

Perfect WD 1751

Chapter 1751 - True Dragon Precious Technique

A cool breeze blew past. Heaven Province was quiet and still.

Shi Hao moved by himself, leaving Desolate Region and entering Heaven Region.

This was where he entered the lower realms from. He wanted to head to that life restricted region.

It was because after thinking to himself, he felt that perhaps the one who could help Ge Gu was that lord of the restricted region. That existence had previously taught true immortal level disciples, passed down all types of secret techniques.

Shi Hao felt like he might be proficient in the True Dragon Precious Technique!

Originally, he already wanted to come here, because he had made an appointment with this lord beforehand.

Moreover, he didn't have a lot of time left, also wishing to ask if the curse in his body would bring him great harm.

Before, he wasn't that worried, because when everyone, including the ruined immortal, felt like he was going to be crippled, he could sense that it wasn't that serious.

It was because at that time, the flame within his body had been silently burned, filling his blood and flesh.

However, the immortal curse was still there. That flame hadn't helped him burn all of it, some still remained.

Back then, only Five Phase Mountain knew, seeing some clues, because it was already aware beforehand that Shi Hao had a mysterious flame within him.

When Five Phase Mountain said that Shi Hao was already crippled, it was likely to play along, fool the ruined immortal.

The circumstances were dire. Apart from that ruined immortal's true body, there was another person's weapon, as well as a decree that threatened them, definitely also immortal dao level figures!

"It wasn't for myself, but rather that I ran over here first for your sake, this disciple is definitely mine." Shi Hao said to himself.

He felt like he definitely had to be on guard. Taking on this disciple was something he should do, especially something as heaven-defying as the True Dragon, which he definitely couldn't pass up.

This region was extremely barren, becoming more and more secluded and quiet.

Shi Hao arrived at the edge of the Mysterious Region. He produced that ancient jade, or else he would easily get lost here.

Heaven and earth changed, the scenes becoming hazy. The void here distorted, as if there was an ancient realm hidden between the mountains and rivers.

Hong!

Shi Hao turned into a streak of lightning, passing through the heavens, quickly rushing over. He entered the ancient land where the restricted region was.

In a flash, millions of li faded away.

In the end, Shi Hao arrived. He saw that ruined ancient land again.

The mountain was extremely short. There was a withered medicinal field, as well as a small dried-up lake, even more so ruined metal tiles, all of them resting here.

Honglong!

Suddenly, the mountains and rivers came alive. In that instant, the dried earth obtained life, water running under the small bridge, pavilions and palaces shining. This gloomy place that was originally swirling with black mist immediately became brilliant like an immortal realm.

Inside the medicinal field, a fragrance wafted about, all divine medicines, nothing of worse quality!

On the mountaintop, there were grand metal palaces, grand and majestic, incomparably divine.

Not far out, there was a lake at the foot of the mountain, as well as a thatched cottage. A white-clothed male was sitting there, complexion fine like jade, eyes bright, currently sipping on some tea.

Behind him was a male and female pair, both of them attractive.

"You came."

"Yes, senior."

This time, there was no tough trial. Shi Hao crossed Cosmos Lake just like that, not encountering any trouble.

"You came earlier than I thought you would." The white-clothed male said, lowering the teacup to look at him.

"I have things to ask senior." Shi Hao was extremely direct.

"Speak then." The white-clothed man's reply was extremely simple.

"I wish to ask for the True Dragon Precious Technique." Shi Hao looked at him.

"I will not pass down any precious techniques. The past paths have already been proven to be incorrect. Before you, there were eight exceptional individuals who learned my methods, but they all died in the end." The middle-aged man replied in a calm manner.

Shi Hao was stunned, he actually obtained this kind of reply.

The other party was extremely straightforward, this could be considered a rejection.

He was a bit confused. Since this is the case, what did the white-clothed man come here to do? Wasn't it to pass down an inheritance?

"I believe you've misunderstood. I need to foster a powerful individual, preferably history's most powerful. However, he isn't necessarily my inheritor." The white-clothed man said.

Shi Hao looked at him, not saying anything.

"You've already learned enough methods yourself, what is important isn't how many methods you grasped, but rather other things. I wish to bestow you enough tempering, produce the most powerful fighting strength!" The white-clothed man was extremely direct.

"However, I wish to learn the True Dragon Precious Technique." Shi Hao muttered.

"I do not have much time left, only some ruined imprints. Each time I appear, I will become a bit more faint. I am not here to have a casual conversation, you need to grasp the opportunity." The middle-aged man said.

Then, he added, "I've never obtained the True Dragon Precious Technique, even if I wished to bestow it upon you, I cannot."

Shi Hao sighed. The True Dragon Precious Technique was extraordinary after all.

"Since you came, then you should cherish this opportunity."

The white-clothed man spoke, and then he pointed out with his hand. Shi Hao immediately rose into the air, involuntarily flying towards a mountain peak. There was a silver palace there.

There were many mountain peaks here, every one of them having a giant metal palace.

Shi Hao was sent inside this silver palace hall. The palace's doors immediately closed.

"En? This is bad!"

Shi Hao's expression immediately changed, because the Immortal Breaking Curse within his body acted out, becoming incredibly intense, wishing to corrode his entire body's cultivation. It was extremely bad.

"The tempering this time is precisely the Immortal Breaking Curse. If you make it through and can still live, not lose your cultivation, then we'll consider you passing." The white-clothed man said.

Shi Hao was speechless.

He really didn't know what was proper to say. He wanted to curse out, swear, because he also wanted to deal with the Immortal Breaking Curse, yet in the end, it was directly triggered.

The lord of the restricted region not only didn't help him, he even activated the Immortal Breaking Curse!

"The Immortal Breaking Curse hasn't completely erupted, I only activated a portion of it. If one wishes to become the most powerful, then you must make it through this." The white-clothed man said.

"This was prepared for a true immortal, yet you want me to stick it through?" Shi Hao began to panic.

"It hasn't completely activated, just releasing a portion of its power." The white-clothed man said calmly.

This was still enough to kill. The curse was meant for an immortal dao existence, even if it was just a bit, was still too difficult to withstand.

This was a hell-like torment. A low roar sounded from within the silver palace, the sounds terrifying, sometimes like the screams of a devil king, sometimes like the ghosts of the nine netherworlds.

This was a type of torture. Shi Hao felt as if he had fallen into the depths of hell.

The flame within his body remained dormant, extremely still, allowing the immortal curse to eat at his life force and cultivation.

“Get back here!” Shi Hao’s eyes became red. The magical force he cultivated so bitterly, all of his cultivation, how could it be cut down?

Within his body, magical force swirled crazily, blood energy surging, cultivation fluctuating between weak and strong.

Shi Hao was withstanding it. Whenever a bit of magical force disappeared, he would crazily operate several mysterious techniques, seizing it and making up for it.

For three whole days, within the silver palace, roars sounded continuously. It was like the howls of a ghost, cries of a god, truly terrifying.

In the end, the palace gates opened. Shi Hao’s hair was disheveled, staggering outwards. After three days, he became a ring skinnier, his complexion deathly pale.

“Not bad, you made it through and succeeded. I look forward to the day where you can completely resist the breakout of the Immortal Breaking Curse while still in the mortal domain!” The white-clothed man said.

Immediately afterwards, the green hills and clear waters disappeared, this place becoming cold and desolate.

On the ground was a ruined skull, snow-white like jade.

Shi Hao bowed deeply in that direction, and then he turned around to leave. The further he went, the more lightweight and free his body felt. Magical force surged, blood energy roiling. He felt as if he returned from hell back into the world of the living, his body feeling at ease, primordial spirit compact.

Shi Hao returned to Stone Village.

“Sigh, I wasn’t able to obtain the True Dragon Precious Technique. It seems like I can only go into the Void God Realm.” He said with a light sigh.

The golden lion rushed over, it knew where Shi Hao went. When it heard what he said, it immediately became disappointed.

“Right, did the five-colored sparrow appear?” Shi Hao asked.

The golden lion immediately gritted its teeth, shaking its head. It had wandered the great wilderness these past few days, wishing to bother the five-colored sparrow, but in the end didn’t find it at all.

“Big brother, I have pretty much finished the investigations. Rain Clan have really managed to contact their ancient deity. There are some strange things involved.” Qingfeng returned.

He already more or less wrapped up the search, finding out which powers wanted to rebel, supporting the past Emperor Clan direct line of descent. This investigation wasn’t all that difficult.

However, what let him apprehensive was that Rain Clan’s people really were able to communicate with a deity.

“Deity? I’ll just eat him later!” The golden lion said brazenly.

“Whatever. The five-colored sparrow even left bird poo on your nose, yet you still couldn’t catch it.” There were children who spoke out.

You can beat someone, but you can’t beat their face, you can’t hurt one’s pride.

When the golden lion heard this, its face immediately became dark, really wishing to roar and throw itself over.

“There’s no rush. When I come back from the Void God Realm, I’ll pay those powers a visit, get to the bottom of things.” Shi Hao said. He wanted to see just how capable those powers were, for them to actually want to rebel against Qingfeng.

Of course, Rain Clan was also an important target of his investigations.

Shi Hao wouldn’t act carelessly. He always believed that the deity that could cast its projection from a different world was definitely powerful!

He sat down in Stone Village, closing his eyes. Then, with a hong sound, his primordial spirit left his body, piercing through the heavens, entering Void God Realm!

The crimson dragon Ge Gu went with him.

Shi Hao had ten bronze pieces, he was going to exchange them for the True Dragon Precious Technique.

Chapter 1752 - Sudden News From Immortal Domain

The Nine Heavens Ten Earths’ various ancient realms were all calm and peaceful, because Desolate Border’s crisis ended.

Only, it was a pity that so many heroes died, even more so the Prides of Heaven like Meng Tianzheng and others who already fell in battle, never to be seen again.

The supreme beings withered away, most of them falling in Desolate Border!

At the same time, the Nine Heavens Ten Earths experienced a rare period of peace. There was no longer a foreign great enemy, no longer the suffocating feeling weighing down on everyone’s minds.

Recently, regardless of whether it was the high and mighty Nine Heavens or the comparatively further Ten Earths, they were all actively fostering elite talents.

Too many experts died during Desolate Border’s turmoil, needing to be replenished with later generations, to make up this deficiency!

That was why the various clans were all doing everything they could to foster powerful individuals, hoping that an exceptional figure could rise up, produce a generation crushing Pride of Heaven!

Now, regardless of whether it was Exiled Immortal, Six Crown King Ning Chuan and the others, or Great Xu Tuo, Qi Gu, Little Sky King and the others, all powers were trying to rope them in.

Even Jin Zhan, this individual who almost died, but ultimately survived was admired by many, leaving others jealous that Jin Family had this type of terrifying young expert.

Those who survived Desolate Border's battle, returning and not falling in the other side, became the targets of the various great powers' roping. These were elites who experienced the test of blood and flames!

Right now, they faced a period of peace. All sides were competing, fostering their own camp's experts. They hoped to rope in these heroic talents.

It could be said that many people of the younger generation were being enticed by different powers with all types of generous conditions.

For example, there was a long life family who was willing to protect the dao for the dual pupil user, grant him divine medicines, scriptures, and other things, assist with his cultivation.

Similarly, when Six Crown King Ning Chuan whose strength was on par with Ten Crown King appeared again, a long life Emperor Clan took interest in him, wishing to take him in as a son-in-law.

All of the heaven warping geniuses of the Nine Heavens Ten Earths welcomed a glorious age. They were chased after by all different clans who wished to obtain them.

At the same time, they couldn't help but recall someone, precisely Huang. This history's youngest Self Release Realm expert, was now this far off.

"What a pity... Huang had heaven warping talent, yet his end was so bleak."

"Sigh, where one comes, one returns. Even though his cultivation has been destroyed, becoming a cripple, in the end, he still survived, returning to his place of birth. This can still be a type of conclusion that can be accepted." Someone shook their head, feeling great regret.

Regardless of whether it was Shi Hao's enemies or those he was on good terms with, whenever they thought of him, they all couldn't help but admit that his talent really was absurd. Originally, he was going to experience an age of glory, yet in the end, he met such a dismal end, withering too early on the path of cultivation.

"Heh, this is the will of heaven. Huang, who does he think he is? Merely a peasant from the lower realms' prison, yet he dares stir up trouble in the higher realms. In the end, he was beaten until his face was bloody, body half crippled, wasn't he still forced back to that cage in the end?!"

"For Immortal Palace's great one to take action decisively, there is naturally a reason. This result is not wrong."

There were some enemies who felt joy, speaking some words that went a bit too far.

Even more people released light sighs. What could they say? Huang established world-shocking great merit in Desolate Border, yet in the end, he was crippled by a ruined immortal. Who could do anything? That was an immortal dao existence, no one dared stand out.

“Shocking news! A long life imperial court is looking for a son-in-law, Princess Yao Yue is going to choose a dao companion! Hurry and sign up!”

“This is the princess of a long life imperial court! This is a huge occasion!”

News went out, traveling through the great ancient lands.

“Yi, Jin Taijun came out of seclusion. She is going to Wang Family to demand an explanation, see if they really are going to be connected through marriage or not, if Wang Xi is going to marry Jin Zhan. This is a huge affair!”

Soon afterwards, this type of shocking news was sent out. Everyone sensed that something might be happening. Otherwise, how could things turn out like this?

“Something’s not quite right. Sky Severing Sect is also joining the action, sending the witch out to rope in the dual-pupil user, someone personally saw this!”

Everyone was a bit confused. Why were these great sects making moves one after the other?

Several days later, news traveled out.

In the Nine Heavens Ten Earths, the various ancient realms were going to carry out a great competition!

“Are they mad? We just obtained some peace, why do they have to carry out this type of contest?”

“It is likely because the great battle of Desolate Border has come to an end, heroic spirits slumbering, too many people died, that it incited this atmosphere of cultivation.” Someone suspected.

Regardless of whether it was the Nine Heavens who were high up above or the distant Ten Earths, there were going to be contests organized in the various ancient lands, a selection of the best.

There were those from the younger generation and those in their robust years, different groups separated according to different levels.

However, the one most people paid attention to was the great competition between the younger generation.

Right when everyone was feeling misgivings, the answer to the mysteries was revealed.

“Immortal Domain’s gates are going to open!”

Just these words alone shook the heavens above and earth below. Everyone was stupefied, in a bit of disbelief.

Towards Immortal Domain, few people knew of it, to the extent where almost everyone had never heard about it before.

However, as Desolate Border's great battle came to a close, there were many behind-the-scenes details that were spread, quite a few secrets becoming public. Everyone learned that above the Nine Heavens Ten Earths, there was a great Immortal Domain!

There were true immortals there, true unmatched experts, the source of many inheritances' ancestral roots.

That world was countless times greater than even the Nine Heavens Ten Earths.

In the past, the protectors of the Nine Heavens Ten Earths, the past Dugu Clan, came precisely from Immortal Domain!

"Immortal Domain's doors have opened, do we have a chance to enter? Heavens! This is world-shocking information! No wonder the long life families made so many moves. They knew ahead of time!"

"Apart from some elites who could enter, there are news that some of Immortal Domain's most powerful inheritances will take in disciples, choose the most powerful seeds."

When these news spread, it shook the heavens above and earth below. Everyone understood why there were such disturbances recently.

"Now wonder Little Sky King, Exiled Immortal, Six Crown King and others were all being roped in by various sides."

Everyone found it hard to calm down. This meant that a great opportunity was coming. What kind of place was Immortal Domain? During all these years, not even their supreme beings could enter!

However, now, such a great instance of natural luck appeared. Those who had great achievements could enter Immortal Domain!

Soon afterwards, the source of the information was revealed.

It was the ruined immortal who sensed something, the first one to learn about this. Immortal Palace's ruined immortal sensed an omen that there were projections cast down from within Immortal Domain's gates, displaying unmatched might, releasing a decree.

"Not long ago, I was still feeling pity for Huang, but now, I should feel happiness for him instead. It was actually the ruined immortal who survived who accepted the decree. If Huang was still in the higher realm, he might be directly killed, not given a chance, directly eliminated completely!"

A few people said with a sigh.

This was a great opportunity. Those ruined immortals would definitely stop Huang from heading there. After all, they already crippled him, how could they give him the opportunity to rise up, give him that hope?

From that day forth, a contest began in the Nine Heavens Ten Earths, all sides' experts longing to enter Immortal Domain.

However, the battles this time were all carried out in the spiritual worlds, for example, Spirit Realm.

This was comparable to the eight regions' Void God Realm!

It was because with the great battle of Desolate Border coming to an end, there were too many things to deal with. The Nine Heavens Ten Earths also didn't wish to have too many deaths because of this contest. When fighting in Spirit Realm, even if one was killed in battle, they could still be saved in the real world. As long as the natural laws were complete, it could ensure that they were fine.

"Did I hear incorrectly? I am going to faint. Wang Family has a tenth dragon, known to be unmatched under the heavens?!"

"Wang Shi[1] is going to make an appearance?!"

A piece of astonishing news was released. Immortal Wang had a tenth child, only, he had remained in seclusion all this time, sealed in a frozen cave. This time, he was going to make an appearance.

"It isn't only Wang Family, some of the legendary heroic spirits who were suspected to be dead have appeared again as well!"

Everyone became stupefied. What was going on? Was the world going crazy?

"Sigh, isn't it obvious? The other side came knocking on our doors, this entire great era threatened by them, everyone in our world might die, so some inheritances already preserved some seeds beforehand!"

Soon afterwards, everyone understood.

Now that Desolate Border War ended, the crisis finally averted, Immortal Domain's gates even opening, a great opportunity finally appeared.

Those individuals who were sealed by great families, the individuals who would serve as seeds, were all released to seize a quota for entering Immortal Domain.

While the various lands were tossing and turning, there were some who were drinking, even weeping greatly.

"My brother was truly wronged! Huang, where are you in the lower realms, were you able to survive? You, who fought while covered in blood for our side, now that an opportunity has appeared, you can't even take part. How unfair is this?!"

Cao Yusheng and the Heavenly Horned Ant cried out, feeling endless anger and resentment.

"If Shi Hao came back, who could compete against him? He would just slap them all to death!" The Heavenly Horned Ant also shouted out.

Regardless of what kind of competition it was, how they were going to seize the quota, none of this had anything to do with Shi Hao. He was in the lower realms, walking his own path.

They were too far away from each other, the eight regions' cage too distant. They were practically worlds apart.

"Hm? Who is that person? Why does he seem so familiar?"

Inside Void God Realm, when Shi Hao appeared with Ge Gu, a few people revealed strange expressions.

“That’s Ge Gu, the heaven warping youngster! Not long ago, he fought with Xi Gu, many people witnessed it. Weren’t you also going to watch? How could you forget so quickly?”

“No, I’m not talking about Ge Gu, but the one next to him. He really looks like... the Little Stone! Heavens, there’s no mistake, it’s him!”

A commotion erupted here. Everyone widened their eyes in shock, looking in that direction. Then, they rushed over, surrounding him.

Even though there were news that the Little Stone returned being spread around, not many people saw him, many people not believing these rumors. Now that they saw him with their own eyes, there was naturally a great uproar.

“Heavens, the Little Stone really did come back! Hurry and enter the Void God Realm! What is he doing? It is definitely something great!”

It could be said that Shi Hao’s appearance created a huge disturbance in Desolate Region. Even those who didn’t enter the Void God Realm were quickly informed by close friends and others, quickly entering.

Just like in the past, once Shi Hao appeared, Void God Realm would definitely erupt into commotion, all sides would swarm over to watch.

Today, just for the sake of seeing him, another great commotion was produced!

1. ten

Chapter 1753 - Loves Drinking Milk the Most

Void God Realm was full of activity. Many people came over, all of them wishing to see the Little Stone for themselves, if he really did appear.

Ge Gu was still rather unwilling to accept things, but now, it seemed like the Little Stone’s past reputation really was too great, far exceeding its imagination. Just his appearance triggered such a huge commotion.

Shi Hao naturally wouldn’t make a stop. He brought Ge Gu with him, disappearing with a flash, quickly leaving into the distance. Apart from a few people, none of the others saw him.

“We were fooled, right? Did Shi Hao really appear? Why don’t I see him?”

“Where is he? I came to Void God Realm to see the Little Stone’s power myself.”

Many people appeared, Void God Realm becoming noisy. However, most people missed out on seeing him.

“Where are those two old things?” Shi Hao mumbled. When he really wanted to find Bird Grandpa and Coid Elder, they were instead nowhere to be seen.

Even now, he didn’t truly understand those two old fellas’ backgrounds. They were definitely not ordinary, having their own secrets.

Through the bit that he did learn, he knew that those two had lost their physical bodies, only their souls remaining in Void God Realm. It was unknown just how many tens of thousands of years had passed, both of them already about to lose their sense of self.

A will to attain enlightenment, a will to fall into depravity, this described precisely these two.

Ge Gu was also searching, but he didn't find them.

"Normally, they come and go unpredictably. They always make the first move, never sought out." Ge Gu said.

Those two cherished geniuses. Whenever a heaven warping figure appeared, they would usually appear.

For example, when Shi Hao was just a newcomer, just having entered Void God Realm, he immediately drew their attention.

Moreover, in recent years, Ge Gu and Xi Gu's intense clash also drew their attention, appearing at their sides.

Void God Realm erupted into discussion, full of activity. Many people came to see the Little Stone, yet in the end, they didn't see anything. It really was regretful.

Shi Hao and Ge Gu exhausted great efforts to find those two old fellas, but ended up with nothing.

"Something isn't right. There is such great activity, so they should have appeared, especially after knowing that you came back." Ge Gu said.

When Shi Hao heard this, he laughed coldly and said, "I know what's going on. Those two old things are doing this on purpose, not wishing to meet me. They want to act shamelessly, not acknowledge their promise!"

"What do you mean?" Ge Gu was confused.

"In the past, they would always use all types of excuses, not willing to honor their commitments, now they're running from me on purpose, not wishing to give me my reward." Shi Hao said, sniffing out something.

"Then what can we do?" The crimson dragon Ge Gu's face fell. n(-0Vlel01n

It now completely acknowledged Shi Hao. It was a True Dragon, yet actually didn't know its clan's secret technique, this was a bit humiliating. It felt like if Shi Hao really could teach it the unmatched secret technique, even... if it had to take him as his master, it wasn't something it had to resist to the death.

For a dragon to be forced to this extent, one could see how anxious it was.

Otherwise, it might become the most unreliable True Dragon of all of history, as well as the weakest True Dragon, truly a laughing stock recorded in the history books.

These were what the golden lion secretly muttered to him to add pressure.

Of course, this was also incited by Shi Hao. Who could blame him for wanting it as his disciple?

"It's easy, I'll settle it and force those two old fellas to appear."

Hong!

When Shi Hao saw an altar, he walked over, and then took a deep breath. A fist directly smashed out.

Then, he continued forward, smashing everything in his path, from the mountains to the rivers, and then to the palace halls, smashing everything in his path.

In the end, this triggered a huge commotion.

This was a spiritual world, rumored to be a world created by the deities, formed from order and natural laws.

It was extremely sturdy, like a perfect world.

However, this rigidity also had a limit. When faced with Shi Hao's power exceeding the limit, these natural laws could be destroyed and crushed.

Back then, when he broke the records, he had done precisely this type of thing.

"Heavens, who is that? Has he gone mad? Is he going to completely trash the Void God Realm?!"

The people in the surroundings were shocked. They saw that wherever that person went, the void would collapse, as if worlds were being destroyed, affecting the stability of Void God Realm.

Then, steles appeared in many places, record steles.

"Number one in fist strength!"

At this moment, in all different areas, everyone couldn't help but cry out in alarm.

Someone broke a record, moreover a world-shocking record! It was actually fist strength that oppressed the present world, overlooking the experts of all clans throughout the ages.

This was not a normal record, because fist strength, from a certain perspective, might be close to true combat strength!

Number one fist strength, even if their fighting strength wasn't number one, it was likely not far off.

There were many records, but there were some that were extremely special, having great weight. Without a doubt, number one fist strength was just too shocking, stunning the world.

Even Ge Gu was stupefied. This fella who kept trying to make himself its master was too ferocious, right? It was almost as if he didn't even have any intention to break records, only randomly destroying things, yet this glorious achievement was made!

The crimson dragon felt a bit dizzy. It saw the resplendent stele. Not only were there characters there, there was also a fist that released glorious divine light, illuminating the dome of heaven.

This proved that his fist strength was terrifyingly great, exceeding all past records by a good amount!

Everyone was shaken, momentarily finding it hard to speak, a bit stupefied.

Soon afterwards, everyone noticed the name left below the stele.

Who was the one who broke the record? Everyone felt that it was most likely that person. The Little Stone returned, who else could it be?

Pu!

When someone saw the name, he couldn't but spurt out what he was drinking.

Even some aloof and reserved young ladies had strange expressions, truly unable to hold themselves back, all of them holding their mouths, laughing until their bodies rocked back and forth.

"Haha..." As for the men, they laughed even more openly.

"It really is him!"

"Haha, it's still this name! If it didn't appear now, I would have almost forgotten!"

...

Everyone roared with laughter.

Everyone was already sure that this was done by the Little Stone, he returned.

However, the name that was left behind wasn't Shi Hao, but rather a long weird name: Loves Drinking Milk the Most!

Puhaha!

Forget about others, even Ge Gu who followed at Shi Hao's side couldn't hold back, immediately spurting out his saliva, laughing until his body bent over, small face becoming red from laughter.

Dark lines covered Shi Hao's face, giving him a hateful stare. Right now, he really felt like one's dignity was not protected from their past, that all of his reputation was being lost.

Back then, he was still a child, undisciplined and out of control, doing whatever he wanted. Back then, he hadn't even completely stopped drinking milk, leaving behind this name when breaking records.

Thus, the Void God Realm remembered him as such, this name becoming his title in this realm.

As a result, whenever he appeared, truly wishing to break a record, make a stele appear, this name would appear.

After all these years had passed, he had long matured from being a child, now a young man in his twenties, in his golden age. However, it was actually still that name.

Even though Shi Hao's skin was extremely thick, right now, he still felt his face burning. This really let down his heroicism and decisiveness!

Loves Drinking Milk the Most, just how embarrassing of a name was this? He really wanted to run.

However, in front of the disciple he had already decided on, as well as everyone's faces, this name was 'ignited' again, everyone knowing of it.

It was because that stele would appear in all places, informing all under the sky. Everyone knew about this.

Shi Hao really wanted to just smash this stele to bits, destroy all traces of its existence, and then make his getaway.

Dang!

He immediately put his thoughts into action, striking the record stele before him, smashing it to pieces with a single fist.

This made Ge Gu's expression change!

This was enough to prove the strength of Shi Hao's fists. Otherwise, how could a record stele be smashed? Normally, it was impossible!

However, what left Shi Hao shocked was that this stele shattered, but immediately afterwards, another appeared, on it a new record.

It was still related to fist strength. In that instant, he broke his own fist strength record.

What was inscribed on it was still the 'Loves Drinking Milk the Most' name, just too striking.

Pu!

Many people couldn't help but laugh.

It was because it was written clearly, stating that out of shame and humiliation, he destroyed the recording stele, deserving of punishment. However, at the same time, he broke another record.

Shi Hao really was about to faint. Even this was a thing?

His face was incredibly overcast. This was too shameful!

"Haha, it really is the Little Stone! Heheh, he still has the same style as before, undisciplined and out of control, still trying to erase all traces, only to make that title even more prominent."

"Haha, I believe he is feeling extreme regret right now. Back then, when he decided on this name, it really was too outrageous."

Many people were laughing, at the same time taking joy in his calamity.

Being able to see the Little Stone suffer, driven crazy, this was something that made many people feel amusement.

While Shi Hao's face was darkened, he finally saw Bird Grandpa and Coin Elder, the two appearing together.

Chapter 1754 - Void God Realm's Limits

"Damn brat, breaking Void God Realm the moment you return to it, are you trying to rebel? We ought to punish you, not give you any of the rewards from breaking records!" Coin Grandpa threatened.

"What punishment? I came to demand repayment. You all never honored the promise of a precious technique from all those years ago." Shi Hao walked forward.

Even though the two old fellas had thick skin, they still found it a bit hard to continue with this, because they really weren't all that sincere. After all these years, they still didn't honor their commitment.

"You all should know that last time, I fought my way down from Spirit Realm." Shi Hao then said.

"Let's leave this place first, we'll talk along the way." Bird Grandpa said.

Sou sou

They disappeared from their original locations, quickly leaving, because many people were hurrying over, someone discovering Shi Hao's whereabouts.

"Stop beating around the bush. I've already gathered all the bronze pieces, it is just the heavenly book you all promised that's left." Shi Hao shot them a look of disdain.

This place was extremely desolate, but it was also extraordinary, chaotic energy surging from all sides.

"Sigh, it's not that we don't want to give it to you, but rather that it's a bit difficult." Bird Grandpa said. His gaze was a bit lost, the bird on his shoulder also had a bewildered expression, a bit absent-minded.

Shi Hao looked at them. These two's conditions weren't that good, even the bird experiencing some issues.

"You all fall into depravity with a thought, one thought achieving enlightenment, don't tell me you two really can't hold on much longer." Shi Hao asked out of worry.

When he came last time, he already noticed some issues. These two's souls were entrusted to Void God Realm, and now, there was a great issue, actually showing signs of deterioration.

"We are still okay for now, not too bad." Coin Elder said, stroking his beard.

"Was this dragon subdued by you?" Coin Elder asked.

The crimson dragon was immediately annoyed, rolling his eyes, glaring at the two of them. Even though he knew that they might be the controllers of the Void God Realm, he was still extremely dissatisfied.

"This is my disciple, in the future, he will inherit some of my teachings." Shi Hao replied.

"You are taking in disciples when you are still this young?" Coin Elder smirked. However, he felt like this crimson dragon serving as Shi Hao's disciple was still rather fitting.

"Sigh, I've been afflicted with the Immortal Breaking Curse, might not have much time left. I have to leave behind a disciple, you know?" Shi Hao feigned pain.

"What?" The two of them were both shocked. They immediately became clear-headed, their expressions no longer distracted, they were startled instead.

Immortal Breaking Curse, what was this? Even true immortals would be crippled without exception, powerful to the extreme!

"Do seniors have any way of getting rid of it?" Shi Hao humbly asked for guidance.

It was because while in that life restricted region, he had asked that white-clothed man how to get rid of this curse. At the very least, the lord of the restricted region had never heard of a way to get rid of it, could only face it head-on.

However, it was rumored that apart from immortal kings, all those who suffered from the curse were crippled, it was merely a matter of time.

Shi Hao was a bit stunned at the time. There was actually no cure?!

The lord of the restricted region was extremely direct, telling him that it was precisely why there was no way to get rid of it that it was worth him using this to test Shi Hao. Only by miraculously making it through in the end, not being crippled, was there a chance of him becoming history's most powerful Self Release Realm cultivator.

At the time, Shi Hao released a bitter smile. What was the point of being history's strongest Self Release Realm cultivator? Even true immortals were crippled in the end!

Of course, he understood what the lord of the restricted region meant. It was because the other party experienced too much, witnessed too many hardships. What he needed now was someone who surpassed all other experts, at the very least, someone who exceeded him, the lord of the restricted region.

Otherwise, any further nurturing was useless. Shi Hao would be just like the eight previous true immortals, all of them dying in the end.

The enemies and situations the lord of the restricted region faced might be extremely terrifying, or else he himself wouldn't have died.

Shi Hao knew that the white-clothed man wanted to head to the other side of the dam, advance forward, but back then, he returned while covered in blood, dying soon afterwards.

The successor this type of person needed naturally exceeded all those of the past, needed to become the most powerful!

Immortal Breaking Curse, it shredded through the cultivation of immortal dao level existences, viewed even by that white-clothed man as a testing stone, able to assess if Shi Hao truly possessed heaven-defying power.

Shi Hao could only sigh. This type of test really was too severe.

Which was why when he saw Bird Grandpa and Coin Elder he asked for guidance like this. It really was no different from giving medicine to a dead horse.

"The era we experienced, it ought to be... we have heard of the Immortal Breaking Curse, but we don't have too deep of an impression. It seems to not have any cure." Coin Elder said.

Shi Hao already knew that something was wrong with them for quite some time, that they forgot some things of their past.

"There is no point in hiding anything from you anymore. We were injured, moreover, we were guarding some things, which was why our conditions seem to be worsening." Coin Elder said.

He admitted that he would often forget some things, and that it was related to this.

“What are you two guarding?” Shi Hao was shocked.

“Let’s go, we’ll fetch your precious technique now, but it’ll depend on you to see if you can obtain it. At the same time, you’ll be able to see what we are suppressing for yourself.” Bird Grandpa said.

Shi Hao’s mind jumped. He knew that he was about to touch upon Void God Realm’s hidden events, possibly its greatest secret.

The crimson dragon was extremely nervous. It was because sometimes, they spoke with their backs to him, secretly transmitting sound, not letting him hear.

There were some less important things that it could hear.

They followed a path that led into the sky, through the clouds, taking an ancient road into a boundless area of primal chaos.

A bluestone path was spread in the void. Shi Hao and the others walked to its end. They arrived at a giant ancient palace, as well as a prison.

What kind of place was this? He was full of doubts.

This was, without a doubt, a place within Void God Realm that had never been revealed to outsiders. There were great secrets hidden within!

“Be careful, don’t get too close.” Bird Grandpa reminded.

When they approached the giant black ancient palace, they stopped Shi Hao.

In the palace, it was extremely dark, but he could still make out some stone statues. They were ancient and mysterious, all long cracked apart, but there wasn’t much dust covering them.

However, the statues had chains around their bodies, tightly bound.

Shi Hao knew that all of this was formed from spiritual force, including those chains, that they were all unmatched natural laws.

As soon as they approached, he sensed extraordinary power. It was extremely mysterious, posing a threat to even him.

One had to understand that he had already reached the extreme in Void God Realm, but he still felt as if he was being stared at by a great desolate beast, sensing danger. This place was definitely unordinary.

On the ancient stone statues, there was some faint black mist swirling about, carrying demonic power.

“You all are falling into depravity because of them?” Shi Hao asked Bird Grandpa in shock.

“There are other reasons as well.” Bird Grandpa said.

This was too much of a shock! These statues were this terrifying?

Shi Hao looked over. Beyond this palace was a great prison, inside of it extremely bizarre altars. Every single one of these altars had a sealed vessel, carrying traces of blood.

The altars were borrowed to seal the jars, the blood unknown if it was needed for the sealing, or if it overflowed from the vessels.

There were several dozen altars, several dozen vessels!

The vessels were also releasing black mist carrying demonic power.

Shi Hao frowned. This type of black mist was a bit familiar, carrying the ominous and inauspiciousness. It was just like the sinister black mist Great Elder Meng Tianzheng faced at the final crux of his immortal ascension.

“The precious technique you want is being suppressed over there. I fear that you are unable to head over and seize it.” Bird Grandpa said.

There were two bone books, one piece in the black palace, one in the prison.

Chapter 1755 - Worthy Opponents

“What kind of precious technique is it?” Shi Hao asked.

“An unmatched technique in this world, as well as the precious technique you need the most!” Coin Elder said.

Shi Hao looked forward to it, his eyes starting to burn with desire. Those two bones were both extraordinary. They looked ordinary, but mysterious characters were faintly discernible, releasing immortal energy.

“It doesn’t seem to be my clan’s precious technique.” The crimson dragon said, a bit apprehensive, and also a bit disappointed.

Under Shi Hao’s ‘rational words’, it already lowered its head a bit, might take him as its master. It was because it really wanted to become a True Dragon who knew its own clan’s unmatched precious technique.

However, after arriving in Void God Realm, it discovered that all of these dreams might amount to nothing.

“True Phoenix Precious Technique.” Bird Grandpa said. He sighed. This type of wondrous technique possessed endless power, moreover allowing rebirth through flames, the most suitable for Shi Hao. n.-
Ⓜ(.v-/e(/ℓ(/B/))I(-n

One of those two bones was in the black palace hall, the other in the prison, floating quietly. These were phoenix bones.

To be more precise, they were formed from interweaving phoenix bone texts, innately carrying the greatest power, purifying the black mist here.

“You don’t have any way of bringing it away, can only study it here. However, this is still extremely dangerous, you might fall into depravity as a result.”

Coin Elder warned, his expression serious.

"I've even been afflicted with the Immortal Breaking Curse, what black mist is there to be scared of? Just how far can I even fall?" Shi Hao didn't feel any fear.

"Immortal Breaking Curse will only cripple your cultivation, but this will affect your mind, make you fall into darkness!" Bird Grandpa's expression was extremely serious. He released a long sigh.

Of course, the most dangerous thing wasn't limited to just this. Regardless of whether it was the stone statues or those sealed vessels, they were all extremely terrifying.

Bird Grandpa warned him, having him be careful.

It was because they already saw that Shi Hao set his resolution to head over, wishing to obtain the True Phoenix Precious Technique.

Shi Hao definitely wouldn't miss this chance. This was the greatest divine ability from one of the Vicious Ten, how could he leave a treasury empty-handed?

This was especially when this Phoenix Secret Technique was something he was extremely interested in. Apart from its powerful offensive power, the undying body was also something that he longed for.

Rebirth through flames, undying phoenix body, from the past to present, it was unknown just how many creatures were drawn to this method, desiring it greatly.

Now, an opportunity was right before his eyes!

Only the crimson dragon was unhappy. It felt like it might become the laughingstock of the True Dragon bloodline. It didn't even grasp its own clan's divine ability, not obtaining its inheritance, what kind of True Dragon was it?

Shi Hao moved, walking into the black palace.

Hualala!

Right at this moment, ice-cold chains sounded, piercing into the soul. It was too sudden, and also extremely terrifying.

Those statues were stone sculptures, but now, they actually moved, all of them reaching out a hand, striking towards Shi Hao.

Peng peng peng!

Shi Hao's expression changed. These stone statues were too extraordinary, ridiculously powerful, making him sense the threat of death. He had to go all out in facing them.

"A fierce person! This little fella is ridiculously strong, almost a bit outrageous." Bird Grandpa inwardly sighed.

Coin Elder also nodded, greatly acknowledging Shi Hao's strength. He was now much stronger than he was before he went to the higher realms. He definitely made even greater breakthroughs on the path of breaking past the limit.

This was unrelated to one's cultivation level. In this place where everyone's cultivation level was the same, what was compared was only the path exceeding the limits of this realm, a contest of who was the most powerful at the same level.

From a certain perspective, this was a fostering of the most powerful in history in a certain cultivation level.

After just a brief exchange, Shi Hao was stunned, feeling greatly shaken. Ever since he reached where he was today, he rarely met his match at the same level.

However, in this place, he felt pressured. These stone statues were too powerful. The large hands that were reaching out were covered in chains, releasing hualala sounds, just too ferocious.

Right now, it was as if several unmatched beings descended into this world, arriving from the ancient times, challenging him. They met face to face, destined to end in flowing blood.

"What kind of creature is this?" Shi Hao backed up, in the end returning, not facing them head-on. It was because he was greatly shaken inwardly.

"Paramount beings, unknown which age they lived in. They were previously consecrated in some temples in a realm, some powerful figures among our predecessors sealing a portion of their imprints here." Bird Grandpa said.

This was a major event he still remembered, because the impact was too great, not fading from his memory even now.

Shi Hao's expression was overcast. He stared at those statues.

"Even if you aren't a match, there is no shame. If you could stop even one of those stone statues, then it can already be considered defying the heavens." Coin Elder said.

"Who said I wasn't a match?" Shi Hao was naturally unconvinced.

However, he had no choice but to admit that these stone beings were too strange. Right now, only a hand reached out, yet it was already this powerful. If the shackles really were undone and they went all out against him, what kind of result would there be?

"I recall a saying that the most powerful can be fostered and nurtured here." Bird Grandpa said.

When Shi Hao heard this, his pupils contracted. It seemed like these stone statues being chained up here wasn't just simply to be suppressed, they also served as a terrifying lighthouse for inspiring later generations.

"I want to release a stone sculpture, undo all of its iron chains, fight it with all of my strength!" Shi Hao said.

"You better not!" Coin Elder was given a fright.

Bird Grandpa was also shaken. He hurriedly waved his hand, this definitely wouldn't do.

“There are some recordings here, have a look.” Coin Elder said. There were some indistinct words carved into the ground, informing those of later generations that they absolutely must not undo the shackles.

It was because every single one of these stone statues were truly without equal, no one able to subdue them.

“This is an interesting place, I like it!” Shi Hao said.

He was rather fascinated with this place, finding a training ground for improving his own cultivation. These stone statues would become his training partners in the future. He believed that one day, he would personally undo their restrictions.

“If you want to sharpen yourself, you can enter the prison. However, let me warn you, you must come back quickly after entering each time, must not waste too much time.” Coin Elder said.

According to what they said, inside the prison, the creatures sealed within those vessels on the altar were also extremely terrifying, he couldn’t continue fighting them zealously.

“This is too great! I was running out of opponents, who would have thought that there would be a bunch of them here in Void God Realm!” Shi Hao was excited, not fearful at all, nodding here.

Hong!

This time, he rushed in, not facing the stone statues, but rather the prison region.

In the end, as soon as he approached, a bloody arm reached out from a vessel, attacking him viciously. Great dao force erupted, extremely terrifying.

Peng!

Shi Hao faced it head-on, his brows furrowing. Were the creatures here all this powerful?

“Don’t look down on them! The sealed creatures are powerful beyond imagination!” Coin Elder warned.

“Every one of them exceeds the limit!” Bird Grandpa added.

When Shi Hao heard this, he was greatly shaken. These sealed creatures’ origins were definitely terrifyingly great. Just where did they come from?

Hong!

Many of the jars swayed. As long as he approached them, a bloody palm or claw would reach out and attack Shi Hao murderously.

These creatures were ridiculously powerful, making Shi Hao’s mind sink.

This place was too extraordinary, he had to get to the bottom of this. If a swarm of these experts appeared one day, how was he even supposed to fight? Would he alone even make a difference?

“This is a corner of the dark prophecy, merely a simulation. There were some war generals trapped here to sharpen those of later generations.”

Right at this time, Bird Grandpa seemed to be talking in his sleep, actually speaking these words.

Even he himself was shocked, feeling a bit perplexed.

It was clear that these were memories from the depths of his mind, previously forgotten from the corruption. However, now that he was startled, he spoke this involuntarily.

“Excellent, in the future, this place will be my training place!”

Shi Hao now felt like coming to the lower realms might be even more important than cultivating in the higher realm. He encountered such great enemies here, all of them the highest quality grindstones.

Chi!

He turned into a streak of light, rushing over, seizing the piece of phoenix bone, examining it there.

Chapter 1756 - True Phoenix Precious Technique Obtained

There were altars everywhere, all of them with bloodstained containers on them!

Hands and claws reached out from these jars one after another, displaying ancient divine abilities, attacking Shi Hao. A great battle erupted here.

In the end, Shi Hao’s hair was all over the place, body covered in injuries, even hair bloody. He slaughtered his way out, body staggering.

“What’s wrong, are you alright?” Bird Grandpa asked in shock.

“I’m fine!” Shi Hao said. He sat down on the ground, operating mysterious techniques with all of his strength, forcing out strand after strand of black mist to prevent himself from falling into depravity.

This place was too strange. Shi Hao had already slaughtered his way in three times, each time only returning after being seriously injured. He could only stand there for a short amount of time each time, study that piece of True Phoenix Precious Technique briefly.

That thing couldn’t be brought out, could only be studied there.

It was because those patterns were extremely complex, like the stars of the sky, possessing countless changes, too wonderful for words.

This was not a normal scripture, there was a portion of immortal text. However, more than ninety percent was dao text, deriving the most basic natural laws, great dao power.

It continuously changed, expounding upon the True Phoenix’s profound mysteries!

It was clear that the one who left behind the scripture believed that describing the True Phoenix Precious Technique with just characters was overly simple, that the True Phoenix’ great dao had to be used to expound on it, only then could one fully receive the secrets within.

However, if this happened, for normal people, the difficulty would definitely be great. This was the secret technique of the phoenix bloodline, it was difficult for other creatures to comprehend it.

It was capable of endless transformations, complex like stars in the sky, enough to make one's head hurt.

This needed time to comprehend, to experience, like an endlessly profound heavenly text.

Shi Hao slaughter his way in and out three times, able to sense the True Phoenix Precious Technique for a moment each time. In his eyes, those bone texts danced about like phoenixes.

Those patterns carried fiery light, accompanied by a True Phoenix spreading its wings, soaring into the sky. When it died, it would be reborn through flames, dazzling and brilliant, its body covering heaven and earth, and then the cosmos itself.

This was what Shi Hao felt. The True Phoenix Precious Technique was extremely horrifying. It was profound and and immeasurable.

If one really wanted to fully comprehend it, then one needed astonishing talent. Otherwise, it was impossible to make sense of it.

Chi!

When the last strand of black mist was expelled from Shi Hao's body, he got up, and then rushed right back in. His objective was clear, which was precisely the profound mysteries on the phoenix bone.

Honglong!

A great battle erupted here once more. Shi Hao made his way past the palace hall, slaughtering his way into the prison, fighting intensely while studying the Phoenix Secret Technique.

The crimson dragon Ge Gu became silent. It couldn't help but sigh inwardly. Huang was too strong, more formidable than himself!

Previously, it was still unwilling to accept defeat, believing that if they fought at the same cultivation realm, Huang likely wouldn't be its opponent. Even when it was fighting an intense battle against Xi Gu, Shi Hao still rushed straight in, restraining both of them. At that time, it couldn't accept that result, feeling like it had been too careless.

However now, after observing several great battles, it was already sure that Huang had reached the pinnacle of the extreme path, revealing his unmatched bearing in this domain.

It was to the extent where it even suspected that Huang might be history's most powerful Self Release Realm cultivator.

At the same time, it was extremely shaken by the sealed vessels here. Every single one of them had a creature, all of them past unmatched figures.

This was just too terrifying, if they were let out, what would happen? It was simply unimaginable!

As Shi Hao continued to fight, he had to admit that right now, he had a huge handicap. It was because each vessel could only release one hand, it wasn't the true body that appeared.

Moreover, only the few vessels closest to him posed danger, the powerful sealing force restricted their range of attacks.

Despite this being the case, being surrounded by enemies like this was still a desperate struggle. All types of divine abilities and ancient techniques flew over, blasting him until his entire body was covered in blood, leaving him in an extremely miserable condition.

However, he didn't cower. This was the fourth time he slaughtered his way back in, fighting intensely while focusing half his attention on the phoenix bone, continuing to study it.

He was studying the True Phoenix Precious Technique!

It was clear that Shi Hao possessed astonishing perception abilities, still making some gains during this life and death struggle. From time to time, his body would release brilliance, as if he was bathed in divine flames, improving his injured body's condition.

It could be said that he was immediately putting what he learned into practice. The Rebirth in Flames Technique was precisely a portion of the Phoenix Secret Technique's essence!

Shi Hao fought fiercely. When faced with attacks from such powerful enemies, he even had to deal with the black mist wafting out from the vessels and sticking to his body.

From a certain perspective, this thing was far more terrifying.

Perhaps nothing might happen in the short term, but if it was truly allowed to corrode the body, then it would be extremely bad. Meng Tianzheng was an example.

Shi Hao wouldn't forget the final battle of Desolate Border. This was precisely how Meng Tianzheng disappeared!

Apart from this, Bird Grandpa and Coin Elder guarded this place year-round, also suffering serious problems as a result.

Pu!

Shi Hao spat out a large mouthful of blood, body flying outwards. He adjusted his breathing again, repairing his injured body, expelling the black mist.

Just like that, Shi Hao continued a vicious cycle of fighting. Blood dyed the ancient palace and prison, the most astonishing great battles unfolding here.

Unfortunately, no one in the outside world knew.

If the long life families of the Nine Heavens above knew of this, they would definitely be shocked. Even someone as powerful as Huang met his match, being injured by the creatures sealed here.

If even just a few of these sealed creatures escaped, or one of those bound stone statues was released, just what kind of result would there be?

It would most likely be a great disaster!

Shi Hao was fighting intensely. After six days and six nights of bloody battles, he finally engraved all of the true meanings on the two phoenix bones in his mind, moreover obtaining a set amount of achievements.

He couldn't be considered to have grasped it, but he engraved the boundless and endless patterns into his mind. Now, he could truly cultivate and test it out.

The True Phoenix Precious Technique was at hand!

This was a divine ability Shi Hao had always wanted to obtain. Today, he finally completely succeeded.

When everything calmed down, Shi Hao breathed heavily. Then, he closed his eyes, resting here for an extremely long time.

Six continuous days of intense battles left him unbearably exhausted. Even his bones were all broken, the most dangerous time, five holes were pierced into his skull. Fortunately, he stuck it out.

A wave of flames moved, attaching to the surface of his body like the plume feathers of a phoenix, extremely brilliant and dazzling. They surrounded him, a wave of exuberant life force spilling out.

Hong!

Shi Hao got up, standing there. He completely recovered.

Just the bit of the Phoenix Secret Technique's Rebirth Divine Ability he learned produced great results.

Shi Hao was happy. If he completely grasped this wondrous technique, even if he was seriously injured in the future, he could still be reborn. There were no precious techniques more precious than this.

This was a life saving extreme art!

"Bird Grandpa, Coin Elder, many thanks. I need to return to the real world to test some things out." Shi Hao said his goodbyes.

His benefits this time were huge. He needed to digest and analyze, completely get to the bottom of this.

Today, the True Phoenix Precious Technique once again fully appeared in this world!

Bird Grandpa and Coin Elder both sighed. They really chose the right person, he actually succeeded.

One had to understand that this place looked peaceful, but once one rushed in, it was basically guaranteed death. The sealed creatures were too powerful, easily killing all the so-called heaven warping geniuses. n-/0V£1bIn

"Lower realms, prison." Shi Hao said to himself. Then, he suddenly turned around towards the two elders, his eyes erupting with brilliance.

It was because Shi Hao suddenly became alert, sensing that he might have overlooked something.

"I seemed to have been misled. Could it be that the lower realm's prison isn't the eight regions, but rather in the Void God Realm?!" Shi Hao was shaken.

He felt like there were some curtains covering his mind that were suddenly torn apart, pushed aside fiercely.

This speculation was extremely astonishing, different from what others suspected!

Some secrets of the lower realms were hidden in the Void God Realm!

“The so-called prison aren’t the eight regions. The so-called unmatched criminals, were suppressed in Void God Realm.” Shi Hao’s voice became hoarse. He looked towards those two elders.

Chapter 1757 - A Phoenix Without Wings

“Youngster, you are overthinking things. What are you speculating?”

Bird Grandpa’s expression became vacant, eyes lacking radiance, unable to give Shi Hao any useful warnings. Black mists spread here, the two elders’ corruption severe.

Even though the two great experts both operated secret methods, the efficiency of expelling the black mist wasn’t great.

It was because after all these years, the black mist had long seeped in. It was impossible to completely eliminate it.

“Seniors, goodbye!” Shi Hao didn’t search any deeper, planning to go back first.

In the future, he would definitely come back here, because there were opponents here, creatures who could truly fight great battles with him. They were dao bodies that could be used to temper him.

Shi Hao left. For the sake of becoming even stronger, he had to cultivate. He believed that he would return to truly challenge the existences here soon.

At that time, he would become an unsheathed immortal blade, pointed at all so-called world-shocking experts!

Behind Stone Village, within a muddy area, Shi Hao set up a formation.

At his cultivation level, as long as he had the formation diagram and magical force, setting up something with just a rough drawing was possible.

He robbed various sects, bringing down too many treasures from the higher realms, so establishing a complete divine formation was completely not an issue.

Hu!

Fiery light surged, a True Dragon rushed into the heavens. Ge Gu was trapped in the formation, currently screaming out.

“Still lacking quite a bit!” Shi Hao said.

He was training this crimson dragon, teaching it divine abilities, truly treating it like his own disciple.

Ge Gu was cultivating there, forced to. In the formation, its destructive force was weakened, restrained to the limit. Its power wouldn’t harm the great wilderness.

During these past few days, the crimson dragon yielded. After some serious consideration, it took Shi Hao as its master!

Right now, it was going through the most difficult training. It was extremely special, making it roar out, drawing the attention of many people in Stone Village.

Its experiences really were bitter, because it had to first forget its own clan, screaming out, "I am a phoenix!"

The golden lion, Yun Xi, and the others were naturally startled, all of them stupefied. Did this dragon go crazy from Shi Hao's training?

Previously, it was only immersing itself diligently in cultivation, but now, it actually shouted out these words, going mad. Was there something wrong with its brain?

Everyone suspected that Shi Hao had driven this True Dragon insane.

"I am a phoenix, my talent unmatched, rebirth through flames!" The crimson dragon screamed, voice resounding.

"You wanted to be its master, but how could you force it like this? Even its mind has become unclear." Yun Xi said, warning Shi Hao not to go too far. Having Ge Gu cultivate bitterly every day like this would produce big issues.

"It didn't go mad. I am teaching it a skill. If one wishes to cultivate an unmatched precious technique, one must forget oneself!" Shi Hao calmly replied.

Everyone was stunned. They didn't know why he was treating the crimson dragon like this.

"I am a phoenix, a phoenix without wings!" Ge Gu roared out, its voice becoming even louder. The fiery light around its body became even more powerful.

Everyone became stunned, their expressions becoming increasingly strange.

"Actually, the reasoning is extremely simple. It didn't obtain the True Dragon bloodline's highest inheritance, so I am teaching it the great method of a different clan, changing it to the True Phoenix Secret Technique." Shi Hao explained.

At first, he encountered the crimson dragon's fierce resistance. It was because if this happened, then it really would be made fun of. The True Dragon of this generation actually didn't know its own clan's technique, moreover had to learn the True Phoenix' wondrous technique.

Now, Ge Gu began to let these things go.

As it roared, it gradually truly treated itself as a phoenix.

"I am a phoenix without wings!" The crimson dragon roared.

Its voice was still extremely tender, but resolute. It was brainwashing itself, completely immersing itself into this process.

Chi!

Phoenix wings spread at the sides of its body, two streaks of scarlet multicolored light flickered, tearing apart the skies, the power terrifying.

Soon afterwards, a True Phoenix soared into the heavens. Two streaks of scarlet multicolored light appeared, spreading like a pair of divine wings into the heavens, reflecting the Phoenix Clan's terrifying power.

There was no True Dragon Precious Technique, so Shi Hao taught it the Phoenix Secret Technique.

The main reason why Shi Hao had it go through this was because there was the legend of dragon and phoenix pair.

If the two clans' great secret methods were concentrated into one body, then that would be an unmatched inheritance able to sweep through all under the sky.

If the crimson dragon first learned the Phoenix Clan's divine ability, in the future, as its cultivation advanced, once it awakened the True Dragon Clan's secret technique inheritance, then that would truly be displaying the legend of dragon and phoenix.

"I am a lion without wings! No, I am a phoenix!" The golden lion also shouted, skin extremely thick, moving over, asking Shi Hao for the True Phoenix Precious Technique.

In the end, Shi Hao rejected it without hesitation.

"You are just a foreign demon, what right do you have to obtain the Nine Heavens' highest secret method? If you want to learn, that's fine too, on the premise that you fully yield and hand over all of your secrets." Shi Hao shot it a look of disdain.

The golden lion's face darkened, feeling extremely dissatisfied.

"You still aren't convinced? I had you seek out the five-colored sparrow, yet in the end, you still haven't caught it. You think I can still entrust anything to you?" Shi Hao mocked.

The golden lion vowed that it really didn't act lazy, always searching for the five-colored sparrow. After being pooped on, it couldn't swallow this resentment no matter what.

Only, it couldn't catch it no matter what it did, so it could only suffer in resentment.

Shi Hao had always been cultivating during this time, comprehending the True Phoenix' profound mysteries. When instructing the crimson dragon, he only used some time fragments, most of the time, he was cultivating himself.

That day, Qingfeng returned.

Shi Hao got up. After understanding the situation from him, he got onto the golden lion, returning to Stone Country with Qingfeng. He was going to take action.

During these past few days, great waves stirred through Desolate Region. Many people knew of Shi Hao's return, all of them discussing this.

Of course, there were some who didn't believe the rumors, believing that there was something wrong with the Void God Realm and the name Loves Drinking Milk the Most.

"I feel like only his primordial spirit came down from the higher realm, entering Void God Realm, his true body didn't really return. Just think about it, what kind of place is the higher realm? Now, no one can come back down."

"However, Stone Country Imperial Palace released news that the Little Stone really did come back. Also, Mysterious Region also released information that Princess Qianqian ran into the Little Stone in Mysterious Region, so how can it still be fake information?"

"This is where you are wrong. Right now, Stone Country's situation is unstable, Stone Emperor might be abdicated. Those who are supporting him couldn't help but release some shocking information."

Many people believed that Shi Hao returned, but there were some who were stubborn, believing that there was no way his true body could come down from the higher realm, finding all types of reasonings to support themselves.

Stone Country Imperial Palace, many people didn't know whether to laugh or cry. Real information actually incurred doubts from some people, in disbelief.

However, all of the noise was going to be quelled today.

It was because Shi Hao appeared in Stone Country Imperial Capital, moreover taking action powerfully, shocking all sides.

There were two powerful old kings who resisted. With a raise of Shi Hao's hand, they were captured, too easy.

"Your Majesty!"

These two clans panicked, the remaining people's faces becoming pale. They knelt down, shivering in fear, all of them extremely uneasy.

In reality, during these days, they spent them in panic, just fearing that the young Stone Emperor would settle things when he returned.

It was because during these years, they stood close to the original Stone Country Imperial Clan's direct line of descent, wishing to force Qingfeng off the throne.

"Back then, I was not stingy to your clans, even granting you all some rare pill medicines. In the end, this is how you repay me?!"

Shi Hao said coldly, a wave of true anger stirring within him.

Those two old kings were people he had cared about, so he granted their two clans many benefits. In the end, when he left, they actually began to scheme against his brother Qingfeng.

"Stone Emperor, please forgive our transgressions!" Someone from the two clans shouted, pleading for forgiveness.

Chi Chi

After these two shouts, Shi Hao was extremely direct. With a raise of his finger, the two old kings were crippled, not showing mercy.

What made him feel at ease was that War King, Peng King, and the others were unswerving from start to finish, protecting Qingfeng, not developing any other thoughts.

“Little Stone, you really are bold!”

Right at this time, a voice shouted from the distant horizon. Its speed was extremely fast, arriving on a divine flame, releasing the aura of a deity.

“Deity!” Someone cried out, sucking in cold air.

“Rain Clan asked someone for help! It was also precisely because they managed to ask out a divine level expert, rumored to be able to contend against the Zhuyan, that some people dare covet the throne.” Someone said quietly.

Hong!

That creature quickly approached, divine flame burning the heavens. Moreover, dazzling brilliance shone from its head, auspicious multicolored light swirling about.

“Something’s not right, that creature might have reached the True Self Realm, which is a true deity!” Someone sucked in a cold breath of air.

“Little Stone, you dare behave so ostentatiously, appear in the lower realms? Let me test you out a bit, see just what kind of skill you have to act so brazen!”

This deity level expert took action, grabbing towards Shi Hao.

It was because in many people’s eyes, becoming a deity was too difficult. After ten years, Shi Hao might not have reached this level, the most heaven-defying probably right before true deity level.

Now, this existence was clearly a true deity, coming so powerful, wishing to capture the Little Stone. It was clear that those who were originally flustered developed some confidence.

However, the following scene left everyone shocked, completely stupefied.

This time, Shi Hao didn’t move at all. In the end, the lion he rode on opened its bloody mouth. With a pu sound, half of that deity’s body was bitten off with a single bite!

The world became silent, everyone stunned.

Chapter 1758 - God

A deity came so powerfully, yet in the end, half of its body was bitten off. This left everyone shocked!

This was completely different from what everyone imagined!

Ah...

That creature screamed out, breaking the peace. A rain of blood scattered down. It struggled intensely.

This was beyond everyone’s expectations. The deity was extremely miserable, a small half of its body gone, ending up in that lion’s bloody mouth, crushed with ga beng ga beng noises, directly swallowed.

The deity was in intense pain, ruined body contorting. The upper half was preserved. Its face was deathly pale, as if it saw a ghost, staring at the golden lion and Shi Hao.

With his strength, he had the power to fight even a true deity. However now, why did he suffer so miserably?

Before this, he had already thoroughly investigated the Little Stone. This was only a youngster in his twenties, so no matter how formidable he was, how heaven-defying could he be?

This deity felt like Shi hao shouldn't be able to become a true deity. His age was too low, he didn't have that foundation!

Becoming a deity was too hard, it wasn't just all talk. Even if the Little Stone became a supreme expert early, it was definitely difficult to achieve the true deity level in ten years.

However, reality was cruel, appearing bloodily before his eyes, leaving this deity shocked!

He knew that the Little Stone's cultivation far surpassed his imagination. Just his mount alone was already this terrifying, let alone the master. He shivered in fear.

"Did I see incorrectly? Just the Little Stone's mount was enough to get rid of that deity?"

"Heavens! What am I seeing? It is just a lion, yet it ate half of that deity!"

...

When everyone snapped out of their daze, they all erupted into a commotion. Stone Country Capital immediately became chaotic.

"You..." There wasn't a hint of color left on the deity's face, incredibly pale. The upper half of his body struggled out. He really did escape from the mouth of a lion, now scared badly.

Where did this lion come from? It was too vicious, chewing on his body like it was sugar cane.

This was completely different from what he imagined. In his opinion, once he came here himself, even if the Little Stone was a monster, it would still be difficult for him to withstand him, the Little Stone would still be suppressed.

After all, the years were there. Just how many years had Shi Hao cultivated for?

"Where did this shrimp come from? Do you not know the rules? Where do you think you are? Did you forget your own status?" The golden lion shot it a look, its expression full of disdain.

Together with its snow-white teeth that still carried blood, it really did look vicious. That deity was shocked to the point where his entire body was shaking, scalp even becoming numb.

This was a deity! In the lower realms, it could be said to be at the top of the food chain, definitely a top level expert. However, in this place, he was called a shrimp, this was too humiliating!

This deity dared feel anger but didn't dare speak out, the situation greater than the person. Right now, if it spoke viciously, this savage golden great lion might devour the other half of his body.

"Right, where did you come from?"

The golden lion shot it a look. It reached out a great claw, picking its teeth, getting rid of the bloody scraps, the scene extremely intimidating.

Forget about the owner of the ruined body, even the surrounding cultivators shivered, chills running down their entire bodies. This was definitely an extremely vicious beast.

The current golden lion, compared to before, was definitely more compromising.

Before, it was cold, and also of few words. The main reason was because it didn't really accept Shi Hao.

Now, these words and this savage style proved that it was already at its wit's end, already starting to get close to Shi Hao.

"I... came from the sea." This deity said.

He was really scared, not daring to act wildly. He quickly told them where he was from the moment he was questioned.

Back then, even though the eight regions were chaotic, not all experts suffered.

There were some who hid in secret lands, escaping the calamity.

This ocean beast was precisely one of the survivors. At that time, he was secluded within certain ancient remains in the sea.

When he emerged later, he really felt blessed, incomparably happy. After the eight regions experienced great changes, he definitely obtained the qualifications to become an overlord of a region, difficult for others to withstand his power.

Shi Hao didn't speak, just sitting on the golden lion, not moving at all, just watching it deal with this.

"Acting willfully in the seas is one thing, why did you run all the way over to Stone Country?" An old king from Stone Country asked.

Normally, even the lord of a country would be scared when facing a deity, not daring to provoke the other party, but today, it was different. The Young Human Emperor returned, even his mount able to act like this, open its mouth and devour deities, what else was there to be scared of?

"Someone invited me here." This deity lowered his head, extremely cooperative.

When these words were spoken, some of Stone Country's great clans' faces paled from fear, because they were the ones involved.

Apart from the two powerful clans who had their kings crippled, there were some other clans that participated. There weren't many, but they definitely had a set amount of influence.

Now, there was no way they could still act tough. Those families' important figures all stepped out, shivering in fear, kneeling down.

"They were able to invite someone like you?" Shi Hao finally spoke up. He didn't believe that normal people could invite out a deity.

It was the same as what the investigations revealed, it was Rain Clan who pulled the strings, invited this deity from the seas.

Back then, Rain Clan was dealt with quite severely by Shi Hao. They wanted to kill the Little Stone, but were instead beaten down. In the end, a group of people left for the sea, managing to contact the deity who left in the ancient times through some secret methods. Then, they got to know this deity out of coincidence. When an ancient deity cast down its projection, this deity gave it quite a bit of face.

Then, Rain Clan began to actively make moves, contacting some great clans in Stone Country, and thus, trouble began to stir.

Of course, the past Stone Country Emperor Clan's direct descendants also had some ambition. When they were found, they happily agreed, wishing to get Qingfeng off the throne.

Their only source of apprehension was from the Zhuyan, because they heard that it had also become a deity.

However, when this ocean deity produced some true deity level magical artifacts from the ruins, they all became filled with confidence.

"Interesting, you are nothing more than a Divine Flame Realm creature, but after some toys, you became like a true deity." The golden lion said.

He fished out some decorations from that individual's body, for example, a bone hairpin, violet-gold crown, and other things, these things actually able to strengthen one's magical force and dao comprehension, good stuff.

That deity felt endless pain inwardly as he watched the golden lion just take them like this. However, he didn't dare budge an inch.

Shi Hao gave them a look. These things, when compared to the Azure Armor and Long Life Battle Clothes, were too far off.

"I'll give you a chance. Capture everyone from Rain Clan, and I'll leave you with your life." Shi Hao said.

Of course, he couldn't just let him go like this. With a raise of Shi Hao's hand, this deity was given a few slaps, and then jabbed a few times as well, told that if he tried to run, the lion would act out sooner or later.

"Even if you die, your soul will forever be locked within a rotting body." Shi Hao warned, having him quickly complete his task.

This deity quickly nodded, not daring to say too much, immediately dragging its ruined body out of here, treating his injuries while catching people.

He really was scared. That was definitely a murderous fiend, his cultivation immeasurable. He felt like it was likely a high level true deity, perhaps even a heavenly deity!

Stone Country Capital City, everyone saw what took place clearly. They all had expressions of adoration on their faces.

As for those families that were kneeling on the ground, they had long begun to shiver in fear, terrified to the extreme.

Shi Hao didn't say anything, only raising his hand, continuously pointing out. Divine streaks of light flew out one after another, entering those people's bodies.

Under pu pu sounds, many people's cultivations were crippled, becoming mortals. They were originally the pillars of their clans, but now, they were directly ruined.

"When one does wrong, they will always have to pay the price in the end." After saying this, he handed the following cleanup to Qingfeng, War King, and the others.

Earlier, many people thought that Stone Country might face a disaster soon, that they were about to decline, even the country perhaps erased.

It was because they felt that when it reached a deity level battle, even if it was a powerful country, they still weren't enough, possibly being forcefully overthrown by a deity.

Yet everything ended completely differently.

The Little Stone returned. He was ridiculously powerful, suppressing the deity, overlooking Stone Country's clans. When faced with this disaster, he just swept through it all in one go!

"Qingfeng, some of these clans are thankless wretches. Deal with them how they should be dealt with." Shi Hao said.

He naturally felt anger. When he left back then, he attached great importance to some of these clans, bestowing enough benefits upon them. However, in the end, they were the first to jump out, rebelling.

Not a single one who was directly involved escaped, all of them crippled on the spot, forever unable to recover.

As for the remaining people, some of them had their cultivation crippled, some were sent to prison. That day, Stone Country shocked all sides.

A great disaster was suppressed just like that with the Little Stone's return.

The so-called great chaos, before Shi Hao, wasn't much at all.

When he decided to take action, it already signified that these clans were going to be pulled up by the roots, that they were finished.

News went out, leaving all sides shaken!

This was especially the case for Stone Country, all clans lowering their heads. Those from the borders clearly expressed that they wished to follow the young Stone Emperor.

That day, that deity returned, bringing some people back. They were all from Rain Clan, but unfortunately, there were some who weren't brought back.

This deity's expression was serious, bringing some news, he saw the projection of Rain Clan's ancient figure, which was why he was anxious and frightened.

“Not a big deal. If he really dares step out, just call me over.” Shi Hao patted his shoulder.

After this event, Stone Country Capital City was bustling with activity. After the Little Stone’s return was verified, some great clans became extremely excited.

As for many of the ordinary civilians, they had also witnessed Shi Hao’s might back then. He had previously fought against some great clans, protecting this city, left with an extremely deep impression.

“Reporting, Princess Qianqian has come for a visit!”

That day, there were people who continuously came to make reports. They were all some old friends, when they learnt of Shi Hao’s return to the lower realms, they hurried over to Stone Country Capital. n-
/o).v..e-/l/(B.)l/-n

That same day, there were bad news that came out. From the eastern region, there was a great downpour, the rain getting more and more heavy, as if it was a river pouring down from the heavens!

“En, Rain Clan? Their true deity has appeared, about to come out?” Shi Hao looked east, a cold smile appearing on the corner of his lips.

He really wanted to see where the creature who left in the ancient times was casting its projection from. Now that he was angered, he didn’t mind slaughtering his way into that realm to take a look.

Chapter 1759 - Ancient Deity Calamity

Stone Country eastern division, great rain poured down, incredibly ferocious, astonishingly great.

The entire world was inside a pool!

The rain that descended wasn’t the rainwater the people knew about at all, but more like huge spheres, surging about, smashing down from the heavens.

When they landed on the ground, the pa pa noises were deafening, producing white-colored waves, overflowing like river water. All of it descended from the heavens above, entering the country!

When would one see this type of scene normally? All of the civilians were scared badly. The water level was climbing higher and higher, the houses were going to be flooded sooner or later.

Honglong!

Lightning flashed and thunder rumbled. A great rain poured down, becoming stronger and stronger.

The entire world entered darkness, dark clouds surging, sending down endless water. It poured down from the heavens like it was the end of the world.

Shi Hao moved quickly. After receiving a report, he immediately rushed through Stone Country Capital’s skies, heading to the scene of the crime!

Along the way, he activated his Heavenly Eyes, gazing into the heavens. He was observing the irregular scenes at the limits of the horizon. Exactly what kind of existence was it who was causing trouble?!

This was extremely unusual, different from what he imagined. That was definitely someone with great abilities, someone he had to treat seriously!

Was it really the Rain Deity? He actually had these types of methods, could it be that someone from the ancient times really was going to descend here? Shi Hao searched about with a cold expression.

This world became more and more dark, eventually becoming pitch-black. Only rain overflowed, pouring down from the heavens in a terrifyingly great manner.

On the ground, many civilians were wailing, but their voices were all smothered under the great rain.

The world was pitch-black, as if this was the malevolent abyss of hell, nothing visible anymore. It all looked more and more terrifying, as if they were about to reach the end of judgment day

Kacha!

Silver-colored lightning cut across the sky, massive beyond compare, producing dazzling radiance in the darkness, revealing the true scene of the great earth.

A few houses were about to collapse under the vicious downpour, tottering on the verge of collapse.

Many people hid on the roofs, avoiding the rain that became greater and greater. Even the pots and pans of the houses were floating up and down in the streets.

There were some who fled to the mountains, moving to places of higher elevation. However, silver snakes cut across the skies one after another, extending towards those regions, absolutely terrifying.

Honglong!

Eventually, there were mountain peaks that exploded. Those electrical arcs extended down, making rubble fly everywhere, giant trees snapping, exploding. The scene was horrifying.

"Heavens, why are you doing this? What did we do wrong?" Many people were sobbing, screaming out. They knelt down on the ground, pleading towards the skies, praying.

No one dared head to the mountain peaks, hiding below. However, even if they did this, it was extremely dangerous. A mountain flood was starting to surge.

As for the villages and towns on the plains, as well as the cities with larger populations, all of the buildings were about to be submerged, some of them already collapsing.

As for places of lower elevation, some of the houses could no longer be seen, already drowned.

"Stone Country's monarch is licentious and tyrannical, the heavens are carrying out their judgment!"

At this moment, a rumbling voice sounded from the pitch-black skies, overwhelming the sounds of thunder. All of the lightning quickly disappeared, only this grand and imposing voice resounding.

The great rain didn't decrease, becoming increasingly astonishing.

Was this punishment from the world itself? The civilians were all horrified. There was actually a voice in the heavens above! It was too grand, as if it was a warning from the heavens.

"We plead the heavens for mercy!"

"We plead the heavens for forgiveness!"

...

Many people shouted out, wailing. Some people were swept away by the mountain flood, quite a few people disappearing into whirlpools.

“Grandpa, come back!” There was a young lady crying out, because the elder who was protecting her was swept away just like that by a wave.

“Mom, no! Please come back!” A six or seven year old child in tattered clothes was wailing. He reached out a hand, grabbing towards the waters. For the sake of protecting her son, she pushed him to a part of the roof that had still not been flooded yet, but in doing so she was swept away herself.

“Child!” There was an elder whose anxious veins began to pop on his head. It was because his healthy and strong son, for the sake of saving him, fell into the flood himself.

On the ground, a great tragedy was playing out.

However, in the skies, that voice didn’t stop, still rumbling loudly.

“The country’s monarch is tyrannical, the wrath of heaven is descending, warning the people that Stone Country’s emperor is vicious and evil, his sins cannot be forgiven!”

The rain became greater and greater, accompanied by lightning. Everyone saw a face that was incomparably massive, coldly overlooking everything below, watching this flood tragedy, overlooking the scenes of anguish.

On the earth, many people were perplexed, becoming scared.

In all these years, Stone Country experienced such great weather, the country prospering and the people at peace, yet now, this type of disaster suddenly descended, leaving them at their wit’s end, shrouded in fear.

Many people fainted. The punishment of the heavens, this type of great judgment, who wouldn’t be scared?

Only, there were some people who were confused. Wasn’t Stone Country becoming increasingly prosperous by the day? Why was it like this? Could it be that Stone Emperor really did some heaven angering thing?

“Even if Stone Emperor has sinned, it has nothing to do with us! Heavens, please forgive us!”

A few people cried out.

“Gods, please have mercy! We are ignorant, we do not understand what kind of mistake the incapable ruler Stone Emperor has made, please forgive all of us!” On the ground, people pleaded for mercy.

“Hah, still not enough.”

In this pitch-back world, only when lightning cut across, would that massive cold face be seen. “It’s still not enough!”

Then, it said with a low voice, “The blood and chaos in the mortal world, there is still sin, still not deep enough. If the entire lower realms are like this, there will definitely be tremendous karma applied to me and Huang’s body. Huang is destined to have no fate with achieving the dao!”

“I am but a member of a clan, not the most powerful. However, today, my power is the greatest.” He said coldly, voice incredibly cold and deep.

This member of the ‘Rain Deities’, was speaking softly. What he wished to do was extremely great, involving karma itself. Even if the effects that were applied to Huang himself were few, he still had to do them.

He was originally a heavily injured body, cultivation path difficult, even his survival uncertain. He was using the most vile methods to cut off the path of a heaven warping genius.

“Heavens, please forgive us!” On the surface, sounds of wailing were endless. Sure enough, there were waves of resentment rising, karma circulating.

It was clear that those who dared touch upon karma were all higher level cultivators. How could normal people be willing to come into contact with it?

This was precisely done against Shi Hao, not holding back in the slightest, done with the most power, the most vile methods. At the very least, it was going to cut off his path of achieving the dao!

Shi Hao arrived, speeding over, arriving beneath the endless rain.

From the moment he received the news until he hurried here, he didn’t waste a moment of time. Only, the rain was too vicious, this bit of time already enough for it to submerge the great earth.

The only fortunate thing was that the mountain flood didn’t attack the places of the highest population.

“Shameless cultivator, stirring up trouble in this world! Deserve to be punished!”

Shi Hao roared, his voice resounding through heaven and earth. Then, he took action, a fist shot out, smashing through the heavens, brilliant light illuminating the skies, shattering the darkness.

There was no way he could remain calm. This was originally his grudge with Rain Clan, yet in the end, the other side’s deity actually harmed the creatures of the great earth. Was he trying to destroy an entire region?

Honglong! Heaven and earth fractured, a large amount of the great rain disappearing.

Shi Hao’s fist carried unmatched yang force, making the dark clouds in the skies explode and scatter, rush into the distance.

Hou!

The golden lion arrived. Under Shi Hao’s orders, it opened its mouth and blew. All of the clouds rushed towards the seas.

Shi Hao himself used great magical force. His hands formed seals, in that instant, the water on the earth was all brought into the skies, all of the great waves, mountain flood and rainwater left the surface.

The instantaneous display of power dissolved this scene of hell on earth.

Everyone became stupefied. On the ground, the wails of anguish stopped. Everyone looked towards the skies, seeing a young man's hands raised towards the heavens, the tips of his fingers shining, sending the mountain flood into the heavens. The water evaporated, this young man ending this 'rain calamity'.

Shi Hao released his magical force, surrounding who knew how many tens of thousands of li of the great earth. At the same time, he led the endless water towards the great sea.

The great river flowed through the skies, the mountain flood moving along above, leaving everyone shocked.

Normally, cultivators wouldn't display great divine abilities before mortals to avoid triggering great chaos.

However, today, Rain Clan's deity actually brought such a calamity over mortals, wishing for destruction. Only great methods could quickly deal with such an attack.

"A miracle!" On the ground, it was unknown just how many people were cheering.

Shi Hao arrived at the perfect time. Even though the rain was flooding the great earth, it didn't rush into the places where the population was dense yet, avoiding a tragedy.

This time, the casualties weren't that great.

Then, his body released endless radiance, the light specks concentrated. They turned into streak after streak of flowing light, rushing towards the great earth, covering everything. This was the most basic life essence energy.

Chi chi chi!

All of the dying people were immediately struck by flowing light, then immediately recovered.

It was to the extent where the people who were swept away by the mountain flood were rising from the dead!

The golden lion was shocked, never expecting Shi Hao to be this magnanimous, actually using innate essence energy to rescue some mortals.

"Praise be to the lord!"

Many people on the surface cheered. They were trembling, all of them kneeling down, shouting loudly.

It was because in that instant, a tragedy was changed, many dying people coming back to life again.

Of course, the price Shi Hao paid for this wasn't small!

Kacha!

Suddenly, in the heavens above, lightning was concentrated, turning into terrifying blades, hacking down onto Shi Hao.

There was someone taking action, seizing the moment when Shi Hao was releasing his life essence energy to deal a killing blow.

“Just some insignificant tricks!”

Shi Hao berated outwards. His fist smashed towards the sky. With a honglong noise, everything broke apart.

Moreover, he rushed into the skies, entering outer space, staring at that massive face.

“Rain Clan’s filth, you dare appear here? Just hand over your life!” Shi Hao shouted.

He surged with endless killing intent, erupting with rage. The other party didn’t feel the slightest bit of restraint, destroying the boundless great earth and the creatures below just like that, could be said to be using any means fair or foul, lacking the slightest bottom line. This made him surge with endless murderous intent.

“Stone Clan’s brat, so what if you are angry? I am in a different realm, endlessly far from where you are. What can you even do to me?!” That indistinct face was cold and emotionless, a cold smile hanging from the corners of his lips, unfazed.

Shi Hao’s gaze was cold. He wanted to know which realm Rain Clan’s ancient deity was in, and now, he could find out through this individual.

“You can just crawl over now!” Shi Hao shouted.

He used endless magical force, continuously forming imprints. Countless chains of order flew out, winding about that massive face, pulling him down.

“What you are trying to do is cross realms. If you want to capture me, heh, you’ll never get the chance!” Rain Clan’s deity said with a cold laugh, mocking him there.

Shi Hao didn’t say a word, continuously changing different ancient methods. In the end, the other party suddenly came down.

“En? Impossible!” Rain Clan’s deity suddenly screamed. That massive face became clear, being pulled closer, heading towards Shi Hao.

Pa!

Shi Hao wasn’t in a rush to drag him over, instead raising his hand, giving him a great slap in the face!

Chapter 1760 - Another Realm

This slap was loud and clear, shaking up the entire sky like a clap of thunder.

The main reason was because this face was too large, like a majestic mountain. Meanwhile, the palm Shi Hao slapped over with naturally also enlarged, covering heaven and earth, which was why the sound that resulted was so astonishing.

On the earth, the calamity stopped. With the flood’s disappearance, everyone looked towards the sky, all of them seeing this scene.

In that instant, everyone became stunned. These were mostly mortals, but there were some cultivators as well. They were all stupefied.

One had to understand that just now, the world was pitch-black, rain pouring down like it was judgment day. Everything was precisely because of that terrifying face, yet now, it was slapped in the face, moreover just that clearly!

“Praise be to the lord!”

“A god!”

On the ground, the civilians all couldn’t help but shout out, and then their hearts trembled even more. Some of them were speaking out in worship, some bowing down, all of them deeply shaken.

Of course, there were some who didn’t dare to speak out, but they felt incredibly satisfied inside, actually wishing to shout out.

They knew that this disaster was caused by that ‘face’. This was an inconceivably powerful existence who wished disaster upon Stone Country’s civilians in order to get revenge on Stone Emperor.

The people who suffered on the surface were naturally resentful. In the end, it was Stone Emperor who saved them, so as for who was good and who was bad, it couldn’t be more clear.

“Is it truly Stone Emperor?”

“It is, it’s the Young Human Emperor from the past!”

...

It was because there were quite a few cultivators who rushed over, now revealing Shi Hao’s identity, responding to the people’s questions.

“I just knew that for Stone Country to prosper like it is right now, that there was a great individual watching over us. Our country is becoming more prosperous by the day, the people are at peace, so how could it incur the wrath of heaven? This is a great demon who has come to cause trouble!”

“I plead the great emperor to cut down this demon!”

Eventually, those on the surface shouted out, no longer feeling fear, because more and more cultivators appeared in the skies, currently arranging a formation. Light scattered, protecting this place.

War King, Peng King, and the other Stone Country experts all came, the golden lion obviously here as well. It was extremely easygoing, all of its fur brilliant. It opened its bloody mouth, rushing straight at that ‘big face’

In the heavens above, that face was incredibly furious, at the same time a bit flustered.

Shi Hao’s palm smacked him until he saw stars, moreover, he couldn’t even escape, leaving him horrified. This was but a projection cast across realms, so why was he restrained?

He couldn’t leave, locked in place by divine chains of order. They were everywhere, trapping him here, unable to escape.

Shi Hao stared at him, now starting to examine him carefully. When he retracted his palm, he understood a bit about this person's secrets. He was extremely strong, really not weak, but this was definitely not its true body, but rather an incarnation of divine will!

The so-called projection was nothing more than casting one's will and magical force into this world, have it appear in this realm.

"Speak, what kind of world is it?" Shi Hao asked.

In regards to those from the ancient age, Rain Clan's deities, Shi Hao was convinced that they didn't enter the three thousand provinces, because he had investigated before, there had never been this group of people.

"You know nothing, you won't be able to understand." Rain Clan's deity directly said this, carrying a bit of arrogance, full of contempt.

"Speaking to people like you really is tiresome. You think you are all that, but in reality, what is so special about you?" Shi Hao was extremely direct. Following a pa sound, he released another slap, this time even more loud and clear.

Below, Stone Country's people all looked at each other in dismay. This was a battle between deities! Were all deities like this?

They felt like the Little Stone didn't change at all. Back then, he was just this much of a monster, now the same. When faced with an ancient deity, it was the exact same approach, slapping right after saying he would, not caring at all.

In the end, who was being arrogant, who was showing who disdain? Right now, Rain Clan's deity felt this the most directly.

His face immediately swelled red, a wave of flame burning. He was a Rain Deity, yet now, raging flames surged, white smoke coming from his entire face!

He really was angered to the extreme. The deity from the ancient times appeared powerfully like this, yet ended up suffering, being slapped in the face twice by this later generation brat. What dignity, what prestige? All of it was smacked away!

"Brat, you..." Rain Clan's deity felt like his heart and lungs were going to explode.

Shi Hao stared at him, his eyes cold. He was also pondering himself. From what he learned when he faced Rain Clan before, Rain Clan's past condition should be rather bad.

He remembered that in the past, Rain Clan barely managed to contact Rain Deity. He was incredibly weak, producing a void image that might scatter at any time.

At that time, Rain Clan's people even suspected that perhaps due to age, their Rain Deity might pass away, unable to hold on any longer.

Later on, Rain Clan found out that the reason Rain Deity was in a special realm was because his condition really was terrible, which was why he was so weak, powerless to defend himself.

These were things Shi Hao already knew when he faced Rain Clan, things he personally experienced. Back then, he was extremely 'savage', even opening his mouth and chewing the fragmented decree Rain Deity left in Rain Clan.

"The world you reside in was in great danger back then, and now, it seems like something happened that made your situation better." Shi Hao said.

This type of speculation was extremely clear, or else how could the current Rain Deity appear like this, still able to produce rain on such a large scale, produce such a great disaster?

Then, before Rain Deity could say anything, Shi Hao released another flurry of strikes on that large face. This was completely just to vent out his resentment.

It was because this Rain Deity was completely unrestrained, not having a bottom line, so vicious even against mortals. Was this individual planning to wipe out a country's worth of creatures?

That was why when Shi Hao took action, he didn't show any restraint, smacking him as he pleased, just humiliating this deity like this in front of everyone.

"Are you really that Rain Clan deity from the ancient times?" Shi Hao smacked him while asking with a gentle voice.

Rain Clan's deity was simply about to go mad. This was a type of humiliation he had never suffered before, never feeling so sullen in his life. His projected face being trapped was one thing, yet the other party smacked him around as he wished, this punishment really was a bit too miserable.

"He is Rain Clan's deity!" Below, War King spoke out. He had previously seen the idol Rain Clan consecrated, it was identical to this face.

"You shameless old thing, do you even know how to be human? In the past, you walked out of this country's earth as well, yet this is how you repay it, wishing to harm countless people to death?" Shi Hao began to exert even more force, viciously striking its mouth.

On the surface, everyone was stupefied. Forget about the ordinary civilians, even those cultivators looked at each other in dismay, stupefied.

Originally, this was an extremely grave matter, Rain Deity almost massacring countless people, yet in the end, Stone Emperor's actions made this seem a bit like a show.

He was smacking a deity's mouth in front of everyone? Moreover, in such a disrespectful manner, it truly toppled everything they knew.

"Younger generation, humiliating me like this, you will not have a good end in the future! My Rain Clan's prosperity and power are not something you can imagine!" The ancient deity also became anxious, beaten stupid. It continuously roared out.

Unfortunately, that large face was restricted, just unable to move.

When Shi Hao heard this, his mind was immediately moved. What kind of world was that? Was Rain Clan's influence there great? Don't tell me there really was a piece of extraordinary ancient earth?

Of the experts in the ancient times who became deities, a small portion of them went to the three thousand provinces, but most of them vanished. Could it be that they were all there?

“I’ll give you a chance, speak honestly.” Shi Hao questioned. He wanted to know about that realm.

“Keep dreaming!” Rain Deity shouted.

Shi Hao didn’t say anything else. After another round of smacks, he began to search his sea of consciousness.

Hong!

Right at that moment, the sky dome trembled. The divine chains of order binding this rain deity went taut, about to be snapped.

“Realm wall’s power?” Shi Hao frowned. It wasn’t Rain Deity being too strong, but rather the force of the other side affecting everything on this side.

It was because this place was adjacent to a certain realm, in this place a special spatial node that placed these two worlds close to each other, to the extent where it even allowed simple communication.

Of course, this was only limited to the passage of one’s spiritual consciousness.

He watched as Rain Deity was about to return, dragged back to the other side by a wave of boundless power.

Shi Hao sat in the void, having the golden lion protect him. Then, he directly took action. His primordial spirit left his body, carrying a sword core, directly rushing forward.

“Heavens, you must not!”

“Stone Emperor!”

Many people shouted in alarm, greatly shocked. They didn’t think that the Little Stone would dare do such a thing!

Shi Hao was crossing realms, to be more precise, he was casting over a projection, wishing to enter another realm.

It was always high level figures’ faces that were cast over, yet now, it was completely flipped around. This was extremely dangerous, full of uncertainty.

At the same time, everyone saw Shi Hao’s primordial spirit leave his body. This was not the same as casting a portion of one’s divine will, but rather the primordial spirit crossing over as a whole!

“There is no harm!” Shi Hao didn’t mind. He had the golden lion properly protect his body, he wasn’t scared of anything else.

He even went to the other side, entered Immortal Domain, towards this ancient realm, he didn’t feel any fear. At the same time, he was also only going in briefly, chasing after Rain Deity’s primordial spirit to kill his true body. He was going to return swiftly after completely killing him!

Hong!

Shi Hao carried the Everlasting Sword Core, directly passing through the spatial node, slaughtering his way over.

Then, he saw an altar, an elder seated on it, blood flowing from the corners of his lips. He suddenly opened his eyes, while Rain Deity's spirit entered his head.

"You dare!" Rain Deity was shocked, not expecting this youngster to be this daring, casting a projection into this side instead, slaughtering his way over just like that.

Shi Hao sensed a sea of heaven and earth essence energy, too rich, even richer than the three thousand provinces. This was definitely not a normal place!

"Why wouldn't I dare?!" Shi Hao spoke up, his voice cold. He displayed powerful strength, charging over.

Rain Deity quickly took action, fighting with Shi Hao. However, even if he was an ancient deity who had cultivated for endless time, his cultivation extremely deep, he was still not enough.

Shi Hao immediately suppressed him, pressing his sword against his forehead.

Honglong!

Immediately afterwards, in the distance, brilliant light overflowed from the cosmos, shocking all sides.

A powerful divine will was fluctuating, surging.

Shi Hao saw it clearly. That was a divine will, an expert's divine awareness that moved past above this celestial body. It flew past a sea of stars, arriving nearby.

Shi Hao didn't feel any fear, because that true expert was unknown where, this was merely a strand of divine will that wandered here.

This divine will was indeed extremely powerful, incredibly powerful.

However, if one wanted to borrow a strand of divine will to suppress him, that was impossible. Shi Hao dared to come here, so he naturally had methods to protect himself. He raised the Everlasting Sword Core!

"Wu, this is a surprise. You should be that Huang." This divine will was shocked.

At the same time, Shi Hao saw a sealed land in the stellar domain, brilliant and gorgeous. Divine rainbows would appear from time to time, winding about.

There was an ancient gate sealed in the cosmos.

Shi Hao frowned, a bit surprised. Soon afterwards, he was shocked. That was a path, similar to the one he saw in the three thousand provinces' Immortal Tomb.

He sucked in a cold breath of air. In the future, an unimaginable existence would return through the Immortal Tomb to settle things.

Could it be that this gate was a similar path, that it would trigger the return of a taboo existence?

“If not for Immortal Domain opening again, about to reappear, this place would have become a land of death. Rain Clan’s cultivators have a bit of contributions as well, after all, they have watched over it with other cultivators for such a long time.”

That divine will transmitted sound from the dazzling radiance.

“What a pity, you were struck with the Immortal Breaking Curse, or else with your talents, you would have a chance of entering Immortal Domain. Right now, the Nine Heavens Ten Earths are all choosing unmatched seeds.”

When Shi Hao heard these words, he was naturally shocked. This was information he was previously not aware of.

“You missed out on a great opportunity. If your body was unharmed, you could follow beside a certain young master of similar age. If your temperaments are agreeable, your benefits would be many in the future.”

When Shi Hao heard these words, his face tightened, not saying anything. Now, who dared have him follow them? He faced this individual coldly.
