

Perfect WD 371

Chapter 371 - Opening the Dusty Battlefield

The sky was covered in specks of light, and these lights scattered downwards like brilliant petals. The passage was shining with resplendent and holy radiance, and Shi Hao walked out with large steps.

The domain embodiment's figure went rigid. Just now, its butt had been groped, this... was inconceivable! What kind of identity did that figure have? There was actually someone who dared to provoke him like this! A shiver ran down his back.

That passageway was just too far. If he had been closer just now, who knows what kind of unthinkable result could have happened!

The domain embodiment trembled. Even now, he felt some restraining fear. He was the Void God Realm's will and extremely powerful, yet there was someone that could take advantage of him.

He earnestly thought things over. Might one of the deities that took part in the creation of this spirit world still be alive? But that still shouldn't be correct. If it was a deity, why would it lower itself to do such a thing?

Nearby, there were many creatures who were dumbstruck. This fellow was too ridiculous! He didn't walk a normal path but instead suddenly created this kind of passage!

Dense mist swirled about as Shi Hao walked out from the passageway. His eyes were bright as he looked about. In an extremely narcissistic manner, he yelled, "When the sky roars, the great Shi Hao will make his dazzling entrance!"

Everyone became speechless. This fellow truly knew how to stir things up!

"*Ah pei!* This little bastard's skin is so thick!" The creatures from Demonic Spirit Lake were discontent. They were all furious.

"How did he get here? How can he create a passage in the Void God Realm? It seems rather amazing." There were some who were confused.

This place stirred with commotion. Shi Hao's entrance was extremely unconventional, making the people there shocked and furious.

The multicolored light receded and the passageway disappeared. The domain embodiment's face was rather unpleasant to look at, and only after a long time had passed did he ask, "Why didn't you come here through the true path?!"

"True path? My body is true, the path is true, so I've always walked the true path. As for why I arrived by air, it's because I had no choice. This place is drowned by people, so I couldn't enter and could only do this," Shi Hao replied.

There was not a single hint of a smile on the domain embodiment's face. What he really wanted to ask was who sent this youth in, but how could he do so in front of all the people here?

In the distance, the Fire Emperor, Stone Emperor and the other experts trembled. They stared at the location where the passage disappeared for a long time and couldn't calm themselves down. n)-
017E1BIn

"Younger brother, you finally came. I've waited for you for a long time already. Why don't we start this battle now?" Shi Yi opened his mouth. The edges of his clothes fluttered behind his standing figure, and his hair flew about. His eyes revealed a malicious glint.

Everyone tensed up. They all knew that the true battle had come. All those days of waiting was for this very moment; they were finally going to see who was stronger and who was weaker!

"Little demon, you've provoked my Demonic Spirit Lake again and again. Today, everything will conclude. I want to see just how much longer you can play your little tricks!" In the distance, an enormous spider shouted with hatred.

Shi Hao first killed a black-eyed demonic spider within Stone Country's capital, and then he destroyed their gate and several palaces in the Void God Realm. They were absolutely furious.

Shi Hao indifferently glanced over, seeming as if he didn't care in the slightest. This look was full of contempt, and the meaning it implied was that he didn't accept that statement and welcomed the battle. This was simply undisguised disdain.

This kind of look was humiliating and one that did not give any 'face'. He completely disregarded all the demonic spiders, making their faces fall ashen and become utterly unpleasant.

"Go!"

The domain embodiment shouted loudly. He brought Shi Hao and Shi Yi into the heavens, where they then stepped into a golden passageway. At their sides, sweet smelling lotus flowers drifted about sacred springs.

This great golden road led straight into the skies. It was mysterious and sacred, leaving a yearning feeling in everyone's hearts. It was clear that it connected to the sky battlefield.

Chi

A sky-shattering sound rang out. Many people soared up on their precious artifacts towards the heavens, and many of these were cultivators from great sects.

This golden passageway seemed like it could take them into the world of deities. Shi Hao was rather curious, looking left and right from the domain embodiment's side. Sometimes, he would even go to the edge of the road to pick a few lotus flowers. This filled the domain embodiment's head with creases. Did this fellow really come here to fight with everything on the line? Why did he not seem nervous in the slightest? Wasn't he a bit too relaxed?

"Younger brother, it seems like you haven't grown up yet. Still a child..." Shi Yi released a gentle chuckle.

The domain embodiment remained silent. One of the two was truly a little devil, while the other was mature to a ridiculous degree. They were both extremely abnormal.

“What are you worrying so much for? Look, there is a bird over there. Are you going to nag it too?” Shi Hao pointed into the distance at two messy old men that were hiding sneakily within the crowd.

These were precisely Coin Elder and Bird Grandpa, and there was a little bird on one of their shoulders. It seemed rather discontent and shouted angrily, “Mind your own damn business!”

The crowd was completely speechless. This... was a really disrespectful bird! Bird Grandpa hurriedly shushed it and told it not to say stupid things.

Shi Hao’s group seemed to have entered the nine heavens on this great golden road. They entered a mysterious domain where hazy mists fluttered about and strong winds blew ferociously.

Those that followed over could not enter the golden passageway, because this was not prepared for them. They could only fly on their own precious artifacts. However, the higher they went, the more difficult it became due to the powerful resistance.

“Not everyone has the qualifications to watch the battle.” The domain embodiment merely said this softly.

Soon after, at least half the people gave up. They simply couldn’t fly on anymore. There was a pressure here that made them feel as if they were being suffocated.

This was a mysterious and ancient place. The great golden passageway brought Shi Hao and Shi Yi to the outskirts of the heavens. They arrived at an ancient domain!

Other than the haze, a ruined building appeared before their eyes. The grand and imposing construct floated in midair, and despite having collapsed, it still gave off a solemn feeling.

“We’ve arrived. That place is one of the sky battlefields!”

The crowd was shocked. The battlefield that floated in the skies was extremely large. It was enough for these two to fight to the end.

From what they could see, it was a faint golden color, as if it were cast from divine gold. There were many rules and orders carved in place. The golden stone stage seemed dignified and magnificent.

“The sky battlefield that has remained dusty for so many years is finally about to be opened again! It really is exciting! I hope that the day when heavenly talents collide will come sooner!”

In the distance, a divine flame throbbed within the haze. A extremely arrogant youth surveyed the divine-level stage. His eyes burned with scarlet flames, as if they could burn through the stars in the heavens!

Behind him stood the imposing figures of several powerful pure-blooded creatures.

“This one isn’t large enough. It isn’t as large as the one recorded in the records.” At another place, the witch muttered to herself. Her beautiful and seductive eyes bloomed with an astonishing radiance.

Nest to her was a middle-aged male. He seemed like an existence detached from this world, almost like an immortal. He said, “The scope of the stage’s area is related to the cultivators’ cultivation realms.”

With a flash, Shi Yi and Shi Hao seemed to have simultaneously stepped onto the battlefield. The two were separated by quite a distance as they confronted each other. This dusty battlefield was suffused with killing intent after what seemed like just a moment.

The faint golden battlefield and enormous centerstone were vast and fierce. They flickered with heavy and ancient symbols to prevent shockwaves from leaking outside the stage.

“Who do you think will win? What will be the end result?” This was the question many people were wondering about. They had discussed this continuously over the past few days, and they were going to get the results soon.

“I think that the dual-pupiled individual has eight times the chance of winning. After all, he is truly strong and balanced in all aspects. On the other side, even though Shi Hao is rather stunning, he lost his supreme being bone and lacks essential knowledge.”

This was a thought that a large portion of the crowd shared. They all felt that Shi Hao was inherently weaker and in an inferior position.

“Not necessarily. After losing his supreme being bone back then, Shi Hao’s body was in a dying state. He should have died, yet he survived and still became a supreme youth. Since he managed to create a miracle, I believe that he will show us another amazing sight. His chances of victory aren’t small.” There were naturally those that were on the other side and favored Shi Hao.

There were heated discussions everywhere as they analyzed this battle. After evaluating everything they knew, they felt that the odds were seven or eight to one in Shi Yi’s favor, for he was just too outstanding. His natural circumstances were just too perfect!

On the stage, the two figures turned into beams of light. They were like two comets as they collided, erupting with dazzling radiance. The explosion that resulted was thunderous.

Hong!

This was unlike any ordinary confrontation, but rather like the collision of two Archaic Divine Mountains. The entire world rumbled in resonance, and incomparably intense shockwaves that left everyone greatly shaken were released.

With this attack, haze roiled and divine light surged. The divine force that resulted was too terrifying as they battered down like boundless ocean waves. It didn’t seem like something that humans could produce.

After a period of time, peace was restored to that place. The various streaks of light disappeared, and the only thing left were two figures in distant confrontation.

Everyone was overwhelmed. The power just now left many people shaken. If it were themselves up there, they would have most likely died. That one strike was just too difficult to defend against.

“Little brother, only a month has passed, but your physical strength has become even stronger.” Shi Yi’s eyes flickered with light. A type of annihilating power could be seen within them.

“You’ve used the golden body liquid again?” Shi Hao revealed a look of shock.

Afterwards, the two sank into a state of silence. However, many people noticed that their auras were climbing and becoming increasingly terrifying. Shi Hao's clothes began to flutter about, making him look like a revived deity!

Shi Yi was in a similar state. His pores widened, and streaks of divine light gushed outwards. His entire body seemed like it was taking in and sending out divine flames as he resonated with the world and received its natural force.

"Yi'er, you absolutely cannot hold back. Hurry and kill him!" From the distance, the large golden spider said to itself.

Besides it were several supreme experts. It was obvious that their relationships with Demonic Spirit Lake were excellent. "Golden spider brother, we've received your invitation. Once this battle ends, we will definitely attend and celebrate!"

"I believe that it will definitely be a grand occasion. This youth named Shi Yi will definitely rise to greatness. He is worthy of his matchless reputation." Another supreme expert nodded and spoke.

Hong!

Shi Yi's palm became purple. Multicolored light gushed out, as if purple energy had arrived from the east. It possessed an unrivalled aura as it struck out with terrifying power!

Currently, his divine might was astonishing and difficult to block. Forget about the sky battlefield, even those that were watching trembled. They could feel the horrifying energy.

"What kind of precious technique is this? It's so powerful!"

With a *weng* sound, at what seemed to be the same time, scarlet multicolored lights erupted from Shi Hao's location. It was as if he was being reborn through flames as an incomparably powerful divine force swept out.

He raised his right palm and pressed outwards. Recreated on his scarlet palm was an ancient symbol that flickered with an astonishing fiery light!

Chapter 372 - Vermilion Bird Versus Qilin

The fluctuations in the sky battlefield were incredibly intense. The battle between the two youths seemed like a battle between a soaring eagle and a mountain smashing ape. Their fast and ferocious attacks left everyone shaken.

Hong

Divine light erupted, and it was as if the heavens itself were blasted open!

The two individuals traded attacks and shot all over the battlefield. They both seized every opportunity and released ferocious attacks while moving. The scene affected everyone's minds greatly.

Weng

The center of Shi Yi's palm flickered with purple radiance. A mist curled up, as if a great purple cloud was being formed. The haze began to blur the entire sky battlefield.

His body was as strong as a dragon's, and he moved like lightning. His feet were a foot above the ground as he quickly shot forward with his right arm striking outwards. His entire body was enveloped in purple multi-colored light, and it was exuding energy that was so ferocious that it was a bit horrifying.

Shi Hao released a grunt and charged in a similar manner. Scarlet multicolored light submerged his body, and his arm shone with sparkling light. The ancient symbol at the center of his palm shone to meet his opponent head on. He didn't back off in the slightest.

Right at that moment, everyone could hear what seemed to be the roars of a dragon and the cries of a phoenix resounding through the air. The two individuals attacked each other ferociously and continuously collided. Light continuously erupted between the two of them.

Floating in the void around them were ancient symbols that were imprinted within this world. They embodied great daos and were resonating with the two of them.

The two individuals' fight was truly world-shaking. They had just begun, yet the most terrifying and great divine abilities were already revealed. Gusts of wind smashed about and auspicious multicolored lights surged.

Everyone felt dizzy from what they saw and were extremely astonished. All of them began to wonder how many of them could take their attacks at their cultivation realm. Needless to say, these two were truly supreme youths!

Shi Yi's eyes revealed an indifferent expression. His leg stomped on the ground and caused the earth to quake. The entire battlefield began to tremble, and countless symbols extended beneath his feet.

Si!

Everyone sucked in a cold breath. Forget about a normal battlefield, even an archaic demonic peak would be shattered. However, the sky battlefield was completely unaffected with only symbols flickering about.

"His strength is so great! That kind of electricity indicates that he originally could have stepped onto this battlefield, but was only being stopped by symbols."

Right at that time, Shi Hao soared into the air. He could feel a powerful force smashing at him from underneath like an enormous sledgehammer.

Shi Yi's black hair drifted behind him. His eyes became even colder as he directly rushed into the air. His entire being was like a streak of lightning as he charged at Shi Hao murderously.

Peng

When they collided this time, both of their arms continuously shook. In just a split second, over a thousand exchanges were made. It was incomparable and at a speed where no one could keep up.

Finally, the entire world was blasted by thunder. Purple radiance and scarlet multicolored light erupted as if two stars had smashed together. The two individuals flew out backwards.

This strike did not decide the battle, but was rather the beginning. Now, the true confrontation's curtains had been raised.

Shi Yi's feet stepped on the void, and each time his foot descended, a dull sound would be heard. It didn't sound like he was stepping on air, but rather as if he was stepping on a divine drum, making people's souls tremble.

"What a terrifying foot technique. What kind of divine ability is this?" Someone from the crowd asked.

Shi Yi pressed forward, and with each step, his power would increase by a large amount. During his fourth step, this entire place trembled in response.

Even Shi Hao's expression changed. This kind of precious technique was extremely terrifying, as its power seemed to continuously increase. It almost seemed like every step could cause the entire world to rumble and almost shatter.

He couldn't endure it anymore and rushed forward murderously. A glaring red streak of light flew out from his palm and hacked at Shi Yi. The sound of a bird cry followed the attack. *nOVe-lB-1n*

Shi Yi released a low grunt. His right arm shone with purple light, and it was as if a barbaric dragon had revived as he faced the attack with his finger. With a large explosion sound, it made contact with the red light and created a dazzling eruption of radiance.

At the same time, he took his fifth step. The world seemed to explode with the sound of death, as if a thousand people were roaring at the same time. Everyone began to shiver inwardly.

It was clearly just a step, yet such an abnormal effect was produced. It left everyone dumbstruck and horrified.

Hong!

When Shi Yi's sixth step lowered, the space around them released a cracking sound. A purple mist filled the air and covered everything.

"Those are Qilin steps!" Someone cried out after finally recognizing the divine ability.

Shi Hao was currently feeling an extremely great pressure, as if he was being crushed under tens of thousands of mountains. It felt as if he couldn't even breathe as he faced this seemingly unending pressure.

"Kill!"

Following a short shout, Shi Yi took his seventh step. Killing intent overflowed into the heavens, and a roar that sounded like three thousand devils shouting shook the world.

It was as if all living things were going to be extinguished and this world was turning back in time. It was just too horrifying!

All types of symbols rose within the sky battlefield and formed an enormous curtain of light. It surrounded that area, or else large numbers of cultivators would immediately explode.

This was the Qilin steps technique. It possessed an unmeasurable might that could destroy the world and exterminate all enemies.

Shi Hao's chest was in great pain as he faced this extraordinary pressure. He continuously made imprints as his body staggered in reverse. Eventually, a strand of blood could be seen on the corners of his lips.

"What? Even someone as strong as Shi Hao was injured?" In the distance the people were shocked.

Everyone looked at their own cultivation realms, especially the pure-blooded creatures that had fought against Shi Hao before. They knew how terrifying he was, yet he was actually injured.

"This is an archaic vicious technique, the true Qilin technique that is not passed down among descendants. It's the pure-blooded Qilin's divine ability!" Someone cried out in astonishment.

Perhaps this really was the correct explanation. Shi Yi had obtained the Qilin technique, and at this moment, a portion of its power was revealed. It shook the entire world and made all the cultivators present tremble.

How heaven defying was the Qilin precious technique? It was actually in the hands of a human! Hadn't this long been lost in transmission?!

Soon after, everyone recalled that Shi Yi was a dual-pupiled individual, and that his eyes could see through all things fabricated and into the source. He most likely used those eyes to pry into the great power left behind by the Qilin.

"Hold on, it seems like a damaged Qilin technique. It isn't complete." In the distance, a supreme expert opened his mouth. When his eyes opened and closed, brilliant light would shoot out.

Blood leaked out from the corner of Shi Hao's lips, but he did not fall back. Instead, he roared and spat out a gush of scarlet flames. It formed a divine bird and smashed forward.

He did not become dejected in any way and seemed rather unaffected as he fiercely attacked Shi Yi. His own body seemed to have become a huge scarlet flame.

Honglong

The divine bird that flew from Shi Hao's mouth halted Shi Yi's steps. It brought with it endless flames and made his Qilin steps sluggish, unable to display their full power.

Meanwhile, Shi Hao's body was extremely strong and powerful. He was like an invincible vermillion bird as he soared into the air.

"That's the Vermillion Bird's precious technique!" Many people cried out. They were so shocked that their jaws almost dropped onto the ground. They had just seen the great Qilin precious technique, yet now they saw the use of another precious technique, the Vermillion Bird's precious technique. It truly was shocking.

Shi Hao's entire body was blazing with flames that emitted terrifying energy. His body was like scarlet jade as it released a precious sparkling luster. He possessed a forceful and thunderous might. Within the terrifying flames were streaks of electricity.

Hong!

His movements were too fast. As he charged violently, his palms were like wings. The winds began to stir around, and the heavens seemed like they were going to be shattered.

This time, Shi Yi was sent flying after being struck by his opponent's fiery wing. He was like a kite with its strings cut loose and was almost struck outside the sky battlefield.

Blood flowed out from the corner of his lips, which he wiped off with his sleeve. His face was full of shock, but soon after, indifference returned to his eyes. He once again soared up murderously at Shi Hao.

"The Vermillion Bird's Four-Fold Barrage was actually used to such a high level! Despite being young, his abilities are to be respected! Just how powerful is his physique?!" In the distance, the Fire Emperor sat on top of a chariot within jumping divine flames.

He had never cultivated the Four-Fold Barrage himself, but he knew of its existence from ancient records. Those that did not have physiques on par with the Vermillion Bird could not cultivate it, or else their body would inevitably be destroyed. This greatly shocked the Fire Emperor.

Huo Ling'er sat down and said in a soft voice, "Father, do you think he can win?"

"It's not easy to say." The Fire Emperor shook his head.

Ahou...

After a low roar, a purple Qilin appeared behind Shi Yi. It was divine and dignified, as if it was a revived heavenly deity overlooking its enemies.

At this moment, there wasn't any point in holding back. The Qilin technique was revealed to the world.

Meanwhile, Shi Hao was fearless as well. His arms moved as if they were fiery wings. He released a shout, and a fiery Vermillion Bird appeared behind him.

It was bright red and resplendent. The enormous Vermillion Bird was vivid and lifelike, and its body covered the horizon.

"Embodiments of techniques!" Everyone became overwhelmed with shock.

These two individuals were limited by their cultivation realms, yet they could utilize such world-shocking divine abilities!

Shi Yi had merged with the Qilin, becoming as tall as a mountain. At times, he would be in human form, and other times, he would be a purple Qilin. Meanwhile, Shi Hao had merged with the Vermillion Bird. At times, he would be a strong young man, and at other times, a Vermillion Bird would soar through the air.

Peng

A mountainous purple Qilin surged with purple energy. It was grandiose and valiant as it pounced at the scarlet divine bird.

Shi Hao's body merged with the Vermillion Bird. He used the Archaic Four-Fold Barrage to make his body fiery red. He seemed to possess an endless amount of energy. His body was surrounded by symbols as he rushed forward to face his opponent head on.

This was an incredibly great collision. The Qilin roared and the Vermillion bird cried. The entire sky began to tremble ferociously, as if it was going to be shattered.

The crowd was horrified. The light gold battlefield was constructed from special materials, and it was covered in even more mysterious symbols that could protect against everything.

Despite this being the case, there were small cracks that appeared on the cornerstone, shocking everyone to the extreme!

"This... Even on a deity level battlefield, this kind of scene is almost never seen!" Grandma Xihua's face changed. She looked towards the quiet girl at her side.

Fairy Yue Chan had bright eyes and white teeth. Her beautiful hair fluttered about, and her white clothes were like drifting snow. She did not say anything and was extremely calm, and seeing this made Grandma Xihua become less tense as well.

Hong!

A violent collision rang through the air. The railings of the sky battlefield were shattered into a dozen or so pieces. The domain embodiment was startled, and he personally acted to fix the gap.

"Kill!"

In the sky, the purple Qilin and scarlet Vermilion Bird once again formed their human counterparts. One had purple energy surrounding him, and the other was surrounded in a scarlet haze. They began to exchange attacks in a lightning-like manner, swiftly and ferociously.

"So intense and terrifying! This is worthy of being a decisive battle between supreme youths! Even precious techniques like these are revealed. It really is shocking!"

The crowd discussed in a low voice. The fight between these two was just too intense! Their fight has made the skies dark and the sun and moon lightless. Ghosts cried and gods howled. It was as if hell itself had descended onto this world.

"Who do you guys think will win if this battle continues?"

"Why do I feel like the little one is a bit more ferocious? It seems like his chances of winning are a bit higher! That Vermillion Bird can simply break through the heavens and smash into the underworld!"

This battle left everyone dazzled and in a terrified state.

Hong!

Shi Hao remained calm. He used the Archaic Vermillion Bird's Four-Fold Barrage in a ferocious and overbearing manner. It was utilized with great proficiency and displayed to its greatest power!

With a pu sound, Shi Yi spat out a mouthful of blood. Under his opponent's tyrannical attacks, he suffered an injury. His purple Qilin image began to tremble endlessly.

“Is the outcome going to be decided? Is the smaller one going to win?” Someone cried out in alarm.

“Impossible. Do you know who Shi Yi is? He is the dual-pupiled youth, and right now, he’s only using techniques. He still hadn’t used his greatest divine ability yet. He will definitely win this battle!”

“Even though you don’t want to admit it, it’s clear that Shi Yi has a ninety percent chance of winning. The cruel reality will be revealed soon.”

Chapter 373 - Battle Between the Stone Clan Brothers

The Archaic Vermillion Bird’s Four-Fold Barrage versus the Qilin technique; these two individuals fought until the entire sky became muddled and dim. Everything was covered in a hazy fog, and all types of figures flickered about.

With the great battle reaching this stage, all types of strange sights appeared. It was as if ancient monsters crawled out from hell. Figures appeared everywhere, and weeping sounds filled the battlefield.

Those figures could clearly be seen around those two individuals. From time to time, they would throw themselves outwards and even threaten those two individuals.

When everyone saw this, they all became alarmed. Soon after, some of them became horrified. Their brows creased, as if they thought of something. In a trembling voice, someone asked, “Could it be that the legends are true?”

“On the deity-level battlefield, those that passed away were all history’s most outstanding heroes. Their battle souls are almost immortal, and even though their bodies died, their resentment and unwillingness will reappear when great battles like these unfold. These souls will then join in.”

When this rumor was brought up, it immediately raised an uproar. Many people began to mutter, and brilliant lights shone from within their eyes as they watched those figures carefully. They felt a wave of numbness brush past their scalps.

In the distant past, in an entirely different era, just how many outstanding talents like Shi Yi and Shi Hao had died here?

Without a doubt, if nothing unusual happened, one among Shi Yi and Shi Hao would join their ranks.

When they thought of this possibility, everyone sucked in a cold breath of air. Just the thought of a spirit of such an outstanding talent was scary. They truly possessed the aptitude to overlook the world!

Aowu... A malicious spirit with dishevelled hair threw itself at Shi Yi. Its entire body was covered in scales, and its tyrannical aura penetrated one’s bones.

Peng

Shi Yi released a cold snort. While he fought against his opponent, he swept a leg onto this figure’s claw, bringing forth a dazzling light. The void figure scattered and disappeared.

“They have substance?!” Upon seeing this, everyone felt their hair stand up straight. This... when they confirmed their suspicions, they realized that this truly could disturb the great battle. These were ancient heroic spirits.

At the same time, Shi Hao also encountered an attack, moreover two at once. There was a green luan and a flame python. The green bird’s body was like green gold, flickering with cold luster. The scarlet python’s body was like flames as it erupted with blazing multicolored light. They both attacked him, one in front and one in the back.

This made him suspicious. Could it be that it was because he killed these types of creatures before in the real world that he encountered these strange things here?

Shi Hao remained fearless. These weren’t actually living creatures in the end; rather, they were those that were defeated in the ancient era. They had died a long time ago, so their power had long been extinguished. The amount of strength they could display was limited.

Hong!

His entire body erupted with the Vermillion Bird’s fiery light as he rushed forward with ‘yang’ force. With a hong sound, two ancient spirits were set aflame like torches. They eventually turned into ashes.

Dang n**OVe-lB**-1n

In the next instant, Shi Yi’s palm became purple, upon which an ancient symbol appeared. A powerful divine might was stirred. The shining palms and fingers slammed over, and over ten purple Qilins appeared.

This was a fatal blow, a forbidden magic of the Qilin technique. Rumor has it that if it was perfect and used by the ancestral Qilin, then it would be able to crush an army of devils and gods!

Shi Hao’s movements were imposing. He quickly rushed over without any sign of retreating. Scarlet symbols flickered about his body, making him as strong as a human form Vermillion Bird. Following a long roar, he released his violent attack.

He didn’t put on any defenses and instead utilized the Archaic Vermillion Bird’s Four-Fold Barrage to its limit to fight against Shi Yi. A sonorous sound reverberated throughout this area as soon as the two made contact.

Dang

Two palms, one flickering with purple multicolored light, sparkling and translucent, and the other glistening and bright red like blood, ferociously collided. The sky would burst with explosions from time to time, as if this place was going to burst.

“So powerful!”

Everyone gasped. This kind of confrontation was just too terrifying.

Dang, qiang...

When these two met, it would sound like a divine drum was beating. It was as if the sounds of weapons being refined in the heavens were ringing. That kind of resounding noise transmitted through everyone's bones and into their souls.

Everyone became dizzy from watching them. As those two individuals flew about, their hearts undulated up and down quickly. It gave them an extremely strange feeling. If a clan had just one supreme youth like this, that would be enough!

However, what these individuals couldn't comprehend was that these were brothers that came from the same clan, yet they ended up fighting a battle to the death.

Hong!

Shi Yi swooped down from high up in the sky. Surrounding him were ten Qilins. He unleashed the most severe decisive attack, and the aura around his entire being became utterly terrifying!

The pair of palms seemed to be pushing a roulette of life and death as they smashed towards Shi Hao. This was known as the Qilin wheel during the archaic years, and any individual caught under it would not even be left with a skeleton.

This was the first time Shi Hao's expression changed. His fiery red body quickly shifted, avoiding his opponent's most powerful attack.

The older youth's Qilin killing blow brushed past and landed on the faintly golden battlefield. With a hong sound, this place was smashed open. It almost seemed as if a great crater was going to be formed.

Everyone was overwhelmed with horror. The sky battlefield was being destroyed? The dual-pupiled individual was just too powerful!

Shi Yi's Qiling wheel smashed into the golden cornerstone, but it did not sink any further. His body was flexible and strong, allowing him to quickly stop. One hand propped up the ground, and his body stabilized. He then attacked in all directions.

With a peng sound, stones flew about everywhere. The golden cornerstone was shattered, and the body that swept out was almost invincible. It was like a whip as it smashed towards Shi Hao.

There were ten Qilins around him the entire time. This was the same as having the body of a Qilin, allowing him to have an incomparably powerful strength.

Shi Hao's eyes released a cold glint. His essence energy was surging, and with a skillful leap, he soared high into the air. He then ferociously stamped down on Shi Yi's body.

This strike was incredibly efficient and ruthless. Imposing and direct!

Hu...

A frantic gale appeared, whistling through the heaven and earth. The golden cornerstone below cracked apart and was stirred into the air. Shi Yi was like a spinning top as he slightly spun around. He then rushed towards the sky after barely avoiding Shi Hao's feet.

Moreover, he took this chance to quickly make his own move. The Qilin steps emerged, and he once again stepped forward continuously. Each step made the entire world resonate.

Hong, hong...

This time, he directly took eight steps towards Shi Hao. It was more terrifying than last time, causing his blood to surge and flow out from his mouth.

Moreover, a divine wheel appeared within Shi Yi's hands. This was a divine wheel that could suppress and kill gods and devils! It had reappeared and was directly smashed over.

Shi Hao quickly backed off, avoiding this killing blow.

However, Shi Yi's legs were extremely quick. The sleeves of his immortal clothes fluttered about, and his arms seemed like they propped up the sky. The divine wheel quickly smashed down with incomparable force.

Hong

He suddenly tossed it outwards. The Qiling wheel flew out and almost smashed into Shi Hao. It flew for an extremely long distance.

Ten or so railings were destroyed, leaving the sky battlefield in a terrible state.

Just when everyone had thought that the confrontation had finally eased a bit, another intense confrontation erupted.

Shi Hao's eyes narrowed. He had just avoided the Qilin wheel and earned a breather, yet the opposing Shi Yi's two arms reached out, as if they were trying to slice his opponent at the waist.

Shi Hao suddenly raised his hand. He also hacked them outwards to slice off Shi Yi's head.

However, Shi Yi suddenly kicked over. It was just too fast. His right leg kicked out in reverse like a scorpion tail, ferocious and accurate. The attack was forceful and severe.

Within the wuwu sounds, ten Qilins appeared. The leg arrived as fast as lightning.

Peng

Shi Hao quickly moved backwards, and the ten Qilins almost brushed past his body. They did not make contact with his body, but the scorpion tail-like reverse kick struck him in the shoulder.

This kick contained all of Shi Yi's spiritual essence and an incomparable amount of divine force. This strike was extremely fierce and accurate, just like his natural character.

Even a piece of divine gold would be deformed from this kick or even fracture, because this attack was just too powerful.

Shi Hao was blasted backwards, and a string of blood flew out of his mouth. He sighed inwardly. This time, he had been a bit careless. His opponent really was the strongest he had ever faced. His attacks were too powerful, and his methods were too fierce. He was extremely experienced and far more disciplined than the others.

His shoulder was in intense pain. The spot that was hit was red and swollen, and his bones had released a loud sound. Symbols were flickering about violently.

“Not good, the younger one’s shoulder had been broken by the kick!”

Everyone cried out in alarm and widened their eyes. Was this battle finished?

Even the supreme experts sitting within their war chariots stood up. Their eyes flickered with radiance as they stared into the Sky Battlefield. They were all stirred up.

“Shi Yi is formidable after all.” Grandma Xihua was all smiles as she stood next to fairy Yue Chan. She was full of praise.

“Worthy of being Peerless Lord, number one under the heavens!” Next to the large spider, there were a few individuals who sighed in praise. They all nodded in agreement.

“Father, he... is going to lose? Is there any way to save him?” Within the raging flames, Huo Ling’er revealed a worried expression as she pleaded with the Fire Emperor.

At this moment, all of these creatures had their eyes on the battlefield. Many of them felt that this battle was most likely over. The sound of bones cracking was too loud. With a broken arm, what battle was there left?

“Little brother, you have to be careful!” Shi Yi spoke with a callous type of mockery.

As he spoke, a streak of purple lightning flew out. He already had the advantage, so as long as he made the first move and grabbed all opportunities, then the other side was definitely going to be killed.

A hong sound rang out. Shi Yi’s power flourished even greater as he surged with a heavenly might. His palms and fingers formed a disk as they smashed towards his opponent.

Shi Hao’s eyes blazed with streaks of radiance. He did not back off, and instead pushed forward. His entire body blazed with the Vermillion Bird’s flames, as if they could destroy the nine heavens.

“Is he mad? Is he going to give up that arm and try to end it with heavy injuries on both sides?” Many people became astonished.

The arm that had been injured was raised to meet this attack. His other hand was aimed towards Shi Yi’s head.

“Yi, something’s not right!” In the next moment, everyone widened their eyes.

Shi Yi was also horrified. He felt a sense of danger, as if something was greatly wrong.

An earsplitting fracturing sound rang out. Shi Hao’s seemingly flabby arm suddenly snapped straight, instantly returning to its powerful form as it smashed towards the enemy’s neck.

“Just now, it wasn’t that his arm broke, but rather that the joint was dislocated! What a powerful body, to actually not be injured!” The Fire Emperor sitting on the carriage sighed in admiration.

Only when he pointed this out did everyone suddenly understand. They then all became incomparably shocked. Just how terrifying was his body? He was unaffected even after being hit by such a great killing blow!

Hong!

In the next moment, Shi Hao burst into the form of a Vermillion Bird. He attacked violently and occupied the upper hand. He unleashed his thunderous rage.

Peng

Shi Yi's fist smashed towards Shi Hao's forehead, but in the end, it was blocked by his opponent's intersecting arms. Following a spin of Shi Hao's body, his legs continuously trampled outwards.

The attack was just like a barrage of images. The soles of his feet were scarlet like blood and sharp like the cutting edge of a blade. Shi Hao's movements were as fast as lightning. He shifted above Shi Yi and continuously trampled downwards.

Peng

In the end, Shi Yi flew outwards. His chest was trampled on, causing him to cough out large amounts of blood. His chest caved in, and it was clear that there were broken bones.

"Again!"

Shi Hao's body boiled with essence energy. Scarlet multicolored lights surged like flames as he swooped over again.

"Heavens, the younger one is too powerful! Just now, he had negligently received a blow, but now, he is acting viciously, causing Shi Yi to suffer an injury!"

"The sides have completely turned around! The older brother is in danger!"

Just as everyone was shouting, the battle changed again. Shi Hao used the Archaic Vermillion Bird's Four-Fold Barrage to its limit. Even if a real Vermillion Bird appeared, it wouldn't seem as tyrannical as this one!

He continuously released attacks, causing flames to overflow into the heavens. His palms were like scarlet jade as they endlessly battered Shi Yi. With a peng sound, he once again rushed towards Shi Yi, making his head release a crisp sound.

Shi Yi's shoulder had been injured, and he was sent flying once again. Blood was coughed out from his mouth.

The large golden spider's face went rigid, and the Demonic Spirit Lake's creatures' expressions all became gloomy. Everyone darkened their faces. They were passionately debating just now, thinking that the fate of the battle had been decided, yet the result now took a full hundred and eighty degrees turn.

"This younger stone descendant is so powerful!" Grandma Xihua's expression changed as she muttered.

Shi Hao moved through the air with swiftness, as if he was a Vermillion Bird destroying the stars of the universe!

“Break!”

Shi Yi released a low groan. His right eye shot out a beam of dark light, making the entire Sky Battlefield tremble. The entire world exploded, and heaven itself seemed like it was going to collapse.

“So terrifying!” Everyone was greatly shaken. Their eyes widened as they watched with disbelief.

The great battle had reached its climax. The dual-pupiled individual finally used his forbidden divine ability. This was the natural ability granted to him by the heavens, known to be invincible during the ancient years.

Could Shi Hao endure this? Everyone held their breaths.

Chapter 374 - Pupils' Might

Dark light burned fiercely. The black light seemed like a hellflame from the netherworld as it burned furiously with an annihilating power. The space around them began to distort, as if it was caving in.

This left everyone horrified. What kind of horrifying force was this?!

Flames were shooting out from his eyes. What kind of terrifying sight was this? When the spectators saw this, they all began to feel anxious. Their bodies all went cold.

This was the first time the dual-pupiled individual revealed his natural divine might. It truly was terrifying.

Shi Hao shifted his body. Originally, he was going to give chase and continue his attacks to greatly wound this little big brother of his. However, this unexpected event forced him to dodge instead.

The dark light was truly rather terrifying. Once it flew out, it was like a flowing stream of light. When it smashed into the distant faint gold railings and cornerstone that was even tougher than precious artifacts, they were all blasted to ashes.

“Terrifying!”

This was the unanimous opinion of everyone here. This dark light could obliterate anything, making even the Sky Battlefield unstable. A large portion of the railing surrounding the cornerstone was even destroyed.

This time, the two individuals separated to two sides. Following an intense blast, the stage finally quieted down, becoming momentarily peaceful.

However, the atmosphere became even more tense. The two individuals were extremely stunning! They were talents rarely seen since the ancient times, and as geniuses of the wasteland region, who could claim to be their equal?

The battlefield was in a state of silence. The people who were previously discussing passionately had now quieted down, and they were all silently watching. They all knew that a storm was brewing, and that once another fight broke out, it would be even more intense!

The dark light from Shi Yi's right eye receded. His eyes became hazy, as if the mist of primal chaos filled them, making them difficult to see clearly. Meanwhile, his left eye lit up, becoming clearly different. It immediately caused everyone's mind to jump.

The pupil turned silver, and a pure white radiance began to flow out like water. It surrounded him, making his body radiate with splendor.

At the same time, a powerful wave of vitality blossomed. It was as if they had returned to the start of the world. Everything was in luxuriant growth, and the natural force of the world was surging.

At this moment, everyone noticed a shocking truth. Shi Yi's injured shoulder began to release a flourishing light. Symbols covered it densely, and it was absorbing the thriving spiritual essence.

At the same time, his chest began to ring with gabeng gabeng sounds. His bones began to undergo rebirth!

"What? That's too heaven defying! His injured body was restored immediately. What kind of eye is that? It actually possesses such a divine might! It's simply ridiculous!"

Cries immediately sounded at this unbelievable scene. The power of the dual-pupils was just too powerful! They could actually allow one to instantly recover their injuries!

After thinking about it, everyone began to shiver inwardly. Didn't this mean that Shi Yi had an immortal body? If they fought like this, wouldn't it mean that he would never lose?

Shi Hao did not move and did not use this chance to attack first. Instead, he watched Shi Yi calmly to feel the power of the dual-pupils.

In reality, he knew that based on Shi Yi's nature, he was most likely waiting for him to fight back.

Just like that, the stage became calm. The pure white hazy radiance flowed about that area. Shi Yi's bones released a loud sound, signifying that they had been completely healed.

This kind of result made everyone, including the supreme experts, shocked. They were all greatly moved.

"Good, good good. Yi'er won't lose to anyone in this world. Continue fighting! Kill that little devil!" the golden spider said to himself. The Demonic Spirit Lake's people completely relaxed.

On the other side, Grandma Xihua also sighed in admiration. She then became quite worried. The dual-pupils' power was too mysterious and simply inconceivable. Could such a person really be suppressed? She couldn't help but glance over at the flawless young lady at her side.

Fairy Yue Chan's expression was calm. Her sparkling jade-white like face had a bit of shock on it, but also a type of indescribable feeling. However, she remained calm without any significant changes to her outstanding appearance.

"Alright, little brother, what are you waiting for? Don't you know that opportunities should be taken? Come here and fight." Shi Yi seemed extremely calm and collected.

Even though he had just suffered an injury just now, he still seemed to possess his elegant bearing. He appeared to be quite self-confident, making others feel as if he had never been scared and that everything was within his plans.

Following those words, his entire body erupted with dazzling light. Ancient symbols resonated with the world, as if they were bestowed onto this world by a deity. A layer of light surrounded this area.

At this moment, his aura became extremely terrifying and increasingly powerful. Everyone else couldn't help but tremble!

"Do I need you to teach me?" Shi Hao did not show any weakness at all. On the contrary, his manner of speaking was extremely unyielding. Moreover, he directly dissolved his opponent's grandeur and said, "You were the one injured by me!"

His words were concise, yet they were extremely forceful. His voice was extremely overbearing, even scattering the strange throbbing of the world.

"My good little brother, you are too conceited. If I told you that fighting without using my dual-pupils is the same as fighting with my eyes closed, would you believe me?" Shi Yi calmly said.

With this sentence spoke, all four sides were greatly shaken. Everyone became so shocked that their mouths widened. He was fighting with his eyes closed?

At this moment, regardless of whether it was the normal cultivators or figures like the sect masters, they were all experiencing a multitude of feelings. They were all greatly shaken. Was this a joke?

Shi Hao sneered and said, "Then open your eyes so you can clearly see how you are going to lose."

Even though he spoke this way, he still knew what his opponent was hinting at. It was because he had obtained a divine being's eyeball as well and knew some of its capabilities.

"Little brother, release all your tricks. Why don't you hit me with everything you have? This is your only opportunity!" Speaking up to this point, the light in Shi Yi's eyes began to shift. They erupted into two great flames.

In the next moment, his eyes became like a small sun. They were dazzling to the point of intimidating one's soul. It was as if they were burning. If one looked carefully, they would see that they were beams of light made from symbols.

"Fight!" Shi Hao only had this one word. His entire body surged with essence energy and shot towards the heavens!

This battle will definitely go down in the records of history. The two individuals rushed at each other with auras that became even more magnificent. It was as if they were two human-shaped dragons as they collided in the air.

Hong!

This time, they had just made contact when they backed up. It was because they were exhausting too much divine force at once, so they were both shaken until blood flowed from their mouths. They continuously took steps backwards.

Qiang!

Shi Yi's eyes shone. Metallic sounds surprisingly sounded. His eyes were like the sun, blazing with golden light. It was so blinding that those watching began to shed tears; it was difficult to look straight at him.

"Let the hunt begin!" Shi Yi said softly. His lips carried a sneer that gave others shivers.

That kind of expression and manner of speaking was full of danger no matter how you looked at it. Everyone's hearts were jumping, for they knew that the dual-pupils were about to reveal their power.

Shi Hao shuddered a bit, but he was not scared.

"Kill!"

In what seemed like just a moment, the two individuals fought intensely once again.

Unexpectedly, Shi Yi's pupils did not reveal any heaven defying power, and merely dazzled. They shone like two small suns.

Only Shi Hao, who was within the battlefield, could feel that things were different. A strange energy was surrounding his body, making it so that he couldn't hide anything from those eyes.

Hong!

Shi Hao's body moved. All of his joints moved together, sounding as if dragons were crying and tigers were roaring!

A purple imprint appeared within his arm. All five fingers curled with electricity, and then ten stars began to circulate; a strange scene was being produced!

"What is that?" Everyone became astonished, but they could only ask this question. It was because Shi Hao's speed was too fast and he had already taken action.

That palm quickly enlarged, and ten stars circulated within it. Rumbling sounds rang out as lightning interweaved. It was as if a new world was being created.

Hong!

Shi Hao flipped his hand over and slapped towards Shi Yi. This was the materialization of the Suan Ni's precious technique. The spherical lightning was turned into stars and purple lightning. The power within his palm was the embodiment of profound mysteries.

Even though the Suan Ni's precious technique was an archaic descendant's, after undergoing this kind of transformation, it contained tens of thousands of different energies concentrated together. As a result, it became similarly amazing!

Shua

A golden streak of light filled the sky as Shi Yi shifted his body. There wasn't a speck of dust on his clothes, making him look like an exiled immortal. He was just too fast.

A hong sound rang out. Enormous rocks collapsed, and the railings were broken. A large portion of the Sky Battlefield was blown apart, and the sky battlefield was almost destroyed by Shi Hao. The ten stars

in his hand were all blasted apart, turning into a sea of lightning. The large golden boulders were destroyed.

The domain embodiment's face paled. This kind of situation was just too rare. These two youths were ridiculously terrifying. They continuously destroyed the battlefield, making his face gradually more unpleasant.

"Little brother, you still aren't good enough. Your speed is too slow." Shi Yi's voice was as light as a feather.

Everyone had long become stupefied. Shi Hao's strike was just too powerful, but it seemed like Shi Yi was even faster. Even that palm of lightning that seemed to cover the entire world was dodged just like that.

Shi Hao knew that it wasn't that he was slow, but rather that Shi Yi was using the power of his dual-pupils. It could break down every movement, making even lightning like speed become as slow as a snail.

Shi Hao laughed coldly and said, "Stop this cynical talk. Isn't it just because of those eyes that you can slow down what you see? In my opinion, that's a sickness, so let me cure it for you!"

With this sentence spoken, the crowd became completely petrified. This... he really dared to say anything! The smaller brother was truly daring, and his words were quite different.

"Xixi..." The witch's laughed. She had been thinking this entire time. Her smile was so beautiful it could topple walls, and her eyes were like full crescents. Her snow white skin flickered with a sparkling luster, and her red lips were incomparably alluring.

Shi Yi's countenance remained unchanged. While facing forward, he said, "Seems like you still have the temperament of a child with such a bad mouth. As your senior, I have to teach you a lesson!"

He took the initiative to rush over. He turned into an incredibly ferocious Bi'an that was absolutely tyrannical. The pair of golden pupils in particular seemed to understand the natural laws of life itself.

Shi Hao indifferently welcomed his attack.

Hong!

This time, both individuals exchanged several moves quickly in an incomparably fierce manner. The entire Sky Battlefield began to rumble and shake from the chaos. Countless terrifying symbols floated about.

Shi Hao faced an incredible inconvenience, because with Shi Yi's dual pupils activated, he could see through his changes. His movements were slowed and easily stopped.

Without mentioning the dual-pupils' other abilities, just this strange power alone was enough to shock the world and leave others helpless.

During this battle, at each crucial point, Shi Yi would always be able to neutralize Shi Hao's killing blow. Moreover, he could inflict a heavy blow himself at the same time, leaving Shi Hao in a terrible situation.

Peng

In the end, Shi Hao suffered a palm to his chest. He was blasted backwards, and his body smashed into the light gold railing. Only then did his flight stop. He coughed out a mouthful of blood.

Shi Yi had an indifferent smile on his face. With each step, the light in his eyes shone brighter. Everything in this world, from the grass to the trees, had their speed greatly slowed in his eyes.

“My good little brother, try again!” This time, his body became golden, releasing a precious splendor. His appearance was holy and dignified, as if he was a divine Peng lord when he swooped over.

Shi Yi used the Great Golden Peng’s precious technique, making himself even more terrifying. His speed was increased to the limit. His palms and fingers became golden, and they ferociously descended.

This was clearly an attack to remove Shi Hao’s head!

The light in Shi Hao’s eyes flickered. He had already thought about how he was going to deal with the dual-pupils way of reducing his speed to that of a snail, and it might even allow his speed to increase further. **n0Ve.Lb(1n**

When he saw that the opponent was using the great Peng’s technique, Shi Hao’s body illuminated, displaying the speed of the Kun Peng. He turned into a divine rainbow and unleashed his ultimate blow!

Chapter 375 - Extreme Speed

The two individuals both increased their speed. Shi Yi’s entire body was golden like a great golden Peng as he charged murderously. The strong winds created made cracks appear everywhere on the sky battlefield.

Shi Hao’s entire body was shining, but something seemed different. There were black stripes within the golden patterns, and in a flash, his speed was raised to the limit. The crowd couldn’t believe what they were seeing. Wherever he passed, the faint golden cornerstone and railings would immediately explode!

The domain embodiment revealed an unpleasant expression as he furrowed his brows. Continuously fixing it like this would be a problem. He was considering whether or not to switch to another battlefield.

The two individuals moved face to face, both of them increasing their speeds almost to another level. They were like two comets as they flew across the sky with bodies that erupted with terrifying light. The fluctuations they produced made everyone’s heads feel a huge pressure.

Shi Yi felt as if something wasn’t right. His eyes seemed like they were burning, and golden symbols began to flourish within them. All types of symbols appeared as they focused in on Shi Hao’s figure.

That kind of speed was so fast that it left his mind greatly shaken. It was no longer as slow as a snail, but rather like a divine bird that had spread its wings. It was forceful and powerful, with a speed that was at an extreme as he flew over.

He originally wanted to break down his opponent’s movements, but he never thought that when he struck out with a fatal attack to remove his clan brother’s head, this kind of unexpected thing would happen.

Chi

Shi Yi made his move. His arm was like a Peng wing as it swept over, distorting the space around it. It was incomparably dazzling, and a terrifying wave of energy proliferated as golden light submerged this world.

Shi Hao shifted his body to avoid this beheading blow. His arm shone. With a peng sound, a grab was made towards Shi Hao's arm; they were going to fight in close combat.

Bo

The sound of clothes tearing rang out. Fragments of Shi Yi's precious clothes flew everywhere, exposing his arm. He couldn't believe what he was seeing! The snail-like speed suddenly changed, and his opponent even made contact with his body!

"Blood has been drawn!" Someone cried out.

The two individuals made contact, and both of their movements were as fast as lightning. This time, things were different, because Shi Yi's eyes weren't as effective.

In that split second when Shi Hao's right hand tore apart his opponent's precious clothes, his arm flicked around and he struck out again. With a pu sound, it slammed into Shi Yi's arm, causing blood to shoot high into the air.

Shi Yi had been greatly wounded. Even though he had only been cut, there was now a terrifying wound on his arm. It went all the way to his bone, and blood was oozing out.

Everyone was astonished. The dual-pupiled individual had encountered trouble! Did those eyes lose their powers?

Shi Hao did not use all of the Kun Peng's precious technique, and merely used it to increase his speed. He immediately released another attack. Symbols appeared on his palm, radiating with precious light.

Hong!

This time, Shi Yi brandished his fist to meet this attack. The two were blasted in opposite directions.

Shi Yi did not say anything for a long time and simply stared at Shi Hao. Just now, his speed had exceeded common sense, making him shiver inwardly for the first time. His expression never changed this much even when two bones in his chest were broken previously.

A pure white radiance flowed out from his left eye towards his arm. The wound was nourished and the blood stopped. Soon after, the wound closed, and not even a scar remained.

"Is this the withdrawal movement or the perfect great Golden-Winged Peng technique? Wait, you've been to the Northern Sea. This should be the Kun Peng's technique!" It had to be mentioned that Shi Yi was extremely smart, so he was able to immediately guess at what kind of technique it was.

This time, his voice was extremely soft, so everyone else did not hear him. His eyes revealed a blazing light as he stared at this clan brother, as if he was staring at prey. **nOve.Lb(1n**

He did not wish for others to know, for he wanted to kill his opponent and then steal his natural luck. His lips revealed a sneer as he said, "Your opportunities aren't shallow at all!"

Shi Hao's eyes narrowed. This person was just too sharp! It was clear that he had fought with quite a few great figures. He was able to make a prediction immediately after seeing his movements.

Soon after, he calmed down again, because he knew that he would be able to do the same if he had dual-pupils. In this world, it was possible to count the number of times dual-pupils would lose their efficacy. It was easy to narrow down the possibilities through a process of elimination.

The withdrawal movement was a supreme divine ability of the human race. When used to its limit, it could allow one to warp and weave freely through heaven and earth.

As for other movement techniques, they were all grasped by the divine birds. However, they had been lost in transmission through the passage of time, making them difficult to search and restore.

"Little brother, is yours a damaged technique or the perfect precious technique?" Shi Yi asked seriously.

"Are you interested? What do you want to use in exchange?" Shi Hao ridiculed.

"Exchange? You are my brother, so we can study it together when we return." Shi Yi spoke indifferently. There were clear implications behind these words. He wanted to capture Shi Hao and bring him back.

"I just fear that you don't have the ability to do so!" Shi Hao coldly replied.

Shua!

Immediately after, the two moved again. Their speeds were raised to the limit, interweaving as if they were two streaks of lightning. They collided hundreds to thousands of times; their speeds were too fast.

In the place where they collided, large numbers of symbols appeared. The golden symbols imprinted into the void and rumbled with noise, as if a grand scripture had been carved there.

A great Golden-Winged Peng could vaguely be seen. It merged with Shi Yi, producing the utterly terrifying aura of an archaic divine king.

"So powerful! This Shi Yi is formidable after all. He could analyze the precious technique to such a level. It really is stunning!"

Everyone's mind trembled. The precious techniques this older brother grasped were truly shocking. The crowd estimated that he must have used his dual-pupils to analyze the precious techniques to reach their current state.

This was not merely a heavenly ability! Its use was surprisingly practical as well!

On the other side, Shi Hao had returned to human form. Only his fingers and palm still flowed with golden multicolored light and black patterns. He did not reveal the origin of the precious technique.

However, everyone was shocked to find that not only was his speed extremely great, his attack power was terrifying as well! The dual-pupiled individual is now in big trouble!

“Not bad, little brother, your speed is truly quite extraordinary. You have already surpassed the snail category in my eyes,” said Shi Yi.

“Less rubbish. Whatever you have, just bring it,” Shi Hao said. He was fully aware that there were endless secrets to the dual pupils. There were just too many uses. Slowing down the speed of others was simply one of its abilities.

“Don’t be in such a hurry,” Shi Yi said calmly.

The next second, the two individuals ran towards each other again. Their battle was incredibly intense, throwing the minds of the crowd into turmoil. Their eyes were becoming dizzy from watching.

“Heaven and Earth in Chaos.” Shi Yi spoke with a soft voice. His eyes flowed with a hazy mist, and the entire Sky Battlefield became different. It was filled with a white mist.

His eyes were incomparably deep. They surged with primal chaos, as if they were the root of this world themselves. A haze covered this place, making it blurry and no longer as distinct.

The sudden changes were far from reassuring. At the very least, Shi Hao felt as if his body received a great restriction. His movements no longer felt as smooth and unhindered.

“Kill!”

Shi Yi’s attacks were all aimed to kill as he continuously used different techniques. He suddenly transformed into an incomparably fierce Bi’an that trampled on the primal chaos and crushed everything on its way over.

Shi Hao’s fist smashed over murderously, similarly transforming the terrain around him to prevent himself from being killed.

Sure enough, the Bi’an turned into multicolored light and scattered into the primal chaos. A streak of fiery light appeared on the horizon, and a golden sun emerged. It then smashed downwards.

“Yi, what kind of technique is this?” There were many individuals who were shocked. This kind of precious technique was absolutely terrifying. Even though there was quite a bit of distance between them, they still felt their heads being pressured. It truly was dreadful.

“This mist of primal chaos is lowering my speed,” Shi Hao said to himself. He was contemplating whether or not to stop holding back and directly use the Kun Peng’s technique.

In the end, he held himself back because he knew that he still couldn’t end it all with a single strike. The other side might still have undisclosed trump cards that could be used to suppress him at any time.

At this time, the golden sun in the sky had descended. Shi Hao dared not act carelessly and faced it head on. He used the True Primordial Record’s simple and unadorned symbols to resist this attack.

His hands continuously made imprints, causing all types of symbols to fill the sky. They were all bone texts of the most primitive and simple quality, yet they contained a miraculous type of power.

Of course, this was not all he used. He also used precious techniques and fired off great killing attacks from time to time.

The golden sun shifted left and right and continuously enlarged. Ultimately, it became enormous with an exploding noise, smothering the Sky Battlefield as it suppressed downwards.

Hong!

Shi Hao brandished his fists. His body's power was raised to its highest level, and after merging together with the plain and unadorned symbols of the True Primordial Record, his power became forceful and domineering.

This strike was so shocking that even all supernatural beings in this world were crying out. The ancient heroes that had died within this battlefield revived and cried out.

Within the dazzling radiance, the golden sun was shattered. This attack, which was created from symbols and natural dao, separated into ten to one hundred fragments.

Yi!

Shi Hao was suddenly startled. After being blasted to pieces, the golden sun was not erased. It recombined, and those golden fragments turned into the purest of symbols.

They condensed together into a great golden bell. It continuously rang out, creating a sound that shook the entire Sky Battlefield.

Outside, many people covered their ears and quickly retreated. This sound was enough to make their souls unsteady, as if they were going to disperse. It was absolutely horrifying!

"Is this a power that can refine the enemy's strength into a weapon for yourself? He really is a peerless lord! His methods are shocking. Just how many people in this era could do such a thing at his age?" Some of the supreme experts revealed looks of shock.

"This person is quite scary." Grandma Xihua muttered softly before looking at fairy Yue Chan.

The white clothed fairy nodded her head. Her perfect face was extremely calm. A flash of divine multicolored light streaked through her eyes before disappearing. She then became expressionless and peaceful.

Dang...

The great bell continued to ring in a long and drawn out manner. It was formed completely from golden symbols, refined from the sun. It was 'bred' from Shi Hao's divine force; this was possibly a weapon gained from Shi Yi's enlightenment.

The great golden bell suppressed downwards. The bell's terrifying fluctuations diffused like waves and shook the Sky Battlefield until its railings began to smash apart in succession. It was clear just how powerful and terrifying it was.

It was now unavoidable. Shi Hao's eyes became ice cold. He rushed towards the sky, and his body began to release all types of symbols. At times, he would be like a Suan Ni and at other times, a Vermilion Bird, to increase his fighting strength.

Dang...

He smashed his fist out, striking against the bell's fluctuations. After arriving before the great bell with much difficulty, he began to smash down ferociously on the great bell.

The crowd was horrified. Just how powerful was his flesh? The bell's fluctuations had broken so many of the Sky Battlefield's railings, leaving even the domain embodiment's face ashen, yet Shi Hao's body was unharmed in the slightest as he made his way up!

He continuously struck at that enormous bell in midair, making the entire world shake. A terrifying ringing sound was released.

"Not good, this fellow is too powerful. That weapon was something Yi'er painstakingly created. It can't be destroyed just like that, right?" In the distance, the minds of the experts from the Demonic Spirit Lake were shaken. They all revealed looks of worry.

"Shut up!" The golden spider supreme expert shouted under his breath. He waved his hand, indicating for the Demonic Spirit Lake's creatures to close their mouths.

Dang...

The great bell continued to ring. Layers of symbols appeared on its surface, as if a scripture was carved on top. Eventually, the sounds of sutras actually sounded, shaking heaven and earth. It was as if the deities were chanting curses themselves.

"Is this the decisive blow?" A supreme expert asked softly while watching with his eyes widened.

Chapter 376 - Decisive Battle Between Heavenly Talents

The great golden bell shone with resplendent light. Symbols covered its surface. The long and drawn out ringing of bells turned into the chanting of sutras. Golden ripples continuously rippled outwards.

In the distance, many of the railings of the sky battlefield had been broken, all smashed apart by the ripples of this bell. However, Shi Hao was right in front of it, and yet he still stood firmly. noVe.lb(1n

Dang

He struck down on the great bell, one strike after another, with ferocious power. The entire place shook from his strikes, ringing together with the great bell.

"Yi, something weird is happening!"

The people were all shocked and amazed. Their eyes were opened wide and glued to the battlefield.

Symbols covered the surface of the great bell, turning into materialized scriptures that separated and descended. They surrounded Shi Hao like a large buddhist robe and rang with ear-splitting scripture sounds.

Hong

Shi Hao did his best to break free. He continuously produced seals to blast it apart.

This scene was a bit mysterious. The divine clothes from those symbols that separated had surrounded Shi Hao to seal him within.

Shi Hao's entire body erupted with fiery light, composed of both his own dao flame, as well as the Vermilion Bird's flames. It blazed ferociously, submerging the divine clothes in its heat.

"Adamula..."

A mysterious chant sounded. The enormous bell released tens of thousands of silky threads. The ancient symbols on the bell surface flickered, and immediately afterwards, they flew out towards Shi Hao.

"What is going on? There really are scripture sounds, as if deities are chanting them!" Huo Ling'er revealed a worried expression.

In the sky, waves of scriptures rippled outwards in a seemingly endless manner. They continuously diffused from the bell and formed golden symbols. Shi Hao was caught up and restricted within.

Eventually, the sound of scriptures became even louder than the sound of thunder. Symbols blazed about, and golden light submerged heaven and earth. His entire body was buried under it.

"This is a god refining weapon dao used to create a soul servant!" One of the supreme experts cried out in astonishment.

The people were all shocked. Shi Yi was able to comprehend so much while still so young! He was trying to turn Shi Hao into a soul servant, something that he definitely should not have delved into at his age.

Shi Hao released a cold snort. His aura flared, and the divine light within his body formed small sparkling furnaces. His entire being became as such as well, as if he had turned himself into an eternal divine furnace.

At that moment, the attack wasn't able to harm him in the slightest. On the contrary, this flesh furnace illuminated and began to absorb the energy around him. He melted down those symbols into a dao flame to refine his own body!

"Yi, this is so strange. Is the younger brother going to defy the heavens? He used symbols to make himself into a furnace! Not many individuals among the noble king level could even do such a thing!"

The crowd gasped in shock. The battle between these two Stone brothers was truly amazing. These two individuals were both heaven warping talents, with performances that were just absolutely astonishing.

Dang!

Finally, Shi Hao rushed towards the heavens. His body transformed into a blade, a world-shocking immortal sword, and hacked towards the clouds with incomparable sharpness. With a qiang sound, the symbol-formed divine clothes were sliced apart.

Dang!

His sword did not stop there, hacking straight onto the great bell and causing it to tremble continuously. Under everyone's shocked gazes, Shi Hao's body formed a sword and ferociously hacked down on the great bell.

Several dozen strikes later, the radiance between the two faded. The great bell swayed. Shi Hao's real body emerged, and his fist slammed down onto the great bell.

Kacha

Finally, golden cracks appeared. The great bell released a crisp sound and quickly cracked apart.

“What? The great bell lost! Yi’er’s dao weapon was destroyed!” The Demonic Spirit Lake’s people’s faces were ugly. They were all furious.

Everyone else held their breaths. Was the battle about to end? Everyone clenched their fists tightly as they nervously watched the battle.

Hong

Shi Hao’s final fist dropped onto the great clock, blasting it apart. It turned into nearly a hundred fragments that flew in all directions. Meanwhile, the figure within flew out and coughed out large amounts of blood.

“Yi’er!” There were people who cried out.

“Shi Yi suffered a huge blow. He is going to lose!” The crowd was in an uproar. Noise immediately erupted, because many felt that the great battle was about to end.

This place was chaotic with endless clamoring and noise.

Suddenly, a blazing streak of golden light flew out murderously at Shi Hao. It was just too fast, surpassing everyone’s expectations.

The bell had shattered, and a figure with blood flying from his mouth flew out. However, at that instant when everyone thought that Shi Yi suffered a great injury and the battle was about to end, a shocking turn of events took place.

This was a golden crow, one that emerged from within the bell. The bell was like a golden egg that was nourishing it, and only when the bell wall was shattered did it emerge and release this fierce strike!

Upon closer inspection, the figure that was blasted outwards vanished. It was just a clone; the so called blood-spitting figure was not the real body.

“Dao weapon into divine technique!” Everyone was shocked. This kind of technique was something that even noble king level figures found difficult to grasp, yet it was produced by a young man!

All of these techniques and methods were concealed for the sake of this final decisive strike.

The dao bell was just a medium for the golden bird. It was carrying a precious technique, one that would be revealed at the most crucial moment!

Shi Hao had exhausted a large amount of energy to shatter the golden sun, only for it to turn into a large bell. He then shattered this dao bell, but ended up encountering the true golden crow precious technique contained within.

Everything happened too quickly. When he exhausted most of his energy to destroy his enemy’s dao weapon, he never expected that this was just the beginning, resulting in him suffering this great attack!

Shi Hao's mind was greatly shaken. Even someone as powerful as him was caught unprepared. In the instant the golden crow pounced over, he narrowly avoided a fatal blow aimed to crush his skull.

However, his shoulder was not so fortunate. Large amounts of blood gushed out, and his shoulder bones were almost clawed apart. Blood continuously flowed out, and several terrifying bone-deep bloody holes could be seen.

He quickly retreated, but the golden crow wasn't willing to let him get away. It continuously attacked, almost like it was stuck to his body. Its beak struck down straight for his eyes.

Peng

Both of his arms weaved about to block the golden crow's beak. His left arm was in intense pain, as if it was fractured. He lost a large chunk of flesh, and bone could be seen in that wound.

This was still the result of his flesh being so powerful. If it was anyone else, their body would have immediately exploded.

Hu

Strong winds swept about as the golden crow moved its wings. It swooped down and attacked in a way that was simply unavoidable. It was too swift, with killing moves that linked up one after another.

Pu

Shi Hao was struck in the chest, causing him to cough out large amounts of blood. His body flew out horizontally. He glared at his opponent and opened his mouth to spit out symbols, initiating his counterattack.

Hong

The golden crow changed forms, revealing Shi Yi's real body. His two feet trampled downwards. With a peng sound, one of them smashed into his opponent's chest, sending his already flying figure to travel even quicker. Shi Hao's body smashed into the surrounding railings.

Within kacha sounds, Shi Hao's collision smashed apart a large region of the faint golden railings. The Sky Battlefield was damaged to a terrible state.

Everyone was simply stupefied. This chain of murderous attacks left everyone horrified! The attacks just now were all done in order to produce this final result.

Shi Yi charged over ferociously to deal the decisive blow onto Shi Hao.

Shi Hao's gaze was chilly. When he saw Shi Yi close in, he soundlessly prepared to unleash his ten heavenly passages. He was going to temporarily lock his opponent in place and end it all with one attack.

He believed that at this crucial moment, Shi Yi's guard will definitely be lowered when he approaches.

However, Shi Yi did not follow through all the way. When there was still a bit of distance between them, he suddenly backed up and abandoned this attack.

“Little brother, I’ll give you another chance! Come!” Shi Yi said. Just now, his heart rate suddenly quickened, and his dual-pupils became especially sore, indicating that something bad was about to happen. As a result, he stopped himself.

Shi Hao soundlessly scattered the force he had prepared and did not display its full might. He propped himself up with the railing and with a cold expression, he said, “Stop speaking nonsense!”

He was now truly angry. Right now, his chest was under incomparable pain from his serious injury. He admitted that this ‘senior’ of his was truly formidable and outstanding, making him suffer so greatly.

Shi Yi was also in shock. Even pure-blooded creatures would immediately explode under his attacks, especially that last kick, which was enough to shatter even the vajra unbreakable body, yet it wasn’t enough to finish this junior brother of his.

“The younger generation truly does surpass the older!” On top of the carriage, the Stone Emperor sighed and said.

The other supreme experts were shaken as well, and all of them revealed complicated expressions. They knew that they themselves definitely wouldn’t be these two youths’ opponents if they were at their age, that these two were truly deserving of their reputations of supreme youth.

Regardless of how this battle ended, the two stone brothers’ names would shake the wasteland region and enter the books of history.

In the next moment, the two individuals rushed up again, and with a hong sound, large stars began to appear one after another in the void. Shi Hao stood within them, as if he was standing in the star-filled outer space.

“Yi, what is happening?!” Everyone cried out in astonishment.

Shi Hao stood midair in the Sky Battlefield. Endless great stars appeared around him, and they had long linked up to form a resplendent and dazzling starry sky.

He was like a divine king as he took stepped forward, pushing aside these great stars one after another as he advanced towards Shi Yi. His opponent couldn’t avoid him at all, because this place was now just like the cosmos.

“Interesting. It is just the precious technique of a descendant, yet it was evolved to such a level. Even pure-blooded creatures who are familiar with this precious technique would be shocked.” In the distance, a divine flame jumped about. A figure with fiery light overflowing from his eyes stood there. Behind him were a few of his followers, all of which were pure-blooded creatures.

Shi Hao produced a river of stars, and within the great stars, lightning crackled about unendingly. This was the Suan Ni’s precious technique, and it was evolved by him to such a level.

The stars were all spheres of lightning, and at this moment, they created the sun, moon, and stars, filling up the battlefield. He was like the ruler of this small universe.

Hong!

Shi Hao's advancement pushed aside the stars, detonating them into a sea of lightning. This scene was simply too horrifying. Everyone's eyes widened; this was definitely an ultimate attack!

Even the domain embodiment's old face went dark, because the Sky Battlefield was most likely going to be ruined.

Shi Yi was struck by this attack. Despite having dual-pupils, allowing him to see through everything, it was just too late. He had long been surrounded by the great heavenly bodies and suppressed by the sun, moon, and river of stars.

Thunder rumbled. Like a vast sea, the great stars smashed apart one after another and filled every inch of this place with annihilating energy.

"Dual-Pupils Break the Heavens!" He shouted loudly, left with no choice but to use his unique divine ability.

He opened up a pure land that stretched about one zhang in diameter. It was peaceful and silent, and no lightning could invade this tranquil area. His pair of blazing eyes was the only thing within it.

"So powerful!" Everyone sighed in admiration. Was this the power of the dual-pupils? How terrifying!

However, Shi Hao's attack did not end here. The great stars continuously erupted and exploded, blasting against that pure land. In addition, a vermilion bird took to the sky and rushed towards that pure land.

This was also a chain of unrelenting killing blows.

Shi Hao battered his opponent with the Archaic Vermilion Bird's Four-Fold Barrage and tried to break into that pure land. His arms quickly changed, erupting with a crimson radiance and releasing a fist-sized small bird.

"You're courting death!"

Shi Yi laughed coldly. His eyes flashed, and that Vermilion Bird became dim and was on the verge of shattering.

However, with a hong sound, the Vermilion Bird changed again, going from scarlet to pitch-black. It turned into an inch long fish and swam within the pure land. Its speed was incredibly fast, as if it was a black streak of lightning.

Everyone was petrified. What was that? It could actually move within the space opened through the dual-pupils! This was just too heaven-defying! They couldn't see it all too clearly, and only the two individuals on the stage could experience its power, since its speed was just too fast.

Pa!

The inch length fish slammed its tail onto Shi Yi's chest, immediately causing him to cough out blood. His body flew backwards, and bone cracking sounds could be heard.

"Kun Peng!" Shi Yi's teeth were clenched as he spoke in a voice only he himself could hear. He looked at Shi Hao and said, "You obtained the complete technique?!"

At that moment, he released the pure land. The great stars around him exploded, and lightning immediately entered his body.

“Excellent! I need this kind of precious ability!” Shi Yi released a low roar. His body erupted with radiance to block this onslaught of electricity.

At the same time, Shi Hao made his move. Even though he didn’t reveal the Kun Peng’s form, his body lit up, becoming golden with black streaks running within. This form seemed like a human Kun Peng, and it was closing in at an extreme speed.

“Then I’ll gift you the precious technique!” His fist smashed down straight at Shi Yi’s forehead. His entire body was covered in the Kun Peng’s symbols and circulating its strength; it was utterly terrifying.

Chi

Shi Yi’s eyes were wide open. His right eye was pitch-black, and black radiance seeped out like flames. Upon closer inspection, however, they weren’t flames, but rather condensed from ancient symbols. That eye represented destruction; it released a streak of dark light to confront Shi Hao.

Shi Hao shifted his body, and dark light swept past his body. His chest area was immediately dyed with blood and was almost sliced open. It really was terrifying!

His fist also descended, and it was similarly shocking. Shi Yi tried his best to dodge, but his arm was still caught up in this attack. A kacha sounded, indicating that his bones had cracked.

Shi Hao possessed an incredible speed with the Kun Peng movement technique used to its limit. He once again avoided the destructive dark light and chased after Shi Yi who was blasted outwards and trampled down with his feet.

Peng

Shi Yi had no time to dodge and could only use his injured arm in defense. A kacha sound sounded once again, and his arm was almost torn off. Moreover, this kick struck the left part of his chest. Bones immediately broke, and a clear depression could be seen.

He coughed continuously, and blood was spat out mouthful after mouthful. His landing broke apart a large portion of the Sky Battlefield’s cornerstone.

Chapter 377 - Life and Death Decided Through a Divine Ability

Shi Yi flew out backwards, shattering a large amount of the faint golden cornerstone. The Sky Battlefield was in a state of destruction. After suffering the attacks of both individuals, the stage was falling apart.

Peng

Shi Hao chased after him. He trampled down ferociously with a seemingly golden sole, bringing forth a dazzling light. It landed on the ground, shattering that area and causing rocks to fly everywhere.

Shi Yi stuck close to the ground as he weaved left and right, as if he was a flood dragon. He dodged the sharp streaks of light within the broken Sky Battlefield.

With a stomp of his feet, Shi Hao shot into the air and pursued viciously. He was so fast that he was like a demon, quickly appearing not far from where Shi Yi was. He smashed his fist outwards, and despite his peaceful and calm appearance, the attack caused the entire battlefield to shake and release thunderous rumbling sounds.

Kacha

They could clearly see that this battlefield was cracking apart. This was a place situated in the heavens, and large pieces of cornerstone were falling down.

The crowd watching from the distance was horrified. This battlefield situated in the heavens was extremely sturdy, yet today, it continuously suffered damage. It was almost destroyed by the two youths' attacks.

Hu

Shi Yi's right eye gushed with a divine flame. The dark light, or more correctly, the mysterious symbols, burned about. They were formed from beams of light and moved just like flames. They sealed off a piece of the sky to block the incoming attack.

Shi Hao snorted coldly. His two arms extended, as if a great Peng was spreading its wings. His arms were both golden colored. Two streaks of light shot out of his pupils in an incomparably divine and heroic manner.

His two arms continuously made seals, producing endless golden symbols. It was as if the heavenly stars were recreated and branded into the void. They collided with those black flames.

The black flames were all mysterious symbols. Under such powerful force, they violently swayed and were almost extinguished.

"So powerful! What kind of divine ability is this? It could actually fight against the dual-pupils through brute force!" Everyone's expressions changed greatly. They all revealed looks of disbelief.

During the ancient years, once the dual-pupils revealed themselves, who could fight back? They were known as heavenly divine beings that swept through everything before them. Those eyes contained endless mysteriousness and could not be resisted.

Yet today, the dual-pupils were being subdued by Shi Hao, leaving everyone in a state of disbelief. It was rumored that the dual-pupiled individual during the archaic years had never suffered defeat, reigning unrivalled his entire life!

With a wenglong sound, the two youths once again collided intensely within the battlefield. They then fell in reverse. Shi Hao's entire body was covered in golden patterns, but apart from this, there weren't any significant changes.

Shi Yi's body was trembling, and blood flowed from his lips. After receiving a heavy blow, he actually suffered greatly again.

"So formidable! Is the little brother going to defy the heavens? He severely wounded the dual-pupiled individual even though not many people favored his victory when this battle started. How do you all feel now?" Someone asked in a low voice.

“Don’t be in such a rush. The battle hasn’t concluded yet. As for who is stronger and who is weaker, it is still difficult to say.”

A hazy mist curled about. Shi Yi’s eyes were cold and indifferent. His left eye swirled with a divine radiance that seemed to pour out and wrap around his body. Following that, a wave of orchid-like fragrance diffused through the air.

His body shook, and bones moved around. Sounds similar to beans being stir-fried continuously sounded, and furthermore, the sounds of winds and thunder followed.

His scars quickly faded, and the broken bones recovered. Shi Yi’s entire body illuminated, with every inch of his body blazing dazzlingly. He was surrounded by holy multicolored radiance. A divine might exuded from him.

Kengqiang

At the same time, metallic sounds continuously sounded, shaking people to their soul. Sparkling and translucent lumps began to appear one after another as they slowly covered his body.

“Yi, the legends were true. The dual-pupiled individual could use natural force to construct a divine armor suitable for themselves.”

In the distance sky, the witch revealed an astounded look. Her white hand patted her snow white forehead, and shock filled her beautiful large eyes. She seemed to have thought of something.

The others were even more shaken. What was the dual-pupiled individual going to do?

The radiance flowing from the left eye condensed together, forming sparkling pieces that covered the crucial points of his body. The light was going to construct a world-shaking set of battle armor.

The metallic luster was cold and chilly. Shi Yi seemed to have separated himself from the mortal world. His head of black hair danced about above the mysterious battle armor that now covered his body. It was as if a supreme war god had walked through time to arrive from the ancient era.

“Are you finally going to go all out?” Shi Hao’s cold voice sounded. His shining body stood in the distance and circulated the Kun Peng’s force.

“Little brother, you are quite good, making me reach this level. However, to go all out? You are still a bit too arrogant.” Shi Yi spoke with a cold and indifferent expression. He once again strode over.

“You should reveal everything you have now, or else, you might no longer have a chance!” Shi Hao said.

“Then let’s see whether or not you have the skill to make me use all of the dual-pupils’ power.” Shi Yi’s expression was apathetic. His eyes were incomparably terrifying, and they were currently diffusing a chaotic mist.

A light shout sounded. The two individuals rushed at each other and a great fight was carried out once again!

Shi Yi swooped down like a golden crow spreading its wings. It soared through the air and faced Shi Hao face on with a terrifying speed.

Previously, he had used the golden crow hidden within the bell to attack and seriously injure his opponent. This technique made its appearance again.

He was an individual who was blessed with many opportunities. The natural gift of dual-pupils could see through all fabrications, allowing him to obtain this precious technique from traces of the ancient past. Even though it was damaged, it was still extremely terrifying.

Hong

Shi Yi smashed over like a golden sun. His entire body was surrounded by brilliant symbols and blazed with the endless flames of the golden crow. This attack seemed like it was going to tear apart the heavens.

“Break!”

Shi Hao shouted loudly. Faced with this ferocious strike, he did not seem to be perturbed in the slightest. His arm moved, and like a Kun Peng spreading its wings, a crazy gust of wind stirred about. Stones and silt flew everywhere through the Sky Battlefield as it continuously ruptured.

Several streaks of divine lightning flew through the air. Two spheres of golden radiance collided, creating a dazzling eruption. This was not only a clash between the golden crow and Kun Peng, since there were also the hidden force of the dual-pupils at work.

The armor around Shi Yi’s entire body ignited into flames. Mysterious symbols erupted, merging with the golden crow precious technique to fight against the Kun Peng.

Endless golden radiance erupted within the two youths, as if tens of thousands of volcanoes were exploding. The image of a divine bird and an ancient Kun fish swimming about could be seen. This place was absolutely terrifying.

Hong

Shi Yi flew out horizontally. His chest was covered with traces of blood. He was no match for the Kun Peng’s power. His entire body swayed, and the armor on his body cracked apart, on the verge of shattering to pieces.

Shi Hao pursued closely behind. He was so fast that a single step crossed hundreds to thousands of zhang. He extended his hand and swooped down towards the great earth like a Kun Peng.

“Little brother, you are too impatient!” Shi Yi snorted and suddenly turned around. The blood at his lips evaporated, and his eyes blazed. With a hong sound, the heaven and earth were blasted apart.

His eyes possessed an indescribable type of energy. Chaotic mist spilled out into this battlefield, splitting apart heaven and earth.

This entire space became different. As they stood within this ruined place, it was as if they were expelled from the Sky Battlefield.

This place was extremely dim and quiet. It was difficult to hear sounds of the outside world, as if this was a ruined piece of land from the ancient world. There were endless ruins, and the faintly discernible energy of primal chaos made this place seem utterly desolate.

What kind of place was this? Shi Hao was shocked at first, but he quickly calmed down. He noticed the outside world, only that it seemed rather indistinct.

He quickly understood. This was a world constructed from the power of the dual-pupils! He was completely amazed and couldn't help but sigh in astonishment. The powers of the dual-pupils were terrifying after all!

If Shi Yi was given enough time, could he truly split apart and create his own world?

"You brought me to this place, but how does that help you at all?" Shi Hao seemed extremely calm.

"Obviously to capture you," Shi Yi spoke indifferently. Then, his eyes swirled and he said, "Collect!"

With a hong sound, the space in this peaceful world quickly shrunk, forming a cage. Shi Hao was trapped within, while he himself broke out.

This bitter and silent world became blurry. All types of symbols flickered, and strands of chaotic energy curled up about, making this place seem strange and dreadful.

Everyone gasped when they saw this. Shi Yi escaped the trap and left his opponent sealed within.

The indistinct cage became smaller and smaller. It was dark and flickering with darkness, as if it led straight to an archaic prison. It was extremely gloomy and full of demonic energy.

"Not good! This is a small world opened by the dual-pupils. It is going to seal and completely refine the little brother."

No one could anticipate that the battle would change to such a degree. The result was difficult to predict.

Hong n-(O.-v.-e--l-(b/-l-/n

Within the shrinking cage, Shi Hao attacked, continuously smashing against the ruined world to break out.

However, this great world was created from tremendous divine might. It seemed to contain endless might that was difficult to overcome. With a pu sound, Shi Hao coughed out a mouthful of blood.

"Little brother, you should reveal everything you have now, or else, you might no longer have a chance." Shi Yi was cold, his face without any expression. His dual-pupils illuminated, controlling that small world to make it smaller.

The situation was extremely critical. Shi Hao's body released thunderous pi pa sounds within the ruins. It was as if his flesh was going to explode.

This place was about to be disconnected to the outside world, and he was going to be refined within this dark space. Shi Hao coldly shouted and used the Kun Peng's precious technique at full force. An enormous Kun Peng rushed out and spread its wings. It seemed as if it could shatter the endless great stars in the universe.

Hong!

Finally, the small world was blasted apart. He immediately dissolved the Kun Peng's symbols and collected them inside his body before rushing up.

"What? He broke free and destroyed the small world's entrapment!"

This result left everyone deeply shaken. Legend has it that during the archaic years, no one could escape such a trap, yet the younger brother came out alive! He was valiant to a ridiculous degree!

Shi Hao broke free and rushed forward.

Meanwhile, Shi Yi's lips carried a cold smile, and at this moment, he also took the initiative to attack. His eyes flickered as he released his divine light. Dark light erupted from his right eye, and white radiance swirled around his left. Rumbling sounds immediately ensued.

One eye represented destruction, while the other represented creation. Yin and Yang swirled about, creating a wave of strange energy!

Black and white radiance erupted and surged over with extreme speed. It surrounded Shi Hao, leaving him greatly shaken. This wave of power was just too frightening! This definitely originated from one of the world's most foundational laws.

"Horrifying!"

"Powerful!"

Even the supreme experts were left in shock. They finally saw the most terrifying aspects of the dual-pupiled individual. If the user was someone like them, then just this foundational power alone could slaughter the giant figures of all regions and allow them to become unrivalled under the heavens!

Yin and Yang, these two energies could restore the world, and they could also annihilate it. It immediately submerged Shi Hao within.

Hong!

Shi Hao did not hesitate in the slightest. He unleashed his ten heavenly passages to unendingly collect the black and white energies inside. He did not want there to be any additional problems and absolutely could not be careless now.

The ten great heavenly passages were different. They connected together, forming a seemingly immortal divine ring with him at the center. He looked just like a heavenly deity as he charged forward murderously and continuously used the Kun Peng's precious technique.

"Yi, wait, the Heaven Mending Technique is coming out!" Someone cried out loudly.

"What? The Heaven Mending Technique is making its appearance?!"

Resplendent rays of light crushed down, as if they blocked up the heavens itself. It could even mend the heavens, so what couldn't it do?

Shi Yi took action, using the Heaven Mending Technique to block the Kun Peng's precious technique. In that split second, Yin and Yang energies erupted, clashing against the ten heavenly passages.

The two individuals entered an incomparably ferocious and intense deadlocked state. The surroundings erupted, especially the Sky Battlefield, which began to tear and crack apart. Large chunks of stone continuously fell from the heavens, vanishing from existence.

The shockwaves produced by these two were just too overwhelming, destroying everything around them. The faint golden stone and the surrounding railings continuously exploded.

Shi Hao's body shook as everything around him exploded. The symbols of the Kun Peng technique interweaved within space, forming a fish and a divine bird, one yin one yang.

He could no longer care about little things any more, and no longer minded if the Kun Peng's precious technique was exposed. The Kun fish and Peng bird emerged separately, one represented the force of the moon, while the other represented the force of the Sun. It was simply too horrifying.

With a hong sound, he released everything downwards. Moreover, it merged with his ten heavenly passages, becoming integrated together as they suppressed downwards. What kind of tyrannical power was this?

Shi Yi coughed out large amounts of blood and continuously took steps backwards.

Everyone was left in a tense and nervous state. These two individuals' precious techniques were brilliant and diversified, and their greatest divine abilities were displayed. The spectators were left in a complete daze and utter shock. It seemed like the outcome of the battle was about to be decided.

Shi Hao activated the Kun Peng's precious technique, and even supported it with his ten heavenly passages as he rushed forward in murderous oppression. He became more and more terrifying, shaking the Sky Battlefield until it collapsed to pieces!

Shi Yi continuously coughed out blood as he staggered about, but he was not defeated yet. Suddenly, his eyes became intimidating. Golden light shone resplendently, and two golden battle spears flew out.

This was too sudden. Two golden spears flew out from the depths of his pupils. It seemed just like something out of a legend. They pierced through the air with the power to conquer everything.

Pu

Blood bloomed in the air. Shi Hao's left arm was pierced through, and the right part of his chest was completely shot through. Blood splashed everywhere in a dazzling manner. It all happened too quickly, giving him no time to dodge or put up a defense.

"Die!" Shi Yi shouted. His eyes flickered with light, and symbols covered this area as he controlled the two golden spears.

"Imprison!" Shi Hao shouted loudly. The ten heavenly passages illuminated, as if a heavenly domain was opening. Unfading might was released, sealing this area and placing everything under his control.

Afterwards, Shi Hao rushed forward. While circulating the Kun Peng's power, he raised his arm. It was just like a golden divine wing as it gently swept forward.

Pu

Shi Yi's neck was sliced open, and blood immediately soared high into the sky!

Chapter 378 - Heaven Mending

The blood was extremely red, but within it was also a faint golden color. It was extremely eye-catching as it splashed high into the air. Divine light erupted.

This was not normal blood, but instead one that was almost divine. It was extremely beautiful as it flew across the sky, yet it also gave those who saw it a horrible feeling.

"Defeated! Shi Yi is fleeing for his life!" Someone cried out loudly.

Shi Yi's neck had been sliced open, and blood was clearly visible. The bright red yet tinted with golden light blood dyed the sky crimson, leaving every single person at the scene utterly shocked.

"No, Yi'er!" Someone cried out loudly. It came from the Martial Imperial Family. They found it difficult to accept this reality.

"Impossible, how could the dual-pupiled individual be defeated? They were unrivaled within the ancient years, and not even deities could stop them! They have never lost before!" The supreme experts from the Demonic Spirit Lake cried out loudly.

This area erupted with clamoring. Everyone's eyes were widened to their limit.

The Void God Realm was in chaos. It was like an enormous pot of boiling water; it was truly difficult for this place to calm down.

It was just an instant. Everything happened right here, leaving it hard for the people there to even breathe. Was the result decided right here? Everyone had been anticipating this for a long time!

Suddenly, it seemed as if time stopped in that split second. Everything here seemed to have stopped moving, frozen in place.

Everyone was shocked. Even the clamoring was stopped. Who won and who lost? Sound seemed to have vanished as everything sank into an eternal stasis!

Shi Hao was like a Kun Peng on the stage. His divine might was matchless. He looked down on the people here, and with a shake of his right arm, intimidating golden light was released. It turned into a great Peng wing and swept through his enemy's throat, causing blood to rush into the air.

Shi Yi flew out horizontally. His neck had been sliced open, and only a small part was connecting his body together; his head was about to fall off. Divine blood dyed the skies!

This was an extremely abnormal scene. Everything seemed to have slowed down, as if they had been frozen. Each scene passed extremely slowly, allowing everyone to see everything frame by frame.

This was the so-called end to the great decisive battle?

Everyone seemed to have been caught up in a horrifying play. They themselves stood within the scene, feeling the blood being drawn and the divine might. Victory and defeat was being revealed right here.

Hong!

Suddenly, a wave of overflowing force broke apart this state of tranquility. The 'play' cracked apart, as if it was a delicate piece of porcelain that was shattered. Cracks quickly covered this world before shattering.

The frozen scene has been restored. Everything began to move quicker until everything returned to normal.

"What happened?" The crowd cried out. Even the supreme experts' faces changed. They were also affected just now, feeling as if time had become still.

"What is going on? Why did it seem like the stream of time suddenly froze for a moment?" A few experts muttered.

With the restrictions lifted, everything came back to life. Shi Hao still stood within the battlefield while exuding his divine might. Golden light surged around his entire body.

What they saw on the other side left everyone even more shaken!

Shi Yi was flying out horizontally, but the blood was flowing in reverse. The faintly golden divine blood entered his neck. The sky that was dyed crimson became clean, no longer having any traces of redness.

"What?!"

Everyone cried out in alarm. Even the Wood Emperor stood up and stared in utter disbelief. What kind of world-shaking divine power was this?

Shi Yi was clearly dying, with his head almost sliced off, yet the result went in full reverse. The faint golden blood flowed in reverse, and the neck that was hacked open began to fuse together.

Wasn't this a miracle? There was no other word to describe it, for everyone could clearly see that his body was practically dead. His head had almost been lost.

At this very moment, the wound on the neck became smaller and smaller. Even the dull eyes seemed to become brighter, with the conceited and powerful expression returning as well. Divine radiance erupted!

"Is... this real?!" Everyone's voice began to tremble. This was a miracle!

A person that was fated to die had been revived, completely restored to his peak state. What else could be used to describe this phenomena? His wound completely disappeared without a single scar in sight.

"Little brother, you still lack a bit of maturity. You cannot kill me," Shi Yi said softly. Just now, he appeared to have been killed and was blasted flying, yet now, he was walking over step by step again.

His grandeur was incredible. Each step resonated with the world, making all directions tremble greatly. It was utterly terrifying, as if a young supreme deity had traveled here from the ancient past. Brilliant light shone everywhere.

Shi Hao did not say anything and simply stared at him in silence. His eyes narrowed as he searched for the root cause.

“Formidable, truly extraordinary. He’s thoroughly comprehended those profound mysteries.” At the horizon, divine flames flickered. A figure stood within with a heaven overflowing aura. The powerful pure-blooded creatures behind him were all followers, and at this moment, they were watching everything with shock.

“Young miss, the dual-pupiled individual is quite formidable. He is so young, yet he still completely comprehended this supreme technique. In the future, he will definitely be the overlord of his generation and not easy to overcome...” Grandma Xihua said in a soft voice. She revealed a look of worry.

“If he wasn’t strong enough, why would the higher ups care about him? However... it still doesn’t matter!” fairy Yue Chan spoke. Her bright and pure jade-like face carried a bit of shock. Her white clothes drifted about, making her look like a reincarnated fairy from the ninth heaven.

“True and complete... Heaven Mending Technique!” The Stone Emperor sighed while standing on his carriage. He declared the actual result.

Everyone was speechless. A wave of uproar then erupted, for they finally knew what was going on. This was not the damaged Heaven Mending Technique, but rather the Heaven Mending Technique recorded within the ancient sacred courtyard.

The origins of this mysterious technique is mysterious. The ancient and powerful technique came from a great and unrivaled sect from outside this region. It was regarded as one of the human race’s supreme techniques. Once it was revealed, it would sweep through the world.

This was not an archaic precious technique and instead something born in the later generations. However, it was similarly terrifying and known to be unrivalled.

The entire Heaven Mending Sect reached its heights because of it. The technique allowed it to obtain an immeasurable amount of glory!

The Heaven Mending Sect was rumored to even be able to repair the heavens. It was also extremely elegant. As for the divine ability’s might, there was no need for doubt. When Shi Hao displayed the Kun Peng technique just now he had already received a taste of it.

Meanwhile, its most shocking part was another aspect. It was known to allow for a mistake, allowing the user another opportunity. It was simply too heaven-defying!

Shi Yi was clearly on the verge of dying, but it was because of the Heaven Mending Pavilion’s matchless profound mysteries, the ability to overlook an ‘error’, that allowed him a fresh start.

The bizarre scene just now left a deep impression on everyone’s memory. It was as if they had sunk into some kind of frozen image. Everything was locked in place and fixed without motion.

This was precisely the Heaven Mending Technique. It allowed Shi Yi to escape from desperate straits through the ‘heaven mending’ power. Everything would be renewed and bursting life force would be restored!

“Is this the true profound mystery of the Heaven Mending Technique?” Shi Hao said softly. When he finally understood the situation, rays of brilliant light emerged from his eyes.

Pu

Blood flowed out from his left arm and the right part of his chest. The two areas were penetrated by the golden spears previously, and currently, blood was dripping out. The spears were formed from symbols, and as such, they had long disappeared.

“This battle was not as simple as I thought it would be. Younger brother, your strength surpassed my expectations, but this is how things are. We should settle things and bring this fight to a close!”

Hong!

He took large steps outwards. Every time his foot lowered, the Sky Battlefield would shake. Large pieces of stone fell from the sky. This place was going to collapse.

“Kill!”

At this point, Shi Hao did not want to say anything else either. The only thing left was to get rid of his opponent, and only then could things finally come to a close.

The two collided like comets. With a *hong* sound, the Sky Battlefield was blasted apart. All of the faint gold railings broke, and the surface cracked in all directions.

This strike revealed their most powerful divine abilities. The Sky Battlefield that was known to be sturdy and eternal was destroyed. Rumbling sounds could be heard as endless amounts of the cornerstone fell from the heavens.

The two figures clashed once again in an intense confrontation. Following that, an enormous explosion sounded. Rubble flew into the heavens and the battlefield was crushed to pieces, ceasing to exist.

Everyone was stupefied, and a chill ran through their minds. The domain embodiment’s face became extremely unpleasant. This battlefield could no longer be repaired. These two individuals’ strength surpassed his expectations.

Hong!

Divine light surged, and a desolate aura filled the air. An even greater battlefield appeared. It was entirely black, and enormous stones covered the ground. Black steel railings surrounded it from all sides.

A new battlefield appeared, one of an even higher grade. It was situated in the air, and the two great youths descended into it.

“Alright, you two can continue!” The domain embodiment said with an ugly expression.

This battlefield was even more vast. It possessed a desolate and ancient aura, enough for these two to display all types of shocking divine abilities without fear of being destroyed.

As expected, regardless of whether it was the dual-pupils’ light or the strength of Shi Hao’s body, it did not split apart. The area rumbled and swayed, but none of the attacks were able to cause the enormous stones to fly into the air.

In reality, this battle was already close to its end. It could not last much longer. The battle between the two had reached a point where precious techniques were used to their limits. The outcome of the battle was going to be revealed soon.

Everyone held their breaths. They watched carefully, fearing that they might have missed any details. The sole supreme youth of the wasteland region was being born right here!

The closer the battle approached its end, the more ferocious it became. The two individuals were surrounded by blazing divine radiance as they drew out every last bit of strength.

Honglong!

Shi Yi went crazy, no longer seeming as calm and collected as before. He shouted loudly, "You aren't the only one with ten heavenly passages! I too possess them!"

As the light from his eyes flickered in and out, the surrounding space would twist. Ten heavenly passages appeared at the same time. They were extremely terrifying. Even though they were not as large as Shi Hao's and connected into a resplendent divine right, they were still quite shocking.

These ten heavenly passages were unique in that they actually took on the form of ten different creatures. They were not the same as ordinary heavenly passages. A terrifying energy began to diffuse outwards!

With a *wenglong* sound, ten vicious archaic beasts revolved around his body while floating up and down. He looked just like a heavenly deity.

This was a great sphere of light. Shi Yi's divine might greatly erupted! *n//o/(v-.E).l/)-l.-n*

"Kill!" Shi Yi roared and rushed over. Behind him were a pair of golden crow wings, his right hand was the great Peng's divine fist, and his left hand formed a Qilin imprint. He was like a great overlord as he overlooked everyone.

Moreover, the Heaven Mending Technique was being used. It flew through the air to block Shi Hao's Kun Peng technique. The two collided and erupted with blazing light.

Shi Hao shouted loudly. The Kun Peng technique evolved. An unending sea of black water surged boundlessly to defend against his opponent's myriad of techniques alone. The Kun Peng swept through this world.

Wenglong

A haze surged from Shi Yi's eyes. Yin and Yang energies merged to form a beam of chaotic energy. This was an even more powerful innate divine ability that could tear through anything.

Their clash this time caused both parties to cough out blood and suffer great injuries.

Everyone knew that the curtains were going to fall, ending this battle! They were all incomparably nervous as they watched carefully, scared that they would miss something.

Hong!

They attacked again. Both sides coughed out another mouthful of blood. Shocking bone cracking sounds rang through the air, indicating that there were bones broken. The two were now soaked in blood.

"Kill!"

The third collision started. This time, Shi Hao's heavenly passages linked up to form an enormous divine disk. It was utterly terrifying, and it seemed to freeze time and space.

Shi Yi's ten heavenly passages had dimmed from being repeatedly struck. He seemed like he had been locked down again. However, this time, his eyes shone. They became hazy as Yin and Yang once again created chaotic energy.

Hong!

It was as if a sea of primal chaos poured out, striking heavily against Shi Hao's body. Moreover, fierce streaks of light followed that tore harshly at his body until it was almost destroyed.

However, the younger Stone brother endured this suffering and continued to urge his ten heavenly passages forward. His right hand reached out, and with a *pu* sound, he tore off one of Shi Yi's arms.

"Kill!"

Shi Yi roared with anger. The chaotic energy within his eyes formed symbols, which then condensed into a halberd. Symbols filled the sky as it ferociously hacked downwards.

The strike from the halberd was enough to shock the entire world. It flew out from Shi Yi's eyes and hacked out with endless divine might. Shi Hao dodged, but it still sank into his shoulder, almost hacking him apart. Large amounts of blood gushed out.

Dao sounds rang out. A heavenly passage emerged from Shi Hao's flesh, stopping this halberd. It hung from his body and did not manage to split him in two.

Hong!

At the same time, Shi Hao's fist slammed out. The Kun Peng's technique was displayed to its extreme. It carried black stripes within, making him seem resemble a human Kun Peng.

This strike was earth-shattering. It possessed an insurmountable amount of divine force. No matter what stood in front of it, it would still be broken.

A *weng* noise sounded. The space around it even distorted, seeming to cave in. Shi Hao's fist entered the right part of his opponent's chest and passed straight through. Blood erupted outwards.

Right now, forget about the flesh of a human, not even divine gold could resist this strength. It would still distort and explode.

However, dual-pupils were extremely heaven defying. They were just like how the legends described them, with natural endowments that were unrivalled. His eyes trickled with blood and surged with an incomparable amount of energy to stop his body from exploding to pieces.

Both sides separated at the same time, both in terrible conditions. It could be said that both sides only suffered without winning.

"Let's end this." Shi Yi's voice was low. He no longer had the calm and easygoing expression he had before. Currently, he was completely cold as he said, "My little brother, if this last attack from the supreme being bone takes your life, wouldn't that be ironic? Would you be able to die in peace?!"

“You are following the path to your own doom. I’ll help speed up your destruction.” Shi Hao said in an overcast manner.

Chapter 379 - Seizing Light from Heaven

The two individuals were completely covered in blood with bodies that were in tatters. The two supreme youths were in terrible states with too many broken bones.

The little brother was almost hacked in half by the halberd that flew out of Shi Yi’s eyes. Meanwhile, the older brother’s arm was torn off by Shi Hao and his chest was pierced through. His wounds could not be healed for a period of time.

Both sides suffered with neither side winning. At this moment, the supreme being bone was going to be used!

The black battlefield was extremely large. It was entirely dark, as if its color resulted from being dyed in blood. An ancient aura filled this place. The two supreme youths stood at opposite ends. There was blood everywhere beneath their feet, and they swayed as they confronted each other. Even though their bodies were in tatters, their essence energies were still blazing fiercely like divine flames.

“Kill!”

At this moment, they both shouted and turned into streaks of lightning. The final great clash was about to occur.

Hong!

It was as if the heavens were shattered. The great earth caved in and a seemingly endless mist filled the air. A boundless amount of divine force surged violently and erupted here!

The Sky Battlefield shook. Countless symbols rose and illuminated in the air, imprisoning themselves within the air. Ancient heroes appeared one after another, and weeping sounds could be heard. It was as if their cries resonated with this battle.

“How terrifying!” Everyone cried out in astonishment.

This Sky Battlefield far surpassed the previous one, so the heroic spirits were even more terrifying. They seemed extremely lifelike as they formed divine chains and roared endlessly.

Hong

Shi Yi’s chest surged with a wave of hidden force to nourish his flesh. It immediately allowed his aura to erupt. This world seemed like it was going to be torn apart.

He turned into a streak of lightning and slaughtered towards Shi Hao.

Meanwhile, Shi Hao’s entire body ignited with flames. Ancient symbols covered his entire body. He was evolving the Kun Peng’s technique, trying to push it to an even higher level to strengthen his body.

This collision was just like the collision of comets. It was as if the great battle had moved to outer space. In just a split second, all types of symbols and radiance submerged the Sky Battlefield.

Ao...

The ancient heroic spirits cried out from within the battlefield. Many of them were wiped out from these two's explosion of light. They scattered like a dazzling rain of light.

This was a true divine battle. The two standing within the battlefield had reached the absolute limit that creatures could achieve in this cultivation realm. It was truly difficult for them to take even half a step further.

Honglong

The Sky Battlefield shook. It was about to fall into ruin. Cracks ran through its surface.

The domain embodiment was shocked. He had already switched once to this battlefield that was incredibly firm and stable. It was known as a deity-level arena, yet it was still damaged! He revealed a look of disbelief.

"Has the most glorious generation since the ancient times appeared? Individuals like these actually appeared! These two individuals can completely change this era," the domain embodiment said in a low voice.

This confrontation was just too terrifying. It felt like the heavens were falling and the earth was cracking apart. Ghosts and deities cried out as chaotic changes occurred in this place. It was as if everything was going to be annihilated.

The mysterious force of a supreme being emerged from within Shi Yi's chest to face Shi Hao who was currently activating the Kun Peng's power. The two Stone brothers' intense fight was reaching its climax. Both sides weaved left and right like lightning.

Hong!

Following an intense strike, both individuals were blasted outwards.

"Accept death!" Shi Yi shouted loudly. He then used his forbidden divine ability.

His chest illuminated like the rising sun. A wave of divine multicolored light emerged, and even though it didn't burn too ferociously, the aura it produced was utterly terrifying. It scattered all the clouds in the sky.

Heaven and earth began to tremble in all directions. Everyone was shaken. They couldn't help but kneel down from the heroic pressure!

"What is this?!"

The crowd was completely stirred up. They couldn't help but tremble, because it was as if they were facing a true ancient deity. They felt an incredible pressure that made them want to bend down and kowtow.

Within the black battlefield, Shi Yi's entire body illuminated. His chest, in particular, was like a resplendent rising sun that illuminated the world of mortals. It was too bright to look straight at.

"I... can't control my body!" A shaking voice sounded. His body shook, and he ultimately fell onto the ground with a putong sound.

The aura within the Sky Battlefield was just too terrifying. It entered everyone's bones and inflicted a severe pressure. It made even their souls tremble. They shivered uncontrollably; this was an innate type of intimidation.

"What a heaven defying divine might! It's too great to defend against!" Even those at sect master level's expressions changed. Their faces paled, for they knew that once Shi Yi was given enough time, he would one day become unrivalled under the heavens.

This kind of precious technique was too powerful. Its pressure suppressed everyone, making it so that they couldn't even lift their heads. It was difficult to resist!"

"That was originally mine..." Within the enormous battlefield, Shi Hao stood on the black surface. He sighed deeply. Suddenly, there was only an afterimage left behind as he shifted his position.

Hong!

The streak of divine multicolored light flew across the sky in an unstoppable manner. It pierced through the black battlefield and shattered the railings. An even more terrifying cavity appeared on the ground.

This was the mysterious force of the supreme being bone. Once its power emerged and the divine light rushed outwards, even the immortal black battlefield suffered damage.

What the crowd saw left them greatly shaken, and even the supreme experts felt as if their bodies had gone cold. With so many natural divine gifts, just how many people could keep him in check in the future?

If he was given a few more years and allowed to reach an even higher cultivation realm, he would truly be able to move freely under the heavens and look down on the wasteland region. It wouldn't matter even if the Archaic Divine Mountains' supreme experts made their appearance.

Dual-pupiled individuals were undefeated legends. They would only continue to become greater!

Chi

Shi Yi's chest shone and symbols appeared all around him as if he was a scripture book. Moreover, the chant of sutras sounded. The noise rumbled with an enormous and shocking volume.

A wind stirred beneath Shi Hao's feet. He was like a Kun Peng. His figure flickered from his original position and disappeared, reappearing at a different place. When the light descended, a large region was blasted to pieces once again.

The younger Stone brother no longer remained passive and went on the attack. A distinct roar immediately sounded as soon as he opened his mouth. He shot out sideways, and his arms formed imprints. Soon after, a black sea struck the skies and a Kun fish swam forward.

Hong!

Shi Yi turned around. His two hands continuously produced imprints to use the supreme being bone's power. His hands shone to face his opponent's precious technique.

The collision this time filled heaven and earth. Dao sounds rang incessantly, and it was as if two true supreme beings had encountered each other. An intense battle broke out, leaving the crowd completely shaken and stunned.

The two were just too powerful! Their attacks caused the Sky Battlefield to crack and the enormous black rocks to continuously fall.

"I underestimated them and should have prepared the most powerful battlefield!" The domain embodiment sighed. His eyes burned with a blazing light, for he knew that people like these two would definitely leave their names down in the records of history.

The two broke apart and stood in opposition again. Shi Yi remained calm and unhurried, as if he was a deity that entered a world of mortals. Even though he lost an arm, his battle strength did not weaken at all.

"My good little brother, how does it feel? The supreme being bone is worthy of its reputation. It does have the power to suppress the sun, moon, and stars and allow one to overlook the entire world. If your death is because of this bone, then wouldn't that be a perfect ending?"

When Shi Hao heard what was said, he did not seem to mind it that much. "It seems like the dual-pupils weren't that great after all? In the end, you still had to rely on the strength of someone else's bone."

"My dual-pupils are naturally more profound and what I consider my greatest asset. My dual-pupils' greatest innate divine power has not revealed yet, and this power is my greatest trump card. Unfortunately, you won't have the opportunity to see it. Using the supreme being bone that you once owned to kill you is the ideal conclusion," Shi Yi calmly replied. His voice wasn't loud, at a level where only the two of them could hear. "Your bone is now completely compatible with me. Within the ancient sacred courtyard, I used the Heaven Mending Technique to transform it, making it fit immaculately with my body."

Everything turned out like how Shi Hao anticipated. Shi Yi had a great opportunity within the ancient sacred courtyard after all. He was able to evolve the supreme being bone into something he could use, leaving him flawless.

"The battle until now has been a draw. Both of us have been deeply injured, whether it be the loss of an arm or almost being hacked alive. However, everything is different now. What else do you have to fight against me? What other hidden cards can you play?!" Shi Yi shouted. His voice was thunderous, shaking those who heard his voice to their souls. His grandeur erupted greatly.

"Speak after you've won!" Shi Hao coldly replied.

Needless to say, Shi Yi released an utmostly terrifying attack in front of all the spectators. He was going to use the supreme being bone to kill his younger clan brother.

With a honglong sound, a great sea seemed to undulate within his chest. It was as if thunder boomed, releasing an incomparably loud sound that shook the heavens.

This time, the light that flew out from his chest was not just a single strand, but rather an entire expanse. It was incomparably dazzling and formed from symbols. It actually possessed a world-suppressing divine might!

Every single person here was greatly shaken. The battle left them rather fearful. This was simply too powerful! No one had the power to defend against it.

“So powerful! This person is incredible!” The figure within the divine flame released a cry of shock. His eyes radiated with scarlet flames that seemed to burn into the nine heavens.

Behind him, those pure-blooded creatures were utterly shocked. After following their master for all these years, this was the first time they heard him give anyone this kind of evaluation. It left them with a great fear.

“Victory is his!” The golden spider supreme expert nodded as he gave this type of early verdict. The Demonic Spirit Lake’s creatures were incomparably joyous as well.

The divine light became even brighter as it shook the boundless heaven and earth. Shi Yi was surrounded within. Heavenly streams flowed down one after another, greatly shocking everyone here.

“This is... borrowing light from the heavens! I finally understand! It is this type of power!” One of the supreme experts was shocked and couldn’t help but cry out.

At the same time, the Fire Emperor, Stone Emperor, Wood Emperor and others stood up from their carriages. Their eyes were completely focused on Shi Yi, for they recognized what type of divine might he was using.

“It’s too similar to the ‘seizing light from heaven’! It’s fluctuations and patterns are too similar!” The Wood Emperor was full of shock as he said in a soft voice.

Even characters as powerful as an emperor couldn’t remain calm. They widened their eyes as they stared unblinkingly.

Seizing light from the great heavens; this was known as one of the most terrifying types of borrowed power. It was difficult to defend against, since it was a divine light that descended from the heavens. This dreadful technique could destroy anything and hack down the most powerful experts.

This kind of power was only heard of in legends and never had instances of it being used by an individual alone. Even though it was still at the beginning stages, it still left everyone horrified.

“This... supreme being bone is indeed heaven defying! It could actually give birth to this kind of might!” Even the aged supreme experts released sighs of admiration.

Whether or not it was truly borrowing light from the heavens couldn’t be confirmed, but it was too similar to what was recorded within the ancient texts. Even the most powerful people present were trembling.

Shi Hao was silent. This power was different compared to the energy within his chest. After being reborn, it had become different after all.

“This battle is about to end.” This was what everyone was thinking.

Shi Yi appeared cold, as if he was a divine king that had descended into this world. He walked out with large steps, and light shot out streak after streak from his chest. These incomparably brilliant lights all flew towards Shi Hao.

At this moment, Shi Hao activated the Kun Peng precious technique, but after a moment of hesitation, he decisively opened his fleshly heavenly passage to defend against this expanse of divine light.

At this point, it was simply impossible to avoid this attack. The supreme being bone had displayed its might, surrounding this place and filling the sky with symbols. The only choice was to face it head on.

“No!” Huo Ling’er closed her eyes.

In reality, many people were sighing. The little Stone brother was astonishing enough, but at this moment, what could he possibly do to defend himself? It wasn’t something that could be defended from by his body! Not using the Kun Peng’s technique was his most crucial mistake!

Shi Yi could use the Heaven Mending technique at any moment, and his eyes were shining with divine light as well to deal with Shi Hao’s Kun Peng technique. Meanwhile, he was going to use the supreme being bone to kill his opponent!

Honglonglong!

All of the ‘light seized from heaven’ flew towards Shi Hao. It was utterly terrifying, causing the Sky Battlefield to blast apart. All tangible materials were obliterated.

“Yi, something isn’t right!” The Wood Emperor expressed softly.

The supreme experts were all shocked as well. They did not see the scene of destruction they were expecting. Shi Hao’s body was not extinguished, and he continued to stand there like before.

“That’s my bone. You are just a despicable thief!” Shi Hao’s voice wasn’t high, but it still shook and rumbled through the boundless heaven and earth.

Everyone was greatly shaken, but soon after, they realized something. If the rumored supreme being bone used to belong to the little Stone brother, then he should be... the true natural born supreme being!

“Right, this was originally his! This is too unfair!” Everyone shouted in response.

“What happened?” One individual couldn’t help but cry out.

Shi Hao’s flesh heavenly passage opened, forming a sphere of light there. Then, all of the energy was absorbed, making his chest shine!

With a hong sound, the world erupted into chaos. Endless light surged and submerged this area. Nothing could be seen except for the mysterious light that covered the sky!

What was going on? Everyone was astonished!

It was as if a natural born supreme being was awakening here. The energy devoured the great wastelands in a tyrannical manner. The terrifying energy diffused everywhere, and endless symbols interweaved, branding themselves within the sky. Resplendent light completely submerged the world.

Shi Hao closed his eyes. He knew what kind of changes were happening. The supreme being bone in his chest was reviving, producing an endless amount of divine light!

Under the boundless radiance, the black battlefield had already been twisted to pieces. When Shi Hao took a step outwards, the entire world erupted in response. He forced his way towards the older Stone brother.

Everyone could vaguely see that supreme youth walking through the boundless divine light. Then... he tore apart the other individual's body!

Ah... A miserable cry rang through the air.

Everyone was shaken deeply. What kind of scene was this? Was that the younger Stone brother walking? Was he the one that ripped apart his opponent? The supreme being aura suffused the air, drowning out everything!

Chapter 380 - Beheading the Dual-Pupiled

"Is the battle between supreme youths going to end like this?!"

"What is going on? Has the younger Stone brother killed Shi Yi? It's too blurry, I can't see it too clearly. What exactly happened over there?!"

The black battlefield shattered, and the fluctuations in the arena became even more intense. Everything was destroyed by the diffusing shockwaves. All of the battlefield's railings and cornerstone were destroyed.

The supreme experts here widened their eyes and circulated great divine abilities as they observed everything carefully. This was simply beyond their expectations. The older Stone brother used the legendary supreme being bone and even displayed the 'seizing light from heaven' that was known to destroy all enemies, yet the end result was completely flipped upside down.

"How could Yi'er lose? How could he die?!" Shi Yi's relatives from the Martial Imperial Manor were all stunned. Their voices were shaking, and their faces were pale. They felt as if they had lost everything.

Even though they couldn't see the battle situation, the vague silhouettes and cries of suffering still allowed them to understand what kind of horrible thing had happened.

"How could the dual-pupiled individual lose? During the archaic years, the dual-pupiled individual was known as being unrivalled. Even gods and devils would all be forced to retreat before his presence. Things should not have ended like this!" The golden spider supreme expert muttered while full of unwillingness. A flash of sinister and vicious light flew past his eyes.

Fire Emperor, Stone Emperor, Wood Emperor and some others were using great divine abilities. Their eyes released symbols as their gaze pierced through the light to witness the state of the battle. They couldn't help but gasp.

At this time, the brilliant light that had submerged everyone's senses had finally dimmed. Everyone else could now clearly see the situation as well.

"Ah, Shi Yi is finished! Victory belongs to the little one!"

Everyone cried out in astonishment. They were all incomparably shaken.

The younger one's body was tall and slender. As his long hair scattered behind him, he seemed to possess the grandeur of a monarch that overlooked the world. His entire body was resplendent and covered in mysterious symbols. One of Shi Yi's legs had been torn off, and blood continuously trickled out from the wound.

Shi Yi staggered backwards. Just now, his body had been locked down, and as a result, he was left in a situation where he had to give up that leg and back off quickly. This naturally led to him receiving an extremely severe injury.

His hair was dishevelled. Right now, he only had one arm and one leg remaining, and blood covered his body. His battle armor was in tatters. His face was now lacking in color and extremely pale.

This deity like youth was currently in a miserable state. He seemed like he was on the verge of dying!

What kind of result was this? When he used his dual pupils, the two were still on equal levels with neither side being able to take advantage of the other. However, when he used the supreme being bone, he actually suffered so greatly.

"It isn't yours, and it will never truly be yours!" Shi Hao said. His divine might was intimidating as he stood in the distance.

This was a clear-cut contrast between the two supreme youths. One possessed a heroic pressure, while the other was swaying back and forth. As for who was strong and who was weak, the verdict had already been made.

Shi Yi's eyes were shining as they stared continuously at his younger opponent. Symbols flickered within his eyes as he tried to see through him.

From start to finish, he had always felt that the other side possessed a mysterious aura, and if he could crush this aura, he would be able to see the source of the power. Shi Yi believed that Shi Hao might have some kind of astonishing divine artifact that allowed him to separate himself from everything.

As a result, he also used his own divine precious artifact -- the Void Halberd as a precaution. However, he found that he was left gravely mistaken!

"Reborn... Supreme Being Bone!" Shi Yi's eyes seemed to have lightning running through them. He released a roar that was full of pain and unwillingness. His judgment had actually been mistaken!

The older Stone brother had finally understood how gravely wrong he was!

He wanted to use that true bone to kill his younger opponent, ending this fight in the cruelist way possible. He was going to use the supreme being bone to obliterate his last connection to Shi Hao, yet he never expected that this would lead to this bitter consequence.

Who could have thought that the younger stone brother's natural gifts were so great that the supreme being bone would be reborn! Once it was activated, the reborn true bone's aura flooded the heavens and completely restrained the former true bone!

After thinking it all over, Shi Yi became filled with agony. He had chosen his own route of defeat. If he had used the dual-pupils' power to fight, it wouldn't have ended like this.

"After stealing my bone, it seems like this is all you are capable of!" Shi Hao said. His voice was ice cold. These words seemed to descend like a sharp sword into Shi Yi's mind, making his body tremble. He immediately spat out a mouthful of blood.

Right now, not only was Shi Yi's body in intense pain, his heart was suffering from an even greater humiliation. He was a dual-pupiled individual that was unrivalled during the ancient years. He represented an undefeated legend, so how could he be weaker than anyone else in this world?!

The domain embodiment's face was extremely unpleasant. Two battlefields were destroyed in succession, something that was truly unprecedented. With a honglong sound, an even more ancient and magnificent stage appeared.

It was ashy-brown in color and formed from fragments of stars. The most crucial part was that there were ancient patterns of gods and devils carved in here, making it an elite location out of the deity-level stages.

"This won't do. The dual-pupiled individual cannot lose. I have to change this result," said the golden spider in a low voice. He looked towards his clansmen and spoke softly.

By now, the crowd outside the battlefield had long erupted into commotion. If nothing unexpected happened, this battle was going to come to an end. Shi Yi was at a clear disadvantage. Without an arm and a leg, it was practically impossible to make a comeback.

There shouldn't be any suspense left in this battle!

"Shi Yi has lost. No, he is my Heaven Mending Sect's disciple, so how could he be defeated? This shouldn't be the result!" A chilly light flashed through Grandma Xihua's eyes.

An elder appeared in another direction. White hair scattered down his tall, bronze figure. Eyes that were like golden lamps shone from his head. Even though his age was great, he was full of vigor and vitality. When he spoke, it sounded like the ringing of a copper bell.

"We did not find where he is located. It's difficult to locate his physical body," the elder said.

"Grandma, you have acted a bit excessively. Why don't you just let it go?" When the quiet and elegant fairy Yue Chan heard this, she frowned. A bit of discontent appeared on her pure-white and sparkling face.

"Young miss, this does not concern you." Grandma Xihua left for the distant skies, where she then quietly talked to that elder.

Grandma Xihua began to talk to him privately. "Elder Zhong, did you bring the forbidden artifact? Prepare to take action. The younger Stone brother decided not to enter my sect, so he will become a huge problem in the future. Rather than allowing him to grow up, it's best if we interfere and take his life now."

“Wu, this is the Sky Battlefield after all. Even if we brought the sect’s ancient precious artifact, it might not necessarily work. There is a certain amount of risk involved.” A golden ripple rang through Elder Zhong’s eyes. His voice sounded like the grinding of metal.

“The younger brother cannot be allowed to win. Shi Yi is entering my sect, so no matter what, he cannot lose!” A vicious light flashed through Grandma Xihua’s eyes. Her tone was incomparably resolute.

A divine flame burned in the horizon. A male was situated at its center. Scarlet flames jumped within his eyes, and scenes of the stars in the heavens being burned down could be seen. As he overlooked the Sky Battlefield, he said to himself, “These supreme youths are both extremely powerful. I am shocked.”

“Senior, are we still going to take action?” One of the pure-blooded creatures behind him spoke.

“These two individuals cannot peacefully coexist. Moreover, some unforeseen changes might take place. Let’s wait for now!” The ‘senior’ spoke.

The ashy brown battlefield was grand and vast. As it situated itself in the sky, a faint mist curled up about it. Both parties stood at opposing ends while circulating their terrifying energy.

In reality, there was no suspense left in this battle. Not much action could still take place.

“Let’s end this!” Shi Hao shouted.

Shi Yi was silent. Could he even fight at this point? His body was in tatters, losing an arm and a leg. His expenditure of essence energy had been severe, to a point where it was practically dried up.

“I’m unwilling!” He said to himself. He had not utilized the dual-pupils’ most profound mystery, which was also his greatest trump card. However, did he even have the energy left at this point?

He felt great remorse. Why did he have to use the supreme being bone and push himself onto a path of no return? If it wasn’t for that decision, it might not have ended like this.

Regardless, he still had to make a last stand. If he could display the dual-pupils’ greatest divine might, he still had a chance. Shi Yi roared. His entire body lit up as he began to risk it all.

Those eyes were incomparably terrifying. Shocking scenes of the sun and stars falling from the heavens emerged, and the power to change everything erupted.

The older Stone brother’s eyes were shedding blood. He wanted to forcefully activate the dual-pupils’ divine might, but he had exhausted too much energy, and it was difficult to activate. This left him with even more remorse.

“I am unwilling! I, Shi Yi, will not be weaker than another in this life!” He roared.

“You’ve lost. You’ve brought disaster upon yourself when you stole my power!” Shi Hao’s cold voice smashed down on Shi Yi’s ears.

Hong!

Shi Hao’s chest released precious light, and the world was once again submerged under symbols. The chanting of sutras sounded. Everyone could vaguely see a small supreme golden figure sitting there that seemed to be chanting incantations.

This time, the heavens fell and the earth cracked apart. Ghosts weeped and gods howled. Mysterious symbols flew out from Shi Hao's chest one after another; this power was just too powerful. The spectators all felt their legs go weak.

Even the supreme experts were feeling great fear. They did not know what kind of mysterious force this was. It was clearly not seizing light from heaven, but even they couldn't see through it. They were all greatly shaken.

"Kill!"

Shi Yi roared and rushed forward. He used the most powerful strength to face his younger clan brother's attack. He did not want to be defeated.

However, the result had already been decided. The younger brother was incomparably terrifying. Terrifying streaks of divine energy continuously descended from his body, crushing everything. There was nothing that could stop it.

Pu

With just a single strike, half of Shi Yi's body split open. His body could not withstand this pressure and was about to fall apart.

Ah...

Within the dazzling light, everyone saw Shi Hao, who was like a revived natural born supreme being. A fist pierced through Shi Yi's body, creating an enormous bloody hole that went from one end to the other. Blood dyed the sky red.

"Kill!"

In the distance, the golden spider released a low shout from the Demonic Spirit Lake's party. Several fine spider hairs flew out. They were all golden in color. These were items left behind by the clan's deities and regarded as secret ancestral artifacts.

Weng

The Sky Battlefield gently trembled. The mysterious spider hairs that had been refined for endless years disappeared without a trace. They penetrated inside and shot towards Shi Hao's body.

The spider hairs were as thin as silk and left no traces. Within the ancient era, they were known as one of the most terrifying hidden killing weapons and impossible to defend effectively against. They were left behind by true deities, so they were naturally even more horrifying.

Shi Hao felt stabs of pain on his body's surface and released a loud roar. His chest flowed with symbols and scoured his body to block that area. He suddenly turned around and looked towards the Demonic Spirit Lake with ice cold eyes.

Pu

At the same time, with a ferocious movement and a pu sound, he tore off another portion of Shi Yi's body. The remaining arm was also ripped off.

Everyone was completely astonished. Shi Hao's valiant might was unstoppable. Currently, he was like a supreme demonic god that killed all enemies.

In the Demonic Spirit Lake's direction, the golden spider's expression went rigid. After being swept by Shi Hao's gaze, his entire body went cold. Many creatures felt their scalps become numb. It wasn't able to change the state of the battle.

"Who dares to disturb the battlefield?" The domain embodiment's face sank. He took large steps out towards the Demonic Spirit Lake's direction.

"Go!" Grandma Xihua said in a low voice.

Elder Zhong's pupils flickered with golden symbols. While in the sky, he activated an ancient forbidden precious artifact. A strand of mysterious force silently slipped into the battlefield.

"This is a curse that leaves no traces. It kills without any form. However, I wonder if it will be effective within the deity-level battlefield." Elder Zhong's old face revealed a trace of worry.

In the next moment, Shi Hao's body suddenly trembled within the Sky Battlefield. His eyes seemed to have gone listless, and he almost fell there. It was as if his soul had been destroyed.

"It worked!" Grandma Xihua exulted. She clenched her fists in secret.

This was the power of an unparalleled great sect that crossed several major regions. They possessed many strange precious artifacts that showed effectiveness even within the Sky Battlefield.

"No way! Something is wrong with the young one. Is the situation going to turn around?" Everyone was shocked as they watched everything with disbelief.

Meanwhile, Shi Yi, whose entire body was splitting apart, released a low roar. His eyes shone, about to release a fatal attack. He then stood up.

Hong!

Suddenly, Shi Hao moved. Expression returned to his eyes. He shot a deep look at Grandma Xihua's location that was bursting with anger and killing intent.

The younger Stone brother's chest lit up, surrounding him within a mysterious force. A supreme aura pervaded the air. The supreme being bone released its divine might, and the light waves that proliferated, trapping Shi Yi in place.

"It's over!" He said softly.

Shi Yi was unresigned. His eyes shone and did everything they could to activate the greatest mysteries of the dual-pupils. Unfortunately, even though the will was there, he didn't have the strength.

"I am unwilling! I, Shi Yi, will never be weaker than another!" He roared loudly. It was just one mistake, yet he had to pay the price in blood.

Peng

The younger brother's palm slammed over. An enormous pressure swept over. Shi Yi's eyes were trickling with blood, and with a pa sound, one eye was blasted out.

"Kill!"

Shi Hao did not hesitate. His supreme being bone shone, and an unrivalled destructive energy flowed through his body from head to toe.

His left hand held several Soul Shattering Needles, and his other hand held a Soul Suppressing Pagoda. Together with the mysterious supreme being force, they smashed down together. With a hong sound, Shi Yi was killed, his body exploding on the spot.
