

## Perfect WD 1601

### Chapter 1601 - Viciously Beating Emperor Clan

This was just too violent! It was crude and direct, stepping on Chi Menghong's face just like that, the strength terrifyingly great, the space around that kick directly exploding!

All of the creatures felt their scalps turn numb. This was but an Emperor Clan! Yet he was stepped on by a foot just like that, firmly and powerfully, making one's mind tremble.

Honglong!

In the surroundings, great void cracks spread outwards. Pitch-black gorges appeared in the air, the scene terrifying, as if it was connected to the underworld.

Without a doubt, Chi Menghong suffered a serious blow. His face immediately caved in, bones breaking, blood flying out, this scene extremely cruel.

A glorious Emperor Clan suffered an unimaginable injury!

If it was a normal person, that area would have definitely exploded, his skull might not even be able to be preserved, definitely explode to a bloody mist, body and spirit obliterated!

This was not enough even if it was a King Clan, their bones would definitely break apart inch by inch, dying miserably on the spot, killed just like that!

However, Chi Menghong wasn't an ordinary person. His dao skills were profound, flesh having undergone repeated refinement, known to have an unbreaking body among those of his age, shockingly sturdy.

Even though he suffered a serious injury, he didn't die, but rather made it through.

An expanse of badly mangled flesh remained where his cheek was, the bridge of his nose, the bones of that side, eye-socket, and other parts completely caved in, pretty much completely crushed by this kick.

This could be considered a fatal blow!

Even someone as strong as Chi Menghong released a muffled groan, body bending back, flying outwards, primordial spirit unstable, almost dying!

Many parts of his skull split apart, the space between his brows even more so dripping with blood. This was the most terrifying injury, danger of his primordial spirit being destroyed at every turn.

This was something worth rejoicing over, because his primordial spirit, that fist height blood beast, was not in his head, but rather floating in the air, displaying the time domain.

When Shi Hao's foot smashed over, it quickly withdrew, moreover protecting his body with time fragments, escaping backwards.

However, the blood beast had no way of stopping that kick, the body taking a heavy strike.

Hong!

Chi Menghong's body shook greatly. As he flew out, the blood beast returned to his skull. In that instant, all of the bones in his body erupted with noise. He was beyond furious, restoring his wounded body.

No one had ever injured him like this. He actually almost exploded to pieces just now!

Even though he avoided disaster at the crucial moment, his injuries weren't light. His cheek was even destroyed, how terrifying of a thing was this? It could be considered a great humiliation.

Dong!

Heaven and earth trembled, divine force breaking through the clouds!

It was because this matter wasn't finished, the battle far from finished.

Shi Hao pressed forward, shockingly vicious, fists smashing over one after another, the void even collapsing under his blows, the sky dome shattered. All of it smashed into Chi Menghong's body.

Now, his extreme strength already blasted through the time domain, struggling free from that cage, recovering his freedom, occupying the advantage again. There was no way he would let the other party go, wishing to kill Chi Menghong here.

Everyone was dazzled. Huang was too domineering, suppressing Chi Menghong, continuously bombarding him with attacks just like that, about to beat him to pieces!

Right now, everyone recovered their freedom, able to move again. Previously, they were also within the time domain's restriction, entering that terrifying frozen state, imprisoned.

The time domain was terrifying beyond compare, known as an unmatched great dao law, couldn't be defied, simply impossible to be freed from!

Hong!

Shi Hao's fists smashed down again and again, his fists sparkling, unstoppable, powerful to the point where even Chi Menghong felt great pain, his expression changing!

Peng!

Chi Menghong's arms were crossed before him, stopping Shi Hao's endlessly domineering fist imprints. His entire body was releasing great dao law symbols, blocking these world shocking attacks.

In that instant, his fists felt numb, as if they were going to break.

It was because he was a step behind, losing the initiative, in a passive state, completely locked down. He had to passively defend himself, unable to face the enemy in his greatest state!

It was just like at the very beginning, when he used the time domain to restrict Shi Hao, in that moment, the other side was on the defensive, almost suffering a disaster, now, he also entered a predicament.

Shi Hao's precious techniques were terrifying beyond compare, suppressing Chi Menghong's body until it was about to split apart. It was because his ancestral technique was subdued, momentarily unable to be completely released!

Everyone was shocked. How did Huang do it? He actually freed himself from the time domain, struggling free, now instead suppressing his opponent. He was ferocious after all, a dominating figure in this generation.

Right now, after Shi Hao recovered his freedom, he was powerful like a dragon or tiger, entire body having endless power, continuously attacking Chi Menghong.

Once he struggled free from that type of predicament, his various miraculous methods could all be displayed. This was why blasts of light appeared one after another, released by great dao symbols, completely bombarding his opponent.

At the same time, this also placed him in an alert state, reflecting over the source of his danger just now.

Restricted by time domain, losing all of his magical force and world shocking divine abilities, unable to display them, restricted there made him almost no different from a cripple.

In the past, even though Shi Hao had been forced on the defensive, his hands weren't bound like this.

He should have been more vigilant before!

"Huang, go to hell!"

Chi Menghong roared. Being suppressed and beaten like this, how could he just accept this? This wasn't his style, it was always him who advanced unstoppably, killing his opponents, yet today, it was completely the opposite!

A furnace appeared within his body, merging with his heart, bright red and shining. Now, it immediately rushed out, continuously enlarged, wishing to suppress and kill Shi Hao.

This furnace wasn't a material body, but rather something made from blood energy. After being supported by heart blood, magical force became boundless, the power great, as if the universe was crushing down.

Even though it wasn't that large, it still had a type of undefiable power.

Scarlet King Furnace!

His ancestor -- Scarlet King, was known to be the most vicious undying king, someone who directly refined an immortal king into bloody paste, buried within a precious furnace.

Later on, the Scarlet King Furnace and secret method merged, producing an unmatched ancestral technique and bloodline, passed down like this to later generations.

What Chi Menghong displayed right now was precisely the matchless vicious technique of the past!

Honglong!

He wanted to send Shi Hao flying, moreover collect him inside of this scarlet blood furnace, refine him into a bloody paste through his own dao flames, recreate his ancestor's unmatched divine might.

Only, Shi Hao's current situation was too fierce, impossible to suppress, unable to be collected into the furnace.

He was like a war immortal who came from the distant past, gods or buddhas similarly cut down, domineering beyond compare. A fist smashed down on the Scarlet King Furnace, the noise ear-splitting, divine sound intimidating, sending it flying out.

Hong!

Shi Hao grabbed Chi Menghong's shoulder with a single-handed grip, wishing to grab his neck. His other hand formed a fist, fiercely smashing down.

Chi Menghong roared furiously, entire body shining, great dao symbols flickering like the stars of the heavens, covering the surface of his body, fiercely resisting, wishing to send Shi Hao flying off him.

Hong!

Shi Hao subdued him, viciously rushing down, sending him smashing straight down from midair down to the mountaintop, crashing into the ground flickering with metallic luster.

Traces appeared one after another on the mountain top, flowing like molten iron. This was the great formation left behind from Immortal Ancient times. It protected this mountain, ensured that it wouldn't break.

Otherwise, the aftereffects of these two's battle would be enough to tear apart the divine peak!

"Collect!"

Chi Menghong released a light shout. Not far out, the furnace that flew out, with a kuang dang noise, opened its furnace lid, releasing scarlet multicolored light, wishing to suck Shi Hao inside.

Moreover, the strangest thing was that a pair of arms reached out from inside, carrying traces of blood, covered in ruined battle armor, as if it was reaching out from hell itself.

Peng!

Those arms were too fast. They grabbed Shi Hao, about to drag him inside the furnace, refine him away.

"The arms of an immortal king?!" Many people were horrified, chills even running down their spines.

Everyone knew that the Scarlet King Furnace had refined an immortal king before, moreover mutated because of this. These imprints had been passed on through the blood of later generations!

Now, the innate ancestral method Chi Menghong used was precisely this type of embodiment!

Of course, for him, there was no way he could activate an immortal king's power. However, for his cultivation realm, it was still a great murderous technique that could sweep through all enemies.

Hong!

Shi Hao brandished his fist, striking out with all his strength, wishing to break these arms!

Only, those arms were too sturdy, difficult to break through. They were just that terrifying, wishing to strangle Shi Hao to death, drag him into the furnace to refine him.

"Just because this old tiger doesn't display my power, you treat me like some sick cat?!"

Shi Hao's eyes flickered with radiance. With a honglong noise, a lightning pool appeared at the center of his palm. Then, he slapped down, the lightning pouring down like silver streams, striking those arms.

Moreover, peng cries sounded. A Kun Peng appeared, its golden feathers covered in golden spots were completely released, like a hundred thousand heavenly swords cutting down a demon!

The two types of precious techniques merged together, with a honglong noise, those arms were forcibly broken, the Scarlet King Furnace sent flying.

Then, he overlaid the two precious techniques, attacking Chi Menghong.

Peng!

With an unmatched attitude, Shi Hao suppressed Chi Menghong, slamming his body into the mountain region, straight back into the earth and rock. Moreover, terrifying Kun Peng fists tore through his defenses, placing him in a dangerous situation.

Weng!

Time fragments flew about, carrying undefiable strength. Chi Menghong quietly released his time domain, wishing to suddenly deal a fatal blow.

"You still want to use this trick?"

Shi Hao sneered. He suppressed the other party, his right hand now shining. It wasn't the Kun Peng technique, but rather Reincarnation Fist, similarly using time natural laws.

It was because previously, when his body was surrounded by time, his body restricted, the other party seizing the advantage, he couldn't even use this technique. Now, it was different, he still had his freedom, able to use all of his techniques.

The two types of secret methods were both related to time. They now collided.

Hong!

Heaven and earth broke apart, time fragments flying in all directions. A long river appeared, the power of time!

"Emperor Clan, are they going to be defeated today?"

"How could this be possible? The Emperor Clan's younger generation unstoppable individuals, even known to be undefeated legends are going to be killed by Huang?"

Some people trembled. In the past, at most, the foreign side's kings would be defeated, but now, the Emperor Clans have appeared, fighting against Huang, yet even victory or defeat were hard to say. This left many anxious and frightened.

They were praying, hoping for Chi Menghong to win!

Chapter 1602 - War God

It was because their side had already won many times, moreover, they were more arrogant and wild in nature to begin with, always looking down on the Nine Heavens Ten Earths. Yet now, the King Clans couldn't injure Huang after they moved out, too many to count killed by him instead.

That was why they longed for victory, wishing to defeat Huang head-on, but they kept failing. This already became something that kept gnawing at their minds, a problem they couldn't solve!

Now, many people were extremely nervous, fearing that Chi Menghong would be defeated. This was an Emperor Clan, a younger generation top level figure. If he was defeated, then that would mean that there really weren't any people who could defeat Huang.

Unstoppable in the younger generation!

This type of title was something everyone thought about, but not everyone had the right to fight for it. Meanwhile, the two fighting right now were definitely contenders. The current struggle was related to who was the true supreme being!

Peng!

Shi Hao's fist collided with the other side's magical imprint, brilliant colors immediately overflowed, time power surging. There was a river of time that was faintly discernible, rising and falling there.

Space was no longer stable, the power of time spreading, worn down by corrosion of time!

The two individuals' bodies both became indistinct. In that instant, it was as if they disappeared from this world, heading into the ancient times, moving towards the desolate wasteland, becoming creatures of history.

This was a strange phenomenon created by the power of time!

Everyone held their breaths, continuously backing up, standing in the distance, scared of being caught up in their battle again, giving them a sufficiently wide battlefield.

"You also understand time natural laws?"

Chi Menghong was extremely shocked. This was their innate wondrous technique, who would have thought that this opponent also grasped it?

Moreover, the two set out from different starting points, his was to restrict the other party, seal him in place, while the other party wished to sever time, remove his lifespan.

"Time Stasis!"

Chi Menghong roared, truly angered. The other party was fighting him in his own most proficient domain, this was provocation, even more so a type of contempt.

In the distance, many people trembled. That clan's ancestral technique was exceptionally powerful. Back then, when time stopped, all things became still, all time interrupted. This was known to be an ultimate secret method!

In this world, which divine abilities could be known to be unmatched? This Time Stasis was definitely one of those unmatched techniques!

“Reincarnation!”

Shi Hao shouted out. That fists became even more resplendent than before, flickering with imperishable brilliance of endless generations, lighting up Dao Comprehension Mountain, clashing with those unmatched techniques.

Time came to a standstill, all things were fading away, coming to a standstill.

Only a single youngster was brandishing a fist, resisting. Shi Hao wanted to break through this situation with Reincarnation, make this secret technique collapse!

It had to be said that the other side’s divine ability was too terrifying. After Shi Hao used this type of Reincarnation Fist, he still felt his body go rigid, being restricted.

However, this time, he wasn’t in as passive of a state as before, because he was already mentally prepared, not fearing the other side.

“Seal!”

Chi Menghong shouted, supporting his ancestral technique, raising its power to the greatest.

The world became dark, or perhaps it could be said that it returned to the origin. The world was full of primal chaos, displaying the most basic source.

Chi Menghong was forming imprints, creating a time prison with primal chaos as the metal pillars, time as the chains, locking down Shi Hao, restraining him here.

That cage wasn’t that large, only about ten square zhang. It was located on the mountain peak, absorbing the time fragments of all sides, gathering all power here, forming a prison.

“Kill!”

Chi Menghong roared out, wishing to suppress Shi Hao with the prison.

“It is actually about to succeed, Huang trapped in the time prison, really about to be killed!”

“The undefeated Huang is finally going to lose today! The Emperor Clan is going to capture him! Worthy of being Scarlet King’s descendant!”

Nearby, many people were moved, carrying expressions of joy, cheering. They stood far away, scared of being involved. Now, they were all cheering with excitement and joy.

Huang really had become a sore point for a few King Clans. If he couldn’t be defeated in public, then they would always feel like they let down their reputation as warlike clans.

The time prison was extremely sturdy. Time was condensed, wishing to crush Shi Hao, this prison simply like the underworld. In the eyes of others, Huang didn’t have any chance of surviving.

It was because this was a prison derived from ‘Time Stasis’, it was definitely terrifying.

Only, Chi Menghong frowned, because it didn’t immediately kill Huang. He was still there, moreover attacking, resisting this prison.

A figure continued to brandish his fists, not hurried or too slow, having his own rhythm, still able to move!

The entire prison contracted, but it couldn't crush Shi Hao. He was like a war deity, an unmatched war deity who walked over from the ancient times, heaven and earth difficult to extinguish. He brandished his fists, blasting the skies, just that unyielding!

Reincarnation Divine Ability, seizing time, it was extracting time fragments from the time prison, breaking it apart!

"Die!"

Chi Menghong shouted out, stirring forth all of his body's power to control the cage, suppressing Shi Hao.

Their battle reached a crucial point!

Shi Hao had a choice. He could use the Magical Immunity super ability, something the other side couldn't defend effectively against, and then suddenly slaughter his way over to kill him. n-σ.-v-.e(-ℓ)/b.-l//n

It was because right now, he had freedom, able to move, not completely suppressed by time.

However, in the end, he still held back, not using this secret technique, because he had previously heard that there there was an Emperor Clan who grasped this power, known to be one of the most ancient families. Perhaps the other Emperor Clans also had corresponding methods to deal with this.

At the same time, Shi Hao didn't want to reveal all of his trump cards either, he still wanted to try some other methods, use other secret techniques to crumble Chi Menghong's most powerful methods.

At the very least, right now, he could withstand the other side's skills!

Hong!

Time power surged. Shi Hao poured in lightning power, guiding over lightning dao power, blasting the prison.

He continuously swung his fists, really looking like a reincarnated war god, possessing a type of unmatched loftiness.

Kacha!

Finally, that prison was broken through, he struggled free. The Reincarnation Fist absorbed time fragments, lightning dao natural laws pierced through the prison, breaking through the other side's time domain.

Pu!

Chi Menghong immediately coughed out large mouthfuls of blood, suffering a backlash. In that instant, the hair on his temples grayed, the effects of reincarnation force, seizing some of his time.

“No!” A few King Clans cried out, inwardly alarmed, panicking. Even the Emperor Clan Chi Menghong was going to be defeated? This left all of them shocked.

Shi Hao was like an unchained vicious beast. Right now, he possessed a terrifying aura, endless lightning and time fragments smashed over.

Pu!

Chi Menghong received a heavy blow, blood gushing out from his mouth again, entire body flying out. The backlash was too serious, making it really hard for him to retaliate.

Right now, at least a large half of his hair became white. Lightning pierced his body, reincarnation corroding his soul, this was life-threatening danger.

The crowd was stunned. Wu Kun, Yu Yu, and the others were all stupefied. Mo Xian’s beautiful eyes flickered, seemingly not foreseeing this result either.

It was because Chi Menghong excelled precisely in time laws, yet in the end, he was injured in his own domain, life force seized by time. This was definitely unusual.

Hou!

A beast roar tore apart the silence.

The mist between heaven and earth all disappeared. When Chi Menghong flew out far enough, he stabilized his body. Moreover, his head of white hair became black again, recovering.

“Yi?” This made many people shocked!

“Huang, you made me feel humiliation. I’ve endured for too long already! It is time to end things!” Chi Menghong said coldly.

A fist-sized blood beast appeared, floating above the crown of Chi Menghong’s head. This was his primordial spirit, as well as his original appearance, extremely vicious and sinister.

It had a Flood Dragon head and a lion body, but it wasn’t skin and armor that covered his body, but rather scarlet bone spurs. They were sturdy, flickering with ice-cold radiance.

Even though it wasn’t large, it was still extremely dangerous, known to be one of the most terrifying species!

This was a Time Beast. It was incredibly powerful, from past until now, there were no especially effective way to deal with it. It was also known as an undefeated clan!

Chi Menghong was precisely a Time Beast!

Right now, the scarlet primordial spirit appeared, stopping above his head, gathering the most terrifying power.

Aohou...

The primordial spirit of a Time Beast was roaring. Candles appeared one after another in his surroundings, all of them lit, becoming bloodcolored, smoke rising in spirals.

“He actually fully cultivated this ancestral method?” Many people were shocked, including Emperor Clan’s Qing Kun, Yu Yu, and the others, all of their pupils contracting, staring there.

It was still time power, but the meaning was now completely different. One had to reach a certain cultivation realm first, evolve the original time ancestral method in order to display it.

It could be said that this type of thing wasn’t an inherited secret technique, but rather needed to be comprehended by oneself, only then could it be evolved to a world shocking vicious method!

The candles flickered, smoke rising in spirals, candle light fluttering about, extremely mysterious.

What was burning was time, summoning the power to extinguish ten thousand spirits!

This was a sublimation of the time dao laws. Normally speaking, before one reached the Supreme Being Realm, it was too hard to experience, this type of technique couldn’t be understood!

Chi Menghong succeeded, able to use this type of divine ability at his age, summoning time candles, burning time itself, summoning the power to extinguish all things.

Shi Hao frowned, feeling a wave of unusual pressure, a life-threatening danger. Burning time, this was definitely a world shocking killing method.

Should he use his trump cards? He frowned. He had a few methods, perhaps it was time to use them.

“En?”

Suddenly, he was moved. A few strange blood wisps shone, flowing towards his limbs and white bones, his body full of a strange power.

The third supreme being technique!

It actually revived at this time, displaying its unequalled power.

Shi Hao had a feeling that this type of precious technique was about to mature. It had already been nurtured for so long within him, bone patterns becoming more and more clear, about to emerge!

A wave of irresistible urge welled up within him, making Shi Hao unable to hold back a great roar. He couldn’t hold back anymore, directly taking action!

Honglong!

His fist smashed over, fist radiance astonishing, as if lightning hacked across the dark cosmos, illuminating this ancient boundless world, rising and falling with it. At this moment, all of it was crushed under this fist’s might!

Pu!

Chi Menghong was struck through, the bloody hole in his chest connected from front to back. He was sent flying, blood dyeing the skies!

Chapter 1603 - Third Supreme Being Technique Matchless

The sudden fist's power dominated heaven and earth, piercing through Chi Menghong's chest, going straight through. Blood splashed out, the white bones dense, falling into a pool of blood.

Chi Menghong suddenly raised his head, his expression full of shock, not daring to believe what had happened. Right now, he was a bit dumbstruck.

In reality, everyone was stunned. What was going on? This was too sudden!

Chi Menghong had just stored up power, just produced the most powerful battle state, yet who would have thought that Huang would directly send a fist over, completely unstoppable, sending him flying?

No one expected Chi Menghong to obtain such world shaking strength after the candles were lit, about to display his ancestor Scarlet King's unmatched glory.

However, at this crucial moment, when he gathered enough strength, preparing to destroy his opponent, Huang suddenly took action, interrupting his charging state!

This was like being kicked straight from heaven to an endless abyss, almost falling straight to hell!

This could be considered a shocking change, exceeding everyone's expectations. Who didn't know about the Time Beast's most powerful ancestral method? One had to exceed the limit, an ultimate divine ability.

"Defeated, Chi Menghong was defeated just like this!"

Many people were going crazy, muttering to themselves, unable to accept this result. Even Emperor Clans were defeated, who in the same generation was still Huang's opponent?

The various great King Clans were all hopeful, longing for victory, wishing for it to be in an upright and frank way. They wanted Huang to experience defeat before everyone's eyes, for everyone to witness his head-on defeat.

However, in the end, even the dream of Emperor Clans fell at Huang's hands, the undefeated legend ended so unreasonably in one blow.

Chi Menghong couldn't accept this, felt too sullen. He was about to use his ultimate method, yet in the end, he was knocked flying by Huang, almost dying from that fist.

"Huang!"

He spat out a mouthful of bloody suds. Towards this defeat, he was extremely unwilling. He had confidence that as long as he could display that type of evolved ancestral method, he could kill any enemy.

Success was already within sight, already about to kill his opponent, yet he ended up suffering such a miserable defeat!

Shi Hao really found this feeling too wonderful. At that moment, all of his blood surged, the bizarre blood wisps extending out, granting him unending power.

Multiplied!

His strength had been multiplied many times, speed also like this, comprehensively increased by a great margin. In that instant, it was as if he was a completely different person.

That was why just now, the fist he released blasted through all types of defensive secret methods, piercing through his opponent's body protecting screen, seriously injuring him.

He felt that when these bone texts matured, its power would become greater and greater. Right now, it was still not perfect, still a bit lacking, yet he could already see just how powerful it was.

Just a casual attack produced this type of divine might, it really made even he himself tremble inwardly.

Just now, the supreme being blood in his body clearly sensed external threat, stimulated by a type of powerful pressure, triggering its premature awakening.

Shi Hao didn't know if this was a good or bad thing. He didn't want any problems to appear during the third precious technique's nurturing process, because he had great expectations for it.

Right now, he felt the blood within his body become boiling hot, bone texts interweaving, rumbling, many imprints rushing out from within, even engraving themselves towards his breastbone, forming bone texts in the truest of meaning.

In the past, his supreme being bones had continuously been removed, one obtained by Shi Yi, the other given to his younger brother. The third one didn't wish to be produced like that, wishing to be nurtured in the blood.

However, today, it activated ahead of time. The blood uncontrollably poured over his breastbone, as if it was going to grow a completely different supreme being bone.

This made Shi Hao hesitate, thinking things over continuously. He didn't know if he should interfere or let it do its thing.

He frowned, feeling like he released the power of the third type of precious technique a bit early, not knowing if this will cause some unexpected changes.

"Huang, I am unwilling. Do you dare fight me at my best?" Chi Menghong crawled up, his chest caving in, front and back connected, covered in blood.

He really couldn't accept this. He was defeated just like this, leaving him a bit stunned. How could things be like this?

The power of burning time, he finally touched the boundaries, about to display it, yet he was forcefully oppressed by the other side, the candle flame scattered. It really left him feeling too sullen.

"Oh?"

Shi Hao looked towards him, not immediately taking action.

Chi Menghong's entire body shone, igniting his life potential. He wanted to take action again. Based on his intentions, he wanted to ignite the candle flames, release the most powerful time dao laws to fight Huang again.

Shi Hao didn't take action, watching those candles.

Sure enough, time was burned, the power of time itself as the primer. It was as if an offering was being carried out, but also as if there were prayers, looking like he could communicate with the existences of the underworld. n--0V<sub>e</sub>Lb1n

“Kill, kill kill!”

Chi Menghong suddenly roared out, already going crazy. He was scared that Shi Hao would try to seize the initiative to attack again, so he was the first one to move, burning the candles, releasing terrifying magical force.

This secret technique possessed strange power, as if it could annihilate all creatures, ripple through the entire ancient realm.

The candle lights flickered about, representing time itself, the order of the heavens. Meanwhile, the candle fragrance was dancing about, rising in spirals, tearing apart the sky dome, displaying unmatched power.

The other side already took action, so how could Shi Hao still be overly polite? No matter how curious he was, wishing to see the greatest power of this divine ability, he wouldn't wait stupidly.

This time, he still didn't hold back, using the third type of supreme being again, because right now, his blood was boiling, bone texts flourishing uncontrollably, longing to be unleashed.

Dong!

The noise was even more muffled, blood splashing high into the air. Chi Menghong was struck until half his body exploded. If not for his Time Beast primordial spirit rushing out at the critical juncture, he might have died.

It was because there was now even a bloody hole between his brows, the finger Shi Hao released at the final moments, incredibly vicious.

As for those candles, they were directly crushed by his fist strength, candle lights extinguished, smoke rising in spirals and scattering, ruined.

“Ah...” While carrying several drops of essence blood, that Time Beast primordial spirit rushed into the heavens, releasing a furious roar, fleeing towards the horizon, carrying humiliation and endless anger. It wanted to run.

“Where do you think you are going?!”

Shi Hao reached out a hand, immediately covering the skies, grabbing forward.

However, a group of people stopped him, especially those elders who protected the Dao Comprehension Tea Tree, all of them taking action, not letting him do as he wished.

It was because if an Emperor Clan young expert died and they did nothing, there might be great guilt placed on them!

Shi Hao laughed, no longer taking action. Ending with this situation was already enough. An Emperor Clan fled for his life, kings offering help, this could be considered an excellent conclusion.

“Ha ha ha...” Shi Hao roared with laughter. In everyone else’s ears, it felt extremely ear-piercing.

It was because they were defeated again, moreover defeated when an Emperor Clan took action, almost killed in the process. The reason Chi Menghong could run away in the end was because of everyone’s assistance.

Was there anything even more aggravating than this? A single youngster challenged all of the geniuses of this side, yet it was still Huang who won in the end!

Yu Yu, Wu Kun and the others wanted to take action, but they didn’t want to do it right now, not willing to step up immediately after Chi Menghong was defeated. Moreover, they still wanted to seize Dao Comprehension Tea Leaves.

Shi Hao laughed loudly, basically undisguised provocation, looking down on the other side’s kings, making their faces fall ashen, extremely unpleasant.

On the ground, Chi Menghong’s body turned into a vicious beast, not all that large and tall, just a zhang or so long, entirely scarlet red, carrying ice-cold metallic luster, covered in bone spurs.

Its appearance was similar to its primordial spirit after all, this was the Time Beast’s original body.

Shi Hao walked over, his finger like a blade. With a pu sound, he directly removed a beast leg. Half of its body had been smashed, but there was still a half that was intact.

He chose a complete beast leg, carrying it in his hands.

“You... what are you trying to do?!” A King Clan expert shuddered. He gathered courage, berating from that place.

“I am collecting my spoils of war, what does it have to do with you? If you don’t want to die, then get lost!” Shi Hao’s eyes were ice-cold, killing intent surging like wisps of smoke, not hiding anything.

That King Clan expert immediately felt his entire body go taut, icy-coldness penetrating into his bones, feeling as if he fell into an ice-house. He didn’t say a single word more, not daring to open his mouth.

“Huang, don’t go too far.” A few people shouted, standing together, as if they were using each other as support out of fear of Shi Hao attacking them.

Shi Hao didn’t pay them any attention, sitting down, directly cleaning that beast leg. He lit a dao flame right there and then, starting to roast it.

In that instant, this place was dead silent, a few people’s jaws almost falling to the ground.

At first, they thought that he was purposely breaking Chi Menghong’s body, using this as humiliation. However, they never expected that he actually did this for food!

“Ah, Huang, what are you doing?! You are inciting public anger!” Not far out, Chi Menghong’s servants screamed, truly frightened badly.

This was especially the case with the human race servant who had his body blasted to pieces, only a head remaining. It was not far out, too close to Shi Hao.

This human servant was shaking, convulsing, horrified to the extreme. His patron that he relied on even had his body cut up, how could he not be scared?

However, he still shouted, "Huang, you can't do this! It's too savage and cruel! They are but Emperor Clans, how could you eat him?!"

"You good-for-nothing slave, beyond saving!" Shi Hao gave him a cold look.

Then, he roasted that beast leg while saying, "The foreign creatures eat my human race, not wishing to speak any reasoning, because the weak eat the strong. As a human, this is all I can do, powerfully retaliate. All those who eat us humans, I will do everything I can to retaliate, kill and treat them as prey, seize back the glory of the human race that has disappeared through eating, wash away the humiliation. This is precisely what I am doing right now, eating a beast leg!"

Motherfucking... eating Emperor Clans? Even eating is a type of glory? It really frightened many creatures badly!

"Wu, you obtained another Dao Comprehension Tea Leaf. Hurry and offer it up." Shi Hao looked over, pointing at a King Clan's people.

"You... you are robbing us!"

"Correct, you are absolutely right, I am robbing." Shi Hao replied absent-mindedly.

#### Chapter 1604 - Extravagantly Advancing

Those King Clan cultivators' faces immediately became green, feeling a headache. They were all furious, inwardly cursing Huang. You really are going to be just this direct?

Robbing, doing it so openly and without fear, stating like this was only normal, it really made others want to vomit blood, wishing to smack him. However, they weren't his opponent.

This clan wanted to ask for help. They looked towards other creatures, but no one paid them any attention, completely ignoring them.

"I don't want to hear nonsense, and don't waste my time. It was precisely you all and Chi Menghong's servants who interfered with my Dao Comprehension Tea Leaf acquisition process. It's now time to collect interest!" Shi Hao said.

He sat on the ground, carrying a large beast leg in his hands. It was more than half a person's height, a strand of dao flames surging from it, currently being cooked repeatedly.

The fiery light was extremely bright, dao patterns interweaving. These were flames produced by dao laws.

"You already took a leaf from us!" One of those King Clan cultivators braced himself and said. He felt great shame, this wasn't the first time they were being robbed, now, it was even so direct. If they were strong enough, he really wanted to go over and fight!

"Of course I know this. After robbing you guys, I settle a debt with Chi Menghong." Shi Hao said calmly.

However, in everyone's ears, these words weren't calm at all, instead surging like great waves. What was Huang trying to say? Was this a death threat and warning?

It was because after settling the debt with Chi Menghong, the Emperor Clan young experts almost died, their primordial spirits escaping with difficulty.

"Take it!"

After a moment of silent, those young experts gave up. One of the King Clan experts walked over, handing over a sparkling leaf in an extremely sullen mood.

"Thanks buddy!" Shi Hao expressed his thanks.

Those people's faces darkened. Thanks? Thanks my ass!

Shi Hao proficiently turned the beast leg over the flame while accepting the tea leaf. It was already cooked, carrying a bit of golden luster, a rich meat fragrance spreading.

Meanwhile, during this process, Shi Hao continuously added seasoning to the beast leg, his movements practiced and quick, full of experience, as if he often did this type of thing.

This made the crowd's jaws drop, looking at him with strange expressions. Don't tell me this fella often did this type of thing?

"My skills are getting a bit rusty, been some months since I've been able to gorge myself." Shi Hao muttered.

Motherfucker! A group of people wanted to curse out, all of them furious. He was a cultivator, yet he cared about some cooking skills? However, from his appearance, they knew that he definitely wasn't of the good sort. In their eyes, this youngster definitely had a black heart and vicious hands, definitely roasting quite a few of his opponents, swallowing them whole.

"We... should just leave!" After those King Clan cultivators discussed things, they came to this decision, faces green. It was because with this vicious Huang here, they definitely wouldn't get anything.

They were worried that they would get robbed each time they obtained a leaf.

"Slow down, you all still owe me a Dao Comprehension Tea Leaf." Shi Hao stopped him.

When they heard this, those people immediately staggered, almost falling.

Of course, the most annoying thing happened. These people wanted to speak out in anger, but they were scared that Huang would act out, this really was... completely absurd. Their expressions changed, becoming incomparably gloomy.

"This is an instance of natural luck, why are you all in such a hurry to leave? I need three dao comprehension tea leaves as interest, the rest are yours to keep." Shi Hao said.

Those people looked at each other in dismay, feeling so much hatred the roots of their teeth were sore. At the same time, they really didn't want to leave. Based on their calculations, they could still obtain one or two leaves.

Soon afterwards, this place became intense again, many people taking action, blasting the altar, seizing the leaves.

Meanwhile, during this process, Shi Hao cooked that beast leg, the color golden, fragrance spreading,. There were also many time fragments floating about.

This type of meat quality was clearly great mending medicine, carrying dao law energy, flowing with chains of order. This was the essence of the Time Beast!

“This... really is too delicious!”

When Shi Hao took a bite, his face was full of expression, eyes closing, completely infatuated. Symbols flickered endlessly between his lips and teeth.

When the others saw him, they were beyond fed up with him. This hateful Huang, while others were working their asses off seizing dao comprehension tea leaves, he was eating and drinking heartedly.

Of course, many people felt jealousy. Even though they really wanted to curse him, they were envious inside. That was but a Time Beast! Who dared eat such a thing?

Since the ancient times, Time Beasts were always unmatched clans. With Scarlet King overseeing this clan and their innate skills, which clan dared offend them?

Emperor Clans, from past until now, when had they been treated as food?

Now, someone did it, roasting Chi Menghong, eating a leg in front of everyone, looking incomparably satisfied, leaving others speechless.

Under the Dao Comprehension Tea Tree, those elders actually didn't stop him, only watching coldly.

“He really... ate it!”

In the distance, those creatures said with trembling voices, as if they had seen a ghost. This Huang was too savage, daring to eat even an Emperor Clan!

“I want to see who can protect him! When Scarlet King comes out of seclusion, even if the other undying kings want to keep his life, it will be hard!” Under the Dao Comprehension Tea Tree, an elder said coldly.

Regardless of what these people thought, Shi Hao really did eat the Time Beast. He felt like he made some progress in his Reincarnation Divine Ability, seizing many time fragments from the fine meat, the power of natural laws.

Soon afterwards, the entire beast leg was finished.

“Wu, that really was delicious. The heaven and earth essence stored within this type of leg is comparable to several hundred years of cultivation effort!” Shi Hao sighed with praise.

It was a type of great mending medicine even for him.

Emperor Clan, who dared eat them, who could eat them? This was completely taboo. Even if there were some creatures who inwardly swallowed their saliva, they still felt a type of alarm. Huang was too terrifying, too much of a freak.

Then, Shi Hao wasn't polite at all, seizing the rest of Chi Menghong's body. This was a vicious beast, extremely ferocious and sinister, with a Flood Dragon head and lion body. The surface of its body was covered in bone spurs.

Shi Hao brought it over, soon afterwards fishing out five jade containers from its body. There were five Dao Comprehension Tea Leaves there. He smiled, his rewards this time were quite abundant.

"A cup of tea after a good meal, and then a nap." Shi Hao said. He put the Time Beast's body away.

Then, he began to gather the snow water from the distant frozen peak, starting to brew tea.

The five leaves were all used in one cup, all found from Chi Menghong's body. They were cooked together, extremely extravagant.

When everyone saw this scene, their eyes all opened wide, really wanting to loudly berate this wastrel, so jealous their eyes became red. These were Dao Comprehension Tea Leaves! This was just like an ox chewing on peonies!

Shi Hao didn't pay them any attention, just that easygoing. After the tea water was prepared, fragrance wafted out, waves of great dao shining, making him feel clear-headed and refreshed.

Then, he drank it with a single mouthful, not even enjoying it sip by sip.

This clearly made everyone feel more and more uneasy, really wishing to beat him up, suppress him!

Shi Hao closed his eyes, carefully experiencing this. His body felt clear, sensing heaven and earth natural laws, lingering within great dao order, comprehending the real meaning of cultivation.

Honglong!

An expanse of brilliance surged from his body, and then another wave was released, symbols flickering about again and again, the brilliance resplendent, as if there were many suns here.

The great dao aura was extremely rich, truly astonishing!

No matter how unwilling the great King Clans were, one point where they couldn't refute was that Huang was indeed just that heaven-defying in his path of cultivation, leaving them jealous and envious.

Everyone knew that he obtained great benefits again.

Kacha!

It was like bone cracking sounds, but also like lightning flying past. This entire world trembled.

At the same time, Shi Hao's body also shook, then he opened his eyes. This was all because he broke through!

The five leaves merged into one pot, turning into dao liquid, allowing his comprehension to reach a deeper level of profoundness. Now, he successfully advanced.

Self Severing Realm late stage!

He broke through just like that, becoming stronger and stronger!

In reality, when Shi Hao drank a cup of Dao Comprehension Tea before, he already sensed that he was a step away from Self Severing Realm's late stage.

However, he knew that sometimes, half a step of distance was like a heavenly moat, also like a path to the sky, which was why he didn't hesitate to brew the five Dao Comprehension Tea Leaves together, drink it in one gulp.

As a result, he directly gained enlightenment, smoothly advancing!

Shi Hao stood up, stretched out his body, sensing the power of his body. With power came more confidence. His cultivation realm increased, dao skills improved, strength extremely horrifying.

The other creatures were actually a bit stunned. He ate a Time Beast's leg, drank a cup of tea, and he already experienced a great breakthrough? Was there anything more absurd than this?!

They were all screaming inwardly, this world was too unfair. Why was this savage fella this much of a freak?!

Everyone was speechless. Huang broke through again, meaning that he became another bit stronger, even harder to contend against.

Who could still fight against him?

Everyone was stupefied, furious, unwilling, at the same time a bit frightened. Huang really was too terrifying. Just how old was he? Yet he wasn't far from the Self Release Realm!

At this age, with this type of cultivation speed, it was definitely enough to break this great era's records!

Many people began to lack confidence, because in their opinion, Huang's eyes were extremely bright, currently looking around, sizing up everyone! n-σ-ν-e(-ℓ)/b.-l//n

What was the meaning of this? Was he going to rob a large group of creatures?!

Chapter 1605 - Abundant Harvest

Huang's eyes were shining too brightly, as if there was green light released from them. He looked excited, his eyes scanning over everyone.

He felt like a wolf who had starved for many days, now finally seeing prey, about to hunt. Those vicious eyes were too similar, simply the same.

The group of people were all extremely uneasy. Being stared at by this extremely young fella made their bodies all become tense.

"Yi, you all aren't bad, obtained another tea leaf! Come here and pay back your debt and settle things." Shi Hao looked towards one group of people.

Those King Clans' faces immediately fell, feeling completely powerless, almost directly falling weak. Why were Huang's eyes this vicious? They worked themselves to death, finally obtaining a third leaf, yet in the end, he noticed it again!

They were spiritually weary and physically exhausted, the price they paid too great. They finally obtained a third Dao Comprehension Tea Leaf with difficulty, yet in the end... they had to offer it up again!

They wanted to cry, really felt too wronged. These were there Dao Comprehension Tea Leaves, three chances to comprehend the dao, yet these chances were gone just like that.

Why did they have to provoke Huang? If they knew that things would end up like this, they really shouldn't have listened to Chi Menghong's order. Just interfering once resulted in having to pay this type of miserable price! These people wanted to cry.

"Just give it to him, it's still better than losing our lives in the end, even Chi Menghong was eaten by him, us handing over three leaves can't be considered shameful. Starting from the fourth, it will truly belong to us!" One of them said, trying to compromise, give himself a way out of this embarrassing situation.

Just like that, Shi Hao received another bonus, extremely satisfied.

He looked at the other creatures, but didn't attack. Instead, he took action himself, attacking the earthen altar. It was because comparatively speaking, he could seize quite a few on his own.

This time, he used the Kun Peng Technique. A pair of giant claws brandished about, one golden, one pitch-black like ink. Yin and yang energies swirled about, clashing with each other, tearing apart the screen of light with a hong noise.

It was extremely simple, not paying that great of a price to obtain a Dao Comprehension Tea Leaf.

Then, the Kun Peng claws withdrew, and then smashed into the light screen again, tearing this place apart, seizing another jade container.

The second time was considerably more difficult than before, a bit strenuous.

Just like that, Shi Hao continuously obtained five containers of immortal tea leaves, and then no longer used this precious technique. Even though he could continue, if the exhaustion of magical force was too great, the losses wouldn't make up for the returns.

It was because he was still on guard. There might still be great battles ahead!

At the very least, he wanted to rob some more, there was no way he would end things that peacefully.

Chi!

Willow Deity's technique appeared, but it was a variant. Shi Hao's right hand turned into a golden divine chain, like a whip, thrashing the barrier of light, bringing out a jade container.

Just like that, he obtained five more containers with the Willow Deity Technique.

"Reincarnation!"

It was now the Reincarnation technique's time. All sides raised their eyebrows, feeling great restraining fear. It was because natural laws that touched upon time were the most terrifying, especially when Huang had just defeated Chi Menghong.

Another five containers were obtained.

“Heaven Calamity Light!”

Afterwards, he used the Six Dao Reincarnations Heavenly Art!

After that, Shi Hao released a shout, an extreme point erupted from his abdomen, piercing through the earthen altar, magical force surging from the Sea of Reincarnation, obtaining more Dao Comprehension Tea Leaves.

Shi Hao tried all different things, even using his body as a seed, this time obtaining an exceptionally large amount, not tired even after exceeding five leaves.

In the end, Shi Hao obtained several dozen containers of immortal tea leaves, his rewards great, incredibly shocking.

Now, it was time to use them up. He still had forty-nine leaves on him, all of them sparkling and translucent, placed in the same jade vessel, a sweet fragrance spreading.

The crowd was stunned. This was just too much of a freak right? A single person obtaining this many leaves, how were others even supposed to live?

The group of young kings were all speechless. They joined hands, doing everything they could, every single clan only obtaining three or four leaves, yet Huang obtained that many alone.

They could only inwardly curse that this savage bastard was too much of a monster, his strength ridiculous. No wonder he could defeat the Emperor Clan’s Chi Menghong!

The most crucial thing was that his speed was too fast, not even stopping in between, seizing those immortal tea leaves in a single breath, obtaining them smoothly.

At this time, many people felt uneasy.

It was because Huang no longer attacked the earthen altar, instead truly starting to deal with them, clearly harboring malicious intentions.

“You, and you, right, and your clan, your hostility towards me is too strong. Ever since I came to this mountaintop, you all kept releasing killing intent, really wanting to immediately kill me. Don’t think that just because I’m restraining myself that I won’t react at all, I long remembered who you all were. Let’s have a talk, settle things, chat about just how I’ve upset you all.”

Shi Hao pointed out three clans in one breath, at the same time facing eight or nine elites. Those people came from three King Clans, all of them powerful young cultivators.

These people’s minds immediately sunk. In the end, Huang still targeted them.

“You misunderstood, we have always had no grudges between us, don’t owe each other anything.” One of them replied.

“Are you sure that I don’t owe you all anything?” Shi Hao asked.

“Yes!” That person nodded.

“En, then I understand, it’s you all who owe me. How about this, each clan will offer up three leaves, and then we’ll just write everything off with one stroke.” Shi Hao said.

“You... don’t go too far!” A King Clan young expert shouted. He really was upset. They originally wanted to keep the peace, but they discovered that the other side didn’t appreciate their kindness at all.

“Huang, don’t be too overbearing. You have to know that this is our world, stirring up trouble won’t bring you any benefits! Be careful of the consequences!” A King Clan spoke even more powerfully, threatening like this.

“I loathe being pointed at and threatened the most. Ever since I came to this side, I never planned on returning. Since you feel like your clan can subdue me, then why don’t you give it a try?” Shi Hao said coldly.

Then, he decisively took action, not hesitating at all, extremely direct. With a hong noise, a fist smashed outwards, heaven and earth shaking.

Lightning Fist, hundreds of thousands of streaks of lightning, each several dozen zhang in length rushed out, powerful and domineering!

Shi Hao’s fist was wrapped within lightning, releasing a terrifying rumbling noise. The grand fist crushed the sky dome, lightning radiance endless, brilliance intimidating, impossible to look at directly.

It was just that direct, because he predicted that after the undying kings returned, there was no good ending for him.

That was why he didn’t feel any restraining fear. Either way, he didn’t have much time left. If he was going to die, then he might as well let loose one final time!

The King Clan who threatened Shi Hao’s face immediately became miserably pale. He never expected Huang to take action as soon as he said he would, no hesitation at all, not threatened in the slightest.

Even though he was somewhat prepared, all types of ancestral methods shooting out, the protection light screen was still immediately blasted through, and then the Lightning Fist slammed into his body.

Pu!

It was just a single fist, tearing through his body, producing large amounts of lightning radiance, extremely domineering!

Then, his body exploded with a peng noise, leaving behind an expanse of bloody mist. However, soon afterwards, it was burned to ashes by the electrical radiance, body and spirit erased.

This type of domineeringness, this type of exceptional sharpness deeply shocked everyone. This place was completely silent, just too quiet.

A powerful King Clan elite died just like that.

That creature was thirty something years of age, possessing astonishing potential, yet before Huang, it was like a straw man, easily killed.

“That is but a King Clan! Yet he was so easily... simply and directly erased by Huang?”

Coldness surged within their hearts. It wasn't that they didn't know Huang was formidable, after all, they had witnessed his great decisive battle with Chi Menghong.

However, now, this result was still hard for them to accept. When facing a powerful King Clan, a single fist from Huang ended the battle, too fast and powerful.

"These immortal tea leaves are yours!" Finally, someone couldn't hold on anymore, no longer daring to have an ego. There was nothing more important than remaining alive. This Huang was too savage.

In the end, the three King Clans all compromised, offering up nine leaves in total. They swirled with brilliant colors, the leaves extremely brilliant, making their hearts bleed.

"Many thanks!" Shi Hao cupped his fist very modestly and respectfully, expressing his thanks.

Fuck off! Those people really wanted to scream out, but they held themselves back, all of their faces darkening, feeling absolutely horrible.

"Sigh, can't be helped. There's only fifty something immortal leaves, not even enough to drink." Shi Hao said.

The others immediately wanted to swear when they heard this. Fifty something isn't even enough to drink? How do you want the other King Clans to endure this? Wouldn't they feel too poverty-stricken?!

Then, Shi Hao looked towards the other creatures. There were quite a few King Clans here, all of them more or less having some rewards, some even obtaining six or seven immortal tea leaves.

Those King Clans immediately looked towards Yu Yu, Mo Xian, Wu Kun and the others, hoping to see how they felt. In the end, the Emperor Clans didn't say anything, leaving them rather disappointed.

Right now, Yu Yu really wanted to take action, but ever since he saw Shi Hao drink the Dao Comprehension Tea from the tree, successfully advancing to the Self Severing Realm late stage, he endured it.

It was because he hadn't reached that stage yet, his cultivation lacking a bit, needing to return and break through in seclusion!

The others didn't have any intention of making a move either, because Chi Menghong had just suffered a great defeat, they didn't want to immediately get mixed in the muddy water. Right now, the most important thing was drinking the Dao Comprehension Tea, to break through as fast as possible.

When they broke through another checkpoint, strength became greater, everything would be easier to deal with!

The great King Clans were disappointed. This was especially when they saw Huang looked towards them, all of them frightened, feeling like they had been targeted by the darkness' prehistoric colossus.

"There's no need to be scared, he is just one person! Don't tell me we can't subdue him if we work together? Everyone, go up together!" Someone secretly encouraged.

Shi Hao immediately gave his reply. With the body as the seed, his spiritual senses sharp, he had always been staring at these people. He immediately noticed who it was that was secretly transmitting sound.

Sou!

An afterimage was left where Shi Hao was originally standing, throwing himself over.

Blazing radiance erupted, resplendent divine radiance rushed into the sky dome. Shi Hao's fist carried terrifying radiance, tearing apart the skies, a fist rushing past, blasting that person to pieces.

This was too terrifying!

Many people trembled. They were but King Clans! That young creature was extremely strong, yet in the end, he was killed with a single strike!

Many people's confidence collapsed, expressing that they were willing to hand over three Dao Comprehension Tea Leaves.

Soon afterwards, Shi Hao obtained another dozen or so leaves.

"Run!"

"Kill!"

At this moment, chaos erupted. There were some King Clans who wanted to break out, escape from this place.

Shi Hao took action, extremely decisive.

Soon afterwards, he obtained more than a hundred and twenty leaves, his harvest abundant!

Then, he didn't have any more chances, because the elders who guarded the ancient tree interfered, stopping this chaos, not wishing for there to be greater casualties.

This place was a mess, the wounded everywhere. In that instant, everyone witnessed Huang's terror, really unstoppable within these kings, invincible!

"Thank you everyone, I invite you all to eat the Time Beast, this really is a great mending medicine! After it is roasted golden and the meat fragrance spreads, it should be able to compensate for your losses."

Shi Hao revealed a warm smile, revealing a mouthful of snow-white teeth, doing his best to express his harmlessness, calling out to everyone.

A few people were tempted, but they still really wanted to curse out!

They really wanted to eat it. After all these years, how many dared to eat an Emperor Clan? Yet here... there was a foodie who really did this!

However, right now, they wanted to curse at him, did he even have any sincerity? Inviting like this, who would accept it? If anyone went over, they would be on Scarlet King's blacklist sooner or later, killed! n--0V2Lb1n

Their eyes really became red, really wishing to have a taste. Even if these kings hated Shi Hao, they really did long for the Time Beast's delicious meat. Unfortunately, none of them dared actually take action!

"You all are too polite, why are you regarding me as an outsider? Look how great this mending medicine is, yet you all aren't coming to enjoy it. Sigh, then don't blame me for being insincere! The leaves I got from you all, I originally wanted to stew with the meat, but you all don't want any. Then things are settled!" Shi Hao said righteously.

Motherfucker! Everyone wanted to beat him!

"After drinking a pot of dao comprehension immortal tea, I hope I can break through again, become a Self Release Realm cultivator!" Shi Hao said with a sigh.

There was another line he didn't say, which was that when he broke into the Self Release Realm, he wanted to try and kill a supreme being or two. If that happened, then he would be content.

#### Chapter 1606 - Fishing Reincarnation and Time

Of course, this was his own wishful thinking. No one could say for sure when the undying kings would return!

Moreover, after he stirred up this disturbance, this side's undying beings might change their attitudes. The longer things were dragged on, the worse his situation would be.

Under the Dao Comprehension Tea Tree, the elders' expressions changed continuously. There were several times along the way when they wanted to take action, but they always held themselves back.

"Was that saying true?" One of them asked quietly.

"Without wind, there cannot be waves. Otherwise, why would the undying beings establish the decree, allow him to move freely?" Another elder replied, his expression grave and stern.

It was because they heard some astonishing information. If their statuses weren't high enough, there was no way they would be able to hear about these things.

There were rumors that the undying kings wanted Huang for other uses, not to kill a genius prematurely, but rather to raise him up!

This was definitely shocking news. When the secret information was passed about, the higher levels of this side were all shaken, some of them petrified, even a few old monsters completely speechless!

That was why the undying decree was passed down, the matter of Huang's pardoning happening. Otherwise, how could their attitudes change so greatly?!

This was secret information, few people knowing of it.

That was why the elders protecting the Dao Comprehension Tea Tree were hesitant. They wanted to viciously deal with Shi Hao, but in the end, they all endured.

It was to the extent where they hoped for Shi Hao and Chi Menghong's confrontation to raise an even greater storm, and then see if Scarlet King would directly slap him to death when he comes out of seclusion in the end!

"I don't think it's trustworthy. Why would my side's unmatched great ancestors foster an enemy child? Isn't this just indulging our enemy, asking for trouble?" Under the Dao Comprehension Tea Tree, an elder was doubtful.

Another released a light sigh and said, "You're wrong, in the eyes of the undying kings, no matter how heaven-defying he is, so what? He would still be an ant. Even if he is fostered into a true immortal, they could still kill him easily! Never try to evaluate my side's great ancestors through your own way of looking at things, every single undying king is majestic and heroic. Even if a person is raised for an entire great era, if they want to kill him, they won't even need to frown, just quickly kill them. There were past examples of this!"

"There is another saying, my side's great ancestor is raising bait, the ones they are trying to fish out aren't Imperial Pass' creatures, but rather prehistoric giants!" Another elder suddenly said.

When they heard this saying, everyone closed their mouths, not saying too much. It was because they touched upon a taboo topic, not daring to speak too much.

There were some people who already knew that this era was destined to be extremely glorious, but also extremely dark, full of blood and cruelty. It would involve not just a single great era, but rather settling things on a larger scale.

The Dao Comprehension Tea Ceremony ended extremely suddenly. There was no brilliance like before, because this entire event was thrown into disorder by Huang.

Yu Yu, Wu Kun, and the others' expressions weren't all that good. If it was in the past, in the end, there would be a great battle, even chaotic warfare possible, seizing Dao Comprehension Tea Leaves.

In the end, a single Huang disturbing the entire event concluded the distinguished meeting prematurely.

Even though there were chaotic battles, only a few kings fought with Huang, the Emperor Clan young experts didn't even get a chance to participate before it ended!

Everyone got off the mountain. There were creatures everywhere, clogging up the stairs. However, normally, no one flew out of respect towards Dao Comprehension Mountain, this sacred land.

However, at Huang's side, few people approached. It was as if there was a label stuck on him, no one willing to get close, or else they might just get crippled.

After this event, his vicious reputation spread.

Of course, in the eyes of the foreign kings, it was better to call him infamous!

When everyone arrived at the bottom of the mountain, they were still gnashing their teeth in anger, feeling like Huang was too hateful, taking away more than a hundred and twenty tea leaves by himself, making everyone's eyes go red.

This was especially the case for the clans who were robbed. They really wanted to fight with him again to the death.

However, they endured it, not wishing to throw their lives away.

At the foot of the mountain, an old woman's face was pale, lips quivering, protecting the children with her arms. She was worried, scared that the King Clans would treat her like food.

It was because the cultivators who came down from the mountain all carried killing intent. Whenever they looked over, the looks in their eyes would always make her shiver inwardly.

That pretty little girl hid behind her, fear covering her face, tears falling from her large eyes, feeling extremely helpless.

The other children were extremely numb, forgetting to even cry, because they really were scared badly. How could they endure the killing intent?

"Do you all want to die?"

Right at this time, a voice sounded, extremely cold, making the cultivators of all clans shiver, and then quickly leave.

The old woman was shocked. The King Clans were actually chased away? She raised her head, immediately stupefied. That was a young man, his name Huang. He came down from the mountain peak alive!

They were all humans, yet he was actually this strong, just a single person, yet he shouted back at the cultivators of all clans. The old woman was moved. After all these years, even humans could be this powerful? **noVE-Lb-In**

"Big brother, did you come to save us?" The four or five years old little girl said, tears hanging from her face, asking weakly. She raised her head, small face filled with hope and longing.

After all these years passed, when this little girl grew up, becoming a 'heaven reaching tree' herself, when she recalled the past events, recalling the Huang of this era, she would carry gratefulness and strong emotions.

It was because that day, this young man named Huang single-handedly tore through the dark sky above her, granting her hope and a new dawn, allowing her to take a different path.

Shi Hao squatted down, rubbed the children's heads, and then raised the girl, quietly consoling her, telling them not to be scared!

Then, with a light shout, he directly scared off all of the surrounding King Clan young cultivators, no one daring to stare over again, look in this direction.

Shi Hao waited at the foot of the mountain. Only when Mo Xian came down the mountain did he lower the small girl, greeting her.

"With both of us being humans, I believe that you definitely have a soft spot within your heart. Please bring these children with you." Shi Hao said.

This was Mo Dao's older sister. Through Mo Dao's nature, Shi Hao felt that Mo Xian shouldn't be an emotionless sister.

"You trust me this much?" Mo Xian stood there, her beautiful face incredibly delicate, not having a single flaw, as if the lunar goddess descended here.

"I do." Shi Hao nodded.

In reality, the main reason was because he had no way of bringing these children away himself. He was a foreigner, a captive to begin with. Bringing these children with him would only harm them.

"Alright." Mo Xian nodded. She lifted up that little girl, and then said, "I hope my younger brother is also well."

She actually spoke this line. Then, without stopping for a moment, she brought the old woman and children to leave.

"Wait!" Shi Hao shouted.

With a wave of his hands, he produced a jade container, within it ten immortal tea leaves, gifting it to Mo Xian.

Nearby, the kings' eyes widened. Huang actually took the initiative to gift out dao comprehension leaves! This demon king robbed them, yet he actually gave them away too

A few people lamented, some jealous, expressing inequality. They were furious, but carried helplessness.

It was because they really didn't dare provoke Mo Xian.

Mo Xian, even though she was human, she was regarded as important by a certain ancient Emperor Clan, always fostered by them, at the same level as the Emperor Clan's direct line of descent, her status terrifyingly high.

"Aren't you the generous one." Mo Xian said calmly. Her beautiful eyes flickered with divine radiance. She didn't reject him, accepting it.

"Let me ask you a question. Which places in this side are special, suited to cultivation and comprehending the dao?" Shi Hao asked. He obtained so many immortal tea leaves, so he naturally wished to use them as soon as possible.

"There is a place that isn't too far from this place named Ocean Fall, you can go there. However, don't be too curious, or else you might just throw your life away, not even the undying kings would be able to save you if they go." Mo Xian replied, moreover seriously warning.

When Shi Hao heard this, he began to walk in the direction she told him.

"Big brother, you have to promise that I can still see you again!" In the back, the little girl Mo Xian carried was full of tears, extremely pitiful. She fiercely brandished her little arms, her large eyes entirely red.

"Goodbye!" Shi Hao didn't turn around, his back facing her while waving his hand, walking into the distance.

Hundreds of thousands of li out!

Ocean Fall, it was just like the name, it really was like this in appearance.

This was an ocean that stretched out endlessly, boundless and immeasurable.

It was gray-colored, an extremely strange body of water, roiling as it moved, ocean waves ear-splitting!

At the same time, it wasn't on the ground, but rather in the sky, like a majestic waterfall, really too grand! An ocean suspended in the sky above, really an ocean waterfall!

The strangest thing was that Ocean Fall didn't fall to the ground, but rather flowed from the ground towards the sky like a boundless great river suspended in the starry skies.

On the ground, there was no ocean source, it just appeared suddenly from the surface as if it came out of thin air. It actually roared towards the heavens, forming an ocean waterfall!

It was three feet from the ground, not any more, not any less. There was no water within these three feet, while if one went beyond it, it was a sea that surged into the heavens.

Meanwhile, above the sky dome, there was no limit visible, the source unknown.

It was because at the highest point, there were time fragments dancing about like the most beautiful flower petals, fluttering about. One could vaguely make out long rivers of time accompanying it!

This place was definitely special!

From the moment Shi Hao saw this, he was inwardly shaken.

When he arrived before Ocean Fall, Shi Hao saw some creatures. They didn't release great magical force fluctuations, but they were all extremely important, all closing their eyes, quietly sitting there, every one of them having a fishing rod before them, angling. Meanwhile, they themselves were petrified like stone.

En?

He saw someone familiar, actually recognizing this person.

There was a woman with fiery red hair, incomparably pretty, scarlet-gold armor covering her body. This was an exceptional beauty, enchantingly attractive.

There was also a man with long golden hair, extremely brilliant like that of a sun god's, possessing the most holy and pure traits.

This male and female were people Shi Hao recognized, he had met them in Burial Abyss!

The male was named Sanzang, the girl Shenming. They were extremely pure and holy, carrying exceptional auras, like the most noble deities!

However, Shi Hao knew that they were undead knights, the most powerful Golden Undead Knights!

Right at this time, the two of them opened their eyes. When they saw Shi Hao, they were all a bit surprised, and then they revealed smiles.

"It really is a small world." Sanzhang said, extremely bright and open, golden multicolored light pervading the air.

"What are you all doing?" Shi Hao asked.

"Angling." Sanzang said.

Shi Hao stared blankly.

"We are fishing a segment of time. Darkness surrounds the great earth, blood covers the endless ancient graves, a chaotic time." Shenming said, her expression serious.

"I am fishing for a set of reincarnation, three burial, three eradication, three world reincarnation." Sanzang said.

#### Chapter 1607 - Burial Kings' Path

Shi Hao didn't say anything immediately, instead looking at them. He found it really hard to calm down, but he was still able to conceal it.

Even though he felt like what these two said was a bit too absurd and unrealistic, he didn't retort. At the same time, he knew that these two were extraordinary, having outstanding areas.

At the very least, they were undead knights!

Moreover the most mysterious Golden Undead Knights with the most shocking origins!

This type of status would only be greater than Chi Menghong, Yu Yu and the others'. Their backgrounds might be a bit more special, even more respected.

These were two dangerous figures!

Shi Hao never looked down on them, because from the moment he met them, he already knew that these were two Self Release Realm Golden Undead Knights!

Their degree of danger far exceeded Chi Menghong!

At the same time, Shi Hao had some misgivings, even some concerns, all of them because of these two.

That day, they explored Burial Abyss together, facing a mysterious chest known to be the Origin Ancient Artifact. Even though they managed to survive after utmost difficulties, these two seemed to have become a bit different.

Shi Hao previously heard the undead knights say that endless years ago, there were Burial Kings who explored Burial Abyss, when they returned, they were completely different, as if they were a different person!

To be more precise, the original Burial King disappeared, instead, a new Burial King appeared. The outer appearance was the same, but his will was completely different!

One could imagine just how terrifying the Origin Ancient Artifact was. Not even Burial Kings could approach it!

Meanwhile, Shi Hao previously saw the limits of the darkness there, seeing primordial spirits struggle free from the black cracks. It was extremely similar to the place he had previously experienced -- Prison of Darkness.

When he cultivated the second strand of immortal energy, his primordial spirit had left his body, disappearing into the world, entering endless darkness. There were many prisons and long rivers of time, endlessly mysterious. That time, he almost died, barely managing to return to the real world!

Shi Hao was confident that Burial Abyss had a small opening connected to the Prison of Darkness. After endless years passed, it might open once, a few primordial spirits able to rush out.

Now, when he saw Sanzang and Shenming, he no longer believed them to be purely Golden Undead Knights, always feeling like there was something off.

Meanwhile, if it was just like his suspicions, their statuses... might be world shocking, shake up the worlds!

Perhaps even if the undying came, they would still feel restraining fear.

"My friend, why did you come here as well?" Sanzang asked with a warm smile. The fishing up an instance of reincarnation, so-called three burial three eradication, three world reincarnation was extremely similar to his name. Was this a coincidence?

It had to be said that his appearance really was good, golden hair like morning multicolored light, extremely brilliant, scattering down his shoulders, face pure white like jade, like the most holy deities.

Many beautiful young ladies would feel ashamed of their inferiority before him, feeling like standing with him was a type of blasphemy, because he was just too exceptional.

Shi Hao inwardly sighed. This was an undead knight, someone who lived in the underground ancient tombs, yet he was this pure and holy, was there even any heavenly reasoning left?

He had to admit that this young man was prettier than him, too handsome. His skin was like fine jade, possessing exceptional good looks, really not a single flaw to be found.

"I'm currently wandering around, taking a look. This place is quite special, so I came for a visit." Shi Hao replied.

"Huang, one parting and many days have passed. Your style seems to be greater than the past." Shenming said with a smile. She long put away her serious expression. Right now, she had the countenance of a flower, face like the moon, her smile enough to topple cities.

It had to be said that this really was an extraordinarily beautiful woman. Under the divine brilliance, her beauty could cause the downfall of a city, every frown or smile able to move hearts. Her skin was snow-white like jade, sparkling and supple, carrying a moving brilliance.

This was especially the case with her large eyes, vivid and full of life, charming souls. Her eyelashes were extremely long, nose tall and straight, red lips extremely bright-colored, extremely seductive.

Her teeth were snow-white, shining like pearls, gently nibbling her red lips, absolutely captivating.

This was a flawless woman. Her figure was tall, legs straight and long, figure seductive, currently in her golden years. Her swan neck was snow-white, charming with every movement.

She was a Golden Undead Knight, but she looked even more elegant than an immortal, holy splendor released. At the very least, this was the case when she was quiet.

At the same time, she was alluring, as soon as she moved, everyone would lose their minds. When her eyes swirled with radiance, she was absolutely captivating.

These were two contradictory natures, yet when she moved versus when she was still, she would seem entirely different.

"How can my style be comparable to Fairy Shenming? Completely an ordinary person before an immortal realm pearl." Shi Hao spoke modestly, also praising the other side.

He felt more and more restraining fear towards these two, because he just felt like they were even more extraordinary than when they first met.

"Fairy? Haha, do I look that holy and outstanding? There really aren't many who praise me this way." Shenming's smile was brilliant, large eyes moving, increasingly charming. Her head of fiery red long hair was bright and smooth, scattering down over her large chest and smooth back.

Shi Hao was shaken, what kind of attitudes did burial knights have towards immortals? Was describing her like this a type of taboo? Exactly what kind of relationships did they have with immortals? Were they enemies, or were they completely isolated from each other? It was hard to say.

"Of course your beauty exceeds that of a fairy, young miss Shenming is peerless, transcending above this world, rarely seen in this world." Shi Hao said.

"Is that so? Then in that case, it seems like we share good emotions. If I invite you, would you be willing to join our bloodline?" Shenming giggled.

"We are friends, speaking too much would be like treating me as an outsider." Shi Hao replied.

"Then that really is too great, let's travel together. Wu, I am lacking the most intimate companion you know? Perhaps you are the best choice." Shenming smiled, her tongue moving slightly, passing over her lips. This was an undisguised seduction.

Shi Hao laughed, not refusing. At the very least, on the surface, he didn't wish to get into conflict with these two. These were two extremely dangerous individuals.

They were undead knights, so why did they come out from Burial Earth, enter this world? What was their objective?

Could it be that it was just like they said last time, that they were going to wander the world? Or was it to say that it was because some strange things happened in Burial Abyss, so these two are looking for something?

"My friend, now that we meet again, I feel that you are a bit reserved. Could it be that you feel some suspicions towards us?" Sanzang said, still gentle like warm sunlight, making one feel greatly at peace.

A man this beautiful, if it was a group of little girls he was facing, it would definitely possess fatal destructive power. Meanwhile, Shi Hao felt like he was becoming more and more dangerous.

However, that type of pressure instantly disappeared, the other party seemed to be easing up a bit, giving up on these thoughts that couldn't be called all that warm. This made Shi Hao's mind tremble.

His intuition was extremely sharp. Just now, he really captured some things, really having that type of feeling.

"It seems like there is a bit of misunderstanding between us. You are suspecting if we are still ourselves?" Sanzang was extremely formidable, actually directly stating Shi Hao's suspicions.

Shenming released a deep sigh. She was also helpless, putting away her world toppling charm. Her eyes swirled about, as if endless time moved past the depths of her pupils, granting her a type of more serious beauty.

"When this path is taken, there will always be a bit that is lost, but a bit gained in return. There always has to be a price, but I can say that we are still ourselves!" Shenming said.

"What path?" Shi Hao asked.

These two were too mysterious. He didn't ask too much, only stating the most crucial question.

"Path of Burial Kings!" Sanzang said.

These words left Shi Hao deeply shocked. They walked the path of Burial Kings! This was too terrifying. At the same time, they were also too direct, actually telling him just like that.

The reason these two entered this world was to take the path of Burial Kings?

"Why are you telling me this?" Shi Hao asked.

"This is because this was related to too much. Once the undying beings knew, they would most likely attack, do everything they could to interfere. After all, they probably wouldn't wish to see new Burial Kings appear in Burial Earth.

"There is only one reason, to cherish every single being who can accompany you to the end of time, regardless of if he is an enemy or a friend." Sanzang laughed.

"If there is a day when this world is buried, this earth even disappearing, all life no longer existing, everything gone forever, at that time, even meeting an old enemy is a type of fortunate thing." Shenming smiled, expression also incomparably complicated.

There was even this type of saying?

What was the meaning of this? That there will be unimaginable great changes in the future?

"Perhaps you should know a bit, that the most terrifying era is about to arrive. How many of those who you are familiar with can remain? There really aren't many who could accompany you to the end, to the extent where there might not be any." Sanzang said.

Shi Hao found it extremely hard to calm down, greatly shaken. It seemed like the world was changing, the creatures of all lands sensing it, even the lifeless Burial Region feeling this way.

"You believe I can continue living?" Shi Hao asked.

"Perhaps. After all, you were able to keep your life even before Origin Ancient Artifact. Those who are unaffected, they are all exceptional regardless. You give me quite the strange feeling, my human friend." Sanzang said with a smile.

It seemed like they had long become aware that he was human, not a Golden Undead Knight. Great waves stirred in Shi Hao's mind.

"The path of Burial Kings, what did you all experience? Why do I feel like you all are different? Are you really still yourselves?" Shi Hao asked.

"We are!"

At this time, Shenming walked over, intimately grabbing his arm. The two shone, as if they were ascending immortals. A rain of light scattered down, divine and flawless.

Soon afterwards, Shi Hao saw a scene. There was a different Shenming, the left part of her face incredibly seductive, carrying a brilliant smile, exceptionally enchanting, right side of the face carrying tears, as if imprisoned, weeping and sobbing in grief.

Shi Hao was a bit frightened. Were these her soul imprints? Why were there two different natures, two feelings?

"Gain and loss, it will always be equivalent. I am still me, letting you see can also be considered a sincere reflection. This is a portion of the price the path of Burial Kings needs to be paid." Shenming said.

Shi Hao wanted to struggle free, because he felt his back become a bit cold, but Shenming didn't let go.

Only after a while did she loosen her hand.

Shi Hao was already sure of one thing, there really were some changes that happened to them, an astonishing transformation.

"My human friend, are you willing to travel with us?" Sanzang asked.

"What you all seek is the path of Burial Kings, while my path is different from yours." Shi Hao replied.

"There are intersecting paths, who knows, in the future, we will come call for you, gather once more in Guidance Ancient Palace, or maybe it is you who will summon us." Shenming said.

Shi Hao felt his head throb. These two were too mysterious, hard to see through them.

"Yi, what is he fishing?" Shi Hao changed the topic, because there was another creature in front of Ocean Fall, not that far from them.

"He wishes to angle for an unequaled in the great world." Shenming replied.

"Who is he?" Shi Hao was moved.

“One of the most ancient undying kings’ inheritor.” Sanzang replied.

Shi Hao was shocked. He looked towards that youngster. He sat in front of Ocean Fall, as if completely frozen, not a trace of movement or sound.

“What did you come here to angle?” Shenming asked.

“I came to... fish for fish.”

Chapter 1608 - Really Catching It

Fishing for fish? This really was ordinary!

Came all the way here just to catch fish? Who didn’t know that this place was special? This Ocean Fall didn’t have a starting point in the normal meaning, its end point also unknown. What kind of fish could you catch?

“Really are returning to the natural state, making us exclaim in admiration.”

However, Sanzang actually sighed like this, not holding back his praise, from the looks of it not fake, but sincere.

“Dao friend, you are frank and sincere after all, great dao like this, stronger than us!” Shenming actually put away her seductive appearance, beautiful eyes swirling about, the years flashing by.

Shi Hao was completely speechless.

He merely randomly said something, extremely half-hearted, yet it ended up being thought of as some most natural dao, returning to the true self, making him completely stupefied, not knowing what was good to say.

In the end, he could only smile, kindly accepting the praise without any excessive politeness, standing there, face not red, heart rate not speeding up.

Only, when he looked towards the figure who was like a clay sculpture, his mind fell. That was definitely a terrifying figure.

The inheritor of an undying king, known as one of the most ancient families, what this creature sought was the world’s unmatched dao. His will was firm, definitely a great enemy in the future.

“Do not act rashly, that person cannot be killed, he has undying secret treasures protecting him. Even if he is sitting there without moving, you won’t be able to kill him.” Sanzang said.

The two Golden Undead Knights seemed to be able to sense Shi Hao’s thoughts, understanding his will to take action. However, they spoke out to stop him, moreover saying that not even the two of them disturbed that person.

“He had already been sitting here for several years before we came, not moving, dao heart steady, objective unchanged. He is a terrifying individual.” Shenming said.

Shi Hao recovered his composure, not insisting on taking action. He became shaken up. This side was vast and boundless, strange people and exceptional cultivators everywhere, experts as common as trees in a forest.

“After you fish, how about we travel together?” Shenming asked.

Shi Hao didn’t immediately reply, instead feeling a wave of stupor. It was because he wanted to cultivate, walk his own path. Was there any meaning in traveling together with two Golden Undead Knights?

“By comparing with each other, perhaps there might be some unexpected gains. Moreover, we... perhaps we can lend you a helping hand.” Sanzang transmitted sound.

Shi Hao looked towards him, not saying anything yet.

“We know that you currently face a great disaster, and we really hope you can break out!” Shenming further said.

“Fine!” Shi Hao thought for a bit, and then nodded in agreement.

He was now a captive, even though he had his freedom, once the undying kings returned, then there would be no way out.

Did these two Golden Undead Knights really have a way?

Then, Shi Hao sat down in front of Ocean Fall, choosing a large limestone, quietly sitting on it. Then, with the spiritual great dao as the fishing rod, magical force as the thread, with divine abilities as the fishhook, he began to fish here.

Shi Hao had heard that Ocean Fall was an extremely special place, not even the undying beings able to explore it to its limits. It was rumored that there were undying beings who followed this river down to its source, but ultimately disappeared.

It was to the extent where there was an even more terrifying rumor.

Back then, after Immortal Ancient Great War, a seriously injured undying king who was on the verge of death, already seeing no hope for survival, dragged his own declining self to Ocean Fall, moving along it. Then, he was still gone forever, never appearing again!

Ocean Fall was three foot from the ground, unknown where the water came from, boundless and immeasurable, surging towards the heavens.

Meanwhile, in the very limits, which couldn’t be considered the end point, Ocean Fall directly disappeared into the void, flowing inside, accompanied by time fragments, the long river of time faintly discernible.

There were people who said that this was a tributary river to the ‘World Sea’, hundred rivers gathering into the ocean, all streams returning, that this was one of them!

It was rumored that even though this Ocean Fall was dangerous and strange, it could also be considered a wish river, sometimes able to satisfy some of one's desires. As a result, from time to time, there were some creatures who came here.

At the same time, cultivating here in seclusion would result in some unimaginable things happening, sometimes extremely beneficial, sometimes extremely terrible!

Comprehending the dao in front of Ocean Fall was definitely a long process!

The two Golden Undead Knights had already been here for many days, only today did they plan to leave.

Shi Hao produced a few Dao Comprehension Tea Leaves, cooking a pot of tea, inviting the two of them to drink with him.

"Excellent tea!" Sanzang praised.

Shi Hao sipped on the tea, sitting before Ocean Fall, listening to the sound of his own dao seed trembling. To be more precise, it was the gates within his body that were rumbling with noise, clear splendor spreading through his body.

This was the gates within him cracking open!

Unfortunately, this type of dao comprehension, this kind of instantaneous return couldn't allow him to advance, break into a higher level.

It was because he was breaking into the late stage of Self Severing Realm. If he wanted to break through again, it would definitely be extremely difficult, already not something the Dao Comprehension Tea could solve.

Drinking tea alone couldn't truly create an outstanding cultivator, raise him to an inconceivable cultivation realm.

If such a thing really was possible, then the experts of different clans wouldn't need to cultivate, just directly drinking Dao Comprehension Tea and it was enough!

Immortal tea leaves, it could serve as a type of supplement, assist one in comprehending the dao, help one break through, where the conditions are right, success will follow naturally, not forcing things.

"Ei? Something's biting!" Shi Hao was shocked.

He felt his arms move downwards, the fishing line made of magical force going taut. The fishhook condensed from precious techniques sensed a huge monster, precisely inside the waterfall ocean.

Shenmin and Sanzang were speechless. This fella really did end up doing it? He was going to fish here? What kind of joke was this?!

What kind of place was this? It was Ocean Fall, its ending point unknown, even undying beings would disappear after going inside, what kind of creatures could there be inside? Did he really treat this as some fish pond?

However, what made their jaws drop was that Shi Hao was pulling on the fishing line with everything he had, as if he really did catch something.

Several thousand zhang away, in the air, a terrifying dorsal fin appeared on the water surface. It was incredibly big, sinister and terrifying, appearing in Ocean Fall.

"This, there really are... fish?!" Sanzang really didn't know what to say.

Shenming's face also carried a sluggish expression, a bit dumbstruck, her beautiful and fine face becoming a bit rigid.

How could this be? This was but an ocean waterfall, suspected to flow towards World Sea, no one able to trace it upstream throughout endless time, so how did he end up actually catching fish here? n/-  
0vEl61n

"Hurry and help! This fish is too big, over ten thousand zhang in length I reckon! It really isn't easy to catch!" Shi Hao shouted, having the two Golden Undead Knights help him out.

Shenming was roused awake, forcefully rubbing her beautiful face to make sure she wasn't seeing incorrectly. There really was a giant faintly discernible creature in Ocean Fall, overturning in the waters, stirring boundless waves that could crush mountain peaks.

Sanzang was also dumbstruck, feeling dizzy and blurry-eyed. It was because this type of scene was too inconceivable.

Huang was currently pulling on the fishing line, tossed side to side, actually still... reeling in the fish, really like how someone normally acts when catching a large fish, extremely cheerful and lively!

"You... what are you doing?"

"Fishing! Hurry and help me! This one is so big, it is definitely full of essence, who knows how many tens of thousands of years it has swallowed world essence for, definitely a great mending medicine!" Shi Hao said without even turning around.

He ran back and forth in front of Ocean Fall, tugging on the giant creature in the water, tossed from side to side here, stirring up tremendous waves.

"Look it up! Hurry and see if there really are creatures in Ocean Fall!" Sanzang said.

Both him and Shenming produced a pile of jade ancient books, their appearances extremely old, some preserved for more than a single great era.

It was clear that they made ample preparations before coming to this world, bringing all types of artifacts from Burial Region, including history on their destinations.

This was especially the case with Ocean Fall, even more so attaching importance to this place, paying great attention.

"There really are!"

Suddenly, Shenming cried out in alarm, unexpectedly discovering something in a tattered jade book.

This was an anecdote, not all that trustworthy, stating that Ocean Fall has Ancestral Fry, coming from the source of Ocean Fall, extremely few in number, difficult to see one or two in a single great era.

A certain Burial King saw one, at that time, he still wasn't a Burial King, previously disappearing for some time with the Ancestral Fry!

Just these newly hatched fish alone were tens of thousands of zhang in length, so just how large were the real ancestral fish?!

"Ei, the fishing line is about to break!" Shi Hao had a bad feeling. Even the fishing line made of magical force was about to snap, because the force was too great, not easy to hold together.

"Chase after it! Go for broke, catch this Ancestral Fry! Perhaps it can shorten our Burial King paths!" Sanzang decided.

In reality, when Shi Hao heard about these things from them, he already began to take action.

He jumped suddenly, throwing himself into Ocean Fall, grabbing that giant dorsal fin, breaking through the boundless sea surface, opposing the heavens and going straight up.

The two Golden Undead Knights followed him, arriving on that dorsal fin, rushing together with Shi Hao. Where were they going? They had no idea!

It was rumored that only the Ancestral Fry could move through this Ocean Fall, return to their place of birth. That place was extraordinary, having tremendous karma, even more so astonishing secrets!

#### Chapter 1609 - Undying Interference

"Escaped while riding on a fish, are you all treating me like a fucking idiot?!"

Within Moon Demon King Clan's ancient land, this clan's number one young expert was sitting on a beast skin chair. Just now, he was still rather content, one leg propped up, eating a divine fruit.

However now, he threw the rare divine fruit away, the expression on his face overcast. He turned around to stare at the messenger, believing that his trust in this person was disrespected.

"I am not lying, it is absolutely true, something that is currently happening! More than one person saw this for themselves!" That servant disputed, solemnly vowing that what he said wasn't false.

Moon Demon King Clan was the closest to Ocean Fall. This clan was also extremely powerful, just comparatively lower profile in recent years. Meanwhile, back then, they could rank within the top King Clans, terrifying beyond compare.

"Bullshit, give me another reason. Do you think I was born yesterday? What kind of nonsense is this?! Those who enter will all undoubtedly die." Moon Demon Young Master's face became more and more overcast, really wishing to slap this messenger to death.

That messenger servant was already about to cry, pointing to the sky and vowing, not hesitating to curse himself, swearing that this was the truth, that there wasn't even half a lie spoken. Moreover, he invited Moon Demon Young Master to immediately head out, perhaps he could still see the fish's tail.

Moon Demon Young Master's hand smacked against the back of the servant's head, having him lead the way. It was because he didn't really believe it himself.

Moon Demon Clan's always lived in this region, so they understood Ocean Fall too well. From the very start, they had never seen any fish swimming through it.

All creatures would die no matter who it was that went inside, swept to the limits of Ocean Fall, never to return. Now, a servant said that Huang ran while riding on a fish, wasn't this too ridiculous?

Moon Demon Young Master felt that this damn servant was definitely possessed, that was why he dared deliberately trick him. He was going to beat the crap out of him later!

"Hurry and look, young master, look over there! Look how big of a fish it is!"

When they arrived before Ocean Fall and stood on a massive divine peak, that servant immediately cried out excitedly.

Moon Demon Young Master's jaw almost fell off. He was originally seething with anger, wishing to beat his servant, but he really ended up seeing an inconceivable scene.

Huang, together with two other youngsters, was sitting on a large fish near the dorsal fin, currently braving the winds and billows, going against the heavens as they rushed up.

It was a fish, a ridiculously large fish!

Huang really ran away while riding on a fish!

This left him a bit stupefied. He had lived for this many years, yet never saw even a fish scale. How did such a big fish suddenly appear now?

This fish was just too big! It was definitely tens of thousands of zhang long. Wasn't this a reincarnated Kun Peng, coming to pick Huang up?

"Someone, hurry and give the report that Huang escaped, about to leave my world!"

Moon Demon Young Master hollered out like a horn, suddenly shouting, using a King Clan sound wave technique.

In reality, even if he didn't shout out, didn't give out a report, there were long others who saw this in this region, the experts who had always been keeping tabs on Shi Hao.

Even though they wouldn't get close, always watching from afar, right now, they had a bad feeling. Huang jumped into Ocean Fall, there was a chance that he... might successfully escape!

"Damn it all! This is Ocean Fall, how could there be fish?!"

Everyone was stupefied, as if they saw ghosts. This was too inconceivable, Huang escaped just like that? It was even in the way that was hardest for them to accept.

On the Ancestral Fry, Shi Hao and the two Golden Undead Knights treated this situation carefully, not daring to act carelessly at all. It was rumored that after entering this waterfall, one could easily lose their lives.

Even if they managed to live in the beginning, once they approached the end point, their bodies and spirits would still be erased.

“Grabbing this fish and following it can ensure our safety, perhaps even bring us great natural luck! Of course, the destination awaiting us might very well be the abyss of hell!” Sanzang said.

Honglong!

The big fish entered the waters, sinking to the Ocean Fall depths. Even the dorsal fin disappeared from the ocean surface, the three young experts also disappearing.

They supported a magical force light barrier, protecting themselves, trying their best to not let the water touch them in order to prevent something unexpected from happening. Only, they knew that later on, there would likely be terrifying external forces that would tear through their barriers, still drench them in the end.

The Ancestral Fry moved through Ocean Fall, following the ocean-like waterfall, going against the heavens, heading straight up, from time to time entering the waters, sometimes rushing above the surface.

At this time, a few people saw its massive body.

It had the head of a Tyrant Dragon, teeth sharp, but it also had a pair of black giant horns. It was even taller than a mountain, entire body covered in scales. The carp's body was pitch-black like ink, occasionally flickering with dark red blood radiance.

It fiercely swung its tail, waves immediately striking the heavens, enough to submerge mountain ridges, stir up endless ocean sprays, purge the heavens clean.

There were some who wished to stop this, releasing ancestral methods, but when they entered Ocean Fall, they could only form small splashes, unable to strike that strange large fish.

There was a strange power in Ocean Fall that could neutralize all types of offensive symbols, protecting that Ancestral Fry. This place was like its nurturing tank.

“Hurry and report to the undying that Huang is about to escape!” Someone shouted loudly.

It was because they knew that the place where Ocean Fall disappeared into might very well break free from this world, able to enter a different place. This was extremely serious, needed to be reported quickly.

Huang was someone the undying kings wanted, yet he left just like that, it really was unimaginable. Once the kings were angry, the clans would all tremble in fear, the effects too great.

The only saving grace was that Ocean Fall was vast, it was hard even for that strange fish to directly disappear. Even though it rushed into the heavens, the waterfall was extremely long after all, still a set distance before the point of disappearance, not reaching the end point yet.

There were transport formations everywhere. Huang was going to escape! News was quickly transmitted out.

Undying beings in particular were asked to stop this, one of them immediately receiving the news. Otherwise, the consequences would be too horrible to contemplate.

Honglong!

At this moment, the World Tree moved. An undying took action, carrying out an offering, communicating with the World Tree, using a small branch to suppress towards Ocean Fall.

This undying being clearly couldn't remain calm, or else he wouldn't go this far. They went all out, not hesitating to use the World Tree.

"Not good!"

Shi Hao's expression changed. He saw a branch appear in the heavens, upright and strong like a dragon, while the leaves were giant beyond compare, flowing with brilliant colors. It slowly descended.

He immediately felt as if judgment day was arriving. The giant tree crushed down, the pressure greater than even a starry sky, the pressure too great.

This was a World Tree, a star resting on every single leaf, massive beyond compare, carrying chaotic energy. This was the power of a world creating tree.

Hua!

Ocean Fall shook, waves reaching into the heavens, becoming more and more boundless, engulfing all directions.

At the same time, the Ancestral Fry sunk deeper into the water, not clashing with the World Tree, going into hiding. In that instant, Shi Hao felt the pressure suddenly decrease.

This... was too strange!

This was but a World Tree, yet it couldn't do anything to Ocean Fall?

"A step too late, they are already close to Ocean Fall's point of disappearance. That region's natural laws and fields are all strange and terrifying, not even the World Tree able to affect it."

The undying being was still rather far, while the World Tree was rooted in the foreign side, branches complex, leaves luxuriant, branches extending into each land. The undying being used precisely this type of branch to suppress Ocean Fall, but he failed.

"He is courting death, this can't be blamed on us!"

One of the undying existences said, voice cold and ruthless. He was going to display a certain type of method.

"Don't! If he really dies, there is no way of explaining things to my side's great ancestors!" Another undying being shouted.

Not long ago, the undying beings passed down a decree that guaranteed Huang's safety, but that decree carried their imprints, six imprints in total that rushed into Shi Hao's body.

Now, one of them was about to adopt extreme methods, destroy Huang.

“Can’t be bothered with that much anymore. If he leaves, what will he become like? He is just a younger generation small cultivator, how can he be allowed to come and go as he please? We have to give him a taste first!”

One of the creatures said, releasing undying radiance. He was seated in the void, hands condensing a strange magical imprint.

Hong!

Between heaven and earth, primal chaos lightning immediately appeared in the world, tearing apart the heavens. All sides were alarmed, raising their heads.

Then, many people saw a fish fly towards the heavens, leaping out from Ocean Fall as if flying, releasing waves of dark light!

At first, Shi Hao felt as if doomsday had arrived, not knowing that the undying beings were dealing with him, nor knowing their omnipotent methods, but he sensed a danger of death.

However, this state was quickly reversed.

That fish leapt out, releasing mysterious dark light, all types of mysterious patterns appearing on its back. According to the two Golden Undead Knights’ words, this was one of the most ancient types of ancestral texts.

Then, that fish brought them away from Ocean Fall, flying up, as if leaping into the sky dome, figure becoming indistinct, about to disappear.

They entered what was known as Ocean Fall’s end point. Everything disappeared here, vanished, they were now about to leave as well.

“What? It can stop my secret method? What kind of creature is that?” The undying being was moved, feeling deeply shocked.

“A fish struggled free from that legendary river, breaking away from its fate!” An undying being said with an overcast voice, expression incredibly serious.

“More than a great era has passed, yet Ancestral Fry has appeared again, what is the meaning of this?!” The undying being’s face was grave and stern, extremely serious.

Chapter 1610 - Leaping Out From the River of Fate

Huang escaped!

These news erupted like thunder, ringing through the skies of this world, leaving the cultivators of all clans stupefied. This was just a young man, a prisoner, yet he actually calmly withdrew from this ancient world where experts were as common as clouds in the sky.

This was too absurd, hard to believe.

Meanwhile, what was ridiculous was that many people had heard the rumors that Huang escaped while riding on a fish. This really left everyone shocked.

When they obtained news, everyone's reactions were the same, it definitely couldn't be believed, it was too preposterous!

What kind of place did he treat this world as? Riding a fish into the skies, leaving just like that?

This type of thing made one feel as if a cow was blown into the heavens.

"Calling it bullshit is too much, there are definitely inner details. Letting Huang go, and then purposely making up a reason, this is too laughable!"

"Haha, what did I hear? Huang escaped while riding on a fish? This joke isn't all that funny, a bit cold."

...

Many people couldn't believe it. This matter was too ridiculous.

However, more and more news spread, gradually indicating that this was true. The creatures of all different clans were all stunned.

"This is inconceivable! A Self Severing Realm young creature fled from our world alone?"

Everyone was stunned, all of them wanting to curse out, feeling the urge to swear. There were many cultivators from different clans who hated Huang to death, yet in the end... he escaped.

If they knew this was going to happen earlier, a supreme being should've just directly crushed him to death!

A great disturbance was produced in the other side, difficult for everyone to calm down. This was especially the case with the younger generation. This terrifying demon king's hands were bloodied, they finally captured him, yet he ended up escaping?

This was something many people couldn't accept!

"What Ancestral Fry? What kind of damn thing is that? Never heard of it before! Did we have rats on our side, purposely letting Huang go? Hurry and investigate this!"

"I can't accept this! My side's undying beings can sweep through Imperial Pass's creatures, so how could this type of thing happen?"

From this day on, a storm stirred up in this side, creating a huge disturbance.

It was clear that Huang's unexpected escape left them extremely shaken.

In reality, this really was the case. It wasn't just the young creatures of different clans who were stirred up, the enmity difficult to erase.

Even the older generation couldn't calm down, leaving even the higher levels worried.

Someone the undying kings wanted escaped just like that, not staying behind. This was a huge matter! The words of those types of existences couldn't be gone against.

---

Imperial Pass, this place had been quiet for many days.

It was because after Huang was handed over, the atmosphere of the entire city became a bit strange, everyone uneasy.

However, during these two days, some news spread that change the atmosphere a bit, because it was related to Huang.

Someone first brought news that Huang was crippled in the other side, becoming a prisoner, enduring torture, making everyone in the city become silent.

Qing Yi, the little rabbit and the others were even more so inwardly grieved, silently shedding tears.

Who was the one that caused all of this? Who could be blamed?

It was them who handed over Huang. Originally, his contribution towards Imperial Pass was great, killing many foreign experts, even bringing back the rotten wooden chest the undying kings wanted.

However, in the end, there was this conclusion.

Many people's emotions were complicated. Qing Yi, Chang Gongyan, and the others even more so felt bitterly disappointed, carrying resentment, really finding this hard to accept.

However, soon afterwards, there was more news stating that Huang recovered, his strength advancing, defeating the Emperor Clans in the other side, slaughtering the younger generation until they didn't dare face him, completely unstoppable.

"Is this true?" When the Lunar Jade Rabbit heard this, she immediately jumped in excitement.

These news undoubtedly left everyone elated and excited. The old friends who were close to Shi Hao all became overjoyed, feeling extremely happy.

There were some who wondered just how heaven-defying Huang was. After becoming a captive, could he still stir up any disorder in the other side? This was a bit hard to believe.

"Big news! Huang has escaped, already escaping from the other side, on the way back. Let's prepare to receive him!"

This very day, an even more shocking pieces of news was transmitted back, leaving everyone stupefied, ringing in their ears.

Huang fled back? How could this be possible? How did he do it?!

The other side was powerful, not needing to set up defenses in Desolate Border, not like the Nine Heavens who set up Imperial Pass to block the way. Comparatively speaking, when some things happened, it was easier to spread here.

Shi Hao defeated a Time Beast, news of his great prestige rushing over like a tide. Moreover, there was more secret information, stating that he escaped while riding a giant fish.

"This... is this real?"

Even Imperial Pass' creatures were a bit speechless. Defeated an Emperor Clan was something they half believed, but if they were to say that he rode on a fish and ran, then this was a bit absurd.

At the very least, this side didn't see him return!

"Not good, there is news that Huang already defected, surrendering to the other side!"

The same day, this type of information appeared.

This naturally triggered an uproar, leaving many people alarmed.

He was handed over despite obtaining great contributions, sent to the other side, turned into a prisoner, making his heart go cold. If he defected, it was something easy to believe and accept.

It was to the extent where a few people had these thoughts, if it was themselves in his place, they might as well just directly change sides!

"Execute those who are spreading rumors!"

The same day, Meng Tianzheng gave out this order, that if anyone dared speak randomly to stir up public sentiment with false statements, then they would be killed without exception.

"I believe that Huang really has started to return, the other side's creatures are purposely splashing dirty water to mock him, inciting quarrels. This way, once he appears, we will produce suspicion!"

Indeed, Huang escaped from the other side, so some began to spread targeted rumors, purposely spreading them to Imperial Pass' side.

All types of rumors were spread through Imperial Pass, all types of news spreading, hard to even say which one was true!

Some believed that Huang was unstoppable in the other side, defeating Emperor Clans, treating the Time Beast as food, his achievements extremely glorious.

But there were some who felt like they should be a bit more realistic, that this type of achievement wasn't too realistic. Perhaps Huang really did defect out of anger, his heart no longer with the Nine Heavens.

Was Huang a hero, full of righteousness, or did he defect out of anger, becoming a demon king?

For some time, not one dared to speak too much openly, but they discussed things privately, even arguing over this!

Where exactly was Huang?

Right now, he really did enter a strange world, one that was beyond the outside world's imagination.

The Ancestral Fry jumped with everything it had, struggling free from Ocean Fall. Everything became indistinct and dark, leaving this ancient realm.

In the other side, many kings knew that the limits of Ocean Fall were extremely terrifying, recklessly approaching would result even in one's bones disappearing, body and soul eradicated, vanishing from this world.

Right now, Shi Hao experienced a type of rather be dead than alive type of torment.

The surface of the fish's body shone, becoming like a black heavenly sun, withstanding some type of mysterious power. Its own body quickly shrunk.

Meanwhile, Shi Hao and the others faced a tremendous pressure, their bodies releasing endless pi pa noises, all of them breaking!

How could it be like this? Shenming's face lost color. Even someone as powerful as her, a Self Release Realm Golden Undead Knight, right now, was about to die.

Sanzang was the same, entire body in tatters, holy aura declining, entire being about to be crushed to pieces!

As for Shi Hao, his situation was worrisome, about to die at any time.

It was because he hadn't reached the Self Release Realm yet!

However, this place was strange, the pressure it brought exceeding one's limit, as if it was some type of special test.

Soon afterwards, their expressions changed. The Ancestral Fry's entire body was bloody, badly mangled, looking like it was about to collapse. One had to know that this time, they were using it to leave the other side, was even this fish going to fall apart?

"Look, the ancestral patterns on its body have dimmed, about to completely shatter! This means that it has lost the protection!" Shenming said.

Hong!

After a great shaking, they all went unconscious. They could only retain a small bit of consciousness during this process, hearing some vague sacrificial sounds.

It was as if they were in a dream, extremely unclear.

The Ancestral Fry used the ancestral texts as a flame, its own blood as the offering, igniting itself. It leapt out from the river of fate, about to enter a different place.

After who knew how much time had passed, Shi Hao woke up, hearing the last syllable of the sacrificial voice, as if some type of ceremony really was carried out, moreover ending just now.

He was in an extremely miserable state, but he survived.

All of his bones were broken, flesh badly mutilated, but this could still be endured. When he sat down, Shi Hao's body continuously released noise, all of his broken bones starting to heal.

Not far out, Shenming and Sanzang were even more miserable, their bodies in pieces, split up, almost completely destroyed.

Only after a long time had passed did they open their eyes. However, they were incredibly pale, primordial spirit flames dim, about to go out.

The two had bitter smiles on their faces. This was too bitter, their condition an absolute mess. If they wanted to recover, they needed time, even more so needed to pay a great price.

“You... weren’t affected that much?” When they pieced their bodies together again and saw Shi Hao’s state, they were both moved, extremely shocked.

“Worthy of being Huang!” Towards this, Sanzang only had this evaluation.

“I really am considering making you my dao companion.” Shenming was even more direct, enduring the pain, blinking her eyes charmingly, releasing a life overturning temptation, seducing the soul.

“What’s wrong with this fish?” Shi Hao looked towards the distance.

That fish’s body was now much smaller, only a few hundred zhang in length, covered in blood, in tatters, even its skull completely shattered, from the looks of things won’t be able to live.

However, there was a piece of ancestral patterns that didn’t go out. Right now, it flickered, releasing blinding light, extracting its essence blood, starting to display might.

Under ge beng ge beng noises, this strange fish underwent a strange change, shrinking once more, becoming ten zhang in length. Its corresponding shattered bones healed, tattered body recovering, life returning.

This was the same as exhausting all of its blood energy, shrinking its body to recover

It was clearly weaker than before.

The most shocking thing was that its form also began to change, the tyrant dragon head and the bull horns changed, turning into a bird state.

Its head became more like a peng’s, golden and resplendent!

It still had a fish body, not changing too much, but patterns were being produced, extremely complex and profound.

Shi Hao was immediately shocked, inwardly shaken. These patterns were a bit similar to Kun Peng symbols! He understood this type of species.

How was this possible? Was the Ancestral Fry going to turn into a Kun Peng?

In the end, the peng head disappeared. It turned into a black fish, but its body clearly contained a peng aura, different from before.

“After leaping out of the river of fate, this Ancestral Fry underwent a strange change, becoming immeasurable.” Sanzang said.

Shi Hao frowned. What exactly was going on with the so-called Ancestral Fry? How many were there exactly? Don’t tell me this was how the Kun Pengs were created?

Soon afterwards, they calmed down, starting to worry about their own safety, observing the surroundings.

Just what kind of place was this exactly? It was too spacious, lacking the slightest bit of aura, like a ruined ancient world, an abandoned place, too spacious and lonesome.

They clearly left the world they were in before, struggling free, entering an expanse of mysterious ancient heavens.

“Look, there are a few Ancestral Fry swimming over there!” Shenming said.

Only, those fish were all quite unlucky, all already dead, some ten thousand zhang long, some only a dozen zhang, their transformations failed, unknown just how many tens of thousands of years ago they died.

Apart from this, this place was just too desolate. Was this an abandoned ancient universe, a ruined remnant earth?

Suddenly, ripples transmitted over from the distance. Moreover, a grand prayer sound could be heard, even more so a type of sacrificial voice, as if the ancient people were sobbing in grief together, praying.

“There are people here?!”

Their party widened their eyes, noticing several hundred creatures crossing the quiet sky, arriving in an orderly manner.

Shi Hao was immediately stupefied, his entire body shaking from alarm. It would raise an uproar if even one or two of these creatures appeared in the real world, yet hundreds of them appeared here at once?

The most important thing was that they carried a grass woven mat, a person lying on it!

The sobs of grief were from them, as if they were offering sacrifices to a great emperor who had died endless ages ago!
