### Chapter 1761 - Complicated Great Age

Even if it was just following at another's side, not as a servant, but rather as a follower, this was still a choice that Huang would never make!

After all these years, he had advanced powerfully, what kind of people hadn't he met, what kind of opponents hadn't he fought? He even dared challenge the other side's Emperor Clans, fight while covered in blood.

The so-called young masters, who were they? He didn't acknowledge them at all!

"Youngster, you have to understand that in the wider world there are people more talented than oneself, this world is far more complex than you can imagine. You might think that you have heaven warping talents, now unmatched, right? I can tell you rather confidently that all creatures who emerge from your world, no matter how stunning, on the path of immortality, not a single one was able to claim to be king, all of them will be defeated in the end!"

This individual spoke these words confidently, but it was as if gusts of wind ravaged the earth, frigid air blasting over, making one's heart tremble.

His words revealed some terrifying information that made one's soul couldn't help but tremble.

"Are you talking about Immortal Ancient Great Era?" Shi Hao asked which age it was. He couldn't accept this at all.

"For Immortal Domain, a great era isn't all that long. The years are endless, while Immortal Domain is even more endless, the length of existence of some inheritances exceeding your imagination!"

That mysterious individual spoke, voice still extremely calm, but the atmosphere instead became even more heavy.

He replied to Shi Hao's question pertaining to time, informing him that these powers weren't groups that appeared suddenly in an era, but had existed forever since far too long ago.

Did those types of inheritances exist? Shi Hao felt ill at ease, feeling his blood rise and fall, as if there were great waves surging. He felt a flame lit within him, wishing to rise up, break out of this realm and overlook the world!

At the same time, he felt some hesitation. The world was vast, the ancient realms great, the amount of time encompassed great, exceeding his imaginations. In the end, if there was turmoil, a great war erupting, in the end, just what kind of freaks would appear?

Shi Hao calmed down. He just felt like everything he had seen and experienced in the Nine Heavens Ten Earths was still just a corner.

"Everyone says that undead knights are ancient, that a single slumber can last millions of years, even a larger half of a great era. However, when compared to Immortal Domain's inheritances, they actually aren't that distant, some whose origins came even earlier, some of their past ancestors still alive!"

This mysterious person revealed a truth, telling Shi Hao some things. When the experts of Immortal Domain left, no one since ancient times could face them.

The Nine Heavens Ten Earths, even if they were glorious, previously truly dazzling and magnificent, as eras passed one after another, regardless of whether it was the eras he heard about or prehistoric eras, not a single one that emerged stood a chance in Immortal Domain.

This piece of shocking information left Shi Hao silent for a really really long time.

“However, we do have a common enemy, the greater situation is aimed beyond.” That individual added.

What kind of emotion was he feeling right now? It was hard for Shi Hao to say clearly. He knew that if he traced things upstream, Immortal Domain would simply be unimaginable, some ancient existences’ origins horrifyingly great.

However, they had enemies, they were waiting for something!

Those people, those times, if they were traced back, the two words ‘emperor collapse’ would most likely appear!

Just what kind of grudges, what kind of opposition was there, to cause this type of result? Generations passed one after the next, yet there was no way to dissolve it, just mentioning it would involve an endless ‘great terror’!

“Heh, are there any freaks that are that ancient, living all the way until this age?” Shi Hao’s thoughts wandered, unable to describe what he was feeling right now.

To be alive is to experience joys and sorrows, the vicissitudes of life, all types of gratitudes and grudges. However, compared to these old monsters, all of these things were insignificant, truly not that big of a deal.

What they focused on were truly great things, but they also had catastrophic impact, worlds easily destroyed at every turn!

Things like dividing that highest level stalk of immortal medicine into six parts, separately sealing them into ruined bodies, planting them into different ancient realms, these weren’t just single instances, all of them would produce heaven shocking impacts on this universe!

Shi Hao’s thoughts began to become a bit distracted, thinking of too many things. He sighed. The path ahead might be extremely long, only after withstanding the test of time would he have the qualifications to be involved.

Hot blood surged in his chest, flowing through his body, hard for him to control himself. His emotions were surging. He wanted to go against these powers and rise up, join in the shortest amount of time! At the same time, he released a light sigh, feeling complicated emotions. The path was uneven, the great world dark. Perhaps he was nothing more than an ant that would quickly wither away.

Shi Hao’s impression of this person couldn’t be considered bad, but of course, he wasn’t particularly watching out for him either, yet even so, he spoke about many things.

It was clear that he knew about Desolate Border's battle, knowing the matter of Shi Hao being afflicted with the Immortal Breaking Curse, about the things that happened.

Even though he bore no malice, he didn't show any intention of wishing to take action for Shi Hao. For these types of individuals, results are everything, it was extremely clear cut.

He knew Shi Hao was going to be crippled soon anyway, but he didn't have any intention of helping, because to him, there was no need to do anything for someone who was destined to become ordinary.

For him, the difference between things of value and things without was too defined.

Shi Hao naturally wouldn't ask this person of anything. The path was his own to take. The so-called Immortal Breaking Curse was already incurable in the eyes of others, at the very least, when a young cultivator like him was afflicted, then he was crippled already. He didn't want to say too much.

Then, Shi Hao asked and consulted what kind of place this was.

In the end, he received confirmation that this was an extraordinary secret land after all!

There was a path here that needed to be protected. When he looked into the distance, there was an expanse of silence, an abandoned star system, a withered heaven and earth. However, the spiritual essence here was extremely rich.

The spiritual essence was turbulent, at times surging like a sea, at times completely sucked dry.

This place was extremely important. There was an ancient path that was guarded, waiting for something's return!

Upon closer inspection, Shi Hao understood that this place was already in ruins, star remains in the distance. This was an ancient place, an abandoned ruined world.

Rain Deity, as well as the other creatures from the ancient times had previously arrived here, becoming soldiers to protect this place together.

Comparatively speaking, even though Rain Deity was powerful, he could only serve as a soldier here, not standing out at all. However, Rain Clan's origins weren't small, this clan still not considered weak.

After all, rain, winds, and lightning, these natural scenes weren't trifling matters. In the past, they represented some ancient clans.

It was to the extent where there were some who believed that the reason these natural scenes appeared was because it represented the moods of some ancient clans!

However, in this ruined ancient world, Rain Clan declined, not really any exceptional experts to be seen.

In the end, it was an expanse of ruined cosmos, unknown just how many years ago it was destroyed. It had previously been entirely sealed, isolated from the rest of the world.

From near ancient history until now, those who guarded this place all declined, almost all wiped out.

It was because the essence energy that was released from the passage was like a haze, corroding everything. Meanwhile, the ancient path was reviving itself, an existence destined to cross over.

It could be said that the people who guarded this ruined world were almost all completely wiped out.

Only when Desolate Border's great battle ended that Immortal Domain sensed something, receiving news about it, did the immortal gates finally open, making contact with some ancient lands, for example this place, thus allowing them to be saved.

Immortal Domain then took action, continuing to seal the passage!

"Turns out it was like this." Shi Hao nodded. The entire ruined realm's prosperity and decline was because of a single passage, one could see just how terrifying it was.

"Are there many creatures here?" Shi Hao asked.

"Not many, less than a million, but they are all cultivators." That mysterious creature replied.

Shi Hao was stunned. This was a world of its own! However, its population in comparison was ridiculously few.

"If you open up those star remains, every inch of earth are crushed bones." The mysterious individual said.

At this point, Shi Hao didn't even need to ask much more in detail.

This world was destroyed, practically complete eradication. The reason why the remaining million creatures didn't die was because the passage was stabilized.

"Wu, a pity. I wanted to introduce you to a certain clan's inheritor, but you now lost this opportunity of fate." This creature brought this up again.

"A young master? What rank in Immortal Domain?" Shi Hao didn't seem too concerned, the corners of his lips curling upwards.

"It is hard to say, possibly a founder reincarnating through another's body. If that is the case, reaching the top ranks isn't an issue. If the legends aren't true, and he is merely himself, then his name might appear in the top ten." That individual said.

Shi Hao was stunned, truly shocked. He could look down on that so-called young master, but towards a second body reincarnation, that was extremely shocking, making all of his fine hairs stand on end.

If this was this type of monster, once they faced each other, it would be much more troublesome.

"Of course, if you weren't crippled and weren't willing to become that young master's follower, you could also enter one of those ancient inheritances. If you gain their favor, there would also be great opportunities, but it would truly be difficult..." This mysterious individual said.

Shi Hao curled his lips, not feeling like saying anything. Right now, he had ancient scriptures and secret methods, did he even need to bow down before other inheritances?

"Heh, if I use words that are a bit more unpleasant, the methods passed through this world, what is so great about them? They are already methods that bit the dust. As the years pass, the times overlay, this world's methods, strictly speaking, all came from Immortal Domain. After so many years have elapsed,

even Immortal Domain's cultivation system changed, creating new paths again. What can you bring out to compare to them?!"

These words finally made Shi Hao's expressions change. He had long had thoughts of establishing his own path, and now, he was startled awake. Immortal Domain might have long created some paths.

However, this only further aroused Shi Hao's fighting spirit. He wanted to go even further, see just who was stronger and who was weaker.

It wasn't him being conceited, but rather because he already had all types of plans in mind, and now, he had stepped on his own completely unique path, using his body as the seed. If he continued to perfect it, he believed that he would definitely experience a golden age of harvest.

"This person, can I kill him?" Shi Hao was extremely brazen, asking this question.

"Rain Clan's people, I am not concerned with them. However, you have to understand that killing a protector does not bring any benefits. In the future, you are going to be crippled, you should watch out for future karma." That individual said.

Shi Hao was too decisive. The Everlasting Sword Core swept out. Under Rain Deity's shocked gaze, a sword stabbed into the space between his brows, killing his primordial spirit, blood splashing all over the altar below.

This altar floating in the void was dyed red from blood.

"Is it easy to bring this ruined realm into the eight regions?" Shi Hao asked.

"It is difficult. Only within a specific time and location is there a chance of casting down a void projection, easier for the weak, difficult for the strong. Rain Deity went against the rules, casting his projection without permission, now that it met this conclusion, it can also be considered a type of predetermined fate." That mysterious creature said. In the end, he left just like this, not paying anything there any more attention.

In the distant skies, there were all types of bright colors, divine rainbows swirling about. That ancient gate was faintly discernible.

Shi Hao didn't waste any time, turning around to leave. With a chi sound, he pierced through the realm wall, returning to Desolate Region.

Sure enough, when he left that spatial node, it slowly squeezed inwardly, and then collapsed, ultimately completely disappearing!

#### Chapter 1762 - Elapsed Years

Shi Hao's primordial spirit returned to his original location, his eyes suddenly opening. He stood in place for a long time without moving, extremely quiet, thinking for a long time.

On the side, the golden eyes of the golden lion who was watching over him were flickering continuously. It was also pondering to itself; just what kind of place was that? Even Huang became a bit absent-minded.

A contest was being carried out between those of the Nine Heavens Ten Earths, fighting over the qualifications to enter that Immortal Domain, as well as the recognition of Immortal Domain's powerful inheritances.

Shi Hao thought carefully to himself, at the same time recalling that unfathomable young master. His mind couldn't help but tremble greatly.

If he hadn't been afflicted by the Immortal Breaking Curse, that creature would have actually wanted him to follow a so-called young master. This was a bit unexpected.

"Be someone else's follower?" Shi Hao was silent. He was estimating just how powerful that creature was exactly.

He had a sense of urgency, feeling that he had to bitterly cultivate, tread on his own path, or else in the future, he might really encounter some terrifying opponents.

At the same time, he felt grand emotions. He was going to silently cultivate in the lower realms, similarly reach his goals, and then sooner or later, he was going to rush out again.

The struggle of the higher realm and the chaos of Immortal Domain would definitely stir up great waves. Meanwhile, he would keep a low profile, cultivate his own methods, examining his own dao, all the way until everything was perfect.

Stone Country's eastern district, this disaster came to an end.

Soon afterwards, when Shi Hao returned to Stone Country Imperial Capital, there were great cheers, many people calling out 'Stone Emperor', expressing sincere gratitude.

Inside Stone Country Imperial Capital were some guests, for example, Princess Qianqian, one of Mysterious Region's ten great beauties. When Shi Hao entered the lower realms, she was the first one he met, and now, she came for a visit as expected.

There were many guests here today. When they confirmed the Little Stone's return, a large group of people came to visit.

The Nine-Headed Golden Lion Jin Hong came, his entire body flowing with golden light, nine heads glistening with brilliance, extraordinary like a deity. This race truly was dignified in appearance.

He turned into a human body, becoming like a normal person, bringing some others to visit Shi Hao. The Flame Crow, Five-Colored Luan, Sable, and Three-Eyed Clan's brothers.

It could be said that these were all people who couldn't become friends without fighting.

First, the Nine-Headed Lion was bullied miserably by Shi Hao, treated as a mount. Of course, this was because the Nine-Headed Lion was too arrogant, looking down on Shi Hao.

The others like the Five-Colored Luan were also rather miserable, the luan having a large piece of its flesh chopped off by Shi Hao, roasted and eaten by Shi Hao in the Hundred Shattering Mountains.

In the end, these people got closer and closer to Shi Hao, with the Nine-Headed Lion Jin Hong even becoming the Little Stones sworn brother.

After all these years, when the Little Stone's past events were mentioned, many people would bring up the Nine-Headed Lion.

"You've made progress!" Shi Hao smiled, welcoming them. Now that he reunited with the Nine-Headed Lion and others, he felt joy, as well as endless emotions.

Even the Nine-Headed Lion himself shook his head, laughing in self mockery. Twelve years ago, the two hated each other bitterly, the fact that they could forget their former enmity and become sworn brothers really was a bit incredible.

"Who is this? My family's brother?" The Nine-Headed Lion sized up the golden lion.

The golden lion was always arrogant and conceited, never having the concept of turning into a human, at the very least it didn't want to right now. It felt like its clan was high up above, that turning into human form was beneath itself.

Right now, when it saw a lower realm lion size it up, even call it a brother, it immediately became angry, full of dissatisfaction.

"A little lion even dares treat me with disrespect!" The golden lion bared its fangs, intimidating the Nine-Headed Lion.

Pa!

Shi Hao wasn't polite at all, directly smacking its head, saying, "Stop baring your fangs, you can't act randomly."

Then, he turned around to tell Jin Hong that this was his mount.

"I say, my clan's brother, you really lack maturity. How could you end up asking to be my sworn brother's mount?" The Nine-Headed Lion Jin Hong said.

Shi Hao became speechless. This fella wasn't of the good sort either, mocking the golden lion.

The golden lion was furious. In its opinion, all of the creatures of the lower realms, including its own relatives were nothing. Daring to speak like this to it was the same as being tired of life.

This was a pure-blooded Nine-Headed Lion, known as one of the ten great mounts, but they were extremely savage, previously killing deities, even killing the ones who rode on them instead, their vicious reputation well-known.

Strictly speaking, their bloodline really was close to the Fearless Lion, just that the golden lion with nine heads was clearly a mutated species.

"When you have the time, teach him some of your secrets." Shi Hao said to the Fearless Lion.

"Why?!" The Fearless Lion was furious.

"This familial brother of yours has also served as my mount before, but became sworn brothers with me later. If you teach it some tricks, I believe he'll give you some pointers on how to be free." Shi Hao conned it.

The effects of this were extremely clear. Later on, the Fearless Lion and the Nine-Headed Lion stuck quite close together.

Soon afterwards, another group came to visit them. They came from the lower realms' Heaven Mending Pavilion, this time, Qingfeng also came to receive them.

Towards Heaven Mending Pavilion, they all shared great emotions. After all, they had all cultivated there together, all of them past Heaven Mending Pavilion disciples.

Of course, this was different from the Heaven Mending Sect.

Even if Shi Hao had cultivated in Heaven Mending Pavilion before, he only acknowledged Ghost Grandpa, not the Heaven Mending Sect.

The lower realms' Heaven Mending Pavilion was established in the lower realms by Ghost Grandpa after he was expelled by the higher realm's Heaven Mending Sect.

Back then, too many things happened. Shi Hao felt great emotions, sighing inwardly. He would go and take a look again. The guardian spirit, that gourd vine, has it regrown, did it undergo rebirth?

"Outstanding Horn!"

When he saw the people from Heaven Mending Pavilion, Shi Hao roared with laughter when he saw a silver-robed individual. This was Xiao Tian, the strongest individual of the same generation in Heaven Mending Pavilion beneath Shi Hao back then.

When he heard these words, the silver-robed Xiao Tian's forehead became covered in dark lines. You can hurt a person physically, but don't attack their face!

Back then, Shi Hao's first meeting with this person was too dramatic, continuously smacking him with a black brick, using it as a bludgeon, covering Xiao Tian's forehead with bumps, tormenting him endlessly, which was how this 'Outstanding Horn' appeared.

"Haha..." Everyone roared with laughter.

These people included Zhou Yuhao, Yan Xin, Xiao Yue, and others, all old friends from Heaven Mending Pavilion.

Now that they all met up again, they were all cheerful. Qingfeng also raised cups with them, while Shi Hao was asked about matters of the higher realms. After a light sigh, he told them some things.

There were many things he couldn't speak about in too much detail, as it was just too monstrous and variegated, inconceivable.

Everyone misunderstood Shi Hao's cultivation as being at the Heavenly Deity Realm, but despite this being the case, it still left everyone shocked. In just ten years, just how heaven-defying was this cultivation speed?

Shi Hao smiled bitterly. His childhood companions would become distant one day. He knew that when he left again, perhaps it would be difficult for these close friends to gather again, because his path was too distant, too far, difficult and dangerous, even more so lonesome.

Right now, he almost became a bit envious of those Immortal Domain ancient inheritances. When those youngsters grew up, their childhood companions would still be advancing with them.

He released a light sigh, a bit disappointed and frustrated.

However, Shi Hao also stopped himself. Being able to see them all again after coming back this time was already enough. Even if it was hard to meet again in the future, their paths already so distant, being able to share such emotions and laughter, share such beautiful memories was already enough.

In the end, he saw everyone off, agreeing to see them one by one later on.

In reality, the next day, Shi Hao arrived in Heaven Mending Pavilion. This was a homeland rebuilt on ruins, carrying their past memories.

In that battle of the past, too many people in Heaven Mending Pavilion died. In the end, a group of youngsters moved together, rebuilding this homeland.

In this place, Shi Hao met another familiar person -- Xia Youyu, her talents similar to Xiao Tian, strength great. This woman had previously left Shi Hao with a deep impression as well.

It was because when Shi Hao left Stone Village, entered the great wilderness, this was the first outsider he met.

At that time, Xia Youyu just happened to be in Stone Country's border wilderness, meeting the seven-year-old Shi Hao in the primitive mountain forest.

"Greetings, Senior Sister Xia!" Shi Hao called out in this familiar land, his thoughts immediately returned to the past.

Heaven Mending Pavilion still had some elders, but their numbers dwindled, only a few left. Shi Hao seriously paid his respects to each and every one of them, feeling great emotions in this place.

Qingfeng even more so teared up, feeling extremely bitter, almost crying.

Back then, when Heaven Mending Sect was destroyed, so many elders gave up their lives for the sake of ensuring the disciples' survival. There were many senior brothers and sisters who, for the sake of bringing up the rear, letting the younger children escape, died too early, falling in battle.

"Senior Mu Yan, I came to see you." Shi Hao paid his respects before a grave, his eyes sore.

This was an elder he greatly respected. Back then, he taught him the lightning dao divine ability, could be considered his master. In the end, he passed away in the chaos.

Before parting, Shi Hao went to see a vine in Heaven Mending Pavilion. His eyes were brilliant, staring at it. This was a seed left behind by the past guardian spirit, later on found by someone. n-)σ))v.)e(/ℓ--b.(l-(n

Now, it grew vigorously and replete with moisture, divine multicolored light surging, clearly became extremely strong!

However, soon afterwards, Shi Hao became sad. This vine didn't remember its past. Even though it was reborn, it had already forgotten about everything else, only a new divine vine.

"It is good as long as there is hope. The tender shoots are green and vigorous, full of life essence." Shi Hao left, bringing hope with him as he left into the distance.

His emotions were complicated. Coming here to see everything was more like saying farewell. He was paying homage to the events that took place in the past, as well as the passed time, because he knew that he might not be able to return.

The past places he had visited, this was perhaps an early goodbye.

Once he stepped on the path of his heart, then it might be an eternal parting, forever unable to turn back!

After leaving, Shi Hao didn't have Qingfeng accompany him, even more so shooting the golden lion away. He wandered about alone, silent, not saying a word, heading straight for the Northern Sea.

The great sea surged, pitch-black like the night.

Shi Hao gazed forward. He returned to the lower realms, so he had to head there. He had to fully investigate this place: the Kun Peng Nest!

Chapter 1763 - Back in the Kun Peng Nest

In the Northern sea, waves surged. The water was not a dark blue, but rather black like ink.

This was the Northern Sea's special quality. The sea was vast and boundless, black throughout.

Shi Hao walked on the waves, taking this ocean path into the seas. He recalled many things, how he had previously set out with Yun Xi and the others, and then fought with the Ocean Clans, meeting the witch here for the first time.

His past opponents, some of them now eternally sunk into the sea, some heading into the higher realm.

The Ocean Deity descendants Mo Shang and Flame Fish Clan Han Tian, these were the two strongest youngsters of the seas, he had previously fought intensely with them before.

"I wonder what those people are like now." Shi Hao shook his head. He sighed with great emotions. There were some opponents and some acquaintances who would be hard to meet again as time goes on.

Entering the Kun Peng Nest wasn't easy. Back then, he had arrived here only after experiencing great dangers and difficulties.

It was because the Kun Peng Nest wouldn't appear normally, hiding in the depths of the Northern Sea. To be more precise, it was hidden within a strange small world.

Shi Hao's cultivation was now on a completely different level, even calling himself number one under the supreme being level wasn't an exaggeration.

That was why he wasn't obstructed at all. Moreover, after roaming the Northern Sea for many days, he discovered some clues. He forcefully broke through the void, entering a mysterious ocean realm.

Skeletons and ancient ships drifted about, appearing and disappearing like ghosts.

These were merely the irregular scenes he saw along the way. There were ghost ships left behind from the ancient times, as well as illusions formed by formations, as well as heroic spirits that haven't passed on yet.

Shi Hao didn't pay these things any attention. At his level, no sudden appearances like these could make him flustered.

He didn't see any paper boats along the way!

There were more bone boats, not many changes.

Back then, the blood-soaked paper boat had a line of words on it that was hard for Shi Hao to forget.

"I am the only one left..."

Those beautiful words were written by the hands of a woman, carrying disappointment and frustration, as well as a type of lonesomeness, making one's heart tremble, stir with emotions.

Shi Hao didn't see a single one of these paper boats.

He would stop every so often, travel from one ocean region to the next. He passed black seas, even more so entered golden seas, these changes naturally because of the small world he entered.

In the end, Shi Hao arrived, approaching the Kun Peng Nest.

For others, it was extremely difficult, almost impossible to find, but he found it.

Kun Peng Nest, it ought to be concealed in this age, shouldn't have appeared in the world, yet now, he really did arrive.

A massive stone cliff towered in the sea.

On that cliff was a massive Kun Peng Nest that released strands of chaotic energy. This was precisely his objective, after many years, Shi Hao returned.

"I'm back." Shi Hao released a light sigh.

He leapt out onto the cliff. This could also be considered an ocean island.

The Kun Peng Nest looked like a bird nest, only, it was extremely massive. This was precisely the residence of one of the glorious Vicious Ten!

Where was that river? Shi Hao searched around. There was a river next to the Kun Peng Nest before, a gate, spiritual liquid flowing out from within, a blood-soaked black paper boat flowing out from within.

Even though it was about to dry up, this was a mysterious path after all!

Shi Hao revealed an expression of joy. At the same time, his mind tightened slightly, was he going to head back inside? Back then, there were no gates leading inside.

After staring for a while, Shi Hao then focused his attention on the Kun Peng Nest.

"I'm back..." Shi Hao released a light sigh. For him, this place's significance was too great. In the past, it really was because he obtained the Kun Peng Precious Technique from this place that he was able to rise up a step further.

The lower realms, even if one didn't say that it was in a time where all methods had been lost, it wasn't far off. Being able to find the Kun Peng Precious Technique was definitely great natural luck.

In the past, this ocean region had been ravaged by battles. There were all types of creatures, some from land and even some overlords from the sea, all of them wreaking havoc in this region, everything as if it only took place yesterday.

"The Kun Peng, sigh, it's buried here."

Shi Hao said to himself. Then, he suddenly moved. Back then, he didn't see the Kun Peng's corpse. Everyone said that it had died, but was this truly the case?

Then, he saw the dried-up blood pool the Kun Peng left behind, feathers and ruined blood visible there. This was precisely where he obtained the inheritance.

"Even now, the nest still suppresses the cultivations of outsiders. No matter who enters, there will always be a set amount of influence." Shi Hao said to himself. The difference from before wasn't that great.

However, Shi Hao's cultivation had become much greater, unmatched under the supreme being level, so he really didn't need to feel much apprehension.

He walked the path of the body as a seed, moreover cultivated all types of great methods. Even though this place suppressed his cultivation, it wasn't as great as before.

Unfortunately, one of the most powerful individuals of a generation, the illustrious Vicious Ten Kun Peng, actually fell in the lower realms, leaving behind its traces here.

Shi Hao's figure flickered, entering the Kun Peng Nest. He forcefully opened the entrance, making his way inside.

This small world was extremely vast, and also extremely massive. It was completely different from what it looked like on the outside.

The inside was not in the rough shape of a bird nest at all, instead having an elegant layout. Shi Hao continued forward, not stopping along the way.

He saw quite a few spiritual and divine medicines along the way.

Then, he entered that old underground cave. Even though it was now collapsed, he still found the original location of that withered blood pool. He stood here for a long time, closing his eyes and carefully sensing this place.

"The Kun Peng really did die." He released a sigh, coming to this conclusion.

Shi Hao obviously wasn't done. It was because he believed that there were parts of the nest that he didn't completely explore yet. He just felt like there were parts that he overlooked.

“What about those weapons?” Shi Hao searched around. The Kun Peng’s weapon, Eternity, even though that great halberd was broken, it was extraordinary. Back then, it flew away, he couldn’t acquire it.

Yi?

Soon afterwards, Shi Hao opened up a hidden room, the inside of it like a small world onto itself, extremely spacious, and also extremely deep. Primal chaos immediately poured outwards.

At the very least, he had missed this place back then, not seeing it.

Soon afterwards, he was shocked. He sensed a type of strange aura, as if a Kun Peng was here. He cultivated this clan’s precious technique, this technique now making him feel this powerful reaction.

Shi Hao didn’t cower continuing forward. He saw several eggs in this private room’s small world, not on soft earth, but rather on the ice-cold and hard stone floor.

The eggs were golden, extremely large, and also extremely intimidating, black patterns covering their surface. Shi Hao immediately believed that these were Kun Peng eggs.

He was shocked. Who would have thought that he would make such an astonishing discovery? He quickly rushed over. After sizing them up for a long time, he released a sigh.

These eggs, if they weren’t poked into, then they had shattered, now already ruined. Even though there was chaotic energy swirling about them, they had long lost their life force.

After Shi Hao examined them, he was sure that these exceptionally precious Kun Peng eggs had all been destroyed, or else their value would be immeasurable.

Even without thinking about it, Shi Hao knew that the past events were extremely miserable. The Kun Peng children hadn’t appeared, yet they already suffered this type of slaughter.

This wasn’t the first time he witnessed this. For example, in the dragon nest, only a single crimson dragon survived, his brothers and sisters forever unable to emerge into this world.

There was also the little Heavenly Horned Ant in the Nine Heavens above, he was also seriously injured by the enemy, later on sealed by his father in primal chaos, nurtured through amazing methods before it finally developed life force again.

Back then, for the sake of cutting the weeds and eliminating the roots, some true immortal heirs were harmed, the situation extremely severe.

Left with no choice, there were some eggs that were sealed in the void, nurtured by heavenly treasures. Their parents hoped that they could one day be restored.

“These pitiful Kun Peng children.”

Shi Hao thought back to that person, the imperishable existence suppressed under Five Phase Mountain. That was likely the only Kun Peng child who survived.

However, its source was greatly injured, its body having major issues. It was because there were rumors that it had previously been sealed in primal chaos for millions of years, this alone already enough to explain everything.

However, the sole Kun Peng child who survived was not simple. It somehow acquired an undying body, unknown as to whether it was because of some substances, or if he had some strange and bizarre techniques.

Shi Hao searched about here, and then he found some words. They roughly explained the tragic fate of the Kun Peng eggs, the one who wrote these words full of grief.

“The Kun Peng of the Vicious Ten was actually female!”

Shi Hao was stunned. It was because the words later on actually revealed this mystery!

In his mind, he always thought that the Vicious Ten’s Kun Peng was male, but this was completely not the case.

“No wonder.” Shi Hao recalled the sole living Kun Peng child say that he was a posthumous child.

Back then, he thought it was weird. Even in the early parts of this great era, the Kun Peng had appeared before, so how could he be a posthumous child? Turns out that the one who appeared was indeed one of the Vicious Ten, but it was his mother.

Shi Hao continued to explore the Kun Peng nest. Finally, he found a hidden land.

This was a stone cave, the interior rich with immortal energy, but at the same time an aura of tragedy, mixing together, the divinity making one shiver all over, extremely strange.

Shi Hao entered the stone cave, his body quickly becoming rigid. It was because he sensed the fluctuations of the Immortal Breaking Curse.

Soon afterwards, he saw some crushed bones in this stone room. There weren’t many, only a dozen or so pieces, but they all carried the power of the Immortal Breaking Curse. ~~noVE)L&-In~~

“Kun Peng bones!”

Shi Hao sighed. There was no complete corpse, only some ruined bones that lacked spirituality, only a dozen or so pieces left. The others were all completely corroded away.

“The Kun Peng did get struck by the Immortal Breaking Curse back then after all!”

Shi Hao frowned, gradually understanding its cause of death.

During the great war of Immortal Ancient, the Kun Peng almost died, dragging its heavily wounded body into this great era. It was about to break apart, but it held on.

In its final years, the Kun Peng could no longer suppress the Immortal Breaking Curse. Moreover, the old wounds from Immortal Ancient War erupted, thus causing its life to end here!

What a pity, how lamentable! What could Shi Hao say?

Then, he searched the entire Kun Peng nest, but didn’t find any other secrets. It was because there really weren’t any more good things. It was because even though the great halberd Eternity was broken, it had long developed sentience, flying away.

This exploration of the Kun Peng Nest left Shi Hao quite shaken, what happened might be completely different from what Shi Hao had imagined.

In the end, Shi Hao left the nest, directly following the river of spiritual force to a shining gate.

There was a World Tree branch there, extremely shocking. It rested in the river, right in front of the shining gate.

The spiritual force river pouring out from the shining gate was about to dry up. This came from a different realm.

“Are there still any paper boats drifting outwards?” Shi Hao waited for a long time, but didn’t see any activity.

He decided to go upstream himself, see what exactly there was there.

#### Chapter 1764 - Frozen World

This decision was definitely a bit risky, but he didn’t want to miss this opportunity. He just felt like there was some important secret behind that gate of light, drawing him in.

Shi Hao took a deep breath, and then he walked forward. He set foot into the spiritual liquid, walking in the water, heading towards that door.

If i was in the past, he didn’t have the strength, he would have been crushed to pieces on the spot, yet today, he already took half a step through that gate.

The World Tree branch rested there, extremely striking. Shi Hao naturally wasn’t polite, moving it aside.

A portion of the branch was broken. This type of thing was known as invulnerable to ten thousand disasters, eternally imperishable, yet there was still a small half destroyed. This made Shi Hao feel sore inwardly.

Just what exactly did it experience? Even the World Tree branch was like this, a part of it decaying, it really was shocking.

The World Tree was an unmatched ancient tree from when the world was established, only when there was a complete great world would there be one, yet now, it was destroyed.

Shi Hao sighed. Why could he still not figure it out even though he reached his current achievements? This was most likely the World Tree of this realm, destroyed here.

Needless to say, in Immortal Ancient’s battle, the World Tree was broken down to its roots by someone, completely destroyed. The portion that was left behind was also destroyed at the beginning of this great era.

“This is good stuff.” Shi Hao put away this branch, his movements extremely careful.

Unfortunately, the past unmatched essence stored within it had already completely disappeared. Now, there were only wisps left, or else this thing’s value would be astonishing.

The heavy pressure was enough to crush even one's soul. Half of Shi Hao's body entered the gate of light.

Sss!

He sucked in a cold breath of air. Could it be that only the primordial spirit could enter, the flesh couldn't? The body would crack apart, difficult for even those who cultivated the Imperishable Scripture to endure.

Chi!

However, when he reached out with his soul, he felt a wave of intense pain. Multicolored light descended, hacking down like a heavenly blade, about to chop his primordial spirit into pieces.

"This place..." Shi Hao's body rocked back and forth, almost falling down at the entrance of this gate of light.

In the end, he took a deep breath. His soul returned to his body, and then he continued to move forward, body and soul advancing together, wishing to force his way through the gate of light.

An intense pain ravaged his body. He felt as if his body was being crushed by a millstone, soul as if cut by blades, the pain from going inside out, the suffering just too hard to endure.

Shi Hao entered the gate of light, his body feeling as if he was carrying several dozen stars, crushing him to the point where even his back was bending, releasing gazhi gazhi noises. This was the movement of his bones, as if he was going to break at any time.

Meanwhile, between his brows, there were noises that sounded as well, as if there were blades hacking at his soul.

"It truly is a cruel type of tempering!" Shi Hao said to himself. He actually treated this as a type of self improvement.

If it was any other Self Release Realm cultivator who came here, their bodies would have definitely been crushed, no exception to this. In this shining world, every individual seemed extremely insignificant.

After who knew just how much time had passed, Shi Hao gradually adapted. He raised his head, narrowing his eyes slightly, sizing up his surroundings.

This was a peaceful world, as well as an auspicious pure land. n.(Ove**L**bbIn

In this place, the river beneath his feet was golden, flowing slowly, lacking sound.

As for this entire land, this was also the case, carrying faint golden radiance, the plants clean, releasing gentle radiance. Overall, it was peaceful and auspicious.

If it wasn't for the pressure weighing down on his body and soul, one would really wonder whether or not this was an unmatched pure land, aloof from worldly affairs, suitable for remaining in seclusion.

"Pure land, perhaps this is a place true immortals are fond of, residing here." Shi Hao looked pensively.

His body stood perfectly straight, taking a long time to adjust himself, and then he continued forward. His footsteps were extremely heavy, stirring forth great splashes, the noises loud, shattering the silence.

Peng!

Finally, Shi Hao stepped onto shore. The green meadow was soft like a cushion, this place surrounded by hazy spiritual essence, vague multicolored mist surging.

Even the grassland carried specks of golden light, extremely holy.

In reality, this world seemed to be gilded in a layer of gold, as if many suns were rising, it was as if it was their golden multicolored light that scattered over the great earth that made everything so brilliant.

It was too quiet, and too auspicious. This really was like an innate divine country, the pure land of a true immortal. There was no clamoring, no mortal disturbances, peaceful and quiet.

Shi Hao's body went taut, doing everything he could to resist this incorporeal pressure, and then continued forward, heading into the innermost depths of this mysterious land.

He followed along the river while walking on the grassland, because back then, those blood-soaked paper boats drifted down precisely along this river.

The world itself seemed to have been left unchecked. Shi Hao walked into the limits of this heaven and earth alone, searching and exploring, wishing to enter that everlasting unknown location.

He really didn't know where it led, what the destination was, he could only withstand the pressure that might snap his muscles and bones at any time, continue forward step by step. All of his magical force was used to withstand the formless pressure.

Time flowed on, as if a millenia passed, but also as if only an instant passed. Losing track of time was extremely normal here.

Shi Hao was always on guard, proceeding carefully.

Finally, the mist up ahead was hazy, the scenery changing. The skies seemed a bit dark, the great earth losing its golden brilliance. This was especially true for the plants, drying up.

As he continued, all life force faded out, the earth becoming dry and hard.

There was an expanse of gray mist that stretched upwards like a heaven reaching wall, cutting off this pure land, dividing it into two regions.

If he continued any further, then it would be completely different.

After some slight hesitation, he still advanced, still continuing along the river, heading into the deepest parts. He himself was surrounded by the gray mist.

"En?" He was shocked. The color of this stream also changed, no longer any spiritual essence, nor was it a golden color, but rather becoming a dark gray, no divine radiance swirling about it.

This was a withered land, a world of death and end.

Along the way, he still didn't see any blood-soaked paper boats!

After who knew how much time had passed, Shi Hao made his way through the gray mist region, arriving in a vast great earth. This seemed to be a whole different world.

In this region, his heart was beating intensely, his eyes full of confusion.

This was a land of death, even more silent, even his footsteps could no longer be heard. It was to the extent where he couldn't even sense his own heart beats.

The entire world seemed to have come to a standstill, like an ancient mottled world, forever frozen in this instant!

In the distance, there were creatures, a city, temples, even more so ancient trees and other things, but there wasn't a trace of activity. They were all like sculptures, this entire universe in a death-like state.

There were some dried ancient trees that produced fruits, some of these fruits falling, but they were dried up, actually remaining in midair, not landing on the ground.

There were some creatures that walked on the path. They raised their feet, but they didn't come back down, forever fixed there.

This was a frozen world, mysterious and terrifying.

There wasn't a hint of life here, unknown what it suddenly experienced for it to be frozen in this instant.

It was clear that an intense battle had happened here, some activating weapons, releasing divine light, but all of it was frozen in midair.

There were cities struck by precious artifacts, a larger half of them destroyed, smoke rising, debris flying, but it all froze there. The moment the city walls collapsed, everything came to a standstill.

Not far out was a mountainous creature covered in blood, war halberd in hand, in a charging state. However, its figure was not moving at all.

If was as if this great bloody battle was suddenly interfered with by external force, this world freezing.

Shi Hao continued forward, full of shock. Only he could move, see this place, his mind full of confusion. How many years ago did this frozen scene come from? It was like a painting of history.

#### Chapter 1765 - Frozen World

As he passed through this region, he felt as if he was looking at a scene from history, as if he didn't belong to this time-space.

After traveling who knew how many li, Shi Hao sensed something. He saw the irregular scenes in the heavens above. There was a ripple that was fixed in place, stretching across the universe.

This was time force, unmatched time laws!

This was what caused all of this!

It was intangible, like a giant ripple, actually breaking apart heaven and earth. It was used on this boundless great land, turning it into a frozen, unmoving scene.

Shi Hao was shocked. Just what kind of power was this? n.(OveLbIn

However, why was he unaffected, unharmed? Was there something on his body that could withstand it? Or was it to say that everything became an imprint of history, that he only saw scenes of the past, just images of the past?

Shi Hao didn't know. He always had a feeling that everything was in chaos, difficult for him to differentiate between things, unable to see through this place. He could only serve as a lonely bystander.

When he continued forward, his heart rate sped up, his soul shaking, as if he was going to explode.

At this time, he stopped, sensing a type of fatal threat. He already arrived at the limits of the great earth, no path left before him, no land left.

What was strange was that the river was still flowing. It stretched across the void, entering the mysterious unknown.

Shi Hao did everything he could, activating his Heavenly Eyes to peer into the endless void.

He saw a great ripple, a type of fluctuation, even more so time natural laws, existing in that space.

Moreover, as his eyes became like small suns, he saw some more scenes clearly.

In the limits of the boundless void, there was a brilliant world. It was extremely hazy and mysterious, difficult to see clearly, but it really existed.

This river led precisely there!

The other shore, what kind of place was it?

The time ripples were released precisely from that place. There were many of them along the way, all of them frozen in place, not moving.

"That is..."

When Shi Hao's pupils burned to their brightest, he saw the truth!

This was a blood-soaked world that carried blood radiance, an intense great battle erupting. There was immortal dao light that surged, undying natural laws interweaving!

However, everything was frozen in place!

Shi Hao saw the main culprit of this all. It was a great bell, floating there at the edge of that brilliant and gorgeous ancient realm. It was massive beyond compare, suppressing all sides. The bell was covered in bloodstains.

Everything became clear. The ripples he saw along the way were all released by this artifact. It suppressed everything, making even time seemingly come to a standstill.

The level this type of great battle touched upon was unimaginable, it was unknown just how many clans and creatures participated.

That great bell was absolutely massive, suppressing a realm, sound waves rippling out from it, engulfing the world, even reaching over to this side, also making everything freeze.

There was intense fighting, a terrifying great battle, but all of it entered a deathly stillness.

“There are words!”

Shi Hao saw unmatched symbols on the bell waves. They didn’t belong to this era, but the great dao was similar. The great bell was releasing dao laws, the meanings could be referenced.

“Without beginning!”

Shi Hao frowned. While he felt shock, he also felt all types of doubt. The dao law profound meanings in the bell waves actually had these types of patterns.

In the past, there was Without End Immortal King.

What was going on with this ‘without beginning’?

His eyes focused, pupils even about to split apart. He wanted to see through and understand that realm, but it was too far, as if it didn’t belong in this era, unable to be deciphered.

His eyes followed that river, moving along with it. It was as if he saw a white-clothed person in the limits of the river, seated alone by the riverside, snow-white clothes fluttering about.

However, in the blink of an eye, everything disappeared.

Shi Hao shook his head fiercely. Blood was flowing down the corners of his eyes. He was already forcing himself, unable to hold on, unable to see through what laid before him.

He wanted to continue forward, follow the river, but his body couldn’t handle it anymore. He felt like if he continued on, he himself would disappear, be destroyed.

“What happened over there, what is there?” Shi Hao asked, wiping away the blood by his eyes.

He began to wonder if everything he saw was even real!

Were these engravings, or were they true scenes?

After standing here for a long time, Shi Hao felt like he couldn’t hold on anymore. He had no choice but to start to return, follow the way back.

The path was difficult, the bones in his body continuously releasing noises, truly crushed to the point of almost exploding.

This was still the case even with the Imperishable Scripture’s support!

Finally, Shi Hao came out, leaving the gate of light, returning to the world he was familiar with.

With a thump sound, he collapsed by the river shore, gasping for air. He finally managed to break free from that place! That place completely exhausted all of his stamina, his magical force almost withered up as well.

Only after resting for a long time did Shi Hao sit back up. He looked at this door; it was too much of a pity. His strength was still not enough right now, unable to press on.

"The river is extremely long, its source is too strange!" Shi Hao said to himself. He felt a type of horrified feeling.

"Where should I go to ask for advice?" He frowned. There weren't many he could consult in the lower realms.

The lord of the restricted region? If he went there, he would definitely suffer miserably, undergo a huge torment. Of course, he still had to go there in the end, but Shi Hao didn't have any immediate plans to undergo torment, as it hadn't been that long since he returned from the last trip there.

"I'll head to the Void God Realm!" He decided to ask Bird Grandpa and Coin Elder.

The more he came into contact with them, the more he felt like these two were extremely mysterious. If he somehow managed to make these two recall the things of the past, wake up from their demonization, then they would definitely spit out some great secrets.

"En?" Shi Hao was shocked. He didn't have any way of entering the Void God Realm near this river.

Did this place not belong to the lower realms' eight regions? Shi Hao's expression became serious. He turned around to look towards that gate of light.

The gate of light was adjacent to the Kun Peng nest. Was it because of the Kun Peng Nest's existence that this river existed, or was it the other way around, that it was instead because of this gate of light that the Kun Peng Nest was built here?

Shi Hao decided to leave, not wasting any more time here.

When he saw the black Northern Sea again, he discovered that he could enter the Void God Realm again. The region behind him was different as expected.

If he wanted to enter the Void God Realm, he had to ensure that his body was safe, that no one would disturb him.

Shi Hao didn't take risks outside, choosing to return to Stone Village first. Otherwise, if his primordial spirit left his body in the seas, who knew what would happen.

Stone Village was still the same as before, like a land of paradise.

In the distance, a group of children were training and cultivating in the mountains, all of them serious. The children who came from Desolate Border were extremely hardworking, making it so that the village's children didn't dare idle around either.

When he saw how the golden lion moved over with a fake smile, doing his best to be amiable. Shi Hao's reaction instead became cold, feeling like this fella was definitely up to no good.

"I feel like I can also cultivate the True Phoenix Precious Technique!" Sure enough, this lion definitely wasn't the type to just admire another person.

“Did you catch the Five-Colored Sparrow yet? The one that left the poo on your nose.” For Shi Hao to ask this type of thing was one thing, but he even added the second part, truly jabbing at the golden lion’s sore spot. It immediately erupted with fury.

Right now, what True Phoenix Precious Technique? To hell with it! It turned around to leave, not paying this brat any more attention.

At the same time, it was full of resentment. It always wanted to seize that little sparrow. It roared out with resentment, throwing itself into the wilderness, starting to look for it again.

Shi Hao entered the Void God Realm. The crimson dragon Ge Gu also followed behind him like a puppy.

It was because its experiences last time were too strange, and also too bizarre. It actually saw Void God Realm’s deepest prison, the True Phoenix Precious Technique hidden within it.

He felt like this cheap master of his was most likely going to challenge those things again, who knows just what he will be able to bring out this time.

However, he clearly overthought things. Shi Hao only came to meet the two old fellas, ask about some things.

“Next to the Kun Peng Nest, within the gate of light, there is a frozen world?”

Bird Grandpa and Coin Elder’s faces both immediately became blank, unknown if they forgot, or if they didn’t know from the very start. Either way, they didn’t know the answers right now.

En?

Suddenly, Bird Grandpa’s face changed slightly. “It’s coming again!”

Coin Elder was also like this, his expression a bit strange.

“What came again?” Shi Hao asked.

“Someone from the higher realm came down, knocking on the gates of Void God Realm, wishing to enter.” Bird Grandpa didn’t hide things.

This made Shi Hao reveal a look of shock, but he wasn’t that surprised. “Then just let them in.”

“I fear that great chaos might break out in the Void God Realm, unable to stop them.” Only when Coin Elder’s words sounded, did Shi Hao reveal a shocked expression.

“Why?”

“They are from Immortal Domain!”

“What? Go, let’s take a look!” Shi Hao immediately became interested when he heard this.

Chapter 1766 - Guests From Immortal Domain

Void God Realm’s gates were extremely thick and heavy, incredibly massive. Primal chaos surged about them. Behind them was a path leading into Spirit Realm.

This path was a stone stairway, extremely long, leading straight into the heavens.

In the past, Shi Hao had climbed it step by step, entered Spirit Realm. Meanwhile, not long ago, his soul had also returned to Void God Realm from the higher realm along this path.

Now, things were not peaceful at all. Spirit Realm's massive golden gates were opened, a group of people walking down from above, men and women included, old and young, their cultivation levels all not weak.

This wasn't their first time here. In reality, in the recent days, they paid a visit each day, wishing to enter Void God Realm.

However, each time they followed the stone stairs to their end, they could only return without any results. There was a pair of massive gates blocking their steps. No matter how they struck them, they couldn't open up the gates.

It was clear that they didn't want to give up, each day attacking with divine weapons, making the entire world rumble, the great gates trembled endlessly, now already almost deforming.

However, this gate still refused to be broken, still towering there, impossible to open.

"Great one, is there really a need to enter?" An old servant asked, frowning.

The so-called great one was a youngster who looked no more than twenty something years of age. His arms were behind his back, dressed in beast clothes. Immortal energy swirled about him.

"You do not understand, there is great natural luck here." That young man shook his head.

"Correct, this place is indeed not simple." Another young lady dressed in a fiery red dress also nodded. Her appearance was good, temperament outstanding, clearly an arrogant youngster.

The group of people were led by these two, because they came from Immortal Domain.

As for the others, if they weren't from the Nine Heavens, then they were from the three thousand provinces, accompanying them here.

"The eight regions have natural luck? That place is incredibly barren, simply a prison!" That older servant said. He wasn't someone from Immortal Domain, but now, he bowed down to that youngster.

"Right, the eight regions are known as a prison." Someone said in agreement.

"It is precisely because it is a prison that its value is tremendous!" The eyes of the young lady dressed in fiery red clothes were brilliant, burning with passion.

"Continue the bombardment." The young man dressed in beast robes said.

The eight regions' prison, it referred to the Void God Realm? Someone revealed a look of surprise, extremely shocked.

In recent years, there were news that said that Immortal Domain was choosing seeds from the Nine Heavens Ten Earths. This really left all sides shocked.

Later on, there were true emissaries that appeared, making everyone even more excited.

Now, inside the Nine Heavens Ten Earths' spiritual world, there were already many arenas set up, competitions carried out. Once someone won one, became a well-known figure, then they could enter Immortal Domain, become the disciple of a certain ancient inheritance. ~~no~~**VE**)Lb-In

The two youngsters followed the emissary, but later on quietly separated from him, instead entering the three thousand provinces, then finally went into the spiritual word, coming here.

"What kind of special individuals are there in the lower realms?" That young man dressed in beast clothes asked. His name was Xu Hui, from Immortal Domain's Myriad Beast Palace. The inheritance behind him was extremely terrifying.

"There is a Huang who is extremely strong. He had previously dominated the entire younger generation, but he was crippled by Immortal Palace's great one." Someone replied.

"Dominated the younger generation? Heh." That young lady in the fiery red dress laughed, revealing an expression of ridicule, her name Yi Luo.

"Of course, how could Huang compare to Immortal Domain's great ones? He could only act strong in the lower realms." A youngster said, shifting the topic of the conversation. "Moreover, he is now already a cripple."

He came from a certain great sect from the three thousand provinces, taking delight in Shi Hao's misfortune. His sect clearly had prior conflict with Shi Hao.

In reality, all of the members of these 'guides' had some conflict with Huang before. The reason why they followed the two youngsters into the Void God Realm was precisely to hear news related to him.

"What a pity, if we calculate the time, he has already been crippled. Otherwise, we might have been able to meet Huang in the Void God Realm."

"That scene is not bad. If we meet again, I wonder if Huang will still be arrogant. I truly am looking forward to meeting him again!"

A few young men and women mocked, their eyes shining.

Dong dong dong...

Xu Hui and Yi Luo personally took action, attacking the massive stone gate.

"Open the realm gates, Immortal Domain's emissaries have arrived." Someone shouted, helping those two individuals attack this place.

On the other side of the gate, Shi Hao's party had already arrived, moreover hearing the shouts.

Bird Grandpa and Coin Elder stood there, frowning.

"Those who come from Immortal Domain are definitely not simple, not easy to deal with. Normal people cannot subdue them." Bird Grandpa said.

On the side, the crimson dragon Ge Gu was eager to give it a try, not willing to admit defeat at all.

"Let's open the gates, see just what they wish to do." Shi Hao said.

“Alright, if you are sure that the Immortal Breaking Curse won’t immediately act out. Be careful not to provoke a disaster.” Coin Elder said.

“It’s fine, there won’t be any issues for some time.” Shi Hao replied. He wanted to see what those people were looking for.

Honglong!

The massive gates slowly opened, clouds and mist surging, primal chaos erupting, the noises incredibly oppressive.

The group of individuals from Spirit Realm were stupefied. It actually really opened!

“Great ones’ divine might blasted open the realm gates! Truly world-shocking!” Someone shouted out in praise.

The young man Xu Hui from Myriad Beast Palace waved his hand. He immediately saw through the primal chaos mist, seeing some individuals, knowing that someone opened up the massive gates.

“Oh? Some people came to welcome us.” The woman in the fiery red dress, Yi Luo, had a faint smile on her face.

The mist scattered. The others also saw the individuals behind the gate.

The expressions of these individuals were as brilliant as they could be. The moment they saw Shi Hao, it was as if they saw a ghost, their mouths wide open, jaws dropped, a fist able to fit inside.

They never would have thought that the first one they would see after opening up the realm gates would be Huang. They were all stupefied!

They were just talking about Huang, yet they immediately saw him. This made all of them feel that this was inconceivable.

“Oh my god!” Someone couldn’t help but mutter.

“Huang, is it really you?”

They didn’t dare believe what they were seeing at all. If they calculated the time, the Immortal Breaking Curse should have already activated, right? Why could Huang still enter Void God Realm?

“Based on the amount of time that passed, he should have become a cripple these past few days, right?” Someone said quietly.

“Right. I know what happened, he is using the bit of time he has left to enter the Void God Realm. He won’t have a chance to do so again in the future.” Someone gave this type of explanation.

They gave each other a look, feeling excitement. Before, they were still discussing how they were going to meet Huang, see his current expression.

In the end, their wishes really were fulfilled. The past most powerful individual of the younger generation who was about to become a cripple, was now before their eyes. This left them all extremely excited.

“Huang, I trust you’ve been well since the last time we met?” Someone said on purpose. Who didn’t know that Huang was afflicted with the Immortal Breaking Curse? How could he be well?

“Heh, Huang, let me introduce these two for you. They are great ones from Immortal Domain! You still aren’t coming over to pay your respects?” Another person said, having a bit of ‘using powerful connections to intimidate others’ taste.

Shi Hao swept his eyes over them indifferently, not saying anything, directly ignoring them. He was sizing up Xu Hui and Yi Luo.

“Huang, you are still this arrogant. When meeting Immortal Domain great ones, you still want to act overbearingly and disrespectfully? What a pity, you are already no longer your past you!” Another person spoke, full of dissatisfaction, mocking him.

“Noisy!”

Shi Hao finally spoke up. He looked towards that youngster, and then without the slightest trace of politeness, immediately raised his hand and pointed out. Pu! Divine light surged, quickly shooting over, impossible for that person to avoid.

Blood blossomed between his mouth, teeth falling out, scarlet specks flying out.

Ah...

That person screamed miserably, holding his mouth, full of fear. He quickly backed up, not expecting Huang to immediately take action.

“Not even your father’s generation dares act unbridled before me, who do you think you are, being so noisy here?!” Shi Hao said coldly.

“So you are Huang?” Yi Luo spoke, a look of shock appearing on her face. Her beautiful eyes were brilliant. She walked over, making a circle around Shi Hao, sizing him up.

“It seems like the rumors were wrong. They all said that you were afflicted with the Immortal Breaking Curse, but you seem just fine.” Yi Luo spoke, her eyes on Shi Hao the entire time.

When these words sounded, those at her side, regardless of whether it was the young men and women or the elders, all of their bodies trembled, faces immediately changing.

This was especially the case with the ones who just spoke, their small faces going deathly pale. Huang didn’t suffer from the Immortal Breaking Curse? This immediately left them so horrified their souls shivered!

What was going on? The higher realm all knew that Huang’s cultivation had already been severed, that there was no hope. Everyone’s bodies went cold. If Huang wasn’t crippled, forget about them, even their older generation, their sect masters would shiver in fear! Who would dare act unbridled before him?

The individuals from Immortal Domain could remain fearless, but there was no way the people from the Nine Heavens Ten Earths wouldn't feel fear. If Shi Hao really was unaffected, then that really would be a horrifying thing.

Not even the Immortal Breaking Curse could harm him? They didn't believe this. After all, that thing was prepared for killing immortals!

"Dao brother is joking, my body is merely a bit more sturdy, able to stick it out a few more days than others." Shi Hao replied. There was no need to show off, after finding out that Immortal Domain's gates opened, he had thought about things for quite some time. This world might not be able to remain calm anymore.

Right now, he didn't want to be the nail that stuck out, or else he would be targeted. This was especially when the ruined immortal hadn't been wiped out yet. If he knew that he was still fine after being struck by the Immortal Breaking Curse, he would definitely start plotting against him again.

In the surroundings, when everyone heard Shi Hao's explanation, they finally managed to release a breath of relief, no longer feeling fear inside.

However, they didn't dare provoke him again, all of them behaving themselves and showing propriety. As long as Huang was not truly crippled, then they had no choice but to show him respect.

"Then that is a waste. I heard that you were quite valiant in Desolate Border, that you weren't bad at all." The youngster in the myriad beast robes Xu Hui said with a chuckle.

"You are quite the talent, able to fight against the other side's Emperor Clans, truly not bad. However, I am sure that the Emperor Clan youngsters you faced weren't the true top contenders." The woman in the fiery red dress Yi Luo also spoke out. Her appearance was rather fine, a faint smile resting on her pretty face.

"Is that so? How are you so sure?" Shi Hao asked.

"The final battle of the last great era, forget about the clash of the highest levels, just in the battles between the younger generation, just the thought of it is truly horrifying. Those great Prides of Heaven from Immortal Domain were seriously injured, one person killed in battle. It was extremely miserable." Yi Luo replied, moreover adding, "They encountered the heir of an emperor!"

Shi Hao was stunned. Another great era passed, where would he find emperor heirs? Those like Shutuo and Anlan, they wouldn't be so shameless as to make more children.

He wished to fight against the heir of an emperor, but now, it seemed like he would only have a chance after becoming a true immortal.

At the same time, Shi Hao shivered inwardly. Back then, after the Nine Heavens Ten Earths were destroyed, Immortal Domain had taken action against the other side after all, a battle that came too late.

"Brother Shi, since your cultivation is still here, how about you lend me a hand?" Xu Hui asked.

"For?" Shi Hao asked.

"We came to the Void God Realm to look for a place, find some things. We wish to ask for your help." Xu Hui from Myriad Beast Palace said.

In the surroundings, the others revealed strange expressions. Even though they weren't that scared of Shi Hao, they still felt some apprehension. There were some who were sizing him up brazenly, hoping that he would be crippled soon, or else they would just always feel like the pressure was too great.

"As long as you are willing to help, I can ensure that your family will be safe." Yi Luo was even more direct, her beautiful eyes flickering with brilliance, saying it like this.

"What are you trying to say?" Shi Hao's face fell.

"Oh, I was just saying that with your cultivation about to disappear, while you still have some brilliance to show, you should just lend us a hand and fight it out. This can also be considered a show of friendship." Yi Luo said.

Even though she became a bit more polite than before, Shi Hao still didn't feel very good after hearing her words. This was clearly a threat. If he didn't go, his family wouldn't be at peace?

"This world might fall into chaos at any time, who knows what will happen. For example, your younger brother's talent isn't bad, but he is a bit arrogant. It is easy for him to offend others." Yi Luo said.

When he saw that Shi Hao's expression was becoming colder and colder, a bit ugly, Xu Hui laughed and said, "It is just a small matter. Don't worry, no one will touch your younger brother."

Shi Hao's face became a bit dark. He looked at these two coldly. What was the meaning of this? They said that there was nothing wrong, but wasn't this a type of undisguised threat?

"Don't misunderstand. It was just some normal exchange of pointers, your brother becoming injured as a result. He'll be fine after resting a few months." Xu Hui said while looking at him.

The more he spoke like this, the more ugly Shi Hao's expression became, his eyes cold as he stared at these two.

"It wasn't me who took action. This time, six or seven individuals came with the emissary. There was one fella who was a bit more aggressive, wishing to size up the strength of the Nine Heavens Ten Earths, challenging more than ten rounds. Your younger brother's injuries aren't that heavy." Yi Luo said.

"Should I be thanking you two for your good intentions?" Shi Hao said coldly.

Yi Luo revealed a gentle smile, changing her attitude. She also noticed Shi Hao's coldness, not willing to force things and saying, "Brother Shi can relax. When we return, we will do our best to protect him, ensure that there won't be any more unhappy things that happen."

Before, she felt like Shi Hao was about to become crippled already, so there was naturally not much reason to attach importance to him, her tone indifferent, even carrying a bit of contempt.

However, the place she wished to go to was extremely dangerous, perhaps they could have Huang lead the way, which was why she put away her arrogance and conceit.

“Brother Shi, we actually admire you, in this lower realm, you are the overlord, able to guide us to look around.” Xu Hui was also extremely polite.

Their attitudes were changing extremely slightly, it made the others from the higher realms shocked, but none of them dared to say anything.

Shi Hao’s expression calmed, nodding. He didn’t wish for his own brother Qin Hao to face trouble. If the two could help him, then he didn’t mind lending a hand.

The two became more and more polite, both of them carrying smiles. It was clear that they understood that there was no need to start conflicts with Shi Hao. If they could borrow his strength, then that was best.

“We are looking for a place, a mysterious prison...” Xu Hui said.

When he heard his description, Shi Hao immediately knew where that place was. It was precisely the dark prison with the True Phoenix Precious Technique, many terrifying creatures sealed within.

“Dao brother has resided in the lower realms for quite some time, far more knowledgeable than us on some matters. I wonder if you could help us find the administrators of the Void God Realm?” Yi Luo asked.

These two wished to ask the administrators for guidance, inquire about where the prison was. For them, that place held great secrets, even more so concealed great natural luck.

“There is no need to search, I know where the prison is.” Shi Hao said. He didn’t introduce Bird Grandpa and Coin Elder to them, instead directly bringing them there.

In reality, he was quite curious, wishing to know what exactly these two were trying to do.

As they proceeded, Shi Hao remained quiet, only controlling a youngster from the three thousand provinces. For Shi Hao, this was too easy.

This person was still moving forward. One couldn’t tell from the outside, but his sea of consciousness had already been restrained by Shi Hao’s powerful divine will.

Shi Hao searched his sea of consciousness without batting an eyelid, learning some matters about the higher realms. He immediately became furious.

Qin Hao was injured after all, moreover, the one who took action was precisely Yi Luo’s older brother, at the same time also Xu Hui’s sworn brother. That person originally came for Shi Hao, after hearing about his achievements in Desolate Border, his exceptional performance, he wished to challenge him. However, Shi Hao was crippled, moreover already left the three thousand provinces, so that person found Huang’s younger brother, fighting with him. In the end, Qin Hao was defeated, his injuries rather serious.

No wonder Yi Luo’s previous attitude wasn’t all that great, turns out it was her older brother who took action. Now, she actually even wanted to exploit Huang, making Shi Hao’s eyes turn cold.

Shi Hao held himself back, not taking action, instead truly bringing them to that ancient land.

Bird Grandpa and Coin Elder naturally also followed, both of them quiet. They shared the same idea as Shi Hao, wishing to see just what exactly these two wanted to accomplish.

“Ah, this is the place! I never expected brother Shi to be this formidable, actually finding this place!” Xu Hui said in excitement.

They saw a black ancient palace, even more so the several dozen altars and vessels. It was identical to what others told them, this should be the place.

“What do you actually wish to accomplish?” Shi Hao asked.

“Truth be told, we aren’t doing this for ourselves, but rather came to investigate in the place of the king of a generation. If we could, we wish to bring away some things.” Xu Hui said.

The two of them were both extremely powerful, yet they were actually so willing to do things for others, coming here to take such risks. One could see just how extraordinary that person was.

“Dao brother, could you help us open up a few of those vessels? There are some things hidden inside that are extremely important to us.” Yi Luo said, carrying a pleading expression. She looked extremely sincere, saying that she would repay him in the future, perhaps help him take care of Qin Hao.

When Shi Hao heard this, he wanted to send his palm flying over. It was her older brother who took action to deal with Qin Hao, yet now, she dared try to deceive him. After humiliating Qin Hao, she still wanted his older brother to sell his life, it truly was hateful.

Right now, even Bird Grandpa and Coin Elder’s faces weren’t that good. However, they didn’t act out, forcefully holding themselves back.

What kind of place was this? Every single vessel had a terrifying creature sealed within, they definitely couldn’t be released, or else it would be an absolute disaster, yet what were they being treated as by these two? They actually wanted to undo the seal!

Due to one party’s selfish desires, great evil was going to be released! Regardless of who it was who did this, they would become the sinners of history, possibly destroying all of Void God Realm!

#### Chapter 1768 - A Restricted Region That Shouldn’t Be Entered

The two elders were normally full of laughs and smiles, the most cheerful, but right now, their expressions were all overcast. This touched their bottom lines!

Who dared release the creatures in those vessels? Whoever did, then they were the enemy.

Once those existences were released, it would unleash chaos on earth, trigger a tragedy!

Shi Hao’s expression went rigid. It was because he was also suppressing rage, but he didn’t erupt, which was why his expression looked extremely rigid.

To act selfishly in spite of public loss, this was something he wouldn’t agree to. Someone close to these two injuring Qin Hao was one thing, yet they dared use him like this, it truly was not knowing the difference between life and death.

However, Shi Hao didn't immediately take action, his exterior extremely calm, saying, "I apologize, I am unable to do this. In the past, when I tried to search about here, this place was extremely strange, there are dangers. Currently, I have been afflicted with the Immortal Breaking Curse, my cultivation already declining somewhat. Even though I haven't completely lost my ability, it is definitely not comparable to before, unable to take action here."

When Yi Luo heard this, a hint of disdain flashed past her eyes, but she hid it well. "I only wish for dao brother's assistance, there is no need for such a big fuss."

Shi Hao sneered inwardly. Were they going to become completely hostile? Forget about him being unable to help, even if he could, he wouldn't. As for the dangers here, how could he possibly not be aware of them?

"Dao brother, have you gone over and touched those vessels?" Xu Hui asked.

Shi Hao naturally wouldn't be honest. "I have not, I only lingered about the surroundings, but I always feel like it is extremely suffocating. The stone statues in the black palace are releasing a type of pressure that makes one's heart tremble."

"In a bit, we can take action together. This place merely has some lingering souls. After all these years passed, they've definitely become incredibly weak, it's not that big of a deal." Xu Hui said with a smile.

Shi Hao began to wonder if they came here for some type of artifact, or if they wanted to release these terrifying creatures. If it was the latter, then these two carried too much malice, they needed to be immediately killed!

"Why did you two really come?" Shi Hao asked.

"At this point, we do not wish to hide things from you either. There really is something we need, that thing is too important." Yi Luo said.

"You should have heard that the reason why the other side attacked Desolate Border, wishing to slaughter their way in was precisely to find something. If there is nothing unexpected, then this place should be extremely important, likely hiding something." Xu Hui was extremely serious.

When they heard these things, Bird Grandpa and Coin Elder became a bit absent-minded, and then they trembled, their eyes becoming quite a bit clearer. They sensed something, gaining some understanding, remembering some things. Their expressions became increasingly ugly.

"These are things not even true immortals should know about, why do you understand it so clearly?" Coin Elder asked. His eyes became clear, his voice calm. However, Shi Hao knew that right now, there was a great storm brewing within him. The two elders might be on the verge of acting out.

The two youngsters from Immortal Domain touched a certain heartstring deep within these two elders, making them remember some things!

"True immortals do not know of this place, but that young king suddenly learned of it. His family is one of Immortal Domain's most powerful inheritances, his ancestor unmatched, one of Immortal Domain's taboo existences." Xu Hui said.

“That is why we are extremely straightforward, telling this tremendous secret to dao brother.” Yi Luo said with a smile.

Shi Hao sighed. Now that these two dared speak these words, in the future, they would definitely be killed to close their mouths. Perhaps those who followed them down all had to die. As for him, since he was going to be crippled anyway, there wasn’t much to worry about.

“Bird Grandpa, is there anything else you want to ask them?” Shi Hao looked towards the two old fellas.

“Ask anything my ass, truly brazen and absurd! Even daring to show such blasphemy to this place, daring to open those vessels, they are tired of living! Suppress both of them here for a million years!” Bird Grandpa shouted.

“I recalled some things. This place is a restricted land, nothing can be allowed to happen to it! Whoever dares to release the creatures in the vessels deserves death!” Coin Elder erupted into a fit of rage.

They already forgot that not long ago, they even personally brought Shi Hao here.

However, the two elders were muddle-headed, this couldn’t be blamed on them. Now, they recalled some things. This place was related to too much, the secrets had to be sealed.

“You all wish to involve yourself in our matters?” Yi Luo laughed, extremely beautiful, but also extremely cold.

“Why wouldn’t we dare?” Shi Hao said, moreover immediately taking action. Peng! His palm blade was like a rainbow, hacking over.

This was too sudden, but Yi Luo and Xu Hui’s reactions were fast, both of them extremely strong. They quickly retaliated, resisting with the greatest power. n--σ.-ℳ.-e.-ℓ--b.-ℓ..n

As they fought intensely, figures flew about. Yi Luo covered her mouth, flying out, mouth coughing out blood, face scarlet red. Her face was swelling greatly, even the bones in her face splitting.

Peng!

Immediately afterwards, Xu Hui also flew outwards, a foot sent into his chest, many of his ribs broken, making him spurt out a mouthful of blood.

In the distance, those cultivators who came from the Nine Heavens Ten Earths were all alarmed. Huang was just too savage, right? He didn’t say a single word, even dared to touch these two young great ones?

This made them feel extreme danger!

These people were scared. Huang really didn’t lose his cultivation, his strength still great! This made them feel uneasy.

“Something’s not right, your cultivation didn’t weaken in the slightest, even greater than the rumors!” Xu Hui was alarmed, his expression ugly.

As for Yi Luo, she held her face, even more so humiliated. Her other arm was raised, a talisman flickering about, releasing immortal light.

“You dare provoke me? Unforgivable!” She cried out, her expression cold.

Shi Hao’s mind shook. What kind of talisman was that? It actually released immortal light, making him feel extreme danger. Left with no choice, he could only draw the Everlasting Sword Core.

“How extravagant, even bringing an Immortal Sealing Talisman!” Bird Grandpa said coldly.

“It truly is a disaster! Daring to touch this place... however, this is the same as touching a dragon’s defying scale!” Coin Elder chanted an incantation, making this place shake greatly.

“You dare!” Yi Luo shouted.

Weng!

The black ancient palace trembled, the prison shaking.

On a certain altar, there was a vessel with its mouth opened. It was empty, but now, it began to suck in everything. In that instant, Xu Hui and Yi Luo with the ancient talisman in hand were sucked inside, all of it happening too quickly.

“Fortunately, there were extra sealing vessels here.” Bird Grandpa said.

In the distance, those people from the Nine Heavens and three thousand provinces were stunned, greatly shaken. Two great experts were sucked away just like that.

“The news must not be leaked out, they have to be detained as well!” Coin Elder said.

Immediately afterwards, those people who came with Xu Hui and Yi Luo were caught. They couldn’t resist, sucked into the same vessel and sealed inside.

“Yi, why do I know how to use that empty vessel?”

When they finished this task, the two old fellas were a bit stunned. It was clear that there was something wrong with their conditions. They had forgotten too many things.

The crimson dragon Ge Gu rolled its eyes, Shi Hao was also a bit speechless.

A few minutes later, Shi Hao pounded that vessel, interrogating Yi Luo and Xu Hui.

“Speak, what is going on here? Tell me everything clearly.”

Those two panicked. They were actually sealed, not even the Immortal Sealing Talisman was of any use. They made such ample preparations, yet they still failed, this left them in disbelief.

“This was an investigation entrusted to us by that young king, it has nothing to do with us!” At this point, Yi Luo was scared.

Even an Immortal Sealing Talisman had been bestowed to them, it went to show just how great this matter was, how deep the influences. That person attached too much importance to this place.

“That person said that the so-called lower realms prison doesn’t refer to the eight regions, but rather the very depths of Void God Realm, hidden within a prison.” Xu Hui said. He understood well that they were in great trouble. If they didn’t speak now, they might die without a burial site.

“What the other side is looking for might very well be here.” Yi Luo also quickly added.

Shi Hao’s expression became serious, his mind rising and falling intensely.

Things had gotten extremely big after all. If one thought about it deeper, it really was a huge matter. This region was a terrifying restricted region that couldn’t be entered!

#### Chapter 1769 - Erasing Memories

Even though they had their suspicions, when it was confirmed that the lower realms’ prison actually referred to this great black prison in the Void God Realm, it still left Shi Hao shocked!

Just how shocking was this?!

If news went out, the consequences would be too horrible to contemplate. This place had to be tightly sealed up.

Shi Hao looked at this place again and again. In this place, there was only him, Bird Grandpa, Coin Elder, and the crimson dragon Ge Gu.

“Cough, in my opinion, I think it’s still best if we get rid of your memories.” Bird Grandpa said. The expression on his face was extremely embarrassed, but soon afterwards, he became extremely serious.

Removing memories, this wasn’t something good, but they had no other choice. In the end, it was still his own fault, as he led Shi Hao here.

“We’ve forgotten too much. Originally, we only wished to grant you the True Phoenix Precious Technique. We never thought that it would incur such great karma.” Coin Elder also said.

Shi Hao became a bit speechless. Just how muddle-headed were these two, only now coming to their senses.

The crimson dragon Ge Gu was also cursing inwardly. They even forgot such a huge matter, these two elders were a bit too unreliable, right?

“Disciple, just go, let these two seniors help you get rid of some painful memories, just use it as a type of release.” Shi Hao said. He had a slight smile on his face, saying this to the crimson dragon.

Ge Gu rolled his eyes. Even though right now, he basically ‘acknowledged the bandit as his father’, taking Shi Hao as his master, he still felt that bit of unwillingness. He was the only True Dragon left in this world! This was especially the case when he heard Shi Hao teasing him like this, just feeling like this cheap master wasn’t all that reliable.

While the crimson dragon hesitated, following peng peng noises, the other three moved together, grabbing him. He couldn’t resist even if he wanted to!

“Ah, why aren’t we starting from you?!” The crimson dragon struggled, arguing with Shi Hao.

“An unfilial disciple like you, don’t tell me you don’t know that when something happens, the disciple should be the first to show his diligence?” Shi Hao had a resolute expression on his face, pressing him down there without a trace of politeness.

"I don't want to forget about this place, I still want to come back in the future..." Ge Gu screamed. However, in the end, his memories were directly removed by the two elders, and then he was tossed out of this place.

The crimson dragon found himself on the other side of the Void God Realm for some reason, just unable to figure out how he got here no matter how he tried. He had a blank expression on his face, in the end leaving this place out of helplessness, returning to Stone Village.

"It's now your turn." Next to the black prison, the two elders stared at Shi Hao.

"You all really have no shame, doing this? Even your own consciousnesses aren't clear, already about to forget everything. Who knows what will happen in the future? You need me to help you remember things!" Shi Hao boasted shamelessly, putting on a serious expression, leaving the elders a bit stunned.

"Less nonsense, hurry up. A portion of your memories must be erased as well!" Bird Grandpa snapped out of his daze, reaching out his arm.

"You should just be careful of that bird on your shoulder instead. If it was me, I would just directly slaughter it and stew it up to prevent it from speaking." Shi Hao mocked.

Coin Elder also took action, reaching forward, holding him in place.

"You old farts, then we can just exchange some pointers. Use your true skills, I wanted to consult you two for some guidance on this aspect for quite some time." Shi Hao laughed loudly.

Honglong!

It was as if this entire world was flipped on its head, the three of them taking action simultaneously.

However, soon afterwards, after not much time, the two elders stopped, both of them hesitating.

"Fine then, but you must not breathe a word of this to anyone. This matter cannot be leaked out, it is too great, it might possibly become the most terrifying disaster!"

The two elders warned seriously, their attitudes entirely different from before.

There was no way they could let Xu Hui and Yi Luo off, those people were left sealed here. If nothing unexpected happened, they would never see the light of day again.

The three of them also interrogated the two of them again as well, wishing to get to the bottom of what they knew.

At the same time, Shi Hao consulted the two elders for guidance, encouraging them to recall their past secrets, see if they could remember some things of the past.

In the end, there really was a bit of effectiveness. He learned some secrets!

The Nine Heavens Ten Earths and all of the spirit worlds, for example, Spirit Realm, Void God Realm, and others, they all long had 'skeletons', existing from Immortal Ancient Great Era.

At the start of this great era, they were replenished by many deities.

According to what the two elders said, many deities weren't aware even when passing away, but their astonishing divine spiritual force was guided away, merged into Spirit Realm, Void God Realm, and others, holding together the massive spiritual worlds.

"Meanwhile, Void God Realm is a bit more special, extremely mysterious even in Immortal Ancient Great Era. it is a spiritual prison, a bit different from other places."

These were the secrets Yi Luo and Xu Hui revealed.

Originally, the two of them naturally didn't have the qualifications to know this. It was the young king behind them who told them these things.

When Shi Hao left the black prison, his mind was all over the place. Despite his previously mischievous attitude, laughing even when faced with such a serious event, in reality, his mind was actually extremely heavy.

If the other side knew about the things here, after breaking through Desolate Border, they would definitely slaughter their way into the lower realms, bring down a catastrophic disaster.

Needless to say, that Immortal Domain young king's ambitions were truly wild. After learning these great ancient secrets of the past from the older generation, he actually dared to get his hands into this place. This would most likely bring about huge chaos in the future.

Shi Hao frowned. Following a light sigh, he said, "I have to become stronger, or else I won't be able to deal with these things in the future."

Yi Luo's brother was still in the three thousand provinces, likely also a member of that young king's group. It was best if he could also capture him to prevent anything unexpected from happening.

With the sudden disappearance of his companions, that young king would most likely become cautious, not daring to recklessly send out people anymore. This was also a type of warning.

"Leaving him in the higher realm is indeed not a good thing. If those from the restricted regions learn something, then that would be really bad. For some people in Immortal Domain to know about this, it is already something we can't help with." Bird Grandpa nodded. n./Ov&lb1n

The Nine Heavens had restricted regions, their relationship with the other side complicated.

Shi Hao got on the heavenly stairway, following flight after flight of stone stairs up, his speed extremely fast, not like how it was a long time ago at all.

En?

When he arrived before the gates of Spirit Realm, he was stunned. This place was strange, there was a mysterious formation arranged here. Even though the great gates had a crack opened, not shut, he still sensed extreme danger.

"Is this to stop someone below from going up?" Shi Hao sneered. This was likely set up to stop him, right? Or to be more precise, it was a type of ambush, if he rushed in, he would definitely be attacked.

Everyone knew that he was unmatched in Spirit Realm and Void God Realm, so this was most likely to stop him, prevent anything unexpected from happening.

Everyone knew that he suffered from the Immortal Breaking Curse, that he would be crippled within a month.

“Are they worried that I might act out within this month? They are underestimating me too much.” Shi Hao stood there, not continuing, instead thinking to himself.

Even though he spoke like this, he felt great regrets. If he knew things would be like this, he should have feigned madness, stir up great chaos in Spirit Realm.

Suddenly, he heard a voice from behind the gate. There were some cultivators guarding it nearby.

“What do you all think? What do you think Huang’s current condition is like, you think he’s crippled already?”

“Isn’t it obvious? If you just count up the time, a month has already been up, he’s definitely crippled.”

“We’ll know if we just wait a few more hours. Yi Luo and Xu Hui great ones went down, I reckon they can bring back precise information.”

“Wu, in the end, Huang really is pitiful, crippled just like this. Right, his brother Qin Hao’s injuries aren’t light, beaten rather miserably by Yi Luo’s older brother.”

Chapter 1770 - Guarding a Tree Stump, Waiting for Rabbits

Shi Hao’s brows immediately furrowed. He once again heard that Qin Hao’s injuries were serious. This was his younger brother, yet he was humiliated like this! A great blaze was burning within him.

The guests from Immortal Domain truly bullied others too far!

After standing in front of the gate for a moment, Shi Hao’s eyes flickered with light. Then, his eyes became incredibly deep. He turned around and left, not going through.

“Yi, why do I seem to have heard a sigh, as if it came from right outside the gate?”

“No way, I thought I was just seeing things. Just now, there was a figure that flashed past like a spirit.”

“Don’t tell me it is some great vicious individual who came from the lower realms? I heard that it was a prison, the ones locked within all the most vile beings of archaic times.”

Behind the realm gates, a group of people looked at each other in dismay, feeling a chill run down their backs.

“Shut your mouths, who said you all could speak noisily here? If someone from below came up, they would’ve been scared away by you all. The formation we set up before the realm gate wouldn’t be able to display its effects at all!” An elder walked over, loudly berating.

Shi Hao didn’t enter, instead following the original path, not returning to Void God Realm. He stopped on the copper altar not that far away.

This place was called the Copper Sparrow Altar, an elevated platform that could be used as an arena.

Back then, when he first came here, he had fought a great battle against Feng Wu here, also facing Teng Yi, Zhen Gu, and the others, these past events still vivid in his mind.

Originally, he still wanted to silently enter Spirit Realm, understand some of the circumstances, see just how he was going to provoke Yi Luo's older brother into entering Spirit Realm, and then capture him.

Yet right now, there were people all around the realm gate. If he recklessly charged in, then it would definitely alert the enemy.

"Then I'll just guard the tree stump and wait for the rabbits, wait a bit longer." Shi Hao sat down here.

He believed that if Yi Luo and Xu Hui didn't return for a long time, it would definitely make those above nervous. Her older brother was so arrogant, he would most likely come and look for them.

"Wishing to challenge me, ultimately humiliating my younger brother, this person is too unbridled and conceited. I believe he won't be too scared to enter Void God Realm, that he won't cower." Shi Hao said to himself.

This was the conclusion he reached. The other party clearly knew that his battle accomplishments were extraordinary, yet he still did this type of thing, one could see just how domineering and how superficial he was, clearly wishing to use Shi Hao to inflate his reputation.

Inside Spirit Realm, during these past few days, Yi Hai had always been of rather high-profile, his name shaking up the Nine Heavens Ten Earths.

It was because he had taken action a few times. Not only did he defeat several young experts who previously participated in Desolate Border's battles, he also continuously broke records in Spirit Realm.

If not for a warning from Immortal Domain's emissary, he would have continued challenging people. He had many targets, for example, Ten Crown King, Little Sky King, dual pupils, all of them were important opponents.

It was to the extent where even the long life families the emissary was closer to were his objectives. He had previously heard that Immortal Wang had a tenth son who now appeared.

The great families were worried that the other side might wipe out the Nine Heavens, so all of them left behind the most powerful seeds, sealing a few of their clans' elites. Now that the great foreign disaster was unexpectedly averted, many 'ancient people' appeared.

After being warned by the emissary, Yi Hai had no choice but to restrain himself. Afterwards, he entered Spirit Realm, continuously breaking some ancient records, his strength astonishing.

In these past few days, he continuously visited great sects, invited to these places. He was treated with a great ceremony, gifted all types of rare treasures, hoping that he could lend them an arm or two.

After all, he was a guest from Immortal Domain, someone the great inheritances had no choice but to rope in. They all hoped to receive some help from them.

Yi Hai had visited Immortal Palace, sharing a drink there, chatting happily with some of the experts there. After all, there was a ruined immortal secluded there, so he didn't dare act too presumptuously.

"What a pity, Huang was crippled by this great one. Otherwise, even if I had to risk the danger of the emissary's punishment, I would have gone to beat him down!" Yi Hai said.

"Brother Yi's talents are extraordinary, unstoppable. If Huang was still here, he could only withdraw, not daring to face you head-on. How can he compare to a genius from Immortal Domain?"

"His younger brother had been disciplined by me, definitely won't be able to get out of bed for half a year, all of his bones broken, infected by natural law force. This can also be a type of lesson for their bloodline." Yi Hai roared with laughter.

...

These words were released to the world by an old servant from Immortal Palace, triggering an expanse of alarm in the outside world.

It was clear that Immortal Palace's creatures wanted to use this to quell some rebels. A ruined immortal took action and crippled Huang, this matter triggered quite the commotion. Even though the clans didn't dare say too much, there were still many people who were discontent, also making the people indignant. Everyone knew how great Huang's contributions in Desolate Border were! Yet now, Immortal Palace took this type of stance, wishing to cover up his greatness, saying that even Immortal Domain's people were discontent with Shi Hao, that this was how they felt.

After Yi Hai left Immortal Palace, there were naturally still many inheritances that invited him, doing their best to bring him closer to them. Now that Immortal Domain's gates were opened, they were going to choose some elite seeds. The great sects all wanted to send people over, but fighting on the arena properly, how many people could be chosen this way? That was why they wanted to send in some people through other methods.

That was why the sects all did their best to curry favor, inviting Yi Hai, receiving him generously.

"Great one came from Immortal Domain, compared to that place, the three thousand provinces are but a withered land. There is no way it can compare to the residence of true immortals! Meanwhile, the experts here naturally cannot compare to great one, the difference too far."

"Exactly. Even if Huang's name has shaken the world, dominated the Nine Heavens, compared to Yi Hai great one, he will only be defeated, no chance of winning."

When Yi Hai heard this, he said, "It truly is a pity that he was crippled."

"By being crippled, it is nothing more than preserving his final bit of reputation. Otherwise, if he was truly defeated, then that really would be too unsightly." Someone said.

"It truly is a pity. I went to seek out his younger brother, his talent indeed not bad, but his experience is just too lacking, just a potted plant in a greenhouse. His bones were all broken, taught a proper lesson, leaving him with his life because of their Five Phase Mountain." Yi Hai said.

Everyone was stunned. Qin Clan had Five Phase Mountain, able to make even Immortal Domain's guests feel restraining fear, to the extent where they couldn't help but give them face. This left one with shock and regret.

"Back then, Five Phase Mountain had quite the reputation even in Immortal Domain." Yi Hai said. However, he didn't say too much.

Yi Hai was waiting, now already waited a day and night, but his younger sister Yi Luo actually still didn't return.

This made him frown. Immortal Domain's young great one had warned them that they absolutely had to be careful, that they had to find out Void God Realm's secrets, that they couldn't fail.

"This won't do, I have to make a trip!" He said to himself, feeling a bit uneasy.

"Great one is going to Void God Realm?" Someone asked.

"Correct, Xu Hui and my younger sister haven't returned yet, so I just can't feel at ease. I have to go and take a look." Yi Hai replied.

They told everyone that their purpose for coming was to travel the Nine Heavens Ten Earths, but they didn't have any way of entering the lower realm's eight regions. As such, they had to head down through Spirit Realm's path and enter this way.

"Perhaps they just felt that the lower realm is rather beautiful, the local culture not bad, so they decided to stay a day more. Wu, they might also be challenging their people." Someone said.

"Then perfect, I'll also make a trip. Actually, if I can run into Huang, then that would be even better. What a pity, if you count the days, he ought to have already been crippled." Yi Hai stood up.

"Great one must be joking, you are already unmatched."

"It is just a bit of a personal regret that I wasn't able to fight Huang myself. Sigh! However, from his younger brother, I really am disappointed in this bloodline, nothing more than this. This time, I really hope I encounter him in the Void God Realm." Yi Hai said with a sigh of regret.

That day, he entered the Spirit Realm.

By the realm gate, many people stood up, greeting him respectfully.

Yi Hai nodded, smiled, but didn't say anything, and then directly walked towards Void God Realm.

"Yi, I forgot to tell great one that there was something strange here, as if someone sighed."

"Forget it, it might have just been our imagination. Moreover, if there really is something, it's not like there is anything to worry about either. Didn't that great one wish to challenge Huang? He has confidence that he is unmatched."

These people chatted quietly.

On the Copper Sparrow Altar, Shi Hao sat there quietly, not anxious in the slightest. He was confident that Yi Luo's older brother would definitely appear, it was just a matter of time.

He heard footsteps. Someone was coming!

"En?!" Yi Hai stopped. He saw the rear figure of someone on the Copper Sparrow Altar. That person was extremely calm, just sitting there casually just like that.

“Who are you? What are you doing here?” He asked.

“Guarding a tree stump, waiting for rabbits, the rabbit being you.” Shi Hao replied, not getting up.

Yi Hai’s face immediately fell, eyes growing cold. The other party was this direct, calm and composed. Who was he treating him as?!

“Do you know who I am?!!!” His voice became cold.

“Just a rabbit, I’ve already waited for quite some time.” Shi Hao calmly replied.

“You... are you seeking your own death?” Yi Hai’s voice was extremely cold, revealing a cruel expression. After arriving in the Nine Heavens Ten Earths, there wasn’t a single person who dared treat him with such disrespect.

“You’re Huang, aren’t you?” He didn’t lose his cool, immediately coming to this conclusion

Shi Hao got up, turning around to look at him coldly. Killing intent immediately swept outwards.

“Yes, it should be you. You look a bit similar to that Qin Family brat. What a pity, that unsightly younger brother is too weak. Just a single hand was enough to beat him down, breaking every muscle and tendon in his body, easily trampling on him. He truly left me disappointed! I wonder just how much stronger the older brother can be!” Yi Hai said, laughing coldly.

This was intentional, he was merely observing Shi Hao’s reaction. In reality, he already sensed that he had encountered an unimaginable enemy, one much more terrifying than what he had predicted.

“If you didn’t do stupid things, then you wouldn’t need to die!” Shi Hao only had this sentence, and then he directly took action.

“Excellent, you haven’t been crippled yet! Today, I came to take action, let you feel what it’s like to be half crippled ahead of time!” Yi Hai shouted, rushing over, fighting intensely with Shi Hao.

It had to be said that this person’s talents were exceptional, much greater than Xu Hui and Yi Luo’s, truly quite valiant. He surged with immortal energy, rushing murderously towards the Copper Sparrow Altar.

Honglonglong!

It was as if doomsday descended onto this place. The lightning radiance was dazzling, divine chains of order interweaving, drowning the Copper Sparrow Altar underneath.

Shi Hao was startled. This person was truly quite powerful, exceeding his predictions. He was definitely not an ordinary individual in Immortal Domain.

From start until now, just how many people in the same generation could fight him to this step? They already exceeded a hundred moves.

However, this was as far as it went. Shi Hao didn’t want to waste time. His fist shone, as if a sun was exploding. Lightning hacked out, completely overwhelming Yi Hai. He had no choice but to go all out.

Unfortunately, a dozen or so moves later, Yi Hai’s precious techniques were scattered, divine radiance blasted through. With a peng noise, a fist smashed into his mouth.

A tremendous noise sounded by Spirit Realm's gates, startling people to the point where their bodies shook intensely.

"What happened?" These people all jumped.

"Tooth, a blood-stained tooth!" Someone cried out in alarm.

Dang dang dang!

Noises sounded from Spirit Realm's gate again, leaving all of them stunned.

More than ten teeth flew over, all of them carrying blood.

"Why do I feel like they are like young great one's teeth, this..."

It was because the teeth were extremely special, the snow-white color also carrying wisps of scarlet radiance. Not long ago, Yi Hai went into the lower realms through this place, leaving them with a deep impression. This individual from Immortal Domain had scarlet electricity-like streaks running through his snow--white teeth, quite peculiar.

"Heavens, they really are that great one's teeth! Who did this? Who beat great one into this state?!"

Dong!

Immediately afterwards, several bones flew over, carrying scarlet bloody wisps, even more so curling with scarlet radiance, smashing into the realm gate. This scene made their entire bodies go cold. They were absolutely horrified.
