

## Perfect WD 1411

### Chapter 1411 - Establishing a Legend

Shi Hao's body moved back and forth. He walked onto a bridge, lightning everywhere, arriving in the Nine Heavens. He slaughtered his way here from the Ten Earths!

This was a type of magnificent feat. The enemy army was endless, boundless without borders, no end in sight. Meanwhile, he crashed his way through just like this, slaughtering his way over!

Only, after he came here, it became even more dangerous!

There was already a great battle happening here, shouts of war shaking the skies. Shi Hao charged straight in, equivalent to participating in the battle. There were immediately many creatures who targeted him.

The foreign cultivators threw themselves over, attacking crazily, not holding back at all, to the extent where they gave up on their original opponents, starting to surround and pursue him!

The ancient people were at a disadvantage, powerless to provide him with help. No one could come over to help him, Shi Hao's situation dire, to the extent where it was even more dangerous than when he was in the Ten Earths. It was because the overall strength of the creatures of the Nine Heavens was a bit higher!

Shi Hao had no choice, he could only fight a bloody battle. At this point, how could he turn back? He couldn't retreat even if he wanted to. The lightning tribulation wouldn't disappear, he either succeeded and made his way through, or he would be hacked to death!

Moreover, this type of great tribulation was something outsiders couldn't help with even if they wanted to, there was simply no way to interfere. The lightning tribulation couldn't be avoided.

"Protect our wives, children, and elders, die!"

"Protect my mountains and rivers! Even if my hot blood is shed, I will take you all down with me!"

The ancient people roared out, rushing over, not fearing death. Every one of them, even if their heads fell to the ground, their bodies still moved forward, brandishing the heavenly spears and other weapons in their hands.

Shi Hao was moved, feeling as if he returned to that era of despair, struggling while in desperate straits. They rose up vigorously in this final battle, fighting while drenched in blood before Immortal Ancient's destruction!

"Come, foreign devils, today, I am going to kill until I'm satisfied!" Shi Hao roared out, not sure if this was lightning tribulation or a dream back to Immortal Ancient, fighting with everything he had.

Qiang!

A silver armored king threw himself over, in his hands a Heavenart Halberd, seated on a vicious beast. He was incredibly powerful, rushing straight over.

That mount was extremely large, looking like a demonic mountain. It carried this person, roaring as it charged over, trampling on the void until it rumbled with noise, the surrounding creatures all moving out of its way.

“You belong to me, I will take you as a servant!” The King Clan cultivator in silver armor roared out. He was in the Self Severing Realm.

This left everyone shocked. It was as if this was real, he was conversing with Shi Hao! This lightning creature was more terrifying than the ones in the Ten Earths, extremely strange.

“What is so special about a king race? It’s not like I haven’t killed them before!” Shi Hao shouted loudly. With a qiang noise, a long blade appeared in his hands. It was thick and powerful, blade bright as snow.

This was produced from lightning. He operated the Lightning Emperor Precious Technique, producing this type of weapon.

“Then just die!” That silver armored king roared, controlling his mount. It trampled down towards Shi Hao’s body, the Heavenart Halberd in his hands hacking over.

Shi Hao released a great roar. The long blade in his hands was dazzling white like a starry river, producing resplendent divine light, going against the heavens, facing the halberd.

Dang!

The noise was ear-splitting, the snow-white long blade smashing into the Heavenart Halberd. Terrifying radiance erupted, exploding there, as if stars exploded, lighting up the dark starry region.

Energy wreaked havoc, roaring past.

“You can just die!” That foreign king roared out, as if he had a spirit, able to communicate. He possessed a mind of his own, killing intent overflowing into the heavens.

“Kill!” Shi Hao also released a short shout, attacking fiercely.

The two fought each other, immediately tangling together. This was a commander, in charge of many people in this region, his strength extremely powerful, boldness unmatched.

Shi Hao used all of his methods, exchanging over a thousand moves with him, yet was unexpectedly unable to decide victory or defeat.

“Who is that human, where did he come from, why is he this powerful? How could he face a Self Severing Realm king race with the power of the Void Dao Realm!”

“This is but a pure-blooded king race in the Self Severing Realm, not a branch of the king race with some of the blood, yet he is actually being stopped!”

There were some creatures whose voices sounded between lightning, making Shi Hao truly suspect whether this was facing lightning tribulation or if time-space was in disorder, bringing him back to that doomsday battlefield.

He didn’t have a choice. There was no need for doubt, he could only fight, fight the bloody battle to its end!

“Exterminate!” The silver-armored king on the mount roared, displaying his ancestral method, linking up the heavens and moving the earth, silver light surrounding this place. One could see large amounts of creatures turning into silver, becoming a silver color, flesh forever solid, unable to move anymore.

The nearby creatures all became metal sculptures, their life force severed. The foreign creatures were unaffected.

Shi Hao was naturally in danger, feeling his body becoming rigid. Silver radiance flickered, about to turn him into metal as well, forever sever his life force.

“Break for me!” Shi Hao roared. He supported his single heavenly passage, the divine light in his body burning, erupting from within him.

Hong!

The silver radiance was ignited, the surroundings exploding, unable to corrode him!

“Kill!”

Shi Hao roared out, the dazzling long blade in his hands turning into a streak of light, going against the heavens, hacking forward. He used all of his strength, mixing several types of precious techniques within.

Chi!

Blade radiance rushed into the heavens, severing the sky dome. It was too terrifying!

“Kill!” The foreign king also roared out, man and mount becoming one. That mount roared out, entire body shining, also activating its great killing method.

Chi!

The dazzling long blade was shocking, power extremely great. This blade hacked apart that mount’s ancestral method, cutting apart the screen of light, slicing into its body. It roared out angrily, releasing a mournful sound, blood gushing out with a pu sound.

Hou!

The war beast roared angrily, but it was still useless, its entire body hacked apart, divided into two corpses!

Dang!

At the same time, the snow-white long blade in Shi Hao’s hands also cut into the Heavenart Halberd, divine force surging crazily. Shi Hao used the True Primordial Record, Imperishable Scripture, and all different types of methods.

Ka!

The great halberd broke apart, but the long blade’s power didn’t decrease at all. With a pu sound, it cut through this person’s body protecting divine light, cutting into his forehead.

Blood immediately splashed high into the air. The space between this person's brows split apart, the crack continuing downwards until his entire body was cleaved in half, and then he exploded.

This was the power of a single attack from Shi Hao, forcibly cleaving a commander and mount in half, killing them on the spot!

Hong!

Lightning radiance shone in ten thousand streaks, scorching Shi Hao black. His flesh broke apart, blood flowing out, the injuries created by the lightning transformed from that king race commander not light.

After this battle ended, Shi Hao continued forward.

This path was filled with blood, filled with bloody battles. He continued without stopping to rest, forging straight ahead.

Only, from what he could see, this path was extremely miserable.

Shi Hao charged forward, passing many places. There were villages and giant cities, battles taking place everywhere, the world enveloped in the flames of war.

"Stop! Let go! Let go of me!"

In a small village in the distance, a young man was struggling. He was picked up by a foreign cultivator, and then flung violently onto the ground, killed just like that.

"I am going to fight you to the death!" A village woman's eyes became red, crying as she threw herself forward.

Pu!

A streak of cold light flashed past. That creature's expression was incredibly cold, removing her head without even the slightest bit of emotion.

"Mother!" A young girl screamed out, forgetting to even cry. Her eyes were widened, filled with fear.

That creature reached out its feet, stepping down, turning her into a blast of blood, dying miserably on the spot.

"Savage brute, hand over your life!" An elder's eyes were shedding blood, roaring loudly. A blade swung over, hacking forward.

Dang!

The long blade broke. The elder was struck until he coughed out large mouthfuls of blood, and then that creature wrung his neck, ending his life.

Shi Hao saw everything clearly from the distance, his eyes feeling like they were going to crack apart.

At the same time, he really was confused why everything in this heavenly tribulation was this lively, with these types of scenes. It was as if they really were happening, making him can't help but erupt with anger.

He suspected that these were most likely things that happened before, the scenery of the battle of the last phase, the creatures of the Nine Heavens Ten Earths all buried in that war.

This village, as well as places that were even further, were all on fire, crying sounds everywhere. It was because there were many foreign creatures in this place, unleashing slaughter here.

Shi Hao walked forward, attacking furiously. He held a war blade in his hands, brandishing it angrily. With a pu sound, the head of the indiscriminate murderer was removed, and it also exploded from this blow.

Shi Hao turned into a demonic god, attacking crazily here, one attack per enemy, wiping out several hundred foreign creatures.

This was a blood filled world, every place filled with weeping and sounds of killing. Shi Hao couldn't bear to look at these places, for example, the tribes, cities, and others, simply as if he was watching hell on earth.

In the end, he slaughtered his way into the great wilderness, not willing to watch these things anymore.

This was lightning tribulation, so even if he took action, he couldn't change history. Meanwhile, he wasn't willing to see those scenes again.

"Something's not right, why is the city I just saw like that of the present world? Could it be..." Shi Hao broke out into a cold shiver.

Didn't this happen before? Could it be that this tragedy was destined to play out in this world?

"Kill!" He roared angrily towards the heavens, rushing forward.

In the great wilderness, there were many foreign creatures as well, for example, right now, there were thousands upon thousands of silver centipedes, all of them with silver-colored fiendish wings, covering heaven and earth as they dove towards him.

The killing was endless, death everywhere!

Shi Hao encountered great trouble. The centipedes were all three foot or greater in length. They continuously dove down, spraying out lightning from their mouths, fighting against him.

Moreover, these centipedes were like arrows, extremely sturdy. They left many wounds on his body, piercing through him.

It was because there were just too many centipedes, hundreds of thousands of them in total, perhaps even over a million, drowning him within, impossible to completely defend against, leaving him mentally and physically drained.

Finally, he slaughtered his way out, dragging his weary body from this heaven, entering a higher level.

This was a type of struggle, a type of bloody battle fought with one's life on the line. The road was too difficult, he almost died several times, but in the end tenaciously stood up again.

Time flowed on. Everyone outside the heavenly tribulation were holding their breath, feeling as if they were watching a legend playing out. A person could actually reach this step while facing tribulation, continuously ascending six great heavens!

In many people's eyes, Huang should have died a long time ago, yet he actually pressed forward, still struggling and advancing!

Even though he was covered in wounds, flesh crushed into a bloody paste, white bone even visible in some areas, body charred black, he still didn't give up.

"Seventh great heaven!"

"Eighth great heaven!"

...

Everyone was counting. They discovered with shock that he was already about to drag his dying body towards the final great heaven.

"He entered, he... ascended into the ninth great heaven!"

"Huang, is he going to compose a legend of legends? He could make it through even this type of heavenly tribulation, charge through?"

"This type of great tribulation definitely exceeds all heavenly tribulations in this cultivation realm, yet he is actually going to succeed!"

"This is completely unprecedented, no one ever accomplishing such a thing!"

Many youngsters were watching the battle, feeling as if they were experiencing this trial themselves. They couldn't help but cry out loudly.

"After crossing this tribulation, Huang will obtain tremendous benefits!" A few people already began to think to themselves, wondering just what kind of great natural luck Shi Hao would obtain.

"Huang is currently composing an unequalled miracle!" Someone couldn't help but say with a sigh!

#### Chapter 1412 - Final Layer of Heaven

Shi Hao was extremely tired. Even a body as tough as his, comparable to divine gold, was now incredibly tattered, entire body covered in blood, bone exposed in some areas.

Apart from this, his body had many lightning strike traces, scorched black and dried-up. There was even a large hole in his chest that went straight out his back, bits of electrical arcs spilling out from it.

It was extremely miserable. He rushed through eight great heavens, paying a tremendous price to do so. He faced too many enemies along the way, all of them extremely strong. He slaughtered his way through an endless army.

No matter how strong one was, it would still be difficult for them to have the might to sweep through all enemies in the heavens. The opponents were everywhere, the killing neverending. When there were

enough ants, an elephant could be bitten to death, let alone right now where he was facing the foreign side's warlike races.

The bridge withdrew. Lightning radiance flickered about. Shi Hao stood on the ninth great heaven, on the verge of collapse, truly a bit unable to continue. He didn't know if he could still fight or not.

In the distance, magical artifacts rushed up one after another, colliding in the sky dome, releasing dazzling sparks, as if stars were colliding one after another, and then exploding.

"This world will be destroyed, it will happen today!" A creature roared out, the fluctuations making one's soul tremble.

Then, Shi Hao saw a large black hand move through the heavens, immediately cover the entire sky dome. Not only did many precious artifacts explode, the moon, stars, and other things entered that palm as well, also crushed.

This scene was too shocking.

Shi Hao's pupils contracted, staring there.

Outside the heavenly tribulation, all of the young cultivators saw this scene, every one of them sucking in cold air. This... exceeded everyone's expectations. It was the power of the undying!

This was definitely a move from individuals on that level. This heavenly tribulation really was too strange. When this type of great disaster descended, who could make it through?

Could it be that Huang had to face this type of great calamity?

Right now, forget about others, even Jin Zhan's grandfather felt a bit of sympathy for Shi Hao. "If that type of power really is encountered, one can only die without a complete corpse!"

"That youngster believes himself to be infallible, how can heavenly tribulation be that easy to cross? Spontaneously incurring tribulation, this isn't something anyone could get through unscathed, even a peerless genius has a chance of falling!" Wang Xi's grandfather said with a cold laugh.

"A heavenly tribulation ought to correspond to one's cultivation realm!" In the distance, Ten Crown King stared at the lightning radiance, looking at the incomparable heavenly tribulation, saying this to himself.

Even if it was guided down by oneself, triggering the lightning, it still shouldn't be this crazy, definitely couldn't cross several great cultivation realms in an instant. If that happened, what path of life was there to speak of?

Heavenly tribulation, was destruction, as well as a trial, but also hope, even more so a type of new life.

There was a gleam of hope in despair, newfound power birthed from destruction. Once one made it through, the benefits would be numerous, equivalent to a rebirth.

Those who made it through would be equivalent to experiencing a transformation, experiencing a refinement, further strengthening oneself!

"The undying won't take action!" Someone said.

In the Nine Heavens above, blades shone and sword shadows flashed about. There were even more creatures here, blood covering the world, corpses laying in disarray, the scene even more desperate.

However, unexpectedly, when Shi Hao arrived, there were momentarily no creatures who went after him, this place extremely peaceful.

In the distance, shouts of war rushed into the heavens, sword energy weaving about, some instantly rushing out tens of thousands of li. This was a confrontation between experts at the peak, intense beyond imagination.

Hong!

A heaven overturning imprint descended, sparkling and gentle like jade. In the end, it quickly enlarged, directly smashing hundreds of thousands of li of great earth in, leaving those who saw this stupefied, their bodies going cold.

Then, a silver spear flew over, impaling an extremely powerful creature, an expert that belonged to the Nine Heavens' side. The silver spear's might didn't fade in the slightest, after it pierced that creature, it smashed through a star in the heavens beyond, and only then did it explode.

The expert that belonged to the Nine Heavens side was originally extremely strong, still struggling, but the instant that great star exploded, he was also set aflame, nailed down and killed!

These scenes were shocking, the battles in the nine heavens above were too terrifying.

Shi Hao released a light sigh. He himself also thought that the heavenly tribulation should correspond to him, one realm higher should already be the limit, the creatures that appeared shouldn't be too ridiculous. Even if he could see a supreme figure take action in the distance, it should still be far away from him, shouldn't affect him. However now, with these types of dangerous figures right there, it wouldn't be strange even if he truly encountered them.

Could it be that this really was a path of death?

He silently watched everything. When he saw that there were still no creatures who slaughtered their way over, leaving him alone, he decisively sat down to treat his injuries.

It was because his condition was extremely terrible, body in tatters, flesh dried-up, even some of his bones broken, his body in an extremely bad condition.

The main thing was that this was a path of blood, encountering too many experts. There was no way he could charge through without paying the price!

It could be said that even if a Self Severing Realm cultivator faced this tribulation, he would still most likely also die. This heavenly tribulation really was unimaginable.

A hazy light wrapped around Shi Hao, absorbing power from the lightning radiance, restoring his physical body.

The effects were extremely good!

Shi Hao couldn't help but feel startled. This final heaven's lightning tribulation contained unordinary things after all. It originally represented destruction, but it actually contained a thriving live force.

This was extremely effective. Shi Hao's physical body was wrapped within this type of innate life energy, reborn in this world of destruction. His body was sparkling, gradually becoming whole, quickly recovering.

Within his body, broken bones sounded continuously, all of them connecting.

Shua!

Shi Hao opened his eyes. While still seated in an unchanged posture, he quickly shifted several hundred zhang, evading a strike of inevitable death.

A streak of shining cold light flickered, a white gold divine sword. It was carried by a creature, after it was brandished, it almost struck him in the head.

Danger arrived. Above the nine great heavens, he was given a chance at first, allowing him to recover. Once he had combat strength again, enemies immediately appeared.

"There was a trace of opportunity for life after all. It will just depend on if he can make it through or not now." Outside the heavenly tribulation, someone said quietly. When they saw that Shi Hao recovered his energy, they all knew that he had hope.

"Human, an annoying race, unbearably weak, yet when they are strong, they are extremely strange, not easy to appraise. Hand over your life!" That creature roared out.

A great battle erupted again. Moreover, the activity here disturbed this entire region. It was unknown just how many foreign enemies rushed over, blade energy like a sea, sword radiance rushing into the heavens.

"Kill!"

Shi Hao released a low roar. He didn't have a choice, he had to slaughter out a path of life, weave in and out as he attacked.

Soon afterwards, this place became a bloody mess, because too many creatures were killed. Shi Hao cut down a few especially powerful leaders, and then fought a bloody battle against the great army.

He held a long blade, wherever it passed, heads tumbled, continuously falling. There were bodies that were cleaved in two as well, those that were chopped in half at the waist even more so too many to count.

Hong!

Streak after streak of lightning radiance exploded, reaching the heavens and shaking the earth!

Whenever these creatures fell, or when they suffered fatal damage, they would mostly turn into electrical light and explode, the scene horrifying to the extreme.

Chi!

Suddenly, several streaks of undying light flew past the sky, interweaving with immortal radiance. It was extremely strange, even more so extremely terrifying!

Shi Hao's body became rigid. He raised his head towards the sky. There were several powerful figures there, slaughtering their way into the depths of the stellar domain, and then disappearing. *no ve-1b.1n*

"Hateful, he was given a chance after all, only a heavenly tribulation matching his cultivation realm. It isn't a complete slaughter!" Wang Xi's grandfather released a low roar outside the scene.

"This is too great!" The golden little ant, Cao Yusheng, and others released a breath of relief. Just now, they really felt sullen.

However, it wasn't time to relax yet, because the true danger was definitely still to come.

Sure enough, the scene changed. The great army separated, several creatures walking over, every single one of them wearing silvery-white battle clothes, extremely heroic.

Apart from this, there were even more foreign soldiers who appeared, surrounding Shi Hao, fighting a bloody battle with him.

Right now, the creatures who belonged to the Nine Heavens Ten Earths didn't retreat, rushing over.

Pu!

Only, the creatures in the lead were too strong. One of them swept out with his halberd, directly hacking through the iron sword of a robust middle-aged man that rushed over. Then, the great halberd stabbed through his body, blood flying high up into the air.

"Little brother, I can see that your potential is extremely great. You should leave for now, leave behind some tinder in the Nine Heavens!" That middle-aged man shouted like this to Shi Hao before his death. Then, his body exploded.

"You..." Shi Hao's sharp brows stood on end, looking at those foreign king races.

"Hurry and leave, there has to be some hope left behind. I saw that you slaughtered your way up from the Ten Earths, and then continuously charged through eight great heavens. This type of potential has to be left behind for the future to make sure our inheritances aren't extinguished! There has to be some who can continue living!" Another elder shouted. He also rushed over while leading people, but in the end, they still weren't a match.

With a pu sound, several heads fell, cut off by the terrifying great halberd."

"Mutuo King, I am going to stake it all against you!" Someone shouted, stabbing outwards with the spear in his hands.

Pu!

However, the result was still the same, that person dying on the spot.

This seemed so real, yet it was also like an illusion, making Shi Hao's emotions surge greatly. Even though he knew that this was heavenly tribulation, he was still greatly affected!

“All of you can just go to hell!” Shi Hao roared angrily. He killed many of the foreign enemies that swarmed around him, and then rushed towards those silver-robed kings.

Honglonglong!

Behind Shi Hao appeared a pair of Kun Peng wings. When they moved, yin and yang energies swirled, smashing into chaotic energy. The long blade in his hands slashed outwards murderously as well.

This was a great battle that made him furious, making his blood boil. Shi Hao was truly angered, fighting against these kings.

Dang!

Kun Peng spreads its wings, displaying its power. He blasted the great halberd aside, in the intense fighting, following a pu sound, a blade sliced off the Mutuo King’s head, a powerful foreign king race expert killed.

He fought risking life and limb, in the end killing all of those king races.

He was like a golden lion charging through a group of wolves, bathing in blood. There were enemies, but also people on his own side. He slaughtered in and out, unwittingly arriving at the heart of the Nine Heavens battlefield.

Suddenly, right at this time, streak after streak of golden light rushed over, forming a great golden path, arriving from all directions.

Hong!

Shi Hao was seriously injured, moreover surrounded!

At this moment, the army completely withdrew, no longer attacking. Only those golden paths had people walk over, all of their expressions serious.

These great golden paths weren’t that many, arriving from different regions, all of them hurrying over from the limits of the horizon, their directions different, the clans they represented also different.

Every single great golden path had a creature, all of them extremely young, but extremely terrifying. Their appearances were accompanied by irregular phenomena, all of them promising and brilliant individuals!

There were some wrapped within chaotic energy, some whose bodies were resplendent like blazing suns, some supported by immortal energy, some who had heavenly text imprints engraved within their brows, releasing world-shaking sounds!

“Who are these people?” Outside the heavenly tribulation, many youngsters were shocked.

The ones who came were all young creatures, but they were clearly stronger than the king races, even making all of them back up.

Thus, the answer was already on the verge of coming out. Many people guessed that these were most likely those who didn’t appear in the world for endless years, the Emperor Clans that had remained secluded within tyrannical ancient lands!

## Chapter 1413 - Emperor Clan

Emperor Clan, this was not an emperor race of the human world, not the emperor races of the Nine Heavens Ten Earths who pursued long life, aiming to become closer to immortality, known to be supreme being inheritances.

In the Nine Heavens Ten Earths, there were supreme being families, as well as inheritances that remained unequalled throughout the ancient times, these could be called Emperor Clans.

However, because there were long life families in this world, an ancestor in their family previously achieving immortality, they were mostly known as long life families.

That was why Emperor Clan was a term not often used in the Nine Heavens, but rather what was used in the Ten Earths, emperors of the mortal world, still within the domain of mortals.

Meanwhile, the foreign Emperor Clans were entirely different, they were established on the title of the undying!

For example, Anlan, Shutuo, these were foreign inheritances whose names had been passed down throughout time, already existing through two great eras, but they still existed, still undying, still alive, incredibly powerful. Their families were praised as Emperor Clans.

In reality, there was another type of saying that in Immortal Ancient years, saying that there were Immortal Kings in this world. Those were paramount existences, unmatched, strength without equal.

Meanwhile, the foreign Anlan, Shutuo, and others, they led great armies, ultimately defeating the Nine Heavens Ten Earths, which was why they were viewed to be higher than Immortal Kings, thus called Emperor Clans.

The 'Emperor' in Emperor Clans was developed in contrast to the Immortal Kings' 'King' word!

Strictly speaking, these were undying emperors!

Of course, they still didn't separate from the level of Immortal Kings, unable to surpass them, already reaching the very peak.

However, in this world, there were too many ancient inheritances, as well as countless mysteries, even more so countless ancient burial lands, the foreign side also like this.

Therefore, there was another type of saying, rumored to be secrets excavated from foreign ancient lands, unknown just which fallen great era's ruins it was discovered from.

The legend was that this burial ground was so ancient not even Anlan, Shutuo, or He Wushuang's masters could see through, unknown which great era the ruins were from.

Based on the things they discovered, they discovered with shock that there might still be paths to take above the domains they acknowledged, that those types of creatures might have existed before!

Just how terrifying of a thing was this?

They already ascended to the peak, unmatched in all domains, yet they could still make progress, enter a higher domain?!

Even after they carefully researched this, they still weren't sure, because there should be no way those types of creatures could exist. They were too strong, unimaginable.

Moreover, if they existed, then why didn't they see any? They completely disappeared, and their lands of inheritance became burial regions. They shouldn't have turned to dust.

No one knew what conclusion Anlan, Shutuo, and the others reached, only, later people said that if they had to say something about the clues in the burial ground, then it can only be said that 'emperors' among undying did exist.

That was why there was a type of saying that it was precisely because of the discovery of those burial grounds that the term 'foreign Emperor Clan' exists.

Even though they weren't, because their clans had supreme ancient ancestors, Anlan, Shutuo, and others were still alive, that was why they were considered the most powerful clans, could be considered Emperor Clans. n(-0v**Elb**In

Emperor Clans, information about them was extremely scarce. There were only a few clues from the most ancient burial grounds, couldn't be fully confirmed.

However, the foreign clans were hopeful, even though there was no definitive proof that existed.

After all these years passed, no one knew what Anlan and Shutuo researched, whether or not proof has been found, if they found any new clues

At the very least, the Nine Heavens' side didn't know about these things.

"Emperor Clan, are these the descendents of Shutuo, Anlan, these people? They are known to be incomparable, that as long as one of them appears, no one among their peers could face them!"

There were some who spoke about this quietly. At this time, even Cao Yusheng, Heavenly Horned Ant, Lunar Jade Rabbit and others' expressions changed, feeling deeply worried.

"If nothing unexpected happens, then Huang is undoubtedly dead, not the slightest chance for life!" Jin Zhan's grandfather said. Even though he was a member of a long life family, his expression still fell when facing foreign Emperor Clans.

In a battle of the same level, Emperor Clans were unmatched, almost never suffering a defeat before.

Meanwhile now, there were several creatures that appeared at the same time, coming from different directions. They all advanced on the great golden path. What chance of surviving did Shi Hao have left?

No one believed Shi Hao could face several youngsters from Emperor Clans alone!

"It seems like we don't have to interfere, he is definitely going to die. At the same time, we can see just how extraordinary the legendary foreign Emperor Clans are!" Wang Xi's grandfather said with a sneer.

The great army already encircled Shi Hao, the great golden paths reaching over. Those creatures each occupied one side, surrounding him.

"They still came in the end!" Shi Hao stared at them. He long had a feeling that he would see these legendary clans!

Hong!

A male among them raised his fist, breaking apart the heavens. He directly smashed forward, terrifying light penetrating the void, destroying everything, the power too great!

Peng!

Shi Hao brandished his fist. A streak of lightning hacked out, smashing into that streak of light. An explosion erupted between the two of them, the void obliterated, extremely terrifying and astonishing!

Meanwhile, this was only the beginning. That emperor race individual didn't truly unleash all of his power!

The expressions of the young cultivators watching all changed. Even though they were only watching, they could tell that these people would definitely be incomparably terrifying, just like the legends, unmatched at their level.

The fortunate thing was that Emperor Clans were too few, their inheritances almost all severed.

Only, their bloodlines were domineering, even though it was difficult for them to produce posterity when marrying other races, once they did give birth, the bloodline would also belong to them.

Every single Emperor Clan had few clansmen, not entering the world often. They lived in the most ancient places, living while cut off from the rest of the world.

In all these years, regardless of whether it was the Nine Heavens or the foreign people, they were all praying for them not to appear in the world!

The people of the Nine Heavens were praying because they feared that they were too strong, impossible to face.

Meanwhile, the foreign people felt this way because they bore conflicting emotions. It was because once there were Emperor Clans that appeared in this world, then that era would inevitably belong to the person from an Emperor Clan, everyone else can forget about competing with him.

The competition for the position of supreme being, the pursuit of undying dao achievement, who could match them? It would definitely belong to the emperor race!

"Come, emperor race, let me see what kind of skills you all have!" Shi Hao released a low roar. Right now, the situation was extremely grim. This was not just a single emperor race, he was surrounded by them.

"This isn't fair, what kind of cruel heavenly tribulation is this? How could it make him fight a group by himself?" Cao Yusheng shouted.

However, the heavenly tribulation was unfeeling, it wouldn't give any type of response, so this type of shout was useless.

"Heh heh, I really am looking forward to this. Just how is Huang going to meet his end?" Wang Xi's grandfather said. Of course, only those at his side could hear him, he still didn't dare provoke public anger.

Everyone was watching carefully, because the effects of this battle would have long-lasting effects. They would now see just how terrifying emperor races really were.

“Kill!”

Finally, there was an emperor race youth who moved, moreover a woman. Her figure was tall, but also slender. She was even half a head taller than men, her steps like a swaying lotus, a finger pointing at the space between Shi Hao’s brows.

Hong!

Golden light surged from her finger, endless divine multicolored light accompanied it. It was as if there was undying aura that erupted here, terrifying beyond compare.

Her arm turned into a faint golden color, golden light completely extended towards that finger. The most powerful divine radiance shot out, piercing towards Shi Hao.

Meanwhile, her entire being was surrounded by hazy primal chaos energy, mysterious and unfathomable, powerful beyond compare.

This was precisely an Emperor Clan, once they took action, the entire world would be left in shock!

“That is... Anlan’s spear?!” Many people cried out in alarm.

It was because that woman’s arm shone, one could see a demonic pattern there that was golden, resplendent, the shape resembling a spear!”

This pattern was shining, a light golden color gathering towards the woman’s finger. Divine radiance shot out, rushing at Shi Hao.

The world immediately broke apart. The power of this finger contained the divine might of Anlan’s spear, simply impossible to contend against!

It was rumored that as long as one was Anlan’s descendant, then they would innately possess his divine might. For example, the golden spear in Anlan’s right hand could engrave a few imprints on the clansmen’s arms!

“Reincarnation!”

Shi Hao released a shout, directly activating his innate supreme being precious technique. It was powerful beyond compare, incredibly tyrannical, accompanied by the power of time, erupting here.

His Reincarnation Fist was powerful to the extreme, divine might matchless. Fragments of time were everywhere, fluttering about here, drowning out everything in front of him.

Ding!

The Reincarnation Fist smashed into the divine golden radiance released by that fine and elegant finger, the two clashing intensely.

That was a golden spear, too brilliant. However, after it was wrapped within the power of time, it started to be corroded, golden light becoming a bit dim.

Qiang!

The golden spear shook, shedding a layer of rust, caused by the power of time. It shone resplendently again, piercing over.

Dang!

Shi Hao immediately sent another fist over!

Everyone was shocked. These were precisely Emperor Clans, they took action!

Moreover, right at this time, on the other great golden paths, the other figures also moved. They walked forward, moreover raising their palms, using ancestral methods to attack Huang!

#### Chapter 1414 - Despair

When the Emperor Clans took action, who could face them?!

It wasn't a single person who moved. While standing on the great golden paths, even though their movements weren't that fast, they moved together, all of them wishing to kill Shi Hao!

This was an extremely serious matter. Since ancient times, forget about being able to fight a group of them, just finding someone who could fight one on one with an emperor race was extremely hard.

Once an Emperor Clan appeared, the entire world would bow down. They would sweep through everything, no one able to face them!

They were the embodiment of unequalled, living legends, never having opponents. Unless they encountered each other, how could they not sweep through all enemies unstoppably?

At their level, among their peers, no one could keep them in check, to the extent where no opponents could be found!

Just how terrifying was this? When other creatures saw them, they would all be in despair, not having the qualifications to fight at all, the difference too great.

"Heh heh... Huang, if you survive through this, then it can be considered defying the heavens, I will feel admiration for you!" In the distance, Wang Xi's grandfather laughed, face covered in wrinkles, teeth white. This smile seemed a bit cold, naturally not sincere. He felt that Shi Hao was going to die.

Zheng!

The golden spear was too brilliant, the speartip sharp, endless radiance shooting out, rushing into the heavens, shaking the world, unstoppable, killing energy world shocking.

It rose up in the time fragments, crossing through time, shooting straight for the space between Shi Hao's brows, wishing to pierce through with one blow, take his life!

Shi Hao's eyes released cold lightning, fist after fist smashing out, simply as if he wanted to grasp the power of time, seizing the force of the golden spear. One could see piece after piece of metal being left behind.

The golden spear was struck by him, fragments left behind, rust marks coming off, to the extent where it even broke apart. However, after each strike, it would shine resplendently again, as if it went through rebirth after endless tempering!

This was extremely terrifying. This golden spear seemed like it was impossible to destroy, even after it broke down, it could still gather together again, killing energy endless!

It was because it wasn't a tangible object to being with, just an imprint on Anlan Clan's arm, belonging to an undying king. This weapon had previously killed all enemies under the heavens.

Even though endless time had passed, now only produced in one's blood, it still didn't fade, allowing direct descendants to possess unmatched might!

A single emperor race was already this terrifying, how were they supposed to defeat a group of them?

"Not good!" Cao Yusheng said with a heavy voice. According to this type of situation, even if Shi Hao could resist it in the end, sharing the limelight, he would still be killed by the other emperor race youth.

"Shatter the everlasting!" That woman released a light shout. A blast of white mist sprayed out from her mouth, surging to the golden spear, making it more and more resplendent, unstoppable, piercing through the world.

Was this strike going to directly break through Shi Hao's reincarnation defense? Many people's hearts were pushed to their throats, feeling worry for him.

Dong!

Right at this time, Shi Hao released a muffled groan. Even the void was trembling, as if an immortal drum was being struck, sounding here, making everyone's souls tremble.

At the same time, streaks shone within his body one after another like blood, but also like immortal energy. It was incredibly dazzling, shining through his body.

Mysterious patterns were condensing, deriving, and then interweaving with the reincarnation bone texts, immediately making him stronger!

This was an extremely terrifying thing, happening suddenly. Shi Hao's aura erupted, power increasing, as if he became several times more powerful, able to travel unstoppably through the heavens.

This was his third type of supreme being method. It had never truly formed, still transforming all this time.

Now, it was displayed by him!

When this precious technique first appeared, it was extremely blurry, its real use unclear, but now, it gradually became more and more distinct. It could support other abilities, make his own precious techniques even more terrifying! *no ve-11.1n*

As a result, his Reincarnation Divine Ability seemed to have been ignited, surging crazily, a long river of time appearing, imprisoning this place, as if a great calamity was descending onto this world.

Dang!

Finally, after this attack, Shi Hao's fist smashed through the golden spear imprint Anlan left his descendants with!

With a kacha noise, the golden spear broke in half, unable to condense again this time, breaking part.

"Anlan World Annihilating Art!" However, that woman didn't feel fear. She released a light shout, displaying another type of unmatched ancestral method, attacking Shi Hao.

At the same time, many weapons appeared in his surroundings, stabbing towards Shi Hao. The other emperor races took action, wishing to kill Shi Hao.

All of these happened in the time it took for sparks to fly off a piece of flint, just too fast.

Hong!

Shi Hao rose up, stepping on many weapons, entire body jumping high into the air.

"Kill!"

Below, those individuals attacked with their weapons, some holding great halberds, others grasping war spears, some carrying divine swords dripping with blood, others having divine furnaces floating above their heads...

In this moment, killing energy overflowed into the heavens, the emperor races all moving to kill Shi Hao.

Only now did everyone feel that this was a heavenly tribulation, not true bodies. It was because if the emperor races were here, they wouldn't work together, because they were all domineering and prideful.

However, it was precisely because of this that one could see how terrifying the situation was. Shi Hao encountered this type of danger, a situation of inevitable death, difficult to survive it.

"You have to make it through!" The Lunar Jade Rabbit shouted out, providing encouragement.

"Freakish tribulation, a single opponent is one thing, but with a group of Emperor Clans appearing, what can one even bring out to face them?" The Heavenly Horned Ant cursed, expressing unfairness there.

"Six Dao Reincarnations!" At the center of the battlefield, Shi Hao roared, using his ancient heavenly art, his entire being forming magical imprints. Six types of hand seals shook the heavens above and earth below.

He used Supreme Hall's great method, staking it all here.

Hong!

Light drowned out this place. All of the weapons were raised high, facing him, brilliant beyond compare, divine force overflowing. Great dao symbols were densely packed, illuminating the world.

Pu!

At this moment, Shi Hao was injured. There was a war spear that pierced through his ribs, a divine sword that impaled his chest, a great halberd embedded in his shoulder...

Emperor race, any one of them would be incomparable, able to sweep through all enemies, no opponents in their level. Now, they appeared together, just how terrifying of a thing was this?

This scene was simply unimaginable!

“Shi Hao!” Cao Yusheng shouted.

“Survive!” The Heavenly Horned Ant released a low shout.

“This isn’t fair!” The Lunar Jade Rabbit shouted. However, there was no way the heavenly tribulation would reply, reality was just this cruel.

Jin Zhan’s grandfather smiled, nodding his head slightly. He knew that the situation was already decided, that there was no need to worry about anything. However, he still felt a bit restless inside. What were they supposed to do when they faced foreign Emperor Clans in the future? If they grouped up together, then it would be too difficult, Jin Family only had one qilin child.

Dong!

A loud noise sounded. Shi Hao’s entire body shone, raising his head and roaring out, his head of black hair like a waterfall, scattering down. His body erupted with powerful divine radiance.

Hong!

At this moment, three types of innate supreme being precious techniques all appeared, Heaven Calamity Light, Reincarnation, and the third type that could support the other precious techniques surged like divine flames, rushing out from every inch of his flesh, fully erupting, incredibly dazzling.

Qiang!

He struggled up, rushing into the sky. The war spears, great halberds, divine swords, and other things were pulled out of his body, unable to dig in any further.

At the same time, arrows of blood sprayed out from his body one after another.

“Kill!”

Shi Hao released a loud shout. He condensed fist imprints, slaughtering his way downwards, three types of supreme being precious techniques overlaying, fighting these Emperor Clans alone. He didn’t fear life or death, boldness incomparable.

One could see streak after streak of terrifying divine light shooting out from his fist imprints, blasting down, power world shocking, shocking all of his peers!

“Suppress!”

There was an Emperor Clan youth who released a cold shout, attacking towards the sky.

This wasn’t just one person, but rather attacks from one person after another. Anlan, Shutuo, and others’ descendants were terrifyingly strong, each stronger than the last. Even when they appeared alone, their fighting strength could be said to be matchless in this world.

Imperial light rushed into the heavens, as if a group of human immortals were attacking. It was just too terrifying, shocking everyone. Every single cultivator was asking themselves, if they were in his place, would they be able to make it through?

Clearly, the answer made many people's faces pale.

Peng!

Shi Hao was struck flying. He coughed out large mouthfuls of blood. His flesh was damaged under all types of imperial light, blood soaking his battle clothes, body flying far into the distance!

This was one of the few times he suffered so greatly since he appeared in the world. His entire body almost broke apart, almost blasted rotten. Those ancestral methods were too terrifying.

At this moment, heaven and earth became quiet, many people looking at him quietly, not looking down on him, not laughing coldly or ridiculing him, but rather feeling shock.

These were the ancestral methods of Anlan, Shutuo, Luomo and others, displayed by emperor races, how terrifying was this? If it was another youngster who went up, they would be directly blasted to pieces.

Meanwhile, Shi Hao was fighting against several ancestral methods, yet he still didn't die, not breaking apart. This type of battle accomplishment shocked past and present!

"I will bestow death upon you!"

An emperor race youth stepped out, his figure robust, also quite tall and slender, voice extremely cold, flesh carrying primal chaos energy, pressing forward.

It wasn't just one person who moved, the others also attacked. Streak after streak of imperial light were released again, shaking up heaven and earth.

Shi Hao raised his head, releasing a great roar. He really couldn't accept this, how could he be defeated here, how could he die here? He wanted to win, surpass everyone, even if emperor races stood in his way.

The space between his brows shone. With a hong noise, the lightning pool imprint appeared, and then it enlarged, rushing towards the top of his head, turning into a mysterious pool, lighting radiance flowing out from it.

He was able to use the lightning pool while experiencing a heavenly tribulation!

This was the highest profound mystery of the Lightning Emperor Precious Technique, comprehended by him not long ago.

Hong!

Tribulation descended from the lightning pool, killing everyone.

However, there were too many enemies, too powerful, not one versus one battles. In the end, Shi Hao coughed out blood, flying outwards, flesh in tatters, almost losing his life.

“What are you going to bring out to compete? What methods do you have left?!” In the distance, Jin Zhan’s grandfather continuously snickered, sitting down to watch the result.

This was a situation of despair. These were the most powerful Emperor Clans, not just one or two of them, but rather a group. They took action together, all of them in the same cultivation realm, who could stop them?

“It isn’t to win, but to live, if you can hold on, then it’s the same as victory!” The Lunar Jade Rabbit’s eyes carried tears, screaming out loudly. It was because she knew that this was the most difficult trial Huang had ever faced, most likely resulting in an eternal separation. After the lightning tribulation passed, they might never see him again.

It was difficult to find an opportunity for life in this situation of despair!

The great tribulation this time was too terrifying. Shi Hao didn’t have a chance of life, unable to escape this fate at all. Everyone couldn’t help but release a sigh.

The heavenly tribulation was too terrifying, exceeding all those of history, more difficult than the other heavenly tribulations. When corresponding to his cultivation realm, this could be considered history’s most powerful heavenly tribulation!

“I... am the strongest!” Shi Hao roared. He didn’t give up, not dejected like the spectators, still struggling.

Hong!

Streak after streak of emperor light surged, blasting through his flesh. Bloody holes appeared one after another, blood gushing out, truly a ghastly sight.

However, it was precisely at this time that Shi Hao’s body underwent a miraculous change, becoming half golden, as if cast from golden, and then the other half pitch-black like an abyss, it was too strange.

He bathed in blood, head raised, releasing a roar. A mysterious fluctuation surged from within his body!

#### Chapter 1415 - Taking One’s Own Path

When emperor race youth attacked, with unmatched ancestral methods erupting one after another, death approaching, potential was finally unleashed; this was Shi Hao’s present condition.

His body carried a wave of deep power, as if it surged from the abyss, undulating, spreading, rushing out from the surface of his body!

The left side of his body was dazzling like gold, releasing kengqiang noises like metal, like a blazing sun. It released the most forceful and brilliant aura, leaving all sides shaken.

Meanwhile, the right side of his body was pitch-black like ink, like an abyss, as if it could devour all light, dark and terrifying, a great yin force swirling about.

It was to the extent where even his hair was like this, half golden like a flame, half pitch-black like a demonic realm, black mists surging, polar extremes!

This was an extremely shocking transformation, no one expecting him to develop to this extent. This was completely because he was in a critical situation, forced to do this!

Of course, perhaps it could also be said that this was the release after being suppressed to the limit. A massive power emerged from within his body. A creature rose up behind him, roaring with him.

Great yin, great yang, these two power attributes opposed each other, yet they appeared within a single body, tremendous beyond comparison, making Shi Hao's fighting strength surge!

This was an irregular change when a type of precious technique reached the extreme!

For example, the Lightning Emperor Precious Technique, it changed during the slaughter, allowing Shi Hao's comprehension to reach the real meaning. He comprehended the lightning pool, power increasing many times.

Now, the Kun Peng Technique transformed, pushed to the pinnacle while in a state of despair, its true meaning also comprehended by Shi Hao, grasping the ultimate profound meanings.

Behind him, a divine Peng spread its wings and soared into the heavens, standing in the darkness. Golden patterns covered its body densely, black and gold divine light interweaving, devouring heaven and earth.

Hong!

Shi Hao erupted with power, releasing a great roar, brandishing fist imprints, displaying power at the very pinnacle, using the divine might of great yin and great yang!

He attacked the emperor races, challenging the enemies around him!

Only, there were just too many enemies, tremendous power crashing down like stars one after another. Even someone as powerful as him, body resembling an imperishable golden body, right now still cracked apart.

"Still not enough, how can one dare to compete against emperor races?" Someone said coldly. There were more than one emperor race here, and they were even working together, it really was impossible to win.

This was a group of people!

Blood flowed from the surface of Shi Hao's body, his bones even rumbling.

He released a long roar, a mouthful of blood essence spraying out from his mouth, golden light and dark light rushing out from his body, merging there. Great yang and great yin formed a diagram, combining, and then blasting forward.

The power increased rapidly, this diagram faced the foreign enemies. This was the embodiment of the Kun Peng Method evolved to the peak. He gained a flash of realization here.

Peng!

This diagram blasted forward. A world-shaking explosion erupted there. After great yin and great yang collided, the power that was produced was incomparable.

Hong!

Shi Hao flew outwards, still coughing out blood, body in tatters, on the verge of collapse. However, he didn't die, still persevering.

No one laughed at him, all of them facing him seriously. They originally thought that he would be suppressed and killed, that he would undoubtedly die after the emperor races joined hands, but this time, he still didn't die.

This was enough to leave others in shock just by itself, all of them stunned.

Lightning Emperor and Kun Peng's true essence had all been obtained by Shi Hao, if he was able to live through this, able to calmly study them a bit more, his benefits would be unimaginable. nOVe/L&/1n

Unfortunately, he was only one person. Even if he obtained the true essence, he still couldn't face a group of emperor race youth alone, he was still going to die in the end!

"What methods do you still have? If you don't have anymore, then you'll be buried here!" An Emperor Clan woman said coldly and ruthlessly. Her graceful body moved, taking the lead in attacking.

Shi Hao remained quiet, not as violent as before.

Even if he obtained the true essence of two types of unmatched precious techniques, it still wasn't enough. Facing them one on one was fine, but fighting a group of extraordinary creatures would still result in death.

At this moment, his body released a weak light, releasing green multicolored light. A willow tree appeared behind him, taking root in the void. Its branches fell, green like jade.

"Kill!"

Shi Hao released a shout. The green willow branches turned into a light golden color. As he brandished his fist, tens of thousands of willow branches extended, rushing forward.

Hong!

Immediately afterwards, this willow tree quietly moved, piercing through the universe, all of the branches were terrifying beyond compare, extending towards every one of the emperor race individuals!

Moreover, under the joint suppression of the Emperor Clans, this tree's aura became increasingly exuberant, reaching the pinnacle. Then, it erupted with power, releasing endless primordial essence energy.

Weng!

The great universe trembled. At this moment, the mists turned into clouds, carrying unimaginable innate chaotic energy, wrapping around Shi Hao, accompanying him as he charged viciously.

The willow tree in heaven and earth primal chaos, its precious technique evolved, now returning to the primitive, tracing back to its source, some of Willow Deity's mysteries now visible.

From a certain perspective, Shi Hao also saw the true essence of this type of precious technique, grasping its highest profound meanings!

In the same day, he grasped the highest true essence of three types of precious techniques at the same time, all of them forced out while fighting at the brink of life and death, comprehending the true meaning.

Hong!

A wave of primitive essence energy accompanied Shi Hao, following him as he collided with those emperor races.

This place was incomparably resplendent, extremely dazzling. Shi Hao still couldn't defeat his enemies, his entire body flying out diagonally, vomiting large mouthfuls of blood, body almost breaking apart.

He made it through another exchange.

In the distance, everyone was shaken, great waves stirring within their minds. He actually resisted another fatal blow!

"Willow tree, it is that creature, you obtained its inheritance!" An emperor race youth said. Even though it was produced by heavenly tribulation, he still revealed a look of shock.

This great tribulation engraved too many true matters!

It was clear that Willow Deity possessed extraordinary fame in the foreign side.

It was to the extent where not even the creatures of the Nine Heavens Ten Earths knew of it.

After all, this great era was a different one, the Nine Heavens Ten Earths had previously been completely wiped out, all experts buried, causing many things, many secrets to be buried, not knowing as much as the other side!

"In the end, it still isn't my own method, not me who took the path first!" Shi Hao said with a light sigh.

These methods, after obtaining a type of true essence, they could all be considered unmatched divine abilities, able to overlook the world, show disdain for the masses, but if one wanted to use them to face a group of emperor races, it was still not enough.

In reality, no one believed that someone could rely on their strength alone to challenge the joint attacks of emperor race youth.

"What do I have left?" Shi Hao asked himself. When he saw those people walk over, stepping on their respective great golden path, he released a light sigh. Could it be that he really was going to fall? This really was hard to accept.

"Kill!" His palms shone. Even if he was going to die, he was going to die in battle here.

He operated the True Primordial Record, at the same time used Imperishable Scripture, fighting fiercely with the emperor races.

Peng!

Pu!

The noises were deafening. Bloody light shone. No matter how strong Shi Hao was, when faced with peerless creatures' unmatched ancestral methods, he alone was still not enough. His body broke apart, blood scattering everywhere.

In the intense confrontation, his body was blasted apart, his head flying far into the distance.

Chi!

Willow branches shot out one after another, wrapping around his ruined body. He used the Willow Deity Method to seize his body, reassembling himself, making his injuries heal.

This was an extremely miserable scene. To reach this step could be considered unprecedented as well, actually enduring these types of opponents and torment.

"What methods do you still have?" An emperor race youth asked. They were going to deal the finishing blow now.

"I have to have my own path, have my own method..." Shi Hao said to himself. He stood up, entire body covered in blood, even his hair was dripping wet.

He had many injuries, right now looking like shattered pottery, as if just a light touch would shatter his body.

A grand final stand!

Many people sighed inwardly. It was not easy for Huang to reach this stage, it truly was hard to persevere forward, destined to fall here.

"My path, my method, is still a bit far. It isn't time to take that step yet, but I have to give it a try!" Shi Hao's eyes shone again, starting to burn like two torches.

Back then, he already began to feel out a path. His single heavenly passage condensed within his body, turning into an extreme point in his abdomen, and then it erupted, splitting the heaven and earth, plundering the limitless treasury within his body.

Only, this was still extremely rough, not detailed enough. However, now that he was forced to this extent, he had to give every method a try!

"What kind of time is it already, yet you still want to establish your own path, who do you think you are? Do you really think you are a reincarnated Immortal King?"

In the distance, Wang Xi's grandfather really couldn't hold himself back, inwardly ridiculing him. Even though his voice was extremely soft, there were still some people who heard this. They couldn't help but glare at him angrily.

"Present world methods, Immortal Ancient methods, my rough method, all of it, merge together, combine systems!" Shi Hao roared out.

He had a path within him, right now, the mists gradually scattered. He saw some things clearly, and now, he was going to put it into action!

During these years, he used his body as a seed, always searching for secrets within himself. He saw gates one after another, all of them concentrated in his flesh, within his bones.

Since every inch of his flesh carried endless precious deposits, why was there a need to cultivate bone texts and other things? Why didn't he just search within his own body? This was the method he wanted to try!

Meanwhile, after much research and pondering, the number of gates he saw became greater in number, as if the gathering point of power was waiting to explode and be unleashed!

Of course, this was an enlightenment he only obtained after using his body as a seed, only when he truly did this was he able to clearly see those gates' distinct arrangement.

Hong!

At this moment, Shi Hao moved. His single heavenly passage appeared, surrounding himself, becoming incomparably resplendent like a divine ring.

This left the Nine Heavens' cultivators shocked. This was the extreme of the present world methods, they had heard that Shi Hao was the first one to achieve this, merging ten heavenly passages into one. Now, they saw it with their own eyes.

The foreign emperor races were also shocked. They stared at him, choosing to form imprints, wishing to wipe him out.

However, what was completely unexpected was that the single heavenly passage shrunk, not trying to carry out defense, but instead entering his abdomen, forming an extreme point, ready to explode at any moment!

This was different from the tests before, but rather a full-on explosion, a single mistake resulting in the destruction of body and spirit, exploding to pieces.

"Kun Peng Technique!" Shi Hao roared.

Great Yin and Great Yang appeared, wrapping together, forming a yin yang diagram.

"Lightning Emperor Technique!"

Lightning tribulation appeared, representing destruction, but also giving birth to new life. That was a lightning pool, representing destructive power itself, but there was lightning tribulation liquid inside, signifying hope.

Peng!

The lightning pool shrunk, becoming a single point. It entered the yin yang diagram, lightning tribulation liquid coming out, entering the yin yang diagram. They became the two extreme points of life and death.

"Willow Deity Technique!"

Shi Hao roared out. A mouthful of chaotic energy gushed out, turning into something similar to willow branches, and then entered the yin yang divine diagram, becoming the dividing line of the Great Yin and Great Yang.

Chi!

At this moment, after this divine diagram formed, it also rushed into his abdomen, continuously shrinking, merging with the single heavenly passage extreme point, becoming one.

All of this was for the sake of escorting this process, to prevent him from truly blasting himself to pieces!

The diagram just now looked simple, but it contained the Kun Peng Technique, Lightning Emperor Technique, and Willow Deity Technique, formed from regulations and order, mixing with a heavenly passage, entering his abdomen, carrying unmatched profound mysteries and secret power.

However, this was still not enough!

Shi Hao released a light shout, transferring the most precious three streaks of scattered immortal energy within him, displaying the Immortal Ancient scripture, surrounding his abdomen, protecting near all of the gates by his abdomen, making this place white and hazy, as if he was in an immortal realm!

Immortal Ancient method, present world method, everything was used. Shi Hao raised his head and roared, "Open, my path, my own technique!"

He was going to blow up this place, open up all of the gates, step on a path he forged himself. Shi Hao's voice was resounding as he said, "The first step, I will call it Sea of Reincarnation!"

Chapter 1416 - THong Establish

Shi Hao was going to detonate the extreme point at the center of his abdomen, split heaven and earth here, release the power within the 'gates', from this step on his own path.

In the surroundings, on the great golden paths, figures stood one after another. Those were emperor race experts, all of them raising their hands, holding weapons, or forming magical imprints, aiming at Shi Hao to kill him!

"Open!"

Shi Hao released a loud shout. He made his decision, he was going to establish his own path, ignite the single heavenly passage that was compressed to a single point, wishing to open up the various gates within his abdomen.

This was where the gates were concentrated, this special place in his body becoming the best choice.

However, the result of doing this was unimaginable, the dangers too great, risk of body torn and bones crushed at every turn, body and spirit destroyed. It was too extreme and risky.

Hong!

It was as if the heavens were collapsing. By Shi Hao's abdomen, large amounts of divine light appeared, erupting there like a sun, incredibly blinding, making everyone's eyes sore, difficult to stare straight at.

This was especially the case when there was a wave of unimaginable energy rushing out, the domain powerful, tearing apart heaven and earth, affecting the stability of time and space.

No one expected someone to be this intense and straightforward when breaking through. Others always went about things step by step, while Shi Hao was gambling with his life, life and death a single thought.

A single wrong move and his body and dao might fade, no longer a Shi Hao in this world.

Chi!

In the surroundings, there were people who attacked, forming imprints, displaying ancestral methods, attacking fiercely, wishing to blast apart that resplendent sphere of light, destroy Shi Hao.

There was one who held pitch-black iron spears, piercing through the dome of heaven, blasting apart the sky dome, powerful and domineering. He wanted to pierce through that sphere of light, end Shi Hao's life!

On the golden paths, the emperor race figures were incredibly serious. They used all of their strength, because they sensed something. They couldn't let Shi Hao take that step!

Honglonglong!

The heavens collapsed and earth ruptured, ghosts cried and deities howled. Rain poured down onto this place, the rainwater a scarlet red color, because this was blood, heaven crying actually happened here.

Apart from this, the corpses of gods and devils were everywhere in the skies above, ancient people as well, to the extent where there were dead bodies that were suspected to belong to True Immortals floating in the void.

This scene was world-shaking, making everyone's scalps turn numb.

Why did so many strange scenes appear when Huang treaded on his own path?

"They aren't all irregular scenes, there are some that are real. Some of the corpses struggled free from immortal graves, guided over by a mysterious power. What is the so-called shocking past and present, this is it! Even the ancient people were roused!"

Even though they already died, those who possessed undying bodies, those who were especially powerful, they were still guided over through the interactions of heaven and mankind, emerging in this world, appearing in the sky.

"Is this the acknowledgement of heaven and earth, or is this hostility? Regardless, this is a type of magnificent feat!" Someone said with a sullen voice.

As a result, everyone was shaken up, difficult for them to say anything. Only a few people could still mutter quietly.

The place Shi Hao was at was still resplendent, incredibly dazzling, difficult for one to see his true body.

It was because the extreme point within his body exploded, single heavenly passage expanding, detonating the 'immortal gates', displaying unimaginable power.

A curtain of light overflowed, divine force like a great river, rushing out from his body, dazzling to the extreme, divine aura hiding the sky and covering the earth.

The emperor races' attacks were stopped, because the extreme point exploded. Those gates opened, the power that rushed out immediately collided with the ancestral techniques of the emperor races, clashing with their weapons.

This was a powerful collision!

Shi Hao was in an extremely miserable state, flesh almost destroyed, bones all fractured, blood flowing from his abdomen, body badly mangled. After the explosions of light erupted one after another, he almost reached the end of his life.

The risk he took this time, the process of opening gates, was just too fierce.

He already made enough preparations, using the Kun Peng Technique, Willow Deity Technique, and Lightning Emperor Technique together, forming a yin yang divine diagram, merging it with the extreme point, precisely for the sake of suppressing, defending and protecting his body.

However, despite this being the case, this type of forcefully opening the gates was still too tyrannical. Opening the gates left himself half crippled as well.

Bone texts interweaved, yin yang diagram appearing, suppressing the tyrannical power, adjusting his condition, wishing to calm the disorder.

At the same time, the immortal scripture operated, three strands of immortal energy appearing, repairing Shi Hao's body, especially his abdomen region, this pure white mist possessing inconceivable power.

His body's condition originally would have continuously worsened, and then completely collapsed, burst into flames, but it now stopped, to the extent where he was even slowly recovering.

"He wasn't killed?" The emperor race youngsters were stunned, feeling deeply shocked. How powerful was their final joint attack? It could even be called a fatal blow, but they failed again.

"Thank you all for helping me accomplish my goal!" Shi Hao smiled, in his mouth was a bloody foam, body even more so incredibly tattered, white bones visible, blood gushing out.

However, he was smiling, moreover extremely brilliantly, a truly sincere smile. It was because he knew that he had begun to succeed, making it through, that he was still alive.

He thanked the emperor race youngsters, because when their ancestral methods, weapons, and other attacks arrived, there were some that broke through the barrier of light, immediately clashing with the power that rushed out from the gate.

It was to the extent where there were war spears, great halberds, and other things that ultimately pierced into his body, making contact with the gates, causing destructive power to immediately erupt.

There were people from the emperor races whose pupils contracted. Dark metal spears snapped, great halberds breaking apart, even more so ancestral methods that produced backlash, causing a tremendous wave of power to sweep in reverse.

For Shi Hao, it was too dangerous just now. If not for using their attacks too, even if he had the divine diagram produced by the Lightning Emperor Technique, Willow Deity Technique, and Kun Peng

Technique, merging it into his abdomen, moreover operating immortal energy to rescue and recover, it would have still been too dangerous.

It was to the point where he might have died just now, explode to pieces under the powerful changes, turn into a pile of ashes.

Both inside and outside were stimulated, detonating, allowing him to succeed, moreover helping him take on some of the burden of the destruction, allowing him to make it through the most dangerous beginning stage.

Hong!

Shi Hao's abdomen shone, gates opened one after another, mixing together, surging with endless vitality. His body was quickly recovering.

However, soon afterwards, a strange change happened. A wave of death energy also surged from there, forming thick smoke, about to corrode his body, destroy his life force

"En? What is going on?" Everyone was shocked, why was there death energy, wasn't this bringing about one's own destruction?

When one looked carefully, they discovered that this was released by some gates, surging out, linking up together, eventually forming a sea of death, surging there.

The only fortunate thing was that some gates surged with light spring liquid, sparkling and replete with moisture, opposing the death energy.

Soon afterwards, everyone understood. They sucked in cold breaths of air, were these the secrets within the body?

The human body was one of balance, the world also in an equilibrium. With life force, there would also be a deathly stillness. Shi Hao opened up the Sea of Reincarnation within his abdomen, within it both life and death!

Large amounts of doors mixed together, connecting together, linked up by bridge-like tunnels, allowing them to combine and separate.

Within Shi Hao's abdomen, the so-called Sea of Reincarnation was changing powerfully, everything turning on its head. It was because when all of the gates here were opened up, the human body would go through a unique transformation!

It could be said that this was a type of transformation, to be more precise, a type of rebirth, but only in this area. The heavens were altered, earth changed, becoming completely different.

Immortal energy pervaded the air, covering this region, treating his injuries.

Yin and yang harmonized, forming a divine disk, life and death interdependent, deriving into an innate dao diagram, suppressing this place, forming a taiji-like[1] Sea of Reincarnation.

The sea was formed from death energy, reincarnation from the divine disk of life. They blended together, forming a dao diagram. Life and death rotated together, life unending, death circulating, forming a balance.

“What is that? How did he accomplish this?” Many people were seriously shocked.

They wanted to pry into the mysterious, truly see this Sea of Reincarnation that appeared in this world for the first time, but they already couldn’t do so. That place was covered in immortal energy, primal chaos mist appearing, covering it.

Moreover, after Shi Hao’s damaged body and abdomen healed, his flesh recovered, quickly restoring his body!

“What exactly is there over there, what is going on?!” At this time, even Jin Zhan frowned, lowering his head and thinking.

“This youngster’s life force really is too tenacious, why is he still not dead, making it through alive again!” Wang Xi’s grandfather grinded his teeth, feeling like this was inconceivable. Huang made it through again and again.

Moreover, this time, he seemed to have obtained tremendous benefits, making him feel uneasy. If Huang truly was allowed to continue down his path, then only heaven knew how far he would go!

Jin Zhan’s grandfather also spoke up, saying, “I just refuse to believe that he really can establish a system by himself. Who does he think he is, that he can surpass all those before him?”

“Why isn’t that death energy corroding him?” Someone asked in puzzlement.

Many people understood that Shi Hao’s path was too frightening, unearthing his body’s deepest mysteries, truly releasing all of the power within his flesh.

Not even death energy was overlooked. However, he grasped equilibrium, making life and death coexist.

During a true confrontation, how great would this destructive power be?

Moreover, life and death were interconnected, a cycle and reincarnation, that sea of reincarnation becoming the motherland, becoming the land of beginning!

In the future, one could just imagine that this place would further evolve, become the source of divine force!

Just now, quite a few people saw the countless gates were concentrated in Shi Hao’s position, as if they were established, interweaving into a complete body, definitely defying the heavens.

The power of all of the other gates in his body had divine force drawn from them, and then after being absorbed, mixed together, and concentrated, the Sea of Reincarnation was destined to become the land of beginning!

The more they thought about it, the more everyone felt horrified. Huang established a terrifying path. If he continued down this path, his accomplishments would be unimaginable!

This was still the beginning, there were still too many mysteries waiting for him to unearth, waiting for him to perfect!

Everyone really wanted to know what was going on, but they couldn't see through that place at all. They only saw a hurried glance, unable to clearly understand the mysteries on a deeper level.

Apart from this, who dared open up a Sea of Reincarnation like this? Huang's methods were too powerful, creating a world in his abdomen, being able to live after doing this could be considered a miracle, no one else able to do this.

Moreover, could others merge ten heavenly passages into one? He was the first one, no one before him able to do this. Using this as a foundation, only then was there an explosion, establishing this Sea of Reincarnation!

The emperor race youth were also watching, all of them alarmed, wishing to know what was going on. That was why none of them took action, all of them observing Shi Hao.

Suddenly, heaven and earth trembled, all types of auspicious scenes appearing. There was a vague multicolored brilliance that erupted, in the end, immortal light appeared in large amounts, covering heaven and earth as it descended.

Then, divine sacrificial sounds could be heard, as if to console the ancient people, making all of the ancient corpses that appeared before disappear, return to their graves.

Apart from this, great stars covered the sky, moving quickly. There were all types of immortal dao true spirit engravings that appeared, dragons rising, phoenixes crying, it was just too astonishing.

Meanwhile, on the ground and in the void, these places were even more so filled with great dao divine lotuses, becoming pure gold in color. There were many medicinal herbs and other things, making this place auspicious like immortal earth.

At the same time, divine bridges descended from the heavenly dome, as if they wanted to bring Shi Hao away from this place, take him back.

...

All of the creatures were stupefied, because irregular scenes appeared one after another, several dozen of them appearing in the blink of an eye, making this place resplendent and divine.

This... everything was because Shi Hao took that step, establishing his own method and path, triggering these heavenly changes!

"Kill!"

The emperor race youth shouted out, all of them taking action, not giving Shi Hao a chance anymore, wishing to kill him here.

"I am also looking forward to this, wishing to give it a try, see how the battle will be now!" Shi Hao said.

nOVe/L&/1n

He established the Sea of Reincarnation, equivalent to establishing a great dao foundation again.

Moreover, the Sea of Reincarnation was established in one go, only the details missing, needing time to polish, the true great divine might could already be displayed.

The numerous gates were all opened up in one go, the power was unimaginable!

Together with the path and methods he now grasped, as well as his profound cultivation, his fighting strength was naturally shocking.

However, before they could take action again, a shocking change took place. In the heavenly dome above, inside the lightning radiance, something fell, accompanied by immortal energy, releasing imperishable immortal light!

1. Absolute or Supreme Ultimate, source of all things

Chapter 1417 - Immortal Killing Stage

Something fell from the heavenly dome, moreover just that extraordinary, auspicious light released in endless streaks. That thing was hazy and auspicious, as if a heavenly treasure had fallen into this world!

However, when Shi Hao saw this thing, his entire body went cold, producing a layer of goosebumps. He had seen this thing before!

When he was facing tribulation before, he had already seen this thing, but he never touched it, instead only watching it from the distance. Now, it approached him, rushing in his direction.

Immortal Killing Stage!

This dao platform had a guillotine on it. It looked auspicious from the distance, but up close, it was horrifying, making one's entire body go cold from head to toe.

If this thing appeared and targeted someone, it could be said to be inevitable death, difficult for that individual to survive. It was rumored to be prepared for creatures who had achieved heaven-defying things.

"I understand, Huang has stepped onto his own path, and now, he triggered the legendary Immortal Killing Stage!" Someone said quietly.

Even from far away, everyone still felt their skulls turn numb. This thing had only appeared in historical records, even more horrifying than lightning tribulation. Once the guillotine descended, it would send one into the afterlife!

Everyone knew this because there were engravings in bone books that talked about this clearly.

Now, they saw the real thing! n)-0vEℓℓIn

Heavenly tribulation still had a trace of hope for making it through, but once this thing appeared, it simply left one in despair. It was practically impossible to survive it.

Of course, from a certain perspective, it was also heavenly tribulation, an especially difficult trial within it, exceeding the cultivation realm one should have. It was a slice of inevitable death!

"This... is there no heavenly reason left, is it even letting one live? I fucking..." Cao Yusheng couldn't help but want to curse.

After thinking about it carefully, everyone knew that the Immortal Killing Stage definitely appeared because Shi Hao stepped on his own path, displaying a type of completely different system.

It was because the effects of this were too great, only this type of heaven-defying imprint could provoke the Immortal Killing Stage!

From a certain perspective, regardless of whether Shi Hao lived today or not, he would definitely be recorded in history, becoming a well-known person!

It was because forget about this great era, even in Immortal Ancient Great Era, how many people could trigger the Immortal Killing Stage?

"The most powerful heavenly tribulation in all of history, and then together with the Immortal Killing Stage, this is... guaranteed death!" Everyone sighed. The heavenly tribulation this time exceeded normal reasoning, no way of making it through at all.

"Excellent, with this type of death blade descending, then it is the end of all trouble. We don't have to constantly be worried anymore." Jin Zhan's grandfather said coldly to himself.

"The world is unfair. Why are there so many difficulties?" The Lunar Jade Rabbit cried out, expressing discontent and unfairness for Shi Hao. This was deliberately placing one in death, not granting any hope.

"Live!" The Heavenly Horned Ant shouted. Moreover, he flung out the Everlasting Sword Core, returning it to Shi Hao, wanting him to use it to protect himself.

This was what Shi Hao gave it before facing tribulation to avoid this sword core triggering some kind of strange change. Now, the Heavenly Horned Ant returned it to him.

Shi Hao sighed. He accepted the sword core, but then threw it back, saying, "If I can't return then it's yours!"

It was because he knew that the sword core wouldn't help him in this situation. This was heavenly tribulation, it couldn't be avoided, couldn't be ran from. He could only rely on himself to make it through, to persevere on.

At this moment, many people were shouting, transmitting sound, talking to Shi Hao. However, he ignored them, as if he was completely isolated from the world.

He was thinking of countermeasures!

He thought that the joint attacks of the emperor races were already a great killing disaster, who would have thought that the most terrifying scene was still to come?

Hong!

The Immortal Killing Stage descended, actually directly arriving here. It wasn't far or close, perfectly suppressing this region, locking down everything.

The dao platform wasn't that massive, but it was simple and ancient, all of the immortal light restrained, revealing its mottled true body. It didn't look like it was produced by lightning, no different from a true stone platform.

The guillotine possessed restrained immortal light. It was extremely deep, carrying a type of dark red bloody light, as if it drank its fill of supreme being blood, innately having a type of killing intent.

At this moment, the emperor races were at a complete loss as for what to do as well, still standing there, all of them staring at the Immortal Killing Stage!

Kacha!

After a momentary silence, on the Immortal Killing Stage, that guillotine moved, releasing a metal vibrating sound that terrified everyone, making all of cultivators shiver inwardly.

Qiang!

The guillotine trembled, and then under ear-splitting metal grinding sounds, it slowly opened. That dark red blade appeared, raised high up, releasing killing intent!

This sound was too terrifying, the metal grinding sounding as if it came from hell, making everyone's souls ice-cold, as if they fell into an underground abyss.

Hong!

Immediately afterwards, when the dark red guillotine was raised high enough, the entire blade shone again, the divine radiance even making the sun dim, immortal energy surging. It was too extraordinary.

"It's moving, the execution is starting!" Someone cried out in alarm, given a fright, feeling as if waves of coldness surged from his back.

A figure was restricted on the Immortal Killing Stage, immediately confined. Then, with a kacha sound, the immortal blade dropped, releasing immortal light, cutting that creature in half!

Hong!

A clap of thunder suddenly sounded. Lightning radiance filled the skies, shaking up this place.

The one who died wasn't Shi Hao, but one of the emperor race youth. This was unexpected, the guillotine didn't start with Shi Hao, but rather attacked those figures produced by the heavenly tribulation.

This exceeded everyone's expectations. Those emperor race were part of the heavenly tribulation to begin with, so why were they destroyed now?

Then, all of the surrounding emperor race youngsters were restricted, locked down on the Immortal Killing Stage. All of them had their turn, their ends easy to predict.

Heads tumbled one after another at this moment, the emperor races all had their heads removed by the guillotine. This was not an ordinary place, it was the Immortal Killing Stage. Even though it was only heads that fell, in reality, the primordial spirits were also destroyed!

This scene made everyone's scalps numb. They didn't have any strength to retaliate, couldn't struggle at all!

How was one supposed to even resist this? It was because the Immortal Killing Stage was too strong, far exceeding their cultivation realm, not on the same level of magnitude, dying under a single blow.

"Shi Hao!"

Cao Yusheng was screaming, truly worried, but there was nothing he could do!

"No!" The Heavenly Horned Ant and Lunar Jade Rabbit also cried out, because it was now Shi Hao's turn. He was locked up by a streak of light, unable to move anymore.

One could see that the immortal light was like chains, winding about Shi Hao's body, tying him up, confining him to that Immortal Killing Stage, bringing him before the blood red guillotine.

"Why do I feel like life has suddenly become much more dazzling?" Wang Xi's grandfather said quietly, carrying a smile on his face, feeling carefree inside.

It was because Shi Hao's display was too heavenly-defying, making him feel a deep uneasiness. If this was allowed to continue, only heaven knew what kind of level Huang would reach.

Right now, if Huang died under the Immortal Killing Stage, then it was the best result for the Wang Family behind him, he wouldn't have to worry about anything anymore.

Shi Hao laid on the Immortal Killing Stage. Meanwhile, the dark red guillotine released dazzling radiance, accompanied by immortal mist. Then, a terrifying metal grinding sound rang out, starting to descend from above.

"No!" Someone cried out, unable to watch this.

However, they were helpless to do anything. The events that took place in a heavenly tribulation were difficult to change, outsiders unable to provide help.

The Heavenly Horned Ant, little rabbit, and Cao Yusheng's eyes all immediately became red, widened as they stared forward.

"Being able to see the Immortal Killing Stage in one's life can also be considered a lucky thing." Jin Zhan's grandfather stroked his beard, smiling as he watched this.

Of course, only a few people could hear him, or else he would definitely incur public anger!

Hong!

Immortal light shot out, blood splashing out. Everyone saw an expanse of scarlet red color flash past that guillotine.

Everyone knew that the guillotine would only be like this when the most powerful blood was tasted. The reason why it was a dark red color was precisely because all of those it killed were unmatched Prides of Heaven.

“Don’t! Why is it like this!” A few people roared out, including the young cultivators inside Imperial Pass, feeling great pity for Shi Hao.

They admired the strong, ever since they learned that Shi Hao killed ten kings alone in Great Scarlet Sky Border, they already felt incredible admiration.

Meanwhile, not long ago, they saw Shi Hao charge through the Nine Heavens Ten Earths, in the end fighting a bloody battle against emperor races, confronting them, and then stepping on his own path, making them feel even more respect.

Now, when they saw him die, all of their minds trembled, truly not wishing to see this type of thing happen.

“Heh, he finally died. It’s about time for things to end.” Wang Xi’s grandfather said.

Qiang!

On the Immortal Killing Stage, immortal light became restrained, blood radiance disappearing. The ancient platform was mottled with colors, guillotine returning to a dark red color, no longer shining with blinding radiance.

They could now see everything clearly. Everyone looked forward.

“No! Shi Hao! Now could you die?!”

“Huang!”

The Lunar Jade Rabbit, Heavenly Horned Ant, and others roared angrily, filled with unwillingness and grief!

On the Immortal Killing Stage, a corpse remained, severed at the neck. A human head was severed, the blood carrying a light gold radiance, extremely striking, truly an alarming sight!

Huang died just like that? Everyone felt like this wasn’t real, as if it was a dream or illusion. One had to understand that he reached the very peak of his life, but he hadn’t looked down on all, never truly contending with the emperor races, yet he died just like that.

“Immortal Killing Stage, who can make it through such a thing?” Tuogu Yulong said with a sigh.

The owner of the Five Spirits War Chariot, Wei Family’s Four Phoenixes, and the others released a light sigh as well, not saying anything.

“Heh heh...” Wang Family’s people laughed coldly in secret.

Jin Family’s people also revealed a faint smile, now fully relaxed.

Peng!

Suddenly, on the Immortal Killing Stage, that headless corpse stood up, moreover picking up its own head, bringing it to his neck. Meanwhile, the essence blood on the ground all flowed in reverse, returning to the body.

“Ah, what is going on?!”

“Heavens, Huang, he didn’t die! He actually made it through! How could this be, how did he do it?!”

Some people cried out in shock. Huang was actually able to make it through that guillotine, not having his primordial spirit destroyed, still possessing life, still alive!

Everyone was in disbelief. They just couldn’t figure out how he was able to survive!

Chapter 1418 - Secret of Revival

Huang stood up. He was still alive, his hands supporting his head that was dripping blood, placing it on his neck. Essence energy flowed in all directions, divine multicolored light endless.

The wound at his neck disappeared, quickly healing, color returning to his pale face as well, expression gradually returning to his eyes as well!

This was extremely strange. He clearly already died, but he recovered his vitality again.

One had to bear in mind that the Immortal Killing Stage didn’t only sever the physical body, it also destroyed the primordial spirit, not giving creatures any chance at life. However now, Shi Hao was clearly unharmed, as if it was only his body that was cut apart, his soul still there.

The essence blood flowed in reverse, completely entering his body through his pores, returning to his body, allowing him to recover.

Soon afterwards, Shi Hao was in great spirits, no longer dispirited, flourishing with vitality again, to the extent where even the scorched black wounds from being blasted by lightning tribulation began to heal.

“I refuse to believe it!” Wang Xi’s grandfather clenched his teeth, unable to accept this result.

After crossing tribulation, Shi Hao displayed his limitless potential. For Wang Family, this couldn’t be tolerated, once he arrived at the peak of great dao, there would inevitably be a great disaster.

The complexion of Jin Zhan’s grandfather was cold, he couldn’t accept this result either. Jin Family and Wang Family were already connected by marriage, and they already stood against Huang several times. They didn’t want to see this result.

“This is too great, haha, he actually made it through, living!” Cao Yusheng laughed loudly.

In this place, the Lunar Jade Rabbit and Heavenly Horned Ant were also extremely happy and excited. They originally thought that they had to collect Shi Hao’s corpse, not expecting him to make it through this disaster.

The others also exclaimed in astonishment, all of them shaken inside. This was a miracle, and they saw it for themselves.

Even the owner of the Five Spirits War Chariot Qi Hong couldn’t help but release a light sigh. “Huang truly is formidable, even able to live through the Immortal Killing Stage, this is something that truly is rarely seen throughout the ages, worthy of being someone with heaven warping aptitude!”

The long life family inheritor Tuogu Yulong also said, “He really leaves others in admiration, actually able to defy death and live, just what kind of methods did he use?”

Wei Family's Four Phoenixes were also confused. After experiencing the Immortal Killing Stage, who could live? Were there any successful examples in history? They didn't know. How did Huang do this?

This place erupted with noise, many people discussing it by themselves, all of them wishing to know how Huang revived.

On Immortal Killing Stage, Shi Hao stood there without moving, his body shining slightly. He opened his palm, looking at those dao imprints, not saying anything for a long time.

At the same time, his transformation didn't end either, still being carried out.

"Yi, hurry and look, three great dao flowers appeared on his head, there is a creature on one of them!"

Everyone cried out in alarm, discovering his changes.

Back then, when Shi Hao was in Heavenly Deity Realm, he already accomplished this, producing three great dao flowers above his head!

This was seeking the dao to one, one to two, two to three, three to all life meaning.

This was especially the case when, after one great dao flower bud bloomed, a creature was seated within, wrapped within chaotic energy, submerged under immortal mist. It normally couldn't be seen.

Only Shi Hao himself had previously seen that it was clearly identical to himself!

Moreover, that creature was quite special, never speaking or moving, as if it sat in the past, situated before the endless generations, not in the present world!

That creature was extremely strange, incredibly indifferent.

After all these years, Shi Hao still never fully researched it, nor did he draw any combat strength from it.

Moreover, not long ago when he cultivated the immortal dao scripture, he discovered that his previous cultivation was like rootless duckweed. His immortal energy evolved ahead of time, but never took root in his body.

That was why he scattered the three strands of immortal energy, having them take root in his flesh, inner organs, and bones, become reborn, making it grow.

This creature also disappeared, however, Shi Hao knew that this dao feat didn't disappear, but rather that it was still within a corner of his body.

This time, for the sake of living, he used all types of methods, from Willow Deity's life great method, to entrusting his primordial spirit to him, even using the Sea of Reincarnation's life power and other things.

However, in the end, he discovered that it was all useless, all of it ineffective.

On the Immortal Killing Stage, he still suffered a blow, the dark red guillotine instantly severing his neck, removing his head.

In that instant, Shi Hao released a sigh. After experiencing the Immortal Killing Stage, he was still going to die, this life coming to an end here.

Only, in the end, something unimaginable happened. The 'dao fruit' he had never moved, that creature previously seated on the great dao flower appeared on its own!

At the crucial moment, it rushed up from its temporary place of residence in the sea of reincarnation, entering his head, merging with his primordial spirit, resisting the guillotine's dark red light.

Originally, the dark red blood color would have inevitably destroyed his soul, but it was now stopped.

At this moment, Shi Hao discovered that the mysterious creature died in his place, about to scatter and disappear.

At that time, he felt a sense of loss, wishing to cry out to stop it, but he was powerless, unable to interfere.

He knew that the significance of this dao fruit towards his cultivation was extremely great and couldn't be lost. Now that it died in his place, he felt terrible, unable to accept this.

In the end, he lived, not dying!

However, in the final instant, he saw an imprint fly towards that creature, making this figure that was originally about to scatter also stabilize, resisting the light of execution and live.

Now, he fully revived. Shi Hao stood on the platform, raising his head towards the great dao flowers that gathered again, as well as the creature sitting on it, observing it carefully.

Then, he looked towards his own right palm.

There really was an imprint missing, now only four left!

Shi Hao's past strange experiences that were like reincarnation left five legendary reincarnation imprints on his palm. The most recent one was obtained from Imperishable Mountain.

At that time, he went to accept the Imperishable Scripture, the things he saw monstrous and multicolored, what he experienced extremely terrifying. He fought a bloody battle with the enemy, ending in mutual destruction.

At that time, the fifth reincarnation imprint appeared on his palm.

At this very moment, an imprint disappeared from his palm, now only four of them left.

Meanwhile, the creature on the great dao flower, even though it was covered by primal chaos and immortal mist, Shi Hao could still clearly see that it now had one.

However, it was different from him, engraved on the surface of the body, but even so rather extremely special.

The imprint was like fetters, like a metal ring, binding its body, preventing it from moving, restricting and suppressing it!

This left Shi Hao stunned, inwardly shaken!

Until now, he still didn't know this creature's ability, nor did he understand what kind of uses the reincarnation imprints had. Now, he finally saw some clues.

That creature accepted death in his place, but the imprint prevented it from scattering. Now, the two were interdependent, the imprint subduing that creature, ensuring that it didn't fade, still exist

Even after a long time had passed, Shi Hao still didn't say anything. His expression continuously changed. He was thinking to himself. This matter was extremely strange!

Hong!

The Immortal Killing Stage scattered, turning into an expanse of lightning radiance and then scattering, leaving Shi Hao alone. It was accompanied by electrical radiance together with a terrifying heavenly tribulation light.

At this stage, it was already hard for lightning radiance to harm him. After slaughtering his way from the Nine Heavens Ten Earths, experiencing many near death situation, he had already suffered enough.

The heavenly tribulation thus came to an end!

One could vaguely make out an indistinct pond in the heavenly dome above. Several drops of sparkling liquid dropped down. Shi Hao raised his head. That liquid was fragrant, refreshing the mind. He accepted it with his hands, bringing it to his mouth. His entire body immediately erupted with brilliance.

Everyone was stunned, that indistinct pool continuously released liquid down, falling in his direction.

Shi Hao's eyes flickered with light. He didn't rush up to seize it now, instead sitting down, allowing the liquid to fall. He opened his mouth, gulping it down in large mouthfuls.

Right now, his body was extremely brilliant, shocking to the extreme. All of his injuries disappeared, even his broken bones immediately reconstructing, reappearing.

"Lightning Tribulation Liquid, this is great natural luck!" Many people cried out in alarm, their faces full of envy. This was the legendary supreme liquid, when one drank it, it would bring tremendous benefits to the body.

This was especially true regarding this type of lightning tribulation, the most powerful in all of history. The lightning tribulation liquid that appeared would be even more astonishing. For the younger generation, this was world shocking natural luck.

Meanwhile now, liquid flowed out from the lightning pool just like that, continuously falling, entering Shi Hao's mouth. It was just too shocking.

Even though the Lunar Jade Rabbit was pure and pretty, right now, she didn't care about appearances, wiping her mouth, because her saliva was about to flow out. ~~none~~**LB**.1n

"When you come back, invite me for a cup!" Cao Yusheng even more so shouted.

In the distance, there were even more people whose eyes became red, truly wishing they could be in his place, take this for themselves.

Jin Zhan's grandfather and others were included among these, their expressions ashen. They stared forward, eyes scarlet red, unwilling to accept this. Huang not only didn't die, he might still transform because of this liquid, become even more powerful!

"I refuse to believe this! Why is there still no reply?" Wang Xi's grandfather said to himself. He clenched his dried palms, killing intent faintly visible in his eyes.

Silently, his sleeves moved, an object appearing, coming through the void, no one noticing anything.

"En, something was sent over!" Wang Xi's grandfather laughed loudly, and then said with a cold voice, "Huang, I will let you understand what is calling killing one without any trace. I am going to cripple you, destroy your dao fruit!"

#### Chapter 1419 - Lightning Spirit

Wang Family's experts opposed Shi Hao, they couldn't tolerate him rising up!

Wang Family's five dragons were banished to Imperial Pass precisely because of Shi Hao. This was a great grudge, if nothing unexpected happened, they couldn't leave and would end up dying here.

That was why Wang Family's people in Imperial Pass hated Shi Hao, the hatred they felt even stronger than that of those in the Nine Heavens.

After Shi Hao crossed tribulation, the first thing Wang Xi's grandfather did was contact the important people from Imperial Pass, even the five dragons who lived from the archaic times learned of this!

Wang Xi's grandfather swung his sleeve, examining it closely. That was a stone case, within it a few small characters that left him inwardly shaken, incredibly shocked.

This a sacred object bestowed by Wang Da, an unimaginable item, within it was a creature.

"Heavens, there really is this type of thing in the world, having this type of creature?" Wang Xi's grandfather trembled, feeling a wave of fear. Immediately afterwards, he became overjoyed.

Regardless, this thing would be used to kill Shi Hao, so he didn't have to worry about his own safety. Moreover, if it was cultivated properly and used well, it would become something Wang Family could rely on, becoming an unmatched servant.

Only, it was hard for him to not be moved. His fingers were even trembling, because this thing was too rare, rarely seen.

"Dao brother, what happened to you?" Jin Zhan asked. It was because he saw that the other party's hand was trembling slightly, his sleeves moving.

"Cough, it's nothing, just that Huang might be crippled, so I feel inwardly happy." Wang Xi's grandfather didn't hide this type of joy, a smile appearing on his face.

It was because what he held in his hands could disturb heavenly tribulation, the effects tremendous, able to interfere with Shi Hao's dao!

This heavenly tribulation still hadn't finished. Even though it was close to its completion, the Nine Heavens Ten Earths still haven't disappeared. If this thing was released, there would likely be heaven shocking changes!

Wang Xi's grandfather smiled, feeling extremely happy, all of the wrinkles on his face even unfolding.

Lightning Spirit, this was something from legends, almost never seen before. He never thought that it actually existed.

However, the stone case Wang Xi's grandfather had just obtained had a small word written on it, within it precisely a Lightning Spirit!

It was rumored that it was born in lightning tribulation, origins terrifyingly shocking, able to devour lightning radiance, to the extent where it could even swallow up heavenly tribulation. That was why no one believed there was this type of thing.

It was the so-called when things reach an extreme, they can only move in the opposite direction. Once a living creature was developed, it would definitely become formidable, naturally not fearing lightning, to the extent where it could even use it as food.

From past until now, forget about ordinary creatures not believing that this type of creatures existed, even true supreme beings wouldn't believe it, because this didn't make sense.

What was heavenly tribulation? It was the might of the heavens, the amount of time it existed short. How could a type of creature be produced within that small amount of time?

That didn't match normal reasoning!

However, Wang Xi's grandfather now obtained one. He believed that Wang Da wouldn't speak without thinking, there was no way there could be a mistake. How could an ancestor of that level go back on his words?

This was Wang Family's first dragon!

Wang Xi's grandfather recalled a legend, something related to Wang Da.

In the past, Wang Da journeyed throughout the world, previously entering a sealed secret world, a cave from the last great era. He almost died there, Immortal Wang ultimately startled, saving him only after using the immortal war halberd.

It was rumored that that place had electrical light, endless lightning. Could it be that this Lightning Spirit was brought precisely out of that place?

According to a few things recorded in bone books, this type of existence had to be born in lightning, because that was its food. Otherwise, it would die.

"Heh heh, we are just waiting for you to head on to the next life now!" Wang Xi's grandfather's eyes were extremely vicious as they stared forward.

In the Nine Heavens above, Shi Hao sat with his legs crossed, entire body surging with radiance. He was drinking the Lightning Tribulation Liquid that fell, obtaining tremendous benefits.

One could see that he was shedding his old skin, new skin like fine jade. Moreover, even his hair came off, the newly grown hair black and shining.

His entire being was covered in a faint layer of radiance, as if he was bathed in a divine ring!

Right now, the lightning radiance couldn't harm him, as if he had an undying golden body!

Shi Hao stared at the lightning tribulation pool in the sky. It was indistinct and also extremely far. He was plotting inwardly, waiting for a good time to rush up and fully seize it.

Suddenly, he felt as if this heavenly tribulation was a bit strange, as if it still wasn't finished, yet the lightning pool poured down liquid on its own, bringing him natural luck. Something wasn't quite right.

"En, there is a heaven beyond the heavens, turns out this isn't just a proverb, but true!" Suddenly, Shi Hao narrowed his eyes, realizing something inside.

He finally noticed that in the nine heavens above, outside the lightning radiance, between the clouds, there was a heaven that was extremely indistinct, he couldn't see through it even when he opened his Heavenly Eyes.

However, there were no dangers over there already, no need to fight intensely.

"Two lightning pools, it really is the first time I've seen such a thing!" Shi Hao said to himself. Then, he suddenly realized something, immediately understanding what was going on.

He saw that there was a small lightning pool above the Tenth Heaven, less than a square foot in size, within it primal chaos and immortal energy. It covered everything inside.

The nine heavens' lightning pool corresponded to this, beneath it, it could only be considered a secondary pool.

"The ninth layer of heaven's things are definitely not as good as the tenth layer. It wanted to deceive me, make me leave, keep dreaming!" Shi Hao snickered.

If he didn't think about it carefully, detecting that there was a Tenth Heaven, he would have definitely been satisfied and left after looting the secondary pool.

"I understand, the Ninth Heaven's Lightning Tribulation Liquid was diluted, it should have trickled down from the Tenth Heaven!" Shi Hao looked at their whereabouts, one perfectly beneath the other, so he made this speculation.

The lightning tribulation still didn't end, so the lightning pool wouldn't disappear. Shi Hao didn't feel worried in the slightest. He wanted to seize both of these pools!

Chi!

He rose up, rushing into the sky, immediately appearing before the secondary pool. This triggered cries of alarm, everyone shocked.

It was because Shi Hao directly sat down, using this type of precious liquid to wash his body, not drinking and enjoying it like before.

Since he knew that there was still even better Lightning Tribulation Liquid, he naturally wasn't stingy with this, using it to cleanse his body.

Sure enough, this pool didn't reject him, proving that there was still an ultimate natural luck.

At this moment, Shi Hao was faced with a choice. The most dangerous part of the lightning tribulation had passed, because now it was time for the benefits. Should he go a step further or consolidate everything first?

After crossing this tribulation, he could already choose to break through and enter the Self Severing Realm!

At this age, this cultivation realm, if news got out, it would definitely shock even the dead, truly shaking past and present, unprecedented!

No one his age had entered the Self Severing Realm, already reaching the peak of martial dao at twenty something years of age. This was just too rarely seen, at the very least, in this great era, no one younger than him had accomplished it.

Even Shi Hao himself felt like he was breaking through too fast!

For the sake of entering the Void Dao Realm, he used his body as the seed, cultivating in seclusion for three years, only a year has passed since then. Now, he was going to break through again, this really left others speechless!

During this past year, he fought, but not too much, he hadn't sharpened himself enough yet. It was because he spent the last year in seclusion as well as in order to come to Emperor City. Like many other youngsters, they were all grouped together by a few eccentrics, lecturing in the pure land, speaking about Desolate Border's secrets and other things.

"This is too fast!" Shi Hao said to himself. If he wanted to, he could take the step right now, immediately becoming a Self Severing Realm great cultivator.

When he carefully thought about it, he was more willing to settle down a bit. It was because he had only cultivated the immortal dao scripture for one year, always adjusting his body, making the three strands of immortal energy truly take root in his body. If he hurriedly broke through now, it seemed a bit unstable.

"I'll wait and see if someone forces me. If the battle environment isn't too nasty, I would rather solidify my dao foundation first. Either way, I can easily break through!" Shi Hao came to this decision.

He was inside the lightning pool, operating the immortal dao scriptures, using the natural luck here to refine himself, nourish the three strands of immortal energy within his body.

At this time, he scattered the three great dao flowers again. Meanwhile, that mysterious creature also went dormant inside of his body again, taking residence in the Sea of Reincarnation.

After the immortal energy scattered, it distributed itself into every inch of Shi Hao's body, his bone marrow, and inner organs, mixing with his body, nourishing each other.

Hong! n)-OvEℓℓIn

When the immortal dao scriptures operated, his body was like a bottomless pit, absorbing the Lightning Tribulation Liquid, nourishing the immortal energy, strengthening himself, entering a type of extremely balanced state.

Suddenly, his Sea of Reincarnation shone, also moving. The wheel of fate within the Sea of Reincarnation devoured the Lightning Tribulation Liquid, because that represented new life, the two close to each other.

Moreover, right at this time, the Sea of Reincarnation's 'sea' also underwent a change, actually devouring lightning radiance, absorbing the destructive power.

This type of change was too shocking. The massive lightning and other things actually became nourishment for him. Shi Hao's body trembled, he finally understood how extraordinary this path of his was.

Only his own path was the most powerful!

He grasped quite a few cultivation methods, having an Immortal Ancient precious scripture, present world method bone texts, and others, the number of world shocking divine abilities not few either, but they were still established by others.

There was always a type of saying, that only what belonged to oneself was the strongest!

He established his own path, now obtaining the realest verification. This was a great dao path that belonged to him alone, able to bring him to the very peak.

At this moment, the Sea of Reincarnation devoured lightning radiance and Lightning Tribulation Liquid, evolving in Shi Hao's abdomen. A grand scripture-like sound was released!

Shi Hao's entire body was resonating, immortal energy surging through his flesh and bone marrow. It was because a type of gentle radiance was currently being released from the Sea of Reincarnation's two polar extremes of life and death, released by the Sea of Reincarnation to nourish the body after it completed the absorption.

Immortal energy was taking root, growing within his bone marrow and inner organs. This type of feeling was extremely real, he could clearly feel everything right now!

One could see just how fast this was, or else how could it be like this?

Shi Hao was filled with joy, this was a type of tremendous gain. His figure was steady as he sat there, devouring lightning tribulation, absorbing the precious liquid in the pool, strengthening himself!

Lightning radiance was drawn over, making heavenly tribulation continuously crash down. However, they couldn't injure him, instead helping him evolve!

Shi Hao closed his eyes, immersing himself within, not moving, as if he entered a deep state of dao comprehension.

In the distance, Wang Xi's grandfather was stupefied, and then he was shocked and furious. Even outsiders could sense this type of transformation, clearly feeling that he was becoming stronger, obtaining tremendous benefits!

"This is the time! While you are in seclusion, mind roaming the great emptiness, your life will be taken!" He gnashed his teeth in anger.

Ka!

A light noise sounded. He opened up the stone case, releasing three creatures.

In that instant, the void here distorted, and then it returned to normal again,

There were three Lightning Spirits, all of them the length of chopsticks, looking like snakes, bodies flowing with electrical radiance. One was silvery-white, one golden, one dark red. While no one noticed anything, they tore through the void, entering the lightning.

Then, they headed directly towards Shi Hao!

The dark red one was the most savage. When it saw the lightning pool in the lightning, its eyes flourished with radiance, turning into a blood-colored streak of lightning, heading in that direction.

It wanted to kill Shi Hao, seize his natural luck, being the first one to move aggressively.

Qiang!

However, just as it approached, an expanse of lightning hacked down, all of it blasting its body, sparks flying in all directions.

Shi Hao suddenly opened his eyes, staring in that direction. He was already on guard, only, he was still doubtful. There were creatures in heavenly tribulation that could stealthily move forward and interfere?

Now, he saw a blood-colored reptile, leaving him extremely shocked!

“You want to harm me? This matter is not finished!” Shi Hao was angry. This was too vicious, at the crucial moment, someone wanted to destroy his dao fruit, cripple him, there was nothing more hateful than this.

#### Chapter 1420 - Revisiting

Lightning Spirits, they were like worms, the length of chopsticks. If one didn't examine them too carefully, they were just like snakes. The one who approached was dark red colored, entire body as if cast from blood-colored Immortal Told, giving one a cold and hard feeling.

Shi Hao didn't recognize this type of creature, but he felt that this bug was extremely dangerous, not normal.

Otherwise, when the heavenly tribulation struck its body, it would have directly been blasted to bloody chunks, how could it still coldly watch him? This was an extremely frightening creature.

“You actually dare do this!”

Shi Hao's breathing was hurried, inwardly shocked and furious. This was just too sinister, a strange creature appearing when he was crossing tribulation, wishing to harm him, it really was sinister.

The lightning ocean surged, lightning shooting out streak after streak. The noises here were earsplitting, normal people unable to look through it at all, unable to see the situation near the lightning pool.

It was because this place was full of electrical arcs, extremely dazzling, one would feel a stinging pain even if Heavenly Eyes were used.

However, this didn't stop them from realizing that something happened, that there was an issue with Shi Hao.

"What is going on, Huang seems to be angry?"

Everyone was shocked. The main reason was that the Lightning Spirit was too small, and it was like a streak of red electricity itself. It wasn't easy to detect as it moved about.

Right now, it was like a snake, raising its head, opening its mouth, revealing sharp teeth. Lightning flashed through its eyes, directly swallowing up the lightning.

This lightning tribulation couldn't harm it, it devoured the electrical light like food, incredibly greedy.

Of course, what it wanted the most was still the simple and ancient pool where Shi Hao was, staring at it. As a Lightning Spirit, it understood well that this was the greatest natural luck.

Chi!

This dark red lightning moved, attacking. It directly rushed at Shi Hao, vicious and decisive.

Originally, it was dark red colored like metal, rather ordinary, not drawing everyone's attention. However, when it truly attacked, everything changed.

It was incomparably resplendent, like scarlet red divine diamond, bright red and replete, releasing endless streaks of scarlet multicolored light, too brilliant. Its entire body was perfectly straight, like a chopstick length immortal spear, shooting at Shi Hao like a streak of lightning!

Xiu!

It was too fast, instantly piercing through the void. It arrived at the lightning pool's side in the blink of an eye, wishing to enter the space between Shi Hao's brows, kill him in one strike, penetrate his forehead and destroy his primordial spirit.

It was clear that this Lightning Spirit was extremely brutal. When killing, it was simple and direct.

Shi Hao was cold, his reaction extremely fast. With a turn of his head, he operated the Imperishable Scripture, two fingers shining, becoming a light golden color like Flood Dragon shears as they pressed towards that Lightning Spirit.

However, there was a streak of light that was even faster. In the heavenly dome above, a streak of lightning shot straight down. It wasn't that thick, but it was extremely shocking, carrying primal chaos energy, scarlet red in color.

Dang!

At this moment, sparks flew in all directions. The lightning struck that creature, making its perfectly straight body tremble, immediately flying out, unable to remain like a blood-colored immortal spear anymore.

The Lightning Spirit was greatly alarmed, releasing low is is roaring noises. It was because what it was least afraid of was lightning, heavenly tribulation normally couldn't injure it, yet now, its body was bleeding, injured.

The lightning pool was impassable!

Chi!

Immediately afterwards, this dark red Lightning Spirit moved again, still shooting straight out, wishing to enter the lightning pool, seize the Lightning Tribulation Liquid and kill Shi Hao.

Dang!

It was another streak of lightning radiance. This time, it was silvery-white in color, accompanied by chaotic energy. It was even more terrifying, blasting the Lightning Spirit until it flipped out. Blood splashed in all directions from its body, divine skin damaged, burning it until it was charred black.

This left it horrified. It had never suffered so greatly in heavenly tribulation before, actually becoming seriously injured.

This was something inconceivable. It actually couldn't approach the lightning pool! Even if Shi Hao himself didn't do anything, it still couldn't approach that place.

"What is that thing? It can actually move in lightning, resist the most powerful heavenly tribulation? It is too shocking, what kind of monster is this? Is it comparable to Huang?"

At this moment, everyone finally discovered something strange, seeing that creature that wasn't that large. All of them were extremely alarmed. Was that thing a living creature or something produced by lightning? It actually competed with Shi Hao over the lightning pool.

Hong!

In the sky, streak after streak of lightning crashed down, blasting the Lightning Spirit's body. It was targeted, suffering attacks.

It was because Shi Hao could already be considered to have completed tribulation, now currently obtaining natural luck, already obtaining the acknowledgment of heavenly tribulation.

The Lightning Spirit suddenly rushed over murderously, wishing to seize the lightning pool, so it naturally suffered fierce attacks. The heavenly tribulation suppressed this intruder on the spot.

At this moment, the Lightning Spirit panicked, because this heavenly tribulation could actually harm it, make it continuously bleed. If this continued, it might die here.

In the distance, Wang Xi's grandfather was stupefied. Not even the Lightning Spirit could harm Shi Hao?

Moreover, from the Lightning Spirit's reaction, he understood how terrifying this heavenly tribulation was. Not even a Lightning Spirit could handle it, yet Huang actually made it through!

Just how freakish was this? Huang's resistance to lightning was even more ridiculous than a Lightning Spirit!

"Is there no more heavenly reasoning? How come it didn't directly hack him to death?!" Wang Xi's grandfather said to himself.

"I was also hoping that he could directly die here." Jin Zhan's grandfather nodded.

Unfortunately, they were destined to not have their wishes fulfilled. Right now, Shi Hao stood up, walking out from the lightning pool, pressing towards the Lightning Spirit.

This creature left him extremely shocked. No one understood better than him how powerful this heavenly tribulation was, but this snake-like creature could actually resist it, not dying even now.

Xiu!

When the Lightning Spirit saw Shi Hao leave, its eyes shone with a vicious light. It felt like without the lightning pool's protection, it could kill this person. It turned into a blood spear again, shooting out.

Dang!

It collided with Shi Hao's palm. The noise was earsplitting, as if two pieces of divine steel collided, leaving Shi Hao shocked. This bug was even more powerful than he had imagined.

As for this Lightning Spirit, it was somewhat stupefied. Its previously unstoppable self was actually struck until it was confused and disoriented, becoming a bit dizzy.

Shi Hao's eyes became cold. The Imperishable Scripture supported him, right hand reaching out as if he was catching a dragon.

The dark red Lightning Spirit was angry, continuously crying out, calling over its companions for help.

However, at this moment, Shi Hao was furious, wishing to immediately eliminate it, not treating it like a worm, but more like a true enemy, attacking at full force.

Dazzling metal sparks flew about. Shi Hao continuously took action, attacking fiercely several times, finally suppressing this bug. His hands were like scissors, almost cutting this Lightning Spirit in half.

In the distance, Wang Family's people were petrified. Just how much of a monster was this youngster? The Lightning Spirit was subdued this easily?

Wang Family's higher level all knew just how much care was used to nurture the Lightning Spirits to this state. It was heaven-defying, yet in the end, it became a captive.

This Lightning Spirit didn't only seize one person's natural luck. If it wanted to become stronger, then it needed heavenly tribulation, needed the precious liquid in the lightning pool!

In the past, it had seized others' dao fruits!

Now, Shi Hao just happened to be facing a great tribulation, able to rise into the Self Severing Realm at any time. If the Lightning Spirits seized his natural luck, then the ones who would advance would be these three divine bugs.

"No, the Lightning Spirits cannot be allowed to fall into his hands!" Wang Family's people clenched their teeth. It was because the Lightning Spirits were too precious, there might only be these three in the entire world. They were priceless!

If they really were nurtured, then they would be unmatched creatures!

It could be said that these three bugs would most likely become Bug Emperors.

The dark red Lightning Spirit screamed endlessly, struggling intensely.

Hong!

Suddenly, world shocking lightning erupted. In the distance, two figures flashed, one gold, one silver, moreover bringing with them an endless great army as they slaughtered their way forward.

This left everyone shocked. There were two strange bugs that appeared, actually ordering around the lightning creatures in the heavenly tribulation as they charged forward, attacking Shi Hao.

Everyone became speechless. This was too strange, wasn't the tribulation complete? Why did this stuff end up appearing?

They still didn't know that these Lightning Spirits were living creatures, not something produced by lightning. It was only because none of them recognized these as Lightning Spirits!

There were also many people who suspected that might be a big problem!

Hong!

Shi Hao charged forward boldly. Now that his body had recovered, returning to its peak, he naturally didn't fear those creatures he had already defeated before. It was because it was precisely the Nine Heavens Ten Earths he slaughtered through, fighting intensely with these lightning formed creatures before.

As long as there were no emperor races youth who took action, the lightning tribulation didn't pose any problems for him.

"The two of you, get over here! You want to escape? No way!" Shi Hao shouted.

He took action fiercely, pressing towards the two Lightning Spirits. As it turned out, the two creatures suffered greatly, not able to do anything to Shi Hao even after bringing great armies over, in the end running for their lives.

"Perfect, you all can lead the way!" Shi Hao said with a cold laugh.

He stirred on lightning radiance, following just behind them. No matter how fast the two divine bugs were, they still couldn't shake off Shi Hao. He continuously pursued them.

Chi!

Shi Hao bathed in lightning radiance. With a single step, he crossed many li, instantly arriving before Wang Xi, Jin Zhan, and the others.

"Huang, what do you want to do?" Wang Xi released a light scoff.

"Get lost!" Shi Hao said coldly. He didn't look at Wang Xi, instead staring at the elder at her side, feeling that these two Lightning Spirits were precisely on his body.

"Unbridled!" Jin Zhan shouted, taking a step out, reaching out a hand. It was surrounded by white mist, about to slap over.

"You, get lost too, or else I will kill you on the spot!" Shi Hao shouted coldly.
