#### Chapter 2001: Shi Surname Brothers

The aura Shi Hao released was incredibly terrifying. It was as if his entire body was burning. Great dao symbols became immortal flames, rising and throbbing, his entire figure becoming dazzling and resplendent.

He was shaking right now, sadness and killing intent surging. At the same time, he felt a wave of bleakness.

When he turned around, just how many people died? Before, he was still the Little Stone. After travelling all this time, experiencing so much blood and chaos from his youth till now, he already became a half immortal emperor.

All of this still felt like it happened yesterday!

Now, two million years have passed.

Hong!

In the distance, the new Little Stone slaughtered his way over, his entire body covered in blood. He fought bloodily against fallen immortal kings, injuries covering his entire body. He really was extremely strong, striking down older generation kings.

Some of the eight hundred old soldiers fell to the ground while facing the sky, turning into blood and bones, but those who were still alive followed at the youngster's left and right, continuing to fight.

They wanted to protect the Little Stone. They brandished immortal king banners, their entire bodies covered in blood, all of them extremely aged, but they still carried unyielding spirits.

The eight hundred disciples previously followed Shi Hao in battle. Even though they had long fallen behind, unable to catch up, their hot bloodedness still remained.

They were loyal and devoted, guarding Shi Hao's descendant, now fighting together with the new Little Stone.

The new Little Stone was someone they watched grow up. Even though he had long exceeded them by who knew how much, these elders still followed him in life and death, marching into this bloody battle with him.

Perhaps in their eyes, dying in battle was the best path of return!

In this case, they could return to their home in the Nine Heavens Ten Earths, reunite with their deceased brothers and wives, be buried in the same place.

"Kill!"

The eight hundred soldiers' numbers were already far less than half, but none of them feared death!

As for the new Little Stone, he was seeking his own death, gathering his blood essence, wishing to offer it to his father as sacrifice, allowing his true blood to revive as well.

Ah....

Shi Hao roared into the heavens, his entire body trembling. His head of black hair stood on end, the corners of his eyes even split apart. The immortal power he erupted with was incomparable.

In this instant, Shi Hao directly forced back the three great half immortal emperors. He brandished his sword core, smashing out a domineering fist imprint, wishing to shatter the everlasting.

Gray Emperor, Grand Emperor and Feather Emperor all backed up, their bodies all covered in cracks. Their eyes became more and more cold.

“Go back!”

Shi Hao secretly transmitted sound to the new Little Stone, his voice carrying endless worry and pain. How could he watch his own son offer up his own blood and soul? At the same time, it was even harder for him to watch those eight hundred old soldiers all die.

His hand pressed forward, fallen kings dying one after another. There were terrifying fluctuations that were created, bloody mist erupting, the scene horrifying.

This was precisely the attack of a half immortal emperor!

Even from millions and millions of li away, he carried killing intent and sorrow, wiping out all of the darkness creatures in that area just like that.

As for the new Little Stone and the old soldiers, they were all sent far away from that place.

However, he still had to pay the price to do this. He was fighting against three half immortal emperors, so being distracted like this exhausted his spirit, causing him to suffer serious injuries again.

Feather Emperor, Grand Emperor and Gray Emperor were all cold and emotionless. They definitely wouldn't do anything that would cause themselves to suffer any harm. Their expressions were cold, the so-called feelings and emotions long completely cut off by them.

That was why when they began to fight, they really were extremely terrifying sometimes, truly unshaken by anything external.

Peng peng peng!

Shi Hao once again began to fight against the three half immortal emperors. Sure enough, he was at a disadvantage, the balance long broken.

Even though he felt grief and anger inside, feeling a wave of terrifying anger, making him erupt with the most terrifying aura, he was still at a disadvantage, his body erupting with blood.

They fought intensely, their figures interweaving. In the end, Shi Hao staggered backwards, unable to hold on anymore. His body was staggering, almost splitting to pieces here.

Apart from this, his entire body was skin wrapped around bones. Meanwhile, the three great emperors' flesh were a bit more full, a bit of essence blood reforming in their bodies.

"Father!"

The new Little Stone was worried, struggling, slaughtering his way forward again. Moreover, at this time, he began to sacrifice himself, wishing to restore Shi Hao's powerful strength.

Along the way, there was a fallen immortal king who appeared again, wishing to stop the new Little Stone.

Pu!

The new Little Stone was incredibly valiant, facing them all. Fists smashed into that expert again and again, blood rushing in all directions. He was like an unmatched young war god.

It had to be said that Stone Clan lineage's bravery was exceptional. He inherited Shi Hao's talent and courage, slaughtering enemies like he was pulling out weeds, carving out a path through the chaotic enemy.

The old soldiers followed him, brandishing immortal king banners and activating king level formations. They coordinated with the new Little Stone, protecting him at the center.

"Father!"

The new Little Stone secretly shouted out, having him accept his blood essence and soul force.

He was Shi Hao's inheritor, flowing within him was the blood of Heavenly Emperor Huang, carrying Shi Hao's life inheritance imprints.

When the new Little Stone saw his father in a disadvantaged state, possibly dying here, he did his best to offer up his own soul and foundational true blood.

In that instant, he became incredibly weak.

This was originally a powerful and fierce youngster who achieved immortal king status, known as one of the individuals in Immortal Domain with the greatest potential, yet now, it seemed like he already had all of his vitality stripped.

The new Little Stone immediately fell down, his entire body shaking, dispirited and listless. He didn't hesitate to pay the price, not caring how Shi Hao would reject him, offering himself up first.

There was a type of natural reaction between father and son. Shi Hao's chest was in great pain, his entire body even burning, wishing to explode. His entire body was trembling.

"My son!"

Huang's body already didn't have any blood left, or else he would have long shed tears of blood, feeling great sadness. He roared into the heavens.

The new Little Stone, from the moment he was born, never received the love and pampering of his parents, sealed for a period of time. Then, the seal was undone by Shi Hao, forcing him to head down the path of cultivation.

At that time, without parents at his side, without loved ones caring for him, he could only cultivate alone.

When he thought of these things, Shi Hao felt as if his chest was suffocating, incredibly terrible. Now, his only son offered himself up like this, so how could he not feel as if his insides were splitting apart?

“My child!”

He roared out, tears of blood finally flowing out.

It was because that blood and soul force rushed over. It was of the same origin as himself, now absorbed by his body, silently arriving, granting his body some life force.

“Kill!”

Shi Hao’s endless sadness turned into a wave of fiercely burning killing intent.

Hong!

He slaughtered until he went crazy, frantically facing the three half immortal emperors. His vitality was reviving, recovering a bit.

With a peng noise, Gray Emperor was blasted until his body broke apart to pieces and flew out.

“Ah...” Feather Emperor released an angry roar, shouting out. It was because a wing was directly ripped off by Shi Hao, carrying bits of blood as it separated from him.

This battle was incredibly terrifying, even Shi Hao taking on serious injuries, his right arm separating.

They could recombine their bodies, but the consumption was too shocking. The bit of essence blood they previously accumulated was about to be completely exhausted again.

The three great half immortal emperors were also going crazy, frantically devouring the blood within fallen kings. In the end, the darkness great army immediately lost many powerful leaders.

“Father...” The new Little Stone cried out weakly. He was struggling, carrying out a sacrifice again, wishing to offer up the last bit of his spirit and blood.

Those old soldiers’ eyes were red. They all supported their ruined bodies, all of them rushing out, surrounding him.

“Child, don’t!” They roared out.

“My father is over there, he needs me.” The new Little Stone said weakly. It was as if he returned to his younger years, extremely powerless, declining.

It was clear that the three half immortal emperors noticed the abnormalities here, realizing the reason why Shi Hao became strong again. They began to crazily take action.

However, how could Shi Hao put up with them slaughtering their way over? He went crazy, completely using all of the methods he could think of to take them down with him. He risked it all against them. If this continued, they were definitely all going to die.

"Hurry... sacrifice me, I don't have any strength left... give my blood and soul to my father!" The new Little Stone said weakly.

The old soldiers shed tears. How could they bear to see this scene? Old tears trickled down their faces.

"I'll do it myself!" The new Little Stone forcefully sat back up.

"No, all of you, bring him away!" Right at this time, a middle-aged man dressed in silver armor walked over. He grabbed the new Little Stone's arm, carrying him up and bringing him to the old soldiers.

"Child, let this useless uncle of yours take your place. I also have blood that comes from the same source as your father!" This middle-aged man said.

He was a bit dejected, as if he carried too many regrets in this life. However, at this time, the most powerful radiance gradually appeared on his face, as if he had completely entrusted his life to something.

He was Qin Hao, Huang's younger brother.

"Uncle!" The new Little Stone cried out weakly.

"Hurry and leave!" Qin Hao said, asking the old soldiers to bring the new Little Stone away.

Then, he roared towards the sky. With a peng sound, his body shattered, he sacrificed himself here.

"Uncle!" The new Little Stone screamed out.

He knew about this uncle, and also knew about his past. He never expected this uncle who remained habitually silent all these years would do this.

"You are a child with potential. Uncle is useless, so I can only do this." Qin Hao's voice sounded. He was extremely decisive and thorough, his life about to reach its end.

"Wipe them all out!" Feather Emperor roared out. A single thought covered all things, destroying that land, wishing to exterminate everyone Shi Hao cared about.

However, Shi Hao went crazy, fighting against them. Their battle on the dam reached the climax, forcefully pushing them back to Realm Sea again.

He couldn't allow these three half immortal emperors to do what they wanted.

However, his eyes also felt like splitting. His own younger brother also walked down this path, yet he couldn't stop him.

"Qin Hao, get the fuck out of here!" Shi Hao roared furiously. He didn't wish to see this scene.

In the distance, groups of darkness creatures appeared, gathering there, fallen kings leading the way. They stopped Qin Hao's blood and soul, preventing him from sacrificing them normally.

The remainder of the eight hundred old soldiers slaughtered their way out together, their eyes turning scarlet red. How could they allow Qin Hao's blood and soul to be lost for nothing?

However, these fallen kings were too strong, they couldn't stop them.

"All of you filth who live in darkness, get lost!"

Right at this time, a man's voice sounded. A pair of dual pupil radiance tore apart the world, just too resplendent. With a peng sound, it even more so directly tore apart a fallen king.

This was an outwardly extremely young man, but his body carried an aura of great changes. Moreover, his eyes were even more so terrifying beyond comparison, a pair of dual pupils that could forge heaven and earth, as well as destroy all things.

He was Shi Yi!

This was also someone who previously fought Shi Hao until he was half crippled in a fair battle, someone from the same generation, even though he himself almost died as well.

He achieved immortal king position, slaughtering his way here. When he took action, the most powerful divine abilities were displayed, a single move deciding life and death, making a fallen king explode.

"Kill!"

The dual-pupiled Shi Yi roared out. His hair was disheveled, his entire body covered in blood. It was clear that he had experienced terrifying great battles. Right now, his pupils were so brilliant they couldn't be stared straight at.

Symbols covered those pupils densely, mysterious and unfathomable, possessing sky shocking divine might, slaughtering his way over until even immortal kings trembled.

"All of you, get lost!"

The dual-pupiled Shi Yi roared out. His body was contorting, because the price he paid was too great. Killing immortal kings like this, deciding life and death with a single move naturally exhausted too much.

If this was a normal battle, how could one move kill a fallen immortal king?

Pu!

Another fallen king was blasted apart by dual pupil radiance.

The other darkness creatures weren't on the same level as him. They were all smashed to pieces by a palm, buried in the void.

"Cousin!"

Qin Hao's blood and soul still didn't scatter. When he saw Shi Yi, he weakly cried out.

"Also you, get lost as well!" The dual-pupiled Shi Yi said, not polite to Qin Hao in the slightest. His hand waved, seizing his blood and soul, merging it together, and then he threw him into the distance.

"No, I still wish to offer myself as sacrifice!" Qin Hao roared out.

“What is the use of that bit of blood? It isn’t Shi Hao’s life inheritance blood and you aren’t even an immortal king yourself. Just leave!” Shi Yi waved his hand coldly, sending him out.

Then, he began to offer himself up here!

When others saw this scene, they all couldn’t help but roar out.

“Kill!”

“Slaughter those darkness filth!” Some people cried out.

For example, the Heavenly Horned Ant’s eyes were scarlet red, now slaughtering outwards.

Ten Crown King held a World Tree in hand, incredibly ferocious and domineering, sweeping out fiercely.

The Butcher, under his endless rage, unleashed a bloody slaughter!

### [Perfect World](#)

#### **Chapter 2002: Abnormal Changes**

Shouts of war shook the skies in Immortal Domain. The outstanding individuals of all sides took action, retaliating against the darkness great army.

Shi Yi’s body broke apart, turning into a rain of light, wrapping it around a lump of true blood. Then, he fiercely rose into the sky, his dazzling brilliance illuminating the sky dome.

With a hong sound, intense fluctuations shook this entire world, many people feeling dismal when they saw this scene. The dual-pupiled individual of a generation, someone with unmatched aptitude among immortal kings ended up splitting apart here.

“Heh, haha...” Grand Emperor was laughing, only, it was a bit cold.

“Do you think that immortal king blood would be effective? This truly is laughable!” Gray Emperor sneered, not caring in the slightest.

In his eyes, apart from true blood that carried Shi Hao’s life imprints, for example, his own heir’s blood, the continuation of his life having miraculous effects, all other blood’s effects wouldn’t be that great.

However, the results were outside the half immortal emperors’ predictions.

When this type of blood was sacrificed, silently, it was actually quickly absorbed by Shi Hao’s body in the air, merging with him, increasing his vitality.

This left both Grand Emperor and Gray Emperor shocked!

“The past cause, today’s effects have been returned to you!” These were Shi Yi’s final words. Then, that area of the skies became completely dark, his figure nowhere to be seen.

Only a few people knew what the karma he spoke of was about!

“Why is there a need to be this decisive?” Shi Hao was dejected. He really didn’t want his clansmen to be like this.

He obviously knew what the karma Shi Yi referred to pointed at.

In the past, the dual-pupiled Shi Yi obtained Shi Hao's supreme being bone, contained within it was a strand of true blood. Now, after offering himself up, the effects were extremely useful for Shi Hao.

It was because there was indeed still a strand of Shi Hao's past true blood that flowed in the dual-pupiled individual's body.

Hong!

Shi Hao's aura surged, making the three half immortal emperors feel restraining fear.

"I understand!" In the distance, Qin Hao said to himself. He knew where the true blood was hidden. Even though he wasn't an immortal king, he still also had Shi Hao's blood within him.

Previously, Shi Yi stopped him out of good intentions, wishing to protect his life.

"I am coming too!" Qin Hao released a low roar.

Right at this moment, he didn't feel any hesitation, once again carrying out a sacrifice. He was extremely decisive, turning into blood and spirit, rumbling and offering himself out.

Back then, when Shi Hao was about to die, before he died, he gave his supreme being bone to Qin Hao. Within his body was also a bit of Huang's true blood, now still there.

...

Immortal Domain's great battle was intense. Meanwhile, in the Realm Sea beyond the dam, it was even more miserable.

Shi Hao obtained true blood, allowing his blood energy to gradually flourish. Even if it was just a bit, after nurturing his withered body, it was also completely different.

One could see just how great their previous consumption was!

This true blood was equivalent to a primer, a seed that could make one's withered body surge with life force.

Within Immortal Domain, experts from all sides fought bloody battles.

"Kill!"

Ten Crown King brandished his World Tree, sweeping through everything in his path. The precious tree's power in his hands was exceptionally great, an expanse of darkness creatures wiped out with each attack.

Even if he encountered darkness kings, he still powerfully advanced!

Hong!

He encountered his match. There was an extremely domineering figure among the darkness creatures who held a great treasure. He slaughtered his way over, blocking Ten Crown King. A great battle erupted.

Soon afterwards, blood splashed outwards, their battle extremely intense.

In the distant skies, in another place, Exiled Immortal floated like a spirit. He was dressed in blue clothes, aloof and otherworldly, currently fighting a great battle against the best of the darkness creatures.

Pu!

Blood radiance flickered. There was another fallen immortal king who died, his blood splashing across heaven and earth. Exiled Immortal's methods were shocking, cutting down a king.

Roar!

In another place, a Qilin roared. Immortal Domain's side was at a disadvantage. At this time, a snow-white Qilin who was covered in blood, entirely scarlet red, leapt out from a blood-colored swamp.

However, it was quite the pity. A great dark hand descended, surrounding the cosmos' skies. With a pu sound, it was blasted into blood radiance.

"Little White!" The Lunar Jade Rabbit cried out in grief.

That Qilin was precisely the one she rescued before. After growing up, it long became incredibly powerful. Even though it wasn't as domineering as the Heavenly Horned Ant, it was still quite formidable.

However, it was blasted apart by a darkness giant's palm, both its body and spirit perishing.

"Leave!"

Following a shout, the Crimson Dragon slaughtered its way over. A large half of the scales covering its body had fallen off, its appearance incredibly miserable. It slaughtered its way over, coming from another battlefield to this place.

It was Shi Hao's disciple, even more so a descendant of the Vicious Ten, its relationship with the Heavenly Horned Ant and White Qilin close. Now that the White Qilin died, it felt great grief.

However, the Crimson Dragon understood that if it tried to persist here, they would also die, which was why it brought the Lunar Jade Rabbit away with it, quickly leaving.

Dang!

The Heavenly Horned Ant also took action. He was now the most powerful among the Vicious Ten. In his hands was a damaged Immortal Gold club. He sent it smashing down, facing that giant head-on.

Extreme strength, divine might world crushing!

Pu!

The Heavenly Horned Ant coughed out blood, his body staggering backwards. However, that darkness giant's mouth was also dripping with black blood, also taking many steps back.

This was extremely terrifying. The Heavenly Horned Ant could actually face giants head-on.

Immediately afterwards, the Heavenly Horned Ant's entire body trembled. A wave of terrifying aura surged. He entered a berserk state, fighting all out against this darkness giant!

Dang!

In the end, that darkness giant was smashed by the Heavenly Horned Ant's great golden club until he backed up in retreat, blood coughed out from his mouth, actually unable to seize the advantage, instead had to worry about its own life.

When they slaughtered up to this point, the brave won and the timid perished. One's ferocity was extremely important.

The Heavenly Horned Ant completely went for broke. As a result, he swept through everything before him, becoming more and more vicious, gradually obtaining a type of unmatched aura.

Right at this time, there were a few experts who took action at the same time, surrounding the Heavenly Horned Ant, wishing to get rid of him.

"You all dare act vicious?!" The Butcher roared. He shouted from the distance, reaching over a large hand and striking forward.

Pu!

Blood radiance splashed out. There were fallen kings who died.

Following the Butcher, Burial Lord and others' attacks, another group of darkness creatures backed up, the enemy army slaughtered until everything was in disorder.

However, this was only a small victory. Immortal Domain was too big, the battles countless. Gradually, Immortal Domain's cultivators entered a passive state, after all, there were too many darkness creatures.

When Shi Hao turned around, he just happened to see a scene. There was a white-clothed figure whose snow clothes were bright red from blood, like plum blossoms. She died just like that, killed by the darkness creatures.

That was Princess Yao Yue, losing her life to the darkness great army.

At the same time, not everyone had unyielding characters, daring to sacrifice their own lives and fight to the end. When the chaos descended, there were some clans from Immortal Domain who long defected to Guidance Ancient Palace.

"Ning Chuan, did you really defect to the Foreign Realm?!" Ten Crown King roared out.

He never expected that the stunning youngster who was equally famous as himself actually defected to the darkness, choosing to make the creatures of Immortal Domain his enemy.

In front of him was an aloof man. It had to be said that his style was exceptional, full of elegance, his appearance more beautiful than many women.

It was precisely Six Crown King Ning Chuan!

"It can't be called betraying. Darkness blood already flowed in the body of my ancestors and I am their descendant, so this is nothing more than returning to where I belong." Ning Chuan remained extremely calm.

“Kill!”

Ten Crown King slaughtered his way forward, his aura extremely terrifying.

Ning Chuan didn't reach Immortal King Realm. Even though he was stunning and brilliant, he was still a bit off. He turned around to leave, the fallen immortal king at his side facing Ten Crown King.

“In the past, the protectors lineage of the Nine Heavens Ten Earths were also darkness creatures.” Ning Chuan turned around and said.

“Even now, you still wish to incite disharmony?!” Ten Crown King shouted.

However, he also had suspicions. It was because of Dugu Yun's lineage, their blood sometimes became black, as if they were corroded.

Meanwhile, Dugu Yun was the descendant of the protectors lineage.

“My ancestor had indeed been corroded by darkness, but after reviving, he chose to return to Immortal Domain. He was just like the Burial Lord who is fighting with us side by side, already cutting all ties with the darkness!” Dugu Yun appeared.

He cultivated for two million years, now a true immortal. There was still some distance from immortal king level.

“Kill!” Dugu Yun slaughtered his way towards Ning Chuan.

Meanwhile, Ten Crown King fought a great battle against the fallen king.

Immortal Domain became more and more chaotic, great battles erupting in all places. Experts appeared in large numbers, heroic individuals continuously falling.

Roar!

By the dam, a great roar sounded. Waves of blazing light rose around Shi Hao's body. He obtained the nourishing of true blood, his aura continuously climbing.

At the same time, which was also at this time, he knew about the endings of the restricted region lord, the crystal skull, golden arm bone and others. They were actually no longer in this world.

They were just remnant wills, long lived past their time of death. When the darkness great army arrived, they chose to fight.

In the past, they perished precisely in Realm Sea. Now, they were only remnant wills, already not having much to regret in this life. They fought to the end, already gone.

When Shi Hao learned about these things, he felt great sorrow inside. He wasn't even able to witness the final scene of the restricted region lord and the others. He couldn't help but release a howl. Even though for them, death was a type of release, it still made Shi Hao feel sad and emotional.

Pu!

He saw Ning Chuan fight a bloody battle against Dugu Yun. In the end, the two took each other down.

He saw Ten Crown King's precious tree explode. There were giants who rushed over, more than one, attacking him at the same time, destroying even the World Tree.

Roar!

Ten Crown King roared out, his hair disheveled. He really was strong, forcibly slaughtering out a bloody path.

The Butcher and Burial Lord arrived, continuously taking action, killing several darkness giants.

On the other side, Exiled Immortal unfortunately fell in battle. He was extremely strong, and also extremely dazzling, but he was surrounded by fallen immortal kings. No matter how strong he was, he faced impossible odds. In the end, his blood splashed across the starry sky.

It was too pitiful!

Even Shi Hao felt like it was a pity. However, what could he do?

Those scenes were all witnessed by Shi Hao, his soul greatly shaken. Those were people from his generation, there were now not that many left. They were all killed in the great chaos.

In that instant, he felt his blood energy surge and stir about. He wanted to go crazy, his aura also surging more powerfully!

Right now, the new Little Stone offered himself up, still choosing to do this, all so that his father could become more powerful.

The old soldiers who were guarding the new Little Stone all released great howls of pain.

Aohou...

Right at this time, a primitive giant dragon rushed out. It was precisely Number Two Under Heaven. Its body was in tatters, covered in blood, now slaughtering its way out.

It was also protecting the new Little Stone. However, he chose to sacrifice himself, so Number Two Under Heaven... this Bird Grandpa couldn't change anything either.

The Ecliptic Immortal Gold Daoist and itself both suffered serious injuries, darkness corroding their bodies. They were always in seclusion, but now rushed out.

Pu!

The old soldiers were killed in large numbers. Number Two Under Heaven also dropped out of the sky, his blood dyeing the great earth red.

"Ah..." The Ecliptic Immortal Gold Daoist attacked, fighting the darkness kings, fighting until his body burst. He had an Immortal Gold body, yet right now, it still broke to pieces.

These scenes all appeared in Shi Hao's eyes. His past friends died one after another, all gone. It made the wave of emotions within him explode.

Hong!

A wave of dazzling brilliance surged around Shi Hao's body, incredibly dazzling.

This was especially the case after the new Little Stone sacrificed himself, that color becoming even more brilliant. It was as if his entire being underwent a type of blood-colored transformation, as if another self was going to struggle out from his ruined body.

"En? This type of aura is?!"

Feather Emperor was shocked. He felt a wave of horror. This type of sinister radiance was like a blood cloud. As it spread, it made Shi Hao look extremely terrifying.

"Stop him! Don't let him experience a transformation!" Feather Emperor shouted.

The three great half immortal emperors took action at the same time, all of them trying to stop him.

Right now, in the heavens above and earth below, regardless of whether it was Immortal Domain, Burial Earth or Dam World and Realm Sea, everyone felt a soul trembling aura.

Shi Hao's ruined body began to crack apart, as if he was trying to struggle free and emerge as a brand new self.

"Impossible, no one can truly succeed! Does he still vainly wish to become an immortal emperor?" Gray Emperor said with a low voice.

When these words sounded, it was as if a world eradicating disaster sounded, the heavens were shaken, lightning interweaving and rumbling with noise.

"I don't want you all to die, I want your life imprint to appear again!"

In Realm Sea, Shi Hao roared out into the heavens, his voice shaking through past, present and future. There was a wave of boundless terrifying aura that engulfed the different worlds.

### [Perfect World](#)

#### **Chapter 2003: Extreme Transformation**

Shi Hao's heart was in pain, his hair disheveled. He raised his head towards the sky, a trail of tears flowing from the corners of his eyes. There was a feeling of despair that engulfed him. His voice was like thunder, shaking up endless regions, his aura boundless beyond comparison.

People he knew and experts he didn't know perished one after another. In this great world, there already weren't many people of the same generation as him left.

Even his own son perished, turning into blood and spirit, making him feel even more hurt. He sacrificed himself in this world of chaos, yet Huang could only watch as it happened. How bleak and miserable of a thing was this?

He stood at the absolute peak of half immortal emperor. Normally, he should be able to look down on the world, on the past and present, yet he couldn't see those he loved, unable to protect his son, his old friends and seniors, all of them were sealed up one after another. Those who died died, those who were wounded were wounded, continuously falling one after another.

This chaotic world was too cruel, the kings all howling in grief, crying tears of blood. Their endings were all extremely miserable, extremely tragic.

The Immortal Domain that used to be extremely glorious was now heading to a decline. The entire world was cracking apart, as if it was beaten into ruin.

It was a dusk of bloodshed, the dusk of powerful individuals, dusk of immortals. All of those who were valiant, brilliant, powerful, undying... those people, those inheritances, those great clans, those legends all became nothing.

An age ended.

This was the conclusion of a type of civilization.

The end of a great era.

Shi Hao really wanted to go crazy. He slaughtered until his entire body was covered in blood, his entire being went crazy. How could he not feel sad, how could he not feel regret? He already poured everything he had into this battle!

In Realm Sea, great waves overturned, bones rising and falling, surging powerfully because of the roars of a single half immortal emperor.

The three half immortal emperors took action at the same time, surrounding and attacking Shi Hao at the same time, trying to stop his transformation. They were scared that he might really achieve immortal emperor status in this world.

That was something unimaginable, they couldn't bear to see it happen.

"Kill!"

Feather Emperor moved his divine wings. A blinding rain of light appeared, his entire being as if covered in undying battle clothes. In his hand was an emperor war spear, at this time, it was thrust at Shi Hao with full strength.

Feather Emperor was world shocking and powerful. After his aura scattered, splitting the heavens, those waves within Realm Sea that represented ruined worlds were continuously destroyed under the rain of light released from his body.

That war spear was scarlet red like blood, its power too great. Swirling on the speartip was the long river of time, penetrating endless time. It pressed forward, its power unmatched!

Dang!

Shi Hao brandished the immortal sword, hacking outwards. This place was immediately destroyed, Realm Sea exploding, primal chaos covering heaven and earth.

Then, two figures quickly tangled about each other. Blazing sword radiance and the terrifying war spear were like dazzling lightning, flying over streak after streak.

Then, a rain of blood poured down, irregular scenes appearing in the skies again and again.

These were the changes of Realm Sea.

Among these changes, there were clans that rose and fell, experts that were wiped out. There were scenes of world creation and scenes of doomsday.

These were all things that happened in the past.

Hong!

This place erupted into chaos. The two experts clashed.

This was the sea of worlds, each wave a different world. However, under their terrifying power, the heaven overflowing great waves and the nearby great sea instead evaporated.

“Kill!”

Gray Emperor took action. His entire figure towered in the world, standing tall in Realm Sea, as if he had existed for an endless amount of time. His massive body released symbols that were mysterious and unfathomable.

These were curses that formed tangible great dao patterns.

He formed a sacrificial platform here. The entire Realm Sea was filled with endless ruined worlds. It immediately resonated, forming an unprecedentedly massive sacrificial platform.

“Exterminate everything!”

He roared. His objective was the same as Feather Emperor’s, to stop Shi Hao’s transformation, scared that he might truly become an immortal emperor!

Following an explosive shout, heaven and earth trembled, wind and clouds surged. An ancient altar that had never been seen before, seemingly able to burst the sky dome appeared.

It released terrifying power, wishing to suppress Shi Hao.

Weng!

Shi Hao’s Law Pool appeared, also becoming incredibly massive, as if about to suck in all of Realm Sea. It flew out to subdue that altar.

“Hand over your life!”

Grand Emperor released a short shout. Purple energy rose from the east, endless brilliance surged. A grand power accompanied him, allowing his entire being to sublimate. He became extremely brilliant, like a monarch who was born within a blazing purple sun.

Under keng qiang noises, Grand Emperor’s body became covered in a layer of purple armor. This was the result of his body’s essence, magical force and spirit merging together.

His foundation’s great dao symbols circulated.

Hong!

Grand Emperor who was dressed in monarch armor erupted with heaven overflowing purple multicolored light. His right palm was like a blade, hacking towards Shi Hao. Dazzling brilliance stretched for millions and millions of li, severing Realm Sea!

This was a great life and death struggle.

The three half immortal emperors stopped Shi Hao, not wishing to let him transform.

Right now, the outside of Shi Hao's body was covered in blood. He was wrapped within dazzling great dao symbols, as fast as lightning. He warped and weaved in Realm Sea, fighting bloodily against the three emperors.

In reality, the cracks on the surface of his body became more and more numerous, more and more concentrated, but there was a wave of thriving vitality within. He was indeed experiencing a type of transformation.

Roar!

Shi Hao roared out, struggling while in despair, fighting the three half immortal emperors.

When he thought about those who died, those he could never see again, the rage and hatred in his chest turned into fiery light. His battle intent surged, he fought until he went crazy, his entire figure going mad.

Blood splashed out, his soul screaming and his body trembling. Anger filled his sea of consciousness, endless killing energy erupted.

Shi Hao went all out. His own power slowly increased, his cracked old skin flickered with sparkling brilliance, as if it wanted to shatter his body's prison, his new true self trying to struggle free.

Roar!

Feather Emperor roared. Lightning flashed and thunder rolled, a rain of blood poured down, trying to stop Shi Hao's transformation. Once a half immortal emperor went all out, the experts who were killed in the past and the scenes of world destruction all appeared.

Even though he looked divine, his wings snow-white and brilliant, as a half immortal emperor, how could he have risen up without experiencing any hardships?

Shi Hao long loosened his hand, letting go of that immortal sword. It clashed with the scarlet red war spear in Feather Emperor's hand. Meanwhile, he himself also formed a fist imprint, fighting intensely with Feather Emperor.

Pu!

One of Feather Emperor's wings was torn off, blood radiance surging.

It was because Shi Hao's power was slowly becoming stronger, a type of transformation truly happening. Unknowingly, his power became vigorous, starting to flourish.

Feather Emperor screamed out. His back was bloody. After a wing was ripped off, the wound there was terrifying, the bone stubble left behind horrifying, blood continuously pouring out.

After Shi Hao fought until his eyes turned red, how could he care about these things? He bare-handedly ripped apart these ancient wings, still slaughtering his way forward, vowing to eliminate these three great disasters.

The three great half immortal emperors were anxious, fighting with their lives on the line.

“Hand over your lives!” Shi Hao’s voice was overcast, his eyes blood red. He slaughtered until he went mad. The new Little Stone sacrificed his own blood for him, so many of his old friends perished, Immortal Domain was in pieces. He felt a deep sense of despair. At this time, he was in a type of bizarre state, as if he went completely mad.

However, in terms of killing intent, he was still extremely concentrated, focusing on Feather Emperor, insisting on killing him, using the most powerful methods to face Feather Emperor who only had a single wing left.

Hong!

Waves surged into the heavens, Realm Sea erupting with chaos.

Radiance rushed into the heavens in this place, absolutely dazzling. The first radiance passed through past, present and future.

Shi Hao ripped off Feather Emperor’s other wing again. As blood splashed out, trickling downwards, Realm Sea was dyed a brilliant color.

The essence blood Feather Emperor condensed not long ago was ruined again, his essence blood fading away!

Ah... Feather Emperor screamed in pain. He fiercely exerted strength, attacking Shi Hao murderously. He had never suffered this type of setback before.

After fighting for so many years, Shi Hao long recognized that Feather Emperor’s magical force source was in his wings, extremely important for him. That was why Shi Hao frantically tore at them.

During this process, Shi Hao also paid a set price. His left shoulder was penetrated by the spear, his chest hacked open by Feather Emperor’s palm.

However, everything was worth it!

Right now, Feather Emperor once again lost large amounts of essence blood and magical force, his body weak.

Shi Hao directly dealt the fatal blow. His palm and fingers passed by, his sword art vast and profound, tearing apart eternity. Even the great river of time grew dim, becoming indistinct.

Peng!

Feather Emperor tumbled outwards, his body in tatters. He suffered over a hundred streaks of sword radiance, body covered densely in cracks, many of his bones even broken.

However, he was still a half immortal emperor in the end. Even if his forehead was cleaved open, he still wouldn’t die, he still had fighting strength.

The other two experts roared out, frantically trying to stop Shi Hao.

If Feather Emperor died, then their situation wouldn't be good either.

Hong!

Shi Hao kicked away a ruined wing on the ocean surface. He sent a fist smashing towards Grand Emperor, clashing with that purple monarch armored palm. Sparks immediately flew in all directions.

It was because this person was now blocking in front of him.

Under an ear-splitting clash, Shi Hao's fist began to drip with blood, most of the blood his own, as well as the blood of his enemies.

Grand Emperor's pupils contracted, his face carrying an expression of pain. The surface of his body grew dim. This was especially the case with his palm, the purple armor even splitting open. This was the gathering of dao skills, the armor even cast from the essence of his source, now suffering injuries.

Only in the most crucial great decisive battle would he use this set of armor. Now, it was smashed apart.

Ah... Grand Emperor roared out.

The current Shi Hao went completely mad, continuously fighting with him. After seizing the advantage, he attacked him while avoiding the other two.

Right now, Grand Emperor became the target of Shi Hao's attacks!

Feather Emperor temporarily became weak, he was no longer a source of worry, so Shi Hao immediately attacked the next individual who posed the greatest threat.

Pu!

Shi Hao's fist imprint smashed into Grand Emperor's chest, blasting him into pieces.

What Huang was considering right now wasn't how to completely kill the enemy, because that was too hard. He needed to carefully whittle down at their strength. What he needed to do right now was break down the enemy's strength.

Grand Emperor screamed out miserably. The injuries from this blow were too severe, much of his primordial spirit flame even scattered. The essence blood his body gathered was even more so exhausted, completely wiped out.

After the purple-colored emperor armor was shattered, his foundation was injured.

"Kill!"

Shi Hao made his way around Grand Emperor's ruined body, his eyes scarlet like two blood lamps in the darkness. His killing intent was endless, now locking onto Gray Emperor.

This was a great battle of life and death. The corners of Shi Hao's eyes carried traces of blood. When he went crazy, his handsome cheeks even appeared a bit sinister.

For the sake of his son, his brothers and his old friends, he became completely grim and unfeeling, emotionless. He temporarily erased a portion of his feelings, the only word in his head was slaughter.

In this great battle, a head flew. Shi Hao smashed apart that altar, removing Gray Emperor's head, blasting apart his body.

At the same time, he threw himself forward, attacking the three ruined emperors viciously, wishing to completely destroy them.

Some old skin on Shi Hao's body came off. There was a wave of thriving vitality that was spreading. His seriously injured body was slowly recovering, a wave of fluctuations extending outwards.

"There is no way you can succeed!"

Feather Emperor roared out. This had never happened before, how could this happen on the body of someone who rose up after them?

They were unwilling, filled with resentment, but they were powerless to stop anything. They were helpless, gradually weakened by Huang who was becoming more and more powerful. If this continued, they would inevitably perish.

Hong!

At this time, in a certain part of the great river of time, there were several blasts of light that suddenly became extremely resplendent, releasing brilliant divine rainbows.

It was as if Shi Hao's transformation affected other domains of time and space.

Right now, a ruined corpse floated within a quiet expanse of cosmos. Its eyelids moved slightly, about to open.

Moreover, the ruined corpse released a voice that penetrated into Realm Sea, drawn-out and overcast. "Why is there a need, why bother?!"

### [Perfect World](#)

#### **Chapter 2004: World Eradication Elder**

In a dull and lonely expanse of the cosmos, it was ice-cold and dark. After millions and millions of years, there wasn't the slightest aura, yet today, things changed.

A ruined corpse suddenly opened its eyes, the radiance penetrating the great universe. The two streaks of radiance were even more intimidating than immortal swords, just too sharp.

When one watched from the distance, it was as if two streaks of lightning erupted in the darkness, shattering the peace.

After he said those words, he slowly got up, silently looking in this direction. His entire withered body gradually recovered life force, recovering the characteristics of the living.

He only had a single leg, the other foot also lacking a sole, moreover single-armed as well, quite broken. The hair on his head was dried yellow like wild grass. His entire existence gave off an extremely ancient feeling, as if he had experienced the accumulation of time.

Weng!

He raised his only arm, shaking the great cosmos. Then, he pointed in a certain direction.

With a hong noise, in the depths of the Land of Darkness, within an ancient land where blood flowed, an arm moved. It suddenly rose, passing through the realm wall and appearing here.

Then, with a peng noise, that dried-up arm connected with the elder's body, becoming whole again.

At the same time, in the depths of Realm Sea, great waves rushed into the heavens. A broken leg that carried blood tore apart the skies, disappearing from that place. This made Shi Hao's mind tremble.

Hong!

In this dull and lonely cosmos, an elder connected his broken leg.

Then, the endless void split, forming streak after streak of terrifying black cracks, unknown where they led to. With a hong noise, a sole flew over from that place, connecting to his ruined body, completing his body.

On his body were old black clothes. Even though the body was ruined, unknown just how many great eras it had floated through the cosmos for, the black clothes were still there.

There were traces of blood on the surface of his clothes, full of holes. Judging from its appearance, it was extremely old. At this time, it revived with his body, the ruined cloth fluttered about and then released sky overflowing black mist.

In that instant, this entire region was covered by black clouds.

This was darkness source matter that was thick to the point of not dissolving.

In the darkness, his body couldn't even be seen anymore. There was only a wizened skinny outline. However, the pupils instead became even more brilliant, like two small suns in the darkness, blinding and horrifying.

Immediately afterwards, he began to move. He passed through the void and smashed through realm walls, carrying endless power, descending upon Realm Sea.

In that instant, Realm Sea surged. Then, great waves rushed in all directions, engulfing towards the heavens.

When this elder descended upon this place, the seas erupted, forced to rush in all directions. That place was about to dry up, lacking ocean water. His black clothes fluttered about, everything in his way destroyed.

A sphere of black light swirled about. His aura became extremely terrifying.

It was precisely because of this that there was nothing near him. Even the Realm Sea region below was about to dry up!

The elder descended, his pressure suppressing everything!

This creature suddenly appeared, leaving Shi Hao with no choice but to defend himself. This elder had boundless and immeasurable darkness force, he was extremely powerful.

At this time, Feather Emperor, Grand Emperor and Gray Emperor's situations were extremely bad. Their bodies had been blown apart by Shi Hao several times, cutting apart their souls from time to time as well, wishing to truly end them.

When they saw this elder, the three emperors dragged their ruined bodies, staggering in retreat, rushing in that direction.

"Senior!"

Gray Emperor spoke, actually using this type of address.

Grand Emperor was also extremely polite, also calling out 'senior'.

Feather Emperor was arrogant and prideful, only cupping his hands, not calling this individual senior, but one could see how shocking this person's identity was, even the three great half immortal emperors attached so much importance to him.

"We are merely those of the same path, why is there a need to be like this." The elder said with a nod.

His power was magnificent. When he descended here, the pressure made Realm Sea surge, distant waves overflowed into the heavens, continuously striking against the sky dome. Darkness force spread through the universe.

He made all of Realm Sea turn into a black color.

The elder was rather polite, treating Grand Emperor, Gray Emperor and Feather Emperor as equals, not putting on airs.

"Senior, you are the first emperor since the world's creation, while we came after. We naturally need to remain respectful." Gray Emperor said.

Shi Hao heard these words clearly. In reality, behind the dam, some of Immortal Domain's immortal kings also heard this, all of them couldn't help but suck in cold air.

The first emperor since world creation? This origin was just too terrifying.

"We are all half immortal emperors, all of us are the same." The elder said.

Then, he looked towards Shi Hao and said, "Why is there a need? At your level, what can't you let go of? For the sake of some insects, is it worth it? You and I are the true similar level individuals, there is only this small number of half immortal emperor level individuals. Why is there a need to massacre one another?"

"You've already cut off all humanity, self claiming to have transcended above. I am not willing to speak more with you!" Shi Hao replied with an ice-cold voice.

"If the number of years you experience becomes long enough, you will be able to let everything go. What seven emotions six desires, what homeland to reminisce about, what hatred and madness? All of this can be easily laughed off. The great dao is ruthless, in the end, creatures like you and I need to cut

off all emotions and desires. Not being able to let things go is only because you are still young. After experiencing the baptism of time, after your heart experiences the vicissitudes of time, the things you used to care about and attached importance to, all of it will go up into smoke and flames. At that time, you will understand that only our dao is everlasting.” The elder was extremely calm as he said this.

“That is you, not me!” Shi Hao suddenly looked towards him, feeling like this elder was a terrifying figure.

The elder shook his head. “You and I are the same, the same as Gray Emperor, Grand Emperor and Feather Emperor. Only we can stay together, explore the path of Immortal Emperor Realm together.”

“The past Feather Emperor, Grand Emperor and Gray Emperor, which one of them didn’t have endless heirs and powerful clans, who among them didn’t establish imperishable great sects and inheritances? But in the end, what happened to them? They were all flowers in a mirror, moons reflected in lakes. Dust returns to dust, earth to earth, some even wiped out by them personally!” The elder said.

These words left Shi Hao’s mind a bit shocked, making his expression increasingly cold. He didn’t want to say anything else.

“Senior, he is about to break through.” Grand Emperor warned.

“He won’t be able to break through. He is just undergoing rebirth, producing an immortal core, or perhaps becoming a bit more complete, could be said to have taken a step, one foot into Immortal Emperor Realm. However, in the end, all of his hopes and efforts will come to nothing, just like me that year.” The elder said.

“This is the same as your respected self back then?” Gray Emperor was shocked.

The reason he was respectful was because he understood well how terrifying this elder was. He knew that this individual previously almost became an immortal emperor.

Grand Emperor and the others carried restraining fear towards him precisely because of this.

It was rumored that this elder previously broke through, but at the final moments, almost had his body and dao extinguished, so he sealed himself up.

At the same time, this elder was also their ‘guide’. For the sake of achieving immortal emperor status, they resolutely cast themselves into darkness, wishing to find a breakthrough point through it.

It was because they already tried out every other path, but couldn’t take even half a step forward.

Meanwhile, the darkness source allowed them to advance a bit, see hope on this path, becoming their own glimmer of light.

“Seeing radiance within darkness is comparatively speaking much easier.” These were the words the elder spoke before.

“Do you really think I won’t be able to break through just because you say I won’t?!” Shi Hao didn’t believe this. Right now, the old skin outside his body completely separated, producing a sparkling immortal body.

Immortal blood flowed within his body, bright red and brilliant. Not only did he revive, his magical force became even more vigorous, his power surging beyond comparison. Even his hair was sparkling like Immortal Gold.

Right now, when his pupils opened and closed, there was soul shocking power that swirled about, even making Gray Emperor's expression change a bit. He became extremely fearful.

"Your path has reached its end. If you forcefully continue, you will only perish." The black clad elder said, his expression serious, eyes deep.

Shi Hao didn't pay him any attention. It was hard for anyone else to shake his own beliefs. His aura was surging, killing intent erupting, still insisting on killing Feather Emperor and the others.

Hong!

Shi Hao took action. He condensed a fist imprint, looking down on the world under the sky. Even if this elder was deep and immeasurable, he still pushed forward, attacking Feather Emperor, Grand Emperor and Gray Emperor.

In that instant, Realm Sea was wiped out, large amounts of the ocean region drying up.

All of this was under the power of Shi Hao's fist, completely annihilated. An expanse of a ruined world appeared with each wave, but they disappeared without a trace just like that, returning to primal chaos.

The dazzling fist radiance illuminated the past, present and future!

Grand Emperor, Gray Emperor and Feather Emperor were all shocked. With their current states, how could they possibly stop this?!

"Youngster, I will let you see this old one's path back then. It is just as far as you have gone, but it is still a dead path in the end." The elder said, shaking his head.

Hong!

He released a palm. It was pitch-black like ink, blocking Shi Hao.

Within it was his dao, his magic. His unmatched fighting strength was displayed. With a turn of his hand, even the heavens themselves were about to be overturned.

The scenes reflected there were the events of the past.

The elder had indeed undergone a transformation, but he borrowed darkness force, his source pitch-black like ink. He was just like Shi Hao, undergoing a transformation, yet producing a darkness body.

The power was different, but the situation was similar.

In the end, when he wanted to break through and become an immortal emperor, his body broke apart inch by inch, his primordial spirit also like this, mysteriously heading towards destruction.

Shi Hao watched coldly, unshaken. "You are you, I am myself. They've already erased their humanity for the sake of pursuing the dao, willing to advance through any means fair or foul, but I still have flesh, still have blood, still the same."

These words made Feather Emperor, Grand Emperor and Gray Emperor's faces change.

"Being young is good, arrogant, full of vigor, hot tears still able to trickle down your cheeks. However, in the end, it is still nothing." The elder shook his head, saying this with a sigh. "The great dao has always been ruthless. If you aren't willing to use any means possible, how can you achieve the dao, become an immortal emperor?!"

"The great dao is ruthless, but it also has emotions! It all depends on what you yourself want to give up on. All of you have your own paths, I have mine!" Shi Hao faced him coldly and said, "Furthermore, you never even became an immortal emperor, so how can you point fingers and criticize like this? I am not those three!" Shi Hao pointed at Gray Emperor and the others.

Shi Hao's fist imprints didn't stop either, smashing out again.

With a wenglong noise, darkness power surged. The elder took action again, using similar unmatched power. His old skin was also cracking, about to produce a darkness core again.

After a great collision, gray mist spread throughout Realm Sea. A vast body of water surged, this region completely drying up. Dried up ocean depths could be seen.

There was a reef and primal chaos, as well as immortal bones that had remained sunken for millions and millions of years.

"Dao friend obstinately persists on going about things the wrong way. Do you know that doing this is stopping our paths? The more darkness people there are, the greater the Land of Darkness' origin force, only this way can grant us an opportunity to break through. In the end, you are the same as us, so why is there a need to do this? You will understand it sooner or later." The elder said.

However, his palm was ruthless, destroying the heavens and wiping out the earth, domineering beyond comparison. His strength was just too powerful, enough to face the current even stronger Shi Hao!

"In that case, dao friend, we will help you set your resolve by wiping out this world!" The elder said.

With a hong noise, he sent a palm smashing out towards Immortal Domain, wishing to completely turn this place into a land of death, turn it into an eternal ruined earth, wipe out all traces of life.

"You dare?!" Shi Hao roared out.

"I am the World Eradication Elder, my palm obliterates worlds, I lost track of how many times this has happened already." The elder said calmly.

Shi Hao felt that this elder was strange right from the start, full of mysterious power. His origins might be shockingly terrifying, not as simple as he claimed to be.

However, Shi Hao didn't feel fear, directly facing him head-on.

"These are three Emperor Pills I spent a lifetime meticulously creating. You all should quickly ingest them, recover, and then head into Immortal Domain, wipe it out, cut short this dao friend's remaining attachments. He will understand in the end." World Eradication Elder said.

He produced three pills, sending them towards the three half immortal emperors. They seemed to be refined from Darkness Immortal Gold, flickering with dark radiance. An enticing fragrance was wafting out from their sparkling appearance.

After the three half immortal emperors received the pills, they all pressed forward, killing intent erupting.

“You all dare?!”

Shi Hao shouted out. At the same time, he cut these four great experts off, not allowing them to step into the world behind the dam.

“En? Someone is coming!” Feather Emperor’s brows furrowed.

World Eradication Elder also suddenly turned around, looking towards the great river of time. He couldn’t help but reveal a strange expression!

### [Perfect World](#)

#### **Chapter 2005: Slaughter From the Future Until Now**

“Attack! Kill him first!” Feather Emperor said, his voice extremely rushed.

Behind him, a pair of tattered wings reappeared, carrying blood. When they moved, Realm Sea began to stir, a rain of light scattering down his body. He was determined to get rid of Huang first.

“Kill!”

Grand Emperor responded with action, using his half immortal emperor magical artifact to slaughter forward.

As for Gray Emperor, he was also like this. He was always coordinating with those two emperors. He chanted incantations from his mouth, bringing about death curses.

World Eradication Elder turned around, gazing into that great river of time. His expression was grave. He wasn’t opposed to the three emperors’ attacks, but he also carried restraining fear towards that creature from the long river of time.

For them, what was frightening? There was almost nothing!

It was because they were precisely the most powerful creatures.

That was unless it involved time. If something came from the great river of time, that individual might be extremely extraordinary. This was an unforeseeable variable.

Once it touched upon half immortal emperors that went against time, not even they could deduce what would happen.

An intense great battle erupted. Shi Hao fought a decisive battle against the three half immortal emperors.

Feather Emperor, Grand Emperor and Gray Emperor all ingested an Emperor Pill each. Their entire bodies surged with dark light, becoming more and more powerful, their darkness force incredibly powerful. Their magical force erupted, quickly returning to the peak.

That was why they remained fearless, wishing to unleash a great slaughter and wipe out this great enemy.

However, the current Shi Hao already underwent an instance of transformation, also becoming different. He surged with magical force, increasing his dao skills. Together with the pain of losing his son and his brothers, his killing intent became terrifying to the extreme.

Hong!

This place was beaten into ruin. Realm Sea's waters couldn't immediately cover up this area.

The four great half immortal emperors slaughtered their way here, clashing intensely, blood splashing everywhere. This was history's most intense great battle, new worlds opened in the seas at every turn.

It was because the power was too vast. When primal chaos was torn through, there would be a new heaven and earth.

Only half immortal emperors could do this, realm eradication and realm creation were both within their palms and fingers.

The long river of time surged, shaking intensely. That place became hazy, three shocking rainbows quickly arriving from the lower reaches of time.

World Eradication Elder's expression finally changed. He could sense that they were half immortal emperors, all three of them. They rushed over from that place at the same time. This was a bit terrifying.

One had to understand that from the past until the present, how many half immortal emperors were there? Those who were still alive were all here!

If he was included, there were only five of them.

However, in the lower reaches of the great river of time, three of them immediately appeared in a group. This was extremely terrifying. This type of fighting strength, when grouped up together, could overthrow many things.

It was clear that moving along the river of time wasn't an easy task, easily triggering great karma, bringing about danger.

Normal experts weren't willing to do this.

Not even half immortal emperors would easily touch this kind of karma. They could wander about the great river of time, but they usually avoided it, normally definitely wouldn't interfere with anything out of fear of bringing about a great disaster upon themselves.

The greater one's strength, the greater the karma involved!

Otherwise, without any restrictions, if they just behaved unscrupulously, trying to change everything, wouldn't this entire world become chaotic? There wouldn't be any meaning in existence then!

They were now close. One could already vaguely see three experts descending, wrapped within unmatched divine light. Those great dao symbols were extremely powerful, intimidating their souls.

Even World Eradication Elder, this type of individual was shaken. As expected, there were powerful half immortal emperors who came. Judging from how they were seething with killing intent, he felt like things were far from reassuring.

There were three individuals on that side. If they joined up with Huang, wouldn't it be four against four?

The arrogant Feather Emperor's wings were fiercely beating right now, erupting with heaven overflowing killing intent. He wanted to kill Huang as soon as possible, to get rid of this huge problem.

He saw the three individuals who were descending, fearing that something unexpected would happen.

Right now, they had four half immortal emperors on their side. If they joined up, they could definitely seal up Huang, slowly whittle away at him until he perished. This was a situation of inevitable victory.

Comparatively speaking, they really didn't want to see any new variables.

The three creatures who came from the lower reaches of the great river of time immediately made the situation become complicated.

There were three great creatures, two men and one woman. They were all in human forms, the auras they released incomparable, making one feel like they were about to suffocate.

Resplendent symbols swirled around their bodies, patterns covering them densely, indicating that their dao laws were extremely profound. These were experts with unmatched aptitudes.

These three individuals moved together, looking down on all under the sky. They stared at Realm Sea, overlooking all experts here.

The two men and one woman were full of a dazzling rain of light. They walked towards this place, making Realm Sea separate and the heavens tremble. When they were all together, they really were too powerful.

Right now, the three great experts stared at Shi Hao. When they saw him, they immediately smiled.

"It's him, we truly found him!"

One of them muttered to himself.

When they saw the three great experts smile, Feather Emperor, Grand Emperor and Gray Emperor's faces immediately changed. This really was too terrible. If they smiled towards Huang, then they were most likely enemies and not allies.

Even World Eradication Elder's mind trembled, feeling like the situation wasn't good.

"Dao friends came from so far away. We are of different times, but this is also a meeting of fate. However, going against the great river of time, if you take action recklessly, this entire heaven and earth will be overturned."

World Eradication Elder reminded. He was extremely worried. If these three experts were to attack, the consequences would be unimaginable.

At this moment, Feather Emperor's expression became more and more cold. He had a type of suspicion, feeling that Huang would most likely die today, so that was why the future experts went against the great river of time to change the situation.

Perhaps this battle was related to too much.

For the sake of changing some great events in the future, for the sake of altering their fate, they didn't hesitate to rush back endless years. Even if they were going to suffer tremendous karma backlash, they still wanted to change the past.

"Right, Huang perished today. These people came here for him." World Eradication Elder nodded, saying this to himself.

Gray Emperor and Grand Emperor inwardly nodded, because there were four great half immortal emperors who could surround and kill Huang. As for what the end result would be like, it was hard to predict.

Now, if someone came to interfere, they most likely belonged to enemy forces. If they were on the same side as them, they definitely wouldn't have come all the way here, there was no need to change anything.

"Attack!"

Right at this time, the female of the three individuals released a light shout, reaching out a snow-white sparkling hand, striking towards this battlefield.

The power of this palm was extremely horrifying, carrying heaven overflowing great dao symbols. They covered everything, shaking the past, present and future.

"Dao friends, do you all know what you are doing? Will you be able to bear this type of karma?" World Eradication Elder shouted.

His expression now truly changed. If they defied the great river of time like this to change the battle situation, the backlash of heaven and earth might be something even they would get caught up in.

The most important thing was that if Huang really was saved by them, would this result in a terrifying and incomprehensible brand new future?

This was unimaginable!

Feather Emperor and the others had never tried such a thing before, nor did they dare do this type of thing. Once they made this type of decision, truly taking action, even half immortal emperors had no choice but to perish.

Honglong!

Heaven and earth exploded, great waves surged in Realm Sea.

That woman's palm smashed over, the destructive force astonishing. It brushed past Shi Hao's shoulder, striking into the sea. All things were corroded, the dao laws of the heavens were broken down.

After Shi Hao avoided this attack, he looked at her coldly.

Feather Emperor, Grand Emperor and Gray Emperor were all stunned. They didn't expect to see this result! That woman was attacking Huang?

"You all have misunderstood." One of the three experts said.

This was a man clad in Immortal Gold armor, in his hand a great halberd. He had a head of silver hair, his body giving off an intimidating presence. His pupils were piercing like blades.

When World Eradication Elder heard this, he was stunned as well. Then, he revealed a strange expression.

Gray Emperor, Grand Emperor and Feather Emperor were also like this. They truly never expected to see this type of result.

"We indeed came for Huang, but not to save him, but rather to kill him!" That woman said.

Resplendent great dao symbols receded. She revealed her true appearance. This was a rather pretty woman, her appearance around thirty something years of age. She was dressed in long golden robes that also looked like armor, full of a noble aura. At the same time, the radiance in her eyes was fierce.

Her bearing was elegant. As a half immortal emperor, she already had a unique aura to her. Together with her exceptional appearance, she naturally seemed even more aloof and transcendent.

The third individual was an elder with a head of crimson hair. His figure was strong and robust, in his hands a snow-white Heaven Measuring Ruler that possessed unmatched power, as if it could size up the heavens itself, eradicate all enemies.

"How can I trust all of you?" Feather Emperor said.

"Simple. We will join hands and suppress and kill him together!" That silver-haired man with the great halberd in hand said. His aura was terrifying, pressing forward with the weapon in hand.

Hong!

Immediately afterwards, these three experts took action decisively.

They actually really joined up together, suppressing and attacking Huang!

"Boasting shamelessly, where did you brats come from? Who dares make me their enemy?!" Shi Hao roared out domineeringly. He was being attacked right now, but he definitely wouldn't feel fear.

Even if it was someone from the future who understood history, understood him, he still didn't feel much fear. He was confident that he was unmatched, he had to destroy all enemies in his path.

Not long ago, he completed a transformation, his entire body surging with blood energy. He returned to his peak, now about to make another breakthrough.

“Dao friends, why aren’t you hurrying and taking action? We cannot leave this person alive!” That golden-robed woman said, her expression a bit anxious, clearly even more worried than Feather Emperor.

“Why do you all need to do this? Are you not scared of perishing yourselves?” Feather Emperor carried many doubts, asking like this.

“It is because this person’s influence is just too great!” The elder who held the Heaven Measuring Ruler said.

“He previously...” However, when he spoke up to here, thunder crashed down from above, lightning flashed, striking down on his body with incomparable ferocity.

However, this lightning didn’t injure him.

Even so, another wave of mysterious power appeared, blasting his body, completely blocking his words. This was the force of karma.

He wanted to expose heaven’s mysteries, so the effects might be tremendous. As a result, he suffered a backlash on the spot!

Pu!

The elder coughed out blood.

“Hurry, take action together! We don’t have much time left! We came with the resolution to lose our lives, the current situation isn’t good!” The silver-haired man who held a great halberd in hand roared out.

He invited World Eradication Elder, Feather Emperor, Grand Emperor and Gray Emperor to suppress Shi Hao together.

It was because the three of them came from the future, any random strike bringing about tremendous karma. Now, the four of them were already starting to experience the consequences of the backlash.

This was still the case when they didn’t do much to Shi Hao, all of their attacks were neutralized by him.

If they really changed anything, even slightly, then they had to pay a tremendous price in blood.

“Why are you all not taking action yet? What are you waiting for?” That woman screamed out.

“Doing things like this, changing the situation of a great age, don’t you think it will overturn endless time? What will happen to your bodies, what will happen to us?” World Eradication Elder’s face was serious as he asked.

“How could we bother with so much? We only know that if this person doesn’t die, the effects are too great, he...” The silver-haired man roared out in anger. The great halberd in his hands became increasingly resplendent.

When World Eradication Elder heard this, his expression became ugly. He took action.

Gray Emperor, Grand Emperor and Feather Emperor were all like this as well. They were first shocked, and then their expressions sunk.

“Kill!”

Things were already like this. Seven great experts surrounded and attacked Shi Hao, wishing to subdue him forever, and then slowly whittle down at him until he was destroyed, turn him into a flame, make both his body and spirit perish.

Ever since the creation of heaven and earth, this type of thing had never happened before.

It was because in this world, so many half immortal emperors had never appeared before.

In addition, the seven great creatures were surrounding a single person. This was just too crazy! What kind of powerful individual needed seven great half immortal emperors to surround and kill him together?!

However, reality was right before their eyes!

Shi Hao fell into a desperate situation.

This was something that had never happened before. A great scene of chaos was about to begin, one that exceeded everyone’s imaginations.

This was the most bitter world ending battle. Shi Hao experienced the darkest day of his life. When facing the joint attack of seven great half immortal emperors, who could succeed?

This scene of darkness great chaos affected too much, terrifying to a horrifying degree. There were actually experts from the future who were now involved. This was the greatest and most shocking event from the past until now!

Shi Hao held on bitterly, suffering the most terrifying attacks from all sides.

The only fortunate thing was that the three great experts’ hands and legs were restricted, because there was still some rebound force that existed!

“You all go too far!”

Right at this time, there was someone who roared out from the lower reaches of the great river of time, their voice carrying endless rage and murderous intent, quickly rushing over.

Dang!

A great bell rang out. A person who had a great bell floating above his head, as if impervious to all methods slaughtered his way over.

He was clearly not the only one. There were other creatures who descended!

[Perfect World](#)

**Chapter 2006: Defying Time**

- Defying Time

The great bell was majestic, releasing chaotic energy. Every single time it shook, there would always be time ripples that extended. It scattered down millions and millions of strands of immortal radiance, wrapping around a tall and sturdy figure. This individual quickly arrived.

Another figure struggled free from the great river of time.

He arrived from the lower reaches, his figure carrying endless fighting intent, as well as unmatched cultivation. This was without a doubt another half immortal emperor level expert.

“And who are you?!” Gray Emperor shouted.

“My name is Without Beginning!” The one who came shouted. He directly took action, because he saw Huang, that legendary figure. He quickly rushed forward to provide aid.

His objective was precisely the three who came from the future, wishing to stop them.

Dang!

The great bell rang out in a long and drawn-out manner. Even though the great river of time was precisely in the distance, he remained fearless, not afraid of being corroded. He directly took action, activating the power of time to sweep through the three individuals at the same time.

Without Beginning, these two words shook all of Realm Sea, raging through Immortal Domain’s mountains and rivers.

Immortal Domain’s experts always paid attention to the great battle in Realm Sea. Just now, their hearts all went cold, Huang actually had to face seven half immortal emperors alone, truly lamentable. There was actually no one who could provide him with aid, not a single person who could fight shoulder to shoulder with him. He could only rely on himself.

Meanwhile now, another expert finally appeared. He arrived so powerfully, stirring on bell waves and declaring his own name.

Right now, Immortal Domain’s experts, even if they were men of steel, their noses still felt a bit sore. There was finally someone else who came that could help Huang.

Some young ladies immediately wept. They felt like Huang’s experiences really were too bitter, he paid too much in this battle. Even his brothers died, his own son choosing to carry out a blood sacrifice. He was left alone on the battlefield, what he had to take on alone just too great. Now, there was finally a helper who fought at Huang’s side, so how could they not feel shaken?

There were some people whose eyes were brimming with tears of excitement. This battle had already continued for a long time, many people’s hearts were pushed up to their throats. They were scared and worried, fearing that Heavenly Emperor Huang would perish, die in Realm Sea.

The people at Huang’s side all died. If he himself also died, then this clan would be too lamentable.

Dang!

Without Beginning activated his weapon, facing that Heaven Measuring Ruler elder. The great bell rumbled, primal chaos erupting. The power of time was incomparable as it charged forward, wreaking chaos.

At the same time, he faced the silver-haired man who held that great halberd. He wanted to take on more opponents, lighten Shi Hao's burden.

When he saw this age's Heavenly Emperor Huang with his own eyes, Without Beginning's heart was also shaken. When he saw how this person fought seven half immortal emperors alone, thinking about how he lived in this period of the darkest age, he was deeply moved, his heart stirring powerfully.

"Without Beginning, you won't be able to stop us!" That Heaven Measuring Ruler holding elder shouted.

"You all do not belong to this place, don't even belong to our time, but instead came from that sealed ancient passage. It's best if you return!" Without Beginning shouted.

With this shout, some clues were revealed.

When he heard these words, Shi Hao's eyes became resplendent, staring at them.

Even World Eradication Elder's eyes erupted with brilliance. He was thinking to himself, making some associations.

Feather Emperor, Grand Emperor and Gray Emperor were all shaken, a bit shocked. Was the future this terrifying and complicated? It seemed like there were smoke and flames of war they didn't understand.

"Dao friends, do not be distracted. We only need to kill Huang and then everything will be solved, everything will become nothing!" That woman from the future shouted. Her golden battle clothes fluttered about.

They felt great restraining fear. When facing Shi Hao, they couldn't display their full strength.

They already set their resolutions to perish here, but this was on the premise that they could kill Shi Hao. However, they didn't find that opportunity yet, so they were still waiting.

They needed Feather Emperor, Grand Emperor and others to fight a great battle against Heavenly Emperor Huang, and then they would deal the fatal blow at the most crucial moment, eliminate this terrifying human clan expert.

"Kill!"

World Eradication Elder seemed to have realized something. He released a great roar, no longer as kind as he seemed before, no longer mentioning some similar type of people with Shi Hao.

His aura was world shocking and terrifying, releasing surging black clouds. This was the most basic darkness force, making even the ocean floor of Realm Sea burst.

At the same time, the dam became unstable. One could imagine how strong he was.

Shi Hao entered a dangerous situation. Seven great experts surrounded him, their main goal to end his life.

Dang!

Without Beginning's bell sounded. Heaven and earth split apart, the power of time spreading, surrounding all creatures.

Pu!

However, he himself also coughed out a mouthful of blood, because what he was facing wasn't a creature from his age, he was suffering backlash.

"You don't need to take action against them. I will deal with them." Shi Hao said to Without Beginning, telling him to not touch Feather Emperor, Gray Emperor, Grand Emperor or World Eradication Elder.

He was going to face these experts himself, because if he who didn't belong to this world tried to forcefully interfere, Without Beginning would suffer serious damage.

"Kill him first!"

That woman in the golden battle clothes shouted, decisively teaming up with the other two to suppress and kill Without Beginning.

Even though they weren't creatures of the same world, they came from the same age, so they met each other before, they also fought before. They could fight intensely against each other without being affected by the great river of time's great karma.

"Kill!"

The silver-haired man released a loud shout. He held the great halberd in hand, bringing it hacking down towards Without Beginning. He was powerful beyond comparison. A wave of imperial presence surged, his hair like silver waterfalls, cutting open Realm Sea.

"You all should cease your insolence!"

Right at this time, in the great river of time, multicolored light flickered about, Nine-colored Immortal Gold aura spread. A great cauldron appeared, at the same time releasing All Life Source Energy.

Above the cauldron was a man whose figure was tall and heroic. His brows were pointed upwards, his gaze sharp like cold lightning. He brandished his emperor fist, slaughtering his way over.

Dang!

The great cauldron above his head shook, striking that great halberd, releasing dazzling radiance. Symbols swirled about.

Then, he bare-handedly tapped against that Heaven Measuring Ruler, sending it flying. One could see just how world shocking this divine force was!

However, after arriving here, his figure became a bit blurry, wrapped around by the power of time, becoming increasingly indistinct.

"En, you share tremendous karma with someone here, resulting in this type of scene. By appearing at the same time, your body was covered by the power of time." The golden-clothed woman said.

Her dress fluttered about, mixed within the fluttering noises were metal clanking noises. Her battle clothes were actually woven out of Immortal Gold strands.

“Kill!”

The male with the great cauldron floating above him shouted. He attacked fiercely, a fist smashing towards that woman’s body.

The woman’s expression suddenly changed. She was fully aware about this person’s fist imprint. In the past, she had suffered greatly because of it, so she didn’t dare face it head-on at this time, instead activating her own magical artifact.

A heavenly halberd appeared. She was a woman, yet she actually held this type of weapon. It rippled with endless killing power!

With a dang noise, the one who came struck down against the heavenly halberd, his fist imprint remaining undamaged.

Dang dang dang...

At this time, Without Beginning took action. He was no longer facing three people alone. After his hands were freed up a bit, he stirred on the great bell, suppressing forward.

The sound waves his great bell released made that Heaven Measuring Ruler elder stagger, almost fall.

“Regardless, we must kill Huang today. Do not give him a chance! We have long set the resolution to give up our lives, so we must obtain a result!” The woman dressed in golden battle clothes roared. Her appearance was rather fine, but now, she seemed a bit sinister, because she really was becoming nervous.

She struggled free from that battlefield, wishing to assist Feather Emperor, Grand Emperor, Gray Emperor and the others.

In her opinion, there was nothing more important than killing Huang. It was related to the most important events in the future!

Hong!

The great river of time surged, great waves striking the heavens. A woman appeared, her white clothes purer than snow, black hair dancing about. Her appearance was exceptional, her style unmatched, as if walking on ripples.

Right now, she took action, attacking the golden-robed woman.

“No one can go against time, all those who stir up havoc will find their efforts futile. If you don’t belong to this time-space, you will never be able to change anything.”

The white-clothed woman’s style was exceptional. While she said these things, her white hand was raised upwards. Immortal radiance shone resplendently, striking down on that heavenly halberd, directly cutting off the golden battle clothed woman.

What she said was the truth. Those who dared go against the great river of time all died in the end.

If it involved some small cultivators and ordinary people, but didn't affect the past and present, not getting involved in any important affairs, perhaps after one paid a sufficient price themselves, it would be fine.

"You all are still not enough to face Heavenly Emperor Huang! In the end, all of it will be for naught!" The white-clothed woman said decisively.

In the distance, Shi Hao's expression was intimidating. He looked in this direction, seeing that familiar great cauldron, that white-clothed woman, his heart surging with emotions.

In the past, he had seen that white-clothed woman more than once. That was a person who belonged to a different age.

Things already developed like this. The most intense great battle erupted.

These half immortal emperors fought a bloody battle in Realm Sea.

This battle continued until the heavens and earths were shaken, until ghosts wept and deities howled.

For two whole days, Realm Sea surged. Their great battle continued, it was just too intense.

Pu!

The first to decide victory and defeat were the white-clothed woman and the golden-clothed woman. While the two faced each other, with a raise of the white-clothed woman's hand, immortal radiance surged, wondrous techniques endless. Her snow-white palm formed a magical imprint, blasting her opponent flying, blood flying out from her mouth.

She was always just this stunning and unrivaled, this white-clothed empress was always this domineering even in her rise to power. She swept through the golden-clothed woman, blasting her until she continuously coughed out blood.

The golden dressed woman's cultivation was indeed extremely terrifying, but her combat sense was inferior to the white-clothed half immortal emperor.

"Kill! Even if we have to carry out a blood sacrifice here, we still have to kill Huang!" The hair of the woman dressed in golden long robes scattered about, about to risk her life out of desperation.

She wanted to use extreme methods and then surround and kill Shi Hao together with everyone else.

"Seeing how you all are in this much of a rush to kill Heavenly Emperor Huang, I no longer feel that the future is gray. It seems like it isn't without hope." The white-clothed empress said.

"Indeed!" The one with the great cauldron floating above his head also nodded. He was incredibly valiant, now slaughtering forward. He faced the great halberd wielding man, continuously dealing serious blows, blasting him until he was greatly shaken, the space between his fingers even splitting.

Dang!

On the other side, Without Beginning's bell shook, striking the Heaven Measuring Ruler wielding elder until his hair and beard fell off, his appearance became aged, suffering the corrosion of the great dao of time.

He almost lost his grip on the Heaven Measuring Ruler.

“The future presumably still has an opportunity of life, no longer leaving one in complete despair!”  
Without Beginning said.

These words left Shi Hao greatly shaken. Even half immortal emperors were almost in complete despair, just what exactly was going to happen in the future? Just how many terrifying enemies would appear?

He thought of Cao Yusheng who previously warned him, uncovered a corner of the future. It seemed to be extremely terrifying.

However, there were people who came to kill him right now, so it was a bit strange.

The most terrifying battle right now was obviously at Shi Hao’s side. He was facing four emperors alone, the pressure he suffered too great. His entire body was covered in blood, but he also became more and more ferocious.

“Even if we have to stir on great karma, offer ourselves in blood sacrifice, perish here, we have to kill Huang!”

At this time, the silver-haired man who held the great halberd, the elder who grasped the Heaven Measuring Ruler and the golden-clothed heavenly halberd wielding woman all began to go all out.

They struggled free from their opponent’s obstruction, rushing into the heavens. They stood together, not hesitating to burn their most precious heart essence blood, wishing to carry out a type of forbidden method to surround and kill Huang.

Hong!

Without Beginning, white-clothed empress and the man with the great cauldron floating above him all rushed into the heavens, turning into three streaks of immortal rainbows, dazzling beyond comparison. They tangled about the three great experts, stopping them.

An even more intense great battle erupted.

Even the great river of time was stirring, not calm at all, as if it was going to change trajectories.

“You all are carried away by your wishful thinking. How can the river of time be altered? No one can alter the great events that take place in other areas of time-space!” The man with the great cauldron floating above his head shouted.

He took action powerfully, wishing to suppress the enemy.

Where Shi Hao was, four great experts surrounded and attacked him, making his expression become increasingly cold. He was about to attack powerfully, go all out against these half immortal emperors. It was time for them to fall.

## [Perfect World](#)

### **Chapter 2007: Suppressing a Half Immortal Emperor**

- Suppressing a Half Immortal Emperor

Even though Shi Hao's entire body was covered in blood, his injuries serious, he was still surging with killing intent. Under the joint attacks of four great emperors, being able to live was already a miracle.

Comparatively speaking, World Eradication Elder's body also had injuries, but they couldn't be considered much at all, extremely light. His entire body shone, and then all of these injuries were completely recovered from.

Meanwhile, on Shi Hao's body, those cracks were simply about to rip open. He was a half immortal emperor, but he had to face four great experts at the same time, so he was still in danger.

"Huang, you are dead for sure!" Feather Emperor roared out. He felt like he could get rid of Huang today. This newcomer really was a bit too frightening.

World Eradication Elder's expression was serious. He didn't feel any joy over this.

Shi Hao was just like how he was in the beginning of this great battle, resolute and cold, his confidence never wavering. This was especially the case now when his killing intent surged. Even though he was bloodstained, he still had an appearance of wishing to suppress and kill all enemies.

Hou!

He released a great roar, his entire body surging with blood energy. The Law Pool floated above his head, in his hand an immortal sword core that swept out, the penetrating sword radiance cutting through eternity.

En?

Right at this moment, Gray Emperor's expression paled, sensing that things were really bad. He felt a bit powerless, a bit weak.

Pu!

Under the thousands of streaks of sword radiance, he was the only one who couldn't evade. His head was removed by Shi Hao, his neck looking like a bloody mouth.

He staggered backwards, his hands clutching his neck, face filled with shock.

"You..." Gray Emperor spat out blood from his mouth, his pupils rapidly contracting. He was greatly shaken inwardly, because his head was almost hacked off.

"Kill!"

Shi Hao's hair was disheveled. His injuries were much more serious than those of the four great half immortal emperors, but now, he looked like a war god, powerful to the extreme, unstoppable.

"Kill him!" Grand Emperor shouted.

The four great experts took action at the same time. Waves surged in Realm Sea, turning into smoke and clouds, continuously being destroyed.

Realm creation and realm eradication, when individuals of their level fought, all of this happened in an instant.

Primal chaos wreaked havoc, immortal energy surged. Sword radiance turned into the everlasting, releasing a sky gathering earth encompassing net. Light mist was hazy here, forming an expanse of brilliance, but it was also incredibly terrifying.

Pu!

This time, Grand Emperor suffered a serious blow. His pupils rapidly contracted, quickly withdrawing. The space between his brows was cut open, dripping with blood, that primordial spirit even cut apart.

If not for him being a half immortal emperor, he would have definitely died under that sword core.

“Why has my body become weak?”

At this time, Gray Emperor also spoke out. This wasn’t something unexpected, but rather their magical force drying up, body becoming incredibly weary. It wasn’t him alone that experienced this type of thing.

“Senior, what is going on?” Gray Emperor looked towards World Eradication Elder.

Feather Emperor’s expression also changed. He also noticed that his body was gradually becoming powerless.

Feather Emperor wasn’t that polite. He suddenly turned around to look at World Eradication Elder. “Old thing, your half immortal emperor pill could only momentarily recover vitality?”

At this time, Gray Emperor, Grand Emperor and Feather Emperor were no longer at their peak states. Gray Emperor was the first one to become weak, while Feather Emperor only began to weaken towards the end.

Shi Hao’s expression was cold, continuing to slaughter his way forward. Just now, he was the first to realize that there was a declining aura emitted from the three individuals’ bodies.

Later on, he saw World Eradication Elder frown, so he immediately deduced that the three emperors were weakening.

“Your injuries were too serious, your foundations have injuries. Where in this world could one find any half immortal emperor medicines that could instantly make you all recover? That was just a dose of stimulant, allowing for temporary recovery. If you want to heal completely, you need time.” World Eradication Elder said.

“You...” Feather Emperor was furious, a pair of wings moving about, making heaven and earth split. Light poured down like rain, simply about to cut apart Realm Sea.

He had no choice but to back up and avoid Shi Hao’s attacks. It was as if they returned to back then when their blood essence was about to dry up, difficult for them to display their greatest fighting strength.

Grand Emperor and Gray Emperor’s expressions changed. They quickly backed up, trying to avoid that domineering and unmatched Huang. Even though his body was covered in cracks, the wounds deep to the point of bones being visible, for them, this was a fierce tiger, a war god!

“This is a decisive battle between me and you!” Shi Hao pressed forward.

He targeted World Eradication Elder. As long as he was dealt with, the other three experts would not be an issue.

His vitality had previously withered up as well, but unlike the three great experts who used half immortal pills to recover, he underwent a transformation. Even if he took on heavy injuries that were hard to heal from, he still possessed surging terrifying strength.

“You...”

At this time, Shi Hao overlooked the three great immortal emperors, making them feel a type of humiliation. He walked past them just like that, treating them like clay sculptures.

Roar!

The three of them released low roars and then turned around, wishing to leave.

“Just because I am not attacking you all right now, it doesn’t mean I am letting you all go!”

With a hong noise, Shi Hao erupted with immeasurable divine might. Three waves of clear energy rushed out from his chest, turning into his appearance, attacking the three great experts.

He still couldn’t display the Embodiment Transformation Great Method, there seemed to be some repercussions after he detonated that ‘true body’ that year.

However, the war bodies that were transformed from his aura, when they faced the three declined half immortal emperors, they also fought fiercely.

“You dare look down on us!” Grand Emperor said coldly.

How could Shi Hao tend to these things? He fought against the World Eradication Elder, slaughtering out with true flames, carrying out the final great decisive battle, wishing to kill this person.

Two days already passed when they fought like this.

The creatures from the future and present were all still here, the great battle shocking heaven and earth, shaking the past, present and future.

When they slaughtered up to this point, Shi Hao and World Eradication Elder’s bodies were all damaged, both of them falling from that miraculous realm. It was because that so-called transformation, the powerful and complete body couldn’t be maintained for a long period of time.

Shi Hao understood that if he truly wanted to completely enter the Immortal Emperor Realm, it would indeed be extremely dangerous, this path dangerous to the point of despair.

Right now, they were fighting with the power of half immortal emperor level methods, just like before when Shi Hao fought with Feather Emperor and the others.

The two were both covered in blood, their magical force surging, primal chaos erupting. They fought until blood splashed in all directions, until they went completely crazy.

Yahoo...

Right at this time, World Eradication Elder released a roar. He revealed a giant wolf head, the scarlet red hair extremely thick. On his head was a pair of giant horns that looked incredibly ferocious.

It opened its bloody mouth, biting at Shi Hao.

Under this bite, even Realm Sea was annihilated, even the stars in the heavens falling into that mouth. It was too terrifying.

This was countless times more terrifying than the Taotie divine ability. It truly devoured the heavens and swallowed the earth, refined all things.

The giant divine wolf head opened its bloody mouth, wishing to devour everything nearby in one bite. It released dark light, refining all tangible matter.

Shi Hao activated his Law Pool. With a dang noise, it rushed forward, stopping this abrupt change.

The pair of giant black horns on World Eradication Elder's red wolf head shone, smashing into that Law Pool, making time and space here collapse, Realm Sea dry up.

Hou!

This vicious might was world shocking!

At their cultivation level, they could normally always retain their humanoid appearance, only rarely would they reveal their true body. They wouldn't go as crazy as World Eradication Elder.

Roar!

A great roar resounded through Realm Sea, shaking up the past, present and future.

In the sea, there were fallen kings who broke apart inch by inch under the sound waves. Then, they exploded to pieces. The waves that surged from Realm Sea washed the sky dome clean.

At the same time, behind World Eradication Elder's wolf body, nine tails suddenly surged, thrashing towards Shi Hao. They were like giant snakes, wishing to tear apart the starry cosmos.

Shi Hao rapidly backed up. He sucked in a cold breath of air. What nine giant snakes, those were nine True Dragons, pitch-black like ink. The dragon heads were sinister, their fierce teeth terrifying when they opened their giant mouths.

World Eradication Elder revealed his entire true body.

There were actually dragon heads at the end of the nine tails!

Shi Hao knew what kind of race this was.

Nine Netherworlds Ao!

This was one of the Vicious Ten, its reputation renowned under heaven.

This was an elder who had lived for who knew how many great eras. Its original body was actually a Nine Netherworlds Ao, definitely an ancestral level existence of this clan.

His descendants were within the Nine Heavens Ten Earths and Immortal Domain, yet he was the monarch at the other end of Realm Sea!

In the distance, some battles came to an end.

The white-clothed woman's style was extraordinary, decisive and fierce when she took action, like an immortal empress from beyond the heavens. She was unstoppable, the first to completely overwhelm that golden-clothed woman, blasting her body until it split into pieces.

She only relied on her soft and fine snow-white hands. Her palm strength was tremendous, she released immortal ascension light, shocking the heavens and shaking the earth, making even the distant Shi Hao's expression change.

Honglong!

The white-clothed female half immortal emperor rushed through the sky, chasing after the golden battle clothed woman, continuously dealing serious blows, displaying unmatched magical imprints, pressing forward.

Pu!

When her sparkling palm descended, that woman was blasted into pieces and then she exploded, blossoming in Realm Sea, her blood and bones flying in all directions.

What was a pity was that it was extremely difficult for half immortal emperors to die. A primordial spirit flame screamed fiercely, wrapping around the smashed bones and flesh, rushing towards the great river of time, fleeing in panic.

Their battle continued for two days and two nights, yet it was the first battle to end!

Roar!

In the distance, that silver-haired man roared out, a bit worried, a bit upset. However, his current situation was also quite bad, seriously injured by the one with the great cauldron floating above his head.

"Die!"

Below the great cauldron, that man's figure was hazy and indistinct, but his aura was definitely not weak, instead overflowing into the heavens. He was like an unmatched overlord from before the heavens were forged, his power oppressing all realms under the heavens.

Hong!

His arms moved, brushing aside the emperor fist, continuing to attack, destroying everything in his path, nothing he couldn't smash through.

After fighting for two days and two nights, that silver-haired man's arms were covered in blood, the space between his fingers splitting apart. The hand that held the great halberd was even contorting. He suffered serious blows, his entire body shaking intensely.

This battle was also close to an end.

When the great cauldron descended, it suppressed down on that great halberd.

Meanwhile, the fists of the owner of the cauldron erupted with golden light, sturdy and imperishable. They shattered the everlasting, displaying unmatched loftiness. A fist smashed over, passing through that silver-haired man's chest. Then, with a fierce shake, his body broke apart into pieces!

Pu!

Blood scattered over Realm Sea!

Honglong!

The owner of the great cauldron brandished his fist imprint, passing by that silver-haired man's ruined body just like that. Then, his entire body also passed by the side of the bloody mist, he continuously smashed out magical imprints, suppressing the primordial spirit light.

The silver-haired man's primordial spirit light wrapped around his blood and bones, wishing to escape back to the long river of time.

However, the owner of the great cauldron chased after him. That cauldron was too massive. The opening shone, sucking in the primordial spirit light and all of the blood and bones.

"You dare?!"

The silver-haired man roared out, struggling with everything he had. If he really was suppressed in that cauldron, even if half immortal emperors were imperishable throughout endless ages, he would still most likely be slowly refined away.

"Why wouldn't I dare?!" The master of the cauldron said coldly, "Today, I am going to suppress and kill you!"

Honglong!

The great cauldron shone, nine-colored immortal energy pervading the air. There was also All Life Source Energy that surged, sucking away the primordial spirit light, blood and bones.

"Kill!"

The silver-haired man, as an unrivaled half immortal emperor, when had he ever experienced this type of humiliation before? He struggled intensely, wishing to charge out.

However, his ending was extremely pitiful. The white-clothed empress descended from above, her style unmatched. Her white hand was raised and then a palm smashed down with a hong noise.

Pu!

His primordial spirit light was scattered, his blood, bones and other things all flew into the cauldron. His soul flame flared, wishing to recombine, but he still failed in the end.

The white-clothed female half immortal emperor blocked in front. Another palm struck out, scattering the primordial spirit light again for the second time. It was powerful beyond compare, directly smashing him into the cauldron.

“Collect!”

At this time, the great cauldron swayed. Even though the body of the owner of the cauldron was a bit indistinct, his expression was brilliant like electrical radiance, releasing resplendent brilliance. Following a light shout, he was completely sucked in, starting to be refined.

In the distance, the Heaven Measuring Ruler holding elder was horrified. He also suffered serious injuries, attacked by Without Beginning until his entire body split apart, almost exploding to death several times.

Now, he didn't have any will to continue fighting zealously left, directly turning around and running away.

It was because he was scared of being left behind.

Dang!

The great bell rang out in a long and drawn-out manner, flying over. It smashed into his back, blasting his lower body to the point of exploding. Only the upper half of his body entered the long river of time.

Peng!

The white-clothed woman added a palm, her white hands incomparable. Even from millions and millions of li away, the upper half of his body still exploded!

However, it was a bit lamentable, it was already too late to stop him. This elder's primordial spirit carried the Heaven Measuring Ruler, fleeing.

This was a world shocking battle. The experts from the future decided victory and defeat, and there was even a half immortal emperor who was subdued!

One could imagine that he definitely wouldn't meet a good ending. With three great half immortal emperors taking action at the same time, he was definitely going to be erased from existence.

At this time, Feather Emperor, Grand Emperor and Gray Emperor's expressions all changed, feeling endless restraining fear towards those three. These three experts were just too terrifying. They were trying to kill an emperor!

Fortunately, those three experts came from the future, so they likely wouldn't rashly take action against them.

In the distance, even World Eradication Elder was shocked, his pupils rapidly contracting. He could feel how terrifying the future world was. There were actually three stunning experts who appeared at the same time.

Roar!

However, he didn't let himself get distracted at all. His battle with Huang reached the climax.

“Kill!”

Shi Hao's eyes turned into blades, becoming incredibly intimidating. He displayed world shocking divine abilities, trying to suppress this Nine Netherworlds Ao.

Pu!

Right at this moment, his shining palm surged with dazzling golden radiance. Then, he continuously seized the tails of the Nine Netherworlds Ao, fiercely tearing at them.

Ah... The Nine Netherworlds Ao roared out.

A large half of its magical force was concentrated in these nine tails. Now, its roar shook the heavens.

Pu!

Blood rushed into the sky, rushing thirty thousand feet. Shi Hao tore off a few tails and then he fiercely smashed out a fist imprint, blasting the Nine Netherworlds Ao until its body split apart.

### [Perfect World](#)

#### **Chapter 2008: Great Battle's Conclusion**

- Great Battle's Conclusion

World Eradication Elder howled in pain. He quickly moved sideways. Six of his nine tails were broken off, his back also badly damaged, already about to break apart.

Right now, he already returned to human form. He stood in Realm Sea, darkness mist spreading all around him. His eyes were ice-cold as he looked at Shi Hao.

He was actually defeated!

In the distance, Feather Emperor, Grand Emperor and Gray Emperor were all alarmed. Even World Eradication Elder was defeated! This was truly a frightening thing. No wonder Huang could fight against the three of them for so long!

World Eradication Elder's body was dripping with blood, his entire body trembling. This wasn't from pain, but rather a wave of killing intent that was spreading. This meant that his current mood wasn't calm at all.

He slowly raised his head, forming a vicious claw, pointing it towards Shi Hao.

"Nine Netherworlds World Eradication!"

Following a great roar, waves of black mist surged from behind World Eradication Elder's back. He himself surged with dark light, forming a magical projection. This was his true form, right now towering over the boundless Realm Sea.

It was massive beyond comparison.

With a honglong noise, there was a black figure that took form. It had the appearance of a Nine Netherworlds Ao, massive beyond comparison, now slaughtering in Shi Hao's direction.

World Eradication Elder's body flowed with dark light, merging with that magical projection, becoming one with that magical body. World Eradication aura erupted, making the universe collapse, ruined worlds turning into scattered ashes.

Realm Sea was made from who knew how many ruined worlds, but now, they all collapsed, everything breaking apart.

He displayed his most powerful attack!

Hou!

A giant beast roared out, its great claws terrifying and sinister, covering the world as it descended.

Of course, the most shocking thing was that behind him, nine divine chains of order pierced through the universe, stabbing through Realm Sea, absorbing the world's source power. They then swept towards Shi Hao.

This was a world shocking great battle. In the final battle, the Nine Netherworlds Ao went all out.

How could Shi Hao remain unconcerned? He already moved, his body erupting with endless radiance. Right now, even though his body had scars, it was still brilliant, his entire body dazzling, releasing the most powerful aura.

At this moment, the great battle already entered the most crucial point, so how could he remain aloof? All types of techniques appeared in his mind, his vital energy becoming extremely concentrated. They turned into flames, rushing out from his body like sacred light.

Hong!

A sky shocking strike erupted. The two collided!

Peng!

Shi Hao's chest was blasted through, covered in blood. However, that beast claw was clasped in place by his body, and then forcibly broken.

Roar...

Beast roar noises sounded, shaking endless ages. The sound waves didn't only sound in the present world, they drifted about the great river of time, this terrifying noise sounded in many different areas of space-time.

Many people thought that it was the heavens that was roaring in anger.

Pu!

With this final blow, World Eradication Elder's magical projection was blasted through by Shi Hao, and then he exploded. His true body was even smashed to pieces by Shi Hao and then exploded.

World Eradication Elder suffered disaster, his primordial spirit wishing to escape.

Shi Hao's body shifted sideways. He held the Law Pool in hand, stopping him, wishing to collect him inside.

“Younger generation!” His primordial spirit was in the shape of the Nine Netherworlds Ao. Right now, it roared, fiery light surrounding its body, wrapping around its essence blood and crushed bones, glaring at him.

He had never suffered a defeat before, even Gray Emperor and Grand Emperor showing him great respect, treating him as a senior. However now, he landed in this type of state, his life force declining.

Dong!

Shi Hao displayed an unmatched sword art, stirring on his immortal sword, hacking open this primordial spirit, cutting off his path ahead.

World Eradication Elder couldn't leave even if he wanted to. He was locked onto by Shi Hao.

The Law Pool shook and then it suppressed forward fiercely. Great dao symbols interweaved in the pool, forming lightning radiance and murderous energy, tangling about there.

“Kill!”

The Nine Netherworlds Ao released a final roar, struggling with everything it had, wishing to break out.

It was a pity, he lost the chance to leave. With a turn of Shi Hao's hand, his palm and fingers formed a golden magical imprint. It smashed onto that sky reaching primordial spirit light, directly making it collapse.

With a weng sound, the Law Pool trembled, auspicious brilliance was released in millions and millions of strands, shining outwards. Then, the shattered primordial spirit light in the sky was completely restricted, collected into the Law Pool.

The insufferably arrogant Nine Netherworlds Ao Ancestor -- World Eradication Elder, was suppressed just like that!

Roar!

After entering the Law Pool, he was suppressed. His essence was continuously absorbed by this pool, being refined instead.

Even though it was hard for a half immortal emperor to die, needing an endless amount of time to grind away at, now that World Eradication Elder entered the pool, it was already hard for him to escape disaster.

In the distance, Feather Emperor, Grand Emperor and Gray Emperor's expressions were extremely unpleasant. They were on the same side, yet they saw their senior, the first to become a half emperor, become suppressed just like this.

The three individuals all felt like the situation wasn't good at all.

Right now, they were stopped by the three figures made from clear energy, unable to escape at all.

Meanwhile now, their conditions were extremely terrible, blood essence about to completely flow out. After fighting intensely for so many years, fighting with Shi Hao up to this step, their energies were already about to completely run dry.

They didn't experience a transformation like Shi Hao. Now, when they faced him again, that balance was broken!

In the past, the three of them were in an extremely shocking and strange balance, neither side able to do much to the other. They fought through endless time.

"I cannot accept this!"

Gray Emperor roared out.

Now, they entered a dangerous situation. If they recovered, they didn't fear any creature, but when faced with the current Huang whose blood energy was surging, it was definitely going to be a great disaster.

Pu!

Towards someone like him, Shi Hao didn't feel any hesitation. He held the immortal sword in hand, its brilliance dazzling. A sword hacked out and then a head rushed out, carrying frigid radiance.

Ah...

Gray Emperor roared out. He was extremely unwilling. If not for his blood essence being extinguished, his magical force dried up, in a state where he was about to wither away, he believed he could still fight.

Even if he wasn't Huang's match, it would still be better than right now. His current situation really left him too sullen.

A glorious half immortal emperor was actually beheaded.

Chi!

Another streak of sword light rushed past, hacking open his head, cutting through his primordial spirit, making Gray Emperor shocked and furious, but there was nothing he could do.

The Law Pool was brilliant. Streak after streak of chains of order extended outwards, locking up Gray Emperor, dragging him inside, suppressing him.

Then, without any suspense, Grand Emperor and Feather Emperor both fought bitterly to the end, not willing to resign themselves to their fate. However, how could they block the tyrannical Huang who was overflowing with killing intent?

Peng!

Grand Emperor was smashed through by Shi Hao's fist and then his body exploded. With a peng noise, Shi Hao grabbed Grand Emperor's head, also sealing his primordial spirit in the Law Pool.

Feather Emperor was like a trapped beast. He was extremely powerful, daring to even treat World Eradication Elder with disrespect. Right now, he obviously wasn't willing to become a prisoner, fighting bloodily to the end.

With a pu noise, a pair of large hands seized him, directly tearing off his pair of ancient divine wings. Then, he was directly ripped apart, having his primordial spirit suppressed.

This scene left everyone in Immortal Domain deeply shocked. Some personally witnessed it, some saw it through a formation, seeing the final battle situation here.

“Heavenly Emperor Huang!”

A moment later, cheers sounded. Many people cried out the name Heavenly Emperor Huang.

They knew that a great crisis had been eliminated. Huang alone suppressed four great experts, sealed them in his Law Pool. They couldn’t cause any chaos ever again.

However, things still hadn’t ended!

Shi Hao took a step out, ascending the dam. Then, his large hand waved out. Many darkness creatures instantly exploded, turning into blasts of bloody mist.

That day, Huang unleashed a great massacre!

He took action, covering many darkness creatures. A large hand stretched across the universe, Guidance Ancient Palaces falling one after another, turned into powder.

At the same time, those fallen kings and darkness creatures were killed one after another, turned into blood and bone.

Immortal Domain was in ruins after this battle.

Even after many days passed, Immortal Domain still wasn’t peaceful. There were scenes of ruin everywhere.

Shi Hao took action. He slaughtered all of the fallen kings, darkness creatures’ leaders and others. Some extremely powerful creatures were personally cut down by him, unable to escape.

The enemies were purged, but Immortal Domain was still desolate. Weeping sounds could be heard from time to time.

It was because there were just too many creatures who perished, incredibly tragic.

There were some clans that were wiped out forever, never to be seen again in this world.

Shi Hao gazed out. There weren’t many immortal kings left in all of Immortal Domain, almost all of them perishing, true immortals also weakened, becoming pitifully few.

Only many days later, did the various lands gradually recover life force.

After all, the darkness corrosion was defeated and the great threat at the other end of Realm Sea was also extinguished.

The various great cities began to celebrate, the grieving atmosphere was swept clean.

“Heavenly Emperor Huang!”

The various clans were all chanting his name. This time, they were all extremely pious and sincere. Without Huang, the darkness great chaos would have finished Immortal Domain.

Only, the current Huang was in great pain. Those who he knew had pretty much all perished.

As for those of the same generation, just how many of them were left?

Bird Grandpa was killed in battle, Coin Elder's immortal body was in pieces, his primordial spirit killed.

The restricted region lord, crystal skull and others had scattered with the wind.

Cao Yusheng, Chang Gongyan, Exiled Immortal, Dugu Yun, Princess Yao Yue, they would never appear in this world again. He couldn't see them again in this life.

How could Shi Hao not feel grief? His old friends had pretty much all left.

That day, sounds of grieving began to echo across a new expanse of graves.

Shi Hao was howling in pain. Qin Hao and Shi Yi offered themselves in blood sacrifice, already dead. Apart from this, even his own son was buried in Imperial Court's remains.

After that battle, he felt incomparable sorrow.

He had never felt such loneliness. Those people all died, his only child also withered away. He felt a type of heartrending pain. His hair was disheveled, his head raised towards the sky.

He really couldn't take it. His heart felt bitter and sore, and then there was a powerful feeling of pain. Those people were all gone. The world was vast and boundless, but he was disappointed, frustrated and suffering.

"Their grudge has already been repaid!"

At Shi Hao's side were a few dozen old soldiers. These survivors were saved by the Butcher and the others.

"If there is reincarnation, they will definitely return!"

The old soldiers were all in endless grief, their bodies carrying wounds, covered in blood. They didn't remove their damaged battle armors. Their eyes carried turbid old tears as they stood there, keeping Shi Hao company.

In the distance, the three great experts silently watched everything.

"Is there reincarnation? Is there or not?!" Shi Hao roared out. His gaze was extremely terrifying, his hair incredibly chaotic.

Right now, he was already greatly changed. After this battle, half his hair became snow-white. The surviving experts of all clans came to pay their respects. When they saw his appearance, they were greatly shaken.

Then, Shi Hao stared into Realm Sea, gazing into its limits. He still had to pay that final destination a visit.

[Perfect World](#)

**Chapter 2009: No Way of Cutting Off Emotions**

- No Way of Cutting Off Emotions

What was in that place? He stared in that direction. The ultimate ancient land seemed to have a mysterious power calling towards him, wishing to guide him over.

Shi Hao's expression was grave, becoming more and more solemn. However, he didn't move. His body was quiet, as if petrified, standing tall there.

He wanted to leave, but he also wanted to get rid of some hidden dangers before heading on his way. For example, the four great experts' primordial spirits had to be refined. If an accident happened that allowed them to get away, then it would be a huge disaster.

As for what exactly lied in the ultimate ancient land, he didn't know either. Perhaps he could start his investigation from Feather Emperor and the others.

This place was extremely bleak. It was Imperial Court's remains, already uninhabited for many tens of thousands of years. There were only some great graves here, some that stood tall for hundreds of thousands of years and some that were erected not too long ago.

Wormwood, withered vines and old soldiers who remained close. Shi Hao released a sigh. His white hair scattered down, his heart already experienced great changes.

When he turned around and looked at his life trajectory, many people and things had already left forever, never to be seen again.

Back then, he was still a youngster who roasted vicious beasts with his old friends like Fatty Cao, Chang Gongyan and that Lunar Jade Rabbit who never grew up.

The events filled with laughter and grief always left him reminiscent and deeply hurt. Those people were replaced by these yellow earth tombs one after the next.

There were some who were sealed in Divine Origin Liquid by him, not allowed to appear in the world, but in the end, they still undid their seals one after another, cultivating until today and then participated in the battle.

For example, Chang Gongyan, his child the new Little Stone, the eight hundred old soldiers and others.

A bonfire burned. Shi Hao sat in front of these great tombs, feeling sentimental and grieved alone. Even though he was a half immortal emperor, there were some emotions that could never be erased.

The old soldiers didn't walk up to disturb him, only silently cleaning up the distant ruins. The only thing remaining behind from the past few hundreds of thousands of years were broken walls and ruined debris.

However, legends of Imperial Court's great name still existed in the world.

During this period, Huang's slaughter represented a one man Imperial Court. He slaughtered his way into Realm Sea alone, and then later on even more so returned with great victory in hand.

All of this was also forced because of the circumstances. In the past, he was worried that Imperial Court's troops would suffer disaster, head into destruction just like history's Imperial Courts.

That was why he would rather just take on all of the karma alone.

In front of Shi Hao was a rock, dull and lightless. This was the Divine Striking Stone, its body and spirit were almost extinguished. This was the final piece of its ruined body that he found.

There was a strand of primordial spirit flame within.

Now, Shi Hao personally nurtured it. He was a half immortal emperor, so even if it was injured to this extent, he could still make the Divine Striking Stone revive.

Apart from this, there was a golden butterfly whose wings were torn off, lying on Shi Hao's shoulder in a sluggish manner. It was precisely the Emperor Butterfly.

It was also in ruins, its primordial spirit in pieces. Shi Hao was also helping it adjust its soul.

Those old friends of his from the past, just how many of them were left? Even the two at his side were already like this!

In front of Shi Hao was a Law Pool. Right now, there was fiery light jumping about, the flames of half immortal emperors. These four experts were currently being ruthlessly refined within.

Qiang!

At the same time, there was an immortal sword that released blinding light, entering the pool, tangling about the primordial spirits of the four great experts, assisting in the refinement.

"Later generation, today, you are killing us four half immortal emperors, but in the future, you will die as well!" Grand Emperor said.

He was proficient in derivations, grasped the fate of the world, seeing a corner of the future.

One had to understand that at this level, half immortal emperors couldn't be investigated at all, impossible to see through.

It was just like how in the great river of time, if one sought out the past, present and future of a half immortal emperor, this was just too hard. There was no way.

For example, the white-clothed empress had previously travelled through endless time, entering the great river of time many times. She possessed special methods, grasped the true blood left behind by Heavenly Emperor Huang, and only then could they meet a few times.

This time, the reason why those from the future came was completely because Huang, World Eradication Elder, Feather Emperor and the others' battles were too intense, the terrifying aura shaking up the great river of time.

Half immortal emperors themselves shrouded heavens' fate. Regardless of whether it was his past, present or after he died, there would be mist that was difficult for one to see through.

Ah...

Grand Emperor and Gray Emperor were both screaming out. They endured too much suffering, their primordial spirit lights were hacked apart by that immortal sword and then melted down by the Law Pool.

They could feel their bodies breaking down again and again... a single year or two might not be enough, unable to even kill them.

However, they couldn't resist endless time. Huang had more than enough time. As they were continuously refined over the years, they were still going to die in the end, their primordial spirits breaking apart, their body and dao perishing.

"What does the ultimate ancient land carry?" Shi Hao asked.

Feather Emperor and Grand Emperor remained cold, not saying a word, not willing to respond to this question.

Shi Hao sat in front of the new graves, looked at his son's tomb. A vicious glint flickered past his eyes. He fiercely activated the immortal sword and dao flames, carrying out an interrogation on their souls.

He felt anger, resentment and sadness. Shi Hao began to refine the four great experts over Imperial Court's ruins.

"We are half immortal emperors, even if we die, we cannot be insulted." World Eradication Elder said coldly.

"Sure, I'll let all of you leave without too much disgrace, scatter your own imprints." Shi Hao coldly replied.

"The ultimate ancient land has an opportunity for becoming an immortal emperor." World Eradication Elder told him.

At the same time, Feather Emperor, Grand Emperor and Gray Emperor also revealed strange expressions. They yearned for this, also carrying regrets, but in the end, they all became silent.

How could they scatter their own imprints? They cultivated to this level, so all of their wills were incredibly firm, even sturdier than Immortal Gold.

As long as there was even a trace of hope, they wouldn't choose death.

Towards this, Shi Hao didn't treat them with any politeness. He was extremely cold and ruthless, each day activating his half immortal emperor flames to refine them.

Not far out, three experts were wrapped within hazy light, quietly watching everything.

Then, they disappeared, heading towards Realm Sea's dam.

These were the white-clothed female empress, Without Beginning and the existence with the great cauldron floating above his head. The three great experts still didn't leave, they wished to converse with Shi Hao, but the amount of karma that was involved was too great!

In the end, they didn't try to defy the heavens.

If it was just some useless words, then there was no need at all.

However, once it went deeper, it would be too shocking, affecting the stability of the great river of time.

Time continued, over a thousand years passed in the blink of an eye. Shi Hao refined the four half immortal emperors, not going anywhere during this time, personally watching over them here.

The dozens of old soldiers who remained were loyal and devoted, staying with him, repairing these ruins.

The Heavenly Horned Ant survived and the Crimson Dragon was half ruined, but also still here. They came to see him from time to time.

During these years, Shi Hao continuously derived the past, stared into the river of time. He wasn't there when some of his old friends perished.

Now, when he looked into the past, peering into the past scenes through great magical force, he felt a bit disappointed and frustrated, feeling even greater regret, as well as a type of great pain inside.

He saw the Lightning Spirit that was like a giant dragon, warping and weaving through the world, but it was ripped apart by a fallen king in the end, its blood dyeing the sky dome.

He saw Mu Qing being smashed to pieces, his primordial spirit extinguished. The only fortunate thing was that a ruined body remained behind, sealed by Shi Hao here.

"Mu Qing, you followed me for so long. If I become an Immortal Emperor, I will definitely shatter space-time and revive you." Shi Hao said to himself.

He watched as Exiled Immortal was swept through by a group of kings. That aloof and transcendent immortal figure was completely eradicated, turned into blood and a rain of light.

He also saw the Lunar Jade Rabbit and witch. Their primordial spirits were all scattered, only some imprints left behind. Now, he was nurturing them in two jade coffins.

Princess Yao Yue, Number Two Under Heaven, Ecliptic Immortal Gold Daoist, Golden Fur Hou, restricted region lord... they all perished.

Shi Hao couldn't bear to continue watching.

With a light sigh, he tore apart the void. He headed to a mysterious land, looking at the sealed Stone Village. Fortunately, there were still some loved ones and old friends there.

Otherwise, in this vast and boundless world, even if he became unmatched, he still couldn't feel happiness.

Many people were asleep just like before.

Shi Hao didn't disturb them, just silently watching along the way. He saw Qing Yi, his grandfather, Grandpa Chief and others, he also saw his parents and the villagers.

He didn't dare wake up Yun Xi, because the new Little Stone was no longer in this world!

"Little Hao."

A woman woke up, looking towards him.

"A'man!"

Shi Hao stared at her.

In this world, who dared call him this? Only those who were closest to him.

“What happened?” A’man asked. She sensed that there were much fewer people here, some people leaving this place.

Where were they? A’man was puzzled.

Then, A’man followed him out of this place.

While looking at these graves, at those monuments, A’man was in disbelief. In the end, she shed tears, in grief and heartbroken. Her hands caressed the new Little Stone’s grave, unable to accept this!

She carried tears as she looked at Shi Hao. “If you want to cry, then just cry. Don’t hold it in.” She was worried about Shi Hao.

“How can a half immortal emperor cry?” Shi Hao revealed an expression that was uglier than crying.

After that day, A’man watched over this place, not returning to Stone Village again.

“I am about to head on my way. It’s best if you return to Stone Village first.” Shi Hao said. Within these thousand years, he already pretty much refined the four great experts.

At the same time, during this period, he continuously derived how to become an immortal emperor!

World Eradication Elder, Feather Emperor, Grand Emperor and others’ methods, their divine abilities and systems definitely gave Shi Hao great enlightenment.

“I will just wait for you here. I hope I can be the first to see your safe return.” A’man said while shaking her head.

“Leave after you become an unmatched immortal emperor.” She suggested quietly, fearing that Shi Hao wouldn’t be able to return after leaving.

“I can’t do it.” Shi Hao shook his head. He already tried many times, but in the end, couldn’t truly ascend to that level.

However, he really did stop, not leaving immediately, pondering over the Immortal Emperor Realm, trying to break through.

During this period, it was unknown how many great sects’ lords and old clan chiefs requested to meet with Shi Hao, but they were all turned down by him. The several dozen old soldiers remained outside Imperial Court’s remains, not letting them come closer.

Apart from the Heavenly Horned Ant and Crimson Dragon, these years, only the Butcher and Burial Lord could come.

The two wanted to become half immortal emperors. They consulted about the dao with Shi Hao, seriously asking for guidance.

There were wisps of half immortal emperor light on their bodies, but they just couldn’t cross that moat.

Shi Hao was quite serious, not hiding his own half immortal emperor journey at all. These were the most precious experiences, at the same time telling them about Feather Emperor and the others' paths as well.

He hoped these two could become half immortal emperors.

Unfortunately, in the end, the two great experts still couldn't break through, always stuck at the border.

In a flash, thousands of years passed. Shi Hao still remained in this cemetery.

The Butcher and Burial Lord came who knew how many times, continuously discussing the dao with Shi Hao. In the end, they could only sigh. They most likely had to stop here, even with all their achievements, they were still unable to truly step into half immortal emperor level.

Creatures at this level couldn't necessarily succeed just by accumulating time.

Otherwise, the Butcher and Burial Lord would have long advanced. Their ages were horrifyingly great, but this was useless.

Within the Law Pool, in the end, the four great experts all turned to ashes, completely refined by Shi Hao. World Eradication Elder, Feather Emperor, Grand Emperor and Gray Emperor all completely died.

Shi Hao felt like it was time to continue on his way to the other side of Realm Sea. There were also Huo Ling'er, Great Elder and Willow Deity's scorched black tree stump, all of them waiting for him to bring them back from the unknown void.

Only, before he even set out for the Realm Sea, a wave of power already appeared, arriving from the other end of the Realm Sea!

### [Perfect World](#)

#### **Chapter 2010: Ancient Final Destination**

- Ancient Final Destination

This was a wave of astonishing power, powerful beyond compare. It turned into symbols, reaching the back of the dam following the wind and waves.

Wu...

A terrifying strange roar sounded, as if a ghost was weeping. This was a hurricane produced by great dao symbols. It quickly spread, sweeping through the endless regions under heaven.

A tremendous power swept about.

Even in Immortal Domain, everyone trembled.

Kacha!

Heaven and earth broke apart, actually fracturing.

This scene left everyone horrified. Immortal Domain was already in ruins, yet now, this type of great disaster happened, absolutely terrifying. Everyone was incredibly shaken.

“A’man, go back!”

Shi Hao got up, sending A’man away. He sent the Divine Striking Stone and the dozens of old soldiers out of Imperial Court’s ruins, sending them to a previously sealed land.

This wave of power was too crazy. It tore through the great world.

Honglonglong!

Immortal Domain truly collapsed, instantly shattering. It turned into hundreds of pieces, floating into the distance, separating, basically broken.

Then, the hurricane made from symbols surged, gradually extending outwards. With a hong noise, it smashed through the realm wall, sweeping towards the Nine Heavens Ten Earths.

Apart from this, there were symbols that extended towards Burial Earth and other places.

Dong!

Shi Hao took action. He definitely wouldn’t allow these terrifying great dao symbols to enter the Nine Heavens Ten Earths. That was his true home.

He condensed a fist imprint and sent it smashing towards the storm.

His entire figure rushed into the air, blocking in front. His body released endless light, becoming as large as a giant to stop this terrifying great storm.

With a weng noise, Shi Hao produced several half immortal emperor weapons. There was Feather Emperor’s Emperor Murdering War Spear, as well as World Eradication Elder’s weapon. The four great experts’ weapons were all his spoils of war.

Right now, the void rumbled with noise. Shi Hao activated all of these weapons, suppressing the storm.

His figure was indomitable as he continued, rising into the cosmos. He activated many different weapons to send this storm back into Realm Sea. He continued forward, standing on the dam.

Hu!

Suddenly, all of the world’s spiritual essence rushed out from the broken Immortal Domain, surging towards Realm Sea’s side.

Similar things were happening in Burial Land, Foreign Realm and other places. They were also breaking apart.

Just what kind of boundless and terrifying power was this?!

It was clear that the various realms suffered serious damage. The great world breaking down into hundreds and thousands of pieces would trigger a great disaster.

This scene was a bit shocking. It was just a single storm, yet the world already became much more withered. If this continued, all of the realms would enter a Cultivationless Age.

Peng!

Immortal Domain trembled again.

Now, it turned into over a thousand pieces, the pieces getting further and further apart from each other. Compared to the past flourishing age, everything clearly declined.

Later on, many fragments disappeared without a trace, entering the void, respectively remaining in one place!

The region bordering the Nine Heavens Ten Earths, adjacent to the realm wall, really was much smaller right now.

This was a great heaven and earth change!

It was just like how the Primordial Ancient World broke apart in the past, splitting into the Nine Heavens and Ten Earths. Now, Immortal Domain experienced this even more thoroughly, becoming hundreds of pieces.

However, Immortal Domain's pieces were still much larger.

It was formed from the merging of many cosmos to begin with. In the past, an immortal king ruled an expanse of cosmos.

Even though they now broke apart, every piece was still incredibly massive.

From prosperity to decline!

Shi Hao could only release a light sigh. Immortal Domain broke apart, now in this type of state.

In the distance, there were three great creatures who were looking over. The white-clothed empress, the expert with the great cauldron above his head and Without Beginning, all three of them were incredibly moved. So the future Immortal Domain was broken apart like this.

In their space-time, they previously only entered a corner of Immortal Domain.

In the depths of Realm Sea, that great dao hurricane arrived too fast, also retreated too fast. It brought a sea of spiritual essence with it, the various regions of the heavens all becoming much dimmer as a result.

Shi Hao stared in that direction. He felt that this wave of power was at least at the half immortal emperor level, that side of Realm Sea having many dangers after all.

Immortal Domain, Burial Land and the various other lands were all in panic. Even many powerful individuals were greatly shaken.

At this age, the immortal kings were pretty much almost all dead, not that many left. There were only the Butcher, Burial Lord and a few others.

As for true immortals, even those as powerful as they couldn't sense where the other pieces of Immortal Domain drifted to.

In reality, after breaking apart like this, as the pieces drifted further, many true immortal experts might never be able to meet again in the future.

Every single Immortal Domain fragment surged with immortal radiance, protecting themselves, sealing themselves up, respectively forming realm walls.

Shi Hao stared outwards. He didn't take action. This was fine as well, separating like this. If there was another great disaster that descended, there would at least be some ancient lands that would survive.

"Is there reincarnation in this world?"

Shi Hao said to himself. It was because he wanted those old friends of his who were killed in battle to revive.

The past old friends all withered away one after another, making him feel extremely lonely. He hoped that one day, he could experience the cheers and laughter again.

If there was reincarnation, he was willing to truly carry out a great repair of this world, make those people revive, appear again in this world.

"It is time for me to go."

Shi Hao had a resolute expression in his eyes.

He wanted to head to the other side of Realm Sea, investigate it completely. If there was reincarnation, he would repair the great world, reset reincarnation.

In reality, at this moment, he couldn't stop himself from making a move. It was because vaguely, he could sense that there was something on the other end of Realm Sea that had locked onto him.

This time, Shi Hao traveled across Realm Sea much quicker. It was because he previously struck down some Guidance Ancient Palace. These ancient palaces had a strange path within them, connected to the Land of Darkness, able to bring him to the other side of Realm Sea quicker.

"Heavenly Emperor Huang has left again!"

In Immortal Domain, someone said with a sigh. They felt both pleasant surprise and also worry.

Heavenly Emperor Huang was taking action, so he will definitely display brilliant power. However, could he truly solve the problem at the other end of Realm Sea?

The white-clothed empress, Without Beginning and the expert with the great cauldron floating above him wanted to follow him, but discovered that this world rejected them, the great river of time floating beside them.

"We still cannot continue in the end. I believe the ultimate destination of Realm Sea has great karma, so we cannot step foot there. If we continue forward, we will most likely suffer a backlash."

They released a light sigh. In the end, they withdrew, unable to head into the Ancient Final Destination.

After arriving at the other side of Realm Sea, Shi Hao entered the Land of Darkness and then rushed past again, heading towards the Ancient Final Destination.

Along the way, he wanted to bring back Great Elder, Huo Ling'er and Willow Deity's scorched black trunk, but he decided to temporarily put this aside.

He was worried that even if he tried to immediately bring them back to Immortal Domain, if he ended up fighting a great decisive battle, it still wouldn't necessarily be safe.

"All of you, wait for me. I am going to head to the Ancient Final Destination to get to the bottom of everything first!" Shi Hao said to himself.

Even if he couldn't return, Great Elder, Huo Ling'er and the others could still remain alive in their area, they would be comparatively safer.

The darkness left. After leaving this ancient land, what he saw wasn't all that brilliant either.

In Shi Hao's opinion, this was more like a blood-soaked dusk.

He arrived at the Ancient Final Destination, one step crossing an endless distance, his speed extremely fast.

Soon afterwards, he stopped, because he saw some palaces. They all appeared on the great earth, divine and dazzling. Those were Guidance Ancient Palaces.

In the Ancient Final Destination, there were Guidance Ancient Palaces everywhere.

Weng!

When he arrived here, there was one object on Shi Hao's body that shone, starting to shake.

"Rotten wooden chest!"

He was extremely shocked. The rotten wooden chest had a connection with this place?

Shi Hao was extremely alert. He placed the rotten wooden chest on the ground. In the end, it began to vibrate and tremble chaotically, flying towards one of the most massive Guidance Ancient Palaces.

Hong!

The rotten wooden chest smashed into that grand ancient palace and then it became quiet again.

Shi Hao revealed a strange expression. This was already rather deep into the Ancient Final Destination. What exactly was there?

He looked at the rotten wooden chest and walked around this ancient palace, not noticing anything special about it. In the end, his eyes flickered with radiance, continuing forward, entering inside.

He didn't bring the rotten wooden chest with him, keeping it here.

In reality, after advancing a bit, he already arrived at the very depths of Ancient Final Destination.

In the distance, there was a glimmering radiance. There was a monument that wasn't that tall. It was spotlessly white like jade, divine and perfect.

This was the end of the large amount of Guidance Ancient Palaces. When he continued forward, there was a strange power rippling.

"This is..."

Shi Hao was shocked, his expression fully concentrated. He recognized the material of that monument. This was completely the same bone material as the True Primordial Record. The so-called snow-white monument was actually made of bone material.

There were some symbols carved on its surface, clear and deep.

“True Primordial Record’s final piece!”

It was carved right on this bone monument, quiet and still.

Shi Hao studied it seriously. Soon afterwards, he confirmed that this was indeed the last piece of the True Primordial Record, related to the two previous parts. This was the last piece.

After Shi Hao studied it, he closed his eyes. He thought for a long time. This final piece was suitable for half immortal emperors to cultivate, but that was it, this was its limit.

It wasn’t able to step into the true Immortal Emperor Realm.

“I already became a half immortal emperor. If I learn this method, the meaning isn’t significant. It only has reference value.”

After Shi Hao said this, his eyes quickly flickered, realizing some problems.

“Those who learn from me will live, those who imitate me will die!”

Shi Hao sighed. He could use it for enlightenment. He sensed the various wonders of the Half Immortal Emperor Realm. However, if he blindly imitated it, he might only be restricted by it.

“This is the difference between the creator of a system and those who follow their predecessors?” Shi Hao said to himself, waking up.

“The technique I left for those after me gave up on some areas and preserved some other areas, granting them a path, burying a seed, but in the end, one still needs to transcend themselves, forge different techniques to continue their paths.”

There was actually a half immortal emperor method left behind here. This could be considered quite the big deal.

At the same time, waves of darkness mist surged from the very depths of Ancient Final Destination like dark clouds covering the sky dome. Simultaneously, there were incomparably terrifying fluctuations that were released.

Shi Hao stared outwards. He saw a ruined stele in the very depths of Ancient Final Destination. There were a few ancient words carved on it, as if formed from great dao runes. Regardless of which great era the creatures were from, as long as they were strong enough, they could comprehend it.

“Emperor achieving opportunity...”

Shi Hao chanted it. His pupils contracted, staring at that place.

“Just leave, hurry and leave this place!”

Right at this time, a divine will suddenly sounded from behind Shi Hao, warning him

Shi Hao suddenly turned around, looking towards the ancient palace that was the largest. The rotten wooden chest was precisely over there.
