

## Perfect WD 1661

### Chapter 1661 - Time Beast

That sword was extremely intimidating. It cut through the furnace wall, and also removed that creature's head, incredibly powerful, dazzling and brilliant, making many people's souls tremble in response.

What kind of precious artifact was it exactly? Many people's minds were shaken. One had to understand that the furnace wall had a strand of the Scarlet King Furnace's aura, sturdy and imperishable, so how could it be pierced through?

Shi Hao's fist was exceptionally terrifying, yet he couldn't even do anything to the furnace wall just now, so now, how could a single blade pierce through the fiery red divine furnace so easily?

"I know, as expected, he... defied the heavens!" In the back, someone said with a light sigh. It was an Imperial Pass cultivator, guessing at something.

In Shi Hao's hand, that divine sword was bright red and glistening as if carved from a blood diamond, dazzling like red coral. It was extremely fine, exceptionally beautiful.

However, it was also terrifying, flowing with bright colors, extremely gorgeous, shockingly beautiful, but it was just that dangerous!

It was precisely this sword that cut through the red precious furnace!

That figure spurted out blood, triggering a great dao noise. It was as if a pillar of heaven collapsed, the entire skies collapsing, as if a great age was being buried.

"This is..."

On the battlefield, everyone was shaken. They shifted their attention away from the scarlet divine sword in Shi Hao's hand, looking towards that precious furnace, as well as that figure. How could things be like this?

After its head was removed, there was actually this type of world-shaking irregular scene being produced!

What was this? It wasn't like the scene of an Emperor Clan youngster's head being removed at all, instead as if an immortal was falling, the world in chaos, everything collapsing!

"Immortal king remains..."

From the other side, there were cultivators who were shocked, speaking these words, making everyone feel their blood run cold.

How could this be possible, the body of an immortal king? This made even one's soul tremble!

Could Chi Menghong bring an immortal king's corpse with him in battle? That was impossible! Moreover, if that type of unmatched magic body really did appear, it would make the heavens collapse and earth cave in, no one able to face it.

However, that type of aura really carried immortal dao feeling, a type of unmatched pressure spreading.

This was precisely the reason why it made the skies collapse, the world all around it breaking down. The black cracks were interweaving here, extending out who knew how many tens of thousands of li.

“Terrifying as expected, Chi Menghong had previously entered his clan’s blood pool, obtaining a baptism, resonating with the Scarlet King Furnace, obtaining some of the undying king furnace’s imprints, possessing some of its power.”

The other side’s creatures spoke like this. After speaking these words, many people understood.

That figure wasn’t Chi Menghong, and it wasn’t his head that was cut off either. These were all produced by the precious furnace’s inheritance, some of the immortal king’s imprints that appeared.

Chi Menghong didn’t die. He was the furnace itself. Even though he was cut through, it wasn’t destroyed, still existing.

Ah...

Sure enough, the furnace body shook, releasing a great roar that made one’s scalp go numb. Blood gushed out from the furnace, horrifying to the extreme!

It was because the entire furnace was like a sea of blood, gushing out, the red color intimidating, scarlet multicolored light pouring out, extremely dazzling!

That was Chi Menghong, flesh turned furnace. This was his true self!

“Huang, you’ve angered me, unforgivable! I am going to refine you, turn you into the furnace’s slave!” Chi Menghong roared out. The precious furnace shook, backing up, blood radiance released from the cauldron opening.

That furnace body was closing. It shook intensely, releasing heaven overflowing scarlet light. It drowned the great desert, surrounding the heavens.

At this moment, immortal dao aura pervaded the air. There was a wave of unmatched force swirling about. The figure in the furnace who had its head removed stood up once more.

It didn’t have a head, but was now even more terrifying. It possessed world shocking might. With a qiang sound, a weapon appeared in its hand, the sharp point unrivaled!

“This is...”

In the back, everyone became stupefied. Imperial Pass, on the city wall, everyone felt their bodies become ice-cold.

They shivered all over, their souls actually shuddering. It was because that figure was too powerful.

“How could it be like this? He only has a bit of Scarlet King Furnace’s aura, only able to display a bit of the past immortal king’s imprints. Why is he able to produce this type of fighting strength?” Everyone was stupefied.

Imperial Pass’ cultivators felt worry for Shi Hao, inwardly feeling fear towards this.

Even the other side's creatures were stunned. Wasn't the Scarlet King bloodline too heaven-defying? An immortal king was buried within an undying king furnace, and Chi Menghong could even borrow this type of power?

One vaguely sensed a wave of fluctuations, an unmatched aura spreading outwards.

This type of power, who could resist it?

Forget about Huang, even if supreme beings took action, even that might not be enough. That might be power exceeding the peak of mortal dao!

"Huang, drag yourself over here, just become the furnace's slave forever!" Chi Menghong roared.

The precious furnace shone, scarlet multicolored light like an ocean. The figure standing in the furnace was extremely powerful. With a peng sound, a head was recreated.

Even though its figure was blurry, when its eyes opened, the world trembled in response.

Hong!

At this moment, that blurry figure that seemed to be standing in an abyss moved its right hand, brandishing the hazy weapon in its hand, hacking down on Shi Hao.

"How is this fair?!" In the back, Cao Yusheng, Qing Yi, and the others felt as if their hearts were raised up to their throats. This was already no longer a struggle between those of the same generation, but rather borrowing immortal dao power.

How was Shi Hao supposed to face this, how could he even defend himself?

Many people were stunned, feeling worry for Shi Hao. Could it be that he was going to be killed here?

Previously, he even dared brandish his blade against Anlan. If he died here, killed by the immortal king remains, then it really wouldn't be worth it.

However, Shi Hao didn't feel any fear!

"All a facade, if you really could borrow the power of a true immortal, how could you cross Heaven Abyss? Nothing more than a paper tiger!"

These were Huang's words, extremely collected, not shaken at all.

Moreover, right at this time, he moved, his entire body shining. Divine chains of order shot out one after another. He was like a humanoid True Dragon who sprouted a pair of immortal wings, about to soar through the Nine Heavens above!

He was powerful to begin with, now, he became even more terrifying.

Shi Hao was gathering power. Even though he was fearless, he didn't act carelessly at all. All types of precious techniques were released at the same time, covering him in a layer of precious light.

Honglong!

That scarlet divine blade trembled, becoming increasingly vicious. He rushed over, charging murderously.

Dang dang dang...

Sparks flew in all directions, divine might world shocking. The creatures in the surroundings all sucked in cold air. On Imperial Pass, the troops of various clans were even more shaken.

This was a world shocking clash, the collision making the world tremble, heavens collapse and earth cave in.

Shi Hao frowned. The weapon in that figure's hand was too sturdy, actually able to stop his weapon.

Only, Chi Menghong didn't think this way. That terrifying indistinct magic body's weapon was shrinking, losing a portion with each strike. This left him horrified.

What kind of weapon did Huang have in his hand? It could even cut through the magical artifact condensed by an immortal dao void figure? This was too heaven-defying!

"Ah... just burn! Scarlet King Furnace slave, kill him for me!" Chi Menghong roared out. Blood spurted out from him as the furnace, all of it pouring onto that person's body.

Honglong!

That figure became more and more terrifying. It released a world shocking aura, making everyone tremble.

"How is he supposed to even fight? This is too unfair! He summoned immortal dao power!" The golden little Heavenly Horned Ant was shouting out, extremely nervous.

"There is no need to worry, that figure is only releasing that type of aura, but it isn't able to reach that true level of power at all." Meng Tianzheng spoke. He remained extremely calm.

The undying couldn't cross over Heaven Abyss, this was fact!

Qiang! n(.o-)v./e//l)(b/-l()n

The loud noise was ear-splitting. The scarlet sword in Shi Hao's hands was unstoppable. It hacked through the screen of blood, piercing through the scarlet light, incredibly powerful.

Pu!

That void figure was cut again. This time, his right arm was the part that was severed.

Shi Hao was exceptionally powerful, nothing able to stand in his path. He continuously attacked, the divine sword in his hand illuminating eternity. With a pu sound, that figure's head was cut off again.

"Ah..." Chi Menghong released a long roar.

"Kill!"

Shi Hao released a low roar. He slaughtered his way forward. Wherever the divine sword passed, there was nothing it couldn't pierce through.

With a chi sound, the sword light rusheed into the heavens and shook the earth. This time, he directly hacked through that figure, cleaving it into two. Blood gushed outwards, that body falling into the furnace.

For Chi Menghong, this was disastrous. He was seriously injured. Even though this wasn't his body, it still affected him.

It was because his techniques and dao resonated with that body, thus making him suffer a rebound.

This time, he came for revenge, making ample preparations. He didn't hesitate to sharpen himself by heading to this clan's ancestral land, but unexpectedly received the Scarlet King Furnace spirit's favor. After resonating with it, he obtained this heaven-defying method. However now, he was still in danger, about to be defeated!

"From you, I can see what Scarlet King wishes to do. He wants to seize the dao fruit of an immortal king, use the immortal king as a rebirth flame, and then allow himself to produce an unmatched core. However, in the end, as for who will help accomplish who, it is still hard to say!" Shi Hao said coldly.

This was his judgment. It shocked many people, including supreme beings.

In the past, it was always passed around that the Scarlet King Furnace buried an immortal king, becoming a 'coffin cauldron'. Could it be that there were other secrets?!

"What kind of origins does your weapon have?" Chi Menghong couldn't accept this. This time, he came with heaven-defying methods, but he still lost, about to be defeated miserably, leaving him furious.

Under everyone's eyes, if he was defeated again, then what kind of face would he have left? How was he supposed to continue being an Emperor Clan descendant?

"Immortal Killing Guillotine, can cut all things nefarious in this world!" Shi Hao shouted.

Chi!

He took action, scarlet multicolored light overflowing. If not because he sensed danger, experiencing immortal dao aura, he wouldn't easily use this method.

Pu!

That fiery red furnace was cut into, blood spurting out. A large opening was cut out.

Ah...

Chi Menghong screamed out. His entire body shone, precious techniques displayed, fighting intensely against Shi Hao, resisting with this furnace body.

It was because in this type of state, he was stronger, sturdier than his own body.

Right now, the furnace body was hacked open, if he tried to resist with his flesh, it definitely wouldn't be enough.

"Stop!"

In the back, several people walked over with large steps, intimidating Shi Hao, all of them releasing terrifying auras, Emperor Clan creatures!

“Heheh, haha...” Shi Hao laughed loudly, his gaze like lightning, aura like a rainbow. “Nothing more than this. Today, I will kill to my heart’s content. I’ll kill the Time Beast first, and then you all! Emperor Clans, all of you can just come at me together!”

Everyone was shaken. Was he crazy? He was going to fight several Emperor Clan individuals at the same time? His might truly devoured heaven and earth.

#### Chapter 1662 - Striking Down Enemies From All Directions

“Hey, do you really think you are comparable to Great Ancestors Anlan and Shutuo when they were young? You vainly think you can suppress all of us alone? Haha...”

On the other side, there were people who roared with laughter, but their expressions were extremely cold, because Shi Hao’s words were too ear-piercing. How exceptional were Emperor Clans? Who dared to look down on them?

From past to present, once Emperor Clans appeared, they would always overwhelm all their enemies. Regardless of what era it was in, the experts who came out of their clans would all be unstoppable.

As long as they appeared in the world, they would be able to subdue an entire era!

It could be said that once Emperor Clans appeared, all clans would become dim, all creatures of the same generation would lose their brilliance, no one able to face them head-on.

Now, Huang was going to challenge everyone alone, letting several Emperor Clan experts come at him together. Just how domineering was this? It made them all furious.

“Anlan? It’s not like I didn’t fight him before!” Shi Hao said in a deemphasized manner, calm and unperturbed. He took action again, about to kill the Time Beast Chi Menghong.

“Was that really you? If not for the drop of blood, producing an unimaginable existence, no one could stop Great Ancestor Anlan!” Someone berated.

Heaven Abyss stood in their way, the sea of natural laws in particular was especially terrifying, even the true bodies of undying kings couldn’t cross over, which was why even though their names were mentioned, no projections appeared.

“If you can’t accept it, then come over and accept your death!” Shi Hao’s words were simple and direct.

Chi!

Sword energy rushed into the heavens, ripping apart the sky dome. The scarlet red divine sword hacked through the fiery red precious furnace. Shi Hao pressed forward with large steps, using a sword to cut down an Emperor Clan youth!

“Stop!”

On the other side, Wu Kun, Suo Gu, Yu Yu, Qing Kun, and the others pressed forward together. They were all people he was familiar with, Shi Hao recognizing all of them. They were the so-called six small emperors.

Back then, they had been refined together in the same Gu Clan Yin Yang Furnace, those people borrowing Shi Hao to transform. They were old enemies.

“Heheh, back then, in the other side, in your ancient world, I didn’t have any way to take action. However now, this time, I can kill as I please. I’ll slaughter all of you!”

Shi Hao roared out. He had previously been trapped in the other side, viewed as a prisoner, unable to fight an honorable battle. He always had a wave of fighting intent suppressed, and today, he could fully let it out.

While speaking these things, Shi Hao didn’t stop, the scarlet blade still moving. It hacked towards Chi Menghong, wishing to cut him down first.

At this moment, the tall Wu Kun, Yu Yu with the elegant appearance, and the others took action together, pressing forward. They wanted to stop Shi Hao, not letting him kill the Time Beast.

Hong!

In the distance, Ten Crown King and others moved, taking large steps over, facing those people.

“You all dare stand in our path? Get lost!” Suo Gu shouted out, extremely domineering. When he raised his hand, a weapon appeared. The ancient pagoda moved through the sky, about to suppress the people here.

Everyone’s expressions changed. They all knew that this was an ancient treasure, one that was extremely terrifying. It was refined by an older generation expert!

Forget about everything else, just this treasure alone was enough to suppress the people of a generation!

“Get lost!” Ten Crown King took action. Multicolored light flashed in his hand, immortal light flowing outwards, illuminating the nine heavens!

A small tree appeared in his hands. It was less than a foot in height, sparkling and replete with moisture, astonishingly brilliant. It released chaotic energy and immortal mist, exceptionally dazzling.

That was a World Tree Sapling, the most precious tree in this world!

The other side also had one, that tree guarding that ancient realm.

Meanwhile, Ten Crown King had one on him, only, it was still a young one. For it to be able to transform into this type of tree, its past was definitely terrifying and heaven shocking!

A honglong sounded. Ten Crown King took action. The World Tree Sapling sent the ancient pagoda flying into the distance.

Everyone was stunned. This young precious tree was astonishing after all!

Honglong!

At the same time, Shi Yi activated his dual-pupils, releasing sky collapsing energy, making the space before him shatter, leaving those people shocked.

Dual-pupils opened heaven and earth, it was known as an undefeated legend!

Back then, when Shi Hao fought with this cousin, he almost died. After that battle, he was crippled for more than half a year, recovering in Stone Village. That was the most bitter battle he had experienced.

Meanwhile, at that time, Shi Yi still couldn't display the dual-pupils' ultimate attack, instead using the supreme being bone's power.

Others didn't know about Shi Yi's strength, but Shi Hao was deeply aware. This cousin who stood against him once was definitely deep and immeasurable.

The other side's powerful beings were all shocked, feeling like they underestimated Imperial Pass, underestimating their cultivators' strength.

At the very least, the male who held the precious tree was a threat. His movements were powerful, releasing an extremely dangerous aura.

That young man with dual-pupils was also extremely astonishing, the fluctuations that rippled outwards right now were intimidating.

Chi!

A streak of sword light flickered past. That precious furnace was cut through, almost split in half. Blood gushed out. Chi Menghong was suppressed, about to be killed.

Those youngsters quickly rushed forward, while on this side, Exiled Immortal and Ten Crown King also took action again, magical force boundless.

Hong!

At the critical moment, the supreme beings behind both sides also moved, releasing divine light.

Meng Tianzheng was extremely decisive, using the Ten Realms Diagram, the war banner soaked in the blood of immortal kings and others, covering the high heavens.

"The other side is nothing more than this. You all can't take a loss?" He shouted.

Peng!

The supreme beings took action, great desert shaking intensely, void blasted open. The youngsters who wanted to rush over all backed up, not daring to approach.

Ah...

Chi Menghong released a long roar. A fist-sized blood beast rushed out from the inside of the damaged furnace. It had a Flood Dragon head and a lion body, dripping with blood. Its body didn't have hair, it instead had sharp spurs that pointed out. This was precisely the Time Beast.

Now, its primordial spirit rushed out, roaring at Shi Hao.

“Time as a Blade, eradicate the Pride of Heaven!” He went all out. At this point, with life and death threatened, he had nothing else, had to use his own divine ability.

The fiery red Time Beast roared there. That was a primordial spirit, displaying the most terrifying time natural laws, fighting bloodily against Shi Hao.

“Reincarnate the old world, bury and annihilate past and present, kill!” Shi Hao released a low shout. Time fragments danced about, revolving in his surroundings, and then they poured forward.

At the same time, the scarlet blade in his hand struck out with full power.

Peng!

The collision was intense, noise terrifying, blazing radiance shining everywhere. This place was surrounded, completely erupting!

These were time symbols that were erupting!

Everyone was shocked, incredibly shaken.

In the end, the supreme beings didn’t fight, both sides remaining silent, watching these two fight.

Hong!

Time fragments exploded. The two of them reappeared in this place. Chi Menghong flew out, returning to human form. His body was covered in blood, a bloody hole in his chest that was connected from front to back.

Shi Hao raised his hand, pointing the scarlet sword at him from the distance, walking over step by step.

Who was strong and who was weak, it was easy to see!

“Seniors!”

Some of the younger generation looked towards the supreme beings. Were they going to just watch as Chi Menghong died?

However, those people didn’t move, not taking action, remaining silent.

“It’s too late, Chi Menghong already can’t continue living. Huang is terrifying as expected.” A middle-aged individual said with a sigh.

Chi Menghong returned to human form, no longer a furnace. Blood dripped out from the space between his brows, head pierced through. Meanwhile, that primordial spirit, even though it was outside, not inside its body, there was a sword injury on it, covered in cracks!

“Even if he can’t live, he can’t be humiliated like this. We can’t just watch as Huang cuts him down!” Wu Kun said.

His head of hair was thick, figure sturdy like an iron tower. He walked over step by step.

At the same time, Yu Yu's entire body shone, becoming resplendent like a blazing sun, floating into the sky. He also pressed forward, suppressing Shi Hao, wishing to stop him.

Suo Gu and Qing Kun also moved, heading there step by step, making the world tremble in response.

When he saw that Ten Crown King, Exiled Immortal, Shi Yi, and the others were about to take action again, Shi Hao stopped them, saying, "Just let me test out these Emperor Clans' divine abilities and ancestral methods alone first!"

This wasn't empty talk, but rather that he really wanted to challenge them!

This time, the supreme beings didn't interfere, all of them just watching.

Honglong!

Wu Kun and the others released powerful fluctuations, engulfing towards Shi Hao, wishing to suppress him. They definitely couldn't allow Shi Hao to cut down Chi Menghong in front of everyone, let him bring him away like prey.

"Too late."

Shi Hao spoke these two words. He lightly brandished the scarlet blade in his hands.

He didn't attack, only casually making that motion.

Peng!

Chi Menghong's primordial spirit, that fist-sized blood beast directly exploded, turning into a rain of blood, and then disappeared.

Pu!

Then, Chi Menghong's head fell, blood gushing high into the air from his neck.

He didn't even attack, yet the Emperor Clan's younger generation lost his life just like that, falling!

Everyone turned pale with fright!

"In the intense exchange just now, Chi Menghong was already cut, but he forcefully condensed his spirit so he didn't immediately collapse." Another elder said with a sigh, feeling pity for Chi Menghong.

That was a heaven warping genius who came from an Emperor Clan, yet in the end, he was killed by Huang just like that.

Who dared fight him? At this moment, everyone shivered inwardly. Huang was indeed terrifying, saying he would kill an Emperor Clan and really doing it.

Shua! Divine light swept out. As soon as the Time Beast's original body was revealed, it was collected by Shi Hao.

Right now, he was just one person, yet he actually broke out of the encirclement of young Emperor Clan experts, seizing his spoils of war.

Wu Kun, Yu Yu, Suo Gu and Qing Kun, the four of them had chilly expressions on their faces. Shi Hao cut down Chi Menghong right before their faces!

“Who is willing to go kill him?!” Wu Kun asked.

Being from Emperor Clans, they had their pride. They were extremely arrogant, naturally not willing to surround and attack a single person.

“You all should just come at me together, let me kill to my heart’s content.”

Shi Hao took the initiative to attack. Honglong! Precious techniques erupted, attacking the four great experts at the same time. Resplendent divine multicolored light surrounded all of them within!

“Arrogant!”

Yu Yu shouted out, condensing a magic imprint, the first to make a move, rushing out murderously.

At the same time, Suo Gu’s face sunk. He rushed out from the back, sending a fist towards Shi Hao’s back, wishing to smash straight through him.

Peng!

Wu Kun’s entire body released dark light, horrifying to the extreme. His body was like a steel pagoda, arriving from the air. His palm blade was like a rainbow, hacking towards Shi Hao, wishing to cut him down.

...

The four great experts actually all moved, taking action together. Magical force surged, the aura suppressing all creatures at this level. They attacked Huang together!

Even though they were arrogant, they wouldn’t be bound by any conventions. Since Huang was this domineering, then they’ll just use this chance to take his life.

Chapter 1663 - Glory Through Slaughter

The magical imprint was powerful, as if an undying mountain was crushing down!

Yu Yu attacked from the front, his palm and fingers transforming. They reached over from the distance, turning into a great mountain that seemed to support the heavens, one that seemed as if it was the everlasting backbone of heaven and earth.

Hong!

This was extremely strange. It was clearly a palm, yet in the end, it turned into a great mountain along the way, many times more vast than a true great peak.

“Suppress!”

He shouted out, his voice ringing in all directions. The great hand crushed down, covering the heavens, absolutely horrifying.

Dong!

Right now, the expression on Shi Hao's face was calm, completely unflustered. His right hand produced a fist imprint, and then directly sent it smashing over.

The two clashed, the sky and earth turning upside down, immortals weeping and devils sobbing, a rain of blood pouring down on this world. Many scenes of gods and devils falling appeared.

This was like the last phase of an age, this scene a result of their exchange. That mountain was like the backbone of heaven and earth, smashed apart by a primal chaos god, collapsing, heaven and earth capsizing!

As a result, the universe split apart to pieces, the clans of the heavens scattered, eradicated.

This was Yu Yu's inheritance, the unmatched divine might of his clan's undying king. He had previously used a palm to wipe out a great realm, leaving behind an inextinguishable imprint. Now, when a descendants displayed this divine ability, scenes of the past would appear.

Shi Hao was powerful and heroic. He raised his hand to face this Emperor Clan's inherited ancestral method, facing it head-on.

The massive divine mountain collapsed, blasted back.

On the other side, Suo Gu's fist arrived, five-colored brilliance spreading outwards. Among them, golden light was the most brilliant, as if a monarch rushed across the sky, striking at Shi Hao's back.

This fist was too domineering, terrifyingly ferocious. Heaven and earth collapsed, disintegrating under that fist, that area entering a state of silence.

Fist intent reached into the heavens!

Suo Gu was extremely direct, displaying an unmatched ancestral method, all of it displayed on this fist, fully releasing his clan's brilliance!

Shi Hao didn't turn around, only naturally backing up, and then in a decisive and resolute manner, he sent his right elbow backwards!

Honglong!

Resplendent divine light erupted, electricity overflowed. This was the Lightning Emperor Precious Technique, displayed by him. It smashed towards Suo Gu's fist.

This type of arrogance and this type of judgment were extremely astonishing.

One had to understand that this was an Emperor Clan's attack, yet he didn't even turn around. After facing Yu Yu head-on, he dealt with Suo Gu's attack with his back towards him.

In that instant, lightning overflowed. A lightning pool appeared, releasing endless lightning along Shi Hao's right arm towards his back.

Honglong!

Suo Gu's fist collided with that elbow, the power shocking the heavens and moving the earth, interweaving, raging flames burning the nine heavens. It was just too dazzling!

Nobody could see the situation there, because this was a clash of natural laws between the most powerful, moreover a confrontation of the physical body, chance of blood flowing at every turn, deciding life and death.

Under the fist radiance, between the lightning, Suo Gu was bathed in divine radiance. He released a roar, his other hand also moving, turning into a terrifying sharp claw, grabbing towards the top of Shi Hao's head.

Peng!

However, Shi Hao seemed to have expected this. His back was still facing him, but his other hand was long waiting there. It carried time fragments, activating the Reincarnation Divine Ability, grabbing towards that claw with a reverse grip.

Hong!

Five-colored brilliance erupted between the two. Lightning and time fragments danced about, making this place explode.

Then, like two streaks of lightning, they separated, each rushing in a certain direction.

"Hand over your life!"

Wu Kun arrived. He was a giant in height, his body covered in tough muscles, extremely imposing. Long hair was scattered behind him, making him look like a world-shocking demonic god, eyes cold like sharp blades.

His palm blade was covered densely in symbols, moreover with sacrificial sounds coming from it, the voices of all clans, from past to present, worshipping undying kings. This was the embodiment of the clan's ancient ancestor's glorious dao, some of it revealed even through his descendants.

This scene was extremely shocking. Wu Kun's palm blade split the heavens, tearing through everything, unknown just how many tens of thousands of li in length the blade radiance extended. It cut through everything here like it was dividing a world into two.

Dong!

When faced with this attack, Shi Hao remained completely composed. His right arm moved out, with a light brush, the blade radiance actually scattered. There was a type of impervious to all methods type of might.

Solitary Buddha Eight Forms, he was using this type of divine ability. It was glorious and dignified, precious appearance divine, as if an immortal buddha descended onto this world, wishing to transcend above all things.

Shi Hao struck out towards Wu Kun, continuously exchanging blows with him.

At the same time, Shi Hao's entire body shone, time fragments erupting. He wouldn't hold back when facing the Emperor clans' young experts, going all out, using the Reincarnation Divine Ability.

Wu Kun's head of purple hair flew about, making him look like a fiend. He was berserk and incomparable, roaring out, blade energy moving heaven and earth, about to cut through time, see the everlasting.

This was extremely shocking. He was actually cutting time fragments with blade energy, leaving all sides intimidated.

A low roar sounded, the void warping. Qing Kun arrived. He exposed a portion of his original body, a bird head, black wings moving about. The heavens collapsed and the earth split, even though he had a human race torso, the bird race's distinctive traits appeared.

This was especially the case when he released a long roar, wings moving, diving over, everything around him collapsing.

This black demonic bird was like a giant black sun, crossing the sky dome. When it opened its mouth, its bird beak swallowed the heavens, even sucking in some meteorites from outer space, entering its mouth.

This scene was horrifying. There were even moons that directly disappeared because of this!

It could swallow the sun and moon, refine away the universe.

Wherever it passed, the sky became blurry, eaten by it.

The Nine Heavens had descendants of this clan, but their bloodlines were not pure at all. After countless generations went past, the ones known as Heaven Swallowing Sparrows, compared to it, really weren't worth anything.

Honglong!

Heaven Swallowing Emperor Clan, this clan was unstoppable. In the ancient times, it had devoured an entire great world, destroying all life!

Qing Kun slaughtered his way over, refining meteorites, moons, and others, producing a sea of essence energy. Even the void was being swallowed and melted down. It displayed the power of all things in the world.

The more it devoured, the more it could release!

Hong!

All things in heaven and earth, the sea of stars in the heavens, right now, it all appeared together. This clan's divine might was unmatched. Even though he was only a young creature, he still possessed shocking talent.

One could imagine the might its ancestor displayed when it swallowed a great realm.

Back then, the reason the Nine Heavens Ten Earths were broken down was precisely because of this clan's great ancestor. It had previously swallowed it in one go, moreover refined it, but was then stopped.

A great battle started. Shi Hao fought four enemies alone!

At this time, his body shone, divine chains of order shooting out in all directions, divine bravery unmatched. Every move he made was powerful, not backing up at all, carrying out a world shocking confrontation with them!

Everyone was moved, eyes shining brilliantly. A single person was fighting four Emperor Clans, just how astonishing was this?

How many years had it been since such a glorious battle had reappeared? There were only legends of such things from the last great era, in this world, where did they ever see something like this?!

Imperial Pass, on the city walls, everyone was shaken!

It wasn't that they didn't know Huang was strong, but only today did they realize just what kind of level he had reached. He could actually face the Emperor Clans with his own strength.

This was a legend among legends, a true undefeated legend!

Cao Yusheng, Qing Yi, and the others were talking quietly, muttering. This result exceeded their expectations, making them stirred up.

Even the Wang Family who bore hostility against Shi Hao became quiet, the Nine Dragons not uttering a word, Wang Xi's beautiful eyes focused, her mind a bit shaken.

This was a world shocking battle accomplishment.

On the other side, the cultivators of all clans were stunned. These were Emperor Clans! They were the symbol of unrivaled, able to command the world under the sky, who dared to show them disrespect?!

In their generation, as long as they appeared, who could contend against them?

However, right now, there was someone over there, facing four great Emperor Clan inheritors alone, invincible, fighting intensely against them, as if a prehistoric legend had reappeared.

This was too shocking. Many people on the other side were moved. The youngster's body even more so became rigid, only his soul trembling.

It was because this was too shocking, toppling everything they knew!

Emperor Clans, the unmatched clans, were challenged today by someone. Regardless of whether Huang won or lost, he had already slaughtered out his brilliance, his unique unmatched glory!

Shi Hao was attacked from all sides by four great enemies, fighting a life and death struggle, yet he didn't feel the slightest bit of fear, instead being excited, war blood ignited. He wanted to test out his own dao results.

He temporarily threw aside all other thoughts, only wishing to fight this battle, see the limits of his own potential, and then kill the four great experts.

This was a type of conviction of being unequalled. If others knew what he was thinking, they would definitely become stupefied.

Being attacked from all sides by four great Emperor Clans, what others would hope for was to survive, yet he wanted to prove what he had learned, moreover kill all of his enemies!

A bird cry sounded. The demonic bird Qing Kun turned into swallowed the heavens and earth, sucking Shi Hao inside with a single gulp, refining him there.

Hong!

Shi Hao erupted, his entire body blazing with symbols, becoming brilliant and dazzling. A fist smashed out, about to blast apart that giant bird's beak.

Qing Kun immediately opened his mouth, a sea of divine chains sprayed out from its mouth. They were like hundreds of thousands of divine spears, covering heaven and earth, unleashing the most deadly attack.

Dang dang dang...

In the deafening sound, Shi Hao withstood the attack, sparks flying in all directions; he was cutting down the divine chains of order.

At the same time, Wu Kun and Yu Yu also slaughtered their way over, surrounding Shi Hao, wishing to kill him on the spot.

Light was released in endless streaks, Emperor Clan experts attacking from all sides, all of them using the most powerful divine abilities.

At this moment, Shi Hao's situation was extremely dangerous, the slightest carelessness would result in death.

Hong!

Sure enough, during this battle of life and death, when attacked from all sides by four great experts, even someone as powerful as Shi Hao felt extremely strained. At this time, Suo Gu obtained an opportunity, releasing a ferocious attack.

Peng!

Shi Hao didn't move out of the way this time, taking the hit from the back. Blood flowed out from his mouth. This triggered everyone's shock.

Imperial Pass, on the city walls, everyone's hearts were raised to their throats.

Meanwhile, the other side's cultivators cheered, becoming extremely excited.

Hong!

Shi Hao rushed into the heavens, symbols covering his body. He was like a resurrected war god, world shocking killing intent overflowing into the heavens, becoming even more terrifying than before.

"That is..." Everyone was stupefied.

It was because the moment Shi Hao rushed into the air, many people discovered with shock that Suo Gu also followed. His fist was stuck to Shi Hao's back, not separating.

Huh?

Everyone was stunned. Then, they discovered that there were many divine chains on Shi Hao's back. A golden willow tree appeared on his back, binding Suo Gu, preventing him from immediately withdrawing.

Did Huang take this blow on purpose? A few people were shocked, asking skeptically like this.

"We should settle things! Back then, when we were competing over the rotten wooden chest, you even chased after me. Today, it's time to decide things!" Shi Hao said with a sunken voice.

Back then, when he was in Divine Medicine Mountain Range, at the borders of Burial Earth, a young Emperor Clan expert had fought with him to seize the wooden chest. That was precisely Suo Gu.

Moreover, Suo Gu, together with many other foreign cultivators, had even chased him into Heavenly Beast Forest, wishing to kill Shi Hao.

Today, now that they met again, it was time to settle an old debt.

Hong!

Shi Hao released divine multicolored light. All types of precious techniques appeared, beautiful feather-like natural laws covered the sky, rushing out from his body. He was like a reborn True Phoenix rising into the sky.

They fought intensely. Even though the other three great experts rushed over, they couldn't stop Shi Hao's berserk frenzy.

He was like a world shocking demon lord. A pair of Kun Peng wings appeared, splitting the heavens. His body bathed in lightning, time symbols surrounding his body. A small golden tree appeared behind his head, Willow Deity Technique activating, protecting his body.

Right now, Shi Hao's techniques all appeared, impervious to all methods.

Hong!

In the final moment, him and Suo Gu tangled together. With a vicious tear, a pu sound, blood radiance splashed out, forcibly ripping this Emperor Clan youth's body in half!

The great desert shook, all clans shocked.

Under this type of situation, Huang actually killed an Emperor Clan! This was while he was surrounded and attacked!

The other three great experts were furious, attacking crazily. Just now, they actually couldn't break through Shi Hao's defenses, only able to watch as Suo Gu was killed, blood raining down.

Shi Hao released a great roar. While bathed in Emperor Clan blood, he flung aside the two halves that were torn open. Like an unrivaled demonic god, cold lightning shot out from his eyes, locking onto the other three great experts!

Chapter 1664 - Suppressing Emperor Clans Alone

Huang stood in the air, bathed in the true blood of an Emperor Clan. He was like a reincarnated war god. A long roar sounded, wind and clouds all around him stirring!

His body was resplendent, flowing with dazzling brilliance. Right now, every strand of his hair was sparkling, eyes like electricity, making him look heroic and intimidating.

Sou sou sou!

The three Emperor Clan experts all arrived, fighting with him. Their faces were all cold, carrying killing intent, as well as a wave of unsuppressable rage.

It was because after today's battle, regardless of whether he won or lost, Huang's name would definitely resound through both worlds, perhaps enter the records of history. He was just one person, yet he challenged four great Emperor Clans alone, moreover killing one. Just how dazzling of battle accomplishment was this?

Meanwhile, they all became the accompaniment that made him look even better. Even if they defeated Huang now, it would still be difficult for them to appear brilliant. For three people to join up together, it was completely an unfair advantage.

"Kill!"

Qing Kun shouted, the first to move. Right now, he had a human form torso, but his bird characteristics also appeared. He had a bird head and black wings that covered the sun and sky, diving at Shi Hao.

The other two also displayed ancestral techniques, killing intent surging.

However, at this moment, the most shocking weren't them, but rather an ancient pagoda. It abruptly appeared out of the void, falling down above Shi Hao's head, suppressing downwards.

That aura and that type of power would definitely make Self Release Realm cultivators' faces go pale. It carried wisps of supreme being aura.

This was a magical artifact. It was extremely astonishing, despite not being a supreme being artifact, it wasn't far off!

The pagoda body flowed with brilliance, metal aura rich, carrying a bloodiness. It was a great vicious weapon.

Hong!

It was too sudden, crushing down just like that, wishing to suppress and kill Shi Hao below.

It was because its level was extremely high, exceeding the cultivation levels of those here, possessing immeasurable power.

"I was waiting for you!"

Shi Hao didn't panic, actually speaking like this. With a zheng sound, a sword core flew out from his body, releasing ascension light, killing intent endless!

With a dang noise, this sword core hacked down on the ancient pagoda, making it shake, sending it flying into the sky.

This was the Everlasting Sword Core, an extremely strange artifact. It never took the initiative to display power, becoming powerful only when it faced the strong! When Shi Hao obtained the Imperishable Scripture back then, encountering He Wushuang, he was actually able to use it to hold off the Immortal Smelting Pot.

Now, he activated the sword core, sending that pagoda flying.

“Suo Gu, you can die already! Your last hope of survival has been squandered as well.” Shi Hao said coldly.

Dang!

In the sky, it was as if primal chaos thunder rumbled, making everyone’s ears feel intense pain, their souls trembling.

That was a sword core exerting power, turning into an expanse of radiance, hacking down fiercely towards the ancient pagoda!

Everyone was stupefied. Wasn’t Suo Gu Killed?

However, everyone quickly understood that Suo Gu’s body had been torn apart, primordial spirit destroyed but he hadn’t fully died yet. There was still a trace of true spirit that hid within his weapon.

This pagoda was definitely extraordinary, able to suppress all those of the same generation.

Not long ago, Suo Gu had berated Great Xu Tuo, Qi Gu, and others, moreover activating this pagoda to suppress them. At the crucial moment, Ten Crown King took action, using the World Tree Sapling to send it flying.

Honglong!

That pagoda shook intensely, rumbling after being hacked at by the sword core, releasing dazzling brilliance.

“Kill!”

Wu Kun, Yu Yu and Qing Kun roared, moving together. Now that they saw a chance to save Suo Gu, they naturally went all out to stop Shi Hao from dealing the killing blow.

As long as Suo Gu’s true spirit could be preserved, with an Emperor Clan’s methods, it should be able to bring him back to life. This was especially the case when even though his flesh had been ripped in half, it was still there, able to further nurture his divine consciousness.

Unfortunately, they were too late. Even though the three great experts were providing assistance, they already couldn’t change anything.

Shi Hao released a roar that shook the world. From him at the center, endless golden flames raged, burning viciously, wreaking havoc here.

Honglonglong!

Lightning rumbled, resounding through the clouds.

This wasn't golden fire, but lightning. Shi Hao erupted, displaying the lightning divine ability to its limit. There was a lightning pool that rose and fell within, releasing the power of destruction.

The lightning was golden, when it gathered together, it was like a flame, burning heaven and earth.

The Everlasting Sword Core hacked down, forcing out Suo Gu's true spirit, making it separate from the ancient pagoda.

After all, that was only a remnant will, not a complete primordial spirit. Using words that are a bit more unpleasant, it was similar to a lone soul, so how could it stop that type of power?

The sword core forcibly blasted it out from that weapon!

Ah...

Suo Gu's true spirit screamed, devoured by the golden flames. This was lightning dao power, for spiritual consciousness type entities, it posed the greatest threat, directly killing the true spirit.

Pa!

This true spirit shook. It was in the form of a beast, Suo Gu's original appearance. In the end, it was instantly swallowed up by the golden flames, burned to ashes.

Suo Gu still died, unable to escape his fate.

Hong!

That pagoda rumbled, sent flying by that sword core. In the end, it smashed into the great desert, releasing endless raging waves, sand flying into the heavens.

"It's now your turn!" Shi Hao's black hair was dyed in gold, entire body covered in resplendent symbols, carrying raging flames, heaven overflowing killing intent. He slaughtered out murderously.

Even without him provoking them, the three of them had long activated extreme secret techniques, going all out.

This was a great battle, one that shocked heaven and earth.

The Emperor Clans joined hands, three heroes fighting Huang.

They all risked it all, not like before. It was because even Suo Gu died, if they continued to hold back, not releasing their full power, then that would be unforgivable.

Earlier, they still felt that attacking Huang from all sides was an unfair advantage, their pride stopping them from going all out, but now, they flung all those thoughts aside, fighting until their eyes went red, soaring like dragons and tigers.

This was a great battle, a clash to decide who was the most powerful in the younger generation.

The Emperor Clans made their appearance in the world, fighting a decisive battle with Huang.

In the past, whenever an Emperor Clan fought, it would be recorded, used as a textbook war example for others to study.

Now, three Emperor Clan experts appeared at the same time to fight a single person, this was naturally even more rare, worth recording.

“Kill!”

Qing Kun roared, his massive demon bird body devouring the sun and moon. When he opened his mouth, the meteorites in outer space were all swallowed into his mouth, melted down into essence energy to replenish himself.

Pu!

Great dao laws were released. It was like a great black sun, entire body covered in symbols, wings pitch black, flowing with black light. Right now, he released the most powerful aura.

Hu!

As he roared, black symbols pervaded the air, filling Shi Hao’s surroundings, melting down this place.

“Heaven Devouring Emperor Clan, able to refine away all things!”

Someone released a light sigh. This type of method was heaven-defying, able to burn away an enemy in the void.

Peng!

Shi Hao produced a barrier of light, as if impervious to all methods. Behind him, a small golden tree shone, branches extending endlessly, scattering down, forcing back the dark light.

Yu Yu attacked from the back, his palm enormous like that of a world splitting giant. When the palm descended, the sky dome cracked apart, stars trembling.

That was his magical projection, his real body was about the same height as Shi Hao’s, but his projection’s aura was world shocking, terrifying beyond compare.

Peng!

Shi Hao pointed out. Streak after streak of divine chains of order flew up, released from the little tree behind his head, piercing through the void, stopping that palm, about to stab through.

“Hand over your life!”

Wu Kun roared, his figure robust and sturdy, a zhang in height. His muscles swelled, as if small snakes were crawling all over his body, bronze skin flowing with precious light. ~~nOve~~/LB-In

Right now, his head of purple hair danced about chaotically, pupils contracting like crosses, extremely terrifying. An extreme aura spread over.

Right now, he was ferocious, and also tyrannical, every move powerful, fighting intensely against Shi Hao. His palm blades were like rainbow light, continuously hacking down, blade energy able to cut through the sky dome.

Shi Hao resisted, fighting a great battle against him.

Dong!

Without a doubt, the current Wu Kun was the most vicious. Apart from his ancestral methods being astonishing, his magical force powerful, his physical body was also ridiculously strong.

Dang!

Wu Kun activated a weapon. Above his head floated a violet-gold divine bell. It rumbled with noise, with each shake, ripples would fly out, wishing to blast Shi Hao to pieces.

Apart from this, there was a long blade in his hand, dazzling white and intimidating. Each time it swept out, the blade energy would be like a sea, drowning the skies.

He activated two secret treasures with his powerful flesh, attack and defense as one, fully displaying his Emperor Clan inheritance as he attacked Shi Hao.

In the skies, Qing Kun spiraled about, black feathers moving. Streak after streak of dark light continuously shot down. It provided support attacks, greatly interfering with Shi Hao's attacks.

Yu Yu also continuously released heavy blows, moreover carving symbols in the void, wishing to seal this place, put Shi Hao in a dangerous situation.

Shi Hao's eyes erupted with divine light. The Kun Peng wings behind him shook fiercely, all types of precious techniques surging around him, symbols concentrated like an ocean wave.

This heaven and earth thus became dazzling to the extreme!

Qiang!

During this process, he constructed a great bow out of lightning, producing three heads and six arms, fighting against Wu Kun, stopping Yu Yu, and most importantly, wishing to shoot down Qing Kun.

Roar!

Wu Kun roared out like a demonic god. He turned into a thousand hand demonic sovereign, palm imprints flying out, crushing the void, smashing murderously at Shi Hao.

Shi Hao released a light shout. The golden little tree behind him released endless branches, sparkling and replete. Then, they all suddenly went taut, all of them turning into spears, stabbing forward.

He used the Willow Deity Technique, simultaneously restricting Wu Kun and Yu Yu, and then focused all of his strength on shooting down the Heaven Swallowing Emperor Clan expert Qing Kun.

Chi!

The great bow was made from lightning, strong and powerful, flickering with lightning radiance. A terrifying aura spread from it.

With a wave of his hand, thousands of streaks of lightning flew over, gathering at the tip of his finger, turning into a divine arrow. It was placed on the bow, and then it was forcefully drawn, shot into the sky.

Weng!

Heaven and earth directly collapsed from being shot at!

This type of scene was unimaginable, truly shocking!

Everyone was stunned. It was like a real precious artifact, the power perhaps even greater. Shooting at a demonic bird in the sky like this really was a bit too shocking.

“No, this is heavenly tribulation, he actually drew down a true instance of lightning judgment!”

In the distance, someone cried in alarm.

This was the basis of the weapon Shi Hao forged from lightning. Right now, he pushed his own strength to the peak, actually guiding down heavenly tribulation.

Thus, he gathered all of his power, displaying the Lightning Emperor Precious Technique, deriving heavenly punishment like this, shooting at the demonic bird in the skies.

“I am from an Emperor Clan, not even heavenly tribulation can stop me!” Qing Kun roared out. It beat its wings, tearing apart the sky dome, resisting the thunder radiance.

Emperor Clan, every single one of them were extremely powerful, naturally able to cross heavenly tribulation.

“Kill!”

Shi Hao roared out. The power of that arrow made the sun and moon lose brilliance.

Hong!

He shot down the sky dome, an arrow shooting past, actually blasting through Qing Kun’s body, blood splashing extremely high into the air.

Everyone was stunned. It was just a single arrow, yet it was going to shoot down Qing Kun?

“Carrying out judgment in place of the heavens?” In the distance, someone cried out in alarm.

“He merged many methods, not just the lightning dao, there are other secret methods. It contains the most powerful attack!” A supreme being said, revealing the truth.

However, what was surprising was that this time, none of them stopped it, quietly watching them fight.

Pu!

Qing Kun roared furiously, blood surging. His body was shot through!

Chi!

In the skies, the arrows were concentrated. Shi Hao quickly fired arrows, shooting out twelve arrows in succession. Among them, three directly hit the enemy.

Qing Kun was furious. This was a great humiliation. As a member of an Emperor Clan known to be able to devour everything, today, he was actually shot at by someone, treated like an ordinary bird! This was unforgivable.

Only, those arrows were too terrifying, carrying many types of great dao natural laws, difficult to evade, locking down heaven and earth.

Pu!

He was struck again, his chest penetrated. His heart blood gushed out, suffering from the most terrifying blow.

"I'll kill you first, and then take the other two's heads!" Shi Hao shouted.

Chapter 1665 - Destruction

Weng!

Another arrow shot out. This time, everyone felt it deeply. It was because they saw that it wasn't only lightning, but rather also contained time fragments!

This was a culmination of Shi Hao's precious techniques after all, merged together to release immeasurable divine might.

In the skies, the black demonic bird shrunk. Qing Kun didn't dare make its magic projection too big, because that would only make itself too big of a target. Even if its movements were fast like lightning, it was still hard for him to dodge.

However, this time, he still couldn't evade it, still dyed in blood, its body shot through!

It was because the arrows contained reincarnation symbols and time fragments, interfering with time-space. It was hard to avoid. *nOve/lB*-In

Pu!

Blood splashed outwards. Qing Kun was absolutely furious.

"Left, right, up, down, front back, my power can devour the universe!" The black demonic bird released a long cry. Qing Kun exerted power, all of his black feathers burning.

Grand scripture sounds rang out. He was displaying secret methods, isolating Shi Hao, making him feel as if he entered a swamp. The surrounding void was melted, disappearing.

Meanwhile, Shi Hao was naturally about to be melted away as well. This was the secret method of Qing Kun's clan, able to devour heaven and earth.

Peng!

Right at this moment, Wu Kun broke free from the Willow Deity branches formed from natural laws. The heavenly blade in his hands hacked down.

"Huang, hand over your life!" At the same time, Yu Yu also shouted.

Qing Kun moved his wings, joining forces with the other two great experts, going all out against Shi Hao.

Shi Hao was in a bad situation. The scripture symbols of three great Emperor Clans surrounded him, submerging him underneath. The three great experts didn't hold back in the slightest, using the most powerful forbidden methods.

Hong!

Inside Shi Hao's body, clear light swirled about, releasing a wave of special power. This was his abdomen, the Sea of Reincarnation and the potential the gates within his body released.

He supported a screen of light, protecting himself, using the body as a seed. He fully activated the power in his body, moreover displaying magical force through several types of the most powerful precious techniques.

Shi Hao faced these attacks head-on. Then, he still chose to attack Qing Kun, as if he wouldn't stop until he was dead. For the sake of achieving this, he even took a blow from Wu Kun's blade energy, his body staggering backwards.

He drew his bow, determined to shoot down the other side.

Qing Kun was furious. Did Huang think he was easy to bully? That he was a pushover?

"Kill!"

Qing Kun roared angrily, many black feathers appearing on his body like sharp swords. Then, they released zheng zheng noises, shooting towards Shi Hao.

Chi!

However, what left him stunned was that Huang actually rushed into the heavens. Kun Peng wings moving behind him, lightning symbols flickering about his hands, reincarnation symbols covering his chest, a golden small tree appearing behind him. Shi Hao targeted him, not hesitating to take on the other two's heavy blows during this process.

Huang was like a banished immortal, powerful and intimidating, erupting with the most dazzling radiance.

Hong!

All types of precious techniques Shi Hao possessed were activated, as if he was an imperial monarch who looked down on all under heaven. He carried a threatening power, displaying the Six Dao Reincarnations Heavenly Art.

He blasted aside Wu Kun and Yu Yu's blockade, directly slaughtering his way into the heavens, focused on eliminating Qing Kun.

He merged many types of precious techniques inside, opening the six paths of dao, making time move in reverse, lightning interweave, Kun Peng power tearing apart the heavens.

Shi Hao used all of his cultivation to fight that demonic bird.

“Where do you think you are going?!” Wu Kun shouted. The long blade in his hands brandished out, blade radiance surging, hacking into Shi Hao’s back. However, it was stopped by an expanse of symbols, his body not cut in half.

Yu Yu shouted and his palms smashed out, releasing deafening noises. It was as if great imprints crushed down, also striking at Shi Hao’s back.

Hong!

By Shi Hao’s back, resplendent brilliance erupted, protecting him, resisting these two individuals’ attacks. However, he still coughed out a mouthful of blood.

His body swayed back and forth, but he endured it. He pressed forward, fighting a bloody battle with Qing Kun.

Right now, Kun Peng wings appeared on Shi Hao’s back, making him look like a vicious bird. Only, his wings weren’t real, but rather constructed from interweaving magical force.

Six Dao Reincarnations Heavenly Art was released, the power who knew how many times greater than before.

As Shi Hao’s cultivation became more profound, his understanding towards this type of heavenly art became increasingly refined.

“Just an ancient heavenly art, yet you want to suppress me?!” Qing Kun released a low roar, He used an Emperor Clan secret method, his body’s surroundings turning into a true black sun.

Right at this time, it also produced its own weapon, a heavenly spear that was pitch-black like ink, attacking Shi Hao.

Hong!

Heaven and earth trembled. The two’s powerful collision made this place explode to pieces.

“Huang, where do you think you are going?!”

Meanwhile, right at this time, Wu Kun and Yu Yu chased over, surrounding him again.

However, the situation became a bit different. Blood flowed out from the corners of Qing Kun’s mouth. After truly clashing, he was seriously injured from the blow, body contorting slightly.

“Precisely this drop of blood!” A drop of blood appeared on the corners of Shi Hao’s fingertip; this was Qing Kun’s essence blood.

Then, he released a roar. Symbols covered everything in his surroundings, several divine arrows appearing at the same time. There was one condensed from Kun Peng magical force, one created from lightning, one constructed from Reincarnation symbols....

He smeared that drop of blood over the arrows, and then fired.

“Vow of death, shoot him down!”

Shi Hao released a low roar, activating his body's cultivation. Then, he produced several arrows, all of them full of Qing Kun's aura.

"Six Dao Reincarnations, kill!"

Shi Hao released a loud shout. The six arrows spun about, no longer fired through a great bow, but rather out of six black holes, flying at Qing Kun.

Then, Shi Hao no longer paid him any attention, turning around to fight the other two.

"How could it be like this?" Qing Kun was horrified. He couldn't escape at all, the body protecting barriers were useless. When the first arrow flew over, then pierced through his body, something terrifying happened. It exploded!

Hong!

A Kun Peng exploded by Qing Kun's shoulder, blasting off an arm, turning it into a bloody mist, crippling him.

Pu!

Then, a second arrow flew over, shooting into his chest. An expanse of time fragments danced about, erupting there, making him quickly age, the hole in his chest connected from front to back.

"Six Dao Reincarnations, it was actually derived to this extent!"

In the distance, there were people who were shaken.

Huang was too strong, able to support these precious techniques to this extent with the Six Dao Reincarnations at such a young age. It really was terrifying.

AHH!!!!

Qing Kun roared out. He was struggling, trying to escape, but he just couldn't.

Another arrow flew over, exploding there. It turned into a willow tree, the branches like silk, wrapping around him.

Pu!

Then, another arrow flew over, penetrating his body, blasting him apart.

Honglong!

In the end, the six black holes suddenly merged, becoming one, covering Qing Kun within, imprisoning him.

"Explode!"

Shi Hao shouted. The black hole exploded, erupting with endless divine might, blasting Qing Kun until he was split apart into pieces.

This was especially the case when, under pu pu sounds, six divine arrows appeared there, flickering about. They flew past in the void, all of them shooting into Qing Kun's head.

Pu!

He died a violent death, head turned into a blast of bloody mist, the headless corpse falling down from the skies.

Qing Kun was killed!

“Brazen!”

On the other side, Wu Kun and Yu Yu were furious, eyes widened as they watched this scene. They actually had no way of stopping this.

The Six Dao Reincarnations Heavenly Art was derived to this extent, completely not what cultivators at this cultivation level should be able to release.

“It’s you two’s turn!” Shi Hao said coldly.

His body had blood on it, but it wasn’t his, all of it blood from his enemies that splashed onto his body.

He activated several types of secret techniques, attacking with the Solitary Buddha Eight Forms.

The three of them tangled about each other, all of them fighting for their lives.

Shi Hao wasn’t all that better off. A strand of blood flowed out from the corners of his lips, because just now, when he killed Qing Kun, his consumption was too great. For the sake of killing the other side as quickly as possible, he almost sucked his magical force dry.

Meanwhile, he still had to deal with Wu Kun and Yu Yu, which was why the pressure he faced was so great.

Fortunately, with the body as a seed, his potential was endless. After just adjusting himself a bit, his body surged with spiritual energy again.

Honglong!

Great battles happened continuously, a life and death clash carried out.

From the start until now, over a thousand moves had already been exchanged.

Fortunately, Shi Hao already killed two of the Emperor Clan experts.

“Kill!”

When the battle reached more than two thousand moves, Shi Hao released a low roar.

At this moment, when he used the Solitary Buddha Eight Forms, his palm suddenly erupted with brilliance. He integrated the Imperishable Scripture, flesh immediately becoming powerful to the extreme.

With a pu sound, Yu Yu’s magical imprint was blasted through, palm becoming badly mangled, unable to match Huang.

Dang!

At the same time, Shi Hao's fist smashed through Wu Kun's long blade, bare-handedly forcing it back. Moreover, with a dong sound, it smashed into the violet-gold great bell above Wu Kun's head, the bell waves released splitting the sky dome.

Wu Kun's body staggered, backing up.

"Kill!"

Shi Hao released a low roar. He targeted Yu Yu, slaughtering his way over again.

Wu Kun was shocked. Even though he was blasted flying, he immediately charged back. He really was scared that Shi Hao would kill another Emperor Clan.

Honglong!

Another intense clash was carried out. The three individuals continued to tangle about each other.

However, the battle still came to an end. When Shi Hao pushed the Imperishable Scripture to the limit, his flesh became terrifyingly great, his fist radiance especially tearing apart the sky dome.

Pu!

Then, his fist blasted through Yu Yu's chest, making him explode!

In the sky, a rain of blood scattered down, the scene extremely terrifying.

Ah...

Yu Yu roared out, full of unwillingness. He quickly reassembled his body, flesh and essence blood flowing in reverse, piecing himself together.

However, before he had time to roar out again. Shi Hao's right fist carried a domain, smashing over.

Peng! Shi Hao's fist descended, blasting that person apart. This time, he could no longer reassemble his true body.

It was because Shi Hao's fist fully destroyed his primordial spirit with this attack, the flesh bursting apart.

"I don't want anything human form!"

Shi Hao said, not leaving his body behind.

"It's now your turn!"

Shi Hao stared at Wu Kun. Several types of precious techniques erupted, protecting his body. Meanwhile, the Imperishable Scripture's symbols appeared on his arms, unstoppable. He slaughtered his way forward.

Dang!

In the end, Shi Hao bare-handedly stopped Wu Kun's long blade, shattering the blade body.

Dang!

Meanwhile, the most terrifying thing was that he blasted through that violet great bell with a single punch as well, shattering Wu Kun's defensive magic treasure.

"Kill!"

Shi Hao roared. His fist flew over, penetrating Wu Kun. Blood flew everywhere. He killed the last of the four great Emperor Clan experts as well!

He was like an unmatched demonic god!

Chapter 1666 - Forcing Back Emperor Clans

Shi Hao was delicate and handsome, but right now, he was intimidating, body carrying the blood of Emperor Clans. His tall and slender body was surrounded by symbols, waves of holy light surging!

His fist carried blood. It penetrated Wu Kun's body. After gently pulling that arm out, that corpse fell from midair.

It was dead silent. The battlefield actually entered a short period of silence. This result was too shocking, four great Emperor Clan young experts, Suo Gu, Qing Kun, Yu Yu, and Wu Kun, all died.

A clash this intense, battle this terrifying, it made everyone's eyes dazzle with radiance, feel deeply shaken.

If Chi Menghong from earlier was added, Scarlet King's descendant, then Shi Hao killed five Emperor Clan experts in total. This type of battle accomplishment could definitely be considered dazzling.

After hundreds of glorious ages, tens of thousands of years, in this great era, this type of battle accomplishment had never happened. It was just too brilliant!

He won just like that, ending the battle!

Imperial Pass, on the city walls, after a moment of silence, sky shaking cheers sounded. Many people shouted out, excited and moved.

A single person killed four Emperor Clan experts. He was definitely an undefeated legend!

From the past until now, in this great era, Imperial Pass was always the one being pressured, intimidated by the other side. Each time, Imperial Pass always had to act extremely passive, had to pay the price of blood and lives to defend itself.

Now, in one battle, several Emperor Clans were killed in succession. Shi Hao altered the flow of history.

For the other side, this feeling was bitter and terrible, unimaginable. This kind of result actually appeared.

Five Emperor Clan heroes died one after the next, moreover all killed by a single person! Even the four great experts attacking at the same time weren't enough, only able to die in the end.

Huang, how could he be this terrifying? Was he going to establish an unmatched legend?

"He was previously taken prisoner in my world, yet now, he continuously killed our Emperor Clans..." Someone said softly, voice shaking. He felt shock and anger at the same time, as well as a type of worry.

Huang, how did he become this powerful? A single person killed five great Emperor Clan experts!

Shi Hao descended, extremely calm. He quickly collected several corpses, including a demonic bird body, giant beast body, feathers dyed in blood, scales and horns brilliant.

This was Emperor Clans' flesh. For other creatures, they wouldn't even dare think about it. Who could kill Emperor Clans, who dared touch them?

Now, a youngster, as if he had carried out a hunt, wiped out Emperor Clan heroes, moreover putting away their bodies.

Apart from Yu Yu who was of human form, directly blasted apart, even if the others were in pieces, he still collected their bodies.

"Now there's enough to eat." Shi Hao muttered.

This more or less shattered his image somewhat. Just now, he was heroic and powerful, aura intimidating, but now, he actually talked about eating.

Of course, in some people's ears, it made him seem savage, actually seeing Emperor Clans as food. In all these years, who dared to do such a thing?

Ao...

Finally, from the other side, a long roar sounded, full of grief. Many creatures howled, carrying powerful killing intent, engulfing the battlefield.

These were from cultivators related to Emperor Clans, erupting into anger one after another, expressing their resentment. They really wanted to immediately kill Huang.

This battle left the Emperor Clans without any brilliance, dealing a heavy blow. They, who were always unmatched, suffered a crushing defeat today.

On the battlefield, when the other side's supreme beings opened and closed their eyes, it was deep and cold, lightning radiance shooting in all directions. They didn't take action, but were instead full of killing intent.

Not far out, Meng Tianzheng held the damaged great banner in hand, precisely the Immortal Ancient war flag that had been soaked in the blood of immortal kings, condensing that era's battle intent and killing energy.

Apart from this, above his head, the Ten Realms Diagram rose and fell, facing the creatures on the other side.

If they fought a fierce battle, then the effects would be too great. If someone like Meng Tianzheng was defeated, then that would mean that Imperial Pass would fall, completely collapse.

The city gateway was in ruins, right now was Imperial Pass' weakest state after endless years. An immortal artifact could be used to blast it open.

"Huang, you are extremely strong, not bad. However, if you think you are unrivaled in the same generation, then you are still far off!"

Right at this time, a youngster walked over from the other side, heroic and intimidating, a heavenly spear in hand. His body was slender and powerful like a Flood Dragon, carrying a type of presence as if only he was supreme.

This person was extremely arrogant, and also self-confident. His entire body carried brilliance, surrounded by a divine ring. He was like the son of a celestial emperor as he stood there, becoming the center of the world.

He was extraordinary, head of long hair brilliant. It was as if demonic imprints were engraved between his brows, flowing with intimidating power. A pair of sharp and long eyebrows extended into his temples.

This person was precisely the young man who claimed that he was going to kill Shi Hao before. He held a heavenly spear in hand, pointing it at Shi Hao from the distance, challenging him. He was at the Self Severing Realm.

This person was a level higher than Wu Kun, Yu Yu, Chi Menghong, and the others. If not for members of the Six Small Emperors coming out, he would have long fought a decisive battle with Shi Hao.

A Self Release Realm Emperor Clan youngster!

Without a doubt, he was a leading figure of the other side's younger generation!

"I will give you time to rest, you can take all the time you need to reach your peak state!" This youngster shouted, battle clothes brilliant. They were thin like cicada's wings, flowing with great dao symbols.

This person's pupils shone at this time, producing symbols, horrifying to the extreme!

He was a powerful creature, a Self Release Realm Emperor Clan, definitely terrifying. He carried the aura of great dao, as if a child of the celestial emperor appeared in this world of mortals, about to sweep through time itself.

Right now, when his battle intent was released, his body became too brilliant. He was surrounded by a hundred and eight rings of light, already becoming the most dazzling brilliance between heaven and earth.

Nearby, many youngsters were horrified, feeling waves of fear. It was because after this youngster released his powerful aura, they actually shivered, their own great dao suppressed.

What was going on?

"Oppress ten thousand dao, all methods impervious!" Someone said with a light sigh, revealing the reason.

"He... is Without Death's descendant!" On Imperial Pass' side, an important individual carried restraining fear and helplessness while saying this.

Without Death, not long ago, his heavenly spear cut across Heaven Abyss, wishing to send over an undying existence. That was an unimaginable ancient existence, tyrannical beyond compare.

The clan's innate talent was the most terrifying, Magical Force Immunity, impervious to all methods, powerful to an inconceivable level!

"Hao Feng!"

The descendant of Without Death, he was recognized, his name Hao Feng.

Shi Hao turned around, looking at him coldly. "Do you feel that you can suppress me just because you are at the Self Release Realm?"

He didn't stop, actually walking forward, releasing killing intent, erupting with astonishing battle intent, wishing to fight another battle. Meanwhile, this time, he faced an even stronger enemy.

Hao Feng's cultivation period was definitely longer than his, also older than Wu Kun, Yu Yu, and the others, a Self Release Realm great cultivator, his strength terrifying.

"If you want a fight, then fight! I will similarly cut you down!" Shi Hao said.

When these words sounded, many people were stupefied. The other side's creatures were furious, feeling like Huang was just too unbridled. What did he treat Emperor Clans as?

Could it be that he could even fight a great battle against Emperor Clans while skipping levels?  
n).OvelBIn

This was impossible!

In everyone's eyes, Emperor Clans could crush the great clans of the world, there was no way anyone could skip cultivation levels to fight them.

Kacha!

Streak after streak of lightning appeared in the sky dome above, flickering in Shi Hao's surroundings. This was the power of heavenly tribulation.

Lightning flashed, thunder rumbled, the power horrifying.

This lightning carried chaotic energy, carried dazzling and terrifying brilliance. It floated in the air, about to pour down on Shi Hao.

"He wants to face tribulation, enter a higher cultivation realm!" Someone couldn't help but cry out.

Huang was too heaven-defying, actually daring to do this right in the middle of the battlefield. It really was too brazen, making one feel great admiration.

Shi Hao could have entered the Self Release Realm at any time, but he was always tempering himself, not in a rush to break through. It was because recently, his cultivation advancement speed was too fast.

With his age, reaching the consummate level of Self Severing Realm was already world-shaking. At the very least, it had never happened before in this great era's Nine Heavens.

Shi Hao wanted to train himself for another period of time before breaking into the Self Severing Realm to prevent his dao foundation from being unstable.

Now, Hao Feng wanted to fight, so Shi Hao wanted to break through here, become a Self Release Realm existence. Even though he could still continue to sharpen himself as a Self Severing Realm cultivator, the maturity was pretty much there. He could then use heavenly tribulation to refine his dao body.

In the past, he always cultivated to a consummate level, and then exceeded the original cultivation realm. When he broke through like that, he felt like his base was stable, dao foundation strong.

Today, he didn't want to fight a bloody battle. Even though he could cross levels and fight a bloody great battle, forcefully face Hao Feng, the price he would have to pay would definitely be too great. After all, the other party had already entered the Self Release Realm for many years.

Moreover, he was likely not at the beginning stage of the Self Release Realm. Shi Hao felt like he had to quickly break through, kill this person with the cultivation of Self Release Realm.

"Hao Feng, back up. He is going to face tribulation, if you get caught up inside, it wouldn't be good."

A supreme being spoke, not letting Hao Feng fight, ordering him to return.

In reality, the other side's cultivators were a bit worried, fearing that once Huang entered the Self Release Realm, he would still be terrifying and vicious. If his cultivation level immediately became profound, his strength would be incomparable.

If that happened, something unexpected might happen.

In short, the other side's cultivator was scared that the Self Release Realm Huang would defeat Hao Feng.

That type of result would be unacceptable.

The other side's younger generation had already been defeated miserably enough. If Shi Hao defeated Hao Feng as soon as he advanced, then that really would leave the Emperor Clans ashamed, with nothing to say.

This type of thing definitely couldn't be allowed to happen. They had to stop him.

Hao Feng wasn't convinced, wishing to fight, but there were one or two supreme beings from Emperor Clans present as well. Their faces sunk, ordering him to withdraw.

"You should back up. The ones who will decide the fate of Imperial Pass are us. Even if the younger generation is entirely slaughtered, if we cannot break through the ancient city's walls, it is still useless."

"Slaughter all of Imperial Pass' supreme beings, and then everything is easily solved."

The two Emperor Clan supreme beings spoke one after the other.

Hao Feng backed up, not saying a word. Thus, another fight with an Emperor Clan didn't happen.

"Heh, haha..." Shi Hao roared with laughter.

Moreover, with a honglong sound, the lightning above his head completely disappeared, the tribulation forcibly stopped by him.

Everyone sucked in a cold breath of air, feeling shaken. The heavenly tribulation was already about to descend, yet he could still stop halfway?

“Worthy of being someone who cultivated the Lightning Emperor Technique, moreover someone who obtained a lightning pool before. He is just this extraordinary!” Someone in Imperial Pass released a light sigh.

Shi Hao didn’t take action, but he pressed towards the Emperor Clan’s creatures.

“It is now our turn. Who will fight against me?”

A supreme being walked out from the other side, taking steps forward.

Everyone knew that the true great decisive battle had arrived. It now depended on whether or not Imperial Pass’ creatures could stop them.

Meng Tianzheng walked out, saying “Slaughtering left and right really is tiring. Why don’t we just decide life or death, one battle to decide victory or defeat?!”

“Fine!” An Emperor Clan supreme being replied!

#### Chapter 1667 - Supreme Being Confrontation

The Emperor Clan supreme being agreed so easily, this really was quite surprising.

However, Meng Tianzheng instead frowned, because only one of the Emperor Clan supreme beings nodded. The other one remained indifferent, not saying anything.

“My side’s experts are many, why should we accompany you in a decisive battle?” The second Emperor Clan supreme being refused after all.

“Then we’ll just fight one by one. Whoever can make it past me, I won’t stop them, nor will I have the strength to stop them!” Meng Tianzheng calmly said.

He was going to stop the other side alone first, fight them one on one.

“I’ll give your Imperial Pass one opportunity. When you two go at it, the two side’s supreme beings will exchange pointers one by one to ensure fairness. We won’t rely on using numbers to overwhelm you all.” The second Emperor Clan supreme being said.

The situation was greater than the person. The other side’s experts were too many. What Imperial Pass could rely on was only their advantage in immortal artifacts.

Meng Tianzheng looked towards the people behind him, releasing a light sigh. The people on their side were too few, not having any advantage at all.

“Can we use immortal artifacts?” He asked.

“For the sake of fairness, we won’t use immortal artifacts. Of course, if both sides have them, and both parties agree to fight with them, then there’s no harm.” The second supreme being said.

In the back, Jin Taijun’s expression wasn’t all that great. It was now time for supreme beings to face each other! They didn’t have many people on their side, so she definitely had to go up.

Immortal Wang nodded, expressing his agreement.

The other supreme beings from Imperial Pass also nodded.

In the end, this decided things.

Meng Tianzheng sat down across from the Emperor Clan supreme beings, a great distance separating them.

The so-called seated confrontation was playing a black and white great dao chess match, struggling for victory and defeat, deciding life and death.

Simply speaking, this was a great dao confrontation, but it wasn't fighting with weapons, but rather deducing natural laws, using the dao to carry out a contest.

This looked like a civil battle, but it was actually even more dangerous.

Meng Tianzheng sat down. In that instant, black and white lines extended, forming patterns like a great dao chess board.

That were yin and yang energies, the most fundamental energies of this world. They could portray the great dao, even more so able to derive life or death, simple yet complex.

Black and white met, the great dao chessboard majestic, rising and falling here!

On the other side, black and white energies appeared in the Emperor Clan supreme being's surroundings. Yin and yang swirled, displaying great dao natural law power.

With a honglong noise, great dao power clashed between the two, forming a grand and complete chess board. In reality, these were natural laws, magical force, the embodiment of the dao.

Only, it would give one the misconception that they seemed to really be playing a game of chess.

"Before heaven and earth were opened, there were endless tribulations..." The Emperor Clan supreme being was chanting, entire body surrounded under the radiance of great dao, indistinct and terrifying.

With a honglong noise, he moved his finger, a chess piece flying out. That was a type of technique, a type of divine ability. It erupted in the void, forming a flower, flickering about.

"Tribulation flower blooms, endless calamity begins." The Emperor Clan supreme being said quietly.

"Change the world's eighty thousand methods, cross endless tribulation." Meng Tianzheng said calmly, pointing his finger out. A chess piece appeared there, turning about, suppressing forward. Endless great dao symbols were produced.

Only, that tribulation flower was extremely mysterious, looking gentle and soft. However, there were natural laws everywhere, multicolored lights swirling about, constructing a great mortal realm.

Peng!

The piece Meng Tianzheng produced shone, directly cracking. A humanoid creature walked out from within, a divine ape. It entered that world of mortals, personally facing tribulation.

The two great supreme beings seemed like they were creating a new heaven and earth, deriving the fates of all life, constructing a great dao law domain. There were creatures who rose and fell inside.

The Emperor Clan supreme being raised his hand, the second type of method about to be derived. A simple and ancient symbol flowed about, forming a chess piece once more, flying towards Great Elder Meng Tianzheng.

Honglong!

Only, when it was still in midair, it turned into a great imprint. This was formed from the Emperor Clan's interweaving natural laws.

In reality, even if it was just a simple and ancient symbol, it was the embodiment of a supreme inheritance's essentials.

Great Elder also raised his hand, releasing a streak of light. It turned into symbols, clashing with the other side's great imprints!

Hong!

Immediately afterwards, they turned into white and black chess pieces, clashing, continuously surging.

What Great Elder used was the Imperishable Scripture's symbols, forming the second chess piece, clashing with the Emperor Clan's unmatched inheritance's profound meanings.

"Everyone, have you all decided who will be sent out first?" The other side's supreme beings spoke, looking towards Immortal Wang, Jin Taijun, and the others.

A battle was going to begin, the final great confrontation!

"Come, come, come, who will fight with me?" A supreme being stepped out from the other side, carrying black mist, as well as a hazy great dao aura, standing there.

"Who will go out?" Jin Taijun asked the ones with the qualifications to take action from Imperial Pass.

"This one is the first who stepped out, definitely not the strongest. Jin dao friend, you should go out and face him." Immortal Wang spoke.

He spoke it extremely tactfully, but his meaning was already direct enough. The one who went out first should be the one with the weakest strength.

"Fine, I'll go!"

Jin Taijun clenched her teeth, stepping out. It was because hiding wouldn't accomplish anything. There weren't many people here, every person here was going to have to step out sooner or later.

"Heh, dao friend, it seems like your heart isn't at peace, not all that calm. You just might die here!" The foreign supreme being spoke.

"Dong!" Jin Taijun's walking stick shook, making the void tremble. She berated out, "Less nonsense!"

Honglong!

A great battle began. Jin Taijun activated her secret method, displaying precious techniques, fighting an intense battle with this person.

It had to be said that those who could become supreme beings were all the most talented individuals, heaven warping talents, strength unimaginably powerful.

Even if the other side was warlike, every individual bold and brave, generally speaking, their strength was still greater than that of the Nine Heavens. However, there were no weak individuals among those who could reach this level.

Jin Taijun was extremely strong, fighting intensely with that person.

In reality, at that level, they were all dragons among men, all of them unmatched beings in their respective generations.

In the Void Dao Realm and Self Severing Realm, the other side's creatures' best seemed to be able to overwhelm the Nine Heavens' side's young cultivators, but at the supreme being level or higher, there were no longer any overwhelming advantages.

It was because supreme beings represented the limit of the mortal dao.

The massive Nine Heavens Ten Earths, from past until present, there were only just these supreme beings left. After experiencing endless trials, only this many were produced.

This was the choice of great dao!

The other side might have produced more creatures at this level, but that didn't necessarily mean that they were stronger!

The choice of dao represented a type of result. They were all the most powerful in the mortal dao, whoever was stronger or weaker no longer that apparent.

Honglong!

The great dao rumbled, lightning was deafening. A great magical projection filled this world, the two able to seize down the sun and moon with a single raise of their hand, fighting intensely.

However, in the end, Jin Taijun still wasn't a match.

Pu!

She was struck in the back by a palm, her entire person sent flying, smashing into outer space. A mouthful of blood sprayed out, a great expanse of stars forever becoming dim, destroyed by supreme being blood.

Honglong! At the most crucial time, great dao rumbled.

On the black and white life and death chessboard, Meng Tianzheng sighed. He pointed out lightly, a dazzling streak of light stopped the other side's chess pieces.

At the same time, the great dao chessboard enlarged, covering heaven and earth, surrounding outer space. This was done deliberately to protect Jin Taijun, allowing her to live.

“Dao friend, you are going for too much, actually daring to be distracted.” That Emperor Clan supreme being said coldly.

Hong!

On the life or death chessboard, chess pieces appeared one after another, all of them original great dao profound meanings, currently suppressing toward Meng Tianzheng.

Pu!

Then, Jin Taijun escaped the chessboard, sent back by Great Elder, escaping death.

“We lost this round.” Immortal Wang stepped out, stopping the pursuer, protecting Jin Taijun.

It was extremely dangerous. If he was a step too late, without Meng Tianzheng’s chessboard, without Immortal Wang stepping out, Jin Taijun would have definitely been killed.

“Dao friend, your cultivation maturity seems to be lacking.” The other side’s supreme being didn’t seem to be too upset, carrying a faint smile, thus withdrawing.

It was because he knew that unless something unexpected happened, the Nine Heavens Ten Earths’ supreme beings would all be slaughtered. There was no rush.

“Who will fight with me?” Immortal Wang stepped out, walking over one step after another. He looked extremely young, his appearance that of a sixteen or seventeen year old young man, extremely delicate and handsome.

“I’ll go!” On the other side, a woman appeared, extremely pretty, but also extremely cold. Her pair of eyes were deep like a starry sky.

Chi!

The two rushed into the heavens, fighting an intense battle in outer space.

On the ground, the other side’s cultivators stirred restlessly, especially the younger generation, some of them unable to sit still. They glared at Imperial Pass’ side like tigers watching their prey.

“How about we also exchange some pointers?” A foreign young creature provoked, walking out. Of course, he avoided Shi Hao.

If Shi Hao took action, then it would definitely be Without Death’s descendant Hao Feng who faced him.

“Fine, this was exactly my intention!” Shi Yi calmly spoke, long wishing to fight.

“Hehe, haha...” On the other side, someone laughed loudly, saying, “I admire you all greatly, actually really daring to accept our challenge. Where do you all get the confidence? Do you all think you are Huang?”

Honglong!

Almost in that instant, there were a few creatures who rushed over, striving to be the first. Their eyes flickered with divine light, as if they saw the most delicious prey, scared that others might get to it before they did.

There were some who couldn't wait any longer, rushing forward and attacking.

Of course, they weren't that reckless, avoiding Huang. They definitely wouldn't throw their lives away.

At the same time, they also avoided Ten Crown King, because they had seen him directly send Suo Gu's ancient pagoda flying with that precious tree.

A few threw themselves at Shi Yi and Exiled Immortal, because they were at the very front.

"Heheh, human child, I'll help send you to the afterlife, you thing who doesn't know the difference between life and death!"

There was a King Clan individual who laughed, eyes sinister. Several people moved at the same time, rushing towards Shi Yi, viewing him as the first prey. They wanted to immediately kill him as a statement.

"Dual pupils open heaven and earth, never witnessed defeat from past until present." Shi Yi said quietly, extremely calm, not all that forceful, even a bit overcast, lacking a type of grand and powerful feeling.

It was because he was a bit regretful that he wasn't able to display the most powerful eye technique back then when he was defeated, instead using the supreme being bone that didn't belong to himself, losing to his cousin.

Honglong! Following his shout, his eyes changed, becoming dual-pupils, completely different from how they were normally.

Weng! Blazing radiance erupted, primal chaos radiance surged, astonishing to the extreme, a horrifying aura surging out.

Qiang!

At this moment, two swords actually emerged from Shi Yi's eyes, carrying chaotic energy. Then, they crossed, forming mysterious light, hacking forward.

Pu pu pu pu!

Several light sounds rang out, blood radiance gushing everywhere, heads tumbling. The individuals who rushed over all had their heads removed by the two intersecting blades, their headless corpses collapsing onto the ground.

Moreover, their primordial spirits were even more so directly killed within their heads, unable to escape, extinguished by the chaotic sword radiance.

Dual-pupils opened heaven and earth, actually revealing two swords, leaving everyone shocked.

Chapter 1668 - Huang's Older Brother

Dual-pupils opened heaven and earth, primal chaos spilling out. Under this attack, several King Clans were killed. Their headless corpses fell onto the ground, blood gushing everywhere. This scene was extremely shocking!

Shi Yi stood on the battlefield, black hair fluttering about, eyes intimidating. Within his eyes, there seemed to be concentric circles, these dual-pupils, overlaying on top of each other, releasing terrifying beams of light.

In the past, no one on the other side knew of him, not knowing of this individual's existence at all. However, after today, many people would remember him, hard for them to forget.

Kengqiang sounds rang out. Those two swords shrunk, becoming divine radiance, returning to his pupils, entering the depths of his eyes.

The chaotic energy entered as well, making his eyes become increasingly deep!

This left everyone shaken. Those were but dual pupils! They actually produced two swords, so sharp even King Clans couldn't defend themselves, directly cut through!

How sharp were they? Those were two god killing swords, making all of them feel restraining fear!

"Who are you?" In the distance, someone shouted, examining Shi Yi carefully for the first time. Before, he definitely didn't attach any importance to him.

In the blink of an eye, the eye radiance killed several King Clans' well-known figures, and only then did a great commotion with Shi Yi at the center erupt

"Shi Yi." Shi Yi spoke, extremely calm, not showing any particular emotions, speaking his name.

Even though he killed several experts in one breath, he wasn't shaken at all, instead remaining calm, not feeling like it was a glorious feat.

It was because in his beliefs, the dual-pupils were undefeated!

Meanwhile, in this bloodline's inheritance, the eye technique was unmatched, shouldn't have any opponents!

This type of belief was already rooted in his soul, long becoming the root of his faith and conviction.

"Shi Yi? Never heard of you before!"

In the other side, there were some who said this to themselves. It was because this name was too unfamiliar, no information for them to review. For them, it was nothing more than a name. However, why was he so strong?

"Unknown one, you seem to have a bit of weight behind you." Someone from the other side's younger generation said.

They were prideful, and also arrogant. There were some King Vans, who, even though they knew Shi Yi was dangerous, still deliberately played him down, speaking with contempt.

Imperial Pass, on the city walls, many people were excited and stirred. Shi Yi, that dual-pupiled individual was actually this strong. Two swords emerged from his eyes, actually killing many King Clans.

Just how astonishing of a battle accomplishment was this?!

Now, when they heard the other creatures devalue Shi Yi's feat like this, they naturally all felt discontent, speaking out to uphold his name.

"Never hearing of the dual-pupils before can only mean that you all are ignorant and inexperienced!"

On the other side, a few creatures immediately laughed after hearing this. Even though they knew that Shi Yi was extraordinary, a terrifying young expert, they still couldn't help but speak out to mock him.

"What dual-pupiled individual? Never heard of him at all. Does he really think that by winning one fight, he is unstoppable in the world? Don't think you are another Huang!"

The people on that side roared with laughter.

In short, they felt restraining fear towards Huang, but at the same wanted to put down and mock Shi Yi. It was because they indeed didn't know his identity.

"So what if you have dual-pupils? When my side's clans take action, you will definitely be killed!"

"Not everyone can be Huang. Moreover, not even Huang will live for much longer!"

The other side's cultivators sneered, carrying arrogant expressions, as well as a trace of cold-heartedness.

Even Cao Yusheng couldn't hold back anymore, shouting out and berating, "You never heard of the dual-pupils before? Then let me tell you, he is indeed not Huang, but he is --- Huang's older brother!"

When this sentence was spoken, the other side's cultivators' expressions immediately became sluggish, becoming stupefied, extremely shocked, not knowing what to say.

A few people originally wanted to berate him and mock him. However now, after they stared blankly for a moment, they quickly shut their mouths.

Huang's... older brother?

Was this real? From the same mother, blood brothers?

On the other side, a group of young creatures became dizzy. This relationship is too unordinary! They were dumbstruck.

Now, no one mocked him anymore, nor did they call Shi Yi an unknown individual.

It was because if he really was Huang's older brother, they felt like he really had the qualifications to be treated seriously, had to be carefully investigated!

During this period of time, the blow Huang dealt to their minds was too great. Just now, he even more so killed five people in succession, five of the Six Small Emperors cut down.

Just how terrifying of a thing was this? The battle accomplishment was glorious, enough to be passed down for hundreds of generations, shake up an entire great era.

Now, Huang's older brother stepped out, would it be another monster? This left all of them with great uncertainty, a bit dizzy.

Even the Emperor Clans' expressions became serious. Their side attached great importance to bloodline strength, believing in the natural talent inheritance of a clan.

Even Huang was that frightening, his older brother... just how terrifying would he be?

Moreover, when they thought about it, that 'Huang's older brother' was indeed terrifying, only widening his eyes and two world shocking sword cores fell out.

In that instant, he killed several powerful King Clan youngsters in one breath, clean and efficient, absolutely decisive!

In that moment, the dual-pupiled Shi Yi was deeply remembered by them, no one daring to look down on him anymore. They all revealed serious expressions, staring at him.

Huang's... older brother!

The other side's people no longer dared to mock him, instead directly adding a label, viewing him as a dangerous individual.

Their performance and their expressions naturally all entered Shi Yi, Great Xu Tuo, Cao Yusheng, Qing Yi, and the others' eyes, understanding what they were thinking.

They were all speechless. Huang's... older brother. This type of phrasing, these words actually became a shocking label and tag, making the other side's younger generation treat them seriously.

On Imperial Pass' side, a group of people became speechless. They wanted to laugh, yet nothing came out.

The original instigator of all of this -- Cao Yusheng, was also speechless. He only randomly blurted this out, yet the other side's King Clans and even Emperor Clans attached such great importance to this. n--o.)v/(E/-l))b-)l((n

"Huang's older brother, it seems like I've disrespected you. I am willing to fight, do you dare accept my challenge?"

One person walked out, an Emperor Clan disciple, of the same clan as Suo Gu, both of them descendants of Shutuo. Now, he was going to attack with killing intent.

Huang killed his older brother Suo Gu. After sizing himself up, he felt like he wasn't Huang's opponent, if he stepped up, he would most likely similarly nurse a grievance.

That was why after learning that Huang had an older brother, Suo Ming wanted to fight a decisive battle with Shi Yi here, do everything he could to kill Shi Yi.

There was an Emperor Clan who issued a challenge, wishing to fight a decisive battle with Shi Yi. The atmosphere immediately became tense.

Even Cao Yusheng and the Lunar Jade Rabbit, these happy-go-lucky fellas' expressions became serious, no longer speaking randomly.

"That's fine. Come over and fight!" Someone spoke out.

However, this left everyone stupefied. It was because the one who spoke wasn't Shi Yi, but that Exiled Immortal, leaving everyone stunned.

Wasn't this challenging Shi Yi? Huang's older brother was challenged, so why did Exiled Immortal now stand out? Even Imperial Pass' people were a bit confused.

"Who are you? The one I want to challenge is Huang's older brother!" Suo Gu's young brother Suo Ming asked coldly.

"Naturally... Huang's older brother!" Exiled Immortal replied.

The other side were stupefied. There was another brother of Huang's? Who was he? Just how many brothers did Huang have? They were all a bit stunned.

Shi Hao was also a bit speechless. Exiled Immortal actually spoke these words.

The expression of Imperial Pass' cultivators became a bit strange, and then they realized that Exiled Immortal was mocking the other side, doing this on purpose.

They all knew that Exiled Immortal's origins were mysterious, normally aloof and remote, distant like an immortal. He was the one who was most transcendent, closest to immortal dao aura among the younger generation.

Normally, he was gentle, and also aloof. No one expected him to provoke the other party like this, actually having this side to him.

Those who knew about Exiled Immortal all knew that he looked aloof, but he was actually vicious, his methods exceptionally terrifying. He was an extremely dangerous individual.

Back then, in the struggle between the three thousand provinces' geniuses, his hands were full of blood, battle accomplishments terrifyingly great, number of people he killed hundreds to thousands of times worse than Shi Hao and Ten Crown King!

"Who exactly is Huang's older brother? Come over and fight!" Suo Ming shouted. He felt like he had been played.

"Fine, I'll fight with you!"

At this time, before Shi Yi or Exiled Immortal attacked, Ten Crown King also moved, every move powerful, as if a celestial monarch attacked. Whenever he took a step out, there were great dao symbols that appeared beneath his feet, looking majestic and imposing, aura devouring mountains and rivers!

"You... who are you?"

On the other side, the crowd was a bit annoyed, especially Suo Ming.

"Huang's older brother!" Ten Crown King said.

They were all speechless. Another older brother of Huang's came over. This was clearly making fun of them!"

“You are courting death!”

On the other side, the group of young experts were all furious.

On Imperial Pass’ side, many people couldn’t help but roar out in laughter. They never expected the dignified Ten Crown King and the aloof Exiled Immortal would all have this side.

Even Shi Hao cursed inwardly. Even if those people were older than him, did they really have to step up with the status of Huang’s older brother? They were clearly mocking him!

“Who cares if you are Huang’s older brother or his younger brother. Do you dare fight me?” Suo Ming roared out in anger. He was truly annoyed.

On the other side, many people from the younger generation were similarly furious, feeling like they had been played. These individuals didn’t place them in their eyes at all.

“I’ll fight with you!”

“Kill!”

“Die!”

At this moment, Ten Crown King, Exiled Immortal, and Shi Yi seemed to have taken action at the same time, erupting with endless symbols, taking action together, attacking murderously.

This was especially the case when Ten Crown King brandished the precious tree, a bit crude, not using any techniques at all, smashing it at Suo Ming.

The three great experts advanced together, striving to be the first to take action, agreeing by chance to attack at the same time. This was naturally extremely terrifying.

Of course, the most terrifying was still Ten Crown King’s attack. When he brandished the World Tree Sapling, a sea of great dao symbols surged, blasting Suo Ming, sending him flying out.

The precious tree sapling’s power was endless!

In the back, everyone’s eyes erupted with light, a wave of hot blood surging. They shouted out the word ‘kill’!

A few people rushed out, all of them slaughtering over, including Great Xu Tuo, Little Sky King, Lan Xian, Daoist Qi Gu, Yi Yi, Qi Hong, Tuogu Yulong, and others.

“There is also me! Huang’s older brother is also coming!” The golden little Heavenly Horned Ant and Cao Yusheng roared, also hollering as they charged with these people.

“There’s us, Huang’s older sis!” The Lunar Jade Rabbit, Wei Family’s Four Phoenixes and others shouted out, their voices incredibly sharp and clear.

The other side, the younger generation’s cultivators’ faces all fell. They knew that they had been played, mocked. They roared out ‘kill’!

“Hmph!”

Shi Hao released a cold snort. He rushed forward. A great chaotic battle erupted!

#### Chapter 1669 - Bloody Battle

Shi Hao's objective was Hao Feng, currently staring at him. This was a Self Release Realm level Emperor Clan, impervious to all methods, dao law immunity. He was the most terrifying young expert in the great desert.

The two didn't immediately exchange attacks, only standing opposite of each other. Between them, divine light overflowed!

"Hand over your life!" On the other side, Suo Ming was furious. As someone from an Emperor Clan, being mocked was one thing, but he was even struck by that precious tree, making him feel extremely ashamed.

However, what faced him was another attack. Ten Crown King was unstoppable, with the World Tree Sapling in hand, he really was terrifying, already prepared to fight a vicious battle.

Pu!

In the surroundings, there were King Clans that were directly swept through by the World Tree Sapling until their bones broke and muscles snapped. Moreover, Suo Gu took another blow, staggering backwards.

Chi!

Furthermore, at this time, Exiled Immortal took action. In his hands was a horn, hidden within the simple and ancient appearance was a terrifying killing intent.

Honglong! An ancient horn appeared in his hands, the corners of his clothes fluttered about. The world was torn apart, all of the nearby foreign cultivators intimidated, some of them blasted to pieces.

This horn seemed like it was able to break through everything, as if it possessed endless weight behind it. When it swept across the sky, a few people were directly crushed.

Even the Emperor Clans felt it a bit hard to endure, only able to move out of the way when this horn's power swept over. Suo Gu didn't dare face it head-on, really feeling some restraining fear. It was because that horn was too dangerous.

In the distance, the golden little ant cried out, greatly moved, but also feeling a bit sad. This was a horn from its race, belonging to the Heavenly Horned Ants!

This was a secret treasure, the power terrifying.

Exiled Immortal had previously obtained the Heavenly Horned Ant's inheritance in Immortal Ancient Remains, also obtaining this horn.

Kill!

Exiled Immortal and Ten Crown King were all fierce individuals. Even though one was aloof and otherworldly while the other was like a monarch, when they truly moved, they were decisive and incredibly ferocious.

Hong!

Ten Crown King attacked, a fist blasting apart an enemy, blood splashing high into the air.

At the same time, he brandished the World Tree Sapling, making Suo Ming stagger backwards again, blood flowing out from the corners of his lips.

Ten Crown King was majestic and powerful, running after Suo Ming.

Exiled Immortal released a long roar, True Phoenix wings appearing behind him. He soared into the sky, also taking action. That horn moved, splitting heaven and earth, making his opponent's expression change.

A few people exploded, dying in front of him, not even bones remaining, turning into a bloody mist.

Right now, it wasn't a one on one battle anymore, but rather a chaotic battle. Ten Crown King and Exiled Immortal didn't hold back, using their most powerful precious artifacts to unleash a great slaughter.

They were the main force, daring to fight even against Emperor Clans!

It was clear that in this type of situation, it wasn't suitable to fight great decisive battles one on one with Emperor Clans, all of them instead trying to find a way to kill their enemies in the shortest amount of time possible.

As a result, Ten Crown King and Exiled Immortal didn't act too politely, using the precious tree and ancient horn in their hands, unleashing a great slaughter. Whoever stood in their way, whoever they would kill.

Even if it was someone from an Emperor Clan, when faced with the World Tree and the Heavenly Horn, they could only move out of the way, full of restraining fear.

Qiang!

At this moment, there was no Emperor Clan around Shi Yi. His pupils contracted, firing shocking multicolored light accompanied by chaotic energy. Great dao symbols surrounded the void.

Those two swords appeared again. At this time, they hacked towards the enemy, blood splashing out, the scene extremely terrifying.

Shi Yi went crazy. When his eyes opened and closed, streak after streak of light shot out, sword radiance flickering, shocking heaven and earth.

A great chaotic battle erupted, blood splashing outwards!

"Are you all looking to die?!" Hao Feng shouted. He took action even though there were supreme beings who previously ordered him that he shouldn't act recklessly, that he shouldn't rashly fight a decisive battle with Huang.

However, he couldn't hold himself back anymore, he wanted to get rid of Huang, and then kill all of the young experts in Imperial Pass.

Hong!

In that instant, the two sides shook. Magical Force Immunity, unaffected by dao laws, the most terrifying aura erupted here. This was a great clash of physical power.

The two fought intensely!

Soon afterwards, in Shi Hao's surroundings, lightning appeared. He wanted to cross tribulation, enter the Self Release Realm during the baptism and transformation, and then kill his opponent.

However, this opponent was extremely terrifying, a Self Release Realm great cultivator, as well as someone from an Emperor Clan. In the past, he always defeated all of his opponents.

Honglong!

Shi Hao was distracted. A fist smashed out, striking towards the other party's allies, blasting a few youngsters until their bodies exploded. Under his full powered strike, even Wu Kun, Yu Yu, and the others were killed, let alone these people.

This was to protect Great Xu Tuo, Wei Family's Four Phoenixes, Daoist Qi Gu, and others.

In this chaotic battle, even though those from Imperial Pass' side surged with hot blood, their strength was still inferior to the other side in the end. Shi Hao was always paying attention, scared that there would be deaths here.

That was why at the crucial moment, he directly rushed over murderously, forcing back the enemy!

Ever since he fought with Anlan, obtaining that momentary power from the drop of blood, even though he lost it afterwards, Shi Hao's benefits were great, his combat awareness becoming astonishing.

"Withdraw!"

Shi Hao shouted, calling Cao Yusheng, Heavenly Horned Ant, Chang Gongyan, and others back. In the end, their strength was still less than the other side's, so if they continued fighting, it would only increase the casualties. ~~noVe~~ **Lb**.In

He didn't want to see the young individuals of the Nine Heavens' side die miserably one after another!

"Kill!"

Shi Hao himself was charging forward, attacking murderously until heaven and earth shook, great dao divine sound rumbled. Moreover, he guided down lightning and thunder; this was heavenly tribulation.

Hao Feng released a long roar, charging over to fight him. Even though Shi Hao was covered in lightning radiance, he still remained fearless, wishing to use this chance to kill Shi Hao, not allowing him to truly consolidate the Self Release Realm cultivation.

Shi Hao was like a berserk humanoid True Dragon, terrifying beyond compare. As he moved, his fist strength was world shocking, smashing the surrounding foreign cultivators until they screamed miserably, people continuously dying.

Shi Hao went crazy, wishing to break through while still keeping his eyes on this battlefield, making sure to protect those on his side. His head of black hair danced about chaotically, murderous energy overflowing, eyes even standing up.

At this moment, Exiled Immortal and Ten Crown King were undoubtedly terrifying, also protecting the people by their side, murderous energy surging.

Shi Yi was bathed in blood. Wherever his eyes passed, a few experts would break apart into bloody mist, all of them killed by him, powerful and shocking.

Pu!

Great Xu Tuo's arm was cut off by someone. He staggered backwards. This was a great expert from the Nine Heavens' younger generation, but he was still seriously injured.

Qiang!

A war spear flew over, piercing into Daoist Qi Gu's chest, almost nailing him onto the ground.

Pu!

The golden little ant suffered serious injuries, because it was too eye-catching, everyone knowing its clan's identity. A few King Clans wanted to take this chance to prevent it from ever growing up.

The situation was dangerous!

"Withdraw!"

Shi Hao roared, doing everything he could to activate heavenly tribulation. Moreover, he continuously brandished his fist to kill the other side's experts, give Imperial Pass' cultivators a path of life.

"Huang, today, I will kill you!" Hao Feng roared. He was trying to interfere, chasing after Shi Hao, wishing to kill him today.

Right now, there was nothing else in his eyes, no longer saving the cultivators of his side, only wishing to eliminate Shi Hao.

"Go!"

Some of the youngsters on Imperial Pass' side died, but in this great clash, the other side also had quite a few casualties, mainly because of Ten Crown King and Exiled Immortal's power. With secret treasures in hand, they even dared chase down Emperor Clans.

Moreover, Huang also went crazy, crossing tribulation while slaughtering his way forward, his head of black hair dancing about chaotically, eyes like cold lighting. He killed the cultivators of all clans, unleashing a massacre.

However, his situation wasn't all that good either. Because he wanted to take care of Imperial Pass' side, he took a blow from Hao Feng who continuously followed him, blood flowing out from the corners of his lips.

"Back up!"

Cao Yusheng roared. He felt like they couldn't let Shi Hao be distracted.

Hong!

Immediately afterwards, Shi Hao's aura surged, guiding down even more powerful heavenly tribulation, cleansing his body, he fully entered the Self Release Realm and then faced Hao Feng!

Hang Feng was a terrifying figure after all, someone who left others with restraining fear.

It was because after he displayed his innate divine ability, this place became different. All natural laws became nothing. This was his Magical Force Immunity!

Fortunately, Shi Hao's body was incomparable, and he was also proficient in the terrifying Magical Force Immunity himself. Even though he could only maintain it for a short period of time unlike his opponent, it was still already enough!

Shi Hao crossed tribulation, entire body covered in electricity, eyes releasing cold lightning. He stared at the incoming Hao Feng, wishing to fight a great battle against him.

Ah...

In the distance, Suo Ming roared in anger, carrying pain and unwillingness.

Everyone looked over, couldn't help but turn their heads. A rain of blood gushed out, dyeing the skies bright red.

Suo Ming was going to die!

It was because at the moment Ten Crown King sent him flying with a precious technique, the horn in Exiled Immortal's hand moved out, almost cleaving him in half!

It had to be said that though Exiled Immortal looked aloof, his methods were fierce and vicious. He was extremely sensitive at seizing opportunities, directly delivering this fatal blow, cold and unfeeling.

The most crucial part was that in the final moment, Shi Yi just happened to arrive here. His dual-pupils opened, attacking Suo Ming at his weakest state.

Two swords emerged from Shi Yi's eyes, intersecting, carrying chaotic energy. They were like dragon shears, with a pu sound, Suo Ming was chopped apart, body now completely cut into two pieces, falling onto the ground, blood dyeing the skies.

Hong!

Ten Crown King smashed down viciously, fist and precious tree descending at the same time, powerful and oppressive, blasting Suo Ming into a bloody mist!

Another member of an Emperor Clan actually died!

"Kill!"

The eyes of the other side's creatures immediately became red, frantically counterattacking, rushing at them.

Imperial Pass' youngsters were clearly in a difficult situation now. Some of them immediately burst into blood, dying here.

It was extremely miserable, the great battle cruel, blood dyeing this battlefield.

## Chapter 1670 - Bitter

Some more people from Imperial Pass died. The eyes of the younger generation from the other side were red, attacking in a berserk manner!

On the great desert, it was extremely miserable. Magical artifacts rushed into the heavens, weapons breaking from time to time. Blood flew in all directions, corpses continuously falling, the scene extremely cruel.

“Hurry and retreat!”

Someone from Imperial Pass’ side shouted out. There was no way to continue this battle anymore. In the end, in terms of strength, they really were quite a bit weaker than the other side.

“Precious tree holder, die! Hand over your life!”

With a honglong noise, the heavens split and earth cracked. A great cultivator at the peak of the Self Release Realm slaughtered his way over, eyes all red, vowing to kill Ten Crown King!

This was an expert who was on the verge of entering the supreme being level. He stirred on magical artifacts, killing intent overflowing into the heavens.

He stared at Ten Crown King and Exiled Immortal, as well as Shi Yi, his hair all standing on end, eyes bright red, carrying cold and fierce killing intent, as if he was an asura who killed gods.

At this stage, forget about them, even the supreme beings wanted to take action. The battle on this side was this intense, making it hard for them to hold back.

Honglong!

At this moment, Ten Crown King and Exiled Immortal stood together, activating divine force at the same time. They brandished the weapons in their hands, smashing them towards the skies.

In that instant, the void exploded, the sky dome rumbling, great dao natural laws descending.

That was the World Tree Sapling displaying its might. Even if it was only a foot tall, still in its young state, it still possessed mysterious power, able to guide down the suppression of the great dao.

Chi!

At the same time, a streak of blazing light surged. The horn in Exiled Immortal’s hands ripped through the sky dome, as if a streak of the most terrifying lightning tore through the air.

That was a Heavenly Horned Ant’s horn, representing extreme power, possessing terrifying symbols. It crushed all living things, strength able to break through all methods!

This was a horn that came from a true immortal, naturally possessing unimaginable power!

In the sky, the expert at the peak of the Self Release Realm was furious. Although he was full of murderous intent, he couldn’t help but withdraw, avoid the radiance.

Even someone as powerful as him didn’t dare rashly face the World Tree Sapling and that ancient horn at the same time.

The reason why Suo Ming died was because he was swept by that World Tree Sapling, and then had his body torn apart by that horn. Those serious injuries caused him to quickly decline.

Ah...

In the distance, Tuogu Yulong released a miserable scream, his body pierced by a silver war spear, sending him flying hundreds of zhang out. With a pu sound, he was nailed into the ground.

Pu!

Then, the upper half of his body exploded, the scene extremely miserable. His body and spirit almost died just like that.

“Yulong!”

There was a girl who cried out, rushing in that direction.

It was precisely one of Wei Family’s Four Phoenixes. In the end, a green divine arrow shot over, carrying heaven overflowing symbols, releasing great dao rumbling sounds.

Heaven and earth lost color, it was terrifying beyond compare.

The other three of Wei Family’s phoenixes all screamed out, incomparably nervous. They wanted to provide help, but they were too far.

This arrow was too terrifying, making heaven and earth split, producing a black path, the skies even collapsing as a result.

The surroundings of this member of Wei Family’s Four Phoenixes produced blazing flames, turning into a flame phoenix to protect herself. However, it was still too late, the defenses not enough.

With a pu sound, the arrow penetrated her armor, crushing her body’s protection symbols. It pierced through her chest, moreover instantly making her entire body explode.

Blood rushed out, dyeing the great desert red.

This member of Wei Family’s Four Phoenixes wilted away, dying miserably on the spot.

Ah...

Tuogu Yulong released a low roar like that of a wild beast. He crawled up from the ground. Half of his body disappeared. He screamed out, his eye sockets feeling like they were going to split apart.

That was his fiancée, only recently did they discuss marriage. The great battle was already almost about to end, the light of dawn already visible, yet they were now parted by death.

“Kill...”

Tuogu Yulong went mad. He dragged his damaged body, slaughtering his way forward.

The eyes of the other three of Wei Family’s Four Phoenixes all went red. Even though they were female, they were incredibly ferocious, also charging forward.

“Go back!”

Shi Yi stopped them. Dual-pupils shone, forming a domain, stopping them. Right now, Imperial Pass was definitely at a disadvantage, being suppressed. If they continued fighting, they would definitely all die.

“Ah... sis... ah...” Wei Family’s remaining three young ladies cried out, shedding tears. They knew that the dual-pupil user before them had good intentions, that he was trying to save them.

“Retreat!”

At this time, even Ten Crown King and Exiled Immortal released low shouts. They held up the rear, also starting to back up.

“The one with the precious tree, as well as the one with the Heavenly Horn, both of you stay here!” There were more than one person at the peak of the Self Release Realm who rushed over. They wanted to kill these two great experts.

“Imperial Pass’ people, I’ll give you a chance. Lower the precious tree and the ancient horn, fight me one on one. I guarantee that I will kill you all!” Someone roared out.

These creatures were extremely unconvinced, believing that the reason why Ten Crown King could kill Suo Ming was completely because he had a supreme treasure. Otherwise, they wouldn’t be a match.

“There are so many people here, if I kill all of you one by one, will I be able to kill them all?” Ten Crown King released a cold shout. With a honglong noise, he brandished the precious tree again, sweeping forward.

“Then you can just die!”

Right at this time, a great roar sounded, a terrifying aura spreading from the distance. A great cultivator with a trident stepped out, arriving with an aura that encompassed the entire great desert.

“Supreme being magical artifact?” Imperial Pass’ people were shaken.

That trident was definitely terrifying. Even though it wasn’t a true supreme being artifact, it was close enough, because it carried a sea of killing intent, shaking up even the sun, moon, and stars in the sky.

One had to understand all of this was because of the aura it released!

Honglong!

Ten Crown King and Exiled Immortal took action together, activating the World Tree Sapling and that ancient horn, facing the sky. They were fearless, attacking those magical artifacts.

Lightning and thunder immediately erupted between heaven and earth, supreme being aura spreading.

This was caused by the descent of that magical artifact, heaven and earth collapsing!

At the same time, in this direction, an arrow shot out, releasing a terrifying noise again, piercing through a screen of light, pressing forward.

Pu! Sacred Academy’s Yi Yi was shot. That powerful disciple directly exploded, losing his life.

Chi!

The bowstring shook again, the void ringing. Another arrow shot over.

Ah...

Lan Xian screamed miserably. This moving and beautiful woman who cultivated three strands of immortal energy was also struck, her body bursting. The power she endured was too great, unable to stop it.

A seed appeared, quickly revolving, wrapping around Lan Xian's primordial spirit, as well as a portion of her flesh, quickly backing up.

That was a perfect ancient seed!

This seed preserved her life.

That archer's threat in the distance was too great, continuously shooting down Imperial Pass' geniuses, impossible to defend against.

Everyone was shaken, quickly backing up.

This battle ended extremely miserably. The other side had experts who died, including Emperor Clans, while some of the Nine Heavens' important geniuses also fell.

Pu!

Blade energy swirled about. There were some who chased over from the distance, fighting a chaotic battle with Imperial Pass on this side, clashing once more.

With a pu sound, a head tumbled. Another one of Wei Family's Four Phoenixes died. Her beautiful head was cut off, eyes extremely wide. She didn't want to die, but her primordial spirit was crushed by the blade energy.

Some of the other side's younger generation experts were too vicious, horrifyingly powerful.

Shi Yi turned around, slaughtering his way back. He originally stopped the remaining three of Wei Family's phoenixes, yet one of them still died here.

"Kill!"

A group of people from the other side chased over, like a beast flood as they charged forward with terrifying vicious energy.

Honglong!

In the skies, a muffled noise erupted, terrifying to the extreme.

Ten Crown King and Exiled Immortal teamed up, actually blasting away the magical artifact a Self Release Realm expert used, moreover blasting it to pieces.

Pu!

These two were extremely fierce. When they saw people on their side continuously die miserably, they also slaughtered until their eyes were red. With a pu sound, two supreme treasures interweaved, releasing holy radiance, directly blasting that Self Release Realm cultivator to pieces.

“Hurry and retreat!”

They roared out, attacking the people behind while withdrawing.

Honglong!

Immediately afterwards, in the distance, true supreme being aura spread. Someone holding a secret treasure bestowed by a true supreme being slaughtered his way into the battlefield.

Apart from this, there were supreme beings who looked over coldly, chilling killing intent swirling.

Honglonglong!

In another direction, Shi Hao’s heavenly tribulation was like a sea, pouring down, quickly submerging him within. He faced tribulation while fighting Hao Feng.

The two of them tore at each other fiercely.

It had to be said that this heavenly tribulation brought Shi Hao great trouble.

It was because this heavenly tribulation was too powerful, submerging him within, the source endless, as if it poured straight out of a sea.

Hao Feng evaded, attacking from the distance, not willing to be caught up inside.

“Kill!”

Shi Hao, while carrying heavenly tribulation with him, rushed towards the other side’s cultivators, wishing to unleash a great calamity. However, each time, Hao Feng would use this chance to rush at Imperial Pass’ people.

This was a type of threat. As long as Shi Hao dared kill the other side’s creatures, then he would also use his methods to chase after those geniuses.

“Stop him for me!”

Shi Hao roared, transmitting sound to Ten Crown King, Exiled Immortal and others. Those two had supreme treasures, so it should be fine.

Honglong!

Ten Crown King and Exiled Immortal were also decisive, slaughtering towards Hao Feng.

Immediately afterwards, Shi Hao carried heavenly tribulation, bringing endless lightning radiance with him. He dove towards the other side’s young cultivators, carrying crazy murderous intent as he charged over.
