

## Perfect WD 1941

### Chapter 1941 - Never Perished

"Where is outer space? Is that a place you really want to go to?" The youngster asked. The battle armor on his body was covered in blood, making the youngster's eyes shine brilliantly, continuously staring at him.

"Outer space is precisely those life stars! The powerful species have all escaped, leaving this abandoned ancient battlefield." Zhang Bairen said.

Even though he was young, he was quite intelligent. There was a yearning expression on his face as he looked at this person.

"The only reason for leaving this place is because it lacks heaven and earth essence energy?" The youngster said to himself. He gave this world a look. Even though it was covered in plant life, it was still impoverished, not having that many spiritual medicines and other things.

Many clans on this continent had already left, forever unwilling to return.

Honglong!

In that instant, the youngster directly took in heaven and earth foundational energy, transferring over innate essence from the cosmos. Then, he refined it into Divine Origin Liquid, doing this extremely naturally.

This was a type of instinct, a type of natural process.

"This..." Zhang Bairen was shocked, finding this hard to believe. Those who could seize the source of heaven and earth, how many of them were there in this world?

The youngster gifted him a large amount of Divine Origin Liquid.

Zhang Bairen was completely flustered, hurriedly bringing over the vessel that he believed was the purest to hold it, preserve it. The value of Divine Origin Liquid was priceless, able to allow one to live forever in this world.

"I want to know this great continent's history, I want to know more..." The youngster calmly said. For some reason, he was extremely familiar with this place. When he looked at the boundless yet ruined continents in the cosmos, he was extremely fascinated.

"My knowledge is limited." Zhang Bairen was honest. Even though he wanted the Divine Origin Liquid, he still didn't want to deceive this youngster.

This was an age of great turmoil, the most terrifying times. Even the heavens had been beaten into ruin, the great continent even more so caving in. What small world, what restricted region? Many were forever erased!

Hundreds of thousands of years ago, unmatched experts descended many times, slaughtering their way until the sun and moon were without light, mountains and rivers destroyed. The entire cosmos was smashed until it cracked apart.

It was rumored that a long time ago, this world was known as the Nine Heavens Ten Earths. However, it was destroyed by the darkness great showdown, ending up in its present dilapidated state.

Of course, there were many spiritual mountains and divine lands that were moved away by others, becoming the pure lands, wondrous earths of those life stars.

Now, powerful clans and inheritances all resided in the starry sky in outer space, scattered throughout various parts of the cosmos. No one dared stay here for a long time.

It was because they were worried that the terrifying existences from the great battles of the past would return, and then completely sweep this place clean.

The youngster frowned. He looked into this cosmos' starry sky, at the ruined ancient lands. Were they one piece in the past? They were now beaten to this type of state.

It was to the extent where according to what the youngster said, this expanse of the cosmos was even beaten until it ruptured.

This level of battle, just how many creatures died? It was to the extent where even the complete eradication of countless clans wasn't rare. Even though he didn't personally witness the past battle, one could well imagine the bloodiness.

The youngster sighed and said, "Why is my heart so moved, feeling such sadness?"

Then, he asked, "In the past, ninety percent of the creatures have all been destroyed?"

"That isn't exactly correct. It is rumored that a large group of people were brought into Immortal Domain by an unmatched expert, considered to be leaving behind a lineage for this world. There were people who were worried that this realm would completely disappear." Zhang Bairen replied.

There were some things he didn't know about. Even though a large group of creatures were saved, the Nine Heavens Ten Earth's foundation had mostly been seized as well, used to make Immortal Domain prosper further.

"What kind of expert was it that took action?" Shi Hao asked.

"I do not understand it too well. The elders said that those things are from too long ago, those people powerful beyond imagination." Zhang Bairen replied.

According to what he said, now, no one of this world could reach that level. From as early as the records of this ruined world could be traced, there were no creatures that powerful.

"They will still return?"

"I do not know, but most people said that they went to other realms to fight. It has already been such a long time, all of us are hoping that they never appear again!" Zhang Bairen said.

It was because according to the legends, that battle was still going on, spanning across the heavens, affecting endless ages. Those people were too powerful.

In reality, what the Burial King said in the past was real. The great showdown continued, even though the battles that raged on for hundreds of thousands of years left everyone's hearts cold, leaving even

the most powerful beings shaken, even now, there were still people returning from Realm Sea, the situation becoming increasingly terrifying.

It was to the extent where there were old monsters from the Age of Emperor Collapse, as well as creatures from even further back who appeared!

This was a terrifying great world. The battles of the Nine Heavens Ten Earths, comparatively speaking, were still gentle. Now, the other places were even more terrifying.

As for Realm Sea, the scene was already the most magnificent and terrifying it could be!

Being born in this age was the nightmare of all creatures, especially being born in those battlefields. After hundreds of thousands of years, blood dyed the mountains and rivers, great battles relentless, the people in distress.

That youngster left, heading towards the depths of the continent.

Zhang Bairen waved his hand from the back. He didn't know just who he had encountered, or else he would have definitely been shocked to the point where he couldn't be any more so.

He didn't know who this was. Even after many years passed, he still didn't know just who he interacted with.

The youngster continued along, always in a restless state of mind. Why did everything he see leave him sentimental, made him feel uncomfortable? This world gave him a familiar feeling.

Did he come here before? The youngster asked himself.

It was because he was precisely Huang, the past Shi Hao. He revived in All Life Earth, but he already forgot everything.

Then, he walked towards those dynasties, asking them about the situation. He even referenced all types of bone books and examined records, trying to understand just what kind of world this was.

He lacked memories, but when he saw these bone books, he naturally remembered them. In the depths of his heart, there seemed to be a tiny fine stream that was nurturing him, helping him.

Shi Hao roamed about this great continent, learning more and more. He became increasingly perplexed. He couldn't find any traces of himself. What age was he from?

Unfortunately, this world was ruined, its history severed. There were many things of the past that couldn't be investigated.

Meanwhile, during this period, the ten imprints on his body released light noises from time to time, releasing mysterious radiance, as if they wanted to forge a world.

Several years later, he called himself Huang, he gave himself this name because this was the name that flowed out from the bottom of his heart. He liked it a lot, feeling like it matched him.

As time went by, Huang roamed about this starry sky. A century passed. He roamed all around the sky, those life stars even having his traces left behind.

This world really didn't have immortals? He didn't know. He had previously encountered several creatures that were strong, also able to seize heaven and earth essence. However, when they faced him, they were all easily defeated.

He had a feeling that he had even greater strength that was accumulated within him, yet didn't know how to transfer it.

Shi Hao searched the entire world, but still couldn't find any traces of himself. He felt like he was definitely asleep for many years, after all, he woke up from All Life Earth.

Another century passed. He was fed up with this. He searched everywhere, yet didn't obtain any explanations, always in a restless state of mind. He wanted to find something, yet couldn't find what he was looking for.

He felt a sense of urgency within the very depths of his heart, a bit anxious, yet didn't know why. There was a type of instinct that was driving him, making him wish to see some people!

The ten imprints shone again.

"I want to achieve immortality, I want to take a look in that world!" He actually had this type of impulse. Then, the ten imprints became calm.

Only, how was he supposed to enter Immortal Domain, he didn't know. He previously tried to blast apart the void, but he discovered that even though he could sense that world, it seemed like it was extremely far.

He couldn't smash through with his strength!

"Why is my strength hibernating?" Shi Hao frowned. He sensed a wave of sea-like power, yet couldn't transfer it.

In the following age, his figure appeared across many life stars. Huang was trying to enter Immortal Domain through different spatial nodes, wishing to make his way over.

Immortal Domain was unstable, experiencing a great battle. There were some parts that were no longer as stable as the past. After being battered many times, there were some paths that really were about to be forcefully broken through by him.

One had to understand that right now, there was a large portion of his strength that he couldn't access, all of it dormant within him.

This type of magnificent feat left creatures of all clans shocked!

"Why do I feel like he is extremely similar to that person recorded on the bone book we dug up from those remains?" Someone said quietly. However, the image carved on that bone book was extremely blurry, also quite damaged.

He suspected that Huang was someone from the past!

The world in this Cultivationless Age was ruined, the lifespans of creatures not that long. There were even many breaks in history, even the truth from five hundred thousand years about to be covered.

The creatures who could cultivate to Supreme Being Realm were mostly in those sealed immortal earths.

After the great showdown erupted, even some immortal islands in the outside world were beaten down, falling into this realm, obtained by some powerful clans, taken for themselves. Only this type of place could produce the most powerful individuals.

Huang continued to try different things. This entire ruined cosmos had traces of his figure left behind, signs of him appearing in all important locations.

Finally, one day, on a floating island in outer space, he sensed something. His entire body trembled, releasing a low roar, shaking up this place.

There was a bronze coffin underground, as well as nine dragon bones. Next to it stood a monument.

At this moment, Huang was like a wounded wild beast. He cried out, hugging his head. He was incredibly grieved, yet couldn't recall those things of the past. He felt extremely terrible.

He just had a feeling that some people were too far away, possibly never to be seen again. He felt great pain inside.

In the end, he raised the bronze coffin, pulled out the stele. The most terrifying things didn't happen. There was no grave underneath the stele, there were no corpses.

"We are all still here, Imperial Court still exists. Huang, Shi Hao, where are you? We all want to see you!"

There was actually this line, leaving him deeply shocked.

"We are waiting for your return in a different world, waiting for you to join us!"

"The Three World Bronze Coffin shares karma with you, so we brought it back. We hope that it can meet you again one day. You... definitely have to come back!"

"We are waiting for you!"

Right now, Shi Hao shed tears, unable to hold himself back. For some reason, even though he didn't know the story behind these words, his emotions were rising and falling. He wanted to roar out, wishing to scream.

Hong!

At this moment, Shi Hao's ten imprints shone, becoming something like a divine ring, extremely resplendent.

These were ten reincarnation imprints, wrapping around Shi Hao's body like ten diamond bands, incredibly sturdy.

In reality, these imprints were far more astonishing than they seemed!

There was a figure seated within each reincarnation imprint. They were identical, all of them sentimental, speaking quietly. They looked exactly the same as Shi Hao's true body.

“You all... are you still there?” The Shi Hao in the reincarnation imprint said with a trembling voice. He was extremely scared. After so many years passed, what happened to the people of the past?

He understood many things through the Three World Bronze Coffin and that stele.

One after another, faces full of life appeared before Shi Hao’s eyes. Those people were waiting for him, waiting for him to join the battle!

He clenched his fist, really wishing to immediately make an appearance!

“You all have to continue living, have to wait for me!” Shi Hao roared out!

At this moment, the reincarnation imprints were all shining. They were incredibly dazzling, ringing with noise.

He felt like the sea of creatures that were brought into Immortal Domain from the Nine Heavens Ten Earths also left with those old friends.

The ten reincarnation imprints all had a seated creature, all of them looking like Shi Hao. After this endless amount of time, they were always cultivating in seclusion.

“I didn’t die! All of you have suffered!” He muttered to himself.

It was because he knew that after the battle back then, everyone thought that he had died, all of them feeling great grief, their hearts feeling like they were rupturing. However, he didn’t die, always existing in this world.

The ten reincarnation imprints were too mysterious. The moment his primordial spirit was smashed into a rain of light, they silently absorbed all of the light, turning into ten streaks, trapped here.

After an endless amount of time, the ten spirits were like one, all of them spending this time in bitter cultivation!

After an endless amount of time, he only produced a bit of primordial spirit force, carrying some imprints, infusing it into his true body. This was the reason for his awakening.

If he became an undead knight, would he still be himself?

Shi Hao rejected that idea. After all these years, even though he was in seclusion, cultivating bitterly, he couldn’t feel at ease about his flesh. As such, he revived, just that his true primordial spirit hadn’t appeared yet!

One could imagine that once the true primordial spirits merged, the ten bodies becoming one once more, just how terrifying they would become!

Right now, it was just a strand that was produced to control the body, yet he could already sweep through all enemies in this ruined cosmos.

Shi Hao created his own method, this was a completely new great dao enlightenment. It included all types of true scriptures, precious techniques and other things, the power boundless. When he faced those immortal kings, it obtained the most cruel test.

The Imperishable Scripture only ensured that Shi Hao's body remained imperishable, it couldn't cultivate the primordial spirit.

However, after referencing so many different sources, establishing a completely new cultivation system, he broke through his own restraints. His primordial spirit was divided into ten parts, hidden in the ten reincarnation imprints!

His path and his technique were done through referencing all different areas. The Imperishable Scripture's shortcomings were patched, the primordial spirit could also cultivate this method. Now, his primordial spirit was sturdy and imperishable.

The most important thing was that the ten primordial spirits operated great methods, impervious to all tribulations. Every single one was restored, reaching the peak. After remaining in seclusion for an endless amount of time, they even ultimately surpassed how they were before!

A single streak was already like this, exceeding the past. If ten streaks merged together, just how strong would they become?!

He had always been here, never perished!

"I am still here! I never perished! I will return one day!"

The ten reincarnation imprints shone, a resolute will ringing.

He thought about those people who were waiting for him, waiting for him to join the battle. His ten primordial spirits even more so couldn't remain at peace, a type of emotion surging.

#### Chapter 1942 - Matters of the Mortal World

Reincarnation did not take time into account. Even after millions and millions of years of reincarnation, there would be that instant of rebirth!

According to legend, there were unmatched experts who have been reincarnated, establishing a new life. This was a type of great reincarnation, but who in the world could confirm this? There was no way.

Reincarnation was a period of experience, one that left the normal trajectory of life, starting along a different path. This was precisely an instance of reincarnation.

An instantaneous flash of realization, experiencing the joys and sorrows of life, this was like crossing a piece of the river of time, achieving supreme nirvana, causing a sudden change in one's life. This was a special type of reincarnation.

Shi Hao's body carried ten reincarnation imprints, these ten pieces of memories that were hard to forget, experiences that could never be erased. He lingered about life and death, from life to death, from death to life.

In the past, Shi hao had ingested the Yellow Springs Fruit, experiencing several lives, obtaining some more reincarnation imprints. Later on, when he obtained the Imperishable Scripture and fought He Wushuang, almost mutually destroying each other, he obtained another reincarnation imprint.

This reincarnation imprint had many miraculous uses that couldn't be described with words. From past until present, they were things even immortal kings found hard to see through.

When Shi Hao faced tribulation, there was an Immortal Killing Guillotine that descended, wishing to take his life. At that time, the dao fruit little figure took it on in his place, while a reincarnation imprint shone, wrapping around that dao fruit.

It was precisely after that time that Shi Hao began to attach great importance to the reincarnation imprints. Whenever he faced great ups and downs in life, the turbulent situations of life and death, he would seriously study it.

Embodiment Transformation, transforming all ages, he had previously spent close to five hundred thousand years in the Age of Emperor Collapse, living one life after another, experiencing aging and decline. Even though there wasn't a reincarnation imprint left behind from every single life, he also succeeded several times.

When he returned to the present world, he frantically cultivated, using the Void Immortal Gold Stele to fight against himself. There was one time where he almost perished, basically fallen in battle.

That day, the restricted region lord was alarmed, the crystal skull, golden arm bone and others were also anxious, reviving him with difficulty.

Under this type of situation, unavoidably, a reincarnation imprint quietly appeared.

When he carefully counted it up, Shi Hao should have had more than ten, but some scattered. There were ultimately ten, not increasing, not decreasing.

Ten reincarnation imprints, they contained great mysteries!

Back then, when he died, they actually completely vanished. The ten imprints swallowed up all the rain of light, moreover completely restrained themselves in his hand, not appearing in the world.

Only when he reached Burial Land did they appear. However, at that time, they already moved from his hand to his body, turning into a diamond-like divine ring, wrapping around his body.

If Aocheng, Taishi, Yuanchu and the others could wait a few days, they would have been terrified, they definitely wouldn't have let his body go!

It was because all clues that even had a bit of doubt would make them act ruthlessly.

When the Burial King saw the ten reincarnation imprints, he revealed an expression of shock. However, he couldn't sense anything, only feeling like his body was special.

One could imagine just how extraordinary these ten reincarnation imprints were! Shi Hao's primordial spirit was within, but not even someone as powerful as a Burial King could figure it out, unable to sense it.

Right now, the ten imprints grew dim, no longer shining, becoming peaceful again.

It was because the ten figures inside all became calm. Shi Hao obtained the information regarding his old friends. They were still there, still alive, waiting for him to join the battle!

All he could do now was comprehend the dao, further perfect his own methods. He had to break through, become an unmatched expert. At that time, the ten reincarnation imprints would no longer restrict him!

He was going to truly make an appearance, enter the great showdown!

That was why the ten primordial spirits all became quiet, starting to cultivate alone, entering the deepest state of dao comprehension.

At the same time, there was that strand of primordial spirit strength that flowed about, continuously entering the true body, making that muddled self gradually become stronger.

Shi Hao's primordial spirit didn't have to worry about the body anymore, allowing it to search on its own, explore this world's mysteries. Even if this body tried to break into Immortal Domain again, it wasn't entirely impossible. n./OvEl&In

He had this type of confidence, not fearing any creature!

Shi Hao's frontal bone shone, the hazy primordial spirit was gradually becoming stronger. Even though the process was slow, over a long period of time, the accumulation was also extremely astonishing.

He temporarily sealed the nine dragons pulling Three World Bronze Coffin here, continuing to move through the cosmos. He passed through desolate ancient lands one after another, visiting life stars one after another.

"Could he be Huang? Heavens, why does he look that similar to what is recorded on the bone books? His imprint diagram is there!"

As the years went on, there were finally some people who recognized that his true self looked like an ancient individual.

"The one who was deemed Emperor of the Mortal Dao?" Within some ancient inheritances, cries of astonishment sounded.

Only, there had been several breaks in history. After the great showdown began, everything was ruined, much of the truth hidden under the years of history.

Now, it wasn't an age where anyone could live for a million years. Even the most powerful creatures were already quite formidable if they could live for ten thousand years!

"Imperial Court's founder, Huang, how is he still alive in this world?"

"Look, he has visited so many remains. Is he trying to enter Immortal Domain?!"

Throughout the years, Shi Hao's traces were scattered across every corner of the universe, even entering many collapsed ruined realms, entering some mysterious ancient realms' great cracks and abysses.

There were times when he would encounter a powerful creature, but they couldn't stop his continuously strengthening self.

“The world calls me Huang, the creator of Imperial Court, so I’ll establish an Imperial Court, allow it to exist forever in this world, create an imperishable inheritance!”

Shi Hao’s body said to himself. His powerful primordial spirit had yet to return, but he had this type of instinct, wishing to establish an Imperial Court again!

Sure enough, the world was shaken, everyone was shocked by his methods. In a single night, he created formations and built giant palaces. Imperial Court’s great banners fluttered around, boundless divine might filling the world.

“It really is him?!” Some people were doubtful.

There were quite a few people who joined this Imperial Court, most of them wandering cultivators, becoming followers of this inheritance.

The reason why Shi Hao’s body did this was mainly to recall his past memories. He didn’t know that there were ten great primordial spirits within him.

In just a few years, Imperial Court reached a certain size. There were powerful wandering cultivators who became divine generals, this triggering some memories within him, feeling some déjà vu.

“I want to achieve immortality even more now.” Shi Hao’s body felt like he had this type of conviction hidden within the depths of his body. He wanted to enter Immortal Domain. There were some people and things that were pulling him in, he felt extremely impatient.

In the following years, Shi Hao took action in many spatial nodes within the cosmos, trying to break into the scarred and damaged Immortal Domain.

There were some important spatial nodes that he left steles behind in, remaining there and warning those who came after him. Moreover, he even left behind some techniques.

He used great dao patterns to inscribe the steles.

One day, when he exerted force on a certain spatial node, the void split apart. A great abyss appeared. This place didn’t lead to Immortal Domain, but rather a perished small world.

En?

He was inwardly shocked.

A strand of white light that was extremely gentle scattered out. He saw a bone pagoda.

To be more precise, it was a damaged pagoda, only one layer. However, it had natural laws, patterns interweaving, turning into light, creating eight layers.

There were nine layers in total, an unmatched great dao aura flowing around them!

That day, within the ten imprints, Shi Hao’s primordial spirit sensed something. The ten little figures all opened their eyes, the ten imprints erupting with brilliance.

“Little pagoda, another portion of its ruined body!” The reincarnation imprints’ Shi Hao was truly stunned.

The little pagoda had nine layers in total. However, it participated in a terrifying great decisive battle, breaking apart into many pieces many years ago, lost in various regions.

When Shi Hao first discovered it in the Hundred Shattered Mountains, it only had four layers. Later on, he seized two layers from the higher realm, restoring it to six layers.

Meanwhile, five hundred thousand years ago, when Fallen Immortal Ridge's master took action against Shi Hao, attacking him with Aocheng, Taishi and Yuanchu, he used a ruined pagoda that had two layers.

Together with this one, the nine-layered pagoda was complete!

"Little pagoda, Willow Deity, where are you all? No matter how cruel this age is, it doesn't matter, I can fight in your place! Wait for me!" Within the reincarnation imprints, Shi Hao said this quietly.

In the end, Shi Hao's true body brought away this ruined pagoda. It was also from this day on that he looked for Immortal Gold, starting to create artifacts in Imperial Court.

"Heavens, what did he end up refining?"

Several decades later, he found Immortal Gold because he had scoured every corner of the cosmos before. If there were immortal materials, he would definitely easily find them.

Imperial Court erupted with immortal light, auspicious multicolored light appearing streak after streak. Shi Hao refined a pagoda, restoring that layer of bone pagoda, refining it within.

The nine-layered pagoda body flowed with chaotic energy, accompanied by immortal light. It directly possessed immortal dao energy, incurring world shocking lightning tribulation!

Many people suspected that Huang refined an immortal artifact, but they weren't sure. After all, the people of this world already couldn't achieve immortality, so how could there be this type of artifact refined?

History was severed, the world boundless. No one understood the past.

It was precisely because this pagoda was successfully refined that Imperial Court's reputation became great. Inside this area of the cosmos, more and more powerful cultivators hurried over and joined the Imperial Court.

From a certain perspective, this pagoda became Imperial Court's emblem, more useful than Shi Hao's years of recruiting.

"Perhaps when I break through the shackles of my reincarnation imprints, I should properly refine a weapon of my own." Shi Hao's true primordial spirit said to himself.

Then, he crossed the heavens, moving about the world. The spatial nodes that he opened up increased in number, several areas almost connected to Immortal Domain.

Some people knew what he was doing. They were all extremely shocked.

Shi Hao established a stele on each path to Immortal Domain, leaving behind a warning and some scriptures, hoping to give those coming after him some enlightenment.

Hong!

That day, an undying mountain smashed into this realm, bringing over a sea of essence energy. There was undying aura, as well as immortal dao essence, shaking up this ruined world.

Shi Hao also moved, hurrying over. He saw a mountain that was massive beyond comparison, as if it covered everything.

Many stars even seemed insignificant in comparison, moving around it. Meanwhile, at its highest point, the terrain was unusual, extremely strange.

It fell here from outer space. Did it smash through a realm wall?

This world was ruined, or perhaps it could be said that this area of the cosmos even became dried up. It wasn't all that strange for different realms to be connected now.

This mountain left even Shi Hao shocked. It was because after he ascended the mountain peak, he saw a miraculous scene, or perhaps it could be called an irregular scene.

The mountain peak's terrain was exceptionally beautiful, grand and astonishing.

Nine dragon veins pulled an ancient coffin, too strange, similar to the shape of the Three World Coffin. Only, this place was a natural mountain, while what Shi Hao saw before was nine bone dragons pulling a bronze coffin.

Inside the reincarnation imprint, Shi Hao's true primordial spirit woke up. He began to think to himself, silently pondering over many things.

"The Three World Coffin's origins are extremely great, there is great karma!" He felt like this matter was definitely special.

"My dao methods have now made progress. Who cares what kind of karma you have, if there is anything intertwined? What is there to be scared of? If you wish to make me your enemy, then I will just kill!" Within the reincarnation imprints, Shi Hao said.

Hong!

His body already moved from a type of instinct. With a honglong noise, he broke apart this mountain body, cutting off the highest area with the nine dragon veins pulling a coffin.

During this process, the entire world was shaking. It was because there were formations on this mountain peak, this place shockingly sturdy!

However, he still succeeded.

Shi Hao produced a reaction, because in that instant just now, he sensed that a group of people in the long river of time opened their eyes, tracing the karma upstream, looking in this direction.

"There was great karma after all!"

Then, Shi Hao's true body went to fetch the nine sets of dragon bones pulling Three World Coffin, placing them in the mysterious terrain, matching the two.

“One day, if I die, I will be buried here.” Shi Hao sighed. He entered the bronze coffin, bringing this mysterious terrain with him, crossing the cosmos, shocking all clans.

In the end, he brought them all back to Imperial Court.

Hong!

Eighty years later, the universe rumbled, heaven and earth trembled. Shi Hao was breaking into Immortal Domain. His flesh ‘achieved immortality’, about to enter Immortal Domain, settle things with some people!

Several creatures quietly followed behind him!

#### Chapter 1943 - Primordial Spirit Returns

Several creatures followed quietly behind, thinking that they were hidden well, wishing to follow him into Immortal Domain.

They were indeed not weak, originating from some immortal earths. Back then, the divine islands, pure lands and others that fell from outer space carried rich undying matter, they were obtained by these clans. They then isolated themselves from the outside world.

Only this type of place could produce Mortal Dao’s supreme being level experts.

Shi Hao didn’t turn his head. His steps were unstable, body as if unable to bear the pressure, as if he might fall on these last few steps into Immortal Domain.

Peng!

He fell down, his body seeming weak, a bit powerless.

In the back, when those creatures saw this, their eyes flickered with vicious brilliance, inwardly transmitting sound. They all made their move at the same time, wishing to strip the natural luck from Huang’s body.

However, when their magical artifacts suppressed over, interweaving, he stood up from the ground again, looking coldly at them. **no 1E(1B(In**

Chi!

They saw a hand reach out, directly seizing all of the magical artifacts, crushing them into powder, this process just too easy. This scene even made their souls shake, leaving them extremely horrified.

“Even people with hearts as treacherous as yours, no concept of gratitude, dare vainly try to borrow my strength to achieve immortality?”

Shi Hao said coldly. This was the most simple test. Those creatures were blinded by the path of immortality, revealing some of their true nature.

These people’s faces suddenly changed. Huang was testing them, his actions so simple, yet they were momentarily beside themselves with joy, even their most basic judgment becoming wrong.

“I didn’t attack you!” One of the creatures said.

Pu!

Shi Hao's large hand descended. The other creatures all died, only the one who cried out was left alive. With a raise of Shi Hao's hand, he fetched heaven and earth essence, turning it into Divine Origin Liquid, sealing that creature here.

"You only knew to move a bit slower, your heart still carrying powerful killing intent. In reality, you are the same as the others." Shi Hao said.

However, this person indeed didn't attack him in the end, so Shi Hao left him with his life, sealing him on this path of immortality.

"No!" This creature shouted. Being forever sealed here, able to see the path of immortality, yet not being able to enter, just how much of a suffering was this?

Shi Hao turned around, rushing into Immortal Domain!

He 'achieved immortality', but he didn't feel anything strange, no excitement or joy, instead feeling completely normal. Moreover, charging his way in didn't exhaust too much energy either.

The Nine Heavens Ten Earths' people believed he 'achieved immortality'.

In reality, his flesh already reached the level of the Vicious Ten five hundred thousand years ago when he rushed at the Immortal King Realm, his weakness was merely his primordial spirit!

That was why he was able to easily enter Immortal Domain after finding the correct spatial node, it wasn't strange at all. It couldn't be considered the so-called 'achieving immortality'.

It was because it was already enough purely with Shi Hao's terrifying physical body. Back then, when he rushed at the Immortal King Realm, in terms of his flesh, he already wasn't weaker than an immortal king.

Otherwise, Aocheng, Taishi and Yuanchu wouldn't have insisted on killing his primordial spirit.

However, Shi Hao didn't know that even though he wasn't too excited or moved, in the end, he still entered Immortal Domain. This brought him a feeling of novelty, his eyes flickering about with brilliance.

The ten reincarnation imprints' true primordial spirits woke up, opening their eyes. They sat in the reincarnation imprints, waiting, hoping for a chance to rush out.

It was because it was already about time. They only needed some type of opportunity, and then they could rush out, struggle free of the reincarnation imprints, truly merge together, become an unmatched immortal king.

This was the main reason behind Shi Hao's confidence in entering Immortal Domain!

After coming here, he sensed the severity of the situation. Immortal Domain was unstable. After all these years, they were always in a chaotic state of war, all of the exceptional experts fighting great battles from time to time.

Just how many Immortal Kings passed away? It was hard to say for certain.

In Immortal Domain, there was a region that had already been occupied by creatures of outer space!

Shi Hao continued forward, going from one expanse of cosmos to the next, from one land ruled by an immortal king to another. He continued to travel through this place, trying to understand the current state of this world.

Immortal Domain was an accumulation of many ancient cosmos, the size boundless beyond imagination.

The great showdown was nothing more than the curtains being raised. The true great clash between unmatched experts was always going on. Some places in Immortal Domain had already been completely destroyed.

Shi Hao wandered around for a few decades, experiencing much of the chaos.

He previously climbed up a wall in a certain city, fighting a great battle against the enemy creatures who came from outer space. His body was drenched in blood as he fought endlessly. This was a bitter experience.

“The creatures from the Realm Sea, as well as the darkness matter... all of it has appeared!”

Immortal Domain was not peaceful at all. Once conflict erupted, then heaven and earth would collapse, ghosts would weep and deities would howl. The battles in recent years were extremely terrifying, leaving everyone horrified.

“Shi Zhongtian, do you understand your sins? After attacking and injuring Yuanchu Immortal King’s descendant, you still want to leave?”

Within a troop in the cosmos, a banner fluttered about. They were currently chasing after an elder. This group of men were extremely savage, chasing relentlessly, vowing to capture him.

“Aocheng, Taishi and Yuanchu harmed my grandson! After all these years, I’ve only had a single objective, I will take all of you down one day!”

The elder’s body was covered in blood, an arm even severed, currently fleeing for his life, heading into the depths of the cosmos, wishing to break free from this starry sky.

“Shi Zhongtian, you won’t be able to escape! Don’t think that just because you have a taboo existence from the Realm Sea behind you, we don’t dare kill you!” Someone shouted.

“Haha, so what? This is only a spirit body of mine!” Shi Zhongtian’s figure became dim, becoming indistinct.

Those soldiers behind him cursed, activating all types of magical artifacts, frantically attacking. The other’s indistinct figure exploded, turning into a rain of light, thus disappearing.

Sure enough, it was a spirit body, not his true self.

Shi Hao’s eyes became red, his primordial spirit awakening. He saw his grandfather being chased by others like this. Even though it was only an incarnation, he still couldn’t accept this.

Weng!

Immediately afterwards, all ten reincarnation imprints trembled, about to collapse. The outside world was provoked, allowing him to make a breakthrough.

“Who are you?”

The troop saw Shi Hao heading in their direction, loudly asking.

Hong!

Shi Hao’s entire body was covered in light. The reincarnation imprints began to tremble. The diamond band-like reincarnation imprints on his body became dim, withdrawing into his body.

Dong!

Shi Hao released a large hand that covered the starry sky, covering everyone underneath, and then exerted force, smashing this place apart.

Pu!

Those people all turned into bloody mist, exploding, smashed to pieces by Shi Hao’s fist.

Shi Hao was now different, his eyes deep. There was a wave of deep and immeasurable aura. His power erupted, continuously becoming stronger.

“I have returned!”

He said quietly. Just now, he had been stirred up. When he saw his grandfather chased after like that, the flame within his heart burned extremely uncomfortably, his emotions rising and falling intensely, becoming a type of opportunity.

Shi Hao broke free, rushing out of the reincarnation imprints, starting to truly rise up!

However, a large expanse of divine light blossomed above his head, leaving everyone greatly shaken. This was the natural reaction produced after his primordial spirit merged together.

“I feel unprecedentedly powerful right now!”

Shi Hao said to himself. He was incredibly confident. If he encountered those people again, would they still be able to kill him?

His primordial spirit was originally his weakness, but now, the ten spirits became powerful and sturdy enough. His ten primordial spirits returned to being one, all of them entering his skull. This naturally triggered irregular scenes.

This was precisely the reason why his head was surrounded in brilliance, his primordial spirit force too strong. There was divine brilliance that erupted, rushing out of his skull.

“Why do I feel like I can still carry out some type of transformation?”

Shi Hao discovered that when he used all of his strength, boundless divine force surged in his body. Then, his primordial spirit also flowered with essence energy, ultimately congealing, rushing out of his skull.

He didn't waste any time. In the following period, he sought out Shi Zhongtian, wishing to reunite with him.

After all this time passed, for him to still be able to meet a loved one, meet his grandfather, it truly was a joyous thing, as well as a miracle in itself.

A few years later, he found a region. It was the residence of a creature who returned from the Realm Sea, occupying an expanse of brilliant starry sky. Normally, no one dared approach.

It wasn't just Grandpa Fifteen who was here, A'man was also here. Throughout these years, they would occasionally head out to attack Aocheng, Taishi and Yuanchu's descendants.

All of this was to get revenge for Shi Hao.

If there were people who chased after them, the two would hide here, not come out. Those people didn't dare charge in either.

It was because A'man was that person's disciple!

"Grandfather, A'man!"

Shi Hao never expected that when he entered Immortal Domain, he would meet them first.

Even though it had already been a few years since he entered Immortal Domain, he always allowed his flesh to do as it wished, while his primordial spirit remained in the reincarnation imprints. Now, he truly struggled free.

"You are..." When Shi Zhongtian saw Shi Hao, he was startled, momentarily stunned, feeling like this was inconceivable.

Then, he released a loud cry of grief, carrying endless misery and pain, saying, "Why do you look the same as my Hao'er?!"

A'man was elegant and exceptional, looking at him in a daze. She also muttered, "Why do you look the same?"

"Grandfather, A'man, it's me! I've returned!" Shi Hao's eyes turned sour, almost shedding tears. He loudly told them that he didn't die, that he was still alive.

"What, alive?" Shi Zhongtian's eyes became extremely wide, saying angrily, "Ao Family, Taishi Family, are you all trying to trick me?" He opened his Heavenly Eyes.

At the same time, A'man's eyes also erupted with divine brilliance, staring at Shi Hao. In the end, she was shocked, unable to help but say, "It really is little Hao!"

"Shi Zhongtian, evil woman, where are you two going to run off to this time?"

There were figures all around, all of them experts, completely flanking this region, targeting this starry sky.

"Hao'er!"

"Little Hao!"

In this world, how many people were there left who called him this? Shi Hao's eyes turned sour. After hundreds of thousands of years passed, the seas turned into mulberry fields. The places were still there, but the people weren't. After entering Immortal Domain, his primordial spirit returning, he could actually still immediately meet these two!

Shi Zhongtian and A'man were shocked, overjoyed and excited. They completely forgot about those people in the surroundings, Shi Hao was the only thing in their sight.

"Don't know the difference between life and death!" Someone sneered. This was a true immortal.

This group of people weren't few in number, all of them having true experts overseeing them, immortal dao figures who descended.

Shi Hao suddenly raised his head and said, "Grandfather, A'man, please wait for a bit!"

Shi Hao faced these people, only using a single movement. He brandished his palm, and then struck towards this starry sky.

Hong!

This starry sky exploded. There really were quite a few enemies here, a powerful army, but in the end, they were smashed into scattered ashes and dispersed smoke, not a single person remaining.

Shi Zhongtian and A'man were completely stupefied.

"Child, you... good, good, good!" Grandpa Fifteen directly said good three times, excited to the point where he was shaking. His grandson had just returned, yet he already showed him this scene, leaving him incomparably surprised.

"You killed them well!" A'man also cried out in joy.

"Who is the one doing this type of thing, making over ten thousand cultivators die tragically with a raise of their hand? Do you not feel that your methods are too fierce, too vicious?" Someone said in the starry sky depths.

Shi Hao didn't say anything, directly bringing Grandpa Fifteen and A'man away. Who cares what kind of great figure this was? If he wanted to deal with him, then he would just suppress and kill.

"Dao friend, I can see that your cultivation is profound, dao skill immeasurable. Why have you killed Aocheng and Taishi Immortal Kings' descendants? When facing a powerful enemy, we should have amicable relations. With this type of magical force, you should face the creatures of darkness, as well as the enemies that continuously appear from the Realm Sea." That person said.

"If they were all Aocheng, Taishi and Yuanchu, these types of people, I would rather directly go against them, I definitely wouldn't be friendly with them or join hands!" Shi Hao's words were extremely cold.

"Dao friend, you are too extreme. What grudges cannot be neutralized? Doing things like this will easily force you to stand alone. With the great showdown here, we should all be supporting each other."

"If I was the one who was making the choice, Aocheng, Taishi and Yuanchu all deserve to suffer from disaster!" Shi Hao said. Then, he slowly added, "If making them my enemy makes me alone, then just come. I am willing to throw myself into the great chaos, I am the greatest avenger!"

#### Chapter 1944 - Powerful Offence

On the other side of the starry sky, that person became quiet, but there were great waves stirring within him. He was inwardly thinking that this expert really was domineering. Was he going to fight those three immortal kings to the death?

He wanted to see that person clearly, see just what kind of appearance he had, but Shi Hao's cultivation was now deep and immeasurable, how could just anyone see through him?

In his surroundings, chaotic energy pervaded the air, incredibly mysterious. He looked like an emperor that had existed throughout time, able to look down on Immortal Domain. His presence was incredibly horrifying. Only a pair of ice-cold eyes shot through the mist like blades, the radiance dazzling!

It was to the extent where even Shi Zhongtian and A'man were surrounded by his aura, no one able to do anything to them. They were all protected within a powerful domain.

"Dao friend, since it is like this, I won't try to advise you otherwise. You should do things as you see fit." The other person in the starry sky said, never showing himself all this time, also preparing to withdraw.

When one reached their cultivation level, how sharp was their divine awareness? He sensed danger, knowing that if he got involved further, it would most likely be a great karma!

"Goodbye!" He chose to walk away from this issue.

However, there was another voice that sounded in the starry sky, urging him to stay behind. "Senior, his actions are so vicious, harming our generation's cultivators, I must ask your respected self to help us!"

He pleaded through divine senses, but he didn't know that now that Shi Hao's ten primordial spirits merged together, his dao skills already made tremendous breakthroughs, becoming terrifyingly high. Unless they were an exceptional expert who was trying to conceal divine will conversations, he could hear it all clearly.

"We're going, this person is too fierce!" The mysterious expert in the starry sky said.

"Senior, I must ask you to take action! If you can detain him today, my ancestor Aocheng Immortal King will remember your kindness!" That person said.

Chi!

That person clearly sensed something, releasing chaotic energy, wrapping it around Aocheng's grandson, protecting him at his side.

"Aocheng's grandson? Since there is this relationship, then you don't need to leave today!" Shi Hao said.

In the dusky cosmos, Shi Hao took a step out, directly appearing before them. The space between his brows shone, erupting with sword energy, hacking towards the opposing starry sky.

"Dao friend, please be lenient!" That expert stopped him.

"I cannot coexist under the same sky with them. If you are going to stand in my path, then you will become my enemy!" Shi Hao said calmly.

Hong!

At this time, sword energy surged, all of this primal chaos sword radiance was fired out from between his brows. It was completely unstoppable, the radiance just too terrifying, enough to cut down immortals and kill devils.

On the other side, the mysterious expert brought Aocheng's grandson with him, turning around to leave.

Aocheng's grandson, this was definitely a living fossil, his cultivation sky reaching. However, that depended on who he was compared to. Right now, he really was nothing.

He was a half immortal king, his cultivation already immeasurable. After an endless amount of time passed, he previously wanted to find a way to break through, but all of his efforts failed.

Peng!

This expanse of the starry sky was crushed!

Chaotic sword energy flew out from Shi Hao's forehead, now already not weaker than the Chaos Calming Art that focused on nurturing the primordial spirit. The Imperishable Scripture was completed by him, after it was made whole, it caused this type of result. His primordial spirit could also become imperishable and produce sword energy.

This place was too terrifying. The starry sky was crushed, many great stars turning into cosmos dust.

"You should not push others too far!" That person was backing up, bringing Aocheng's grandson towards another starry domain.

"By sheltering my enemy, isn't this you telling me that you wish to make me your enemy through your actions?" Shi Hao pressed forward, his expression becoming cold.

"I will not bicker with you!" That expert said coldly, quickly escaping. He wanted to quickly leave this place, bring Aocheng's grandson into his territory.

Once they got there, Aocheng Immortal King would naturally take action.

Hong!

However, how could Shi Hao let his enemy leave? A hand struck out, this hand covering the sky, everything underneath this entire starry sky was covered by him.

"You!"

That person really was strong. He quickly resisted, a phoenix wing ranseur appearing in his hands, powerful and fierce, attacking towards Shi Hao's large hand.

Dang!

The world was shaking intensely, leaving everyone here shocked. The other party's strength was too great! The weapon he had meticulously refined for countless years actually released a kacha sound, producing cracks.

A piece of the phoenix wing ranseur's blade broke off!

Pu!

At the same time, his shoulder was struck. The primal chaos sword energy released from between Shi Hao's brows was unstoppable, hacking into the other party's flesh, making that place produce a spurt of blood.

Ah...

This person cried out, carrying anger. He turned into a streak of light, fleeing into the cosmos.

"You are sheltering my enemy, so you are my enemy. I will kill you!" Shi Hao released the final warning.

This person's mind sunk. He flung out with all his strength, throwing Aocheng's grandson towards a distant giant city which was in Ao Family's territory.

He was already doing everything he could, going this far was already quite good.

He wasn't someone at Aocheng's level, there was no need to clash head-on. This was especially when the other party wasn't even focused on him.

Peng!

Shi Hao's flesh was like the most terrifying sword core, splitting the void, immediately appearing before that giant city.

"Stop him!"

Aocheng's grandson screamed out. He organized a group of experts to face the enemy, activating the altar at the same time, preparing to inform the clan and ask for reinforcements.

However, everything was too late. Shi Hao rushed over, the giant city's altar exploding. Those who stood in his way exploded, groups of experts dying.

Pu!

Shi Hao's large hand struck down. Even though it was Aocheng's grandson, his strength terrifyingly great after cultivating for an endless amount of time, he still couldn't withstand this power, his body and spirit erased on the spot.

Honglong!

Even though Shi Hao didn't unleash a great slaughter, when he rushed over, this city still cracked apart, the entire starry sky almost bursting.

"Kill!"

Shi Hao took action powerfully. He knew what kind of place he arrived at.

This was the place where Aocheng ruled, Aocheng's cosmos. Now that he was here, he didn't feel any misgivings. Even though he didn't want to carry out a blood purge, he had to drag out all of his direct descendants, slaughter his way into Aocheng's place of seclusion.

"Not good, ancestor Ao Ling died! He died in Wood Star Heaven!"

When this piece of information was released, Ao Family's cosmos immediately entered chaos.

Everyone was stunned. The grandson of an immortal king died! Who was the one who did this? To dare take on an enemy on the level of Aocheng Immortal King, this should be an exceptional expert who just returned from the Realm Sea.

Hong!

That day, a figure appeared over one of Ao Family's extremely well-known giant cities. An arm reached out, seizing the most powerful expert of this place.

"Heavens!" Many people cried out. This was Aocheng Immortal King's direct disciple that overlooked this place. Even though he didn't become an immortal king yet, it was rumored that his dao skills were extremely terrifying, viewed as someone who had a chance to reach the immortal king level.

However, what did everyone see today? Someone seized him from his manor with a single grip!

"It was you, you little..." This person screamed out, face covered in shock, recognizing Shi Hao. However, before he could speak his following words, he was crushed into bloody mist by Shi Hao.

"Aocheng, you old thing, crawl out here right now! Now that I have descended, the first one I am settling things with is you!" Shi Hao shouted.

His voice shook the heavens, experts from all sides revealing expressions of shock. Aocheng was a tough figure, even after all these years, not many people dared scheme against him. Today, was there really going to be an exceptional expert that was going to face him?

Some people were inwardly anxious, feeling more and more fear towards Realm Sea. The monsters who came from there were too terrifying, each year, they were stronger than the last, frighteningly powerful.

However, Aocheng didn't appear. Even though this powerful expert came, his residence was still silent.

Hong!

Shi Hao descended on the ancient land Aocheng Immortal King resided in. This was a continent that had drifted for millions and millions of years. There was a city on it, inside of the city was an unrivaled dwelling.

Honglong!

That day, the giant city was destroyed. A large foot descended, crushing the demonic mountain-like city walls, as well as the city gate towers, destroying this immortal king city.

"Aocheng, get out here right now!"

Shi Hao shouted, entering the city.

However, Aocheng didn't come out.

Some people sensed that Aocheng wasn't here, or else how could he just submit to this type of humiliation?

"All those who stand in my path shall die!"

Shi Hao shouted. He saw that there were some who wanted to stop him, these individuals immortal dao experts. However, as a result, when he pointed out, streak after streak of light flew out, making these people explode in midair, bloody mist scattering outwards.

This was just too shocking, killing true immortals with just a point of his finger! No one was able to stop his advance at all.

"Who are you?!"

Someone with great authority and extremely noble status in Ao Family appeared. He was Aocheng's successor, as well as his only living son!

Aocheng was always nurturing him, wishing to push him into the Immortal King Realm, almost succeeding several times. However, that cultivation realm was too mysterious, always just a bit off.

"Aocheng's people shall die!"

Shi Hao shouted. He didn't care who this person was. All those who stood in his path and bore powerful hostility against him just needed to be decisively dealt with.

Honglong!

This person was extremely strong, daring to fight Shi Hao. However, he suffered greatly just from the first exchange, an arm cracking apart. Then, with a pu sound, it turned into a blast of blood.

"Ah..." He released a roar. His broken arm regenerated. He drew a weapon, attacking Shi Hao.

However, how could he be Huang's opponent? The ending was obvious. He was killed, his blood splashing across the immortal king manor.

"Aocheng, you old things, are you really not here?"

Shi Hao didn't slaughter the innocent, but he didn't let this manor go either. He directly charged in, sweeping everything he could bring with him.

"Immortal medicine, where do you think you are going? You can just follow me from now on!" Shi Hao's five fingers unfolded, restraining a stalk of long life undying medicine and seizing it.

There were too many divine things here, the value astonishing.

However, it was a pity that the dwelling in the very depths of the immortal king manor was closed, no way of opening it. Unless Aocheng died, even if an expert tried to forcefully activate this place, the entire dwelling would collapse. At that time, millions and millions of years of accumulation would go up in smoke.

"Where is Aocheng? Speak!" Shi Hao interrogated Aocheng's people.

That day, Immortal Domain was shaken. Someone took action powerfully, slaughtering their way into an immortal king manor. This was a huge matter!

It was because that was Aocheng's manor. He was one of the most powerful individuals, well-known among the immortal kings. Otherwise, how could he have remained powerful for so long?

Then, there were more details that spread, triggering a great commotion.

Aocheng's grandson and his only son were killed that day, truly horrifying. The one who took action was too domineering, actually daring to do this.

"Aocheng's grandson was a half immortal king, his only son even more formidable, inheriting his blood! However, they died just like that! Aocheng is going to go crazy!"

In Immortal Domain, all of the clans discussed this matter passionately.

In the end, news went out. Everyone knew where Aocheng was, where he headed to.

"Aocheng, Taishi and Yuanchu entered the Realm Sea!"

This information rippled throughout the world.

What did they go to the Realm Sea for?

Soon afterwards, there were secret rumors that spread.

Aocheng, Taishi and Yuanchu entered the Realm Sea to meet an old senior, wishing to guide him back, invite him into Immortal Domain!

Their expressions changed, all of them incredibly shocked. An old senior? Just what kind of status did he have, for even three great immortal kings to need to respectfully call him their senior?

"Aocheng, since you all headed to Realm Sea, then I will head there to kill you all by the Realm Sea, settle this karma!"

That day, Huang's voice transmitted out, causing mountains to collapse and seas to roar. He didn't hide his intentions, directly stating them, just too direct.

Then, he brought Grandpa Fifteen and A'man back to their residence, having them stay in A'man's master's land of seclusion, saying that they absolutely couldn't leave.

Shi Hao left. He was going to kill immortal kings, settle this karma to prevent those three great immortal kings from threatening the people at his side. He was going to settle this disaster with a great battle!

Chapter 1945 - Body's Sixth Secret Realm

Shi Hao left, decisively continuing on his way.

Behind him, Immortal Domain's undercurrents flowed, all clans discussing among themselves. Just who was this person? He took action so powerfully, attacked so domineeringly, actually not fearing three great immortal kings.

There were also those who wanted to figure out this creature's identity, but this was much easier said than done. When it reached immortal king level experts, it became extremely difficult to ascertain.

Cough cough cough...

A divination master continuously coughed out blood, his long hair immediately drying up and withering, even his body lacking his past life force, skin lacking luster, suffering a rebound.

This was still the result when he chose to stop ahead of time, or else the consequences would be too horrible to contemplate.

"Wu, there is something strange. Who is it that has established grudges with three immortal kings? When we think about it carefully, in the recent few great eras, there aren't that many people like this."

An immortal king said to himself like this. He was also wondering who this person was.

Someone of this level was extremely powerful, he naturally wouldn't pay attention to lower level cultivators, especially a youngster the three great immortal kings killed in the lower realm.

In the past, many experts already refused to believe that Shi Hao could achieve immortal king status. Even if the three great experts didn't head down to end him, he would still naturally be defeated himself.

Immortal Domain's giants didn't pay this matter too much attention back then.

Of course, there were still some who were careful, keenly sensing that things were too strange, that they really might not be able to evaluate it through normal reasoning.

"Don't tell me that a dead person revived!" Someone muttered, his entire body swirling with primal chaos. Then, he immediately became quiet.

Realm Sea, this place used to be an expanse of darkness.

However today, it became incomparably intense, no longer quiet anymore. Behind the dam, there were exceptional great battles that erupted, within each ocean spray was a ruined world, the scene astonishing!

Shi Hao arrived. In the past, when he came here, he had to be extremely careful. A single mistake and he might have died on the dam.

However now, he directly rushed in, gazing into the vast and boundless sea. This was a sea of the universe, when standing here, one would truly feel how insignificant one was.

Hong!

He had just approached this place, yet waves of powerful auras already surged over. There were creatures rising and falling here, standing tall, some facing each other in the sea. There were others who sat down on black ancient ships in the sea, not in a hurry to reach the shore.

Of course, the distance between them was comparatively further. For normal cultivators, this type of distance was an astronomical figure, difficult to travel through in their entire lives.

Shi Hao felt like there was someone giving him pressure. His body immediately flowed with brilliance, becoming extremely dazzling, instead sending the pressure right back. In this Realm Sea, one could only speak through strength.

The weak couldn't continue living here!

Normal people wouldn't enter the Realm Sea either.

That probing individual withdrew, sensing that Shi Hao was extremely strong. That type of aura had a penetrative force, not a pushover who could be easily bullied.

Realm Sea was also known as Burial Sea, because there were just too many powerful individuals who died here, ranging from true immortal to immortal king, unknown just how many passed away. No one could say for certain.

Realm Sea's origins were too mysterious. It led into the darkness and passed through the darkness lands, its limits hard to say.

From the past until now, just how many creatures have gone through this place? There were some who came to eliminate the source of the darkness, to pull it up by the roots, because the very source of the foreign realm might be related to that place!

There was another reason. There were people who wanted to become emperors!

It was rumored that in the very limits of this place, there were secrets of breaking through the Immortal King Realm, reaching a higher level of secrets.

From the past until now, immortal kings have always been the limit, the peak, there was no way of surpassing this realm. It has trapped even the most powerful and most stunning individuals.

noVE(lB(In

They were the people who stirred up waves in various great eras, unmatched Prides of Heaven. They experienced the rise and fall of great eras, deep and immeasurable.

At their level, their greatest desire in this life was to be able to go even further!

That was why from the past until now, it was unknown just how many people entered Realm Sea. There were also true immortals who wished to find an opportunity to advance into Immortal King Realm. Meanwhile, the powerful immortal kings all wanted to become emperors.

As for supreme beings, there were still those who came, but they all died in the end, none of them able to continue living.

However, once one entered the Realm Sea, there would be strange developments that took place, the most terrifying things that happened. There were some people who were still themselves and there were some people who changed, becoming strange and unfamiliar.

As for what happened in the great showdown, Shi Hao already guessed most of what happened!

However, he didn't think about it too much. Now, he only needed to continue one step at a time, make steady progress. When dangers and challenges appeared before him, he would just shatter them all!

However, he also sensed that the future would be incredibly difficult, that it would be a path filled with blood, or even more so a dead path. What should come would still come in the end.

He now entered Realm Sea to find Aocheng, Taishi and Yuanchu. However, the second reason was because he wanted to examine the dangers of this place, take a look around.

Hong!

Realm Sea's waves rushed into the heavens. A great wave erupted, an expanse of red appearing before Shi Hao's eyes. There was a scene of a great era falling, countless creatures withering.

Another wave rushed into the heavens. He saw an ancient palace that was grand and massive, flowing with chaotic energy. He immediately knew that this was Guidance Ancient Palace.

Shi Hao was inwardly shaken. He recalled the reminder of the future Cao Yusheng, to be careful of... palace.

Now, Shi Hao's cultivation was profound, able to fight against immortal kings, not fearing anything. However, he still felt some strange reactions that he had to ponder over.

Realm Sea was too large. Shi Hao swept his eyes over the ocean surface, not planning to head in too deep. It was because even after travelling an endless amount of time, he still wouldn't reach the limits, it wasn't time for him to make his way over yet.

He only wanted to find Aocheng, Taishi and Yuanchu.

Chi!

Shi Hao sat in the Realm Sea. He rose and fell on an ocean wave, his primordial spirit released. His body's five great secret realms shone, his head immediately surging with auspicious multicolored light, condensing a blurry object.

Ever since his ten great primordial spirits merged together, Shi Hao knew that the immortal king path was still continuing, that it wasn't as simple as just a normal breakthrough. It was because he sensed that he could still continue transforming.

He was bitterly pondering over a secret realm, the sixth secret realm after the Sea of Reincarnation in his abdomen, the internal organs' Dao Palaces, four limbs extremes, Dragon Transformation spine and the Immortal Platform head.

He felt like there were still paths to take, but even though his dao skill had already accumulated deeply enough, there was still a vital part missing for this secret realm, still a bit off.

Hong!

Suddenly, as if there was some type of reaction, many creatures in Realm Sea noticed there was something off with him. It was because the five secret realms were too resplendent, even more dazzling than the heavenly sun, illuminating the dark Realm Sea. There were some experts who saw this.

Waves reached into the heavens. In that instant, there were quite a few people exerting force, suppressing in his direction.

This wasn't a decisive battle, but rather all sides secretly using force to test him. They felt that his secret methods were quite profound, leaving them a bit shocked.

Shi Hao didn't pay them any attention. It was because at this time, he felt like the sixth secret realm was about to be created. If it succeeded, then his magical force would be boundless!

Waves surged, powerful killing energy pressing over. The most powerful creatures in Realm Sea were startled, suppressing towards Shi Hao, tacitly releasing power at the same time.

They felt like his state was strange. If he made some type of breakthrough it would be dangerous for them, there were already enough enemies in Realm Sea, ending his path could only be a good thing.

Shi Hao was instead excited and stirred up. His body began to tremble. This was a type of instinct, appearing because he was going to establish the body's sixth great secret realm.

In the end, the killing intent couldn't be concealed, precisely used to deal with him, suppress and kill him. Once those people displayed power, heaven and earth would collapse, ghosts and deities would weep and howl.

Dong!

Suddenly, heaven and earth exploded.

Shi Hao's five great secret realms shone, strand after strand of immortal dao essence rising from his body. They were accompanied by spiritual essence, condensing above his head.

This was especially the case when he exerted primordial spirit force, which was even more resplendent, as if everything was burning, shining in the Realm Sea.

"Sixth secret realm, take form for me!"

Shi Hao roared out, giving his all to cultivation, establishing the sixth secret realm in his body. He derived an unmatched road, establishing a brand new world for himself.

Before this, he had confidence in fighting against immortal kings because he had always defeated the strong as the weak.

However now, he felt another sense of calmness, obtaining tremendous confidence. Even if it was in terms of dao skills or magical force, he wouldn't be weaker than anyone else.

In this boundless world, he now had confidence in sweeping through all enemies!

Honglong!

It was as if a great era was established, as if an age was buried, as if the age of the heavens being created had arrived.

Above Shi Hao's head was a lump of light, surrounded within was a seated figure. It was impervious to all methods, invulnerable to all tribulations, everlasting and eternal.

This was the sublimation of the five great secret realms, the final leap. His body's potential interweaved with his spiritual force, jointly producing the sixth great secret realm!

This secret realm was not in his body, but rather outside.

On Shi Hao's head, that resplendent little figure was wrapped in raging flames. Upon closer inspection, these weren't flames, but rather the most powerful great dao symbols.

The symbols crowded around him, as if he was bathed in fiery light.

"Three feet above the head rests a deity!"

Shi Hao shouted, his voice ringing in all directions.

This was his own spirit, the essence of flesh and primordial spirit interweaving, the aggregation of the essence flowing from his five great realms.

The human body wasn't restricted to visible tangible forms, it also extended outside!

There were many great figures in Realm Sea who were alarmed. Those divine wills that were testing him and trying to suppress him were all pushed away.

Everyone sensed that a giant had emerged. This was a giant among immortal kings, terrifying without limit. If they randomly established karma with this type of great figure, the consequences would be too horrible to contemplate.

Even if they were against him, not many would be willing to directly face him head-on, thinking that it was still better to be a figurehead for others.

At this moment, Shi Hao gained many insights, truly entering the peak of Immortal King Realm. This was because his own great dao extended, advancing even further.

However, in this world, there was actually no thunder radiance that hacked down. He still wanted to temper himself further!

Why was this? He frowned.

"The cultivation system is too world shocking, this individual too strong. Even heavenly punishment knows that it is useless, not willing to test him with lightning tribulation."

There was an ancient creature who said this with a light sigh. He was incredibly shocked. When his eyes opened and closed, divine radiance was faintly visible.

There were some people who guessed at the reasoning, feeling more and more restraining fear.

Shi Hao closed his eyes, carefully examining himself. He discovered that now that he reached this level, if he didn't die, the realm closely related to himself could exist forever.

The place that he was born, that nurtured him, now that he was powerful enough, he could repay them all.

"There was this type of karma?"

However, he understood his own body. He walked the body as a seed path, broke free from the restrictions of heaven and earth, able to enter the endless domains in the heavens. Even if heaven and earth laws changed, it still wouldn't affect him much.

“Let’s make a trip back!”

Shi Hao made his decision. That world couldn’t restrict him, with his great dao path, there was no need to show filial piety.

However, Shi Hao still decided to go back, wishing to leave behind some traces, make that world more sturdy and imperishable.

Many immortal kings were doing their best to sever that type of connection to protect themselves, yet he was now doing the opposite.

Hong!

Immediately afterwards, Shi Hao left the Realm Sea, returning to the Nine Heavens Ten Earths. His body’s radiance illuminated the starry rivers in the cosmos, shining just too brilliantly.

This was the great dao, these were symbols, laws and order. Others couldn’t see him, only feeling like this power was extremely powerful, that the withered world was becoming stronger.

Shi Hao was fearless, not worried about himself. With the body as a seed, even if he helped this realm, he wouldn’t be restricting himself at all.

He already transcended this realm, his cultivation different, that was why this type of situation was produced.

The other immortal kings were worried. Others were trying hard to sever the connection they shared with a realm, yet Shi Hao didn’t feel any fear.

This realm, even though it was completely destroyed, he still wouldn’t be affected at all. Meanwhile, if he continued living, this realm would receive protection, not truly die out.

“He... returned!”

In the restricted regions, some creatures woke up, revealing expressions of horror.

Chapter 1946 - Settling Accounts With the Restricted Regions

“It’s him!”

Within a certain restricted region, there was an individual who sighed. He had previously done everything to cast a divination, paying a tremendous price to see a corner of the future, finding out that there was someone who surpassed the state of death to return.

He could only see a blurry scene. It wasn’t clear, only knowing that that creature was going to stir up heaven reaching waves!

However, who would have thought that the heaven’s fate he sensed, the corner of the future, when that individual’s true appearance took form, it would actually be Huang?!

It was him, he revived from death.

He originally thought that the one who revived from death would be an unrivaled immortal king, that one of history's most powerful creatures would revive and return. He never expected it to be someone from the later generation.

Now, Huang was standing in the skies, his entire body surging with great dao radiance. He was giving back to this world, resonating with this heaven and earth.

The cosmos where the Nine Heavens Ten Earths were was now already incredibly tattered, the world dim. The past great continents were already destroyed badly, the powerful creatures already residing on stars.

Shi Hao returned. He silently examined everything. Last time, his primordial spirit had been trapped in the ten reincarnation imprints, so he missed out on many places. Otherwise, he wouldn't have been in such a rush to enter Immortal Domain.

This world left him with too many memories. There were happy ones, sentimental ones, moving ones, bitter and sore ones. There were just too many things he experienced here.

"What about the lower realms' eight regions, where are they?" Shi Hao's eyes were brilliant.

The creatures in the past great restricted regions all already left that floating continent, entering some mysterious stars, separating themselves, cutting off their connection with the outside world.

The restricted regions were covered in dust, not affected by karma. They wanted to make it through these great chaotic times.

During these past five hundred thousand years, even though the Nine Heavens Ten Earths ruptured, they still existed, truly making it through. Of course, this was merely the beginning phase, it was unknown what was still to come.

At the same time, the rulers in the other restricted regions were all alarmed as well.

They sucked in a cold breath of air. Who was this? This was an incredibly powerful creature, actually giving back to this realm.

It wasn't everyone who could be like that restricted region lord, successfully carrying out a divination, moreover seizing the mysteries of heaven, restoring that scene from the past, knowing who came back.  
n(-σ//ν(-e-)I-/b.(1.(n

Only when Shi Hao coldly turned around, staring at a star, did the restricted region lord here shiver inwardly, seeing his true appearance.

This was what Shi Hao wanted to show him. It was because his killing intent was surging, unable to hold back from taking action. He wanted to unleash a great slaughter, not minding that the other party knew who he was.

"It's you!"

In the restricted region, that expert's entire body went ice-cold. He knew that things were not good. This was just too great of a karma! The past Huang didn't die!

A long and drawn-out bell sounded. He was calling on an ally. Otherwise, with just himself, he sensed danger. Huang's aura was too terrifying.

He obtained the magical artifact Without End Immortal King used to achieve the dao.

In reality, even without summoning it, in this damaged cosmos, the most powerful creatures had long woken. How could they not know that there was a terrifying existence who descended?

Shi Hao turned around again. His killing intent erupted with even greater ferocity, because he similarly hated the one there bitterly, unable to live under the same sky.

The place located in that direction, was naturally Fallen Immortal Ridge.

The area they were located on in the Nine Heavens Ten Earths had long been shattered. Now, they were hiding on a great star.

Fallen Immortal Ridge's clan leader's entire body went cold. He felt as if he fell into an abyss, his scalp going numb, feeling a wave of fear, his entire body shivering.

The karma he shared with Shi Hao was extremely great!

Hong!

At this time, Shi Hao descended. Surprisingly, it wasn't at Fallen Immortal Ridge, but instead at another great star. There were great bell sounds coming from it.

Fallen Immortal Ridge's clan leader shivered with greater and greater coldness, clearly sensing that this person wasn't letting him go, but rather leaving him for last, slowly settling everything!

That way, the ending might be even more cruel.

"Dao friend, after being apart for so long, the events of the world truly are hard to predict! Back then, I offended you, I am willing to offer compensation!"

Inside that star, someone spoke. The great bell sound was long and drawn-out, chaotic radiance surging. He was protecting this star.

"How are you going to offer compensation? Can you shoulder the consequences?!"

Shi Hao berated, his expression cold to the extreme. In the past, Ye Qingxian was blasted into a rain of light by this person, disappearing from this world.

Even though she said she didn't belong to this great era, that it didn't affect her life or death or her true self in the future, in Shi Hao's eyes, she was killed at that time.

Hong!

Shi Hao didn't hesitate, his entire body flowing with immortal king splendor, illuminating the undying, tearing across the cosmos, extending endlessly into the universe. He was the most powerful!

He arrived before this star with a single step. As for the long and drawn-out bell waves, it crushed this star domain, yet was completely useless against him, unable to injure him at all.

The sphere of light above Shi Hao's head scattered down radiance, a little figure seated three feet above the crown of his head taking in and sending out a rain of light. It spread throughout Shi Hao's entire body. He was unaffected by the natural laws and order.

Right now, the most powerful individual on this star couldn't do anything to him!

Peng!

Shi Hao's feet descended, his feet landing on this star. The extreme formation arranged here broke apart just like that, collapsing, revealing the true restricted region.

"Dao friend, what do I need to do to mediate this?"

This person was shaken because Huang was just too strong. This was simply an unrivaled giant who overlooked past, present and future. How many of them existed in this world?

He definitely wasn't a match.

"You can just face tribulation." Shi Hao only had these words, his killing intent unchanged.

At the same time, he formed a fist imprint, smashing forward murderously.

The lord of this place was furious. He knew that it was useless no matter what he said. He could only fight, go all out.

In that instant, immortal radiance shone resplendently, becoming dazzling to the extreme. This sea of stars was submerged just like that!

However, this couldn't change anything. Shi Hao's fist smashed through all laws, crushing down. With a dang noise, Without End Immortal King's great bell was smashed aside.

Shi Hao didn't intend to destroy this bell, leaving it behind to gift it to the little dog.

The great bell flew out, crushing an expanse of the starry sky.

However, Shi Hao's eyes swirled, that area of the heavens freezing. Then, the shattered stars were all restored, returning to how they were.

Pu!

The lord of this place spurted out blood. He was brushed by the fist radiance, but it felt as if several immortal kings struck him at the same time, almost making him explode on the spot.

Hong!

Finally, Fallen Immortal Ridge's lord came. He couldn't hold back from taking action. He wanted to run as well, but he discovered that Shi Hao had long sealed up that region. As long as it was touched, Shi Hao would attack him at full force.

Right now, the best choice was to join forces with an ally, only then was there hope of surviving.

Unfortunately, even if they estimated how powerful Huang was, they still underestimated him a bit. Shi Hao was impervious to all methods, they couldn't break through that barrier of light.

Huang directly smashed through the two experts' various great dao symbols, closing in step by step.

Peng!

When Shi Hao brandished his fist again, they faced it, but were forced back. Blood flowed out from the corners of their lips. They weren't a match at all.

This made the experts of the other restricted regions couldn't help but suck in cold air. Just what kind of methods were these? His magical force was unmatched, truly able to dominate the heavens!

This was an unrivaled giant!

"Let's end this!"

Shi Hao roared out. Between his palm and fingers, sword radiance took in and sent out energy, primal chaos swords flew out, directly hacking over.

Pu!

The restricted region lord who previously obtained Without End Immortal King's large bell was hacked in the shoulder by Shi Hao's swords, drenched in blood. He discovered that it was difficult for him to heal the injury, stopped by a dao scar.

"You..." He backed up.

However, the space between his brows split apart. Sword energy surged there, carrying endless annihilation force. Even though he was the most powerful expert of a restricted region, he still couldn't stop it.

This was the sword intent of an immortal king, the sword radiance produced by Shi Hao's six great secret realms. Right now, he didn't hold back at all, releasing overwhelming power, directly destroying this person.

"I can't accept this!" He roared out.

Regardless of whether it was a Vicious Ten level existence or an immortal king, it was difficult for them to die. The former had miraculous bloodlines within them, so once they erupted, they would become terrifying beyond compare.

For example, the Heavenly Horned Ant, he was the one with the greatest strength. Once he went berserk in this world, not many could compete against him in this domain, making all enemies feel restraining fear. At the same time, his vitality was boundless.

As for immortal kings, there was even less of a need to talk about them. Truly killing them was too difficult, needing many methods and great preparation.

However now, this normal reasoning was shattered. Shi Hao's six great secret realms shone at the same time, hacking at him just like that, turning him into several chunks.

"I won't die!" He roared out. Even though his primordial spirit was penetrated, he still continued to fight, wishing to tear apart the void and make his way through.

Pu!

How could Shi Hao give him this chance? A palm descended just like that, making his ruined body and soul explode on the spot, turning him into a rain of light.

Then, the rain of light turned to ashes, covered by Shi Hao's palm, everything erased.

During this process, Fallen Immortal Ridge's lord took action several times, but it was completely useless. Shi Hao's other hand stopped him, blocking him to the side, preventing him from rushing over.

"Dao friend, I wonder what kind of conditions are needed for us to overlook today's matter?" Fallen Immortal Ridge's lord said.

"Death!"

Shi Hao only had this single word, just that simple. He wouldn't let these people go no matter what. Destroying the little pagoda's body, stealing it, this was a grudge that was impossible to mediate.

If he left this person alive, it would instead bite him back in the future.

Hong!

Fallen Immortal Ridge's master activated that ruined pagoda. It was snow-white like jade, releasing dazzling radiance. It was a two-layered bone pagoda, suppressing towards Shi Hao right now.

However, this battle long lacked all meaning. Fallen Immortal Ridge's master was suppressed. In the end, Shi Hao's other hand subdued him, preventing him from moving, moreover made him show his original form.

This was a Hou, its entire body covered in golden fur, sinister and massive, too large. Its blood energy surged into the heavens.

Shi Hao's eyes flickered coldly. He didn't immediately take action, instead carrying out a suppression of the spirit. He was going to refine this great figure.

Peng!

The golden furred Hou trembled. It released a roar, struggling intensely.

However, all of this was futile. In the end, Shi Hao instead sat on its body, crossing the starry sky just like that.

He was repaying this world and also searching for the lower realms' eight regions. Was that place destroyed?

Weng!

Shi Hao refined the two layered-bone pagoda, placing it into the Immortal Gold pagoda, merging it with that bone pagoda. He was going to keep it on him to gift it to the little pagoda.

Eventually, Shi Hao found the lower realms' eight regions. He released a light sigh. It was just like the Nine Heavens Ten Earths, extremely ruined, many places turned to scorched earth. His gaze was terrifying, horrifyingly cold.

In reality, this region was attached to the Nine Heavens Ten Earths. Now, it was connected to it as well.

What was left behind in the past, what was still left now? Shi Hao's eyes turned red, unable to resist an urge to roar into the heavens.

Stone Country was in ruins, Fire Nation razed to the ground, the great wilderness in pieces.

There were still creatures that were alive, but the population declined steeply, not even enough to form a city.

He really wanted to release a great roar, but he couldn't. With his cultivation, a single act of carelessness and this ruined world would ultimately shatter.

"Wait for me to come back. I am going to settle things with some people first, and then I'll hold a memorial service for everyone!" Shi Hao said. He was searching, looking towards the past graves.

If it wasn't for him sealing Stone Village before and moving it away, leaving it in the bronze coffin pulled by the nine dragons, there would definitely be nothing left.

"Void God Realm?!"

Void God Realm had long shattered, it now only had ruined parts remaining. Shi Hao trembled inwardly. The space between his brows shone, sweeping through the ruined region. He was moved, even the past Void God Realm's cage was destroyed!

"Fine, I'll just settle everything later." He was worried about Bird Grandpa and Coin Elder. At the same time, he was also thinking to himself, just who was it that broke through those prisons?

He left, wishing to enter Immortal Domain again. It was because of the so-called showdown, the great battles were in Immortal Domain, the foreign realm and the Realm Sea. There weren't many clues left even if he stayed behind in the lower realms.

After repaying this realm, this world developed a wave of life force. At the same time, the great dao imprints were brilliant, showing signs of revival.

In that instant, Shi Hao felt like doing this not only brought himself nothing bad, it was as if he returned a tremendous instance of karma.

Hong!

That day, Huang entered Immortal Domain. He rode on a golden furred Hou, an immortal king level existence treated like a mount. He charged in just like that.

He was going to settle things, settle the karma with Aocheng, Taishi and Yuanchu.

Chapter 1947 - Huang's Return

Aocheng, Taishi and Yuanchu returned from the Realm Sea. That old ancestor didn't follow them back. The moment they returned to Immortal Domain, they sensed that something wasn't quite right.

The three experts sensed something strange. There should be some kind of karma swirling that was related to them?

“Not good!”

Aocheng released a low roar. He tore apart the cosmos, disappearing from the borders of Immortal Domain, quickly returning to his clan.

Realm Sea was too vast, who knew how much distance there was between that place and Immortal Domain. Even if their cultivations were heaven-defying, there was still no way for them to sense what happened with this much distance between them.

Within Immortal Domain, some ancient inheritances had experts who woke up. They all had strange expressions on their faces, waiting for Aocheng to go crazy.

A moment later, a heaven shaking earth moving great roar sounded. Aocheng completely lost control, his voice making the cosmos he ruled tremble, all of the stars in the sky shaking.

If not for him intentionally controlling himself, all of the stars in the sky would explode. Endless primal chaos and immortal energy spread, drowning out the heavens, the aura extremely terrifying!

It was as if the universe was destroyed, as if the entire world was being recreated!

It had already been many great eras since Aocheng became an immortal king, he was a true ancient existence. It was normally rare that he spoke. At his level, tens of thousands of years would often pass without him saying a word.

However, he now went crazy, heaven and earth shaking. His voice was terrifying, hard for even the true immortals to endure, feeling the urge to kneel.

“Who was it?!”

He roared out. Who was the one that did this? Even now, no one from Ao Family knew.

The rage of an immortal king made heaven and earth tremble!

Aocheng personally carried out a divination. He was going to find out who this enemy was, and then personally cut him down.

“I don’t care who you are or where you are, you will die. From past until present, all those who have made me their enemy eventually disappear!”

Aocheng even spoke this type of fierce words, so one could see just how angry he was. Immortal kings didn’t tell lies, they didn’t easily make vows. Once they uttered them, then they would become natural laws, doing their best to complete what they said.

Sure enough, heaven and earth changed, immortal light swirling about here. All of the stars in the cosmos were resonating, flickering with the most powerful great dao symbols, law decree imprints appearing in the world.

Unfortunately, he just couldn’t deduce who it was. Once it touched upon the immortal king level, moreover sharing great karma with him, this would become extremely difficult to predict, not even someone as powerful as him enough.

This made Aocheng even more resentful. Someone killed his heirs and destroyed his manor, yet he couldn't even find out who it was.

In this world, the most ancient group of creatures were all watching from the sidelines. It wasn't often that Aocheng suffered like this, so they found this scene quite amusing.

"Which scoundrel is it who killed my Ao Clan's lineage? Drag yourself out here right now!" Aocheng roared. He really lost control.

In Immortal Domain, around the border region, Shi Hao took the immortal ascension path again. He spurred on a Golden Fur Hou, entering this boundless world.

The rulers of a restricted region, normally speaking, they were still a bit inferior to a true immortal king, but the difference wasn't that great. Some people had flaws in their dao fruits, some of their strength close to immortal king level, pretty much considered entering this domain.

Of course, once one's strength reached that level, the difference minute, being called experts of the Immortal King Realm wasn't really wrong.

The Golden Fur Hou was incredibly sullen. It was previously the glorious lord of a restricted realm, someone who looked down on the world, yet today, it ended up in this type of state.

It wanted to commit self-destruction, but couldn't do so. It wanted to resist, but its body didn't listen to it. It was because right now, its primordial spirit was trapped, its entire body half refined.

This wasn't its will that was moving. If it really had freedom, it would have definitely fought to the end, destroying indiscriminately until its own body and spirit perished!

This type of humiliation was impossible for it to endure. How could he be willing to serve as the mount of another?

However, the other party's primordial spirit was too powerful, even stronger than the old monsters who had lived for many great eras. This was definitely a giant who could look down on Immortal Domain.

How could it be like this? It found it hard to believe even now. The past young cultivator had clearly been killed by them, but he actually revived again.

Endless immortal energy surged. The Golden Fur Hou became momentarily absent-minded. How many tens of thousands of years has it been since it returned? Even though it was turned into a slave, suppressed by others, its emotions were still complicated.

During the battle back then, their interactions with the creatures of darkness were too great. There was even a sea of darkness matter accumulated within it, impossible to get rid of, so it wasn't allowed to return.

From this, one could see that they were a bit weaker than the most powerful immortal kings in Immortal Domain. Otherwise, if they were strong enough, who could stand in their way?

Now that he returned again, the Golden Fur Hou's eyes erupted with radiance. It wanted to kill Shi Hao, end him here.

After all, it returned to its homeland. If it was humiliated like this and seen by people who recognized it, what face would it have left?

Did it feel regret? There was more or less a bit!

What it regretted wasn't making Shi Hao its enemy, but rather that it wasn't decisive enough. It should have destroyed his corpse, even if it ended up offending Pan King by doing so.

Who would have thought that even after three great immortal kings examined it at the same time, ensuring that Huang's primordial spirit scattered, he could still survive in the end?!

This didn't make any sense at all!

It knew that Shi Hao had some old freaks at his side before. Even though they were already ruined, their methods were heaven-defying. It didn't have confidence itself, so that was why it secretly informed the three great immortal kings.

Only when the old freaks at Shi Hao's side were all destroyed did it feel at ease. However, what was the result?

Roar!

The Golden Fur Hou released a low roar!

"Yi, what a familiar fluctuation. Who is it that returned?" There were experts from ancient inheritances who opened their eyes, staring in this direction.

At the same time, Aocheng was still going crazy, declaring decrees. That area of the great cosmos was surging, great dao symbols filling the sky, surging with his will.

"Aocheng, stop shouting already. This one has come to kill you!"

Right at this time, a cold voice sounded from the edge of Immortal Domain, immediately startling all of Immortal Domain. All cultivators were shocked. They knew that the main character had appeared.

This time, Shi Hao didn't hide in heaven's fate, coming out in a glorious manner. It was because Aocheng appeared, so there was no reason for him to hide his true self anymore.

At the edge of Immortal Domain was a massive ancient beast, its entire body covered in long golden fur, wide mouth full of fierce teeth, incredibly sinister looking. However, from another perspective, it also looked valiant.

"Hou Clan's lord?" Many people were shocked, seeing what kind of giant beast was approaching.

"It can't be. It is powerful, but it doesn't dare challenge Aocheng, the difference is too great."

There were some people who were doubtful.

"Look, there's someone on its back!" An expert said.

It wasn't that they didn't look carefully, but because Shi Hao was too strong, merging with the great dao, wrapped within chaotic energy, becoming a part of heaven and earth.

If they looked carefully, they would find that he had transcended beyond the world.

It was because he walked the path of body as the seed, didn't need to fear anything no matter where he went. Even if the natural laws of the world changed, he would still be the same.

"This person, how can he be so young?!"

There were some people who said this quietly. The young they were talking about wasn't only his appearance, but also the surging vitality that was different from the endless years behind those with great dao skills.

Comparatively speaking, those who became immortal kings at hundreds of thousands of years or millions of years, it wasn't that they absolutely didn't exist, but they were too rare. They had previously appeared before, but they all passed away in the end.

Today, another one appeared. Who was this?

He dared challenge Aocheng, Taishi and the others!

"What?!"

There were finally people who recognized Shi Hao in Immortal Domain, immediately becoming shocked. How was this possible? A dead person appeared again!

One had to understand that back then, there were there great immortal kings who took action, dealing the decisive blow. How could he possibly reappear in this world?

The most terrifying thing was that he broke through into the immortal king level. This really was beyond terrifying!

Aocheng was also stupefied, finding this a bit hard to believe. Huang, a small cultivator who left a bit of an impression in his mind, didn't this person die?

In his mind, this wasn't someone who was a great threat at all, someone he could kill with just a raise of his hand, completely obliterated to prevent future disasters. Who would have thought that this person would reappear?

Roar!

Aocheng released a great roar, his head of hair flying about. He was angry. That low level cultivator he killed in the past actually rose up, killed his children, destroying his manor. How could he not go crazy?

At the very least, in his eyes, this was a provocation towards him as an immortal king, a type of humiliation.

"Huang, so it was you, you haven't died yet. Today, I will take your severed head and suppress it for all of eternity!"

He released a great shout. There were some words he didn't speak, because they didn't match his status. He wanted to say that this time, it would be difficult for Shi Hao to die even if he wanted to, that he was going to be suppressed for all of eternity, his soul refined.

His great roar shook all directions, everyone hearing him, knowing who it was that appeared!

“Heavens, Huang, that human from five hundred thousand years ago?”

“Impossible! Didn’t he die? He could still defy the heavens and return?”

“What did I hear? Aocheng called that youngster Huang! This doesn’t match normal reasoning, right?”

The group of people were all shocked, the cultivators of all clans stupefied, all of them completely stunned.

All those who understood the past felt like this was a bit absurd. Not even three great immortal kings were able to kill him, allowing him to return alive after five hundred thousand years?

Of course, there were also many who didn’t know what happened. They were cultivators who only appeared in the recent hundreds of thousands of years. They asked the others around them about the situation, all of them becoming stupefied in the end.

Under the collaboration of three great immortal kings, Huang was killed. This was something the entire world knew about. Huang died! Yet today, Immortal Domain was thrown into chaos, all sides alarmed, erupting into commotion.

“It is precisely me! I have come to settle things with you. Aocheng, hand over your life!”

Shi Hao shouted out, his voice rumbling, shaking the starry sky, ringing in all directions.

It really was Huang! After this was ascertained, the effects were just too great.

There were several creatures from the Realm Sea who had just entered Immortal Domain. Not long ago, they had just sensed that someone established a new system in the Realm Sea, leaving them extremely shocked, still wishing to see who it was. Unfortunately, that person quickly vanished. They never expected this person was named Huang, now appearing again, wishing to kill Aocheng Immortal King!

“Ah...” Within Ao Clan, someone released a great roar, feeling too much grief. It was actually Huang who killed so many of their experts.

“This little scoundrel, just how did he defy the heavens?” Taishi and Yuanchu were also speaking quietly.

There were many people who felt excited and stirred up, these belonging to the younger generation. They were hoping to see someone who rose up later defeating the old immortal kings.

Immortal Domain was in great chaos.

The effects of this matter were just too great.

“Huang, it’s actually Huang! He is still alive, he appeared again!” This was Ten Crown King. Right now, he was standing on a star, a bit stunned.

Only this type of earth-shattering thing could make his expression change.

“Heavens, this fella is still alive? This is too awesome! I thought that we were already parted forever by death, that I could never see you again! His life really is tough!”

This was Princess Yao Yue's voice. Her long dress fluttered about, beautiful eyes flickering with radiance, extremely shocked.

"Huang, you are the most powerful after all, no one from the same generation able to face you. Are you now going to set your hand against the immortal kings?" This was what Great Xu Tuo said with a light sigh.

At the same time, Chang Gongyan, Little Sky King, Lan Xian, Shi Yi, Tuogu Yulong and other cultivators from the Nine Heavens Ten Earths all became like statues, completely stunned.

Huang was actually able to reappear again!

"Wu... this fella was still alive, really... this really is too great... this is supposed to be a happy thing, so why am I crying? Wuwu... Huang really is too pitiful."

The Lunar Jade Rabbit was still alive, unable to stop herself from sobbing.

"It's you, you... are still alive!" A white-clothed beauty shed tears. It was precisely Qing Yi.

"Master, is it really you? Ah!" The crimson dragon and others shouted. They were on Pan King's star system, these years spent too miserably for them, always hiding, not daring to leave.

"Haha... This is great! Kill, get rid of that old thing Aocheng! It's about time for us to see the light again! Refine an immortal assembling flag, we are going to march through the world again!" The Divine Striking Stone screamed.

#### Chapter 1948 - Fighting Three Great Immortal Kings

Some old friends appeared. After lying low for all these years, even though they had Pan King watching over them, always residing in the cosmos he ruled, they still didn't dare act recklessly.

It was because Aocheng, Taishi and Yuanchu's clansmen always tacitly agreed to kill them after they went from the lower realm into Immortal Domain.

These were but three great immortal king families, who dared block them? Once one of them took action, there was nothing they could do.

Pan King was extremely strong, Hunyuan Immortal King had also issued a warning, and only then did the people of those three clans not dare act too intensely. They only dared take action viciously if they encountered each other in secret.

These weren't battles at the Immortal King level, so Pan King and the others couldn't really directly interfere.

When Mu Qing and Stone Clan's disciples heard Shi Hao returned, how could they not be happy? They were all smiling, tears flowing out.

These years had been quite bitter. Perhaps after today, they would see the light of dawn again!

They understood Shi Hao's nature. Since he took action like this, challenging Aocheng, he definitely had confidence, at the very least had certainty in getting away. There wouldn't be any tragedies that happened.

By the edge of Immortal Domain, Shi Hao sat on a Golden Fur Hou, stepping on the starry domain, carrying chaotic energy, approaching this place step by step.

This produced shocking effects. This was but a vicious beast overlord who was comparable to immortal kings, he had lived for an endless amount of time, known as Hou Clan's master! Yet today, he became someone's mount.

Who wasn't scared when they saw this sight, who wasn't shaken? The cultivators of all clans were shaking in fear. To take an immortal king as a mount, how great of a move was this?!

Aocheng's face sunk. In the past, this Hou also joined the attack on Shi Hao, yet now, it suffered this type of end. Was this a type of initial display of strength from Huang?

"Today, you are going to die a second time. If you can defy the heavens again, I don't mind killing you once more!" Aocheng's cold voice rang through the starry sky.

"Old thing, can you stop speaking nonsense? Today, I am going to take your head and use it as sacrifice for my Imperial Court!" Shi Hao said with a sunken voice, his aura swallowing up mountains and rivers. He sat on the Golden Fur Hou's back, his body releasing terrifying immortal mist.

Above his head, a sphere of light swirled about, on it seated a little figure. There was a deity three feet above his head!

The sixth secret realm of the body, after it was established, it produced his own deity!

There was this type of little figure seated there, releasing light, as if it illuminated the past, present and future. It was impervious to all methods, dominating past and present, as if it came from the great river of time itself.

At this moment, Shi Hao gave one a type of misconception, as if he didn't belong to this world, didn't belong to this segment of history, as if he was someone who arrived after crossing the long river of time.

He was an unrivalled expert, a giant among immortal kings!

How was this possible? Many old freaks couldn't understand this. Huang was so young, how could he have such a terrifying aura? All of them felt great apprehension.

The Golden Fur Hou stepped forward again. It looked dispirited, but whenever it took a step, a star system would disappear. Soon afterwards, they approached the cosmos Aocheng Immortal King was at.

"Hah, haha..." Aocheng laughed loudly and said, "How long has it been since someone spoke such words to me? All those who challenged me back then, mortal, immortal, kings, all of them died!"

He rose into the sky. How many years had it been since he released this type of killing intent? Right now, this expanse of the cosmos was shaking intensely, already about to explode.

Aocheng was furious. Being challenged like this tarnished his dignity. He was an unrivaled being, had an illustrious reputation among immortal kings. Rarely did people dare provoke him.

Honglonglong!

In that instant, tens of thousands of great stars cracked apart above his head, and then they exploded, the scene horrifying. This was caused by his aura.

However, immediately afterwards, the sea of stars in the sky and all of the cosmos dust recombined, gathering together, becoming great stars once again.

At this moment, life and death, natural luck, all of it rose and fell with his mood. Even the souls of true immortals trembled when they saw this.

Hong!

Shi Hao arrived. He sat on the Golden Fur Hou's body, coldly looking at this person. Back then, he was killed precisely by this person, and there was also the grudge of Imperial Court's collapse.

"Huang, you were merely a younger generation, yet you really were allowed to rise up. Today, I will kill you once more!" Aocheng Immortal King's voice was ice-cold, lacking the slightest trace of emotion.

Chi!

He directly took action. Between the palm and fingers, stars swirled, the cosmos was annihilated, splitting heaven and earth.

An expanse of cosmos was clasped in his hand, containing endless stars, well-known immortal mountains. With a turn of his hand, he wanted to seize Shi Hao, suppress him within, directly refine him.

Peng!

Towards this, Shi Hao only reached out a finger. A streak of light flew out, shattering the everlasting. The stars in that large hand exploded, turned into dust, the universe in the palm cut apart.

Hu!

Aocheng's gaze turned ice-cold. He struck out with a turn of his hand, an expanse of cosmos descending. With a wenglong noise, Shi Hao was covered, trapping him inside.

"Do you think I am an ordinary true immortal? I am immune to all tribulations, eternally imperishable. You can forget about using such small tricks." Shi Hao said coldly.

He didn't move. When his large hand descended, resplendent radiance instantly erupted. This included lightning, flames and sword energy.

They were already indistinguishable. At this level, all types of power could mutually operate, merge together. Of course, there were still points of emphasis.

Shi Hao's aura erupted. He sat on the Golden Fur Hou's body, figure tall and unmoving. However, endless great dao laws interweaved, turning into waterfalls of thunder that crashed in all directions, blasting open the universe in that palm.

"Kill!"

Aocheng Immortal King roared out, his head of hair flying about like brilliant and resplendent strands. His eyes were deep like a sea. He moved, forming an imprint, slaughtering his way forward.

He was someone at the absolute pinnacle, an immortal king! When he took action, that type of scene was unimaginable, even more terrifying than the creation of a world.

The entire world, the past, present and future began to stir about. The long river of time wrapped around his body, space covering his body. It was as if he was going to make this world burst, and then reforge this cosmos.

That massive magical projection was incomparable, matchless and unrivaled. Compared to him, the Golden Fur Hou really wasn't enough!

Honglong!

Aocheng Immortal King attacked, making heaven and earth collapse, even the river of time was about to break.

Kill!

Shi Hao released a great roar, his figure leaping out, leaving his mount. His massive magical projection appeared as well. That figure was terrifying beyond compare, behind him was the void figure of the nine heavens. An immortal king approached nine heavens!

This was a magical projection which also carried irregular scenes, impossible to match.

His figure towered there, breaking through the restrictions of the cosmos, as if history's largest two war deities smashed together, just too shocking.

Dong!

Between the two, life and death auras spread. The radiance of reincarnation swirled, as if it could really make one return to life once more. This was the bizarre scene brought about from a great decisive battle.

In a flash, it was as if a dao gate opened, able to bring one into reincarnation. n(-o-(v/-e/.l-.l-.l)-n

"Kill!"

Between the two, there were who knew how many divine chains interweaving, tangling about each other. Millions and millions of streaks of light were released, every single one able to tear apart the cosmos, become everlasting.

The battle was intense, incredibly terrifying.

This battle shook all of Immortal Domain, shocking all creatures.

Aocheng was one of the best among immortal kings, long standing at the pinnacle. However, he was stopped by this youngster, unable to immediately kill him.

Hou!

After a great roar, blood scattered out. Blood leaked out from Aocheng Immortal King's palm. His magical projection also became unstable from Huang's attacks, the massive figure smashing apart the cosmos.

Qiang qiang qiang!

Millions and millions of streaks of sword radiance erupted. It was just too dazzling, as if all of Immortal Domain was being recreated once more. This was Aocheng Immortal King's dao achieving great method, his unique secret technique.

It was as if there was a layer of dazzling feathers on his body. He became a divine bird, spreading its wings and rising straight up.

In reality, those were sword feathers formed from immortal swords. They covered his body all over. With a light shake, millions and millions of strands of sword energy hacked out, the entire world about to be destroyed as a result!

"AH...!"

Following a roar, Shi Hao's black hair flew about randomly, his eyes cold like lightning within an icy cave, bone chilling. The little figure above his head scattered down an endless rain of light, covering him within.

Impervious to all methods, this was still relative. When facing such a vicious attack from Aocheng Immortal King, there was sword energy that rushed over.

However, Shi Hao's body was still fine. He delivered a powerful counterattack, every single pore in his body releasing sword radiance. Looking at it from the distance, it was as if he turned into a sun, there were killing techniques all around him!

Honglong!

Heaven and earth split apart, even the cosmos here about to be destroyed.

There were some immortal kings who immediately took action, isolating that place, not allowing the shockwaves of the battle to reach further.

Zheng zheng zheng...

Chaotic sword energy surged, hacking about!

Everything between the two was resplendent, submerged in sword radiance.

Aocheng Immortal King was like a divine bird, sword wings on his back, shaking the world. Even the skies were even about to be cut apart, about to be hacked open.

Shi Hao was like a blazing sun, his entire body dazzling. Millions and millions of strands of sword energy shot out from his pores, filling everything, nothing they couldn't kill, nothing they couldn't pierce!

Pu!

In the end, Shi Hao's shoulder released blood. It was pierced straight through by sword energy. This was a vicious blow from an immortal king, extremely deadly, hidden within the millions and millions of strands of sword radiance, aiming at the space between his brows. However, it didn't hit his head, only his shoulder.

“Ah, not good!”

“Huang!”

There were people who shouted out in alarm from all different places. The Heavenly Horned Ant, Qing Yi, Lunar Jade Rabbit, Mu Qing and others were all extremely nervous, their hearts pushed to their throats. They were too worried, incredibly scared.

It really was extremely frightening. They were scared that he would die again.

Pu!

Sword energy swept out. Aocheng Immortal King staggered backwards, his body covered in blood. He clutched his neck, his pupils rapidly contracting.

That streak of sword radiance before was dazzling and brilliant like the heavenly sun, removing his head!

Just how serious and terrifying of a thing was this? There was someone who could actually take Aocheng’s head! How many tens of thousands of years has it been since another creature could injure him?!

In the end, Aocheng was still one of the best immortal kings. He immediately returned his head to its original position, connecting it to his neck, displaying a great method to quickly restore his condition.

This was the scene everyone saw. He clutched his neck, blood gushing out of there.

“Heavens, just now, Huang removed Aocheng Immortal King’s head!” Someone said in disbelief.

An immortal king had his head removed, blood gushing out. Just how huge of a matter was this? It was incomparably shocking. The experts of Immortal Domain’s sects were all stunned.

Hong!

In the void, a fist smashed down, sparkling like jade, resplendent like morning sunset clouds. It rushed at Shi Hao’s skull. It was Taishi Immortal King who arrived.

Peng!

There was a large foot that descended from the heavens, stepping towards Shi Hao, arrogant and domineering. Yuanchu Immortal King also arrived!

Ever since they knew that it was Huang who returned, these two’s expressions already became fierce, always paying attention. The later events simply left them in disbelief. Aocheng Immortal King actually lost!

That was why these two took action, really unable to sit still anymore. Just how many years had passed? Five hundred thousand years passed, yet not only did this young cultivator cross the barrier of death, returning to life, he could even fight against them now!

“Three old things, just come at me together!” Shi Hao roared.

That sphere of light above his head became even more resplendent. After taking in a breath, even the cosmos swayed. His killing intent overflowed into the heavens, facing these two great kings.

Dang!

His fist faced a fist, fending off Taishi Immortal King. He avoided that leg, and then lightning surged, completely smashing over, submerging that distant place.

“All of you back up, I will kill him myself!” Aocheng Immortal King said.

He was an immortal king, moreover known to be someone at the very peak, standing at the summit of cultivation. Today, he was fighting against a later generation, yet he still needed others to help him? He couldn't accept this!

“Old thing, you still vainly want to kill me?” Shi Hao released a great roar. A river of stars immediately rushed out from his mouth, turning into a sword core. It swirled like a True Dragon, hacking forward.

At the same time, he formed a fist imprint, smashing towards the two other great immortal kings. He really was going to fight three immortal kings alone!

Dang!

Aocheng Immortal King moved his sword wings, wishing to destroy that sword core. However, he discovered that this sword core was made from innate primal chaos essence energy, neverending, difficult to completely get rid of.

At the same time, Shi Hao's fist imprints were unmatched. They smashed through the cosmos, smashing towards Taishi Immortal King, actually forcing him back.

Hong!

The little figure above Shi Hao's head shone, actually flying out, leaving his body to attack Yuanchu Immortal King.

This wasn't just pure spiritual force. This so-called deity was formed from merging the five great secret realms, his own deity.

Peng!

Yuanchu Immortal King's arm went numb. He thought that this was a primordial spirit, so he sneered, wishing to suddenly display a vicious blow, directly destroy it, but in the end, he discovered that he couldn't do anything to it.

A world shocking battle erupted. Shi Hao attacked, attacking three great immortal kings at the same time. This left all of Immortal Domain shocked. Just how domineering and powerful was this?

“A giant has risen up!” Someone said with a light sigh.

Honglong!

The battle was too intense. Immortal light surged, mists spreading, this scene shocking.

Several people produced magical projections, long tearing apart the great cosmos. They stood tall in outer space, fighting crazily.

“Huang, hand over your life! Back then, we were able to kill you once, today, we can still crush you. You are nothing more than someone from the younger generation!” Yuanchu said coldly.

What he got in reply was Shi Hao’s tyrannical method. This time, his six secret realms shone at the same time, the inside of his body resonating with the outside, merging together.

The figure on the head shone, scattering out radiance, wrapping around his body. The inside and outside of his body were connected just like this.

Hong!

Shi Hao’s palm shone, striking over directly just like that.

This was the joint force of the six great secret realms. They merged together, releasing the most powerful attack.

Rules, laws, great dao, all of it rumbled together, extremely dazzling.

Pu!

Yuanchu Immortal King coughed out blood. He was sent flying, his entire body covered in cracks, suffering serious injuries.

“How is this possible?” The old monsters of all sides were shocked.

Huang, was he going to defy the heavens? He was surrounded by three great experts, yet he was actually still able to seriously injure one of them! How terrifying was this?

“Kill!”

Shi Hao shouted out, his eyes turning red from fighting, hair dishevelled. He rushed at Taishi Immortal King, spurring out sword energy, hacking apart the everlasting.

Pu!

Taishi Immortal King’s arm left his body, massive to the point where it was even larger than a starry river. It fell, smashing apart a large expanse of stars.

The immortal kings of all sides shivered inwardly. Just what kind of method was this? Even when facing three great immortal kings, he could still seize the advantage?

“Radiance everlasting, shine through the universe!” Aocheng roared. When it was just one on one, that was one thing, yet even though three great experts took action at the same time, they still suffered this type of defeat, it really was too humiliating!

In that instant, only a streak of light remained in this world, it was formed from the unmatched divine abilities of Aocheng Immortal King. Darkness obliterated, primal chaos split, unstoppable.

“Kill!”

Shi Hao still resonated the six great secret realms, divine radiance endless, gathering together. Then, they formed a sword core, appearing in his hands.

At the same time, a wave of strange symbols extended, interweaving on that sword core, making his power increase many times again. This was his third type of innate precious technique, produced from his supreme being bones. Now, it was completely comprehended by him, merging into his own cultivation system, becoming terrifying beyond comparison.

This was too domineering! On his original foundation, his strength rose rapidly once more!

Chi!

A streak of sword light hacked apart Aocheng Immortal King's endlessly resplendent sphere of light. This time, his head flew again. Moreover, Shi Hao closed in, attacking with all of his strength.

Pu!

Aocheng was furious. He wanted to recreate his body, but that sword energy was too terrifying, hacking him apart at the waist again, immortal king blood dyeing the cosmos red.

"You..." Taishi and Yuanchu were shocked and furious, incredibly worried. They took action together to provide assistance.

"Crawl back and wait your turn!"

Shi Hao released a light shout. In his left hand, a reincarnation imprint appeared. He displayed the Reincarnation Fist, attacking at the two of them, as if he was sending them straight into the afterlife.

Peng!

The two coughed out blood, staggering backwards.

Pu!

Shi Hao raised the sword core in his hand, hacking open Aocheng Immortal King's fleeing body again, immortal king blood splashing everywhere.

"The slaughter of immortal kings will start from you!" Shi Hao's six great secret realms all shone. His voice rang through this great cosmos, spreading throughout Immortal Domain.

This type of domineeringness, this type of terrifying power, it truly shocked all cultivators, making the experts of all clans tremble in fear.

Chapter 1949 - Suppressing Three Kings

AHH!!!

Aocheng roared. His body was broken, hacked open by Shi Hao, immortal king blood dyeing the skies red. He was doing his best to block the other side's vicious attack.

Who would have anticipated that after five hundred thousands years, the past Huang actually obtained these types of methods, able to directly face an immortal king, moreover about to directly kill them? Just how terrifying was this?

Just how did he spend all of these years?

Had there ever been such a young peak level immortal king before? Time was ruthless, burying too much. Perhaps there might have been another who was this dazzling, becoming an immortal king this early, but had there ever been someone as domineering as Huang? He was fighting against three great experts right now! n(-o-(v/-e/.l-.b-.l)-n

Aocheng roared out, his body covered in symbols and brilliant light. Dazzling sword wings covered his body, trying to stop this killing blow!

That broken body, the head that was removed and other parts were all frantically flying together, wishing to recombine!

As a peak immortal king, it had already been who knew how many great eras since he was forced to this step. In reality, ever since he became known, he had never been in such a sorry state.

Pu!

The sword core in Shi Hao's hand was unstoppable. At this time, tremendous strength was exerted, a streak of blood flying about. Shi Hao hacked off another chunk of Aocheng's body!

In the cosmos, the darkness was lit. It was because immortal king blood was too dazzling, carrying brightly colored brilliance and chaotic light, sweeping through this place.

Aocheng's four limbs, abdomen and head all separated, hacked into several pieces. He was absolutely furious. This really was great humiliation, always being at a disadvantage and being beaten by another.

Taishi released a great roar. Behind him, a giant beast appeared, this beast his original form, not constructed from blood energy and great dao symbols. It was blurry and indistinct, sinister and terrifying.

Roar!

A great roar sounded. The giant beast opened its bloody mouth, biting towards Shi Hao, frantically trying to save Aocheng Immortal King.

At the same time, Yuanchu released a great roar, standing in the distance. His hands continuously moved about, forming unrivaled magical imprints, sending them smashing towards Shi Hao. He was changing the order of heaven and earth's laws.

This was an expanse of immortal light, originating from the era of creation, the world's most basic great dao symbol brilliance. It was refined by Yuanchu into his own unrivaled divine might.

This radiance was known to be unstoppable, its power limitless.

Taishi used his original body, while Yuanchu used his own immortal king technique, one more formidable and crazy than the next. All of this was just to stop Shi Hao, to kill him.

Aocheng definitely couldn't be killed, or else the two of them would be left in an even more passive situation.

"Merely some small tricks!"

Towards these attacks, Shi Hao's voice was extremely cold, not feeling any fear. He stood in the primal chaos mist, his entire body blurry and indistinct.

However, his gaze was extremely dazzling, cold and intimidating, shooting out of the primal chaos mist, coldly looking at those two.

Hong!

A ring appeared around Shi Hao's body, resonating with the ring of light on that little figure above his head. The two interweaved, releasing resplendent brilliance.

At this time, the secret technique that appeared on his third supreme being bone was activated once more. His entire being's aura immediately surged to a horrifying level.

Kill!

Shi Hao released a great roar, fiercely turning around, slaughtering his way towards the two great experts. His left hand formed a fist imprint, right hand holding a sword core, sweeping through these two individuals.

Peng!

This was the most direct impact. Shi Hao's fist smashed towards that giant beast. That massive body was sinister and horrifying, its bloody mouth wide open, devouring the fist imprint.

With a honglong noise, blood radiance splashed out. Shi Hao's fist was fine, but that giant beast flew outwards. Its entire body was covered in blood, even its fierce teeth breaking off.

Roar!

Taishi Immortal King roared angrily. This was his magical body, so when the giant beast flew out, his true body was also shaken. There was blood that flowed out from his mouth, his body staggering backwards.

In the end, the giant beast that almost exploded merged with him again.

At the same time, Shi Hao faced Yuanchu. That little figure above his head released a great roar, actually swallowing up all of Yuanchu's immortal radiance.

"You... return it right now!" Yuanchu shouted. This was the unmatched great dao symbol immortal radiance he gathered from the age of creation, a supreme treasure, a different type of weapon, so how could he lose it?

However, that little figure was too sinister, its cheeks swelling, not spitting this immortal light back out after devouring it, doing its best to refine it.

Peng!

Shi Hao displayed power, his fist and sword core attacking at the same time, smashing through Yuanchu Immortal King's body protecting magical projection, smashing his armor to pieces. He began to bleed from the seven apertures, his body flying outwards.

"Die!"

Shi Hao released a great roar. The sword core in his hands swept out, hacking towards Aocheng again. Aocheng's condition was already incredibly bad, his body becoming increasingly broken.

"Radiance forever supports my body!" Aocheng chanted out scriptures.

His body broke apart on its own, turning into great dao symbols, pervading through the air. It became a terrifying sea of order, rushing towards Shi Hao.

Originally, when his body was broken apart by Shi Hao, Shi Hao's natural laws extended through his body, stopping him from healing.

Who would have thought that Aocheng would be this fierce, igniting his own essence blood, letting his own flesh separate, turn into a rain of light, become symbols of order, actually 'merging into the dao' at this time.

This was playing with fire, a single mistake and his true body would never have a chance of recovering. He would merge into the great dao, becoming a portion of heaven and earth natural laws.

However, he didn't have a choice right now. When he encountered someone as terrifying as Shi Hao, he could only risk it all.

Honglong!

Aocheng's heavenly might was world shocking. Great dao symbols covered the sky as they descended, wishing to devour Shi Hao, tear him apart.

"It's useless!" Shi Hao said coldly.

In that instant, he derived a lightning pool. There was not only lightning radiance here, there were all types of other divine symbols here as well, for example, a True Phoenix moving about, time fragments spreading throughout that place.

This was his extreme method. What Willow Deity Technique, Imperishable Scripture, Lightning Emperor Secret Technique, True Phoenix Ancient Scripture, Six Dao Reincarnations Heavenly Art and other things? They were all absorbed, merged into one.

Right now, when he spurred his power on with the six great secret realms, there was only his own method. However, it also included all of the unrivaled profound mysteries of the past scriptures.

Now, he displayed it all. His six great secret realms shone, endless dao and boundless wondrous techniques were displayed, all of it appearing within this pool.

The lightning pool contained endless profound mysteries!

Its shape was like a cauldron, after transforming, it then became like a pagoda. Meanwhile, when time fragments danced about, it then became like a bell.

It was always changing, but in the end, it returned to being a pool.

Chi!

This pool wasn't large, only a foot in size, releasing endless radiance. Then, it began to frantically absorb all types of great dao symbols in the sky.

"You..." Aocheng was horrified.

He really was scared. He was already almost assimilated with the dao, temporarily abandoning his flesh, igniting his body, only leaving behind essence blood and interweaving great dao symbols.

In the end, he still suffered, about to be absorbed by that pool. If he was refined like this, then it really would be bad.

Roar!

Aocheng released a great roar, left with no choice but to resist. The essence blood hidden within the great dao symbols was ignited. Left with no choice, he reconstructed his flesh, falling backwards.

"Where do you think you are going?!"

Shi Hao had already pressed forward, producing an ancient pool. All types of secret techniques were refined, expounding the most basic profound mysteries, wishing to refine away Aocheng.

At the same time, his true body brandished his fists, closing the distance between the two.

Peng!

Another clash between the two was unavoidable. Dazzling immortal light erupted.

Ah...

Aocheng screamed out. His body cracked apart. This was an immortal king body, yet it still couldn't stop Huang's attacks!

It was because Huang was always using all of his strength, even displaying the third type of supreme being technique to support himself, allowing his strength to erupt.

"Little scoundrel, cease your arrogance!"

Taishi Immortal King held a heavenly spear, rushing over. Meanwhile, Yuanchu Immortal King's eyes turned red, producing the other half of the creation age mysterious immortal light.

Aocheng also went crazy, still holding on and resisting. Now, he finally lowered his head, no longer refusing the other two's assistance. It was because if it was him alone, it was too dangerous!

"Kill!" Shi Hao roared.

He used everything he learned, displayed all types of methods to fight the three immortal kings.

However, he still focused on attacking Aocheng, attacking him at full power. This time, he endured a strike from Yunachu's immortal light, still frantically suppressing Aocheng.

Pu!

Finally, Aocheng was blasted apart by him again. Essence blood and symbols condensed together, taking form in the distance.

“Even though I lost, my flesh destroyed, a peak immortal king like me cannot be killed, we are imperishable! You won’t be able to do anything to me!” Aocheng said coldly.

Even though he was inwardly furious, he was still helpless. Defeat was defeat. However, peak immortal kings were difficult to kill, so he didn’t have to worry too much about his life.

“Collect!”

In the end, Shi Hao used that pool to suck in Aocheng’s primordial spirit and the resplendent great dao symbols.

“Ah! No! That pool can injure my imperishable primordial spirit!” Aocheng was alarmed.

Only at this moment did a shadow loom over his heart. Huang’s methods were too heaven-defying, actually able to erase his primordial spirit radiance!

Peng!

Shi Hao brandished his fist, attacking Taishi Immortal King until he staggered, his hair disheveled. Even the heavenly spear in his hands couldn’t hold on any more, about to leave his hand.

Pu!

In the end, Taishi Immortal King coughed out a large mouthful of blood, half his body cracking apart from Shi Hao’s attack. Dazzling blood continuously splashed over the starry heavens.

His spear was knocked out of his hand and then seized by Shi Hao.

Hong!

Shi Hao brandished it, as if he was hacking open this entire great world, strength just too powerful.

“Kill!”

Shi Hao didn’t believe in evil, continuing his attacks.

After a world-shaking battle, Taishi and Yuanchu were also struck by Huang until their bodies broke apart. However, they remained undying and imperishable, recreating their unmatched magical bodies.

“Collect!”

Shi Hao roared, using that pool to suck in those two’s primordial spirits and great dao symbols, starting to refine them.

This place became quiet, lacking the slightest trace of activity, only starry remains and cosmos dust were left. It really was left in absolute ruins, the scene extremely bitter.

Shi Hao sat in the starry sky. There was a pool in front of him, the scene inside hazy. Primal chaos spread, storing all of his divine abilities, profound mysteries and symbols, refining the three great immortal kings.

He frowned. Could it be that peak immortal kings really couldn’t be killed?

He previously heard a rumor that if an exceptional immortal king was to be killed, one had to make ample preparation, have special methods. Otherwise, a single mistake and everything would be lost.

“No!”

However, Aocheng, Taishi and Yuanchu didn’t think this way. Ever since they were sucked into this pool, their entire bodies went cold, feeling like their primordial spirits would be broken down.

Of course, that needed a set amount of time, but in the end, they couldn’t escape death.

Hong!

Immortal Domain erupted. Huang was just one person, yet he suppressed three great immortal kings, collecting them into a mysterious ancient pool.

“This is too great! He won! Shi Hao won against three great immortal kings!”

“Even those three old things had a day like today? They were finally suppressed by Huang! All of you are going to be slowly dealt with, none of you can escape!”

Mu Qing, Divine Striking Stone and the others cried out, becoming incredibly excited. Huang actually successfully subdued immortal kings!

“Go, let’s head over! It’s been five hundred thousand years already! Being able to see him again really is a blessing!” The Heavenly Horned Ant said, the corners of his eyes even turning red.

At the same time, Princess Yao Yue, Tuogu Yulong, Qing Yi, Ten Crown King and others also hurried in that direction, wishing to meet him.

#### Chapter 1950 - Six Great Immortal Kings

Mu Qing, Emperor Butterfly, Divine Striking Stone, every single one of them found it hard to suppress their excitement. Even after all these years, Imperial Court’s people were still all hiding in Pan King’s territory, practically no way for them to leave.

Despite this being the case, they still faced the attacks of these three great immortal king families from time to time. It could be said that after all these years, there was a large group of divine generals who perished mysteriously.

It was to the extent where Zhu Lin who was on par with Mu Qing died, killed in a certain star domain, body and spirit perishing.

“Master, you have to get revenge for Zhu Lin and the others!” The crimson dragon choked with emotions when he thought of all those who died, his mind even trembling.

These people were excited, moved, emotional, their moods complicated. They borrowed the transport formation in Pan King City, hurrying towards that sea of stars.

Who would have expected Shi Hao to still be able to return alive, that they could meet again after five hundred thousand years? This was truly a miraculous twist of fate.

Qing Yi, Great Xu Tuo, Chang Gongyan, Exiled Immortal and the others were also closing in quickly. In reality, there were cultivators from many other clans who wanted to get closer and see just what was going on.

These were three great immortal kings! Yet they were suppressed by another just like that!

However, the ones who were faster than the others were six unrivalled figures. They crossed the universe, their auras boundless, crushing everyone until they couldn't breathe, to the point of near suffocation.

In the blink of an eye, six terrifying creatures arrived from different parts of Immortal Domain. They carried horrifying fluctuations. These were precisely the overlords who had existed throughout history.

These were immortal kings from different ancient lands, their dao skills immeasurable, cultivation levels heaven-defying.

Today, such a huge matter happened, they couldn't help but feel alarmed, moreover make a trip here. The effects of this matter were too great.

When Qing Yi, Exiled Immortal, Heavenly Horned Ant, Mu Qing and the others hurried over, they were shocked. They suddenly stopped. They saw that six indistinct figures were seated around Huang.

Those six individuals weren't moving at all, wrapped in primal chaos, incredibly mysterious.

The six great figures all occupied one side each, surrounding Shi Hao at the center, preventing him from safely leaving.

It was clear that shocking changes happened here, that there was a new situation.

What was going on? Everyone was shocked. Six immortal kings came, surrounding Shi Hao one after another. Was an even more terrifying battle going to happen?

Shi Hao stood at the center, not looking at the six great immortal kings who surrounded him, instead only focusing on that pool, still refining it.

In that place, Aocheng, Taishi and Yuanchu were all fighting, extremely bitter. There was no way they would immediately die. Immortal kings were known to be eternal, imperishable and undying, difficult to kill.

However, their dao fruits suffered damage. If this continued, it might shake their foundations. At that time, it would be extremely cruel.

After cultivators of all sides hurried over, they all shivered inwardly, none of them daring to move even when they were still far away. Their bodies were shaking. These were... This was six great immortal kings! They appeared here at the same time!

This really was too huge of a matter!

They felt like they were far enough, that they were in a safe region, but now, they were still shivering in fear. The main reason was that there were just too many immortal kings here, their aura boundless and intimidating.

“Dao friend, what do you think?”

Suddenly, an immortal king spoke, still seated there, wrapped in primal chaos, asking Shi Hao.

“There is no need to say any more. There is no way I will let these three go!” Shi Hao directly turned them down.

What?

The six great immortal kings wanted Shi Hao to let Aocheng, Taishi and Yuanchu go? When they heard this, everyone was shuddering all over. Was this threatening through force? Six great kings surrounded Huang!

“Cultivating to immortal king level isn’t easy. If these three perish, it is too much of a pity. Dao friend should just show mercy and return them.” Someone said.

His voice was calm, not having much emotional fluctuations, persuading Shi Hao like this to let go of Aocheng, Taishi and Yuanchu, to not trouble the three of them anymore.

“Why? Just because it wasn’t easy for them, I should just let them bully me?” Shi Hao said coldly.

He didn’t expect for six immortal kings to appear at this critical juncture, these individuals all coming from different great eras. These old monsters had lived for just too long.

Aocheng, Taishi and Yuanchu were his enemies. When meeting in this life, only one side could continue living. How could he let them go?

“Dao friend, you should not remain stubborn. This world is currently unstable, it needs this type of experts to oversee it. You need to act in accordance to the greater situation!” One of them said coldly.

When Shi Hao heard this, his gaze suddenly became penetrating, like heavenly swords as he stared at that person.

“The greater situation, did the three of them ever care about such a thing?” Shi Hao asked.

The way they previously acted was too reckless, killing as they wished. Meanwhile, when it was his turn to take action, he was instead stopped by others?

“Dao friend, please think things thrice over. They are extremely strong, for them to obtain today’s accomplishments wasn’t easy. You cannot get rid of our side’s strength like this.” Another person further persuaded.

Realm Sea wasn’t calm, the great showdown had already continued for many years.

“Have you finished your consideration?!” Another individual said coldly, carrying a wave of boundless intent.

Shi Hao remained calm, his voice ringing through this place. “Is that so? The three of them are strong, could it be that I am not strong enough? I can be bullied just like this? Today, I killed three great kings, so I can easily replace them, fill up their gap. What is there bad about this?”

These domineering and ostentatious words werewas enough for everyone in this star domain to hear. His voice ran through this cosmos. Huang was going to kill the three great immortal kings. Even though he was surrounded by six great kings, none of them were scared.

“Dao friend, you need to think things thrice over, or else you will have to bear the consequences yourself!” Another person spoke like this.

“I have never been someone who has accepted threats. If you want to fight, then you all can feel free to give it a try!” Shi Hao said with a sunken voice.

When these words sounded, Immortal Domain was shaken greatly. Did Huang really have this much power, or did he go mad? He actually spoke these words.

“Do not overestimate yourself!”

Six great immortal kings got up at the same time, further blocking this place, facing him. They really didn’t want anything bad to happen to Aocheng, Taishi and Yuanchu. These were peak level immortal kings!

“You all dare threaten me?” Shi Hao said. Immediately afterwards, he released a low roar, displaying miraculous secret techniques.

“Embody the endless past, embody the years...”

In that instant, a figure appeared above Shi Hao’s head. It walked out, standing right next to him.

It was an unmatched expert, its indistinct appearance was similar to Willow Deity’s, behind it a great tree that towered into the heavens.

“Embody the present, embody the Lightning Emperor, embody Kun Peng King!”

After Shi Hao’s light shout, those figures appeared in his surroundings, standing next to him.

“This...” The crowd sucked in cold breaths. Mu Qing, crimson dragon and the others were previously still worried, but now that they saw this scene, they didn’t have to feel any fear anymore.

Even the six great immortal kings felt a wave of fear. They knew that the situation was grave, that it was beyond their grasp.

Not long ago, Huang was only a single person, taking action alone, yet he already created such a terrifying scene. Now, after he carried out an Embodiment Transformation, there were three experts that were immediately summoned. If they clashed like this, what would happen?

There were six great immortal kings. However, with Huang here, there were three brilliant experts from history who appeared, advancing and retreating with him.

This was just too shocking. The six great immortal kings’ expressions immediately became serious, not daring to act blindly without thinking, fearing that this murderous disaster would cross that line, stake it all against them.

If they were to fight to the death, there might really be more immortal kings subdued!

In the distance, the cultivators of all sides were speechless. Just how terrifying was Huang's strength? Even after he subdued Aocheng, Taishi and Yuanchu, he still had trump cards hidden!

An immortal king revealed a smile, attitude becoming much more amiable. Compared to before, he was no longer forceful, instead carrying a discussion tone. "You should understand that now is precisely when we need manpower. Without Aocheng, Taishi and Yuanchu, it will be unfavorable for us!"

The six great immortal kings all changed their attitudes, not daring to force him anymore. Huang's power left all clans in shock. He was just too formidable.

Within the six great immortal kings, someone's attitude changed greatly.

"For the sake of the loss here, I've decided to take action to help others, to carry out a slaughter, take out those who Aocheng, Taishi, Yuanchu and the others were currently facing." Huang said.

Did he go mad? Where was he going? He was going to kill three more great kings?

The six great immortal kings were stunned as well. Shi Hao's performance exceeded their expectations.

"Please tell me, which kings are our enemies, where are they right now?" Shi Hao asked.

"There are great enemies in the Realm Sea!" An immortal king replied.

Shi Hao turned around, looking at Qing Yi, Exiled Immortal, Heavenly Horned Ant, Mu Qing and the others. He forcefully nodded, secretly transmitting sound, "It is good as long as you all are here. Wait for my return!"

That day, Shi Hao slaughtered his way into the Realm Sea, stirring on heaven reaching waves, shocking Immortal Domain. He dared to continue on his way, heading out alone to kill the most powerful experts!

Several days later, Shi Hao carried two blood-soaked heads back, triggering a great alarm. The two were still alive. They were exceptional kings, not that easy to end their lives.

After returning, Huang handed the two heads of the creatures who had not died yet to a certain immortal king, letting them refine it away.

"When I went this time, I ended up alarming their side, only able to kill two. There is one more that I'll take from the foreign realm to make up for it!" Shi Hao said.

He had long wanted to head into the foreign realm. Now, it was the perfect time to head over.
