

Perfect WD 1371

Chapter 1371 - Long Life War Halberd

Long Life War Halberd, this item made an appearance, killing energy engulfing the stellar rivers, immortal mists covering the heavenly dome, its power immediately tore apart the great cosmos!

“Not good!

A few people’s expressions became deathly pale. When facing this weapon’s matchless strike, how was one supposed to block it? This was completely impossible to deal with!

It was because once this war halberd attacked, even the great cosmos would be hacked to pieces, impossible to block. This was a true immortal dao weapon, one that was incomparable!

One had to bear in mind that there weren’t many immortal weapons even in Immortal Ancient years, not every true immortal able to find unmatched materials to refine weapons that matched themselves.

Even true immortals, most of them used weapons of the mundane world, not those at the immortal dao level!

Meanwhile, in this era, immortal weapons were even more rare, impossible to find. There were only those few in the Nine Heavens Ten Earths, with most of them even being damaged.

It was because all of them were destroyed in Immortal Ancient’s battle, even true immortals themselves dying, let alone their weapons. Everything was destroyed in the end, exploding together with their owners.

Long Life War Halberd, this was already a supreme treasure, a formidable weapon in the past, let alone in this era!

That was why once this undamaged war halberd attacked, even great stars in outer space would tremble, the heavenly dome collapse, all sides shaken. The small asteroids and other things that were closer would all come crashing down.

This was precisely the power of the Long Life War Halberd. It could sweep through all enemies between heaven and earth!

“Activate the formation!” Heavenly Deity Institution’s elder shouted. This was not a normal place, it was Heavenly Deity Institution. Normally, who dared attack this place?

The academy established by the material gathered by a group of old monsters was something no one dared provoke.

However, today, a disaster arrived!

There were ancient formations buried here. Even though they were damaged, they were still a corner of an immortal dao formation. At this moment, it was activated, completely reviving, flickering with sky reaching brilliance.

The war halberd looked ancient, just too powerful. It hacked down from above, chaotic energy surging, heaven and earth cleaved in half. The power was just too great!

This type of immortal might was something no one dared imagine, their souls even trembling as a result. Many people fell weakly onto the ground, unable to resist even when they were hundreds of thousands to millions of li away.

Not many people could remain standing!

“Dare kill my child, all of you can accompany him to the grave!” This was Wang Er’s voice, carrying a type of ruthlessness within the coldness, as well as a chilly killing intent that swept outwards.

Peng!

Inside Heavenly Deity Institution, a great formation shone, large amounts of light beams interweaving together, forming a screen of stellar light, as if rivers of stars were converging into a stellar diagram, blocking this war halberd.

“Merely a damaged formation, yet it wants to block my clan’s unmatched supreme treasure?!” Wang Er’s voice was extremely cold, carrying arrogance, as well as a type of corresponding disdain.

Ca!

Sure enough, this war halberd was unmatched, power too great. It hacked apart the universe, sliced through primal chaos, descending on the barrier of light, wiping out the endless star fragments that emerged on its surface.

Heavenly Deity Institution’s magical formation couldn’t stop it. The war halberd descended, the great dao symbols of the great formation even growing dim, immortal dao fragments unable to block its unmatched might.

“Just a trifling Heavenly Deity Institution, not worth anything, yet you all dare to act boldly. Before my Wang Family made our move to wipe you all, all of you ought to have just played your part. Since you all have provoked our king clan, then we will just exterminate you all!” Wang Er said coldly.

Hong!

Heavenly Deity Institution’s magical formation swayed, endless divine might starting to surge from the foundations of the buildings, forming an even more resplendent barrier of light. It was as if the great universe was opening, accompanied by primal chaos light.

Immortal dao magical formations were incomparable.

If it was complete, it could seal devils and kill gods, nothing able to approach.

However now, it could only gather power, release a sky shocking attack, contend against the unmatched immortal war halberd.

Dang!

An ear-splitting sound rang out, because the damaged formation symbols gathered into an artifact, a shield, the symbols on the surface complicated, mysterious and unfathomable, as if the cosmos was evolving. There were mottled traces on its surface.

World shocking defense!

If it was in the past, when the formation wasn't damaged, it definitely could've blocked the attack from an immortal weapon!

The war halberd struck down on the shield, releasing a deafening noise, shaking up the Nine Heavens. Many ancient families gasped, all of them horrified.

Right now, the various long life families were all paying attention, using their clans' Heaven Connecting Mirrors, Divine Illuminating Mirrors, and other things to observe this shocking battle!

The great halberd surged with dazzling immortal light. It was incomparably sharp, killing energy engulfing all directions, impossible to stop, crushing all living souls to the point of near extinction.

This halberd hacked apart the shield, the shield unable to hold on in the end. The Long Life War Halberd was unstoppable, shattering the formation's defenses again.

All of the creatures were horrified, all sides trembling. What kind of power was this?

The various long life families, those old monsters' expressions changed even more. Immortal dao artifacts were incomprehensible after all, impossible to deal with; these were the thoughts everyone was thinking.

However, everyone also saw that this time, the war halberd was also blown back, unable to descend. The immortal dao damaged formation still displayed use, stopping this world shocking strike.

Otherwise, if that Long Life War Halberd hacked down, even this great earth would shatter, be completely destroyed, let alone the living creatures.

"You all actually blocked this strike. I want to see what you all will do next!" Wang Er laughed coldly.

He raised his hand again, holding that great halberd in hand, the weapon cold. Then, it surged with immortal mist, chaotic light erupting in all directions, hacking straight down towards Heavenly Deity Institution.

It was trying to completely annihilate this place, destroy this land!

"Of course, that little bastard named Huang can't die. I've already seen you, for you, you won't be able to die even if you want to, it won't be that easy!" Wang Er's voice was extremely cold.

His entire head of gray-white long hair scattered about, chaotic energy even more so surrounding his body, his figure mysterious and powerful.

Hong!

Heaven and earth collapsed, nothing able to stop this power!

For Heavenly Deity Institution's formation to activate, heaven and earth spiritual essence was needed, requiring a sea of energy. Just now, it was already used up, so one could see just how terrifying the war halberd was.

How were they supposed to stop it this time?

Everyone became a bit stunned. Could it be that Heavenly Deity Institution really was going to be wiped out?

Everyone was shocked. The Wang long life family's Nine Dragons were terrifying after all. They normally remained secluded, but once they emerged, the heavens would collapse and earth sink, blood raining down and foul winds blowing about, no one able to stop them.

"Senior, please take action!"

In front of a copper palace before Heavenly Deity Institution, Shi Hao, the little Heavenly Horned Ant, and five old soldiers stood together. Right now, they asked the great experts to take action. He handed over the Everlasting Sword Core.

The old soldier leader accepted the sword core, rising up into the air to face the other side.

"En? It's that little bastard's sword!" Wang Er's eyes narrowed. He knew that this sword was strange, but he didn't feel fear, remaining confident in the Long Life War Halberd's power.

Hong!

He supported this halberd with great strength. Immortal light overflowed, becoming even more terrifying than before, possessing world destroying might.

Qiang!

Under this type of pressure, the Everlasting Sword Core shone. It was extremely strange, a sky filling rain of light scattering down. In addition, a human figure appeared on the sword body, as if it was ascending with multicolored light.

This scene was strange, extremely shocking!

Dang!

The sword core and war halberd smashed together, sparks flying everywhere between the two, the radiance dazzling. Those light beams were like lightning, tearing the void apart.

Their weapons collided, erupting with unimaginable power!

"I just knew that the little bastard would lend his weapon to you all! In that case, I'll be more than happy to accept your present!" Wang Er's eyes flickered with blazing radiance, staring at the Everlasting Sword Core.

"En?" On the ground, everyone became shocked, because they felt a wave of irregular power.

The war halberd suppressed the sword core. In addition, a magical decree appeared on the large ship, even though it was old-fashioned, covered in cracks, it still released immortal light, illuminating heaven and earth.

"Seal!"

On the warship, Wang Da appeared. He released a great roar, activating this immortal dao magical decree, imprisoning the Everlasting Sword Core.

“Not good!”

At this moment, everyone from Heavenly Deity Institution was shocked, their expressions incredibly ugly. Wang Family wanted to steal an immortal weapon, the situation not good.

“I never expected Wang Family to not only bring out the Long Life War Halberd, they even used the legendary founder’s magical decree!” An old monster from a certain long life family said with a sigh of astonishment.

The so-called founder wasn’t Immortal Wang, but rather his father, the true immortal dao matchless expert. That was someone from Immortal Ancient.

“Huang, you little bastard, did you truly think that you can do whatever you want just because you have a single sword core that isn’t that bad? Today, we are going to take it to strengthen my Wang Clan!” Wang Family’s people laughed coldly.

Everyone could feel how happy they were, because they could tell with a single look that the sword core wasn’t ordinary. Once it entered Wang Clan, they would surge with power, able to complement the Long Life War Halberd’s unmatched might.

“Wang Family used the founder’s decree to restrict the sword core, using the Long Life War Halberd to suppress and seize it, might very well succeed!

“Aren’t you all getting happy a bit early? My things aren’t that easily stolen!” Shi Hao said coldly.

“How can a warrior allow his weapon to be seized?!” The old soldier held the sword core in hand, saying with a blank expression.

“Behaving maliciously in front of me, do you all truly think my Heavenly Horned Ant Bloodline’s official residence is just here to look pretty, without any familial belongings?!” The golden little ant even more so shouted. Regardless of how one looked at it, he wasn’t nervous, but instead excited.

“Origin Source Cauldron, collect!” The old soldier released a shout.

Chapter 1372 - Subduing Dragons

“Ah, stop!” Wang Er shouted. He was now truly terrified, because the war halberd in his hands was trembling, about to leave his hands.

This made his fine hair stand on end. This was but an immortal weapon, something his grandfather who he had never met refined throughout his entire life.

The war halberd was unmatched, able to sever the long river of past and present.

However now, it was instead imprisoned. The resplendent vortex below swept upwards, many stars swirling inside, as if a stellar domain appeared, about to collect this war halberd.

Dong!

The war halberd shone, immortal mist surging, auspicious multicolored light overflowing, even more sky shocking killing energy surging. Wang Er did everything he could, trying his best to resist the devouring force below.

Hong!

The skies trembled, heaven and earth resonating.

One could vaguely hear a scripture chanting sound from the underground depths, as if there was a golden ant chanting sutras, comprehending the great dao, affecting this entire heaven and earth.

“Get off me!” Wang Er roared. He definitely couldn’t lose this halberd, or else he would be someone condemned by Wang Family for all of history.

The great halberd shone, erupting with all types of patterns. These were engraved by a true immortal, now completely reviving, breaking free from the mysterious vortices, about to escape.

Hong!

A roar sounded, as if a giant beast was howling out. One could vaguely see a cauldron emerge from the primal chaos mist, faintly discernible underground.

Origin Source Cauldron, the weapon of a paramount being, previously belonging to the Heavenly Horned Ant!

This was a weapon that had shocked generation after generation of people in Immortal Ancient, because this was the most important weapon of history, nothing more important than it. What stellar rivers, sun, moon, mountains, and rivers? Everything would be destroyed before it.

It’s material was extremely special, excavated from the primal chaos sea, powerful and sturdy, imperishable through ten thousand eras. Together with the fact that it had been refined endless times over, it was simply incomparable.

This cauldron was extremely terrifying. Even though it was only a projection, it could still crush mountains and rivers.

Towards this, Shi Hao had previously been greatly emotionally stirred, because he had entered the underground immortal manor world before, previously raising this cauldron. That was the Origin Source Cauldron’s projection, not its true self.

Moreover, of the group of young supreme beings who went underground, he was the only one who could raise it, everyone else not even able to move that projection!

One could see just how astonishing the weapon was. Its weight could collapse heaven and earth, able to suppress the ancient times.

Now, the old soldier released a shout, borrowing the Origin Source Cauldron’s might to deal with Wang Family’s immortal dao magical artifact, wishing to seize Wang Family’s Long Life War Halberd instead!

There were great mysteries hidden beneath the ground, the entire immortal manor world having nine mountains, among them a dao rite that belonged to the Heavenly Horned Ant.

Its weapon was hidden there!

Honglong!

The war halberd that struggled free was pulled back once more under a tremendous power.

“How could it be like this? My Wang Family’s Long Life War Halberd isn’t inferior to any weapons, how could it be subdued by a cauldron? Disappear!” Wang Er roared.

He was now really worried. This was something that had never happened before!

“You really didn’t even bother taking a look at what kind of place this is, what rests beneath Heavenly Deity Institution? How can this be a place where your Wang Family can behave atrociously?!” Shi Hao said coldly.

It was because he was fully aware that the head remains of one of the Vicious Ten, Heavenly Horned Ant Great One were right here, and it would definitely have a powerful effect on this cauldron here.

Qiang!

The old soldier took action, the sword core in his hands hacking forward, directly crushing down on the long life halberd, starting to seize the weapon.

“No, hurry and take action, help me!” Wang Er roared, his eyes even about to stand up. He no longer had his previous arrogance and conceit, cold sweat pouring down his face.

“Do you think my Wang Family has no one left?”

Right at this time, it wasn’t just a single voice that sounded. Three people walked out from that warship in succession, supporting the magical decree together with Wang Da.

Together with Wang Da and Wang Er, there were five people in total. Five dragons from Wang Family appeared!

One of them held a few low level magical decree fragments, using them like weapons, activating them at the old soldier. They tore through the sky like blades, incredibly dazzling.

These shattered magical decrees had previously been used by Wang Family. Even though they lost their matchless immortal might, they still possessed exceptional power.

Previously, when Wang Zhen led the trump card army of thousands here, the magical formation fragment was precisely one of these.

Hong!

The magical decree in Wang Da’s hands was naturally a world shocking one, originating from their grandfather’s hands. Even though it was cracked, its surface was full of complex patterns, power extremely great.

Moreover, the entire decree’s materials was quite special, able to carry the greatest power of an unmatched expert!

Even after endless years had passed, experiencing great battles one after another, already displaying cracks, its immortal might didn’t decrease, or else it wouldn’t have been able to stop the sword core just like the Long Life War Halberd.

“Absorb!”

Several people activated the magical decree, the entire ancient scroll releasing a streak of blazing golden light. It surrounded Wang Er, forcibly dragging him back to the warship.

Then, the warship shrunk, no longer oppressing the heavenly dome, instead moving out who knew how many li!

“Heng, the Origin Source Cauldron is quite strong, but it is sealed underground, not its time to come out yet. If we stay further away from the academy, it cannot display any of its viciousness.” Wang San said coldly.

Wang Family completely stabilized their footing. Wang Er no longer panicked, his expression now incredibly ugly. “Just a small mishap. I want to see what you all will do now. I already said that today, Heavenly Deity Institution will be flattened, wiped out from this world, so it will definitely be done!”

“Second kid, stop bullshitting already, if you have the guts, then just come. This old one’ll beat the shit out of you!” In Heavenly Deity Institution, the golden little ant said absent-mindedly.

This type of mockery made Wang Er who had lived from the ancient years until now sink. His head of long grayish-white hair fluttered about in primal chaos mist, his expression incredibly terrifying.

“Long distance offense, wipe out Heavenly Deity Institution!” Wang Da gave the order.

Wang Family’s nine dragons all possessed exceptional divine might, every one of them experts, difficult for them to encounter their match in this world. Right now, with five of them gathered, an immortal weapon in hand, who could contend against them?

Hong!

The warship shone. Wang Da activated the magical decree, Wang Er stirred on the Long Life War Halberd, attacking together, completely submerging Heavenly Deity Institution below.

Hu!

The vortex underneath Heavenly Deity Institution never disappeared. It rose into the sky, covering the heavens above and earth below, incomparable, completely swallowing up all of the divine force that attacked over!

“This...” Wang Family’s five dragons sucked in cold air.

Meanwhile, at this time, the expressions of the old monsters who saw this scene through the Heaven Connecting Mirrors, Divine Illuminating Mirrors and other things changed greatly, feeling great shock and alarm.

The Origin Source Cauldron was here, able to defend against everything.

“Impossible, how could his cauldron be this strong, as if it completely revived! It is as if a true immortal is operating it!”

“Could it be that we should completely awaken my clan’s Long Life War Halberd as well?”

Their expressions became ugly, because they definitely had to pay a price to do that.

“Kill! Continue the attacks! I refuse to believe that cauldron can continuously activate!” Wang Da roared.

Chi!

Right at this time, the five old soldiers all rushed into the sky, divine towards the five dragons, wishing to subdue them here!

“Just come at us! Just a sword core, I want to see what you will bring out to face an immortal dao magical artifact now, after leaving the Origin Source Cauldron’s protection!” One of Wang Family’s dragons laughed coldly.

“You’ve all behaved atrociously for a long time, it is time for all of you to be suppressed!” Right at this time, a figure appeared behind the warship. Great Elder Meng Tianzheng appeared.

“You... you old thing, didn’t you go to the Desolate Border? Why did you come back?!” Wang Er was alarmed.

Wang Family’s five dragons were shocked, their expressions ashen. They felt that things were now really bad. Even though they were extremely confident, when Great Elder appeared, it still made them feel an extremely great pressure.

“Kill him!” Wang Da roared. He activated the immortal dao magical decree, attacking Great Elder.

The various experts who were watching from the distance all revealed dazzled expressions, never expecting Great Elder Meng Tianzheng to suddenly appear. They all knew that the five dragons were likely in big trouble. This was opening up a bag, waiting for them to dive in headfirst.

“Kill!”

Two Wang Family dragons operated the magical decree at the same time, making it release heaven overflowing immortal light, blasting it at Great Elder.

Hua! Great Elder’s hand shook, directly producing the Immortal King Corpse Wrapping Cloth, its power engulfing the heavens, sending a few celestial bodies that were relatively closer crashing down.

The corpse wrapping cloth shone, rushing at that magical decree, directly suppressing it!

“How can the founder’s magical decree tolerate your unbridledness? Suppress and kill!” Wang Da roared.

“Just a decree, yet you all delusionally think it can compare to the war banner soaked in the essence blood of two immortal kings? Just hand it over!” Great Elder released a cold snort. The corpse wrapping cloth surrounded the sky with a hua sound, covering the magical decree below. Then, it completely seized it.

“No! Come back!” Wang Family’s dragons trembled.

Shua! Great Elder swung the corpse wrapping cloth, throwing the magical decree into Heavenly Deity Institution’s underground depths, letting the Origin Source Cauldron devour it. He didn’t have to worry about this decree’s retaliation ever again.

Hong!

At the same time, the five soldiers arrived, carrying the Everlasting Sword Core as well as their own weapons, attacking the five dragons.

“We are going to risk it all, kill!”

The five dragons roared. They held the Long Life War Halberd, attacking forward, fighting a great battle against the five old soldiers.

This was, without a doubt, a world-shocking battle. Human figures flew everywhere, blade radiance flickering about, sword radiance splitting the skies. The divine halberd crushed the heavens, just too terrifying.

“The five dragons are so strong!”

A few old monsters from some of the long life families couldn’t help but suck in a cold breath of air, feeling deep shock.

Many people already knew that the five old soldiers were ancient people. Even though they had long passed away, some combat awareness and other things still remained. They had previously fought endless battles without dying, participating in Immortal Ancient’s last phase war, true undying soldiers.

However now, Wang Family’s five dragons actually fought with them until the sky and earth were turned upside down, ghosts crying and deities howling.

This type of battle accomplishment made the old monsters watching from the dark release cold sweat. When some of them asked themselves if they could do this, they didn’t think they could.

This was an intense struggle, a terrifying great battle!

Pu!

In the end, Wang Er coughed out large mouthfuls of blood. The Long Life War Halberd in his hands was subdued by the old soldier’s sword core, the battle situation suddenly changing.

“Kill!”

The five old soldiers released a low roar.

Under the cold radiance and roaring voices, they were like revived unmatched war souls, becoming more and more terrifying, gradually subduing the five dragons.

Their previous battle consciousness awakened, becoming more and more terrifying! n-(OVEL)In

Pu!

Wang Er was blasted flying, an arm removed by the Everlasting Sword Core. Even the Long Life War Halberd left him.

Then, the other four dragons all suffered serious damage, struck by the weapons in the other four soldiers’ hands, making them vomit large mouthfuls of blood, their bodies sent flying.

Peng!

The five old soldiers' bravery and power were unmatched. They rushed over, capturing all five of the dragons!

"You five bugs, where did all of your tempers go? Where is your grandness and magnificence now, saying that you were going to wipe us out? In my opinion, you all came to throw away your lives, wishing to be thrown into a pot and stewed together!" The golden little ant shouted.

Chapter 1373 - Taken Prisoner

The five dragons were all captured, all of them subdued, moreover thrown into Heavenly Deity Institution. They were covered in blood, bodies still carrying chaotic energy, displaying their power.

Those who watched this scene from the distance couldn't help but shiver with coldness. These were five dragons, yet they were captured!

Their divine might was incomparable. When all of them were together, they could overturn the nine heavens!

Right now, no one laughed at them, because they knew who their opponents were. These five old soldiers were undying ancient people that had existed from Immortal Ancient Great Era until now, remaining undying through endless battles.

Just how cruel and bitter was Immortal Ancient Great War? All clans went out to fight the foreign side, fighting until the heavens collapsed and earth ruptured, ghosts cried and deities trembled, even the world about to fall apart. Under this type of environment where all experts fell in battle, experts of all clans withering away, these five soldiers were able to survive with ruined bodies. This was a miracle in itself, enough to explain the issue.

This was precisely the reason why the five dragons' battle against the five old soldiers was that intense. They had long proven themselves. It wasn't that they weren't strong enough, but rather that the opponents they encountered were too extraordinary!

It was because as the five old soldiers fought, eventually, even the slumbering heroic spirits within their bodies revived, battle consciousness returning. Immortal mist surged, incomparable in this world!

"Little bastard!" When faced with the little ant's ridicule, Wang Da replied coldly. Then, he rose up, raising his hand to slap outwards.

If this palm struck its target, even he it was of the golden Heavenly Horned Ant bloodline, he would still be slapped into a bloody paste, ending his life. n-(⊙/-v)(E-)ℓ.(b.-1(.n

Peng!

A war spear thrashed over from the back, used like a rod. It had a pitch-black metal body and metal weight, directly striking Wang Da's back, making him cough out large mouthfuls of blood, his entire body flying out.

Before he landed on the ground, the old soldier's war spear flew out. With a pu sound, it pierced through his body, nailing him straight to the ground. Blood splashed everywhere, he could no longer move.

These were precisely the old soldiers who had experienced Immortal Ancient's war, powerful and decisive, ruthless when taking action.

Wang Da released a muffled groan, his entire body struggling about, shaking all over. One had to admit that he was extremely powerful, actually enduring the power of this type of war spear that could destroy one's soul.

"Do you all still want to wipe out Heavenly Deity Institution?" Shi Hao looked at them.

Chi!

Wang Er looked at him, two streaks of silver radiance suddenly shooting out from his eyes. Chaotic energy surged, piercing through the world, wishing to kill Shi Hao.

Dang!

A snow-white great halberd stood in the way, scattering the chaotic silver radiance that shot out from his eyes!

An old soldier took cation, interfering. Moreover, he brandished the great halberd in his hand, hacking forward. With a pu sound, it hacked diagonally into Wang Er's shoulder, blood splashing everywhere.

The two body parts split up. The scene was extremely terrifying. Wang Er's body contorted, expression incomparably furious, eyes carrying bitter resentment and ruthlessness.

Wang Zhen was his oldest son, so after he was killed in Heavenly Deity Institution, he personally led an army over. He called over some of his brothers, even bringing out the clan suppressing immortal treasure, yet they were still captured.

"You still want to act vicious? Are you all really going to obstinately persist in going about things the wrong way?" Cao Yusheng lowered his head, looking towards these living fossil level figures.

Wang Family's five dragons were all subdued here, every one of them dripping with blood, seriously injured. In the past, this was an unimaginable thing.

Everyone knew that Wang Family's nine dragons were unmatched. How could this type of thing happen, actually becoming prisoners!

The five dragons were furious. They felt a wave of humiliation, never expecting the day would come when they were like this, falling to the point of becoming prisoners. Wang Family was high up above, always remaining unmatched, yet today, a legend was destroyed.

Even the Long Life War Halberd and founder's decree were seized, making them people who would be condemned by Wang Family for all of history.

“The founder is matchless in the universe, true words shaking the world. Please come back and subdue these monsters and demons!” Wang Da roared out. He was still unwilling, trying to summon the founder’s decree.

Hong!

Endless divine radiance erupted from underground. That decree was struggling intensely, because Wang Family founder’s true spiritual imprint was on it. When it heard the summons, it wanted to rescue its descendants.

The great earth ruptured, skies collapsing. In that instant, it was as if the universe was going to be broken apart!

However, this disturbance only continued for an instant, it was quickly suppressed. The Origin Source Cauldron shook, devouring sun and moon, directly subduing it.

Inside the cauldron, countless great stars swirled about, slowly moving in the primal chaos. He decree was suppressed, instantly prevented from moving.

“War halberd, please revive, fully display your might in this world and kill all enemies!” Even though Wang Er was cleaved in half, blood all over the ground, he was still unwilling to yield. He chanted a segment of the ancient incantation, wishing to summon the Long Life War Halberd.

Zheng zheng zheng

This was the war halberd moving. It released radiance, even more terrifying than exceptional sword energy, tearing open the skies and shaking up this world!

The war halberd was released, unmatched under the sky.

It was rumored that after the true halberd revived, if it was thrown into the starry sky, it would immediately make a stellar dome collapse, wipe out countless stars, terrifying to the extreme.

Great Elder walked over. He activated the iron blood war banner that had soaked in the essence blood of immortal kings. With a huala noise, the war halberd was wrapped around, calming its rebellion.

“You...” Wang Er was shocked.

“The cloth that had previous wrapped around the corpses of immortal kings, also soaked in the essence blood of countless ancient people is not something this war halberd can resist even if it has a spirit.” Great Elder said.

“Heavenly Deity Institution, you bully others too far! Meng Tianzheng, do you think my Wang Family has no one left?!” Wang Er was humiliated and angry.

“Senior Meng, bullying the young as the old, aren’t you scared of leaving behind a bad name? One has to understand that my Wang Family still hasn’t declined, my father is still alive!” Wang San spoke, his expression unkind, a bit overbearing.

It was because they believed that within a short period of time, Meng Tianzheng wouldn’t take their lives out of fear towards their father.

“My Wang Family is becoming more prosperous with each passing day, Little Nine already broke through the peak, catching up to my father. Meng Tianzheng, bullying others like this, do you not fear your descendants and Heavenly Deity Institution being wiped out in the future? Everyone has the day when they age, there is no way you can forever maintain your blood energy without declining!” As for Wang Si, he had even more confidence, a bit arrogant, speaking out threateningly.

In the distance, the various long life families all remained silent, because he wasn’t exaggerating. The fact that Wang Family produced someone like that was just too terrifying.

There were rumors circulating that Wang Family’s nine dragons were each stronger than the last, the last one the most powerful!

It was rumored that Wang Nine directly caught up to Immortal Wang, blessed with talent, achievements extraordinary, skills heaven-defying.

In this world, the day would come when cultivators aged, all of them eventually dying. Even if Great Elder’s skills were matchless, he was still starting on a path of decline, fated to wither away into his later years not far from now.

Meanwhile, Wang Nine was precisely in his best years. At that time, he would definitely reach the very peak of all life, become unmatched in the heavens above and earth below. If he wanted to get revenge, no one could keep him in check.

“You’ve thought too much. As this old one is alive, then I will not allow evildoers to stir trouble in this world, I will definitely take action and suppress them! As for later generations, I believe there will still be people who will rise up. As the world changes, Wang Family won’t be able to throw this world into chaos, there will be someone who can face Wang Nine!” Great Elder said.

Shi Hao felt Great Elder’s eyes glance over. A wave of heat stirred within him, he had to rise up no matter what! Regardless of whether it was to deal with the foreign side or to suppress Wang Family, protect Heavenly Deity Institution, he needed unrivaled strength!

“Great Elder, you are too kind. When dealing with people like this, why would you even bother reasoning with them? If it was me, I would have long slapped them to death!” Cao Yusheng said. He also went for broke, standing together with Shi Hao and Meng Tianzheng.

“Younger generation brat, who do you think you are, daring to humiliate us?!” Wang Si released a roar, making the void tremble. Even though he was seriously injured, cultivation sealed, he was still extremely astonishing.

He struggled to his feet, wishing to slap Cao Yusheng to death with a single slap.

However, the old soldiers were ruthless. One of them directly hacked down with a heavenly spear. With a pu sound, his head was cleanly removed.

“Ah...” Wang Si screamed miserably. This was an execution, something he had never endured before.

Even though he was powerful, he was always high up above. He was born in Wang Family, so there was no chance of him enduring this type of suffering. His heart was erupting with rage.

His head was removed, but he wouldn't die. Moreover, his broken body could be quickly combined, but the old soldier didn't give him the chance to.

"Correct, Cao Yusheng spoke correctly. Great Elder is too kind, when dealing with these five insects, you should just fiercely slap their mouths, there's no need to lecture them on reasoning, even less of a need to act politely." The golden little ant shouted noisily, wishing for the whole world to fall into chaos. He asked the five old soldiers to take action.

Pa!

In the end, this type of thing really did happen. The five soldiers did things as he said, because they were Heavenly Horned Ant Great One's troops, protecting the clan's bloodline was their responsibility. The five dragons had previously all humiliated the Heavenly Horned Ant Bloodline, so they didn't feel any inner hindrances when dealing with these people.

Something that left every clan shocked happened. Pilipala sounds rang out. How noble were the statuses of Wang Family's nine dragons? However, they had their faces struck viciously here.

The sounds of their mouths being struck was especially resounding, clearly audible even from several dozen li out.

The cultivators of all clans were stupefied, unable to speak. This was just too shocking! Those were but Wang Family's five dragons! However, they had their faces struck while pressed to the ground.

"This..." Everyone was speechless, not knowing what to say.

Chapter 1374 - Dispatched to Desolate Border

The five dragons were all pressed to the ground and beaten, simply like something out of a fantasy. Everyone was completely stupefied.

When the people from various long life families saw this scene, they all lost their voices. What could they even say? They were asking themselves if what they were seeing was real, but reality was right before their eyes.

Pi pa!

The noises were sharp and clear. The five old soldiers were extremely ruthless. They took action, not even the five dragons able to hold on anymore, their flesh lacerated and bones broken.

If those from the side dared touch them, then they would definitely be blasted apart, blasted into bloody mist before they even got close. Even though the five dragons had their cultivation sealed, their flesh could still produce protective fields on their own.

However now, they were like sheep, unable to stop the five old soldiers.

"Immortal Ancient departed spirits, you all should have scattered a long time ago! You all actually dare to humiliate us!" Wang Wu was violent tempered, not bowing down even under this type of situation, instead shouting out angrily.

He was angered to the point where his entire body was shivering. For him, this was a type of humiliation, he had never felt so dejected before, pressed to the ground and having his mouth smacked, it truly was unimaginable.

From the past until now, how many great figures had experienced these things before?

Right now, he really wanted to explode his own body, end this type of humiliation. It was just too hard to endure, intolerable.

Pu!

An old soldier's large palm descended, blade radiance flickering between his fingers, removing his head, separating it at the neck. Moreover, a finger pointed at the space between his brows, about to deal the killing blow!

"Stop, don't take his life!" Wang Si shouted. He was now truly scared. He already saw that these old soldiers were too ruthless, turned into puppets, their previous emotions erased, not feeling the slightest trace of mercy towards a so-called long life family.

"Are you all convinced. Do you still dare kick people around?" The golden little ant said noisily.

Everyone was speechless. Did this little devil still not want to stop? The five dragons were about to be tormented to death already, this type of humiliation even harder to accept than death.

"Let's stop here." Great Elder said, having the five soldiers stop.

"Are we going to let them go right here? Isn't this asking for trouble?" The golden little ant was unsatisfied. These five dragons were clearly not easy to deal with, they will definitely get revenge in the future.

"They are experts, rarely seen in this world. These types of people cannot be dealt with like this." Great Elder said.

"Meng Tianzheng, are you trying to mediate our relationship? What is the point in doing this now, just do your worst!" Wang San shouted angrily, seething in anger.

Peng!

Great Elder kicked out, sending him flying, the bones in his body releasing pi pa sounds, more than ten of them breaking on the spot, the injuries becoming even more serious.

"You..." Wang San was shocked and furious.

"The reason I plead for leniency, to not let you all endure anymore hardships isn't because I am weakening my attitude, even more so not to allow you all to act wildly. Immortal Wang didn't properly discipline you all, so I don't mind using some time to properly teach all of you." Great Elder said coldly.

"Then what do you want to do?" Wang San stared at him.

"All of you will be left behind to kill the enemies in Desolate Border!" Great Elder said.

Wang Family's five dragons were immediately stunned, and then they woke up.

Everyone who was watching also became shocked, understanding what Great Elder wished to do. They were going to be sent to Desolate Border, to use their exceptional strength to kill enemies.

This was sending them away to serve a penal sentence. Once they were sent there, they would likely never return, their final end was definitely dying in battle!

“Meng Tianzheng, you are... using public office to avenge private wrongs, sending us five to our deaths!”

“Meng Tianzheng, is this something you can decide? It is something that all clans have to decide on!”

Wang Da and Wang Er immediately became anxious, shouting out loudly. If they truly stepped on that path, would they even be able to live?

“Shut up!” Great Elder kicked out, sending them flying, blood dying the skies. “The clans are all fighting with their lives on the line in Desolate Border, your Wang Family still hasn’t sent anyone over, so it will just be you all!”

Then, Great Elder stared at them coldly, saying, “However, it is precisely this attitude that you all have that allows me to carry a bit of hope, allowing me to believe you all one more time that you didn’t betray us for the enemy.”

“Elder, they are just pretending, they should all be killed!” The golden little ant shouted hatefully.

“Nonsense, you all wish to ruin our lives, this is intolerable! I wish to talk to the clansmen, converse with the family!” Wang San shouted.

They didn’t wish to be sent to the Desolate Border, not wishing to die, wishing to meet with Immortal Wang, ask him to interfere.

“You all have exceptional skills for nothing, not using it to kill enemies, isn’t it a waste? It’s already decided. This warship from Wang Family will depart for Desolate Border, join the war!” Great Elder said.

Everyone sighed. The five dragons’ fate was hard to alter, fated to fight in Desolate Border.

Many people inwardly clapped their hands in admiration, especially a few long life families who even more so released a breath of relief, feeling that things should be just like this.

Only a few people felt regretful, because they weren’t able to see Wang Family’s Nine Dragons move out together. If that happened, then they could’ve watched an unmatched great battle of the nine dragons taking action together!

It had always been said that when the nine dragons were together, then they would be unmatched under the sky. However, they never saw this themselves.

“No, I won’t yield! It isn’t because I fear death, but it is because I need to discuss things with father! My Wang Family can participate in the battle, but we can’t be forced by others, that is too shameful!” Wang Wu shouted.

“Correct, my Wang Family is willing to contribute in Desolate Border, but we can’t go through this type of method!” Wang Si also roared.

“Since you all don’t fear death, then just go, the earlier you go, the more help you all will be. With your skills, you will definitely establish great merits in Desolate Border. You all know that there is great natural luck there as well, who knows, you all might even obtain great benefits!” Great Elder berated.

“You... are arbitrarily taking action, it cannot be like this!” Wang Er roared out, feeling shocked and furious.

Wang Family’s five dragons were struggling, not wishing to head to the battlefield. They roared here, struggling about.

At this time, immortal music sounded above, auspicious multicolored light blossomed. A great golden path stretched out for who knew how many tens of thousands of li, descending from outer space.

Everyone was shocked, all of them stunned. This was a realm crossing passage!

Someone supported heaven and earth with unmatched divine force, arriving from another place in the Nine Heavens, entering Immeasurable Heaven.

“Yuyu Heaven’s Gold Family!”

Someone recognized who it was because they saw the ancient emperor carriage on the great golden path, on it Yuyu Heaven’s Gold Family’s insignia. This was an extremely powerful long life family.

Everyone’s minds jumped, because this emperor carriage was no small matter, it belonged to the clan’s Lady Monarch, an old woman with unimaginable cultivation.

She was the old ancestor of the Gold Family, the number one expert of the long life family, her magical force boundless.

This golden war chariot, despite looking quite dim in color, also a bit damaged, these were all proof of past brilliant battles, an object that had existed in two great eras!

This was the ancient war chariot Gold Family inherited from the last great era, becoming Lady Monarch’s vehicle.

At this moment, the war chariot rumbled, directly arriving through the golden light passage from Clear Profound Heaven, appearing in Immeasurable Heaven, descending onto Heavenly Deity Institution.

Only this emperor carriage could move through the Nine Heavens this easily, as if it was traveling on level road!

“There is trouble”! Someone said with a sigh.

It was because everyone from long life families knew what she came here for.

Gold Family produced an exceptional pride of heaven named Jin Zhan, someone who cultivated in Sacred Academy, this person known to have shattered all types of records from past to present, forging his own path. No one could face him in the present world methods path, exceeding all those before him!

It was precisely this Jin Zhan, who was betrothed to Wang Family’s Wang Xi.

It could be said that Wang Family and Gold Family were connected by marriage, adding power on top of power, making all of the so-called top level powers all feel incomparable restraining fear.

“Jin Taijun!” Even Great Elder Meng Tian became serious, staring at that war chariot.

“Brother Meng and I have previously met!” An old woman walked out from the golden ancient war chariot. She was extremely tall, the passage of time leaving too many traces on her body. She was old and gray-haired, face covered in wrinkles, blood energy already a bit dried-up.

Otherwise, when someone of this caliber came out, when even the slightest bit of blood energy leaked out, it would make the heavens split apart, great earth cave in.

She treasured it greatly, restricting all of her blood energy, not letting even a wisp flow out.

“Brother Meng, I came to plead for leniency. Could you give me face and let these five dragons go?” Jin Taijun was extremely direct, speaking like this. Her head of snow-white hair was like silver, a closed vertical eye resting between her brows.

This was a terrifying figure, unknown just how many tens of thousands of years it had been since she emerged in the world. Now, she came on her clan’s ancient war chariot, arriving in Immeasurable Heaven precisely to rescue the five dragons.

Everyone sighed inwardly. Wang Family and Gold Family were connected through marriage, clearly moving together. In this type of situation, Jin Taijun appeared.

Jin Family was a huge power, and Jin Taijun was even more so a matchless figure. She was someone whose might had illuminated the archaic years, brilliance rushing into the heavens, not many people able to compete with her.

Right now, she was already incredibly aged, but regardless, she still left others fearful. There might still be unmatched strength within her.

Everyone watched silently, many of them not wishing to see the five dragons absolved from punishment. However, they also knew that it was hard to say what would happen now that Jin Taijun spoke.

Great Elder Meng Tianzheng looked at her. After remaining silent for a moment, he said, “I refuse!”

It was just these two words, extremely direct, rejecting her just like that.

“Brother Meng, you also have younger generation, and also... descendants. Do you not wish to have some leeway, think for your descendant, give a bit of face?!” Jin Taijun said.

When speaking these words, she emphasized the word ‘descendant’. This left everyone shocked, Great Elder also had a descendant? This was the first time many people learned of this.

It was because according to the rumors. Great Elder Meng Tianzheng remained unmarried throughout his life, not having a dao companion. Now, this information was released, that he had descendants!

“Are you threatening me?” Great Elder said coldly.

"I do not dare. I only wish to say that you should put yourself in others' shoes, be a bit more tolerant, give the descendants a chance. This way, the Nine Heavens can remain polite and amiable, so that nothing bad will happen in the future." Jin Taijun had an amiable expression on her face, speaking in an easy-going manner.

Many people sensed sharpness from her words. This was a type of hinting, even more so a type of forcefulness!

"Stop speaking useless words. No one can change this matter no matter who comes!" Great Elder refused strictly, moreover saying, "My descendants are in Desolate Border, life and death ruled by fate. If they fall in battle, then that is the best final destination!"

When everyone heard these words, they were all shaken up, couldn't help but feel great respect for Great Elder. His descendants were in Desolate Border, just how selfless was this, sending all of his descendants there!

Right now, regardless of whether it was the people watching in secret or those standing here, they all felt a wave of respect.

Chi!

Right at this time, brilliant light flickered about in the sky, immortal mist surging in waves. There were divine beasts that brought war chariots over, four or five powerful auras emerged in succession, their aura covering heaven and earth.

They were all people from long life families. A few of the most ancient figures appeared!

"We support Brother Meng's decision!" A few people walked out, primal chaos surging, immortal mist faintly discernible. They spoke out at the same time.

Several long life families supported him, making Jin Taijun's expression changed. In the end, she nodded and said, "Fine!"

Hong! noVe)lb-1n

Right at this moment, at the limits of the horizon, an enormous door opened, endless troops rushing out, their armor resplendent, blade radiance shocking the heavens, exceptionally dazzling. This was a group of elites, right now arriving through a spatial gate!

"Just a few unworthy offspring. Brother Meng can punish them as he pleases, just have them bring back some merit in Desolate Border. At the same time, my Wang Family will send out a hundred thousand elite troops!"

This voice sounded from the spatial gate. It was Immortal Wang!

Chapter 1375 - Target: Desolate Border

Immortal Wang's words left everyone stupefied, inwardly shocked. They never expected him to make this type of decision!

That gate was extremely massive, as if formed from a massive immortal peak. It towered between heaven and earth, supporting the universe, forming a realm crossing divine dao gate.

Troop after troop of soldiers set out, every one of them surging with blood energy, spiritual essence surrounding them. Divine force overflowed from these people, gathering together, crashing down like great waves against a shore, shaking up the skies, making this place unstable.

These were definitely elites, their helmets bright, armors shining, the cold radiance of their weapons illuminating the nine heavens, leaving even one's primordial spirit even horrified. They were like a group of demonic gods from hell, about to fight in the great desolate land.

At first, it was still calm, but as the great army arrived, barbaric beasts were used as mounts, stirring about restlessly, all of them ancient beasts, many of them abnormal species who cultivated for over ten thousand years. Knights sat on top of them, holding pikes, war spears, and other things, the scene extremely frightening!

These vicious beasts had cold scales that flickered with metal-like cold radiance. They were extremely large, every one of them releasing low roars, shaking up the void until it split up.

There were over ten thousand ancient beasts, quite a few of them having long horns on their heads, cold and deep, tearing through the sky like heavenly blades. Their hooves were massive, trampling down on the world until heaven and earth trembled, rumbling with noise.

This place was noisy, killing intent surging!

This wave of elite soldiers were definitely not a normal army. Regardless of where they slaughtered, there would be a rain of blood and foul winds, triggering great shock.

No one expected Immortal Wang to invest so deeply, handing over an army this large to support Desolate Border!

This wasn't all. Loud and clear bird cries sounded, giant wings spreading into the skies. Vicious birds rushed out from the spatial gate one after another, unfolding their divine wings, covering the sky and hiding the sun.

It was as if black clouds drifted over one after another, casting great shadows over the earth, making one feel suffocated, even breathing difficult.

Ten thousand vicious beasts flew over, every one of them with cultivators seated on them. Man and giant bird, this was a powerful combination. Roiling killing intent surged, surging high into the sky.

These vicious birds were made up of descendants of all types of divine birds, while the ones in the lead were all divine birds, for example, Golden Crows, Pengs, Green Golden Luans, and others, precious wings splitting the heavens!

Ten thousand mounted vicious beasts, ten thousand vicious birds, and eighty thousand soldiers on war chariots, all of them moved through the skies, creating an extremely shocking scene.

"This is precisely my sincerity!" Immortal Wang's voice sounded from behind the spatial gate.

No one expected to see this type of huge expense. This was definitely not making up the numbers with inferior troops, but rather Wang Family's personal powerful troops, an extremely important wave of power.

Immortal Wang actually sent them out, sending them as reinforcements to Desolate Border!

This was completely different from what everyone imagined. He offered up an extremely important wave of strength!

Great Elder looked at this great army. After remaining silent for a bit, he said with a smile, "Brother Wang has shown great kindness. This great army can be considered great help in our hour of need!"

In the sky, the great golden dao paths withdrew, entering the bodies of several elders. They stood together with Meng Tianzheng, all of them leaders of long life families, peerless experts!

They didn't say anything. They originally wished to support Great Elder Meng Tianzheng, all of them wanting an explanation from Wang Family, but now that they saw this scene, they could only release a light sigh.

Jin Taijun was first shocked, and then she revealed a smile, saying, "Brother Wang is formidable, still like when you were young, heroic and unrivaled, majestic aura swallows ten thousand li. This type of dedication is worthy of admiration!"

"Kill!"

The army of a hundred thousand roared out this word together, making the heavens collapse and earth split as a result, pitch-black great cracks like those of an abyss extending in the sky. They were completely unified, might world shocking.

This fully displayed Wang Family army's backing, definitely brilliant soldiers, all of them possessing extraordinary skills.

"Excellent! If all of the clans could be like this, the Desolate Border will remain unbreaking, my world can be preserved, giving our more extraordinary descendants enough time to grow!" An old monster from a long life family at Great Elder Meng Tianzheng's side nodded and said.

"Father, we were unfilial, lost face for you!" In Heavenly Deity Institution, one of the five dragons that was subdued in Heavenly Deity Institution said.

The five dragons didn't cry for help, nor did they curse Great Elder Meng Tianzheng and others. Only, this type of tone made others couldn't help but develop suspicions. Were they acting in response to Immortal Wang's great might, or were they pointing out something?

"Idiots, overestimating your capabilities. Just properly make contributions in Desolate Border, kill a few more enemies to wash away your guilt and crimes!" Immortal Wang said.

The five dragons' expressions all changed. Immortal Wang really made this decision. The hundred thousand elite soldiers that were brought over were not to exchange for these five dragons, they were still going to be sent out.

After remaining silent, they all bowed down, obeying this order.

Immortal Wang said, "The hundred thousand soldiers will be handed to you five, properly lead them to kill the enemy. Don't act foolishly again, don't let them bleed for no reason, glory coexists with blood!"

"Understood!" The five dragons shouted loudly, their eyes all becoming deep. The hundred thousand men were prepared for them, perhaps what they will rely on to stand tall in Desolate Border, they couldn't waste their father's efforts.

In the distance, everyone frowned, but soon afterwards, their expressions calmed. It would most likely be hard for outsiders to command Wang Family's great army, only the five dragons were fit for this.

Towards this, neither Great Elder nor those true rulers of long life families interfered, acknowledging this fact.

"Brother Wang is generous, extremely kind!" Jin Taijun laughed. Then, she personally took action, undoing the five dragons' restrictions in Heavenly Deity Institution.

Hong!

In that instant, the five dragons' blood energy overflowed, a streak of scarlet multicolored light shooting from their crowns, piercing the sky dome. This was their life essence blood, surrounded by rich chaotic energy.

This scene was too terrifying. The five dragons' strength was exceptional, bravery unmatched, power oppressing countless great sects!

This time, if it wasn't for the five old soldiers who participated in Immortal Ancient's last phase war that took action, others could completely forget about subduing them. All of them would be killed if they tried.

They instantly connected their broken bodies. It was as if thunder rumbled within their bodies, the sound of blood flowing. It was accompanied by immortal mist and chaotic energy, directly recovering.

People as powerful as these were ridiculously full of life. Even if their bodies were ripped apart, four limbs and head separately buried in different parts of the world, they would still be quickly gathered, reassemble.

When one's power reached this extent, it was extremely difficult to kill them, difficult to send them to the grave!

"All of you are good men, heroes at the prime of your lives. I hope you all can kill many enemies in Desolate Border, establish a legend, raise up Wang Family's past matchless immortal might!" Jin Taijun said with a smile, her old eyes closed.

"Many thanks to senior!" The five dragons saluted together.

Their eyes were cold as they swept at Shi Hao, Cao Yusheng, golden little ant and others. However, this time, they didn't express anything else, not opposing them.

However, the deep coldness within this glance made everyone's heart tremble, as if they were stared at by a giant prehistoric beast, extremely dangerous.

“Brother Wang, why don’t you come over for a chat?” Meng Tianzheng spoke, inviting Immortal Wang out from Wang Family over to Heavenly Deity Institution.

“Fine!”

A wide great golden path appeared in the spatial gate, auspicious multicolored light in large amounts, incredibly auspicious. It extended all the way here, many great dao flowers scattering down in the surroundings, scripture sounds rising and falling.

This was an irregular scene that would only appear when the most powerful individuals walked the world, touching upon the long life domain, about to achieve immortality!

Half a step to immortality! *nOve.lb-1n*

This was Immortal Wang’s strength, someone known as one of the most powerful individuals in this world!

A young man walked out from the great golden path, life force exuberant, graceful and elegant. This was an extraordinary and aloof young man. He was just too young, truly making one’s eyes pop out.

It was because this was the first time many people were seeing this legendary giant!

Everyone simply refused to believe what they were seeing, that this harmless, beautiful young man who only looked seventeen or eighteen years of age, was Immortal Wang whose might had dominated endless time. It was too inconceivable.

However, he didn’t give everyone the chance to watch for too long.

The great golden path extended from the horizon to Heavenly Deity Institution, quickly disappearing from everyone’s sight.

“Dao brother’s grace truly leaves us in admiration!” A ruler of a long life family sighed with praise. This was what he sincerely felt and not spoken out of flattery.

“I’ve aged, still become old in the end. As for living a second life, I am only halfway there.” Immortal Wang smiled, his teeth snow-white, brilliant to the point where it was a bit dazzling.

“All of you, come over, offer your apologizes to Brother Meng.” Immortal Wang called over his children.

Comparatively speaking, the five dragons were all elders, their hair gray and white. Compared to him, outsiders really didn’t know who was the senior.

The five dragons were stupefied. They greeted Meng Tianzheng and said, “Senior, please forgive our hastiness!”

“There is no need to trouble the younger generation any further, they are all good children.” Jin Taijun was all smiles, her face covered in wrinkles, speaking out like this.

Great Elder transmitted sound to Immortal Wang, saying, “Brother Wang, I am an extremely straightforward person, if there is something to say, I will just say it. This child Huang obtained a scripture, and he has gifted it to me to study. I feel like this scripture is quite formidable, if you are interested, in the future, I can let you consult it as well.”

He then further transmitted and said, "I already established nine dao restrictions on Huang's primordial spirit, so no outsiders can view the scripture, or else the scripture would be destroyed."

Immortal Wang's eyes were deep. He gave Shi Hao a look, and then he looked at Great Elder.

"This scripture is extremely extraordinary. If Wang Family establishes great merit for the Nine Heavens Ten Earths, you will naturally have the right to research it. At the time, I will personally bestow it." Great Elder said.

Immortal Wang's eyes were extremely deep, one could vaguely make out the scene of when heaven and earth were first separated, even more so sun being destroyed, moon falling. Wisps of chaotic energy scattered out, the scene extremely shocking!

Then, he nodded, not saying anything.

The long life families' rulers stopped for a bit. After discussing things for a bit, they each departed in their separate directions.

"Depart for Desolate Border!" Wang Family's hundred thousand elite troops went on their way. Under Great Elder and a giant from the long life family's lead, they all went out to join the battle.

The Nine Heavens naturally had to have people protecting it as well. There were giants that remained behind!

The situation was unstable, this great world reached the critical moment of life and death again. All clans made moves one after another, preparing to face the other side.

The most powerful group of people from the younger generation were naturally not forgotten. That very day, someone came looking for them.

"Do you all wish to grow up quickly, become miracles? Only a baptism of flames and blood can allow one to grow up the fastest!"

This was a voice that sounded by Shi Hao's ears, ringing like a great bell!

"The ancient people were powerful because they excelled at battle, fighting many battles, constantly fighting. There were rumors that there were people who, while at a similar age as yourselves, headed straight for Desolate Border, bathing in the blood of enemies, becoming stronger the more they fought. They gradually ascended into the heavens, becoming supreme beings, and then broke through the trial of death, directly becoming war immortals!"

"There were people who could do this in the past, what about you all? Do you want your names to shake up endless generations, or do you want to just let things run their course? Are you going to advance bravely, or are you going to hide in your greenhouses?!"

"One has to understand that Desolate Border is not only a battlefield, but also a place of natural luck. The mountains are vast, immortal earth boundless, burial grounds endless. The dao rites of ancient great powers are everywhere, just too many opportunities. To rise up from small soldiers, slaughter your way out from the lowest rung, this can allow all of you to pry into the path of immortality, advance boldly between blood and death. Who dares head there? Do you all have the courage?!"

This voice rang through heaven and earth, making one's blood boil and resonate.

Chapter 1376 - Geniuses Gather

Shi Hao suddenly stood up, staring into the limits of the horizon.

At the same time, the best geniuses of every region were called upon, asking if they wished to bathe in blood and flames, rise up in this chaotic world!

"There isn't much time left for you all, no one knows when the gate of heaven and earth will be opened. Once the foreign side's iron hooves cross over, everything will be too late then!"

"Go, let's take a look. I wanted to pay Desolate Border a visit a long time ago. That is the place where my old man previously fought. I want to take a look, achieve the dao there!" The golden little ant jumped up, even more stirred up than Shi Hao.

At this time, old ancestors from long life families, some of them even the rulers of a clan, like stone statues in primal chaos mist, opened their eyes from unmoving states, responding to this.

"Let the children in the clans make the choice themselves!"

It could be said that regardless of whether they were small clans or long life families, all those that had top level geniuses were reached out to, all of them receiving the message.

The eccentrics of this world were moving!

Regardless of whether it was when Sacred Academy was founded, Immortal Academy established, or when Heavenly Deity Institution appeared, these eccentrics had all helped! Their strength was extremely great. Even though there were only a few of them, their power was immeasurable!

It could be said that they were guest elders of Immortal Academy, Sacred Academy, and Heavenly Deity Institution.

The reason why the three academies were going to become integrated, rumored to become one, was precisely because of these individuals' works!

However, these people were normally like idle clouds, field cranes, wandering the world, appearing and disappearing unpredictably, their whereabouts unknown.

This time, with the world in disaster, they quickly returned. After carefully consulting each other, they decided to foster the younger generation. After this task was completed, they would then head for the Desolate Border battlefield.

That was why this day, the Nine Heavens Ten Earths' most famous geniuses all received the summoning!

In reality, these so-called geniuses were mostly disciples of Immortal Academy, Sacred Academy, or Heavenly Deity Institution already, because they were already chosen before, the most powerful group of youngsters precisely them.

This time, the range was widened slightly!

“Three academies will merge into one, this is really going to happen!” Someone said with a sigh.

That day, many youngsters responded to the call, heading out!

Meanwhile, in the following days, the youngsters of all different places moved out. After discussing things with their seniors, they felt that even if they weren’t going to Desolate Border, they still had to head to the place where the geniuses were gathering.

Within the Nine Heavens Ten Earths, geniuses all moved out, gathering together.

“Even if you all don’t go to Desolate Border, it doesn’t matter, we will still teach you with great care. When the time comes, those who are willing can continue on, those who don’t wish to take risks may return to your clans!” This was what an old monster promised.

This was a dao land, the terrain majestic, purple smoke rising in spirals. This was the spiritual essence in underground ancestral veins.

Shi Hao also came, seeing this terrain, feeling slightly moved. This was an expanse of sealed immortal earth!

There was great natural luck underground, left behind from Immortal Ancient. However, it had never been dug up, this place only used to nurture young cultivators.

This place was precisely in Immeasurable Heaven, but it wasn’t in Heavenly Deity Institution, nor was it one of the caves Sacred Academy and Immortal Academy previously excavated.

“Time is pressing, we don’t have time to unearth and tidy up the caves left behind from Immortal Ancient. Meanwhile, this place satisfies all of our needs!”

“This is a great earth ancestral vein left behind from Immortal Ancient. Even though it has been greatly damaged, only having a segment left, the bits of immortal mist that seep out are enough for you all to cultivate!”

Purple mist pervaded the cliffs. Several elders were seated there, explaining the situation to everyone.

They said they would combine all three academies into one, that they would choose an immortal king cave, but where would they get the time to make these arrangements? The powerful individuals all went to fight in Desolate Border.

The eccentrics didn’t plan on carrying out such a large project. They directly found and undid an ancient ancestral vein’s seal, turning this place into an unmatched cultivation dao rite to foster the youngsters.

“Those who are willing to head to Desolate Border, you all have a year of buffer!”

An elder sat in the primal chaos, telling everyone this important time period.

“In the following year, we will teach you about the various advantages and corrupt practices the foreign side uses, and we will also teach you all scriptures, help you clear up confusion, do everything we can to help you all grow!”

In this year, the young geniuses who came from the Nine Heavens would all study and cultivate here. Regardless of whether they were going to head to Desolate Border, they could still cultivate the dao here.

“Understanding the inner details of the enemy, listening to the combat experiences of the ancient people, these are things all of you should learn!”

“There was one who continuously fought bloody battles, going from an ordinary person to a small soldier, eventually becoming a forbidden existence who could look down on the foreign generation. I believe that there are people here who can do the same!”

“The divine abilities learned from books will always be too shallow in the end. One needs to be baptised within life and death, that is the quickest way to transform. I wish to see the most powerful creatures of this era rise up from this group!”

...

The elders spoke about many things, boosting everyone’s morale.

If not for time being pressing, the great battle arriving soon, why would they do this? They were all hoping for someone to create a miracle, to defy the heavens through blood and flames.

Shi Hao saw many people he recognized here. There was no need to talk about people like Qing Yi and witch, there were also many heaven warping individuals from Immortal Academy and Sacred Academy, for example, Little Sky King, Nine Netherworlds Ao, Great Xu Tuo, and others!

Apart from this, he also saw a group of people from Sacred Academy, among them one individual accompanied by Wang Xi who couldn’t avoid attention even if he didn’t want to. That person was wrapped within immortal mist, as if an emperor entered the world of mortals!

There was no need to ask, this was Jin Zhan, the male known to be the Pride of Heaven in this generation!

He walked the present world path, but right now, there was thick immortal energy covering his body. It really was shocking.

Apart from them, Immortal Academy and Sacred Academy had a few other peerless geniuses who hadn’t made an appearance also come. There were even more so inheritors that were hidden within long life families!

This time, it truly was a gathering of stars, the geniuses who should come all came. This was a great gathering of the Nine Heavens Ten Earths’ young heroic talents.

“Shi Hao, I heard that you overwhelmed ten kings in Great Scarlet Sky Border with your strength alone. It is truly moving, wa ha ha, worthy of being my brother!” The Lunar Jade Rabbit hopped over, slapping Shi Hao’s shoulder, purposely putting on a bold appearance.

In reality, it was as if she would never grow up, looking around thirteen or fourteen years of age, silver hair shiny, large eyes like rubies. No matter how one looked at her, this was a tender and immature young girl.

“Shi Hao, nothing bad happened to you, right?” Qing Yi walked over, her eyes gentle, softly asking, extremely concerned. The battle in Great Scarlet Sky Border triggered a huge commotion in the younger generation.

After all, Purple Sun Heavenly Monarch was even killed in battle, Lu Hong withering away. Those were all individuals known as young supreme beings!

Huang swept through all of his opponents in Great Scarlet Sky Border, continuously winning ten battles. It was difficult for him to not draw attention even if he tried!

Right now, all of the youngsters looked over, including Immortal Academy’s Little Sky King and others, as well as the Pride of Heaven Jin Zhan accompanied by Wang Xi and the others.

Shi Hao smiled and said, “When we go back, I’ll invite you all to eat a great foreign creature meal. Those are all king level bloodlines you know, could be considered rarest delicacies of this world. At the very least, I’ve never tasted them before!”

“Wahaha, excellent! I love eating vegetables the most, I’ve never tried the foreign radishes and cabbages yet. This time, I will properly enjoy myself!” The little rabbit’s skin was extremely thick, not red in the slightest.

However, after they reunited, before they weren’t given too much time to catch up, the liveliness was cut short.

It was because the elders on the cliff spoke up, talking about a few King Clans from the foreign side, as well as the terrifying unmatched clans!

“There is a clan that is known as one of the most ancient Emperor Clans, to the extent where it is even more ancient than Anlan and Shutuo, these two clans. Their strength is terrifying, enough to leave one in despair and fear. It is because this clan has a type of innate skill that allows them to create a truly unmatched ancestral method in this world, one that can make all divine abilities, precious techniques, and ten thousand methods extinguish!”

When an elder spoke about this, everyone was shaken up, feeling a great pressure. Immunity to divine abilities, magical force, just how heaven-defying was this? How was one supposed to win over this type of opponent?

Shi Hao was moved. This wasn’t something he heard for the first time, he had heard about this type of ancient Emperor Clan a long time ago.

Meanwhile, he previously cultivated a similar type of strange force, Magical Force Immunity. It could scatter the precious techniques and other things of the enemy, but it could only be used for a short amount of time. This was something he was able to obtain out of coincidence, the main reason because he ingested a Golden Bodhi Fruit.

However, this was the foreign Emperor Clan’s innate talent, ultimately turning it into an unmatched ancestral method. From a certain perspective, the other party had already researched it for two great eras, so it was definitely more complete and profound than what he possessed.

"I'm waiting to fight a battle to the death with this clan!" Shi Hao said to himself. He wanted to use this clan to perfect his own method.

"Anlan clan is too terrifying. The word Anlan itself a taboo, its power shocking Immortal Ancient. Back then, Heavenly Horned Ant Great One had his body pierced through by a golden pike, his blood splashing over the starry sky..." On the cliff, those elders were extremely serious, explaining all types of secrets.

As they spoke about these things, the youngsters who came to this place were all incredibly shocked.

"Seniors, I want to know, the foreign side has undying beings, while in our world, true immortals have long ceased to exist, so how are we supposed to fight? How are we supposed to resist the enemy? If nothing unexpected happens, aren't we destined to lose?!"

Chapter 1377 - Secret Earth of the Past

This was a serious issue that would affect the great situation of the future. Many people were holding their breaths, looking towards those elders on the cliffs where purple mist rose in spirals, waiting for them to explain.

On the cliff, an elder who was sitting on a praying mat, surrounded by immortal energy, released a sigh. A cool breeze blew past, exposing his aged face, his expression carrying a bit of disappointment and frustration.

The hearts of the young cultivators here all sunk. With the greater situation like this, was there really no hope in the future?

"With the foreign side being this powerful, how are we supposed to win? There are many people who feel that there is no chance of success at all. Just one undying being slaughtering his way over is already enough to completely wipe us out."

On the wall, the eccentrics didn't avoid this issue, instead directly speaking about the most crucial parts.

With reality being like this, even if there is a realm wall in the way, with the world's natural laws rejecting them, this would still only stop them for some time, and not for an entire generation. It was because once the great world of the foreign side merged with this world, it would be difficult for the realm wall, natural laws, and other things to display any effects.

"I know that many people feel that things are pessimistic, to the extent where they are even in despair, not even able to see the slightest glimmer of chance for victory." When the elder spoke up to here, he paused slightly, and then he emphasised, "But in reality, that is not the case. Let me tell all of you right now, the Desolate Border can be defended!"

Everyone was shocked. They all stared at the elders on the cliff. What other trump cards did this world have, was there anything else that could turn defeat into victory?!

"Senior, please explain things to us!" Exiled Immortal spoke up, asking the elder to speak in more detail.

The eccentric nodded and said, "Actually, our world is also extremely mysterious, with many secrets that have yet to be uncovered. For example, there are a few restricted areas that have existed for a long time, some even before the start of Immortal Ancient Great Era. Now, they are still standing tall, yet we

cannot step foot into them. Of course, what I wish to talk about are not these things.” When he spoke up to this point, his eyes became deep, looking into the horizon, as if he could peer through Desolate Border. “What I wish to say, is that Desolate Border has an ancient city.”

“En?” Everyone was shocked, extremely confused.

Only Shi Hao’s mind was shaken greatly, instantly thinking of something.

“There is an ancient city that had existed for an endless amount of time, difficult to trace back. It rests outside Desolate Border’s giant city, rising and falling with the world itself, with the flow of time, defending there the entire time.” The elder said.

Everyone became stupefied. A few people knew the inner details, that there was a giant city in Desolate Border. It was incredibly massive, towering into the cosmos, the walls made of stars, known to be the most powerful defensive position throughout history!

This was an Emperor City that couldn’t be broken through!

Meanwhile, the old city this senior spoke about was definitely not this city, seemingly pointing at something else.

Sure enough, as he continued speaking, it verified everyone’s speculations.

“In Desolate Border, outside the so-called world’s sturdiest Emperor City, in the nothingness, the primal chaos, the blood dyed demonic earth, there is an ancient city!”

It suppressed everything, preventing the foreign troops from treading onto this world!

This city was incredibly mysterious, some saying that it was ominous, a cursed ancient city. It had existed for a long, long time, couldn’t be investigated. It represented bitterness, accompanied by bloody radiance year-round.

There were others who said that it was the most grand city, defending Desolate Border, protecting this world.

There were others who said that there was a group of the most stunning heavenly talents defending that place, but they all died in battle, turning that place into a city of death. However, before dying, they left behind world shaking methods, subduing the primordial zone.

The elder slowly explained everything, in the end, he released a sigh, not saying which legend was true.

He only told those young experts that there was an ancient city there that would play a vital role, that it would make the undying beings feel restraining fear, prevent them from breaking through!

Meanwhile, this old city was only one of the Nine Heavens Ten Earths’ mysterious lands, it wasn’t the only trump card. There were still other strange places in Desolate Border!

Everyone was shocked, even stunned!

There was a city outside Desolate Border, an old city where formidable people and events seemed to have taken place.

“Deal with the strange with the ominous, deal with enemies with the disastrous. It is an ancient city where blood flows!” The elder sighed, the expression of frustration and emotion becoming even heavier.

Many youngsters couldn’t understand. What kind of emotions was he feeling? Why was the elder like this? What kind of secrets were hidden within this? Why did they feel like he felt frustration and disappointment, as well as pain?

Underneath the cliff, there were some who did know why.

At the very least, Shi Hao clenched his fists, his body going taut, breathing a bit difficult. It was because he thought of a possibility!

In his heart, the figures of a few experts appeared: Desolate Border’s Seven Kings!

Was it that city?

How could he forget? Back then, when he tried to track down the ominous, he entered a blood-soaked black ancient ship, seeing too many scenes on an altar. Outside the Desolate Border was a lonely city. There were a few creatures who were fighting bravely, Desolate Border’s Seven Kings fighting with their lives on the line.

Time was ruthless. Some of Desolate Border’s seven kings withered away, some of them dying, full of grief and pain. Did that city and those people still exist?

After endless time passed, countless generations elapsed, what could still remain? Was it already a true city of death? This place was completely inauspicious!

Shi Hao felt a wave of suffocation inside. He thought back to those scenes he saw on the altar. The elder and the child both stood on the city, participating in the battle, risking life and blood to protect it.

Right now, Shi Hao felt a bit of pain inside. Was that the so-called ancient city?

Why was it able to stop the foreign side? Were there some secrets hidden regarding this? It was clear that the elder only spoke about some things, not directly telling them everything. There was definitely something that made one feel great sadness involved.

Before, Shi Hao had previously thought about this before, whether the place Desolate Border’s Seven Kings guarded was the imperial pass, but in the end, he rejected this thought. ~~noVe)lb-1n~~

It was because he had previously headed to the imperial pass. Before heading to the higher realms, the test the young cultivators from the Three Thousand Dao Provinces faced was precisely to hurry to that massive giant city.

Shi Hao had previously seen it, the two cities having differences!

“Desolate Border’s Seven Kings, old city, I have to go there. My ancestors previously fought there, the sinner’s blood does not carry sin, but glory, honor, tears of blood!” Shi Hao said softly.

Apart from Shi Hao, Shi Yi, and Qin Hao’s eyes also shone with light, sensing something inside.

Apart from this, Six Crown King Ning Chuan also frowned slightly, clearly preoccupied with something, unknown what he was thinking!

“Apart from this, there is another in Desolate Border that also protects our world.” The elder on the cliff said.

Based on what he said, there was an abyss outside Desolate Border, but it didn’t lead to the depths of the great earth, but rather towards the heavens, completely opposite of what one would normally expect.

Heaven Abyss, it was bottomless, able to travel even through the star dome. There was no end to be found!

“Desolate Border, just what kind of place is it exactly? How could there be so many strange things about this place?” Someone asked in confusion.

“That place is extremely mysterious, with too many unknown secrets that not even we understand. However, it can separate the other side from our world. Apart from what I mentioned, there are still other things, even more so having great natural luck!” The elder said.

“What kind of natural luck?”

“There is a great dao comprehension Forest of Steles, limitless immortal ancient lands, vast divine medicinal mountain ranges, terrifying heavenly beast forests, even more so burial regions and other places...”

These places all had extraordinary natural luck, could be considered to be places that shocked both past and present.

However, opportunity and danger went hand in hand. How much natural luck a place had corresponded to how terrifying it was, with danger of losing one’s life at every turn.

It was rumored that the foreign troops didn’t even dare rashly step foot into these places. There was once a great army that entered Heavenly Beast Forest, but they never returned.

There were also rumors that an extremely flourishing and terrifying ancient family sent out large numbers of men, but they all directly vanished in a mysterious great valley.

It was rumored that at the time, the great mist was extremely heavy, making all of those men lose their way. Perfectly intact weapons and tents were left behind, but the people themselves disappeared without a trace.

The foreign side previously had undying beings who personally investigated for many years, but in the end, they found nothing, not obtaining a clear explanation.

“In short, there are quite a few secret lands, unmatched natural luck, but also great danger. It will depend on whether you all can stick it through or not, if you can come back alive.” The elder said things as they were. This was a land of loss, as well as a vicious place. There were heavenly opportunities, but it was also a place of nine deaths one life.

He didn't hide anything, directly saying that if a hundred geniuses headed there, a few people surviving was already not bad.

When he said this, everyone couldn't help but suck in a cold breath of air, their bodies going cold. As expected, there was great danger!

"It is precisely because Desolate Border is mysterious, incomprehensible, with so many secret lands, that it can stop the other side, prevent their troops from crossing over, slowing down their attacks."

"I will give you all time to think things over, make your own decision as for whether or not you will head to Desolate Border. To rise up as a small soldier in Desolate Border, become a supreme being, step into long life, it isn't that easy. You all must make the mental preparation to give up your lives at any point!"

This was what the elders had to tell them. They wanted the youngsters to ask themselves whether or not they were going to go.

They didn't lecture on scriptures today, instead talking about some Desolate Border secret matters, and it ended here. Everyone got up, starting to seriously think about this.

"Are you going to go?" The people from the Three Thousand Dao Provinces gathered, for example, Qing Yi, Cao Yusheng and others, asking Shi Hao.

"I have to go, prepare enough strength. I am going to Desolate Border!" Shi Hao gave a decisive response.

Chapter 1378 - Opposition

This expanse of immortal earth was extremely vast. Even though there were many youngsters who came, there were still enough spiritual mountains and precious lands for them to choose their own special small dao rites.

The place where immortal energy was the heaviest was the central region. The ten mountain peaks there were the most extraordinary.

It was because there was only one segment of the ancestral bloodline left behind from Immortal Ancient, perfectly buried here, waves of pure white immortal mist surging outwards.

This was extremely shocking. In the present world heaven and earth, this type of place was extremely rarely seen, equivalent to restoring about a portion of Immortal Ancient's cultivation environment.

The reason why there were no immortals in this world, no one able to achieve long life was precisely because heaven and earth changed, the environment becoming more and more vile, losing the soil that could nurture true immortals.

"Go, let's hurry over. If we are late, other people will seize the good places first!" Cao Yusheng shouted.

It was because in the following period of time, those who came from various parts of the Nine Heavens would all cultivate here, listen to the elders lecture on scriptures, discuss the enemies' strong and weak points. They were going to stay here for some time, so they had to select a good dao rite.

Immortal Academy's Little Sky King was extremely powerful, long moving, hurrying towards a divine peak. This was a place with rich spiritual herbs, purple energy rising.

When they saw that it was him, there were some who felt restraining fear, in the end no one fighting with him over that place.

Chi!

Shi Hao moved. Since he had to cultivate here, he naturally had to find the best cultivation location.

At the center of this place, there were differences between the ten great peaks as well. There were four that were the most extraordinary, chaotic energy overflowing from the base of the mountains. They were all accompanied by immortal mist, surrounding the mountains!

There were branches of the ancestral vein that directly extended into these mountains!

Ancestral veins, these were things that were always believed to contain life, able to produce branches and leaves, growing into a few mountains.

Shi Hao's movements were extremely fast. Even though he moved after the others, he still seized a great mountain first, immortal energy immediately surrounding his body.

"You..." A few people were unwilling. They already rushed forward, yet they discovered that someone else came first. They really wanted to take action to seize it back.

However, when they discovered that it was Shi Hao who rushed up first, those people immediately became quiet, hurriedly withdrawing.

If it was said that Shi Hao's past battle accomplishments were still not enough to display his power, then Great Scarlet Sky Border's battle completely changed this. His unmatched might truly shook up everyone.

This was true military glory accompanied by blood and bones, killing ten great kings in one go, ten battles, ten victories, earning back face for the Nine Heavens. Just how astonishing was this?

These past few days, everything that happened in Great Scarlet Sky Border spread through the various clans, triggering a huge sensation.

The older generation supreme beings were killed in battle, younger generation with perfect ancient seeds also killed. This triggered quite the alarm. Meanwhile, Huang's battle accomplishments were even more stunning, simultaneously reducing the fear they had towards the unmatched foreign side.

"Come here!" Shi Hao called over Qing Yi, Chang Gongyan, witch, Heavenly Horned Ant, and the others, wishing for those he was familiar with from the Three Thousand Dao Provinces to all cultivate on this mountain.

"There are too many people, we also occupied one on this side." Cao Yusheng, Lunar Jade Rabbit, and the others waved from a mountain peak not too far off. They were extremely fast, they already seized the divine peak that was ranked tenth while everyone else was fighting over the best mountains.

Only, there were quite a few people who had their eyes on them, their eyes red.

Moreover, right at this time, everyone discovered with shock that there were people who even walked over to the mountain Huang was at, as if they were going to fight over it.

Who was this? To actually fight with Huang, this drew quite a few startled eyes.

"It's him, Jin Zhan!" Someone said quietly, immediately understanding.

Jin Zhan, this was someone from Sacred Academy, known to be the Pride of Heaven of a generation, strength extraordinary, reaching the limits of the present world methods. He exceeded all those before him, unmatched in the same realm!

At his side were a few others. Wang Family stood against Shi Hao, too many things happening between them. Was Jin Zhan going to take action in Wang Xi's place?

This triggered a huge commotion. Was Jin Zhan going to confront Huang here? This was definitely something huge, there was definitely going to be earth shattering results!

"Huang is but someone who established great merit, bringing glory to our world in Great Scarlet Sky Border's battle! If Jin Zhan takes action like this, fights against him, it's not too good, right?" Someone said quietly, somewhat unable to continue watching.

Cao Yusheng immediately sneered and said, "What does this brat want to do? Fight against Shi Hao? If you have the guts, then fight the enemies in Desolate Border, also earn ten victories in a row, shock the foreign side with your power, only that can you be considered heroic. If you want to take action for Wang Family, engage in internal strife within the Nine Heavens, then you really are worthy of being Wang Family's son-in-law, all of the same sort, only knowing how to deal with those on the same side!"

There were those who sided with Shi Hao, and there were naturally those who sided with Jin Zhan as well. After all, his reputation was great. After reaching the limits of the present world methods, he went even further. There were people who felt endless admiration towards him.

"Jin Zhan was cultivating in seclusion before, that was why he couldn't immediately head to Great Scarlet Sky Border. Otherwise, how could the glory of ten successive victories be given to another? His power would have definitely overwhelmed the foreign side!"

"Jin Zhan possesses heaven warping talent, granted the title of heaven's pride of this generation, just how high of an evaluation is this? How can anyone else compare to him? This is the perfect time to fight against Huang, see who is stronger. Heng heng heng, the present method is without equal, today, he will definitely show his power, glory overwhelms even the sun and moon!"

Those who were partial to Jin Zhan spoke, feeling like he was the unmatched one.

Many people looked over, because it wouldn't be too strange even if both sides truly fought a fierce battle.

Many people knew that not long ago, Shi Hao was still 'fighting intensely' against Wang Family, Heavenly Deity Institution standing against Wang Family. It was to the extent where even the five dragons were sent to Desolate Border as a result!

Wang Family could be said to hate Shi Hao thoroughly. Meanwhile, Jin Zhan stepping out for Wang Xi's sake was something some people felt like was only right and proper.

On the great peak, Shi Hao had his hands behind him as he looked at everyone, his expression calm. He eyes swept from Jin Zhan to Wang Xi, and then to those followers one after another.

Jin Zhan already stopped, also looking at Shi Hao. There was a terrifying domain that took form between the two.

Were they truly going to fight Shi Hao over his dao rite? Many people trembled inwardly!

Jin Zhan, this was an extremely mysterious person. Normally, he rarely showed himself, but now, he definitely wasn't low-pitched. He was surrounded by primal chaos, his eyes like heavenly suns, releasing a brilliance that was like that of when the world first opened!

Peng!

Right at this time, the space between the two experts exploded, the scene extremely terrifying!

However, the great battle they expected didn't arrive. Jin Zhan nodded towards Shi Hao, saying, "I heard of your battle success. Formidable, if we have the chance, let's exchange pointers."

After speaking, he turned around to leave, not staying here. Wang Xi and the others also left, arriving at a great mountain at the side.

There were already some cultivators that gathered there, but when they saw Jin Zhan, they all became sullen, retreating on their own.

"We can fight right now!" Shi Hao said.

This immediately made Jin Zhan's body stop. Many people were naturally shocked, all of them watching nervously.

"There will be more than enough opportunities. In Desolate Border, we can see who kills the most enemies." An elder's voice sounded from the distant cliffs.

The old monster spoke up, so this battle definitely couldn't happen. The elders didn't permit internal strife right now, wishing for them to kill enemies in Desolate Border instead, compare with each other in this manner.

Only, there were some things that were just unavoidable. Even if they were in Desolate Border, what was going to stand against each other was still going to stand against each other.

However, the storm before their eyes was put to an end just like that, making everyone release a breath of relief. However, they still felt that things were a bit regretful, after all, they missed out on a battle at the peak between the two.

Soon afterwards, Great Xu Tuo, Qi Gu, Yi Yi, Exiled Immortal, Shi Yi, and the others also found their own peaks, the precious lands all occupied.

There were some who set their eyes on the tenth peak the Lunar Jade Rabbit and others occupied, trying to seize it, but when they saw Shi Hao look over, they all withdrew.

This was originally a simple matter, just choosing their dao rites, yet there were many issues that could be seen, to the point where the layout of future powers could be somewhat seen.

That day, Shi Hao sat down on this immortal earth, producing a scripture. This was an ancient scripture he wanted to read all this time, but so far never did.

In the past, when all of the young geniuses of the Three Thousand Dao Provinces entered Immortal Ancient Remains to fight for great natural luck, Shi Hao, Ten Crown King, Exiled Immortal, Ning Chuan, and others had fought for supremacy.

In the end, Shi Hao was the first to enter the place of natural luck. He carried an ancient coffin on his back, within it a jade book, this was something many people knew about.

Apart from this, he also had other gains that outsiders didn't know about.

Right now, he was reading precisely that jade book!

Only when one entered the Void Dao Realm could one read the scripture. Back then, Shi Hao was powerless to move it, no way of reading it.

"En?!" When Shi Hao's divine will entered the jade book, he immediately triggered heaven and earth irregular scenes. All types of mysterious symbols surged, covering him underneath.

"Immortal scripture!" Many people cried out in alarm. Those irregular scenes were too shocking, as if someone was going to ascend with multicolored light. There were true dragons dancing about, undying phoenix birds crying, even more so the light of immortal ascension rising, immortal dao scenes filling the skies!

Chapter 1379 - Nine Immortal Scriptures

Immortal scripture, how rare and precious was this?!

This was an unmatched supreme treasure, something that couldn't be exchanged for no matter how many heavenly stones, precious artifacts, or old medicines were offered, not even the term priceless suitable to describe it, far from being enough.

It was because forget about a city, not even an ancient country was enough to exchange for it. After all, just how many people could easily witness an immortal scripture?

Immortal Ancient elapsed, long life beings all annihilated, countless true immortals completely disappearing, the scriptures they left behind eradicated. Apart from a few unique ancient inheritances, they were too hard to find.

That was why the appearance of this immortal dao scripture immediately created a huge disturbance!

Shi Hao sat down over there, reading the scripture, studying the great dao, immediately becoming deeply immersed. Three waves of immortal energy emerged from his body on their own, producing great dao flowers above his head that were beautiful and complex.

Then, the dao flowers scattered, wisps of faint mist scattering, entering every inch of his body. Then they gathered again, coming full circle, cleansing his body!

The immortal scripture began to move, slowly washing his blood vessels. This was natural luck, granting him extraordinary benefits.

One had to understand that this was just the beginning!

Everyone could see how world shocking that scripture was.

These were all inconceivable irregular scenes that left everyone shaken!

A true dragon appeared, scales cold and metallic, moving about, swallowing the sun and moon. When its body moved, starry rivers were broken. Then, an undying bird cried out, fiery light overflowing, burning the heavens. Gods were in fear, all spirits bowing down in worship.

Moreover, there were large amounts of ascension light that surged, surrounding Shi Hao as it moved about, cleansing his flesh, making it even more sturdy, heading towards becoming imperishable!

Immortal scenes covered the skies, auspicious signs shocking the world!

Many people became stupefied. Just how heaven-defying was this scripture? If they were able to read this scripture, then they would definitely obtain endless benefits. They really wanted to immediately seize it and read it themselves.

“It truly is a formidable scripture. This was left behind by an Immortal Ancient peerless expert, a Flame Seed of inheritance given to later generations!” On the cliff, an aged eccentric released a light sigh.

They were the ones at the peak of the Nine Heavens, so they could naturally see the great dao true meanings of this scripture from a single glance, that it hid unmatched divine abilities. It was an unimaginable precious scripture.

On the other peaks, there were some youngsters who snapped out of their daze, all of them revealing strange expressions. This type of jade book left behind from the past was too inconceivable, making one’s eyes turn red.

Some people’s eyes flickered with cold radiance, developing thoughts of greed. It was because this was a heavenly book, if they obtained it, it would affect these cultivators’ entire lives, make their clans prosper.

If they obtained this scripture, they would be able to establish an unprecedentedly great clan. With this inheritance, if they continued to develop, the clan would prosper for many generations.

Forget about others, even Lan Xian, Great Xu Tuo, and the others were moved. Their own inheritances were mysterious, origins shocking, but when they saw the immortal scripture, they still revealed different expressions.

Little Sky King’s eyes were even more intimidating, symbols of order appearing within them, as if they were going to peer through the immortal scripture, wishing to see what was recorded within. He walked the path of ancient methods, so when he saw this scripture, how could he not be moved?

This was especially the case since Little Sky King was known to be unrivaled in the younger generation, reaching the very peak of his cultivation realm, making him desire these ancient secret texts even more so that he could improve further!

He possessed heaven warping talent, blessed with great opportunities, also having heavenly books. However, who disliked getting more? This was especially the case when there would be great benefits when two were verified with each other.

In that instant, many blazing eyes landed on Shi Hao's body, these eyes carrying jealousy, envy, hostility, and other things, wishing to take his place, be the ones who obtained the immortal scripture.

Without a doubt, Sacred Academy, Heavenly Deity Institution, and Immortal Academy also had unmatched scriptures, or else how could they have attracted the geniuses of the Nine Heavens? However, they weren't things just anyone could read.

This was especially the case with Shi Hao's scriptures, definitely extraordinary. This was just the beginning, yet it already cleansed his vessels and nourished his flesh, it was a bit inconceivable.

Forget about those who cultivated the ancient methods, even the eyes of those who cultivated the present world methods were filled with desire. If they obtained this scripture, they might be able to refine an unbreakable precious body.

Right now, Sacred Academy's Qi Gu, Yi Yi, Little Saint, and others all looked over, not calm like how they were normally.

Moreover, this was true even for the Pride of Heaven Jin Zhan, his eyes swirling about, primal chaos appearing in his pupils, a few great stars swirling about, as if a world was being created; this was his dao. Right now, he was paying close attention to this, staring at this immortal scripture.

In that instant, a wave of terrifying battle intent overflowed, and then it quickly withdrew!

Jin Zhan calmed down. He suddenly turned around, not looking in this direction anymore. However, there were some people who knew that he actually cared a lot about this scripture. If the conditions were right, he would definitely fight over it!

Even someone who walked the present world methods was like this, one could well imagine how the others felt!

Right now, Wang Xi, Princess Yao Yue, Lu Tuo, and others were all moved, silently watching Shi Hao and the shining scripture in front of him.

Shi Hao opened his eyes and said, "Don't tell me that long life families don't have scriptures from the last great era? For example, Wang Family, you all can come to exchange for this with the Chaos Calming Art, I will be more than happy to do so."

Wang Xi's long dress trailed on the ground, standing on the mountain peak swirling with white mists. Her figure was slender and beautiful, hair shiny. When she heard this, her expression immediately changed.

This peak was occupied by Jin Zhan. Right now, he revealed a faint smile, saying, "My clan also has some ancient scriptures, would we be able to carry out an exchange?"

Shi Hao nodded and said, "Several days ago, I met Jin Taijun. Even though she is one of the most ancient individuals of the present world, her mind was still sharp, I am quite interested in the secret methods

she used to refine her tendons and bones. If Jin Family can exchange with their sect protecting ancient scripture, then it can be done!”

Two streaks of lightning shot out from Jin Zhan’s eyes, the void several zhang in front of him even split open, his gaze forceful and terrifying.

Everyone knew that Jin Zhan’s origins were astonishing, inheritance ancient, originating from the last great era just like Wang Family, one of the most powerful long life families.

Moreover, Jin Family was quite special in that their scriptures emphasized the forging of the body, the cultivation tied to their bones, a bit unique.

It was to the extent where there were legends saying that the bone texts that were cultivated in the present world actually had a lot to do with Jin Family, that it was a portion of their scriptures that were spread throughout the world, affecting the formation of present world methods in this way.

Of course, there was no way to verify these rumors, as none of those in later generations could read Jin Family’s sect protecting ancient scripture!

Many people speculated that the reason why even though he was the inheritor of a long life family, he still chose to take the path of present world methods, was because of the scriptures they had, that they were close to the present world methods.

Even though many people’s eyes were red, desiring Shi Hao’s immortal scripture, they didn’t dare take action. Who didn’t know about his glorious accomplishment of defeating ten foreign kings in a row?!

It was useless even if they reported this to their elders, because with those eccentrics lecturing here, who dared act recklessly here? They would definitely be suppressed!

Shi Hao cultivated peacefully, carefully studying every symbol, completely focused on comprehending them. This was an Immortal Ancient method, a type of extremely perfect great dao system.

In the past, he didn’t have the qualifications to read this, because he didn’t reach the Void Dao Realm yet, unable to even open this scripture. There was a great power sealing it.

This was precisely an Immortal Ancient wondrous book, those of lower cultivation realms unable to even see its contents, only able to study it after reaching a certain level.

After reading through the opening section, Shi Hao released a light sigh. According to what was recorded in the scripture, only by opening this book on one’s own could one be considered to reach the beginning, the crucial part of cultivating this scripture.

This was to say, the Void Dao Realm was nothing more than this!

No wonder it led to immortality, the requirements were too high!

However, this didn’t mean that Immortal Ancient Great Era was too high to reach, because it was written in this scripture that the cultivator had to build a foundation first, light a Flame Seed.

Before cultivating this scripture, the various clans’ worthy individuals had to grow first!

Meanwhile, the so-called Flame Seed was the path of dao foundation. Those who had exceptional talent could cultivate immortal energy!

Moreover, this scripture was prepared precisely for those who cultivated immortal energy, or else one didn't even have the qualifications to read it. It could be said that this was an incredibly profound and mysterious ancient book.

Even in Immortal Ancient Era, there weren't many creatures who cultivated immortal energy, all those who did were elites!

Shi Hao read everything carefully. He really had to thank Heavenly Deity Institution for learning Immortal Ancient characters there. Otherwise, there would be no way for him to study this scripture at all.

Great dao immortal sounds rumbled on this mountain peak, mysterious symbols extending from the scripture, surrounding Shi Hao inside. He immersed himself in the dao methods of the past.

It could be said that this was a completely new world. This scripture was different from present world methods, opening up a brand new world for Shi Hao!

In the past, even though he walked the path of ancient methods, they were all things he fumbled upon himself, forcefully cultivating three strands of immortal energy and other things based on legends, only today did he see the grand picture of an entire system.

"I really was lucky to have obtained this scripture, or else if I continued to randomly grope about on my own based on rumors, then things would have been extremely troublesome!" After Shi Hao read a portion, he became inwardly shocked.

They all said that the strong all had their own dao, establishing their own methods, but that was only after completely integrating all types of dao methods. Only after standing on the shoulder of a giant can one gaze even further.

Shi Hao clearly didn't reach that step yet. Without seeing long life, how can one dare to claim that what they established themselves was different from the systems those of the past discovered?

He already had immortal energy, forcefully gathered on his own. He was like a seed that already existed. There were even branches and leaves extending out, to the point where flowers even formed above his head. However, this was like duckweed without roots!

Fortunately, he had this scripture, perfectly able to make up for his deficiency.

"Since I have a seed, then it naturally needs to sprout roots, definitely shouldn't expect it to immediately blossom and display results!" Shi Hao nodded, developing an understanding of the scripture meanings in the book.

Shi Hao's foundation was too deep. He had long cultivated three strands of immortal energy, moreover using the body as a seed, producing an abundance of immortal dao aura. From now on, it was precisely time to start a major undertaking!

As such, he operated this scripture. His body immediately released a weng noise. Streak after streak of light lit up, immortal mist surging, making him look incomparably divine and holy.

All of his pores relaxed, hundred bones all vibrating, like sonorous immortal sounds, also like an unmatched war melody. It now officially begun!

One could see that his body was transforming inch by inch. Immortal sounds spread, carrying out a type of mysterious baptism for him, as if he was shedding his mortal body and exchanging his bones!

Chapter 1380 - A Year Passes Quickly

On the mountain peak, scripture sounds rang out unendingly, truly fascinating.

Only, for others, it was extremely indistinct, and also rather indiscernible. It was as if they sounded from an immortal homeland, not clear at all. They wanted to grasp the concrete scripture meanings, yet it slipped right through the gaps in their fingers.

Shi Hao was fully immersed in cultivation, mind and body harmonizing, comprehending this unmatched great dao. He submerged himself within this brand new cultivation system.

He had to strengthen himself until he truly rose up!

It was because once he entered the Desolate Border, he would inevitably experience the bitterness of blood and flames, dangers of life and death. Speaking a bit more pessimistically, it would be equivalent to lingering about the path leading straight into the nine underworlds.

That was why Shi Hao wished to be stronger, wishing to seize this time to accumulate, transform, making himself more and more powerful.

There wasn't much time, he didn't have much room to prepare. He already made the decision to head to the Desolate Border, endure the cruelest sharpening. There was Heaven Abyss, devil medicine mountain ranges, burial realms, Heavenly Beast Forests, and other places. Danger and opportunities coexisted!

There was an ancient city that Shi Hao even more so wished to enter. He wanted to see for himself whether there was still anyone among the Seven Kings alive. Did they all wither away?

Apart from this, the most crucial thing was that he wanted to truly face the foreign enemies. He wanted to face the leading figures of King Clans, even more so wanted to fight a battle at the peak against the ancient Emperor Clans' true young heavenly talents.

Who was stronger and who was weaker?

To face each other on the battlefield, fight to the death, this was the best sharpening!

Scriptures continued to sound, making many people feel envious. The effects were too clear, Shi Hao's skin flowed with a mysterious type of radiance, as if he was cast from a golden body.

This was a transferring of immortal energy, even more so a type of aura that was reviving, growing. He was slowly becoming stronger!

Immortal dao aura!

Right now, this type of aura flourished even greater than before within Shi Hao's body. However, it didn't turn into great dao flowers, instead starting to take root within his flesh.

The three dao flowers scattered, returning into three streaks of immortal energy. Then, they broke down again, becoming strands of light, taking root in Shi Hao's limbs and bones, being nurtured once more.

This gave one a type of misconception, as if Shi Hao's entire body became an immortal body, one full of true immortal dao aura!

Seed, this was the root of Immortal Ancient methods!

Before this, Shi Hao had already accumulated enough. After the three streaks of immortal energy condensed, it was equivalent to harvesting the most precious seed, now, it was time to sprout branches and leaves.

Right now, his flesh was like soil, heaven and earth essence the water that nourished the seed, making it germinate.

After the three streaks of immortal energy turned into light, they hid within every inch of his flesh. Shi Hao followed the cultivation method recorded in the ancient scripture to nurture them.

Hong!

It was as if a heaven and earth furnace was opened. Endless divine light was released from Shi Hao's body!

The bones in his body released vibrating sounds, becoming more and more brittle, as if Immortal Gold was clashing. Meanwhile, the blood flowing inside his body was even more so like a roaring sea.

This was just the beginning of dao comprehension, just a brief nurturing of immortal energy, yet he already underwent such shocking changes. The pores on his body expanded, releasing some gray-white substance.

"What is that?" Everyone was shocked. It was because Huang had already cultivated to the point where his body was already extremely perfect, there should be no way that he could eliminate so many impurities. This was just too shocking.

"It isn't impurities, but rather his dao bones being altered, polished. There is some bone matter that is being removed, and then forced out of the body!" An elder on the cliff said.

While saying these things, he was extremely alarmed, never expecting the immortal scripture to be this tyrannical, actually able to strengthen and forge bones in such a short amount of time.

One could see that Shi Hao was drenched in sweat. This was definitely an extremely painful process, of course, it was also a self-sharpening and transformation, part of the dao comprehension experience.

"The immortal scripture is this heaven-defying?" Many people cried out in alarm. Shi Hao's transformation was just too fast, right?

"This is the first time he came into contact with the scripture, yet his body long prepared three strands of immortal energy, so the results naturally wouldn't be weak!" An elder said with a sigh.

Everyone was moved. They saw Shi Hao's transformation, he was heading towards perfection, towards the so-called immortal flesh dao bones!

"Instead of feeling jealous of another, it is better to break through myself and go further along my path!" Little Sky King said. He already sat down on a mountain peak, starting to cultivate his own method.

A moment later, the entire mountain shone, waves of mist rising. He was surrounded by a great dao aura, becoming a deity in the primal chaos mist!

On the other side, Jin Zhan also closed his eyes a long time ago, not noticing the disturbance on Shi Hao's side. He was cultivating, tempering his own body, comprehending his own great dao.

A few young supreme beings' wills were resolute, not moved at all. For example, Great Xu Tuo's hands moved about, forming ancient monk magical imprints. He had previously merged with the ashes of an immortal monk, the natural luck heaven-defying. Right now, he went into seclusion like a monk, chanting scriptures, refining his own Zhang Six Golden Body!

...

Then, many young cultivators began to meditate. They borrowed the heaven and earth ancestral vein left behind from the last great era, starting to cultivate, comprehend their own divine abilities and techniques.

Three days passed in a flash. The elders on the cliff began to lecture once more.

Many people opened their eyes, waking on the mountain peak. Only a few people entered a deeper state of dao comprehension, because the underground ancestral vein was too extraordinary, immortal dao energy rich, suitable for going into seclusion.

Shi Hao woke up. This was the first time he studied this scripture, experiencing this completely new cultivation system for the first time. He didn't enter the deepest level of comprehension.

"Wayaya, this scripture is too formidable? What is even recorded on it?" The little rabbit really wasn't reserved, directly rushing over and asking.

Shi Hao didn't plan to monopolize this scripture, saying, "You all can study it as well."

Those from the three thousand provinces who he was close to were all shocked when they heard this. This was but a priceless treasure, normally things that were kept a secret, treasured greatly. Who would hand this type of thing over?

"A great era of darkness is coming, a bit more skill will mean a higher chance of survival. I hope that in the future, all of you are still here. Moreover, what everyone ends up comprehending and realizing isn't necessarily the same." Shi Hao said.

It was precisely as he said, this was a completely different cultivation system, developing from the 'seed'. Everyone had different seeds, so when it germinated in the end, the fruits that were produced won't be exactly the same.

Qing Yi, Chang Gongyan and the others all needed this scripture badly, and even though the little fatty Cao Yusheng cultivated present world methods, he still muttered to himself, studying it for a long time.

“Let’s listen to the elders’ lecture first, it’ll also allow us to understand different things about the other side.”

Apart from a few individuals, most of the young geniuses came out, arriving beneath the cliff, listening to the elders.

“Immortal Ancient War, the most powerful experts of my world, who were the one who killed them? For example, Heavenly Horned Ant Great One, was he impaled by Anlan Clan’s ancient ancestor’s golden pike?”

...

This was a process with questions and answers. The young cultivators who wished to head to Desolate Border wanted to understand more. They wanted to know about those unmatched figures on the other side.

“In the more crucial battle, two great immortal kings died miserably on the battlefield, blood dyeing the war banner red, who were these two individuals?” Ten Crown King asked.

“They were Without End Immortal King and Six Dao Reincarnations Immortal King.” An elder sighed.

“Whose hands did they die under?” Great Xutuo asked.

“The two immortal kings’ causes of death were extremely complicated. They had fought too many battles, no one able to fight in their place, in the end falling after their strength was completely exhausted. This is especially true regarding Without End Immortal King’s conclusion, even more so a mystery. As for Six Dao Reincarnations Immortal King, the final strike came from a Divine Gu[1] Clan matchless expert.” An elder replied.

“Divine Gu Clan?”

“Correct, a terrifying clan. If you all head to Desolate Border, you will encounter experts from this clan sooner or later. Their numbers are few, but they possess unmatched power, extremely strong, left hand able to break space, right hand able to sever time, terrifying beyond compare!” The elder said with a sunken voice, a wave of anger also appearing in his eyes.

“Why does this clan seem similar to a clan from the Vicious Ten?” Daoist Qi Gu was confused, asking like this.

“It is because their bloodline came precisely from the Vicious Tens Gu Clan after they rebelled. In addition, after entering the other side, they underwent strange changes, becoming even stronger, thus forming the Divine Gu Clan!”

“What? They were originally my side’s Gu Clan?!” Everyone was shocked.

Time quickly passed, in the blink of an eye, a year passed. It was already close to the time that was agreed on, the ones who wished to head to Desolate Border were about to go on their way.

During this year, these young cultivators all cultivated with great effort, borrowing this piece of Immortal Ancient's ancestral vein to refine their bodies, nourish their primordial spirits. They surrounded themselves with immortal dao aura, fully concentrated on the comprehension of scriptures, strengthening themselves.

Meanwhile, during this time, their understanding of the foreign enemy also grew much deeper, understanding many secrets.

"There isn't much time left, soon afterwards, all of you will go on your way. Hurry up and use this time to make your preparations, if there is anything else you all do not understand, you can come and ask us!" The elders said.

"I'm already itching to get on with it! Just let me slaughter my way into the foreign side earlier, I want to go to Desolate Border, get revenge, make the Heavenly Horned Ant's divine might be renowned once more!" The golden little ant said. It had already endured for a year!

Great Xu Tuo, Little Saint, Jin Zhan, and even Shi Yi, Exiled Immortal, and the others all bathed in divine splendor, also preparing to forge ahead.

There were quite a few people who wished to head to Desolate Border. It really was surprising. They weren't scared off by the difficulty and danger of death, all of them wishing to sharpen themselves in the darkest of times, be the first to rise up!
