

Perfect WD 1581

Chapter 1581 - True Blood Rebirth

The blood had already been prepared, they could now help Huang transform!

Immortal Platform Mountain was left behind after an unmatched immortal king died, a pure land. Back then, after Immortal Ancient Great War ended, there were even undying kings who came here to recover.

“Let’s begin.”

The Emperor Clan supreme being said. Regardless, they had to get through this trial first, let Huang revive. In the future, if they had to kill or torture him, they could do it then.

“I hope the undying kings only wish to obtain some things from his head, and not actually think highly of him due to other reasons!” Another supreme being said.

If that happened, then it would be really difficult to kill Huang.

Chi Menghong and the others withdrew, momentarily not allowed to approach this place. It was because a few transformations were going to happen here.

Chi Menghong’s eyes were ice-cold. He came from an Emperor Clan, yet one of his clan’s supreme beings was captured not long ago. He really wanted to kill this important individual from Imperial Pass’ side.

The white bone small vessel was opened. A strange sound was released.

Then, there were specks of blood radiance that rose, dark red blood descending from the container. It was just that drop, yet it gave everyone a terrifying feeling.

This was like a vast sea, carrying exuberant power.

Right now, even the supreme beings were moved, staring at this drop of ancient blood in a daze, it was as if many stars were swirling, hidden within this drop of blood.

Was this an illusion? Or was this some kind of irregular scene.

They sighed. The value of this drop of blood was extremely high. Giving it to a later generation disciple would definitely bring him great natural luck.

Unfortunately, it was now gifted to Huang.

The blood descended, drawing out an expanse of dark bloody wisps, covering Shi Hao.

One could faintly hear winds roar and thunder rumble, lightning flashing about!

The bloody wisps this drop of blood turned into was like a web. Moreover, it began to become resplendent, producing lightning, releasing extraordinary power.

The blood was like lightning!

A single drop of blood seemed to contain the origin power of heaven and earth. This was left behind by the Fallen Blood Phoenix.

Hong!

Eventually, the noise shook heaven and earth. The bloody wisps spread throughout, interweaving together, covering Shi Hao within, about to enter his body.

“Protect him!” A supreme being spoke up.

This type of situation was extremely complicated, and also extremely terrifying. They had to protect Shi Hao, had to ensure his safety. Otherwise, if he was destroyed by the bloody wisps, then there was no way of explaining things to the great ancestors.

The supreme beings took action, activating ancestral methods together, placating this type of power, preventing it from being too strong and destroying Shi Hao.

This was especially the case with his head, which was even more so heavily protected. At first, that drop of blood wasn't even allowed to touch his head.

Finally, this drop of blood turned into threads, carrying astonishing power, entering Shi Hao's body, seeping into his limbs and bones.

Right now, his body was completely tattered. Even though he still had the appearance of a human, it was pieced together, the order and natural laws within had long been refined away.

His dao skills were ruined, magical force severed, situation extremely terrible!

Moreover, even though Shi Hao's primordial spirit was recovering, already stabilizing, there was still some hidden damage.

In short, his condition was still quite terrible. If he wanted to recover back to his peak, a miraculous transformation had to happen, one that fully freed him from this type of death situation.

This was also why they had to seek out the Blood Phoenix.

Rare precious medicines weren't that uncommon, but those that allowed a living creature to truly be reborn through flames, rise up from ashes, really were hard to find.

Perhaps the phoenix bloodline's true blood was one of the only few choices.

After this drop of blood entered the body, an extraordinary change immediately took place.

Hong!

An incomparably great streak of lightning exploded right outside Shi Hao's body, the noise deafening.

Forget about Chi Menghong and the other youngsters watching from the distance, even the supreme beings here were shocked, quickly taking action to protect Shi Hao.

Wasn't this the life saving phoenix blood? This type of power, if it exploded within the body, wouldn't it destroy him?

One had to understand that he was already crippled to begin with, now lacking the slightest strength to resist.

Fortunately, the great lightning only appeared around his body.

“The blood has already entered the body, but there is lightning released around his body, this really is strange!”

They all released a light sigh. This really was a scene of false alarm.

Then, Shi Hao’s body expanded, as if Flood Dragons were swimming about within one after another, moving through his body, swimming in his blood.

This type of power was extremely domineering, moving quickly, making every place expand. It turned into strips, swelling out, extremely astonishing.

One could vaguely hear phoenix cries, as if they saw a True Phoenix change from five-colored to the color of blood, falling into depravity, becoming a Blood Phoenix!

This was especially the case with Shi Hao himself, the experience even more profound. Scenes appeared before his eyes.

In the boundless great earth, ancient trees and abandoned forests rested, vicious beasts moved about. A Blood Phoenix spread its wings, rushing into the sky, tearing apart the stellar streams, slaughtering from one land to another.

The killing was unending, striking down even true immortals.

It was incredibly berserk, precisely the Fallen Blood Phoenix.

These scenes were fragmented. It was clear that they were imprints from this clan’s blood, some scenes of the past passed down.

After this drop of blood entered the body, it distributed itself about, sure enough, having miraculous effects, containing unimaginable power.

Shi Hao’s body became numb, primordial spirit taut. It was because a wave of mysterious power was spreading, making his wounded body recover, making his primordial spirit feel extremely comfortable.

The Fallen Blood Phoenix’ true blood was incomparable. This was just the beginning, yet there was already this type of effects.

If this continued, Shi Hao could definitely recover. He would obtain a precious body.

Hong!

Suddenly, the true blood within his body moved, releasing a loud noise, making his blood also roar out, surge violently. His originally lifeless body was given a kick start.

“The effects are this powerful, it really can defy the heavens!” A supreme being sighed with admiration.

This type of precious blood had just merged with Shi Hao’s body, yet it already began to temper his body, restore vitality to his flesh. It really was world shocking.

Honglong!

Right at this time, an expanse of light surged from within Shi Hao's body, illuminating his body until it was translucent. This was because of the phoenix blood.

That drop of blood was evenly distributed, flowing through his entire body. Apart from his head that was still seriously protected, the other parts all flickered with brilliance.

"En? It turned into scarlet red blood?"

A few supreme beings were shocked, because Shi Hao's body was almost transparent, allowing them to clearly see the change of color of the phoenix blood. It changed from a dark red to bright red.

However, immediately afterwards, an expanse of dark light surged, rushing out from him, covering the surface of his body. This was a type of unexpected change.

"The reason that phoenix blood turned dark red, even heading towards black in color is related to this dark light." A supreme being frowned.

They now understood a bit. That drop of blood had two colors within, scarlet red and pitch-black. The first was blood, the latter was a dark black radiance.

"There is temporarily no harm to his body, on the contrary, really spurring on his rebirth, allowing his body to regain vitality, guiding complete dao laws into his body."

This was a process of completely restarting from the beginning, a rebirth process, to rebuild a grand palace on the ruins of destruction.

Shi Hao's dao skills had been crippled. Now that this drop of blood entered his body, it wanted to irradiate life once more, recreate everything he had before, even make him more perfect.

Hu!

Suddenly, an expanse of fiery light surged, rushing out from Shi Hao's body, spreading out. It covered him entirely, burning fiercely.

Vaguely, he even saw an ancient phoenix rush out from the fiery light, roaring as it rushed into the sky. It was as if it rushed over from the ancient times along the great river of time.

In that instant, the scarlet phoenix blood within his body and the dark light outside his body merged once more, causing the fiery light that rushed out to become even more vigorous, extremely majestic.

Shi Hao was simply about to become a furnace, turn into a volcano.

Moreover, in that moment, powerful life energy spread, appearing from his body. Moreover, perfect great dao laws poured down from between heaven and earth, falling in this direction.

This was definitely an astonishing process, all caused by a drop of ancient phoenix blood!

"Right, even though this scene is astonishing, this is how it should be. The so-called phoenix rebirth, reborn through flames is precisely this type of fiery light!" The Emperor Clan supreme being nodded, eyes burning fiercely.

He watched all of this carefully. Even though this was the experience of a youngster, for him, it also left him moved, giving him some inspiration.

Shi Hao's body was wrapped within fiery light, quickly recovering, being restored. The flawless natural laws descending from the sky dome were covered under fiery light.

This fire was extraordinary, drawing over divine chains of order, releasing hualala sounds.

One could see resplendent divine chains fall from the void one after another, entering Shi Hao's flesh. It was extremely astonishing.

Hu! no! e! l! .In

As if there were crazy winds blowing past, the fiery light became even more brilliant, rushing out from Shi Hao's body, engulfing all of Immortal Platform Mountain.

Reborn while bathed in flames, right now, it was vividly and thoroughly displayed. A wave of majestic life power, as well as a complete great dao aura were being nurtured at the same time, surging, spreading throughout.

Only, Shi Hao's mind instead became tense!

Chapter 1582 - Unforeseen Event

Why was this? Shi Hao's heart became taut. Everything was developing in a good direction, so why did he always have this feeling of uneasiness?

A type of instinct told him that he wasn't actually free from danger!

Fiery light surged, phoenix cries shaking the heavens above. One could see True Phoenixes flying about Shi Hao within the blazing light, dancing about.

Phoenix rebirth, reborn through flames!

It was precisely due to this type of power that Shi Hao could transform, his wounded true body recovered, about to return to his peak, moreover transcend a step further.

His body had previously been refined by Gu Clan's supreme being, blood extracted, bones completely burned away. Moreover, his inner organs, skin and flesh were even more so refined into a paste, becoming a great furnace of medicine. It could be said that not long ago, his condition was terrible to the extreme, too horrible to endure.

Later on, even though his body was pieced together, he was still already crippled, his body damaged, forcefully bound together.

Right now, all of this was changing.

While bathed in divine flames, exuberant life force surged. Shi Hao's body was changing intensely, the so-called broken bones long reconstructed.

As for his blood and flesh, they even more so experienced a baptism, now sturdy and powerful!

“Where is the problem?” Shi Hao was confused. His body was becoming strong, being restored, could even be said to be perfect. So where did his uneasiness come from?

It should be related to the perfect great laws, right? This was what he suspected.

Now, there were many divine chains of order falling from the heavens above, drawn down by the fiery light and phoenix true blood. It cleansed Shi Hao’s flesh, interweaving with him.

If he wanted to recover his dao skills, this was an essential process.

Moreover, this world had perfect great dao laws. Refining the true body like this provided tremendous benefits. In the future, they would become even more evident.

Only, why was his mind so tense? A type of terrifying instinct was rejecting this, facing it seriously.

Hong!

Within Shi Hao’s body, life energy surged. It was just too resplendent, making him look like a burning sun. His entire being was releasing auspicious multicolored light, primal chaos energy even surging.

At this time, he could feel abundant power. Magical force was crazily surging, cultivation increasing.

This was especially the case when boundless heaven and earth natural laws and perfect divine chains of order were drawn down, producing terrifying power within his body.

“Wu, shouldn’t we release the protection around his head, allow him to transform further?” A supreme being said. It was because during this process, someone had been protecting Huang’s head this entire time to avoid anything unexpected from happening.

“Okay!” The others all nodded.

Immediately afterwards, that supreme being stepped back.

As a result, Shi Hao’s skull shone, the space between his brows swirling with auspicious brilliance. Immortal energy surged, the irregular scenes becoming more and more astonishing.

Sure enough, Shi Hao’s head began to surge with raging flames, his bones releasing pi pa sounds. His head that was previously fractured and destroyed underwent repeated tempering, being reforged.

When great dao laws spread, the divine chains of order entered his skull, this instance of transformation reached its climax! ~~novel~~ In

Shi Hao’s body contained extremely domineering power. Within the roaring winds and fiery light was rich regeneration force. He was undergoing rebirth.

“Excellent, this body even leaves me a bit jealous. If my body had been refined to this extent, how great would my accomplishments today be?” A supreme being said.

This time, when they watched Huang’s transformation themselves, the supreme beings were moved, feeling like this youngster was too extraordinary.

Chi!

When Shi Hao's dao skills revived, magical force surging within his body, the True Phoenix blood began to completely interweave with his flesh, about to fully merge together!

This type of blood had regenerative force. If it was absorbed and fully refined, for cultivators, it naturally had tremendous benefits. They would be simply unimaginable!

During this process, Shi Hao's body shivered uncontrollably. The power within the true blood was too great, when he merged with it, it made him continuously tremble.

Chi!

At the same time, Shi Hao's body surged with an expanse of dark light. This light had already existed before, but it wasn't as intense as right now. In that instant, his entire body became jet-black.

That drop of phoenix blood was a bit strange, because in the beginning, it was scarlet, but because of merging with that dark light, it normally looked dark red in color, even a bit black.

At this time, that dark light was stripped off, moving on its own, covering Shi Hao's true body, immediately triggering serious consequences.

Shi Hao's body was shaking intensely, as if it was going to break apart.

Moreover, at this time, the flawless heaven and earth natural laws, perfect divine chains of order and other things that were originally descending from the sky and entering his body began to break apart under gabeng gabeng noises.

"Hurry!" A supreme being released a shout.

The Emperor Clan supreme being moved, quickly forming seals, protecting his head from breaking apart, preventing it from exploding under the power released by the collapse of the chains of order.

This was a shocking development. They had already reached the final stage, if things went smoothly, Shi Hao would become even stronger, completely free himself from his lifeless state.

Pu!

Things were even more serious than they had imagined. The dark light covered his body, great dao fractured, divine chains of order breaking apart. Shi Hao's originally recovered flesh suffered a disaster again.

"Not good, the rebound is too strong. Why did things end up like this?" Those people were all stupefied, at the same time feeling a wave of fear. They had to stop this, or else Huang really was finished.

Several waves of power interfered, protecting his head, and then they pressed down on his entire body.

However, his body was still directly torn apart, wave after wave of blood radiance rushing out. The situation was extremely terrifying, almost ripping him to shreds right here.

It was because these were the perfect dao laws of this world, flawless divine chains of order that were guided down, tempering Shi Hao's body repeatedly, yet in the end, they broke apart in his body. How could this not be serious?

Normally speaking, he should have exploded, turned into a blast of bloody mist.

Yet now, even though he broke apart, flesh collapsing, his body and spirit weren't completely destroyed.

The main reason was because his flesh was indeed powerful enough. Just now, when he was bathed in phoenix blood, recreating his true self, it was no illusion, truly happening. That was why his body became extremely strong under this process.

Moreover, the supreme beings took action, protecting him, this was another important reason, which was why Shi Hao didn't immediately die, but rather break apart inch by inch.

Tremendous pain!

All of the bones in his body immediately broke, producing cracks, flesh and blood even more so continuously trembling. This was the result of the crazy backlash of dao laws, the suffering unendurable.

It came too suddenly, and too intense. Who would have thought that his transformation would be cut short?!

Shi Hao didn't faint, clearly experiencing this type of pain. He finally understood why he had that type of uneasiness, now, he obtained confirmation.

"It's because of that dark light!" The Emperor Clan supreme being said coldly.

"Is this phoenix blood still poison for him in the end?" Another person said with a grave expression.

Without a doubt, in the end, it was still an issue with that drop of phoenix blood in the end. To be more precise, it was the dark light covering his body.

"The dark light represents inauspiciousness. Could it really be just like the legends?" Someone said with a serious expression.

There were rumors that the Fallen Blood Phoenix' blood was originally scarlet red, incredibly bright, but later on, because it came into contact with something, dark light was produced within its blood, turning its entire body dark red.

"Is he completely ruined now?" A supreme being asked while carrying extremely complex emotions.

Huang was this extraordinary, yet he was destroyed in that instant.

Everyone knew that his current state was terrible, even more terrifying than before he was saved by the phoenix true blood.

Complete great dao laws, flawless divine chains of order, all of them breaking apart in his body like this, how cruel and terrifying of a thing was this?

The most powerful backlash, in the end, there should be no way to save him!

Right now, those people protected his head together, which was his primordial spirit. Otherwise, it would definitely be destroyed together with his body.

"He's finished, this time, there is no way. The rebound of heaven and earth great dao, not being acknowledged by the heavens, leading to this scene, what can even be done?"

According to the supreme beings' words, Huang was now truly ruined. They might as well start thinking about what they should do afterwards.

This type of situation, who could make it through? No one could defy the heavens!

"Why are things like this? Everything is now ruined because of the last step, it was that close to succeeding! Could it be that even the heavens can watch on no longer, wishing to bring Huang away?" A supreme being said.

Not even they could save Shi Hao in this type of situation, they could only prevent his primordial spirit from collapsing, temporarily not dissipate.

However, as time went on, this was definitely not sustainable!

Honglong!

Rumbling noises sounded from within Shi Hao's body. One could see the broken natural laws and order were still interweaving, ravaging his body.

"Suppress!"

Let with no choice, the great supreme beings began to apply seals. Otherwise, there would be nothing left of Shi Hao's body.

When everything calmed down, Shi Hao couldn't move at all, his entire body covered in blood, almost just a bloody paste, his powerful flesh completely in tatters.

The supreme beings didn't say anything for a long time.

They worked together to help Huang recover, but in the end, they all failed. Right now, he might die at any time.

"There is only one way left, head to Gu Clan, use their Yin Yang Furnace!" One of them said with a sigh.

Chapter 1583 - Gu Clan Ancient Land

No one expected to see this kind of result, it was just too bloody, and too shocking. They failed at the last juncture, Shi Hao becoming a cripple again.

Of course, this time, it wasn't done on purpose, but rather the heavens itself that wanted to take him.

"Perhaps just now, his flesh transformation was too powerful, thus destined to be stopped by heaven and earth." The Emperor Clan supreme being said.

This wasn't entirely impossible. When they thought about how Huang came from Imperial Pass' side, if his body was reconstructed here, it was the same as completely mending his prior flawed true body.

The great dao of this world was complete, if he reconstructed his true body here, refined his true self, then it might he might be even stronger than before, display heaven shocking potential.

"Is the world itself interfering? Heh heh, regardless of whether this is the case or not, this youngster's fate really is full of misfortune." A supreme being said with a faint smile.

It was because this couldn't be blamed on them, they already did everything they should do.

If in the end, something unexpected really happened to Huang, only a primordial spirit left behind, if the undying kings wanted to see whose responsibility this lied with, it should be Gu Clan's fault.

It was because this really had nothing to do with them. On the contrary, they even did their best to save Shi Hao, helped him ask for phoenix blood, already acting with utmost duty.

Right now, they moved quickly, tearing apart the void, crossing the sky dome, currently hurrying towards Gu Clan's ancient land.

This was the last thing they could try. If there were no results, then Shi Hao was doomed to die.
n//OVe**l**1n

Gu Clan, this was a powerful and mysterious clan, one hand cut down space, one hand cut down time, these two matchless divine abilities their extreme art, as well as what they relied on to sweep through the crowd.

This was an unmatched race!

The clan's members were just as rare as Emperor Clans, reproduction difficult. However, whenever one was created, they would definitely be a terrifying creature.

An expanse of stone mountains shrouded in mist stretched out before them. Even though they weren't tall, hazy and indistinct, they possessed a strange power.

These stone mountains looked extremely imposing, vigorous and domineering, carrying a wave of indescribable secret force.

When they were examined more carefully, these stone mountains just felt a bit too concentrated, as if the power of the great cosmos was stored here.

This was precisely the place this ancient clan resided in, outsiders didn't dare approach, could only stop here.

The supreme beings brought Shi Hao here, wishing to use the Yin Yang Furnace to try to help Shi Hao one last time. Perhaps they could truly defy the world, change this conclusion.

The Yin Yang Furnace was an immortal furnace that carried mysterious colors. It contained yin and yang energies, able to reverse the universe, recreate great natural luck, granting one a life altering opportunity.

The reason why this item was so powerful, the most basic reason was because it contained yin and yang energies.

It was because in this world, all things could be explained through yin and yang.

Stone mountains were everywhere, extremely vast, the area they covered great. Only, it was all shrouded in mysterious mist, no end in sight, Gu Clan's true secrets unknown.

Immortal mist pervaded the air, undying power spreading. The powerful aura and faintly discernible immortal dao aura interwove together; this was precisely Gu Clan's pure land.

The supreme beings were stupefied as soon as they reached the mountain gate. It was because there was already someone waiting there, not surprised at all upon seeing them come.

It was an elder, his white hair carrying bits of gold, figure short. His eyes were like golden lamps, bright and full of expression. This was Gu Clan's supreme being, precisely the one who previously crippled Shi Hao.

"Gu Yi, were you waiting for us?" A supreme expert asked with some hesitation.

"Correct, I've waited for a long time already." Gu Clan's supreme being Gu Yi nodded in reply.

"You... already foresaw that things would be like this?" A supreme being's eyes revealed divine radiance, pressing forward.

"Gu Yi, did you do this on purpose? When you had us seek out phoenix blood, you knew things would be like this?" One of them asked.

"Obviously not on purpose. It was just that I suddenly felt an impulse, sensing something. You all know that my Gu Clan is known to be able to sever space with one hand, time with the other, extremely sensitive towards things related to ourselves, so I naturally sensed something ahead of time." Gu Yi said.

When Gu Yi saw Shi Hao's current condition, he walked over, examining carefully, moreover asking about his experience.

"Heh heh, if it succeeded, then he really would have defied the heavens." Gu Clan's supreme being smiled, shaking his head and saying, "On Imperial Pass' side, the world is flawed. To really reforge a true self here, start from the beginning, how could it be that easy? There will definitely be a rebound!"

He said this with an extremely certain tone, believing that this was quite normal. It was because if any random person could compensate for their true bodies' inherent faults, then that was just too great of a joke, this was what wasn't realistic.

"Making a trip through the Yin Yang Furnace is an unavoidable experience. For this youngster, it might be some good after all this misfortune, truly refining a world shocking unmatched body." Gu Yi said.

He gave the unconscious, blood-covered body gradually becoming ice-cold Shi Hao a look, coming to this conclusion.

"There's no need for an unmatched body. If he can recover, maybe a bit stronger than before is already good enough." There was immediately a supreme being who interrupted.

"It was just a passing thought. Heh heh, if one wants to do that, then the price is just too great. It's not like he is my Gu Clan's heir." Gu Yi laughed.

The others nodded.

"However, even if he was rescued and recovers, I fear that it won't happen overnight. There are some heavenly materials and precious treasures needed." Gu Clan supreme being Gu Yi requested.

According to what he said, now that Huang was crippled to this extent, it was already extremely serious, most likely only the Yin Yang Furnace able to refine him, but there were some rare medicinal herbs and other things that had to be thrown into the furnace as well.

“This is extremely troublesome, things need to be done carefully in order for a precious body to be refined.” Gu Yi said in an extremely calm and collected manner.

Those people all revealed strange expressions, the Emperor Clan supreme being even more so directly saying, “Wasting so much time like this, what are you plotting?”

“Since this is what you all believe, then just take Huang with you and leave.” Gu Clan supreme being Gu Yi said.

Only, how could they leave? Even though they always suspected his motives, right now, only Gu Clan could help Huang overturn the world.

News spread, all clans hearing about what happened, this triggering quite the commotion.

It was because some heavenly treasures were needed, had to be gathered. It couldn't be hidden from those who wanted to know.

Moreover, inside War God Academy, there were many people who personally witnessed Shi Hao become crippled, none of this a secret, news long spreading through the outside world.

Huang was ruined. There were a few clans who previously clapped their hands in joy.

Now, they had to save Huang, this left them in a bit of a mess.

However, those who understood the inside story all went on their way, hurrying to Gu Clan's ancient land, wishing to see what exactly was going on. There were also those who wanted to see Shi Hao's death.

“Even heaven and earth order within his body has been broken, yet he still wants to recover? Stop dreaming, being crippled like this is just fine!”

In the other side, there definitely weren't many who wanted to see Shi Hao recover.

Several days later, the rare medicinal herbs Gu Clan supreme being Gu Yi asked for really had been gathered, brought out by a few supreme beings and others' joint efforts.

Of course, during this process, a few other things also happened. For example, many experts came, including supreme beings and even undying beings who were paying close attention.

Among them, there was naturally no lack of great clans' men, as well as some private transactions done!

“Yin Yang Furnace, even though it looks like it is one body, it is divided into yin and yang, two furnaces. We don't have any other requirements, we only ask for the yin furnace for our grandson, for him to be refined with Huang, is this possible?”

These were the words of an Emperor Clan supreme being, extremely straightforward. They brought over some rare great medicines this time that could save Huang, but this was also to help his own grandson.

"This won't do, this time, the yin furnace has been arranged for a Gu Clan child. How could this chance be given to outsiders?!" Gu Yi firmly refused.

There were others who passed by, especially another supreme being who heard a bit, immediately becoming shocked.

"What is going on?" He couldn't help but ask.

"They are fighting over natural luck. Gu Clan really isn't sincere and honest." That Emperor Clan supreme being said with a cold expression.

"En?" Along the way, there were other supreme beings who carried doubts.

"When Huang's body was reconstructed, many natural laws and divine chains of order broke within his body, this is a great opportunity." Emperor Clan supreme being said coldly.

When they thought more about it, the supreme beings who passed by understood. If it was a normal person, they would have long died, turned into bloody mist. The fact that Huang's ruined body could hold those natural laws and order was completely because there were some great experts at his side, helping him seal his body.

He was now sent here, if he was refined in the Yin Yang Furnace, those divine chains of order and other things that were broken had astonishing value!

"Gu Yi, did you do these things on purpose? Did you long foresee that it would be like this?" A supreme being shouted.

"Definitely wasn't on purpose." Gu Yi shook his head.

Right now, the true Yin Yang Furnace was brought out, many people watching over this place. They brought it to a stone valley surrounded by mountains.

Not only was there chaotic energy here, there was true undying fiery light. This stone valley was extremely special.

"Throw the medicines into the furnace!" Gu Yi ordered. The refinement was about to begin.

As for Huang, he had long been placed inside the Yin Yang Furnace.

Chapter 1584 - Consensus

Stone Valley wasn't that large. Even the ground was made of stone, hard and cold, carrying metal-like luster.

"Gu Yi, if you don't give us a complete explanation on this matter, I fear that we will not be able to continue with it." A middle-aged man said.

His status was high, originating from an Emperor Clan, Anlan's descendant. He had previously tried to negotiate with Gu Yi, wishing for his grandson to be sent into the Yin Yang Furnace with Huang.

Gu Yi was extremely firm, not willing to yield before, while now, this middle-aged man was also quite forceful, not saying too much, directly arriving in the valley to stop this.

The others were shocked, revealing strange expressions.

Heat surged in the stone valley, rising from underground. Moreover, those stone mountains all around them also released terrifying heat, already forming extreme fiery light.

In summary, this place was extremely special, temperature terrifyingly high. Normal creatures could completely forget about entering, or else they would be refined away on the spot.

That was why those who entered the valley were all extremely important, even the weakest needing Self Severing Realm strength.

“Cough, I also feel like it is best if some things are cleared up.” Another middle-aged expert said. Everyone was a bit stirred up, because this was a creature from the Scarlet King bloodline.

This wasn’t all, then there were three or four supreme beings who spoke up, demanding an explanation from Gu Clan, their expressions all rather cold.

A few people were moved. Even Gu Clan felt the pressure increase!

It was because the ones who voiced their opinions all came from Emperor Clans, moreover all supreme beings, hurrying over not long ago. They naturally didn’t fear Gu Clan, even if it was inside of their ancestral land, they still acted similarly forceful.

Stone Valley became extremely quiet, the atmosphere a bit tense.

The Yin Yang Furnace was at the center of the valley. It looked rather indistinct, floating up and down, rising and falling, surrounded by primal chaos. Huang was laying inside. This furnace contained great dao energy.

It was clear that the refinement process was interrupted, temporarily stopped.

A few people’s eyes released light, not expecting for there to be interference at the final juncture. Now that Emperor Clan experts spoke up, no one dared to not pay their words great attention, especially when their opinions were identical.

“When there are too many people, it is easy for there to be problems.” Gu Clan’s elder Gu Yi said.

The others didn’t understand his intentions, but the Emperor Clans did. The so-called ‘too many people’ was them trying to seize the quota, wishing for their descendants to enter the Yin Yang Furnace, be refined together.

“It’s fine, we have some preparations.” The middle-aged expert, Scarlet King’s descendant said. He was someone from an Emperor Clan, always acting forcefully. His eyes were cold.

Of course, the so-called middle-aged was his outer appearance, his true age was hard to see through. His incredibly deep eyes displayed that he definitely lived for an extremely long amount of time.

“This way!” Gu Clan’s elder Gu Yi narrowed his eyes, inviting the great Emperor Clan supreme beings to the side, wishing to discuss things in more detail.

It was clear that he had to compromise, and all sides needed to pay up, or else there was nothing worth talking about, nor was there any chance of success.

“Yin Yang Furnace, this is an unmatched supreme treasure! Should the conditions permit it, even great dao natural laws can be captured, and then broken down. I can agree to let dao brothers’ descendants in, but the materials needed will be extremely heaven-defying.”

These were Gu Yi’s words, extremely direct, and also extremely simple.

At this point, he didn’t refuse, instead having the Emperor Clans find a way, search for all types of rare great medicines, satisfy those extremely severe conditions.

After arguing once more for a bit, in the end, both sides nodded, reaching a consensus.

The Emperor Clans were extremely efficient, all domineering individuals. When negotiating, if they could do it, then they could do it, if they couldn’t then they couldn’t. These individuals could still be considered to be satisfied, they returned to Stone Valley again.

The Yin Yang Furnace was rising and falling. Huang had long been placed inside. Apart from this, there was quite a bit of medicinal herbs, ores, and other things. However, they didn’t seal the furnace opening.

“We are going to fetch the heavenly treasures.” Anlan’s descendant, the middle-aged Emperor Clan expert said.

Several streaks of light left into the distance.

The others’ pupils contracted. What were they going to do? Just now, there were already many divine objects placed inside the medicinal furnace, why were they going to get more?

Of course, the supreme being level figures already knew what was going on, but unfortunately, apart from the Emperor Clans, the others had no way of haggling with Gu Clan, no way of obtaining opportunities for their own descendants.

The same day, several youngsters arrived in Gu Clan’s ancient land, all of them brought by older generation figures.

Of course, there were even more shocking heavenly treasures!

Yu Yu, Wu Kun, Qing Kun, the three of them were all here. Apart from them, there were there young experts who came, all of them Emperor Clan heroic talents.

Six young emperors!

When everyone understood what was happening, they all felt jealousy, especially the younger generation, their eyes becoming red. It was because for the six young emperors, this was a great opportunity.

He Ziming was also in this group. He looked at those people, releasing a light sigh. Even though his ancestor He Wushuang was extremely powerful, aptitude shocking past and present, in the end, he was still a bit behind, not becoming a king.

The so-called half king, was destined to become the highest level of existence, but still needed some time before becoming an Emperor Clan. n//Ov**el**1n

He Ziming believed that he could definitely compete with the Emperor Clan's younger generation. However, right now, he had no way of participating, his ancestor was still in seclusion, the other seniors couldn't come to negotiate, obtain a spot for him.

In reality, the one feeling regret wasn't just him, there were still many others.

Soon afterwards, ordinary cultivators also knew what was going to happen in Gu Clan's ancient land.

"The Yin Yang Furnace looks like it is one body, but it is actually divided into yin and yang, two furnaces. When Huang is placed inside the Yang Furnace, the other youngsters will be in the Yin Furnace, seize natural luck like this."

When these news spread, how could everyone remain calm?

Stone Valley was full of people, all of them experts, at the very front naturally Emperor Clans and others, watching that precious furnace attentively.

Wu Kun, Yu Yu and Qing Kun already entered the furnace, occupying favorable spots, sitting down in the furnace, opposite of where Shi Hao was.

Then, two males and one female, similarly from Emperor Clans entered, all of them outstanding individuals from the younger generation.

"That's Chi Menghong!"

Someone recognized Chi Menghong from the three who entered later, Scarlet King's descendant. He was exceptionally powerful, previously cultivated for a period of time on Immortal Platform Mountain.

Generally speaking, the six great Emperor Clans favored male descendants, or else there wouldn't be only a single female among the six young emperors.

"We can only say that they are lucky, their cultivation realms just happening to be close to Huang's. Otherwise, it might not be them who enjoy this natural luck." Someone outside said in a low voice.

Now, there were some people who completely understood what was going to happen.

The six young emperors all entered, their cultivation realms similar, perfect for refining in the same furnace.

"Wa, that's a Tribulation Crossing Divine Lotus!"

Someone cried out in shock. This was just the beginning, yet an Emperor Clan threw a divine medicine inside. That divine lotus shone with golden light, extremely dazzling, releasing a rich fragrance.

Then, the middle-aged man from Shutuo's bloodline threw more rare divine objects inside. Not only were there divine medicines, there was even a piece of rare ore material.

"Heavens, that's a King Blood Stone!" Someone said, completely stupefied.

The one from Shtutuo's bloodline also threw in a dark red rock. At first, it was a blood red, then, it released five-colored brilliance, full of undying aura.

This naturally shocked everyone. There were creatures who recognized that this was a stone soaked in an immortal king level expert after he passed away.

“Heavens, those are Year Fruits!” Another person cried out in alarm. It was because inside the Yin Yang Furnace, there were a few fruits added, cast in by Scarlet King bloodline’s creature.

This thing, for people whose lifespans were nearing its end, was a priceless treasure. It could prolong one’s life, grant life from death, thus given the name Year Fruit.

Just like that, from time to time, a few rare medicinal herbs and ores were thrown in. The furnace was full of brilliant colors, carrying immortal energy.

The six young emperors sat inside, not moving at all, quietly waiting for the great dao imprints to be refined.

They looked much more vigorous than Shi Hao, because Huang was lying down right now, not moving at all. His injuries were just too severe.

Before the Yin Yang Furnace was sealed, another young man walked into the furnace.

“Who is this? Is he on par with the six young emperors?”

“That’s Gu Clan’s Gu Hong, supreme being Gu Yi’s own grandson, his talents exceptional!” Someone said with a low voice.

Gu Hong had a medium build, his expression calm, light golden long hair releasing bits of blood color. His entire being was extremely collected as he walked into the furnace.

“Gu Hong is extremely powerful, not weaker than the six young emperors, a formidable genius.” Someone said.

Kuangdang!

The furnace lid was completely sealed, no one able to enter now.

“Burn!”

At the same time, Gu Clan’s old supreme being Gu Yi released a light shout, only saying a single word: Burn!

Immediately afterwards, everyone backed up, walking towards the valley entrance. Only the supreme being level experts remained here, able to resist the heat.

It was because the entire valley surged with divine flames, pouring out from the stone mountains, also rising up from underground.

This was a flame valley, producing extraordinary flame dao power suitable for medicine refinement, used for heating the Yin Yang Furnace.

“What exactly is this for?”

Even though many people guessed already, there were still some people who were confused. It was because they had just arrived here.

“You’ll know if you just watch. Sigh, from today forth, the six young emperors are likely going to be raised by another notch. This is seizing Huang’s fortune and natural luck!”

“There’s also Gu Clan’s Gu Hong, should be seven young emperors.” Someone corrected.

Chapter 1585 - Six Young Emperors

Someone shook their heads and said, “On the same level as Emperor Clans, Gu Clan is extraordinary, but in the end, they still aren’t an Emperor Clan.”

Some people believed that calling it six young emperors was not bad, but adding Gu Clan would seem a bit strange.

Hong!

Stone Valley trembled, the fiery light becoming more and more brilliant, burning fiercely, about to swallow up that Yin Yang Furnace. Divine multicolored light shone, the temperature terrifyingly high.

This wasn’t a man-made dao flame, but rather something that existed to begin with in the Stone Valley. Now, with a bit of trigger, flames surged.

There were all types of sayings in regards to the fiery light here.

There were some who believed that this was a dao comprehension holy land, tangible great dao traces buried within, merging with the underground rock flames to form dao flames.

There were others who believed that back then, the Gu Clan ancient ancestor, which was also the existence who had fought with the True Dragon, previously refined medicine here year round, also comprehending the dao here. Stone Valley engraved his dao here, supporting the most powerful dao flame.

The Yin Yang Furnace rose and fell, rising and falling like it was in water.

In reality, it was in midair, a set distance from the ground. It endured the burning of dao flames, refining the essence of all types of precious medicines and other things.

This furnace was extremely mysterious, at the same time, it was exceptionally powerful. It was brought over from Imperial Pass’ side, becoming Gu Clan’s supreme treasure.

Even in the entire foreign side, this furnace was ranked high, one of the few supreme treasures that moved even undying kings. If not for taking in Gu Clan, they would have long slaughtered their way over to seize it.

By the valley entrance, there were many people who looked over, wishing to see this furnace clearly.

Unfortunately, it was extremely blurry, surrounded by dao laws, wrapped within order and regulations, hazy and indistinct. Its simple and ancient appearance carried a type of grand aura.

It endured the corrosion of endless time, received the great dao baptism of countless experts, not breaking after repeated refinement, imperishable after innumerable trials, witnessed too many great battles.

It could refine medicine, but no one saw it as purely a medicinal furnace, the reason just because it was too strong.

Unfortunately, after a larger half of a great era passed, this furnace had never been moved, could only be placed in this valley, because it was related to Gu Clan's prosperity and decline.

It was because it was rumored that this clan's great ancestor was still alive, but this furnace was needed to hold his body together. It was rumored that he was buried right here.

Inside the valley, everyone was discussing spiritedly, many of them talking about this supreme treasure.

When everyone saw it for themselves, this place became abuzz with noise, a few rumors all revealed.

"It is rumored that Gu Clan's great ancestor was only a bit off from becoming a matchless immortal king. In the end, someone interfered, and as a result, even now, his life can't be ensured."

"Who was it? Don't tell me that it was my world's..." Someone said quietly, expression long changing. When he spoke up to here, he didn't dare continue.

"No, it was an injury received from Immortal Ancient, there are other hidden details. Otherwise, Gu Clan might not have necessarily defected to my side."

Gu Clan's elder Gu Yi's expression immediately fell. This was Gu Clan's old wound. A matchless king's path was stopped by someone, the effects of this too great.

Even though so many years passed, the clan still didn't want to talk about this.

"All of you better shut your mouths!" Gu Yi said coldly, killing intent surging. At this moment, even the Emperor Clans didn't want to get involved, let alone those other people.

That was why the valley entered a momentary silence, no one mentioning this topic again.

In the furnace, Shi Hao revived, his consciousness already awake. Otherwise, if he was refined without any awareness, he might just be refined into gruel.

Meanwhile, during this process, not only did he discover that there were other creatures here, he was also aware of the situation outside, hearing some of the discussion.

Shi Hao was extremely shocked. Gu Clan's betrayal seemed to have a story behind it. Who was it that stopped the king path of this clan's ancestor?

He didn't have much time to think about this, because his body was in a dangerous situation, he had to focus all of his attention on withstanding the suffocating pressure the yin and yang energies released.

The Yin Yang Furnace's furnace wall was simple and unadorned, but it released a strange type of power, as if it was going to completely break him down!

Apart from this, there were two types of energies surging, covering everyone in the furnace.

Shi Hao's situation was extremely complicated. There were Emperor Clan experts who applied seals, or else his body would have exploded a long time ago, body and soul extinguished.

He carried the traces left behind after the perfect great dao fractured, all types of 'broken chains of order'. These things were enough to end his life!

Fortunately, the seals left behind by the supreme beings were still there. After he was placed in the furnace, the Yin Yang Furnace began to carry out a targeted refinement.

Hong!

Immediately afterwards, Shi Hao felt incomparable blazing heat. It was full of a domineering aura, his entire being ignited, wrapped within dao flames.

The Yin Yang Furnace could be divided into the Yin and Yang great furnaces. Now, the effects were clearly displayed.

Shi Hao discovered that he was in one end, while the others were on the other side. Even though it was a bit crowded, they didn't come over.

He was in the Yang Furnace, while the others were in the Yin Furnace!

It was obvious that that side wasn't blazing hot like this, perhaps blazing hot wasn't enough to describe this type of temperature, because Self Severing Realm experts might be turned into ashes at every turn. There was yin energy covering the other side, the temperature of the yin furnace could be endured.

Shi Hao was being refined, his body in the yang furnace, bearing the brunt of the heat!

It was because when the Yin Yang Furnace operated, it began from his side.

Moreover, dao flames burned, producing yang energy first, activating his side.

When he was being burned, the divine light within Shi Hao's eyes was deep. While enduring the roasting of the yang energy, he observed the situation of the people on the other side. nove)/b)In

Wu Kun, Yu Yu, Qing Kun, these three he recognized. He had also seen Scarlet King's descendant Chi Menghong before on Immortal Platform Mountain.

Apart from this, Gu Clan's young expert Gu Hong was someone he knew, he previously chased after Shi Hao with the Fearless Lion and another Emperor Clan youngster in Divine Medicine Mountain range.

The other Emperor Clan youngster was named Suo Gu, Shutuo's descendant, also here, inside the Yin Yang Furnace!

Wu Kun, Yu Yu, Qing Kun, Chi Menghong, Suo Gu, as well as Gu Hong, he had seen all of them before. That was why there was only one young lady who Shi Hao didn't recognize, she was one of the six young emperors.

Dang!

Suddenly, it was as if the Yin Yang Furnace had been smashed into, a tremendous noise sounding. At this moment, it was no longer like a furnace, but instead like a golden bell's great sound, so loud even the deaf could hear, everyone alarmed.

Then, dao aura spread. As the tremendous noise spread, everyone in the furnace entered a wondrous state of dao comprehension.

This supreme treasure furnace body was extraordinary after all!

Kacha!

This was caused by the Yin Yang Furnace. It was drawing out the secret force within Shi Hao's body.

Hong!

A great dao aura spread. After the perfect dao laws broke apart, markings and other things were left in his body. At this time, they completely revived.

The Yin Yang Furnace could divide all things into yin and yang, two energies, able to interpret everything. Now, it completely refined Shi Hao, the same as adjusting and analyzing those dao laws.

This was a type of mysterious transformation. Shi Hao's area immediately became hazy, his entire being surrounded by a sphere of energy.

"This is those children's opportunity!" In Stone Valley, Gu Clan's elder Gu Yi said.

A few people nodded, those who understood the situation all knew what was going on in the furnace.

Yin Yang Furnace, it could decide the universe, able to derive the great dao through yin and yang energies. Right now, it completely analyzed those divine chains of order and other things that were broken in Shi Hao's body.

Complete dao laws were broken, leaving behind the truest great dao traces!

Meanwhile, all of this was stored within Shi Hao's body. This wasn't easy at all, normally speaking, he should have been destroyed back then. It was all because there were some supreme beings there that he was quickly sealed.

These were great dao traces that were hard to find in this world. Right now, they were refined by the ancient furnace, completely interpreted.

On the other side, the six young emperors opened their eyes, staring at Shi Hao without blinking, simultaneously waiting for the 'nurturing' of the yin and yang energies!

It was because the traces on Shi Hao's body were being broken down by the supreme treasure, allowing them to obtain and possess them!

The complete dao laws of this world, they were naturally going to use this to refine their true bodies. However, their understandings of the dao were different, which was why it was impossible to completely grasp it.

Now, they had the chance to browse the things hidden within the great dao traces through this supreme treasure.

This was equivalent to listening to the highest level existence lecture on scriptures, as well as intimately making contact with the world's great dao, personally touch it.

This was definitely heaven-defying natural luck!

That was why their seniors were moved, seeking opportunities for them, sending them into the furnace.

“Focus, carefully experience all of this. This is like the heavenly dao lecturing on scripture itself, all of you need to carefully listen!” An Emperor Clan supreme being in the valley shouted.

Inside the furnace, all types of divine medicines broke down, the King Blood Stone and other ores being refined as well, medicinal nature abundant, breaking apart, nurturing everyone.

Hong!

Yin and yang energies swirled, the two inner furnaces resonating, forming a mysterious connection. The six young emperors and Gu Hong shook, listening to the great dao, their insights extremely deep.

Apart from this, they also had a type of expectation, wishing to see Shi Hao’s own dao, use the Yin Yang Furnace to interpret Huang’s dao and techniques, seize his natural luck.

The Yin Yang Furnace was, without a doubt, heaven-defying. Once it resonated, yin and yang energies would form a bridge in understanding all things. Perhaps it really might help these people understand Huang’s path.

This was what those supreme beings in the valley were hoping for. They sent their younger generation in precisely with this in mind, having them walk through Huang’s path, not to imitate, but rather to use as reference, use this to perfect their own bodies, thus become even more glorious.

Chapter 1586 - Yin Yang Reversal

Yin Yang Furnace, it continued to shake back and forth, rising and falling in Stone Valley, drawing out heaven and earth natural laws. It was surrounded by the heavens’ divine chains of order.

Right now, it looked extremely divine.

Everyone watched nervously. If they succeeded, then the youngsters in the furnace would obtain extremely great benefits.

This made them couldn’t help but sigh. The Yin Yang Furnace was worthy of being a supreme treasure, moving even undying kings.

Dang!

The furnace shook once more, its sound long and drawn-out, ringing like a great bell, dao sounds rumbling. Everyone was inwardly shaken, some people even directly sitting down, wishing to comprehend the dao.

This ancient furnace was too mysterious, possessing immeasurable might, able to change everything.

Yin and yang energies swirled about, wrapping around the furnace body, continuously rising and falling in the air, great dao aura becoming more and more rich, even supreme beings long moved.

More and more people sat down, comprehending the dao here!

It was extremely quiet outside the valley, no one saying anything, all of them feeling like this might be the number one supreme treasure. At the very least, it gave them a feeling of being incomparable.

Xiu!

Inside heaven and earth, streak after streak of purple energy rushed past, this was great dao that was falling, appearing in tangible mediums, for example, blossoming as lotus flowers and indistinct scripture sounds.

The aura became more and more grand, drawing everyone's attention.

Only, quite a few people coughed out blood, their bodies shaking, wounded by dao sound.

The valley entrance was in disorder.

Even when supreme beings secretly comprehended the dao, they felt an intense pain in the space between their brows, quickly stopping and calming down, not daring to immerse themselves in this again.

"Everyone, be careful, do not try to harmonize with the Yin Yang Furnace. It is deriving the great dao, extremely dangerous during this process. Even though it has guided down natural laws of the heavens, it isn't suitable for everyone to comprehend." Gu Clan's elder Gu Yi warned.

He knew that even though the Yin Yang Furnace looked calm right now, divine and ancient, in reality, it was dangerous. At the very least, those outside couldn't touch it.

Right now, the Yin Yang Furnace was wrapped within natural laws, becoming more and more hazy. However, each time it shook, everyone's souls would also tremble. That type of aura could simply destroy heaven and earth.

Right now, even the Emperor Clans' supreme beings' expressions became grave, seriously warning everyone not to approach, that they have to withdraw further back.

No one remained in the valley, even Gu Clan's experts all withdrawing, so there was naturally even less a need to talk about the others.

Inside Stone Valley, it was as if thunder erupted. Chaotic energy surged, roiling forth, large amounts of natural laws interweaving, clashing with each other, forming a terrifying scene.

Chi!

The sun and moon trembled, heaven and earth cracking apart.

Soon afterwards, a screen of light surged within the mountain valley, as if it was about to tear apart the sky dome. Just a single shake from the Yin Yang Furnace created such a terrifying irregular scene.

"Don't worry, the mountain valley is the resting land of the precious furnace, it won't destroy this place, nor would its effects leak out." Gu Yi said.

It was because those people's faces all became pale. That type of power was too great, if it truly erupted, it would definitely be able to hack down the stars and moon, break through this ancient land.

Right now, everyone understood why even though the Yin Yang Furnace carried great natural luck, able to bring down the natural laws of the heavens, outsiders still shared no fate with it.

There might even be dangers inside of it.

“Everyone, please do not worry. This is their opportunity, if they fail, then it can only be said to be decreed by fate.” Gu Yi said calmly, extremely open-minded.

The Emperor Clans were all silent. He said this easily, but one had to understand that the disciples of Gu Clan really were extremely few, the death of any one of them a great loss.

Inside the furnace, it was indeed much calmer than outside, because yin and yang energies swirled, neutralizing everything. It was precisely because of the existence of the two energies that the world’s great dao was seen through.

Dao to one, one to two, the so-called two could be derived with yin and yang. With it as the guide, this was why it could then touch upon the world’s complete great dao.

This was precisely where the Yin Yang Furnace was heaven-defying!

Of course, after experiencing the nourishment of the experts of history, this furnace became more and more calm, increasingly suitable for comprehending the dao and cultivation.

Inside the furnace, Shi Hao still couldn’t move, but his body was undergoing an intense change. The precious furnace shone, sealing his body, resonating with the great dao traces inside his body.

Honglonglong!

Immediately afterwards, his body began to turn about, rotate in the furnace.

At the same time, Yu Yu, Wu Kun, Chi Menghong, Suo Gu and others also began to rotate, moved about by the precious furnace, surrounded by yin energy.

The furnace shone, becoming almost transparent like divine glass, forming a yin yang vortex, spinning at extreme speed.

Soon afterwards, yin and yang energies winded about each other, shaking while carrying them.

noVE/lb-1n

Kacha!

A breaking sound rang out from within Shi Hao’s body. The divine chains of order and other things that had previously broken apart within him were activated, starting to shake, producing a change not even he understood.

Honglong!

At the same time, the furnace became more and more brilliant, guiding down those complete natural laws from the outside world, making them descend onto this place.

Now, the grand scripture sound was clear, at the very least, for the people inside the furnace, it was just that close, within arms reach.

Qing Kun, Gu Hong, Yu Yu, and Chi Menghong were shaken, immersing themselves within. They knew that their benefits this time were extremely great, truly succeeding.

This was an interpretation of the great dao, the incarnation of various natural laws. It was fully presented before their eyes under such close distance, granting them a profound comprehension experience.

Streak after streak of light appeared, broken down by yin and yang energies. Those were streak after streak of great dao laws. If they interwove together, with just them alone, there was no way they could completely sense it, yet here, it was completely different, becoming much simpler.

Inside Shi Hao's body, sounds of things breaking apart rang out continuously. Those great dao traces were being touched, resonating with the natural laws that were guided over.

This was precisely the reason why the Yin Yang Furnace could be analyzed even better, able to explain the great dao.

"Seed!"

The eyes of those in the furnace erupted with brilliance, seeing the great dao traces within Shi Hao's body. Turns out after the broken things condensed, they formed a seed-like object!

No wonder the Yin Yang Furnace trembled, pulling and drawing again and again. It was precisely for granting this seed a turning point, for analyzing the great dao.

Unfortunately, they were limited and restricted by their age and cultivation realms, unable to completely understand it. Listening to great dao scriptures, comprehending natural laws of the heavens, all of this was only temporary.

Needless to say, these things would disappear soon, they couldn't grasp it for a long time.

Not even Huang was enough, he was lucky enough to not die, obtaining the help of the supreme beings, temporarily having those great dao traces sealed. Meanwhile, right now, the Yin Yang Furnace shook, completely breaking the seal, so those things were definitely going to scatter apart.

Honglong!

Outside the precious furnace, natural laws completely seeped in, carrying out a nourishment with Shi Hao as the seed, natural laws as water, all of this gathering together, continuously releasing a great energy.

Ah...

Shi Hao screamed out. This power was too terrifying, making his entire body break apart inch by inch. Great dao crushed down, completely entering his body.

The so-called seed was nothing more than a primer, triggering this terrifying situation.

The entire world seemed to be crushing down on his body, the weight unimaginably great!

Pu!

Shi Hao's body cracked apart, as if he was struck by an immortal hammer.

The phoenix blood within his body appeared, turning into fiery light, burning fiercely, making his body revive, recover.

Only, these great dao traces shone, guiding even greater power, blasting him apart once more, breaking his bones into who knew how many pieces.

"He came from a different world, yet wants his true body reconstructed, guiding down the great dao to refine himself, how can it be this simple? It is the same as starting over from scratch, ninety-nine percent chance of death." Gu Yi said calmly.

The supreme beings nodded, because in the past, there were those who came from Imperial Pass, secretly entering, hoping to reforge themselves with this side's perfect natural laws, hoping to become even stronger.

Normally speaking, they could obtain quite the benefits, but if they wanted to completely reforge their true self, start all over, all those who tried died. After growing up in the other world's great dao, if they wanted to transform themselves like this, completely reconstruct themselves, this was just courting death!

Now, Huang encountered precisely this kind of predicament!

Shi Hao deeply sensed how difficult this was. He released a light sigh, to completely reforge himself, if he did it step by step, it would indeed bring great benefits. However, if he wanted to completely change himself, then... it was too difficult!

Hong!

An expanse of dark light surged, wishing to enter and destroy Shi Hao.

This was a component within the phoenix blood, rumored to be the root of why the Blood Phoenix fell back then.

In that instant, Shi Hao was submerged in dark light, becoming pitch-black once more. Meanwhile, he was ripped apart again, the transformation failing precisely because of this type of dark light.

Now, it appeared again.

Yin and yang energies swirled, quickly interweaving.

Not far out, those people's expressions changed. Now, this type of dark light appeared even in the yin yang vortex, making all of them feel threatened.

The Yin Yang Furnace was also moving, suppressing the dark light, cutting it apart, making it grow dim.

Then, Shi Hao's body revived under the phoenix blood, and then broke apart under the great dao once more, this cycle repeating itself continuously.

This was an extremely terrifying process, the amount of suffering unimaginable.

During this time, dark light appeared from time to time, because it was mixed in the phoenix blood, unable to separate the two.

"In this type of situation, if he wants to absorb the phoenix blood, possess the True Phoenix recovery ability, it is just too hard..." A supreme being said.

Peng!

Inside the furnace, Shi Hao could finally move again, his body repeatedly cycling between being destroyed and reconstructed. He immediately sat up, entire body covered in blood, resisting it there.

"Cut!"

After who knew how much time had passed, he released a short shout, forcing the phoenix blood and dark light out from his body without hesitation.

"Yi, that's not normal emperor blood, it might very well be a drop of ancestral blood. He is giving up on it just like that?" Someone said in shock.

The value of this drop of blood was immeasurable, unimaginable. When the Blood Phoenix Clan gifted it out, even they felt inwardly sore, let alone how precious it would be regarded if those of other clans obtained it.

However, Huang gave up on it just like that.

For Shi Hao, this wasn't his blood. Even if he merged it into his body, it would be hard to truly merge it within him after a long time had passed. He didn't want other corrupted blood to be inside of his own body.

His path was extremely pure. He wanted to transform himself, this way, his blood would be incredibly pure, not mixed with other so-called rare ancient blood.

If the phoenix bloodline's precious technique was here, he would study it without any hesitation, but directly absorbing it into his blood, having it mix together, this wasn't something he wanted.

It was because he was worried, fearing that this drop of seemingly perfect ancient blood would become a flaw in his path of cultivation in the future.

Of course, this was if there was a future, if he could live... otherwise, absorbing it or not was both meaningless.

However, this time, this drop of phoenix blood indeed displayed great use, helping Shi Hao activate his vitality, allowing him to recover.

Chapter 1587 - Success

Right now, Shi Hao's body was in tatters. He was crushed by the great dao again and again. However, he endured it all, withstanding it with everything he had.

Shi Hao was slowly recovering, treating this as the most difficult trial.

He entered the other side, always wishing to reconstruct his true body with complete dao laws. Now, the goal was in sight, currently being carried out.

If one wasn't born here or cultivated in this world, it was hard to receive the approval of the world. Normally speaking, forcefully transforming was simply a road of death.

Meanwhile, Shi Hao first experienced the refinement of phoenix blood on Immortal Platform Mountain, having his body tempered this way, and now, he was reforged once more in the Yin Yang Furnace, it could be said that he was gradually having his wishes fulfilled.

"This child is not simple... he really is about to succeed." Gu Yi said, eyes erupting with brilliance, surging like torches. He stared at the center of Stone Valley.

"Wu, the benefits the other children obtained are similarly great, able to hear the great dao, also having their true bodies reforged once. In the future, their accomplishments would become limitless." An Emperor Clan supreme being said with a smile.

This time, they all succeeded, it could be considered a win-win situation.

Yu Yu, Gu Hong, Wu Kun, Chi Menghong and the others were struck by dao light repeatedly, moving with the yin yang vortex, every one of their bodies releasing gaba gaba noises, their precious bodies reconstructed.

They were born in this world, previously experienced all of this before, but this time, it was deeper, more powerful than before! n-.o-(V-/e(/ℓ-)&))1.(n

Everything was because of Huang's existence, they were able to profit because of him, gain another type of experience.

Apart from this, they also seemed to be comprehending the dao here, gaining experience in many things that were previously difficult to understand. Their return this time was too great.

No matter who it was that was covered in great dao order radiance, they would always gain shocking and profound insights.

Shi Hao was recovering. He didn't care how things were going for the other individuals, this was this world's great dao to begin with. He was going through a trial, borrowing it to refine his true body. He didn't try to stop the others from gaining benefits.

It was because these people were more familiar with this world and its great dao than him.

"If I sharpen myself further in different places, wander different ancient worlds, perhaps I can undergo an unimaginable transformation." Shi Hao thought to himself.

Even though he wasn't completely freed from danger yet, he still had a few thoughts.

The Nine Heavens' side could be considered a damaged world, while this was a complete great world. Now, he experienced both.

The world may change, but his true self is eternal. Shi Hao was greatly moved!

“Even the complete great worlds have the day where they might be ruined or destroyed, for example, the Nine Heavens Ten Earths. If one used it to achieve the dao, grow up in that side, there will be many problems.”

At this moment, Shi Hao clearly realized that his true body was what would exist forever, all other things had a day when they would collapse. If he wanted himself to be imperishable, he had to start with his own self.

Using the body as the seed!

Right now, he deeply experienced what was the most important. Even if he was in the other side right now, about to successfully take in this world's natural laws, reconstruct a true body, he was no longer that excited.

“I will seek the dao from within myself!”

Right now, Shi Hao's condition was becoming better and better. The Yin Yang Furnace rumbled, protecting everyone in the furnace, releasing yin and yang energies, allowing them to safely transform.

Shi Hao carefully tested things out. His cracked forehead recovered, primordial spirit stabilized, frontal bone sparkling. His entire body received an instance of refinement.

In the end, the power of natural laws seemed to no longer be that crazy, wouldn't injure his body.

“The heavens' natural laws have withdrawn, about to scatter.” Outside the valley, someone released a light sigh. The scene of the great dao falling was too shocking, it couldn't be maintained long term.

This type of opportunity was only temporary, the amount those in the furnace comprehended would just be that amount, no more, no less. At the very least, recreating the true body would be enough, this was a type of natural luck.

Chi!

Suddenly, Shi Hao sensed danger. Someone in the furnace wanted to take action against him, a mysterious aura rushing over, wishing to understand the secrets in his body.

“En?” Outside the mountain, Gu Clan's expert Gu Yi's expression fell. He then turned to look at an Emperor Clan supreme being, saying, “Someone came with an undying decree?”

Inside the furnace, someone activated a mysterious decree, stirring on the ancient furnace once more, making it continue operating.

This furnace was extremely mysterious, how could a normal person operate it?

However, Emperor Clans were extraordinary, handled too many secret treasures. There was a weapon control decree engraved by an undying being, wishing to momentarily grasp the furnace, have it continue.

Meanwhile, this time, the furnace's target was still Huang, but it was no longer that gentle, but instead domineering, wishing to forcefully seize the various dao traces and others in his body.

"I heard this younger generation is a bit extraordinary, succeeding with body as a seed. Why don't we take a look to see what really happened?" Outside the valley, an Emperor Clan supreme being said.

"We can." The others nodded.

When Gu Yi heard this, his expression became a bit cold, saying, "This is my clan's supreme treasure. However, I am not opposed to giving it a try."

He nodded, so there was naturally no issues.

Hong!

Yin and yang energies locked Shi Hao in place, wishing to learn of all of the secrets in his body.

"Haha... after gathering heavenly law, our own paths have been perfected!" Yu Yu laughed loudly. It was precisely him who brought the decree inside.

In reality, Chi Menghong already wanted to take action, wishing to directly kill Huang, even more extreme than Yu Yu.

There were others who carried cold intent, wishing to take action, but now, they all stopped, wishing to see the various secrets in Shi Hao's body.

Weng!

The furnace moved. At first, it still released great dao divine sound, but in the end, light overflowed inside, making everyone's hearts pound. Then, they were all ripped apart, the scene horrifying.

"No!"

Outside the valley, the faces of this group of experts all turned pale with fright.

Dang!

Immediately afterwards, the furnace lid flew out, quickly opened by a supreme being. They rushed over to provide assistance.

A few people fell out, all of their bodies in tatters, even broken, covered in blood. It was an appalling sight, all of them seriously injured.

They all suffered a great disaster, almost dying inside.

"How could this be?!" Someone released a roar. If something happened, the so-called six young emperors turning to ashes, then nothing would remain.

"The Yin Yang Furnace has life, it doesn't wish to be restricted by the decree. Apart from this, it isn't omnipotent either..." Gu Yi said.

It explained some things. The Yin Yang Furnace had its own will. Even if an undying being's decree appeared, it couldn't control it and would instead be restricted.

The decree shattered.

Apart from this, Yu Yu's body had long been broken into two, injuries the most serious.

There was something else that Gu Yi didn't say, because there was no need for these people to understand the Yin Yang Furnace's secrets.

The Yin Yang Furnace was cast in the Nine Heavens, and it had existed in this world for many years as well. It was extremely familiar with the dao laws of both worlds, which was why it could deduce and figure out some things.

Meanwhile, even though that young man was still weak, not fully growing, he used the body as the seed. This seed was entirely different, couldn't be seen through.

That was unless the Yin Yang Furnace carried him for endless years, also studying and learning about him, only then would it be able to fully comprehend his existence.

"We should know when to be content. They were refined together with Huang, all had their true bodies reconstructed, becoming stronger than before, the benefits they received not small." Gu Yi said.

The supreme beings entered the valley, carrying their respective descendants in their hands, quickly examining them, fearing that they might have received irrecoverable great dao injuries.

"It's not too bad, can still be healed." Someone released a breath of relief.

Shi Hao stood up. After many days passed, he was finally no longer in a half crippled state, able to control his body. Even though there were still injuries, moreover not light, this type of feeling was still quite good.

Without a doubt, he sensed unprecedented power, becoming even stronger than before!

Chapter 1588 - Debt Owed to Gu Clan

"Congratulations to six young emperors for your great returns. Your future accomplishments will be limitless, all of you might even be comparable to your clans' great ancestors."

Gu Yi was all smiles. His figure was stooped, white hair carrying a faint golden radiance, congratulating the Emperor Clans' supreme being like these.

These people felt a bit of a creeped out feeling, because this didn't match this old fella's normal behavior.

"Comparable to the great ancestors? This type of thing, there's no need to say any more." The middle-aged expert from Shutuo bloodline said.

When the others heard this, they all shivered, feeling great restraining fear, to the extent where they were a bit terrified inside. Ranking in this world was strict, the undying kings were known to be without equal, no one able to compare to them!

In this great world, as long as their names were called, there would be magical projections that would appear. This type of matchless might was simply beyond comprehension.

One had to understand that the ancient world was extremely vast and boundless, many times greater than all of the Nine Heavens Ten Earths added together!

Chi Menghong, Yu Yu, Suo Gu and the others stood up as well, looking at Shi Hao at the same time, their expressions cold, murderous light flashing past.

Some of these Emperor Clan young experts really wanted to kill Shi Hao. While bathed in blood, they really did have unstoppable appearances!

There were others who developed murderous intent because they were refined in the same furnace. It was because when one thought about it, this time, they became stronger because of Huang, basically basking in his limelight, making them feel like there were pricks in their hearts. They wanted to take action, decide who was stronger through this battle.

“Raising Gu[1]!” Gu Yi’s voice was incredibly soft, but the youngsters still vaguely heard those two words.

This made the expressions in their eyes even more cold. The so-called Raising Gu was placing a group of divine bugs in a sealed container, have them fight bitterly, only a single king could walk out alive.

What was this old thing trying to say? These individuals all felt extremely uncomfortable. They had previously remained in the same Yin Yang Furnace, yet they were now compared with this analogy?

Chi Menghong and Yu Yu were full of killing intent. If news went out like this, it would greatly damage their reputation. At the same time, they felt like it really was Huang who helped them, so they wanted to eradicate the main source!

Soon afterwards, they left Stone Valley. Many people met them with smiles, congratulating them.

“Dao friends, this way please. This is a matter worth celebrating, I have arranged a feast. There will be Immortal Ancient wine, let’s all share a drink, what do you all think?” Gu Yi said.

The group left this place, guided into a spacious area. There were brilliant golden palaces built on the mountains, these buildings flowing with waves of immortal mist.

This was Gu Clan’s important area, only when esteemed guests and undying existences visited would they be led here. It could be said that these people were treated extremely courteously.

“These palace halls... it has supported the footprints of too many great figures in the past, a place worth visiting for later generations. In the last great era, Without End Immortal King, Reincarnation Immortal King and other matchless experts have come here.”

Anlan bloodline’s cultivator said, deeply moved.

The others were shaken, all of them paying close attention. The golden palaces were moved over from the Nine Heavens’ side, before that, it was the important place Gu Clan used to welcome immortal kings.

“Little friend, you really are special, can be considered a heaven warping genius, born for battle.” Gu Yi walked towards Shi Hao with a warm smile, carefully looking at him.

“Bring the immortal wine!” Then, Gu Yi ordered people to bring wine.

"It can't really be wine from Immortal Ancient Era, right? Just how many years have already passed? If it was preserved like this, can it even be drunk?" A few people had puzzled looks.

Soon afterwards, someone brought over a wine jar, the colors sparkling, carved out of jade. It carried flowing light, at the same time had a type of restrained immortal aura, giving off a natural feel.

Inside the golden palace, waves of gasps sounded, and then exclams of admiration sounded.

"What rich wine fragrance!"

Putong!

Moreover, there were immediately people who passed out from intoxication, unable to withstand this type of fragrance.

Alcohol alone definitely couldn't do this, everyone knew that the so-called fermentation contained a mysterious dao aura, a wave of secret force swirling through it.

This should be rare precious wine. Many people sighed in astonishment, all of them raising their glasses. When they saw the wine so viscous it was like jelly, they felt a drunken feeling before they even drank.
n-(O-(V-.E(-l(-&(.1).n

Then, large amounts of people collapsed, because as soon as they took a sip, they immediately passed out.

"This wine really is strong! Was it brewed specifically for undying beings?" Scarlet King bloodline's supreme being, after drinking a cup, unexpectedly felt his body stagger.

Then, he sat in this palace hall, not paying anyone else any attention. This type of wine contained dao laws, worth experiencing.

Soon afterwards, the entire great palace became quiet, no one speaking anymore.

"Little friend, this way please." Gu Yi called out to Shi Hao, leaving the ancient palace.

Within the palace, Chi Menghong opened his eyes. He didn't drink the wine, eyes releasing chilly radiance, coldly saying, "Gu Clan, you are in our world, don't tell me your heart is still with Imperial Pass? Do you want to have your clan wiped out?!"

When Gu Yi and Shi Hao left, there was also Gu Hong, someone who previously also entered the Yin Yang Furnace with the six young emperors, also obtaining tremendous benefits there.

"Hong'er, you don't need to follow us." Gu Clan's elder said, only bringing Shi Hao back to Stone Valley.

"Is there anything you want to say to me?" At this point, even Shi Hao revealed a strange expression. This old fellow crippled him first, and then indirectly helped him accomplish his aim, using the Yin Yang Furnace to reforge his body. Otherwise, how could it be this easy to reconstruct the true self?

"Heh heh, back then... our bloodline was also born in the Nine Heavens. That period was too splendid, immortal kings everywhere, undying kings roaring, the great battle intense. There were even creatures from great eras even further back who emerged, participating, exceptional experts all emerging. That type of brilliance was simply unimaginable!" The elder said with a great sigh.

One could imagine just what kind of glorious era that was. Undying kings fought bloodily, immortal kings rebuked heaven and earth, blood dyeing the two worlds, it really was an alarming sight that shocked past and present.

“In reality, based on the great predecessors’ speculations, that great era could only be considered a small battle, the true miserable war will happen in this great era. Darkness will cover the great earth, blood splash across all worlds, the heavens collapse, a great settling of conflict going to happen. Sigh, being born in this great era has left me terrified and moved! When will that day come, what exactly will happen?” Gu Yi sighed, his wrinkled old face full of excitement, as well as a type of fear.

“What are you trying to say?” Shi Hao asked.

“What I want to say is that being in these times that is known to be history’s most bitter really isn’t easy. My clan wishes to seize back our past glory, or else we won’t survive. If we don’t become immortal kings, we will always be ants, cannot even protect a clan. When facing the most dazzling and bloody era, all clans will have to fight for that glimmer of hope.” Gu Yi said with a sigh.

“What kind of chaos, what kind of settling of conflict?” Shi Hao asked. This was the truth he desired the most.

“When you see the great world wither, hear the war songs of the most powerful, you will know. Unmatched figures will emerge, a few powerful clans return, killing intent will overflow into the heavens, blood soaking many great eras.” Gu Yi said. He was trembling, stirred up, also feeling a type of respect and fear towards the future.

It was because even he didn’t truly understand. These were all words of the deceased elders, the deductions of predecessors.

However, now, he had a chance of fully understanding, because he was going to enter that place, have an audience with that unmatched existence once more.

“What use is there in telling me these things?” Shi Hao asked.

“To demand repayment from your clan, you owe my Gu Clan an undying king!” Gu Yi said coldly.

His figure was short, a bit stooped, but right now, his back straightened, saying with a loud voice, “Back then, my clan could have produced an unmatched expert, an immortal king, but he was attacked by Stone Clan’s ancestor!”

Shi Hao immediately broke out into a cold shiver. There was this type of grudge between the two clans? A chill ran down his back. This meant that this elder didn’t come with good intentions, but rather wanted to settle accounts, clashing with some of Shi Hao’s previous suspicions.

“My Stone Clan’s predecessors are all of indomitable spirit. For the sake of protecting Desolate Border, they fought one after the other, blood dyeing Desolate Border, falling in battle in succession. If they attacked your Gu Clan, there is definitely a good reason!” Shi Hao said.

“Hah!” Gu Yi’s smile was a bit cold, extremely chilly. He didn’t say anything, but his gaze was a bit terrifying.

Ka!

Stone Valley split apart. There was a stone staircase that led underground, precisely the place the Yin Yang Furnace protected. The precious furnace was still here, right now floating in midair. It slowly descended, carrying immortal mist, hazy and indistinct, as if it could crush the heavens for endless time. This type of pressure was suffocating, making one's flesh feel like it was going to explode!

Gu Yi brought Shi Hao underground.

"Using the body as a seed, the idea was brought up back in Immortal Ancient years. Meanwhile, my Gu Clan's ancestor was precisely one of the ones who deduced its possibility." Gu Yi said.

The underground world was dark, extremely dry, this passage extremely long. This was an underground palace, the main road leading straight towards a single direction.

Shi Hao was a bit shaken, because not long ago, he already heard those people's discussion. The Yin Yang Furnace didn't appear for endless time because it was used to suppress Gu Clan great ancestor's magical body, help him survive.

The Yin Yang Furnace was in Stone Valley, so underground... could it be where this clans' ancestor resided?

At the end of the path was a stone room. It was extremely simple, the stone gate crude, lacking decorative designs, even more so not having any great dao order or other things.

"Great ancestor, in the past, your distinguished self's dao body broke at the crucial point, your immortal king foundation ruined. Today, I have brought a seed to you, he... succeeded with the body as a seed, moreover experienced endless refinement!"

Gu Yi actually knelt down with a putong sound, extremely devout, and also extremely serious. His forehead touched the ground here, seriously kowtowing.

1. Legendary venomous insect

Chapter 1589 - Great Ancestor

Gu Yi's head touched the ground, kowtowing respectfully, incredibly solemn, feeling the utmost respect for this person.

Was it really that Gu from the past?

Shi Hao's expression changed. As he stood here, he examined his surroundings clearly, but there was no boundless aura that rushed out.

The stone door was crude, lacking divine force or dao laws, extremely simple and ordinary. This place looked extremely ordinary.

Right at this time, the stone door trembled, pushed open by a formless power, revealing the scene within. It was too simple and crude, only having a single stone bed, on it seated an elder.

This was Gu Clan's great ancestor?!

This was an elder, figure extremely tall. Even though he was seated there, he still looked extremely tall and big, back straight, hair light golden, but becoming a bit white.

The passage of time left quite the traces on his face, his skin no longer sparkling. His sharp eyebrows reached into his temples, eyes extremely deep like the starry sky.

This elder was definitely extremely handsome when he was young, one could imagine his long golden hair, lively eyes, his matchless heroicness in the past.

Only, under the vicissitudes of time, the powerful would still wither, lacking the past blood energy and fierce vitality.

Thus, he seemed ordinary once more, because there wasn't the slightest bit of magical force fluctuation, let alone any domineering loftiness. He was just like a declining ordinary person.

Was this Ancestor Gu? The one who could previously fight with Anlan, comparable to undying kings?

It was rumored that he was just a step away from becoming a matchless immortal king!

Not long ago, when he was in Imperial Pass, Shi Hao had previously seen a drop of undying king blood fly over, shaking heaven and earth, overwhelming the vast great army, the power grand and incomparable!

Now, a living creature who was about to be comparable to existences of that level was sitting here, yet he couldn't sense anything.

It was too calm. Even if he was returning to a natural state, there should still be a trace of power.

In the end, Gu Clan's world shocking elder didn't speak, remaining extremely calm the entire time. Only when he raised his hand, gesturing towards Gu Yi, did he stand up, his expression changing a bit.

He was looking at Shi Hao seriously, his gaze calm, not carrying any emotions.

Regardless of whether it was a supreme being or undying existence, if they really stared at someone, if their flesh didn't fall apart, souls shaken, then it was pretty close. It was because the pressure was too great.

For this level of existence, swallowing up the sun and moon when it opened its mouth, making stellar streams collapse with a roar wasn't a problem at all.

However this elder before him was just this easygoing, not displaying any soul prying scenes.

A moment later he nodded, finally displaying some movement towards Shi Hao, lightly pointing out.

Inside the stone room, Gu Yi immediately trembled, his blood surging. If not for needing to maintain a certain level of sincerity before this powerful existence, he wouldn't be able to hold back a shout.

He felt like he found the right seed, Gu Clan's ancestor needed Huang!

Shi Hao's body went taut. Even though he didn't see any killing intent, nor was there any danger approaching him, when faced with a legendary matchless figure, who could remain calm?

That finger pointed at the space between Shi Hao's brows, precisely where the primordial spirit was.

In that instant, Shi Hao felt his brows become scorching hot, a wave of heat extending. Meanwhile, his frontal bone began to shine, moreover releasing a thunderous noise.

Sinner's blood collapsed the clouds, lightning flashing everywhere. Stone Clan's unique bloodline symbol appeared!

There was an imprint by his brows, extremely complex and profound. In Imperial Pass' side, it was believed to be a sinner's blood imprint, a sign of shame.

However, in this instant, Gu Clan's matchless figure, after seeing this symbol, revealed a trace of emotion for the first time.

His eyes were extremely bright, peering through the heart. In that instant, lightning tore through the void, the long river of time faintly discernible. This was precisely the direct embodiment of the ripple in emotions!

"Indeed, he is Stone Clan's descendant!" He said for the first time.

At this moment, Shi Hao finally saw a clear abnormality. The elder's expression was extremely complicated, his eyes dim, and then brilliant as if it could burn the heavens, eventually full of sadness.

However, all of this happened extremely quickly, all in an instant.

Only, this brief transformation, the terrifying scene it produced shook this ancient land. The stone room was still okay, flattened by a wave of mysterious power.

However, in the outside world, in heaven and earth, primal chaos lightning and thunder erupted, immortal mist covering the sky. It was unknown just how many tens of thousands of li of earth collapsed, the most terrifying earthquake trembling.

Moreover, the heavens were torn apart, stars falling, a rain of blood pouring down, as if someone was crying, the entire universe feeling grief in its place!

In the outside world, everyone was dumbstruck.

It was unknown just how many creatures quivered in fear. Then, in this region, all clans trembled, difficult for them to resist this type of might.

Fortunately, this aura came and left quickly. The clouds immediately became faint, the winds light, all of the abnormalities disappearing without a trace.

Inside the stone room, it was extremely quiet, lacking sound.

Shi Hao's frontal bone was shining, his body like a taut bowstring, extremely tense. Even though he knew that he couldn't win, he still had to resist with everything he had!

He would rather be beheaded, blood flowing everywhere, falling miserably in battle than submit. This was a trait that had never changed even after the savage brat grew up.

Was his body going to be seized? Perhaps this was the only conclusion.

In Shi Hao's opinion, he was now in critical danger.

Gu Yi was moved. He really was looking forward to the great ancestor's revival, to be freed from his current predicament, so was there a gift more suitable than Huang? After all, he succeeded with the body as the seed!

However, in the end, the Gu Clan matchless expert only waved his hand. The expression in his eyes carried loneliness, as well as blade radiance with sword shadows. Dull radiance was released from within his pupils, reflecting countless figures from Immortal Ancient. A world-shaking great battle could be seen in his eyes, seas of blood overflowing into the heavens!

"Great ancestor! Gu Yi was confused. Did he intend to have them leave?"

"If I've fallen to the point where I have to plunder the great dao seed of another, would I have been able to reach my current level today? There has long no longer been a place for Gu Clan in this world." He calmly said.

Gu Yi's body trembled.

"This cannot help your distinguished self in any way?" Gu Yi was still a bit reluctant, asking like this.

Gu Clan's ancestor didn't say anything, sitting there quietly. A wave of formless power pushed Shi Hao and Gu Yi out from the stone room, the stone door then silently closing.

"Things pertaining to immortal kings, these are things you do not understand." In the final moment, Gu Yi suddenly remembered his deceased grandfather previously saying this.

Gu Yi walked out from the underground palace with a blank expression, arriving on the surface. As soon as he left Stone Valley with Shi Hao, they were quickly surrounded.

These were supreme beings, some from Emperor Clans, the rest from other places, all of them looking like they were facing a great enemy, stopping his path. Then, they looked carefully at Shi Hao.

"Gu Yi, what exactly did you do?"

When these people looked at Shi Hao, they carried great restraining fear.

It was because they had heard rumors that Stone Valley had an ancient existence underneath. He had previously almost achieved immortal king level, but in the end, he was attacked by Stone Clan's ancestor, having his foundation ruined.

Similarly, there were those who heard that the body as a seed path was something quite a few people took part in, Ancestor Gu previously one of the contributors!

Now, Shi Hao successfully walked this path, while his ancestor ended Gu Clan's path ahead, there were some things that could be associated together.

They highly suspected that Shi Hao's body might have been seized, or the seed within his body might be gone.

"You all have overthought things. Without a heart to overlook past and present, how can one become an Immortal King?" Gu Yi actually spoke this line.

Right now, he was a bit relieved, but also felt incredibly regretful. n//0VELbIn

Gu Yi further said to himself, "Even if the blades of the heavens winded about one's body, formed a cocoon, if one doesn't have the will to devour all of time, there is no way to achieve the dao."

Even though he explained like this, the cultivators here were still doubtful. They all frowned, after all, just now, many people sensed that heaven collapsing feeling, it was definitely Ancestor Gu who moved.

"If you don't believe me, then examine him yourselves, just bring him away!" With a fling of Gu Yi's sleeves, he forcefully saw them out.

A supreme being produced an ancient treasure, its name Truth Illumination Mirror, continuously shining it on Shi Hao, immersing him in divine light. However, they didn't see any abnormalities.

"Let's go!" They left Gu Clan's place of residence.

It was because they also believed that if Ancestor Gu really did make a move, he wouldn't let Shi Hao leave like this, at the same time, wouldn't hide like this. At their cultivation realm, they naturally had heaven swallowing spirits.

In the distance, an ancient tree shook. It supported stellar rivers, endless stars hanging from the tree leaves. This was a World Tree, it was born in this world, and grew here.

Its branches extended out, sheltering the entire ancient realm within.

After the great battle of the past, because of this tree's existence, the originally cracked realm walls recovered. This was the reason why this world was perfectly preserved.

Now, the World Tree shone, scattering down a decree, directly falling from outer space.

"Undying's decree!"

The supreme beings who brought Shi Hao away were all surprised. Passing down a decree through the World Tree meant that the situation was extremely urgent.

Chapter 1590 - Freedom

The decree of undying existences descending from outside space. This was through the power of the World Tree, arriving from the ancient realm!

Hualala!

The World Tree was boundless, its might dominating past and present. When its leaves turned, stars moved about, the sun and moon rumbled, shaking the world.

Normally speaking, few dared to make contact with the World Tree, only doing so if there was something major!

This was this world's protector tree!

The decree descended, falling down, releasing endless rays of brilliance. There were characters written all over its surface, glistening with brilliance, the strokes like metal and silver, possessing terrifying might.

This was the power of the undying. Even though they didn't personally descend, a strand of their essence energy already entered the decree!

The faces of the supreme beings here were all extremely serious, solemn and respectful as they carefully received the decree.

Even the Emperor Clan supreme beings had serious expressions, not daring to act carelessly, similarly complying with the law decree, displaying how strict the ranks of status were.

It was because even though they were quite strong, they might not necessarily become undying existences. There were definitely experts at the peak of mortal dao in every Emperor Clan, but they might not necessarily take that final step.

In reality, it should be said that it is extremely difficult to take that step!

In this world, even though there were many people, the territory vast, the number of undying existences was still extremely few!

It could be said that as long as an undying existence emerged within a clan, then they could immediately become a King Clan!

Even if the undying being died, for a comparatively long amount of time, they would still remain a King Clan,. This was, unless a clan completely declined, never having any hope of rising up again.

Even the powerful Emperor Clans, after endless time, only had a handful of undying beings, to the extent where it might just be one or two.

One could see just how rare undying beings were, how hard it was to reach that step!

After the decree fell, the expressions of everyone here changed greatly!

Before they read the text, they first saw the names signed. It was actually a decree written by many undying beings, hurriedly sent over.

"This is... to pardon Huang!"

Even the most powerful cultivators under those who achieved long life were shocked. As for how they were to deal with Huang, there was now a clear ruling. The undying beings seriously passed down the decree that no one was allowed to harm Huang, if they dared to secretly take action, they would be suppressed!

This was a clear decision, no longer like a few days ago where the attitude towards Huang was extremely indistinct, leading to a series of events happening.

Why was there this sudden change in attitude?

Soon afterwards, they received the answer.

When they headed out again, passing by a few giant cities, there were other Emperor Clan supreme beings who understood the details from their people.

The undying kings hadn't returned yet, still inside Burial Land.

However, an old servant previously appeared, hinting that Huang couldn't be harmed right now, but instead had to be left behind intact!

This old servant wasn't an ordinary creature, but rather the vicious beast who guarded Anlan's cave, an old wolf spirit. Even though he was a servant, his status was great.

Anlan's place of seclusion could not be approached by anyone, not even his descendants normally able to step foot inside. Only an old wolf guarded the ancient cave, ready to take orders at any time.

This old servant appeared, stating that Anlan personally said the youngster who seized the rotten wooden chest is quite interesting. If he is caught, he has to be carefully examined.

It was clear that this was what was said a long time ago. At that time, they had just suffered a defeat in Heavenly Beast Mountain, having the wooden chest seized.

They never expected the situation to change like this, Imperial Pass really handing Huang over!

This time, there were undying beings who went to ask for guidance. As a result, the old servant came out of the mountain, this old wolf mentioning the words Anlan said before, naturally triggering a great commotion.

Many undying beings immediately wrote a decree, passing it down through the World Tree, immediately informing the rest of the world.

It was because they feared that something unexpected would happen to Huang. Even though several days ago, after undercurrents moved about, it should be considered saving Huang, they still feared that something unexpected might happen.

"Youngster, you're safe." A supreme being said.

Only, when they looked at Shi Hao, their expressions were a bit complicated, a bit of pity within the depths of their eyes.

Being targeted by an undying king like this wasn't something good!

That day, a few great clans already learned that Huang couldn't be killed, that they couldn't target him anymore.

Of course, these so-called great clans were all clans who had a strong desire to get rid of Huang, either because their clan's genius or older generation Self Release Realm figures had been killed by him.

Shi Hao was rather surprised, his crisis was resolved just like that.

That decree was extremely severe, mentioning that those who went against this would face 'clan destruction'!

This wasn't just a single person's blame, if they harmed Huang again, it would involve their entire clan.

Shi Hao wasn't sent into Blackwater Prison, because there was no way he would be tortured now.

At the same time, he wasn't sent to War God Academy either, because they couldn't act against him. If he was sent to the academy again, then it was too dangerous for others.

Not long ago, he already stirred up quite the disturbance, leading to the deaths of over a hundred young experts. This was an inauspicious bringer of disaster!

He obtained freedom!

No one expected Huang to be able to freely roam this ancient great earth.

Of course, there were at least six imprints left on his body, flying out from the decree, making it so that great figures could sense where he was no matter where he went.

They weren't spiritual imprints, but rather law decree fragments, engraved on his body, couldn't be removed.

"Little friend, what kind of plans do you have now?" A supreme being asked amiably. Meanwhile, many days ago, he was still extremely cold.

"This ancient world is vast, full of secret lands. I wish to visit those beautiful mountains and rivers, the king city historical sites." Shi Hao calmly replied.

Just like that, Shi Hao went on his way alone.

When news spread, this triggered an uproar.

No one expected things to end like this, many creatures who bore hostility were full of unwillingness.

A black vile river surged, traveling through hundreds of thousands of li, incomparably vast.

One could see a wide black river. When the terrain was level, it was still and silent, quietly flowing past, giving everyone an oppressed feeling.

However, when the terrain was precipitous, when it moved through the mountains, it roared like a dragon of thunder.

The most terrifying thing was that regardless of whether it was calm or violent, the rocks, earth, and plants at its side were all frozen.

Moreover, it was black ice, sealing both shores.

This was the Great Yin River, rich with yin energy, able to seal the two shores!

That day, a small boat drifted on the great river. A youngster stood on top, moving along the black Great Yin River.

"This brat really is calm, already a prisoner, yet he still has the mood to enjoy the scenery."

"Who gave him freedom, he's all leisurely now." Someone mocked.

"This is only temporary, he won't have a good conclusion!"

Along the way, there were many creatures who stared at Shi Hao, some of them even more so tailing him, even releasing killing intent.

However, when they thought about the law decree, they didn't dare act rashly, fearing that they might involve their entire clan if they recklessly took action. Huang couldn't be killed!

It has already been eight or nine days. Shi Hao was extremely calm. In the eyes of outsiders, he looked extremely laid back, heading to King Clan ancient lands, enjoying beautiful mountains and rivers.

He really treated himself as a tourist.

Eventually, the creatures no longer hid, actually following him, moreover extremely closely.

However, Huang ignored them all, completely disregarding the hostility and threats.

So what if there were half supreme beings following him? They didn't dare make a move at all.

In the end, they were all helpless, releasing a sigh, leaving. Only some curious individuals continued to follow him, wishing to see what exactly he was doing.

On the great black river, Shi Hao didn't fear the cold. He sat on the small boat, actually starting to fish!

With a hua sound, he fished out a black vicious beast with a Flood Dragon head and a fish body. It opened its bloody mouth, about to bite down on him.

However, not long afterwards, an expanse of dao flames surged. Huang opened the vicious beast's chest and stomach, starting to roast it.

"Motherfucking... this fella really is extremely carefree. His life is going to end sooner or later, yet he can still eat?"

Many creatures were stupefied. He was actually this relaxed, even in the mood to enjoy food.

Only when Huang was about to leave the great river was everyone shocked. It was because waves reached into the skies, black great yin river sprays splashing in all directions, shooting into the heavens.

There was a Kun Peng attacking in that place, turning into a black great fish, swimming along the Great Yin River.

Shi Hao left the Great Yin River, entering the valleys. It was rumored that an undying existence was buried here. After an attack on an undying king failed, he ended up dying here.

His body had some Golden Crow bloodline. When it died, brilliant light shone through the nine heavens, raging flames burning the skies.

In the end, the hundreds of thousands of li of valley became a danger spot, not a blade of grass growing, everything withering away, leaving behind rich flame dao power.

Shi Hao stood here for a long time, carefully sensing everything. He became like a statue, not moving at all.

After two days passed, his body erupted with dazzling brilliance. Then, he brandished his arms, forming imprints here, continuously attacking.

"Is this fella comprehending the dao? Wandering my world's great earth, is he seeking his own dao?" This left some people shocked.

Even in this type of situation, Huang still didn't give up? He wasn't worried for his own life, not caring about his future, instead completely devoted to cultivation!

When he left Setting Sun Valley, Shi Hao headed west, entering an ancient land rich with undying energy. This place was always quiet, no one daring to enter.

“This is... that individual’s place of seclusion?”

“It’s... Scarlet King’s residence!”

Then, a group of people looked at each other in dismay, all of them stopping.

Scarlet King was someone who killed Immortal Kings with his weapon, vicious might matchless. His reputation in this world was too great!

However, during Immortal Ancient War, something happened to him, thus, he never came out. There were some who said that he was nursing his injuries, others felt that he might have died.

Huang actually came here, did he want to break in?
