

Perfect WD 1921

Chapter 1921 - Fire Mulberry Flowers Bloom

Shi Hao's eyes carried tears. It's been so many years since he felt this emotional. He felt extremely lonely. He was clearly at the greatest heights of his life, yet he felt a bit of sorrow. Today, he personally buried many of his loved ones under divine source.

He returned to the higher realm, leaving the eight regions.

The Desolate Region that made him feel grief and joy, made him feel worry, was where he was born. There were too many memories from that place, but now, he didn't really want to go back.

Shi Hao returned to Imperial Court, starting to cultivate bitterly, wishing to increase his own strength, wishing to break through more and more urgently.

Several years later, in the depths of the stars, within a dusky land, on a ruined star no one paid attention to, someone opened their eyes. It was as if cold lightning cut through the void.

It was precisely Shi Hao. He came to the depths of the cosmos alone to comprehend the dao!

In front of him was a rock that flowed with brilliant colors, releasing waves of rumbling sounds. If a cultivator from the Celestial Clan was here, they would definitely recognize that this was their ancestral artifact -- Immortal Ascension Stone.

This stone was precisely what Shi Hao removed from the City of Heaven.

Back then, the karma he shared with this clan wasn't small. In the end, he seized this stone, settling the grudge.

Hong!

Suddenly, Shi Hao's figure disappeared, entering a metal stele. Immortal radiance erupted in the void, the fluctuations intense, erupting with astonishing aura.

One could see two creatures fighting a great battle on that stele. It was extremely intense, a struggle of life and death, the two sides clearly risking their lives.

The Void Immortal Gold Stele had an extraordinary background. Back then, when Shi Hao entered Immortal Domain with Sanzang and Shenming, this Void Immortal Gold Stele was something Sanzang discovered in Immortal Domain, in the end exchanging it with Shi Hao.

According to his suspicions, this was an object from the Age of Emperor Collapse. The Void Immortal Gold Stele had unrivaled scriptures recorded on it, but this piece didn't have any scriptures carved on it yet.

Otherwise, it would be an unmatched supreme treasure!

Back then, when Shi Hao obtained the Immortal Ascension Stone, the stele had previously showed a reaction, releasing a mysterious dao sound.

However, after that experience, even though the Immortal Ascension Stone and the Void Immortal Gold Stele were placed together, there were no more resonance events.

Only several hundred years later did Shi Hao truly fully unearth the secrets of this Void Immortal Gold Stele.

It indeed didn't record any scriptures, but what was recorded was even more terrifying than scriptures, many times more precious.

If Sanzang knew, he definitely wouldn't have exchanged it!

Once, Shi Hao held the Immortal Ascension Stone, entering the deepest state of dao comprehension, seizing the dao sound released by the Void Immortal Gold Stele. This was a piece of ancient incantation that could be used to activate the stele.

When cultivators faced it, it would be like facing a mirror, able to see another self. The most terrifying thing was that this replicated self seemed real, having blood and flesh, so it could be fought against!

Fighting a life and death struggle against another copy of oneself, this could examine one's true limit.

This was basically defying the heavens. One was fighting against themselves, not ending until one side perished!

No one understood one better than themselves. This type of battle was too astonishing, the two both understanding the other side, able to seize the slightest openings in the other side's movements, attack those areas ferociously.

In the recent hundreds of years, if not for his parents, Yun Xi and others entering their late years, Shi Hao would have long used this Void Immortal Gold Stele to go all out. He would have definitely frantically cultivated, fight against himself.

Only, when those people passed their prime, they might grow old and pass away at any time. He couldn't enter seclusion, risk disappearing for hundreds of years, he wanted to remain with them a bit more.

Pu!

Divine blood splashed in all directions. Inside the Void Immortal Gold Stele, after experiencing several months of a great battle, a figure staggered backwards. It was precisely Shi Hao. After a life and death great battle ended, he withdrew in utter exhaustion.

It was because he fought against himself, not other creatures. This was the greatest opponent.

This battle continued for several months, just too long, that type of scene unimaginable. Many times, when he was about to display a killing blow, the other 'self' already knew.

The two individuals' dao skills were the same, combat strength comparable, fighting spirits also similar, neither of them would be weaker than the other.

A hundred years hurriedly passed.

During this period of time, every few months or a few years, Shi Hao would enter the Void Immortal Gold Stele, experience the threat of death, bathe in his own true blood.

This was an incomparable type of great battle, a struggle against himself.

Shi Hao went crazy, cultivating like he was mad just like that.

These weren't just words. Every time he went into the Void Immortal Gold Stele, he experienced the test of life and death. A single bit of carelessness and he would die.

According to his deductions, if he died in the Void Immortal Gold Stele, then his real body would completely disappear as well, as if killed by his other self.

It could actually threaten his real body!

Shi Hao wanted to break through the final bottleneck, achieve immortality in the world of mortals!

That was why he went all out, continuously fighting life and death battles, competing against himself, trying to understand his own weaknesses through this type of strange battle, perfecting his own techniques.

After a thousand years, Shi Hao, in the eyes of the people of this world, was already thirteen thousand years old.

In the past thousand years, no one saw him, all of them wondering where he was. They didn't know where he was, just how strong he became.

"Master!"

That day, the Crimson Dragon suddenly appeared, transmitting sound from the distance.

With a hong sound, Shi Hao emerged from seclusion, his entire body covered in blood, withdrawing from the Void Immortal Gold Stele.

After fighting for a thousand years, he continued to remain standing without falling, not dying. This could be considered a miracle.

Shi Hao had previously ordered that unless there was a major event, they shouldn't disturb him.

Now, he sensed how worried the Crimson Dragon was, so he immediately came out, seeing it.

"Master, that divine wolf has appeared again!" The Crimson Dragon said.

Shi Hao had previously left special instructions that once they noticed it, that they shouldn't scare off that giant wolf, instead immediately contact him.

Hong!

Immediately afterwards, Shi Hao's figure carried endless brilliance, wrapping around the Crimson Dragon, leaving the depths of the cosmos, heading straight for Desolate Border's uninhabited region.

When he got close, he retracted all of his aura, silently approaching. $n \rightarrow \sigma \cdot V \cdot e)(L)B \cdot -1 \cdot (n$

Sure enough, the other side's creatures came, attacking that passage again. The ghost immortals and two heroic spirits were guarding that area, subduing the creatures who crossed over.

Among them was a giant black wolf, even more massive than a mountain. When it walked out from that passage, it was extremely cautious, hiding there, watching everyone break through the pass.

Chi!

Shi Hao couldn't hold himself back anymore. This time, he suddenly descended, arriving outside that passage. Then, he quickly reached out a large hand, wishing to subdue that giant wolf.

Hou!

The giant black wolf suddenly raised its head. A black flame wrapped around it, burning the void, the temperature terrifyingly high, extremely horrifying.

Even Shi Hao was given a fright. After thousands of years passed, this demonic wolf's cultivation erupted to this level?

"En? Something's not right!" Shi Hao sensed that there was another creature in the passage, that this was the one who was activating the darkness flame, protecting the giant wolf. This was a darkness flame that left even true immortals in apprehension.

Shi Hao withdrew his hand, not touching it directly, instead taking a few steps back. His expression was rigid, breathing a bit rushed, heart rising and falling intensely.

Footsteps sounded, extremely light and graceful, carrying a sense of rhythm. The great dao trembled, the void also resonating in response.

This was a black-clothed woman, there were fine and detailed demonic patterns on her spotlessly white forehead. Her eyes were deep like stars, beautiful and stunning.

This was especially the case with the demonic patterns on her forehead, even more so adding a bit of bewitching beauty traits!

This woman was extremely beautiful, but what was most captivating was her temperament, as if she was high up above, looking down on all life. She carried an expression of indifference as she walked out of the passage, as if she was waiting for all life to bow down.

Many creatures from the other side backed off, opening up a path for her, extremely respectful.

That giant black wolf's figure shrank, only stopping when it reached a zhang in size. Then, it bowed down, waiting for that woman to sit on it.

This vicious demonic wolf was now docile like a little cat, just too obedient. Only when the woman sat on it did it get up, carry her, looking down on all sides.

"How could it be like this?"

Shi Hao muttered to himself. He stared at that woman, and then cried out loudly, "It's you, it really is you!"

He was too familiar with this woman, her past voice and smiles as if fresh in his memories. The past joys and sorrows were still reflected in his heart. The past promises were still echoing about.

However, in the end, the Fire Mulberry Flowers blossomed, yet he couldn't go back, stuck in Desolate Border's war.

Only when the Fire Mulberry Blossoms all fell did he return, but nothing was there anymore.

Shi Hao would never forget that day when a large hand reached over Desolate Border, smashing through Imperial Pass' walls, crossing over who knew how many provinces before seizing Sin Province. That scene would forever be engraved in his mind.

That day, he vaguely saw a young lady stand at the Fire Mulberry Forest's side, waiting alone, in despair, following the entire province to the other side of Desolate Border.

From then on, she never appeared, they were forever unable to meet again.

Shi Hao felt sentimental, unable to help but cry out, his voice carrying a bit of sorrow. They actually met again under this type of circumstances.

On the other side, in that woman's surroundings, there was a raging flame aura that burned ferociously, black flames burning the heavens. Meanwhile, in its surroundings, there were True Phoenixes and Vermilion Birds that cried, formed from a black blaze.

A clear fragrance wafted over from the skies, flower petals fluttering about, sparkling like a rain of light. These were Fire Mulberry Blossoms!

Chapter 1922 - Huo Ling'er

Huo Ling'er!

After ten thousand years passed, they met under this type of situation. Time didn't leave any traces on her body, she was still beautiful, to the extent where she became even more cold and elegant.

Was this still the Huo Ling'er he knew? Her temperament was completely different.

In the past, in the Fire Mulberry Tree Forest, she was graceful and quiet, her eyes clear like water, each day returning after picking mulberry leaves. Multicolored radiance scattered about, this place was cut off from the rest of the world, almost a life withdrawn from worldly affairs.

Now, there was a black demonic imprint on her sparkling white forehead, displaying a type of sinister appearance. Her gaze was piercing, extremely cold and arrogant, carrying a type of world overlooking domineering aura.

She rode on the divine wolf's back, as if a heavenly goddess descended into this world, yet there was a type of demonic nature. She looked down on the world, cold, arrogant and imposing, her presence making many people feel like they were suffocating.

"You... are you still you?" Shi Hao's voice was hoarse.

Huo Ling'er's pupils were deep, her entire figure carrying a wave of intimidating aura, having a type of female warrior feeling. She looked over with a cold and deep expression, the area around her was terrifying.

Bird cries sounded one after another there, accompanied by raging black flames. There were True Phoenixes that spread their wings and Vermilion Birds who moved about, all of these flame dao symbols. Black radiance swirled about, the scene moving.

"I am myself!" Huo Ling'er replied, her slender figure tall and straight, fine features powerful. Her snow-white face swirled with sparkling color, just that it carried a bit of viciousness.

She wore a long black dress that fluttered with the wind. She was upright and unafraid, as if she was the powerful queen of a clan, looking down on all under the sky. She really was completely different from before.

This type of temperament, this type of bearing, it was as different as different could be!

In the surroundings, those creatures from the other side were originally wild and untamed, but now, they lowered their heads before her, extremely respectful.

Shi Hao's heart turned sore. It really wasn't her anymore. After being separated by ten thousand years, it was unknown just how many generations replaced each other in the secular world.

Even for cultivators, thirteen thousand years was a long amount of time.

At the very least, in the Nine Heavens Ten Earths, there weren't many who could live past ten thousand years. With the descent of the Cultivationless Age, there weren't many creatures left from Shi Hao's generation.

"It was me who let you down!" Shi Hao's voice was hoarse. He forcefully controlled his emotions, not letting himself erupt.

The past separation in Sin Province was actually eternal!

Fire Mulberry Tree Forest, that was a place that carried a piece of his heart, a piece of a beautiful memory. However, when he turned around again, it instead stabbed him deeply.

In the past, he left thinking that he could redeem himself gloriously. Who would have thought that this was an eternal separation, forever unable to meet again?

At this time, flower petals fluttered about above, a clear fragrance scattering down. It was as brilliant as sunset radiance. When the Fire Mulberry Flowers blossomed, he really saw her again, but it was only her body, who did the soul belong to?

They previously promised that he would pick her up from the Fire Mulberry Forest, that they would reunite again, yet in the end, all of this became nothing. He only saw her figure, not her soul.

Ah...

Shi Hao raised his head, releasing a great roar. Crazy winds immediately erupted here, symbols interweaving densely, forming a terrifying domain.

Pu pu pu...

Up ahead by the passage, many creatures from the other side exploded. Right now, when this roar of grief sounded, blasts of bloody mist exploded one after another.

In the back, Mu Qing, the crimson dragon, and others were all shaken. After Shi Hao achieved the dao, he rarely lost himself like his, yet now, he went mad.

Huo Ling'er waved her hand, black flames covering the skies. The demonic imprint between her brows even more so flickered, restraining the voice, protecting some foreign creatures within.

"Do you really not recognize me?" Shi Hao walked forward, his voice sunken.

He long made mental preparations, but when things really did turn out like this, he still found it a bit hard to accept. More than ten thousand years passed, why did that beautiful girl no longer exist?

Where did he have to look to find her?

Needless to say, ever since Shi Hao saw that giant wolf, he already had his suspicions. It had already been corroded by darkness matter, completely falling into depravity.

When he saw Huo Ling'er just now, his heart felt a wave of pain. He sensed the darkness aura, realizing that she was an ultra evolved darkness being.

The other side had undying matter just like Immortal Domain. If Huo Linger was still alive, there was no need to worry about her lifespan.

However, this wasn't what Shi Hao was most scared of!

Now, he saw that her body didn't die, at the very least, her body was the same, but was it still the same person? It wasn't!

The worst thing happened. She was corroded by darkness matter, completely becoming another person.

Shi Hao already knew a long time ago that the other side and the darkness world had a close relationship, even that unmatched expert Shutuo was an ultra evolved darkness being, a powerful existence who rose up after crossing the darkness.

Now, Huo Ling'er actually also stepped on this path!

She was, without a doubt, an ultra evolved darkness being. Otherwise, she wouldn't have been able to have such astonishing cultivation within such a short amount of time, becoming comparable to undying beings.

In the past, when the three thousand provinces first erupted into an age of darkness and chaos, Shi Hao personally saw many creatures evolve into darkness supreme beings in just a few decades of time.

Just how shocking was this speed? It was simply impossible to measure with normal reasoning!

Now, after ten thousand years passed, for Huo Ling'er to have undying level strength after undergoing darkness evolution, this wasn't something too strange.

"Do you even know who you are?!" Shi Hao shouted.

"I am the Flame Phoenix of Darkness. You are Huang I presume?" Huo Ling'er was incredibly cold, as if this was the first time she met Huang, carefully sizing him up right now.

Shi Hao confirmed that she was completely corrupted by darkness matter, already not her original self. He felt resentment and grief. The past kind girl, Fire Clan's princess actually fell to this extent.

He couldn't accept this, he wanted to change everything.

"Do you have any impressions, do you still remember me?" Shi Hao continued to ask.

"You truly are laughable. What human clan heaven's pride? Nothing more than this. This is the first time I've stepped foot in this world, just the first time we met, yet you ask so many strange things for no reason!" Black flames jumped around Huo Ling'er's surroundings, wrapping around her.

"However, it is rather peculiar, you do seem somewhat familiar." She said quietly, as if thinking to herself, an expression of confusion appearing on her face.

These words, even though they were quiet, when they landed in Shi Hao's ears, it was like lightning, leaving him shocked. Was there still hope?

He clenched his fists. He definitely couldn't give up. No matter what, he had to do everything he could to make Huo Ling'er recover. He was going to reverse the darkness corrosion!

Even though he had never heard of anyone succeeding, he firmly believed that there was definitely a way!

Hong!

Immediately afterwards, Shi Hao took action. In order to help Huo Ling'er, he had to first capture her, make her stay at his side, and only then would there be a chance of rescuing her.

Heng!

Huo Ling'er released a cold shout, not holding back at all. Black flames burned the heavens, strong darkness matter was surging frantically, corroding Shi Hao.

"Become my subordinate, follow me at my side!" Huo Ling'er spoke in the darkness, her gaze deep and cold.

Once one was corroded by darkness matter, then there really was a chance of turning into a darkness creature, becoming her vassal, her servant.

Hong!

However, even if these flames were special, even if the current Huo Ling'er was extremely powerful, becoming an undying being, there was still no way she was Shi Hao's match.

Shi Hao formed a fist imprint, blasting aside the fiery light, turning into a streak of divine rainbow, quickly closing in. He reached out a large hand, about to grab forward.

Ao...

The giant black wolf released a great roar, bringing Huo Ling'er back, entering that passage.

Shi Hao couldn't hold himself back anymore. He closed in with extreme speed, rushing into that passage.
noVe)b.In

"Master!" The crimson dragon shouted.

Mu Qing and Zhu Lin were also worried. This was too dangerous! Shi Hao was going to slaughter his way into the other side?

Shi Hao truly was panicking. He wanted to intercept Huo Ling'er, keep her at his side, find a way to reverse her darkness body and make her recover her mind.

Even though hope was fleeting, it was still better than just watching her continue on like this.

"Kill!"

There were many foreign cultivators inside this passage, but it was difficult for them to stop his fist. Following this fist, flesh exploded in all directions, blood splashing everywhere.

Along the way, Shi Hao killed experts from all clans, unstoppable, even killing an undying being.

The front and back were connected, they were already about to reach the other side's entrance.

Hong!

Right at this time, a terrifying great claw reached out, striking towards Shi Hao. It was cold and ruthless, wishing to end him here.

Pu!

The void collapsed, space fading from existence. This passage broke apart inch by inch, directly collapsing. This type of power was too terrifying, the passage unable to support that existence's true body.

This was, without a doubt, a half undying king, his strength horrifying.

Shi Hao's eyes were cold and deep, inwardly feeling bitter. He quickly withdrew, appearing behind him were Kun Peng Wings, divine phoenix wings and lightning, speed exceeding the limit!

"This was prepared specially to deal with me." He released a light sigh.

If not for his speed exceeding imagination, he would have most likely suffered a disaster!

There was an unmatched being waiting for him in the passage, ready to deliver him a killing blow!

Even though Shi Hao was shaken up, he didn't lose his calm mindset. The more it reached this type of critical juncture, the more he was able to control himself.

After chasing into the passage, even though the distance between Huo Ling'er and himself was shortened, he still didn't catch up to her. This wasn't normal.

One had to understand that he had the most extreme speed under the heavens, normal undying beings couldn't escape his pursuit. This was clearly strange, signifying that there were other dangers.

That was why Shi Hao was always on guard. His divine senses were powerful to an inconceivable degree, sensing that a disaster was descending. He immediately reacted, quickly withdrawing backwards.

When Shi Hao rushed out, the passage behind him collapsed, breaking apart. Then, the great earth sunk, rubble rushing into the heavens, completely destroyed.

They would have to pay a tremendous price if this passage was to be used again.

That great hand couldn't cross over, stopped in the passage.

After coming back, Shi Hao remained silent for an extremely long time. He was inwardly anxious, but also furious.

It was clear that this was done purposely by the other side. They knew the relationship between Huo Ling'er and himself. This was to deceive him into crossing over, and then take his life!

Shi Hao was wondering if the reason why Huo Ling'er became an ultra evolved darkness being was related to him. The other party purposely chose her, to have her quickly evolve.

"Unforgivable!" He released a low roar.

After this battle ended, even the ghost immortals felt fear towards him, because they sensed heaven overflowing killing intent from his body, always remaining a respectful distance away.

Shi Hao returned, starting to cultivate in seclusion. He wanted to break through, to become even stronger, to slaughter his way into the other side. When he saw Huo Ling'er in that state, he felt as if a knife was twisted in his heart. He couldn't forgive this.

In the past, for the sake of waiting for him, because of that promise, Huo Ling'er remained alone in the Fire Mulberry Forest, always waiting for his return. However, in the end, she encountered disaster.

Shi Hao entered a mad state, attacking at an even higher cultivation level. He entered the depths of the cosmos alone, vowing that he won't come back out until he achieved immortality!

Chapter 1923 - Nine Lives Immortal Ascension

This area of the cosmos was extremely quiet, and also extremely barren. There were only ruined star remains around him, lacking brilliant great stars. It was dark and ice-cold, many years since signs of life have appeared.

"Master, are you still there?"

That day, a shout sounded from the distance. This was a crimson dragon, its length several hundred zhang, winding about here, revealing an expression of worry.

Hong!

On a ruined great star emerged a metal stele. Then, it began to drip out blood, a person walking out from within, his body covered in wounds. Blood dripped out continuously.

This was naturally Shi Hao. Ever since he came back, he risked life and limb, cultivating here bitterly, using the Void Immortal Gold Stele to fight against himself.

After several years passed, the soul lamp Shi Hao left behind in Imperial Court became dim dozens of times, many times even completely going out. This truly frightened Imperial Court's people badly.

This was especially true this time, his soul lamp really did go out, clearly completely going out. The crimson dragon immediately hurried over to find out what happened.

"You really had us scared! The Heavenly Horned Ant, Mu Qing and the others were also startled out of their seclusion, having me come over to check. We really were scared that you passed on in cultivation." The crimson dragon released a breath of relief.

"I'm fine!" Shi Hao shook his head. He dragged his ruined body out, sitting in the cosmos, devouring the essence energy all around him. Stellar brilliance became dim, surging over from the distance, entering his body.

The crimson dragon released a cry, "You are still saying you're fine? You almost lost your life dozens of times! Master, you shouldn't put yourself at risk like this!"

During these past few years, there were signs of Shi Hao almost dying dozens of times. It was obvious just how intense his cultivation was, there was the danger of passing away at any time.

This was indeed the case. During these years, Shi Hao remained in the Void Immortal Gold Stele, fighting dozens of battles against himself, both sides suffering each time, even he himself almost dying.

It was to the extent where several times, he entered a dead state. In the end, he used the True Phoenix Precious Technique and Willow Deity's method to revive and become reborn, only then did he make it through.

"Master, don't do this anymore! If something really happens to you, you shouldn't think that Imperial Court is flourishing, it will definitely immediately collapse!" The crimson dragon advised.

At the same time, he pointed out that if the ghost immortals weren't suppressed by Shi Hao, there would be a huge disaster in the future. Meanwhile, without him being there, the Seven-Colored Immortal Gold Man would also definitely leave.

Perhaps only those heroic spirits would remain. However, they didn't have physical bodies in the end, like duckweed without roots.

"I know. Nothing will happen. I won't allow myself to die." Shi Hao said.

Even though he said this, in the following hundreds of years, he continued to fight against his true self, comprehending the dao. The Void Immortal Gold Stele was scarlet red like blood in these hundreds of years, essence blood flowing out from time to time.

During the most severe instance, Shi Hao's soul lamp completely went out, even the restricted region lord was startled, personally coming to find Shi Hao.

In the end, they found him floating in the cosmos alone, his body cold. Mu Qing helped him drink three containers of immortal blood great medicine, and only then did Shi Hao revive.

"I was careless!" He was apologetic. He looked towards everyone. This time, he truly worried them.

"Do you even know how serious this situation is?!" The restricted region lord was extremely stern, berating loudly.

This time, it really was dangerous. If they didn't find Shi Hao, he might truly have entered eternal rest, dying in the cosmos depths.

"You used up a life, died once! In the future, using this immortal blood great medicine already cannot preserve your life!" The restricted region lord said seriously.

This was extremely serious. Shi Hao already ingested undying immortal medicine, previously extending a life in the Age of Emperor Collapse. Now, immortal blood great medicine was also useless.

"I know. This time, I want to achieve immortality, I won't consider these things anymore." Shi Hao said.

When he thought about it closely, it really was extremely terrifying. He fought against himself in the Void Immortal Gold Stele, their strength the same. However, as long as he died, he really will fall.

Just how terrifying of a thing was this?

The Void Immortal Gold Stele was a strange treasure, truly rarely seen in the world. However, it was also dangerous, cultivating inside by fighting oneself had the danger of sending oneself to the afterlife.

nOVe-lb)In

During these years, Shi Hao always walked on a tightrope, a single moment of carelessness and he would be consigned to eternal damnation. As long as he entered the Void Immortal Gold Stele, encountered that self, there was no possibility of compromise, the two could only fight a bloody battle.

It was precisely because of this that the insights gained through life and death, the comprehension through bloody battles, all of this was accumulating, slowly changing him. He wanted to achieve immortality through this type of cruel grinding.

For the sake of breaking through, he basically lost a life, dying once!

"This life was rather short, I only lived thirteen thousand years." Shi Hao said quietly. Strictly speaking, if the Age of Emperor Collapse experience was included, Shi Hao now lived nine lives.

Time was ruthless. Another eight hundred years passed.

During this period, Shi Hao experienced endless battles without dying. He was always fighting, fighting many great battles each year, each time almost dying!

This was the cruelest way of cultivation, everything for the sake of rushing into the heavens. He wanted to achieve immortality, wanted to cross the insurmountable heavenly moat through hell-like torment.

He approached death over ten thousand times, basically dying!

Who could endure this type of experience, every single year like this, every month like this, gain enlightenment through the most terrifying confrontations, fight crazily against oneself?

Hong!

Heaven overflowing light erupted in the depths of the cosmos, making even the great star domain grow dim.

“What? That is?!”

Many people were stunned, even the sleeping existences within great restricted regions becoming alarmed. All of them opened their eyes, looking towards this starry sky, into the depths of the cosmos.

“Immortal Ascension Light, illuminating past and present!”

“How is this possible? In this Cultivationless Age, how can anyone achieve immortality?”

Forget about other cultivators, even the restricted regions released cries of alarm, finding this a bit hard to believe. However, this was reality.

Immortal Ascension Light illuminated the universe. In that instant, a rain of light scattered down, directly sweeping towards the Nine Heavens Ten Earths.

It was because this was the Cultivationless Age. Once one achieved immortality, it would be unimaginable, directly affecting the entire cosmos, all clans and sects would know. This left everyone deeply shocked.

Right now, the heavens produced sweet dew, divine springs surging from the earth, countless golden lotuses appearing in the void. All types of irregular scenes that were difficult to describe appearing, this entire world becoming a sacred land.

The clans were all shocked!

Heaven and earth were splitting. In this Cultivationless Age, someone achieved immortality, defying normal reasoning. Just how difficult was this?

Achieving immortality in the world of mortals, rising up in the Cultivationless Age, this type of difficulty was comparable to climbing the heavens, basically impossible!

Even if one cultivated for an endless amount of time, it was pretty much impossible to achieve immortality in this type of age.

It was too difficult!

Cultivationless Age, even becoming a supreme being was extremely difficult. How could one possibly achieve immortality?

The entire world was shocked, erupting into commotion.

Honglong!

World shocking thunder radiance descended, making the cultivators of all clans quickly close their mouths, immediately becoming quiet. It was because that lightning radiance was too terrifying. Even though they were extremely far away, it still left them inwardly shaken.

This was primal chaos thunder radiance, immortal dao lightning. There was too much of it, densely packed, drowning that starry sky.

Kacha!

In that instant, the star domain was completely destroyed, no longer existing.

In the immortal radiance, in the primal chaos, Shi Hao moved with extreme speed, rushing towards the Realm Grave. He made his way through the ancient world formed from ruined worlds, achieving immortality here.

Otherwise, he was scared that this universe would be directly blasted through and destroyed. That lightning radiance was too terrifying.

According to the information he learned from the bone books, his Immortal Ascension Tribulation would be even more fierce than what true immortals normally faced, even more terrifying.

“Kill!”

Shi Hao released a great shout, doing everything he could to resist this immortal tribulation.

At the same time, he was on guard, checking if any darkness or inauspiciousness would appear. In the past, Great Elder failed within sight of success, ultimately ending up being corroded by darkness and inauspiciousness.

Thunder radiance surged endlessly, in the end, the Immortal Killing Guillotine appeared again.

Shi Hao spent several days crossing this great tribulation, the scene as terrifying as terrifying could be, incomparably horrifying.

This was Immortal Ascension Tribulation, destroying many ruined worlds in Realm Grave. Wherever the lightning passed, many ruined ancient realms would turn to nothing, completely blasted to pieces.

In the end, the Sea of Reincarnation within Shi Hao’s abdomen shone, the Dao Palaces within his inner viscera releasing scripture sounds. His four limbs’ corresponding to four extremes operated divine force, a great dragon rushing out from his back, entering the heavens, releasing a draconic cry, shaking the Nine Heavens. In the end, his skull became extremely brilliant, an endless rain of light appearing, the Immortal Platform within rumbling with noise.

Shi Hao used the body as a seed, creating his own method. Right now, the five great secret realms, Sea of Reincarnation, Dao Palaces, Four Extremes, Dragon Transformation and Immortal Platform, all of them resonated, releasing dazzling immortal light.

He successfully crossed tribulation, becoming an Immortal Dao Domain expert!

Achieving immortality in the world of mortals made him far greater than similar ranked individuals in Immortal Domain. He could sweep through all enemies in the world, possessing immeasurable divine might.

“I’ve waited too long for this day!” Shi Hao spoke. His mortal core was cleansed, the surface of his body swirling with brilliance, immortal radiance hazy. He possessed immeasurable fighting strength.

Now, Shi Hao’s flesh was perfect, his primordial spirit imperishable, magical force surging without end. He achieved immortal dao within the Cultivationless Age!

Chapter 1924 - Transcendence Piece

He finally achieved immortality!

Shi Hao had waited just way too long for this day. The years of cultivation were ruthless, his loved ones, his friends, his lovers... he had missed out on just too much on this path.

For cultivation, he endured the torment of loneliness, each seclusion lasting hundreds to over a thousand years. It was to the extent where in the Age of Emperor Collapse, more than ten thousand years easily passed. For normal people, how could this be endured?

Fortunately, the hundreds of thousands of years were lost during the Age of Emperor Collapse, or else if it was carried out in the present world, it would be even more cruel.

Those who achieved immortality rarely reached perfection in the mortal world. A single instance of seclusion and the blue sea would have turned to mulberry fields. At that time, what loved ones, what wife and children, most of them were already parted eternally by death.

Even if it was Shi Hao, what could he do?

He achieved immortality, but what about his parents, his dao companion, his child? They were all buried in Stone Village. He couldn't see them again, just the thought alone left him with sadness!

"The emotions and desires of mortals, the hundred faces of the secular world, these are essential things to life. Meanwhile, I've lost so much..." Shi Hao said to himself.

The moment he achieved immortality, he didn't feel any emotional fluctuations, no happiness, instead disappointment and frustration. He continued all this way, only on the day he achieved immortality did he understand what he missed out on, what he lost, what he regretted.

"Immortal ascension... sigh!" Shi Hao felt a bit pained.

Back then, he entered the Nine Heavens precisely to reach the peak of cultivation, leaving Sin Province's Fire Mulberry fields, parting with Huo Ling'er.

Now, how could he not feel any regret?

Huo Ling'er already became like that, her flesh was still there, but what about her soul? Where exactly was she?

Shi Hao knew that in the following period, perhaps he might lose even more. There would be times when even true immortals were powerless, when he had to watch as the people at his side died one after another, passing away under the passage of time.

Even if he achieved immortality, there was no avoiding the loneliness of the world, the solitude of being alone.

Weng!

The void trembled lightly. In the darkness, crack after crack appeared. A demonic mist that was entirely pitch-black like ink appeared, constructing a passage. This was a move from the side of darkness.

“Kill!”

Shi Hao released a great roar.

A fist smashed out, immortal light surging, accompanied by endless auspicious brilliance, smashing that place apart with a loud noise.

He hated the darkness corrosion bitterly. If it wasn't for the Cultivationless Age completely descending, making the creatures of darkness feel restraining fear, preventing them from easily invading, he might have experienced great issues during his immortal ascension. Back then, this was how Great Elder died, falling to darkness.

Shi Hao achieved immortality in the secular world. This time, not even darkness matter and inauspiciousness could stop his advance.

“How many years has it been? This is an immortal born in the world of mortals, truly achieving immortal dao status in an age where immortal ascension is impossible. Just how strong is his strength? It is definitely greater than other true immortals!”

Within a restricted region, a creature released a light sigh.

Imperial Court erupted into commotion. He achieved immortality, Shi Hao was now a true immortal, able to look down on all experts in this world! He really rose up, from now on, he didn't have to worry about the corrosion of time, able to coexist with the world.

For Imperial Court, the significance of this was too great. If Shi Hao possessed long life, existed with the world, then that meant that Imperial Court's inheritance could continue eternally without perishing!

The ghost immortals, the two true immortal level heroic spirits and the Seven-Colored Immortal Gold Man all immediately rushed into the depths of the cosmos, witnessing Shi Hao's miracle.

The Heavenly Horned Ant, Mu Qing, Emperor Butterfly and others all moved as well, rushing here.

However, shortly afterwards, they stopped again, because they noticed abnormalities.

The immortal light there was dazzling, auspicious multicolored light shining in endless streaks, completely surrounding this place. It was just too dazzling.

“What is that?”

Many people were startled, even the ghost immortals and Seven Colored Immortal Gold Man's pupils contracted, really wishing to dive over. That type of radiance was extremely dazzling and also extremely peaceful, as if a treasure was appearing in this world.

In the depths of the cosmos, Shi Hao sat there, saying to himself, “Turns out it was like this!”

After achieving immortality, he sensed something. When he operated the True Primordial Record, it reacted with Supreme Hall's snow-white case, which was also the mountain treasure that appeared near Stone Village.

Then, this case actually merged together with Stone Village's white cauldron, becoming sparkling and translucent.

It was just too sudden!

This was the small white cauldron gifted to Shi Hao by the Five-Colored Sparrow, previously used to seal his own child. However now, that little fella was sealed in Divine Origin Liquid, sealed up in Stone Village.

This cauldron was kept by Shi Hao at his side. Now, after he achieved immortality, it underwent such a huge transformation!

“When I operated the True Primordial Record, it also startled the mountain treasure and the little white cauldron, the two merging after they made contact, could it be...” Shi Hao was moved.

He was extremely shocked, and also extremely hopeful.

Time flowed on.

In the end, the precious case merged with the small cauldron, immediately becoming perfect. The bottom and cauldron walls no longer had caved in areas, instead becoming smooth, completely filled.

This was a cauldron, completely the same as the bone material of the True Primordial Record, snow-white like jade.

The mountain treasure disappeared.

The surface of the small cauldron was covered in diagram symbols, symbols were everywhere. There was an ancient method recorded on it, still extremely ancient, extremely simple.

“Transcendence piece!”

Shi Hao’s eyes erupted with divine brilliance, revealing an expression of shock. This really was searching everywhere, but then what he looked for suddenly appeared when he turned his head.

There was a period when Shi Hao searched everywhere, looking for this piece of secret technique, but in the end didn’t find anything.

Who would have thought that it was right by his side!

The True Primordial Record was divided into three pieces, the upper piece Divine Guidance, the middle piece Transcendence and the last piece which was unknown. n//0velb1n

Shi Hao stared at this small cauldron, examining it carefully, engraving all of the ancient symbols in his heart. Then, he closed his eyes, starting to study them.

After who knew how much time passed, he opened his eyes. The Transcendence piece was extraordinary after all. It still used the most simple, fundamental symbols of the world to construct great dao profound mysteries.

The so-called Transcendence was to cross over through the bitter sea of the world of mortals, and then ultimately become everlasting and imperishable, forever living in this world.

There was no concrete method, only simple and ancient dao, using the world’s most basic symbols to construct this world’s various secrets, expound on the great dao’s characteristics.

"I've achieved immortality already, it doesn't have much meaning for me. However, the two-sided verification still granted me much enlightenment."

The Transcendence piece was extremely mysterious, and also extremely powerful. It was a true unmatched great method.

The ghost immortals and Seven-Colored Immortal Gold Man stared from afar, looking at the white cauldron in front of Shi Hao's body, their eyes brilliant, inwardly swallowing. However, they still endured it.

This was Huang's belonging, they truly didn't dare fight over it!

Years passed one after another. In a flash, another millenia passed.

Shi Hao not only strengthened his own cultivation, he was also comprehending great methods.

Honglonglong!

Heaven and earth made great movements, primal chaos surging. In this place, an indistinct figure was seated, accompanied by endless radiance. He slowly opened his eyes.

"I've settled a worry, left behind my path, my inheritance. This way, even if something unexpected happens, it doesn't matter anymore. There will be a successor to take my place."

Shi Hao said to himself, actually speaking these words.

Immediately afterwards, endless thunder radiance poured down, actually even more terrifying than the one emerging after crossing immortal tribulation.

Shi Hao's voice resounded through this heaven and earth, shaking up the Nine Heavens Ten Earths, echoing through the world. Sure enough, it was even more terrifying than when he achieved immortality.

"Human body secret realm -- Sea of Reincarnation!"

When he released a great roar, the entire world trembled. Everyone saw a sea rise and fall in the depths of the cosmos, a sea of life accompanied by death energy.

"Human body secret realm -- Dao Palaces!"

When this roar sounded, scripture noises shook the world. In that instant, it suppressed all of the scriptures the cultivators were currently cultivating, as if there was a type of great dao ringing through the mortal world.

That day, the creatures who cultivated in seclusion were all startled, all of them making some breakthroughs.

This really was terrifying. How could it be like this?

"Human body secret realm -- Four Extremes!"

After a great roar sounded, the world's four extremes shook greatly, as if endless power descended, becoming primal chaos, rushing into the heavens and moving the earth.

Even in the restricted region, there were ancient creatures who were shocked, saying, “This is the creation of a method, completely walking his own path! Now that he created this method, it is interfering with the trajectory of the great dao, affecting the cultivation progress of others when studying scriptures!”

Some of the creatures in the restricted regions were truly startled. This was simply inconceivable!

Someone was creating a method, but it was different from the past. This person stepped on an entirely different path! During the initial part of this method’s creation, it was simply like commanding the world!

This type of irregular scene would appear whenever a type of system first started, making even the world feel fear!

“Dragon Transformation!”

When these words sounded, a draconic cry sounded between heaven and earth, the entire world trembling. Everyone continuously shook, a great dragon rising up into the sky from behind them.

“Immortal Platform!” Following these two words, the world resonated and the great dao rumbled. Not only did the radiance in this world become resplendent, even the dark cosmos became bright.

The various places were all like this because the heads of creatures from all clans were shining, as if there was a type of dao flame that was ignited, a seed buried within.

“Too powerful! This type of method is extremely frightening! Even before it has been inherited, all clans are already resonating with it. It is the same as planting a dao seed in everyone’s hearts!”

“Only when this type of technique first appears will there be this type of terrifying irregular scene!”

The restricted regions couldn’t remain calm anymore. Even the ancient experts who were slumbering were roused awake, unable to help but wake up, returning to this world.

Shi Hao obtained the Transcendence piece, allowing him to finally perfect his own method. Even without the body as a seed, those of later generations could still cultivate. He completed this path.

An unprecedented path was created, one that started from the Sea of Reincarnation!

Once this type of method was completed, the effects would be too great. That was why the heavenly tribulation that descended was even more terrifying than that of immortal ascension.

Back then, when he created the method, there was already devastating lightning tribulation that descended, almost destroying his body and spirit, let alone this time.

However, the current Shi Hao was already on a whole different level than before, he achieved immortality. Compared to before, it was unknown just how many times more powerful he became.

In the following decades, Shi Hao remained under lightning radiance, he was blasted until his entire body was scorched black several times, even his immortal body cracking, blood splashing over the world.

However, he made it through each time.

The amount of times he became injured was fewer and fewer, his body gradually shining, becoming incredibly sturdy.

Of course, later on, this heavenly tribulation also changed, becoming stronger. One time, he was seriously injured, but he recovered once again.

After endless tempering, a whole century of time passed just like that. Shi Hao spent this entire time under heavenly tribulation.

Just how terrifying of a matter was this? Such a thing had never been heard of before. When had there ever been a heavenly tribulation that continued for a hundred years?

It was all because the effects this time were too great, disturbing the balance of the world. A different type of path, a completely different system appeared just like that, shaking up the great world.

This was heaven-defying!

After being bathed in flames of thunder for a hundred years, scorched for a century, lingering between life and death, after finally making it through, Shi Hao's dao skills surged. This was the same as undergoing a complete transformation and sublimation, stabilizing his secular immortality foundation, moreover strengthening him further.

These hundred years of time were comparable to cultivating for tens of thousands of years. It was because this time was spent under heavenly tribulation.

"This path, for the creator of this type of cultivation system, after successfully making it through, the benefits obtained would be unimaginable." Even the people in restricted regions were sighing, a bit envious.

They recalled that in the Age of Emperor Collapse, there was someone who established an ancient method. In the end, it was rumored that his achievement almost took him directly into the Immortal King Realm, able to overlook all!

"It is time for me to head out." Shi Hao opened his eyes, his gaze like two immortal swords, tearing through the void. He erased all of the heavenly tribulation lightning, his body imperishable, sturdy and unbreakable. He decided that it was time to head to the other side!

Chapter 1925 - Back in the Other Side

Shi Hao took a step out. Primal chaos scattered. He directly returned from the depths of the cosmos to Imperial Court. Stars swirled and stellar streams shook, the power astonishing.

"Master!" The crimson dragon greeted him.

The ghost immortals, two heroic spirits and the Seven-Colored Immortal Gold Man all returned from the cosmos, inwardly incredibly shocked.

Hundred years of tribulation, what kind of scene was this? It was something that had never happened before!

“The creator of a method shoulders the great fate of heaven and earth, destined to shine brilliantly. His future accomplishments are limitless!”

There were immediately restricted region creatures who congratulated him, bringing over great gifts, including divine medicines in medicine containers, as well as all types of divine pills and other things.

This was something completely unprecedented. The restricted regions actually sent over people to congratulate him, acting with such formality.

That day, Shi Hao politely refused all those who paid him a visit. He summoned Mu Qing, Heavenly Horned Ant and others into the central giant palace. He now officially passed on the doctrines. A finger pointed out, an immortal dao engraving appearing, engraved in their heads so they would never forget.

“Master, we have already cultivated the present world methods and Immortal Ancient methods, long becoming familiar with them. If we are to change our paths now, would it still be suitable?” The crimson dragon asked.

The Lightning Spirit hesitated. If it changed their paths, what exactly would happen?

“The system I am passing down is something you all only need to remember. You can use it as reference. If it is not suitable, you can pass it down onto your successors!” Shi Hao said.

“I will learn it!” Mu Qing said.

He had powerful faith in this system, believing in Shi Hao’s incredible ability.

It was because not long ago, when Shi Hao roared out the names of the five secret realms, the irregular scenes that happened between heaven and earth were too terrifying. When the final two words Immortal Platform sounded, the heads of all creatures shone, as if there was a dao seed buried within.

How could this type of inheritance be ordinary? It was definitely a heaven-defying path!

“I will also learn it!” The crimson dragon no longer hesitated, making his decision.

Shi Hao didn’t say anything more. After passing on the method, he was going to head into the other side, settle some of his most cherished desires. He couldn’t allow Huo Ling’er to completely fall into darkness, he had to bring her over.

At the same time, there was Great Elder Meng Tianzheng. If he was still in the other side, then he had to rescue him!

It was clear that Desolate Border’s uninhabited region’s path couldn’t be taken. As long as he charged through, it would be the same as telling the entire other side that he was slaughtering his way over, it would be too obvious.

He prepared to head to Great Scarlet Sky Border, search for a path there.

“Are you really insisting on going?” The restricted region lord came. He released a light sigh, full of worry.

Shi Hao created a method, this was a great event, something that could be sensed even from the borders of the cosmos, the effects just too great. This entire world produced irregular scenes for him, releasing holy splendor. It was impossible for others to not know about what happened.

"I don't wish for anything unexpected to happen to you, I want you to continue living, and then come back safely!" The restricted region lord said.

Shi Hao nodded, telling him not to worry. He wouldn't die in the other side no matter what, he still had things to do.

Even he himself sensed that after the method creation was complete, his great dao path became increasingly vast. A brilliant level road was right before his eyes.

"Secretly enter from Yuyu Heaven!" In the end, the restricted region lord pointed out a path.

That path was in Yuyu Heaven, not something that belonged to the most recent two great eras, instead an ancient path that had been left behind endless years ago. It had long been sealed for an endless amount of time.

Apart from an old monster like the restricted region lord, no one in the present world knew about it.

Shi Hao bowed respectfully. Apart from this, what more could he even say?

Before leaving, he called over Mu Qing and the others, secretly telling them that he was heading to the other side, having them be more careful during this period of time.

Then, he even more so began to lecture them, explaining his own method and dao in even more detail than last time. This path couldn't be broken, he wished for this system to be passed down.

He planned to head into the other side, but he didn't want to alarm them, making them notice his arrival. He declared that he was entering seclusion cultivation to the outside world.

In reality, the first place he went to was Fallen Immortal Ridge, arriving outside this place again. He transmitted sound again, saying that he wished to enter and examine the Imperishable Scripture.

That day, Fallen Immortal Ridge's reply was different.

This place remained quiet for a long time. In the end, someone came out, inviting Shi Hao in.

The restricted regions all sent people to congratulate Shi Hao, just too shocked at his creation of a different cultivation system.

This time, after he arrived at Fallen Immortal Ridge again, the treatment he received was entirely different as expected. This time, no one stopped him, no one challenged or provoked him.

"The method is recorded on that stone wall, please do as you please!"

Fallen Immortal Ridge's people were cold. They allowed Shi Hao to observe it, but their attitudes weren't all that great, feeling like the clan attached too much importance to this later generation youngster.

Shi Hao cupped his hands, not acting ostentatiously. He originally thought that the other party would allow him to observe it. If they didn't, he didn't plan to push further either.

“Worthy of being the Imperishable Scripture!”

Shi Hao closed his eyes for a long time. When he finally opened them, with a shua noise, radiance shocked the heavens, tearing apart the sky. This was an unmatched great method.

It could refine the flesh, temper the bones, make one sturdy and imperishable, eternally inextinguishable!

There were recordings stating that even if one were to die one day, their body still wouldn't break, able to continue living. Even after millions of years passed, their flesh could still recreate their primordial spirit.

This was just too sinister!

Even after he died, his primordial spirit scattered, his flesh could still recreate a true self!

One had to understand that this was a true self and not another primordial spirit being produced, still him!

Shi Hao stood here for ten days. His eyes closed, harmonizing the Imperishable Scripture with his own method and dao, obtaining completely new insights, his benefits not small.

Finally, he disappeared.

Many people thought that he went into seclusion.

In reality, he went to Yuyu Heaven. Just like Great Scarlet Sky and Immeasurable Heaven, it was one of the Nine Heavens.

He found historical remains that had countless ruined bones buried here, a bit of immortal dao mist still being released. One could see just how terrifying that battle was.

In the end, he found a formation in the underground ruins. He undid the seal, following a black crack, making his way through.

Two months later, Shi Hao's body was covered in blood, dragging out a weary body. He entered the other side from that difficult and dangerous ancient path!

When he entered the other side again, he sighed with endless emotion. In the past, he had been 'sold' by Jin Taijun, viewed as an abandoned child, sent to the other side, enduring great humiliation. He almost died in this world.

Now, he came again. However, this time, he took the initiative to slaughter his way over.

“What kind of place is this?” Shi Hao moved slowly. He was trying to find his current location, ascertain where he was.

This region had flourishing plant life and majestic mountains. There was actually undying energy lingering about, comparable to the immortal energy of Immortal Domain, extremely rich.

At the same time, he sensed an extraordinary aura that carried a bit of fragrance. This was the distinct smell of divine medicines or immortal medicines, currently fluttering about this place.

Just what kind of place did he arrive at exactly? Shi Hao was confused.

He directly headed inside. This region was not simple, protected by formations. Otherwise, with his cultivation, a single thought and he would travel who knew how much distance, everything appearing in his mind.

Shi Hao approached. He was now a great formation master, this type of ancient formation wasn't an issue for him.

Sure enough, there was a volcano in the depths of the mountain range that was extremely important. There were many spiritual medicines in its surroundings. Divine light flickered, this place was a sacred ancient land.

That volcano was even more extraordinary. Inside the magma was a stalk of grass that looked like a stick, straight and upright, releasing dazzling radiance.

It was entirely golden-colored, even more brilliant than a sun!

"A true stalk of Yang Return Grass?" Shi Hao was stunned, a bit confused. He actually managed to find this type of thing?

It was like a golden sun, releasing extremely brilliant radiance, rarely seen in the world. This stalk of grass was incredibly holy, just too dazzling.

In the end, Shi Hao was still doubtful. This really might be Yang Return Grass. It wasn't a stalk of immortal medicine, yet was better than immortal medicine, able to save one's life, bring them back from reincarnation.

The value of this medicine was too astonishing, just the name alone explained its effects.

Shi Hao studied it for a long time. After being certain of the formation's situation here, he carefully approached this stalk of grass. It clearly had a spirit, wishing to scream out.

In the end, it was sealed by him, and then directly dug out, tossed into a spatial artifact.

The value of this medicine was too great, just this grass alone meant that this trip of his was not done in vain.

When Shi Hao walked out of this mountain range, leaving the formation, he revealed a strange expression. There was an ancient cave on the other side that released undying energy. There was someone seated there, cultivating.

"You... how did you walk out? Who are you? You dare enter the pure land where Scarlet King raised great medicine, brazen!" The creature in the cave shouted.

This was an undying being. He was seated here precisely to guard this pure land. To be more precise, it was precisely to guard the Yang Return Grass.

"Scarlet King?" Shi Hao's eyes narrowed slightly.

There were just too many legends pertaining to Scarlet King. Some said that he used the Scarlet King Furnace to refine the Nine Heavens' side's immortal king, but he himself was also seriously injured, always in seclusion, never appearing in this entire great era.

"Could it be that something great really did happen to Scarlet King, causing him to always remain in seclusion?" Shi Hao said to himself. Then, he sneered. If this was the case, he definitely couldn't leave this stalk of Yang Return Grass for him, because it would be extremely useful.

Hong!

The two took action at almost the same time. That undying being was enraged. A mysterious person entered their pure land, leaving him resentful. What kind of place was this? It was Scarlet King's great medicinal land, how could outsiders dare approach?

Pu!

This undying being was shocked. Under Shi Hao's strike, that arm turned into a blast of bloody mist. He just released a furious shout, yet in the end, he discovered that the great hand already wrapped around him, seizing him within.

He was horrified. Why was this youngster this strong? With a raise of his hand, he was already captured, it was too terrifying!

"Speak, what kind of place is this?" Shi Hao asked.

He knew that this type of interrogation was useless. He was just trying to divert the other party's attention while he secretly already took action, refining his primordial spirit, wishing to know everything.

Pu!

This undying being's forehead exploded, his primordial spirit shattering, directly losing his life.

This wasn't done by Shi Hao, but was rather an effort by this person to take him down with him when the primordial spirit exploded.

However, Shi Hao still learned where this place was from the primordial spirit fragments. This was an ancestral land of the Scarlet King bloodline.

Scarlet King indeed encountered a great issue, ending up in a half living half dead state even after all these years, sleeping in the ancestral land, always waiting for a chance to revive.

"Scarlet King, it really was your old nest?!"

Cold light flashed past Shi Hao's eyes. Scarlet King used the Scarlet King Furnace to refine an immortal king, refine his essence blood, his methods ruthless. Now, Shi Hao actually entered his place of seclusion.

Shi Hao didn't leave, directly continuing forward to Scarlet King's place of residence. He withdrew his aura, moving forward like a specter.

It was because he wanted to kill Scarlet King!

“You are half alive yet still not dead, you better not let me find you, or else I’ll just send you on your way!” Shi Hao said coldly.

Chapter 1926 - Piercing the Heavens

Scarlet King was an undying king known for his viciousness. Regardless of whether it was in the foreign realm or the Nine Heavens, he could be considered an unrivaled expert, there was no need to doubt his strength!

Daring to refine an immortal king during a decisive battle, using him to help himself, there was only a single person capable of this!

It was rumored that he was waiting for a chance to devour all of the dao fruits of that immortal king he refined in the Scarlet King Furnace, his plans not as simple as just seizing his vitality.

This was a terrifying existence who was incredibly bold, he wanted to break through the Immortal King Realm. Otherwise, he wouldn’t have sunk into his current predicament.

It was because the reason why he was half living half dying was because he was waiting for a chance to be reborn, gain new life. He wanted to break through his past shackles, establish a brand new glorious age!

He wanted to break through the level of king and rise up above!

The Scarlet King Clan occupied an extremely vast amount of space.

Along the way, Shi Hao saw more than a single giant city. They were all extremely vigorous, some even larger than Imperial Pass, built from star remains.

There were some cities made of metal that floated in the skies above. They were surrounded in chaotic energy, suppressing this ancient land, preventing undying energy from leaking out, at the same time gathering the heaven and earth essence from all directions.

Shi Hao continued forward, arriving at this clan’s ancestral land.

This place was too peaceful. There was no giant city, no unmatched cave dwelling, only a small city built against a mountain. If not for the rich undying energy here, it would be hard to imagine this to be Scarlet King’s place of seclusion.

A great era even already passed, yet there was still no sign of him, no activity.

Even this clan themselves wondered if Scarlet King could still appear in this world.

If it was a normal person, they definitely wouldn’t be able to reach this place. However, Shi Hao was too strong, passing through many dangerous places, also avoiding the areas where undying beings patrolled, slowly approaching Scarlet King’s place of seclusion.

There was an even greater reason for his successful advance. After a great era passed, there was still no one who saw Scarlet King appear, not even a bit of activity, so even this clan themselves became numb!

This place had never changed for such a long time, the same year in and year out. It was like this for an entire great era, so everyone became a bit complacent, long becoming lazy in their patrolling.

However, this small earthen city was still a restricted area. Normally speaking, not even the clan's direct descendants were allowed to step foot in here, they weren't allowed to disturb Scarlet King's cultivation.

In this place, there were only a few followers that were in charge of this place's maintenance.

There were a few figures scattered about at the city gate entrance, in charge of guarding this place. Those people weren't all that vigilant, extremely lazy.

It was because guarding this place was just dry and dull. They faced this restricted region all day, yet they didn't dare make any loud noises, only able to doze off, sit here and pass their time.

Shi Hao entered the city, sneaking inside, heading towards the most ancient and grand manor. Inside a low stone mountain, there was a tall courtyard wall surrounding that place, endless undying energy swirling around it.

It was rumored that Scarlet King was cultivating in seclusion precisely by the earth cave that stone mountain suppressed!

After he came here, Shi Hao became careful. After all, the other party was an undying king. Even though he was in a feigned dead state, he was most likely still extremely dangerous.

However, he really didn't want to let this chance go. If he could kill Scarlet King, then that would really be a great achievement, a great event that would shock endless time!

Undying kings were just too difficult to kill, any one of them able to move heaven and earth, destroy realms, their power unmatched, truly unrivaled in this world, their vicious might unequalled!

A single undying king was enough to wipe out all the creatures in the Nine Heavens Ten Earths, their destructive force was just too great!

In front of the manor, a creature was currently lazily basking under the sun, as lazy as lazy could be. It rested there, not even wanting to move.

It already saw Shi Hao, a look of shock appearing on its face. It opened its mouth, wishing to ask him something, but in the end, it didn't move at all, only staring at him with a strange expression.

Shi Hao didn't reveal his true body, his body was indistinct. He walked here, releasing supreme being aura, hiding his true cultivation.

Since he appeared, he naturally wanted to capture this creature, find out this place's secrets. During this process, he already produced several formation banners, sealing up this region.

Time Beast?

Shi Hao's mind jumped. This was the original body of the Scarlet King bloodline, this clan's direct descendant. However, he didn't sense any undying aura from the other party's body.

He believed that just a single move was enough to destroy the other party!

Shi Hao pressed forward, staring at this Time Beast.

It was entirely scarlet red. It had the head of a flood dragon and the body of a lion, yet its body wasn't covered in fur or scales, but rather scarlet bone spurs. They were tough, flickering with ice-cold brilliance.

This was one of history's most terrifying clans!

Time Beast, they grasped time, completely unstoppable! From the past until now, there weren't many special methods of dealing with them. They were regarded as an undefeated clan!

Being looked down at by an unfamiliar cultivator made the Time Beast's expression go cold, a faint pressure was released from its body. It coldly asked, "Who are you?"

"A solo cultivator. I heard Scarlet King was cultivating in seclusion here, so I came in search of treasure." Shi Hao's eyes flickered with radiance.

"Unbridled! How can this be a place you can approach?" The Time Beast's face sunk.

"Just an abandoned land, Scarlet King most likely died countless years ago, your Time Beast clan already falling off the divine altar. It's not as if my clan doesn't have an undying king, so how can my visit today be considered anything major." Shi Hao wasn't in a rush at all, speaking nonsense in a deadly earnest manner.

"Scarlet King's place of seclusion, is it really a place you dare randomly enter? Even if you have an unmatched being behind you, he still has to come with his head lowered, admit his crimes, unable to protect you. Just follow me back to the clan to accept death! I'll give you a chance to die a bit easier." The Time Beast said coldly.

Its cultivation didn't seem to be that great, but it had a type of arrogance, making one feel as if they were far superior, looking at Shi Hao with an attitude of looking down on a mortal.

"If Scarlet King came here and said these things, then it is still acceptable. However, even you dare point fingers and pass judgment on everything, order the world?" Shi Hao said in mockery. $n(\mathcal{D})-\mathbf{v}(\mathbf{E})(\mathcal{L}-\mathfrak{B}(.1)n$

Then, he moved forward, reaching out a large hand. It was faint golden in color, directly seizing that scarlet ancient beast.

Chi!

The Time Beast was too shocked. Time fragments fluttered about. Even though its cultivation still wasn't that profound, it avoided Shi Hao's attack.

This left him shocked!

What cultivation level was he currently at? He already achieved immortality in the mortal world, a creature whose cultivation realm was even lower than his own could actually evade this strike! This really wasn't a simple matter.

The most shocking thing was that this Time Beast broke through all the shackles of the formations he applied, directly rushing towards the stone mountain in the manor!

Shi Hao was alarmed, thinking that this was bad. He was careless by not using immortal force. If this Time Beast escaped the region this formation sealed down, then everything would be exposed.

Chi!

He didn't feel any restraining fear, opening his mouth and spitting out a streak of sword light. A resplendent stellar stream shone resplendently, immortal energy surging, drawing out a world shocking trajectory, tearing apart the void, hacking forward.

Pu!

Blood radiance splashed out. Shi Hao used his own great magical force, spurring on his innate origin essence, creating an unmatched immortal sword, hacking off half of the Time Beast's body.

"Ao..." The Time Beast was furious, releasing a low roar. Its body distorted, time swirling about, time itself turning into tangible matter, wrapping around it. It leapt out of the formation, entering the stone mountain.

It then disappeared in the blink of an eye!

This was extremely strange. The Time Beast's cultivation still wasn't sufficient, not entering the undying domain, yet it could escape. This even made Shi Hao reveal an expression of shock.

Shua!

He picked up that half of the body from the ground, storing it away to research time natural laws later. Of course, in the end, he would definitely roast and eat it.

It wasn't the first time he did this type of thing, in the past, he had killed Scarlet King's descendant Chi Menghong.

Hong!

That stone mountain trembled, releasing hazy chaotic energy. It was just too rich, undying energy was surging crazily, that place shaking intensely.

Shi Hao's expression changed. He really wanted to slaughter his way over, but he knew that he had already alarmed this place. Even if Scarlet King was half alive and half dead, once he was startled, he likely couldn't kill him anymore.

This was the Time Beast's ancestral land, all types of formations were laid here. There was a sea of experts from this clan outside, once they all acted out, there would definitely be powerful individuals from other clans that would come in assistance.

Shi Hao frowned. He left, moving quickly. Sure enough, a terrifying aura surged behind him, a fiery red undying furnace appearing in the skies, rising and falling there.

That was the Scarlet King Furnace, shaking past and present. It was precisely this artifact that had suppressed and killed an immortal king, moreover later on sealed him inside and refined him!

Right now, with a light shake, a few great stars fell down, smashing into the mountains and rivers!

Then, two gray clad individuals appeared, their bodies shriveled, standing in the skies. With just a single breath from them, many stars were swallowed, refined into essence energy, entering their bodies.

These were two old servants of Scarlet King, cultivating in seclusion with him. After endless years, they had always remained asleep, but now, they were alarmed, appearing in this world!

With a single step from Shi Hao, the sun and moon swirled about. He crossed an endless amount of distance, transferring immortal dao power, leaving the Time Beast Clan's ancient land.

If not because he already achieved immortality, there was no way for him to immediately leave this place, he would be suppressed by the great furnace behind him, even more so discovered by the two old servants!

"I have to move quickly, bring back Huo Ling'er to the three thousand provinces first." Shi Hao frowned. Otherwise, there would likely be unforeseen changes that might make it hard for him to leave.

He inwardly rejoiced that he acted a bit more carefully, saying he was from another undying family. Otherwise, he would have directly exposed himself.

Despite this being the case, not long afterwards, there might still be some traces revealed.

It was because that Time Beast really was too extraordinary, actually startling the reborn Scarlet King, making him activate the Scarlet King Furnace. This was extremely shocking!

"If it wasn't because its cultivation was insufficient, I really would have thought that it was Scarlet King himself!" Shi Hao said to himself.

He quickly left into the distance, entering the vast foreign great land, continuously going deeper. He wanted to investigate where the past Sin Province was now!

If he wanted to find Huo Ling'er, he naturally had to head to Sin Province.

When he thought back to the past, Shi Hao began to sigh with emotion. In the past, he came as a prisoner, his life and death decided by a thought from the other party. Now, he took the initiative to slaughter his way over.

Not long afterwards, Shi Hao learned exactly where Sin Province was.

This wasn't some secret. Back then, Undying King Anlan went crazy. When the two realms ultimately became isolated, he paid a great price to reach out a sky covering great hand, crushing Imperial Pass' walls, entering the three thousand provinces and seizing Sin Province.

Now, Sin Province was in the central region. This region was extremely terrifying, having several undying kings overseeing it!

Included among them were Undying King Anlan, Undying King Shutuo, as well as the terrifyingly old Undying King Wushuang. They had already experienced many great eras!

Shi Hao was always wondering just what there was beneath Sin Province, what the other side was looking for, if they got what they wanted.

When he approached Sin Province, the entire other side produced shocking changes, raising heaven overflowing great waves that far exceeded his imagination.

Scarlet King's bloodline went crazy, a countless great army was surging, wishing to challenge all clans!

The Emperor Clans all received warnings and summons, demanding the examination of their clans' outstanding geniuses and experts, wishing to give Scarlet King's bloodline an explanation.

What explanation? The clans were all a bit stunned!

For the Time Beast Clan to be this angry, crazily threatening all clans, not hesitating to start a war, there was definitely something huge that happened.

What was it that could make an Emperor Clan become like this? Nobody could figure it out!

Could it be that the Scarlet King Furnace was lost? This was impossible!

"Which experts have left their clans during this period, not in their clans? Which geniuses are normally reckless? Hurry and report all of this!"

Scarlet King bloodline's undying beings were furious, threatening all clans, demanding they immediately tell them this information.

Only two days later did Shi Hao find out such a huge event took place in this foreign realm, such a huge thing happened, while the instigator of all of this was him!

"Didn't I just chop up a Time Beast? There is no reason for Scarlet King's bloodline to be this furious, this crazy, right? They actually threatened all the great clans, ready to even go to war?" Shi Hao was confused.

He began to suspect if that Time Beast was Scarlet King's own child.

"This type of thing might make sense if I cut up Scarlet King, but that's not realistic at all! Scarlet King isn't that weak. I really failed due to a lack of a final effort!" Shi Hao said with a sigh.

He was regretful that he couldn't charge straight in, letting that damned Time Beast ruin everything!

"It really is regretful! I really wanted to kill that Scarlet King!"

Chapter 1927 - Punishing the Foreign Side

This storm exceeded the imaginations of all clans. After two days, all of Scarlet King bloodline's undying beings came out, even Scarlet King's son emerging, frantically seizing suspicious people from all clans.

All of those who couldn't clearly state what they did in the past few days were targeted.

Those people were all baffled. The Emperor Clans obviously refused to be pushed around, some exceptional experts appearing, asking about this matter, demanding an explanation from Scarlet King bloodline.

However, Scarlet King bloodline's attitude was extremely unyielding, insisting that if it was a battle they wanted, then so be it!

This made all of the clans realize the severity of the issue, all of them sending out ambassadors, heading to the Time Beast's important places, trying to find out just what exactly happened.

This clan's people wanted to start a clan war, not hesitating to exhaust hundreds of thousands to millions of the clan's accumulation!

What did this signify? Many people shivered inwardly, all of them frightened!

It had been two days since Shi Hao entered Sin Province. It was a ghastly sight, this entire province was corroded by darkness. Moreover, after ten thousand years passed, they had their own 'history'.

They were loyal to the other side, full of murderous intent and fierceness, already transformed into a corps. If the other side was going to launch a large scale invasion of the Nine Heavens Ten Earths again, they would be at the vanguard!

"How vicious!" The expression in Shi Hao's eyes was cold.

Sin Province was finished. They were previously treated as descendants with sinner's blood flowing through them. Even with Desolate Border's Seven Kings taking the lead, they still all died, basically completely slaughtered.

When darkness matter was used to corrode them, even though their flesh still existed, still living, were these still the same people? It was already unknown who they were!

Sin Province was more vast than the lower realms' eight regions. There were so many creatures, yet not a single one of them was able to narrowly and luckily escape, all of them falling to such a miserable state.

"The day will come when I will end you all!"

Shi Hao vowed, looking towards the ancestral land where some undying kings resided.

Sin Province didn't have Huo Ling'er. Shi Hao left this place. During these two days, he learned a lot of information, knowing where she headed.

"Dao Comprehension Mountain, this truly is a coincidence!"

Shi Hao laughed, only, it was a bit cold.

Back then, he had also headed to that place. There was a Dao Comprehension Tea Tree growing there, every so often, it would produce leaves, able to assist in one's cultivation, drawing countless heroes over.

This time it was different. Because chaotic times were starting, this foreign realm was accumulating power, preparing to go out for war at any time!

A group of powerful and extremist individuals were surging with hot blood, gathering at Dao Comprehension Mountain.

These individuals' power ranged from Self Release Realm cultivators all the way up to undying beings, having individuals of all levels.

It was because Dao Comprehension Mountain's tea leaves had matured, so they chose to gather here, drink immortal tea and discuss greater matters, preparing to set out at a suitable time.

"This time, we definitely have to slaughter our way into Immortal Domain!"

"The darkness' turmoil is about to start. What immortal kings? In the end, they are going to be dealt with, not a single one left behind!"

"Everyone, please remain clear-headed. Before slaughtering our way into Immortal Domain, we have to first destroy the Nine Heavens Ten Earths!"

A group of creatures were discussing among themselves, all of them experts.

Shi Hao came. He looked towards that mountain, his eyes swirling with brilliance.

He sensed that strand of aura, precisely an ancient tree that released a great dao aura, located on that mountain.

Dao Comprehension Tea Tree, in the earliest years, it was enough to rank in the top three ancestral roots, one of the most well-known immortal medicines. Even when undying kings drank the tea from this tree, they would gain some enlightenment, the value impossible to measure.

Unfortunately, it suffered a disaster. This ancestral root was cut up by someone, the roots divided in half, planted in different places, reducing the medicinal effects.

The foreign realm's stalk was precisely on Dao Comprehension Mountain!

Even though Shi Hao was previously taken as prisoner, he fought a great battle here, obtaining quite a bit of the Dao Comprehension Tea Leaves. Today, he could be considered heading down memory lane, taking the initiative to climb this mountain.

Immortal Tea Ancient Tree, ever since it was cut up, undying level existences rarely came here, most of the experts here were Mortal Dao level cultivators who came here to seize opportunities.

However, today, it was different. The mountain had a few undying beings, and they were all celebrated, well-known individuals.

Not only were there newly ascended undying beings who ruled an area and exceptional geniuses among them, there were even older generation experts who oversaw a region as well, incredibly terrifying, thick chaotic mist spreading from their bodies.

This was equivalent to seizing the opportunities of Mortal Dao level cultivators. With them here, how could others still seize Dao Comprehension Tea Leaves?

In reality, this was precisely the case. In front of every undying being were jade cups that released wisps of fragrance, these were full of Dao Comprehension Tea water. They didn't need to fight over it, there were already people who picked leaves, helping them soak in hot water.

These people had one common point, which was that they were all extremists, currently discussing the arrangements for the future expedition.

“The Nine Heavens Ten Earths should have been wiped out a long time ago, a ruined place actually sticking around all the way until now... When those immortal kings died that year, that world should have already declined.”

“That place is currently in a Cultivationless Age. If we slaughter our way over, it will be unfavorable for us.”

There were many cultivators seated at the foot of the mountain as well, their figures densely packed. They were all heroic figures, especially Mortal Dao Domain cultivators, all of them well-known figures from various clans.

They originally came for the Dao Comprehension Tea.

Now, the undying beings that came here were even more so extraordinary, so this tea ceremony's meaning became different.

“I heard that in recent years, our realm tried to enter the Nine Heavens Ten Earths, but in the end, some troops were lost, all of this is related to Huang?”

When Huang's name appeared again, many people's expressions changed. Some people were furious, others gritting their teeth. This was especially the case with the Emperor Clans, their expressions were extremely ugly.

In the past, Shi Hao had previously unleashed great might here, overturning all competition, seizing large amounts of Dao Comprehension Tea Leaves.

Later on, he actually fled and then continuously fought with this side. It was rumored that he was the one leading the Nine Heavens Ten Earths now, stopping the creatures of this side from heading over.

“I truly never expected the past Mortal Dao cultivator can now even face undying beings!” Someone said with a sigh, feeling that this was incomprehensible.

In some people's eyes, Huang was simply comparable to an ultra evolved darkness being!

“Huang is nothing more than a human, what is so great about him? What can the Nine Heavens Ten Earths amount to, it is nothing more than ruined earth! Back then, my ancestors previously slaughtered their way over, personally killing more than one true immortal, bringing them back as slaves, even now, they are still raised as servants in my clan!”

“Haha...My clan has these types of servants as well, their primordial spirits suppressed, shackles placed on their bodies. They really have become the most loyal slaves.” Another person roared with laughter.

These were some youngsters, wild and untamed, all of them extremely arrogant, looking down on the Nine Heavens Ten Earths. They couldn't accept that the Nine Heavens had someone stronger than them.

However, what they said weren't entirely empty words. In reality, in some great foreign clans, there were these types of servants, seized from the Nine Heavens Ten Earths.

There were some that had been refined into puppets and some whose primordial spirits were restricted, only loyal to them like pack animals.

“Wu, some of that side’s creatures really are tasty... I like humans, like Flood Dragons, like Luans, their meat really is tender.”

There was a green haired creature who was licking its lips, exposing its snow-white teeth, extremely fierce-looking.

...

“Alright, that day isn’t too distant. The things you all are talking about are all the achievements of our ancestors, the embodiment of their glory. Now, this world is going to become chaotic again, turbulent times are starting, it is once again time to establish merit. It will depend on you all to see if we can recreate our ancestors’ brilliance.”

An undying being spoke, his attitude calm.

“We will naturally recreate our ancestors’ glory! In the past, we slaughtered them until they suffered a great defeat, so of course we can completely wipe them out now! Even if it is Immortal Domain, there is no need to fear them, our reinforcements have arrived!” Someone said.

When everyone heard this, they all became excited. When these words were spoken, some people carried unruliness, their eyes shining brilliantly, bodies surging with blood, really wishing they could immediately slaughter their way over.

The only issue was that during these past few days, Scarlet King’s descendants went crazy. Several Time Beasts came here, Scarlet King’s son actually also came here, bringing away several suspicious undying beings.

However, this didn’t affect much, the gathering still continued.

Right at this time, Shi Hao got on the mountain. He remained far away from the foot of the mountain, but already heard these people’s conversations, the expression on his face becoming incredibly ashen.

As an Immortal Dao Domain expert, when he got angry, even the world’s colors would change. Sure enough, there were rising winds and scudding clouds, Dao Comprehension Mountain even cracking, the entire ancient land trembling.

“Who is it?” Someone shouted.

Shi Hao ascended this place. He immediately saw Huo Ling’er and the giant black wolf. These were his targets, he would immediately bring them away after subduing them.

Of course, there was no way he could leave just like this. Since he came all the way here, he naturally had to leave these extremists with a bloody lesson. They were all outstanding individuals, all powerful beings. If he killed all of them, it would definitely stir up this world.

“This foreign realm previously forced the Nine Heavens Ten Earths to suffer a great era gap, made it a world without true immortals, without immortal kings. Today, I will also suppress and kill, bring a great gap to the other side’s heroic talents, several generations of your elites!”

Shi Hao prepared to unleash a great slaughter. The so-called Dao Comprehension Tea Ceremony possessed a different significance, as it was something only the best of the various clans could attend.

Hong!

When he came, he didn't say anything, a palm striking over. Several pu noises sounded. On the mountain peak, there were several thousand cultivators who exploded, their bodies and spirits erased, turned into a bloody mist.

Ah...

Miserable screams rose and fell, this place directly entering chaos. n)(@/-v(-E)(L)/b.-1(-n

There were people who didn't die, protected by undying beings.

"Who are you?!" The undying beings were alarmed. It was because just now, there was an undying being who was covered by that large palm, directly slapped into a bloody paste.

That was a frontal exchange, yet the undying being wasn't a match.

Shi Hao didn't say anything. He reached out a large hand. With a hong noise, the Dao Comprehension Tea Tree was pulled up by the roots. There were still more than two thousand leaves on it.

Even if an undying being came here to this meeting, they still could only use a hundred or so leaves, the rest still remained on the immortal tea tree.

"You dare?!"

Everyone was alarmed.

Who was this person? He really was too crude, actually even daring to directly seize the immortal tea tree! In the past, even the Emperor Clan's experts didn't dare do this out of fear of raising public anger.

Shi Hao directly seized this tree, preparing to grow it in the Nine Heavens Ten Earths.

Chi!

Immediately afterwards, his large hand moved across the sky again, covering the stunned Huo Ling'er, restraining that giant black wolf, suppressing them, and then they were taken into spatial magical artifacts.

The Dao Comprehension Tea Tree and Huo Ling'er were both here before, leaving him a bit restricted. However now, that was no longer the case.

Since he already took action, Shi Hao decided there was no point in leaving anyone alive, preventing these people from heading out and making any reports.

Hong!

His left palm descended, everything within a million li caved in. As for the cultivators seated at the foot of the mountain, they all lost their lives, their bodies and souls completely erased.

A hand covered the sky, ending the lives of these elites.

"It's you, it was definitely you who acted wantonly in Scarlet King's place of seclusion! Who exactly are you?" There was a sharp undying being who guessed that Shi Hao might be that terrifying person.

Peng!

Even though this undying being was resisting, he was still directly blasted apart by Shi Hao's fist imprint!

"Run! This isn't someone from our realm!" Someone shouted.

However, where could they go? He had just ripped apart the void, escaping into the heavens, but there was already a faint golden hand that covered him. That hand shattered the void, reaching over, grabbing him and crushing him.

With a pu sound, this person was directly squeezed into a pool of blood!

"A half undying king?" Everyone was alarmed. This wasn't someone they could face at all!

Even if they were a group of extremists, their natures callous and unyielding, they still panicked at this time. If they truly faced this person, that was just throwing their lives away!

Pu pu pu...

They were running. However, in the end, they were all directly blasted apart by Shi Hao, dying here, undying blood dyeing the skies red.

Hong!

Then, Shi Hao released another palm. With Dao Comprehension Mountain at the center, a great collapse happened. All cultivators at the Mortal Dao Domain, even though they were the best of their clans, they all died, turning into bloody paste.

Shi Hao's strike shocked heaven and earth. Those with cultivation levels lower than his couldn't stop it at all.

Even undying beings couldn't escape disaster. There were five of them in total, some just recently reaching this level and some who cultivated for an endless amount of time, lived for a long time, extremely powerful. However, in the end, they were all killed by Shi Hao.

This was a heaven shocking bloody event. The creatures from the foreign realm who attended this Dao Comprehension Tea Ceremony were completely wiped out, dying here.

He swept through this place, completely massacring everyone here.

Then, he turned around to leave, not remaining here for a second longer.

Chapter 1928 - Foreign Realm Thrown Into Complete Confusion

This was a heaven shocking great affair. Shi Hao massacred Dao Comprehension Mountain, completely wiping out a group of extremists. One had to understand that this was a group of the hardline faction, declaring that they were going to trample down the Nine Heavens Ten Earths, wipe out that realm, yet in the end, they were all destroyed instead!

A group of experts was buried, the lives of the elites of several generations ended just like that!

Shi Hao's single hand covered the heavens, sweeping through them, not letting a single person escape, incredibly iron-blooded. His methods were fierce, wiping out all of the elites who gathered on Dao Comprehension Mountain!

In the surroundings, formation banners rose one after another, turning into streaks of light, following Shi Hao out.

This was a formation he arranged beforehand out of fear that people would escape, but also because he wanted to lock this place down out of fear that experts from other places would be alarmed, doing this to lock down heaven's response.

However, he knew that there was no way it could be hidden. The moment he powerfully killed the elites, there were undying beings who called out Anlan and Shutuo's true names.

These were names that were extremely long and extremely complicated, several hundred characters long. Even though the undying beings didn't completely speak out their names, Shi Hao still suspected that several undying kings were alarmed.

"Do you know where Great Elder Meng Tianzheng is?!" Along the way, Shi Hao was extremely rushed, clutching the giant black wolf while loudly shouting. It was because there wasn't much time left, the undying kings would appear in the end.

The giant black wolf was confused, not knowing what Shi Hao was talking about.

At the same time, even now, it was still stunned. How did Huang appear here? He actually ended up running into this side! This was just too crazy, taking the initiative to slaughter his way over.

"What did you do to those people at Dao Comprehension Mountain?" It couldn't help but ask.

"I killed them all! If you don't want to die, then hurry and answer me!" Shi Hao directly searched its soul, wishing to completely examine it.

"What, you..." The giant black wolf was alarmed, its expression becoming sluggish. Huang did such a terrible thing, daring to massacre Dao Comprehension Mountain, wiping out all of the elites.

There was nothing crazier than this!

Peng!

Shi Hao directly knocked it unconscious. He didn't obtain what he wanted to know from its head.

In the end, he directly seized Huo Ling'er, not acting overly polite at all, searching her sea of consciousness, suffering intense resistance. However, he still didn't obtain any information relating to Great Elder Meng Tianzheng.

In reality, during these two days, he had gone to Sin Province, seizing and interrogating foreign creatures along the way, but none of them knew anything about Meng Tianzheng. This left him feeling rather anxious.

"It seems like I won't be able to find Great Elder this time." Shi Hao said with a sigh.

It wasn't easy for him to arrive in this foreign realm at all, but there were actually no clues about Meng Tianzheng. This left him shocked and confused.

Shi Hao quickly left, leaving behind a string of afterimages, disappearing in the limits of the horizon, heading into the distance just like that.

As time went on, great stars rumbled. Shi Hao entered outer space, leaving the surface. He used a formation to hide himself, conceal his aura, and then quickly continued on his way.

Stellar streams seemed to flow in reverse. He went from one foreign realm land to another, and then crossed who knew how many star domains. This was because this place was just too vast.

Hong!

Suddenly, an indistinct figure appeared in the distant skies, overlooking the endless world. It possessed an overbearing heaven and earth aura, vaguely appearing in the depths of the star domain.

Shi Hao cried out inwardly, thinking that things were bad. Sure enough, there were undying kings who were alarmed, now about to appear in this world.

This was baleful energy that rose from the ground, condensing into a giant that towered in the cosmos. Just how terrifying was this magical projection? It was just a few strands of energy, yet it could already do this.

Chi!

Shi Hao cut apart heaven and earth, vanishing from this place.

He landed on the foreign realm's great earth again, now moving along the mountains and rivers, restraining all of his aura as he fled.

"Those who chanted my true name, everlasting will be revealed in reincarnation."

This was a grand voice that resounded across the boundless heaven and earth. Terrifying blood energy rumbled, simply about to burst the stellar sea in the world beyond, crushing the cosmos.

These were irregular scenes, not true blood energy that leaked out. Otherwise, even if only a bit was leaked out, the sky dome would collapse and the great earth would cave in, the blood energy of all living things would even explode.

This was precisely an undying king. If he woke up from his slumber, the entire boundless world would start to tremble, making all living things cry out.

Right now, countless creatures knelt down, bowing in that direction. All those who kowtowed and those who were sincere, chanting out his true name, were relieved from their fear, peace returned to them.

Hong!

Another figure appeared, blurry and indistinct, but this figure was already towering above the world. This figure was formed from a strand of energy, standing in the cosmos right now, overlooking endless generations.

Anlan!

Everyone saw that Anlan woke up. His aura spread out, forming an unmatched projection on its own.

His true body was going to move soon as well.

Then, another wave of terrifying aura swept out. A streak of undying radiance tore apart a sea of cosmos. An unmatched creature opened its eyes.

Shutuo!

The ancient ancestor Shutuo also revived!

...

This type of activity was too great. Whenever one of them revived, the entire foreign realm would be alarmed, yet today, several respected undying kings revived. Even without thinking about it in detail, everyone knew that something huge happened.

In that instant, a large black hand covered the heavens, reaching towards Dao Comprehension Mountain. This place already turned to ruins, all life was extinguished.

All that was left behind were ashes, because even the ruined blood was refined away by Shi Hao, burned to ashes, doing this in order to stall for time, prevent the undying kings from investigating closely.

After this hand appeared, the voice of an undying king began to echo about. This was dao sound, but it was more like an unmatched decree that commanded the world, none dared to disobey!

Following that low voice, all of the deceased creatures revived from ashes, turning into blood, turning into bones, about to recombine together, reappear in this world once again.

Just what kind of heaven shocking power was this?

Ashes transformed, with just a single line, creatures whose bodies and spirits were erased reappeared. This was a heaven-defying process!

Of course, this was only a method that traced upstream, it wasn't true revival. It touched upon the realm of time-space, as well as even more profound natural luck mysteries.

Shi Hao severed all auras, not leaving behind any traces, but undying kings could investigate through this type of unmatched method!

"Trackless Formation, activate!"

In the endless distance, Shi Hao released a low shout. He didn't foresee the scene behind him, but he was extremely cautious, always on guard. When he figured that it was about time, he activated this formation.

Hong!

Heaven and earth rumbled, becoming incredibly brilliant. A streak of light cut across the other side, illuminating the cosmos' endless nothingness.

Half an incense stick was lit, moving across the star domain. It was carried by a formation, quickly moving into the distance. However, it shone brighter and brighter, the brilliance terrifying.

In the end, the entire foreign realm was ignited, the heavens becoming blinding, as if there was an endless great flame burning, raging flames illuminating everything.

The foreign realm became transparent, Realm Sea appearing, revealing the scene there. With each wave, a ruined world appeared, just too terrifying.

In the world behind the dam, there were creatures who crossed the sea. Meanwhile, there were creatures confronting each other on the shore. This type of scene and that type of imposing might horrified the world. These were unmatched forbidden existences, never seen through endless times.

Realm Eradication, this stick of incense was lit by Shi Hao, moreover carried by a formation, quickly moving through the foreign realm. It crossed endless space, its precise location difficult to track down.

The reason Shi Hao came here wasn't because he let his emotions affect his decisions. It wasn't only for the sake of saving a girl important to him and rescuing Great Elder Meng Tianzheng, he also wanted to seriously damage this realm.

He went for broke. He always wanted to ignite this stick of incense, now that the chance was here, he went all out.

"You all slaughtered my people, my ancestors, today, you will have to pay back the interest, pay the price!" Shi Hao said with a low voice. His eyes shone brilliantly, completely throwing caution to the wind.

Honglong!

When this stick of incense appeared, the undying kings who appeared before all revealed serious expressions. Not only did their projections appear, their true bodies also opened their eyes.

Several streaks of eyesight pierced through the world like divine spears, covering the sky dome, looking for that stick of incense!

At the same time, all of the creatures in Dao Comprehension Mountain exploded again, turning back into dust.

It was because 'Realm Eradication' appeared, already lit, powerfully interfering with the great dao fluctuations of this world. It was like a lighthouse that shone to the world beyond.

Right now, in the Realm Sea, there were ancient figures that opened their eyes in the darkness. Their gaze was terrifying beyond comparison, just too powerful.

There were some standing on large black ships, some on duckweed, gazing towards this place, looking into the almost transparent foreign realm.

Hong!

A streak of dazzling radiance erupted, hacking over from Realm Sea. This was blade radiance, sweeping towards all under the sky with unmatched might.

That streak of blade radiance was too long, and also too resplendent. It was boundless like an expanse of cosmos, pouring over!

Heng!

Following a cold shout, Anlan took action. His hands and fingers were sparkling, releasing precious radiance, cutting apart heaven and earth, stopping that blade radiance, blocking it outside this realm!

Chi!

A blood-colored spear appeared, just too sharp, moreover too sudden. It directly entered the foreign realm, horrifyingly thick. It shattered the heavens, stabbing inwardly.

Dang!

Shutuo took action, forming a fist imprint, sending the spearpoint back out.

Honglonglong! n()OVeL&1n

Heaven fell and earth split apart. One area exploded, a passage about to form. Unmatched experts from Realm Sea were about to cross over, powerfully arrive and descend here.

“Kill!”

However, Realm Sea wasn’t calm either. There were existences there that released heaven overflowing black mist, walking over from the sea, stopping those who wanted to cross realms.

“It’s Realm Eradication!”

A foreign realm creature released a low roar, this individual was an undying king.

His true body appeared, his eyes locking onto Realm Eradication. Then, he grabbed forward.

Shi Hao saw this. He knew that undying kings were ridiculously powerful, but he still underestimated them. Even Realm Eradication was ineffective and quickly found.

In reality, he also expected this result. If Realm Eradication really was effective, it wouldn’t have been left behind for him to use now.

After all, undying kings were unrivaled. With them here, it was enough to protect this realm. In the end, this stick of incense had nowhere to run, it would be found and destroyed.

Hong!

In the end, Realm Eradication exploded, the last of Shi Hao’s formation’s power also disappearing alongside it. When an undying king reached over a large hand, it exploded.

As luck would have it, this was the place where an Emperor Clan resided. Otherwise, that king wouldn’t have immediately found Realm Eradication. When it was about to stop burning, it arrived in his territory.

When this stalk of incense exploded, the effects were tremendous. With a honglong noise, it erupted with even more resplendent brilliance, burning down the sky dome, exposing this realm before Realm Sea.

Hong!

In that instant, several types of weapons descended, entering this realm, all of them attacking this side.

“You dare?!”

The undying king here berated furiously, erupting with immeasurable divine might, facing them.

Chi!

Unfortunately, when an arrow descended, abruptly descending in the darkness, landing on the surface, he couldn't immediately block it.

Hong!

This great earth collapsed. This undying family's glory was immediately eradicated, everything was destroyed, only a child of this undying king managed to rush out alive.

The other creatures were completely wiped out!

“Butcher, you were still alive!”

In the foreign realm, an ancient voice sounded. The Immortal Smelting Pot appeared from a direction, its owner's background similarly horrifying, incredibly ancient.

AHHHH!!!

The undying king who had his ancestral land destroyed roared out in fury, the voice he released too horrifying. He almost rushed straight into the Realm Sea.

This was a great disaster!

The entire foreign realm entered into a great chaos!

Chapter 1929 - Gu Ancestor

At the same time, Shi Hao withdrew, following his original path out of this chaotic world!

Sss!

However, he sucked in a cold breath. That path he could take to return to the Nine Heavens Ten Earths was near Scarlet King Clan's ancestral land. However, that region was now surrounded by an endless great army, there were soldiers everywhere.

The Time Beast Clan experienced great problems, they were always seriously on guard these past few days. They were simply about to go to war.

Shi Hao wanted to go back through that path, but it was too difficult, almost impossible to complete.

This path was blocked, things were now troublesome!

Shi Hao just couldn't understand. Didn't he just chop up a pompous Time Beast? Why did this clan go crazy like this?

He turned around and left, quite decisive, heading straight towards another region. He hoped that he could make it in time, that he could return to the Nine Heavens Ten Earths amidst the chaos.

In the blink of an eye, he saw a giant city. That city had an altar that led towards the other side of Desolate Border's uninhabited region.

This place definitely had guards watching it. Shi Hao examined this place closely. He knew that there wasn't much time left, that he had to cross realms during the chaos, slaughter his way back!

Hou!

In the distance, undying kings roared, facing the creatures from the Realm Sea. It was just too terrifying. Chaotic mist surged, unrivaled magical force raging.

It was rumored that an ancient existence slept within the Immortal Smelting Pot, one who didn't belong to this great era. Now, it appeared in the world, staring in Realm Sea's direction. It was searching for that so-called butcher.

Chi!

A divine arrow flew over. If it descended, it could destroy another Emperor Clan, it was just too terrifying.

Dang!

The Immortal Smelting Pot moved, rushing into the heavens, smashing into that divine arrow, neutralizing a great disaster.

"You all can just fight it out on your own, I'm going back first!" Shi Hao said coldly.

He turned around, entering that giant city, no longer paying the world shocking great battle in the limits of the horizon any attention.

The altar was guarded after all. This was a middle-aged man, at the very least, this was what he looked like from the outside. His hair was jet-black, his figure seated on a praying mat, dressed in golden daoist robes, there was an undying aura around him.

His eyes opened and closed from time to time, guarding this formation platform, but also watching the great battle in the distance, primal chaos visible in his eyes. This was a powerful individual.

A half undying king!

Shi Hao's expression became serious, it seemed like he had to fight a great battle. Half undying kings were definitely no joking matter. They were extremely powerful, only Anlan's son and few others could reach this level.

Creatures of this level were like those at the absolute peak of true immortals, about to approach the king realm, but still weren't there.

Regarding cultivation realms, even though it looked close, sometimes, it was like a heavenly moat, impossible to cross, insurmountable, leaving one helpless.

Shi Hao's eyes were cold. His body's five great realms shone at the same time, his essence energy rising to the absolute peak. He didn't have time to fight a great battle at all, so whether it was victory or retreat, he had to concentrate it within three moves. Otherwise, he would provoke the descent of several undying kings.

Fortunately, those great unrivaled experts were currently occupied, unable to come to this side.

"Sigh, the young truly are daring."

Suddenly, this voice sounded by Shi Hao's ears. It was too sudden. He turned around, seeing an aged figure quickly approaching along the great earth.

That creature was just too fast. When Shi Hao saw him, he was still extremely far away, outside the city, yet in the blink of an eye, he already entered the giant city.

He was extremely old and shriveled, not having much skin and flesh, dried-up. However, there were many time fragments released from his body, just too terrifying.

He seemed to have gone against time to come over, arriving while stepping on time itself.

Shi Hao's eyes were ice-cold. He didn't pay this person any attention, directly taking action, smashing towards the altar. He wanted to end the battle with a single move, and then return to the Nine Heavens Ten Earths.

Honglong!

Heaven and earth exploded. Shi Hao's five great realms released dazzling radiance, releasing chaotic energy. He used his own ultimate technique, wishing to decide life and death in one move.

Right now, all of Shi Hao's precious techniques merged together, becoming a completely unique secret technique of his own, the power extremely terrifying.

He condensed a fist imprint, smashing over!

This fist imprint was all-embracing, containing too many profound mysteries. There was the Kun Peng Technique, True Phoenix's undying secrets, Lightning Emperor's most tyrannical power...

Shi Hao used all those different techniques as reference to derive his own great dao method. This dao imprint could overturn the heavens, able to sever time!

Hong!

His five great realms seemed to be burning. They were just too dazzling. Immortal dao power erupted, smashing towards the seated person.

That person suddenly opened his eyes, his hands forming magical imprints, using his most profound dao skills, facing Shi Hao head-on. At this level, it was extremely difficult for one to die from a sudden attack.

This creature was extremely vigilant. His golden dao robes swept about, releasing undying chaotic energy. In this instant, it was as if the void figures of undying kings appeared behind him.

This was the inheritor of an undying king's lineage, the only living child of a certain king. n)(Ⓢ/-v(-
E)(*L*)/**b**.-1(-n

Hong!

The two clashed, shocking the heavens and moving the earth. It was incredibly intense.

Shi Hao was shaken. A half undying king was powerful beyond compare after all!

Chi!

At the same time, when his secret technique was displayed, he continued to shine, mixing in another type of innate divine ability, the third type of supreme being bone technique. It interweaved, transformed and derived, able to support his offensive power, continuously increasing it.

Pu!

At the crucial moment, when this type of transformation happened, for that half undying king, it was definitely fatal. He immediately spurted out blood from his mouth, his body also producing many cracks.

"Kill!"

Shi Hao's fist erupted, crushing down on his body, completely focused on offense. Under an expanse of blood radiance, that half undying king exploded, blasted to pieces.

If it was a normal battle, then it would definitely be an extremely intense great battle, unknown just how many exchanges there would be. However now, it was shortened to just a single move or two.

For Shi Hao, the consumption was tremendous!

However, he didn't stop. After erasing the final primordial spirit imprints of the half undying being, he rushed into the passage, about to escape.

In the back, the wizened elder's face became bitter. "If I knew that you were this capable, I might as well not have appeared."

These words were rather strange. When Shi Hao heard them, he was incredibly shocked and confused.

What left him shocked was still to come. That elder followed him in, saying, "There is no need to leave in such a rush, let's chat for a bit."

At the same time, a wave of terrifying might descended. This was definitely an undying king level existence!

"Who are you?" Shi Hao stopped. He was incredibly shocked. Even this level of existence appeared, if he insisted on taking action just now, then that half undying king most likely wouldn't die, there would still be time to save him.

Shi Hao was confused!

"You should know that I carry no malice. Otherwise, this passage would have been sealed up by me. No matter how great your speed is, you wouldn't be able to leave."

“Who exactly are you?” Shi Hao asked.

“Someone who has shouldered infamy for endless ages, some people call me Ancestor Gu.” The elder said with a sigh.

“Ancestor Gu, the traitor?!” Shi Hao was immediately shocked. This was one of the leaders who defected to the other side?!

He really never expected Ancestor Gu to appear, moreover this close to himself.

Shi Hao was sure that Ancestor Gu was an immortal king, his power exceeding that of a half immortal king!

Back then, the Vicious Ten were all powerful, their potential also tremendous, that was why they had such a great reputation.

The clans of the Vicious Ten were also like this, and it was precisely because of this that their numbers were extremely few, yet they were all incredibly powerful.

Back then, this old Gu still wasn't an immortal king, but after cultivating for an entire great era in the foreign realm, he long successfully rose up, becoming the peak figure of a generation.

Sigh!

Ancestor Gu released a great sigh. When he looked at Shi Hao's expression, he knew what he was thinking, unable to help but carry great sadness. This endless infamy was destined to stick to him.

“I wanted to help you escape, I carry no malice.” Ancestor Gu said.

Shi Hao was skeptical. Back then, this clan's people almost tormented him to death, yet the ancestor of this clan actually had this type of attitude? It was too contradictory.

“In order to rely on the foreign realm, how could we convince them? In order to deceive them, we had to first deceive ourselves.” Ancestor Gu said with a sigh.

He told Shi Hao things as they were. When the Nine Heavens Ten Earths showed signs of collapse, destined to perish, Gu Clan received orders to defect, enter the foreign realm.

Of course, all of Gu Clan's people thought that this was a true defecting, only him alone knowing that it wasn't real, that there would definitely be much death along the way.

It was to the extent where even the old Gu himself had hands covered in blood. For the sake of convincing the other party, he used a great method to make himself forget the truth, only remembering the matters of defecting to the foreign realm.

Only after a small half of a great era passed, did Ancestor Gu's old memories slowly start to reemerge.

By now, Gu Clan had long taken on a reputation of infamy.

“In that case, why did you stop me instead of letting me quickly leave?” Shi Hao said. He didn't really believe this old Gu's words, inwardly still carrying suspicion.

"This one is already old, after remembering the past, it feels like a knife is being twisted in my heart, wishing to speak some words to those on that side." Old Gu said.

Shi Hao became speechless. Did this fella really want to help him? At this critical juncture, he was still stalling him for time!

"Don't worry, I am from the Gu Clan. Towards the so-called time-space, we have a certain amount of interference ability."

Old Gu told him that he would help him erase all types of traces that were left behind. It seemed like time was being exhausted here, but they were within an expanse of time laws, not much time actually passing.

He arranged time laws, surrounding this place, clearing up traces for Shi Hao in a calm manner, also burning away the half undying king's blood.

In the domain where Gu Ancestor stood, time seemed to have stopped. No wonder he had this level of confidence, not wasting Shi Hao's time.

"Did you end up provoking great trouble in Scarlet King's place of seclusion?" Gu Ancestor suddenly asked.

"I only chopped up a Time Beast, yet in the end, this clan went crazy. It really is strange." Shi Hao said.

When Gu Ancestor heard this, he was stunned, his entire body going a bit foolish. An immortal king having this type of expression really was rarely seen.

"You are still confused? Do you not understand that you might have chopped up Scarlet King?!" Gu Ancestor said, his breathing rushed.

"Impossible! It was so weak!" Shi Hao shook his head.

"There were already rumors outside that Scarlet King underwent rebirth, starting from the beginning again, wishing to break through the limits of an undying king, but he suddenly encountered disaster two days ago!" Gu Ancestor said. He already confirmed what really happened, even he ended up becoming speechless, incredibly shocked.

Shi Hao was naturally stupefied, a bit absent-minded.

He was just that close to slaughtering Scarlet King! Now, he only removed half of its body.

Shi Hao produced that half of the Time Beast's body, saying, "It really was Scarlet King! I feel so much regret... back then, I should have just chased him all the way down and completely ended him!"

Shi Hao was going crazy, truly finding this a bit hard to accept.

In the end, he stared at that half of the body angrily, saying, "I'll definitely roast you and directly eat you when I go back!"

If someone heard this, knew what happened, they would definitely be dumbstruck. That was Scarlet King, yet it was actually going to be eaten by someone?

"If you dare eat it, you have to be careful. That most likely contains some of Scarlet King's vitality and dao fruit, so watch out for issues." Ancestor Gu reminded him.

"If you have nothing else to say, then let's part here." Shi Hao turned around to leave.

"If I knew it was like this, I really shouldn't have appeared... He could actually already kill half undying kings." Gu Ancestor said with a light sigh, starting to clean up the traces here.

Even though the two did chat, all of this actually happened in an instant. It was because everything was carried out in his time domain, time itself stopped just now.

Hong!

Shi Hao rushed out of the passage, returning to his own world!

Chapter 1930 - All of it Was Done By Huang

After Shi Hao disappeared, Ancestor Gu also cleaned up all of the traces here.

His old face was thoroughly red, a bit embarrassed. The so-called traces that he erased were mostly his own. At first, he was worried that this good seed Huang would die here, but he never expected that it was a completely different matter, that the other party would be able to kill a half undying king.

"It's time to go!"

Ancestor Gu left. Time fragments flew about. He disappeared from this place, appearing in Gu Clan's ancestral land. His appearance quickly changed, skin becoming sparkling, no longer shriveled.

He recovered his true appearance, his figure straight, hair flowing with light golden luster. However, this was only his external appearance. If a powerful individual was here, they would definitely shake their head, because they could sense that there were cracks in his dao source. He likely didn't have hopes of entering the Immortal King Realm.

Ancestor Gu's methods were heaven-defying, this was the reason why the foreign realm's undying kings felt at ease!

He grasped time and space natural laws, able to influence the years and interfere with material matter, deeply disguising himself. No one has ever been able to expose him yet.

In the past, he had seen Shi Hao. This clan had tried to refine Shi Hao in a furnace, but in the end 'accidentally' helped Shi Hao. It was clear that this was done on purpose.

Gu Clan at that time already acted carefully, preserving a strand of Shi Hao's blood. That was why he could use it to derive things, moreover find him.

"Even though I went into hiding, how can I escape forever? Sooner or later, the day will come when I will still die miserably!"

Gu Ancestor said to himself, his expression extremely sentimental.

He knew that he already shouldered endless infamy that was impossible to wash away in this life. Even if there were people who helped him clear things up, the people of the world still wouldn't believe him.

In the past, many people had previously seen Gu Clan's people's hands dyed in the blood of their own people, defecting to the other side. This clan was already doomed with a bad reputation for endless time.

"It is truly lamentable. I can already see the end of my life, unable to get rid of this world's bad reputation." He was extremely regretful.

Then, he closed his eyes, became like a stone statue, not moving, lacking vitality. It was as if he hadn't moved for millions and millions of years.

Right now, the skies gradually became quiet because the great battles were nearing an end.

'Realm Eradication', that incense was destroyed in the end, unable to treat this world as a lighthouse.

After the brilliance, everything entered darkness.

At the same time, the great realm's rejection force appeared. Creatures who were too powerful and didn't belong to this world were rejected, the weapons that entered from Realm Sea were also forced out.

A World Tree appeared, releasing dazzling brilliance, protecting the foreign realm. Endless power surged, guarding this world, stabilizing it.

This was precisely a complete great world. With a World Tree here, it would display great effects at the crucial time.

It might not be the most powerful, but it could connect with the great dao of heaven and earth, become sturdy and imperishable. The tree and realm became one, able to preserve the interweaving of complete laws.

This realm became completely quiet. However, soon afterwards, bitter fluctuations erupted again.

A furnace burned heaven and earth, it was just too terrifying!

In the territory where the Time Beasts resided, this Emperor Clan's ancestral land underwent shocking changes.

"What is that? The Scarlet King Furnace has appeared!"

Forget about everyone else, even Emperor Clans were shocked. Then, the undying kings were alarmed one after another, all of them revealing different expressions.

Anlan and Shutuo even more so descended onto the Time Beasts' ancestral land, personally examining this place.

Hou!

A great roar sounded. Heaven and earth collapsed.

In Scarlet King Clan's land of seclusion, that ancient city exploded.

That was a stone mountain. It completely shattered, the void producing endless raging flames, heaven and earth rumbling.

“Heavens, Scarlet King came out of seclusion!”

There was an ancient beast who dragged its ruined body that dripped with blood, rushing out from the underground cave. It roared angrily towards the sky. Its body was damaged!

“What happened?”

The experts of all sides were stupefied.

Many people were deeply shocked, finding this inconceivable.

Anlan and Shutuo descended one after the other, releasing unmatched might, suppressing this place.

“Scarlet King, cease your anger!” Shutuo said.

Everyone wanted to know what was happening.

However, chaotic energy surged, heaven’s fate was hidden by the undying kings.

However, this world didn’t have walls that didn’t leak wind. Two days later, the cultivators of all clans in the foreign realm were stunned, because they heard of a rumor.

Scarlet King was cut up by someone!

It carried out a rebirth, its old body producing a divine core, still young, not completing its transformation, currently accumulating, yet it was cut up by someone.

The entire foreign realm was shocked. Just how terrifying of a matter was this? Someone dared harm Scarlet King?

“This is just too much of a coincidence. Scarlet King had just completed his rebirth, everything starting over from the beginning, not even he himself expected someone to be this brazen, daring to harm him.”

This matter shocked the foreign realm, leaving the cultivators of all clans stupefied, finding this hard to believe.

“Dao brother, just who was the one who did this? Could it be that some immortal king made their way over?” Anlan’s expression was serious, remaining in the Time Beasts’ ancestral land.

Scarlet King was extremely angry. He had been doing his best to neutralize a disaster for all these years, now finally breaking free, yet his dao skills were almost crippled during this rebirth process!

Shi Hao’s blade looked simple, but for a newly born creature, it was too deadly.

If it wasn’t for him being the Scarlet King, everyone else would have definitely been crippled.

During these two days, Scarlet King had no choice but to merge his divine core back with his old body. Originally, he already shed away the broken and aged remains, yet now, he had to forcefully merge it back to make up for his loss.

“Kill!”

Scarlet King only had this single word, the hatred he felt endless. He knew that he could only stop at the Undying King Realm in his entire life. All of his ambitions and his desire to break through, all of this didn't seem to have any hope left.

What did he remain in seclusion for a whole great era for?

Wasn't it all because he wanted to sever himself from the king realm, take that step?!

Originally, even though he didn't have much confidence, there was still hope after all. Only, reality was cruel, he couldn't even see a glimmer of hope now.

"It wasn't an immortal king!"

Scarlet King shook his head.

At their level, they could all derive some things. However, when it involved themselves, the mysteries of fate became chaotic, everything covered in primal chaos.

In the end, Anlan and Shutuo took action, helping him derive things.

Hou!

That day, the foreign realm's skies cracked apart, stars falling.

That was Scarlet King's rage, full of great hatred and humiliation. His roar shook up all clans.

He knew who it was that injured him. That creature was ridiculously young, someone whose name everyone in this realm knew and heard of.

He was Huang, someone who was previously taken prisoner in this realm!

"Huang, it is precisely Huang. He came to our realm again, ended up... cutting Scarlet King?!"

When news went out, the entire world was shaken. This was simply unendurable. Huang dared brandish a blade at their undying king? This was too shocking.

The truth was revealed, it really was Huang who did this. He charged into Scarlet King's land of seclusion, chopping up his reborn body.

Who dared believe this?

Was he trying to defy the heavens? He even did such a thing, moreover actually succeeding!

The other side went crazy, leaving all clans' cultivators shaken.

"What a pity, so many elites in Dao Comprehension Mountain were killed by a single person, all by Huang alone!"

When the murderer of this great massacre was revealed, everyone felt anger and fear. All of this was done by Huang.

"Just how many years have passed? Huang has already grown to this extent!"

The other sides' clans were all scared badly.

Huang's growth was just too fast, daring to run into this foreign realm and unleash a slaughter, even able to harm an undying king. This really made everyone shiver all over in fear.

"Is there still heavenly reasoning left?!" Someone cried out, their face turning pale.

This was especially when the body and spirit of the half undying king who guarded this passage were erased, this was the greatest blow to them. Huang could already kill half undying kings!

The souls of everyone on this side were trembling.

Even the Emperor Clans were stunned, not daring to believe this. All of this was just too shocking.

"Kill him!"

"Slaughter our way into the Nine Heavens Ten Earths!"

...

These were the roaring voices of the foreign masses. When they learned that this was all done by Huang, some people couldn't take it anymore, releasing loud shouts, even undying beings included among them.

In reality, this matter was far more serious than they imagined.

It was because the undying kings even produced killing intent.

That day, Anlan and Shutuo took action.

"Kings cannot be humiliated!"

Anlan's golden spear was surrounded by an ancient aura. Primal chaos surged, carrying an incredibly sharp aura, simply about to wipe out the world.

Chi!

The golden spear was incomparable. It pierced through that spatial passage. Even if he had to pay the price, suffer a backlash, they still had to teach the Nine Heavens Ten Earths a lesson.

This was all because kings couldn't be humiliated!

The instant the golden spear stabbed over, the three thousand provinces trembled!

That day, Shi Hao always sat there, personally keeping guard.

This wasn't all. The restricted region lord, crystal skull and others were also invited over.

Hong!

Immediately afterwards, Shi Hao merged with the golden arm bone, crystal skull, and others. He brandished the Everlasting Sword Core, wishing to stop the golden spear.

However, the response of this world was even more intense than his. A terrifying creature from outside this realm wanted to enter and threaten this world, so it began to reject it, stopping it.

The more powerful the creature, the greater the rejection when trying to cross realms.

This was a ruined world which was recovering right now. It greatly rejected the power that was too great from entering this realm!

The reason Shi Hao could return was because he merged with the Heaven's Core Imprint. Even though he gave it up again, he long developed a mysterious resonance with this heaven and earth.

That was why he could return from that side.

Hong!

Anlan's spear was still moving, piercing over inch by inch. The terrifying aura became more and more powerful.

"Don't move!" The restricted region lord stopped Shi Hao.

Right now, that spear was too terrifying, those who dared touch it might be targeted by heaven overflowing killing intent, directly exploding.

Ka ka!

In the heavens above, a strange sound could be heard. Then, golden roots appeared one after another, taking root there, stabilizing this world's mountains and rivers.

"This is?!"

Forget about the others, even Shi Hao and the restricted region lord were shocked.

This world changed. In that instant, they sensed a complete dao aura, as well as increasingly shocking natural laws interweaving here.

Anlan's golden spear was forced back.

"World Tree!"

"This realm has produced a World Tree again!"

What did this signify?

This meant that the Nine Heavens Ten Earths' great dao was recovering, their laws gradually becoming complete. It devoured all living things and all clans during the Cultivationless Age, doing all of this in order to complete the world itself.

This realm was recovering, undergoing a world turning transformation.

Honglonglong!

The golden roots became even more concentrated, thick beyond compare. They descended from above, one was vaguely able to make out a ruined ancient tree descending from the world beyond. It took root here, guarding this place.

It was precisely a World Tree!

It was too large, towering in the cosmos, every leaf supporting a star, too shocking.

Its entire body was golden, as if made from gold, too resplendent.

Shi Hao long had a certain mysterious feeling. Now that he saw it, his hunch was proven after all. This was that giant tree he saw in the past, the one that previously supported a Chaotic Ancient Palace.

Apart from this, there was a golden woman on that tree!

This was originally a Sun God Tree that evolved towards a World Tree. At first, it was in the lower realms, but it later entered the Realm Tomb.[1]

Now, it completed its transformation, harmonizing with this world's heaven and earth natural laws, the two joining together, protecting this world.

A World Tree appeared!

The significance of this was too great!
