this was endless lightning. He was attacking with the Lightning Emperor Precious Technique!

All of the golden pikes trembled, many breaking on the spot, blasted apart by the lightning.

However, there were still large numbers of golden long spears that pierced over, resplendent and dazzling, releasing murderous energy.

Hong!

Shi Hao's single heavenly passage appeared. It was pierced by numerous golden spears, and then it violently trembled, quickly shrinking, about to enter his body.

"Good!"

"Kill him!"

The foreign young kings shouted. When they saw this scene, many people revealed cold smiles.

Suddenly, a terrifying sound was released, moreover, a blast of astonishing radiance surged, erupting here. Many people were forced to close their eyes.

Shi Hao's single heavenly passaged condensed to an extreme point, and then it suddenly erupted, as if the universe experienced a great explosion.

All of the golden pikes broke apart, completely obliterated.

Zhan Feng was greatly alarmed, a streak of blood flowing out from the corner of his mouth, quickly withdrawing. This made his mind sink. This was but Anlan Clan's ancestral method, yet it was stopped!

"If a true Anlan came and fought against me, it might be a bit interesting. You... are not enough!" Shi Hao walked forward.

Zhan Feng was definitely sufficiently powerful, but Shi Hao still mocked him like this, truly making this young king with Anlan true blood vexed and furious. He released a roar, and then used his greatest power, taking action again.

Peng!

Shi Hao flew over from above, raising his fist and smashing down!

It could be said that this was a type of powerful display, moreover being completely unrestrained, this the case even when facing the Anlan bloodline, not attaching any importance to Zhan Feng. He looked down from high above, powerfully suppressing the foreign youth like this.

“Kill!”

Zhan Feng produced magical imprints, releasing palm strike after palm strike. Heaven overflowing radiance surged, surging towards Shi Hao like powerful waves, terrifying beyond compare.

However, this couldn't stop Shi Hao. He dove down, with each fist, the wind produced would smash those symbols apart, scatter those waves.

Peng!

Zhan Feng released the most powerful palm, smashing together with Shi Hao's fist. A true great collision was carried out between the two!

Pu. It was extremely tragic, Zhan Feng's confidence wavered, because that hand of his broke apart, blood flowing in long streams, his entire arm contorting.

He staggered backwards, his face a bit pale.

He could have evaded this exchange, but he didn't want to do this, because he wanted to kill his opponent powerfully.

However, the result was extremely bitter. His physical strength was inferior to his opponent's.

“Kill!”

Zhan Feng released a great roar, bloody light flickering, the hand recovering. When one reached this cultivation realm, one could regrow broken limbs, let alone the fact that he had just swallowed a divine pill. He rushed over again.

An intense struggle unfolded. Zhan Feng avoided Shi Hao's attacks, not truly facing him head-on.

However, suddenly, when they confronted each other again, Zhan Feng no longer evaded, brandishing his right arm, striking forward.

Chi!

Patterns interweaved, erupting in the void. A wave of terrifying aura covered heaven and earth, as if a primitive ancient beast walked over from when the world first opened, wishing to kill the creatures of this world.

These were the patterns on Zhan Feng's arm, the golden pike patterns on his arm reviving, formed from all types of great dao symbols. Right now, they actually separated from his body, producing a streak of golden light, flying at Shi Hao.

It was too fast, completely impossible to evade.

Moreover, that type of power was just too frightening, the void collapsing. The weapons belonging to others in the surrounding were crying out, actually wanting to bow down, trembling.

An exceptional fluctuation rippled out. Zhan Feng was going to reverse the situation purely through the pike patterns on his arm!

“Every single person from Anlan Clan has a golden pike on their hand. These are natural patterns, the power greater the purer the bloodline!” At this moment, a foreign elder said, revealing the true circumstances.

The situation became dangerous to the extreme!

Behind Shi Hao, many people cried out in alarm, their expressions turning pale white. Were the great victories obtained through great difficulty going to end here? If Shi Hao died here, then that would definitely be too heavy of a loss, the mental blow this would deal to everyone too great.

Right now, Shi Hao’s mind became heavy. He never expected the foreign ancestral technique to be this terrifying. All of this was because of the Anlan Clan true blood Zhan Feng possessed.

Shi Hao didn’t use other precious techniques. At this moment, he only had two words in his mind: Imperishable Scripture! noVe.lb(1n

He was extremely daring, not wishing to seize victory through stability, but rather test the Imperishable Scripture’s result.

During these past few days, he had been trying to figure out these scriptures the entire time, possessing a set amount of achievements. This was especially the case when he used this to support his hands, it was exceptionally astonishing, nothing it couldn’t overcome.

The Imperishable Scripture’s true meaning already appeared on Shi Hao’s hands, symbols rushing into the heavens, palms brilliant to the point where it couldn’t become any more dazzling.

Zheng!

Everyone was stunned, not daring to believe their eyes.

It was because the golden pike patterns on Zhan Feng’s arms were grabbed with a single grip from Shi Hao.

“What great speed, too hard to evade! He actually bare-handedly grabbed it!” Many people sucked in a cold breath of air.

The most crucial thing was that the golden spear point pierced at Shi Hao’s fingers, releasing keng qiang sounds, yet couldn’t slice through.

Hong!

The golden pike enlarged, releasing intense explosions and matchless power. It wanted to suppress and kill Shi Hao!

As for Anlan true blood’s power, this long spear that was produced released unimaginably frightening power!

What was terrifying was that Shi Hao’s hands were similarly astonishing, resplendent like Immortal Gold. They grabbed the long spear, preventing it from struggling free no matter how it shook.

Ka!

In the end, the most horrifying thing happened. A great roar sounded, unmatched divine force used, Imperishable Scripture activated, supporting his great hands. The golden long spear began to crack!

Finally, with a peng noise, the golden long spear was completely broken by Shi Hao!

Ah... Zhan Feng released a great cry, complexion becoming pale to the extreme. The golden pike patterns on his arm disappeared, true blood destroyed.

Shi Hao took action without holding back at all, his hands flickering about. The Imperishable Scripture's patterns were restrained in his flesh, unstoppable as they struck at Zhan Feng.

Peng!

Zhan Feng didn't want to face him head-on, yet had no choice. It was because he couldn't evade, the other party's speed too fast, pressuring him while striking!

This strike crippled Zhan Feng's arm, bloody mist surging. His right arm disappeared.

Then, Shi Hao formed a fist imprint, smashing down murderously!

The death scenes of the Mantis Centipede and monster with twelve pairs of arms played out once more!

Zhan Feng walked the same path as them, white robes dyed in blood, unable to face his opponent at all. He was blasted flying under Shi Hao's peerless fist strength.

Pu!

In the end, his body was broken to pieces. He was killed on the battlefield before everyone's faces.

Zhan Feng died in battle!

This place was dead silent, the foreign young kings truly alarmed this time. Even Zhan Feng who had Anlan bloodline actually died, killed. This left many people stunned.

"Is this the so-called person with true blood, having one-fourth Anlan true blood within him? He was nothing more than this!" Shi Hao said coldly.

This was a major event. Anlan's descendant actually died such a miserable death, making everyone's minds heavy.

Shi Hao also finally confirmed that this type of confrontation would inevitably lead to him having to face the few membered Anlan Clan. No wonder the Immortal Tortoise Shell Fragment displayed an abnormality, it touched upon the fate of clans and other things.

"Zhan Feng actually died!"

The foreign cultivators finally snapped back to reality. Then, many people released this low shout.

"Next!"

Shi Hao spoke, his voice indifferent and ruthless, ringing through this battlefield!

Another young foreign king died. Could it be that Shi Hao really was going to continue fighting? Everyone looked towards Shi Hao, feeling like he really might kill a group of kings all by himself!

Chapter 1344 - Triple Delight

It was this 'next', again. However, now, the foreign young kings felt completely different. There was nothing more terrible than this!

Previously, when Shi Hao first said next, many people felt like he was courting death, not knowing the immensity of heaven and earth, so they only ridiculed him.

However, now, many creatures became alarmed. The battle results were right before them. These were not bullshitted, but produced by killing. Now that even Anlan's descendant was killed, no one dared look down on him. Who could look down on this young man?

This was definitely a terrifying young supreme being, one who could kill kings!

"Hateful, this ant actually wants to devour heavenly dragons. A freak emerged from the defeated's descendents!" The Snake Yaksha found this hard to accept, belittling the other party like this.

It had a silver body, the thick snake tail moving about there. It had wanted to take action before, but now, it felt some misgivings, feeling apprehension towards Shi Hao!

Zhan Feng had a fourth of Anlan Clan's true blood within him, just how powerful was that? However, he was still defeated. The golden pike that was condensed from a strand of true blood was even broken, truly shocking too many foreign creatures.

"Killed him well!"

"What Anlan true blood, what true name power, what unmatched family? The so-called genius was nothing more than this. Wasn't he still killed by Huang?!"

From the Nine Heavens Ten Earths' side, the people were naturally happy, cheering there. All of the young cultivators' faces revealed brilliance. These successive great victories truly boosted their morale.

The main thing was that the previous defeats left them all feeling suffocated, heroes dying miserably one after another, falling in this ancient battlefield, truly dealing too great of a mental blow to everyone here.

Now, Shi Hao was standing there alone, continuously defeating three foreign heroes, establishing undefeated divine might, triggering great waves, becoming the focal point of everyone's attention.

"Next? It has been many years since someone looked down on the cultivators of my world like this. Today, you all were actually slaughtered by a single person until you cannot even raise your heads. Are you all scared of him?!"

In the back, a blurry figure stood close to the black abyss, as if it was a living fossil that had existed throughout the ages, not moving at all. However, his words rang out, shaking up everyone.

He didn't fly into a terrible rage, but this type of cold words made one feel even more shaken up, feel a great fear.

The younger generation kings all revealed ashamed looks. When faced with that human cultivator, they even forgot to retort just now, not immediately speaking back. This really made them seem a bit lacking in boldness and bravery.

“What is there to be scared of? From the past until now, who knows just how many powerful heavenly talents my world has produced, these individuals shocking past and present. His methods, when compared to those creatures, what can they count as?” There were foreign young kings who said this loudly.

“Kill him! He is nothing more than the descendant of the defeated Immortal Ancient people. Even their immortals have all been killed, their ancestors killed until they crawled beneath our feet. As a descendant, he is nothing. It is just like how we dealt with his ancestors, just kill him and that’s that!”

Wave after wave of fighting energy surged into the heavens. The foreign young kings all carried a type of innate superiority, extremely arrogant. They were instantly stirred up, wishing to kill Shi Hao.

Moreover, there were two young kings whose figures were especially striking, both of them releasing chaotic energy, standing out from the masses!

These two didn’t say anything this entire time, only now releasing light from their eyes. Inside their pupils, the universe became disillusioned, scenes of the world collapsing appearing from time to time.

These were terrifying experts!

Shi Hao swept out a look, but he didn’t feel fear. However, he knew that there might be danger, that they might be unimaginable young enemies, but he still remained unflustered.

The Immortal Tortoise Shell Fragments didn’t immediately shine, not directly selecting Shi Hao’s next opponent.

It was because after he continuously won three rounds, his strength dominating his opponents, this could be considered a great victory. He could retreat, even more so able to rest and take some time to recover.

This was a rule, a standard established during the Immortal Ancient battle of the past.

It could be said that this was completely imitating Immortal Ancient last phase’s great battle at the peak.

That was a battle so intense ghosts wept and deities howled, sun and moon lost radiance, great stars continuously fell. Immortal kings fought with their lives on the line, but the results were tragic, the Nine Heavens Ten Earths’ side still defeated.

The war banner of the past was used to wrap the corpses of immortal kings, blood dyeing the heavens red, even more so scattering the wills and conviction of the people.

Today, this battle naturally couldn’t compare to the world-shaking great confrontation of the last days, but it still had long-lasting effects, victory or defeat might very well be related to the fates of clans and other things.

The foreign side released cries of war, angrily rebuking, while the Nine Heavens Ten Earths' side was cheering, forming two extremes. Shi Hao stood on the battlefield, naturally becoming the focal point of everyone's attention.

"What are you putting on such an arrogant display for? Does he really delusionally think he can face the young kings of our side alone? He is definitely going to die a miserable death, pay the price for his arrogance!" A young foreign expert said.

Shi Hao originally could stop, but he instead stood there like a javelin, not moving at all, waiting for new opponents to appear.

"There was previously a group of people who were known to shine with the sun and moon, as ancient as the world, immortal beings, but when they faced our world, the sun and moon were shook down, heaven and earth collapsed, these people naturally also all defeated. There were some who were lucky enough to die, but they still became prisoners, others even had their wills wiped out, becoming the most obedient slaves." Someone deliberately brought this up, ridiculing Shi Hao as a descendant of defeated people. The end result of the ancient people really was miserable.

At this moment, the chers of the Nine Heavens Ten Earths' side stopped, everyone's eyes becoming ice-cold, staring at those people angrily.

This was just going too far, humiliating the ancient people again and again. Those were but their ancestors, now that they were humiliated like this, it truly was hard for them to bear. They really wanted to get justice for their ancestors.

"Is that so? Some of those so-called paramount figures became servants?" Some of the foreigners pretended to be confused, only after consulting others did they say, "Wu, I remember, my family's ancient ancestor had a walking corpse-like slave. Turns out he was the ancestor of this side's people!"

When the people from the Nine Heavens Ten Earths heard this, their eyes all became red.

"Enough!" Shi Hao berated. Not even he could take any more.

"In the past, your ancestors won a few battles, but that is not you. My world's past humiliation, the day will come sooner or later when it will be settled!" Shi Hao said with a cold voice.

"Haha..." On the other side, the group of young kings roared with laughter, doing this on purpose to neutralize the dejection and resentment produced by the three successive defeats. noVe.lb(1n

Shi Hao didn't say a single thing. He sat down, producing a large cauldron. He added water from a divine spring inside, and then started up a divine flame.

What was he going to do? A few people were shocked.

"Bring over all of my spoils of war." Shi hao shouted towards Cao Yusheng.

Cao Yusheng and the others immediately knew what he was going to do. They quickly moved over the Mantis Centipede's body, as well as that golden goat-like damaged body.

Apart from this, Shi Hao personally moved, dragging the ruined body of the Anlan Clan descendant Zhan Feng over.

Zhan Feng's original body was like a white lion, entirely snow-white like jade. Only, right now, it was in ruins, just like the Mantis Centipede and golden goat, only having some of their body left, because they were beaten until they exploded.

Shi Hao sat there alone, doing things himself. He skinned and washed them, cleaning up the three experts' meat, his actions smooth and skilled, extremely experienced.

"What are you doing? Are you humiliating the young kings of my world?!"

On the other side, the foreign creatures' mockery, laughter, and cold words finally stopped. There were some who couldn't help but shout out, unable to continue watching this.

"These are my spoils of war, why do you all care what I do with them? If you want them back, then hand over the Great Mist Purple Energy Seed and Life Seed. Otherwise, get lost!" Shi Hao coldly replied.

At this moment, everyone knew what he was going to do. It was just too obvious.

The Mantis Centipede, golden goat, and Zhan Feng were treated like ingredients. After their carcasses were cleaned, they were tossed into the cauldron to stew.

"Do you want to die?" On the other side, there were people who were about to go crazy, roaring out, truly angered badly.

The glorious foreign young kings were actually treated like food by another, moreover cleaned up right in the battlefield. This truly was a type of tremendous shame.

"Just close your mouths. If you can't accept this, then just come up and hand over your lives, I'll have another type of food to eat then!" Shi Hao directly shouted, showing no sign of stopping, preparing his food here.

Inside the cauldron, the three great creatures' meat released brilliant radiance.

Outside the cauldron, Shi Hao prepared another dao flame, directly using it to roast. Regardless of whether it was the golden lamb leg or the other two types of creatures' meat, they were all roasted until oil dripped down, the meat quality fine, releasing an alluring fragrance.

Only Shi Hao would do something like this, normal people definitely wouldn't cook the meat of young kings with a dao flame, because the divine force they contained was just too strong.

"You... actually dare do this!" On the foreign side, those young kings couldn't sit still. Shi Hao's retaliation was too sudden, unable to be processed with normal reasoning.

They humiliated the ancient people of the Nine Heavens Ten Earths, mentioning how they became prisoners, how their wills were erased, turned into puppet slaves, so Shi Hao now displayed this hand.

These are only my food; this was definitely the meaning this young man wanted to express. All of the foreign young kings knew that this was what he was thinking!

Meanwhile, the other side didn't say anything, but rather used direct action to slap their faces. It was just too clear, too painful, making a few creatures erupt with fury, their eyes become scarlet red.

"Good!" On the Nine Heavens Ten Earths' side, many people couldn't help but cry out.

Everyone felt as if there was a wave of heat surging within them, making their blood boil. Shi Hao's actions made them feel delighted, many people couldn't help but release a long roar.

Right now, Shi Hao didn't fight, but his actions made many from the Nine Heavens Ten Earths' side feel that this was even better than the great battles.

"Your conduct and deeds have crossed the bottom line of what we can allow. We will definitely hack you into mincemeat!" Many people roared out from among the foreign young kings.

"I am waiting. Whoever comes, whoever I'll kill!" Shi Hao replied like this.

Then, the meat fragrance wafted out, streaks of essence energy radiance also released. It had to be said that the essence contained within the three great kings was too astonishing.

This was definitely a great mending medicine, comparable to divine level ginseng fruits.

"I am someone who has a single desire, which is to taste all the delicacies of the world. This is the first time I am going to enjoy the food of the other side, wu, it really isn't bad, too delicious!"

Shi Hao stood on the battlefield alone, starting to eat the golden meat chunks, the meat accompanied by large amounts of auspicious multicolored light.

"I'm going to kill you!" The people on the other side screamed out, truly provoked. Many of them were seething with anger to the point where they were going to faint. They had never experienced this type of humiliation before.

"Mantis Centipede, a golden goat, and a white lion with Anlan true blood, these three are all land animals, so now that they are cooked together, I should give it a name. I feel like Triple Delight is quite suitable."

Shi Hao ate while speaking inarticulately. A thick meat fragrance wafted about, the smell simply about to melt one's tongue off.

On the Nine Heavens Ten Earths' side, when everyone heard this, they were first speechless, and then they all laughed loudly.

"You will definitely die a miserable death today, atone for your crimes with blood, wash away this type of humiliation!" The foreign kings roared out.

"Bring over wine!" Shi Hao called out, heroic spirit surging, asking for people behind him for fine wine.

Chi!

A pot of divine wine flew over, personally brought over by an elder from a long life family.

Shi Hao stood up, undid the seal, and then raised it up, drinking down a large mouthful. "Triple Delight is only the appetizer, come, I will kill whoever comes. I want to gather ten great mending ingredients!"

These brash words sounded, shouted out, shaking up Great Scarlet Sky's borders. He was going to face the entire foreign side's younger generation kings alone!

Chapter 1345 - Magma King

“Deserves to be killed, so hateful...” Some of the foreign young kings couldn’t help but roar out, angered by Shi Hao’s words until they erupted with rage, hair even starting to stand up in anger.

When had they ever been humiliated like this? Their side of the world was above all life, overlooking the cultivators of the Nine Heavens Ten Earths. Ever since the ancient times, whenever they fought, they always achieved great victories. However now, a young man actually humiliated them like this.

These young kings were normally high up above, yet today, they were treated like food by this person, cooked before everyone!

The most unforgivable thing was that he actually gave that so-called dish a name, calling it ‘Triple Delight’.

These two words’ destructive force was too great, making the kings’ faces all fall, their lungs feel like they were going to explode. Never before had they felt so humiliated. They were young foreign kings, yet the three of them together were given this type of name, this was definitely going to become a joke.

It was to the extent where they could imagine that due to the destructiveness of the name ‘Triple Delight’, it was going to spread throughout the lands. If this happened, all clans knowing of it, it might even be recorded in history. **Chapter 11**

One side was angered to the extreme, while the other side roared with laughter.

Ever since the battles began, the cultivators of the Nine Heavens Ten Earths had never felt as carefree as right now. When they watched Shi Hao eat this ‘Triple Delight’ dish, many people’s expression became incredibly brilliant.

“You won’t be able to continue living. Act complacent while you can, you are going to die soon!” On the foreign side, the Snake Yaksha and others spoke coldly, cursing him.

The battlefield was extremely spacious. Shi Hao stood there, one hand on a wine jar, the other holding a piece of tender golden meat, drinking large gulps and taking big bites.

He didn’t berate those people, because the words that should have been said have already been said.

Right now, he calmed down, only praising the meat quality, the wonderful taste, how he had never tried something like this before, that these were top level delicacies in this world.

The other side berated him, cursing out loudly, threatening that they were going to take his life.

However, Shi Hao was just that calm, only sharp radiance occasionally flashing past his eyes, as if lightning hacked across a dark night, piercing into one’s soul.

“That white lion had Anlan Clan’s true blood inside of him, the taste really isn’t bad, having a special fragrance.” Shi Hao commented.

When these words sounded, the other side became quiet, the foreign cultivators alarmed, angry, and scared. How daring was this youngster, was he really going to offend Anlan Clan to the end?

They felt like this young man should be glad that there were no direct descendants from Anlan Clan here. Otherwise, the most terrifying things would definitely happen!

After the initial shock, many young kings became even angrier. Anlan Clan was a family that they revered, high up above, worthy of everyone looking up to, once their undefeated ancient protectors. How could they tolerate a small cultivator's blasphemy?

A few creatures denounced him, berating him, their words naturally unpleasant, but Shi Hao pretended as if he didn't hear anything, instead asking, "Zhan Feng is a white lion, so what kind of appearance is Anlan Clan? Don't tell me the true Anlan Clan is also an ingredient of Triple Delight."

Many people's faces twitched, finding this intolerable. These words were too daring, no matter who it was, they couldn't insult Anlan Clan like this.

"Wu, this Mantis Centipede doesn't taste bad. After the shell is removed, the meat inside is white and tender, the flavor excellent. This type of centipede flesh is better than even the Divine Prawn produced by Dragon Palace." Shi Hao commented again.

Someone from the Mantis Centipede Clan immediately shouted. They were not centipedes, but rather a type of ultra king race, high up above, overlooking ten thousand clans.

Shi Hao drank large gulps, enjoying large mouthfuls of delicious food, saying to himself there, "This is the first time I ate foreign food, definitely an unforgettable memory! I really feel great!"

Right at this time, the Immortal Tortoise Shell Fragment finally moved, releasing dazzling light. A shell fragment landed in the hands of a young king.

It was time, the shell fragment chose Shi Hao's next opponent.

This was a brilliant creature, scarlet light rushing into the heavens. It walked over step by step, the earth below its feet melting into magma. It was fiery red and blazing like a piece of blazing steel.

"Magma King!" Someone said quietly.

This was an extremely powerful young king, someone who was different from other creatures. It was because it was simply as if made of lava, lacking flesh and blood.

It was rumored that his type of species was produced from the volcanoes under the sea, innately able to control fire, grasping great yang essence, condensing the power of a fire bloodline.

Shi Hao gave it a look, and then with a light sigh, said, "Does your side have no one left, sending out a freak like this?"

In front of the black abyss, the foreign creatures all glared angrily at him. He truly was becoming more and more arrogant, already looking down on his opponent before they even exchanged moves.

The cultivators of the Nine Heavens Ten Earths finally felt as if a breath of resentment was let out. Previously, regardless of whether it was the Snake Yaksha, Golden Devil Bird, or the others, they all looked down on their opponents, showing their world's people contempt.

Now, they finally reacted. Huang won three great battles, starting to show the other side disdain, looking down on the other kings, everything flipped over.

Moreover, it was hard for the other side to retort to this.

“You are going too far! Looking down on our side’s kings like this, you will definitely be used as a flesh sacrifice!” A foreign cultivator shouted.

Shi Hao explained, saying, “You all misunderstood. It isn’t that I am looking down on his strength, but rather that the so-called Magma Clan’s constitution is too terrible, actually all made of lava, no meat, so what am I supposed to eat? I wanted to gather a fourth ingredient to make four type meatballs!”

His voice wasn’t too fast or too slow. This type of tone immediately made the foreign kings furious to the point where their noses became crooked, really wanting to crush him to death with a single grip!

That type of explanation was clearly looking down on all of the kings, long treating them like a plate of food.

“Kill!”

Magma King roared, throwing itself over. It didn’t have a set form, changing from a human body directly into a scarlet tiger, throwing itself over, wishing to tear Shi Hao apart.

Hong!

The great earth split open, magma surging, ultimately rushing high up into the sky. From the distance, the scarlet red color was absolutely horrifying.

Pu!

Even the void was burned until it caved in, falling apart. Bright red liquid flowed, destroying everything.

Shi Hao was shocked, this monster really did have some methods, actually attacking like this, controlling the power of the flame dao, the temperature terrifyingly high.

However, he wasn’t scared. He supported the single heavenly passage, standing there, immediately becoming impervious to all methods. Divine light surged, forming a origin divine ring.

Peng!

Shi Hao increased speed, rushing at that Magma King. His palm hacked down, striking at the scarlet tiger, making it release a sky shocking roar.

The ferocious tiger suddenly disappeared, turning into red magma, merging with the scarlet red liquid that filled heaven and earth, unknown where it was.

“Destroy!” Shi Hao released a short shout. His hands moved, divine might world shocking, using his magical force to suppress the red lava.

However, the great earth had long melted, forming a sea of magma, burning heaven and earth. It turned into a scarlet red wave that reached into the heavens, the scene horrifying to the extreme!

It was like an expanse of red sea, blazing heat rushing into the heavens, engulfing that place.

Everyone’s expressions changed, even Shi Hao shocked. He underestimated this creature, its methods were definitely extraordinary.

Peng!

Shi Hao's fist strength was incomparable, smashing into this sea of lava with full power, stirring up heaven overflowing waves. A muffled groan sounded.

"Still not coming out?" Shi Hao shouted. His ten fingers all moved, lightning surging, hacking down fiercely, blasting the sea of lava until it surged, to the extent where it was going to dry up.

Chi!

Suddenly, the sun in the sky fired down a streak of astonishing radiance, great yang essence. It was guided down, melting all things.

Magma King harmonized with heaven and earth, summoning the power of great yang essence.

Hong!

Unfortunately, it ran into Shi Hao, not someone who could be evaluated with normal reasoning. Shi Hao used the Kun Peng Precious Technique, rushing up, his wings like clouds that filled the skies, severing the great yang essence, scattering it.

This battle didn't continue for a long time, but it was enough to leave Shi Hao greatly shaken. The seemingly ordinary Magma King was actually this powerful.

Pu!

However, Magma King was still not a match, forcibly dragged out of the sea of magma by Shi Hao, and then killed on the spot, its body exploding. Apart from large amounts of lava, there was also sparkling light.

This creature was not only made of magma, there was divine stone, as well as bits of flesh.

"It seems like the quality of the four type meatball is going to fall a bit." Shi Hao said.

On the foreign side, many creatures' eyes became red. That was but the flesh of the Magma Clan, originally rock, later producing flesh, it was definitely a precious great mending medicine.

There were some who believed that this type of rock that turned into flesh was even better than a few divine medicines.

Many creatures roared out from the foreign side. They suffered four defeats in succession, this was difficult for them to accept, moreover all achieved by a single person. This really shouldn't be happening.

A few creatures' eyes became deep, staring rigidly at Shi Hao.

Shi Hao also looked over, shouting out, "Snake Yaksha, Golden Devil Bird, you all should understand well that the ones I want to kill the most are you two. Do you dare come and fight? I'll even allow both of you to come at me together!"

Everyone's expressions changed. After Shi Hao's fourth great victory, he directly issued a challenge. The effects of this were just too great!

The Snake Yaksha and Golden Devil Bird were both stunned. If they didn't accept the challenge under this type of situation, then they would be lowering their heads. How were they even supposed to raise their heads in their world again?

Chapter 1346 - Continuous Killing

The Snake Yaksha was the first one to fight, insufferently arrogant, looking down on its opponent. However, it really was strong, killing Xuan Kun, a young supreme being who cultivated three strands of immortal energy dying miserably.

Moreover, the Snake Yaksha looked down on the creatures of this world again and again, humiliating them again and again. He showed this side contempt, even more so mocking the deceased ancient people.

This was precisely the reason why Shi Hao wanted to kill it.

The Golden Devil Bird Race was extremely frightening, previously inflicting great harm to this world during Immortal Ancient Great Era, forcing Without End Immortal King to personally enter the other side, using his dao bell to wipe out this clan.

Unfortunately, there were still fish that escaped the net. Now, this clan had long recovered, rising up powerfully again. Once war erupted again, they would definitely be a great problem.

That golden-haired girl on the other side came precisely from this clan. She killed Lu Hong who had a Life Seed, moreover ridiculed this world having no one worthy, that none of them could take a single blow.

Now, Shi Hao targeted these two creatures!

"He won four rounds, he's going to cross the halfway mark soon!" Someone said quietly.

"What are you scared of? I'll go and show him!" The Snake Yaksha made its decision, couldn't tolerate everyone's glares anymore. If it didn't go out because of fear, it would no longer have any footing on the other side where bravery was glory.

Only, the Immortal Tortoise Shell Fragment already chose someone. A tall and sturdy man with two heads was selected.

"Gemini King!" Someone said quietly. This clan's people were extremely terrifying, able to destroy all methods with its two heads, known as terrifying magic cultivators.

This battle was extremely intense, magical force surging between heaven and earth. Gemini King's two heads both chanted a foreign ancient incantation, interfering with the balance of this world.

"En?" In the distance, Lan Xian and others who were watching were shocked. The perfect seeds in their bodies were disturbed, greatly affected.

The incantation Gemini King chanted was the fruit of the foreign side's many years of research, able to interfere with perfect ancient seeds!

Gemini King was most suited to using secret methods to begin with. Now that it displayed it, it was first testing things out, trying to see if Shi Hao had an ancient seed.

Unfortunately, he was disappointed, nothing detected. Meanwhile, he himself was forced into a passive state, Shi Hao sending fists smashing at him.

“Bath in radiance, purge all sin!”

“Darkness is eternal, desires without end!” *no ve. 1b. 1n*

Gemini King’s two heads chanted secret incantations, light and darkness appearing simultaneously, standing side by side. Two types of ancient methods erupted, and then they smashed together.

The song of light and darkness rang through heaven and earth!

Hong!

Moreover, it was accompanied by a surging force of destruction that swept out, destroying everything in its path.

The battle was extremely astonishing, leaving even Shi Hao shocked. This Gemini King was extremely strong, but he could still withstand this attack.

Moreover, with his extreme speed and domineering fist strength, he forcibly blasted through the screen of light and dark, slaughtering his way forward, striking this opponent.

Gemini King opened his mouth and roared out. All types of symbols and incantations were displayed, forming a storm of death. A black vortex quickly expanded, about to devour Shi Hao’s flesh.

However, all of his hopes amounted to nothing, the vortex forcibly torn apart by Shi Hao, unable to swallow him up.

Peng!

The great world trembled. Shi Hao condensed a fist imprint, a heaven-shaking sound erupting, shattering Gemini King’s body protective barrier. Then, that fist penetrated his body.

Pu!

A rain of blood flew out. Gemini King fell!” His entire body exploded in the void, primordial spirit wanted to flee, but it was directly grabbed by Shi Hao. The instant he closed his hand, divine light erupted, completely obliterated.

Five victories in a row. Shi Hao already killed five great kings in succession!

“Snake Yaksha, Golden Devil Bird, are you two scared? Using your words, come over and kneel down, and I might leave you all with your lives!” Shi Hao roared out.

These two creature had previously threatened Xuan Kun and Lu Hong who had the Life Seed similarly, humiliating them. Shi Hao was extremely upset then.

When Xuan Kun and Lu Hong were killed in battle he wanted to kill these two enemies even more.

“As you wish, I’ll fight against you!” The Snake Yaksha shouted. It was forced into a corner, not backing up. It had to fight.

Otherwise, it wouldn't be able to raise its head, instead completely losing all face.

It had previously won, so now, it could choose to re-enter the battlefield, not needing to be chosen by the Immortal Tortoise Shell Fragment.

The Snake Yaksha flew over, its wide silver yaksha wings moved, as if rushing out straight from hell. It carried a terrifying aura, engulfing this entire ancient battlefield.

It had a human trunk and four limbs, but its head was a silver snake, and there was a silvery-white and shining snake tail behind it, as if cast from metal.

This was an extremely powerful clan, flesh sturdy and unbreakable, as if it was an unbreaking golden body.

Not long ago, when Xuan Kun fought it, he did everything he could, but just couldn't injure the Snake Yaksha at all. In the end, his body was blasted through, ripped to pieces.

At that time, its ferocity was heaven overflowing, insufferably arrogant, making everyone feel restraining fear.

"There was no lack of immortals in the last era, yet they were still defeated, some even more so becoming my realms' great ones' servants, from what I heard, these were your ancestors. Do you think that you can overturn the heavens just because you won a few rounds? Come, I will kill you!" The Snake Yaksha's mouth was extremely vile, immediately provoking Shi Hao, wishing to anger him, disturb his dao heart.

Chi!

Shi Hao left behind an afterimage, rushing forward, directly taking action. Divine light erupted in ten thousand streaks, as if a sun was exploding here.

"Huang has been angered!" Many people from the Nine Heavens Ten Earths' side cried out in alarm.

Shi Hao was indeed angry. The Snake Yaksha brought up the events of the past again and again and again, humiliating the people of the last great era, so he was naturally going to take action ruthlessly.

Chi!

Heavenly winds roared. It had to be said that the Snake Yaksha's silver wings were extremely frightening, stirring up great winds. They not only smashed apart the void, they also formed a domain, imprisoning a few people's movements.

Shi Hao's speed slowed down a bit, still affected somewhat!

Eventually, it was as if he entered a swamp, every movement extremely difficult.

Not long ago, Xuan Kun was locked in place precisely because of this, and then killed.

"I originally thought that you might be quite strong, but it seems like I overthought things!" The Snake Yaksha spat out its red snake tongue, releasing si si sounds. It suddenly released its power, large amounts of symbols crashing down onto Shi Hao.

Sou!

Suddenly, Shi Hao moved, facing the other party, increasing his speed while moving. He was going to smash straight into the Snake Yaksha.

The so-called restriction only affected him for a moment at the start, and then it was neutralized, difficult for it to obstruct Shi Hao any further.

Chi!

The Snake Yaksha brandished its wings, hacking them down towards Shi Hao, silver radiance resplendent. The sky dome was immediately hacked apart, the world as if split in half.

However, with a pu sound, Shi Hao's fist blasted through one of its wings, blood immediately pouring out, making it release a muffled groan.

They had just begun, yet the Snake Yaksha was already injured! It was clearly not Shi Hao's match.

"Kill!"

The Snake Yaksha roared, its entire body surging with blazing silver light, as if it was set aflame. In addition, there was blinding radiance that rushed into the heavens, drowning out this place.

It transferred extreme power, moreover releasing a fatal blow. The silver snake tail behind it silently formed a silver war spear, hacking towards Shi Hao's head.

Xuan Kun died just like this, his body pierced by this tail, killed on the spot.

Qiang!

Shi Hao raised his right hand. It released large amounts of auspicious light, and then it fiercely hacked forward, wind and thunder erupting, the noise absolutely deafening!

With a pu sound, Shi Hao's right hand was like a blade, hacking forward. Blood splashed out. The Snake Yaksha released a miserable howl, body tumbling about, running from that area.

The silver snake tail of its body that was known to be unbreaking had a piece hacked off, directly becoming a severed tail!

Not long ago, it was still unstoppable, killing Xuan Kun, but now, it was hacked at like this by another. While it released roars of pain, there was also a type of uneasiness and great fear.

The main reason was because Shi Hao had been studying the Imperishable Scripture the entire time. He used it on his own hands, which was why all things broke before them.

Hu!

The Snake Yaksha moved its wings. Lightning immediately rumbled, the scene terrifying to the extreme. This was its yaksha side, using its clan's profound mysteries.

Meanwhile, its snake head didn't waste time either, chanting incantations, attacking Shi Hao fiercely, wishing to kill him.

Hong!

Shi Hao looked at it coldly. He released the greatest power, rushing forward murderously.

Those incantations and barriers of light all disappeared. Shi Hao's fists smashed apart everything, the Snake Yaksha's body smashed flying, blood flowing in a long stream.

Its wings were already in complete tatters, beaten to ruins!

Hou...

The Snake Yaksha roared angrily, carrying unwillingness, staking it all against Shi Hao.

Pu!

Its conclusion was already set. Shi Hao displayed the Imperishable Scripture's symbols, his hands becoming unimaginably sturdy, blasting half the Snake Yaksha's body to ruins!

"Where is your domineeringness, your insolence now? Come!" Shi Hao shouted.

Pa!

In the end, Shi Hao condensed a fist imprint, his fist smashing into the Snake Yaksha's frontal bone, killing it.

The Snake Yaksha died just like that!

"Golden Devil Bird, do you not want to come up anymore?" Shi Hao shouted.

At this moment, he already won six rounds, making the minds of the foreign young kings grave.

"Kill!"

That golden-haired woman rushed over, attacking Shi Hao.

Shi Hao didn't act politely, using the Imperishable Scripture's profound mysteries from the first strike. Divine light surged around his fist, as if an angry wave engulfed everything, sweeping forward.

Pu!

As a result, the golden feathers withered. This devil bird that transformed into a beautiful woman was injured.

If this continued, Shi Hao really was going to slaughter his way to the end!

Chapter 1347 - Seventh One

Xiu!

The Golden Devil Bird turned into a streak of golden light. After this strike, it quickly withdrew. After testing Shi Hao out, it suffered greatly, its golden feathers withering.

They fell from her original body, every single one as if cast from gold. As they landed on the ground, releasing zheng zheng sounds, even boulders weighing hundreds of thousands of jin hacked apart.

Shi Hao stood in the battlefield, not being struck down. It was as if he was an unmovable martial dao peak, towering over this place, looking down on his opponent.

The Golden Devil Bird turned into a blonde woman, gorgeous and beautiful, her head of long hair resplendent like a sun, even her pupils golden. Right now, they flowed with divine multicolored light.

Shi Hao knew that this woman was extremely unordinary, even stronger than the Snake Yaksha. One had to understand that just now, she took the initiative to attack him, actually daring to carry out a physical clash. This type of test was extremely bold.

If it was a normal creature, they would have definitely exploded from Shi Hao's attack, no suspense at all. Even that Snake Yaksha was blasted apart by Shi Hao's fist.

However, even though the Golden Devil Bird was injured, her vitality wasn't injured. After coughing out blood, her injuries didn't worsen to a serious degree.

"This side has always been suppressed, but now, a freak has appeared." The Golden Devil Bird stared at Shi Hao. Strand after strand of golden blazing multicolored light was released from her eyes.

In reality, this was also what the foreign kings were thinking. In their eyes, Shi Hao was ridiculously powerful, simply able to sweep through a group of kings, impossible to defeat.

This made every single young king feel extremely uncomfortable. They were all bloodthirsty, warmongering species, powerful and undefeated, yet they were actually obstructed in this side, stopped by a young man.

Huang, he stood there alone, defeating six great experts in a row. Six kings died! This was a major event!

If the Golden Devil Bird was defeated as well, then she would be the seventh!

Defeat meant death, there was no other choice.

The Golden Devil Bird opened her mouth, saying, "Human, you should come to our side, you will enjoy endless glory, splendor, wealth, and rank. Exceptional beauties, ancestral methods, long life medicines, all of them can be granted!"

Shi Hao was stunned, not expecting her to try to persuade him like this.

"Do you feel like you have to right to say these types of words to me? In my eyes, when you stepped into this place, you were already a dead person!" Shi Hao replied coldly.

The golden-haired girl laughed coldly and said, "You can only see the small situation, unable to see the grand state of affairs. You are about to die soon anyway. Once my world's great army descends, what will remain? You are strong, your talent exceptional, perhaps comparable to a few legendary youngsters from my side, but so what? From the past until now, there has been no lack of talented creatures. Moreover, my world's ancient ancestors love killing this world's geniuses the most. Once war completely erupts, you will die without a burial site. Right now, I am trying to show you a path of life, giving you a chance to live."

The Golden Devil Bird stood there, voice not loud, but it rang through this battlefield. From time to time, she looked towards the distant Great Xu Tuo, Qi Gu, Shi Yi, and others.

This was an innuendo for surrender, it could also be considered a type of warning.

“What a joke!” Shi Hao remained unmoved, pressing forward step by step. The entire great earth began to shake violently, the ground rupturing open. Great cracks extended out who knew how many li, even the clouds in the sky collapsing under a wave of powerful aura.

“You think I am joking? Think about that terrifying result! Your world cannot stop us at all, destined to be massacred. If you instead rely on our side, you, perhaps you can achieve great glory, perhaps even become a miracle, rise up far above, establish a King Clan belonging to yourself!” The Golden Devil Bird said.

When she saw Shi Hao laugh coldly, she added once more, “You won’t be lonely, because in the past, there were this type of geniuses that surrendered, becoming top level great clans of our world.”

“Nonsense!” Shi Hao berated. The ancient people were killed in battle, not a single one returning. All of them possessed indomitable spirits, could not be blasphemed against.

“I am telling you as it is. I offer you a path of life. As for whether there are geniuses who decided to change sides, there is proof that can be consulted in your world as well. The descendants that were left in your world were called sinner’s blood descendants.”

“What did you say?!” Shi Hao’s eyes stood up, exerting a great pressure, killing intent engulfing the heavens above and earth below. It was because what the other side said was too shocking!

In the back, Shi Yi and Qin Hao’s eyebrows also stood up vertically, great waves stirring within their minds, their fists clenching!

“If you do not believe me, then so be it. My world cherishes heaven warping geniuses the most. If you change sides, you will definitely rise up, rule over an area.” The Golden Devil Bird didn’t give up, still talking about this.

“You talk too much. I’ll send you on your way!” Shi Hao’s face fell, his mind unable to calm down at all.

At the same time, he felt like his own ancestors wouldn’t be sinners, because he had seen the scenes passed down through Stone Clan’s imprints. Those ancestors roared, crying out that they weren’t sinners, that what flowed within their blood wasn’t Ssnner’s blood, but rather glory, brilliance, and unmatched power!

Moreover, Stone Clan didn’t have sinner’s blood. Then who was the true sinner’s bloodline, where were they?

“I am giving you a chance, yet you don’t cherish it!” The Golden Devil Bird’s eyes became cold.

“Kill!”

Shi Hao took action, decisive and ruthless, even more berserk than before. It was because the other party’s words prevented him from calming down.

Chi!

Golden feathers flew out one after another, all of them burning brilliantly, even more terrifying than divine arrows, every one of them penetrating the void, flying towards Shi Hao.

This was the Golden Devil Bird's innate ability, feathers like heavenly arrows, hundreds of thousands of them, covering heaven and earth. They were incredibly crazy, space exploding in this place, completely breaking apart.

When she fought against Lu Hong, she never displayed this. However now, it had just began, yet she already staked it all, not hesitating to pay any price.

Shi Hao's hands moved, and then with a violent shake, a lightning vortex was formed. Countless streaks of lightning winded about, devouring all of the golden divine feathers, as if a hundred rivers gathered into a sea.

Originally, these divine arrow-like feathers were extremely terrifying, piercing the world, every single one able to kill an expert. Now that hundreds of thousands of them were together, the power was simply unimaginable!

This was one of the Golden Devil Bird's trump cards that she wasn't willing to rashly reveal!

However now, after the lightning vortices appeared, this ancestral method was broken through. The hundreds of thousands of golden feathers rushing into the blazing vortices, great explosions erupting.

Peng!

Countless golden feathers were snapped, golden feathers filling the skies. A rain of blood scattered down, the scene horrifying. Shi Hao used the Lightning Emperor Precious Technique's greatest methods to stop this powerful attack.

Pu!

The Golden Devil Bird coughed out blood, staggering backwards. Those were her own divine feathers, and now, they were destroyed, so she naturally suffered injuries as well.

Shi Hao walked over step by step, figure becoming indistinct, primal chaos surging. It was as if a War Immortal walked over from the distant past, unstoppable, mysterious, and powerful

Gu!

The Golden Devil Bird cried out, using its clan's most well-known ancestral method. When the devil bird cried, the world under heaven would be in dismay!

This was a type of extremely terrifying ancestral technique, most suitable for using on the battlefield. It could attack indiscriminately, kill enemies on a large scale.

Shi Hao felt a stinging pain on his frontal bone, primordial spirit attacked by a mysterious power, as if it was going to fall apart. His soul was attacked, his precious techniques and other things that were currently being displayed naturally stopping.

Gu!

The Golden Devil Bird didn't stop, crying out again. It was extremely deafening, extremely unpleasant to hear, but it truly was terrifying. It was as if a heavenly blade rushed over murderously from outer space, the snow-white blade illuminating mountains and rivers, about to penetrate Shi Hao's forehead.

This type of ancestral method was too terrifying, simply impossible to defend against.

Lu Hong who had the Life Seed died precisely from this ancestral method. Even though she possessed abundant life force, far surpassing ordinary people, she still couldn't escape death.

This was especially the case when the Golden Devil Bird wasn't like how she was when dealing with Lu Hong right now, only crying once each time. Right now, after two cries sounded, she released the devil voice again.

Gu, gu, gu...

This was unprecedented. The Golden Devil Bird continuously released ear-splitting sounds, shaking up heaven and earth!

In the distance, all of the youngsters' expressions changed. They quickly backed up, not daring to get close.

This was too frightening. The void even began to distort. That sound hacked at one's soul, burning the primordial spirit, specialized in erasing one's will.

Before, the Golden Devil Bird defeated Lu Hong just by releasing a single cry each time. However, now, she actually released five devil cries in succession.

"She is risking it all, not hesitating to exhaust the ancestral blood within her, releasing her life essence!" A foreign elder said.

Gu, gu, gu, gu!

No one expected the Golden Devil Bird to add four more cries, each more urgent than the last, more terrifying. Moreover, she vomited blood with each cry!

This heaven and earth became different, an expanse of terrifying ripples merging with primal chaos, instantly drowning out Shi Hao, surrounding the world below.

"Finished, that freak named Huang is definitely dead. Who would have expected that it is nine cries! How many years has it been since a Golden Devil Bird was able to do this?" A foreign young king felt both shock and admiration.

Normally speaking, displaying a single devil cry would already leave the Golden Devil Bird exhausted, needing to wait another few hundred moves before it could be used again.

Few Golden Devil Birds could shout out several times in a single breath, three breaths already enough to make them vomit blood, four cries severing a large portion of life. One couldn't even begin to imagine what nine cries signified!

It was because not only was there the issue of one's life force drying up, it was simply impossible, couldn't be done.

However, the golden-haired woman did it!

Nine whole cries. Heaven and earth even began to rupture, primal chaos merging together with the nine cries, everything trying to kill Shi Hao. How could he escape?

It was because based on legends, after nine ripples spread, all enemies at the same level would undoubtedly die, there wouldn't be any suspense!

A crack appeared in the space between Shi Hao's brows, a bit of bright red blood flowing down. His body was greatly shaken, entire body feeling as if it was going to explode!

Hong!

Suddenly, his entire body shone, the True Primordial Record quietly chanted by him, protecting his primordial spirit, defending his frontal bone. Heaven and earth revolved, the aura of death pushed away by him.

Everyone was stunned. This was a situation of inevitable death, yet he actually stopped it?

The Golden Devil Bird was in despair, finding this hard to accept. She paid an unimaginable price, only able to release nine cries this single time in her life, yet it was actually neutralized by the other party!

Shi Hao silently chanted. Radiance flourished in his surroundings, especially the space between his brows, this area especially brilliant. In the end, the bright red blood disappeared, his injuries instantly recovering.

Everything was pointing at the fact that Shi Hao's primordial spirit was too strong!

It was because he ate a Golden Bodhi Fruit, Soul Guiding Lotus, Yellow Springs Fruit, and even more so experienced endless tempering, his primordial spirit sharpened through the True Primordial Record and lightning, sturdy and imperishable!

"I can't accept this!" The golden-haired woman's eyes grew dim, her life fading, body almost completely exhausted, already lacking the strength to retaliate.

For the sake of releasing that attack just now, she paid an unimaginable price. A lump of true blood bestowed upon her by her ancestor was completely used up, even her own life like a candle flame before a storm.

"I'll send you on your way!" Shi Hao's voice was extremely cold and merciless. A finger pointed out. With a pu sound, the golden-haired woman's eyes were wide open, a finger-sized hole appearing between her brows. Blood splashed outwards. She fell straight down.

She was extremely beautiful, golden long hair dyed in blood, skin white. However, right now, she lacked life force, fragrance gone, jade damaged, becoming a corpse.

"Seventh one!" Shi Hao said coldly. He looked at the other side, at those kings, a beautiful corpse laying at his feet.

Chapter 1348 - Disdain Towards the Other Side

Seventh one!

These three words were extremely cold, and also extremely emotionless, shaking up all of the foreign kings.

In that instant, this ancient battlefield where not a blade of grass grew became quiet. Everyone looked towards the battlefield, looking towards that young man that was like a War Immortal.

Huang, he killed seven kings in a row, fighting the entire foreign younger generation alone. He won again and again without being defeated, leaving all of these kings shocked!

“Hateful!” The foreign side’s people released a low roar, their fists clenched, fingers were turning white from being crushed. They really wanted to immediately kill Shi Hao, cut this person down.

However, the bloody reality was right before their eyes. That young man named Huang really was too terrifying, couldn’t be defeated. None of the young kings of various clans had confidence in dealing with him.

Even at the Nine Heavens Ten Earths’ side, this time, no one cheered or made noise.

It was because he fought seven times, Shi Hao killed seven great enemies. After everyone’s initial excitement, they all began to gradually calm down, feeling worry for Shi Hao.

Did the foreign side not have experts? There was no way!

It was because the long life families knew that there were some youngsters from a few ancient families that established absolutely stunning feats in the ancient times, simply terrifying, shocking even true immortals!

Any one of those achievements, if placed in this present age, were impossible to surpass. They were like martial dao monuments, crushing down on everyone!

Those people from these families, when they were young, there were some who could already pluck stars and capture the moon, mouth devouring four seas. They were monsters among monsters. As for just how strong they really were, it was simply unimaginable!

After an endless amount of time passed, those ancient families definitely didn’t decline. There were definitely monsters hiding among their later generations!

“Huang, we thank you. You have to be careful!” in the back, a few people from Lu Family shouted out. They carried disappointment and frustration within the sadness, right now expressing their gratitude.

Lu Hong who had the Life Seed was regarded as important by many people. Even though she didn’t excel in battle, because she comprehended life’s true meaning, she had a chance of becoming a long life being. However, in the end, she died under the Golden Devil Bird’s hands.

Shi Hao killed that golden-haired woman, this could be considered getting revenge for her.

Right now, the foreign creatures’ moods were all extremely complex. none-11.1n

Many of them thought that this young freak named Huang might truly be an undefeatable enemy. At the very least, it was difficult to find someone among the young creatures who could face him.

“Perhaps he isn’t too much weaker than that person from Anlan Clan!” Someone said quietly, and then began to silently think to himself.

The Anlan Clan was one of the foreign side’s most ancient families, powerful to an inconceivable level, simply unimaginable. The clan’s surname was a taboo, saying the true name would display its might.

“The Anlan Clan has only produced one to two inheritors with the most powerful bloodlines, at most not exceeding three. I wonder if one of them will emerge in this era.”

The foreign kings were commenting from the back, speaking softly. It was because at this time, they were hoping for people from that clan to appear and sweep through the Nine Heavens Ten Earths, powerfully suppress and kill Shi Hao!

Even when a woman whose talents weren’t that great married into that clan, she still produced a genius like Zhan Feng, becoming one of the kings of the younger generation, one could see just how terrifying the Anlan Clan was.

In reality, this clan’s direct line of descent, those with truly unmatched bloodlines, would never marry outside the family.

Unfortunately, this clan’s people were pitifully few, the bloodline too domineering, severely affecting their reproduction.

“Next!”

Right when the battlefield calmed down, that youngster in the battlefield spoke up. This word was like a metal chisel that drove straight into the hearts of the foreign younger generation, making everyone tremble.

Right now, many people felt a sense of humiliation, even more so a type of anger, as well as a sense of defeat!

It was just one person on the other side! However, he stopped the path of the young kings. Was there no one who could do anything to him? Could it be that they really had to go back and invite someone out?!

A single person stopped them, leaving the foreign younger generation kings without countermeasures, unable to face this opponent.

This scene, now together with the word ‘next’, was naturally ear-splitting!

‘Next’, this word carried a type of contempt, as well as a type of coldness, as if a ruler was looking down on them, coldly passing judgment!

How could the young foreign experts not feel anger and humiliation? It was because since the beginning of history, it was always their side’s creatures that looked down on the Nine Heavens Ten Earths!

Yet now, everything was flipped, someone blocking their path, a single person intimidating this group of kings!

For that person, this type of power was definitely a type of glory, even more so a type of brilliance. Right now, Shi Hao had already begun to achieve this.

No matter what happened later, regardless of whether he died in battle, during this moment, he stood at the very peak, the foreign kings not daring to face him head-on!

Perhaps the kings' numbers were limited, not that many coming here, that there were still stronger individuals hidden. However, right now, this scene was enough!

In the back, the Nine Heavens Ten Earths' experts, even though they felt envy and jealousy, hot blood surged. Shi Hao's great power made their minds surge with passion.

Time circulated. From the past until now, creatures of the Nine Heavens Ten Earths have always been surrounded by a shadow, suffering threats, but now, a young man was able to defeat the creatures of the other side until they couldn't lift their heads. This naturally left everyone stirred up and excited.

"You are too arrogant!" Someone from the other side shouted.

However, not one stood out. The Immortal Tortoise Shell Fragment still hadn't shone, not selecting another opponent for Shi Hao.

It was because with every third victory, there would be a period of time permitting him to rest on the battlefield. It wouldn't select another opponent during this time.

Just now, the Snake Yaksha and the Golden Devil Bird, because they had already won before, they could enter the stage at any time without the Immortal Tortoise Shell Fragment's selection, which was why they could fight a decisive battle against Shi Hao, leading him to winning seven rounds in a row.

Now, he could rest for a short period of time.

"I only had time to eat Triple Delight, there is still Four Type Meatball, Five-Layered Meat... it really is a tough choice. There are too many good things, how should I even make the choice? How should I cook it all? Even this is rather taxing on the mind." Shi Hao said with a sigh.

"You... are intolerably unbridled! You are definitely going to die a miserable death today!" There were some creatures on the other side who couldn't hold themselves back anymore.

What Triple Delight, Four Type Meatballs, Five-Layered Meat? There wasn't a single decent name, all of them too lowly, dishes of commoners. Wasn't he deliberately mocking the kings?

On the ground, the golden-haired woman turned into a golden divine bird, the Snake Yaksha's body also split into pieces, silver light flickering about, a silver snake body left behind.

Shi Hao collected everything in an unhurried manner, preparing to enjoy good food.

The battlefield was dead silent. This was extremely strange. Many people stared at him, especially the foreign younger generation whose eyes were all scarlet red, every one of them surging with killing intent!

"This is more like it. Are you all experiencing a type of grief, indignation, and helplessness?" Shi Hao stood up, looking at them. With a cold laugh, he said, "These have always been things you all have

placed on us, it has always been like this since ancient times, threatening us to the point where our survival has been difficult. However, today, I only killed seven of your world's young generation, yet you all already cannot take it anymore? Just think about everything you all have done, look at your two blood-soaked hands! After all these endless years, just how many malicious deeds have you done?!"

Shi Hao didn't feel any sympathy for the other side, berating them from the battlefield, looking down on the foreign masses, including the older generation. He was furious, carrying a wave of great anger.

"Young man, even though you are quite brave, you still won't achieve anything. Heaven's fate is with me, in the grand scheme of things, regardless of whether it is you or true immortals, everything will be turned to dirt!" A middle-aged man coldly said. He didn't feel any anger towards the continuous deaths of the younger generation, still cold and ruthless. His eyes flickered with ice-cold luster like two blinding stars in a cold night.

"Then there is nothing more to say. I will kill my way through one generation after another, start from the younger generation to you in your middle-aged generation, and then to the true indiscriminate murderers of the older generation. Blood will be repaid through blood, end killing through killing! The so-called grand situation, so what? I am waiting? Heavenly fate? I don't care about that at all! I only need to break through it!" Shi Hao replied.

"You are going to kill me? Even ant-like existences dare to bark noisily. Just a single hand of mine is enough to crush you to death!" The middle-aged man said coldly.

"What a moron. Can you come over? Just wait until you truly cross over. At that time, I believe a single hand of mine can crush you to death!" Shi Hao's reply was extremely domineering.

It was because according to the Nine Heavens Ten Earths' side's speculations, the foreign side's people should have some type of objective, and that was why they didn't hesitate to pay any cost in order to break through Great Scarlet Sky Border, opening up a hole. However, they still suffered from the suppression of the realm walls, the obstruction of natural laws. They actually couldn't enter this side deeply, only able to stop at the border!

"You dare criticize me?!" The middle-aged man's sword eyebrows stood on end, killing intent overflowing into the heavens, sweeping out like a demonic sea, engulfing the heavens above and earth below.

"State your name!" Shi Hao said.

"You can't accept it? Remember, my name is Chi De!"

"Good, I've remembered it. I am a man of my word. In the future, a single hand of mine will crush you to death!" Shi Hao directly said.

"You..." Chi De finally couldn't hold back, erupting with rage, taking steps forward, wishing to kill Shi Hao.

However, his body swayed, movements not that natural.

The expressions of those from the Nine Heavens Ten Earths' side all changed. He was suppressed by the force of the realm wall, which meant that he was extremely powerful, suffering from the retaliation of natural laws. The stronger the person, the more clear the effects were.

"Do you want to die?" Right at this time, Heavenly Deity Institution's Great Elder Meng Tianzheng spoke up, his voice like thunder, shaking up that middle-aged man. With a cold snort, he turned back.

"From here on out, we can just get things done as quickly as possible. There are three people left, I'll let all three of you come at me together!" Shi Hao said, looking down on the foreign side.

This shattered the current mood. Many people from the foreign side were angered, including a few middle-aged experts. This lowly creature from a world they had previously subdued, the descendant of the defeated actually dared to show them such contempt.

Shi Hao was extremely impolite. "I know that you all carry hidden motives. What I want to say is that the plot will be revealed in the end, so just hurry and make your action. What is the point of making your youngsters die in vain one after another? If you really want to send them continuously to death, then just have them come over together. I'll just wipe all of them out!"

Chapter 1349 - Destruction

This voice was powerful and forceful, like a great mountain that crushed down. The foreign kings all felt a great pressure, but it also made them furious!

"I will be the one to kill you!"

"I'm going to cut you down!"

...

At this moment, many people shouted out at the same time, getting up together, about to rush forward, this was more than they could bear. Species that were easily angered were always the most savage and fearless ones.

"You all are delaying me from eating my Five-Layered Meat, good, then just come! In a bit, I will eat an Eight Treasure Dish, Complete Mending Soup, or maybe just have a hot pot of everything!" Shi Hao roared with laughter.

Chi!

Right at this time, the Immortal Tortoise Shell moved, releasing a light cry. A shell piece flew out, rushing towards a foreign creature.

The shell fragments have always been known to be extremely mysterious, obtaining it would sometimes affect the fate of a clan, which was why even though everyone was fond of it, they also felt apprehension, never daring to look down on it.

Right now, this shell fragment moved, so all of the kings stopped. Even though the shell fragments were now damaged, they still treated them seriously, not daring to show disdain.

On the other side, a foreign creature was selected, its body not all that large, but the appearance was extremely strange, difficult to not draw attention even if it didn't want to.

It was like a standing tortoise, only, it had a pair of human legs, standing there. Its entire body flowed with golden radiance, especially that tortoise shell that was dazzling golden, extremely brilliant.

Above the golden shell were many patterns. They were mysterious, complicated, and exceptionally beautiful, as if it contained a natural law aura.

Its arms were like tortoise arms, the golden claws extremely sharp, meanwhile, its head was the appearance of a young male, but had features similar to that of a Dragon Tortoise, nine horns extending out from its long golden hair, piercing towards the sky.

Golden Armor King Race!

Everyone was inwardly moved, the foreign cultivators revealing strange expressions. They suddenly felt like now that it appeared, there might actually be some type of battle result.

"Evil Dragon, Black Tortoise, and another foreign king race's mixed blood descendant!"

On the Nine Heavens Ten Earths side, an elder from a long life family said. He couldn't help but frown, revealing its identity.

The so-called Golden Armor Race was a mixed blood race that ultimately formed their own race. They were powerful and frightening, their defensive strength world shocking, difficult to defeat.

The foreign creatures' understanding of this race was deeper.

There were some young kings who even felt restraining fear, holding this clan in reverence. It was rumored that the Anlan Family's ancient ancestor held a pike in his right hand, in his left a shield, absolutely unstoppable. Meanwhile, the shield in his left hand, when selecting the materials, previously considered the Golden Armor Race's shell, only, it was unknown if he really did choose it in the end.

Even that type of unmatched existence had previously shown interest in this race's shell, so one can well imagine how extraordinary it was.

"I already said that the following three people can fight me at the same time!" Shi Hao said.

This wasn't because he was complacent and insolent, but rather because he had a reason for doing so. If he achieved a great victory today, it would bring the people of the Nine Heavens Ten Earths a powerful boost in confidence!

Even if he only gave others an unstable illusion, he still wouldn't hesitate to do this. He wanted to give them a sense that the other side was nothing more than this!

It was because he understood the foreign side's power well. They were simply undefeatable, unknown just how dark the future will be. Right now, the people of their side needed a burst of confidence.

"Kill!"

The Golden Armor Clan young expert was also straightforward. After it heard this, cold light flashed past its eyes, killing intent fully revealed, immediately taking action. It was a king, had its own pride, there was no way it would fight with others.

Despite this being the case, Shi Hao obviously wouldn't hold back, a palm slapping outwards.

Chi!

That Golden Armor Clan expert's claws were sharp, the claws of a Dragon Tortoise, tearing apart the void. Several streaks of cold radiance flew over, as if comets that smashed apart the cosmos arrived.

Dang!

The noise was ear-splitting. Shi Hao's palm struck the cold radiance.

Then, loud sounds rang out unendingly, cold light shooting in all directions. The Golden Armor Race young king continuously attacked, dragon claws tearing apart heaven and earth.

Ka!

Only, when Shi Hao completely blocked everything, and then even rushed forward to attack, it had no choice but to withdraw back. It was because when its speed slowed slightly, one of its sharp claws' hooks was hacked off by Shi Hao.

Even that clawed arm cracked apart, blood dripping out.

The Golden Amor Race expert was horrified. How sturdy were its claws? However, it actually couldn't resist the other party's palm strike! The opponent was just too formidable.

Hou... The Golden Armor Race young king roared, its entire body shining, golden radiance brilliant. It released crazy attacks, using its ancestral technique, striking at Shi Hao.

Shi Hao remained cool-headed. A palm slapped forward, but then his opponent suddenly turned around, using the golden shell behind itself to block it. A dang noise sounded, divine light flourishing. The Golden Armor Race young king used the sturdiest part of its body to block this strike, and then its head swelled, smashing towards Shi Hao. The nine horns in its long golden hair were extremely sharp, stabbing towards Shi Hao's body.

Evil Dragon horns, after being passed down to the Golden Shell Clan, after the blood was mixed with that of other species, there was no way they would still be true Evil Dragon horns. However, they were still astonishingly powerful!

Shi Hao felt a stinging pain from his palms. Those horns were ridiculously tough, if it was anyone else, their palms would have definitely been ruined, pierced through.

Even someone as powerful as him with a sturdy body had several red imprints created, flesh almost punctured.

"Kill!"

Shi Hao released a great shout, his aura immediately surging by a large amount. He operated divine force, using the most powerful combat strength, powerfully suppressing this king.

Kacha!

He seized that chance, grabbing one of the Golden Armor Clan youth's horns, and then directly snapped it. Blood immediately flowed out from its head. none-11.1n

Dang!

Shi Hao was domineering, showing no mercy, powerfully attacking. As a result, in that instant, he broke three more horns, leaving that Golden Armor king in complete fear. If it wasn't for these nine horns, its head would have already been blasted through.

The Golden Armor Race young king felt fear, cold light flickering past its eyes. It used the most powerful ancestral technique, four limbs and skull all shrinking into its golden shell.

Then, this shell spun around, releasing dazzling symbols, smashing towards Shi Hao.

This thing's defensive strength was astonishing, difficult for those of the same level to break through it. It wanted to use this to exhaust the other party's strength, carrying a war of attrition against Shi Hao.

Of course, this didn't mean that it gave up on attacking. The golden tortoise shell was covered densely in symbols, releasing streak after streak of blinding radiance that penetrated the skies.

There was both offense and defense!

Dang, dang, dang...

Shi Hao took action, noises sounding continuously. However, the golden tortoise shell was extremely hard, actually remaining undamaged. Even though the qi and blood of the Golden Armor Clan's king inside was surging, the tortoise shell wouldn't break for some time.

"Hahaha... just a tortoise that hides its head, is this the so-called King Race of the other side? It is just too unsightly!" Someone from the Nine Heavens Ten Earths' side roared with laughter, purposely speaking like this, wishing to provoke the Golden Armor Clan king into coming out. It was because they were worried that if things were dragged out, Shi Hao would be wasting his magical force and be put in danger.

"What do you all understand? This is an innate divine ability that is more focused on defense. If you all have the skill, then just break it!" Someone from the foreign side retorted.

"Kill!"

A great shout sounded on the battlefield. Shi Hao struck out viciously, using the Imperishable Scripture. Mysterious symbols wrapped around both of his hands, as if they were the hands of war immortals, powerful and terrifying.

Dang!

This time, after his palms and fingers landed, that golden tortoise shell shook greatly, fine cracks appearing. It was starting to crack apart.

"Not good!" The Golden Armor King Race youngster felt fear, it couldn't hold on any longer.

Dang!

Afterwards, Shi Hao continuously took action, striking the golden tortoise shell until it shook greatly, produced large numbers of cracks that quickly extended.

Ka!

Finally, Shi Hao released a heavy strike. The tortoise shell suddenly exploded, blood splashing out. The conclusion was already set in stone!

The Golden Armor King Race's youth was killed by Shi Hao, turning into a monster that was a mixture of an Evil Dragon and a Black Tortoise.

"What great food, this is great mending meat. I am really looking forward to the Eight Treasure Dish!" Shi Hao laughed loudly.

As for the other side, many people's expressions fell. This defeat was even more so a humiliation, becoming head hiding tortoises. It was hiding behind a shell, yet was still broken through and killed.

The Immortal Tortoise Shell Fragment shone, selecting Shi Hao's ninth opponent.

At this time, everyone looked over, not only the other side, this the case for the Nine Heavens Ten Earths' people as well. It was because this was now one of the last two opponents.

"It's him!"

Many people looked towards that youngster. He was extremely handsome, his figure tall, between his eyes a scale. Apart from this, he wasn't much different from a human.

This person was actually one of the young kings who appeared first, previously coming with an elder and a middle-aged individual to face the Nine Heavens Ten Earths' side. That youngster was precisely him.

The scale between his brows had previously opened up, releasing a streak of divine light, seeing through the unmatched ancient seeds inside the bodies of a few youngsters from the Nine Heavens Ten Earths, which triggered more young kings coming over.

He had previously came out to represent the other side in battle, proving that his strength was definitely extremely great!

Shi Hao's eyes were ice-cold, revealing the most powerful killing intent. It was because he had previously heard this person speak, the language used Immortal Ancient words, and not the foreign world's language.

This mean that this person's ancestor was originally part of the Nine Heavens Ten Earths. Were all of his clansmen in the other side like Mo Dao's ancestors, or was it like those geniuses who the Golden Devil Bird said changed sides?

"The only thing I want to know is, was your ancestor one of the geniuses who changed sides."

"So what if this is true? Now, my clan has already become a top level King Clan, power overturning the present age." This young man said calmly.

Just this sentence was already enough!

Shi Hao didn't wish to say too much. He released a great roar, his fighting spirit surging to an unprecedented level, scattering all of the clouds between heaven and earth. He was like a demonic sovereign, charging forward murderously.

Sure enough, this young man with the scale between his brows was extremely powerful, fighting more than two hundred exchanges with Shi Hao, more terrifying than all of the others.

Chi!

This was especially the case when later on, the scale between his brows opened up, firing a terrifying beam of destruction, even making Shi Hao's palm bleed.

After the battle reached three hundred exchanges, Shi Hao's hair flew about chaotically with anger. He continuously released heavy blows, divine abilities fired streak after streak, breaking through his opponent's defenses, all of them smashing into his body.

Pu!

This person first coughed out large mouthfuls of blood. His arm was blasted aside, and then his chest was penetrated, eventually, half of his body exploded. In the end, his head was even more so turned into a bloody mist by a single slap from Shi Hao!

There was nothing left. Shi Hao took action in a crazy manner, blasting him into flesh paste, turning him into bloody mist.

"Towards people like you, I don't even want to eat, just a pile of shit!" This was Shi Hao's evaluation, coldly saying this.

"There is one last one. Come over and accept death!" Shi Hao stared at the other side.

He had already killed nine kings. There was still one more, only the final person left!

A cool breeze blew through the great earth. The foreign young kings all became quiet. The young man on the other side was more like a demonic god than they had imagined, even more frightening, killing nine great experts, yet not even his brows furrowed during the process. He was terrifyingly strong!

"Next!" Shi Hao shouted.

Right at this time, beneath the ruins, footsteps sounded from within the black abyss. Golden light surged, and then it scattered, gradually making this place resplendent.

A person walked out, just crossing over from the foreign world.

This was a young man who looked to be in his early twenties. He wore green robes, his golden hair extremely thick and long, hanging down his back down to his calves.

His heroic aura was restrained, skin snow-white like fine jade, face as if sculpted with a blade, having sharp corners. He couldn't be considered exceptionally handsome, but his aura was exceptional.

His golden pupils carried cross marks, extremely special. When they flickered, two streaks of golden lightning interweaved in the void, lightning appearing, horrifying to the extreme.

“He Wushuang!” From the Nine Heavens Ten Earths side, the golden little ant couldn’t help but cry out!

“It’s that person, he actually came! Huang is dead for sure!” It was similar to the Heavenly Horned Ant’s reaction. Those foreign young kings all cried out, extremely shocked. Then, their expressions became feverish, completely overjoyed.

Chapter 1350 - Surname He

Golden light surged, extending from the darkness. That place was divine and auspicious, pitch-black, a tall and slender figure wrapped in light walking over, as if a war god descended in this world!

The foreign generation’s young kings all revealed zealous expressions, bowing down, showing him great respect. It was as if they were welcoming their king, the scene shocking.

One had to know that these young geniuses were all kings of various clans, that they were arrogant, how could they bow down to another? They were all wild and unrestrained, yet now, this type of scene actually appeared.

Great Scarlet Sky Border ancient city was made from ancient bones, but it was now in ruins. Below it was a giant black abyss.

This area was absolutely dark, one unable to see their five fingers if they even extended their hand before them. The foreign creatures stood there, difficult to see their true bodies, every one of them faint and indistinct.

Long golden hair scattered down to his knees as we walked over, a sphere of resplendent sacred light shining from him, erupting in the darkness, appearing extremely different from the masses.

It was like an oasis had appeared in the desert, as if a tree of life emerged from a battlefield of endless bones, carrying a fresh, auspicious feeling. He was entirely different from the people not long ago.

“Great one, please take action, kill the descendant of the defeated!”

“Since great one came, then there is no more suspense. Killing Huang won’t be an issue!”

These were the sincere thoughts of the young foreign kings. They truly believed that as long as this golden-haired male took action, he could kill Shi Hao, that there would definitely be no exception when he displayed his glorious might!

Everyone felt reverence towards him, not envious, nor did they try to compete against him. It was because they knew that there were some existences who, no matter how hard you tried to catch up to, you still won’t be their opponent. The difference would only grow greater and greater!

“I am going to kill you! The one named surnamed He, hand over your life!” From the Nine Heavens Ten Earths’ side, a golden little ant went crazy, entire body erupting with resplendent divine light that blazed fiercely. Even though he was small, right now, his battle intent was heaven overflowing, divine multicolored light surging, making the entire world tremble.

It was because he was going berserk, his clan's unique divine ability. Once he entered this type of state, his strength would definitely increase greatly, to the extent where it would even become many times greater!

However, the consequences were that his will would become blurry, and after the battle he would become completely drained, body injured greatly due to an overexhaustion of his life potential.

There were many people from the Nine Heavens Ten Earths' side who were confused, not understanding why the Heavenly Horned Ant would suddenly go crazy, as if it was provoked, eyes even looking like they were going to split apart.

"It knows who that person is, and even called out his name!" Someone said quietly.

Only Shi Hao knew that after its siblings were killed in battle, they were even directly fed to the other party's mount, not even their corpses remaining, their ends tragic.

Peng!

Shi Hao grabbed him, stopping the Heavenly Horned Ant from going. He understood how the little ant was feeling, how could he feel calm after seeing the enemy who killed his brothers and sisters? All those with courage would feel their minds surge with emotions.

"Let me go! If I exist, he cannot, if he is alive, then I cannot be! I finally met this bastard, I am going to kill him, ah..." The little Heavenly Horned's strength became especially great after going berserk.

"Wake up! That isn't him!" Shi Hao used dao sound, shouting by his ears, shaking up his soul.

This was extremely effective. The little ant who went berserk was completely absent-minded, and then his eyes became a bit clearer. Shi Hao pointed at the space between its brows, finally calming down.

"You recognize me?"

In the darkness, a male walked out from the ruins' underground abyss. A golden path appeared beneath his feet, divine and sacred, auspicious energy surging.

This was extraordinary, not quite the same as the other foreign young cultivators. He was just like an emperor, a monarch who ruled over the world, making all of the strong yield, all of them avoiding his brilliance.

Cold winds swept past, releasing wuwu noises. The dusky Great Scarlet Sky Border became even more vacant. There were great dao rumbling sounds, sounds of stars swirling by the edge of the primal chaos, majestic and desolate.

Golden hair was blown up by wind, revealing his covered snow-white cheeks. He looked like he was sculpted from jade, style and temperament exceptional. He looked similar to He Wushuang, but they were definitely not the same person.

If one looked carefully, what was most similar between the two should be that type of distinct style. Their bodies were both tall and long, skin as if sculpted from jade, hair golden. However, there were still some differences between their appearances.

"He looks similar, but isn't the same person. Where is He Wushuang? Who are you to him?!" The golden little ant shouted.

"He is my paternal grandfather." That golden male said calmly. Even though he was berated by the Heavenly Horned Ant, shouting out his grandfather's name, he didn't get mad, instead carrying a gentle smile.

They really were similar, just like when they saw He Wushuang in the past. He had a special type of temperament, extraordinary and sacred, towering far above the mortal world like a solitary immortal.

All things of the secular world seemed to contaminate his holiness. It was as if a world of its own formed around him, the human world too far from him.

"Audacious! How can Ancestor Wushuang be someone you can just call out? Daring to blaspheme the dignity of the undying, there is only execution waiting for you!" Someone shouted out.

That golden male didn't say anything, yet the others couldn't sit still. Not only the young kings, even a few middle-aged creatures revealed killing intent.

"That forbidden name is not something that can be casually spoken! Speaking like this, are you seeking the path to your own doom?!" A silver-haired young lady shouted.

On the Nine Heavens Ten Earths' side, everyone's minds jumped. Forbidden, what level of existence was that? It should be the greatest level of creature, right?

Shi Hao was also stunned. He had previously encountered He Wushuang, feeling like it was quite unreal. For him, only a few days had passed, yet a great era already separated them.

Right, a great era passed. That person was so frightening, no matter what, he definitely would have become an undying being. There wasn't much that could stop his footsteps.

When he thought of this, he couldn't help but sigh!

The golden little ant even more so glared out, full of unwillingness. Regardless of whether he wanted to accept it or not, the one who killed his older brothers and sisters had already become an unmatched existence.

"What forbidden existence, I am going to kill him sooner or later!" The Heavenly Horned Ant vowed.

"Hold your tongue! Even someone like you dares to insult an undying existence? Moreover, now that great one has stepped into the forbidden ranks, just saying his true name would incur punishment, obliterate your soul!" Someone shouted.

Everyone was shocked. Shi Hao and the little ant were even more stunned. He Wushuang became that level of creature, could it be that he was going to catch up to the Anlan Clan's ancient ancestor?

"I don't believe it! He Wushuang, get over here!" The Heavenly Horned Ant shouted loudly.

When one time failed, he shouted it again and again, his voice rumbling out.

Right now, many people on the other side were furious, feeling like directly calling that unmatched existence's name was a type of blaspheme that couldn't be forgiven.

“Wu, the ancestor has sensed something, his weapon’s soul is reviving.” Right at this time, that golden-haired male spoke, still calm, not getting angry.

Chi!

Between heaven and earth, a great halberd appeared, as if it could kill all creatures, the snow-white halberd blade illuminating eternity, able to suppress the great cosmos. It was too astonishing, swirling with chaotic energy!

It appeared too suddenly, out of thin air, suppressing this place, simply about to destroy the sun, moon, and universe. This great halberd was too frightening, hacking through the heavenly dome!

Everyone sucked in a breath of cold air. There were many people from the foreign side who kowtowed. On the Nine Heavens Ten Earths’ side, everyone trembled. This was definitely a paramount existence.

“Is he about to catch up to Anlan Clan’s ancient ancestor?” At this moment, Shi Hao trembled inwardly. The power of time could not be defied, now that endless time passed, He Wushuang already grew to an unimaginable level.

He knew that this was actually extremely normal. It would be weird if He Wushuang couldn’t achieve this level.

That day, him and He Wushuang ended in mutual destruction, ending with a draw. Now that he was given a great era of time, how could he not rise up? He was but someone who dazzled the past and present!

However, one could see that He Wushuang was still a bit lacking when compared to Anlan Clan’s ancient ancestor. When just the surname Anlan was spoken, a golden pike would tear through heaven and earth, truly frightening to the soul.

Fortunately, they were in this side of the world. If they were in the foreign side, just saying it out loud might incur Anlan ancient ancestor’s ruthless slaughter!

He Wushuang was extremely strong, indeed having the talent to dominate the world, intimidate past and present. However, perhaps due to his cultivation time being less than that ancient ancestor’s, perhaps due to other reasons, he was still a bit lacking.

It was because only when his true name was said three times did his weapon appear, displaying its might.

The long life families were all extremely mysterious, knowing that there was a heaven warping genius who emerged during Immortal Ancient years, previously slaughtering the young supreme beings with three strands of immortal energy on this side.

Now, they found out he actually grew to this step.

For the Nine Heavens Ten Earths’ side, this was definitely not good news, but rather terrible to the extreme. He Wushuang had already become a great disaster!

“Great One, please take action, kill that petty and low slave!” A silver-haired woman said, walking up and speaking respectfully.

This type of greeting, this type of contempt, was all because the golden-haired male's appearance. The young kings here all felt that this was extremely normal, that now that he was here, all enemies would be defeated.

"There is no rush." The golden-haired male looked at Shi Hao, carrying a gentle smile on his face. He was extremely calm, unhurried and composed. He then looked at the other side of the battlefield, saying, "I came here to announce an extremely important matter!"
