Chapter 251 - War Against the Crowd

The devilish brat revealed a mouthful of snow white teeth as he warned everyone with a loud voice. Anyone that dared to provoke him would be completely eaten.

How could these words make anyone give up? These people couldn't hold back their anger any longer. They were all either great characters of their sects or talented youth from their regions. All of them were extraordinary characters that were difficult to defeat.

"Young man, you're way too arrogant. Since you don't know when to stop, this ancestor will teach you how to respect others!" An elder shouted with an overcast expression. He was about to take action.

"Threaten me again and I'll really eat you. Don't make a fool out of yourself!" Shi Hao stared back.

There were still some people that believed his words. At the very least, there were a few terrestrial creatures that felt somewhat disturbed, because they had heard about his past deeds.

In particular, the purple-clothed girl from the Archaic Divine Mountains -- Yun Xi, was affected. She had a faint hunch that the brat was not joking, and that he really was going to flip out violently.

Those who had been to the Hundred Shattered Mountains and those familiar with his actions within the Void God Realm all knew how utterly savage and tough to deal with this fellow was.

There were just too many that had ran out of their luck after ignoring his warnings.

The infamous descriptions 'one who enraged men and deities' and 'devilish brat' weren't simple jokes. They truly represented his might and valiant nature.

"I have a feeling that someone is going to suffer terribly!" Someone muttered softly.

However, most people didn't take him seriously, because the majority of the creatures here were sea creatures. They had never heard about his vicious reputation, and saw him only as a child. A noisy clamor broke out; all of them wanted to kill him.

"Let's kill him, he's too annoying. An immature youngster even dares to speak so boldly."

"What great thief? This all seems like a farce. Hurry up and take him out, I can't stand this eyesore anymore."

The sea creatures all berated him.

"You, the one yelling the loudest... you seem rather tasty. I'll make a great dish out of you -- Flood Dragon stewed in soy sauce!" Shi Hao pointed forward towards a sea Flood Dragon that was over ten zhang in length.

"And your fins... they are perfect shark fins." He pointed at a Silver Shark king, as if he was picking dishes.

The creatures immediately became enraged. These actions were too unbridled and outrageous!

Hong!

Blue waves surged high into the air, and symbols gathered before scattering down like blazing lava. It was a terrifying scene. The powerful sea creatures could not hold themselves back any longer and dashed forward.

After seeing that the attackers mainly consisted of battle servants of the ocean deity descendant and Elder Flood Dragon, Shi Hao immediately became happy because these would make fine dishes.

He soared towards the sky and jumped into the league of sea creatures, directly unleashing a slaughter. A golden vortex began to swirl around his body. It quickly enlarged, engulfing several of the most powerful creatures inside.

The devilish hands made a circling motion to fiercely suck them in. The golden vortex quickly pulled them in, and soon after, he stretched out his fingers.

Pu, pu...

The place lit up with bloody light, and the space between these powerful creatures' eyebrows immediately split open. Their frontal bones were all pierced through, killing them all on the spot.

Among them were ocean Flood Dragons, Silver Sharks and Great Sea Turtles, all of which were things that Shi Hao found delicious. Their bodies sparkled with luster, containing powerful spiritual essence within. He was absolutely delighted as he collected them into his heaven and earth pouch.

He then turned towards the other frightening sea creatures. "You guys don't taste good. Leave."

The crowd was dumbfounded. It looked like he was shopping at a market, selectively choosing what he wanted.

"No wonder!" The purple-clothed Yun Xi's heartbeat accelerated as she marveled with admiration. It turns out that this fellow had indeed broken through another limit, and that was why he dared to fight like this. His strength was incredible.

A strange feeling suddenly rose within her. Could it be that the events within the Hundred Shattering Mountains were going to be repeated? Was this savage kid going to scare off all other creatures every time he appeared?

However, this was not the same as that small world, because all of these experts had enormous powers backing them. Not only were there pure-blooded creatures, there were also forefathers of sects and supreme experts. Could he scare these people off as well? Even the thought of it was crazy.

"You dare!"

Up on the grand altar, Mo Shang, the ocean race descendant shouted. One of his fighting servants had been killed and taken into Shi Hao's heaven and earth pouch as food.

He stood firmly on the magnificent altar without moving a single step. The halberd in his hand, however, hacked towards Shi Hao. A resplendent light descended with honglonglong sounds, as if a golden torrential flood was surging.

The crowd was horrified. Mo Shang was too powerful! No wonder he remained undefeated during these past two years. He was unrivalled in this sea area, and this strike alone demonstrated his strength.

Hong!

However, to everyone's surprise, Shi Hao did not evade but instead struck out with his fist. Golden symbols surrounded his fist as it tore through the golden waves.

Mo Shang's strike could destroy batches of mighty beings at the Spirit Transformation level and scare off countless cultivators. He was undefeated at this cultivation level, yet his strike this time did not produce any results. It was blocked by Shi Hao's fist, and the force behind this attack was defused.

For the past two years, apart from Han Tian of the Flaming Fish clan, no one else had been able to meet him head on. Now, however, another person was able to do this, moreover someone so young. This scene immediately surprised many of the spectators.

Even Mo Shang was astonished. He had encountered Shi Hao two years ago, and conflict had sparked between the two. However, back then, the other party was not his equal, and if they had fought to the death, Mo Shang was confident that he could kill Shi Hao.

Yet Shi Hao was now so terrifying, fending off his strike. He revealed a look of surprise, but he was still not afraid. He believed that he was invincible within this sea area, and even if the supreme experts dared to challenge him, they would still face his severe and terrifying retaliation.

He was sure that he could defeat and kill any opponent at the Spirit Transformation level!

"Come here and accept death!" He stood motionlessly on the altar and looked down at Shi Hao, telling the latter to stretch out his neck for execution. This was truly a domineering attitude.

Mo Shang did not seem to care about Shi Hao's display of power at all. He stood his ground firmly, exuding the aura of a ruling tyrant!

"Who the hell do you think you are, telling me what to do? Crawl over and die." Shi Hao shoot him a look of contempt.

The crowd was taken aback. This was Mo Shang we were talking about here, and he was the unrivalled descendant of a Sea Deity! Even those supreme experts were scared of him, not willing to make him their enemy.

Yet now, a savage brat acted so boldly and fearlessly, telling the sea deity descendant to come down and die in front of everyone.

Mo Shang's expression was ice cold. No one had ever dared to mock him like this before. During these past two years, no one dared to stand in his way, because they didn't dare fight him.

However, he did not step down from the altar. The Kun Peng nest had already began to crack, and an opportunity was going to present itself at any moment. Below him was a battle platform, and he was currently standing guard here. He did not want to be caught off guard by leaving this place.

"You killed my brother and even dare to speak such arrogant nonsense. There's nothing that can grant you forgiveness, so had over your life!" Finally, another terrifying expert stepped out. He came from the Archaic Divine Mountains' young experts and possessed an intimidating aura.

He was a pure-blooded creature, and was the older brother of Qing Yun. His cultivation realm exceeded the Spiritual Transformation level, but it was being suppressed by the Kun Peng nest's fluctuations. His head of green hair fluttered about, and within his eyes, it was as if streaks of lightning were flying about.

"Young master, do not be so angry. Let this old servant go in your place."

An elder from the Archaic Divine Mountains shouted. He was originally an archaic descendant, and was currently in human form. However, he still appeared similarly tyrannical. His pupils were gold, flowing with golden radiance.

As an old servant, he naturally had to show his support. He immediately attacked Shi Hao. His palm turned into the size of a small mountain, hiding the sky and covering the earth as it slammed into the sea region.

Everyone felt a shiver run down their backs. This creature was powerful, and was definitely of a formidable race. If not for the cultivation restriction here, the heavens might have been completely covered by its enormous body.

"Golden and large hairy claws, could it be a mountain cat? Their meat taste sour and absolutely terrible." Shi Hao mumbled without fear.

He soared into the sky, and a black body of water surged behind him. An enormous fish appeared, and its black symbols gathered to form a mountainous mass, blocking out the sunlight.

"Kun Peng's precious technique!" Some people immediately cried out loudly. They thought that he obtained the matchless divine ability.

"It was developed on his own, different from the unrivalled archaic technique. There is a clear difference." A supreme expert spoke, immediately calming everyone down.

Even though it was as such, the appearance of this precious technique still caused great changes. The world seemed to have lost color, and everyone began to tremble inwardly from the extraordinary might being released.

The black expanse of water was constructed from symbols, and so was the humongous black fish. It immediately caused the ocean waves to rush into the heavens, submerging the great golden claw in the sky.

Ah...

A gloomy roar sounded. The old servant's body was struck violently and sent flying. His entire arm was badly mutilated, and as blood flew everywhere, even the whiteness of his bones could be seen.

Everyone became completely shocked. This was only a single exchange, yet such a powerful old servant was defeated. It was worth mentioning that he came from the Archaic Divine Mountains, so his strength was definitely shocking.

The scene in front of their eyes was enough to make everyone go mad. This youth's ridiculous strength was truly no joke! He was able to act like such a little savage because he had confidence in his strength.

The land creatures that knew about the events within the Hundred Shattering Mountains and Void God Realm had absolutely stunned expressions, as if they had seen ghosts.

They originally believed that his performance here wouldn't be that dazzling. After all, there were old ancestors, nobles with deep cultivation, pure-blooded creatures and many others that came from all different places. He was so small, and it should have been difficult for him to act so aggressively.

However, who knew that he would suddenly rise again?!

Moreover, he was still so powerful. It made those that knew about him prior to this sigh in admiration.

At the same time, quite a few people felt that things turned out as expected. This savage youth was able to establish unconventional records one after another, because this was just his natural style.

Could it be that he was going to forcefully push back everyone again? Thinking about this possibility immediately made these people's expressions turn strange. They couldn't help but look towards those clan ancestors and unrivalled supreme experts.

Any one of these creatures could shake the great earth with a just a stamp of their feet. Those supreme experts in particular were known to be powerful beyond belief. Ordinarily, they would remain within the Archaic Divine Mountains, being absolutely unrivalled within their region.

If this crowd was actually hunted down by a single savage child, then that would simply be a miracle. It was too preposterous; what kind of changes would such a thing bring about? The terrestrial creatures all felt their heartbeats speeding up. They mulled over these things, and once this possibility rose in their minds, many of them felt a strange type of excitement.

Hou... Divine Mountain servant roared loudly. Ocean waters soared into the heavens, as if waterfalls cascaded down from the nine heavens.

It turned back into its original form. A golden body travelled on the ocean surface and pounced over. Symbols flickered around its entire body as it rushed murderously to fight the devilish brat to death.

"It really is a mountain cat! But you don't taste good, so what do I do?" Shi Hao widened his large eyes, revealing a conflicted expression. With a loud roar, the black sea behind him became even more vast. The enormous fish soared up and smashed into that mountainous cat.

Peng

All of the symbols were scattered, and the enormous golden cat was sent flying by the large fish. Its bones snapped and its muscles were torn. The old servant's body was badly mutilated and his injuries were so severe that it seemed like he was going to die right there.

This kind of power and force from Shi Hao immediately stupefied numerous creatures.

"I don't want to eat you. Stop irritating me." In the end, he only spoke this sentence. He did not chase after that old servant, instead looked at the green-haired youth and ocean deity descendant Mo Shang with interest. In the end, he also glanced at towards the Elder Flood Dragon.

The sea was quiet, and at that moment, every expert here felt their heart rate spike sharply.

Chapter 252 - Incredible Young Experts

The blue sea rose and fell, as the crowd remained completely silent. The youth was so ridiculously powerful that even Mo Shang and Han Tian could not absolutely suppress him now. His actions greatly disturbed all creatures in this sea!

Where did this young unrivalled talent come from? No one had anticipated it.

“Wei, the whole staring thing won’t work on me. I’m not some crying sissy.” Shi Hao looked sideways at the green-haired man, completely unaffected by the latter’s hostility.

With a weng sound, the sea surface began to shake and tremble violently. The green-haired man took action with an incredibly chilly gaze. He was a powerful pure-blooded creature, so he possessed a certain degree of pride and prestige.

He had cultivated for many years with peerless strength. As one of the inheritors of the Archaic divine mountain, he had opened nine heavenly passages and studied many divine abilities. As a result, his strength was incredible.

Green symbols covered his entire body. A divine bird cried out, its bright and verdant feathers unleashing an endless green flame that blotted out the sky. It dove down from the skies straight towards Shi Hao. This was the manifestation of the Green Luan’s divine ability.

Shi Hao dared not treat this attack carelessly. This was a tough opponent that he could not overlook. Both of his hands moved in a rowing motion, causing his symbols to interweave into a sea of lightning. . A pair of purplish-golden discs emerged from within, rumbling towards the divine bird in a crushing motion.

After entering the Spirit Transformation level, Shi Hao’s understanding and application of symbols had undoubtedly improved rapidly, enabling him to derive bone texts and precious techniques with much less difficulty.

This was an evolution of the Suan Ni’s precious techniques, and it was an unconventional extension created from Shi Hao’s thorough understanding of the divine ability. He was eager to become stronger, ambitiously hoping to establish an absolutely peerless techniques one day.

The enormous discs turned slowly inside the monstrous sea of lightning and emitted a terrifying aura as it crushed towards the divine bird. The discs and the bird then collided, giving off splendid light.

Everything was shattered in the end. The green-haired man backed, panting for air while blood streamed down from the corner of his mouth. It was a humiliating defeat; his long years of cultivation was nothing to this teenage boy.

He was a pure-blooded creature who could easily sweep through his powerful peers each time he left the Archaic Divine Mountains. Those creatures from archaic clans and ancient countries were far from being his match.

“Ah!” Roared the green-haired young man. His eyes turned cold as his killing intent surged into the heavens!

His body illuminated. Creatures emerged from his heavenly passages one after another and circled around him. The act of revealing those spiritual bodies signified that he was going to unleash multiple great abilities at the same time and attack with them together.

Shi Hao frowned and summoned his ten heavenly passages. They linked up into a splendid divine ring and revolved around him like divine suns, making him appear rather terrifying.

“What?” Many people cried out in surprise, especially those sea creatures since they did not know about Shi Hao’s past deeds. Seeing his ten heavenly passages now, they immediately dubbed him a young deity of heaven.

Shi Hao was also nourishing spirits in his heavenly passages, but only two of them contained spirits with physical forms. The others only contained his willpower and divine force, nothing tangible.

He only had two divine powers at the moment, being the Kun Peng and Suan Ni respectively.

Even so, his strength had not been affected. Ten impenetrable heavenly passages linked into a divine sun and condensed the power within the void.

“Freeze!”

The air seemed to freeze under his loud shout as the ten heavenly passages linked together. Divine force merged with his spiritual core, creating an inexhaustible flow of essence that spread to form a domain.

The green-haired young man was shocked. He felt like he was bogged down inside a quagmire, and all his spirited creatures were even more so confined in place, unable to dash forward. These were the spiritual embodiments of his great divine abilities that he summoned to attack his opponent, yet in the end, they all lost effectiveness!

“Ten heavenly passages, he has ten heavenly passages!” The blue sea was greatly disturbed. All of the sea creatures were shaken and horrified.

“See? I knew that this savage brat was going to do something ridiculous.” The terrestrial creatures that knew about him previously couldn’t help but sigh. However, at the same time, they were waiting expectantly to see if he was bold enough to challenge the elders.

“Open!”

The green-haired young man shouted. He jumped up into the sky and turned into a Green Luan, trying hard to get rid of this constraint. His body shone all over as he flapping his wings violently.

Alongside him, the archaic divine birds and vicious beasts he created also began to roar and struggle. These spirited entities were all trying to break free from this domain as well.

Hong!

Shi Hao stepped forward. The divine ring surrounded him, making him look like he was standing in a splendid sun. His entire body was flourishing with brilliant light as he walked on the sea surface, quickly getting closer. A great power erupted, shaking even the skies.

Peng, peng...

Following the violent exploding sounds, the archaic creatures materialized from the Green Luan's divine abilities all dissipated. All of them fell under Shi Hao's fist, with not a single one able to escape destruction.

The Green Luan coughed out large amounts of blood in the air. With the destruction of his spiritual bodies, his physical body also became badly damaged. It would be quite some time before he could fully recover and summon his spirited body again.

All of his thoughts now were on escaping, because he finally realized why this youth was so 'savage' and dared to challenge everyone. He was truly a supreme youth, and there was no other reason needed!

He sighed inwardly. Such a talent was rarely seen even within the Archaic Divine Mountains. One he appeared in the outside world, he would definitely become an unprecedented existence. Individuals like Shi Hao were destined for fame and glory.

Chi!

He finally shook free from the imprisonment and flew high up into the sky. Breaking free from the ten heavenly passage ring's suppression and escaping was still a type of terrifying power.

Unfortunately, he was not able to completely escape.

A Kun Peng flew out from one of the heavenly passages in the divine ring. It quickly enlarged and spread its wings to pursue the Green Luan. It was shockingly large.

The crowd in the distance shouted in surprise. Some of them even thought that the Kun Peng nest had opened and the real inheritance had appeared.

Two divine birds faced off in the sky, colliding violently.

Pu!

Blood splashed outwards as the Kun Peng sliced off one of the Green Luan's wings, descending with its spoils in hand. Meanwhile, the Green Luan tumbled and fell on the sea surface some distance away. A group of experts immediately surrounded him in protection.

From among them, an older creature looked over in this direction. Divine flames seemed to surge each time his eyes opened and closed, which was terrifying to look at.

Many were astonished. Could that be a supreme expert? Even if he wasn't, his cultivation wasn't far from it. Even though one's cultivation was suppressed here, their temperament and aura would not change.

"Ai, not Green Luan meat again. Last time I ate through the night with that fatty. I've had enough of it." The devilish brat grumbled. He seemed rather fussy, but in the end, he reluctantly put the giant green wing in his heaven and earth pouch.

The group on the opposing side watched him coldly. Their killing desire surged towards him like a torrent. They were creatures from the Archaic Divine Mountains, yet they were now treated like prey!

“Stop staring. If you hadn’t messed with me in the first place, things wouldn’t turn out this way. I’m not your punching bag, so why should I tolerate your bullying? If you want to be my enemy, then you should also be prepared to die,” said Shi Hao.

After all that had happened, there weren’t many that were still willing to attack. Even groups that were as powerful as the Archaic Divine Mountain alliance were hesitating. The devilish brat was just too savage.

Someone sighed among the Archaic divine mountain members. It was quite likely that only if the genius that left for the great wastelands came back would they be able to fight this savage youth in this cultivation realm.

Shi Hao turned to face the sea area in the distance. An old man with both gray hair and clothes was currently sizing him up.

Shi Hao watched him with a peculiar interest. He felt like he ransacked this old man two years ago when he worked together with that little witch. Could it be that the Elder Flood Dragon brought his physical body here instead of the spirited one this time?

“Hei hei...” He began to laugh amusingly. Even the mightiest expert of a region had been robbed by him and the little witch.

The Elder Flood Dragon was a bit irritated. What the hell was this devilish brat looking at? They still had old scores to settle, yet Shi Hao was staring at him like this, truly making him want to spit out blood.

Soon after, the devilish brat turned around and walked towards the grand altar in the distance. He looked at the Sea Deity descendant and said, "Why do you always have to try and look cool? You’ve been standing still up there this entire time, aren’t you tired?”

Mo Shang’s stone cold face remained unchanged. He did not speak a word, but the halberd in his hand had already pointed at the center of Shi Hao’s forehead. He was fearless, even after witnessing Shi Hao’s mightiness. He was confident that he was unrivalled in this sea.

Shi Hao did not respond, but rather circled around the altar. Symbols flickered around his body, sending all sea creatures who came close flying.

"This altar looks nice. Why don’t you come down and let me stand there for a while?" The devilish brat asked. He realized that the altar was a battle platform, and once the Kun Peng nest cracked open, this platform would give him a great advantage.

Not only could it be used for battle, the altar could also serve as a form of transportation. With all the symbols engraved on it, the altar could instantly send someone to their destination.

"Do you wish to die? Get up here and hand over your life!" Said Mo Shang coldly.

He was wearing a golden armor around his tall and straight body, standing there like a god. Blue hair hung loosely, and shining piercing eyes stared at him. He possessed an aura that was difficult to put into words.

Shi Hao did not mind his words at all. He was asked with a serious expression, "What is your original form? Is it a fish, a turtle, or a flood dragon? Does it taste good?”

The crowd in the distance was dumbfounded. This guy was outrageously daring, and was at the same time a true foodie. Why did he always choose opponents as if he was picking cooking ingredients?!

Surprise swept over everybody's face. Even the lurking elders were startled. This savage kid truly unbelievable, but he really was powerful.

That was the Sea Deity descendant he was talking to, who had been unrivalled till now. Who else would dare to ask such question? The reason that Shi Hao asked about his original form, was clearly to see whether or not he would taste good.

"Get your ass over here and die!" Growled Mo Shang. The great halberd struck directly from high above towards Shi Hao, trying to cut through him like a vegetable.

This was a form anger, but also a type of arrogance. His eyes were ice cold, containing within them self-importance and pride. Light erupted into the heavens from his golden armor.

The halberd created wuwu sounds as it suddenly extended over ten zhang in length. It struck down on Shi Hao's head, filling the air with symbols. A deathly aura immediately shook the blue sea.

Dang!

Shi Hao returned a similarly terrifying attack. His right fist made contact with the halberd, creating a deafening metallic sound. The resulting explosion caused the tidal waves to surge magnificently and symbols to burn ferociously.

The crowd held their breath as they watched this battle.

The first strikes were well-matched in strength. The golden halberd was fended off, and neither of them gained the advantage. All sorts of symbols flew high into the air, disturbing the heaven and earth and creating thunderous sounds. $n/-(\mathcal{V}).e)/1-.b-(1/n$

Mo Shang's face remained cold as he waved his golden halberd again. He swept towards his opponent with wide motions and tremendous strength.

Shi Hao evaded the attack and suddenly lept up. He dashed towards the altar, and ten heavenly passages once again linked into a blazing sun, surrounding and protecting him. He successfully made it to the top.

It was a duel two at the absolute peak. These two incredible talents fought on top of the magnificent altar. A myriad of mysterious symbols flickered as they arranged themselves in the air.

They had both used their strongest divine abilities for this deadly duel. It was a fierce struggle between two evenly-matched opponents.

Hong!

Shi Hao's fist hammered down on the halberd, and the other was smashing towards Mo Shang's face. The Sea Deity descendant, however, took on the fist with his hand.

The impact created a splendid light. It was the first collision their physical bodies, and the result was absolutely dazzling. The entire world seemed to have been devoured by the light, as if two deities were fighting.

"They are so powerful!" Everyone exclaimed.

The purple-clothed Yun Xi was also surprised. Even someone as savage as the devilish brat had met his own match! The sea deity bloodline was indeed formidable and ridiculously strong.

In fact, the sea creatures were more shaken than the terrestrial ones. Mo Shang was a young deity to them, a completely unrivalled being, yet he had now met his match!

As for the elders, they were also watching with curious eyes. These two youth were too talented. At such a young age, they already had the power to shake mountains and seas. They were deserved to be called proud sons of heaven.

Hong!

The two seemed have turned into golden divine beings as they released splendid light. The violent collision had been completely flooded by the golden light.

It was a incredibly intense battle that attracted everyone's attention. No matter what the result turned out to be, Shi Hao's reputation had been risen greatly in this sea. Being able to confront and fight Mo Shang as his equal was a deed that astonished everyone.

This sea would surely become chaotic, and all sea creatures will remember his name.

Kacha!

A terrifying sound suddenly broke out, and the blue sea was shaken violently. Tidal waves surged high into the sky. An indescribable fluctuation filled the air, as if a supreme being had been resurrected.

"It's cracking open! The Kun Peng nest is about to open!" The crowd all shouted loudly in surprise.

On the island, the giant black ancient nest was radiating splendidly, turning golden in color. With loud rumbling sounds, it now truly began to split open.

The gap was growing wider, and the nest was disintegrating!

Chapter 253 - Great Duel

The black nest was incredibly vast, almost like a demonic archaic mountain. Right now, it had turned completely golden, and giant cracks began to appear one after another.

It had stood tall throughout these endless years within the ocean islands. No one could breach inside, and only today did it finally completely break open. The spectating crowd was so moved that they began to tremble.

Wasn't everything that everyone did until now for the sake of that glorious and world-shattering precious technique?

A great commotion immediately broke out in this ocean region. None of these creatures could wait any longer. All of them felt their blood boiling as they prepared to enter at any time to clash in battle.

Even the creatures that could only stand in the distance before fearlessly rushed over. The sea surface immediately became packed, with figures everywhere.

All types of powerful creatures appeared, engulfing the blue sea with killing intent. Even the unrivalled supreme experts have shown themselves, no longer keeping themselves hidden. A great battle was unavoidably going to take place!

The Kun Peng nest continuously cracked, and the openings became wider and wider.

However, after reaching a certain point, the ancient nest once again stabilized. Rumbling sounds echoed from within, as if a supreme being was regaining consciousness and the heavenly dao was resonating with it.

Everyone believed that they didn't have to wait much longer, and that it was going to completely split open.

On the altar, those two figures continued their intense duel. It was incomparably fierce, and all types of symbols were interweaving. While immersed in dazzling divine light, those two incredible youth's fight had reached its climax.

Shi Hao's fist collided with that golden halberd. All types of divine symbols burst forth, as if a volcano was erupting. Powerful golden waves immediately swept in all directions.

"Kill!" Mo Shang shouted loudly. His head of blue hair stood erect, and his pupils were as sharp as lightning. His golden armor shone, and his entire body surged with a fighting aura that shook everything in all directions.

He leapt into the air, and the great halberd in his hand became even more resplendent as it pierced towards Shi Hao's chest. Waves of rumbling sounds were released one after another, releasing deafening kengqiang sounds.

Dang!

Another thunderous sound rang out. Shi Hao avoided the halberd's edge, and smashed his fist on the golden halberd's pole, making it continuously shake. He unleashed an absolutely crazy amount of power to break this precious artifact.

Zheng zheng noises sounded. The golden halberd released golden wave-like fluctuations that affected the surrounding blue sea, terrifying the crowd.

With a hong sound, waves rushed into the heavens. It soared hundreds of thousands of zhang into the air, completely submerging this place. The symbols in the air seemed as if they were burning with raging flames.

The two youngsters continued to fight ferociously. Symbols gushed out from their palms and fighters, fiercely colliding with only a golden halberd separating them. It was as if two supreme deities were fighting to the death.

Everyone became stupefied. These two youth were too ridiculously powerful! Their fight actually reached such a level, making them absolutely horrified. If they participated in a fight like this, they would probably immediately explode.

They were simply not in the same league as these two. This was what fighting at the highest level truly meant. Their bodies' spiritualization and true self reformation have both reached the legendary state.

This was a domain of deities, so how could ordinary cultivators participate? Only youngsters that would eventually turn into deities belonged here, for they reached the absolute limit of legends.

A metallic sound was emitted. All of the symbols between heaven and earth began to rumble with noise. The golden halberd was blasted into the air, and tremendous divine golden radiance burst forth.

The two youth jumped like divine apes, moved about like flood dragons, and soared through the skies like eagles. Their movements were all as swift as lightning, and in a split second they had exchanged numerous moves. They continuously collided into each other.

This battle was dangerous and fierce. A simple mistake could decide everything! This was a direct clash of symbols, a fierce contest of precious technique, and most importantly a life and death battle of their physical bodies.

En?

Many people were affected by the golden halberd and were smashed into the sky. There were a few experts whose pupils flickered with intelligent glints; they all knew that this was a supreme treasure.

There were people who suspected that this was an ancient magical artifact. Some even thought that it might be something left behind by the sea deity, only that it is currently sealed.

Chi

Blazing multicolored light illuminated the skies. Several figures simultaneously rose up into the skies to seize that golden halberd. They wanted to use this opportunity to take it for themselves.

It was clear that the people who moved were powerful experts, or else how would they dare?

Long long

A muffled sound was released. With a seemingly endless amount of symbols, it smashed down with a force that could prop up the heavens. In addition, killing intent surged poured out.

The golden radiance blocked out the sun, and the killing intent spread, shaking the entire sea. In the sky, streak after streak of golden lightning flew across the sky. Someone immediately cried out loudly as blood splashed high into the air; they were cut apart.

The other creatures' expressions changed greatly. They immediately turned around to leave, because even though that battle halberd had been sent flying high into the sky, it was still within Mo Shang's control. He merely didn't call it back.

"Daring to set eyes on my weapon, none of you should think about escaping!" The sea deity descendant spoke coldly.

The halberd was like a golden demon god. It erupted with extraordinary symbols and slashed towards those individuals. Pu pu sounds could be heard as its divine might caused those people's bodies to explode.

Everyone trembled greatly. None of them dared to carelessly take action again.

Hong!

Mo Shang jumped from the altar and swept out his right leg. It was like a golden tree stump, bringing with it the power to smash apart the heaven and earth. He directly aimed at Shi Hao's neck to take his head.

If he actually received this attack, his head would definitely be smashed into a bloody pulp. His neck would be shattered, and that time, he would turn into a headless corpse.

Shi Hao quickly dodged. He then reached out a hand to grab his ankle to stop his movements.

"Strike of the Ocean Deity!" Mo Shang shouted loudly. A whirlpool formed around that leg, and his entire body spun like a top before rising into the air. Following that, he spat out a streak of terrifying light.

They were formed from symbols, and these mysterious symbols were packed densely. They burned so brightly that even the skies seemed to have grown dim. The dazzling light forced everyone else to close their eyes, unable to stare at it head on.

Shi Hao's expression changed. The ten heavenly passages shone resplendently and merged into a divine ring, locking this place down. It completely froze the light that was aimed at this head, allowing him to barely avoid it.

In addition, he quickly moved behind Mo Shang. After rushing up, he was going to tear his opponent apart.

Hong!

Mo Shang was quite strong, and so he did everything he could to jump out from this restriction. Moreover, his body began to flow with golden symbols, and even his eyes shone similarly. He seemed to have turned into a young deity.

In the next moment, he went completely mad. He called back the golden halberd and summoned an attack that was like howling winds and torrential rain to kill Shi Hao.

"Kill!"

Shi Hao also displayed his power. Behind him, the black sea appeared, and an enormous fish emerged colliding into his opponent. In addition, a Suan Ni roared as well, killing its way forward.

During this decisive battle of life or death, both of them felt that they were unrivalled. They fiercely strove for the upper hand, fighting extremely intensely.

Shi Hao never thought that the other party would be so powerful, reaching the extreme limit of the Spirit Transformation realm. It was to the point where he had flawlessly harmonized with his spirit, breaking out an exuberant life force. The various divine birds and beasts were bestowed life.

Meanwhile, his own cultivation time was too short. He had still not completed the final juncture of Spirit Transformation. Only after finishing this campaign could he return and comprehend to perfection.

With their battle reaching such a ridiculous level, it was difficult for the altar to hold them. Their battle reached the sea, causing the waters to rush into the heavens!

“With what qualifications do you have to fight against me? Your Spirit Transformation level is still not complete, so you aren’t my opponent!” Mo Shang roared. His eyes were incomparably cold, his gaze shooting out like piercing blades. He became more and more powerful.

Ah... He was like a demon king. His entire body was sturdy and powerful as he looked down from above. He brandished the halberd and hacked towards Shi Hao.

The ocean region was hacked apart, and every single creature was forced back. There were a few that were absolutely stunned as they watched these two fight. They were just too powerful, far surpassing the others at the level of Spiritual Transformation. If they were to get caught up in this battle, they would immediately split apart into pieces.

Hong

The great halberd sliced over. The longer Mo Shang fought, the more valiant he became. Behind him, a golden pair of ocean deity wings spread out. It allowed him to soar into the skies and look down arrogantly as he continuously hacked at Shi Hao.

He became more and more powerful, as if he was going to completely obliterate this sea region. His head of blue hair danced about, and the golden armor continuously shone with immortal light, making him terrifying to the extreme.

“Go to hell!”

He shouted loudly. His entire body was covered densely in symbols, making him shine with dazzling light. Together with his loud shout, long long sounds were emitted. The halberd in his hand descended, directly piercing towards Shi Hao. He released his most powerful strike to penetrate his opponent.

The entire world was trembling as the blue seas surged; everything was being affected. In the end, the light emitted was so dazzling that it seemed as if only he himself remained.

This one attack was too terrifying. Everyone’s expressions turned pale from horror. Even those supreme experts were shaken. What would have happened if they met someone like Mo Shang when they were younger? After thinking about this, even those supreme experts felt their hair standing on end.

Shi Hao’s expression also changed. Lightning interweaved around his body and symbols covered the sky. It formed a barrier of light, blocking this strike!

However, this attack was just too terrifying. It resonated with the heaven and earth, causing everything to rumble. The sea deity descendant Mo Shang was not only using his own strength, but borrowing the power of heaven and earth as well.

It was could even said that this attack contained the oneness of heaven and man. Otherwise, how could it create such terrifying exploding sounds? It was as if he had borrowed all the power of this world and infused it into the golden halberd.

With a bo sound, the barrier of light made from bone text was pierced through. The halberd flickered with cold light, and the golden weapon tore through everything like rotten weeds as it rushed towards Shi Hao's body. It was going to execute him here.

"With what power do you have to fight me?!" Mo Shang shouted.

He had already reached the consummate level of spirit transformation, reaching the most powerful state recorded in ancient texts. He was already comparable to the legends in every stage, granting him an unparalleled faith in himself.

With a weng sound, symbols appeared, becoming even more concentrated. It protected Shi Hao, as well as allowing him to quickly back up.

"You can't escape! Your life will end here!" Mo Shang's voice was ice cold, and his aura flourish even more magnificently, making the entire heaven and earth tremble. The golden symbols around his body filled up this world, as if a divine creature had descended.

The golden spear once again pierce towards the barrier of light, arriving right in front of Shi Hao's body. It was going to pierce through his body and kill him on the spot.

At this moment, he was truly rather terrifying. The heaven and earth seemed to have merged with his divine might as it locked down Shi Hao. No matter how he tried to retreat, he still wouldn't be able to escape. n--Ove**B**In

Shi Hao released a huge roar. His ten heavenly passages shone, interconnecting into a divine ring. They erupted with dazzling divine radiance to block the ancient magical halberd.

With a hong sound, the halberd that pierced towards him was frozen in place. It did not penetrate his body, and no blood splashed out.

"Break open!" Mo Shang released a great shout. He wanted to blast apart the ten heavenly passages and make his opponent's body explode. At this moment, an incomparably powerful divine force surged.

At the same time, all types of spiritual essence and symbols filled the entire universe. They did not enter his body, but instead were still within his control.

Heaven and man as one! Mo Shang was like an unmatched god that had descended into the mortal world. "Without absolute perfection of spiritual transformation, what are you going to use to defend yourself?!"

He ferociously waved the battle spear to stab through Shi Hao's body and kill him here!

The spectating experts were trembling. This was just too powerful! To borrow the power of heaven and earth, what kind of might was this? It far surpassed their own limits, not being something that the power of mortals could defend against!

Every single person was shaken. The youngster that was on the defensive end as also extremely heaven defying. He actually used his ten heavenly passages to block it, and not immediately dying as a result.

With the battle reaching such a stage, Shi Hao did not panic, but instead appeared to be rather calm. He continued to fight back.

“Can you contend against the divine might of this entire world? I refused to believe it unless you defy the heavens!” After Mo Shang entered the rarely seen state of ‘heaven and man as one’, he truly had the right to speak these words.

“You didn’t break through.” Shi Hao replied indifferently. In the end, he no longer put up his defenses and allowed Mo Shang’s attack to pierce into the ring of light.

“Finish it!” Mo Shang shouted loudly and was going to kill his opponent. His halberd violently shook, and light was released in every direction. The golden symbols were resplendent as the halberd’s edge sliced forward.

Everyone’s heart trembled. This type of force was too formidable! It was truly unblockable and difficult to fight against. It was even somewhat incomprehensible!

Many people sighed. Shi Hao was rather powerful and stunning. He was able to reach such a high level at his young age, and if given the time, the final stage ‘heavenly passages nourishing spirit’ could also reach the legendary stage. However, he was going to die here.

“Mo Shang is truly extraordinary, actually entering the ‘heaven and man as one’ state. After entering such a wonderful state, he has become the most powerful!”

“It’s quite pitiful for that youngster to die like this...”

Many people began to speak softly as they nervously watched this battle reach its end.

However, even though the great halberd pierced forward, there was no blood that splashed out. Everyone became petrified, because they couldn’t understand how such a thing was possible.

Even Mo Shang was shocked. What happened? The golden halberd was absolutely invincible, so how could mere flesh be able to block it? It clearly pierced forward, yet why didn’t his opponent die?

Finally, the sea deity descendant was able to understand why. The ten heavenly passages were linked together, and they collaboratively nourished a flesh heavenly passage. When the halberd pierced forward, it was actually restrained in place!

Hong!

Shi Hao took action. A fist smashed out with a force that was as powerful as lightning. His speed was extremely fast, attacking with a unmatched power.

This fist shattered all of the golden symbols. It smashed on top of Mo Shang’s body, directly breaking through it. The golden armor shattered, and blood splashed and gushed out.

This result stunned everyone!

Chapter 254 - Opening of the Kun Peng Treasury

Shi Hao's fist smashed through Mo Shang's chest, and pipa sounds rang as it broke through numerous bones. Golden symbols curled up around his fist as it completely bore through Mo Shang's body.

Blood gushed outwards. Mo Shang released a loud shout, his entire body feeling as if it had been set on fire. He shone brilliantly, using a secret technique to fly backwards and break free from that fist.

He held the halberd upside down to stabilize himself while staggering about. A bloody hole appeared in his chest, and several pieces of broken bones could be seen. Blood poured out from the wound; it seemed extremely terrifying.

The golden armor he wore was shattered. It couldn't protect him from the force of that fist at all! There was blood all over his body, and his injuries were severe.

The sea region was momentarily silent, but soon after, a huge clamoring erupted. Everyone was absolutely astounded by what had just happened. Originally, Shi Hao was about to die, so they never could have expected that the one to receive heavy injuries was actually the sea deity descendant.

The situation had completely reversed, leaving everyone stupefied. Everything had happened too quickly. The one that was doomed to die was actually brimming with energy, while Mo Shang who was immersed in the 'heaven and man as one' state was actually injured to such a degree. His entire body was covered in blood as he retreated.

"How did it turn out like this? Mo Shang actually suffered such a huge blow! Such a thing has never happened before!"

"This creature that came from dry land is too terrifying! He truly is a supreme youth!"

The crowd exclaimed in amazement as they all began to discuss the events that had just happened.

The creatures of the sea were even more so shaken. To them, the name Mo Shang was equivalent to an unrivalled figure. Within the Spirit Transformation realm, there was no one that was his match. As a result, he was often known as a reborn Sea Deity.

However, currently, he received such huge injuries. His chest had been pierced through, and blood continuously dripped out. Could he even continue fighting?

In the distance, there was a huge expanse of scarlet color. The sea was boiling, and hundreds of thousands of Flaming Fish had gathered there. While standing among them, the red-armored Han Tian seemed like a demon god. He coldly muttered to himself, "So powerful."

Old ancestors of various sects, nobles that came from all different directions, supreme experts that came from the Archaic Divine Mountains and many others' expressions all changed after seeing this. They were all felt rather upset as they watched watched attentively.

The results of this battle exceeded everyone's expectations, filling them with excitement. This human youth destined to rise to greatness; his performance was absolutely stunning and terrifying.

"I haven't even stepped inside the Kun Peng nest to compete for the precious technique yet, and I've already been injured. I truly did not see this coming." Mo Shang laughed mockingly at himself from the distance.

Blood was still flowing, and there was an extremely terrifying hole in his chest that completely connected both sides of his body. He took out a jade jar and poured out a translucent and sparkling blue pill into his palm.

An aroma immediately wafted through this sea region. In addition, it was so bright that his palm and the seawater below reflected its brilliance.

“That’s... the Sea Deity Pill?!” A huge sensation broke out within these waters. Everyone stared with their eyes widened, and even a few supreme experts became shocked. There were many who almost ran up to steal it.

“No, it’s not a divine pill left behind by the Sea Deity, but it is still quite incredible. It is an invaluable precious pill that was slowly refined from all types of spiritual ingredients.”

The crowd soon realized that it was medicine created from a recipe left behind by the Sea Deity. Even though it wasn’t a divine pill, it still possessed extraordinary medicinal efficacy.

Mo Shang swallowed the pill whole. Light began to radiate from his entire body, and blue symbols flickered around him, causing pipa noises to sound from his flesh. The hole in his chest began to mend itself at a visible speed.

The crowd was aghast as they watched this scene. It was just too incredible! The medicine possessed a miraculous efficacy, surprisingly mending his body with such speed.

Needless to say, this medicine was made from this world’s rarely seen treasures, and it quite likely even contained some divine medicines inside. Otherwise, how could it be so effective? Only a divine medicine could make flesh grow back on bones so quickly. $n \cdot \frac{1}{\sqrt{(\mathcal{V}(\mathcal{E})L)}} \cdot \frac{1}{n}$

Mo Shang’s body radiated once again, and symbols lingered about him. His body was restored to its optimal state, and with the golden halberd in hand, his eyes once again carried a look of contempt, making him look like a demonic fiend. He once again stared at his opponent!

On the other side, however, Shi Hao seemed completely indifferent. He didn’t look back at Mo Shang, and only looked at the piece of luminous flesh in his palm while deep in thought.

“This is the only time you’ll be able to injure me. I understood what happened, so I won’t suffer a second time.” The sea deity descendant spoke to himself. His fighting spirit once again surged vigorously.

Everyone felt a shiver run through their bodies. Mo Shang was naturally tenacious

“Is this turtle meat, flood dragon meat, or fish?” Shi Hao talked to himself. He then lifted his head and shouted to Mo Shang. “Which clan on earth do you belong to? Is your original form human-shaped? I can’t eat humanoids, it will disgust me.”

Everyone became dumbfounded after hearing this. They were expecting a fierce battle between two giants, yet once this fellow spoke, why did he completely ruin the atmosphere?

Did he really not care about this situation, only caring about himself, or did this he say these words to irritate everyone on purpose? How could he behave like this? In such a struggle of life and death, he was actually only thinking about food.

Only some of the terrestrial creatures knew what was he was thinking. He really did want to eat, and he had always defeated his opponents this way; he really was this savage.

“Look carefully, somebody is going to suffer greatly. Are the incidents of the Hundred Shattered Mountain and the Void God Realm happening again?” Someone spoke in a soft voice.

Purple-clothed Yun Xi and her companions also looked at one another in dismay. The guy really knew how to throw everything into disorder. He was truly trying to defy the heavens!

Mo Shang was infuriated. Who did Shi Hao think he was? No one dared to belittle him before! Within this sea, even those supreme experts would feel a restraining fear and avoid provoking him. This devilish brat was too hateful. He looked like he was trying to identify what kind of species the piece of flesh from Mo Shang’s chest came from. Was he truly thinking of eating it?

“I’ll kill you!”

Mo Shang rushed forward, determined to fight to the death.

“Since you aren’t going to answer, then I’ll just assume that you aren’t a humanoid creature. I’ll capture you first,” said Shi Hao. Following that, he released a roar before dashing with increased ferocity. After fighting for such a long time, he was also getting irritated. He didn’t want to drag this battle endlessly.

Golden symbols interweaved and precious techniques disturbed the sky. The duel became white-hot, boiling the sea and shifting the mountains. Their final engagement was extremely fierce.

The talented Sea Deity descendant was incomparably powerful and unrivalled among his peers. He was sure to look down upon the world in the future and become one of the mightiest creatures of the wasteland clans.

However, a youth as formidable as he was met his match today. He still could not defeat Shi Hao after such a long time, and now, Shi Hao also seemed to have gone mad, his attacks becoming more and more intense.

Shi Hao roared. His entire body illuminated and was covered by densely packed symbols. The heavenly passages were all opened, trying to crush and destroy everything.

The battle frightened all of the older characters, and even the faces of supreme experts became ashen. Their eyes continuously moved about in fear of missing anything.

Hong!

Suddenly, the sky cracked and the earth split. Blue seawater flowed backwards and the island trembled as the golden Kun Peng shattered at an incredible speed. Those gaps were now extremely wide.

“It’s open! It’s completely open!” Everyone shouted in surprise. Their attention shifted at once from the two young conquerors to the enormous ancient nest.

The golden divine nest split open like a blossoming flower, revealing the resplendent dao field inside. A thousand beams shone in all directions, and auspicious essence curled in the air. The sky was densely covered by symbols, and the resounding sounds of sacrifice could be heard.

At this moment, time seemed to be turned back to the archaic years, where the chants of deities and divine music filled people's ears. Mysterious symbols emerged endlessly from the sky.

The Kun Peng nest had completely opened. The dao field inside was radiating splendidly, attracting everyone's attention. The crowd could not hold themselves back any more as they all dashed forward.

The first batch entered unharmed and rushed into the dao field. They stepped on the golden path, as if entering a heavenly realm. They were looking for the world-shaking precious techniques.

Seeing this, the rest stopped hesitating and also followed suit. They entered in swarms and fought their way into the archaic abode.

"The divine liquid, there's a pool of divine liquid!" The dao field of Kun Peng was no common place. Someone spotted the divine pool immediately after they broke in, causing a large fight to break out.

Finally, the sect forefathers, regional lords and elders could not sit still anymore. Seeing that nothing strange had happened and that it was not some kind of dangerous trap, they all leapt inside.

Shi Hao and Mo Shang stopped fighting as well. At this moment, nothing could compete with the treasure of Kun Peng. They both craved the great divine power and were determined to take it for themselves.

Mo Shang jumped onto the altar and blasted out a supreme beam of light, killing many mighty beings. He then stepped on the beam and arrived at the head of the line.

At the same time, the altar shrank and spun around, landing in front of him. It turned into a real battle platform that was ready to carry out a large slaughter at any time.

Shi Hao also got in and also demonstrated his power within the cave. He forced back the crowd, took out his jade bottle and took away the last dozen or so drops of liquid from the divine pool.

These were drops of sea spirit liquid, not real divine liquid. They couldn't be compared to the Immortal Spring, but were still similarly priceless. It was blue and quartz-like, formed from the condensed essence of the sea.

It could be used in medicine and the refinement of artifacts, and was second only to the real divine liquid.

They had just reached the legendary abode, yet they had already discovered a divine pool like this. Many people managed to grab some, and so they were naturally in high spirits.

The crowd rushed further inside and arrived deep inside the legendary abode. A golden sea startled them all. How could there be a sea in the abode of Kun Peng nest?

"The archaic Kun Peng had seen through Nature itself. The ancient nest is a small world in its own, yet there are still smaller worlds inside of this world. This really is awe-inspiring." A supreme expert became deeply moved.

The group of people rushed into the legendary abode's deepest parts. After encountering a golden sea, they all became astonished. At this time, the Flaming Fish youth Han Tian suddenly leapt up and dove into the golden sea.

Meanwhile, Mo Shang the Sea Deity descendant also fought his way. He also entered the sea depths.

Other sea creatures also seemed to have realized something. They plunged into the golden sea one after another and rushed towards the seabed.

"The Kun Peng Cave is in the sea, and the divine treasure is there!"

The crowd shouted, and the terrestrial creatures also came to their senses. They all jumped up and rushed into the divine golden sea.

Shi Hao's entire body lit up like a heavenly deity and he also killed his way over. Upon reaching the ocean floor, he saw an even more imposing cave. After entering, he found that the interior did not have any water.

Countless symbols rushed towards him from all sides as soon as he stepped inside. A killing force immediately shook the sea floor.

"Go away!"

He shouted loudly, and his divine voice echoed throughout. The ten great heavenly passages linked up into a divine ring, surrounding him like a blazing sun. An impenetrable defense immediately protected him, blocking all of the precious techniques.

Moreover, as he walked forward, explosions would sound and blast apart many enemies. No one could stop him.

"He's too powerful, kill him first!" An expert shouted out. He wanted to join hands with everyone to take out Shi Hao first.

"Freeze!"

The group was about to take action, when Shi Hao shouted promptly and summoned the shackling domain. The group were frozen still with their earlier poses, and even though their precious instruments were still shining and symbols had just lighted up, they could not move.

"Kill!"

At his command, golden symbols turned and directly crushed these people into pieces. A bloody mist rose, leaving no one alive.

The crowd in the distance all watched with horror. The area around Shi Hao immediately became vacant, and not a single person dared to linger about. None of the experts wanted to target him any longer, and all of them charged towards the legendary cavern's abyss.

There were a few supreme experts whose gaze flickered about. They originally wanted to head in this direction, but their expressions were now rather complicated. They were quite scared of him, and even some of the noble lords' eyes were filled with killing intent.

"I'll say it again. Don't anger me!" The devilish brat warned the masses with a serious expression.

"Heng!" An elder snorted.

Shi Hao felt his skin tighten with chilliness. He immediately turned around. "Don't make me destroy your spiritual body!"

He was quite tyrannical. After sensing the murderous discontent, he returned fire at once, as if ready to vent his violent rage at any moment.

The crowd was startled, especially that supreme elder. Who did he think he was, talking to them like that? They then realized that this was not the outside world, but a special sea area. Most of them had only sent their spiritual bodies here.

"Oh my god, that's the Divine Bronze Lamp of Illumination!" Cried someone, looking ahead disbelievingly.

Two supreme experts were already engaged in battle. They were currently fighting intensely over a small ancient lamp within the cave.

Red flames appeared, and a terrifying aura was released. Han Tian, whose name rivalled Mo Shang's, emerged in his scarlet armor. Flames overflowed into the heavens. With a single movement, he seized the bronze lamp from those supreme experts like extracting teeth from a tiger's mouth.

The Divine Lamp of Illumination was said to be an archaic artifact that used divine blood as fuel. It was mysterious, terrifying, and incredibly powerful. No one expected to find one here.

The fact that it was being used merely as a source of light instead of being displayed as a precious artifact made everyone amazed and stupefied.

Weng longlong.

Deep inside the legendary cavern depths, symbols flourished brilliantly. They gave off the harmonious sounds of the great dao.

"The precious technique is inside! There are Kun Peng symbols as well as many archaic artifacts and supreme treasures!" Everyone went mad and rushed inside.

Chapter 255 - Seizing Treasure

Everyone went mad and rushed up together. This dao field was incomparably vast! Multicolored light surged, and a precious treasury appeared before them.

Even though they were at the ocean floor, there was no water in this cave. It was dry and clean, full of dense precious energy.

Hong!

Once the stone gates opened, symbols flew everywhere. Their eyes were met with dazzling light, and all types of jade pots and cups flowed with light on the stone table. Over ten experts simultaneously reached out to grab at them.

These were all excellent wines left behind by the Kun Peng, so how could they be ordinary? The wine that it drank were most likely divine fluids that could extend one's life by many years and improve their cultivation greatly.

When one reached such a level, what couldn't they receive? The ingredients used to brew the wine were most likely divine medicines, and there might even be some immortal elixirs mixed within.

This was a Kun Peng, one of the Archaic Vicious Ten. As one of the truly unrivaled giants throughout the endless years, the wine it drank definitely far surpassed the expectations of the common people.

Peng

Over ten experts' precious techniques collided together, causing illustrious light to immediately flare and submerge this area.

Symbols flew everywhere as precious artifacts collided. Everyone was currently fighting intensely. This was the Kun Peng's legendary abode, so even if it had appeared somewhere else, it would still have become chaotic sooner or later.

The ancient symbols that guarded this dao field had not disappeared this entire time. Everyone was glad to find that there were no dangerous traps here, or else they would have suffered greatly.

"Divine wine!"

"Let's join hands and seize everything."

More and more people noticed what was going on, and they all flocked over as well. Precious artifacts flew towards this place, making the battle even more frightening.

"All of you, get out of the way!"

Someone shouted loudly. It was a gray-haired elder, and with a wave of his sleeves, a huge explosion occurred. Symbols covered the sky as a group of people were immediately sent flying from being struck. More than ten of them smashed into a stone wall and directly became a bloody paste.

The elder walked slowly into the legendary abode. He released a loud roar towards ten or so experts, immediately causing them to faint on the spot. These actions terrified everyone.

"That's probably... A supreme expert!" Someone shouted loudly.

An existence like that could truly reign unrivalled over a certain region. As long as they appeared in the outside world, even the great ancient countries would not dare to carelessly offend them, because they were just too terrifying.

These characters usually resided within the overseas Divine Islands or Archaic Divine Mountains, rarely roaming about outside. They were incomparably terrifying, and their accomplishments were extraordinary.

"He isn't a supreme expert. He's still one step short." Another elder appeared. After hearing that his offspring was contesting over the treasures here, he quickly rushed over and began to fight.

Hong!

A great collision immediately followed. The cave was filled with precious light, and many creatures were forced to back off. With those two old ones attacking each other, everyone began to protect themselves in terror.

“Is there really archaic wine left behind from the ancient times by the Kun Peng? If it was preserved until today, then that would be absolutely amazing! Let me take a look.”

Right at this time, a golden halberd appeared. Ferocious ripples moved up and down like ocean waves, and a brilliant light swept over, drowning this cave.

Everyone’s expressions changed, because the one that came this time was powerful. His pupils seemed to be shooting out cold streaks of lightning as they swept over everyone. It was as if a supreme deity was looking down them.

It was precisely the sea deity descendant Mo Shang. His terrifying might and demeanor was known by everyone. Not a single person were willing to provoke him, and even the supreme experts here felt a restraining fear.

The golden halberd shook, causing symbols to burst forth. Many powerful individuals immediately cried out on the spot, and eight or nine people’s bodies exploded. Blood poured out, and they fell while their faces were still looking upwards.

This was just too powerful. That group couldn’t defend against it at all, and even those two experts’ faces turned ashen as they avoided the halberd’s edge.

Mo Shang walked over with large strides, and his cold gaze swept over everyone. When his hand reached out, no one stopped him. The jade containers filled with sparkling radiance, as if they were almost transparent.

“There really is still some wine inside, enough to pour out a cup.”

When everything became peaceful again, there were no longer any symbols that sparkled about. Everyone could clearly see the contents of the container, making them cry out in shock.

The ocean deity descendant laughed excitedly His head of thick blue hair danced about as he reached out for the jade container. This was true divine liquid with enough medicinal powers to revive one from a near-death state.

Hong

A Suan Ni appeared. Purple lightning danced about chaotically as it roared with its head held high. A claw slammed down towards Mo Shang, blocking his arm. The previously calm room immediately became full of lightning.

“You dare!” Mo Shang shouted furiously.

Someone attacked him to fight over that jade container. An intense confrontation immediately broke out.

This was, of course, Shi Hao. While he was still releasing the Suan Ni’s precious technique, his body had already entered the room to fight Mo Shang. The two had already fought a bloody battle previously, so without exchanging any words, they once again fought with everything they had.

On the side, there many people that released muffled groans as blood flowed from their mouths. The battle was so intense that the repercussions blasted them out of this massive room.

These individuals were still comparatively rather fortunate. There were some others that longed for the wine, and so they were still looking for opportunities to seize it. In the end, however, once their bodies were struck by those two's precious techniques, they were immediately blown to pieces.

The two elders sighed and ultimately backed off as well. Even people as powerful as them were not not these two incredible youth's opponents. If they decided to fiercely contest with them, they would most likely die here.

Zhi Zhi!

Hairy ball stuck his head out of the Heaven and Earth Pouch and cried out with excitement. It directly jumped onto the jade table and grabbed the jade container before fleeing.

"Good job!" Shi Hao laughed loudly.

Mo Shang was absolutely furious. Where did this little monkey come from? It was actually able to protect itself from the shockwaves his attacks created, allowing it to steal the divine wine and ruining all of his efforts.

Soon after, Shi Hao also felt his smile freeze on his face. That monkey directly tipped the jade container into its mouth to drink it all.

"Don't waste such good stuff! That stuff is an incredibly precious original elixir! If we mix it together with the little devil wine when we go back, it will allow it to undergo a wondrous transformation!" Shi Hao shouted.

The only saving grace was that the remaining wine was extremely viscous, so not a single drop came out. Hairy Ball bared its fangs, and its small claws were almost completely soaked in saliva.

It forcefully shook the jade container, and finally the wine broke its seal. An intoxicating scent immediately proliferated, its fragrance seeping deep into the depths of people's bones and souls.

Putong, putong...

Outside of the room, numerous people began to feel weak. They collapsed and entered an intoxicated dream state. It was incredibly shocking!

After the wine broke through the seal, the amount of light that poured out from symbols was simply unimaginable. It definitely could make someone completely drunk just from its fragrance. In addition, it still contained miraculous effects and divine symbol light within.

This was without a doubt divine wine. It was refined from ancient divine medicines, and was even more precious than the little devil wine that Shi Hao obtained.

Shi Hao took out the Heaven and Earth Pouch, and with a shua sound, he collected the jade container to prevent Hairy Ball from truly wasting it. If such a thing happened, it would truly be too regretful.

The sea deity descendant was furious, but it couldn't do much about it. The two continued to fight fiercely, but it was difficult for either of them to gain the upper edge. He knew that he couldn't get his hands on that divine wine.

Hong!

After a final strike, the two individuals rushed towards opposite directions. They no longer engaged in a deadly struggle, because there was still the Kun Peng's precious technique, as well as many other things to fight over.

"Ah, even those terrifying nobles that entered all died! It's too terrifying!" An uproar broke out from another direction. The people there cried out loudly as they fled for their lives.

Dark light surged as a hazy mist began to spread from that location. The people at the back of this fleeing group suddenly collapsed. Their entire body turned jet-black, and soon after, they turned into a thick puddle of blood, dying an unnatural death.

The scene was quite scary. There were several hundred people who died and turned into corpses. The dark like extended its range, surging outwards.

"There is a medicinal furnace inside, but not only did we not find any divine pills, an extremely toxic black light began to spread out from within it." Those that were able to flee all felt their hearts beating quickly.

The Flaming Fish youth Han Tian was here at this time. When he saw the black light reaching over, he lifted a small bronze lamp, illuminating this place.

Even though it had already burned for tens of thousands of years, after he gently blew at it, a sea of fiery light immediately rushed out. It burned vigorously and submerged the black light, completely wiping it out.

Everyone was stunned. It deserved to be called the Divine Lamp of Illumination and an outstanding archaic artifact. Many great powers had created them in the past, but the fuel needed to light the lamp was too extravagant, requiring the blood of a deity. Even if they successfully created it, there weren't many families that could afford such a luxury.

Only the Kun Peng could show such disregard towards an object like this. It use such a precious artifact as an ordinary lamp, hanging it on the cave wall.

"It's likely due to the true Flood Dragon divine medicine! The Kun Peng probably tried to create a furnace of True Flood Dragon Pills, but after failing, he never got rid of it, so it must have turned into a poisonous pill in the end." A supreme elder had arrived as well, and he revealed a look of surprise.

Everyone was overwhelmed with shock. What kind of ridiculously powerful pure-blooded creature was the archaic True Flood Dragon? Yet it was actually caught by the Kun Peng and placed within a furnace to be refined into medicine. The Archaic Vicious Ten wasn't titled as such for no reason!

Within the crowd, there was a gray-clothed elder whose expression became rather conflicted. This was precisely the Elder Flood Dragon. Since it was of the Flood Dragon race, it naturally knew more about this than anyone else. He believed that this really was a True Flood Dragon that had been refined into poison.

When all of the dark light had dispersed and everyone had left, his figure disappeared. He began to cautiously and timidly move inward.

Powerful energy rippled outwards from the distance. It was quite clear that there were people fighting intensely there. Everyone quickly rushed over, because there were bound to be precious treasures wherever people fought.

Sure enough, this place shone brilliantly. A dense mist rose, and precious light surged. The entire place was dazzling. Experts were everywhere, and all of them fought fiercely.

There were a few nobles and supreme experts that were fighting particularly viciously. Shi Hao also arrived, and he killed his way into the cavern depths. What he found was an extremely spacious stone room. Multicolored light shone everywhere in this rather simple and unadorned place.

On top of that stone table was a precious vase that flowed with auspicious light. An exuberant life force surged, and within the vase was a single flower. It was glistening and tender, as if it was carved out of jade.

“Divine medicine! After experiencing countless years from the archaic years until now, it still had not withered. Its price is definitely immeasurable.”

Many people’s pupils began to burn with passion. They all rushed forward to seize it for themselves. However, none of them succeeded. There were just too many experts here, and all of them were trying to outdo each other. Precious techniques flew about chaotically. Many people cried out loudly, spitting out blood as they backed off.

“Idiots! That flower isn’t medicine. It is completely ordinary!” An elder shouted loudly.

The noble lords’ gaze had long become fiery. Their eyes had been set on the precious vase the entire time, not that flower.

As a result, all of those powerful individuals realized the truth. What was precious was that jar, not the flower. It could even make an ordinary flower immortal! What kind of shockingly precious artifact was this? *nOvE-lb.1n*

“Pure Jade Vase... This seems identical to Little Western Paradise’s supreme treasure! How terrifying... The Kun Peng actually casually left it on a table to display flowers.”

In the end, someone recognized that this warm vase was exactly the same as Little Western Paradise’s precious artifact. It was just too similar.

Four or five noble lords appeared and began to fiercely fight over the Pure Jade Vase. Every action they made seemed to move mountains and shift seas. Symbols erupted with frightening ferocity.

At the same time, Shi Hao also made his move within this massive stone room. However, his target was not that vase, but rather a praying mat.

Other than him, there were also a few other elders. These were all ancestors of their respective clans. They were all fighting with their lives on the line over this.

Soon after, some pure-blooded creatures from the Archaic Divine Mountains also appeared. These people were all incredibly powerful, and after seeing the praying mat, they all entered the battlefield.

At first, this praying mat didn't seem that special. It seemed rather ordinary, but when people began to fight, causing precious techniques to land on it, everything changed.

It began to shine with brilliance, revealing its original appearance. It was formed from strips of green and lush tree branches, as if it was made out of jade. An auspicious and peaceful energy began to waft through the air.

In that instant, all of the supreme experts became alarmed and joined the struggle. Explosions erupted, and precious techniques shook this entire place. This entire room began to rumble from the chaos. Shi Hao was struck, and he couldn't help but frown as he was forced back.

This was where the archaic Kun Peng occasionally rested and at times used to meditate. Now that its real appearance has emerged, even supreme experts couldn't sit still any longer. They all began to fight ferociously.

Weng

The devilish brat was incredibly vicious. Ten heavenly passages appeared, bringing with it a surging divine radiance and flourishing multicolored blaze. It immediately caused a supreme expert's spiritual body to tremble and retreat. He released a roar, then sent another group of expert flying before grabbing towards that praying mat.

With a shua sound, it entered his hands. Shi was shocked to find that this praying mat was quite heavy. Contrary to what one would assume from its size, it actually weighed more than ten thousand jin. It was simply unbelievable, being heavier than many divine steels.

"Hand it over!"

A supreme expert took action, sending a huge imprint down from above. It descended from the air and slammed down with a torrent of divine force. The scene was absolutely terrifying.

This was the embodiment of the peak of spiritual transformation, a refinement of the highest level. He was using his precious artifact to suppress Shi hao and seize that praying mat.

A tremendous wenglong sound rang out. Shi Hao grabbed the praying mat and ferociously smashed it at the skies, colliding with the enormous imprint. A dazzling and resplendent radiance immediately erupted.

The praying mat was completely unaffected. It was not damaged in the slightest, while that crystalline imprint began to spin in the air and fly backwards. It smashed into the cavern wall, causing the entire room to shake violently.

Chapter 256 - The Treasure

"The praying mat is woven from twigs of elder wood. After going through a great many eons, it's spirituality has worn out, however, it can still calm one's mind and help them meditate. The praying mat is good for studying dao, and is a rare treasure."

Someone spoke aloud and dashed towards it, encouraging everyone to fight over it.

With these being said, the crowd swarmed forward with astonishment. What exactly was elder wood? It was created between the heaven and earth, containing a divinity that connected into the heavens. The wood was a bridge linking the worlds of mortals and deities.

Previously, there was a gate on the islands where a spiritual stream flowed out from. A rotten log rested at the entrance, and that was precisely a piece of elder wood. A huge crowd immediately fought a long time over it, yet in the end, no one could even break into the gate. However, an entire praying mat that had been exquisitely woven from such a precious material was discovered, so this naturally made the crowd even more enthralled.

It was made from real divine wood, enabling one to communicate with the deities' realm and get closer to the origin of dao. The praying mat would work countless wonders on cultivation and was considered a priceless treasure.

A group of people rushed over while accompanied by all sorts of precious techniques. Splendid light drowned this place.

Shi Hao shouted with surging ferocity. He drew out the broken sword and infused it with the power of the ten heavenly passage divine ring. A streak of black light swept forward with a wenglong sound.

All sounds and clamoring faded at that moment. The splendid and dazzling lights had also vanished. The only thing remained was a black light that covered everything.

Time seemed to have stopped, and the sky seemed to have shattered. The fleeting seconds felt like they were hours as everything froze. Finally, a soft sound was emitted.

Various precious instruments cracked and exploded in mid-air before falling down in broken pieces. All of their symbols were crushed at the same time, their light quickly dimming.

Pu.

A group of people's upper bodies left their lower halves. They were severed in half at the waist, and their corpses fell down onto the ground.

"What?!" The crowd shuddered with fear. Even the supreme experts' expressions changed. A group of mighty beings were killed in one single strike. This youth's strength was powerful to a terrifying degree.

With a flash of light as splendid as the rising sun, the glittering green praying mat disappeared into Shi Hao's heaven and earth net and became his belonging.

The praying mat was made from interweaving strips of elder wood. When he sat on it while cultivating in the future, the praying mat would be very beneficial to him. The thought of this pleased Shi Hao greatly.

The mood of the crowd, on the other hand, was not as great. The praying mat used by Kun Peng was no common object. It was a divine treasure, and it was entirely possible for some of its dao laws to have been left behind.

At that moment, the jade bottle had also been swiped by someone. The stone table was now empty, making everyone absolutely furious. Two precious treasures have already been taken by others.

Shi Hao walked out with the black broken sword in his hand. He was stared at by those lords and the supreme elder who had fought with him before. He was leaving this place, and no one could stop him.

The legendary abode was enormous. Precious energy drifted about, and swarms of creatures were roaming about in search of the Kun Peng's precious technique and other rare worldly treasures.

This place was full of miraculous objects. Things that the Kun Peng used casually were all magical artifacts and incredibly powerful. This filled everyone with longing and eagerness.

They could see from the Divine Lamp of Illumination and Pure Jade Vase that the archaic Kun Peng didn't care about these things at all and placed them around as it pleased. As a result, everyone felt their blood boiling as they searched everywhere with excitement.

Sure enough, someone found another treasure. Even though it wasn't a famous magical artifact, it would still bring about quite a stir in the outside world.

As a result, another huge wave of clamoring broke out. It was even more fierce than the previous fights, and intense war cries echoed through the cavern depths.

Regardless of whether it was the noble lords or the other creatures, they all leapt over towards this place.

"Weapon Refining Ground!"

When Shi Hao rushed over, he saw a stone tablet. On top of it were carved these three ancient words, and after seeing them, he became greatly shocked. He finally knew why everyone was fighting so fiercely here.

Was this where the Kun Peng forged precious artifacts?

Specks of light drifted about in front of him. The spiritual essence here was extremely dense. A cold pond could be seen, and it was so bone-chillingly cold that people could feel their flesh and bones splitting apart even from far away.

"There really are precious artifacts here! They are inside that pool." Someone cried out in alarm.

Inside, there were several streaks of divine light flickering and moving about like fish. Upon closer inspection, they were actually sword cores, fine pagodas, and many other things. These were all crude materials left behind since archaic years that have not been completely refined yet!

"Even though these are all unfinished weapons, they all possess intelligence. These are all magical weapons passed down from the archaic times!"

Many people cried out loudly. These individuals could no longer hold back their urges, and were so stirred up that they were shaking. They were going to jump into the waters.

Where would they see such things in the outside world? Needless to say, these were all top quality materials used to refine weapons. These objects were all incredibly rare in the outside world, and was enough to make everyone go mad.

“Heavens! That sword core is made of dragon bone iron! The legendary divine grade material was forged into a sword core. This is definitely a priceless divine treasure!”

After someone recognized the sword core within the cold pond, that person’s expression immediately changed and couldn’t help but cry out in shock. This was truly a rare and valuable item that was difficult to put a price tag on.

Legend has it that dragon bone iron was a resource formed when a real dragon died within a iron ore mine. It was a precious material that was of the highest quality, and if a weapon even contained a small piece of this steel, it would immediately become a supreme treasure.

Not to mention normal people, even the aristocratic nobles and clan lords’ eyes became red with greed. They all prepared to dive in and seize those treasures.

Meanwhile there were supreme experts that immediately took action. These were the most ideal holy objects for them, because once they earnestly refined them, these items could truly resonate and belong to them.

Moreover, after experiencing countless years of nourishment, the spiritual natures of these things became extremely powerful. Once formed, they would definitely become supreme magical artifacts.

“Kill!”

Everyone flocked over, and there were even some that directly leapt towards the cold pond to obtain these treasures.

However, something frightening occurred. As soon as they approached the cold pond, the surging cold air immediately froze more than ten people. Their bodies then fell down and cracked into pieces

Everyone felt their fine hairs standing on end. This cold pond was too scary! Why did things turn out like this? This was not merely a problem with the temperature. There was definitely a haunting divine force contained within.

“Rise!”

A sect lord shouted out. His long sleeves fluttered about, causing divine light to surge. The cold energy was immediately dispersed. He rushed towards the cold pond with his precious technique to fish up a magical artifact.

However, as soon as the symbols landed on the cold pond’s surface, they immediately shattered, proving to be useless. Moreover, after a short period of time, a loud explosion broke out, and a huge wave surged and slammed towards him.

The sect lord immediately retreated in a hurry. The dozen or so people beside him all shrieked miserably, but they were soon frozen solid into ice sculptures. Their bodies were already cracking apart, and they all died here.

“This place seems similar to the Abyss of Black Ice. There is some kind of divine power at work. It is tough for a normal person to enter and obtain anything.” Everyone shook their heads.

Suddenly, someone took action. He leapt up and entered the cold pond without any fear. This was precisely the sea deity Mo Shang. A golden blaze surged around him, and he moved forward with the halberd in hand towards a sword core. He wanted to obtain it for his own use.

However, the magical artifacts within the pond all possessed intelligence. They moved about like a fish, quickly avoiding him and not giving him any opportunities.

“Good stuff!” From the shore, the devilish brat was drooling. He directly brought out the heaven and earth pouch. After opening it, strands of multicolored light flowed out to try and seize it.

Hong!

The torrential waters roared. Endless streams surged from the cold pond, hiding the sky and covering the earth as it swept over. None of those precious artifacts arrived, and only the terrifying divine waters attacked.

Everyone was so terrified that they felt their souls departing. They immediately turned around to flee. This fucking brat was too hateful! Why did he bring down such a disaster on everyone? Everyone began to curse continuously.

Shi Hao was drenched by the cold water. However, as soon as he started to freeze, he shook fiercely, causing the ice to immediately shatter. Unfortunately, the heaven and earth pouch couldn't collect any of those magical artifacts.

In the distance, everyone felt a raving fear as they watched this. That fellow was terrifying after all! He wasn't scared of the cold at all.

Putong

Water blossomed high up into the air as the Flaming Fish race Han Tian also jumped into the pond. At the same time, there were several supreme experts that similarly entered the icy cold waters to seize those precious artifacts.

These treasures were so amazing that not even supreme experts could sit still anymore. They decided that they had to fight for it with everything they had. If they really could obtain a treasure like this, then once they earnestly refined it, it would definitely become a divine object.

“Mine, mine, all mine!” The devilish brat shouted loudly. In the end, he also jumped down towards those weapon cores and chased after them.

When the land creatures in the distance saw this, their hearts all trembled. They were extremely familiar with his character. When Yun Xi heard this sentence, her head even began to hurt. This savage fellow was going to go crazy again.

Sure enough, the first one to suffer was a pure-blooded creature from the Archaic Divine Mountains. After encountering the devilish child, it began to fight over a pagoda, but was sent flying after only a brief period of time. It spat out large amounts of blood and almost died on the spot.

This was a pure-blooded creature that had already matured! It was twenty years old that abruptly rose to power. It was at the golden age of power, and showed disdain towards all others in its region. However, it almost killed just now!

Suddenly, all the creatures within the cold pond simultaneously rushed towards Shi Hao's location. They wanted to collaboratively take him out and seize the dazzling gem-like pagoda.

"Heavens! That's a sacred pagoda formed from chaotic earth! It's a bit more precious than even that dragon bone iron sword core! It really is a rarely seen item." An old ancestor ashore cried out in surprise.

Even though chaotic earth was called earth, it was definitely still a divine object. Once formed into a precious artifact, it became invulnerable. Moreover, there were even some symbol imprints from the era of primal chaos inside.

Just these primal chaos symbols alone was enough to make people go crazy. This could be considered a supreme treasure!

At first, no one noticed it. However, once Shi Hao was about to get his hands on it, several supreme experts and creatures from the Archaic Divine Mountains was alarmed. They began to fight over it together.

This pagoda was incredibly unique. It was full of spirituality as it circled around Shi Hao. He couldn't catch it after many attempts, and at this moment, the incoming experts immediately made Shi Hao feel even more rushed and muddled.

"All of you, drop dead!" The devilish brat flipped out and ferociously brandished his divine force. The broken sword in his hand hacked about, immediately sending out a streak of brilliant radiance to engage this incoming group.

Dang! Mo Shang had also arrived. The golden halberd in his hand hacked towards his head, only to be blocked by the broken sword.

A supreme expert roared. It spat out a mouthful of symbols that poured down like a stellar river. It submerged the area where Shi Hao was located to suppress him.

The exquisite pagoda formed from chaotic earth immediately rushed towards the bottom of the pond, fleeing from Shi Hao's side.

The devilish brat became angry and immediately attacked everywhere in a chaotic manner. Ten heavenly passages emerged and formed a resplendent ring with him at the center. Even his flesh heavenly body appeared, and they all surged with auspicious multicolored light.

A huge battle broke out as he frantically attacked these people. All types of techniques emerged. The divine striking stone smashed into an unfortunate pure-blooded creature, breaking the bridge of his nose and causing blood to trickle out from both his mouth and nose.

Two years ago, that witch taught Shi Hao a string of incantations that helped him control the divine striking stone. Its power increased sharply, and now, even pure-blooded creatures would receive serious injuries after being struck.

The young expert from the Archaic Divine Mountains felt so much pain that even tears flowed out. He was angry to the extreme.

The divine striking stone cried out with ao ao sounds about the pain. It flew about, smashing all over the place, and many people suffered as a result. All of them were bleeding from their foreheads. Their expressions were ashen, and they were simply angry to an unbearable level.

Even Mo Shang got caught up in these attacks, and even the crown on his head was shattered. His hair was now rather dishevelled, cutting a sorry appearance.

Everyone stared blankly at this scene. Finally, that piece of crazy rock finally stopped and entered the waters, no longer striking at them.

“Mine, mine, all mine.” The divine striking stone shouted loudly as it chased after the pagoda formed out of chaotic earth. It wanted to smash it apart to eat it.

When Shi Hao chased after it, he noticed that the divine striking stone was crying out with pain while smashing itself into the pagoda. It was using everything it had to bite it to pieces and eat it.

It was obvious that its teeth weren’t good enough. This was not just chaotic earth, because after it was turning into an artifact core, there were some symbols inside that prevented it from being broken.

Even though the exquisite pagoda possessed intelligence, it was not something that had its own mind. As a result, it was still caught by Shi Hao.

“Please give it to me! In the future, I will definitely behave myself!” The divine striking stone was shouting noisily because this kind of object was too important for its growth. If it truly refined the pagoda, then it would be able to improve and transform.

“Give it to me!” Suddenly, a feeble yet terrifying will rang out within Shi Hao’s mind.

“Who are you?” The devilish brat became fearful. This was the first time he felt somewhat scared and upset. Ever since he stepped into this restrictive ocean region, he had yet to be scared of anything until now.

Even though this will was weak, it could still make one’s soul tremble. It could make one feel as if the world was shattering, as if a new heaven and earth was opening.

A piece of bright and crystalline object appeared in front of his eyes. It came from his hair, and was surprisingly the small pagoda that was less than an inch in length. It landed on the chaotic earth.

“It’s you?” Shi Hao was shocked. This was the first time that this object reacted, and it actually spoke, immediately giving him a huge fright.

“Exchange.” The crystalline and transparent bone pagoda’s words were concise.

Shi Hao didn’t understand, asking it what it meant by ‘exchange’.

The finger length bone pagoda released a divine mental fluctuation, informing him that it would grant him a one time use. If he was stuck in a desperate situation, it would slaughter all of his enemies and tear apart the void to help him escape.

Shi Hao was shaken. In simpler words, this was a life saving opportunity.

“Fine!” He nodded in agreement. Even though the artifact core formed from chaotic earth was amazing, it was not as important as his life. He wasn’t on the losing end of this exchange.

This was because he believed in this bone pagoda’s strength. It was something that could even make the Willow Deity become serious, a bone artifact that it wasn’t willing to talk about.

Kacha

The small pagoda directly smashed the chaotic earth into pieces, devouring the large piece at its center.

“Big bro, leave some for me!” The divine striking stone cried out miserably. It then jolted its buttocks over to curry favor from that small pagoda.

Kacha

The small sparkling pagoda didn’t seem to pay any attention to it. After it devoured most of the chaotic earth, it only left behind some scraps before returning to Shi Hao’s hair.

Some powder scattered down from the bone pagoda, and it was clear that the small pagoda had completely refined the chaotic earth. It absorbed a portion of its essence and acquired the damaged chaotic symbols before returning to a peaceful and unmoving state.

“Big bro, much thanks!” Upon seeing this, the divine striking stone exalted. It knew that the other party didn’t think much of these scraps, so it directly threw itself over before devouring it viciously.

It couldn’t even chew through the complete pagoda anyway. The leftover fragments were perfectly fine for it, so it wolfed it down.

The devilish brat seemed rather envious while watching this scene. “Does it really taste that good?” He spoke while reaching out, wanting to get a piece of itself.

The divine striking stone immediately shrieked miserably and said, “You don’t need to fight with me! You can’t eat this kind of stuff!” Following that, it quickly protected its food and swallowed all of it.

The devilish brat looked resentful and said, “Do I look like someone who eats anything just because I’m hungry?”

“Yes!” The divine striking stone bluntly replied.

Hong!

Suddenly, the ground split open, and waves of terrifying sounds could be heard. It was as if the world was being reopened, and even the energy of primal chaos appeared.

Shi Hao cried out in alarm. He hurriedly rushed up and broke away from the cold pond to see what was happening.

The cave region ahead shone brilliantly as a majestic and imposing main hall emerged. A Kun Peng was looking disdainfully at everyone as it radiated with flourishing light. Primal chaos surrounded its body, making it look terrifying to the extreme!

Chapter 257 - Eternity

It was an unbelievably large ancient hall. The place was grand and endless, with misty heavenly bodies overhead, as if this place was connected to the extraterrestrial world. Beneath the starry dome were clouds of chaotic energy that filled the entire hall.

The crowd was befuddled, and no one moved to attack it. The hall opened by itself. No one knew just how many tens of thousands of zhang it was in height. It was as if it led to a completely different world!

Within this ancient hall, there was an extremely lifelike Kun Peng. It stared at everyone with its sun-like eyes.

Its form was ever-changing. One moment it looked like an incomparably large golden Peng with black stripes on its body that could cross galaxies. Another moment, it sank into the primal chaos and took on the form of a large fish. Its body became pitch black, with a size of several tens of thousands of li.

The crowd was shocked. Was that a living Kun Peng? This was not a common building, but a grand hall! It was absolutely massive.

The Kun Peng looked down upon them with pride and nonchalance. Many creatures could not withstand its presence and immediately knelt down before it. Its divine prowess was magnificent, and it gave off an aura of invincibility.

“How could this be? The Kun Peng is still alive?”

The crowd was trembling. After so many years, the world had gone under countless transformations and generations of creatures had come and gone. There shouldn’t even be any traces of this creature left over, so how could it appear again now?

The rumor that the Kun Peng died during the archaic era should be true. Now that it appeared again, all the experts here became scared.

The master of the divine nest was still alive, so weren’t they simply seeking death by coming here to seize its precious technique?

However, in the next moment, the giant Kun Peng was gone. The hall was empty and deadly quiet, the previous atmosphere nowhere to be found.

“Yi, what is happening? Why is it gone?”

“I understand. That was a miraculous scene created from the Kun Peng’s precious technique. It must be hidden in this hall!”

This place immediately became chaotic. Everyone dashed forward. From the mighty experts to the condescending elders, all of them had lost their self-restraint. They fought their way into the ancient hall with bloodshot eyes.

Precious technique like this were deemed peerless. If one managed to get hold of it and studied it thoroughly, then he would surely be qualified to conquer the world. They would be able to weather any trials and tribulations that laid ahead.

There was a dense fog within the hall, but it only rose up to one’s knees. It was as if they entered a heavenly palace. One could only fully appreciate its grandness after entering this hall.

People kept charging inside. After running for a long distance, they still did not reach the end of the hall. An incredibly long time had passed before an ancient altar appeared, floating in the air.

“There it is!”

At this moment, everyone could feel that unique aura again. They began to speculate that the Kun Peng’s original symbol bones might be on the altar, and that it were these bones that produced the miraculous image of a real Kun Peng.

Immediately, all kinds of beams surged. Treasured artifacts rose up as they dashed towards the altar.

The mountain-high altar was built from enormous ash-brown boundlers. They appeared to be extremely ancient, with little to no divine aura. However, it seemed to possess an even greater affinity with the dao.

The greatest daos were the simplest ones that did not possess thriving sceneries. What this one possessed was the fusion of heavens with the earth, the unity of all living creatures. The altar towered within this heavenly room.

Many people speculated that this was probably the tomb of the Kun Peng where all its bones were buried. The miraculous image that filled this place just now was a reflection of its imprints.

Everyone made their way inside. Even though the altar was enormous, it did not contain a single killing symbol formation. The Kun Peng would not do such a thing, because if it really wanted to kill these people, no one would be able to get in here alive.

“Is this an altar or an archaic divine mountain?!”

The crowd was shocked. Spiritual medicines were growing between the stones on this grand altar, and the air was filled with spiritual essence. There was even a great waterfall that cascaded downwards, spraying out waves of essence.

The people here believed that these precious medicines were not planted on purpose. Because this place was full of great wonders and incredibly dense spiritual essence, it naturally gave birth to these precious medicines.

“That is... definitely a divine medicine!” The crowd realized with astonishment.

There was a stone stairwell that lead straight to the highest point of the altar. Beneath it grew a unique stalk of medicine. A drizzle of light curled around it, making it look rather dreamlike.

It was a stalk of Star Grass, a rare spiritual existence that could evolve. Once it produced its fourth leaf, it could already be considered a spiritual medicine. It was extremely precious.

The one they discovered, though, had already grown out seven leaves and was shining splendidly. At this stage of evolution, even the colors of the plant had changed. The seven leaves were glittering and translucent, each with a different color corresponding with the seven colors of a rainbow. It was so bright and resplendent that it made people dazed.

More importantly, the star patterns on each leaf had become deeper. Misty precious light was flowing within them, as if stars were twinkling one after another on them. It made these leaves look absolutely magnificent.

“Star Grasses can actually grow seven leaves?!” The crowd was shocked.

Star Grasses were usually hard to come by, and the ones that everyone discovered were all four-leafed. The existence of this stalk was absolutely insane.

“Once the eighth leaf comes out, it will become a divine medicine. Yi, something isn’t right. Look, its eighth leaf is already sprouting. It’s turning into a divine medicine!”

Someone shouted in surprise. There was a small bud at the very tip of that stalk of star grass. It was wrapped within a sphere of light, brimming with vitality.

This discovery made everyone go mad. Once they were dug up, nurtured carefully, and watered with the spiritual springs, this stalk of medicine would surely become an extremely rare divine medicine.

As soon as the word ‘divine medicine’ was spoken, the crowd immediately went crazy. All sorts of symbols flew out as they dashed towards it.

Hong!

A river of stars suddenly fell down, blasting away all those that had come near. The crowd immediately halted. They felt their hearts racing, since they were almost struck like the others. That river of light was powerful enough to collapse mountains.

“Those are... weapons!”

Weapons like the sword core they saw moments ago in that cold pond had fled here. After Shi Hao obtained the exquisite pagoda made from chaotic earth, these powerful spirited entities were all frightened and hid themselves here.

Among them were also weapons. They were not unfinished cores, but real archaic divine objects!

“The magical artifacts of the Kun Peng! Those are the weapons it used!”

Nothing shocked the crowd more than these items. Apart from its precious technique, these were the objects that the Kun Peng cherished the most, and they were all displayed on this altar.

There were eight or nine weapons that were floating above the others, and all of them were surrounded by divine light. Apart from those unfinished cores, there was also an exquisite dragon-tooth dagger, a golden fan, and a black ruler.

The weapon in the center was the most special one, and it was being surrounded by the other artifacts. Misty chaotic energy flowed all around it, making it appear extremely terrifying and astonishing.

Upon closer inspection, it was actually damaged. It was a great halberd that was ancient and unadorned. Even the halberd’s blade was dim and lusterless. It was broken into three pieces, and dense chaotic energy surrounded it.

“It’s Eternity!”

“It’s a legendary weapon that belonging to the highest level of heavenly ranks, one of the ten great weapons of the archaic era!”

Even the elders were astonished. Their bodies trembled as they became excited beyond belief. This was a true weapon of legend.

Eternity had followed the Kun Peng throughout endless battles, allowing it to remain ever victorious. In front of its power, all other precious artifacts would turn into ashes. Some said that Eternity was refined from a true dragon, while others claimed that the Kun Peng refined it from his own symbolized bones.

No matter what material it was made from, its might was unquestionable. It was all-conquering, regardless of whether it faced deities or devils. From heavenly-ranked vicious beasts to divine birds, nothing could withstand its attacks.

The weapon was bathed in blood during the archaic time. Countless mighty beings died at its blade. All clans trembled at it during that time. Any powerful creature would gasp and shiver with fear at the mention of its name.

Now that it was displayed here, everyone became both crazy and befuddled at the same time. It was actually broken, turning into three pieces. This... how did this happen?

No one had heard about it being broken! People only knew that it had followed its master into the Kun Peng nest, never to be seen again since.

It then dawned on them that something must have happened back then that the outside world was not aware of. What sort of great battle took place back then? This was just too terrible. What kind of frightening thing was this?

With Eternity in hand, the Kun Peng represented absolute invincibility, yet it was still cornered like so. Could it be that the fall of the Kun Peng... also had something to do with this?

Soon after, the crowd felt rather vexed again. Even the supreme experts were frowning, because even after Eternity was broken into three pieces, it was still too powerful for them to take away. Moreover, their cultivation levels were being suppressed, and with only their spiritual bodies here, the situation was looking even more hopeless.

The river of stars just then was released by Eternity. It wasn’t even one of its attacks, and was merely some of the light that drifted around it, yet it was already so terrifying. Who could fight against it?

The divine treasures were right in front of them. All types of archaic treasures were being displayed, yet they could only watch helplessly. This type of feeling was incredibly complicated.

The crowd felt incredibly conflicted and frustrated. They were truly being tempted right now! So many weapons were lying there, yet they couldn’t approach at all. This was pure torture.

“The Kun Peng’s nest has already split open, so it’s only right for it to not make things difficult for us. It has left its legacy for future generations, or else we wouldn’t have been able to make it this far.”

There was someone who whispered this softly after grasping the key to this problem.

The crowd felt awed after hearing these words, and soon after, they all became silent. They all began to spread their divine senses afterwards to communicate with the weapons on the altar, hoping to receive their recognition.

Unfortunately, they were disappointed. Let alone Eternity, the golden fan, black Sky-measuring Ruler and dragon-tooth dagger did not even respond. Even objects like the sword core had ignored them.

The divine medicines and weapons were all lying there, but they could only look at these matchless treasures from afar, not able to get close at all. They felt utterly defeated.

"I must have it."

The Sea Deity descendant stared at the damaged Eternity with eyes that flickered with frenzy. He was extremely fond of it, because his original weapon of choice was a halberd.

He was not the only one. The young individuals from the Archaic Divine Mountains were also eyeing it with divine light-filled pupils. Weren't these legendary divine weapons meant for matchless heroes? They were young and vigorous, and they were at the age where one could rise abruptly to power, so they longed for to become a legend.

Needless to say, those supreme experts also desired these weapons. They could be used to guard their clans and help them prosper forever.

"Broken weapons can still be fixed!" Shi Hao similarly spoke to himself. He couldn't shift his eyes away once he saw this weapon. He wanted to hold it in his hands and use it to travel the world.

"Fellow cultivators, there's only one way left. Let's take out all our Kun Peng bone pieces, scales and feathers, and use them to climb onto the altar. Otherwise, we won't get anything," said someone.

Everyone nodded. So many great forces had gathered here. They were masters of Ocean Divine Islands, supreme experts of their regions, and others, so there were naturally some within this group that could bring out things like broken Kun Peng bones.

Just like that, even Shi Hao brought out a piece he obtained previously from ransacking Mo Shang with the little witch. Later on, she left it with him when she left.

When the sea deity descendant saw this, his eyebrows immediately arched. He began to burn with rage.

As a result, the crowd began to climb the altar while holding these scales and feathers. The weapons indeed did not attack them, but they still did not dare pick the divine medicines or touch the black Sky-measuring Ruler, dragon tooth dagger, the golden precious fan, or Eternity.

At this moment, the people here could not shift their eyes away. They were staring at the center of this place. A stone platform rested there, as if it was a coffin.

A bone laid on top of the platform. It was golden in color with black stripes running through it. Symbols densely surrounded it, swirling with the profound mysteries of the heavens!

"This is it! This is it!" Everyone began to shout loudly

Chapter 258 - Kun Peng Symbolized Bone

Everyone now understood that this was precisely the primordial symbol bone of the Kun Peng, and it was lying right there! It contained its mightiest divine ability, which was one of the ten great archaic precious techniques.

What did they endure so much and come so far for? Everyone was here for this precious technique! Yet right now, it was right in front of their eyes, so how could their hearts not be moved?

The primordial symbol bone was more important than anything else, because it contained everything. Every last bit of the Kun Peng's secret methods should be recorded within, and its unsurpassed profound mysteries were stored inside.

Symbols flowed and crimson light flickered. It seemed as if rivers of stars were moving up and down. It was only a bone, but it seemed to be bearing the will of the universe.

Its might soared above the nine heavens, with a great dao infused within!

Hong!

Kun Peng spread its wings, and an image of its true form reappeared. It was the same as what happened not long ago, immediately filling up this place. It soared above them all, and its enormous body seemed to be able to traverse the heavens.

The vision was indeed caused by this bone. It represented the inexhaustible fighting intent, as well as the Kun Peng's unequalled will. Even if it had fallen, it would still not be completely extinguished.

Many people felt weak and collapsed onto the ground, failing to resist. Not even the supreme experts could withstand the pressure. They began to stagger about and almost kneel down.

Later on, this Peng turned into an enormous black fish that undulated up and down like a continent. Only when it returned into the primal chaos did everything vanish.

It turned back into a bone, becoming completely silent.

"It... was demonstrating its unmatched profound mysteries just now. Unfortunately, we don't have the bone in our hands, so we cannot study and comprehend it. If we did, this would have definitely been an extremely great opportunity to understand the dao." Someone spoke out in a trembling voice.

"It's broken. It isn't completely intact!" Right at that moment, there was someone who cried out. There were cracks running through that bone! Even though it was still in one piece, it was clear that it could be separated.

"This... Fortunately, it didn't suffer any deficiencies. The symbols inside should not have been affected. Once obtained, the profound mysteries inside should still be able to be studied."

The crowd sighed with relief after watching it more closely. Although the bone was cracked, nothing was missing. The bone could still be studied after being put together.

"It's rather strange!" Shi Hao said to himself. He walked on the Kun Peng path, and used the supreme being's method to refine his own body. When he watched the Kun Peng's nest from afar in the past, he saw some symbols. Currently, he seemed to have gained some insight.

A sect master softly shouted, ordering the disciples from his sect to rush forward together. After checking several times, they still did not find any symbols stopping them, so they felt that they could approach now.

The crowd began to rejoice at this moment. They all charged forward, and their minds were flooded with greedy thoughts.

This archaic divine treasury was most likely opened as a gift towards later generations. Otherwise, the Kun Peng definitely would not have decided to leave anything behind and destroyed everything.

The primordial symbol bone was the most crucial piece. After obtaining, it was likely that it would enable them to control everything, even the ability to obtain 'Eternity' and those other terrifying weapons.

This was entirely possible. Once these thoughts emerged, everyone immediately felt their blood boiling as they dashed forward.

Large groups of experts rushed forward, and even supreme experts moved out. They no longer had to hold themselves back, because now was the time to act. The one that remained undefeated and victorious was the one that would obtain the precious technique.

"Kill!"

Shi Hao was forced to fight. Originally, he still wanted to stay towards the back because he didn't think everyone would suddenly move. The light from all types of symbols flew about, submerging this place.

Those that didn't fight back were simply walking targets. There were many rogue cultivators that swept through this place, hostile towards everyone but themselves.

The first individual that got struck by Shi Hao's fist immediately flew backwards and exploded mid-air. That person didn't even get to see who attacked him before he died miserably, making him extremely regretful.

Shi Hao forced open a path and directly rushed towards the center of this place, quickly closing in on that stone platform. The precious bone came into view, and was not almost within reach.

He created a hand formed from light and grabbed towards that primordial symbol bone. However, right when he was about to obtain it, a barrier of light surged, pushing his hand back.

"Yi?" He was surprised. The resistance came from the precious bone itself. It did not allow people to get near, yet it did not fight back fiercely either.

Even though it was rather unfortunate, it was still a good sign. This place wasn't that dangerous on its own. The bone was still obtainable, and it was only a matter of time at this point.

When everyone saw this, everyone was immediately startled. This youth was too formidable! He made his way through the crowd like a hot knife through butter as he killed his way inside. They all tried to stop him.

Hong!

A supreme expert attacked. There was still quite a bit of distance between the two when he released a precious technique. A Bi'an roared and charged over while surrounded in golden light.

Shi Hao's two hands moved about. A sun emerged, and with a forceful push and a loud rumbling sound, the radiance of electricity lit this place up brilliantly. This area immediately exploded as lightning hacked outwards. The Bi'an was immediately shattered, and at the same time, many people's bodies were charred black from the electricity as they fell. Those supreme experts even began to hastily take move out of the way.

Intense fights were breaking out in other areas as well. There were others who were rapidly approaching the central region.

"Get out of the way, or else all of you can go die!" The sea deity descendant Mo Shang blasted out a path and charged forward as if there was no one standing in his way.

With a pu sound, blood splashed outwards. Several sect ancestors of the Mermaid Clan were hacked apart, losing their lives here.

"Mo Shang, you've gone too far!"

A beautiful figure appeared, belonging to a female mermaid. The lower part of her body was that of a silver fish, and the top was that of a human. Her skin was spotlessly white, and her chest was covered by seashells. Her beautiful hair fluttered behind her, and two streaks of divine radiance shot out from her eyes.

She held a chi[1] length staff in her hands, and embedded within that staff were brilliant divine divine gems. With a wave, a dazzling brilliant radiance was released, causing symbols to surge over like ocean waves.

The sea deity descendant Mo Shang stood there without any fear in front of this attack. However, there were many fighting servants behind him whose expressions changed, crying out loudly as they tried to escape.

The golden halberd in Mo Shang's hands swept out, and a streak of golden lightning hacked apart the barrier of light made out of symbols. He looked extremely valiant as he killed his way forward.

"Kill!" *no-ve/lb-1n*

The Mermaid Clan's female genius immediately revealed anger on her sparkling face. Her head of beautiful hair scattered about as the staff in her hands erupted with incredible light. With a fierce sweep, tens of thousands of lightning bolts descended down on this place!

Behind the sea deity descendant Mo Shang, a battle servant cried out loudly. His entire body was scorched black, and many people other around him collapsed within the water, dying violent deaths.

"You dare to hurt my men! Where do you think you are going?!" Mo Shang shouted loudly with an unstoppable attitude. The halberd swept across the sky, and there was nothing that could stand in its way as it broke through the barrier of light and killed his way forward.

The great fight ensued, but the young mermaid was not his match. Her hair scattered about. She could not continue on much longer.

However, this was still rather shocking. After all, for the past two years, there was no one who could defeat Mo Shang. He swept through this entire sea region, and not even supreme experts didn't want conflict to spark between them. It was clear just how terrifying he was.

On the other side, the pure-blooded creatures of the Archaic Divine Mountains joined forces. They tore through everyone like rotten weeds, displaying a power that was matchless as they charged towards the precious bone.

"Kill!"

The masters of various sects also showed themselves. They no longer hid themselves and unleashed a killing spree. They rushed forward and extended their hands towards the piece of precious bone.

At that moment, a divine lamp lit up. The Flaming Fish clan youth Han Tian also showed up with the Divine Lamp of Illumination in hand. With a light blow, a huge expanse of raging flames rushed out from the lampwick.

"Fall back!"

The sect masters felt a wave of horror and immediately evaded the sea of flames. That was an archaic magical artifact, as well a rather evil lamp. According to legend, the lamp was fueled by divine blood.

"Open!"

A supreme expert made his move. With an ancient treasure in hand, he released a mist of water that engulfed those flames.

However, once the blazing flames made contact with the water, it began to flourish with even more vigorously. Chi la sounds rang out, and the watery mist immediately evaporated. With a hong sound, half of the elder's sleeve was burnt away, almost making his body suffer as well.

A melee took place here. Everyone was fighting everyone. As soon as somebody approached the precious bone, he would receive attacks from behind and had to back off.

A chaotic battle broke out, and everyone engaged in this power struggle. As soon as someone approached the precious bone, they would immediately suffer attacks from the people behind them and be forced to retreat.

"Come to me!"

The devilish brat was extremely savage, blasting away everyone around him and clearing up this area. He took out the heaven and earth pouch to try and collect the entire stone platform.

The sky trembled, and the stone platform also began to shake. However, the Kun Peng bone also shone, becoming even more brilliant. It formed a barrier of light that surrounded this place, not allowing the platform to be brought away.

He had no choice but to push forward with everything he had. The devilish brat was absolutely terrifying when he fought with everything he had. Ordinary creatures did not stand a chance against him, and even supreme experts would feel apprehensive when facing him.

Suddenly, a great halberd hacked over from the side. Mo Shang made his move, and with a honglong sound, golden light surged like great waves. Apart from a handful of people, no one else was his match. Upon making contact with this light, they would inevitably explode to pieces.

"Get out of the way!" Shi Hao shouted and struck at the halberd with his broken sword. The impact created splendid light, sending all the people nearby into the sky.

"You should stay down there!" Responded Mo Shang with a cold voice. He was trying to knock Shi Hao down from the altar.

Hong!

On the other side, the Divine Lamp of Illuminating displayed its power, surrounding both of them. Divine flames burned fiercely, forcing them to act defensively.

The place was in absolute chaos. Shi Hao had exchanged blows with many opponents, and even rushed near the stone platform several times. However, he was interrupted each time, preventing him from obtaining the precious bone.

During his most successful attempt, his body got extremely close. When he reached out with everything he had, he seemed to have reached past the barrier of light and touched the symbol bone. In the end, he was blasted away by some supreme experts.

The devilish brat was absolutely infuriated, entering a berserk state. He summoned the ten heavenly passages to nourish his flesh heavenly passage. His left hand hacked out with the broken sword while his right hand turned into streaks of lightning, bringing out the Suan Ni's precious technique. Behind him, a Kun Peng spread its wings and rushed out.

Hong!

This was an incredibly fierce and intense battle. A supreme expert spat out blood after being struck flying by Shi Hao. His spiritual body seemed to have almost been destroyed.

"Blue -fur brat, get over here now!" He bashed left and right as he rushed forward, beating the supreme expert until he spat out blood. He then rushed towards Mo Shang to get rid of him.

The two collided violently!

Shi Hao went crazy. His head of thick black hair seemed to be standing straight as the broken sword continuously hacked about. Every single slash struck down on the golden halberd, sending sparks flying in all directions.

Mo Shang roared as he fought back fiercely. The two seemed to have gone berserk. The sea deity descendant Mo Shang was starting to feel a bit intimidated, because this fellow was powerful to a ridiculous level. Even his arms were starting to feel numb.

"Suppress him!"

Several elders attacked all at once and rushed forward to suppress Shi Hao together. They felt that this fellow was extremely dangerous after he went crazy, because the power he released was simply too powerful.

In the end, many people joined in from mutual understanding. The devilish brat was too formidable, possessing a fighting strength that was excessively terrifying. They wanted to cooperatively eliminate him before fighting over the treasure.

“You should get over here as well!”

The frenzied Shi Hao possessed a demeanor that was utterly invincible. The Flaming Fish youth Han Tian even became one of his targets.

"Kill him!"

The supreme experts laughed coldly. The old ancestors began to shout loudly, seeming to have become even more stirred up. With so many of them acting together, how could they not get rid of him?

There were many creatures in the distance that still did not make their moves. They thought that they had no chances of obtaining the Kun Peng's symbolled bone, so they didn't want to die in vain. Instead, they watched from a sufficiently safe distance.

The crowd gasped after seeing this scene. That youth was too powerful! He was fighting against everyone by himself! This was simply beyond terrifying.

Shi Hao weaved in and out as he fought, his bravery simply unstoppable.

In the end, his entire body shone. Golden swirls appeared on the surface of his body, drawing in spiritual essence and symbols from all directions. This was the wonder of having a completely spiritualized body. He could receive the spiritual essence of others and use it for himself.

Together with his Golden Spiral Rippling Technique, those symbols and essence energy were absorbed at an even faster speed.

“Not good!” Right at this moment, Mo Shang and Han Tian both released a loud shout. Both of their bodies were similarly spiritualized, so they knew what the devilish brat was trying to do.

Hong!

Fuelled by the power gathered from everyone, Shi Hao suddenly leapt up towards the stone platform resting at the center. He reached out his hand towards the symbol bone.

One-third of a meter

Chapter 259 - Chaotic Bloody Battle

The golden barrier was destroyed. Shi Hao's right hand stretched out, and it seemed to almost make contact with that Kun Peng bone. This made everyone's expressions change greatly.

“Not good! Stop him!”

The crowd of powerful individuals shouted out. The other side was trying to use their energy to break through that powerful barrier of light and loot that precious supreme bone.

This was the wonder of body spiritualization. Not only did it improve one's cultivation speed greatly, when enemies attacked, their spiritual essence could be seized and used for oneself.

Chi

Mo Shang was the first one to realize this. He sliced down with the golden halberd towards Shi Hao's arm ferociously. His entire body was blossoming with golden symbols.

With a dang sound, Shi Hao's swung his broken sword to protect himself. However, his body was still shaken, so he was slightly deterred from his goal. His body was truly strong, so once the golden spirals appeared around his body, he continued to borrow force to disperse that barrier of light.

"Quickly, stop him!" Even those great supreme experts' became anxious, because the opposing party had already made contact with the precious bone. It was about to end up in his hands.

An expanse of symbols lit up. It was as if they were were cast from molten iron. They released a glistening light and flickered with icy radiance as they subdued Shi Hao. These symbols were trying to turn him into ashes.

Several supreme experts took action at the same time. This area was absolutely chaotic as wuwu sounds echoes throughout the cave. They were trying to deal the fatal blow, and any normal cultivator would have exploded on the spot.

The devilish child cried out loudly and used all of his strength to defend himself. A Kun Peng rushed out from his ten heavenly passages and travelled through the sky. It was extremely vivid and lifelike. It possessed the air of a supreme being as its piercing gaze swept out.

This gave everyone a great fright. They were currently trying to seize the Kun Peng bone, yet a Peng bird suddenly flew out, making everyone nervous.

While everyone was startled, Shi Hao seized that opportunity to complete the final stretch. He grabbed the Kun Peng bone and prepared to jump out of here.

Hong!

The youngster Han Tian made his move. He led tens of thousands of Flaming Fish clan members, and they all released endless flaming symbols, forming a sea of fire.

"We can't let him get away!" The supreme experts snapped out of their daze. They did not hide anything, releasing their most powerful attacks and bringing out their magical artifacts passed down from ancient times as they attacked.

Shi Hao found himself in a dangerous crisis as all of these attacks targeted him. Blood immediately flowed from the corners of his lips. This wave of energy was too tremendous.

This entire area was packed densely with symbols. The pure-blooded creatures, as well as incredibly powerful creatures like Mo Shang and Han Tian were making making this region tremble greatly.

These individuals were all equipped with ancient magical artifacts. The altar erupted with the sound of explosions. Shi Hao was blasted down into the ground, receiving severe injuries in the process.

In the end, he was still only alone, and wasn't some deity. He could fight against Mo Shang and Han Tian one on one, but now that so many experts had rushed up together with supreme experts even taking action, it was just impossible to protect against.

Even a young supreme being wouldn't be able to do anything. There were just too many people, and all of them were ridiculously powerful. The appearance of any of them would make others feel intimidated, and they could all rule over a region in the outside world.

In other words, once this group of people joined hands, they could sweep through everything under the heavens. It was just too difficult to defend against!

Shi Hao also went crazy. After being injured, he began to weave left and right. The broken sword erupted with dark light, and his entire body was covered in symbols that raged fiercely. The ten heavenly passages merged and crushed in all directions.

Pu!

An ancestor was hacked apart by him. When the broken sword sliced down, that creature was cut open from his forehead all the way down to the space between its legs, its entire body split in two. Shi Hao rushed from that location while drenched in blood.

He was like a demonic god as he unleashed a huge slaughter. Even though he was injured, he was still incomparably bold and powerful like a supreme war god as he swept through everyone.

Dang!

He exchanged a blow with Mo Shang's weapon. His other hand slapped out, and the two individuals collided with a huge sound. Symbols rumbled and surged like golden waves. The surrounding groups of people immediately spat out large mouthfuls of blood as they flew backwards.

This was a power struggle between two incredibly talented heavenly youth! There were many who couldn't defend themselves from the shockwaves created from their attacks. Other than the supreme experts, not even the clan ancestors of great sects could fight them at the realm of Spirit Transformation.

"Let's see how much longer you can continue!" Mo Shang shouted.

For some reason, the devilish brat aimed an endless barrage of attacks at him. The broken sword in his hand hacked down, creating deafening kengqiang sounds, making the crowds' souls tremble.

These attacks were too powerful. Symbols blossomed and blew up like fireworks. The two fought intensely, and over a hundred moves were exchanged in the blink of an eye. It deeply shocked everyone.

Everything happened too quickly and ferociously. How could ordinary people stop them? There was someone who continued to fight from the side, but exploded upon being struck by Shi Hao's sword, turning into bloody rain and shattered bones.

Ah... Mo Shang cried out loudly. Even someone as powerful as him felt his arms going numb. The space between his thumb and forefinger were splitting apart, with blood flowing out from that spot.

The other party's strength was too ridiculous. This power all came from a single broken sword. If it was switched for a great halberd, he might be even more ferocious.

This was the power of someone who was unequalled! The devilish brat was still younger than him by several years, yet his strength was so great. Equipped with symbols, he had the strength to uproot mountains and shift seas.

“Kill!”

Shi Hao displayed his might, unleashing a barrage of attacks on Mo Shang.

Hong!

Several supreme experts simultaneously laid out a formation pattern. These were created from an array of symbols, and as soon as they were activated, the entire cave began to tremble. Everyone was shocked, it was quite possible this was something only supreme experts could take out!

Normal people would rarely even see such things. This was not a normal killing formation, but rather a terrifying series of formations made out of symbols. Its might had reached the limit of power that could be displayed here!

After suffering the attack of this formation arrangement, Shi Hao’s body shook violently. With a fierce strike, he was able to force back Mo Shang and cause him to cough out blood. However, the corners of Shi Hao’s lips were also dripping with blood.

With so many experts joining hands, this was simply too difficult to fight against. It was difficult for him to even defeat one of these powerful opponents right now.

With a hong sound, flames overflowed into the heavens. The symbol formation array was forced back. Han Tian made his move again. His divine lamp of illumination was extremely terrifying as it burned the blood of deities. Even though its power was being suppressed here, everything was still almost burnt to ashes by it.

Even though it was extremely terrifying, Shi Hao had no choice but to deal with it. He used the ten heavenly passages to scatter those flames.

“Kill!”

Those supreme experts once again assembled their symbols. They were packed densely, like characters that were carved out of metal. It seemed as if they possessed the power to crush all everything in this world.

If it was just a single supreme expert, then so be it. However, this was formation array created from the collaborative effort of several people. With a honglong sound, symbols interweaved into a sphere of light. It smashed into Shi Hao’s body and sent him flying. He immediately spat out large mouthfuls of blood.

“Get rid of him!”

One of the old ancestors shouted loudly. Immediately, a group of people rushed with even more courage and determination. Shi Hao’s power exceeded their expectations. It was too dangerous to leave him alive.

Dang!

This time, Shi Hao's broken sword scattered apart the symbol formation array. However, another clan's formation arrived, forcing him to once again stagger backwards. Blood trickled out from the corners of his lips.

"Do you think it's that easy to bully and humiliate me?!" The devilish brat's temper immediately rose. He wiped off the blood from his lips. His body lit up and his ten heavenly passages trembled as they nourished his flesh heavenly passage.

"Kill!"

He went all out, using everything he had to summon the Kun Peng's precious technique. Behind him, a black wave surged, all of it created from symbols. An enormous fish appeared, raising waves that seemed to reach into the heavens.

He did not merely activate his own technique. With the true Kun Peng bone in hand, the precious technique's power increased exponentially, as if the archaic Kun Peng had completely reappeared.

The devilish brat was extremely daring, trying to comprehend this technique on the scene. He fought bloodily with these people while simultaneously activating the bone in his hands. He was trying to understand the contents and obtain its profound mysteries for himself.

"Not good! Stop him!"

The people cried out loudly. Even though they believed that there was no way he could immediately obtain the precious technique, they still weren't willing to let him delve in too deeply. Who didn't want to get dip their fingers in a precious technique like this? They weren't willing to let someone else probe its mysterious.

"Kill!" Everyone began to frantically attack.

Shi Hao was also roared furiously. The enormous black fish that was who knows how many li in length also swept towards the crowd. The black waves formed from symbols seemed even more boundless as it swept out.

Hong!

Once the great waves struck the skies, the group of cultivators rushing forward immediately exploded, leaving behind a rain of blood. Only their bony remains were left behind.

Shi Hao was startled. With his hand on the broken sword, he felt a powerful surge of the symbol's profound mysteries. It was extremely vast and majestic, and even with his natural talents, it would be impossible for him to remember it all without several days and nights.

In reality, all of these complicated and profound symbols could all be summed up with a single character. The great dao was could be simplified and completely condensed.

Unfortunately, those primordial symbols were extremely vague and indistinct. It was impossible for him to reach the primal imprint without first digesting the sea of symbols around it.

This was also one of the reasons why everyone else did not worry excessively. There was no one who could could instantly comprehend all of mysteries within the Kun Peng's primal bone.

Hong!

With the Kun Peng bone in hand, Shi Hao's precious technique became much stronger. It immediately blew back a large number of people, causing them to spit out blood. Even those supreme experts were like this.

Of course, he himself also suffered severe injuries. After being struck by someone's palm, his chest was almost blasted through.

"You dare to try and kill me! Go to hell!" The devilish brat flipped out. He held the broken sword in one hand while holding the symbol bone in the other. His body was surrounded by the Kun Peng's precious technique as he rushed towards that supreme elder.

This was an incredibly bitter fight. Shi Hao focused all of his attacks on the other party, continuously battering that supreme elder. In the end, that sword finally pierced through his skull, causing a string of blood to fly into the air.

"What?!" Everyone sucked in a breath of cold air. This was a supreme expert! Dying here was truly not worth it.

"Die!" Shi Hao shook the sword, and his head was immediately sliced into pieces. The corpse fell onto the ground, and then turned into a rain of light.

It wasn't his real body, but rather the supreme expert's spiritual body. After receiving such attacks, his real body would also suffer great consequences.

Immediately, the battlefield seemed somewhat cold and desolate. Everyone felt a chill run down their spines. That was a supreme expert! There was hardly any difference in fighting strength between the spirit body and the real one, yet it still died like that.

If it was the real body, wouldn't it signify that one of the Archaic Divine Mountains' giants fell?

"Kill!"

The devilish brat's eyes were a murderous red. After being attacked from all sides by all the powerful creatures here, his injuries were now extremely severe. He engaged all of these experts again, clashing greatly with all of them.

Fear rose within everyone. Even Mo Shang had been injured. The light created from that broken sword's light brushed past his shoulder, almost hacking off his arm. Large amounts of blood flowed out from that wound.

Shi Hao was also wounded, moreover extremely severely. However, he still continued to fight in order to break out.

The Kun Peng bone in his hands lit up, raising his precious techniques' power to a whole to level.

"Kill him!" Everyone shouted loudly.

The battlefield was extremely intense. The devilish brat attacked left and right, and every time he nearly broke out, he would once again be surrounded.

His entire body was covered in blood, and wounds covered his body. Many of those injuries were created by the symbol formation arrays. Mo Shang and Han Tian also brought him quite a bit of pain.

Shi Hao released everything he had, completely throwing himself into the battlefield. The broken sword in his hands became increasingly resplendent, erupting with black light as it unleashed a great slaughter.

Pu

He hacked off the head of a sect elder, bringing about a large splash of blood as it flew out ten meters. The scene was utterly dreadful.

Pu

He hacked apart an aristocratic noble into two pieces. Blood immediately gushed everywhere. *no ve/IB-1n*

“Kill!”

Within waves of resounding kengqiang sounds, ancient weapons collided fiercely and sparks flew everywhere. He hacked apart another supreme elder’s spirit body, chopping it into several pieces.

Right now, everyone was horrified. The youngster fighting was not that old, yet he carved out his own bloody path to glory and fame. This was without doubt unrivalled here, the embodiment of absolute strength.

Chapter 260 - Escape

With a pu sound, the shining broken sword stabbed into the chest of a sea clan noble lord. With a violent shake of the sword, he was dismembered, dying instantly.

Driven by a crazed blood-lust, Shi Hao was covered by blood as he fought his way around. He went into a killing spree. Precious techniques burned furiously and the broken sword shone resplendently as it struck and swept, causing large amounts of blood to splash everywhere.

He fought like a demonic god, summoning all kinds of bone texts and precious techniques. Bodies piled up all around him, and the blood of various creatures splattered high into the air before landing onto his body, turning him into a blood-covered figure.

Of course, Shi Hao had already been badly injured himself. He could not hold on much longer if he kept fighting like this.

Suddenly, Mo Shang went crazy, and Han Tian also charged again. Several supreme experts also summoned their formation array, planning for their final attack. Shi Hao immediately sank into a predicament.

The pure-blooded creatures of the Archaic divine mountain made their moves, charging forward together. The old ancestors of large sects and others also started to attack him. Interweaving symbols filled the entire sky.

Shi Hao was struggling to cope with the attacks. This time, he was sent flying into mid-air by the blast. He suffered many injuries, because it was too difficult to completely defend himself.

Moreover, right at that moment, he felt an aggressive aura lashing towards him. It came from mid-air and made his scalp tighten. Even his entire skull began to ache severely.

He immediately looked up, finding a pair of jet black and awe-inspiring iron claws before his eyes. They were extremely sharp and shone with a piercingly cold light, looking very threatening.

“Duo!”

Shi Hao made a soft shout and sprayed out rays of divine light from his mouth. They smashed into the claws, creating metallic sounds and sending sparkles flying everywhere. Fortunately, the claws were fended off and did not catch Shi Hao.

The claws belonged to a giant bird. Its entire body was jet black and it had eyes like blood-red moons. The bird was several hundred zhang long. As it circled high up in the sky, symbols flowed around it, sending off an incomparably powerful aura.

“It’s the Heaven Swallowing Sparrow!”

Shi Hao clenched his teeth. He was worried as well as enraged. This vicious bird was brutal and terrifying. It had slaughtered a land as wide as a hundred thousand li, and had also attacked the Heaven Mending Pavilion. It was directly responsible for the fall of that pure land.

“Kill!”

He roared and no longer care about anything else. Controlling his treasured artifacts, he flew up and charged at the vicious bird, desiring to fight to the death with it.

On any ordinary day, he definitely would be no match for this vicious bird. However, this was not a normal place and he had nothing to fear. He could tell from the transformed body of the Heaven Swallowing Sparrow, that it was far from its best state.

Back then, the devil bird had wings that could spread for tens of thousands li and cover the entire sky. Its symbols would pile up and pour down like torrents with unstoppable ferocity.

Now that its body was only several hundred zhang in length, Shi Hao felt strong enough to put up a fight.

From the Heaven Swallowing Sparrow’s perspective, Shi Hao was a talented youth who was holding the precious techniques passed down by Kun Peng, so he was its killing target. At the same time, it recognized the broken sword that it detested bitterly, so the bird was determined to kill the youth.

In reality, it was so superior that it wouldn’t have cared at all about a cultivator at Shi Hao’s level. As a result, it had no idea that Shi Hao’s hatred for it was even thicker.

Shi Hao flew high into the sky using his treasured artifacts and caught up with the Heaven Swallowing Sparrow. He took up the sword and struck at the bird.

The broken sword shone brightly, smashing into the boundless black feathers. With dangdang sounds, patches of feathers were cut down, swirling and drifting in the sky.

The Heaven Swallowing Sparrow was infuriated. It circled around and dove down towards Shi Hao. Black flames spurted out of its beak, threatening to burn down the sky.

At the same time, the crowd swarmed around Shi Hao and closed in on him, leaving him with no chance to escape. They rushed forward and attacked at once.

However, Shi Hao focussed his attention unshakably on the Heaven Swallowing Sparrow. Even if he was going to suffer injuries, he was still going to risk his life fighting this devil bird. Blood splashed everywhere as the two fought intensely.

Peng!

Finally, he made his way onto the devil bird's back. Wounds were covering his body, and they were worsening by the second. With the broken sword in hand, he stabbed at the hundred zhang tall demonic sparrow's body.

With a hong sound, the unrivalled blade radiance pierced through the formidable black feathers, sinking deep into its body. The Heaven Swallowing Sparrow cried angrily and flapped its wings to fly higher up. It was shaking violently, trying to throw Shi Hao off.

The black light rose rapidly, and the Heaven Swallowing Sparrow shrunk at a tremendous speed. It turned into human form and fell into the crowd on the altar. Blood was spilling out from the injury it received on its back, forcing him down from the skies. Such a thing was normally unimaginable for a superior creature like itself.

The bird, however, never expected Shi Hao's hatred for it to be so deep. He charged at it with such ferocity that it almost seemed as if he didn't care about his own life.

The devilish brat went mad after seeing it, as if he had forgotten about everything else. Covered in blood, he dashed at the bird again.

Even the onlookers had realized that it was a battle of life and death. The two seemed to be closely stuck to each other, and those who dared to stand in Shi Hao's way would end up in misery. The crowd relaxed a little bit, because this was a breather that was hard to come by. As a result, the sparrow ended up in a miserable state. It could not hide in the crowd even after transforming into a human form. Shi Hao had gone crazy, attacking it with everything he had.

At this moment, blood flew everywhere and precious techniques were used. Both parties had gone mad with bloodshot eyes, trying to kill the other as soon as possible. The Heaven Swallowing Sparrow turned into a black-clad middle-aged man. He seemed extremely robust and powerful. Holding magical artifacts in his hands, the man fought intensely against Shi Hao.

Pu.

Finally, with a slash of the broken sword, the middle-aged man cried out. One of his arms had been chopped off. His eyes were full of anger and resentment.

Back then, the sparrow had almost been cut in half by ghost grandpa. Had the ghost grandpa not been in a terrible condition, it would have been killed. Who would know that several years later, it ran into this broken sword again and was injured a second time? Moreover, the opponent this time was a mere youth at the Spirit Transformation level. How could it swallow its anger?

However, it didn't matter how angry the Heaven Swallowing Sparrow was. Shi Hao did not give up and continuously attacked it with everything he had. In the end, with a slash from the sword, he was sliced in half at the waist. Blood began to spill all over the ground.

"You... No!"

The Heaven Swallowing Sparrow cried out loudly, feeling like it had been too unlucky. It was the supreme expert of its region, commanding over the great wastelands and ruling everything under the skies. However, its spirit body was about to fall here.

He was not the only supreme expert here, but the devilish brat targeted only him, not attacking anyone else. It was absolutely furious, but there was nothing it could do.

Did this mean that it would miss the opportunity of obtaining the Kun Peng precious techniques? It was unwilling to accept this, and continuously roared.

"Go to hell!" Kicking away its lower half with one foot, Shi Hao stepped onto its chest with the other foot and looked down at it.

The Heaven Swallowing Sparrow was dumbfounded at first, but it soon erupted with fury. The experience of being sliced in half from the waist and then trodden on was unimaginable. This was worse than a public decapitation!

Who were we talking about here? Its vicious name was known throughout the great wastelands, and it could overpower all the experts under the heavens within its region. When its name was mentioned, who wouldn't feel frightened? This was the unrivalled Heaven Swallowing Sparrow!

However, it was now lying under the heel of a youth. Such shame and humiliation was inconceivable for a creature like itself.

In fact, it had never experienced something like this since birth. It had grown up ruling over everyone, never seeing such supreme youths in its childhood.

Yet now, it was tasting both frustration and shame.

"You..." It spat out a mouthful of blood and bellowed.

Shi Hao did not have time to waste, because the crowd was still attacking him. The sword struck down at once, decapitating the sparrow with a pu sound.

Filled with resentment and fury, the Heaven Swallowing Sparrow turned into a shower of light before disappearing. Its spirit body was destroyed.

At the same time, at the end of the sea, a giant black bird erupted with violent fury. The bird blotted out the sky and covered the sun as its body swept across the firmament. One could not tell its size as it soared within the sky.

"After killing my spirit body, I will not let you off as long as I still have a breath in me!" This was the original body of the Heaven Swallowing Sparrow, and it was extremely angry. At this moment, it was not aware that it died at the hands of a youth, and thought that a supreme expert had killed it.

Waves undulated in the sea as an old grey Flood Dragon emerged from the water. Its endless body spread li after li, appearing extremely terrifying. The part above the sea surface alone was larger than a boundless mountain.

Meanwhile, mighty beings were appearing from all directions. A Bi'an stood tall in the sky and was shining brightly, resembling a deity worshipped by ancestors of the archaic time.

The outer regions of the restricted seas were no longer peaceful. Supreme experts had arrived from various regions to await the results. They called back their spirit bodies, which was of course to intercept anyone who received any real gains from this place.

They dared not enter in their original form. If they died inside, that would truly not be worthwhile.

No one was willing to give up, however. Beings as mighty as them all went crazy after hearing about the discovery of the precious technique. This was a supreme technique that could even tempt deities!

At this moment, even the relatively reserved grandfather of Yun Xi, the purple-clothed teenage girl of Heavenly Mountain had arrived, let alone the others.

Supreme experts of Southern Meteoric Divine Mountain, Mount Yi and Demonic Spirit Lake had all arrived. The mightiest beings of the Great Wasteland had all arrived to wait for the result, hoping their spirit bodies and descendants would obtain something in there.

These people could all command regions within the Great Wasteland and rule over endless lands. They had gathered here, waiting silently for the final result.

There were some who believed that there were supreme experts that entered in their original forms, but in reality, all of them were waiting outside.

Currently, the atmosphere within the northern sea was extremely tense. The creatures from all different clans were all deadly silent, not daring to reveal their presence. The sea area was incredibly terrifying, and waves of pressure were spreading in all directions.

The truly great event was about to happen!

If the Kun Peng precious techniques did show up, these people would fight until the heaven and earth were destroyed. Had the archaic deities still lived, they would definitely descend to this place and fight for such a treasure!

A violent storm was brewing. The atmosphere was becoming increasingly tense!

Needless to say, the North Sea would become chaotic, and the nine heavens would even be breached. The scene of a war among the mightiest experts would be apocalyptic.

At this moment, the battle was still going on inside the Kun Peng cavern. Atop that altar, Shi Hao's body was in tatters. As powerful as he was, after going through so many bloody battles, he was on the verge of collapsing.

He sighed inwardly. Was he really going to flee for his life using the bone pagoda? However, he truly wasn't willing! This was a one-time life saving opportunity. Wasting it like this would be too much of a pity. He still wanted to make his way out on his own.

In reality, the crowd was even more reluctant to continue fighting. They were terrified by the might of this incredible youth. As he weaved in and out, countless creatures had died at his hand.

From among the supreme experts, four or five had already be hacked to death, dying miserably here.

If these news got out, the Great Wastelands would surely be thrown into absolute disorder. This was truly young supreme youth, and his fame was going to resound through the vast lands.

“No, something weird is going on.” Right when Shi Hao was about to use the little pagoda in his hair, he felt something peculiar.

He was still hesitating and making his last effort. With the Kun Peng’s primordial symbol bone in hand, he summoned the symbols only he was able to see previously from walking down the Kun Peng’s path.

Even though he could not understand it, he imitated and activated it within his palm. He poured them into the bone to see if anything miraculous would happen.

He felt that some kind of miraculous divine might might happen. After all, the item left behind by the Kun Peng was definitely not ordinary, so it must have some deeply profound meanings hidden inside.

Soon after, he became stupefied. The bone produced a paragraph of text that was projected into his mind. The text told him that the precious technique was not flawless, and that what was recorded was merely a third of the complete form.

Shi Hao almost went crazy in that moment. After risking his own life and nearly getting himself killed here, it was now telling him that the precious technique was incomplete? He truly felt rather unreconciled!

A wave of frustration filled his heart. One-third of the precious technique might still allow him to shake everything under the heavens and sweep through the Great Wastelands, but it was still fell short of his expectations.

Just as he was being distracted, magical artifacts summoned by several supreme experts arrived and smashed onto his chest. With a kacha sound, the devilish brat received several injuries in succession, and even his bones were broken.

Those were extremely powerful magical artifacts from the archaic era. It was already quite amazing that he wasn’t smashed into pieces on the spot. This was due to his strong physical body.

Chi!

A spear was flew at him, almost piercing through his body. Blood splashed outwards, and Shi Hao cried aloud as he stumbled backwards. He sank into a desperate state.

Frantic attacks came from all sides as the powerful individuals all attacked him.

Shi Hao’s eyes flashed with coldness as he quickly fended off these attacks. He was frustrated and unwilling. Using all of his effort, he operated the symbols in his palm. Why was there only a third of the legacy?

Hong!

Right at that time, the Kun Peng bone in his hand lit up. The center of the altar exploded, and it turned out that this was where the precious bone was being displayed.

With several wenglong sounds, rivers of stars appeared and surrounded the entire altar. Spiritual and divine aura filled the place, astonishing everyone.

Giant majestic-looking stars circled around, as if a stellar sky had descended and emerged above the altar. The crowd felt they were brought into the cosmos.

At the same time, a black cave appeared at the place where the altar used to be. The words 'Devil Refining' was inscribed at the entrance of the cave. Gruesome wuwu sounds came out of the cave.

"It's... the Devil Refining Cave of the Kun Peng! Heavenly ranked vicious beasts and archaic deities caught by Kun Peng were all thrown into the cave and suppressed to death!" The crowd shuddered.

They did not expect to see the legendary devil cave here. All of them became horrified.

The cave was pitch-dark and unusual roars were coming out from it. It was as they had travelled through time and space from the archaic ages.

Compared to the glistening star river above, it looked like a black hole connecting to hellish abyss, creating a stark contrast.

"Let's deal with it later. Kill him first!" The crowd charged forward again to attack Shi Hao.

A group of people rushed over to suppress Shi Hao. This time, it seemed like he could no longer fend them off and was smashed away. Blood gushed out of his mouth, and he lost hold of the Kun Peng bone, which split into six pieces and fell into different directions.

The agitated crowd rushed forward in a frenzy.

Shi Hao seemed to be in an extremely weak state. He could not stand still and kept stumbling backwards.

"You should go down there!" The spirit body of the Elder Flood Dragon appeared. His palm struck over, and at the same time, there were a few other old characters and supreme experts that took action. They summoned their symbols and smashed Shi Hao down into the Devil Refining Cave.

Many sighed. The supreme youth was finally taken out. This was truly not an easy accomplishment. How many people did he single-handedly kill? Even supreme experts had become corpses at his hand.

"Haha, we finally killed him!" Someone released a carefree laugh. That youth was absolutely dreadful. If they let him reach adulthood, few would be able to restrain him then.

Even the supreme experts sighed with relief. Had the supreme youth managed to rise to greatness, even they themselves would have to bow before him. To let him die like this was the best situation.

Killing the supreme youth had lifted a heavy load from the minds of many sect ancestors and supreme experts. The youth had given them so much pressure and was exceedingly terrifying.

Some felt sorry that such a talented youth had blossomed so briefly. He had only started to shine before being exterminated.

Yun Xi, the purple-clothed girl, sighed as well. The savage kid was truly rather frightening, possessing an incomparable talent in cultivation, yet he had died at such an early age.

The crowd on the altar was only emotional for a while before they threw themselves into the great battle again. The place was boiling as the crowd fought and ravened crazily over the six pieces of Kun Peng bone.

Inside the Devil Refining Cave, Shi Hao was still falling. Wind whistling by his ears. He was not angrily at all. Instead, a smile even appeared at the corner of his mouth.

He did not fall down because he was drained of strength. He could fly back there if he really wanted to. The reason for his fall was because he had seen through the secret of the Kun Peng bone and purposely allowed the attacks of the others to send him down.

“You guys can fight all you want. Better still, fight until the heaven and earth are destroyed and the supreme experts from divine mountains even come. I’m finally free.” Wiping away the blood from the corner of his mouth, the devilish brat smiled happily.
