Chapter 311 - Public Declaration

“He is that devilish brat? He actually experienced such a tragedy? He... after so many years wandering around alone, where did he learn his abilities from?”

“Heavens, that’s the savage kid from the Void God Realm! His name is Shi Hao, and he was a member of the Martial Imperial Manor. This is truly unexpected! He actually experienced such bitter events?”

The Capital erupted into a commotion, and everyone was dumbstruck. The news disturbed the entire city. It was as if a meteorite had dropped into the middle of an ocean and whipped up heaven reaching tidal waves!

“What are you randomly spouting?! Are you trying to humiliate the Martial Imperial Manor?” Shi Zhonghe shouted at Shi Hao and refused to acknowledge the truth. If such news were confirmed, then it would become an unprecedented scandal.

His high-pitched voice reverberated in the empty air and spread far into all directions. The past event involved too many people, and it should have been sealed off as a taboo topic. Now that it was exposed here, the damage it could cause would be immeasurable.

“The deed is already done, so at least have the guts to admit it. I feel nothing but contempt for you.” Shi Hao said in a scornful tone.

“Young man, don’t speak without thinking. Old Fifteen’s grandson or not, you can’t say such nonsense without any thought.” Another man spoke, his eyes flickering, realizing that the situation did not look good for them.

The news was too astonishing to accept lightly, so who was telling the truth?

At this very moment, even those in seclusion within noble king manors were disturbed, let alone those on the main streets. The news was incredibly terrifying.

A natural born supreme being was such a remarkable title, and those who heard it could not help but tremble with fear when they recalled the records in the ancient texts.

If it were real, the Martial Imperial Manor would have been such a blessed place. They already had a dual-pupiled youth, and now, they were endowed again with a natural born supreme being. Such news would blow people’s minds!

The capital fell into a clamor and could no longer quiet down. A teenager had broken the long kept silence and revealed such a secret. The impact that resulted was like a meteorite smashing onto the earth. Every force in this place was utterly shaken.

“You have no sense of shame whatsoever!” Shi Hao commented in a low voice, but the people in the group felt like they had been slapped on their faces, and color drained from their faces.

Did they actually think they could keep it hidden forever? Shi Hao sneered. In fact, he was hoping they could speak more, so that the secret could be exposed to the fullest extent.

Shi Ziteng sighed and was utterly agonized by the situation. He had completely lost the calmness and easiness he usually showed to the outside world, for he had never expected himself to be forced into such a passive state. One word from this nephew of his was enough to raise an earthquake.

He asked himself if it was possible to cover it up and the answer was obviously no. Aside from the outsiders, even the Martial Imperial Manor itself was divided into two camps. Once those supporting Shi Hao stood up for him and helped him reveal the truth, everything would be out in the open.

The place he was forced into was nothing but a dead end. Shi Ziteng watched the scene with a chilly look on his face. They were in such a wretched state right now, and there was no way they could talk themselves out of it.

“Go on, tell everyone how I slandered you. Tell them all.” Shi Hao remained composed and watched them with a calm face.

At this moment, Shi Zhonghe and his people were full of anxiety as well. Nothing they did could conceal the truth. What other options did they have but to keep it down? They sighed to themselves in silence. They were too eager to justify themselves just then so they had put themselves in an inferior state.

The odds were stacked against them. Nothing they said sounded right, but their silence would be considered a tacit agreement. It felt as if they were being roasted over a fire, suffocating and unbearable.

“You are very vicious for your age.” Commented a middle-aged man. He obviously said this in a whisper without letting the outsiders hear it.

“I see. You are not ashamed of yourselves at all. What happened back then meant nothing to you and I am the one to be blamed. Ah, what exemplary conduct.” Shi Hao said in a sarcastic tone.

“We are all members of the Martial Imperial Manor, and you are a descendant of the Stone Clan yourself. Even if the clansmen had wronged you, they do not deserve to be treated so ruthlessly. Have you ever considered how the clan will keep its foothold in the Capital after what you have done today?” Asked an old man.

“Hao’er, what we did back then was wrong, but it has already happened and lingering in the past can not solve the problem. What we should do now is work together and make this bloodline more prosperous.” A middle-aged man standing beside Shi Ziteng also tried to persuade Shi Hao with such words.

These speeches were only audible to those inside the manor. They could not afford to speak aloud.

They had no choice but to calm Shi Hao down. They were trying to persuade him to let go and to stop mentioning what happened in the past. In that way, there was still a chance that they could still keep some dignity in the Capital.

“Weren’t you all acting overbearing just now, denying everything I said? Moreover, you even said that I didn’t have any conscience when I spoke and that I am humiliating the Martial Imperial Manor. How could your attitudes change so fast?!” Shi Hao asked.

"This..." The group of people were shocked and angry at the same time. Their faces all became thoroughly red. This slap to their faces made them feel incomparably awful, and the anger they felt inside was burning their hearts.

At this time, an elder walked over. He had white hair and beard, and his steps were unsteady. He was precisely the Shi Yuan who was crippled by the Great Demonic God. While staring at Shi Hao, his mind was extremely complicated.

The child from back then actually survived. This was truly a miracle!

He sighed softly and said, "Your aunt has already been executed. The events back then are irrevocable, but you, Hao'er, are still the pride of my clan. If you return, you can inherit the title of Martial King."

"That year, I was not within the clan either. After obtaining the news, I was also furious." In the end, Shi Ziteng also spoke, no longer remaining silent. "The things that happened back then are truly heart-breaking, but in the end, some people were dealt with. Child, the clan has let you down, but please do not let the hatred consume you. Everything was done to make my Martial Imperial Manor more glorious."

He was extremely straightforward. His voice wasn't loud, but it was still loud enough to transmit throughout the city. This shocked everyone.

The death of Shi Yi's mother back then had always remained a mystery. There were many guesses, but after hearing Shi Ziteng's words, they learned that she was actually executed. Was this placing righteousness before family? It moved everyone greatly.

"Hao'er, there are some within the clan who have truly crossed the line. Their tone truly isn't right, but they also want my clan to prosper and do not have any ill intent. I am not asking for your forgiveness, but I hope that you won't hate us too deeply. Come back to the clan, okay?" Shi Ziteng seemed extremely down to earth as he spoke.

Shi Hao was astounded. This uncle of his was truly formidable. He didn't act out from beginning to end, and as soon as he spoke, it sounded like he was considering everything from a general perspective, as if it was all for the clan.

"That aunt gouged out my supreme being bone, but at first, she wasn't punished at all within the clan. It was my father who personally killed her after returning to the clan. The clan wants me to return? Back then, do you remember how you banished my father? After that, you all even worked together with the Rain Clan to pursue him into the western border. Meanwhile, when my grandfather returned to ask about what happened back then, why was he then blocked by you guys? Why did you all fight against him?" Shi Hao's voice was soft, but it still transmitted into the outside world!

This created an uproar. Shi Ziteng admitted to what happened back then, yet this child began to expose even more secrets.

"No wonder he wanted to tear apart the Rain King Manor. He actually had so much anger pent up inside."

The outside world could no longer calm down. With the scandal of the Martial Imperial Manor released, it made everyone tremble. A natural born supreme child actually had his symbol bone seized; it truly was rather lamentable.

However, everyone quickly realized that the one who took the leading role this time was the devilish child. He was that savage youth, yet today, he was... a supreme youth!

He opened ten heavenly passages and swept through everyone in the Void God Realm. He emerged as unrivalled within his cultivation realm!

"Heavens, we almost overlooked something. After losing his supreme being bone, not only did he survive, but he is still this powerful. It is just too heaven defying!"

"If he didn't lose that bone, then how powerful would he become?"

When everyone thought of this question, no one could calm down. Their minds were chaotic. This was all too ridiculous.

At the same time, many people sighed with sorrow. This youngster really wasn't simple! He was originally on his deathbed, but he ended up growing up and reaching such a state.

"Hao'er, what are you trying to do in this manor?" Shi Yuan couldn't help but ask.

It was because the more they talked, the more the events from back then were revealed. They couldn't settle the problem at all, and the outside world now instead completely understood the truth about what happened.

"The reason I am here is to announce to the world that I am still alive. I hope that my father, grandfather, and others will no longer worry."

"Father, mother, where are you guys? I am still alive in this world!"

"Grandfather, you don't need to feel dejected over the death of your Hao'er anymore. So what if I lost that bone? I will still move unrestrained under the heavens!"

Shi Hao roared loudly, revealing everything to the world. He hoped that the events that shocked the capital today would spread everywhere and allow his mother, father, and grandfather to know that he was still alive and well. He wanted to tell them that he was a supreme youth!

No matter what people said or thought, today, Shi Hao's name was destined to become one that was focused on. He became a well known figure in the capital.

Now, they finally knew where the savage child came from. They now knew about his background, that he was a youth that rose despite losing his supreme being bone. It greatly astonished everyone.

"Hao'er, what are you really trying to do?" In the end, Shi Ziteng stated frankly. His face was no longer calm, but filled with a bit of cold intent instead.

There was a wave of killing intent within him, but it was being carefully controlled. He had already wanted to take action for the demonic spider in the Green Wood Garden, and now that something like this happened, he found it really hard to hold himself back.

However, he still did not allow himself to explode. He did not want to have a complete falling out with the people here.

Shi Hao laughed and said, "Uncle, I wonder if I can give some advice?"

When these words were spoken, the Martial Imperial Manor's atmosphere completely changed. He said 'advice', but it could also be interpreted as a threat!

"Hao'er, we are one family. How could we take action?" Shi Ziteng calmly said. His face was full of conflicting emotions.

However, when he saw Shi Hao's smile yet not a smile, his mind trembled. This youngster had completely seen through his thoughts.

"Uncle, let's go for a round. Let's grant your wish and fight to the death!" Shi Hao said.

"You child..." Shi Ziteng shook his head. He seemed to be sighing deeply.

"Shi Hao, you're crossing the line. No matter what, he is still your uncle. If you feel wronged, then you can speak to us. However, this isn't too good, right?" Shi Zhonghe said.

"You want me to speak reason? Then fine. All of you guys should willingly be executed based on the family law. Are you all willing?!" Shi Hao was absolutely ruthless as he loudly berated.

Shi Zhonghe's face immediately became gloomy. "Since it's like this, then I will accompany you first."

He did not want Shi Ziteng to take action first, because he heard that this youngster was quite extraordinary. He wanted to test the waters.

However, when he saw that Shi Hao's body began to flicker with dark light after merging with the Imperishable Golden Body, he immediately felt that something was wrong. He immediately ordered, "Activate the great formation."

"I want to see who dares!" The Great Demonic God's old brothers spoke and cast their cold gazes over everyone.

Shi Zhonghe gasped and did not say anything anymore. His hand shook and a formation was activated. It was formed from beast bones, and the pieces densely covered the sky, trapping Shi Hao within.

Shi Hao moved his sleeves and a stone box appeared. As metallic sounds rang out, eight flying swords flew out in succession. They were only the length of a palm, but they were sparkling and transparent. Their appearances were completely different, but they all hacked forward.

"Eight Vicious Swords Formation?!" Everyone gasped.

Chi

Sword qi weaved left and right, quickly hacking those beast bones into pieces. The sword formation destroyed the opposing great formation, and those symbol bones were completely shattered.

Shi Zhonghe took action again and brought out other precious artifacts to attack Shi Hao. A great battle unfolded.

Unfortunately, this wasn't an ordinary youngster. After merging with the Imperishable Golden Body, he was equivalent to a noble king. After Shi Hao brought out the Heaven Transforming Bowl, auspicious light dispersed outwards. With a hu sound, Shi Zhonghe was sucked inside.

"Should I feed you to the spider or just kill you?"

The little bowl appeared within Shi Hao's palm, and Shi Zhonghe was currently crying out inside. Strand after strand of multicolored lights were moving about the entrance of the bowl.

"Don't!" There was fear within Shi Zhonghe's heart. He didn't want to die.

"Then I'll just leave you with your life. Watch quietly how the people who gouged out the supreme bone fights against a heavenly deity," Shi Hao said.

Multicolored light flickered about the entrance of the bowl, and several streaks hacked down towards Shi Zhonghe. Strands of green energy were being emitted from the top of his head. The symbols around his abdomen became dim, and his cultivation was ruined.

The small bowl turned around and tossed him out onto the ground.

In such a simple manner, one of Stone Clan's old ancestors was dealt with.

"Uncle, why don't we fight?" Shi Hao said.

"Since it's like this, then uncle will exchange some pointers with you to see just how powerful you, the supreme youth Hao'er, really are. I want to see how you compare to your brother." Shi Ziteng spoke before taking large steps forward.

Chapter 312 - Battle Against Shi Ziteng

Shi Ziteng was a tall man. Black hair hung loosely from his back, and his porcelain white skin looked as smooth as jade. With his piercing eyes and handsome appearance, those who did not know his age would easily mistake him for a young man.

Even after his long years of cultivation, his appearance did not decline and remained the same as when he was young. It was evident how extraordinary his power and talent was.

"Come, Hao'er. Show your uncle how extraordinary you are. Let the world know that our clan is thriving. Why don't you demonstrate your power to us?"

Shi Ziteng had been studying under the Demonic Spirit Lake for all these years. He had kept a low profile and was not well known to the outside world. However, those who knew him well knew how intimidating he could be. Once he made his move, someone would definitely die.

Shi Hao was just over thirteen, but boys of this age were old enough to marry and have children in the great wastelands. His figure was tall and slim, not much shorter than a grown-up. He had dense black hair, big, bright eyes, and he walked with a majestic gait.

The two entered the martial arena, which was protected by formation patterns to keep the battlefield from being destroyed. Otherwise, when people of their cultivation level began to fight, the place would fall into disaster.

Shi Hao stood solemnly and steadily in the arena, almost appearing too graceful and calm to be a teenager. When he entered a state of battle, he acted more level-headed than those with decades of cultivation.

Opposite of him, Shi Ziteng's expression was neutral. His every act seemed to fit right in with his surroundings. There was almost a rhythm to his movements, as if he had descended from another world.

"Fight!"

The two seemed to have moved into action simultaneously at the shout, both charging forward. Shi Ziteng waved his wide sleeves, and a bellowing hurricane started, blanketing heaven and earth. Sand and stones were blown up high into the air, and many palaces were about to be blown into the skies.

Fortunately, around the arena, rays of lights appeared one after another and sealed the place off, saving this place from any further damage.

However, the situation within the arena was a completely different story. A sandstorm blew fiercely, making earsplitting wuwu sounds. Shi Ziteng's wide sleeves expanded, and what seemed to resemble an endless stretch of clouds descended from the sky to cover the world.

"World Trapping Sleeve!"

All those watching were greatly surprised, for that was a mighty divine ability created by an extraordinary human deity in the past. It was not in the possession of the Demonic Spirit Lake, hence it did not take them long to realize that Shi Ziteng must have seized some great fortune.

As the enormous sleeve widened to cover up the entire sky, it also tried to wrap Shi Hao inside. Once inside, it would be nearly impossible to escape. It was an entirely different world inside the sleeve, and Shi Ziteng could take lives as he pleased.

Shi Hao also took action, and a pair of golden Flood Dragon Shears appeared in his hand. After being activated, they turned into two golden flood dragons that raised their heads and roared into the sky.

The two flood dragons were joined at their tails. As their bodies slid past each other, a hurricane was stirred up, leading Shi Hao out from that great sleeve. He was not trapped inside.

The crowd was greatly disturbed. The battle had just begun, yet they were already seeing such remarkable divine abilities. It was truly a shocking sight.

"Ziteng had cultivated well into the Noble King's Level!" Shi Yuan smiled. This was his own grandson, and he even produced a dual-pupiled child. This fact made him incredibly satisfied.

Shi Hao was startled. This uncle of his was quite formidable, possessing a fighting strength that was exceptional within the noble king level. He was definitely among the top-ranks, and Shi Hao understood this just from that single exchange that they had.

"Be careful, Hao'er. I won't go easy on you just because I'm your uncle," said Shi Ziteng. A streak of scarlet light flickered deep inside his eyes, and the aura around him erupted suddenly. His fair and translucent skin became even more jade-like.

It was apparent that he was moving with killing intent. This child had shaken him greatly. This was a child that was barely over ten years old, yet he was already this terrifying. What kind of level would he reach once he grew up?

One dual-pupiled individual was stunning enough. They didn't need another supreme being here!

"You talk too much, uncle. Hurry up and make your move!" Shi Hao said.

He turned into a flash of light and charged forward. Behind him, a vast ocean undulated and caused a Black Tortoise to emerge. Its enormous black body gave off a striking pressure as it crushed down on Shi Ziteng.

Shi Ziteng released a soft shout as his hair flapped in the wind. The sound of vibrating weapons sounded behind him, and an array of divine swords formed by symbols emerged. With earsplitting metallic sounds, they flew forward while wrapped in resplendent lights.

It was a collection of swords that were arranged in an orderly manner. There were exactly thirty-six swords, and they all stabbed down tightly packed together.

A rumbling sound that was loud enough to overturn heaven and earth sounded. It seemed like a giant prehistoric beast was turning over as the ocean behind Shi Hao undulated. The Black Tortoise dashed out of the water. Its enormous body blocked in front of Shi Hao while releasing symbols, melting many of those divine swords.

The Black Tortoise had such an gigantic body that its every movement was accompanied by rumbling sounds. It collided with numerous symbols and swords while ringing with metallic sounds.

After that, the Black Tortoise spun and turned into a shield that was inscribed with turtle patterns. With a series of keng qiang sounds, it shattered all the symbol-turned swords, demonstrating its stunning defense ability.

"Good!" Shouted Shi Ziteng. He dashed over with tremendous speed, and a ferocious struggle unfolded.

He made an immediate downward strike with his open hand, and incessant flames immediately radiated in his palm, as if lava was gushing out of his hand. A Golden Crow soared high into the air and spread its wings, ready to pounce.

This was the embodiment of a precious technique that was cultivated to the point of perfection. Shi Ziteng was no longer limited by any paths, and any move of his would exert a divine ability to its full extent. This great divine ability was condensed into a single palm.

This was the precious technique of the Golden Crow!

Shi Hao was fearless. His right fist smashed forward and purple lightning exploded. Endless symbols erupted into existence, as if the sky was ripped open. The force was terrifying.

A Suan Ni burst out from his fist. As it shook its head and waved its tail, resplendent light surrounded it, making it seem vivid and alive. It then collided into the Golden Crow.

What started as a confrontation between fists and palms had turned into a battle of precious techniques. It was what a battle between mighty experts should look like. Each movement contained the profound meaning of symbols, with the prowess behind them being almost unfathomable.

Peng

Eventually, Shi Ziteng and Shi Hao's fists collided together. A Golden Crow cried out, defeated in midair. Meanwhile, a blazing Suan Ni roared and also exploded on the spot.

Shi Hao was shocked. His opponent was extremely resistant, possessing a protective artifact that emitted resplendent symbols. It continuously released waves of divine force to shatter his fist.

A brilliant radiance erupted between the two, and they both flew in opposite directions. n--OVeIBIn

Shi Hao seemed completely unaffected by this clash. After combining with the imperishable Golden Body, there wasn't much difference between him and a noble king. He was shockingly powerful.

Shi Ziteng's gaze was ice cold. The protective artifact in his hand could make the power of his palm to rise exponentially to destroy his opponent almost instantly. However, he never expected his opponent's body to be so terrifying, reaching a level that shocked even him. He wasn't able to accomplish his goal at all.

Just like that, an incredibly intense battle broke out between the two. They continuously attacked each other, causing light to erupt again and again. The two figures flew about and moved with lightning speed.

Dang

Shi Hao dove down, like a Kun Peng spreading its wings. His entire body was brilliant, and golden feathers that carried black streaks appeared one after another. He descended from above to kill Shi Ziteng.

Chi

Shi Ziteng did not move, as if he was resting on the ground. However, at the crucial moment, his two palms slammed upwards. Moreover, behind him, a terrifying hook appeared that was scarlet and glistening.

He blossomed with dazzling light, and symbols circulated around him as he constructed a creature. It wrapped around his body just like a Heavenly Scorpion, making it seem as if his body was within the scorpion's body.

The bright red tail was the embodiment of this precious technique. The strange stinger extended from the flesh during this fierce battle and pierced out with great precision.

Dang!

The Heavenly Scorpion and Kun Peng collided together, and this collision was incredibly ferocious. The scorpion tail was just too sharp as it extended straight towards Shi Hao's forehead with an overwhelming force. Shi Hao used the Peng wings to defend himself, and as a result, symbols erupted. It was as if the heaven was falling and the earth was splitting apart.

Pu

Shi Ziteng was sent flying. There was a look of surprise on his face, and there was even blood at the corner of his lips. During that attack, he suffered the Kun Peng's pressure and was blasted away.

He stared at Shi Hao, but didn't say anything.

Shi Hao felt a shiver. Even though he didn't use the complete Kun Peng's technique, he still comprehended quite a bit during this period of time. Its power was too shocking! Could it be that Shi Ziteng saw through something?

Everyone was astonished. Shi Ziteng was surprisingly the one that got injured. During the exchange just now, he seemed to have received some small damage.

Outside, many people used the precious artifacts to soar into the sky and watch the fight from a distance. When they saw this scene, they were also frightened. The savage child who was known as the supreme youth was truly formidable.

The battle continued, becoming even more fierce. This time, once the two sides separated, while they were rushing towards a different direction, a sparkling thread that was sharper than a divine spear soundlessly passed through the air and pierced towards the back of Shi Hao's head.

Shi Hao felt ill-at-ease. The skin on the back of his head felt a numb, and he quickly dodged. A transparent thread that was thinner than hair flew past and continued to go after his head. Some of his hair was sliced off and stuck to his face. The terrifying wind that it carried actually left a cut on his cheek, causing beads of blood trickled out.

"Spider Silk of Ascension!"

Shi Hao spoke softly. He wanted to defeat that archaic demonic spider, and as a result, he comprehended many of its divine abilities. This was definitely a type of assassination tool. It was noiseless and impossible to defend against effectively.

Even though it was just a single thread, it was incredibly sturdy. It was incredibly powerful and could pierce through precious artifacts in a swift and agile manner.

From the attack just now, if he had been just a bit slower, his brain would have been pierced. This sharp and terrifying thread was constructed from symbols.

Blood had been drawn from both sides, but neither of them were truly injured. Shi Hao, in particular, only had an external scratch. After wiping away the blood and a flash of light, the wound closed up by itself.

"Uncle, those kinds of tricks won't be able to kill me."

"Nephew, why would you say such a thing? Do you think that uncle isn't giving it his all? Then let me show you a bit," said Shi Ziteng. The cold light in his eyes began to burn even brighter.

Within kengqiang sounds, multicolored light scattered everywhere and lit up this area. He brought out a set of scarlet plate armor that was divided into ten pieces. It quickly descended onto his body and combined together. It covered him completely.

Everyone's gaze became a bit blurry, because the scarlet armor shone like a multicolored sunrise. They were just like divine armor. Moreover, the shape was rather strange, as there were several extra spider legs on both sides.

At this moment, Shi Ziteng looked just like a great humanoid spider. Moreover, there was a scarlet halberd in his hands, giving his heroic appearance a tint of malevolence.

Shi Hao brought out a precious artifact to test the waters. It was an unordinary dagger bought from the Green Wood Garden, and it was extremely sharp.

Chi

Shi Ziteng brandished the Sky Art Halberd, and its scarlet blade sliced past. The dagger was immediately cleaved into two, and it exploded into pieces of the symbols soon after.

Everyone was astonished, and they all focused their attention on that precious artifact. This Sky Art Halberd was definitely not ordinary. It was just too sharp, and the power of its symbols was even more outrageous.

"Nephew must take care." Shi Ziteng coldly said.

"Uncle, your halberd is not bad. Why don't you give it to me as a gift?" Shi Hao said. His eyes flickered as he stared at that scarlet halberd.

"If you win, then I'll give it to you," Shi Ziteng said. He held the halberd with a single arm and pointed it at Shi Hao. Wave after wave of killing intent immediately erupted, covering the sky and hiding the earth!

At this moment, an extremely cold atmosphere filled the Martial Imperial Manor. Many people were shivering in fear, and the experts that watched from the sky were also shocked. This precious artifact was formidable and definitely unordinary.

"Perfect, I just happen to be missing a heavy weapon. I thank uncle in advance." Shi Hao walked up and prepared to take action.

"Talk after you defeat me!" Shi Ziteng made his move. The great halberd descended like a streak of bloody lightning. At the same time, it was like a boundless river of blood as it fell from the sky and released a heaven overflowing killing intent!

Chapter 313 - Defeat

Shi Hao dodged. The blood-red halberd moved swiftly and violently like lightning, immediately blowing up a gust of strong wind. The wind was so strong that everyone's faces began to hurt.

With a weng sound, Shi Ziteng struck again. Scarlet clouds filled the sky and blood-red lights erupted like tidal waves. The heavenly halberd had accumulated so much ferocity over the years that its aura alone was vicious enough to make some younger cultivators collapse.

Shi Hao turned sideways to evade the shining halberd blade before charging forward fiercely. He summoned the Suan Ni precious technique again, only this time, it was not a single Suan Ni but a pride of them. They were the size of small mountains, and with wild and tyrannical appearances, they dashed forward together.

“Flood of Thunder Beasts?!” Exclaimed someone. To be able to wield the precious techniques to such an extent was incredibly amazing, because the power was equivalent to ten Suan Ni precious techniques together. The lightning turned into a vast sea, and the Suan Ni beasts moved in a pack to smash into their enemy like falling mountains.

Shi Ziteng was taken by surprise and did not reach for his halberd. He uttered a long roar and spurted out a silk-like substance endlessly. These were symbols that resembled rivers of stars, and they created the demonic spiders’ precious technique.

Shi Ziteng managed to block the Suan Ni herd with this technique, but all the silk sashes collapsed with a rumbling sound, stamped to the ground by the enormous Suan Nis. Lightning crisscrossed in the sky, filling the air with scorching heat and resplendent light.

Shi Ziteng summoned the precious technique again. Although his arms were wrapped inside the scarlet metal armor, a wide sleeve still miraculously emerged out from thin air. With a powerful sweep, all ten beasts were surrounded by the sleeve.

World Entrapping Sleeve!

This type of great divine ability was not exerted through an actual sleeve, but one that he created himself. Once it began to manipulate space, he was no longer connected to it.

Lightning flashed and thunder rumbled as the ten Suan Nis roared inside the giant sleeve. At last, with a loud bang, the entire sleeve made from symbols exploded and turned into a sparkling rain of light before disappearing into thin air.

Shi Ziteng’s body shook violently, but he soon steadied himself. He struck down again with that blood-red-lightning-like halberd with a shua sound. Moreover, numerous symbols surged this time while being accompanied by the roaring sound of a dragon, startling everyone.

Shi Hao was taken by surprise. He evaded the blade and used his palm to forcefully block the great halberd. A great scarlet dragon rushed out of the halberd and threw itself at him.

It was as vivid as a live dragon, and this was exactly why this treasured artifact was so terrifying. It did not look like a flood dragon, but rather a true dragon. It possessed a majestic appearance that was similar to how a king looked down upon his vassals.

Shi Hao’s fingers and palms moved about continuously trying to complete the Kun Peng imprint. He then smashed forward with all his efforts. The impact shook the place violently, and the great dragon was dissipated.

“Dragon Blood Precious Weapon!”

The crowd was astonished, because they finally realized why this great halberd was so exceptional as well as what the shocking aura around it was. It had been stained by dragon blood.

“That halberd is incredibly formidable, and I’ve heard about it before. With some great luck, it happened to be touched by a drop of dragon blood, and the entire halberd has since then become scarlet red. When the incident took place, the entire sky was filled with multicolored red clouds, and its great power was created then,” explained an old man from the distant sky.

What was most precious about this treasured artifact was the material it was made from, which had the drop of dragon blood mixed in, hence the name “Dragon Blood Halberd”!

The two resumed their battle. The crowd was dumbfounded when they saw Shi Hao take out a gray-colored pottery bowl and holding it in his palm. He then dashed outwards just like that.

Shi Ziteng’s brilliance and prowess was unparalleled. However, the teenager was taking a bowl into the battlefield. Such contrast baffled all those who watched the scene. The crowd was aware of the fact, though, that the power of a weapon had nothing to do with its shape and form. That bowl could very well be a rare precious artifact.

Qiang!

The great halberd struck down, and the sky trembled with it. That blood-red true dragon rushed out again, its chanting sound disturbing the nine heavens. Its enormous body looked especially frightening.

Shi Hao raised his hand, and the small bowl spun in a circle of auspicious multicolored light. The bowl then turned into a black hole and started to suck everything in violently; it was trying to drag the dragon in.

Bo!

Eventually, the symbols were blasted away and the dragon was broken into pieces, disappearing again. The outcome was unexpected, and that bowl was indeed no ordinary object. The divine power it possessed was unimaginable.

Shi Hao was pleasantly surprised as well. Ever since he broke the seal on the bottom of the bowl with the broken sword, it had been demonstrating its exceptional power. The base was cast from some type of divine material, which possessed an amazing secret symbolized power.

Dang!

The great halberd lunged at Shi Hao. The small bowl flew up and took in the tip of the blade, blocking this great attack.

A series of dingdang sounds sent sparks flying, and an incredibly fierce battle followed. That great halberd struck and attacked unceasingly, but the small bowl would always find a way to block it. The rim of the bowl was also glowing as it tried to devour the halberd and melt it down.

It was an incredibly shocking scene. The pottery bowl was indeed remarkable!

In the distant sky, the owner of the weapon shop was thumping his chest and stamping his feet with great regret. He was none other than the one who sold Shi Hao the small bowl in the Green Wood Garden, but had failed to recognize the peculiarity of the bowl previously. He now knew how unusual the item was, but it was too late.

Shi Hao fought ferociously against Shi Ziteng, who was a mighty enemy. The two collided violently with each other, but suddenly, all the metallic spider legs on Shi Ziteng’s armor flipped out, as if a human-sized spider was going mad. A resplendent light surrounded him.

The situation was most critical, and Shi Hao backed away at top speed. The spider legs brushed past his body and left behind afterimages. A few bloodstains were also left on Shi Hao's body.

"Nephew should be careful!" said Shi Ziteng.

Shi Hao's ten heavenly passages opened with a hong sound and surrounded him like a divine circle. His aura was immediately strengthened, and the entire place was almost locked down at once.

Shi Hao charged and swept out his leg, kicking at Shi Ziteng's head. Shi Ziteng's head would surely split open if he took the hit.

Shi Ziteng let out a ferocious shout, and his entire body illuminated, enabling him to break loose through brute force. The Dragon Blood Halberd even uttered the roar of a dragon, drawing him away backwards.

However, his movement was affected after all, and Shi Hao's spatial lock worked. With a peng sound, Shi Hao's foot landed on his shoulder and sent him flying sideways into mid-air.

"Be careful, my dear uncle." Shi Hao said from behind. However, he was actually secretly surprised inside, for his opponent managed to evade his confinement, which was a rather difficult task.

Hearing this, Shi Ziteng's face darkened and he spat out a mouthful of blood. His shoulder felt like it was broken and a seething pain was coming from where he was kicked.

He steadied himself and images emerged around him one after another. Beasts such as Golden Crows, flood dragons, Bi'ans and demonic spiders circled around him. They all gave off endless light, giving him the aura of a fiend.

Shi Ziteng was infuriated. He exerted all of his power to raise his fighting capability, and he also summoned all of his spiritual bodies.

Shi Hao howled, and a Black Tortoise, Suan Ni and Kun Peng emerged beside him one after another. However, the Kun Peng was concealed by him, for such unparalleled divine ability would bring him a world of enemies if exposed it in front of such a huge crowd.

Apart from the beasts, there was still the humanoid being, bell, pagoda, sword and cauldron that all materialised. He did not have enough precious techniques at the moment, so these items created from symbols were used as temporary replacements.

"Kill!"

Shi Ziteng roared and struck down with the heavenly halberd in hand. It brought with it an incredibly vicious aura that seemed nearly unstoppable.

Shi Hao snorted coldly and opened all ten heavenly passages. They were as brilliant as a sun. All the bells, cauldrons, pagodas and other objects around him also charged forward.

The blood-red light surged abruptly with a weng sound, and the great halberd attacked in a shockingly aggressive manner. Flaming red clouds ignited all over Shi Ziteng's body as he competed against the teenager. The two sides faced each other with incredible ferocity.

At this point, Shi Hao started to use the symbols from the True Primordial Record. By performing it through the most common bone texts, a power began to emerge, which could turn the foul and rotten into something miraculous.

Now that he had comprehended more of the secret text, he realised how stunning they were. The images of the divine battles were being recreated inside his mind, enabling him to understand everything more thoroughly.

Following that, as Shi Hao waved around his hands, he somehow entered a state of meditation unintentionally and harmonised with the rhythm of heaven and earth. It seemed as if he was comprehending something, but it was all extremely natural.

Inside the True Primordial Record, images of a Golden-Winged Peng slaughtering the deities and the True Hou shattering the moon with its roar continuously played through Shi Hao's mind. Without even realizing it, he unexpectedly began to display this kind of grandeur.

Shi Ziteng was taken aback. He could sense the aura of the teenager on the other side had changed to that of a savage wasteland beast. It almost seemed as if his opponent was wild enough to shatter mountains and rivers with his roar and powerful enough to grab the sun and the moon.

As the ten heavenly passages illuminated, their power of confinement reemerged. Shi Hao released a sudden, long roar and smashed forward with a fist. Shi Ziteng was astonished and enraged at the same time, for he felt like he was trapped within a quagmire and unable to break away.

Hong!

In the end, his body shook violently as he let go of the heavenly halberd in his hand. He was swept sideways into the air as he coughed out large mouthfuls of blood.

Chi!

Shi Hao turned into a ray of flashing light and pursued him. He picked up the great halberd and struck out fiercely.

"What..." The crowd's expression changed drastically. They did not understand how the great halberd changed hands so fast.

"Aohou..." A Suan Ni roared and stepped forward to take the halberd head-on in its master's place. However, it fell under the blade with a chi sound, and Shi Ziteng lost one of his spiritual bodies.

Shi Ziteng bellowed angrily and steadied himself. He finally managed to stop his declining state and continued to fight.

"Thanks a lot, uncle." Shi Hao said with a smile as he held the Dragon Blood Halberd in his hand. He wasted no time in refining the weapon and had already wiped away the imprint of its last owner.

Shi Ziteng's face was overcast. Seeing that his precious weapon had been seized, he wiped away the blood on the corner of his mouth and snorted in contempt.

The crowd erupted into a clamor at the turn of the events. Shi Ziteng was a mighty expert of the noble king level, yet he had now been robbed of his weapon by a teenager and was spitting out blood. Everything that had happened was simply mind-blowing.

“Let’s just fight then!” Shi Ziteng was maddened with rage, and his manner had changed completely.

Circled by twirling scarlet clouds, he glared at Shi Hao with his terrifying eyes. He now resembled a human-shaped giant spider. The spider legs on his armour waved together, turning into multiple halberds as they thrust forward.

Meanwhile, all his spiritual bodies acted simultaneously as Shi Ziteng himself performed precious techniques like the ‘World Entrapping Sleeve’. The scene was exceptionally stunning.

He was going berserk. The human-sized spider was in a frenzy as various symbols flickered and treasured lights coiled up ceaselessly, making him look almost like a fiend.

“No wonder all of Shi Ziteng’s old enemies were killed. When he goes berserk, he actually becomes this terrifying!” Many people were whispering.

Shi Hao knew that he could not afford to be careless now, because he knew that he was facing off against a real enemy. This fight was intense, and it was going to become a bitter struggle. This uncle of his was a rare genius and an exceptional, mighty expert!

They two expanded their battlefield from down in the ground to up in the air. They disappeared into the clouds and came back to the ground again. Every corner of this place was a part of their battlefield, and their figures were all over the place.

“Go to hell!” Shi Hao bellowed. He too had gone mad and was now waving the halberd wildly like a demonic god. After killing two spiritual bodies of Shi Ziteng in a row, his original form was also injured.

Kacha

Shi Hao cut off one of the spider legs on Shi Ziteng’s armor. Although the armor was of a similar color to the halberd and was also circled by scarlet clouds, the armor had never been touched by any dragon blood.

In the end, after several hard blows from Shi Hao, the halberd swept across the sky and almost cut Shi Ziteng in half. Shi Ziteng was covered in blood, and his armor was shattered.

Peng

Shi Hao stamped on Shi Ziteng’s chest, and the armor was now completely broken into pieces. Although he managed to guard himself against the attack, Shi Ziteng was still kicked away. He slumped onto the dusty ground.

However, he did not stay down, but raised himself back into the air immediately to fight back.

Hong

This time, Shi Hao spread out his arms and a giant black hand emerged in the sky. It then smashed down hard, as if a stretch of dark clouds were pressing down. The hand then devoured Shi Ziteng completely.

Peng

The giant hand had now covered Shi Ziteng completely and slapped him onto the ground for good. Smoke and dust were stirred up and filled the air.

“Shi Ziteng has been defeated!” The crowd sighed. The prodigy had lost to his nephew, the supreme youth.

Shi Hao raised the great halberd in preparation for the last strike.

Just then, heaven and earth were disturbed as a terrifying magical power emerged. Energy overflowed in violent fluctuations, shaking the entire Martial Imperial Manor. The archaic demonic spider had arrived!

Chapter 314 - Unable to Fight

The great spider from the Demonic Spirit Lake had arrived. As expected, it came over at the crucial time. The entire sky was covered by dark clouds, startling the entire capital. Its divine might was incredibly far-reaching!

The great halberd in Shi Hao’s hand was raised, but it did not descend. Ferocious divine might undulated through the space around him, and he was under even greater pressure.

Below, Shi Ziteng’s face was completely pale. When he saw the heavenly disturbance, a flush of color returned to his face. He knew that this was the true body of the demonic spider. Once it took action, there would be no hope for those at the noble king realm. They would inevitably be crushed.

The entire capital became quiet as all sound vanished. The pressure here was absolutely crushing. An enormous spider appeared in the sky that was even larger than a mountain. It was malevolent and intimidating.

For the common people, this scene was just too horrifying. It was the same as seeing a Demonic Deity that descended from above. Who would even be able to oppose such a great archaic spider?

Forget about when it went berserk, just its aura at the moment could crush through everything. It could smash all the palaces and buildings into powder. Its mountainous body towered above everyone, as if an expert from the archaic era had revived!

Its gaze was extremely cold as it swept through everything below. He looked at Shi Hao with a shred of contempt. “Supreme youth? You would only be able to act so arrogant while you are still young. If you die early, then you would become nothing. Everything would vanish into thin air.”

Those ice-cold words, that mountain-sized body, as well as those endless fluctuations made the people below shiver with fear. They all felt like they were going to collapse at any moment.

The great demonic spider’s words were overbearing. Those words were equivalent to pronouncing the death sentence of that youngster, not giving him the chance to mature. It made everyone’s hearts tremble greatly and feel pity for Shi Hao.

This was originally a heaven warping genius, but in the end, he shone too brilliantly and brought about his own demise. Many people shook their heads in regret.

Shi Ziteng stood up. His expression returned to normal, and he wiped away some blood from his lips. He knew that everything was going to end here, because even if the Great Demonic God arrived, it would still be useless. This time, the true body of the archaic demonic spider had arrived.

“Demonic spider, have you forgotten that this is my capital? You’ve come to offer your birthday congratulations and develop friendly relations, which I welcome. However, I do not wish for you to cause a bloody disaster.”

A calm voice transmitted over that originated from the imperial capital.

Everyone was shaken. Even the Stone Emperor was stirred up, speaking words to intervene!

Everyone trembled inwardly. If these words sparked conflict, then it would be extremely terrifying. If those two experts fought, just how great would the external effects be? It was difficult to predict.

However, there was something that everyone was sure of. Once the battle started, if the Archaic Demonic Spider sucked in a breath, devouring thousands to tens of thousands of people wouldn’t even be a problem!

“Stone Emperor, I am merely reprimanding a human lightly. A youngster like this even dares to offend my Demonic Spirit Lake and imprison my people, so do I not have the authority to discipline him?” The archaic demonic spider spoke.

Within the capital, it still felt a bit of restraining fear. It knew that the Stone Clan had existed for a long time, and that once the Emperor Palace’s killing formation was activated, even a supreme expert would suffer.

Moreover, the human emperor himself was powerful enough. Sitting in a position like that, he had the entire country’s resources at his disposal. Like a sacrificial spirit, he had the fortune to undergo baptism under divine fire, so his cultivation was deep and immeasurable.

“He is a member of my Stone Clan, so if he has wronged you in any way, please allow me to discipline him. Demonic spider, there is no need for you to say anything else.” The voice from the Emperor Palace was imposing as it echoed through the skies.

At this moment, the various powers were all surprised to see the Human Emperor speak up like this himself. This was an act to protect and assist Shi Hao.

The crowd was full of wonder and astonishment. Did the Human Emperor see through his natural talent? Shi Hao was able to establish ten heavenly passages and rise to such greatness even after having his supreme being bone gouged out, surpassing all expectations. It was likely that he would rise and join the ranks of the divine.

The demonic spider did not say anything but instead descended. An enormous spider leg that was like a heaven supporting pillar dropped down onto the Martial Imperial Manor.

Hong!

Suddenly, a golden sun appeared. It filled the heaven and earth, shaking the capital to block in front of the demonic spider. It made it so that the spider leg couldn’t help but retract.

The Human Emperor displayed his might!

Below, Shi Hao cried out bitterly inside. In reality, he didn't want the human emperor to take action and wanted that demonic spider to come down. He was going to use one of the small pagoda's 'great power.'

Who would have expected the Human Emperor to descend at that time? Was it an act of cherishing talent? He actually blocked the demonic spider.

However, he couldn't blurt these things out and could only express his gratitude. Otherwise, the demonic spider would definitely become vigilant. Even though he had the small pagoda in hand, he still wouldn't necessarily be able to completely eliminate the spider.

"I hope that you will not take action and refrain from drawing blood here." The Human Emperor's words were extremely calm, but it made the souls of others tremble. There was a type of overbearing pressure that could be felt.

"Since you are the master of Stone Country and have spoken these words, I will give you face," the demonic spider said.

"Everything will be settled with this." Sound was transmitted from the golden sun, making everyone from the Martial Imperial Manor tremble.

In the end, the great demonic spider and the Human Emperor left, and a fight did not unfold.

The enormous pressure from the heavens disappeared, and everyone released a breath of relief. The pressure that a mature pure-blooded creature like that gave off was just too terrifying.

Everyone began to discuss one after another, feeling that Shi Hao truly barely avoided a tragedy this time around. Shi Hao himself was the only one that sighed and felt that it was a missed opportunity.

Soon after, his brows loosened up. There was going to be an even greater opportunity, since the Human Emperor's birthday was already coming up. At that time, there would be other creatures from the Archaic Divine Mountains, and if they also made things difficult for him, then it would be the perfect time to clean them up in one go!

The capital erupted with commotion, and there was discussion everywhere. Shi Hao had created an extremely great disturbance.

With his identity exposed, there were no longer any secrets about his background. Everyone finally knew about the savage child's past, and so this naturally became a hot topic.

After Shi Ziteng got to his feet, he left with his people.

Shi Hao did not pursue him, because he couldn't brush away the Human Emperor's act of kindness. He couldn't take action any more.

Regardless, the human emperor's words were spoken to help him.

"Worthy of being called a supreme youth! He could fight with a noble king, even defeating Shi Ziteng. He is worthy of admiration."

“The difference between him and myself when I was his age is just too great. Just how did he cultivate? How did he become so powerful?”

“Shi Ziteng was defeated and lost the Dragon Blood Halberd. This is definitely an incredible humiliation for him! This result is truly unexpected.”

It was just a youngster, yet he first tore apart the Rain King Manor and then fought a great battle against Shi Ziteng. He won decisively both times, making the name Shi Hao the focal point of the capital!

Without a doubt this was an upcoming star. His radiance would only become even greater and shine throughout this great earth.

“What will happen once the dual-pupiled individual returns?”

Everyone immediately thought of this problem. They all knew that Shi Ziteng had a child that was known as a otherworldly deity. Once he returned, there would inevitably be a world-shaking confrontation with Shi Hao.

When they thought of Shi Yi, all of the great powers thoughts became complicated. That youth’s natural gifts were shocking. Once he returned, he would definitely shake everything under the heavens.

In the past, no one knew that there was a piece of supreme being bone within his body. In the past ten or so years, it had never been exposed.

He was always calm, and not even a single thread of the supreme being bone’s power had ever leaked out. Only after Shi Hao’s great exposure did everyone become roused.

No matter how you looked at it, even though the way in which the bone was acquired was not glorious, there was still one fact that couldn’t be overlooked. Shi Yi’s greatness in the future would definitely reach an unpredictable level.

A dual-pupil individual was already heaven defying, but together with a supreme being bone, just what degree would such a person reach? When people thought of this question, their heads began to throb. Was it going to be Shi Yi’s own era in the future?

“Even though Shi Hao lost his supreme being bone, he still reached such a level and became known as a supreme youth. I wonder if he still can bring about another miracle. At that time, he could fight against the dual-pupil individual.”

“It would be incredibly difficult.”

Even though they saw Shi Hao’s endless potential, the majority of the people there still felt that this battle would be incredibly difficult. It was because the other party’s innate characteristics were just near perfect.

Shi Yi was within the ancient sacred courtyard, and if he obtained the Heaven Mending technique, then his body would be without any imperfections. He might even solve the problem of the supreme being bone not being part of his original body. Was he going to return? This was what everyone was wondering.

Shi Hao left the Martial Imperial Manor, and no one was able to stop him from doing so. n/(O)-v-.E)-L-)B((l/(n

The second he stepped onto the main streets, countless eyes were focused on him. However, there wasn't a single person that took action, and even those that bore grudges against him watched from far away.

The first reason was because Shi Hao was strong enough himself, to the point where even Shi Ziteng was defeated. This made people second guess themselves before coming up. As for the second reason, now that even the Stone Emperor was protecting him, who dared to act indiscriminately?

While walking along the main street, Shi Hao slowly calmed his mind down. He had already informed everyone that the child from back then was still alive. He wondered if his parents and grandfather would hear about today's events. He hoped that they would and wanted to meet them again.

Laughter that sounded like silver bells spread over, and a small girl appeared from around a corner. "Our family's young miss invites you to come." It was the witch's maid. She was only a bit over ten years old and extremely lively. Her large eyes moved about, making her seem extremely intelligent.

Shi Hao smiled. A battle had just ended, and he didn't know where to go. Visiting the witch was not a bad idea.

Moon Gazing House was an extremely well-known restaurant in the capital. Cultivators of all types visited this place because the owner was a master himself. Normally, not many commoners entered.

In a private room, the heavenly fox fairy was currently enjoying wine alone. Black hair was scattered across her tall and slender figure. Her pure white forehead and intelligent large eyes made her seem extraordinarily beautiful.

This room wasn't all that luxurious. It faced the streets, and there was calligraphy and paintings hung on the wall. The table was carved out of sparkling jade.

Shi Hao greeted her and sat down without asking for permission. He poured himself a cup of wine and drained it in one go. He asked while smiling, "Is this your spiritual body or your real one?"

"What do you think?" The heavenly fox fairy's eyes wandered over. Her beautiful white jade-like face had a hint of redness from drinking. Her smile was absolutely gorgeous, and was enough to move all living things.

"It should be a spiritual body." Shi Hao said.

"Your answer is correct." The heavenly fox fairy admitted in an extremely undisturbed manner.

Shi Hao was shocked. It really was a spiritual body after all.

Regardless of whether it was that free and unrestrained witch or this alluring heavenly fox fairy, they were both weird and extremely crafty. Truly worthy of being called outstanding, and it was extremely difficult to imagine what kind of a breathtaking beauty her real body had.

"Did you call me for something?" Shi Hao was entranced for a moment before he asked with a smile. The witch was extremely quick-witted and wouldn't find him for no reason.

"No reason, just protecting you." The heavenly fox-fairy said smilingly.

"Why would I need your protection?" Shi Hao was astounded.

"If I don't protect you, then that fatty might harm you."

"That fatty?" Shi Hao was confused.

"Of course I'm talking about the fatty Yue Chan." The heavenly fox fairy said while drinking.

Chapter 315 - Pair of Fairies

"That fatty wants to deal with me?" Shi Hao asked in a casual manner while sitting next to the jade table. He poured himself a cup of wine. While enjoying the wine, he was also watching the bustling of the capital.

"Exactly, you need to be careful." The corners of the heavenly fox fairy's lips were raised and her large eyes curved. Her smile was extremely sweet, yet crafty at the same time.

"Why is that fatty making things difficult for me for no reason? It's not like I provoked her. If she comes looking for trouble, then I'll directly suppress and deal with her on the spot," Shi Hao spoke in a domineering manner

The reason he spoke like this was because he knew that the witch's words couldn't be trusted. He had just finished a great battle, and so his mood was rather relaxed right now. As a result, he spoke out in a teasing and joking manner.

The witch giggled and asked, "What are you talking about? Suppress her on the spot?"

"Didn't you say you'll sell her to me? I've been waiting this entire time. If she really does come looking for trouble, then I'll directly carry her back to the village to make her into a mother." Shi Hao moved his fist around in a rough manner. In reality, he wasn't some masculine man and was still a youngster. He was still delicate and pretty, so these words were spoken just to play along with the witch's style.

The heavenly fox spirit laughed until she was rocking back and forth, not matching her appearance at all. Below her collar, a large amount of her snow white skin was revealed, just like fine jade. Her lotus-like arms were sparkling, and her beautiful face was absolutely dazzling. Her eyes were extremely quick-witted as well.

"If she really comes, do you dare take action?"

"Why wouldn't I dare? Didn't you say that you'll find someone to be her spouse in her place? Who is there better than me? Since it's my responsibility, I have to take her as my wife." Shi Hao spoke in a confident manner.

"You were the one that said it! Suppress fairy Yue Chan on the spot." The witch's smile was extremely splendid and her eyes were shining.

"Suppress that fatty on the spot." Shi Hao nodded as he parroted her words.

“Hehe...” The heavenly fox fairy’s laughter gave Shi Hao a bad feeling. He was a bit afraid because he vaguely sensed that something was wrong. When he suddenly turned around, he saw a wonderful figure standing at the entrance to the private room.

“Fatty... I mean, fairy Yue Chan, when did you come?” Shi Hao scratched his head because he didn’t know what to say. He had a silly expression on his face.

“I’ve arrived quite a while ago.” Fairy Yue Chan spoke with an expressionless face. Her beauty made others feel suffocated. While clothes covered her entire body, and there wasn’t the slightest bit of anger from her. She was just like an otherworldly and cold fairy.

Shi Hao was extremely embarrassed. It was clear that he had been set up by the witch.

“Why are you so quiet?” Soon after, he noticed a problem. Waves of coldness ran down his back, because this fairy was too terrifying. She avoided being detected by his spiritual awareness, startling him quite a bit.

Fairy Yue Chan was extremely calm and unflustered, as if she didn’t hear what was said just now at all, or maybe all of those disrespectful words were filtered out. She walked into the private room, but did not sit down.

“She has a secret treasure on her that’s impossible to deal with. It could conceal her existence, and is an extremely great assassination tool.” The witch’s laughter seemed to never end.

Shi Hao didn’t say anything. No wonder fairy Yue Chan didn’t bring up the matters from just now. He naturally wouldn’t dig his own grave, and so he pretended as if he never said those things.

However, the witch didn’t exactly think the same way. She would stir up trouble from nothing, so how could she let this situation go?

“Deity-like youth, your fairy sweetheart has personally arrived. Hurry up and carry her back to the village and make her into a mother. I look forward to it, and pray that nephew will hurry and get it on.” The heavenly fox spirit’s laughter was extremely sharp and clear, and not a single person wasn’t moved.

Shi Hao pretended as if he didn’t hear anything. He looked at the bustling streets and said, “The capital is truly great. There are people everywhere.”

“You really aren’t good at shifting topics. What are you even talking about? Could it be that those on the street aren’t people but grass?” The witch rolled her eyes and continued her question from just now and didn’t let it go. “Older sis Yue Chan has already arrived, so what about the bold words you spoke just now? You shouldn’t give her the cold shoulder!”

Shi Hao realized that he couldn’t let her continue speaking freely, or else there would be even more trouble. He took the initiative and said, “Fairy Yue Chan, do you need something from me?”

“There are some matters.” Fairy Yue Chan replied.

Shi Hao was startled. Did the other party really come looking for trouble? It was reasonable to assume that this wasn’t the case since the situation in the capital was so complicated. It was better to quietly watch the situation, so she shouldn’t be the first one to jump out, right?

Fairy Yue Chan smiled sweetly, immediately making him feel as if he was bathed within spring winds. Today, she did not have a veil on, and her elegant and refined complexion didn't have the slightest flaw. Her hair was jet black, and her bright eyes appeared well-disposed.

"Fairy, please don't smile at me like that anymore. Otherwise, the witch will urge me to bring you back to the village again," Shi Hao said.

"You clearly wanted to do that yourself. Why are you dragging me down with you?"

Fairy Yue Chan was not affected at all and instead asked, "Are you a disciple of the Heaven Mending Pavilion?"

Shi Hao was astonished and didn't know why she would suddenly ask this kind of question. He immediately nodded, because there wasn't any reason to hide it. Many people already knew about this.

"Since that is the case, then we both originated from the same place. The two of us should become closer and not fall for this witch's corruption," said fairy Yue Chan.

"Hey, did you hear? Older sis Yue Chan wants to become more intimate with you! Your wooden brain truly can't get the point. Hurry up and express your true feelings!" The witch heckled.

"What? You want to come back to the village with me? No problem. Grandpa Chief and Uncle Linhu have always wanted me to bring back a wife, saying that I am already at an age where I should settle down and get married. Brother Dazhuang's child is already so big," Shi Hao said.

"Hahaha..." The witch laughed heartily. She knew that this fellow definitely caught on and was now purposely playing along and shifting the topic.

Fairy Yue Chan was extremely calm and did not act out like how other woman might. She was extremely unperturbed as she said, "If you want, we can work together to capture the witch and make her your wife." *nove/Lb(In*

"Even something like this is okay?" Shi Hao's mouth formed an O shape. He never thought that the incomparably holy and otherworldly fairy would be able to speak such absurd words.

The witch said, "Do you see? The holy and pure fairy is more two-faced than anyone else. In order to accomplish her goals, she dares to do anything. For the sake of that fairy, her sect even made themselves into demons. Later on, after a series of battles, they turned everything around and changed history. If you become powerful enough, you can become a demonic king and make fairy Yue Chan serve on you."

"We are of common origin, and have inherited the same tradition." Fairy Yue Chan didn't seem to be affected in the slightest, as if all of those foul words flew past her ears like wind, leaving behind nothing.

"I ask the fairy for guidance. Why do you speak of such things? Please help me dissolve my confusion." Shi Hao truly didn't understand. He had cultivated within the Heaven Mending Pavilion before, but what did that have to do with a great sect outside of this region?

"Fine, then I will tell you everything. I come from the Heaven Mending Sect. What does this name remind you of?" Fairy Yue Chan asked.

She was at a distance where Shi Hao could almost touch her. Her eyes were extremely quick-witted, and her feminine fragrance was floating about like that of an orchid as she looked at him calmly.

Shi Hao was shaken. The difference between the Heaven Mending Sect and Heaven Mending Pavilion was only a single word. There really seemed to be some connection between the two, and so he seemed to have suddenly realized something.

“The Heaven Mending Pavilion originated from outside the wastelands. It is a branch of my school, and so if you trace back to the roots, you are all disciples of the Heaven Mending Sect,” fairy Yue Chan said, revealing an astonishing secret.

“Aiyou, older sis, the skin on your beautiful face is thickening. When did the Heaven Mending Pavilion become your branch? You guys never even recognized them, yet you guys actually dare to take credit when it’s convenient,” the witch mocked.

Shi Hao’s heart was moved. He believed that there was definitely some connection and that some of what fairy Yue Chan said was trustworthy. Only, there were too many ulterior motives being kept secret.

“It is true that some unpleasant things happened back then, but in the end, we are still of the same origin. The Heaven Mending Pavilion’s ancestor was a disciple of my Heaven Mending Sect. He had always wanted to return, and as a result, he established a Heaven Mending Pavilion here in the wasteland region,” said fairy Yue Chan.

Shi Hao trembled. He immediately thought about ghost grandpa. At that time, his hair was completely dishevelled, and there was an ancient sword stuck in his skull. He went crazy and howled in sorrowful dismay that he was an abandoned disciple.

At that time Shi Hao thought about how great of a sect that was. It was so powerful that even someone like ghost grandpa was expelled; this was too shocking. You have to understand that ghost grandpa was someone who dared to even cut apart supreme experts without hesitation.

“Back then, an ancient expert who even had his divine flame ignited was refused by the Heaven Mending Sect, yet today, you guys actually have the nerve to seek out his disciple. It really is interesting,” the witch ridiculed.

“We cannot change what has happened, but our sect has always tacitly agreed that the Heaven Mending Pavilion was a branch of our Heaven Mending Sect,” said fairy Yue Chan.

“What a pity. The Heaven Mending Pavilion has been exterminated by others.” Shi Hao spoke coldly. What was the point of saying these things now? When the Heaven Mending Pavilion was facing great troubles, why didn’t anyone come to help?

“We know that it is already too late, but in the end, all accounts will be settled. Soon, the wastelands will be thrown into chaos, and even saints will become grass and straw.” Fairy Yue Chan spoke, her voice extremely serious.

At this moment, Shi Hao’s mind was extremely uncalm. Someone as powerful as ghost grandpa came from the Heaven Mending Sect and was expelled. Just how terrifying was this great sect?

He had always felt that the large sects from outside this region were extremely powerful and could dominate endless territories, but he never thought that someone who had even ignited his divine flame would be discarded. It was by far even more terrifying than what he had thought.

"The Heaven Mending Sect is truly great, and their inheritance has been passed down for endless years. It dates back to the archaic years, and it is not limited to a single region." Fairy Yue Chan explained the situation to Shi Hao.

The space this great sect occupied was actually not limited to a single region? This was like something straight out of a fairy tale, leaving Shi Hao somewhat stupefied.

"In other words, it could be said there are more than one great regions where my sect has staked its foundation. For example, in the wasteland region, the Heaven Mending Pavilion can be considered as one of our branches." Fairy Yue Chan explained in detail.

"Aren't you just trying to rope him into your Heaven Mending Sect because you see his potential?" The witch interrupted and spoke in a domineering tone, "What can you guys give him? If Shi Hao enters my Sky Severing Sect, then we will fish the Heaven Mending Sect from the skies. Even making Fairy Yue Chan your wife wouldn't be a problem."

"The Sky Severing Sect goes against the heaven and earth. In the end, it will all amount to nothing. You do not need to fall for her enticement," said Fairy Yue Chan.

"Heaven Mending Sect, heh!" The witch shook her head and then became even more aggressive. She said to Shi Hao, "If you go with her, you won't be able to obtain anything, while if you come with me, even she can be yours. It's clear which option is better. There's no reason for you to hesitate!"

"You..." Fairy Yue Chan's face became colder.

Shi Hao didn't say anything but began to think. It seemed like he had been seen as someone important by both sects, but it was also extremely dangerous. This was just the situation on the surface, but if he should go with either side, he would most likely face the ruthless slaughter by the other side.

Sky Severing Sect, Heaven Mending Sect; it was clear just from the outlook that the two opposed each other. They were both supreme sects, and their doctrine and teaching were the most terrifying!

"Can I be a demonic king and a divine ruler?" Shi Hao was extremely thick-skinned as he asked.

Chapter 316 - Huntian

"No problem. The only problem is if you can bear it. Fairy on the left, witch on the left, demonic sovereign at the center. The question is, can you do it?" The witch challenged.

Fairy Yue Chan remained expressionless. She was extremely pure and holy without the slightest flaw. When she heard those vulgar words, she would act like she always did and ignore them.

"Why wouldn't I be able to?" Shi Hao asked.

"If you can, then first suppress this fairy. That is the true nature of a demonic king. Otherwise, stop thinking random things." The witch laughed.

In the end, Shi Hao left and walked out from the Moon Gazing House. He left behind the fairy and the witch's confrontation to silently think. He didn't see any problems right now, and the two of them wouldn't do anything.

The future, however, wouldn't be so certain. It might end up in a bitter war. Those two were ridiculously powerful, and both were outstanding individuals that belonged to great sects that could not be bound by a single region.

"This is it for today, I'm going to go cultivate. Don't bother me, or else I'll bring both of you to the village!" The devilish brat fiercely waved his fists at the restaurant.

He was still a devilish child that came from the wastelands. After feeling threatened, he immediately swore to bring them away forcefully.

"Haha, not completely eat them?" In the distance, a young girl giggled secretly. Even though she didn't possess fairy Yue Chan's and the witch's suffocating beauty, her appearance was still rather moving. Her body was tall and slender.

It was clear that she understood Shi Hao and knew his catchphrase 'eat you all'.

The devilish brat immediately felt a wave of shame. How could this be seen by someone? He had been so deep in thought that he didn't notice anything.

"You're... Lord Huntian's sister?" He finally recognized who it was. He had seen this young lady from far away before in the Green Wood Garden. At that time, she had been surrounded by a group of young men.

"My brother invites you to have a chat." The young lady had a slight smile as she spoke.

"Lord Huntian is looking for me?" Shi Hao was astonished. This was a period of time where ordinary people definitely wouldn't bother with him to avoid bringing themselves some kind of disaster.

"My brother's temperament is extremely straightforward and he feels that you are quite a good person. In my opinion, the two of you are birds of a feather. He wants to have a drink and chat with you, and couldn't care less about what others think." The young girl murmured.

"Okay, I'll pay him a visit." Shi Hao nodded.

Lord Huntian was Stone Country's youngest lord, and was only twenty five years old. He had been granted his title of nobility several years ago. His natural talents were incredibly shocking, and it was clear how powerful he was.

This was a secluded garden that was also a restaurant. However, it only accepted specific guests. Those that were not frequent visitors couldn't even get in.

It was obvious that Lord Huntian's power and influence were extremely great. As a new up and coming lord, he had the authority to be a guest here. He knew about this hidden location.

There were many courtyards within this garden, and there was one that was open wide. The surroundings were beautiful and tranquil, and all types of rarely seen plants could be seen. They were extremely fragrant.

“Carry all of you away? Hahaha... You truly are bold. It seems like I’ve been imitated!” Lord Huntian laughed loudly and invited Shi Hao inside.

There was a jade table displayed within the courtyard, and there were many rare dishes on top of it. He didn’t know what kind of spiritual wood the chairs were made from. It didn’t seem particularly luxurious, but spiritual essence swirled about vaguely. This was a place extremely suited for enjoying wine and small gatherings.

Lord Huntian’s figure was tall and large. His hair scattered down like a waterfall, and his pupils were penetrating. While speaking to Shi Hao, there were several girls at his side. They were all important young ladies from the capital.

“No matter how bold I look, I’m just hot air. Unlike you where it’s actually put it into action, getting four in one go.” Shi Hao said in a familiar tone right from the start while looking at those four young ladies.

“They weren’t forced to come by me. We are all of similar interests. Let’s drink again. They are also quite curious and wanted to meet you,” Lord Huntian said.

Lord Huntian was someone whose temperament greatly changed depending on where he was. On the battlefield, he cuts down his enemies decisively with astonishing power. During his downtime, he acted extremely casually. Right now, he was talking and laughing with a girl by his side, seeming extremely carefree.

“Now that you are drinking with me, aren’t you scared of some others outside becoming hostile towards you? I have quite a few enemies, you know,” Shi Hao said.

“Who would I be scared of?” Lord Huntian smirked. He didn’t seem to care in the slightest, and then he hinted for the beauties beside him to pour some wine.

“Are you not scared even if those great powers and noble king level powers come after you? What if that enormous spider sets its eyes on you? Won’t it be troublesome then?” Shi Hao reminded. He did not wish for those he was that he had friendly relations with to be harmed.

“How many days longer can it even jump around? The wastelands is going to become chaotic anyway. Don’t look at how powerful some of these creatures are now. Sooner or later, they will be on the receiving end of a blade.” Lord Huntian spoke without the slightest bit of fear.

Shi Hao was startled. Was this some kind of tribulation? Would it even affect experts at that level? It really was a bit scary.

He had a feeling that Lord Huntian knew something, as if he understood quite a bit. Was he calmly waiting for the great chaos?

“It almost seems as if you couldn’t care less about the wastelands’ impending great chaos, as if you were just a bystander,” Shi Hao said.

“What will being scared do for me? If we can obtain some small thread of opportunity, we might even benefit. After the great chaos breaks out, what ancient country, what large spider? None of them would be able to remain.” Lord Huntian’s words were absolutely fearless. It seemed like he wasn’t even scared of the girls beside him leaking this information

He looked at Shi Hao and said, "Who knows, we might have the chance to work together in the future. With this great disorder coming into this region, those outside might not be able to send large numbers in, so it will still depend on people inside like us. We might both be able to rise." *nove/Lb*(In

Shi Hao silently thought for a bit, and then nodded his head. In that brief moment, he thought of many things, and in the end, he asked, "Where did you obtain this information from?"

"My teacher," said Lord Huntian.

It was clear that this was someone with quite a bit of influence. Shi Hao couldn't dig any deeper, because everyone had their own secrets.

"I decided to meet with you today because I felt that your disposition matches mine quite well. Tearing apart the Rain King Manor, and then a great battle in the Martial Imperial Manor proved your boldness, and that's something I admire. Come, come, come, let us chat a bit about romance. Training an army and going to war are my specialty, but talking about worldly affairs is still my hobby." Lord Huntian was completely unrestrained as he embraced a girl beside him and allowed her to feed him.

"Are you trying to show me how at ease and extraordinary you are by making me watch helplessly from the side?" Shi Hao was a bit discontent as he poured himself a drink as well.

"Hehe..." On the side, a young girl walked over and poured some wine for him as well.

"I look forward to the day when you carry both fairy Yue Chan and that witch back. I feel like there will be a day when you will actually do it." Lord Huntian laughed loudly.

There was no way that he invited Shi Hao over only to talk about romance. The main point was to exchange some opinions on the impending turbulent times. He did not look down on Shi Hao's age at all.

"The so-called deities in our region aren't actually true deities, but our region is extremely suitable for bringing up true deities. That's why even those two great sects couldn't hold themselves back."

When Shi Hao heard what was said, he asked, "I've always been quite curious. Just how powerful is the Heaven Mending Sect and the Sky Severing Sect? Can they really control an entire region?"

"They are truly quite powerful and terrifying. They are so powerful that both you and I could only look up to them. It's almost impossible to find any true deities within the wasteland region, but as for those two great sects..." Lord Huntian didn't speak into detail.

"It really is dull. So much conflict and fighting, what is the point?" Shi Hao said as he drank some wine.

"In reality, I don't want to participate in the great disorder, because we aren't really qualified. However, if me and you don't take action, then it's impossible for us to survive. It is all for the sake of self-preservation," said Lord Huntian.

"I might as well just hole up inside a mountain forest or something. I'll bring back two fatties and then go into hiding to avoid this disaster. By then, my cultivation will be good enough. Who will dare provoke me then? I'll just eat them all." Shi Hao hiccuped from the alcohol and spoke in this way.

"Haha... then I can't help you there." Lord Huntian laughed loudly.

"I'm quite curious, exactly who is taking action and bringing about such chaos?" Shi Hao asked.

"Taboo!" Lord Huntian's eyes narrowed and seemed to possess a bit of fear. Taboo; this was what his teacher personally told him. Even great sects from outside this region were going into action to take advantage of it.

There were also rumors that this 'taboo' was the arrival of all these great sects.

"Watch, when the great chaos arrives, there will be people who will try to assert their strength in this wasteland region. At that time, we will be involved as well. Instead of letting this happen, we might as well seize what we should possess instead." Lord Huntian spoke quite a bit, making Shi Hao's expression change. This was for the sake of not being controlled in the future, and it was going to be extremely terrifying.

Lord Huntian spoke again. "Some people have set their eyes on the boundless skies and vast stellar seas. There are also those who are focused on our wasteland region, those who are interested in mortal affairs, and even the people who are satisfied with growing their own necessities."

"I only want one thing. A free world." Shi Hao said softly.

"Then you will have to rise to power in the wastelands, control the entire wasteland region and become the great emperor. Only then, could you obtain what you want, otherwise... Hah!"

The two of them had been drinking for a long time already, and both of them were already completely intoxicated. They didn't even know what they were talking about anymore, and in the end, Lord Huntian patted his shoulder and said, "I offer my wishes that you can bring those two girls back to your village. I feel like this will make things extremely interesting, giving the great powers outside our region an unforgettable impression, hahaha..."

"Wait for my good news." Shi Hao was also drunk. He carried one of the girls and left, bringing about a huge shriek.

"Put down my sister!" Lord Huntian shouted.

Pa! Shi Hao slapped the luxurious bottom and said, "I was just wondering why something was quite different. I'm leaving."

He hiccuped and left while swaying back and forth.

"A great disorder is going to begin..." Shi Hao said to himself.

Time passed by quickly, and several days passed in a flash. The Human Emperor's birthday had arrived, and the majestic palace was completely opened. Important guests all entered.

Shi Hao became famous instantly, and as a result, he naturally received an invitation. This was because the Human Emperor personally paid attention to him and saved him from the clutches of that great spider. As a result, he had a golden invitation card in his hand and was considered a respected guest.

Of course, this was not something that the Stone Emperor himself instructed, but rather something that the people below him decided based on the circumstances. It was impossible for everyone to personally pay their respects to the Human Emperor, so they took action based on what they felt was appropriate.

The lofty palace was grand and vast. This was an ancient structure that flowed with golden splendor under the multicolored light of a sunrise. It seemed just like an ancient temple.

Upon entering, one would find their bodies to be incredibly tiny in comparison, as if it was constructed for giants. The building was so large that it was shocking, and an incredibly majestic atmosphere filled this place.

At the doorway to the inner palace, there were two enormous Bi'ans crouching. They were powerful and terrifying ancient beasts that possessed formidable power and grandeur. Their bloodlines were incredibly astonishing.

It was rumored that within the depths of the imperial palace, there was an old Bi'an that had lived for a long time. It had become an existence similar to a guardian spirit, and it was the beast that protected the imperial family.

"The imperial family really is incredible..." Shi Hao sighed. He made many speculations just from seeing a small portion of this place.

Guests entered unceasingly, and the number of people here grew larger and larger. They were all experts, and the auras they released made others' hearts palpitate. Without a doubt, this place was going to be bustling with noise and excitement today. In addition, there were bound to be some unusual events that were going to happen.

Chapter 317 - Imperial Palace

Under the illuminating sunlight, the entire palace was covered in a layer of golden light. Countless people were hurrying over, as if they were making a pilgrimage. The grand and imposing buildings towered into the heavens.

After all the powerful individual arrived and formally entered Stone Country's restricted areas, they felt an ancient and evolving feeling. They were witnesses of this generation's magnificence.

A generation's outstanding expert sparked his divine flame, established an ancient country, and ruled over millions of millions of rivers and mountains; these majestic and boundless buildings recorded the stories from countless years ago.

"After cultivating to a certain level, sometimes, a single idea could make an incredible difference. The imperial palace has cultivated to such greatness already. Was the supreme expert from back then scared of not having enough space?" Shi Hao guessed randomly.

This was because there wasn't just a single building, and all of them were all enormous. Every single one of them was like a mountain. When standing before them, one would feel extremely insignificant.

The sound of flowing water could be heard everywhere. Not only were there fountains, there were streams linking up the entire palace beside the main path. The scenery was extremely beautiful. Within the streams, there were fish and shrimp. From time to time, even flood dragons would appear.

There was definitely more than a single flood dragon. Their thick bodies extended from tens to hundreds of meters in length, and light flickered through their scales and dragon feelers. Their horns were sparkling and translucent, giving them a mystical appearance.

At this moment, everyone was shocked from the scenery. Other people would grow fish that were pleasant to look at, yet Stone Country's imperial palace actually raised flood dragons. This was just too shocking, like the difference between heaven and earth.

"Yi, there is a white tortoise as well. According to legends, the tortoise's swirling white pattern was an auspicious sign, an omen of long life. It's an incredibly rare flesh precious medicine!"

Everyone sighed in admiration. The creatures in these waters were all rarely seen. Outside of the flood dragon and white tortoise, they also saw a scarlet lotus. Its entire body was bright red like burning flames. They were growing in large numbers, and their fragrance wafted through the air.

"This... is just too extravagant!" Everyone was shocked again and again.

That scarlet lotus was a well known spiritual medicine, yet they were growing in such abundance here for landscaping purposes. This made many people swallow their saliva.

"This isn't actually a waste. When the imperial palace needs to refine medicines, they will come here to pick them from the waters," said a noble king. It was clear that he visited the imperial palace regularly and knew about its circumstances.

Clear and pleasing chirps sounded from above them. A few colorful Luans flew past, and they were all incredibly beautiful with long plume feathers and brightly colored wings. They circled around the imperial palace, giving it an auspicious feel.

Everyone was in deep admiration. Every scene within the imperial palace possessed exceptional magnificence. Those were descendants, yet they willingly resided here. It was clear that Stone Clan's backing was deep and powerful.

The palace city naturally had many ancient trees, and there were many old trees that were several thousand years old, with some that were even more ancient. Numerous branches extended from them, and leaves covered them luxuriously. They were upright and strong like dragons as they extended towards the sky.

There were many people who came, and there were no lack of sect masters, noble kings, and other aristocrats. There were also many powerful unaffiliated cultivators and pure-blooded creatures. They all possessed powerful backgrounds.

After passing through an enormous arched gate, everyone arrived at the central heavenly palace. When they arrived here, they found that the ground was covered in a layer of clouds that continuously moved about but only reached the knees.

This was their final destination, as the human emperor's birthday celebration was going to be held here.

There were clearly creatures of all different types that had entered this heavenly palace. They were all emitting shocking auras that made others tremble. These creatures included a Golden Sparrow that was several meters in length and a giant that was over twenty meters in height.

"Are those creatures from the Archaic Divine Mountains?" Everyone was astonished. Only those types of guests could sit with Stone Emperor in this heavenly palace.

Everyone else could only remain outside in the public area. There were already many jade chairs and tables arranged, and with white mist swirling about, it made this place seem like a heavenly realm.

The birthday feast obviously wouldn't start now. It was still too early.

Many people began to group up and exchange greetings. This was a good chance for them to get to know and befriend some large figures. They were originally assigned to seats in the lounge, but they didn't go there.

Soon after, they all got together and many experts began to laugh heartily. They were in twos and threes as they talked about topics of mutual interest.

Shi Hao wandered around, not recognizing most of the people there. However, when others looked at him, many of them revealed peculiar looks. They all began to discuss secretly and point him out.

Without a doubt, he was someone that was well-known. Many people recognized him, because after the great battle within the capital, he drew attention from all directions.

There were still a few people that Shi Hao knew about here, like the Martial Imperial Manor's people and a few other nobles. There were also a few outstanding individuals he encountered within the Green Wood Garden.

He enthusiastically greeted them without missing a single one. As long as he recognized them, he would definitely go up and say a few things. For example, when he saw the Rain Clan's people, he would walk up and pat their shoulders intimately, wrapping his arms around their shoulders.

Yu Feng's face fell ashen, but he didn't dare move a muscle. He had cultivated within the Heaven Mending Pavilion in the past, and conflict had already sparked with Shi Hao there. In the Void God Realm, he was even killed by the other party. He had to spend a long time in recovery to return to his former condition.

Everyone's expressions were strange. Even people like them could get along?

To Yu Feng, this was truly a type of torment. His entire body felt uncomfortable as Shi Hao's arms wrapped around his shoulders. However, he wasn't strong enough. He really wanted to kill Shi Hao with a slap.

Finally, the devilish child saw Shi Ziteng, and he immediately abandoned Yu Feng and walked up. He immediately asked how the injuries of this uncle of his were and if they were serious. *nove/Lb*(In

Shi Ziteng's face was expressionless. He turned around and left.

"Hey, aren't you all from Tuoba family? You guys came too? You guys look good, I wanted to see you guys again." When Shi Hao saw the family's people, he rushed over and chatted in a friendly manner.

These people's faces were all overcast. They suffered bitterly in the Void God Realm, and their entire pure land was pulled up by the roots and flattened. Many of their important figures were killed by Soul Shattering Needles, so they hated the devilish child greatly.

Wherever Shi Hao went, a group of people's faces would immediately change and become extremely ugly. Was he trying to brew hatred? He only searched out those whom he had conflicts with!

“Yi, you’re that famous Prince Chi Yun from the Void God Realm! I think we met before. Back then, I might have accidentally killed a large number of people. Nothing happened to you, right?”

Shi Hao was truly making their lives absolutely miserable. He was completely unrestrained as he attacked at these people’s weak points. Prince Chi Yun was one of the young experts of the four great families, and so there was naturally some conflict between them.

The people that Shi Hao provoked were naturally all those that bore grudges against him that were difficult to get rid of. At the same time, Shi Hao didn’t want to coexist with them either, and there was going to be a life and death confrontation between them sooner or later.

Since he came to the capital, he wanted to utilize one of the little pagoda’s ‘great uses’. He did not mind if everyone became furious from his provoking, because he would just kill them all.

The group of people were truly angered badly, but they didn’t dare act out. This was the Stone Country imperial palace, so who dared to act imprudently? Only that thick-skinned brat would act in such a carefree manner and harass everyone.

Finally, he left, because he saw some people he was truly acquainted with.

At the arched door, many people were crowding around a young lady like stars around a moon. She was a bit taller than normal girls, and her fiery dress flowed up and down from her curvy figure. Her face was gorgeous, and a snow white neck led down to her full chest. Below her small waist were a pair of beautiful and slender legs. These traits together formed a figure that was absolutely perfect.

People from Stone Country’s imperial palace welcomed her, so it was clear that this was a guest among esteemed guests.

“Fire Nation princess has come to offer congratulations in the Fire Emperor’s place. He wishes the Stone Emperor eternal youth and heavenly grace!” Someone announced.

Everyone was astonished. Another human emperor has dispatched people to offer his congratulations.

“Fatty!” Shi Hao waved from far away and enthusiastically shouted.

Huo Ling’er was originally extremely happy and excited. She was surrounded by a outstanding individuals like a heavenly goddess.

When the word fatty sounded, she immediately felt a sense of familiarity, and then her countenance changed completely. It was because she saw Shi Hao walk over and wave in her direction.

She was fuming with rage between gritted teeth. She hadn’t seen this devilish brat in two years, yet he was still the same, hollering fatty at her. She was gonna die from anger. This was intolerable!

With a hu la sound, those outstanding talents around her immediately moved to the side. These people all knew how formidable this savage youth was, and none of them were willing to provoke him.

When he saw Huo Ling’er flip out, Shi Hao immediately restrained himself and didn’t call her a fatty anymore. “Junior sister, you have become prettier since the last time I saw you two years ago. The parts that should be fat are becoming fatter.”

The first half made Huo Ling'er happy, but the second half, what kind of words were those?!

"You were at the Northern Sea these past two years?" Veins jumped on Huo Ling'er's sparkling white forehead, and she was holding herself back with great difficulty.

"I thank junior sister for her concern! I was tricked by a group of heartless people into going into the Northern Sea and ate salted fish for two years. It's simply infuriating." While speaking he stared at a group of people in the distance, and they were immediately stumped for words.

Those people actually came as well. They were descendants from the Archaic Divine Mountains.

"Are you okay now?" Huo Ling'er asked in a concerned manner. She had heard from a few rumors that the great battle at the Northern Sea was incredibly miserable. Even supreme experts fell, yet the devilish brat dared to venture there, it really was beyond reckless.

It was because she heard in some vague rumors that the devilish child was incredibly ferocious, killing the spiritual bodies of several supreme experts. In the end, he was killed within the Kun Peng's nest.

Even though she heard news of his survival and return, she was still worried for a period of time.

"I'm fine, really. Even though I ate quite a lot of salted fish, I could still eat a piece of pure-blooded precious meat from the Archaic Divine Mountains. The taste was truly quite good," Shi Hao said.

When the surrounding people heard this, they were all stupefied. This fellow killed pure-blooded creatures before? This was just too horrifying.

"We'll talk more later. Let me offer birthday congratulations to Stone Emperor in my father's place first." After Huo Ling'er spoke, she was lead forward by the palace staff.

At this time, a small creature in her bosom woke up and cried out with an ao sound. It quickly jumped onto Shi Hao's body.

"You..." Huo Ling'er was furious. Several years had passed already, yet the young deity still never forgot this fellow. She didn't stop it and temporarily abandoned the small wolf before walking towards the central heavenly palace.

"Not bad, I thought that you became a thankless wretch and forgot about me." Shi Hao laughed and took a look at it. He noticed that the small wolf's size didn't change, but a wave of extremely tyrannical divine force was surging from within.

However, no matter how he searched, he didn't discover any symbols. He couldn't understand why at all. Could this young deity have some kind of problem?

Not far away, a group of creatures walked over, bringing about much shock and astonishment. Those people could still be considered young, and there were males and females among them. They were all extraordinary and promising youth.

There were ten or so people. Some of them wore clothes with brilliant feathers, some had dazzling armor, and some had on beautiful dresses. The boys were heroic, and the girls were extremely beautiful. They attracted the crowd's attention.

“They are creatures from the Archaic Divine Mountains. All of these youngsters are terrifying, and if nothing unexpected happens, then the wastelands will be dominated by these individuals in the future.” Even a noble king sucked in a cold breath of air.

“You are Shi Hao, also known as the savage youngster?” One of them had already walked up. He asked while filled with ill intent.

“That’s me, did you need something from me?” Shi Hao asked as if he didn’t mind at all. His gaze passed through their bodies and landed on the exceptionally beautiful body of the purple clothed Yun Xi.

Chapter 318 - Disdain

Shi Hao truly acted how he wanted. Even in front of creatures from the Archaic Divine Mountains, he was still extremely carefree, making these youngsters’ faces extremely ugly.

Of course, there were a few youngsters whose expressions remained neutral and indifferent. Their outstanding appearances did not show any change.

These people were all extremely powerful. Their family backgrounds were illustrious, and their bloodlines were noble. During the archaic years, their ancestors were known as gods and devils that roamed freely through the earth and nine heavens.

Meanwhile, the human race was comparatively weaker. When facing creatures from the Archaic Divine Mountains, they would hold them in the same regard as gods. Ever since the ancient times until the present day, whenever youth like these walked around, they would all be surrounded by others, welcomed by countless humans. Humans would all feel intimidated, and as a result act humble and respectful. Where would they see someone as infuriating as Shi Hao?

There were a few youngsters that were extremely discontent. Their expressions were cold and their gazes were chilly. One of them said, “We are talking to you, yet your mind seems to be wandering around and you aren’t paying attention. What is the meaning of this?”

Shi Hao glanced at him and said, “Why do I care who you are? You act high and mighty as soon as you show up, and the first thing that comes out of your mouth sounds like you’re trying to lecture someone, yet you still want me to treat you with respect? From my perspective, it seems like you want me to eat you!”

The crowd was completely stunned. This was just too direct! Was he really revealing his savage nature as soon as he walked up? Even though they had heard rumors before, this was still a bit difficult for them to endure.

“You...”

“You what you, go somewhere and cool off. Don’t be an eyesore!” Shi Hao shot them a look of disdain.

The group of disciples from the divine mountains were completely speechless. Meanwhile, those youngsters that were yelled at immediately felt their faces go pale. Wasn’t this fellow too arrogant? Normally, it was them who berated others, yet today, it was the exact opposite.

“Are you challenging the dignity of my divine mountain?” A youngster asked with an overcast expression.

“Are you challenging my dignity?” Shi Hao coldly replied.

Their words were extremely similar, but the meanings were completely different. One was a divine mountain, and another was himself. This made many people’s expression change. It was such a huge contrast, yet they were opposing each other with equal harshness.

“We’ve heard that you were arrogant a long time ago, but I never expected you to be even worse than what the rumors say. Don’t think that you are really unrivalled under the heavens!” A youngster threatened in a cold voice.

“Are you testing my patience? Don’t overestimate yourself!” Shi Hao was extremely blunt, not giving them any face.

With these words spoken, the atmosphere immediately became cold and those individuals could no longer leave. Killing intent seeped out, and they were ready to spring into combat. They couldn’t endure these attacks.

“Did you all come here to deal with me?” Shi Hao asked.

“Brother has misunderstood, we’ve only come to become acquainted with you. We’ve been looking forward to meeting you for a long time but never had the chance. Today, there is finally an opportunity to.” A youngster smiled and spoke.

Soon, the group separated. Eight or nine stood on the side and did not join the others. They were the ones that were comparatively gentle and did not possess overbearing attitudes.

The other individuals’ faces were ice cold, and their expressions were even uglier.

During these past few years, news of the savage child from the Void God Realm had travelled far and wide. Even those that came from the Archaic Divine Mountains retracted their conceit and arrogance when facing a human who opened ten heavenly passages .

As a result, there were some within these youth that showed restraint. They didn’t show any arrogance and watched calmly from the side. It was because they had heard too many things regarding this savage child and were not willing to provoke him.

Only those individuals who took pride in their Archaic Divine Mountains were discontent from the start. They possessed a natural sense of superiority, yet the other party didn’t seem to pay them any attention, so they became extremely angry. *nove/Lb*(In

“Yun Xi, last time, you’ve fooled me into going to the Northern Sea with only salted fish to eat for two years. In the end, I didn’t obtain anything and almost lost my life. Did you bring these people here to get rid of me?” Shi Hao asked.

The purple-clothed Yun Xi who was always in the back frowned and said, “Nothing to do with me.”

To Shi Hao, what kind of feeling did her words bring? Within the Hundred Shattered Mountains, the two were like fire and water. She felt that this brat was too hateful, daring to even bite her ear.

You have to know that within the great Archaic Divine Mountains, she was extremely outstanding and was regarded as a goddess.

Later on, after experiencing a string of events, she found that this devilish brat was extremely terrifying. His natural talents were too great, and if he was allowed to grow up, not even the divine mountains would be able to deal with him.

"You ate one of our companions in the Northern Sea, so why would you still treat us with such hostility?" Next to her, a silver-haired girl murmured. This was precisely Yin Xue.

"I only know that I was tricked by you guys. There is someone among you that wanted to get rid of me."

"But that had nothing to do with us!" Yin Xue shouted.

"You were the ones that invited me out to sea, but in the end, one of you wanted to kill me! It really is bitterly disappointing." Shi Hao shook his head as he spoke.

"Hello? You've already eaten Qing Yun who wanted to kill you. Could it be that you want us to apologize or even eat us?" Yin Xue was a bit upset.

The purple-clothed Yun Xi stood silently on the side like a gorgeous piece of art carved from ivory. Her beauty had no flaws.

"Of course! You guys need to apologize and compensate me for my losses." Shi Hao's skin was extremely thick as he spoke.

"What do you want?" Yin Xue naturally wouldn't give anything, but she still asked curiously.

"You two should guard my village in my place." Shi Hao spoke in a business tone.

"You... should just die!" The purple-clothed Yun Xi who hadn't opened her mouth finally couldn't hold it in anymore. It was because ever since she encountered the devilish brat in the Hundred Shattered Mountains, he would always shout noisily about capturing her like an archaic vicious beast to guard some stupid village for him.

Whenever she thought about that experience, she would always feel like going crazy.

"Hey, you all that aren't involved, what are you doing here? Stop poking around and go do what you are supposed to do." Shi Hao spoke towards the individuals with gloomy expressions.

The confrontation and exchange of words had long attracted the attention of the nearby guests. Many people were paying close attention, and they all felt an apprehensive fear.

Everyone knew about the devilish child's savageness since a long time ago, but they never thought that he would reach such a level. While facing a group of pure-blooded creatures, or the future most powerful individuals in the wastelands, he didn't seem to care in the slightest. On the contrary, he told them off when given the earliest opportunity.

In particular, after seeing this scene, many human youths felt incredible admiration. They felt as if their emotions were being battered by a torrential downpour. This was just too shocking.

Meanwhile, there were a few aristocratic young ladies whose eyes were flickering with radiance. This was a youngster that dared to lecture creatures from the Archaic Divine Mountains! This kind of attitude gave them a hint of novelty and excitement.

At this moment, many youngsters were feeling a sense of joy. Normally, whenever a pure-blooded creature appeared, they would all feel extremely stifled and nervous. A group of them appeared this time, yet a single youngster directly pointed at and threatened them.

This... made them completely speechless. At the same time, they were stirred up. There were some who cried out in anguish when they compared themselves to Shi Hao. Their ages were similar, but why was there such a huge disparity between them?

From the group of Archaic Divine Mountain youngsters that had gloomy expressions, one walked up and said, "Qing Yun was a friend of ours, yet you killed and even ate him. How do you want to pay back this debt?"

Shi Hao's expression was unperturbed as he said, "Didn't I already say that it was to get revenge on that Green Luan? There's no need for it to be so complicated. Just step up and I'll give you an explanation."

There were eight or nine youngsters on the side that included Yun Xi and Yin Xue. They did not participate and expressed their uninvolvedness in this matter. These people had been rather calm since they arrived.

There were only four individuals remaining, and their ages ranged from fourteen to eighteen. All of their expressions were extremely cold.

"What, are you guys the ones that want to be taught a lesson? They why don't you all just come up together." Shi Hao shot them a look of contempt, as if he wasn't the least bit concerned.

Within the surrounding crowd, all the human youngsters looked like they had been injected with chicken blood. They clenched their fists and held their breaths after seeing the savage child speak with such a tone. His words resonated with them, making them extremely moved.

"He... isn't scared of Archaic Divine Mountains' retaliation?" A young aristocratic lady spoke in a soft voice. She was extremely stirred up, and her small face was flushed red.

"Has he not done enough ridiculous things? He has been known as someone who angers deities and mortals alike, yet he is still leaping and frisking about. That fellow definitely has some kind of backing." Another young lady clenched her fists and said.

Those individuals that originated from the Archaic Divine Mountains had malicious looks in their eyes. They've truly had enough today. After coming here, they weren't able to show off their awe-inspiring authority and were instead repeatedly told off by a human youngster. It truly made them feel like they were being choked.

"I am going to fight you!" Among them, one youngster coldly said.

"Sure, but shouldn't we make some kind of agreement first? For example, if I were to accidentally kill you, could I just bring your body away and barbeque it?"

"This is intolerable. We will fight over there!" Those youngsters couldn't take it anymore. This fellow's mouth was too sharp and hateful.

Shi Hao was astonished and said, "It's the Human Emperor's birthday, yet there is a place for fighting?"

“There were such arrangements made. They were done to liven things up for the emperor.” One of the people on the side spoke up, and it was a palace bodyguard. His age was quite great and appeared to be extremely aged. He had long noticed the situation here.

Right next to the heavenly palace, there was an arena for practicing martial arts constructed for the imperial family. However, when they arrived, he found that there were already people fighting here.

The Imperial Palace staff had already made preparations. They predicted that there would be those that would want to fight, and so they permitted such confrontations here.

It could be said that this was rather unusual. This was the restricted Emperor Palace, yet such a thing really was happening. As a country founded on martial principles, Stone Country’s customs always leaned towards the valiant. Even the imperial family was like this.

Several of the youngsters discussed among themselves for a bit, and soon after, one of them walked out. He had a head of gray hair, and even his eyes were gray in color. He possessed a chilly aura and was going to fight Shi Hao.

In the distance, there were some noble kings fighting intensely, but it didn’t attract anywhere close to as much attention as the fight that was about to take place here. Countless young talents had hurried over, and their eyes were all flickering in anticipation for this battle.

The martial arena was extremely large, and it could simultaneously host many battles. It seemed like it was prepared for extremely powerful individuals, and great formation patterns had been laid out in fear of this place being destroyed.

“It has been said again and again how formidable you are, but I will only believe the result. If you are killed, then all of those rumors will go up into thin air.” The gray-haired youngster said in a cold voice.

Hong

A sphere of resplendent radiance blossomed with wuwu sounds. It directly flew towards Shi Hao with incredible power. The terrifying fluctuations made even the formation patterns below the Martial Arena tremble gently.

Many people became scared, and ominous feelings crept up within them. Their entire bodies trembled, as if they were going to faint on the spot.

“Ancient sacred weapon!” Shi Hao was astonished.

This was a sacred weapon, moreover a complete one. There was no damage to it at all, and once activated, its power would reign supreme. Fluctuations suppressed downwards like vast waves.

If nothing unexpected happens, then Shi Hao would be directly suppressed and blasted into ashes. There wouldn’t be any suspense, because an undamaged weapon like this was extremely rare. It was just too easy for it to defeat someone at the spirit transformation level.

Shi Hao thought of the broken sword, but in the end, he didn’t move. It was a damaged artifact, so he didn’t know if it could withstand this attack. The thought of using the small pagoda came to him, but he felt like it wasn’t worth it. In the end, he remembered another object and raised his left arm.

Strong winds surged mightily, and intense fluctuations were released. Everyone cast their gaze over and they were greatly shaken by what they saw. An ancient sacred artifact was actually revealed in this confrontation! This was a bit inconceivable.

Shi Hao felt a chill. This was definitely something bestowed by by a supreme expert from the Archaic Divine Mountains. It was a supreme treasure, and something not even a supreme expert could make. It had to be something that was passed down.

This was a planned slaughter. The other party definitely received the consent of his seniors to kill him here. It was supposed to be a swift and decisive strike that wouldn't leave any chances open.

He faced the incoming sphere of light. At the same time, a thought appeared in his mind. Other than that enormous spider, there was now another supreme expert he wanted to get rid of from the divine mountains!

Chapter 319 - Divine Left Armguard

"He's running into an ancient sacred artifact!" Many people cried out in alarm. They noticed that Shi Hao had stamped on the ground and charged towards the shining magical weapon. The entire arena trembled under his feet.

The weapon was extremely bright. It was so dazzling that tears would cloud one's eyes when they tried to look at it, and it hurt as if they were being stabbed by needles. It flew out quickly and smashed in midair with the youngster.

"Clear Sky Wheel!" Some people cried out in shock after recognizing the sacred artifact. It had a great reputation, and its power shone brilliantly during the ancient years.

Its body was a dazzling green, and it was in a circular shape. All types of symbols were carved on top, and countless streaks of divine multicolored light were being emitted. It was like a green sun that was covered in countless symbols, both powerful and terrifying.

This precious wheel originated from the Green Sky Divine Mountain, and it had killed many powerful individuals in the ancient era. It had bathed in the blood of many remarkable figures, and was known as an incredibly great killing artifact. After the passage of endless years, it was not damaged after all those great battles. It was still sparkling, translucent, and shockingly powerful.

Shi Hao faced the sky. His left arm shone, and symbols began to flourish. That arm became completely different, as if it was the arm of a deity. All types of symbols covered it densely as it struck towards the Green Sky Wheel.

"What? That's... the aura of a deity!" Everyone was stupefied. They all stared blankly, and their hearts were greatly shaken.

An extremely unordinary aura surged, making everyone tremble. It wasn't weaker than the Green Sky Wheel, and it even seemed more mysterious. The fluctuations that were released felt like a sea of stars.

Symbols poured down and spread from that arm. Shi Hao was wrapped up within, and it completely protected his body. It was almost as if every inch of his flesh was protected by the symbols of deities.

“What is this? How could such a strange sight appear?” The people couldn’t understand, and they stared without even blinking in fear of missing something.

An abnormal ringing sounded in the air, and soon after, the sacred weapon Green Sky Wheel was blasted away and sent flying. It flew high into the sky, and the radiance on the wheel began to flicker chaotically. Its symbols began to slowly disappear.

Meanwhile, on the other side, the savage child was also greatly shaken. The layer after layer of symbols covering his body that were releasing resplendent multicolored light were momentarily extinguished, but they lit up again soon after. It was an extremely shocking scene. His body flew out, and in the end, he smashed into the ground.

When Shi Hao fell onto the ground, the earth itself trembled. However, it was not destroyed, because the formation patterns below the ground activated to protect this enormous martial arena.

In the distance, the Green Sky Wheel’s radiance radiated. It went out several times, but in the end, it shone again. As it was suspended there, it seemed like a heavenly green sun.

“What is going on? He actually didn’t die and blocked a great ancient killing weapon?!”

Many people rubbed their eyes in disbelief. The devilish brat wasn’t killed or turned into ashes by this attack.

Blood trickled out from Shi Hao’s lips. He was injured, but it wasn’t a great hinderance. His body was completely covered in mysterious symbols that extended from his left arm.

“So powerful! This thing really is not bad!” He was quite satisfied. He adjusted his breathing a bit and recovered. His fighting ability hadn’t been affected. He looked in front of him.

When everyone witnessed this result, there was immediately an uproar. This was just too ridiculous! He faced an ancient sacred weapon head on, yet he still seemed perfectly fine.

In the distance, that gray-haired youngster’s face became ashen, and he was breathing heavily. This was a sacred weapon, moreover one whose name once greatly shook the ancient times. Once it was truly activated and revived, it required an endless amount of divine force, so it left him completely empty.

However, this was the result. He simply couldn’t believe that he wasn’t able to take that human youngster’s life.

“This is the freaking Green Sky Wheel!” He cried out loudly. There were a few great individuals in the ancient era who were killed, yet how could a mere youngster at the Spiritual Transformation Realm survive?

“You don’t have the strength to utilize the Green Sky Wheel.” Shi Hao spoke in a soft voice. He took large steps forward and approached the gray-haired youngster.

“Something is still wrong. You... how could you still be alive? You also have an undamaged ancient sacred weapon in your arm!” He began to take steps backwards.

Shi Hao charged forward and quickly shortened the distance between them to suppress him. After all, he had barely avoided a disaster just now, so there was a wave of anger within him. He now already knew that it was the Green Sky Divine Mountain's people that wanted him dead.

An undamaged ancient sacred weapon could easily erase him, so if it wasn't for the fact that he had a mysterious precious artifact within his body, he definitely would have been in trouble.

"Green Sky Wheel, kill him!" The gray-haired youngster shouted loudly and once again forcefully activated the precious wheel in the sky. The green sun quickly swooped down.

Divine light erupted fiercely from his eyes. He was forced to halt his movements. That sacred artifact was too powerful, so he couldn't hold back. He once again lifted his left arm, and a brilliant radiance immediately erupted.

"Armguard... It's a brilliant armguard!" Everyone finally recognized that what had merged with his arm was a strange magical artifact.

The armguard was extremely vague and indistinct, as if it had fused together with his flesh. It was buried within his flesh, and densely-packed symbols were interweaving brilliantly.

"Why do I feel like it is similar to Heavenly Divine Mountain's magical artifact?" Someone said in a soft voice.

"Right, I also feel like it is." A youngster that came from the Archaic Divine Mountains also spoke softly.

Quite a few people looked towards the purple-clothed Yun Xi and revealed looks of confusion. This was an artifact passed down through her ancestors, and it possessed extremely great power. How did it fall in the hands of another?

Hong!

Shi Hao's arm shone and he once again sent the Green Sky Wheel flying. Outside of the bit of blood that trickled out from the corner of his lips, he didn't suffer much damage.

"Is this really a magical artifact from the Archaic Divine Mountains?!"

"It's quite similar, only, it seems a bit special."

The creatures that came from the Archaic Divine Mountains were absolutely bewildered.

Sure, Shi Hao was using an armguard that belonged to the Heavenly Divine Mountain, but it lacked a tangible form and was the artifact's soul that had been extorted out within the Void God Realm.

Back then, the grandfather of the purple-clothed Yun Xi wanted to invite Shi Hao to the Northern Sea, but he wasn't willing to risk being killed by them once he was no longer useful. As a result, he took this precious artifact as collateral.

This was only the soul of an armguard, and would be useless even when brought out from the Void God Realm. However, Shi Hao had fused it with his arm and used his flesh as a medium. This was why he was able to release such terrifying power.

Heavenly Divine Mountain was a well known place within the restricted land. One could see from its name alone that many true deities had originated from it during the archaic era. Its magical artifacts were naturally powerful.

"If not for the fact that the Heavenly Divine Mountain's magical artifact was in a strange state, the Green Sky Wheel might have been broken." Someone said in a soft voice.

The purple-clothed girl Yun Xi was helpless. The fact that this magical artifact ended up in the devilish brat's hands was truly an old headache that returned. If she wanted to bring it back, then the only way was to bring him back alive.

At this time, the gray-haired youngster's body began to shake unsteadily. He couldn't hold on any longer, because he had used up everything he had to activate the magical artifact. At this moment, his body couldn't bear it anymore because he had exhausted too much energy.

He still wanted to release another strike, but Shi Hao didn't give him the chance. A streak of light rushed over as Shi Hao forcefully suppressed his opponent.

Shi Hao had also exhausted quite a bit of energy, because this was still, after all, a divine magical artifact. Even though it was just a weapon's soul, it still required a shocking amount of energy. However, he had ten heavenly passages, so the amount of divine force he possessed far surpassed that of others.

"Kill!"

The gray-haired youngster resisted, but how could he block the opponent's arm? With a wenglong sound, he was suppressed. Divine energy filled this place, and he was swept out. Large mouthfuls of blood flew out from his mouth.

While he was still flying through the air, Shi Hao pursued closely. His leg descended from midair, striking down onto the gray-haired youngster's body and smashing it all the way into the martial arena.

Ka cha sounds rang out. Forget about the gray-haired youngster, even those listening could feel the great pain. Bones were broken all over his body.

"Let me go!" The gray-haired youngster cried out loudly.

"You still want to get up?" Shi Hao raised his hand to strike him down. His opponent clearly wanted to get rid of him, so how could he show any mercy?

"Cough..." From the distance, an elder coughed, and an imperial bodyguard appeared. "Stone Emperor has ordered that confrontations can be held, but no lives should be taken."

Shi Hao thought about it and nodded. This was Stone Emperor's birthday after all, so it wasn't too good to kill several people. As a result, Shi Hao did not kill him.

The gray-haired youngster was about to get up, but Shi Hao kicked him and sent him flying. "Not killing you does not mean that I'm letting you go."

Soon after, everyone became completely stupefied. Shi Hao violently trampled on the gray-haired youngster's butt, causing the bones all over his body to violently crack. He was about to be permanently crippled.

The gray-haired youngster cried out miserably. This was an absolute humiliation, making him lose his mind. A creature from the glorious Archaic Divine Mountain was having their buttocks trampled on, moreover in front of so many people's faces! What kind of face would he have left in the future?

"There are still you three." Shi Hao pointed. As a result, those three youngsters were so scared that they frantically took to their heels, never again showing the coldness they possessed not long ago. They were completely terrified.

Peng

But in the end, not a single one could escape. Shi Hao's speed was too fast, and he used the divine magical artifact to suppress them. Then, he released his ten heavenly passages to freeze them in place. One kick per person, shattering their backs.

"Ah..." The three people cried out miserably. It felt like their hearts were being torn and their lungs were splitting apart. The most important part however, was that it was just too embarrassing.

Shi Hao ignored their blood-curdling screeching and trampled on their bottoms like they were rolling gourds. Pi pa sounds rang from their bodies, and every single one of them became deformed as their bones fractured.

Everyone sighed. These fellows were finished. A shadow would most likely be cast over their hearts for the rest of their lives. They could have provoked anyone, but they decided to seek out the savage child, bringing misery upon themselves.

The young human boys and girls were all shocked, and they covered their mouths one after another. Shi Hao was just too tyrannical! He wasn't all talk, and he trampled on these pure-blooded creatures until they rolled all over the ground.

This... made all of them speechless. Normally, they wouldn't even dare to think about such a thing, yet in front of a mere teenager, such powerful races were completely toyed around with.

"This fellow is truly formidable. Right, does he have a fiancée?"

"Qie, keep dreaming, you starry-eyed girl. That fellow can even beat up creatures from the Archaic Divine Mountains. Do you really think that he wants to marry people from clans like yours?"

"You are the starry-eyed one..."

The battle ended, and several people were brought away in states that were simply too tragic. They even had their bottoms trampled on like this, becoming the laughingstock of this celebration.

"It can only be blamed on their bad luck. They never expected the other side to have a magical artifact from the Heavenly Divine Mountain."

In reality, if Shi Hao did not have this kind of precious artifact, with his current cultivation, even if his talents were world-shaking, he would still have fallen under the ancient sacred weapon. The gray-haired youngster's party would have truly had the chance to kill him.

"How could he have a magical artifact from Heavenly Divine Mountain?" Many people couldn't figure out the answer to this question.

"A girl gifted it to me." Shi Hao replied.

Everyone revealed strange expression, and they all looked at Yun Xi. They felt that there was something they were hiding, or else how could such a thing be randomly gifted out?

"You... what are you randomly spouting?!" Yun Xi was angered badly. A vein appeared on her pure-white forehead. So many people were watching, yet this fellow still dared to speak such nonsense.

"I didn't speak nonsense though. The one who gifted it to me warned me again and again to never lose it, so I've protected it until this day," Shi Hao said.

Following that, he didn't pay them any attention and looked towards the Green Sky Wheel suspended within the air. It drew his attention.

Yun Xi was so angry that her beautiful face was completely flushed red, and even the roots of her teeth were aching. So many people were looking at her, demanding an explanation. She wouldn't be able to clear herself of this filth even if she dove into the sea. This devilish brat was too hateful.

"Little demon, you dare to touch my magical artifact?" A cold voice rang over, shaking the martial arena. Everyone's ears rang with weng weng sounds, and many of them almost collapsed on the spot.

"What old fart is shouting?" Shi Hao was extremely rude as he opposed this stranger with equal harshness.

"A measly grain of rice even dares to oppose the sun and moon. Truly reckless." The cold voice fluctuated.

"Stop flaunting your age and come fight. I'll trample on your butt!" Shi Hao shouted as if he wasn't the least bit concerned.

With these words spoken, this entire place became silent. The crowd was petrified. What was this fellow saying? Did they hear wrong?!

Everyone was struck dumb. This fellow as going to trample on the butt of a supreme expert?

"You don't know the height of the sky or the depth of the earth!" The voice was like lightning as it erupted within the martial arena, shaking many people until they coughed out blood.

"Just come already. Also, big headed spider, you should come at the same time. I'm going to trample on all your butts!" Shi Hao shouted.

Chapter 320 - Little Devil

Things became chaotic in the martial arena after the supreme expert from Green Sky Divine Mountain bellowed, and many of the young people there were shaken. The crowd was absolutely terrified.

However, the teenager in the middle showed no sign of restraining himself and continued challenging his opponent. He pointed at the sky and threatened to trample on the supreme experts' butts. This was just too ridiculously arrogant.

The crowd dared not comment, for they were afraid of bringing trouble onto themselves. They kept their mouths shut and pondered in silence. What was he trying to achieve? Hadn't he provoked enough hatred already?

The sky rumbled, and a giant grey hand with streaks running through it reached down. The hand was endlessly vast, covering the heaven and earth. It was as if the sky itself was falling down, shocking everyone!

The Green Sky supreme expert had made his move, trying to crush Shi Hao in his palm. The dignity of Archaic Divine Mountains' mighty experts could not be desecrated. They had never considered taking Shi Hao alive.

However, the arena illuminated on its own at that instant. The light surged on, forming a sea of stars. As the giant stars turned and rumbled into movement one after another, a new world of stars seemed to be created!

"Heavens, what is that?" The crowd cried out in shock, and even their souls were shaken.

The great stars sounded like thunder, and an innumerable number of them lined the heavens. They formed a boundless river of stars to block that enormous hand. It couldn't descend at all.

"Stone Clan, what is the meaning of this?" Green Sky Divine Mountain's expert shouted.

"Supreme expert, this is one of the palace's internal ancient formations. As soon as it senses danger, it would activate. Your power is too great." At that time, an imperial bodyguard who was extremely aged spoke in a tone that was neither servile nor overbearing.

"Stone Emperor, I demand an explanation. Am I not allowed to kill even a single human?!" Green Sky Divine Mountain's supreme expert was absolutely furious. He didn't pay any attention to the imperial bodyguard, as if talking to him would bring disgrace to his identity. He directly vented his rage at the Stone Country's human emperor.

"You want me to give you an explanation?!" A dignified voice rumbled like thunder, shaking the entire imperial capital. It was even louder than that of the green sky supreme expert.

"Supreme expert, this is my Stone Clan imperial palace. Once power exceeding that of the noble king level appears, it will activate to preserve the safety of this place. There are clear-cut rules in place." It was the imperial bodyguard that spoke. Gray clothes covered his body as he calmly replied.

This was the central location of a country, and all of the clan's imperial family lived here. If supreme experts were allowed to casually take action, then a single attack might destroy many of the clan's upper level figures.

Moreover, the scripture pavilion, precious artifact treasury, ancient medicine hall, and others were all located here. If this place was destroyed, then those parts would suffer as well.

Confrontations were allowed here, so a martial arena was set up. However, a strict power restriction was in effect that prevented power that could threaten the imperial city to appear.

"Stone Emperor, I want to kill him. Could it be that you are stopping me?" Green Sky Divine Mountain's supreme expert shouted.

“Are you trying to destroy the foundation set by my clan’s ancestors?” Stone Emperor coldly asked. His voice came from the central heavenly temple, and countless rays of golden light erupted.

“What does a puny human count for? He dares to insult me, so he must be killed!” The green sky supreme expert coldly spoke.

When these words were spoken, many human cultivators frowned and felt discontent. Even though the human race had declined, speaking like this in front of Stone Emperor’s face was a bit too unbridled.

“Stone Emperor, why do you continue to shield that insignificant ant? He continued to provoke others again and again, disgracing the dignity of supreme experts. He should be executed.” Right at that time, another voice sounded.

Everyone sucked in a cold breath of air. Many people could tell that this was the large spider from the Demonic Spirit Lake. It was a terrifying mature pure-blooded creature with an astonishing background.

“I have already said that this was a rule set by an ancestor after his divine flame was ignited. Are you all trying to disgrace my Stone Clan’s ancestor?” Stone Emperor’s voice was even louder, and the entire heavenly temple erupted in endless golden light. It was as if a golden sun had lit up this entire place.

At the same time, the old imperial bodyguard spoke. “Supreme experts, please do not make things difficult for the emperor.”

“So what if I still insist on killing that measly human?” Green Sky Divine Mountain’s supreme expert shouted coldly.

“Then you are challenging the prestige of the Stone Clan, and you will be eliminated by the Great Deity Refining formation.” The imperial bodyguard calmly said.

Everyone became alarmed. This response was naturally accepted tacitly by the Stone Emperor. It seemed as if a shockingly great battle was going to take place.

At this time, Shi Hao opened his mouth. “Human Emperor, today is your birthday, and I wish you a long life and heavenly blessing. The things that happened are all because of me, so it naturally should be solved by me. Let them come! Do you think my Supreme Palace is that easy to bully? He bestowed an ancient sacred weapon to his descendant to kill me, so his intentions are clear, yet he still dares to hypocritically say that I provoked him. Today, not only am I going to trample on his butt, but I am going to step on his old and wrinkled face!”

When everyone heard this, they all became stupefied. His words were becoming more and more fierce, and his arrogance was truly through the heavens. He was completely fearless against these supreme experts!

“There is still that big-headed spider. You’ve taken advantage of my Stone Clan and provoked my grandfather, forcing him to leave. Today, not only am I going to trample on your ass, I am also going to chop off your eight legs. I want to see how threatening and arrogant you will appear then!”

Everyone felt dizzy. This fellow was mad, and there was no saving him. The Stone Emperor already tried his best to quell the situation, so why did he reveal his anger instead?

This... Everyone was speechless.

"You are just a human at Spirit Transformation realm and less than a moth or dust in front of my eyes. Killing you isn't any different from trampling a maggot to death!" A demonic spider appeared. It was even bigger than a mountain as it towered into the heavens. It was incomparably terrifying, and the aura it released was shocking!

"You might as well be farting out of your mouth. Big spider, why don't you get your ass over here and let me trample on it!" Shi Hao challenged without any fear.

This scene stupefied everyone. They could see that he was truly challenging the supreme experts. He wasn't displaying false strength, but it was still a bit too inconceivable. What kind of odds were they talking about here?

"My Supreme Palace cannot be disgraced. Come!" Shi Hao issued his challenge.

Everyone stared blankly. This was not the first time he brought up this name, and many people were amazed. Didn't he come from the Heaven Mending Pavilion? So what kind of relationship did he have with this Supreme Palace?

"Supreme Palace is from outside this region. Every generation, there would only be one disciple, but they would always become a world-changing supreme expert!" Someone said softly. Their voice wasn't loud, but it made many outstanding talents tremble inwardly.

Honglong

The archaic demonic spider took action. An enormous spider leg descended, and waves of demonic might erupted. Black mist overflowed into the heavens.

However, the imperial palace's great formation was extremely terrifying

"Demonic spider, are you going to overstep your boundaries?" Stone Emperor's voice sounded, and it was even more dignified now. The radiance from the central heavenly temple was even more terrifying now, as if a great golden flame had been ignited, engulfing high into the sky.

At this moment, everyone kept quiet out of fear. Meanwhile, the creatures from the Archaic Divine Mountains were all moved. Why did the golden flames make their hearts beat so heavily?

"Supreme expert, if you violate my clan's ancestral regulations, then don't blame us for being rude. The Great Deity Refining Formation will be used to defeat you." The imperial bodyguard spoke.

"Martial friend, it's better to back off. Why are you arguing with a younger generation so angrily? Just go back and devour some giant cities or bloody prey to quell your anger."

When these words were spoken, there wasn't single person whose expression didn't change.

This was a supreme expert that was trying to get the demonic spider to exit the stage. At the same time, it was spoken rather fiercely. If something happened here, then they definitely wouldn't be able to avoid a great disaster. Who knew when such a calamity would end?

"Fine, I'll go back now and discuss this later." The archaic demonic spider backed off and returned to a palace. It did not pay a visit to the Stone Emperor.

The Green Sky Divine Mountain's supreme expert also left with the sacred weapon. He did not continue to confront Shi Hao.

The devilish brat was incredibly regretful. Why was he stopped again? He was unsatisfied and said, "We will settle the matters here outside the palace. You two, wash yourselves clean and wait for me to behead you!"

This really was a little devil. Many people were speechless. Why was he not scared of heaven or earth and dared to provoke anyone?!

"Fine, then this matter will wait. This old one wants to see what a speck of dust like you can stir up and whether you really can knock down a star from the sky." The archaic demonic spider replied with an angry laugh.

"It has been many years since someone spoke like this to me. This old one also wants to see whether or not this so called Supreme Palace's disciple is the real deal. I want to see if you can really display a world-changing cultivation!" Green Sky Divine Mountain's supreme expert also shouted coldly.

The two supreme experts' killing intent was extremely dense, and they firmly decided to eliminate him.

A commotion broke out among everyone. A tremendous storm was brewing, and everyone was looking forward to it. They wanted the birthday to quickly end so they could glimpse at the impending volatile situation.

Everyone had a vague feeling that Shi Hao might actually have some kind of help, or else how would he dare challenge those two supreme experts? Could it be that there really was a Supreme Palace behind him, and his teacher was coming?

Otherwise, he was definitely insane!

Shi Hao's expression was relaxed as he left the martial arena. It didn't seem like he just left a great battle at all, still acting casually. He strolled around, as if he was walking a dog.

Or in better words, he was leading along a small wolf. He wandered around all over the place in an absolutely carefree manner, as if he didn't care much about the upcoming great battle against those supreme experts.

"You... really are too crazy. What are you going to do later?" Huo Ling'er came back from offering her congratulations and began to nag about. Her graceful physique was a head taller than others. She had a small waist, and together with a beautiful pure white face, her appearance was incredibly moving. Only, at the moment, there was a bit of worry in her expression.

This fellow never seemed to calm down. No matter where he went, he would always stir up some trouble. Huo Ling'er cursed silently at this trouble-stirring brat.

However, after thinking it over carefully, she realized that this fellow never suffered any real losses. He would always only flip out in anger when he knew he had the strength to suppress others, but this time, it was completely different. These were two supreme experts!

"If you don't have a plan, then you need to quickly escape." Huo Ling'er spoke quietly. She looked left and right before transmitting sound mentally. "I still have the Void Beast skin my father left with me. You can use it to hide in the void and escape the capital. You might be able to escape this tragedy."

"Who am I? A heaven warping divine talent who is just and honorable. Why do I need to leave? In a bit, I'll beat them until they piss their pants in terror and beg for their lives." Shi Hao didn't mind it at all and continued to accompany the small wolf as if he was walking a dog.

"You..." Huo Ling'er didn't want to bother with him any more. This fellow was so relaxed! Did he not know how terrifying a supreme expert was? A single finger could kill him a hundred times over.

A few youngsters from the Archaic Divine Mountains watched from the distance while conversing quietly. They were also extremely bewildered. What kind of backing did he have that gave him the confidence to challenge supreme experts?"

At this time, the pure-clothed Yun Xi also gracefully walked over. Her magnificent style was unmatched in this generation, and her beauty could cause a city's downfall. A wisp of purple smoke seemed to envelop her body, making her astonishing beauty seem hazy.

Yin Xue accompanied her at the side, appearing lively. She was also extremely beautiful.

"Don't tell me you are here for my divine armguard. I still need it to protect my life. If you want to get it back by threatening me, then I definitely won't give it up." Shi Hao said.
