

Perfect WD 291

Chapter 291 - Return of the Witch

"Do you think this untainted fairy is very fat?" The enchanting fox-spirit giggled. Her eyes were bright and her teeth were white. Her red lips were bright, and behind her, several silver white fox tails moved about. There was an extremely alluring sensation coming from her.

"A very slender fatty with certain areas that are very fat." Shi Hao muttered.

A bit farther away, the veiled fairy was shocked. This youngster was a bit strange. What kind of words were these? Wasn't the word slender and fatty rather contradictory?

The fox-spirit however was laughing, creating a scene that was just too beautiful. As her fine body swayed to and fro, she didn't seem to have a single form at all. She looked towards the fairy on the other side and said, "He's saying that your chest is ample and your bottom is very round, good for bearing children."

Shi Hao was stupefied. Wasn't this too blunt? Couldn't she have adjusted her words just a little bit? Didn't this fox-spirit's words make him sound like a scoundrel?"

"Brat, what kind of expression is that? After I guessed your intentions correctly, you still give me a look like this. This is... just too rotten; however, it is extremely suitable for my cute untainted fairy here. Handing her over to some other family would actually make me more worried." The fox-spirit giggled in a completely unrestrained manner.

"Witch, what are you saying!" The veiled fairy softly scolded. Her figure was tall and slender, and her appearance was exceptional. Even though she wasn't smiling, there was still a graceful beauty to her appearance.

"Weren't you two going to fight? Why drag me in as well?" Shi Hao looked all around him. This was a bizarre space that was somewhat drab as well as old. It seemed like the ruins of an ancient battlefield.

Two outstanding beauties stood within this dusky world; this was a rather strange scene. Shi Hao was confused as to why he was caught up as well.

"Older sis, our fight from many years ago has lasted until this day. If feels like we can end it now." The heavenly fox-spirit laughed in a lively manner.

This shocked Shi Hao. He always felt like this disastrous woman was a bit like someone he knew. Her temperament was extremely unique, something that he would not forget after a single encounter.

"You brought this youngster to deal with me?" A rain of light scattered down and rested around the veiled fairy's body, making her seem incomparably holy. Her voice was extremely calm and unhurried.

The heavenly fox-spirit giggled and said, "Sister Yue Chan, this is the person I found. Where is the overlord you found?"

Shi Hao began to feel more and more strange. What did this fox-spirit find out about him? Could it be that his own secret was leaked and his true identity was discovered?"

He was confident in his appearance change. He had held back his personality, and even his gaze and aura were changed as a result, so how could someone else notice? Her senses were just too sharp!

"This is the fighter you've selected from the wastelands?" Fairy Yue Chan asked. Her beautiful eyes revealed an astonished light and began to carefully inspect the youngster on the other side.

"Deity-like youngster, go! Throw yourself at her. Do you seen Fairy Yue Chan? She's interested in you." The heavenly fox-spirit's words were truly crude. She seemed to be laughing with incomparable joy as she incited Shi Hao.

The devilish brat was completely dumbstruck. He felt like his own skin was thick enough, yet why did he always feel like this fox-spirit was always a cut above him? What kind of words were these? Even he didn't have anything to say.

"Witch, stop speaking nonsense." Yue Chan's expression was still calm and indifferent. It was as if nothing could disturb her tranquil heart.

In the end, contrary to expectations, she actually smiled sweetly towards Shi Hao and said, "You were also forced here. How about we team up to deal with her?"

"Woah, older sis, you are supposed to be always calm and never tempted. How could you act so two-faced? This is one of my people, so don't randomly set your ideas unless you are ready to completely devote your heart." The fox-spirit fairy's smile was extremely brilliant.

As Shi Hao backed up, he saw that the two were truly like heavenly and otherworldly beauties. However, they possessed an exceedingly dangerous aura, and they were both extremely powerful.

"Deity-like youngster, what are you backing up for? Hurry up and go on the offensive!" The heavenly fox-spirit instigated.

"This is a matter between the two of you, and completely unrelated to me. You two continue!" Shi Hao found a boulder and sat down. He propped up his chin, as if he was watching a show.

He was scheming inwardly. If he suddenly activated the Imperishable Golden Body, could he catch both fatties? He wasn't sure, because he couldn't see through these two's limits.

"Hey, brat, what kind of evil things are you thinking? I am trying to find you a wife here. Are you trying to think of some way to get rid of both of us?" Needless to say, the heavenly fox-spirit's insights were too sharp. She could easily see through his intentions.

"No way. You two should fight. I will watch from here." Shi Hao replied.

The heaven and earth became dusky. This ancient battlefield wasn't extremely large, but it was sufficient for the two unmatched beauties to fight.

"Older sis, we have decided many years ago that since we have both reached the peak and are locked in a stalemate, we could use some different way to fight. This is the person I chose. How about it? Do you dare fight?" The fox-spirit asked.

Fairy Yue Chan laughed and said, "You really think that he will listen to your words?"

“Older sis, you really are two-faced. He isn’t listening to my orders, but he is rather on friendly terms with me. He’s merely helping me out. You shouldn’t use words to instigate misleading ideas.” The fox-spirit fairy said.

“What are they talking about? The two fatties are truly hard to understand.” Shi Hao said softly to himself. He felt even more unwilling to get involved.

“Are you not willing to help me?” The fox-spirit asked Shi Hao. And then, she said in a soft voice, “Northern Sea, Kun Peng nest, enjoying wine under a moonlit night.”

“It’s you?!” Shi Hao’s eyes immediately widened and stared at the fox-spirit fairy. It was as if he was looking at a ghost. That flawless face, that silly appearance, it was truly quite similar to that witch back then.

No wonder he felt rather familiar after they made contact. Was this really that witch? Their behavior were similar, but their appearances weren’t the same.

“You truly make me broken-hearted. No matter what form you change into, I will still recognize you. Yet as soon as I turn around, you think that I am a stranger.” The fox-spirit sighed softly.

Shi Hao didn’t believe her words at all. He felt that the witch definitely didn’t recognize him during the auction. Only within the Green Wood Garden did she recognize him.

“This place is known as the Demonic War Domain, equivalent to a supreme treasure. It is because of this place that she recognized you.” Yue Chan exposed the truth with her words.

“Older sis, you should give up on your ideas. Me and him are old acquaintances. In the past, we’ve work together on several major operations. We’ve robbed supreme deities, beat up an ocean deity descendant, haha...”

After saying these things, the witch turned around and looked towards Shi Hao. “Boy that likes fatties, do you think that Yue Chan is pretty? You can bring her back to your village.”

Shi Hao released a sigh. In reality, his impression of the witch was quite good, and it truly was as she described. The two had carried out many robberies in the Northern Sea. Even though they worked together for their own benefits, their time together was extremely joyous.

“What kind of help?” He asked in the end.

“Don’t be so unwilling. Helping me is helping yourself. Everything I said was real. As long as you suppress Yue Chan, then I’ll gift her to you as your wife.” The witch spoke valiantly.

Shi Hao looked at her. Was this another one of her spirit bodies or was this her real body?

“I’m not her opponent. Her cultivation realm is higher than mine.” Shi Hao said frankly.

“There’s no harm in trying. This place is equivalent to a supreme treasure and known as the Demonic War Domain. Our cultivation levels can be suppressed when battling. Just choose the Heavenly Passage realm,” the witch smiled and said.

Soon after, this place became hazy with mist, and the clouds began to condense in the skies, making it even more dusky. Shi Hao could clearly feel his cultivation suppressed to the heavenly passage realm. He began to shiver inwardly. These two individuals from outside of the wastelands were just too terrifying. They actually possessed a supreme treasure like this. It really was incredible!

“Fairy Yue Chan was known to even exceed the ancients, so you have to be careful!” The witch reminded.

“Really?” Shi Hao was shocked and revealed a surprised expression. He did not want to take action, but after hearing these words, he became more and more eager to give it a go.

“There is no need for you to fall into her trap.” Fairy Yue Chan was surprised as well, noticing that the youngster’s attitude was changing. Was this some battle maniac? Why did he immediately want to start fighting after hearing that she was outstanding in the Heavenly Passage realm?

“Actually, the Heavenly Passage realm is where she is unique.” Fairy Yue Chan seemed to have understood something and added while pointing towards the witch.

“I’ll ask her for pointers later.” Shi Hao replied. At this moment, he became incomparably terrifying. Essence energy surged from all around him, and he rushed forward while immersed within the resplendent divine light.

His transformation was just too great. Just now, he was still delicate and pretty, but now, he was like a supreme demonic deity. His temperament had completely changed!

Hong!

Shi Hao’s palm pushed forward, and a rumbling sound immediately sounded. It was as if deities were shouting, and blazing radiance accompanied the noise.

Fairy Yue Chan was startled. As soon as the other party moved, she knew that she was facing an unimaginably great enemy. There was actually a youngster that was this powerful in the Heavenly Passage realm. It truly created waves within her previously calm heart.

A slender jade-like arm moved, and within the brilliant multicolored light, everything was blasted apart like rotten weeds. Shi Hao’s strike was completely dissolved, and those symbols were completely disposed of.

Shi Hao was a bit shaken. This female was terrifying after all. She immediately erupted with an even more powerful aura. He brought out all ten heavenly passages, and every single one was brilliant and intimidating.

This was the first time fairy Yue Chan’s expression changed. She gasped and said, “There was someone who established ten heavenly passages within the great wastelands after all.”

At this moment, her expression became extremely serious. Her jade-like arms moved, and a rain of light scattered about frantically within the air, surrounding her and making her seem more and more sacred. At the same time, heavenly passages appeared around her body one after another. She actually also possessed ten!

Shi Hao was completely shocked. This was the first time someone displayed ten heavenly passages in front of him. This girl was mysterious and powerful. She could fight him even when they were at the same cultivation realm!

This was an intense battle. One was like a demonic deity, and the other was like an otherworldly immortal. Power and elegance existed at the same time as brilliant radiance erupted between the two time and time again. The entire place was shaken, and the ground began to crack apart.

Shi Hao possessed the manner of a master with every fist and kick. Even though he was still young, his calmness and decisiveness was absolutely horrifying.

Fairy Yue Chan felt a domineering pressure, but she still did not feel frantic. She calmly proceeded to fight.

This was the first time Shi Hao encountered someone with ten heavenly passages. This was a fairy from outside of this region, reputed to surpass even the ancient people. This reputation was definitely not without reason, and her ten heavenly passages were definitely extraordinary.

Hong!

The two collided fiercely once again. Shi Hao had absolute confidence within this realm. He firmly believed that he could suppress any enemy at this realm.

As a result, he unleashed his power. He was like an unrivalled supreme deity as he attacked at every one of his opponent's weak points and closed in fiercely. He truly possessed the aura of one at the peak of supremacy.

Fairy Yue Chan was moved. There was actually someone who was able to cultivate such an unrivalled temperament within the wasteland region! He was still so young as well. This was truly rare!

With a honglong sound, fairy Yue Chan's ten heavenly passages shone, and a creature appeared within. This was the embodiment of precious techniques. Ten creatures emerged, and all of them turned into copies of herself. It was incredibly shocking.

Within the Heavenly Passages, there were Rainbow Peacocks, beautiful Vermilion Birds, and all of them took on humanoid forms. They were now completely identical to fairy Yue Chan with bodies that were elegant and wonderful. They sat within those heavenly passages and simultaneously revolved around her body.

The scene of the fairies sitting within heavenly passages was truly dazzling. Their hearts and minds were moving together, and every single one was extraordinary.

They were reading incantations, sounding just like the chanting of deities. It made this world feel incomparably sacred, and an enormous aura hid the sky and covered the earth to suppress Shi Hao.

"So powerful!" Shi Hao was startled, but he still remained fearless. He believed that he was unrivalled and could overcome anyone.

However, he did not impatiently make his move. Instead, he backed up a few steps and continued to defend himself. Helping the witch was not an issue, but it wasn't worth fighting to the death. After all, it was still difficult for him to determine what was true and what was false.

In addition, he believed that through this battle, fairy Yue Chan should already understand his strength quite a bit. If she truly came to the wasteland region with a purpose, then she would try to rope him in.

Of course, this was on the precondition that he would not fight to the death with her.

Shi Hao did not want to get caught up in these two individuals' battle under such unclear circumstances.

"Deity-like youngster, throw yourself at her!" The witch yelled.

Fairy Yue Chan's expression remained unchanged and still extremely calm. She used the divine figures from the ten heavenly passages to deal with that demonic deity-like youngster. This was truly a formidable opponent, so her mind was in constant thought.

"Deity-like youngster, you have to know that in fairy Yue Chan's eyes, the wastelands only have three or four youths worth her attention. Her arrival in the capital is for the sake of roping in Shi Yi, because she considers him as the wasteland region's overlord." The witch's voice was as light as a feather, but it made Shi Hao close his eyes. The flourishing radiance in his pupils disappeared in a flash.

Chapter 292 - Fighting Against the Fairy

Shi Hao was clearly different now. Whenever he raised his fist or lifted his foot, he possessed the grandeur of a master. His strength immediately erupted, and his aura became even more powerful. He now displayed his true power!

What was his purpose in coming to the capital? It was for the sake of meeting his grandfather. In other words, he would naturally collide with those of Shi Yi's bloodline.

When that person's name was mentioned, he immediately thought of too many things. All of his resentment and grudges were towards that mother and child. He was fated to be his great enemy. Sooner or later, a bloody battlefield would occur.

He never looked down on the dual-pupiled individual. After he obtained the ancient deity's eye in particular, he felt even more restraining fear. He knew that he had to be careful.

Meanwhile, this fairy Yue Chan came precisely for Shi Yi. In the future, they will definitely stand on opposite sides, and a great battle would definitely break out. Rather than waiting, it was better to settle it sooner.

Of course, this was all from the witch's one-sided perspective. However, Shi Hao's mood was now changed. He originally only wanted to fight, but now, he was going to unleash his techniques.

"You have to understand that outside of this region, fairy Yue Chan's name is simply extraordinary. She is known as the most beautiful fairy in all of the nine heavens, worshipped by all the young individuals. She is simply beyond sacred and extraordinary and stands above all others. If you can subdue her and make her your wife, just how fascinating of an event would that be?!" The fox-spirit spoke while giggling.

When Shi Hao raised his hand, blue waves surged and ocean waves soared into the skies. A Black Tortoise rushed out. It was incomparably vast and suppressed towards the otherworldly fairy.

“Ah gu mo ni...” Fairy Yue Chan began to chant an incantation, and light erupted from all over her body. A jade white arm slammed out with an incredibly sacred power from the incantation.

The blue seas surged, and that Black Tortoise fiercely rushed out, colliding fiercely with that spotless white palm. The two created a storm like power that was absolutely horrifying.

With a hu sound, rubble and stones rolled about everywhere. Tens of thousands jins of boulders were blasted flying. Enormous cracks appeared on the ground, as if divine blades had hacked past.

“So powerful!” Fairy Yue Chan’s heart was greatly shaken. Even though she knew that there were formidable characters in the wasteland region, she never thought that she would encounter a youngster like this.

Shi Hao soared vertically. A wave of incomparable aura surged from his body, and from high up in the sky, he slammed downwards with his palm. Waves of frantic astral winds were raised. The ground was ruined, and even more large crevices appeared.

Fairy Yue Chan lifted her head. She remained just as calm as before. Extraordinary splendor appeared within her beautiful eyes, and her sparkling white jade-like hands moved towards the sky. She did not want to evade, but rather face it head on.

Hong!

The light between the two individuals became even more dazzling. Shi Hao blasted through everything, breaking through layer after layer of symbols as he flew down. He swooped down just like a falcon.

“Good! Deity-like youngster, throw yourself forward!” The witch shouted from the distance.

Fairy Yue Chan seemed incomparably pure and holy. Light continuously scattered about her body and surrounded her, but this was still not enough.

The youngster in front of her was too powerful, scattering apart the barriers of light one after another, colliding several times against the jade palm separating them. Divine light exploded between the two, endlessly erupting with shocking energy.

Fairy Yue Chan’s precious appearance was serious. The ten heavenly passages floated around her, forming a moon with her at the center. She became more and more extraordinary.

At this moment, she began to chant out sutras like a supreme deity. Moreover, the heavenly figures within each of the ten heavenly passages began to chant with her.

Hong!

She resolutely attacked towards the sky. Her jade-like palms continuously slammed outwards with an exceptional and otherworldly power. At this moment, her beauty and holiness reached its peak.

She was just like a thousand hand buddha. Hands reached out from those Heavenly Passages one after another, striking together with her against that powerful youth.

This was an incredibly intense exchange, and even Shi Hao was startled. He used his most powerful divine force to suppress and defeat this extraordinary fairy from outside this region. Astral winds

chaotically blew about, raising the opposing party's veil. A sparkling pure white face appeared, possessing a beauty that made others feel as if they were suffocating.

With an unhurried glance, he saw his opponent's real face. This was a great battle of life and death, and a single strike could determine the result of this decisive battle. That kind of face truly left a deep impression.

Hong

It was as if the entire heavens were overturned. Shi Hao was like a demonic bird that was swooping down from another realm as he faced that thousand hand buddha. There were palm imprints everywhere; it was a graceful yet crazy scene.

The two individuals both trembled. This was an awfully terrifying collision. Shi Hao's valiance was unblockable, as his talents in this realm were extraordinary, surpassing those of the ancient times. As a result, he possessed an unrivalled power.

Meanwhile, fairy Yue Chen's precious technique was exceptional as well. She was able to display this kind of divine ability in just a split second. The ten hazy figures appeared from those heavenly passages. They began to chant together, and many more arms seemed to have appeared.

Shi Hao was like a demon, his body moving powerfully left and right. He did not try to simultaneously take on all of the arms, but instead dealt with them one by one. Terrifying symbols erupted, causing rumbling sounds to fall incessantly. It was as if a supreme demonic god had burst into a palace of immortals to wage war against immortals, creating an incredibly intense scene.

This kind of confrontation was an extremely rare sight. If there was anyone else between these two, they would be killed in one strike without any suspense. They would definitely explode, because it was just too powerful. n-0V**E#b1n**

They weren't ordinary people, and were both incredible figures. Shi Hao stood alone and above everyone in this cultivation realm. His power flourished, and without any gaudy techniques, he struck down with a single blow!

Meanwhile, fairy Yue Chan possessed ample battle experience. Her precious technique was incredibly powerful, able to take on ten people at the same time. It was terrifying to the extreme.

Unless Shi Hao turned the tides like a demonic deity to strike all of them down, he might truly suffer some consequences.

It was because this was the thousand hand buddha like sacred fairy. All of those pure and holy bodies were taking action simultaneously. It was just too terrifying, as if a multitude of people were suppressing him together.

In the end, Shi Hao broke through everything as he descended from the skies. He almost made contact with fairy Yue Chan, valiant and unrivalled.

"Truly not bad. Seems like you have succeeded in creating your own way in the heavenly passage realm. It has rarely been seen since the ancient times." Even the witch was full of praise.

Both sides were evenly matched with this one strike. No one was able to obtain an advantage.

Fairy Yue Chan was speechless. The opposing party was just too strong, striking down with brute force without any special techniques. This kind of domineering manner gave her a sense of terrifying power beyond the realm's limits.

"I've come in search of Shi Yi only to see just how strong he really is and whether or not he really is as great as the rumors say. I wanted to take a look at this natural born deity that is regarded so highly in this wasteland region." Fairy Yue Chan's expression was calm as she spoke these words.

It was evident that she realized something, because she was an incredibly intelligent person. Her perception was sharp, and from the witch's words, she guessed that this youth did not have good feelings towards Shi Yi.

"Aiyaya, older sis is such a bad person! You clearly have your eyes on that dual-pupil guy and was willing to pay an extremely great price to rope him in. How could you suddenly say things like this? Oh my god, could it be that you are acting so defensive because you are turned on? That would not be good..." The fox-spirit fairy smiled while speaking.

Shi Hao naturally knew that the fox-spirit loved chaos and wanted him to continue fighting. However, his mind was truly played by her this time.

"You really are a witch." He said to himself. He still didn't know whether or not this fox-spirit was just another spiritual body or her real body.

"What kind of words are those? I was just thinking of you. Fairy Yue Chan had selected the dual-pupiled individual as the overlord. That was clearly her goal, yet she insists on dragging me down with her. Deity-like youngster, throw yourself over! Pull that pure and holy fairy regarded as the most beautiful in all of the nine heavens into the world of mortals! Let her know just how unbounded the mortal world is. From now on, make her forget about the immortal and make her the wife of a man."

The witch was laughing splendidly. If these words were spread out, it would offend the entire world. If the people of her region found out, many young people would definitely be furious.

Another round of fighting began. Shi Hao ran along the great earth with his entire body shining. Around him, the ten great heavenly passages roared, causing those two girls' expressions to change. Those heavenly passages were just too large.

The ten heavenly passages were identical and incomparably terrifying, as if ten worlds had simultaneously appeared within the void and surrounded him. As they crowded together, they were like an enormous sun.

Shi Hao took action. He was just as intense and overbearing as before. At this moment, he became like a demonic god, with every action causing terrifying energy to overflow into the heavens. He continued to forcefully oppress his opponent in a direct manner without the use of any 'tricks'.

This was the power of a demon king, the power of belief that he was the strongest. He pushed forward with the strength to tear apart anything in his way!

This was the first time fairy Yue Chan encountered someone so powerful within the heavenly passage realm. Her expression became more serious. She was known as the fairy of an entire generation, not only because of her appearance and temperament, but also because she possessed true strength.

However, today, she encountered such an incredible youth.

Shi Hao's palm descended, and the two parties collided once again. String after string of divine light burst forth with symbols erupting like blazing flames, covering this entire place in resplendent light.

"Sky Altering divine art!" The witch spoke out these four words, making Shi Hao absolutely astonished. So it turned out that this was what she used. No wonder the other party was completely able to receive this attack. It was because she actually grasped such a great divine ability.

The fight between the two were at times like eagles in the skies, at times like a demonic ape trampling down mountains, and at times like a true immortal displaying their power. Overwhelming power and delicate grace were coexisting.

Fairy Yue Chan's white clothes fluttered about, with her jade-like white arms revealed as she continuously collided with Shi Hao. Ever since she was born, this was the first time she felt a battle was so difficult. This youngster was just too powerful.

The earth beneath her continuously collapsed, with cracks extending far into the distance. This was the power of the Heaven Altering divine ability's might, completely refining the other party's attacks and guiding it into the air or the great earth. She did not truly take on the attack herself.

Hong!

Her spotlessly white right hand collided together with Shi Hao's fist, erupting out an expanse of dazzling radiance. The berserk divine energy was completely dissipating, causing the space around them to ring.

The force that was unloaded beneath her feet continued to follow the patterns of the ground, causing a mountain in the distance to explode into pieces.

This scene was incredibly terrifying. Not only was fairy Yue Chan shocked, even the witch was shocked. Her intelligent eyes continuously moved about.

"Hehe, I've found treasure. Older sis Yue Chan, is this youngster worthy of you? This is someone who is truly shoulder to shoulder with you, and can even suppress you within the Heavenly Passage realm. I know that you still have trump cards, but you have to know that this fellow isn't necessarily using everything he has either." The witch said with a smile.

Fairy Yue Chan found it difficult to calm her mind. Within this Demonic War Domain, she actually encountered such an unrivalled youth. She truly might even be in danger.

"Older sis, just admit that you've lost the bet. You've said before that if you were to ever lose to another, then you would allow me to handle it and marry you off." The witch said with a smile.

Fairy Yue Chan felt an incredible amount of pressure. This battle was incredibly unfavorable for her. She understood the witch's power, but never thought that she would find such a strange youth. The wasteland region far surpassed her predictions.

She was known as a fairy, representing an entire great sect. She was normally high and mighty, and within her region, her identity was extraordinary. Who would dare to speak anything profane about her? Yet currently, the witch was speaking as such to strike her down into the world of mortals and humiliate her supreme sect.

Hong!

Shi Hao advanced with even more boldness. With every step, the world would ring with noise. His aura engulfed the mountains and rivers; he was difficult to stop!

“Hehe...” The witch laughed and also took action to trap her opponent.

Fairy Yue Chan’s expression changed. Things were really turning bad. She was going to be captured.

Chapter 293 - Trump Cards Gathered

Shi Hao’s ten heavenly passages illuminated simultaneously as they roared in an explosive manner. They joined together, forming an enormous sun. He approached from the other end of the sky, as if a heavenly deity was descending into this world.

Fairy Yue Chan turned pale. The strike was too strong! When her delicate hand smashed into that palm, a splendid multicolored light erupted, sending a violent shock through her body.

At the same moment, the Heavenly Fox fairy approached in a fierce manner. When her porcelain arms spread out, the heaven and earth were shifted, as if the world was collapsing. A shroud of mist surged and pressed forward.

Fairy Yue Chan was attacked from both sides and could not withstand the two mighty experts at the same time. She was about to be captured.

A strange look came across Shi Hao’s face. Naturally, he still had some tricks up his sleeve. he did not lock down the space around him, did not use his flesh heavenly passage, as well as other things, yet he found that he really was about to take down this fairy at this stage of the battle.

He previously thought that he might not necessarily succeed, so he did not find it necessary to offend the fairy Yue Chan. Now, he found that the witch was a cut above. This Demonic War Domain was truly quite strange.

“Older sister, you are not going anywhere.” The Heavenly Fox fairy pressed near.

Shi Hao also charged near. With a strike of his palm, he shattered many symbols and suppressed fairy Yue Chan. With a peng sound, he grabbed one of the unmatched beauty’s arms. He immediately felt the softness and her fragrance.

“Yi, something’s not right!” Just then, the Heavenly Fox fairy was alerted. She found that the situation was abnormal.

Right at this time, the Demonic War Domain was sliced apart. A streak of blade radiance passed through the clouds from the heavens, hacking apart this world. It was just like an immortal strike from the heavens!

Meanwhile, the entire space began to collapse. The Demonic War Domain disappeared, and they appeared within the real world.

In front of them, the blue lake rippled. The unmatched beauty had a jade sword in her hand. She overcame that space and collapsed that place.

Shi Hao felt that as soon as his hand relaxed, the immortal jade-like body disappeared into a rain of light. It flew towards that unmatched fairy and entered a heavenly passage.

Fairy Yue Chan!

The witch smiled and said, "Older sis is incredible after all, cultivating your sect's divine ability to such perfection. You have actually reconstructed a true self with your spiritual body to pass off as your real body in such a short time, seizing the force of heaven and earth. Formidable!"

When Shi Hao heard what was said, he immediately felt a shiver run down his spine. That was formed from just a spiritual body? It didn't seem any different from a true body!

Fairy Yue Chan was incredible. Just now, she did not truly fall into an impasse, because her real body was always outside. Not even the witch was able to realize what happened.

The battle did not last for a long time. Not many people by the shore noticed them, but now, they looked over in this direction. They only saw two fairies standing by the lake. Everyone felt incredibly bewildered.

This was true for Shi Hao in particular. He didn't even attract much attention.

Fairy Yue Chan's expression was calm without any anger. She continuously stood there expressionlessly. In the end, she smiled sweetly and said, "Younger sister's methods really aren't bad!"

Following that, her bright eyes turned around. She nodded towards Shi Hao without any intention of fighting. There was no hostility.

Shi Hao rubbed his chin. This really was an unexpected event. He didn't want to get caught up in these two ladies' dispute at all, and never thought that he would take action like he did just now.

"What happened?" Many people were astonished.

Chi

Suddenly, a dazzling web dropped down from the sky, completely surrounding the fairy below. Even Shi Hao was caught up in it.

The web was extremely terrifying. There were stars flickering within, and it was sparkling and translucent like streaks of interweaving rivers of stars. The entire lake was surrounded.

"Our family's young master wants to invite the two fairies as guests."

The voice was transmitted from the heavens. Large amounts of black clouds surged over, creating the sounds of rolling thunder. Honglonglong sounded as it quickly descended.

"Many great characters will become rotten weeds. Your Archaic Divine Mountain owner's teaching is a bit lacking. If he knew that his heir was causing such trouble, he would definitely be greatly angered." The witch sneered.

At the same time, fairy Yue Chan took action. The sword in her hand emitted dazzling divine radiance with a chi sound, cutting apart the sky with incomparable sharpness.

A precious artifact appeared in the witch's hand, forming a sun. She leapt into the air, and with a gentle shake, all four directions began to tremble, and lightning from the nine heavens hacked down.

Kacha!

The large net was directly destroyed by the two fairies.

At the same time, fairy Yue Chan's divine sword and the witch's precious artifact shook, completely scattering the clouds in the heavens. Endless rays of divine light interweaved.

"What? How powerful are those precious artifacts?" Everyone was alarmed. They were all deeply shaken.

That net was definitely of noble king grade, and one could imagine the status of the person who used it. Yet in the end, under these two precious artifacts, it didn't stand a chance.

With a pu sound, the jade sword erupted with inexhaustible radiance, hacking off an enormous bird's head, directly killing him.

"Fairy Yue Chan is so powerful. Is her sword an ancient sacred artifact?" Many people trembled. That sword's power was just too great.

Peng

The sky shook, and that witch's precious artifact lit up and shook that enormous bird's headless corpse into powder. There was nothing left behind.

Following that, the two precious artifacts returned to their owner's bodies. They stood within the blue lake like graceful fairies. The two individuals were distant and unmatched.

Many people were stirred up. These two ladies were too powerful, truly heaven warping beauties. The magical artifacts they grasped were even more terrifying, able to kill even noble kings.

"How could they be so powerful?" Many people found it difficult to believe. They just could not imagine how it was possible.

"Even if the supreme youth Shi Yi becomes their age, he would only be similar to them, right? Would he be able to become any stronger?" There were many people who sucked in a breath of cold air. They were in complete admiration of these two girls' power.

Despite being like this, they were still beautiful to such an immortal degree. It was extremely difficult to find another person as beautiful as the two of them. They were like two supreme goddess that had entered the world of mortals.

More and more people were becoming shocked. They knew that these two came from outside this region, so these two were probably the most powerful supreme youth out there, right? Otherwise, why would they enter the wasteland region like this?!

These two were beautiful beyond belief, but their statuses were extraordinary and their strength was outstanding as well. It made the youngsters sigh, because they could only watch and not approach.

Those that had ideas before were now all silent. They were all geniuses with great statuses within the capital, but they were nothing compared to these two females.

The two girls no longer faced each other in conflict. They were at a mutual understanding with neither of them taking action. The wind between them dissipated, and without saying anything, the two sides walked in different directions.

The group of great talents separated and followed those two with passionate gazes. Even though they had put away many of their thoughts, they could still follow along and discuss passionately.

“The world is peaceful again.” Shi Hao was abnormally innocent as he reached out his arms and stood beside the lake. Those two girls did not even say anything else to him.

He knew that this was only temporary. The two were not willing to fight here, but they were still paying close attention to him. Only, they did not want to reveal his power to everyone here.

Shi Hao walked towards the pile of food. There was someone assigned to roasting meat, and all types of delicious fragrances could be smelled. There was also a wide variety of good wine that emitted intoxicating fragrances.

“I like this type of gathering!” Soon after, he tossed aside everything else and focused on eating and drinking as much as he wanted.

In reality, even though he was by the lake and relatively close to those two girls, not too many people noticed him. They all thought that he somehow got caught up in the chaos, and none of them made any connections between him and the two girls.

Therefore, he didn’t draw much attention to himself.

Only when his incredible appetite was revealed did the nearby people reveal looks of shock. Some of the girls were quietly discussing. “Do you see him? That fellow really can eat. That roasted fat cow has been almost completely consumed by him alone!”

“Yi, it’s you, the foodie!” A beauty recognized him and gave him this evaluation.

“Fatty, it’s not like I’m eating your portion!” Shi Hao replied.

The eldest daughter of the Thunder Clan’s teeth were itching. This fellow had won the mysterious bone from her at the auction house, so she had been upset for quite a while. Now, she was being called a fatty, so how could she stand this provocation?!

In the end, she stamped her feet in anger, but did not break out in fury. She walked in another direction.

“Good! You really did come. You are actually eating and drinking here so carefreely!” A furious voice sounded. It was precisely the Liu Han who had his bronze war chariot stolen from him and his companions.

Besides these individuals, there were still two other people who came along. Their strength weren’t ordinary and seemed quite powerful. They were both heirs of noble kings.

"Thanks for letting me borrow your war chariot. I'm done with it, so you guys can use it how you want when you return," said Shi Hao. He then continued to indulge himself in the delicacies.

"You... really are preposterous!" Liu Han was incredibly furious. Born into the Lord Ling Yun's manor, when had he ever been mistreated like this? He was beaten up, and then he had his bronze carriage stolen. It was truly a type of humiliation.

However, he still did not dare to create an uproar here. He was scared that more people would find out, because that really was like a big joke.

"Give him a beating, and then throw him into the lake!" He said in a soft voice. He then slightly hinted for those two unfamiliar faces to take action. They were two extremely powerful heirs of noble kings, and these were the ones whose carriage Liu Han's group arrived in.

"Liu Han, remember that you owe me a powerful precious artifact!" One of them laughed coldly and said.

"Fine!" Liu Han nodded. Even though he was being extorted, he still wanted to borrow the other party's strength to subdue that hateful youngster. Otherwise, he couldn't get rid of his anger.

Hong!

That individual took action. His palm directly struck over, and with a sneer, he said, "Go take a shower in the lake and wake up!"

The surrounding individuals immediately moved out of the way. These types of things were happening too frequently here. It had not been long since the gathering began, yet there were already numerous battles that had broken out, to the point where some people almost died.

A gathering of geniuses was just like this. In addition to mutual interactions, there were also harsh and intense battles.

Putong!

The lake surface rippled, and water blossomed high into the air. Everyone was astonished, but then they all burst into laughter. There was someone who landed inside in an extremely embarrassing manner.

"You..." The person who just took action felt his face go completely white. With just a single exchange, he was tossed into the lake. That youngster didn't even get up.

"Just stay in there obediently. If you dare to get up, then I can't guarantee that there will be no danger to your life," Shi Hao said calmly.

"How could that brat be so evil?" Liu Han cried out.

Immediately after, putong sounds continuously sounded. Liu Han cried out miserably, because he had been sent flying together with several other people into the lake.

"Hahaha..." Everyone laughed loudly, making the faces of those in the lake become thoroughly red. This was truly shameful.

In just a short moment, all of these people were left in sorry states. None of them dared to climb ashore on Shi Hao's end, so they all swam towards the opposite bank.

"I wonder if this brother can part with his item? During the auction, we weren't able to obtain that bone, so we want to purchase it from you now." At that moment, a youngster walked over.

He seemed to be from the same sect as the Thunder Clan's eldest daughter. They arrived to the Green Wood Garden together, and he also made his appearance in the auction.

Shi Hao's mind slightly trembled. His spiritual awareness was sharp and already felt that this was a powerful pure-blooded creature. The Thunder Clan was truly not simple.

"Sorry, I don't want to give it away." He shook his head. Who was this guy kidding? That might be another piece of the True Primordial Record, so he definitely could not lose it.

Could it be that the other party also noticed and recognized that this might be a piece of heavenly bone?

"That really is too regretful. I hope that this brother will contact me after he thinks things through," said the young male.

"The exchange gathering is occurring. Let's see if there are any amazing treasures." In the distance, there were some people who spoke. Even the imperial princes couldn't wait any longer and quickly left.

Thunder Clan's eldest daughter and that pure-blooded creature also left for that area.

Not only could the geniuses spar at the capital, they could also exchange magical treasures and other things. This was a rare exchange gathering.

In fact, there were times where this place also became a place where a few noble king heirs tested out their precious artifacts against each other to see whose was stronger. The noble king heirs that carried grudges would also use this chance to take it out on their enemies.

It was extremely lively that day, because other than all the geniuses, there were also a few precious artifact store staff invited. They all brought with them some of their best treasures.

For the precious artifacts to circulate about, these people were naturally needed. Only with them here could the battle treasures become even more appealing.

"There are things I need here!" As soon as he walked in, the little pagoda in Shi Hao's hair began to move and transmit sound.

"These are some ancient treasures dug up from ruins. They are almost completely damaged, but there is no lack of amazing items among them. Not long ago, we even found a sacred artifact inside!"

This was spoken by the manager of one of the capital's most wealthy and well known weapon stores. In addition to several of his store's best treasures, he also brought over a parcel. Inside were a few broken ancient weapons like a wolf fang dagger, flood dragon tendon bow, and others. Even though they were all in terrible condition, it was still quite clear that they were unordinary.

"It was something good in the past, but as time passed, it has become been deformed and ruined." Many people took a look here, but they all shook their heads before leaving.

Shi Hao was able to smoothly buy that wolf fang dagger with a low price. It was in quite bad shape and almost broken.

The small pagoda quickly devoured it in a place no one else was at. Soon after, it told Shi Hao that it would allow him one more life saving opportunity.

“You... are behaving so straightforwardly. What exactly was that?” Shi Hao was extremely shocked. How could the other party suddenly become so generous and not only giving him half a use?

“This isn’t made out of a wolf fang, but rather formed from a dragon’s teeth,” replied the little pagoda.

Shi Hao immediately became frantic. What? That was actually a dragon fang? It was... consumed just like that?!

“To be precise, it is the teeth of a dragon child. It isn’t the teeth of a true dragon.” The small pagoda told him that the aura it felt when it first entered the capital was precisely this dagger. However, it didn’t expect that someone would actually bring it here, saving it quite a bit of effort.

Shi Hao sighed and then completely calmed down. Now, even if he waged a huge war with Shi Ziteng and the people behind him, he would still remain fearless!

“Archaic Demonic Spider, you forced my grandfather to leave, so I demand an explanation.” His voice was extremely soft as he spoke to himself. Now, he would not be scared of exposing his real identity anymore. He could stir up absolute chaos within the capital and advance his plan.

“Grandpa, I want to tell you that I am still alive. I am still in this world. You don’t have to wait much longer, because you will soon hear news about me!” Shi Hao clenched his fists tightly.

Chapter 294 - Disturbance

Shi Hao’s temperament had changed drastically. He was like a sword previously hidden within a deep abyss, but now gushing with multicolored light. He was now extending his teeth and claws, revealing his power to the world.

However, after he glanced around, a sigh came out of his chest. Although it was a pressing matter, now was not a good time to let everything out, for he still had no idea where the Archaic Demonic Spider was.

It would do him no good to alert the enemy or let word of him leak out. He was certain that if he were to reveal his identity, that giant spider would never show up, for its status was too superior. Instead, mighty experts of other levels might come forward to suppress and kill him.

If that was the case, the martial prowess of the little pagoda could be used to kill a couple of lords at most, but not that Black-eyed Demonic Green Spider. It wouldn’t be worth it at all.

He needed to wait for an excellent opportunity, when mighty experts from all forces arrived in the Capital to celebrate the Human Emperor’s birthday. Everyone would should show up then.

Another option was to visit the Martial Imperial Manor in person after the business here was finished. He might be able to find the spider inside the manor!

In fact, when he thought about it this way, Shi Hao reconsidered his options. He wanted to maximize the effectiveness of the little pagoda's power, because it might not necessarily only be a single supreme expert.

He had offended more than a handful of people in the battle of the North Sea. Some mighty creatures of the Archaic Divine Mountains might still hold deep grudges against him. The supreme experts of the sea were not very forgiving beings, either. Given the opportunity, Shi Hao would not mind to make some 'noise' this time.

"I've waited for so long already, so why can't I wait a bit longer?" Shi Hao murmured and calmed himself down within no time. He had obtained his strongest hand just then, which unsettled his mind for a while. He was able to adjust himself to a natural state.

When he glanced back again, the green pond was spread smoothly not far away with Five-colored Luan dancing beside it. Everything looked peaceful, and he achieved an empty and quiet mentality again.

Various treasures could be found in this area. Auspicious light surged in streaks, and beams of divine lights erupted into the air. The sky was filled with an array of colors, and those watching were utterly dazzled by all the powerful magical artifacts here.

Shi Hao wandered around in the area and indulged himself in pleasure. He learned many new things here, for a number of the peculiar magical artifacts were items he had never seen before.

"Is this bowl a treasured artifact as well?" Shi Hao was quite surprised to find a broken pottery bowl that was greyish in color and lusterless. However, the price tag on it was astronomical.

Moreover, the rim of the bowl was already broken with a sizable piece missing. It was devoid of any sense of beauty, making those that saw it speechless.

"You should know, young man, that the best things are those closest to their original simplicity and nature. I'll show you its power." The old man of a treasured artifact shop spoke to Shi Hao with a smile. He then began an incantation and activated the pottery bowl.

"Collect!"

Instantly, ripples began to spread out in the green lake, and the entire body of water erupted, turning into a torrential current and injecting itself into the bowl. One could see clearly that the billowy green water was surging inside the bowl like a vast ocean. There was something terrifying about it.

The crowd nearby were all startled and came around to look at it.

"Is this the... Heaven Transforming Bowl?!" Someone cried out in surprise, making many people jump. All sorts of reactions could be observed among the crowd as everyone became excited at this marvelous sight. Of course, most people seemed taken back by the announcement.

"If it really were that magical artifact, then according to legend, the bowl could melt down and refine anything in this world. When a mighty expert is sucked into it, he would quickly be melted into a pool of grimy blood." Someone exclaimed in a frightened tone.

"It's such a pity that this is only a broken imitation of the real thing. The true ancient magical artifact can no longer be found in this world." Someone sighed.

The Heaven Transformation Bowl imitated the laws of the nature and could melt anything down like a furnace. It could break down every tangible thing that it sucked inside, and no divine ability could help you to escape your doom once inside.

In the ancient times, there were more than one saint that had successfully produced such treasured artifacts. The refining process wasn't any great secret. Instead, the key problem lied in the material used to make it.

In those days, the creation of each one of these bowls would cause a huge sensation, for the materials required were both specific and hard to come by. Among other things, Stellar Sand, Divine Blood, and various other treasures of heaven and earth were necessary materials.

The most famous one was the Heaven Transformation Bowl, the making of which involved the most astounding materials. It could even suppress and kill heavenly deities, making it unpredictable even to the spirits and gods. To those of the mortal world, such a thing was beyond terrifying.

It was as famous as the heaven and earth pouch, and was listed as one of the most formidable treasured artifacts.

"Although this is not made from the original material and can only be considered an imitation. It still is one of my store's greatest treasures." The old man smiled. As he turned over his hand, the water in the bowl spilled out and returned to the lake.

Such noise naturally attracted much attention. Many people had travelled for days to come here. They started to ask about the price to try and purchase it.

Shi Hao found that this bowl was not bad as well and wanted to consult the little pagoda for its value. Anyhow, it seemed like an ancient item.

However, the translucent little pagoda became motionless after devouring the Dragon Tooth Dagger. It remained dim and lusterless in his hair, for it was hibernating and slumbering to mend itself.

"Yi, why don't I observe the bowl with this?" It suddenly dawned on him that he had obtained a divine object that could see through all fabrications. Why not try using that instead?

Shi Hao stood calmly on the outskirts of the crowd and watch them bid. He then reached for the natural-born deity's eye. The ten heavenly passages could materialise in midair, but it could also be activated inside him.

He opened one of the passages, which illuminated inside his body. After being infused with spiritual essence, the eyeball became alive, and streaks of divine multicolored lights began to twirl around it.

Shi Hao handled it with great caution and fixed it inside that heavenly passage. He activated it carefully and observed the broken bowl.

"It's much more than what it seems to be." With one look, he discovered something unusual about it. The bowl looked ordinary to the naked eye, but through the dual-pupil, he could see glittering divine multi-colored clouds hidden within.

In particular, near the bottom of the bowl was where the light was somewhat scorching. It was as if a stove was providing the entire bowl with divine energy, making it shine resplendently.

"It might be an imitation, but a divine material lies inside this pottery bowl. If I can extract it and put it aside until a later date when I find other divine materials, I might be able to use them in the future to make the real Heaven Transformation Bowl." Shi Hao told himself so in his mind.

No matter what, this bowl was definitely worth the extortionate price on the tag.

Shi Hao took part in the bid as well. No one had expected that it was the bowl, instead of the auction, that would attract attention and competition. The price was growing higher and higher.

"I'll exchange it with five pieces of Underworld Iron," someone said. This was a descendant of a lord named Gu Lingyu. He was a well-known person of the Capital, and currently, he was keen on obtaining the bowl.

"I'll offer five Pearls of Blood Essence." Said Shi Hao. Needless to say, he would not miss out on the bowl, either.

"Six pieces of Underworld Iron," said Gu Lingyu, the lord's descendant, in a cold voice. He glanced at Shi Hao, and a black iron stone was dropped onto the ground with a dang sound. The stone glittered with a dark luster.

"Six Pearls of Blood Essence." Shi Hao showed no sign of wavering and took out another scarlet red pearl the size of a human head that glistened in multi-coloured light. It was a rare material he brought back from the North Sea nurtured by a spiritual clam.

"You... don't know what's good for yourself!" Gu Lingyu stared at him and left angrily.

Shi Hao paid no attention to him and eventually managed to win the bid. He turned the bowl over and over in his hand in complete satisfaction. The item itself was a powerful treasured artifact, not to mention it had other benefits.

He refined it carefully and focused all of his heart into his meditation. He tried to comprehend its activation techniques and indulged himself completely in the process, almost losing track of the world around him.

For someone who had reached his level, he no longer needed to spend days to master the method. He could use it almost as soon as the bowl fell into his hands. It took him only a while to achieve a thorough comprehension.

"This bowl is completely worth the price!" After studying it carefully, Shi Hao was pleasantly surprised, for this bowl was powerful and suitable for him to use in the Capital.

"Young man, don't you think you are too domineering? I saw you throw Liu Han and his friends into the lake a while ago, and now you are robbing others of their magical artifact. Don't you think you've gone too far?"

A young woman approached him at this point. She was accompanied by several others, among whom was his former competitor Gu Lingyu.

"I followed the rules and won the bid. Isn't this none of your business?" Shi Hao couldn't be bothered to deal with them.

"We find you a bit too arrogant. I've never seen you around in the Capital before. Where are you from?" The woman was not bad-looking, but talked in a rather careless manner.

"Big sister Gu is asking you a question. Why aren't you answering her?" Someone beside her yelled at him.

Shi Hao now realised that these people were here to back Gu Lingyu up, and the woman seemed to be his elder sister. Shi Hao felt speechless at their reaction.

"Gu Linglong is back!" Exclaimed someone in surprise. The young woman was incredibly powerful and obviously a renowned figure among the younger generations of the Capital. Otherwise, her younger brother wouldn't have turned to her for help.

"Linglong, you are back?" Not far from here, several aristocratic ladies of the Capital were surprised to see her here. They all walked near, among them were Princess Sixteen and the eldest daughter of the Thunder Clan.

Gu Linglong nodded around at them and smiled. Those accompanying her were now scoffing at Shi Hao now. "Say something. Lady Gu is asking you a question."

"Is there something wrong with your head?" Shi Hao felt no need to show politeness and responded with such words.

That individual's face turned pale. Even Gu Linglong was surprised to hear this. In spite of coming here in person herself, this teenager showed no fear whatsoever. He was indeed a tough figure. Hadn't he heard of her prowess before?

At this point, Princess Sixteen and the eldest daughter of the Thunder Clan had both arrived. The pair had the reputation of being 'Pearls of the Capital' and were indeed stunning to look at. Their beauty made quite a few onlookers drool in secret.

"You've gone too far," said Gu Linglong.

"You're ridiculous!" Shi Hao retorted.

The atmosphere turned cold instantly. With the arrival of such a group of people, especially when these outstanding ladies were among them, Shi Hao still acted in such an indifferent manner. People as powerful as Gu Linglong were obviously displeased.

More and more people were gathering here, some of whom possessed exceptionally prominent auras.

"What's going on?" One of them asked Princess Sixteen. He was politely received by people as noble as Princess Sixteen, which obviously proved his importance.

Shi Hao burst into a laughter at once. Although the teenager was in his human form now, Shi Hao recognized him instantly, for their paths had crossed before. The teenager was that Horned Dragon he fought with back in the Hundred Shattered Mountains and was suppressed by him later in the Void God Realm. Its flesh had been cut off by Shi Hao to make into a stew.

He did not make a sound, but instead sent out some of his aura towards that teenager.

The Horned Dragon immediately shudder and gasped. He couldn't help but stumble back. Even though he had no idea who the person was, he sensed a hostile aura, which meant that the person had killed pure-blooded creatures before!

He took a step back and stared long at Shi Hao. He then turned to Princess Sixteen and said, "Don't mess with him."

Many people in the crowd changed their countenance at such words, for they knew the identity of the teenager. Quite a few pure-blooded creatures were here this time, and people like Princess Sixteen all knew that he was a Horned Dragon. However, he was obviously intimidated by that boy. Such a turn of event was incredibly frightening!

Gu Linglong was even more astonished and couldn't help but stumble backwards.

"Sister." Gu Lingyu was dumbfounded.

"Shut up!" Gu Linglong scolded him. n-)0V**E**1n

The place turned awfully quiet now. The aristocratic ladies of the Capital such as the eldest daughter of the Thunder Clan and Princess Sixteen were all greatly startled. Their suitors, on the other hand, felt their heart lurching and were shaken beyond imagination.

"Has the Horned Dragon met his old friend? Who is this person that frightens you so much? Let me have a look." Just then, a frivolous voice came from afar.

The crowd almost jumped at this voice, for it obviously belonged to a pure-blooded creature.

At the same moment, a drunkard was yelling in an indignant tone from the same direction. "Who does the Demonic Spirit Lake think they are? Who are they to meddle with the affair of our Martial Imperial Manor?"

The crowd was amazed. The man was a disciple of the Martial Imperial Manor and had protested before when he was drunk, claiming that the manor used to have another kid, who was a supreme youth. He was now venting his resentment again.

"People of the Martial Imperial Manor have no manners at all. That so-called Great Demonic God is about to lose his life. You're in no position to talk rubbish now." The person of the Demonic Spirit Lake walked over with a sneer on his face.

"Are you a Demonic Spider? Who gives you the right to talk rubbish here?" Shi Hao spoke out as he turned to the man with a chilly look.

Chapter 295 - Suppressing the Demonic Spider

Shi Hao's words sent the entire place into a dead silence. Was he so arrogant that he would blithely ignore the creatures of the Archaic Divine Mountains? From the way he scolded at those beings without any hesitation, it was like he was no longer a mortal man.

The crowd acted as if they were seeing a ghost and watched Shi Hao with aghast looks. Despite the fact that the Horned Dragon had warned a few of them, they still found it hard to believe.

When the Horned Dragon reminded them not to offend Shi Hao, the crowd assumed the teenager to be of similar level with the dragon. They had never expected to hear from him such undisguised berating towards the mighty expert of the Demonic Spirit Lake!

Awkward silence fell over the place. No one made a sound and all was quiet. Even jewels of the capital like Princess Sixteen, the eldest daughter of the Thunder Clan, and Gu Linglong were left with vacant faces.

“Those were some tough words. Well, let me have a look. Exactly who is so bold to say such things?” The frivolous voice came from afar as the speaker walked near. In an instant, the crowd felt that breath squeezed out from their chests. An enormous pressure closed in at them like a falling mountain.

It was a teenager around fourteen or fifteen years old. He had long green hair and a pair of narrow eyes that glistened sharply. They were full of essence energy.

He was not walking very fast. His gait was steady and he looked perfectly composed. There was something cold and taunting in his gesture as he strolled near. He looked down at the crowd, as if everything was in his control.

To humans, the Demonic Spirit Lake was a forbidden land. Whatever creatures came out of that place would inevitably put every force on guard. Although the creatures were rarely seen, they were all incomparably powerful.

“Are you going to succumb to this guy, Horned Dragon? I wouldn’t take him so seriously, though. He doesn’t seem all that special to me,” said the green-haired teenager.

The Horned Dragon ignored him and said nothing.

Everyone’s eyes were on Shi Hao now. Many more people were gathering around, trying to witness the great battle that was about to be set off.

“What are you showing off for?” Shi Hao spoke suddenly. The provocation made the teenager’s eyebrow twitch uncontrollably. This was outrageous. Even after knowing that he was from the Demonic Spirit Lake, the boy still dared to provoke him. It seemed he had picked someone who like to play it the tough way.

The green-haired teenager stared at Shi Hao and watched him carefully. However, he could not sense any aura. Shi Hao was simply standing there in a peaceful manner, as if he was an empty valley. One could only feel the calmness coming from him.

The Horned Dragon said nothing, either. He was more than happy to play the role of a disinterested bystander and felt no need to get involved in this mess. Besides, he was somewhat repulsed by this Demonic Spider and it would please him to see the spider suffer.

“Some people always think they are strong enough to lead a region and that their match are rare to come by. Little do they know that once taken into the entire wasteland, they become nobody.” The green-haired teenager said as he looked askance at Shi Hao.

"You know this yourself and you are still showing off here? Get lost already!" Shi Hao's voice was extremely cold. Especially with the 'get lost' part, which he stressed with a forceful tone. Many people shuddered at his words.

The green-haired teenager went pale, for those were such humiliating words. He meant to teach Shi Hao a lesson, but had brought it upon himself instead. Shi Hao had also added the 'get lost' expression, which was too shameful for him to bear.

He yelled with a sunken face. "Do you have any idea who you are talking to?!"

"Aren't you just a spider?" Shi Hao spoke in the most casual tone and with the most scornful look.

He had fought numerous battles with pure-blood creatures and had even eaten a Blue Luan in the North Sea. The unrivalled fighting spirit had long set in, which made him indifferent when encountering creatures of the Archaic divine mountains now.

The crowd around him, though, all changed their countenance at such words. The boy was so tough that he was actually looking down on a creature from the Demonic Spirit Lake. This was a ridiculously aggressive move. Everyone knew that a terrifying battle was about to start.

"You are asking for death!" Shouted the green-haired teenager. His lifted his eyes and easiness had completely gone. After all, he was only an adolescent and could not control his temper very well.

"Just by yourself? Get lost if you still want to live." Shi Hao sneered with a relentless voice. He was never afraid of making a scene.

"Well said! Wonderful! Truly wonderful! I've long despised those spiders. Who do they think they were to act so wildly in the Martial Imperial Manor? Get lost!"

The drunkard laughed out aloud in the distance and stumbled over. A few people showed up beside him, looking worried. They supported him immediately and led him out towards the exit, afraid of getting into serious trouble.

"The people of the Martial Imperial Manor are tired of life and have no reason to exist any more!" Shouted the green-haired teenager. He was already greatly irritated by the arrogant Shi Hao, and now, that a drunkard was taunting him as well. He could no longer hold his temper.

"Pei! Who the hell do you think you are? Go back to your Demonic Spirit Lake and wait for Grandpa Fifteen to wipe you out!" The drunkard shouted back.

The crowd was astonished. Obviously, they knew about the incident in the Martial Imperial Manor, but they had never expected the conflict to reach such a level.

"The Great Demonic God is doomed to have his head cut off and die a miserable death. He means nothing to the Demonic Spirit Lake. How dare a nobody like you talk nonsense here? I'll kill you!" The green-haired teenager finally made his move. He realised Shi Hao was hard to deal with and did not turn to him at once. Instead, he wanted to kill the people of the Martial Imperial Manor first, then fight a decisive battle with Shi Hao.

He needed to cut off a few heads and splash some blood in order to get rid of the embarrassment. He wanted to demonstrate his power and preserve his dignity.

However, he had just lifted his hand when another figure swept across and blocked his way. A voice sneered. "This is the capital of the human race. You are nothing but a spider. How dare you loosen your tongue. You are asking for death!"

A hush fell over the place. Everyone was greatly shaken by Shi Hao, for the young man was much tougher than they had expected. He not only scolded at the spider, but had now approached and looked down upon him.

Chi!

The Demonic Spider was instantly enraged and could not bear any more. All of his green hair erupted suddenly, turning into a long green river engulfed over with flourishing light.

Shi Hao seemed completely cold and detached. His legs didn't move, but instead directly lifted his hand to grab outwards. He didn't try to dodge at all as the green symbols filled the sky.

A rumbling sound began to ring through the space around them. Everyone knew how terrifying that green hair was. It could easily shatter precious artifacts and could also be considered a type of terrifying weapon.

An explosion sounded from midair. The hair began to illuminate and divided into ten segments. They rushed towards Shi Hao's arms like snakes. Symbols filled the sky, completely submerging that area with green divine light.

Everyone retreated in terror.

This demonic spider was too powerful. It used an incredible killing technique as soon as it arrived. The symbols that were created made the ground tremble and the blue lake chaotic. The divine might was just too fierce.

Kacha

In just a split second, the blue light was extinguished. The youth at the center slapped down, completely twisting apart those ten snakes of green hair. They dropped to the ground in a simple and direct manner.

Moreover, at the same time, his palm pressed forward in an overbearing and powerful manner. A large millstone sized palm directly slammed into the green-haired youth.

The demonic spider roared in fury. It truly couldn't tolerate his opponent's harassment. The other party was looking down on him too much, actually doing all this without even moving. His left hand was placed behind him, and from start to finish, he only used one hand.

His two palms pushed outwards to teach his opponent a lesson, preferably breaking that youngster's arm and making him the joke instead. The green-haired individual wanted Shi Hao to suffer.

However, in just a short period of time, he felt a tremble. He had a premonition that things were going to end terribly.

The palm that was casually pushed out was ridiculously powerful. The large millstone sized palm sealed his movements, and it was as if a mountain was slamming downwards. His palms felt like it was trying to stop an immovable overwhelming force, giving him a horrifying feeling.

Hong!

The green-haired youngster was sent flying by that enormous golden millstone-sized palm. He spat out large mouthfuls of blood, and his entire body violently shook. His eyes were full of shock and unwillingness.

If he hadn't pulled back his palms at the crucial moment, the inexhaustible symbols would have directly broken his arms. That large golden-sized millstone was too powerful. It possessed a terrifying and overwhelming power.

Peng

The green-haired youth collided with an enormous boulder, and only then did his flight stop. Blood overflowed from his mouth, and behind him, that giant boulder quickly split apart before exploding.

This result made everyone's hearts tremble. This was just too ferocious and overbearing.

Everyone began to look towards Shi Hao with faces full of shock. This was a pure-blooded creature, yet he was sent flying with a single palm! Just how terrifying was this?

Gu Lingyu's face went completely white. He had wanted to fight over that ceramic bowl with the other party just now and even brought his sister to stir up trouble. He felt a wave of stress, and his body went weak. He found it difficult to stand without shaking.

Gu Linglong, Princess Sixteen, Thunder Clan's oldest daughter were also all stupefied. Their beautiful faces were full of astonishment. Where did this incredible individual come from? Their hearts began to overflow with waves.

Only now did they realize how timely the Horned Dragon's warning was. This youth was too crazy, even being able to overturn a black-eyed demonic spider. His was just too domineering and forceful!

Ah... The demonic spider cried out and was close to going mad. Light shone from its entire body, and symbols densely covered him as the original form was revealed.

A large spider emerged. Its body was covered in needle-like dark green hair, and all of them were brilliant. Its body was enormous, over several zhang in length. It suspended itself in the air and stared at Shi Hao.

Everyone sucked in a cold breath of air. Was this the real body of the Black-Eyed Demonic Spider? Its appearance was too terrifying! Its eight legs were thick and flickering with cold light. They looked just like eight battle spears.

Qiang!

A metallic sound rang out as one of the spider's legs slammed down from the skies. It was no different from a battle spear, and when it was pointed outwards, it was too sharp. It seemed like there was nothing it couldn't tear through.

Shi Hao wanted to test it out. He threw out a piece of symbol bone, but in the end, it was pierced through and even shattered. The primitive precious bone turned into powder.

Everyone became astonished. Every one of their faces turned pale. This demonic spider was too strong! Just how many humans from this generation could face it head on?

“This is great! So Sturdy. It is really good material for making precious artifacts!” When Shi Hao’s words were heard, everyone became dumbstruck. Regardless of whether it was the geniuses of the capital’s pearls, they were all silenced.

Dang!

Shi Hao’s palm slammed down on the spider’s leg, making the demonic spider cry out miserably. It saw cracks appear from the base of its leg with liquid flowing out. It was almost removed from that strike!

The demonic spider roared in fury and spat out a sparkling and white thread to wrap up Shi Hao’s body. The attack was too swift and powerful.

Shi Hao dodged, and the silk thread landed on the ground. This was a place where magical artifacts were displayed and exchanged, yet in the end, one weapon store had several precious artifact come into contact with it, immediately turning into green smoke and corroded into waste.

“So frightening!” Everyone felt great fear.

The demonic spider cried out in anger. It spat out strand after strand of silk, as if starry rivers were flowing out. They interweaved into a large web that was condensed from divine chains. It was incomparably dazzling as it covered Shi Hao.

Hong!

Endless symbols poured out from Shi Hao’s body, unexpectedly forming a flame. It began to ignite. He was like a war deity as he threw himself forward.

He did not activate any precious techniques, but rather used the most fundamental bone text from the true primordial record to create a flaming blaze to contend against his opponent’s natural divine ability. This was the most pure flame of essence energy that could burn everything!

Chichi!

The divine chains in the sky were shattered, and those brilliant and resplendent rivers of starry silk were set ablaze. The demonic spider cried out loudly, because it never thought that a human who wasn’t older than itself would be so terrifying.

Peng

With a kick from Shi Hao, it was as if a golden pillar that propped up the heavens slammed down into the demonic spider’s body. It could clearly hear its body emit kacha sounds and crack apart!

It released a loud cry as it flew outwards. Its entire body was covered in blood, and it could no longer climb up.

“Not even at the consummate level of spirit transformation, yet he dares to fight against me?” Shi Hao said quietly. This kind of arrogance and these words immediately subdued everyone there.

You have to understand that he didn’t even appear to be over thirteen or fourteen in age, yet he had reached the absolute limit of spiritual transformation. This was just too heaven defying, a speed that was even faster than the cultivation of pure-blooded creatures.

“Good, excellent! It feels so good!” The drunkard from the Martial Imperial Manor shouted.

Shi Hao raised his hand, and from his palm appeared a small bowl. It released strands of light, and with a shua sound, the spider was collected inside. It quickly shrunk and entered the bottom of the bowl.

“One of the five archaic poisons, important even when refining divine medicines. This is an important medicine!” He quietly said to himself.

Such a powerful spider was now only an inch in length. Its body had shrunk by many times, and its dark green body was lying at the base of the bowl, not able to move at all.

Everyone became petrified. Was this youngster joking? He considered such a powerful pure-blooded creature as just an important medicine? n-0V**E**1n

Scorpion, spider, snake, centipede, toad; these were the five poisons that were needed to refine medicine. The five poisons that he was talking about were all forbidden demonic gods many, many years ago!

Chapter 296 - Conflict Intensifies

Such a powerful pure-blooded creature was dealt with and placed into the bowl. Everyone was simply stupefied. They all kept quiet out of fear because this was truly a horrifying event.

Even the Horned Dragon was stunned. Even though it had realized quite a while ago that this youngster was powerful, it never thought that he was this strong. He was simply too monstrous! He was able to suppress that demonic spider without even spending too much energy.

“Release me!” The demonic spider struggled and tried to break free, but the bowl was extremely special and possessed the force of powerful secret symbols. Even though the bowl’s opening was not sealed, strands of symbols still circulated to suppress it.

The demonic spider was firmly stuck to the base of the bowl, and it couldn’t break free at all. As long as Shi Hao gently activated it, a terrifying force would appear and refine it.

“Do you really think I’ll release you just because you are telling me to? Even a small spider like you dares to stir up trouble in the capital. If you aren’t worth suppressing, then who is?” Shi Hao spoke while propping up the bowl and staring at it.

He had completely treated this pure-blooded creature like a normal spider. “Guarding the village is definitely no good, but you alone aren’t enough to use as fuel for refining medicine. After all, you are still a small spider, so I still have to raise you a bit.”

Everyone went stupid after hearing these words. Who was this person? Raising a pure-blooded creature? This was even more frightening than raising a pet. This was simply like raising a pig to kill when it was fattened.

At this moment, Princess Sixteen, Thunder Clan's oldest daughter, Gu Linglong, and the other pearls of the capital were all frightened stiff. This was just too shocking.

"You are..." A noble king's heir consulted. Such a powerful figure appeared here, yet none of them knew his identity. Too little was known about this person.

"I'm just a passer-by." Shi Hao laughed and did not say too much.

"Brother, you are truly a good person. Today is such a joyous day! I can't thank you enough for suppressing that spider today!" The drunkard from the Martial Imperial manor had sobered up. Such a great event had caused his drunkenness to completely dissipate.

There were still a few young people on the other side. Their faces were extremely ugly, because they had arrived together with that demonic spider. There were people from the Martial Imperial Manor and other creatures in that group.

"Could this brother give me a bit of your time?" A young person spoke.

"If you have anything to say, then just say it." Shi Hao calmly said.

"You have to know that he came from the Demonic Spirit Lake, so his status is quite extraordinary. Doing things like this isn't too good, so I ask that this brother be magnanimous and let him off this time." The youngster spoke.

"What do you mean not too good? Are you saying that you could bully others tyrannically just because you are from the Demonic Spirit Lake? This is Stone Country Capital, and not the Demonic Spirit Lake." Shi Hao's expression became extremely serious. His voice became louder and louder. "You are the Martial Imperial Manor's child, not this spider's servant. Your surname is Shi, not Spider. Do you know what you are doing? Why aren't you making yourself scarce?!"

The youngster's face became flushed with anger after being yelled at, and he almost flew into a rage out of humiliation. However, he didn't dare act because the youngster in front of him was too formidable. In a soft voice, he said, "You've brought a huge disaster onto yourself, and no one can save you!"

Shi Hao gave him a look of disdain and shouted. "Idiot, you still don't understand? After such a thing happened, you still dare to get yourself involved as a child of the Martial Imperial Manor. You really are impossibly stupid. You are a hateful embarrassment to the entire manor."

"You..." Those people were completely at loss for words. Their faces were thoroughly red as they were filled to the brim with anger. They were partial towards Shi Yi's bloodline, so they walked in with the Demonic Spirit Lake's people. They were absolutely furious now.

"Get lost!" Shi Hao shouted. It was just two words, yet it struck down onto the Green Wood Garden like lightning. Not far away, the blue lake began to surge. Waves soared into the skies.

Everyone was astonished. This youngster was too strong. After berating the archaic Demonic Spider descendant, he then excoriated the noble king's heirs. He was completely fearless here, just like a supreme youth.

"You group of degenerates, get lost! You are an embarrassment to your clan!" The drunkard and other individuals from the Martial Imperial Manor also shouted. They had long felt that the other group of people were a disgusting sight.

"Fine, fine, fine. You all wait!" Those individuals were ashamed into anger. They turned around and left after giving Shi Hao a hateful glare.

Shi Hao released a cold snort. With a swing of his sleeve, a hu noise sounded, engulfing those people into the air with a frantic gale. With a putong sound, they all fell into the lake like drowned rats.

"Hurry up and get out of my sight. If you let me see you acting like that demonic spider's stupid henchmen again, then I'll directly kill all of you." His voice was so cold that it chilled others to the bone.

"Good!"

At this time, not only were the drunkard's people shouting, but even the other heirs of noble kings began to shout. Stone Country was a country founded on martial prowess. As direct descendants of noble kings, many people were full of bloodlust.

During the past few days, there were powerful pure-blooded creatures that had entered the capital claiming to have come for the human emperor's birthday. This brought about a bunch of noble kings to adopt a servile attitude. They would ingratiate themselves into making friends with these powerful creatures, making quite a few of the powerful noble kings feel disgust.

Today, Shi Hao's powerful manner naturally excited many people's bloodlust. They all became hot blooded and stirred up.

Xixi... The heavenly fox fairy's laughter was extremely brilliant as it rang out. Her teeth were spotlessly white, and her body exquisitely undulated up and down. Her clothing couldn't conceal her wonderful curves at all. As her black hair scattered outwards, her sparkling white face was absolutely gorgeous. Her large eyes were clear and full of life.

When such an otherworldly girl walked over, everyone couldn't help but open up a route. The witch opened her mouth and said, "This demonic spider really is a disaster in your hands. Why don't you give him to me?"

Everyone was stupefied. She actually asked for a pure-blooded creature. Was this an act of sharing the calamity with the youth? What kind of relationship did these two individuals have?

Shi Hao's reply surpassed everyone's expectations. He directly shook his head and refused. "Not giving it to you. This is one of the five archaic poisons and can be used to refined divine medicine! This is an essential medicine."

"Don't you know? If you don't hand it over, then there will be a huge disaster in the near future," the heavenly fox fairy said.

“Are you saying that there won’t be a disaster after I give it to you? There will still be others coming out of hatred. Meanwhile, this is a primer for divine medicine, so if you want it, then exchange for it with some treasure.”

This was originally a gathering of geniuses, yet in the end, it developed to such a state. Many people’s eyes were focused on Shi Hao. His appearance was truly outside of their anticipations.

Not long after, Lord Huntian walked over to clink cups with Shi Hao, laughing heartily. He offered words of praise and admiration, calling him a heroic youth.

This was a powerful lord that had been granted the title of lord many years ago. However, he was only twenty-five this year, as well as the youngest official that protected the borders. His military fame was brilliant.

He embraced a beautiful girl and left in a happy and free manner. He did not say much, and only told Shi Hao to pay him a visit should he ever find himself by the border.

Following that, another well-known noble king’s heir walked up to make friends and clink cups with Shi Hao. Regardless of whether or not he could overcome this trial, anyone could tell that this powerful youth was worth getting to know.

Shi Hao was surprised to find that the number of pure-blooded creatures here exceeded his expectations. Other than the Horned Dragon, he also saw a Bifang and Zhujian. These were all opponents he had faced within the Hundred Shattered Mountains, yet they were now here in humanoid forms.

Other than these few creatures, there should still be other guests from other Divine Mountains because he saw the purple-haired girl Yun Xi with a hurried glance. The other party did not come over and instead discussed something with some other powerful creatures.

“It’s really lively here! I wonder if any supreme experts will reveal themselves. It seems like the wasteland region really will become chaotic. The disciples that the divine mountains dispatched should be here to learn about the situation, right?” Shi Hao said to himself.

“You really are interesting. So powerful, yet no one has ever heard about you before. Could it be that you are from outside this region?” The Thunder Clan’s oldest daughter walked over with a beautiful smile. She raised her cup from the distance to offer a toast. Her red lips on top of the jade cup were bright and beautiful.

Gu Linglong was also by her side. Her expression was extremely unnatural because not long ago, she still wanted to suppress Shi Hao. In the end, a series of events occurred that left her embarrassed. As for her brother, he had long hid himself far away in fear.

“I heard that you have a sister?” Shi Hao casually asked because he faintly recalled such a thing.

“What are you trying to do?” The Thunder Clan’s eldest sister was incomparably alarmed. Her sister was the pride of the Clan. She had been taken in under the Archaic Divine Mountains and was an outstanding talent.

Moreover, the Thunder Family's second young lady was known as the capital's number one beauty. She was above all the other pearls, and too many people had their eyes on her.

"Nothing, just asking," Shi Hao smiled and said.

On the side, Gu Linglong and the others finally loosened up a bit. They all laughed and revealed looks of understanding. However, the Thunder Clan's oldest daughter frowned and shot him a sidelong glance.

Right at this moment, a wave of disturbance came from the distance. There were vicious beasts howling, and a war chariot was rumbling over. It actually traveled in the air and descended from the sky.

"They have arrived! It is the war chariot of a noble king!"

"That's... Shi Ziteng!"

...

Everyone cried out in alarm, and the Green Wood Garden boiled with noise. Even though they had already predicted as such, when the expert arrived in person, everyone still felt their minds shaken. They had clearly come to deliver punishment.

The war chariot stopped, and several people walked out. They walked on the fragrant grass with calm and collected faces.

Shi Ziteng was a legendary figure that had paid his respects to the Demonic Spirit Lake. In the past, he had always been extremely mysterious. Not many people knew about him, but now, they were able to confirm his existence.

Even though he had kept a low-profile throughout all these years, once he took action, none of his enemies would remain alive. There were quite a few great figures that had provoked him, but now, they were all corpses.

And now, he had personally arrived. This was definitely a great disturbance.

Shi Ziteng's hair shone. His skin was as white as jade, and his expression was extremely steady. His gaze was calm, and from his appearance, he only seemed to be about twenty-seven or eight. He did not seem to be angry, and as he walked over, each step seemed to make the world pulse.

At this moment, everyone's voices vanished. The entire place became completely quiet. It was as if the heaven and earth had merged into one figure, and the entire being was releasing its terrifying sound.

Everyone began to tremble inwardly!

"You suppressed the Demonic Spirit Lake's heir?" Shi Ziteng spoke.

Behind him, there were several individuals that ranged from twenty to forty years of age. They were all extraordinary and circulating their powerful auras. Their eyes were sharp and penetrating as they looked over together.

Shi Hao raised his head and looked forward. From their familial relationship, he should be calling the other individual uncle, but currently, he did not feel a single bit of affection. On the contrary, he felt his heart becoming extremely cold.

"That's me." Shi Hao calmly replied. He held a small bowl in his hands that seemed extremely ordinary, but auspicious multicolored light was flickering within. A dark green spider was lying at the base of the bowl without a single movement.

Everyone's attention was focused on this place. They all felt as if a violent tempest had descended!

"Why don't you release him." Shi Ziteng opened his mouth and spoke just as calmly as before. He was clearly just standing there, yet it gave everyone a feeling of inexistence. It was as if he had completely blended into nature.

"Not letting him go!" Shi Hao replied. This was not the first time he faced Shi Ziteng, but it was the first time that they collided face to face.

Chapter 297 - Tit For Tat

Shi Ziteng had personally hurried over to this place, yet Shi Hao was still firmly rejecting his request. His face immediately became cold, and the atmosphere became extremely tense.

"There really is always a new generation to replace the last," Shi Ziteng said. His mood did not fluctuate and still seemed as calm as before.

He was outstanding and almost otherworldly. His black hair scattered down, and his skin was brilliant white. His appearance was truly almost a bit too handsome, giving people the feeling that he wasn't a human, but rather a piece of art. It was an appearance that one would never forget after seeing once.

Shi Hao's expression was just as calm as before while confronting him. If he was able to capture the other party, then the true archaic demonic spider might make its appearance.

Only, Shi Ziteng was definitely not an ordinary person. As soon as they faced each other, Shi Hao determined that the opponent was a noble king grade expert. He was extremely difficult to overcome!

He had to activate the Imperishable Golden Body, moreover, he had to display the most powerful force. However, this might cause harm to that small black figure. If he did not do this, then he was not this man's opponent.

Shi Hao was not scared of anything. He really wanted to use one of the small pagoda's uses. If the enemy decided to attack him, then they would all be murdered clean! However, if he was really left with no other choice, then he did not oppose using it to kill one person.

"Young one, do you know that those who act excessively are often easily broken? For things like this, one has to understand how to make a choice and leave behind a bottom line. Otherwise, even the heavens will loathe you. There have been too many times when heavenly geniuses are killed off while still young."

A middle-aged man walked out from Shi Ziteng's back. His face was overcast, and his words were spoken in a slow and unhurried manner. A threatening feeling could be felt from his calm manner.

"Middle-aged people also die pretty often." Shi Hao said without the slightest bit of fear. He shot back with equal harshness.

"Are you going to release him or not?" A young individual shouted.

These were all experts from the Martial Imperial Manor. If they weren't Shi Ziteng's cousins, then they were his nephews. They would naturally stand by his side and berate Shi Hao.

"There aren't any people, but I do have a spider. However, I'm definitely not going to release it." Shi Hao propped up the small bowl. Strand after strand of auspicious light swirled around the entrance of the bowl, trapping that dark green spider.

"I really don't understand. Is the grand and magnificent Martial Imperial Manor going to enshrine and worship a large spider? To willingly become servants, do you guys even have any sense of self-respect left? Don't forget that the blood of the king still flows through your bodies, and that you are Shi descendants of the human emperor. Don't embarrass yourselves too much." Shi Hao continued.

These were all criminalizing words. These were all people who have obtained their current statuses due to their relationships with the Demonic Spirit Lake's bloodline. They were so angry that their faces became angry and their eyes cold.

"Youngster, you seem to be incredibly outstanding. I am quite curious. What sect are you a part of? Tell it to us. Who knows, we might be closely connected." Shi Ziteng finally spoke again, stopping those that were about to flip out in anger.

He carried a faint smiling expression, remaining calm from start to finish. This was a rare state of mind that far surpassed those individuals. It made the surrounding geniuses all feel like their hearts were being torn apart.

"I come from -- Supreme Palace." Shi Hao said to introduce himself.

When everyone heard what he said, they were all moved. This name seems so astonishing, only... they had never heard of it before. At the very least, none of the human geniuses knew of it.

There was no lack of pure-blooded creatures here, but they were all confused as well. They had simply never heard of it before. Was there really such a place?

Shi Ziteng laughed and said, "Quite a domineering name. However, forgive my inexperience, but I don't have any impression of such a place."

"I've heard of it before." The heavenly fox-spirit walked over with agile steps. Her fine body's was extremely curvy, and her appearance charmed all living creatures. Her snow white skin and quick-witted pupils made people's minds flutter.

"The Supreme Palace only has a single disciple every generation. However, once they appear, they will definitely become a supreme being. They are not within this region," the witch said.

When everyone heard what was said, they all sucked in a cold breath of air. When they looked towards Shi Hao, they were immediately full of respect. How could he have such an incredible origin? No wonder he was so powerful.

At first, no one paid attention to him, but now they truly felt like they had been careless. Other than the two fairies, there was actually another ridiculous figure from outside this region.

Shi Hao was speechless. Was this witch helping him? They really did match quite well! This made up Supreme Palace now truly sounded quite frightening.

However, he never expected fairy Yue Chan to also walk over. She fixed her gaze on him and said, "I have also heard of this Supreme Palace. It is an unsurpassed ancient palace."

"This..." Even those that were still holding some doubts were now completely stupefied. Could it truly be real?

You have to understand that fairy Yue Chan and the witch stood on opposing sides. The two of them had a grudge towards each other and definitely would not support each other. However, right now, they both acknowledged this place, so it was unlikely for it to be fake.

Shi Ziteng's expression remained unchanged. It was still as calm and collected as before. Precious splendor flowed within his eyes as he nodded and said, "A great background after all." n-)Ovelb1n

"During the war of the ancients, the last person from the Supreme Palace was killed by the deities and devils, and since then, there have never been another supreme expert that have come from there. Endless years have already passed since then, truly a sorrowful story." Fairy Yue Chan spoke softly.

The people were all amazed. After hearing what she added, they all stared blankly. The inheritance seemed to have been broken during the ancient years. Was this youth really the next generation after all this time and recreating its glory or was he just an impersonator?

With this information revealed, it once again placed people in doubt.

Shi Hao was astonished. Was there really a place like this? Fairy Yue Chan wouldn't say something false, right? If it was a real place, then it really would be a coincidence.

Shi Ziteng smiled and said, "Formidable. Regardless, you are an outstanding youth in the present age."

Shi Hao was stumped for words. He never thought that he would remain so composed and not erupt into fury at all. Instead, he was completely calm, possessing an outstanding manner.

Right when everyone was sighing in praise, Shi Ziteng once again became serious and said, "If a disciple from your sect was taken in as a prisoner, would you go to save them? Even if you came from the Supreme Palace and possess a shocking background and illustrious status, I am similarly fearless. After I take action, I will wait for your senior to come save you."

His expression was resolute and grim as he took large steps forward.

Shi Hao sneered. This uncle really was formidable after all. Not only did he unmask his relationship with the Demonic Spirit Lake, he even avoided being looked at as someone powerful picking on the weak. Instead, he made it look like he was forced into a situation of no alternative, almost as if he was in a position of weakness when facing the great figures of the Supreme Palace.

It was only a few words, yet Shi Ziteng already expressed a lot. Everyone could infer quite a bit from what he said. He was going to withstand a terrifying supreme inheritance without fear.

What was really going on, however? Shi Hao believed that this uncle didn't believe his words at all. It was likely that he was laughing coldly inside. He merely seized the opportunity to appear a bit more valiant.

“Old man, are you really going to go there? If you want to fight, then just walk forward. What is the point of scheming so much against someone younger than you?” Shi Hao transmitted sound directly to Shi Ziteng to ridicule him.

There were some things that could not be solved with words and would only be a waste of time. It was better to directly hit the problem at its center and make him unhappy.

Shi Ziteng’s snow white skin was like jade, and his black hair was thick. His outer appearance made him look like he was twenty-seven or twenty-eight. When called an old man, his smile didn’t falter at all.

“You are thinking too much. However, even if you are a supreme youth, my Yi’er is one as well. Young people should avoid making themselves look foolish by not acting so arrogant. Otherwise, they will die prematurely.”

He revealed a sneer and pressed forward.

“In fact, the reason why I came to the capital was precisely to fight your Yi’er.” This time, Shi Hao directly spoke and did not transmit sound mentally. “Are you worried and want to get rid of me beforehand?”

With these words spoken, this place immediately burst into an uproar.

Who was Shi Yi? This was a heaven warping genius whose name shook all of Stone Country. There were just too many legends related to him. He was a heavenly dual-pupiled individual, the embodiment of an ancient deity; who didn’t know about him here?

This youngster actually came for Shi Yi, shocking everyone. Their hearts all began to stir with waves. Many people began to speculate what would happen.

“Could it be that he came?” When Shi Hao spoke this sentence, there were some that were inwardly startled. They began to reveal doubt as they stared at him.

“Is that so? I am quite happy to see that you have such a goal. I also wish for Yi’er to meet an opponent that could help him sharpen himself.” Shi Ziteng nodded. His expression remained calm as he said, “If you hand over my martial nephew, then I won’t do anything to you. I will give you a chance to fight Yi’er.”

Even though his words were spoken in a calm tone, there was a hint of coldness. There was also a type of hidden intimidation that was forcing Shi Hao to surrender and hand over that spider. Otherwise, his life would be in danger.

If Shi Hao handed it over, then he would be yielding to Shi Ziteng and his supreme youth belief would also be dampened. Shi Ziteng casually exhorted and seemed calm, but in reality, this was a forceful attack at Shi Hao’s heart.

“If you want to fight, then I’ll satisfy your wishes. Come here then. Afterwards, I’ll go fight your Yi’er.” No one would have thought that Shi Hao would act so powerfully. His gaze was clear as he pointed at Shi Ziteng.

Currently, who here didn’t know about Shi Ziteng’s power? After paying his respects to the Demonic Spirit Lake, his cultivation became deep and profound, to a point where he dared to openly speak in

opposition to the Great Demonic God. Even though this young man was a heaven warping genius, he still wasn't very old. Wouldn't acting like this be the same as digging his own grave? This was just too much self-confidence, right?

This was the first time Shi Ziteng put away his smile. His eyelids jumped several times, and only after a short period of time did it return to normal. The opponent was acting equally harsh back! His age was so young, yet that hand was pointing at him. A wave of fiery anger surged within him. Could it be that he really could fight against him?

He was a naturally cautious person, and he always thought things through. He never acted in an overbearing manner, nor did he speak words that were too kind. He was now in a state of deep thought as he stared at Shi Hao.

As for cousins and nephews behind him, their tempers were not so great. They all became impatient and berated loudly. Their faces had ugly expressions, and two middle aged men threw themselves forward.

"You want to fight? You are looking for death!" A middle aged man was about to take action, and his expression was extremely bad.

"Come over if you want to die then." Shi Hao's words were even more vigorous, making Princess Sixteen, Thunder Clan's oldest daughter, and the others stupefied. This fellow was too domineering.

"No one can save you now!" The opposing individual laughed coldly and pressed forward.

The heavenly fox fairy giggled and spoke at this moment. "What if my Sky Severing Sect interferes?" Her voice was extremely pleasant to listen to, just like the sounds of nature. She herself was even more of an incomparable beauty, possessing an appearance that could move all living things.

When these words were spoken, the expressions of everyone at the scene changed. The expressions of the individuals from the Martial Imperial Manor became even more unnatural. People like them naturally knew how terrifying this witch's background was, and knew that she came from some incredibly great sect from outside this region.

Sky Severing Sect: this was the first time the geniuses here heard of such an inheritance. It made their hearts tremble.

Shi Hao sighed inwardly, feeling a bit dissatisfied. The witch seemed to want to protect him, but right now, he truly didn't need it! He wanted things to get more and more complicated and eventually stir up that archaic demonic spider.

He naturally understood the heavenly fox fairy's intentions. This was an undisguised way of roping him in. Facing the Martial Imperial Manor and the Demonic Spirit Lake like this, could he even repay her in the future?

The Martial Imperial Manor was one thing, but the Demonic Spirit Lake was a place as terrifying as the Archaic Divine Mountains. It was entirely possible that a demonic god rests there! Facing them like this proved the witch's sincerity, and it also proved the Sky Severing Sect's unrivalled power!

Shi Hao had a strong feeling that this battle was most likely not going to proceed any further. Shi Ziteng was not an ordinary person and would definitely not give in to his anger to attack.

You have to understand that even the human emperor treated this witch with great courtesy, and they even had a chat within the palace. This proved the might of her great sect, a sect reputed to be a supreme sect.

How was Shi Ziteng going to get himself out of this mess now? This was the most important question. If he directly turned around and left, then he would be losing too much face.

At this time, fairy Yue Chan also walked over. Her beauty was out of this world, not possessing the slightest bit of mortal air about her. The white clothes around her body were as white as snow, making her look otherworldly. It gave her the appearance of someone that could only be admired but never reached.

“Junior, when will your honorable son return? This time, the human emperor is celebrating his birthday. Will he return to the capital?” She spoke in this way, drawing the attention of everyone here.

Fairy Yue Chan was as beautiful as a flowering tree, as clear as a new moon, and as pure as snow. Her question made everyone tremble inwardly. Who was Shi Yi? Everyone knew who he was, and they were even more clear on how powerful his potential was.

The witch represented the Sky Severing Sect and chose that mysterious youth. It was clear that she was going to protect him from harm.

Meanwhile, was fairy Yue Chan going to select the dual-pupil Shi Yi? Could it be that they were going to oppose each other with equal harshness? What was the name then of that extraordinary sect behind her?

No one spoke anymore as they stared forward. The atmosphere became even more intense.

Chapter 298 - The Wasteland Prison

Shi Hao looked at her askance. What did the fairy Yue Chan have in mind? Was she trying to get involved as well? Had the battle a while ago brought her to some sort of decision?

He glanced at her and saw that she was as calm as ever. Shi Hao was not afraid either, for even though he was still young, he had been through all kinds of turbulences and storms. He had even fought with supreme experts, so not even great sects beyond the wastelands could intimidate him now.

Hearing this, a smile swept across Shi Ziteng’s face. Even though he had reached middle-age, he remained handsome and looked more like a talented young man. He said, “Yi’er will probably return.”

The crowd was greatly impressed by the announcement. Was Shi Yi really coming back? In that case, the Capital would surely see some noise and excitement.

The fairy Yue Chan gave a little smile and nodded. She then said, “How about we forget what happened today once and for all? I’ve witnessed the whole incident just now. The people from the Demonic Spirit Lake were indeed in the wrong.”

The claim astonished many people. She had just approached Shi Ziteng and showed interest towards Shi Yi, yet now her attitude had took such a turn. Exactly whose side was she on?

Shi Ziteng's countenance remained the same and did not react to those words right away. However, simply retreating like this would be too shameful. What would others think of him if could not even save his own martial nephew?

"My fairy, those people are from the Demonic Spirit Lake. Don't you think your suggestion was a bit premature?" A middle-aged man beside Shi Ziteng challenged.

"Exactly what's so special about the Demonic Spirit Lake? It's all in your heads. You've worshipped it, willingly became their slaves and abandoned all dignity." Shi Hao criticized harshly without any hesitation.

"You are too arrogant!" said the middle-aged man in a chilly tone. The hostility in his voice was apparent.

"Fairy Yue Chan, this is a life we are talking about here. My martial nephew may have made a mistake, but he shouldn't be treated and punished in such a manner, right?" Shi Ziteng wouldn't give in easily.

The fairy Yue Chan turned to Shi Hao and said, "Young brother, there's no need to be so ruthless. Let him live."

Shi Hao pondered for a while. Since fairy Yue Chan had mediated the dispute for him just then and was no longer opposing him, he did not want to make the relationship difficult again. He nodded and said, "Fine. For the sake of the fairy, I won't kill him."

The crowd knew that the conflict was very likely to end this way and the battle they were expecting was not going to happen.

Beside Shi Ziteng were his cousins and nephews. One of them said with a sneer, "Then please release him."

"Who told you I was going to let him go? Why should I?" There was nothing but coldness on Shi Hao's face.

"But you said just now..." The middle-aged man then realised that Shi Hao indeed did not promise to release the spider, only that he was going to let him live. The man said with a resentful voice, "You misled us. What are you going to do to him?"

Shi Hao replied in an indifferent tone. "Nothing. Teach him a lesson, that's all. If I can't even deal with a little spider myself, what should I do when wolves and tigers show up at my doorstep in the future? Letting it live does not mean I'll release it right away. It needs to stay here and repent."

Such words astounded nearly everyone. The crowd was utterly amazed to hear that the mighty experts from the imposing Demonic Spirit Lake were only referred to as a "little spider". The young man acted with such a dominating manner.

"That will do. Even princes should be punished by the same law as the common people. The Demonic Spirit Lake is an outstanding place, but they should know where their limit is. The spider should learn some discipline while being suppressed here," said the Heavenly Fox fairy.

Since both fairies from beyond the wastelands had agreed on the point, the crowd could only express their amazement inwardly. The teenager's background must be so great that both of them would try to have him on their side.

People of the Martial Imperial Manor were discontented at the result, and Shi Ziteng was the only one who remained calm. He nodded and said, "All right. My martial nephew will be disciplined here for a few days before we have him back. I think the ancestors of the Demonic Spirit Lake would also like to teach him a lesson through this incident."

Those words came out in a tranquil and otherworldly manner, but was alerting at the same time. Had an old pure-blood creature arrived at the Capital? Such news would definitely create quite a bit of pressure for everyone. People would think twice before they did anything in the future.

To some extent, it was another way of putting forward a serious warning. Whoever inflicts harm on the Demonic Spider would be asking for formidable revenge from that sect ancestor.

Shi Hao smiled at his words. "Don't worry, I'll teach it a good lesson. The finest diamond must be cut. Disciples with such a massive ego need some ruthless tidying up."

"You..." Rage almost erupted from the eyes of those beside Shi Ziteng. They clenched their fists so tight that the knuckles all turned green.

Shi Ziteng took a long look at Shi Hao and turned to leave. As he got on the bronze chariot, vicious beasts roared and the chariot rumbled away. Their party soon disappeared into the distance.

Two men remained behind, who seemed to be ordered to stay here and watch Shi Hao's every move. They were obviously still holding grudges towards Shi Hao. nove-~~l~~1b/In

"Don't forget what family you belong to. You are not servants of the Demonic Spirit Lake, but have the same ancestors as the royal family. If you are conscientious of yourself, don't make the Martial Imperial Manor go through the humiliation with you."

The words of Shi Hao expressed his stark contempt. He might as well have slapped those men in public. The two men's faces were dark with anger, and they finally turned around to leave as well.

"I'd never thought you could be so cynical." The witch laughed.

"I'll show more respect to those who respect me. They've brought the war to my doorstep, how could I not fight back?" said Shi Hao.

"I think you'll find dealing with the spider alone a troublesome matter. Why don't you hand it to me? If I manage to refine a divine medicine in the future, I'll surely repay you for this." The Heavenly Fox fairy said with a chuckle.

Hearing this, the crowd were all fretting at the request. That foxy fairy was incredibly audacious!

Shi Hao only smiled. Needless to say, he would not agree to her request. Since he had already offended the Demonic Spirit Lake, giving some major medicine to others would make no difference to his situation. He'd rather keep it for himself. The feud was long established, and there was no way to resolve it.

Only the most talented people were invited to this gathering, but the atmosphere was no longer what it was now. After the disturbance caused by Shi Hao, many wild souls had now restrained themselves.

For that teenager had taken all the spotlight away. He was even bold enough to capture and kill pure-blood creatures, which made other people want to keep a low profile in this gathering.

Pure-blood creatures like the Horned Dragon and Bifang were also invited. Their eyes were glistening, and no one knew what they were thinking. It appeared that they had realised something.

Shi Hao then began his treasure-hunting. He explored carefully with the dual-pupil and had managed to find a few materials. He then purchased two of them.

In the distance, those with old feuds began to fight. Seizing the opportunity, some disciples from famous sects and aristocratic descendants finally started fighting, attracting a large audience.

These scenes were no longer appealing to Shi Hao, however. He was focused on picking treasured artifacts and finding valuables among piles of ordinary items.

A white-clothed figure moved near, filling the air with a delicate fragrance. Fairy Yue Chan approached Shi Hao with her graceful gait and tried to start a conversation, which raised many eyebrows.

Shi Hao found to his surprise that the fairy did not attempt to draw him over to her side, but only made some small talk, which involved nothing surprising.

"Fairy Yue Chan is getting smarter. She obviously wants to wheedle you in, but she's not doing it explicitly. Instead, she only chatted with you to leave a good impression, leaving everything else to the future." Not far away, the little fox beside the Heavenly Fox fairy grumbled.

"Sometimes, there's nothing to choose from. We can only wait and see if the dual-pupiled person will come back. If he really is as powerful as the rumors say, and is comparable to the ancient deity, then things will get very interesting." The witch chuckled.

Shi Hao wandered around the place and managed to satisfy his enormous appetite. He picked some treasured artifacts and materials, drank his last glass of fine wine and turned to leave.

It was because by then, the gathering was drawing to its end and many had already left. In other words, the gathering was no longer useful to him.

He was in deep thought his entire way back, and was even looking forward to the world beyond the wastelands.

"Do you know why the wastelands fell into chaos?" The witch approached him and walked out together. Her flawless features, paired with her perfectly curvaceous body, had made many young talented men drool over. They were all grumbling in secret, wondering what exactly was so fantastic about this teenager that made both fairies talk to him. It did not make sense at all.

"I do not know. Could you tell me about it?" Shi Hao was eager to find out.

"Eons ago, this region used to be a prison, and many great vicious beings were locked up within." The most startling fact came out of the witch's mouth.

Even someone as steady and calm as Shi Hao was dumbstruck by the words. He raised his head abruptly and looked into the Heavenly Fox fairy's eyes. He then stared at her in a daze.

The witch's unsurpassed beauty could charm anyone's souls from their bodies. She was indeed a beautiful woman hard to come by in the mortal world. In Stone Country, the fairy Yue Chan was probably the only beauty comparable to her. She blew lightly at Shi Hao in a somewhat provocative manner and rolled her eyes with a smile. "Scared?"

"No, just surprised." Shi Hao gave his honest answer.

"It had something to do with the Great Chaos." The Heavenly Fox fairy told him directly.

The statement was obviously a startling one, and countless ideas came into Shi Hao's head in that moment. His past speculations were all overturned now, for what had happened seemed much more severe than he had imagined.

"Of course, the great vicious beings of the archaic time have long died away. However, some creatures managed to take refuge in the wastelands later on their own. Moreover, with so many sinful descendants left behind, attention would inevitably be drawn from the outside world."

The witch was very candid and offered Shi Hao incredibly valuable information from their casual conversation.

"I can see that you all care about the wastelands very much, or you wouldn't have entered here. What are you trying to do here?" Asked Shi Hao.

Everything was driven by profit, or the Sky Severing Sect and the supreme sect behind fairy Yue Chan would not have competed against each other. There must be a reason behind this.

"Of course, there are no permanent enemies, only perpetual temptation and benefits. The great battle this time will bring out the true deities." The witch said frankly.

"The true deities?" Shi Hao was bewildered and surprised by such an expression. He felt like there was an extremely unordinary implication behind her words, as if a monstrous storm was going to engulf the wastelands and send everything into complete chaos.

She emphasized the word 'true', as if there it made a difference. Could it be that the deity she mentioned was not the same as the one he perceived?

"Xixi..." The witch laughed and said, "It is definitely not the deities you normally refer to. I'm not talking about those who ignite divine flame and eventually die."

Shi Hao was greatly shaken by her words. It seemed that the witch did recognize the deities of the wastelands. What could that mean?

"When they become deities and have the divine flame ignited, why would the fire extinguish? It is because their cultivation hadn't reach a certain level." Such was the comment of the witch.

Starting from the wastelands, the true deities were going to be created. The impact of such events would be incredible!

“How will the true deities be created?” Shi Hao asked. Naturally, he would like to know the answer. As a resident of this region, even if he couldn’t hope for such a thing, he still wanted to be informed at the very least.

“That would be a secret. If you really want to know, you’ll have to pay extra attention in the future. Maybe you’ll learn some great abilities if you are willing to join the Sky Severing Sect.” The witch did not go into details, but only tempted him with such words.

“Can you really not tell me a bit more?” Shi Hao asked.

“Although this region used to be a prison, something unusual was here as well, which is where the Great Chaos stems from. Even the supreme sect wants to obtain something from this place.”

Chapter 299 - Heads Delivered

The witch left and did not give out any more information. However, her words made it so that Shi Hao could not calm down for a long time. These things were just too shocking.

The great vicious creatures, sinful descendants, other powerful creatures that entered the wasteland region, igniting a divine flame, true deities... These keywords were continuously tossed around his mind, and it would be a while before they would disappear.

The surroundings of the Green Wood Garden was rather vast, with many bronze war chariots parked about. Just as Shi Hao passed this place, he saw Liu Han’s group. When he thought about how they got others to try and defeat him, he waved and said, “Let me borrow your war chariot again. Later on, you can get it back from the Tiger Gate Tavern.

His words were spoken in a carefree manner. Those individuals all felt their faces darken, but soon after, they wilted like frost-bitten eggplants. Why were they so unlucky? They encountered this freak again.

They did not act out in anger at all. All of their arrogance as heirs of noble kings was put away. This young master even dared to threaten the Demonic Spirit Lake! He didn’t even give any face to Shi Ziteng and instead fought back with equal harshness.

They decided that they were inferior and were not on par with pure-blooded creatures. Currently, when they saw this youth, all of them began to rant in fear. As they watched him walk over and climb into the bronze war chariot, all of them stood there rigidly.

“Don’t bully others so much in the future. Don’t think that you stand on top of the world just because you are children of noble kings and stir up trouble everywhere. Otherwise, next time, I’ll directly put you guys into the Heaven Transforming Bowl and let you have a heart to heart chat with that little spider.”

Shi Hao left behind those words before leaving on the bronze chariot. This made the group feel indignant, but they had no choice.

“Aiyou, Liu Han, you are quite incredible! Are you trying to be on good terms with that person from Supreme Palace by lending him your carriage?” Someone asked.

“Get lost!” Liu Han was simply angered bad. Fury filled him as he roared here, drawing quite a few eyes and whispers.

Quite a few people found out about what happened, and they all began to laugh.

Tiger Gate Tavern was located at a bustling part of the capital, and there were garden landscapes around it. It could be considered a luxurious place, so the price was naturally not low. There were man-made mountains, small streams, and other landscaping pieces. The layout of this area was carefully arranged.

He parked the carriage outside the tavern, but as soon as he returned, he noticed that something wasn't right. He had been targeted. For revenge to happen so quickly made his heart harden.

He was completely fearless and was not scared at all of these small things. Instead, he feared that things wouldn't build up quick enough. This time, the reason he came to the Stone Country capital was to make a powerful appearance and tell his loved ones that he was still alive.

Of course, the best time for that was during Stone Emperor's birthday, when he could completely break everyone who meant harm against him. Only, it didn't seem like things were going as planned.

A thin strand of smoke wafted into the air, surrounding this courtyard. Several flags were illuminated, sealing off this place. It was completely silent, reaching the peak of calmness.

"Why are you hiding with your tail out?" Shi Hao wasn't scared at all. He stood within the courtyard while staring forward.

"Youngster, you are quite bold. You seem to have some guts, only, people like you don't live for long. They all die from their stupidity and impulsiveness!" From the arching stone bridge, a middle aged individual walked out. With a pa sound, a fan was opened as he walked out in an extremely confident and easy going manner.

"Are you from the Martial Imperial Manor? Or a servant from the Demonic Spirit Lake? Maybe from some other power?" Shi Hao asked.

"Speak a bit more courteously." The middle-aged scholar's eyes were fierce. The blue clothes he wore made him look calm, and only those eyes were somewhat cold.

"You want to kill me, yet you want me to speak more courteously. There is something wrong with your head." Shi Hao's words were harsh. Within his sleeves, the small black golden figure appeared and was firmly gripped in his hands.

"You've acted unrestrained for too long. I admit that your natural talents are quite shocking and formidable, but you have to understand that not all geniuses are able to mature. So what if your identity is incredible? If I strangle you while you are still young and refuse you the opportunity to mature, everything you could have would be ruined!" The middle-aged scholar spoke in a malevolent voice. He was extremely direct, yet still seemed extremely calm. He spoke out everything he felt, as if he had Shi Hao's life in his hands and could care less about what would happen in the future.

His strength was extremely great, and his cultivation surpassed Shi Hao's. Currently, he did not feel any fear and felt like everything was in his grasp. He didn't even feel like he had to hurry and take action, and instead wanted to humiliate and break the other party first.

“Why do you think you are all that? If you want to die, then just come over.” Shi Hao shot him a look of disdain.

“Being shown such contempt by such a young person made the middle-aged scholar absolutely furious. He was still a comparatively well-known expert, and today, he took action in place of the Martial Imperial Manor’s people. In the end, he was looked down like this by this youngster. It was truly unbearable.

“You are looking for death!”

The middle-aged scholar erupted with anger. As soon as his mouth opened, a divine flame was spat out, surrounding most of the courtyard. The temperature was raised to such a degree that it was somewhat shocking.

Shi Hao was considerably startled. This middle-aged scholar seemed rather quiet-looking and he didn’t expect that he was actually like a reckless dragon. Flames were spewed from its mouth as soon as the battle started, completely unlike his outward appearance.

He quickly dodged, because the opposing party’s flames could immediately scorch any flesh that made contact with it into ashes.

It was obvious that this was an expert at the Engravement Realm, one great realm higher than Shi Hao. His power was extremely terrifying. After entering this realm, one could truly become free and unfettered. It was like a bird leaping out from the sea and taking flight into the skies.

Someone who could reach the Engravement Realm was definitely an expert in the human race. No matter where they went, they would receive the respect of others. Well known figures could obtain the title of lord.

This cultivation realm was extremely difficult, requiring one to carve inscriptions into one’s bones and heavenly passages. At the same time, they need to break through the natural chains of order to truly lay out and arrange the patterns. Every single step was extremely arduous.

This was where one truly embarked on their own path. They were no longer confined to the symbols of vicious beasts or fierce birds that they began with and could now begin carving their own symbols.

Of course, the so-called one’s own symbols could only be simply assembled. It was impossible to create something innovative, as that was something that only supreme experts could do.

With a hu sound, Shi Hao dodged to the side. A lump of flame descended, and the man-made mountain was turned into magma. The fountain evaporated, and most of the courtyard became barren.

This was the dao flame of its own body. It was a special flame produced by symbols carved within the body in the Engravement Realm. This type of divine might alone could easily suppress any lower level cultivator.

However, what kind of person was Shi Hao? He was someone who continuously broke past limits! Even if he didn’t use the Imperishable Golden Body, he would still dare to fight against someone who had just entered the Engravement Realm.

“Are you used to always using these flames? Not bad, just like a mess cook,” he ridiculed.

When the middle-aged scholar heard what he said, his expression immediately became overcast. Previously, he was refined and quiet like a scholar, but in the end, this brat's sharp attacks was more than he could bear.

Hu

He opened his mouth and spewed out a wave of flames. At the same time, his entire body lit up, and strand after strand of symbols curled up around him. His entire body soared into the air, sending down a tremendous wave of flourishing divine light downwards.

This was the effects of the dao flame. It was being stirred on by his precious artifacts, surrounding every direction to suppress Shi Hao. He did not believe that a child a bit over ten could be that terrifying.

Regardless of how great your heavenly talent was, so what? The difference in cultivation realms was still unavoidable, and it was difficult to avoid the fate of death.

This time, Shi Hao did not dodge but instead directly opened all ten heavenly passages. Within some of them rested a Kun Peng, Suan Ni, Black Tortoise, and human spirit. As for the remaining heavenly passages, there was a clock, pagoda, cauldron, and others. These weapons could be condensed, brought out, and undergo evolution.

Once the ten heavenly passages opened, they began to absorb the dao flame. The endless spiritual essence began to disappear into what seemed like a bottomless pit as it was frantically devoured.

The middle-aged scholar was shaken. Even though he heard that this individual was unordinary, he still couldn't help but change his expression. Ten heavenly passage, this was... heaven defying! He could actually meet such a magnificent view. This was truly a miracle.

The dao flame surged into the ten heavenly passages, making the interior bright and sparkling. They became more and more divine and auspicious, nourishing Shi Hao's essence energy.

"Break open!"

The middle-aged scholar tried to calm his mind. His eyes flickered with murderous light as he focused all of his attention on activating his body's dao flame. He wanted to completely blast his opponent's heavenly passages to pieces through their cultivation disparity.

In reality, this train of thought was not wrong. Anyone at a greater cultivation realm had the ability to use their own fighting energy and divine might to blast a lower realm cultivator's heavenly passages into pieces.

However, the ten heavenly passages were just too different from normal. His efforts at suppressing them was completely useless, and Shi Hao instead used this opportunity to endlessly absorb the flame's essence. The flames could not even harm him in the slightest.

Hong!

An ugly expression appeared on the middle-aged scholar's face, because he found that he couldn't make the heavenly passages explode. He fiercely brandished the fan in his arm, causing a four-colored ray of light to fly out. The heaven and earth rumbled and endless symbols flooded this place. It was as if a great mountain was smashing downwards.

This was a Four Division Fan, a type of powerful magical artifact. During the ancient years, it was known for its outstanding prowess.

Unfortunately, it was difficult to bring out its divine abilities in the present age, so the Four Division Fan was not comparable to the sacred artifact of that era. However, for an Engravement Realm individual, this item was still quite excellent.

Four-colored light flew out and hacked over like heavenly lightning. It seemed impossible to stop as it shot towards Shi Hao to obliterate him. Any normal Spirit Transformation Realm cultivator would immediately be blasted to pieces by the overwhelming power of the Engravement Realm expert's precious artifact.

Shi Hao felt the pressure, but he remain fearless. The other party had just taken the first step into the Engravement Realm and was not a true noble king.

His pupils flickered, forming a faint golden color. He decided that he was going test his strength here. From within one of the heavenly passages, a Kun Peng slowly appeared. It then spread its wings into the skies before rushing forward.

The Kun Peng was not that large, because the courtyard was sealed off. At the same time, he did not want to startle everyone, so he only used it within the limits of this region.

Hong!

The four-colored light was scattered. The Kun Peng flew past and collided into the middle-aged scholar. Half of his body was immediately badly mangled, and the fan in his hands directly blew apart. It was a spectacle that was simply too hard to endure.

"What kind of precious technique is this??" He was stunned. They had just crossed swords! He was an Engravement Realm expert, yet he couldn't even block a single attack from a youngster at the Spirit Transformation Realm. This was just just too shocking.

As soon as Shi Hao released this strike, he had already decided that he would not let this person go. After using the Kun Peng's divine ability, he would completely exterminate his enemy.

His mind could not calm down at all. He hadn't even fully comprehended it yet, yet the Kun Peng's murderous form already displayed such a heaven defying divine might. It was quite shocking and made him tremble slightly.

"Yi, there's still other people. All of you need to be dealt with." Shi Hao's spiritual perception was sharp, noticing that there was someone else hiding in the dark within this courtyard. A normal person would not have discovered those individuals.

Kengqiang

His body erupted with light in a split second, and the black figure in his hand entered his body. The two were fused together.

At this moment, his entire body released dark light and flickered with an icy golden luster. After merging with the Imperishable Golden Body, his strength exploded and increased by a large amount.

Even though SHi Hao was quite strong and could defeat the middle-aged scholar, in order to accomplish his goal, he still used this precious artifact. He did not want to let the other people go.

Chi

A streak of bloody light emerged. The remaining half of the crippled middle-aged scholar widened his eyes in utter fear. He simply could not understand how his opponent could be so terrifying. With a single dash, he was beheaded.

It was just too quick. Even though he was seriously injured, this still shouldn't have been the case. He just couldn't understand it as he died with his eyes open.

The individuals that were hiding cried out loudly. They struggled with everything they had, but they already knew what would happen. The opponent released the ten heavenly passages and locked down this space, so they could not move a muscle.

Shi Hao appeared in front of their bodies. Once fused with the Imperishable Golden Body, his entire body gave off a cold and isolated feeling. He mercilessly took action, and with pu pu sounds, those four individuals' heads dropped to the ground. They all lost their lives.

He completely wiped this battlefield clean. After inspecting these people's remains, he found that there really were people from the Martial Imperial Manor among them. There was even an expert from the Rain Clan, because there was a clan emblem on his corpse.

"I didn't even explode yet. Why are you guys so impatient already?" Shi Hao said to himself.

Soon after, he called for a tavern employee to prepare some elegant gift boxes. He placed a head in every single one of them before sending them out.

The Tiger Gate Tavern's people did not know what was inside and they merely had to deliver it to the destination. Four of them were sent to the Martial Imperial Manor, and one was sent to the Rain King's manor.

"Do you want to erupt and retaliate? Then I'll help you guys and accompany you guys to the end. When the time comes, I'll pay you all a visit!" Shi Hao said to himself.

The Martial Imperial Manor's four elegant gift boxes were quite heavy. There were symbols flickering about them, so the people inside all thought they were precious objects. However, when they opened them, all of their expressions changed.

With a pa sound, a stone table was smashed apart under Shi Ziteng's palm. His expression was incomparably overcast. He knew that the people beside him had done something. They said that they would teach that youngster a lesson, and he didn't stop him. They simply never expected that their heads would be sent back so quickly.

This was a bare and naked provocation, an utter slap to their faces!

Moreover, there was still one head missing, and that was the head of a Rain Clansman. He came together with the others and paid his respects to him. He also went out, so why didn't his head appear? What kind of end did it meet?

Chapter 300 - The Enraged Rain Clan

The cold-faced Shi Ziteng no longer had those casual and carefree qualities about him. His eyes were flickering, and quite some time had passed before he spoke again. A frightening chilliness was spreading out from him.

The rest of his company did not hesitate to express their anger. These people did not ask for Shi Ziteng's advice and acted on their own to suppress the teenager, resulting in this mess.

It was an insult beyond imagination. The several people they sent out were not only killed, but also had their heads delivered back. The gesture was one of complete ridicule and humiliation!

"Is he declaring war against us? He is merely a teenager after all. Even with his exceptional background, without anyone else guarding him, can he really confront the entire Marital Imperial Manor by himself?!"

A middle-aged man said grimly. His killing intent surged, and he could not sit still any longer. This was an incredibly serious provocation. If they didn't deal with this, what kind of face would they have left.

Within the Tiger Gate Tavern, Shi Hao sat within the courtyard. He figured that the other party would definitely erupt into anger. Moreover, they probably wouldn't target only him, but also place blame on others.

"In order to kill me, you all will probably blame many others. All of you have gotten used to acting overbearingly," Shi Hao said to himself. He felt like something big was stirring up after he humiliated them in such a way. Either way, the human emperor's birthday was coming up, so the days were lining up.

"Go to the Rain King Manor and ask if Yu Lin returned first." Shi Ziteng said.

At this very moment, an overcast atmosphere filled the Rain King Manor. Many people's faces were ugly. When that heavy box was opened, there was actually a head. It belonged to one of their clan's experts.

Blood was dripping out, and Yu Lin's eyes were still widened with fear. It seemed like he had received a great shock before death and his eyes were still filled with unwillingness.

"Is this a provocation against my Rain Clan's prestige?!" One of them roared in anger.

Soon, the clan became incomparably depressed. After experiencing the Great Demonic God's anger, the Rain Clan's popularity within the capital was at an all time low. That event had put them into an extremely passive state and completely left them humiliated.

Now, whenever the Rain Clan was brought up, people would always think back to the Great Demonic God's great slaughter within the manor. They were truly humiliated and the losers during that incident.

This was completely different from the great glory and prowess established since the olden days. It completely overturned their reputation and left them in utter defeat.

"It was sent over from the Tiger Gate Tavern's people. Get to the bottom of this! We cannot act benevolently any longer. No matter who they are, we cannot let them go!"

“What if the they are declaring war on us and waiting for our reply? This is starting a war!”

The Rain King Manor’s next few days were quite difficult. Everyone felt stifled by anger. A single Great Demonic God made their entire clan unable to lift their heads, yet now, something else happened. Many people naturally found it unbearable. This was just like a fuse that would trigger a huge explosion.

“This is fine. Let’s see who dares to target my clan. Let’s use this chance to break out from this situation and relieve some of our people’s anger. We have to let the capital’s people know that our Rain Clan is still an ancient family in the end!” A clan ancestor said.

Soon after, several upper level figures of the Rain Manor hurried over to inquire about the situation. They immediately erupted into fury because this was absolutely infuriating.

Recently, they have always been investigating the devilish child’s matters. There were some that began to doubt if he was the Great Demonic God’s descendant. They were in a completely terrible mood, so this new incident gave them something to pour out their anger on.

“Bring a group of people to surround the Tiger Gate Tavern. Don’t let him escape!” True anger was stirred up within the Rain Clansmen. They immediately made their move, sending out their experts.

The main street was in a state of chaos. Powerful beasts roared and the galloping of armored horsemen resounded through the streets. All of the passersby were shocked. They moved out of the way in fear of being caught up in the disorder.

The Rain Clan had moved, sending out a group of experts. They surrounded the Tiger Gate Tavern, making everyone stupefied. What were they trying to do? Was a great war going to break out?

The group was made of elite warriors that were reputed to be the Rain Clan’s best, yet currently, they were all dressed in plate armor with sharp weapons in their hands. They flickered with cold light as they sat on top of vicious beasts, releasing waves of killing intent.

“Yi, what happened to the Rain King Manor? After experiencing that disastrous event, they have kept an extremely low profile recently. Why are they making a big fuss again?”

“Great one, what is the meaning of this?” The manager of the tavern appeared. For him to be able to make his business so great and establish a place within the capital, he naturally had an unordinary background.

“Out of the way!” However, the Rain Clansmen paid no attention to him. They pushed him away and proceeded into the tavern and into the peaceful gardens.

Shi Hao’s courtyard was opened all the way. He had already waited for a long time, and was shocked to find that it was the Rain King Manor’s people that hurried over first. This was not the first time he came into contact with them.

“You are the one who killed my manor’s disciple?” The troops that entered had icy cold expressions. They were all exuding killing intent. They never expected that the opposing side would be so arrogant, waiting here the entire time.

“You all aren’t going to ask for the reason?” Shi Hao sized them up, and felt that these were all experts who had experienced bloody battles. It was almost as if they had just arrived from a battlefield, as their bodies still possessed the smell of blood.

“There is no need. You’ve killed our clan’s disciple, so no matter what excuse you have, you will still die!” Among them, a youngster spoke in an incredibly cold tone. In his hand was a black demonic blade that was currently pointed straight at Shi Hao’s head.

“Domineering, oppressive, conceited. These traits all perfectly describe you all. Who do you think you all are? Without even finding out who was in the right and who was wrong, you immediately rush to kill?” Shi Hao’s voice was cold.

“To provoke my Rain Clan, of course you would have this kind of attitude. Not just anyone can step on my clan. You cannot blame anyone else for seeking death!”

“Don’t think too much of yourselves. The Rain Clan is a king clan, and sounds great with someone even becoming a deity. It is an ancient family, but now, you all have already died out from everyone’s minds.” Shi Hao ridiculed.

“No matter what state the Rain Clan is, it is still not a place where any dog or cat can provoke. Provoking my clan means that you will pay the price!” The black demonic blade in that young man’s hands made qiang qiang sounds, shooting out blade radiance.

“This isn’t the ancient years. The Rain Clan has already declined through time. You all have believed yourselves as infallible for too long. With just people like you all, you still want to look down on the capital, sentencing people to death as you please? Truly laughable and excessively conceited. Too bossy and domineering.” Shi Hao jeered.

Qiang

The black demonic blade lit up, releasing an expanse of symbols. The young individual hacked over towards Shi Hao’s head, directly taking action.

“当”

Dang

Shi Hao snapped his fingers. Symbols erupted with brilliance, and a thick streak of lightning flew out, colliding with that youngster’s blade. A dazzling light exploded, making kengqiang sounds ring out.

The black demonic blade shuddered. The lightning radiance flowed through it, making that young man’s body shake endlessly. Even though his cultivation was great, he still suffered under this attack.

“Those that dare offend my Rain Clan are few. You really are extremely daring!” A middle-aged man also spoke. His eyes were cold as they stared at Shi Hao. He wanted to find out more about his opponent.

Shi Hao laughed loudly and said, “Truly laughable. Not long ago, the Great Demonic God beat you down until you’ve all lost your helmets and armor. You were thrown into a completely desperate situation, to a point where you’ve all holed up in your manor and were too scared to come out. Even your main hall was torn up by others, so is that the awe and dignity you guys are talking about? Now, you all put on

your arrogance again, looking like some unrivaled master who won't yield no matter what. Don't you think that's kind of funny?"

Shi Hao's laugh was especially ear-piercing. This was an undisguised ridicule, making them feel incomparably depressed and stifled. The Great Demonic God was like a great shadow that was imprinted within their hearts. It made all of them ache inwardly.

Qiang!

The demonic blade hacked down once again; that youngster rushed over again. He was an elite of the Rain Clan that had cultivated for twenty years, so he believed that he could suppress the young expert in front of him.

However, in reality, he underestimated Shi Hao's strength. Without even the use of the Imperishable Golden Body, Shi Hao easily broke through the blade radiance and rushed forward murderously. His flesh flickered with radiance.

"Kill!"

Shi Hao's palm collided with the opponent's precious artifact, and with a qiang sound, it struck on top of that black demonic dagger. Symbols blossomed, but soon after, they were extinguished. The entire blade shuddered and then cracked apart. In the end, it completely shattered!

Not only that young individual, but even the middle-aged people behind him were shocked at this result. Just how powerful was his strength to bare handedly shatter a precious artifact?!

Peng!

Shi Hao slammed his palm straight into his chest. The young man flew outwards with his entire breastbone caved on. He suffered an irreversible injury, with his sternum seeming to have been completely broken.

He spat out blood from his mouth, and his face was completely pale. After colliding into the courtyard wall, earth and stone flew everywhere. Dust filled the air, and he could no longer climb back up.

The others were shocked. This youngster was too powerful! It was only a single encounter, yet the outcome was decided instantly. It was firm and forceful, and it was clear that his battle experience was plentiful. It made all of them a bit fearful.

At this moment, they all put away their feelings of contempt. Among them, one individual's gaze was ice cold, and a haze surrounded his body. Large amounts of rain descended, and lightning accompanied it!

This was one of the Rain Clan's true experts. After entering the Hundred Clans Battlefield, he reached the Engravement Realm. He was a formidable character.

Shi Hao did not dare to act careless. Just now, he relied on his lightning techniques to quickly move forward and ruin that young expert. However, the situation was different now, because the opponent was on his guard.

In just a split second, his body began to emit dark light, merging the small figure into his body. His strength erupted, making him an Engravement Realm expert.

An area of rain scattered down, and lightning hacked down. It completely descended on Shi Hao's body, but within the kengqiang sounds, he wasn't harmed in the slightest. He directly rushed forward.

At this moment, the Rain Clan's experts were completely startled. They gasped in surprise, because even though they had their suspicions before, knowing that their opponent was definitely powerful, this degree of power still exceeded their expectations.

This was still only a young man! How could he possess the strength of a noble king? This was simply heaven defying!

"Attack!" The other individuals rushed out together, and all of those watching the fight took action. They all revealed their precious techniques and brought out their precious artifacts.

However, the end result completely terrified them. The youth was so powerful that it made their hearts palpitate. He seemed comparable to a noble king, as if he was invincible. With a single palm and pa sounds, precious artifacts were shattered one after another.

He was simply like a human-shaped dinosaur as he pushed forward! Even though one of the middle-aged men surpassed the Spirit Transformation realm, in front of that palm, his body might as well have been rotten wood. With a pu sound, his body exploded into four pieces.

This was just too powerful! The others were trembling with fear.

Dang!

Another precious artifact descended while emitting light. In the end, it encountered the youth's simple and rough fist and was smashed apart. It turned into a rain of light before scattering down.

"You... who are you?" The leading expert was now thoroughly alert. This was just too weird. Even if the opponent was a heaven warping talent, he still shouldn't be this terrifying!

Shi Hao revealed his true appearance, purposely allowing him to see his real face.

"What? It's you?!" These people all shouted loudly. At the same time, they felt shock and fear.

The Void God Realm's devilish child? They immediately thought of many things. There were some rumors within the Rain Clan, with people making astonishing speculations about his background. At this moment, all of their faces paled, and they couldn't help but repeatedly step backwards.

At this moment, what these people were thinking about was not to immediately kill the opponent, but rather to leave as soon as possible. It was because this swamp was just too thick, and their fear was too deeply rooted.

"You all should know my identity, right?" Shi Hao's expression was calm as he said, "My grandfather has paid a visit to your manor, so how could the grandson not go as well? I also must follow in his footsteps."

All of the Rain clan clansmen were shaken. The Rain King Manor did have these speculations, but the overwhelming majority did not believe such a thing. However, this youngster had now said it himself!

"You are... going to go to our Rain King Manor?" Someone trembled and said.

“Correct!” Shi Hao replied in an extremely decisive tone.
