

## Perfect WD 1771

### Chapter 1771 - Great Vicious Being

Around Spirit Realm's gate, a group of people's fine hairs stood on end, their scalps going numb, chills running down their backs. They were absolutely horrified!

Who was that? This was the young great one from Immortal Domain! His name was Yi Hai, rumored to be well-known in another world, an outstanding disciple of a certain great sect.

However, he encountered something while heading towards the lower realms? He was beaten down by someone!

On the ground, those snow-white teeth carried scarlet multicolored wisps. It was a horrifying sight, a powerful being was beaten until most of his teeth flew out, this alone was enough to explain the severity of the situation.

If he didn't encounter great danger, how could things end up like this? This was truly humiliating! Other places could be injured, it was just this place that couldn't be struck!

"Those are finger bones! They were broken, sent flying in this direction!"

They all backed up. Just what kind of experience was Yi Hai going through? Even his finger bones were broken, flying all the way here, smashing into the realm gates!

These people trembled, how could they not be scared? That young great one had just entered through the gates, yet his experience was already so miserable, it truly left one terrified.

Who was attacking him? Did he truly encounter a great vicious being from the lower realms?

Normal people from the higher realms didn't know too much about the lower realms, only knowing that this was a place of exile, a place that locked up ancient prisoners and extremely ferocious existences.

The less one knew, the more exaggerated the rumors became. It was to the extent where there were rumors stating that there were great vicious beings suppressed in Immortal Ancient times that were waiting to break out.

However, there were some things that, if one thought about them more, weren't completely baseless. For example, there was a member of the Vicious Ten who lived until this great era's archaic years previously roaming about the lower realms.

"Hurry, go and get help!"

"Quickly report to the great sects!"

These people were losing their heads out of fear, all of them crying out. Quite a few sharper individuals immediately turned around to run, using this chance to leave the scene of the crime.

"It is enough for some people to go and make reports, don't all leave!" An elder berated.

However, no one listened to him, a larger half of the people here running away just like that, scattering in all directions. In the end, even that elder felt goosebumps all over his body, also running.

It was because in that instant, a roar sounded from Spirit Realm's gate, as if a wild vicious soul was wailing, just too miserable.

Ao...

Another mournful cry sounded. Even though they had long left the realm gate, hiding far away, those people still couldn't help but tremble. noVe-Lb)1n

Another group of people ran, but in the end, there were still some who were forced to remain, watching from as far away as they were allowed to, fearing that those great sects would punish them after finding out what they did.

"Heavens, did Yi Hai great one enter hell itself? Why else would he howl like this?"

"I feel like the lower realms might very well be linked to the gates of hell, all types of prehistoric beasts buried within, now possibly broken through their seals."

They were all shivering in fear, truly scared badly.

Even Immortal Domain's well-known young expert encountered disaster here, screaming in an inhuman manner, how could they not feel fear?

Right now, on the Copper Sparrow Altar, Yi Hai's entire body was covered in blood, staggering about, continuously stepping backwards. He was currently experiencing the darkest day of his life.

He had never felt such humiliation and anger as he did now. He truly couldn't win against this individual, beaten viciously, body about to become ruined.

This gave him a tremendous sense of defeat, something he had never experienced before.

In Immortal Domain, he was also a heroic talent that moved a region. Even if he had enemies, chased after by others, he had never experienced such a huge defeat as this.

This was too humiliating. That human race young expert's fists were each more powerful than the last, overwhelming him, crushing his chin, breaking his arms, smashing straight through his chest until the hole was connected from front to back.

Was this still a person? He couldn't help but want to curse out, scream out. He had never met such a savage human cultivator. One had to understand that in Immortal Domain, even the most vicious race never had such brutal strength!

Right now, he felt like he wasn't fighting against an individual, but rather compact stars, yet their weight remained unchanged, continuously smashing into his body.

Hong!

Another fist smashed down. Yi Hai raised his broken arms, blocking before him. In the end, his arms exploded, blood scattering outwards, creating a scarlet expanse. It was too miserable.

His arms rang with weng weng noises, eyes becoming blurry, mouth and nose unable to breathe anymore either.

Blood poured out from his ears, mouth, nose, and eyes, all of these wounds smashed open, his seven facial apertures rupturing.

AH AH AH AH!!!!!!!

Yi Hai roared out like a wild beast, fighting like a trapped beast.

He was simply about to go mad. Today, he ran into Huang, but apart from the first hundred moves where he could still act on a bit of initiative, the rest was all just him defending, each exchange leaving serious injuries.

Inside his body, his bones released pi pa sounds, regrowing frantically, his flesh also wriggling about. His broken arms were regenerated, his tattered chin also healing.

However, he still couldn't defend himself. His hands were blasted apart by Huang again, shattering, the pain and torment driving him mad.

In his opinion, even the young inheritors who came from those ancient inheritances might not necessarily be able to suppress Huang. He just felt like this Huang was too sinister, absurdly powerful.

He deeply felt that Huang exceeded the limits of the human race, his potential not normal!

From what he knew, the generation overwhelming experts from Immortal Domain from past to now all came from those powerful special clans with unique bloodlines!

Meanwhile, the human race was huge in population, bloodlines not rare. Everyone said that one's innate constitution wasn't that important, but at a certain level, it still had its impact.

This was what he heard, that immortal king's experiences. This was the true experience of an unmatched expert himself, that there were some innate conditions that were irreplaceable.

However, this Huang completely exceeded this type of limit, filled with blood energy, tyrannical to the extreme.

"I understand, you definitely have the blood of other unmatched clans within you." Yi Hai released a low roar.

"Get lost!" Shi Hao's fist smashed through his body again.

Would Shi Hao not know what race he was? At the same time, he felt that this was a bit laughable. Was 'the strong and weak' really that related to what race you were?

"The so-called innate constitution, races, it was definitely spoken by your clan's great one, right? Used to deceive ignorant people like you, for you all to believe. However, in reality, it is absolutely worthless!" Shi Hao rushed over, a foot stomping down, crushing the void, making Yi Hai's entire body crack apart.

Aohou...

Yi Hai screamed miserably.

"Since you felt like the potential of the human race isn't great enough, why did you choose to evolve in a humanoid direction?" Shi Hao said, looking at him coldly.

These words left Yi Hai stunned, but soon afterwards, he became clear-headed. "You don't understand, the so-called human form merely resembles humans a bit. However, the great dao patterns inside are completely different!"

"Which is to say, the human race's innate qualities are already close to the great dao, just that there were some shackles that needed to be broken through." Shi Hao was extremely calm, not showing any mercy when taking action.

"Ah..." Yi Hai screamed miserably, now truly provoked, but at the same time as if he received some type of enlightenment. A loud and clear phoenix cry rang out.

His body swelled, blood rushing powerfully through his body. He immediately produced the face of a demonic ape, but there was also a pair of phoenix wings behind him. Apart from this, his feet were also phoenix claws, while his arms were demon arms.

Right now, his appearance was extremely strange, and also extremely terrifying.

"Turns out you were a mixed mutt!" Shi Hao sneered.

"I am going to kill you!" Yi Hai roared in fury. This was him retracing his ancestry. He wasn't a pure-blooded phoenix, nor was he a pure-blooded great demon ape, which was why he normally wouldn't reveal his normal body after producing a human form, feeling shame.

After so many years of remaining in humanoid form, this outer appearance was already set, extremely difficult to display the original form. If one wished to retrace their ancestry, then they had to pay a tremendous price.

It was because the clan had previously used a solidification technique precisely to pursue the strengthening of one aspect to the extreme, abandoning some of their body's potential.

In his entire life, he didn't use the ancestry retracing technique much, because not only did it change his flesh, his soul was also being torn apart and recombined, the damage to him great.

Hong!

Immediately afterwards, a great pair of phoenix wings appeared on Shi Hao's back, the blazing brilliance carrying scarlet multicolored light. Phoenix wings moved, shaking heaven and earth, the scene too terrifying.

Right now, even the sturdy Copper Sparrow Altar cracked, about to explode. However, as the phoenix wings shone, it was held in place, making all things freeze.

"Don't you have some phoenix blood? Let me properly teach you a bit about how to use the phoenix divine ability." Shi Hao said coldly.

Yi Hai was alarmed. As the other side's phoenix wings shone, he couldn't move, as if he was frozen, just like the Copper Sparrow Altar, unable to budge.

Honglong!

Shi Hao's foot descended, trampling down on his chest, crushing him down on the altar, smashing his body until it released noises. All of the bones in his body were shattered.

"The so-called retracing your ancestry, so it was nothing more than this." Shi Hao said quietly.

Yi Hai was horrified, all hope simply turned to dust. In his eyes, this was a young great demon king! Perhaps only those young kings might be able to subdue him with power of the same level!

"Even someone like this dares come down to the lower realms and act domineeringly?" Shi Hao looked down at him.

Yi Hai remembered how long ago, he had previously stepped on Huang's younger brother, yet now, it was completely flipped upside down. He was now the one being stepped on.

Chapter 1772 - Shocking All Sides

Ka!

Yi Hai's chest bones that had already been treated through secret techniques and restored were smashed apart again. That leg was even heavier than a mountain peak, crushing him to the point where he felt like he was going to suffocate.

Humiliating, this was utter humiliation exceeding anything he had ever felt before!

Huang's foot just crushed down on him like that, looking down on him, making his face scorching hot, and then it fell ashen.

"Still not convinced?" Shi Hao laughed again and again, but then his expression became cold. "Even someone like you dares humiliate my loved ones, harm my younger brother?"

The first time he heard that Yi Hai seriously injured his younger brother, there was already killing intent that surged within Shi Hao's mind. Then, he heard that this person harmed Qin Hao because he wanted to challenge him, making him want to take action even more.

Yi Hai's expression became more and more ugly. He was being crushed under another's foot, in such a dejected state. He felt like his chest was going to explode. Vicious light flickered between his eyes, he really wanted to release a great roar.

Pu!

Shi Hao exerted a bit of force. Yi Hai coughed out large mouthfuls of blood, his chest caving in. However, the blood couldn't touch Shi Hao, it was stopped by a formless field. n.)0V£lbIn

"I heard you wanted to challenge me?" Shi Hao asked.

What could Yi Hai still say? This was self incurred humiliation. His past arrogance and extraordinary battle accomplishments, before Huang, were but a joke, not worth anything.

He was extremely strong, also indeed able to fight Shi Hao for more than a hundred exchanges. However, in the end, a loss was a loss, he was definitely not a match.

“With your type of strength, you could only bully others below your cultivation level, right? I feel like if my younger brother was at the same level as you, he might not necessarily lose.” Shi Hao said to himself.

Yi Hai’s face was surging with greater and greater heat. He indeed bullied the weak as the strong, viciously tidying up Qin Hao, beating him into half ruin.

However, if one were to say that he was unsightly, potential not great enough, cultivation lacking, then that would leave him feeling too wronged. He was also quite well-known in Immortal Domain.

“One can be hurt, but not humiliated!” Yi Hai roared.

Peng peng peng peng!

Shi Hao didn’t say a word, just stomping his foot down, making Yi Hai’s body completely deform, leaving it completely deformed.

Only after this did he release him, saying, “If you really had confidence, you wouldn’t have taken action against my younger brother. What does involving others count as? Didn’t you want to look for me? My true self is right here, just come.”

Ao....

Yi Hai roared, leaping out, directly throwing himself at Shi Hao.

However, this was destined to be a one-sided battle. His Demonic Ape Divine Ability, as well as the portion of phoenix might, before Shi Hao, were truly lacking. Soon afterwards, he was smashed into the ground.

In the end, he had no strength left. His body was completely broken, in too terrible of a state, laying there, not moving at all.

“Speak, what were you all really looking for?” At this moment, Shi Hao had already beaten him until he had no more confidence left, now starting the interrogation.

“You... how did you know? Right, Yi Luo and Xu Hui, they ended up in your hands? I just knew that something wasn’t right!”

Yi Hai’s face became ugly, only now did he realize this problem.

It wasn’t him being slow, but rather because just now, he was beaten too miserably by Shi Hao, his entire being stunned, completely in a type of frantic fighting state.

In the end, Yi Hai couldn’t resist anymore, beaten until a Soul Shattering Needle pierced through the space between his brows, about to erase his primordial spirit, only then was he horrified enough, immediately unable to continue acting tough.

Even though he was unyielding, when faced with death right before him, he still didn’t want to truly die, so he became weak.

However, what he could do was also limited, what he knew roughly the same as what Xu Hui and Yi Luo said, leaving Shi Hao rather dissatisfied, leading to him being beaten up viciously by Shi Hao again.

Yi Hai clenched his teeth. This person's temper was too explosive right? It wasn't even his fault for not knowing, yet he was beaten up again.

"Guarding the tree stump was all just to wait for a useless rabbit like you, it truly was a waste of time!" Shi Hao said.

Yi Hai was so angry smoke came out of his seven facial apertures, his lungs about to explode. The other party really treated him like a harmless little rabbit? When had he ever been looked down on like this before?

However, Huang's following actions were even more difficult for him to endure. His leg was grabbed just like that, and then in a brazen manner, he was dragged along the stone stairs, brought towards Void God Realm.

It truly angered him badly! Yi Hai was furious, feeling extremely hurt inwardly. He was treated just like prey, like some mountain sheep, like a rabbit, a leg grabbed and dragged towards Void God Realm.

"I can walk myself!" He screamed out of humiliation. Even if he had to follow someone behind them, he would rather do that than be dragged. This was too shameful.

"I know, but I feel like this is more suitable." Shi Hao replied.

Yi Hai's hair was all standing on end, his eyes glaring outwards. However, in the end, he became like a deflated balloon, completely giving up.

Now that he encountered this completely fearless being who was undisciplined and out of control, trampling on his dignity without any respect, he truly was at his wits' end. He couldn't win over the other side, and knew that Shi Hao didn't feel any fear either, there was really nothing he could do.

Just like that, Shi Hao dragged Yi Hai with him towards Void God Realm's great gates.

"So this is Immortal Domain's little bastard?" Bird Grandpa said. Him and Coin Elder were both waiting over here.

When he heard these words, Yi Hai felt a bit stunned. He could tell that the lower realms were a group of scoundrels, not a single good thing in there. Even such kind-faced elders' words were so despicable.

"We can't even eat this, can't chew on this, what is the point in even leaving him alive? We should just kill him and be done with it." Coin Elder said.

When Yi Hai heard this, his entire body trembled. He felt like this really was no different from hell itself.

"There is use in keeping him alive. In the future, I'll use him to train my disciple." Shi Hao said. He wanted to be a shopkeeper who left all the work to others. Now that he caught a powerful creature from Immortal Domain, it should be a good sharpening stone for training the True Dragon.

The crimson dragon Ge Gu was hollered over.

As a result, Bird Grandpa and Coin Elder had no choice but to open up another region. This was a vast arena, sturdy and unbreaking, at the same time also a prison. After entering, without their assistance, none of them could leave.

Just like that, the crimson dragon's life and death battle began.

Shi Hao had told him that at a battle of the same level, if he couldn't defeat his opponent, then he would die himself. As his master, he wouldn't step in to help.

Shi Hao didn't bother with this anymore. He returned to Stone Village, finally seeing Hairy Ball who he had been separated from for so many years -- the Zhuyan.

"You really are rather carefree, wandering about the world, touring the world's wonders. After so many days, there was no sign of you at all." Shi Hao said.

When Hairy Ball saw him, the way he showed enthusiasm was too different. It turned into a massive golden divine ape as tall as the world, opening its mouth and bearing its fangs, directly brandishing a mountainous great spear, sending it smashing downwards.

They had just met, yet it already wanted to exchange some pointers, size up his cultivation.

However, Shi Hao took it with a single finger, making Hairy Ball lose all of its fighting spirit. It quickly shrunk, appearing in Stone Village.

"Do you think I was just going on a scenic tour? Recently, I've been focused on searching for the mountain treasure in the great wilderness." Hairy Ball replied.

Shi Hao was moved. Even now, he still didn't forget about the mountain treasure.

"You found some clues? Let's go, I want in, let's find it together!" Shi Hao said.

While Shi Hao and Hairy Ball were searching for the mountain treasure, the higher realms could not remain calm. The sect masters of the three thousand provinces were all startled, a group of people currently stupefied, all of them stunned.

Who was Yi Hai? He was incredibly powerful. When fighting at the same level in Void God Realm, he still ended up being beaten miserably? This was impossible!

However, this was the information that they received. Those disciples of theirs personally witnessed this happen. Yi Hai was beaten until his mouthful of teeth flew everywhere, finger bones falling off, these remains still by Spirit Realm's gates even now.

After these people were startled, they entered Spirit Realm together, arriving before the realm gate. As a result, all of them were stupefied, unable to utter a word for a long time.

Who did this? Was it truly a sealed great vicious being who undid its seal?

However, creatures like the Kun Peng and the True Dragon, didn't they long die out?

Apart from the Kun Peng and others, who else was there? Who could defeat Yi Hai in a battle at the same level?

"It's Huang, I feel like it is definitely him! Apart from him, what other power do the lower realms have? He could even kill the other side's young great ones!" Someone came to this conclusion.

“However, wasn’t he crippled? If you calculate the time, his cultivation is now completely lost, already becoming a mortal.” Someone said with a frown.

“I feel like nothing is impossible for Huang. This person is a variable, full of all types of unexpected things.” This was what the lord of Heavenly Country said, attaching great importance to Shi Hao.

If there really was a chance, he really wanted to send someone to completely wipe out Stone Village, verify if Huang really was crippled in this way.

However, Immortal Palace’s people spoke out, shaking their heads in rejection. According to what they said, the ruined immortal told them that this type of curse, even if it was a true immortal who was afflicted, they would similarly be crippled, let alone a trifling Self Release Realm cultivator.

“Huang is doomed to be crippled, it definitely isn’t him. It is definitely something special in the lower realms, for example, an egg that hatched from a True Dragon Nest, or a Kun Peng’s posthumous child.”

The three thousand provinces immediately began to discuss this matter. Even though Huang left, believed to be crippled, his name was still mentioned today.

Not long afterwards, this matter spread to the Nine Heavens, startling the various great long life families. Even Yue Chan, Princess Yao Yue, Exiled Immortal, Ten Crown King and the others became aware of it.

Apart from this, news also reached Immortal Domain’s emissary.

“There is a need to make a trip to Void God Realm, see just what exactly is going on. Is that old friend still in good health?”

During these days, there were people who moved out one after another, heading to the three thousand provinces, preparing to look around Void God Realm, investigate the truth.

Chapter 1773 - Swan Saint

“Does anyone want to meet up and head down to the three thousand provinces together? Let’s go and look around Void God Realm, see that miserable scene of the so-called Immortal Domain elite beaten until all of his teeth were knocked out.”

In the Nine Heavens above, Cao Yusheng was shouting out, calling for friends to join in the three thousand provinces’ action, a great flame burning within him. When he heard the news from Void God Realm, he became extremely excited.

Comparatively speaking, the golden little Heavenly Horned Ant was a bit more direct, muttering that Shi Hao was definitely fine, his cultivation not ruined, that it was him who beat down Yi Hai.

“Hahaha, this feels so good! That Yi Hai thinks that he is all that, challenging everyone, arrogant and bossy, I already wanted to deal with him for quite some time. In the end, my brother Huang beat him miserably. Heh, I heard that his mouth was smacked until all of his teeth fell out, even the bones of his body flew out, slow-cooked into porridge.”

It had to be said that the little Heavenly Horned Ant was savage, just that direct. The others were still half doubting it, not sure who it was that took action, yet he was already sure that it was Shi Hao who did this.

“That is definitely his style, there is no mistake!” The Heavenly Horned Ant slapped his chest, clinging to his view.

The group of people were all speechless. Why did they feel like this ant was talking as if he was the one who did this, acting ridiculously proud.

“Princess Yao Yue, I’ll help you look for your husband’s family, let’s go. Don’t participate in whatever single-elimination tournament anymore, let’s quickly head to the three thousand provinces.” This was the message Cao Yusheng sent to the princess of the long life imperial court.

“Yue Chan, Qing Yi, did you two really become one? It’s time to come out of seclusion, see an old friend in Void God Realm.” It had to be said that Cao Yusheng really needed a spanking.

“Dual pupils brat, your brother has revived. You’re invited to fight another battle.”

“Ten Crown King, my brother has captured Yi Hai, do you dare beat down an Immortal Domain guest?”

“Jin Zhan, Wang Xi, Wang Shi, if you have the guts, then come down to the Void God Realm for a fight!”

It really was ‘people who come to join in on the action don’t care about things getting out of hand’, some of it because of Cao Yusheng and the little Heavenly Horned Ant’s shouting, some of it others’ hollering, sending out fake information, releasing false news.

The various lands all became lively, inviting well-known figures to Void God Realm to see for themselves who that vicious individual was.

“I can tell you very confidently that Huang has already been crippled. If you want to talk about how he is right now, that is nothing more than a joke. There is no way he can appear again!”

This was the judgment of Immortal Palace’s expert, extremely sure, clearly stating that Huang has already become a thing of the past, never to appear in the world of cultivation again, now completely a mortal.

It was because when they offered sacrifices, they were told this by the secluded ruined immortal once again, receiving a definitive answer that after Huang suffered from the Immortal Breaking Curse, he was destined to fall without exception, that there would be nothing unexpected.

The various lands were all noisy, all of them discussing this matter. Many people moved, quite a few people gathering near Spirit Realm’s gates, waiting to head down together with the others.

This great vicious being left them with apprehension, normal people didn’t dare head down alone. They were waiting to set out when there were enough people.

Towards these things, Shi Hao didn’t pay any more attention to it, because he also foresaw it happening. He left it all in Bird Grandpa and Coin Elder’s hands.

Right now, he began to search the great wilderness with Hairy Ball, looking around, trying to find that mountain treasure.

Back then when the mountain treasure appeared, auspicious light surged, the scene great. It had previously drawn the Qiongqi, Heaven Swallowing Sparrow, Zhuyan, and little red bird over, fighting intensely over it.

Back then, Willow Deity had just woken up from its dying state, so it didn't participate.

When he thought of Willow Deity, Shi Hao released another sigh. Willow Deity's entire tree body was destroyed, turned into a seed, undergoing rebirth... then it suffered from mysterious lightning, struggling between life and death again, unknown what it ended up provoking.

From Immortal Ancient Great Era until this era, it had experienced several 'reincarnations', going from the most powerful state back to the weakest, starting over from the beginning.

"What kind of path is the Willow Deity's? Just where is it going, what will its final conclusion be like?" Shi Hao thought about the secrets in the place Willow Deity ultimately disappeared into, which was also the place where the lord of the restricted region suffered. What was there behind that dam?

Back then, when Willow Deity resided in Stone Village, its own unmatched golden body was completely destroyed, forced to start over from the bottom. The villagers all knew that in the first few years, it was entirely black, not a single leaf on it, completely withered, lacking the slightest bit of life force, as if it had died.

Only several years later did it revive from the weakest state, producing a tender shoot, barely managing to survive.

In the following few years, it slowly cultivated, gathering some power.

Otherwise, it wouldn't have had to avoid the four mountain treasure seeking giants.

One could see just how terrible its state back then was.

It was clear that this great wilderness was already no longer the region near Stone Village, but rather the edge of Desolate Region. There were craggy strange stones everywhere, rocky mountains towering around.

Shi Hao discovered a bird's nest. It was extremely large, and also extraordinary. It was built from ancient wood, located at the peak of a stone mountain. Hazy spiritual essence was released from it.

"Heaven Swallowing Sparrow's nest?" Shi Hao was shocked.

Even though many years had passed, he still didn't forget that vicious bird, the impression too deep. This was its aura.

However, the Heaven Swallowing Sparrow had already died, so the significance of coming here wasn't great. Shi Hao turned around to give the Zhuyan a look.

The Zhuyan shook its head, saying, "You should know that back then, the mountain treasure was obtained by me, but because I was seriously injured, my true self was hidden in the mire, and as a result, the mountain treasure was ultimately lost."

The Zhuyan lost its memories back then, forgetting too much, only in recent years did it recover. It highly suspected that the Heaven Swallowing Sparrow obtained the treasure in the end, because it had visited the mire later on, discovering the Heaven Swallowing Sparrow's ruined feathers there.

Of course, it wasn't a hundred percent sure that it was this vicious bird who obtained the mountain treasure, after all, they had fought intensely. For a vicious feather to be stuck in its body, then brought to that hiding place, was completely normal.

"The Heaven Swallowing Sparrow no longer exist, but I noticed that an extremely powerful individual had visited this place before." Hairy Ball led Shi Hao into the nest.

This place was extremely quiet, spiritual energy hazy, created from golden silk grass. There were praying mats here, as well as some vessels, a quiet land of cultivation.

"My clan's Seventy-Two Transformations Technique is especially famous, but we have another divine ability that can restore something to its original condition, search a place's recent scenes." The Zhuyan said.

It displayed it here. In the end, a faint figure appeared in the Heaven Swallowing Sparrow's nest, an elder with creased skin, hair snow-white, indistinct, but he really was here.

Someone had visited the Heaven Swallowing Sparrow's nest, his cultivation rather strong.

"My skills are not enough, unable to confirm who this person was." The Zhuyan sighed. However, this was the most important clue he found.

When Shi Hao heard this, he was a bit shocked. It seemed like there were still some powerful individuals who survived the past's eight regions' great chaos, deities that weren't weak left in this world.

"You should give it a try." The Zhuyan passed that ancient method to Shi Hao, having him display it here.

Honglong!

Wind and lightning swept about. When Shi Hao displayed it, ghost figures appeared everywhere, even some irrelevant void figures appearing, making this place appear sinister and overcast.

The Zhuyan was shocked. He discovered that right now, Shi Hao's cultivation was shooting straight up, going from true deity to heavenly deity, and then quickly shooting up.

"Just how deep is your cultivation?" It asked. This was also what the outside world wanted to know. Many suspected that he was in the True Deity Realm, possibly reaching the boundary of heavenly deity level.

Now, it seemed like everyone was underestimating him. He was far greater than that level.

"Self release." Shi Hao replied.

The Zhuyan was stupefied, feeling indescribably shaken.

In the end, it revealed a strange expression. That little brat already reached this level? It truly was absolutely terrifying. Forget about the lower realm, even when the heavens were scoured, just how many creatures had this type of growth rate?

"You've already broken the legends, forged an unmatched path." The Zhuyan sighed. He knew that Shi Hao's future path was not something outsiders could see through, destined to be extraordinary beyond compare. At the same time, it would also be full of difficulties, this type of individual would never experience peace.

"Yi, it became clear. This is also a demonic bird?" The Zhuyan was shocked.

Shi Hao also revealed a look of surprise. That elder became more and more clear, white hair sparse, incredibly aged. In the end, it turned into a swan!

The past was recreated, the former scenes restored, moreover revealing his original body.

"Impossible!" Hairy Ball's expression changed.

"Who is it? You recognize it?" Shi Hao was shocked.

"This is Swan Saint!" Hairy Ball replied. ~~nOVe-L&-In~~

Shi Hao was stunned, and then remembered. Wasn't this the Heaven Swallowing Sparrow's master?

There were rumors that the Heaven Swallowing Sparrow received the Swan Saint's guidance, which was why its cultivation gradually became great. However, during the Swan Saint's later years, it instead devoured that swan.

It could be said that the Heaven Swallowing Sparrow's reputation in Desolate Region was extremely notorious. Many people hated it, calling it a despicable being lacking moral conduct, but it was extremely strong, no one able to deal with it.

"Interesting, a dead person actually appeared here, bringing away the mountain treasure." Shi Hao saw that this person had a rectangular shaped bone piece that was spotlessly white like jade.

The Zhuyan insisted that this was what it had obtained back then, only to lose it immediately after.

"This individual's cultivation isn't weak." Shi Hao said.

"This old fella really is sinister and frightening. They all said that it was devoured by the Heaven Swallowing Sparrow in its later years, yet it was still alive." The Zhuyan sucked in a cold breath of air.

However, now, a Self Release Realm Shi Hao returned, so it wasn't all that worried either.

"We are going to search for the Swan Saint's past cultivation spots, his place of death, where he liked to go. After collecting all types of information, I refuse to believe that he can't be found." Shi Hao said.

"I agree. I didn't expect us to make such a great discovery. We are going to see the mountain treasure soon!" Hairy Ball said.

Chapter 1774 - Dominating the Lower Realms

Stone Country was now flourishing with prosperity. Now that the power of a country was used to investigate Swan Saint, it naturally became much easier. Of course, this matter was still carried out with utmost secrecy, or else it would be bad if they ended up scaring away the snake from beating the grass.

Swan Saint was still alive, this was outside Shi Hao's predictions.

Comparatively speaking, an existence who was treated reverently by the people of the great wilderness was definitely not a trifling matter. If it really was eaten by its disciple, then it was a bit absurd.

"Master, the realm gate is rather lively, many people coming. There are some who mentioned your name, are you going to pay them a visit?" The crimson dragon came.

Void God Realm's gates were sealed.

Bird Grandpa and Coin Elder didn't want to experience another great headache, directly closing the great gate, locking everyone outside to keep the peace.

Shi Hao thought for a bit and said, "Head over there and tell them that Huang has already been crippled, cannot enter Void God Realm, so he has no way of seeing his old friends."

When the crimson dragon heard this, he opened his mouth, expression extremely strange. This cheap master of his was lying through his teeth, clearly no good! Tricking the other side like this, was this to cheat them later?

"Aren't you just fine? Moreover, if they really enter the Void God Realm, wouldn't everything be clear?" Ge Gu muttered.

"Stop speaking nonsense, just go if I tell you to go. It's not like they can come in here anyway." Shi Hao scolded.

In the end, the crimson dragon brought these news to the realm gate, speaking through the stone gates, informing those of the higher realms that Huang was crippled, that he couldn't enter the spiritual world anymore.

"Impossible? How could Huang be crippled?!" There were some who didn't believe this, loudly crying out, surging with emotions.

These were people who shared goodwill with Shi Hao, hoping that he could create a miracle, that he could reappear in this world one day. They couldn't accept this result.

"My brother, how could he be crippled? Damned Immortal Breaking Curse, he should be able to make it through!" Cao Yusheng released a low roar, while the Heavenly Horned Ant was also furious, pounding the realm gate.

Shi Hao's old friends were all sighing. There was nothing worse than this. Shi Hao did end up suffering in the end, crippled just like that.

"Heh, hahaha..." There were some other people who laughed, including those from the higher realm's Jin Family, Wang Family, and others. There were naturally sect masters from the three thousand provinces like Heavenly Country, Underworld Earth, and others included among these.

“What are you all laughing at? Be careful or else this old on is going to slaughter you all!” The little Heavenly Horned Ant glared out, incredibly cold, looking towards those people.

“Youngster, do not act rashly. We were just thinking about some other things.” Someone said.

“Don’t do anything.” Cao Yusheng said quietly.

It was because Immortal Domain’s emissary was here, some people at his side. They were all quiet, their faces sunken. These were all definitely great experts.

When Immortal Domain’s three up-and-coming youngsters entered Void God Realm, they disappeared just like that, leaving them all rather upset, their minds cold. They came from Immortal Domain, yet they were obstructed by this trifling lower realm, leaving them full of dissatisfaction.

However, towards the three of them moving on their own, leaving the emissary’s troops and rashly entering Void God Realm, this also left them with a set amount of complaints.

Only, they all came from Immortal Domain, so no matter what kind of mistakes those three youngsters made, in the emissary’s eyes, it was their responsibility to punish them.

“Void God Realm’s administrator, please come out to meet us.” At this time, the emissary spoke. His status was different from everyone else here.

However, when faced with Bird Grandpa and Coin Elder, he was still at his wits’ end, because these two elders didn’t pay him any attention. They curled their lips, talking to each other.

“That person can command us?”

“He cannot.”

“Then just have him get lost.”

“Dragon brat, go and tell them that Void God Realm isn’t a place they can enter, that they should just beat it!”

The crimson dragon was speechless. First, it was towards that uncomfortable greeting, dragon brat, the other was these two old things’ way of doing things. It was too crude, why was it even worse than his master?

“Just say it directly like that?” Ge Gu asked.

“Correct, just that directly.”

The crimson dragon braced itself. It arrived before the realm gate, and then struck it, saying, “Stop being noisy! The realm lord, cough, Void God Realm’s administrator told me to tell you all to all beat it, to not be so unsightly here!”

Everyone outside was speechless.

Void God Realm was this demonic? To directly have everyone beat it, including Immortal Domain’s emissary, everyone became a bit dizzy, a bit in disbelief.

“Brazen, do you know who you are speaking to? Everything under the heavens is ruled by Immortal Domain, do you all dare disobey?” Someone shouted.

The emissary’s eyes were extremely cold. This really wasn’t giving him any face, driving them off just like that. This was the first time he encountered something like this after entering the Nine Heavens Ten Earths.

“Elders, how else should I curse at them?” The crimson dragon came over to ask for guidance, not even saying how to respond, directly asking how to berate them, he really was quite the prodigy.

“This kid might be worth teaching!” Bird Grandpa praised.

“Worth teaching?” The crimson dragon silently cursed in discontent. When meeting these two old things, even the most normal people would consider things with thoughts that were not ordinary. If he wasn’t going over to berate them, then was he supposed to talk reason?

“Go, tell that old thing to consult a bit with Immortal Domain first before coming back, otherwise, he shouldn’t come here looking to bring disaster onto himself.” Coin Elder said calmly.

The crimson dragon Ge Gu was extremely cooperative, walking over, directly mocking the other side, making everyone outside look at each other in dismay.

“The old man already said for you all to drag your butts back to Immortal Domain and consult your superiors. Do you guys not have eyes? Look at what kind of place you are at, if you dare grumble anymore, all of you will be struck to death!”

When they heard these words, Bird Grandpa and Coin Elder both grinded their teeth, both of them feeling like this brat was definitely not some fuel-efficient lamp.

“Did he get led astray by that Shi Hao brat?”

“This is the True Dragon bloodline, do you think they are of the kind sort? They are a race who rose up after trampling on the bones of countless corpses, definitely no good.”

The two elders mocked the crimson dragon’s bloodline.

Ge Gu grinded his teeth, but there was nothing he could do.

The outside world erupted. Immortal Domain’s people could not restrain their anger, bombarding the realm gate with attacks.

Even Immortal Domain’s emissary was stunned. He recalled some matters he heard from a living fossil figure, that there were some areas in the Nine Heavens Ten Earths that couldn’t be randomly barged into. Could it be that apart from restricted regions, there were strange things here as well?

“I only wish to know, Shi Hao... did he truly become a mortal?” A woman spoke quietly, her voice sounding.

“Who are you? Yue Chan, Qing Yi, witch, or Yao Yue? Or maybe Wang Xi?” Ge Gu’s gossipy side was burning.

It was because he had stayed in Stone Village, hearing about the things Shi Hao told the villagers regarding the higher realms, remembering these names.

There were some women outside the realm gate whose expressions were unchanged. However, when their eyes swept past the gate, they really wanted to just smash that realm gate straight open.

“Huang isn’t actually truly crippled, right?” Someone asked.

“What are you even saying? Even though my master’s cultivation has been lost, he’s still not someone who you all can mock.” The crimson dragon said.

“He hasn’t been crippled!” Someone else said.

“How laughable, even now, he wants a miracle? My Immortal Palace’s supreme being dares to personally vouch that he can never enter the world of cultivation again!” Immortal Palace’s people also came.

The realm gate couldn’t stay calm for many days, those people not leaving.

Meanwhile, while there was such chaos here, Shi Hao moved, personally following those clues, investigating the whereabouts of Swan Saint. He used the secret method to recreate past scenes, investigate its whereabouts.

Eventually, he finally made a breakthrough in his investigation, confirming that Swan Saint was still alive. He cultivated a type of secret technique, now hiding in Flood Region.

“Let’s go, let’s see just what exactly is that mountain treasure!” Shi Hao and the Zhuyan headed on their way.

However, that day, the crimson dragon came back, bringing him a piece of information.

“Bird Grandpa and Coin Elder were pestered beyond what they could endure, in the end they opened the realm gate, letting those people in!” n))0vε1b1n

Shi Hao was shocked. Those two elders were bringing him trouble again. He didn’t plan to confront those people, instead wanted to stay obediently in the lower realms, not wishing to be schemed against by others.

Now was his secluded training phase. Before his strength reached a certain level, he didn’t want to appear.

“Those people might incur a great disaster now that they entered the Void God Realm. I have to take a look and see just what those two old farts are up to!” Shi Hao said.

“They didn’t act randomly, all of them trapped within a mist-shrouded place. Right now, the two elders are experiencing quite the headache. It is rumored that not even the two of them could completely control that region.” The crimson dragon said.

This left Shi Hao shocked. Sure enough, he experienced just how unreliable those two old things were once again.

“Why did they do this?” Shi Hao was discontent.

“They found those people unsightly, so they wanted to use you to tidy them up. The two elders said that place is a rare place of self sharpening for you, it can help you break into the Supreme Being Realm.” The crimson dragon said.

Shi Hao stared blankly for a moment. He didn’t utter another word, heading straight for Void God Realm.

Chapter 1775 - Level Exceeding the Limit

Supreme being!

These two words shook Shi Hao greatly. His heartstrings became taut. He had always wanted to break into this level, but he knew that his current cultivation speed was already extremely heaven-defying. There was no way he could reach supreme being level that quickly.

He still needed more self sharpening. After all, he was only twenty something years old, yet he already reached the Self Release Realm. This completely shattered the legends, could be considered world-shocking, already a miracle!

If he wanted more than this, then that was unrealistic.

However, as long as there was hope, then he wanted to try, willing to give it a go. He wanted to rise up in the shortest amount of time possible.

Time didn’t wait for him, he had to seize the moment and break through.

Perhaps Immortal Domain had young supreme beings, but in these lower realms, in this barren land, reaching the supreme level really was too difficult.

From the past until now, the number of supreme beings in the Nine Heavens Ten Earths were always counted!

“Master, you really want to become a supreme being? Just how old are you? I heard that the youngest supreme being was still much older than you. Wasn’t there that saying? Claiming seniority and serving as ancestors, this is the domain of old fellas.” The crimson dragon said.

“Did you spend too much time with those old good-for-nothings? Why did you suddenly become so chatty?” Shi Hao’s words immediately made him swallow his following words right back down.

Void God Realm became quiet. The people of this realm didn’t know that the powerful creatures of the higher realms already came down into the lower realms.

The crimson dragon led the way, quickly heading towards the destination.

“Yi, this place is a bit interesting.” Shi Hao was extremely shocked.

This region was too unique. When one walked in the marsh, heaven and earth became dusky, mists surging everywhere.

Waves of rotting smell wafted out from his mouth and nose. This was the Void God Realm, but in terms of sensory perception, there wasn’t any difference from the real world. This swamp gave one a vile and nasty type of feeling. The scenes one saw here made one want to retch.

It was because this place was too special. In that swamp, there were pools one after another. Upon closer inspection, it was all scarlet red, the color of blood.

Inside the swamp were rotting bones, arms carrying wisps of blood, and other things.

Pu chi!

When the crimson dragon's foot stepped down, several eyeballs appeared from within the marsh, carrying a rotting stench. The foul odor was overpowering. n.)0V£lbn

"Come on, your cultivation already reached this level, yet you can't even walk properly?" Shi Hao scolded.

Towards this disciple, he really hadn't ever been that nice, criticizing him whenever he felt like it. Of course, occasionally, he would still add hints of thoughtfulness among the criticism.

"This place restricts our cultivation realm, I can't use any movement technique, so of course my foot would sink when walking here." The crimson dragon felt wronged.

However, when he turned around, he was immediately stupefied. Shi Hao's body was light and free. When he stepped on the mud, his body was untainted by even a speck of dirt, pure white and clean, lacking the slightest trace of filth.

"How is he doing this?" He did everything he could, yet he failed. He was already certain that the spatial restrictions controlled all magical dao, all creatures becoming like ordinary people here. Once one ended up here, they would lose their dao skills.

However, what he saw now dealt him quite the mental blow. This cheap master of his was completely fine.

"You... how did you do this?" The crimson dragon couldn't figure it out. However, he also saw that Shi Hao could most likely only go this far, unable to move through the air.

Chi!

The bottom of Shi Hao's feet were shining, three streaks of divine radiance shooting out, bringing his body three inches above the ground. None of the rotting flesh and bones made contact with his feet, leaving the crimson dragon shocked.

"This is a rare place of self improvement, yet you aren't cherishing it. If you could reach an inch above the ground, then it would be enough for you to wreak havoc among your peers." Shi Hao said.

He spoke this seriously, because he truly saw that this place was extraordinary. Only by operating one's cultivation at full force could one reach this step.

In this place, one could only remain unaffected if one operated magical force going all out. A formless barrier crushed down from all directions, as if there was a millstone weighing down on his body, refining his body and spirit.

Chi chi chi!

Ge Gu saw sword radiance shooting out from the surface of Shi Hao's body. There was sword energy hacking at him, yet he was unaffected.

"This is a land where supreme beings fought. Look around you, the bones were all left behind by the most powerful after they fell. There were some creatures whose primordial spirits fought great battles at the very peak, ultimately leading to this place becoming tattered. This type of environment is the best training field for our generation." Shi Hao instructed his own disciple.

Even though the crimson dragon wanted to speak back, he immediately became quiet. In the end, he operated magical force, starting to withstand this pressure.

Finally, he managed to get half an inch above the ground. When he approached one inch, sweat already covered his forehead, extremely strained.

"Do you see the difference? You and I are two levels apart." Shi Hao didn't mince his words at all, moreover having a type of complacent look on his face, full of narcissism.

This type of stance was completely not like that of a master's, no matter how he looked at it, it was like showing off. How was he supposed to treat this kind of person as a master? The crimson dragon was so angry his expression was ugly, glaring at him.

In reality, Shi Hao was extremely delicate and pretty. Even though he was only twenty something years of age, ever since his cultivation bore fruit, his appearance hadn't really changed. Apart from growing a bit taller, his face really was like that of a teenager, tender and harmless.

Together with that cockiness, no matter how one looked at him, he was more like a lively and cheerful youngster, lacking the slightest bit of maturity.

"Master, I heard that you can also be considered a great person. In the great battle of Desolate Border, you accomplished all types of great feats. Why is it that before me, you have such a disgusting appearance?" The crimson dragon's words carried sarcasm.

Peng!

As a result, he was directly kicked flying by Shi Hao. "Obediently cultivate. This region reveals the true level of an expert. Do you see what level you are at?"

According to what Shi Hao said, only when the feet leave the decaying land, untainted by the mud, could those barely be considered exceeding the limit, a heaven warping figure.

"Are you praising me or praising yourself?" The crimson dragon rolled his eyes.

It was because he could only reach half an inch above the ground, only coming to an inch if he went all out, while Shi Hao could reach three inches above the ground. Wouldn't this mean that he was at least two levels greater than those who exceeded the limit?

They reached their destination. There was blood energy curling about this place. The swamp was scarlet red, was this mud or bloody paste? It was impossible to distinguish, making one feel more and more uncomfortable.

In this place, the crimson dragon's head was covered in sweat, entire body as if soaked through. He was unwilling to accept this result, continuing to operate magical force, resisting the formless pressure.

However, it really was too exhausting, he found it a bit hard to hold on.

"Good, don't force yourself." Shi Hao patted his shoulder.

Pu!

When the crimson dragon was patted by him like this, his feet immediately sunk into the bloody mud, making him so angry he glared out. However, there was nothing he could do, this heartless master of his completely ignored him.

Soon afterwards, Shi Hao revealed a strange expression. He saw a few old friends within the mist ahead. They were scattered throughout, searching like they were blind.

"They are looking for a path. The two elders said that they would lose their way once they went inside. Master, do you dare enter?" The crimson dragon urged with malicious intentions, carrying a bit of a provocative feeling.

Sou!

Immediately afterwards, Ge Gu understood what was known as setting yourself up, as well as just how heartless his master was. Shi Hao lifted him up by the neck and directly threw him in.

Putong!

Aiyou!

The crimson dragon's body smashed into the bloody mist, smashing into someone, both of them crying out.

"Little bastard, where did you come from? Did your family not teach you how to walk properly?!" This was a middle-aged man with a fiery temper. He brandished his palm, about to send it smacking over.

In the end, the crimson dragon was even more angered than him. With a roar, he attacked later but arrived first, grabbing that arm. With a kacha noise, that arm bone was broken.

He was thrown in like a sack by that cheap master, making bloody mud splash everywhere. The crimson dragon felt a wave of anger, his mood naturally becoming terrible.

Dong!

In the end, he smacked this guy into the ground, and then gave him a few stomps, only then did he vent some resentment.

Not far out, outside the mist, Shi Hao watched with great interest. His eyes were burning brilliantly, because he saw that those were all 'old friends'. The one the crimson dragon beat up was a great elder from one of the three thousand provinces' great sects, but he was still beaten up.

"Did Immortal Palace's people come? If I see them, I'm going to stew all of you alive!" Shi Hao said hatefully, looking around for those people.

Soon afterwards, he saw someone familiar. Should he call her Yue Chan or Qing Yi? Her white clothes were purer than snow, currently searching about in confusion.

All those who entered would lose their way, unable to find the path back.

“Pretty girl, you are about to be robbed!” Shi Hao’s mood was great. He stood at the edge of the misty region, shouting towards that beautiful figure.

“Who?”

Calling her Qing Yi was fine, calling her Yue Chan was also doable. Now, the two had begun to merge together, extremely shocked and on guard, searching for that frivolous enemy in the mist.

“You don’t even seem to have much on you, no magical treasures or rare items, is there only your appearance that’s worth something? Then I guess this is what I’ll steal.” Shi Hao laughed continuously, reaching out a hand, grabbing inside.

Chapter 1776 - Old Friends Reunite

“En?” Shi Hao’s arm only reached out a zhang in length. It had to be said that the suppression of cultivation here was severe. Even someone as strong as him, exceeding the limit, could only achieve this much.

However, despite this being the case, it was still astonishing enough. If other cultivators saw this, they would definitely reveal a look of shock.

It was because the others were all suppressed to the level of mortals, only he could still display secret methods like this. It was basically the same as being high up above, having the backing to look down on everyone.

“Where did you come from, evil being?” Yue Chan backed up. The hem of her dress was now red, stained by the bloody mud.

Regardless of how strong one was, after staying here for a long time, there was no way their feet wouldn’t touch the ground. They had to walk on the bloody mud, unable to withstand the exhaustion.

A bit of air passed by her nose from this movement, making her tall and slender body go taut. Her snow-white arms reached out, doing everything she could to produce a Heaven Mending Imprint, but it was too difficult!

“We are so close to each other, yet she still hasn’t heard my voice. It seems like this mist really is a bit strange.” Shi Hao said to himself.

He was contemplating whether or not to go inside. Even though he could defeat anyone, he was scared of becoming blind as well, groping around without being able to find the way out.

If that happened, then it really wouldn’t be any laughing matter. Those two elders might just watch from the side, enjoying his suffering.

“Bird Grandpa, Coin Elder, where are you two? Hurry up and show yourselves!” Shi Hao called out, however, in the end, no one responded to him.

He frowned. After thinking for a bit, he directly entered that marsh. He was a vicious tiger here, most of these from the higher realms were like sheep before him. What did he have to be scared of?

If he really encountered the other side, then he definitely had to find Heavenly Country's lord and Immortal Palace's creatures, properly deal with them one by one!

Of course, he could also rescue some people first, his first target being Yue Chan. With a sou noise, he rushed over. In that instant, heaven and earth changed, the wind and clouds changing, roiling thunder deafening.

He was clearly close, yet now that he entered, she now seemed far away, as if there was a great distance separating them.

This was an illusion! Shi Hao felt that he had to abandon his five senses, advance with his heart. As such, his speed didn't change, landing on the ground, believing that his previous judgment wasn't wrong.

It was as if he instantly crossed hundreds of li. With a peng noise, Shi Hao landed on the ground, bloody water flying everywhere. However, his body was unaffected. A faint layer of golden light rushed out, protecting the surface of his body.

If someone from the ancient monk bloodline was here, they would definitely be greatly alarmed. This was the the Unbreakable Golden Body, the level moreover so high, harmonizing with all methods. Once a certain level was reached, there would be similarities between all types of methods and dao. The instant his feet landed, the sounds of wind and lightning disappeared. The electrical radiance disappeared, only mist left, as well as a hazy figure nearby.

"Who are you?" Yue Chan backed up, facing this person seriously.

Shi Hao rubbed his face. He immediately widened his mouth and bared his fangs, only someone like him could still use some secret methods, change his appearance.

"This master is a great vicious being of Desolate Region, lacking some women. You have been chosen!" After speaking, he immediately went up to her to carry her.

Yue Chan really was about to faint, wishing to smack him. Who was this individual? He really was shameless, saying that he wanted to kidnap wives was already hateful enough, yet he said he needed more than one, that she was just one of them. This was completely intolerable!

Peng!

However, the instant they exchanged attacks, Yue Chan's expression changed. Not even the divine radiance fired from her fingertip could do anything to this person.

Shi Hao was shocked. After Yue Chan and Qing Yi merged together, they became much stronger than before after all, already on a completely different level.

However, a moment later, after several exchanges, Qing Yi[1] was still stopped by Shi Hao, not his match. This made her expression change. When she saw that this really was a vicious spirit, her beautiful face fell.

"Heheh, I've subdued the girl, let's go." Shi Hao picked her up and left.

Everything before Yue Chan's eyes went dark. After running into the lower realms, she suddenly encountered a great vicious being, and was then directly brought away like this? Her divine skills were just starting to show results, yet now, she suffered such a great mental blow.

The hardest thing for her to accept was that she was going to be a kidnapped wife, it truly was infuriating!

"Something's not right, you are... Shi Hao!" Suddenly, she trembled, releasing this cry. When she was picked up and carried on his shoulder, she seemed to have realized something.

"You bastard!" She began to hit him, now realizing what happened. Just now, she had lost her cool because of flusteredness, but now that she became cool-headed, she believed that only Shi Hao had this type of terrifying strength in the lower realms, had an absolutely advantage in suppressing everyone.

"Know your place! This great one is known as a ruthless flower breaking demon king!" Shi Hao threatened.

"Ruthless my ass, you dare fool me? Aren't you lacking a beating?" Qing Yi struggled, pulling at his ear.

Pa!

As a result, her round and perky bottom was given a smack, loud and clear, that place becoming a bit numb.

Yue Chan's sparkling white face immediately looked like it was flushed with blood, becoming scarlet red like a sunset sky!

"The one surnamed Shi, I am going to fight you to the death!" She was completely humiliated, baring her teeth and making threatening gestures, struggling on Shi Hao's shoulder. This was just too shameful! She was actually struck by this rascal.

Right now, she felt conflicting emotions. When the two begun to merge together, the emotions that belonged to Qing Yi were close to Shi Hao, but the emotions that were Yue Chan's were causing her to gnash her teeth in anger.

"Hehe, we're already husband and wife, don't make so much noise." Shi Hao carried her like that, smacking her thighs, continuing to move forward.

"The one surnamed Shi, let go, or else I'm really going to stake it all against you!"

Shi Hao transmitted sound towards the sky. "Bird Grandpa, Coin Elder, you shouldn't go too far. I want to bring someone out."

In the end, there was still no one who replied.

"Let me down!" Yue Chan struggled.

Shi Hao laughed, lowering her.

Yue Chan's expression was complicated, looking at him again and again. "Your cultivation hadn't become crippled yet. Does this mean that Yi Hai really was beaten down by you?"

"I'm going to become crippled soon, I have less than half a month of time left. My life was rather tough, but I still can't defy the heavens... it is just that I was able to delay the flaring out of the Immortal Breaking Curse for a few weeks." Shi Hao said with a sigh.

Yue Chan became silent, and then asked, "Really?"

"Yi? Aren't those Underworld Earth's cultivators? Let's go take a look." Shi Hao said. There was a skeleton in front of him, entirely golden, moving through the mist.

"Hey! You, the skeleton over there, you need to pay me tax to pass through this place!" He shouted out, scaring that skeleton into quickly backing up.

"Who are you?" It was clear that this golden skeleton's eyes were treacherous, carrying a cruel and cold color. In this place, there was actually no one who could immediately recognize Shi Hao in his current vicious looking form.

"This one is one of the lower realms' great vicious beings you all spoke of. Just hand over your lives!" Shi Hao took action decisively. Towards Underworld Earth and Heavenly Country's people, he definitely wouldn't show weakness.

In the past, these two sects had continuously acted against him, and not long ago, when the ruined immortal went to cripple him, these two sects even more so gave that immortal support, standing at the very front.

Hong!

After just a single fist, the golden skeleton was struck by him, turning into specks of light.

"Hey, who has Soul Shattering Needles on them? Lend me one." Shi Hao shouted, moreover looking towards Yue Chan.

"Something's not right. The rain of light merged into the bloody mud, not escaping." Yue Chan was shocked. She stared at that rain of light.

Normally speaking, when a cultivator was suppressed or captured in the Void God Realm, once he died, his primordial spirit light could escape, leave this spiritual country, return to the flesh.

Now, Shi Hao and Qing Yi clearly saw that this rain of light was absorbed by the blood-colored swamp.

Only at this moment did Shi Hao realize how dangerous this place was. If they died here, then that meant their lives would come to an end.

He cursed inwardly. Bird Grandpa and Coin Elder really stirred things up big this time.

"Where is Fatty Cao?!"

Shi Hao's spiritual awareness was extremely sharp here, stronger than others'. He immediately noticed Cao Yusheng, bringing Qing Yi with him, rushing over.

He was like a ghost, moving like a streak of lightning, silently arriving in the blink of an eye.

Peng! Shi Hao patted Cao Yusheng's shoulder, immediately making the fatty cry out, half his body planting into the mud, truly given a scare.

There was actually someone who could rush this close, this easily and directly without triggering his alarm at all? If this person bore malice, taking action against him, wouldn't he be finished?!

"You, you are..." Cao Yusheng's fine hairs stood on end, looking at this vicious creature.

"This great one is a great vicious being in the lower realms! Brat, accept me as your lord and bow down!" Shi Hao introduced himself brazenly. After speaking, he reached out a hand to touch the fatty's head.

"It's... you!" Cao Yusheng's eyes revealed joy. It was because he saw Yue Chan behind him, always following this great vicious being, so he immediately guessed who this was.

"Close your mouth, keep your voice down." Shi Hao said.

"Hahaha..." Cao Yusheng laughed loudly, extremely happy. "Immortal Palace's people vowed that you were already crippled, laughing at all of us. Now, there is a living Huang standing here, what kind of expression will they have when they see this?"

"Wu, Immortal Palace's people have come? Where are they? I miss them so much." Shi Hao said.

When he heard this, Cao Yusheng bared his teeth, revealing a mouthful of snow-white teeth, laughing loudly. This was definitely Huang's style!

"I even saw them just now, but I avoided them, not provoking those people." Cao Yusheng pointed in a direction.

"There are quite a few?" Shi Hao asked.

"Yes, there are some experts who walked together with Immortal Palace's creatures." Cao Yusheng nodded.

"Then that's even easier to deal with, saves me the time of seeking them out one by one. Let's go and pay them a visit. How should we roast these sect masters?" Shi Hao gestured with his hand, full of boldness.

Qing Yi and Cao Yusheng looked at each other in dismay. Should they really be this savage?!

1. Qing Yi and Yue Chan have already merged together

Chapter 1777 - Bitter Experience

Barbecuing sect masters? Just how savage did one have to be to say this? If it was anyone else who said this, Yue Chan would definitely ignore them, but if it was Huang who said this, her mind really would jump, not feel much doubt. It was because this fella could definitely do it.

"Heheh, haha..." Cao Yusheng rubbed his hands. That vulgar, impatient, excited appearance was as disgraceful as disgraceful could be.

He couldn't wait, really wanted to immediately see Huang take action, watch this grand occasion play out.

Yue Chan didn't share this opinion, rolling her eyes. When she looked at these two, she had nothing to say.

"Let's go, lead the way! We're going to have a picnic!" Shi Hao gestured with his hand, having Fatty Cao lead the way. A great slaughter was going to unfold, a great feast about to be prepared.

"Um, this is Void God Realm, can we even eat anything?" Fatty Cao carried doubt inside. This was not the real world. Even though the experiences felt real, the degree of similarity astonishing, he still didn't completely lose his head.

"Relax, it'll taste exactly the same. We can eat, and it'll be extremely delicious." Shi Hao patted his shoulder.

The moment Fatty Cao heard this, he immediately trembled. He knew that this guy definitely dared do this type of thing, moreover not just once, being a repeated offender.

He immediately laughed, his chubby face puffing out, his eyes even narrowing, releasing bits of radiance. He became extremely excited.

In terms of his intrinsic quality, he was a scoundrel who wanted to see the world in disaster. Now that Huang appeared again, he naturally wanted to stir up some chaos with this powerful old friend.

Yue Chan became speechless, just feeling like these two scoundrels were like villains colluding, clearly not of the good sort.

"Let's go, let's go, let's go!" Cao Yusheng led the way, quickly approaching the marsh. Even though he couldn't find the way out, within a set range, he still didn't completely become lost.

After all, the higher realms' people were all in this region, not completely dispersing.

"Hey! Brother, over here!" Along the way, they saw the Heavenly Horned Ant complaining.

Shi Hao laughed. After being separated for a few weeks, meeting again left him feeling extremely happy.

However, soon afterwards, he couldn't laugh anymore. The Heavenly Horned Ant's next sentence made him so angry his nose almost became crooked.

"Who is this ugly thing? Why are you two walking with him? He really is too low class to be with you two." The golden Heavenly Horned Ant criticized left and right, because not long ago, he had a falling out with Immortal Domain's people, leaving him in a bad mood. They almost fought to the death, forced to swallow his anger. Now that he saw the vicious looking Shi Hao, he directly spoke out in mockery.

Peng!

Shi Hao didn't utter another word, immediately sending a fist over, two fists meeting.

"Why are you this strong?!" The Heavenly Horned Ant was shocked. Currently, he was already in human form, becoming a blond young man. He shook his arm, clenching his teeth.

The Heavenly Horned Ant bloodline was known as the ones with the greatest strength, strength unparalleled compared to other races, their flesh powerful beyond compare!

"You are... Huang!" Soon afterwards, he awakened. This type of strength in the lower realms, moreover accompanied by Cao Yusheng and Yue Chan, he immediately realized who this was.

It was because ever since he made some achievements in the dao, those who dared compete with him in strength weren't many. It was too obvious who the one before him was.

After knowing that it was Shi Hao, the Heavenly Horned Ant trembled. After learning what they were planning to do, this fella was even more fiery-tempered, more savage than Shi Hao, boldly suggesting to roast away Immortal Domain's people too.

"Oh, right. Just now, I saw a dragon, I think it was a pure-blooded crimson dragon. Unfortunately, it disappeared too quickly, I couldn't catch it." The Heavenly Horned Ant said, suggesting that they eat it too.

His bloodline always competed with the True Dragons, fighting for the position of number one clan, extremely intense, which was why there was a type of innate sensitivity towards each others' auras.

"Don't eat him, that's my disciple." Shi Hao said.

This made those people look at each other in dismay, all of them shocked. Just how long were they separated for? Yet this fella already took in a True Dragon as his disciple! That place really wasn't simple, the lower realms too sinister.

Bloody mist wafted about, surging in the swamp. This region was too strange, scarlet red color everywhere.

There were some ancient trees in the depths of the swamp as well, but they were rare, a great distance between each one of them. Only, they were extremely large and tall like a mountain.

The scene was terrifying, some corpses hanging from them. They had already passed away for who knew how many tens of thousands of years.

"What kind of place is this?" Some people from the higher realm gathered together, currently discussing how they were going to proceed.

"For a spiritual world to have this type of bloody place, it really is quite bizarre." The vice sect master of Heavenly Country said.

He was exceptionally sensitive to this type of bloodiness, after all, he was the vice lord of an assassin organization. He lived in the darkness, accompanied by blood and bones.

"This is a battlefield for supreme beings. There were exceptional individuals who carried out a great spiritual battle here, some buried here, the number not even small." A creature from Immortal Palace said.

This was the number two figure from Immortal Palace. This sect had an old supreme being who had lived for endless years, while if we went one ranking lower, then this person was the strongest.

"This place even has immortal dao awareness, true immortals passing away, undying beings' spiritual consciousness remains!" Another person said.

...

Shi Hao and the others arrived, seeing these people from the distance.

Along the way, they ran into Princess Yao Yue, Chang Gongyan and some others, as well as the crimson dragon Ge Gu, all of them getting together.

"Are there still others in the lower realms?" After Shi Hao asked this, he began to mutter to himself, "You two old things, do you hear me? There are a few others' appearances who I will help describe for you, help me take care of them."

He really was scared that this marsh would be too strange, forcing those he was close to into dangerous situations. He wanted to ask Bird Grandpa and Coin Elder to be more magnanimous, lend a helping hand.

"Wait here, it's fine as long as I head over." Shi Hao had all of them stop, hide in the distance. Otherwise, if they headed over directly, his identity would immediately be exposed.

He wasn't willing to head into the higher realm yet, still wishing to lay low, not wishing to disturb the peace after today.

As he continued, he heard those people's conversation.

"The lower realm really is strange, having some peculiarities. How are we going to leave this place?"

"It truly is a pity. Not only were we unable to confirm whether that great vicious being is Huang, we encountered trouble ourselves."

"Heh, there's no need to even think about it. Huang has been crippled without a doubt, there are no exceptions. I just don't understand exactly who it was that took action too well. Don't tell me there really is a True Dragon descendant?" Immortal Palace's individual revealed an expression of disdain, not believing that Shi Hao could remain unharmed.

Shi Hao was completely silent, walking over just like that.

"Yi, who are you?" Someone spoke out in alarm.

"I am someone who has faced Huang. Now that I hear you all mention his name, I came to take a look." Shi Hao said.

"Oh? You've fought with Huang, his opponent, yet you are still alive? Not simple. When did you face him? How is he now?" One of them spoke out in interest, asking like this.

"Faced him more than ten years ago, it has been a long time since I met him again." Shi Hao replied.

"Haha... I just knew that Huang is definitely crippled. What heaven warping talent? How could he resist the methods of a true immortal? This is the result of offending my Immortal Palace, he deserved to be crippled!" Next to Immortal Palace's number two figure was a servant. He immediately roared with laughter. n.)O)/v/-e-.l(-b-/1.)n

In the recent few days, there were always people wondering if Huang might not be crippled yet, believing that he was still stirring up havoc in the lower realms, moreover suppressing Yi Hai, Xu Hui and others.

Now, when they heard this information, they completely released a breath of relief.

“Old shameless thing, what you smiling for?” Shi Hao shot him a look of disdain.

“What did you say? You dare speak to me like that? Who do you think you are? Back then, you lost to Huang, yet you dare act unbridled before me? Perhaps you don’t know who we are! I’ll tell you right now that we crippled him!” Immortal Palace’s old servant shouted.

“Heheh, we must ask dao friend to come over and chat with us for a bit. We have questions to ask you.” One of them spoke, someone from the Nine Heavens’ Wang Family.

Unfortunately, Wang Family’s Wang Shi wasn’t here.

Hong!

Shi Hao didn’t act politely, directly taking action, a fist smashing outwards. Peng! Immortal Palace’s old servant couldn’t escape at all. He directly exploded, only a head tumbling in the bloody mud, screaming endlessly.

Everyone became stunned, not expecting him to take action immediately after saying he would.

“You dare humiliate me?” Shi Hao wiped his hands, completely calm amidst the chaos, walking forward.

“Who exactly are you?” Heavenly Country’s vice lord shouted.

“I am that so-called great vicious being you all spoke of. Even though I was Huang’s opponent, I don’t have a good impression of you all either. That one named Yi Hai, he was suppressed precisely by me.” Shi Hao said.

When they heard this, they were all horrified.

There really was a mysterious great vicious being in the lower realms?

Chi!

Heavenly Country’s vice lord disappeared. He was the assassin leader, strength profound, wishing to enter the mist, attack when an opportunity appears later.

However, Shi Hao’s speed was faster than his, rushing over with a flash of his body, leaving behind an afterimage. His fist directly smashed out, even the void distorting from his strength.

Everyone sucked in a breath of cold air. One had to understand that no methods or dao could be displayed here, yet this vicious looking creature was actually this strong!

Peng! Heavenly Country’s vice lord was struck, half his body directly exploded, entire body covered in blood, flying outwards and landing in the mud.

Chapter 1778 - Roasting Sect Masters

“Dao friend, you are going too far!” Immortal Palace’s number two said coldly, lofty and calm, not panicking at all, actually looking down on Shi Hao.

“Heheh, just a trifling lower realm prison, yet it actually produced this type of vicious creature. It is nothing more than a barbaric land, this is rather surprising.” The one from the Nine Heavens’ Wang Family said with a sneer.

Those people didn’t feel that much fear, included among them were families from the Nine Heavens, like Jin Family, Wang Family, as well as experts from some of the three thousand provinces’ inheritances.

Shi Hao was startled. They weren’t scared?

“Youngster, do not think that no one under the heavens can deal with you. What is so great about Huang? He didn’t know the height and depth of this world, in the end, wasn’t he still crippled by my sect? You are quite strong, but you should also be a bit more humble, learn how to show respect.” Immortal Palace’s number two figure calmly said, putting on the airs of someone great.

The ones Shi Hao hated the most were Immortal Palace’s people. Now, the other party was even using his own situation as a negative example, lecturing him, it really was a bit laughable.

He directly produced a fist imprint, smashing it over.

En?

However, he quickly backed up again, because right at this time, Immortal Palace’s number two produced a bronze palace to suppress him.

Bronze Immortal Palace, this was an immortal artifact!

Shi Hao naturally wouldn’t face it head-on. He was contemplating whether or not to use the Everlasting Sword Core, but if he did that, his identity would definitely be exposed.

Dong!

The bronze palace descended, the noise oppressive.

Shi Hao was stunned, while Immortal Palace’s number two was even more stupefied. It actually didn’t accomplish anything, unable to subdue the other party.

“Dao friends, hurry and assist me in operating this artifact!” Immortal Palace’s number two shouted.

Everyone quickly rushed over, all of them doing everything they could to support the bronze palace, make it shine.

It was clear that they all knew Immortal Palace’s expert brought in an immortal artifact. This was precisely why they didn’t panic at all, because they had this to rely on. Now, they all began to panic.

Immortal Palace’s number two immediately turned around to rush into the bronze palace. When the others saw this, they all rushed in too. Even if they couldn’t kill the enemy, they could at least protect themselves.

“Everyone, if you have any magical force you can use, do not be stingy! I must ask all of you to use it now!” Immortal Palace’s number two shouted.

It had to be said that if they did everything they could, there were some who could still release some magical force. The bronze palace shone, suppressing in Shi Hao’s direction.

Only, Shi Hao quickly evaded.

He watched with great interest. Then, he stood right in front of the bronze palace, plugging up the entrance, laughing with heheh sounds.

“You all spun a cocoon around yourselves!” He laughed loudly. These people really were unlucky. If they wanted to operate an immortal artifact here, just how great of an exhaustion was this?

They couldn’t do it, they could only just barely activate it.

“From the looks of it, even running for your lives is difficult. Now that you all gathered together, this really makes me feel at ease.” Shi Hao was extremely relaxed.

“Youngster, who do you think you are? This is an immortal artifact, even while inside, it can still ensure our safe escape!” Immortal Palace’s number two said coldly.

Sure enough, the bronze palace shone. He actually had some extraordinary methods. The bronze palace rumbled, actually about to bring them away in escape.

This was the main reason they dared enter Void God Realm and investigate.

Shi Hao was startled. He saw the situation inside the palace. There was a talisman there that was a bit yellow. After being lit, it released essence energy, and then magical force spread, spurring on this artifact.

The bronze palace moved as a result. With a chi sound, it rose into the air.

“Do you guys think that you can just leave now? Previously, I was scared that you all would scatter and run off in different directions, so I didn’t want to expose my identity. Since you all already jumped straight into the pot, cutting off your own paths of escape, then what else do I have to be scared of?” Shi Hao roared with laughter.

He leapt into the air, drawing a weapon, hacking down on the copper palace.

Dang!

The copper palace shook intensely, flying outwards.

The ears of those inside rang with weng weng noises, not knowing what weapon he was using. All of them were shocked.

“I refuse to believe it! This is an immortal artifact! We have so many people activating it, yet he still can’t be suppressed and killed?” Inside the bronze palace, a sect master was annoyed.

If it was elsewhere, when they all activated magical force to spur on this artifact, they could subdue god and buddha alike, no one unable to stop them. Their magical force was vigorous and immeasurable.

However, this place restricted everyone's power. There were some who couldn't even display a hint of magical force.

"Even if we can't suppress and kill him, we should still be able to protect ourselves, right? Everyone, hurry and do what you can! If you have any methods, don't hide them anymore!" Heavenly Country's sect master spoke. Even half his body was now ruined.

Chi chi chi!

Several streaks of divine light shot out, all of them from ancient talismans and strange treasures. They could actually be lit here and support the bronze palace, smashing down towards Shi Hao right now.

Unfortunately, it was still suppressed. This place was too special, those different symbols couldn't completely display the power they should have.

Dang!

When Shi Hao dodged, and then caught up to it again, he brandished the sword again, bringing it down on the bronze palace. It was smashed straight into the mud, the bloody mud flying in all directions.

Only now did he walk forward. He carried the Everlasting Sword Core in his hand, standing at the entrance of the bronze palace.

"The roasting of sect masters will begin. What a large pot of food, you all even jumped straight in yourselves!" Shi Hao activated magical force. There was actually fiery light that rushed out from his palm, burning this entire bronze palace.

"You are..." Those people cried out in alarm. It was because now, they saw the weapon in his hands clearly, immediately recognizing that it was the Everlasting Sword Core that belonged to Huang.

"Huang's weapon actually landed in your hands, could it be that you are Huang... you weren't crippled?!" Wang Family's individual was horrified.

"Impossible! A true immortal's methods cannot be withstood! No matter how formidable Huang is, he should still be crippled! Did you seize it from Huang's hands?" Immortal Palace's old servant, even if he only had a head left, still cried out like this, unable to accept this.

Immortal Palace's number two's face was a bit cold. At this time, his expression changed continuously, staring rigidly at Shi Hao. "Who exactly are you?!"

Right now, everyone was looking at the sword core in Shi Hao's hands. They looked like they were looking at a ghost, all of them in disbelief. Was it really that person?

"Huang should have fallen already, his sword core obtained by his old enemy. This person is the lower realms' great vicious being..." Someone said quietly.

"I've disappointed you all." Shi Hao's vicious appearance changed his figure as well. He now revealed his delicate and pretty self, his bright eyes carrying a bright smile as he looked at everyone.

However, in everyone's eyes, this smile was like that of the devil, too terrifying!

With a weng sound, everyone felt a great headache, a bit stupefied. It really was Huang? Why wasn't he crippled? This was too inconceivable!

Not even an immortal personally taking action was enough to cripple him?

Everyone knew that even if an immortal suffered from the Immortal Breaking Curse, they would still nurse a grievance, ultimately fall. Why was Huang unaffected, how did he do this?

These people sensed that things were extremely bad, all of them horrified!

Everyone shivered in fear, especially Immortal Palace's people, their faces even more so turning pale. All of them were frozen in place, as if they had been hacked by lightning. This was a wavering of their own faith!

"You revealed your true appearance just like that? Are you planning to get rid of all of them?" Cao Yusheng appeared. Then, Qing Yi, the crimson dragon and others all followed over as well.

"Of course! It wasn't easy for all of you to enter the lower realms, so we have to have a great celebration right? Roasting these sect masters, the taste shouldn't be bad!" Shi Hao said with a large grin.

"Evil thing, you dare!" Immortal Palace's number two was shocked and furious.

The others suddenly showed a change in expression, becoming utterly furious. Huang was too brazen, actually targeting them like this, wishing to kill everyone in the bronze palace by himself.

"Why wouldn't I dare? I've even killed Emperor Clan individuals from the other side, let alone people like you all!" Shi Hao sneered.

His palm shone, burning the bronze palace, treating these individuals like wild game.

"We're leaving!"

Someone inside the bronze palace shouted. They exerted force together to move the ancient palace, escape like this.

Unfortunately, Shi Hao brandished the sword core, directly smashing the bronze palace back down, the noise deafening.

"We should lend a hand too." Cao Yusheng said.

They definitely had the advantage here. What Void God Realm attached importance to was potential. The crimson dragon, Heavenly Horned Ant, Yue Chan, and the others, which one of them weren't strong?

Divine light overflowed. They also began to refine the bronze palace.

"Break free!" Immortal Palace's number two roared.

Unfortunately, he was powerless to reverse the situation. The bronze palace was suppressed by the sword core in Shi Hao's hand.

“Hurry and have the artifact spirit revive!” Someone shouted. It was because this was an immortal artifact. They refused to believe that Huang could still stop them after the Bronze Immortal Palace’s spirit revived.

Shi Hao faced them seriously. He held the Everlasting Sword Core in hand, but he wasn’t that worried. It was because this weapon became stronger the stronger the enemy it faced, he didn’t fear an immortal artifact.

The world-shocking strike he expected didn’t appear. Immortal Palace’s number two’s face fell ashen. “This is an imitation. The immortal dao natural laws inside can be used twice, but it doesn’t have an artifact spirit, it wouldn’t revive here.”

Everyone felt a headache when they heard this, their hearts going cold.

This was a consumable magical artifact made by a ruined immortal. Even though there were immortal dao patterns inside, after being used up, this artifact would quickly be ruined.

In other places, it was still reasonable, it could display immortal might, but in this place, it was completely useless.

“Haha...” Shi Hao roared with laughter. He activated his dao flame, even more so calling the scarlet dragon over, having it release flames.

“Why does it have to be me?”

“Aren’t you a dragon? Can’t all dragons breathe flames?” n./o()V(-e(-l-(B./l).n

The crimson dragon immediately released a string of curses.

“Ah...”

In the end, miserable sounds were released from within the bronze palace.

With fiery light directly released inside, it made all of them feel both anger and alarm.

Soon afterwards, the fragrance of meat wafted through this place.

Chapter 1779 - Greatest Barbecue Under the Heavens

“It smells so good! I’m already starting to swallow my saliva!” The Heavenly Horned Ant took a sniff, continuously releasing sighs of praise, praising Shi Hao’s culinary skills. When he roasted food, it was always just that authentic.

When the others heard this, they really were about to faint. This ant clearly hung around Shi Hao for too long, thus becoming a habitual offender, already almost ‘specialized’ in these topics.

Only, inside the copper palace, those people were so angry their livers were hurting, stomachs sore. This was absolutely intolerable. Did they end up becoming meat on a plate?

“Younger generation, you are bullying others too far!” A sect master shouted, seething with rage, pointing his finger from within.

"I am bullying you, so what? If you can't accept it, then come over, I will personally roast you with my own two hands!" Shi Hao shot him a look of disdain, not treating his words like a big deal at all.

In Shi Hao's opinion, those who stuck together with Immortal Palace definitely weren't good people, all of them his enemies. In reality, he had also checked, finding out that this was indeed the case.

Not a single one of them were of the good sort. Heavenly Country's vice lord, Demonic Sunflower Garden's creatures, Underworld Earth's skeletons, as well as Jin and Wang Family's people, these were all enemies he had grudges with.

"You are angering us too far!" Smoke was spouting through his seven orifices, really wishing to slap him to death with a single slap. However, he really didn't dare go over by himself.

Right now, who wasn't aware of Huang's strength in the Nine Heavens Ten Earths? He didn't die even after fighting endlessly in Desolate Border, his own strength incomparable in his generation. Apart from supreme beings, no one could control him.

Meanwhile, in this region, with their cultivation levels restricted, if they fought at the same level, even supreme beings might nurse a grievance, fall here.

"It smells so good! Which one of them has been fully roasted?" Cao Yusheng looked inside.

"Evil thing, you all are courting death!" Immortal Palace's number two's eyes were cold. He truly was angered to the extreme. This was too humiliating for them.

Moreover, this result was actually caused by Huang. If it was some other great vicious being in the lower realms, then he would admit that he was unlucky, but it was that Stone Clan youngster they thought was crippled.

In his opinion, this was their prisoner, someone who had been suppressed by their sect's true immortal, should have already been crippled. However now, he actually retaliated! It was intolerable.

"This old thing, still talking back... increase the heat!" Cao Yusheng shouted.

"I'm here, I'm here, don't start without me!" A silver haired little girl ran in this direction from the distance.

Her figure was slender, her shiny silver hair hanging down to her waist, her large eyes were brilliant like rubies. It was precisely the Lunar Jade Rabbit. Even after so many years passed, her appearance didn't really change, still like a porcelain doll.

"I'm the best at roasting! How can this feast of such high level ingredients lack me?" The rabbit cried out, adding to the flame here.

Princess Yao Yue, Exiled Immortal and the others looked at each other in dismay. They all felt like this group weren't normal people, too savage, even a cute little rabbit loving meat like this.

Ah...

Inside the palace, there was someone who couldn't withstand it anymore. It was because the crimson dragon, Shi Hao, and Heavenly Horned Ant really were going at it. Fiery light overflowed, all dao flames, pouring into the palace and covering those people.

This wasn't an illusion. Even in the Void God Realm, there was still a strong meat cooking fragrance.

"Lord have mercy! This old one is going to stake it all against you!" Someone roared out.

Shi Hao immediately replied. His precious figure was dignified, the expression on his face serious. "Lord have mercy! Old thing, you can just come at me!"

"Huang, you dare disrespect the great predecessors?!" That sect master was furious, panicking, cursing out, no longer caring about his appearance. This was completely different from his normal temperament.

"I will just cook you all the same!" Shi Hao only had these words in reply.

"Motherfucking... Huang, I'm going to..." Inside the bronze palace, those sect masters completely lost their dignified appearances, completely furious, all of them anxious, some of them cursing out endlessly.

Qing Yi, Chang Gongyan, Exiled Immortal, Princess Yao Yue and the others were stunned as well, all of them feeling that this was a bit absurd. The normally well-tempered, calm and unflustered, noble sect masters were now even more crude than those in the marketplace, cursing that youngster.

This really was too unexpected!

"Huang, I curse eighteen generation of your ancestors! Are you not scared of retribution?!"

"Stone Clan's bastard, you won't die a proper death! Your son will be born without an anus, this old one won't let you go even after becoming a ghost. I'm going to stake it all against you!"

...

These people's sleeves were all pulled up, all of them furious at Shi Hao. Their expressions were cold, releasing endless curses, all of them furious to the extreme, unable to endure this type of treatment.

Yue Chan was speechless, rubbing her forehead with her hand. Were these still 'virtuous and prestigious' seniors? The normally sincere Chang Gongyan's lips twitched, checking if he didn't hear incorrectly.

These youngsters were all speechless. These old things really were quite vicious with their cursing, they had never seen this side of them before.

Of course, they could also understand why this was happening. Anyone would go insane after running into a scoundrel like Huang. This not only forced one down a path of death, it was even more so a type of mockery and humiliation.

Was there any instance of being cooked like this? These were a group of sect masters!

"You are the bastard, your entire family is made up of bastards..."

The others were watching with enthusiasm, clicking their tongues in wonder, while the Lunar Jade Rabbit went straight into battle, shouting out. Her little face was fine and beautiful, a country toppling beauty, but when she berated others, it was instead extremely fierce.

The group of people really didn't know what to say. She looked so pretty, yet she was so aggressive, this really was a unique example! Even the big mouthed Fatty Cao and Heavenly Horned Ant looked at each other in dismay, conceding in defeat.

"You all..." There was someone who released a low roar, releasing a vicious gust of fist wind, sending it smashing over.

However, this was completely useless. Shi Hao didn't even have to take action. The scarlet dragon's eyes widened, with a sweep of its tail, it was directly sent back, breaking that person's fist.

"Why did you push it back in? He's already just about cooked through, the best time to slow cook. Bring him over so we can cook him in more detail." Shi Hao criticized.

"Fine!" The scarlet dragon lowered his head and endured it, grabbing that arm, and then forcibly seized him over.

"Everyone, don't be too polite. I invite all of you to eat your fill, drink as much as you want. How great is this?" Shi Hao called everyone over. He brought over a giant rock from the distance with unmatched divine force, the rock resembled a small mountain. It was because otherwise, there was a bloody marsh below them, really not convenient for sitting on.

Everyone's bodies shone, trembling. Then, they all became clean and free of dirt. They followed Shi Hao onto the giant rock, sitting down, blocking those sect masters in the bronze palace.

"It really is too humiliating!" A voice sounded from within the bronze palace.

"I won't eat anything human formed." The lunar jade rabbit said.

"This is a convention, I won't eat anything like that either!" Shi Hao nodded.

"En, let's see which ones aren't human form, we have to pick them out." The Heavenly Horned Ant said.

The others were speechless, all of them revealing understanding expressions. These were all repeated offenders, used to this, quite picky in these matters.

"Not bad, my disciple grabbed over a demonic bird, most suitable for roasting!" Shi Hao said.

Then, he smacked that sect master down, making it reveal its true body, producing a three-layered true flame, covering him within.

"Shouldn't we pluck it first?" Cao Yusheng asked.

"En, it'll be easier to pluck the hair after we roast it a bit. I'll leave it to you." Shi Hao threw it over to Cao Yusheng, and then said seriously, "Recently, I decided not to take lives."

Not take lives my ass! Many people wanted to shout out. He already reached this point, yet he still wanted to look like a saint, this really was ridiculous.

Cao Yusheng rolled his eyes. However, he still accepted these stupid words, taking the responsibility of killing and cleaning.

An hour later, the group of people were all praising the taste of the food on the giant rock.

“Wu, it’s so fragrant! That stinky stone brat’s skills really are good, still worthy of praise.” The Lunar Jade Rabbit’s cheeks were puffed, gorging herself, her large eyes now already like moons, clearly enjoying herself.

“It is still the same skills, the same taste, the same meat fragrance. Worthy of being the barbecue king -- Huang!” This was the Heavenly Horned Ant’s praise.

“Skills equivalent to a master, the king of food!” These were Cao Yusheng’s words.

The group of people were almost about to faint. Just what kind of people were these? They were a bunch of freaks, birds of a feather. Even this can be praised? However, it really was delicious, the taste superb!

Even though Qing Yi, Princess Yao Yue and the others cursed silently, they didn’t skimp out on eating. If it wasn’t because there were a lot of people here, they might have thrown aside their images of virtuous ladies.

“Even if my cultivation is truly crippled, I won’t die of hunger in the lower realms! At the very least, I’ll have this exceptional skill, right?” Shi Hao put on a narcissistic appearance, boasting and praising himself.

Everyone immediately shot him a look of disdain.

“Huang, are you really going to be crippled in the end? I really am gratified!” Among the sect masters, there was someone who sneered, feeling joy.

He was going for broke too. Either way, there was no good end, so he might as well step on Shi Hao a bit more.

“I am extremely grateful too, that I can eat you!” Shi Hao immediately fished him out. In this place, the two of them weren’t at the same level at all. Shi Hao greatly exceeded the limit, practically unmatched.

“This is a Hou, not bad. I always wanted to give your race a try, and now, there was one brought right to our front door.” Cao Yusheng roared with laughter.

“Let’s not roast them one by one, we can just enjoy everything to our heart’s content.” Shi Hao began to personally set his hand at it.

With a peng sound, Heavenly Country’s vice lord was seized. In the end, they discovered that this was a half humanoid half beast creature, leaving them vexed. He killed it with a slap, throwing him into the mud.

“It’s your turn now!” Shi Hao moved forward, staring at Immortal Palace’s number two. With a great smile, he said, “A divine bird, excellent! Even Immortal Palace’s second strongest is about to become delicious food. This time, we can basically call it the greatest barbecue under the heavens, right?”

Indeed, with so many figures of this level, so many powerful individuals, if they were all roasted, then it was definitely a great event that would shock the higher realm!

Calling it the greatest barbecue under the heavens wasn't going too far!

One could imagine what kind of expressions outsiders would have after they heard of this matter.

Chapter 1780 - Just That Savage

"Younger generation, you dare?!" When they saw Shi Hao approach, Immortal Palace' number two's eyes became cold. Divine radiance overflowed from his entire body; he was going to fight to the death.

"Heh, forget about you, even if it was your Immortal Palace's old supreme being who came, he would still be killed without exception. Unless your ruined immortal comes, nothing will change!" Shi Hao said with a cold voice.

Hong!

How could Immortal Palace's number two just stand there and watch as he was captured? He operated mysterious techniques, wishing to revive the bronze palace, suppress Shi Hao who entered the palace.

"If it was the true Bronze Immortal Palace, I would still feel some apprehension, not dare enter, after all, there is still the artifact spirit to worry about. However, you want to suppress me with this type of junk?" Shi Hao didn't seem to care much, because he had the Everlasting Sword Core in hand. He swept it outwards, with a peng noise, the talisman exploded, turning into an expanse of fiery light.

"You only have this bit of skill?" Shi Hao put away the sword core. His fist brilliance was dazzling, in this place, he still had magical force, intimidating everyone.

The group of experts were backing up. Immortal Palace's number two's eyes were overcast. He was full of resentment, but there was nothing he could do, truly not this youngster's match.

"I feel so much regret! Back then, I should have pleaded true immortal great one to completely destroy you. We were too benevolent, leaving an evil being like you alive, an absolute disaster!" He seemed to be extremely regretful.

"You can go fuck yourself with your benevolence!" Shi Hao had always been suppressing a wave of resentment. Immortal Palace suppressed and crippled him, leaving him furious.

"That day, did the ruined immortal dare take action? He was terrified of death, scared that Five Phase Mountain would stake it all against him, which was why he displayed a sinister move, crippling my cultivation." Shi Hao said coldly.

Needless to say, he took action decisively. Honglong! A fist collapsed the void.

Even though this place restricted the dao and natural laws, he could still display such power, exceeding the limit by more than one level. This left everyone incredibly shaken.

They could only sigh. Huang's rise wasn't without reason after all, confident in his own strength. This type of potential exceeded the imaginations of many people.

Hong!

In that instant, Shi Hao rushed over. When this fist descended, Immortal Palace's number two, known as someone close to a supreme being, was sent flying just like that.

He couldn't stop Shi Hao at all, a fist shaking his body up until he coughed out large mouthfuls of blood. That arm's bones snapped, falling limply to the side.

Honglong!

In an instant, Immortal Palace's number two shook his wings, throwing himself over. He turned into a golden crane, incredibly vicious, crane beak a dazzling gold, flowing with abnormal multicolored radiance.

This was a battle for its life. It displayed all of its potential, actually operating several waves of magical force!

However, it still wasn't a match, its bird beak directly crushed by Shi Hao. The golden bird beak fell, blood splashing everywhere.

Right now, Shi Hao's expression was as overcast as overcast could be. When he saw Immortal Palace's number two's original body, he recalled the events of the past.

Back then, when the seven deities went down into the lower realms, the servant who came from Immortal Palace was a golden crane, forcing him to near death, his body suffering from the copper rust curse, in a truly miserable state.

"No wonder, those were most likely your clansman. I'll settle new and old debts together!" Shi Hao didn't show any mercy.

He immediately rushed forward. Even though Immortal Palace's number two had no strength to retaliate, it was still lifted up by what was left of its crane beak, returning to the entrance of the bronze palace.

With a peng noise, Shi Hao's palm and fingers moved about, killing it himself. Then, he placed it on an open fire created by the crimson dragon, starting to roast it.

"Master, didn't you say that you will never kill again?" The crimson dragon nudged over.

"I don't do this often." Shi Hao said, shooting him a look, and then smacked him.

This made the crimson dragon who came over to pick faults with his master full of anger, but it was forced to hold it in!

Everyone rolled their eyes. A Huang that didn't kill, that was the real joke.

Soon afterwards, a fragrance wafted through this place. A fully roasted, glistening golden immortal crane was cooked through, the color brilliant. It could now be eaten.

"Eating roasted meat all the time isn't good, it's too oily, not healthy." The Lunar Jade Rabbit said this while fighting over the tender immortal crane wings.

"It's not oily at all, the oil has all been roasted out. If it doesn't suit your tastes, then leave it for me." The Heavenly Horned Ant cried out.

Peng peng peng!

In the bronze palace, sounds of fist wind could be heard. The crimson dragon took action, fighting in its master's place, continuously dragging people out.

In the end, the human formed ones were thrown to the side, while the birds and beasts were placed over a flame. The world's greatest barbecue now became a reality.

These experts' deaths would definitely shock the higher realms. They were all important figures from the various sects, yet in the end, these individuals all met their ends here. It really was too terrifying.

"Say, if news of this spread to the higher realm, wouldn't the sects all go crazy?" Cao Yusheng said, a bit lacking in confidence. He tossed the last piece of crane leg meat into his mouth, muttering, "Their deaths don't have that much to do with me! I didn't eat much!"

"You already ate, what's the point of being scared now?" The Heavenly Horned Ant didn't care at all.

"I reckon that once news travels back, it will definitely trigger a huge commotion. A few inheritances will be scared silly." Qing Yi said seriously.

This was indeed a big deal. In the end, all of them were roasted by Shi Hao, not a single one left behind, all of them dying here.

Among them, there was Immortal Palace's number two, Heavenly Country's vice sect master, True Hou bloodline's great cultivator, as well as experts from Wang and Jin Family, all of them powerful existences.

They weren't only creatures from the three thousand provinces, there were experts from the Nine Heavens as well.

"Something's not right, there were more people than this. Where are those things from Immortal Domain? Why aren't they here?"

It had to be said that the Heavenly Horned Ant's mind was tough. After eating all of this, he even belched out, recalling this matter.

His gaze was cold, because he didn't get along with those fellas from Immortal Domain either, they were going against him, doubting his clan's brilliance. These he could still accept, but what was hardest for him to accept were those who doubted his father's accomplishments and past fighting strength.

"Forget it, where it is possible, we should let people off, revenge breeds revenge, will there ever be an end to it?" Shi Hao said with a smile, patting his shoulder in a magnanimous manner, putting on a benevolent appearance.

Everyone felt like this didn't really sound right. If he had this type of realization, would he carry out the world's greatest barbecue? He was more savage than anyone else!

He already roasted everyone here, and then now, he's pretending to be some great sage, carrying benevolence, instructing others on how to be kind, this was strange no matter how they looked at it, wasn't right at all.

"A fella like you, even if you left home to become a monk, you would be a great demonic monk!" This was Princess Yao Yue's evaluation.

"Hey, princess, I heard that recently, your long life imperial court's clansmen were looking for dao companions. Did you find any to your liking?" Shi Hao retaliated, provoking this white-clothed goddess.

"Like it has anything to do with you!" Princess Yao Yue was stirred up after all, or else the normally gentle and graceful her definitely wouldn't be this 'wild'.

"Aren't I giving pointers out of good intentions? This world is so great, yet there is no place you can call home. If there really is no choice, then I guess I'll have to reluctantly accept you, free you from this worry." Shi Hao said with a smile.

"Get out of my sight!" When faced with this provocation, Princess Yao Yue's eyes carried killing intent.

"Don't misunderstand, I only wanted to take you in because I was lacking some maids. After all, I'm already half crippled, if I don't have some clever girls to take care of me, it really will be hard." Shi Hao said.

Everyone opened their mouths, but they couldn't say anything. This fella really knew how to infuriate people!

The crimson dragon now admired its master a bit. In just a few sentences, he drove that white clothed princess to near madness, her gaze terrifying, really wanting to just devour him whole.

"This bronze palace isn't bad, I'll keep it." Shi Hao put away the bronze palace, reckoning that he could use it a few more times. After all, this Immortal Palace's number two didn't truly display the power of this imitated good.

Unfortunately, this was a consumable item, not the true immortal dao treasure.

Half a day later, Shi Hao saw his old friends off.

Bird Grandpa and Coin Elder released them from this swamp.

"Is there really no way to preserve your cultivation? Only half a month of time left?" Yue Chan asked.

Everyone looked over towards Shi Hao, wishing to obtain an answer.

"It's true, my cultivation is just temporarily not lost, only half a month or so left, but this is already defying the heavens. When I reach the end of the path, there's not much I can do." Shi Hao said.

Then, he looked towards Yue Chan and said, "This expression of sadness, from time to time a bit of passion, is there any deeper meaning? Could it be that you want to come to the lower realms and help me make some monkeys?"

At first, everyone was still feeling sympathy for him, watching blankly. But when they heard these words, everyone felt that something wasn't quite right.

Yue Chan's eyebrows were raised, eyes surging with killing intent, glaring at him. Her emotions that belonged to Qing Yi were suppressed, the thoughts of Yue Chan reviving.

"If you don't want to, then forget it." Shi Hao waved his hand, saying in a carefree manner.

"If she wants to give birth, whose child would it be?" The Lunar Jade Rabbit's large eyes blinked. It really was hard to say if she was being naive and ignorant, or if she was doing this on purpose. Sparks immediately flew everywhere here.

"Just die, just die, just die!" Yue Chan erupted.

"Let's go, I will miss you all a lot. When I grow old, whenever I reminisce about the past, I will remember that someone from my Stone Clan also became unmatched under the heavens, fighting until the higher realm's people were defeated, no one daring to contend against him. Perhaps even after several decades pass and I enter my later years, my life reaching its end, I will still be able to smile." Shi Hao said.

When they heard these words, everyone felt extremely bad inside.

They quietly went on their way, leaving through the lower realm's realm gate.

While watching those people leave with dejected expressions, while his own master instead had a smile on his face, the crimson dragon felt great contempt inside. This cheap master of his really wasn't anything good.

Others didn't know, but would Ge Gu not know? There was no body sturdier than this fella's. Crippled in half a month? No way!

When they headed back up the Copper Sparrow Altar, everyone sighed with sorrow, still feeling grief.

"Sigh, what a regret. This is Huang we are talking about, the glorious hero of a generation, undying in desolate border. He defeated everyone in his generation, yet he is going to fall just like this?"

"Brother Shi, I will come to see you. If there is a day when we can come back to the lower realms, I will bring some longevity divine medicines for you!"

...

They suddenly stopped, turning around.

It was because everyone heard a voice from behind them, someone running.

When they turned around, they were shocked, widening their mouths.

Immortal Domain's emissary brought those youngsters with him, currently running for their lives in great panic, escaping.

Behind them was a fierce looking Shi Hao, his vicious appearance chasing after them.

At the same time, there were two elders running, one on each side, separately holding Shi Hao's right and left arms, shouting and advising him to stop.

"Ancestor! That is Immortal Domain's emissary! Can you calm down a bit? Suppressing those youngsters is one thing, don't roast the emissary into food too!"

"You can provoke any other disaster, but you definitely cannot touch Immortal Domain's emissary!"

The two elders were precisely Bird Grandpa and Coin Elder. They were hanging from Shi Hao's body, each grabbing one of his arms.

On the Copper Sparrow Altar, they all felt dizzy. They saw Huang's savageness once more before leaving!
