

Perfect WD 1651

Chapter 1651 - Imperial Pass Breached

What was Anlan trying to bring away? This was what everyone wanted to know!

In the past, when the other side's cultivators invaded, they had previously shouted out that they were looking for something as well, yet no one learned what exactly it was they were searching for.

This time, was what Anlan wanted to bring away precisely this?

This was a huge matter!

It was worth thinking over, being on guard about. What exactly was it, for even an undying king to muster such large forces, to the extent where he was even going to risk it all at such a critical moment!

An incomparable aura spread over, heaven and earth about to explode, void melting. When an undying king took action, who could face him?!

Anlan's hand was too large, covering the sky, surrounding the sky dome. However, it was corroded by the red sea, exposing white bones, extremely terrifying.

Peng!

A great crashing noise sounded, shocking everyone. All of the cultivators, from the highest level figures to children, all trembled, their souls shaking. Even their bodies and spirits were going to explode to pieces.

The white bone hand was too massive, even stars looking too small in comparison, not much at all before him. It reached over to the city gateway with a single motion!

One had to understand that this Emperor City existed for an extremely long amount of time, created from the ruins of stars, forging an imperishable city. Yet now, it couldn't stop Anlan's attack.

The city gateway was removed. There was a group of experts guarding that area, including some leaders with extremely powerful strength, but everyone of them released miserable cries, exploding to pieces one after another.

This was a tragedy. There were tens of thousands of cultivators on the city gateway, because that place was too large, a magnificent structure built from great stars. However now, all of the guards lost their lives.

In the rubble, as the stars burned, bloody mist scattered. This was the blood energy over ten thousand experts released after dying miserably, nothing left behind, not even bones!

Ah...

In the distance, on the city wall, many people roared, their eyes all becoming red. Their brothers, fathers, and other loved ones and war comrades all ended up dying so miserably.

Hong!

Imperial Pass shone, erupting with symbols, protecting the inside of the city and the other parts of the city wall.

In reality, in that instant just now, if not for these symbols activating, the immortal dao formation reviving, all of the creatures in the city would have suffered greatly, all dying!

It was because just the released aura of an undying king was enough to eradicate all life!

Just now, that short moment was enough to make tens of thousands of cultivators lose their lives. It wasn't caused by that great hand crushing down, but rather when it descended from the sky, ripped open the city gate, caused by the unmatched aura that poured in.

It was just this powerful. Anlan's palm, even if the flesh decayed and fell off, only white bones left, it still possessed power of the most terrifying level.

In Imperial Pass, a group of important individuals' eyes almost split apart, yet there was nothing they could do. The area of the city wall they stood on even began to crack, almost rupturing.

Imperial Pass shone, raging flames surging; the final layer of protection was activated. Only when the city was destroyed, lives were lost, would this great power revive.

Meanwhile, this meant that Imperial Pass had arrived at its final moments. If they couldn't defend it, then that meant that it was going to be erased in this world.

The end of a great era!

Everyone shivered in fear. Just how powerful were undying kings? Just one strike was enough to destroy Imperial Pass!

Everyone felt a chill run down to their bones. This level of difference couldn't be made up for, the gap was too great. As long as an undying king descended, no one under the heavens could stop him!

Shi Hao naturally didn't cower back, long taking action, moreover going all out!

However, his body was weakening. Despite this being the case, he still didn't cower, instead immediately taking action, stopping Anlan, slaughtering his way over.

Unfortunately, it was extremely regretful, he still couldn't stop the tragedy from happening.

It was because at this time, several waves of powerful auras rushed over from the other side. The undying kings moved out, not just a single individual, all of them taking action ruthlessly!

Shutuo's large hand reached over, stopping Huang's footsteps.

Without a doubt, Shutuo's arm was also corroded by the red sea, flesh badly mangled, bones a deep white. However, he didn't hesitate to pay the price, stopping Huang, buying time for Anlan.

Apart from this, there were several law decrees that struggled free from the blood sea, forcefully breaking through. They leapt out from the sea of laws, suppressing towards Shi Hao.

These were the law decrees of undying kings, containing their unmatched power. They suppressed towards Huang together!

No matter how great Huang's divine abilities were, he was still surrounded and stopped. Several waves of power arrived. He had no way of immediately attacking Anlan.

Shi Hao released a great roar. At his side, the great figure with the nine-layered pagoda floating above his head also erupted with power, rushing at Shutuo, resisting the law decrees.

At the same time, on the other side, the creature with the giant ancient cauldron floating above his head took a large step forward, rushing murderously towards Anlan's large white bone hand, wishing to directly break it.

Hong!

However, several decrees shone brilliantly, scattering down endless radiance that poured down like rain, sparkling and brilliant, blocking their path forward.

These were the highest ancestral methods, all of them released at the same time. They crossed time-space, cutting off the great cauldron and that person, buying crucial time for Anlan.

Heaven and earth shook. Shi Hao was going all out.

However, the strength that drop of blood granted him was declining, becoming weaker. He had the will, but lacked the strength, only able to watch as Anlan broke through the pass. Even Shi Hao's eyes were about to crack apart as he watched, blood dripping out.

Honglong!

Imperial Pass, the city walls collapsed.

It was still by the city gateway, smoke and dust overflowing into the heavens, rubble collapsing the clouds. That giant white bone palm smashed that place apart, and then rushed over!

Imperial Pass began to burn, the symbols shaking the heavens above and earth below, burning fiercely. These were the effects of the highest level immortal dao power, protecting the ancient city.

The immortal formations in the city all revived, exhausting the last of its protective strength.

At the very least, the formation protected the other creature. Apart from the cultivators by the city gateway who exploded to pieces, bodies and souls erased, the other cultivators in Imperial Pass didn't lose their lives.

However, as long as this great formation cracked open in the slightest, the slightest bit of undying king aura would definitely be enough to end everyone's lives!

A single strand of aura was enough to shatter all life!

However, that white bone great hand didn't continue to smash forward, because time was pressing. The blood-colored sea in the back and the unmatched chaotic stream of order were eating away at the undying kings.

Anlan didn't have much more time. His large hand reached over, crushed the city gateway, rushed past Imperial Pass' skies.

This scene would forever be ingrained within the minds of every single cultivator here. Even when endless time passed, those who survived would never forget it. This was a wound that was difficult to heal from, a shadow that shrouded their hearts.

Before that white bone great hand, stars would become dust!

Dong! It passed through, crushing the city gateway's other city wall, raising endless boulders, making the universe collapse.

One had to understand that Imperial Pass was as tall as the heavens, the walls and other parts were all refined from fallen stars and other things, massive without limit.

Yet now, before the great hand, it was like a clump of blood, pierced through.

The only thing to be glad about was that the large hand rushed past the skies, not dealing with the activated immortal dao formation below. Otherwise, who knew just how many people would die.

Perhaps if they really had to fight a decisive battle, Imperial Pass would immediately be turned into ruins, all life exploding to death on the spot!

Ah...

In Imperial Pass, many cultivators roared out, their eye sockets feeling like they were going to slit.

It was because after the city gateway exploded, another ten thousand cultivators died, directly exploding under the bone hand's powerful aura, becoming a bloody paste, turning into a bloody mist.

Undying kings were incomparable, no one able to keep them in check at all!

At this moment, everyone felt despair, feeling deep fear. Everything seemed dark. How were they even supposed to fight back?

It was precisely at this moment that everyone deeply sensed how heaven-defying Huang was. Even someone as powerful as Anlan was being chased down by Huang not long ago!

Unfortunately, Huang was stopped by Shutuo and the others.

The undying kings were unmatched and beyond compare. Now, a single hand reached through the pass, what was he trying to do? Was he going to destroy all life, slaughter all in this realm?

The white bone hand passed over Imperial Pass, reaching across the sky, giant beyond compare. It was still extending forward.

Soon afterwards, it reached past the vast uninhabited region, crossing countless giant mountains and great rivers, directly entering the three thousand provinces from Desolate Border!

Just how shocking of a thing was this?!

One had to understand that this type of land easily surpassed millions and millions of li, yet in the end, that large hand directly rushed past, shaking the heavens above and earth below.

That day, everyone in the three thousand provinces were alarmed, feeling like judgment day was descended. All creatures were trembling, filled with fear, intimidated by the powerful aura.

While everyone felt this type of feeling, that white bone hand was still millions and millions of li out. One could see just how powerful, how terrifying, and how great his power was!

The three thousand provinces, every single province was a territory extending tens of millions of li, even reaching hundreds of millions, large beyond compare.

The Nine Heavens Ten Earths weren't stars, but rather vast continents that floated in space, produced after the past great world was broken to pieces.

Right now, the three thousand provinces were shaken, trembling intensely.

At this time, a white-colored bone hand reached over. It was high up above, looking like it was descending from outer space, heading for a certain province.

Hong!

This was undoubtedly catastrophic!

The white bone large hand hurriedly arrived, not feeling any restraining fear, incomparably berserk. The aura of an undying king wasn't restrained in the slightest.

When it passed by Desolate Border, and then through the uninhabited region, when the large hand appeared above a great province with creatures residing within it for the first time, exceptional aura fluctuations descended.

Kacha!

This province covered millions and millions of li of area. It immediately caved in, collapsed, rubble rushing into the skies, magma roiling. The great earth was immediately obliterated under that aura.

Ah...

Countless creatures howled in misery. The creatures of this province all screamed miserably, panicking, fleeing for their lives.

Only, how could they escape. This was the large hand of an undying king! When it passed through this place, just the naturally exuded aura was already like this, crushing the entire province.

Honglong!

In the end, this province's territory of millions and millions of li caved in, blood mist spreading. Endless creatures lost their lives, dying miserably on the spot.

The howls of grief, cries, and others instantly came to a stop. The entire great province sunk into silence, becoming deathly still, all creatures eradicated!

It was just this tragic, filling everyone with despair!

Wherever the white bone hand passed, all life would wither away. It covered the sky and sun, millions and millions of li in size, covering everything. When it crossed over the skies like this, the creatures over the great earth faded away.

Under its suppression, even without doing anything special, everything would be destroyed.

This was precisely the incomparable undying king!

Chapter 1652 - Fire Mulberry Trees Falling and Withering

A province was erased, sinking, becoming lifeless.

The white bone large hand moved across the sky, continuing forward. This was a scene that left one in despair. There were many stars in the sky dome above. They looked extremely small, nothing before that great hand. They were like specks of sand, falling down one after another.

An unmatched aura surged. Wherever it passed, all life would fade!

Honglong!

The white bone large hand appeared in another great province, appearing in the skies above, crushing down on the world. An unmatched aura surged, the great earth rupturing open again. Many creatures instantly turned into a blast of bloody mist.

This scene left everyone horrified, every creature's soul shaking, completely unable to resist.

At this time, even the creatures in other provinces were in fear, feeling as if doomsday had descended, sensing a type of world destroying aura.

This was especially the case for some cultivators, a few great experts, their faces all becoming deathly pale. Even when separated by endless mountain ranges, millions and millions of li, they could already sense the smell of destruction.

This was the last phase of an age, the final calamity!

How could it be like this? Some cultivators cried out in anguish. It was just too bitter, they couldn't escape at all!

Even if they got onto altars, instantly able to cross millions of li, even tens of millions of li, they still couldn't avoid it.

It was because that large white hand carrying wisps of blood swept over, directly covering a large half of the province. It was just too large. Wherever it passed, mountains would collapse, seas would dry up!

"Who can save us?" Even a few great cultivators felt despair, unable to hold back their cries. For them, this was a natural disaster, long no longer something they themselves could contend against.

As for ordinary creatures, there was even more so not the slightest margin of choice; they could only await their deaths.

A few children cried out. They shouted, cried, throwing themselves towards their parents' embrace.

There was a little girl whose body trembled. She threw herself into her parents' arms, eyes carrying tears, and then in the next instant, she turned into a blast of bloody mist together with her loved ones.

This was a catastrophe. The world was in chaos, the scene of doomsday.

Honglonglong!

Anlan's white bone palm crossed millions and millions of li across the void, continuously passing through five great provinces, the destruction unimaginable. It was unknown just how many creatures died here.

Scarlet land stretched out endlessly. Wherever the great hand passed, nothing would remain. All creatures would inevitably explode, forever disappearing.

Only when it passed through the ninth great province did that great hand restrain itself a bit, putting away its undying king aura, no longer acting without restraint, instead becoming more calm. n.-O**VeLb**ln

Even though the bone hand was giant, releasing the aura of destruction from time to time, when all of the fluctuations were controlled, it no longer easily leaked out.

Sure enough, when the seventh province was passed, the great earth cracked apart, mountains and rivers caved in. Even though there were casualties, there were still many creatures who were able to survive, not dying.

Then, the great hand became slower and slower, the aura no longer berserk, instead being more peaceful.

Anlan controlled his own power, having some misgivings, or perhaps to be more precise, he was scared of startling something.

Later on, a white bone palm reached across the sky dome, covering the sun and moon. Even though it pressed over powerfully, it didn't bring about any destruction, even the mountains and rivers no longer shaking intensely.

The undying king intentionally held himself back, not letting his own aura destroy all things.

This was precisely an unmatched expert. Once his aura was naturally released, the world would fall, stars collapse.

Finally, he approached a certain province!

Everything happened in an instant, speed extremely fast, no delays along the way.

For an undying king, crossing millions and millions of li, crossing a realm wasn't an issue at all, something that could be completed quickly.

This was especially the case when outside Imperial Pass, Heaven Abyss collapsed, the sea of natural laws surged, currently corroding Anlan's true body fiercely, he had to end things in the shortest time possible and then decisively return.

Otherwise, even if he was an undying king, a huge problem would arise!

Sin Province, vast, but sparsely populated, an extremely barren ancient province.

In this territory, there were several dozen clans that were exiled here, guilt placed on their bodies, looked down on by other clans, shown contempt, unable to easily leave this place.

Among them, there were some clans, for example, Stone Clan, Fire Clan, and others that were even more comparatively well-known.

These people, these clans, in certain parts of history, were known as the sinner's bloodline, having guilt attached to their ancestry!

Their situation was extremely bad, for example, Stone Clan was pretty much wiped out already, at the very least, the Stone Clan ancestral land in Sin Province was already in ruins, no clansmen to be seen.

Fortunately, they were still prospering in the lower realms' eight regions, leaving behind heirs, spreading their branches and leaves. Otherwise, if their clan was wiped out, that would definitely be this clan's greatest regret!

No one expected Anlan's white bone great hand to actually reach above Sin Province, appear here!

Why did he come here? What was he looking for? No one knew!

"Sin Province..."

A great voice sounded, ringing above the sky dome, shaking the millions and millions li of mountains and rivers. The ground began to shake, the mountain ranges swaying, great rivers about to divert paths!

Anlan's divine will was too terrifying. It was just a single sentence, yet it rang through the world beneath heaven, mountains and rivers trembling in response!

Undying kings, these were existences who shocked past and present. This wasn't just empty praise, they truly had that type of power.

"The age when kings were bestowed their titles, that glorious age, it has already been too long since then. It... is perhaps in the hands of the descendants of those kings!" Anlan's divine will rippled out, rumbling like thunder.

The age where kings were given their titles he spoke of was the most glorious age of the ancient times!

Unfortunately, after endless time passed, those clans fell one after another. Stone Clan, Vermilion Fire Clan, and others all became sinner's blood descendants, banished here.

Anlan came precisely for them. He suspected that there was something buried in this great earth.

"Only by finding it will there be a chance of finding that real thing!" This was what Anlan said.

It was clear that what he was looking for here wasn't the ultimate object, but rather some type of clue.

In reality, if one thought about it, it made sense. It was because throughout all of time, the other side fought, always looking for something, yet didn't obtain anything, only knowing that it was in the Nine Heavens, so how could it be so easily found now?

One had to understand that back then, they had previously wiped out this world, already winning, yet they still didn't obtain what they were looking for!

After endless time passed, only now did they obtain some clues, taking action in Sin Province.

Honglong!

The great white bone hand descended. It became large once again, even more vast than all of Sin Province, more majestic. The white bones crossed the skies, descending slowly, grabbing towards Sin Province.

What was going on? What was that?!

On the ground, between mountains and rivers, inside the various clans' residence, all creatures raised their heads, trembling in fear. They were all horrified, couldn't help but tremble.

Right now, cries of alarm sounded in Sin Province, screams ringing through the air. After that bone hand descended, the world was covered, the scene too terrifying.

Everyone found it hard to protect themselves. They were surrounded by the tremendous pressure, unable to resist at all.

However, the bone palm flowed with multicolored light. All of the killing energy, viciousness, and everything else disappeared, completely restrained. As it approached, it seemed more and more calm.

Only then did the creatures on the ground calm down. Otherwise, they would have all fallen weak onto the ground, all of them shaking in fear, moreover bowing down in worship.

Honglong!

However, even though it was extremely peaceful, lacking killing intent and pressure, in the end, the scene was still frightening, incredibly shocking.

After the white bone hand descended, it actually grabbed all of Sin Province from the ground, forcibly pulling it out, making it separate from the three thousand provinces, rise up into the sky.

The great hand shone, surrounding an area of millions and millions of li, wrapping around this desolate land of exile, this vast great province, bringing it into the sky dome above just like that.

Honglong!

Then, that bone hand started to move back, not stopping for too long, heading into the distance. It tore through the void, heading towards the uninhabited region, and then towards Imperial Pass' Desolate Border.

It was too fierce, and too sudden.

Chi!

During this process, the bone palm increased speed. It was because it didn't have much time left. Heaven Abyss' red sea of order was boiling, about to melt away that bone hand.

Even for an undying king, it was still extremely exhausting, dangers happening.

In reality, everything happened in the time it took for sparks to fly off a flint, able to be instantly completed.

From the time the great hand reached towards the three thousand provinces to when it returned to Imperial Pass, it happened in the blink of an eye. Such a shocking thing happened just like that.

“That is...”

In Imperial Pass, the cultivators of all clans were shocked. The bone hand broke through Imperial Pass, headed to the three thousand provinces, it was precisely to seize this piece of vast land?

“Not good, don’t tell me he found what he was looking for?!” In Imperial Pass, a few important figures’ faces became pale white.

The old supreme beings always believed that the reason why the other side attacked the Nine Heavens, the most fundamental reason was definitely because there were some secrets leaked out in the past, that they were searching for something!

Now, did Anlan obtain it?

“I don’t think he did. When Immortal Ancient was wiped out and they occupied our world, they still didn’t discover anything. Today, there is no way they could have found what they needed so quickly.” Someone said.

However, everyone was still scared. The strength of an undying king was too terrifying, breaking through Imperial Pass just like that, crossing over, seizing a great province.

Just how horrifying of a thing was this?

Which province was this? Everyone was trying to identify it!

“Sin Province, the land sinner’s blood descendants reside in.” Someone with sharp eyes quickly recognized.

Anlan didn’t stop. He left through Imperial Pass’ opening, not attacking with full force, only wishing to pull back as soon as possible.

Right now, on this land, many creatures were screaming, shouting, wishing to escape, leave, but they couldn’t break free.

Anlan didn’t destroy them, but instead seized them together with the entire province to preserve its original state.

His actions shocked everyone. The hand pulled back from Imperial Pass, after it entered the great desert, it even more so quickly backed up.

Shi Hao who was bathed in blood suddenly turned around, seeing this scene. His current power, even though it declined, weakening, it was still enough to fight with undying kings.

As such, Shi Hao’s eyes were extremely sharp, spiritual senses astonishing. He recognized with a single glance that this was Sin Province.

Shi Hao’s eyes immediately became red, releasing a great roar. His head of black hair flew about chaotically, frantically slaughtering his way forward.

The other two great experts, one with a cauldron floating above his head, one with a nine-layered pagoda, also rushed out, going all out here, wishing to fight while bathed in blood.

“Anlan, hand over your life!” Shi Hao roared out, his voice ringing through Desolate Border, also shaking up Imperial Pass and the other side.

His hair danced about chaotically, eyebrows standing on end, eyes becoming scarlet red, slaughtering his way over without any fear of the consequences.

Hong!

In order to do this, he didn’t hesitate to take a blow from Shutuo, as well as face the attacks of five decrees. The most powerful ancestral methods shone, submerging his body, making him cough out blood, his body fly out.

Peng!

Even though Shi Hao coughed out blood, his body flying out, he still activated the sword core, releasing a world shocking attack, hacking at that great white bone hand’s wrist, wishing to cut it down in front of Imperial Pass.

Dang!

A deafening noise sounded. The great white bone hand was cut into, sparks flying in all directions. There was a terrifying wound opened, making it shake intensely.

Peng!

In the bone hand, that majestic land was greatly shaken. Even though it wasn’t destroyed, it still trembled like an earthquake, the land cracking. Moreover, there was earth and stone that fell from that bone palm.

This type of scene left everyone shocked, also leaving them shaken.

That was a corner of Sin Province, shaken off from Shi Hao’s attack.

“Leave it behind!” Shi Hao roared out, brandishing the sword again, hacking out.

At the same time, the creature who had a cauldron floating above him attacked Shutuo, while the one who controlled the cauldron withstood the law decrees.

Unfortunately, he was less capable than desired, far from being as powerful as before.

Shi Hao went crazy, going all out, attacking without any fear of consequences. The sword core brandished about, exceptional sword radiance tearing apart the heavens, hacking down.

Dang dang dang...

Sparks flew in all directions. In the end, that wrist bone was actually cut open, the bone palm quickly breaking off.

Just how terrifying of a thing was this?

During this process, Anlan naturally took action as well, just that the red sea surged, making him suffer the powerful attacks and suppression of Heaven Abyss’ natural laws.

Hong!

Anlan erupted with power. While surging with blood radiance, even though his arm cracked apart, his wrist was healing, bones recovering. He grabbed Sin Province, decisively pulling back to the other side.

The sword core in Shi Hao's hands erupted with endless brilliance, the aura exploding out, blasting down great stars one after another, making them explode in midair. The sword radiance completely hacked towards Anlan's arm.

Honglong!

The great hand shook, the cracks in the wrist becoming greater, but in the end still not cut off, only trembling greatly there. There were mountains and rivers that cracked apart, earth and stones falling off of the bone hand.

In that instant, Shi Hao saw an expanse of dark red.

That was an expanse of Fire Mulberry Trees, resting on a corner of Sin Province. The entire tree was fiery red, flower petals wilted, scarlet red like blood, scattering down.

It was as if he saw a young lady leaning against a mulberry tree, looking at him from the distance, the distance just that far away.

"Ah... Anlan, leave it behind!" Shi Hao roared.

He went crazy. The sword core became resplendent, simply about to explode. Sword energy rushed into the heavens, shocking past and present, energy radiance cutting open the sky dome, just too terrifying.

Dang!

Anlan's spear, shield, and Shutuo's weapon, as well as the five decrees released ancestral methods and other things, displaying power at the same time, blocking his world shocking sword radiance!

Honglong!

Anlan's bone palm grabbed that province, entering the sea of natural laws, withdrawing towards the other side!

Ah...

Shi Hao's furious roar rang through the heavens, frantically chasing after them!

However, he was powerless to reverse the situation, because that drop of blood's power was declining, the process becoming greater and greater. He couldn't cross that blood-colored sea of order.

"Come back!" Shi Hao roared out. He reached out a hand, wishing to grab something, but everything was too far already.

In the sky dome above, there were large amounts of fiery red flower petals that fell, fluttering about, one after another, sparkling and translucent.

The Fire Mulberry Trees wilted, floating down.

This bright red rain of flowers could only move where the winds took them.

Chapter 1653 - Divided by Two Worlds

The Fire Mulberry Tree Flowers bloomed, fluttering with the wind.

The sky was covered in a red-colored rain of flowers, the flower petals sparkling like crystals, bright red like blood as they scattered down.

Shi Hao reached out his hand, wishing to grab something, yet his fingers only closed around empty air, unable to grasp anything. The dark red flower petals descended, and then directly shattered, turning into a rain of light.

In front of Heaven Abyss, in the great desert, under the aura of undying kings, what flower petals, what Fire Mulberry Trees? All things would disintegrate.

Shi Hao released a long roar, like a wounded beast. His head of black hair fluttered about, eyes completely red. There was a wave of grief and indignation surging within him, bursting out.

Ah...

He roared out, powerful and intimidating, entire being turning into a stream of light, shaking the entire world!

At this moment, his aura was world shocking, powerful, incomparable. Even though his fighting strength was declining, he could still fight with undying kings!

"Anlan, hand over your life!" Shi Hao shouted out, his aura swallowing ten thousand li, releasing an aura of destruction.

A sword hacked out, cutting through the red sea, about to enter the chaotic Heaven Abyss, wishing to intercept Anlan, seize back Sin Province.

That place had sinner's blood descendants, had the descendants of kings, even more so people he cared about!

"Kill!"

Shi Hao erupted with everything he had, a sword cutting apart Heaven Abyss, just too ferocious and powerful. Only, the price he had to pay in order to achieve this was also great, after all, this was a sea of natural order.

The natural laws of the heavens, sky-covering divine chains interweaved, forming a bright red expanse, as if it was a roiling sea of blood. As soon as he approached, he immediately suffered a great backlash.

Pu!

Shi Hao coughed out large mouthfuls of blood. Even though he cut open Heaven Abyss, saw Anlan's rear figure, he himself also paid a price.

Dong!

The great cauldron moved through the sky. Next to him, the creature who had a cauldron suffused with all life source energy above his head formed seals with his hands. The power was unstoppable, supporting an expanse of the sky dome, severing the chaotic sea of order.

He was offering Shi Hao protection!

Honglong!

Shutuo and Anlan retaliated. They wanted to return to the other side, now that they saw Shi Hao rush over, they immediately attacked with full strength.

Moreover, the most terrifying thing was that the five decrees shone, releasing unmatched pressure. Those were displayed by the ancestral methods of undying kings, enough to shock past and present.

There were undying kings hidden in the other side, their bodies not approaching, but their greatest divine abilities had long been converted into imprints, sealed within the law decrees. When ignited, it wasn't much different from when they were truly here.

The reason why they didn't appear was because they wanted to escape the curse-like backlash. It was because Heaven Abyss was prepared precisely for dealing with them.

The nine-layered pagoda appeared, rising and falling, flowing with an aura that had existed throughout time. It was as if it came from the Age of Emperor Collapse, splitting the heavens and arriving. It erupted with endless power.

It was protecting Shi Hao, also surging with power!

Peng!

Shi Hao fell out, coughing out large mouthfuls of blood, his body flying out.

Heaven Abyss was mysterious, and the undying kings were powerful and tyrannical. Now that he was attacked from several sides, he was powerless to pursue them!

Roar!

Shi Hao roared out like a mad demon, his head of hair flying about chaotically, pitch-black like ink, eyes cold like lightning radiance.

At this moment, he released everything he had, standing before Heaven Abyss, reaching out his hand again. Symbols raged and immortal light burned, drowning him underneath.

Moreover, at his body's sides, those two great experts were also making moves, separately stirring on the great cauldron as well as the nine-layered pagoda, also erupting with power. Symbols ignited, unmatched magical force released.

Honglonglong!

The heavens collapsed and earth cracked, ghosts wept and deities howled. Heavenly winds blew about, the entire world in great turmoil!

It was as if the world was going to be erased. The great desert surged, Heaven Abyss collapsing.

Shi Hao released a low roar, turning into an unmatched demonic god. He rushed into Heaven Abyss again, hacking towards the scarlet sea, slaughtering his way towards Undying King Anlan.

This was staking it all!

Only, low roars also sounded from the other side's direction. It was as if there were several unmatched kings who were waking up, releasing heaven reaching earth moving power.

Kacha!

Lightning flashed and thunder roiled. Several streaks of blood radiance directly rushed into the heavens. These were the five decrees that shook, all of them shattering, starting to burn, releasing the aura of undying king blood.

The imprints left behind by the unmatched experts were activated, five decrees set aflame, about to be destroyed. This would also be the final attack, the most powerful one.

Hong!

Heaven Abyss shook intensely, the red sea sweeping out, waves heaven reaching.

The most dazzling light erupted, terrifying natural laws interweaved. Even the heavens were shaking. Beneath the heavens, all creatures shuddered in fear. This was an aura of eradication.

A great magical force storm erupted here. It was incomparable, surpassing the past.

Regardless of whether it was Imperial Pass or the other side's great army, nothing could be seen anymore. None of them knew what happened at the heart of the battlefield.

If not for the red sea of natural laws submerging this place, blocking everything, Imperial Pass definitely couldn't be preserved, definitely would have turned into ruins. Meanwhile, the other side's endless army would also be turned to dust.

Honglong!

The final strike seemed like the splitting of heaven and earth itself. All things between heaven and earth became blurry, chaotic energy spreading.

After who knew how much time passed, everyone saw that in front of Heaven Abyss, there was a blood covered figure who was on the verge of collapse, staggering backwards.

That drop of blood's strength was now completely exhausted. The figure with the nine-layered pagoda floating above him flickered about continuously, while the mysterious expert who resonated with the cauldron also became blurry.

In front of Heaven Abyss, Shi Hao's mood fluctuated fiercely. He couldn't hold himself back, roaring towards the heavens like a lone wolf howling towards the moon. He had all that world-shaking magical force for nothing, still unable to reverse the situation!

He couldn't break through, Heaven Abyss separated everything. Those undying kings stopped him, and now, the red sea of natural laws isolated the two worlds.

“Huo Ling’er!”

Shi Hao clenched his fists, eyes scarlet red, black hair scattered about, feeling unwillingness and despair.

Not long ago, he vaguely saw, at the edge of Sin Province’s vast land, numerous Fire Mulberry Trees. A figure stood at the edge of the forest, leaning against a fiery red ancient tree, shaking with it. She reached out her fine hand, but couldn’t reach this side of the shore.

Right now, his magical force was unmatched, able to fight against undying kings, compete against the most powerful, truly glorious and brilliant! n/.OVELbIn

However, he couldn’t even protect that girl, watching just like that as she was snatched away by that giant bone hand, lost to the other side together with Sin Province!

She stood in that Fire Mulberry Tree Forest alone, morning dew touching her clothes, basked in the glow of sunset, picking mulberry leaves, quietly waiting for his return. The years passed one after another, yet she wasn’t able to see that person return.

When Shi Hao thought of these things, he clenched his fists, couldn’t help but want to release a long roar. After being separated for so many years, he really wanted to meet her again, yet he never returned all this time.

Today, was that her? He only got a hurried glance, yet they were so far apart, now separated by two worlds, unable to meet again.

For Shi Hao, this was a tremendous regret. After exchanging a single look from afar, they could never meet again!

How could it be like this?!

Roar!

Shi Hao released a great roar, feeling inwardly sore, carrying great regret. He really wished he could rush into the heavens, fight a heaven-splitting battle.

They were now separated by two worlds. Even if he could rush into the heavens one day, display the Kun Peng battle intent, as the years went on, time erased all, what could he still redeem? He was powerless to change anything.

Heaven and earth collapsed. Shi Hao brandished his sword, splitting the sky dome, sword energy released in endless streaks, cutting through the cosmos!

However, in the end, he could only stand in the same place, mentally and physically wan and sallow.

The world was in chaos, the Pride of Heaven falling. All competed over the mandate of heaven, flames of war overflowing.

This was destined to be the most intense great era!

Shi Hao stood in place, eyes burning with endless flames. He had never desired power as much as now, wishing for the ability to decide heaven and earth.

Shi Hao released a low roar, eyes becoming blood red. He was like a wounded wild beast, continuously roaring, arms forcefully clenching, finger joints all becoming white.

The Fire Mulberry Flowers all scattered, his loved one gone!

The age of turmoil was coming, war about to engulf the worlds, what place under the heavens could he call home?

Shi Hao roared, the fiery light from his eyes burning down the void. The 'sinner's blood symbols' on his forehead split the sky dome, making him look like a reincarnated demon lord, heaven reaching killing energy surging around him.

A seed was planted. He wanted to transform, kill undying kings, even more so face that impending age of darkness!

When he calmed himself down, the nine-layered pagoda and great cauldron both disappeared, those two experts thus disappearing, scattering into a rain of light.

The Embodiment Transformation Great Method lost effectiveness.

In the other side, Anlan's white bone great hand already regrew flesh, his eyes ice-cold like an immortal sword, piercing through Heaven Abyss, staring at the other side.

Then, he reached out a palm, wishing to cross through Heaven Abyss!

"You cannot! The sea of order has begun to stir, the destructive force reaching its greatest level. It cannot be touched any more, this is a natural law sea specially for dealing with you and me!" Shutuo advised.

However, Anlan didn't listen, because he saw Shi Hao's Embodiment Transformation Great Method dwindle, the fighting strength fully withering away. He could now kill Huang.

Honglong!

The great hand reached over, the red sea surging.

The most terrifying thing was that the original Emperor City's fragments fluttered about, accompanied by a seated figure, chanting scriptures there. Then, it exploded.

Honglonglong!

Inside Heaven Abyss, natural laws interweaved, becoming eternal!

Pu!

Anlan released a muffled groan, spurting out blood from his mouth. The flesh covering that arm completely came off, instantly revealing withered bone. He quickly retracted it.

However, he still suffered a serious blow. There was a thread of karma, extremely brilliant, shining as it extended along that arm bone, wishing to enter his body.

Kacha!

Anlan coldly and decisively produced a blade imprint with his other arm, scraping his bones to remove the karma thread, and then treat his body. With a peng noise, that expanse of light was cut off.

Honglong!

Heaven and earth shook greatly, with Heaven Abyss becoming an expanse of fiery red sea, millions and millions of symbols burning!

Undying existences wouldn't be able to cross for hundreds of years. This was, unless these flames of karma were completely extinguished.

Chapter 1654 - Heart Already Weary

There were some who said that Fire Mulberry Forest was in Fire Province, not in Sin Province. However, others would say claim that this was wrong, that in the very beginning, it was recorded in many places that Fire Mulberry Forest was precisely in Sin Province, that if they didn't believe it, then they can examine the original texts. Only, during that period, there was a mistake, but back then, everyone definitely knew that what should be written was Sin Province's Fire Nation's territory.

The world became silent. Shi Hao stood there by himself.

Did everything end here? The battle of two worlds came to a conclusion.

However, the deceased, those who left, could no longer be seen. These would become a lifetime's regret and sorrow. Shi Hao became completely silent, incredibly quiet.

Honglong!

Heaven Abyss had long cracked apart, flames raging there, a sea of redness, an ocean of natural laws. There were karma flames raging, separating the two worlds.

There were scripture sounds, sounds of explosions, as well as great shouts of killing.

Shi Hao was startled. He suddenly raised his head, looking forward. Within the sea of order, the original Emperor City exploded, flames blazing.

Apart from this, there was also an indistinct figure sitting there, chanting sutras, body becoming more and more dim until it completely disappeared.

The sole survivor of the seven kings also left the world, flesh becoming nothing, primordial spirit fading away. It was him who detonated this place. The original Emperor City fell, Heaven Abyss exploding, only then did they successfully carry out the final suppression!

It wouldn't last for too long, perhaps only for a few hundred years, and then the sea of natural laws will disappear. Meanwhile, this was also the last thing he could do for Imperial Pass.

Shouts of war from a great army shook the heavens!

These were the undying heroic spirits of original Emperor City, the shouts and roars carried the past glory. When one looked back into the raging flames, all things vanished like smoke into thin air.

The original Emperor City was completely wiped out!

“The clansmen... all died.”

Imperial Pass, on the city walls, a group of children were sobbing. This was the last scene they saw. The ancient city that raised them was destroyed, all of their loved ones falling in battle.

From past until now, this city always protected at the very front, guarding Desolate Border. Now, it completely burned down, in all of its glory and brilliance... disappeared.

As long as the city still stood, the people would remain, when the city fell, then the people went down with it! These people, those families, fulfilled their final promise. All of their souls returned to the battlefield, the blood of heroic spirits scattering across the ruined city.

Shi Hao looked at all of this. He put away his own feelings of sadness, eyes becoming cold. The Fire Mulberry Forest was now gone, original Emperor City fell. This didn't make him feel depressed, but rather filled him with incomparable fighting spirit.

“I want to become stronger!” This was what he was shouting inside. He wanted to become stronger, to soar into the heavens like a Kun Peng, rush into the heavens above.

He sighed, carrying weariness, carrying fatigue. Under Heaven Abyss, within the fiery red symbol flames, that final king disappeared just like that.

There was nothing left. The legend of the kings thus ended, never to appear again!

This was the conclusion of an age!

The past glory, the past brilliance!

In the past, a group of heaven warping heroes resided in Emperor City, granted the title of Kings based on their contributions, radiance illuminating the world under the sky, all clans holding them in high esteem.

Then, as the years passed, everything went up in smoke. These powerful clans all became dismal, fading away.

Those who previously achieved great merit all fell.

The conclusion of an age!

“I want to be granted the title of King!”

Shi Hao roared out. This wasn't him being egotistical, but rather a type of conviction, a shout carrying killing intent.

Everyone knew that the so-called title of King he spoke of was to rebuild from the ruins, to seize the title by killing the enemy!

The clans all faded away, the descendants of the Kings now scattered across various lands, long no longer having their former glory. Many of them were labeled as sinner's blood descendants, their radiance cut down.

Shi Hao's roar represented his anger, his unwillingness, as well as his world devouring conviction.

Not only did he wish to kill the enemy, he also wanted to prove something, wash away the sinner's blood humiliation. There were some who had to pay the price for this.

Those who attained great merit in the past, the creatures who protected this world back then, their descendants, the ones who inherited their bloodlines, how could they be viewed as sinner's blood descendants?

There was something wrong, something incredibly wrong that had to be corrected!

Shi Hao walked towards Imperial Pass. He staggered, body extremely weak. The great battle not too long ago took a toll on him, even though what was used was the Embodiment Transformation Great Method, using the strength of another, he still felt a sense of weakness.

It had to be said that the Embodiment Transformation Great Method was heaven-defying!

At this time, Shi Hao was still thinking to himself, wondering just what kind of secret technique it was. It could actually grant others one's own power, make it appear in the present world, it was simply unfathomable!

Crossing time, crossing space, to make it as if one was here in the present world, display unmatched technique, just how heaven-defying was this?!

Chi!

On Imperial Pass, a streak of light flew over, surrounding Shi Hao, directly sweeping him into the city.

It was because there were many people who were worried that something unexpected would happen to him. After all, right now, that drop of blood disappeared. If an undying king went crazy, deciding to attack him again, then Huang would undoubtedly be in danger.

When Shi Hao appeared in the city, a group of people rushed over, cheering loudly. These were all youngsters.

Tuogu Yulong, Cao Yusheng, and others directly raised him up, roaring. This battle was extremely difficult, and also extremely terrifying. The undying kings were stopped, this was enough to be considered world shocking contributions.

Shi Hao was lowered. Many people gave him a firm embrace.

Now, even Qing Yi and the witch didn't show each other anymore hostility, just like the others, not avoiding each other, all of them giving him a warm embrace.

Even Yue Chan stood there with a complicated expression, quietly watching.

"Wahaha! You are too fierce! Are you really Shi brat, really Huang?" The Lunar Jade Rabbit cried out, suspecting that Shi Hao's body was forcefully seized by another, pinching his cheek to see if it really was him.

Cheers erupted here, becoming incredibly lively.

Shi Hao felt happiness, but also soreness. Even though they temporarily chased off the undying existences, the disaster would arrive sooner or later one day.

Moreover, through today's battle, he obtained some things, but also lost some things. There were some people who he might never see again in this life.

When he thought of these things, Shi Hao's eyes became sour.

Even though he had long surged with battle intent, when he thought of Sin Province, about those people, thinking back to the Fire Mulberry Forest, he still found it hard to calm down, really wishing to roar into the sky.

He carried regrets, his eyes becoming sore, mouth dry. Shi Hao released a sigh, ascending the city wall.

He looked at those children. These were the survivors of the original Emperor City.

The children were crying, full of grief.

"Don't cry, in the future, I am your relative. There is a pure land in the lower realm, a place called Stone Village. That place will be your home." Shi Hao walked over, stroking those children's heads.

The oldest were fourteen or fifteen years of age, the smaller ones couldn't even stand straight, unable to walk that well. They were all already orphans, the descendants of warriors.

"You... are going to return to the lower realm?" Qing Yi turned around. She looked towards Shi Hao, her heart shaking slightly.

"I'm tired and weary, I want to go back. Now that this battle ended, I want to return to the place I grew up in." Shi Hao replied.

Shi Hao really was weary, not only his body, but also his spirit. He left into the great wilderness when he was still extremely young, ascending into the heavens, going from the lower realms to the three thousand provinces, advancing boldly.

He experienced too much, his heart weary, a bit emotional, really wishing to return to the Stone Village filled with happiness and laughter.

On the city walls, many people became quiet, finding it hard to advise him against it.

It was because they saw what happened, knowing that Huang was tired. He watched as Sin Province was uprooted. He roared out, wishing to save the young lady in the Fire Mulberry Forest, yet was powerless to reverse the situation.

"Big brother..."

On the city wall, the group of children cried. They were all filled with sorrow and grief. For them, today was a day of darkness, their loved ones all died in battle.

Shi Hao put away his sorrow, trying his best to reveal a smile. He hugged these children one after another. They were the most miserable!

"Don't cry, don't feel sad. I will bring you with me. When the day comes and you all are strong enough, I'll bring you all to take Anlan's head, get revenge for your loved ones!" Shi Hao said.

“Okay!” The children rubbed their eyes. However, their voices were rather loud, and also extremely orderly.

“I will bring you all to glory!” Shi Hao said quietly, extremely calm, but also extremely firm.

On the city wall, many people were shocked.

The sinner’s bloodline, what kind of brilliance were they going to display?

Everyone was shaken up, quite a few powerful clans even more so found it hard to calm down. It was because there were some families who were involved in some things.

“Are you really going to leave?” Qing Yi asked. There were others who walked up, looking towards Shi Hao, wishing to say something, but didn’t know what to say.

Shi Hao looked into the distance. Heaven Abyss overflowed with karma flames, isolating everything.

That city would no longer appear. After protecting them for so long, in the end, it still fell.

On the city walls, many people also looked in that direction, only able to release a sigh. n/.OVELbIn

The other side had been knocking on their door for many years. It was always that city that guarded at the very forefront!

If it didn’t exist, the great army would have invaded a long time ago!

After being attacked for many years, it really couldn’t hold on any longer, only the last king remaining. It was destined to fall in this era.

Being able to last until this age was already not easy!

“Undying kings, they paid a great price. The other side will need many years to recover.” On the city walls, someone said.

Without a doubt, Anlan and Shutuo had to pay the price. As long as they entered Heaven Abyss, they would receive a curse type corrosion, this type of effect a continuous one. They were going to be entangled within that type of karma force for many years.

This was also the main reason why in the beginning, only Anlan broke through, while the other undying kings waited in the back, not daring to rashly make contact!

“Is it over? Now that this battle is over, we can have several hundred years of peace, no longer have to worry about this.” Someone said with a sigh, carrying endless emotions, but also rejoicing.

Hong!

Heaven Abyss shook greatly. The fiery red sea of natural laws surged like blood. A weapon that was simple and terrifying wanted to hack open that place, produce a path!

Chapter 1655 - Without Death

A war halberd that was extremely thick and also extremely cold hacked through Heaven Abyss, cutting this place apart!

This scene happened too suddenly, and it was also too frightening. Heaven Abyss shook, a sea of natural laws surging, red waves striking the heavens. The entire great desert was shaking.

This was especially the case with that wave of aura, even though there was Heaven Abyss separating them, as well as Imperial Pass blocking the way, it still made everyone's hearts shake, their souls shudder!

Everyone thought that the great battle had already ended, that they would have hundreds of years of peace, yet when they had just turned around, a world shocking overlord's great halberd hacked over.

Many people were horrified. This was definitely the attack of an undying king, or else how could the power be this terrifying?

How could it be like this? They were going to be attacked again!

Many people were stupefied, feeling a chill run down their bodies, from head to toe. Could it be that after all of that, they still couldn't stop the other side from crossing over?

There was a sea of karma there, an ocean of natural order, a heaven wall specifically for dealing with unmatched experts, difficult to cross. If one wished to forcefully break through, a tremendous price had to be paid.

When the original Emperor City exploded, the last king turned into a rain of light, merging with Heaven Abyss, that type of power became even more astonishing, Heaven Abyss becoming a restricted land.

Not long ago, Anlan had only stepped foot within for an instant, yet his arm turned straight into bone!

This was especially the case when this type of effect was continuous, difficult for it to disperse for hundreds of years. It greatly threatened undying kings!

The destructive power, that type of tremendous harm was already proved, so why was there still someone taking the risk?

This was a bronze war halberd. It was extremely simple and ancient, and also extremely heavy, It hacked open Heaven Abyss, just that close to cutting through the border of the sea of natural laws, about to arrive before Imperial Pass.

Streak after streak of radiance flowed about, endless scarlet multicolored light shining. The red sea of natural laws submerged that great halberd!

The bronze great halberd was ice-cold. It rushed over, allowing the divine chains of order to attack, the sea of laws to corrode it. It didn't even move, only releasing killing intent!

Everyone shivered inwardly. On the city wall, it immediately became dead silent. This was different from what everyone imagined. The battle still didn't end!

"Heaven Abyss has already taken form, completely activated, the natural laws able to corrode undying kings, so why is he taking this type of risk?" Someone asked with a trembling voice, almost in despair.

Hong!

The great halberd shook, wishing to break through Heaven Abyss, truly hack its way over. It produced heaven overflowing murderous intent, lightning pouring down crazily.

Chi chi chi!

Scarlet multicolored light shone endlessly, blood red symbols burning fiercely, submerging the great halberd, suppressing it, not allowing it to break through that blood-colored great screen.

Heaven Abyss became more powerful than it was before, now displaying its effects!

“Specially for dealing with undying kings!” Everyone cheered, letting out a breath of relief inside.

“Will it corrode his weapon?” A few people were hopeful. They stared at Heaven Abyss, hoping that the blood-colored sea of natural laws would destroy this undying king weapon.

At the final crucial juncture, even Anlan’s arm was corroded and dried, flesh disappearing, so it only made sense for this weapon to be destroyed as well!

However, what was unexpected was that the bronze great halberd wasn’t damaged. Moreover, it was releasing a faint light, resisting Heaven Abyss, neutralizing the sea of natural laws’ power.

Hong!

Right at this time, the great halberd shook intensely again. It forced back the blood symbols, scattered the sea of order, leaving every single person deeply shocked.

In that instant, in Imperial Pass, on the city walls, many creatures shivered in fear, their entire bodies going ice-cold.

What kind of power was this? Not even Heaven Abyss could display its effects?

“I... know what is happening. He is that person, the legendary unmatched expert!”

Someone said with a trembling voice, face becoming pale. He spoke a name, but he didn’t dare speak those words together, instead saying them separately.

It was because he didn’t wish to bring danger upon himself.

Undying kings had unmatched and mysterious abilities. When their names were called, they could appear here, it was beyond compare.

Even though they were divided by Heaven Abyss, that person still didn’t dare speak the full name.

Without Death!

However, everyone also understood. Who was this existence? It was the well-known Without Death!

There were just too many legends tied to this unmatched being. Even in the other side, everyone would feel fear, making them tremble.

It was because he was too powerful, and also too ancient, rumored to possibly be half a generation older than even undying kings, his status respected, incredibly terrifying.

Without Death Clan, this was one of the most ancient Emperor Clans!

Without Death, this was the clan's ancestor, he had always lived, already more than a single great era, magical force unmatched, unmatched below the heavens. He was a truly incomparable individual.

With a bronze war halberd in hand, he was known to be an invincible figure who slaughtered his way throughout the world under the sky!

"It's him, it's actually him!"

Right now, even the voice of the old supreme being inside Imperial Pass was shaking. This was someone who wouldn't bat an eye even if divine peaks collapsed before him, yet now, he was behaving so unnaturally.

Without Death, this was someone with an incredibly vicious reputation. In Immortal Ancient War, he was someone who had massacred too many, breaking the equilibrium!

"Magical Immunity, all techniques impervious, this is that unmatched king!" Someone said with a sigh.

Without Death, his reputation was too great, name shocking past and present, as feared as the heavens itself. When one reached a certain level, everyone knew of his past glory.

It was because this clan's secret technique was too astonishing, too domineering, known to be unmatched and incomparable!

Immunity Divine Ability, all methods impervious, this was the ability he was most proud of. It was innately undefeated, no one able to compete against it!

When Shi Hao faced attacks from those at the same level, he could display Magical Immunity effects, but the amount of time was limited, only having an instantaneous opportunity.

Meanwhile, he always knew that this type of unmatched secret method was extremely well-known in the other side. It originated from an ancient Emperor Clan, they grasped this type of method.

Now, he truly saw it. Undying King Without Death personally brandished his weapon!

No wonder the bronze great halberd remained unbreaking, able to move through Heaven Abyss, even hack open a path and cross realms.

This was Without Death's weapon, so it could naturally display Magical Immunity!

"Could it be that... Imperial Pass is still going to be broken though in the end?" There were some who were about to fall into despair, feeling like their lives became incredibly dismal.

"The so-called Magical Immunity, divine ability ineffective is only a relative effect, it is not absolute. At the very least, Heaven Abyss can stop him, he cannot cross over!" Meng Tianzheng spoke. He had remained quiet for a long time already.

"Correct, if he really can be immune to divine abilities, he would have attacked a long time ago, why would he have to wait for so many years? It is only a relative effect!" Another person nodded.

Everyone calmed down, knowing that they scared themselves.

If the red sea of order was not effective against him, then that unmatched king definitely would have crossed over a long time ago!

“Look, the bronze great halberd is starting to crack apart!” Someone with sharp eyes saw that scene.

Sure enough, the great halberd’s blade revealed cracks, extremely eye-catching!

“He had never entered Heaven Abyss before, not corroded as Anlan. As such, right now, there is even less of a chance of him risking his own life now!” Meng Tianzheng said.

Many people released a breath of relief after hearing this.

Honglong!

However, just as they were relieved from their burden, Heaven Abyss shook intensely, a great halberd shining, a vast and immeasurable power surging powerfully, rippling through this world.

“That is...”

“Not good, it is opening up a path! Is an undying being going to be sent over?!”

A few people’s expressions changed, feeling greatly shaken, faces becoming pale.

On that great halberd, a creature walked over, releasing heaven overflowing power from his body. It wasn’t an undying king, but it exceeded the limits of mortal dao power, extremely terrifying.

An undying being, this was a type of powerful existence.

Using the Nine Heavens’ levels, that was a true immortal!

“Heavens, it is an immortal dao level expert!”

“How are we supposed to face him?”

A few people became scared, now completely panicking. In the final moments, when everyone thought that the battle had already ended, an undying being crossed over.

Everyone knew that this was caused by Without Death. His weapon opened up a path, his unmatched ancestral method resisting Heaven Abyss to send an undying being through the pass, destroy Emperor City.

In the present world, the Nine Heavens side lacked true immortals. This type of undying existence was enough to suppress everyone.

Pu!

However, when his feet left the bronze halberd, crossed towards Heaven Abyss’ border, he suddenly coughed out large mouthfuls of blood, staggering backwards, unable to cross over.

He failed to cross realms!

It was clear that Heaven Abyss stopped him, because this was a restricted place originally meant for stopping the undying, as well as even higher level kings.

Imperial Pass, on the city walls, cheers sounded.

The enemy's misery and defeat were their great fortune, their brilliance.

Unfortunately, their smiles soon froze. Everyone stared in Heaven Abyss' direction.

Silently, several dozen figures appeared, arriving along the bronze great halberd, every single one of them grave and terrifying, like demonic gods who returned to this world after breaking through the shackles of hell.

Moreover, they crossed Heaven Abyss, arriving before Imperial Pass.

They weren't immortal dao level experts, not undying beings, but the weakest were at the Self Release Realm. These were mostly supreme beings, now appearing on the great desert.

"I knew things wouldn't have ended this easily. There is another vicious battle to fight!" Someone said with a sigh.

Immortal Wang and Jin Taijun were also here, their expressions grave. There was still a supreme being battle that had to be fought!

It was because Heaven Abyss suppressed the undying existences, but didn't suppress those at the peak of mortal dao level. It was like before, they were able to cross Heaven Abyss.

Now, this group of experts appeared, arriving in a group!

"Huang, do you dare come and fight?!"

Below, there was someone who shouted, someone with a young face. There were some creatures around him, the men heroic, women stunning. **noVe/lb-1n**

"Emperor Clan!"

These two words sounded from Shi Hao's mouth, extremely cold, and also extremely ruthless.

"Aside from depending on that drop of blood, what else are you good for? Do you dare fight or not? I'll take your head!" Someone shouted.

At the same time, there were supreme beings who coldly transmitted sound, inviting the unmatched beings in Imperial Pass to fight.

"Heh... haha!" Shi Hao laughed, his voice a bit cold, and also a bit excited. His eyes flickered with brilliant radiance.

"Before I leave, there are actually people who want to gift me accomplishments one after the next? Emperor Clans, you all are courting death. I'm going to kill you all!" Shi Hao roared domineeringly.

Chapter 1656 - Chance for One Last Battle

Outside the pass, a row of people stood there, towering like great mountains one after the next. They weren't all that large and tall, but their auras were powerful and intimidating.

Every single one of them was powerful and terrifying. They stood there, ice-cold like a frozen abyss, as if they slaughtered their way out from hell, breaking through shackles to reappear in the world of mortals.

This was a group of demonic gods, one more terrifying than the next, killing intent overflowing into the heavens!

“Come out and fight, I will take your head!” Below the city wall, a youngster shouted again. He raised the heavenly spear in his hand, pointing it at Shi Hao.

The great desert was vast and limitless.

These people walked out from Heaven Abyss, standing here, making even the void distort. This was caused by a powerful aura!

Heaven Abyss, it could stop the steps of undying beings, but for those at the peak of the mortal dao, it didn’t stop them, allowing for them to cross over.

Shi Hao was laughing, murderous intent behind his smile. Not long ago, he even dared fight against Anlan, would he be scared of these people under the city?!

On the city wall, there were some people who became quiet. They didn’t wish for the war to continue, hoping for a few hundred years of peace. It was because the other side’s ferocity and power were something anyone with eyes could see!

Now, everyone was hoping for reinforcements to appear after hundreds of years had passed, that those mysterious experts would descend once more, stop the other side’s creatures.

“You think we are scared of you all?!” Of course, there were some who were extremely vicious, immediately shouting, really wishing they could immediately leave the pass and fight.

Not long ago, they could only watch as Imperial Pass’ gateway was destroyed by Anlan. A large hand extended through the sky, causing tens of thousands of experts to instantly perish.

That type of tragedy made many people feel great pain, the casualties included their own fathers and brothers, their loved ones.

Only, a cruel reality was displayed before them. Even the lowest level creatures were at the Self Release Realm, the others supreme beings, at the peak of mortal dao.

Meanwhile, inside Imperial Pass, just how many supreme beings were there?!

Many people felt helpless. The difference in cultivation levels was too great. Even if they wanted to kill the enemy, they didn’t have the qualifications. Apart from this, a few people found it hard to calm down. Was that undying being going to cross over?

One had to understand that when the bronze great halberd was in Heaven Abyss, it wanted to open up a path, send an immortal dao level cultivator over.

On that great halberd was an undying being, lingering about. Even though he couldn’t cross Heaven Abyss, who could say for sure that he would still fail in the end? n--*Opelbln*

"I am sure that unless he pays the price of blood, he cannot cross over at all. Heaven Abyss has sealed Desolate Border, undying beings cannot step foot here." Meng Tianzheng spoke.

"What if he does?" Jin Taijun said.

"If he pays the price of blood to cross over, I can kill him!" Meng Tianzheng said.

Hong!

This immediately lit a flame within everyone's hearts. From start until now, even though Imperial Pass hadn't been broken through yet, everyone still felt a great pressure, and also extremely nervous. Now that Meng Tianzheng said this, it left many people shaken, a wave of hot blood rising within their chests, about to erupt.

"Kill them!" There were leaders who shouted.

"Heh, just a group of losers, only able to hole up in your city. Just watch how we break through the pass, slaughter all of you!"

Underneath the city, a supreme being spoke. He had a medium build, but his figure carried an astonishing presence, as if it was a demonic mountain that had suppressed the mountains, heaven and earth.

This person had green hair, a few dao laws and patterns appearing on his forehead, carrying chaotic energy, terrifying power seeping out. He wore green-gold armor, powerful beyond compare.

Supreme being, an extremely powerful cultivator. He stood at the peak of mortal dao, able to overlook the people of Imperial Pass.

Hong!

Behind him floated a pouch refined from over ten thousand types of best skins. It could swallow up all things, able to open a world, immortal dao splendor released from it.

It was precisely the Heaven and Earth Pouch. It originally belonged to the Nine Heavens, but in the end, it was lost to the other side, becoming their killing weapon.

This immortal dao weapon came from the Nine Heavens, so it wasn't suppressed by Heaven Abyss, could be brought over.

Imperial Pass' gateway collapsed, city walls cracked, it was indeed the best chance to break through the pass. If the other side attacked with the Heaven and Earth Pouch, it really might be able to bring the other side's endless army through.

Many people broke out in cold sweat. Originally, they thought that the great battle had ended, that the worst case scenario was that they just wouldn't leave the pass, that it would be enough as long as they defended it.

But now, it seemed like it wasn't as they had thought at all. The danger was still present, moreover, things seemed far from reassuring!

“Ants, the moment the city is broken through is the day of your deaths. The city will be purged, completely slaughtered!” Another supreme being proclaimed.

He wore black armor that flowed with dark light, his figure tall and sturdy like a black dragon. There was a powerful aura around him. He stood there, overlooking this side.

Another supreme being appeared. Above his head was a Violet-Gold hammer. Even though it was damaged, it was releasing immortal dao aura, flowing with unmatched power.

On the city walls, many people broke out into cold sweat, their bodies going cold.

Below that city stood a row of creatures. There were several dozen figures, Self Release Realm cultivators and supreme beings making up the main force. This was a force that made the cultivators of imperial pass sigh with astonishment.

Moreover, those people carried immortal weapons! Would they be able to stop them?

“Do you all dare fight?”

Below, someone laughed loudly, extremely frivolous, looking down on Imperial Pass’ cultivators.

Even though Anlan suffered quite a bit not too long ago, facing an unimaginable retaliation, the other side’s creatures were still brimming with confidence.

It was because they knew that this was something unexpected. The Embodiment Transformation Great Method didn’t belong to this time. It was only a momentary power, and now, it had finally dissipated.

Now that they were directly invading, who could stop them?

Behind them, an undying being overlooked this place. There were even Without Death, Shutuo, and Anlan overseeing things, who could stop them? No one could!

“If you dare come out, then we’ll kill you all!” In the great desert, even those young faces were challenging Imperial Pass, pointing at the cultivators on the city walls.

It was one thing for supreme beings to be saying these things, but now, even the younger generation figures were provoking them, this made a few leaders on the city wall feel sullen. They really wanted to rush over and wipe them out.

However, the so-called younger generation really weren’t weak, to be more precise, they were all great experts at the Self Release Realm!

Honglong!

Right now, in front of Imperial Pass, a weapon shone. This was a damaged weapon, but it carried immortal dao brilliance, also attacking Imperial Pass.

The situation was extremely critical!

“Who is willing to go out with me and fight?” Meng Tianzheng spoke.

On the city walls, it immediately became quiet.

Meng Tianzheng was going to leave the city, face the enemy. This was definitely going to be dangerous!

Many people understood his intent. If they wanted to protect Imperial Pass, then they had to risk their lives. It was because the other side used immortal dao weapons, perhaps they really might be able to break through the now damaged city.

Even though the immortal formations in the city had already been activated, there would most likely still be dangers.

Meng Tianzheng did this to neutralize the disaster, to repel the enemy in front of the city.

“I am!”

Shi Hao said. He walked forward with large steps, the first one to break the silence. He was going to leave the city and fight.

Everyone looked over. Shi Hao had, without a doubt, established great contributions not long ago, stopping Anlan. This was an incredible achievement.

However, the drop of blood now disappeared, could he still leave the pass and fight? Was he not scared of being killed by the other side’s supreme beings?

Meng Tianzheng released a light sigh. He didn’t wish to bring Shi Hao out. He was scared that the genius would be killed in front of Imperial Pass. However, in the end, he didn’t advise him against it, because he planned to send Shi Hao back to Imperial Pass at the most critical moment.

After all, the other side also had some youngsters who stepped out, perhaps he could bring Huang with him for now.

“Is protecting the city not an option?” Jin Taijun spoke.

She had to say this, because the city’s supreme beings were limited, only a few. She was one of them.

“Fine, since we have been forced to this extent, I will go out and fight as well.” Immortal Wang spoke. He had the appearance of a young man, handsome and exceptional.

Many people were stunned, even Shi Hao was surprised!

In Shi Hao’s opinion, Wang Family was just as hateful as Jin Family, to the extent where he suspected that they might have harbored ill intentions. However, now, Immortal Wang was going to face the enemy?

“I am also going!”

An elder spoke. Normally, he remained by the Ancestral Altar, an unmatched supreme being of Imperial Pass. Now, he was going to take action.

Then, another elder walked out, wishing to fight the enemy.

This left everyone shocked. It was because no one recognized him. He was actually a hidden supreme being!

Jin Taijun frowned. In the end, she had no choice but to step forward. The others were already going out to face the enemy, she was one of the few supreme beings, so she had no reason to cower back.

“We are also going!”

A few great leaders roared, wishing to leave the city with them.

There were some Self Release Realm cultivators among the figures outside the city, not that much different from the cultivation levels of the leaders in the city. These people wanted to go out and fight.

“Shi Hao, here, the sword core!” Qing Yi called out to him, throwing the Everlasting Sword Core he left in Imperial Pass out, having him use it to protect himself.

Chi!

An expanse of multicolored light flickered about. These people left the pass, entering the great desert.

“Heh, haha, you all really dare come out! Isn’t this just courting death?!” There were people from the other side who roared with laughter, extremely brash.

In that instant, killing energy flooded heaven and earth, strong winds raging. A group of powerful creatures’ eyes became cold like beasts staring at prey. All of them were staring at the city gates.

“It isn’t that I want to criticize you all, but if you really fight a decisive battle like this, all of your so-called experts are nothing more than dogs and chickens, will be completely slaughtered!”

On the other side, someone said with contempt, full of arrogance. His words were extremely domineering.

Wasn’t this not putting Imperial Pass’ people in his eyes at all? He clearly had a low opinion of them!

“We are also going!”

In Heaven Abyss, a few people walked out, from elders to youngsters, all of them experts. There were people who Shi Hao recognized, and also those that were unfamiliar.

A few of them had blazing eyes, immediately staring at Shi Hao. They clearly came for him, wishing to kill him.

“Youngster, good fortune won’t always be on your side. Now that you came, you can forget about going back.” There was an elder who said coldly.

This was a supreme being, even someone of this level was going to take action, wishing to kill Shi Hao, not give him the chance to grow up.

“Come, come, come, before that, let me borrow your head for a bit first!” Meng Tianzheng spoke, pointing at that supreme being.

“Who wants to kill me?” Shi Hao asked.

“Me!”

“Me!”

...

In that instant, in front of Imperial Pass, a group of creatures spoke up.

From young to old faces, even supreme beings didn't hide anything, wishing to kill Shi Hao.

"Those who want me dead, wash your necks and crawl over yourselves!" Shi Hao said, full of provocation, leaving Imperial Pass' people stupefied.

Chi!

Inside Imperial Pass. there were a few more people who walked out of the city, entering the battlefield.

There were some youngsters among them, all of them the elites inside Imperial Pass.

"Why did you come out?" Jin Taijun frowned, because she saw Jin Zhan.

"I wish to fight against those from the other side!" Jin Zhan spoke. He had conflicting emotions. Ever since he lost to Shi Hao back then, he had always desired a battle, wishing to prove himself.

Perhaps this was going to be Desolate Border's last battle. Shi Hao had already established glorious contributions, while he didn't even take action, never fought a great battle against the other side's creatures.

If Desolate Border's battle situation ended and they returned to the Nine Heavens just like that, what kind of face would he have left?

He was always viewed as an outstanding figure among the younger generation, fostered by Jin Family as a leader. If not for being defeated by Shi Hao, today, he might be the leader of the entire younger generation!

Now, he wanted to prove himself, fight gloriously in front of Imperial Pass!

Wang Xi also appeared, her white clothes fluttering about, arriving in the great desert.

Apart from this, Tuogu Yulong, Ten Crown King, Exiled Immortal, Great Xu Tuo, Little Sky King and others all came. The Prides of Heaven of the present age all wanted to carry out one last battle.

Chapter 1657 - True Gold Must Be Refined Through Flames

These people's arrival didn't make the other side's people become serious, it instead made some young experts' eyes display radiance, becoming like starving wolves that saw delicious prey.

These were undisguised invasive looks, examining them. They were full of excitement, about to carry out a great slaughter!

The more people came out of Imperial Pass, the more it made the expressions of those on the other side become brilliant. It was because if they wiped them out in this battle, then those of the Nine Heavens would be forced down the path of destruction.

"Kill the supreme beings first, and then punish the small fry!" An elder spoke. In his eyes, the younger generation weren't anything important at all. As long as they killed Meng Tianzheng and the others, then the great situation was set.

Even though the words were spoken like this, they still didn't dare act recklessly, because both sides had immortal artifacts. Fighting to the death wouldn't be good for either side!

That was shocking power!

"I think we should still start from the small fish. The younger generation wishes to take action, kill all of Imperial Pass' so-called heaven warping geniuses, wipe out all of their elite disciples!" On the other side, someone said this extremely domineeringly.

That was a youngster. He had previously stood in front of the city, challenged Shi Hao, pointed at Huang with the heavenly spear in his hands, challenging him to a battle.

His long hair scattered down behind him, eyes releasing cold lightning, he came from one of the Emperor Clans. He was also a Self Release Realm expert, arriving here specifically to deal with Shi Hao!

Even though he was a great Self Release Realm expert, his face was still quite young.

"Heh, I think it's better if you let me go first, let me kill all of Imperial Pass' so-called leaders. Leaving them behind really is rather irksome!" A middle-aged man spoke, powerful and intimidating, eyes carrying vicious light, hair thick, scattering down like a waterfall. He stood high up in the sky, overlooking the other side.

The supreme beings didn't say anything, letting them continue with their ostentatious behavior.

Imperial Pass' cultivators glared angrily. They were too arrogant, completely looking down on them.

Meng Tianzheng sighed. Even though quite a few people walked out from Imperial Pass, if they really were going to fight, they were likely going to suffer greatly.

He wanted to stop them, not willing for his own side's middle and younger generation to fight.

However, there were some leaders who had extremely fierce natures, would rather die in battle than to cower back. They directly roared and stepped out.

If they were scared of death, then they wouldn't have walked out of Imperial Pass. Those who dared come out long disregarded life and death.

Meng Tianzheng's expression was grave, wishing to have those leaders return to Imperial Pass.

"I only wish to fight, prove that my bravery still exists. Even if I am not a match, I am still willing to fight! The clans in Imperial Pass won't yield, we will fight bloodily to the end!"

A leader spoke up, walking forward with large steps.

The people behind opened their mouths, wishing to say something, stop him, but in the end, they all became quiet.

In Imperial Pass, the various clans' cultivators all became quiet. The world immediately became silent.

Many people knew that he was doing this to prove that even if he died, he wouldn't yield, speaking out in place of those that were weak and hesitating in Imperial Pass.

He was using blood to make those in Imperial Pass who were too hesitant and nervous stand up, for them to no longer cower back, to stir up their unyielding natures.

There were some who thought of him as stupid, but there were many who had complicated expressions as well, inwardly shaken. There were many cultivators whose eyes no longer wavered, now becoming firm.

Without a doubt, this indeed stirred up many people in Imperial Pass!

“Heh, haha...” On the other side, everyone roared with laughter, extremely brash. They carried expressions of scorn, words full of disdain. “Truly laughable. Are you coming over to throw away your life? I’ll help you with your aim, I’ll turn you into dirt within five fists!”

Many people in Imperial Pass were furious, including those clans that weren’t willing to fight, even them feeling rage.

“Just take action. If you want to enter Imperial Pass, then you’ll have to do so while stepping over our bones. Meanwhile, fearless people like us number in the billions, every step you all take will need to be taken through paying a price!” That leader calmly said.

He came to fight with the resolution to die. Perhaps he might not be a match, but right now, he couldn’t let people be shaken!

“Kill!”

This leader took action, immediately igniting his life potential, doing everything he could, erupting with resplendent divine light, slaughtering his way forward.

However, his opponent really was extremely strong. That middle-aged man, even though he looked to not be that old, he had cultivated for many years, an exceptional expert.

Otherwise, how could he have followed the supreme beings here, his strength was rarely seen in the Self Release Realm level!

Fists and palms collided, lightning interweaved, human figures flying about, clashing intensely, ringing through the great desert, at the same time accompanied by blood radiance.

During the decisive battle, Imperial Pass’ leader wasn’t a match after all, his arm cracking apart from the first fist exchange, blood dripping out from his mouth, being seriously injured. n.(σ/(V-)e-/ℓ())ℓ/-l..n

Peng!

Divine radiance flickered, powerful energy surging.

In the end, when the other side’s middle-aged man’s fist rushed over murderously, it blasted through all of this leader’s symbol protection light, a fist passing through his body, ending his life.

Pu!

While accompanied by blood radiance, this leader was killed in battle.

The other side's expert's movements were fast like lightning, rushing over, removing his head, ending his primordial spirit. As for his body, it was turned into a bloody paste, becoming bloody mist.

"I already said that if someone like you comes over, it is nothing more than throwing your life away, no different from dogs and chickens!"

This foreign middle-aged man roared with laughter as he held this leader's head. He revealed a mouthful of snow-white teeth, extremely cruel.

During this process, no one dared interfere.

Roar!

Imperial Pass, on the city wall, countless people were screaming out, a wave of rage burning within them. All of them were set aflame, about to explode.

"Going to stake it all, kill that murderer!"

"Even if we aren't a match, we have to fight bloodily to the end!"

Everyone's eyes even became red, roaring out in anger.

Meng Tianzheng didn't say anything, remaining silent. He knew that this leader wished to use his death to ignite courage within some people, demonstrate his sincerity in this way.

"Heh, Imperial Pass' creatures are too weak, killing like this doesn't give me a sense of accomplishment at all." That middle-aged man sneered, completely disregarding the public anger.

"Have you spoken enough? Come, a single move from me is enough to end your life!" Shi Hao spoke. He looked extremely calm on the surface, but right now, his mind was surging even more intensely than during his battle against Anlan.

"Huang, you're mine!" On the other side, the youngster with the heavenly spear in hand spoke. He came from an Emperor Clan, at the Self Severing Realm, here specifically to fight Shi Hao.

Shi Hao didn't pay him any attention, still looking towards that middle-aged man, saying, "If you don't dare fight, scared of death, then fucking get lost, don't show yourself in this desert!"

"Why wouldn't I dare? Aren't you Huang? Previously a prisoner on my side, taken captive in my world? Today, I will end you!" That middle-aged man said with an overcast expression.

Hong!

Shi Hao took a step forward, pulling out the sword core, the sword energy immediately splitting the sky dome.

The middle-aged man's expression changed. Even though he was a well-known figure at the Self Release Realm, a vicious individual who had cultivated for many years, right now, his heart was still shaking a bit.

"Huang, cease your arrogance!"

Some people from the other side spoke out, even supreme beings released cold looks, wishing to directly kill him.

“Which one of you dare move?!” Meng Tianzheng said coldly. The Ten Realms Diagram floated above his head, directly stepping out, wishing to take action here. Moreover, he asked, “Do you all not even have the courage to allow for a fair battle?”

“Who said we don’t? I am here to kill Huang!” The middle-aged man flew into a rage out of humiliation. He threw aside the head in his hand, using his most powerful ancestral method. He roared, rushing at Shi Hao.

Hong!

Sword energy rushed into the heavens. Shi Hao didn’t say anything, directly raising the sword core, displaying the most powerful attack. It looked simple, but this strike contained great power.

The middle-aged man’s expression went rigid. He wanted to avoid the radiance, and then strike from the side.

However, immediately afterwards, he was in despair. There was sword energy everywhere, killing intent all around him. Shi Hao fully revealed his power, entire being like an immortal sword.

The middle-aged man couldn’t escape, as if he was the one who ran straight into that sword. It could only be said that the other side’s sword intent was too powerful, making even him who was at the Self Release Realm feel despair!

Hong!

This wasn’t like a sword, more like a giant hammer that was as tall as the heavens.

The ancestral method this expert displayed collapsed, his body protecting divine light scattered. He was horrified, completely unable to stop Shi Hao’s rageful world-shaking sword radiance!

This was a heaven reaching sword. The sword radiance was thick, even the light that flowed out was thicker than a mountain peak, sweeping across the great wastelands.

Pu!

The middle-aged cultivator was swept through by the thick sword radiance, suffering a heavy blow as expected. He exploded, blood spraying everywhere, and then he evaporated, not even bones remaining!

A single sword cut down a well-known Self Release Realm level figure on the other side!

This sword left everyone shaken, at the very least, the cultivators at the mortal dao realm were all shocked. Even the Emperor Clans’ disciples were shaken.

It was too domineering, a single cut enough to slaughter a powerful Self Release Realm expert!

“All who cannot accept this can come and accept their death!” Shi Hao spoke. He looked towards the Emperor Clans, wishing to slaughter them, end the Emperor Clans’ inheritors of this generation.

Roar!

Imperial Pass, on the city walls, countless people roared out. Only, this time, it wasn’t a roar of sullenness, but rather a type of release, an eruption of suppressed emotions.

“Kill them!” On the city walls, many cultivators roared loudly.

“Imperial Pass will be broken through today!” On the other side, there was a supreme being who said. Many people took steps forward, immortal artifacts rising and falling above their heads, releasing a powerful pressure.

Meng Tianzheng and Immortal Wang moved as well, taking steps forward.

“What are you all in such a rush for? Didn’t much of the middle and younger generation come? Let them have their exchange first.” An old supreme being on the other side said.

It was because he also had some restraining fear. The other side had some complete immortal artifacts. Even though their number of supreme beings was low, the threat of immortal artifacts was great. The other side didn’t wish to pay too great of a price.

The old supreme being knew that his side’s middle and younger generation should be a bit stronger than Imperial Pass’. Apart from Huang, the others were lacking. He wanted to have the Emperor Clans make their move first, wipe out Imperial Pass’ middle and younger generation elites, shake Meng Tianzheng and others’ confidence.

“You think we are scared of you all? Just send all of your people over!”

This was Ten Crown King’s voice. He wanted to take action, right now pointing at the other side, full of confidence.

“Who wishes to fight with me?” Exiled Immortal also stepped out, walking forward, his temperament aloof and fleeting, but his eyes carried astonishing fighting intent.

On Imperial Pass’ side, the most powerful youngsters wanted to fight.

On the other side, a few people’s eyes became resplendent.

“Heh, it really is exactly what we are looking for. We wanted to take your heads for quite some time, let’s see just how many moves it’ll take to slaughter all of you!” Someone said.

“Today, if I don’t take your head, then I will have let down the True Dragon, Qilin, and other inheritances!” Ten Crown King was full of confidence, his words inspiring.

His gait was powerful, presence intimidating.

“I also wish to fight. Who will face me?” At this time, Jin Zhan also spoke. He stood in the great desert, wishing to fight the other side’s experts at the same level, using this to prove himself.

“Those who are obscure and unknown aren’t worthy to be my opponent!” The one holding the heavenly spear who always wanted to fight against Shi Hao gave Jin Zhan a cold look.

“Haha, nameless one, let me kill you!” Someone replied, laughing loudly. A young man walked over, a younger cultivator who appeared later, not a Self Release Realm Emperor Clan.

Jin Zhan was humiliated, face like blood. He roared, walking forward.

In the back, the white-clothed Wang Xi was watching, many people also watching.

In front of Imperial Pass, who was the most powerful, who could win? Only the most bitter and cruel bloody battle could reveal this.

Honglong!

The ground shook. Some young Prides of Heaven stepped out from Imperial Pass, not fearing death, wishing to fight here. True gold had to be refined through flames. They wanted to see if they had the qualifications to overlook those of their generation in this world.

“It really is lively.”

In the distance, a sigh sounded. Some more youngsters walked out, carrying mysterious auras. They were undead knights!

Chapter 1658 - Defeated

Undead knights, this clan appeared. There were men and women, all of them extremely young. They rode a black-gold war chariot, appearing from beneath the earth.

Burial Earth wasn't that far from this place. They came along an undergoing ancient burial vein, adding a variable to the battlefield in front of Imperial Pass.

“Don't misunderstand, we are only here to join in on the liveliness, no intention to take action. After remaining asleep for so long, we wish to see how strong the heroes of the present world are.” One of the youngsters said.

This was a wave of power that appeared suddenly. Who dared to relax in front of them?

The other side didn't dare act carelessly either. Even though they were extremely strong, able to overlook the world under the sky, full of confidence, when faced with Burial Region, they were still full of restraining fear!

It was because not long ago, undying kings had personally paid a visit to Burial Earth, and also faced them with an extremely serious attitude, leaving for many days. It left everyone shocked.

How high up above were undying kings? They overlooked the flow of endless time, watching as the Prides of Heaven were exchanged generation after generation. It was hard for anything in this world to make their expressions change, yet when faced with Burial Land, they attached great importance to the other party!

“We will back up a bit. Everyone, please continue.” One of them said.

Shi Hao was rather surprised. It was because he saw familiar people so quickly. Sanzang and Shenming were also here, but they didn't say anything all this time.

“We came to observe the battle on the orders of Burial Kings.” Eventually, Shenming revealed a sparkling smile.

These creatures were all Golden Undead Knights, among them, Sanzhang was holy, Shenming enchanting, all of them extremely eye-catching, difficult for them to not draw attention even if they didn't want any.

In the past, their understanding of Burial Region was too limited, to the extent where those on Imperial Pass' side didn't even know of its existence, only recently did they learn some things.

The black-gold war chariot carried mottled traces of time. Even though there was a bit of Darkness Immortal Gold mixed inside, it was still corroded until it became dim, covered in cracks.

This was left behind by time, left behind over the years, releasing some type of ancient power, great dao traces engraved on its surface!

"We invite you to watch us break through Imperial Pass, roam this world together!" A supreme being spoke, not showing these youngsters any disdain.

This left everyone shocked!

Shi Hao had reason to suspect that when Anlan and Shutuo entered Burial Earth, they reached some type of compromise with the Burial Kings there.

However now, there was no path back to a long time ago. Was there anything worse than the other side invading?

"Heh, Burial Earth friends, it is an honor to meet you all!" There were youngsters who spoke out, moreover from Emperor Clans, greeting them.

In terms of status and position, Golden Undead Knights were similar to Emperor Clans.

"You all should continue, pretend as if we don't exist." A female undead knight said.

"Fine, we will end things as soon as possible, quickly kill these people, and then meet with you all." The Emperor Clan youngster with the heavenly spear in hand spoke. Then, he ordered, saying, "You all still aren't going to kill them? Just a group of dogs and chickens, don't waste time!"

It could be said that this was full of disdain, carrying humiliation, looking down on Imperial Pass' people.

"Heh, haha... let me go first. Who is this nameless person who believes himself infallible? Come over, I'll start from you!"

In the other side's direction, a young man walked over. He was dressed in silver battle clothes, incredibly heroic. However, right now, he was laughing loudly, extremely easygoing, not like he was fighting a great battle at all.

He was pointing at Jin Zhan, extremely brash, face carrying disdain.

"My name is Jin Zhan!" Jin Zhan said coldly.

He carried a wave of anger, really wanting to roar out. When had he ever been looked down on like this before? The other side wanted to kill him in such an easygoing manner?

This time, he came to rise up through fighting. If Imperial Pass became quiet, peaceful once more, then he would have obtained great contributions!

How could he let Huang monopolize the glory? He couldn't accept it. Huang could continuously fight and continuously win, how much inferior was he? Back then, even though he was defeated by Huang, he was still filled with too much unwillingness.

Jin Zhan had confidence. He underwent a full transformation, far stronger than before. He could now shake the world with his power in front of Imperial Pass!

"What Jin Zhan silver cup[1] or whatever, just a dead person, there's no need for you to tell me, I don't have any interest in knowing, nor do I want to know. Either way, killing you won't make me look any better."

This silver-robed youngster was extremely impolite, directly sneering, looking at Jin Zhan with an ice-cold expression.

Even though Shi Hao strongly disliked Jin Family, right now, he also felt like the other side's cultivators were going too far, ridiculously arrogant. Did they really think Imperial Pass was that easy to bully?

"Come, come, come, let me take your head." The silver-robed youngster walked over.

"Kill!"

Jin Zhan was mad. This type of humiliation made his face become red like blood, his long hair standing on end, expression ferocious. He charged murderously, using his clan's great divine ability.

His bloodline's physiques were powerful, most fond of body training. Jin Zhan immediately released a palm imprint, his strike producing hundreds to thousands of streaks of symbol light.

With a honglong noise, the great earth shook, the world's great dao laws appeared. This was the appearance of Jin Zhan's strength, right now, his comprehension in the Self Severing Realm was extremely deep.

Chi!

A streak of silver radiance appeared. The other side's youngster raised his hand, immediately slashing out. A blade imprint was formed, hacking into the void, cutting heaven and earth!

His actions were extremely easygoing, but the attack power was astonishing!

Hong!

Jin Zhan's palm imprint turned into flowing light, cut apart in the void.

"Nothing more than this, just this bit of skill?" The other side's youngster said while laughing.

In the back, Imperial Pass' people were all alarmed. Jin Zhan was definitely strong, already a heaven warping figure among his peers, not many able to compare to him.

"This person is not simple, not an ordinary King Clan! He has a bit of emperor blood within his body!" In the back, someone said with a low voice.

This silver-robed youngster was extremely strong. When he operated magical force, a hint of Emperor Clan aura flowed out, making one feel great reverence.

Emperor Clans, regardless of which bloodline they were from, they were extremely rare, reproduction difficult. It was because if their numbers were great, then they really would be able to oppress the world!

Normally speaking, other clans would intermarry with Emperor Clans, if there were heirs, ninety percent of what was inherited would be from the Emperor Clan. Their bloodline was extremely tyrannical.

Of course, this was only normally speaking.

After endless years of reproduction, there would always be unexpected situations. There were some Emperor Clans whose physiques would worsen, and then possibly produce heirs of other clans.

This type of descendant had a bit of emperor blood within them. They couldn't compare to the Emperor Clans, instead becoming branch families, but they were still stronger than other clans.

Jin Zhan was quite unlucky, encountering one of them!

However, from Jin Zhan's perspective, he couldn't accept this, feeling like he was shamed. It was because there were direct descent Emperor Clans, but they didn't pay him any attention, only sending out a Self Severing Realm impure branch bloodline to fight him.

"Kill!"

Jin Zhan roared out, completely erupting. Mysterious patterns appeared on his forehead, even producing a horn, the radiance terrifying.

At this moment, his aura surged, strength increasing, as if he shed his mortal body and exchanged his bones.

He wasn't a human, everyone knew that even though Jin Family were human formed, they had other origins. Now, he displayed his innate abilities.

Honglonglong!

Heaven and earth collapsed. He wanted to restrict this silver-robed male, kill him.

Right now, Jin Zhan was terrifying. Patterns flew out from his forehead, continuously enlarging, every single one like a mountain ridge, suppressing forward.

He was forming natural laws, constructing a law realm in the sky. This was a domain of natural laws, surrounding all directions, able to subdue powerful enemies!

Chi!

Moreover, a sparkling horn flew out from his forehead, tearing through heaven and earth, entering that law realm, sweeping through everything!

This horn was extremely special, lingering within natural laws. It could sever the dao, able to cut through order. It wanted to kill that silver-robed male sealed within the domain of laws.

This was extremely powerful. That law realm rumbled, really restraining the silver-robed male, making quite a few people on Imperial Pass city walls cheer.

Unfortunately, when that horn descended, about to strike the enemy, that person moved, suddenly breaking free. His entire body shone, erupting with world shocking war energy.

That was Emperor Clan blood, even though it was sparse, it could destroy everything in the way.

Honglong! nDve.lb.1n

This silver-robed youngster brandished his fists, slaughtering his way over towards Jin Zhan, divine might powerful, blasting through this law realm.

The two quickly tangled about each other, this place immediately seemed as if an explosion happened here. Waves of rumbling noises sounded from the void, divine light resplendent, illuminating the great desert.

It had to be said that Jin Zhan really was ridiculously powerful, much stronger than before.

However, it was unfortunate. When their exchange reached thirty something moves, he was sent flying by a fist by the other party, coughing out large mouthfuls of blood. It was because at this moment, the other side's power increased, he could no longer withstand it.

It was emperor blood that ignited. As that silver-robed youngster exerted force, Jin Zhan was beaten until blood sprayed out from his mouth, his face pale white.

"You are too weak!"

The silver-robed youngster said coldly, pressing forward again.

Hong!

The silver-robed youngster's movements were like those of a ghost's, too fast. He rushed over, continuously delivering heavy blows.

Jin Zhan was beaten until he staggered backwards, continuously sent flying, seriously injured.

Peng!

The most terrifying thing was that in the end, the silver-robed youngster caught up, a foot stepping down on his chest, making all of the bones in his body continuously release pi pa noises, breaking apart.

His foot trampled Jin Zhan into the ground, looking down on him and saying, "Imperial Pass' so-called heroic talents really are weak, nothing more than dogs and chickens!"

He forcefully grinded his feet. Jin Zhan's chest caved in, blood gushing out.

In the back, a group of people berated angrily, Jin Family's people panicking. Was Jin Zhan going to die here just like that?

Wang Family also saw this scene, releasing light sighs. The glorious Jin Zhan, the heaven warping figure of a generation was actually defeated so easily!

When they compared the two, thinking about Huang, why was there such a huge difference? Huang's reputation shook the other side, defeating true Emperor Clans even when he was trapped in the other side!

Many people had heard that Huang had previously cut down Scarlet King's descendant, defeating a Time Beast.

True gold had to be refined through flames. It was clear that Jin Zhan was defeated, unable to grind out a dazzling golden body, now about to be defeated!

In this cruel great world, he couldn't prove himself, couldn't rise up.

1. Jin is gold, the word for cup here sounds similar to the zhan in Jin Zhan's name

Chapter 1659 - Berserk

Jin Zhan lost, there was no suspense at all, easily defeated by the silver-robed youngster!

"Too weak, even someone like you is worth challenging me? No wonder the Nine Heavens Ten Earths were slaughtered again and again, no good as expected. Killing creatures like you isn't a challenge at all."

The silver-robed male sneered while stepping on Jin Zhan, lowering his head to look at him. He was arrogant and brash, continuously humiliating all the cultivators in Imperial Pass.

In the back, Jin Taijun's face sunk. This made her look extremely bad. This was but Jin Family's leader of the younger generation, yet he was defeated just like that, humiliated in front of everyone's faces. Right now, she felt like she had no face at all.

Wang Xi's expression was complicated. She opened her mouth, looking towards Jin Taijun. Was she not going to save him?

Jin Zhan was known as the heaven warping figure of a generation, unstoppable in the younger generation. If he suffered such a great defeat before everyone, trampled on beneath the feet of another, this really was a type of great humiliation.

Who was a hero among men, who was the genuine article, it was obvious from a single glance. Even though they hated the other side bitterly, they had to admit that they really were powerful.

"Let him go!" Jin Taijun said.

"Heh!" A supreme being laughed, standing in her path.

This left Shi Hao shocked. He always suspected that Jin Family was colluding with the other side, now, it seemed like this wasn't the case.

"You think I'll let him go just because you said to? There is no point in leaving behind trash like him at all!" The silver-robed youngster raised his head, indifferent even when facing a supreme being, directly berating out.

It was because he knew that his side's supreme beings could protect him, that he wouldn't suffer any harm.

Qiang!

He pulled out a bone blade. It was extremely sharp, pointing it at the space between Jin Zhan's brows.

"Stop!"

Wang Xi shouted. After all, they were engaged, now that she saw Jin Zhan humiliated and stepped on, she couldn't hold herself back anymore, shouting out. It was hard to imagine that the powerful Jin Zhan was actually defeated so easily.

"Heh, girl, if you want to save him, there is a way, just come back to the other side with me. Staying by someone like this really does put a damper on your exceptional style. This person is too weak, not a good match for you." The silver-robed youngster roared with laughter, extremely unbridled.

On Imperial Pass' side, everyone's expressions changed. This person bullied others too far, ridiculously flamboyant, mocking Wang Family's fairy in front of everyone.

This wasn't only humiliation directed at Jin and Wang Family, but even more so at everyone in Imperial Pass.

"You are too arrogant! Soldiers can be killed but not shamed, do you feel like you are unmatched under the sky?" Shi Hao said. He was far away, but his voice was extremely ear-splitting.

The silver-robed youngster was always extremely arrogant and prideful, looking down on Imperial Pass' cultivators. However, when Shi Hao said this, his expression changed slightly.

He could look down on Jin Zhan, he could mock Wang Xi, but he definitely didn't dare show Huang contempt!

It was because this was a terrifying peer who had glorious battle accomplishments. He had heard that Shi Hao defeated Chi Menghong, Scarlet King's descendant, breaking through the time natural laws.

The most terrifying thing was that Huang even broke off one of Chi Menghong's legs, roasting some of it in front of everyone, treating it as delicious food!

Towards someone as savage as Huang, he couldn't help but feel restraining fear.

Wang Xi's expression was complicated. She never expected that at the most crucial moment, it was Shi Hao who stood out, threatening that young man.

"Huang, you shouldn't believe yourself to be infallible. This is my spoils of war, it isn't something you should be concerned over!" Even though the silver-robed youngster felt restraining fear, his words were still unyielding.

Moreover, his eyes revealed ferocity, bone blade immediately piercing over.

Pu!

Blood radiance flickered about, but even more divine multicolored light erupted, submerging that place.

With a weng sound, Jin Zhan disappeared from his original location. He suffered serious injuries, blood gushing out, but when death was imminent, a divine talisman he carried activated, releasing endless brilliance, wrapping around him and bringing him away.

This was a priceless treasure of Jin Family, actually given to him to protect his life.

Shi Hao walked forward, his gait light, not all that fast, wishing to face that silver-robed youngster.

“Don’t fight me over this one!” Ten Crown King spoke, long targeting this person.

“You should just leave this one to me.” Shi Hao said.

Ten Crown King and Exiled Immortal both originally wanted to take action, but only for the sake of watching Jin Zhan and the silver-robed youngster’s decisive battle, did they finally stop.

Now, they were about to take action.

“Huang, the one who will kill you soon is me! Will you fight me or not?” On the other side, the male with the heavenly spear in hand said coldly.

“If you want to die that bad, I’ll help you with your aim. However, before that, I have to kill him first.” Shi Hao pointed at the silver-robed man.

“You... do you really think I am scared of you?” The silver robed-male felt like he had no face, shouting out loudly.

“Then just come, I am standing right here. If you can make me move even a single step, then I’ll just admit my defeat.” Shi Hao’s words were extremely calm, but there was a type of overbearing might.

This was attacking the other side. The other side looked down on Imperial Pass’ people too much, Shi Hao was now giving a powerful reply.

“You bully others too far!” The silver-robed youngster shouted. Even though he felt restraining fear inside, a bit scared, it still wasn’t good for him to cower.

“So what if we bully you?” Ten Crown King walked forward, looking like he wanted to kill.

“You... “ The silver-robed youngster immediately became fidgety, at the same time feeling humiliated. Huang alone was one thing, now, everyone wanted to kill him?

“You what you? Your skills are only ordinary, yet you dare look down on Imperial Pass’ cultivators, boasting shamelessly? I really want to take action and kill you right now too.” Exiled Immortal said.

He was aloof and otherworldly, as if a solitary immortal descended into this world. However, right now, his words weren’t that aloof and transcendent, a wave of real murderous intent spreading.

“Haha...” The silver-robed youngster laughed loudly, now truly angered badly. Facing Huang was one thing, but now, there were others looking down on him in succession. “I want to see who can defeat me!”

“Let me kill him.”

“You should just let me.”

Ten Crown King, Exiled Immortal, and Shi Hao all wanted to kill him, the three of them stepping forward together. This made the young experts of the other side shocked. What was going on? Why were Imperial Pass’ cultivators so confident?!

In the end, Shi Hao walked over.

At the same time, Ten Crown King and Exiled Immortal pointed forward, directly threatening that they were going to kill!

Hong!

This triggered an uproar, making the foreign young cultivators all indignant.

“Arrogant! Even people like you dare look down on my side? Kill!” A few people roared out.

“Could it be that you’re scared? How about I only use a single arm to fight you?” Shi Hao smiled.

This was provoking the other side on purpose, making that silver-robed youngster’s face immediately become green and white. He originally wanted to step back, but now, he couldn’t do so without losing too much face.

He felt like he could fight, but he could back off while he was still ahead, withdraw after a few moves, and then let the true Emperor Clans fight.

“Huang, others are scared of you, but I am not! A prisoner like you, someone who had been locked up in my world, today, I will kill you!” The silver-robed youngster went for broke.

“Kill!”

In the distance, Ten Crown King and Exiled Immortal had already begun their fights.

Moreover, Great Xu Tuo, Little Sky King, Daoist Qi Gu and the others moved as well, choosing their opponents. Moreover, the dual-pupiled Shi Yi also walked up, wishing to fight.

Pu!

Right at this time, blood radiance appeared in the battlefield.

A great dragon rushed through the sky, as if an immortal king made an appearance, roaring out. This was Ten Crown King, every move he made powerful. He fought with the enemy, using the True Dragon Precious Technique, blasting through a King Clan!

At the same time, blood radiance flickered about in another place. Exiled Immortal was spirited and aloof, behind him a pair of five-colored divine wings. When he rushed over, he cut off his opponent’s head.

Those were phoenix wings. Apart from the divine abilities others knew he had, he actually also grasped the True Phoenix Secret Technique!

In that instant, two King Clan experts lost their lives, killed under fair conditions!

This shocked a group of creatures. They always looked down on the Nine Heavens Ten Earths, yet in the end, it wasn’t Huang who took action, yet there were others who could kill them!

Imperial Pass, on the city walls, many people immediately cried out, becoming extremely excited.

Shi Hao was also speechless. These two really were rather full of life.

“Come, let me kill one as well. This one has never fallen behind others.” Shi Hao said in a deemphasized manner.

This made the silver-robed youngster’s expression change, about to go crazy.

“Egotistical! Die!” The silver-robed youngster released a great roar, slaughtering his way forward.

Shi Hao’s feet stood in place, not moving at all. Only when he saw the other side’s ancestral method arrive did he release a roar, an arm reaching out, incredibly massive, forming a Kun Peng Claw, tearing through everything.

Honglong!

The silver-robed youngster wanted to run, escape, but this type of great hand was too terrifying, covering everything, chasing after him like a shadow, continuously pursuing him.

This was especially the case when, later on, the great hand was like a Kun Peng Claw, but also like an Ancient Monk Bloodline’s World Within the Palm, massive beyond compare. Every single finger had celestial bodies revolving about it, everything was just that real.

The silver-robed youngster was sullen, he actually had to run after just a single exchange.

“Kill!”

The silver-robed youngster wanted to run, but he couldn’t get out. He began to take action, continuously activating ancestral methods, divine abilities of all different types appearing, continuously erupting. nDve.lb.1n

In the blink of an eye, he released more than ten types of divine abilities, one after the other, but nothing could stop that great hand.

Honglong!

When that large hand closed, that silver-robed youngster was immediately seized. The great hand closed, crushing him until his bones broke and muscles were torn. He screamed, blood spurting out of his mouth.

“You are too weak.” Shi Hao said quietly.

In reality, this individual really wasn’t weak, could be said to be extremely strong. However, compared to Shi Hao, he was still a bit off.

At the same time, Shi Hao also deliberately said this to bring the other side down a notch, acting domineering on purpose, saying that the enemy was too weak.

Pu!

The instant the great hand closed, that person was crushed until all the bones in his body broke.

With a peng sound, he was thrown onto the ground by Shi Hao. Then, a foot stepped down, crushing him, blood splashing extremely high into the air.

This scene left many people shocked. Emperor Clan's branch bloodline expert was crushed just like this, trampled to death? Everyone was horrified.

Wang Xi's eyes carried complex emotions. The youngster in front of her was too strong. The enemy Jin Zhan wasn't a match for didn't last long at all before Huang, directly crushed!

"Heheh, haha!" On the other side, someone laughed, voice becoming louder. It came from the one who held the heavenly spear.

"Huang, you are still alive! To be able to see you again, this really is too amazing!" At the same time, someone said through gritted teeth. It was Scarlet King's descendant Chi Menghong. He was also approaching.

Apart from this, there were several other Emperor Clan youngsters who walked forward together, staring at Huang.

"Just come. Do you want to come at me all at once, or do you want to throw your lives away one by one?" Shi Hao said, even more brash than the other side's people, directly asking domineeringly.

Chapter 1660 - Flesh As the Furnace

"Heh, haha..."

On the other side, loud laughter sounded, the voice enough to split metal and stone, making even one's bones about to crack apart.

Luckily, everyone here was strong. If it were other cultivators here, they would likely break down before this laughter, their bodies exploding here.

The laughter was ear-splitting, incredibly penetrating. It was as if extreme Immortal Gold was being refined, releasing kengqiang noises. Streaks of electricity flew out, the destructive power shocking!

The one who laughed loudly carried a grudge, carried hostility as he walked over step by step.

He wore scarlet armor, his figure extremely tall and straight, looking extremely heroic. There was a wave of fierce and pressing aura, his handsome face in particular somewhat sinister.

When he walked over, natural laws chains shone brilliantly around him, falling down streak after streak from his body. They were like phoenix plume feathers, gorgeous and brilliant.

He was, without a doubt, powerful. He arrived while stepping on the void, everything becoming blurry wherever he passed, caving in. Even the sky dome was shaking!

He was like a True Phoenix, bathed in endless splendor, dressed in brilliant feathers, surrounded by natural law divine chains, gorgeous and intimidating!

He was Chi Menghong, a direct inheritor of an Emperor Clan, Scarlet King's descendant. He was extremely powerful, unstoppable.

His grudge with Huang was etched into his bones, because previously, the two of them fought because of Dao Comprehension Tea Leaves, that battle world shocking. In the end, Chi Menghong was defeated, moreover extremely miserably.

That day, Huang cut off one of his legs in front of everyone, and then roasted it, treating it as food!

Who was he? He was Scarlet King's descendant, someone with the bloodline of the most powerful. His clan was known to be unmatched throughout the heavens above and earth below, yet he was actually defeated so miserably.

Last time, he was almost ruined, but because he was an Emperor Clan descendant, his clan naturally had heaven-defying treasures, helping him recover.

Moreover, under the help of a powerful existence in his clan, he underwent an astonishing great transformation. This time, he crossed Heaven Abyss precisely to get revenge on Huang.

"Huang, every minute, every second, I have always been wondering what it will be like once we meet again!" Within Chi Menghong's pupils, auspicious multicolored light blossomed, his body becoming brilliant like an immortal core.

His long hair scattered about, every strand sparkling, face handsome, extremely outstanding. His entire being was like a war god surrounded by divine chains of order, appearance exceptional.

"You will end up as foodstuff!" This was Shi Hao's reply, extremely direct, and also extremely domineering.

There was already no need for him to hold back anymore, fully displaying his intent to kill an Emperor Clan's direct line of descent, no intention of hiding anything!

Chi Menghong laughed, extremely cold, and also extremely intimidating. The scarlet armor released kengqiang noises, it was as if scarlet dragon scales were moving, red multicolored light brilliant, filling the skies.

"Huang, you are dead for sure! Today is the day I will expunge my past disgrace. I am going to extract your soul, pull out your bones, get revenge for that day!" Chi Menghong's words were extremely cold.

As someone from an Emperor Clan, when had he ever suffered such humiliation before? He constantly thought about his revenge, how he was going to make Huang pay the price of blood.

"Moreover, you better hope that Imperial Pass isn't broken through, or else I will personally eradicate Stone Clan, eradicate all of the remaining evil behind you!" Chi Menghong's eyes were deep.

With a teng sound, Shi Hao's body erupted with baleful energy. A wave of powerful killing intent spread from where he stood. In addition, his entire body was like a furnace, erupting with sky reaching blazing radiance.

He was furious. No one dared threaten him like this before. Stone Village, the loved ones behind him, this was his bottom line!

"Of course, aside from your clansmen, there is also that group of evil creatures!" Chi Menghong continued, looking towards the large group of children from the original Emperor City on Imperial Pass' walls.

"I guarantee you that your hopes will amount to nothing. This time, you can't run, this isn't the other side, no one will step out for your sake. I will kill you, turn you into food, bring it back to the village!" Shi Hao said.

"Kill!"

Immediately afterwards, both sides seemed to have roared out at the same time, as if they were two blazing suns, illuminating the sky dome. They both released a powerful strike, irregular scenes shocking.

They fought intensely the moment they encountered each other, using the most powerful secret methods!

Peng!

In that instant, both of them erupted with endless light even while extremely far away from each other. Fist imprint and palm imprint clashed, the power incredible, making waves of golden sand rush out from the great desert into the heavens, submerging the sun.

That type of scene was too terrifying. Sand and rocks covered the endless battlefield, everything within hundreds of thousands of li greatly shaken.

In the sky, everything cracked apart. Large black cracks interweaved, extending out into the endless distance, heaven and earth exploding. Under the two's most powerful confrontation, everything was destroyed.

This type of scene was horrifying, as if the world itself was going to be obliterated!

Was this an Emperor Clan? Imperial Pass, on the city wall, everyone was shaken, this the case even for Self Release Realm great cultivators, developing a feeling of terror.

Only Shi Hao would dare call an Emperor Clan food, right? This type of creature was too terrifying!

Peng peng peng!

The two's fists interweaved, as if heavenly drums were beating, shaking the sky dome until it collapsed, the void exploded to pieces. Two figures quickly moved about, tangling about each other, fighting with utmost ferocity.

Shi Hao was shocked. His opponent definitely far exceeded how he was before, his cultivation advancing greatly, a good amount stronger than before!

It was clear that a few things had happened to this opponent of his.

It was just as Shi Hao suspected, Chi Menghong underwent an instance of transformation, equivalent to experiencing a rebirth.

Last time, he left in defeat. When he returned to his clan, he was sent into a blood pool by an undying being, allowing him to undergo a full transformation, reborn like a phoenix, rebirth through flames!

The current Chi Menghong was terrifyingly powerful, no more weaknesses!

It was because the blood pool was left behind by Scarlet King for his descendants, inside of it some true blood. That blood had all of its murderous energy refined away, only the essence left behind, able to smoothly nurture a world shocking magical body.

“Huang, hand over your life!” Chi Menghong shouted. After the exchange, he was full of confidence, vowing that he was going to kill Shi Hao.

Honglong!

Right now, Chi Menghong’s state was extremely strange, becoming completely different. His entire being flowed with hazy blood radiance, releasing an aura that made even the expressions of supreme beings change.

This type of aura was too intimidating, as if an immortal was about to appear in this world.

“What is that?” Someone couldn’t help but cry out.

Chi Menghong, he was transforming, turning from a human form to a furnace, bright red like blood, scarlet multicolored light splitting the heavens!

Why was there this type of transformation? His outer form’s transformation was too astonishing, crushing down from the sky murderously towards Shi Hao.

Scarlet King Furnace!

Some people realized with a start. When this bloodline was mentioned, nothing was more shocking than Scarlet King’s war achievements. He had previously killed an immortal king, refining away his blood and corpse.

Furnace burying an immortal king, nurturing the supreme treasure!

This was the legend that spread through the world, and this was also what really happened. There was also a type of strange secret method that was passed down.

Now, Chi Menghong was currently displaying it, becoming different from before, no longer showing a magical projection, but rather using himself to produce the furnace body. This was extremely bizarre and strange.

Dang!

When Shi Hao struck the furnace wall, there was actually a clear metal sound that rang out. This was shocking, was that flesh or a real furnace?

“Flesh Into Furnace, refine corpse spirit!” Someone couldn’t help but cry out on the other side.

Even the cultivators who came from the other side were extremely shocked. They thought of a legend, that there were some people from this clan who cultivated this secret method, the source directly tracing back to Scarlet King’s former battle.

The so-called Flesh Into Furnace was a secret method obtained from when Scarlet King merged with the cauldron, using his own physique to turn into the Scarlet King Furnace.

Of course, this wasn't the main thing. The most shocking part was that this could bring one along a terrifying path, which was refining a corpse spirit.

The so-called refining a corpse spirit wasn't nurturing the body and spirit, but rather imitating Scarlet King's heroicness, cut down immortal kings, cut down oneself, and then produce an even stronger primordial spirit.

Back then, after that battle, Scarlet King never showed himself again, no longer appearing in this world.

It was rumored that it was because he was cultivating an unmatched mysterious technique. Back then, after killing an immortal king, the price he paid was great. However, it was also an opportunity.

He used the Scarlet King Furnace to bury immortal king furnaces, at the same time, he also entered the furnace himself without leaving, using the corpse to temper himself, cut down his own primordial spirit, wishing to reconstruct an even stronger spirit.

"After Chi Menghong was injured by Huang last time, he entered a blood pool, unexpectedly encountering the Scarlet King Furnace, resonating with it, obtaining this great method!"

Someone said quietly, leaving everyone shocked.

Dong!

The scarlet furnace flowed with metallic luster, possessing imperishable power, releasing kengqiang noises.

The most terrifying thing was that the furnace body shone, releasing blood energy from within. Moreover, someone stood up from within the furnace, reaching towards Shi Hao, wishing to drag him into the furnace.

"En?" Many people were shocked.

It was because that person was extremely terrifying, damaged armor covering his body, figure tall, possessing a horrifying aura, as if a true immortal descended into this world.

"Turn the enemy into a corpse, using the corpse to house a spirit, suck him inside!" That red furnace shone, wishing to collect Shi Hao inside. That creature reached out its arm, terrifying to the extreme.

This secret method was terrifying as expected, leaving everyone shocked.

Everyone knew that after Scarlet King Furnace buried an immortal king, he enslaved him, also using that corpse to temper himself.

Chi Menghong merely temporarily resonated with that furnace, yet already produced such irregular scenes, obtaining this strange secret method, one could imagine just how strange and terrifying the ancient furnace and Scarlet King himself would be.

Hong!

Shi Hao's body shook. He released precious light, tearing open the sky dome. He was resisting, but the arms that reached out from the furnace really were terrifying, as if there was immortal dao aura.

Weng!

The scarlet furnace trembled, about to suck Shi Hao inside.

No one expected for victory or defeat to be decided so soon, the battle this intense.

“This is Scarlet King Furnace’s aura! It has condensed in his body, this... how are you supposed to resist it?”

Everyone was moved. To carry the aura of the most powerful existence to fight an enemy at the same level, this definitely gave them a huge advantage.

Chi Menghong had previously resonated with that ancient furnace, obtaining unimaginable benefits.

Zheng!

Shi Hao raised his hand. At the end of his fingertip, sword radiance surged chaotically!

An expanse of scarlet multicolored light actually shot out, horrifying to the extreme.

Pu!

Immediately afterwards, blood radiance surged. When Shi Hao raised his finger, it actually directly pierced through the fiery red furnace body, the sword radiance tearing apart the furnace wall, this scene terrifying to the extreme.

What was that? Everyone was shocked. Why was Huang able to tear open the bright red furnace just by raising his hand? Just now, he couldn’t break through it even with his fist!

Ah...

Chi Menghong screamed, clearly suffering serious injuries.

Pu!

Immediately afterwards, Shi Hao raised his hand. At the end of his fingers, a scarlet divine sword appeared, formed from red multicolored light. He held it, sweeping it over.

The figure who was standing on the furnace had its head removed with a pu sound.

“Impossible! What kind of sword is this? What kind of technique?!” Many people from the other side cried out!
