

## Perfect WD 1721

### Chapter 1721 - Attacking the Supreme Being

"You are seeking your own doom!" Immortal Palace's supreme being only had these four words. In the white mists, his gaze was like lightning. He slowly reached out a palm, grabbing forward.

Hong!

A great quake shook this place. Qin Clan's great formation sensed something, releasing blinding radiance, stopping that large hand.

"That immortal or whatever struggling at death's door, why didn't he come? Could it be that he can't even walk anymore, really about to die?" Shi Hao said with a cold laugh.

He already knew that Immortal Palace had an immortal spring that could nurture the primordial spirit and flesh. Otherwise, that ruined immortal would have long died.

Meanwhile, this time, the ruined immortal, because he was injured, even more so couldn't leave.

"Speaking blasphemy against the true immortal again and again, your sin will not be pardoned!" Immortal Palace's supreme being said with a cold voice. That large hand moved, breaking through the barrier produced by Qin Clan's formations.

"Dao friend, you're going too far!" Immortal Qin said.

At this moment, in the depths of Qin Clan, five-colored divine light rushed out, surging, carrying boundless energy.

"Without undoing the seal, it'll be hard for you to stop my Immortal Palace's power!" Immortal Palace's supreme being said with a cold voice.

Even though he spoke like this, he still backed up a bit, scared that Five Phase Mountain would suddenly have its seal undone and smash towards him.

"Regardless, today, no one can save you!" Immortal Palace's supreme being stared at Shi Hao, and then looked towards the five-colored brilliance.

"Nothing more than a long-tailed wolf." Shi Hao berated, his words extremely sharp.

"Heh, even if Five Phase Mountain undoes its seal today, it still can't change reality!" Immortal Palace's supreme being began to chant true scriptures, as if summoning something.

Chi la!

The void split open. A great banner fluttered about, descending from the Nine Heavens, directly appearing in Shi Hao's hands.

This immediately left him stupefied. He couldn't help but look upwards, inwardly surging with emotions.

This was the Immortal King Corpse Wrapping Cloth, the banner of Immortal Ancient. It had previously been of great service in Desolate Border's battles!

This was the supreme treasure of the Nine Heavens, belonging to a long life family, yet now, it actually descended, appearing in his hands. It was clear that someone sent it into the three thousand provinces, paying attention to this place, lending it to him.

When he carefully thought about it, it was most likely Immortal Academy or Sacred Academy's elders who took action.

Shi Hao already heard that when Wind Clan's old ancestor wanted to come down and get rid of him, it was these two elders who stopped him!

Now, they came to help to help him out again!

One could see just how close they were to Great Elder Meng Tianzheng. The reason why they helped Shi Hao now was completely because of giving Meng Tianzheng face.

Shi Hao sighed. When he thought of Great Elder, his heart immediately felt pain. The heavens truly were jealous of great heroes!

"Who?" Immortal Palace's supreme being stopped, staring coldly into the sky.

Huala!

At this time, Shi Hao brandished the great banner, directly slaughtering his way out. This was but the Immortal King Corpse Wrapping Cloth, comparable to a complete immortal dao magical artifact, its power incomparable.

Back then, when he was in Desolate Border, this thing could stop undying beings!

The corpse wrapping cloth now had a flagpole, added by a supreme being. However, that pole was definitely not an immortal dao weapon.

However, the banner itself was enough!

Honglong! Shi Hao shook the great banner, directly splitting the skies, sweeping towards the supreme being. The power was incomparably vicious, intimidating to the extreme.

Everyone became stupefied. Huang was formidable after all, actually having the assistance of a long life family from the Nine Heavens!

Meanwhile, right at this moment, everyone became stupefied, because the power of that great banner was too great. It crushed the heavens, sending that Immortal Palace supreme being flying.

Correct, that powerful individual was careless, thinking that a wave of his sleeves was enough to capture Shi Hao.

As a result, that Immortal King Corpse Wrapping Cloth moved, releasing unmatched immortal power. Even though it didn't hit him, he still went tumbling outwards.

On the ground, everyone was shocked. Five Phase Mountain shook, protecting Qin Clan. Otherwise, those fluctuations might destroy this place, the murderous energy too strong and terrifying.

"Brat, you actually dare humiliate me!" Immortal Palace's supreme being said coldly, taking action again.

He was at the peak of mortal dao, able to grab down the sun and moon. However, he was too apprehensive of this banner, actually feeling like his hands were tied, not daring to truly clash with it.

Honglong!

Shi Hao attacked again. The banner surface swept out, hacking into the great cosmos like a heavenly blade, cutting through the blue sky, making Immortal Palace's supreme being move his body again, immediately entering outer space.

His expression was ugly. The immortal dao magical artifact left him vexed and resentful. He didn't dare face it head-on!

"You old thing, where do you think you are going?!" Shi Hao rushed out, chasing after him.

Everyone was stupefied. Huang dared chase after Immortal Palace's supreme being? This was simply like something out of a fantasy!

They all knew that Huang was formidable, but he still didn't step into that domain after all, how could he chase after someone at the peak of mortal dao?

"You've truly angered me!" Immortal Palace's supreme being said coldly. Immediately afterwards, he disappeared from his original location, suddenly vanishing.

Shi Hao was inwardly shaken. With a hula noise, he wrapped the great banner around himself, protecting his entire body.

As expected, a black fist smashed over, aimed at the back of his head.

Honglonglong!

It was as if muffled thunder crashed down. Shi Hao quickly spun around, the great banner moving out again, crushing heaven and earth, making Immortal Palace's supreme being feel great fear, withdrawing again, moreover disappearing.

This great banner had been soaked in the blood of immortal kings, making it completely different. Even Immortal Palace's supreme being felt apprehension, not even having the courage to face it head-on.

"Young generation, do you think that just because you have an immortal artifact in hand, that I cannot kill you? What is powerful is only the self, all external items are nothing!" Immortal Palace's supreme being said coldly.

He disappeared, becoming one with heaven and earth, terrifying beyond compare, as if he turned into a part of the universe himself.

Hong!

Shi Hao exerted force, shattering the outer space skies.

Peng!

Suddenly, Immortal Palace's supreme being reappeared. His body fell out, as if he suddenly suffered a blow.

“Who?!” He was startled and furious. Someone attacked him in secret.

Shi Hao understood. The one who gave him the great banner was a supreme being, moreover now taking action in secret.

He held the great banner in hand, sweeping it outwards, going all out, bringing it down viciously onto Immortal Palace supreme being.

Peng!

This time, Immortal Palace supreme being’s body became sluggish again, because there were two domains that rushed at him in secret, almost trapping him, about to lock him down in the sky.

As a result, when the great banner swept over, his reaction speed was a bit late, directly being sent tumbling by the immortal dao great winds again.

Someone was taking action in secret, targeting him, a supreme being who was disrupting things!

However, outsiders couldn’t see anything, thinking that it was all done by Shi Hao. All of them were shocked, completely stupefied. Just how terrifying was Huang?

In everyone’s eyes, even if Shi Hao had an immortal weapon in hand, if he fought against a supreme being, he would still lose. It was just like giving a child a weapon, they still wouldn’t be able to harm an adult.

However now, this was a completely different case. Immortal Palace’s supreme being suffered greatly.

Peng!

When powerful ripples spread in the void, Immortal Palace’s supreme being was bound again. The great banner swept over, almost hitting him. This time, he backed up in a sorry state.

At the crucial moment, he called over the law decree to block the great banner’s attack.

Kacha!

The golden decree shattered, turning into specks of divine light, scattering in that area, extremely dazzling.

“You dare destroy the law decree of a true immortal?!”

“Just a piece of waste paper, you’re the only one who thinks its anything special!”

At this time, Immortal Palace’s supreme being felt a wave of resentment, a bit sullen. There was actually a supreme being targeting him in secret, leaving him in an extremely passive situation.

It was to the extent where he sensed that if those two didn’t feel some apprehension towards the ruined immortal, they would have long dealt the fatal blow.

In the end, he was furious. His current situation really was vexing. He was tossed and turned by the great banner’s winds, even with his status as a supreme being, it truly was humiliating.

An ancient incantation sounded, resonating with something in the limits of the world.

Hong!

In the distance where the foundation of the Immortal Palace was, the Bronze Immortal Palace was uprooted. It crushed the void, flying over quickly, hurrying to this place.

“Not good, the true Bronze Immortal Palace has arrived. This is an immortal artifact!” Someone said with a trembling voice.

Everyone felt a headache. Was this now going to be an immortal dao great confrontation?

Right now, Immortal Palace’s supreme being’s hair was a mess, clothes tattered, face ashen. If not for his dignity being tarnished, he wouldn’t have summoned the Bronze Immortal Palace so quickly.

With his status, now that he came to capture Huang, he actually had to use this type of divine item, it really didn’t make him look that good.

“Isn’t this bullying others too much?” At this time, Immortal Qin spoke up. His face was cold, now a bit angered.

He had previously said that Qin Clan didn’t fear things happening, even if a ruined immortal came, this would still be the case, but that was because he knew the ruined immortal normally couldn’t leave his residence, recovering, struggling at death’s door.

“Go!”

He released a great roar, displaying a secret method, as if he undid some type of seal. Great brilliance erupted from the depths of Qin Clan, a divine aura covering heaven and earth.

Shi Hao was shocked. Immortal Qin really could undo Five Phase Mountain’s seal?

Hong!

On the ground, five-colored multicolored light rushed into the heavens. Immortal energy overflowed, the scene extremely shocking, making the sun, moon, and stars tremble. Even the sun was about to fall down, the great cosmos becoming unstable!

Then, five-colored immortal light flickered, directly sweeping towards the Bronze Immortal Palace, about to seize it away.

When he saw this scene, Shi Hao naturally wouldn’t just watch in a stupor. He frantically brandished the iron blood great banner, releasing ferocious attacks, targeting Immortal Palace’s supreme being.

In that moment, outer space shook, sun and moon sinking, stars growing dim. A few great stars exploded on the spot, breaking to pieces.

Honglong!

This time, there were two waves of power that rushed at Immortal Palace’s supreme being, restricting him again.

Peng! Shi Hao’s attack slammed into Immortal Palace’s supreme being. Even if there was the bronze palace protecting him, the enemy still coughed out a mouthful of blood, his body flying outwards.

All of this happened too quickly, no one expecting Immortal Palace's supreme being to be the one with the dishevelled hair, blood flowing out from the corners of his lips. He was actually sent flying, injured like this!

## Chapter 1722 - Suppressing Immortal Palace

A supreme being came to attack him, yet Huang actually stopped him, moreover causing Immortal Palace's elder to cough out blood, his body flying out. This left every sect shocked.

Immortal Palace was always extremely powerful, ever since the ancient times, it was already a colossus power, never declined, always at the very peak, overlooking the three thousand provinces.

This was especially the case when news spread that they had a ruined immortal still, who didn't feel fear, who dared show any disrespect? Even the Nine Heavens' long life imperial court and others felt restraining fear, wouldn't provoke them.

However, today, a youngster faced the challenge, taking action without any apprehension, fighting intensely against Immortal Palace's supreme being without any thought of personal safety. Moreover, he didn't even suffer much because of it!

Immortal Palace's elder revealed his true appearance. When the mist scattered, white hair that was like snow could be seen, his face flushed with an unnatural redness. There was blood at the corners of his lips, his eyes cold.

The clash just now made his qi and blood surge, all of his sturdy and imperishable bones released pi pa noises, almost breaking.

"Which dao friends is it? Since you came, then why not go all out, just come here and fight?!" Immortal Palace's supreme being said coldly, looking around him.

There were two supreme beings who were acting against him in secret, making the depths of his eyes incredibly cold. Killing intent appeared. Ruined immortals were the most powerful in the present world, who dared go against them? Were there really people who dared provoke Immortal Palace's dignity?

However, no one replied, the two great supreme beings didn't jump out.

"Old thing, could it be that you're out of gas?" Shi Hao said, his voice full of contempt, provoking Immortal Palace's old supreme being.

"Heheh, haha! When this old one's might dominated the world, no one even knew where your ancestors were!" He replied with a sneer.

"Are you not scared of your words coming back to bite you? Even if your ruined immortal was here, he still might not dare claim to be more ancient than Stone Clan!" Shi Hao said.

Immortal Palace supreme being's face became sluggish. This was indeed the case. Stone Clan stood out from the others, a clan that had been passed down from the last great era until this one, having a great history.

Unfortunately, this clan had all been lost in Desolate Border, or else how could they not be included in the long life families? This was a clan that was bestowed the title of King before!

“You can only blame your ancestors for not being sensible, diggin their own graves!” Immortal Palace’s elder roared with laughter, carrying cold intent, as well as a type of expression of mockery.

Hong!

Beyond the skies, Shi Hao brandished his great banner, sweeping it outwards. His hair flew about, expression in his eyes incredibly fierce. He was now truly angered.

In the battle of Desolate Border, this clan of kings established such glorious contributions, yet in the end, they were treated with persecution, Stone Clan instead becoming the sinner’s blood descendants!

It could be said that Immortal Palace was included among those who carried out this judgment, that it had a lot to do with that ruined immortal, thus causing Shi Hao to enter an endless period of humiliation and resentment, truly experiencing injustice.

This was especially the case when even now, Immortal Palace’s elder still spoke like this, making Shi Hao surge with endless killing intent.

“Old bastard, during the battle of Desolate Border that happened not too long ago, when the other side invaded, where were you? You didn’t dare face the enemy, cowering in the back, yet now, you have the nerve to bring up past events. Who do you think you are, you dare shame my ancestors? Compared to them, your Immortal Palace people are insignificant cowards who are greedy for life, only knowing how to be a tyrant at home, acting out after the bloody battles of Desolate Border have come to a close. Having a sect like yours really is the three thousand provinces’ disgrace!”

Shi Hao berated. The great banner in his hands fluttered about, producing great winds, moving the great stars in outer space one after another, all of them shaking.

Under pu pu noises, great stars cracked apart and exploded, the power terrifying to the extreme.

Dang!

The Bronze Immortal Palace shone. It rushed over, stopping the iron blood war banner. Immortal mist surged between the two, divine light endless, as if an expanse of undying sea was surging!

Immortal artifacts clashed. When supreme beings were involved, this type of battle naturally became dangerous to the extreme.

Shi Hao was in danger. After all, the other side was a supreme being, while he was only a Self Release Realm cultivator.

Comparatively speaking, if he wanted to fight at this point, it was impossible!

Supreme Being Realm was an extremely mysterious domain, no need to doubt their strength, impossible to surpass in the Mortal Dao Realm. It was because only creatures at this level had a chance of touching upon the immortal dao.

Even if the entire Nine Heavens Ten Earths were searched, from past until now, out of millions and millions of cultivators, just how many supreme beings were there? They were all the Pride of Heaven from different periods!

They were all the leading figures of their respective eras!

This type of individual, if they could be killed by those of lower cultivation level than themselves, how could they have even become supreme beings in the first place?

That was why now, when Immortal Palace's elder called over the bronze palace, Shi Hao's situation immediately became incredibly bad, placed in extreme danger.

"Younger generation, hand over your life!" The elder shouted. He used the copper palace to block the great banner. Immortal light shone endlessly between the two, the noises like a roaring sea, surging greatly.

Moreover, he reached out a large hand, grabbing towards Shi Hao, a sinister smile appearing on his face.

It was because he discovered that the two hidden supreme beings felt reservations, feared that the ruined immortal would appear, so they didn't appear. Moreover, after Qin Clan's Five Phase Mountain shook intensely, it actually became quiet again.

He knew that it was most likely the ruined immortal from Immortal Palace's foundation who released his consciousness, intimidating them.

Sure enough, right at this moment, a mysterious ripple swept out. Even though it was extremely light, it left many powerful figures shocked. This was the will of a ruined immortal that was awakening!

Perhaps that dormant existence might make an appearance!

The situation was critical. While Shi Hao's situation was looking worrisome, suddenly, heaven and earth shook. Immortal Palace's elder's body shook intensely, and then he coughed out blood from his mouth.

His fine hairs stood on end, absolutely horrified. It was because the two hidden supreme beings took action again. This time, it was different from before. Were they going to go all out and go after his life?

Those two were going to fight a decisive battle against him?!

Honglong!

Two streaks of light appeared, carrying immortal energy and hazy auspicious brilliance as they hacked over. They were impossible to evade, extremely dangerous.

At the same time, heaven and earth shook greatly. Five Phase Mountain appeared from the depths of Qin Clan, actually floating out, the boundless pressure rushing into outer space, suppressing him.

"You all dare?!"

Immortal Palace's elder shouted out, his expression changing. He thought that the two supreme beings and Qin Clan were scared, feeling restraining fear towards the ruined immortal. Who would have thought that it was nothing but the calm before the storm, they really dared kill him!

Peng!

The other side acted out too quickly. Even if he reacted as quickly as he could, he would still be hit. At the very least, the raging power stirred by those two great supreme beings' powerful methods was not something he could dodge.

Under honglong noises, he couldn't help but cough out blood, the blood even gushing out of his body.

Of course, the greatest threat was that strange Five Phase Mountain. It was as if a true immortal undid its seal, now crushing in his direction, extremely terrifying.

Honglong!

At the crucial moment, he avoided Five Phase Mountain, but was surrounded by the two great supreme beings' mysterious techniques. His body shook endlessly, blood splashing out, destroying many great stars in outer space.

Chi!

He rushed towards the Bronze Immortal Palace, wishing to enter inside and avoid the attacks outside.

"Old bastard, you still want to hide back into your turtle shell?" Shi Hao moved that great banner, stopping him, because the iron blood war banner was currently facing the bronze palace.

Hong!

The Bronze Immortal Palace shook intensely, shaking off the banner surface, revealing its opening. Immortal Palace's elder didn't say a word, hiding straight inside.

Dang!

However, at this time, Five Phase Mountain shone, immediately firing five streaks of immortal light, making the bronze palace tremble intensely. The elder inside the immortal palace was also shaken, his body full of cracks, spraying out large mouthfuls of blood from his mouth.

Chi!

At the same time, the Everlasting Sword Core in Shi Hao's hands that had been neglected released brilliant light, firing a streak of sword radiance, actually tearing through the elder's body protection energy, piercing him, making him release a miserable scream.

"You... you all!"

He suddenly turned around, glaring furiously at him. It was because he knew that the two supreme beings secretly controlled the divine sword, seriously injuring him. This injury was too severe, injuring his foundation.

However, things didn't end here. Right at this time, he sensed a bone piercing killing intent.

Hou! no! 1b-1n

He released a furious roar, symbols surging around his body, flames raging. He avoided a disaster.

It was because the secret techniques the two supreme beings released earlier tangled about him, some of the true force not scattered yet, attached to his bones. Now, they actually erupted, turning into a divine sword, about to hack apart his body.

Pu!

In that instant, he protected his vital areas, but his arms fell over, and then exploded into a bloody mist.

Like a lizard who cut its own tail, he used this to preserve his life.

This really was too humiliating, his current condition too terrible. At the very least, for a supreme being, this was intolerable shame, he actually suffered this type of disaster.

Dang!

The entrance of the Bronze Immortal Palace closed tightly, preventing outsiders from looking in.

Immortal Palace's elder was furious. He was but a supreme being, yet he was actually humiliated like this. How could this be endured?

"Ancient ancestor, if your condition isn't too terrible, please make an appearance!" Immortal Palace's elder said with a low voice, and then he chanted a type of ancient scripture. He was calling out, communicating with Immortal Palace's foundation.

There was a ruined immortal there. His true body was sleeping, but there was a will imprint that awakened, sensing everything in the outside world. Not long ago, the decree that was released was precisely passed down by it.

Dong!

In this world, it was as if an immortal drum sounded, shaking up the three thousand provinces. It was as if a glorious divine hall appeared, about to enter this world, as if millions of heavenly soldiers were shouting.

In that instant, in a certain place within the three thousand provinces, immortal light surged. Auspicious brilliance shot out in endless streaks. A wave of immortal dao aura covered heaven and earth, rushing into the skies.

"The ruined immortal... is making an appearance!"

In that instant, even the sect masters were all shocked, shaking in fear. Someone said this with a trembling voice.

#### Chapter 1723 - Ruined Immortal Appears

The ruined immortal was coming out! This was too shocking. A will rushed into the heavens, immortal dao light splendor shining upon the world, leaving all under the heavens shocked!

Even for ordinary creatures, who would have thought that there were still true immortals in this world?

Even a few giants only recently heard that Immortal Palace had a dormant ruined immortal. He had always remained in seclusion, only today was this truly confirmed.

It was first the law decree that appeared. Then, immortal splendor split the heavens, the noises as if they came from the drums of heaven. This was caused by the movement of a ruined immortal, he was reviving, shaking the sun, moon, and stars.

Right now, all life trembled, as if the judgment day of heaven and earth arrived, the entire great era about to head towards its end!

This was precisely immortal dao might. For many people in the three thousand provinces, they had never experienced this before. Who would have thought that they could see an immortal in this life?

Honglong!

After one final tremble, that pressure scattered.

At the very least, for normal people, it was only an instant of absent-mindedness, and then everything returned to normal. It was as if a volcano erupted, and then everything vanished.

For the most powerful cultivators, this type of feeling of pressure instead increased.

They knew that something major really did happen. The ruined immortal was making a move, approaching, about to head to Qin Clan's homeland!

"This isn't just a threat, not just words, he really is coming!" A sect master shouted.

There was nothing more terrifying than this. A true immortal was coming to attack, who could contend against him?

Of course, there were some who were happy, the inheritances that were against Shi Hao. They immediately became excited, great waves stirring within them. Quite a few people clenched their fists.

Now, normal creatures couldn't sense that wave of energy anymore, only those at the very peak could sense that an absolute monster was approaching.

The ruined immortal was making an appearance, this was world-shaking!

However, he concealed his immortal dao aura, not letting it leak out, because his condition was poor. Back then, he was beaten into ruin, no amount of immortal dao power could be randomly wasted.

At the same time, he didn't wish to act ostentatiously, disturb the three thousand provinces.

At his level, what he sensed was the great dao, what he cared about was karma. If everyone in the three thousand provinces were frightened by his appearance, it would likely produce some variables that might disturb the order of heaven and earth.

This type of restraint didn't escape Immortal Qin, Shi Hao, and the others' detection. It was because the ruined immortal didn't ignore them, but rather came precisely for them.

The ruined immortal was too powerful, a single movement would stretch across several provinces, speed too fast, exceeding one's imagination!

Supreme beings could sense it, the other powerful figures could also sense it, even Shi Hao could sense how powerful the energy was, and also how great it was. It was as if a will appeared in this great

universe, descending from outer space, sweeping through the entire world, no one its match. n--o-/v.-e).l--b(-1--n

“Heheh... haha...” A laughter sounded from within the bronze palace. It was a bit cold, even more so a bit ear-piercing, at the same time extremely mad.

This came from Immortal Palace’s elder. Even though he shut himself off in the copper artifact, he could still sense that the ruined immortal was approaching, about to enter this place.

“How could this be? Wasn’t it said that the ruined immortal was dying, unable to leave that place of rest at all? Yet he actually appeared!” Someone said quietly, one of three thousand provinces’ giants. He understood some inner details.

He wasn’t the only one, there were others, even the two supreme beings who came from the Nine Heavens were stunned. This didn’t make any sense, how could the ruined immortal walk out of that ancient land?

Immortal Qin’s face became grave, this indeed exceeded his predictions. He never thought that there would be such terrifying consequences!

By offending Immortal Palace, a ruined immortal would come out? Just how terrifying of a thing was this? In the future, who dared provoke them, who dared contend against them?!

“All of you are going to die, not a single one of you will be able to escape!” Inside the bronze palace covered in rust, that elder’s ice-cold voice sounded. He now calmed down.

It was because he knew that even if this place had more than one supreme being, they couldn’t defeat a true immortal. When the time came, whoever dared take action, that person would be wiped out, all of them swept through.

Today was destined to be a day when Immortal Palace would display their power.

It was coming closer. A war chariot drove over, speeding along, tearing apart the sky dome, crushing time, penetrating space, crushing all things in this world. It carried chaotic energy, arriving in this province.

Honglong!

Eight heavenly horses rushed over, treading on the heavens, every single one of them covered with dragon scales and a long single horn on their heads. A pair of wings extended out from their ribs, shining brilliantly like those of phoenixes.

This was a group of aloof and transcendent divine beasts. They pulled a silver-colored war chariot, now approaching.

The heavenly horses were of all different forms, some closer to a dragon, some like lions, some like horse beasts, but everyone knew that these creatures were rare treasures.

Even in the ancient times, the most dazzling era, these creatures were extremely rare.

It was rumored that true pure-blooded heavenly horses served as mounts for the most powerful. They could move while treading on stars, their speeds too fast.

It was to the extent where there were even rumors that in the ancient realm where immortals lived, the heavenly horses were indispensable vicious beasts, important mounts.

“Formidable, Immortal Palace’s backing really is too great, actually having eight heavenly horses. They have never been shown to the world before!”

Everyone sighed with astonishment, greatly shaken up inside.

Honglong!

Then, the eight ancient beasts rushed over. The skies cracked, a powerful aura covering the world. Outside Qin Clan’s mountain gate, many cultivators from different clans trembled.

In that instant, putong sounds rang out continuously. Many people fell weak onto the ground, unable to endure that pressure.

Moreover, this was still under the situation where the ruined immortal restrained his aura. He sat inside the silver war chariot, not circulating immortal light. Otherwise, everyone might begin shaking.

When the eight heavenly horses stopped, their hooves stopping in the air, this place collapsed!

This type of scene was unimaginable. Eight heavenly horses, their bodies covered in green scales, some scarlet red like blood, one like a Flood Dragon, another spreading its wings like a True Phoenix, powerful to the extreme!

Every single one of them stood proudly like great mountains, leaving everyone shaken, only able to look up towards them.

“The mounts of true immortals are too terrifying!” Everyone was shivering in fear.

It was because even now, they couldn’t see through those eight creatures’ cultivation levels. The heavenly horses moved through the skies, looking down on all life.

The heavenly horses were giant, a single hoof enough to crush mountain peaks, all of them incomparably grand and majestic. The expressions in their eyes were cold, like exceptional experts as they stood there proudly.

Behind them, the silver war chariot was extremely massive, and also extremely ancient, carrying an ancient meaning, bearing the glorious battle accomplishments of the past.

This was a war chariot that had experienced Immortal Ancient great battles. There were all types of mottled traces that recorded the past blood and flames, many blade marks and arrow holes on its surface.

Shi Hao, Immortal Qin, and the others all shook inwardly, some of them knowing that the reason why the immortal could come out might be related to this chariot. It could nurture and protect the ruined body and primordial spirit!

Dang!

The entrance to the bronze palace opened. That elder came out, kneeling in the void, kowtowing towards that war chariot, piously displaying great respect.

"I pay my respects to the old ancestor!" He said with a trembling voice.

"Huang, why are you not coming here yet?" -

A cold voice sounded from inside the ancient war chariot, a bit aged, but extremely intimidating. The voice was calm, but it made everyone tremble endlessly.

This was a ruined immortal who was speaking, ordering a later generation youngster.

Shi Hao sighed. Who would have thought that this type of existence really would appear, coming just for him? This time, things really didn't look good.

"When a true immortal descends, all life will bow down, yet you are this daring, actually not showing respect?" Immortal Palace's elder shouted out. Then, he stared at Shi Hao, shouting, "Kneel and crawl over!"

Everyone broke out into a cold shiver. There were many experts who quickly kneeled, seriously showing respect, even a few sect masters lowered their heads, also bowing.

This really was the power of a ruined immortal. Even if they didn't take action, they could still look down on the world, threaten the three thousand provinces!

The ruined immortal didn't say anything. That silver war chariot carried an imperishable aura, releasing some mist that surrounded that region, making this area of the world tremble slightly.

His aura was too powerful. Even if his immortal energy was restrained, it could still make even the great dao tremble, command the universe, threaten the skies above and earth below!

During this process, the ruined immortal didn't speak further, just sitting inside the war chariot, waiting for Shi Hao to come and bow down!

#### Chapter 1724 - Directly Facing the True Immortal

In that instant, the world became quiet. No one dared utter a word, all of them on the ground, unknown just how many creatures were kneeling.

Not a single creature was weak, all of them from different sects, belonged to different clans.

However, they all lowered their heads, not daring to look into the sky. They didn't even dare sneak a look at the Heavenly Horses, all of them kowtowing below the sky.

The eight Heavenly Horses all had strong physiques, their muscles taut like steel, dragon scales covering their bodies densely. They hovered in midair, not moving at all, also receiving everyone's worship.

Shi Hao didn't move, quietly standing in place. He was now in great danger. How was he supposed to deal with this situation?

"Don't know the difference between life and death, you aren't going to pay your respects to a true immortal? This is a clan eradicating offense!" Immortal Palace's elder shouted.

Right now, who dared say anything, how many people dared step out? When faced with a powerful ruined immortal, there was not a single being here who could match his strength. They all shivered in fear, many of them kneeling on the ground, not daring to speak out.

Even the two supreme beings from the Nine Heavens vanished without a trace.

Those two didn't persist with this, because they knew that appearing now to save Shi Hao was meaningless, they would only be throwing their lives away too.

Only by withdrawing into the Nine Heavens could they escape this disaster.

They had previously heard that the three thousand provinces' ruined immortals, under normal situations, wouldn't leave their homes, always remaining dormant, the first reason was because their bodies were ruined, difficult to move around, second was that the Nine Heavens had life restricted regions, intimidating them!

For the ruined immortal, if nothing unexpected happened, before his body completely healed, he normally wouldn't head to the Nine Heavens!

"Clan eradicating offense? By what right do you all have to declare this? Why do I have to pay my respects?" Shi Hao said coldly, extremely cold, and also extremely calm, not revealing panic or fear.

This left everyone shocked. He still dared speak out? This was a true immortal! Shi Hao actually spoke with such a domineering tone, not bowing down.

"You really are quite something, daring to say these words even when faced with an unmatched being." Immortal Palace's elder's voice was extremely cold. "The entire world knows that when meeting a true immortal, one must bow down. These are our predecessors, unmatched beings, our virtuous seniors who previously defended our world, they have established incomparable contributions! You are ignorant and arrogant, actually daring to go against the great one, brazen and disrespectful, do you wish to go against the entire world?!"

These words erupted like thunder through this place, shaking up heaven and earth. He was threatening Shi Hao.

"Virtuous predecessor? Great contributions?" Shi Hao didn't seem affected at all, instead laughing loudly, his tone also carrying a bit of disappointment and frustration. "Those who have established great contributions have all died, some before Immortal Ancient, some killed in this great era, bones buried in Desolate Border! For a coward like him who doesn't dare fight, why is there any reason to respect him?!"

"Do you know what you are saying?" Immortal Palace's elder berated, eyes like lightning, cold and frigid. He wanted to suppress Shi Hao.

"Of course I know. Could it be that what I am saying aren't facts?" Shi Hao didn't feel fear, raising his head and saying, "If you really dared risk life and limb, fight against the other side, there wouldn't be any ruined immortals left. Nothing more than stirring up internal strife!"

"I previously heard that in the battle of Immortal Ancient, the Kun Peng was heavily injured, suffering the backstab of someone from this great era, it should be the world of a ruined immortal right? Perhaps

the reason why he is ruined is precisely because of the Kun Peng!" Shi Hao really went for broke, daring to say anything, even if he was facing the ruined immortal right now.

Below, many people's faces became pale, kneeling on the ground, not daring to move. This was just a youngster, yet he actually dared to jab at a ruined immortals' shortcomings like this.

"Protect this world? I heard that the so-called ruined immortal previously convicted the descendants of those with the greatest contributions with crime. Now that the kings have passed on, does he feel like he can rule over the world himself now?"

"This type of person is someone deserving of respect? During the battle of Desolate Border, where was he? Nowhere to be seen! Yet now, when the world is at peace, you dare come out tyrannically abuse others, this true immortal really is something! This type of unmatched being, it is one thing if he isn't brought up, I would rather pay my respects to the obscure and unknown old soldiers in Desolate Border!"

Shi Hao released a relentless barrage of criticism, completely speaking his mind, leaving everyone shaken.

It wasn't that they didn't know he was daring, but he actually ridiculed a ruined immortal right in front of his face, leaving everyone stupefied. It seemed like he didn't want his life at all!

"Shut your mouth!" Immortal Palace's elder cut him off, loudly berating him, scared that he would say anymore. These words that didn't care about the consequences at all made even his face go pale.

However, the creature in the silver carriage was extremely calm, not showing anger, instead indifferent like a fossil, not the slightest emotional fluctuations to be seen.

"Younger generation, what do you understand? A true immortal can overlook endless ages, what he is considering is the greater situation, how could his thoughts be something an insignificant person like you with limited thoughts could understand? Don't try to guess at the mind of an immortal with your own!" Immortal Palace's elder felt a great headache, shouting out here, wishing to neutralize this situation, scared that the true immortal might also involve him out of anger.

"There is no need to say too much." Inside the silver war chariot, that creature spoke out, stopping Immortal Palace's elder. Then, he transmitted sound to Shi Hao, saying, "Come and meet me."

The voice was extremely calm, but it carried unquestionable dignity. This was a type of pressure that made one's mind tremble, made all bow their heads, even gods kowtow, not daring to go against him.

Shi Hao felt as if he was struck by lightning. Even though he wasn't attacked, it still felt as if his soul was going to explode.

This was the intimidation of a ruined immortal, the powerful aura leaked out, pouring outwards. If he dared go against it, it would crush him, a great danger descending!

"Are you really going to force me?"

Shi Hao said to himself. He wouldn't cower. He already went for broke, about to use all of his methods, go all out here.

It was because there was no room for compromise here at all. Even if he lowered his head, it wouldn't do anything. In the eyes of a true immortal, he was as weak as an infant.

Without ascending into the immortal level, in those creatures' eyes, he was nothing more than an ant!

"My child!"

In the distance, Qin Yining cried out with a sobbing tone, shouting out. She really began to panic, scared that Shi Hao would be killed, die before her eyes.

"Child, come back!" Shi Yiling also shouted. He knew that if he faced the true immortal, no matter how formidable his oldest son was, he would still be far from enough.

Right now, all they could hope for was that Shi Hao would return. Even if it was death, they would die together as a family.

They were currently within Qin Clan, not following the others out. It was because there was Five Phase Mountain shining there, protecting the pure land below.

"You still aren't coming over and kneeling?!" Immortal Palace's elder shouted. n))Ove**l**lIn

"Bullying others too far!"

Immortal Qin spoke. At the same time, he slapped his chest, that area shining, an expanse of scarlet multicolored light erupting, incomparably dazzling.

En?

Forget about the others, even the ruined immortal in the silver war chariot revealed an expression of shock.

The others were even more shocked!

That blood was bright red like a diamond, releasing mysterious brilliance, incomparably resplendent. There wasn't much, but it dyed the heavens red, as if scarlet brilliance ignited the heavens.

Immortal blood!

Many people could tell that this wasn't normal blood, that it was immortal dao blood.

It carried rich immortal energy, as well as great power, surging in that place.

Many people were shocked. How was Immortal Qin able to do this? What kind of background did he have?

Shi Hao's eyes contracted. He knew that this really was immortal blood, always sealed within Immortal Qin's body. Now, he released it.

Back then, Immortal Qin had obtained the immortal bone, nurturing it in his body, becoming one with it, creating immortal dao true blood, but he had no way of controlling this blood. Moreover, he deliberately sealed it, always hiding it in his body.

Now, he moved, scattering the immortal blood on Five Phase Mountain, helping it undo its seal!

Shi Hao sensed that there were still more mysteries on Immortal Qin, that he didn't tell him everything!  
Hong!

When the immortal blood scattered on Five Phase Mountain, this place surged with chaotic energy, gods weeping and devils howling. There were figures everywhere, the scene shocking to the extreme.

There were just too many natural gods and devils on Five Phase Mountain, all of them weeping and howling, as if they were offering sacrifices to the end of a great age, but also grateful for a chance at revival.

In that instant, the sky dome cracked apart, heaven and earth thrown into turmoil!

Nearby, all of the creatures were horrified, their souls shaking. They were all scared stiff.

What was Immortal Qin doing? Why did that Five Phase Mountain become so terrifying?

Chapter 1725 - Five Phase Mountain Spirit

There were eight Heavenly Horses, their bodies covered in dragon scales, all of them robust and powerful. All of them were looking down on everything below before, yet now, they all backed up in alarm.

The Heavenly Horses roared out, as if making heaven and earth collapse.

Together with the howling and weeping of gods and devils, this truly was a terrifying scene!

This place was in chaos, this sight created by Five Phase Mountain leaving every single expert in horror.

Dong!

Suddenly, that immortal mountain swirling with five-colored brilliance shook greatly. All of the natural gods and devils disappeared, the mist scattering, what remained on the mountain itself were only dried bones.

The bones of natural gods!

There were too many piled up, countless in number. They actually appeared, carried by the massive Five Phase Mountain.

This was like a whole world. There were endless creatures, all of them buried there.

The immortal blood was completely absorbed by Five Phase Mountain. On that mountain, a sigh resounded, and then there was another figure there. It was extremely indistinct, but it was definitely real, seated on top.

What was going on? Everyone was stupefied, chills running down their backs.

"Dao brother, is there a need to be so overbearing?"

On Five Phase Mountain, that creature looked towards the silver war chariot, actually speaking these words.

This left all of the cultivators speechless. Did an unimaginable existence just appear?

There was immortal mist swirling about there, undying aura spreading. Needless to say, this was an unrivaled existence.

Even Shi Hao was shocked. Was this the true spirit Five Phase Mountain produced? No matter how he looked at it, it seemed much more powerful than the artifact spirit from before.

If the past Five Phase Mountain was an infant, then now that the true spirit appeared, it was a mature adult!

Immortal Qin really could undo the seal?

“Neither of us are in the mundane world, dao friend, why is there a need to tread through muddled water.” After a momentary silence, this voice sounded from within the silver war chariot.

This time, everyone knew that the existence on Five Phase Mountain really wasn’t simple, making the true immortal feel restraining fear.

Otherwise, there was no need for the ruined immortal to say anything, just directly suppressing it was enough. n--0œlb1n

Immortal Qin’s face paled slightly, but it wasn’t because anything bad happened to his body. He backed up, leaving the center of the battlefield. Moreover, he called out to Shi Hao, having him follow him.

“He cannot leave.” That existence from inside the silver war chariot spoke.

It was still extremely calm, but his undefiable intent was clear, which was that he was going to detain Shi Hao!

“Dao friend, I wish to protect this person!” On Five Phase Mountain, that existence spoke.

“I knew you were here, which was why I didn’t immediately punish him. However, the fact that you are stopping me like this now, shouldn’t there be a reason?” The ruined immortal actually said these words.

“There is great karma involved, but I cannot speak in detail.” That individual on Five Phase Mountain said.

“Is that so? This is the first time you’ve awakened after endless years, what kind of karma could you share with him?” The ruined immortal’s voice became a bit cold.

After a slight pause, he continued, “Perhaps there might be a great karma between him and me in the future, which I need to sever early!”

“Doing this is the same as breaking my karma!” Five Phase Mountain’s existence didn’t cower.

“Heh, since dao friend insists, then it truly is regrettable. However, I must remind you that this does not only involve me, but rather some other dao friends. Are you really going to stand in my way?” The voice from the silver war chariot became more and more cold.

Towards Shi Hao and the others, he could remain unperturbed, but towards this unfathomable and terrifying existence, the ruined immortal could no longer face him calmly.

There were others? He actually spoke like this!

According to normal reasoning, that was definitely a ruined immortal, at the very least, he shouldn't be weaker than himself!

Shi Hao's mind sunk. The most troublesome things had occurred.

He was stroking an item, this was what Great Elder left him. Did he truly have to waste it here? He didn't even use it in Desolate Border, yet he was going to use it in the three thousand provinces?

Shi Hao's eyes were ice-cold, extremely disgusted with Immortal Palace's people, hating the ruined immortal bitterly.

"There are others who share this view? However, I still wish to stop you!" On Five Phase Mountain, that individual still didn't shrink back.

"Dao friend, think things thrice over!" On the silver war chariot, the ruined immortal's voice was cold. Moreover, right at this time, his war chariot moved, slowly approaching.

The eight Heavenly Horses' hooves were all extremely large. They crushed the sky dome, the noises ear-splitting.

At this time, the mist around the silver war chariot's surroundings scattered, things becoming more and more terrifying, truly intimidating.

"Even though my condition isn't great, I do not fear immortal affairs. Back then, what kind of great battles hadn't I experienced?" The ruined immortal continued.

On the war chariot, there were many traces, representing the extreme glory of the past.

At this moment, Shi Hao's pupils rapidly contracted. He saw that the side of the war chariot was torn open, ripped off by someone and smashed through. The traces left behind were too clear.

At the same time, he sensed wisps of a familiar great dao aura.

Kun Peng claw marks!

Correct, he was confident that the damage left on the war chariot was left by Kun Peng claws. Back then, an incredibly intense battle had happened!

Sure enough, this true immortal had previously taken action against a seriously injured and dying Kun Peng, the two fighting a great battle!

"In that case, it seems like there can only be a battle." Five Phase Mountain's existence said, not shaken, attitude unchanged.

"Heh, dao friend is too stubborn!" The silver war chariot shook, releasing ripples, a terrifying aura rippling out.

A wave of scripture sounds rang out, turning into waves, brilliant and dazzling as they rushed towards a certain direction. Moreover, a reply was quickly obtained.

Hualala!

A law decree flew over, fast to the extreme. It was too fierce, carrying a terrifying aura. Moreover, it was accompanied by a simple and ancient magical artifact, an ancient battle-ax.

This weapon was a bit damaged, not complete, but it released an extreme dao pressure, exceeding the power permitted by this world.

Primal chaos surged. The ancient ax and the decree rose and fell at the same time, as if they were going to create a new heaven and earth, shocking all creatures. Those who didn't obtain Five Phase Mountain's protection, regardless of how great their cultivation levels were, fell weak onto the ground, their bodies shaking uncontrollably!

Moreover, the sun, moon, and stars in the skies were also shaking, all of them about to fall from the heavens!

Shi Hao clenched his fists, not knowing whether he should feel anger or grief. There were more than a single ruined immortal in the three thousand provinces after all, and now, they actually showed themselves one after another. Back then, if they were willing to step out and fight in Desolate Border, Great Elder Meng Tianzheng wouldn't have died in battle!

He missed Great Elder, feeling great grief. Great Elder's death was too unfortunate. He really wished he could see him alive again, to return with power defying the heavens, scare these ruined immortals to death!

"Dao friend, are you really going to fight?" On that decree, immortal text shone, releasing blazing light, releasing a voice in this way.

"If I do not fight, then it will harm a great karma of mine. You all are forcing me!" The existence on Five Phase Mountain seemed to be a bit angered, his voice extremely cold.

"We do not want to force you either, but we have no other choice. If not this, both of us can take a step back. I will leave him with his life, but he cannot be left unpunished." The ruined immortal spoke from within the silver war chariot.

He felt great apprehension, not willing to truly fight. It was because the effects of this would be too great. A battle between immortal dao existences would easily destroy stellar seas, just too miserable. With his current condition, he might even die.

Of course, he had the numbers advantage on his side. If they joined together, they could suppress their opponent.

Only, the price was too great, hard to make this choice.

"If I allow you to harm his dao fruit, it will just be like killing him. What is the difference?!" The creature on Five Phase Mountain said coldly.

Things actually developed to this extent. Immortal dao creatures were confronting each other!

"How about this, I will just flick my finger, I won't kill him, and I will even permit dao friend to help him. If his luck isn't good and cannot receive it, then it can only be said that this world wants him dead!" The creature in the war chariot said.

Shi Hao was furious, his hair flying about in a somewhat messy manner. What did the ruined immortal treat him as? If he was an immortal, he would definitely kill this ruined immortal with just a finger!

#### Chapter 1726 - Immortal Breaking Curse

Shi Hao clenched his fists, even his joints turning pale. It was because the ruined immortal was going too far!

It was clear that the ruined immortal didn't attach much importance to him at all. When deciding his life or death, he wasn't even given a look, instead only discussing with Five Phase Mountain's existence.

The silver war chariot stopped in front of Five Phase Mountain, curtains long raised. The ruined immortal faced this existence extremely carefully.

"This is my bottom line. If you dare go against it and contradict me, then you will naturally have to pay the price. Leaving him with his life can already be considered extremely benevolent." Inside the war chariot, the ruined immortal's voice sounded.

In the distance, the decree shone, an ancient ax rumbling, representing the will of a ruined immortal!

Qiang!

Right at this time, the bronze palace shrunk. There was a lot of green rust on it, making it look extremely old. It turned into the size of a fist, entering the silver war chariot, appearing in the ruined immortal's palm.

The atmosphere was incredibly tense. One more word of conflict and a great battle would erupt!

It was because while the two sides confronted each other, even though they didn't take action all this time, they all had their own bottom lines. Now, they were being tested, if neither of them were willing to back up, unwilling to compromise, then a fight was the only result.

"Let's have a look then." The creature on Five Phase Mountain spoke.

The eight Heavenly Horses cried out, their giant hooves crushing the void. They pulled the silver war chariot into the distance.

A great golden path extended out from Five Phase Mountain, directly supporting Shi Hao, carrying him until he was on top of Five Phase Mountain, arriving near that existence.

Shi Hao didn't resist, because Five Phase Mountain's individual wanted to protect him, the attitude completely different from the ruined immortal's.

Yi!

The creature on Five Phase Mountain was inwardly shocked. He activated his immortal eyes. When he grabbed Shi Hao, he sensed something, because they were too close. There were some things that couldn't escape the eyes of these people.

There was a flame laying dormant within Shi Hao's body.

Even though that flame was dispersed, hidden in his body, it was still discovered by this creature.

When someone of this level grabbed a cultivator in the Mortal Dao Domain, they could naturally completely see through that individual's secrets.

However, the existence on Five Phase Mountain was only inwardly shocked, not revealing anything or behaving ostentatiously. He looked extremely calm, completely unperturbed.

He secretly transmitted sound, communicating with Shi Hao.

"The ruined immortal feels some restraining fear against me. He won't kill you, but he wishes to cripple you."

Shi Hao nodded when he heard this, expressing that he knew.

"However, that doesn't mean there isn't any chance to turn things around. You have a flame within you, if I work with you, perhaps it can help you avoid this disaster." That creature said.

Shi Hao sighed. If a true immortal wanted to take action, how could it be that easy to escape from? It was definitely going to be a life and death disaster.

If a ruined immortal's palm slapped over, even if Five Phase Mountain's existence helped him resist it, he still might explode between the two great experts, turn into a blast of bloody mist.

Five Phase Mountain's existence looked over towards where the ruined immortal was. "Even if I lend him a helping hand to stop your attack, he still wouldn't be able to take it, there is no chance for him to live."

"I already said that I won't kill him, just display a move, guaranteed to leave him with his life." The ruined immortal's voice sounded from within the silver war chariot.

"Alright then. I will provide him with a divine barrier, the rest will be up to fate." Five Phase Mountain's creature said.

Honglong!

He took action. A barrier of light surrounded Shi Hao's body. It was like a resplendent divine ring, making his entire body brilliant, this place dazzling.

"Remember what you said, you cannot kill him." Five Phase Mountain's creature gave one last warning.

"Alright, however, you do not need to worry." The ruined immortal replied.

During this process, Shi Hao didn't say a word, remaining quiet the entire time. He was brought down from Five Phase Mountain, landing in the void, extremely calm.

His strength was less than he wished, so what could he say? A ruined immortal came to attack him, he now experienced just how insignificant of a person he was. Only by stepping into the Immortal Dao Domain was it enough.

However, that was easier said than done!

"Heheh..." The ruined immortal laughed, extremely calm and easygoing. However, in Shi Hao's ears, it was extremely ear-piercing.

The ruined immortal was about to take action, just too willful and full of disdain. One could sense from his laughter alone that he didn't attach any importance to Shi Hao at all.

In the eyes of a ruined immortal, now that he took action, he was just like eliminating a kitten or a puppy.

Right now, the silver war chariot floated up. A silver arm reached out from within, wrapped in battle armor. This was the first time he showed himself.

That was a human arm. He only lightly flicked his finger, and then silver light erupted, illuminating the world beyond, shaking up this world. n)-OverlB1n

Powerful waves stirred about, but it then quickly restrained itself. There was only a streak of flowing silver light that swept towards Shi Hao, about to enter his body.

Qiang!

Outside the surface of Shi Hao's body, the barrier flickered. This was created by Five Phase Mountain's creature, protecting Shi Hao, preventing him from being corroded.

However, soon afterwards, the expression of Five Phase Mountain's creature changed, becoming extremely shocked.

Shi Hao's expression also changed. This was just the beginning, yet the body protecting barrier was already about to be penetrated. Everything the individual on Five Phase Mountain arranged lost effectiveness.

Honglong!

Immediately afterwards, the brilliant divine ring around Shi Hao's body shook intensely, releasing even more dazzling brilliance. This was immortal dao power, yet it was actually being corroded.

However, in the end, that screen of light didn't fall apart either. It was just a strand of silver light, yet it already broke inside, completely impossible to defend against.

A strand of hidden light entered Shi Hao, making his body shake intensely.

At the same time, Five Phase Mountain's creature also sensed something, becoming stupefied, and then stunned. Not even he foresaw this type of result.

It was because in his eyes, with his body protecting barrier, it should be enough to stop the other side's methods. Even if it truly broke in, that youngster's body had secrets as well, perhaps able to resist.

However, his face now changed, become indignant, carrying a type of worry, as well as shock.

"It's actually that thing, the past irresolvable curse!" Five Phase Mountain's creature spoke. He felt a feeling of bleakness, as well as a type of helplessness. This type of curse was too terrifying.

"Immortal Breaking Curse, it has already disappeared for so long. It could actually appear in this world again." Five Phase Mountain's existence sighed. There was nothing he could do.

Immortal Breaking Curse was a curse that could break down even immortals. That meant that once one suffered from it, there was no way of getting rid of it. It was extremely ruthless.

Once one was cursed, their cultivation would be destroyed, magic force slowly dissolved into nothingness, able to directly cripple even a true immortal, eventually turn them into a mortal.

That was why when this curse was mentioned, all those who knew about it couldn't help but feel shock.

Even in Immortal Ancient Great Era, this curse left one in fear. However, it rarely appeared, everyone already thought that it was lost in inheritance in this great era.

Who would have thought that the ruined immortal before their eyes could display it!

"You are too vicious!" Five Phase Mountains' existence said, shaking his head. He turned into a streak of light, disappearing into the mountain. It was because he now felt that everything was over.

This type of curse disregarded magical force, didn't fear immortal dao symbols. It could pierce through everything, which was why the barrier he helped Shi Hao set up immediately lost effectiveness.

In the past, perhaps only an immortal king could resist this type of curse. Otherwise, there was no hope, all efforts meaningless!

"Heh, you still have a month of time, you should just properly enjoy your time as a cultivator. In the future, if you want to overlook beautiful mountains and rivers, that might be too difficult."

The ruined immortal spoke. It was just that simple, a bit sinister and cold. It ended just like that!

Chapter 1727 - No More Huang

This conclusion, for Shi Hao, was too cruel!

Yet these words were spoken so calmly by the ruined immortal, a type of undisguised disdain, even more so ruthlessly beating him down.

Everyone here became stunned. Did things end just like that?

They thought that there would be an extremely great battle, a clash between Five Phase Mountain and the ruined immortal, but who would have thought that in that instant, everything ended.

Huang, what happened to him?

Everyone looked at the skies in shock, all of them confused.

It was because for most people, they never heard of the Immortal Breaking Curse at all, not knowing what it was, what kind of cruel and terrifying result it would produce.

"Immortal Breaking Curse, from past until now, those who had a chance to taste it really aren't many."

Not far out, the decree next to the ancient ax shone, symbols lighting up one after another. This was another ruined immortal's voice.

“From today forth, there will be no more Huang. He is finished, his life done for, dao foundation crippled. In a few months, he will completely return to being a mortal!” Immortal Palace’s elder roared with laughter.

His voice was extremely loud, deafening like thunder, feeling extremely carefree. Now that a ruined immortal came into this world, who could contend against him?

“Immortal Breaking Curse, even true immortals would be crippled, becoming mortals, let alone you!”

Everyone finally knew what was going to happen, all of them incredibly shocked. Huang was crippled, from here on out becoming the most ordinary human.

This... everyone was horrified, and then they became quiet. This was definitely a cruel punishment, even more terrifying than killing Huang.

Currently, who didn’t know about his heaven warping talent? He was a twenty something year old Self Release Realm cultivator who swept through the world, not even many in the older generation able to contend against him.

He already completely shattered the records, creating new ones of his own. There were no Self Release Realm cultivators younger than him.

This type of heaven warping genius, he wasn’t killed, but instead had his cultivation crippled, sinking into nothingness in this great age, letting him taste bitterness and torment, just how cruel of a thing was this?!

“No! Child!” Shi Ziling roared out, his eyes even becoming red, rushing over.

“My child!” Qin Yining’s hair was a mess, rushing into the heavens, eyes full of tears.

They immediately hugged Shi Hao, full of worry and fear, as well as endless resentment. Just how much trouble and misfortune did their oldest son have to face? He had experienced too much pain and suffering already, and now, in the end, he was going to fall like this?

“I’m going to fight you to the death!” Shi Ziling roared out in anger, eyes blood red, about to rush out and stake it all against the ruined immortal.

Peng!

Shi Hao grabbed him, biting his lower lip, saying, “Don’t!”

He only said this word, not saying any more. He didn’t want to look at Immortal Palace’s people any more, his knuckles white from clenching.

He could fight Immortal Palace to the death, but he couldn’t let his parents fall into danger, give up their lives for no reason.

“Youngster, you shouldn’t have thought of yourself so highly. This world is so great, how could it tolerate your ignorance? There are some rules that must be respected.” A voice sounded from the shining decree, and then it rushed into the sky with the ancient axe, accompanied by immortal mist. The void was ripped apart, and then they disappeared just like that.

That voice was extremely calm, almost indifferent, but in the ears of Shi Hao's family, it was ear-piercing, cold, and ruthless, even more so full of contempt.

It was clearly the ruined immortal who attacked him, took the initiative to attack, yet in the end, his words made Shi Hao seem so lowly, saying that he didn't understand the depths of heaven and earth.

How could the Shi Family not be furious? It was all because this was a ruined immortal, high up above, able to suppress and overlook all things, which was why they could condemn others as they wished.

Yet what could they do about it?

Qin Yining also wanted to throw herself out, but her arm was also gripped by Shi Hao. Immortal Palace's ruined immortal was still there, they would only be like moths to a flame!

"Youngster, do what you can with your remaining life."

Inside the silver war chariot, that ruined immortal actually spoke like this. Repeating himself like this really was absolutely ear-piercing, truly making one feel as if they were being ridiculed.

Honglong! n--0vrlb1n

The eight Heavenly Horses raised their heads, crushing the skies with their hooves, all of the stars in outer space shaking.

He was going to leave, preparing to return to Immortal Palace.

However, before leaving, he stared at the Everlasting Sword Core in Shi Hao's hands, as well as the Iron Blood War Banner fluttering on the side.

A streak of immortal light flew over, about to seize them.

Hong!

Right at this moment, the Five Phase Mountain creature moved, descending from above, stopping in between, cutting off the connection between him and Shi Hao, moreover releasing a tremendous noise.

"There was already an agreement that it would only be one strike. Is this still not enough?!" His voice was extremely cold.

"Heheheh..." The eight Heavenly Horses pulled the silver war chariot into the distance, rumbling noise sounding as their hooves treaded on the skies. They turned into lightning, tearing open space, disappearing from this place.

"Heaven warping genius? From today forth, he will only be trash!" Immortal Palace's elder roared with laughter. He also turned around, leaving like this.

"You all bully others too far, too far!" Qin Yining cried. She really felt grief for her son. This type of conclusion was difficult for her to accept.

Hong!

When the ruined immortal left, this place erupted with noise.

Everyone couldn't believe that Huang was crippled!

Chi!

Five Phase Mountain shone, directly landing in the depths of Qin Clan, thus entering seclusion.

Sigh! Immortal Qin walked over, sighing. He looked at Shi Hao, his expression complicated. Who would have thought that this would be the ending?

"Big bro!" Qin Hao cried out, supporting Shi Hao.

"Heavens, it really happened! This world will no longer have a Huang! His cultivation has been destroyed by a true immortal, thus becoming a mortal, no hope of ever becoming a heaven warping divine being!"

"This is too shocking! This is Huang we are talking about, someone who established all types of records, a legend of this great era's cultivation history! Yet in the end, he met this type of miserable end!"

This place erupted with noise, the voices noisy.

Everyone discussed among themselves, speaking out, because what happened was too shocking.

Some people felt pity for Shi Hao. He had just left the battlefield, yet he ended up being crippled by people on the same side.

He fought while bathed in blood, fighting a great battle in Desolate Border, establishing glorious contributions. All those who participated in that battle and the clans who went to Imperial Pass spoke well of him.

Yet now, a hero like him met the end of the road, falling at this step!

Many people were furious, sighing for his sake, feeling injustice. Even though they feared the ruined immortal, everyone was screaming that the heavens were unfair inside.

"Ruined immortal, he didn't even dare fight in Desolate Border, what reason is there to respect him? Too hateful!" Someone said quietly.

However, his friend tugged at his sleeves, reminding him not to speak randomly. After all, Huang was a living example. If you stood on the wrong side, speaking incorrectly, then there might be a great disaster.

There were some who sympathized with Shi Hao. This type of situation left him too wronged, not fair at all.

Of course, there were those who laughed as well, feeling extremely carefree and happy, extremely excited.

For example, Demonic Sunflower Garden, Heavenly Country and Underworld Earth's people, when they saw this result, they all revealed faint smiles. This was the same as getting rid of their future worry.

"Haha, Huang, you've finally been crippled! So such a day really did come!"

Finally, someone roared with laughter, couldn't help but shout out.

“From today forth, there will no longer be any Huang, only an ordinary mortal human!”

A few people said, all of them cultivators from clans who came with great gifts, wishing to get closer to Huang.

“Father... we are going to leave just like this?” A green-clothed young lady asked, carrying some hesitation.

“Naturally, don’t tell me you still want to stay behind? Did you think that arranged marriage with Stone Clan I was real? Even if it is him, now that he is crippled, he can’t threaten us anymore!” A sect master said.

#### Chapter 1728 - Mouth and Face

Many people looked over, because these sect masters really didn’t give him any face. Even though their voices weren’t loud, there were still some people who heard them.

Shi Hao raised his head, already looking in that direction. This was a middle-aged man, black hair scattered about, eyes bright, his aura rather impressive.

Shi Hao had some impression of him, this was Jade Splendor Sect’s sect master. At first, they were extremely friendly, wishing to be connected to Stone Clan through marriage.

It was also precisely because he took the lead that some inheritances followed suit, making the atmosphere rather enthusiastic, many people smiling while saying they wanted to be connected to Stone Clan.

At the middle-aged man’s side was a green-clothed young lady, quiet and exquisite, indeed quite beautiful. Shi Hao still remembered that her name was Lu Zhu, her manners could be considered outstanding.

“Child, we’re leaving. Back then, we were still a bit worried that he would go crazy looking for trouble, but now, it seems like there isn’t any need to be worried.” Jade Splendor Sect Master said.

His voice wasn’t loud, but others could hear it. He didn’t hide it, so Shi Hao’s family could hear everything clearly.

Shi Hao knew that this person bore ill intent.

In reality, if not because they feared Shi Hao taking action, many inheritances wouldn’t come to Immortal Mountain.

Looking at it from this angle, it meant that these were precisely the ones who had conflict with Shi Hao before, either part of the group who ambushed him in Spirit Realm or targeted him in the real world, which was why they came to apologize.

Now, this type of unexpected event happened, so their attitudes naturally changed.

They were just like Jade Splendor Sect Master, not long ago, he was still all smiles, extremely easygoing in Qin Clan’s great hall, chatting with Shi Ziling and Qin Yining, discussing marriage.

Now, sure enough, he directly became hostile, because Shi Hao was crippled. Moreover, when he thought back to how he was smiling, wishing to be connected with Stone Clan through marriage, he felt that he had been overly humble.

He felt that his own dignity had been tarnished. A glorious sect master actually previously wanted to marry off his daughter to dissolve possible danger, just thinking about this made him feel extremely uncomfortable.

“Hehe, this really was an unexpected result, the will of heaven, ending up like this.” Someone said while laughing, not hiding anything, instead swaggering off.

“We are leaving.” Jade Splendor Sect Master also had a faint smile on his face, bringing his daughter Lu Zhu with him, rushing into the skies while stirring on precious artifacts.

Right now, this place was noisy. Huang was crippled, falling into the realm of mortals. This was tremendous news! This place naturally couldn’t calm down.

There were some who felt regret for a genius like Shi Hao.

There were others who sneered, feeling joy in his disaster. These were inheritances that previously opposed Shi Hao. They were extremely happy to see this scene.

There were some who were indifferent, as this matter didn’t concern them, just quietly watching from the side.

“Go, what is so interesting about a piece of trash?”

There were others who immediately spoke harshly, just this direct, saying this in front of Shi Hao’s family, uttering such ear-piercing and nasty words.

“I think it’s better to not say so much, the other side is already like this. This is but a heaven warping genius, yet in the end, his cultivation was ruined!. It truly is pitiful.” A woman said.

However, this was definitely not sympathy, because she carried a smile full of contempt. This was definitely mockery and ridicule, carrying malice.

“Wu, I feel like there are some things that we haven’t brought away, forgot it in Qin Clan.” Right at this time, an elder level figure spoke up, eyes flickering brilliantly, looking towards Shi Hao’s family.

Right now, Qin Yining had already bitten through her red lips, eyes full of tears. Her oldest son really was pitiful, making her feel absolutely terrible. Meanwhile, these people were even throwing rocks at him while he was down, ridiculing him like this. This made her mood even worse.

“Dao brother, what did you leave behind in Qin Clan?” Someone said with a smile, playing along and asking like this.

“Some rare divine treasures, I forgot them in Qin Clan’s hall.” That person said.

It was clear that he was talking about those precious gifts from before. Some inheritances came to Qin Clan to ease the relationship between themselves and Huang, so they naturally brought over great gifts.

When he spoke like this, everyone understood. He wanted those treasures back.

“How could I have forgotten? I also left some things there.”

“Right, I was in too much of a hurry. I actually forgot to bring back some things.”

...

A few people spoke up one after another, wanting those precious gifts. It could be said that their mouths and faces really changed quickly.

“Right, we also forgot some things.” Jade Splendor Sect Master who originally already brought his daughter into the skies actually also spoke, moreover turning around and returning.

Heng!

Right at this time, Immortal Qin appeared again, walking out of the entrance, releasing a heavy cold snort.

This place immediately became much quieter, no longer that noisy.

A few people felt restraining fear. Even though they all knew Shi Hao was crippled, they didn't dare attack Immortal Mountain. Just now, many of them just got a bit carried away.

At this time, Immortal Qin's angry snort expressed his dissatisfaction, so they couldn't disregard this. Many of them began to lack confidence.

“It is what it is if you don't return those things, they can just be gifted to that crippled Stone Clan disciple.” Someone said, extremely hateful, tongue still so sharp at this juncture.

Of course, while beating down Shi Hao, it could still be putting themselves up. Quite a few people rushed up, preparing to leave.

“The ruined immortal said that I still had a month before I will be crippled. Did all of you forget this already?”

At this time, Shi Hao suddenly spoke, his voice incredibly cold, eyes like lightning as they swept over everyone.

“You... won't be able to live. Immortal Palace' supreme being had said that the three thousand provinces have rules, it will not permit your unbridledness!” Someone spoke up.

However, even more people's faces changed, starting to lack confidence and feel uneasy. It was because they truly almost forgot that Huang still had a month to 'go crazy'.

Hong!

In that instant, Shi Hao was extremely direct. He reached out his right hand. With a honglong noise, powerful winds swept out, the scene horrifying, as if an expanse of the star domain was going to be crushed.

Ah...

That person who used Immortal Palace as a crutch screamed miserably, struck by Shi Hao. A streak of light flowed past. His body exploded, turning into a bloody mist, dying on the spot.

"You... better not act recklessly!" There were people who were immediately so scared their souls trembled.

None of them thought that Huang would still be so vicious when things already reached this point, actually dared to take action like this.

"You, and you, and you all..." Shi Hao pointed out. "I'll give you all three day's time to bring over ten times the amount of great gifts as before, or else you all should know that I will pay you a visit! If you don't want to be slaughtered until blood flows like rivers, not a single piece of armor intact, then you all better play your part!"

Shi Hao was extremely cold, raising his hand and pointing at those who took joy in his disaster, threatening them.

These people's faces immediately went rigid. He wasn't crippled, still had a month left?

Many of them broke out in cold sweat, feeling headaches one after the other. It was because just now, they really had been too careless, thinking that Huang was already crippled. *nove-Lb*.In

There were some who inwardly cursed, why did they have to speak out, go so far with their words?

All those who didn't speak harshly before weren't pointed out.

Jade Splendor Sect Master's face was full of regret, extremely upset. It was because he was pointed out as well, demanded to hand over even more shocking great gifts.

In the end, everyone gradually scattered.

They all carried different emotions, some of them resentment, some of them laughing loudly inside.

Everything here came to a close.

However, news spread out like a gust of wind, engulfing the three thousand provinces.

The news of Huang being crippled seemed to have sprouted wings, many great sects in the three thousand provinces were informed.

Chapter 1729 - Not Giving Up

"Little friend, you... sigh!"

Immortal Academy's supreme being came, Sacred Academy's old monster also came. The two great experts both carried incomparable regret and anger, yet there was nothing they could do.

They felt a bit ashamed when they faced Shi Hao, feeling self-blame.

"It is not seniors' fault." Shi Hao said.

It was because the one who took action was a ruined immortal. If the two supreme beings didn't choose to return to the Nine Heavens, they would likely also suffer greatly, be crippled here.

The two great experts weren't inflexible people, but in the end, they still felt like they wronged Huang.

After a bit of consoling and some sighs, some regrets, the two supreme beings left in the end. They brought the Iron Blood War Banner with them, returning to the Nine Heavens.

Qin Clan gradually became quiet.

"Let's go, Yun Xi, we should also leave." Celestial Clan's elder said.

Even though he could still be considered calm, previously not in a rush to mock Shi Hao, he now couldn't hold himself back. The corners of his lips curled up, carrying a smile.

Now that Huang was crippled, what was there to even worry about. There was no need to feel any restraining fear about him ascending to the peak and dominating the world in the future.

Celestial Clan's elder laughed, now no longer needing to lower his stance, preparing to bring away Yun Xi.

However, what was unexpected was that Yun Xi was actually opposed to it, not willing to leave.

"What are you trying to do? He is already crippled, there is no need to worry anymore. In the future, when the old ancestor comes out to negotiate with Immortal Qin, we can just demand the Flying Immortal Stone back, you don't need to stay behind." Celestial Clan's elder said.

"I must stay behind!" Yun Xi said.

"You... have you gone crazy? He is already crippled, there is no need to do this!" Celestial Clan's elder was a bit stunned, not understanding.

It was because before this, when he brought Yun Xi to Qin Clan, she continuously resisted, not willing to come here. She even directly rejected him in Qin Clan's great hall.

However now, why was she going to stay behind?

Celestial Clan's elder really didn't understand.

"Before that, Huang was high and mighty, his power great, rising up in the world, you all couldn't stop him, which was why you wanted me to follow by his side, get close to him. This is what made me feel such humiliation." Yun Xi said.

"Can we even call ourselves the Celestial Clan then? We actually have to be this servile, that is utter humiliation, not worthy of being called Celestials, not worthy of this name."

"Now that something happened to him, I am willing to stay behind, because I should have supported him back then to begin with. In the past, he accompanied me through bloody battles, protected me through hundreds of thousands of li, escorting me to the clan, yet he was actually treated that way."

"From today forth, even if he becomes a mortal, his cultivation disappearing, I will still follow him into the lower realms to take care of him."

Yun Xi continuously spoke these words, extremely calm, not acting on impulse.

This immediately made Celestial Clan's elder's face change. "You're mad! What are you trying to do?!"

"I've let him down before, this is repayment!" Yun Xi's decision was firm.

"In his glorious age, I could only watch from afar, didn't want to curry favor like you all. Now that he is weak, I want to get closer, he needs someone to take care of him!" Yun Xi turned around, walking towards Qin Clan.

Inside Qin Clan, Shi Hao was surrounded by a group of people, all of them wishing to examine him, but he refused.

He didn't even let his parents or younger brother touch him, saying, "This type of curse power is already inside me, if you all examine it, I fear that something bad might happen to you all."

At this time, Yun Xi walked over, outside of everyone's expectations.

Shi Hao's mother, Qin Yining, was stupefied. Not even she thought that Celestial Clan's girl would come back.

"Shi Hao, you don't need to be dejected or feel worry, there will be a way..." Yun Xi spoke.

"Young lady, you are..." Shi Ziling spoke up.

"I am willing to take care of him, to return to the lower realms with him." Yun Xi said extremely calmly, moreover walking to Shi Hao's side.

"This..." Everyone was stupefied.

"What is the point? Soon, I'll be no different from an ordinary person. It isn't suitable for you to return to the lower realms with me at all." Shi Hao shook his head.

"I wish to return with you to Stone Village. Begin a mortal is quite good as well, at the very least, it will be quiet, peaceful, not always chaotic like this place." Yun Xi said.

Comparatively speaking, she was much more open and easy-mannered than before, daring to speak her mind. If it was several years ago, she definitely wouldn't have been able to speak these words.

"You are a cultivator, returning with me really isn't suitable. Meanwhile, I truly wish to become a mortal, be at ease, enjoy some years of quiet living." Shi Hao actually smiled when he said this.

This left Qin Yining, Shi Ziling, and even the others stupefied. They saw how Shi Hao wasn't pretending to look happy at all, how he really was calm and relaxed.

Just how tough was their oldest son's mind for him to be like this? He really didn't feel any grief or dejection? There wasn't a trace of worry or anxiety to be seen.

Before, when he faced the ruined immortal and the cultivators of other sects, he was still extremely serious, and also quiet. Now, he actually showed this appearance.

"Child, if you are holding everything in, if you want to cry, just cry, don't hold back." Qin Yining spoke while tears poured down, fearing that her oldest son would only harm himself by doing this.

"I'm really not pretending. Right now, my mind is extremely calm." Shi Hao said, wiping at Qin Yining's tears with his own hands.

At this time, Yun Xi walked up, handing him a handkerchief, standing at his side.

“Nothing will happen to big brother. I believe that he will return one day and strike down the ruined immortals, sweep through all long life enemies.” Qin Hao said.

Moreover, he added, “If big brother truly doesn’t have any intent to fight, willing to remain in the lower realm, I will still take action, end all of those enemies myself sooner or later!”

When he heard these words, even Shi Hao was stunned. He patted his shoulder, not saying anything.

Shi Ziling and Qin Yining’s eyes turned red, their chests sore. They hugged their two children.

Soon afterwards, Yun Xi brought over some medicinal soup for Shi Hao, having him drink it. Moreover, she remained at his side, wishing to take care of him.

“I still haven’t been crippled yet, still have a month left.” Shi Hao looked towards her.

...

Three days alter, some sects brought over great gifts, sure enough, ten times that of before. Even though they were extremely distressed, they still didn’t take the risk, scared that Shi Hao would take action.

However, there were some inheritances who completely ignored Shi Hao’s words, because they secretly formed connections. They showed Immortal Palace increased respect, asking them to come out to protect them.

“Heheh, Huang has long been crippled, there’s no need to feel fear. My clan’s true immortal went out to suppress him, already teaching him enough of a lesson, so he should know when to stop.” immortal Palace’s elder said, helping them feel at ease.

Those people relaxed. Moreover, they didn’t hold back, their words extremely harsh, even humiliating, chasing off those from Qin Clan who came to demand repayment.

However, on the fourth day, Shi Hao moved, actually taking action powerfully!

When a sect that wasn’t small was ripped apart by Shi Hao, swept through, all sides were shaken, many people’s faces immediately turning deathly pale.

That day, Shi Hao swept through this sect, killing more than ten people in this sect’s higher levels, opened up their treasury, seized everything.

Then, he hurried in another direction, continuously taking action, overturning several sects, making those inheritances’ sect masters and elders’ blood dye the sky.

News spread out, shaking up all sides. Many people were alarmed.

“Stop! It’s a misunderstanding, we are willing to offer up the treasures!”

Some people immediately panicked, rushing over to Qin Clan as if a flame was lit under their bottoms, gifting over a pile of treasures, moreover continuously explaining themselves.

Of course, there were some who ran to contact Immortal Palace’s people in alarm, pleading them to take action.

“Huang, do you not have the brains to learn from your mistakes? Did you forget the lesson taught by the true immortal?” This was what Immortal Palace transmitted out.

“Then just have that ruined immortal make another trip!” This was Shi Hao’s response.

All sides were immediately stunned. Did he go mad?

Soon afterwards, everyone understood. Perhaps Huang felt like he didn’t have much time left, so he wanted to go crazy one last time!

This type of lunatic, how could they offend such a person?

Many people felt regret. Why did they have to clash with him like this? They could have just endured it for another month, waited until he was completely crippled.

“Huang, you are seeking the path to your own destruction!” Immortal Palace’s supreme being appeared, releasing a roar.

However in the end, he didn’t dare take action, because he wondered if Huang was purposely drawing him out, working together with the Nine Heavens’ supreme beings to kill him.

Just like that, no one from Immortal Palace dared come out, making those inheritances panic even more. n)-σ)-v/.e-/l))b/-l.-n

The ones Shi Hao demanded ten times the treasures from all moved out, swarming over to bring over gifts.

Ten times the price, these sects all sighed in despair, faces already green. Even if their treasuries were sucked dry, it still wasn’t nearly enough, they had to find other ways.

Jade Splendor Sect was facing the same situation, that sect master’s face fluctuating between green and white, feeling endless regret, really wanting to slap his mouth a few times.

“Immortal Palace’s people, didn’t you want to come out to suppress me again? I’m waiting right here!” Shi Hao challenged.

It was because he knew that the ruined immortal wasn’t willing to come out again. Coming out once was already quite difficult, paying a great price. Now, he was definitely hiding in that immortal spring, not daring to make a move.

As for Immortal Palace’s supreme being, his thoughts had also been read by Shi Hao. The other side was definitely worried that he was working with Immortal Academy and Sacred Academy’s experts to kill him.

Just like that, no one was willing to come out to fight Shi Hao. Many sects had no choice but to brace themselves, head to Qin Clan’s Immortal Mountain.

“Father, it is time for us to leave, return home!”

Ten days later, Shi Hao spoke out. He was going to head down the path home!

Chapter 1730 - Preparations

"We are going home!" Shi Ziling nodded his head heavily. His chest felt extremely sore as he looked at his oldest son, finding it hard to calm down.

His oldest son had heaven warping talent, known as this great era's youngest and most powerful Self Release Realm cultivator, breaking the records, establishing a legend, yet in the end, he had this type of ending.

In the eyes of the husband and wife pair, their oldest son was too miserable. Originally, he could have altered history, becoming an unmatched existence who overlooked the world, high up above, yet he was crippled by another. This was too cruel.

"We're going home, going back! We aren't coming back ever again!" Qin Yining wept.

Even though in past few days, Shi Hao's reputation was spread around the outside world, sweeping through many sects in succession, crushing all sides until they had to lower their heads, not willing to step out, Qin Yining still felt sorrow, feeling bitter. It was because she knew that this was her eldest son's final brilliance and glory. A month's time would quickly pass!

"Big brother, I will be awaiting your return in the three thousand provinces!" Qin Hao said.

In the back, Immortal Qin released a sigh. With his cultivation severed, dao crippled, soon afterwards, Shi Hao would be just like an ordinary person. This was eternal, never able to cultivate again. How was he supposed to return?

"We will come back, we definitely will. We will get revenge for big brother!"

There were several hundred kids, right now shouting out, clenching their fists, wiping the tears from their eyes.

These were the youngsters Shi Hao brought back from Desolate Border, boys and girls included. Most of them were still under their teenage years, the youngest only knew how to wail. Their eyes were all red, feeling extremely sad.

At the same time, they also resolved themselves to get stronger, get revenge for Shi Hao, kill that ruined immortal.

"I wonder after all these years have passed, what the eight regions are like now." Shi Hao said quietly.

Last time, even though he went into the Void God Realm, his trip was too hurried, not even having any time to understand the lower realms in detail when those behind him cut him off, wishing to seal him to death, so he had no choice but to hurriedly leave.

Shi Hao looked towards Immortal Qin, wishing to learn about the lower realms from him, what was going on.

It was because he knew that there were some great sects in the three thousand provinces who had special methods, able to communicate with the lower realms, receive information.

Immortal Qin shook his head, his smile a bit bitter, saying, "Things are different now, there is no way to fight the will of heaven, no one can be sent down at all."

He muttered to himself, after thinking to himself for a bit, he said, "Follow me."

In the depths of Qin Clan, before an ancient mountain, there was a region surging with primal chaos. This place was extremely hazy, and also extremely mysterious.

This was a region of unstable space, extremely chaotic.

"This is a unique spatial node I found. If it was in a normal age, magic force could be sent into the lower realms through here, but now, it is too difficult, impossible to do." Immortal Qin said.

Shi Hao was deeply shocked. It was as if there was a crystal wall here, full of cracks. When one looked carefully, it was as if one could pry into the world behind it.

"Magical force projection?" he asked.

"Correct. In the past, a magical force projection could be sent down into the lower realms, but now, it is no longer possible." Immortal Qin said.

Shi Hao examined it. This was a spatial node as expected, not all that stable, but it couldn't be penetrated.

"If it is forcefully attacked, there will be a great backlash. The will of heaven will be like a blade, cutting through the primordial soul, extremely terrifying!" Immortal Qin said.

Something was wrong with this age, one could no longer do as they wished like before.

Shi Hao nodded. This was something he was aware of before. Now, there was already no way of challenging the heaven's will, couldn't defy the great realm's natural laws to enter the lower realms' eight regions, or else one would face the punishment of mysterious laws.

Otherwise, the so called seven deities entering the lower realms wouldn't have been so difficult.

Shi Hao nodded. Even someone like Immortal Qin couldn't communicate with the lower realms, this was a good thing, proving that it was difficult for the higher realms to interfere with the lower realms' eight regions.

Soon afterwards, Qin Clan's storeroom was completely opened, sparkling and resplendent, light flowing about, divine brilliance rushing into the heavens.

These were all gifted by the cultivators of different sects, piles of heavenly treasures with divine weapons, exceptional divine bones, formation banners and cores, even more so rare precious medicines and other things.

Forget about other people, even Shi Hao's eyes were momentarily distracted. "There's this much?"

They were going to leave soon, so he began to stow away everything. He was going to bring everything into the lower realms.

"You were the one who demanded for ten times the repayment, could it be that even you didn't expect this result?" Immortal Qin said with a smile.

"Haha, alright then!" Shi Hao also laughed.

Recently, he didn't panic, nor did he feel worry, his mood always like this, just like the past. This type of mental toughness also left others rather speechless.

It was because others all felt sorry for him, feeling regret, yet he himself didn't sink into dejection.

Chest after chest of divine materials were moved, enough to build several great sects, this was Shi Hao's recent harvest. It truly was shocking.

In reality, there were far more things than these, there were some that were medicinal fields, collected into spatial magical artifacts.

For example, the golden lion himself had a few special magical artifacts, specifically for storing those divine medicinal herb fields.

It could be said that when Shi Hao was dealing with some sects, he really completely uprooted them, even wiping out their medicinal fields' earth, wrapping all together as takeout, extremely thorough.

"Let's go."

Shi Hao sighed. He brought everything onto a giant boat. The hundreds of children were already standing on it, their small faces excited.

Their faces had tears, but also smiles. They were heading to a brand new world. They wanted to rise up there, cultivate powerful divine abilities, and then return in the future to get revenge for their big brother.

"Are you really going to come?" Shi Hao looked at a purple-clothed young lady, precisely Yun Xi.

She was slender and elegant. When her clothes fluttered about, purple energy rose in spirals, making her look like an aloof goddess.

It had to be said that Yun Xi really was extremely beautiful, worthy of being Celestial Clan's most dazzling pearl. Her beautiful hair was glossy and smooth, skin sparkling white, oval face filled with unswerving determination. A pair of black crystal-like eyes carried a bit of blurriness. She forcefully nodded, insisting on following him into the lower realms.

"Child, come here." Qin Yining said. Even though she was full of emotions, right now, she revealed a smile, pulling Yun Xi, really treating her like a daughter she was fond of, that type of expression really leaving Celestial Clan's young lady feeling extremely embarrassed.

Shi Hao turned around, looking towards the golden lion, his eyes flickering endlessly, revealing a complicated expression.

"You... what are you trying to do?" This lion was extremely sharp, sensing a bit of danger, inadvertently backing up. All of the golden fur on its body stood on end.

During these past few days, it was full of excitement and happiness, because Huang was crippled. In its eyes, the time had come, perhaps it could break free!

One month's time, for a pure-blooded Fearless Lion, was extremely short. It could quietly wait, patiently stick it through.

When that time came, he could properly settle things with Huang!

"You're quite excited, waiting for me to become crippled, right?" Shi Hao asked.

"What? No way. Why are you thinking like that? We are locusts on the same thread right now, your shame is my shame, your glory is my glory, all benefits mutual!" The golden lion spoke righteously, loudly shouting out.

"I feel like this isn't your true intent. Are you waiting to kill me when we head down into the lower realms?" Shi Hao looked at it.

When these words sounded, many people's expressions changed, including Shi Ziling, Yun Xi, and the others', because there was a high chance of this happening. Previously, they really overlooked this, almost forgetting about a great disaster.

"I feel like we might as well enjoy a lion meat stew while we can before we set out." Shi Hao said.

Qiang!

Qin Hao was extremely direct, holding a silver spear in hand, directly pressing it against the space between the lion's brows, wishing to take action in his older brother's place.

The golden lion's eyes contracted, fine hairs standing on end. It was extremely nervous, not because of Qin Hao's hostility, but rather towards Huang's decision.

"Huang, you cannot do things like this! I've traveled together with you for so long without any intention of harming you, instead helping you fight many times!" It wouldn't admit it even if it died.

"It seems like after you followed me for some time, I don't really want to kill you anymore. However, bringing you down with me like this is too dangerous, you might become a possible source of danger." Shi Hao said.

When everyone heard this, they all inwardly sighed. It seemed like Huang really was going to be crippled, there was no miracle that could happen. He wasn't pretending, or else why would he say this.

"There's no issue, I have a divine artifact here that can solve that issue." Immortal Qin said.

He loosened his hand, inside of it an old fashioned scroll. When it was opened, magical force surged, natural laws interweaving, carrying wisps of golden mist.
