

Perfect WD 701

Chapter 701 - Battlefield Natural Luck

"Who are you?" Yun Xi backed up. When her earlobe was inadvertently touched, it made her face turn red. She was a bit angry and embarrassed.

At that moment, she thought of too many things, recalling that youth from the lower realm. Great waves stirred within her heart. That person's death really was too unfortunate.

"I am Mo Xi." Shi Hao replied. He felt too many misgivings. If he told the other party who he was, then the Celestial Race would find out as well, and that might cause unwanted accidents.

For some reason, Yun Xi always felt a sense of déjà vu when she looked at this person in front of her. He had similarly snow white teeth and a brilliant smile. There was that completely reckless expression as well. It was too similar.

Only, she knew that it was impossible for that person to reappear. He had already been dead for a year or two, buried in the great wasteland of the lower realm.

"You are extremely similar to someone I know." Yun Xi said softly. Her beautiful purple hair, sparkling white oval face, black curved eyebrows, intelligent large eyes, and bright red cherry lips made her appear extremely beautiful.

"There is someone like that? What clan does he come from? Is he really all that similar to me?" Shi Hao asked.

"He used to be my enemy, and then later on, the grudges were dissolved. He even saved my life. That person was quite stunning, but what a pity it is in the end..." Yun Xi shook her head. She was thinking too much. Her mind was in a state of great disorder.

Ao...

In the depths of the ancient battlefield, a terrifying roar sounded, cutting off her line of thought. This also startled Shi Hao. This was definitely not some good place.

"We cannot stay here any longer," Shi Hao said. Regardless of whether it was the danger of this demonic land or to hide from their pursuers, they were both good reasons to leave this place.

"You should go first. I don't want to involve you further." Yun Xi expressed her thanks. Shi Hao saved her. If they continued to travel together, she would most likely bring onto him a great disaster.

Shi Hao shook his head. "It's already too late to leave. Those pursuers already saw me move with you and won't let me off either. The most important thing is to leave these Blood Plains first and escape from their pursuit."

He didn't expose his identity, but he wanted to help Yun Xi escape this crisis. He couldn't just watch as their pursuers seized the heaven's mandate stone and left her forever crippled.

Shi Hao picked the remaining twenty or so stalks of Blood soul grass, and then he went on his way along with Yun Xi. They rushed through this ancient battlefield and headed southward.

"You are still eating the strange grass?" Yun Xi was shocked. Along the way, she noticed that Shi Hao continued to support the heavenly passage. His body was flickering with symbols, and there were mysterious bone texts swirling about to refine the soul grass.

"The taste really isn't bad, sweet and sour. It's quite fresh and tasty." Shi Hao had a relaxed look on his face. If there were people from the outside world here, they would definitely be stupefied.

This was a fatal 'grass of death', how could ordinary people ingest it? It would ignite one's soul blood and explode one's flesh. One would die without the chance for even a proper burial!

Yun Xi was extremely nervous. The other party was too stubborn! If this continued, he might die soon. This was the benefactor that saved her life, so how could she ignore this?

"If you want strength, when we enter the Celestial Race, my clan's heavenly deity can lend you a helping hand. You absolutely cannot play with your life like this!" She said with good intentions.

"Do I look like a reckless person? With my natural talents that can overlook three thousand provinces, how could I do something as silly as suicide?" Shi Hao's skin was extremely thick, speaking while shoving a stalk in his mouth.

Yun Xi was speechless. Not even this was reckless? Moreover, the more she looked at this person, the more he looked like that lower realm person. Even the way he behaved was so 'hateful' and extremely narcissistic.

They found more than fifty stalks of Blood soul grass total below the stone cliff. They were like red gemstones, sparkling and translucent. They were all eaten by Shi Hao along the way.

Meanwhile, at this moment, he felt a bit unwell. His flesh was in pain, and his blood felt like it was boiling. Even his soul was burning fiercely, about to produce a flaming sphere of light.

"The medicinal characteristics are so tyrannical!" Shi Hao said to himself, trembling inwardly. He knew that if it was a normal Supreme expert, their flesh would inevitably explode with their soul and blood ignited. ~~noVe.lB/In~~

However, he suppressed it. Earlier, he didn't decide to do this purely out of arrogance. He had this type of confidence and strength, and with the heavenly passage to restrict his body, he could defend his life with his strength that exceeded his cultivation realm.

There were people that died after ingesting a hundred stalks of blood soul grass, so he believed that refining fifty something stalks was definitely not a big problem.

Along the way, Shi Hao continuously operated the True Primordial Record's bone texts. His entire body was sparkling and shining, and his blood energy was surging, battering about within his body. His body was incomparably sturdy.

"Is this precisely this type of secret force?" Shi Hao said to himself. A wave of mysterious force spread within his flesh and seeped into his bones. Was this the fundamental reasoning for the immunity against magical force?

Yun Xi became more and more shocked. This youth was too terrifying! His natural talents were shocking. After eating over fifty stalks of Blood soul grass, he was unexpectedly unaffected, able to refine the terrifying medicinal characteristics.

“It would be best if I could capture an Ape Devil and carefully study their constitution. Only then would I be able to improve my understanding a step further.”

Shi Hao felt rather regretful. Even though he killed six of them, and he had studied them as well, he couldn't see through this race's true secrets. He had to catch a living one.

Aohou...

Suddenly, a deafening roar sounded. A miserable aura covered heaven and earth as it sounded from the depths of the battlefield. It didn't seem to be that far away.

“Not good, those three Ape Devils are bringing the lord of the ancient battlefield. We need to hurry and escape!” Yun Xi understood more about this place. When she saw the figures that were rushing over in the distant mists, she felt a wave of alarm.

Shi Hao used the dual pupil to observe them. Apart from the three Ape Demons, he saw a pure white skeleton further out that had a divine flame burning about it. It rushed over murderously with a bone sword in hand.

The long roar was released precisely by this creature. It made the entire battlefield tremble. This was a roar of the soul and not a true roar.

“True deity!” Shi Hao was shocked. This was a creature that surpassed the Divine Flame Realm, which was precisely the True Realm.

Many people called those at the Divine Flame Realm deities because they made contact with the domain of divine dao. However, because they only stepped through the door, their statuses weren't that high.

Comparatively speaking, the True Realm, which was the level above the Divine Flame Realm, because it carried the word 'true', and those in this realm possessed powerful strength, were called true deities by others.

In reality, the True Realm was just a large step further in the domain of divine dao.

The snow white skeleton was surrounded by a blazing white divine flame that was like a brilliant sun. There was no deathly aura, only a scorching heat that seemed to ignite heaven and earth.

This was an expert at the True Realm. There was simply no way for them to fight this opponent right now. Even someone as stunning as Shi Hao had no choice but to withdraw. With the Earth shrinking into inches great divine ability, he quickly brought Yun Xi away from this place.

Chi la!

Meanwhile, Shi Hao also used the lightning dao divine ability. A pair of wings, one light and one dark, appeared behind him. Lightning coiled about as he shot into the distance.

"The one I knew also studied lightning precious techniques before," Yun Xi said. She began to develop suspicions, but she still shook her head in the end. That kind of thinking was unrealistic.

"I am proficient in the Thundersky Sparrow's precious technique," Shi Hao said.

This was a great escape. Shi Hao brought Yun Xi into the distance, escaping over ten thousand li. They made their way through this battlefield and departed from this place.

That True Deity quickly stopped, not leaving those ruins. It peered through the mists into the outside world. The soul light flame continuously jumped within its eye sockets.

"It'll be too dangerous to head straight for Heaven Province. We should still choose an ancient battlefield and make our way through it. Otherwise, we might be found out at any time in the outside world," Shi Hao said.

Yun Xi nodded. She told Shi Hao that they were just stalling for time right now, waiting for her clan's ancient ancestors to revive. As long as that old celestial revives, everything would be changed.

"From man to heaven, is it really that terrifying?" Shi Hao said softly. He looked towards the beautiful woman.

He already knew that that old celestial had once, together with five other experts, personally founded their clan's glorious era. They were ranked in the ten greatest races, becoming one of the higher realms' Emperor Races.

For an existence like that to live from the ancient times until now, just how terrifying is that?

"After merging with the heaven's mandate stone, our Celestial Race can undergo a fundamental change and evolve to the highest state. If we were to be compared to someone, it would be equal to the most powerful exceptional talents!" Yun Xi didn't hide anything. She trusted Shi Hao, because if the other party harbored ill will, he had way too many opportunities and wouldn't have waited until now.

Soon after, they entered another ancient battlefield that was even larger, close to fifty thousand li in size. After travelling quite some distance, they even discovered a heavenly deity bone!

The two individuals sucked in a cold breath of air. One could imagine just how intense the battle back then was! Even heavenly deities were similarly helpless, dying here.

The yin energy here was extremely heavy. Mists pervaded the air. There were many remains on the battlefield and even more broken weapons and precious artifacts that had long rusted or rotted.

"Blood soul grass!" Shi Hao was pleasantly surprised. After entering this ancient battlefield, this precious grass was his greatest harvest. He saw six more stalks here.

Once this type of spiritual object appeared, there was no way there was only one. They existed in groups of at least three.

"You really have to be careful. You can't blindly refine it." Yun Xi reminded.

"Let's go. This is my natural luck. I might really be able to obtain the magical force immunity type of divine ability!" Shi Hao was incredibly stirred up.

Two days later, Shi Hao was overjoyed, and even Yun Xi was shocked. They saw an expanse of dazzling red light below a bare rocky mountains. It was as if a fire was burning here.

This was a whole field of blood soul grass. They shone brilliantly and resplendently. They were densely packed, forming a brightly-colored and gorgeous scene. Scarlet multicolored light coiled about.

"There are at least two hundred stalks here!" Yun Xi's voice was trembling. This was a great batch of wealth. If they brought this back to the outside world, it would definitely trigger quite the uproar.

"Do you want to eat some? We can split it fifty fifty!" Shi Hao said.

Yun Xi shook her head and said, "I won't eat it. You shouldn't take anymore risks either."

"Then I won't be polite. Believe me, I will definitely live and obtain the ability of magical force immunity. This is my great natural opportunity!" Shi Hao said.

However, things didn't go as smoothly as he expected. Two Ape Demons silently appeared. They were especially large, and their black scales unexpectedly carried a faint silver radiance.

"These two creatures are too powerful, more so than those other nine added together!" Yun Xi was alarmed, advising Shi Hao to leave and not put himself in danger.

"It's too late. They already locked onto us and wouldn't let us go." Shi Hao's expression was serious. He had Yun Xi go into hiding.

Ao... The two Ape Demons roared. Their entire bodies shone. They sparkled like gemstones as they expanded their bodies and released rumbling thunderous sounds.

It was clear that this was a ferocious battle as well. Any one of these Ape Demons was enough to be a threat to Shi Hao. These two were definitely terrifying, with black scales that actually began to evolve towards a silvery white.

Even when someone with a body as powerful as Shi Hao's brandished his fists, it was difficult for him to injure them. The scales covering their bodies were just too sturdy.

Hong!

Shi Hao erupted with power. He fought a bloody battle against the two demons, not choosing to back off during this time.

"You should hurry and take this chance to escape!" He secretly said to Yun Xi. It was because he truly wasn't confident this time, not knowing if he could win.

"I am not leaving!" Yun Xi shook her head, ready to lend a helping hand at any moment.

"You cannot help me! Their cultivation realms are too high and their flesh is terrifying. You cannot injure them!" Shi Hao shouted, having her quickly escape.

Weng long!

The heavens trembled and the earth shook. The two Ape Demons shone. Blood energy surged, rushing into the heavens. Their entire bodies were sparkling. A single stamp from their feet made the nearby great earth collapse and sink in.

This was especially true when they brandished their arms. When a single fist smashed outwards, even the void distorted, blasting a mountain peak into pieces. This was purely physical strength!

Shi Hao released a long roar, doing everything he could to fight a great battle here. Soon after, his entire body was covered in blood. His hair was disheveled, and he was battered and exhausted, almost dying here.

Peng!

Of course, the two Ape Demons didn't have it easy either. One of them, after being struck by Shi Hao's fist, had its scales fly outwards. Black blood dripped outwards. Its chest was almost blasted through.

The battle was too intense. They actually exchanged over a thousand attacks. This was definitely one of the more vicious battles since Shi Hao emerged into the world. He hadn't fought many battles that comprised of over a thousand moves.

Pu!

Finally, Shi Hao's fist blasted through an Ape Demon's chest, crushing his chest. Then, his right arm trembled, tearing his unbreakable body apart.

A rain of blood erupted. This terrifying creature lost its life.

At this moment, Shi Hao suffered the berserk attacks of the other Ape Demon as well, leaving him heavily injured. His flank was almost torn apart. Blood dripped out from that area.

In addition, the injury by his chest was extremely large as well with bone exposed. Blood flowed outwards.

Peng!

Eventually, Shi Hao and this Ape Demon both suffered with neither side winning. They both collapsed onto the ground and began to pant heavily.

"It's time to end things!" Shi Hao roared. He forcefully gathered a final breath. His right leg brandished about, sweeping towards this Ape Demon.

When things reached this state, even the Ape Demon was scared. It released a howl and struggled up to evade. It fled towards the distance without even turning back.

Peng!

Yun Xi took action. She didn't leave and hid in the darkness. She brought out a precious mirror and smashed it down on the Ape Demon's body, making it cough out large amounts of blood and stagger backwards. It almost fell straight down.

"Kill!" Shi Hao roared loudly and rushed over. With his last bit of strength, his palm descended, removing this Ape Demon's head and ending its life.

Then, he directly fell onto the ground. These two Ape Demons were too powerful, almost making him die here as well.

"It's good that they were killed. If one got away, they might bring other terrifying helpers. That would then be a huge disaster," Yun Xi said.

Shi Hao laughed loudly. He struggled to a seated position and then looked at the two hundred or so stalks of blood soul grass. He felt that this was extremely worth it. If he could eat them all, he would most likely possess that type of world shocking ability.

Chapter 702 - Succeed

Brilliant scarlet radiance swirled about. Shi Hao sat within the field of Blood soul grass, ingesting stalk after stalk. His body was shining like a blood diamond and flowing with a type of mysterious force.

At this moment, his body felt like it was on the verge of splitting apart. Blood shone and his bones released rumbling sounds. It was as if they were on fire. His flesh was about to collapse.

This type of wondrous grass was not suitable for other races. Its medicinal effects were tyrannical, and if one tried to forcefully refine it, the equilibrium vitality of one's body would be broken, and it would explode.

The Blood soul grass' fragrance was incomparably rich. Shi Hao endured the pain and suppressed these types of changes. Every inch of his body shone with primitive bone texts, preventing his body from breaking apart.

Yun Xi stood guard on the side. It was too late for her to say anything now, and the other party was extremely stubborn too, not willing to listen to her warnings.

"What tyrannical medicinal characteristics! Truly powerful." Shi Hao said to himself through clenched teeth. Scarlet multicolored light surged about the surface of his body like an expanse of fiery light. This was a surging of blood energy that ignited his soul.

He continued to suppress his body, sitting here inside the medicinal fragrance. He used all types of powers to subdue his body, preventing his flesh from breaking.

"Can you expel the medicinal properties out? Don't force yourself like this, it's too dangerous!" Yun Xi said.

"Don't worry!" Shi Hao said through clenched teeth. Together with the blood soul grass he ate before, he ingested more than a hundred and fifty stalks.

The surface of his body was bright red like blood. A wave of mysterious power placed his body on the verge of collapse, and this was true for his flesh as well. There was a terrifying demonic attribute power that almost made his body explode.

"Endure!" he was trying to hold on and adapt to these changes.

It was rumored that the Ape Demons would also feel pain when they ate the blood soul grass, but their constitution was special, so they could still completely absorb the medicinal characteristics in the end, allowing their bodies to undergo changes. n.-Ovelb1n

Shi Hao's expression was serious. His body trembled as he sat there. Even a body as powerful as his had this type of reaction, so one could imagine what kind of pain he was feeling.

In the past, there were exceptional talents who devoured more than a hundred stalks of blood soul grass, but they began to cough out blood, and then their flesh began to split apart. Their souls were set aflame.

Meanwhile now, he pushed this limit to a hundred and fifty stalks. It really was shocking.

Bo!

A light sound rang through the air. Shi Hao's shoulder exploded. A blast of blood blossomed, producing a rather terrifying sight. Fortunately, the injury wasn't that large, just the size of an infant's fist. It couldn't be considered a serious injury.

However, this was a sign, and an extremely bad change. Close to where this injury appeared, that arm began to convulse, and then it continuously erupted with blood.

"Suppress!"

Shi Hao roared. His only heavenly passage condensed, suppressing his entire arm. Symbols shone brilliantly and resplendently, stabilizing this injury.

"Are you really trying to imitate the Ape Demon and endure all of the medicinal characteristics to forcefully change your body? You have to know that your constitution is completely different from theirs!" Yun Xi became more and more worried.

"My flesh is even more powerful than an Ape Demons, so why can't I do it? I definitely can." Shi Hao said to himself. However, the corners of his lips were a bit distorted, because it was just too painful.

At this moment, there was the danger of his entire body exploding. A few blood vessels popped onto the surface of his body like snakes and dragons, on the verge of exploding.

Kacha!

This was the case for his bones as well, simply on the verge of breaking. Gabeng gabeng sounds continuously rang out, releasing resplendent radiance in his body.

A wave of secret force appeared on the surface of his flesh, and then it reached into his bones, continuously battering against his body. It made the pain he felt more and more difficult to bear.

Pu!

He coughed out blood. It was incomparably bright and red. In addition, cracks appeared on many areas around his body. His current situation was extremely terrible.

Shi Hao released a grunt. Divine multicolored light circulated and symbols covered him densely. Small cauldrons appeared one after another, flowing within his blood. Then, they released a ringing sound. His body seemed to have transformed into a large cauldron.

This was the enlightenment he achieved in the Spiritual Transformation Realm. His flesh could produce dao bells, cauldrons, divine swords, and other things. At this moment, they formed a cauldron, because it was the most sturdy, using this form to protect his body.

In addition, his flesh-formed cauldron merged with the heavenly passage around him, forming an unmovable entity, effectively preventing his injuries from worsening.

Despite this being the case, Shi Hao's entire body still dripped with blood. He did everything he could to resist and adapt to these changes so that he could absorb the medicinal characteristics.

Two days and two nights later, Shi Hao made it through. The pain he felt began to weaken. He absorbed the mysterious medicinal effects and got used to this type of refinement.

"This... is a miracle!" Yun Xi said.

Shi Hao ate a total of more than a hundred and fifty stalks of blood soul grass, exceeding the record of the past exceptional talents, and he was still unharmed, able to survive.

He silently comprehended. Then, he asked Yun Xi to attack him with symbols so he could examine if it really was effective!

"The magical force attacking me has been weakened!"

Even though it wasn't immunity, it was still quite shocking. During a great confrontation, this was undoubtedly a great help. Weakening the other party's magical force attacks would give him a great advantage.

"It is still not enough..." Shi Hao said to himself. He looked around him, seeing that there were at least another hundred stalks of blood soul grass, but if he continued to eat them, it truly would be too dangerous.

However, he decided to keep going, pushing himself to the limit. He wanted to see how many stalks he could refine.

"A hundred and fifty six, a hundred and fifty seven..."

Shi Hao silently counted. He began to eat the blood soul grass again, using this to challenge himself, wishing to develop the magical force immunity for himself.

Yun Xi had a worried look on her face, but she knew that there was no way of convincing him otherwise. She could only watch silently and protect this benefactor of hers.

A day and night later, Shi Hao increased his total to two hundred stalks, and that was when danger finally appeared. His body began to crack, and his soul shone, as if it was going to be burned away.

He released a low roar. The True Primordial Record was engraved with his mind, and the Ten Thousand Spirit Diagram emerged. He covered his body with the true record's bone texts and the Ten Thousand Spirit Diagram's symbols.

His body was covered in blood, cracking and then healing. This type of medicinal characteristics brought races apart from the Ape Demons great harm after all. It was difficult to endure.

Kacha!

On Shi Hao's chest, a bone broke, sending flesh flying out. It was an extremely frightening sight. In addition, the blood that flowed out didn't land on the ground, but instead burned into nothing in the void. The temperature was extremely high. It was incredibly terrifying.

Yun Xi cried out in alarm. She held the precious mirror, sending a beam of divine light out to stabilize Shi Hao's flesh and prevent the injury from worsening.

"It really is terrifying..." Shi Hao said to himself. His only heavenly passage condensed, almost pressing down against the surface of his body, barely wrapping around him to prevent his flesh from collapsing.

Meanwhile, he used the True record's bone texts and constructed the Ten Thousand Spirit Diagram, displaying their effects in his body. They appeared and suppressed his body.

Just like this, a day and night passed. Shi Hao managed to persevere through, finally stabilizing everything. The burning blood calmed down, and his flesh no longer cracked apart or shone.

"The limit was pushed to two hundred stalks!" Yun Xi didn't know what to say. This was just too shocking! This was a brand new and terrifying record.

This time, Shi Hao didn't act rashly. He sat there to adjust his body, recovering himself to his optimal state.

Half a day later, he began to test the results. He had Yun Xi attack him.

"Success!" Shi Hao was excited. The first attack was ineffective against him, completely neutralized. The magical force was dissolved.

However, this was not true for the second attack. Things were returned to normal. The magical force entered his body.

He sat there, adjusting his breathing and recovered for a period of time. Then, he tested things out again. The results were the same. The first wave of magical force was ignored, unable to break through his defenses, but when the second wave began, it could enter again.

"This..." Yun Xi was shocked. He unexpectedly really obtained this type of ability! It was too heaven defying! If news of this got out, it would definitely leave the great sects shaken.

"So this is all it is capable of. Still unable to reach the Ape Demons' level." Shi Hao said to himself. Despite this being the case, he was still satisfied. Just the first wave of magical force being ineffective was already enough to let him do many things!

"I need to continue eating. Let's see what other effects there will be." Shi Hao's eyes shone brightly.

However, when the two hundred first stalk was eaten, the blood soul grass seemed to be useless for him. It unexpectedly didn't injure his body. The tyrannical medicinal effects didn't present itself.

Just like that, Shi Hao continuously ate them, picking all of the remaining blood soul grass. In total, he refined about two hundred and seventy stalks.

After eating all of these, there really were still some effects, but it wasn't as evident. After Shi Hao conducted one last test, he found that it was still only the first wave of magical force that could be stopped. It was hard for him to have any new breakthroughs.

"This is inconceivable! You actually really obtained this type of ability!" Yun Xi sighed with amazement. Her beautiful eyes released divine multicolored light.

"It's alright I guess. At least there's finally some type of effect." Shi Hao laughed and said.

Then, they left this place and entered the depths of the ancient battlefield, going into hiding. Based on what Yun Xi said, right now, stalling for time was the most important. They had to wait until the Celestial Race's ancient ancestor revived.

Otherwise, it wasn't very realistic for them to make it to Heaven Province alone. The entire Blood Plains were restricted, and it was full of slaughter.

"They're here. They are chasing us again."

Two days later, Shi Hao and Yun Xi raised their heads. They saw that a group of vicious birds were circling about in the air, causing them to release grave expressions. They were still unable to escape them in the end.

It was still the creatures from the Hundred Bird Mercenary Group, and the leaders were still that Golden Crow and Firecloud Sparrow. They flew in circles high up in the skies, and then they headed in this direction.

"This group of demonic birds are too sharp, still able to find us in the end." Shi Hao sighed softly.

They could only continue forward right now. They chose a dangerous place where they could stir up a few true deity level creatures to deal with the Hundred Bird Mercenary Group's creatures.

"Yi, there are two others."

Shi Hao noticed that there was a middle-aged male sitting on the Golden Crow's back, and there was a youngster standing on the Firecloud Sparrow's back. They were currently observing the great earth.

"What race do those two figures belong to?" Shi Hao noticed that there were purple symbols imprints between those creatures brows that were like heavenly eyes. It looked like they could be opened.

Other than this feature, however, they weren't much different from humans.

"War Race, it's them!" Yun Xi's eyes became cold. She knew that of the inheritances attacking the Celestial Race this time, the War Race was definitely the main force, because these two clans opposed each other like water and fire.

"Is the War Race strong?" Shi Hao asked.

"In the archaic era, they were ranked within the ten great races and called the War Emperor Clan. They were extremely glorious, and all those under the heavens respected them," said Yun Xi.

Shi Hao was shocked. To be called an Emperor Race or Clan was definitely an unimaginable glory. Back then, the Celestial Race had six individuals that evolved into unmatched celestials, and only then did they obtain this type of title.

What kind of background did the War Race have back then? Regardless, they were definitely powerful!

"This is not good. They discovered us." Shi Hao frowned. The Hundred Bird Mercenaries weren't known for their fighting prowess, but if it was strictly pursuit, they were definitely one of the best in the Demon Province.

They originally got them off their trail a long time ago, but it was because of this group that they were found again.

"Finally found you." The one that spoke was not the Golden Crow or Firecloud Sparrow, but instead the middle-aged man from the War Race that sat on a vicious bird's back.

"The heaven's mandate stone is on your body?" The other youngster also spoke. His temperament was unordinary. Black hair scattered about. His eyes were bright. He stared at Yun Xi, continuously nodding his head as he did so.

"War Race, you all are playing with fire. When my clan's ancient ancestor revives, you all will have to face the consequences!" Yun Xi said coldly.

"Who can really say what the future holds? Even if that old celestial really does survive, there will still be others to stop him." The young War Race genius smiled and shook his head. He then said, "You already merged with the heaven's mandate stone. If it is forcefully extracted, then that strange stone's effects will sharply decline. It really is a headache inducing matter..."

There was an evil aura to him. The corner of his lips tilted upwards, and a golden radiance flashed in his eyes. "How about you just marry into my War Race?"

"Keep dreaming!" Yun Xi only had these two words for him. Her figure was graceful and her hair soft. Her eyes were quick-witted. Her charm was matchless, as if she was a goddess that walked out from a painting. She was exceptionally beautiful and could move the hearts of many.

"I feel like it's not that bad of a choice. Marrying into my War Race can still be considered an appropriate match." The young man said calmly.

"Capture them." At this moment, the middle-aged man on the Golden Crow's back spoke in an incomparably imposing manner.

"It's good that there aren't any true deities." Shi Hao said to himself. However, this was still quite terrifying. If he faced them head on, he would definitely fall. The other party had too many experts.

However, he had another chance to fight. He wanted to see the extent of this so-called magical force immunity!

"Which one do you want dead?" Shi Hao was quite brash, asking Yun Xi to point at one.

"Not understanding the difference between life and death!" In the skies, the group of vicious birds and two War Race experts all revealed grins of anger.

“Kill the War Race!” Yun Xi said, blurting out without thinking. The two sides had been enemies for many generations.

“Kill us?” The War Race youngster raised his head and roared with laughter. His eyes carried coldness and killing intent. “I won’t kill you and instead bring you back as a wife for my race. The so-called man into sky should just be carried out in my War Race!”

Chapter 703 - Unrivalled Bearing

“Just a toad that wants to eat phoenix meat. Just go somewhere cool if you want to act all cool.” Shi Hao ridiculed, shooting them a look of disdain while standing on this barren earth.

He had one of Yun Xi’s earrings on him, so from a certain perspective, he was quite intimately related to Yun Xi, because for the Celestial Race, that earring contained significant meaning.

The War Race middle-aged expert’s face remained unchanged. He felt that it was below his dignity to argue with Shi Hao, because their race had previously been called the War Emperor Clan, one of the higher realms inheritances’ most distinguished races.

The eyes of the young genius from the War Race became treacherous. “What kind of thing are you? The Celestial Race, War Race are both names that had shaken the three thousand provinces and known as Emperor Clans. The entire world respects us. Even someone like you dares to speak here?”

The Blood Plains were rather desolate. There were all types of ruined weapons and skeletal remains. There was also mists curling about, making this place look terrifying and mysterious.

Shi Hao revealed a slight sneer from his mouth, mocking, “I am nothing much, but in my eyes, someone like you who is the so-called genius of the War Emperor Clan in front of my eyes is nothing more than chicken shit.”

When the War Race youngster heard this, divine light immediately erupted within his eyes. The purple patterns between his brows transformed and glistened brilliantly, becoming the color of blood. Scarlet multicolored light erupted and killing energy surged.

“The heart of an expert should be like steel. How can you let outside influences stir you up? Why is there anger written all over your face? All you have to do is kill him.” The War Race middle-aged man said ruthlessly.

“Understood!” The youngster nodded, recovering his cool. When he looked at Shi Hao again, there was only coldness and swirling killing intent.

“Stop boasting shamelessly already. I’m standing right here, waiting for you all to kill me,” Shi Hao said while looking at the middle-aged man and young War Race genius with contempt. He was purposely provoking them.

“Courting death!” The middle-aged man spat out these two words. He released a large hand that flickered with gemstone like luster and grabbed over.

Shi Hao and Yun Xi shifted sideways at the same time, avoiding this attack.

“This is your so-called heart like steel, unmoving like a mountain? In my opinion, you are just showing off to a disciple. When you really do make a move, it only amounts to this much.” Shi Hao taunted.

Then, he pointed at the experts of the Hundred Bird Mercenary Group. “You birdmen should hurry and come over too. I’m going to stew all of you together!”

In the sky, the group of vicious birds cried out. Feathers shone brilliantly, and many of them were surrounded by divine flames. They were extremely powerful. Ice cold radiance seeped out from their eyes as they stared at him.

“He is just a dead person, there is no reason to pay him any attention. He’ll be dead soon anyway.” The middle-aged War Race expert said. He then looked at Yun Xi. She was the real target this time. If they could capture her and have her marry into the War Race, then that would be for the best. It would be much more meaningful than just killing her.

The young War Race genius understood what the middle-aged man meant. He smiled and said, “The Celestial Race had previously ruled over the world and reigned glorious for an era. If you marry into my War Race, we will definitely send invitations to your clan’s important figures, inviting them to participate. What do you think?”

Yun Xi’s pretty face turned ice cold, and she was fuming with anger inwardly. From her perspective, this was the same as a type of humiliation, and even more so a direct slap to the Celestial Race’s faces. Now that the other party spoke about such a thing, how could she endure this?”

“Help me!” She said softly.

Shi Hao nodded and said, “Don’t worry!”

Even though he was just at the Supreme Expert Realm, he still exuded a type of confidence. There was a smile on his face that flashed his snow white teeth, immediately making Yun Xi calm down. She suddenly felt a sense of security.

“Since none of you dare to take action, then why don’t I come over and kill you all instead.” When he spoke up to here, he had Yun Xi move backwards. He trampled on the void step by step, ascending into the skies.

“You are too arrogant.” Forget about the two War Race experts, not even the Hundred Bird Mercenary Group could endure this any longer.

Originally, they were going to take a few steps back and open up some space for a battle, but now, not a single divine bird backed off. They all stared coldly at him, ready to take action at any moment.

Shi Hao laughed. As he approached this powerful crowd, he stared at the middle-aged War Race expert, and then he looked at the leader of the Hundred Bird Mercenary Group, the Golden Crow. These two experts were his targets.

They just so happened to be together, because the middle-aged War Race expert was sitting on the Golden Crow’s back.

“Haha...” He roared with laughter. Under this close of a distance, he could take action already. Immediately afterwards, his entire body erupted with radiance. Resplendent symbols surged as he rushed forward.

“A little dog that doesn’t know the difference between life and death.” The War Race middle-aged man treated his actions with extreme coldness. Of course, he was on his guard this entire time as well, fearing that the other party had some kind of extreme methods.

However, he believed that strength decided everything. The other party didn’t display any secret treasures and insteads rushed forward in a suicidal manner, so the result was quite obvious. n.-Ovelb1n

Hong!

He sent a palm flying outwards. Symbols swept out like a tide. His hand formed a Little thousand world to surround Shi Hao and then suppress him.

Yi!

Suddenly, he felt as if something wasn’t right. The resplendent symbols circulated about, but unexpectedly failed to injure that youth, and on the contrary, the other party shot straight for him. When he approached the world within the palm, he was unexpectedly completely unhindered!

The divine ability was ineffective!

He quickly discovered what was wrong. The symbols in his large hand became dim, and the world within the palm was destroyed. This youth’s fist smashed over.

In that instant, the youth’s palm collided with his own, and then a string of blood shot high into the air!

Shi Hao packed that fist with as much power as he could. All of his strength erupted. This was a strike that represented the peak of his power!

This fist not only had the Kun Peng technique, it also carried the reincarnation precious technique, and even more so the Lightning Emperor’s divine ability. It all merged together. The divine might was world shocking!

Others might not be able to see through it, but that didn’t mean that this deadly strike wasn’t frightening. The War Race expert cried out loudly. His great hand ruptured, and then crumpled apart inch by inch. A bloody mist pervaded the air.

No one foresaw things would develop like this. The War Race Divine Flame Realm expert’s entire arm was splitting and crumbling apart. Blood was everywhere as it quickly disappeared.

Ah...

He roared towards him and quickly backed up. He was greatly shaken up inwardly. There was unexpectedly a reincarnation force inside of that fist that was ‘corroding’ him, damaging his vitality and making his body functions quickly decline.

He was still a deity in the end with astonishing defensive strength, so his outer appearance didn’t become old.

“No!” He screamed loudly.

A wave of electrical force rushed into his internal organs, and it erupted with berserk destructive force. This was the second type of terrifying symbols.

“You...” He was shocked, because the third type of symbols then appeared, wreaking havoc within his body. It was actually a Kun Peng, leaving him in complete disbelief.

In that instant, he thought of many things. He had also heard that the unmatched Kun Peng technique had landed in the lower realm, and that a youth obtained it.

He wanted to say something, but he didn't have the time to do so, because the deadliest attack arrived.

Shi Hao erupted with power. He formed a fist imprint. It was as if the stars in the sky all moved, terrifying to the extreme. His head of hair flew about chaotically, and his pupils were like a sun as he unleashed a great slaughter.

An attack that relied on his physical strength; this was actually his most tyrannical attack right now!

It was because the War Race expert was, in the end, still a deity. Even though his magical force was ineffective against Shi Hao, he could still defend himself inwardly against the three great precious techniques.

When one's cultivation realm was high, it decided everything.

However, the so called balance was destroyed by Shi Hao's flesh. He formed a fist imprint, and like a heavenly emperor, he attacked ferociously. Each time his fist made contact with flesh, blood would appear.

The War Race expert's symbols were ineffective. When used on Shi Hao's flesh, they were all neutralized, unable to stop him.

This was a true struggle of the flesh. He had no choice!

At this moment, he trembled. Even though he was a deity, his flesh wasn't as powerful as his opponent's. One of his arms had long been blasted to pieces, so right now, he was truly in a difficult situation.

Shi Hao didn't utter a single word as he formed a fist imprint. He was like a divine king that was incomparably terrifying. Every fist drew blood, blasting the War Race expert until both his arms were in tatters.

Pu!

In the end, his fist pierced through the War Race expert's chest. Blood splashed high into the air. It was an incredibly ghastly sight. Then, with a ferocious tremble, his body split apart into pieces!

This all happened too quickly, all in the time it took for sparks to fly off a piece of flint.

“Kill!”

Nearby, those vicious birds shouted. They all attacked, opening their mouths to spit out symbols and kill Shi Hao.

“Martial Uncle!” The War Race youngster was even more shaken. He shouted in alarm.

Peng!

In that instant, Shi Hao stamped down from the sky, forcibly trampling that War Race expert’s head to pieces. Blood and brain matter splattered in all directions.

It was too fast. Who would have expected that a deity would be killed by a Supreme expert in an instant? It was too late to save him even if they wanted to.

Golden light shone resplendently. The Hundred Bird Mercenary Race’s leader, the Golden Crow, spread its wings and roared. Its entire body was covered in symbols and flames that wrapped around Shi Hao to burn him to ashes.

It was because it was extremely close. The War Race expert was right on its back, so its attack immediately landed on Shi Hao’s body.

However, it miscalculated. The symbols were ineffective, and the magical force dispersed in the void, unable to harm Shi Hao.

The attacks of the other vicious birds rushed over as well, but a similar situation appeared.

“I need to seize this moment.” Shi Hao was inwardly anxious. He could only endure a single wave of attacks, because the time frame was short and limited. The magic immunity was about to become ineffective.

Hong!

His foot trampled downwards. He used all of his strength to stamp down on the Golden Crow’s back. It was as if a great mountain crushed downwards.

Ah...

The Golden Crow released a miserable cry. A large bloody hole appeared on its back.

Shi Hao released a roar as well, one that shook heaven and earth. All of the blood essence in his body erupted, and every pore of his body released blood. It was because he was using the greatest strength he could muster to end this battle as quickly as possible.

Peng!

His speed was just too fast. He rushed to the Golden Crow’s neck, and then his arms wrapped around it. Following a ferocious twist, a ka cha sounded. He used a world shaking divine force to twist off the Golden Crow’s neck.

Blood splashed more than ten foot into the air!

This scene was incredibly shocking. All of the vicious birds were stupefied. The Golden Crow was their group's leader, a creature that had lit its divine flame for over a hundred years, yet it unexpectedly had its head removed by this person.

The Golden Crows were definitely a powerful race. Their precious technique was astonishing, and their magical force was up there in the rankings, yet one of them was actually killed like this.

They wanted to save it, but it was too late. Shi Hao pointed at the space between the Golden Crows, and then with a jump, he rushed at the Firecloud Sparrow. It was the vice leader.

"You..."

The Firecloud Sparrow was extremely powerful. Its entire body was covered in crimson symbols. Fiery light surged, burning the void until it became indistinct. It was incomparably shocked! The Golden Crow was unexpectedly killed!

When it saw Shi Hao slaughtering over now, it instinctively felt fear. This youth was simply like a devil king, killing two great experts in the blink of an eye. Could it even defend itself from him?

In this brief moment of hesitation, Shi Hao already arrived. It was greatly alarmed!

"Ah, no!" The War Race youngster on the Firecloud Sparrow's back screamed, his eyes full of fear.

Shi Hao reached out a large hand. With his magical force immunity, he grabbed his neck in one go. As if a great Peng was spreading its wings, he rose into the air. He didn't fight a great battle against the Firecloud Sparrow, because he was out of time.

He quickly swooped down to the great earth, and during this period of time, several pu pu sounds rang through the air. Several Supreme experts of the Hundred Bird Mercenary Group were killed. The Lightning Emperor's divine ability was, after all, a world-shocking precious technique!

Those divine birds had the space between their brows pierced through. Electrical arcs flickered about and blood splashed everywhere as they fell from the sky.

Yun Xi was shocked. This youth was just too valiant and daring, simply like a heavenly deity that was descending onto this world! He was actually weaving between the attacks of deities, killing two great experts while doing so. It left her absolutely stunned.

Chapter 704 - Who Are You?

At that moment, she thought of too much. Her mind was trembling, and she said to herself, "Heaven warping martial talent, there was actually someone so close to this saying, someone who really is this extraordinary..."

The scene before her eyes caused Yun Xi to inadvertently think of that lower realm youth. The two bore a remarkable resemblance. Removing the heads of enemies in an army was incredibly easy. He really did have a heaven warping nature.

Back then, Shi Hao had rebuked heaven and earth in front of the Kun Peng nest. Standing on that dao platform, fighting viciously against experts from all directions. He swept thought everyone around him, and no one was his opponent.

They were all at the Spiritual Transformation realm, but not even supreme experts could kill him!

Meanwhile, the youth in front of her also had this type of temperament, killing deities in such a domineering manner. It was incredibly dazzling. He had an unrivaled confidence, and he naturally exuded divine might.

“Let’s go!”

Shi Hao swooped down. He carried that young genius from the War Race while running towards Yun Xi, bringing her with him to escape.

In the sky, the Firecloud Sparrow was incredibly shocked. This youth could kill their leader and kill that War Race expert, so he was definitely terrifyingly powerful. Why was he now running away?

As for the other vicious birds, they were all stunned as well. That youth’s performance could be considered terrifying to the extreme, simply like a demon. He killed the powerful Golden Crow in an instant.

In addition, he casually killed several other vicious birds as well, leaving them horrified.

“Chase after them!”

The Firecloud Sparrow and other divine birds weren’t normal. They immediately realized the other party didn’t dare to fight continuously, so he likely felt like he couldn’t win.

Soon after, they understood that the other party had a special method, but couldn’t use it for an extended amount of time. He was now no longer as ferocious, so it was a good opportunity to eliminate him.

“I don’t mind killing a few more of you! Those that stop me will all die!” Shi Hao shouted.

His words possessed extraordinary intimidating prowess. A few vicious birds immediately stopped in place, not daring to swoop downwards.

However, the Firecloud Sparrow did not belong to this group. It continued to slaughter over.

Shi Hao sealed the War Race young genius, and then he tossed him into the cauldron. Then, he collected the Golden Crow corpse that was in his way inside as well.

For him, this was a delicacy, and even more so a great flesh medicine.

“You...” The Hundred Bird Mercenaries were furious. The other party killed their Golden Crow leader and even seized its corpse. How could they just let him leave? This was a type of humiliation.

Sou!

Immediately afterwards, they were stupefied. While pulling Yun Xi with him, he displayed the Earth shrinking into inches great divine ability. After rushing out a short distance, he entered the great earth, disappearing beneath the ground and disappearing without a trace.

The group of vicious birds spread their wings, bombarding the ancient battlefield with their most ferocious attacks. They all opened their beaks to shoot out symbols, and some of them even brandished their divine wings to tear apart the great earth.

However, this was completely useless. Even though they tore open the ground, they still couldn't find Shi Hao.

The Earth shrinking into inches technique was the human race's great divine ability, known as having one of the world's greatest speeds. When one grasped it, one could move through the skies above or the earth below. When refined to its limit, one could even travel to the sun or moon, roaming through the universe.

It was to the extent where one could go to the nine heavens above or the nine layers of the underworld. One could roam about the different areas of heaven and earth.

This type of precious technique naturally could enter the earth, carrying out the so-called earth escape. However, Shi Hao hadn't grasped it for that long, so he had just comprehended the earth escape technique. He now displayed it.

The Hundred Bird Mercenary Group's people were furious, but they couldn't do anything about it. Shi Hao and the Celestial Race's young lady entered the ground, thus disappearing without a trace. They were birds, and as such were unsuitable to moving through the earth.

"Next time, bring someone who can use earth movement secret techniques!" The Firecloud Sparrow said hatefully. The losses this time were too severe. It was too difficult to explain things to the delegation head.

Only after a long time had passed did Shi Hao and Yun Xi rush out from underground. They brought an earthen colored haze with them as they emerged on the surface of the ground again.

"The Blood Plains have been locked down by restrictions. Even the underground terrain was affected." Yun Xi frowned. They only traveled eight hundred li, but they were already feeling great strain.

This ancient battlefield covered an area of at least fifty thousand li. They set out towards its depths.

What they needed to do right now was not head for Heaven Province, but instead stall for time and await rescue. Once Celestial Race's ancient ancestor who personally created their ancient glory revived, the situation would completely change.

The old celestial's aura devoured mountains and rivers. In the past, his might trembled the three thousand provinces. His power shocked the higher realms!

This ancient battlefield had many strange things. There were even more specter-like beings roaming about. They needed to be on their guard.

This was especially true after they traveled relatively deeper where even more demonic spirits and others appeared. It was extremely dangerous. Shi Hao's group had avoided several dangerous areas and passed by several True deities. They were careful and prudent.

"Let's get some rest."

Not a single blade of grass grew here. It was quite and noiseless.

Fleeing for their lives should be an extremely bitter and worrying matter, but with Shi Hao here, this wasn't the case at all.

He was full of energy and curiosity towards the ancient battlefield. Right now, his mood was even more excellent as he dealt with that Golden Crow, plucking its feathers, butchering, and cleaning it. His movements were smooth and practiced.

Yun Xi was completely speechless as she watched from the side. This fella's mind really was a bit too unusual, right? After being chased to this point where a True deity might show up at any moment, he even had the nerve to cook a meal.

"It's a good thing I brought so much spiritual spring and condiments. It really is good to be prepared just in case!" Shi Hao said to himself, appearing extremely satisfied.

Soon after, he properly cleaned up the Golden Crow and propped it up. He used his dao flame to start cooking it. He then brought out the bone cauldron to even prepare some soup.

"You..."

When the War Race young genius was tossed out, upon seeing this scene, he was immediately terrified. What kind of scene was this?

The divine level Golden Crow was propped up and roasted to a golden state. Fragrance wafted outwards, and grease continuously trickled downwards, releasing chi chi sounds as it landed on the flames.

How could the War Race young genius not be dumbstruck?

Then, his fine hairs all stood on end. This fella was just too savage! Killing the enemy was one thing, but he was even going to eat it!

"You should start speaking. How many experts did you invite out this time, how many Heavenly deities and True deities? What other mercenary groups are going to appear?" Shi Hao roasted the Golden Crow while casually interrogating him. He wanted to obtain some valuable information.

"I... don't know." The War Race youngster's voice trembled.

"Your mouth is so tight. Could it be that you want me to roast you too?" Shi Hao smiled. His eyes swept over, and a formless pressure immediately crushed down onto this place. However, his hands never stopped, continuing to 'work' at the food.

He brought out some seasoning and scattered it down on the Golden Crow, and then he even more so brought out a jar of honey, smearing it over the Golden Crow's wings that had already been roasted golden. His movements were fast and even somewhat graceful.

The War Race youngster trembled in fear and went stupid. This fella really brought these types of things with him? He had never heard of a cultivator that did something like this. It was just too weird!

Of course, he felt even more fear. What if this person really did decide to roast him too? When this possibility emerged in his mind, he went cold from head to toe, shivering greatly inside.

"I really don't know! After the great figures of our race discussed this matter among themselves, they made their decision. Meanwhile, I am just a younger generation youth with above average aptitude, so how could I learn about this? I just came out with a martial uncle to gain experience!"

He was extremely nervous, and his face was pale white. He responded carefully and cautiously out of fear of angering the devil king in front of him.

It was completely different from his high-spirited and incomparably judgmental attitude. Right now, his heart was full of fear. Even his martial uncle was easily trampled to death, so how could he be this youth's opponent?

"What is the point of keeping you around then? You don't even know anything. Better off just killing you..." Shi Hao said to himself.

"Please, no!" The War Race youngster was so scared he began to tremble. He struggled with everything he had, but he couldn't break through the seal. There was simply no way for him to escape.

"What formidable individuals are there among the War Race's younger generation?" Shi Hao asked. He didn't believe that the so-called genius in front of him represented the most powerful youngsters of this race.

"My race's younger generation has three great war kings. If any of them leave the clan, they would become great and influential individuals. They are powerful to the point of being immeasurable."

Shi Hao nodded. This was what made sense. The glorious War Race was one of the Emperor Clans of the old world, so how could they not have any truly outstanding youth? This person in front of him was just too inferior.

"Your War Race has three war kings that are comparatively outstanding. Why don't they dare call themselves War Emperors?" Shi Hao mocked.

"This... there is a legend that they might exist." The face of the youth in front of him turned white. After some hesitation, he replied like this.

"What?" Shi Hao was shocked. He was just randomly asking, but there was actually this piece of news.

"I don't know whether it really exists, but there has always been a legend that in this world, my War Race might have someone who can obtain the title of young 'War Emperor'."

What did this title represent? It was self-evident.

Shi Hao asked him for the details.

Within the War Race, only the most dazzling disciples that exceeded the youth of past generations could obtain the title of War Emperor.

Since the ancient past, there were only a few individuals from the War Race who were able to obtain the title of War Emperor. It was just too small of a number.

In addition, the past individuals were pretty much all concentrated in the archaic era, and it was precisely them that established the unmatched glory of granting their clan the name of War Emperor Race.

Another War Emperor appeared in this world?!

Shi Hao turned around to look at Yun Xi, finding that she was preoccupied with something. She didn't pay attention to his question and had been watching him roast the Golden Crow the entire time distractedly.

He immediately laughed and said, "Because I like good food, I am often being made fun of by others. It seems like I finally met an intimate friend to share my love with, haha!"

He was extremely happy to find someone that understood him. His smile was bright and radiant. He personally tore off a Golden Crow wing that had honey smeared on it before handing it to Yun Xi, inviting her to have a taste.

Yun Xi's head of purple hair was shiny and soft. Her large eyes were like gemstones, containing a spirituality and radiance. Her fine nose was tall and straight, her red lips small and bright. There was a suffocating type of beauty to her appearance.

When she heard Shi Hao's words, she felt a wave of speechlessness. She wasn't someone who would become an intimate friend like this, she never even had this type of interest. What kind of cultivators acted like this?

The reason she was absent-minded just now was because she thought a few past events. There had been a youth who, in the Hundred Shattering Mountains, had an enormous bag, and inside were pots, ladles, plates, and all types of seasonings. He had been a huge laughingstock at the entrance.

Later on, as expected, that fella was a foodie, eating anything from things that flew in the sky to what ran on the earth, even including the true supreme water. He even bit a person's ear. $n()o--v-.e-/1(-B/-1/-n$

Yun Xi immediately felt a wave of suspicions. Back then, that youth wrestled with her, biting her snow white and sparkling earlobe. Was it for the sake of having a taste, to eat her?"

When her thoughts returned to reality, she accepted the golden roasted wing, watching as it gushed with multicolored brilliance. Spiritual essence poured everywhere. She felt as if this scene was more and more familiar, as if it had all happened before.

Yun Xi gathered her beautiful hair. Her eyes were flowing with radiance as she looked at the youth in front of her. Why did he also have this type of character, this love for food. As well as carrying all types of seasoning with him? It was just too similar to that person!

Moreover, both individuals were extremely self-confident, radiant and dazzling. When fighting a great battle against enemies, they were without any fear. There was a type of 'unrivaled' style to them.

It was too similar!

Yun Xi trembled inwardly. Her expression was a bit distracted as she stared at the youth in front of her. Could it be... the same person? She didn't dare believe this. That person should have been buried in the great wasteland of the lower realm.

However, there was doubt in her heart. She was extremely unwilling to accept this and wanted to test him out. She raised her slim lily-white hands towards SHi Hao's head of pitch-black hair.

At that moment, Yun Xi made an extremely brazen move. That pure white jade hand unexpectedly... grabbed Shi Hao's ear, and then she tugged on it with a bit of force!

"Who are you?" She asked softly with a somewhat alluring voice. She stared into Shi Hao's eyes to peer into his soul.

Chapter 705 - Fooling Around

Shi Hao was stunned. This elegant and beautiful beauty who the younger generation of the Archaic Divine Mountains held as their goddess actually took the initiative to frivolously touch his ear?

Yun Xi's beautiful purple hair fell downwards. Her long eyelashes trembled lightly, and her large eyes moved about. Her sparkling white and charming face blushed, because this action really was a bit too daring.

Shi Hao quickly responded, and extremely naturally, he reached out an arm to grab Yun Xi's small waist, pulling her closer. He could smell an extremely heart moving fragrance.

His movements were smooth and easy like that of an experienced individual. He carried this unmatched beauty in his arms, and then he tilted up her chin to stare into her eyes with an extremely concentrated expression.

Yun Xi's face immediately became red. Her peerless beauty carried humiliation and anger. She felt that no matter how she looked at it, this fella looked like someone who was going to take liberties with her.

However, she felt that this was her fault as well, because her movements seemed to exude a rather ambiguous signal, as if she was trying to entice him.

Only, this fella was too fast, acting without any delay and extremely naturally. Just like that, her soft and beautiful waist was wrapped around. His arms were warm and forceful.

Shi Hao supported her beautiful chin, and then while acting like a profound thinker, he said, "I must thank the heavens for our meeting. This is a heaven decided predestined affinity."

Yun Xi immediately felt light-headed. What in the world was going on?!

She felt like the misunderstanding was going too far. This wasn't that person, and she was imagining the wildest things. This fella was too smug, and his smile was a bit lowly.

He was clearly fooling around with her. His movements were so practiced, it was clear that this was not some good person. It made her embarrassed, angry, and incredibly regretful.

Pa!

Yun Xi quickly slapped away Shi Hao's hand that was supporting her chin. She didn't want to be harrassed like this. This type of position was too intimate.

Even though this person saved her life, he still couldn't 'act randomly'.

"Don't be so doubtful. Our meeting in the Blood Plains was definitely the heavens' arrangement." Shi Hao held her long and slender body, feeling a sense of softness, as well as a delicate fragrance only young girls had. He had a completely undaunted appearance.

"I thought you were someone else!" Yun Xi was humiliated and angry. She struggled fiercely, slapping at that hand to make him let go.

She was extremely beautiful. Her purple hair scattered downwards, shiny like silk fabric. Her large eyes were like limpid autumn waters. At this moment, she wrinkled her nose. This type of annoyed appearance had its own type of charm that would leave others stupefied.

Shi Hao didn't let go, continuing to hold her small waist. His other hand reached towards her beautiful hair, and then it lightly touched her beautiful ear.

Yun Xi was greatly alarmed. This fella's movements were too fast and unbridled! He was actually so daring! She quickly moved out of the way.

Even though she could only blame herself, suspecting that the person from the lower realm didn't die, which lead to this type of impulsive test, the results really were too terrible.

"You..." Yun Xi retreated backwards, but her body trembled, almost like a spasm.

It was because this bastard unexpectedly pinched her soft ear, and his thumb and forefinger were softly moving about. They then tugged at her ear, leaving her shocked, her face red with humiliation. Her body more so jerked as if it had been shocked by electricity.

Hong!

Yun Xi truly couldn't endure this any more. Even though this was her life saving benefactor, he wasn't allowed to act so randomly. Her entire body erupted with symbols to blast Shi Hao back.

However, the unexpected happened. The powerful precious technique and resplendent symbols were completely useless against Shi Hao's body. They all disappeared into nothing.

Yun Xi was shocked, and then she realized what had happened. This damn... magical force immunity!

At this critical moment, the strange ability the other party obtained automatically activated, defending against the symbols and ruining her symbols and magical force. When it activated just now, it truly left her between laughter and tears. She felt that this was a bit absurd, but at the same time she was embarrassed to the extreme.

"Let go!" Her face was extremely red as she shouted in a low voice.

Shi Hao was confused. While carrying her slender waist, he asked, "Why?"

Yun Xi was going mad. He was still asking why? This was definitely done on purpose! However, after thinking about her own 'recklessness' and almost intentional 'provocation', she then felt a bit in the wrong.

"You misunderstood!" Her body was extremely fine. At this moment, it erupted with multicolored light. Her body was pure white and sparkling, holy and otherworldly. There was an inviolable charm to her, as if she was a goddess that fell into the world of mortals.

Shi Hao's smile was brilliant. As if he obtained some type of inspiration, he tugged at her sparkling ear, and then in the end, he let her go and said, "Alright, a beautiful misunderstanding. I hope next time, it is even more dazzling."

What next time? Yun Xi had the urge to grind her teeth, to bite him!

"I thought you were someone else. You are extremely similar to an old friend of mine." Yun Xi explained. She calmed herself down and fixed her beautiful hair. She then backed up more than ten steps, truly fearing that he would bear hug her again.

"Where is he? Is he my rival in love? Tell him to bring it on! I will definitely defeat him with a single slap!" Shi Hao acted cockily.

Yun Xi was speechless. Her impression of this youth when they first met was incredibly good, but after associating with him more and more, she found that this fella really was too much!

"He already died in the lower realm."

"That really is a rather sorrowful thing. However, don't you feel that our meeting and travel together have made things more interesting?" Shi Hao laughed and said.

Yun Xi turned around. If this was not her life saving benefactor, she would have definitely showed him her expression.

"I feel that we..." Just when Shi Hao was going to say something, he was directly cut off by Yun Xi. Her pearly white teeth grinding together as she said with great anger, "We should go on our way!"

"Sigh, it truly makes one feel sad." Shi Hao shook his head. He grabbed a Golden Crow wing and then began to feast on it. His entire mouth flowed with divine multicolored light. Rich fragrance wafted through the air.

He also hinted for Yun Xi to go ahead and not be too polite.

"You are so powerful, why are you... just a foodie?!" Yun Xi truly couldn't hold herself back and spoke like this.

However, when she saw the shining Golden Crow wing in her hand, she also felt some appetite. This was the wing of a deity, yet it was so extravagantly roasted as meat. It really made one's hair stand up in anger.

In the end, she didn't hold herself back and took a small bite. The fresh and tender Golden Crow meat melted in her mouth, the fragrance greatly stirring on her appetite. It also erupted with auspicious multicolored radiance.

It was because there was just too much innate essence contained within this flesh. It was a great flesh medicine.

"Hey, you've watched for long enough already. Is there something you want to say?" Shi Hao chewed on the Golden Crow wing while staring at the War Race young expert.

"I..." The War Race youngster opened his mouth, but he didn't know what was proper to say. He cursed silently. This fella failed in trying to toy with the Celestial Race beauty and was now taking it out on him. It was just too disgraceful!

Shi Hao opened a jar of wine and hinted towards Yun Xi, inviting her to drink.

"I won't drink." Yun Xi shook her head.

"It truly makes one laden with grief..." Shi Hao said. He gulped down the alcohol, and then he ate large mouthfuls of the Golden Crow meat. Soon after, his body erupted with dazzling radiance. **Lb.1n**

This was the embodiment of the innate essence being too rich. He sat down and began to refine the food, treating a few of the injuries left over from before to quickly recover himself to his peak state.

His appearance was majestic. Every inch of his flesh released divine multicolored light that was brilliant like immortal gold. His flesh was perfect and powerful to the extreme.

"Let's go." When he stood up again, Shi Hao recovered his calm exterior. He looked at Yun Xi and then called out to her for them to continue moving.

"I'm sorry. Before, I mistook you for someone else..." Yun Xi explained.

"Don't you feel that this meeting is quite amazing? We can run into each other, encounter each other, but cannot miss this chance." Shi Hao seriously said.

"You... really don't have any sense of shame!" Yun Xi was annoyed.

"Alright, let's go on our way!" After speaking up to this point, Shi Hao turned around in an unhurried manner. He then pointed outwards, killing War Race's young expert before walking into the depths of the battlefield.

At this moment, he recovered his decisiveness, no longer acting frivolously. There was an oppressive and heroic nature to his appearance.

Yun Xi stared blankly for a moment. She always felt that this person was rather strange. She seemed to have heard a sigh, one that contained a bit of regret.

Shi Hao walked forward with large steps. He thought of many things, but in the end, he still didn't reveal his identity. He only sighed inwardly.

It was because he knew that Yun Xi's identity was now extremely great. After merging with the heaven's mandate stone, in the future, she would evolve to the peak, truly displaying the man to heaven effect!

Once she returned to the Celestial Race, there would definitely be a heavenly deity there to instruct her, to the extent where the old celestial that had contributed to their clan's archaic era glory would personally pass various secret methods to her.

This type of woman was someone the entire Celestial Race would dote on, not wishing for anything unexpected to happen to her. They would definitely protect her strictly.

If Shi Hao spoke about his identity and Yun Xi found out, then she definitely couldn't hide it. There wouldn't be many secrets left, because that old celestial was incredibly powerful, able to find out everything in an instant.

It was to the extent where just by associating with heavenly deities, they could find out. Those individuals' divine senses were too powerful. Since they were going to teach her cultivation and help her refine her divinity, how could anything remain a secret?

Shi Hao experienced too much. Even though he didn't harbor ill intentions, he knew that human nature was complex. Even though he saved Yun Xi, if others learned of his true identity, accidents would still happen.

He had unmatched precious techniques on him that would make any clan's eyes turn red with greed.

For the sake of leaving a path out for himself, as well as to prevent Yun Xi from falling into a dilemma, he couldn't expose his identity. He had to wait until some day in the future.

"In the end, it is still because my strength isn't great enough. If I could become a heavenly deity, I wouldn't fear so many things either! I would be able to move unhindered through the world. Would there be a need to think about all of these things?!"

When Yun Xi heard this strange light sigh, she felt a bit confused. Why would he suddenly start talking to himself?

"Yun Xi, what kind of conditions does the Celestial Race have for marriage?" Shi Hao put away his grave appearance and began to laugh again.

Yun Xi was stupefied. What exactly was this fella thinking? The changes were too sudden to the extent where she was a bit lost.

"What are you trying to say?" She asked while taking a few steps back.

"If I go to your Celestial Race and ask for marriage, do you think I'll have to live with the wife's family? I really don't want that!" Shi Hao said while laughing.

"What are you randomly spouting!" Yun Xi's face went red. She stared at him hatefully. This fella truly left others feeling without choice, shooting his mouth like this.

"Yun Xi, let's travel the world together. How boring is it to return to the clan? Cultivating in one place bitterly is too dry and dull. True experts need to roam the world and produce accomplishments through battle," Shi Hao urged.

Yun Xi directly shook her head. She felt that this fella was too ridiculous. Was he playing with her again?

"Sigh, the number one expert since the beginning of time is right in front of you, but you aren't asking him for guidance. You will regret it you know?"

Yun Xi immediately laughed after hearing this. "Are you willing to join my Celestial Race? With your aptitude, you can study under a heavenly deity. Your future accomplishments will be limitless."

"What is so great about a heavenly deity?" Shi Hao shot out a look of contempt. "I fear that if I go, the entire Celestial Race will be startled and make things difficult for me."

"You really are narcissistic!" Yun Xi couldn't take it any longer. She rolled her eyes.

"The so-called great ten races of the higher realms were just glorious times of the past. The man in front of you will definitely rise up, becoming an Emperor Clan himself, becoming a Heavenly Emperor by relying on himself. You should not miss out on this opportunity!" Shi Hao teased.

Chapter 706 - Golden Bodhi Fruit

Yun Xi felt that this person was too narcissistic, and that his skin was especially thick. She had never met someone like this in the higher realms before.

"Even though you saved my life, it is still impossible for there to be anything between us." She worded her words carefully, expressing what she meant and turning him down tactfully.

"It really makes one sad. If you miss out on this chance, it might be many, many years before we meet again. By then, the blue sea will have turned into mulberry fields." Shi Hao shook his head.

"What are you randomly speaking about? Hurry up and go. Our pursuers are about to arrive," Yun Xi said. She didn't want to continue discussing this. Anything went for this youth, and he was always blabbing nonsense.

The ancient battlefield was extremely vast. Strand after strand of scarlet mists curled about. Rumors had it that this was a bloody mist formed from the deaths of demonic gods in the past.

The ground was hard and dry without any plant life. They could see all types of skeletal remains, golden, white, and black ones. Even after tens of thousands of years had passed, they were still glowing with luster.

The two continued forward, continuously changing directions along the way. It was because they discovered extremely shocking creatures that were at least at the level of True deities. They made a detour around their territories.

"So fragrant!" Shi Hao's nose moved. His five senses were sharp and his divine awareness extraordinary. He immediately detected an orchid like fragrance.

Soon after, Yun Xi also smelled it, and she couldn't help but feel moved. She had a feeling that this might be a mature heavenly treasure.

The two looked at each other, and then they restrained their auras before carefully proceeding. Soon after, they arrived in a forest. They revealed looks of surprise.

It was because through the mists, golden radiance blossomed from the depths of the forest. It was as if a golden flame was jumping about, scattering the mist.

After arriving here, they found that the fragrance was becoming richer and richer. It penetrated deeply into their hearts, making them feel intoxicated.

“What is that?” Shi Hao was moved inwardly. For there to be this kind of medicinal fragrance in such a barren battlefield was definitely unusual.

Both him and Yun Xi closed their pores, eliminating traces of their existence. Not a bit of vitality leaked outwards, and then they silently made their way through the forest towards that place.

A mountain stretched across this place. Mists surrounded this place, and a baleful aura was released that made one’s fine hairs stand on end.

“This is... a bone mountain?!” Yun Xi was inwardly shocked. A chill crept down her back.

Shi Hao narrowed his eyes, and then his heart also jumped. This place was unusual after all! In front of the forest was a bone mountain several thousand zhang in height. Black clouds swirled about it, and the baleful aura was oppressive.

There was an intangible sense of majesticness to its appearance that made one feel suffocated in its presence.

The bone mountain was peaceful. It was made of all types of skeletons, including those of the Golden Giant, Flood Dragons, and human remains. They were tightly packed together into this mountain.

This was definitely not some good place. As soon as they reached this place, they felt a bone chilling coldness.

Meanwhile, the fragrance came precisely from this bone mountain. There was a golden expanse there with a golden flame jumping about. A rich fragrance entered their mouths and noses, making them feel intoxicated.

The two gave each other a look. They became even more careful. This place was extremely sinister. If they encountered a true deity here, then it would be extremely troublesome.

When they walked out from one side of the forest, they made a long detour around the bone mountain, and then arrived in this place. What they saw made their minds jump.

There was a small tree about half a meter in height. It had three branches that were covered in golden leaves. However, they seemed a bit dim, and the tree itself was about to wither away as well.

Between the branches was a golden fruit the size of a fist that was releasing a fragrance. It released a blazing radiance, the golden light it released resembling a pulsing flame.

Heavenly treasure!

This was definitely an extraordinary fruit. They could tell with a single look, because it was too different.

“What kind of wondrous medicine is this?” Shi Hao thought out loud.

"I think I know what it is. This might be the legendary Golden Bodhi fruit," Yun Xi said.

The fruit was ripe, but the small tree was about to wither. It was because it had exhausted its spiritual essence, all for the sake of producing this Golden Bodhi fruit, concentrating all of its essence.

"Golden Bodhi fruit is the holy object countless times more precious than the Blood soul grass?" Shi Hao was shocked.

"Correct, this should be it." Yun Xi nodded.

There were a few special medicinal herbs in these Blood Plains that were incredibly precious. There was no need to talk about the Blood soul grass, something explorers loved. If they brought out a few stalks, they could be sold for extremely high prices.

As for the Golden Bodhi fruit, that was something that could be stumbled upon but not begged for. It was too rare, and it was difficult to pick as well, because they were all in the most dangerous places with powerful creatures protecting them.

Rumors had it that this thing similarly couldn't be eaten alone, as it will result in one's self exploding. The medicinal fragrance was too intense, making it even more dangerous than the Blood soul grass.

"You said before that the Ape Demons could walk the path of extreme body refinement mainly because they could eat the Blood soul grass and Golden Bodhi fruit, so the other was this thing?" Shi Hao asked.

"Normally, the Ape Demons will only be able to eat Blood soul grass. If they are able to eat the Golden Bodhi fruit, because the latter is countless times more precious than the former, the Ape Demons will become Vajra Demons after ingesting it. They will become another type of creature," Yun Xi said.

"There is this type of saying?" Shi Hao was shocked.

Yun Xi nodded, revealing a serious expression.

Based on what she said, this type of fruit was rare throughout the world and extremely precious. It was a true heavenly treasure. Countless people wished to purchase them in the outside world, yet are unable to satisfy their wishes.

When refined with other spiritual medicines, the leftover essence could strengthen one's soul. It was much more powerful than the Blood soul grass.

Of course, it could even strengthen one's magical force a step further and carry out a type of consolidation!

Similarly, it was incredibly dangerous when forcefully devoured, directly blasting one's body to pieces and burning their flesh to ashes. Nothing would be left behind.

"Rare precious medicine!" Shi Hao licked his lips. His eyes shone with multicolored light.

Yun Xi was given a fright. She carefully warned him that this fruit definitely couldn't be randomly eaten, or else he would definitely die. Apart from a select few races, no one else could absorb its medicinal characteristics.

The two silently observed the surroundings, looking for other creatures. They felt that this heavenly treasure definitely had some terrifying creature protecting it.

"There doesn't seem to be any..." Yun Xi was shocked.

"No, look there." Shi Hao pointed below the foot of the mountain.

"A skeleton." Yun Xi's mind jumped.

One wouldn't notice it at all without paying close attention, mistaking it for a part of this bone mountain. It was because that place was full of bones.

This skeleton was entirely snow-white without any trace of life. It silently sat there, and not a bit of life aura could be felt from it. If not for the bone blade on its knees, one would definitely overlook it.

Shi Hao sized it up, watching it from the darkness. Then, his mind jumped. He felt that there was a flame burning within that skull. Once this flame erupted, it would make heaven fall and earth collapse.

Yun Xi's expression immediately changed. This powerful creature was definitely not something they could provoke. They were definitely not its opponent.

"What a pity. If we could bring this fruit out, it will be enough to exchange for an extremely powerful divine ability." Yun Xi pointed out its value again. **no 17E-Lb.1n**

"It seems like its value truly exceeds what I thought." Shi Hao said.

"If it is refined, the Blood soul gras can nourish one's soul, but this Golden Bodhi fruit's medicinal effects are even more extraordinary, able to directly increase the strength of one's divine senses. You can imagine what kind of effects that will bring!"

Shi Hao sucked in a cold breath of air. Something that could strengthen his soul by a large amount was definitely a priceless great medicine! His eyes began to burn even more fiercely. He had to obtain this.

"I have to think of a way..." He said to himself softly.

"Fortunately, this is a bone deity and not an Ape Demon. It is not suited to eating food, so it shouldn't care too much about this fruit," Yun Xi said.

"Then that's perfect!" Shi Hao became excited.

"It's quite strange. It is just a bone deity, so it might not be enough to protect this Golden Bodhi fruit, so how did this small tree grow until now?" Yun Xi was confused.

"Even a true deity isn't enough to protect this Golden Bodhi fruit?" Shi Hao was shocked.

"Correct. The Golden Bodhi fruit is too precious. Once news of it gets out, it will trigger a huge war." Yun Xi said with a grave expression.

Shi Hao carefully observed the surroundings, but he didn't find another creature. He was a bit doubtful inwardly. Only when he raised his head again and sized up the entire bone mountain was he shaken up.

"Something's not right. Yun Xi, look, isn't this bone mountain's state quite unusual?"

“This is... an enormous grave!” Yun Xi was terrified.

Upon closer inspection, they found that the several thousand zhang tall bone mountain was too similar to a tomb. It made one tremble with fear.

Meanwhile, that snow white skeleton looked quite similar to a grave guard. The blade rested on its knees as it protected this place.

“A great vicious land!”

The two looked at each other, and then they silently retreated. Even Shi Hao’s magic immunity was limited. If there was too much of a difference in cultivation realms, there will definitely be some dangers.

“Perhaps obtaining the golden bodhi fruit will allow me to strengthen this ability.” He was quite hopeful.

They didn’t act recklessly, instead choosing to retreat outwards. They prepared to find some scapegoats. It would be best if they could lead their pursuers here.

However, when they wanted their pursuers to come, they never did. They waited for half a day and laid down many formations, but no enemies came.

Only after two days had passed did traces of their enemy appear.

In the distant skies, several dozen birds flew over in great numbers. It was a rather spectacular sight. There were many birds that ignited their divine flames, and one of them was especially resplendent.

“Firecloud Sparrow has someone sitting on its back, he... is a true deity!” Shi Hao narrowed his eyes, feeling that things were a bit bad.

“He is formed from a Dragon Sparrow, the delegation head of the Hundred Bird Mercenary Group.” Yun Xi recognized his identity.

Apart from this, there were a man and woman on the backs of vicious birds behind him. Their auras were terrifying, and divine flames surged around them. There was a purple symbol imprint between their brows. They were two True deities from the War Race.

Shi Hao sucked in a cold breath of air. Three True deities had arrived. How were they supposed to stop them? If they really were discovered, they would undoubtedly die!

Fortunately, they arranged many formations and were currently hidden within them, not being detected.

“Go!”

They definitely couldn’t hide in here. They had to immediately withdraw, or else they would die tragically.

Shi Hao pulled Yun Xi over, and then with the Earth shrinking into inches great divine ability, he entered the earth and went into hiding.

It was because everything had already been properly set up, with a trail leading the experts right to that bone mountain.

As soon as they arrived there, even if those experts didn't find the two of them, they would still definitely take action. It was because after discovering the golden bodhi fruit, any creatures would find it difficult to calm down.

Even if they knew that it was dangerous, they would still try to obtain it. That was just how human nature was, because the Golden Bodhi fruit was too valuable. It could greatly strengthen one's divine senses! How heaven defying was this?

From a certain perspective, the soul was even more mysterious than the flesh. If one had a chance to strengthen it, then it was the same as undergoing a qualitative improvement. Who wouldn't be tempted?

"This... we actually encountered the legendary divine fruit!" Soon after, the Hundred Bird Mercenary Group arrived, and they also saw the golden fruit. It was hard for them to calm down.

The three True deities were all moved. Their divine senses swept through this place. Even though they felt that this place was odd, they still decisively took action, each reaching out a large hand towards the ground.

Chapter 707 - Heavenly Deity

The bone mountain was several thousand zhang in height. The Golden Bodhi fruit shone at the base of the mountain.

Three large hands reached down from midair, neither of them willing to let the other obtain it. When faced with this heavenly treasure, such a rare divine fruit, the three great True deities all wanted to take it for themselves.

In addition, during this process, the three palms had a secret force swirling about them. They released blinding symbols to compare in power.

Kacha!

Lightning appeared in the void. The laws of True deities appeared, interweaving in the void like chains. They sparkled with radiance, and any one of them was enough to remove a mountain peak and collapse the great earth.

Xiu!

Suddenly, a streak of white light tore through the air, hacking apart all of the divine chains of order. It then closed in on the three large hands.

This was a bone blade that was spotlessly white like jade and incomparably sharp. It unexpectedly startled the three great True deities, and they quickly retreated. One of the three was a bit slower, and as a result, drops of blood scattered out from his palms and fingers.

A blade streaked across the void!

“The three of you invade into my territory and wish to obtain the Golden Bodhi fruit. Do you all have nothing to say?” Underneath the bone mountain, that snow white skeleton revived. It continued to sit there, but there was a flame that released light glowing through its sockets.

Hong!

In addition, in the next moment, his head shone. A majestic wave of soul force erupted. It was like a sea as it engulfed the ancient battlefield.

This was a powerful creature. Even though it didn’t have flesh, it had reached the True deity domain for many years. It reached great heights in its cultivation. There were mysterious symbols engraved all over its skeleton.

In the sky, the three deities narrowed their eyes. They felt that this was a powerful opponent that was incredibly difficult to deal with.

The Firecloud Sparrow and the group of vicious birds all backed up. They felt a tremendous pressure. The power of True deities made them tremble. There was a suffocating type of feeling.

“Dao friend, what kind of requirements do you have? This Golden Bodhi fruit should be useless to you.” The Hundred Bird Mercenary Group’s delegation head spoke. He was a Dragon Sparrow, but was currently in human form. A head of red hair scattered down. His face was handsome, and his eyebrows reached his temples. His eyes were bright and full of expression. His entire body gave off a powerful feeling!

“Even though it is useless to me, I can use it to exchange for divine treasures,” said the bone deity. It was not an Ape Demon, unable to directly ingest the Golden Bodhi fruit. In addition, it wasn’t familiar with medicine refinement, unable to refine a portion of its essence like other great clans.

The War clan’s male and female pair looked at each other. The male said, “We come from the War Race. Our clan does not lack secret treasures. If dao friend wants something, you can discuss it with us.”

At this level, if a battle could be avoided, then that was best. After all, they were all True deities, and if they really did fight it out, no one could say for sure that something unexpected wouldn’t happen.

“I wish to obtain a divine lotus that can help me pass a tribulation.” The bone deity said calmly.

The three individuals’ expressions immediately changed. The other party was asking for something that they couldn’t fulfill. That was a legendary ancient holy medicine, so how could they obtain something like that themselves?

Tribulation passing divine lotus could allow one to undergo rebirth and recreate flesh. It could also help one pass through a bottleneck and enter the next great cultivation realm.

That kind of thing, forget about them, it was something not even a heavenly deity could obtain. The first was that there weren’t many, and the second was that it was too valuable.

Who didn’t want to reach a higher cultivation realm? As long as they could obtain it, they could cross the checkpoint and even reconstruct their flesh, further perfecting it.

It was clear that this snow-white skeleton wanted to recreate his flesh, as well as break through its current cultivation realm. It wished to undergo rebirth, emerging from the flames as a deity anew.

"Dao brother, you are forcing others. The Golden Bodhi fruit is not worth that much," said the War Race woman. Her beautiful thick hair was coiled up high with a golden ornament inserted at the center. Even though she was close to middle-age, her skin was still snow white and her eyes clear. Her aura was outstanding, exuding a sense of elegance and nobility.

"Then that's that. I do not have any other desires." The bone deity said indifferently, a look of losing interest.

The three True deities didn't immediately say anything, all of them remaining silent. The atmosphere immediately became heavier.

"Daoist brother, making things easier for others will bring convenience onto yourself as well. This Golden Bodhi fruit is useless to you, so why don't you just hand it over to us? We can compensate you with secret treasures, divine weapons, and other things," said the Dragon Sparrow.

"I do not need those. A single blade in my hand is enough." A soul flame burned extremely powerfully within the skeleton's eye sockets. His entire head became as brilliant as jade.

"Dao friend, there is no need to be so stubborn. Both of us are cultivators, and amiable relations are what is long lasting. Disputes will lead towards disaster and calamity." The War Race middle-aged man advised.

"Are you all threatening me?" The bone deity sat there. The bone blade on its knees trembled, releasing keng qiang sounds. There was immediately a wave of biting cold killing intent that spread outwards.

The scene immediately entered a deadlock. The bone deity was extremely unyielding, while it was impossible for the three True deities to back off. They wanted the Golden Bodhi fruit badly, because it was too useful for them.

"Daoist brother, have you seen a male and female roaming about here?" The War Race's middle-aged woman spoke, wishing to alleviate the atmosphere.

"I have sensed something, but I didn't pay too much attention to them." The bone deity spoke, its voice concise.

The three great experts looked at each other. Then, their bodies shone, each of them producing a spiritual body and they displayed secret methods to search about this ancient place.

"You all should leave. If there is no tribulation crossing divine lotus, I do not wish to exchange the Golden Bodhi fruit." The bone deity gave them a look.

"Then you will just have to excuse our rudeness!" The three deities moved together, turning into three streaks of lightning as they slaughtered over.

"Behaving atrociously in my domain, just give it a try!" The bone deity spoke. With a qiang sound, it raised its spotlessly white bone blade and hacked it towards the three experts.

A great battle erupted!

This was an intense battle between true deities. Shockwaves spread out everywhere, and symbols covered every inch of this place, creating a destructive power that made was utterly terrifying.

In the distance, the Firecloud Sparrow and Hundred Bird Mercenary Group shivered in fear. They backed up again, staying far away from this battlefield. They didn't have the qualifications to participate in this battle at all. The difference between them was just too great.

There were three other figures in the distance that displayed their body techniques. They moved about quickly, each heading in a different direction and disappearing into the horizon. They were precisely the three great True deities' spiritual bodies.

The War Race woman brought out a secret treasure, a rusted copper mirror. She opened her mouth and spat out a mouthful of spiritual energy, and as a result, the mirror shone. It unexpectedly produced the scene from not too long ago. She saw Shi Hao and Yun Xi's figures.

"The time mirror really is an unmatched supreme treasure. Even though it is just an ordinary object, it can still have such miraculous effects." She said softly to herself.

Their figures swayed, disappearing underground. She chased after the two, because she already knew where the two fled to.

Deep underground, a hong sounded. Formations exploded, and the great earth collapsed. A great earthquake occurred.

"Not good, someone chased down here, discovering our traces!" Shi Hao was shocked. The formation he had set up beforehand was destroyed.

"True deity!" Yun Xi's expression changed. This level of expert was definitely not someone they could deal with.

"Change locations." Shi Hao quickly made this decision.

"Are you going towards that bone mountain?" Yun Xi immediately understood his intentions. He was desperately trying to find a way out of this impasse.

Now that a True deity appeared, the two of them were definitely not her opponent. That bone tomb was definitely strange, so perhaps it could stop this enemy.

Shi Hao displayed the earth escape technique, quickly arriving below the bone mountain. As soon as he approached this place, he saw an expanse of dark light that pulsed about.

That place was extremely mysterious. There was a dense mist here, as well as a black flame that was throbbing about that unexpectedly prevented them from passing through. It was unknown what laid here.

Shi Hao secretly used the dual pupil to observe it, and then his mind was shaken. There was an enormous blood pond here that was several dozen li in distance. Bright red blood surged like an ocean wave.

Upon seeing this scene, he felt his scalp going numb. This was definitely not some good place.

In addition, when looking through the dual-pupil, he discovered that there was an enormous creature in the blood pond. The aura it exuded made one's heart pound fiercely and soul tremble.

"How terrifying. There is a blood pond below the great pool, and there is a creature here, yet a true deity is actually willing to serve as a gravekeeper." He quickly stopped his advance, and then he slowly closed in on the black flame.

"Yun Xi, you should hide first." He had Yun Xi hide in the purple bone cauldron.

Then, he carefully tested things out, entering the dark light step by step. He noticed that it didn't harm his body, and then he hid himself too.

The War Race's middle-aged woman searched about, arriving in this place with the 'Time mirror' in hand. While carrying cold killing intent, she quickly revealed a look of shock. The Time mirror unexpectedly lost effectiveness when it shone towards the dark light.

Shi Hao could see everything clearly from his hiding spot. He couldn't help but be shocked. It turns out the other party had this type of secret treasure that enabled her to find this place.

"The two of you can enter this place, so how could I not?" The woman held the Time mirror in hand, and then while on her guard, entered the dark light, closing in on the blood pool.

Shi Hao was a bit nervous, not because the woman was getting closer to this place, but because he was about to take a huge risk by attacking the blood pond!

This will definitely produce a series of terrifying after effects. Not only might this place turn into a place of destruction, it would also affect the great battle on the surface. Whose hands the Golden Bodhi fruit would fall into would most likely be decided as well.

The War Race woman was stupefied. Even though she was a True deity, when she saw this blood pool, she still couldn't help but feel shocked. She said to herself in horror, "Heavenly deity rebirth?"

Hong!

Right at that moment, Shi Hao moved. He released several enormous streaks of lightning, and all of them hacked into the blood pool. Then, without even turning back, he fled, using the Earth withdrawal great divine ability to quickly leave this place.

Blood waves rushed into the heavens. A terrifying wave of energy erupted, instantly engulfing everything. Scarlet multicolored light surged within the blood pond; it was as if the world was being opened.

The War Race's middle-aged woman was horrified. She encountered this scene as soon as she arrived. The precious mirror in front of her body shone, blocking the attacks of this place. She quickly flew backwards.

Kacha!

The Time mirror shattered, and her entire body flew out horizontally. She coughed out large mouthfuls of blood, and then without even turning around, she fled, directly rushing to the surface.

A crazy wave of energy shook the entire earth. Blood colored mists pervaded the air, shaking the heavens. The individuals fighting the great battle on the surface were shocked. Then, that bone deity went berserk.

“You all are courting death, actually daring to disturb the great one!”

It was furious. Even though it was by itself, it wasn’t at a disadvantage when fighting these three great True deities. Even though its cultivation realm wasn’t higher, it was still about to break through its cultivation realm.

Chi!

The bone blade it held was incomparably sharp. It erupted with endless symbols, hacking open the void. With a pu sound, a terrifying wound was opened up in the Dragon Sparrow’s body. Blood splashed outwards.

“Things aren’t looking good. We should quickly retreat.”

The Dragon Sparrow, and War Race’s two great experts had a bad feeling. A powerful domain was quickly spreading from underground that made their hearts pound. They felt extremely uneasy.

The bone deity was also quite troublesome and difficult to defeat.

“Go!”

They felt fear inside. The scene was too terrifying, quite possibly locking them down here. They couldn’t care about the Golden Bodhi fruit anymore and all fled into the distance.

The bone deity’s eyes were cold. It stared deeply at them, and then without worrying about anything else, it rushed directly into the bone tomb!

At this moment, Shi Hao was currently rushing towards the surface, charging towards the Golden Bodhi tree to pick its fruit. It was because he had a feeling that a string of unforeseeable events was going to happen after the blood pool was stirred. The other party was distracted, so he had a rare opportunity!

Chapter 708[1]

Shi Hao arrived. He rushed out from the earth, arriving at just the right time to seize the Golden Bodhi fruit.

Golden light surged like flames, illuminating everything. There was also an intoxicating fragrance that seeped into one’s bones. A refreshing feeling immediately overwhelmed him, one that made him feel like he sprouted wings and ascended into the heavens.

“En?” He was shocked. He couldn’t pick it!

Even though the little tree was about to wither away, it was incomparably sturdy, as if it was created from divine gold. The stem of that fruit was also like this. He was unexpectedly unable to get it off on the first try.

He had heard Yun Xi say that this Golden Bodhi tree was a rare weapon refinement material, and sure enough, this was true. Even someone with flesh as powerful as his couldn’t break it.

“Just come off already.” He used a bit more force. The Golden Bodhi tree shone, and then the stem of the fruit broke.

However, right at this moment, a shocking transformation took place. A powerful wave of energy surged from beneath him that blasted him into the air. He coughed out blood.

If not for the magical force immunity, he would have definitely been killed! It was a resplendent expanse of symbols that blasted on his body.

The War Race’s middle-aged woman appeared, her beautiful hair curled up, the golden ornament shining. Her jade hands were raised. She rushed out from the earth, and then she immediately seized the Golden Bodhi fruit that released a strong fragrance.

Shi Hao felt great resentment. He actually had the divine fruit seized from him at the critical moment, leaving him furious.

This was the War Race woman’s spiritual body that entered underground to kill Shi Hao. even though the blood pool had injured her, it didn’t greatly hinder her movements. She unexpectedly secretly arrived in this place.

It could be said that her goal was exactly the same as Shi Hao’s. After discovering that unforeseen things had occurred underground, she came to pick the medicine out of great risk.

“You...” Shi Hao almost spat out blood. He originally wanted to plot against others, but he ended up becoming prey himself, wasting all that effort for nothing.

A weng sounded. The world began to sway about. A terrifying field spread outwards that swept through this ancient place.

Shi Hao’s expression changed. Even though he was extremely unwilling, he still immediately displayed the Earth shrink to inches great divine ability to flee into the distance, because the existence in the blood pool underneath the mountain seemed to be reviving.

Feeling that it was the most important thing right now. He couldn’t care about anything else.

“Do you think it is that easy to escape? Leave behind your life.” The War Race woman chased after him to eliminate him.

Shi Hao’s expression was unpleasant. The so-called magical force immunity was limited. It was clear that in the end, there was no way for his Supreme expert realm to contend against a True deity.

The losses were too great this time. His injuries were few, but losing the Golden Bodhi fruit was too great of a loss.

Hong!

The great earth split apart. A bone blade tore through the air. White light shone resplendently. That bone deity rushed out and released a roar. “Wishing to seize my divine fruit, leave behind your life!”

With a chi sound, the blade radiance was like a rainbow stretching a thousand zhang in length. It hacked towards the War Race middle-aged woman with heaven overflowing killing intent!

In the sky, the three great True deities stopped. They didn't travel that far. They gazed towards the ancient land, and then they couldn't help but be shocked. They all revealed looks of pleasant surprise.

"The Golden Bodhi fruit is at hand, quickly provide assistance!" The War Race woman's true body was extremely excited. She made her way around the bone mountain and quickly chased after it. She was extremely stirred up. Her spiritual body had done great work.

In reality, they never had any intention of leaving from the start. The Golden Bodhi fruit was too precious. Even though they knew that this place was dangerous, they still wanted to move based on the circumstances.

Qiang!

On the battlefield, the bone blade was like a rainbow as it hacked apart one of the War Race middle-aged woman's spiritual body's magical artifacts. It pressed forward, the white expanse of blade radiance wreaking havoc like a sea. It was extremely terrifying.

"Cease your insolence!" In the rear, the three experts arrived. A great battle erupted.

Shi Hao broke away from the battlefield. He spat out several mouthfuls of blood. This great loss made him feel rather gloomy inside. He was actually attacked from behind and had his precious medicine stolen! It was hard for him to swallow his resentment.

It was clear that in the eyes of the three True deities, the Golden Bodhi fruit was much more important than him. Not a single person chased after him. They were all fighting the bone deity.

What was shocking was that the shaking bone mountain not too far out calmed down again, and then the domain released from underground disappeared.

"Heavenly deity rebirth?" Shi Hao said softly. He concealed his body, and then he left, not wishing to become prey after the great battle ended.

"Heavenly deity magical blade, please display your power!"

Right at that moment, the bone deity spoke, shouting like this. It also changed a short line of incantations. The bone mountain immediately shone, and divine radiance erupted powerfully.

The three deities' expressions changed at the same time. They immediately turned around to leave. There was an icy cold killing intent pressing over that made them tremble inwardly.

Chi!

Blade radiance surged into the heavens. From that direction, a bone blade tore through the air like a great sun, rushing out from the bone mountain and hacking over with extreme speed.

Pu!

Blood flew outwards. The Dragon Sparrow released a miserable cry. It revealed its original body. One of its wings was hacked off, drawing forth a rain of blood. It began to escape in fear.

"Where do you think you are going?!"

The bone deity shouted loudly. A palm slapped over, and with a peng sound, the Dragon Sparrow was struck. Its feathers scattered about, and then another cry sounded. It flew outwards. Meanwhile, the heavenly deity magical blade's radiance, unstoppable and oppressive, curling with dazzling symbols, sliced over, hacking the War Race woman's spiritual body into two.

When the War Race man and woman's true bodies saw this, they both trembled inwardly. However, they still weren't willing to give up the Golden Bodhi fruit. They swooped downwards to grab that golden fruit.

"Kill!" The bone deity shouted. That heavenly deity magical blade dragged a dazzling tail light behind it like a comet. It streaked across the sky, erupting with incomparable fluctuations. *nove* (LB) In

Pu!

The two individuals were both struck. The male lost his left arm, while the woman lost her right leg. War Race's precious blood splattered everywhere.

However, the middle-aged woman still caught the Golden Bodhi fruit. She endured the pain and rushed into the sky.

"Again!"

The bone deity shouted. The heavenly deity magical artifact flew forwards, but the light dimmed, and the power this time was decreased.

This was the Heavenly deity's weapon. The bone deity was activating it purely based on an incantation. Unfortunately, the time limit was up, so this time, it was unable to injure his opponent. He himself also expended a lot of energy.

Sou!

When the War Race male and female pair saw this, they were no longer interested in fighting zealously any longer. They turned around and ran. Bringing away this Golden Bodhi fruit was more important than anything else.

"You all dare take something that belongs to me? You all are not allowed to leave!" The skeleton held his own bone blade and chased after them, erupting with heaven overflowing killing intent.

The Dragon Sparrow rushed into the distance. It had suffered a serious injury. It followed the other two great experts, clearly trying to increase its chances of getting away by sharing the danger. It feared that it might be killed if it stayed behind.

The bone deity released a cold laugh. He was a hair from the next cultivation realm and more powerful than the other three, so he wasn't scared of them joining hands.

This was a chaotic battle. The bone deity slaughtered after them, and they continuously fought intensely. The three deities suffered quite bitterly under that heavenly deity magical artifact. Their fighting strength was already weakened, so they were no match.

As the battle progressed, the three individuals' bones were broken and their muscles severed. Not only did they receive cuts from the blade, they suffered many palm strikes as well. There were many parts of their bodies that were cracked and about to break apart.

The Dragon Sparrow was in the worst state. After turning back to its original form, both its wings were chopped off, and one of its claws even exploded. There were bloody holes all over his body. He was on the verge of falling.

In the end, it managed to break away. It flew into the distance while on the verge of collapse.

As for the group of vicious birds under the Dragon Sparrow, they had long retreated. The True deity battle had left them trembling. They all escaped from this ancient battlefield.

The bone deity was also injured. Several of its bones were broken. He gave the Dragon Sparrow a look, feeling a bit of reluctance, but still ultimately letting it go, not using one of its spiritual bodies to chase after it. He instead concentrated his attention on fighting the two War Race experts.

"Going to stake it all!" The War Race male shouted. He summoned all of his spiritual bodies to join this battle, and he activated magical artifacts to fight the bone deity.

In the end, it was still not enough. The spiritual bodies were killed one after another. He dropped from the sky and landed in pool of blood.

"You are the last one left," said the bone deity as he stared at the woman.

Chi!

At that moment, the War Race middle-aged woman could only escape. She ignited her essence blood to frantically rush into the distance. She lost one of her legs, so she was relying purely on magical force.

The moment the two rushed into the distance, the face of War Race middle-aged male that was lying in a pool of blood fell. He crawled up. And then with some hesitation, he fled from the battlefield as fast as lightning.

It was clear that even though he was injured, it wasn't as severe as it looked. For the sake of living, he didn't hesitate to humiliate himself by feigning weakness, collapsing in that pool of blood.

It had to be mentioned that the War Race woman's speed was extraordinary. Even though the bone deity chased after her the entire time and took action from time to time, he was still unable to cut her off.

As time went on, the bone deity felt uneasy, because it was getting too far away from the bone mountain. It had a responsibility to protect it and couldn't depart too far from it.

The so-called Golden Bodhi fruit wasn't too useful for it, and it just didn't want to give it away for no reason. As time went on, it couldn't hold on any longer and had to return.

Roar...

It released a test, releasing a soul roar. His entire skull shone, and then a soul fluctuation erupted, rushing forward.

“Ah...” The War Race’s middle-aged woman cried out miserably, clasping her head between her arms. However, she still didn’t fall in the end. She increased her speed and departed from this place.

The bone deity’s face fell. While carrying the pure white long blade, he hurried back. This battle thus concluded.

On the great earth, a figure appeared that chased towards where the War Race woman fled. His body was surrounded by resplendent symbols, and on his back were Kun Peng wings. His legs erupted with multicolored light as well.

In that instant, Shi Hao used both the Kun Peng technique and the Earth withdrawal great divine ability, turning his body into a streak of light that tore through the great earth.

He had been following along the entire time, watching the great battle in secret, only that he stayed rather far away and not easily closing in. Only when the bone deity had departed far into the distance did he erupt with power and chase after that woman’s trail.

On a stone mountain, the War Race woman descended. There was blood all around her body. Her bones were broken and her muscles cut. She had suffered unimaginably serious injuries, and there were cracks all over her body. She was on the verge of splitting apart, only managing to escape here with great difficulty.

She really couldn’t hold on anymore. She descended, and then she immediately ate a spiritual pill before sitting here to rest.

Shi Hao silently closed in, his entire being seemingly merging with the void. His expression was cold and his gaze merciless. The moment he descended on the stone mountain, he suddenly increased speed.

“Who?”

The War Race woman was extremely vigilant, noticing that something wasn’t right. However, the moment her eyes opened, a youth already slaughtered over.

This kind of thing was normally unimaginable. As a True deity, an enemy’s attack would actually be so close before she noticed. The main reason was because her injuries were too severe and she was on the verge of collapse.

Hong!

Shi Hao took action, his entire body erupting with symbols. The reincarnation divine ability was perfectly displayed, surrounding the blood covered body in front of him.

“Huh? What kind of precious technique is this?” The War Race woman was shocked. She was seriously injured, and she was severely lacking in spiritual essence. Her condition was currently worsening.

She felt her vitality quickly flowing out from her. Her life force was simply being seized! She quickly retaliated, her entire body erupting with symbols to kill this youth!

When Shi Hao saw this, he was quite shocked. After landing his attack, the reincarnation force operated in the other party’s flesh. If it was anyone else, they would definitely age greatly and quickly deteriorate.

This woman was a True deity. In the battle before, even though she was seriously injured, right now, she held on, not being killed by a single strike.

"Hand over your life!" Shi Hao roared. He threw himself over to kill this enemy and seize the Golden Bodhi fruit.

1. no title

Chapter 709 - Ancient Ancestor

It wasn't that the reincarnation symbols weren't strong enough, but instead that the True deity's cultivation realm was too high. Shi Hao had just reached the Supreme expert realm, so he wasn't able to suppress and kill her.

"You dare come here to try to kill me? Go to hell!" The War Race woman shouted. Her entire body shone and magical force shone. However, her flesh couldn't handle this type of impact and began to quickly split apart.

In addition, an alarming thing happened. Even though her magical force was vigorous and all types of symbols landed on Shi Hao's body, it wasn't able to effectively seriously injure the other party this time. ~~no~~ ~~re~~ ~~lb~~ ~~ln~~

Shi Hao coughed out large mouthfuls of blood, but he successfully held on. He had the magical force immunity type of ability, but against a True deity, it was still not enough to completely eradicate the other party's symbols.

Shi Hao released a roar. He pressed forward, formed fist imprints, and then smashed it downwards. Two fists shone and erupted with incomparable divine force. This type of fleshly power was enough to blast a great mountain into pieces.

The War Race woman experienced great fear. Her magical force was dissolved, and she herself was long injured to a near dying state. She had a high cultivation realm, yet it was difficult for her to display her power.

Due to her eruption of magical force just now, blood flowed through her entire body. All of the cracks over her body erupted, placing her body into an absolutely critical condition.

Peng!

She used an arm to defend herself, and as a result her palms and fingers became numb from the fist imprint. The other party's flesh was sturdy to a terrifying level, completely unlike that of a supreme expert.

After just this strike alone, the War Race middle-aged woman's body swayed, and many areas of her flesh split open. Blood splashed high into the air. She was on the verge of falling apart.

It was because she had just too many injuries on her body and too many bones were broken and muscles cut. There were even a few areas that were going to fall from her body. After suffering this attack, her condition naturally worsened to the most terrifying degree.

“Ant like existence, today, you actually climbed to my head. You are courting death!” The War Race woman berated. The area between her brows shone, forming a symbol that pressed towards Shi Hao’s body.

Then, Shi Hao raised the pill furnace, enlarging it and then sending it forward to suppress and kill the other party, as well as block these symbols.

The first strike ended in his disadvantage. He never expected the other party to be so powerful, able to injure him even before her death. Blood shot out from his mouth. As a result, he raised this treasure, not wishing to take risks himself.

Dang!

The pill furnace trembled, releasing a long and drawn out sound.

Shi Hao formed a fist imprint again. He continued his ferocious attacks.

Hong!

Both his fists moved, as if they had the power to move the sun, moon, and stars. The surroundings were brilliant. It was magnificent and divine. A pair of fist imprints bombarded downwards with incredible might.

The War Race woman released a groan. Even though she blocked these attacks with her arms, her chest split apart and her shoulders ruptured. A terrifying injury even appeared on her skull. Her entire body seemed like a dropped piece of porcelain, clearly shattered, but forcefully pieced together again.

“Kill!

Shi Hao shouted loudly. He ferociously moved his leg, and then like dragons and snakes, they lashed outwards viciously. This was a precious technique he obtained from Origin Sky Secret realm. Just like the Earth shrinking into inches, it was also a great divine ability that was recorded in that cyan bone book.

Magical force was now useless, so Shi Hao was simply borrowing this technique’s form, turning it into the most ferocious physical power attack. His legs moved like a dragon and a snake as they thrashed down on the other party’s body.

Pu!

In the end, the War Race woman couldn’t hold on any longer. Her flesh quickly ruptured, releasing sounds continuously. Several dozen areas shot out blood; her body was crumbling apart.

“I am unwilling!”

She raised her head and roared angrily. If not for the bone deity leaving her in such a state, how could it have ended like this for her? For a True deity to die under the hands of a supreme expert, this was truly too depressing.

“Unwilling? You should just suck it up!” Shi Hao said coldly. He seized the moment and bombarded her crazily with attacks, because the magical immunity time limit was about to end.

Hong!

When Shi Hao's fist smashed outwards this time, half of the War Race woman's body was dyed in blood. Her right shoulder shattered, falling off her body.

Peng!

Then, Shi Hao's body spun around and a leg swept out. The War Race woman finally couldn't hold on any longer. She cried out loudly, and then her flesh split apart into pieces. All of the injuries exploded at the same time, and her body crumpled apart.

The moment the War Race woman's head fell, the space between her brows shone. A divine flame shone. She wanted to ignited herself and drag Shi Hao down with her.

Shi Hao was given a fright. The final soul roar the bone deity released clearly seriously damaged her soul, yet this attack was unexpectedly still so powerful!

Chi!

Like a blade, his right palm sliced down on her head, splitting it open. Then, he quickly opened the pill furnace and kicked her inside. With a kuang dang sound, he pressed the lid down.

Lightning electricity flickered about and curse power surged. Soon after, the angry howls inside ended.

Shi Hao shook the pill furnace, and then a scorched black head fell out. It then split apart, now completely dead.

As for the ruined body on the mountain, it had long been ignited by Shi Hao's innate dao flame and burned under the fiery radiance.

This time, he killed a True deity in a clean and efficient manner. In his hands, the golden fruit shone. A rich fragrance that made one's pores relax wafted through the air, making him feel extremely relaxed.

"You killed her?"

When Yun Xi came out from the cauldron, learned of the result and saw the ruined traces, she was utterly shocked. This was not a Divine Flame Realm expert, but a True Self Realm's great figure, yet she was actually killed!

There were rumors that exceptional talents at the consummate level of the Supreme Expert Realm could kill Divine Flame Realm experts, but never had someone like that killed a True Self Realm extreme expert.

Moreover, this youth in front of her shouldn't even have reached the consummate level of the Supreme Expert realm!

This was simply inconceivable!

Yun Xi was completely stupefied. Even though she had an extraordinary bearing, right now, she completely lost herself, staring at him like she was staring at a freak. It was as if she was looking at a ghost.

"Didn't I already say that I am an undefeated legend? What, we should just journey the world together. I'll teach you later." Shi Hao teased.

Yun Xi slapped her cheeks. Her sparkling white charming face revealed a conflicted expression. Her bright red lips remained open this entire time, and in the end, she sighed with amazement and said, "How exactly did you do it?"

"She was almost dead from the bone deity's attacks. I chased after her and then finished the job." Shi Hao played it down, not mentioning the actual dangers of the final fight.

If he had been a second late and the magic force immunity ended, then the one that would have been dead would be him.

"Alright." Yun Xi nodded. However, she was inwardly admiring Shi Hao. Regardless, a youth killed a True deity! This was simply a legend. If word got out, it would definitely shake up all of the great ancient sects.

Shi Hao also felt rather moved. He was now seventeen years old, and this was the most powerful enemy he had killed so far, so it was worth rejoicing about.

"Let's go." Shi Hao called over Yun Xi.

"Are we going to leave this ancient battlefield?" Yun Xi frowned. Such a great thing happened where a True deity died. The War Race would definitely be furious.

"We're going hunting. Let's kill the Dragon Sparrow first, and then we can leave," Shi Hao said. After speaking, he dragged her with him, and like a streak of lightning, he quickly rushed towards the mountain range.

"You are still going to take action?" Yun Xi was shocked.

This was a mountainous region. Shi Hao had previously saw the Dragon Sparrow flee into this region with his own eyes, so he didn't think it could have gone far. It was because both of the Dragon Sparrow's wings had been removed, and its body was covered in bloody holes. It was already about to die.

When he arrived in this mountain range, Shi Hao noticed a trail of blood. His eyes shone, and then he licked his lips, appearing incomparably excited.

Yun Xi immediately felt like fainting. Did this fella come here to satisfy his desire for good food? She couldn't help but say, "You are hunting the Dragon Sparrow to eat it?"

"Of course!"

When she saw how righteous and self-confident he sounded, as if it was to be expected, Yun Xi immediately became speechless. What kind of person was this?

Shi Hao looked around, and in the end, he actually lost the trail. This Dragon Sparrow disappeared inside this mountain range. There wasn't any aura.

"We lost it." Yun Xi felt regretful.

"Impossible. With my hunting experience, it definitely can't escape. For it to suddenly disappear means that it is panicking. It most likely used a secret method to disappear out of fear that the bone deity would chase over. It is just hiding." Shi Hao put on the appearance of an aged veteran.

“Are you really that certain?”

“Of course. I am an excellent hunter. It can fool the bone deity, but it won’t deceive me.” Shi Hao grew up in the wasteland since he was young, so he possessed abundant hunting skills.

Sure enough, two hours later, they discovered some more clues and followed it into a mountain region. They finally discovered the dying Dragon Sparrow.

The mountain valley was full of blood. The Dragon Sparrow’s injuries were too severe, even more so than the War Race’s woman. It was already about to die. It ingested quite a few pills and was recovering here.

Its wings were hacked off, and its claw exploded. It made it here purely on its last drop of magical force.

“You all... are following the path to your own doom!” It was extremely vigilant. It immediately woke. When it saw the two close in, its eyes erupted with divine radiance.

“Stop trying to fool others. I already killed one like you. I came specifically for you,” Shi Hao said indifferently.

The Dragon Sparrow’s gaze was ice cold. Its body shone, and symbols covered it densely. Even though it lost its wings, it could still fly into the sky through magical force. It didn’t want to be too passive. So it made the preparations to battle and then escape.

“If you all want to deal with me, you’ll have to pay with the price of your lives!”

When Shi Hao heard this, he sneered and said, “Your Hundred Bird Mercenary Group has been pursuing me this entire time. Now is the time to settle accounts. Killing you, their group head, is the most suitable conclusion.”

Then, he had Yun Xi hide in the cauldron. A great battle began!

Even though it was close to death, this battle was still extremely intense, as well as extremely dangerous. After all, this was a True deity.

Then, Shi Hao blasted through the other party’s flesh. However, at the final moment, because he didn’t control the battle well, he blasted the Dragon Sparrow into the pill furnace, and it was corroded by the curse power and scorched black by the lightning.

He beat his chest and stamped his feet in anger. How was he supposed to eat it now? This was too unfortunate!

In the end, he dealt with the Dragon Sparrow and let Yun Xi out. He had a sullen expression. He was extremely depressed.

Yun Xi felt as if she was going mad. This was clearly a world shaking accomplishment that could overlook all peers, yet in the end, this fella had this kind of expression after winning. It truly left others speechless.

This time, the two quickly left, fleeing into the distance and escaping this battlefield.

It was because they knew that this place would become chaotic soon. With the death of two True deities and the appearance of the Golden Bodhi fruit, what power would easily let this go?

This was especially the case when there was a Heavenly deity undergoing rebirth underneath that bone mountain. This was definitely going to trigger a huge storm. Perhaps even a world shaking great battle might erupt.

The two used their greatest speed and exhausted everything they had to escape. They wanted to leave this chaotic place.

Several days later, Shi Hao and Yun Xi entered the largest ancient battlefield in the Blood Plains. It was at least two hundred thousand li in size, and it occupied a third of the Blood Plains' territory.

The yin energy here was extremely heavy, and it was an extremely terrifying vicious place. Rumors had it that there were taboo existences that fell here, turning this place into a demonic land. Its aura was isolated from the outside world, and many secret treasures were ineffective here.

That was precisely why the two decided that only by hiding here could they have a chance to live, perhaps escaping this disaster.

Two days later, a powerful wave of energy swept through the entire Blood Plains, shaking heaven and earth. It traveled far into the distance. That type of fluctuation felt as if stars were collapsing!

"What is this?"

Shi Hao was shaken up. This type of power was too shocking. Resplendent symbols blossomed in the sky, illuminating the skies. It was as if three thousand great worlds were opening!

In that instant, countless demonic gods appeared, seated around a resplendent figure and chanting in the void. It set off the creature at the center as the highest deity!

"The ancient ancestor... revived!" Yun Xi's voice was trembling, and then she felt incomparable joy. She knew that the day when they were freed arrived. They finally lasted until this moment.

"Don't act rashly!" Shi Hao grabbed her. His expression was incomparably serious as he stared at the distant sky.

In the distant end of the horizon, an enormous figure appeared. It sat there within the indistinct expanse. Above its head was the blue dome of heaven. It overlooked everything.

"What is that?" Yun Xi's heart trembled.

That creature was just sitting there, yet it filled heaven and earth. It was as if all deities and ancestors descended to chant the dao.

Stars appeared one after another between his hair, fingers, and on the surface of his body. Then, they all moved around him.

He was extremely indistinct, and an aura of great changes was exuded from his body, as if he lived in the past, but was currently arriving from the archaic era!

“War Emperor! There was actually a War Emperor still alive in this world!” Yun Xi finally understood what was happening. She couldn’t help but tremble. This was a taboo existence that founded the War Race’s unrivaled legend!

Chapter 710 - War Emperor

“A will to live, hundred worlds wither away. A glance from the eyes, and the world has already greatly changed.”

At heaven and earth’s extremity, that blurry and enormous figure spoke as it sat there. It was as if it lived in the past. It was overlooking all three thousand provinces of the higher realms.

This was a War Emperor!

He established his reputation in the archaic legend, creating a legend and forming the base of the Emperor Clan legend. This was an unmatched ancient existence.

No one expected him to still be alive. Based on the bone book’s records, he should have passed away a long time ago from the endless passage of time, becoming one with the earth. How could he appear again?

This was an inconceivable scene. It was hard for others to believe what they were seeing!

The War Emperor overlooked the skies. He had previously shaken up all three thousand provinces and overlooked the nine heavens and tenth earth. He had bathed in the blood of countless giants and established itself as an unmatched existence.

There were many glorious figures in the past, but when any one of them was brought up, there wasn’t a single clan who wouldn’t tremble. This was a living taboo and legend, now that he appeared, who could contend against him?

Everyone was saying that he died, and this had long become the final conclusion. However, now, he unexpectedly appeared again in the higher realms

“A great dream and millions of autumns passed, who could have foreseen this?”

On this side, the sky was covered in resplendent symbols. The old celestial sat in the void, illuminating the skies. The three thousand great worlds revolved around him, and countless deities and gods emerged, chanting scriptures as they did so, setting him off as the highest god.

This was a taboo as well, one that underwent man to heaven, established a higher realm Emperor Clan and ruled over the world. This individual bathed in the blood of countless deities and established an archaic glory!

The two individuals formed a stark contrast. One was dim and indistinct, while the other illuminated the past and present.

These two’s encounter could still be considered peaceful. There was no great battle that immediately erupted. They were like two archaic copper bells that were unearthed. They shook off their dust and were releasing dao sounds.

“Your road has deviated, forgotten how to cultivate. The old celestial spoke, his words carrying sorrow, but was extremely great. It was as if the entire Blood Plains was ringing with his voice, perhaps even the entire Demon Province.

In that instant, countless powerful existences between heaven and earth were alarmed. There were even more people who were horrified in the direction of the Demon Province. There were heavenly deities who felt chills run down their backs.

“The old celestial has revived.” There was a sect master who said softly. His expression was grave, and his voice was trembling. The entire Demon Province seemed to be trembling.

The figure of the old celestial in the Blood Plains seemed to have crossed time and place. Everyone became aware of its existence. Countless eyes were cast in this direction, and there wasn’t anyone who wasn’t experiencing great fear.

“Life and cultivation should be a never-ending journey of self-improvement. What forgetting and what deviation?” The War Emperor spoke. His indistinct figure became more majestic and grand, occupying heaven and earth.

His voice was extremely calm, but it tore through the air like lightning. It spanned across mountain and rivers, shaking up the boundless great earth and making all living things shiver with fear.

The War Emperor appeared! He hadn’t entered the Blood Plains yet, and that indistinct figure was just a magical projection. His true body was still in the Demon Province. When he spoke like this, it was naturally even more world shaking.

The countless ancient sects of the Demon Province all heard these words. There wasn’t a single creature that didn’t feel terrified.

“He... is still alive!”

“The War Emperor is still in this world!”

Heavenly deities spoke with trembling voices. When these words sounded, it confirmed everything. The War Emperor’s grandeur was incomparable, even if he hadn’t emerged for hundreds or thousands of eras. Everyone had believed that he had long died. Now that they appeared again, it immediately terrified the world.

“The cause of suffering is the pursuit of the wrong.” The old celestial’s voice was downcast.

“A wrong path might not be a mistake. Believing that a path already established is best is what is most pitiful.” The War Emperor replied.

“Those who are filled with their own thoughts and opinions will forever be unable to hear the voices of others,” said the old celestial.

The two faced each other sharply. Their dao were different, and their paths were different. What they believed was even more so conflicting.

Hong!

In that instant, the world trembled. The Blood Plains were shaken, and everything in a range of several dozen li rumbled. A large black crack appeared. Mountains and seas moved, and the sun and moon were about to fall.

This was an intangible pressure between the two. Through the air, they encountered each other and made a slight contact, yet this type of terrifying result was brought forth.

At this moment, forget about Shi Hao and Yun Xi, even the white bone true deity inside the ancient battlefield, the Vajra Demons, and others were all shivering in fear. They all hid themselves, not willing to display the slightest bit of arrogance.

What kind of existence was this? Just a will alone, a fluctuation of their auras would produce such a terrifying scene. If they displayed their power, it would be unimaginable!

The War Emperor was unmatched in battle, becoming an emperor through war. He had pressed forward unhindered his entire life, sweeping before everything in front of him!

The old celestial created an undefeated legend that connected the past and present. It was hard for him to meet an opponent in this world.

Now that these two faced each other, this was the battle of an era, an extremely rare confrontation between existences at the peak since the ancient times. Every movement they made would be forever recorded in the higher realms' history.

"Someone who thinks he possessed the dao, but is actually being controlled by the dao," the War Emperor spoke. His voice was like thunder, shaking through the boundless wilderness and oppressing the heavens, making the sun and moon tremble.

He already moved. His true body moved through the demon province and closed in on the Blood Plains. It was also because of this that the Demon Province that was incomparably vast and stretched across who knew how many tens of thousands of li was lightly trembling.

An oppressive aura surrounded everyone's minds. They were all horrified, and many people couldn't help but kneel down towards the heavens!

This was the War Emperor. Once he appeared and his body moved, the world would shake in response. Countless existences of the Demon Province began to kowtow before him.

"You and me both seek the dao, so what purpose is there in talking about possessing it." The old celestial replied.

His entire body shone. Strand after strand of blood energy surged, seeping out from his pores. His aura trembled the heavens above and earth below.

"Heavens!"

The deities all trembled in fear. They felt a powerful pressure moving through the Blood Plains and then sweep towards the Demon and Heaven Provinces. Seas from all directions surged.

Many people found this hard to believe. A few giants sucked in cold breaths of air, and their expressions went rigid. They couldn't help but back up, their chests rising and falling violently.

Through the secret treasure, through the enormous heaven connecting formations, they saw this scene, and then all of them felt a tremble that reached down to their souls.

In the skies above the Blood Plains, the old celestial released strand after strand of blood energy. It distorted space and isolated the heavens, making the air itself appear unstable.

One could clearly see that from him at the center, streak after streak of cracks appeared in the void. He seemed to not exist in this world, but instead in hundreds and thousands of worlds past, tearing through space to descend here.

That type of scene was too terrifying. Everyone felt as if they saw a great stream of time pierce through the void, and he was seated right by it.

He... where exactly was he? Is he alive, or is he releasing his divine might from the ancient past, displaying his power in this world?

This was the question quite a few people were thinking in their minds. They could feel a rumbling, a weng weng sounding in their ears. The great dao sounds entered their sea of consciousness, making them feel great fear and tremble uncontrollably.

Heavenly power! This was the true supreme heavenly power!

From man to heaven, this was not just a saying. There really was this type of power.

"How could this be? It's just too terrifying! Who can contend against this?"

"This is the Celestial Race's unrivaled taboo existence? It is terrifying after all. No wonder he could roam unhindered through the three thousand realms in the archaic era. It is hard for him to meet an opponent."

Forget about others, even when a few sect masters saw this scene, they all shivered inwardly as well, their souls even shaking. This might be the peak of human dao.

Perhaps if one evolved a step further, it would be a different type of creature, one that didn't belong to the higher realms!

The blood energy seeped out from the old celestial's pores strand after strand, creating countless great cracks in the void that extended outwards several tens of thousands of li. It surrounded the entire Blood Plains.

This scene made everyone feel great fear.

"War Emperor, come! A battle it is!" The old celestial spoke, his voice like a great bell that rang through the heavens above and earth below. This area of the void became unstable, as if it was going to split apart.

In that instant, the great restriction formation across the Blood Plains and the symbols covering every inch of the great earth were completely wiped out, shattered under a single thought from the old celestial.

Meanwhile, the rulers of this prairie, the twelve cities of crime simultaneous collapsed. The twelve most powerful devil kings were immediately blasted apart, turning into bloody mists.

“Heavens! The lord has died!”

“Sea Turtle Devil King has fallen!”

“Great Might Devil King’s body and soul were destroyed!”

In that instant, great cries of alarms sounded from the twelve, now collapsed, cities of crime across the Blood Plains. People were panicking. What kind of power was this?

The twelve devil kings that had controlled this area of the great earth for countless years all died, killed by a single being’s will. The great formation that several sect masters laid in the past was all destroyed as well.

This was a world-shaking divine might!

What unmatched expert, what taboo existence? Right now, everything was perfectly displayed. The old celestial was recreating the undefeated legend!

“If you move again, I will also take action. There won’t be many people from the Celestial Race left on these plains.” An indifferent voice sounded. The War Emperor had arrived! His true body appeared, crossing through the Demon Province into the Blood Plains. It was still a massive image that was indistinct, towering between heaven and earth.

Along with his advance, the great cracks in the void seemed to have disappeared, merging again. He was like a the highest ancestor of all deities that overlooked mountains and rivers, observing the world below the heavens.

Within a scope of several tens of thousands of li, in the boundless blood colored battlefield, there were Celestial Race experts, mercenaries, as well as War Race people. It was extremely complicated.

Yin energy surrounded the ancient land. Shi Hao shivered inwardly. His expression became grave as he watched silently.

Yun Xi opened her mouth, wishing to say something, but she stopped herself. This type of power brought her a great shock. She found it difficult to calm down. Was this the pinnacle of level?

“Will the ancient ancestor discover us?” She said softly.

“Don’t think too much. With the War Emperor here, he cannot act too rashly. Otherwise, this entire place will be destroyed, and the consequences of that are unfathomable,” Shi Hao said.

The War Emperor’s voice rang over, rumbling like thunder. The world seemed to be on the verge of being flipped around. Heaven Province and Demon Province seemed to both be trembling lightly. Violent earthquakes shook through the Blood Plains.

"Great seas will turn to dust after a million autumns, the divine paths wandered rugged. The two of us are already at this age without many years left to live, so from here on out, a battle it is. I want to see what kind of comprehension you have attained!"

"A battle beyond the skies!" The old celestial spoke. His figures swayed, and then he disappeared from the Blood Plains. A great crack remained in his original spot.

"Fine!" The War Emperor replied. A streak of lightning hacked over. He also disappeared.

Peace was restored to the Blood Plains, as if nothing had happened. However, that type of oppressive atmosphere didn't scatter for a long time.

The momentary silence and stillness were shattered. As if comets tore through the sky, a silver-robed individual appeared, in his hands a spear. He traveled through the air and stood in the heavens above, pointing his finger towards the battlefield.

"Celestial Race, come! Fight me! Otherwise, your people cannot leave!"

Then, dazzling radiance appeared in the sky. Other experts traveled through the air. The Heavenly deity sealed off the battlefield, not willing to let any prey leave.

"Do you think my Celestial Race is scared of you?" A woman moved through the sky with a golden bone bell in her hands. She exuded the pressure of a heavenly deity.

This battle was unavoidable.

The old celestial was facing the War Emperor, and experts of other levels were also competing. This was a grudge that had existed between the two clans for an extremely long time.

Apart from this, Heaven Province and Demon Province had a few top level mercenary groups that were dragged in as well, for example, Reincarnation Mercenary Group, Demon Blood Mercenary Group, and Heavenly Wings Mercenary Group. They might have Heavenly deities commanding them as well. It was an absolutely terrifying scene.
