Chapter 1541 - Dusk of a Great Era

The single-legged elder laughed bitterly, saying, "I am merely a servant, do you all believe I am able to know any more?"

He spoke in self-mockery. Even though in the eyes of others, his status wasn't low, he was still only a servant, not an inheritance of direct descent in the restricted region.

However, he still spoke a few things, his lips opening and closing, only speaking to the supreme beings. However, Shi Hao also heard these things, because he was also in the tattered palace hall.

"Perhaps this will be a quiet dusk. Darkness is about to descend, no one able to free themselves." The elder's expressions were grave, saying this incomparably seriously.

These words gave others a great pressure, even the supreme beings' eyes swirled with radiance, as if there were great stars swirling about. It was hard for them to calm down.

"The blood-soaked dusk is not far, this is a corner of the future my lord has seen. Everyone, please take care of yourselves, do your best." The single-legged elder said with a sigh.

It was because according to the scene he saw, from the things that master said with sighs, even the restricted areas might be affected, no one able to remain uninvolved.

"How could it be like this? Can we have a more concrete chat?" Jin Taijun was shaken, her old eyes flickering with radiance, the primal chaos surrounding her body especially thick.

"The heavenly sun will be soaked in blood, after falling in the west, it might never rise again." The elder said. This was the extent of what he knew, some words his master in the restricted region said after some derivations.

What did this foretell? The few supreme beings in the tattered palace all became silent. Scenes of mountains of corpses and seas of blood appeared. They were making speculations, deriving possible results!

This was their understanding. There was no way the heavenly sun would truly disappear, but rather that darkness would descend eternally.

No one said anything for a long time. They were all thinking, silently pondering.

Several light sighs sounded, the sound disappearing into the wind.

Trying to deduce what would happen in the future was too difficult, there were many barriers that couldn't be moved, things even more difficult to understand than before, meaning that more and more things were involved. The karma was becoming greater and greater!

Then, the unmatched experts joined hands, studying that wooden chest together, hoping for a way to open it. However, they were disappointed, still unable to do anything to it.

"You all should come and take a look too."

The wooden chest was sent out, landing in the hands of some well-known individuals. They researched it together, passed from hand to hand.

At the same time, outside Imperial Pass' walls, several figures stood there coldly, looking like matchless demonic sovereigns!

Apart from this, there were a few more figures at the limits of the horizon, all of them standing there like indomitable great demon kings. Their auras were terrifying, none of them uttering a word.

These were foreign supreme beings. They chased after Meng Tianzheng up to here, but they were defeated, unable to make him stay behind.

"What a pity, only a single Meng Tianzheng left the pass." Someone said regretfully.

It was because they originally separately hid in a few crucial roads, preparing to ambush the other supreme beings from Imperial Pass. However, their hopes all went up in smoke.

If they knew things were going to be like this, if they gathered their forces, they believed that Meng Tianzheng definitely wouldn't have been able to return alive.

This time, the foreign side prepared to take down several great supreme beings from Imperial Pass, but unfortunately, only a single Meng Tianzheng left the pass.

Meanwhile, the most surprising was that the five great supreme beings who were in charge of killing Meng Tianzheng actually failed, instead losing two great experts.

This made the supreme beings all feel great rage!

"From a certain perspective, this also proves that they lack courage, doing this out of fear!" One of them said, noticing this point from a different perspective.

"Either way, this city will be broken through soon. There is no rush in waiting a bit." A supreme being nodded.

"Perhaps it isn't that they lack bravery, but rather Meng Tianzheng had confidence, foreseeing that we would scatter our forces." Another said.

"Let's go, this place has already become a dead city, there is no need to waste words, absolutely meaningless. There'll definitely be troops headed here soon, we'll just charge right through!" This was what a supreme being said.

Shua!

Almost at the same time, regardless of whether it was in front of the giant city or on the horizon, those terrifying figures all disappeared together, vanishing without a trace.

Inside Imperial Pass, before Ancestral Altar.

The well-known figures of various clans all shook their heads, all those who examined the wooden chest feeling helpless, at their wits' end, unable to open it or figure out any profound mysteries.

Gradually, discussions sounded, this place becoming a bit noisy.

They all knew that it was a supreme treasure, but if there was no way to obtain its profound mysteries, then what was the use?

“Can it really create an immortal king?” Jin Taijun asked the single-footed elder in the palace hall. She was the one who acted on the most initiative out of all the supreme beings.

“My master previously said that it contains tremendous secrets, perhaps it can create an immortal king.” The elder replied.

It was clear that the so-called tremendous secrets wasn’t only being able to create immortal kings, this result might only be one of the expected results.

In the end, everyone was in despair, no one able to see through this chest.

The rotten wooden chest was returned into the palace, placed before the supreme beings.

An unmatched expert spoke, inquiring from the single-legged elder if the restricted region knew how to open this chest.

“My lord has never obtained it before, only hearing of it during Immortal Ancient times. He had previously searched for it, but never succeeded.” The elder said.

The restricted region’s lord also only heard of some bits and pieces, discovering clues long ago, never seeing it before. He didn’t actually know how to open it.

In reality, the unmatched existences in the restricted region had long foresaw that it wouldn’t be that easy to open up the wooden chest, because this had been mentioned before in those clues.

“Great karma, this is something even the lord of the restricted region fears. Why is this? Are you unable to explain more clearly just what will be provoked?” Jin Taijun wasn’t satisfied.

“I do not know.” This time, the elder’s reply was extremely simple, not willing, and not daring to speak anymore. Even his master had previously been this serious, what right did he have to speak randomly?

“Alright, the wooden chest will be left here for now. You may leave.” Jin Taijun said to Shi Hao, her tone plain, not ordering or informing him.

Shi Hao definitely didn’t feel happy, not hoping for this chest to help Jin Taijun or Immortal Wang. When he was in trouble, these two never left the pass, yet now, they were quite energetic.

Moreover, he was destined to stand against these two families. These two clans truly left him disgusted.

However, before the greater situation, he couldn’t really say much either, still wishing for those of Imperial Pass to be able to unravel this chest’s secrets. He directly got up to leave.

Shi Hao wasn’t all that worried if these two would have great benefits. He believed that this chest definitely wasn’t that easy to decipher, so if there was nothing in the end, it would be returned to him.

“Which clan betrayed us?” When Shi Hao got up, he still carried doubt. Even now, there was no conclusive evidence.

He didn’t know if Great Elder noticed anything, if the unmatched individuals understood this.

When he returned this time, he actually didn't hear any news of wishing to find traitors. Shi Hao began to wonder if it was going to blow over just like this, or was this to say, Great Elder and the others were moving in the shadows, waiting for a chance to wipe out that clan?

Perhaps it involved just too much, touching upon too many, that things were extremely terrifying.

It was because if it was a long life family, then it might involve a living supreme being!

In the end, Shi Hao gave Jin Taijun and Immortal Wang a look, and then left.

Those two clans were like fire and water with him, normally always bearing hostility against him. If it really was them, then this guess was just too easy to make. Could it be that there were other clans?

"Wait for us to study it a bit more, come back for this chest in two days." A supreme being transmitted sound. In reality, they still wished to learn more about Shi Hao's experiences in detail.

However, because they cared too much about this rotten wooden chest, wanting to open it as soon as possible, they only focused on the things related to it, wishing to enter seclusion as fast as possible, preparing to open it together.

The other matters were all pushed back.

While leaving this place Shi Hao became the focal point of attention. A group of people flocked over, surrounding him within. Those old fellas were all enthusiastic to the point of making Shi Hao's scalp numb, skin produce goosebumps.

"Little friend, do you have a dao companion? I have a granddaughter, a world toppling beauty, lively and intelligent, I think you two are a good match!" n--@/v/.e//l//b-.l/(n

A bald elder grabbed Shi Hao's arm.

"Little friend, don't listen to that nonsense, his granddaughter is almost thirty thousand years old, not even the same generation as you." An elder unmasked.

Shi Hao was stupefied as he listened. Even an old woman could be considered a world toppling beauty, married off to him? Just the thought alone made him shiver inwardly.

"Stop speaking nonsense, that granddaughter of mine has the countenance of a flower, face like the moon, appearance not old at all, at the peak of elegance, no trace of time left on her! You all are merely jealous!" The bald elder shouted.

"Thank you senior for your good intentions!" Shi Hao rejected while wiping at his sweat.

"My clan has a pearl, twenty-eight years of age, a so-called unmatched beauty in her generation, of similar age to you, perfect for you two to talk to each other!" Another elder tried to rope him in.

...

When Shi Hao slaughtered his way back this time, his name shook Imperial Pass. He brought back a supreme treasure, he himself completely unaffected, triggering a huge commotion, all clans trying to find ways of roping him in.

This was especially the case when they knew he reached the Self Severing Realm mid stage at just the age of twenty-five or six, shattering this great era's record, making them even more enthusiastic.

It was because if nothing unexpected happened, he would become a future leader.

"Shi brat, you are actually playing around here, still not going back? Your family's doll is already about to get mad!" In the distance, there was a young lady who hollered out like this.

This not only gave Shi Hao a fright, it even left the elder stupefied.

"His family's doll? Who is going to be the mother of his child?" An elder subconsciously asked, not immediately snapping out of his daze.

The Lunar Jade Rabbit puffed her cheeks, saying, "Heaven Mending Dao's Yue Chan."

Pu!

In the distance, Fairy Yue Chan who was currently minding her own business almost spat out a mouthful of blood when she heard this. This really was an undeserved catastrophe!

Of course, Qing Yi was also embarrassed, because she and Yue Chan were one person, two bodies.

"Ah, I was wrong, it might be Sky Severing Dao's witch." The Lunar Jade Rabbit invented crazy nonsense, going impromptu mode. Cao Yusheng and the others also helped Shi Hao get out of this predicament.

Otherwise, this group of elders wouldn't let him go.

Great Xu Tuo, Ten Crown King, Daoist Qi Gu, Lan Xian, Shi Yi and the others all revealed strange expressions, watching in amusement from the distance.

"Oh, let me tell you all a secret! Actually, it's Wang Family's Fairy Wang Xi." When the Lunar Jade Rabbit saw Shi Hao break away, she said like this.

Pu!

This time, it was Shi Hao's turn to spit out his drink.

As for Wang Xi, she almost coughed out a mouthful of blood, but she swallowed it back down.

This place immediately became noisy, signs of great trouble arising.

"We're going!" Shi Hao was the first to get out of here.

A group of youngsters followed behind him, rushing into the distance, nowhere to be seen.

"It really is nice to be young, this old one remembers he used to be surrounded by elegant youth, accompanied by beauties from all sides."

"You old shameless thing, you really have the nerve to say these things? Oh, right, Heaven Mending Dao's holy lady, Sky Severing Dao's witch, and Wang Family's girl, who is the one pregnant?"

"You are the old shameless thing!" The one before retorted.

Yue Chan, witch, and Wang Xi in particular were driven mad. Did this group of old fellas wish for the whole world to be in chaos?!

They glared out angrily, but they all left afterwards.

“Don’t speak randomly, or else Wang Family or Jin Family might get upset with you all! En, perhaps there might even be some jumping out from Heaven Mending Dao’s side!” An elder said.

“If they are going to jump out, then so be it. I am only discussing what I heard. Could it be that not even this is allowed?”

It was clear that the atmosphere in Imperial Pass was overly oppressed, everyone knowing that a great battle might happen soon, that right now, they were just purposely joking around.

Of course, the ones who had the misfortune of being targeted carried the most resentment, because there really were busybodies stirring things up, creating things in the background.

“Where are you headed?” Along the way, the Lunar Jade Rabbit asked Shi Hao.

There was but a large group of youngsters following them, all of them wishing to invite Shi Hao for a drink, to properly discuss his experiences outside the pass.

“I wish to use my accomplishments to absolve Stone Clan of sin, allow them to live like normal people.” Shi Hao said. He believed that the accomplishments this time should be enough to free them of their sin, because just the number of Self Release Realm cultivators he killed alone was terrifying.

This was a spacious land. There was a giant martial arena here. Normally, there would often be people competing here, tempering themselves.

Meanwhile, not far out, in a special palace within Imperial Pass, this was a place where one could receive rewards for outstanding military service!

“Huang?” In the distance, some people saw him. They stood at the edge of the martial arena, eyes cold.

“Just wandered outside a bit, killed some younger generation, yet you were already impatient to report your accomplishments? You really have no composure, too impetuous.” Someone said coldly.

“He is in such a rush to prove himself, believing that just because he has a bit of accomplishments, he can already show off in Imperial Pass” Another person said coldly.

Those people were all in their most robust years, blood energy flourishing, but they were actually all Self Release Realm great cultivators.

“What are you all being so noisy for?” Shi Hao gave them a look, speaking without a trace of politeness.

“What are you saying? You are already in such a hurry just because you killed a few people, you wish to brag about your achievements this time? The young should be humble, your accomplishments will always be yours, why be so impatient to prove yourself” Someone said coldly.

“Cease your sarcastic talk, my accomplishments are enough to blind your dog eyes. If you are from Jin Family, then crawl back there, if you are from Wang Family, then drag yourselves back, don’t try to stir up trouble here!” Shi Hao berated.

“Youngster, what are you talking about? I really want to see just what kind of accomplishments you made, to dare boast so shamelessly!” Someone shouted, bringing over a group of people from the martial arena.

Chapter 1542 - Provocation

A large group of creatures came over and surrounded him. They are creatures of all different clans, their cultivation levels from the Heavenly Deity Realm to Self Release Realm, of all different cultivation levels.

It was because Huang came back. This triggered a huge commotion, news naturally spreading to this place as well. When they saw that there was a dispute between himself and others, how could this not draw attention.

Of course, there was another group of people who were clearly standing together, looking a bit like they were facing a common enemy, vaguely opposing Shi Hao.

The ones who opposed Shi Hao directly, berating him stood at the center. They laughed coldly in his direction.

“Who are these people? So annoying!” The Lunar Jade Rabbit said.

A group of youngsters all followed over. When they saw the large black expanse on the other side, they all frowned. Did those people wish to oppose them? Conflict might arise!

Normally, the ones who lingered about the martial arena were all warlike and aggressive. Few really chose this place for cultivating and seclusion, which was why many of these liked to pick fights.

It was because if one really wanted to cultivate and enter seclusion, they would all choose quiet places. Every clan had optimal cultivation pure lands.

That was why the creatures here were all easily triggered, loved to fight, the ones who most easily stirred up conflict!

“The ones who came to watch the drama are from all different clans. As for the ones who have gathered, bearing hostility and sneering, they are mostly followers of Jin Family, Wang Family and others, perhaps precisely people from those great clans.”

There were people who recognized their identities, reminding Shi Hao, Lunar Jade Rabbit and others.

“Heh, what is the point of hesitating any longer? Just reveal your merit tile, show us your outstanding service! We are watching, let’s see just how many there are, for you to be this arrogant.” Someone on the other side sneered.

The so-called merit tile was a type of bone tile that could record the number of enemies Imperial Pass cultivators killed.

Shi Hao clearly remembered that the first time he entered the battlefield, an old cultivator in the great desert gave him one. At the time, he didn’t know about this, only after he began his slaughter did he become aware.

“Too superficial, you just killed a few enemies, yet you already believe yourself infallible, really believing that you made some huge contributions. Coming in such a rush to report your accomplishments, this will only make yourself look laughable.” Another person mocked.

Shi Hao looked at the other side coldly. When he learned that these were people who opposed Huang, affiliated with Jin and Wang, his eyes became extremely cold, putting away his calmness.

These so-called followers, as well as the clan’s direct line of descent, really didn’t know when to stop. Did they really want to continue clashing with him like this?

However, this group of creatures really were quite strong, with Self Severing Realm cultivators, even more so Self Release Realm great cultivators. They all looked at Shi Hao coldly.

Of course, the great cultivators were still relatively aloof, right now not at the very front. They held a cold smile at the corners of their lips, calmly watching the course of events.

However, there were enough indicators to express that the ones who were provoking him were definitely incited by great cultivators, trying to make Huang look bad!

This was what the ones who harbored bad intentions hoped for, even more so what some creatures really needed. If there was a reasonable excuse, being able to lower Shi Hao’s heroiness, make him suffer a great defeat, those great powers would feel quite good.

“You all are going too far!” Chang Gongyan shouted.

“Crawl back to Jin Family and Wang Family, come back with your masters!” The Heavenly Horned Ant had an explosive temper, even though its body was extremely small, its voice was deafening.

The group of people immediately became cold, looking in his direction.

“What? You want to take action against me?” The Heavenly Horned Ant didn’t cower, staring right at them.

Shi Hao stopped him, saying, “I have my achievements, they are just spitting about. Just let them do what they want, facts speak louder than words.”

Shi Hao walked towards the palace not far away. His bone tile could be examined there, proving the authenticity and worth of his achievements.

When they heard these words, the people on the other side were all shaken. Some of them immediately realized that Huang likely truly had quite the gains.

“Just a young cultivator, how many cultivators could he kill? When we killed Self Release Realm great cultivators, we weren’t even in this much of a hurry, but rather came back after we had two heads. The young... truly are impatient.”

A great cultivator spoke. His name was Luo Han, looking like he was middle-aged. His long hair scattered down, carrying a faint smile there.

In their eyes, even if Shi Hao had heaven warping talents, his cultivation realm was still low, accomplishments wouldn’t be too world shocking.

Of course, his words were also a type of probing, trying to test Shi Hao's reaction, trying to learn how his accomplishments were from this.

"You are you, I am me. You can act hypocritical all you want, I will be sincere to myself." Shi Hao replied coldly.

Luo Han revealed a trace of anger. Normally, Self Release Realm cultivators were high up above, how many of the younger generation dared speak out like this?

"In my eyes, it looks like someone's tail has pointed towards the sky, even daring to contradict great cultivators! Do you feel like the merit you established is now enough to clash with your seniors?" Another middle-aged cultivator laughed coldly. He wore a purple-gold crown on his head, body wearing chain mail, appearing extremely bold and powerful.

This was also a great cultivator named Qi Lin, a follower of Jin Family. However, he himself was quite strong, long entering the Self Release Realm.

It was clear that those people felt more and more like there was no way Shi Hao established exceptional merit. After all, he was still so young.

Of course this was if they put the rotten wooden chest aside. Otherwise, there was no way of assessing this, his contribution was just too heaven-defying.

"The youngsters now are too fickle and scatterbrained, without the slightest bit of steadiness. After obtaining some achievements, their tails immediately reach straight into the heavens." Luo Han nodded.

The two great cultivators spoke one after another, targeting Shi Hao, making their people feel more and more confident.

"Don't you all feel like you're crossing the line?" Qing Yi spoke. Even she couldn't continue watching this. Normally, her temper was definitely not bad.

"Do you want to bully us? If worst comes to worst, then we'll just fight!" The aggressive Heavenly Horned Ant shouted.

"Motherfuckers, if you have the guts, get on the supreme being stage, suppress your cultivations and fight at the same cultivation level! I'll beat eight of you all alone!" Cao Yusheng hollered.

Even though this fatty was indignant, he still didn't want to be suppressed by a great cultivator, That was why he shouted to fight at the same level.

Luo Han and Qi Lin both sneered, shaking their heads, becoming more and more confident that there was no way Shi Hao established great merit on the battlefield.

"Truly childish. Do you all think that the enemy will lower their cultivation levels when you all head to the battlefield, fight you all at the same level? You all are too naive!" They mocked.

"Do you all feel like you're great just because you are great cultivators?" Shi Hao said coldly. These people provoked him again and again. He felt like he had to knock them down a notch.

Right at this time, a few people walked over from the distance, all of them familiar people, in the lead Jin Kun and Jin Yi. They were also Self Release Realm great cultivators, all from Jin Family's direct line of descent.

Apart from this, they were accompanied by some others, among them no lack of those from Wang Family.

"Take action, teach him a lesson! It is fine even if he is seriously injured! From what we heard, outside Meng Tianzheng's place of seclusion, the soul lamp is about to go out, he most likely can't hold on anymore!"

Before these people got close, they already secretly transmitted sound, informing Luo Han, Qi Lin, and the others that this was the time to take action, teach Huang a lesson in an honorable and justified manner.

Moreover, they brought news of Meng Tianzheng about to die.

This immediately made the confidence of the people here surge. Otherwise, they didn't dare act rashly out of fear for the consequences.

Jin Kun, Jin Yi, and the others came here precisely because they couldn't accept this result, always looking for a chance to deal with Shi Hao. Moreover, they felt like Shi Hao really might have established quite the merit, that it might cause cries of admiration from all sides.

If it was before he reported his accomplishments, because he took the initiative to provoke great cultivators, and then was properly dealt with, then that would undoubtedly deal a great blow to his brilliance.

This was the same as cutting down Shi Hao's brilliance, purposely opposing him. Jin Family's people never gave up on this, always wishing to suppress him for a period of time!

This was especially the case when, not long ago, Jin Zhan suffered a great defeat, making them feel incredibly downcast. They really wanted to directly take action, suppress Shi Hao. **noVe-LB**.In

"Youngster, since you are quite arrogant, looking down on great cultivators, then how about I give you some pointers?" Luo Han and the others, after being incited, prepared to take action.

"Is it being the dogs of long life families that makes you all feel that prideful?" It was clear that Shi Hao really was angered. Ever since he returned, these people stopped him again and again, targeting him, opposing him. Was defeating Jin Zhan not enough?

These words really weren't polite. Those people's faces immediately fell ashen

Qi Lin was incredibly cold, saying with a chilly voice, "We have even taken the heads of Self Release Realm cultivators, yet we never came to report achievements in such a high-profile manner. Today, I'll test out this junior a bit."

He didn't say anything else, because even he felt like he was bullying the weak as the strong a bit. He said he was testing him out, but this was clearly to deal with Shi Hao.

"You, you, you, and you, all of you can just drag yourselves over!" Shi Hao's face was expressionless, pointing at Luo Han, Qi Lin, Jin Kun, Jin Yi, and others.

"Youngster, a single person testing you is already enough! You don't have the qualifications to choose your teacher." Qi Lin said coldly.

Shi Hao said indifferently, "Since it is a test, then I alone can properly size up all of you. I actually want to see if you all great cultivators really have the qualifications to be respected by others, or if your reputations don't reflect reality, only having appearances. I suspect that your so-called enemies killed, merit obtained, are all watered down, not obtained by you all alone."

Chapter 1543 - Asking For a Beating

In that instant, the atmosphere became tense to the extreme. No one would have expected Shi Hao to be daring enough to directly oppose the great cultivators, moreover, challenging several great cultivators together!

The effects of this were too great, leaving the creatures here all stupefied. A single mishap and there would be a huge problem! If Jin Kun, Jin Yi, Luo Han, and the others become angry, they might purposely strike out heavily! What if there was danger to his life?

"Shi brat, you're mad! Even though these bastards are hateful, you don't need to let your emotions affect your decisions like this!" The Lunar Jade Rabbit hurriedly tried to stop him.

"That's what I'm saying! Don't be anxious, there is no need to bicker with them, we'll just ask Great Elder Meng Tianzheng to deal with them when we go back!" Cao Yusheng hurriedly advised.

Qing Yi even more so walked up, grabbing the corners of his clothes, shaking her head, indicating for him to endure it, that he couldn't truly clash with them, or else he would suffer.

As for Great Xu Tuo, Lan Xian, and the others, they all inwardly spoke out, having Shi Hao endure. They were all of the younger generation, in the past, they might have competed with each other, but right now, they were all rational.

Even Tuogu Yulong, Five Spirits War Chariot owner Qi Hong and others expressed for Shi Hao not to act rashly.

Only a single little Heavenly Horned Ant was still unsatisfied, shouting noisily, supporting Shi Hao, saying that he was going to invite some people to beat the shit out of these so-called great cultivators.

The little ant's words were too crude, making Jin Kun, Jin Yi, and others' expressions callous, all of them revealing cold intent.

"You all are so oppressive, are you not scared that Great Elder Meng Tianzheng will get angry?" Ten Crown King said.

The rage of a supreme being would result in endless corpses, rivers of blood, the effects too great.

"Heh heh, youngster, you are overthinking things. En, we forgot to tell you something. We just received news that in Meng Tianzheng's place of seclusion, the soul lamp hanging outside is about to go out." Jin Yi said in a passing manner, not showing any respect when mentioning Great Elder.

“What?” The group of people were all stunned.

Great Elder was going to die?

This was too sudden, it could be said that it came like a great storm! This affected too much, the news earth-shattering, it would definitely leave all of Imperial Pass shaken.

Was this real? Everyone didn’t dare believe this.

When Shi Hao heard this, he felt a sharp pain inside, feeling extremely worried.

However, soon afterwards, he calmed down, recalling the words Great Elder told him before they parted. He quickly collected himself, because he believed Great Elder wouldn’t be sick.

Right now, the biggest possibility was precisely as Great Elder said, that he was going to attack at the limit, try to carry out some type of transformation!

Perhaps right now, his life fluctuations became dim, but Shi Hao firmly believed that Great Elder wouldn’t be in trouble.

This was most likely also a chance. Great Elder was trying to break into a wonderful realm, coldly observing the outside world at the same time!

This was a tacit understanding Shi Hao had with Great Elder. He believed that Great Elder wouldn’t be in trouble.

“Youngster, you really don’t know the height and depth of heaven and earth, provoking people you shouldn’t have. It is truly pitiful.” Luo Han shook his head, walking forward step by step.

Right now, many people found it hard to calm down, great waves stirring within them.

However, the golden lion who was Shi Hao’s mount remained extremely calm, eyes revealing a strange expression. No one understood Shi Hao’s strength better than it. It personally watched as he killed more than just one or two great cultivators!

Right now, when it heard Luo Han’s words, its expression was strange, carrying the look of watching a play, calmly observing like a bystander.

“Huang, your talents aren’t bad, if you work hard enough, you’ll be comparable to us soon. However, you are just too impatient, need to be more humble. Wu, let me give you some pointers.” Jin Kun said. His face wasn’t red, extremely calm. He clearly wanted to subdue Shi Hao, yet he spoke in such a shameless manner.

However, in the golden lion’s eyes, it seemed even more absurd. He wanted to give Huang pointers? It reckoned that even if he wasn’t directly slapped to death by Huang, he would still be beaten into eight parts!

“Haha, heh heh!” Qi Lin walked over from another direction, practically surrounding Shi Hao. He didn’t say anything, only laughing a few times, carrying disdain. He didn’t want to say too much!

“Come, come, come! Didn’t you want to give us a test? This old one is coming, let’s have a proper examination! Let’s see your skills, feel free to come at me!” Jin Yi said. He was an elder, compared to the other three, his age was considerably greater.

“Alright, your words, to let me strike you as I please.” Shi Hao urged on the golden lion, charging forward, and then directly took action. ~~no ve~~ **£b/1n**

Hong!

He struck towards Jin Yi. Since the other party asked him to, then there was nothing else for him to say, he would just satisfy him!

En? Jin Yi felt like something wasn’t quite right. Why was the other side this fast? He raised a hand, carrying out a defense.

However, Shi Hao’s palm and fingers shone, moving past the hand. With a honglong noise, he smacked over. Pa! It was too loud and clear, covering his entire face.

“Ah?!” Jin Yi screamed out, face blossoming, blood everywhere, entire body staggering backwards.

Everyone became petrified. Jin Yi was struck as soon as they met, moreover on his face. This was just too miserable, right?

Even the golden lion was shocked, of course, it was different from others, feeling like this slap was too light, actually not killing him or sending him flying. This didn’t seem like something Huang would do.

“Why were you this careless?” Jin Kun said with a low voice. They were both from the Jin Family, making even him feel embarrassed.

“This is likely the legendary secret method Immortal Thread Winding Hand, speed extremely fast, method full of profound mysteries, extremely difficult to avoid.” Qi Lin suspected, explaining like this.

No one believed that Shi Hao’s strength was powerful, that he was actually as strong as a Self Release Realm great cultivator.

Of course, this couldn’t be blamed on them, because it was too hard to imagine a twenty something year old youngster being able to catch up to Self Release Realm great cultivators.

One had to understand that the higher one’s cultivation realm became, the harder it was to cross great cultivation realms to fight, it was too difficult.

Cultivators were always advancing uphill. In the end, the ones who could reach the top were all exceptional individuals, all geniuses. When they were all this type of people, how could they cross realms to fight? This wasn’t realistic.

Shi Hao revealed a faint smile and said, “I hit one. So is the test just going to be like this?”

“Again!” Jin Yi was furious. He really was angered badly. What face was there left? Even if Shi Hao was skinned alive, he might be mocked by others for a long time after hearing that he was smacked in the face by someone of the younger generation.

“Are you still going to let me hit you?” Shi Hao asked.

“Junior, if you have any methods, feel free to show me all of them!” Jin Yi was angered, however this time, he went all out, being extremely cautious. He didn’t dare act carelessly again.

Moreover, around his body, battle energy overflowed, divine light surging. He already added defenses, wishing to make Shi Hao pay for his actions.

At the same time, Luo Han, Qi Lin, and Jin Kun also walked up, pressing their way forward, their faces carried cold intent, releasing their greater cultivation’s pressure.

“Be careful, Shi Hao, don’t try to be brave!” Some people were still advising.

“You are so obstinate, why aren’t you listening to our advice?!” The Lunar Jade Rabbit and the other youngsters were discontent, incredibly worried, fearing that something unexpected would happen to Shi Hao. They were so frustrated that they began to stamp their feet.

Only the golden lion alone cursed silently. Huang really was a no-good, this was its opinion.

“Too dishonest, no-good! Aren’t you just bullying others?!” The golden lion grumbled inwardly.

At the same time, it became more and more careful, because it discovered that Shi Hao really wasn’t that kind and sincere. He was clearly stronger than the other side, yet he was still drawing them in step by step, taking the initiative to come under attack.

When it thought of how it ended up, it really sympathized.

“You all... also want to be beaten by me?” Shi Hao looked towards Luo Han, Qi Lin, and Jin Kun, the three of them.

“Cease your arrogance, brat, if you can hit all of us, then that really is a miracle. As if the sun will rise from the west!” Luo Han roared with laughter.

Qi Lin even more so gave him a cold look, saying, “You dare act unbridled even before my eyes?”

“You are quite lacking in intelligence. After learning Meng Tianzheng is about to die, you even dare bicker with my Jin Family. This really isn’t wise!” Jin Kun said. Moreover, he said with a cold laugh, “Come and accept your punishment!”

“All of you want to be beaten one after the other. In that case, I will satisfy your wishes!” Shi Hao said.

Chi!

Immediately afterwards, he turned into a faint streak of golden light, activating the Kun Peng divine speed and Lightning Emperor Secret Method, bringing his speed to an extreme. Moreover, he displayed the Solitary Buddha Eight Forms, separately striking these people.

At this moment, heaven and earth trembled. Then, soon afterwards, everything stopped!

All of them were greatly shaken, then, they became like wooden sculptures.

It was because in that instant, Jin Yi was slapped in the face by Shi Hao again, blood everywhere, his face bursting open. This time, he didn’t stagger backwards, but directly flew out, vomiting blood repeatedly, his face bones even struck until they warped, almost dying!

On the other side, Jin Kun was also extremely miserable, his nose trampled on by Shi Hao, the bridge of his nose breaking, face caving in, blood spraying out of his mouth and nose, gushing out from all seven apertures of the head. He was in as miserable a state as he could be, entire body trampled into the ground.

As for Luo Han, a palm smashed viciously into his face, the sound sharp and clear, immediately making all of his teeth fly out, blood splattering everywhere.

At the same time, his frontal bone even cracked, the palm almost smacking his skull to pieces.

As for Qi Lin, previously, he was still sneering, confident in his status. However, when he saw this scene, his fine hairs stood on end, quickly running.

In the end, he still couldn't escape the attack. Shi Hao's hand smacked down, directly breaking his vertebra, sending him flying, collapsing into a pool of blood.

All of this happened too fast, in an instant. In the end, these people still somewhat underestimated Shi Hao, thinking that there was no way a younger generation could create that much of a disturbance.

In reality, Shi Hao was not only stronger than them, speed greater, he even went all out. Thus, in that instant, the four who were asking for a beating all suffered a disaster, their ends too miserable!

Chapter 1544 - Achievements Astonishing

Jin Yi's face blossomed with blood once more. It really was miserable, blood flowing everywhere. The bridge of Jin Kun's nose was snapped, bleeding from all seven apertures. Luo Han's teeth flew everywhere, mixed with blood. Qi Lin's vertebra was broken, he himself falling onto the ground.

The four great experts were more miserable than anyone, all of them in sorry states, so depressed they wanted to die, already going mad.

This result, forget about them being unable to bear this, even the surrounding creatures were stupefied, in disbelief. These were four Self Release Realm great cultivators, but they were mowed down by Huang just like this?

This was too strange, everyone feeling like this was absurd. Those were great cultivators who had been well-known for many years, having great reputations in Imperial Pass, but in the end, they weren't a match for a twenty something year old brat!

Many people were petrified, all of them finding this preposterous, really hard to understand. Why was it that the four great experts 'asking for a beating' really came true?

"How miserable... look, Jin Yi was originally dignified, but now, his white hair is like a mop, that small face, no, it should be said that old face is blooming like a flower."

The one who spoke these types of sarcastic words was naturally Cao Yusheng. He was the first one to snap back to reality, mock them.

"These flower seems a bit listless, not all that brilliant." The Lunar Jade Rabbit went along with what he said.

“He’s already so old, do you really think you can squeeze any water out of him? The blooming of this type of flower is called a blood-colored romance.” Cao Yusheng roared with laughter.

The group of people all revealed strange expressions, including those who originally felt hostility towards them. As for Qing Yi, Great Xu Tuo, Tuogu Yulong, and the large group of youngster, they long couldn’t hold back, roaring with laughter.

The four great experts were furious. Things were just too miserable, doomed to be unforgettable. This could be considered an instance of tremendous shame, actually being beaten by a younger generation to this extent.

“Courting... death!” Luo Han roared. He looked like he was in his middle-years, extremely heroic, but right now, his appearance really was miserable.

It was because all of his teeth had fallen out, smacked in the face, a bit fierce, five sensory organs warped, long distorting, skull even almost splitting.

“Uncle, you are already in your middle years, you have aged prematurely, teeth all gone, yet you still have quite the temper. You should drink some more tea to reduce internal heat!” The little rabbit ridiculed.

Luo Han’s face was ashen, directly reaching out a large hand towards the Lunar Jade Rabbit. He really was angered badly. This time, he was completely humiliated, and then even mocked by a little girl, making him fly into a rage of humiliation.

However, what awaited him was Huang. He had long jumped off the golden lion, facing him, several fists smashing out.

Luo Han’s body trembled greatly, coughing out a large mouthful of blood with a wa sound, body flying. It was because he had the air knocked out of his chest, his soul becoming unstable, suffering greatly.

“I’m coming to settle things!” Jin Kun shouted. He rushed over, long furious. This time, they really had humiliated themselves, how could they just take things lying down?

Unfortunately, he overestimated himself. He couldn’t accept this, looking for reasons from oversight, not fully realizing the difference between them.

This time, Shi Hao condensed a Lightning Emperor Imprint, striking his body several times. Several streaks of lightning blasted his body, one of them even more so piercing through him!

Jin Kun’s current state was too horrible to endure, entire body scorched black, surging with waves of clear smoke, releasing waves of scorched smell, his body about to be cooked through.

This made one suck in a cold breath of air. A great cultivator was defeated by Shi Hao just like that, if it wasn’t because he felt restraining fear for killing people in Imperial Pass, Jin Kun would be dead.

This was especially the case when Shi Hao was too easygoing. Under the four experts’ attacks, his figure flickering in and out, as well as the terrifyingly great power really left one greatly alarmed.

Was this his strength?

He was this young, yet he already defeated a Self Release Realm great cultivator, this really was freakish. Just what kind of monster was he?

Right now, forget about a group of youngsters, even the group of old monsters at the later stage of Self Release Realm were horrified. It was because this youngster was too terrifying.

He didn't even enter that level, yet he already killed Self Release Realm cultivators, how heaven-defying was this?

At this moment, Qi Lin, Jin Yi, and the others became completely silent. Huang suppressing them wasn't a fluke, but rather because he really had that type of strength!

This left them greatly stirred, feeling a wave of fear inside. They had never seen such a young great expert. He could actually fight against older generation figures in a decisive battle!

One had to understand that they weren't normal people, but rather Self Release Realm cultivators, the great cultivation realm under supreme being level.

Everyone sensed that Huang was even more formidable than what they imagined, exceeding normal reasoning, could be considered a unique and unmatched individual.

Just how would you train this type of freak?

Jin Yi, Luo Han, Jin Kun, Qi Lin, and the others' expression became pale. When they thought about their display not long ago, right now, they were so ashamed they couldn't show their faces.

They came precisely to look for trouble, yet in the end, they ended up in this plight. When they thought about it carefully, they felt like they were acting like complete clowns.

It was because they were barking like this that made Huang look even better!

After hundreds of thousands of years, when those of later worlds brought up past things again, they would likely serve as the most pitiful contrast, become small splashes along Huang's path to greatness.

At the same time, many people were moving, sending news out, informing the higher levels of various clans.

A youngster this powerful, it wouldn't be too much to call him history's most powerful, right? He was worth paying close attention to! Huang's performance was definitely inconceivable, definitely drawing the attention of all sides.

It was because in a few people's perspective, since the beginning of this great era's history, there had never been a youngster this powerful!

No one suspected Huang's future accomplishments. If he was given the time, his might would definitely intimidate the world!

At this moment, Imperial Pass was shaken. Compared to news of Shi Hao's return, the shock of this recent information wasn't any inferior, stirring up a great commotion.

"Are you sure that he defeated four Self Release Realm great cultivators with just the cultivation of Self Severing Realm mid-stage?"

“Impossible! The higher the cultivation, the harder it is to cross realms and fight, how did he accomplish this?”

Shi Hao rose up through a single battle, all sides attaching great importance to this event. It was hard to not be the center of attention even if he didn’t want to, unknown just how many people personally hurried over here, wishing to seek confirmation.

If it wasn’t inside Imperial Pass, with Shi Hao’s temper, he would have definitely crippled Jin Kun, Luo Han, and the others.

However, Imperial Pass had Imperial Pass’ rules.

He turned around, not giving the four of them a look, directly walking towards a grand building. When he passed the martial arena, everyone inadvertently moved out of the way, all of them carrying expressions of reverence.

“You made us all worry for nothing! This fella is ridiculously strong, we have to properly interrogate him how he accomplished this!” The little rabbit screamed out.

Qing Yi, Chang Gongyan, Cao Yusheng and the others released a breath of relief, completely relaxing. Otherwise, before, they really would have had to wipe away quite the sweat.

“Hurry and take a look, see just what kind of accomplishments Huang brought back.”

A few people snapped back, all of them hopeful. They swarmed forward, wishing to see this to its end.

Before was one thing, now, Huang revealed his true strength, even able to defeat Self Release Realm cultivators, so how could his accomplishments be normal?

Everyone felt like he definitely killed Self Severing Realm great cultivators outside Desolate Border. Otherwise, he definitely wouldn’t be this full of confidence.

Meanwhile, the creatures of the various clans who came to confirm Shi Hao’s decisive battle with Jin Kun and the others also all immediately rushed over, urgently wishing to see his battle results.

This was originally an extremely ordinary thing, but in the end, it drew the attention of all sides, many great powers treating this carefully, wishing to see his achievements.

The palace hall was majestic, extremely large and tall. It was located next to the martial arena, solemn and dignified.

Shi Hao entered the palace. The elders opened their eyes, looking towards him, all of them revealing strange expressions. They had never seen someone produce this great of a commotion when reporting achievements.

“You can hand it to me, we’ll seriously examine it.” An elder reached out a hand.

Shi Hao handed the bone tile over, extremely calm, not feeling the slightest bit of nervousness.

Outside the palace hall, it was unknown how many people were looking over, all of them guessing just how great his contributions were. It could be said that eyes were aimed here from all directions.

"I am guessing that Huang has killed at least two great cultivators!"

"Wu, I believe it wouldn't seem too absurd even if he killed five Self Release Realm great cultivators."

"All of you are wrong, there was such a huge great army outside Desolate Border, would Huang have any chance to take action? Moreover, back then, his opponents were mainly of the younger generation." Someone retorted, but his words were quite reasonable.

It was because they knew when Huang was tossing and turning outside, he had previously been surrounded by the younger generation. This was the main force he had to deal with.

"Heh heh, regardless, Huang has that type of strength. Killing a few great cultivators is definitely something he can do!"

"We shouldn't overestimate him, what if he didn't kill that much, or didn't even kill a single great cultivator?" There were people who thought highly of Shi Hao, but there were naturally those who wanted to devalue him.

It was noisy outside the palace hall.

Soon afterwards, everyone closed their mouths, because those elders all joined hands to examine it, starting to activate that bone tile, precisely the item that automatically recorded battle results.

"Hurry and look, it lit up!"

"Wu, this proves that he has killed Self Severing Realm cultivators, the numbers not few. He really is quite strong!" Someone nodded.

"What about Self Release Realm cultivators? Don't tell me he didn't kill a single one!" There were some who laughed coldly.

Hong!

Right at this moment, the bone tile shone, becoming incomparably resplendent, streaks of light shooting out one after another, piercing through the ancient palace, rushing into the clouds. This scene was too shocking.

"This is... the irregular scene of overwhelming achievements, exceptional contributions!" Someone cried out.

They finally realized how terrifying Shi Hao was. Just how many foreign creatures did he kill?

"One, two..."

There was someone counting, because they wanted to properly enumerate how many streaks of light rushed into the heavens. One streak represented a reaped life of a great cultivator.

Soon afterwards, everyone became stupefied. This wasn't a few, nor was it in the tens, it already exceeded a hundred. This meant that at least a hundred great experts' lives were taken!

"Impossible! Even if he was a reincarnated immortal king, there is no way he can immediately kill this many at the mid stage of Self Severing Realm! This isn't realistic!" Someone shouted.

However, facts spoke louder than words. The merit tile was right there, battle accomplishments couldn't be covered up. This was the effectiveness of truth.

Many people felt their scalps going numb. Huang was too heaven-defying! Just how did he do this? They found this impossible to understand.

Hong!

The bone tile continuously shone, moreover becoming even more resplendent, almost more intense.

"Heavens, why are there thousands of streaks of radiance? This is too terrifying! From the Heavenly Deity Realm to the Void Dao Realm, and then to Self Severing and Self Release Realm, of every single level!"

"Did Huang kill thousands of foreign men during these few days? This is impossible, too monstrous!"

The group of people cried out, unable to mind their appearances.

Jin Kun, Qi Lin, Jin Yi, Luo Han and the others also followed over, precisely wishing to see just how formidable Huang was really, how great his contributions were.

Now, they were all blinded. Huang was simply a reincarnated demon king! He crossed realms, killing huge numbers of enemies, his contributions extraordinary.

At the same time, outside Imperial Pass, in the depths of the great desert, boundless energy waves were released, shaking the heavens above and earth below.

Right at this time, Heaven Abyss swayed, as if it was going to collapse.

Then, Imperial Pass actually trembled for the first time. At the very least, this type of thing had never happened before in this great era.

"Not good, the foreign side's undying kings have appeared. Are they trying to forcefully charge through Heaven Abyss, about to come knocking on our doors?!" Someone speculated.

"Doomsday really is about to arrive! Can the undying kings break through Heaven Abyss? If that is the case, Imperial Pass will definitely be broken through!" A few people cried out.

In that great desert, Heaven Abyss spun about like an ocean eye, like a giant funnel, only, it was upside down, shaking violently.

In the depths of the great desert, a grand scripture sounded, mysterious magical decrees burning one after another, producing symbols in the void one after another, wishing to pierce through that Heaven Abyss.

Everyone had a type of feeling that at the limits of heaven and earth, there were some creatures seated there, as if they were sitting in the prehistoric past.

The other side's undying existences were undoubtedly trying to break through all obstacles, slaughter their way into Imperial Pass.

Chapter 1545 - Pressuring the Border

Outside Imperial Pass, decrees rose into the air one after another, burning there, as if an ancient sacrificial ceremony was being held.

In the great golden desert, a bugle horn sounded. It was as if an endless magnificent army was attacking Imperial Pass.

Heaven Abyss was like a giant funnel that was fastened to this place. It continuously swirled about, releasing rumbling noises. There was black-colored lightning interweaving, flesh and blood raining down.

Apart from this, there was the sound of immortal dao individuals weeping, vaguely sounding amidst the great storm. It was as if there were many ancient creatures who revived, all of them bowing down and roaring here.

That scene was extremely terrifying. As the decrees in the great desert distance rose into the air, offering sacrifices in the battlefield, Heaven Abyss underwent an astonishing change.

It was as if the end of the world was descending. Black-colored and blood-colored lightning interweaved, tangling about together. An even greater rain of blood poured down.

Heaven and earth trembled, the great earth shook.

Imperial Pass was massive. The ancient walls were all piled up from star remains, but right now, they were shaking, as if they were going to fall apart.

This was a strange aura that was spreading, rippling through this place. It spread limitlessly, no distance it couldn't cover, engulfing the heavens above and earth below!

"Have the undead kings finally fully revived? They are going to take action!"

Inside Imperial Pass, an elder suddenly opened his eyes. Two streaks of cold light were released. It was unknown just how many tens of thousands of years he had remained seated for, his body covered in dust.

It was to the extent where even his face was like this, full of dust, covering the surface of his body, as if he was a clay sculpture.

This was one of Ancestral Altar's unmatched beings. Even when the rotten wooden chest was brought back, he still didn't emerge. Now that he sensed the changes to the outside world, he woke up.

"The power of the undying existences..." There were people who released light sighs in other places.

Even Jin Taijun was like this. She stood on an ancient mountain, gazing into the limits of the horizon. Even though they were protected within Imperial Pass, she was still shaken inside.

It was because this was the aura of an undying king, covering everything as it swept over.

Even with Imperial Pass' defenses, that type of mysterious fluctuation still seemed like it could pierce through.

However, this didn't have any destructive power, just a type of faint pressure, making the supreme beings feel a type of inward alarm, as well as a type of pressure.

Only they could sense this type of thing, because the others were completely unaware. They only knew that something major was happening outside Desolate Border, but without reaching that level, they couldn't sense the terrifying pressure of undying kings.

It was elks being intimidated by the roars of lions, while the ants were oblivious.

Ants naturally referred to cultivators at or below Self Release Realm!

Of course, this wasn't absolute, there were some lower realm cultivators who still sensed this, for example, Shi Hao. He was inwardly alarmed, feeling as if a majestic immortal mountain was crashing down, about to crush him.

Imperial Pass was sealed, those from the outside world unable to enter.

Only through transport formations could one enter the city.

However, now, one side of the wall was opened. Someone climbed to the top of this ancient and majestic city that was as tall as the sky, gazing into the other side.

Every single piece of stone used to make this wall was a piece of star remain, all left behind after great stars fell. One could imagine just how tall the wall was. Standing on top of this type of wall made one feel as if they were towering at the very peak of a starry sky.

As this person gazed into the foreign side, resplendent light shone from their eyes.

He was Immortal Wang. He stood there, silent and unmoving, looking into the golden great desert.

In the past, not many people could climb up here and stare into the foreign side, because this city was always sealed, the only path between the two realms blocked.

Soon afterwards, Jin Taijun also came, standing there, not saying anything.

"This time, if they come, all those who resist will die." On the wall, an ancient and distant voice sounded. This was Immortal Wang. ~~no ve-Lb/1n~~

He looked like he was sixteen or seventeen, his face ridiculously tender like that of a youth, but his voice was extremely aged, gaze also full of great changes.

"Great forces have come, it is impossible to resist." Jin Taijun replied.

Soon afterwards, three more figures appeared on the wall. They were Imperial Pass' unmatched beings, normally watching over Ancestral Altar.

Their figures were all blurry, carrying primal chaos, silently gazing into the other side.

In the great golden desert, the boundless fluctuations were even more intense. One could see several dozen to over a hundred decrees rise up, every single one resplendent to the extreme.

When these decrees flew to a certain height, they would suddenly ignite in midair, produce the most complex symbols, and then engrave themselves there.

A sacrificial voice sounded, as if endless creatures were weeping, praying, kowtowing, communicating with the hidden power, wishing to open up a terrifying passage.

“Things are dangerous this time!”

An unmatched being spoke. He was Qi Hong’s master, as well as the original owner of the Five Spirits War Chariot. He stood in primal chaos, gazing into Desolate Border.

How were they supposed to cross this disaster? The undying kings revived, they were now going to unleash matchless methods, not stinting to pay the cost, wishing to charge head-on, break through the obstruction that was Heaven Abyss!

Even supreme beings were inwardly shaken, great waves stirring within them.

Only they could sense this type of aura. This wasn’t the mysterious fluctuation of an undying king, but rather terrifying power that spilled out after a revival, spreading through this heaven and earth!

Soon afterwards, they saw the black flood in the horizon. Those were men, the other side’s endless army. They already arrived!

“They were like a flood, filling the limits of the great earth, a large black expanse, leaving everyone shaken and alarmed. There was a type of baleful aura covering the world!

Hong!

The entire city wall trembled, as if it encountered some type of impact.

“As expected, this is the attitude of a great decisive battle. They drew over the foreign great dao aura, using the power of that side to batter this place!” A supreme being sighed lightly.

Of course, this wasn’t important, the most terrifying thing was that the undying kings might even act. If they didn’t hesitate to pay the price, who could say for sure that Heaven Abyss could definitely stop everything?

“Have the leaders of the clans gather!” An unmatched existence said. As the oldest supreme being, the effects of his words were extremely great, commanding all clans.

Imperial Pass could not remain calm. The experts of all different clans, the leading figures all moved, rushing towards this wall, starting to gather.

Shi Hao and the others were naturally startled as well. Right now, even the great contributions he established, as well as the heaven reaching beams of light lost their brilliance.

It was because shocking changes arrived, something major was about to happen, all eyes drawn in that direction. No matter how stunning Shi Hao was this time, before the descent of the great disaster, it was already no longer that dazzling.

These youngsters didn’t have the qualifications to ascend that special wall.

However, they heard the news, and as such, all rushed over together, standing before the wall, gazing in that direction. All of them were waiting for news.

In reality, the city was too large, the atmosphere heavy, the pressure incredibly great. Even when it was right before them, when they looked above the wall, they felt as if they were gazing into a heavenly dome.

“This time, the foreign side’s reaction is so strong, there is definitely a reason for this. If I am not mistaken, it should be related to the rotten wooden chest Huang brought back.”

On the mottled ancient wall, Jin Taijun spoke.

Right now, figures were everywhere, the experts of all clans arriving, all of them at the Self Release Realm. They were the most powerful group of cultivators.

Everyone’s expressions were grave as they looked outside the city!

“Have Huang come up as well. This matter happened because of him, so there is a need for him to gather here. Give him a seat.” Jin Taijun spoke up again.

At this time, no one said anything, this place quiet. The expressions of the great cultivators of various clans were serious, eyes flickering with radiance.

Under the city, when Shi Hao heard this order, he was in a bit of shock. He could actually ascend the city wall as well, standing above?

It was because he had already heard that these were all the clan leader level figures of various clans, normal cultivators couldn’t come up here.

“Whose order was it?” Qing Yi revealed a shocked expression, asking for the one who gave the order.

“Jin Taijun!”

“What?!” At this moment, many youngsters cried out in alarm, for example, Cao Yusheng, Chang Gongyan, Lunar Jade Rabbit, and others.

Even Jin Family and Wang Family’s people revealed shocked expressions, deeply surprised.

“No, you definitely cannot go! That old hag is definitely not of the good sort!” Cao Yusheng secretly transmitted sound. He didn’t dare call her an old hag in public.

After all, this was a supreme being who could overlook the Nine Heavens Ten Earths. Even if she crushed him to death on the spot, there wouldn’t be anyone who would get revenge for him.

“You cannot go up, there is definitely something wrong here!” Sky Severing Dao’s witch also secretly transmitted to Shi Hao, shaking her head in his direction.

Then, many people tried to stop him, feeling restraining fear towards Jin Taijun.

Only, how could one defy the order of a supreme being?

“I’ll go take a look, see what exactly is going on.” Shi Hao wanted to see for himself what was going on.

“Fine then, we will accompany you there too! I really want to see the grand scene of the foreign army’s invasion!” Cao Yusheng and the others said.

This time, many people moved, extremely hopeful, this being the case even with Shi Hao. He wanted to see just how many great troops were sent out from the other side this time.

Perhaps because today was special, perhaps because things were intentionally loosened, no one was willing to stop them. The group of youngsters all got up the city wall.

This included Great Xu Tuo, Lan Xian, Little Sky King, Ten Crown King and a large group of other people.

The city wall was grand and majestic, as tall as heaven, shining with the sun and moon.

The area under the mottled ancient wall was full of the engravings left behind by all types of divine weapons, but it still remained undying, towering for endless years without falling, suppressing the passage that led to the Nine Heavens Ten Earths.

“So many!” There were youngsters who couldn’t help but cry out as soon as they ascended the city wall, their expressions completely changing.

When they looked down, there was a great black expanse, no limits in sight. There were great foreign troops everywhere, flooding over from the limits of the horizon, incomparably stifling.

This was on a scale never before seen!

In the past, even though there were great battles that were extremely intense, how could they compare to this? The entire great desert was about to be occupied!

It was extremely clear that this wall was special. No matter how tall it was, how majestic it was, one could still clearly overlook the situation on the ground below, moreover able to sense that type of fluctuation.

An endless great army pressed over, dressed in black armor, equipped with shining long blades, deep and cold war spears, thick blood halberds, riding on sinister vicious beasts.

This flood of steel roared over, making heaven and earth shake!

However, this type of great army that was boundless without limit was completely quiet, no one shouting, no one roaring while riding their mounts, silently advancing.

This only made things seem even more oppressive, making everyone feel even more suffocated!

The great army was seemingly endless, but it wasn’t chaotic at all, extremely orderly, troops after troops of men in proper formation, slowly closing in, the pressure making everyone in Imperial Pass about to shake in fear.

Their march was just too disciplined, in the end, when so many troops arrived, silently closed in, there was actually only a single voice. The pressure made it hard for one to even breathe!

It was incomparably suffocating, the pressure too great!

The great army stopped, all of them coming to a halt, the army so great one couldn’t see the end with a single gaze. They were still completely quiet, only stopping outside Imperial Pass.

Only when a black-colored war chariot slowly arrived from the distance was this peace broken!

“Hand over Huang, hand over the wooden chest, and we can ensure the continued peace of Imperial Pass!” A voice sounded. It was extremely cold and indifferent, carrying great dignity.

“Do you think we’ll hand them over just because you said to?!” Someone shouted from above the city wall.

“Hand over Huang, hand over the wooden chest, and our undying kings can promise to not attack Imperial Pass for ten thousand years, maintain peace between the two realms. Otherwise, a massacre will happen in this city!”

When these words were spoken, everyone was shaken.

Chapter 1546 - Force

Could it be that the foreign side’s creatures were making such a big fuss all because of Huang?

Everyone’s expressions became grave. They already understood that the disturbance Huang stirred up outside Desolate Border was far greater than they originally imagined!

The undying kings even completely revived because of this, knocking on their doors, how great of a matter was this? Only in the last great era when the foreign side truly began an all out attack on the Nine Heavens Ten Earths would these types of existences make a move!

This was something that shocked past and present. The great curtains were starting to be pulled back!

“Huang is a resident of Imperial Pass, how can we hand him to you all?!” Another great cultivator shouted loudly, extremely unyielding, immediately opposing the other side.

Jin Taijun gave him a look, expressing dissatisfaction towards his impulsive action without prior consultation.

Under Imperial Pass, that black war chariot was extremely calm. That terrifying existence didn’t say anything, no longer speaking out, maintaining a dignity and solemnness.

“Brazen, you actually dare treat an Emperor Clan with disrespect! This is a clan eradicating great sin!” Below, nearby that black war chariot, there were some who shouted loudly.

“No one is allowed to treat Emperor Clans with irreverence!” Another great cultivator roared, teeth snow-white, figure large and tall, carrying terrifying killing intent.

A group of people shouted out, their voices ringing through this world, shaking up Imperial Pass.

On the city walls, a group of people felt a chill run down their backs. They mustered great forces after all, even the Emperor Clans who had never showed themselves appearing.

Just how terrifying of a matter was this? The Emperor Clans were known as the highest unmatched clans, any member noble beyond belief. It was because they were unstoppable, practically without equal!

Unfortunately, their members were too few, their reproductive ability frustratingly low.

That war chariot was pitch-black like ink, smoke clouds roiling. There were some strange ancient beasts engraved on them, no lack of True Dragons and others among them. There was a type of soul pressing aura that seeped through the walls.

One could guess that there was definitely an Emperor Clan supreme being sitting within!

This was something that has never happened before, from past until now, not many individuals of this caliber directly appeared from Emperor Clans, arriving on the battlefield, directly facing Imperial Pass' city gates.

Everyone on the city walls were shivering inwardly.

They could see just how high the status of Emperor Clans was in the other side, even a simple and direct sentence from a great cultivator in Imperial Pass drawing such coldness, being berated like this. This was enough to explain everything.

"Whether or not you all choose to hand them over, it is up to you all to consider, choose properly!" Under Imperial Pass, an elder standing in front of the black ancient war chariot shouted loudly.

"You want us to accept these types of conditions in humiliation? Forget it!" There were no lack of unyielding individuals on the city walls. They were always fighting here, how could they bow down?

It was to the extent where this type of people, as long as they were pressured, they would only retaliate even greater. The clans from Imperial Pass who fought on the battlefield were all aggressive, extremely unyielding.

"You all were given a chance, yet you all don't cherish it. You will regret it!" Someone below shouted.

"Shut up! What are you all hollering for? Do you really think we're scared of you? If you want to attack the city, then just come! We'll just face you all head-on!" Someone on the city wall replied.

"Exactly, shut your mouths! Do you think we'll give in just because you threaten us a bit? After fighting for so many years, if we were all weak willed, would this city still stand?" Someone spoke in agreement, venting his worked up emotions.

Under Imperial Pass, those creatures' expressions weren't that pleasant to look at.

Hong!

Right at this time, at the limits of the great desert, in the area Heaven Abyss couldn't cover, light reached into the heavens, carrying biting cold killing intent, surging for millions and millions of li!

Everyone on Imperial Pass immediately trembled, feeling a wave of coldness that came from their souls. A type of feeling as if doomsday was imminent.

They didn't have to think too much to guess that these were the movements of undying kings!

This was a type of unimaginable threat, making everyone feel cold from head to toe. There was an indescribable pessimism, to the extent where it even affected everyone's resolution, making them feel like all hope had turned to dust.

It was because these types of fluctuations were just too terrifying, deeply shaking their soul imprints!

Existences on this level, were they really going to cross over? How were they supposed to contend against this? There wasn't a chance of victory at all!

Weng!

The void trembled, large amounts of decrees rushed into the sky, burning in the limits of the great desert, still this type of special ancient sacrificial ceremony, wishing to help the undying existences enter the pass!

As long as they could pass through Heaven Abyss, the Nine Heavens couldn't win. It was because at that time, no one could stop their advance.

In the limits of the horizon, the golden decrees burned, terrifying fluctuations shaking up Desolate Border!

The expressions of everyone on the city walls were incomparably ugly, feeling worry inside. A fretful mood was spreading.

As for below Imperial Pass, the great army was endless, as if there was a flood of black steel. Right now, they all raised their weapons, releasing orderly shouts.

"Undying kings!

It was just two words, yet it rang through the heavens above and earth below, moreover shaking up even Imperial Pass, forming a terrifying sound wave.

This left everyone shaken. The foreign creatures called out to their greatest existences together, leaving all of Imperial Pass' cultivators shaken.

"Have you all made your decision? Do not cause damage to your own interests!" Under imperial pass, someone said coldly.

The reason why they dared do this was because of their powerful confidence. This was a type of clear pressure, forcing Imperial Pass' people to make a decision.

In reality, it was precisely because they had the confidence that they didn't fear either decision Imperial Pass made. Regardless of whether the creatures of Imperial Pass accepted or not, it wouldn't have that much of an impact on them.

However, this type of confidence, this type of boldness, swayed the hearts of many on the city wall.

"Just get lost, if you can't accept this, then we'll just fight!" Cao Yusheng shouted.

"Shut up!" An elder next to Jin Taijun gave him a cold look, saying, "Is there any place for you all to speak here?"

"Why can't I? When we fight with the foreign side, I will definitely fight at the very front! When cursing them, I naturally won't pass on this responsibility onto others!" Cao Yusheng had a type of special 'loftiness', extremely unyielding.

"Enough." An unmatched existence stopped them.

"Just a single Huang, why do we have to attach so much importance to him? Moreover, this time, he incurred public wrath, many people wish for him to die earlier to quell their anger. That is why we need you all to hand him over. As for that wooden chest, you all will never be able to open it. Whether you all

hand it over or not doesn't make that much of a difference, we can just seize it ourselves!" The people below were extremely forceful, intimidating them like this.

"Then you all can just come and get it yourselves! Just give it a try!" Someone said, unconvinced, extremely furious.

"We killed many creatures before, already don't want to blood purge the Nine Heavens Ten Earths anymore. We are giving you a chance to end things peacefully."

Inside the black war chariot, the Emperor Clan's supreme beings spoke up once more, still cold and detached, no emotional fluctuations, making everyone feel great respect.

"What kind of peaceful situation?" Jin Taijun spoke up, asking like this.

This shook the bodies of everyone on the city walls, great waves stirring up within them. What did the supreme beings asking like this signify? Were they going to compromise?

"If you satisfy our conditions, within ten thousand years, our two realms will interact peacefully, everyone minding their own business!" The black war chariot's Emperor Clan's supreme being promised.

Moreover, he further stated that he could ask the undying kings to swear an oath as a guarantee.

Everyone was shocked. The undying kings' oath definitely involved great karma, perhaps it could be used as a guarantee.

However, could they agree to this? This was too shameful!

"The blood oaths of undying kings are indeed effective, it will involve the most terrifying karma." Jin Taijun nodded.

Everyone's expressions changed. Was she really going to agree to these conditions, offer out Huang like this?

Many people looked towards Immortal Wang and the three unmatched beings, the atmosphere becoming somewhat stifling, heavy to the extreme.

Cao Yusheng, Heavenly Horned Ant, Chang Gongyan and the others were furious, really wishing to curse out, but they couldn't really say anything before the supreme beings.

However, they all spoke out, asking for the rejection of this proposal.

"You all are of the younger generation, do not have the qualifications to stand here. Just hurry and go down." An old woman next to Jin Taijun waved her hand, ordering them.

It was because Jin Taijun wouldn't talk to them. With her status, she wouldn't speak too much.

At this moment, Shi Hao stood up, standing on the wall. He looked towards the supreme beings and the leaders of the various clans, saying, "It is not that I fear death, but rather that this wooden chest must not be handed over!"

Everyone couldn't help but nod. It was because this chest definitely carried tremendous secrets. For the other side to muster such great forces, forcing Imperial Pass like this, it was enough to prove its importance.

This supreme treasure was already obtained by Imperial Pass, so how could they hand it back out? That was too humiliating, at the same time, it might trigger a horrible result.

This was especially the case when everyone saw that those of the other side were open and without fear, demanding for what they wanted. It was clearly to humiliate the cultivators of Imperial Pass!

"Can we change the condition? The wooden chest cannot be handed over." Jin Taijun spoke.

This made everyone reveal strange expressions. Qing Yi, Cao Yusheng, Lunar Jade Rabbit and others were extremely dissatisfied, because Jin Taijun's intention was too clear. The wooden chest couldn't be handed over, but Huang could?

"Dao friend..." An unmatched being on the city wall spoke up, wishing to say something.

"Dao friend, I know your intentions, but we have pleasant news on our side. As long as the other side doesn't attack Imperial Pass for the short term, everything could be changed, the conclusion will be completely different!" Jin Taijun said.

Chapter 1547 - Choice

"What?!" Even the unmatched existences were moved. At their cultivation realms, as supreme beings, they wouldn't show any change in expressions even if an immortal mountain collapsed, but now, they were shocked.

It was because Jin Taijun's news were too shocking. It could change the present situation?

Who didn't know that Imperial Pass was in imminent danger? If the Undying Kings revived, they would definitely come over, it was just a matter of how long. When they came knocking on their door, who could stop them?

Now, Jin Taijun actually said that the situation could be reversed. This made the expressions of everyone on the city wall change greatly, their breathing hurried, extremely nervous and hopeful.

"Please tell us!" An unmatched being spoke up, extremely serious. If someone had the ability to stop the disastrous future, change the situation, then paying a certain price could definitely be accepted.

"As long as we can persevere for a few hundred to five thousand years, then the Nine Heavens Ten Earths' danger can be neutralized. Right now, all we need is time!" Jin Taijun said.

"How will it be neutralized, how will you do it?" The unmatched beings asked further.

It was because this would affect too much. If they could change the situation, everyone could live, Imperial Pass would no longer be wiped out. This was something many people wanted to see.

"There are powerful individuals who will resist the foreign side!" Jin Taijun said.

"Who... are they? Where are they? Are there still these types of people left?" Someone asked. This was a great cultivator, hair and beard all white. Right now, even his voice was starting to shake.

“Are they the existences from restricted regions? Are they going to come out? Someone immediately thought of the Nine Heavens’ restricted regions.

Jin Taijun shook her head. A faint smile appeared on the corners of her lips. “Have you all forgotten? There was previously a group of creatures who forced back the foreign great army, making them withdraw from the Nine Heavens Ten Earths!”

“It’s... them!” Many people understood, and then they were incredibly shocked.

It was because even after all these years, they were still searching, hoping to find those mysterious creatures, invite them to protect Desolate Border and Imperial Pass.

Unfortunately, after endless years passed, they were all defeated. There was no sign of those creatures, no traces of them to be found.

Some suspected that they were not in this realm, but rather elsewhere!

“How did you find them?” An unmatched being asked.

Right now, even Cao Yusheng, Shi Yi, Great Xu Tuo, and some others strained their ears, listening carefully. It was because this really affected too much, influences too profound.

This was especially the case for Dugu Yun, listening even more carefully. He was the protectors’ descendant, his clan suspected to be a member of that group of creatures.

“They had previously appeared in this world, so they naturally left behind some traces. I sent out many elites from the clan, after endless years of searching, there were some results.” Jin Taijun said.

“Did you invite them to Imperial Pass?” The unmatched being asked.

“That is impossible, moreover, in the recent hundred years to thousand years, they could not come out, which is why I need time.” Jin Taijun said calmly. Then, she gave Shi Hao a look.

“Why?” Someone asked in confusion.

The situation was dire. Wasn’t this the best time for those creatures to attack? If they were a bit later, perhaps the Nine Heavens would already have been massacred.

“It is because the place they reside in does not belong to this realm!” Jin Taijun revealed a earth-shattering piece of information.

That place was just too far, the road too difficult to cross.

Everyone was stunned. Just how far away was it, needing a few hundred years to thousands of years? This was a bit hard to understand.

“Then what kind of people have you found exactly? There’s no way the disciples you sent out entered that place, right?” The original owner of the Five Spirits War Chariot, Qi Hong’s master asked.

He was an unmatched being, so he naturally knew about the appearance of those mysterious creatures. They forced back the foreign great army, having them withdraw from the Nine Heavens Ten Earths.

n(./v())E/(I-(b.-1/-n

He had been investigating this entire time, even roughly understanding some of the situation, but just didn't know how far their place of residence was, just how to get there.

Now that he heard Jin Taijun had important clues, he naturally paid great attention to this.

"I found a descendant of those creatures, understood some secrets from his mouth, able to contact that side. This is why I am able to speak the words I did just now." Jin Taijun said.

Then, her lips moved, secretly telling Immortal Wang and the other unmatched beings, revealing some secrets.

The others were all shocked. Did she really find them? Could it be that the Nine Heavens Ten Earths had hope?

A few people were moved, carrying hopeful expressions in their joy, urgently wishing to know the result. However, there were some secrets that would naturally be kept from them, could only be exchanged between supreme beings.

Under Imperial Pass, a group of people released shouts. They weren't aware of the changes happening on the city walls, still putting on a powerful appearance.

"The final choice, will you hand them over or not?"

"This old one has already said that the wooden chest cannot be handed over." Jin Taijun spoke. It was because this chest definitely held great secrets, or else the other side wouldn't desire it so greatly.

If she handed it over, then these people in Imperial Pass wouldn't agree to it, suspecting her intentions.

"Then this means Huang can be given to us?"

The foreign side were aggressive, those clans all grew up while bathed in blood and flames, their way of doing things extremely valiant and crude. Right now, this was precisely the case, directly asking out, no sense of tactfulness at all.

This made the expressions of everyone on the city walls immediately change, because being this direct really was a bit humiliating.

"We have always been direct, saying what we want to say. Since the wooden chest can't be handed out, then it's easy to see that Huang can be handed to us, right?" Someone said, roaring with laughter.

"Unbridled!" On the city wall, a group of great cultivators shouted. They always opposed the foreign side, always unyielding.

Now, the foreign side's cultivators were so rampant, clearly forcing them, mocking them in front of everyone, asking them to hand over Huang. This was a tremendous humiliation.

"You all are not allowed to speak randomly." Jin Taijun suddenly spoke up, not to the foreign creatures, but rather reminding those great cultivators.

This left everyone shocked and dissatisfied. Acting like this, was she really going to hand over Huang? Even though they knew that she had contacted mysterious reinforcements, handing Huang over like this was hard for everyone to accept.

“Senior, your intention is...” Someone questioned, asking like this.

“We need time right now. As long as we make it through this period, powerful reinforcements will come. At that time, there will be nothing left to fear, the order of this world fixed, a new chapter written!” Jin Taijun said with a sunken voice.

“This is extremely difficult for us to accept. Handing over our own men, I cannot accept this!” A great knight on a Heaven Devouring Beast said angrily, floating in midair, not standing on the city wall.

“The same for us!” A few old cultivators who bathed in blood and flames said, all of them unable to accept this.

“The impatience of the small will affect the bigger situation. Everything I am doing is for the peace of the Nine Heavens Ten Earths. Now, there is a small sacrifice to be made, it is unavoidable.” Jin Taijun said coldly.

Everyone looked towards Huang, most of them carrying expressions of sympathy, at the same time feeling furious. This was too humiliating, all of them finding it hard to accept.

“Dao friend, this... is not too good. The consequences are too terrifying.” An unmatched being said, reminding like this.

If they really handed over Shi Hao, it would be too hard to justify. He had just returned, establishing such great contributions, his glorious achievements shocking Imperial Pass. If they treated him like this, it would make people’s hearts go cold.

Even the unmatched beings opposed, speaking out like this, so the others who wanted to protect Shi Hao naturally spoke up one after another, asking for them to change their opinions.

Moreover, in their eyes, the foreign creatures wanted the wooden chest. If they didn’t hand it over, handing over Huang wouldn’t bring much effects.

However, who would have expected that someone below Imperial Pass would speak out, actually completely different from what they imagined.

“We have thought about this. If you hand over the sacrifice, hand over Huang, we can grant you all a period of peace.”

Huang was this important? Just how much did the foreign creatures hate him, for them to treat him with the same importance as the rotten wooden chest?

A few people felt that something was strange. The other side was letting their emotions affect their decision too much, right?

“How many years of peace can there be between the two sides?” An old woman beside Jin Taijun asked.

“Ten years. It is just a Huang, what does he count as? We only wish to bring him back and make mincemeat out of him, offer him as a sacrifice to the dead.” Someone replied.

“Too few!” The old woman next to Jin Taijun said. Then, she reached out a palm, saying, “Five hundred years!”

“Haha...” Below, the group of people roared with laughter, some of them revealing expressions of contempt. “Just a youngster, after handing him over, do you all think you can exchange for five hundred years of peace?”

Below, the dark black great army stretched as far as the eye could see. Many creatures remained serious, not saying anything. Only those who had great statuses were laughing.

Meanwhile, this also proved the strictness of status in the other side, as well as the terrifying nature of the army ranks. There were people everywhere, yet there was no clamoring.

On the city wall, when the creatures heard the rejection of these creatures, feeling joy for Shi Hao, they also felt a powerful feeling of humiliation. The foreign side’s people were just too unrestrained.

Of course, there were some who were full of regret. Could they not exchange for a satisfactory deadline with Huang?

“We can add a few years.”

Suddenly, in front of Imperial Pass, inside the black ancient war chariot, that Emperor Clan supreme being’s voice sounded, actually saying like this.

“Five hundred years.” Jin Taijun said.

“What is your intention? Are you dead set on handing Shi Hao out? You old hag, why don’t you hand over yourself and your own descendant Jin Zhan? Too shameless!” The Lunar Jade Rabbit suddenly erupted, speaking out like this.

“Senior, doing things like this really is not good.” Qing Yi also spoke.

“Are you even a supreme being?” Cao Yusheng also hollered.

It was because they foresaw that this exchange really might go through. The other side seemed to care a lot about Shi Hao, actually not hesitating to make such a great fuss over him.

There was something behind this! That was why Cao Yusheng’s expression changed again and again. He thought back to those words his master said, possibly explaining something.

“You all dare treat me with such disrespect.” Jin Taijun was extremely calm, and also extremely cold. She looked forward, her eyes erupting with divine radiance.

Right at this moment, an unmatched being stepped up, stopping Jin Taijun, counteracting her powerful aura. Otherwise, Qing Yi, Heavenly Horned Ant, and others wouldn’t be able to hold on at all.

Jin Taijun didn’t continue to press the issue, instead calmly speaking up, explaining, “If it were my descendants, for example, Jin Zhan, if handing him over could ensure Imperial Pass a period of peace, forget about five hundred years, even if it is just ten years, I won’t hesitate to have him meet his death!”

“Jin Taijun is wise!”

“Jin Taijun is selfless, thinking only for Imperial Pass, worthy of admiration!”

...

A few people spoke up, all of them praising her.

This was unavoidable, because there were too many people in Imperial Pass, the relationship between the clans complicated. There were naturally some who wished to exchange for peace, not wishing to fight anymore. There were some who completely followed Jin Family, so they had to stand out in support.

“Jin Zhan, come here. If the foreign side asks me to hand you over, but ensure the safety of this city, what kind of choice would you make?!” Jin Taijun asked like this.

“I will go on my own, head to the other side. Exchanging for several decades of peace in Imperial Pass is enough!” Jin Zhan stated.

A few people began to discuss amongst themselves, revealing strange expressions.

It was unavoidable that many would look towards Shi Hao.

“My ass! Can a Jin Zhan compare to Shi Hao? Not even a hundred Jin Zhans can match him. Can you even discuss the two on the same level?!” Cao Yusheng flipped out.

These words not only made Jin Zhan feel humiliation, even some well-known figures of Jin Family were shocked and alarmed, even more so making Jin Taijun’s face fall.

“You spoke well!” The Heavenly Horned Ant shouted.

Hong!

Jin Taijun’s eyes swirled with radiance, as if great stars were moving in the air, carrying incomparable powerful might, about to crush Cao Yusheng’s body as punishment.

This time, that unmatched being took action again. He looked at Jin Taijun, saying, “He is that dotard disciple.” The unmatched being pointed at Cao Yusheng.

The word dotard clearly had some intimidation. In the end, Jin Taijun didn’t deal the vicious blow, only giving him a cold look.

Shi Hao didn’t say anything from start to finish, just standing on the city wall, gazing into the horizon alone, looking at the endless black army. His figure looked a bit lonesome.

Suddenly, below Imperial Pass, a voice sounded from the black war chariot again. The Emperor Clan supreme being spoke up again.

“Five hundred years, I agree.”

These simple words left everyone on the city wall shocked. He actually agreed? This was just a youngster, yet it was worth the foreign side making a blood vow?”

“My agreement is purely out of admiration for this youngster. He is just one person, yet he killed countless people from my side, among them over a hundred great cultivators, just how impressive of an accomplishment is this? Even though he is an enemy, he is still worthy of my praise.”

The Emperor Clan supreme being spoke up, not fast nor slow, but his voice was like thunder, so loud the expressions of many people on the city wall changed.

“Youngster, come to our side, we might not necessarily kill you. If even my clan’s Undying King is in such admiration of you, then anything is possible.” Inside that black war chariot, that Emperor Clan supreme being said with a voice that wasn’t too fast or too slow.

“How could this be possible?” There were some on the city walls who couldn’t help but ask.

“He is so young, yet already has such battle accomplishments, in this great era, it can be considered world shocking. If the Undying King admires his skills, permits him to establish a clan alone, why is that not allowed? One person establishing a King Clan, even greater than a King Clan, this is all possible!” The foreign supreme being said like this.

Everyone was shaken. Was what he said true, or was he purposely inciting harmony between everyone’s hearts?

Everyone immediately looked towards Shi Hao, waiting for him to express his opinion. What kind of decision was he going to make?

Chapter 1548 - Best Situation

No one would have expected the black war chariot’s Emperor Clan supreme being to have such a high evaluation towards Shi Hao, indirectly promising like this.

He could become a King Clan on his own, even surpass this, not having to bow down when meeting Emperor Clans, on equal footing, just how great of a status was this?

One had to know that in history, only the Gu Clan and the Fallen Blood Phoenix who had heaven-defying strength, powerful existences who could change the battle situation would be treated with such great respect.

“Shi brat, why aren’t you saying anything?” The Lunar Jade Rabbit asked. She was indignant, bitterly disappointed for Shi Hao’s sake.

The Heavenly Horned Ant, if not for having a great grudge against the other side, having the grudge of his father and siblings’ deaths, he really would advise Shi Hao to just say screw it and go to the other side. It was because Jin Taijun’s words really made one seethe with anger, feel absolutely indignant.

Shi Hao established such great contributions, yet as soon as he came back, he was going to be handed over as a bargaining chip, just how tragic of a thing was this?

Almost anyone else would be opposed to this. This was being coerced, more than one could bear.

There were many people who had previously spoken up to protect Shi Hao. It was not only the youngsters, there were also older generation figures who had always fought with the other side.

This was especially true for the great cultivators who had bathed in blood and flames, fought hundreds of battles, they even more so felt anger for Shi Hao, expressing the unfairness. They hated the foreign creatures, fighting year-round against them, all of them unyielding.

Only, Jin Taijun was too strong. She was a supreme being, moreover found a path of peace for Imperial Pass, this made many people feel a bit helpless.

“You have a clear conscience, what needs to be done has already been done. Just make your decision on your own!” Qing Yi said. She looked extremely beautiful, white clothes purer than snow, face delicate, exquisite and elegant, but right now, her words weren’t soft, not gentle like usual.

These words left many people shaken, especially those great cultivator, for example, the middle-aged expert who was seated on the Heaven Swallowing Beast, the great cultivator who sat on a giant Silver Hou, as well as some of the great leaders of different clans. They all looked over, in the end, quite a few of them nodded.

From a certain meaning, this was a type of human nature and popular will.

The powerful great cultivators, those who were normally pro-war, always fighting a cruel battle with the other side, were all partial towards Shi Hao, expressing the unfairness for him.

Just imagine, to have brought back such extraordinary contribution, yet in the end, he suffered such unfair treatment, how could it not make the hearts of everyone go cold?

Of course, there were some who had different attitudes, for example, extremely nervous, and extremely dissatisfied as they stared at Shi Hao. These were the clans who previously hoped to end the blood war a bit earlier, exchange for a period of peace.

Imperial Pass’ numbers were too great, the clans too many, there were naturally creatures of all different types. There were those who supported Shi Hao, and those who opposed him as well. novel 1n

This was especially the case where there were some families who never got along with him, even standing against him, for example, Wang Family, Jin Family, and their followers, naturally wishing to just throw Shi Hao to the other side sooner.

“Jin Taijun is of noble character and unquestionable integrity, worthy of being a virtuous great sovereign. We feel endless admiration and respect towards you. For the sake of protecting Imperial Pass, for the sake of protecting the various clans, you didn’t hesitate to do this. Even if it brings a bit of criticism, you still didn’t hesitate, worthy of being a supreme being.”

Du Family’s people spoke out. They weren’t a long life family, but they could definitely be considered a top level influential family of the Nine Heavens above, second only to the limited long life families.

“Indeed, Jin Taijun is virtuous and of good moral standing. She has previously stated that if it was her own descendants the other side asked for, even if it was the most dazzling direct inheritor like Jin Zhan, she still wouldn’t hesitate to send him out. This is the attitude and consideration of the most powerful!” Someone else praised, a great commander from the Pixiu Clan.

A few people spoke out one after the other. After a few people supported Shi Hao, now, more people upheld Jin Taijun.

“Brother Jin Zhan is quite excellent too, when asked just now, even if he knew he was going to die, he still didn’t hesitate to agree, what kind of boldness is this? He is worthy of being a heaven warping figure of the younger generation!” Another person said like this.

Of course, this was a Jin Family follower, because others really couldn’t say this out loud. It was because Jin Zhan’s situation was just a front, not truly having to make a life and death choice.

Then, these people didn’t forget to give Shi Hao a look, intentionally reminding him, having him express his opinion. It was because many people were watching.

“Shut your goddamn mouth!” The Heavenly Horned Ant flipped out. He really was angered badly, screaming coldly at Jin Family, “Since you all are of noble character and unquestionable integrity, if Shi Hao leaves the pass in a bit, then Jin Zhan should just follow him! Real action is far greater than this kind of fake boasting!”

A group of people looked over, the faces of Jin Family’s people naturally ugly.

“Brother Shi, no matter what kind of decision you make, I will support you!” Cao Yusheng said seriously, declaring his position here.

At this point, the young and vigorous younger generation were all furious, a bit unwilling. If they really were to hand Huang over, then how humiliating of a thing is this?

Not only were they furious, even Imperial Pass itself was going to be shamed. In the eyes of the pro-war faction, peace was never compromised, but rather obtained through fighting.

This type of wronging was even worse than giving up one’s territory in return for scriptures, was there that much of a difference?

“Dao friend Jin, doing things like this isn’t too good.” Another unmatched being spoke up, expressing his objection.

Jin Taijun gave everyone a look, and then looked towards Shi Hao, saying, “Little friend, you have remained silent this whole time, not saying anything. I wish to hear your opinion.”

Everyone looked over, staring at Shi Hao.

“You are simply mocking and forcing others!” The Lunar Jade Rabbit said.

Many people nodded inwardly, because previously, Jin Taijun said that if it was Jin Zhan who was chosen, she wouldn’t hesitate to send him out of the city, now, she asked Shi Hao like this, what was the intention? This was clearly forcing him into agreeing!

“Huang, what about it? Just come to my side? We will treat you with the courtesy you deserve!” Outside, someone roared with laughter.

“You all are trying to drive a wedge between us!” On the city wall, someone released a loud shout, feeling like the other side’s creatures harbored unfathomable motives. They were purposely ruining the relationship between some clans in Imperial Pass.

Shi Hao retracted his gaze from the horizon. His thoughts returned, his somewhat lonesome figure stood up perfectly straight, fully recollecting himself. The light in his eyes was like lightning.

He spoke up and said, "I never expected that after fighting a great life and death battle with the other side, as soon as I return to Imperial Pass, I would have to meet them again."

"This type of result is a bit outside of my expectations, in Imperial Pass, I became a bargaining chip, while if I leave the pass, I might very well become a guest, perhaps even establish a clan of my own with extraordinary status." Shi Hao said in self-mockery.

These words made many people feel their faces become red hot. What Huang said was the truth, but this was clearly a great type of ridicule.

This was a matchless youngster with tremendous contributions, yet when he returned to Imperial Pass, he didn't obtain the treatment he deserved when he returned, it was instead the enemy who admired him. This really was a type of irony.

"Battles in Desolate Border are always cruel and ruthless, who knows how many of the ancient people have died from the past to now. If one wishes for peace, there is always a price that needs to be paid. Youngster, you are quite excellent, the people of later generations will remember you." Jin Taijun spoke.

Was this passing judgment on him, already deciding to have him leave the pass? Everyone's bodies trembled.

"I want to ask senior, is what Jin Taijun said true? If enough time is bought, can powerful reinforcements really be obtained, thus ensuring the safety of Imperial Pass?" Shi Hao asked an unmatched being.

That unmatched being frowned. He looked towards Jin Taijun, wishing for her to give a clear reply.

"There is proof, didn't I tell you all? It is trustworthy!" Jin Taijun looked towards those unmatched beings, and then looked towards Shi Hao, saying, "You still haven't reached this level, there are some things that aren't easy to explain to you."

"Is that so?" Shi Hao said with a sigh. "If this really can change the situation, I will leave the pass alone, meet my death in the foreign side, it won't be a pity. This can be done!"

Then, his eyes flourished with radiance, saying, "I just fear that this is a death in vain, one that brings extremely terrible consequences."

"Huang, are you scared?" An old woman next to Jin Taijun berated.

"Shut your fucking mouth! When I was fighting a bloody battle in Desolate Border, you were still living like a princess inside the city! If I was scared, would I have fought with no thought of personal safety to bring back the wooden chest?" Shi Hao's voice was cold, glaring coldly at her.

The old woman's cultivation realm was extremely high, strength exceptionally powerful, but when she was glared at by Shi Hao, a chill ran through her body, she felt a strong urge to back up.

Even she herself was shocked. Why was she so scared of a youngster's gaze? Was this the so-called righteousness reigned supreme, might rushing into the heavens, all sides would be in awe?

“Old woman, shut your damn mouth! If you dare speak anymore nonsense, we will feed you to fucking pigs!” The Heavenly Horned Ant screamed out. The others also spoke up.

The old woman wanted to stare out, intimidate them, but she felt a bit lacking in confidence.

Moreover, right at this time, an unmatched being looked over with a cold expression, his eyes deep and chilly. “If you dare speak randomly again, I will immediately kill you, no matter whose servant you are!”

Jin Taijun moved her hand, having the people at her side all close their mouths. They didn’t dare speak any more.

“Does this mean that you are willing to leave the pass?” Jin Taijun looked towards Shi Hao, asking.

“If I leave the pass, giving up my life, but by doing this, I can exchange for all of Imperial Pass’ peace, the ultimate situation can be revised, then I’ll pursue justice without any second thoughts.” When Shi Hao spoke up to here, he paused for a moment, and then continued, “However, if after five hundred years, no one comes to provide aid, when that day comes, how terrifying will the situation be, at the same time, how cold will the hearts of the masses be? At that time, I fear that Imperial Pass will be discredited, a great disaster falling onto this place.”

Shi Hao spoke this possibility with as calm of a tone as he could.

“You can relax. That type of thing won’t happy, the creatures of that side will definitely appear!” Jin Taijun’s eyes were deep, calmly speaking like this.

“Then fine, I will leave the pass.” Shi Hao nodded.

At this time, Du Family’s people spoke up, praising Shi Hao, saying that he was righteous, that this was a great contribution.

There were people from the Pixiu Clan who also nodded, expressing that Shi Hao was an upstanding person.

There were a few other families whose faces all carried smiles, looking like they were sending off Shi Hao. To exchange for peace with the sacrifice of a single person, this seemed quite worth it in their eyes.

Shi Hao remained silent, because these peoples’ smiles were too fake, making him feel nauseous. There were some people who didn’t even hold back, clearly no kindness involved.

For example, Jin Family’s people and their followers, all of them withholding hostility.

Shi Hao said softly to himself, “I finally understand why there are some restricted regions in the Nine Heavens above who don’t come out of the restricted region. If I don’t die after heading to the other side, what kind of identity will I return with when I come back?”

“You... what are you trying to say?” A follower from Jin Family asked.

“I was thinking, if I don’t die after leaving today, when I step foot in the Nine Heavens again, I wonder what kind of attitude I would have when I face this place?” Shi Hao was a bit lonesome, his eyes deep. “I recalled Desolate Border’s Seven Kings, truly lamentable.”

He released a light sigh, and then said, "If I return again, the best situation perhaps might only be to form a restricted region of my own, protect those I should protect!"

Chapter 1549 - The Green Hills Under the Heavens are All the Same

The best situation, was for him to create a restricted region of his own, protect those he ought to protect.

With Shi Hao's lonesome expression and calm words, everyone felt a wave of sadness. A young man with tremendous contributions was forced to this step.

A few great cultivators couldn't help but want to stand out, stop all of this.

However, Jin Taijun looked over coldly. The aura of a supreme being was unmatched, as if a giant dragon looked down on ants, the difference too great!

"Huang, what is the intention of this? Please give us an explanation!" Not far out, a follower of Jin Family asked like this.

This was a great leader, someone who had entered the Self Release Realm for many years, extremely powerful. Currently he sat on a giant Nine-Headed Snake's body, looking in this direction.

In reality, this was what many from Jin Family wanted to hear, because they felt like Huang's words were a bit ear-piercing, making them feel extremely uncomfortable.

"What is your intention? Form a restricted area of your own? Even if you had the ability to come back, you wouldn't join the future battle, is that it?" Someone asked loudly.

"Are you harboring negative feelings, feeling like you were wronged, hating Imperial Pass?" Someone spoke even more directly.

Those under Jin, as well as Wang's troops' expressions were all unkind, at the same time, they felt incomparable restraining fear. If that day truly came, would Huang brandish a butcher's knife in their direction?

Many people were shivering inwardly, because Huang's talent was something everyone could see with their own eyes. He was so powerful now, if he was given time to grow up, it really was hard to say how far he would grow.

"Do you all have the right to berate Shi Hao like this?" Qing Yi spoke up. The other youngsters, like the Heavenly Horned Ant, were all extremely angry, all of them lashing out.

"Hah!" Shi Hao released a light laugh, his eyes carrying disdain, even more so a type of helplessness. "If I had selfish intentions, I wouldn't have fought a bloody battle against the other side, risked my life fighting outside in Desolate Pass, even more so wouldn't agree to throw my life away here, head towards the other side."

"Then... what is your intention?" Du Family's people asked.

"You clearly spoke to yourself like that just now." Pixiu Clan also had experts who spoke out.

“When I enter the other side, if I am lucky enough to not die, do you think they would feel at ease? There will definitely be blood oaths and other methods involving great karma. I will definitely not be able to assist you all in the future.” Shi Hao said, extremely bleak, because he wasn’t sighing for that type of conclusion, but rather becoming more and more cold from being questioned.

Everyone became stupefied, not knowing what was good to say. At the same time, they felt extremely embarrassed. This undoubtedly made them look like petty people being jealous of those with noble character.

“Don’t leave the pass!” At this time, the Heavenly Horned Ant, Cao Yusheng, Chang Gongyan and the others surrounded him, stopping Shi Hao, not letting him go.

It was because once he left, it was impossible to predict what will happen, impossible to foresee.

Even though they were angry just now, feeling like Shi Hao might as well directly leave, in the end, no one wished for Shi Hao to go far away. If there was a choice, who would be willing to leave their own people?

At the same time, they even more so worried for Shi Hao’s safety. Even though the status of the supreme being in that black war chariot was high, how could they completely trust his words?

Shi Hao killed too many enemies in Desolate Border, killing thousands alone, meanwhile, the number of great cultivators exceeded a hundred. Just how shocking of battle accomplishments were these?

It could be said that once he went to that side, there would be enemies everywhere, the number of creatures and clans who bore grudges against him scalp-numbingly great. In this type of vile environment, would he be able to survive?

Perhaps he might be mercilessly killed by some great figure as soon as he heads over.

“You all have to take care of yourselves!” Shi Hao patted Chang Gongyan, Lunar Jade Rabbit, and others’ shoulders. He only had these words for them, unable to say anything else.

Once he left, it would be for many years, his future unknown, perhaps this might even be a parting by death, never to see each other again. Even if they could meet again, the blue sea might have already become mulberry fields.

No one was willing to see this scene, even Shi Yi who originally opposed him walked forward, looking at Shi Hao and saying, “Doing things like this, is it worth it?”

Shi Hao didn’t reply to this question, instead saying to him. “With both of us being from Stone Clan, you will definitely become very strong, so please properly take care of the so-called Sinner’s Blood Descendants.”

“What Sinner’s Blood Descendants? I understand, this is threatening and forcing!” Cao Yusheng released a low roar.

Qing Yi walked up. She looked into Shi Hao’s eyes, in the end, gently embraced him, doing her best to calm down. In the end, her voice was still shaking. “Take... care of yourself!”

“Senior, can this matter not be changed?” There was a great cultivator who spoke, seated on a Heaven Devouring Beast, eyes glaring angrily like that of a tiger’s. Even the powerful leaders felt disgusted with this, wishing to stop this.

“Dao friend Jin, if things continue like this, it will not end well.” An unmatched being also spoke, looking towards Jin Taijun.

“I only have one question. If we can exchange for five hundred years of peace, and we can obtain powerful reinforcements, changing the fate of the Nine Heavens Ten Earths, would you all still be unwilling?” This was Jin Taijun’s reply.

“You are sure that there is no mistake?” Shi Hao asked.

“I am sure!” Jin Taijun replied. Normally, with her status, she wouldn’t pay any attention to the words of the younger generation. However, it was different today.

“Fine, I am going to the other side!” Shi Hao nodded, extremely straightforward.

“I cannot take this anymore, I am leaving Imperial Pass and inviting someone over!” Cao Yusheng screamed out, the first to jump off the city wall, unable to endure this result.

“We agree to hand over Huang!” Right at this time, Jin Taijun transmitted sound out from the city, communicating with the one in the black war chariot.

Things were already like this, it could be considered to be decided.

“Haha... good!” A reply sounded from below.

On the city wall, many people’s expressions were ugly, the pro-war faction clenching their fists one after another, feeling greatly humiliated. It would be difficult for them to forget about today’s matter their entire lives.

As for Jin Family and their followers, as well as those who wished to stop the great battle, exchange for peace, they all revealed looks of joy, feeling endlessly inspired.

“We aren’t cold-blooded people either. Give Huang some time, let him settle some of his own problems before he leaves.” A voice sounded from below the city.

“Do you need this time?” The people by Jin Taijun’s side asked, looking towards Shi Hao.

“I do!” Shi Hao coldly replied.

“Little friend, what cherished desires do you have? We will do our best to satisfy them.” An unmatched being walked up. He was originally dignified, but right now, he was extremely ashamed.

However, there was nothing he could do. If they fought a bloody battle to the end, then Imperial Pass might be destroyed. Meanwhile, now, there was hope, able to ensure the safety of all clans.

“In the future, I will wipe away this humiliation through blood, even if I have to die while fighting outside Desolate Border.” Another unmatched being spoke. He also asked Shi Hao if he had anything he wanted.

“I want to absolve Stone Clan of their sin in Imperial Pass.” Shi Hao said.

"Fine, I promise you. From today on, the sin left behind by Stone Clan's ancestors are gone!" An unmatched being promised.

"This... goes against the past decree." Someone from Du Family said quietly.

"Hold your tongue!" An unmatched being shouted, coldly looking at him, making the great leader of Du Family almost fall weak onto the ground.

"I can promise that Stone Clan's sins will be removed." The master of the Five Spirits War Chariot, as well as Qi Hong's master said.

Jin Taijun didn't oppose this. When she saw that the others were like this, she also nodded.

"There is no need, my accomplishments are already enough. Through my battles this time outside Desolate Border, I believe it is already enough to absolve them of their crimes." Shi Hao said.

He wanted to go and tally up his accomplishments, use them to remove Stone Clan's sins.

These words left everyone moved, their expressions all changing, feeling ashamed, and also shocked, their emotions complex.

Even now, Huang still rejected their help, using his own merit to remove Stone Clan's past blood and sins.

This matter was quickly arranged. Shi Hao produced the merit tile once more. The pure white bone tile was extremely brilliant. Back then, when it was examined, it released heaven reaching radiance, auspicious brilliance rising streak after streak, representing Huang's accomplishments!

Even if they already made mental preparations, everyone was still shocked. This was just a youngster, just how many foreign enemies did he kill to have such great achievements?

The light rays were too many, auspicious light too rich, creating a great expanse. A group of elders began to count once more, every one of them stirred up, their emotions complex.

This type of heaven warping genius, someone who established such great merit, was being forced to his death, sent to the other side. Quite a few people felt pity and regret.

There were even some people who were resentful, feeling like Huang's departure was a type of great loss for Imperial Pass!

Now, Stone Clan only had a thousand or so people, moreover, their cultivations all not high. Shi Hao's contributions this time were enough to exchange for their freedom, they no longer had great sins weighing down on them.

"Gift the rest of these contributions to other sinner's blood families similar to Stone Clan." This was what Shi Hao wished for. At the same time, he looked towards the unmatched beings, saying, "Please do your best to reduce their so-called sins."

In the end, he released a light sigh, asking them like this.

"That is fine. Do you have any other wishes?"

"I wish for my parents, loved ones, friends, and others to all live well." Shi Hao turned around, walking towards the city gates alone. There was an altar that could send him out of the city there.

His figure was extremely lonesome, his rear figure bleak, giving off an extremely cold and dismal feeling, as well as a feeling of great sadness.

"Since that's the case, then just go." Jin Taijun said.

"Little friend, you... do you have any other desires?" An unmatched figure walked up, carrying a heart of guilt, still wishing to do some more for him.

"I am someone of this side. I hope that after I die, my bones can return, be buried in this world." Shi Hao said.

These words made a few emotional youngsters feel a great sadness. It was because this time, everything pointed towards disaster for Huang, there were just too many people in the other side who hated him.

Moreover, the black-colored war chariot's supreme being didn't promise that he would definitely live.

"If something happens to me, I hope someone can take my corpse, bring it back to the Nine Heavens Ten Earths, bury it in this place." Shi Hao said.

Right now, regardless of whether it was Chang Gongyan, Heavenly Horned Ant, Lunar Jade Rabbit, or the others who were close to Shi Hao, Great Xu Tuo, Lan Xian, Wei Family's Four Phoenixes, Tuogu Yulong, and the others, they all released a light sigh, feeling sorrow.

There were some, like Qing Yi and others, who felt extremely bad.

Even some great cultivators, as well as some leaders, became silent, opening their mouths, feeling dejected. They felt a type powerlessness towards this scene, their hearts moved.

This type of youngster was going to meet his death just like this. It was too much of a pity, too regretful.

"Who is willing to follow Huang? I believe with the other side's warlike and straightforward disposition, they won't trouble the followers. If something happens to Huang... bring him back!"

An unmatched being said. The so-called something happening, was naturally Shi Hao dying in the other side.

Who was willing to take back Shi Hao's corpse, bring him back?

After a short moment of silence, there were actually many people who shouted out, actually wishing to go with him.

Shi Hao was a bit surprised, feeling touched. He turned around, thought for a bit, and then a mysterious faint smile appeared at the corners of lips, actually pointing to someone who never spoke up.

"Are you willing to come with me?" The one he pointed at was Jin Zhan. In that instant, all of Jin Family's faces changed.

A few people immediately wanted to berate out, because Jin Zhan was this clan's most outstanding genius in recent years. They naturally weren't willing to let him go.

However, when the words reached their mouths, they then swallowed them back down, because it really was hard for them to say anything. Previously Jin Taijun had already spoken that if needed, she could send Jin Family's own to the foreign side to be killed.

Jin Zhan gave Jin Taijun a look. She didn't say anything.

"Huang, don't you think this is too much? If the foreign side is cold-blooded, killing Jin Zhan too, wouldn't we be throwing away a heaven warping genius for nothing? This is a loss of Imperial Pass' forces!" Someone from Jin Family finally couldn't hold themselves back, speaking up like this.

"Haha..." Shi Hao laughed loudly. He looked towards Jin Family's people, and then at Jin Taijun and Jin Zhan, in the end saying, "Forget it, I was just randomly mentioning it, how could I have the heart to trouble Jin Family who is known to have noble character and unquestionable integrity? I am going, one person heading out is enough!"

He laughed loudly, turning around to go, extremely free and at ease, taking steps out.

"Little friend, we can satisfy your cherished desires, have someone accompany you, and then in the future... bring you back!" An unmatched being said.

"There is no need. When a man heads out, where can't he make his home? Wherever he dies, wherever he is buried, the green hills are all the same under the heavens!" Shi Hao said with a loud voice, not even turning around.

At this moment, an emotion that was difficult to describe began to spread between everyone. Many people were moved, unable to say what kind of emotion they were feeling.

This world immediately became quiet, no one able to say anything.

Many people felt disappointed and frustrated, at a loss, as well as an extremely bitter and sad feeling. They felt regret for Shi Hao, feeling sadness for him.

As for the great cultivators, even though they were quiet, they clearly could not calm down inside, all of them clenching their fists tightly.

Only Jin Family's faces were ashen. The words Shi Hao spoke just now were too ear-piercing for them.

Shi Hao stepped on that altar. He was alone, extremely lonesome, but he no longer turned around, not speaking anymore. His back faced everyone, preparing to leave the pass!

Walking straight into roaring winds and frigid rain like this, will he be able to return?

"Shi Hao, what will happen to you in the future? Will you appear again? If you are still alive, would you be restricted by the other side through a blood oath, no longer recognize us?" Qing Yi's voice was shaking a bit, asking like this.

As for the little rabbit, Heavenly Horned Ant, and the others, they were all already screaming, wishing to leave the pass.

"If I live, I believe in the end, no one can restrict me. There will be a day when no karma can bind me, but I fear that at that time, my heart would have already turned cold, no longer burning like now."

This was Shi Hao's reply. He no longer turned around, his head not looking back.

The altar began to shine. His figure became indistinct.

Chapter 1550 - Cannot Turn Back

The altar shone. The symbols engraved on it were mysterious and ancient, worn by the passage of time, as if it was connected directly to other great eras, carrying a type of desolate aura. It was as if a prehistoric vicious beast hid within every symbol.

Shi Hao's figure became hazy, about to disappear at any time.

This was the highest level great transport formation passed down since the ancient times. As long as he entered, it would be the same as entering a dimensional space.

The process for leaving the pass was extremely strict, needing great figures to stir on the altar from the inside. As such, as long as this transport formation was activated, Shi Hao could leave this place at any time, enter the great desert's army, unable to turn back again!

"I will ask them to establish a blood oath!"

Jin Taijun spoke, still extremely calm. She took a step out, leaving the altar below the city gate. She returned to the majestic wall that towered into the heavens.

At the same time, there were quite a few people who came down, all important people from Jin Family, as well as their followers.

Of course, there were Du Family, Pixiu, and other great clan's leaders. They also wanted to see the so-called blood oath establishment process, personally see this period of peace established.

"This old hag, she is in this much of a hurry?" The Heavenly Horned Ant feared nothing, saying furiously to himself. He wasn't scared of anyone else hearing him either.

Not far out, the expressions of those under the Jin Family became extremely cold. Many of them looked over, carrying chilly auras.

It was to the extent where someone released a cold snort as a warning, used as a threat and intimidation.

"Is there something with your throat? What are you randomly snorting for?!" The Heavenly Horned Ant immediately glared out.

"You all better not cross the line!" Someone from among Jin's people berated.

"Just the sight of you all annoys me. Are you all still Imperial Pass' creatures? Actually intentionally forcing someone out! You all still have the face to show me attitude here, just hurry up and crawl back behind that old hag! You really are too unsightly here, be careful not to incur public anger!" The Heavenly Horned Ant said furiously.

"Youngster, do not be too fickle and impatient. If you speak too overbearingly, it is easy for problems to occur." Someone said coldly.

“Get lost!” The Heavenly Horned Ant only had these two words for him.

Right now, even the well-tempered Qing Yi was angry, facing those people.

At the same time, Chang Gongyan, Ten Crown King, witch, Exiled Immortal, all of the youngsters who came with Shi Hao from the three thousand provinces all stood up, looked at those people coldly.

Even Shi Yi opened his dual pupils, primal chaos light erupting, coldly staring over.

Then, Great Xu Tuo, Little Sky King, Lan Xian, even Imperial Pass’ Tuogu Yulong, Qi Hong, and Wei Family’s Four Phoenixes stood out, staring at those people angrily.

Meanwhile, many cultivators, some of the great leaders couldn’t continue watching this, their expressions all unkind, carrying coldness, staring at them, revealing a wave of killing intent.

“Senior, look...” Someone from under Jin family looked towards an unmatched being.

“Shut your mouth!” Qi Hong’s master, the original owner of the Five Spirits War Chariot roared. Those people’s faces immediately turned deathly pale, blood flowing out from the corners of their mouths, almost exploding on the spot.

These people shivered coldly, not daring to stick out anymore. They all rushed towards the sky, flying towards the top of the wall, the place where the clans who agreed to hand over Shi Hao gathered.

It was because the people who had similar thoughts as them wished to see the blood oath made.

“That old hag really is something! Is she really just in this much of a rush, pushing Shi Hao into the pits of hell?” The Heavenly Horned Ant really was someone with quite the temper.

Jin Taijun on the city wall was communicating with those on the other side after all.

Soon afterwards, a blood color extended into the great desert, surging violently like a sea of blood, too crazy, leaving everyone shaken, drowning out the great desert.

This was just a drop of blood, yet it engulfed the entire boundless desert battlefield. At first, it was red, then it turned into five colors. Blood surged, a matchless aura overflowing into the heavens!

Even in the city, with Imperial Pass’ protection, everyone still shook, as if they were going to kneel down. This was unmatched pressure.

One could imagine if it wasn’t for Imperial Pass’ protection, everyone would fall weak onto the ground, unable to endure that type of higher level terrifying pressure at all.

A drop of blood gathered on a golden decree, releasing a heavy and grand ancient voice, as if a demonic sovereign was making a vow, as if there was an Immortal King chanting sutras. It was just too intimidating.

In that instant, irregular scenes appeared one after another in this world, the great dao of the void appearing endlessly, turning into immortal phoenixes, spreading their wings, condensing into True Dragons that coiled about, also gathering into Kun Pengs that tore apart the sky dome.

Apart from this, sweet springs gushed out from the withered great desert, golden seeds falling from the heavens, taking root in the void. Great dao divine chains blossomed, as if this place was undergoing reincarnation, prospering after wilting.

There were streak after streak of black lightning that appeared, blood-colored lightning surrounded by primal chaos, interweaving here, the scene horrifying to the extreme.

Soon afterwards, cheers sounded from above the city wall. It was clear that the blood oath had been completed, both sides reaching a compromise. Some type of power engraved everything.

Jin Family, Wang Family, Du Family, Pixiu, and other clans, quite a few people revealed expressions of joy. Then, they looked at Shi Hao below, just waiting for him to leave the pass.

The city gate was already shaking greatly.

It was because everyone knew that the blood oath had been completed, Shi Hao about to leave the pass, nothing could stop this anymore.

“Why hasn’t he returned yet?” Qing Yi was anxious. Chang Gongyan, Lunar Jade Rabbit, and others were all like this. It was because previously, when Cao Yusheng left, they all made moves, either splitting their divine consciousness or moving out spiritual bodies to invite Meng Tianzheng out of seclusion, come save Shi Hao.

However, the blood oath had already formed, yet why hasn’t Great Elder come yet?

Their true bodies didn’t go, because they wanted to keep their eyes on Shi Hao, worried that he might leave first, fearing that they might miss out on this final opportunity.

“The oath has already formed, it is time for you to leave the pass!” Jin Taijun descended. There was a large group of people who followed her, all of them carrying expressions of joy, extremely happy.

They were now just waiting for Shi Hao to leave. This way, they could get five hundred years of peace in return.

On the altar, Shi Hao still never turned around, not looking back, his back towards everyone, not saying a single word.

Qiang!

On his body, a sword flew out, the Everlasting Sword Core. Then, the Lightning Emperor Armor appeared, floating in midair, all types of artifacts appeared afterwards.

Some of them, for example, the Ten Thousand Spirit Diagram and others were stored in spatial magical artifacts.

Chi!

These treasure turned into an expanse of clear light, flying over from where he was, landing at Qing Yi, Heavenly Horned Ant, and others, even Shi Yi’s feet. The weapons were inserted into the ground, the Everlasting Sword Core and others all shaking.

He didn’t bring these treasures with him, wishing to leave them with everyone.

This made everyone's hearts tremble, their eyes sore as they looked at that rear figure.

Then, Shi Hao was continuously pointing at the space between his brows, the crown of his head, and others, using the cruelest methods to seal his own primordial spirit, trap his sea of consciousness engravings, sealing some things himself, even cutting off some things.

The methods he obtained, some of them were too important. They couldn't be obtained by the other side.

"I... will come help you!" At this time, even an unmatched being's voice was trembling, because he knew what he was doing. He couldn't bear to watch this, not willing to watch a youngster sever his own primordial spirit imprints.

"The most powerful mind sealing, once sealed, even if someone's cultivation realm is countless times higher than yours, as long as your sea of consciousness is searched, it will touch the seal, at that time... your sea of consciousness will self destruct." A supreme being said.

Shi Hao didn't turned around, but he stopped, nodding.

Chi!

Several unmatched experts moved together, assisting this process together. Moreover, it was accompanied by blood oaths, carried out through some type of extremely ancient method, helping Shi Hao establish restrictions around his primordial spirit that prevented outsiders from touching.

"No!!!" The Lunar Jade Rabbit wept.

This meant that once Shi Hao left the city, he might die. It was because once the other side probed his divine senses imprints, it would automatically be activated.

When Qing Yi watched Shi Hao cut away himself, her eyes already became completely red, feeling the urge to cry.

Watching Shi Hao have his mind sealed by the supreme beings with the legendary most terrifying ancient mind sealing methods, she felt great sadness, tears falling.

Chang Gongyan, Lan Xian, Wei Family's Four Phoenixes and others all felt like this scene was too hard to accept, all of them clenching their fists, the group of youngsters' noses all sour.

This separation might be eternal!

Aside from a set of unlined garments, he didn't have anything else on him. All of his treasures were left behind, not bringing anything. He had his back to everyone, no longer saying anything.

"It's about time you leave." An old woman next to Jin Taijun said, urging him on.

"Exactly! The blood oath has a limit, if it is not quickly carried out, it'll fail!" Du Family's people also spoke up.

"Little friend, is there anything else you wish to say? Please tell me your last wishes!" Qi Hong's master said.

Shi Hao stood there, not saying anything. In the end, he only shook his head, not saying anything.

“Then just go on your way.” Jin Taijun spoke.

This time, the supreme beings personally activated the altar, all of them full of shame, eyes carrying sadness, constructing a spatial path for Shi Hao.

With a weng sound, the altar became resplendent, light rushing into the heavens.

Shi Hao was surrounded within the radiance, his figure becoming faint, as if it was going to disintegrate here.

“Shi Hao!” A group of people shouted, those youngsters’ eyes all becoming astringent, noses sore. Qing Yi, Lunar Jade Rabbit, and others long broke out in tears.

This separation, would perhaps be eternal. Would they be able to meet in this world again?

At the final juncture, Shi Hao finally turned around, looking towards them, at those familiar faces, carrying reluctance, great emotions, and helplessness.

How could he be willing to leave? However, he still couldn’t head back, he still had to leave.

Shi Hao looked at everyone, his eyes passing over every single one of them. In the end, it was as if it passed through all of them, looking towards the scene behind Imperial Pass.

In that instant, he was full of reluctance, unwillingness, really wishing to remember every single person, see all of his old friends. The appearances of many people appeared in his heart.

In a daze, he saw Stone Village, the place where he spent his joyous childhood, free from worry, the time when he was undisciplined and out of control, stubborn and mischievous in the great wilderness. Grandpa Chief also became old, waiting for him, always reading his name. The uncles, aunts, and comrades in the village all reminisced about him, the affection from that place warming his heart.

Then, he saw his own parents, grandfather, and others, missing them greatly, but they could never meet again. Also, the Willow Deity and little pagoda, where were they?

In the end, his eyes passed through all obstructions, landing on an expanse of Fire Mulberry Trees. There was a girl standing below the Fire Mulberry Trees, quietly waiting for his return. The Fire Mulberry Flowers had already bloomed, fluttering about in the air, fluttering down. However, as the years passed one after another, he couldn’t appear, forever unable to return. That young lady would go from her underripe years onto her middle-years, and then one day become old and gray-haired, but she would continue to stand there alone. She was already old, yet she still said with a soft voice, “The color of the mulberry trees has returned, the light of dusk falling upon my clothes. The Fire Mulberry Trees have already filled the horizon, yet the date of return is still unknown. When the Fire Mulberry Trees wilt, I will have also have returned...”

Shi Hao’s eyes seemed to have peered through endless time, traveling extremely far, seeing many places. In the end, he suddenly turned around, no longer looking back.

Qiang!

A blazing radiance shone from the altar. He disappeared from this place, never to be seen again. He couldn't turn back, he had to walk forward into the distance alone.
