

Perfect WD 1711

Chapter 1711- Realm Shattering

This great formation covered mountains and rivers, spread over who knew how many li, even the Great Yin River was surrounded within, really quite the big move.

Moreover, all types of divine materials were definitely needed, all of them heavenly treasures. Normal formations couldn't trap Shi Hao.

"You feel that this is extravagant? The backing of a long life family far exceeds your imagination. What can this bit of formation materials be counted as?" Feng Bailing said indifferently.

Yuan Qing also revealed an expression of disdain. Even though he wasn't from Wind Clan, he was quite close to them, coldly saying, "Ignorant and narrow-minded, your wings are pinned, there is no way you can escape death!"

During these past few years, he was always worried and troubled, because Shi Hao truly became a sore point for him. He rose up powerfully, after the final battle in Desolate Border, his cultivation level even exceeded his, so how could he not be scared?

That was why when Wind Clan was going to make a move, he was the first one to step out, willing to be at the forefront, lead the way. He wouldn't be able to feel at ease if Shi Hao wasn't dead, instead constantly feeling uneasy.

"Running dog, stay off to the side! There is no place for you to talk here!" Shi Hao said coldly.

He didn't look at Yuan Qing, instead sweeping his eyes around him, silently sizing up his surroundings. He had to find a way to break out.

"Little bastard, you are dead for sure!" Yuan Qing said hatefully.

It was clearly him who wanted to kill Shi Hao before, continuously targeting him, but in the end, he acted as if he was the victim, his eyes full of resentment.

Some people were just like this, this was their natural nature.

"Huang, I advise you to understand your current situation and just bind up your own arms and legs, follow me into the Nine Heavens, see my family's old ancestor. That way, we can still preserve you with your life intact." Feng Qiang said.

He carried a smile on his face, his words not too slow or too fast. It was because he was now completely relaxed. With the great formation already laid, everything was within his grasp. There was no need to fear Shi Hao escaping.

"What is so special about your old ancestor? The day will come when he will crawl and beg to see me!" Shi Hao had long become annoyed, which was why his words were extremely sharp and impolite.

"Little bastard, your wings are pinned today, there is nowhere for you to run, you are done for!" Feng Bailing shouted. Her yellow goose long skirt fluttered about despite there not being any wind.

At the same time, her head of beautiful hair also fluttered about, her rather fine appearance carrying a callous expression. She vowed to strike down Huang, cut down this youngster before her to get revenge for Wind Clan's genius Feng Xingtian.

Shi Hao was full of contempt. A pair of wings really did appear behind him.

"You..." Feng Bailing was furious, staring at him.

Chi!

Immediately afterwards, Shi Hao slaughtered his way over, his speed too fast. He beat his golden Kun Peng wings, at the same time slaughtering his way towards them, incomparably ferocious.

At this moment, great winds swept about, the sky dome splitting, power extremely shocking.

Those individuals' expressions changed. They all formed imprints, preparing to attack.

However, at that moment, Shi Hao's back became cold, a wave of cold energy rising. He sensed that something wasn't right, immediately changing directions. With a chi sound, he tore through the void, escaping into the horizon just like that.

He didn't actually rush at those people.

En? These people were all shocked.

However, they didn't panic, because the great formation covered this entire place, surrounding this area, covering heaven and earth. They weren't scared of him escaping at all. ~~nOre-LB~~-In

"What do they have on them? Unless a supreme being personally comes here, how else can they threaten me?" Shi Hao had misgivings inside.

Of course, he knew that since these people dared face him head-on, they definitely had confidence, having terrifying methods backing them.

"Youngster, you won't be able to run!" Yuan Qing shouted from the back, chasing after Shi Hao together with Feng Qiang and the others.

At the same time, rumbling sounds rang out from all around them, all of the mountains and rivers shining, erupting with blazing divine light. The great formation revived, turning into great dao patterns, warping and weaving about, covering the sky dome.

This place was no longer the same, becoming incredibly dangerous. Whoever dared forcefully charge through would be stopped and killed!

Shi Hao reached out a finger, a streak of light rushing out. As a result, a huge noise immediately erupted when it made contact with the great formation. Chaotic energy erupted there, bone texts covering that place densely.

It was precisely as Feng Bailing said, his wings were pinned, this place becoming extremely dangerous.

"I already told you! You can't run even if you break off your wings!" Feng Bailing said with a sneer.

Shi Hao moved his Kun Peng wings, flying around here, one moment heading east, one moment returning below, fast as lightning. However, his range of activity was limited, all sides sealed off.

Qiang! Suddenly, Feng Bailing raised her right arm. Even though it was spotlessly white like jade that just left water, it was extremely terrifying. Shocking killing energy spread outwards.

Her arm was shining, within it mysterious symbols. It was as if a supreme being revived, about to unleash a slaughter here.

“You are a woman, what are you implying by exposing your arms and legs?” Shi Hao mocked.

“You are done for!” Feng Bailing said.

At the same time, Shi Hao revealed a faint smile. A divine talisman appeared in his hands. It released a dazzling rain of light, wrapping around him. Then, he directly vanished from this place.

“Realm Shattering Talisman!” Yuan Qing shouted.

He was ashen-faced, so angry he stamped his feet, but he also felt fear and shock, as well as a type of regret. They actually let Huang escape.

“How could this be? Normal Realm Shattering Talismans can’t break through great formations like this one!” Feng Qiang said.

“It is a Realm Shattering Talisman with supreme being essence blood on it, it was refined by Meng Tianzheng when he was still alive!” Feng Bailing clenched her teeth.

Supreme being essence blood was too precious. This was the essence of one’s blood energy, even when one refined artifacts for oneself, they would only use a few reluctantly.

Yet now, the Realm Shattering Talisman Shi Hao had in hand was clearly not an ordinary object. When one carefully thought about it, only Meng Tianzheng would be willing to refine them for him.

Even though it was just one, it could break through realm walls, take one through heaven and earth. Normal formations couldn’t stop it at all.

“Chase after him!” The group of people screamed.

Back then, Meng Tianzheng was fully aware of what Shi Hao wanted, knowing that he wanted to return to the lower realms, but it was easier said than done. He also wanted to help him back then.

That was why there was this Realm Shattering Talisman.

However, they all knew that no matter what kind of talisman it was, there was no way one could return to the lower realms. If one wanted to forcefully break through realm walls, there would definitely be a vicious backlash from the will of heaven.

If that happened, Shi Hao might die.

This was for him to protect himself, perhaps it might display some use.

Right now, Shi Hao produced it. This talisman's uses were limited, one consumed with each use, that would mean one less for the future. If it wasn't for him being trapped in extreme danger, Shi Hao wouldn't use it rashly.

Feng Bailing was a bit stupefied. Not too long ago, she was still saying that Shi Hao's wings were pinned, difficult for him to escape, yet now, he truly used a pair of wings to escape.

They roared out, rushing out of the great formation in pursuit.

Now, it looked like it really had been too extravagant. A great formation had been successfully arranged, wasting so many heavenly treasures, yet in the end, it didn't even do anything, the enemy still calmly escaping.

"He can't have gotten too far!" Feng Qiang said. It was because no matter how heaven-defying the Realm Shattering Talisman was, when faced with a world-shocking great formation, it would still be restricted. Even if it broke out of the region the formation covered, it still wouldn't bring that person too far away.

They rushed out of the great formation, scanning the great wilderness with their divine will, carefully searching.

"In that direction!"

Someone pointed, because the void exploded there, the fluctuations too intense. Someone came out of that location.

Several thousand li out, there was a void explosion sound.

The Realm Shattering Talisman was hindered. Even though it broke through that ancient formation, the sound that was produced was also shocking to the extreme.

Sure enough, the sky dome there cracked apart, exploded. Chaotic energy spread, Shi Hao falling out there.

He roared with laughter. Regardless, he still left the dangerous formation.

Even though he was laughing, his eyes were a bit cold, carrying killing intent, as well as a terrifying cold intent.

Running like this wasn't his style, it was just to break out of the restricted space, to not be bound. He needed to retaliate, he couldn't just waste this use of the Realm Shattering Talisman.

"Brat, just hand over your life!" Feng Bailing shouted.

She raised her right arm again, bringing it down in Shi Hao's direction, using her arm like a divine sword. That area released kengqiang noises.

An ancient talisman appeared, rushing out from her arm. It flickered about in the void, as if imperishable dao lotuses were blooming. Silver light erupted with extreme brilliance.

It really was like an ancient lotus. It unfolded petal after petal, all of these symbols and natural order. In the end, it revealed the lotus seat, within it seated a small person.

His figure carried an immortal feeling, small face rosy, but his hair was white like snow, carrying immortal energy, extremely astonishing.

“En?” Shi Hao was shocked.

A fierce roar sounded. That little figure actually rushed into the air. It turned into a streak of light, rushing at Shi Hao.

The supreme being aura was too powerful, terrifying beyond compare. It crushed heaven and earth, making this place rumble with great dao noise.

“Motherf*cker!”

Shi Hao turned around and ran. What was that thing? It was actually a supreme being!

This exceeded his predictions. There was a supreme being who went down from the higher realms just for dealing with him? This was definitely a great disaster.

However, why did the supreme being become symbols, hiding in Feng Bailing’s arm?

“You won’t be able to run today! No matter who comes, they cannot save you!” In the back, those people shouted.

That small figure was becoming larger, its rosy face revealing killing intent. It was no longer pure, its head of silver hair dancing about. It reached out a hand, grabbing towards Shi Hao.

“Supreme being bethods?” Immortal energy emerged from Shi Hao’s body, his speed immediately becoming several times faster.

“How could he be that fast?” The people in the back were shocked.

A supreme being appeared, wishing to kill Shi Hao, could he fail? They didn’t dare believe it. If the supreme being lost to Shi Hao, then it truly would be unimaginable!

“You all better pray that this so-called supreme being can kill me. Otherwise, all of you are done for in a bit!” Shi Hao said coldly.

Chapter 1712 - Reverse Killing

This really was a supreme being, his strength definitely the real deal. No matter how shocking Shi Hao’s cultivation was, how he could overlook the younger generation, he was still no match when faced with this type of old monster. He had no choice but to run.

Otherwise, if he really stayed where he was, he would undoubtedly die!

After all, he had just entered the Self Release Realm. Compared to this type of terrifying existence, he was still a great cultivation realm inferior.

The most crucial thing was that the Supreme Being Realm was different from other realms. Those who could enter this cultivation realm, how many people could go against them?

Those who stood in this domain were all heaven warping figures who overlooked past and present.

As for cultivators with lower cultivation levels than them, if they wanted to fight with supreme beings, unless they grasped immortal dao formations, not even immortal artifacts would necessarily be useful.

It was because supreme beings could avoid them, and then kill the controller.

Of course, the ones who grasped immortal dao formations needed to carve formation patterns in their bodies, or else the effects wouldn't be enough.

In the past, it was shown through battles, that when those who weren't supreme beings challenged those of this level, they could only take this path, carve immortal formations in their bodies to face them.

However, if they did this, they had to pay an extremely great price!

Immortal dao formations, forget about possessing them, they were things normal people hadn't ever seen before. That type of thing would only appear in the hands of a long life family.

Moreover, not every single long life family had them, they were too rare.

Shi Hao ran, moving quickly. However, that figure behind him moved faster and faster, gradually getting closer.

Honglong!

Shi Hao moved his wings. Lightning and Kun Peng wings interweaved, moreover, there was the Earth to Inches Divine Ability beneath his feet as well. He sped up, his speed just too fast, leaving others stupefied.

"His speed can compare to that of a supreme being?"

In the distance, Feng Bailing, Yuan Qing, and the others were shocked, all of them dumbstruck.

Everyone knew that supreme beings were at the peak of human dao, already incomparable in this domain. Regardless of whether it was attack power or speed, they were at the top beneath the heavens.

Yet now, a Self Release Realm brat was actually this fast, able to compete with a supreme being in speed!

"The old ancestor appeared, yet he actually couldn't do anything to him?" Feng Qiang looked like he had seen a ghost, in disbelief.

This was but a supreme being taking action, yet he couldn't immediately kill Huang, instead letting him run.

Wenglong!

Heaven and earth shook. That little figure's body had long enlarged, its figure aloof and transcendent, silver hair falling down. When its large hand reached out, it covered the heavens. Natural law force surged powerfully, locking down the sky dome.

The worst thing happened. The supreme being displayed its power, making heaven and earth collapse.

In the Mortal Dao Domain, no one could resist them.

“Supreme beings are unmatched, who can contend against them?!” Feng Bailing was moved. It was because she knew that this was the true power of a supreme being. No matter how fast Huang was, he couldn’t withstand it.

Sure enough, in the sky dome above, there were stars falling. A supreme being released its rage, making the heavens collapse and earth break apart. The great earth below even caved in, collapsing, magma surging.

The only fortunate thing was that this great earth was adjacent to the uninhabited region. Shi Hao rushed in, otherwise, the entire province would also sink.

At that time, endless creatures would be wiped out! n..o//**V**/.e/.1/-**B**--l--n

Chi!

Right now, Shi Hao didn’t have a choice, he could only use the Realm Shattering Talisman. Otherwise, he would be directly confined here and hit.

The strike of a supreme being would tear apart even the universe, even the heart of the heavens would tremble.

He was only a Self Release Cultivator in the end, so there was no way he could withstand it. Once one advanced into the Supreme Being Realm, that was a type of qualitative change, a type of sublimation, becoming a completely different level of existence.

With a sou sound, Shi Hao disappeared from this place.

Realm Shattering Talisman, this was the only variable.

“Aiya, what a pity, it was just a bit off!”

In the back, Feng Bailing, Yuan Qing, and the others all followed over here, activating their Heavenly Eye skills. Even though they were far away, they still saw what happened.

“Sigh, this is a talisman produced by the old ancestor’s unmatched divine ability. Once it is used like this, its power will decline!” Feng Bailing frowned.

She revealed the truth. This wasn’t actually their clan’s old ancestor, but rather a talisman condensed through an unmatched divine ability, sealed in her arm.

In front of them, that figure didn’t actually stop, instead continuing the chase. That was a supreme being incarnation, even though it wasn’t the true body, right now, it possessed unrivaled power.

Unfortunately, this time, it wasn’t able to immediately find Shi Hao. Shi Hao had long disappeared without a trace.

An hour later, Shi Hao silently appeared, standing on a mountaintop, staring at the distant Feng Bailing and others. He moved stealthily, wishing to approach and kill those people.

“Too hateful! Even a supreme being moved out to kill us. Let me go back and kill a few of them!” The golden lion said.

Just now, it had been scared badly. When a supreme being took action, it really left one in despair. If it died here, it really would nurse a grievance. Right now, it was furious.

“Kill!”

Immediately afterwards, one man, one mount roared out, slaughtering their way over. Divine abilities erupted. They went all out to kill those people.

“Dark Summoning!” Feng Bailing was extremely vigilant, quickly shouting out, chanting an ancient scripture.

Their clan obtained the Darkness Ancient Heavenly Art. Back then, Feng Xingtian had displayed the Darkness Demonic Fist that was recorded, the power extremely great. Now, Feng Bailing used its summoning method.

Immediately afterwards, that supreme being appeared. Even though it was just a divine ability incarnation, its power was extremely terrifying.

Shi Hao sighed, running again. He brought the golden lion with him, eventually even more so using the Realm Shattering Talisman again.

“Yi, he became weaker.” Shi Hao keenly noticed.

“Not good, this brat is too sharp. We didn’t kill him, while he has the Realm Shattering Talisman on him. Our situation doesn’t seem that good.” Yuan Qing’s expression changed.

Sure enough, in the following few hours, Shi Hao appeared again and again, continuously being pursued, but he always successfully escaped. After things calmed down, he would always come back to provoke them.

Finally, he was sure that the old ancestor Feng produced by the divine talisman couldn’t hold on anymore, that it could no longer fully display power at the supreme being level.

“I thought that it was your clan’s old thing who personally came here, turns out it is just an imprint. Since it’s like this, then I’ll send you all on your way!”

Shi Hao slaughtered his way back again, his face cold.

Honglong!

Suddenly, in front of Feng Qiang, a great dao talisman erupted. A figure flew out from within, this individual also having flowing silver hair, strength exceptionally powerful.

Two talismans!

This was the second one. It appeared abruptly, rushing murderously at Shi Hao.

“For the sake of capturing me, your clan’s old thing really did invest quite the resources. Why doesn’t he just personally come?” Shi Hao was extremely resentful. He had no choice but to run.

“We’re leaving!”

At the same time, Feng Qiang, Yuan Qing and the others also fled into the horizon. They knew that things were extremely troublesome now, that they couldn't kill Huang. He would always escape each time, now it seemed like they themselves might be in danger.

It was because as long as Huang could still hold on, eventually, he would stick it through. After all, their old ancestor's talisman incarnations would always weaken with time.

Pu!

Shi Hao coughed out a mouthful of blood. In the end, he was injured, swept through by the exceptional fist radiance, body almost broken apart. This was one of the few dangerous situations he had faced after his cultivation reached this level.

"I will definitely kill all of you!" His voice carried a furious roar.

He had to run again. Finally, he managed to last until that figure began to grow dim. Shi Hao's expression was ice-cold, stopping.

Then, suddenly, he rushed through the skies, slaughtering his way back.

"This little dao friend truly is extraordinary. Even when a supreme being level imprint appears, it wasn't able to capture him. He really is a heaven warping figure!"

In the distance, next to a great lake, several elders looked over. They were all important figures from the Great Yin Race, one of them precisely the elder Shi Hao had previously consulted.

"When the limits of the Great Yin River were mentioned, I already hinted that there might be dangers. Our clan did not wrong him, this time, there were no grudges established." That elder said.

The others nodded. The Great Yin Clan stood aloof from worldly affairs, not willing to be caught up in this type of conflict.

In the end, they disappeared!

Now, it was Yuan Qing and the others' turn to be uneasy, because the two talismans had both been activated. There were supreme being level figures that rushed out, yet they couldn't kill Shi Hao.

Meanwhile now, the two talismans lost their power, and Huang was chasing after them.

They used altars, wishing to cross the void, but in the end, Shi Hao directly used the Realm Shattering Talisman, chasing up to them, cutting them off.

Honglong! The void exploded. These people fell out, falling from the sky dome above.

It was also only because it was them that they survived. If it was others, they would have definitely died in the chaotic void streams.

"Huang, you better cease your insolence!" Feng Qiang was unconvinced, inwardly furious. It was because this battle left him feeling too sullen, it was truly terrible.

They came with supreme being level power, yet in the end, it lost effectiveness, unable to stop Huang. It made them feel as if they had no face.

Shi Hao's hair was disheveled, entire body covered in blood as he coldly stared at them. He didn't say a word. Killing intent spread from his body, sweeping out like ocean waves.

He moved in anger. Just now, he was almost killed by the supreme beings, leaving him injured.

"You bastards, we fought bloodily in Desolate Border, while you all are stirring up trouble in the back, even wishing to get rid of me today. You all will not be forgiven!"

Shi Hao said coldly, feeling a wave of fury within him that was about to burn down the nine great heavens

He really found it hard to imagine that the Nine Heavens' long life families would actually fall to this type of level, that it was highly likely they might be colluding with the other side, harming their own people.

"We were too confident in our backing, truly too careless this time. Who would have thought that Meng Tianzheng would refine this type of great precious talisman for you?" Feng Qiang said.

"Just hand over your lives!" Shi Hao slaughtered his way over. He rode on the golden lion like a war god entering the lower realm, heroic and glorious, golden light resplendent.

Of course, he was also on guard against the other side's divine talismans, the ability to summon supreme being level power.

It was clear that he thought too much. Even if it was a supreme being who wanted to use his own unmatched divine might, condense it into talismans for others, it was extremely difficult.

Feng Qiang faced him head-on. He was quite ferocious, displaying the Darkness Demonic Fist, stirring up powerful winds. Black mist rushed into the heavens as he fought a great battle against Shi Hao.

He was a late stage Self Release Realm cultivator, extremely formidable and well-known in his clan, one of their few elites.

However, he was facing Huang. When it came to a true great battle, he was completely overwhelmed.

"Ah..." He released a great roar, struck until his entire mouth was covered in blood.

This was just the beginning. Soon afterwards, he was almost killed by Shi Hao. His entire body was greatly shaken, who knew just how many of his bones broke.

"Kill!" Shi Hao roared out.

This battle didn't have much suspense. With a pu sound, in just a few moves, the powerful Feng Qiang was smashed apart by Shi Hao's Lightning Fist.

A blast of bloody mist erupted in the void. Nothing else remained.

"There is also you all!"

Shi Hao shouted, already charging over murderously, fighting against Feng Bailing, also attacking everyone else.

Feng Bailing and the others began to panic. Just now, there were some who wanted to rush to Feng Qiang's rescue, also others who wanted to run, but in the end, they were all locked down by a mysterious domain.

Shi Hao's power exceeded their imagination.

Every move he made carried tremendous momentum, resonating with his existence. The great dao symbols that were produced were like ripples, surging around him.

It was precisely this type of power that locked down this area of the skies.

"Crucifix Divine Dao!" Feng Bailing roared out. Even though she was female, she was extremely strong. Two gashes were hacked open in the void, criss-crossed, forming a golden crucifix imprint. It suppressed towards Shi Hao.

Honglong!

Shi Hao's response was simple and direct. It was just a simple fist, yet it already blasted that golden Crucifix Divine Dao to pieces, completely unable to stop him.

This battle left Shi Hao quite shocked. Feng Bailing was extremely strong, moreover not just an ordinary type of powerful. She was able to block the great winds produced by Shi Hao's fist.

However, there was no way this trend could last. With a pu sound, her fist exploded, struck by Shi Hao. There wouldn't be any exception, half her arm turning into bloody mist on the spot.

Kacha!

Immediately afterwards, Shi Hao even more so captured her. With a vicious twist, her beautiful head came off, killed just like that.

"There is also the errand dog." Shi Hao suddenly turned around, looking at Yuan Qing.

"Little dao friend, please do not immediately resort to violence! We can talk things through, let me tell you a great secret!" Yuan Qing screamed.

Pu!

Immediately afterwards, he screamed miserably, because Shi Hao condensed a sword art, cutting off an arm together with the shoulder, incredibly ferocious.

"Who is your dao friend? Today, we'll settle old and new grudges!"

Chapter 1713 - Resolving Karma

Shi Hao took action ruthlessly, directly hacking off Yuan Qing's right arm, at the same time looking at him with disdain. This person didn't have any backbone. He looked like someone with quite the powerful temperament, but in reality was only this much.

Back then, just how forceful was this person? The moment they met, he immediately reached out a hand to suppress Shi Hao, acting like a supreme being, looking down on Shi Hao.

Now that he was stuck facing Shi Hao, he actually lowered his stance, looking like he was going to compromise, without the slightest bit of an unyielding character. It really made others look at him with contempt.

This type of person even previously stirred up such great trouble, claiming to dominate an area? Perhaps he only dared act like this towards individuals with lower cultivation levels, bullying the weak as the strong.

Blood splashed out. Yuan Qing's face warped, but he endured it, not acting out or berating Shi Hao. He endured it, looking at Shi Hao, speaking out again, saying that all things could be talked over.

"Even someone like you has the nerve to plea for your life. Back then, when I was sent to Origin Ancient Mine, why didn't you think that there would be today?" Shi Hao looked at him indifferently.

Yuan Qing's face turned slightly green. Soon afterwards, he calmed down again, forcefully controlling himself. He really didn't think that there would be this scene today.

Back then, the other side was a small cultivator who could be crushed with a single arm. Who would have thought that he would be able to threaten him so quickly?

Huang, just how old was he? He was only twenty something years old, yet now, he was already a Self Release Realm cultivator, becoming a late bloomer who could make others feel restraining fear!

Yuan Qing found it hard to calm down, full of remorse. He didn't feel remorse for incurring hatred between himself and Shi Hao, but rather felt incomparable regret. Back then, why didn't he just kill the other party despite the consequences?

In the past, he received Wind Clan's order to obstruct the sinner's blood descendant. However, none of them thought that this Huang would rise up, grow up to this state in such a short amount of time.

He inwardly sighed, he could only blame the warning given by another expert, which led him not to deal the fatal blow. Otherwise, he might have already killed Shi Hao.

At this point, he still didn't repent, only regretting that he didn't kill Huang back then, the fact that he missed the chance due to a moment of hesitation.

"Still unconvinced? All I can see from the depths of your eyes are unwillingness and resentment. Are you regretting that you didn't kill me back then?" Shi Hao said.

Yuan Qing was alarmed, even this was seen through by the other side? The other party's divine senses were too sharp, right? This left him with a horrified feeling.

"I was just guessing, just trying to scare you a bit. Who would have thought that you really did have this type of 'remorse'." Shi Hao's voice became cold.

"How could that be? Little friend, you overthought things. I didn't have such intentions." Yuan Qing explained.

Ka!

A crisp sound rang out. Yuan Qing's left arm was sliced off, coming off his body. A rain of blood sprinkled outwards, the scene a bit horrifying.

He released a muffled groan, staggering backwards, his entire body shaking, almost planting straight into the ground. His complexion was snow-white, lacking all color.

Shi Hao had condensed a sword art, hacking off his other arm. This was a fatal injury that made Yuan Qing's face distort, inwardly full of fear.

It wasn't that Yuan Qing didn't want to fight, but rather because he had previously deduced that he didn't have the slightest chance. As long as he attacked, he would undoubtedly die!

"Dao friend, I was wrong. Could you give me a chance? I can help explain some things to you." Yuan Qing said.

"You are nothing more than an errand dog, how deep could the information you have access to be? Do you understand supreme being level figures? Do you have their secrets? Or do you know about immortal dao secrets?" Shi Hao said coldly, unperturbed.

Yuan Qing's expression was ugly. He really wanted to continue living, the more one was like his type, the more they feared death. He didn't wish to follow Wind Clan's people into the afterlife.

When faced with this type of contempt, all unyielding individuals would definitely retaliate. However, Yuan Qing instead lowered his head, giving in to Shi Hao.

He couldn't help but submit to humiliation, because he wanted to preserve his life. Even though he knew that the chances weren't great, he still didn't wish to give up on it.

"Dao friend, you know that you are currently in great danger." He spoke, drawing Shi Hao's attention.

Shi Hao looked at him coldly, not saying a word, remaining extremely silent.

Yuan Qing suddenly felt like he was too wronged. In that instant, he really wanted to become hostile, just let out all of his suppressed resentment, thinking that even if he was killed, then that was that.

However, he still endured it. "These three thousand provinces don't only have Immortal Palace's ruined immortal, at the very least, there are one or two more. Once they target you, the consequences will be extremely terrible."

"You know about them?" Shi Hao finally spoke up.

It was because he had long heard that the three thousand provinces had at least two or three ruined immortals. Apart from Immortal Palace's existence, the others seemed extremely mysterious.

"If you vow to let me go, then I will tell you everything I know." Yuan Qing said.

Shi Hao laughed, extremely cold, and also extremely cruel. He raised his hand again.

"If you force me, I won't talk. Moreover, if you want to search my primordial spirit imprint, it will still be futile!" Yuan Qing shouted.

He backed up, fearing that Shi Hao would suddenly act out.

Pu!

Towards this, a streak of sword radiance shot out of Shi Hao's finger, using this as his response. He didn't accept this type of demand at all, extremely decisive, and also extremely cold, immediately blasting through his body.

Ah... Yuan Qing screamed miserably.

Shi Hao's sword radiance was extremely terrifying, half of Yuan Qing's body crushed to pieces. That sword energy's destructive power was too shocking, absolutely incomparable.

"Just speak, I'll let you off easily after." Shi Hao said.

Wenglong!

Yuan Qing roared in anger, shaking up the void. He knew that the other party wouldn't compromise. His entire body erupted, releasing its potential, even his primordial spirit shining, wishing to destroy indiscriminately, go all out against Shi Hao.

However, he underestimated Shi Hao's strength. A divine halo appeared outside Shi Hao's body, multicolored light endless, covering this place. Yuan Qing discovered that he couldn't move, that he was restricted.

All of his methods failed!

"Even you dare boast shamelessly about knowing about ruined immortals? Not even long life families might necessarily know about them!" Shi Hao said coldly.

"I know that one of the ruined immortal's weapon is an ancient battle-axe!" Yuan Qing said.

"And?" Shi Hao said. He had heard about this before, moreover also saw that ancient axe. It was damaged.

Back then, during the three thousand provinces' competition, when he survived from Immortal Ancient Remains, many people encircling him from all sides, Willow Deity appeared, unleashing a great slaughter, slaughtering sect masters.

In the end, there was a magical decree that descended from the heavens, moreover a damaged ancient axe that appeared, carrying immortal light and chaotic energy. There were words carved in the void, asking Willow Deity to show mercy.

When he thought back to it now, that ancient axe's master was definitely a ruined immortal.

Shi Hao sighed. When he thought of this, he couldn't help but remember Willow Deity. Where was it? When could he meet with it again?

The path Willow Deity walked was extremely difficult. It was previously destroyed, cutting itself down, it really was quite the depressing thing. From an Immortal Ancient guardian spirit, it germinated once more into a willow tree, enduring far too many difficulties during this period.

These were all things Shi Hao gradually learned later on.

Willow Deity had experienced destruction, turning into a seed. It then became powerful once more, yet in the end, it cut itself down again. Due to an unknown reason, it was then struck down by the terrifying lightning of the heavens.

It could be said that the Willow Deity of this age was no longer the guardian spirit of Immortal Ancient.

It was because it had to start from the very beginning again, what it cut off wasn't only its cultivation, but also its memories.

However, in the end, as long as it could reach the peak, exceed or be equal to before, it could definitely recall everything about the past. n..o//**V**/.e/.1/-**B**--l--n

From extremely powerful to extremely weak, then rising and falling again and again, and then returning in the end, this really was too dangerous!

Shi Hao believed that the current Willow Deity most likely completely revived, because last time, when he entered Immortal Domain with Sanzang and Shenming, and then came back, along the way, he encountered some of the imprints left by Willow Deity, this enough to explain everything.

That dam, the waves gave clues into many things! Even true immortals died on that dam, while this was its final destination. It had to be powerful enough in order to head there!

After a moment of absentmindedness, Shi Hao snapped back, saying, "You know nothing more than a weapon, what is the use in keeping you alive?!"

He raised his hand, about to suppress and kill him!

It was because these were things he could find out even without asking Yuan Qing. Immortal Qin knew more than him, so Shi Hao already knew about some secrets.

"Don't! I can tell you a great secret!" Yuan Qing screamed.

Under Yuan Qing's screams, Shi Hao released another streak of sword radiance, hacking him into two at the waist, ruthless. Shi Hao felt that only under extreme fear would Yuan Qing tell him the truth.

"Origin Ancient Mine, it is precisely that place that might have a path into another world!" He roared out, truly scared.

When Shi Hao heard this, he didn't take action again.

A path into another world, where did it lead to?

He recalled the protectors' descendant. Back then, he had ran to Origin Ancient Mine, wishing to find some secrets regarding his ancestors, in the end causing crazy black blood to surge, filling the ancient mine with blood.

Was it the same as Immortal Tomb? After many years passed, would an unmatched individual return from there?

"Elaborate!" Shi Hao shouted.

"I..." Yuan Qing, while in a state of extreme nervousness, was actually a bit tongue-tied.

“You also only know these things, right? What is the point in keeping you alive?!” Shi Hao said coldly, and then he didn’t hesitate anymore.

“Don’t!” Yuan Qing screamed.

Unfortunately, this time Shi Hao didn’t give him any chance. A sword descended, cutting through his primordial spirit, flesh crushed into a rain of light, body and soul destroyed.

Yuan Qing was killed. Shi Hao sighed, this karma was finally resolved.

Chapter 1714 - Informed About Ancient Path

Not a single Wind Clan expert was able to escape, all of them killed.

Towards these enemies, Shi Hao wouldn’t show any mercy. The other side came precisely for him, so what benevolence was there to talk about it? That was just laughable.

Wind blew past. This entire world calmed down.

Shi Hao released a sigh. He wandered about this place, heading to Great Yin Clan, and then back to Great Yang Clan. Just which one was the path back?

At the limits of the Great Yin River, or was it the Great Yang River? Which one was real?

“En?” Suddenly, Shi Hao’s mind shook.

“Perhaps both of them are real!” He spoke like this.

The great yin and great yang, the extreme of yang was yin, extreme of yin was yang. The limits of the Great Yin River and the limits of the Great Yang River, did they flow together?

Shi Hao was greatly shaken, feeling like this was a possibility. In that instant, he was moved, as if he saw the path home, finding hope.

Only, where was this kind of place?

According to what the two clans said, it was in the void, in outer space, existing throughout time. That type of river wasn’t the underground great yin or great yang water, but rather one formed by the eternally imperishable natural laws of heaven and earth.

Shi Hao wanted to start looking into this, yet didn’t know how to begin.

He released a sigh, feeling extremely helpless. In the end, he followed the path down.

This place bordered the uninhabited region. He remembered Immortal Ancient Remains, it was precisely in that expanse of the uninhabited region.

Back then, when the struggle between the three thousand provinces’ geniuses ended and Immortal Ancient Remains appeared, clashing and linking together with the three thousand provinces, it was located precisely in the boundless uninhabited region.

In the past, many things happened in those Immortal Ancient Remains. Shi Hao killed Fallen Divine Child and Divine Dark Child, fought geniuses from all different places, powerfully rising above.

Moreover, there were quite a few people from Immortal Ancient Remains who established good karma with him. Shi Hao had previously helped rid them of their curses, and before leaving, when he was stopped by those sect masters, those people had protected him.

If it was in the past, if Shi Hao wanted to enter the uninhabited region, there would definitely be great danger, but now, he could travel through it.

This was especially the case when he didn't have to go that deep into this region, so he could safely cross it.

When he was still a set distance away, he already experienced a type of mysterious aura. This was a dao aura unique to Immortal Ancient Remains, as if it arrived after crossing an endless river of time.

The dao laws in this ancient land could be considered rather complete, a cultivation land blessed by heaven.

When Shi Hao entered deeply into Immortal Ancient Remains, there was immediately a commotion. Quite a few clans came to meet with him.

"Haha..." The Eight Armed Soul Race's clan elder came.

Then, Beauty Clan, Rock Demon Clan, and the other clans' higher levels also came. When they saw Shi Hao again, they were full of excitement, their eyes all burning fiercely.

"Little brother, you finally came! Our seemingly hopeless wishes have finally brought you back!" These people were too enthusiastic.

They were all laughing loudly, surrounding Shi Hao, their eyes burning with even greater ferocity than when seeing exceptional beauties, making Shi Hao feel extremely uncomfortable.

He naturally knew the reason why. It wasn't only because they were on good terms with each other, but more because now that he came, he could help them neutralize their curses.

Immortal Ancient Remains' people all suffered from mysterious curses, none of them able to live for a long time. This type of suffering accompanied them for their whole lives, only Lightning Tribulation Liquid could free them from this!

Lightning Tribulation Liquid from normal heavenly tribulations wasn't enough, only the most powerful types of heavenly tribulation could produce this type of liquid.

In these three thousand provinces, just how many people could cross that type of tribulation?

Shi Hao had helped them before, some people being freed as a result. Now, he came back, it naturally made them all incredibly excited and moved. One had to understand that their clansmen's numbers were definitely not few, needing Lightning Tribulation Liquid extremely badly.

"Don't worry, my cultivation now is completely different from before. Once I cross tribulation, a single drop of the Lightning Tribulation Liquid produced is enough to save many people." Shi Hao promised.

When this was said, the clans were all extremely gratified. Many people became incredibly happy, surrounding him like stars around a moon.

“Little brother, seeing as how you are rather preoccupied, did you end up encountering some type of trouble?”

Someone asked, because they saw that after they invited Shi Hao into their pure land, bringing all types of delicacies, Shi Hao was always distracted. This left all of them a bit stunned.

They knew that in the past, this youngster, towards good food, was always rather ‘savage’. Even if he didn’t have the conditions to enjoy good food, he would create his own, roasting quite a few of his enemies, treating them as delicious food.

Now, there was a whole table of delicious food, yet he was actually distracted, indifferent. This really was a bit too rare.

“I am trying to figure out a way home...” Shi Hao didn’t hide anything, saying things as they were. He felt like since these were Immortal Ancient clans, it wasn’t entirely out of the question for them to know some secrets.

Even though he had some hope, he never thought that these people really did know, granting him a tremendous piece of happy news!

“The limits of the great yin and great yang, isn’t that the legendary Void Crucifix River?” Someone said, carrying doubt.

“Correct, it is definitely that place!” Another elder nodded.

“You all... know about that place?!” Shi Hao was shocked.

“There were recordings in the ancestors’ personal letters that there is indeed that type of place.” The Eight Armed Soul Race’s elder said.

Shi Hao was stupefied. Not long ago, he was still worried about where to look. Who would have thought that now, there would suddenly be progress, possibly finding out where that path was.

This really was unexpected good news!

These people had never went there, nor was there any way for them to go there, because they always lived in Immortal Ancient Remains, basically cutting them off from the rest of the world. As for that path, it wasn’t in this place at all.

Soon afterwards, there were people who found the ancient book. They explained things word by word, phrase by phrase to Shi Hao, helping him figure out where it was.

“The land where yin and yang intersects.”

“The two rivers in the void.”

“The place where great yin and great yang make contact!”

In this world, there was great yang and great yin, the two opposing each other, but they could also mutually transform into each other. That place was precisely where yin and yang were born.

It could be said that all things in this world could be derived through yin and yang. The so-called great yin and great yang represented an opposition, even more so representing two great natural laws.

In the end, there was another clan who found several jade books, the details that were recorded on them even more detailed, providing a precise location.

"It is in the Life Restricted Region!" When it was finally confirmed, those here all sucked in cold breaths of air.

Even Shi Hao was shocked. That type of place definitely couldn't be entered.

Otherwise, it would be the same as digging one's own grave.

How could it be like this? He was stunned.

The restricted region that had existed since Immortal Ancient Age, this was definitely terrifying. After endless years passed, the existences inside there had definitely long become undying.

"Little friend, I think it's still best if you give up. Even during Immortal Ancient years, those restricted regions were not places that could be entered. They have always been neutral. Once provoked, there will be great trouble." Someone said with a sigh.

"They were already this awe-inspiring back then?" Shi Hao was shaken.

"Yes, there are some restricted regions that have existed for an endless amount of time, existing through all of history, perhaps even greater than the history we know of." One of them nodded, his expression complicated.

Shi Hao was also shocked. Those restricted regions' origins were all tremendous!

He became silent. How was he supposed to go home now? Things were extremely troublesome.

"Yi, this map's terrain is inside the three thousand provinces?" Suddenly, Shi Hao was shocked. He noticed that the recordings on this jade book were precisely in the three thousand provinces.

However, he had never heard that the three thousand provinces had a Life Restricted Region.

From what he knew, the restricted regions that had existed from past until present were all in the Nine Heavens above, far from the world of mortals. For normal people, forget about accidentally entering, even finding them was extremely difficult.

"There are no restricted regions in this great land?" Even the Immortal Ancient natives were extremely shocked, all of them stupefied.

"The Crucifix Yin Yang Earth doesn't exist in this world anymore?" They didn't seem too convinced.

"I've never heard of any. At the very least, in regards to this region, there aren't any dangerous lands recorded in the books." Shi Hao wasn't that certain.

Everyone here all became puzzled, starting to discuss with each other.

Shi Hao seized the opportunity to understand things in detail. Eventually, he confirmed the precise location.

Afterwards, he stayed here for a bit, producing a bit of Lightning Tribulation Liquid. This was all from his past tribulations that was left over and saved.

Moreover, for the sake of these clans he was on good terms with, he had even faced tribulation in the uninhabited region, truly facing a sea of thunder, withstanding endless lightning alone just to obtain Lightning Tribulation Liquid.

The heavenly tribulation at the Self Release Realm was naturally terrifying beyond compare, extremely terrifying. Shi Hao was covered in blood, only barely making it through alive. The Lightning Tribulation Liquid he obtained was naturally terrifyingly precious.

Just a single drop was enough to dissolve the curses of countless people.

He left behind ninety percent of it for these people, and then preserved some for himself to use. After ingesting it, not only was he restored to his peak condition, in the end, he even made some breakthroughs and progress!

In the end, Shi Hao said his goodbyes. He was going to Crucifix Yin Yang Earth, heading to the outside of that restricted region to look around. There was a path there, did it still exist?

At the same time, he wanted to confirm what exactly was going on with with the Crucifix Yin Yang Earth. Was it still a restricted region? Why were there no recordings in the three thousand provinces, no one mentioning its existence?

Shi Hao sat on the golden lion. This time, they left through the altar, traveling through millions and millions of li, arriving at a certain province. Then, they directly headed towards Crucifix Yin Yang Earth.

Soon afterwards, he confirmed that he was approaching his destination!

Chapter 1715 - Crucifix Yin Yang Earth

This place was extremely desolate, and also extremely barren. There was rubble everywhere, broken mountains continuous, weeds growing rampant.

Unlike normal grand places, in this place, there was no graceful scenery, no heaven and earth spiritual essence that flowed out, only an overgrown world. There was no signs of life for hundreds of thousands of li.

Shi Hao knew that this was likely precisely his destination. With his powerful senses, he could separately sense the great yin and great yang, these two auras.

"This is it?" The golden lion widened its bronze eyes. Its mane was golden, appearance truly quite majestic, as if cast from gold.

It carried Shi Hao on its back, continuing forward into this desolate land overgrown with weeds.

"Something's strange, I feel a bit uneasy." At first, the golden lion didn't seem too bothered, but as it went in deeper, all of the golden beast fur on its body began to stand up straight.

This place made one feel a bit strange. It was extremely uneasy.

Shi Hao also became serious. Could it be that there really was a Life Restricted Region here?

Broken mountains extended continuously, all of them grand and majestic in the past, but for some reason, they were now all damaged. There wasn't a single divine tree or spiritual herb, only weeds and vines.

This place was extremely quiet. There were no beasts, nor were there any birds, to the extent where there weren't even any bugs.

Eventually, after travelling for thousands of li, he saw a scorched black mountain. This place was clearly different from the other places, the broken mountain as if it completely scorched, and then quickly cooled.

On the ground, there were ashes. Even after tens of thousands of years passed, there were still no changes that took place here.

On this land that could still be considered open, it was completely pitch-black, the leftover traces of being burned. It was as if a wasteland had been set aflame, the weeds turned into black ashes.

"Great yang essence energy!"

Shi Hao sensed that on this region, there was rich great yang essence energy. The reason this place was burned was definitely because of great yang power.

Finally, when he walked forward again, he had a different type of experience again. There was a bone penetrating icy coldness, as if it erupted from the depths of hell.

Up ahead, there was a lake, but it had dried up. It was extremely vast, strand after strand of great yin energy swirling about, in the form of a haze, its black color a bit terrifying.

Great yin energy, there was no mistake!

The golden lion brought Shi Hao through this place. It produced divine light to protect itself, fearing that something unexpected might happen here. $n)-\sigma-(\mathcal{V}--E)(l)-B()l..n$

Soon afterwards, the large amounts of broken mountains disappeared. Shi Hao entered an extremely vast ancient land.

In this region, there were no giant mountains, nor were there any ancient trees and other things. An expanse of ancient plains stretched out as far as the eye could see.

Of course, this region still stood out from other places. There was a layer of black ashes on the ground, extremely thick, several feet in total. Only heaven knew what had been burned down here back then.

These ashes seemed to have buried countless secrets, making one feel extremely uneasy upon seeing it.

Dang!

The golden lion unintentionally kicked out something metallic from the ashes, in the end discovering that this was a golden bone. It was extremely hard.

"Bone of a deity!" The golden lion shivered inwardly, sucking in a cold breath. It was because it could sense that the owner of this bone was extremely powerful when he was alive, definitely not weaker than itself.

“This is...” Even Shi Hao frowned. When he jumped off the golden lion and wandered this land of ashes, he also discovered some ruined bones and other things.

Even the worst quality of the bones here were at the Heavenly Deity Realm.

“Don’t tell me... these black ashes are the byproduct of burning down deities?!” The golden lion broke out into a cold shiver.

This place was too large, while the ashes were several feet thick, still here after endless years, not scattered by mountain floods, definitely extraordinary.

“Cremated ashes of deities!” In the end, the golden lion was moved, shivering inwardly. It was because it was already sure that this land of ashes was made from the bodies of deceased deities.

“Countless experts’ bodies were burned to ashes!” Shi Hao was shocked. Just what kind of event was this? Just how many people died back then?

Shi Hao used a great method, trying to raise this black expanse of ashes, but in the end, he discovered that it was extremely heavy, like golden sand.

Broken walls and historical ruins!

Under these ashes were actually ruins, extremely grand and ancient. He was now sure that this was precisely Crucifix Yin Yang Earth, the Life Restricted Region of the past.

It was because he saw a piece of stone that had these recordings. Even though it was damaged, one could still guess at its meaning.

“The past Life Restricted Region was actually destroyed. Who did this?” Shi Hao stood in place, a bit stupefied.

Even though he had long guessed that the three thousand provinces weren’t as strong as the Life Restricted Region, now, when he saw this scene, he was still extremely shocked. A restricted region was wiped out!

Back then, just what kind of battle happened?

“Dig this place up, no matter what, we have to unearth this restricted region!” Shi Hao ordered the Fearless Lion. This was a free source of labor.

The golden lion’s eyelids jumped, extremely resentful, but it didn’t dare act out. It actually already gradually adapted to obeying orders, in the end clenching its teeth and just doing it.

There was a lot of ashes, these ashes carrying demonic attribute power. The golden lion used great magic force to clear it, finally revealing quite a few clues.

There were many palaces and buildings, but they all collapsed, turning into ruins, the debris about to be erased. It was unknown just how long they had been buried for.

This Life Restricted Region had already disappeared for an extremely long time!

Apart from this, this place had a medicinal field and a martial arena, both of them extremely grand.

"Divine medicine roots! What a pity, they've already rotted!" The golden lion was regretful. When it dug up the medicinal field, it was shocked.

It was because there were several dozen stalks of divine medicines here, just that they had long rotted. It really was quite the pity, leaving them shocked.

"Divine medicines are extremely rare, once one goes extinct, every single loss is significant, possibly even going extinct from this world. The battle back then really was miserable." Shi Hao revealed a look of shock.

"I wonder if there are any immortal medicine. That type of plant wouldn't rot, wouldn't perish. Even if it was buried for endless generations, it can still be dug out alive." The golden lion said.

It was hopeful, because not even normal extreme formations would harm immortal medicines. They were cared for by the heavens, able to exist forever in this world.

"Normally speaking, restricted regions usually do have a stalk of immortal medicine!" The golden lion's expression was extremely fierce, starting to carefully search about.

Unfortunately, it was left in despair. This region didn't have anything at all, only ashes and deathly stillness.

"Great Yin River!" Suddenly, the golden lion cried out.

While clearing out this region, it saw a dried-up river. It began to carefully dig this place up. The great yin energy was extremely strong, continuously rising.

If it was anyone else, they would definitely back off, but this lion wasn't scared.

Soon afterwards, as the dried-up river was cleared out, black water was revealed. The true Great Yin River was seen.

Even Shi Hao was moved. Eventually, he discovered that this great river cut across these ruins, only, it was too dried-up, only having a bit of great yin water.

"Great Yang River!"

Soon afterwards, they discovered another river that flowed perpendicular to the other one. It intersected with the Great Yin River, forming a 'cross'.

They found it just like that. Shi Hao was in a bit of disbelief!

Perpendicular rivers, formed from great yin and great yang, this was their destination!

Shi Hao stood at the intersection of these two dried-up great rivers, carefully staring at it. Where was that path?

Where the great yin and great yang intersected was precisely the heart of this ancient land. Was there a path into the lower realms here?

Shi Hao and the golden lion searched about carefully, but they didn't find any ancient paths. There were no clues.

“This place is not normal!” The golden lion said after pondering for a long time.

Shi Hao shot him a look of disdain, almost smacking him. “You don’t say! This used to be a life restricted region, so it was naturally different.”

“What I am trying to say is that these rivers don’t seem to have naturally dried up, because there is some type of external force.” The golden lion further explained.

They continued to study this place, but in the end, there were still no clues.

“Great yin, great yang, which one is weak and which one is strong? The two of them actually met like this, intersecting together.” Shi Hao said to himself.

In the end, he couldn’t help but start to carry out an analysis. His hands moved, using yin and yang power, starting to carry out a deduction.

Regardless of whether it was the Kun Peng Technique or the Lightning Emperor Divine Ability, they both contained yin and yang changes, which was he wasn’t unfamiliar to this concept at all, instead rather adept. When he formed an imprint here, he actually triggered the resonance of heaven and earth here.

“Yi, this really is a natural yin yang earth. When I spur on the yin and yang great dao here, it actually seems to have life, about to revive here.” Shi Hao was shocked.

Meanwhile, what left him even more shocked was still to come. When he derived the yin and yang great daos to the extreme, this place rumbled with noise. Regardless of whether it was the Great Yin River or Great Yang River, they both appeared again.

A great river that was pitch-black like ink appeared, surging with yin energy, black mists roiling.

Another river emerged, golden light resplendent, blazing with radiance, making one about to turn into ashes.

The two rivers intersected, chaotic energy surging. It was extremely terrifying.

However, this was still only what initially left Shi Hao stunned. Then, he was once more a bit stunned, almost becoming petrified.

“These... are projections, are they true projection incarnations of Great Yin and Great Yang Rivers?” Shi Hao was stunned.

He noticed that when the projections were cast on the ground, it indeed absorbed great yin and great yang power, condensing it all into a stream. How terrifying were the true yin and yang rivers then?

Hong!

Heaven and earth trembled, a terrifying aura spreading.

Shi Hao and the golden lion both suddenly raised their heads, looking outwards. The void split open. Two rivers appeared, intersecting and flowing past each other.

One was pitch-black like an abyss, the other resplendent like the heavenly sun!

Apart from this, Shi Hao also saw some giant palaces. There were some palaces that floated in the void, even though they were damaged, they were incomparably grand, shockingly ancient, situated near these two great rivers.

“The true Great Yin and Great Yang Rivers are in the void, in the cosmos. They have appeared!” Shi Hao was moved.

At the same time, he also shivered inwardly. He sensed a problem. That true Life Restricted Region might not be on the surface, but rather in the void.

The things on the ground were only the surface, the ‘skin and hair’.

Honglong!

Shi Hao rushed into the heavens. He found hope, this place had his path home, he could enter the lower realms!

Chapter 1716 - Destroyed Life Restricted Region

The Great Yin River and Great Yang River intersected in the void, forming a great cross. It was grand and astonishing!

One was pitch-black like ink, the other golden and resplendent, the former full of yin energy, the latter blazing with divine energy, one as if it came from hell, one as if it originated from a divine kingdom.

These were two completely different rivers, both of them surrounded by great dao symbols, containing terrifying power. A roaring sound was produced, absolutely deafening.

This wasn’t the past Great Yin or Great Yang River, because what he saw before weren’t pure, but rather just ordinary rivers, while the two before him were the source, ancestral rivers.

There were two rivers on the ground as well, under the ashes. Just how did they take form?

When they carefully thought about it, those really were projections!

There was true great yin and great yang in this world, stretching across the cosmos. Wherever their projections were cast onto a surface, great yin and great yang essence energy would gather, ultimately mixing together with an ordinary river, forming a body of water.

The two rivers below the ashes could already be considered extremely pure, but compared to the two in the sky dome above, they were far too inferior.

Honglong!

Shi Hao tore through the ripple-like great formation patterns, advancing with great difficulty. He arrived in the void, approaching this place.

All of the fur on the golden lion’s body stood on end, because this place was too terrifying. The aura that was released made it so that one couldn’t help but tremble.

This place was definitely not trivial, making one feel great respect, tremble from the very soul.

The yin and yang formed from the great dao contrasted and complimented each other. Even the five elements originated from yin and yang energies, this place was the root.

Before these Great Yin and Great Yang Rivers, all creatures would naturally be moved, feeling endlessly stirred. All cultivators would tremble from their souls when they came here.

Shi Hao slowly calmed down, gradually adapting to this place's fluctuations.

The golden lion wasn't an ordinary individual either. It released a low roar, finally calming down considerably too. Its soul no longer trembled, advancing step by step with Shi Hao.

When they looked at it from a different angle, as the two watched these streams interweave, they then felt that they were peaceful and complete, calm and quiet.

The earlier rumbling noises actually completely disappeared at this moment. This was a calm and beautiful scenery, the most peaceful land of this world.

How could it be like this?

This was precisely the great dao!

Its transformations were endless, impossible to grasp.

It could be said that the Great Yin River and Great Yang River were tangible embodiments of the world's great dao, the most suitable mediums for describing natural laws and order.

Great yin and great yang energies represented yin yang, these could be called the mother of natural laws, an extraordinary power.

Now, one man, one beast came here. After they calmed themselves down, the entire world seemed to have become at peace. They obtained quite a few benefits here.

At the very least, their understandings towards yin and yang deepened.

This affected their own paths. Shi Hao released a sigh of astonishment. The inside of his body was rumbling, those opened gates in his flesh erupting with sacred light, dazzling and resplendent.

Kacha!

Only when a light sound rang out in the distance did the two come awake, snapping out from this type of dao comprehension state.

Near the intersecting streams were a few buildings, all of them damaged and ruined. Just now, there was a piece of stone that cracked, waking them up.

This was in the void, there was no land, no great continent, only two rivers. They were a part of the great dao, as well as some type of tangible incarnation!

However, back then, there were creatures who took residence here, turning this place into their homeland!

Just how terrifying of a thing was this?

This was previously a Life Restricted Region, one that overlooked the Nine Heavens Ten Earths!

As for the ground, the ruins under the ashes, it was clearly still left by the clan. However, it was quite clear that this was the foundational important place.

Without a doubt, those who had the qualifications to reside here were definitely core members, the most powerful creatures.

Only, they had already been extinguished!

Meanwhile, this type of terrifying thing was far more significant than the fact that some clans were able to reside here.

Just what kind of power was able to overturn a Life Restricted Region, eradicate it? From the looks of it, the battle back then was extremely intense, or else why would there be these types of ashes on the ground?

One had to understand that those ashes were formed from burning the bodies of deities!

“Where is the gate?” Shi Hao searched about.

He remained extremely vigilant while walking through these ruins.

It was because this was the center of the Life Restricted Region. He had no idea why it was destroyed.

Soon afterwards, Shi Hao broke into a cold shiver. Then, the golden lion also trembled. It was because even though the buildings here were damaged, not that many, they still gave off a great pressure.

There was a damaged stone tablet with undying energy that flowed out, somewhat horrifying.

It was clear that there was no way this place had life. Back then, the people and events were all buried, not a trace of life force and other things remaining.

However, the places where the natives lived were still intimidating, especially this place. This was the area where core figures remained.

The buildings were all in ruin, nothing left behind, only giant rocks, copper pillars, and other things there. However, it still made one’s fine hairs stand on end.

The residences of undying beings had their own energy fields. Even after many years passed, they still didn’t scatter.

It could be said that if it wasn’t for Shi Hao and the golden lion being strong enough, normal people wouldn’t be able to reach this place at all. They would all fall under the pressure.

One could imagine that if this place wasn’t destroyed, even if no one was here to guard this place, not many people could reach this place. It was just too terrifying.

“Where is the gate?” The golden lion was also searching. It avoided the ruins, entering the void, roaming about in front of the two great rivers.

Just like that, they searched for a long time, but they didn’t obtain any clues, unable to see any activity from start until now.

“Great yin and great yang, there is an ancient path at their limits leading into the lower realm. However, where is it?” Shi Hao said to himself.

Following the clues he obtained beforehand, he now came here, yet there was still no gate to be found.

Honglong!

Suddenly, he began to derive the Kun Peng Technique, two wings appearing behind him, gently swaying. Great yin and great yang power spread, producing chaotic energy.

“Right, it should be over there!” He realized with a start.

Deriving the Yin Yang Great Dao here made Shi Hao suddenly see the truth. Where was the gate most likely to be? It was definitely where the Great Yin and Great Yang Rivers intersected!

The region where the cross intersected had chaotic energy surging. It spread throughout, making this place extremely indistinct.

He arrived, sensing an unprecedented pressure. He remained extremely careful.

Shi Hao threw in a magical artifact. Before it entered the point where the two streams intersected, there were already some splashes produced, and then chaotic energy surged, that magical artifact melting, completely destroyed.

This made the golden lion suck in a cold breath of air, inadvertently backing up.

This was the ancient path? If one really went in, wouldn't they undoubtedly die?

“Something's not right!” Shi Hao frowned. He began to derive the Yin Yang Great Dao again.

This time, it wasn't only the Kun Peng Technique, he also used the Lightning Emperor Divine Ability.

When lightning was mentioned, normally, one would always assume it represented destruction, that it was the judgment of the heavens. However, there was also Lightning Tribulation Liquid, this type of exuberant life force.

Yin and yang, life and death, these opposed each other, these two balanced and true.

Shi Hao transformed, his entire body shining. Endless patterns appeared, sometimes a kun fish, sometimes a great peng bird, and then he turned into lightning, electrical arcs everywhere.

Hong!

A great noise sounded. This entire world seemed to have erupted.

Ao...

The golden lion's mane stood on end, but in reality, his entire body's fur stood on end, becoming like needles.

It released a loud cry, quickly escaping into the distance.

It was because right at this moment the Great Yin and Great Yang Rivers moved, changing their trajectories. One came crashing down from the skies, one rushing horizontally past.

They still intersected, but their paths had changed. ~~no~~^Ve-~~l~~^b-In

Their point of intersection, was precisely where Shi Hao was.

The golden lion simply refused to believe what it was seeing. Was this an illusion, or was this real?

Was Huang going to bathe in the Great Yin and Great Yang Rivers, going to return to assimilate into the great dao?

The Fearless Lion could tell that those two rivers carried many secrets. They were formed from symbols, the condensation of two types of origin force.

Honglong!

However, the horrible conclusion didn't happen. Where the two rivers met, a gate appeared, extremely mysterious, and also extremely strange. Chaotic energy was released from it, while Shi Hao stood precisely outside of it.

At this time, the gate was already open. One could see an ancient path made from ash brown stones that led into the distant unknown.

They found it, it was precisely here!

Shi Hao was shaken. This was definitely the path that he could use to return to his homeland!

He really never expected that this type of method was needed to open it, that one had to be proficient in the Yin Yang Great Dao, resonate with these two rivers, only then could this mysterious ancient path be opened.

At the same time, he was full of doubts. Why was this ancient path in the place where great yin and great yang intersected?

What era was this left behind from? Who was the one who created it?

Also, were the lower realms really that important, for one to create this type of ancient path, maintaining a connection?

Chapter 1717 - Ancient Path Into the Lower Realms

They really did find it. It was precisely this path, existing in the destroyed Life Restricted Region!

Shi Hao was excited and moved, all of his efforts weren't for naught after all. He found the mysterious path back home.

In the distance, the Fearless Lion was incredibly shocked. Did Huang really successfully find the path?

"You, come here." Shi Hao beckoned the lion over.

The golden lion was extremely careful, standing near the great rivers. It felt the pressure of the great dao, not daring to truly enter the water.

"Do you have the courage to enter that ancient path?" Shi Hao asked.

The golden lion shook its head. Even though it saw the ancient path, it was still worried. What if there was danger when it went inside?

At the same time, it was hopeful, expectations in the depths of its eyes, hoping that Shi Hao would go inside. If something unexpected happened, then it would be freed.

Chi!

A divine rainbow flew out, wrapping around the golden lion. It was like a chain, binding it firmly, moreover dragging it towards that ancient gate. $n)-\sigma-(\mathcal{V}--E)(l)-B()l..n$

Shi Hao was a Self Release Realm cultivator, while the Fearless Lion still hadn't reached this level. When the two were compared, there was a huge difference, so it was easily restricted.

"You..." It released a roar, never expecting Shi Hao to be this strong. Even while he was standing where the two rivers intersected, he could still capture it.

In reality, there were no dangers where the two rivers intersected. Even though that place was covered in chaotic energy, it was extremely peaceful. It was as if that ancient gate could protect this place.

"Just go inside." Shi Hao pushed open the gate, and then threw the golden lion in.

Kacha!

In that instant, sounds of bones breaking could be heard from within the golden lion's body. It was suppressed by a mysterious power, simply about to explode to pieces.

"Ah..." It screamed miserably.

In that gate, there didn't seem to be much danger, but there was a formless forcefield that suppressed creatures, making them endure power exceeding the limit.

Even the golden lion couldn't hold on, which was why its body was about to be crushed as soon as it went in.

Sure enough, it could only hold on for a moment. It began to bleed from all seven apertures, cursing out endlessly. It was because it was going to die!

This wasn't some suppression of a magical formation, nor was it a divine ability or a precious technique, just a mysterious and powerful domain's power that was crushing it!

Shi Hao immediately pulled it out, because there were still some chains on its body placed by him beforehand. If he was a step too late, the golden lion might have truly died there.

"Huang, I'm going to stake it all against you!" The golden lion screamed. It had never been in such a miserable state before, who knew just how many of its bones broke, even its body warping beyond recognition, about to become a lump of paste.

It roared out, yet it couldn't stand up, laying powerless on the ground.

"Alright, if there are any difficulties, we'll face them together. I just wanted you to get a share of both the delights and hardships." Shi Hao said.

“Delights and hardships my ass, why didn’t you go inside!” The golden lion was furious, really wishing to bite him.

“I am going inside right now!” Shi Hao let it go. He really did step inside, pushing open that ancient gate, stepping into the ash brown stone stairway behind it.

In that instant, Shi Hao felt as if he was struck by thunder, entire body shaking greatly. The bones in his body released pi pa sounds, suffering a great blow, body about to break apart.

This was terrifying after all. Even someone as powerful as him suffered so greatly, in such a dangerous situation.

Pu!

Shi Hao coughed out a mouthful of blood, because he felt as if a great star smashed down on his back.

Then, his chest, his frontal bone, the back of his head, his entire body felt as if he was being hammered by great stars, suffering pressure that couldn’t be any greater.

This was a suppression of the extreme, a bit greater than even the greatest strength he currently possessed!

Shi Hao understood. This gate was extremely terrifying, regardless of whether it was the golden lion or himself, or anyone else, the power they faced was greater than one’s own.

At Shi Hao’s level, he was definitely someone who already transcended above, because he did this in every single cultivation realm, perfect and flawless, or else how could he overlook all of his peers, sweep through all of the foreign Emperor Clan youngsters?

However, he suffered so greatly here. This was a type of extreme realm suppression, but it exceeded the limits of what he could currently endure. Blood gushed out from his entire body.

All of his pores were spraying out blood, Shi Hao becoming a blood person. The bones in his body continuously released gabeng gabeng noises.

The power was too terrifying!

He was extremely shocked. No wonder even that golden lion, with its tremendous aptitude, was almost killed the instant it entered, directly having a hundred bones broken. It was terrifying after all.

Fortunately, Shi Hao stuck it through. Eventually, his bones continuously released noises, but he managed to hold on.

Even though blood was still trickling out of his pores, he really did hold on. At the very least, all of his bones were fine, not a single one broken.

After a long time passed, even though he coughed out a few more mouthfuls of blood, his condition didn’t worsen further. He took a step forward, but he discovered that this path was extremely difficult, that it was like this the entire way.

In the end, Shi Hao stood there, only returning after silently experiencing this place for a long time.

The golden lion was in complete despair. Could it be that this fella really had an innate immortal body? It really was freakish, actually able to withstand it!

He was hoping that something unexpected would happen to Shi Hao. If he died inside, then it would be free to roam the world.

"I believe that apart from me, there might not be many more who can endure this power in this world now." Shi Hao said to himself.

Then, his expression changed. He threw the golden lion into a spatial magical artifact, saying, "Sorry."

After saying this, he brought the magical artifact with him, entering this gate. He wanted to carry out a test, see if there would be any danger if he brought his parents inside.

The golden lion was entirely golden, but right now, its face turned a bit green. "Little bastard, you and me aren't finished!"

Fortunately, it was unaffected. After the magical artifact was collected into Shi Hao's body, he was the one who endured all of the external pressure, it didn't spread into the spatial magical artifact inside of him.

"There is no danger. This way, I don't have to worry anymore." Shi Hao said. He let the golden lion out.

Then, the man and beast leapt out of the chaotic earth. That great river overflowed, continuously interweaving, returning to its original position.

"Everything worked out perfectly! Let's go!"

After Shi Hao and the golden lion fully recovered, he rode on its body, leaving this region, entering the great earth below.

As they left, the two rivers in the skies disappeared, the great dao patterns all vanishing.

Then, Shi Hao left the land of ashes, speeding along, thus departing into the distance.

Since he found his path home, he didn't wish to stay for too long in the three thousand provinces. After cleaning up some matters, he would bring his parents with him, hurry down into the lower realms.

"It truly is regretful. I couldn't find anything about the people or events related to Supreme Hall." Shi Hao sighed.

On the way back, he shook his head. When he returned to the three thousand provinces, he always paid close attention to this, even asking Immortal Qin about it, but there were no results.

"Forget it, once I return to the three thousand provinces in the future, I'll carefully search for everything then." Shi Hao released a light sigh.

The Supreme Hall bloodline could no longer be found now. Even that cheap master Qi Daolin from back then disappeared without a trace.

Shi Hao hastened along, returning to Qin Clan.

The moment he returned, he saw that many people's expressions were strange as they looked at him, carrying reverence.

"Bro, you're back!" Qin Hao immediately hurried back, eyes blazing.

"What happened?" Shi Hao asked.

"Big brother, do you not even fear supreme beings? News spread outside, saying that Wind Clan wanted you dead, yet in the end, they were completely wiped out by you. Even after supreme being level figures took action, yet you were still unaffected." Qin Hao said.

Shi Hao was stunned. The news of the intense battle with Feng Qiang, Yuan Qing, and the others already spread?

Shi Ziling and Qin Yining also hurried over, both of them as if relieved from a burden, releasing a sigh of relief. It was because they really were worried badly. Their eldest son faced off against a supreme being, how could they not be uneasy? They were scared that something dangerous happened, already almost worried sick.

Soon afterwards, Immortal Qin also came, coming to inform him of some things.

Now, many powers in the three thousand provinces heard what happened, all of them incredibly shocked, feeling extremely uneasy.

This was especially true for those who previously joined up, wishing to deal with Shi Hao, all of them unable to sit peacefully.

"There were news that the Nine Heavens' Wind Clan old ancestor took action, wishing to kill you!" Immortal Qin said.

Wind Clan's old ancestor's two talismans weren't able to kill Shi Hao, triggering huge alarm, leaving this clan in an extremely passive situation. It was rumored that this supreme being was going to personally descend into the lower realms to kill Shi Hao.

At the crucial time, Immortal Academy and Sacred Academy's supreme beings stopped at their clan entrance, blocking him, preventing him from entering the lower realms.

Shi Hao was shocked. Wind Clan's ancestor actually wanted to personally take action

Thus, when news leaked out, people bringing news down from the Nine Heavens, quite a few powers from the three thousand provinces were shaken.

"Look, the treasures that have been brought over are piling up higher and higher." Immortal Qin laughed.

In a few buildings, the treasures and materials really were piled high, all of them things some great sects resolved themselves to part with to neutralize the grudge, bringing them over.

"Child, this time, have you made some progress? Did you find that ancient path?" Shi Ziling asked.

"I have, I already found it. We can go back!" Shi Hao said.

When these words were spoken, everyone here became shocked.

“Go, we’re going home! This day, this instant, we are returning to the lower realms!” Shi Ziling said excitedly.

“Okay, we’ll leave right now through that ancient path!” Shi Hao nodded. Now, he was finally going to return to the lower realms.

Chapter 1718 - Sudden Major Life Event

Shi Ziling was extremely moved, he had already left the lower realms for many years. Today, he was finally going to return. He was extremely happy and excited.

However, soon afterwards, his expression went dark, because Grandpa Fifteen was still in Immortal Tomb, no way he could follow them back. This left him full of regrets, even feeling the urge to stay behind.

“Grandfather needs a few years at the very least to awaken. Let’s go back first. Since we found the ancient path, there will be a chance to come back in the future.” Shi Hao said.

Shi Ziling nodded, this was the only way. He also knew that there would be too many dangers for his older son if he remained in the higher realms, because many people had their eyes on him, all of them great figures.

If not for Immortal Academy and Sacred Academy’s two powerful individuals stopping Wind Clan’s ancestor, a supreme being would have personally came down from the Nine Heavens to get rid of Shi Hao.

“What a pity... Underworld Earth, Heavenly Country, I haven’t visited any of these places, didn’t settle accounts with them yet.” Shi Hao was quite regretful.

“Child, do not bother with these things for now, let’s just hurry back to the lower realms first! As long as we are at peace, then everything is fine!” Qin Yining said. She was always extremely worried, scared that something unexpected would happen.

It wasn’t easy for her eldest son to come back alive from Desolate Border, she didn’t wish to see anything bad occur.

Shi Hao nodded, temporarily forgetting all of this. It was because he knew that the three thousand provinces still had ruined immortals, so he couldn’t overlook the world yet.

Shi Ziling and Qin Yining immediately left, starting to put everything in order in preparation for their trip back. Towards this, Immortal Qin didn’t stop them, allowing them to make their decisions themselves.

What was surprising was that Qin Hao was unmoved, still standing there, no intention of leaving.

Shi Hao was moved. He looked towards him, but didn’t ask why he didn’t pack his things.

“Older brother, I wish to stay here. With you looking after father and mother, I am at ease, I will stay in the three thousand provinces, continue my cultivation in the higher realms.” Qin Hao said.

He expressed his intentions to stay in the higher realms, continue cultivating here, because the lower realms were lacking in spiritual essence, great dao incomplete, not suited to cultivation.

When Shi Hao heard this, he released a light sigh. He nodded, understanding his younger brother's intentions.

Qin Hao's situation was indeed troublesome. In terms of cultivation environment, the lower realms' eight regions, no matter how one looked at it, couldn't compare to the higher realms' three thousand provinces.

Shi Hao frowned. "When the time comes, you should properly bid your goodbyes to father and mother, talk things out. They will likely be reluctant to part with you."

"Older brother, if you go to the lower realms like this, your cultivation will..." Qin Hao was worried.

This was a sincere worry. Now, his older brother already grew to an inconceivable degree, his future accomplishments limitless, breaking all records of this great era.

If he headed down to the lower realms just like that, it would be the same as binding his own arms and legs, no benefits to his cultivation at all, perhaps even halting completely!

Shi Hao carefully thought for a bit, and then said, "There will be some effects, but it won't necessarily stop my path."

He then raised his head and said, "For me, perhaps it is a type of necessary sharpening."

Leaving the three thousand provinces and heading to the lower realms' prison wasn't only to hide from enemies, it could also be considered a different type of cultivation.

However, he couldn't deny that the reason he was returning, aside from missing his homeland, the biggest reason was to avoid danger. He had to avoid Wind Clan, Wang Clan, Jin Clan, ruined immortals, and other powers.

Apart from this, his trip to the lower realms was also truly because he wanted to temper his true self in an extreme environment.

He had this type of confidence. His path was different from others, using the body as a seed. In the end, what he had to open was his own inner treasury, depend less on the greater heaven and earth.

In reality, body as a seed was the most difficult path. The reason why there was this great type of great method was because there were some who believed that if the world changed, natural laws altered, at that time, the situation of cultivators might become worrisome.

Shi Hao's trip to the lower realms this time could be considered a type of tempering. He was going to come down to the lower realms to sharpen himself, try to survive and break through in the worst environment, still become more powerful.

"What, my child, you are going to stay in the higher realms?!" When Qin Yining came back and learned of Qin Hao's decision, her eyes immediately became red.

She was extremely hurt, and also extremely surprised. She never thought that her second child would remain, not return with the family to their homeland.

“What is so good about cultivation? As long as you all are safe, our family stays together, then all is good! We can stay away from the disputes, there is no need to take risks in the higher realm!” Qin Yining advised, eyes carrying tears.

Qin Hao helped her wipe her tears, saying, “Mother, I want to become stronger, I don’t want to spend my life in an ordinary manner. I know older brother will not either, he is only going to the lower realms to temporarily seclude himself, he will return sooner or later. Meanwhile, I will cultivate in the higher realms, wait for him. In the future, we will bring you all back as well!”

“Child, what are you saying?” Shi Ziling looked at him. He actually really wanted his second son to go back as well.

“We are cultivators, so since we have walked on this path, we need to take it to its end. Only by standing at the peak, becoming the most powerful, can we transcend beyond, overlook the world, become free and unrestrained. This world will become chaotic sooner or later, temporary peace is but a notion. Me and my older brother are grasping precisely this short period of peace to cultivate, as we don’t know when it will end. By quickly rising up, we can then use our strength to face any unpredictable future changes!” Qin Hao’s decision was firm.

Shi Ziling and his wife opened their mouths, but they didn’t know what to say.

Shi Hao was also rather surprised, not expecting his younger brother to actually speak these words. He had matured quite a bit as expected.

“You need to take care of yourself!” Shi Hao removed the Long Life Battle Armor, returning it to his younger brother.

Then, after thinking for a bit, he said, “Come with me for a bit.”

He wanted to pass on some life-saving measures, secret techniques, and other things to Qin Hao. These were secret methods and experiences he obtained after experiencing blood and flames.

Just like that, Shi Hao stopped for two more days, instructing Qin Hao.

Immortal Qin was happy to watch all of this, after all, he had invested quite heavily into Qin Hao, so he hoped to see Qin Hao stay behind. Thus, he naturally didn’t disturb them.

During these past two days, there were sects that paid them visits continuously, sending important gifts that were even more precious than before.

It was clear that Shi Hao had slaughtered out his glory. Not even supreme being imprints were able to kill him, so it was easy to imagine that once he rose up, he would definitely become a supreme being.

Of course, the battle of Spirit Realm was still the main reason, making even Immortal Palace suffer greatly, what happened completely impossible to predict. All sects were shaken, their hearts carrying fear.

“This is too awesome, there are so many spiritual medicines! Even if we eat a stalk a day, we could eat for a really long time!”

“These weapons are all valuable with special origins! I like that halberd!”

The children who Shi Hao brought back from Desolate Border were all incredibly excited. They were all extremely happy during these past few days, in charge of organizing the gifts the clans sent over.

The golden lion was also supervising this, sending piles of treasures separately into different spatial magical artifacts.

During this period, there were people who came one after another, all of them great figures, higher level individuals from different sects. n)-σ-(V--E)(l)-B()l..n

It was to the extent where even sect lords and supreme elders of some sects, figures whose words carried tremendous weight back in their sects, arrived in Immortal Mountain just to see Shi Hao.

Some of them came to apologize humbly, some to pull their relationship closer. They all knew that Huang was a hidden dragon, one who would rush into the heavens one day.

“Little friend, you really are worthy of being a dragon among men. In the future, your accomplishments will be immeasurable!” Someone praised in the reception room.

During these two days, Shi Hao passed on secret methods to Qin Hao, not spending that much time with visitors. However, he was still rather careful with those from great sects, so he had no choice but to make a trip.

“Worthy young one, do you have a dao companion? My humble self has a daughter at the age of sixteen, definitely a peerless beauty...”

In the reception room, a sect lord actually spoke out like this. He came from an extremely ancient and distant inheritance, actually directly trying to pull close the relationship like this.

“He still doesn’t have one!” Qin Yining was also here, even more direct, eyes even lightning up. It was because she wanted Shi Hao to get married earlier, leave behind children.

Otherwise, these two sons of hers were both always getting in trouble these past few years, truly leaving her terrified.

When Shi Ziling heard this, he was also moved, nodding. The two children’s ambitions were great, both of them wishing to ‘pierce the heavens’, so he also wished to have some grandchildren earlier. In the future, those two sons could go wild in the world after.

“Haha, that is great news. My daughter has clear eyes and wonderful looks, beautiful and charming, indeed a rare beauty.”

Shi Hao was speechless. He looked at Qin Hao first, and then at his parents, saying, “Me and my younger brother’s ages are similar, she can get married to him and take care of him. If we leave him alone in the higher realms, none of us will be able to feel at ease!”

"My heart belongs to the dao, right now I do not have mortal thoughts." Qin Hao hurriedly shook his head.

"The children are shy." Qin Yining laughed. Then, she gave those two brothers a few stern looks, and then brought that young lady over, extremely enthusiastic.

Then, she was extremely fierce, and also decisive, secretly transmitting to the two brothers, demanding that each one of them had to take a wife, or else she wouldn't agree.

"If you want to stay behind in the higher realms, you have to satisfy father and mother's wishes!" Shi Hao glared out, looking towards Qin Hao. He couldn't argue with his parents, so he could only pressure Qin Hao.

In reality, Shi Ziling and Qin Yining wished for Shi Hao to get married first the most, have his own children.

However, they knew that too many things happened to Shi Hao in the past. For example, his respected master Meng Tianzheng had just left the world, Fire Clan's close female friend Huo Ling'er lost to the other side, so it wasn't easy to force him.

However, when some other people came to pay a visit, Qin Yining changed her mind. Moreover, there was anger in her eyes.

"Celestial Clan's people actually came, moreover brought a young lady?!"

"Yes, it should be the young lady named Yun Xi!" Someone replied.

"Celestial Clan wishes to ease the tension between us? I understand their intention. Have that child named Yun Xi stay behind, the rest can leave!" Qin Yining said.

She carried a wave of resentment inside, because she deeply understood how her eldest child went to City of Heaven precisely because he escorted that child named Yun Xi, yet in the end had his kindness repaid with malice.

She didn't feel the slightest good feeling towards this clan. Today, now that the topic of her eldest son choosing a wife came up, this could be considered collecting debt!

Chapter 1719 - All Parties Friendly

Celestial Clan came, making many people reveal a strange expression. Quite a few people had heard of the grudges between Huang and this clan.

Shi Hao was a bit surprised. He had just 'brought away' the clan's immortal stone, yet the other party already came knocking on their door. Was this really for easing the relationship? He reckoned the other side most likely wanted to ask for that immortal stone back.

There was no way he would back off. This stone was too important for him, it could resonate with the Void Immortal Gold Stele, produce unmatched scriptures. If not for him always searching for a path back into the lower realms recently, he would have long started his research of it.

"Celestial Clan's elder wishes for a visit." Someone reported again.

Earlier, Qin Yining carried anger, wishing to chase this clan's envoy out, only leaving behind Yun Xi, but in the end, Celestial Clan's experts didn't agree, still requesting a visit.

"Alright, let them in." Qin Yining said.

She also knew that the one the other side was scared of was Shi Hao, her eldest son, fearing that once he grew up, he would come to Celestial Clan to really settle everything.

The reason she was angry, somewhat losing her cool, was because she felt sorry for Shi Hao. Back then, he had showed kindness, yet in the end, the other side almost tortured him to death.

She wanted to use this chance to vent out her resentment, get repayment for her eldest son.

Celestial Clan's elder came in. When he saw important figures from other great sects in the hall, even sect masters, he was deeply shocked.

Previously, Celestial Clan's elder thought that he had already bowed his head a bit by not leaving even though he was refused, considered giving Immortal Mountain face. However, it now seemed like this could only be considered 'reasonable'.

Those who could become envoys were naturally gifted at speech. This elder from Celestial Clan was extremely polite, not mentioning past things, only tactfully expressing that they were willing to make some remunerations.

"What type?" Shi Ziling asked coldly. He also had a clump of resentment stifled in his chest, feeling like he should act more harshly because of what the clan did back then.

This elder secretly transmitted sound, claiming that they were willing to lend Shi Hao the Flying Immortal Stone for now, as long as he returned it in the future.

Towards this, Shi Ziling faced it indifferently.

Shi Hao laughed, not saying anything. It was because this was his spoils of war. As for whether or not he would accept or reject Celestial Clan, that'll depend on his mood.

Celestial Clan's elder sighed. He knew that this immortal stone would most likely be forever gone. Perhaps they could only entrust their hopes onto Yun Xi.

He opened his mouth, but in the end, he braced himself and brought up the events of the past, saying that Celestial Clan was too impulsive, that they shouldn't have troubled Huang.

Moreover, he carefully expressed that Yun Xi and Shi Hao were on good terms before, close friends, so they were now willing to send her with Shi Hao down into the lower realms.

There were still emissaries from other great sects and even sect masters here.

These words originally should have been discussed in private, but Qin Yining didn't give him the chance, only receiving Celestial Clan's emissary under this type of situation, which was why he could only remain here.

In the palace, many people revealed surprised expressions, quite a few people directly starting to discuss among themselves, making Celestial Clan's experts' face become red with heat.

It was because Celestial Clan was a great sect, even if it declined now, its reputation was still there. In the archaic years, it contended for the title of emperor in the three thousand provinces!

Even though they couldn't be compared to before now, they still had their prestige, their backing, leftover glory. However, today, they had to lower their stance like this, it really did leave others shaken.

A purple-clothed young lady walked into the palace hall, her long purple hair hanging down, skin spotlessly white and brilliant, eyes large, slender and elegant. She was truly captivating, beauty hiding the moon and shaming the flowers.

This type of beauty didn't need many words to describe it. It made a few elders reveal expressions of shock, inwardly shaken. One had to understand that these individuals were old monsters who had lived for an endless amount of time, long unaffected by secular ideals.

Yun Xi's complexion was rosy, feeling extremely embarrassed, at the same time carrying irritation. She felt like coming to Qin Clan like this, showing herself in the hall was extremely humiliating.

Towards the clan's arrangements, she was extremely opposed.

In the past, her relationship with Shi Hao was extremely close, but now, she was pushed out by the clan, it wasn't a type of equal association. When she thought of their past relationship, and then looked at the current situation, she found it a bit hard to speak.

"Yun Xi, have a seat here." Shi Hao invited her to have a seat, not willing to see her being stared at, being embarrassed here either.

He felt like Celestial Clan was too impractical, actually doing this type of thing, not considering how Yun Xi felt at all. If it was him in her place, he would definitely feel like this crossed the line, that it was embarrassing.

"Elder, I am not an item, I am a flesh and blood celestial!" Yun Xi didn't say this out loud, but instead transmitted sound.

She was resisting, but she still didn't wish for others to hear her, make Celestial Clan into a laughingstock.

However, those gathered here were all experts, some able to intercept messages. At the very least, those set masters and supreme elders could do it, because her cultivation level was still not enough.

Shi Hao naturally heard this as well.

When Celestial Clan's elder saw the change in expression of some people's faces, he immediately knew what happened, his face falling. He was also a bit upset, Celestial Clan was losing face today again.

"I am still rather fond of this child, just leave her here. You can leave." Qin Yining said, even though her cultivation couldn't compare to Celestial Clan's elder, her own son was enough to threaten them. Thus, she spoke out, moreover full of confidence.

This wasn't bullying others too far, but rather facing Celestial Clan coldly. The other clan already did all those things, so why would she face them with respect?

The situation immediately became a bit rigid. After all, this was Celestial Clan, a great clan who used to be called an Emperor Clan in the three thousand provinces, extremely influential. That was why some people tried to smooth things over.

Soon afterwards, a few other clans came over to pay a visit.

It was because they all knew that Shi Hao might leave any day now. It was rare for him to actually show up in Immortal Mountain, so they all came to pull their relationship closer.

What was shocking was that even someone from Demonic Sunflower Garden came.

They didn't send over any gifts, their attitudes ordinary, not like they wanted to dissolve any grudges. They only came here to listen to the situation.

Then, someone from Underworld Earth came, still rather polite. Even though that black skeleton carried underworld death energy, they still sent over some gifts.

Someone from Heavenly Country also came, the gifts ordinary, attitude a bit cold, clearly here just to learn more about the situation.

These people's arrival left many people shocked. At the very least, it expressed that these great clans didn't plan to worsen their relationship with Huang in the short term.

In these people's eyes, Huang's rise could no longer be stopped!

They felt that their grudge with Huang back then was too great, normally difficult to dissolve. It seemed like most of them had privately reached some type of agreement.

Even though these clans didn't seem all that friendly, it left more sects shocked, thus causing a group of people to come.

"Western Sect's Duo Mo's carriage has arrived." Someone reported.

Many people were shaken when they heard this. This was a powerful individual from Western Sect, his status venerable, extremely formidable. He had lived for an endless amount of time.

Duo Mo arrived. He wore a set of worn silk clothes that were scarlet red like blood, many golden threads weaved into it. It was already quite worn, giving one an ancient and profound feeling.

Many people were shocked. This should be an ancient figure from the last great era, what he wore was a protective precious artifact from the ancient monk bloodline -- a kasaya.

Duo Mo brought some gifts, including a bead that lacked luster. It was light yellow with black stripes. As a result, the eyes of the Fearless Lion at Shi Hao's side became sharp, staring fiercely at it without letting it go. *nove)Lb.1n*

This was a pellet of ancient monk ashes, absolutely priceless, yet it ended up being gifted to Shi Hao.

Many people were moved. The remnants of an ancient monk from the last great era, every single item was precious, let alone the final 'dao bones' left behind after destruction, which were even more astonishing!

“Regardless of how great the grudge there was between us, with these ashes, it should be enough to dissolve it.” The golden lion inwardly gulped, staring rigidly at it.

Western Sect was deep and immeasurable, only they could gift this type of thing.

Shi Hao didn’t act overly polite, directly accepting it.

Then, what left all sides shocked was that the visitors who came afterwards came from Desolate Border. There were visitors from Tuogu Yulong’s family, as well as Wei Family Four Phoenixes’ family. These were all but long life families.

Of course, Tuogu Yulong and the other younger generation individuals didn’t come, still roaming about the Nine Heavens. They wouldn’t return for quite some time.

This triggered a commotion. Even people from long life families appeared, coming here to see him off, this left a few inheritances from the three thousand provinces deeply shaken, becoming even more prudent and careful.

They now knew that Huang’s battle accomplishment in Imperial Pass was even more dazzling than the rumors, or else this wouldn’t be the case.

Then, someone from Heaven Mending Sect came. This was the inheritance from the three thousand provinces, affiliated with the Nine Heavens’ Heaven Mending Dao.

They sent over a letter, informing Shi Hao that Yue Chan and Qing Yi were preparing to merge together, become one. If Shi Hao had the time, he could wait a bit, because she would then come down to the three thousand provinces.

Heaven Mending Sect’s people not only sent over a letter, they also spoke tactfully, extremely polite when conversing with Qin Yining.

Everyone was moved. How powerful was Heaven Mending Sect? They had the Nine Heavens’ Heaven Mending Dao to rely on, this tree really had deep roots, a long life undying inheritance behind them. Their holy lady definitely couldn’t be married to others, yet now, it seemed like they were clearly loosening up!

“Heh, it really is laughable. Just a dead person, yet you all are going to such great efforts to neutralize the grudge. Is there even a need?”

Right at this time, an extremely cold laugh sounded right outside Qin Clan, shaking the skies. The sound spread like ocean waves, rippling outwards.

Chapter 1720 - Ruined Law Decree

Everyone was shocked. Those who came were all powerful individuals, moreover formidable figures. Quite a few of them revealed startled expressions.

It was because they knew that a vicious individual finally came.

All this time, there were some who believed that not everyone was willing to accept this situation, that there would definitely be people who would show their hostility towards Huang before he left, maybe even clash with him head-on. Now, this scene really did appear.

In the skies, there was a wave of bloodiness lingering about, the scarlet multicolored light lighting up the skies. It was also as if a dark red Spider Lily blossomed, extremely sinister.

“Heavenly Country!”

There were some who were shocked, this was the aura of a Heavenly Country’s assassin. When important figures from this clan moved out, they would often produce these types of scenes, indicating that there was going to be killing and slaughter.

Of course, this type of situation was rarely seen, because they liked to move through the darkness, attack from behind. Rarely did they appear from the front.

Only when they believed that there was not much to have misgivings over, that they could directly dominate their opponent, would they appear like this, put on a powerful display.

Immortal Qin spoke up, moreover standing out, looking outside the palace.

Outside Qin Clan’s mountain gate, a blood color spread, a powerful divine force rippling outwards, already about to rush inside.

“Dao friend Qin, you’ve overthought things. We didn’t come to deal with Qin Clan, but rather that little evil creature -- Shi Hao. It has nothing to do with anyone else!”

A cold voice sounded from the void, bloody mist immediately surging powerfully.

“You’ve crossed the line, this is my Qin Clan, that child is my clan’s descendant!” Immortal Qin walked out from the palace, looking into the depths of the thick blood cloud.

As for Shi Hao, he had also stood up, long walking outside the palace.

Everyone revealed expressions of shock. If it was just Heavenly Country doing this, then it really was too great of a risk.

This was, unless the legends related to Heavenly Country’s origins were true. Otherwise, they might have ended up kicking a metal plate.

“Heavenly Country’s vice sect master!” Someone said quietly, sensing that aura, knowing who it was that arrived.

It wasn’t Heavenly Country’s sect master, but rather just a vice sect master?

Some people revealed a strange expression, feeling that things were a bit strange.

“Immortal Mountain seems to be quite bold. We do not wish to become enemies with you, however, dao friend Qin, you most likely won’t be able to protect him. This time, it won’t matter no matter who it is that comes.” In the bloody mist, that voice continuously sounded.

Immortal Qin's face darkened. This was just a vice sect master, yet he dared speak to him like this. His great sleeve shook, with a honglong noise, the world exploded, crazy winds swept over, moreover bringing forth large amounts of lightning.

However, that place was completely quiet, all of the wind and lightning sucked away.

"Qin Clan's dao friend, is there a need to get angry?" An aged voice sounded, coming from someone else.

"Who?" Some Qin Clan experts shouted out.

They felt a wave of pressure, a shadow appearing over their minds. The aura and fluctuations were too shocking, hard for all of them to bear, making them all feel extremely uncomfortable, as if there was a ten thousand jin boulder weighing down on their chest.

Even Shi Hao was shaken, feeling like things weren't good.

"Hehe..." The laughter was extremely carefree, the voice also aged. A figure appeared, wrapped within white mist, mysterious and powerful.

When he slightly exerted his power, all of Qin Clan's ancient land shook, mountains and valleys about to collapse. Fortunately, there were great formations protecting this clan, with shocking symbols defending this place.

Otherwise, everything would be destroyed, all of the mountains and rivers turned to dust!

This was a supreme being, a powerful creature, yet he actually personally appeared, arriving in Qin Clan.

Everyone sucked in a cold breath of air, shaken up, feeling a huge headache. They felt like the situation was not good.

Behind that figure appeared an ancient palace, its surface covered in copper rust, grand and imposing, extremely large, realistic, and terrifying.

Many people were horrified, recognizing what it was. It was actually Immortal Palace!

Needless to say, everyone knew who it was that came. It was the lord of Immortal Palace, the most ancient existence, this inheritance's most powerful individual, a supreme being.

They all said that he had lived for an endless amount of time, strength terrifying, existing since the ancient times, but recently, he rarely showed himself, always hiding in the Bronze Immortal Palace, because his lifespan was nearing its end.

Who would have thought that he would appear today, leaving the ancient palace.

Moreover, they saw that this Bronze Immortal Palace was a projection, not a tangible body, yet it still released wisps of immortal power.

Everyone sensed that things were troublesome today.

"Even dao friend has showed yourself, you really are regarding a younger generation highly." Immortal Qin sighed.

Immortal Palace's existence was immeasurable. If one was only talking about combat power, there might not be anyone in the three thousand provinces within the mortal dao who could suppress him.

"Since I've come, you should know that I won't return empty-handed." Immortal Palace's supreme being said.

Immortal Qin raised his head, carefully looking at that white lump of white mist, saying, "However, my Immortal Mountain isn't a place that can be easily pushed around either."

Everyone here became quiet. When it involved a battle at this level, no one dared to rashly get involved, because there was a danger of sects being wiped out at every turn.

They all knew that even though Immortal Mountain's lord wasn't a supreme being, he still had confidence in his backing. There was a sect protecting supreme treasure here, an unmatched magical artifact -- Five Phase Mountain.

Its origins were too extraordinary. Not only was it an immortal dao magical artifact, it also carried unimaginable mysteries.

It was rumored that it was discovered in a certain damaged ancient world. On its surface, there were previously countless remains of gods and devils, all of them produced by it. It previously bore the weight of gods and devils!

It was rumored that it might be a world opening artifact!

Of course, only certain people had heard about this before.

This type of magical artifact were extremely few in number, different from immortal artifacts in the normal meaning. It was naturally produced from primal chaos.

Even though it might not necessarily be able to stop an immortal artifact, it touched upon the foundations of a realm. It was unimaginably ancient, could possibly even be traced back to before Immortal Ancient, full of mysteries.

It was quiet and silent in that damaged cosmos, drifting through the endless years, eventually brought back by Immortal Qin.

When it was discovered, the scene was terrifying. On those peaks that were like five fingers, there were gods everywhere, all of them corpses of the most primitive deities.

Unfortunately, they had long died.

However, this was enough for them to deduce many things, these were produced by Five Phase Mountain.

If not for the mountain seemingly being sealed, it would be more powerful than it was now.

"I know dao friend wishes to borrow the power of the immortal mountain, undo its seal. However, this time, things are different. Huang has offended a true immortal!" Immortal Palace's supreme being said coldly.

When this voice sounded, everyone felt a bone penetrating coldness.

Everyone knew what happened. Immortal Palace had a ruined immortal, the true origin of an inheritance, this was already no longer a secret. Recently, news have been passed around that something unexpected happened to the ruined immortal.

“Huang, you still aren’t coming out? Get out here now and accept the law decree!” Right at this time, Immortal Palace’s elder shouted.

Honglong! The void exploded. Outside Qin Clan, that world collapsed. There was a golden law decree that appeared, carrying immortal energy, as well as unmatched might, descending here.

Even if there were formations protecting this place, countless people in Qin Clan couldn’t endure the pressure, all of them trembling from their soul, shuddering all over.

That law decree didn’t have killing intent, nor was there any true magical force. Only a type of mysterious might. In the end, the legs of countless people weakened, falling onto the ground with pu pu noises.

Even sect masters and others were included among these!

Honglong!

Shi Hao’s body shone. He drew the Everlasting Sword Core, protecting his parents, using this divine weapon to resist, not letting his loved ones kneel.

At the same time, five streaks of divine light shot out from the depths of Qin Clan, scattering about Qin Clan, withstanding that power, making everyone’s trembling stop.

Otherwise, no one could withstand it.

Everyone was horrified. This was the law decree of a ruined immortal, there was no need to even think about it.

It was actually this powerful. Who could contend against this?

Now, it seemed like only Five Phase Mountain could stop it, the strength of people wasn’t its match.

“Heh, ruined immortal, in Spirit Realm, I destroyed its imprint. Now, it has the nerve to have me accept its decree?” Shi Hao said.

When everyone heard this, they were all shocked. Even though they had heard the rumors, also had their suspicions, when they received verification, they were still endlessly shaken. Many people were stunned.

Huang was so heaven-defying, did he really destroy the imprint of a ruined immortal?

In the eyes of some people, it was definitely because Spirit Realm suppressed the ruined immortal. They must have fought at the same level, and that was why the ruined immortal suffered greatly.

However, despite this being the case, it still proved Huang’s power. Did even someone with the aptitude to become a true immortal feel inferior?

A rain of light descended. The law decree in the void was brilliant, shining like a golden sun, rushing in all directions, incomparably divine. There were some ancient characters on it that rushed out, engraving themselves in the void, releasing rumbling noises.

The rough meaning was that it demanded that Shi Hao headed to Immortal Palace to confess his crimes!

If he went, would he still be able to remain alive? There was no need to think about the result!

“Brazen youngster, you are going to disrespect the decree?” Immortal Palace’s supreme being shouted.

“This old one even dares slaughter ruined immortals, why would I be scared of some waste paper?!” Shi Hao completely threw caution to the wind, because even if he bowed down, there wouldn’t be a good ending.

These words left everyone shocked.

This really was challenging a ruined immortal!
