

## Perfect WD 1910

### Chapter 1911 - The Other Side Fights Again

A thousand years passed, slowly passing by.

In everyone's opinion, Shi Hao was already three thousand five hundred years old, currently at his very peak, when his blood and qi were at their most vigorous.

In reality, if his experiences during the Age of Emperor Collapse were included, he was already more than four million nine hundred thousand years old!

Time didn't really leave much traces on his body. Comparatively speaking, he was practically young forever, maintaining a vigorous life force.

A thousand years passed. Imperial Court became increasingly prosperous, generation after generation of geniuses rose up, overlooking all sides. They truly became the number one sect under the heavens!

In this Nine Heavens Ten Earths, there was no one who didn't know about them, Imperial Court's prowess suppressed all sides.

However, what was regretful was that the Heavenly Horned Ant, Mu Qing, Cao Yusheng, and the others still didn't become supreme beings, the dao path too difficult, especially in this Cultivationless Age.

In reality, if they thought about it, this was extremely normal as well. Even in Immortal Domain, Ao Gan, Pan Yi, Hun Tian, and others only achieved the dao after one or two thousands years.

What kind of environment did they have?

And they were all considered to have heaven warping talent!

Shi Hao was an exception, too talented. Compared to him, others would look too slow, but in reality, they couldn't use him as a comparison at all.

During these thousand years, the world was extremely calm, not having any other changes happening.

The life restricted regions were all lifeless, long sealing themselves up.

Even the single-legged elder who rode on a large rooster didn't appear again. The princess inviting the groom he spoke of didn't display any activity, so Shi Hao was seriously suspecting if that elder was even reliable.

One had to understand that as early as three thousand five hundred years ago, during the great battle of Desolate Border, the single-legged elder had already gone to Imperial Pass, mentioning their princess was searching for a dao companion at that time.

He really didn't know what was the meaning behind this several thousand years search.

In the most recent thousand years, Shi Hao never relaxed, silently and bitterly cultivating. It was because he knew that great danger was going to arrive at any time!

"Something's wrong, there are issues!"

That day, Cao Yusheng warned. A formation shone, his true self rushing over, appearing in Imperial Court, his expression ugly.

“There are several formation cores that revealed issues, there is dark mist spreading from them!”

A thousand years ago, he, Shi Hao, the Heavenly Horned Ant and others followed the paths his master had taken, leaving behind many formation cores precisely to guard against the corrosion of darkness.

Moreover, there were several formation cores that released dark light at the same time, dark mist spreading out, indicating that there were changes that took place.

This was extremely terrible!

“There really are creatures crossing over from that side?!” The Heavenly Horned Ant was alarmed.

In the depths of the cosmos, Land of Darkness.

Formation cores rested here one after another, swirling with mist. The snow-white altars turned completely black.

Shi Hao hurried over, inwardly shaken. He knew that what was to come still came in the end. A pitch-black lotus flower took root in the void, tearing apart this sky, the crack becoming larger and larger.

Shi Hao vaguely heard waves of roars, as if there was an endless army galloping forth, ready to charge in at any time!

“Kill!”

Shi Hao shouted. He held the Everlasting Sword Core in hand, releasing dazzling brilliance that illuminated this dark cosmos, sweeping forward.

In that instant, starry rivers surged, this starry domain shaking intensely. All of the stars almost diverged from their original trajectory, about to fall.

Pu!

The black lotus flower was cut apart, its crystalline flower petals dancing about, carrying demonic nature, descending upon Shi Hao’s surroundings, turning into streak after streak of swirling dark light.

The entire stalk of this black lotus was sparkling like black jade, extremely large. Now, the flower petals scattered across the cosmos, extremely beautiful.

“Kill!”

Shi Hao shouted out. He took action again, directly hacking at this type of demonic lotus.

Sword energy shook the heavens. This expanse of the cosmos shook intensely!

Without a doubt, this terrifying sword radiance shocked all experts in the Nine Heavens Ten Earths. Even the people slumbering in the restricted regions opened their eyes, looking into the heavens.

The experts all sensed that the calm era had ended, that day was finally coming!

“Shi Hao, hurry and return!”

Yun Xi called him, extremely urgent. A piece of jade on Shi Hao's body shone, a formation crystal that could receive messages from Imperial Court at any time.

"What happened?" He asked.

"There are changes taking place in Desolate Border, the other side's creatures have appeared!" Yun Xi said, her voice extremely rushed.

Shi Hao's body went rigid. He sensed that the most terrifying things were happening one after another, everything was going to take place now.

Chi!

Shi Hao took a step, stellar rivers swirling in reverse, stars appearing under his feet, emerging behind him. He immediately returned to Imperial Court.

Massive dao sounds sounded. The divine image that was consecrated in Imperial Court released endless radiance, taking the Everlasting Sword Core in his hands, entering the dark cosmos in his place to guard the passage.

This was his will force incarnation, it was now even more terrifying. After being worshipped by all clans, it now possessed inconceivable power.

"Has Imperial Pass been penetrated?" Shi Hao asked.

"It hasn't." Yun Xi shook her head. She hugged a pure white small cauldron, protecting her child.

This time, it was rather special. Imperial Pass wasn't broken, but the troops of the other side directly appeared on this side of Imperial Pass, crossing over that ancient city.

"They opened up a new path, do they want to directly arrive inside?"

The Heavenly Horned Ant also returned, his expression serious. During the battle back then, Desolate Border was sealed up, they all thought that it would remain eternally sturdy, that there were no more worries, but who would have thought that after three thousand years, a great crisis appeared again?

Chi!

Shi Hao turned into a streak of flowing light, quickly rushing towards Imperial Pass.

The Heavenly Horned Ant and Cao Yusheng followed him.

Mu Qing, Crimson Dragon, Zhu Lin and others entered the dark cosmos, following Shi Hao's will force incarnation to guard the passage there.

On Imperial Pass' side, the vast uninhabited region.

The rocks and stones here burst open, a massive and ancient altar appearing from underground. At this time, there were troops of people currently walking down from the altar.

These people were all murderous-looking, wearing armor, holding ice-cold heavenly spears, great halberds, divine spears, and other things in their hands, carrying an incredibly cold aura.

These were foreign troops, there was no mistake!

Imperial Pass immediately noticed abnormalities, reporting to Imperial Court!

“Wu, this side truly makes one feel uncomfortable, the great dao suffocating. This really is a damned place!”

A man that was handsome to the point of being a bit sinister covered his mouth and nose. He wore silver armor, incredibly arrogant, carrying an expression of disgust as he descended the altar.

“Great one, this way!” Someone immediately walked up.

It was because that extremely young and sinisterly handsome looking man came from an Emperor Clan, a powerful creature who had achieved the dao for many years, already a supreme being for more than a hundred thousand years.

Wu! That silver-armored creature released a light wu sound, and then turned around to ask, “Is Huang still alive?”

His name was Shu Yu, the descendant of the undying king Shutuo.

“He is still alive. From what we tentatively know, he has already achieved the dao for many years!”

“What?!” When the silver-armored handsome male heard this, his pupils contracted, lowering the hand covering his mouth, saying, “Just how old is he? How is this possible?”

“He is now three thousand five hundred years old, becoming a supreme being before five hundred years of age.” Someone carefully reported.

“How is that possible? This type of speed is too fast!” The silver-armored sinister male said.

“That is why great one Shu Yu must be careful, this Huang is not ordinary!”

“Becoming a supreme being in the Cultivationless Age really isn’t simple. However, he has only cultivated for a trifling three thousand five hundred years, just how much dao skills could he have accumulated? There is no way he could have reached the peak, not worth being scared of!” Shu Yu said.

“Is that so? It truly is unexpected. This fella is formidable, becoming a supreme being this early. This is rather interesting as well, or else if we directly crush him to death, what fun is there?”

Right at this time, another male appeared on the altar, dressed in copper armor. His face looked like it was sculpted from a blade, the bridge of his nose and his cheekbones were all extremely tall, giving off a solid feeling.

He had a smile on his face, but it was a bit cold.

This individual was named An Teng, the undying Anlan’s descendant, the genius of a generation. He became a supreme being after cultivating just a few thousand years, attached great importance to in his clan.

This time, after searching everywhere, they found a way to break through Immortal Ancient's seal. After finding that ancient path, An Teng was chosen, sent here to the Nine Heavens Ten Earths to bring back some achievements.

It was because everyone knew that this realm was half crippled, having no experts, no immortal dao creatures overseeing it. The last of their backing had been completely exhausted in the great battle three thousand years ago.

As long as a few supreme beings came over, it was enough to wipe out this realm, sweep through all creatures!

"Heh heh, interesting, that little fella from the past already became an individual who can compete with us. Only capturing him like this has some flavor."

Another person spoke. This was a woman dressed in black armor, her gaze deep and cold, a bit malicious, her laughter also rather cold.

This was another Emperor Clan disciple, her name Chi Xiao. Comparatively speaking, her cultivation period wasn't too long, only eighteen thousand years old, a top level figure among Scarlet King's descendants. [1]

It was because she achieved the dao when she was five thousand years old, her talents extraordinary.

She already consolidated this realm for more than ten thousand years.

Chi Xiao said coldly, "Back then, he killed my grandnephew Chi Menghong, even roasting one of his legs and eating it, treating it like food. Today, I am going to skin him alive!"

It wasn't just her, there were eight or nine more supreme beings who walked out from the altar, half of them from Emperor Clans, all of them had grudges against Shi Hao.

In their eyes, the past battle was the Emperor Clans' humiliation. The young generation's Emperor Clan experts were defeated by Huang one after another, some of them even dying miserably. It truly was unacceptable.

"Wu, now that we came, there won't be any chance left for him!" Shu Yu's handsome and sinister face carried a smile.

"Exactly! Let's have a game of cat and mouse, it really is interesting!" An Teng also smiled.

In the back, there were more men, troops appearing in the uninhabited region one after another. The troops became larger and larger, tens of thousands of cultivators appearing.

Among them, just supreme beings alone numbered thirteen, here to sweep the Nine Heavens clean, kill all those who achieved the dao in this realm.

Four of them were from Emperor Clans.

"Let's be a bit more careful, that brat has some rather strange things on him. In the past, he borrowed a drop of blood to display divine might." Someone reminded.

An Teng's expression became overcast, saying, "It's fine, the undying kings already examined it. That drop of blood isn't something he can use just because he wants to, today, we will seize that drop of blood!"

When they left, the altar was still shining, shaking intensely, as if a massive creature was coming over.

In the end, with a hong sound, three figures appeared at the same time!

These were the ones who brought up the rear, appearing last.

The creatures who were guarding the altar's surroundings all bowed down respectfully, their expressions serious. At the same time, they trembled slightly, because these were three undying creatures.

"This feeling is rather awful, I loathe this Cultivationless Age, loathe this realm." One of them said.

It was because after they crossed over, they immediately sensed the restrictions, moreover quickly sealed up a portion of their own power.

Otherwise, all types of unforeseen changes would be triggered in this Cultivationless Age. The terrifying aura and the magicless traces would even extend into the other side.

"Hurry and shut the passage!" One of them said.

"This side's heaven and earth are changing greatly. Unless one is a native of this world, when undying level power is displayed, it would easily bring back a rebound." An undying creature frowned.

"I believe we likely won't need to take action." Another person said coldly.

The troops were led by some Emperor Clan individuals. They quickly moved along, entering the three thousand provinces' area, wishing to sweep through the Nine Heavens, in particular kill Huang.

Chi!

A streak of divine rainbow descended from above. Shi Hao arrived, cutting them off.

Then, the Heavenly Horned Ant and Cao Yusheng also descended, standing at his side.

They previously went to Imperial Pass, saw that that area wasn't attacked, so they hurried over here.

"Huang?!" The silver-armored handsome male Shu Yu immediately stood out, recognizing Huang. It was because he had already seen his portrait.

Shu Yu carried a sinister smile, saying, "We were just about to look for you, but you now came right to us. Say, should I immediately skin you alive, or slowly deal with you?"

An Teng was dressed in copper armor, also standing up and saying, "Very good, you became a supreme being. This is worth us capturing you, or else what fun is there in killing an ant?"

Chi Xiao was a woman, yet she was even more domineering than the men, saying, "Crawl over here and beg for forgiveness, pray before Chi Menghong's tomb, and then accept death!"

Shi Hao coldly scanned his eyes over them. He naturally sensed that these individuals were exceptionally strong, a good amount stronger than other supreme beings. He knew that these were Emperor Clan disciples.

“You all really have a lot of nonsense to say!” Shi Hao said coldly.

The Heavenly Horned Ant and Cao Yusheng both stood at his side, not worried at all. Shi Hao had even killed a true immortal, would he be scared of these Emperor Clan supreme beings?

“Heh, you pitiful thing who doesn’t know the height and depth of this world, do you think you are all that formidable for achieving the dao early? Fool, you are courting death!” An Teng said coldly.

“To us, you are too immature!” Shu Yu ridiculed.

Shi Hao didn’t say anything, directly taking action. A large earthen yellow hand reached out, fiercely striking down, transferring unmatched might!

“What?!”

In that instant, Shu Yu’s smile froze, An Teng’s confidence also vanishing, his face that was flickering with scarlet multicolored light warping. They began to tremble from deep within.

These Emperor Clan individuals immediately reacted, wishing to escape. It was because they sensed a trembling from their very soul, feeling that there was no way they were this youngster’s opponents. If they truly faced him head-on, they would die.

They fled quickly, but that large hand was even faster, immediately becoming bigger, covering the world, descending from the heavens, smashing down.

Pu pu pu!

Almost at the same time, the Emperor Clan individuals were all slapped until they exploded, turning into blasts of bloody mist.

Meanwhile, below, there was still a great army, but they were even more lamentable, dying without a burial site, a large half of them obliterated.

“Run!”

There were other supreme beings holding up the rear, far from this place. They shouted loudly, having the survivors hurry and run.

However, a large hand rushed across the sky, as if shrouding this world. All of them were covered and sucked into the palm. In the end, with a pu sound, they were all crushed.

It was just that direct, decisive to the point of being brutal and ruthless!

Shi Hao’s hand covered the sky, annihilating everyone.

In the end, only some imprints were left, three of them belonging to Shu Yu, Chi Xiao and An Teng.

“Speak, how did you all cross over into this realm? Who else is going to cross?” Shi Hao shouted. Leaving behind their imprints was just to extort confessions.

"You..." Every hope turned to dust for these individuals. People as strong as them ended up in this type of state, their previous words truly were laughable. They were actually killed by a single palm from this person.

"There is no need to ask anymore, we have come!" A cold voice sounded from the uninhabited region.

The three great undying beings appeared!

With a pu sound, Shi Hao's palm and fingers closed. An Teng, Shu Yu, Chi Xiao and the others' life imprints exploded, turning into scattered dust.

1. Scarlet King is read as Chi Wang in chinese

Chapter 1912 - Killing the Undying

Three great undying beings arrived!

"Retreat!"

Shi Hao said, having the Heavenly Horned Ant and Cao Yusheng back up. They couldn't help much on this battlefield.

Undying energy swirled, crushing the mountains and rivers, making even the sun and moon tremble slightly. That type of power wasn't something those in the Mortal Dao Domain could resist.

With a shua sound, Shi Hao raised his hand, a streak of divine rainbow flying out, carrying the Heavenly Horned Ant and Cao Yusheng into the distance, transporting them away.

In front, three hazy lights surrounded these three great experts, each one of them carrying an aura that left others in reverence. They were undying creatures who had lived for an endless amount of time.

The smallest one, which was also the most ancient individual, had lived for an extremely long amount of time. A layer of undying radiance covered their bodies, preventing them from being corroded by the effects of time.

These creatures' blood and qi never dried up, always standing at the peak of their lives, taking in and sending out heaven and earth essence, refined by the stars of sun and moon.

Right now, the expressions of the three great undying beings weren't that great. They were in charge of holding up the rear, yet in the end, after just waiting a bit, coming a moment too late, their people were all killed!

"Huang, you truly are fierce, not even blinking after taking the lives of ten thousand people!" An undying being said.

Shi Hao sneered, feeling it beneath him to retort. Why did these people come? Wasn't it to kill them all, end the lives of all cultivators in the Nine Heavens Ten Earths? There was no need to say too much, they just needed to die!

"You have a bit of skill, destroying all of them alone. You have an immortal artifact on you?" An undying being said with his eyes narrowed.

They found it a bit hard to understand, wishing to know just what kind of secret he had, scared that a bit of carelessness would cause their own failures as well.

“Just an ant, what need is there to say so much? Just kill!” Among the three undying beings, the old fella who had lived for the longest amount of time was incredibly arrogant, feeling it completely beneath him to say too much to Shi Hao.

In his opinion, the other two were too cautious. So what if the other side was given an immortal king weapon? Could it be that three undying beings could be suppressed and killed?

There was no way to compensate for difference in cultivation realms. If they truly fought to the death, a child with a blade still had no way of matching an adult opponent.

Peng!

One of them took action, brandishing his arm, sending it towards Shi Hao. This stance could be said to be extremely disrespectful, looking as if he wanted to give his opponent a slap to the face.

Only the glorious undying beings dared take action like this, still this carefree in a battle, humiliate their opponent.

This elder naturally didn't have good intentions, taking advantage of Shi Hao's youthful vigor, forcing him to reveal his trump card. Meanwhile, he was also on guard, able to advance and retreat at the same time, his mind calm when facing this somewhat mysterious youngster.

At Shi Hao's current cultivation realm, he wasn't shocked by honor and disgrace, his mood not revealing the slightest fluctuation.

He didn't have a so-called immortal artifact. At the crucial moment, his finger was like a sword, stabbing out, sparkling and brilliant, carrying golden radiance!

Yi?

This undying being was shocked. The other party didn't have a great murderous weapon, actually daring to face his strike like this. After a bit of hesitation, in the end, his palm strike continued, not changing the trajectory at all, smashing forward.

Chi!

Only at this instant did Shi Hao's finger release a penetrating divine radiance, interweaving with sword energy. He used the Grass Symbol Sword Art, his finger sturdy and imperishable!

In the void, the two experts' natural laws clashed, incredibly intense. The most crucial thing was that the two individuals' hands made contact.

With a pu sound, the undying being's palm was cut, blood flowing out. This left him horrified, decisively withdrawing!

“How is this possible?!”

The other side actually broke through his palm, almost going straight through!

“Die!”

He released a shout, scattering undying blood in Shi Hao’s direction. The blood enlarged, becoming like a long river, submerging Shi Hao within.

The blood of undying beings could be refined into endless things, able to cut down one’s cultivation, erase their soul.

However, he was destined to feel disappointment. Just now, it wasn’t an illusion, the other side’s vitality was incredibly vigorous, able to contend against him!

“Collect!”

Shi Hao released a light shout, using a jade container to collect the undying blood. “Many thanks for the human body great medicine, the more the better!”

“You...” The undying being’s face sunk. He knew that he encountered a freak, that he couldn’t assess him with normal reasoning.

The three undying beings all revealed expressions of shock. This youngster before them was only three thousand something years old, how could he face an undying being? This didn’t make any sense!

There had never been a three thousand years old true immortal! This was just too horrifying, defying all reasoning!

“Capture him!”

Under the current situation, there was no need for words. The three undying beings released their killing intent, determined to kill Shi Hao. If this youngster was given any more time, it would inevitably be a great disaster.

They sensed the severity of the issue. This time, they came to the Nine Heavens Ten Earths just in time, or else this youngster would have already risen up.

“Eradicate the genius, Single Hand Covering the Sky!”

One person shouted, a bronze-colored palm carrying the aura of time appeared, time fragments fluttering about, even more so natural laws descending like a waterfall, forming a cage, wishing to seal Shi Hao within.

“Kill!”

Shi Hao released a long roar. At this stage, there was no way he would hold back. His entire body surged with blood energy, the energy surging from the crown of his head piercing into the heavens, blood energy overwhelming the sky.

In that instant, he used several types of precious techniques, using the Six Dao Reincarnations Heavenly Art, deriving unmatched profound mysteries. This was his trump card!

Hong!

The heavens fell and earth split, ghosts weeping and deities howling. The battle at this level was unimaginable, carrying great dao rumbling noises. Dao laws interweaved, surging like streaks of lightning.

This battle made all life tremble. At the very least, in the nearby great provinces, the cultivators of the various great inheritances were all shaking, their souls even being suppressed, unable to breathe.

If it wasn't for this region being the uninhabited region, then there really would have been a disaster of all clans being slaughtered.

They rose into the sky, fighting into the realm beyond. The four figures tangled about each other, turning into interweaving streaks of divine light.

Their moves were just too fast, the battle reaching a climax.

Peng! n-)0veLb1n

Great stars exploded around them one after another. As they moved, the area that was affected became greater and greater. From time to time, there were giant stars that blocked the way. With a swing of their sleeves, at their fingertips, they directly exploded.

Eventually, when the great experts all displayed magical projections, towering between heaven and earth, taking in and sending out essence energy, some stars were sucked into their projections.

This type of scene shocked the Nine Heavens Ten Earths!

The various great inheritances had many experts who watched this battle through formations and other things. All of their scalps turned numb. This type of battle made even their breaths stop.

It was extremely intense, a life and death great battle.

"Huang, cease your viciousness! This realm is doomed to be destroyed, you won't have a good end. If you surrender yourself to my side, we will give you good prospects!"

One of the undying beings shouted, starting to advise him to surrender.

"Huang, do not think yourself infallible. You don't have many chances left, you better tie up your hands and follow us to see the undying kings! There is a chance you can keep your life!"

"Younger generation, you are seeking the path to your own doom! I heard you have your own lineage. If you aren't willing to surrender, I will personally kill your child, kill your loved ones, not leave anything behind!" Another person threatened.

When he heard everything up to here, Shi Hao's eyes widened, his gaze cold and intimidating. White immortal mist was released from his mouth and nose. He opened his mouth and roared, a stellar stream appeared, chaotic sword energy was erupting.

Hong!

The great battle was intense, everyone slaughtering their way to the point of going crazy.

Right at this time, an undying being coughed out blood, his face deathly pale. He looked into the void and said, "Damned Cultivationless Age, damned world, I am suffering a rebound!"

This world was now extremely terrifying. When outsiders barged in and they released power at the true immortal level, they would suffer a backlash.

This was a type of self protective measure of this world, to resist the corrosion of the outside world.

Previously, the three great undying beings had sealed their own true bodies, but when facing Shi Hao, they couldn't remain sealed or else they would be seriously injured.

However, by undoing the seal, after fighting continuously, one person suffered a blade from heaven's will, his dao source fracturing, suffering damage.

Hou!

Shi Hao released a great roar, looking like a demonic god, his hair disheveled, eyes sharp like cold lightning. He slaughtered his way over, having targeted focus, wishing to capture this person first.

This person threatened him, wishing to harm his child and loved ones. This touched his bottom line.

That was why even if he had to pay the price of blood, he had to kill these three undying beings!

In reality, he had confidence that he had this ability, that there was no need to be too worried.

His five secret realms inside his body shone at the same time. When Shi Hao displayed the Six Dao Reincarnations Heavenly Art, his body became dazzling and brilliant. His own innate precious technique was established, the third type of supreme being technique already matured.

With a hong sound, his vitality surged, continuously overlaying, strength increasing rapidly.

Sss!

Even the undying beings sucked in a cold breath of air. What kind of method was this? It was as if he became a different person! Huang's blood energy surged, his fighting strength going wild, immediately reaching a horrifying realm.

Pu!

Shi Hao's strike was powerful beyond compare. The Six Dao Reincarnations Heavenly Art supported several types of divine abilities. After being supported, the power went crazy, breaking that undying being's arms, a large bloody hole appearing.

Of course, the most terrifying thing was that there was a bloody hole that appeared between his brows as well, pierced through by the Grass Symbol Sword Art!

Six Dao Reincarnations Heavenly Art supported six types of precious techniques, every single one was fatal.

Pu!

Among them, one precious technique was the True Phoenix' Burning the Heavens. A blood red divine bird flew out, spreading its wings, burning that undying being's body, turning it into charred bits.

Hong!

Then, the Lightning Emperor Precious Technique was even more terrifying, lightning concentrated, blasting through the undying being's body.

In the end, with a peng noise, this person exploded, his body and spirit erased.

"How could it be like this?" The other two undying beings couldn't rescue him in time. They were incredibly shocked, finding it hard to accept this reality.

"Kill!" They roared out. There was now no way out. They attacked together, going all out against Shi Hao.

Shi Hao was ferocious beyond compare. By borrowing the remaining power, he blasted one person until he coughed out large mouthfuls of blood, flying outwards. He seized this decisive opportunity, not willing to let him go, chasing him down.

He didn't care about the one behind him, bringing out the Bronze Immortal Palace to protect his back, directly rushing forward murderously.

Under the intense battle, in this terrifying great collision, the undying being in front of him smashed apart great stars one after another. In the end, a fist passed through his skull.

Blood splashed out, his primordial spirit exploded, a second undying being becoming a corpse.

"You actually reached this level!" The third undying being's eyes became red. It was now too late no matter what was said.

He had no way of running, as the only one left, he could only fight to the death.

This battle was extremely intense, but it didn't continue for that long. Eventually, Shi Hao was like a rising True Phoenix. His arms moved, like a phoenix spreading its wings, crimson multicolored light overflowing into the heavens. With a pu noise, he rushed out, removing this person's head.

Chi!

Then, he pointed out a finger. A golden willow branch which looked like a divine chain of order pierced through the skull, impaling his primordial spirit!

Thus, three undying beings completely died.

Chapter 1913 - Searching For Exceptional Experts

The cosmos, there were star remains scattered everywhere, the scene extremely desolate.

Apart from this, there was blood, the blood of undying beings, swirling with sinister radiance. Even further out, there were the bodies of three great undying beings, some exploding, some still having a corpse.

Suddenly, in the dusky and ice-cold cosmos, a rumbling sounded. Some star remains burned, turning into ashes.

Then, the three undying beings' blood and bones shone, everything ignited, burning intensely here.

These were the irregular scenes produced following their deaths. It was extremely terrifying. There were no heaven's tears, nor was there any divine light or holy aura, only complete destruction.

Returning to the dao!

They were returning to the dao, becoming a portion of the laws of the universe, about to merge into this area of the cosmos.

Shi Hao quickly took action, using a jade container to absorb the floating undying blood, moreover immediately refining it into medicinal liquid.

This was undying great medicine!

All creatures had spirit, not only could the plants become medicines, even other creatures, including the human body, could be turned into medicine. This was precisely human body undying great medicine.

Shi Hao seized a portion of true blood, but there was still a larger half that exploded, blood dyeing the starry skies red, releasing blazing radiance, burning fiercely, returning to this part of the world.

The three great undying beings were destroyed, completely assimilated into the dao, absorbed by the laws of heaven and earth.

This battle ended, all under heavens shocked!

Forget about the cultivators of all clans, even the terrifying figures of great restricted regions narrowed their eyes, gazing into the cosmos, seriously thinking things over.

This battle accomplishment was too glorious!

This also made many people feel scared, the creatures in the restricted regions all shivering inwardly. Just how many years had Huang cultivated for? They found this hard to accept, a bit unable to believe this.

Shi Hao didn't stop, could be said to be unrelenting. He hurried to another star system, entering a Land of Darkness, slaughtering his way towards a massive black demonic lotus.

Right now, his will force incarnation was here, currently trying to suppress it, but it wasn't too effective. Whenever that demonic lotus was cut down, it would always regrow.

This black lotus was extremely sinister, having an undying nature. It absorbed the chaotic energy of primal chaos, refining the void. At the same time, there were roots that appeared, covering some stars, taking root on them, its life force difficult to extinguish.

"Its main root is in another realm, only a portion of it is rooted in this realm. That is why we couldn't kill it!" Mu Qing's expression was serious as he reported to Shi Hao.

Shi Hao had already experienced this. He frowned, activating his own precious techniques, also using all types of divine abilities. He could destroy the black demonic lotus, but he couldn't completely erase it.

"All of you, withdraw!" Shi Hao said. He thought of a flame within him.

It was that mysterious ancient flame that was made of great dao symbols, obtained next to the nine dragons pulling coffin. It was always hidden within his body, normally not displaying any activity.

As his dao skills increased, after experiencing the Age of Emperor Collapse, during those years, he examined the nature of this flame, sometimes able to move it.

Today, he wanted to try it out.

Fortunately, he succeeded.

A fist-sized lump of fiery light appeared before him. It was extremely soft and gentle, carrying an extremely peaceful aura. It wasn't true fiery light, but rather something made from all types of ancient symbols. n)/Ovel'B1n

"Go!"

Shi Hao released a light shout. The fist-sized 'fireball' flew out, making contact with that black demonic lotus.

At first, it was still peaceful, but a moment later, when this mysterious ancient flame followed its roots, something unexpected happened. There were symbols that flickered about by the roots, produced by the demonic lotus.

Hong!

As if a sun exploded, this fiery light surged intensely, burning the roots of this demonic lotus.

In the past, it only engraved great dao symbols, but now, it was being moved by Shi Hao, all of it erupting. The various ancient symbols stored within it were clashing intensely there.

The massive black demonic lotus was ignited, turning into a massive torch, burning fiercely.

It floated in the void, some roots planted on celestial bodies, some rooted in the void, originally incomparable terrifying. However, it now suffered disaster, shaking intensely.

One could see that the symbols it produced were flickering, surrounded by that lump of fiery light.

Chi!

The massive demonic lotus was destroyed because the lump of fire followed its roots, actually burning its way into the other realm.

That sphere of light disappeared for a moment, truly crossing into the other realm.

However, in the end, it returned again.

The demonic lotus turned into endless ashes, no longer existing.

This was a bridge between the two realms, a passage. In the end, it was destroyed just like that.

Not long afterwards, Shi Hao headed to Desolate Border, sealing the passage that was opened there, bringing away that altar. He was going to research it.

The reason he didn't destroy it was because he still had something that preoccupied his mind. He wanted to slaughter his way over one day, there was a remnant will within his heart that just wouldn't disappear. He wanted to see someone!

Only, it was still not time, he was powerless to reverse the heavens.

Shi Hao returned. Imperial Court cheered, all sides celebrating!

That day, all clans came to seek an audience, coming to express their congratulations. Shi Hao's might was truly incomparable, his bravery dominating the world, shaking all sides.

Of course, these people didn't feel restraining fear, now more feeling admiration. He went to battle to protect this realm, and not to flaunt his strength.

Huang's name immediately shook the world!

Even though they all knew that he was extremely strong, in the past, no one had a direct observation. Only when he killed a true immortal and then killed three great undying beings, did everyone realize just how terrifying he was.

He was already truly unrivaled under the sky!

At the very least, of the creatures produced in this great era, not a single one was Shi Hao's match. He could already dominate the Nine Heavens Ten Earths, difficult for anyone to face him!

The cultivators of all sides came to pay a visit, even more people as if making a pilgrimage, arriving in Imperial Court, wishing to be able to join, become a member.

The most shocking thing was that there were some bitter cultivators who were extremely sincere. If they weren't taken, then they would kneel outside Imperial Court, refuse to leave.

"Imperial Court has taken many outstanding talents as disciples, becoming stronger again. One can imagine just how terrifying they will become a thousand or two thousand years later. They will definitely overlook all under the sky, no sect will dare go against them."

There were some who were worried as well. While watching Imperial Court flourish, they were scared that this entire world would be under Imperial Court's rule. Under this heaven reaching stormy sea, other inheritances could only be small splashes.

In reality, the current Imperial Court was already the number one great sect in the world, far above other inheritances, already incomparable.

In the future, that would be even more unimaginable. Any small troop sent out by Imperial Court would definitely be enough to flatten great long life families that had existed since ancient times.

However, Shi Hao still frowned, feeling like Imperial Court was far from being strong enough. In reality, the others also sensed something, feeling that this time, it was all because of Shi Hao alone that they could avert this disaster.

They didn't dare imagine what would happen if he was preoccupied with something or if he was defeated in a battlefield, just how bad the consequences would be!

“Imperial Court is a galaxy of talent, especially after a thousand or two thousand years pass, it will even more so rule the heavens above and earth below. Even if the other sects join together, they cannot match it, but it is still lacking... they need several exceptional experts overseeing it!”

Shi Hao, Heavenly Horned Ant, Mu Qing and the others all sensed this issue.

In the end, Shi Hao left, searching for helpers that could truly suppress all sides. This way, he wouldn't be forced to spread himself too thin.

He left alone, not bringing anyone with him. The first place he arrived in was Fire Province, this place was next to Goddess Academy and Qi Daolin's past dao rite.

There were too many things that previously happened in this region.

The nine dragons pulling coffin was hidden underground here to begin with, while the flame within his body was also obtained here.

Fire Province had a prairie, as well as a great desert.

This was a desert where not a stalk of grass grew. Shi Hao had already been here for several days, standing here without moving, deriving something the entire time, waiting for something.

Hong!

Earth and stone burst, an imposing great mountain slowly rose from the ground, releasing chaotic energy, as if it had existed from the great beginning.

At the waist of the mountain was an ancient cave that surged with auspicious multicolored light. Immortal mist pervaded the air, the scene shocking.

With a chi sound, he rushed in. He stood in the cave. On the cave's walls were various hatchet marks, sword etches, and other things left behind by exceptional experts.

It was because these traces all carried great dao style, releasing immortal dao auras.

In the past, even that flame within him appeared, shining here, continuously engraving these marks.

“Master Qi, I've returned here again.” Shi Hao said quietly. In the past, Qi Daolin brought him here in search of opportunities and natural luck.

Shi Hao touched the cave wall with his hand, feeling a type of pressure. There was a terrifying aura that surged from this place.

Origin Stone![1]

The entire cave was polished from Origin Stone. One had to understand that this was an immortal dao supreme treasure material, rarely seen from past until now. Normal people couldn't find it at all.

When origin was mentioned, one would often associate this with a true immortal, precisely the so-called Hunyuan True Immortal. To take this on as the name, one could see how precious it was. Origin Stone was of the same level as World Stone.

In the depths of the ancient cave was a palace, on it a pile of immortal materials, for example, Origin Stone, Heavenfault Stone, as well as Void Immortal Gold, Five Elements Immortal Gold, Everlasting Immortal God, even more so True Dragon horns, phoenix beaks, and other things, so dazzling one couldn't open their eyes.

However, Shi Hao knew that all of this was an illusion, not real. Ninety percent of the immortal materials had been taken.

In the past, he and Qi Daolin did everything they could, and only then could they bring away a black stone at the very center. However, after appraising it, it was an ordinary object, not a supreme treasure.

When they left, they were in an extremely sorry state. A creature appeared, almost forcing them to stay behind. However, that creature seemed to not be able to walk out of the ancient cave, not chasing them out, it was only because of this that they could escape disaster.

Now, Shi Hao came back precisely for this creature.

Sure enough, after he released a strand of his aura, that slumbering creature woke up, releasing a roar.

Ao...

The voice was extremely loud, terrifying beyond compare. The entire Origin Stone cut ancient cave was trembling, moreover accompanied by seven-colored immortal radiance. A great aura surged over.

This was a human shaped creature. It was just too resplendent, flickering with seven types of radiance, its aura like a sea, terrifying beyond compare!

Shi Hao came straight for it, not withdrawing this time.

Hong!

A palm struck over, carrying seven-colored immortal radiance, extremely dazzling, arriving before Shi Hao's eyes. He stood there, facing it with his right palm.

Dang!

A sky shaking noise sounded, resounding in all directions.

Great dao ripples quickly spread. If it wasn't because the walls were cut from Origin Stone, nothing would have remained, everything would have collapsed, been destroyed.

This ancient cave was an immortal dao precious material to begin with, so it could support the force they released.

When the seven-colored immortal light was restrained, origin mist scattered, the two faced each other, not taking action again.

"Why have you disturbed my slumber?" On the other side, that creature spoke.

This was a metal person. Not only was its mouth and nose far from its eyes, even its hair was made of metal, its entire figure flowing with seven types of brilliance, possessing an immeasurable mighty force.

One could see that it couldn't move freely, one leg wrapped with stone, immortal mist surrounding it. It was transforming, still hasn't completely evolved.

Shi Hao understood. This was the reason why the other party was sleeping, not leaving this place, it still hadn't completed its evolution.

This was an innately nourished divine core, originally a piece of Seven Colored Immortal Gold, in the end gaining sentience, turning into human form. Only after endless years, was this heaven-defying creature born.

Seven Colored Immortal Gold! This was unmatched precious material to begin with, yet it actually gained sentience, this was definitely even more extraordinary.

"I didn't deliberately disturb you, but rather feel that there are things that we must discuss, so I wish to invite you out of the mountain." Shi Hao said.

"I will not go!" The Seven Colored Immortal Gold Man was extremely direct. However, he also felt restraining fear. This individual was too strong, giving him a powerful feeling of threat.

He actually faced him bare-handedly, could it be that his flesh was even sturdier than Immortal Gold?

"I came with good intentions." Shi Hao calmly said. Moreover, he stared at his foot, saying, "After you leave the mountain, I promise that in a few hundred years, your transformation can be completed."

"What did you say?" The Seven Colored Immortal Gold Man's eyes released dazzling radiance, a bit hopeful, but also a bit in doubt, revealing a cautionary expression.

"I am now an unmatched formation master, my skill in this field greater than my fighting strength. I can establish a formation that gathers the essence of the heavens, concentrate it on your body, help you transform. After several hundred years, you can then emerge into the world." Shi Hao said.

Moreover, he took action first, setting up a small formation. As a result, the essence energy in the cave surged, great dao laws falling, immediately becoming entirely different.

"Are you willing to trust my methods?" Shi Hao asked.

"You... what do you want from me in exchange?"

"Help me guard one area."

...

The two began to chat, the atmosphere becoming calmer.

Shi Hao unexpectedly discovered that this was originally an immortal king dwelling, and this Seven Colored Immortal Gold Man was something enlightened by an ancient great figure, thus allowing it to take human form.

It was unknown just what age this happened. The lord of the cave went to participate in a great battle, but then never came back, the soul lamp he left behind also going out, signifying that he fell in battle.

This creature before him was extremely strong, comparable to an immortal creature.

According to normal reasoning, before his transformation was complete, there should be no way he could be this strong. The main reason was because an immortal king previously performed a magical transformation, leaving behind many great dao traces in his body, making him extremely terrifying.

If the transformation was complete, its strength would definitely be comparable to a true immortal.

"I came here before in the past."

In the end, when everything was already properly discussed, Shi Hao said.

"It's you!" The Seven Colored Immortal Gold Man revealed a look of surprise. He recalled that three thousand five hundred years ago, there were two individuals, one young and one old who came here.

Shi Hao produced a stone that was dark and swarthy, asking, "What is this?"

"Immortal King's collection, something he was most fond of. It is said to be able to refine an unmatched weapon, but even after I studied it for a long time, I could never tell how it was different from an ordinary stone." The Seven Colored Immortal Gold Man said.

Moreover, he added, "If not for the immortal king's decree to leave it for those with fate, that I cannot harm humans, I definitely wouldn't have allowed you all to bring it away."

When Shi Hao heard this, he became serious, putting this stone away.

That day, under rumbling sounds, Shi Hao carried a mountain back to Imperial Court.

"Did I not see wrong?" A small dog cried out in alarm. This was but a dwelling made from Origin Stone! This was just too extravagant.

When they saw the Seven Colored Immortal Gold Man, everyone even more so felt shocked.

1. This origin is the same as the name of one of the immortal kings, Hunyuan. It means time immemorial, origin of the universe

Chapter 1914 - Immortal Dao Assistant

Shi Hao fulfilled his promise, establishing an exceptional great formation that gathered the natural luck of heaven and earth, nourishing this Seven Colored Immortal Gold Man, helping him complete his final transformation.

Then, Shi Hao set out on his own again.

In the past, when he sought out the body as a seed path, when Great Elder helped him cleanse his body and forge his primordial spirit, there were many preparations made.

There was one place with Evil Warding Divine Bamboo and Yellow Springs Fruits, after eating them, they could temper an unbreaking primordial spirit. Now, he was revisiting these old haunts.

There was a majestic great mountain hidden in the void, difficult to find, even harder to visit. In the past, Shi Hao needed Great Elder's jade stone piece in order to get close.

Now, he got to the mountain peak with a single step, arriving in that golden temple constructed from natural laws; the suspended temple.

He directly walked over, entering the Void Gold bridge, stepping onto the 'Immortal Mound'. n/-o(.V.(E-  
/L..&/)l/)n

This was inside of a secret world, there was Evil Warding Divine Bamboo as well as Yellow Springs Fruit hidden inside. There were previously rumors stating that once these two things fully matured, they could destroy the inauspicious.

However, no one has succeeded.

Shi Hao didn't come here for those divine goods, he already ingested them. He prepared to have some people from Imperial Court come here to temper themselves, seek opportunities.

He came for the heroic spirits!

The place where Yellow Springs Fruit grew was a place of extreme yin. There were countless war spirits buried here, Shi Hao had previously personally seen the terror of those war spirits with his own eyes.

Among them, some of the primordial spirit lights revealed in the darkness were especially brilliant, all becoming fierce and dazzling, no longer cold and sinister, carrying immortal dao auras.

These were precisely the heroic spirits of the Nine Heavens Ten Earths, after falling in battle, they were buried in this mound, this place becoming their final place of rest.

Shi Hao came to invite them to fight once more!

Dark mist pervaded on the dusky Immortal Mound, but if one opened their Heavenly Eyes, they would see lumps of primordial spirits were rising and falling, lying dormant. There were just too many heroic spirits here.

There were several heroic spirits among them that were already about to achieve immortal dao, entirely golden yellow, bright and vigorous!

"Seniors, even though I am unwilling to disturb all of you, I still came, it is truly shameful. There are some words that are hard to say, yet have to be said. I wish for you all to leave the mountain, to fight once more."

Shi Hao lowered his head. He truly felt unnatural here, uncomfortable. It was because these were heroic spirits who already fell in battle, already doing their all to protect this world in the past, and now, he had to ask them to leave the mountain again.

These spirits were created by remnant wills, produced by soul fragments.

If they died again, even the final imprints would disappear.

That was why Shi Hao felt inwardly ashamed, finding it hard to speak. However, he had no choice but to come. Now, the Nine Heavens Ten Earths faced the most dangerous period again, he was powerless to reverse the heavens alone.

In the end, he arrived before a giant stone. There was a golden talisman here that sealed this place.

An old peasant took form. He released a sigh. "Who would have thought that you really would come."

This old peasant was a drawing on a stone wall, now gaining sentience, taking form. He knew about everything here, in the past, he even gave Shi Hao pointers.

He had previously said that when the seal was undone, the heroic spirits here could be brought out and participate in a great battle. However, this might also be a double-edged sword, what if the creatures didn't bow down?

"Senior, you should come with me as well!" Shi Hao said to the old peasant.

Then, he activated the old and yellow talisman. With a hong sound, this place shook intensely. Hundreds of thousands to millions of heroic spirits howled, shaking the heavens above and earth below.

The Immortal Mound collapsed, earth and stone flying in all directions. The entire great earth was rising and falling, collapsing. Several million heroic spirits appeared, all of them lumps of light, in the end either turning into human figures, giant beasts, or divine birds, all different species present.

In the past, there were many immortal dao creatures who were buried here after death, that was why the heroic spirits that were born here were so powerful!

Sure enough, those golden heroic spirits, when they rushed over, carried terrifying winds, accompanied by blazing auras, truly close to immortal dao.

Of course, the most powerful one was precisely the one the old peasant told him about before, buried deep underground, always asleep.

There were actually three powerful figures that rushed into the heavens, turning into human forms. They were all true immortal dao figures.

One could imagine just how powerful they were when they were alive, even after death, their heroic spirits reached this level. Just how terrifying was this?

"It was you who woke us up?" An immortal dao heroic spirit spoke. He was entirely golden-colored, lacking a flesh body, only having a soul body.

"Yes, this younger generation carries inward shame, disturbing seniors' rest." Shi Hao truly felt extremely guilty.

"There is no need to blame yourself. The reason we exist is precisely for this day, to step on the battlefield once more!"

"It was precisely because we still carried remnant wills, wishing to redeem ourselves on the battlefield, and that was why we turned into heroic spirits. Our ultimate purpose is to return to the battlefield, to face the enemy, exhaust the last of our strength!"

Some of the heroic spirits were from the last great era, some even more ancient, impossible to confirm. Otherwise, there wouldn't be so many immortal dao creatures who appeared!

Shi Hao never expected them to be this direct. This made his eyes turn a bit sore. He didn't even have to explain much, these heroic spirits were already going to follow him.

"If we follow you out, we likely won't be able to exist for a long time." One of the heroic spirits warned.

"It is fine, once we leave, seniors will obtain blessings, able to receive the sheltering and nourishment of heaven and earth." Shi Hao said.

He told them that Imperial Court had powerful will force that could nurture the yang energy within all of the heroic spirits, help them break free of death energy, allowing them to become more and more powerful.

Not long afterwards, heavenly winds stirred. Shi Hao brought this army of millions back, arranging them in various giant palaces within Imperial Court, placing them there just like his own image.

From then on, these heroic spirits were baptised by will force, becoming more and more vigorous.

After Shi Hao made some arrangements, he left alone again.

He headed to the Nine Heavens' Immeasurable Heaven. In the end, he headed north, approaching that sea.

He released a sigh. In this Northern Sea, he had previously fallen into a time vortex with the Heavenly Horned Ant, seeing a white clothed empress. That woman crossed time and space to converse with him.

Unfortunately, heaven's mysteries erased everything, he couldn't recall the information the white clothed empress told him.

It seemed close, but it was precisely as the white clothed empress said. They were separated by time and space, one step a great era, the distance too far, some things impossible to defy the heavens.

The white clothed empress had previously gone against the flow of the great river of time, warding off an undying king, she also previously folded paper boats by the Kun Peng Nest, even taking form there before.

Shi Hao remained silent for a long time. In the end, he left.

He headed towards a forest, a forest that was submerged in the sea. In reality, there were great peaks here, in the past, the Imperishable Scripture was found precisely in the depths of this place.

He fought a great battle against He Wushuang there in the past, encountering the Immortal Smelting Pot, obtaining the Imperishable Scripture with great difficulty.

This time, it wasn't that he wanted to head to that place, but rather to approach those giant mountains.

"This is the place!"

Shi Hao raised his head. On the massive mountains no one had ascended throughout history, there were abnormalities, things that were difficult to explain clearly.

On one of the peaks was an ancient coffin. In the past, a set of human skin fluttered down, terrifying beyond compare, suspected to be a ghost immortal.

On another giant mountain, there was a seated creature who overlooked all things below.

Now, he came again, meeting them once more.

Hong!

This time, Shi Hao didn't hesitate, leaping out, rushing towards the peak. This was a restricted land, outsiders couldn't approach it at all.

However, Shi Hao's cultivation was now on an entirely different level. The restricted areas he previously couldn't step on were now like flat land. He went up.

There was an ancient coffin that rested on a precipitous cliff.

Right now, the ancient coffin was shut, next to it was a terrifying humanoid creature, body covered in red fur, half a foot in height. Its nails were pitch-black like iron hooks, eyes closed, guarding the ancient coffin.

Ahou...

As if it sensed something, this creature covered entirely in blood-colored hair opened its eyes, releasing a loud cry. All of the mountains and cliffs trembled, the distant vast bodies of water releasing heaven overflowing great waves, scattering the clouds in the sky.

This was a creature that was like a malicious spirit, too sinister-looking. Even its face was covered in red fur. When it opened its mouth, it was extremely red, only its fangs were snow-white.

Its eyes were red, extremely frightening.

"Supreme Being Realm." Shi Hao saw through its cultivation. Then, he nodded, a bit hopeful towards the creature in the ancient coffin.

Peng!

When the supreme being level creature threw itself over, Shi Hao's finger descended, subduing it, preventing it from moving at all.

"Dao friend, please come out to have an audience with me."

Kuang dang!

The ancient coffin's lid rolled off, a set of human skin fluttering out from within. Then, it swelled, floating in the sky in the end, its vacant eye sockets flickering with cold radiance.

Then, a person stood up from within, their entire body bloody, lacking skin, this scene horrifying. That set of skin belonged to him.

"I think dao friend should still wear the immortal skin." Shi Hao said calmly.

"I was skinned in the past, even if I wear it now, it will be difficult for me to recover." The voice was ice-cold.

However, in the end, the set of skin and the bloody flesh still merged together. This was an elder, all of his pores releasing blood. One could imagine just how miserable his death was in the past.

"This world really has ghost immortals." Shi Hao said with a light sigh.

"Correct!" On another mountain peak, someone replied. This was a creature with long gray hair, its eyes also a deathly gray, seated on a mountain peak.

Shi Hao noticed him a long time ago, but he ignored him.

In the past, when he passed this place, he saw that seated individual, as well as the fluttering set of human skin from this ancient coffin, suspecting that a ghost achieved immortality.

“We do not wish to be involved in mortal affairs. What did you seek us out for?”

Right at this time, on a distant peak, a woman also spoke, her face pale like snow, another ghost immortal.

“You all seem to have a bit of skill. How were you able to achieve immortality?” Shi Hao asked.

“Is there a need to tell you?” The gray-haired man spoke. Then, with a hong sound, he took action, striking at Shi Hao.

Peng!

Shi Hao directly grabbed his wrist, coldly saying, “I’ve killed a true immortal and three undying beings. Do you all wish to give me a try too?”

When these words sounded, this place became quiet. The three ghost immortals remained silent for a long time.

“Dao friend, why have you come?” The elder in the ancient coffin spoke, his age seeming the greatest.

He saw Shi Hao’s expression was indifferent, saying again, “We gained life from immortal corpses, developing consciousness, cannot be considered true immortals. However, because of this place’s unique properties, our corpses retain vitality, our strength when alive still present, that is why we can display immortal dao might.”

He was rather honest and sincere, speaking of his origins.

They were all new primordial spirits that were created. Their bodies are powerful beyond compare, equivalent to true immortals, but the primordial spirits were not that strong, to the extent where they didn’t understand any methods.

“You all have the magical force of true immortals, but lack immortal methods. I wish to ask you all to come out of the mountains, and then grant you all immortal dao scriptures, even immortal king scriptures!” Shi Hao said.

The three ghost immortals’ breathing immediately became hurried when they heard this, they were tempted.

Then, after some discussion, they agreed to leave with Shi Hao.

Shi Hao knew that the three of them would only listen to him while he was still in this world, they would feel threatened by him. Once he left, they might become a disaster.

However, he wasn’t scared because he had confidence in always subduing them.

A thousand five hundred years, it passed by slowly just like that.

Imperial Court flourished to its peak. Most of the geniuses under the sky entered Imperial Court, now already grown up, overlooking all sides.

This was especially the case when the Seven Colored Immortal Gold Man came out of seclusion, becoming someone comparable to an immortal dao figure after completing his transformation, overlooking the dark cosmos, on guard against the darkness creatures' invasion. At the same time, he absorbed the essence of the sun, moon, and stars here, furthering his cultivation.

There were the heroic spirits as well, under the nourishment of will force, the three great immortal dao heroic spirits stabilized their dao fruits. There were some who were close to true immortal level as well, all of them now protecting Imperial Court.

The three ghost immortals also understood their roles, guarding Desolate Border's passage.

Of course, Shi Hao's will force incarnation always followed them, protecting everything with them.

#### Chapter 1915 - First Footprints

In reality, these years weren't peaceful. Regardless of whether it was the Desolate Border's uninhabited region's paths or the darkness passage in the depths of the cosmos, every so often, there would be cracks, and then creatures would rush out.

It could be said that after all these years, Imperial Court's cultivators were always fighting fiercely.

The only fortunate thing was that this was the Cultivationless Age, so the other side's creatures felt restraining fear, not daring to truly connect the two worlds, all of them holding themselves back somewhat.

At the same time, Shi Hao invited over the restricted region lord, crystal skull and other old monsters to arrange some things so that the undying kings couldn't truly cross over, only then did they feel slightly more at ease.

"The Realm Sea is in chaos, some creatures are about to reach the shore. The other side is on guard, the undying kings are making preparations to face a great enemy!" The restricted region lord said.

Several hundred years ago, Shi Hao paid Dam World another visit, but then didn't go back. It was because there were creatures that were getting close, about to ascend the dam!

There was definitely going to be a battle there, and it was going to be incredibly bitter. The creatures who reached the shore would immediately stop their enemies!

"Regarding that rotten wooden chest, were you able to figure anything out?" Shi Hao asked the restricted region lord.

"Nothing, I am still unable to open it."

Even though this thing was extremely important, they just couldn't open it, leaving even the restricted region lord with a headache, powerless to do anything. Not even the crystal skull and other old freaks could do anything about it.

They spoke candidly, knowing that this thing was extremely important, that it was a mysterious artifact from the Age of Emperor Collapse. It might be even more mysterious than the Origin Ancient Artifact in the other side and Burial Region!

“They’re coming again!”

Suddenly, Shi Hao got up. When he received information, he quickly hurried into the depths of the dark cosmos. The black lotus appeared again, wishing to open up a path, so they needed Shi Hao to burn it away with the flame in his body again.

Ao...

This time, it was a bit different. In the dark cosmos, a group of darkness creatures rushed over, carrying bitter viciousness, as well as thick black mist.

Undying!

On the other side, there was an undying level expert. It was a violent ape, its body entirely snow-white, appearing exceptionally striking in the black mist. It was surrounded under blood-colored lightning, interweaving around it densely.

This violent ape was too strong, and its size was massive, simply about to shatter the black lotus passage. There was a wave of world devouring terrifying aura. n--o)-v-/ε/.ℓ)-b-.l/-n

Ao...

It released a great roar, directly devouring a star. It widened its mouth and bared its fangs. That star was crushed under its teeth, chewed through, dazzling radiance was released. It turned into essence energy, and was then absorbed.

“Kill!”

The Seven Colored Immortal Gold Man took action, forming an imprint, slaughtering his way towards it.

At the same time, Shi Hao also arrived. He smashed at the demonic lotus, wishing to destroy it first.

The silver violent ape released black mist from its mouth, this substance was darkness matter. It fought a great battle against the Seven Colored Immortal Gold Man.

“Be careful, don’t become contaminated by the darkness!” Shi Hao roared out in warning.

He already rushed up to the roots of the demonic lotus. Suddenly, there was a bo sound. The roots exploded, an incredibly sharp keratin hook appearing, extremely massive, even larger than a star.

Shi Hao’s skin was covered in a layer of goosebumps, immediately activating the mysterious flame, releasing it to burn that area.

Hou!

A great roar sounded, ringing through the realm wall. In the surroundings, stars exploded one after another, turning into powder, the scene horrifying to the extreme.

Everything was because of that creature’s roar.

This was still the result through a realm wall, merely some fluctuations that passed through the passage, yet it already created this type of scene. One could imagine just how domineering it was! If its true body crossed over, the result would be too horrible to contemplate.

That keratin hook withdrew, injured by the mysterious flame. It withdrew into the darkness world.

The demon lotus' roots were shattered. The moment it was ignited, Shi Hao vaguely seemed to have seen the other shore. There was a giant claw, the keratin hook was merely one of its fingernails!

Just how terrifying was this creature? The nail was even larger than a star, its body could be said to be as boundless as the great dao!

If it released a magical projection, that would be even more unimaginable.

Shi Hao sensed that things were only going to become more and more dangerous. This might be a half immortal king level creature.

After this battle, the silver violent ape was killed, not enough even if it had undying level strength. However, Shi Hao and the others sensed the severity of the situation.

A half immortal king level expert was about to take action, it was going to be difficult from here on out!

Shi Hao rubbed his temples, feeling a headache. Realm Sea's creatures were going to get onto the shore, flames of war destined to overflow into the heavens, likely involving this realm.

Meanwhile, the other side and the creatures of darkness would also slaughter their way over at this time, everything just bunched up together.

"It really is troubled times!"

Without a doubt, the most cruel times were approaching. The truly worrisome times were about to appear.

Sure enough, in the following five hundred years, the battles became increasingly cruel. Tyrannical creatures crossed over from time to time. Regardless of whether it was the Seven Colored Immortal Gold Man, the three ghost immortals, or the heroic spirits, they all moved out.

Meanwhile, Shi Hao's will force body and his true body both moved, guarding all sides, fighting against others.

Imperial Court also suffered losses, some of the heroic spirits falling, to the extent where even one of the three great immortals returned to the dao, assimilating with the laws of heaven and earth.

However, those who survived became more and more powerful. After experiencing the sharpening of great battles from two realms, the more they were oppressed, the more valiant they became. Some people, as long as they survived, they would become stronger and stronger.

Meanwhile, at this time, in the eyes of the people of this world, Shi Hao already reached five thousand five hundred years.

The Heavenly Horned Ant, Mu Qing, crimson dragon and others weren't that different in age. At this time, a few people were finally about to break through, they weren't far off.

Achieving the dao at five thousand something years, even if this was in Immortal Domain or the other side, this was heaven warping talent, let alone in this type of Cultivationless Age.

If it was in Immortal Domain, they might not be much slower than Ao Gan, Pan Yi and the others.

Shi Hao's situation could only be considered an exception, they couldn't be compared to him.

At this time, Yun Xi entered her later years. It was difficult for her to become a supreme being, with her current cultivation, she already didn't have much time left.

However, her appearance always remained that of a bright and beautiful young lady, never aging, maintaining her most beautiful state. This left her fulfilled, feeling incredibly blessed.

"I am only a bit worried about this little one." Yun Xi looked at the child peacefully sleeping in the white cauldron.

During this period, the little fella was always asleep, already sealed up. He would occasionally be brought out to bathe in the splendor of the sun, moon, and stars, cleansing his body.

"You don't need to think too much. With me here, how could I let you go?" Shi Hao said.

"Don't waste immortal blood great medicine on me, whoever can become a supreme being, prepare it for them, leave it for those who are stronger!" Yun Xi refused.

When they spoke up to here, her gaze became gentle once more, saying, "You've treated me extremely well, I already have no regrets in this life, you don't need to do anything else for me."

Then, she revealed a strange expression. "I know that you still have some remnant will you cannot erase in your heart, wishing to head to the other side, see that person again." When she spoke up to here, her voice was shaking a bit.

"You don't need to think too much. I won't go anywhere, I will just remain by your side!" Shi Hao said.

When Yun Xi heard this, she became happy, saying, "In this life, you only belong to me." After saying this, her eyes wandered, becoming a bit misty. "When I grow old and die, when I leave this world, you can then look for her, I won't mind then. Don't let your heart be forever trapped in a cage."

When he heard these words, Shi Hao's expression suddenly became sharp, saying, "Don't say that, the two of us will spend our years together!"

"I don't need your immortal blood great medicine, I only wish to leave this world naturally!" Yun Xi shook her head, her attitude firm and resolute.

"I will use my blood, help you live a second life!" Shi Hao said.

He cut open his wrist, forcing out true blood, resplendent like scarlet multicolored light, actually illuminating heaven and earth. Drop after drop descended, carrying a fragrance, a medicinal smell.

His blood was only better than true immortal blood great medicine!

Shi Hao was extremely domineering, forcefully refining his own true blood, cleansing Yun Xi's body, transferring the undying medicinal nature into her body.

"This will harm your vitality, I don't want it!" Yun Xi stubbornly refused.

However, how could she go against Shi Hao?

"There's no need to worry, it won't injure me much. Back then, Grandpa Chief, Dazhuang, Ermeng and the others were all cleansed in this way." Shi Hao said.

Yun Xi's eyes carried tears. If there was a choice, who would be willing to die, who would be willing to part with their children, be forever separated from their loved ones?

She was like the past old clan chief, Ermeng, Huzi and the others. The reason she refused was because she didn't want Shi Hao to waste his own true blood essence, scared that he would be injured, that it would be hard for his dao skills to advance.

Only when they truly cared about him, would they be like this.

The same day, the Heavenly Horned Ant achieved the dao, his might shocking heaven and earth, finally breaking through that barrier, entering the ranks of supreme beings.

Several days later, Mu Qing and the crimson dragon achieved the dao together, rising up to supreme beings!

This was a joyous matter, Imperial Court was in celebration, everyone in high spirits. Three supreme beings appeared at the same time, this was a world shocking great event!

However, immediately afterwards, a great battle erupted in the Desolate Border's uninhabited region!

The other side invaded again, this time attacking as if they were trying to break out of prison. A half undying king reached out a great claw, wishing to cross over!

However, this world became increasingly terrifying. The Cultivationless Age suppressed everything, rejecting the creatures of the outside world, stopping him from entering.

That year, the three undying beings all crossed while sealing up themselves, let alone this level of existence who was seriously restricted.

In the end, he was forcibly sent back!

Shi Hao led all of the experts in facing the enemy. During this battle, his pupils contracted, staring at the giant black wolf that appeared at the mouth of the passage, his expression almost going rigid.

This was a giant wolf, its body massive, looking like an archaic demonic mountain, making everyone feel a great pressure, as if they were suffocating.

Its fur was black and glossy, a pair of wings on its back, looking like the wings of a fallen deity, pitch-black like ink. There was even black lightning surrounding it.

The entire battlefield fought bloodily, it was extremely intense. However, Shi Hao was always absent-minded, almost forgetting about the great battle.

Hou!

The giant divine wolf roared, shattering mountains and rivers.

Peng!

Shi Hao reached out a great hand, erasing all of the violent commotion, stopping the great dao ripples that spread over. Otherwise, the consequences would be unimaginable.

Then, Shi Hao went crazy, truly displaying a magical projection, becoming like an unrivaled demonic god that tore apart worlds, unstoppable, fighting until a rain of blood scattered about.

Pu!

Three creatures that were close to the undying being level were immediately smashed to pieces when they just approached, their blood splashing everywhere.

Shi Hao fought until his eyes turned red. He rushed to the passage, wishing to grab that black giant wolf.

It was because it looked familiar. This wolf was extremely similar to the little wolf at Huo Ling'er's side, the young divine wolf they brought out from the Hundred Shattered Mountain Range!

Chapter 1916 - Heaven's Core Imprint

Unfortunately, he was just a bit off. That black giant wolf turned around, entering the passage, fleeing back to the other side.

Shi Hao stared at it as it escaped. He roared out, really wishing he could slaughter his way over, get to the bottom of this.

However, in the end, he endured it, restraining that urge. He silently stood in front of the passage, his entire body releasing a wave of ice-cold killing intent!

"Kill!"

Shi Hao turned around, his eyes immediately widening, body releasing heaven overflowing killing intent. He rushed towards the undying being who was currently fighting against the ghost immortals.

"All of you can just go to hell!" Shi Hao unleashed a great slaughter. In this battle, ninety percent of the intruders were all killed by him alone, the leading undying beings torn apart by him bare-handedly.

"Speak, what kind of background does that giant wolf have?" His words were overcast, forcing the undying being into submission. He seized his primordial spirit, forcing it to the brink of collapse.

"I don't know!" That undying being responded.

Pu!

With a turn of his hand, Shi Hao killed him. His primordial spirit exploded, turning into a rain of light.

Similarly, the other individual also entered his hands, in the end losing his life.

Within a hundred years, the Emperor Butterfly, Divine Striking Stone, Lightning Spirits, Shi Zhong and Zhu Lin achieved the dao one after another, shaking all under the heavens. This was too terrifying! These people finally achieved perfection after five thousand years, entering that level.

Of course, this had something to do with the Seven Colored Immortal Gold Man, heroic spirits and others' pointers, guiding them, making things a bit smoother for them.

The crucial point was that they guarded the path of two realms, continuously fought great battles, already used to the undying beings' methods, gaining too many insights between life and death.

That was why they were able to achieve the dao one after the next.

This was the cruelest age, and also the age where the strong most easily emerged.

It was the cruelest because the environment was terrible, the reason why the powerful emerged was because they were bathed in blood and flames, always fighting great battles, testing their wills. If they didn't die after a hundred battles, they would definitely have benefits, able to rush into the heavens during the Cultivationless Age.

Joyous occasions happened continuously during these hundred years, Imperial Court becoming more and more prosperous.

Only Cao Yusheng had a bitter face. "When will I become a supreme being? Could it be that I really have to be buried, only after a great era passes can I achieve immortality?"

Shi Hao became speechless. Fatty Cao's natural talents really weren't bad, but compared to Mu Qing and the others, he was still a bit lacking.

"My master has said that I need the baptism of one era after another, that I need to be buried in a burial cave, transform myself, and only then can I produce an unmatched immortal body." Cao Yusheng said with a sigh, his deadly earnest manner leaving others speechless.

He knew that even though his aptitude was great, compared to the highest level bloodlines, he was still a bit off.

As the years passed, in everyone's eyes, Shi Hao was already five thousand six hundred years old.

In this year, Shi Hao took action, refining his own true blood, extending another life for some of those close to him.

His parents couldn't hold on any longer, already old and gray-haired. Shi Hao secretly cleansed their bodies with his true blood, granting them exuberant life essence energy once more.

Hairy Ball, the Zhuyan was also already old, in the end, he still shared no karma with the supreme being level in this life.

Apart from this, the Green Scaled Eagle bloodline, even though they cultivated the great Kun Peng method, they similarly grew old, already reaching their limit.

The big red bird cultivated the True Phoenix Precious Technique, but it still couldn't undergo rebirth, unable to live a second life, now like Second Baldy, all of his feathers almost fallen off.

The big black tortoise couldn't move, also entering its later years. It muttered weakly, "Which bastard said that turtles lived for eighty thousand years? My \*ss, this tortoise grandpa is going to vomit all over

your stupid face! Do you know how much time cultivation takes? This tortoise grandpa almost went crazy twice!”

When Shi Hao began to refine his own true blood, the old tortoise widened its eyes, waiting anxiously, as pitiful as pitiful could be, scared that Shi Hao wouldn't give it any.

In the end, its wishes were fulfilled, the flame of exuberant life within it ignited again. It revived!

“You really are fine? Are you not scared of your vitality being damaged?” After the big black tortoise revived, it carried a doubtful look.

“It's fine!” Shi Hao said.

“Then just leave behind another bowl of true blood, it's too delicious!” This vulgar big black tortoise moved its fists, continuing to ask Shi Hao. In the end, it was directly sent flying by a kick.

No matter how strong Shi Hao was, he couldn't endlessly squander his own true blood. He could only save a small portion of people, if he continued to extract his own true blood, there would be great issues for himself!

He didn't hesitate to pay the price, saving the Green Scaled Eagle, big red bird, unicorn beast Little White, even the big black turtle getting a share of the limelight. All of this was because he still carried some inward softness, reminiscing the past, finding it hard to forget past emotions.

...

At this point, no matter how deep his dao skills were, one shouldn't easily exhaust their own true blood essence since there might be great dao hindrances in the future.

After more than a thousand years, Imperial Court experienced many great battles. Those who didn't fall after endless battles became stronger and stronger.

Through endless tempering, with the guidance of the Seven Colored Immortal Gold Man, ghost immortals, heroic spirits and other immortal dao figures, large amounts of powerful individuals emerged from within Imperial Court's later generations, the sect becoming more and more glorious.

Even though deaths were unavoidable with great battles, some geniuses falling, dying early, in the end, there were still generations after generations of outstanding individuals who survived, becoming stronger!

At this time, Shi Hao, in everyone's eyes, already reached seven thousand years of age. However, he was still vigorous, full of life force, maintaining his youthful appearance.

In reality, when his experiences during the Age of Emperor Collapse were included, he already crossed five million years of age. However, the traces of time truly couldn't leave much on his body.

“Could I be considered to have achieved immortality in the world of mortals?” Shi Hao thought to himself. He felt like he was still a hair off!

However, he could defy reason and kill immortals!

This was precisely a Pride of Heaven that grew up in the Cultivationless Age, the dao results produced in the cruelest age unimaginable, extremely glorious!

Once one made achievements, they would surpass the creatures of other environments.

Moreover, during these thousands of years, the world continuously changed. Even though the spiritual essence was dried up, the great dao high and distant, the natural laws were actually becoming whole, evolving, recovering.

However, this place was different from Immortal Domain and other places. After the great dao was gradually restored, the cultivation path would still be difficult, to the extent where all cultivators would be further suppressed.

Now, it was easy for one to return to the dao, assimilate into the natural laws!

In the past, the world was beaten into ruin, the natural laws having deficiencies, the world half destroyed. Meanwhile now, it continuously devoured itself in reverse, absorbing all of the power that drifted away in the world, even including the essence energy of cultivators.

All those whose dao skills weren't condensed would easily be beaten down from the clouds.

When one's dao heart was slightly unstable, they would easily experience 'dao scattering', sinking into a state with no hope of reprieve.

This world was recovering, the great dao made whole. However, it didn't nurture creatures, instead further suppressing them, this was where the Cultivationless Age was terrifying. nove-1B.1n

The so-called Cultivationless Age, was precisely following the decline of prosperity, the world would instead seize the essence energy of all life, suppress all creatures, using this to compensate itself!

During this period, the Heavenly Horned Ant, Mu Qing and the others discovered a serious issue. When they became supreme beings, it was difficult for them to advance towards the peak of extreme dao.

Moreover, this situation was becoming worse and worse. After more than a thousand years passed, it was still difficult for their cultivation to advance even an inch!

Only Shi Hao was rather different, his cultivation path extremely smooth, to the extent where he could sense the world's energies and fate supporting his body, converging towards him.

He even had a feeling as if he was becoming one with this world, becoming the core imprint of heaven and earth. At that time, he could control the world, crush all living things.

In the end, after the restricted region lord, Shi Hao and the others discussed this, they reached a conclusion. The Cultivationless Age might have a great transformation happening.

At this time, whoever stood at the extreme peak of the great dao, their great dao imprints would harmonize with heaven and earth, their dao root would become one with the core of heaven, suppressing the magic and dao of others.

The Heavenly Horned Ant, Mu Qing, and others became stupefied when they heard this. This meant that Shi Hao alone stood at the absolute peak, suppressing them, preventing them from rising to the highest realm?

“Will the creatures of the restricted regions fight for this type of dao fruit?” Shi Hao asked.

“The restricted region lords won’t bother with this type of thing, they don’t need it. If a true immortal appears, would they be able to defeat you?” The crystal skull’s eye sockets were deep as it said this.

At this point, everyone sensed the severity of the issue.

According to their derivations, only one individual could be at the very peak in a world, able to suppress all clans in a region. This individual would be granted the Heaven’s Core Imprint, harmonizing with it.

If this was the past, the world being deficient was one thing. However, now that the great dao was gradually becoming whole, this type of thing was inevitable.

The Heavenly Horned Ant, Mu Qing, Shi Zhong and the others all had bitter smiles on their faces. Wasn’t this basically the same as having no chance to reach the peak of dao? In an age where Shi Hao existed, how could others possibly rise up, climb to that type of level?

“It’s fine, I do not need this Heaven’s Core Imprint. When I personally examine it for a bit, I’ll immediately abandon it, give you all a chance to rise to the peak of extreme dao!” Shi Hao said.

He even felt like he didn’t need it, that he should just directly give it up, because the path he walked was the body as a seed path, he didn’t need these things.

However, the restricted region lord had him walk this path, saying that this process of compensating for the faults of the world’s great dao was extremely precious, this type of experience too rare.

This was especially the case when the Heaven’s Core Imprint formed for the first time after the world was restored, even more so possessing an entirely different meaning.

“In one world, only one person can suppress all dao, unmatched in the current age, the sole sovereign. Isn’t this precisely the future cruel path?!” The restricted region lord said with a sigh.

Only in the Cultivationless Age would this type of terrifying scene be created!

...

Immortal Domain, within a king city.

This was a territory that belonged to an immortal king, a massive king city. It was located in the cosmos, the stars of the heavens around it appearing incredibly insignificant.

It seemed like the center of the universe, bearing the glory of endless ages, surrounded by the endless dao of the heavens. Natural laws were everywhere, all of them like stellar waterfalls as they gathered towards this giant city.

This was precisely Aocheng King City!

The immortal king of a generation, Aocheng, resided here.

In the city, it was incredibly prosperous, massive beyond compare, not inferior to Pan King City in any regards.

In the restricted region at the very center was Aocheng Immortal King's dwelling. Only the clan's direct line of descent could enter.

Right now, in a primal chaos filled ancient cave, a blurry figure sat on a praying mat. It was extremely hazy, just one individual, but the great dao was suppressed. All of the laws were below the praying mat, making him seem aloof and remote!

With a shua sound, he opened his eyes, two streaks of cold light rushing out from his eyes, as if they came from millions and millions of years ago, extremely horrifying.

If the other experts were here, their bodies would definitely explode.

"Where is that boy?" He spoke, his voice long and drawn-out, as if it came from endless ages ago.

"Ancient ancestor!"

A pair of dao children, one male, one female, walked in, bowing with great respect. They didn't look that old, but the great changes within their eyes revealed the truth.

These were two individuals who lived for who knew how many great eras, long achieved true immortal cultivation.

Chapter 1917 - Immortal King's Instructions

"Choose a person from the direct line of descent who is stunning enough, and then send him to the Nine Heavens Ten Earths." Aocheng said.

That place's great dao was deficient, currently experiencing great changes. However, in the end, everything would go full circle, the time now approaching. He wanted a direct descendant from Ao Family to merge with the Heaven's Core Imprint, obtain a great instance of natural luck!

Aocheng Immortal King was expressionless. After endless ages, he didn't speak much words. Yet today, he spoke an entire line, leaving the two children shocked.

They knew that this matter was definitely extremely important.

Otherwise, why would the ancient ancestor give these types of instructions?

"Can we choose Ao Gan to go?" One of the dao children quietly and cautiously asked.

It was because in the recent hundreds of thousands of years, Ao Gan was considered a direct descendant who was stunning enough.

"He has been given a chance, but he missed it." After saying this, Aocheng Immortal King didn't say any more, closing his eyes.

The two children hurriedly delivered a bow of respect, and then slowly withdrew. Then, they left this place, leaving the primal chaos ancient cave.

They knew that this time, because Ao Gan lost to Huang, he already lost his value in the ancient ancestor's eyes, he was no longer attached any importance to.

Inside Ao Clan, true immortal level experts gathered in the ancestral palace. After carefully discussing things, they ultimately chose a disciple who achieved the dao more than a hundred thousand years before Ao Gan, someone who was a step away from the true immortal domain.

This individual was stunning enough, his aptitude definitely not inferior to Ao Gan's. However, he was locked up in a heavenly prison because he was too wild and untamed, challenging the dignity of the clan's true immortals.

"Haha... I've finally broken free! That group of old but still not dead fellas still chose to release me in the end!" An eccentric with dishevelled hair and eyes full of cold light walked out from the prison. n--o)-v- /ε/.ℓ)-b-.l/-n

"Ao Tuo, your behavior has always been wanton and unrestrained, going against the clan's laws. This time, I hope you can change your ways, at the same time bring yourself great natural luck!"

"Don't worry, old fart, I already heard everything. What is that bumpkin in the lower realms worth? They are nothing more than some barbarians. If I go, I'll kill them all with a single hand!" Ao Tuo's eyes released dazzling brilliance. His hair was a complete mess, full of wildness.

"Unbridled!"

The two true immortals were furious. This junior was lacking in discipline, showing no respect for them at all, still not changing his ways even now, calling them old farts in front of their faces.

"Ao Tuo, you need to understand that this time, there will be other immortal king descendants who will head down to obtain this natural luck. You cannot act too carelessly!"

If not for Ao Tuo's strength being astonishing enough, his strength dominating an age, they truly wouldn't pay him any attention. However, this time, they needed a fierce person like him to suppress the other immortal king descendants.

"Heh, aren't they just like us, heading down to the lower realms to pick peaches, seize the natural luck that belongs to those bumpkins? Don't worry, the natural luck is already mine, no one can seize it from me!" Ao Tuo said with a sneer.

"In order to prevent anything unexpected from happening, the clan will send two immortal dao experts to follow you into the lower realms. They will also carry great weapons, so no one can stop you all!" A true immortal said.

"Old fart, aren't you worrying too much? With me there, no matter which group of barbarians shows up, or if any other immortal king descendants appear, they cannot do anything." Ao Tuo's eyes shone brilliantly.

"Brazen! You unfilial child!" Ao Tuo's father also came. He was simply about to die from anger, pointing at Ao Tuo with his finger, his entire body shaking.

He really wanted to slap this unfilial son to death with a single slap. These were two true immortal old ancestors, yet this brat actually kept calling them old farts.

Sure enough, the two true immortal old ancestors' faces darkened, turning around and directly leaving.

If it wasn't because they really needed this descendant, they would have long sent out a slap, locking him up for another hundred thousand years.

...

Immortal Domain, within another cosmos depths.

An ancient giant city floated in the void. As the years rose and fell, it became more and more prosperous, flourishing with even greater vigor, able to dominate the endless ages!

This was Taishi King City. [1]

Taishi Immortal King resided here, this was the center of the star system he ruled.

Similarly, today, Taishi Immortal King's eyes also opened. In the primal chaos, he released a decree, having the clan choose a descendant who could dominate all to go fight over a great instance of natural luck.

"This is an immortal king foundation. If it cannot be seized, one can forget about achieving immortal king status."

When these words sounded, Taishi's bloodline was greatly shaken!

In Immortal Domain, all of the kings were shocked, all sides sensing something! Even though they didn't need it themselves, if one of their later generations could obtain a Heaven's Core Imprint, then they might be able to become immortal kings in the future.

They all already sensed that the lower realms were about to experience great changes.

Now, it was precisely time to merge with the great dao Heaven's Core Imprint. Once obtained, it would bring tremendous benefits.

Nine Heavens Ten Earths.

The atmosphere was a bit strange, the creatures in the restricted region clearly also aware of what was going on, what kind of transformation was taking place in this world. A great instance of natural luck was about to appear.

Some restricted regions couldn't remain calm anymore. Someone was about to take action, seize this natural luck!

This was a Heaven's Core Imprint, by seizing it, one would become set up on high, overlooking a great era, able to look down on all of their competitors.

"Exactly what cultivation level have you reached now?" Inside Imperial Court, Cao Yusheng asked Shi Hao.

In recent years, Shi Hao had killed true immortals and cut down undying beings, his accomplishments world shocking. Everyone wanted to know just what level he reached.

“The peak of extreme dao, still haven’t achieved immortality. I can be considered to still be in the Supreme Being Realm I reckon.” Shi Hao replied.

Everyone was stunned. He really was defying reason by killing immortals, it really was shocking!

Even the Seven Colored Immortal Gold Man, heroic spirits and ghost immortals were speechless, not knowing what to say.

“If you obtain the Heaven’s Core Imprint, would you be able to achieve immortality?” The Heavenly Horned Ant asked.

Shi Hao released a light sigh, shaking his head and saying, “I’ve already stood at the peak of extreme dao for a long time, always just a hair off from transformation. Heaven’s Core Imprint cannot push me into immortality, but it indeed will bring me benefits. My dao needs my own path, when the time comes, I will naturally achieve immortality.”

However, everyone knew that once he achieved immortality in this way, it would be a completely different meaning!

To achieve immortality in an age where immortal ascension was not allowed, this toppled the knowledge of everyone throughout the endless ages!

“You really are a monster. You aren’t even an immortal, yet you can defy reason and kill immortals, how can immortal dao creatures even tolerate this?!” The Seven Colored Immortal Gold Man felt aggrieved.

The ghost immortals’ expressions changed again, feeling great restraining fear towards Shi Hao.

“A supreme being really can kill an immortal?” Shi Zhong swallowed a mouthful of saliva.

“Only by believing that you are without equal can it be possible.” He wanted to use Great Elder Meng Tianzheng as an example, but in the end didn’t say anything, releasing a light sigh.

The Heavenly Horned Ant and the others sighed as well. From the past until now, just how many supreme beings like this were there?

...

Everyone under heaven was waiting for a chance, especially some creatures in the life restricted regions. They all wanted to seize the heaven’s opportunity!

However, the troops of Imperial Court were still the same, still guarding the passages of the two realms, not doing anything special. They remained focused, guarding the various lands.

This day, the world trembled lightly, something different clearly happening.

“This damned lower realm, the great dao’s suppression is too strong, making my entire body feel uncomfortable!” Ao Family’s people appeared.

Ao Tuo’s hair was disheveled, dressed in beast skin battle armor, eyes flickering with cold light, looking like a prehistoric vicious beast, carrying a type of indescribable unruliness.

Behind him followed two middle-aged men, both of them true immortals. They feared that something unexpected would happen to Ao Tuo, so they followed him here, great killing weapons in hand.

They frowned. This world seriously rejected them, making them feel a great pressure, they were extremely uncomfortable here. Part of their immortal might was forced to be temporarily sealed off.

Ao Tuo raised his hand, releasing a terrifying and shocking aura. How could normal cultivators withstand this? The ordinary cultivators nearby almost exploded on the spot, their faces pale like snow, blood flowing out from the corners of their lips, their bodies cracking apart.

“Imperial Court’s... Huang is most powerful.”

This person was shivering all over, saying this.

“Brazen, this is just an impoverished lower realm, an uncivilized land. These are just a group of savages, yet they dare claim to establish an imperial court? You all don’t understand the height and depth of this world!” Ao Tuo berated.

Pu!

This pitiful cultivator began to split apart under this type of might, exploding to pieces under this roar, having his body and spirit erased.

“Imperial Court, I want to raze it to the ground. Daring to take on this name, they simply don’t know the difference between life and death!” Ao Tuo said coldly.

In his opinion, not even his Ao Family dared establish an Imperial Court in Immortal Domain out of restraining fear towards the other immortal kings, not daring to break the peace and balance, yet someone in the lower realm actually dared do this.

Along the way, they captured cultivators, asking them where Imperial Court was, hurrying straight there!

There were palaces consecrating divine images everywhere, some of Shi Hao, some of heroic spirits.

Ao Tuo headed directly to Imperial Court’s central heavenly palace, precisely near Crucifix Yin Yang Earth. It was easier to head to the eight regions from here.

Massive heavenly temples rested here, majestic and imposing, will force rich, gathering from all directions. Draconic energies surged, auspicious multicolored light erupted, extremely divine.

On the heavenly temples hung a horizontal inscribed board made of Immortal Gold, the two words Imperial Court carved on it, a wave of world suppressing great aura spreading from it!

“Just a toad releasing a yawn, they really are putting on too much airs!” Ao Tuo sneered, carrying an expression of mockery. With a raise of his hand, his palm and fingers enlarged, grabbing a great mountain.

Honglong!

He fiercely smashed it out, wishing to crush Imperial Court into ruins. He had an expression of contempt on his face, completely looking down on this lower realm’s so-called Imperial Court.

It was because in his opinion, the current lower realm only had some creatures with ordinary strength. He wanted to powerfully subdue them, use this to inform all the creatures of this world that he, Ao Tuo, has arrived.

“I have come for the Heaven’s Core Imprint! What Imperial Court, what number one expert? All of you better stand to the side!” Ao Tuo said with a laugh.

Hong!

The great mountain smashed down. That place erupted with great brilliance, incredibly dazzling. The entire mountain was stopped in front of the heavenly temples, and then it exploded. It was because there were extreme formations established here to protect Imperial Court.

The two true immortals inwardly jumped, feeling like this formation was extraordinary.

In reality, when they heard that Imperial Court was established by Huang, they already revealed a look of alarm, knowing well that this person was special. He even defeated their clan’s Ao Gan.

Ao Tuo didn’t know about this because he was locked up for more than a hundred thousand years.

The two true immortals weren’t really fond of Ao Tuo. Being treated with disrespect by a junior and having been called old farts changed their expressions. They didn’t mention Huang’s achievements, just letting Ao Tuo run loose, wishing to see what kind of methods he had.

The main reason was because the two true immortals were secure in their backing, extremely arrogant. Since they brought over great killing weapons, they believed that they could cut down even gods and buddhas!

The two of them had faith that they could deal with any disasters that came their way.

However, they didn’t know just how terrifying Huang became in these thousands of years, that he already killed true immortals and undying beings, his achievements too glorious.

“Who dares disturb my Imperial Court?” A voice shouted from within the heavenly temples.

“Even ants like you dare establish an Imperial Court, vainly wishing to seize profound natural luck? All of you better crawl out here right now, all those who dare defy me will be annihilated!” Ao Tuo threatened with a cold voice.

This type of nasty temper had always made the clan’s true immortals’ faces darken, not willing to pay him any attention, so one could well imagine how outsiders would feel when they heard this. There was no way they could endure it.

1. Taishi = great beginning

Chapter 1918 - Controlling the Land With a Sky Covering Palm

“Who are you?” Someone from Imperial Court said with a scrunched nose, enduring his anger and asking this.

“Immortal King Aocheng’s direct descendant!” Regardless, Ao Tuo was still respectful towards his clan ancestor.

Shi Hao who was overlooking the passage between two realms immediately received a report, informed that there was an Immortal King Clan's descendant who arrived, immediately leaving him furious.

They were guarding this realm right now, Immortal Domain's creatures not helping him was one thing, yet they dared challenge them at this time, this was beyond unendurable.

This was especially after he heard that this was a descendant of Immortal King Aocheng. Shi Hao's face immediately became covered in killing intent!

When he was in Immortal Domain, Aocheng had previously personally taken action, almost ending his life right there, establishing a great grudge that couldn't be dissolved.

Moreover, Aocheng Immortal King and Taishi Immortal King, had tried to kill Willow Deity back then, sending down endless lightning, causing its life force to almost perish, ultimately falling down to Stone Village.

Shi Hao immediately hurried back, his face sunken as he said, "Why did you come?"

"I have come for the Heaven's Core Imprint and also to overthrow your so-called Imperial Court along the way. I find all of you unsightly!" Ao Tuo said, rather direct.

When Shi Hao heard this, he was furious. This person truly crossed the line!

Did Immortal Domain's creatures come to pick peaches? To steal the natural luck of the creatures of this realm?!

After thousands of years, they didn't care at all when the other side invaded, remaining uninvolved, yet now that there were benefits, they directly swooped down, wishing to seize the natural luck that belonged to the people of this realm.

Moreover, Ao Family even wanted to get rid of Imperial Court, it truly was domineering and arrogant.

Shi Hao directly took action, truly enraged, not wishing to say too much to this person, charging forward. Who cares if you are some Aocheng descendant, you are still going to die here.

In the end, the result was incomparably miserable. They had just made contact, yet his arm exploded, turning into a blast of bloody mist.

Then, with a peng noise, Shi Hao seized him with a large hand, forcefully clenching. Ao Tuo screamed miserably, his eyes full of horror, not daring to believe what was happening.

His body broke into several pieces, directly crushed by Shi Hao.

"Even an ant like you dares disturb my Imperial Court? Hang this fool from the highest flagpole for me!" Shi Hao directly removed his head, throwing it in front of the heavenly temples.

Not long afterwards, Ao Tuo's bloody head was hung on the flagpole outside the heavenly temple, the scene incredibly alarming.

He still didn't die, his soul was sealed in his skull, feeling extreme shame. This was extraordinary humiliation! It was just too shameful, he was actually captured this easily.

Was this still the lower realm he knew about? Ao Tuo was shaken, inwardly full of humiliation.

Ao Family's two true immortals didn't immediately take action, hiding in the void, inwardly hesitating. Was this still the Huang they knew of? He was actually already this strong!

They had secretly investigated. Huang previously merged with a golden arm bone, displaying immortal might, but they had confidence that the great killing artifacts they brought out were enough to suppress it.

What if the lower realm's restricted regions wanted to interfere? The two true immortals believed that those creatures wouldn't make that mistake. If they truly interfered, then the glorious and world-shattering Aocheng Immortal King definitely wouldn't sit still!

"In the past, during the Peaches of Immortality Distinguished meeting, when Huang fought a great battle against Ao Gan, it lasted more than a thousand moves, yet now..." A true immortal said with a frown.

Huang's cultivation shot up, far exceeding their predictions. This was something completely outside their predictions, leaving them endlessly shocked!

At the same time, ice-cold voices sounded from various parts of the world.

What kind of situation was this? The extremely unruly Ao Tuo was dealt with like this, simple and violent. It was too direct, just too shocking.

That was Huang? Just how powerful has he become?!

At the same time, some people were incredibly shocked. The past Aocheng and Taishi Immortal Kings took action, yet they couldn't even end Huang's life in Immortal Domain?

But they previously obtained information saying that Huang vanished after that battle, even the immortal kings were sure that his name was erased from the world, no longer in this universe.

Who would have thought that he was still alive and well, moreover this powerful now!

These people came to pick peaches along the way, all of them wishing to seize the natural luck of this realm. Right now, their eyes flickered with radiance, full of hesitation and restraining fear.

"I saw Huang thousands of years ago, how could he have become this powerful?!" Some people began to have second thoughts inside.

The same day, Shi Hao made his decision, preparing to begin merging with the Heaven's Core Imprint. He sensed that type of unmatched great dao, obtaining the opportunity bestowed by the heavens.

Even though it was a bit rushed, he had to make his move now. Immortal Domain even had their eyes on this place, quite a few visitors coming. In order to prevent anything unexpected from happening, he had to merge with it as soon as possible.

Ah...

A great roar sounded. The Nine Heavens Ten Earths were trembling. Shi Hao's black hair scattered about, fluttering into the sky, his entire being erupting with endless radiance, making even the sun grow dim. He became the only thing between heaven and earth, transforming into the everlasting!

Shi Hao rushed up, entering the heavens. There were endless heavenly dao taking form, natural laws forming a sea, the embodiment of the world's order, great dao displaying tangible traces.

At this moment, Shi Hao's body became hazy, his entire being turning into natural laws, merging with those natural laws, close to each other.

Honglong!

The Nine Heavens Ten Earths were all shaken, all life trembling. This was a wave of unendurable might.

"It's coming, he's starting!"

"He could actually reach this step, he truly is extraordinary!"

In the restricted regions, some old existences spoke, all of them shaken. Some of them hadn't opened their eyes for millions of years, always asleep, but they were roused awake today.

The entire world's attention was focused here. All those who were powerful cultivators were greatly shaken, raising their heads and looking towards the sky.

These were world shocking changes, a turbulent situation was starting today.

Shi Hao's body was extremely hazy. Right now, he released a terrible aura. This was the great dao, the embodiment of unmatched dao laws.

This was a scene of world-shaking changes. Shi Hao's flesh became a medium for the great dao, receiving and guiding the endless dao into his own body, nurturing a type of mysterious imprint.

The so-called Heaven's Core Imprint took form precisely at this moment!

The natural laws of heaven and earth, the traces of all dao converged together, forming the Heaven's Core Imprint. By grasping it, one could control this universe.

The irregular changes shocked both past and present. At this moment, countless figures appeared, all of them traces left behind by history's most powerful individuals, all of them powerful beyond compare, shocking all realms in the heavens.

They rushed at Shi Hao, crowding around him!

However, there were some who began to fight great battles with him, accompanied by rolling thunder, flashing lightning and chaotic radiance, the outer space was beaten into ruin.

In the depths of the cosmos, stars flickered about, stellar seas were snapped and erased.

Hong!

In the end, everyone was shaken, their faces turning pale, souls shivering. It was because Shi Hao rose into the very depths of the cosmos, destroying a larger half of the stars there.

"Heavens, is he going to destroy this expanse of the cosmos?"

"The Nine Heavens Ten Earths had just finished merging together a few thousand years ago, is it going to be shattered again? What is Huang doing?!"

In this world, many cultivators shivered inwardly, their faces all turning pale, frightened badly, feeling waves of fear. The starry cosmos was being destroyed.

Honglonglong!

Then, stars swirled one after another, and then they smashed towards this great earth.

Peng!

The great stars smashed into the great earth, mountains collapsing and seas roaring, as if the end of the world was descending, destroying everything.

It was because this wasn't just one or two stars, but rather all of the stars in the sky fell together, everything smashing towards the Nine Heavens Ten Earths, just too terrifying.

Right now, the stars were like rain, densely packed, simply countless. They smashed apart the Nine Heavens Ten Earths, all life was wailing, the entire world heading towards destruction.

"No!"

There were people who cried out, their souls trembling, falling weak onto the ground.

"What great methods, what a powerful Heaven's Core Imprint."

Within a certain restricted region, an indistinct sigh sounded, making everyone in the world wake up. All of the cultivators broke free, struggling free from their nightmare.

They discovered with shock that the so-called last phase, heaven and earth destruction never happened. All of these were merely terrifying scenes they sank into within their own consciousness.

In the heavenly dome above, a single person sat there, submerged within the natural laws and order of heaven and earth. The dao of the heavens all appeared. He became the only one, the center of everything.

"That is the battle Huang is currently facing, even all of us are able to sense it. He is subduing the Heaven's Core Imprint, suppressing the dao laws of the heavens!" Someone said with a sigh, their expression extremely serious.

Right now, Shi Hao became a medium for the great dao, all of the laws of the heavens were falling towards him, intertwining, fighting a great battle against him.

Honglong!

In the end, heavenly tribulation descended. This was an instance of world shocking thunder tribulation, every streak of thunder radiance carrying chaotic energy, just too terrifying, all of it hacking down towards Shi Hao's flesh.

Even true immortals' expressions changed!

However, Shi Hao received all of it, his flesh imperishable, flickering with precious light, flowing with brilliant colors, continuing to merge with the Heaven's Core Imprint.

It was because in the Age of Emperor Collapse, he had lived for hundreds of thousands of years, which type of lightning tribulation hadn't he experienced? He was hacked until his flesh was scorched black. At the very least, the heavenly tribulation matching his current cultivation realm was something he could cross.

"This lightning tribulation, would you be able to survive it?" One true immortal secretly asked another.

Right now, their expressions were all serious. They just couldn't imagine how someone who hadn't achieved immortality could be this strong!

Time went on. This instance of heavenly tribulation continued for a long time. If it was the others, their bodies and spirits would have long died, but this was clearly not the case for Shi Hao.

However, the other cultivators' faces turned pale when they saw this.

The creatures from Immortal Domain originally came here to pick peaches, but when they saw how terrifying Shi Hao was, far exceeding what they knew, they all felt scared.

These people moved quickly, understanding just what exactly Shi Hao did these thousands of years, all of them stupefied. He killed true immortals, cut down undying beings?

They wanted to compete against someone like this, seize his Heaven's Core Imprint?

"We have to seize this natural luck! He is about to enter a dangerous situation soon, so when he is truly about to merge with it, being disturbed will be extremely bad for him!" Someone said secretly with a sneer.

As Shi Hao's body gradually became clearer, merging with the Heaven's Core Imprint, there were people who took action, finally no longer remaining hidden, attacking him.

These were the two true immortals from Ao Family, immortal dao magical artifacts in their hands, attacking murderously, preparing to kill Shi Hao, seize the Heaven's Core Imprint!

Suddenly, Shi Hao opened his eyes, the radiance incredibly dazzling. He held the Everlasting Sword Core in one hand and the Bronze Immortal Palace in the other, rushing out murderously, facing the two enemies.

"Huang, hand over your life!" Taishi Immortal King Clan's two true immortals moved as well.

Then, another large hand reached out, pure gold in color, covering heaven and earth, grabbing towards Shi Hao, disturbing him, stopping him from refining the Heaven's Core Imprint.

Hong!

Streaks of radiance overflowed into the heavens where Shi Hao was, the most miserable battle erupting. He previously woke up, continuing the transformation within his body while facing the enemy.

The main force were Immortal Domain's families. Right now, they took action, trying to seize the Heaven's Core Imprint.

Six to seven powers took action, all of them powerful beyond compare, their origins astonishing. They surrounded Shi Hao together, wishing to tear apart his flesh, dig out the Heaven's Core Imprint.

The great battle was incredibly intense. So many troops took action, this was naturally a world shocking great matter.

However, they miscalculated. Shi Hao seemed unprecedentedly great, ridiculously powerful. His blood energy was vigorous, rushing out of the crown of his head, shattering all dao!

Blood energy surged, submerging outer space, shocking the people of the world!

Hong!

He smashed apart a true immortal, an expert from Aocheng Immortal King Clan.

Shi Hao directly smashed out with the Everlasting Sword Core and Bronze Immortal Palace, he himself brandishing his fists as well, destroying all who stood in his way!

The seven or eight youngsters from Immortal Domain were left in despair. Even the true immortals from their respective families joined hands, yet in the end, they couldn't seize the Heaven's Core Imprint! Just how strong was Huang?

"Huang, if you obstinately persist in going about things the wrong way, don't blame us for being ruthless!" Taishi Immortal King's descendant shouted out. Right now, he was currently standing in a giant palace within Imperial Court.

Peng!

The void shattered, Taishi Family's true immortal appeared before Yun Xi and a white cauldron, standing in that giant palace.

Then, they didn't say anything else.

"Despicable, all of you are too shameless!" Imperial Court's people roared out.

"Are you threatening me?" In the heavens above, Shi Hao asked coldly.

"One's path is chosen alone!" Taishi Immortal King's descendant said coldly.

"What you said is correct, everything is your own choice." Shi Hao responded.

Honglong!

Immediately afterwards, Yun Xi and the white cauldron each had a streak of light rush out from within them. The two streaks of light intertwined, sweeping through Taishi Immortal King's descendant, at the same time blasting back his family's true immortals.

Chi!

Shi Hao's true body dove down, getting closer.

He continuously took action. Just the first strike blasted the exceptional genius from Taishi Clan, his body and spirit erased.

Then, Shi Hao's Everlasting Sword Core was activated, facing the true immortal's immortal dao ancient boat. He also formed a fist imprint, smashing towards the true immortal.

Pu!

A rain of blood covered the skies. In the end, the descendant and the true immortal were both killed. As for the immortal dao ancient treasure, it flew away on its own.

At this moment, everyone was shaken up.

Shi Hao stood in front of Yun Xi and their child like a great mountain, guarding them behind him. The two streaks of light that rushed out were two imperishable imprints he previously left behind to protect them.

Soon afterwards, the heroic spirits and Seven Colored Immortal Gold Man arrived, protecting Yun Xi and her son. Letting true immortals enter Imperial Court out of carelessness made everyone inside Imperial Court furious.

“You all want this Heaven’s Core Imprint?” Shi Hao asked.

With a chi sound, a streak of light rushed out from within his body, eternally imperishable. He already finished merging with it, truly sensing what was extraordinary about it.

“Take it!”

Shi Hao separated the Heaven’s Core Imprint into six or seven parts, scattering them in different directions.

As a result, the heaven warping geniuses from Immortal Domain all obtained it, revealing expressions of shock, obtaining tremendous benefits.

“These Heaven’s Core Imprints had just been subdued by him, so there won’t be any dangers within the short term. We can also quickly merge with them!” Someone said.

Everything was great except for the fact that the Heaven’s Core Imprint was divided too much, too scattered.

Shi Hao gave them time, half a month of time. Those geniuses opened their eyes, true immortals protecting them.

“How do you all feel after obtaining the Heaven’s Core Imprint?” Shi Hao asked.

Then, he took action. This was a great battle that exceeded everyone’s imaginations. Shi Hao fought the true immortals alone, and then he fought against the heaven warping geniuses who merged with the Heaven’s Core Imprints.

This battle made the sun and moon lose color, the sky seem dim. Eventually, blood splashed over the skies, divine rainbows appearing in endless strands. There was someone who was smashed to pieces.

This was an individual who merged with a Heaven’s Core Imprint!

However, terrifying things continuously happened. The other heaven warping geniuses were killed one after the next, even if they came from Immortal King Clans, even if they merged with the Heaven’s Core Imprints, they still died miserably, killed.

“So what if the Heaven’s Core Imprint is merged?” Shi Hao asked coldly.

He tore apart the Heaven’s Core Imprint, dividing it into many pieces, giving them to the enemy, but this was still the result in the end. He directly killed all of those people.

#### Chapter 1919 - The Brilliant World of Mortals

The heaven warping geniuses from Immortal Domain died one after another, all of them losing their lives, killed by Shi Hao alone. There were true immortals who died as well.

This scene felt like it was forever frozen, looking like it would never fade!

The clans were all shaken, finding it difficult to express their current mood. This was just an expert at the Mortal Dao Domain, how could he be this powerful? This completely went against everything they understood.

After this battle, all under the sky were shocked. The Immortal Domain experts were slaughtered like ordinary chickens, all of them wiped out, not a single individual left behind.

Even with true immortals protecting them, some clans’ experts escorting their geniuses, their lives still couldn’t be preserved. He was unstoppable, cutting down all in his path!

Many Immortal King Clan’s true immortals died. Even with powerful weapons in hand, they still couldn’t stop that demon king like youngster. He swept right through them, all of these clans’ experts losing their lives, turning into blasts of bloody mist.

At Shi Hao’s side was a sword core accompanied by a rain of immortal light, beneath his feet a copper palace. These were the weapons he used to face his enemies.

Right now, within the various life restricted regions, it was completely silent as well. Huang’s appearance exceeded everyone’s expectations. What was the so-called tearing apart everything like weeds? This was precisely the best example!

So what if you all came from Immortal Domain?

So what if you were an Immortal King Clan’s direct descendant genius?

They would all be swept through by a lower realm youngster!

It was just like an autumn wind that swept away the fallen leaves, when it roared past, there was a somber and desolate aura, everything withering. The great Immortal King Clans’ geniuses were nothing before him!

Moreover, Huang even granted them the Heaven’s Core Imprint, not wanting it for himself, having them merge with it, seize the natural luck of heaven and earth, resonate with the dao of this realm.

In the end, it was still this type of conclusion. Even with the Heaven’s Core Imprints, they still weren’t a match, directly suppressed and hacked down powerfully by Huang!

He was just like an emperor who swept through the world’s demons and monsters, destroying all in his path, killing all enemies!

This type of attitude was completely unstoppable, as if they weren't even on the same level. He had a type of true unrivaled great might.

"Gifting the Heaven's Core Imprints to Immortal Domain's geniuses and then beating them back down, Huang is showing Immortal Domain contempt!"

Finally, someone spoke up, his voice extremely low.

"Huang is truly bold, daring to do this because he has confidence he is without equal! He doesn't treat the heaven warping geniuses of Immortal Domain with any importance, just this arrogant!"

After this battle, there was no need to say too much. He slaughtered out a type of great imposing might, reaching this level on his own. He dared act like this even when facing Immortal Domain's experts by himself, what was there left that he didn't dare do?

"Huang, your actions are the same as making Immortal Domain your enemy!"

The hair of a true immortal coming from Aocheng Immortal King's direct line of descent was disheveled, his entire body covered in blood, already about to break apart. There were many terrifying criss-crossed injuries on his body.

Just now, he just happened to be relatively further away during the battle, far enough away, so he was lucky enough to survive. However, what he saw was instead a sky full of blood, broken limbs and ruined bodies everywhere, leaving him completely stunned.

What protecting the geniuses of the clans was there left to talk about? Even after seizing the Heaven's Core Imprint, the clans' inheritors were still completely slaughtered! This made his entire body break out into chills.

Shi Hao coldly turned around to look at him. Then, with a hong sound, a large hand descended. With a pa sound, this expert whose entire body was covered in cracks, long seriously injured, immediately broke apart into pieces, his body exploding, blood dyeing the skies red.

Everyone was shocked!

Huang took action ruthlessly after all. Even when facing Immortal King Clan's people, he wasn't lenient in the slightest, taking action when he should.

"You..." The other clans also still had true immortals who were still alive, but all of their fine hairs stood up, unconsciously taking steps backwards. This battle was too miserable, ending in great defeat even with them participating.

They already understood that there was simply no way the geniuses of their clans could compare to Huang! The difference was far too great! Even they were defeated, let alone those geniuses coming to fight over the Heaven's Core Imprint.

"Killing like this, are you not scared of bringing tremendous karma upon yourself, that there will be repercussions in the future?" A true immortal spoke out in grief and indignation. It was because there was already no way for him to survive, his foundation had been shattered by Shi Hao in the battle just now. His primordial spirit was about to be erased, only a ruined body remaining.

That was why he wasn't scared, didn't fear death.

"Huang, your actions today will inevitably drag you down to hell!" He roared out.

Shi Hao swept him a cold look. Was there even a choice? These people already climbed up to his head, trying to seize his Heaven's Core Imprint, attacking his wife and child, forcing him to bow his head.

Even if he endured it, so what? He would still be humiliated by these people, lose his life.

Hong!

Shi Hao raised his hand, slapping forward. It was still that palm that covered the sky, blasting that true immortal into bloody paste, immediately ending his life.

This was precisely Huang's response, powerful to the end!

Right now, the world became quiet, no one daring to say anything more.

Shi Hao looked at them. He slowly turned around, his voice a bit hoarse as he said, "So what if I kill? There is much karma already tangled around me."

Right now, the radiance in his eyes was astonishing, shining with incredible brilliance. They swept over the experts of all clans, making their bodies and spirit tremble. No one dared look straight at him.

In everyone's opinion, the current Huang was a matchless great king. Whoever dared provoke him wouldn't meet a good end.

The remaining people from Immortal Domain lowered their heads, not daring to look straight at him.

Everyone was stunned, incredibly shocked.

Even the creatures from the restricted regions released light sighs one after another. This was precisely the great might of an unmatched being. Huang already had this type of great might, looking down on all enemies, making the experts of all sides shiver in fear.

"You want to leave?"

Shi Hao turned around, looking in a direction. It was someone from Taishi Immortal King Clan, currently about to run. This clan still had one true immortal alive.

The others were only able to live because they didn't really dare take action, but Shi Hao wouldn't let Taishi Clan's people go no matter what, this clan actually had people who dared harm his wife and child.

"Kill!"

Shi Hao turned into a streak of divine rainbow, slaughtering his way over. The clouds in the sky moved, divine light surging, the aura utterly terrifying.

This battle didn't have much suspense at all.

Soon afterwards, a blast of blood radiance erupted in that place. This clan's expert released a miserable cry, ultimately dying.

In the distance, an immortal gate appeared. The remaining people didn't say a word, directly fleeing back to Immortal Domain. For them, this was a complete nightmare of an experience.

No matter how many years passed, this nightmare would still remain just that clear, difficult to erase from their memories.

"Truly daring!"

From within the immortal gate, a cold voice sounded, intimidating all clans under the heavens, ice-cold and ruthless, as if it was going to erase all life.

"The killing has already been done, what can you do? If you dare personally take action without any regard for your own face, when I return one day, I will also eradicate your entire clan!"

Right at this moment, a sparkling willow branch appeared at Shi Hao's side, transmitting this line.

This was something Shi Hao brought back from the Realm Sea shore's Lightning Abyss.

Shi Hao knew that it was the restricted region lord who was controlling this willow branch, but it was enough. As long as this type of intention was expressed, proving Willow Deity was still alive, then Immortal Domain's unmatched experts would still feel apprehension.

"I'll be waiting for you to return alive from Realm Sea then!"

From within the immortal gate, someone said this coldly, extremely domineering, but still didn't take action in the end.

As long as Willow Deity didn't die, everyone would feel reservations about killing his disciple. If they dared take action, if he returned powerfully one day, then their clan might truly be wiped out.

Everyone had a bottom line.

In reality, it was extremely difficult even if the immortal kings wanted to cross over right now, it wasn't easy at all. They had to pay a tremendous price.

It was because this world rejected the experts of the outside world. Even if Immortal Domain and this world had a close relationship, they were still included in the rejection. How powerful were immortal kings? Unimaginably so.

Now, the Nine Heavens Ten Earths definitely rejected these types of unmatched individuals the most.

The great showdown could be considered to have arrived, so no one was willing to pay this price. They all wanted to remain at their peak. Otherwise, a slight mishap and they might perish.

Several immortal artifacts were retrieved by the people behind the immortal gate.

The world became peaceful again. Shi Hao stood there, refining the immortal blood into great medicine.

The creatures of various clans gradually withdrew. The murderous energy here was too strong, they couldn't endure it anymore.

The creatures from the restricted region all became silent. There were originally people who wanted to seize the Heaven's Core Imprint, but in the end, they gave up.

Huang was too powerful. No matter who it was that saw this scene, none of them dared compete against him.

Imperial Court's people cheered. This battle could be considered a great victory!

This battle showcased Imperial Court's awe-inspiring might. Shi Hao swept through all enemies alone, his accomplishments too glorious. *novE(1b/1n*

Even after many years passed, all those who saw this battle wouldn't forget what happened, deeply engraving today's events in their hearts.

A lower realm 'mortal' dared slaughter Immortal Domain's true immortals. Just how bold and domineering was this?

After a celebration, the Heavenly Horned Ant, Mu Qing and others all revealed bitter expressions. Shi Hao actually tore apart the Heaven's Core Imprint in front of everyone, so how were they even supposed to continue cultivating in the future?

"I wanted to test some things out a bit, see if the world would still suppress you all after I tear up the Heaven's Core Imprint."

Shi Hao said, explaining to them.

It was obvious that this type of suppression still existed.

It was because the Heaven's Core Imprint could reconstruct itself, be produced once more.

"More importantly, I wanted to test out if the Heaven's Core Imprint, within a set amount of time, would explode after being implanted within their bodies."

Shi Hao said. It was because when he refined it, that scene was too terrifying, as if all life was going to be destroyed.

Normal people couldn't handle it at all!

He was scared that if he rashly had the Heavenly Horned Ant and others merge with the Heaven's Core Imprint, then there would be great dangers. He wanted to use Immortal Domain's people to test things out first, see if there are any issues.

At this time, Shi Hao's hands shone, seven Heaven's Core Imprints appearing, flickering in his hands. Then, they recombined, not damaged at all.

The seven individuals were defeated, so the Heaven's Core Imprint naturally rushed out, recollected by him.

The years passed quickly. In the following two thousand years, the Heavenly Horned Ant, Mu Qing, Crimson Dragon, Emperor Butterfly, Divine Striking Stone, Lightning Spirits, and others all worked hard to break through.

After these years passed, they were already more than nine thousand years old.

Some succeeded, for example, the Heavenly Horned Ant, Crimson Dragon, Mu Qing, and others.

There were some who were still just a hair off.

Meanwhile, right now, if they didn't succeed, they were already a bit old. Even though they became supreme beings, their lifespans were still limited, at most a bit over ten thousand years, to the extent where a great limit would be hit after nine thousand years.

After all, they had just entered the Supreme Being Realm, not truly reaching the pinnacle.

At this time, Shi Hao used immortal blood great medicine for Zhu Lin and Shi Zhong, granting them a second life!

Nine thousand years, this was an extremely long amount of time. It was unknown just how many generations of old soldiers and generations were replaced. As for the mortal world, it even more so experienced who knew how many different generations.

Shi Hao released a light sigh. In this great world, even those who achieved the dao, if they didn't have immortal blood great medicine to prolong their lives, they would still pass away.

He turned around, seeing the golden lion. In the past, he had ingested a certain type of rare precious medicine in the other side, which was why even though he never achieved the dao, he still lived until now.

However, the golden lion was now truly old, the golden fur about to completely fall off.

"Do you want me to grant you another life?" Shi Hao asked.

This world was still filled with endless worldly affairs, the mountains and rivers resplendent, the various clans having experts rising up from them, but Shi Hao still felt a bit somber, to the extent where he became indifferent.

It was because the people who belonged to his era had pretty much all died out.

Who could remain imperishable? Even those who achieved the dao, after living for close to ten thousand years, would still enter their late years.

"I do not!" The golden lion stubbornly shook his head. It sat under the setting sun, gazing towards Desolate Border, staring in the direction of its past home.

The great world prospered, but the great world also declined.

Shi Hao knew that the current peace would be shattered at any time. It was because there were creatures from Realm Sea who had long climbed ashore, already starting to fight bloody battles.

## Chapter 1920 - The Curtain Drops

In everyone's eyes, Shi Hao already lived close to ten thousand years, but he was still young. No one knew just how powerful he was, how long he could live.

However, the people at his side were all old. Even when they had their lives extended by Shi Hao when they were five thousand years old, Shi Ziling and his wife, big red bird, and the others, they still entered their late years.

A slight breeze brushed past. On Fiend Island, a divine river flowed, carrying endless curse power, turning this place into a restricted land.

Immortal Tomb floated above Fiend Island. At the source of the long river was an endless curse aura. After ten thousand years passed, this place became increasingly terrifying.

In reality, there was no one on the entire island, no one dared approach it.

Today, Shi Hao came, bringing his parents, bringing Yun Xi and the white cauldron, following the curse river towards the mountainous Immortal Tomb.

Shi Hao's entire body shone, protecting everyone, not letting anything enter. All things nefarious were ward off, the curse power unable to harm him.

This path was one Shi Hao was extremely familiar with, it was not the first time he came here. He also brought his family here several times, now coming back here again.

On Immortal Tomb, a young lady was still full of youthful vigor, the effects of time not leaving any traces on her face, still the same.

There was another individual at the foot of Immortal Tomb, precisely Shi Hao's grandfather, Grandpa Fifteen Shi Zhongtian. His hair was jet black, eyes closed, looking even younger than the white-haired Shi Ziling.

"Grandfather, A'man, I came to see you two." Shi Hao said, looking forward.

There was no need to say too much about Grandpa Fifteen, he loved Shi Hao greatly, fighting for him, unleashing a great slaughter in Stone Country's capital for him.

A'man treated Shi Hao with great kindness. When he was young, his supreme being bone was seized. When he was at his weakest, if not for A'man's careful care, he wouldn't be able to live until today, instead, he would have died a long time ago.

"Child!"

"Little Hao..."

Two divine consciousness fluctuations transmitted over, entering Shi Hao's heart. These were Grandpa Fifteen and A'man's voices.

This wasn't the first time they chatted. As early as two thousand years ago, these two already revived. When Shi Hao came to see them, they conversed with divine will, all of them were extremely moved that year.

"Grandpa, A'man, have you two been well?" Shi Hao called out.

His heart was trembling slightly. He still wasn't strong enough! If he was strong enough, then these two wouldn't be here, but would rather follow him out, forever remaining together.

A'man remaining behind was her opportunity. There was a path behind Immortal Tomb. That creature returned, wishing to take A'man as a disciple.

During these years, A'man obtained that creature's inheritance there, acting in accordance to his needs.

However, according to A'man's suspicions, this world was too cruel. Even if that individual's skills were incredible and astonishing, not dying even after crossing over Realm Sea, he still carried worries. He believed that this would definitely be an unprecedented great settling, one of blood and chaos, simply unimaginable.

Even someone as powerful as that person couldn't ensure he could continue living, wishing to leave behind an inheritance so that his lineage wouldn't be completely cut short.

The official inheritance didn't need explanations. A'man was his additional line that he arranged, left behind for the future out of fear that the other inheritances would all be cut short.

Meanwhile, Grandpa Fifteen couldn't leave A'man here alone, insisting on accompanying her, long seeing her as his own daughter. That person also helped him achieve his aim, sending the blood of the past Demonic Sovereign into his body, helping him refine his body.

Even though there was endless curse power inside this great grave, there was undying matter as well. That was why time didn't injure them.

"We cannot leave Immortal Tomb, yet now, it is time to head on our way." Grandpa Fifteen said with a light sigh.

"That expert has already ascended the dam. He crossed the Realm Sea, wishing to bring us there to watch the battle. It is because I am his disciple." A'man said.

"Father!"

Shi Ziling shouted, his voice shaking. Even though he already came here many times, in the end, they still couldn't bring away this elder. This left them full of regret.

Right now, when they heard that he was going to Dam World, they became filled with even greater worries, their eyes filled with panic.

"A'man!"

They called out to A'man with a light voice, viewing her as their own daughter, feeling worry of her future. Once she was brought away by that unmatched existence, just what kind of tribulations would she experience in the future?

"Grandfather, A'man, are you two going to stay behind?" Yun Xi carried an expression of worry. She knew that these were two extremely important people in Shi Hao's life, so she hoped they could stay behind.

"I fear that we cannot. That expert's will has already descended. The only reason we haven't left yet is because we wished to see you all once again."

Shi Hao clenched his fists. He really wanted these two to stay behind.

"Hurry and have the little fella wake up." Yun Xi reminded Shi Hao.

Shi Hao undid the seal on the white cauldron, bringing out that little fella, waking him up. "Say hello to auntie and grandpa."

The little fella woke up, a bit absent-minded. He called out with the most tender voice, making everyone here tremble.

"Good, good, good!" Shi Zhongtian was overjoyed, his eyes carrying old tears.

"Little Hao, you have to take care of yourself. You all will definitely survive. After we head to the Dam World, I will pray for blessings over all of you." A'man said.

"This silly girl has pleaded with her master many times, saying that she will participate in that battle, but begged for him to properly protect her loved ones." Shi Zhongtian said.

In reality, he also carried similar thoughts when he headed in that direction. He followed behind that unrivaled great figure precisely because he might be able to ask this individual to help him protect those he cared about.

"Grandfather, A'man!" Yun Xi, Shi Ziling and his wife's voices were all trembling, crying out.

Shi Hao's voice was sunken. "How can I let you all fight there? Wait for me, one day, I will personally appear on that battlefield, bring all of you back!"

Grandpa Fifteen left, A'man left as well. Immortal Tomb finally became quiet, becoming a dead land!

After Shi Hao returned, he saw the golden lion gazing into the setting sun alone. It was incredibly old, as thin as a match, its golden fur losing all of its radiance, no longer having any of its past divine brilliance.

Shi Hao produced a jar of immortal blood, forcefully extending its life.

"I am different from your loved ones and old friends. They don't wish to drag you down, not wishing for you to waste your immortal medicine, and that is why they are willing to give up and plead for death. However, I am different, I truly don't wish to accept it!" The golden lion said.

"Fine then, you can go wherever you wish, I'll bring you there!" Shi Hao didn't wish to force it.

"I wish to go to Desolate Border!"

Two days later, the golden lion died, buried by Shi Hao in Desolate Border. This grave buried a past generation's fierce beast.

When he was about to die, he sat there, his frame not falling, eyes widened, gazing towards where it was previously born.

This was just a small instance of what happened over the years. There were others who left one after another.

It was almost ten thousand years, who could remain undying, who could continue existing?

Dang!

The world exploded, the void blasted through.

The laws of the heavens became chaotic, something major happening.

Shi Hao immediately rose into the sky, hurrying towards the place where all of this was happening.

In the end, he released a light sigh.

Shi Zhong assimilated the dao.

In the end, Shi Zhong couldn't succeed either, forcefully merging with the Heaven's Core Imprint.

However, in the end, his body collapsed, merging into the great dao.

Not even Shi Hao could stop this type of thing. Cultivation could only be relied on oneself.

One failure, one transformation into the dao, no one could save him.

Peng!

A rain of light covered the heavens. In the end, two of the three Lightning Spirits broke apart, giving their vitality to the third Lightning Spirit, allowing it to succeed. Just like the Heavenly Horned Ant and the others, it merged with a Heaven's Core Imprint.

The years were ruthless, cutting short the paths of cultivators.

In the eyes of the people of this world, Shi Hao was close to twelve thousand years old. Imperial Court even more so exchanged one generation of people after the next, the old soldiers of the past long passed on.

Shi Hao's parents' blood energy dried up, the big red bird's feathers all already gone. The Green Scaled Eagle Clan couldn't move anymore either, even the big black turtle's shell fell off.

The Zhuyan who just wasn't willing to lose, Hairy Ball, was also in his late years, unable to wield his great staff anymore.

In the past, Shi Hao helped them extend their life, but in the end, they couldn't break free from their fate, this day still arrived. Their lives reached the limit once again.

Shi Hao had no choice. His true blood was the same as immortal blood, he was unable to prolong their lives with blood medicine, they already developed tolerance towards it.

Yun Xi's appearance was still the same, looking extremely young, but she didn't have much time left. She was approaching the end of this life.

"I really don't want to leave." Yun Xi's eyes were red, not because she was clinging to the secular world, but rather to the people in her life.

She looked at Shi Hao, her voice shaking. "You have to take care of yourself, properly continue living, don't try to be brave!"

Shi Hao stroked her beautiful hair, silently nodding.

"The last world, when I didn't have much time left, I previously told you to look for the one under the Fire Mulberry Trees, I won't feel jealous. Being able to remain with you in two lives has left me extremely satisfied, I can already leave with a smile on my face."

Yun Xi was smiling, but tears still flowed down her eyes. She was unwilling. She gripped Shi Hao's hands, holding them extremely tightly. She knew that she was going to leave this world in the end.

"The only thing that I cannot feel at ease over is the little fella. He is still so young, not even an adult yet... you have to take good care of him!" Yun Xi sobbed.

She truly felt sentimental, forcefully hugging the white cauldron.

Shi Hao undid the seal, having the little fella wake up, bringing him out.

"Child..." Yun Xi sobbed, holding her child closely.

"Don't cry... mommy, don't cry." The little fella was alarmed, reaching out his little hands, helping Yun Xi wipe her tears.

"My child, mommy doesn't want to leave you!" Yun Xi sobbed, hugging her child, not willing to let go, wishing to continue like this forever.

"Don't be sad, just treat it like a long sleep." Shi Hao consoled.

...

Several days later, a roar of grief resounded through the heavens, shaking up the lower realms' eight regions!

Shi Hao stood at the front of Stone Village alone, using world shocking methods to seize the essence of heaven and earth, condensing Divine Origin Liquid, sealing up the entire village!

He sealed up everyone.

His parents, Yun Xi, big red bird, Zhuyan Hairy Ball... and the old clan chief, Dazhuang, Ermeng, Qingfeng, Pihou, and the others.

"In the future, when I stand above all ages, I will spend eternity with all of you!" Shi Hao roared out, his voice carrying sorrow.

That day, Stone Village thus disappeared.
