

Perfect WD 381

Chapter 381 - Generous Reward

The dual-pupiled individual was killed just like that. Everyone seemed to have become completely petrified. The stronger and the weaker Stone brother had been decided, and the battle had ended!

They had looked forward to this for so long, and the moment had truly arrived. The spectators sank into a state of silence. They were all incomparably shaken. The dual-pupiled individual that was so powerful was killed just like that.

During the ancient years, the dual-pupils were known as an undefeated legend. There was simply no one in this world that could kill such an individual. They were unequalled, yet in the end, such a legend had been shattered today.

Hong!

This place erupted with noise and action. The crowd's voices flooded this area and engulfed all directions.

"Yi, wait, there is still an eyeball at the scene displaying its radiance!" One of the individuals there cried out in shock, drawing many people's attention.

Within the ashy-brown battlefield, there was an eyeball rolling on the ground. It then turned into a streak of lightning and flew towards Shi Hao. It erupted with resplendent light, and with a peng sound, it exploded.

All types of symbols began to flicker about, and a dazzling rain of light scattered out, as if they originated from the void. Shi Hao released a muffled groan as several bloody holes were opened in his body.

Everyone became frightened. Everyone knew how powerful Shi Hao's body was, yet it was still pierced through. Blood trickled outwards, proving just how horrifying this attack was.

Even though the dual-pupiled individual had fallen, the eyeball he left behind was still absolutely shocking.

Only now could the battle finally be considered to have ended. Shi Yi was killed, disappearing from the Sky Battlefield. Apart from the blood that dyed the ashy-brown battlefield red, there wasn't really anything else left behind.

After a wave of silence, the Sky Battlefield became clamorous again.

News quickly travelled in all directions. There were many who weren't able to come here and witness the fight, so now that the battle finally ended, great aftereffects would naturally ensue.

As expected, the entire Void God Realm was shaken. All parties were stunned, and every sect was left with indescribable shock.

"Heavens! The natural born deity-like Shi Yi was killed! Is this real? You have to know that he has dual-pupils!"

“It truly is hard to believe. The naturally blessed Shi Yi has lost! The entire wasteland region will be shaken because of this. A legendary youth has fallen!”

“It was the younger Stone brother that reigned victorious. This generation will now belong to him, and from here on out, he will embark on a glorious and unmatched path to greatness. He will force back all enemies in this world!”

The Void God Realm was in an uproar. Everyone from all directions was shocked.

When news traveled back to the real world, it caused many great ancient countries to become chaotic. After all, not everyone entered the Void God Realm, so this shocking news swept past like a hurricane.

It had to be known that this battle drew the attention of countless people. It wasn't too much of an exaggeration to say that this battle shook the entire world. Every part of the wasteland region was discussing the shocking fight between the two Stone brothers!

In reality, as news was quickly travelling outwards, the Sky Battlefield had not yet calmed down. The waves of commotion did not end, and were instead quite fierce.

The ashy-brown battlefield was formed from meteorites and carved with the symbols of gods and devils. On top stood a single youth whose body was stained in blood. His injuries were severe, but not a single person dared to show contempt for him. They all gazed at him with reverence.

The battle between the two most powerful youths in the wasteland region had ended, and the victor was the true unequalled youth. His future was incomparably great, and he would forge an undefeated legend. Even the dual-pupiled individual was killed by him, so just how great would his future accomplishments be? No one could predict such a thing!

“Disturbing the Sky Battlefield in my presence, you all truly do not know the difference between life and death!” The domain embodiment released a thunderous divine might. He was utterly furious.

He moved to where the Demonic Spirit Lake's people were and stretched out a large hand. It covered a region, and those within all released horrified cries. They found it hard to defend themselves, and all of them were trembling.

Honglong

The hand covered the sky. The domain embodiment's enormous hand surrounded this group of individuals and then slowly closed.

It was as enormous as a mountain.

Pu

These individuals all exploded. They turned into lumps of bloody mist, obliterated by the enormous green hand. These were all experts that had cooperated in the golden spider hair attack, and all of them were now dead.

The golden spider's expression was ugly. He turned into his human form, and at this moment, veins were popping on his forehead. His eyes were red, and his fists were tightly clenched. In the end, however, he endured his rage. If he dared to act presumptuous here, then he would probably be killed.

The domain embodiment was a will of the Void God Realm. He was in charge of this pure land and possessed ultimate power. How many people dared to defy him? Doing so would bring about their end.

In the olden days, there actually were people who dared to do so, but the great golden spider was definitely not one of those people. He was not that bold.

The domain embodiment swept his chilly gaze over the crowd. Not only were two of the Sky Battlefields broken, there were people who dared to recklessly disturb the great battle, making him furious.

However, in the end, he did not find traces of the Heaven Mending Sect, because that forbidden artifact was extraordinarily strange. It did not leave behind any clues.

Within this entire battlefield, Shi Hao was probably the only one who knew that it was precisely Grandma Xihua's people that took action, since he was the one that personally experienced it.

Shi Hao stood quietly within the ashy-brown battlefield, silently adjusting his breathing and tending to his injuries. This battle had caused him to pay an enormous cost, one that could almost be considered a half-defeat.

This was the first time he had encountered such a difficult battle. If Shi Yi had continued to fight him with his dual-pupils, then it would have been even more difficult. He didn't know just how much blood would be lost then.

In reality, many people were feeling deeply regretful, especially those supreme experts. They had hoped that the dual-pupiled individual would reveal its greatest profound mystery so they could see just how stunning it was.

From the past to the present, the profound mysteries of the dual-pupils were always known as unmatched. Those that tried to fight against them were all killed, giving them an illustrious reputation.

They finally had a chance to witness it today, but Shi Yi did not have the chance to display it. This truly was unfortunate.

Shi Hao stood without moving for a long while before finally sitting down slowly. It was because his injuries were too severe. Just now, he didn't dare to move recklessly in fear of being taken advantage of by others, and only now did he feel a bit better about doing so.

His entire body shone. His injuries closed and his bones joined up again, but he did not have the dual-pupils' natural abilities to immediately recover. He simply temporarily stitched everything together.

To kill Shi Yi, the younger Stone brother paid an equivalent cost. At the very least, there were eight or nine bones that were broken. There were even gaps in his inner organs that needed to be healed.

However, his vitality was still astonishing. Soon, his blood essence began to roil and surge like a great sea. It surrounded his body and made him shine brilliantly.

"This is too ridiculous. His body is powerful to such a ridiculous degree! Apart from his bones which can't immediately be restored, he has practically fully recovered, right?" Everyone watched with stupefied expressions.

The Sky Battlefield was in great commotion. There were some who were happy, and some who were depressed. There were even some who were cursing. All of them were feeling something different.

“He chose to use the supreme being bone, but was beaten to death in the end without even the chance to display the profound mysteries of the dual-pupils. Yi’er died unjustly!” Shi Yi’s relatives grieved. A deity-like youth had been slain in battle. For them, it felt as if the entire sky had collapsed, and all hope had been lost.

On the other side, the golden spider didn’t say a word. His face was downcast. This truly was ‘trying to steal a chicken only to end up losing the rice’. The losses were disastrous.

The order to use their ancestral secret artifact was given by him, yet in the end, it caused over ten of his clansmen to die. A large vacant area had been opened up behind him. He was forced to choke back his fury.

“Golden spider brother, I wonder if your invitation is still in effect?” Some of the supreme experts that did not get along with the demonic spider ridiculed.

“Heng!” The golden spider snorted. Before the battle, he sent out invitations to the Archaic Divine Mountains’ supreme experts to hold a celebration, for he assumed that Shi Yi would win. Now that there was this kind of result, he might as well have slapped himself in the face. He was utterly humiliated in front of all these people.

“Yi, what is that in the sky? There is some kind of divine object descending,” someone cried out in alarm. Multicolored light flickered in the heavens, creating a brilliant expanse of light. There were spheres of light descending.

“Reward. This is the Void God Realm’s divine object. Those that are able to enter the Sky Battlefield will all receive its blessing, and the victor will naturally obtain even more.”

Meanwhile, stone tablets appeared in all parts of the Void God Realm. They were sparkling and translucent with characters flickering about them, informing the rest of the world about everything that happened. nove**Ib**(In

“It’s... the bronze book fragment! There really was such a rare treasure!” The crowd’s eyes were full of envy. Even the supreme experts were watching carefully.

Soon after, everyone became stupefied. This truly was the copper divine book, moreover there were three pieces at once! It truly made everyone jealous. This was an invaluable precious technique!

Shi Hao had obtained five pieces previously, so now together with this, he had a total of eight pieces. In the past, everyone had still thought that piecing together all ten was still too far away, but now, it was almost complete! It was within reach and on the verge of succeeding!

“Once the ten pieces join, the bronze precious book is known to produce a supreme archaic precious technique! It might be something left behind by the archaic vicious ten, or it might be something only second to that. It is shocking enough just to think about!”

When someone spoke these words, it immediately raised a huge commotion.

Shi Hao was extremely happy. This battle was extremely bitter, but it was truly worth it. When he stood up, he staggered a bit. His wounds were severe and impossible to immediately heal.

He gently touched the three pieces of bronze books with his hand. The crude sensation and faint luster gave him great satisfaction. This signified a supreme precious technique.

“Originally, only two pieces were going to you, with the third left for Shi Yi. However, he has died in battle.” The domain embodiment spoke.

This battle had thrown heaven and earth into chaos, leaving him greatly shocked. The two youths had destroyed two Sky Battlefields, and the Void God Realm had bestowed a truly generous reward.

Everyone was completely silent, with even the discussions gradually fading away. They gazed over passionately, some with rather undisguised greed.

Shi Hao was gravely injured, so this was amazing opportunity. He carried eight pieces on him, making him practically a divine treasury. This naturally was enough to make some want to take the risk.

“This might be an opportunity. His heavy wounds are difficult to heal. If several supreme experts take action at the same time, then it will be hard for him to survive!” Someone muttered.

“Is it time for me to make my appearance?” Within the divine flames at the horizon, a youth with fiery light burning inside his pupils said inwardly. He carried an austere aura that seemed to even shake the heavens.

The pure-blooded creatures behind him trembled. They all acted respectfully and didn’t dare say too much, for they knew that an extraordinary storm was brewing!

“Young miss, be careful. That individual has appeared!” Grandma Xihua cried out in alarm.

Fairy Yue Chan seemed to have sensed something. She gazed toward a certain direction, and her charming jade-like face revealed a different expression momentarily.

This place was going to become chaotic. Not only had the heavenly talents from beyond this region appeared, there were even supreme experts who were going to make their move.

“The bronze precious book is descending. This is an auspicious omen, one that is worth seizing!” The golden spider said to himself. Killing intent appeared on his face. If he took action now, it should no longer be considered interference.

At this moment, he looked towards a few of his old friends in hopes of getting them on his side. However, he discovered that some of the supreme experts had long been moved, and their eyes were blazing with passion.

“Elder Zhong, find a way to take action. We cannot allow the bronze precious book to fall into that youth’s hands! He refused our sect, so our paths will be different in the future. He will most likely become a great enemy in the future!” Grandma Xihua said in secret. A vicious light flashed through her eyes.

As Shi Hao sat within the battlefield, he sensed a few malevolent intents. However, he did not fear. His eyes flickered with light. If anyone dared to take action, he didn’t mind unleashing a great slaughter!

Chapter 382 - The Male Within the Divine Flame

The skies outside the battlefield made of meteorite curled in a great gray mist. The atmosphere was extremely tense and abnormal. It seemed like an even greater conflict was about to erupt at any time.

Shi Hao's body was seriously injured, so his gait was quite unsteady. As he held the three bronze pieces in his hand, he felt the great killing intent. He silently adjusted his body's condition to prepare against unforeseen situations.

"The battle between the two Stone brothers truly was spectacular, something that only happens every few hundred years! It gives this old mind great satisfaction. I wonder how many years later it will be before such a great battle can be appreciated again." One individual broke the silence and spoke in this way.

The two youngsters' names would definitely be recorded in history. Even though Shi Yi was killed in battle, his glory still could not be concealed, as it was truly dazzling.

As for the younger Stone brother, he was already a living legend. At the very least, he stood apart from everyone else and was unequalled within the wasteland region.

"I just fear that jealousy will cause those favored by heaven to die young. Even though the little Stone brother can look down on the wasteland region, he might not necessarily be allowed to grow up." A conflicting viewpoint was expressed, immediately causing the mood here to become much more chilly.

"Since the ancient times, only a few of those that were able to fight decisive battles in the Sky Battlefield were truly able to achieve greatness." Another person commented, making the atmosphere here even harsher.

Shi Hao stood there silently, grasping every second he could to heal himself. The divine light within his body turned into small furnaces which flowed about one after another slowly.

Currently, his entire body was shining. It was as if he turned into an immortal divine furnace as he released a blazing golden light. This light was a surge of divine power, one that circulated to its absolute limit to release the potential of the human body.

No matter where he was or what kind of situation he was in, it was still himself that he could rely on the most when facing his enemies. He could not entrust his hope to others.

Hong!

Suddenly, divine flames rose, shining through the sky into the heavens. The entire sky was illuminated, becoming bright and resplendent. Even the sun, moon, and stars became dim.

What was this? Everyone became dumbstruck. This was a truly powerful fiery light! Their hair began to stand on end, and they couldn't help but shiver.

"Is this the so-called deity-level stage that has been dormant all these years? It doesn't seem to be of the highest grade, but it can still be considered okay. It should be just barely enough to fight on." A calm voice sounded.

The people here were shocked to find that another individual appeared on the Sky Battlefield. The endless divine flames all originated from him, and all of it ultimately condensed into a sphere with him at the center.

What kind of person was this? A powerful energy was diffusing from where he stood that gave others a dreadful feeling. It was as if they were facing off against one of the ancient era's most powerful vicious beasts.

Immediately after, he directly stretched out a large hand, grabbing towards Shi Hao's location. It was like a golden disk that could extinguish all enemies!

This kind of aura was extremely overbearing, and the light being released left everyone horrified. It was absolutely domineering, making many of the spectators feel as if their bodies were going to split apart.

Shi Hao's eyebrows furrowed steeply, and he similarly stretched out a large hand. His palm and fingers turned into a copper furnace that quickly enlarged. It flickered with blazing symbols, as if it was going to refine all of his enemies.

This scene made those present draw in a breath of cold air. They had just experienced a great battle, yet he did not back off under such pressure and instead erupted with an endless amount of divine might.

Hong!

Fluctuations began to pour outwards like a boundless sea. The entire Sky Battlefield began to shake as if a great earthquake was happening. All of the cornerstones and railings were shaking in response.

However, before the two sides' palms even made contact, at the crucial moment, the mysterious male withdrew his palm and dodged to the side. His eyes erupted with divine light.

This was not done out of fear, but rather out of happiness in finding worthy prey. He did not want to fight against someone seriously wounded. With a brash and overbearing manner, he nodded and said, "Not all that bad."

What did this mean? No one could understand.

"Why don't you follow me?" He spoke these few words. There was a type of appreciation, as well as a type of happiness when locking onto prey.

Everyone became astonished, especially the supreme experts. They couldn't sit still any longer. There were eight bronze pieces on Shi Hao's body, making him practically a divine treasury. How could they allow someone else to get in on this first?

"Why should I follow you?" Shi Hao calmly asked.

"Follow me, and an even wider sky will open for you," said this male. At the same time, a powerful shockwave engulfed all directions.

This was clearly a human figure, but the naturally diffusing blood energy and overwhelming divine might made him seem like a demonic god. Everyone felt like they were under a great pressure.

The two Stone brothers' fight had just ended when he made his appearance and spoke this line. He was definitely not ordinary!

Shi Hao's face immediately became colder. He prepared himself for a great battle.

"I have two interests in this life. The first is to collect all of the world's unmatched beauties, and the second is to collect all of the world's well known precious techniques." The male within the divine flame said to himself as he overlooked everything.

Shi Hao felt a shiver. The other side's eyes were burning brightly, and when they stared at him, it was as if they were looking at some kind of treasure. He understood that this was not an interest in the bronze precious book, but rather that the Kun Peng technique he possessed had been seen through.

The male within the divine flame was extremely arrogant, or it could also be said that he was extremely self-confident. He looked at Shi Hao and said, "I actually still have a slight interest in a third thing, and that is collecting the world's famous people."

Who was this? All of the experts here revealed strange expressions. He actually dared to say things like this! If he wasn't crazy, then he was ridiculously powerful, powerful beyond their imaginations!

"I also have these so-called interests. Why don't you offer me your beauties and then follow me?" Shi Hao said indifferently. An oppressive aura began to fill the air.

The male standing within the divine flame was quite blurry, but everyone could still sense that he remained quite calm. "Regardless, I believe that the two of us are kindred spirits?"

Everyone was on their guard. Another great struggle might break out. This individual was not only extremely mysterious, but also extremely powerful. The fluctuations he released were truly terrifying.

The domain embodiment naturally didn't care. This did not count as disturbance since the battle between the Stone brothers had already ended. The newcomer's powerful entrance into the Sky Battlefield carried an annihilating type of unruliness.

His eyes shifted, causing the scarlet flames to jump. The flames seemed like they could destroy the nine heavens, leaving everyone in fearful reverence. Great stars spun about within his pupils, and then all of them dropped.

Suddenly, his body moved. His eyes shot out two strands of crimson symbols. Kengqiang noises sounded, as if divine chains were trembling. This place was greatly shaken.

"Wu, I've already said before that my first interest is collecting the world's beauties. With my target in front of me, I naturally have to temporarily drop my second interest for now."

Everyone became stupefied. This fellow was truly unbridled! He actually dared to speak such words!

Shi Hao coldly faced him. The corners of his lips tilted up slightly, but other than that, it didn't seem like he paid the male much attention.

The male within the divine flame turned around and looked towards a certain direction. "Yue Chan, since you are already here, why don't you show yourself? For your sake, I did not hesitate to cross regions. Why don't you come out?"

The edges of her clothes fluttered as fairy Yue Chan descended. Her clothes were as white as snow, presenting a style that was unmatched. Her beauty was truly unsurpassed, making many people feel ashamed of their inferiority when they saw her.

There were many youngsters here in particular. There wasn't a single one whose head wasn't raised, with all of them watching that otherworldly pure body that was wrapped within a hazy light. Their hearts were greatly moved, and they all sighed with admiration.

The disparity between themselves and a woman like this was just too great. They could only watch her from afar and were forbidden to desecrate. She was high up above them, both pure and holy. Her natural gifts were simply astonishing. As an esteemed fairy of the Heaven Mending Sect, how could they even approach her?

Heaven Mending Sect was known as an unequalled great sect. It crossed several regions and has existed since ancient times. Not even the era of saints and revived deities could shake its roots.

"The fairy has arrived!" Many people shouted. She had not showed herself within the wasteland region for a long time, but her name already left a lasting effect. She was like a moon with stars all around her.

Fairy Yue Chan descended. Her white clothes drifted about, and her black hair scattered downwards. Her eyes were incredibly intelligent, and her face was so beautiful it was suffocating. She stood in opposition to the male in the divine flame.

"Yue Chan, it has been several months since we last met. I've longed to see you again. The reason why I crossed regions is for you..." The male in the divine flame's voice was soft and gentle, completely in contrast to his previously strong tone.

This truly was a king-level figure who loved precious techniques, but loved beautiful women even more. The figure towering within the Sky Battlefield left everyone with a rather unique feeling.

"You have crossed the line! Do you think the fairy is someone you can blaspheme against?!" There were some youngsters who were discontent and loudly berated.

"Shut up." The divine flame flickered in response to the male's calm voice. Then, his eyes swept out. Scarlet light flew outwards and released a great booming sound.

"Yi, hurry and dodge!" There were some seniors who tried to advise their sect's disciples, but it was still too late.

Those youngsters were fearful. When they saw the scarlet multicolored light fly over, they brought out their precious artifacts while quickly dodging to the side.

Pu

However, as soon as the scarlet light made contact with those precious artifacts, they all turned into ashes. They then surrounded these people, and without even giving them a chance to release a miserably cry, they were submerged within and eliminated.

"What kind of divine ability's power is this?" Many people cried out. This was too powerful and tyrannical! Their minds were greatly shaken, and a chill ran down their backs.

This mysterious figure was truly powerful to an almost heaven defying degree! Those youngsters weren't weak and should all be relatively well-known figures among their age groups, yet they were completely exterminated in that instant.

"Your demonic nature truly has not diminished. Don't you think it is a bit too much?" Fairy Yue Chan berated as she stood in front of him.

The male in the divine flame laughed and said gently, "Yue Chan, what divine or demonic is there? One's nature and emotions should be expressed freely. This is the fundamental source of power."

"Everyone within this world knows about the natural law and dao, however, you are too intolerant of those with opinions differing from your own. Are you trying to become this generation's demon monarch?" Fairy Yue Chan's sparkling white face was completely cold.

"Yue Chan, you should accompany me at my side and chant sutras for me. How about I help you get rid of this demonic nature that you speak of?" The male in the divine flame said softly.

This frightened all of the experts here. What kind of character was this? He actually dared to speak to the Heaven Mending Sect's fairy like this! It truly left them all shocked.

"If you enter my sect, there will be people who will definitely enlighten you." Fairy Yue Chan spoke calmly. It was clear that this was not her first interaction with this male, and that she thoroughly understood how terrifying and troublesome he was.

"I do not like to be restricted. If you truly want to enlighten me, then you would have to be the one to do so. How could I be satisfied with anyone else?" The male within the divine flames said softly. He then gradually became more aggressive. "Yue Chan, since we are of different opinions, don't blame me for taking action. Just come to my side!"

Hong!

No one would have thought that a great battle would break out so suddenly. The Sky Battlefield once again began to tremble intensely.

The male within the divine flame was like a monarch that overlooked everything. When he raised his hand, six different precious techniques appeared. They were like six reincarnations as they displayed their power, shaking everyone in this world.

His first move was already so astonishing. It created a violent commotion and sent many people flying outwards. They couldn't defend against this pressure.

Fairy Yue Chan's white clothes drifted about. Her long dress fluttered behind her from the wind, exposing her wonderful slender figure. Her exceptional appearance made the hearts of many tremble.

She released a soft shout and directly brought out a divine sword. Multicolored light flooded the world, causing auspiciously colored clouds to float about. The sky was immediately covered in dazzling radiance.

Shi Hao had seen this divine sword before within the witch's Demonic War Domain. This was precisely the sword that fairy Yue Chan used to hack apart space to break free.

She now used this sword as soon as the battle started. It was obvious just how cautious she was being. The sword's body was formed from a jade core. Symbols covered it densely, forming what seemed like a dazzling beam of multicolored light.

Chi!

The two engaged each other in combat. It seemed just like a dance between a demon and a fairy!

Chapter 383 - Disorder

The confrontation happened abruptly, and the battle that resulted was incredibly intense. The divine flame flickered and twisted about. The mysterious male displayed six types of precious techniques that all shone brilliantly.

Rumors had it that if one grasped six of the Archaic Vicious Ten precious techniques and used them simultaneously, then it would produce an effect similar to six reincarnations. That kind of scene was something that was difficult to describe with words.

No matter how powerful one was, they would all turn into ruined ashes before the six dao reincarnations!

Unfortunately, it was all still a legend. No one had ever been able to bear witness to such a thing. Forget about grasping six of the vicious ten, even four or five was already something only heard of in legends.

Since the ancient times, even though there were all types of rumors, none of them have ever been confirmed.

The male within the divine flame was extremely powerful, but it was impossible for him to possess six vicious precious techniques. He merely used a terrifying divine ability to activate it. Even so, there were still six small, dreadful worlds that were swirling about.

Just this basic form was already enough to make everyone horrified!

This method was not something that anyone who had precious techniques could use. Six as one; attempting something like this could easily fail or result in self-harm. Not even those as powerful as supreme experts dared to try it recklessly.

Despite this, he was actually so skilled at utilizing such a supreme profound mystery. Fairy Yue Chan was forced to use the divine sword within her and reveal the Heaven Mending Sect's most complex profound secrets.

Symbols surged within the two, and these were all ancient characters. At this moment, they were branded within the void, sparkling and flickering like stars. In addition, they were ringing with loud sounds.

They had already long left the Sky Battlefield, taking their intense fight into the heavens. It was because this ashy-brown battlefield was not prepared for them.

Everyone became stupefied as they watched this. The battle between the Stone brothers had just ended, yet another fight was started in the wake of their battle. No one here expected such a thing to happen.

The most terrifying parts about this were the shockwaves that were produced and the sea of symbols that covered the skies. It was just as intense and terrifying as the battle that had just occurred.

This was just the beginning, yet the two had already revealed divine abilities like these. If this continued, just how incredible would the battle become?

“This isn’t inferior to the battle between the Stone brothers at all!” A supreme expert immediately made this judgment.

Everyone’s attention had been sucked into this fight. They felt a bit dizzy as they watched the battle. The mysterious male was excessively tyrannical, actually wanting to seize the Heaven Mending Sect’s fairy to keep at his side!

Once news of this spread, it would inevitably shake the world!

How could there be such a reckless person? What kind of background did he have exactly? The wasteland region’s experts all revealed shocked expressions. They looked for cultivators from outside this region to get to the bottom of this. n)(OvelbIn

There should not have been only one sect that entered the wasteland region, so they naturally could find more information. However, as soon as they asked, there were people that shook their heads. They were informed that this individual was simply a revived deity and that it was best if they did not try to probe any further.

His background was extremely mysterious. Even those beyond this region did not know too much about him. They only mentioned a single event that involved him. His fondness of chasing women had led him to capture a sacred girl from an extraordinarily great sect. Even though he was pursued, the more he fought, the greater he became. He rose to power from blood and flames, a character who roamed free and unfettered throughout the world.

When everyone heard this, they all became stupefied. This was like something straight out of a fantasy story! A perfect sacred girl from a renown great sect was abducted by someone, yet he was still well and alive.

“There are people who claim that he is a god that has undergone nirvana. Others believe that he reincarnated and possesses a supreme dao fruit,, and as a result can show disdain towards the rest of the world.”

This was, of course, rather exaggerated, but there were still many outside this region who believed it.

As everyone was in heavy discussion and speculating who that male was, Shi Hao was actually the most calm. He sat within the Sky Battlefield and quietly adjusted his injuries. None of this was related to him, and he only wanted to recover right now.

However, good things don’t last forever. The scope of the two individuals’ battle was great, and from time to time, their battle would circle back and he would almost be caught up in it.

The domain embodiment opened his mouth and said, “This is not a battlefield prepared for you two! If you want to fight, then arrange for a different date!”

What was shocking was that the two did not temporarily stop. Divine chains continuously lashed about, sword qi engulfed the heavens, and that divine flame seemed to have even added another great divine ability. It turned into a flame torch that blasted towards the domain embodiment.

Everyone was horrified. Did this guy go mad? He must have stolen the courage of a god!

The domain embodiment's face fell. He swept a sleeve and collected the Sky Battlefield, no longer allowing it to appear here.

"Yi, the domain embodiment didn't get angry?" There were some that expressed their shock.

"The domain embodiment is a will of the Void God Realm, or to be precise, he is the enforcer in charge of this pure land. He cannot use his divine might without reason, and as a result cannot immediately retaliate."

These words caused everyone to become astonished. They all felt rather strange.

"Wu, why do I feel like the male within that divine flame did it on purpose? Doesn't it count as a type of provocation?" Some people were in doubt.

At the same time, there were a few pure-blooded creatures at the horizon who revealed heavy expressions. Their hearts were beating heavily, because they felt like something major was going to happen.

They understood this senior of theirs. This time, the situation was most likely going to become chaotic. They had a feeling that an excessively terrifying storm was going to arrive.

"Get ready, we are going to retreat. Senior is going to flip this place upside down and produce catastrophic results!" One of the creatures made this judgment.

Shi Hao was currently seated on top of a magical artifact, continuing to recover his body. From time to time, he would look around. He was looking for a chance to leave.

However, he noticed that there were many eyes that were still focused on his body. Each and every movement he made was being observed. It was clear that he had become the target of many supreme experts.

All of this was brought about by precious techniques. Apart from the bronze precious book, there were probably others that recognized the Kun Peng's technique. It was enough to make many go crazy and willing take a risk.

Shi Hao silently thought about everything, repeatedly observed the surroundings, and then inspected his own injuries. He couldn't help but sigh. Once a conflict is created, there truly would be a terrifying bloody battle.

Hong!

A fiery expanse of light scattered down. The group of cultivators cried out and rolled about in the sky. They had been struck by the flames, and as a result, their precious artifacts began to split apart and their bodies and bones were burnt.

This was precisely the fiery light that the male scattered down. It was just too powerful. As soon as anything made contact with it, it would end in destruction. The people that were struck were unfortunate and died in this place.

Shi Hao was astonished. This fellow was doing this on purpose! He was intentionally throwing this place into disorder!

Sure enough, even a supreme expert was angered. Two of his grandsons were devoured by the flames, triggering his fury.

“Kill!”

When characters like this took action, it naturally led to even greater chaos. Precious artifacts appeared, producing shockwaves that stretched far into the distance. Many more people were now caught up within,

This did not take place within the battlefield. There were no longer any railings or any symbols to protect anyone. As long as a battle unfolded, the skies would be overflowed with the light from precious techniques. It was not difficult for this place to fall into devastating disorder.

Hong!

Eventually, several supreme experts participated. Deliberately or inadvertently, they all began to take action.

Shi Hao shivered inwardly. He noticed that there were some individuals approaching his position to use this as a pretext to deal with him. This was was not a good sign. A great chaos was stirring!

Meanwhile, the mysterious male’s fiery light surged, bringing out an expanse of true fire. It engulfed towards Shi Hao’s location and widened the scope of this chaos.

“What is he trying to do?” Shi Hao was bewildered.

He couldn’t think too much about things right now. There were some individuals who were trying to take advantage of this crisis to cause him trouble. Terrifying precious techniques descended like dark clouds and completely surrounded this place.

Shi Hao was forced to take action. As he stood on top of his magical artifact, his body was still staggering a bit; after all, his injuries weren’t light. When he raised his hand, a shield appeared, blocking in front of him.

This was the black tortoise divine ability. His right hand formed the precious imprint. Ocean waves stirred about, and a black tortoise traveled along the waters. An enormous barrier of light was raised, stopping short many attacks’ symbols.

“Brothers, let’s not take action yet. When things become a bit more chaotic, we will take the opportunity to seize his life.” The golden spider opened his mouth and spoke secretly towards the supreme experts of the Archaic Divine Mountains. He was going to initiate a great slaughter.

“Brother golden spider, do not forget that in this place, our cultivation realms are equal to his. If we cross swords, there is the risk of death,” one of them spoke.

“He is seriously injured and on the verge of dying. Many of his bones are broken as well. As supreme experts, if we can’t even kill a wounded individual like this, then we are better off dead.”

The bronze precious book was not passed on in the real world, and the Kun Peng’s technique was enough to make every sect go crazy. Both were possessed by a single person, so it naturally caused a great catastrophe.

Even though they didn’t have dual-pupils and couldn’t ascertain that Shi Hao definitely grasped the Kun Peng’s technique, they still had their suspicions. This was still a terrifying fact.

In the skies, the male in the divine flames continuously widened the scope of disorder, causing this place to experience greater chaos.

Shi Hao noticed that many people were voluntarily joining the fray, taking advantage of the chaos to make their moves. Many powerful auras began to close in around him.

Hong!

Finally, there was a supreme expert that took action. It was unknown who it was exactly, as the individual had concealed himself. The attack was incredibly terrifying.

This place erupted into action. Shi Hao sighed; he was forced to take action. With things reaching this stage, he had no way of fleeing. He immediately adjusted his body. Light erupted from within his eyes.

“Elder Zhong, prepare to take action. If the opportunity presents itself, we will get rid of that little Stone brother. We cannot allow him to continue living.” Grandma Xihua spoke softly. Her gaze was extremely cold.

“The young miss...” Elder Zhong’s eyes flickered with golden symbols.

“The young miss should not encounter any problems for now. Use the most powerful curse to make sure your attack kills. Moreover, his original imprint has to be removed. If he truly has the Kun Peng technique, then it will be an everlasting fortune for my sect,” Grandma Xihua instructed carefully.

This place boiled with action, however, the supreme experts that took action were all crafty old monsters. No one would lightly risk danger, and all of them took advantage of the chaos to make their moves. When another made a move, they would then attack; this combination of attacks left Shi Hao in great danger.

None of them showed themselves. They all wanted to kill Shi Hao during the chaos.

No one wanted to be first and expose themselves to the most risk. They were scared of Shi Hao flipping out and going all out right before his death. They grouped up and moved together.

This kind of chaotic warfare made Shi Hao suffer greatly, since it was impossible for him to find his primary enemy. He released a cold snort. Symbols flickered within his eyes, and two beams of light shot out from them as he observed the entire battlefield.

In the next moment, Shi Hao’s body erupted with heaven overflowing flames, making him look like a humanoid Vermilion Bird. He soared through the air and locked in on the large golden spider in the distance. He directly attacked.

Since he couldn't find each enemy one by one, then he was going to start from the source. He would kill one to warn hundreds. In his heart, the Demonic Spirit Lake and Heaven Mending Sect had carved their names into his blacklist.

When he fought ferociously against Shi Yi, these were the two groups that secretly interfered and attacked him. They had long roused his anger, so if given the chance, he definitely wouldn't let them off.

"Not good!"

The golden spider's expression changed. Just now, he had also taken action, but he would always retreat far outside the battlefield with each attack. Now that his location was exposed, he had a bad feeling.

Since things had already reached this point, the golden spider supreme expert no longer cared about small things like reputation. He turned around and left, surprisingly backing off instead of fighting.

The crowd was in an uproar. This was a grand and magnificent supreme expert, yet he was scared of this youth! He chose to avoid a battle, causing many people's hearts to tremble.

When they saw this, everyone suddenly understood how greatly Shi Hao has risen in power. He was now truly unrivalled within this cultivation realm, making even supreme experts feel a restraining fear.

What kind of power and grandeur was this? Without mentioning anything else, just the golden spider's act of retreating instead of fighting was enough to shake the wasteland region. This only added on to his glory.

"Where do you think you are going?!" Shi Hao shouted loudly. His figure was like a streak of crimson lightning. The Archaic Vermilion Bird's Four-Fold Barrage was unleashed, covering the skies as he closed in.

Chapter 384 - Live Sacrifice

Hong!

It was just a single strike, yet the entire sky erupted with action. Scarlet symbols filled the air as a Vermilion Bird shot through the skies. Around its bright and beautiful wings, red multicolored lights surged like magma.

The golden spider sighed and prepared himself for combat.

He knew that these 'dao brothers' definitely wouldn't lend him a hand. They only mutually used each other. All of them were hoping for someone to take action first so they could swoop in after for personal gain.

When the golden spider opened his mouth, a divine white stream carrying flickering luster flowed outwards. An extremely terrifying fluctuation was released as it soared across the sky to obstruct the scarlet divine bird.

A fiery light flickered. The Vermilion bird's flames descended and actually set this 'stream' on fire. This area was covered in extraordinary flames that crackled about.

It was clear that this wasn't a true stream, but rather spider silk. It was sparkling and translucent, as well as incomparably flexible, making it difficult to destroy. Unfortunately, the flames of a Vermilion Bird were its bane.

The great golden spider's eyes were cold. Even though it was in human form, when it opened its mouth, spider silk continuously shot out like a stream.

This time, the spider silk he spat out was different. It was no longer white and sparkling, but rather silk dyed in a bloody mist. It was red like wisps of blood. Large amounts were shot out, and it turned into a mist.

Golden Spiders were originally not poisonous and known as holy spiders. However, if they could evolve, they could still approach the extreme.

The bloody mist pervaded the air and turned into bizarre symbols. As they intertwined within the sky, the hazy mist began to roam towards Shi Hao's direction. It seemed like it was going to lock down his Vermilion Bird technique.

This was the golden spider's technique. By refining his golden spider blood and merging it together with the ancient poison corpse mist, it could kill even supreme experts. It was extremely pungent and killed with a formless attack.

Shi Hao was astonished. At this cultivation level, it was rather disdainful to use poison, however, once used, it would always produce a shocking effect. As a result, he was extremely careful. He brought out a magical artifact to test the waters. When it made contact with the bloody spider silk, it directly decayed with a chi sound.

"What potent poison! It is formed from symbols, yet it could destroy precious artifacts and harm the flesh of other cultivators!"

Shi Hao avoided the bloody mist and stirred on his divine flames. The Archaic Vermilion Bird's Four-Fold Barrage was displayed to its limit, and the heaven overflowing flames immediately poured down. He wanted to completely burn this mist.

However, the flames did not seem to be that effective. Even though the spider silk bloody mist was burning, after quite a bit of time had passed, it still was not wiped out.

The golden spider released a long hiss. He used the blood spider silk and poison to trap the Vermilion Bird. At the same time, it revealed its true form. Eight perfectly straight spider legs pierced forward like eight golden spears.

Shi Hao sent his right arm outwards. It turned into a scarlet bird wing and brought with it a fiery light. With a qiang sound, it collided together with the golden symbols. The golden spider supreme expert's expression changed abruptly and it quickly retreated. It was just a single strike, yet its leg was immediately inflicted with great pain. It hadn't even been broken off, yet the spider was already feeling great fear.

Shi Hao dove down while wrapped within scarlet light. His descent scattered a portion of the bloody mist. He rushed towards the golden spider to unleash the most forceful attack.

Peng

In the end, the two still made contact, colliding fiercely. The golden spider was greatly shaken, and cracks appeared on one of its legs, seemingly on the verge of exploding.

This made the eyelids of those watching jump. Their battle had just begun, yet the golden spider had already suffered such a great loss! In front of Shi Hao's powerful body, it almost lost one of its legs.

Their positions changed as they tangled about like monsters. Several tens of strikes later, blood trickled out from the golden spider's mouth; he was almost blasted to pieces from Shi Hao's palm.

It was at this moment that everyone truly understood how powerful the two Stone brothers were. Under similar cultivation realms, killing supreme experts simply wasn't an issue.

The golden spider opened its mouth and spat out a precious artifact. It formed a golden shield, and with a kengqiang sound, it blocked his opponent's attack.

Shi Hao's body was seriously wounded, so he did not want to prolong this battle. He wanted to finish this as soon as possible. He activated the Archaic Vermilion Bird's Four-Fold Barrage, turning himself into a human-form divine bird. Scarlet light immediately erupted.

Kacha

Several strikes later, the golden shield shattered and the spider flew outwards. It sucked in a cold breath of air.

"The younger Stone brother is seriously injured, yet he is still so valiant. If he was at his peak condition, just how terrifying would he be?" This was the question every supreme expert was contemplating at this moment.

They believed that from today forth, as long as Shi Hao was given enough time, his prospects would be limitless. No one in the wasteland region would be able to stop his advance.

"Kill!"

Shi Hao released a light shout. He did not want to waste any time. A ferocious attack broke through the golden spider's defenses and finally allowed him to draw closer.

The golden spider's expression changed. It quickly flew out in retreat, but in the end, it still couldn't break away from Shi Hao. With a ferocious strike, a leg was broken and hacked off from its body. The spider immediately released a miserable cry.

Everyone's expressions changed. The golden spider supreme expert was going to suffer a great defeat!

However, right when Shi Hao was about to release an even more ferocious attack, the stage lit up with golden radiance. Several golden spheres of light appeared, and they simultaneously shot out golden spider silk.

"Yi, Eight Spider Formation!" Some supreme experts cried out in surprise.

The eight spheres of light were extremely glaring. All eight golden spiders surrounded Shi Hao and shot out cold glares. They continuously spat out blood, thus forming eight spheres of light.

A golden spider web took form. It was as dazzling as the stars and flickered brilliantly. Moreover, the eight spheres of light formed eight symbols, each situated at their respective position within the web.

Eight Spider Formation, also known as the Eight Trigrams Golden Spider Formation, was a vicious and well known formation belonging to the Demonic Spirit Lake. It had trapped and killed deities in the past, giving it an extremely shocking reputation within the ancient era.

This was clearly not the original great formation, but it was still an ancient formation with a formation soul. Once it was released, powerful winds would blow about and vast divine might would surge.

Chi

In addition to the spider web shining and locking down the world, the eight symbols continuously released golden spider fur. They interweaved like needles everywhere in the sky.

A flash ran through Shi Hao's eyes. When he was fighting against Shi Yi, this was precisely what attacked him. If not for his supreme being bone reviving, allowing his divine force to spread, he would have been in great danger.

"There is no time to waste. I have to kill it immediately," Shi Hao said to himself. It was because his injuries were worse than what he expected. Continuously using the overbearing Vermilion Bird technique placed quite a burden on his body, and at this moment, blood trickled out from the corner of his mouth.

With a shua sound, Shi Hao entered the formation. Dao flame and Vermilion Bird flame both erupted to burn apart this great golden formation.

However, this formation was resistant to water and fire. The precious artifacts were difficult to break. Those eight symbols were extremely special, possessing the ability to obliterate all materialistic substances. Shi Hao encountered a great amount of trouble within the great formation.

The great golden spider sneered and released the most vicious attack. Eight symbols flickered, and within the great formation, great chains extended and covered everything. It was going to trap Shi Hao to death.

"Youngster, in the end, you are still too inexperienced! You are still too young and weak!" It spoke quietly. If the other party had not been in such a rush, then it wouldn't have the opportunity to succeed.

However, what happened immediately after made its face freeze up. Ten heavenly passages appeared around Shi Hao, and they then began to produce an endless amount of divine light. Ancient patterns began to interweave about.

"Yi, not good!" The golden spider was shocked. It noticed that it could not control itself. The spider's heavenly passages were all released, and they resonated in response.

Hong!

In the next moment, its heavenly passages were set aflame. Strand after strand of divine force rose and rushed towards Shi Hao's heavenly passage.

What was going on? Not only was the golden spider horrified, even the other cultivators were frightened beyond belief. The golden spider's heavenly passages roared, burning intensely as the divine flame seethed.

"Live sacrifice!" Someone cried out loudly. Everyone's expressions changed.

The golden spider cried out miserably. It noticed that its heavenly passages had joined together and wouldn't budge an inch. It was as if it was going to be offered as a live sacrifice!

Originally, Shi Hao studied the dao under the Willow Tree and evolved his ten heavenly passages to forge this new path. At that time, it had too many bad signs and risks, so he didn't use it.

However, he never gave up on this. During his free time, he would still experiment and earnestly polish it. He fumbled his way through a terrifying path, and at this moment, he suddenly revealed it, no longer keeping it a secret.

The golden spider cried out miserably. Its heavenly passages were sinking, and its own body was being burned by the fiery light. Divine force continuously rose and entered Shi Hao's heavenly passage. Auspicious and dazzling multicolored divine light flew in streak after streak.

This scene was absolutely horrifying. Even supreme experts felt their bodies go cold.

"Why do I feel like it is similar to the Demonic Cattail Tree from the ancient era? He is seizing the divine essence of another to continuously strengthen his own body..." someone muttered.

When this sentence was spoken, many people immediately felt their hearts pound fiercely. During the ancient era, the Demonic Cattail Tree had unleashed an utterly disastrous slaughter. Only after all the saints joined hands and the rest of the world offered their support was it finally extinguished.

"No..." novelb-1n

The golden spider cried out miserably, but it was still useless. The live sacrifice happened too quickly. They were within the Eight Trigrams Spider Web with spider silk linking them together, making it the best situation for a sacrifice.

The golden spider fused with its heavenly passages and began to evaporate as well. It turned into strands of resplendent multicolored light before entering Shi Hao's ten great heavenly passages.

It became weaker and weaker, and eventually, it turned into ashes along with the golden formation, vanishing from this place.

When the final bit of true spirit was trying to flee, Shi Hao flicked his wrist, producing a Soul Extinguishing Pagoda. With a hong sound, it descended, extinguishing it.

The golden spider supreme expert had died, leaving everyone petrified.

Shi Hao's shining body sat on top of a magical artifact. His ten heavenly passages circled about, scattering down silk strand after strand. This was divine essence, which could be used to nourish his body.

This area was extremely chaotic. Many people were caught up within the battle, but at this moment, everything became calm. Shi Hao was originally seriously wounded and staggering about, but when another fight broke out, his might seemed to remain just as ridiculous as before.

This was a great golden spider we were talking about, yet it was used as a live sacrifice!

What terrified everyone the most was that he seemed to have obtained some great benefits from the battle. The divine essence entered his body like waves, nourishing his body and making it bloom with precious radiance.

With each fight, the small Stone brother seemed to become even more outstanding. Was he truly going to become matchless?

Many sect masters felt nervous, and those that took action in secret became even more unsettled. This youth was too powerful! In the future, who could stop him?!

Auspicious multicolored light flowed from the ten heavenly passages. They all poured down on Shi Hao's body, replenishing his wounded self. The injuries began to heal even more. His entire body became sparkling, translucent, and overflowing with divine splendor.

Not long after, Shi Hao stood up. What made everyone speechless was that as soon as he opened his mouth, a mouthful of blood was coughed out. It seemed like his injuries were difficult to recover from, but this was the condition that he was in when he had just used the supreme expert as a live sacrifice!

Was he ridiculing everyone, or was his body truly in a terrible state?

The crowd's faces became ugly. It was one thing that they couldn't fight against Shi Hao in his best condition, but if they couldn't even defeat him when he couldn't stand properly, then what kind of face did they have left?

Grandma Xihua's face became downcast. In a low voice, she said, "Elder Zhong, do you have the confidence to end him? I truly do not wish to see this youth again. Since he does not belong to our sect, he will definitely bring about great trouble sooner or later!"

This youth was truly talented beyond belief. He didn't care about the offer that the Heaven Mending Sect gave him and wasn't willing to join them. This gave birth to a killing intent within the old woman's heart.

If it was a regular youth, then she wouldn't care so much. However, the more she understood and observed him, the more scared she became. This kind of heaven warping outstanding talent would definitely dazzle the world. It might even affect the prospects of a supreme great sect.

Chapter 385 - Saint Sword Intent

Shi Hao wiped the blood from the corner of his lips while standing on top of the magical artifact. This was not fake, and he had no intention of 'baiting' his opponents. His injuries were serious.

His fight against Shi Yi had left him with near-crippling internal and external injuries. The dual-pupiled individual was extremely terrifying. A battle with him had caused even a body as powerful as Shi Hao's to suffer damage.

Outside of the injuries brought about by his opponents, he still possessed a different injury. There was a large hole in his chest that seemed to have been cut open. There were several bones that were broken in that area.

The supreme being bone was revived from the stimulation, and while killing his opponent, it also harmed his own body. The true bone had not completely grown, so it still wasn't fully under his control, producing this terrifying result.

Shi Hao frowned. He wanted to return to the real world, but he had to get to one of the designated sites to leave this spiritual world. It was too difficult to break through this group of people right now.

He could sense many unpleasant looks aimed his way. There was more than one supreme expert within this group, so a bloody battle was unavoidable if he wanted to break free from this place.

The only silver lining was that he could feel a sea of divine energy within him after killing the great golden spider, and it was speeding up his body's recovery. If the dual-pupil's methods weren't so heaven defying, his essence energy would be extremely abundant right now.

If he wanted to fully recover, just fleshly precious medicine wasn't enough; he still needed time. He had to use his own foundational power to slowly tend to his injuries, and only then would he be able to return to peak condition.

A great battle was still happening in the heavens. Fairy Yue Chan and the male in the divine flame brought about terrifying destruction. They exceeded the amount of power this place could contain several times and disrupted the natural laws of this region.

The domain embodiment's face changed. This was harmful to the Void God Realm, and such chaos could make the natural laws of this realm unstable.

Back then, it was precisely due to the two Stone brothers' excessive destructive force that he descended and interfered, delaying their fight until a month later inside the Sky Battlefield.

Right now, the domain embodiment wanted to stop them, but he held himself back. The victor between these two might be decided soon.

At the same time, he felt a bit of apprehensive fear. The two Stone brothers were already shocking enough, yet there were still these two. Their performances were truly breathtaking, and everyone felt as if they had returned to the glorious ancient era.

Shi Hao slowly moved while standing on the Suan Ni precious mirror. He carefully took precautions as he looked for a way to leave.

Chi

A green streak of light flew out from the crowd and descended like a large imprint. It brought with it a dense haze of light and released a powerful fluctuation.

Shi Hao shot out his palm. The green light was blasted apart with a honglong sound, and nine ancient characters sparkled. Rumbly sounds could be heard as lightning interweaved and formed a prison.

Unfortunately, there were just too many people, so he couldn't see who it was that released this precious technique. It was without a doubt a supreme expert, for this was not something that an ordinary individual could grasp.

Shi Hao stretched out his palm. Stars appeared from the center of his palm one after another, forming what seemed like an extraterrestrial universe. Lightning arcs flowed between them, producing a brilliant and shocking scene.

When he turned his hand over, the small world within his palm surrounded those nine characters. The two collided, and with a hong sound, lightning rumbled and the skies shook.

Those stars were all spheres of electricity. They destroyed the entrapment and even obliterated the nine characters. Moreover, an imprint was extracted to expose the one that attacked.

"Do you still want to take action? Why don't you come here and fight fair and square? I'll even give you a handicap," Shi Hao snorted. The green imprint flickered within his hand.

Everyone was shocked. This kind of technique was extremely unordinary. This youth truly possessed an unmatched presence. He could actually extract an imprint to find its user!

Everyone shivered inwardly. They thought twice before taking action again and no longer acted so carelessly.

Shi Hao did not seek out his enemy because he wanted to leave as soon as possible. However, this was naturally extremely dangerous. He had barely moved when another precious artifact appeared to suppress him.

It was a beast skin with six ancient golden characters on top. It rang clanging sounds and released a blazing and blinding light.

The beast skin was rather dull, but the six ancient characters on it were just too brilliant. They were like six small suns as they blossomed with radiance. The sounds of swords clashing could be heard as well.

"Saint's Sword Intent!"

Someone here cried out in shock, and many people's expressions changed.

This piece of beast skin was left behind by an ancient saint, and sword intent was carved on top of it. It could be considered a great treasure, as well as a forbidden great killing artifact.

The beast skin was left behind for later generations, and normally, the tremendous sword intent would be studied. Researching it would allow one to improve themselves and understand the dao techniques of a saint.

At the same time, it was also a precious artifact. When it was used to deal with enemies, it was as if the invincible saint's sword intent reappeared. It was known as a forbidden precious artifact and could be used to deliver an ultimate blow.

However, when it was actually used as an offensive weapon, quite a bit of the sword intent on it would be used up. The amount that was consumed would then far exceed that of when they used it for study.

No one here expected someone to use the sword intent of a saint and bring out an ancient beast skin like this. This was definitely a domineering move. This beast skin was not some normal magical artifact, but rather equivalent to a strike from an ancient saint!

Normally, Shi Hao wouldn't be scared at all because this was the Void God Realm. He was practically invincible here, but things were different since he was seriously injured.

When the ancient saints contended for supremacy, a few extremely astonishing individuals appeared that could move mountains and drain seas, pluck stars from the sky, and capture the moon. They possessed great strength that was rare even in the ancient years when there was no lack of experts that broke through their limits.

The symbols on the beast skin lit up. The six characters were like a spell formation, and soon after, the sound of sutras being chanted could be heard. A dazzling sword light hacked outwards!

Everyone's scalps went numb. This one strike alone already revealed that this was an incredible ancient might. A power that could leave behind a sword intent truly did have a great origin.

A sword soared through the air. The entire world lost color, and the sun and moon became dim. The cry of gods and devils rang through the air.

When Shi Hao raised his hand, scarlet flames began to rage. The Archaic Vermilion Bird's Four-Fold Barrage flew out and clashed with the sword radiance. The entire sky began to shake and rumble.

This was like a fight across time to fight against a saint. Even though they were reduced to the same level, the great ancient power was still incredibly astonishing.

"It is definitely deserving of its reputation!" The crowd's expression became serious.

It was because following this strike, Shi Hao's body began to tremble. Blood began to seep out from the wound, and bright red liquid appeared at the corners of his lips. It was an extremely shocking sight.

"His body is seriously wounded. Lasting until this point truly wasn't easy!"

"Wu, the hidden individual wants to take advantage of his injury to slowly wear him out to death."

There were people muttering, and quite a few people nodded. It was clear that it wasn't one person that was going to take action, but rather multiple supreme experts attacking in succession. They would attack one after another to slowly exhaust the seriously injured Shi Hao.

"This piece of beast skin is extremely unordinary. The sword intent recorded on it is incredibly profound." High up in the sky, fairy Yue Chan, who was fighting a great battle, revealed a shocked expression.

"Yue Chan, you have an immortal sword in your hand, yet you care about this kind of sword intent?" The male in the divine flame said to himself. His eyes revealed an interested expression; he had a feeling that this beast skin wasn't simple.

Shi Hao had long closed his eyes. He then quickly extended his hand to grab that beast skin.

The individual in the dark did not want to pull back now. The beast skin lit up, and the six ancient golden characters erupted with divine radiance. They then condensed together to form a single symbol.

This time, what flew out was not sword radiance but rather an expanse of symbols. It was as if a million dao soldiers resonated together as they submerged Shi Hao's location, pulling him towards the beast skin.

"How terrifying! This saint's ancient sword intent is just too powerful! Exactly how did such a power come into being, and how was it left behind on the beast skin? It could actually still produce this kind of divine ability?" Everyone was shocked.

This beast skin not only contained the sword intent left behind by a saint, but it was an extremely powerful precious artifact on its own. At this time, the concentrated symbols wrapped themselves around Shi Hao to constrain him inside the beast skin.

The influence of the figure in the dark was not small, and he did not hesitate to use a magical artifact of this level at all. He wanted to suppress Shi Hao and take the Kun Peng technique as well as the bronze precious book for himself.

If Shi Hao was at his peak condition, he naturally wouldn't have been trapped. However, he was currently gravely injured, so with the ancient sword intent and precious beast artifact, the other party's chances were actually quite good.

With a hong sound, Shi Hao was pulled in front of the beast skin. His body shrunk and was being sucked into the beast skin.

"Yi, there is a small world inside the beast skin!" At this crucial point of utmost danger, Shi Hao's spiritual awareness sensed this fact.

It wasn't ordinary after all and was about to seal him within. This beast skin was rather special.

Shi Hao opened his ten heavenly passages and released a berserk wave of power. However, he discovered that there was still a tremendous amount of sword qi that descended. It was just too terrifying.

This was not inferior to the blows he exchanged with Shi Yi. This ancient great might was utterly breathtaking and astonishing during the ancient years!

Ding!

Shi Hao shouted. He locked down the space around them and resisted the sword intent. He coughed out a large mouthful of blood; it wasn't that he couldn't deal with this attack, but that his body was just too weak right now.

At the same time, the center of the beast skin shone. The small world inside opened up to suck him in.

He caught a vague glimpse of the small world. There were a few characters glistening brightly, but he only had the time to make out two of them, which were 'Six' and 'Dao'.

"What?" Shi Hao became fearful and his facial expression changed. He felt that this piece of beast was special and possibly even amazing.

In that instant, he used all of his energy to bring out his ten heavenly passages and lock down everything. At the same time, he circulated the Kun Peng's technique, and with a hong sound, he broke free from the suction.

Shi Hao was not defeated from his great battle against Shi Yi. He coughed out a mouthful of blood, but in the end, he managed to scatter the sword intent and suppress the beast skin. It became dim and drifted downwards.

He reached out and grabbed it in one swoop before putting it away.

"Yi, hold on, that piece of beast skin shares karma with me!" In the heavens, the mysterious male that was trading attacks with fairy Yue Chan frowned. His heart felt a bit empty; this feeling was quite strange and unfamiliar.

The individual that had just lost the beast skin was a loose cultivator. He was a powerful supreme expert, and the beast skin should have belonged to him, yet when it was in his hands, why did it not possess the terrifying fluctuation just now when he used it?

He felt that there had to be some other profound mysteries hidden within the beast skin, but it had now been seized by Shi Hao.

"Ladies and gentleman, he is already coughing out blood continuously. If we don't act now, what are we waiting for?" Someone asked.

Several streaks of light flew out, all of them belonging to supreme experts. However, none of their actual bodies appeared, as they were still concealed. They were trying to exhaust Shi Hao to death.

They were all old and crafty fellows. None of them were willing to risk danger, and all of them were hoping to get rid of Shi Hao in the most surefire way possible.

Weng

Suddenly, Shi Hao felt his ears ringing. His mind went blank, and his soul was almost hacked in half.

In the next moment, not only did his ten heavenly passages open, his flesh heavenly passage also shone on its own to protect his entire body. They formed a resplendent divine ring.

At the same time, the surrounding eight or nine supreme experts' beams of light arrived. They were all destroyed by the divine ring and dissolved.

Shi Hao's body shook violently as blood gushed out from his mouth. His gaze was incomparably chilly as he faced yet another round of these attacks. When he was fighting against Shi Yi, who dared to act like this?

This was the power of a curse, one that was extremely mysterious. He coldly shot a look in a certain direction.

Following that, Shi Hao decided to disregard everything. His entire body lit up; golden divine patterns lined the surface of his body, and there were black streaks flashing through it as well. He had turned himself into a human form Kun Peng.

Hong!

This was a type of rebellion, and even more so an outburst of rage. Shi Hao rushed towards that area of the sky.

Many people became astonished, and they all began to retreat. Grandma Xihua's expression became even more unpleasant. She wasn't the one that took action, and on the surface, she was always outside the scene, yet at this moment, the youth was rushing straight in her direction.

"Impudent! What are you trying to do?" She shouted loudly and immediately shifted her body outwards to move out of the way.

However, despite these actions, under Shi Hao's rage, every action's destructive force was tremendous. His hand slammed into her body, blasting her flying.

Moreover, even though Shi Hao's true body never slammed into her, golden light surged within the strong winds and formed a great hand. With a great pa sound, it slapped straight against her face.

This was the ever changeable Kun Peng technique. It sent the old woman flying horizontally, knocking out several of her teeth and causing her to spit out blood. Her face was full of shock, anger, and humiliation.

Chapter 386 - Supreme Experts Moving Together

"Impudent!" The old woman shouted. She was slapped in the face in front of all of these people by a mere youth! Her mouth was full of blood, and she was knocked back quite a distance. This truly left her both shocked and furious.

"Impudent? I'm fixing you up, you old hag!" Shi Hao spoke with a cold voice. The other party had disturbed his decisive battle in secret and wanted to get rid of him. No matter what kind of identity she had, he still would not let that pass.

Grandma Xihua's face was flushed with embarrassment. From her perspective, this was a type of humiliation. She came from the Heaven Mending Sect and was a respected supreme expert, yet she was spoken to so rudely.

How shameful was this? It was utterly humiliating!

"You are truly crazy. Do you think you are some supreme youth that can do whatever he wants just because you won a single great battle?" Grandma Xihua berated.

When Shi Hao heard what she said, a hint of a cold smile appeared at his lips. "I can't even retaliate if someone tries to kill me? Old hag, you are looking to die!"

The crowd was shocked. Grandma Xihua accompanied fairy Yue Chan from the Heaven Mending Sect. She had constantly received great respect from the various sects of the wasteland region during these past few days.

This situation left everyone with a rather apprehensive feeling. Shi Hao actually dared to take action like this without any restraint. This was definitely not a small matter.

“What happened?” Many people began to develop suspicions. They did not know that a conflict had already sparked between Shi Hao and Grandma Xihua.’

With the wasteland region in impending chaos, not even the Archaic Divine Mountains’ creatures dared to cause trouble for a supreme sect like the Heaven Mending Sect, yet a youth dared to do such a thing.

“There is no resentment between us, yet you are attacking without reason. Is this not impudence?” Grandma Xihua’s face fell. She steadied herself with a dragon head crutch and roared towards the sky, expressing her fury.

“Old woman, don’t you think that your old face is swelling a bit too much? You interfered in secret while me and Shi Yi fought, and just now, you released such a vicious attack. Do you think I’m blind? Who do you think you are tricking by feigning innocence?!” Shi Hao berated.

When Grandma Xihua heard this, a layer of frost seemed to cover her face. She was clearly not young anymore, but she still hated being called an old hag by others. Her face became increasingly downcast.

“A bunch of nonsense!” She shouted while appearing calm and collected.

Suddenly, Shi Hao moved. He turned into a stream of light and rushed towards the old woman murderously. However, the sky trembled, and the Heaven Mending Sect’s supreme expert seemed to vanish without a trace.

Shi Hao did not move. He suddenly became startled and said to himself, “Void Beast Skin!”

He suddenly recalled that when Stone Country Capital its auction, a Void Beast Skin was sold for a shocking price. It even interested the Heaven Mending Sect, so in the end, it probably fell into this old woman’s hands.

“You are going to pay the price today no matter what kind of treasure you have!” Shi Hao said fiercely.

Xiu!

A golden streak of light flew past. It was an arrow with golden plume feathers. It released a shocking fluctuation, and ripples continuously diffused outwards towards the bottom of his back.

Another person took action, and this was without a doubt a supreme expert as well!

There were already people who were attacking in secret earlier, and now that the Heaven Mending Sect was thrown in as well, they became even more fearless. As a result, they used these ferocious methods.

Shua!

Shi Hao moved out of the way. The golden arrow pierced through the sky like a rainbow streak. With a pu sound, it pierced into several uninvolved cultivators. They immediately exploded, and both their bodies and souls were destroyed. n)(Ov&lb1n

It was clear just how terrifying this arrow was.

There were many people here. When an attack like this flew through the air, it would naturally lead to casualties. Many people became terrified and quickly moved out of the way in fear of being another one to die unluckily.

At the same time, the skies rumbled and a dark cloud descended. It was incredibly vast and it began to suppress down towards Shi Hao.

This was a large fan. It was entirely black and covered everything. The cloud descended and blocked out the heavens as it surrounded Shi Hao.

The large black fan shook and scattered down a canopy of rain. It was incredibly terrifying and the aura it produced was astonishing. The fan was made from ancient complex and mysterious symbols, and the destructive power it produced was astonishing.

There were many other people who suffered similarly. Numerous cries sounded at the same time, and like a the sweep of a broom, pilipala noises sounded as they all died miserably.

Shi Hao released a cold snort. He knew that the supreme experts in hiding couldn't hold themselves back anymore. They were going to use this chance to kill him and steal the treasures on his body.

He smashed his fist towards the skies. A wave of blazing radiance erupted, gushing out like magma. This was the result of the Archaic Vermilion Bird's Four-Fold Barrages merging into one attack. It was incredibly tyrannical, as if it came from a supreme archaic creature.

The red-hot fiery waves, the Vermilion Bird spreading its wings, and the divine flames that overflowed the sky all condensed into a single symbol. It distorted the skies as it smashed down on the large black fan.

Hong

The intense power and endless symbols transformed into boundless rays of light. It was as if a great star had exploded, turning this place into ruins.

This fan was extremely formidable. It broke into parts on its own, and as if it was playing along with Shi Hao's attack, it turned into an exploded black sun.

Symbols covered the skies, and the sounds of ancient incantations rang through the air. They erupted here and began to attack everything!

"How ferocious!"

Everyone cried out in astonishment. Not even a rare precious artifact like this was kept in reserve. They truly wanted to inflict greater injuries upon his injuries. This was truly a great attack, and everyone could see that the precious fan was a rare object.

Shi Hao sighed. The Archaic Vicious Ten's technique was truly tempting! In order to obtain what he had, these people didn't even mind destroying supreme precious weapons.

He opened his mouth and spat out blood. Under the battering of energy, he began to retreat. Even though he put up a barrier, his body still staggered back and forth, and blood continuously trickled from his lips.

It wasn't that these attacks were too powerful, but rather that these old fellows were too cunning. They were clearly trying to wear him down until they could ultimately kill him.

Shi Hao's pupils were chilly as they roamed about murderously. These supreme experts were determined to kill him, and they were going to continuously attack him until they could do so.

These were people who agreed by chance due to the situation. They all used techniques that heavily drained their energy or brought out forbidden precious techniques. They did not want to immediately kill Shi Hao, but instead wanted to wear him down with each attack to add on to his injuries.

"Young man, it seems like these kindred spirits can't tolerate you anymore either! Let's see how this ends for you." Grandma Xihua emerged from the void. A ridiculing cold smile appeared on her face.

"Old thing, why don't you clean your neck and wait for your turn on the side!" Shi Hao said.

Dang

At this moment, a long and drawn out bell ringing sounded. It was as if a clear spring moistened everyone's hearts with a relaxing feeling.

However, for Shi Hao, this bell sound was like a sharp blade that sliced towards his heart. An expanse of symbols appeared in the sky, surrounding him.

Shi Hao's soul trembled. He felt that the power of this curse was familiar, as it attacked his soul. It should be the Heaven Mending Sect trying to kill him.

At this moment, his body began to sway back and forth and he nearly fell down. His sea of consciousness began to rise and fall.

It felt like he was going to be cleaved apart.

Heng!

Shi Hao released a cold snort. The area between his brows lit up with radiance. At the same time, the divine lights in his body began to transform into small cauldrons. Tens of thousands of cauldrons began to flow through his flesh.

At the same time, his essence energy also formed small, brilliant, and golden cauldrons. They surged with auspicious light and illuminated his head with resplendent light.

"Yi, what a powerful fellow! There aren't even many individuals among peerless noble kings that could refine the divine lights in their bodies into dao symbols, yet he is still only at the Engravement Realm!" Someone cried out in shock.

The area between Shi Hao's brows shone. His essence energy formed small golden cauldrons to resist that curse. The entrance of the cauldron surged with auspicious multicolored light and formed formless attacks.

"Kill!"

At this time, there were others that took action in succession as well. These were all supreme experts, and they were all extremely cautious, taking action while concealing themselves. Precious artifacts immediately soared through the air and symbols covered the skies.

The sounds of grand scriptures immediately sounded. The precious artifacts from various sects immediately submerged this area and formed a sea of calamity.

“Father, hurry and help. Can you rescue him?” On top of an emperor carriage, Huo Ling’er was pleading with the emperor. It was clear that she was extremely worried.

“One’s path needs to be walked alone. Since he dared to fight intensely here, he needs to face all of the ruthless dangers that followed. If he is strong enough to slaughter out a path, then he is a true dragon among men. If he dies here, then that just means that he isn’t good enough.” The Fire Emperor surprisingly spoke these words and did not take action.

Shi Hao was extremely exhausted. He released the ten heavenly passages, and they formed a resplendent divine disk to protect himself. However, it wasn’t enough, and he was now on the verge of collapse. It was clear that he had suffered a great amount of damage.

Fortunately, his speed was extremely quick. As he weaved through the air, he managed to avoid a great amount of attacks.

“It seems like all of you will continue to think of me as someone easy to bully unless I kill a few!” Shi Hao became furious. Despite being seriously injured, he still wouldn’t tolerate this without retaliation.

Chi

When another golden arrow flew over, his eyes flourished with light and released two beams of light. Everyone was shocked to discover that two small, golden cauldrons appeared within his pupils. Those eyes swept out in all directions with an incredibly powerful divine awareness, causing many people to shudder inwardly.

“You were the one!” Shi Hao released a low roar.

He had long discovered the traces of a few people, especially the one that continuously shot out murderous arrows from his bow. This time, he finally located his true body.

“Kill!”

A black sea appeared beneath Shi Hao’s feet. Everyone was shocked to find that he had changed. There were symbols all around his body, as if they were an outer shell. Waves of dao sounds continuously rumbled as well.

He no longer cared about the consequences. Even though he was continuously coughing blood from his mouth, he still forcefully evolved the Kun Peng technique to its limit. Black ocean waves and lunar force surged. He took to the skies and rushed forward murderously.

“You...”

A figure with a large golden bow in hand emerged from the void. It was clear that this individual was not calm, and an expression of shock could be seen on his face.

Even though he was a supreme expert, he understood clearly how terrifying Shi Hao was. He first killed the glorious and dazzling older Stone brother, then he killed the golden spider supreme expert. Now, he set his eyes on him, so it was a clear sign of disaster.

“Fellow like-minded people, we cannot allow this violent crime to carry on in front of our eyes. We should all take action and suppress him here.” Grandma Xihua spoke from the distance.

She wanted to get rid of this youth as soon as possible, because he truly made her worried.

Divine lights flew out one after another from supreme experts. These attacks were incomparably terrifying, and due to the numerous attackers, this place erupted with chaos.

However, Shi Hao’s next move brought about great shock. His hands joined, and an inch-long black Kun fish rose into the air. The attack was full of limitless lunar force as it rushed out.

“Kill!”

The different rays of light were all obliterated by a sweep of this fish’s tail. This was simply a supreme technique within precious techniques. It was truly amazing.

The cost, however, was that more blood was coughed out from Shi Hao’s mouth. His wounded body suddenly staggered, but he continued to move forward without any change in direction. His left hand opened up to form a sparkling golden Peng claw and reached out.

“Break!”

That supreme expert cried out. The large bow in his hands erupted with numerous rays of light to blow back Shi Hao.

However, under everyone’s shocked eyes, Shi Hao’s left hand that seemed like that of a golden Peng’s tore apart the large bow in an instant, and even one of the supreme expert’s arms was torn off.

With a pu sound, blood splashed outwards and the arm was detached. He released a miserable cry.

The distance between the two had been closed, and they were practically touching. This supreme expert erupted with symbols and began to use all types of forbidden techniques to fight against Shi Hao.

In an instant, the two exchanged over a hundred blows. These were all attacks with precious artifacts and divine abilities. Shi Hao was shaken until he coughed out more blood, but the other person was still ultimately killed. He was torn apart alive into multiple pieces.

With a flip of Shi Hao’s hand, a Soul Suppressing Pagoda appeared and smashed into his true spirit, obliterating his divine awareness.

Everyone gasped. This was not only killing one within the Void God Realm, but that individual was equivalent to being dead in the real world as well! Only a shell of flesh would remain.

Regardless of whether it was the Soul Suppressing Pagoda or the Soul Shattering needles, they were both rare treasures that could truly kill cultivators that came into this world.

Shi Hao was quiet and unmoving. He circulated the miraculous symbols from the True Primordial Record to carefully feel the disturbances in the air. He wanted to kill Grandma Xihua.

Chapter 387 - Sweep

Dang!

When the bell sound rang once again, a carefree and relaxed feeling swept over everyone. However, for Shi Hao, this was a killing blow aimed straight at his heart.

However, its effectiveness was no longer as great because the curse's power was being blocked outside.

The supreme experts took action again. From time to time, flowing lights would surge and precious techniques would descend. Shi Hao encountered difficulties several times, but in the end, he avoided them all.

"Father, he's lost too much blood. If he continues like this, he'll definitely die!" Huo Ling'er was extremely worried and pleaded for the Fire Emperor to take action.

"Calm down. There is much to be gained when struggling between life and death, and this might even become a way for him to sharpen himself. It is best if he faces this kind of tribulation by himself." The Fire Emperor explain in a deep voice.

The other individual who was extremely composed without expressing any emotions was the Stone Emperor. He sat on top of an ancient emperor carriage unmovingly. The only changes to his figure was his eyes that erupted with divine light whenever he opened his eyes.

In reality, there were some there that were rather scared of these two, or else they would have long taken action. These individuals were all rather close to the human emperors, but they felt that the emperors were paying particular attention to their surroundings.

Hong!

Fiery light overflowed the heavens. There was a supreme expert who brought out his innate li flame[1]. It was scarlet like magma, and it burned so intensely that space itself began to tremble as it quickly wrapped around Shi Hao's location.

Everyone gasped. This was an innate dao flame, and it was engulfing everything like a giant sea. This supreme expert's background wasn't shallow; it was likely a divine bird with mastery of the fire dao.

What was especially shocking was that Shi Hao immediately sat down. Four scarlet divine birds began to spiral around him. They absorbed the li flame in the sky and refined its true essence into something he could use to nourish his body.

"Formidable! He is actually using the flame's essence for himself." Even though these supreme experts were on the opposing side and wanted to steal his Kun Peng technique, they still sighed in admiration, feeling that Shi Hao was rather extraordinary.

"Fellow cultivators, why don't we attack together? We should capture him earlier to stop his crazy and disastrous actions." Grandma Xihua opened her mouth. She stopped in midair after moving away a sufficient distance away.

"Fine, we will move together and capture him earlier." The supreme experts expressed their agreement one after another. They were still a bit scattered, as none of them were willing to put their lives on the line. Now that someone took the lead like this, some people naturally wanted more people to move and obtain Shi Hao's treasures.

Shi Hao's situation was not good. The pressure he was facing became greater and greater.

An extremely sharp bronze sword flew out and continuously scattered down sword radiance, submerging the location where Shi Hao stood.

Hong! A glistening yellow gourd appeared and flickered with brilliant radiance. The plug at the top of the gourd was pulled off, releasing strand after strand of mist. It was like a black cave as it began to devour everything. The gourd was going to suck Shi Hao inside.

Aohou...

A Qiongqi appeared. The creature's shape was similar to a mix between a tiger and an ox, and it was formed from blood-colored symbols. Horns grew on its head, and sharp, crimson fur covered its entire body. Enormous wings extended from its body. Its cry shook the heavens. This was an extremely powerful precious technique and extremely life-like, as if a true Qiongqi was pouncing over.

A honglong sound rang out. An extremely intimidating wooden ship smashed over and exuded strands of dark light. It was full of strange energy, as if it carried a crew of gods and devils. Upon closer inspection, there were many statues on the ship that released streaks of dark light. It truly seemed as if the ancient gods and devils were being revived. This was a strange precious artifact, and right now, it was bashing and smashing its way over.

Chi

Golden light tore apart the skies. A golden divine bird spread its wings and dove ferociously at Shi Hao. This was also a powerful divine ability used by the legendary lightning falcon.

It was just a split second, yet Shi Hao had already suffered the attacks of supreme experts from all sides. This place erupted, and it was about to be smashed apart.

The domain embodiment frowned. This amount of damage disturbed the balance of this place. With so many people attacking together, it affected this area's stability and could possibly lead to a disruption of this place's natural laws.

Shi Hao was in extreme danger. With so many people surrounding him and all of them using profound and mysterious techniques, he was truly hanging onto life by a thread. He did everything he could to weave in and out within the divine abilities and precious techniques.

Hong

In just a moment, a Vermilion Bird flew out from his palm to resist the bronze sword. It almost seemed like it was going to refine it as the two intertwined.

With a qiang sound, he also brought out the Heaven Transforming Bowl. It began to spin and rush towards the sky. The bowl fastened itself to the entrance of the glistening yellow gourd's opening, blocking that 'black cave', making it momentarily unable to affect Shi Hao.

It was clear that this wasn't a permanent solution. The earthen gourd ferociously shook and broke free from the Heaven Transforming Bowl and rejoined this chaotic battle of death.

Hou...

Shi Hao released a roar. A seemingly endless amount of smoke appeared from behind him. A great golden-winged Peng flew out, creating large rumbling sounds. Its enormous figure shook the boundless heaven and earth.

“Is the Kun Peng’s technique finally revealed?”

“Yi, hold on, this is only the great Golden-Winged Peng, but it’s power isn’t weak at all. How powerful!”

“Not good, the form is that of a golden Peng, but the power is that of a Kun Peng! Retreat!”

The people here cried out in alarm, but it was already too late. The Qiongqi in the sky was torn apart by the Peng bird, and its symbols were scattered everywhere. At the same time, black streaks appeared on the golden Peng’s body. Its power became even greater as it slowly evolved into a Kun Peng and struck the lightning falcon. A violent explosion occurred. Lightning danced about and electricity poured outwards like an ocean. The Peng swooped over, destroying everything. After shattering all of these precious techniques, it then entered the mass of people.

Ah...

Someone cried out miserably, losing an arm and part of the sole of a foot. The Kun Peng technique was unrivalled, immediately inflicting severe injuries on two or three people. If they did not possess life-saving symbols, they would have definitely died from this attack here.

Shi Hao’s face went pale. Even though he defeated the Qiongqi with force and dominated everyone else, he was still gravely wounded in the end. After releasing these attacks, a layer of sweat covered him and his body became cold.

The most terrifying was that wooden ship. It seemed to carry an endless amount of gods and devils as it rushed over. An endless amount of mist surged around the endless figures on top, and ill winds roared angrily.

“What is this?” Shi Hao said to himself. He felt as if something wasn’t right.

His fist smashed outwards, but when it made contact, it felt as if he was hitting cotton. The gods and devils continued to roar, the mists continued to rise, and the wooden ship’s movements were not stopped. He couldn’t change its course at all.

“Yi, it’s another curse!”

Shi Hao was horrified. This was a wooden ship full of gods and devils. Symbols interwove, and then it began to self-combust. Strands of dark light appeared and scattered downwards.

Shi Hao felt that this structure was too bizarre. Its divine force was actually unobstructable, and it continuously drained his energy. It was as if a ghost descended.

“Break!” Shi Hao used the True Primordial Record, using the most just, gentle, and primitive symbols to resist.

Hong!

Finally, this wooden boat was shattered and the flames were also extinguished. It then disappeared from this place.

"Elder Zhong, is not even the God Ghost Ship enough to get rid of him? That was one of the best among curses!" Grandma Xihua transmitted sound secretly. A look of worry could be seen on her face.

"It is rather strange. Just now, he seemed to possess the strength to destroy all techniques and powers. He had a way to defend even against the strength of a curse! It really is difficult, however, I still have more methods!" The concealed elder spoke quietly. An evil light flickered within his eyes.

Haha...

Loud laughing sounds were transmitted from the skies. The mysterious male fighting against fairy Yue Chan revealed a blurry figure. Everyone was shocked to find that he was quite young, not older than sixteen or seventeen!

"Brother Shi, you are quite formidable after all, daring to fight against the Heaven Mending Sect right now. Why don't you join my side, and I help you get rid of that disgusting old woman?"

He didn't forget to try and rope Shi Hao in even while fighting a great battle.

When Grandma Xihua heard what was said, the veins on her forehead began to throb. This mysterious youth was too hateful, actually daring to call her such a thing. However, she was truly helpless. So many great sects' experts had tried to get rid of this youth, yet in the end, he only became more and more powerful.

Towards this, Shi Hao only snorted coldly. He completely ignored this offer.

"Kill!"

Finally, Grandma Xihua moved herself. Sparkling, crystalline petals filled the sky, and a fragrance wafted through the air. Every single petal contained killing power as they flew unendingly towards Shi Hao.

"Damned old woman, you are truly disgusting. So old already, yet you still bring out these flower petals. Do you still think you are some young woman?" Shi Hao's mouth was extremely sharp.

Grandma Xihua was so angry that she almost spat out a mouthful of old blood. She was a glorified and respected supreme expert that came from the Heaven Mending Sect! After entering the wasteland region, even the sect masters would treat her respectfully.

Yet today, she had been called a disgusting old woman by two youths. Back then, she was also pretty and full of youth, yet now, was she actually unpleasing to the eye?

"Dao friend from the Heaven Mending Sect, let me offer you a helping hand. The situation really is getting out of hand. Does he really think he is unmatched after winning against the dual-pupils? We need to teach him how to properly conduct himself." Right at this time, a supreme expert revealed himself, no longer attacking while hiding.

The Heaven Mending Sect's inheritance was long and great, and from the ancient times until now, they always flourished with glory. Now that the wasteland region was becoming chaotic, if they could establish a good relationship with them, then the benefits would be endless.

Shi Hao closed his eyes and sat within the void. He began to adjust his breathing as if no one was there.

Strand after strand of symbols appeared on his body, especially his arm. Tens of thousands of multicolored streaks of light appeared. This was a divine magical artifact -- the armguard.

The precious artifact temporarily raised a barrier of light to buy him some time. Shi Hao was accumulating his energy, preparing to use the greatest power to deal a fatal blow and escape.

"Kill him!" Grandma Xihua shouted and was the first to attack.

The others also made their moves. The supreme experts revealed serious expressions, for something big was going to happen. They were no longer willing to attack in secret either, and all of them began to put their all into this battle.

A hong sounded. This place erupted with action. Six or seven figures revealed themselves and attacked Shi Hao from all sides.

At the same time, an elder sitting in mid air appeared. He brought out a small altar and began to burn paper offerings before it. He then quickly carved out a small wooden figure that resembled Shi Hao and threw it into the flames.

"Yi, what a powerful curse energy! I remember that back then when I was being pursued, there was someone who used this kind of curse as well." In the skies, the youth that was fighting against fairy Yue Chan revealed an expression of shock.

Hong

Shi Hao stood up and wiped away the blood at the corner of his lips. His entire body shone, as if he had immediately returned to his peak condition. Bloody pillars pierced through the clouds and seem to reach into the heavens.

At this moment, ten heavenly passages appeared around him. His flesh heavenly passage shone as well and integrated itself with the others to form an immortal disk.

At the same time, he no longer concealed himself. He recreated the perfect Kun Peng technique. Black waves surged from under his feet, and golden divine flames flowed intensely above his head.

Below him, a Kun Fish broke through the ocean surface and swam around him.

Above his head, a resplendent blazing sun rose within the golden fiery light. A divine bird emerged from within. When it opened and closed its eyes, the entire world began to sway.

"Come! Let this strike end it all!" Shi Hao shouted loudly. n-0-v-e(-l)b/-1-(n

With a hong sound, lunar force and solar force merged together. The Kun Peng's technique was pushed to its limit as it swept in all directions!

This was the ultimate refinement, the attack he brought about with everything he had. This kind of divine ability was more exhausting than several hundred exchanges in a great battle, depleting a nearly endless amount of divine energy.

However, what was especially shocking was that the ten great heavenly passages, as well as the flesh heavenly passage, surrounded him and supported the Kun Peng technique, allowing it to wreak havoc on his enemies.

Pu!

An individual was immediately blasted apart on the spot. That person wasn't even given the chance to make a sound before he turned into a lump of bloody mist.

Ah...

Two more people began to crack apart inch by inch. They died in midair and were crushed into a meaty paste.

At the same time, the power of a curse rushed towards Shi Hao. However, it was actually pushed back, and the elder sitting beside the small altar screamed. His entire body ignited into flames just like the small figure that had been set aflame by himself not too long ago.

"Heavens! What happened?" The crowd cried out.

The Kun Peng technique this time was incomparable. It was not covered up like in the past, but rather fully displayed by Shi Hao. The heavens split and the earth cracked apart. Even a few of his own bones were broken.

Three of the attacking supreme experts died. Shi Hao brought out Soul Shattering Needles and threw them out to carry out their final execution.

"How terrifying! He is already wounded so severely. Does he not want to live anymore? He actually released such a great technique!" Someone cried out in amazement.

"By going all out like this, won't he be destroying himself?"

"You..." Grandma Xihua was horrified. She activated the Void Beast Skin and entered the void, wanting to flee from this place.

However, at this moment, Shi Hao's power shook the world. His ten heavenly passages and flesh heavenly passage appeared as he personally descended. The number of times he could still do this could be counted on one hand.

"Confine!"

Shi Hao's voice was extremely cold as he locked down this place.

Then, he closed his eyes to sense Grandma Xihua's location. He walked over step by step.

At that moment, everything here was in stasis. No one but him could move. It was as if a demonic monarch had descended from the heavens!

Peng

Shi Hao dragged an old woman ferociously out from the void and revealed her body. Only at this moment did the frozen space return to normal.

"You..." Grandma Xihua was in utter fear.

"Grandma Xihua was captured!" Many people cried out in shock.

Pa, pa...

Shi Hao did not utter another word. One hand held up Grandma Xihua, and the other delivered more than ten blows to her mouth. She was struck until her mouthful of teeth was smashed out, causing blood to fly everywhere.

This was complete humiliation. Shi Hao could kill her, yet he didn't do it immediately. Instead, he continuously struck her face again and again in front of everyone.

Li is one of the Eight Trigrams

Chapter 388 - No Fear Towards Heaven Mending Sect

Grandma Xihua's entire mouth was covered in blood. She became dumbstruck. Who dared to bully her like this? Her mouth was being slapped again and again in front of so many people!

You have to understand that she came from the Heaven Mending Sect, someone who no one dared to provoke. She represented an enormously great inheritance.

"Little bastard, you..." The old woman became furious. After being stunned momentarily, she snapped back to reality and couldn't help but scream out.

Pa, pa... ~~nove~~ (In

Shi Hao did not respond. He only raised his hand to strike her face. It sounded especially sharp and clear in everyone's ears.

This pipa sound continuously sounded from the supreme expert's face. It made many people's jaws drop as they watched in disbelief.

Pa!

As the final slap landed on her face, the old woman's entire face swelled. Her eyes were surging with flames, and her lips were swollen until they were like purple rocks. It was truly an ugly sight to behold.

Everyone became quiet. Their hearts were all shaken. They wanted to say something, but when they opened their mouths, most of them closed it immediately afterwards. They all knew that this was definitely a great matter. He was bold enough to give even the supreme expert of the Heaven Mending Sect a beating. Could this even be forgiven?!

"Little friend, one must learn how to forgive. Be magnanimous and release the Heaven Mending Sect's dao friend Xihua." An elder opened his mouth and began to plea.

Shi Hao shot over a cold look. The Heaven Mending Sect's power was great, and they were mostly likely going to enter the wasteland region.

“Get lost!” Shi Hao only had these two words for him then. He had even killed a few supreme experts, so why would he care about offending one more? Grandma Xihua and the others had all treated him maliciously, so how could he let them go?

The elder’s face went pale, but he could only hold it in. Flames surged within his eyes, but he could only quietly retreat. He unexpectedly didn’t flip out here out here.

It was because acting like this could also be considered helping the Heaven Mending Sect. He didn’t want to fight to the death against Shi Hao here, as everyone could see how vicious he was. He was practically unrivaled.

“Release me!” Grandma Xihua growled. She had never experienced such a loss and was unexpectedly experiencing such torment.

“Do you think you are someone great that I am supposed to serve and then release?” Shi Hao jeered coldly. His hand holding up the hateful old woman almost twisted her neck to death.

“Youngster, release me. We will pretend as if nothing happened.” Grandma Xihua spoke in a low voice, as if it was the sound of a mosquito. She had already dropped to the lowest position.

“What did you say? I didn’t hear!” Shi Hao said in a loud voice.

“You...” A vicious light appeared within the old woman’s eyes. She truly wasn’t willing! If this wasn’t the Void God Realm, how would she be willing to speak in such a soft voice.

“You? What you? After using curses and malicious means to eliminate me, you still want to pretend as if nothing happened? Who do you think you are? So what if you are from the Heaven Mending Sect? Those that provoke me will all be killed without exception!” Shi Hao said coldly.

Everyone was emotionally riled. This youth was too overbearing, actually making this kind of declaration! He didn’t have any intention of reconciliation and seemed to want to wipe out everyone here!

“Hahaha...” A laughter sounded from the skies. The male within the divine flames was extremely powerful. He fought with fairy Yue Chan while observing what was going on down below. When he saw what had happened, he said, “This is great! What a good beating! That old woman deserves a beating. Might as well just cut her down.”

Fairy Yue Chan sighed. She glanced over at Grandma Xihua and revealed a bit of disgust. If she had conducted herself properly, then it was fine. However, she did things without having the ability to and ultimately tarnished the Heaven Mending Sect’s reputation.

The male in the divine flame struck out while saying, “Yue Chan, look how unsightly your servants are. Heaven Mending Sect seems like it accepts just about anyone these days. Even though it was glorious in the olden days, it seems like it still degraded over time. Why don’t you come with me? I won’t treat you unfairly. If we cultivate together, we will soar together and become unrivaled under the heavens.”

His manner of speaking was direct and straight, leaving those that heard him dumbstruck. Today, not only did Shi Hao reveal how reckless he was, this individual was also shocking. He truly wanted to take the Heaven Mending Sect’s fairy as his own woman.

Grandma Xihua muttered, "Release me. Even though you might be able to temporarily vent out some of your anger, you have to know that once the Heaven Mending Sect's generals descend into the wasteland region, as a result of provoking my sect, they will wipe out your clan, inheritance, and everything else. Nothing will be left behind!"

Pa

This time, Shi Hao's slap was particularly fierce. When it dropped, one of her arms was blown off, drawing forth a huge bloody mist.

"You dare to threaten me? I, Shi Hao, walk alone. There has been no one who dared to threaten me with my clansmen and my family yet! Since you dare act so hatefully, why don't I get rid of you guys first!"

Shi Hao's voice was ice cold, and killing intent surged. Ever since he made his appearance, he didn't even hesitate to kill pure-blooded creatures. How would he yield to the threat of an old servant?

Even if it was the Heaven Mending Sect that was known to stretch over several regions, they still couldn't bully him. In particular, he definitely wouldn't tolerate a threat made straight towards the deepest parts of his heart.

Grandma Xihua's face contorted in pain. She had lost an arm, delivering a piercing pain. Both her body and spirit received a sharp blow.

Humiliation and pain; these two were mixed together, making her want to find a hole to hide herself in. This was just too embarrassing. She was resentful and about to go crazy. If she could live, she would definitely kill Shi Hao in the real world. What heaven warping talent? As long as he wasn't allowed to grow up, he would become nothing!

Pu

Unfortunately, she was currently in Shi Hao's hands, so she was fated to experience a great deal of suffering. A silver streak flew past, and her other arm was separated. It was blasted into pieces in midair.

"Little monster!" Grandma Xihua cried out. She couldn't bear the suffering. Both her mind and body were being tormented to the point of near collapse!

"Disgusting old woman, your mouth is sharp even when death is at hand. This grandpa is going to teach you how to act like a person." At this point, Shi Hao naturally wouldn't show any mercy.

Pa

This time, when the slap descended, the old woman's chin was sliced off. She was in so much pain that she cried out miserably and struggled intensely.

"Dao friend, there are times when you should show mercy." Another supreme expert opened his mouth. His voice was rather sorrowful. It was clear that they realized the situation. After using the craziest Kun Peng technique, even though he killed a few people and even captured Grandma Xihua, his own body probably suffered great damage as well and didn't have much fighting ability left.

"All of you, get lost. Otherwise, I will kill all of you one by one!" Shi Hao's voice was cold and threatening.

With kacha sounds, the old woman's legs were torn off by Shi Hao. Earsplitting bone breaking sounds rang out, and when the cultivators heard this, they all shivered inwardly. A grand and magnificent supreme expert was facing such humiliation even while at death's door. This was truly a terrifying thing!

"You... Acting like this, no matter what kind of identity you have or how high your natural talent is, there will be no place left for you in this world in the future!" The old woman's voice began to sound hoarse from shouting.

"I am a person who is the least scared of threats!" Shi Hao replied coldly.

"Fine, fine, fine. You will regret in the future! Your clansmen, your tribe, they will all be wiped out!" The old woman's tone was harsh. She knew that she didn't have much hope of living.

In this world, Stone Village was the most important thing in his heart. He would not put up with anyone else offending it, not even if it was just a threat like just now.

A slap descended. Grandma Xihua's body began to split apart, and it was clear that her body was on the verge of being destroyed. She cried out in terror, for she knew that the next moment would be the destruction of her true spirit.

"You cannot kill me!"

At this moment, she became incomparably regretful. Why did she have to irritate such a killing disaster? She truly invited disaster to herself. Not only could she not deal with Shi Hao, in the end, even her life was going to become forfeit.

She was just an old servant, but she wanted to eliminate a possible threat for her sect. Now that she thought back, it truly was a joke.

"Brother Shi, you've wreaked enough chaos and killed enough people. Can you be a little lenient and leave her true spirit? Can you just spare a bit of kindness?" At this time, fairy Yue Chan in the skies also spoke.

From start to finish, she had always remained silent without pleading for leniency, for she thought that Grandma Xihua truly did not act justly and was instead rather embarrassing. However, she couldn't not say anything right now, because her true spirit was going to be eliminated soon.

"I can not!" Shi Hao's reply was extremely direct.

Since she was the enemy, there were no grounds for negotiation. This old woman hated him deeply, so how could he let her go? He had to kill her.

"Yue Chan, you should worry more about yourself. If you get caught by me later, you need to think about how you are going to be my woman. Would there be any time to think about him then?" The male in the divine flame laughed loudly. He was extremely unbridled, but his strength was truly terrifying beyond belief.

Pu

In the next moment, Shi Hao's palm descended, crushing Grandma Xihua's body into pieces. They slowly dropped from the skies.

There was a sphere of light where her body was originally at that surrounded her true spirit. She wanted to flee in hopes of reviving in the real world.

Shi Hao released a sneer. He reached out and caught it in one go. At the same time, a Soul Suppressing Pagoda that was as red as blood appeared and began to refine her true spirit.

“Ah... no!” The old woman shouted loudly as she wriggled between his fingers. She was extremely regretful and unwilling to die just like this in the youth’s hands. She was in despair. If she was allowed to choose again, she definitely would not have provoked this killing disaster. He was just too terrifying! She simply invited disaster onto herself.

Pu!

The Soul Suppressing Pagoda swayed gently and refined her true spirit into ashes. The scattered remains dropped gently from the skies.

Everyone was completely dumbstruck. A supreme expert from the Heaven Mending Sect was eliminated just like that! This truly was a big deal, and the crowd wondered what kind of consequences this would result in.

When everyone looked towards Shi Hao, their eyes seemed a bit different. This youth was too domineering! Once he was provoked, he no longer regarded anything. He no longer cared about killing even supreme experts!

Now, a few supreme experts were weighing in their minds as to how to solve the problem before their eyes. If they provoked this youth, it might result in a huge disaster! Based on his nature, once he grew up, he wouldn’t let a single grain of sand stay in his eyes. Those that provoked him would all be killed without exception!

“You... killed Grandma Xihua and thus provoked the entire Heaven Mending Sect! In the future, there will be no place for you in this world!” An elder shouted.

“I wanted to kill her, so I did. It’s interesting how you are a supreme expert, yet you have no guts whatsoever. The wasteland region doesn’t belong to the Heaven Mending Sect, and in the future, it isn’t going to rule over our wasteland region’s creatures either,” Shi Hao calmly said.

“Don’t be so hard-mouthed. From today on, there wouldn’t be a place left for you. Once the Heaven Mending Sect gives out the order, how will you survive?!” There was actually someone who spoke coldly in an effort to gain favor with the Heaven Mending Sect.

Shi Hao laughed, seemingly not caring in the slightest.

There was another clear and light laugh that sounded. An extremely beautiful figure appeared. Her skin was snow white, and her hair was pitch black. Her eyes carried a crafty light, and her entire being was wonderful.

This was a young lady who possessed great charm and a moving beauty. There was an even greater seduction to her appearance; this was precisely the witch. Her voice was extremely pleasant to listen to as she said, “The Heaven Mending Sect still can’t cover the sky with one hand. From here on out, brother Shi is my Sky Severing Sect’s esteemed guest!”

Chapter 389 - Targetting the Domain Embodiment

When these words were spoken, everyone became shaken. Had the Sky Severing Sect sent out their people? Moreover, it was this bizarre witch whose identity was comparable to fairy Yue Chan!

This naturally left many people worried, especially the supreme experts who spoke just now. This was a great conflict between great sects! Even though their origins were great, if they were caught up in this, it would only spell out trouble.

Shi Hao was actually this exceptional, involving himself in the struggle between these two great sects and making the Sky Severing Sect personally show themselves. If anyone dared to take action, they truly would think twice before doing so.

The demonic witch had bright eyes and white teeth. Her magnificent style was unmatched, and her physique was extremely alluring. A beautiful pair of long and slender legs moved back and forth, drawing out a figure that was extremely moving.

"Little Stone brother, your wounds aren't light. You should just leave together with me," the witch said. Her black eyebrows were curved and her pupils were intelligent. Within her red lips were sparkling teeth, and there was a type of spiritual influence to her.

"It's not that bad, I'm still okay and can walk by myself. After all, this kind of life and death struggle is a good way to sharpen myself." Shi Hao laughed and expressed his thanks.

Everyone became fearful. This fellow was too strange! He was clearly suffering from serious injuries and about to die. Did he really consider this kind of fight a test?

These experts were naturally experienced, and they naturally now saw that this heaven warping youth had extraordinary backing. While fighting life and death battles against supreme experts, he could actually still laugh so casually.

"Is there anyone else that wants to have a go?!" Shi Hao shouted.

Everyone became stupefied. Was he being serious? He actually issued the challenge himself. What was he trying to do? Was he really not scared of dying here?

In reality, Shi Hao actually did suffer from great injuries. Not long ago, he had still wanted to flee and carve out a path of slaughter. However, he now realized that this was a chance to completely release his potential. By exhausting everything he had, he could actually gain many benefits.

You have to understand that normally, he would always overpower his enemies. Where would he find any suitable opponents? In the Fire Clan ancestral ground's Holy Emperor Palace, he encountered the Wall of Gods and Devils, which made him ecstatic.

And right now, there was a group of creatures worth fighting with everything he had! This was definitely a rare opportunity.

Of course, this wasn't him rushing to his death. He still had some confidence, because when he killed Grandma Xihua just now, he obtained that Void Beast Skin. It could allow him to travel unobstructed through the void!

Thus, he no longer feared anyone here. He treated this place like a slaughterfield. He was going to fight this bloody battle to its end!

It had to be mentioned that the witch was just too sharp. She was extremely intelligent. From Shi Hao's eyes that were filled with battle spirit, she sensed a type of confidence and arrogance and immediately understood his intentions.

"Since that is the case, everyone, please continue. My Sky Severing Sect will back off." She giggled. Then, in a straightforward manner, she directly flew through the air like a bright and beautiful spirit.

Everyone became stupefied. The witch left just like that, not willing to stay here for even a moment longer.

"Do you think you can just leave?!" Suddenly, a black-gowned individual appeared from the darkness and rushed murderously towards the witch. A large black hand reached into the sky.

At the same time, several indistinct figures appeared. They were all powerful figures with outstanding strength.

The source of their power did not mainly reside with their bodies, but rather in the great formation that was laid out. They were going to trap the witch here, leaving everyone horrified. They could all feel that this was a divine formation!

"Yi, you guys also followed me into the wasteland region. Are you trying to kill me with this? However, this is the Void God Realm, so it's not as easy to take advantage of me. You all might just die here instead." The witch was amazed when she recognized who they were.

"Do you think there is no one left in our Sky Severing Sect?" Right at that moment, there was an aged voice that sounded. Two figures appeared and directly broke into the formation to assist the witch with attacks.

This place erupted with action. A battle involving great formations broke out. Both sides continuously brought out formation flags.

"Divine Formation, this... is worthy of an unrivalled great sect. Even such an item was brought along. Should they decide to participate in the wasteland region's impending chaos, it will definitely lead to great disorder!"

Everyone was frightened. These unrivalled great sects that crossed over several regions truly deserved their reputation.

"Who is still unwilling to give up? Come here and fight! I'll help you cure your mental illness!" Shi Hao challenged. Everyone felt that this was truly too arrogant when they heard his words.

There were a few supreme experts whose faces fell ashen. Their expressions became sullen. This was just too overbearing! This fellow was taking the initiative to challenge them, completely flipping everything around. He wasn't even running anymore.

There were a few people whose hearts became cold. This youth's natural talents were exceptional, and he was already so powerful. If he wasn't killed right now, then it wouldn't be good for them in the future.

"Since he is asking for it, then let's kill him together!" Someone spoke hiddenly for everyone to take action.

"Fine, let's kill him!" The ones that took action just now were all supreme experts. These were all figures with great influence, and being provoked by this younger generation youth made them furious.

A sky-shattering sound rang through the air. A few indistinct figures appeared. They hid their true appearances and began to unleash a great slaughter!

In that instant, lightning and thunder erupted and ill winds howled angrily. This place exploded into action again. The male in the divine flame and fairy Yue Chan were fighting a great battle high up in the air, the Sky Severing Sect's witch was fighting some mysterious individuals in the distance, and nearby, Shi Hao was fighting intensely against the supreme experts.

This place began to clamor with noise, and shouts of murder rang through the skies.

"Youngster, you really don't know when to back off. The Sky Severing Sect had already decided to defend you, yet you didn't grasp the opportunity and instead flipped out here. Many people would be wronged if you didn't die today." One of the elders spoke deeply.

"Old thing, just now, you were the one who jumped out and asked me to let Grandma Xihua go. Now, you came again, but to die. Don't think that you are safe just because you hid your appearance. In reality, I wouldn't care less who you are when I kill you!" When Shi Hao finished speaking, he disappeared from his original location with a sou sound.

"Yi!" Everyone became shocked.

With a hong sound, the skies were blasted apart. Resplendent rays of light filled the air. Shi Hao stood on top of a piece of ancient beast skin while using his divine abilities, blasting that elder outwards. He immediately coughed out a large mouthful of blood and nearly died tragically.

"Void Beast Skin!"

Everyone's hearts began to jump violently. This was Grandma Xihua's item, so how was he able to use it immediately after obtaining it? This kind of strange beast skin should carry mysterious and profound symbols. At the very least, one had to thoroughly comprehend it before using it.

"How are you able to use it immediately after refining it?" That elder asked in a weak voice.

"Who am I? I'm a heaven warping supreme being!" Shi Hao laughed coldly. His voice was extremely domineering, and it also carried confidence. It left everyone speechless, however, inside, they were trembling a bit. This fellow truly seemed to have comprehended it thoroughly.

This piece of beast skin was extremely ancient. It had never been refined into a precious artifact, and instead, the symbols left on top of it were used for its ability to move through the void. n-Ovelb1n

As Shi Hao stood on top of it, his body and dao merged together to move it. Not only was his natural talents astonishing, it was also because he had once came into contact with the Fire Emperor's beast skin.

Chi!

As the beams of light extinguished, Shi Hao once again pierced through the skies. This made everyone shiver inwardly. This was too bizarre! They didn't know who he was going to attack next!

"Ah!" The elder that was seriously injured released a miserable cry. Shi Hao appeared once again, and he directly used the Kun Peng's power to break through the precious techniques protecting him. He was shaken to such an extent that his entire body began to crack and coughed out large amounts of blood.

"Everyone, move together! Hurry and kill him! I'm trying to stall him. Everyone, join hands and quickly eliminate him!" The elder shouted loudly, hoping for the others to take action and help him.

Shi Hao burst into action. Even though his face was pale from blood loss, he was still incomparably tyrannical. He was like a human-shaped dragon as he soared across the air and brandished his fists. He used his precious techniques to attack everyone.

Everyone hurriedly rushed over to offer their assistance. They wanted to use this chance to exterminate this youth.

However, the end result did not end up the way they wanted it to. With a hong sound, the elder was blown apart alive by Shi Hao, exploding in midair. Then, a scarlet Soul Shattering Needle flew out, piercing through the true spirit.

"What?!" Many people cried out loudly, revealing signs of fear. This fellow was too savage and worthy of being known as someone who angered gods and humans alike! He directly killed the supreme expert.

It was hard for this place to quiet down again. Everyone was greatly shaken, and an uproar immediately erupted.

Without a doubt, the wasteland region was going to be greatly affected. It was just a single day, yet not only was the dual-pupiled individual killed, several supreme experts fell in succession as well. This was just a great disaster!

Shi Hao, merely a thirteen-year-old youth, actually possessed such great battle accomplishments! He was definitely an uprising glorious and world-shattering figure!

His rise to power was truly done so by stepping over the blood and bones of supreme experts and outstanding talents. It was just too astonishing. Everyone's hearts were moved, and they continuously trembled.

"This should be enough!" Suddenly, a cold voice sounded, and changes happened in the skies.

The male within the divine flame became incomparably cold as he released an enormous strike. It was the six dao reincarnation divine ability. Six types of precious techniques flew out at the same time, shaking the heavens and moving the earth as it pushed back fairy Yue Chan.

In addition, a mysterious magical artifact was placed by him into the heavens. It began to devour essence energy from all sides. The individuals that died, especially the bloody mists of the supreme experts that died were sucked up.

"What kind of precious technique was this? Is it going to destroy this place?" Everyone cried out loudly. This magical artifact was too formidable, unexpectedly making the heavens unstable and throwing the laws of this place into disorder. The sky was on the verge of exploding.

Even the supreme experts were astonished. They all raised their heads to see what was going on. Their hearts all began to shake.

What was especially frightening was that the magical artifact continuously grew, covering the skies. Only now did they notice that it resembled an incomparably terrifying divine ring.

“Not good, this thing is beyond the limits of our comprehension. It is a heaven-defying divine object that releases chaotic energy! Too terrifying!” A supreme expert cried out in horror.

“What?” Even Shi Hao was shocked. He could see that an indistinct divine disk covered the sky. Strand after strand of primal chaos flowed outwards to suppress this world.

At this moment, even the small pagoda in his hair began to sway, as if it was producing some kind of reaction.

Fairy Yue Chan’s expression changed. She quickly flew in retreat to break free from the space surrounded by this divine disk. She separated herself from the battlefield with an overcast look on her face.

The others were all horrified and felt as if judgment day had arrived. They scampered off in all directions, and even supreme experts were no exception.

However, they were still a bit late. A few individuals were blown apart and turned into a bloody mist before entering that divine disk. Even though the number of people wasn’t great, it was still extremely terrifying.

“What is going on? What is he going to do?” Someone cried out.

Even the supreme experts were frightened. They felt that this individual was too scary. He actually brought out a precious artifact like this! It greatly affected the stability and atmosphere of this place.

“Stop!” Right at that moment, the domain embodiment shouted loudly. His face was ashen and as ugly as it could be.

“Hehe, too late!” The male in the divine flame laughed coldly. He glanced over at fairy Yue Chan in the distance and said, “You are my woman, but right now, there is something major that I have to take care of first.”

Hong!

The disk smashed downwards, surrounding the domain embodiment.

Everyone became astonished. They never would have expected that the target was actually the domain embodiment! After all, the reason they were able to come to this place was because of the domain embodiment.

Everyone was about to go crazy. This was too unreal! There was actually someone who dared to rebel against the Void God Realm like this! Were they trying to defy the heavens? He was trying to kill the domain embodiment!

Before this mysterious individual came, everyone had the impression that he was arrogant and conceited, but now, they realized that he truly had the strength. His aggressive behavior was not without any backing!

At this moment, many people were stupefied.

Everyone felt that either they weren't thinking clearly, or that person was crazy. No matter how ridiculously crazy one was, one still shouldn't try to kill the domain embodiment!

Chapter 390 - Chaotic Magical Artifact

The divine disk shone with six different colors and released a hazy chaotic mist. It confined the space around it, as if it was going to shatter everything. It was so powerful that the laws of heaven and earth became unsteady and the order of this place became chaotic.

Chi!

A beam of light flew out from the disk towards the domain embodiment. This light was powerful to the extreme. It made the space around it sink in, and it was as if this disk was changing the laws of this place.

Everyone's faces were pale as they cried out in shock, especially the supreme experts, who felt an even greater chilliness creep down their backs. How was producing this amount of power possible? It actually destroyed the order of this place!

It was just too strong, far surpassing the amount of power that was allowed here!

The domain embodiment's face became ugly as he quickly backed up. This strike was aimed at him, and should it hit its target, it would truly be too horrible to even think about. Even though he was the enforcer of this place, he still had to avoid this attack.

"Too unreasonable and excessive! Who is this person? Why would he ignore the rules and laws of this place and try to kill the domain embodiment?" Many people became rather scared, and there were a few experts who were even dumbstruck. They simply couldn't understand the reasoning behind these actions.

This was a madman! He wanted to kill the domain embodiment and destroy the laws binding the Void God Realm together, affecting this 'Spiritual Transformation realm' region. This place was going to be completely broken through.

After all these years, no one had ever heard of this kind of person. The things he did were just too excessive and incomprehensible!

Chi!

The beam of light swept past. That area quickly grew dim, as if space-time was being damaged. The domain embodiment's expression was ugly as he barely avoided the attack. However, the people behind him got caught up in it and immediately turned into ashes.

“It’s practically impossible to defend against! Even if a supreme expert were to face this attack, they would still most likely die!” When everyone fled that area, their bodies went cold. A layer of goose bumps covered their skin.

Following a honglong sound, the divine ring in the sky shook. Chaotic mist shot out towards the domain embodiment’s location. The scope of this attack was tremendous, and it inflicted an extraordinary amount of pressure.

Many people felt a chill run all the way down their bodies upon seeing this scene. What kind of magical artifact was this? Even primal chaos emerged, which made their souls shake. This was definitely a supreme treasure.

This kind of thing had only been brought up in legends and stories and was practically nonexistent in the real world. They never expected that they would be able to witness it with their own eyes.

When the supreme experts understood a bit more, they became even more shocked. When they carefully thought about this, they realized that this kind of precious artifact shouldn’t even exist in the real world. At the very least, it shouldn’t have appeared in the mortal realm.

It was because based on their understanding, even their ancestors that had ultimately become gods or devils did not have this kind of magical artifact. They simply couldn’t refine such a thing.

This kind of precious artifact was only a legend even to gods and devils!

With a wenglong sound, the primal chaos surged over. The domain embodiment immediately released a loud cry. Even though he quickly moved out of the way, a part of his body still made contact with the mist. Even though it was just a thin layer of mist, it made his body shake violently. He coughed out a large mouthful of blood.

“Break!”

The domain embodiment shouted loudly. His entire body erupted with light. These were the profound mysteries of the laws. It was as if a divine case was opened and the most resplendent radiance was released to push back the mist.

The domain embodiment’s body greatly trembled. He quickly backed off. It was as if he had seen a ghost, and quite a bit of color was gone from his face. After moving several hundred zhang away, he looked at the mysterious male and the divine ring in the sky. It was clear that he had suffered quite a blow.

“Who exactly are you?!” His mind was greatly shaken. He was only a will of this world, representing a type of order, yet someone could actually injure him.

When everyone heard these words, they all began to tremble with fear. Just how terrifying was the male in the mysterious flames? Even the domain embodiment was injured. This was like something out of a fantasy.

“Me? I’m just a free and unfettered cultivator. I like to collect heavenly beauties, and I also like to collect all types of precious techniques. Today, I want to seize the god essence,” said the male in the divine flame.

His voice was very loud, making the heavens shake. Everything rumbled, as if thunder had sounded. The entire sky was resonating in response, making many people's expressions fall.

If this was before, everyone would have felt that he was just being arrogant, but now, not a single person doubted his words. He first wanted to capture the Heaven Mending Sect's fairy, then, he was going to kill the domain embodiment. These tasks were just too ridiculous.

Xiu!

A streak of light flew out. The divine disk in the skies trembled again and interweaved with symbols to destroy everything in its way.

The skies trapped a group of people, and they couldn't escape at all this entire time. They brought out precious artifacts to defend against this murderous light.

In reality, this streak of divine radiance wasn't aimed at them but rather still towards the domain embodiment.

"You dare!"

The domain embodiment shouted loudly. His two hands formed an imprint to bring forth powerful energy that collided with that streak of light, and a tremendous noise sounded. All types of laws and profound mysteries emerged, causing this place to explode.

The light was obstructed, but the domain embodiment still breathed deeply, and his chest violently fluctuated.

Everyone became petrified. This youth was just too terrifying! With this kind of heaven defying method, was it able to harm even the domain embodiment?

"Seizing the god essence... there is actually someone who dares to do such a thing!" In the distance, an elder's eyes revealed endless bewilderment. He was completely shaken.

He wasn't the only one. There were a few rather aged cultivators who were feeling fear. This type of event had happened before in the ancient years, where there were those who dared to challenge the domain embodiments. It was truly heaven defying.

However, these people were too rare. They were all insurmountable and unstoppable figures who possessed strength that was utterly ridiculous.

"How is he going to seize the god essence? What is he going to do?" Some people didn't understand. Their voices were trembling as they asked their elder supreme experts.

"The Void God Realm was forged from the essence energy of many deities, so it naturally contains the laws of deities. The domain embodiment is a will of this world and contains ancient and profound laws of order. By killing the domain embodiment, they are removing a portion of his core, equivalent to seizing the deities' profound mysteries."

Everyone became stupefied. The domain embodiment was the reflection of the laws left behind by the deities. Killing the domain embodiment and stealing his imprint was the same as acquiring a portion of the deities' profound mysteries.

The experts were all astonished. What was this mysterious male planning? This was too heaven defying! He was going to fight against the spiritual law left behind by the deities and even seize their power! This was truly a rare sight.

“How could there be someone like him? Is he truly able to break apart even the spiritual world constructed by deities? He’s not pushed back in the least, isn’t he too powerful?!”

Everyone was somewhat unwilling to believe how powerful this mysterious male was. He surpassed all of the legends.

“He is extremely powerful, but he is not like how you all imagine him to be. No one can seize god essence without any restraining fear. He is relying on that divine disk. I believe that it is a magical artifact that would terrify devils!” An old supreme expert sighed while speaking.

Everyone began to ponder over whether this was truly the case. The main thing was that the magical artifact was too heaven defying. Otherwise, how could he have forced back the domain embodiment? This divine disk circulated with primal chaos. Forget about the wasteland region, it was rarely seen even in the entire mortal world.

“Yue Chan, wait for me to seize the essence first, then I’ll look for you. The two of us will be inseparable. How great would that be!” The male in the divine flames laughed heartily.

Right now, no one thought that he was overly arrogant and instead felt that he had the power to back himself up. Only those powerful enough would act this conceited.

Hong!

The divine disk shone again. It rumbled as it moved and released several divine chains that looked like beads placed on top of a divine thread. This terrifying attack shot towards the domain embodiment.

Everyone sucked in a cold breath of air. This was the materialization of the law’s evolution, and it was going to suppress the domain embodiment.

The domain embodiment’s face became downcast. His two hands formed an imprint, and all types of symbols rushed forth. They were as brilliant as the sun, moon, and stars as they densely filled the sky. The entire sky began to tremble and violently sway.

“I will carry out the law in the place of the deities -- die!” The domain embodiment shouted.

The laws of this world erupted. Terrifying energy began to diffuse and fill the air. It was as if he turned into a deity as he controlled this place.

This strike was similarly terrifying. Those symbols rushed forth and collided with the divine disks, causing what seemed like a flame to burn fiercely and vigorously. The entire sky began to shake and distort.

Pu

The domain embodiment coughed out blood. Even though he was the incarnation of the laws of this world, he was not much different than a flesh and bone person here. After sustaining injuries, blood flowed from the corner of his mouth in an extremely lifelike manner.

Meanwhile, this time, the body of the male in the divine flame also shook. The scarlet, fiery light within his eyes seemed to dim a bit. He was also injured; after all, this was an attack from a will of this world.

The only thing that didn't change was the divine disk. It continued to shine brilliantly like an eternal sun as it floated in midair. The dazzling object continuously released chaotic multicolored light.

"Heavens! He injured the domain embodiment! He is too powerful. Is he trying to defy the heavens?"

"He truly is quite strong, but it's not enough to crumble the Void God Realm. What's truly heaven defying is that primal chaos disk. It could shatter a portion of the laws put in place by the deities!

Everyone sighed in admiration. They now realized just how incredible the shining disk was. It was seizing the natural energy of this world to produce great power!

The male in the divine flame coughed out a mouthful of blood. He sighed and said, "It seems that it is still lacking a bit! Continue the sacrifice!"

Following his shout, miserable screams sounded from the crowd. Several pure-blooded creatures received an order, and a slaughter was unleashed, turning many figures into bloody mists.

These were all members of his followers. After receiving the order, they began to kill large numbers of cultivators. They became sacrifices for the disk swirling with primal chaos, allowing it to display even more might.

These pure-blooded creatures were naturally powerful and could easily sweep through large numbers of enemies. Even if supreme experts faced them, they might not necessarily win.

In just a moment, bloody mists surged. These sacrifices were all devoured by the chaotic magical artifact, making its power flourish even greater.

"You dare!" The domain embodiment shouted. He knew that his opponent was going to use this to defeat him, so this was what he had to stop first. He exerted the power of his own laws to banish several pure-blooded creatures.

"You are only a domain embodiment. Even though you are quite strong, expelling people in front of my magical artifact still isn't enough. I fear that this won't end well for you unless the domain lord comes." The male in the divine flames said softly.

Everyone stared blankly for a moment, and then they gasped. The domain embodiment wasn't the most powerful enforcer, and there was another domain lord? This was still only the wasteland region!

Hong!

The domain embodiment revealed his power. All types of profound mysteries danced about, shaking this world. Streak after streak of auspicious lights emerged, hacking outwards to kill the male in the divine flame.

Following this strike, both sides coughed out a large mouthful of blood. Just like before, the magical artifact within the primal chaos was unaffected, continuing to float in midair.

"Freak! We are looking at someone straight out of a legend!" Everyone was both shaken and shocked.

During the ancient era, there were naturally people who dared to challenge the domain embodiment, but who here could have possibly witnessed such a thing? This had all happened too many years ago. However, there was someone doing this exact thing right now.

“Domain embodiment, stop struggling already. I can already tell that the divine mysteries of this place share karma with me. Why don’t you just let me borrow it for a bit?” The male in the divine flame spoke after spitting out a mouthful of blood.

This was just too overbearing! For the sake of cultivation, he dared to behave so atrociously in the Void God Realm and seize the profound laws left behind by deities. This was simply beyond normal reasoning!

At this moment, fairy Yue Chan stopped in the distant skies. She had a jade sword in her hand, and her eyes were moving about. She had finished her preparations for the great battle.

Other than her, there was also the witch whose beauty surpassed all others. After breaking free from her battle, she stared at this place, ready to make her move at any time.

“Everyone, if we want to share this delicacy, we need to pay the price. Let’s all take action together.” The male in the divine flame laughed as he spoke. Even though he coughed out blood, he was still arrogant and self-confident.

Shi Hao stood on the beast skin in the distance. His eyes flickered with divine light as he calmly waited for the result.

“By behaving like this today, in the future, you will never have the chance to enter the Void God Realm again!” The domain embodiment’s eyes were cold.

“Where I cannot enter is just the wasteland region’s Void God Realm, or rather, just the region you control. I can still do whatever I want in the other regions. Today, I will seize the essence of this place!” The male in the divine flame shouted.

He then bit the tip of his tongue. Blood continuously flowed towards the divine disk, allowing it to shine even more brilliantly. Its body began to gradually emerge.

Ancient and profound patterns were carved on its surface, as if they had emerged from the dust after endless years had passed. The magical artifact’s original form was revealed.

“Yi, it is only a damaged horn!” Everyone was shocked. It was not complete, but rather only a single horn. Only a sixth of its original form was left, and the rest were all supplemented by the light it emitted.

Hong!

The male in the divine flame coughed out blood. He used his own blood essence as sacrifice to revive the chaotic disk. A streak of divine light that was practically unstoppable was released. It immediately drew a large cry from the domain embodiment.

Everyone became shocked. The domain embodiment was sliced apart, dyeing the skies red with blood. How world-shaking was this precious artifact? They had never seen such a thing within the ancient records.

At this time, the small pagoda in Shi Hao's hair swayed. It seemed to have sensed some kind of pressure, and a bit of primal chaos began to diffuse outwards.
