

Perfect WD 1881

Chapter 1881 - Lifetime Dao Companions

The ruined immortal was hacked into two halves, horror covering his face. The expression in his eyes gradually faded, clearly unable to hold on any longer.

“Speak, what exactly is going on?” Shi Hao took action. A wave of overwhelming power surged out, stabilizing the ruined immortal’s body, wishing to preserve his life.

“They... are going to arrive soon!” Like a dying flash, the ruined immortal suddenly roared out. His entire body contorted, primordial spirit burning, turning into a rain of light.

Shi Hao was shocked, backing up. It was as if there was an expanse of stellar sand that moved past, wrapping around that law blade, and then quickly headed into the distance.

The law blade cut down this ruined immortal. His primordial spirit turned into a rain of light, merging together with that divine blade, thus disappearing.

“They are on the path of return, the imprints they left behind revived, wishing to understand the situation of this world.” In the rain of light, the ruined immortal’s final miserable cries sounded.

Shi Hao understood. There were some creatures that could already interfere with the matters of this realm, taking action, trying to understand the situation here. However, they should still be quite far from this place.

Otherwise, their true bodies would have directly appeared!

A ruined immortal fell, dying just like that!

Shi Hao’s body was fast and light, moving through the void. With a single leap, he traveled many tens of thousands of li. He chased after it, wishing to see where that law blade returned to.

This was a great mountain, pitch-black like ink, appearing in the sky dome above. It was as if a heaven reaching sword was inserted there!

In the past, it didn’t appear before. This mountain was something that took form recently, clearly another path just like Immortal Tomb and Origin Ancient Mine.

The law blade also turned into a rain of light, entering the black mountain, thus disappearing without a trace.

Shi Hao’s eyes contracted. He remembered this place. In the future, this would definitely be a terrifying battlefield, a place where rivers of blood would flow.

He began to think to himself. How long did these creatures need before they would truly return, before they could truly step foot into this realm?

Shi Hao felt a greater and greater feeling of pressure, however, time didn’t wait for him. Now, his cultivation had reached eight hundred years, yet it was truly hard to achieve immortality. In the future, how was he supposed to fight?

Shi Hao ended his trip in the uninhabited region, returning to the lower realms. He went to see the restricted region lord, consulting him about when that day would arrive.

"You are worrying too much. Their return is full of twists and turns, at the very least, they need to be on guard against each other, so it will take another hundred thousand years at the earliest, perhaps much longer."

When he heard what the restricted region lord said, Shi Hao became stunned. It was actually that far away, he really did have time!

"Those creatures are extremely far from you, at the very least, one or two great eras away. In order to approach through the mysterious lands, they need an extremely long amount of time."

"Separated by one or two great eras?" Shi Hao was greatly shaken.

"There might even be monsters from the Age of Emperor Collapse, those will be even more distant!" The restricted region lord's voice was extremely heavy, even he became serious when that era was mentioned.

"Age of Emperor Collapse, there are still creatures alive from back then?" Shi Hao's brows became deeply furrowed. This information really was horrifying. This wasn't a normal age, just the two words 'emperor collapse' would make one produce endless associations.

"Resolve your matters with the mortal world, and then come back. Go." The restricted region lord said.

Shi Hao released a light sigh. One day, he really would have to step on the path of no return. At that point, he would eternally part from everyone, it was best if he didn't leave behind any regrets.

He cultivated eight hundred years. Now, when he looked back at the affairs of the mortal world, he became silent.

He thought back to when he was young, those Fire Mulberry Trees that bloomed in Sin Province. That red-clothed young lady smiled brightly under those trees, red flower petals scattered down. She was still waving her hand gently.

Shi Hao's nose became sour, feeling disappointed and frustrated. So many years passed, but he still didn't forget about her. The only reason he didn't think about her was because he always immersed himself in his cultivation.

The Fire Mulberry Tree flowers bloomed, every single flower sparkling and translucent. That young lady was waiting alone, waiting for him to return. However, in the end, he still didn't come.

Suddenly, a great sky covering great claw tore through Desolate Border's Emperor City, grabbing the entire Sin Province. During that final battle Shi Hao personally witnessed, he vaguely made out that scarlet clothed young lady standing outside the ruined Fire Mulberry Trees, her face carrying tears, looking at him helplessly.

"The great showdown... I really want to become strong, slaughter my way into the other side, cut down Anlan, Shutuo, and the others, bring her back!"

Shi Hao clenched his fists, releasing a low roar. It was hard to forget, as if it was just yesterday. If he didn't think about it, just spending his days in cultivation, then that was that. However, when he thought about it, his heart felt empty, the bitterness hard to describe.

An explosion sounded, the void cracking apart. Shi Hao released a sigh, what could he change? How many years did he need to achieve immortality? At that time, the past young lady would have long grown old.

It was to the extent where whether she was still living in this world was hard to say.

He previously wanted to cut away these memories, but now, it seemed like everything was pointless. There were many people and matters that couldn't be forgotten just because one wanted to forget about them.

"Not being able to protect you is my greatest regret in this life!" Shi Hao gazed into the void. This was what he thought in the end. It was because if this continued, if he continued to think about it, it would only bring more regret and bitterness.

He really wanted to temporarily bury that period of his memories. Everyone had a time when they were young, he wanted to bury away that portion of sincerity.

It was because if he continued to think about it, he really didn't treat Yun Xi well enough. She always spent her time in cultivation all these years. He rarely went back to Stone Village all because he still carried thoughts about that young lady under the Fire Mulberry Trees, so he couldn't calmly face Yun Xi.

Shi Hao returned to Stone Village. He grabbed Yun Xi's hand, looked at her. After all these years passed, her graceful bearing never changed, her purple hair sparkling, eyes pure, style exceptional.

Yun Xi felt a bit of puzzlement, raising her head to look at him.

"For what happened these years, I'm sorry." Shi Hao said, his voice extremely soft, but also extremely serious.

"Why do you say that?"

"It is because we really aren't like dao companions, I've let you down." Shi Hao felt guilty inside.

"You didn't do anything wrong, rising up in the Cultivationless Age isn't easy. It was only natural that you were completely engrossed in this, bitterly cultivating to ascend to immortality. There is no need for you to apologize to me." Yun Xi said gently.

Her complexion was fair, sparkling like jade, eyes intelligent, every word and movement moving.

"Even if I cultivate bitterly in seclusion, I still might not necessarily be able to achieve immortality." Shi Hao grabbed her hand, saying, "The Nine Heavens Ten Earths have changed so greatly, yet you always remained in the lower realms, never even going around to take a look. I will bring you to see all of the world's beauty."

"Where do you have that much time?!" Yun Xi shook her head, refusing.

"This can also be considered a type of cultivation. Let's go." Shi Hao brought her with him into the higher realms, moreover saying seriously, "It's been a long time since you last returned to Celestial Clan. I'll go with you to take a look."

When she heard him say this, Yun Xi's body trembled. She really longed to go back for a visit. In the end, she nodded in agreement, wishing to return to Celestial Clan.

Shi Ziling and his wife smiled. When they saw them leave, the two felt gratified and satisfied, as if one of their cherished desires was fulfilled.

"We finally managed to see this day." The two both had a bit of white hair, no longer young. This was unavoidable, even though they weren't old, the passage of time still left traces on their bodies.

"Good, good, good!" The old clan chief Shi Yunfeng also laughed cheerfully. He was extremely old, but his spirit was still healthy, sending Shi Hao and Yun Xi's figures off with his eyes.

When Shi Hao arrived in the City of Heaven, Celestial Clan was greatly shaken. After more than eight hundred years, he appeared here again, leaving this clan panicked and shocked.

If he came to settle things, then the entire clan would undoubtedly be eradicated. The entire Celestial Clan was extremely scared, truly worried. The faces of some of the people directly involved in those past matters became white.

"I have no intentions of carrying out revenge. The matters of the past, let's just let them pass like the wind." Shi Hao calmly said.

When some experts in Celestial Clan heard this, they were simply about to cheer, their tense nerves finally relaxed. This was especially the case when they saw Yun Xi, understanding something, becoming even more relaxed.

"Yun Xi misses her home, so I brought her back to take a look." Shi Hao said.

"Good, good, we also miss her, we've always wanted to see her come back." An old voice said while trembling, stirred emotionally as he greeted them.

"Is the old celestial still here?" Shi Hao asked. The Cultivationless Age descended, he felt like it would be hard for that old fella to continue living.

When they heard this, many people in Celestial Clan revealed worry and helplessness. They told him that the old celestial didn't have much time left, already about to wither away.

Shi Hao and Yun Xi went to pay a visit. Sure enough, they saw a skin and bones elder, eye sockets sunken, eyes expressionless.

"I should have died several hundred years ago, but I've always held on, because there was a remnant will, I couldn't feel at ease with leaving Celestial Clan. Now that I have seen you come back, already letting go of the past grudges, I can pass on without any worries." The old celestial said with a smile.

Moreover, not long afterwards, his life's vitality was cut, withering up, passing away.

All of Celestial Clan wept.

Shi Hao was speechless. This fella really knew how to hold on, waiting all the way until he came, and only then did he take his final breath.

He couldn't immediately leave, because Yun Xi wanted to pay her respects here, attend the old celestial's burial.

Several years later, Shi Hao and Yun Xi were inseparable, touring the mountains, rivers, and lakes, becoming true dao companions.

Shi Hao gave Yun Xi pointers in her cultivation, at the same time, he was also researching will force, wishing to open up another path, make arrangements for Mu Qing, the crimson dragon, and the others.

Time continued on slowly. In the blink of an eye, close to two hundred years passed.

Shi Hao was already a thousand years old. His magical force was boundless, no one able to match him in the Mortal Dao Domain. At the same time, he explored the Immortal Dao. Even though he never achieved immortality, he gained some understanding, gaining many insights which were hard to even imagine for outsiders.

Imperial Court became more and more prosperous. With each passing day, Shi Hao didn't have to pay it any attention, yet there would be endless will force gathering over, supporting his body.

Just like that, he could borrow will force to produce a supreme being body, one that was no different from the main body.

During these years, his real body was still going through the body as a seed path, but that supreme being body concentrated from will force instead walked a different path, one similar to the guardian spirits of Immortal Ancient, using this to achieve immortality.

He was walking both paths. He even felt like he might achieve immortality through will force first, that it was relatively easier.

In these two hundred years, Shi Hao and Yun Xi were always together, true dao companions. When they moved through the world, all experts would come up to pay their respects.

Yun Xi was always quiet and peaceful. During this period, she seemed to have returned to being a young lady, full of youthful energy, always having a warm smile on her face. When she blinked, her grace was exceptional.

During these thousand years, Mu Qing, the crimson dragon, Heavenly Horned Ant, Golden Lion, and others still couldn't cross that dao pit, unable to become supreme beings.

"Cultivationless Age, just how many heroic talents' paths do you want to cut short?!" Shi Hao's expression was grave. They cultivated a thousand years, long passing the five hundred year taboo line, yet those individuals still couldn't succeed, this was enough to explain some things.

He vaguely sensed that even if they cultivated for an entire age, when he reached his later years, these people would still be stuck, unable to cross that heavenly moat.

It wasn't that they weren't good enough, but rather that the world cut their paths short!

"It's fine, we still have time, it's only been a thousand years, so how can we extravagantly hope to become supreme beings? In this entire great era, just how many could become supreme beings in just a thousand years?" The Heavenly Horned Ant said, doing his best to calm down.

Shi Hao became silent. Others might not have that qualification, but the Heavenly Horned Ant was a descendant of the Vicious Ten, he should be able to become a supreme being within a thousand years or two.

Once the more flourishing period was missed, when one roamed this great dao deficient, spiritual essence withered era, the Heavenly Horned Era and others would be stopped, sinking into a vile greater environment where they couldn't achieve the dao at all.

During this period of time, Shi Hao was always thinking. He came to a certain decision.

"You... are you going to leave? Just go, you need to advance courageously, rise up sooner!" Yun Xi said.

Shi Hao stared blankly. He was indeed about to leave, bring the Heavenly Horned Ant, Mu Qing and the others to a different place, try to change their cultivation fate.

"Don't feel guilty, don't worry about me. I felt extremely fulfilled during these years. I know that you will achieve immortality one day, while I can only accompany you for one era in this mortal world, that's all I can do... an era is also fine! The day will come when you will leave, and I will have become old as well..." Yun Xi said, her eyes carrying mist, holding back tears.

Chapter 1882 - Searching For Another Way Back

When Shi Hao heard these words, he was even inwardly shaken, feeling extremely terrible. Would that day really come?

He embraced Yun Xi, quietly saying, "It won't, you won't grow old, you'll forever be young. I will help you retain your youth forever!"

He wasn't good at comforting people, truly speaking what he felt. He felt more and more ashamed and uneasy towards the current Yun Xi. When he thought about that day, he found it hard to accept!

Yun Xi smiled while shedding tears, a bit emotional, a bit regretful, but at the same time, she finally felt relieved, saying, "I know that this day will come one day, but I don't have any more regrets, this life already fulfilled, already brilliant enough. We've gone through this journey together, wept together, laughed together, everything will be remembered in my heart, I will never forget it."

The more she spoke like this, the more empty Shi Hao's heart felt. He gently kissed her sparkling forehead, saying, "Don't think too much, go, come together with me!"

The places he had to go to were dangerous, he wanted to leave Yun Xi behind, bring Mu Qing, the crimson dragon, and others with him, but now, he changed his mind, deciding to go together with her.

"You don't have to worry about me..."

"Let's go!" Shi Hao was extremely direct, holding her fine waist, heading to Imperial Court.

The various lands all had Imperial Court's palaces, within them were Shi Hao's divine statues, rich and surging with will force; this was an astonishing wave of power.

Even if the current Shi Hao didn't make an appearance, he could still turn the world upside down, instantly unleash slaughter just by relying on this will force. He could condense a human form in different places, appear like this.

"Mu Qing, you all, come over."

Shi Hao transmitted sound, speaking in a great hall. All of the divine statues in the great halls Imperial Court established in various lands lit up, releasing splendid and sacred splendor, releasing this voice.

This was also the result of will force. In the various parts of the world, even while separated by endless distance, he could still appear this way, contact everyone.

That day, Mu Qing, the crimson dragon, and the others were all summoned, hurrying over.

When everyone gathered, Shi Hao examined everyone's cultivations. He frowned, saying, "Most of you are walking the path of present world techniques, yet it is difficult to advance even an inch. I wish for you all to try a different path."

Most of these people cultivated predominately the present world methods, because the highest level of Immortal Ancient methods needed a perfect dao seed. Where would they find such a thing?

Back then, Little Sky King, Exiled Immortal, Great Xu Tuo, and the others already seized all of them, not leaving any behind.

Apart from present world methods, Mu Qing and the others also learned the method Shi Hao established, but they could only use it as a reference, unable to fully inherit it.

It was because the very first step already left all of them stuck. Using the body as a seed, this was too difficult. Even when Shi Hao took this step, he paid an unimaginable price, barely surviving.

The stunning Meng Tianzheng, in the past, couldn't even completely use the body as a seed path, a step off, almost dying because of it. His dao skills were crippled for many years, forcing him to cultivate other methods.

Shi Hao was always looking for a way. His own path should be able to skip over the body as a seed pass, but how was he going to create this path? This was what he was wondering all these years.

He believed that he would find a solution sooner or later!

However, now, time didn't wait for him. Shi Hao really hoped that these people would become stronger earlier, that they can follow at his sides, and not be trapped in the world of mortals.

"If you all were given unmatched dao seeds, would you all be able to advance?" Shi Hao asked.

Shi Zhong, Zhu Lin, and the others were all stunned. They already walked the present world path, missing the chance to merge with a dao seed. Why would they still cultivate this?

Apart from this, those seeds were priceless, hard to find in the entire world, not many of them to begin with, all of them already brought away by those people. Where would they even go to look for them?

They knew that back then, even Shi Hao couldn't even obtain a seed, only heading down the body as a seed path because he had no alternative.

"Big bro, there's no need for you to go through that much trouble. This type of immortal treasure is hard to find through endless ages, we don't need it. By heading down the present world methods path, we will succeed sooner or later!" Shi Zhong said.

"You all don't need to care about this, I only ask that if I found them for you, do you all dare cultivate from the beginning again?" Shi Hao asked.

"Dare, why wouldn't we dare? Those seeds are too precious, even this entire world is dried up, where would we go look for them?" Zhu Lin muttered.

Shi Hao nodded. He wanted to have these people cultivate Immortal Ancient methods together with present world methods, by letting both of them clash, it might produce some great changes, allowing them to ultimately break through and achieve the dao.

It was because previously, he cultivated two methods at the same time, walking both paths.

"Okay, you all should go make preparations. We are setting out soon!" Shi Hao said.

Everyone became shocked. Were there really still perfect seeds in this world? How could this be? There was only a fixed number of them, how could any of them still exist?

Then, Shi Hao had them look for Cao Yusheng and the Heavenly Horned Ant, also bringing these two, heading out together.

"I also have to make some preparations!" Shi Hao said. He headed into the lower realms.

Mu Qing and the others discovered that he had the Everlasting Sword Core on his back, this alone was enough to prove the dangers of this trip. It was because after all these years, Shi Hao almost never used weapons.

Moreover, he communicated with the crystal skull, golden arm bone, and bleeding eyeball. These were the three monsters he brought out from Western Tomb Realm. n/-O/)V.)E-)ℓ.-b/-1(.n

During these years, they mostly remained quiet, remaining asleep.

"Have you thought things through, wishing to merge with us?" The crystal skull was shocked.

"No, this time, I am only borrowing an arm!" Shi Hao said. He looked at that golden arm, the crystal skull, and the eyeball. He said that he wouldn't merge with them no matter what, because that involved the primordial spirit, too dangerous.

In the end, they chatted in secret, reaching an agreement. That golden arm bone merged with Shi Hao's left hand!

Mu Qing and the others were extremely shocked, at the same time incredibly worried. They knew that Shi Hao was always against this, not willing to merge with those three monsters, but today, he actually did this. One could see just how dangerous the place they were heading into was.

“Don’t worry, it’s not that big of a deal. We are going to steal from the tiger’s den. If we want to make some gains, then we must make all types of preparations.” Shi Hao laughed.

He brought quite a few people, like the Emperor Butterfly, Divine Striking Stone, Lightning Spirits, Golden Lion, Mu Qing, and the others with him. These were all the very best.

The Heavenly Horned Ant and Cao Yusheng were naturally at Shi Hao’s side, wishing to head out together.

They returned to the higher realm, entering the Nine Heavens. Shi Hao brought them to Heavenly Deity Institution, borrowing a massive transport formation. With a hong noise, brilliance illuminated the night sky, all of them vanishing from this place.

They moved through time-space, passing through countless stellar seas, entering a gloomy land.

“Where are we going?”

When the warship that carried them appeared, the speed didn’t decrease, still rushing forward with extreme speed.

Suddenly, there was a green color that appeared before them. It was a stalk of grass, massive beyond compare, its leaves moving, sweeping several great stars in the sky, and then directly devouring them.

“The legendary Star Devouring Grass!” The Heavenly Horned Ant sucked in a cold breath of air.

This type of thing, even though it didn’t have a clear high level will, its strength was extremely terrifying. Normal creatures could only make their way around it when they encountered it.

“Be careful, we are approaching our destination. This place is strange, but at the same time, there really are some of the best seeds here. Even when endless time is searched, they are the best dao seeds. If we can seize them, your cultivation paths will become incomparably dazzling.” Shi Hao said.

Chapter 1883 - World Grave Ancient Path

Star Devouring Grass, a type of innate deity, massive beyond compare. It took root in the void, green and verdant. It gently extended its snake-like leaves out, and then stars were swept over, completely devoured.

Unfortunately, even though it was an innate deity, born in primal chaos, it lacked a high level will. Otherwise, this type of creature would definitely be extremely terrifying. What it relied on was more a type of instinct.

“This place is World Grave, legend has it that there are many ruined ancient great worlds resting here. Perfect dao seeds can only be found here!” Shi Hao said.

In the past, he visited this place when he was still a student of Heavenly Deity Institution, personally seeing perfect seeds. Unfortunately, back then, no one obtained any of them.

Cao Yusheng grinded his teeth. He also came here before. When he saw this familiar land, he became extremely speechless. A thousand years ago, when he was young, he had trained here. Now, he was back.

In the surroundings, great stars rested one after another. However, all of them were ruined, as if they had arrived in an abandoned land.

The cosmos was dusky, scenes of ruin everywhere. There were too many ancient continents floating about in the distance, all of them crushed stars, lands that were hacked apart by sword radiance, everything that should be here was here.

Mu Qing and the others finally understood why this place was called World Grave. It was because the only things they could see were star remains, the ruined fragments of great continents, as if these were the ruins of a universe.

Hong! Suddenly, that Star Devouring Grass moved. Several leaves swept towards Shi Hao's warship like a giant green dragon.

Shi Hao stood at the front of the ship. With a light point of his finger, gentle radiance bloomed.

Honglong!

That stalk of grass erupted with magical force, carrying clouds and smoke, green radiance resplendent. The entire stalk seemed like it was burning, many ruined great stars in the surroundings were thus shaken, and then exploded.

The universe even cracked apart further, turning into abyss one after another.

Multicolored radiance was released from Shi Hao's fingertip endlessly, locking down this stalk of grass. Then, with a chi sound, it was sent flying into the depths of the dark cosmos.

The nearby scenery then calmed down. The stars were destroyed, leaving behind endless cosmos dust.

"Equivalent to supreme being in strength, but lacking the complete transformation, nothing to worry about." Shi Hao said. This was his evaluation of the Star Devouring Grass.

Cao Yusheng was stunned. When they came back then, they had to avoid the Star Devouring Grass, not daring to approach it, but now that they came again today, were they just going to charge their way in?

They continued on, this trip was like a dream. They passed through many world-like brilliant regions, entered the depths of World Grave, passing over ancient realms one after the next.

"What kind of thing is this, it's so big!"

Soon afterwards, they saw a creature that was shaped like a hyena. It had dragon horns on its head and a pair of vermilion bird wings on its back. It floated before them, much more massive than even stars.

This was a corpse, all of its essence energy dried up millions and millions of years ago.

"An innate deity born in primal chaos. If it was still alive, it would have at least supreme being level strength." Shi Hao commented.

They slowed down. The warship slowly continued, no longer passing through worlds, instead moving through a dusky expanse of cosmos. Shi Hao remembered that there was natural luck here.

"Found it, it's coming!" He said quietly.

In the distance, an ancient ship that was extremely tattered, carrying the aura of time, dyed in blood slowly arrived from the depths of the universe. It was quiet and silent.

“What is that?” Zhu Lin couldn’t help but ask.

“Ghost Spirit, it can also be called War Spirit Ship. There are strange creatures on it, transformed from the dead’s spiritual senses, a type of innate soul seed. It can be refined into medicine, used to nurture the primordial spirit.” Shi Hao said.

Their group became excited, long hearing that World Grave had all types of strange creatures, precisely this type of thing. When the essence was extracted, it could be used to strengthen their primordial spirit.

That ship was extremely massive. Even though it was shabby, it was still rather imposing, a small half of a star in size. It headed in this direction.

Ao!

A vicious cry sounded, breaking the silence. The spiritual fluctuations became even more intense. A giant silver bear rushed out first, striking in Shi Hao’s direction.

“Supreme being, there is actually a supreme being level war spirit!” These people were stunned.

Shi Hao remained fearless. He took a step out, blocking all of the terrifying fluctuations, facing the giant silver bear. This was something transformed from the primordial spirit of a deceased creature.

Hu!

Great winds roared. In that warship, there was a golden Great Peng that dove over, spreading its wings, unstoppable, charging at Shi Hao. n/-O/)V.)E-)ℓ.-b/-1(.n

Everyone was horrified. This was a ghost ship, yet there were two supreme being level creatures hidden on it.

Unfortunately, they encountered Shi Hao. There was completely no use at all. Right now, he stood at the peak of Mortal Dao, not fearing this kind of so-called siege at all.

In the end, his figure vanished with a single step. With a raise of his hand, the giant silver bear’s head was removed, the golden Great Peng torn into two, both of them ending up dead.

In that instant, the two creatures turned into a rain of light, what was stored within those rains of light was spiritual force. There was some essence that scattered out like a rainbow, nurturing everyone’s primordial spirits.

Shi Hao acquired a bit, discovering that the effects weren’t that great for him. It was because his primordial spirit had already reached the pinnacle, impossible to advance further. If he wanted to improve it, then he had to ascend to immortality.

He wouldn’t waste this, instead giving it to the people behind him.

“It truly is shocking, my primordial spirit actually really became a bit stronger!” They felt an inconceivable feeling.

“If this continues, we really might be able to achieve the dao, break through into the Supreme Being Realm!”

“Kill!”

It wasn't just Mu Qing, the crimson dragon, and others, even the Lightning Spirits, Emperor Butterfly, and Divine Striking Stone rushed out, attacking that ghost ship.

This was a great battle. Many creatures appeared from that ancient ship, with nine-headed divine birds, white-gold lions, underworld divine hounds, and others among them, there were many different species.

Under the assault of these heaven warping vicious individuals who cultivated over a thousand years, the ghost ship collapsed, these war spirits all killed.

“The nurturing of primordial spirit, this type of feeling really is too wonderful!” Someone said with a sigh.

Unfortunately, even though their primordial spirits were shining, sparkling and translucent, they still couldn't ascend to the supreme being level.

This type of vicious spirit only attacked those who invaded. Whenever creatures encountered them, if their strength wasn't great enough, they would inevitably fall.

This was especially the case this time, there were actually two supreme being level war spirits present among them. If not for Shi Hao being here, they would have most likely been completely annihilated here.

After passing through ruined ancient realms one after another, they entered Five Elements Continent. This place had the extraordinary Five Elements Reversal Formation, hiding a 'heavenly seed'. However, it was extremely difficult to obtain.

Shi Hao didn't consider this place, instead continuing forward.

There was a place that had a mysterious precious tree, which was also a perfect seed. Back then, Shi Hao saw it with his own eyes. However, there was a creature guarding it, so he couldn't bring it away back then.

They finally arrived. This was a wondrous land, not quite the same as the other ruined ancient lands.

There were many plants here, the flowers, fruits, all dao laws. They could all be considered dao seeds.

Shi Hao only had one target, precisely the All Dao Tree.

“After so many years have passed, I wonder if it is still there or not. Back then, it still hadn't completely matured. Now, it should be complete, right?” Shi Hao came to this type of conclusion.

Along the way, they saw many trees, on them different fruits, great dao fragments contained within.

“This place really is extraordinary. Even if we cannot obtain a perfect seed, if we cultivate here, eat these fruits, the benefits will still be astonishing!”

The crimson dragon said with a sigh. This was the ideal cultivation land.

Unfortunately, they couldn't stop over here long term. This place was full of unknowns, all types of unpredictable changes. If they cultivated here for several decades, they might provoke some great trouble.

"You are already unmatched in the Mortal Dao Domain, don't tell me there will still be problems if we stay here?" The Heavenly Horned Ant asked.

"There is an ancient person who is most likely a true immortal here." Shi Hao said with a sigh.

In the past, the reason why they backed off, unable to bring away the All Dao Tree, was precisely because there was a terrifying creature guarding it.

Along the way, they didn't stop. Since they knew that this place had an unmatched dao seed, they naturally had to take a look for themselves.

To the far west, on a floating island.

In the surroundings, lightning flashed and thunder rolled. Great void cracks extended, continuously interweaving. Normal people couldn't ascend this island at all.

Shi Hao took action, riding the warship directly to the floating island.

Great yin energy pervaded the air, great yang flame essence surging. Yin and yang roiled, divine laws erupting. There was an expanse of brilliant light here, extremely divine and peaceful.

Of course, there was also thunder rumbling, carrying an aura of destruction.

At the center of the island was a tree, hibernating like a dragon, winding about. Its trunk was upright and strong, branches moving about, leaves fluttering, surging with boundless divine multicolored light.

The tree's branches were densely packed, having exactly ten thousand fruits.

This tree was an unmatched dao seed to begin with, able to take root within the body, in the flesh, allowing one to comprehend the ten thousand daos of the world. Sooner or later, it would be able to bring one to the True Immortal Realm.

In its surroundings, lightning flickered about. There were lightning pools that rose and fell one after another.

This scene was extremely horrifying!

One of the most precious seeds in the present world, comparable to the World Tree Sapling.

"There is someone here!" The Heavenly Horned Ant was stunned. He saw another person in the distance, standing on a great ship, staring at the All Dao Tree.

Those people clearly saw Shi Hao's group as well, all of them couldn't help but become shocked.

"Immortal Domain's people!" Cao Yusheng said quietly.

It was because that ancient ship had Immortal Domain's imprints engraved on it. Were there any old friends here?

Even Shi Hao's expression changed slightly, looking towards that ancient ship.

Chapter 1884 - News of an Old Friend

The purple-golden warship released strand after strand of immortal energy, clearly astonishing. It stopped over the center of the island, not that far from the All Dao Tree, only the lightning pools separating them.

There were men and women on the ship, quite a few among them were extremely young. The men were heroic in appearance, women beautiful, every one of them swirling with white mist, style exceptional.

These people weren't simple at all, surrounded by immortal energy.

"Is this real or fake, they all cultivated that much immortal energy?" Shi Zhong's jaw dropped, crying out in shock.

"It's released by the purple-golden warship, that ship is extremely shocking" Mu Qing said. That was most likely an immortal artifact.

These people came from Immortal Domain, because the imprints on that ship were extremely clear. Back then, when they faced the creatures of darkness, Immortal Domain's war banner had precisely this type of imprints.

"Who are you all?" On the ship, a middle-aged man looked over. It was as if golden lightning flickered through his eyes, tearing through the void as he looked at their side.

"Shi Batian!" The Divine Striking Stone shouted out, announcing its own name like this.[1]

On the other side, a group of people revealed strange expressions. What kind of name was this? It was so tacky and inelegant.

Even Shi Zhong, Zhu Lin, Emperor Butterfly and the others felt embarrassed for the stone, feeling like it really gave them a bad reputation.

"Heh heh, this is somewhat amusing!" That middle-aged man looked at the Divine Striking Stone, carrying a faint smile.

Shi Hao's eyes were like lightning, sweeping over those people. He didn't see anyone familiar. Was this a trip to temper Immortal Domain's creatures?

In that instant, both sides looked at each other, sizing each other up.

Shi Hao revealed a strange expression. There were supreme beings on the other side, moreover not just one, actually two!

Those youngsters' strength ranged from Heavenly Deity Realm to Self Release Realm. They came for the All Dao Tree after all, was it to be given to someone among them?

One had to understand that this tree was extraordinary, really exceptional. It was an unmatched precious seed the creatures of this world yearned for in their dreams!

“You all are the creatures of the Nine Heavens Ten Earths?” The middle-aged man on the other side asked. He was one of the two supreme beings.

“Indeed. Are you all from Immortal Domain?” Mu Qing spoke up.

During this process, Shi Hao stood with Yun Xi, remaining calm and silent, only watching those people. He immediately thought about many people.

Ten Crown King entered Immortal Domain, the dual-pupiled Shi Yi also went inside, there was also Qing Yi... Shi Hao released a light sigh!

“Correct, we are the people ruled by Aocheng Immortal King.” The middle-aged man said.

Even though Shi Hao stood at the absolute peak, he was still shocked. This wasn’t the first time he heard the name of this immortal king, because he was just too famous.

Aocheng Immortal King was one of the most ancient immortal kings, coexisting with the world. He was one of the most powerful experts of Immortal Domain, someone who overlooked the long river of time, high up above.

In the past, the so-called Immortal Domain young great one who sent people to Void God Realm in search of the darkness creature, that so-called young great one was precisely Aocheng Immortal King’s direct descendant!

This Aocheng Immortal King had lived for just too long, his magical force boundless, immortal might unmatched. He had previously even killed undying kings!

In the past, during Immortal Ancient’s last phase, the other side achieved a great victory, but could only helplessly withdraw in the end, this was precisely because Immortal Domain sent out troops.

The ones on the other side were rather satisfied with Shi Hao, Mu Qing, and the others’ appearances. It was because they were all shocked, who wouldn’t revere Aocheng Immortal King? Having this type of reaction was normal.

“You all can leave. The All Dao Tree is the dao seed Aocheng Immortal King’s direct descendant needs.” The middle-aged man said.

Shi Hao’s expression became calm.

Meanwhile, Zhu Lin, Shi Zhong, Cao Yusheng, and the others were shocked. This was but one of the world’s most powerful immortal kings! They actually ended up encountering his descendant.

Even if it was Immortal Domain, when facing the Cultivationless Age, they still felt incomparable fear. They quickly closed the gateway between the two realms out of fear of it extending into Immortal Domain, triggering a great change there.

If not for this, they wouldn’t have withdrawn at all.

“Right, normally speaking, no one is willing to enter this realm. However, there are some divine fruits that have matured, so there is a need to take the risk to pick them.” The middle-aged man said.

He pointed at the All Dao Tree, his eyes landing on that tree.

“Be more careful. Since we haven’t reached the true immortal domain, we can still go in and out once or twice.” The middle-aged man then said.

The two great supreme beings led the way, protecting a large group of youngsters. No wonder there weren’t any true immortals, it was actually because there were restrictions.

If a true immortal descended, it would immediately cause a reaction in this place, bringing about huge changes. The Cultivationless Age’s corrosion would extend, possibly rush into Immortal Domain, causing a disaster.

Of course, there were immortal kings overseeing that place, so it wasn’t like they couldn’t get rid of the calamity. However, a price still had to be paid. Normally speaking, immortal kings wouldn’t randomly take action.

On the other side, within the young men and women, there was a woman with amber curved brows, her large eyes intelligent, good looks outstanding. She was currently sizing up Mu Qing and the others, carrying confidence.

She suddenly spoke up. “Since you all are the people of the Nine Heavens Ten Earths, have you heard of Huang?”

Mu Qing and the others were stunned. Who was she? She was actually looking for Huang!

Shi Hao looked towards her. This woman was extremely beautiful, but she was a bit overconfident, carrying a bit of haughtiness. Her age wasn’t great, yet she had a bit of a feeling of being ‘proud of her age and experience’.

“I have heard of him before. Why are you looking for Huang?” Shi Hao asked.

“Someone wants me to send a message to Huang in his place. This is why I came into this realm with Aocheng Immortal King’s descendants.” This yellow-clothed woman spoke with a sharp and clear voice, her eyes brilliant.

“I am precisely Huang, you can speak.” Shi Hao said.

An uproar immediately erupted on the other side. There were clearly people who heard his name before. Even the two great supreme beings revealed surprised expressions.

Meanwhile, that yellow-clothed woman was even more shocked. She stared at him, in the end, she moved her feet, walking towards this side. She said quietly, “Let’s please talk on the side.”

Shi Hao remained expressionless, following her.

“My master is Qing Yi, also called Yue Chan. I am her disciple Luo Lin.” The yellow-clothed woman Luo Lin said, directly stating her origins.

Shi Hao's expression now changed, never expecting her to actually be Qing Yi's disciple. However, her talent really was quite extraordinary. He could sense her confidence. Even when facing him, she still had a type of arrogance.

"It has been many years, my master wanted me to carry a message in her place, ask about an old friend." Luo Lin said, her eyes moving. When she spoke up to here, she stopped.

"And?" Shi Hao asked.

"Also, my master wishes to follow Aocheng Immortal King's direct descendant, become dao companions with the young great one." Luo Lin's large eyes shone, speaking like this.

"These are the words Qing Yi wanted you to tell me?" Shi Hao looked at her.

"They are!" Luo Lin raised her head, her tone arrogant and resolute.

Shi Hao turned around to leave, no longer paying her any attention.

"What is the meaning of this? Could it be that you don't want to say anything at all? Don't you think you should offer my master some blessings?!" Luo Lin was discontent, shouting from the back.

Shi Hao turned around, coldly looking at her and saying, "No matter how heartless Qing Yi is, she wouldn't have you deliver a message like this. Deceiving your master and belittling your ancestors like this, are you not scared that I'll kill you right here?"

"What deceiving master belittling ancestors, you are completely unreasonable. If you still cherish your friends, you ought to bless my master." Luo Lin said.

Shi Hao's face sunk, wisps of supreme being aura immediately circulating. Even this heaven and earth shook. This woman's face immediately turned pale, her entire body shaking, feeling as if doomsday was descending. This pressure was hard for her to take, immediately falling weak onto the ground, shuddering all over.

"You..." She was shocked and alarmed. In this realm, she was actually dealt with like this! At the same time, she was panicking. Huang was actually this powerful, feeling as if he was even more terrifying than Immortal Domain's supreme beings.

"I am very close to your master, your senior. Before me, you are still putting on airs, full of arrogance, even wishing to deceive me. If not for giving your master face, I would have killed you with a single strike." Shi Hao said coldly.

"My master really is a perfect pair with Aocheng Immortal King's descendant, a match made in heaven, you... do you not want this to happen?!" Luo Lin clenched her teeth, bracing herself and saying this. Moreover, she added, "If I were you, I would help others achieve happiness!"

"Dao friend, bullying those weaker than you like this isn't too good, right?" On the other side, that middle-aged supreme being spoke, his expression a bit cold.

"Out of respect for my relationship with your master, I won't bicker too much with you." Shi Hao turned around, no longer paying her any attention, restraining his supreme being aura.

“Master, what is it? What did that woman say?” The crimson dragon asked.

It was because the two of them communicated with spiritual senses, others couldn’t hear it.

“The disciple of an old friend.” Shi Hao shook his head.

“Huang, you are going too far!” Luo Li stood up, a bit resentful. She came from Immortal Domain, even if her cultivation wasn’t up to par with Huang, being suppressed to the point where she was shaking all over still left her feeling humiliated.

“Since you are really my master’s old friend’s disciple, why don’t you respect him?” The crimson dragon shouted. In the past, he really wasn’t willing to acknowledge this cheap master of his, but he gradually changed these years, long acknowledging him.

“You are Huang’s disciple?” Luo Lin was surprised, looking at the crimson dragon.

“Daring, you dare act with disrespect again? Directly calling my master’s name, do you think that just because you are from Immortal Domain, you can strut around arrogantly?!” The crimson dragon berated.

“Hmph, we are indeed stronger than your realm.” Luo Lin said, carrying arrogance.

“My master won’t lower himself to your level, so I’ll teach you a lesson in his stead.” How fiery was the crimson dragon’s temper? In the past, he always bickered with his master. He naturally didn’t have any good expression to show this woman.

“You think I’m scared of you? You are Huang’s disciple, so I’ll just fight against you today!” Luo Lin laughed coldly, directly taking the initiative to attack.

Divine light erupted, great dao patterns appearing densely. She rushed over like a streak of lightning, fighting a great battle against the crimson dragon.

She was indeed extremely strong, but she unfortunately faced the crimson dragon. After exchanging several dozen moves, a strike of phoenix wings smacked her until she coughed out blood, flying outwards.

“You...” Luo Lin was shocked, finding this hard to accept.

“I originally thought that you could at least take a beating. Truly overestimating your capabilities.” The crimson dragon said coldly.

On the side, the Divine Striking Stone, Shi Zhong and others even more so roared with laughter.

“Friend, you are going too far.”

The other side were all Aocheng Immortal King’s descendants. Someone stood out, walking this way, wishing to face the crimson dragon, bring back some face for their side.

“Come, come, come, which one of you can’t accept this? This grandpa Shi Batian is right here!”

The ones who walked over were at Self Release Realm, their appearances extremely young. With a sneer, he directly took action.

This time, the battle ended even faster. The Divine Striking Stone turned into a streak of flowing light, smashing over. It was already pretty much a supreme treasure, how could a normal person stop it? n--o-)17/)e.(l)-b).l.-n

Peng!

It turned into a massive rock, smashing down on that person's back. He was directly knocked flying, blood spurting out from his mouth and nose.

"Too weak." The Divine Striking Stone shot out a look of disdain.

"Brazen!" In that group, someone else stood out, one of the best of Aocheng Immortal King's descendants. His movements were powerful, pressing forward.

"Heh, we can exchange some pointers." Mu Qing walked out.

Hong!

A great battle erupted. However, in the end, after less than a hundred moves later, Mu Qing used thunder, almost killing that person. His entire body was scorched black, tumbling out.

Thus, everyone on the other side was stunned. They were both at the Self Release Realm, yet the people from the Nine Heavens Ten Earths were this valiant? One had to understand that they were the descendants of an immortal king, yet they actually suffered a great defeat.

"If you can't accept this, then just come!" Shi Zhong stepped out.

"I will fight you!" Someone shouted.

In the end, three people immediately rushed out, all of them wishing to size up the cultivators of this realm.

Before Shi Zhong took action, the Emperor Butterfly fluttered its wings, flying outwards. Then, with a powerful shake of its wings, the heavens split and earth collapsed. The three experts' bodies shook, entire bodies bursting with blood as they flew out.

"If you can't accept this, then come!" Zhu Lin stepped out.

At the same time, the golden lion, three Lightning Spirits and Shi Zhong also fought to be first, each more surging with war spirit than the last. There was even the Heavenly Horned Ant holding up the rear.

On the other side, everyone became completely speechless, truly stunned. Why were these people so strong? These immortal king descendants actually all suffered defeat, not their match.

Luo Lin was stunned, in complete disbelief.

She indeed looked down on the creatures of this realm, but what she saw completely toppled what she knew.

Even though she knew that her master's 'close friend' was a heaven warping figure, when she saw it with her own eyes, it still left her scared stiff. The disciples that person chose were too terrifying.

She believed that these Self Release Realm individuals were all Shi Hao's disciples.

However, this wasn't entirely wrong either. These people were taught precisely by Shi Hao.

1. Shi = Stone, Ba = Hegemon, tyrant, rule by force, Tian = Heavens

Chapter 1885 - Unmatched Seed's Final Destination

Immortal Domain's people were a bit stupefied, why did it seem like everything was flipped over? On the other side, those creatures were looking down on them, as if they saw some prey they liked.

They were the descendants of Aocheng Immortal King, yet they were shown contempt, not attached any importance to.

In their eyes, this was just some shoddy army. From a rock to a butterfly, then a lion, even an ant, what kind of combination was this? Yet they were actually suppressed.

However, they just couldn't accept this, continuously sending out experts, but they were all knocked down immediately, not a match. This made these people's faces scalding hot, feeling like they had no face left.

"Hey, are you all convinced now? If not, then just come at me all together! I, Shi Batian, will take you all on!" The Divine Striking Stone challenged, rolling its eyes as it shouted.

This was definitely an expert at provoking people, this was its natural disposition.

"You..." Sure enough, a group of youngsters had ugly expressions, all of them tightening their fists. Some people couldn't help but want to rush out.

The middle-aged supreme being in the lead released a snort, stopping those people. If they really rushed out and were knocked down by that rock, then it would only be even more shameful.

"Our four brothers will fight with you all. You all can send over as many as you want!" Four people walked over from the other side, their appearances the same, quadruplets.

Peng! n-/σ)(V))ε.-l()B.(l.-n

Cao Yusheng who was hiding in the back, not willing to take action, was kicked out by the Heavenly Horned Ant.

"Motherf*cking... who kicked me! I didn't choose to step out!" Cao Yusheng screamed.

Immortal Domain's cultivators immediately snickered. They finally encountered a more 'normal' one. If they were all 'freaks', then that would really be crazy!

"You want to fight against us?" Those four sneered. At the same time, they quickly moved, surrounding Cao Yusheng, the four of them like one unit.

"Wait, if you have something to say, we can talk it out!" Fatty Cao shouted.

"It's too late." The four brothers laughed coldly. They stepped out precisely to earn back face, they could only win. How could they let this go?

Chi!

However, when they moved, this harmless Fatty Cao suddenly acted out, even faster than them. The symbols within his body interweaved, sword energy rushing out endlessly.

Third Killing Formation!

This was the formation within Fatty Cao's body, engraved in his flesh and bones, using his body as the medium. This was the path he walked.

It was too sudden, extending from his body. Great formation symbols covered everything densely, in that instant, the heavens above and earth below were covered. Chaotic mist surged, sword energy overflowing.

Pu!

The four brothers were all struck, every one of them penetrated by the sword energy. If not for their reactions being fast enough, quickly withdrawing, the consequences would be unimaginable.

Peng!

The four of them fell, their entire bodies bloody, the injuries horrifying, all inflicted by sword energy. If it was anyone else, they would have definitely been killed.

Everyone became speechless. This damn fatty was clearly strong, having such a shocking formation engraved in his body, yet he cowered like this, pretending to be a pig to eat tigers, ambushing them.

Even Mu Qing, Zhu Lin and the others were looking at Cao Yusheng, their expressions strange. This fatty really wasn't some good thing.

Shi Hao was also a bit speechless. This fatty could clearly win, yet he was so shameless, making this victory not seem all that brilliant now.

"Despicable, shameless, scoundrel, lowly person!" The four of them cursed out loudly.

Everyone saw the problem. Their black hair fell out, stained in blood, revealing female bodies. These were four young ladies, now revealing their original appearances.

No wonder they continuously swore. This fatty actually sneak attacked four beauties.

"You guys should have told me earlier, I would've definitely showed my tender, protective side. They call me flower prince around here." Cao Yusheng put on airs there.

"Damn fatty!" The four young ladies wanted to spit on him.

Cao Yusheng had a completely serious expression on his face. He walked over with large steps, wishing to support them. "Better to squash enmity rather than keep it alive."

The four young ladies were furious. This damn fatty wanted to take advantage of them.

On the other side, Immortal Domain's people were speechless. This fatty really wasn't honest. If you have the skill, then just directly fight, yet he instead acted so vulgar.

Fatty Cao withdrew in dejection since he provoked public anger. Quite a few youngsters from Immortal Domain walked up, glaring at him, making him not dare support them.

Aocheng's descendants felt like they really didn't have any face left. One had to understand that just now, they continuously fought many rounds, but they all lost.

"Forget it!" That middle-aged supreme being spoke, stopping Aocheng Family's youngsters from fighting. This time, they already lost too much face.

If news of this got back to Immortal Domain, it would definitely trigger an uproar. These younger generation were actually this unsightly, all of them suffering a great defeat.

Of course, they weren't that worried, after all, the most powerful inheritors from the clan weren't here, all of them in Immortal Domain, each guarding a side, overlooking their generation.

This was especially the case with their young great one, even more so obtaining the immortal king's true teachings. He possessed extraordinary magical force, able to look down on all of his peers!

Today, they also had a good young successor with them, the younger brother of Aocheng Family's young great one. He was still young, at the Heavenly Deity Realm, needing a perfect dao seed to merge with.

That youngster's talent was exceptional, having his brother's style from a thousand years ago. In the future, he would definitely be glorious and unmatched, it was just that he hadn't grown up yet right now, still far from the Self Release Realm, so he couldn't fight now.

"Dao friend, how about the two of us exchanges some pointers?" The middle-aged supreme being spoke, walking forward.

"That's fine!" Shi Hao said, his words extremely simple.

Hong!

The middle-aged supreme being took action, condensing a supreme being magical imprint, smashing towards Shi Hao, the power truly horrifying.

However, Shi Hao didn't evade it, moving powerfully. He reached out a large hand just like that, covering heaven and earth, suppressing forward, covering this middle-aged supreme being.

In many people's eyes, he was underestimating his opponent a bit, actually this carefree. Normally speaking, it was something only individuals who were much stronger would do.

However, this middle-aged supreme being's eyes became ice-cold. His magical projection filled heaven and earth, body about to be as high as the sky, attacking Shi Hao ferociously.

However, he was stuck in a predicament, his body stopped. The large hand in the sky descended, forcing his magical projection to shrink, crushed to the ground just like that.

He couldn't move at all, even the imprint he displayed became dim and lightless, losing its supreme being might.

Everyone became speechless, watching this scene in shock. Shi Hao only used a large hand, yet he was crushed to the ground like that, as if a giant dragon was intimidating walking beasts.

Chi!

Divine light flickered. The other individual took action out of fear that Shi Hao would act viciously, decisively slaughtering his way over, using the most powerful precious technique he grasped.

However, Shi Hao's movements were simple and direct, reaching out another large hand. With a honglong noise, like deja vu, this person was suppressed once more, unable to move at all.

Everyone was horrified. Just what kind of methods were these? This was just a single person, yet he easily subdued two great supreme beings!

Qing Yi's disciple Luo Lin's mouth was agape, completely stupefied. For the first time, she understood just how terrifying the one her master spoke about was. He was in an impoverished ancient realm, yet still had such divine abilities, intimidating Immortal Domain's people.

This was just too simple! Luo Lin was completely alarmed. The other party took action just like that, no one able to do anything. The two great supreme beings couldn't exert any force, unable to budge an inch.

Their group all became horrified, worried that Shi Hao would unleash a great slaughter. The atmosphere here immediately became tense.

If Shi Hao really took action, they would undoubtedly die, so all these people were apprehensive. When facing such a powerful supreme being, they couldn't even stop that person's finger.

However, what was unexpected was that Shi Hao withdrew his hands, letting the two supreme beings go.

Aocheng Family's two supreme beings had complicated emotions. Apart from true immortals, after all these years, who in the Mortal Domain could subdue them like this?

The youngster before them was too terrifying. Just a single hand could subdue a supreme being, having unrivaled power within the Mortal Dao!

"Many thanks to dao friend for being lenient." They both cupped their hands. Just now, it really was too dangerous. If the youngster exerted a bit more force, they would have directly been crushed.

"In the following struggle over the dao seed, I won't show mercy." Shi Hao said.

The two's expressions immediately changed. They came precisely for the All Dao Tree, so how could they give it up? Otherwise, how were they going to explain things when they returned?

"Dao friend, this is a dao seed my clan's Aocheng Immortal King has raised, it has long been arranged for." One of the supreme beings said.

"An innate All Dao Tree, who can raise it? It will be seized based on ability!" Shi Hao's expression was cold.

Both sides confronted each other, the atmosphere immediately becoming tense.

"Go and ask that senior who exactly it was that planted this All Dao Tree." Shi Hao spoke again.

At the center of the floating island, a precious tree shone, winding about like a true dragon. Its old bark was cracked, ten thousand fruits on its branches. Meanwhile, another person was seated under the tree.

His hair was disheveled, body covered in rusted chains, should be some type of Immortal Gold. It pierced through his shoulder blade, locking him down there.

This strange person's body was withered and dried up, eyes closed, not moving at all, as if he had already passed away.

However, Shi Hao knew that he was still alive. It was because when he wanted to seize the All Dao Tree a thousand years ago, this person revived, saying that this was something that had an owner already.

"Senior, please wake up! We are Aocheng Immortal King's descendants, we came here precisely for the world shocking dao seed." A middle-aged supreme being spoke.

Sure enough, this person really opened his eyes, coming alive. His eyes were dim, lacking radiance, his entire body locked here for countless years, clearly suppressed.

"It seems like the other bloodline failed, not Aocheng's match. Otherwise, the All Dao Tree would belong to their lineage." This person's voice was hoarse, speaking like this.

He had waited for an endless amount of time, suppressed here precisely to guard this tree. When it matured, someone would come to take it.

"Aocheng Immortal King is unmatched under the sky. From past to present, not many can contend against him." That supreme being said.

"However, this is indeed not Aocheng's, but another immortal king's, originally left for his descendant. It seems like that bloodline has most likely been cut short." This mysterious person sighed.

This elder suddenly raised his head. All of the rusted chains on his body rustled with noise. He stared at Shi Hao. "I never expected that despite being at such a young age, you already become unmatched in Mortal Dao. I have seen you before, this can be considered a type of destiny. It's yours!"

When he spoke up to here, the iron chains on his body released a kacha noise, breaking. Then, a type of transformation happened. He stood up, while the All Dao Tree was uprooted, flying towards Shi Hao.

This left everyone stunned, it was too sudden.

Shi Hao didn't even struggle with Aocheng's descendants, yet the All Dao Tree was gifted to him.

"I already fulfilled my promise, guarded this tree until it has matured. It is time to go back." Right at this time, this disheveled eccentric's entire body went rigid, sitting down again, starting to petrify.

In the end, he turned into a stone statue, lacking all life aura, about to completely dry up. He was going to die just like this?

"I gift you the All Dao Tree, bury me to return the karma." That stone statue's head shone, extremely weak, saying it like this.

"Senior, you are?" Shi Hao was shocked.

"I should have left this world a long time ago, forcefully holding on until today, my body and dao are destined to disappear. I only hope that after endless generations, the stone core I have turned to can gain intelligence, obtained life once more." His voice became weak.

Was this even possible?

"Only, at that time, the stone core will no longer be me, and can be considered a creature naturally nurtured by the world. I only hope that there really is reincarnation, that he can remember the things of the past one day." He said it like this.

Shi Hao became silent. If there was a choice, this person definitely wouldn't be like this, placing his hopes on future reincarnation. That was simply already no hope, too fleeting.

"In the ancient times, occasionally, there were innate stone cores that appeared, turning into living creatures. If the greater environment allows for it, they can ascend to immortality. Could it be that it was like this?" Cao Yusheng muttered.

"True innately nurtured human from stone core, even if we don't say that it is impossible, there are limited instances within every set amount of time, definitely not normal. It is naturally the petrification of a great figure from ancient times, gaining sentience after endless time, producing a new primordial spirit, developing life."

After saying this, that stone statue's life force was completely severed, the space between his brows no longer shining.

Chapter 1886 - Immortal King Ambition

A formidable figure of a generation died just like that!

He was undoubtedly an Immortal Dao figure. As for how strong he was, it was hard to say.

In the end, he died just like that. After guarding the All Dao Tree for endless years, all the way until it matured, only then did his body turn into an ice-cold statue.

He entrusted everything to future reincarnation, this really was something fleeting and lamentable, but he didn't have any other choice. It was because back then, he had long suffered a fatal injury.

The All Dao Tree shone, floating right in front of Shi Hao. It's leaves were simple and unadorned, releasing primal chaos energy, its branches strong, winding about like a young dragon, extending outwards.

The dao fruits were many. This tree flickered continuously, when it shone, it was dazzling like a blazing sun, yet when it was dark, it was deep and immeasurable like the dark cosmos. The tree was tangible, but the fruits were formed from the dao.

This type of tree really was priceless, not something that could be exchanged for no matter what was offered.

A carrier of great dao, naturally gathering the heavens' ten thousand dao laws, if it was taken into the body and cultivated in that way, it would be unimaginable!

With a shua sound, the entire tree shrunk, becoming a foot tall. However, it instead became even more simple in appearance. The aura of ten thousand dao laws descended, flowing like a waterfall.

This type of energy, every single strand was different, all of them coming from different fruits. They swirled about, as if over ten thousand stellar dao streams descended!

“Dao friend, this is a dao seed my clan’s Aocheng Immortal King left for his descendant.” In the distance, that middle-aged supreme being reminded.

Shi Hao didn’t pay this any attention. He gave this stone person a bow, and then picked him up to choose a place to bury him, fulfill the agreement, return the karma.

Then, with a peng sound, he grabbed the foot tall All Dao Tree, feeling the tremendously great dao force, taking it into his body, silently sensing it.

“Dao friend, are you going to forcibly fight us over this?” The other supreme being spoke, pressing forward.

“Hm?” Shi Hao turned around, looking at those two great supreme beings, his expression cold. “That senior clearly said that the All Dao Tree does not belong to Aocheng Immortal King, it has no karma with your clan. Now that it has been gifted to me, who dares fight me over this?”

He glared out, releasing killing intent. The other side immediately shivered, the two great supreme beings hurriedly displaying power, releasing divine radiance to protect their youngsters.

They felt a bit helpless. If they really took action, all of them together wouldn’t be enough to defeat this youngster!

Even though they had heard about him, when they truly faced him now, they were still shocked. This was the withered and dried-up Nine Heavens Ten Earths, completely impoverished, even the great dao deficient, yet there was such a terrifying young creature here.

“Worthy of being Huang, someone who previously killed the other side’s Emperor Clans, known to be unmatched in his generation. As expected, even in Immortal Domain, there is an acknowledged place for you.” That middle-aged supreme being said.

The other person became silent. There was no need to doubt it, he long saw that Huang was entirely different, the heaven warping figures from an immortal king family might not necessarily be comparable to him.

“Dao friend, are you willing to part with it? We are willing to pay a price to exchange for it.” They both carried a negotiating tone.

“I cannot, I have a great use for it.” Shi Hao firmly rejected.

Qing Yi’s disciple Luo Lin spoke, her yellow clothes fluttering about. “You’ve already become a supreme being, why are you still not willing to let it go? Even if you merge with it, the effects won’t be that great anymore. Why are you still so stubborn? Ao Kun needs to merge with it, in the future, if he has any achievements, he definitely won’t forget your kindness!”

She pointed at a youngster to the side, precisely the one everyone protected. His name was Ao Kun, also the focal point of this trip. Even though he was only at the Heavenly Deity Realm, he had heaven warping talent, known to be the qilin child of Aocheng Family.

Ao Kun's talent was too high, now sweeping through all of his peers. Even though he was still young, his name already shook one side of Immortal Domain, unmatched in Heavenly Deity Realm!

"I also have disciples, they need it more." Shi Hao replied indifferently.

"Huang, you really don't understand how to be flexible. Ao Kun will become an immortal king in the future, if he succeeds, once he thinks about the past, will he forget about what you did? He will definitely protect you!" Luo Lin said.

Shi Hao coldly swept her a look, the void rumbling with noise, universe cracking apart, the scene terrifying. Even the stars began to tremble lightly, about to fall.

He needed the protection of a younger generation in the future? This was truly a joke!

Luo Lin's face immediately fell, her body shaking, almost falling to the ground again.

Shi Hao didn't say anything, but the others wouldn't remain silent. Mu Qing walked up, pointing at her. "Do you want to die?!"

Just this sentence alone made the expressions of everyone on the other side change.

"Lowly servant girl, my master cherishes his friendship with your master, not willing to harm Martial Aunt Qing Yi's disciple, yet you repeatedly speak with disrespect. If you want to die, then I'll help you accomplish your aim!" The crimson dragon directly moved, rushing out, pressing forward and saying, "Living off one person while secretly helping another, even though you are Martial Aunt Qing Yi's disciple, you are repeatedly partial to Aocheng Family, I will discipline you in Martial Aunt Qing Yi's place!"

The crimson dragon's nature was fiery, directly taking action.

"You..." Luo Lin felt humiliated and resentful. She quickly retaliated, but they had already fought before, not the crimson dragon's match.

Pu!

In the end, she was smacked into the ground by the crimson dragon. A true dragon moved its tail, smashing her body until her bones broke and tendons snapped, unable to move at all.

Ao Kun supported her. Luo Lin was so angry her entire body was shaking. Even though she knew that these people before her were extraordinary, she was naturally arrogant, looking down on the creatures of this realm, feeling like Immortal Domain was high up above.

"Stopping Ao Kun's prospects like this, his brother Ao Gan won't let you all go!" The Ao Gan Luo Lin spoke of was precisely the so-called young great one, the one known as one of Immortal Domain's most powerful outstanding talent.

Ever since he emerged into the world, even in the massive Immortal Domain, the number of opponents who could face him was only two or three, all of them the descendants of immortal kings.

At the same time, this was also the best candidate Luo Lin hoped her master Qing Yi could become dao companions with.

Towards these words of threat, Shi Hao felt like it was beneath him to say anything. What Ao Gan, if he came, then he would just kill him. Even though he didn't achieve immortality yet, his eyes were set on immortal kings.

The so-called same generation, younger creatures, were no longer targets that he considered.

"What a joke. Ao Gan? Never heard of him. If he really comes one day, I'll just take him out in my master's place!" The crimson dragon said.

"Someone like that, we'll face him!" Mu Qing was also extremely direct.

Luo Lin found this hard to believe, completely stupefied. She thought these people were crazy, actually looking down on Ao Gan, not scared of an immortal king descendant, this truly was extremely daring.

"You... you all!" Luo Lin was tongue-tied and speechless.

"Forget it, since dao friend isn't willing, we won't force it either." One of the supreme beings spoke up. He was scared of angering Shi Hao and provoking a great disaster.

"The reason I came here is also because I want to pass on a message from my master. After a hundred years, Immortal Domain will hold a distinguished meeting. My master Qing Yi has always been trying to find a way to bring you in to participate." Luo Lin said.

Previously, she didn't want to pass this on, carrying selfish intentions, but now, she really did hope Shi Hao would go inside, see Immortal Domain's terror for himself, see just how formidable the most powerful heroes there were, for someone to suppress him.

Shi Hao swept her an indifferent look, how could he not understand what she was thinking? If she wasn't Qing Yi's disciple, he would have long slapped her to death.

"Indeed, after a hundred years, Immortal Domain will hold a distinguished meeting. Even though the two realms are already separated, we can still accommodate one or two who are not immortal dao creatures, guide them in." That middle-aged supreme being said.

This could also be considered a type of invitation.

In the back, the Heavenly Horned Ant, Cao Yusheng, Mu Qing, and others' expressions changed.

"Heh, who has the qualifications to enter Immortal Domain during the Cultivationless Age? If you really want to enter, let me think about it for a bit. If you are too weak, then you can forget about it."

Right at this time, an aged voice suddenly sounded from the void. Then, a hazy figure appeared, wrapping around a creature.

This was an elder with white hair and white beard, carrying an aloof and transcendent bearing. However, his gaze was icy cold, releasing immortal energy, currently staring at Shi Hao.

There were great dao chains on his body one after another, binding him in place, displaying an immortal dao aura.

“Old Ancestor Ao Ling!” Many people cried out in alarm. Even the two supreme beings were shocked. This was a true immortal from their clan, he actually appeared! n--o-)17/)e.(l)-b).l.-n

“Old ancestor, how were you able to come into the lower realms!” Many people were shocked.

Now, the Nine Heavens Ten Earths had already entered a Cultivationless Age, true immortals couldn’t move randomly, or else they would provoke terrible consequences.

“It’s fine as long as I am a bit careful. Didn’t I bind myself with great dao laws?” Ao Ling said indifferently.

“The clansmen are aware that there is a monster here that guards the All Dao Tree. They were scared that his temper would be foul and hard like rocks in a latrine pit, didn’t feel at ease, so I secretly followed you all.” Ao Ling added.

From start until now, his eyes were always on Shi Hao’s body. Right now, he coldly said, “Just hand over that All Dao Tree, it doesn’t belong to you.”

Who would have thought that an immortal dao expert would descend, always hiding in the dark. This made the Heavenly Horned Ant, Cao Yusheng, Zhu Lin, and others all feel worry.

Even the Divine Striking Stone became obedient. Right now, it was extremely dangerous.

“It is mine.” Shi Hao only spoke these three words.

“Heh, could it be that you want me to take action? Even if I am bound by great dao chains, it isn’t something a supreme being can face. If you don’t want to die, then hurry and offer it up.” Ao Ling said coldly.

“Come and give it a try then!” Shi Hao’s eyes widened, surging with battle intent. He even killed ruined immortals, so when he faced this bound true immortal, he still didn’t feel any fear.

“Overestimating your capabilities! Just a lower realms brat, yet you dare show an immortal king family disrespect? This old ancestor is going to capture you!” Ao Ling said coldly. He reached out a great hand, grabbing forward.

Hong!

Shi Hao directly took action, not evading. The world immediately collapsed, ghosts weeping and deities howling, making even the universe erupt.

His left hand erupted with endless golden radiance, drowning the World Grave’s boundless region, divine force unmatched, striking outwards.

Peng!

It was hard for outsiders to imagine just how terrifying this strike was.

With a pu noise, Ao Ling's arm immediately snapped. Moreover, half of his body began to crack apart, flowing with blood. Then, it exploded, turning into a blast of mist!

Luo Lin and the others were completely stunned, simply refusing to believe what they were seeing!

So this was Huang?!

Chapter 1887 - Three Seeds

This was too sudden, completely different from what everyone thought would happen. They were petrified, stupefied, like wooden sculptures, not moving at all.

Dismal and brilliant blood gushed out. Ao Ling released a low roar.

AHHHHH!!

He staggered backwards, his entire right arm disappearing, struck by a golden palm until his bones broke and tendons snapped, becoming a lump of bloody mist. Meanwhile, the right side of his body was even cracking, a large portion of it exploding.

He suffered a disaster here, his entire body almost breaking down, seriously injured!

When had he ever suffered so greatly before? His name was Ao Ling, someone from an immortal king family, a true immortal expert, normally, how many people dared act against him?

In this world, this dried-up, impoverished old land where immortal ascension wasn't possible, he was almost killed by someone. Just how terrifying of a thing was this?

Even now, Ao Ling didn't dare believe that he actually lost.

After a light shout, his entire body shone, bloody mist surging, wrapping around him. He quickly recovered.

As a true immortal, his vitality was powerful beyond compare. Even if there was only a shred of life force left, he could still be reborn.

His foundation wasn't injured, his sea of consciousness unharmed, so he immediately treated his injuries. Immortal blood surged, his flesh releasing pi pa noises, quickly reassembling.

"Younger generation!"

Ao Ling released a berating shout. He took action again, his body like thunder, too fierce. When he raised his hand, it was as if stellar streams swirled about his palm and fingers, about to pierce through the great world.

When he moved, clusters of stars trembled.

Hong!

Ao Ling towered between heaven and earth. A palm descended, changing the wind and clouds, time fragments dancing about. He was like a war god that walked over from the distant past, carrying an incomparable aura.

However, when faced with this strike, even if stars fell, the universe exploding, Shi Hao still remained calm. It was still that palm that struck out, moving forward fiercely.

Peng!

In the void, a muffled groan sounded. It was as if the primal chaos exploded, as if heaven and earth were being opened, the power too great.

Ao Ling's eyes were widened. His arm was in intense pain, a roar sounding. His entire body trembled, because that arm couldn't take it, his bones and flesh becoming rotten again.

That arm was crushed until it exploded, turning into a blast of bloody mist.

Moreover, his body was covered in cracks, continuously splitting apart, almost breaking down completely. Blood surged, dyeing this place scarlet red.

A glorious true immortal took action twice, yet was seriously injured both times. How could this be endured?

This was especially the case when it was done by a lower realm younger creature, someone who he had looked down on, not even a true immortal. However, he was just that dauntless, making him suffer.

Even though Ao Ling had cultivated for an extremely long amount of time, his skin extremely thick, right now, it was still burning fiercely. This was too shameful! He had never felt so humiliated.

Pi li pa la!

His bones released noises, body continuously backing up, unable to endure the tremendous force.

Not long ago, he was still saying that if Huang wanted to enter Immortal Domain, then he should consider it first, but now, this youngster directly responded forcefully. With just two palms, he was smacked until he lost his temper.

"You... achieved immortality? No, your arm..." Ao Ling's voice was shaking slightly. He stared at Shi Hao's golden palm, his eyes contracting.

Right now, everyone was stunned. Who dared believe this kind of result?

Aocheng Family's people were stupefied. Was this real? They all doubted, feeling as if this was fake. It wasn't realistic at all.

Ancestor Ao Ling, a true immortal appeared, making all of them overjoyed, feeling like the All Dao Tree was definitely theirs, everything going to come to an end, Huang unable to display any more might.

However, the results were just this shocking! n/.o(-17/)E((l--b/-l--n

Luo Lin's mouth formed an 'O' shape, as if she saw a ghost, her face covered in disbelief. She felt like this was too shocking, toppling everything she knew.

How was this possible? It was utterly inconceivable! She felt like it was too absurd!

Right now, she finally understood just how much of a freak the one her master could never forget about was. He was just too valiant, killing immortals with a supreme being body?

This man was unrivaled!

"His cultivation period is only a thousand years, yet he already has this level of accomplishments! What will even happen in the future?!" Luo Lin's body was shaking, right now, she was truly scared.

"Master is valiant!" The crimson dragon shouted.

Mu Qing, the Lightning Spirits, Zhu Lin, and the others from Stone Village were all shocked as well. Then, they cheered. Shi Hao's strength made them feel completely at ease.

Ao Ling understood that there was something going on with Shi Hao's arm. Otherwise, how could a glorious true immortal like him be seriously injured? It wasn't realistic at all.

"Old ancestor, quell your anger. It isn't that your respected self isn't a match, but rather that you are bound by the great dao chains, unable to display your true strength." A supreme being advised, finding an excuse for him.

"Indeed, old ancestor's hands are bound, this isn't your true strength." Another person said.

Ao Ling felt suffocated, not saying anything. He truly felt extremely ashamed, but he also knew that he couldn't do anything today. If he continued fighting, he would suffer even more.

Shi Hao looked at him coldly, not taking action again. It was because he knew that even if he rushed over and killed Ao Ling, there wouldn't be much meaning behind it. This clan had a matchless immortal king who overlooked Immortal Domain, killing a true immortal didn't mean much.

"I do not wish to unleash a slaughter, do not want to become enemies with your clan." Shi Hao calmly said.

He seized the advantage, yet he wasn't overbearing, just looking at the other side like this. They immediately became a bit quiet.

Ao Ling opened his mouth, staring at Shi Hao's left arm, really wanting to ask about it, but in the end, he didn't say anything, feeling like he didn't have the face to pursue this matter.

"The All Dao Tree is mine." Then, Shi Hao said this.

Ao Ling's old face was completely red, almost coughing out blood. Previously, he boldly declared that the precious tree belonged to their clan, having Shi Hao hand it over, but this was the result in the end.

"We are leaving!"

In the end, he didn't dare become hostile, or else the consequences would be unimaginable.

"Heh, do you understand the concept of heaven warping and unmatched? In the future, all of us can kill immortals!" The Divine Striking Stone acted cockily, as if it won a great battle.

Aocheng Family's people all had ugly expressions. They indeed had nothing to say in return. Even their true immortal ancestor was defeated by Huang, they couldn't deny the other party's heaven warping prowess even if they wanted to.

However, a supreme being instead stopped, saying, "In a hundred years, we will send over an invitation, invite your distinguished self to join Immortal Domain's distinguished meeting."

The true immortal didn't give any response when he heard these words, his face expressionless. He got on that purple-golden warship, departing into the sky, quickly leaving this place.

The Divine Striking Stone was dumbstruck, feeling like it might have gotten them into trouble. If someone really came from Immortal Domain a hundred years later for Shi Hao, was he supposed to go or not? There might be danger.

"Go, let's search for the next unmatched seed" Shi Hao left with his people.

They descended on Five Elements Continent, the land where five elements sealed demons. There was a 'heavenly seed' here.

This region swirled with brilliant colors, blazing flames and domineering metallic radiance that rose into the sky and the azure seas, yellow earth force pervading the air.

This time, Shi Hao didn't waste any time, starting to charge straight in, trying to break the seal.

His left hand merged with that golden arm, already sensing its power, able to smash through a true immortal's arm, so he naturally didn't need to feel much worry, quickly attacking.

In the past, their strength wasn't enough, so they could only back off. However, there was no need for such worry now.

Honglonglong!

In the end, the various seals were undone. The entire mountain shone. Finally, there was only a stone mountain left. Right now, it became sparkling.

It was rumored that a certain Emperor Clan was buried here, becoming material used to nurture that 'heavenly seed'.

This seed could be said to be one of the strangest, its origins the most astonishing.

There was a precious vase with imprints on it. A faint void figure held a sharp sword, guarding this place.

Hong!

Shi Hao attacked this stone mountain, hacking towards the great dao vase.

"Body as a seed, someone really succeeded..." After a faint sigh, a figure appeared from that stone vase, standing in the void, watching Shi Hao.

"There is no need to attack, this heavenly seed will be gifted to you!" He actually said.

"Why?" Shi Hao was shocked.

"This was originally prepared for those striving in the secular world to begin with, hoping for someone to achieve immortality in the Cultivationless Age." That vague voice said.

Shi Hao was shaken. He thought back to the past, this indistinct void figure had indeed previously said the words secular world, this did happen.

However, this heavenly seed was related to immortal ascension?

Did he even still need a seed at his cultivation realm? Shi Hao felt like this heavenly seed was extremely strange, that it was definitely not ordinary.

"It is also time that I scatter with the wind." That vague figure dissipated, turning into a rain of light, disappearing from this place.

Then, that stone mountain broke apart, the great dao vase shattering. With a honglong noise, it completely collapsed.

A fist-sized jar flew out, within it a heavenly seed!

Apart from this, the stone vase had countless remains inside. These were from a great army, an Emperor Clan from the other side, all of them buried here.

It was obtained just like that, different from what Shi Hao expected. There was no vicious battle to fight.

Honglong!

At the same time, Five Elements Continent was sinking. It was breaking apart, about to collapse.

"This land of the five elements sealing demons, now that the seal is gone, even Five Elements Continent is no longer going to exist?" Shi Hao was shocked.

Chi!

Suddenly, a resplendent divine rainbow rushed out from below Five Elements Continent. It was too resplendent, wishing to escape, break free from this place, releasing five-colored brilliance.

"Yi, that's a seed, hurry and chase after it! The legends are real, Five Elements Continent has an exceptional dao seed, the Five Elements Seed!" Cao Yusheng shouted loudly.

There were always rumors that this place had a perfect Five Elements Dao Seed.

Comparatively speaking, the so-called heavenly seed wasn't produced by Five Elements Continent, but rather sealed here.

Shi Hao already took action a long time ago. He reached out a golden left palm, grabbing towards the sky dome with a honglong noise, seizing the Five Elements Seed, not letting it escape.

He actually obtained two seeds here!

The heavenly seed was extraordinary, possessing extraordinary significance.

"We're going!" Shi Hao personally controlled the warship, leaving this collapsed land.

They used a larger half of a year to search through this World Grave, hoping to find one or two more extreme dao seeds.

Unfortunately, there were only ordinary dao seeds. Obtaining any more perfect dao seeds was completely impossible!

If there really were that many, then they wouldn't be called unmatched seeds. From the past until now, there were just these few. Being able to obtain these three was already extremely heaven-defying.

All Dao Tree, heavenly seed, both of these touched upon the issue of being prepared in history. Otherwise, why would they have been left behind until now, end up in their hands? They would have long been seized by others!

Shi Hao's group left, returning to the outside world.

Time hurriedly passed. In the blink of an eye, close to a hundred years passed. It was now close to when Immortal Domain's distinguished meeting was going to be held!

Chapter 1888 - People From Immortal Domain

A hundred years, it came just like that, extremely quickly. In the endless years, in this great era, it was also just a hurried instant.

However, the people of the mortal world had already experienced life, adulthood, decline, and death. For them, this was a long life. When one died, they would fade away like an extinguished light, unable to leave much behind.

Shi Hao came out of his seclusion. He gazed into the distant skies. Perhaps Immortal Domain's gates were going to open, someone coming to send him an invitation.

He knew that this wasn't some act of kindness, most likely meant for him to see just what Immortal Domain was like, for their powerful individuals to intimidate him. There might even be a great killing disaster.

During these hundred years, he spent most of his time in Imperial Court's giant palace, remaining in the higher realm.

Shi Hao was still stopped at the peak of Mortal Dao, his dao skills seemingly not advancing an inch. It was as if he arrived at a plateau, unable to see any rising or falling no matter how far he walked.

However, he knew that his cultivation wasn't without benefits. He could sense some type of fine transformation taking place in his body, just that these changes weren't too clear.

It was too difficult trying to ascend to immortality during the Cultivationless Age. According to the suspicions of predecessors, this was impossible, the path ahead was already cut short!

If one wished to achieve immortality, there was only one way, which was to break into Immortal Domain, cultivate for an endless amount of time in that world. Then, one day, they will suddenly rise from Mortal Dao, become a true immortal.

A hundred years later, the others' changes were significant. Their vitality became even more vigorous. Mu Qing, the crimson dragon, these people's foundations became even more sturdy. After a hundred years of tempering, their dao skills advanced.

Unfortunately, they stood at the very peak of Self Release Realm, but just couldn't take that step into the supreme being level.

Perhaps they were only a hair off, but they couldn't break through that paper window. If they even took just another small step forward, then it would be a whole new world for them!

This wasn't something they could beg for, it was something that couldn't be helped.

However, they didn't feel discouraged, all of them cultivating bitterly, forging their bodies, tempering their primordial spirits, making themselves even stronger, becoming more and more perfect.

It was because they could sense that during these hundred years, their cultivation skills actually did increase somewhat. This meant that the path was ahead, they could still continue. n/-0v**Elb**ln

When could they cross that gate, truly become fish that leapt into the nine heavens, becoming true dragons?

During these hundred years, the three perfect dao seeds were circulated among them. No one cut off their previous foundations, instead, after serious contemplation, they decided to switch halfway, reforge themselves from the Heavenly Deity Realm.

After the dao seeds were merged, they would continue cultivating, and then in the end, they would extract them again, handing them to others. They merely sensed the different scenery along this path.

The three dao seeds were still too few in the end, they could only share them.

However, these three seeds were different, all of them unique. Even after many people continuously used them, there still weren't any problems.

The Five Elements Seed condensed the essence of five elements. The world could be broken down into five elements, they were the foundation. When they were used by this group of people, the intrinsic nature of the world was derived.

The All Dao Tree was even more strange. This ancient tree was planted in Imperial Court, even without being merged into the body, one could comprehend the dao with it, cultivate like this.

It didn't seem to need to be merged into the body, but was rather able to merge into a sect, an inheritance, prospering with an entire faction.

Whenever they cultivated, heaven and earth's great dao would rumble, descend from all sides. Even the deficient laws of heaven and earth seemed to have been replenished, making them immerse themselves within a boundless 'dao sea'.

The most bizarre one was that Heavenly Seed. Apart from Shi Hao, no one was willing to continuously come into contact with it. It was too strange, carrying the war cries of endless men within.

Hundreds of soldiers were buried, becoming its nourishment. A great foreign Emperor Clan was eradicated, one could imagine just how terrifying it was.

During these years, Shi Hao studied it extensively. This thing could allow him to achieve immortality in the Cultivationless Age? Even though he examined it, he didn't discover any breakthrough points.

That day, the world could not remain calm. A terrifying aura rippled, alarming all secluded experts.

Dong!

As if there was a streak of thunder crashing down upon the Nine Heavens, a streak of flowing light tore through the heavens, descending upon the great earth.

"They're here." Shi Hao said to himself. He knew that a crack was opened in Immortal Domain's gates, sending down some creatures.

Sure enough, not long afterwards, people visited Imperial Court. Several experts paid them a visit, stating that they wanted to meet Huang.

In this age, few people could seek out Shi Hao. Even if they came respectfully, they weren't arrogant like these people, not feeling any apprehension.

These people ranged from young to the golden years, to elders, of all different types. At the very least, this was how they looked on the outside. As for their true ages, it was hard to be certain.

"Huang, we have come to bring you an invitation, to invite you to enter Immortal Domain." One of them spoke, quite young. Long purple hair scattered down his back. He had a type of arrogant and untamed aura.

They could tell that these people were normally domineering with a single look, their gazes like eagles, sizing them up. He raised a golden invitation card, saying, "Accept it."

Shi Hao remained completely unperturbed, extremely calm.

Zhu Lin walked up, her gait light and agile, about to receive that invitation.

"This is for Huang, no one else is allowed to touch it. Huang, come out here and personally receive it. If there are no objections, follow us to immediately enter Immortal Domain." The purple-haired youngster's gaze was fierce.

He didn't hand the invitation to Zhu Lin, instead saying this domineeringly.

"Are you here to deliver an invitation or to pass on a decree? What qualifications do you all have for my master to personally receive it?" The crimson dragon shouted.

As for Zhu Lin, she even more so had on a sunken expression. With a raise of her hand, True Phoenix cries sounded, scarlet multicolored light overflowing. She was going to directly seize that invitation.

"Unbridled! This is Immortal Domain's invitation, how can it be blasphemed by you all? Huang must come here and personally receive it!" The purple-haired youngster said coldly. He shouted out, releasing purple multicolored light, strands of supreme being aura flowing out.

Zhu Lin was indeed not a match. She was restricted by this impoverished world, no hope of advancing into the Supreme Being Realm, unable to be this person's opponent.

Hong!

However, she wasn't blasted aside, nor did she fall weak under the other party's supreme being aura. It was because a wave of boundless great force appeared in this giant palace, protecting her.

In the palace, that stone statue shone, releasing endless will force, directly crushing down, restraining the purple-haired youngster. This was Shi Hao's divine image.

As for Shi Hao's true body, he still didn't move, seated there, looking at him coldly.

"Unbridled!"

In the back, someone shouted.

Moreover, another person had a fiery temper, already taking action.

"Who are you calling unbridled?!"

In the giant palace, the seated Shi Hao's gaze was like cold lightning, tearing through the void, staring at a white-robed youngster. It was precisely him who took action just now.

Honglong!

The will force was tremendous, condensing into a human figure. It directly descended, crushing towards that white-robed youngster.

With a hong noise, the white-robed youngster faced it. In the end, he discovered that he was no match at all in horror. When he was surrounded by that large hand, he couldn't move at all.

With a peng noise, the instant that great hand descended, he immediately bent down, his head lowered, even his legs bent, moving uncontrollably. A massive force crushed down on him.

Kacha!

There were bones that broke. He was forcefully holding on, but he ended up being crushed until his bones snapped, his head breaking out in cold sweat, unable to hold on.

The people from Immortal Domain were shocked. This white-robed youngster had cultivated for twenty-three thousand years already, a supreme being, his magical force vigorous, It has been more than two thousand years since he achieved the dao, his strength exceptional, yet he was directly subdued here.

The reason he took action was because he heard there was a fella who was just a thousand something, yet long became a supreme being, so he couldn't accept it.

That was why he looked for a chance to take action. He believed that after cultivating for so many years, solely in terms of magical force, he was definitely greater than that youngster.

Who would have thought that he wasn't a match at all, moreover the difference not just a small amount.

Aocheng's descendants hid the truth from a hundred years ago, that a true immortal lost to a lower realms youngster. This was too humiliating to talk about, so they didn't publically announce this.

Otherwise, this 'white-robed youngster' wouldn't dare directly take action.

“Did you come over to deliver an invitation, or do you want me to accept a decree? Acting so overbearingly, what do you all wish to do?!” Shi Hao’s face sunk as he berated them.

The white-robed youngster’s face flushed red, crushed until the blood he suppressed was about to spurt out. He was incomparably shocked. One has to understand that this person’s true body was seated on that praying mat, not even taking action personally, just an incarnation already suppressed him.

“Heh, there is some skill. Let me test you out a bit!”

At this time, that ‘purple-haired youngster’ spoke, his entire body surging with purple flames. He already struggled free from the will force swamp, taking a large step forward. “I cultivated for nineteen thousand years before becoming a supreme being. Now, I’ve lived for twenty-three thousand years, I came specifically to ask for guidance.”

He was similarly unresigned. After cultivating for an endless amount of time, he finally became a supreme being, yet he heard a lower realms youngster actually achieved the dao before five hundred years.

He found this extremely hard to believe, inwardly unconvinced, feeling like this was definitely because of luck. That was why his gaze was ice-cold, wishing to size up Shi Hao’s true dao skills and methods.

“Nineteen thousand years to achieve the dao, if you were in this realm, in this Cultivationless Age, you would have long turned to dust, what achieving the dao is there? Nothing more than dirty soil!” Shi Hao said indifferently.

“You...” The purple-haired youngster’s eyes were icy cold, his face becoming red. This was already a cultivation speed that wasn’t slow.

Shi Hao now understood. In this Cultivationless Age, the supreme beings who emerge in the future will inevitably be the most powerful, all of them able to leave behind their names in history. It was because this path was going to be more and more difficult.

Meanwhile, in Immortal Domain, achieving the dao in twenty thousand years was considered rather fast.

It was because they had more than enough time. There was undying matter and enough time. As such, supreme beings wouldn’t be too few, there were more than enough opportunities.

“If you have the skill, then fight me in an open battle. What kind of skill is there in borrowing will force?” The purple-haired youngster spoke. He was wild and untamed, extremely arrogant.

“The will force incarnation is far inferior to my true body.” Shi Hao said indifferently.

Then, the incarnation’s other hand rose, also moving, crushing towards the purple-haired youngster.

Honglong!

The purple-haired youngster released a great roar. Purple flames burned the heavens, facing that incarnation. However, the result was quite regretful, he was directly crushed by Shi Hao’s will force incarnation, unable to move at all.

“Leave behind the invitation, you all can leave.” Shi Hao said calmly, looking down on these people from Immortal Domain.

Zhu Lin walked up, removing the invitation from that purple-haired youngster’s hands without any politeness.

“You...” The purple-haired youngster couldn’t move at all, so he could only accept this. His previous domineeringness and arrogance all seemed just that petty and low.

The three people in the back looked at each other in dismay, not daring to take action.

“You received the invitation, yet you aren’t immediately following us back into Immortal Domain?” The purple-haired youngster said through clenched teeth.

The ‘white-robed youngster’ also had an unkind expression. He couldn’t hold on anymore, about to fall weak on the ground. He was crushed to the point of feeling incredibly uncomfortable, blood already flowing out from the corners of his lips.

“Bear in mind that this is merely an invitation. I will go if I feel like it, if not, I will just toss it to the side. Do not feel like Immortal Domain is anything special!” Shi Hao replied coldly.

Then, he released the magical force, letting those two people go. However, immediately afterwards, his sleeve flung them out. With a honglong noise, all five were swept out of Imperial Court’s giant palace, sending them flying.

The five people were staring blankly in the void. Then, their faces turned red. This really wasn’t giving them any face. They really were swept out of the gates!

“Is he a reincarnated old devil or something? He is so young, how can he be this terrifying?!” One of them said quietly, truly finding this hard to believe.

Chapter 1889 - Heading Out

The glorious Immortal Domain guests were kicked out just like that, swept out of the entrance, yet there was nothing they could do. The five individuals’ faces were green and white.

They were supposed to return to Immortal Domain just like that? But there were people who ‘reminded’ them they had to invite Huang. If they couldn’t even do this, they would look extremely helpless.

In their eyes, this world’s spiritual essence was dried up, incredibly poverty-stricken. As long as they just emphasized that they could bring Huang into Immortal Domain a bit, he would definitely follow them.

However now, it was a completely different affair. The other party’s reaction was too calm and indifferent, not that concerned at all.

“Were we used by others, treated as tools?” One of them said with an ashen expression.

That Huang seemed to know something, not all that interested in entering Immortal Domain. It was completely different from what they imagined. In their opinion, if the creatures of this world heard them out, they would definitely be overjoyed.

It was to the extent where they believed that in order to enter Immortal Domain, the heaven warping talents of this realm would bow down, beg to follow them.

“Let’s wait. I refuse to believe he is unaffected. Let’s see just how long he wants to make things difficult for!” One of them said.

However, after several days passed, they panicked. Shi Hao didn’t pay them any attention, ridiculously calm, showing no intention of leaving.

These five great experts had no choice but to pay him another visit. This time, they lowered their stance, requesting seriously, not daring to show any more arrogance. Their words were extremely careful, asking Shi Hao to enter Immortal Domain.

“I will think about it for a bit. You all can leave first.” Shi Hao replied coldly, directly raising his cup and sending the guests out.

The five were forcefully asked to leave. They wanted to become hostile, yet didn’t dare. They didn’t stay behind, leaving Imperial Court’s giant palace with ugly expressions.

“If they were going to be like this now, why did they act like that before? It’s not like my master has to go.” The crimson dragon sneered.

The white-robed youngster and purple-haired youngster’s expressions were ugly. They wanted to take action, but they instead released light sighs. They couldn’t even win against Huang’s incarnation, if they truly acted wantonly, they might just be killed.

In the following two days, they became nervous, extremely worried. Time was becoming more and more pressing, but they still didn’t see Huang make any movements.

“We must ask you to report, we wish to meet Huang.”

They came again. This time, their stance was even lower, pleading with Zhu Lin at the entrance of the giant palace, having her report in their place.

“Don’t you all feel that Immortal Domain is set up on high, that outsiders can’t even touch that invitation card? Why are you so determined to have me ask big bro to set out now?” Zhu Lin sneered. He clearly told them that Shi Hao was currently comprehending the dao, that he didn’t have time to meet them.

The five of them began to panic. They wanted to cry, yet no tears came out.

Immortal Domain presented this type of opportunity, yet they had to take the initiative to plead someone else?

They clearly understood just how much the supreme beings of this realm wanted to enter Immortal Domain, yet they didn’t even have the chance to do so.

Huang really was different. The chance was right before him, yet he was completely unmoved, not willing to even respond to them!

Everything was completely flipped. They visited several times, asking Shi Hao to give them a response, inviting him to please enter Immortal Domain. This was already like 'three humble visits to a thatched cottage', doing their best to say nice things.

"Fairy, this is a Seven Apertures Exquisite Pill, after ingesting it, it will improve one's spiritual senses, a precious divine pill even in Immortal Domain, please accept it." Someone said quietly, quietly slipping this to Zhu Lin.

"That's all?" Zhu Lin shot them a look of disdain, feeling like it was too little.

The five individuals were speechless. What was going on? They came to the lower realms to deliver an invitation, yet in the end, they had to beg like this. They even had to hand over a divine pill, yet it instead drew this person's disgust. This really left them feeling too sullen.

In the past, this realm's creatures should be the ones giving them great gifts!

It wasn't Zhu Lin being greedy, but rather Shi Hao who secretly warned that if she could make the five of them bleed, then she should do it to the fullest extent.

"I have another one here, this divine pill is too rare, really not that many."

"Wu, I have a Golden Body Pill, after eating it, it can make the body sturdier, have a chance of achieving the Vajra Unbreaking Body." Another person said.

They really were bleeding greatly, because time was pressing. If they couldn't bring Huang with them, then there really wouldn't be any more time. n/-0vElbIn

"I have to share with the others, this really isn't all that much." Zhu Lin made things more difficult.

These individuals almost became hostile. They could also be considered Mortal Dao experts in Immortal Domain, talented individuals, yet in the end, they were this sullen here, their stances just too low.

"Endure!" They secretly swallowed this back down.

In the end, these people pinched their nose, handing over all of the rare divine pills they had on them. Their faces were dark, not willing to pay Zhu Lin any more attention.

"My master said that you all go back first and then come back after two days. He needs to consider things for a bit." The crimson dragon walked over, informing them.

"Two more days?!" The white-robed youngster's eyes immediately widened when he heard this.

"There is only one day at most, please make a decision quickly!" The purple-haired youngster also began to panic.

If they knew it was like this, they really wouldn't have acted tough with Huang. In the end, they suffered so much, begging him instead.

Shi Hao left the higher realms, heading into Yin Yang Crucifix Earth, heading to where the restricted region lord was.

He raised the same topic, telling the restricted region lord that Immortal Domain's people were here, bringing him an invitation, switching from arrogance to deference, inviting him to enter Immortal Domain.

A long time ago, he told these things to the restricted region lord, because this was an ancient authoritative figure he could comfortably ask for guidance. Perhaps he might have some good suggestions.

In the past, the restricted region lord said that he can consider heading out.

"I'll make a trip with you." Today, the restricted region lord answered like this.

Shi Hao was shocked. This actually alarmed the restricted region lord into personally heading out. What did he wish to do?

The restricted region lord only had half of a snow-white skull remaining, did he still have his past might? He was actually going to accompany Shi Hao into Immortal Domain! He definitely wanted to accomplish some things.

"Merely to visit memory lane, see if I can settle some karma."

When he heard this, Shi Hao was horrified. This type of existence was high up above in the past, unmatched in his generation. The karma he wished to settle was definitely astonishing.

"Apart from me, they also want to go, this way, it'll be a bit more comfortable." The white cloths purer than snow, complexion like jade restricted region lord said, pointing to the side.

There was a small altar that was less than three feet tall there. On it were three living things, respectively the crystal skull, golden arm and bleeding eyeball.

"You all want to go too?" Shi Hao was shocked.

"We don't feel at ease, so we'll escort you." The crystal skull said, divine flames jumping within the eye sockets.

Shi Hao's mind jumped. He definitely didn't believe these three were going to protect him. They likely wanted to settle some karma too.

This type of existence was each more dangerous than the next. The great eras they touched upon were unimaginable. If they really had enemies, then it was too terrifying.

"Relax, nothing will happen." The crystal skull said.

It had a point, at their level, they definitely wouldn't do foolish things like throwing their lives away, they definitely had something to rely on.

Only, Shi Hao couldn't understand it. They were already ruined, only some bones and other things left over. Could they still struggle against their past 'old friends'?

Of course, the other possibility was that there were people in Immortal Domain who owed them favors, that it was now time to collect the debt.

"It'll be fine as long as you have that incense stick. Store it well, don't let others see it!" The restricted region lord said.

Shi Hao's mind shook, knowing what he was talking about.

In the past, when the other side invaded, Shi Hao previously faced the enemy at Great Scarlet Sky Border with Great Elder Meng Tianzheng, accidentally entering a primal chaos small world.

In that place, there was a woman and an ancient coffin. She formed a restricted region, clearly stating that from then on, that realm would no longer participate in the world's struggles.

It was rumored that she came from Immortal Domain, that she was previously an exceptional figure!

Before Meng Tianzheng and Shi Hao were asked to leave the restricted region, she previously gifted out an item, an incense stick that was less than a foot long. It had previously been lit, but it had long been extinguished.

There were some words engraved on it, two of them Immortal Ancient characters, the others he didn't recognize. They most likely belonged to an especially powerful species.

The words he did recognize were: world eradication!

Centuries later, Shi Hao had previously brought up this matter with the restricted region lord, consulting him about this incense stick to dispel his doubts.

Back then, the restricted region lord's expression became serious, not saying anything for a long time. In the end, he told Shi Hao he had to store it well. This incense was extremely terrifying, related to many things.

This time, the restricted region lord mentioned it again, naturally leaving Shi Hao shaken.

"When this incense stick is lit, there will be tremendous karma that will take place! As long as you properly store this incense stick, it will be the best thing to rely on in Immortal Domain, everyone needs to reconsider before reaching out their claws." The restricted region lord said.

"How do I use it?" Shi Hao asked.

"If you find anyone unsightly, just light it before their face. Those old but not dead fellas' old faces might just directly pale from fright!" The restricted region lord chuckled.

That day, Shi Hao brought the four old monsters with him into the higher realm's Imperial Court. This time, he was rather agreeable, not wasting time, deciding to enter Immortal Domain with those five individuals.

The five individuals were about to go crazy. They discovered that Huang really wasn't joking around, not just faking it, but really not treating them like anything big, not rushed at all.

They really wanted to shout out 'ancestor, we were wrong, let's hurry and leave'!

"Don't worry, I'll be fine. You all can go back, cultivate properly." Shi Hao said. He had Yun Xi fix her beautiful hair, and then warned Mu Qing and the others.

An immortal gate opened. Shi Hao went on his way, following the five into Immortal Domain!

Chapter 1890 - Pan King City

The immortal gates were already open, releasing endless radiance, incredibly divine.

A powerful will descended, ice-cold and ruthless, searching Shi Hao's body, wishing to understand the essence of his soul and other things.

"Hold the invitation well, or else if something goes wrong, you'll have to take responsibility for the consequences!" The white-robed youngster coldly reminded. Huang already entered Immortal Domain, so he didn't lower his stance anymore.

Chi!

An expanse of dazzling light flew over, shockingly brilliant, as if multicolored sunrise radiance surged. It covered heaven and earth, surrounding Shi Hao underneath.

Shi Hao's soul moved, his dao skills surging greatly, becoming a bit unstable, as if he was being hacked at. What was going on?

Wisps of black mist appeared on the surface of his body, not that many of them. They released chi chi sounds, as if ice and snow came into contact with an open fire, starting to melt and scatter.

"You should be grateful. Because you hold the invitation, your body was purified." The purple-haired youngster said.

What Immortal Domain feared the most was darkness matter, all gates would be strictly guarded. This way, darkness creatures would have nowhere to hide, unable to cross over at all.

Shi Hao frowned. After cultivating for so long in the three thousand provinces, he had also fought with the creatures of darkness. He really had been infected by a bit of darkness aura after all.

Of course, this was also related to him directly making contact with darkness blood.

Immortal Domain really was extremely large, vast and boundless, even the creatures of this world themselves not completely exploring its limits, there were some places not even immortal kings entered.

After they entered Immortal Domain, what they faced was a giant city, guarding this gate. Then, they borrowed the formation here, being transported millions and millions of li out.

Otherwise, even as supreme beings, if they only relied on flight, it would be a distance that took an endless amount of time to cross.

Moreover, even this formation didn't take them to their destination, far from it.

A giant city covered the sky, towering in the air, swirling with chaotic energy. Great stars surrounded this city one after another.

It was entirely purple-golden in color, great dao symbols engraved on the walls. The entire city was ancient and grand. This was one of the eternally never falling immortal cities.

In this type of place, even true immortals could be seen.

It was because these cities had to have true immortals watch over them year-round, they could not be left alone even for a moment.

This was an immortal city in Immortal Domain's territory, named Purple Gold Immortal City.

They rested here for a bit. Shi Hao waited a while, and then he was summoned by a true immortal. Only after personally examining the invitation in his hands was he allowed to pass.

It was extremely strict, a true immortal actually appearing personally. It was rumored that he was this city's lord, seriously examining this invitation right now.

"It is because you came from that withered, impoverished world." The robed youngster spoke, carrying a bit of arrogance.

Shi Hao swept him a look, really wanting to smack him. Was Immortal Domain all that? They always felt like they were high up above, looking down on the creatures of the Nine Heavens Ten Earths.

"Your side has inauspicious and strangeness, you must be examined carefully." Comparatively speaking, even though the purple-haired youngster was wild and untamed, he wasn't too harsh.

"The place we need to head to is Pan King City, this is one of the cities that person controls. Everything within millions and millions of li is under Pan King's governing, so the people here naturally have to be careful." Another person said.

Pan King City, a true Immortal King City, as well as one of Immortal Domain's greatest ancient cities. No one dared to act wildly here, from past until now, who knew just how many great eras it had remained flourishing for.

Pan King was known to be one of immortal domain's unmatched experts, one of the most powerful. He had lived for an incredibly long amount of time, no one could say just what age he came from for sure.

He was on par with Aocheng Immortal King, both of them having the might to sweep through all enemies under the sky.

The two immortal kings were close, never fighting against each other, so no one knew which one was weaker and which one was stronger.

When Shi Hao learned these things, he nodded. He was actually going to Pan King City. He didn't know just what kind of distinguished meeting it would be, so he didn't act unnaturally at all, directly asking the white-robed youngster.

"Peaches of Immortality Distinguished Meeting, a distinguished meeting of tens of thousands of clans. Only families that have produced true immortals have the qualifications to enter. I really can't figure out how an independent cultivator from an impoverished world like you has the right to go. What qualifications do you have?!" The white-robed youngster responded coldly.

"Have you already forgotten how you were put down by one of my spiritual bodies? You have a sickness, Immortal Domain's mad arrogance sickness, it needs to be treated!" Shi Hao said extremely impolitely.

"You..." The white-clothed youngster glared out, revealing vicious radiance. He didn't expect that even after entering Immortal Domain, Huang would still be this domineering and brash, not scared at all.

Shi Hao's gaze was fierce, staring at him. At the same time, he raised his hand, making a feint. His face was immediately covered in dark lines, the pressure he felt also increasing greatly.

The white-robed youngster was a bit speechless. "This motherf*cker... he really is a lunatic!" They already entered Immortal Domain, yet he still dared take action against him?

He wanted to test Shi Hao, but in the end, he endured it. He really was scared that Shi Hao might go crazy, a palm smacking down. Right now, they already left the city lord's manor, so no one could protect him for some time.

Shi Hao didn't feel any fear. There were four old freaks sleeping within him, merging with him, and most of all, he carried the 'realm eradication' stick of incense. If they really had a falling out, provoking him, then he would just directly burn it.

Since the restricted region lord already told him that this incense was enough to make even Immortal Domain's great figures feel restraining fear, what else was there to be scared of?

The distance from Purple Gold Immortal City to Pan King City was extremely far, there were actually several vast cosmos separating them.

This left Shi Hao stunned. Immortal Domain wasn't in the same expanse of cosmos?

"These different ancient cosmos have already merged together, now becoming a single region, who knows how many times more vast than the past Immortal Domain this place is now." Someone explained, neutralizing the atmosphere.

Otherwise, the white-robed youngster and Huang would have been butting heads, they were worried that something might happen along the way.

Shi Hao was shocked. Along the way, he gradually learned that an immortal city ruled an expanse of cosmos. The number of true immortals there were in charge was roughly how many ancient cosmos were merged.

This territory... really was incredibly large!

"Otherwise, do you think a single ancient realm could nurture those true immortals?" The white-robed youngster sneered.

According to what they said, what a true immortal needed was too shocking, requiring the nourishment of a star realm. Otherwise, there was no way of satisfying their cultivation needs. When devouring the essence of heaven and earth, it would be enough to suck the universe dry.

"Actually, the current Immortal Domain is still a great universe. Look, these cosmos that are merging in, when they are shrunk here, they are like different starry skies." Someone said.

Shi Hao looked at the beast skin diagram he revealed, quite a few starry sea names on it, every one of those starry seas having an immortal city watching over it.

Now, it seemed like the past universe really was like a starry domain, interlinked, connecting together, forming the present boundless Immortal Domain.

As for the very depths of the starry domain, the ancient lands that even made Immortal Kings' expressions change, feeling restraining fear towards them, were marked out with a skull, indicating that it was extremely dangerous.

No one dared go over there, there was no way of investigating those places.

At the same time, he learned that Immortal Domain had a total of ten dao gates that were connected to the outside world, all of them having heavy troops stationed. There were also ten massive immortal cities.

After passing who knew how many immortal cities, starry seas continuously passed far behind him. Each time, Shi Hao had to go through the city lord's examination, the process extremely strict.

Finally, by borrowing the last immortal city's transport formation, Shi Hao's group arrived at their destination -- Pan King City!

While looking at this absolute colossus, its starting point unknown, ending point also unknown, Shi Hao really didn't know what to even say.

It really was too large, impossible to see the limits with a single look. The sun, moon, and stars all moved around it, this place like the heart of the world. The sun, moon, and others were all just like fireflies, decorations.

It floated in the cosmos just like that, having unrivaled might, inextinguishable power, shocking past and present. It was precisely Pan King City, coexisting with the world.

It was rumored that because of the place it was built on, established on a boundless great ancient continent floating in the cosmos, the land vast, the city was also vast and boundless, shockingly massive.

Right now, it released strong immortal energy, the entire ancient great continent surrounded in immortal aura.

This was precisely Pan King City!

In this place, there were powerful soldiers protecting it. When entering the city, Shi Hao and the others went through strict inspections, solemn and dignified. No one dared to mess around at the city entrance..

Those soldiers were all cold and ruthless, holding dao swords, all of them able to hack down the sun, moon, and stars, incredibly powerful.

Shi Hao couldn't help but feel jealous. When could Stone Village's disciples become like this, when could Imperial Court also have this type of power, able to overlook the past and present, rule over everything under the sky?

At the city entrance, there were even true immortals overseeing things, personally standing guard.

After some investigations, they finally entered the city.

In the city, there were some ancient trees that were as tall as the sky, long becoming giant monsters, their tree eyes narrowed, examining the people who entered, the aura they released terrifying.

Pan King City really was too large, divided into many regions. They rode on a war chariot, brought to their destination. This was a flourishing region, the atmosphere finally no longer nervous.

There were many inns here. Shi Hao was quite shocked, Immortal King City even had this type of thing?

“Immortal King City also needs all types of goods, needing cultivators to pass by, so there are naturally all types of markets, inns, and other amenities.”

“Don’t underestimate them, any one of these inns are places of charm and beauty, immortal family paradises. If you want to cultivate there, you’ll have to pay quite a bit.” The white-robed youngster said.

By the side of the road, there were weapons halls, pill medicine pavilions and scripture rooms, selling all types of things. They could also exchange pointers and interact with others here, which was why this place was extremely bustling and lively, flourishing with activity.

The various clans all had stores, inns, and other things, running businesses, setting up a base here. It was because this place was too flourishing, having all types of exceptional treasures that could be exchanged for.

“Purple-haired youngster, you guys came back. Haha, you all really went to that crippled land to invite someone?” Right at this time, someone greeted out, roaring with laughter.

“Yi? Could it be that this is that junior you all invited? He really dared come!”

These were cultivators, their true ages hard to determine, all quite strong. The eyes of the one in the lead were brilliant, staring at Shi Hao continuously.

“Huo Lan, I am warning you right now, don’t act randomly! This is someone we brought with the invitation from an Immortal King Clan!” The purple-haired youngster said, his body going taut, fearing that something might happen here.

It was because Huo Family’s fellas were eager to give it a try, looking like they wanted to take action.

“Wu, then we’ll just just meet at the Peaches of Immortality Distinguished Meeting. We are leaving first.” The one named Huo Lan, also the one who was roaring with laughter just now and the young man who wanted to take action waved his hand, bringing the others away.

“You need to be a bit careful. This family isn’t easy to provoke. Just recently, a senior of those fellas achieved immortality, this clan’s strength became stronger again!”

They were a true immortal family to begin with, but now, they had another true immortal. The significance of this was great!

Even in Immortal Domain, there weren’t many true immortals, a number that could be counted.

“Where is Qing Yi? I wish to meet her.” Shi Hao said.

When the white-robed youngster heard this, he immediately sneered, saying, “You should just take care of yourself first. This isn’t that impoverished and desolate ruined world. In this Immortal Domain, even if you are a True Dragon, you are to bow down, not think too much!”

“You have a mental sickness that has to be cured!” Shi Hao looked at him.

“You...” The white-robed youngster glared out, but in the end, he restrained himself.

“White robe, you all came back. Don’t tell me this is the bumpkin who had Ao Family return with their faces covered in dirt?” Unbridled laughter sounded.

This was clearly an influential family’s disciple, some attendants following him. His head of long golden hair scattered down, eyes carrying an incredibly provocative feeling, currently staring at Shi Hao, his face carrying a strange smile.

The purple-haired youngster and the others immediately felt a headache. They encountered a small demon king. This was definitely not a young master that was good to provoke, related to an immortal king family.

“Heh heh, I love it. Letting Ao Family suffer a loss makes me the most happy!” A light laughter sounded from the other end of the street. An exceptionally beautiful woman’s figure walked over.
