

Perfect WD 1671

Chapter 1671 - Life and Death Survival

“Accept death!”

A roar sounded from above, someone arriving while activating a supreme being artifact.

That weapon was indeed terrifying, killing intent surging.

Dang!

However, Shi Hao remained fearless. With a raise of his hand, he pulled out the Everlasting Sword Core, fiercely hacking it out, blasting that magical artifact aside.

“Kill!”

At the same time, Shi Hao roared out, bringing lightning radiance with him as he slaughtered his way forward.

Pu pu pu...

Bloody light flashed, the lightning like a long river.

There were immediately some cultivators from the other side who exploded to pieces, killed under Shi Hao’s vicious assault.

This was especially the case when he set his eyes on an archer, transferring all of his magical force to release a world shocking attack.

That creature moved out of the way, not facing him head-on.

Chi!

The divine arrow was like a rainbow. That creature drew his bow towards Shi Hao, the arrow screaming through the heavens.

Peng!

Shi Hao’s fist smashed out, smashing into this incomparably brilliant arrow that was burning like a sun, knocking it aside, making it explode in the skies.

Shi Hao was alarmed. This was a powerful cultivator, not a normal King Clan, definitely of Emperor Clan bloodline. Perhaps it might not be pure, but he was still extremely terrifying.

Moreover, this person was in the Self Release Realm.

No wonder Wei Family’s Four Phoenixes, Lan Xian, Yi Yi, and the others suffered serious injuries, some even dying. This individual was extremely terrifying.

“Kill! Where do you think you are going?!”

In the skies, someone shouted out, still the youngster who held the supreme being artifact. He was determined to kill Shi Hao.

“Courting death!”

Shi Hao erupted in anger. He wanted to get rid of that archer, but now, someone stopped him.

“Supreme being, display divine might!” In the skies, that youngster released a cold call, activating a supreme being magical artifact.

Honglong!

At this moment, Shi Hao’s hair all stood on end, carrying lightning and killing intent, rushing into the heavens.

“Back off, don’t let the supreme being artifact become ruined from the lightning tribulation because of this!”

In the back, a supreme being personally spoke, telling his descendant.

If it was himself, he naturally wouldn’t feel any fear, as his strength was there.

However, it was his descendant who carried such a powerful magical treasure. If it got caught up in lightning tribulation, it might trigger some bad consequences, for example, also having to undergo tribulation.

Sure enough, something terrifying happened.

The supreme being artifact shone when it encountered lightning tribulation, releasing rumbling sounds, almost drawing over supreme being lightning tribulation.

Sou!

Multicolored light flashed. A supreme being in the distance collected the magical artifact away.

“Dao friend, you crossed the line. Are you going to interfere in the younger generation’s battle?”

On the great dao chessboard, Meng Tianzheng spoke. Moreover, in his surroundings, immortal artifacts shone, for example, the Immortal Ancient War Banner, Ten Realms Diagram, and others, all of them rising and falling, about to smash their way over.

That supreme being trembled, not attacking again.

The expression of that descendant was pale, quickly backing up.

However, he wasn’t faster than Shi Hao, being caught up to. Huang descended with lightning, even if he was at the Self Release Realm, right now, he still couldn’t stop this type of attack.

Pu!

This creature screamed miserably, entire body scorched black, and then exploded.

Shi Hao didn’t stop, charging into the distance to stop the archer and other creatures.

This was definitely a one-sided massacre. When the other side’s young cultivators saw Huang display vicious might, ending up in a difficult situation, they all couldn’t help but move out of the way, start running for their lives.

It was because first, that heavenly tribulation that was extremely terrifying, and secondly because Huang had already advanced to the level of Self Release Realm, currently vicious and terrifying, unstoppable in his generation.

Chi chi chi!

The divine arrow was like rainbow light, space shattering sounds continuous, heaven and earth shattering, terrifying to the extreme.

Hong!

Shi Hao arrived. This was the great desert, even though it was vast, there weren't many places to hide. That Self Release Realm great archer was caught up to.

During this process, he continuously drew his bow, divine arrows like rainbows, shooting towards Shi Hao. Every single arrow carried dazzling brilliance, caused by the release of great dao laws!

Each of the arrows was extremely powerful, terrifyingly strong. Normal people couldn't stop them at all, would immediately be shot through by the arrow!

This was especially the case when this was a great cultivator who had some Emperor Clan blood. If he shot at someone who had lower cultivation time and a lower cultivation level than himself, it would simply be slaughter.

Wei Family's Four Phoenixes' young ladies, Yi Yi, and the others all died because of this.

Even someone as powerful as Shi Hao, whenever he blocked with his arms, he would feel a slight numbing feeling, one could see just how extraordinary this person was.

After all, this was the descendant of an Emperor Clan. Even though his bloodline wasn't pure, coming from a branch family, one could still see how extraordinary this person was.

Hong!

Electrical radiance flickered about. Shi Hao got closer, some lightning already covering the world ahead.

It was a pity, this powerful individual was caught up to by Shi Hao, the bow unable to display its power anymore.

"Kill!"

After an intense clash, this creature rushed over, going all out against Shi Hao. Only, for him, this was definitely a disaster, because Shi Hao had already ascended into the Self Release Realm.

In the following exchange, a pu sounded. Shi Hao's fist struck through his body, as if an arrow tore through his body, making him explode.

This vicious person was killed by Shi Hao!

"Self Release Realm, one of the ten great archers was actually killed!" In the other side, a group of people were moved, all of them furious.

However, Shi Hao was now a Self Release Realm cultivator, who could stop him?

Shi Hao slaughtered his way over, bringing heavenly tribulation along with him, carrying lightning. He released endless light, rushing at Hao Feng again, wishing to kill this person.

Of course, during this process, he himself didn't have it all that easy either. This was but heavenly tribulation, boundless lightning. It blasted all of his body's flesh and blood until he was scorched black, hacked to a miserable state.

Shi Hao was this ferocious, truly shocking everyone, making the vicious pursuers from the other side all stop, all of them escaping.

Right now, he was a god of slaughter. He cut off Hao Feng's path of retreat, wishing to fight him until one of them died!

"Enough!"

In the distance, someone shouted. This was a supreme being, his voice like thunder, roiling out, shaking the heavens.

The younger generation all trembled. Supreme being aura spread, suppressing the great dao of heaven and earth, making everyone's souls tremble.

"This battle is destined to be decided by supreme beings, you all can back down." This was a foreign supreme being who spoke like this.

No one in the younger generation could stop Huang. This left him displeased.

Even though Hao Feng was extremely strong, now deciding victory or defeat with Huang, they had misgivings, feeling worry, scared that he would also fall in battle here. If that happened, then there really would be no one in this generation who could match Huang.

"Just withdraw."

Even Meng Tianzheng spoke up. Even though he was competing in the great dao chessboard, he was also still paying attention to the battle outside.

Imperial Pass' young cultivators all withdrew. This time, even though they killed Suo Ming, as well as a branch family Emperor Clan and others, accomplishments astonishing, they still paid quite the price.

"When supreme beings fight, how can you all act recklessly! Silence!"

Right at this time, another supreme being spoke. He raised his hand, fiercely pressing towards the sky, actually wishing to end Shi Hao's heavenly tribulation, blast it away.

This was something that had never happened before!

Who dared do this? Who could be like this?

The heavenly tribulation couldn't be touched, because even the most powerful might end up inviting trouble on themselves, triggering a heavenly punishment that was on their level onto themselves!

However, something shocking happened. The heavenly tribulation really was going to be subdued, lightning radiance becoming lessened.

Hong!

However, towards the end of his suppression, a world-shaking great sound erupted. His arm became scorched black, blasted away.

Perhaps it could be said that he quickly severed karma, ending the connection, avoiding it himself. Otherwise, he really might have invited trouble onto himself.

It was because in the void, there was actually another lightning pool that appeared, dark red colored, simple and deep, making one feel great fear.

“Heh!”

An Emperor Clan supreme being released a light sneer, carrying an expression of ridicule.

“Younger generation, leave this battlefield!” This supreme being spoke, coldly looking at Shi Hao.

Hong!

In the skies, explosion sounds rang out continuously, countless meteors sounding, falling into the great desert. There were many star remains that remained after being burned!

Immortal Wang descended, in his hands a head, directly throwing it onto the ground.

This immediately triggered cheers from Imperial Pass’ side, erupting at once.

Immortal Wang fought in outer space, killing a supreme being, extremely strong. He won.

“Only a single fight remains, then, there will definitely be a calamity filled with blood. Have you all prepared yourselves?” An Emperor Clan supreme being spoke, standing there, coldly looking over, staring at Imperial Pass’ people.

Meanwhile, on the great dao chessboard, there was another Emperor Clan supreme being who faced Meng Tianzheng. He produced a great dao chess piece, the competition reaching its climax.

“I will personally take action, kill you all one by one. Lets see who among you can still live!” The Emperor Clan supreme being who just spoke walked up, pressing forward himself.

The following scene left everyone anxious, making them tremble in fear. It was because an old supreme being from Imperial Pass accepted the challenge. However, in the end, he was no match. Even though he slaughtered his way over into outer space, using forbidden methods, even making his own supreme being magical artifact explode, he still died.

In outer space, Heaven’s Cry happened, a rain of blood pouring down!

Then, everyone saw a rain of blood pour down. Afterwards, a rain of scarlet blood burned in the heavens, everything becoming quiet once more.

Hong!

On the great dao chessboard, Meng Tianzheng was surrounded by symbols, producing unmatched natural laws. He carried an austere energy, taking action with full strength.

Just now, he wasn't able to prevent a tragedy from happening, because the match was reaching its climax. Now, he erupted with anger.

Pu!

On the great dao chess board, blood flowed out from that Emperor Clan supreme being's mouth. His body staggered, almost falling over from his seated posture.

"I already said that I would give Imperial Pass one last chance. While your Meng Tianzheng confronts our side's supreme being in a great dao chess match, the Nine Heavens' supreme beings will fight with us, using victory or defeat to decide Imperial Pass' fate. Unfortunately, you all lost two of the three supreme being battles, already lost."

The Emperor Clan supreme being who killed Imperial Pass' old supreme being walked up, carrying a bloodiness. When his cold eyes opened and closed, it was as if immortal swords shone, extremely piercing.

"Now, everything can end." He said coldly.

"Isn't it a draw? I have already suppressed him!" Right at this time, Meng Tianzheng stood up, while the supreme being on the other side of the great dao chessboard couldn't move, blood dripping out from the corners of his lips.

En? Victory and defeat had already been decided? This was extremely shocking!

"Four battles had already been carried out, two victories and two defeats." Meng Tianzheng said.

"Is that so? Then let's continue fighting. There is no need to wait any longer, we'll just decide life and death, slaughter all of you!" The Emperor Clan supreme being with bloody hands said coldly.

He walked forward. The other supreme beings also moved, surrounding over.

It was clear that this wasn't the time for one on one matches anymore, instead directly entering a bloody battle, carrying out the final attack. n.-O))o))e)(L/-B))l((n

"You all are only a few individuals, how can you all resist? Are you going to use immortal artifacts? Fine, everyone, let's join our strength, perhaps we can wipe out Imperial Pass!" A supreme being on the other side said coldly.

The situation was dangerous. Imperial Pass' people weren't many, now, only Meng Tianzheng, Immortal Wang, Jin Taijun, and one other old supreme being remained.

"There aren't enough people, we cannot fight!" Jin Taijun said.

What were they supposed to do? Imperial Pass, on the city walls, many people's hearts were pushed up to their throats.

"We came late, please forgive us!"

Right at this time, voices sounded from within Imperial Pass. Multicolored light erupted, some people leaving the pass, arriving outside the battlefield.

"Immortal Academy's old bastard has arrived!" The elder said in self mockery, carrying powerful murderous energy.

"Sacred academy's old man has also arrived! Seems like I didn't end up coming too late!" Another elder also said like this.

"Today, I am willing to offer my life as sacrifice. This is on the premise that I can drag down two with me!" An old woman also spoke, identity unknown.

There were supreme beings from the Nine Heavens who rushed over, leaving Imperial Pass. All of them were surrounded by symbols that blazed with incomparable brilliance.

They knew that the ultimate battle was about to begin, the most terrifying bloody battle was going to happen, victory and defeat perhaps decided in an instant. This was related to Imperial Pass' survival itself!

Chapter 1672 - Start of the Decisive Battle

In the end, a battle still couldn't be avoided!

The Emperor Clan supreme being whose hands were full of blood was extremely sinister. He was aggressive and forceful, compared to the Emperor Clan supreme being Great Elder fought with, he was much more domineering.

"Kill them all, don't leave a single one behind, wipe them all out! I want to see how Imperial Pass can hold on."

He spoke out, hair scattered about, traces of blood on it. This wasn't from him, but rather from Imperial Pass' supreme being who had died in outer space not too long ago.

Droplets of blood slid off his hair and clothes, burning in the air, turning into the most basic essence energy. Then, it was absorbed by him.

This person's pupils released electrical radiance. He stepped over step by step, the current leader of the other side, commanding the other supreme beings, pressing towards Imperial Pass' people.

"We have already waited for this day for far too long. It is finally time to break through this pass!" The Emperor Clan supreme being said. He was a head taller than most, body strong and vigorous. He began to move, a powerful wind stirring around him.

Meanwhile, around his body, a blazing sphere of multicolored light erupted, and then it began to burn viciously, becoming a resplendent divine ring. It was dark red in color, carrying golden borders.

Moreover, there were star remains among them, for example, heavenly suns, moons, stars, and others, burning, producing wisps of essence energy, entering his body.

Apart from this, between the star remains, there was an elder, his corpse rising and falling, the scene extremely bitter.

This was the old supreme being from Imperial Pass. His body had been blasted through by this Emperor Clan supreme being in outer space, killed, blood splashing everywhere. Then, just like those stars, it was refined.

“Ah, master!”

“Ancestral teacher!”

Imperial Pass, on the city walls, there were people who cried out in grief, howling out loudly.

Everyone’s hearts couldn’t help but tremble when they saw this. It was because around that Emperor Clan’s body, the scene that divine ring reflected wasn’t purely irregular phenomena, but should be things that really happened before.

Immortal Academy’s number one expert arrived, Sacred Academy’s head also came, as well as a mysterious woman. They stood at Meng Tianzheng’s side together, wishing to advance and retreat with him, to live and die together.

Apart from this, multicolored light was shining. Two more people hurried over, a man and woman. Both of them were living unmatched beings from long life families.

“After endless time had passed, it was already determined by many that they had passed away many years ago. Who would have expected that they were still living!”

Inside Imperial Pass, there was an important figure who said this softly, extremely shocked.

“Wu, what last words do you all have? Just hurry up and say them, or else you won’t have the chance anymore.” The other side’s Emperor Clan supreme being didn’t seem to mind. He slowly walked over, forceful and domineering.

In his surroundings, inside the dazzling divine ring, it was as if an expanse of broken cosmos, star remains, supreme beings’ withered bodies, and others rose and fell.

He looked extremely terrifying, as if he was a great demon king who struggled free from his shackles, slaughtering his way out from the nine layers of hell.

In that instant, regardless of whether it was Imperial Pass or the other side’s fighters, many people trembled, pressured under his aura.

“This day has finally come! Just take action!” On Imperial Pass’ side, Immortal Academy’s elder sighed.

“Heheh, this is fine as well. All of you can head on your way, I’ll send you all into the afterlife!” The Emperor Clan supreme being laughed, but it was extremely cold, and also extremely cruel.

Everyone knew that this was going to be a great decisive battle!

The pressure was too great, if they won, then they lived, if they were defeated, then they would die. Even Imperial Pass and the Nine Heavens Ten Earths were going to fall into the other side’s hands, blood flooding into the heavens in this great world.

“Kill!”

A great battle erupted, the most terrifying decisive battle began.

Hong!

They rose into the sky, arriving in the battlefield in outer space!

On Imperial Pass' side, these supreme beings didn't hesitate, activating magical force, immediately activating the immortal artifacts.

In that instant, the Ten Realms Diagram, Immortal Ancient War Banner, Nine Phoenix Furnace, Wang Family's long life war halberd, and others rushed up, all of them smashing towards the other side's experts.

Since this was the final bloody battle, then the final objective was to wipe out all of the enemies.

What one on one battle, fair confrontation? Both sides no longer had so many considerations, only wishing to slaughter all of the opponents.

On the other side, it was naturally like this as well. They immediately activated those magical artifacts, for example, the Heaven and Earth Pouch, damaged hammer that carried lightning power, bone blade, and other things.

These things released immortal light, immediately rushing out powerfully, shaking up outer space. Great cracks were everywhere, quickly extending, tearing apart the star dome.

Honglong!

Immediately afterwards, there were stars that exploded one after another.

This was a world collapsing battle, the effects far-reaching and profound.

In the great desert, both sides had' observers, the youngsters who didn't have the qualifications to take action, their faces all became pale.

"How powerful!"

In the distance, there was even more so a war chariot, the young undead knights who came from Burial Region. They watched this battle from the side, carrying sighs, quietly commenting.

Life or death struggle, this bitter great battle had begun.

Everyone knew that when these people returned from outer space, that would mean that Imperial Pass' fate was decided. Who would survive, which side would win?

At this time, the other side's cultivators could still be considered calm, but Imperial Pass' creatures were no longer so unperturbed, their faces all covered in cold sweat, nervous and uneasy.

It was because they knew that the Nine Heavens' supreme beings were too few in number, unable to compare to the other side at all. Their numbers were at an absolute disadvantage, everything clearly pointed to disaster!

Hong!

Suddenly, blazing radiance erupted in the skies, raging flames rising, moreover accompanied by terrifying fluctuations.

A sphere of light was released, burning fiercely, immediately filling the sky dome, dazzling to the extreme. A boundless pressure surrounded the world.

“The heavenly sun has exploded!” Someone said loudly.

That was the Desolate Border’s sun. At this moment, it exploded because of the great battle in outer space.

Endless radiance swept out like an ocean wave, sweeping through outer space.

Then, a honglong sounded. The radiance completely disappeared, returning to darkness.

The heavenly sun was destroyed, many stars turning to dust. The world above became empty, heaven and earth sinking into absolute darkness.

However, this type of darkness, this type of pressure, were soon shattered again. It was because the supreme being battle was too intense, the light they released burning the heavens, the radiance soon becoming even more blinding than a sun.

Wenglong! Those immortal artifacts began to enter a deadlocked situation after shaking intensely, as if they were confronting each other, forming a terrifying domain, becoming a world of its own.

“Even though your numbers aren’t great, it seems like you all have some methods as well.” In outer space, the Emperor Clan supreme being’s voice was cold, murderous energy becoming stronger and stronger.

Suddenly, everyone was stunned, because the cultivators on Imperial Pass, through the magical formation and all types of divine lens, saw the battle in outer space, discovering that another two or three people joined their side.

It seemed like the hiding supreme beings in the Nine Heavens Ten Earths all moved, coming here to risk it all. It was because they all understood that once the nest is destroyed, no eggs would be left intact.

On the ground, in the great desert.

That Emperor Clan supreme being who had previously faced Meng Tianzheng continuously trembled at this time. He wanted to break through the seal, but blood continuously poured out from his mouth, unable to stand up.

His entire face became more and more pale, actually igniting his own life. If this continued, he would die soon.

Just how shocking were these methods? Meng Tianzheng actually dealt with an Emperor Clan individual in that chess match!

In outer space, the great battle became more and more cruel, extremely bitter.

Ah...

A roar of grief sounded, shaking up the mountains and rivers.

Even in the great desert, they could hear everything clearly. An old supreme being was going to fall, about to die here.

Pu!

Sure enough, a rain of blood poured down, making heaven and earth tremble.

Of course, the blood evaporated when it was still in the air, not landing on the great desert, or else that would be catastrophic, devastating.

Ah!

Tuogu Yulong roared out, screaming. That was their family's old supreme being, his ancestor, yet he fell in battle just like that.

One could see that the other side's supreme being was completely calm and unruffled, a hand piercing through Tuogu Family's supreme being, pulling his heart right out.

Then, a finger pointed out, piercing through the space between the old supreme being's brows, blood splashing out!

"Emperor Clan, there's more than a single Emperor Clan!"

Everyone's faces turned white, almost in despair. They couldn't bear to watch any more. How could they still dare look into outer space?

Apart from the Emperor Clan individual who fought with Meng Tianzheng, another appeared. Was there a third one who was fighting right now?

The most bitter scene arrived, making everyone feel dispirited, shadows looming over their hearts. It was hard for them to hold onto hope.

"Kill!"

Meng Tianzheng roared out, his head of black hair dancing about, carrying vicious energy and unending flames. His fighting spirit erupted.

In his surroundings, symbols covered everything densely, all types of the most powerful divine abilities used, fighting bloodily against that Emperor Clan. At the same time, he also attacked the surrounding creatures.

Imperishable Scripture, this made Meng Tianzheng's palm sparkling and dazzling, sweeping through the world. It was powerful, actually blasting aside the Emperor Clan, struggling free.

Hong!

The world collapsed, the battlefield in outer space was shattered.

Meng Tianzheng didn't hesitate to pay the price, spitting out a mouthful of blood, turning it into symbols. It covered his hands. He attacked murderously in a direction.

An intense clash happened, a bitter fight breaking out. He blasted a supreme being to pieces, turning him into a rain of blood, bloody mist scattering.

“Hand over your life!”

The Emperor Clan supreme being who took action against Meng Tianzheng before roared out, feeling like he was greatly humiliated. Even under his suppression, Meng Tianzheng could actually kill someone.

“Just the struggle of a trapped beast. Even if you fight with everything you have, in the end, it will still be hard for you to change anything.” The other side’s Emperor Clan supreme being said.

Weng!

Immediately afterwards, a great bow that carried blood as well as vicious energy appeared at Meng Tianzheng’s side. The bowstring rang out, shaking the sky dome.

It was because the immortal artifacts were clashing, tangling about each other, now couldn’t be controlled by them anymore.

This was Meng Tianzheng’s magical artifact, following him ever since he was young. It was filled with endless murderous energy. However, in the end, because something unexpected happened when Meng Tianzheng walked the path of body as the seed, at the final step, body and dao almost erased, this great bow had remained silent for many years, never appearing again afterwards.

Only in this age when they had to fight a great battle against the other side in Desolate Border did it reappear once more.

Honglong!

That bowstring was too terrifying, like thunder, shocking everyone nearby.

Meng Tianzheng drew his bow, using natural laws as the arrow, shooting at the surrounding creatures.

Chi!

The divine arrow was unmatched, murderous energy without equal!

In that instant, the other side’s creatures were horrified. Meng Tianzheng was fighting against Emperor Clans, yet he still had the chance to shoot at other supreme beings.

Pu!

Someone was struck, instantly exploding to pieces, primordial spirit turned into a rain of light. He was directly shot through, dying.

This type of power shocked everyone. Was Meng Tianzheng a war devil? Right now, his body was covered in golden armor, great bow in hand, about to shoot down the dome of heaven itself.

“Meng Tianzheng, you are courting death!” The Emperor Clan expert shouted coldly, attacking crazily.

Dang!

Meng Tianzheng's arrow shot at him, making the weapon in his hands shake greatly, his arm even becoming numb.

Then, another arrow flew over, piercing through heaven and earth. With a pu sound, the Emperor Clan expert's shoulder was shot through. Even though it wasn't fatal, it was still extremely terrifying.

Ah...

The Emperor Clan supreme being roared, shocked and furious. His shoulder exploded, blood flowing out in a long stream, half his body dyed red, making him stagger backwards.

This battle, regardless of who ends up winning, I will still make sure your blood splatters across the starry sky. You will pay the price!" Meng Tianzheng spoke, becoming even more vicious and terrifying!

Pu!

A dazzling rain of blood blossomed. In the distance, another supreme being died. This one was from the Nine Heavens, dying in outer space.

The battle was too intense, everyone's eyes becoming red from slaughter. Many supreme beings were fated to die in this battle, it was going to be extremely terrifying.

Everyone knew that the great battle would end soon. A cruel result was going to descend soon.

Chapter 1673 - Chaos Calming Art Unable to Calm Chaos

A bitter battle, miserable confrontation was currently playing out in outer space.

Peng!

In outer space, a figure flew backwards, entire body covered in blood. The entire sky was brilliant, scarlet blood dropping, making the stars and others collapse.

In this region, there were star remains and meteorites everywhere. Many stars were crushed to pieces, dazzling like fireworks.

Imperial Pass' experts fought the other side's supreme beings in a bloody struggle, this was the most bitter battle.

First, the other side's supreme beings were exceptionally powerful, all of them formidable opponents, and second, the other side had more experts than Imperial Pass, surrounding them like a pack of wolves, killing intent overflowing into the heavens.

Under the starry sky, an Imperial Pass supreme being was sent flying, and was then caught up to. The enemy had a precious pestle in hand. Following a hong sound, blood splashed out.

That supreme being was seriously injured, entire body covered in cracks. There were some parts like the shoulder blade that directly exploded, flesh badly mangled, his body taking serious damage.

"Imperial Pass will definitely be destroyed today!"

"Before then, Imperial Pass' most powerful individuals will be slaughtered clean first!"

This was the cold voice of a foreign supreme being, voicing his resolution. He revealed a cruel and merciless expression, not giving Imperial Pass' creatures any chance.

Blood splashed out. The Nine Heavens' supreme being who was struck by the pestle suffered another deadly blow from the back. A sparkling blue war spear flew over from the darkness, incomparably dazzling.

It dispersed the darkness, the sharp spear tip entering that supreme being's body with a pu sound.

"Ah..." This supreme being roared out. He had no way of dodging at all, because there were too many enemies here. Just now, there were at least two or three who attacked him.

He was bound in natural law chains, tied up, shackles around his body. When moving through the void, it was extremely difficult, which was why he couldn't evade.

Pu!

Then, a snow-white long blade hacked over, removing his head, destroying his primordial spirit. Another supreme being died here.

Imperial Pass' most powerful experts were all in dire straits, surrounded and attacked, in danger. There was a chance that they might die at any time.

Meng Tianzheng was extremely strong, but he was attacked by someone. The Emperor Clan supreme being personally took action, other experts also helping him, wishing to seal him.

Originally, Meng Tianzheng's divine arrows were sky shocking, continuously shooting down enemies, creating a terrifying disturbance, but now, he was suppressed, his situation unfavorable.

"You are extremely strong, but what is the use? Can you defy the heavens in these starry skies?" The Emperor Clan supreme being said coldly.

"Arrange the formation, refine him to death!" He ordered.

In the surroundings, great banners appeared one after another, some of them earthen yellow, raging flames blazing, some black, releasing endless mist, some scarlet, a bloody aura surging...

A great banner fluttered about. Under rumbling sounds, even the surrounding stars were crushed, the scene terrifying.

Streak after streak of light shot over, rushing out from the flag surface, flying towards Meng Tianzheng in the air. They turned into order and regulations, carrying out a suppression, wishing to seal him here.

Even if Meng Tianzheng was strong, he was still trapped by the supreme being, sealed in the great formation, powerless to reverse the situation. He could only watch as Imperial Pass' cultivators fell, unable to help.

"Suppress! Seal him to death here!" That supreme being expert personally took action, inviting the others to move together, further restrain Meng Tianzheng.

One could imagine just how strong Meng Tianzheng was, for even the powerful and arrogant Emperor Clan to ask others to help him, seal him together. Once this type of accomplishment spread, it would definitely be shocking.

However, right now, it was useless. No matter how glorious he was, if he was cut down here, it was still meaningless. Meng Tianzheng's strength was something everyone could see, but if he died, then all of this would amount to nothing.

Right now, the most important was killing the enemy, wiping out all of the other side's experts.

"Kill!"

"Kill!"

The situation was extremely bad. In the distance, a supreme being roared in grief. This was an expert from the Nine Heavens, now attacked, clearly unable to hold on.

Peng!

In the end, he exploded in the sky, smashed into a bloody mist by a wolf teeth club, crushed bones flying in all directions, everything dyed in red.

How could it be like this? Imperial Pass, on the city walls, everyone's eyes felt like they were splitting. They stared at the bone mirror in midair, watching the great decisive battle through it.

Everyone felt like their bodies were going cold, the last bit of hope within them even gone. Imperial Pass' side was clearly losing, about to suffer a crushing defeat.

If those supreme beings couldn't be stopped, then Imperial Pass was next. Once it was broken through, blood would inevitably flow like rivers, corpses piled up like mountains.

The great battle in the heavens was bitter and miserable.

From time to time, supreme being blood flew out, some great stars even becoming dim from being soaked, and then about to be destroyed.

Imperial Pass cultivators fought a great battle against the other side. There were countless lights around Immortal Wang. Right now, he was suppressing his opponent, occupying the advantage.

"En? Kill him!" The other side's people noticed this, quickly offering assistance.

One in the front, one in the back, two great experts pressed over, powerful winds sweeping about. Great black winds swept about in the sky dome, terrifying to the extreme.

Immortal Wang was extremely delicate and handsome, looking like he was only sixteen or seventeen years old, ridiculously young, but he was definitely terrifying right now, and also extremely dangerous.

The battle's results were unexpected. Under the attacks of the two great experts, he used an unmatched extreme art, slaughtering out dazzling brilliance!

A sword core flew out from between his brows. Dark light flickered about, entire body pitch-black. This was formed from his primordial spirit, sturdy and imperishable, nothing it couldn't pierce through. In that instant, it cut through the sky dome!

Pu!

This sword appeared too abruptly, and it was too fierce. It tore through everything, nothing able to stop it.

The head of the supreme being who fought with him was immediately cut open, primordial spirit destroyed. A large expanse of blood spilled out, corpse falling down from the starry sky.

In the back, the other expert was shocked. One of them was killed even after they joined together?

His entire body went taut, inwardly shivering. He sensed that he was in danger as well. It was because suddenly, his body couldn't move, as if it was sealed.

Pu!

That black sword core flew over, cutting him in half, completely killing him, primordial spirit disappearing.

This battle shocked everyone in the surroundings. The other side's creatures were alarmed, all of them looking over.

"Chaos Calming Art!" Someone cried out.

They couldn't help but become shocked. It was because it was one of the ancient era's three most powerful sword arts, known as one of the most powerful killing methods!

Immortal Ancient had experienced much chaos, many years ago, there were already clashes with the other side.

During Immortal Ancient times, there were people who displayed the Chaos Calming Art, attacking the other side, killing undying kings, shocking an entire era. The other side's vicious scouting attack was stopped.

Unfortunately, after that battle, the one who displayed the Chaos Calming Art was seriously injured, and then ultimately perished.

"Heh, it really is the Chaos Calming Art, the extreme sword art that has killed an undying king! Just hand over your life!" Someone said with a low roar. A foreign supreme being slaughtered his way over.

The so-called Chaos Calming Art's reputation was too great, previously shocking all of Immortal Ancient Era.

Immortal Wang fought bloodily. Right now, he had to go all out. The other side already clearly displayed their attitude, they were going to wipe out all of Imperial Pass' supreme beings, eradicate the upper levels, and then break through Imperial Pass.

Hou!

Immortal Wang released a great roar, his head of hair fluttering about. Even though he looked young, the expression in his eyes immediately became incredibly fierce. Before the space between his brows, a black sword core appeared, shining with him.

“Kill!”

No one dared look down on him, suspecting his strength. It was because he dared compete with Meng Tianzheng before, both from the same generation, never losing to the other side.

When these two were mentioned, most regarded them as equals, believing that they were a pair of generation oppressing heroes, valiant and unmatched.

Of course, there were some who believed that Meng Tianzheng’s blood energy wasn’t powerful enough, might not have as much potential as Immortal Wang.

It was because Immortal Wang truly was extremely heaven-defying. The reason why he was so young wasn’t because he purposely altered his appearance, but because he had previously undergone a rebirth, living another half life.

He was just that close to living another whole life!

This type of rebirth was to completely recover one’s youth, one’s body and mind both restored to their golden years.

As long as one didn’t achieve immortality, then there was no chance of long life. They lived from the start of the great era until now, their lifespans originally already drying up, so they needed to live a second life.

However, from past until now, how many people could achieve this? It was as rare as phoenix feathers and qilin horns, something that couldn’t be seen!

Of course, there were some who believed that Meng Tianzheng was too pitiful. When he was young, he was unstoppable, no one able to match him, but he insisted on walking the ‘body as the seed’ path. Unexpected things happened, leading to him becoming half crippled, affecting his accomplishments.

The damage towards one’s great dao would affect them for their entire life!

Otherwise, many people believed that Meng Tianzheng would be even more terrifying right now, difficult to imagine what type of heights he would reach.

“Kill!”

Immortal Wang roared. His sword core was pitch-black, not larger than a palm, but it was unstoppable. This was a sword core made from a primordial spirit, known to be able to cut through everything.

Pu!

Right when they were surrounded and attacked from all sides, he killed another supreme being. The black sword core was dyed in blood, the skies trembling as a result as well!

Immortal Wang displayed might, continuously killing the enemy, making all of the other side’s supreme beings reveal hostility.

“Chaos Calming Art, just how distant of a memory was this? Back then, it had previously killed the kings of my side. This type of inauspicious inheritance is destined to be eradicated!”

The Emperor Clans were alarmed. The Emperor Clan individual who previously killed Tuogu Yulong’s ancestor remained calm and unruffled, slowly walking through the starry sky, heading towards Immortal Wang.

Behind him were other supreme beings, wishing to kill Immortal Wang.

“The Chaos Calming Art won’t be able to calm the chaos again!” That Emperor Clan shouted, eyes deep. He personally took action, slaughtering his way towards Immortal Wang.

Hong!

A world shocking battle erupted. The Emperor Clans’ fury shook heaven and earth. Immortal Wang continuously killed the other side’s supreme beings, making this person’s killing intent overflow into the heavens. The Emperor Clan supreme being wanted him dead.

Chapter 1674 - An Unchained War God

It was clear that Imperial Pass’ side was in a state of emergency. The two great experts Immortal Wang and Meng Tianzheng were both targeted, stopped by many people of the other side, about to be suppressed and killed.

The pressure the other supreme beings from the Nine Heavens faced also lightened as a result, because the main force was suppressing Immortal Wang and Meng Tianzheng, temporarily freeing them from a life and death predicament.

However, this was only a momentary easing. As soon as Immortal Wang and Meng Tianzheng died, the situation would be decided, all of them would be wiped out as well.

“Too weak.”

“Kill them all”

One of them said softly, carrying hostility, as well as terrifying fluctuations. He led the remaining supreme beings towards Imperial Pass’ supreme beings in attack.

Emperor Clan!

Imperial Pass’ people felt their hearts almost stop. The most terrifying thing happened. The third Emperor Clan individual appeared, arriving here, in charge of killing them.

The other side moved out just too many experts for this battle. Even Emperor Clans were moved!

Including the one Meng Tianzheng suppressed on the great dao chessboard, this was now the fourth Emperor Clan supreme being!

“So weak, yet you all want to hold on. Not a single one of you should think about leaving.” That Emperor Clan cultivator said in an indifferent manner, not too fast or too slow. He walked over step by step just like that.

However, during this process, terrifying ripples appeared between heaven and earth. When his footsteps landed in the starry sky, it was as if he stepped on water, ripples released. These were great dao symbols.

These symbols were like ripples, spreading outwards, shocking all sides!

Not far out, a female supreme being who came from the Nine Heavens was immediately shaken. She suffered an attack, quickly backing up.

Only, not far out, there were still other foreign supreme beings, surrounding her and cutting her off, not letting her run.

“It’s useless. You can head on your way, no one can save you.” The Emperor Clan supreme being said. He looked extremely young, as if he was twenty something years of age, but his eyes revealed great changes, definitely lived for an endless amount of time.

At the same time, the ripples beneath his footsteps became even more terrifying, spreading outwards. The ripples became increasingly intense like thunder, shaking up the surroundings starry sky.

The old female supreme being who had long been seriously injured, almost dying in the decisive battle staggered, blood spurting out of her mouth.

On her white hair, there were many blood beads, some from the enemy, but also blood from her own injuries. She was on the verge of collapse.

Pu!

Eventually, as that Emperor Clan individual pressed forward, the female supreme being actually coughed out a large mouthful of blood, face pale, about to collapse in the starry sky.

How could this be? This left everyone greatly alarmed. Was the Emperor Clan really terrifying to this extent?

“That’s the Immortal Trampling Nine Steps! Be careful!” In the distance, an old supreme being loudly reminded.

On Imperial pass’ side, all of the supreme beings’ ages were great, all seniors who had survived from various eras. Unfortunately, long life was already impossible, now all reaching great ages, blood energy dried up, no longer at their peak states.

“It is useless. Once the nine steps are taken, you all will be sent on your way.” This Emperor Clan supreme being calmly said, continuing.

Immortal Trampling Nine Steps, one could imagine the power just from the name alone. This was a world shocking extreme art.

“Kill!”

The female supreme being roared out. She knew that the situation was extremely bad, that she had to go all out. Otherwise, she might not have the chance to take action again.

In that instant, endless streaks of multicolored light shot out, auspicious radiance filling the heavens, drowning many star remains. This place became extremely brilliant.

That was the female supreme being who took action, resisting the Emperor Clan expert.

Unfortunately, in the end, it was still too late. She was seriously injured to begin with, so when she faced an Emperor Clan's full powered attack this time, she was clearly no match.

"Fifth step, sixth step..."

That Emperor Clan was counting his own steps, counting out loud. When it reached the eighth step, heaven and earth collapsed, divine light roaring out like a sea, blasting away all of the female supreme being's precious techniques.

Moreover, ripples spread below the starry sky, incomparably intense. The female supreme being was shaken until she continuously coughed out blood, body covered in cracks. This was the result of great dao rippling out, suppressing everything.

Peng!

Then, the female supreme being's body was cracking apart, many areas exploding, extremely miserable.

"Just head on your way!"

The Emperor Clan expert said, incredibly cold. A demonic blade appeared in his hands, scarlet red like blood. With a weng sound, it was brandished, hacking outwards.

Even though the female supreme being resisted with everything she had, in the end, she still couldn't change much. With a pu sound, her head flew outwards, primordial spirit completely erased.

This was extremely shocking, intimidating everyone.

"There aren't many left. All of you can go on your way!" The Emperor Clan supreme being said, cold and ruthless, looking down on those who remained.

Ah...

In the distance, a great howl sounded. Meng Tianzheng was trapped within the formation, struggling intensely, wishing to break out.

Right now, his eyes were covered in bloody wisps. He watched as supreme beings from the Nine Heavens' side died one after the next with his own eyes,, almost completely wiped out.

They were all old friends, or else they wouldn't be like him, appearing alongside him, sharing the same faith.

He just watched as they died. Meng Tianzheng felt great grief, as if he was a trapped wounded beast. He roared out, carrying grief.

"When can it revive? Just revive, the past war blood!"

Meng Tianzheng lowered his head, looking at that great bow in his hands, saying softly. He roared out, as if he was chanting an ancient incantation, wishing to release something.

Unfortunately, after trying many times, the bright red bow sticky with blood didn't display anything different.

Right now, the Emperor Clan leader and the other experts dealing with Meng Tianzheng displayed force together, smashing towards the formation, wishing to kill Meng Tianzheng, completely end him here.

"The dao accomplishments of a life, nurtured to this day."

Meng Tianzheng's entire body shone, resisting everyone's attacks. If not for him cultivating the Imperishable Scripture's profound meanings, he would definitely have fallen a long time ago.

One had to understand that right now, an Emperor Clan expert led some other supreme beings in refining him. This type of scene was unimaginable!

Meng Tianzheng's figure was powerful to the extreme, only then could he endure the pain of this refinement, withstanding it, not being extinguished.

He stroked the great bow with his hands, extremely gentle, carrying reluctance, as well as a bit of regret. Finally, with a great roar, he went all out, starting to destroy this great bow.

"What is going on?" Everyone was shocked, especially Imperial Pass' experts, who were even more shaken. They were filled with confusion, feeling worry and fear for him.

Meng Tianzheng was destroying his own supreme being artifact!

This bow's origins were too great, already following Meng Tianzheng before he was even known, shooting down powerful enemies under the sky. n(0p**Elb1n**

It was all because something unexpected happened in the body as the seed path, leading him to be half crippled, this bow also becoming half ruined. After that era, it never appeared again.

Now, it reappeared in the world again, power incomparable. Not long ago, it had shot down supreme beings, unstoppable. This should be Meng Tianzheng's most cherished weapon, so why was he breaking it?!

Hong!

Meng Tianzheng used all of his strength, breaking this bow. Drop after drop of blood actually flowed out from within, landing on his body, making him release a low roar. He had a complicated expression on his face, feeling extremely regretful.

Why did the great bow drip out blood?

Even the other side's cultivators were shocked, confused.

"Your dao fruit, your achievements were all inside this bow? No wonder when your body and the bow were destroyed, you didn't die, instead producing great dao life." In the distance, Immortal Wang was alarmed, saying this softly.

Inside the bow were flesh and blood, even bones!

The so-called mountain within a mustard seed, it wasn't much for an expert at his level.

Within this bow was another world!

One could vaguely see a person inside the bow, extremely young. Right now, he was torn apart, broken with the great bow, his growth severed, blood dripping from his entire body.

“The past Meng Tianzheng, the past road, all of it still remains!” In the distance, an old supreme being said with a trembling voice, stirred up and feeling regret, expression complicated.

“Back then, it was even already said that he was ruined, destined to die, yet in the end, he still rose up once more. Turns out he had cut off his ruined body, burying a portion of his true spirit into the bow, sealing it inside to nurture it within.”

“Dao fruit, if it is naturally nurtured, conforming with the true body, the results would be unimaginable!”

A few people guessed at what really happened.

The expressions of some of the old supreme beings from the Nine Heavens were extremely complicated.

They knew that Meng Tianzheng made the final cruel choice. He wasn’t going to wait for the divine core to naturally appear, but rather taking the initiative to break the longbow, forcing him to awaken.

Drop after drop of true blood dripped out, entering his body. Meng Tianzheng’s aura was becoming stronger, a wave of powerful aura spreading in the starry skies, raging about, becoming stronger!

“He... previously wanted to achieve immortality through this type of method?” The eyes of the Emperor Clan cultivator contracted, feeling a wave of alarm. Even though he didn’t know what happened to Meng Tianzheng’s body in the past, now, he could see some clues.

“Hurry, everyone attack together, kill him!” The Emperor Clan expert roared out. He didn’t want anything unexpected to happen.

Hong!

However, it was already too late. A powerful aura erupted. Meng Tianzheng held that bleeding war bow, releasing incomparably terrifying fluctuations. The great formation was smashed apart; he left with a single step.

Dong!

He brandished the broken bow in his hands, smashing it forward.

Pu!

Right at this moment, a supreme being immediately exploded, directly blasted apart, the scene terrifying.

Meng Tianzheng, for the sake of becoming stronger ahead of time, basically destroyed his own future path, making his divine core dao fruit appear before it matured. Blood essence scattered outwards, entering his body.

There was no more brilliance visible in the future. This was a result that made everyone feel pity and regret.

However, right now, his strength indeed increased, as if he was an unchained war god, no one able to stop him anymore. Blood energy surged, about to crush heaven and earth.

Faintly, there was immortal energy that was released, illuminating the sky dome!

“One foot in the immortal dao domain, he is about to achieve immortality?!” The Emperor Clan supreme being was shocked.

At this moment, Meng Tianzheng arrived. When he took one step, it was as if the world turned and stars moved, years changed, space discontinuous, time dancing about.

Honglong! Meng Tianzheng’s fist arrived, while he himself also pressed over, clashing with the Emperor Clan expert.

Pu!

The Emperor Clan expert coughed out blood from his mouth, struck until he flew outwards. He roared out in alarm: “Ah...”

Dong!

The broken bow smashed down. Meng Tianzheng was tyrannical beyond compare, directly brandishing the weapon he personally destroyed, smashing it down on the Emperor Clan expert’s body. The other side couldn’t evade at all.

Peng! Blood sprayed outwards. The Emperor Clan expert’s body was directly broken into two pieces, large amounts of bloody rain scattering outwards.

Meng Tianzheng had one foot into the immortal dao domain, already making a breakthrough at the peak of mortal dao!

Chapter 1675 - Slaughtering Supreme Beings

A tall and slender figure stood there, hair flying about, presence intimidating. Meng Tianzheng already had one foot into the immortal dao domain. Immortal light erupted, aura devouring mountains and rivers, incomparably valiant.

After he made it out of the great formation, he directly killed someone!

The Emperor Clan’s body was broken into two pieces, blood dyeing the skies red. Right now, his soul was trembling, backing up without any regard for the consequences, wishing to escape this disaster.

The two parts of his body both erupted with divine rainbow light, rushing out, not only wishing to escape, but also to piece themselves back together.

However, Meng Tianzheng only gave him a cold snort. Immortal energy pervaded the air, locking down the void. When those two parts of the body rushed up, it was as if they smashed into a wall.

Peng!

Even though the two parts of his body joined up again, when they smashed into that invisible domain, they fell down, covered in blood, covered in injuries.

When had an Emperor Clan individual ever been in such a sorry state?

This person's eyes carried chilliness, within his mind endless flames, feeling extremely sullen. He released a great roar, burning his vitality, displaying the most powerful ancestral method.

At the same time, the surrounding supreme beings also moved, providing assistance.

Weng!

In that instant, nine stars were strung up together. A supreme being grabbed over nine suns with a single motion, flames blazing, carving them into formation cores to subdue this place.

The supreme beings joined hands, attacking Meng Tianzheng together, moreover wishing to seal him in this formation.

It was because they felt that the current Meng Tianzheng was too terrifying, extremely difficult to face, let alone fighting him one on one. They had to trap him with a formation.

Honglonglong!

The others also moved. In that instant, giant stars appeared one after another in the surroundings, pushed over by some massive figures.

The supreme beings displayed their magical projections, becoming as tall as heaven and earth, towering into the starry skies. They made countless great stars spin about, rumble over, drowning out this place.

This was the power of supreme beings. They condensed magical imprints, pushing along the sun, moon, and stars, suppressing this place!

The scenery was terrifying, large amounts of giant stars rumbled their way over. All of them had formation patterns carved on them, forming a great heavenly star formation, surrounding this place.

However, this couldn't change anything.

Meng Tianzheng's eyes were brilliant, not immediately attacking that Emperor Clan cultivator. His body immediately disappeared from his original location.

Pu!

The supreme being who grabbed over nine suns with a single motion was struck by Meng Tianzheng's palm. His entire body exploded in the void, turning into a brilliant expanse of blood!

Meng Tianzheng was too fast. When his body moved, the flow of time itself altered, space even changing. He went all out, his magical force concentrated into a strike, a single palm enough to eliminate someone.

This possessed unimaginable intimidating effects!

Sure enough, the others felt restraining fear, their bodies all becoming a bit sluggish.

Chi!

Meng Tianzheng turned into a streak of lightning, diving towards the supreme being who bore the greatest hostility, targeting him.

Right now, that person held a bone sword in hand, currently aiming it at Meng Tianzheng. The sword radiance devoured hundreds of thousands of li, exceptionally penetrating, just too terrifying. *nOVe-Łb*(In

Shua!

When he saw that Meng Tianzheng was about to attack him, he immediately brandished the bone blade, hacking forward. Sword radiance hacked apart the cosmos, extending who knew just how many tens of thousands of li.

This entire part of space was illuminated!

Dang!

The skies collapsed. Meng Tianzheng held a great bow in hand, sweeping it over, shattering the bone blade. It turned into a rain of light, blossoming in the void, burning.

Ah...

This supreme being roared out. He didn't think that the first strike would already be enough to destroy his weapon. At the same time, his arm was numb, in great pain.

In his surroundings, the most primordial symbols interweaved between heaven and earth, about to refine him away.

Out of all the supreme beings, he was the most extreme, so now that Meng Tianzheng started with him, this was still as a form of intimidation.

"Kill!"

This foreign supreme being shouted, entire body filled with symbols, displaying ancestral methods, facing Meng Tianzheng.

Unfortunately, all of the radiance was suppressed, flowing back towards his body. That type of ancestral technique was released within his own body. With a hong sound, he exploded to pieces.

Scarlet red blood and bright red radiance surged outwards.

In the void, a large hand slowly reached over. Just now, that strike was precisely caused by this hand from Meng Tianzheng, the result of its overwhelming power.

In that instant, supreme beings were continuously killed, moreover in such a dominating manner. The other experts immediately felt a wave of chilliness.

Peng!

The Emperor Clan expert was going crazy. Raging flames burned around him, a pitch-black weapon even more so appearing in his hand. The long spear was cold, carrying dao laws. With a honglong sound, it finally pierced through the restrictions, allowing him to rush out.

However, what was waiting for him was Meng Tianzheng who had finished killing two supreme beings. He returned here, head lowered, currently looking at him coldly.

“Kill him, take action together!”

The Emperor Clan supreme being felt a wave of humiliation. There were still a few supreme beings in the surroundings. Now that they heard his call, they took action together.

One had to know that in the very beginning, he agreed to fight with the Nine Heavens’ supreme beings in a fair fight because he knew that they would definitely win a great victory. Doing things like that would not only make them look strong, it was also a way to look down on Imperial Pass, treat them with humiliation.

However, later on, he suffered from fighting Meng Tianzheng, having to have others lay a formation, trap the other party.

Meanwhile, now, he was even more so going to fight together with the other supreme beings to face the incredibly ferocious Meng Tianzheng. The changes between the situation were just too great.

That was why the Emperor Clan supreme being felt great shame right now. He was scared of fighting, not daring to face Meng Tianzheng in a life and death confrontation one on one, needing assistance.

Weng!

A hand reached over, suppressing forward.

That was Meng Tianzheng’s palm. It carried a light golden color, auspicious light overflowing, brilliance shocking. It was unknown just how many great stars shattered under these intense fluctuations. They were crushed one after another, burning in outer space, turning into blazing radiance.

This type of scenery was extremely terrifying. When the great hand reached over, grabbing at the Emperor Clan expert, the surrounding great stars were all crushed. This really was horrifying.

The Emperor Clan individual resisted, using the most powerful ancestral method, displaying unmatched profound meanings, but he just couldn’t withstand this power!

That hand was unstoppable, blasting through the barrier he set up, scattering his ancestral technique. Meng Tianzheng’s palm carried faint immortal light, grabbing him with a single motion.

Ah...

The Emperor Clan expert roared out, struggling with everything he had here, wishing to break free.

He knew that he was finished. Meng Tianzheng’s cultivation was too high. He already had a foot into the immortal dao domain, already unmatched in the mortal dao domain.

In this cultivation realm, a cultivator half a step into ascending into the true immortal domain was already someone who couldn't be faced. Meanwhile, Meng Tianzheng precisely had one sole already inside!

From a certain perspective, Meng Tianzheng was still going to transform further, carrying true immortal power.

That was why no matter how powerful the Emperor Clans were, they weren't enough before Meng Tianzheng, unable to stop him.

Kacha!

At this moment, Meng Tianzheng was extremely decisive and also extremely ruthless. After lifting him up, another hand grabbed out, directly wringing his neck. Then, a finger pierced through the space between his brows, blood flowing outwards.

Everyone was shocked, feeling a bit stupefied.

That was but an Emperor Clan supreme being! However, he had his neck wrung just like that. If news of this got out, who would dare believe this?

This type of confrontation, this method of death, it could only be said that the difference in strength between the two was too great, even Emperor Clans falling to such a state.

"Kill!"

Meng Tianzheng released a low roar, taking action against those around him. Divine light immediately rushed into the heavens, great dao energy spreading, producing a great threat towards those people.

Pu!

There were some who couldn't evade in time, shaken up by Meng Tianzheng's power until they coughed out blood. Then, they were caught up to, directly killed, blood dyeing the starry skies.

Meng Tianzheng released a long roar, gaze cast into the distance. There was an Emperor Clan supreme being who was fighting with others there, now not that many left. There were some who had been surrounded and killed.

Hong!

An incomparably powerful aura erupted. Meng Tianzheng roared out, "Hand over your life!"

He crossed the starry sky, directly slaughtering his way over, a fist smashing out. It surrounded a creature's body, divine light covering this starry domain, power world shocking.

Peng! That creature was sent flying, coughing out large mouthfuls of blood. Then, his entire body cracked apart, unable to preserve it.

Dong!

At the same time, Meng Tianzheng reached out a finger again. These were the Imperishable Scripture's fluctuations. A streak of light shot out, making that person break apart into pieces, turn into a clump of bloody mist.

"Kill! Attack together! Get rid of him!"

In the distance, there were some who shouted, having the other side's supreme beings attack together.

Qiang! Meng Tianzheng raised the broken great bow, caressing it with his hands, feeling regret, as well as a type of pain. Then, he suddenly raised his head.

He used all of his strength to temporarily piece the longbow together. Then, he fiercely drew it, using natural laws as the arrow, shooting at the incoming figures one after another.

Chi!

Divine light rushed into the heavens, tearing apart the universe. In that instant, an arrow pierced through a supreme being, making him bleed. Then, that divine arrow exploded, ending his body and spirit.

Chi chi chi!

Divine arrows flew overhead. Meng Tianzheng continuously drew his bow, firing out the arrows formed from great dao laws one after another, helping the supreme beings from Imperial Pass out of their predicament, killing the enemy.

Pu!

Blood radiance splashed out, supreme beings continuously being struck. Three or four creatures' bodies broke apart, exploding into a bloody mist one after the other.

"One more step, and it will be the immortal dao. He is so powerful, how are we supposed to face him?" Someone said with a trembling voice. They never expected to encounter someone as powerful as Meng Tianzheng.

Chapter 1676 - Defeating the Other Side's Experts

Xiu!

Divine arrows tore through the sky, supreme beings killed continuously. Blood rained everywhere. For the other side's cultivators, this was completely an utter disaster!

Supreme beings stood at the peak of mortal dao. Even on the other side, they had extremely great statuses. Undying beings all came from them. Those who could reach this height were all the most powerful individuals in a certain part of history.

Hong!

In the distance, a long snow-white blade hacked over, carrying dazzling symbols, illuminating the sky dome.

Ding! Meng Tianzheng flickered his finger, knocking this giant blade aside.

The blade energy was like a sea, boundless energy surging, star remains everywhere. This blade's power was too great.

This was an Emperor Clan's attack, once again stabilizing the situation. He gathered the other supreme beings here to face Meng Tianzheng.

"Heh, it really is a pity. You entrusted your dao fruit to that great bow, but unfortunately, you destroyed it, making it come out ahead of time. This means that you have no fate with the immortal dao in this life!"

This Emperor Clan supreme being laughed, extremely cold, and also extremely heartless, ripping open Meng Tianzheng's greatest scar of regret.

He was already almost about to succeed, Meng Tianzheng might ascend to immortality, yet today, various things happened, ending his long life path. The consequences were extremely severe.

The situation was too terrible. He had no choice, forced to this step.

Meng Tianzheng didn't say anything, instead raising the great bow, walking forward, wishing to kill this person.

It was because this Emperor Clan had previously coldly took nine steps, blasting through a female supreme being, even more so using the long blade to remove her head before everyone.

Meng Tianzheng wanted to kill this person.

Honglong!

Sure enough, this person immediately used the extreme art, the Immortal Trampling Nine Steps, each step more terrifying than the last. His body was sparkling and translucent, shining with wisps of undying light.

That was the blood energy of an Emperor Clan, now raised to the extreme. It boiled in his body, seeping into the surface of his body, surging with boundless magical force.

Heaven and earth shook. When the Immortal Trampling Nine Steps appeared, this area of the starry skies fissured, the heavens collapsing.

"Everyone, lend me a helping hand!"

The Emperor Clan expert spoke. He held a dazzling white long blade in hand. After taking the nine steps, thunder rumbled, blood energy overflowing.

He took eight steps in a single breath, precisely to withstand Meng Tianzheng. He knew that the previous seven steps were useless before Meng Tianzheng. When he killed the female supreme being, he also only took eight steps.

However, when the great dao aura spread, starry skies collapsing, energy surging intensely, Meng Tianzheng remained completely unmoved, standing there. No matter how everything was smashed, great stars exploding, he remained eternally imperishable, only looking at the Emperor Clan expert with a cold gaze.

Right now, the other supreme beings were also shocked. This person was powerful to a horrifying degree after all.

The other supreme beings took action, helping the Emperor Clan expert, activating magic force. Streak after streak of energy poured into that Emperor Clan's body.

Hong!

Right at this moment, he took another nine steps. If it was he himself who took a step out, it would also be a terrifying attack, enough to immediately kill experts of the same level.

It was because even eight steps could accomplish this, let alone the final step!

Meanwhile now, with so many people helping him, lending him a helping hand, it could be said that the supreme beings were joining forces, making the power even more astonishing. n.(o.v/-e(l--b))/l//n

Bluntly speaking, even if a god or buddha came, they would be killed!

Now that an Emperor Clan expert released this attack, it was even more unimaginable. Terrifying fluctuations were released, ripples spreading through the starry sky, rushing in all directions.

Honglonglong!

Large amounts of great stars exploded, becoming cosmic dust, dazzling like a multicolored haze.

This scene was incredibly shocking. However, Meng Tianzheng was still unmoved.

"Kill!"

The Emperor Clan expert shouted. He also moved. When the ninth step was taken, he took another step, rushing at Meng Tianzheng.

Nine steps return to one!

However, this wasn't a tenth step, but rather the ripples produced by the previous nine steps, overlaid together, forming this final attack.

Moreover, this final attack didn't appear from his footsteps, but from the dazzling white long blade in his hands.

One could see nine waves of blazing light surge from the base of his feet, engulfing towards his entire body. Finally, it all gathered towards his right arm. With a chi sound, wherever the long blade passed, heaven and earth were cut through.

This was the ultimate attack, the fatal blow of the Immortal Trampling Nine Steps!

After the nine steps, several waves of power were stirred; this was the true basis of its power.

Dang!

Meng Tianzheng finally moved. He raised the broken great bow, facing the long blade. Not only was he resisting the Emperor Clan's Immortal Trampling Nine Steps, he was also facing the other supreme beings' joint power.

Sparks flew in all directions here, divine force surging, drowning out the starry sky.

It was too resplendent, blade energy linking up the starry sea, vast and boundless, killing everything in its path.

However, today, it encountered an obstacle. Meng Tianzheng's great bow forcibly crushed down on this blade, making it vibrate intensely, shake.

Kacha!

The long blade fractured, and then it exploded. It was like an expanse of flowing light, extremely dazzling.

Pu!

The Emperor Clan expert coughed out large mouthfuls of blood. In addition, his arm was crushed, turned into a bloody paste.

This was the power's recoil. The nine waves of power gathered together to wipe out the enemy, yet in the end, the other side stopped it, instead injuring his arm.

Hou!

At the same time, a long roar sounded from the distance. The Emperor Clan supreme being who was fighting Immortal Wang gave up on his opponent, rushing here to assist the supreme being who displayed the Immortal Trampling Nine Steps.

The two Emperor Clan individuals teamed up, standing together.

Apart from this, the supreme beings of other areas also stopped their battles, all of them hurrying here.

"We have to kill him no matter the cost!" The two Emperor Clan individuals had the same worry, fearing that Meng Tianzheng would make a comeback, so they wanted to kill him together.

It was because Meng Tianzheng's performance was too shocking, his strength powerful to a horrifying degree.

In reality, when one had one foot in the immortal dao domain, they really would become completely different, able to look down on supreme beings.

If nothing unexpected happened, then this type of person would become an immortal.

Unfortunately, he released his dao fruit ahead of time, severing his path forward.

"It is time for this battle to end!"

Meng Tianzheng spoke. He didn't feel dejected, nor did he reveal any grief. The radiance in his eyes was brilliant, rushing forward. The broken bow in his hands shone, releasing overwhelming power.

He didn't think about anything else, only one thing in mind, which was to kill the enemy!

This was especially the case with these two Emperor Clan supreme beings, both of them needed to be killed.

“Kill!”

In the surroundings, the other side’s supreme beings all moved, attacking him.

Without a doubt, with so many people joining together, even if Meng Tianzheng broke out, immortal dao aura around him, it would still be hard for him to hold on. A pack of wolves can fall a tiger.

However, he primarily targeted the two Emperor Clan individuals, quickly evading, and then attacking ferociously.

When someone of his level erupted with power, going all out on one target, it would definitely be an extremely terrifying thing.

Apart from this, Immortal Wang, Immortal Academy’s elder and others right now all rushed over murderously, taking action as well, sharing Meng Tianzheng’s burden.

“Dao brother, I know you don’t have much time left. Take care, please display your everlasting brilliance wiping out the enemies.” Immortal Wang said, actually saying this. This immediately produced a huge uproar.

Regardless of whether it was Sacred Academy’s elder or the other Nine Heavens’ supreme beings who survived, their expressions all changed. Meng Tianzheng didn’t have much time left?!

Meng Tianzheng chuckled, and then he sighed, erupting with even greater brilliance. He targeted the two Emperor Clan individuals, relentlessly pursuing them.

Right now, Meng Tianzheng was young, and he was also handsome, looking like he was in his golden years. His figure was tall and straight, golden armor covering his body. His expression was resolute, eyes incredibly deep and profound, truly valiant.

He was like an unequalled war god, slaughtering his way forward. Along the way, two supreme beings were killed one after the other. Immortal light swirled about his body, divine force erupting.

Dang dang dang...

The great decisive battle began. Meng Tianzheng went berserk, sweeping through everyone before him.

Finally, he made it over, staring at the Emperor Clan individual who had his long blade destroyed, proficient in the Immortal Trampling Nine Steps. With a pu sound, the longbow was brought down, striking him until he coughed out large mouthfuls of blood.

“I will restrict him. Attack, kill him!”

This Emperor Clan individual was also decisive, not fearing death, actually rushing over, grabbing Meng Tianzheng’s arm with a peng sound. Great dao symbols covered his body densely, wishing to temporarily restrict Great Elder, not hesitating to pay the price of blood, or even death.

The others all attacked, displaying ancestral techniques, bombarding this place.

Unfortunately, they underestimated Meng Tianzheng’s strength. With a peng sound, the Emperor Clan individual’s arm was crushed, and then he was forcefully raised up. With a pu noise, his body was ripped in half.

Meng Tianzheng's body was soaked in blood, looking like a demonic god. He didn't stop, avoiding the symbols and other things that flew at him from all directions, attacking the other Emperor Clan supreme being.

Pu!

Then, this Emperor Clan individual was also killed, body smashed apart by the great bow. Afterwards, a finger even more so pointed out, piercing his frontal bone, killing him in body and spirit.

Meng Tianzheng unleashed a great slaughter, making the foreign experts suffer disastrous losses. When the two Emperor Clan supreme beings lost their lives, the others all fled, no longer fighting this great battle.

It wasn't that they were scared, but rather that they knew that continuing was meaningless, it would only be throwing their lives away.

Dong!

In front of Imperial Pass, in the great desert, smoke and dust overflowed into the heavens.

Figures descended one after the next. Then, they directly rushed towards Heaven Abyss, wishing to escape back to the other side.

This battle couldn't be continued, no one able to suppress Meng Tianzheng. This meant that they lost, moreover suffered a crushing defeat!

In the great Desert, Meng Tianzheng stood there quietly, looking at Heaven Abyss, not chasing after them.

Chapter 1677 - Fall of Glory

In front of Heaven Abyss, on the great desert, Meng Tianzheng stood there alone. A rain of blood poured down from the skies. However, everything ten thousand zhang above the ground and higher was burning, turning into sparkling brilliance.

That was supreme being blood, as well as the irregular scene of Heaven's Tears and others. He killed the powerful individuals through this battle, wiping out the Emperor Clan supreme beings, shocking the heavens above and earth below.

Especially now, when he quietly sat there alone, watching as supreme being blood fell from the sky, turning into a multicolored haze, flowing through the sky, it truly made one's heart tremble.

What kind of glorious battle accomplishment was this? To slaughter the other side's supreme beings until they shivered in fear, even Emperor Clans falling in succession, not daring to fight anymore, fleeing in disorder.

Now, he was the only one who stood there, not moving at all. Blood radiance poured down, scarlet multicolored light flickering about, making this world seem extremely bright.

Someone released a sigh, feeling sorrow for Meng Tianzheng, feeling incomparable pity. This stunning hero was going to disappear from this world just like that?

After this battle, they might never be able to see him again!

It was because Immortal Wang extremely directly and explicitly said that when Meng Tianzheng snapped the great bow, he was making his divine core appear ahead of time. This not only cut off his long life path, it also ignited all of his remaining lifespan. His vitality was going to completely flow out.

There wasn't much time left, which was why he went on such a rampage, slaughtering the enemy until they were terrified, making those strong individuals all flee for their lives.

There was no more sun, it was destroyed in this battle. However, the sky still had light, the multicolored haze like a sunset glow as it flowed past the horizon, dismal and cold.

The hero of a generation was going to come to an end!

This was Imperial Pass' scar, as well as the Nine Heavens Ten Earths' regret. This type of expert actually met this type of end, body and dao about to be extinguished. It truly made one sigh.

"Rebuild Imperial Pass!"

Meng Tianzheng spoke. His back was towards Imperial Pass, golden battle clothes covered in blood, sparkling and translucent. This was glory, as well as regret. His battle accomplishment were world shocking, yet he was going to die.

Now, what he cared about, was still to rebuild Imperial Pass as soon as possible, repair the broken city walls to avoid the other side's supreme beings invading again.

If this city was fully repaired, by borrowing the immortal artifacts' protection, it could be protected, extremely difficult to be overtaken.

The other supreme beings moved, quickly taking action. There were some who grabbed towards outer space, many great stellar remains there, all of them destroyed by this battle.

Immortal Academy's elder, sacred academy's old cultivator, Immortal Wang, and the others all moved, their expressions serious.

Imperial Pass, on the city walls, when everyone learned what happened, many people sighed, feeling bitter inwardly.

"Great Elder!"

"Senior Meng Tianzheng!"

A few people revealed grieved expressions. Not long ago, they were still cheering and full of joy, who would have foresaw that this victory would be so bittersweet? For the sake of killing the enemy, Meng Tianzheng cut off his own path of immortality, moreover, he was going to die.

How tragic was this? Everyone was filled with unwillingness, all of them feeling pity for him, filled with anger and a feeling of injustice. They could only sigh, the heavens were jealous of heroes!

Shi Hao finished crossing tribulation. He stood there, his nose sour, opening his mouth, but found it incredibly hard to say anything.

It could be said that on his path, ever since he entered the Nine Heavens, Meng Tianzheng was his protector. He shielded him from Wang Family's hostility and Jin Family's conflicts, bringing him to secret lands, guiding him along the 'body as the seed' path, showing him endless kindness.

If there was no Meng Tianzheng, it might be extremely hard for Shi Hao to reach this step so quickly.

This path of using the body as a seed, Meng Tianzheng was precisely a great predecessor. In the past, he was extremely close to succeeding. It was because he passed down everything to Shi Hao without holding anything back, moreover bringing him to some secret lands that he was able to succeed!

During these years, Meng Tianzheng even more so saved his life several times.

"Senior, I don't want you to die! There has to be a way!" Shi Hao choked with emotion. After all this time, he hadn't cried, yet today, he just couldn't hold himself back.

He produced Dao Comprehension Tea Leaves, even more so asking Qing Yi, Cao Yusheng, and the others for the things he left behind, for example, the divine level herbs, as well as that immortal medicine leaf he had obtained when fighting over the rotten wooden chest.

He wanted to save Meng Tianzheng, not let him die.

"Properly cultivate, you will go even further than me, your path more wide and long!" Meng Tianzheng calmly said, his back still facing Imperial Pass, looking at Heaven Abyss.

His eyes were extremely deep, staring into Heaven Abyss, intimidating the other side's supreme beings, also staring into the sea of natural laws.

The other side didn't have any supreme beings who dared cross over. They all returned, not daring to step foot over!

In the back, everyone in Imperial Pass moved, refining star remains, rebuilding Imperial Pass. There were others who examined a formation diagram, the Immortal Ancient formation, wishing to restore it.

Many people felt sorrow. The price they paid in this battle was too great!

The old supreme beings from Imperial Pass had pretty much all been killed, while a larger half of those from the Nine Heavens were also injured or dead. After this battle, the number of supreme beings became extremely few.

One had to understand that this was the accumulation of a great era, yet in the end, they almost completely died out.

What made them feel the most regret over was Meng Tianzheng. With his aptitude, his potential, he should be able to achieve immortality, yet in the end, he was about to die, disappear from this world forever.

After this battle, he slaughtered out his glory, shocking Desolate Border.

Unfortunately, he was now going to leave the world, buried in Desolate Border. All of his glory could only be condensed into a final war song, accompanying him to the grave.

Quite a few people's eyes became red, feeling grief for him.

Scarlet multicolored light filled the heavens, sorrowful like the setting sun.

In front of Imperial Pass, only Meng Tianzheng and Shi Hao stood there, far from everyone else.

He was about to die, yet he still stood at the very front, stopping the other side's experts, preventing them from crossing Heaven Abyss.

Xiu!

Suddenly, a streak of chaotic light erupted, turning into an undying divine spear, flying towards the back of Meng Tianzheng's head, wishing to kill him!

This was extremely sudden, shocking everyone from Imperial Pass. Then, their scalps went numb. This was too abrupt, wishing to kill Great Elder Meng Tianzheng!

"Be careful!"

"Senior!"

The chaotic light condensed into a spear, dazzling and brilliant, quickly rushing over, carrying great dao symbols, surrounding where Meng Tianzheng was. It was about to enter through his head.

Peng!

At the most crucial moment, that war spear was actually stopped. It was only half a foot from the back of Meng Tianzheng's head, but then it broke apart inch by inch, exploding there, turning into overflowing divine flames.

"You should have waited a bit longer until I've completely become weak, then you might have had a chance." Meng Tianzheng turned around, his heroic appearance carrying weariness, but it was still intimidating.

It was clear that he had long been aware that there was a supreme being behind him, just that he didn't take action.

When this supreme being fled back towards the other side, he hid in the void, not in a rush to cross Heaven Abyss, wishing to kill Meng Tianzheng at the crucial moment. However, it was completely useless.

"There is not much time left. If I had waited until Imperial Pass was rebuilt, then it would be meaningless." That supreme being sighed.

Meng Tianzheng didn't say anything, only reaching out a hand, grabbing forward. He used the Imperishable Scripture, palm covering the heavens, unstoppable, overwhelming!

Regardless of how this supreme being tried to protect himself, it was useless. All of his ancestral methods collapsed, all great dao symbols ineffective, completely crushed here.

With a peng sound, this foreign supreme being was grabbed. Meng Tianzheng slowly retracted his hand, and then his fingers closed powerfully.

Ah...

The supreme being's scream ran throughout Desolate Border, shaking up the great earth. Yellow waves rushed into the heavens.

Within the blood radiance, in the multicolored haze, this expert was crushed into a bloody mist. It burned fiercely, body and soul obliterated.

Irregular scenes appeared in the world, as if gods and devils were howling, covering the skies like blood radiance.

Meng Tianzheng's right palm struck out lightly, scattering everything.

"Dao friend, have you slept enough yet? Are you going to take action now?" Meng Tianzheng turned around, looking towards a figure not too far out.

There was a creature seated there, bound under divine chains, seated on the damaged great dao chess board. His body was covered in blood, all of it blood he spat out.

Right now, his expression was dispirited, face pale.

This was the Emperor Clan cultivator Meng Tianzheng suppressed before.

When everyone heard this, they were all shocked. He actually broke free?

It was clear that the supreme being Meng Tianzheng killed just now helped this person out, letting him escape.

"I don't have much time left. If I don't get rid of you before I leave, then it will be hard for my heart to be at peace." Meng Tianzheng spoke extremely directly. He was originally going to get rid of this person before he died anyway, to avoid leaving behind any future disasters in Imperial Pass.

"Heheh..." This person laughed. Then, he stood up, breaking all of the natural law chains. His body burned fiercely, divine flames reaching the heavens, flourishing like a sea. He charged viciously at Meng Tianzheng.

At this moment, he used the most powerful attack, not hesitating to ignite all of his vitality, seizing this chance when Meng Tianzheng didn't have much power left to slaughter out a path of life, break through Heaven Abyss!

Honglong!

Heaven and earth burst open!

He attacked ferociously.

Meng Tianzheng's arm unfolded. The broken bow was on his back, but he still made a bow drawing motion. A divine arrow that was brilliant like an immortal sword cut open the world, hacking apart the everlasting.

Pu!

There was no bow in his hands, but an arrow still flew out. It was as tall as the heavens, used as an immortal sword. With a pu sound, this Emperor Clan individual was shot in half.

The expression on this person's face became rigid, heaven overflowing great dao divine flames immediately freezing. His entire body started to split from between the brows, and then break in half.

Then, including the primordial spirit, he exploded with a peng noise, Emperor Clan blood dyeing the skies red.

Honglong!

Meng Tianzheng's large hand covered the skies, collecting all of the blood and bones with a single motion, and then flung it into Heaven Abyss, the remains burning inside.

This time, everything before Imperial Pass became quiet.

On the great desert, Meng Tianzheng stood there quietly, looking first at Heaven Abyss, then back to Imperial Pass. An evening wind swept over, his armor releasing kengqiang noises. His battle intent was still surging into the heavens.

However, his life was about to reach its end. Under the sullen blood-colored multicolored light, under the whistling of the winds, he spent the last of his time.

This was a glorious battle. He intimidated all of the other side's supreme beings alone, seizing peace through slaughter. Now, no one dared take half a step through Heaven Abyss. This was a type of great pressure.

Unfortunately, after this extreme brilliance, he would enter eternal darkness.

Meng Tianzheng didn't move, continuing to stand in front of Desolate Border.

His body seemed like it was petrified, as if he was a war god stone statue.

"Senior!"

"Don't die!"

...

From the rear, sounds of weeping and grief sounded. They all saw him as a god of war.

Chapter 1678 - Brilliance of Immortal Ascension

Meng Tianzheng was about to die. In front of Imperial Pass, blood-colored scarlet multicolored light was dismal and bleak, making everyone feel great emotions.

Many people wept in grief, all of them knowing that he was going to die in meditation, difficult for him to preserve his life.

This was the hero of a generation, yet he still couldn't avoid a tragic fate.

"Senior!" Shi Hao stood nearby. He was choking with sobs, what was he supposed to do? He brought all of the divine herbs, the immortal medicine leaf, and other things over, but Meng Tianzheng shook his head. This was enough to explain everything.

How could this scene not make everyone feel sorrow? After this world shocking battle, they defended Imperial Pass, but Great Elder Meng Tianzheng's path was severed, moreover going to pass on.

The golden war armor was soaked in blood. There was blood from the enemy, but also his own. The end of glory was imminent.

"I only have one regret, which is that I was not able to ascend to immortality." Meng Tianzheng said softly. Originally, there was no way to achieve immortality in this environment, yet he opened up a different path, even almost about to succeed.

However, for the sake of the final battle, for the sake of protecting Imperial Pass, he severed his own glory, abandoning his original glory.

Right now, even though he was glorious and majestic, he couldn't help but feel a bit of regret.

Meng Tianzheng's aura was restrained, life force fluctuations slowing down, no longer that brilliant. It no longer surged endlessly like a sea, now becoming quiet.

"In my heart, senior is greater than immortals!" Shi Hao said. He felt incomparable respect and admiration for Meng Tianzheng, this was something that came from deep within his heart.

"Old friend, where do you wish to go, where do you wish to rest in peace?"

Immortal Academy's elder walked over, wishing to help out his old friend one last time. He was filled with emotions. After knowing each other for a larger half of a great era, now, he had to see him to the afterlife.

Imperial Pass' repair was pretty much complete. A few people hurried over.

"Dao friend, we will see you off!" Someone said with a sigh. Supreme beings came to see him off. They knew that there was nothing they could do to reverse things.

Meng Tianzheng was going to die, no one could revive.

"I don't need a place of burial, don't need a tombstone, I'll just be buried in this heaven and earth, remaining in Desolate Border is fine. This was my last battlefield, so I'll just watch over this place." Meng Tianzheng said.

These words made everyone feel great pain inside.

"To exist with the world!"

Meng Tianzheng shouted. Then, he exerted power, forcing everyone back, moreover activating a great dao divine light, sending Shi Hao away, having him enter Imperial Pass.

Honglong!

At this moment, Meng Tianzheng erupted, entire body shining, as if he was burning, releasing unfading power.

A wave of the most powerful fluctuations rippled out, engulfing the heavens above and earth below. Meng Tianzheng's head of black hair fluttered about, eyes penetrating like electrical radiance. His aura was surging.

From his body, streak after streak of immortal light rose, hazy immortal mist surrounding him, making that place look incomparably divine, as if a true immortal descended into this world!

"Senior Meng!"

On Imperial Pass, everyone was shocked. What was he trying to do by releasing everything he had?

"Dao brother's aura devours mountains and rivers after all, heroiness unmatched. Even without much life left, you still wish to release one final attack, tread on that path of immortality!" Immortal Wang sighed with admiration.

Everyone understood, even though Meng Tianzheng didn't have much time left, he still didn't lower his head, forging ahead bravely, wishing to take his final step, completely become an immortal.

The price was just too great. He was burning the great dao, igniting his vital energy, doing everything he could to break through the hindrance of this heaven and earth's environment, step into the immortal dao domain.

This was defying the heavens!

Everyone knew that he was seriously injured, unable to reverse the situation. Now, he was going all out like this, even if he entered the immortal dao domain, he wouldn't be able to live.

He would only die extremely miserably!

It was because at that time, he would have already exhausted everything.

Since he couldn't live until the day he achieved immortality, then just a moment of glory it was! He would break in with a single strike, prove that he had attained it before, crush this great era's curse, break through the shackles.

Meng Tianzheng was unmatched in valor. Right now, he was brilliant and everlasting, everyone backing up, entering Imperial Pass, unable to approach anymore.

A rain of light flew about, carrying immortal aura, carrying unfading battle intent. This was his will, unyielding, unwilling, his final battle of this life.

He wanted to step into immortal dao!

A rain of light scattered about, immortal ascension light erupting, incomparably dazzling. It illuminated all of Desolate Border, lighting up this world!

Inside Imperial Pass, everyone was shocked.

However, it was regretful. If the divine core within the great bow wasn't damaged, dao fruit not harmed, then he wouldn't be heading down a path to his end heroically, instead naturally achieving immortality!

Honglonglong!

Meng Tianzheng was moving, deriving unparalleled methods, immortal dao aura hazy. The sky was filled with auspicious multicolored light, ascension light covering his body, making this place increasingly mysterious and grand.

It was as if a war god reincarnated, also as if a true immortal revived!

Right now, even though Meng Tianzheng heroically headed towards the end of the road, his aura still devoured mountains and rivers. He released a great roar, shaking up Desolate Border. He was everlasting in the raging flames, brilliant and intimidating.

Honglong!

Meng Tianzheng raised his hand, grabbing great stars from outer space one after another, as well as refining them with magical force carrying immortal dao aura, rebuilding Imperial Pass, quickly completing the restorations.

“Has he transcended the level of supreme being, both feet about to stand in another domain?” A supreme being said in shock, voice trembling slightly.

Not long ago, Meng Tianzheng had one foot in the Immortal Dao Domain, already shocking this age. It was because at that time, he already exceeded the level of supreme being, overlooking the world under the heavens.

Now, did he truly succeed? Did he fully enter that domain?!

However, death was still going to arrive.

This world’s dao fruit was burning within the fiery blaze, ascending the path of immortal dao amidst the brilliance.

Honglong!

Suddenly, Heaven Abyss’ direction shook greatly. The scene was grand, natural law sea surging.

Natural laws poured down from Heaven Abyss, even more divine chains of order descending, submerging that place.

Hou!

At the same time, a great roar sounded from the other side. There was an unmatched expert who was moving. Anlan’s spear as well as Without Death’s great halberd could be seen, both of them appearing in Heaven Abyss.

Previously, Without Death’s great halberd was already here, wishing to open up a path, send over an undying existence, have him wipe out Imperial Pass.

Now, it wasn’t just a single weapon, but rather two or three. They possessed a power similar to a curse, going all out, sending that undying existence through Heaven Abyss.

This was a shocking change in situation!

Kacha!

In the end, there were weapons that cracked apart, even snapped.

They quickly pulled back their hands, unable to continue any longer. If their unrivaled weapons really were completely destroyed, then their preparations for endless time would all be ruined.

Their great dao magical artifacts couldn't be damaged, they still had great battles to fight.

It was because they were deeply aware of Immortal Domain's existence. Right now, they couldn't endure losses that were too heavy.

Imperial Pass, on the city walls, everyone was shaken. They never expected this type of thing to happen at the final juncture. It was extremely dangerous, but the other side still failed in the end!

"Heheh, haha..."

Suddenly, a great laughter sounded, originating from Heaven Abyss.

Right when everyone thought that they had made it through more scared than hurt, a figure walked over. He was staggering, entire body covered in blood and wounds, even bone visible.

It was to the extent where there were many areas where even the flesh came off, bones broken. Parts of this individual's body were distorted, deformed, the result after enduring unsurpassed power.

Hong!

However, immediately afterwards, he straightened his back, standing up, blood energy covering the starry sky, shocking the boundless Desolate Border.

The aura of an undying being spread, the magical force of the most powerful surged. Unmatched divine light erupted, as if the king of peacocks had descended, releasing unsurpassed immortal dao aura.

This was an undying being, he successfully crossed over.

Those weapons' attacks were precisely to protect him, send him through.

The killing intent was bone piercing, this entire world collapsing. It was all because he was standing there, looking over coldly.

An undying existence was overlooking Imperial Pass!

How could this be? Everyone felt as if they fell into an icehouse, chills running from head to toe, feeling incomparably cold.

They all thought that the great battle had ended, that they could have several hundred years of peace. However, who would have thought that at the last moment, an undying existence would cross over.

In Heaven Abyss, natural laws continuously fell from the skies, divine chains of order fully sealing that place. The regulations flourished even more powerfully than before, flaring out.

Without a doubt, there was no way the other side could forcefully break through anymore.

However, an undying being already crossed over! Who could stop him? Who could content against him?!

The undying existence looked at Meng Tianzheng, revealing a strange expression, rather surprised. It was because that person was releasing immortal dao auspicious multicolored light, about to enter a brand new domain.

“Interesting! I will start with you!” The foreign undying being released a cruel smile, pressing over step by step.

When they saw this creature, everyone from Imperial Pass was horrified, minds going dark, feeling great despair.

However, when Meng Tianzheng saw him, he didn’t feel the slightest bit of dejectedness, instead smiling, moreover extremely brilliantly. He carried a war aura that rushed into the heavens, as well as a type of unsurpassed grandeur.

He actually walked forward with large steps, facing him. “Not being able to achieve immortality is a regret of mine. Is this to help me appease my regrets?”

He laughed loudly, his golden war armor shining with glorious heavenly sun-like brilliance, releasing immortal dao light. Even if he died in battle, it would be better than quietly passing away in meditation.

Meng Tianzheng was in high spirits, black hair scattered about, carrying powerful confidence. He was going to face this undying existence.

“A single finger from me can kill you!”

The undying existence said coldly. Moreover, he really did reach out a finger. It quickly enlarged, descending in Meng Tianzheng’s direction.

Meng Tianzheng removed the broken bow. There was still some blood coming out from inside, now landing on his body. Moreover, a body fell out from inside, releasing sinister light.

That was the divine core, his dao fruit?

Hong!

Immediately afterwards, a wave of terrifying aura engulfed heaven and earth, black light drowning out all.

Perhaps calling it a divine core wasn’t enough, it was more like a demonic body that released sinister energy. The dark light covered the universe.

Moreover, Meng Tianzheng himself also began to shine, burning like a heavenly flame, as if ten suns covered the sky. He himself was even more so like a divine core, releasing immortal dao brilliance, eternal and unfading.

Wenglong! The two bodies slaughtered their way over at the same time.

Imperishable Scripture blossomed, shattering the everlasting, revealing the everlasting!

With a muffled dong sound, yin yang divine brilliance illuminated the past, present, and future. Meng Tianzheng and the demonic body both charged at their opponent, blasting that finger aside.

The undying existence slowly pulled back his hand, fingertip numb, a bit of blood falling.

He coldly looked at Meng Tianzheng, saying, "You have some skills!"

"Kill me with a single finger? You alone aren't enough!" Meng Tianzheng said.

Imperial Pass, on the city wall, everyone was shocked. Meng Tianzheng was currently facing an undying existence?

This really was going to break a legend. Was long life going to be revealed?!

At this moment, Meng Tianzheng was divided into two sides, one erupting with divine light, black hair scattered about him, the other sinister and vicious like a world oppressing demonic god!

They were both extremely young, in their golden years, figures tall and straight, heroic and handsome. However, one had black hair, while the other had hair that was white like snow, completely different!

What was similar was that they were extremely powerful, carrying immortal dao power, wearing golden armor. They were heroic and intimidating, unmatched power overflowing.

Meng Tianzheng shouted, "Today, I will advance through slaughter, proceed through this blood bath. My regret in this life will be compensated through you, this decisive battle on the path of immortality!"

Chapter 1679 - Undying

In the ash gray skies, streak after streak of lightning erupted, piercing through the heavens, tearing apart the skies. Meteorites floated about one after another, all of them incredibly massive.

The sky dome split apart into pieces, great stars swirling about, the pressure incredibly great. At the same time, quite a few of them were burning, turning into huge burning spheres, smashing down towards the surface.

Heaven and earth split apart, this was simply like the scene of judgment day!

The great desert was boundless, but it also seemed insignificant.

All of this was only because of two individuals. The brilliance they released covered the skies, sweeping through the heavens above and earth below, making the entire great desert seem insignificant.

"Heheh, haha..."

On the other side, that undying existence shattered this deadlocked situation. He came from the other side, surging with magical force, dao laws rumbling as he walked through the void, presence intimidating.

"I really am looking forward to this. This pure land is just waiting to be trampled on by yours truly!"

Right now, he was unmatched, no one able to face him!

It was because he was an undying being, equivalent to a true immortal, an Immortal Dao Domain expert. In this Nine Heavens Ten Earths, true immortals were already nowhere to be found, who could contend against them?

From a certain perspective, he was this present world's number one expert!

It was because Heaven Abyss severed the connection to the other side, the other powerful creatures couldn't cross over anymore. That place, that world now had no connection with this one. In the boundless great earth, in this Desolate Border, only this single undying being remained!

Meng Tianzheng faced him calmly, not saying anything. However, the rain of light around his body became even more dazzling and brilliant, turning into immortal ascension light.

"Once I kill you, there won't be anyone else in this pure land who could stop me!"

The undying being spoke, extremely cold, but his eyes were burning with greed. He looked forward, as if he could see through Imperial Pass' boundless great earth.

Once no one from the Nine Heavens Ten Earths could stop him, it would mean that during this endless period, he would become its sole ruler!

At that time, all blessings under the sky would belong to him along, perhaps allowing him to breakthrough a step further. This was what he desired!

The so-called blessings weren't the mandates of heaven, nor was it heavenly acknowledgement or anything of this sort, but rather referred to tangible great natural luck.

If, in this great world, he was the most powerful, then the so-called opportunities, the natural luck accumulated through a great era would all belong to him, concentrated on this undying being alone.

At that time, who knows, he really might even make a breakthrough.

"Hahaha..." The undying being laughed loudly, shaking up the entire Imperial Pass until it rumbled with noise, as if it was going to collapse, making everyone's faces turn pale.

Who would have thought that at the most crucial time, an undying being would cross over?!

"Qiang!"

The undying being moved. When his hand raised, symbols interweaved, his five fingers releasing kengqiang noises like Immortal Gold clashing, reaching out extremely quickly, grabbing towards the crown of Meng Tianzheng's head.

He was extremely cold and ruthless, wishing to immediately eliminate this variable, and then reign supreme throughout this realm.

Hong!

Meng Tianzheng erupted with power, not feeling the slightest bit intimidated. Moreover, he surged with fighting spirit, becoming unprecedentedly intimidating. Immortal dao light shone brilliantly, burning fiercely, spreading in all directions.

His body released endless brilliance, standing next to that demonic body, the two as if they could open heaven and earth, forge another great era.

Dong!

The sky dome split apart, the world collapsing, meteorites falling.

The Immortal Dao Domain, without a doubt. Meng Tianzheng used unimaginable methods to raise himself to this level, his magical force ferocious beyond compare.

This wasn't like someone without much life left at all, because his blood energy was too great, strength immeasurable.

"Kill!"

Meng Tianzheng shouted, going all out at this moment, wishing to fight one final glorious battle.

He had a regret, which was that he wasn't able to achieve immortality!

However now, he had a chance to make up for that regret, given a chance to fight an undying being, given a chance to fight someone at that level!

Perhaps, while fighting, he might even truly become a war immortal.

An intense great battle erupted!

There were two Meng Tianzhengs, one with black hair, one whose white hair was purer than snow. Both of them were extremely young, the two slaughtering forward together.

One of them released a fist, the other a palm. There were the Imperishable Scripture's profound meanings within, as well as other things!

The two of them formed the most mysterious combination, yin and yang energies swirling about, merging together, precisely to derive the root of the great dao!

Dang dang dang...

Sparks flew out, heaven and earth breaking about, clashing with the great hand in the air, creating the most terrifying scene. Stars fell one after another.

With a honglong noise, soon afterwards, they rushed into the horizon, arriving in the sky dome above!

"Where do you think you are going?!"

The undying creature chased after him. His pupils contracted slightly, now a bit startled. Previously, a finger stabbed out, that attack failing was one thing.

However now, he reached out a large hand, yet he still couldn't immediately kill the other party. This made him reveal a strange expression.

Chi!

In that instant, the undying creature's entire body became silvery-white, skin as if was actually made of silver. An even more terrifying aura was released; he had no choice but to become serious.

If he suffered greatly because he was careless, then it would be too late to regret.

He already saw that Meng Tianzheng's state was strange, definitely not normal, as if he truly became an immortal dao expert. That was the accumulation of endless time, even more so the result of the resonation with the divine body and mysterious core.

Weng!

The void burst open, the undying creature's entire body silvery-white, including his hair. It actually crashed down like a silver river, pouring down, smashing apart the skies.

Every strand of hair was sparkling, carrying the symbols of the undying being, sweeping towards Meng Tianzheng with incomparable power!

Who dared face someone who released immortal light? The undying creature did precisely this, boldness unrivaled, directly attacking like this.

Peng!

Meng Tianzheng shifted sideways. In that place, the sun truly exploded, burning fiercely, igniting heaven and earth, wishing to burn down the endless silver hair, destroy it.

However, the silver hair was surrounded by the symbols of the undying being, actually remaining unaffected.

On the other side, the body that had snow-white hair which fell out of the bow spat out an expanse of cold underworld flames, precisely the dao symbols of great yin flames.

When the great yin and great yang collided, raging flames surged into the heavens. There were symbols in the heavens above and earth below, all fiery light, the blazing radiance making one's soul tremble.

Wenglong!

In outer space, it was extremely terrifying, unknown just how many great stars were burned down, star remains everywhere, smashing towards Desolate Border.

That type of scenery was shocking. Scarlet stars were being destroyed one after another, exploding, giant falling stars covering the world, appearing everywhere.

This was a great battle of immortal dao level. Just a single movement already created this scene of starry sky collapse.

Chi!

The silver hair covering the skies was retracted. The undying creature revealed a look of shock. Could this opponent now truly be considered a pseudo immortal? This really was strange.

He didn't dare show the slightest bit of carelessness anymore. He gathered his strength, brandished his fists, charging murderously once more.

The attack of the undying being made heaven and earth lose color. Terrifying radiance engulfed the world, sweeping towards outer space. The falling stars and other things that descended all completely exploded, becoming nothing in the void.

Meanwhile, this was merely the result of the side effects of his strike. The true frontal attack, a terrifying vicious great method all concentrated towards Meng Tianzheng.

Peng!

Meng Tianzheng was of one entity, but two faces. The two both took action, facing the other side, releasing the most brilliant radiance. Great dao rumbled, the sky dome collapsing.

However, soon afterwards, Meng Tianzheng flew out, smashed outwards. The two bodies were both like this, blood spurting out from his mouth.

This was precisely the divine might of an undying being, difficult to contend against!

“Even someone like you wishes to contend against me?!” The undying being shouted, silver hair scattered about, entire body snow-white. Metallic radiance flickered about, his aura becoming even more brilliant.

Honglonglong!

Heaven and earth shook intensely, the world beyond erupting with terrifying radiance.

That was his fist radiance, lighting up the universe at this moment. Whenever a streak of fist radiance flew out, great stars would be smashed one after another, becoming the ashes of history.

This was a great immortal dao battle, the world’s most dazzling confrontation, as well as the most dangerous collision.

This area of the starry sky was completely broken down by them, unknown just how many stars were destroyed.

“Kill!”

The undying being went mad, using all of his power. He was scared that something unexpected would happen, so he didn’t hold back at all, fists smashing out one after another.

One could see powerful streaks of lightning shoot into the depths of the universe streak after streak, lighting up the world of darkness, many stars even looking insignificant in comparison; this was the light of his vicious attacks.

Fist power peerless!

Meng Tianzheng continuously backed up, even blasted flying. He coughed out large mouthfuls of blood. This was the first time he faced an undying creature, experiencing just how strong they were.

“Pseudo immortal? Perhaps not! You haven’t obtained the acknowledgement of heaven and earth, never receiving its baptism, not undergoing the heavens’ trial! You are still not enough!”

The undying creature said coldly, magical force becoming even more powerful, as if it was going to wipe out this world!

Meng Tianzheng roared out, all of the armor covering his body like immortal swords, actually releasing zheng zheng noises, killing intent overflowing, erupting with golden radiance, intercepting the other side's fist radiance.

The two bodies were both dripping with blood, and then they rushed at each other. With a honglong sound, they erupted with an incomparable immortal dao aura, magical force boundless and beyond compare.

The two bodies merged into one here!

At this moment, Meng Tianzheng underwent a shocking transformation. There was death energy, thriving life force, as well as primal chaos, even more so immortal radiance, all of this surrounding his entire body.

"Body as the seed, broken path, reappear!" Meng Tianzheng released a low roar.

He couldn't accept this result. His past regret, his present desire, all of it erupted at this moment. There were many gates that were opened within his body, releasing everlasting power.

Immortal ascension light engulfed the heavens above and earth below, his aura becoming stronger. He roared out, "I'll borrow your undying head to compensate for my regret!"

Honglong!

"I will cut down an undying being on my path of immortal ascension!" Meng Tianzheng roared out, killing intent overflowing. Together with world shocking power, he slaughtered his way over, stirring on immeasurable immortal light, smashing it at the undying being.

Chapter 1680 - Timely Inauspiciousness

To cut down an undying being while on the path of immortal ascension, just what kind of boldness was this? It made everyone tremble. The sky dome shook intensely, as if this shaking extended all the way into the heavens above, shaking up this entire realm.

Imperial Pass, on the city walls, many people were watching this battle through a bone lens. When they saw this scene, they were all shaken, filled with emotions.

Meng Tianzheng was going to die in the end. However, before his death, he declared that he was going to kill the undying being, doing this to make up for his regret, but it was obviously to protect Imperial Pass as well, to make one final contribution.

"Kill!"

In the heavens above, an intense great battle erupted.

After Meng Tianzheng's two bodies merged, he rushed out, raising his fists and smashing them over. Immortal ascension light surged, magical force unmatched, exceptionally powerful, not much different from immortal dao creatures.

Peng!

It was just a single fist, yet it forced the undying being back in retreat. They all revealed expressions of shock.

How could this be? The undying being was shocked. This individual before him was too strange, there was definitely something wrong. Could it be that he really achieved immortality through a different method?

Honglong!

Meng Tianzheng condensed a fist imprint, quickly rushing over, each fist more vicious than the last, striking the heavens until even stars trembled. This entire star domain was engulfed under the cover of his fist radiance.

Under the peng peng sounds, in the depths of the distant star domain, stars exploded one after another!

Right now, endless brilliance erupted. Meng Tianzheng was valiant beyond compare. His body was shining, resembling a black hole, devouring the power of those blazing great stars.

Moreover, the light that was released from the stars that exploded all gathering towards him as well, used by him. His fists shone, smashing ferociously at the undying existences.

Under the intense attacks and great rumbling noises, Meng Tianzheng's fist strength was incomparable, continuously smashing over.

His fists were both dripping with blood, blood also falling from the corners of his mouth.

Meanwhile, during this process, the undying being also felt restraining fear. He was injured, with a wa sound, a mouthful of undying true blood sprayed out, immediately destroying a large area of the starry sky.

As for Meng Tianzheng, blood continuously trickled out from the corners of his lips, but he looked like he would never tire, not fearing injuries at all, just continuing his ferocious attacks.

"Kill!"

The undying being was furious, his head of silver hair flying about. His body shone, as if the silvery-white radiance was burning. He formed magical imprints, displaying a type of terrifying ancestral method.

An expanse of undying light erupted from his hand, engulfing Meng Tianzheng.

Where Meng Tianzheng was, yin and yang energies swirled, actually able to break down and neutralize those undying symbols, stop the ancestral technique.

Qiang!

His broken bow reappeared. It was no longer in the form of a bow, but rather two curved moon blades, exceptionally sharp. Just like Meng Tianzheng, they carried immortal light, brilliant to the point where they couldn't be looked directly at.

With a xiu sound, a crescent blade flew out, hacking through heaven and earth, immediately cutting through this entire starry sky. Chaotic energy surged. With a pu sound, while carrying great dao natural laws, it actually struck the undying being, drawing forth a large expanse of blood.

The undying being was entirely silvery-white. He was truly stunned, at the same time, rage surged within him. His body was actually cut open.

Just now, he wanted to try to break this blade, because he already saw that this weapon carried Meng Tianzheng's dao fruit aura, so it definitely nurtured his divine core magical incarnation and others.

Once this weapon was crushed, it would most likely trigger a powerful backlash to his opponent, because this was a weapon that was fostered together with one's life.

However, that weapon seemed to be nurtured by immortal energy, also undergoing a transformation, suspected to now be an immortal dao magical artifact.

The undying being's attempt failed, his arm instead being cut into, blood dripping out.

On Imperial Pass' city walls, everyone was shocked.

He really cut through an undying being? This was like a legend among legends!

Chi!

Patterns appeared on the undying being's body one after another. These were dao laws, as well as the endless potential he released along with his undying power.

The so-called undying existence represented a harmony between body and dao. At this level, there was no need to deliberately display a type of technique, because the great dao had already fused together with them.

Sometimes, just a simple clash of physical strength already represented a type of great method!

Right now, the undying being was gathering his power, ancestral technique patterns distributed throughout his body, divine ability natural laws appearing. It was as if a formation was carved on his body.

Honglong! He slaughtered his way over, eyes deep like small suns. He wanted to quickly kill Meng Tianzheng.

However, Meng Tianzheng was also completely different, immortal light erupting from within him. Gates were opened one after another, the power released incomparable, as if a true immortal who had cultivated for many years was descending into this world!

Why? The undying being was confused. Even if the other side really was extraordinary, there was no way someone who achieved immortality through a different way should have this type of power, right?

Hong!

Meng Tianzheng erupted with power. The gates within his body became the source of power. He activated the two curved moon blades, releasing hazy immortal light, hacking forward!

This was his past will, as well as his regret. He failed within sight of success along the body as a seed path, eventually sealing the divine core. That was his dao fruit, as well as part of his flesh and spirit that had been cut off. He was still walking down this path.

Now, both bodies merged into one precisely for the sake of breaking through, to display the most powerful attack.

Unfortunately, making the divine core appear ahead of time and thus cutting off his future path also made the dao fruit suffer damage. There was still going to be a rebound later, this a path of no return.

This was especially the case when he had just experienced a bloody battle, continuously killing supreme beings, missing the best chance to recover. Now, there was no way of going back.

Qiang!

Great dao collided. Meng Tianzheng was struck flying, blood splashing outwards. He was seriously injured, but the undying being's blood also splashed outwards. He was cut by the two curved blades, flesh becoming badly mangled.

"Body as the seed!"

The undying existence stared at Meng Tianzheng, looking at the shining gates within his body. He recalled some legends, revealing a shocked expression. His face became more and more serious.

"You will not be left alive!" He released a shout, slaughtering his way over again. Both sides fought intensely.

No one expected Meng Tianzheng to be this powerful, truly daring to face an undying being. Even if he fell in battle, this would be a defeat filled with glory.

Pu!

Meng Tianzheng's body was pierced through, blood dyeing the skies. He flew outwards.

Even though the undying being was also losing blood, the injuries weren't that bad. He chased after Meng Tianzheng, preparing to deal the fatal blow, end this battle.

However, at this moment, something terrifying happened. Shocking lightning descended, wave upon wave, immortal light resplendent, immediately submerging this starry sky, vast and boundless.

Meng Tianzheng was currently being submerged under immortal dao lightning.

"He really is going to achieve immortality!" The undying being was alarmed. He backed up a few steps, not immediately rushing in, because he was scared of provoking the most terrifying immortal dao lightning tribulation.

The so-called different path to immortality was precisely becoming an immortal without experiencing a baptism of lightning, the trial of the heavens, yet still had the strength of a true immortal.

However, this type of existence only existed in legends, not many of them from past until now.

It was because once one's strength crossed a certain line, they had to face tribulation, endure the trial. Those who failed would die.

This was impossible unless it was someone who was an extremely special case, due to various reasons unable to achieve immortality, stuck in a special level. However, there weren't many of these individuals throughout history, all of them pseudo immortals.

Now, Meng Tianzheng was no longer in this type of state, forced out of this domain after all, starting to face tribulation.

On Imperial Pass' city walls, everyone was shocked. Was he really going to achieve immortality?

Soon afterwards, a wave of black mist spread, descending from the highest point of the sky dome, covering great stars, surrounding the heavens, everything seemingly losing life force.

What was going on?!

Everyone was stupefied. Wasn't he facing immortal tribulation? Why was there this type of ominous scene that appeared?

Ascending to immortality represented the highest glory, it was divine, auspicious. However, right now, why did this type of deathly still, extremely strange scene appear?

Hong!

The heavenly tribulation was still there, still releasing great noises, but this black mist was also spreading, reaching downwards.

On Imperial Pass' city walls, Shi Hao's body went cold. He developed an extremely bad feeling, recalling some things from the past.

He thought of two people: Ye Qianyu and Mo Wudao. These two had both almost crossed into the Immortal Dao Domain, leaving behind legends.

However, in the end, they both died.

Back then, during the three thousand provinces' struggle, when he entered Immortal Ancient Remains, Shi Hao had captured the divine medicine Void Sky Divine Vine, learning about someone named Ye Qianyu from it, even seeing some imprint fragments through the Void Sky Divine Vine.

In a certain era, Ye Qianyu had encountered this type of thing after crossing tribulation, in the end devoured by the darkness!

Now, this type of thing happened to Meng Tianzheng, leaving Shi Hao horrified!

"No!" He roared out, really wishing to rush into outer space, warn Great Elder to be careful, that he had to make it through.

Immortal Academy's elder grabbed him, not letting him leave Imperial Pass.

In reality, the distance was too great, there was no way he would make it in time. Moreover, there was an undying being, so he definitely wouldn't be allowed close.

Hong!

Immortal dao lightning hacked down, immortal light terrifying to the extreme. Only, that black mist was also descending.

"It still came in the end." Meng Tianzheng sighed. "I broke the longbow on my own, dao fruit revealed ahead of time, but it seems like the conclusion had long been set. The day of immortal ascension, will also be the fall of that immortal."

He believed that if he wasn't affected, he had confidence he could make it through.

Now, there was no chance of living anyway. He only wished to make up for his regret, to step into the Immortal Dao Domain for an instant, that was already enough. Even if he died afterwards, he wouldn't feel any regret.

However, this type of black mist appeared at the crucial moment, the same as the legends.

Perhaps there wasn't even a chance for him to achieve immortality!

"Come, undying being!" Meng Tianzheng didn't pay what was above him any attention, instead throwing himself at the undying being.

At this time, the undying being's expression was strange. He looked at that expanse of black mist, feeling a bit of yearning, but also fear, expression extremely complicated.

"Die!"

Meng Tianzheng roared out, stirring on endless immortal dao lightning, rushing over to fight the undying being.

At this moment, his aura was powerful beyond compare. As he crossed tribulation, it was as if he experienced another transformation, truly achieving immortal dao results.

Hong!

The undying creature actually coughed out large mouthfuls of blood from this attack!
