

Perfect WD 1571

Chapter 1571 - Yu Yu

Dong!

It was as if a dragon cry sounded between heaven and earth. The sky dome was torn apart, heaven and earth as if being created for the first time. The noise was released by dao laws, caused by interweaving order.

Shi Hao and Yu Yu clashed fiercely, directly colliding.

However, it was clear that Shi Hao wasn't feeling the best. Just now, he already suffered serious injuries, those prison guards interfering, almost making his body split apart, and then a formation even exploded, injuring his body.

However, as he participated in this type of battle, a few injuries in his body were directly torn apart. This greatly affected his battle prowess, if this continued for a long time, the negative consequences would be even greater.

Hong!

Shi Hao condensed a fist imprint, not saying anything. Even if his body had injuries, no longer at his strongest, he still had to face the challenge, decide victory or defeat against this person.

Perhaps it could be said that he wanted to directly capture Yu Yu. Right now, Shi Hao had heaven devouring ambition. As long as they were in the same generation, no matter who he encountered, he would still remain fearless.

"Interesting, not a bad rock. You are going to be mine!" Yu Yu remained calm and collected, even more so extremely arrogant, speaking while taking action.

In the distance, cheers immediately sounded.

The foreign cultivators were all extremely stirred up, there was no news better than this. Ever since Huang took action, he rarely faced opponents under the supreme being level. This made all of them feel extremely suffocated.

Now, there was finally someone who was going to cut down his brilliance.

"You spoke too early." Shi Hao's body burned with essence blood. He quickly treated his injuries. These were hidden injuries the prison heads gave him.

Meanwhile, the expressions of the prison heads in the distance changed constantly. They were quite worried, if Shi Hao lost, then that was that, everyone would be happy. However, if he won, then that really would trigger a disastrous storm.

They all stared at the arena, not wishing to let things go as Huang wanted!

"Come!" Yu Yu's expression was cold. In that instant, his five fingers spread, and then he formed a fist imprint. Dark light appeared, and then immediately afterwards, darkness covered everything, surrounding this place like dark clouds.

His fingers already became pitch-black, quickly slapping over.

In that instant, heaven and earth became indistinct, as if night descended. It was hard to see anything.

“Heaven Creation Fist!”

Everyone’s expressions changed. This was a well-known type of ancestral method, only the Emperor Clan Yu Yu resided in possessed it. It was known as the Heaven Creation Fist, having the power of the world’s creation.

Hong!

Sure enough, when the darkness arrived, that place suddenly erupted, quickly becoming resplendent. It was as if the heavens were being opened, the darkness torn through, revealing the light.

The power of this fist was too great. It was incomparably majestic, imposing manner rolling on and on.

However, when faced with this attack, Shi Hao remained calm. He displayed the Solitary Buddha Eight Forms, palm and fingers striking out, searching for his opponent’s weakness.

Fist and palm met, a great rumbling noise released.

Of course, their bodies didn’t actually touch, instead surrounded by dao laws. It was the great dao natural laws that faced off, true divine chains of order.

Upon closer inspection, one would discover that chains wrapped around their fists and palms. These were created by dao laws, the most dangerous things.

This type of clash, a single mistake might result in the danger of destruction.

Hong!

After the two sides clashed, light erupted in endless rays, this place directly becoming peaceful again. They both revealed strange expressions.

Shi Hao previously had injuries, his foundation having cracks, this having great negative effects on his body in this battle.

“Who has the advantage?” In the distance, someone asked, paying close attention.

The foreign creatures really wanted Yu Yu to immediately win, suppress Shi Hao.

However, the prison heads minds were jumping greatly, revealing expressions of worry. They knew well that Shi Hao wasn’t in his peak state, his foundation even having cracks, negatively impacting him, yet he still didn’t show any signs of losing.

“No, we have to stop him, we can’t allow him to continue fighting!” A prison head said.

It was because if Huang defeated Yu YU, then this was stepping on the Emperor Clans! The effects of this would be absolutely devastating, extremely terrible.

However, it wasn't good for them to really secretly take action, because those Emperor Clans weren't ordinary individuals, truly wishing to win over Huang. If they received hidden support, those people might not necessarily feel grateful.

Chi!

Multicolored light flickered about, shining with incomparable brilliance. This was a set of fetters. It quickly appeared, instantly binding Shi Hao.

"Thank goodness, a supreme being took action!" A prison head wiped at his sweat.

How could Blackwater City not have supreme beings? There were even undying existences here, all for the sake of overlooking the underground prison. They had always treated this place seriously throughout history, overlooking this place carefully.

Just now, the prison heads quickly reported to a supreme being, and then they immediately received a reply, Shi Hao was thus bound once more.

"What is going on?" Many people shouted out.

"We received orders from a supreme being that even though Huang is a serious criminal, he cannot die, still having great uses." A prison head spoke, moreover explaining a step further, saying, "The supreme being is worried that Huang would be killed by the Emperor Clans' young experts, which is why this can be considered a type of protection"

Mo Xian, He Ziming, and a few others became speechless when they heard this. The two of them were fighting intensely, victory or defeat undecided, how did they reach the conclusion that Huang would suffer a great defeat, moreover be killed?

This was especially the case when this was a prisoner, was he even worth the protection?

However, the group of King Clans were all cheering, incomparably excited, treating this like the decisive ruling, believing that this was true.

Only Shi Hao revealed a sneer of ridicule, completely uncompromising as he said, "I will be defeated? It is your supreme beings that noticed something. If they were a step late, the Emperor Clans would similarly return to dust, be killed!"

When these words were spoken, it naturally triggered chaos, this place becoming noisy.

"If you can't accept it, then undo my chains, let the fight continue to its end!" Shi Hao didn't care whether he would be punished or targeted, because he was in the other side already, he never expected to receive any good treatment, which was why he wouldn't allow himself to be wronged.

Right now, the primal chaos around Yu Yu scattered, revealing his true appearance. His face was fine like jade, extremely handsome, an exceptionally handsome male.

However, his expression wasn't all that great, saying, "I wish to continue fighting, experience this sharpening stone."

"I fear that this will not happen. There are orders from above that Huang cannot be allowed to die, while this was also the undying beings' earliest requirement." A prison head said while shaking his head.

Even though Emperor Clans were far above, when the youngsters faced supreme beings and undying existences, they still couldn't do as they wished, had to show respect.

Yu Yu was dressed in white clothes, untainted by a speck of dust, could be considered refined and graceful. However, his face was a bit cold, ruining this appearance a bit. Wisps of chaotic energy still curled about his body.

He walked towards Shi Hao, in the end, he rose up with a peng sound, kicked Shi Hao in the chest from above, making him stagger backwards, spit out blood from his mouth.

Yu Yu came precisely for Huang, but he was obstructed, unable to continue, so he vented his frustrations in this way.

A few foreign King Clans cheered, the noise rumbling through this place. Even though they knew that Shi Hao was bound in chains, unable to resist with magical force, they still felt extremely excited upon seeing this.

It was because quite a few people were biased, believing that Emperor Clans were stronger than Huang.

"We came for nothing, can't take action anymore." Yu Yu said coldly.

Shi Hao's expression was ice-cold, carrying anger. He was sealed by another, unable to attack, yet this Emperor Clan youth actually gave his body a kick from above. This was a type of humiliation.

"What? You can't accept this? Unfortunately, there is no way to undo your seal for some time." Yu Yu said.

"You really are lucky. If not for me being sealed, you would have already lost." Shi Hao said coldly.

This made everyone in the distance shocked. Huang was always arrogant after all, even more prideful than Emperor Clans, still speaking so crazily.

"What did you say?!" Yu Yu said coldly, walking over step by step towards Shi Hao.

Not only was he threatening, he wanted to further examine Shi Hao's various secrets. This time, there were several Emperor Clan youngsters who hurried over, all of them having this objective.

Many of them already heard that Huang was regarded with great importance by the higher levels, definitely having some secrets, which is why the Emperor Clan youngsters came here, wishing to understand things a bit clearer.

"You should just play your part for a bit." Yu Yu said, coldly patting Shi Hao's shoulder, saying, "Live properly, I will come and look for you again."

Peng!

However, what was completely unexpected was that Shi Hao suddenly acted out. Even though he had shackles on him, he still took action.

The chains and others sealed his magical force, but his flesh was still powerful. Under such close distance, Shi Hao locked down Yu Yu, pulling with everything he had.

This was just too sudden, exceeding everyone's expectations.

"This... what happened?" Everyone widened their mouths in shock, not daring to believe this.

Shi Hao's flesh was powerful beyond compare. His magical force was sealed, but under such close distance, his body was sturdy, actually still having some strength, just enough to grasp Yu Yu firmly.

Cough!

Yu Yu coughed, he began to panic a bit. It was because he never would have thought that he would end up like this even in his dreams. The other side still retaliated when he didn't have any way of exerting force?

In reality, Yu Yu miscalculated after all. Even if his entire body shone, using powerful magical force, he still momentarily couldn't change anything.

"Let me go!" Yu Yu shouted, moreover attacking Shi Hao, using the most powerful magical force.

With a peng sound, he finally let go. Yu Yu's neck was bloody, neck almost snapped. This was just too terrifying.

Even though Huang had stocks and chains around him, he almost made an Emperor Clan suffer greatly!

Chapter 1572 - Bound War God

How much of a monster was Huang? He had stocks and chains on him, yet he still almost disconnected the neck of an Emperor Clan youngster. This was too shocking!

A group of people rose up in commotion, all of them crying out.

Right at this time, quite a few people became extremely worried. In that instant, a few King Clans with great confidence felt their hearts plug up their throats. It was because if Huang choked an Emperor Clan to death, then that really would be a joke.

Even though that type of tragedy didn't happen, it still left everyone speechless.

As for Yu Yu, the one directly involved, his face was ice-cold. He was careless, just approaching this bit resulted in Huang tightly gripping down on his neck.

Everyone felt some lingering fears. If Huang wasn't sealed, perhaps he really would have removed an Emperor Clan's neck just now, took his head.

"Heh heh... haha..." Wu Kun laughed loudly. He was like an iron tower, body more than a zhang tall. He couldn't help but erupt with laughter.

"Yu Yu, how could you be this careless? Huang has fetters and handcuffs on him, chains all around his body, yet you still almost died! This sharpening stone really might break a shoddy sword like you." Qing Kun said while laughing.

At this point, perhaps only the two Emperor Clan geniuses dared to mock him like this.

Yu Yu's expression was ashen, extremely ugly.

This time, he rushed over again. At the same time, Wu Kun, He Ziming, and Qing Kun also rushed over, wishing to search Shi Hao's primordial spirit.

This was the main reason why they came so energetically, moreover striving to be the first to come into contact with Huang. They wanted to know just what kind of secrets he had, for the higher levels to be this interested in him.

"You all are not allowed to act rashly. There are many restrictions placed between his brows. If it is searched, he might directly self-destruct." Right at this time, a voice sounded within the city.

These individuals frowned. Now that a supreme being warned them, they had no choice but to respect this, not daring to really take action.

Even though their statuses were extraordinary, they still couldn't act randomly.

"What a pity, in the end, there is still no one who is willing to fight with me." Shi Hao said, still putting on an unperturbed attitude.

Yu Yu's veins popped when he heard this, face becoming more and more cold. His battle with Huang was stopped, could it be that the supreme being senior favored him?

"Since you are so feisty, loving battle, then I'll help you accomplish your goal!" In the city, that voice said coldly.

Then, the supreme being inside the city announced something, that Huang is going to be sent to War God Academy to become a 'fighter', help others comprehend the dao.

When news got out, many people cried out in surprise. Then, many people's eyes lit up, looking forward to this.

Of course, there were some who were disappointed, unable to see the Emperor Clan experts suppress Shi Hao in the end. What they wanted to see was a great decisive battle, hoping for someone to openly suppress Huang, through this hoist up their side's might. n/-Ovelbln

"War God Academy... will we have a chance to go inside?" Many people began to discuss among themselves, their eyes burning greatly, filled with expectations.

This academy's origins were extremely great, one of this side's ten great academies.

The cultivators who walked out from here were known as war gods, all of them existences who could advance fearlessly and unstoppably through the battlefield.

Of course, those who were able to obtain the title of War God weren't that many, most of the creatures only ending up as backdrop to others' brilliance, because this type of title wasn't randomly obtained.

The academy's origins were extremely great, previously belonging to an undying king, only, that creature already fell in battle in the battle against the Nine Heavens, his remains thus becoming an academy.

"The fallen undying king -- Luo Mo?" When Shi Hao heard this name, he was shaken up inside.

Back then, in Great Scarlet Sky Border, he already heard of this name. Luo Mo died there in the last phase of Immortal Ancient.

“You all should know that War God Academy only allows a thousand individuals to cultivate inside each year. Not only are there supreme beings there to lecture, there are even undying existences who would appear, this year no exception.” In the city, that cold voice sounded once more.

Compared to the boundless foreign side with endless people, this small number of places really was pitifully few.

“Interesting, since Huang is going to be sent there, I don’t mind joining in on the fun.” Qing Kun said.

“I am also going!” Yu Yu nodded, his face cold.

As for Mo Xian, He Ziming and Wu Kun, they didn’t think too much either, deciding to head there. There was one reason, which was precisely because Huang was going to become a ‘fighter’ there.

Otherwise, as Emperor Clans, their ancient land was far better than the remains left behind by a deceased undying king, why would they need to go there?

News spread, shaking up all sides.

Today, not only was Blackwater City noisy, even the cultivators of many other places became shocked when they heard this. It was because today really was special. Not only did Huang become a ‘fighter’, there were several Emperor Clan young experts who were going to appear, head there.

This, without a doubt, was extremely enticing for many people. Many experts moved out, deciding to seize one of the spots this year.

After all, how many Emperor Clans were there in the end?

As for the other creatures, the ten great academies were unmatched holy lands themselves, places that were worth visiting, let alone the fact that War God Academy was completely different this year.

The academy wasn’t located in the city, but rather in a distant mountain range.

This place was extremely special. From the distance, it was as if over ten thousand True Dragons were hibernating here, only when one approached would one see that these were mountain ridges. They were just too similar.

Some places in the mountain range had heaven overflowing black mist, full of inauspiciousness, some having purple energy rising from the east, propitious vapors pervading the air. There were other places where scarlet multicolored light surged in waves, rushing into the heavens like blood radiance.

This was an extremely complex terrain, impossible to see its depth from a single glance.

Back then, the undying king Luo Mo previously cultivated here, this was the ancient land he left behind. It really was an extremely important place.

Of course, this so-called ancestral land, the very core region was moved away by Luo Mo’s descendants, or else, compared to a true Emperor Clan ancient land, there wouldn’t be too many differences.

Despite this, it was still a divine land!

War God Academy, because the students' ages, cultivation realms, and others were different, it was divided into several levels.

Over the years, the ones who remained were definitely all elites.

It was because when the academy was opened once more each year, the students of various ages and cultivation realms would always face the challenges of newcomers. The defeated would leave, while the victors remained.

In the end, a thousand people remained in the academy, the number of places wouldn't change.

The mountain gate was vast, light mist rising. The land the academy occupied was extremely vast.

Shi Hao came, he naturally didn't have the so-called right to seize one of the thousand spots. The reason why he could come was only because he was going to join as a fighter, help others comprehend the dao when it came time to.

While the intense selection was being carried out in War God Academy, Shi Hao was already brought into the academy a step ahead, moreover locked in a dark place, this could be considered a prison.

After he came here, he was moved, because he saw several hundred creatures who were just like him, in shackles, bound in chains, all of them looking like prisoners.

"Another person came. Brat, what kind of great crime did you commit for you to be sent here?" A creature asked.

"Wu, actually a human. En, this makes much more sense. Most of the descendants of the defeated end up as servants their entire lives!"

When he heard these words, Shi Hao's eyes became cold.

At the same time, his heart shook, because he saw several dozen people here, also humans. However, their conditions were terrible, all rather numb and indifferent.

"You... are a human who came from the Nine Heavens Ten Earths' side?" Shi Hao was moved, asking one of the people here.

Sure enough, that middle-aged man didn't say anything, not even giving him a look, extremely apathetic, not giving any reply.

"Why don't you all say anything?!" Shi Hao shouted out, speaking to the others.

"Since they are destined to die here, born to be servants, their hearts have all become dead ashes. There is no hope left, so they have long become desensitized." An elder said.

This was a Barbaric Ox, even though he wasn't human, Shi Hao felt like this should be a creature from the Nine Heavens, only, the language he used was that of the other side's.

"You... also came from Imperial Pass' side?" Shi Hao asked.

"My ancestor came from that side, of course, it wasn't all that dazzling. Back then, he was captured, forced to become a King Clan's slave." The old Barbaric Ox said.

It was full of regret as it looked at Shi Hao. It was because it could understand this youngster's words through divine will, but couldn't understand his words. Could this be... the Nine Heavens' language?

"After all these years have passed, you can still speak the Nine Heavens' language?" The old Barbaric Ox asked.

"I just came from Imperial Pass' side." Shi Hao said.

"What?!" At this moment, even those numbed creatures cried out in alarm, looking at him in shock.

"Another battle started. Did they lose again?!" Someone asked.

"Not yet." Shi Hao shook his head. Then, he asked these people what was going on.

"You can see for yourself. Within the hundreds of creatures, a third of them are descendants of the Nine Heavens, sent here to become fighters, destined to die here." The old Barbaric Ox said.

In the past, there were some creatures who were captured, only able to become servants later on. The main reason was because they were suppressed by a few academies and great clans.

After coming here, rarely would one have a good end. They had to fight the academy's students, allow those geniuses to increase their strength through bloody battles.

Of course, a larger half of the creatures locked up here were native foreign creatures who had committed great unforgivable crimes, thus ultimately falling here.

When Shi Hao fully understood the situation here, he sighed with sorrow and regret. After all these years, there were still descendants of the Nine Heavens here, only, their situation was too terrible.

He was extremely angry, and also inwardly grieved. The creatures from the Nine Heavens who defected to this side were still living quite well, while the ones who fought unyieldingly really were pitiful.

Several days later, the thousand members quota of War God Academy was set.

On the second day, this black prison was already opened.

"It has come, our tragic fate has begun." The old Barbaric Ox said with a sigh.

"We have to accompany those people in battles in order to foster War Gods?" Shi Hao's eyes became chilly, with an ice-cold voice saying, "If they dare humiliate us, then we need to let them understand that true War Gods wear shackles!"

He erupted with killing intent, his gaze ice-cold.

Chapter 1573 - Great Dao Palace

Great Dao Palace, a giant palace that floated in midair, holding hundreds of thousands of people not an issue at all. It was shrouded year round in chaotic mist. n--0ve**L**bln

This was one of the most famous dao comprehension places in War God Academy, because every so often, there would be an expert who came here to lecture on scriptures, teach great profound methods.

Below, mountain ridges were everywhere, faint spiritual energy rising. Meanwhile, in midair, the Great Dao Palace floated year-round, swirling with mysterious natural laws of order, moreover accompanied by the source energy of all living things.

The black prison was opened. Shi Hao and a group of people were brought out, in the end all sent into the Great Dao Palace. For some of them, this wasn't the first time they came, for example, that old Barbaric Ox.

Its body trembled as soon as he came, because he was too familiar with this place. Each time, he had to experience bloody torment. It wasn't easy for it to survive until now.

This was a place where scriptures were taught, a land for dao comprehension. At the same time, it had a fighting arena!

The giant palace was vast enough, able to hold hundreds of thousands of people at the same time. Meanwhile, War God Academy only allowed a thousand people to join. They could listen to dao scriptures, comprehend the great dao year-round.

That was why this place was still extremely spacious, it wouldn't be completely filled, moreover with enough areas to exchange pointers.

Up ahead, there was an area filled with praying mats. There weren't too many or too few, a thousand in total.

And now, there were hundreds of people seated there, currently listening to supreme beings lecture on the dao. All types of irregular scenes appeared here, dao laws turning into dragons, dancing about, natural order turning into great dao golden lotuses, blooming in midair. Apart from this, there were endless streaks of auspicious light, dragons and phoenixes crying.

Moreover, during this process, great dao rumbled. It was as if heaven and earth were being opened, large amounts of symbols pervading the air, the most fundamental things.

Shi Hao was shocked. Even though he came late, the scripture lectures reaching the end, he still sensed a type of extraordinary power, giving him an urge to comprehend the dao.

After lecturing about the scripture, that person disappeared silently.

It was rumored that even though this person was a supreme being, he had touched upon the undying domain, would take that step sooner or later. For a group of youngsters, him lecturing on the dao was already enough.

After the supreme being left, several figures appeared in the dao platform's surroundings, overlooking the listeners, asking them if they had anything they were puzzled about.

These people's ages weren't small, already having one foot into the Supreme Being Realm, cultivations extraordinary. They weren't lecturers, but they could help the listeners with their confusion.

Senior, I am a bit confused, when the potential of a creature is completely exhausted..."

Sure enough, when the true lecturer left, these listeners split up into groups, surrounding those individuals, asking for guidance.

Some of them had quite a few questions, the elders patiently answering.

“It varies from person to person, everyone’s potential is different. Only by continuously breaking through and opening the body’s treasury can one gradually truly see their own limits.” An elder said.

Then, with a wave of his hand, he picked one from the ‘fighters’. He had the student come up, release his ancestral methods with full power, suppress that individual.

The so-called fighters were precisely pitiful creatures used to assist geniuses in bloody battles, if they weren’t slaves, then they were death convicts who had committed great crimes. Their lives weren’t worth anything, could be taken at any time.

“Do your best to resist, use everything you have.” The elder ordered.

When that fighter heard this, he immediately trembled with fear, because he knew that he might die.

Hong!

A powerful wave overwhelmed him, making his bones release pi pa sounds continuously. Then, his body shook several times like muffled thunder.

Kacha!

Then, that creature did everything he could to protect himself. Many bones broke under the pressure. One could see just how tyrannical the power was.

The bones within his body were crushed by that individual who had half a foot into the supreme being level. Moreover, this type of trend didn’t change, still continuing. His body was about to rot, blood gushing out again and again.

Pu!

Eventually, the space between his brows even exploded, blood spraying out. His skull even more so split up into pieces.

“Ah...” This creature screamed miserably, eyes scarlet red, struggling intensely, releasing a great roar.

“Pay close attention everyone!” The half supreme being remained extremely calm. His palm shone, large amounts of auspicious light scattered down on that human’s body, making his body almost translucent.

“Here, here, and here, divine force has surged, natural laws resonating.” He pointed at the body of the miserably screaming creature, having the scripture listeners identify a few important areas.

“All of you, look more closely, after these bones broke, his body shone on its own, flesh resonating. This is a sign of potential starting to take form.” The half supreme being explained.

He added force again, making the entire body of the fighter in his hand gush with blood, his entire being about to explode.

“Have you all looked carefully? When a creature is about to die, these mysterious points of potential will increase their release.” The half supreme being explained, pointing at a few areas in the badly mangled individual’s body.

In the distance, many fighters shivered inwardly, some of them appearing in War God Academy for the first time. They couldn’t help but shiver. This type of end was too pitiful. Was this their fate?

As for Shi Hao, his eyes were ice-cold, finding this kind of scene a bit hard to take in.

At the same time, he couldn’t help but sigh. This world was cruel after all, and also extremely terrifying. For the sake of exploring cultivation paths, they didn’t hesitate to harm other cultivators.

Pu!

Half of this person’s body exploded to pieces, and then he was directly flung by the half supreme being to the side.

“You all should take note that when his body reached the limit of what he could endure, moreover his injuries becoming the most serious, the potential he released became increasingly astonishing.” The half supreme being said.

Fortunately, that person survived. Even though half his body was in tatters, he could still recover, able to live.

Shi Hao clenched his teeth. They didn’t treat the so-called fighters as people at all! It was like dealing with straw men or wild beasts.

“Senior, how can we exploit the greater power of the world, or perhaps the natural law force and other things to quickly suppress the enemy, break down the enemies’ ancestral methods and other things?” Someone asked.

“It is simple, truly resonate with heaven and earth, for example, heaven and man become one, become inherently undefeated, and then use natural laws and order to deal with the enemies before you.”

This time, when the half supreme being finished talking, with a wave of his hand, great winds roared. The old Barbaric Ox at Shi Hao’s side was brought over.

The old Barbaric Ox was extremely strong, but he couldn’t compare to someone who was about to become a supreme being.

“It is just like this. Borrow the greater force of heaven and earth to suppress, it can pierce through normal barrier protections!” The half supreme being explained.

Sure enough, he quickly took action, blasting through a few light barriers, not using ancestral methods, only using some type of ‘greater force’ of the world, or in other words, the grand formless great dao to break through the old Barbaric Ox’s body protection barriers, crumble its precious techniques.

Pu!

In the end, the old barbaric ox was covered in blood. He fell back to Shi Hao’s side, the horns on his head breaking with a ka cha noise, becoming seriously injured, almost dying.

Shi Hao's eyes became even colder. These people really were completely unrestrained!

"You all can experience it yourselves!" The elder said.

Then, the giant palace became noisy, a bit chaotic.

Sure enough, it was extremely cruel, because a few battles broke out in the giant palace. Some people researched the potential of the body, some emphasizing fighting, some trying to grasp natural laws.

Pu!

Sure enough, soon afterwards, the fighters that were brought were mostly consumed.

Then, there were people who died in the giant palace, blood splashing all over the palace hall.

"Do you see now? It is just this cruel." The old Barbaric Ox said with a sigh. This time, he survived, able to keep living, just this alone was something to feel happy about.

In the end, Huang was also chosen to exchange pointers with someone, accompany them in battle.

However, soon afterwards, his identity was recognized. Even though his hair was disheveled, a large half of his face covered, it still wasn't enough.

This triggered a huge commotion!

It wasn't that they didn't know Huang was here, but there were several scripture lecture halls. They didn't expect Huang to be brought to the floating giant palace.

The creature who selected Shi Hao didn't dare take action, exchange pointers with him, because this was most likely courting death.

"It's fine, he has already been bound, this was refined by a supreme being himself, severely restricted. It is hard for him to act out, he won't go out of control." Someone said.

"The so-called greater force is just like this. Even though he is Huang, his reputation great and widespread, he has still become a prisoner. Right now, you all can transfer the natural greater force of the world to try and suppress Huang." The half supreme being said.

Sure enough, those creatures tried to outdo each other, taking action together.

Hong!

Even though Shi Hao had shackles on him, he still moved extremely fast. His body shone on its own, becoming exceptionally brilliant.

When he saw the fighters around him scream miserably, moreover have their lives endangered, Shi Hao's expression became cold. Even more so, his body erupted with strange dazzling light, not even the stocks and chains on his body able to stop this.

Peng peng peng...

People were struck flying one after another, the so-called heaven and earth greater force directly torn through.

Crash!

Then, the iron chains and other things on Shi Hao's arms shook intensely. With a shake of his hands, one of them wrapped around one person's neck, and then with a fierce twist, a pu sound, a head tumbled outwards.

The great palace was extremely spacious, blood constantly flowing. However, when a genius of War God Academy had his neck broken, the meaning became completely different. There were people glaring angrily, others berating.

Chapter 1574 - Disaster

A genius was killed in Great Dao Palace, head falling, the scene extremely shocking within the wisps of primal chaos mist.

In the past, when did this type of scene ever happen? It was always War God Academy's geniuses slaughtering their training partners, rarely did scenes of reverse slaughter happen.

Even if there were unexpected events, it would just be injuries, when did the 'fighters' dare kill the academy's disciples?

The so-called fighters' statuses were extremely low, not worth anything, if not descendants of the Nine Heavens, then they were criminals who committed great wrongs.

Huang stood there, the chains on his arm dripping with blood. He didn't move, just standing there, coldly looking at everyone, not feeling any fear.

Great Dao Palace was a dao comprehension holy land, primal chaos pervading the air, dao laws surging, divine chains of order interweaving. However, right now, the atmosphere was a bit suffocating.

"Huang, you dare act viciously?!" An elder shouted coldly. He was a half supreme being in charge of clearing up confusion here. Even though he wasn't a true scripture lecturer, his status was still unordinary.

Shi Hao's expression was indifferent, not paying him any attention, only looking at War God Academy's elite disciples.

"Forget it, we can only blame him for being inferior to others." Another elder spoke up. He gave the head on the ground a look, frowning and saying, "You still aren't getting up?!"

However, that head's eyes were wide opened, life aura starting to disperse, head not merging with the body.

Everyone was alarmed, greatly shocked.

That half supreme being's face darkened, eyes ice-cold. It was because that person's primordial spirit had been scattered, could be considered to be completely dead.

"If not for there being orders from higher up, I would have immediately killed you, how could this be tolerated?!" An elder shouted, clearly having an explosive temper, his eyes full of rage.

Shi Hao's expression remained calm, only giving him a glance, not paying him any attention.

It was because it was useless no matter what they said. His status was a bit special, at the very least, he still wouldn't die immediately, but the Nine Heavens' descendants were less than straw men. ~~no~~**ve/lB-**
In

As sparring partners, they didn't know when they would die, each passing day difficult. No one would treat them as an equal being here.

"We will end things here today!" A half supreme being announced, long lacking the mood to clear up the listeners' doubts.

Then, the elders left, immediately transmitting sound, asking the higher levels for instructions.

"How long do we have to give Huang special treatment? When can we give up on him?"

In their opinion, when it truly came the time to give up on him, could they truly treat him like a lowly training target then? At that time, it would be fine even if they just kill him.

Unfortunately, the reply was that they definitely couldn't act recklessly right now.

Moreover, as time went on, there was news that Anlan, Shutuo, and the others didn't return. This made some people worry.

Many people knew that the undying kings entered Burial Land, but they never returned. Many days have already passed, yet they still didn't come back, making everyone feel uneasy.

Of course, the clans all believed that Anlan, Shutuo, and the others were unmatched under the sky, that nothing bad would happen. They were likely delayed because of something.

"Wu, I heard that Huang was still wild and untamed even while wearing shackles. Next time, we'll pay him a visit together!"

When news spread in War God Academy, there were some who narrowed their eyes, speaking like this, extremely interested, preparing to take action together with some people.

All news related to Huang would draw great attention.

Weapon Hall was an extremely chilly place, because there were many weapons there, either stabbed into the ground or laying in disarray in the hall. There were some bone artifacts, some metal artifacts, as well as some stone artifacts and others.

"As for weapons, it can be considered an extension of our body..."

When the true scripture lecturer left, there were half supreme beings who began to help clear up confusion.

"When a weapon merges with the body, the two is almost one entity, it must be carefully refined, grown within the flesh..."

Inside the palace hall, this time, there weren't many people, also only a few hundred. In the end, it came time for the practical segment again.

Sure enough, Shi Hao and the other prisoners were brought out again, serving as fighters, training targets.

Before coming, the shackles around Shi Hao were increased again. This was decided by higher ups, fearing that he might act out again, so they had to suppress him.

As expected, after the events of the last time, a few students felt restraining fear towards him at first, no one rashly provoking him.

“Look, you all, this is a lethal weapon. When nurtured with blood, its power will become much greater, but it will bring harm to oneself as well. It contains murderous energy, which will bring harm to the primordial spirit. Nurturing it inside the body would even affect one’s nature.”

The half supreme being explained, in his palm a blood-colored war spear. It wasn’t extremely long, but it was terrifyingly red, clearly not tainted by blood, yet there was a bloodiness spreading from it.

“That is why when nurturing a vicious weapon, one needs to have a proper plan. How exactly can it be nurtured so that the vicious energy within the lethal weapon can match one’s own cultivation, prevent it from harming oneself?”

When he spoke up to here, that half supreme being flung out the blood spear. It turned into a streak of red light, under pu pu noises, it continuously stabbed through several ‘training partners’.

A few people cried out miserably, directly exploding, and then turned into a blast of bright red essence blood, entering the vicious weapon. There were some whose bodies shriveled and dried up, blood energy completely vanishing, their bodies rigidly falling.

“This vicious weapon has been nurtured for many years, the blood it absorbed long astonishing. It has already become full from drinking a dozen or so people’s blood, if it drinks any more, its vicious energy will cross the limit.” The half supreme being explained.

The fighters’ expression were deathly white. This was what they were least willing to see, because Weapon Hall was more dangerous than any other place, there was danger of being diced up by the weapons at every turn.

Pu!

This time, the old Barbaric Ox by Shi Hao’s side wasn’t that lucky, its chest stabbed through by a scarlet red divine sword. The sharp end stabbed into his chest, sucking his essence blood.

Dang!

Shi Hao couldn’t keep watching. He directly took action, smashing at it with his shackles, breaking that blood sword.

In that instant, the old Barbaric Ox’s hair became much whiter, paying an extremely great price.

“Wu, I forgot to mention that if you all wish to nurture a domineering vicious weapon, there is a chance to do so today.” The half supreme being spoke, pointing at Shi Hao and saying, “He is Huang, many people should have heard or seen him before. His blood should be quite extraordinary. If you want a vicious weapon to transform, you all can try it on his body.”

“I wanted to give it a try for quite some time already!” One person replied.

This was a King Clan individual, his physique sturdy like a bronze bell. Meanwhile, the magical artifact he held was a Heaven Gathering Parasol, carrying blood radiance. When the parasol surface opened, it would become incredibly sharp.

All vicious weapons were merely an extreme type of magical artifacts. Normal people weren’t willing to foster them, because it would bring harm onto oneself as well.

All those who wanted to get into this were naturally all extremists.

The number of people who nurtured vicious and bloody artifacts was extremely few. In the other side, because there were some clans that were extremely warlike, comparatively speaking, there were more who did this.

Before coming here, many people already got together, wishing to take action against Shi Hao, treat him as a practice target, bombard him with vicious attacks.

That was why when one of them spoke, a group of people responded.

“Kill!”

The first to fly over was precisely that Heaven Gathering Parasol. It spun about, releasing scarlet multicolored light, blood radiance surging, killing intent overflowing.

It had to be said that this was an extremely powerful King Clan individual.

At the same time, the other weapons, for example, soul bells, bone blades, stone daggers, and others flew over while carrying dark red light.

These people all carried cold expressions, having a great grudge against Shi Hao. There were people from their clans who died under Huang’s hands.

When they truly faced off, they definitely weren’t Shi Hao’s opponent, so they couldn’t really get revenge, and so they used this chance to do so.

Shi Hao who had two layers of shackles on him had a cold expression. He suddenly erupted with terrifying killing intent, brandishing the chains, directly smashing them into the Heaven Gathering Parasol.

Pu!

The parasol surface was struck through, its body breaking.

Just how great was his strength? Everyone’s eyes widened. One had to understand that he had two layers of shackles on him, unable to use even a trace of magical force. This was purely physical strength!

Meanwhile, the other side could use the greatest magical force, activating a blood weapon, yet it was this result. This made all of them shiver inwardly.

Pu!

This was a King Clan coughing out blood, because his vicious weapon was destroyed. When this type of weapon was broken, it would inflict great damage to the user, because normally, it had to be nurtured by one's own blood, thus sharing an extremely close connection.

Then, ka cha sounds ran out continuously. Even though Shi Hao had two layers of stocks and chains around him, he still moved as fast as lightning, continuously brandishing his fetters and handcuffs, breaking many weapons!

As a result, a group of people coughed out blood!

In the end, the half supreme being's face fell. With a shout, he quickly ended this session of 'dispelling doubts'.

"Huang acted out again?!" This matter spread through the academy, triggering many discussions.

Fortunately, even though many people were injured this time, no one died.

"This group of disciples can't even win against a bound Huang, is it them who are too unsightly, or is it Huang who really is that strong?" Finally, a scripture lecturer said.

These types of existences were supreme beings at the least, sometimes even undying existences personally descending!

Of course, the scripture lecturers normally always hid their cultivation, not willing to reveal their own secrets and other things. Moreover, after giving the lecture, they would immediately disappear.

Two days later, it was in an ancient palace again, another even more shocking thing happened.

When the scripture lecturer left, a few half supreme beings helping with the students' confusion properly 'took care' of Huang.

This was 'Magical Force Hall', a powerful magical force surging within it. Normal people would be crushed apart upon entering. When a few 'fighters' were thrown in after their cultivations were sealed, they were directly crushed to pieces, the scene extremely miserable.

Surprisingly, this time, they didn't become training partners, but this was even more terrifying.

War God Academy's disciples all operated magical force, advancing into the depths of Magical Force Hall, using this to train themselves, squeezing out even more powerful magical force from within themselves.

During this time, Shi Hao had his stocks and chains undone. He was locked inside of a divine gold prison that could be moved, moved into a moving divine gold cage, pushed far inside by someone with magical force, delivered into the depths of the hall.

The old Barbaric Ox and others were all in miserable states, treated like experimental subjects, about to explode to pieces from the pressure just halfway in. Meanwhile, the students of the academy naturally wanted to see just how strong Huang was, which was why they had cruel smiles, exerting force together, sending him into the depths of Magical Force Hall.

However, it was precisely because of this that a disaster happened.

Shi Hao was extremely silent at first, only doing his best to resist, using all of his strength to neutralize the boundless magical force's pressure.

A few people sneered, which was why they asked people to undo his shackles, send him into a special prison, doing this precisely because they wanted to see the limits of his magical force, at the same time wishing to see him suffer.

Wenglong!

Suddenly, a loud noise sounded, this place shaking greatly.

Many people's faces became snow-white, their souls trembling. Then, they cried out in fear.

It was because they lost control of their magical force while magical force poured unendingly from within, crashing down on their bodies.

This was because of Shi Hao!

He had a type of ability that made the other party's attacks useless, Magical Force Immunity. Moreover, in recent years, he had always been secretly studying it, so this ability became increasingly unordinary, undergoing some transformations.

Now, it was no longer an issue of ignoring magical force on himself when on the defensive, instead, he could now also make the other side's magical force scatter, lose effectiveness.

This naturally produced catastrophic results!

Over a hundred people shouted in horror. When they lost the protection of magical force, their bodies were crushed by Magical Force Hall's boundless power until they split apart, and then exploded.

Magical Force Hall always had powerful magical force surging, Shi Hao selectively targeted them!

Thus, a tragedy happened.

In this hall, those elite disciples were just like the 'fighters' before, many of them exploding under pu pu noises, turning into clouds of bloody mist.

Ah...

A half supreme being roared, now completely angered, quickly coming to their aid.

However, in the end, there were still eighty-three elite disciples who exploded, losing their lives.

This was definitely an absolute disaster. No one expected things to end up like this.

"This is... completely a fucking disaster!"

Then, there were great ones who roared out.

There were some who really were angered badly. This was just a captive, yet in the end, War God Academy's students experienced mishaps again and again, a group of people dying as a result. It really was unforgivable.

“Hah hah, interesting. It is about time for us to take action. It really would be too much of a waste to miss out on such a great training partner.”

“Wu, I’ve been searching these undying king remains all this time, haven’t sought out Huang, yet he stirred up such disorder. It is time for him to fulfill his duty as a whetstone.”

These were the words of the young Emperor Clan youths.

After these people entered War God Academy, they didn’t immediately seek out Huang, instead exploring this place, because this was a divine land left behind by an undying king.

However, they came a step late.

“What? Gu Clan moved, bringing Huang away?!”

Gu Clan was a clan on par with Emperor Clans, far above the normal populace. They originated from the Nine Heavens.

Chapter 1575 - Refined Inside the Furnace

Huang was brought away by Gu Clan, what were they trying to do? The Emperor Clan youngsters all stared blankly, and then revealed strange expressions.

Gu Clan’s status was extremely high, they didn’t have to bow down before Emperor Clans, standing side by side with those clans. This was especially the case when their identities were strange, coming from the same place as Huang.

“It’s not because they want to harm him, right?” Qing Kun said.

Not long ago, Shi Hao captured the Fearless Lion in Heavenly Beast Forest, previously saying that he wanted to seriously punish this traitor. They were similar clans, so was Gu Clan responding to this?

However, according to normal reasoning, it should be the Fearless Lion bloodline who ought to be targeting Shi Hao.

“He hasn’t left yet, Huang is in Medicine Refinement Hall!” Wu Kun said.

Mo Xian, Wu Kun, Qing Kun and Yu Yu had previously moved independently, moreover mobilized their followers to investigate. They just obtained this new piece of information.

They moved quickly, heading in that direction.

Medicine Refinement Hall was extremely peaceful, because not many people were willing to come here. Compared to Magical Force Hall or Weapons Hall, it really was a bit lonely.

The foreign side were warlike, the clans desiring great power, what they pursued was extreme individual power. Comparatively speaking, they weren’t all that interested in the so-called medicine refinement and other types of things.

“Turns out to be like this, the scripture lecturer who came to Medicine Refinement Hall is a supreme being from Gu Clan.” Mo Xian said quietly.

When they hurried over, a few half supreme beings from War God Academy already long arrived.

Mo Xian, Wu Kun, Yu Yu, and others understood the situation a bit better, learning much more about what was going on. It was actually War God Academy's related people who agreed with Gu Clan's way of doing things.

It was because in the past few days, Huang had stirred up just too great of a disturbance, especially the most recent time, resulting in such a disaster, shaking up the entire academy.

For some of the supervisors, this could not be endured.

"They want to punish Huang?"

Gu Clan's supreme being wanted to bring Huang away, bring him to Gu Clan's ancient land, closely examine some past things.

The clan had left the Nine Heavens for too long, they wanted to learn about some things from Shi Hao.

However, there were some people from War God Academy who weren't too willing, worried that Gu Clan might act too severely, cripple Shi Hao. After some discussion, they had Huang temporarily detained in Medicine Refinement Hall.

"It is rumored that some of the higher levels agree to Gu Clan's request."

"There are some who are worried that Gu Clan's methods would be too harsh, which is why they are opposed."

This was the conclusion they reached after understanding the situation a bit more. The undying kings still haven't returned after entering Ancient Burial Land, or else Huang would have long been handed over to them.

Right now, the higher levels had undying existences overseeing this world, but they didn't know why Gu Clan wanted this youngster, thus didn't dare act rashly.

"Which is to say, before the undying kings return, the higher levels are currently divided on how to deal with Huang? This is not good, we can't directly break him, or else we'll miss out on an important training partner." Wu Kun said.

"The unequalled Anlan and Shutuo ancient ancestors headed for Burial Region, but Scarlet King should still be in my side, right?" He Ziming spoke.

Scarlet King was known to be an incredibly vicious individual. He previously refined true immortal kings to death with the Scarlet King Furnace, shocking past and present, leaving all clans in fear.

"Forget it, after Immortal Ancient War, Scarlet King has never appeared again, who dares disturb him in his ancestral land?" Yu Yu shook his head.

In short, the current situation was a bit complicated. The undying kings still didn't return, while the higher levels' opinions were divided.

Currently, Gu Clan was extremely aggressive. They ought to have convinced many people, wishing to take action against Huang.

Medicine Refinement Hall was extremely quiet. Right now, it was sealed up!

"We cannot enter. Are they planning something, really going to take action this time?" Wu Kun was extremely shocked.

Within the depths of the giant hall, symbols flickered about, great gates tightly shut, preventing outsiders from seeing inside.

"Younger generation Qing Kun requests an audience!"

"Emperor Clan descendant Yu Yu requests an audience!"

...

These individuals spoke up together, each reporting their names and backgrounds.

At the same time, news spread, all of War God Academy unable to calm down. Many people hurried over, wishing to see what exactly was going on.

A few people clapped their hands in joy, because Huang was too vicious. There would always be people who wanted him dealt with.

For the foreign side's creatures, Huang was definitely a demon king. The various clans' cultivators all gnashed their teeth in anger. If not for the higher levels' protection, temporarily unable to do anything to him, some of the older generation authoritative figures would have taken action a long time ago.

Honglong!

No one expected that in the end, the gates actually opened.

Wu Kun, Yu Yu and the others rushed in. Then, the academy's other disciples hurried over as well, entering Medicine Refinement Hall, this place becoming no longer as lonesome as a result.

However, they couldn't get close, all of them stopping several dozen zhang out. They were stopped by an expanse of symbols, able to clearly see everything, but unable to come into contact.

This gave all of them a fright. It was because when several half supreme beings entered with respectful expressions, carefully looking forward, they found that there was no place for them to stay here.

There were only three creatures seated on a praying mat there.

One was an elder with a short and small body, figure stooped, extremely shriveled, but his eyes were brilliant like golden lamps. His head of hair was originally golden, but because his age was too great, it had long turned white. Right now, the snow-white color was flickering with a faint golden color.

This elder's aura was incredibly great, intimidating and powerful, making others couldn't help but bow down in worship.

"Gu Clan's supreme being!" Yu Yu was alarmed, at the same time, he was greatly stirred. This clan really was extremely strong, completely comparable to Emperor Clans!

Apart from this, there was an old lion in beast form, it didn't turn into human form, golden fur shining around its body. It was extremely aged, eyes carrying great changes.

The most unique part was that even though the lion was in beast form, it was like an ancient monk, seated there, not moving.

“Fearless Lion bloodline’s supreme being!” He Ziming revealed a strange expression.

Apart from this, there was a real monk, when his eyes opened and closed, blood radiance flickered about. Buddhist light shone behind his head, but it was black.

“Fallen Ancient Monk bloodline’s supreme being!” Mo Xian’s beautiful eyes flickered with divine radiance.

There were three great supreme beings here, their ancestors all previously from the Nine Heavens. Now, all three clans were here, what were they going to do?

After carefully examining this place, deducing where Huang was, the Emperor Clan youngsters were all shocked.

As for the students who came later, they were all stunned too, staring at the medicinal furnace in front of the three individuals.

“Do they want to refine away Huang” Wu Kun’s body was greater than a zhang in height, like a metal pillar. His body trembled, feeling like things had now become big.

The higher levels’ differences in opinion were just too great, someone actually wishing to refine away Huang!

“The families who came from the Nine Heavens are trying to make their move first, more proactive than the others!” Yu Yu revealed a shocked expression.

There was a medicinal furnace there, ancient looking and dull. There was a flame burning below, the furnace lid on top tightly shut. Everyone couldn’t help but associate this with a terrifying situation for Huang.

“Dao brothers, please be more careful!” Right at this time, a voice sounded. Another person arrived in the hall silently, appearing on the fourth praying mat.

“If we wish to search the secrets within his mind, this is the only way. Otherwise, we’ll trigger the restrictions in his sea of consciousness, thus make him explode to death.” Gu Clan’s supreme being nodded.

Below the medicinal furnace, flames jumped about, the temperature becoming more and more terrifying. This wasn’t a normal divine flame, but rather one formed from dao laws.

Right now, it was precisely the Gu Clan supreme being who personally controlled the dao flame, heating the ancient furnace.

“If Huang is brought to my clan, refined with the Yin Yang Furnace, I can almost guarantee success. The world will be reversed, all of his mysteries revealed.” Gu Clan’s supreme being said.

“If there really is no way, then bring him to Gu Clan.” The creature on the fourth praying mat said.

Hong!

That furnace released resplendent divine multicolored light, because it had been refined to the crucial moment, the entire furnace releasing endless auspicious light, surging with essence energy and multicolored brilliance.

“Senior, Huang is inside that furnace?” Right now, someone asked, seeking confirmation. It was because suspecting was one thing, seeing it for themselves was another.

“Correct.” The Fallen Ancient Monk nodded, dark light shining from behind his head, the radiance intimidating.

The furnace was sparkling, the situation inside clearly visible. Everyone saw Huang, he really was being refined.

Everyone was a bit stupefied. These clans’ supreme beings really were going to have Huang die here? Being refined in this type of divine furnace, it should be hard for him to have a good end.

“Wu, since you all came, I’ll share a bit of scripture knowledge.” Gu Clan’s supreme being spoke.

He would occasionally come here to impart teachings, but not many people were fond of medicine refinement, all of them searching for extreme power. It was a rare chance for so many people to gather.

Of course, he also knew that these people didn’t come to listen to scriptures.

“All of you are walking crooked paths, blindly seeking power, overlooking many important things. You all should come here a bit more to listen to great dao scriptures.” Gu Clan supreme being said.

Then, he began to lecture on scriptures, soon afterwards, many people were moved.

“Cultivation is like the process of picking medicines. To be more precise, the great dao is also like medicine...”

“You all should see that today, refining Huang within the furnace is like harvesting human great medicine. If it is done properly, it can topple yin and yang, overturn the world.”

In the furnace, Shi Hao’s body was being dissolved, for example, blood energy seeping out from the body, skin and flesh being cooked.

Pure white essence energy flowed out from within his body streak after streak, spreading out like blood energy.

Harvesting human great medicine, were they trying to refine out the various hidden powers within Huang’s body?

Soon afterwards, they discovered that this medicinal furnace was extremely special, yin and yang energies moving within, starting to break down Shi Hao’s body, actually separating him into sheets.

Inside his body, medicinal flowers blossomed one after another, every single piece of flesh that was removed containing mysterious human body great medicinal flowers.

Eventually, his skull was also removed, exposing a primordial spirit, being cooked and refined there.

“Will this really work?” Inside the hall, another person appeared silently, sitting on a fifth praying mat, wisps of undying energy surrounding him.

Then, a sixth came, status extremely high, suspected to be from an Emperor Clan. He said, “Even if it results in failure, his safety must be ensured, his primordial spirit cannot be allowed to be damaged. If it really won’t work, then we’ll head to your Gu Clan, use the Yin Yang Furnace that can reverse the universe.

“He won’t die, even though we are harvesting human body great medicine, perhaps it might even help him.” The Fearless Lion bloodline’s supreme being said coldly, a bit dissatisfied, feeling like this was being too kind to Huang.

“My Gu Clan is executing this, so we naturally have our confidence. It is enough if everyone just watches.”

It was clear that Gu Clan’s tone was calm, but also firm.

Chapter 1576 - Ruined

Gu Clan had always been powerful, now, it was still extremely strong!

Regardless of whether it was the Fearless Lion’s dissatisfaction or the Emperor Clans’ suggestion, he faced them both calmly.

This place immediately became calm, no one saying any more.

Wu Kun, Yu Yu, Qing Kun and the others all revealed strange expressions. They were so-called young great ones of Emperor Clans, yet they were still extremely quiet, Gu Clan supreme being’s formless pressure making them all tremble inwardly.

As for War God Academy’s other students, they even more so kept quiet out of fear, not daring to act rashly.

Right now, only the furnace released a strange sound, burned by the great dao flames. At first, it was bright, then it became scarlet red, as if the metal was going to be melted away.

At the same time, it became transparent, revealing everything that was happening inside.

Many people shivered inwardly, sighing for Huang’s sake. He was refined away just like that?

A few people felt their scalps going numb just from looking at this, let alone Huang who was personally experiencing this. Even though these people hated Shi Hao bitterly, wishing for him to die here, they still felt a bit of sympathy.

Regardless, Huang was an extraordinary figure, could be considered a rarely seen young expert, yet in the end, he was this miserable, falling through this type of method, it really was a bit pitiful.

He was being dissolved!

Everyone could see that if this continued, he would definitely be crippled, that there wouldn’t be a good result.

In the airtight medicinal furnace, his blood energy was extracted, surging out, forming a scarlet red expanse, extremely bleak. He really could be considered to be at the end of the road.

His flesh and other parts were broken down, long coming off, refined into a paste shining with sparkling radiance. This was divine force, as well as the resulting mixture of natural laws.

“Harvesting human body great medicine is extraordinary after all, even I am shaken. This type of living pill medicine is more powerful than any medicinal herb!”

Someone finally broke the silence, precisely the Fearless Lion bloodline’s old lion.

It was sitting down, even though it had a lion body, it sat like a human, its imposing presence carrying a bit of viciousness. Its golden fur was a bit ancient and dim, surrounded by a bit of chaotic energy.

Everyone knew that its temper was explosive recently. Even though it was a supreme being, its murderous energy was extremely great, because its descendant was seized by Huang, taken as a mount.

This was viewed by it as a great humiliation. For the Fearless Lion bloodline, this was an extremely embarrassing experience.

No one interrupted, even Gu Clan’s elder silently controlling the dao flame, refining Shi Hao.

Kacha!

Some strange sounds could be heard from the furnace. Shi Hao’s bones were all removed, completely separated from his skin and flesh, some bones already broken.

Just how terrifying was this type of refinement? $n/-\mathfrak{D}.-v/)$ $E.(1-(\mathcal{B}/)l)-n$

Everyone saw that Shi Hao’s primordial spirit was struggling, roaring out. It was clear that the instant his flesh crumbled, he experienced unimaginable suffering.

In reality, one would understand if they just thought about it, just how terrifying of an experience this was.

At the very least, the students who saw this scene, including Mo Xian, He Ziming, Yu Yu, and others felt their bodies go cold, goosebumps appearing on their backs.

“So this is the so-called legendary Yin Yang Refinement! Breaking down the vital energy, starting from all aspects.” The old lion’s eyes flickered with radiance.

“Wu!” This time, Gu Clan’s elder nodded. His face was calm, dao flames surging between his fingers, burning that ancient furnace.

“Demonic buddha have mercy!” What was rather unusual was that Fallen Ancient Monk actually chanted this name.

“I hope we can get some results.” The mysterious person wrapped in chaotic energy said. With things already like this, everyone was certain that the last supreme being who hurried here came from an Emperor Clan.

Pi pa!

In the furnace, Shi Hao's bones broke apart, burned down. Even though they had now long been separated, no longer one with his skin, flesh, primordial spirit and other parts, Shi Hao still felt great pain.

His primordial spirit was struggling greatly.

This type of suffering was something others could not even imagine. It was many times worse than being killed, he really wanted to immediately take his own life.

Imperial Pass' people couldn't imagine that Shi Hao suffered this type of pain, it really was hell on earth.

Pa!

Immediately afterwards, the furnace moved. Shi Hao's bones exploded, becoming hundreds of pieces. Even though it was sparkling white, they all split apart, breaking, scattering apart in the furnace.

This was being completely destroyed!

In the furnace, medicinal flowers bloomed one after another. One could vaguely smell waves of fragrance through the sealed furnace.

"This..." A group of young students were shocked, crying out in alarm. Was this really still refining medicine?

"This is the human body great medicine?" Yu Yu's eyes flickered with brilliance, staring at Shi Hao inside the furnace.

"This youngster is not simple at all, his cultivation extraordinary, containing so much spiritual force at this cultivation realm. With all of this refined in one furnace, it truly is worthy of being called great medicine, not just in name but in reality!" Even Gu Clan supreme being spoke endless praise.

Everyone knew that Huang was finished, never able to act arrogantly again. He lost the cultivation he was so proud of, the divine essence refined away by this elder!

The so-called human body great medicine was extracting a creature's essence, including divine force, dao skills, and others, a body's most pure substance. Right now, it was extracted just like that.

A few people even swallowed their saliva, these individuals coming from some extremely cruel clans. They were bloodthirsty, really wishing to swallow this furnace of great medicine in one bite.

"Dao brother, isn't this going a bit too far? The great ancestors haven't returned yet. We can interrogate Huang, but directly crippling him seems a bit too much." The Emperor Clan supreme being said.

There were six praying mats in the palace, and only the six great experts could sit here. Gu Clan elder, old lion, Fallen Ancient Monk, these three previously belonged to the Nine Heavens, while the other three were from this side, having an Emperor Clan supreme being, as well as other terrifying experts carrying bits of undying aura on them.

Right now, the latter three were all a bit unhappy, revealing expressions of worry. If Huang really was completely crippled, provoking the dissatisfaction of undying kings, who would be able to shoulder the consequences?

"It's fine, there is no problems as long as the primordial spirit remains. The undying kings definitely wish to obtain some things from his mind." The old lion said. It was naturally hoping that Huang would be suppressed without mercy.

Gu Clan's elder didn't say anything.

However, everyone felt like Gu Clan acting like this really was a bit too much, even more vicious than those originally from this world. Did he hate Huang that much?

In a few people's opinions, Gu Clan acting like this was perhaps out of worry of something. He wanted to completely end the good saplings of the Nine Heavens' side.

"Traitors are even more hateful than the true invaders!" This was what Shi Hao thought with a sigh when he could still keep a clear conscience. He was roaring inside, really wanting to immediately kill them.

The intense pain was unendurable, he was in constant suffering.

At this time, Shi Hao felt as if his primordial spirit was going to break apart, because there was a mysterious power surrounding it, carefully probing, extracting, wishing to break through the seals.

It was easy to see that the other side's great experts all knew that there were chains binding his primordial spirit, sealing it, preventing outsiders from searching within.

And now, what they wanted to do was break through them.

This was extremely dangerous, a single mistake and Shi Hao's body and spirit would be extinguished.

"This is the most difficult sea of consciousness sealing method, even those whose strength is far greater than his cannot come into contact with it, or else his body will explode." Fallen Ancient Monk said, the dark light behind his head shining brilliantly.

This made a few people frown. Even though the seals were being broken down during this process, the effects were slight, difficult for them to succeed.

Ka!

At this time, a strange noise sounded from inside the furnace. This time, it wasn't bones cracking, but rather some type of divine chains of order snapping. Only powerful individuals could hear it.

The expressions of the individuals on the praying mat all changed, the first time they could not remain calm anymore.

Wu Kun, Yu Yu, and the others also trembled, they sensed that something happened.

Huang was now really most likely going to be ruined, his cultivation skills were torn apart, all of his natural laws, order, and other things crumbled, producing a collapsing sound.

"Sigh, what a pity, I thought that if his luck was good enough, he could obtain some natural luck, from this, shed his mortal body and exchange his bones." Gu Clan's elder shook his head.

He indeed said this before, that during this process, there was that bit of hope, the creature being refined could undergo a transformation.

However, that was clearly empty talk.

Just from how vicious he acted, he completely wanted to kill Huang, how could he tolerate him transforming? His dao achievements were directly ripped apart.

Even if the flesh and blood separated, no longer together with the primordial spirit, Shi Hao still had a type of feeling that he might have been ruined!

The cultivation he acquired from Imperial Pass' side, the magical force and other things he refined from that side had all been ripped to shreds, scattered.

It was to the extent where he sensed some divine chains of order breaking apart, the Nine Heavens' aura breaking apart, forcibly destroyed.

Just how cruel of a thing was this?

For a cultivator, there was no experience darker than this.

Chapter 1577 - Desperate Straits

"Ah..." Shi Hao was in grief and indignation, roaring towards the heavens like a wounded lone wolf, experiencing this pain alone, falling into a lonely despair.

This type of result was too pitiful. Even though he had long been aware that he wouldn't have a good ending after entering the other side, a conclusion this cruel still filled him with sorrow.

He was a cultivator, someone who constantly pursued to be a powerful individual who transcended worldliness. There were great winds and storms along the way, all types of difficulties, small and big, it really wasn't easy to make it this far.

However, in just a day's time, all of his achievements were destroyed.

How could this be endured?

No matter how tough and tenacious Shi Hao was, right now, he still felt his life grow dim, lacking hope. Rather than this, it was better to directly face death.

Ony, he wasn't someone who was willing to surrender to others. When he was in the other side, suicide had never crossed his mind. He had always been resisting, going against fate.

Unfortunately, in the end, he still couldn't change anything, disaster descending just like that.

"Dao brother, isn't doing this going too far? How are we going to explain things to the undying kings?" Even the people on the praying mat lost their composure.

This was especially the case with the three experts originally from this side, their expressions changing even more, suddenly standing up. This type of punishment was too severe, different from what they previously expected.

"He hasn't been completely ruined, only considered half crippled. His primordial spirit force hasn't completely collapsed yet." Gu Clan's elder said.

He was completely calm, lacking emotional fluctuations, not treating this as anything major at all.

"You..." The Emperor Dlan supreme being's expression became cold, staring at him.

"Dao friend, let's let him go for now." Even the golden-furred old lion advised, telling him not to act on emotions.

"Heh heh..." Gu Clan's elder laughed, still extremely calm, saying, "Don't worry, as long as the primordial spirit isn't destroyed, then there's no problem, we'll be able to explain things to the great ancestors."

Everyone felt like this old fella was too vicious.

Even though he was smiling, the snow-white teeth he revealed made one feel a type of coldness. Huang was crippled just like that?

No one believed him. Things already reached this degree, what only mostly crippled was there to speak of? In everyone's eyes, Huang already didn't have the slightest bit of hope.

Shi Hao's primordial spirit became increasingly dim. He could clearly sense wisp after wisp, strand after strand of hidden force being extracted, broken apart. He was becoming weaker.

"Be careful, the restrictions on his primordial spirit are about to be activated!" Fallen Ancient Monk spoke up, carefully reminding.

If that happened, then it wouldn't be as simple as just being crippled, but rather explode on the spot, body and spirit erased.

Shi Hao felt like he was too weak, like a candle flame in a storm, about to die out at any time. His life force was about to wither away!

He didn't know whether to feel grief or happiness. The moment his cultivation was ruined, all hope turned to dust, but when his life source flickered, he released a light sigh, perhaps ending things a bit easier could be considered a type of release.

"Heh heh... don't worry, I know what's appropriate. He won't be able to die." Gu Clan's elder said with a smile.

Shi Hao looked at them through the translucent furnace wall and then looked towards Gu Clan's elder. Why did this individual deal with him like this? His actions were even more vicious than the old lion and the people from this world.

"Youngster, do you feel despair? Do you want to end your own life now?" Gu Clan's elder looked at him.

Shi Hao was originally full of hatred, feeling like this life was full of darkness, but he immediately woke up, becoming clear-headed. He looked at him coldly, not replying.

The primordial spirit light was extremely dim, but Shi Hao didn't lament or anger, instead completely calming down, remaining silent just like that.

He wouldn't collapse in despair, even if he was crippled, then he would just treat it as his life's final experience. He felt like he didn't have any weaknesses. n/-D.-v/)E.(1-(B/)I)-n

"Come, just let me experience this pain, this suffering, these wounds... I was long aware that my path was dim, what is there to be upset about?" Shi Hao said.

In the distance, those students all sucked in cold air. Through the furnace wall, they sensed this type of emotion, all of them extremely shocked. Just how firm was Huang's will? Or was this to say that his natural disposition really was just that resolute?

This type of terrifying experience, just looking at it made their bodies go cold. If it was them who went through this, they would have long fell into despair.

Huang was still immersing himself in this experience? He wanted to seriously experience it? He really was a monster!

The expressions in the eyes of the youngsters looking at Huang in the furnace all changed, sensing some of his characteristics. The reason he was able to become this strong, defeat all of his opponents, had a great connection to his unwavering will.

When this type of person cultivated, his dao heart would be incomparably resolute.

Inside that furnace, bright red flowers bloomed, a sign of the human body great medicine pretty much finishing its refinement. Shi Hao's bones, flesh, skin, inner organs were all extracted, this process coming to an end.

A type of fragrance wafted out, one that made others couldn't help but reveal different expressions. Some of them felt greed, many people frowning, feeling like that furnace of medicine made them shiver inwardly.

Suddenly, Shi Hao's primordial spirit shone, the entire furnace shaking!

"Hurry, stop this!"

The Fearless Lion bloodline's old lion roared out, the first time it truly lost its composure, stopping the furnace from releasing light.

It was because Huang suffered critical damage, primordial spirit no longer stable, this might activate the restrictions in his sea of consciousness. He was most likely going to explode.

Meanwhile, if Huang was done in, then how were they supposed to report to the undying kings? If they had blame placed on them, then they wouldn't be able to support it!

"Hurry and activate the yin and yang reversal, or else it'll be too late!" The Emperor Clan supreme being roared, also forgetting himself.

It was because this was an imitated good of the Yin Yang Furnace, having the so-called Yin Yang energies, able to overturn the universe, make some things rotate in reverse.

Hong!

The precious furnace shone. Gu Clan's elder formed an imprint, operating the dao flame, making the furnace even more resplendent, raging flames surging.

Inside the furnace, Shi Hao's primordial spirit didn't explode, the power that had just touched upon his restrictions was broken apart, protecting his life.

However, yin and yang energies clashed, in the end also injuring his primordial spirit, making his soul grow dim, almost being extinguished.

"What are you doing? Do you really want to destroy him?!" The Emperor Clan supreme being roared.

"He is still alive, his primordial spirit still there. If we act carefully, there won't be any problems." Gu Clan's elder said.

Right now, the primordial spirit in the furnace was too dim, as if a wind blowing over was enough to scatter it, making one feel like it was extremely hard to preserve his life.

Everyone felt like Gu Clan's elder was too fierce.

The glorious Huang, a heaven warping genius, had his cultivation cut down by Gu Clan's elder? This type of downfall was too pitiful!

"No, Huang's state is unstable, we have to change it, need to save him!" The foreign creature who released wisps of undying aura shouted.

The old lion was speechless, it also felt like that Gu Clan old thing's actions were too vicious, even making it shiver inwardly. Things now became big.

"It will be extremely hard to restore him. His body and spirit were refined in Imperial Pass' side, natural laws and others incomplete. After experiencing the refinement from our world just now, his dao fruit has been completely destroyed. If one wishes to save him, we will have to use great treasures, help him completely reforge a body in this great world of ours with perfect natural laws, but that type of price is too great, there is no need to do this for him." Gu Clan's elder said.

By the hall's entrance, the academy's students didn't dare speak, because they could sense the anger of those supreme beings.

"You... really have done it now. If Huang's primordial spirit is scattered, I want to see just how you explain things to the undying kings!" A foreign supreme being said coldly.

"Weren't there undying beings who agreed to his refinement? This was a decision made by the higher ups." Gu Clan's elder said. Then, he added, "We can bring his primordial spirit to my clan and use the true Yin Yang Furnace. At that time, I can guarantee that the restrictions on his primordial spirit will be broken.

He wanted to refine him even more? The Emperor Clan supreme being almost cursed out for him to get lost!

At the very least, in Huang's current state, they couldn't act randomly anymore.

Several days later, a few great figures rushed over, all supreme beings from various clans in place of the higher level figures.

After learning of Shi Hao's current condition, a few great figures' faces became ugly, almost acting out.

"No, we definitely cannot let Huang be sent into Gu Clan's Yin Yang Furnace. He might die at any time!"

However, Gu Clan didn't think they did anything wrong, because they had long said that they needed the true Yin Yang Furnace to completely refine away Shi Hao, only then did they have a chance of breaking through the restrictions in his sea of consciousness, but there were people who were opposed to this before, thus, they could only use an imitation in War God Academy.

"That true furnace has an evil nature, how can we be at ease?" There were retorts from a different direction.

"We won't allow it, no matter what, we have to change Huang's situation. This type of state is too terrible, we have to let him revive!" There were some people who couldn't sit still anymore.

It was because they were worried that the undying kings would erupt into rage when they returned. Perhaps the key wasn't in Shi Hao's sea of consciousness, the great ancestors might even have other uses for him.

When they thought of these things, a few people couldn't remain calm anymore.

Some of them knew that this great era definitely wasn't going to be peaceful again, perhaps history's greatest sparks were going to be produced. The great ancestors' decision couldn't be disobeyed.

"Help him reforge his dao achievements in my world, let him recover!" Someone said coldly.

Chapter 1578 - Rescue

Only, they would definitely have to pay quite the price to do so. Huang was crippled, moreover at the hands of a supreme being, everything destroyed, it was hard to restore him from nothing.

"Did he do this on purpose?" When some people carefully examined Shi Hao's condition, they couldn't help but erupt in anger, really wanted to drag Gu Clan's elder here and berate him.

Huang's injuries were too severe, his life force and other parts practically all destroyed. Restoring him through great magical force was practically impossible.

It was just like Gu Clan's elder said before leaving, that if they wanted to change his condition, they had to use some heavenly treasures, only by doing this was there hope.

"Out of selfish motives, completely for the sake of tormenting Huang, he ended up making this terrible mess. What right does he have?" Someone said coldly.

"Could it be that Gu Clan previously had a grudge against the Immortal Ancient Stone Family?" Another person suspected.

"There is a huge possibility!"

“This won’t do, call that old thing over. This disaster was caused by him, so have him do it!” There were some who couldn’t accept this result, deciding to call that Gu Clan elder over.

Gu Clan’s elder came, but he was extremely calm, sticking to his statement that there was no way of restoring Huang.

Soon afterwards, everyone discovered that Shi Hao’s primordial spirit was unstable, about to scatter.

“This...” If not for their magical force being powerful, all of them being supreme beings, they definitely wouldn’t be able to protect this youngster.

“What are we supposed to do now?!” The Emperor Clan supreme being roared out in fury, berating Gu Clan.

Even if they were both supreme beings, normal people really didn’t dare oppose Gu Clan, but Emperor Clans didn’t feel any fear. He was now truly angered.

It was to the extent were soon afterwards, extremely powerful undying beings were alarmed, passing down the decree that Shi Hao has to be protected, that he has to be revived.

“There is an easy solution, send him to the Immortal Platform, it will definitely stabilize his primordial spirit.” Gu Clan’s elder suggested.

Everyone’s faces weren’t pleasant when they looked at him, because this was all because of him. Meanwhile, the place they were headed to wasn’t some ordinary place, the various clans all fighting for the spots. They were going to waste one instance of the opportunity on Huang?

The so-called Immortal Platform was a mountain, a giant mountain that was like a human head, grand and majestic, who knew how many tens of thousands of li tall.

In that place, plant life was sparse, but those that grew all possessed long life, all divine medicines, holy medicines, and others, containing the world’s most astonishing spiritual essence!

This mountain could nurture one’s primordial spirit, possessing heaven-defying effects.

Normally speaking, even if one’s primordial spirit was broken, as long as they were still alive, not completely scattering, they had a chance of reviving in that place!

Meanwhile, if one cultivated there, it would allow the primordial spirit to quickly grow.

It could be said that this was a heaven-defying place.

Thus, this mountain’s value was immeasurable. The various clans fought fiercely for a spot so their disciples could cultivate there.

There were rumors that this mountain was a head itself, one that belonged to an immortal king. Back then, it was removed during the great war, and then turned into an unmatched Immortal Platform.

After all these years, its essence helped a few extremely well-known experts make great achievements, allowed some people to obtain great progress, their primordial spirits becoming extremely sturdy and powerful.

Now, that place was about to quickly dry up, the number of places limited. Wasting one instance on Huang was naturally something they weren't willing to see happen.

However, the situation was concerning. In the end, Shi Hao was sealed in a frozen coffin, directly brought there.

"Yi, several supreme beings came at the same time, and they even brought... an undying existence's decree. Who is the one they want to help?"

This group of seven was seen when they were still quite far from Immortal Platform. Those creatures were extremely shocked.

They knew that coming with an undying decree meant that they definitely wanted to cut in line, seize one of the spots here. In their opinion, it was definitely a great figure's descendant.

They were now close. Up ahead was a gray mountain, its size extremely massive, towering in the horizon. It indeed did look like a head.

It gave off a faint type of might that made one feel reverence, a strong urge to bow down in worship.

"We pay our respects to seniors!"

When they arrived at the mountaintop, a few youngsters who were cultivating here were alarmed. Their eyes all widened, immediately greeting the supreme beings.

There were five or six in total, with males and females here, all of them not that old, the oldest not over a hundred.

Immortal Platform was extremely large, but every year, there were only eight or nine spots. The number of people who could receive the benefits of this place was limited. After endless time passed, this place was about to dry up.

In Immortal Ancient's last phase, there were undying kings who remained here to treat their injuries, using up too much of this place's essence!

"Yi, this is Huang?" There was a youngster who daringly walked up, recognizing the person in the frozen coffin. His expression immediately changed.

When a scarlet-clothed male heard that it was Huang, his eyes released great brilliance, killing intent surging extremely terrifyingly.

"Huang, I want to kill you!" He said to himself.

"Scarlet King's descendant?" The Emperor Clan supreme being said. Even though the two weren't from the same Emperor Clan, the two clans were still familiar with each other, understanding each others' bloodline auras.

"I am!" That youngster nodded.

This left many people shocked. Normally speaking, Emperor Clans were rarely seen, yet a Scarlet King's descendant actually came here.

One could see just how important this Immortal Platform Mountain was, even Emperor Clan descendants willing to cultivate here. It wasn't strange for this place to have limited quota at all.

On the mountaintop was a strange stone platform. It was extremely smooth, almost like jade.

After the frozen coffin was brought here, it was directly placed on the stone platform, the most suitable place for cultivating the primordial spirit here.

Shi Hao revived here, feeling his withered primordial spirit become nurtured here. A wave of mysterious power spread through this entire great mountain, gradually restoring his dried-up primordial spirit.

The most important thing was that the natural laws here were complete. When Shi Hao's primordial spirit was nurtured, flawless great dao laws appearing, there was a type of tempering being carried out.

He was shocked. Was he going to completely restart his cultivation?

If he took up long term residence here, his primordial spirit would inevitably become extremely powerful.

Meanwhile now, Shi Hao obtained another opportunity, allowed to remain here long term.

"This old one had previously said that his primordial spirit would be protected, that he couldn't be allowed to scatter." Gu Clan's elder said.

"This isn't enough. We have to have Huang completely recover!"

Everyone always believed that if they wanted Shi Hao to completely recover, perhaps they could use phoenix blood. This type of rebirth through flames was extremely powerful. Only, they didn't know if they could borrow any.

Gu Clan's elder surprisingly spoke up again, approving of the phoenix blood. This was undying liquid, able to help one undergo rebirth.

Phoenix blood, how precious was this? Who was willing to bring this type of thing out?

"How can we obtain phoenix blood?" Someone said in dissatisfaction.

"Heaven Burning Land, there is a Blood Phoenix there, some can be obtained from that place." Gu Clan's elder said.

Some people glared angrily at him. That place was definitely not some good place. Who was willing to rashly step foot there?

Blood Phoenix, even though the people of this world said that it had fallen, it was a descendant of the True Phoenix. Its bloodline strength wouldn't be weaker at all, instead extremely powerful.

Back then, it was just like the Gu Clan, the Blood Phoenix also came to this side from the Nine Heavens.

When bathed in their blood, one could definitely be reborn.

The Blood Phoenix bloodline was definitely of equal status to Emperor Clans, granted extremely high statuses, transcending above. Normally, no one would disturb them.

In reality, the main reason was also because that place was too dangerous.

The Blood Phoenix, known as the fallen phoenix, their temperaments changed, addicted to killing. If they really were provoked, it might result in huge problems.

How were they supposed to get true blood? Would they really give it out? They might just erupt in anger.

Moreover, how many Blood Phoenixes were even left there?

“Since it’s your suggestion, then it should be you who gets the blood.” The Emperor Clan supreme being said, looking towards Gu Clan’s elder.

“My clan and the Blood Phoenix bloodline have misunderstandings between us, if I go, I definitely cannot obtain any. However, if you tell them that my clan almost killed Huang, perhaps the true blood can be obtained more easily.” Gu Clan said like this.

Heaven Burning Land, this place was dried up, scarlet land stretching for ten thousand li. Normally, this place was extremely quiet, lacking activity, but once it was approached, great flames would rush into the heavens, burn the sky dome.

In the end, those supreme beings hurried over, while Gu Clan’s elder didn’t appear.

They all felt complicated emotions, carrying a bit of anger. They never expected that for Huang’s sake, they would actually come here to ask for true blood.

In reality, during these days, they really were helpless, feeling extremely annoyed. They actually had to appear themselves to help that Huang!

It was just like the rumors stated, this place was completely scarlet, not a blade of grass growing, extremely quiet.

Suddenly, when they approached, something unexpected happened.

Honglong!

The scarlet flames were like blood, terrifyingly red, exceptionally bright. They rushed into the sky, engulfing the heavens above and earth below.

Inside this ancient land, there was fiery light everywhere, great dao symbols filling this place, able to burn away all things.

Even the great supreme beings backed up, not daring to run straight in.

The Emperor Clan supreme being spoke up, transmitting sound inside, wishing to meet with a member of the Blood Phoenix Clan.

This region’s depths were extremely quiet, even though there were heaven burning flames, there was no sign of living creatures.

The supreme beings transmitted sound several times. Finally, there was a great disturbance produced.

Honglong!

It was as if lightning crashed down. Then, he saw heaven overflowing fiery light. A creature opened its eyes, body as tall as a mountain. When its eyes opened, terrifying scarlet light shot out, the radiance incomparably brilliant, as if two blood moons appeared in the darkness.

Chapter 1579 - Heaven Burning Land

Within Heaven Burning Land, fiery light surged everywhere, the pressure so great everyone felt like they were suffocating!

Even the supreme beings felt this type of pressure. It was as if the heavens were going to be burned away, annihilating all things in this world. This type of dao was too terrifying!

These individuals already saw how different that phoenix was. Its body was massive, eyes cold and intimidating, as if it was a slaughter machine who walked out from hell itself.

One had to understand that this was a phoenix! Originally, this was an auspicious being, wherever it passed, the weather would become beneficial for crops, countries would prosper, the people would be at peace, bringing people auspicious omens.

However, right now, its expression was ice-cold, body even larger than a mountain peak, standing on this Heaven Burning Land where not a blade of grass grew, overlooking everyone with incredible chilliness.

Up ahead, fiery light overflowed, its entire body not visible. Only an outline towered in the ancient land, carrying boundless pressure.

This was like a matchless demonic god from hell, as if it had broken through its shackles, now about to massacre all life.

“This dao friend presumptuously disturbed you, must ask you for forgiveness.”

A supreme being braced himself and spoke up, because the pressure this phoenix released was too great, at the same time not friendly at all, making his skin feel ice-cold.

The main thing was that he couldn't see through this Blood Phoenix's cultivation realm. It definitely wasn't weaker than his own.

“Since you know that you are a disturbance, then just leave.” A cold voice transmitted from the red fiery light, not willing to interact with them, directly refusing to meet them.

Those individuals all trembled inwardly. This really was worthy of the Blood Phoenix's reputation, already becoming a fallen immortal bird. It was still domineering, compared to the past auspicious bird, it was too cold.

“Dao friend, please let us finish what we wish to say. This time, we have no choice, there really are some matters we must seek your help in.” A supreme expert spoke up again.

Only, later on, he didn't know how to continue. It was because they had never interacted with the Blood Phoenix Clan. If they directly asked for true blood, then that really wasn't too suitable.

Why should they hand it over? That type of precious blood was enough for all clans' eyes become red with desire!

Phoenixes went through rebirth, reborn while bathed flames! This kind of legend was something even two or three year old kids knew about. Even if one said this clan's blood wasn't the most precious in the world, it should be pretty close.

"Dao friend, to be honest, we wish to ask for a bit of true blood..." In the end, the Emperor Clan supreme being spoke up, his expression a bit unnatural while speaking.

They had never met before, yet he asked for true blood, this really was a bit hard to justify.

"Am I that familiar with you all?" That giant creature in the red fiery light coldly asked, overlooking all of them.

The meaning behind these words couldn't be clearer, pushing them far away, not wishing to interact with them at all, not willing to give them true blood.

"We know that hastily asking like this is a bit hard to justify. However, this time, we really need dao friend's help."

They couldn't stop here no matter what. They carefully explained, speaking about the youth who the undying kings attached importance to, requiring the help of phoenix blood.

"Gu Clan accidentally harming him? Their hearts are still so dark, actions so vicious, hah!" The Blood Phoenix sneered, revealing an emotional fluctuation for the first time.

They were all stunned. Things were just as Gu Clan's elder said, the two clans having some grudges, not all that amiable.

Hong!

Fiery light overflowed, surging over there, burning the sky dome, the scorching temperature uncomfortable even for these supreme beings. Moreover, now, it became even more intense, the scarlet great flames roiling like a sea.

That creature was moving, wishing to walk out from the ancient land.

Sure enough, it appeared, revealing its true body. It was as tall as a great mountain, no longer a blurry outline, its bright feathers like flowing blood.

This was precisely the Fallen Blood Phoenix, known to be a perfect species. It had previously warped and weaved through the heavens above and earth below, possessing an undying body!

It was extremely cold, and also extremely prideful, like a monarch who overlooked ants. It was extremely indifferent, only after a long time had passed did it speak to everyone again.

"Even though phoenix blood is precious, it isn't something every creature can endure. If you want to obtain the blood, have that youngster come and try himself, see if he can obtain it."

It actually spoke these words, could be considered to have agreed.

The supreme beings look at each other in dismay. Previously, the Blood Phoenix refused them, but when they mentioned that Gu Clan injured Huang, it ended up agreeing?

“Dao friend, Huang is seriously injured, now reviving on Immortal Platform. He has no way of coming here, so we ask you to be accomodating.” One of them spoke.

“Does he want to live or not? If he wants to live, then have him come himself!” The Blood Phoenix was extremely direct, and also extremely domineering, its tone unquestionable.

Its body was massive, bright red in color. Its feathers were all brilliant, scarlet multicolored light overflowing. n-o))V--e./l..b-(1.-n

The Fallen Blood Phoenix was still a bit different from the phoenixes of the past. The True Phoenix’s feathers were brilliant and multi-colored, while the Blood Phoenix only had a single color, which was bright red.

A supreme being felt really annoyed, really wishing to act out. When were people of their status ever spoken to like this? Today, they acted so courteously, yet the other side didn’t give them any face.

Someone stopped him, not allowing this supreme being to speak.

“Understood, we will leave first. We will come back soon to disturb you once more.” The Emperor Clan supreme being said.

While leaving, their expressions weren’t all that great. What kind of statuses did they have? When had they ever had to act so humbly before? Yet in the end, they were treated so coldly by the other side.

“I really want to break in and directly seize some phoenix blood!” One of them said in annoyance.

“That place is like a dragon pool, tiger den, we don’t know if the Blood Phoenix who participated in Immortal Ancient War is still alive. If it is, if we really act out, the consequences would be unimaginable!” The Emperor Clan supreme being said seriously.

Along the way, they all suspected that Heaven Burning Land had already dried up, perhaps only a single Blood Phoenix remained.

“Since we already left, then there’s no point in thinking about it further.”

Soon afterwards, they hurried to Immortal Platform Mountain, standing on the grand giant mountain top again. This mountain really was like a head, carrying immortal dao aura.

In just a few days, Huang’s condition became much better, primordial spirit having brilliance, no longer that deathly still.

“Bringing him there now might still be a bit early. His primordial spirit’s injuries haven’t completely recovered yet.” A supreme being looked at the frozen coffin.

Huang didn’t move at all, laying on the coffin. His head was shining, absorbing wisps of mysterious light specks, his condition always heading in a good direction.

Of course, all of this was from a primordial spirit aspect.

In this place, in regards to the flesh, the nourishing effects were quite limited, only the divine will being strengthened.

“Let’s wait a few more days. After his primordial spirit solidifies, we will head to Heaven Burning Land.”

Two days later, the supreme beings brought the frozen coffin to the Heaven Burning Land. It was because they were scared of the Blood Phoenix backing out of its promise, that something unexpected would happen.

Meanwhile, they could still return to Immortal Platform at any time, there was no need to worry about that.

“Huang, if you can stand back up, no longer crippled, I will definitely kill you myself!” On the Immortal Platform, a scarlet-clothed male spoke, his eyes ice-cold, staring at the frozen coffin.

He was Scarlet King’s descendant, his name Chi Menghong, an Emperor Clan’s heaven warping genius.

A close relative of his -- Emperor Clan supreme being Chi Pu, was captured by Meng Tianzheng not long ago outside Imperial Pass, brought into the city, making him feel extreme humiliation.

That was why he always wanted a chance for revenge. When he learned of Huang’s relationship with Meng Tianzheng, he naturally wanted to kill Huang.

The supreme beings brought Shi Hao’s frozen coffin to Heaven Burning Land.

“What is going on? Many people want Huang dead, while we are going through so much trouble to save him, help him recover. This really is ridiculous!” Someone said with a sigh.

Huang was this side’s enemy, yet these people were running all around to help him recover. Whenever they thought of this, they all felt a bit upset.

“It’s all that Gu Clan old thing’s fault, acting too viciously!” Someone said in resentment. Otherwise, how could things have ended up like this?

Before they transmitted sound into the ancient land, a giant creature already approached from within Heaven Burning Land. It was still the Blood Phoenix from last time.

Even though Shi Hao didn’t move at all, he had long become awake. He stared at the giant creature in the ancient land. So this was a Fallen Blood Phoenix? Even though it stood in fiery light, why were its eyes so cold?

“Come with me!”

The giant figure moved, extremely fast. When it moved its wings, the vast sky broke apart, flames rushing beyond the sky dome. It was too terrifying.

The supreme beings followed it, entering Heaven Burning Land.

If it was a normal person, they would have long melted. The temperature of the flames was too high.

In that instant, they advanced eight hundred li, arriving before an ancient cliff. This cliff was extremely tall, simply as tall as the sky. It was a reddish-brown color.

Just like outside, not a blade of grass grew here.

There were cliffs everywhere, blocking their path forward.

Upon closer inspection, the cliff was ring shaped, surrounding the core of this restricted land. Outsiders couldn't step foot in here. The fiery light inside was even more terrifying, the bright red color carrying dark light, there were even some areas where it was just black flames, making one's heart rate increase.

"We likely cannot enter either!" There was a supreme being who spoke up, because they sensed an undying aura. The region the cliffs surrounded was definitely extremely terrifying.

"This is the place. If he shares fate, he can bring away the phoenix blood himself. If not, then I can only ask you all to leave." The Blood Phoenix spoke.

This massive cliff was like a river stopping dam, blocking everything ahead.

Meanwhile, on the cliff were even more so a few small jars, as well as small bone cauldrons and others. They hung there, extremely mysterious.

"Phoenix blood!"

The supreme beings' pupils contracted. There weren't just one or two containers, but rather twenty something.

In addition, these containers were all transparent, the blood inside visible. They carried world shocking auras, clearly unmatched precious blood.

Phoenix blood, why would it be placed here? Moreover, they could tell from a single look that these containers had already hung on the cliffs for an extremely long time.

Chapter 1580 - Phoenix Blood

"The opportunities are right here, it'll all depend on whether or not he can bring them away." The phoenix spoke. Its body shrunk, changing from the mountainous height to three foot in length. After spreading its wings, it landed on a cliff.

The temperature was blazing hot. The cliff was also releasing flames. When normal people came into contact with it, they would definitely be burned to ashes.

It really was strange, those mountain cliffs were under such great temperatures, yet they didn't melt into magma, extremely unique.

Inside the flames, the twenty something containers all shone. Even though they were simple and ancient in appearance, they were clearly not ordinary artifacts, all of them carrying traces of time.

Was this what had remained after endless time had passed?

What was the Blood Phoenix Clan trying to do? Why did they keep the blood here, hang it on the cliffs?

This blood was, without a doubt, too precious, any container was enough to make the outside world go crazy. This was undying blood, enough for one to bathe in and experience rebirth!

“Behind the stone cliff is my clan’s important land, there are great predecessors overseeing it, no one is allowed to enter and disturb them.” This Blood Phoenix spoke about a few things, leaving the supreme beings all shocked.

Outsiders didn’t dare step foot in the restricted region the cliffs surrounded. There were unmatched experts overseeing it.

In the past, when the Blood Phoenixes flew over to this side, after the two sides’ great war, they ultimately took up residence here. There were many creatures who came here to visit, all of them powerful clans, even undying kings came here, granting this clan the greatest glory.

This clan’s blood was special, which was why there were also those who asked for true blood when they came to visit.

At the time, when the Blood Phoenix Clan first came to this side, they couldn’t easily refuse the various clans, thus they gave out a bit of true blood, hanging it here. Those who had the opportunities would obtain them, allowing the powerful clans to seize it themselves.

“All those who wish for it can come here?”

When they heard the Blood Phoenix emotionlessly explain some old events, the supreme beings were all shocked. There was someone who asked like this.

“This is on the premise that you can bring the blood away!” The Blood Phoenix replied.

It was because not everyone had that fate. The Fallen Phoenix’ blood had long mutated, no longer pure phoenix blood. For some clans, it was unmatched precious blood, but for some, it might be extreme poison.

Those who came here to ask for blood only needed to touch the vessels on the cliff to know if they shared fate.

Otherwise, if they granted those experts whatever they asked, directly giving out some true blood, yet those people couldn’t use it, then that would be a type of great waste.

Shi Hao couldn’t move right now, so the supreme beings activated their magical force, lifting the frozen coffin before the main cliff, approaching those ancient containers.

“After all these years passed, there is still some phoenix blood that hasn’t been brought away?” Even the supreme beings revealed looks of surprise.

It was clear that Fallen Blood Phoenix’ true blood had problems, not suitable for everyone as expected. It could even be said that only some people could use it.

Otherwise, how could any of this precious blood be left behind?!

If it was a normal phoenix, there definitely wouldn’t be any issues. It was auspicious, a holy bird! Meanwhile, the Blood Phoenix who had fallen into depravity had long underwent a strange change, even its bloodline becoming different.

At the same time, the supreme beings also had some misgivings. After all this time had passed, is this blood still fresh? Did some of its divinity already disappear?

“Don’t worry, my clan’s blood has been sealed extremely well, there isn’t any leakage of essence.” That Blood Phoenix standing on the cliff said.

Fiery light flickered about. The ancient cliff revealed its true appearance. As the frozen coffin moved closer, some of the flames withdrew, revealing those ancient containers.

“The frozen coffin is about to melt!” One of them said with a frown.

The supreme beings had no choice. They sealed them together, protecting this coffin.

This wasn’t a frozen material in the true meaning, but was rather a type of true jade that was cold and snow-white, one of the highest level treasures. However, in the end, it actually couldn’t hold on here.

If not for this, Shi Hao didn’t have any way of getting close. The frozen coffin was protecting him.

“So you are that youngster, already in this type of state. Gu Clan has always carried vicious vengeful hearts, actually crippling a younger generation youth to this state.” The Blood Phoenix lowered its head, looking at Shi Hao inside the coffin.

“What should we do to see if any of this blood is suitable for him?” A supreme being asked.

“Open the coffin, let him touch these containers.” The Blood Phoenix said.

“With his current condition, if the coffin is opened, he will immediately be burned to ashes!” A supreme being said.

Honglong!

The Blood Phoenix opened its mouth, taking a huge breath. All of the blazing heat on this cliff disappeared, strand after strand of resplendent fiery light entering its mouth. Then, it temporarily sealed the cliff.

Shi Hao couldn’t move, but under the help of the supreme beings, there were no issues. His fingers began to touch these containers.

The first ancient jar was only fist-sized in height, the blood inside scarlet red. When he touched the vessel, it immediately trembled.

“This one is suitable, he can use this container of blood.” The Blood Phoenix said.

Things went unexpectedly smoothly. He was approved of right from the start.

“The colors of these blood are different, are there special differences to take note of, their effects perhaps different?” A supreme being asked. Even they were shocked, feeling happy for how things went.

The Blood Phoenix on the cliff nodded and said, “Indeed, the degree of essence density is different, moreover coming from different Blood Phoenixes.”

Shi Hao couldn't move, but he could transmit his divine will. He wanted to try the other vessels. Since he already knew the foreign supreme being wanted to save him, have him recover, he wouldn't act overly polite.

It was because they didn't feel some sincere kindness, but rather wanted to save him to help them explain things to the undying kings.

The second vessel was a divine crystal the size of an infant's fist. Moreover, there was a drop of blood sealed within, exceptionally brilliant, red to the point of leaving one's mind shaken!

One could imagine that this drop of blood was definitely left behind by a great one. It was rich essence blood.

When Shi Hao touched it, this blood trembled greatly, clearly also having a reaction.

This shocked the Blood Phoenix on the stone cliff. He could actually use this blood as well.

The supreme beings also wanted to see just how extraordinary Huang was, which was why they all happily accommodated, having Huang continue trying.

As time went on, Shi Hao advanced without restriction, when faced with these different vessels, they all produced a reaction, making these true blood that had remained silent for too long revive.

Some of the blood was special, golden-colored, like melted gold, clearly extraordinary.

There was also blood that flickered with five-colored brilliance, as if it had never fallen, like normal phoenix blood.

There was another lump of blood that released phoenix cries, bright red and terrifying, chaotic energy within, clearly incomparably astonishing.

...

Only, in the end, Shi Hao was drawn to a jar of blood, giving up on the others.

This was a white bone small vessel, the bone material special. While immersed in blood, it already became transparent, allowing him to see the blood within.

This blood lacked luster, nor did any great dao aura seep out. It was dark red in color, even a bit black, like corrupted filthy blood.

However, when Shi Hao's hand rested on its surface, he wasn't willing to let go.

"What kind of background does this blood have?" The Emperor Clan supreme being asked.

They had been helping Shi Hao choose blood the whole time. When there were questions, they naturally asked as well.

"It is more tyrannical than the other true blood." The Blood Phoenix replied, not saying too much.

"This is the one then!" Shi Hao made his decision.

Divine radiance flickered through the supreme beings' eyes. If not because they needed to save Huang, they all wanted to find a reason to bring away a bit of true blood.

The Blood Phoenix heard this, and in the end, it nodded. Through its expression, it was clear that this blood was extremely special, even itself feeling a bit reluctant.

"I hope it doesn't end up harming you!" The Blood Phoenix said.

The small white bone container was removed from the cliff. After endless time passed, it was finally obtained by someone.

Instead of calling it a container of blood, it was actually just a drop. It was extremely viscous, color extremely dark, the dark red already close to black in color.

The supreme beings brought Shi Hao on his way, leaving this Heaven Burning Land. The small white bone container was placed in the frozen coffin with Shi Hao, all of them flying towards Immortal Platform Mountain.

Under the escort of supreme beings, things went extremely smoothly, no one stopping them.

In the end, they returned to Immortal Platform Mountain again. Shi Hao was going to recover and transform here, free himself from his current predicament.

On Immortal Platform Mountain, Scarlet King's descendant Chi Menghong also stayed within his bounds, at the very least, not expressing anything on the surface. He knew that he had no chance.

"I am a bit unwilling!" A supreme being stood on the Immortal Platform Mountain, looking at Shi Hao inside the frozen coffin, saying to the others.

It was because the Blood Phoenix was extremely heaven-defying. Together with the fact that this was a place for nourishing the primordial spirit, Shi Hao would definitely transform, become powerful again.

However, this wasn't their descendant, nor was it a creature of this world. He came from Imperial Pass' side, could be considered a descendant of the enemy. Now, they were helping him like this, it really was wasteful, it shouldn't be like this.

One of them said in an unconcerned manner, "That Gu Clan old fella's words were correct, so what if we save him? We'd have to kill him once more. Right now, we should just save him to avoid the blame of the undying kings."
