### Chapter 1531 - Supreme Being Killed

“Who will you be able to kill?!” A cold voice sounded. They were all at this level, supreme beings with strength at the absolute peak, all of them also having absolute confidence.

Qiang!

There was another who was even more direct. The black great spear pointed forward, cold aura surging, great dao laws rippling out.

One man, one spear stood there, actually releasing world establishing aura, making the boundless great desert tremble, primal chaos surge. It was truly terrifying.

They were already at this level, there really wasn't any bravery to speak of, because they were all creatures who reached the peak of mortal dao, standing at the same high point, overlooking the human world.

Great Elder remained fearless, still calm.

Immediately afterwards, he erupted, his aura continuously surging, golden battle clothes shining, as if raging flames rushed into the heavens. Golden light engulfed the heavens above and earth below.

How terrifying were battles between supreme beings? It exceeded the imagination of normal people, stars falling from outer space at every turn, endless land destroyed.

Chi!

The foreign supreme being with the black war spear in hand released a great roar. Heaven and earth split, the spearpoint of his weapon erupting with dark light. He took action first, piercing forward.

This spear undoubtedly contained exceptional power. It rushed towards Great Elder's chest, crushing the void until it exploded to pieces, the sun and moon losing light, chaotic energy surging.

Hong!

At this moment, Great Elder moved, brandishing the item in his hands -- the rotten wooden chest. It directly smashed into the spearpoint. A world-shaking noise immediately sounded!

Sand waves reached into the skies, golden sand everywhere in this ancient battlefield, stretching as far as the eye could see. Many powerful individuals had fought here throughout the endless years.

Now, the sand rose like a sea, sweeping towards the heavens. There were even more granules that rushed into outer space, hitting some asteroids and meteorites, immediately making them go dim!

This scene was extremely shocking. The effects of a supreme being battle were too far reaching and frightening!

Surprisingly, after this strike, everything quickly calmed down again. The tens of millions of li of great desert became almost deathly still.

It was still the same few here, confronting each other, watching each other carefully.

Great Elder Meng Tianzheng stood precisely in the middle, while those five supreme beings stared at him, looking at the wooden chest in his hands.

“So that’s the thing? It is extraordinary after all!” The one who held the blood-colored great halberd, the supreme being who first exchanged attacks with Great Elder said.

The chest was extremely old looking, but it was surrounded by hazy radiance. Meanwhile, just now, it could actually face a supreme being artifact head-on without suffering the slightest bit of damage, this alone enough to prove its value.

Not even someone as powerful as a supreme being could put it away, only able to carry it in his hand. However, right now, it didn’t become Great Elder’s burden, instead becoming quite a good weapon.

Using it like a shield wasn’t a bad choice!

Shi Hao became nervous, worrying for Great Elder, fearing that something unexpected might happen, that something dangerous would occur.

It was because it was just as the foreign creatures said. They were all supreme beings, so who was weaker than who? They were all at the peak of mortal dao.

“Kill him and seize the chest!”

On the other side, someone said coldly.

The strike just now could be considered another test. By now, both sides knew what was going on, so when they took action again, it would definitely be a struggle of life and death, going all out.

“Kill!”

A great battle finally erupted. In that instant, it was as if a primal chaos vicious beast roared, reviving from when the heavens were first opened, about to appear in this world.

This place exploded, becoming chaotic.

Honglong!

The great desert split open. A great black crack extended limitlessly into the distance, rushing towards the horizon, unknown just how far it reached.

Sand and rubble flew everywhere, stars trembling.

It wasn’t uncommon for great stars to fall at all. It was because battles at this level were just this chaotic.

Moreover, the great desert split open, countless withered bones underground appeared, caught in the blast waves. Some of them exploded to pieces, some floating in midair.

These were all cultivators who had been killed in the past, many withered bones buried beneath the great desert.

This time, a great battle completely erupted. With a hong noise, a blood-colored great halberd hacked over, precisely the supreme being who first entered Heavenly Beast Forest, the one who was injured by Great Elder.

Dang!

Great Elder struck the blood-colored war halberd with his bare hands. There was immediately a large expanse of sparks flying out, whenever one of these sparks fell onto the ground, they would always turn tens of thousands of li of the desert into lava!

This scene was a bit frightening, but this was precisely a battle between supreme beings. Their powers were too great, far exceeding creatures of other cultivation realms.

Hong!

An individual clad in black armor attacked, using his fists as weapons, smashing them over.

Great Elder still fought with his bare hands, similarly sending a fist over. As a result, great dao rumbled between the two, immortal energy exploding, all types of law fragments flew about chaotically here.

Moreover, it was as if hundreds of streaks of lightning hacked down in the void, the noise deafening.

“What happened?”

In the distance, within Heavenly Beast Forest, many people saw the crazy scenes. Divine light rushed into the heavens, striking down the stars in outer space.

“What kind of magical artifact is that?”

“No, that is the result of someone’s fist radiance tearing through heaven and earth, entering the sky dome, striking down some stars!”

Someone explained the truth. The faces of those who heard this all went deathly pale, just how terrifying was this power?

In the battlefield, divine light surged, figures crisscrossing. The battle was too intense, a thousand blows exchanged in just an instant.

Chi!

When the blood-colored great halberd smashed down, hacking toward Great Elder Meng Tianzheng’s head, he brandished the wooden chest again, really using it like a shield.

Dang!

Simple and violent, the rotten wooden chest in his hands smashed into the great halberd. In addition, he jumped up, right hand forming a magical imprint, slapping outwards.

The other individuals took action as well, either display ancestral techniques or using weapons, attacking forward.

This was extremely dangerous. All of them were supreme beings, now that they attacked together like this, Great Elder's situation looked worrisome.

The foreign supreme experts' objective was the rotten wooden chest, they wanted to seize it, but they also wanted to kill Great Elder.

Right at this time, a wave of boundless pressure appeared in the sky, instantly surrounding everything. This type of power was too majestic, just too intimidating.

Great Elder's expression changed, feeling a tremendous wave of pressure.

One could see a mysterious pouch appear. The opening was loosened, releasing endless multicolored light, about to restrict and collect Great Elder inside.

Immortal artifact, Heaven and Earth Pouch, this originally belonged to the Nine Heavens!

Even this thing appeared, it seemed like the other side really invested greatly in this trip. Not only did five great experts move out, they even activated this matchless magical artifact, wishing to instantly capture Great Elder, seize the rotten wooden chest, not wishing for anything unexpected to happen.

Hong!

At this moment, an ancient diagram appeared in front of Great Elder, bold and powerful, unmatched might spreading; this was precisely the Ten Realms Diagram.

Meng Tianzheng was currently controlling this supreme artifact. It opposed the Heaven and Earth Pouch with equal strength, both sides clashing, power continuously rushing out.

Qiang!

A ringing noise sounded. A young supreme being from the other side produced a small purple sparkling hammer. It had long become damaged, but it still carried terrifying power, this was a damaged immortal artifact.

"There's another one!" Another person said coldly, producing a small furnace. It was the size of a fist, even though it wasn't large, it was covered in cracks, to the extent where there were many areas that had been smashed. It had been in this state for many years already, but it still carried immortal power.

It was another damaged immortal artifact!

It was because with Heaven Abyss in the way, the undying couldn't cross over, not even their unmatched magical artifacts could be brought to this side.

Only the Nine Heavens' magical artifacts, past damaged immortal weapons could pass through.

Once the furnace appeared, the void began to burn, what was exhausted was heaven and earth essence energy!

This sky dome was actually set on fire, and it also began to spread outwards, reaching some great stars, the scene extremely terrifying.

The past immortal artifacts, even if they were damaged, they still had matchless power.

“Heavens! What is that? Stars are being ignited one after another, falling towards the desert to wipe out a target!”

“Just how great of a move is this?!”

Near Heavenly Beast Forest, large amounts of experts cried out in alarm.

“Great Elder, use this sword!” Shi Hao roared out. Right now, he was being protected within a sphere of light, isolated from the outside world.

Otherwise, the terrifying fluctuations would have long ripped him to pieces!

Shi Hao saw that Great Elder fell into a critical situation, making him panic, yet he couldn’t do anything to help. He then thought of how extraordinary the Everlasting Sword Core was, giving it to Great Elder, hoping that he could display its power.

Zheng!

The ancient sword released a light cry!

Great Elder received it, the others unable to stop this process. He now had a sword core in one hand, rotten wooden chest in the other, looking incredibly heroic and powerful!

“Suppress!”

The people on the other side all shouted, activating immortal artifacts, suppressing Great Elder.

“Go!” Great Elder released a light shout. The Ten Realms Diagram flew out, smashing towards the Heaven and Earth Pouch, the small purple sparkling hammer, and the furnace, fighting a great battle.

With a crash noise, a corpse wrapping cloth appeared from Great Elder’s body. It was soaked in the blood of Immortal Kings, right now also rushing into the sky, resisting the immortal artifact.

The immortal artifacts rushed out, clashing in midair, fighting intensely. As a result, a barrier of light took form, surrounding everything below.

“Excellent, the immortal artifacts have displayed power, unintentionally producing a void battlefield, establishing a small world!”

Someone said with a sneer. It was because this undoubtedly temporarily restricted Great Elder, preventing him from running away.

“Kill!”

The others shouted.

This was five people working together after all, activating immortal artifacts, making them clash in the air. The result was extremely terrifying!

Great Elder Men Tianzheng fought intensely against them, the two sides continuously colliding, rotten wooden chest struck until it released peng peng noises.

They were all supreme beings, so how much weaker could they be than each other? That was why Great Elder's situation wasn't good, at the very least, in Shi Hao's opinion, the situation was a bit terrible.

"Kill!"

Suddenly, Great Elder shouted, his entire body shining, accompanied by immortal mist. Shi Hao trembled, that aura was a bit similar to his own.

"Meng Tianzheng, you really are something, worthy of being someone who was this close to succeeding on that path back then!"

"Using the body as a seed! You were able to grasp some of its power!"

This was the foreign side's evaluation. They naturally felt great restraining fear.

"No wonder you saved Huang, you two are of the same sort, both walking this path!" A supreme expert said with a cold voice. However, he didn't feel any worry, because they had the numbers advantage.

Divine light rushed into the heavens, precious techniques world shocking!

This place became chaotic, several great supreme beings going all out in a decisive bloody battle.

Those who used the body as a seed were exceptionally powerful. Shi Hao deeply experienced this, while the foreign youngsters suffered all types of bitter consequences because of this.

On the path of body as the seed, even though something unexpected happened to Great Elder along the way, almost dying in the process, not completely succeeding, there were still some gates opened, their bodies extremely powerful.

Hong!

Someone struck forward. No one expected that when it was difficult for Great Elder to evade, he actually directly received this palm, facing it with his back.

Meanwhile, at this moment, he borrowed this power to suddenly increase speed, face the one who was right before him, rushing over murderously.

Wenglong!

Heaven and earth shook, trembling intensely.

Strange ripples were released from this place, indicating that this was a decisive battle between powerful individuals.

"You..."

The one who faced Great Elder's sudden attack head-on was shocked, because he discovered that Great Elder's arm became golden, ridiculously powerful, impossible to shake off.

"This is... similar to the method He Wushuang cultivated!" A supreme being's expression changed.

He Wushuang previously obtained the Imperishable Scripture, his strength in the other side extraordinary, exceedingly terrifying. His body was known to be imperishable, powerful to the extreme.

Hong!

Right at this moment, Great Elder received two palms from the back, the attacks of two other individuals.

Blood trickled out from the corners of his mouth, but he actually withstood it. Meanwhile, he directly took action, golden light overflowing into the heavens, displaying the greatest power, attacking that person ferociously.

Kacha!

In the end, that person's blood-colored war halberd was actually broken. When he attacked with his two fists, he still faced Great Elder's most vicious attacks.

"Imperishable Scripture! It's extremely similar to what He Wushuang uses!"

This was basically going all out, carrying out a life and death struggle. After Great Elder took a few blows, he entered a bloody struggle without any regard for consequences with the one in front of him.

Not only was his war halberd broken, even the other party's body was pierced through, the scene horrifying.

Pu!

A bloody struggle was happening in the great desert!

After fighting at close quarters, Great Elder received several blows. Meanwhile, as he did his best to avoid everyone else's attacks, he also focused most of his attacks on a single person.

Hong!

Bloody light surged, dyeing the skies red.

"What? That's... a supreme being fell!" In Heavenly Beast Forest, someone cried out in horror.

"This is... my side's Frozen Sea Supreme Being's aura! He was killed! Heavens! How could it be like this?!"

Chapter 1532 - Heaven Fault Dao Loss

The death of a supreme being? This was a huge matter!

Outside Heavenly Beast Forest, everyone was stunned, all of them feeling their bodies go cold. This was but Frozen Sea Supreme Being! He had dominated this world for millions of years, overlooking the mortal dao realm. How did he end up just dying here?

Many people didn't dare believe this, it was just too tragic. Just how many years had passed before something like this happened? A supreme being's death was definitely a heaven falling earth collapsing disaster!

After a momentary silence, everyone howled in grief, cries of sorrow echoing through the skies.

In the distant battlefield, blood radiance overflowed into the heavens, just too blinding. Dyeing the entire skies red. This was the sign of all of the essence blood within a supreme being exploding.

Even if they never saw this type of thing happen before, they still knew what was happening. It was because there were clear recordings in bone books, foretelling the changes of the universe!

"I refuse to believe this! Frozen Sea Supreme Being is invincible, how could he die here?"

"Supreme being blood has already splattered across the sun and moon. It won't help even if we don't believe it." Someone said with a sigh, inwardly shocked to the point where it couldn't go any further.

This type of thing was too terrifying. How terrifying were supreme beings? They were high up above, having great dignity, almost about to coexist with the world.

"Something's not right. Supreme being blood has filled the skies, how can there not be any stars falling? A single drop of that type of blood can shoot through stars." Someone said with suspicion, still carrying hope, wishing to see Frozen Sea Supreme Being be unharmed.

"It is because there's immortal weapons facing off there, forming a domain, opening up a small world, isolating it from heaven and earth." An elder said with a sigh.

Several immortal weapons floated there, the Ten Realms Diagram, Heaven and Earth Pouch, and others surrounded that place, completely restricting it.

Thus, even if supreme being blood rushed into the heavens, they still wouldn't leave this domain. Otherwise, it would be like the end of the world, the results absolutely horrifying.

This conclusion made everyone's moods become downcast, all of them sighing. Even in the other side, it wasn't easy for one to become a supreme being. If one of them really did die, then it would be a huge deal.

It was because for the other side, if one could cultivate to this level, if nothing unexpected happened, they could go a step further, then be able to exist forever with this world!

The foreign side's environment hadn't changed, still allowing for the emergence of undying existences!

"Perhaps he still hasn't died, we might still be able to save Frozen Sea Supreme Being!" Suddenly, someone spoke, rejecting that type of tragic result.

This left the others greatly shaken, they revealed hopeful looks.

Regardless of whether they were of the same clan or not, they all came from the same side, so any supreme being received great respect!

Once a supreme being appeared, all sides would celebrate, because if nothing unexpected happened, they can continue to advance through the endless years!

"I previously heard that if a supreme being died, there will be many irregular scenes, like heaven's tears, earth sobs, and others. However, nothing like this has appeared yet!" That person said.

When everyone heard this, they were all stunned.

Just now, many creatures were extremely dispirited, carrying grief, so they overlooked some legends. It seemed like there really were some sayings.

Only, after endless years passed, after a great era passed, how many supreme beings fell? They never saw it happen before, which was why they forgot this legend.

In the great desert, within the battlefield.

Meng Tianzheng's black hair flew about chaotically, eyes like suns, releasing two golden streaks of light that were just like the golden armor on his body, incomparably dazzling and intimidating.

His divine clothes were dyed in blood, but when he straightened his body, he seemed even taller. His imposing figure was brilliant, blood energy surging like a sea, now truly risking his life!

At this moment, he looked like a powerful revived war deity. Battle intent surged, incredibly heroic looking. With a great roar, even the heavens and earth were shattered and destroyed.

At this moment, he was unmatched, attacking left and right.

This was especially the case when he entered that expanse of striking red light, his fist strength matchless, continuously striking out, smashing the great cracks in the void until they continuously exploded.

If not for the few immortal weapons above, forming a strange domain, a 'War Realm', surrounding this place, the consequences really would be unimaginable.

This battle energy was too terrifying, tearing through everything.

If any streak of light rushed into outer space, they would be able to blast through the sun and moon!

Hou!

Within the brilliant red light, it was as if a prehistoric ancient beast was roaring, incomparably sinister. It released deafening roars, truly terrifying.

It was precisely the supreme being whose body exploded. His blood-colored great halberd had long been broken, he himself also exploding, all of his essence blood shooting in all directions, difficult for him to condense everything again.

It was because Meng Tianzheng sent his fist smashing out, scattering the essence blood, preventing it from merging back together.

It was precisely as that person in Heavenly Beast Forest said, supreme beings were difficult to kill. Heaven's tears and other irregular scenes didn't appear yet, proving that there was still a chance for things to take a turn for the better.

This was indeed the case. What level of existences were supreme beings? The universe could collapse, yet they might still continue living!

Even though Han Ming's[1] body exploded, he still didn't die. He tried to gather his blood energy, revive his primordial spirit, wishing to immediately return.

Only, Meng Tianzheng's fists were too terrifying, each time they were brandished, they would suppress the endless dao between heaven and earth, bringing tremendous pressure onto this place, interfering with his recovery process.

This made everyone's expressions change. No matter how they took action to injure Meng Tianzheng, they still couldn't immediately help Han Ming escape from this critical state.

It was because Meng Tianzheng already threw caution to the wind, only targeting Han Ming, vowing to kill him. It was precisely the so-called 'injuring ten fingers wasn't as good as breaking one'!

He wanted to kill a supreme being!

"He cultivated the Imperishable Scripture, body powerful, able to face everything head-on, endure for a very long time!" Someone said quietly.

This was an extremely terrible and serious matter. The four of them came to the rescue, yet they couldn't free Han Ming from the dangerous situation, very likely unable to help him revive.

If news of this got out, no one would dare believe it. This was too inconceivable.

One had to understand that there were but four great supreme beings taking action, attacking one person, yet they were momentarily unable to reverse the situation.

Han Ming roared angrily, cracks long covering his primordial spirit, injured by Great Elder. He resisted here, frantically trying to reforge his body, but always failed.

Supreme beings could regenerate from just a single drop of blood, and then quickly recover, make their unmatched bodies reappear. However, Han Ming suffered from the greatest dilemma, he actually couldn't do it.

The fists' power overwhelmed everything, suppressing everything, even making his primordial spirit want to break to pieces.

This was something that had never happened before. They were all supreme beings, so why was Meng Tianzheng this powerful?

In reality, they always somewhat looked down on the creatures of Imperial Pass, because it was clear just from the battles of later generations that the youngsters of the Nine Heavens were inferior to those of the other side. Apart from Huang, there weren't many who could pose a threat. n-(O**1**el**1**n

Thus, they naturally looked down on the older generation as well.

In reality, this really was the case. Last time, in the battle of Great Scarlet Sky, the older generation figures shed blood one after another, unable to produce any outstanding battle accomplishments.

"Do you all really think you are superior?" Meng Tianzheng roared out. His body was young, eyebrows sharp, eyes penetrating. His black hair scattered down, skin shining, golden battle clothes glaring, shocking and intimidating.

“The Nine Heavens Ten Earths have faults, cultivation isn’t easy for us, so the younger generation is a bit behind. It isn’t because our people are lacking compared to your side, but because of the environment itself.” Great Elder said, carrying regret.

The supreme beings’ eyes all contracted. They naturally knew that this ‘remnant illness’ remained.

At the same time, they thought of another problem. Cultivating in this type of environment wasn’t easy, many times they couldn’t even cultivate to perfection unless they broke through the limit!

However, just how many people could break through the limit, exceed the extremes of cultivation realms?

It was clear that those who could reach the supreme being level all had to accomplish this, which was why they wouldn’t be any weaker than foreign creatures of the same level, perhaps even a bit stronger!

The great battle of the last great era was miserable. The Nine Heavens Ten Earths was originally one land mass, but in the end, it was broken apart, turned into great ancient continents.

Moreover, the world became one with fault, the universe damaged, heaven and earth great dao lacking.

It was precisely because of this that one would encounter this type of problem when cultivating. There were some cultivation realms where it seemed like one has already reached a consummate level, but still had some flaws.

This was one of the main reasons why the youth in Imperial Pass fell behind the young experts of the other side!

If one wanted to free themselves from this dilemma, then it could only be done so by exceeding the limit in every single cultivation realm, breaking through the restrictions, piercing through the limitations of heaven and earth’s faults!

This type of person would definitely become terrifying, unimaginable. Even in the foreign side, they would be elites of Emperor Clans, powerful outstanding talents!

Huang, without a doubt, accomplished this. The foreign cultivators knew that this was definitely the case, or else there was no way he could kill so many foreign cultivators of the same level.

The supreme beings’ pupils contracted, staring at Meng Tianzheng. He was clearly also this type of person.

“We’re all supreme beings, there’s no way we are weaker, we’ve all reached this level after all.” Someone said coldly.

However, Meng Tianzheng spoke with his actions. When his fists brandished about, it was as if hundreds and thousands of heavenly suns were stirred about, this world rumbling with noise, shaking heaven and earth.

“Not good!”

Han Ming shouted out. He was the victim, no one understanding better than him how terrifying this strike was. It was simply as if a monarch appeared, coming from the ancient past, wishing to destroy everything.

Unfortunately, there were several immortal artifacts that locked down heaven and earth, no matter how strong Han Ming was, he still couldn't break out.

He originally wanted to catch a turtle in a jar, kill Meng Tianzheng here, but never expected that the one who was trapped first was himself.

Hong!

When Great Elder brandished his fist, Han Ming roared out, the others also frantically taking action, but just couldn't change this situation.

The great dao true meanings contained within this fist were ever-present, filling this War Realm. It smashed everything apart, including the primordial spirit!

It was because this fist was connected to some of the gates in Great Elder's body, clear light endless, flooding out like a great river, surging out, absolutely devastating.

Using the body as a seed, this is the establishing of a unique form of power, all of it pouring out.

"This path is terrifying as expected!" The eyes of a supreme being went ice-cold, dazzling and penetrating like a heavenly blade.

Meng Tianzheng previously almost died while on this path, not walking it to the end. However, he almost succeeded, which was why he grasped extraordinary power.

In the past, no one knew about this!

Only now did he establish it, leaving some great supreme beings shaken.

Hong!

This time, Han Ming was in despair, it wasn't enough even with the help of the others. Meng Tianzheng seemed to have completely tangled around him, focusing on him the entire time, continuously attacking.

Now, he even more so used a trump card to decide things.

Pu!

This time, Han Ming's primordial spirit broke apart inch by inch, turning into a rain of light. It then quickly grew dim, truly dying.

Of course, during this process, Great Elder received three great blows, but he didn't hesitate, still attacking Han Ming viciously.

Hong!

That primordial spirit light exploded, completely going out. Meanwhile, the rain of light was set aflame, turned to ashes.

“Ah...” There was a final furious roar. Frozen Sea Supreme Being died!

## 1. Refers to Frozen Sea Supreme Being

### Chapter 1533 - Bloody Battle

Hou!

A supreme being roared, venting his fury and battle intent. The space here rumbled, completely breaking apart, the scene terrifying.

Han Ming was killed before their very faces, even the four great supreme beings unable to save him. This made all of their expressions become cold and grave, killing intent surged endlessly.

It was clear that the four great experts now set the firm resolution to kill Meng Tianzheng.

“He died! Han Ming Supreme Being really died!”

Outside Heavenly Beast forest, a group of people shivered, all of them horrified, because the legendary scene appeared.

At this moment, heaven’s tears appeared. The sky was originally completely clear of clouds, dark blue like the sea, but now, blood rain poured down, releasing rustling noises.

Dark red blood landed on the treetops, splashing on rocks, the scene extremely alarming.

Everyone was shaken. This was heaven’s tears, a type of regret, a type of emotion expressed following the death of the most powerful individuals.

A rain of blood poured down, raining heavily, vast and boundless. It was unknown where it came from, dyeing the surface red, covering everything in a red color. Everyone was stunned.

Then, the earth split open, many eye-like cracks appearing, blood-colored spring water gushing out; this was the earth sobbing!

These scenes left everyone shaken. All of the foreign creatures couldn’t help but suppress a wave of grief, inwardly shedding tears. This couldn’t be controlled, feeling sorrow for Han Ming.

A supreme being fell, heaven and earth shedding tears.

Hong!

Then, streaks of black lightning appeared in the sky one after another, hacking about crazily, the noise unimaginably great. It was as if black dragons were roaring one after another, shaking up the Desolate Border ancient land.

Then, something even more shocking happened.

Skeletons fell from the sky dome one after another, the corpses of all types of creatures, extremely horrifying.

Where did they come from? Where did they drop from?

Everyone opened their Heavenly Eyes, able to see that this all appeared mysteriously from the void, and not falling from outer space. It was extremely strange.

Many people sucked in cold breaths of air, feeling that things were sinister. Skeletons fell from the air?

Peng!

Those skeletons fell onto the ground, some of them giant like a mountain, some as small as an infant, in the end, they all broke apart, turning into white powder.

Bright red blood rained down, together with the snow-white skeletons that fell from the sky, it looked extremely sinister, making one's scalp go numb.

These irregular scenes couldn't affect battles between supreme beings at all.

Great Elder didn't even fear the living Han Ming, still killing him without any hesitation, let alone this scene produced from his death. Meng Tianzheng was incomparably heroic, fighting a great battle against supreme beings here.

However, he was also bleeding. For the sake of ending Han Ming as soon as possible, he paid a certain price, taking on the attacks of four supreme beings.

Otherwise, how could Han Ming be that easy to kill? He was also a supreme being, too hard to kill. In this great era, rarely did people of this level fall after endless years.

It was difficult for supreme beings to die, yet Meng Tianzheng still killed one. This was definitely a huge matter, it would trigger a huge commotion even if it was in the other side.

"Kill him quickly, don't let anything else happen!"

A supreme being said, this individual having a black war spear in hand. Moreover, with a shake of his hand, a black decree shot out. It was extremely strange, on it a single character, but it was covered in bloodstains.

"Black Decree?" Great Elder was immediately startled. He had heard of this type of thing from the other side, rumored to hold immeasurable power.

When the other three supreme beings saw this, they all supported it together. That Black Decree shone, black mist filling the skies. The law decree was like a black hole, becoming even more terrifying.

Moreover, the blood on it began to flow about, surge like a sea, rumbling with noise. In the end, it was actually about to completely erupt.

"Suppress and kill!"

A supreme being shouted loudly, activating the law decree, attacking towards Meng Tianzheng.

Chi!

Great Elder Meng Tianzheng no longer fought with his bare hands. A sword core appeared in his palm, directly shooting out, releasing an ascension rain of light, glorious sword radiance oppressing even the heavenly sun.

Pu!

It sounded as if rotting flesh was pierced through, releasing a light noise. The Everlasting Immortal Sword Core was dazzling to the extreme, piercing through the Black Decree, making the blood on it gush out.

As expected, it was as if a blood sea rushed out, pouring out from the Black Decree like a dam burst, about to extend past the sword core, devour Great Elder.

However, the sword core shone, it was as if a burial land song sounded, ancient and deep, even more so carrying a type of lonesomeness and sadness.

This sound was extremely strange, leaving even Great Elder shocked.

The four foreign great experts were even more shocked. This sword core was too strange, it clearly released an ascension rain of light, so why was their burial songs?

Hu!

The Black Decree burned, turning into ashes. All of the bloodstains dried up, thus disappearing without a trace.

The burial songs disappeared, sword core becoming quiet again, as if nothing happened.

“Kill!”

Those individuals roared out, a life and death struggle to be carried out, not ending until they took Meng Tianzheng’s life.

It was because Han Ming was killed in battle, this really was a great humiliation. Five great experts moved out, yet one of them died, making all of them lose all face.

“Meng Tianzheng, you are quite strong, but we aren’t weak either. Let’s see just how long you can persist for!” One of them shouted.

Meng Tianzheng’s golden armor already had damage. After suffering serious blows several times, his body was dyed in blood, even the thick black hair having some traces of blood.

His figure was tall and straight, heroic and powerful, eyes incomparably deep, not feeling any fear or apprehension.

Shi Hao was surrounded within a sphere of light, protected within. He was extremely worried. Great Elder was one person, while the other side had many people. They were all supreme beings, so how much weaker could they be? If this continued, it would most likely be dangerous.

“Great Elder, can we break out?” He didn’t want Great Elder to fight to the death.

Meng Tianzheng didn’t reply. However, in the end, he took action, releasing a great roar, shaking the great desert. With a wave of his hand, the Ten Realms Diagram in the sky trembled, rumbling intensely.

Immortal artifacts trembled, the radiance it released covered the world, incomparably dazzling.

He wanted to collect that immortal artifact back, make this War Realm break apart, and then leave.

“You want to leave? It won’t be that easy! When immortal artifacts clash, how can the domains formed be that easily broken down?!” A supreme being said coldly.

What he said was the truth. The current situation was quite special, several immortal artifacts opposing each other with equal harshness, the light they released linking together, momentarily difficult to separate.

Hong!

Many strange symbols appeared in Meng Tianzheng’s surroundings. They were extremely dazzling, as if they were patterns on his body. There were some great dao traces, this the case even for the golden battle armor. Patterns continuously appeared, making him look more and more divine.

His blood energy was boiling, as if an ancient war immortal was awakening. Incomparable fluctuations rippled outwards, the scene incredibly shocking.

With a honglong noise, blood energy surged like a dragon-shaped heaven supporting pillar, reaching into outer space.

Then, with one hand holding the sword core, the other holding the rotten wooden chest, Great Elder rushed into the heavens, shooting up, actually breaking free, rushing out from the domain formed from the immortal artifacts.

How could this be possible? The supreme beings in the back were all stupefied.

“The Imperishable Scripture is terrifying after all, making his body rise to the peak, activate power exceeding conventional norms, affecting the Ten Realms Diagram, producing an opening!” Someone said with a cold voice.

“Does he not want the Ten Realms Diagram or the corpse wrapping cloth anymore? This is fine as well, we can just take them!” Another person said.

“That’s not possible, it can’t be seized. Those immortal artifacts are still confronting each other, difficult to move within a short period of time. Let’s leave for now, or else we’ll be enmeshed in our own trap!”

Chi!  $n \rightarrow \sigma(-v)(\mathcal{E}/-I \rightarrow \mathbf{B}..1))n$

Four figures rushed into the heavens, also leaving this War Realm through that opening.

“Where do you think you’re going?!” The four great supreme beings gave chase.

They temporarily abandoned the immortal artifacts, because this type of thing could be brought away afterwards. Right now, no one could move them.

“Kill!” The one holding the black war spear took action, stabbing forward. At the same time, they went into outer space, standing in the boundless cosmos.

This black war spear was incredibly terrifying. It released glistening brilliance, the spear point frightening, becoming massive, the power astonishing.

Meng Tianzheng turned around indifferently, slashing out with his sword, striking this spear aside with a qiang noise.

The black war spear was like a black heaven and earth spine, enormous beyond compare. With a pu sound, it stabbed through a star, making it explode on the spot.

Then, the war spear rushed into the sky, stabbing towards Meng Tianzheng again, but it suffered resistance again.

They fought a great battle in outer space. It was extremely intense!

Hong!

Another person suddenly produced a great seal. It was incredibly massive, instantly enlarging, shattering some of the stars nearby, smashing towards Great Elder.

With a peng noise, Great Elder brandished the rotten wooden chest in his hands, clashing with it. They struck together, releasing blinding light.

This made the foreign supreme beings' eyes surge with light. They stared at the wooden chest. This thing was extraordinary after all, actually able to send even supreme being magical artifacts flying.

"Collect!"

Another person released a great shout, activating a furnace. It began to burn, blazing flames surging from within, wishing to suck Meng Tianzheng inside.

One could even see some stars move, some of them sucked in. Powerful winds swept through this place like a tsunami, violent waves wreaking havoc.

When Great Elder fell towards the pill furnace, his foot stepped out, giving the pill furnace opening a kick, sending it flying. Sky-covering fiery light poured out, burning asteroids and others into liquid.

This was a great decisive battle. Several people were fighting a battle of life and death, not willing to stop here.

Later on, with a pu noise, a black war spear stabbed through Great Elder's chest. The bloody spearpoint came out of his lower back.

Not even the golden battle armor could help Meng Tianzheng block this spear, leaving him seriously injured.

One had to understand that this was a supreme being magical artifact. If it was another creature being pierced, they would explode on the spot, nothing left behind.

However, Meng Tianzheng instead released a great roar, not struggling free from the war spear, instead charging forward along the spear's long pole, slaughtering his way towards the supreme being who held the black war spear.

It was clear that this was done intentionally, using this spear injury to exchange for a battle opportunity. Meng Tianzheng brandished the sword core, hacking forward murderously.

Pu!

Bloody light splashed outwards. That supreme being was practically cleaved in half.

All of this happened in the time it took for sparks to fly off a flint. It was just too fast! The three great supreme beings on the side originally thought that they finally seized the advantage, that Meng Tianzheng was going to fall, but they instead found that their companion was seriously injured.

Meng Tianzheng's action was because he really had no choice. He was surrounded and attacked by supreme beings, so if he wanted to break out, kill his enemies, he had to pay the corresponding price.

Otherwise, it was impossible to have any battle results within a short amount of time.

He was worried that there would be other foreign supreme beings who would rush over. That was why he had no choice, hoping to kill all enemies within the shortest amount of time, seize the battle results!

After Meng Tianzheng was stabbed by the black war spear, his movements weren't restricted at all. He continued to attack with everything he had, releasing ferocious attacks.

The war spear's owner's body almost split into two. His expression immediately changed, doing everything he could to back up. He had no choice but to let go of the war spear in his hands.

When the others saw this, they all took action. Supreme being methods interweaved, blasting forward.

Pu!

Sword light crashed down like a waterfall, illuminating the sky dome, making large amounts of stars grow dim.

Blood radiance splashed outwards. This time, Great Elder not only removed that person's head, there was also a bloody hole that appeared in the space between his brows.

"Imperishable Scripture!" The owner of the war spear roared with fury.

It was because in the instant he let go of his weapon, he really wanted to activate this war spear, make it explode, destroy Great Elder in this way.

However, in that instant, Great Elder's body was solid like Immortal Gold, unmovable, terrifyingly powerful. Moreover, there was a tremendous power that surged from his body, suppressing him.

Chapter 1534 - Slaughter Back to Imperial Pass

A bloody hole appeared in the forehead of the black war spear's owner. This was naturally extremely dangerous, even if he was a supreme being, if this part was injured, there was still a chance of him dying.

However, supreme beings were supreme beings in the end. The space between his brows erupted with brilliance, his forehead bone trembling greatly. There were great dao divine laws that appeared, stopping the sword tip, preventing it from entering.

However, his primordial spirit still suffered damage, producing cracks. This was extremely serious.

His soul was injured. This definitely couldn't be compared to flesh injuries, needing to be treated seriously, or else unexpected things might happen.

Honglong!

On the side, a great imprint released primal chaos light. It was giant beyond compare, as if it was going to fill up outer space, rumbling as it fell. Great dao divine might was released, blasting towards Meng Tianzheng.

Then, that pill furnace also suppressed downwards, helping the heavily injured supreme being escape this disaster.

Apart from this, there was a wolf tooth club that was giant and heavy. Another person sent it smashing over, rumbling thunderous noise immediately ringing out as it descended.

However, Meng Tianzheng seemed to be completely dead set, not even pulling the black war spear out of his body, still slaughtering his way forward, wishing to end that person's life.

That person's pupils contracted. He abandoned the black war spear, yet still found it difficult to escape disaster. The other party followed him relentlessly, pretty much locking onto him.

However, fortunately, there was still some distance put between the sword core and the space between his brows, unable to stab into his skull in the end. Otherwise, he might follow right in Han Ming's footsteps.

Even though he was still in great danger, this Meng Tianzheng was just too valiant, aiming at his frontal bone. The sword core took in and sent out divine radiance, stabbing out murderously.

The three people behind all carried murderous intent. Han Ming's death was said and done, now, Yi Gu[1] was also in danger. If another accident happened, then it really would be unimaginable.

Five great experts came to take action, if two died, then this was definitely an extraordinary humiliation, even more so a huge matter.

However, they had to admit that Meng Tianzheng was too strong, moreover extremely decisive. Even with the black war spear stabbed through his chest, he still continued to attack viciously.

This was someone who dared to fight to the death!

"Kill!" Yi Gu roared out. He wanted to use his war spear, because that was his magical artifact. He wanted to make Great Elder's body split apart through it.

However, divine light surged around Meng Tianzheng's body like a great furnace, surrounding his body, isolating him from the outside world. That black war spear didn't move in the slightest.

"Kill!"

Great Elder shouted. Sword energy produced a thousand mirages, hacking outwards. Streak after streak of divine radiance tore through the sky dome, the scene terrifying.

Hong!

In the back, the great imprint, pill furnace and wolf tooth club all rushed over, attacking Meng Tianzheng murderously.

He moved outwards, either dodging or facing them with precious techniques. However, during this entire time, he still pressed forward, wishing to end Yi Gu.

“You think you can still have your way this time? It’s time for you to pay the price. Just die!” Someone shouted from the back.

Han Ming was killed precisely because Meng Tianzheng went all out, not hesitating to take on serious injuries to go all out. Right now, these people saw how he was acting, feeling like he wanted to go all out against Yi Gu, which was why they did everything they could to stop this.

This was a strange scene. Great Elder chased after Yi Gu, while the three others chased after him, producing quite the bizarre situation.

Precious technique erupted between heaven and earth, weapons releasing resounding noises. Some stars collapsed as they passed by.

This battle was extremely intense, all of them were fighting with their lives on the line.

This was especially the case with Great Elder. A black spear was stabbed into his body, blood dripping out, dyeing the golden armor red, long black hair scattered about, his current appearance a bit solemn and stirring.

However, right when they thought that Meng Tianzheng was injured, about to give up, the war spear in his body suddenly shone, dazzling to the extreme, piercing through his chest and flying out from his back.

This strike was too resplendent, the black war spear shining, tearing apart the sky dome. The surrounding stars all swayed, the universe even seeming like it was going to collapse!

This happened extremely suddenly. The black war spear carried Great Elder’s essence blood, moving as fast as lightning, tearing through a screen of light behind him, stabbing into a supreme being’s chest with a pu sound.

That person was stunned, because this happened too quickly. That war spear condensed powerful symbols, flickering with the Imperishable Scripture’s symbols.

Originally, Meng Tianzheng was precisely going all out against Yi Gu, so the people behind never expected him to turn around and attack them, change targets.

Hou!

The wounded supreme being Kong Tuo roared with fury. He removed the war spear, blood trickling out from his chest. Then, blood energy erupted, quickly recovering his injured body.

“Do you think you can change anything by injuring me? We are supreme beings, too hard for us to be buried in this world. If you want to take my life, then show me some real skills!”

“You’re right, a battle between supreme beings really should reveal true skills.” Great Elder replied calmly.

Then, he turned into a streak of light, rushing over, fighting an intense battle against that person.

Yi Gu who was chased first already stopped, quickly restoring his injured body. The space between his brows was brilliant, the damaged primordial spirit also healing.

“Ah...” Kong Tuo suddenly cried out, because even though his chest that was stabbed through by the black war spear recovered, there was a sphere of light that was ignited, wreaking havoc within his body.

“What is this? Your primordial spirit entered my body?!” He simply didn’t dare believe what he was seeing.

It was because Meng Tianzheng was clearly fighting an intense battle with him, but why was there a ball of light within his body? It was like a primordial spirit, wishing to seize control of his flesh.

“You all only saw the Imperishable Scripture I cultivated, completely unaware of the divine abilities that I am even more adept at.” Great Elder said coldly.

“Yin Yang Art!” A supreme being’s expression changed nQVE-lb)1n

This was a strange ancient heavenly art that possessed immeasurable might. Heaven and earth was produced from yin and yang. The great dao could be elaborated through yin and yang, so since this ancient heavenly art dared to use this as its name, it was naturally powerful.

In reality, it indeed was extraordinary. Not only could it cultivate yin and yang energies, it could even temporarily have the primordial spirit break into two, become two spirits. It was strange and unfathomable, powerful beyond compare.

Moreover, it could divide blood energy into two, temporarily form another true self physique.

Just now, the black war spear carried Great Elder’s essence blood, hiding a primordial spirit within. It pierced into Kong Tuo’s body, naturally carrying deeper meaning. It now displayed its might.

Hou!

Within Kong Tuo’s body, a sphere of resplendent blood shone, wrapping around the primordial spirit. It quickly enlarged, releasing a great roar.

It was as if a war god was going to struggle free from Kong Tuo’s body, wishing to blast Kong Tuo’s flesh to pieces.

“Just a trifling half primordial spirit, yet you dare enter my body? Today, I am going to completely refine you!” Kong Tuo calmed down. His entire body shone, blood energy becoming chaotic, wishing to refine that primordial spirit of great elder.

The other three also all moved, going all out in attack.

One could see a war god revive within Kong Tuo’s body, wishing to struggle free.

Kong Tuo’s body was like a matchless demon king, roaring out, quickly suppressing it, making that sphere of blood energy and primordial spirit become smaller, as if it was completely devoured.

“Heaven Cleaving Axe!”

Meng Tianzheng roared, attacking Kong Tuo.

Kong Tuo's body was greatly shaken. That primordial spirit shone, meanwhile, that lump of essence blood turned into a battle-axe, dark red and striking. It was held in the hand of that primordial spirit little figure, brandished about, hacking down there.

"Not good!" The expression of the others changed, the so-called Heaven Cleaving Axe was one of the past top grade immortal dao secret methods. It condensed one's essence blood, turning into an axe, known to be able to open a new heaven and earth.

This was just too terrifying. The primordial spirit that separated from Meng Tianzheng carried essence blood, this was actually to unleash an attack from within the enemy's body.

Pu!

Kong Tuo's body was torn open, even the primordial spirit was cleaved in half.

Hong!

Meng Tianzheng's true body arrived. With the Everlasting Sword Core in hand, he hacked out crazily, sword energy endless. From time to time, great stars were hacked down, the scene absolutely horrifying.

The pitiful Kong Tuo was annihilated just like that!

A rain of blood poured down from heaven and earth, countless skeletons fell. The irregular scenes of a supreme being's death descended once more.

This time, the expressions of the three supreme beings who remained changed. This was just a single Meng Tianzheng, yet two great supreme beings died. This was unendurable.

Now, only three people remained. Could it be that the other person still wanted to cut them down too?

Meng Tianzheng roared out. That primordial spirit and blood energy returned, becoming one primordial spirit again. Meanwhile, now, a giant axe appeared outside his body.

This was condensed from the essence blood released from his body!

"Heaven Cleaving Axe!"

This secret method was exceedingly terrifying. In the last great era, when unmatched existences displayed it, it had previously cut down unmatched figures from the other side.

"Meng Tianzheng, do you really think you can alter the universe, kill us?"

"Kill!"

The great battle became more and more intense. They fought with no regard for personal safety, carrying out another decisive battle.

Pu!

Blood radiance rushed into the heavens, dyeing outer space red.

It was because in this instant, Meng Tianzheng put away the Everlasting Sword Core, holding a Heaven Cleaving Axe in his hand, removing half of Yi Gu's body, truly delivering fatal damage.

"En?" Suddenly, Great Elder was alarmed, becoming wary. He looked towards a direction.

Immediately afterwards, he stopped, quickly retreating.

It was because several figures suddenly appeared from Heavenly Beast Forest' direction, rushing over from the other side. Terrifying reinforcements had arrived.

Meng Tianzheng didn't stay behind any longer, quickly rushing in Imperial Pass' direction.

At the same time, the Ten Realms Diagram, Heaven and earth Pouch, and others, after clashing for some time, finally split up. The immortal artifacts shone, shaking heaven and earth.

Chi chi chi!

The sounds were ear-splitting. The immortal weapons flew in different directions, put away by the ones who activated them respectively.

The majestic Imperial Pass towered between heaven and earth.

Great Elder brought Shi Hao with him, speeding towards Imperial Pass, successfully slaughtering their way back.

Shi Hao was shocked. Great Elder continuously killed supreme beings! If not for the terrifying reinforcements who came, his accomplishments might be even more glorious!

1. black war spear owner

Chapter 1535 - Return

Imperial Pass was right before them, vigorous and imposing!

Its simple and ancient outlook carried signs of great changes. The city was formed through countless stars, despite its old-fashioned appearance, it was majestic and oppressive, as if an entire universe was crushing down.

Meng Tianzheng's figure was tall and straight, standing before Imperial Pass. His golden armor was tattered, carrying dark red traces of blood, thick black hair scattered down to his waist. His eyes were extremely deep, full of depth, heroic aura restrained. Right now, he had the appearance of his golden years!

"Great Elder, nothing is wrong, right?" Shi Hao asked. He was extremely worried. Just now, Great Elder fought while bathed in blood, a single person actually killing two supreme beings, his style unmatched.

If not for that unforeseen incident, even more powerful reinforcements arriving from Heavenly Beast Forest, Meng Tianzheng might have even killed a third supreme being. Before going, he already cleaved the other party's body into two parts.

Just how world-shaking of accomplishment was this? If news of this went out, it would shake the entire world under the sky.

Perhaps this was this great era's most shocking battle, after all, it was a battle at the very peak of mortal dao!

Great Elder didn't say anything, only shaking his head. An altar appeared in his palm, extremely small, only the height of a fist. It released brilliance, and then produced a passage.

Shua!

Immediately afterwards, Shi Hao and Meng Tianzheng disappeared from their original location, entering that passage, proceeding into Emperor City!

At the same time, a few figures in the great desert screamed out, releasing world-shaking roars. The entire golden desert was overturned.

One could see endless skeletal remains below the desert, all of them from creatures who died in the past. They were all divine bones, rising and falling within the desert, the scene astonishing.

Several figures stood before Imperial Pass, their expressions all cold, carrying powerful killing intent. However, they already couldn't do anything, they couldn't break into this city.

Moreover, even further out, there were a few more figures, their auras all surging, extremely terrifying, the blood energy they released covering the sun and moon!

The foreign supreme beings gave chase. After coming here, they could only hold their regret. There was no way for them to enter.

"It won't be long before my side comes knocking on your door, completely opening up this ancient city!" Someone said coldly.

At this moment, light shone from inside the city. This was a public square, the space it occupied extremely vast, great armies normally setting out from here.

"Yi, someone moved through space, entering the city through the passage."

"Sigh, it is definitely another troop that went looking for Huang that returned. It really is regretful, Heavenly Beast Forest has been surrounded, no one able to enter."

"Huang really is too unlucky, dying an untimely death! He is trapped there, no one able to save him."

A few people discussed amongst themselves. It was clear that news of what happened outside Desolate Border got back, drawing the attention of everyone in the city.

The foreign great army stood guard outside Heavenly Beast Forest, mustering great forces, killing intent overflowing into the heavens. Imperial Pass long heard about this, paying close attention to this the entire time.

However, that place was a danger spot. Moreover, after several dozen troops were sent out, most of them were advised to return by Great Elder, not allowing them to take risks.

There were some who insisted on going, but in the end, they returned. When they saw the armored great army surrounding Heavenly Beast Forest, they could only sigh.

“Can Senior Meng Tianzheng succeed?” Some people carried hope, saying like this, hoping that he could successfully bring Huang back.

By now, many people knew that Huang obtained a wooden chest from outside Desolate Border. The other side went crazy precisely because of this, this item definitely affected too much. nove)1b-1n

“I heard that Huang continuously killed foreign enemies, completely unstoppable as he weaved in and out, extremely astonishing!”

Some secret reports returned, triggering a huge commotion.

When the other side hunted down Huang, quite a few young experts died. This made quite a few hot-blooded youngsters become excited, previously cheering because of this.

“They’re coming, appearing here!”

Everyone looked towards the public square. There was a giant altar there.

Regardless of whether it was leaving or returning to the city, they all had to be examined carefully by the formation, inspected, even life imprints examined to ensure Imperial Pass’ safety.

That was why regardless of whether it was many people who passed through or just one or two, it would always take a bit of time.

“Heavens, it’s Senior Meng!”

“Ah, my eyes aren’t deceiving me right? Who am I looking at, Huang... returned!”

Inside the city gates, around the public square, a group of people cried out in alarm, simply refusing to believe everything they saw.

An upright and tall figure dressed in tattered golden clothes emerged, even his hair covered in blood, he brought Huang back to Emperor City. He stood on the altar, looking like a returning war god.

Quite a few people rubbed their eyes, making sure that they didn’t see incorrectly. They then erupted into cheers.

“Senior Meng’s divine might is matchless, actually slaughtered his way back, bringing Huang with him!”

“Heavens, his heroicness truly is incomparable!”

“The foreign great army surrounded Heavenly Beast Forest, so many supreme beings overseeing it, yet none of them could stop Senior Meng from bringing Huang back!”

Everyone knew that Meng Tianzheng definitely experienced an exceptionally terrifying battle.

Otherwise, how could he have broken out of their siege, safely bringing Shi Hao back to Imperial Pass?

They knew even without taking the time to think about it that this was a decisive battle that touched upon the supreme being level, an unimaginable extraordinary clash of titans.

Meng Tianzheng’s body was soaked in blood, his armor in tatters, this enough to explain some things. This was but a great battle between supreme beings! Just how bitter and intense was that?

To even fight supreme beings without dying, returning alive, this was the greatest victory!

“I am going to make a report!”

Soon afterwards, news transmitted out. However, it wasn't as fast as Meng Tianzheng's speed. A great golden path appeared below his feet, bringing Shi Hao away from this place, directly heading into Imperial Pass' depths.

“This is a miracle! Huang returned, not falling in Desolate Border's danger spots!”

This news really was shocking, shaking up Imperial Pass, leaving all sides stunned. It was because previously, everyone thought that Shi Hao was going to die outside, that there was no way he could return.

However, Meng Tianzheng toppled everything alone, bathed in blood, winning and returning.

All of Imperial Pass erupted into commotion. Even though the city was incredibly large, the land it occupied massive, when news was released, almost the entire city exploded.

This was a huge affair!

It was because Huang obtained a supreme treasure! This triggered the attention of the other side, wishing to seize it back, but he successfully made it through.

“Was the rotten wooden chest brought back?” Many people paid close attention to this, urgently wishing to know. This was especially the case with some great powers.

Of course, all sides were shocked at Meng Tianzheng's strength as well. Just how great were his divine skills? A single person marched into the other side's endless army, rescuing his disciple and returning.

“Heaven warping divine might, Senior Meng is unmatched after all! If the environment hadn't changed, he would have long achieved immortality!”

“Where is Huang? We have to meet him, even more so meet Senior Meng!”

Many people shouted, crying out, extremely stirred up. After they learned of what happened, they wanted to know what happened outside Desolate Border.

A great golden path passed through Emperor City, extending for who knew how many tens of thousands of li. Along the way, Great Elder suddenly dropped down with Shi Hao.

“Ah, it's Senior Meng!”

When someone saw them, his throat immediately went dry. Then, a group rushed over, greeting them with great courtesy, their eyes burning fiercely.

The current Great Elder, was, without a doubt, like a war immortal, making many people feel incomparable admiration.

“Please don't disturb Great Elder for now, he fought an intense battle with several supreme beings, he has taken on injuries himself as well!” Shi Hao said, extremely worried.

“What?” The others were shocked. He fought a decisive battle alone against several supreme beings? Just how powerful was this? It really was heroic and domineering!

“What was the result?” Even though they knew that Great Elder was unharmed, returning peacefully, many people were still overwhelmed by emotions.

“Great Elder killed two great supreme beings in succession, seriously wounded another! If not for even more creatures appearing from the other side, Great Elder’s accomplishments might be even more glorious!” Shi Hao said.

Hong!

This place completely erupted.

Many people felt their blood boil. When they looked at the current young and heroic great elder, all of their eyes burned fiercely, feeling incomparable admiration and respect.

“Raising my Imperial Pass’ divine might, Senior Meng is a heaven warping hero!”

A few people roared out.

“Follow me.” Meng Tianzheng said to Shi Hao.

There was a mountain region ahead that surged with chaotic energy. Great Elder brought Shi Hao into a mountain forest. There was an extremely ancient giant palace inside.

This was one of the places where Great Elder normally cultivated in seclusion.

The others stopped, unable to enter.

“Senior, how are you really feeling?” Shi Hao felt more and more worried, fearing that something unexpected would happen to Great Elder.

When he spoke up to here, he quickly produced a jade bottle, inside of it a sparkling leaf that carried rich fragrance. It was precisely the immortal medicine leaf he obtained not long ago.

Great Elder shook his head, not accepting it. Many cracks appeared on the surface of his body, like cracked porcelain, truly terrifying, as if his body might break apart at any time.

“What a pity, I was just that close!” Great Elder shook his head, saying with a sigh.

Shi Hao’s mind immediately fell.

“You do not need to worry, I’m fine. I only feel a bit of regret, if those attack methods and tempering were a bit greater, perhaps it would be a great opportunity.” Great Elder said.

Then, he explained to Shi Hao that the ancient method he cultivated was extremely special.

“I previously used the body as a seed, but something unexpected happened, thus almost dying in the process, later on reborn within ashes. This time, I wanted to use this chance to refine my body, but the amount of force wasn’t enough...”

Great Elder’s words immediately left Shi Hao shocked and stupefied.

Great Elder's cultivation had reached a critical moment, intentionally fighting head-on in the great battle, giving up many techniques and methods, wishing to borrow those supreme beings to temper his own body, help himself carry out a crucial transformation.

This was naturally extremely dangerous!

It was because every move from the enemy was life threatening!

Shi hao felt like Great Elder might be even stronger than what he displayed in that battle.

"The tempering didn't completely go as expected. I wish to enter seclusion, try to break at the limit." Great Elder said. At the same time, his injuries really weren't light.

When he spoke up to here, with a raise of his hand, his palm shone. The rotten wooden chest appeared.

Previously, he used great magical force to hide the wooden chest's aura. Now, he held it in his hands, carefully examining it.

In the end, Great Elder released a sigh. He didn't find out anything either. He had already carefully inspected it while fighting the great battle earlier.

Great Elder returned the wooden chest to Shi Hao, because he had no way of opening it.

"You killed countless enemies this time, making the other side suffer disastrous losses. Do not underreport, tell everyone what happened. Your contributions this time are just too great, Stone Clan within Imperial Pass should be able to free themselves from sin!" Great Elder warned.

Shi Hao bowed respectfully. He truly felt the greatest admiration for Great Elder. If Great Elder didn't take action, he definitely wouldn't be able to return alive.

"Go then." Great Elder closed his eyes. He had to enter seclusion, the first was because he wanted to carry out a great transformation, the second was because his injuries really were serious.

#### Chapter 1536 - Meeting

Shi Hao left the giant palace. He carried the rotten wooden chest in his hands, arriving in the outside world.

This triggered an uproar. When some people saw the wooden chest in his hands, they immediately knew what it was!

It was precisely this chest that caused the foreign great army to make such great moves, not hesitating to put themselves in danger, surrounding Heavenly Beast Forest, Divine Medicine Mountain Range and other places. It truly was shocking.

"This is that wooden chest?" A few people's voices were trembling, some even more so long rushing over, wishing to see just what was special about this place.

Shi Hao didn't stop them, instead acting quite generous, allowing them to look as they pleased. It was because regardless of whether it was him or Great Elder, none of them had any way of seeing through its profound mysteries. If someone was able to think of a way to open it, then things couldn't be better.

“Where is Shi Hao?”

“Where is Huang right now?”

Meanwhile, a large group of youngsters rushed over from the distance, shouting and hollering. They were all familiar people.

For example, Cao Yusheng, Chang Gongyan, Wei Family’s Four Phoenixes, Heavenly Horned Ant, and others, A large group rushed over. When they received news of Shi Hao’s return, they were all shocked.

“Shi brat, you came back, yet you didn’t show yourselves before us?” The little rabbit even more so cried out with wa wa sounds. It was as if she never grew up. Ever since Shi Hao first met her, she always looked like she was in her pre-teens, white like jade, silver hair hanging to her waist, large eyes like rubies.

Exiled Immortal, Ten Crown King, Shi Yi, Six Crown King Ning Chuan and the others also came. They were all shocked. When they heard Shi Hao came back alive, all of them were moved.

Apart from this, Great Xu Tuo, Daoist Qi Gu and others also came.

Even Wang Family and Jin Family’s people also came, for example, Wang Xi and Jin Zhan came together. They were too shocked, never expecting Shi Hao to make it through.

“Completely a monster! So many days passed, yet he can still return alive, managing to wait until Meng Tianzheng rescued him!” These were the words of Wang Family’s people. They all rushed over quickly.

It was because the item Shi Hao brought back was extremely important, making all great powers moved. All of them wanted to understand more.

“Shi brat, you really are alive! Your life really is stubborn!” The little rabbit cried out in an exaggerated manner, running over. It was because right now, she already saw Shi Hao.

As for the Heavenly Horned Ant, he even more so screamed out, turning into a streak of light, rushing over. Meanwhile, there was also an Emperor Butterfly who rushed over with it, also dazzling with brilliance.

“Shi Hao, you... really aren’t simple! You actually made it through!” Cao Yusheng cried out.

So many people hurried over, but when Shi Hao saw Cao Yusheng, he was immediately shaken. He wouldn’t forget the people and events that happened in Ancient Burial Region.

That person, the Cao Yusheng after endless years, was an old friend who emerged alone after being buried for who knew how many generations.

What was going to happen many years from now? Shi Hao had no idea even now!

The Cao Yusheng before his eyes gradually merged with that fat daoist. Shi Hao was shaken, there were many things that were too hard to say.

At the same time, he looked towards the little rabbit. One had to know that after endless years passed, Cao Yusheng seriously warned him to properly take care of the Lunar Jade Rabbit, because the future her 'disappeared'.

"Have you gone stupid? Why aren't you saying anything? Why do you look so silly after seeing us?" The Lunar Jade Rabbit teased.

In reality, they were all extremely moved, overjoyed that Shi Hao was able to return alive. However, they didn't want to show their past worry, so all of them were acting lively here.

"We all previously left the city, wishing to save you from Heavenly Beast Forest, but we were all sent back with a wave of Great Elder's sleeve!" Cao Yusheng said.

Chang Gongyan nodded from the side. Back then, the youngsters' blood were boiling, all of them wishing to rescue Huang, but they were stopped.

"Brother Huang being able to come back safely alive really is a joyous matter, one worth celebrating!" The owner of the Five Spirits War Chariot Qi Hong said while laughing greatly.

Even Ten Crown King walked over. Normally, he wasn't very close to Shi Hao, but right now, he also spoke, "I also wanted to rescue you, but I was sent back."

"Shi Hao, you are fine right?" Qing Yi appeared. After entering Imperial Pass, she had always been cultivating bitterly, always cultivating in seclusion. There were great figures giving her pointers.

It was because she seemed to have some connection with Immortal Qing Yue from the last great era. There was a flame seed that accompanied her by her side, previously projecting some of Immortal Qing Yue's 'past'.

Only recently did she come out of seclusion. When she learned of Shi Hao's matters, she was extremely worried, only today was there good news.

The witch also appeared, revealing a faint smile, exuding charm. Even now, she still stood against Qing Yi and Yue Chan.

In the three thousand provinces, there was the Heaven Mending Sect and Sky Severing Sect, while in the Nine Heavens Above, there was the Heaven Mending Dao and Sky Severing Dao, known to be long life inheritances. They were both powerful sects, comparable to long life families.

A group of people rushed over, it really was too lively here.

Shi Hao snapped back to reality, responding to them one after another, especially Qing Yi. Ever since he entered Imperial Pass, it had been a long time since they last met. Moreover, there were even some ambiguous things that happened between the two of them before.

"Just what kind of stuff did you do? Did you just find this chest, and this made the other side make such a big fuss, swarming over to surround you?" The little rabbit asked.

Shi Hao laughed loudly and said, "This is that chest. You all can examine it yourselves."

He handed it over. As a result, the group of people pushed and shoved about, all of them wishing to be the first to see it.

Hong!

Great wings swept about, Ten Crown King and Exiled Immortal faced off, both of them wishing to be the first to get their hands on it.

In the end, even Imperial Pass long life families' geniuses Tuogu Yulong and the owner of the Five Spirits War Chariot Qi Hong reached out a hand, competing with each other.

Of course, this wasn't going all out, just a type of positive exchange of pointers, extremely peaceful. They all displayed some methods.

"Wa wa, this is mine! Did you all not see that I am the first to seize it! Let me take a look first!" The Heavenly Horned Ant shouted.

When everyone saw this, they were immediately speechless. He said he seized it, but this fella was only the size of a finger, right now laying right on it!

"Turns out even being small has so many benefits..." Cao Yusheng muttered.

"If you don't want to accept it, then I'll beat you until you see stars!" The Heavenly Horned Ant cried out. With a hong sound, its golden fist enlarged, smashing into Cao Yusheng's face, sending him flying.

"Beansprout, stupid ant!" After receiving this surprise attack, Cao Yusheng cried out furiously.

"Haha..." Everyone laughed.

In the distance, Wang Xi was silent. She watched as everyone laughed and cheered, but had no way of going over. It was because the relationship between Wang Family and Shi Hao really was too terrible.

There were naturally quite a few people from Wang Family here, all of them coming for the wooden chest. They all watched quietly from the side, their expressions cold.

Jin Family's Pride of Heaven in this generation -- Jin Zhan, was also here. He inwardly released a cold snort. He was known as Heaven's Pride of a generation, one of the most powerful individuals of this generation, he never accepted Shi Hao.

However, right now, they were at a critical juncture, there was no way he could provoke the other party. This would draw the disgust of others, bringing misfortune onto himself.

Princess Yao Yue was all smiles. She gave Wang Xi a look, and then walked towards Shi Hao. She was always at odds with Wang Xi, her family supported Great Elder Meng Tianzheng greatly. The Immortal King Corpse Wrapping Cloth was precisely lent out by her family.

"Shi brat, tell us a bit about what happened, what you ended up encountering outside!" The Lunar Jade Rabbit was the one who acted with the least restraint, already asking him about what happened along the way.

The group left this mountain region, heading towards a flourishing place, preparing to hold a greatest feast.

"I've seen everything that could be seen, Gu Clan's inheritor, Emperor Clan's so-called young great one, He Wushuang's descendant, there were even more countless old monsters."

Shi Hao sighed inwardly. He even saw supreme beings, faced them under close quarters.

"How did you live? Did you fight with them? How many did you kill?" one of the Wei Family's Four Phoenixes asked out of curiosity.

"I really killed quite a few of them. If I include the ones that I indirectly killed, there is at least a few thousand I reckon." Shi Hao said.

"What?" Many people cried out in alarm.

It was because they knew that the other side were all experts. This number really was a bit terrifying.

If they knew that Shi Hao killed many Self Release Realm great cultivators, then they would definitely be even more shocked!

Shi Hao didn't plan to hide anything, because he still wanted to absolve Imperial Pass' Stone Clan of their sin. He needed accomplishments, so he wanted people to know about these contributions.

As such, he began to tell his story.

"Ah, you even encountered the so-called undead knights? That's crazy!" A group of people cried out in alarm. They didn't understand those creatures at all, never hearing anything about them.

"You killed them well!" When they heard Shi Hao talk about how he killed a few lions from the Fearless Lion bloodline, the group of creatures clapped joyously, all of them moved.

It was because the past events with the Fearless Lion really were too hateful. They guided the enemy inside, causing the Nine Heavens Ten Earths to suffer greatly.

"Didn't they say that one of them retraced his ancestry, becoming even more powerful than the ones you killed? Did he not die in the end?" Someone asked.

"It's right here." Shi Hao released the golden lion, presenting it before everyone's eyes.

When the golden lion appeared, it was a bit stupefied. Then, it glared furiously at everyone, because everyone criticized it greatly, not treating it with any respect.

"Behave yourself, you are my mount, and these are all my friends." Shi Hao gave it a strike.

Everyone was shocked and envious. If one rode this type of unique beast onto the battlefield, just how extraordinary would they look?

"You killed many experts, even fought with someone from an Emperor Clan?" Quite a few people were shocked.

In the distance, Jin Zhan sneered, and then said with a snort to himself, "Who knows if what he says is true or fake? Who knows, he might have even been taken captive!"

The others heard this, but they didn't dare clash with him.

There were older generation figures from Jin Family here. They inwardly stopped him, not letting him act rashly.

Moreover, right at this time, an elder with great status from Jin Family walked over, saying, "Was this wooden chest brought back by you from outside?"

"Correct." Shi Hao turned around. He gave this person a look, even though he wasn't happy with Jin Family's people, he still replied.

"Then that's good, this chest is related to too much. Now that we confirmed this, please hand it over for the dignified and virtuous seniors in the city to research!" That person said.

#### Chapter 1537 - Beat Down

When Jin Family's elder said this, the originally lively scene immediately became much more quiet. They all turned around.

This place seemed to have become a bit stiff, because this really did ruin the atmosphere considerably. Jin Family's people actually dared to make this type of demand at this time.

Of course, there were some people who believed that this was perhaps reasonable, because the rotten wooden chest was related to too much, for the public's sake, Shi Hao needed to hand it over for the various clans' elders to research.

However, most of them sensed the Jin Family's elder did this on purpose, doing this with the intention of oppressing Huang.

It was because the disturbance Shi Hao produced was a bit too great, making the foreign side lead great armies to surround Heavenly Beast Forest, to the extent where it even resulted in a great battle between supreme beings. Meanwhile, the 'perpetrator' came back safely, so all attention was concentrated on him right now.

Previously, almost ninety percent of people believed that Shi Hao was going to die outside the pass, destined to die an untimely death. However now, it was a completely different matter.

Forget about everything else, just Shi Hao's vigor alone, the bravery to overturn Desolate border left Imperial Pass in shock, he really was stunning.

Let alone the fact that he successfully brought the wooden chest back!

Even the other side was dead set on obtaining this thing. Now that he seized it, bringing it back to Imperial Pass, this was a huge matter, as well as a tremendous contribution.

Regardless of what happened, Shi Hao had to be granted a reward. He moved unstoppably through Desolate Border, drawing sighs of admiration from all clans.

Jin Family's people coming out at this time was clearly to suppress his 'brilliance', delivering a targeted blow. To be more precise, they wanted to weaken his limelight, suppress his fame.

This brought about the dissatisfaction of some people, for example, the Heavenly Horned Ant, Cao Yusheng, and Chang Gongyan, all of their expressions changing.

Qing Yi spoke up, saying, "Shi Hao brought back such an important wooden chest, his contributions so great, it could even be said to be an extraordinary achievement, no matter what you think of it, it needs to be respected. Meanwhile, you hold this type of attitude, presenting this type of appearance, are you not scared of drawing cold looks from the masses?"

These words were calm, but their weight wasn't light, making the expression of Jin Family's elder immediately change.

"Well spoken! Huang risked life and limb, slaughtering left and right outside Desolate Border, bringing back a supreme treasure, yet you are so cold, what are you trying to say?" Cao Yusheng also questioned fiercely.

There were some people who were upset, complaining about injustice.

There weren't only youngsters here, some older generation figures from various clans were also startled, rushing over, wishing to learn more about the situation.

When they saw this, many of them revealed strange expressions.

Of course, there were naturally some who were partial to Jin Family, the followers and families that had close relationships with them.

"Senior Jin doesn't have any bad intentions, it is you who is too sensitive, overthinking things." Someone said.

"Cough!" An old woman even more so coughed, saying, "You should just hand over the wooden chest. We will ask the higher ups to research it."

Those affiliated with Jin Family spoke up one after another. Even though they admitted Shi Hao made contributions, they still demanded the wooden chest, moreover pressuring him to do so.

Their attitudes were clearly the same, which was matching the tone of the Jin Family elder who spoke out before, wishing to suppress Shi Hao's brilliance no matter what.

Chang Gongyan spoke up, speaking seriously, "If everyone here was like you all, who would even be willing to risk their lives? Huang clearly returned with achievements, yet you all treat him like a sinner, this cold, putting on such airs. Who gave you all this authority?"

"Youngster, you are overthinking. We do not have selfish intentions, just that things are pressing, needing to invite various experts to study this wooden chest's secrets together."

The Jin Family elder who spoke up first spoke again. His name was Jin Yi, a great cultivator who had already reached the Self Release Realm for some time.

At this level, he could naturally overlook the masses. At the very least, he was definitely a great expert in Imperial Pass.

"You still have the nerve to say you have no selfish motives, can't you just be a bit more modest? Ordering people around like this, aren't you all just jealous of Huang? You want to beat him down, it really is angering me to death. Utterly shameless!" The Lunar Jade Rabbit was even more direct. Even

though she was extremely tender and pure looking, silver hair soft, large eyes bright, she wasn't docile at all, crying out with wa wa sounds.

"Heng, I admit that Huang has established quite the merit this time. "Jin Yi released a cold snort, speaking like this. Then, he looked at the group of youngsters coldly and said, "However, the trouble he has provoked isn't small!"

"No sense of shame, you clearly want to suppress Shi Hao, what trouble not small, why don't you point it out, tell us a bit!" The Lunar Jade Rabbit flipped out.

No one expected this little girl's words to be this fierce, actually clashing head-on with a great cultivator, moreover, her words not showing any restraint. *no ve/Lb-1n*

Shi Hao didn't say anything, just watching. It was because he had confidence, wishing to see what Jin Family really wanted to do.

"Senior, speaking like this really is a bit lacking in fairness. Just what kind of trouble has Shi Hao provoked?" Qing Yi still remained calm, asking like this.

"You all know, for the sake of him, what kind of price Senior Meng Tianzheng paid, returning seriously injured. For the sake of a trifling Void Dao Realm cultivator, a supreme being almost died, is this kind of trouble not great?" Jin Yi said with a loud voice.

When they heard these words, a few people became indignant, feeling like he was purposely nitpicking.

The Heavenly Horned Ant was the first to erupt, berating, "Did your Jin Family's supreme being come to Imperial Pass, leave the city? They never thought of providing rescue, right? Now, you all are putting on this type of righteous appearance, even having the nerve to speak nonsense about supreme beings in danger!"

"Senior Meng has a master and disciple relationships with Huang, he went out of the city to rescue Huang, successfully returning, Huang even brought back the wooden chest that made the other side go crazy! This is originally an extremely joyous situation that is worth celebrating, yet you all are looking for bones in an egg, looking for trouble when there isn't any, what are your intentions?" Cao Yusheng also shouted.

"Is there something wrong with your eyes?" The Lunar Jade Rabbit was the one most daring to speak out, directly berating, "The other side sent out a massive army all for this chest, even many supreme beings sent out, this alone enough to prove just how major this affair was. Meanwhile, our Imperial Pass should have went to fight a decisive battle, dispatch out elites to seize back this wooden chest. In the end, Senior Meng, out of fear that our clans might suffer losses that were too severe, left the pass alone, taking the risk, fighting against supreme beings alone. This is originally a glorious story, why does it seem completely sour coming out of your mouth? Your Jin Clan's Jin Taijun not leaving the pass is one thing, yet you still berate others, what is the meaning of this?!"

The little rabbit screamed with wa wa sounds. Forget about the youngsters revealing cold expressions, even the older generation figures of other clans frowned, their expressions not that good when looking at Jin Yi.

“Heh heh, the young will always be hot-blooded. Precisely, this is a good thing.” Wang Family’s people walked out, an elder speaking. He tried to dissolve the situation for Jin Yi, saying, “Brother Jin was just a bit anxious, his words couldn’t help but become a bit heavy. The main thing is that he was worried for Senior Meng’s safety. The loss of a supreme being is too great, they are the greatest force protecting my Imperial Pass after all.”

When Wang Family spoke like this, just how many people would believe them? It was because many people knew how much they loathed Shi Hao and Meng Tianzheng.

“Right, Brother Jin had good intentions, for the sake of a healthy environment, he was worried for Senior Meng’s condition, which is why his words were a bit heavier.” One of Jin Family’s followers parroted, speaking like this.

Meanwhile, in Jin Family’s direct line of descent, there was a middle-aged man whose eyes were like lightning, also speaking. He looked towards Shi Hao, saying, “Youngster, you really are calm. The people here really are starting to develop some misunderstandings. If you explained yourself a bit earlier, it wouldn’t have ended like this. Could it be that you feel that your contributions aren’t small, becoming overconfident, now feeling our words are beneath you?”

When he heard these words, Shi Hao no longer remained silent. He gave Jin Family a cold look, saying, “Shameless, is there a need for me to explain myself to you all? All of you really think of yourselves as infallible!”

“You really are arrogant. Do you think that just because you established great merit, you dare look down on us like this?!” The middle-aged man Jin Kun shouted.

He was also a great cultivator at the Self Release Realm.

From the side, Jin Yi’s face immediately fell, saying, “Youngster, no matter where you are, no matter what kind of great achievements you have, your seniors are still to be respected.”

It was clear that these two were both super experts, as well as the two most powerful people from Jin Family, so they somewhat targeted Shi Hao.

Shi Hao seriously suspected that the family who attacked him in Heavenly Beast Forest might be Jin Family. He had reason to suspect this.

It was because Jin Family treated him so terribly as soon as he came back, making him develop many associations.

“The worth of a person is something one understands themselves. If one doesn’t want any face themselves, would others leave them any?” Shi Hao said with an ice-cold voice.

Everyone was shocked, even Cao Yusheng and the others never expected Shi Hao to be this powerful. This was but a Self Release Realm great cultivator he was facing, yet he didn’t lower his head at all!

At the same time, a few people flew over, all of them youngsters, carrying news.

“Things don’t seem too good!” Cao Yusheng walked up. He tugged at Shi Hao’s sleeves, secretly transmitting sound, saying, “The soul lamp outside Senior Meng Tianzheng’s giant palace where he is

secluded has dimmed considerably! I believe the reason why Jin Family dares act out is precisely because of this!"

Shi Hao's mind fell. The so-called soul lamp indicated Great Elder's current condition.

However, soon afterwards, he calmed down again. It was because before leaving, Great Elder had clearly told him that he was fine, on the contrary, trying to carry out a transformation!

Jin Family's great cultivators had been opposed by Shi Hao. not given any face, making many people from this clan reveal cold intent and anger. At this time, Jin Zhan spoke.

"Huang, you've crossed the line. Do you know who you were talking to just now?" Jin Zhan's presence was powerful, pupils shining, incredibly intimidating.

Shi Hao turned around, looking towards this genius from Jin Family who was known to have the best talents, someone no one could match. He coldly responded, looking at him and saying, "Do you know who you are talking to?!"

#### Chapter 1538 - Heaven's Pride Suppressed With One Form

Everyone's expressions became rigid, the atmosphere immediately becoming tense. It was because Huang was too bold, this really was opposing with equal harshness, not caring about Jin Family at all.

"Youngster, you've crossed the line! Are you not going to show any respect even when facing your seniors?" At this time, a few followers under Jin Family spoke up one after another.

As for Jin Zhan, he even more so showed a great change in expression. He was known as someone undefeated, the one with the greatest talents from Jin Family from past until now. His talents were extraordinary, few could compare, who dared to look down on him?

However now, Huang was clearly looking at him with contempt, not putting him in his eyes at all, words carrying threat. His expression immediately became cold, berating, "Unbridled!"

When this word sounded, this place immediately became filled with tension, the atmosphere becoming incredibly heavy, as if a storm was brewing.

"Even someone like you dares to say this word to me?" Shi Hao was extremely calm, but his tone was unquestionable. He stood his ground, looking at Jin Zhan indifferently.

"Humiliating my seniors, not knowing respect, so what if I call you unbridled?!" Jin Zhan said with an overcast voice. At the same time, a sneer appeared on the corners of his lips.

He walked forward, his footsteps heavy, making this great earth rumble with noise, tremble. There was a heavy feeling that made many people feel inwardly alarmed.

Everyone sensed Jin Zhan's incomparable power. At the very least, rarely did others match him in the younger generation, exceeding everyone's expectations.

"Acting so noisy before me, who do you think you are?" Shi Hao said coldly, an expression of disdain on his face. He really didn't attach any importance to Jin Zhan.

“Unbridled!” This time, Jin Zhan was furious. It was still this word, but the meaning was completely different. This time, he released a wave of pressure and intimidation. The ‘unbridled’ this time was directed at Shi Hao’s disrespect towards himself, and not acting in place of his elders.

“What is going on? Could it be that Jin Zhan broke through?” Someone said with a trembling voice, extremely shocked.

This wasn’t like the aura of a Void Dao Realm cultivator, it was too powerful.

At the same time, many people from Jin Family revealed smiles, even the two great cultivators Jin Yi and Jin Kun no exception. A calm smile rested on their lips.

They knew that Jin Zhan’s talents were extraordinary, indeed taking that crucial step. At his age, he really could look down on the younger generation. Who could contend against him?

That was why they weren’t worried at all. If Jin Zhan used this chance to beat Huang down, then this would definitely produce a huge commotion, leave them overjoyed

In reality, after Huang returned alive, establishing great merit, all attention momentarily concentrated on him, Jin Family already had this type of intention.

It was because they always wanted to mold Jin Zhan into the leader of the younger generation, but Huang was always so powerful, few able to match him.

Meanwhile, this was an opportunity. While Huang was at his very peak, if he could be suppressed, if Jin Zhan was clearly above him, then it would fix his position as unmatched in the younger generation.

They had actually long made this type of plan, preparing to have Jin Zhan step over Huang.

However, they didn’t expect it to be carried out right now. The atmosphere was too tense, so they felt like they could let Jin Zhan go, let him take action.

“To use the word unbridled against me, you aren’t enough, not worthy!” Right at this time, Shi Hao spoke, his expression becoming even more chilly.

Moreover, at this moment, he moved, his great sleeve fluttered. With a honglong noise, heaven and earth split open, his power shocking to the extreme!

Sand and rubble flew everywhere, the void splitting apart.

Jin Zhan was currently pressing forward, with a slight bit of carelessness, his footing became unsteady, staggering backwards, almost falling on the ground.

He continuously backed up, eventually almost flying out. He walked back a great distance, leaving behind a trail of deep footprints on the ground.

Wang Xi hurriedly walked up, supporting him. She was extremely shocked, beautiful eyes giving Jin Zhan a look, and then she looked at the steady and unmoving demonic god-like Huang.

The others all turned pale with fright, all of them incomparably shocked. How strong was Jin Zhan? However, in the end, he was forced back with just a swing of Huang’s sleeves? This was too inconceivable!

Jin Family's people felt their hearts pound, all of them staring deathly at Shi Hao.

As for Wang Family's people and other cultivators, there was even less of a need to say anything. They were all completely shocked!

Peng!

Jin Zhan had Wang Xi let go. He stabilized himself, eyes staring at Shi Hao. Then, he suddenly erupted with terrifying energy, battle armor becoming brilliant, as if a heavenly sun fell here. nove)lb-1n

"As expected, this is cultivation at the Self Severing Realm!" Someone said with shock.

Just now, Jin Zhan still held back, only revealing a bit of his loftiness. Now, he completely released it, fully displaying his own cultivation's might.

Self Severing Realm, at his age, even though it wasn't unprecedented, it was still rarely seen since ancient times. A great expert this young was enough to shock the world.

"Huang, I've wanted to fight you for a long time. A fixed date isn't as good as an immediate chance, let's settle things today!" Jin Zhan shouted.

At this moment, his hair flew about, every strand sparkling, entire body brilliant, surrounded within a divine ring. He was like an unmatched deity, one who was worshipped by all life.

His aura was exceptionally powerful, an outstanding existence within the younger generation as expected.

Right now, he formally challenged Huang!

He was full of confidence to begin with, already wishing to face Shi Hao at the Void Dao Realm. However, he was stopped by his clansmen.

Now, he was brimming with confidence, entering the Self Severing Realm at such a young age, able to look down on all of his peers, he didn't fear anything, wishing to suppress his opponent.

Quite a few people revealed worried expressions, worrying for Shi Hao, for example, Chang Gongyan and the others. They had previously heard Shi Hao talk about his past experiences outside Imperial Pass, knowing he killed quite a few enemies, but they only heard him talk about the matters of capturing and killing the foreign side's younger generation, for example, the Fearless Lion bloodline's experts, moreover subduing the one who retraced its ancestry. They didn't hear about the later experiences in Heavenly Beast Forest, his breakthrough into the Self Severing Realm, being able to kill Self Release Realm cultivators.

That was why Qing Yi and the others' expressions all changed, wishing to stop him.

However, Shi Hao made a motion, raising his hand to stop them. He still remained easygoing, extremely calm, not feeling the slightest bit of nervousness.

"You're too weak! You even dare challenge me like this? You don't have the qualifications!" He spoke this kind of sentence.

When these words sounded, this place became silent. Everyone was stupefied, looking at him in shock.

Wang Xi revealed a shocked expression, not daring to believe this. Could it be that Huang really could look down on Jin Zhan?

As the party directly involved, the face of Jin Zhan who issued the challenge immediately became cold. The light released by his pupils were like blades as they stared at Shi Hao. Then, he erupted with heaven piercing radiance.

Around him, the divine ring was enormous, surrounding him. His aura instantly reached the peak, reaching the highest level of his current cultivation realm.

He said coldly, "Huang, you are incredibly insolent. Today, I will teach you a lesson, suppress you in front of everyone!"

Jin Zhan truly was quite strong. Even though he just entered the Self Severing Realm, still in the beginning stage, he erupted with astonishing power, leaving even those at the late stage of the Self Severing Realm shaken, asking themselves if they were his opponent.

"Be careful!"

Cao Yusheng and the others all cried out, warning Shi Hao.

It was because he was just too easygoing, not the slightest fluctuation released from his body. He still stood there, not like he was fighting a decisive battle at all.

Hong!

Jin Zhan took action. His right hand condensed a sword art, releasing glorious sword radiance. It tore through the sky dome, hacking at Shi Hao. That sword light was too brilliant, simply about to pierce through the heavens.

However, when faced with this terrifying attack that was enough to intimidate the younger generation, Shi Hao was extremely calm. He only slowly raised his hand, pressing outwards.

Solitary Buddha Eight Forms, first form!

This attack seemed ordinary, and also quite simple. At first, it didn't release boundless divine might, only a simple and ancient great dao spreading. Only later did it erupt.

When that heaven reaching sword radiance hacked over, Shi Hao's body became sparkling, a dazzling divine ring appearing behind his head. It was as if a war buddha revived, the aura terrifying.

Honglong!

Shi Hao used the first form of the Solitary Buddha Eight Forms, directly suppressing the sword light, scattering it. It was because the so-called Solitary Buddha Eight Forms specialized in seeking out one's weaknesses, the attacks efficient and terrifying.

Then, another form displayed might, producing a wave of terrifying divine light. It was as if the aura of a buddha shone, illuminating the sky dome.

With a peng sound, Jin Zhan's body flew outwards, coughing out large mouthfuls of blood, all of the dazzling battle clothes exploding. He fell into a pool of blood, seriously injured.

It was just one form, but it was enough to suppress Jin Zhan!

Everyone was completely stunned, stupefied. This place became dead silent, no one saying a word.

Even Jin Zhan's family were petrified, unable to accept this result.

How could this be possible? Just how powerful was Huang? He actually defeated Jin Zhan with a single move! This left everyone dumbstruck, unable to say anything for a long time.

"How could it be like this?" Jin Family's people cried out.

Even now, the others felt as if they had just woken from a dream.

"Too strong! Huang actually struck the heaven warping Jin Zhan flying with a single move! This is inconceivable!"

Everyone cried out in alarm. As for Cao Yusheng, Qing Yi, and the others, they were pleasantly surprised. They never expected victory to be this easy.

"Self Severing Realm... middle stage!" Jin Zhan coughed out blood, speaking like this.

The cultivators here were shocked again. Huang was this young, yet he was already a cultivator at the mid stage of the Self Severing Realm? This really was hard to believe!

No wonder he could defeat Jin Zhan with a single move! This wasn't because his methods were profound, but because he had the advantage in cultivation realms, able to oppress the other side!

Just how terrifying was this? Huang was a few years younger than even Jin Zhan. At this age, there was likely none before him. At the very least, he seemed to have exceeded all those before him in this great era!

The expression on Wang Xi's beautiful face was complicated. She looked at Shi Hao, feeling incredibly shocked, never expecting him to be this powerful.

Chapter 1539 - Unprecedented

Mid stage of Self Severing Realm!

Jin Zhan spoke this himself. Everyone here widened their eyes, great waves stirring within them, somewhat unable to believe the reality they were hearing.

Just how old was Huang? He was but twenty-five or six, yet he was already a Self Severing Realm expert? Moreover at the mid stage!

This type of accomplishment should be unprecedented, right?

It was because according to the recordings in bone books, the youngest Self Severing Realm cultivator of this great era was still close to thirty years of age. Huang was a few years earlier, just how heaven-defying was this?

Not long ago, he was still in the Void Dao Realm, yet now, he immediately broke into the Self Severing Realm's mid stage, this speed was too fast! It made everyone shudder inwardly.

From past until now, how many people in the younger generation could do this?

At the very least, there were none at the mid stage of Self Severing Realm, initial stage maybe one or two, two or three, moreover all recently broken through.

However, these people were all a few years older than Huang, around thirty years of age.

Many people were stupefied, unable to say anything for a long time. They looked at Shi Hao with the eyes of looking at a monster. This really was a legend shattering existence!

Soon afterwards, some people calmed down, clearly realizing that from today forth, there would most likely not be anyone in the younger generation who could be Huang's match!

It was because from here on forth, Huang's opponents would be the older generation figures, none of the same generation able to keep him in check. He had already risen above!

When they thought of this result, even the older generation figures were shocked.

For the other youngsters, Huang was no longer a rival. They didn't know if they should feel happy or sigh.

"From past until now, no one has achieved Self Severing Realm while at the age of twenty-five or six, moreover the mid stage!"

An elder said with a sigh. When he looked at Shi Hao, his eyes released brilliance, really wishing to rope him into his own family. This really was a type of glory and honor.

"None before him, already at the very forefront!" Even a long life family from Imperial Pass sighed with admiration.

Having this type of accomplishment at this age, this exceeded normal reasoning, the effects extremely great. They were witnessing the rise of an exceptional genius.

In the past, it was hard to rise even a bit above any record. However, this time, Huang directly broke it by a few years, who wouldn't feel shock?

Right now, those from Wang Family felt complicated expressions, feeling shock and worry. Huang's growth speed was too fast, making them feel a bit uneasy.

If not for them having Immortal Wang overseeing their clan, they really would feel a bit fearful.

As for Jin Family, right now, they only felt hatred. They wanted to make the heaven warping Jin Zhan into the leader of the younger generation, yet in the end, they were defeated just like that.

Jin Zhan lost this battle, losing too much!

Princess Yao Yue laughed. She looked towards Jin Zhan and Wang Xi, raising her beautiful chin, extremely happy. It was because her family stood against the other party.

"Haha, this really is a nice surprise! Shi brat, don't tell me you ended up with some nice things outside Imperial Pass? How did you suddenly become so full of life?" The Lunar Jade Rabbit said while giggling and laughing. n))Ovelb1n

Qing Yi, Chang Gongyan and the others all became happy as well. This result was a bit hard for them to believe. They were feeling worry just now, never expecting Shi Hao to win this easily.

"That fellow always has on that arrogant appearance, but he ended up like this, couldn't take a beating at all." The Heavenly Horned Ant muttered.

Not many people were willing to agree or joke about this. Jin Zhan was definitely not weak, if it was anyone else who went up to fight him, who could be sure they could win? It was only because the one he encountered was the freakish Huang!

This place momentarily could not calm down. Many people began to discuss fervently. Their eyes were all burning fiercely when they looked towards Shi Hao.

Surprisingly, Cao Yusheng was shaking his head, putting on a pensive look, saying with a sigh, "Sigh, this is a lonely path, you all don't understand."

"What kind of nonsense are you spouting?" The little rabbit was discontent.

"I recalled some words my master told me when he was sober." Cao Yusheng said.

"That master of yours isn't reliable at all, always saying something about someone burying you. Do you really believe this?" The Lunar Jade Rabbit asked him, her eyes wide open.

Cao Yusheng didn't reply, a bit absent-minded, mind wandering. He said to himself, "Forging ahead on a solitary path, rise up in silence and fight!"

"What are you saying? Absolute nonsense!" This was the Heavenly Horned Ant's evaluation, looking down on Cao Yusheng.

"You all can just treat it as rubbish if you want! Perhaps many years later, you all will feel that for some people, or a period of time, a corner of the greater situation will be uncovered!"

Right at this time, Jin Zhan stood up. He wiped away the blood at the corners of his lips, staring straight at Shi Hao. He really couldn't accept this result.

To advance into the Self Severing Realm, moreover at his age, this already beat the youngest record in history, yet in the end, he was still defeated like this.

It could be said that he had just reached the peak of his life, yet this person trampled him right back down.

"I can't accept this! I still want to challenge you!" Jin Zhan's eyes released two streaks of blinding light. The tattered armor covering his body broke apart, entire body shining, blazing with divine flames.

He was igniting his battle intent, increasing his strength. He wanted to cut off his means of retreat, fight with Shi Hao again, to the extent where he would even burn his dao source to fight Shi Hao to the death.

"You cannot!" A group of people from Jin Family shouted out to stop him, worrying that he might die.

It was because they knew that Huang was definitely not someone who was soft-handed. He didn't have any good intentions towards Jin Family, he might very well directly deal the killing blow.

"I already said that you are far from being my opponent. You don't have the qualifications to challenge me." Shi Hao said mercilessly.

Jin Zhan's face was green and white. Not long ago, he was still berating Shi Hao as unbridled, yet in the end, the other side still looked down on him like this, that he didn't even have the qualifications to challenge him. He really wanted to roar towards the sky.

"I want to fight!" Jin Zhan said in an unyielding manner.

"This fella doesn't know the difference between being alive and dead, you might as well just get rid of him!" The little Heavenly Horned Ant was extremely fierce, urging him on like this.

The faces of Jin Family's people immediately became green, really wishing to directly devour it.

Suddenly, Shi Hao patted the golden lion, saying, "Go, help me deal with him, don't just watch from the side."

"You!"

Jin Zhan was furious, feeling humiliated. That was but a mount subdued by Shi Hao, brought back from Heavenly Beast Forest. He was actually having his mount take action.

At the same time, the golden lion also released a low roar, anger filling its eyes. Its bloodline was extremely noble, yet now, it was put to work like this. It really couldn't accept this.

"What are you shouting for? I've always wanted to try simmer-fried lion heads! If you don't want to be eaten, then behave yourself, obediently listen!" Shi Hao berated it.

The group of people's eyes were completely blank as they stared at this. They wanted to say something, but when they opened their mouths, they really didn't know what was good to say.

In their opinion, Jin Zhan was too unlucky, encountering this Huang that was even more domineering than himself, really kicking a metal board. The other party actually sent out a mount to fight him.

Of course, there were even more whose hearts trembled. This was but the descendant of the Fearless Lion, moreover one who retraced its ancestry, indicating just how noble and powerful it was. However, it was precisely this type of creature that was subdued by Huang into a mount.

"You bully others too far!" Someone from Jin Family roared out.

Even Jin Yi and Jin Kun, the two great cultivators' faces were ashen, looking coldly at Shi Hao.

"What are you all looking at? Wasn't it because you all acted so high and mighty, provoking us first? Especially that Jin Zhan, really thinking himself as some Pride of Heaven of a generation, berating Huang for being unbridled. In the end, this is nothing more than self-brought humiliation." The little rabbit was too direct, mocking him.

"Do you dare fight again." Jin Zhan stared at Shi Hao.

"It's your turn." Shi Hao patted the golden lion's head, having it go out and fight.

“Hou!” In the end, the golden lion carried anger, bringing raging flames as it threw itself at Jin Zhan, venting out all of its anger and resentment on him.

Jin Zhan couldn’t avoid a great battle even if he wanted to, he could only face this battle on the defensive!

Meanwhile, at this moment, everyone was frightened. This lion really was too strong, actually really fighting viciously with Jin Zhan, divine abilities world shocking.

“Worthy of being the descendant of the lion who followed Immortal Monk King!”

“This lion has retraced its ancestry, the blood flowing within it similar to its ancestor, destined to be exceedingly powerful!”

A few people discussed amongst themselves. It was because the golden lion’s battle with Jin Zhan was extremely intense, roars ringing continuously through the heavens, sand and rubble flying everywhere, irregular scenes emerging. Ghosts cried and deities howled, extremely astonishing.

Jin Zhan was absolutely furious. Could he not even win against the other side’s mount?

As for the golden lion, its face had long felt ashen. It was because Huang defeated his opponent so easily, yet when it was its own turn, it actually had to fight a bloody battle.

One had to understand that not long ago, it had entered Reincarnation Pool, experiencing an astonishing baptism there. Before, the benefits didn’t appear, but after these few days of training, its cultivation advanced, body becoming sturdy, becoming a level stronger than before. However, right now, it actually couldn’t immediately overwhelm its opponent.

This made the golden lion feel a bit impatient.

It had already risen into the Self Severing Realm, moreover completely solidified it. Originally, it still held a wave of resentment, preparing to find a chance to fight Huang in a decisive battle, but now, after seeing how its battle with Jin Zhan was going, it realized it still didn’t have the qualifications to face Huang.

Hong!

The two fought a bloody battle, continuously fighting over a hundred moves. Precious techniques split the heavens, the battle extremely intense.

“Enough!” Jin Family’s great cultivator waved his hand, separating them. He really couldn’t continue watching this. This battle completely lost all meaning, regardless of whether Jin Zhan won or lost, there was no glory.

Originally, the Fearless Lion who retraced its ancestry could be considered an extremely terrifying creature, if it wasn’t Shi Hao’s mount, if Jin Zhan faced it, ending things on a draw was fine.

However now, the meaning was completely different!

“Youngster, you bully others too far!” Jin Kun said. He stared at Shi Hao, expression unkind, carrying a wave of killing intent.

"It should be me who says these words to your Jin Family." Shi Hao replied coldly. Even when facing a Self Release Realm great cultivator, he still wasn't flustered, full of confidence.

Jin Kun walked up, his footsteps heavy. This made everyone's expressions change. Was he going to bully the small with greater power?

A trace of a cold smile appeared on the corners of Shi Hao's lips. What did Jin Family want to do? Jumping out so impatiently, wasn't it just too 'high-profile'? Did they want to bring away the wooden chest just like this?

He really became a bit suspicious. Could it be that this clan really did contact the other side?

Was the family that attacked him in Heavenly Beast Forest really them?

If this was the case, then it made sense. Don't tell me they wanted to immediately seize the rotten wooden chest, bring it out of Imperial Pass? Shi Hao's mind jumped. Of course, this was just a suspicion.

Heng!

Right at this time, a cold snort sounded, making the bodies of Jin Family's great experts go rigid, actually unable to move, as if there was a powerful great one warning them.

"Does Jin Taijun want to obtain this rotten wooden chest this much? Rumors are only rumors, this thing might not necessarily allow one to become an immortal king." An aged voice sounded from the dark.

These words left many people shaken. Was it a supreme being speaking?

At the same time, everyone immediately knew that Jin Taijun really did enter Imperial Pass. moreover extremely interested in this rotten wooden chest. The reason why the Jin Family dared to act so domineeringly was related to her.

"I was only a bit curious, I think we should still just research it together." An old woman's voice sounded.

Everyone shivered inwardly. It was clear that Jin Taijun couldn't leave, remaining together with a few supreme beings. Otherwise, she might have directly came!

"Little friend, come to ancestral altar. Us old ones have already waited for a long time." An aged voice sounded, talking to Shi Hao.

Everyone was alarmed. The supreme beings had long come out of seclusion after all, transmitting sound from who knew how many tens of thousands of li away.

Right at this time, a group of elders walked up, heading towards Shi Hao. Among them, there were Wang Family people who carried faint smiles, reaching out their hands, asking him to offer up the wooden chest.

Shi Hao originally didn't have any conflicting emotions, he wanted those from Imperial Pass to study this chest together. However, when he saw Wang Family's people, his face immediately fell.

It was because he understood that even Immortal Wang most likely came. Otherwise, Wang Family wouldn't suddenly have so much confidence.

“You all must not act rudely! This chest was obtained by little friend Shi Hao, seized while bathing in blood! Invite little friend Shi to the ancestral altar!” The aged voice sounded again.

At the same time, with a hong noise, Wang Family’s people flew out, coughing large mouthfuls of blood. Wasn’t this not giving Immortal Wang any face?

Everyone was shocked, realizing that this wooden chest made even the supreme beings unable to remain calm.

A golden path extended out before them, everyone stepping on it, and then they directly headed towards the central-most pure land of Imperial Pass.

Shi Hao was looking forward to this. This time, they could unravel the wooden chest’s secrets!

#### Chapter 1540 - Ancestral Altar

Ancestral Altar, also known as Ancestral Sacrificial Altar.

There were broken walls everywhere here, stone engravings ancient, towering everywhere. There were historical remains buried below, many left behind from the great battle of the last great era.

It was located at the center of Imperial Pass, the most ancient divine land.

There were the remains of former generations here, inscribed tablets of immortals, sacrificial lands that had existed forever, sealed stone rooms. It was rumored that there was someone who had overlooked this place for an entire great era without leaving.

Meanwhile, the few unmatched beings in Imperial Pass also remained here year-round. Unless there was a great battle, they never showed themselves.

It was rumored that those people might be even older than Meng Tianzheng, Immortal Wang, and Jin Taijun, that they were existences at the same level.

The golden great path was too thick, extending who knew how many tens of thousands of li. Shi Hao and the others were directly led to the outer regions of this place. A group of people landed.

From the distance, hazy mist covered everything. The debris, broken walls, and others were all mottled with the passage of time, the great changes of history. This place was in ruins, yet it still gave off a profound aura, as if a piece of living history was right before their eyes.

Even though the world before them was overgrown, right now, it didn’t lack activity. Today was quite lively, because many creatures came, all of them sitting on the ground or floor.

None of these people entered the depths of Ancestral Altar, all sitting in the outer area, on giant rocks or ruins, discussing spiritedly here.

They were all well-known figures from various clans, their numbers great, not less than a hundred thousand people.

These creatures had all already obtained news that Huang brought back a wooden chest. This concerned too much, all of them wishing to see what would happen, thus gathering here.

Otherwise, they would definitely look for Shi Hao.

In the distance was a dilapidated palace, also some near the outer region. Normally, they were completely empty, no way anyone would reside within them.

However, right now, the dust had all been removed, primal chaos swirling about, everything indistinct, difficult to see the inside scene clearly.

One could vaguely see several extremely ancient figures sitting there, not moving. Even though their auras were restrained, as if petrified, one still couldn't help but feel the urge to bow down.

Needless to say, these were all supreme beings. They had all already revived, quietly sitting here.

Jin Taijun was inside, and so was Immortal Wang, as well as the unmatched beings in Imperial Pass.

"Wait for a bit here, I will bring the wooden chest into the ancient palace." A middle-aged woman carried a gentle smile, saying to Shi Hao, preparing to accept the wooden chest.

"I don't mind crossing this bit of distance myself." Shi Hao said. He took large steps forward, heading towards the ancestral altar, wishing to personally deliver the wooden chest.

"Who is this woman? It is Jin Family's people again! They really are trying again and again, even wishing to stop Shi Hao from entering Ancestral Hall? Do you really think that's possible?!" Cao Yusheng laughed coldly.

Powerful individuals gathered here, all of them experts from different clans. Shi Hao being able to come here naturally meant he would receive tremendous benefits, all clans had to praise his accomplishments.

There was actually someone who stopped him at the final few steps, wishing to imperceptibly reduce his limelight, not let him inside.

Of course, the middle-aged woman just now was extremely tactful and polite, if one didn't think carefully about it, they really would have thought that she was acting out of courtesy, but this actually wasn't the case.

Right now, the well-known figures of all different clans were turning around, looking towards the young man who walked in that direction. He rode on a golden lion, figure tall and straight, heroic aura restrained.

There were even more people whose eyes went round, staring at the wooden chest in his hands!

"This is Huang? This is the first time I'm meeting him, as expected, he is a heroic youngster!"

"We just received reports that he has already reached the mid-stage of Self Severing Realm. This really is inconceivable, breaking the record of this great era, first in history!"

A few people exclaimed with admiration, all of them developing some good impressions of him.

In many people's eyes, Shi Hao had the courage to fight against the other side's great army, forcibly seize this rotten wooden chest, this was definitely pulling the teeth from the mouth of a tiger!

This was something that one wouldn't even think about before. Just how many people could survive under the encirclement of the foreign King Clans?

This youth was just too bold, fighting in Desolate Border alone, rumored to have already killed many young foreign experts, intimidating an entire generation of creatures.

This glorious achievement greatly raised Imperial Pass' dignity, making people feel extremely comfortable. When they heard news of some of his battles, they all felt greatly refreshed.

It was because while fighting against the other side, most of the cultivators in Imperial Pass felt sullen, often nursing grievances. Now that this different case appeared, it really made them feel happy. The other side were slaughtered until an entire generation had to lower their heads, terror-stricken at the sight of Huang. This could be considered venting out a wave of resentment.

Shi Hao gave everyone his greetings. Then, he respectfully presented the wooden chest to the individuals in the ancient palace.

"Have a seat!"

A statue-like figure spoke, inviting Shi Hao to sit in the palace hall.

This could be considered a type of glory. Huang was treated favorably by supreme beings, while others didn't have the right to approach that place.

Shi Hao didn't feel any nervousness, directly sitting down. He felt a great pressure here, even if the supreme beings restrained their auras, the occasional glances that swept past made his blood surge.

Even without thinking, he knew that this was Jin Taijun looking at him, because that was an old woman's figure.

The others' gazes were peaceful, not releasing any pressure, only her gaze a bit intimidating. Of course, she didn't take action, nor did she particularly pressure him, but there was just this suffocating feeling.

Immortal Wang also came. His appearance was extremely young, looking like he was only sixteen or seventeen years old, ridiculously young to the point of leaving others in disbelief.

Right now, he was seated in primal chaos, not expressing anything, gaze calm.

"My family's lord wishes to use this chance to take a look." Not far out, someone spoke.

This immediately triggered a passionate discussion. The clans' known figures were all talking quietly, revealing his identity.

This was an elder who only had one leg. He sat on a great bluestone, next to him a bald large rooster, precisely his mount.

This person had previously appeared, coming from an unmatched restricted region in the Nine Heavens!

Back then, the reason he came to Imperial Pass was because he heard there was a damaged beast skin diagram that pointed out a region between Heavenly Beast Forest and Divine Medicine Mountain Range.

And now, Shi Hao opened that grave, bringing back a wooden chest, shocking the lord of the Nine Heavens' restricted region, sending an emissary out once more.

Moreover, the single legged elder brought a shocking piece of information this time, extremely direct, informing all experts in Imperial Pass that this wooden chest might be able to create immortal king level experts!

This was undoubtedly shocking news, even the unmatched beings on Ancestral Altar unable to sit still. As for Jin Taijun and Immortal Wang, they even more so appeared in Imperial Pass!

He stated that this piece of information was a display of sincerity.

He informed the cultivators of Imperial Pass that the restricted region wouldn't forcefully seize it, only wishing to borrow it to use after everyone in Imperial Pass researched it first, that they promised to return it.

That was why the current situation was extremely complicated!

If this rotten wooden chest really was this important, how could it be so easily lent out?

Everyone was confused why he was this direct. Was he not scared that Imperial Pass would not lend it out after learning that this was this kind of supreme treasure?

"Dao friends, please research it yourselves first." The restricted regions' emissary said.

Jin Taijun opened her eyes, looking towards the center of the palace hall. The wooden chest on the ground immediately appeared in her hands. She was the first one to move, starting to examine it.

Occasionally, her eyes would open and close, giving Shi Hao a few looks, her gaze intimidating.

"Please tell us all of your experiences after the rotten wooden chest appeared." Jin Taijun said calmly.

Shi Hao didn't have any good feelings towards her, really not wishing for the wooden chest he brought back to help her. However, right now, he could only speak about everything little by little, because he also hoped for the people here to be able to unravel this rotten wooden chest's secrets, make the Nine Heavens Ten Earths more powerful.

Jin Taijun closed her eyes, not saying anything for a long time. The wooden chest remained in her hands for an entire hour, carefully sensing it.

Everyone saw that she was exerting force, searching with her divine will, trying to forcefully open up the wooden chest, but it was all useless.

In the end, she lowered the wooden chest.

Then, the other unmatched experts tried one after another. However, the results were the same, they couldn't do anything to the wooden chest.

When it was Immortal Wang's turn, he produced a palm length small halberd, cutting the wooden chest's surface. Everyone's expressions changed, this was the sect protecting immortal artifact!

“Dao friend, please rethink carefully!” A supreme being reminded, fearing that he might accidentally destroy the wooden chest.

However, unexpectedly, when the war halberd cut across the surface, the wooden chest was unaffected. It released gentle light, not being cut open.

This left everyone stupefied!

“I wish to ask for some guidance. Since the lord of the restricted region wants this wooden chest, why doesn’t he come for it personally?” Immortal Wang spoke, asking the single-legged elder.

“My family’s lord is not willing to incur such great karma.” The elder was neither overbearing nor servile, calmly replying.

“What do you mean?” Jin Taijun asked.

“This wooden chest has a great amount of karma, my family’s lord does not wish to be involved to avoid getting caught in the consequences later.” The elder said quietly.

“What?” Even as a supreme being, Jin Taijun couldn’t help but suck in a cold breath of air, expression immediately changing.

The others were alarmed. Just what kind of karma was this? For even someone from the restricted region to have to be dealt with? Everyone who heard this shuddered!

One had to understand that the restricted regions’ existences were known to have existed forever with the world, some of them not as simple as just making it through a single great era. When the foreign side slaughtered their way over back then, none of them were willing to get involved.

“He returned...” The single-footed elder said, moreover telling them that this was what he subconsciously said to himself after doing everything he could to see a corner of the future.

The youngsters who came together with Shi Hao all trembled, because the elder had already told them this the first time he came, not just saying it once.

“Please have a seat of honor!” Jin Taijun spoke seriously, personally bringing out a praying mat, inviting the elder to speak about this in detail. The atmosphere was extremely heavy!
