

Perfect WD 1421

Chapter 1421 - Angry Slaughter

At this moment, Shi Hao was filled with rage, about to unleash a great slaughter!

When he learned that the two bugs were hiding behind Wang Xi's grandfather, murderous rage overflowed into the heavens. As expected, this was done by Wang Family, actually harboring such vile motives, wishing to harm him to death while he was facing tribulation.

The enemy was already this despicable, there was nothing else to say. He naturally couldn't hold back, now completely erupting with anger.

What Wang Xi, what Jin Zhan? He would directly kill whoever stood in his path. All those who dared stop him, he would directly kill.

He already raised his palm, starting to form imprints, about to directly take action against Wang Xi and Jin Zhan. Slaughtering geniuses, isn't this what Wang Family liked to do? Then, he would just give a demonstration right here!

This was especially the case when Jin Zhan now took action against him, about to attack him, sending a hand slapping over, wishing to contend against him, so he acted even less politely!

"Zhan'er, withdraw for now!" Jin Zhan's grandfather stepped up at the crucial moment, pushing him back, making his palm hit nothing, having no choice but to exercise restraint.

"Grandfather, why are you doing this?" Jin Zhan was unwilling to stop right here, his expression cold, insisting on attacking.

It was because no one dared speak these words in front of his face before. Just now, Huang actually didn't treat him with any importance, directly stating for him to get lost, or else he would kill him.

Just how domineering was this? Forget about Jin Zhan, even everyone else was stupefied.

The glorious Jin Zhan, known as a heaven's pride of a generation, was actually berated by another. Meanwhile, his grandfather stopped him, not allowing him to fight but ordering him to withdraw instead. This left everyone shocked!

"Shi Hao, what happened?" Cao Yusheng shouted. He naturally knew that something major happened, or else why would Shi Hao rush out from the lightning pool, directly rush towards Wang Family?

"They released a strange type of bug, wishing to harm me!" Shi Hao said with an overcast voice.

"What?!" There were immediately people who were stunned, their minds shaken.

Shi Hao exposed them here in response to Cao Yusheng naturally out of security considerations, avoiding some people being driven to desperation, doing things without regard for anything.

Now that he spoke out, he believed that there would definitely be great figures who would be alarmed. The heavenly tribulation disturbance here was extremely great, it would definitely draw some eyes.

As long as there were great figures to stop Self Release Realm people, Shi Hao wouldn't have to worry anymore, able to calmly deal with the others. The ones who wished to harm him must pay the price!

"Too far! Acting this ruthless, trying to harm Huang while in heavenly tribulation, all of you are completely deranged! Huang fought against the other side, obtaining great fame through killing, yet you all wish to harm him to death?" Cao Yusheng screamed, not scared of making things bigger, doing this precisely to stir up all sides.

"Do you all still have any character?" The Heavenly Horned Ant shouted.

As for the little rabbit, she put in even more effort, continuously scolding them, screaming loudly, startling the experts of all sides.

The others also felt hatred, the masses stirred up, many people felt like this was going too far. Even if there were grudges between the two, they still couldn't harm him like this.

Now, when they should be unanimously aiming their forces at the other side, there was someone who acted viciously like this, wishing to harm their side's young supreme being to death, it really was inexcusable.

"You are speaking venomous slander!" Wang Xi's grandfather shouted, his expression extremely cold. At this point, he wouldn't admit it even if he died, or else he was finished.

In reality, he already knew that things weren't good, he might experience a fate even worse than death today.

"Old thing, you secretly tried to harm me, and now, you instead blame me for accusing you wrongly?" Shi Hao shouted coldly, pressing forward.

"Huang, you better not go too far!" In the back, Jin Zhan said with a sunken voice.

"Get lost, stand obediently to the side. If not for your grandfather stopping you, I would have definitely killed you!" Shi Hao said, extremely annoyed. Right now, he hated Wang Family bitterly, not in the mood to listen to Jin Zhan.

Wang Xi wanted to say something, but she was stopped by her grandfather. He secretly told her to immediately leave, that she couldn't stay here.

"Huang, even if you wish to unjustly accuse others of crime and sin, add filth to my Wang Family, you don't need to be in this much of a rush, right? You should do it only after being completely certain of victory." Wang Xi's grandfather spoke in a cold and deep manner, appearing extremely calm.

This was a half threatening, half justification. At this moment, there was no way he would bow his head and admit, he had to stick it through to its end.

He knew that his clansmen might not step out for him, about to abandon him, but he definitely couldn't admit it himself.

At the same time, there were powerful clansmen who were secretly displaying methods to bring away that stone case, bring away the Lightning Spirits. It couldn't be lost outside.

Hong!

Suddenly, an explosion sounded in the void, magical force shaking. A wave of mysterious power severed this place, the magical force trying to bring the stone case away scattered.

It was clear that someone secretly took action, stopping Wang Family's upper levels.

Right now, unless someone came, completely ripping apart all face to seize the stone case, there was no other way.

If they dared admit that the Lightning Spirits were Wang Family's, that it came from their clan, then other experts might be drawn out to deliver a heavy blow, make Wang Family nurse a grievance.

"You old bastard, even though half your body is already about to be buried, you still don't want any face?" Shi Hao said.

He took a large step forward, carrying lightning radiance, shouting, "Get out here right now!" He forced back those two Lightning Spirits, stirring lightning, blasting forward.

"Open the stone case, let the Lightning Spirits go!" Someone transmitted sound.

Wang Xi's grandfather's expression paled. He knew that he was abandoned by his clansmen, all hope now turning to dust. However, he still had to do things as he was told.

Chi!

Suddenly, two streaks of radiance rushed into the heavens, one gold, one silver, wishing to run.

"You want to run? It won't be that easy!"

Shi Hao shouted. He looked at these lightning creatures, feeling that they were extremely powerful. If they were properly raised, they really would be top level battle servants. They were just too formidable.

"Youngster generation, you bully others too intolerably. You clearly drove the strange bugs to rush towards me, trying to frame me. This old one does not agree, I will stake it all against you!" Wang Xi's grandfather shouted, attacking forward, wishing to stop Shi Hao and give the two Lightning Spirits time to run.

"Old bastard, your shamelessness really has reached a level that is rarely seen." Shi Hao erupted, a fist smashing out, making the heavens collapse and earth split. Even though he didn't directly enter the Self Severing Realm, he still wasn't weaker than the creatures of this level.

Wang Xi's grandfather was a Self Severing Realm expert. Right now, even though he attacked with all of his strength, he still suffered a great loss, actually blasted by Shi Hao's fist until he coughed out blood, continuously falling back.

"Younger generation, aren't you bullying others too much? Where it is possible, you should let others off!" Jin Zhan's grandfather spoke out. The instant Shi Hao rushed into the heavens, he sent a fist down. Jin Zhan's grandfather took the opportunity to take action, help Wang Xi's grandfather.

Shi Hao didn't see the result of that fist, instead shooting out like lightning, chasing after the two Lightning Spirits, wishing to capture them.

This battle shocked many people.

“Could these be the legendary Lightning Spirits?” In Emperor City, there were finally old monsters who recognized the Lightning Spirits, expressions filled with shock.

Wang Family’s people released a sigh. They knew that there was no way these three divine bugs would return to Wang Family, just the two words Lightning Spirit alone were enough to shock those powerful figures. They believed that Meng Tianzheng would most likely even step out!

Chi!

Shi Hao caught up to one, the other one wanted to run.

As a result, a large hand secretly reached out, wishing to seize it.

Peng!

Suddenly, a faint light appeared, someone reaching out a finger, blasting aside that large hand. Moreover, there was a voice that sounded.

“Since these divine bugs came after Huang, appearing because of his tribulation, then he ought to be the one to subdue them.” A great figure came to this decision.

The one who secretly wished to fight over the Lightning Spirits sighed, having no choice but to withdraw.

“Ya, it moved!” Right at this time, the Lunar Jade Rabbit was shocked. It was because among the things Shi Hao entrusted to them, there was one cocoon that moved.

Moreover, it quickly broke out, golden multicolored light blooming. A creature rushed out from the cocoon!

The Emperor Butterfly appeared in the world, actually waking at this time.

A single sleep lasted many years. It previously obtained great natural luck, absorbing the essence of an ancient Emperor Butterfly, so it had always been transforming within its cocoon, waiting to soar into the heavens.

Even Shi Hao didn’t expect it to revive today.

“Hand it over to me.” The Emperor Butterfly transmitted sound.

Chi!

It was too fast. The Emperor Butterfly spread its wings, shining with incomparable splendor. It was as if a golden sun blossomed here. It spread its golden wings, rushing into the heavens, catching up to the other Lightning Spirit, herding it towards Shi Hao.

Kacha!

That Lightning Spirit attacked, releasing lightning, but with a slight shake of the Emperor Butterfly’s wings, all of the lightning radiance was scattered, unable to injure it.

Everyone was stunned. What kind of heaven-defying creature was this, actually able to fight against the Lightning Spirit?

Shi Hao was stunned. The golden and silver Lightning Spirits were both handed over to it. He wanted to see just how powerful the Emperor Butterfly really was.

The two Lightning Spirits were furious. They were arrogant, had their own dignity, but they were actually looked down upon like this. They all attacked, stirring on lightning.

Hong!

However, something even more terrifying happened. When the Emperor Butterfly flapped its wings, the void collapsed. It was as if seas were roaring, earth quaking, world shaking.

Everyone was horrified. Space was destroyed, continuously extending, simply about to engulf the heavenly dome!

The two Lightning Spirits' attacks couldn't harm it!

Chi!

The two Lightning Spirits suddenly accelerated, throwing themselves over fiercely. Both of them opened their mouths, revealing their sharp fangs to bite at the Emperor Butterfly.

That Emperor Butterfly looked gentle, beautiful and perfect, but right now, the divine might it displayed was enough to leave everyone shocked.

Qiang!

A pair of golden wings smashed down ferociously, each striking one Lightning Spirit's body, releasing a resounding noise. They were directly crushed beneath!

Everyone was a bit stupefied. A butterfly actually suppressed two Lightning Spirits known for their viciousness, seizing the advantage!

When he saw this scene, Shi Hao completely relaxed, turning around to rush murderously at Wang Xi's grandfather.

He shouted, "Old thing, it's time to settle accounts between us. Your Wang Family acts just like this, huh? For the sake of dealing with me, they don't even want face anymore, daring to do anything!"

"Younger generation, if you continue to slander my Wang Family, don't blame my clan for being impolite to you!" Wang Xi's grandfather shouted, showing strength while weak inside.

"Little friend, do not go too far." Jin Zhan's grandfather also spoke from not too far out.

"Everything has already been done, yet you all don't even dare admit it, so Wang Family was nothing more than this. Moreover, you all said that you'll act impolite, yet you are still talking about what going too far? Today, I will show you impoliteness, take two heads first!" Shi Hao shouted.

He took action, not holding back at all. He stirred on lightning radiance, rushing forward to attack Wang Xi's grandfather. Towards Self Severing Realm individuals, he now didn't feel any fear.

Hong!

Just the heavenly tribulation lightning radiance was enough to make Self Severing Realm individuals' expressions change, let alone his current shocking fighting strength.

"You..." Even though Wang Xi's grandfather was trying to protect himself, he was still immediately injured, coughing out large mouthfuls of blood.

"Stop!" Jin Zhan's grandfather shouted, wishing to stop him.

"I still haven't settled accounts with you, yet you dare interfere. You can just come over too!" Shi Hao released a roar. He brandished his arm, a stellar stream-like streak of lightning radiance rushed over, blasting this person.

"You dare!" In the distance, Jin Zhan was furious. He was enduring this whole time, but now that he saw Shi Hao act like this, even daring to attack Jin Family's clan elder, he finally erupted.

"Come back!" In the distance, a shout sounded, stopping Jin Zhan!

Hong!

Right at this time, Shi Hao used the greatest strength to fight against the two elders, occupying the advantage, moreover seriously injuring them, making the two elders cough out large amounts of blood.

"Younger generation, you!" Wang Xi's grandfather shouted angrily.

Dong!

Another fist smashed over, moreover accompanied with lightning radiance. Wang Xi's grandfather couldn't hold on anymore, entire body splitting apart like porcelain, body breaking down.

"Tell me right here why you harmed me, and I can leave you with your life!" Shi Hao said.

"You... are dreaming." Wang Xi's grandfather didn't dare betray his family.

"Then I'll send you on your way." Shi Hao condensed a magical imprint, looking down from above, pressing downwards. What proof did he need left? It was just that he wanted to humiliate Wang Family.

Since the other party didn't want to talk, then he would just kill him with full strength.

Pu!

A streak of bloody light erupted. Wang Xi's grandfather was killed right here, completely exploding.

"Also you, I am too lazy to even ask. I'll just directly send you on your way!" Shi Hao said to Jin Zhan's grandfather.

There was no suspense. Within shocking fist radiance, Jin Zhan's grandfather also released a loud shot, killed, blood dyeing the skies red.

"You dare!" In the distance, Jin Zhan's eyes were scarlet red, killing intent overflowing.

There was also Wang Xi who stood in the distance, face full of shock.

Chapter 1422 - Powerful Gathering

The two Self Severing Realm experts were killed this quickly. The fine hairs of everyone in Jadedfall Island stood on end, feeling deeply shocked. Just how powerful was Huang?

"You..." In the distance, Wang Xi pointed at Shi Hao, unable to say anything. Her grandfather was extremely powerful, yet Huang killed him right after saying he would do so, doing it in a clean and direct manner.

"I will kill you!" Jin Zhan shouted, long hair flying about, eyebrows standing on end, eyes filled with blood. When he opened his mouth, bone texts formed a starry stream, smashing towards Shi Hao.

A mouthful of innate stellar force mixed with primal chaos, known to be able to strike down the sun and moon was refined to the peak, hacking down the star dome, slicing apart the cosmos, none of this a problem!

"Come back!" Suddenly, a voice was transmitted from behind. Moreover, a spatial gate was opened, A sparkling blue large hand reached out, grabbing Jin Zhan with a peng sound, bringing him away.

Everyone here was stunned. They thought that Jin Zhan might go crazy, fight a battle to the death with Shi Hao, never expecting him to be directly seized. Needless to say, that was definitely someone from Jin Family.

Everyone felt relieved. It was definitely because a great figure was paying close attention. Now, the situation had already developed to such a complicated state, Jin Family wanted to temporarily remove themselves from this matter. ~~no~~VE-lb)1n

Regardless of whether they would pursue Shi Hao for killing a cultivator from their clan, that was something that would come later, they didn't want to become the focal point of this storm.

At the very least, the ones badly burned should be Wang Family, even more unlucky than the Jin Family, actually about to lose three Lightning Spirits. This loss was unimaginable.

These things were too precious, rarely seen in this world, not many of them existing from past until now.

In the present world, not even supreme level figures believed that there were things like Lightning Spirits in existence. Now, their existence was proved, living examples seen, so how could they not be shocked?

This was definitely a tremendous matter!

Meanwhile, as one of the main characters, Shi Hao could actually subdue the Lightning Spirits, this left everyone even more shocked.

"Huang is too strong! I thought that I was already rating him highly, but only now have I discovered that he is even stronger than what I imagined!"

Lightning Spirits, they were known to be unmatched creatures, yet they were actually defeated, moreover three of them. One had to understand that they even dared to resist lightning tribulation, able to eat it!

Everyone could see Huang's battle accomplishments with their own eyes, leaving all of them alarmed. They finally knew why he could defeat ten kings alone in Scarlet Sky Border.

"Wang Family and Jin Family's two experts were actually easily killed. Huang was too fast!"

"What about Jin Zhan? Didn't you say that you are number one in present world methods? Why did you leave? If you have the guts, then come here and fight Huang!" Someone shouted, creating a disturbance here.

After suffering the initial shock, then composing themselves again, a few young cultivators were partial to Shi Hao, holding Wang Family's actions in contempt. They naturally didn't see Jin Zhan's family in a favorable light either.

This was especially true regarding Wang Family, actually releasing such terrifying creatures while Shi Hao was crossing tribulation, harming his magical body, seizing his dao fruit.

Now, news had already gone out, many people understanding what kind of thing the Lightning Spirits were. While feeling shock, they also felt fear.

They were only three chopstick length bugs, yet they could actually devour lightning radiance, harm one's dao fruit. They got stronger through heavenly tribulation, needing to ingest Lightning Tribulation Liquid.

"Fairy Wang Xi, your Wang Family has gone too far, right?" Someone spoke out, berating Wang Xi.

Her face was pale, feeling great shock towards Shi Hao's fighting strength, and also shaken from her grandfather's death. Right now, she was a bit absent-minded, when she heard this, her eyes recovered.

"Fairy Wang Xi, why aren't you inviting your fiance Jin Zhan to fight? Fighting honorably is better than releasing Lightning Spirits to harm one's dao fruit, right? We should see who is stronger and who is weaker!" Someone said.

"The public will naturally have its own opinion on the matter." Right at this time, a spatial gate opened, flowing with hazy radiance. Bone texts appeared streak after streak, bringing Wang Xi away.

Wang Family didn't send out any experts, because if they sent someone out in this type of situation, take action, it would definitely provoke the extraordinary figures in Imperial Pass.

For example, Great Elder Meng Tianzheng, he should have already come out, to the extent where he might even take action against Wang Family's five dragons!

Everyone could clearly see that the Lightning Spirits have shifted owners. They couldn't be taken back.

"It really pains me to death!" Someone from Wang Family shouted, but his voice was suppressed extremely low, not daring to let others hear. This was a type of suppressed howl.

It was because they lost an unmatched type of creature. If they were properly raised, they would become something the clan could rely on, but in the end, they were lost just like that.

Who would have expected that the powerful Lightning Spirits who possessed innate superiority in lightning tribulation were discovered by Huang, unable to even launch a hidden assault on him!

At this time, the battles in the distance were extremely intense. The Emperor Butterfly fought against two creatures, one gold, one silver, the scene shocking.

It gently swayed its wings, great void cracks extending out who knew how many li, the entire heavens looking like it was going to collapse, making all experts feel alarmed.

“This fella previously absorbed the essence of an ancient Emperor Butterfly, transforming for several years, the benefits it obtained were unimaginable after all!” Cao Yusheng said with a sigh.

He understood this matter, but he was still shocked.

Within the cave the ancient Emperor Butterfly resided in, there was previously an ancient key that was obtained by Shi Hao. it was precisely because of it that he obtained the Imperishable Scripture in the Northern Sea’s Imperishable Mountain.

Thinking back, there was a reason behind why the cave the Emperor Butterfly was in had that type of thing. The Emperor Butterfly itself was too terrifying!

Right now, the Emperor Butterfly was a bit angered. Previously, it already crushed the two Lightning Spirits beneath its golden wings, seizing the advantage, but it never expected these two creatures to be this terrifying, not bowing down after all this time, fighting with everything they had.

Qiang!

The Emperor Butterfly looked gentle, dancing lightly and gracefully, but its attack power really was too frightening. The golden butterfly wings hacked down, sparks flying everywhere, leaving behind terrifying injuries on the silver Lightning Spirit’s body, its flesh damaged, blood falling.

The Lightning Spirits’ bodies were unbreaking, apart from Shi Hao, at this level, it was extremely difficult for others to injure them. Now, the Emperor Butterfly actually accomplished this.

Hong!

That golden Lightning Spirit offered support, a streak of golden lightning shooting out of its mouth, accompanied by chaotic energy, even having wisps of immortal mist. This left everyone who saw this scene shocked!

“This is immortal mist that has merged with the flesh, lightning accompanied by a mouthful of blood. This type of creature... is too frightening! It has immortal dao strength?!” A few people cried out in alarm, stupefied as they watched, bodies a bit cold.

Sure enough, the lightning supported by the blood of the Lightning Spirit was even more powerful, blasting aside the Emperor Butterfly. The silver-colored Lightning Spirit broke free.

The two Lightning Spirits shouted out, incredibly angry. They both displayed their might, stirring on lightning. They turned into streaks of divine radiance, one gold, one silver, rushing into the heavens and diving into the earth, fighting a bloody battle against the Emperor Butterfly.

This battle was too intense, drawing everyone’s attention.

Many people harbored suspicions. Just what kind of butterfly was this? How could it be this formidable?

Someone said the name Emperor Butterfly, but those who knew about it were too few, not many knowing about its past battle accomplishments.

It was because this thing was too rare, only appearing once in archaic times, moreover entering the lower realm, the records pertaining to it too rare.

“There is a possibility that it is just like the protectors, not belonging to this world, originating from a distant and ancient place!” Someone said quietly.

The protectors bloodline of the Nine Heavens Ten Earths, Dugu Yun’s ancestors were suspected to not belong to this world, having another place of origin.

Qiang!

The pair of butterfly wings were golden and brilliant, sweeping through everything before it. In the end, it seized the advantage again, fighting the two alone, overwhelming the Lightning Spirits.

Everyone was speechless, at the same time extremely shocked. This Emperor Butterfly was too powerful, even able to suppress the unmatched Lightning Spirits, this type of race was just too strange.

One had to understand that this was a creature that followed Shi Hao, staying with him. Being able to subdue Lightning Spirits himself was one thing, yet a golden butterfly that followed him could also do this!

“This...” Many people were shocked, finding it difficult to express what they were feeling.

If they were to grow up, just how terrifying would they become? The creatures at Shi Hao’s side would definitely be of the highest level of strength, in the future, they could suppress all directions.

“The Lightning Spirits were subdued!” Someone cried out in alarm.

After the battle continued for a long time, reaching more than four hundred moves, the Emperor Butterfly subdued the two Lightning Spirits. One wing suppressed one, pressing them down, they weren’t able to move at all.

Shi Hao smiled, walking over from the lightning tribulation, applying seals on the two Lightning Spirits himself. He placed them together with the one from before, putting them away.

He didn’t kill them, feeling like this type of thing had great uses. If he could take them for himself, they would definitely be powerful battle servants!

With things like this, none of the individuals present could calm down. This place erupted with noise, many people discussing fervently.

However, Shi Hao didn’t pay attention to these things. He sat down in the lightning pool, completely refining all of the Lightning Tribulation Liquid he hadn’t absorbed.

Then, he entered the tenth layer of heaven to seize the final true lightning pool!

“There is another lightning pool?!” When the group of youngsters saw this, they all felt like they were a bit dizzy.

Of course there was a Tenth Heaven. It was high up above, a space created from divine light. The lightning there wasn't violent, but extremely gentle.

However, when Shi Hao entered, wishing to seize the lightning pool, the auspicious became sinister. Lightning flashed, thunder rumbled, crazy winds sweeping about, the attacks ferocious.

Shi Hao remained unmoved, resisting with all of his strength, rushing over with extreme speed, instantly arriving by the lightning pool.

This pool was extremely small, less than a square foot in size. However, the power of the liquid inside was too exuberant, who knew how many times stronger than that of the pool below.

He didn't say anything, instead producing a bone cauldron, then quickly collecting it, not daring to waste time out of fear that something unexpected would happen.

The liquid was red and sparkling like a large ruby, also like heaven and earth essence blood. The power within was too great, absolutely priceless!

At the same time, this pool was extremely simple and ancient, when he felt it with his hand, Shi Hao was shocked. This was clearly made from ancient rock, not feeling like it was produced from lightning.

"Since this liquid is real, then the pool, could it be that it has a chance of being real too? Can I bring this pool away with me?" Shi Hao said to himself.

This lightning pool was different from those of the past, it was too real, the stone sturdy, filled with an ancient aura, having a type of special immortal dao energy.

"I'll move it, just come with me then!"

Shi Hao exerted force, using his great divine abilities, wishing to bring this pool away, put it into his storage magical artifacts so he could research it later.

In the distance, everyone who saw this scene was speechless. Just how greedy was Huang? Seizing the Lightning Tribulation Liquid was one thing, yet he was even going to bring the pool away.

Normally speaking, no one could obtain an entire pool of liquid. In the past, when Shi Hao was crossing tribulation, he had experienced this.

However, just now, the lightning pool of the Ninth Heaven was an exception, because that wasn't the ultimate natural luck of this heavenly tribulation.

Chapter 1423 - Extreme Recklessness

Ka!

Nine thousand streaks of lightning hacked down at the same time, blasting Shi Hao until his entire body was jerking randomly, some areas even becoming badly mangled, bones visible.

The lightning in the Tenth Heaven was originally peaceful, even if it was going crazy because he was trying to seize lightning tribulation liquid, it shouldn't be like this. All of this was because he wanted to bring the lightning pool itself away.

“Move!”

Shi Hao used his great divine abilities. His Sea of Reincarnation shone, moreover activating Kun Peng technique, Willow Deity methods, and other things, going all out to seize this ancient pool.

Everyone was stupefied, really not knowing what to say. Not long ago, they still saw him display heaven reaching divine might, forcing back all lightning tribulation, incredibly heroic.

But now, it actually became like this.

“Just now, Huang killed Wang Family and Jin Family’s elders, appearing so dashing and handsome, but now he... is stealing the lightning pool, something doesn’t seem right...” A beautiful young lady muttered quietly.

What something doesn’t seem right? They are basically two different people! Shi Hao had the appearance of a money grubber, carrying the lightning pool, not willing to let go no matter what, using all of his strength to move it.

“Hey, Huang, what are you doing? Can you not be like this? It really is a bit embarrassing.” The Lunar Jade Rabbit felt embarrassed for him. This was just too reckless.

“The Lightning Pool is formed from lightning, not real, only the lightning tribulation liquid is a real heavenly treasure produced in destruction, able to be brought away!” The Heavenly Horned Ant said, thinking that Shi Hao didn’t know this.

“I don’t need you all to tell me this, I know what I am doing.” Shi Hao remained unmoved. He was sure that this was a true lightning pool, because after all the different tests, he still felt like there was no mistake.

Of course, during this process, he didn’t waste any time, using the bone cauldron to collect Lightning Tribulation Liquid, fearing that he might end up with nothing if he couldn’t bring away the Lightning Tribulation Liquid.

Sure enough, he could only bring away half of the Lightning Tribulation Liquid, perhaps not even that much, just like before.

However, right at this time, the lightning pool was about to escape, rumbling as it moved.

Even though things were already like this, heavenly tribulation about to end, the lightning was still crazy, even more fierce than the great tribulation Shi Hao faced in the Nine Heavens Ten Earths, leaving him seriously injured.

Not even he himself thought that at the crucial point, he originally should’ve made it through, but in the end, he had his flesh hacked apart, entire body charred black.

“Get up!” Shi Hao shouted, still trying his hardest.

Then, he felt the void shake, great cracks extending outwards. Moreover, the lightning radiance became much heavier, the entire heavenly tribulation about to enter the cracks, about to disappear here.

“Seal!”

Shi Hao shouted, using everything he had. Six Dao Reincarnations Heavenly Art was activated, Imperishable Scripture sounding. The True Primordial Record operated, at the same time, his Sea of Reincarnation shone, also suppressing this pool.

At this time, the lightning pool dragged him along, about to enter the great crack in the heavens above.

“No! Hurry and stop! If you enter, you will undoubtedly die!” Cao Yusheng shouted loudly.

Many people were stupefied, and then they were horrified.

It was because according to rumors. If they really found the source of lightning tribulation, then it would inevitably result in the eradication of body and spirit, flesh dying, dao extinguished, there has never been an exception.

Ever since ancient times, there had never been anyone who went to the land of origin and came back alive.

Lightning tribulation wasn't produced by rain clouds, normally always abruptly descending from the sky dome. However, there would always be a source. Right now, Shi Hao was about to enter, it naturally made others turn pale from shock.

“Stinky brat, get back here!” Right at this time, even Great Elder Meng Tianzheng was startled. He felt a wave of coldness, fearing that Shi Hao might die from this risk.

This brat was too daring! Many older generation figures rushed over. When they saw this scene, all of them were stupefied. They never saw someone with such nerves!

What was this fella trying to do? Was seizing half a pool of Lightning Tribulation Liquid not greedy enough? He actually wanted to take this little pool too! The older generation figures all felt a bit dizzy. They looked at him, really not knowing how to evaluate him.

Was this a heaven warping genius, or was it a shameless and reckless brat?

“Let me try one last time!” Shi Hao replied, still not giving up.

In the heavenly dome, a few strange cracks appeared. Lightning radiance gathered inside. At this moment, everyone was a bit frightened, at the same time shocked.

This had never happened before, or to be more precise, no one had ever seen it before, only heard legends. Heavenly tribulation actually really did have a source!

In the past, everyone only felt that heavenly tribulation suddenly disappeared, but now, they discovered that in reality, it gathered in a mysterious land!

“Stinky brat, do you not want your life anymore? Stop right now!” Great Elder berated.

Shi Hao was carrying out the final test, but as a result, the lightning tribulation that was about to scatter hid the sky and covered the earth again, everything blasting towards him.

In the heavenly dome above, those strange cracks were accompanied by all types of brilliance, quite striking in the darkness, looking even more real. The cracks were slowly closing.

“Stay!”

Shi Hao roared, using everything he had. His Sea of Reincarnation flourished with radiance, immediately collecting the lightning pool. He did all of this to make the ancient pool stay behind so he could research it.

En?

Everyone was stupefied. He really succeeded, stopping that square foot lightning pool? It actually disappeared, entering his abdomen!

However, it was as if he poked a hornet nest. In the darkness, the cracks accompanied by brilliant light immediately released thousands to tens of thousands of streaks of lightning, all of them terrifying beyond compare.

Immediately afterwards, Shi Hao had nowhere to hide. He was blasted until his body jerked about, hair standing on end, blasted black, and then falling down.

As for his body, it was directly blasted through by many streaks of lightning. Terrifying bloody holes appeared one after another, a ghastly sight. It was just too terrifying.

Even his heart could be seen through the large hole, about to be scorched black. This lightning was unimaginable, chaotic energy crashing down, submerging this place.

“Have you lost it?!” Great Elder felt helpless, feeling alarm, worried that Shi Hao would immediately die.

It was because this lightning tribulation was clearly more terrifying than before, even more resplendent, simply about to destroy all living things, even looking like it was going to spread.

This touched upon heaven’s anger. Huang forcefully seized the lightning pool, triggering a great disaster, lightning continuously hacking down.

Shi Hao grimaced in pain, resisting there. However, he was blasted until his body was scorched black, about to fall apart. He suffered the greatest danger in his entire life.

Vaguely, the Immortal Killing Stage condensed again, extremely indistinct, faintly discernible, about to hack down on him again, kill him here!

Everyone was speechless. This person really was too good at provoking trouble!

Since the ancient times, just how many people triggered the appearance of the Immortal Killing Stage? However, in one day, it actually appeared twice in a single lightning tribulation. The god of longevity truly didn’t want him to live a long life!

Shi Hao’s only hope was that even though lightning continuously hacked down, those cracks were still closing, not stopping.

Those cracks became smaller and smaller, completely closing soon after.

However, the lightning seemed to have a grudge against him, locking onto him, frantically gushing out. In the end, it became even more intense, like water at the eye of the sea, frantically surging.

“No! I already went through the Immortal Killing Stage once, you don’t have to appear again! We can see each other again next time, actually, it’ll be better if we never meet again!” Shi Hao screamed.

It was because he saw the most dangerous thing was gradually taking form. The Immortal Killing Stage became a bit more real, that dark red blade about to become clearly visible.

Hong!

Lightning poured down like rain, hacking down with pilipala sounds, every single streak merging with primal chaos. It was too terrifying. Shi Hao was blasted until his body was badly mangled, bones even exposed, the scene too horrible to endure.

Even though he was smiling, joking around, his real situation really was dangerous.

Great Elder Meng Tianzheng was worried, but outsiders couldn’t interfere, unable to stop this. It was because if powerful experts took action, they might provoke terrifying lightning onto themselves.

“If you can’t hold on, then just return that pool!” Fatty Cao shouted.

“Isn’t it just a stupid pool? Hurry up and throw it away!” The Lunar Jade Rabbit and Heavenly Horned Ant shouted.

The Emperor Butterfly flapped its wings, expressing its agreement. Right now, one’s life was the most important, it wasn’t worth the risk.

Hong!

At the final crucial point, lightning blasted Shi Hao streak after streak, just too terrifying, to the extent where even the crown of his head split apart.

If it was anyone else, they would have long died.

Shi Hao displayed the Imperishable Scripture to the limit, moreover using the True Primordial Record’s power of turning the rotten to the miraculous to stop the lightning tribulation, resisting with everything he had.

His Sea of Reincarnation shone. After putting away the lightning pool, it continuously flickered about, but it just didn’t release the lightning pool, fully subduing it.

“You... really are going to take form?!” Shi Hao stared at the Immortal Killing Platform, looking at the dark red guillotine on it. He really was a bit terrified.

“En?” He raised his head, seeing that the final cracks were about to close as well. The lightning that forcefully squeezed out became fewer, the opening too small, not much able to come out anymore.

noVe(1b(1n

However, what did rush out was extremely fast and ferocious.

Qiang!

On the Immortal Killing Stage, that dark red guillotine was fully formed. It released cold light, carrying scarlet multicolored light, terrifying beyond compare, about to hack down on Shi Hao again.

This time, Shi Hao had no choice but to make a decision. Was he going to persevere on?

Suddenly, someone shouted, "The cracks closed, the time has been reached!"

At the same time, on the Immortal Killing Stage, the guillotine's radiance was brilliant, scarlet multicolored light heaven overflowing. In the end, it rushed into the heavens, entering the cracks. It was because it was time, now withdrawing.

Kacha!

The great cracks closed, a large portion of the lightning cut off outside. Apart from this, the Immortal Killing Stage was also like this, breaking down, the guillotine leaving behind a streak of essence energy before dissipating into this world.

"Stay behind for me!"

Shi Hao roared. Under everyone's shocked gaze, he opened his mouth, swallowing the remaining lightning radiance, wishing to use this to refine his body.

Moreover, at this time, his abdomen shone, releasing the lightning pool, using it to collect the remaining light left behind by the Immortal Killing Stage's guillotine after it scattered.

He had to collect that light. Regardless of whether he used it to refine a sword core or refine it into his body, it would grant him unimaginable power. In the future, he could use it to cut through everything.

Right at this time, a group of elders threw themselves towards Shi Hao, every single one of their eyes red, their target the lightning pool.

It was because this thing was too rare, from past until now, no one had ever acted like this, forcefully making a lightning pool stay behind!

"Let me take a look! I want to see just what kind of thing this is! How could there be a real body left behind, actually not produced by lightning?!"

"Let me study it a bit first, see just what kind of shocking mysteries it has!"

The group of elders went crazy, almost running into each other, about to break out into a fight. They wanted to be the first to study it in their hands.

Compared to heaven-defying creatures like the Lightning Spirits, this lightning pool was even more enticing, making them temporarily forget about the Lightning Spirits. It was because from past until now, this was the first time someone forcefully made a lightning pool stay behind.

Chapter 1424 - Haggling

"Stop making a disturbance, hurry and move out of the way! I'm still not done, the most important thing is about to escape!"

Shi Hao pushed an elder with disheveled hair to the side, not polite at all, leaving everyone stupefied.

However, right now, Shi Hao really was anxious, his expression serious. It was because he was targeting the light left over by the immortal killing guillotine, chasing after it.

When faced with this streak of light, he didn't rashly touch it with his body, fearing that he might suffer a loss. After all, his head had previously been removed by that dark red blade.

For the sake of safety, he decisively used the lightning pool. They were both things that appeared in lightning tribulation, shouldn't clash with each other. Moreover, he had tested it out before, the lightning pool was ridiculously sturdy.

"Brat, what kind of attitude is this?" That elder glared at him. However, he didn't get angry. Even though he widened his eyes, the smile on his face was still quite amiable.

Xiu!

It had to be said that this streak of light was too fast, like lightning as it passed by, resembling a streak of rainbow, simply impossible to catch, not many things faster than it.

Wherever it passed, time seemed to have stopped, penetrating the everlasting!

Chi!

An elder took action, helping force that streak of light over.

However, this streak of light seemed to possess a will of its own, actually knowing to change directions, escape, shoot in a different direction.

"Yi, a bit interesting, don't tell me this thing has a spirit, having its own will?" Another elder took action, because this streak of light flew towards him.

"This is an excellent thing, this also came from the lightning tribulation. If I am not mistaken, it should be left over from a corner of the Immortal Killing Stage's guillotine." Another person's eyes flourished with radiance, extremely interested.

"This thing is most likely extremely heaven-defying, very likely even more precious than the lightning pool. Stop it, don't let it run!" Someone said.

A group of elders took action together, chasing after it, not letting this streak of light escape.

Just now, Shi Hao was still complaining, believing that the group of elders were standing in his path. Now, he released a breath of relief. This group of people were too strong, with them surrounding it, this streak of light couldn't escape.

"Careful!"

Someone cried out in alarm. It was because this streak of light directly pierced through the void, wishing to escape through space. This was extremely shocking, once it escaped, it would be hard to catch up to it again.

"Come out!" An old woman with gray hair shouted. Her finger released a faint silver light, moreover quickly enlarging, slapping forward.

With a honglong sound, that area of the sky was slapped to pieces, continuously breaking apart. That mysterious light was forced out, unable to escape.

"This thing really is slippery. Collect for me!" Another elder released a lightning shout. He produced a golden skinned gourd that was glistening yellow. He pulled out the cork, about to collect it.

This gourd's origins were extraordinary, accompanied with five-colored divine light, but of course, with golden light as the main color. A vortex appeared on the gourd's mouth, simply able to suck in heaven and earth.

This was an extremely powerful precious artifact, the various fluctuations released by the light shocking. In the end, that light trying to escape through the sky was absorbed.

"Haha, it was captured, suppressed." The elder laughed.

However, as soon as he plugged up the gourd's mouth, the yellow skinned gourd shook intensely. In the end, there was even a sharp and clear kacha sound that suddenly sounded. A streak of light directly appeared beneath the gourd.

"My treasure!" The elder cried out, face even becoming green.

The bottom of the gourd was blasted through. That streak of light shot out, the gourd unexpectedly unable to stop it, allowing it to escape.

"This thing really is sinister, let me give it a try." The other elders all took action, bringing out artifacts one after another, attacking this streak of light. noVe(1b(1n

In the end, something shocking happened. That streak of light was too sharp, blasting through an ancient shield, severing a divine spear, even more so breaking through a great net.

They couldn't restrain it at all. The most frightening thing was that after it went crazy, it pierced through an elder's palm, going straight through, leaving behind a bloody wound, extremely terrifying.

This thing was extremely vicious, no one able to stop it.

"This is too extraordinary, just what exactly is it? Is it really just a streak of light?" Now, everyone was watching this streak of light closely.

Hong!

Suddenly, a large black hand moved through the sky, covering everything, giving many people in Imperial Pass a suffocating feeling, almost falling weak onto the ground.

"What?" Everyone cried out in alarm. This type of power was too terrifying, no one able to resist it. Many elders' faces became pale.

"It came from the ancestral altar!" Someone said quietly, expression changing greatly, not daring to say too much.

The ancestral altar was a special place. Apart from consecrating the war deities who died in history, there were several unmatched hermits who cultivated in isolation. They were Imperial Pass' protectors.

At this time, a large black hand reached out. One knew even without thinking too much that there was definitely an unmatched being secluded within who was disturbed, now taking action.

Even creatures of this level attached importance to this streak of light, one could see just how extraordinary it was.

“Wu, there is only this bit of essence light, too small, not enough to divide up. It is still better if it is left for the youngster.” Right at this time, Great Elder Meng Tianzheng truly appeared.

“Seal!” He released a light shout. Moreover, a finger pointed out, magical force immediately overflowing, surging like scarlet magma.

The divine radiance was immediately restricted, unable to act viciously anymore. It had to be said that Great Elder’s divine might was unmatched, magical force boundless. Now that he took action, everything became simple.

Chi!

Great Elder moved his hand, bringing the lightning pool over, using it to suppress this streak of light, collecting it inside. Only now could this matter be considered finished.

The large black hand hesitated for a bit, but in the end, it still silently withdrew, entering the void, disappearing into the ancestral altar.

Many people were shocked, but they didn’t dare talk too much about the ancestral altar.

After a short moment of silence, they began to speak up one after another.

“This shouldn’t be the essence of the Immortal Killing Stage, right?”

“That guillotine has killed gods, slaughtered immortals, so the mysterious light that leaked out from it is definitely extraordinary. This thing is a priceless treasure, should be something of the same level as the lightning pool!”

The elders were all moved, unable to calm down. They flocked over, all of them rushing over.

Of course, not many people could match Great Elder in status here, none of them daring to behave recklessly in front of him. They all rushed towards Shi Hao.

“Little brother, this lightning pool isn’t that small, how about you sell me a piece?” Someone spoke, interested in the lightning pool.

“Who said it was large, it is only less than a square foot in size!” Shi Hao was like a money gruber. He blinked his eyes, saying, “I really wish it was bigger!”

“I don’t think it is small, how about you exchange it with me? I’ll give you a piece of rare divine material, and you can even take your pick from Self Release Realm magical artifacts.” An old man said with all smiles.

This time, before Shi Hao expressed anything, the others couldn’t take this anymore, all of them criticizing that old man.

“Really, you old thing, you came from Imperial Pass’ immortal dao family -- Wei Family, you even dare to act so poverty-stricken!”

Wei Family, just like Tuogu Yulong's family, was one of Imperial Pass' three great long life families, having the Wei Family Four Phoenixes.

"There is no need to say too much, I am offering a piece of Darkness Immortal Gold!" An elder spoke, extremely imposing, directly stating a shocking offer.

Everyone was shocked, this place immediately becoming silent. What kind of thing was Immortal Gold? It could be used to refine immortal dao magical weapons, hard to find throughout the world!

How could normal people obtain such things? It was impossible to find.

"Of course, I only have a small piece, the size of a thumb. You all should understand that it is hard to gather enough to refine even one weapon, even if the entire Nine Heavens Ten Earths are scoured." The elder said.

Everyone nodded, this was the truth.

However, after they recognized that this was someone from the Tuogu Family, everyone sighed inwardly. Only an immortal dao family could bring out a piece of Darkness Immortal Gold.

"I admit my wrongs, little brother, I am also willing to offer a piece of Immortal Gold, a piece that is a bit larger than his!" Wei Family's elder apologized, still wishing to obtain the lightning pool.

It was because this type of thing was too mysterious, something that appeared from heavenly tribulation, rarely seen from past until now. Only a freak like Huang would do this type of thing, dare to seize it.

This was the first time they saw a lightning pool that seemed to be cut from a piece of rock. They all felt that it was extraordinary, as if made by heaven. It was definitely special, perhaps carrying a great dao truth.

If it was cut by someone, then it was even more mysterious, containing too many mysteries and information. That was why they all wanted to obtain it.

This was especially the case for long life families, wishing to research it to its end.

As for the streak of light that rushed out from the Immortal Killing Stage, they also wanted it badly, but they didn't dare speak up, because they felt like Great Elder Meng Tianzheng might have already set his eyes on it.

"I am offering a supreme being magical artifact!" Another person offered.

The so-called supreme being magical artifact, were precious artifacts refined by people on the level of Meng Tianzheng and Immortal Wang, refined with meticulous care their entire lives, at most a single one created. This was their 'life treasure'.

Otherwise, what is refined can only be considered a powerful magical artifact, not a supreme being artifact.

This level of artifact was incomparably powerful. Once it was operated with full force, it was equivalent to a supreme being appearing, terrifying beyond compare. There weren't many of them in this world.

From a certain perspective, they wouldn't be more common than immortal artifacts.

Moreover, as long as heaven and earth's environment changes, then there is a chance of this thing evolving into an immortal weapon.

Without a doubt, their materials were all of heaven-defying level, for example, World Stone, Immortal Gold, and other things.

"Seniors, I really cannot exchange this thing." Shi Hao shook his head. In reality, those treasures were extremely enticing, but there was no way he could give out the lightning pool.

He still wanted to research it himself. This thing's origins were too extraordinary.

"I only wish to exchange for a small piece, do not need the entire lightning pool!" Someone lowered their demands, taking a step back.

In the distance, the youngsters were stupefied. Just how great was the natural luck Huang obtained? A group of elders were crazily giving offers, just the lightning pool's value alone was already unimaginable, let alone the Lightning Tribulation Liquid and the streak of light.

Everyone couldn't help but feel jealous. After making it through history's most powerful Void Dao Realm level heavenly tribulation, the benefits Huang obtained were just too many!

"How about this, let my clan research it for half a year, and this piece of Immortal Gold is yours!" An elder took another step back.

Shi Hao really was troubled, but in the end, he still couldn't agree. "How about this, everyone, I have one request. If you all are willing to help me, then I will hand this thing to everyone, give it to you all."

When this sentence was spoken, everyone became stunned. This brat was even more slippery than a loach, just not willing to yield. How could he just joyfully hand it over now?

Forget about the elders, not even the youngsters really believed him.

"What do you need help with?" An elder asked.

"I am someone who really loves eating, a great indulgence, the most blissful thing of life, there is just no way of satiating it." Shi Hao boasted shamelessly here.

Everyone became suspicious. What did this have to do with everyone's help?

"Wang Family has nine dragons, among them, five of them are in Imperial Pass. Whoever can give me some dragon meat, I will give that person the lightning pool!" Shi Hao said extremely directly!

Everyone immediately became petrified.

"The five dragons seem to be extremely fierce, but with so many of us here, if we slaughter our way over together, then I refuse to believe that I can't eat dragon meat. If everyone goes, then I will hand over this lightning pool." Shi Hao said enticingly.

Chapter 1425 - Standpoint

Huang wanted to kill Wang Family's five dragons, moreover not hiding it at all, stating it in front of everyone. Instead of saying that this was a type of resolution from Shi Hao, it was better to say that this was a type of attitude!

This time, Wang Family went too far, actually releasing Lightning Spirits to harm him. Those were a rare species who had only appeared in legends. They grasped heavenly tribulation, and if it was anyone else in his place, they would have undoubtedly died.

Even Shi Hao, if not for his senses being sharp, realizing it ahead of time, he might have been seriously injured.

Wang Family had tried to harm him to death many times, not considering the greater situation at all. There were countless foreign troops outside Imperial Pass, yet only for their selfish wishes, they wanted to get rid of him.

This time, Shi Hao was angered, completely furious. Wang Family wanted to harm him to death again and again, fearing that he would grow up and then threaten their clan, so they used all methods they had.

Now, he spoke out in public, not out of hopes that someone would go kill the five dragons, but rather as a type of declaration, to slap Wang Family's faces.

Originally, this was something Wang Family would normally try to cover up, so he wanted to expose it in front of everyone, let everyone know.

It was because not everyone in Imperial Pass knew that the Lightning Spirits belonged to Wang Family, more of them being jealous of Shi Hao's fortune, that he could subdue this type of heaven-defying creature.

The group of elders were left in an extremely awkward situation. Even though they held scorn for Wang Family, to have them go over and kill them right now, kill the five dragons, they really couldn't do it.

One had to understand that Wang Family is a huge power. If they slaughtered their way over, it would be the same as declaring war against Wang Family. This wouldn't be a small matter.

Wang Family had Immortal Wang, a matchless figure on par with Meng Tianzheng, only half a step away from immortality. His magical force was unequalled, incomparable. $n^{-}o)(v^{-}E))l/-\ell--1)(n$

If not for the environment changing, this individual would simply be a True Immortal!

If the world's environment didn't change, he would have definitely become a True Immortal who could overlook all clans, unmatched under the sky.

Moreover, there were some who suspected that with the other side's attacks, the two realms' realm wall had long been broken, about to merge together, evolve. At that time, the great environment might very well change. At that time, Immortal Wang might become a True Immortal!

No one was willing to take action. There was a private side to this, and also a public side.

As for public, Imperial Pass didn't permit disorder, attacking a giant power like Wang Family would definitely produce chaos.

After all, apart from Wang Family's five dragons, there were a hundred thousand elite troops who came as well, personally sent over by Immortal Wang. Together with Wang Family's soldiers who were in Imperial Pass to begin with, this was a force that couldn't be looked down on.

"Little brother, it is best if we do not act impetuous on this matter."

"Exactly, we know you were wronged, but it still isn't the right time to make a big fuss."

Some people advised against this, but they acted carefully. No matter what, Imperial Pass didn't permit disorder, no sides tolerated it.

However, everyone knew that Wang Family definitely had to bleed for this, or else this matter most likely wouldn't end. At the very least, Meng Tianzheng wouldn't agree.

"Wang Family has gone too far, trying to harm me again and again, if this continues, sooner or later, I will be killed by them. Why can't they be punished severely?!" Shi Hao said furiously.

He expressed his intentions here. He needed an explanation for this, even more so needing a guarantee, or else this type of hidden danger couldn't be defended against effectively.

"Correct, Wang Family is too shameless, taking action again and again. In my opinion, they should just be directly wiped out, completely razed to the ground!" Cao Yusheng nodded. He was already standing on Shi Hao's side, long opposing Wang Family, so he didn't fear offending them.

"Wang Family's five dragons, the reason they came to Imperial Pass wasn't because they really wanted to provide reinforcements, but because they made a grave mistake! It was because they wanted to kill Huang that they were banished here. Now, they made another mistake, so they have to be punished severely!" The Lunar Jade Rabbit and Heavenly Horned Ant both criticized harshly.

"Wang Family bullies others too intolerably, trying to harm me again and again. Fellow daoists, do you all really think this clan will become a cornerstone of power against the enemies outside Imperial Pass? They are wielding their halberds against their own, this type of family will only make others feel fear. If something extreme happens at the crucial moment, then it would be a great disaster!" Shi Hao said with a serious expression.

He didn't fear stirring things bigger. He behaved in such an ostentatious manner precisely to badly burn Wang Family from head to toe, only this could make others bleed, grant himself more benefits.

He didn't hope for this instance to completely uproot the clan, that wasn't realistic.

"How daring! A younger generation like you dares humiliate my Wang Family, what proof do you have? Moreover, you killed my clansmen without any cause or reason, killing an elder, we still didn't settle things with you, yet you are already trying to start a fight? I cannot stand letting you live!"

In the distance, someone shouted loudly, standing at the horizon, clouds surging, primal chaos rising. This was clearly an extremely great expert!

He didn't truly dare come over, after all, Meng Tianzheng was precisely here, only wishing to refute Shi Hao's words, express a type of angered attitude.

When Shi Hao heard this, his brows immediately stood on end. He was almost harmed, yet the other person was blaming him instead.

“Do you all still want any face?” Shi Hao shouted.

“Truly shameless, already doing this type of thing, yet you all still want to make a false countercharge!” Cao Yusheng shouted.

“Unbridled, how can Wang Family be something you all can humiliate and slander?!” On the other side, someone shouted.

In reality, Wang Family really was angry. Even though they were the ones who harmed Shi Hao, in the end, Shi Hao didn’t die, but instead obtained natural luck.

Regardless of whether it was the Lightning Pool or the mysterious light, they both made Wang Family’s eyes red. They helped the other party accomplish his aim for no reason, and not obtaining this for themselves. This made them vexed and resentful.

What made them the most angry was that the Lightning Spirits were actually lost, not nurtured under them anymore. This was one of the greatest trump cards of their clan, if they were properly raised, they would definitely become three unmatched war gods.

Unfortunately, after failing to harm Huang, he collected them instead, becoming his weapons. In the future, they will most likely be used to deal with Wang Family, so how could they not feel resentment?

Of course, all of this was from their perspective, they didn’t consider that this was all because they were targeting Shi Hao.

“All of you are becoming more and more unreasonable. Just who is being unbridled?” Great Elder Meng Tianzheng spoke up, face becoming cold. Moreover, he reached out a large hand, grabbing towards the horizon.

“Ah, no!” There were three people in total. They turned around to run, frightened to the point where their souls were shaking.

Who was Meng Tianzheng? He was someone at the same level as Immortal Wang, unmatched under the sky, who could oppose him?

They stood in the distance, not having any intention of taking action. They never expected that after just ‘refuting’ a few sentences, they would trigger Great Elder’s severe discontent.

A great hand covered the sky. There were many people in Imperial Pass whose breathing even stopped, enveloped within a constrained pressure. Large amounts of experts fell weak onto the ground, trembling in fear.

When Great Elder took action, no one could stop him.

It was unknown just how many cultivators shivered in fear. In the end, they fell, unable to move on their own at all. They were shaking down to their soul.

Pu!

The three were covered by that large hand, the bones within their bodies making pipa sounds, completely shattering.

This was still the result of Great Elder showing mercy, otherwise, with just a bit of might, even if it didn't completely make contact, they would explode into blasts of bloody mist.

"Detain them in death prisons, leave them behind to kill enemies on the battlefield later to atone for their crimes!" Great Elder ordered. There was immediately someone who rushed over, bringing the three of them to prison.

"Meng Tianzheng, you bully others intolerably!" In the distance, someone released a low roar. It came from the building Wang Family came from. Even though there was endless distance separating them, the voice was still transmitted over.

"Bully others intolerably? Even you all have the nerve to say this? This is the perfect time to settle things!" Great Elder Meng Tianzheng's expression was serious.

Great Elder personally saw Shi Hao walk the 'body as a seed path', step out on his own great path. He had to bring back justice in his place no matter what.

Hong!

A great hand moved through the sky. Great Elder took action in front of everyone, that hand covering the sky and sun, crushing the sky dome, grabbing towards Wang Family.

Peng!

Along the way, a few figures dropped to the ground, erupting with a bloody radiance.

"Dao brother, please cease your anger!" Right at this time, an aged voice sounded from the ancestral altar. Moreover, a five-colored streak of divine light extended all the way here.

There was an ancient war chariot on the five-colored divine great path, pulled by ancient beasts, operated by two attendants. When they arrived, they hurriedly got off, extremely respectful to Great Elder, carrying out a great act of courtesy, inviting him onto the chariot.

"Dao brother, let us please have a chat, I will definitely satisfy brother, please do not take action." This voice of urging sounded from the ancestral altar's direction.

"Fine, I will give you face first." Meng Tianzheng said. He got on the war chariot, quickly disappearing along the five-colored divine light path.

Before leaving, he returned the Lightning Pool to Shi Hao, moreover telling him that he already applied seals, so there was no need to worry about that streak of light escaping.

Inside this Imperial Pass, one didn't really have to worry about others stealing things, however.

After things developed like this, a storm temporarily calmed.

Many people knew that this matter wouldn't end without Wang Family bleeding greatly.

When Great Elder left, everyone released a breath of relief. Otherwise, it was as if a mountain was crushing down, making everyone tremble with fear.

Moreover, this was still the result of Great Elder restraining his might. If he let it spread as it pleased, everyone would be crawling on the ground, their bodies shaking uncontrollably.

Supreme Being level, their strength was high up above, unimaginable.

Right now, it wasn't just a group of elders who were lively, rushing over together, even Cao Yusheng, Lunar Jade Rabbit and others all cried out, throwing themselves towards Shi Hao.

"Let me see, just what kind of thing is this Lightning Pool?!" The Heavenly Horned Ant also shouted.

A group of people surrounded Shi Hao, wishing to be the first to examine the Lightning Pool.

Dang!

An elder was impatient, ignorantly striking the Lightning Pool, really wishing to break off a piece. However, in the end, his arm became numb, the space between his thumb and forefinger even splitting apart, but the Lightning Pool still didn't break.

Moreover, because of this, a powerful streak of lightning radiance was triggered, burning his entire body black, hair standing on end, leaving him in a sorry state.

The old man wiped at the black ashes covering his face, but he didn't get upset, instead chuckling and saying, "This thing really is heaven-defying, let me research it a bit more!"

At this time, Shi Hao was also striking it, carefully studying it. Just what was going on with this thing? Was it really carved from a type of rock? It really was ancient looking.

"Wait, why do I feel like there's something swimming inside the pool?" Suddenly, an elder cried out strangely.

He had Shi Hao hold the Lightning Pool without moving, maintain that position just like that. He carefully looked inside the pool. Aside from the sparkling Lightning Tribulation Liquid, he seemed to have seen something.

"Yi, there really seem to be living creatures inside!" Someone else said with a stupefied expression.

"It seems to have come from the Lightning Pool walls, a living thing. Heavens, I seem to have seen several True Dragons swimming inside!" Someone cried out in alarm.

"Hey hey hey, seniors, move out of the way, don't crowd around like this, let us take a look too!" Cao Yusheng shouted.

"I will invite everyone to drink a cup of divine wine -- Lightning Tribulation Liquid. Let's sit down and slowly research." Shi Hao endured his shock, speaking out like this.

Chapter 1426 - Three Dragons

"Really? You are inviting us to drink a cup of Lightning Tribulation Liquid?" The youngsters felt like their throats were becoming dry, their voices even shaking a bit.

Lightning Tribulation Liquid, what was this? It was too rare in this world, who could bring out something like this for everyone to share?

“Correct, however, there’s too many people here, most likely cannot give everyone a cup. I can only put some into fine wine, let everyone have a taste.” Shi Hao said.

It was because he saw that even though the ones invited were all the best young experts, the number of people still wasn’t small. There was only a small pool of Lightning Tribulation Liquid too, so if he truly gave everyone a cup, then there wouldn’t be much left.

Even though he went for broke, retaining the entire Lightning Pool, the Lightning Pool this time was too small, only a square foot in size.

When they heard a decisive reply, this place erupted with noise, triggering a huge commotion!

It was because Lightning Tribulation Liquid was too precious, even if one searched the entire Nine Heavens Ten Earths, not many people drank it before. In this great era, heavenly tribulation no longer appeared. If one forcefully triggered it, the difficulty would increase several times. This would simply be a path of death.

In the present world, not many people dared to trigger heavenly tribulation.

Thus, Lightning Tribulation Liquid was doomed to become one of the rarest things of this world, even the inheritors of the most powerful sects and divine children not tasting it before.

This was especially the case when they thought about how the tribulation Huang experienced was the most powerful Void Dao Realm heavenly tribulation in all of history, making them feel even more moved. The corresponding Lightning Tribulation Liquid quality was definitely ridiculously good.

“I really can’t wait! Really wish to experience just what kind of flavor Lightning Tribulation Liquid has. Invite brother Huang to the seat of honor, hurry, hurry!” A few youngsters who were fond of wine urged, every one of them beaming with joy. It was to the extent where they even forgot about the matters of there being creatures in the Lightning Pool, not immediately surrounding and examining it.

There were wine-lovers among the elders as well, some not showing anything, truly finding it too embarrassing to fight over alcohol with youngsters. However, there were some elders who were thick skinned and black-hearted, pompous, asking Shi Hao for wine to drink.

“Child, I am also quite young, my heart forever remaining at eighteen years of age, still surging with vitality!” This was what an elder with skin just as thick as Shi Hao’s said.

“Haha...” Everyone laughed.

Shi Hao didn’t touch the sealed Lightning Pool, instead producing a bone cauldron. Previously, he was scared that he might not be able to obtain the Lightning Pool, which was why he used this cauldron to collect a small half of the Lightning Tribulation Liquid.

He poured a cup for himself, and then drank it. He immediately revealed a shocked expression, feeling a wave of warmth surging through him. His entire body was surging with heat, his blood boiling because of this.

This Lightning Tribulation Liquid was too exceptional. Shi Hao was extremely shocked, this exceeded all Lightning Tribulation Liquid he obtained before.

This wasn't only because his cultivation realm increased that the quality of the precious liquid, it was also because the tribulation this time was extraordinary, and that was why it was so different.

Immediately afterwards, everyone saw Shi Hao's damaged body shine, his injuries that cut into his bone, cracking outer surface, even the bloody hole on his chest started to heal.

At the same time, his mouth, nose, eyes, ears, all seven apertures were releasing multicolored light, impossible to suppress. The essence light was too brilliant, rushing out.

Everyone was stupefied, and then they became happy.

"Too strong, this Lightning Tribulation Liquid is even more precious than what I imagined, even Huang's injuries that were that severe were able to instantly heal, this is a rare great medicine after all!"

Things that could be called great medicines were too rare in this world. This was a type of extremely high praise.

After Shi Hao understood how much essence the Lightning Tribulation Liquid carried, he walked into the place of gathering, entering the ancient palace, personally pouring a bit into every cup, and then filled it with some fine wine.

This place immediately flowed with brilliant colors, the entire great palace becoming divine, surrounded in faint essence energy, as well as medicinal liquid and wine fragrances.

"Dao brothers, I do not wish to say too much. In the future, we will fight shoulder to shoulder outside Imperial Pass, fight the enemy while drenched in blood. I invite everyone to drink!" Shi Hao said.

Many people raised their cups, first taking a whiff. They felt extremely reluctant. This was good stuff that could save their lives, drinking it like this was a bit too extravagant, right?

"Just drink it, have a taste, this is but the most fundamental vital life power, it will be good even if you drink it first. It will be stored in the flesh, and then when your life force becomes stronger, when you encounter some life-threatening danger, it can help you resolve some distress at the source." An elder said.

Heavenly tribulation represented destruction, while this type of liquid was born in destruction, the rarest type of thing, representing new life.

"Excellent wine, the taste wonderful!" Cao Yusheng was the first to drink it, a rich aftertaste left behind. He naturally wasn't worried whether or not he would be able to drink it later, instead still waiting to drink more in private with Shi Hao later.

When the crowd saw this, they all raised their cups, but after only drinking a single mouthful, just having a taste, they were all shocked. It was because all of their pores shone, as if they ate a stalk of divine medicine, multicolored light surging.

"Haha... this is excellent wine. With wine, there naturally must be dishes. I have several dozen half divine fruits here, everyone can have a taste." Tuogu Yulong said.

"This old one won't take advantage of you all, I'll let you all try some foreign creatures' dried meat, the taste really is extremely fine!" An elder spoke up.

Shi Hao was moved. He produced a few shining creatures, all of them extremely rare, not belonging to this world.

The crowd immediately cried out in alarm, because these were foreign king races, their bloodline strength powerful.

"Could this be the ten kings brother Huang killed in Great Scarlet Sky Border?"

"Correct!" Shi Hao nodded.

Everyone's eyes burned with desire, even the owner of the Five Spirits War Chariot Qi Hong laughed, saying, "Even though I've eaten foreign king races before, it was definitely not this much. Today, I can eat my fill!"

He was the disciple of an immortal dao family in Imperial Pass. The family previously hunted high level king races from the other side, at that time stirring up a great commotion. He also had the fortune of having a taste before.

The atmosphere immediately became lively, everyone was happy and excited, because they were going to eat king races from the other side. It made their blood boil, difficult for them to calm down.

"Eat as much meat as you want, drink large bowls of wine, in the future, we will kill enemies on the battlefield!"

"I'll also present my treasures. I stole two of the three Octadic Treasure Chickens my grandfather has been secretly raising!" A youngster said while laughing. He came from an ancient family in Imperial Pass.

"Stinky brat, you dare?!" Who would have known that the elder from his clan was precisely in the crowd, studying the Lightning Pool with a group of elders, his true nature revealed.

"Then I'll just steal one..." The youngster said quietly, lacking in confidence.

Haha...

Everyone roared with laughter.

This place immediately became relaxed and lively.

Soon afterwards, someone produced a dao flame, starting to roast the king races' shining meat. There were some that were golden with oil, some snow-white like jade, all of them releasing special fragrances.

The heavy atmosphere of the previous battle was gone without a trace. Everyone talked cheerfully, joking together. They sat in the palace, pushing cups and exchanging cups, enjoying good food.

Shi Hao released a light sigh. It was unknown how much longer this type of light-hearted joyous times in Imperial Pass could continue for. Was it a few months, a few years, or perhaps a hundred years? Outside Imperial Pass, blood would inevitably flow like rivers, corpses piled up like mountains. He didn't know if there would be people long killed in battle when they gathered again.

It was clear that when they gathered again in a decade, a large half of them would have already died.
n..OvelbIn

This was a reality that couldn't be changed!

"Little dao friend, this thing really is formidable, defying the heavens. It'll likely topple all knowledge! In my opinion, we might have to offer it up to the ancestral altar for those great ones to take a look.

This was a group of elders, some of them not even bothering to drink Lightning Tribulation Liquid, always researching the Lightning Pool. Right now, some of them finally reached a conclusion, their expressions serious when they raised their heads.

After they researched this, they felt a deep sense of shock.

"There seem to be three dragons inside!" Someone said with a trembling voice.

"What?" The group of youngsters drank until they were a bit intoxicated, but they were still roused awake. They all trembled, three dragons?

"The Lightning Pool being made of true ancient rock is already something that topples general knowledge, but there seem to be three young True Dragons inside as well, swimming in the liquid, we... are really stupefied!" An elder said things as they were.

They really were a bit dumbstruck, completely stupefied. After carefully observing and seriously analyzing it, they were sure that wisps of draconic might were flowing out. There were three creatures swimming about inside the Lightning Pool's liquid, appearing and disappearing, leaving everyone shocked.

They were exactly the same as True Dragons, no difference at all.

"What are you talking about? True Dragons? Hand it over, let me give them a beating!" The golden little Heavenly Horned Ant spoke while drunk. Its clan always competed against True Dragons, desiring the position of number one clan.

Shi Hao watched for a really long time. This Lightning Pool really was special. It wasn't that big, but when one looked inside, it was as if it was extremely deep, like an abyss.

Even if one opened their Heavenly Eyes, they still couldn't completely see through it.

The bottom of the pool looked like an abyss. One could vaguely see three young dragons chasing each other, swimming about, accompanied by lightning radiance and strong winds, truly shocking.

"I really am starting to suspect what kind of origins the True Dragon Race have!" An elder said.

"Is your distinguished self really sure that you aren't mistaken, that those are... three True Dragons?!"

A youngster asked with a quiet voice.

If this really was proven to be the case, then it would definitely be world shattering. Three True Dragons appeared at once, this really was terrifying! Huang really was going to shatter the heavens!

There was actually this type of heaven-defying thing that happened after he seized this Lightning Pool!

Chapter 1427 - Strange Object

“How about we fish one up and cook it?” The Heavenly Horned Ant muttered, completely drunk.

However, Shi Hao really was moved. He had eaten almost everything, just haven’t eaten dragon meat, and there had never been a chance to do so before either.

Now, he had the opportunity, moreover likely three of them in the Lightning Pool!

Of course, he could only think about such a thing, he knew that it wasn’t realistic. If he truly dared eat dragon meat, perhaps the group of elders in Imperial Pass would eat him first.

True Dragon, this was a type of unmatched fighting strength, ranked first among the Vicious Ten. If there really were heirs left behind, they would definitely be carefully protected and nurtured with everything they had.

At the same time, there was a seal on the Lightning Pool applied by Great Elder, perhaps he had long discovered something, fearing that others would act recklessly.

Now, it was impossible to fish up a dragon even if they wanted to!

At this moment, everyone felt a feeling of absurdity. These were but dragons, known to be high up above, True Dragons with unmatched fighting strength, yet they actually had a chance to be fished out! They were precisely inside a stone pool!

Everyone looked at Shi Hao strangely. Just how freakish was this fella? He stole a Lightning Pool from heavenly tribulation, and in the end, he seized three dragonlings?

In that instant, everyone was quite speechless, but they could only scream inside. Huang really is a freak!

The Lightning Pool really was too rare and special, making everyone rush up and examine it. They all wanted to see a True Dragon as well, all of them extremely curious, even more so shocked.

Eventually, everyone rushed up, all of them giving the Lightning Pool a look. None of them could confirm if this was a True Dragon nest or not.

A world within a mustard seed, this wasn’t much, the True Dragon could naturally do it. Even though the Lightning Pool was small, who could say for sure that it couldn’t store a world inside?

Soon afterwards, the Lightning Pool became the focal point of conversation. Only, no matter how they discussed things, they couldn’t come to a result.

Everyone felt that it should be given to a Supreme Being like Meng Tianzheng to examine. Someone of his level should be able to understand the truth.

“Wu, that light beam is acting quite obediently.” Shi Hao’s focal point was different from the others, he was still looking at the streak of light inside the Lightning Pool.

After calming down, it became a dark red color, not moving at all. It rested there just like that, the same color as the immortal killing guillotine. It was extremely sinister and terrifying, making him shiver inwardly.

Shi Hao was thinking to himself, just how he was going to make use of this mysterious divine radiance. Should he refine it into a weapon, or should he merge it into his flesh, smelt it together?

He still felt like nothing external truly belonged to himself, weapons didn't make him feel as at ease as himself. He began to think to himself how he was going to refine this streak of divine radiance into his body.

If a portion of his body had this dark red streak of light's power, then that would be unimaginable!

After half a day of discussions, this place was finally no longer as noisy. Everyone's mouths finally felt a bit dry, calming down, the matters regarding the Lightning Pool could only be left to supreme beings.

In the end, this gathering belonged to the younger generation. Shi Hao had heard rumors before he even came, stating that there were invitations sent even into the restricted regions of the Nine Heavens. It was 'interrupted' because of his own tribulation crossing.

When the group of elders took their leave, the gathering gradually returned to the true subject.

"We truly gained knowledge and experience today, brother Huang is too heaven-defying, actually able to seize even the Lightning Pool. Only admiration can describe what we feel." Someone said with a sigh.

"Speaking of unknown goods, this time, I also brought a strange object that came from the other side. I originally brought it to show it to everyone in this gathering, see if you all can see what exactly it is. Only, previously, brother Huang seized all of the spotlight, so it didn't seem right to bring it out." The owner of the Five Spirits War Chariot said.

This event originally belonged to the younger generation, for them to discuss the dao. There were even people who brought strange divine objects, news of this going around even before the gathering started.

"Oh? Just what kind of strange thing is it, for even brother Qi to attach so much importance to it?" Someone asked.

Even Ten Crown King, Exiled Immortal, Shi Yi, Great Xu Tuo, Little Sky King, Tuogu Yulong, and other long life families felt rather surprised, looking in his direction.

Thus, the Lightning Pool disturbance came to an end, the gathering returning to normal.

"This is something an old ancestor from the ancestral altar obtained after taking action outside the pass, fighting a bloody battle with the enemy." Qi Hong said.

When everyone heard this, they all sucked in a cold breath of air.

The old ancestor he spoke of was currently by the ancestral altar, naturally one of the supreme beings. There were some unmatched beings who had secluded themselves there the entire time.

Everyone would always think that they didn't appear in the world, but in reality, they still went out of the pass in secret to protect great armies. When needed, they would face the matchless figures of the other side!

Qi Hong's Five Spirits War Chariot belonged to an unmatched being. He could be considered the inheritor of a supreme being, even though there was no master and disciple title, there were teachings imparted onto him.

For him to be able to obtain something from an unmatched being was naturally not at all surprising.

"What exactly is it?"

When everyone saw him seriously open up a stone case, they all revealed shocked expressions, because resplendent divine multicolored light bloomed. It was too shocking, like a small sun.

This thing could actually float in midair, not fall, light as if it had no weight.

What was this? Everyone was shocked, the light it released was too resplendent, difficult for one to look directly at it.

A few people activated their Heavenly Eyes, narrowing their eyes as they stared at it. It was a golden color, as if the most dazzling gold was burning, shining, mysterious and rare.

Moreover, a wave of powerful essence energy was leaked from it, full of vitality, giving many people an extremely comfortable feeling.

It was clear that it couldn't be compared to Lightning Tribulation Liquid, but it definitely exceeded normal spiritual goods. The life energy was too pure, making one feel a wave of alarm.

There were some who touched it with their hands. It was extremely gentle like jade, sparkling and translucent.

This was what the master of the Five Spirits War Chariot, Qi Hong, brought.

It was light as if nothing was there, able to float, endless life essence energy released from it. This was a gemstone that was extremely rare.

"It isn't like the legendary Life Stone from Origin Ancient Mine, definitely not able to compare to it, but this thing is also extremely rare, shockingly precious." Someone commented.

"This thing is naturally astonishing, if a small piece is removed, it can be directly absorbed into the body and refined into the purest essence energy, allowing one's cultivation to obtain twice the results with half the effort." Qi Hong said.

Many people frowned when they heard this. This was definitely not good, because it was brought back from outside the pass, belonging to the other side.

"If the other side is able to excavate this in large amounts, wouldn't their cultivation speed far surpass ours?" Someone directly stated the issue.

"There are still more things that are more frightening than this!" Qi Hong said. nDve/lb-In

His master was a present world supreme being, what he obtained wasn't only a few pieces of strange stone like this, there was also a jade cauldron, within it a bit of liquid.

“That light golden liquid is even more terrifying, within it long life qualities, should be from the same source as this type of stone, only, it is liquid, not solidified yet.” Qi Hong said.

“What... kind of uses does it have? Can it be ingested?” Someone asked.

“It can, but what is shocking is that its greatest use is for sealing!” Qi Hong said.

That unmatched being inside the ancestral altar had previously thrown an ordinary ant into this golden liquid, and then when the golden liquid condensed into rock, the ant was naturally forever sealed within.

However, they could clearly sense that the ant still didn’t die!

After ten thousand generations passed, it was still like this. Later, when that supreme being opened up the stone, the ant was still alive, no different from when it was still alive back then before it was sealed.

Everyone was shocked. This thing happened a long time ago, that supreme being must’ve collected the wondrous stone and mysterious liquid many years ago.

“Do the other seniors know about this?” Someone asked.

“Of course, the higher level figures already discussed things a long time ago, moreover have always been researching. They previously even caught a foreign creature to interrogate them.” Qi Hong said.

It could ensure that something remained inextinguishable, sealed for eternity, this type of liquid was too formidable, uses too astonishing. The more they thought about it, the more they felt that this might change the situation of the world.

“How was this type of thing discovered in the foreign side? Or is it to say that they always had it, that it is the source of their strength?” Someone asked.

With this type of matter, forget about the liquid, just the condensed wondrous stone was enough to speed up one’s cultivation speed. The energy stored within was just too pure.

“After interrogating the foreign creatures, only powerful King Clans knew a bit. One of them said that this was something discovered in the most recent tens of thousands of years, excavated from a mine. There was another who said that this was heaven and earth source, always existing. There is also a terrifying saying...”

When Qi Hong reached the last type of terrifying saying, his expression became a bit ugly.

Everyone urged him to speak.

“Anlan, Shutuo, and others had previously excavated an ancient burial ground, seeing what was suspected to be recordings that belonged to an undying emperor, a cultivation realm that exceeded theirs!”

This was precisely the reason why after endless time, Anlan, Shutuo, and others had always been searching, researching, wishing to understand whether that type of supreme creature existed or not.

According to the foreign captive, it was precisely because Shutuo was researching the secrets of the ancient supreme individuals that this type of strange stone was discovered, terrifying ancient burial sites continuously excavated, unexpectedly discovering this type of thing.

When everyone heard this, they all became stupefied. At the same time, they were extremely shocked.

This type of wondrous stone was discovered after excavating ancient burial regions because Shutuo and Anlan, that level of existence, were searching for something?

There were just too many dangers related to ancient burial regions, not even undying beings daring to rashly step foot inside, because there were too many dangers and secrets buried underneath!

“Dao brothers, in the future, outside the pass, on the battlefield against the other side, when you see this type of thing, you definitely have to be mindful. They might have great uses!” Qi Hong said.

They all began to discuss among themselves, everyone unable to calm down!

Only after a long time had passed did something Tuogu Yulong brought out shift everyone’s attention. It was a damaged map that was made from some type of beast skin.

It was worn down and corroded by time. It had existed for too long, now in tatters, as if it would break apart even if it was blown by wind.

Tuogu Yulong was extremely careful, flattening it and arranging it on the table. “Everyone, this map is related to a great secret outside the pass, involving great natural luck!”

Everyone knew that outside Desolate Border, the world was boundless, that there was a Heavenly Beast Forest, Divine Medicine Mountain, Sea of Loss, immortal ancient lands, to the extent where there were ancient burial regions!

There was great natural luck in these places, these rumors were always passed around Imperial Pass.

Now, Tuogu Yulong produced a map, still related to outside the pass. According to what he said, this was obtained from the battlefield. Those from the other side previously held this diagram, searching for something.

This immediately triggered cries of alarm.

“It is precisely because of this diagram that I had people send invitations to those from the ancient restricted areas in the Nine Heavens, thus obtaining a response.” Tuogu Yulong said.

This time, everyone was shocked, and then erupted into commotion.

Chapter 1428 - Restricted Region Guest

One had to bear in mind that the mysterious restricted regions of the Nine Heavens above all remained taciturn. After hundreds of eras passed, Immortal Ancient disappearing, they no longer bothered with mortal affairs, not associating with the outside world at all!

They were cut off from the rest of the world, never leaving, just letting time slip away. Even after endless generations passed, eras buried one after another, they still remained completely deathly still.

However, everyone knew that there were definitely creatures inside the restricted areas. Those places were a restricted area that couldn't be set foot into, or else it would signify inevitable death!

After endless years passed, even though everyone knew that there were terrifying creatures inside, no one understood just what races there were inside, or how strong they were.

For those of the rest of the world, they were too mysterious, never coming into contact, as if they were people from two different worlds.

Today, when they heard Tuogu Yulong's introduction, how could they not be shocked? There really were invitations sent into the Nine Heavens' restricted regions, this was a major event!

"Will creatures come from those places, arrive in Imperial Pass?" A young cultivator asked, voice not that loud, but everyone paid close attention to this, as this was extremely important.

"There is a good chance. It is because they are quite interested in this diagram." Tuogu Yulong replied.

"Did you meet them in the restricted region? Just what kind of races are they?" Even Ten Crown King couldn't help but speak up, ask like this, attaching great importance to this matter.

"The ones who were sent out did not see them, only obtaining a response." Tuogu Yulong said.

This was already quite something. In the past, no matter how you offered sacrifice, prayed, or worshiped outside the restricted region, no creatures would appear, let alone anyone paying any attention.

Moreover, once you entered the restricted area, headed into its depths, there might be a great disaster at any time, danger of being ruthlessly killed!

This time, the messenger not only entered safely, he even obtained a response. This was already extremely rare, expressing a type of attitude from the creatures in the restricted region.

The beast skin unfolded, everyone surrounding and examining it carefully. Even though this thing was unbearably tattered, the mountains, rivers and paths could still be differentiated.

As soon as they saw it, everyone's minds sunk. This place was definitely dangerous, not easy to approach.

"It is between the Heavenly Beast Forest, ancient burial region, and divine medicine vein, isn't it surrounded? How are we even supposed to enter? This is simply inevitable death!" Someone said with a sigh.

What was the difference between this and a restricted region? Entering rashly would simply result in dying without a burial site.

"No, everyone, look, it can be entered through these places, it isn't completely enclosed." Tuogu Yulong pointed out.

"However, there is a piece of the destination missing. I feel like there are some crucial contents missing, not being marked out." Someone said.

It was because everyone saw that the damage was at an extremely crucial point, likely a danger marking. Even now, they could see half a black skull left.

This meant extreme danger!

This half black skull was extremely frightening!

Everyone felt like there was additional annotations there, that there should be some type of description, but it was now gone.

Moreover, the area that was missing wasn't that small, likely having other danger markings.

Of course, the most crucial thing was that on this beast skin map, there were many arrowhead markings, moreover extremely concentrated around the beast skin's damaged areas, just that they were suddenly cut off.

"Are you kidding me? There are so many markings missing, it'll be really dangerous! I feel like that is the safe path diagram."

"Something's not quite right. Look, why are there a few scattered arrows pointing at the Heavenly Beast Forest, ancient burial region, divine medicine mountain range, connecting them together as well?"

Everyone also stared at this, carefully studying it, memorizing the markings on the ancient beast skin.

"The people above have researched it for a long time, moreover previously sending out experts to search about, but they all disappeared forever, never returning." Tuogu Yulong said.

This made everyone suck in a breath of cold air. After the higher level figures' research, the people they sent out would definitely be experts, yet they all went missing. This was definitely not normal, making them feel fear.

They were still young, even if their potential was great enough, it didn't mean that they were suitable for heading out right now.

"Do we really know nothing about the destination?" Someone asked. n..OvelbIn

"We do not know. This beast skin diagram's damage is too serious, there are no records or descriptions regarding the central crucial area." Tuogu Yulong said.

Everyone knew without thinking too deeply that this diagram was extremely important, or else why would the other side attach this much importance to it, send out a group of mysterious people to search for it? If it wasn't because something unexpected happened, accidentally running into Imperial Pass' experts, they really wouldn't have even known about this matter.

"En? What happened?"

Suddenly, everyone felt a wave of disorder from the distance. There were people approaching this place. Many people were discussing, shouting something.

This was an island in Jedefall Lake, only those with invitations could come. Meanwhile, there were many youngsters on shore who didn't have the qualifications to get on the island, only able to watch from the distance.

It was precisely them who raised a disturbance.

“It’s... someone came from the restricted region!” Someone cried out, entering the palace and delivering a message, leaving all of the young heroes here shocked, every one of them standing up.

There were actually people who came from the restricted region! This was just too shocking.

They even came while holding special invitations, and that was why they could enter Imperial Pass, head straight here.

“Were there only creatures from a single restricted region?”

“Yes!”

Despite this being the case, it still left everyone shocked, many people walking out of the palace and looking into the distance, first as a type of welcome, but also because they really wanted to see just what the guests from the restricted region were like.

After all these years, everyone wanted to know just what kind of race it was who could cut their territories off from the rest of the world.

On Jadenfall Lake, there were creatures who arrived from the distance, treading on water ripples, moving through pure white mists, approaching the island. They were incredibly calm and aloof, everyone paying close attention nervously.

Finally, they saw them.

Momentarily, no one could open their mouths, only staring in that direction.

They were all speechless, finding it difficult to express their mood.

It was because they were completely different from the restricted region guests they had imagined.

In everyone’s knowledge, the creatures of the restricted region were either heroic and extraordinary or sinister and terrifying, extremely unusual, yet when they saw this creature before them, they didn’t know what to say.

It wasn’t a heroic deity, nor was it a beautiful fairy, it was a rooster.

Moreover, it was an old rooster, one who was extremely large and tall, several zhang in height. Only, the feathers on its body had pretty much all fallen off, many places about to be bald.

Only that crest was still bright red like a flame.

Its wings were bare, flesh even visible, its body also in patches, some places having feathers, other places not, revealing its old chicken skin.

That was why everyone was speechless. This really toppled everything they knew. Was this the creature who came out from the restricted area, belonging to the ones who could intimidate the Nine Heavens Ten Earths?!

This rooster’s old eyes were muddled, its movements slow. This was precisely the reason why it still didn’t ascend onto the island even after the disturbance continued for such a long time.

“What a large chicken, living from the past until now, it definitely has endless heaven and earth essence. If it is stewed and made into golden chicken casserole, the taste definitely won’t be bad!” Shi Hao said to Cao Yusheng.

Of course, this was done with divine will. Otherwise, everyone in the surroundings would be completely terrified. This was too disgraceful, who dared offend the creatures of a restricted region?

“Senior must forgive us for not coming out to meet you.” Tuogu Yulong said. He was the one who sent out the invitation, which was why he was extremely polite.

However, the old chicken didn’t express anything, doddering, still just that slow, putting on great airs.

“Senior!” Tuogu Yulong called out loudly.

At the same time, the owner of the Five Spirits War Chariot Qi Hong also spoke up, helping Tuogu Yulong neutralize the awkwardness.

Even if the restricted regions were extraordinary, high up above, they still shouldn’t act this arrogantly. It already entered Imperial Pass, coming for the ancient beast diagram, needing something from another, so acting like this really was a bit inexcusable.

Cough!

Right at this time, a cough sounded. It didn’t come from the rooster, but rather from its back.

From there, an elder made his way out from the sparse hair, still drowsy-eyed. “So we’ve arrived...”

He used Immortal Ancient language, the words from the last great era, completely different from this era’s!

However, soon afterwards, he changed his words, using the language of the present world. He looked at all the youngsters, and then with a faint smile, said, “Little brothers, do not feel estranged!”

“This mount of mine was affected by an illness from the battle in the past, all five senses pretty much disappearing, so the reason it didn’t hear you all wasn’t because it was putting on airs.” He further explained.

At the same time, he stood up on this unique mount, revealing his true body.

Everyone was stunned. They previously mistook the foreign guest, treating his mount as the main person. However, this person was quite strange as well.

This was an elder who was less than three foot in height, really quite short, like a child, extremely slim figured, and also old. His hair was a dried yellow like withered grass.

His face was covered in wrinkles, one could tell from a single look that his age was terrifyingly great. Only his eyes were still extraordinary, a golden color, no whites or pupils visible, as if they were two golden lamps

Such a short restricted region guest, less than three foot in height, hair yellow, eyes golden, just what kind of race was it?

Moreover, he actually rode on such a strange mount.

With a shua sound, the guest jumped off the old rooster, floating onto the ground.

Everyone noticed at this time that his left trouser leg was empty, just fluttering there, clearly missing a calf. This was even more shocking. At this level, the regeneration of broken limbs was but a simple task, so why was he missing a leg?

As if understanding what everyone was thinking, he first customarily spoke some Immortal Ancient language, and then changed again, using the present world language to say, "This was cut off by the enemy."

While speaking, he raised the trouser leg, revealing what was inside.

His left leg was cut at the knee. Moreover, what was terrifying was that there were still blue-colored blood traces, as if it might fall at any time, releasing glaring light.

The blue blood definitely didn't belong to a human, at the very least, he wasn't pure human, even if he was human shaped!

That injury was extremely smooth, as if cut by a sharp weapon. One could see broken bone, flesh, blood vessels, and other things, forming a smooth surface, the blood flowing precisely from there.

"Senior, did you encounter an enemy attack along the way?" Tuogu Yulong asked.

This injury was clearly new, still not healing.

"No, this was left behind from the battle that year, already over a million five hundred thousand years passed since then." The elder was a bit distracted, somewhat regretful, expression a bit blank. In the end, he shook his head.

However, in everyone's ears, it wasn't such a casual phrase, but rather like the sound of thunder, leaving everyone shaken.

Chapter 1429 - Restricted Region Son-In-Law

It was because by now, there weren't that many creatures who could live until a million years old, all those who could top level experts. Even though there was still undying matter in the present world, allowing the prolonging of longevity, it still wasn't without end.

Creatures all died one day, perhaps earlier, perhaps later. If they didn't achieve immortality, the day would always come when they died of old age.

Even if one became an unmatched supreme being, reaching the level of Immortal Wang, Meng Tianzheng, and the few others like this, their vitality would still dry up eventually, enter the final stage of their lives.

This elder was less than three feet tall, but he was definitely an extremely powerful expert, actually living longer than a million five hundred thousand years!

Moreover, the most important thing was that his injury actually didn't heal after all these years, still there, preventing his severed limb from healing, this even more terrifying.

It was clear that the one who wounded him possessed matchless divine force. Once an enemy was wounded, then it would be a bit difficult to struggle free from them.

It was clear that the cultivation of the one who injured the elder was far greater than his, and that was why the injury still couldn't recover. Even after a million five hundred thousand years passed, it still bled.

"Senior, is there no way to heal this injury?" Great Xu Tuo asked.

"Ancient monk inheritor." The elder gave Great Xu Tuo a look, evaluating like this, seeing through him with a single look. One could see how sharp his eyes were.

"There are some who are too strong, as long as he still lives, his influence will be boundless. It is too difficult for me to heal from this injury myself." The elder replied calmly.

Everyone sucked in a breath of cold air. The one who injured him was still in this world, just how strong was he now?

"My master has a way to help me bring it under permanent control, but he advised that it is best if I can live a second life myself, that I will obtain the greatest benefits that way. Unfortunately, this old one is slow-witted, already in my late years, but still unable to experience nirvana and rebirth, sigh!" he released a light sigh, carrying melancholy and unwillingness.

"Since I am going to die anyway, without much life left, this injury can just stay the way it is, treat it as a type of glorious scar. It will accompany me in death, after all, it was left by that existence." The elder said.

Everyone became a bit speechless, even a wound could be considered a glorious scar, showed off?

If one thought about it carefully, this was definitely extremely terrifying. One could see just how extraordinary that existence was, even the wound left by an enemy could be treated as glory, truly freakishly strong.

"Haha, this old one doesn't have the qualifications to be his opponent, just that after just a casual move in the chaotic army, my calf disappeared, even my master feels endless restraining fear towards that existence." The elder explained further.

Towards this, what could everyone say? If even a lord of one of the Nine Heavens' restricted regions was like this, feeling such misgivings towards a creature, just how strong was he?

"Originally, a small lord was going to come from the restricted region, but he just happened to have to face tribulation. A world-shocking great tribulation was about to descend, so it wasn't good to move. As such, this old one could only come in his place." The elder said.

When they heard this, everyone revealed strange expressions, because Huang just finished a great tribulation, one that was truly world-shaking, shocking past and present!

"Sigh, after seeing all of you filled with youthfulness, and then thinking about my young lord, this old one truly is envious. If I could redo my life, reverse time, just how great would that be!" The elder said with a sigh.

Everyone revealed strange expressions. This was clearly a guest from a restricted region, yet he didn't put on any airs, chatting in an easygoing manner with everyone. It really was a bit inconceivable.

It was because in everyone's impressions, the restricted regions were all terrifying places that were more frightening than anywhere else. Once one recklessly barged in, it would be difficult for them to live, they would be killed.

The elder before them was too amiable, not acting arrogantly at all.

Everyone invited the elder onto the island, walking towards the ancient palace. Along the way, the elder's nose moved, becoming extremely shocked, saying, "I can sense the smell of heavenly tribulation, the aura after the calamity."

Everyone immediately revealed strange expressions, telling him that someone just completed crossing tribulation.

"This lightning tribulation isn't small, seemingly extremely shocking!" The elder narrowed his eyes, scanning the crowd, wishing to see just who it was.

Shi Hao didn't say anything, following in the back.

"Senior, have you heard of lightning tribulation producing material objects before?" Someone couldn't help but ask. After all, the elder came from the restricted region, so they wanted to learn about more things from him.

"I have heard of such things before. Lightning tribulation has unmatched treasures! It will all depend on whether or not you can obtain them." The elder was all smiles.

"What?!" The youngsters immediately cried out in alarm, all of them greatly shaken.

The creatures who came from the restricted region weren't ordinary after all, just a random question producing this type of reply. They knew more than the outside world.

"Could you tell us just what kind of things there are?" Someone asked a step further.

"With this old one's level, it is impossible to step foot into that monstrous domain. Actually, just how many creatures from past until now are able to step foot into that level?" The elder said with a smile.

He further explained, telling them what he knew. "My lord should know some mysteries, but I never asked before, because I understand myself. Only, I would occasionally hear that when one crosses tribulation, they have been struck by divine stone that immediately turned into liquid. After almost dying in the process, that person lived, and that divine stone was actually an extremely rare material, later refined by him into an unmatched supreme treasure."

This left everyone stupefied, all of them feeling that this was inconceivable. A rock would fall during lightning tribulation, even more dangerous than lightning, smashing straight into a powerful individual, almost killing him? It was too strange!

However, when they thought about Shi Hao's experience, they all felt that Shi Hao was even more strange, able to forcefully seize the Lightning Pool in the great tribulation! There was nothing more absurd than this.

Everyone felt like Shi Hao might be the only one of his kind from past until now!

They didn't continue this topic, because they saw that Shi Hao remained silent, so they didn't want to expose him. They didn't know what he was thinking.

"Seniors, what kind of origins does the restricted region have, what era was it founded in?" A young lady from Wei Family's Four Phoenixes spoke.

It was because she saw that this elder was all smiles, friendly, not feeling any danger. That was why they took this opportunity to consult him for guidance, wishing to understand this great mystery.

"This old one does not know either, I cannot say." He shook his head, extremely resolute and decisive.

There were clearly some things he could talk about, but some things that he couldn't, this was a type of attitude!

"Senior, since ancient times, the creatures that have accidentally entered the restricted regions have all disappeared, not returning alive, some of them including exceptional individuals, they... are they still in the restricted region?" The master of the Five Spirits War Chariot asked.

"They are dead, body and souls long extinguished." The elder was still all smiles.

At this moment, everyone couldn't help but feel a wave of chilliness. Previously, they definitely had a misconception, mistaking this elder for being friendly, amiable. The creatures from the restricted region were terrifying in the end.

Previously, when they saw how friendly he was, they even thought that the people who disappeared in the restricted region in the past might still be alive, not killed.

Now, everyone realized that this was their own wishful thinking!

He was smiling, but that didn't mean that he wasn't vicious and merciless, that he wouldn't take action.

"Wu, so it was this diagram. It is incredible after all, between the Heavenly Beast Forest, ancient burial region and divine medicine vein, truly extraordinary. There is definitely great natural luck hidden within!"

The elder arrived by the table, and then carefully examined the ancient beast skin, speaking like this, continuously nodding and praising.

This made many people's minds tremble, feel deep shock. It seemed like this elder was quite familiar with the world outside Imperial Pass, not at all unfamiliar.

Unfortunately, Imperial Pass defended this position, not even a True Phoenix able to cross. The two worlds were severed, so how did he go over? Did he previously leave Desolate Border?!

"Has senior visited this place before?" Someone asked.

The elder didn't say anything, the smile on his face becoming a bit cold, as if he was in deep thought, a bit absent-minded.

Only after a long time had passed did he say, "Wu, could this be the place master was looking for that year? What a pity, back then, the clues were cut short, unable to find it."

These words really were a bit frightening!

The lord of a restricted region above Nine Heavens was looking for this place? This... was extremely shocking. Just what kind of natural luck was there, worth enough for even that level of existence to move out, search for it?

Moreover, the other side were also making a big fuss over this, wishing to approach that place!

After studying it for a long time, the elder recovered his cool, smiling again, no longer revealing coldness, becoming amiable again.

He looked towards everyone, saying, "The aura left by the lightning tribulation is too rich, it really is astonishing. Just which dao friend crossed tribulation? Really not simple."

At this time, Shi Hao couldn't say anything anymore. This wasn't the first time the elder asked.

"It is me!" Shi Hao walked out, a harmless smile on his face.

"Heroic youth, possessing war immortal aptitude!" The elder praised continuously. He immediately gave such a great evaluation of Shi Hao, unknown if this was just praise or if it was heartfelt.

In reality, Shi Hao still didn't want to interact with those from the restricted region, because he feared that there might be some changes, and then he would be targeted by them.

However, now, he had no choice. Since the other party came, moreover asking more than once, if he didn't step out now, the other party would find out sooner or later.

Instead of this, he would rather come out directly. In addition, he wanted to ask about the Lightning Pool matters.

It was because the other party wished to learn about the lightning tribulation situation, it couldn't be hidden even if he wanted to. If he really was trying to hide it, he believed that others would most likely tell on him, for example, Wang Family.

The two sides both acted politely. The elder directly inquired about the tribulation crossing. He looked amiable, but in reality, he was shocked. This era was far inferior to before, there shouldn't be any tribulation crossing, yet someone dared face tribulation in the Void Dao Realm, definitely stunning.

Shi Hao spoke things as they were, describing that great tribulation.

"You... could actually make it through that type of most powerful heavenly tribulation?" The elder's expression changed for the first time, unable to calm down. He continuously stared at Shi Hao.

"I wonder if senior can see some things from this item?" Shi Hao didn't hide anything, bringing out the Lightning Pool.

Instead of being eventually exposed by Wang Family and others, becoming friends with the restricted region, he might as well step out himself, be more direct, generously show it, ask for guidance along the way.

“What is this? Where did you obtain it from?” The elder’s expression was serious.

“Lightning Pool, something I seized from the heavenly tribulation.” Shi Hao replied with a smile.

“What?!” The elder lost his composure for the first time, somewhat unable to tend to his appearance. His single foot landed on the ground, arriving before Shi Hao with a sou sound, grabbing him with a single move.

“Senior, what’s wrong?” Shi Hao asked.

“You... is what you said real?!” His voice was shaking.

“Of course it is.” Shi Hao nodded. Everyone else also smiled.

“You... are a true freak!” What left everyone speechless was that the elder actually gave Shi Hao this type of evaluation, speaking these words.

However, immediately afterwards, something that made everyone’s jaws drop to the ground happened. He looked at the Lightning Pool while enthusiastically pulling Shi Hao’s arm, saying, “Little brother, from the looks of it, your age isn’t that great, full of heroiness, and also a kind and honest young man.”

“Senior, if there is something, please say it.” Shi Hao felt a wave of goosebumps.

“It’s like this, my family’s young miss has not been betrothed yet. She has the countenance of a flower, face like the moon, national grace, divine fragrance. We were just about to select a husband, I think you are quite excellent, perfect to come and live with the family in the restricted region.” The elder said.

Everyone became petrified. What was going on? Did they hear incorrectly?

Even Shi Hao was dumbstruck, momentarily speechless.

The elder held the Lightning Pool, his eyes burning passionately, so shocked he began to shake again. He looked at it again and again, and then back at Shi Hao. “Little brother, what do you think?”

Chapter 1430 - Loosening the Reins to Grasp Even Better

“I think...” The skin on Shi Hao’s face was always like a copper wall, iron bastion. When he was asked this, he didn’t show any shyness, instead about to say the words ‘not a bad idea’. However, soon afterwards, he stopped himself, saying, “What kind of species are you all? Don’t tell me you are...” He looked towards the balding rooster.

Of course, this was completely done on purpose. He wanted to take this chance to learn more about the origins of the Nine Heavens’ restricted region, to see what kind of race they were exactly.

“Haha...” The elder was all smiles, extremely kind. He was less than three foot tall, single foot on the ground. He was no longer bold and powerful, entire body suddenly rising into the air, becoming the same height as Shi Hao. He patted his shoulder, and then said, “Young fella, I think highly of you. Once you become my clan’s son-in-law, even if this entire world is destroyed, you will still be safe and sound.”

It was clear to see that this shriveled elder was experienced. Even when his mind faltered, he could still control the situation, not letting anything leak out, still not giving out any of the restricted region’s secrets.

“Don’t worry, the lord’s race is the most noble of this world. If you can marry in, even if your aptitude surpasses ten thousand generations, you still won’t feel wronged, instead feel honored.” The elder said with a smile.

Nearby, everyone was extremely shocked, greatly shaken. The restricted region was selecting a spouse. They were going to choose Huang just like this?

This was especially the case when they heard him say that even if the Nine Heavens Ten Earths are flattened, the restricted region would still exist, not be disturbed, it was clear just how extraordinary they were.

If he married his way in, it was the same as eliminating future worries.

After a few people thought about this, they really were moved. However, in the end, they could only sigh. The one the foreign guest chose was Huang, it had nothing to do with them.

Moreover, they didn’t even have the qualifications to fight over this

The restricted regions of the Nine Heavens above, what kind of places were those? They were True Dragon pools, tiger dens, one could only enter, could not leave. Who dared face them head-on? They definitely wouldn’t care about ordinary cultivators.

In the eyes of the restricted region’s experts, the world’s creatures were like ants, not on the same level at all. There were many rumors that they had existed as far back as Immortal Ancient Great Era.

The master in the middle of this definitely had an identity that was unimaginably great!

There were some who suspected that the strength of the creatures inside was world shocking, overlooking the present world. Even the foreign side felt restraining fear, and that was why they could continue existing.

Back then, when this world was broken through, the people in distress, almost completely wiped out, only they were far above, unaffected.

It was to the extent where there were some who suspected that the reason why the foreign great army helplessly withdrew might be because they provoked the restricted regions’ retaliation, and that was why they had to quickly leave this world after their great victory.

The elder was extremely frank. He rubbed his hands, and then said. “The only problem is that our young miss really is too extraordinary, and as a result, she is a bit arrogant, normally wouldn’t listen to the clan’s arrangements, not even the master able to do anything. As an old servant, I can only report your situation to the master, the rest depends on how things play out. In the end, the young miss has to make the choice herself.”

“This matter, senior, I have to first confess that in the past, I carried back to the village one, two, three...” Shi Hao counted with his fingers. Those watching became a bit dizzy.

“What are you counting?” The elder was confused.

“Wives.” Shi Hao replied.

The elder's expression went rigid for the first time. He forced a smile, saying, "What are you trying to say?"

"My intention is that I already have many wives, would your restricted region's young lady be willing to marry me?" Shi Hao said, as if he was quite troubled.

When they saw his simple and honest appearance, everyone became speechless. Was he really this tactless before the restricted region guest, actually treating the heavenly lady of the restricted region like a concubine?

Of course, those who understood Huang curled their lips. Huang was definitely speaking nonsense. He still hadn't gotten married, how could he have several wives?

However, those who understood the inner details also expressed something, because marrying into the restricted region would most likely mean giving up on everything else. Moreover, he was going to have to live in the restricted region, there were too many issues with this.

In the restricted region, what kind of freedom was there to talk about? How could one roar through mountains and rivers, do as one pleased? If he had to face the master of that place, he might end up trembling with fear.

Of course, there were even more people who sighed. Huang really didn't cherish this opportunity, a great chance was right before his eyes!

Cough... The elder coughed, revealing a serious expression. "Little brother, please reconsider my proposal, do not be in a hurry to avoid this."

He already lived for so long, his eyelashes and eyebrows all empty, so how could he not see through Shi Hao's attitude? Therefore, he didn't believe that he was already married.

Then, his eyebrows jumped, saying, "However, this is fine as well. My family's young miss is proud and arrogant, if I directly report to the master that you are extraordinary, choosing you as the son-in-law, the young miss might show a bad reaction. How about I only report that you have a great vision, eyesight aimed at the long term, not willing to marry into a restricted region? Who knows, my family's young miss might instead pay attention to you, come out of anger. At that time, there might be all types of opportunities."

When the group of elders heard this, they were all speechless. Didn't this elder consider too much?

"Senior, how would that work? Helping an outsider fool your family's young miss, if she finds out, wouldn't she come to skin you alive?" Shi Hao said.

Suddenly, the elder became vigilant, saying, "Hm? Youngster, are you purposely beating around the bush, not agreeing directly because you have these types of thoughts? What was the saying? Grasping even better..."

"Loosening the reins to grasp even better." Cao Yusheng helped explain from the side.

"Right, precisely this." The elder stared at Shi Hao, looked him up and down continuously, and then said, "Youngster, you really are formidable, actually an expert on this type of matters. I was almost fooled, encountering a capable youngster."

Shi Hao was speechless. Was this elder purposely mocking him, or did he truly think that he was loosening the reins to grasp the situation even better?

“However, little fella, like this, you really aren’t that sincere! My family’s lord wishes for an obedient, honest son-in-law, even though this might attract the young miss’ attention, my master has discerning eyes, might just slap you to death with a single palm.” The elder said.

“Senior, you overthought things, what kind of associations are you making?” Shi Hao rolled his eyes.

“Senior, you can have your young miss consider me! Look, chubbiness represents straightforwardness, the most honest and sincere. I’m called Cao Yusheng!” Cao Yusheng’s face was extremely big, laughing brilliantly, directly making his way over.

“Fatty Cao, you are too shameless.” The Heavenly Horned Ant shouted.

The Lunar Jade Rabbit also agreed, nodding with everything she had.

“I don’t want to die! I don’t want to be buried for endless time by someone! When I reappear, where would you all be? With no one left, just the thought alone makes me want to cry...” Fatty Cao said with red eyes.

Even though he was acting, playing around with the foreign guest, he also revealed a bit of sadness. He really didn’t want to wake up one day to find that after endless time passed, everyone already died, no longer in this world, that he was completely alone.

He revered his master greatly, everything he divinated too accurate, able to peer into the future. This always weighed down on his mind like a great mountain.

After several people interrupted, creating a disturbance, the elder finally temporarily dropped the marriage topic.

He held the Lightning Pool, staring at it carefully, his eyes brilliant like golden suns, that close to just jumping straight in.

“Youngster, if you can gift this Lightning Pool to my family’s master, I promise you that he will be extremely happy. When the time comes, there will definitely be tremendous benefits for you.” The elder said.

“Sure, no problem, let me research it a bit, and then after I roast and eat the three creatures inside the pool, I can considerate it.” Shi Hao nodded.

“What are you saying? Roasting? I’m going to beat the shit out of you!” The elder glared for the first time, extremely annoyed, moreover actually erupting with killing intent.

“This is mine!” Shi Hao naturally took the Lightning Pool back from him.

“Youngster, I really, really have to advise you not to act recklessly. This pool’s research value is endless. If you really cook them, I fear that you might immediately suffer the wrath of heaven!” The elder said with a suppressed voice.

“What is the deal with it? Tell me a bit, and then I’ll reconsider.” Shi Hao said.

“At my level, I do not understand these great mysteries, but my master will definitely know. That is why I advise you to take a trip through the restricted region with it.” The elder said.

“Isn’t that the same as beating a dog with meat buns? I won’t be able to return after I go!” Shi Hao curled his lips.

“Brat, what are you saying?!” The elder glared at him.

“Do you really not know what this is?” Shi Hao didn’t really believe him. After this elder saw the Lightning Pool, his eyes continuously released light, not wishing to let go.

“This thing, I only heard some rumors. However, this came from an unimaginable place, perhaps even those from the restricted region would run out to fight over it. Moreover, if it really is a True Dragon nest, banished into the void, it would trigger huge waves. In short, the value of this thing is unimaginable, possessing tremendous karma!” The elder directly revealed a bit to him.

“Alright, I won’t cook them for now.” Shi Hao said.

When the elder heard this, his face twitched!

“En? This thing?” Suddenly, the elder noticed the stone the owner of the Five Spirits War Chariot Qi Hong brought out on the table.

His eyes released golden light, saying, “This palace has some long life aura, turns out it was this thing that contains such rich long life substance? Formidable!”
