

Perfect WD 751

Chapter 751 - Identity Leaked

Yue Chan's eyes were like black gemstones. Divine radiance flourished. Even though her mouth was unyielding, her mind was extremely shocked, because the other party did not display any divine abilities, yet unexpectedly neutralized her five great precious techniques.

This was definitely inconceivable!

"Sky illuminating technique!" Yue Chan shouted lightly. This was a type of precious technique. With the support of incantations, it became even more powerful, shining along with the movements of her cherry lips. A blazing flame erupted and blasted towards Shi Hao.

Unfortunately, it was still ineffective!

The golden sun smashed into Shi Hao's body, but a layer of precious splendor shone around him, neutralizing all of the so-called Sky illuminating technique, causing it to scatter in the void.

After ingesting the Golden Bodhi fruit, the Magical immunity ability was strengthened somewhat, and the corresponding time was extended a bit as well, and that was why this scene appeared. No matter how the other party's magical force surged and erupted with symbols, they were completely useless.

The two intertwined together, arms shining. Meanwhile, Yue Chan even more so operated bone texts to make the other party's blood energy decline and forcefully suppress him.

Peng!

The two collided. It was as if metal smashed together.

Shi Hao was truly not at his best right now. His blood energy was dried up, and even at his strongest suit, a battle of physical strength, he still couldn't immediately gain an advantage.

If it was in the past, if someone dared to get so close, Shi Hao would definitely occupy the advantage, using an innate advantage that others normally could not strive to obtain.

"Not good, I have to end this as soon as possible. Otherwise, I really might fall into my wife's hands, and be suppressed by her. That kind of result is too terrible to imagine!" Shi Hao shivered inwardly.

Fortunes rise and fall. This time, he suffered serious injuries. His blood energy was dried up, and he still hadn't recovered yet. If he was captured by Yue Chan, then he would definitely wish he was dead rather than alive.

Chi!

Five-colored cold light appeared. Shi Hao's palm became incomparably sharp, producing the True Dragon's profound mysteries. It was a loose move he obtained from Origin Sky Secret Realm, an extreme divine art in close combat battle.

Dang!

What was shocking was that Yue Chan's palms and fingers were like jade, sparkling and pure white, blocking this attack.

Hou!

Draconic cries ran through the sky. Shi Hao produced a dragon imprint, and then a True Dragon rushed out from his palms, surrounding Yue Chan and suppressing her. This was also an unmatched body technique.

In reality, he really wanted to use other techniques like the reincarnation divine ability, but right now, with his magical force at an all time low, it was hard for him to display complete exceptional techniques. Only these types of loose moves were the most efficient.

Yue Chan's jade arms shone. They looked soft, but they possessed the power of thousands, able to blast apart mountain peaks. Right now, even though she looked like an immortal, she was terrifyingly powerful.

A loud and clear phoenix cry sounded. A fiery red immortal phoenix appeared from her palm to face that True Dragon. The two intertwined, releasing a resplendent radiance.

"Dragon and phoenixes are both symbols of good fortune! The two of us truly have karma!" Shi Hao teased. Even though he was in a critical situation, he still didn't forget to use his thick skin to his advantage.

Xiu!

The immortal phoenix soared up, its wings bright red like flames, carrying with it heaven overflowing flames. It swooped down, and then Yue Chan's slender jade-like hands slapped down.

Shi Hao's mind trembled, because the Magical immunity was about to end. He had to make some kind of move to break through the other party's restraints.

He forcefully gathered a breath of air, and then his entire body became covered in symbols. He used all of his power, using every last bit of magical force he had left to support his body and suppress the other party.

Xiu!

Shi Hao's body shone. He used a variant of the Kun Peng technique. Golden vortexes appeared on the surface of his body like scales, but also like feathers that were spinning about.

This was something even the normal Peng Race could display, but it was difficult for them to reach this level. It was because Shi Hao secretly used the Kun Peng technique to stir it on. This was the higher level Golden vortex ripple technique.

When he was still young inside the Heaven Mending Pavilion, he had learned a damaged Peng Race technique -- the Golden vortex ripple technique, but now these two couldn't be spoken of as the same things.

He used the Magical immunity method to neutralize the other party's scarlet immortal phoenix, and then he used the Golden vortex ripple technique to frantically devour the scattered spiritual essence and divine force, strengthening himself.

It was because this was the last opportunity. The Magical immunity was about to wear out.

The golden vortex swirled about. Shi Hao's body shone, becoming like a human divine bird that ruled the world. He devoured the essence of heaven and earth to strengthen himself.

This was a divine skill that turned the weak to the strong. Shi Hao immediately became powerful, reaching in front of Yue Chan. With a raise of his hand, he attacked, his palm and fingers like a dragon claw.

Peng!

This time, Yue Chan's expression changed. She had just taken advantage of the other party's blood energy being dry, yet now, she ended up in this type of situation. Her arm was feeling intense pain.

In reality, there weren't many who could contest Shi Hao in physical strength. Even Immortal Palace's inheritor who accepted the unrivaled inheritance's tradition since he was young, undergoing all types of refinement, only managed to fight Shi Hao evenly.

Even though Yue Chan's body was powerful, it was not where she was strongest. As such, she revealed an expression of shock.

Shi Hao really was ferocious, doing everything he could. The golden vortexes around his entire body moved, devouring spiritual essence from all sides, drawing in the Tribulation crossing divine lotus' golden liquid to use for himself.

In that instant, he continuously delivered heavy blows, fighting Yue Chan in close quarters.

Great waves rose and fell. Bone texts interweaved between the two of them. Strong winds blew about and splendid radiance scattered down. They immediately exchanged over a hundred blows.

Yue Chan shivered inwardly. This close distance was extremely unfavorable for her.

Meanwhile, Shi Hao was even more shocked. Yue Chan was shocking after all, being even more powerful than ordinary exceptional talents. The light she fired from between her brows made him feel great fear. The light beam formed from condensed essence energy could destroy one's primordial spirit.

Xiu!

Shi Hao leapt up, not holding back at all as he displayed the Earth to inches great divine ability. He was fast to the extreme as he battered Yue Chan with attacks.

However, Yue Chan also had this type of precious technique. In addition, the space between her brows continuously shone, and like an immortal falling blade, it blasted out unstoppably. That was the most terrifying divine sense attack!

Could it be that this was her innate divine ability, the one that was always sealed within her sea of consciousness that was now opened?!

Shi Hao found out about her sea of consciousness' secret while in the lower realm. Now that he saw it again, he became even more terrified. It was difficult for normal people to survive this.

With a sou sound, Shi Hao leapt out, arriving at the edge of the immortal pond. He frantically absorbed the Tribulation crossing divine lotus' precious liquid. He had to recover as quickly as possible, or else, with his blood energy dry and magical force weak, it would be difficult to capture Yue Chan.

He had several great precious abilities, yet he couldn't display them right now!

Heng!

Yue Chan released a cold snort, discovering his weak point. Even though the other party was becoming more powerful, he still couldn't compare to her. His body was still extremely weak. This was an opportunity.

She gave up on defense and no longer felt any restraining fear, focusing all of her attention on attacking. An imprint appeared between her brows, and then it was as if a true immortal appeared, dancing about there. It sparkled brilliantly and magnificently.

At this moment, the light that fired from between her brows covered the void, blocking Shi Hao's path of retreat. It was incomparably domineering.

Shi Hao was shaken. Not only did he feel fear towards this divine senses blade, it was also because he discovered that the imprint between Yue Chan's brows seemed extremely close to the immortal dao divine projection. It made one shiver with fear.

Fortunately, this 'divine projection' was not like the one Ye Qingxian used, able to defend again.

Shi Hao thought to himself inwardly. There were only two immortal dao divine projections, and the other one should not be on Yue Chan's body.

A putong sounded. Shi Hao suddenly dove into the bottom of the lake, swimming around the tribulation crossing divine lotus to absorb divine force and strengthen himself. As long as he recovered, none of this would be a problem.

"There is still a fruit core. I wonder if it is useful at all." Shi Hao said to himself. He produced the Golden Bodhi fruit's dark green fruit core and tried to see if he could absorb any power from it.

This was all so that he could use the Magical force immunity ability again a bit sooner!

Of course, he didn't dare refine it out of fear that some major problem would occur.

It really was effective? Shi Hao was shocked. The effect wasn't extremely prominent, but it really could trigger his body, producing some type of reaction. It was as if he could use it again after a short period of time.

Shi Hao continuously tested it, and then he revealed a strange expression. He actually succeeded! However, the Magical force immunity was quite weak, so it might only display itself for an instant.

Hong!

This time, he turned around and returned, attacking at full force. He produced a barrier of light. The True Primordial Record's bone texts changed the rotten to miraculous, suppressing Yue Chan.

"What?" Yue Chan was shocked. Her precious techniques were ineffective again, and the other party immediately closed in on her, subduing her.

Shi Hao opened his only heavenly passage and took action at full force, using up all of his magical force to imprison Yue Chan, temporarily locking her down.

Peng!

He took action to suppress her, sealing Yue Chan.

This all happened in an instant, producing shocking changes.

The space between Yue Chan's brows shone to resist, but Shi Hao raised his hand, pointing at her sparkling white forehead, making her head feel intense pain. She was unable to release this attack.

Moreover, in Shi Hao's only heavenly passage, she received an inhibition to begin with. No matter what she tried to use, it was exceedingly difficult.

Shi Hao continuously took action, patting Yue Chan's body to seal her. It was because he really felt uneasy.

"Even with such distance between us, we are reunited by fate. It seems like the two of us really are predestined to be married together." Shi Hao laughed and said.

Yue Chan's body was sparkling white. The divine battle clothes on her body shone, but it was ineffective. She still had her key areas sealed, placing her on the verge of being taken prisoner.

This was especially the case since Shi Hao grabbed her small waist and then lightly blew into her ears, teasing her. Her snow white neck immediately produced a layer of goosebumps, causing her to feel even more disturbed.

This was a fairy. Her figure was soft, elegant and slender. Shi Hao took her into his arms, smelling a fragrance that penetrated deeply into the heart. He quickly sealed her, not willing to make any delays.

Of course, skin contact was unavoidable. The two continuously touched each other.

"Do you dare fight a fair battle against me?" Yue Chan said softly, trying her best to calm herself down.

"My blood energy is all dried up, yet I wasn't even suppressed by you. If we truly fight a great decisive battle, you think I would be scared of you?" Shi Hao said softly, holding her tightly by the waist and continuing his sealing.

"Can you tell me who you are?" Yue Chan spoke calmly. Her skin was snow white like ivory and shining resplendently. Her face was beautiful to the extreme.

Shi Hao was shocked. Why was she so calm? Could it be that she had other methods?

Suddenly, Shi Hao's expression changed. He released a loud cry, shouting 'not good'!

He discovered that the Golden Bodhi fruit's core split open. A green seed dropped, entering his body and frantically battering at his flesh.

"How could it be like this?!" Shi Hao cried out loudly. This was too sudden! He didn't know that the seed was even more terrifying, unexpectedly resonating with the medicinal effects within his body, wishing to merge with him.

The torment from hell began again, and this time, it was even more dangerous!

The only fortunate thing was that Yue Chan was sealed.

Shi Hao's flesh released green radiance. That seed dissolved, and the bizarre natural laws as well as divine force bashed sideways and collided straight. His flesh immediately became tattered.

The space between his brows shone, and his skull became covered in cracks. Then, a ka cha sounded. His primordial spirit became unsteady, suffering from the natural laws contained within the Golden Bodhi fruit's seed.

This was the most terrifying thing. The death of a person was like a lamp going on, and the primordial spirit was an existence's 'lamp'. Once that withered away, then everything became nothing. All things would become silent.

"Freeze!"

Shi Hao shouted, using his most powerful precious techniques. He was completely spent. His magical force was pretty much exhausted.

"I can only do this!"

His essence energy split up, becoming small cauldrons, dao bows, divine swords, and other things. These were the insights he gained from the Spiritual Transformation Realm, transforming bone texts, spirits, and others into tangible holy objects.

Dang!

The dao bell released a long and drawn out sound, tens of thousand of bells rang through the air. At that moment, his primordial spirit turned into one dao bell after another.

Zheng!

Sword cries that shook one's soul sounded, sending zheng zheng sounds into the sky. At that moment, Shi Hao's primordial spirit turned into tiny divine swords, covering the sky densely, numbering in the tens of thousands.

Hong!

Great dao streams flowed, suppressing the void and protecting his body. Those were the cauldrons produced by Shi Hao's foundational spirit. They arranged themselves, all of them releasing dao energy produced from the cauldrons' entrances.

Meanwhile, he used the True Primordial Record, using the most simple and least energy consuming bone texts to cover his flesh and spirit, carrying out a comprehensive resistance.

This was a life and death confrontation. Shi Hao's 'lamp' could go out at any moment, and his flesh was about to collapse. Blood dyed the pool red.

Bells, cauldrons, pagodas, swords, and others appeared endlessly. Those were things formed from divine senses, things that turned into tangible holy objects. They accepted a life or death refinement, about to be wiped out at any moment.

This was a terrifying process. Shi Hao sank into the most dangerous situation.

After who knew how much time had passed, he finally stabilized himself. The destructive force and his vitality reached an equilibrium. His entire body was completely tattered, and his primordial spirit was dim.

However, he knew that this was an opportunity. If he could make it past, his benefits would not be small. This was a life and death baptism!

However, something completely unexpected happened. Yue Chan moved. Her eyes swirled with intelligence. She had icy skin and jade bones. Her black hair scattered down, and color returned to her gorgeous face.

"It was you after all!" Her red lips moved slightly.

Shi Hao's mind jumped. "How did you break free?!"

"I was taken advantage of by you in the lower realm and suppressed once, so I would never fall in the same place twice." Yue Chan said.

Shi Hao sighed. Was he going to have to use the Protecting divine symbol? He really didn't want to waste it, because it was too precious.

However, Yue Chan was unexpectedly calm. Her figure was tall and beautiful as she stood there, not taking action or displaying killing intent.

"Wife?" Shi Hao spoke.

Yue Chan's eyes were brilliant, and the corners of her clothes fluttered about. She became more and more calm and otherworldly.

"Can you help me?" Shi Hao's mind operated at lightning speed, asking like this.

"Do you need help?" Yue Chan's eyes moved about. She had an immortal aura and jade bones. Her wonderful body shone, untainted by the flames of mortals.

"I do!"

Chapter 752 - Devote One's Life

"Your skin really is thick." Yue Chan mocked.

A silver moon hung above, its lunar essence interweaving as it scattered downwards like a faint layer of smoke onto the crystalline lake, making this place look hazy and misty.

She stood under the peaceful moonlit night above the surface of the lake. Her battle clothes shone, and the sleeves of her clothes fluttered about, making her look like an exceptional fairy. Her eyes were black like gemstones, carrying a spiritual radiance.

The scene was peaceful, extremely quiet and beautiful. Only, Shi Hao wasn't in the mood to appreciate it. He was enduring the most painful torment and might die at any time.

"A friend is still a friend in the end. Even though there were some misunderstandings between us, everything was still settled in the end. Since we are both from the lower realms, we should be helping each other out." Shi Hao said with a straight face.

Of course, even if he was showing any other expressions, it wouldn't be visible, because his flesh was incomparably tattered.

His primordial spirit was split up into divine light that produced cauldrons, bells, pagodas, swords, and other things. They transformed into many holy objects, and it was precisely because of this that he was able to stop the attacks, not dying on the spot.

This state of equilibrium was extremely weak. Once it was destroyed, his primordial spirit might turn into an expanse of brilliant multicolored smoke and thus scatter into ashes.

"You've previously offended me like that, imprisoning me. Today, you aren't asking for forgiveness and instead asking me to help you?" The corners of Yue Chan's lips tilted upwards in mockery, but also aloof like clouds in the sky.

"Before dying, I let you go without any hesitation, wishing you well in every way. Isn't that enough to prove everything?" Shi Hao continued his argument.

This was the reality. Before he fell, he had previously told all of his loved ones and close friends that should he die, Yue Chan should be let go, and that they shouldn't trouble her.

The clear moon hung high in the sky, scattering down its hazy silver brilliance. Yue Chan's style was unmatched. She sank into a state of silence. Her fine jade-like snow white skin flickered with radiance. She didn't move for a long time.

"How did you get in?" Only after a long time had passed did she ask.

"By holding a black metal tile." Shi Hao didn't hide anything. He felt that things were a bit interesting, as the other party didn't expose killing intent from the start.

"The one that passed the trial of heaven and ascended the heavenly staircase was you?" Yue Chan's eyelashes were extremely long. Her red lips were brilliant. Even though she was quiet and outstanding, there was still a type of temptation that naturally exuded from her body.

That day, she didn't she didn't immediately arrive at the scene, so she wasn't able to see Shi Hao's figure clearly.

"Yes!" Shi Hao replied.

At that moment, his divine senses turned into thousands of little cauldrons. They moved together, and bell sounds rose and fell. In addition, those small cauldrons, pagodas, swords, and others were also like this, shining brilliantly.

It was because the situation was a bit critical. That seed contained the Golden Bodhi fruit's demonic force, the power to destroy life force. It bashed about within his body and even more so attacked at his primordial spirit.

This type of fruit was several hundreds of times more vicious than the Blood Soul grass. It was known for being able to strengthen one's soul force, but it was too difficult for the human race and others to absorb it. That was why he was in such a dangerous state.

Right now, Yue Chan had an extremely great opportunity. As long as she pointed outwards, Shi Hao's equilibrium would be destroyed. Regardless of whether it was the flesh or primordial spirit, they would both collapse!

Shi Hao was extremely nervous. He had long readied the Protecting divine symbol, ready to activate it at any time to unleash the defensive barrier.

Yue Chan's steps were elegant as she walked over. As she walked on the moonlit lake's surface, she looked exceptional and lonely, a type of incomparable aloof beauty. It was as if the most divine and spiritual true goddess had reincarnated.

However, she didn't say anything or reveal any emotions. It was difficult for Shi Hao to guess what she was thinking.

The atmosphere was extremely tense!

Shi Hao didn't know what she was going to do. His mind was extremely nervous, and he was watching everything carefully.

Finally, she raised a jade-like arm, and sparkling white symbols flickered. She prepared to take action against the other party!

Shi Hao's mind jumped. His fine hairs all stood on end.

Chi!

A resplendent streak of light flew over, landing on Shi Hao. It possessed an extremely powerful aura, but even more so an exuberant force. Brilliant colors illuminated the entire void.

In that instant, Shi Hao was about to activate the protecting divine symbol, but then, he ultimately stopped himself.

It was because he felt a wave of softness and holiness. This sphere of light didn't possess any killing intent, instead scattering down like sweet dew, nourishing his body.

This was like a timely rain. Shi Hao's body was originally about to wither up, his life essence's deficiency severe, long reaching its limit. He couldn't even use his own precious techniques anymore.

The outside of his body shone. His wounds began to move rhythmically and heal, and the powerful aura even made his foundation shine with brilliance, forcefully connecting his broken bones and other parts.

Auspicious light surged, making this place misty, surrounding Shi Hao like a great cocoon, wrapping him within. He underwent a holy transformation.

Immediately after, the space between Yue Chan's brows shone, producing an imprint. That place shone, producing a spiritual 'immortal projection'. It was as if a woman was dancing about. A mysterious aura that was difficult to describe was released from that figure.

Divine splendor swept outwards. The space between her brows was hazy, and then an expanse of blazing radiance pervaded the air, rushing at Shi Hao to nourish his primordial spirit.

This was spiritual light, auspicious and unsullied without any impurities. It was like undying immortal essence as it illuminated everything. It was the most pure substance.

Only someone like Yue Chan with innate extraordinary divine senses dared to do this, because it was extremely difficult to stir on spiritual light. Others wouldn't take risks to try and save another.

Shi Hao thus received a helping hand. His condition quickly stabilized, and his flesh was no longer on the verge of destruction. In addition, his bones began to connect together, and his flesh was reconstructed. His primordial spirit even more so transcended, breaking away from its most dangerous state.

Mists of light curled about. He didn't move at all, staying by the side of the immortal pool to recover his injured body and refine the final natural laws and medicinal strength within that seed.

He didn't have any more worries left, no longer having to concern himself with unbridledly absorbing the golden liquid that seeped out from the Tribulation crossing divine lotus. He guided it over from the immortal pool to cleanse his body.

A sphere of golden light covered him. His splitting body healed and his bones regrew. This was a process of rebirth!

The Tribulation crossing divine lotus displayed its effectiveness, being just like how the rumors were. In addition, Shi Hao seemed to have an urge to comprehend the dao here.

"Right, so it turned out to be like this. The Golden Bodhi fruit provides mysterious force and produces the magical immunity power, while its seed offers life force, allowing this force to grow."

Shi Hao comprehended the dao, using the Tribulation crossing divine lotus to understand what really was happening, as well as what exactly he lost and gained this time. This divine fruit contained extraordinary substance and natural laws, possessing an attribute of growth.

Only, the flesh needed the seed to accompany it. They were inseparable. Otherwise, the result would be greatly decreased.

Earlier, he never thought that the seed would have this type of use. An unexpected disaster happened, but disaster and happiness were interwoven, and as a result granted him this type of reward.

After a long time had passed, Shi Hao finally completely refined the Golden Bodhi fruit's seed, merging it into his flesh and allowing it to nurture his body. He now completely succeeded!

He carefully experienced it. The magical immunity's time window was increased, and the most important thing was that he sensed a wave of endless growth, the potential for the secret ability to grow. This was the foundation!

In the future, along with his growth in cultivation levels, this type of ability would also become stronger. He wouldn't have to worry about the ability becoming insignificant with his own growth.

This was a trump card!

Shi Hao's eyes were bright and full of expression, releasing a brilliant torch like blaze. If he used it properly, this type of method would display miraculous effects. It might not even be weaker than some matchless precious techniques!

During the Blood Plains trip when he escorted Yun Xi for hundreds of thousands of li, in the end, even though he was left brokenhearted, being betrayed and humiliated by the Celestial Clan, his benefits were actually quite great.

"Hundred rivers will gather in the sea, three thousand provinces will have a great battle. The heaven warping geniuses of the higher realms will compete for supremacy, and young supreme beings will compete. I am looking forward to it!" He said softly with a type of self-confidence.

Then, he began to meditate, recovering his injured body. Golden liquid flowed out from the lotus pond. He continuously absorbed and refined it.

Kacha!

The damaged bones shone, their cracks disappearing. The bone matter was sparkling and so white they were almost translucent. His bone marrow became bright red, carrying a holy radiance that burned like flames.

Meanwhile, the same was happening to his flesh. The bone texts within his body began to condense in all sorts of ways, reconstructing to become sturdy and flexible. They now contained explosive power.

All of the bloody traces on his body receded. His injuries closed, and his body shone, now without any blemish. It was as if he was cast from flowing divine gold, radiating precious splendor.

Shi Hao's injuries slowly recovered. After receiving the golden liquid's replenishment and recovery, he gradually returned to his peak state. He crossed this unimaginably great calamity.

Then, Shi Hao produced his true appearance, no longer showing the face he produced through the seventy-two transformations. His eyes became clear, large and bright, exuding a type of self-confidence. Meanwhile, his entire being was also handsome and delicate. His body released a faint holy splendor.

"I finally recovered!" He released a breath of air. He stepped out of the water and looked at the beauty in front of him.

Yue Chan directly turned around and berated, "Put on some clothes!"

Shi Hao produced a set of battle clothes from his Heaven and earth pouch and put it on. His skin was extremely thick, and without covering his face, he walked forward and said, "Many thanks, wife!"

Yue Chan suddenly turned around and looked at him. Divine radiance erupted from within her eyes, almost a bit intimidating. She stared at him coldly. n(/σ-/V).ε--l--b--1-(n

Shi Hao was embarrassed and said, "This time, it really is because you helped me. I don't know how to express my thanks. Just say what you want, as long as I can do it."

"Forget it." Yue Chan spoke with a voice that was as light as a feather. She didn't bring up any demands.

This left Shi Hao shocked. "This won't do. Regardless, you have to say a few conditions."

However, Yue Chan was calm. She shook her head.

Shi Hao was stupefied, and then he pondered to himself. He felt that Yue Chan was definitely not simple and extremely intelligent. She didn't require compensation after offering help and displayed a calmness and tranquility.

However, with his nature, how could he not care about this? If she had any difficulties or troubles, regardless of what it was, he would definitely take action.

"Wife, acting so astute, are you trying to make things difficult for me?" Shi Hao said. He felt that the other person should have asked him to defeat her main body, but Yue Chan didn't make this choice.

Yue Chan's lips curled upwards, and then she scoffed, "Only you would think that much!"

"Sigh, what a headache!" Shi Hao grumbled.

Then, his face became resolute. He looked at Yue Chan and said, "I decided that I will repay you with the greatest sincerity."

Yue Chan revealed a look of shock. Her eyes shone as she looked at him. "What kind of repayment?"

"I already said that it is the greatest sincerity, so I will naturally do everything I can. Therefore, I decided that I will devote my entire life!" Shi Hao's skin really was as thick as a shield, saying this with a deadly earnest face.

Yue Chan was stunned, and that trace of a smile directly froze. She felt that she still overestimated this fella's bottom line. He really felt no shame saying this?!

She restrained her smile, and a holy splendor was released from her beautiful face, making others feel unwilling to look directly at her, and even less like blaspheming her. She berated, "Can you not speak such nonsense?!"

"I am a man of my word. There is not much that I can repay you with, so I can only gift you myself." Shi Hao didn't show a trace of embarrassment.

Yue Chan's elegance and pureness appeared, dealing with him with a cold and holy aura. Her expression was extremely cold like a frozen mountain.

Divine light flashed. Shi Hao combined the Kun Peng technique and earth into inches great divine ability, directly arriving by her side. With extremely natural movements, he tugged on her hand and said, "We were husband and wife to begin with, so let's continue our previous fate!"

Yue Chan couldn't help but sigh. This fella's face really was thick to the extreme!

Her hair shone strand after strand. Her countenance was exceptionally beautiful, her pupils divine and deep. She was poetic and picturesque as she stood under the -moonlight.

However, even though she carried such cold intent and treated him with such cold elegance, this idiot still didn't seem to mind at all, not letting go of her hand no matter what.

Chapter 753 - Promise

"Let go." Yue Chan

If it was anyone else, they might be caught up in her beauty. While standing in front of this gorgeous fairy that was surrounded in holy splendor, they might find it extremely hard to stay calm and even feel ashamed of their own inferiority.

It was clear that Shi Hao didn't belong to this group. His eyes were clear, and he even concentrated his expression on Yue Chan, saying, "I am being serious, wife, did you forget the events that happened between us in the lower realm?"

The word 'wife' made Yue Chan's brows jump. The imprint within her brows appeared, and multicolored radiance surged. She felt like this fella was truly incurable. His arrogance and pushiness made one feel a sense of powerlessness.

Yue Chan quickly jerked her hand away, because she knew that her aura alone definitely couldn't subdue the other person, unable to leave him feeling ashamed, only adding more fuel to the flames.

However, Shi Hao grabbed her firmly without being willing to let go. Her eyes flickered with divine multicolored light as he stared at her.

"I didn't save you so you can disrespect me." Yue Chan said quietly, not panicking and instead like a water ripple. There was no anger to be seen.

"How could I dare? I am just proving my words with action." Shi Hao had a sincere look on his face, grabbing her hand without letting go.

Yue Chan jerked her hand again, but in the end, she couldn't move it away at all. Her entire jade like arm shone, becoming snow white and resplendent, but under Shi Hao's strength, she found it difficult to struggle free. n((σ).Ⅎ-(ℰ).l.b/-l/-n

"Even though there are misunderstandings between us, but since you saved me today, I've seen your true intentions of being unable of abandoning me." It was clear that Shi Hao's skin became another inch thicker as he spoke without minding her words.

However, he quickly became discontent, saying, "Yue Chan, what are you trying to tell me? Even though I am showing you such emotions, you are actually breaking out with goosebumps? It truly hurts my heart!"

"Stop being so sickening!" Yue Chan no longer concealed her expression. She knew that in order to deal with this shameless fellow, she definitely couldn't show him any good expressions.

Unfortunately, even though her bone texts swirled about, she was still unable to shake off Shi Hao. It was because the mysterious force Shi Hao cultivated after ingesting the Golden Bodhi fruit was used, neutralized all of the symbols.

“Wife, did you forget our affections of the past?” Shi Hao asked serious.

When she heard this way of address, Yue Chan wanted to give him a beating. She truly felt that this fella was too much of a scoundrel, giving her quite a headache.

“Sometimes, I really feel like I can’t recognize you...” She said softly.

She had seen Shi Hao’s heaven warping appearance, how he fought against the seven deities, clearly knowing that he might not survive, yet he still pressed forward. Just how solemn and stirring of a scene was that? She also knew that his aura devoured mountains and rivers. When he was the Stone Emperor, he hacked down Heaven Mending Sect, Western Sect, Immortal Mountain, and other powers, destroying the foundations of great sects one after another.

Back then, he truly possessed the aura to intimidate everyone. He was like a monarch ruling the world, looking down on everyone. He was, back then, truly a young supreme being.

Only, once this fella became unoccupied, he definitely angered man and god alike. His vicious, imposing, and mighty appearance only appeared when absolutely necessary.

Shi Hao shook his head and said, “Everyone only lives one life in this world, why is there a need to always wear oneself out? Yue Chan, you are thinking too much.”

These words were spoken rather absentmindedly, but Yue Chan found it understandable, and she knew that this was still, in the end, that person that stirred up endless storms in the lower realm.

“Let’s just forget about our past misunderstandings then.” Yue Chan said. Her body was like a divine lotus, sparkling and flowing with otherworldly light.

“Since the misunderstandings have been unmasked, we naturally have to celebrate!” Shi Hao smiled. He opened his arms up to directly embrace her.

The imprint on her forehead shone again. It trembled slightly and became extremely brilliant, releasing a blinding radiance!

“Stop! What are you trying to do!” Shi Hao quickly stopped himself.

Yue Chan glared at him and softly said, “Your serious self has more character than your mischievous self, and better as well.”

“Then I will watch myself better. In the future, my heroic aura will be matchless!” Shi Hao boasted shamelessly, and then he even directly expressed it, directly grabbing her waist and walking outwards.

“You scoundrel!” Yue Chan’s couldn’t remain calm anymore, falling from the fairy high up down into the world of mortals. She was truly humiliated and angry. Nothing she did brought any results.

“Aren’t I earnestly expressing myself?” Shi Hao said. Then, he stopped, saying, “We even carried out a wedding ceremony. Could it be that you still want to marry someone else?”

“Enough already. Let’s discuss a few true matters.” Yue Chan said, stopping her footsteps.

Even though Shi Hao’s skin was thick, he still wasn’t a truly despicable person who was impossible to deal with. When he heard this, he loosened his hand and walked next to her.

“What exactly did you end up doing after coming into the higher realms?” Yue Chan asked.

Shi Hao didn’t try to hide things, talking about everything he could talk about.

Yue Chan was shocked. He was Huang? She was just too shocked, being speechless for an extremely long time!

“I presume that soon after, your identity will still be ultimately leaked. I do not believe the Celestial Clan will keep it a secret for too long,” she said softly.

Yue Chan was quite honest as well, talking about her own circumstances. She was hiding from her main body. From how things looked right now, she wasn’t the main body’s opponent. She was hiding from a fate of destruction.

“With me here, this isn’t a problem. I’ll capture her in the future!” Shi Hao said, his voice firm and resolute.

“You cannot look down on her.” Yue Chan shook her head. Then, she pointed at the place between her brows. “Once her divine senses completely undergo rebirth and revive, she will be difficult to defeat.”

Shi Hao wanted to understand more about it, but Yue Chan only said that this was an innate ability.

The two chatted for a long time. They learned about each others’ experiences in the higher realms.

“The two of us are both hiding from powerful enemies, unable to reveal our true identities, and we both came from the lower realm. Don’t you feel that we are quite connected by fate?” Shi Hao laughed and said.

Yue Chan was a bit moved as well, and there was a type of empathizing feeling.

“Can you become a bit more decent and have a bit more of a heroic air? It’s way better than how you are now!” Yue Chan said.

“Okay, I definitely will!” Shi Hao said. Then, he added, asking, “The marriage we had before, are we really going to pretend that never happened?”

Yue Chan’s hand held her head. She truly couldn’t beat him. Her skin was sparkling white, flowing with symbols and precious light, suppressing her annoyance.

“If you win during the gathering of hundred rivers, the battle of three thousand provinces, then I’ll admit that a wedding ceremony was held between us.” In the end, this was what Yue Chan said.

“That easy?” Shi Hao asked.

“Can you not shoot your mouth so much?!” Yue Chan truly couldn’t put up with him anymore and directly berated.

“Who am I? In the future, I will definitely rise up and wipe out Heavenly Country, Underworld Earth, Immortal Palace, and slaughter my way into the uninhabited area to understand the source and secrets of the highest existences. Is such a thing really too difficult for me!” Shi Hao said cockily.

“This world is far larger than your imagination.” Yue Chan sighed and said. She pointed into the sky and then said, “Even the Immortal Ancient era has become a thing of the past, forever buried in the annals of history!”

Towards this, Shi Hao was quite interested. He inquired about this, but unfortunately, Yue Chan only knew bits and pieces.

The two then chatted for another while. When they mentioned the three thousand provinces great battle, as well as various trump cards, Yue Chan felt rather regretful. She still hadn’t discovered the flame she wanted.

“What kind of flame do you want to use to become a deity, to ignite the self?” Shi Hao asked.

“I draw from a lunar force, resonating with the moon. I wish to find a divine flame related to it,” Yue Chan said.

Shi Hao shook his head and said, “That’s too bad then. Otherwise, I know a divine flame in Fire Province’s grasslands that is blue-green like the sky, extremely mysterious and powerful. I could only run away when I encountered it.”

“What did you say?” Yue Chan was shocked. Then, she widened her eyes as she looked at him, hurriedly asking about it. Her current appearance conflicted a bit with her normally otherworldly temperament.

Shi Hao briefly described it, talking about the various characteristics of the blue-green flame.

“Green Lunar flame!” Yue Chan was shocked as she spoke these three words.

“Are you sure?” Shi Hao was shocked.

“If your descriptions were not inaccurate, then that should be it. The blue-green like sky is actually an enormous moon that covers the sky!” Yue Chan said.

Shi Hao was shocked. After carefully thinking about it, it really might be the case.

He never thought that something he randomly brought up would be what Yue Chan needed the most, a rare and precious flame.

“Is it really special, that valuable?” Shi Hao asked.

Yue Chan nodded her head seriously and said, “It is at the same level as Scarlet Sky flame and Heaven flame, one of the world’s rarest divine flames. It is incomparable, and as long as one could obtain it, they could display a perfect evolution. Their future accomplishments would become limitless.”

“They are both flames, yet why is the difference so great?” Shi Hao muttered.

At the same time, he thought about the flame that was even more mysterious than the one that came from the nine dragon skeletons and bronze coffin. What kind of origin did it have?

“The rare and precious flames are special because their origins are exceedingly extraordinary and shocking.” Yue Chan said.

Shi Hao now had his interests piqued. He asked her to speak about it in more detail.

“It is because they came from the Immortal Ancient era! This is something that most people acknowledge.” Yue Chan said.

“What?!” Shi Hao seemed to have lost his voice.

Yue Chan spoke extremely seriously, explaining earnestly that the most shockingly precious flames were suspected to be left behind after a true immortal fell. Their bodies would be burned up into ashes, only leaving behind a flame.

“This... can’t be, right?!” Shi Hao was truly stunned.

Yue Chan then said, “Those are just speculations and not truly proven. There were just a few people who found some clues to the truth while unearthing some Immortal Ancient ruins.”

Shi Hao was stupefied. What kind of background did these rare precious flames have?

For example, the great Scarlet Sky flame was rumored to very well have been left behind by the great Scarlet Sky Lord after he fell.” Yue Chan said.

Shi Hao’s mind was greatly shaken. Their origins were that great?

“Meanwhile, the Green Lunar flame was rumored to have been left behind by a goddess named Qing Yue. Her status was equivalent to Scarlet Sky Lord.” Yue Chan explained a step further.

These words left Shi Hao greatly shocked. There were actually such terrifying secrets!

Only, there was no way to truly prove this. They were deduced from clues excavated from Immortal Ancient secret realm, and a lot of it were just speculations.

“After Scarlet Sky Lord’s fall, the flame he left behind was not given the name immortal flame. What is the deal with the chaotic flame and other flames that have the reputation of being immortal flames then?” Shi Hao asked.

“Immortal flames, chaotic flames are not left by true immortals after their death. They are extremely mysterious, and it is difficult to say where they came from.” Yue Chan said.

Shi Hao nodded. Eventually, both him and Yue Chan left this place. They decided to collect the Green Lunar flame together in a few days.

“Will you be able to handle it?” Shi Hao felt like it was simply impossible to subdue.

“A predecessor has left behind their experiences, not using forceful means. There was a secret method that was produced. When the time comes, I will tell you.” Yue Chan said.

When they left the lake and passed through all types of formations to emerge, someone saw them walking shoulder to shoulder. They were immediately shocked.

“Junior sister Qing Yi, you went to the immortal pool, he...”

That person found this simply impossible to believe. It was because Shi Hao still had beads of water in his hair and giving off the aura of the immortal pool, leaving him shocked. This was... joint bath?

"Today is an even numbered day. As a male, you actually dare to barge into the restricted area and be together with junior sister Qing Yi?!" Someone berated. They were people from the enforcement team. When they saw this scene, they were greatly shocked.

"What are you yelling about? This is my wife!" Shi Hao shouted. He then directly embraced Yue Chan's small waist, standing with her and looking at everyone.

"Let go!" Yue Chan's cheeks flushed with color. This fella really was too improper.

"I know who you are! You are that bastard who was doing business at the courtyard entrance?" Someone cried out.

"What? It's that person from the shoddy monastery? He actually ran here to harass my Goddess Academy's ranked beauty! Unforgivable!" These people were furious.

It was clear that they also knew how formidable he was. They called people over for assistance.

"I'll come looking for you in a few days." Shi Hao said to Yue Chan. Then, while holding the black metal tile, he turned into a streak of light, disappearing from this place.

Goddess Academy was in chaos. Even though the night was already deep, there were still great waves being stirred up. Quite a few students hurried over.

"This really is beyond tolerable. That notorious inheritance really is going to make a return? Moreover, he dares to lust after junior sister Qing Yi!"

The group of youngsters were extremely riled up. They truly wanted to immediately leave to challenge Supreme Being Dao Rite.

Shi Hao didn't concern himself with all of this. He left Yue Chan to grind her teeth alone.

Inside the shoddy mountain gate, Qi Daolin was sitting there.

"Dao master, I want to ask you about something. Do you know anything about nine dragon skeletons and a bronze coffin?" When he returned, Shi Hao's head was filled with thoughts about divine flames. He was going to help Yue Chan in a few days to acquire the Green Lunar flame, while he himself was even less willing to give up the mysterious precious flame in that copper coffin.

When these words were spoken, Qi Daolin stood up with a teng sound, unable to stay calm!

Chapter 754 - Group of Idiots

Qi Daolin's golden robes fluttered with sounds. His expression became serious, and within his eyes, there were the sun, moon and stars fading in and out of existence. Strands of auspicious energy curled about above his head.

"You do know?" He asked seriously.

Shi Hao's mind jumped. The nine dragons and bronze coffin actually produced such a huge reaction with this old man. He really wanted to know, and perhaps now, he could understand some of their secrets.

"I heard some people discussing it in Goddess Academy." Shi Hao didn't immediately reveal the truth, because the other party had a really bad reputation, doing all types of disgraceful things. He was scared that he might be tricked again.

"Who mentioned it?" Qi Daolin asked.

"The three thousand province great battle is drawing near, and a few geniuses in Goddess Academy were discussing various supreme treasures. Someone talking about this, saying that it was terrifying to the extreme." Shi Hao said, and then he asked for guidance again.

Qi Daolin looked at him. He didn't say anything for a long time.

"Dao master, what's wrong? Please help me dispel my doubts." Great waves were stirring within Shi Hao's heart, but his face remained calm.

"Forget it. Pointless even if its whereabouts are known. No one can open it, only burying more people within." Qi Daolin released a long and drawn out sigh as if he relieved himself of a great pressure, not acting as serious as before.

"What kind of secrets does it have exactly?" Shi Hao asked.

"It is called Three World Coffin" Qi Daolin said.

Shi Hao was immediately shaken up. This was the first time he heard of this name, hearing about it when he first entered the higher realms. He even more so almost got caught up in its disturbance.

Immortal Place inheritor, Zhen Gu, with, and a few other exceptional talents were looking for a silver-haired woman, leading to her being seriously injured. There were rumors that if it wasn't related to the Supreme Hall, then it was the Three World Coffin.

At that time, Shi Hao had only heard about it while passing by. The Three World Coffin was a supreme treasure of the higher realms!

He never thought that the so-called nine dragons and ancient bronze coffin were precisely the Three World Coffin. The name was quite unique. He didn't know if it truly contained some extraordinary meaning.

"As for this thing, my understandings of it is quite limited as well. However, I do know that it is extremely terrifying and mysterious, originating from the Immortal Ancient era." Qi Daolin said in a long and drawn out manner.

Shi Hao believed these words firmly. He had previously opened up a corner of the coffin and saw that terrifying great war scene. Shouts of slaughter shook the heavens, and it was as if True immortals descended into the world to participate.

"My sect only has a single person each generation, even though I did not truly pay my respects and enter..." When Qi Daolin spoke up to here, he felt extremely emotional, and there was melancholy as well.

Shi Hao didn't interrupt him. Even though he already mostly guessed what kind of inheritance it was, he didn't say anything.

"The nine dragons and bronze coffin has a bit of connection with my martial sect." Qi Daolin brought up that inheritance, saying that the inheritance's unmatched elder had previously searched for this coffin for many years.

It was also precisely because of that reason that this highest elder had neglected many other things, not leaving behind a powerful inheritor, causing the inheritance to fall.

"What did that elder previously deduce?" Shi Hao asked.

"He had confirmed that the copper coffin cannot be opened, or else even those at the very peak might fall." Qi Daolin's expression was serious, and there was a trace of regret as well.

In the past, that elder had searched for endless years, and then he finally found it. When he opened the ancient coffin, a few strange events happened that caused his dao foundation to be seriously injured.

Following that, he faced the pursuit of great enemies. Immortal Palace's unmatched expert that had been asleep since the ancient times revived, and together with several others, they surrounded him to wipe him out.

In the end, he still fell.

Otherwise, with his tremendous strength, he might have some of his long life left even in this present era, not necessarily turning into dust. This was also precisely why he wasn't in such a rush to bring up a powerful inheritor.

All of these unforeseen events arose because of the nine dragons and bronze coffin!

"The entire Immortal Ancient era was buried underneath..." When Qi Daolin spoke up to here, he looked into the sky, his eyes deep as if he was gazing into the world beyond at something. He said softly, "Only the nine dragons that pulled the copper cauldron was left. Everything else was buried behind."

He seemed to be talking in his sleep as he spoke about the past.

His master, that unmatched elder, for the sake of unraveling a great ancient secret and seeking the Immortal Ancient era's truth, chased after it for half his life. Unfortunately, he died while nursing grievances.

As such, this became something that gnawed at Qi Daolin's mind.

Shi Hao became silent. This elder had a notorious reputation that was extremely widespread, but through their interactions, he began to feel like he might not go so far as to swindle him. However, he still didn't speak about the truth.

It was because he was quite worried. If Qi Daolin, due to these thoughts that had always been preoccupying him, went to face the Three World Coffin without fearing the consequences, the results would be too horrible to contemplate.

Shi Hao decided that he would talk about it in a few days. He would wait for the elder to calm down to avoid something unexpected from happening.

“Dao master, do you know any methods of subduing rare divine flames?” Shi Hao wanted to ask for guidance on this problem. It was because it was extremely important. He needed an answer to this issue urgently.

“Oh? You discovered a precious flame with which you want to ignite your body into divinity?” Qi Daolin’s curiosity was piqued.

“With the battle of three thousand provinces near, I’m just preparing a bit ahead of time.” Shi Hao said. He felt a rather great headache. He saw two flames, yet he was at his wits end, unable to subdue them.

Even though Yue Chan said that there was a method that she would tell him when the time came, he still felt like it wasn’t too dependable.

“Wu, as my Supreme Being Dao Rite’s inheritor, this time, if you cannot rise up in the battle of three thousand provinces, I will directly kick you out!” Qi Daolin narrowed his eyes and said.

“Why do you have to do such a thing?!” Shi Hao complained. This was simply more terrifying than an evil cult, having his ‘dao destroyed’ at every turn, not for a mistake, but rather because of some freakish requirement being too hard to obtain.

“If you are lower than the top ten places, then don’t return and just end your own life.” Qi Daolin said.

“Yi, didn’t you want me to be number one?” Shi Hao was stunned. Didn’t this fella always have a high standard? Why did it seem a bit more lenient this time?

“The three thousand provinces have endless heroes and heavenly talents. Even exceptional talents will come out in batches. Entering the top ten is easier said than done, especially this time.” Qi Daolin sighed. It was clear that he knew a few matters, understanding quite a few secrets.

“Even that fella from Immortal Palace, the one that was rumored to have suppressed the younger generation until they couldn’t breathe, looking down on all others his age is someone who I will definitely suppress, yet you still don’t think that I will be in the top few, or perhaps the be the first?” Shi Hao never lacked confidence. Of course, in the eyes of many, it looked more like he loved to shoot his mouth.

“I already said that if you want to be someone of my Supreme Being Dao Rite, you have to defeat Immortal Palace’s inheritor. He is strong, but not the biggest threat.” Qi Daolin said.

“Don’t tell me that even though he is so strong, the number one or two in this generation, he cannot even enter the top ten?” Shi Hao was shocked.

“Top one or two? Who is putting up these ranking? Absolute bullshit!” Qi Daolin glared, not acknowledging this at all.

Shi Hao was shocked. During this great confrontation of geniuses, could it be that Immortal Palace’s inheritor wasn’t among the top group?

"You have to remember that in the wider world, there are always people more talented than yourself. Who dares to call themselves number one? In the past, there were many geniuses who had put this title on themselves, yet soon after, someone stepped out, defeating them. Since the ancient times, who dares to unbridledly call themselves unrivaled?!" Qi Daolin was greatly stirred up.

"Me!" Shi Hao said with endless confidence.

Qi Daolin was angered so badly he laughed. "Fine. Youngster, if you don't enter the top ten, watch how I deal with you!"

Shi Hao mumbled. "I say, dao master, you are praising others too much, ruining your own awe-inspiring dignity. Why is it called the Supreme Being Dao Rite? It's naturally to be number one under heaven, and only this type of attitude is good. Didn't you say this before too? Why are you suddenly lacking in confidence once the great battle of three thousand provinces is brought up?"

"The goal I established for you is for you to reign supreme in the future. You need to accumulate and look to the future and not struggle with the present. The great battle this time, I do not want you to... send yourself to death!" Qi Daolin seriously warned.

The notorious Qi Daolin who had always had strict requirements for Shi Hao, wishing him to walk towards the peak, at this moment, actually lowered his attitude, leaving Shi Hao shocked.

It was clear that the other party had good intentions, worrying that he might encounter a disaster, and that was why he seriously explained and spoke in detail.

"Is it because of those young creatures from snow covered hidden inheritances?" Shi Hao asked. He had heard that there were ancient inheritances that had exceptional heavenly talents who could dominate all of their peers, rarely meeting opponents.

"Correct, but also incorrect." Qi Daolin shook his head. He told him that this was a subject best avoided.

If it was just the young creatures that were from hidden inheritances, then that would be that, still manageable. Immortal Palace inheritor would be enough to rank in the first group, and entering the top ten wouldn't be a problem.

What was terrifying was that there were a few other secrets.

"The great battle of three thousand provinces will be held once every tens of thousands of years. It has continued from the ancient times until now. The main reason is because there is too much natural luck within. Whoever obtains certain things will become undying and tower above all others at the extreme peak for tens of thousands of years to come!" Qi Daolin sighed and said.

Shi Hao quietly listened without interrupting.

"Do you think the extremely powerful creatures are from those snow covered hidden inheritances? I am saying that it's something else!" Qi Daolin's eyes shone, their radiance sharp like lightning.

Shi Hao didn't understand. What was the difference?

"The snow covered inheritances I am talking about are those that have been sealed under icebergs since ancient times, those buried under snow caves. Those great icy and snow inheritances have suppressed a

few young supreme beings that you cannot fathom, those that are enough to overlook the past and future!

“What?” Shi Hao finally couldn’t hold back and released a cry of alarm.

“All for the sake of transcending and obtaining the great natural luck left behind by the Immortal Ancient era, there are people who have been waiting this entire time, laying dormant to appear at the most suitable time.” Qi Daolin said quietly. Even he felt rather helpless.

Shi Hao was stunning enough, but compared to those young supreme beings that have accumulated since the ancient times, it might not be enough.

However, Shi Hao curled his lips. He was full of self-confidence, saying, “Who am I? Turns out its a group of fellas like that. I will beat them one by one when the time comes. I will put down men, and women I will bring back to warm the bed!”

Pu!

Qi Daolin almost coughed out a mouthful of old blood. This kid was spouting his mouth a bit too far! There had to be some limit, right?

“What do you understand?” He berated.

Shi Hao’s lips twitched. “Isn’t it just some beansprouts in the greenhouse, those that survived the frost? I’ll just stir-fry them later, turning them into appetizers.”

“You should stop spouting your mouth before going too far. One should have limits even in their confidence!” Qi Daolin instructed, saying, “Not a single one of those that have been sealed within those icy mountain inheritances are greenhouse flowers. There are some that have participated in more than one three thousand provinces great battles.”

“What?!” This time, Shi Hao was completely shocked.

“Those people have almost all participated in this type of great battle, and they also obtained the number one place in their respective eras! These are eras where monarchs overlooked the world, looking down on the three thousand provinces!” Qi Daolin stressed seriously. Only, in their respective generations, they didn’t find the so-called greatest natural luck, causing them to return without any achievements.

“Are you serious... a group of number ones in history?” This time, Shi Hao’s expression became serious. He felt a tremendous pressure. The upcoming great battle will definitely be incredibly difficult. There was going to be a great bloody road to march through.

“Rumor has it that there is someone who has participated ten times, and he has the power to be number one both past and present!” Qi Daolin spoke again.

There was someone that appeared in different eras, participating ten times, becoming number one each time, first under heaven!

When Shi Hao heard this, he felt his fine hairs stand up one after another. His body became cold. Was he even going to make it out of this alive? There was a group of freaks that were going to appear!

Chapter 755 - Terrifying Opponents

"Something's not right!" Shi Hao was quite clear on one matter that didn't seem to match up with what Qi Daolin said, making his words a bit hard to believe.

"What is it?" Qi Daolin asked. He sat on a large bluestone boulder, his dao robes fluttering about. There was an immortal aura to his appearance.

Shi Hao said, "There is a premise for the three thousand province great confrontation, and that is that the participants cannot exceed the supreme expert realm. It is something inviolable, and it is also because of this that many powerful creatures suppressed themselves, waiting to breakthrough after entering that immortal earth."

There was a divine gate that only allowed those at the supreme expert realm to enter, and once one entered, there wouldn't be any more restrictions. Even if they broke into the heavenly deity realm afterwards, it could only be said that it was your own natural luck.

Qi Daolin nodded and said, "You are correct."

"Since that is the case, those freaks that participated in more than one great confrontation and obtained the first rank, how did they do it? They have to break through into the Divine Flame Realm, or else how can they rule the world and look down on the higher realms' three thousand provinces?" Shi Hao raised this issue.

Once they became a Divine Flame Realm expert, how were they supposed to enter in this world? They clearly didn't meet the qualifications!

As for those that participated in several great decisive battles, that was even more unlikely. As for the ten time participant the old man spoke about, there was no way that could happen.

Qi Daolin sighed and said, "That is also the reason why I only wished for you to be in the top ten ranks and not demanding the top spot. It is because they are too terrifying, to the extent where I can even allow you to appear in the first twenty places, as long as you keep your life and wait for the future, accumulate wisdom and growth. After all, you are still too inexperienced..."

"Hey, dao master, you can't speak randomly. You are looking down on me too much! Is the one that is supposed to be number one past and present going to be looked down on like this?" Shi Hao was discontent. Of course, he was extremely narcissistic as well.

"The preconditions you spoke of will naturally be complied with." Qi Daolin first nodded his head, acknowledging those conditions. Then, he looked at Shi Hao and said, "They do not violate the rules. Do you know why?"

"Don't tell me that they were frozen stupid, causing their strength to regress..." Shi Hao said. At the same time, his mind shook, finally understanding.

Qi Daolin became speechless, and then he sighed. "When you are suppressed and close to dying, you wouldn't be so optimistic and self-confident! You will discover just how terrifying those people are."

He paused, and then he said, "Those people all had great imposing bearing. After participating and coming back, they directly destroyed their Divine Flame Realm, falling down and then restrengthening themselves.

"Truly... a group of freaks!" Shi Hao knew that it wasn't that simple. So this really was how it was after all! These people were too vicious, all of them daring to do this.

It was rumored that once one became a deity, they couldn't ruin their own cultivation because it was too dangerous. Falling out of the divine dao foundation was life-threatening. Normal people definitely couldn't test it.

Meanwhile, these people could rebuild their cultivations, all for the sake of the battlefield's conditions.

"There are some that rebuilt their cultivations several times. Can you imagine how terrifying their divine dao foundation is? It is continuously changing..." Qi Daolin sighed and said. Even he felt that it was terrifying and just too shocking.

Shi Hao frowned. The great battle was extremely dangerous, and it would definitely be incomparably difficult. He had to carve out a path through blood.

"It is to the extent where some are even more thorough, directly cutting themselves down to the Blood Transformation Realm, starting all the way from the beginning!" Qi Daolin added.

When Shi Hao heard this, his expression truly changed. To repeatedly destroy one's foundation and start over again, this truly was abnormal and terrifying. One can imagine how steady and exuberant that type of dao fruit would be.

His expression was not good. "Old man, what are you trying to say? Are you purposely splashing cold water on me?"

"Brat, I am warning you that those people are ridiculously astonishing, shocking both past and present. There are few equal to them, unless they are of the same sort. I want you to understand that if you encounter them, it is enough if you keep your life. Do not try to be brave." Qi Daolin warned.

Shi Hao thought to himself. His brows locked together tightly. This group of people truly reached a certain peak. Regardless of which one of them he encountered, everything pointed towards disaster.

However, he didn't feel discouraged. After thinking about it for a bit, he became brimming with confidence again. "That is because they feel like they still have flaws, which is why they crippled themselves. In the end, they are still not enough. Great strength is not determined by how many times you reconstruct your divine dao foundation. For example, like myself, every cultivation realm is perfect and evolved to the limit. I don't have to cripple my own divine dao foundation and can similarly suppress them!"

"Child, aren't you just too narcissistic?" Qi Daolin was amused.

"Please believe that I will be able to!" Shi Hao said.

"Haha, fine, I am waiting for you to show your power. Just like you said, suppress men and bring back women to warm the bed." Qi Daolin smiled.

"Absolutely!" Shi Hao nodded.

"You really are something. Why don't I stir things up a bit and tell the world about your confidence ahead of time?" Qi Daolin said.

"This... I don't want to become a public enemy..." Shi Hao said self mockingly. Suppressing men was one thing, but women... if he said it out loud, he truly might be attacked by everyone.

Qi Daolin seemed to have thought of something. "I'll give you an example to illustrate how unordinary these people are. There is one person that only participated once, but he obtained the first place while remaining at the supreme expert realm the entire time."

He told Shi Hao that every single one of them stood out from the masses, that the path they walked was different. One didn't have to cripple their divine dao foundation and rebuild it.

"I won't think that much anymore. When the time comes, I'll just welcome it with my most powerful state!" Shi Hao said, steadying his conviction.

Of course, he didn't forget to shoot his mouth a bit more.

Then, Qi Daolin passed down onto him the Flame Immersion art, Flame seeking method, Flame sacrificing dao... they were all related to rare precious flames.

In summary, he wasn't forcefully seizing the divine flame, because some of those divine flames were more powerful than even deities. It was too difficult for supreme experts to subdue them.

Especially an 'ancient flame', for which even burning heavenly deities to death wasn't a problem and was instead easy enough of a task.

Generally speaking, the Divine Flame Realm was borrowing flames to ignite one's divine source, one that would never go out, establishing an unmatched dao foundation.

This process wasn't one of enslaving a flame, nor was it merging with it, but instead borrowing the divine dao power to refine his body, cleansing his divinity and foundation.

Of course, there was another saying, that the so-called igniting divine flame was actually planting a divine dao seed. The best flame will naturally produce the most plentiful fruit.

"Remember, don't try to subdue it but instead communicate with it to obtain its acknowledgment. Allow some conditions and pay it back in the future." Qi Daolin imparted various techniques to Shi Hao, among which the Flame sacrificing dao was the most important.

The same flame, could have, throughout history, helped countless geniuses establish their foundations. It wouldn't completely merge with a certain person.

"If you can find the best 'ancient flame', the things I will teach you in the future will be of great use." Qi Daolin said.

What he then taught weren't techniques, nor were they bone texts and other things like that, it was instead a type of sacrificial language. It was ancient, mysterious, and deep, like the chanting of scriptures.

“What is this?” Shi Hao was quite shocked.

“It is a type of language, one that has been passed down since the Immortal Ancient era, excavated from the ruins and later deciphered. It is used for sacrifice,” Qi Daolin said.

Rumors had it that ancient flames could connect past and present, to the extent where it could even form a vague connection.

“This...” Shi Hao found it difficult to calm down.

“People have offered sacrifices to the divine flames since the Immortal Ancient era.” Qi Daolin said.

“The so-called ancient flames are which ones?” Shi Hao asked.

“It is the precious flames that have been left behind since the since the Immortal Ancient era, such as the Heaven flame, Ten thousand evil flame, and others. They are the greatest flames in the world,” said Qi Daolin, pointing out that only these flames could be communicated with through the sacrificial method, establishing a connection.

He told Shi Hao that the inheritances that could grasp these types of ancient flames were all extremely old, all the unrivaled great sects. Normally, no one could learn about them as they kept this information secret.

After digesting this information, he began to earnestly ask for guidance. He asked Qi Daolin if those ‘ancient flames’ truly were formed after those True immortals fell.

“There is this type of saying, but there is a lack of evidence.” Qi Daolin nodded.

In addition, he had some opinions of his own on this matter. He believed that it should be the ultimate substance left behind after a True immortal died, and that was why it could be considered a type of flame. Igniting oneself with them would establish the most powerful great dao foundation.

In addition, Qi Daolin believed that people had done this since the ancient times, to the extent where it was even more thorough than in the present age. From the true meaning he deduced from the ancient sacrificial language, the people back then directly planted the flame left behind by the True immortals into their body and stirred it on with secret techniques to strengthen their bodies. n.-0v**ELB**1n

“Not one’s own, still not one’s own in the end...” After hearing this, Shi Hao frowned and said.

“What kind of precious flame did you discover?” Qi Daolin asked.

“Green Lunar flame.”

Qi Daolin was shaken, truly moved. It was because this was a well known ancient flame, one of the most powerful ‘flame sources’. It was just too well known.

“From the clues that were obtained after some ruins were excavated, it should be what goddess Qing Yue left behind after she fell. This was an extremely well known True immortal during the Immortal Ancient era.”

When Shi Hao heard this, he was now sure that the Green Lunar flame was formidable!

Qi Daolin spoke, saying, "Wu, I originally wanted to look for the Great Scarlet Sky flame for you, never expecting of you to have discovered the Green Lunar flame that is comparable to it."

Shi Hao said, "Great Scarlet Sky flame? When Goddess Academy was exchanging with Divine Cliff Academy for the seven-colored Immortal gold, they only seemed to have provided a few clues for this flame."

"I precisely wanted to obtain it for you after receiving the news." Qi Daolin nodded and said.

Shi Hao felt inwardly grateful, but he also felt that this dao lord was extremely domineering. No wonder his bad reputation was so widespread. After he obtained clues about the two academies' exchange, he actually dared to go fight over it.

"Since you have it, then I won't get myself involved. Acquiring it yourself is more meaningful." Qi Daolin said.

Shi Hao opened his mouth, but he didn't say that this was to help Yue Chan acquire the flame. He didn't wish for Qi Daolin to clash with the two academies and take risks over the Great Scarlet Sky flame.

"The Great Scarlet Sky flame was formed after a sect master fell. Its wonderful uses are endless." Qi Daolin felt rather regretful that he couldn't take action.

Then, Qi Daolin had Shi Hao earnestly make preparation. He didn't have to carry the great mountain to refine his flesh, bone text, and spirit, temporarily allowing him a break from cultivating the Eight ninth heaven art. Focusing on acquiring the ancient flame was more important.

For the following few days, Shi Hao continuously cultivated in isolation, consolidating the fire techniques Qi Daolin passed down onto him as well as studying the sacrificial language that had existed endless years ago.

He chose a quiet place to carefully study everything. He also avoided all noisy and troublesome places, because there were many young experts that appeared in Supreme Being Dao Rite's shoddy monastery gate.

Five days later, Shi Hao came out and headed for Goddess Academy to look of Yue Chan. They were going to move out together to acquire the Green Lunar flame.

He was quite hopeful, because this was the first test. If he succeeded, he could still go to the bronze coffin to collect the even more mysterious flame source.

Chapter 756 - Moving Out Together

Goddess Academy, a place where divine mountains and an enormous city were interconnected. Waterfalls cascaded from the mountains above and silver radiance surged like dragons. There were ancient trees that towered into the heavens, taking root on the cliffs. As for the city district, the buildings were imposing, its streets vast. It was extremely magnificent.

"Yi, why does that person look so familiar?" One individual stopped moving and looked towards a rear figure walking into the distance, revealing a look of contemplation.

"You also feel like you are seeing someone you know?" Another person revealed a look of shock. Then, he cried out in alarm, "Damn it, it's him, he came back!"

This place became chaotic. A few people recognized that Shi Hao was the one doing 'business' outside the academy entrance, threatening to be able to bully low grade juniors or beat up high grade seniors.

This group of people felt like the roots of their teeth became itchy, because they had all already guessed that he came from that shoddy mountain gate, that notorious inheritance. He was just like his dao master.

This was especially the case when Lu Ming, senior brother Liu and a group of others went to the Supreme Being Dao Rite to visit historical remains. They were dealt with so miserably. When news came back, it drew everyone's anger.

"Hurry up and chase after him! Don't let him get away!"

A large group of students realized the truth. With hu la sounds, they all chased after him, wishing to cut Shi Hao off and eliminate this evil together.

Unfortunately, no matter how they tried, it was all futile. The speed of the person up ahead was too fast. While weaving left and right, he disappeared into the depths of the academy with just a few steps.

"Daring and too unbridled! After stirring up trouble, he still dares to enter my academy. This is simply an undisguised provocation! Brothers and sisters, hurry up and look for him, do not let him get away!" A few people proposed. They all moved out together.

In fact, there was already a large group of people who moved out during these past few days, heading towards that weed covered ruins, the Supreme Being Dao Rite, to 'invade'.

Regretfully, that place was completely empty, and no inheritors of that sect could be seen.

"Someone up ahead discovered signs of him." A senior brother received this report and hurriedly informed everyone. The large group of people once again chased after him in a grandiose manner.

This was quite the sight, like rolling snowballs. More and more people showed up, all of them marching forward.

Soon after, someone's expression changed, because this fella's destination was clear, actually heading for the female students' residences. Was he deliberately bringing hatred onto himself?

"Too shameless, actually daring to barge into the female residence in broad daylight. He really is an evil disciple from that inheritance!" There were some who were resentful and angry, shouting out like this.

There were even some people whose expressions turned strange, because they recalled the events several nights ago. Someone spread the message that the evil disciple had previously walked next to the ranked beauty, fairy Qing Yi. They seemed to have walked out from the immortal pool together.

This news had only created a small commotion, because people didn't believe it. They only thought that this evil disciple's intentions were not pure and had bad thoughts, causing the misunderstanding.

“Are you kidding me? He really went inside! Dammit, this fella actually barged into the female residence! Why did the formations become useless, unable to stop him?”

Someone cried out as they watched Shi Hao head for that holy land himself. Meanwhile, he was strutting about as he entered. The formations that were set down didn’t shine, and the bone texts restrained themselves.

“Too despicable! What kind of place is he treating my Goddess Academy to be? He even dares to barge into the clear pure lands of our female students, unforgivable, this matter cannot be let off!”

This definitely seemed like the last straw. The group of youth were all stirred up, and large groups of people came. They demanded an explanation from the people standing guard here, asking them why he was allowed inside.

“He has a special command tile from my academy that allows him to move without obstruction. He did not violate any rules.” The one guarding this pure land felt rather wronged, undeserving of this criticism.
n)/o-)v-/E--L((B-/l--n

No one believed that he received this great treasure honorably. He definitely forcibly seized it over through some despicable methods. This immediately made them all feel even more righteous indignation.

This place became chaotic. There were now more and more people, and even the enforcement team was startled. They hurried over, claiming that they were going to clean out a ‘scum’.

Of course, the female residence was also riled up. Many girls came out to inquire about what was happening.

In this place, there was a small azure lake. Ancient trees shone, and fine residences rested below the cliffs within pine trees. It was indescribably secluded and refined.

Shi Hao’s trip proceeded smoothly, not being obstructed along the way. He began to curse silently, wondering if it was precisely this command tile that enabled Qi Daolin to almost steal away the academy head’s great-great-granddaughter.

Even though he was aware that there was some kind of disturbance behind him, he didn’t mind it too much. Soon after, he arrived at the spiritual mountain Yue Chan resided in. This place was curling with strands of auspicious energy. It was auspicious and peaceful.

“It is about time to leave.” He secretly sent out this message.

Yue Chan appeared under multicolored mists, her fine black hair fluttering about and her eyes like stars. She had a cold aura and snow white skin, her long dress fluttering about in the wind. As she stood on the spiritual mountain, there was an indescribable outstandingness and holiness to her.

“Wife, you’ve gotten prettier!” Shi Hao sighed with amazement.

If it was anyone else, when faced with this divine beauty, they would definitely act extremely carefully, not willing to be rude, perhaps even feel ashamed of their inferiority. However, Shi Hao clearly didn’t belong to this group.

Yue Chan's face was calm. She looked elegant and exceptional, not berating him or arguing with him. It was because she deeply understood this fella's natural disposition, that all of that was useless.

"Fifteen years since we met, it truly makes one long to meet again." Shi Hao walked forward, sizing up the girl in front of him.

"What are you randomly spouting now."

"A single day not seen is like three autumns passed. Five days are naturally equivalent to fifteen years." Shi Hao walked over, his face not red and his heart not jumping. He opened up his arms, and then with a laugh, said, "To celebrate our reunion, let's warmly embrace each other!"

Yue Chan backed up, her appearance exceedingly splendid. Waves rippled within her eyes, displaying a world overturning style. She said, "Behave yourself a bit. Don't act so carelessly."

The two stood on the spiritual mountain, purple energy curling about them. The corners of their clothes fluttered about, both of them giving off a great style and aura.

Of course, this was on the premise that one didn't look at Shi Hao's 'lowly smile', or else it would easily shatter this type of scene. Meanwhile, he seemed completely unaware of this.

The two of them discussed how they were going to collect the Green Lunar flame. They walked side by side while seriously discussing this.

Unknowingly when, Shi Hao grabbed Yue Chan's open hands, and with an earnest expression, he said, "I wish you success, recreating the Immortal Ancient era Qing Yue's graceful bearing."

Yue Chan felt a bit helpless. If it was a bystander, who would dare blaspheme against her? Her entire body was shining and exuding a holy aura. She had tried to avoid this fella's hands a long time ago, but this fella's accomplishments in the Kun Peng technique and Earth withdrawal technique were so great that even though he didn't get his arms around her small waist, he still grabbed her jade hand.

"Yi, isn't that junior sister Qing Yi walking together with a man? Who is he?" A few female student saw Yue Chan and Shi Hao walking together.

The two had already rose into the air. Auspicious multicolored light surged as they went on their way. From the distance, they really were like a pair of True immortals descending into this world, moving along with the wind.

"From the side, he looks quite a bit like that genius who surpassed the heavenly staircase, only, his face seems a bit off." A young lady blinked her large eyes, letting her imagination run wild.

At the same time, the disturbance reached this place. The enforcement troop led a group of people into the peaceful cliff to search for the evil disciple.

"What? Qing Yi left with someone? Not good, that is the notorious evil disciple! How could she have left with him? Hurry and rescue her." After understanding the situation, many people cried out.

"Nonsense, that senior brother is not an evil disciple. He looks quite like the heaven warping genius that passed the heavenly staircase. Are you all just jealous and envious, purposely framing him?" There were female students who reproached them for being unfair.

"How could that be?!" The group of people cried out strangely, and then they looked at each other.

A few people felt a strange feeling. Could it be that they were wrong? Was that the person that appeared only once on the heavenly staircase, and then he mysteriously disappeared, the one that was picked up by a snow covered inheritance?

"There's no way we recognized the wrong one. Bring junior sister Qing Yi back first!" Someone shouted, but they were already starting to feel discouraged.

Of course, even more people were indignant. They all directed their anger towards the shoddy monastery -- Supreme Being Dao Rite.

"Regardless, this sect has revived. Today, we are going to surround and capture this person!"

Resentment needed to be vented, and conflicting views needed distractions. A group of people began to gather together, deciding that they were going to go on a punitive expedition in those ruins.

Fire Province, the great prairie.

This was the pure land of roaming bandits, as well as the playground of criminals.

Because there were many rare and precious divine materials as well as ancient mines here, the great sects of higher realms all stationed people here to excavate the heavenly materials, sending people here from their respective clans.

This place was full of crime, and blood often flowed. Conflicts over ores and divine materials happened often.

"I heard that there is an immortal mine that shocked both past and present here with seven-colored Immortal gold here?" Shi Hao asked.

Yue Chan nodded. That immortal mine was extremely strange and even more terrifying, a mine that accumulated unmatched materials like seven-colored Immortal gold. However, no one could extract it.

Rumor has it that since ancient times, there were many sect masters who had overlooked the world that died within it alone, and from then, few people dared to look around within it.

"Feng Wu needs that type of supreme precious material badly, but Goddess Academy could only look through other means." Yue Chan said.

"Then I won't go after it. However, when I do have time, I should pay those great sects' divine caves a visit to collect some interest." Shi Hao said quietly.

He had long heard that the geniuses of all different sects would be sent over here for self improvement in this place of crime, to protect the ore mines, and for other matters. It could be considered quite bustling with activity.

Comparatively speaking, the Fire Province's grassland he had traveled through was just a small corner. Compared to Fire Province's vast and boundless divine earth, it was extremely insignificant.

"This is the place!" Shi Hao pointed out. There weren't any obstructions or unexpected events. They arrived at their destination.

The enormous canyon was extremely peaceful and incomparably deep. It was shrouded in darkness, as if an enormous prehistoric beast opened its mouth that could devour the heavens was before them.

"This is the place?" Yue Chan was moved. This underground abyss was too vast, the area covering over ten thousand li.

Comparatively speaking, this region was quite barren, because there weren't any well known divine mines, and traces of wildlife were sparse as well. However, this also meant that they didn't have to worry about being disturbed.

The two descended at the same time into the abyss depths, rushing downwards. Soon after, they reached the very bottom. Then, with Shi Hao leading the way, they passed through a great crack in the earth to those ruins.

"These are... Immortal Ancient era's historical remains?" Yue Chan was shocked.

This was not a pitch-black place, because there were still symbols left over that flickered with light, making this place look hazy and somewhat mysterious.

"The past has become dust, how many glorious eras of prosperity have been buried under time?" Yue Chan said to herself.

Shi Hao nodded. However, now was not the time to be reminiscing. The three thousand province great battle was approaching, so they needed to earnestly make preparations to participate in the greatest state possible. Both him and Yue Chan walked through the debris in search of that flame.

Time flowed on. An hour had already passed, and unwittingly, the two individuals felt a type of softness. A hazy radiance scattered downwards.

"Why is the moonlight tonight so gentle..." When he spoke up to this point, Shi Hao raised his head with shock. Meanwhile, Yue Chan was also astonished, raising her head as well.

Above them was a green moon that was incomparably beautiful. It carried a faint flame like multicolored mist. The lunar essence was like water as it scattered down with unspeakable pureness.

"Green Lunar flame!" Shi Hao cried out.

It was because this was the underground world, so how could there be a moon? This was clearly an ancient flame!

Yue Chan was also stirred up, finding it difficult to remain calm. Her beautiful face was full of joy. Her large eyes were even more so filled with shocking radiance. With a trembling voice, she said, "Precisely it!"

At that moment, both of them felt a scorching heat. The moonlight in the sky scattered down, making the clothes on their bodies quickly burn, turning them into ashes.

Chapter 757 - Green Moon

Burning hot!

Gentle moonlight scattered down, turning their clothes into ashes.

However, no disaster befell them, as nothing else dangerous happened. They could feel that this green moon was extremely peaceful, not releasing any terrifying auras.

Yue Chan's tall and slender figure was pure white and sparkling like ivory. Her beautiful black hair scattered downwards, covering a portion of her unmatched appearance. She immediately stood above the debris, her figure immortal and beautiful, fair and radiating a soft gentle radiance.

Meanwhile, on the other side, Shi Hao's body was not tainted by a strand of silk. His clothes were completely burned by the ancient flames, revealing his robust build. Precious splendor flickered about and his black hair scattered down. His eyes were brilliant like stellar rivers.

On the immortal ancient ruins, the two looked at each other. They weren't far from each other, so they could see everything. This sudden change happened too abruptly!

When he saw Yue Chan's expression changed and was about to scream out, Shi Hao shouted out first, saying, "Not good, be careful!" In addition, he rushed over with the fastest speed, blocking the green moonlight. He arrived in front of Yue Chan to half embrace her sparkling white body.

The two were just too close to each other, and he could smell the waves of delicate fragrance of a young lady. It spread under the moonlight, pervading the air. This was a type of intoxicating fragrance.

This all happened too abruptly. The sacred and serene Yue Chan found it difficult to maintain her calmness as well. Her beautiful face turned pale. She released a light cry and quickly backed up.

"Don't worry." Shi Hao had a firm expression. He left behind an afterimage and followed Yue Chan to her side. "I will deal with it, so you can just hide by my side."

"Let go!" Yue Chan's sparkling white face flushed with redness. This fella was too shameful, clearly taking advantage of her and still trying to appear 'honest'.

His face was just too thick! He spoke with a deadly earnest expression, but in the end, that arm quickly moved around her soft waist in an extremely natural manner.

This made Yue Chan's body go rigid, because both of them had their clothes destroyed. Her body was soft and glowing like fine jade. Being touched like this was truly uncomfortable.

With a shua sound, Yue Chan left behind a beautiful afterimage, moving like a spirit. Her undulating tall and slender body quickly moved away, avoiding him.

"With me here, I will definitely not let you become injured!"

What left Yue Chan speechless was that Shi Hao continued to act 'devoted to righteousness', displaying the Kun Peng technique and Earth withdrawal technique to their pinnacle and sticking right to her and standing right there.

"Stay a bit further away from me!" Yue Chan's fair face immediately blushed, carrying embarrassment and resentment as she berated with a low voice. This was just too embarrassing! They had just arrived, yet this kind of situation happened.

The most hateful thing was that this fellow's face was thick to a ridiculous degree. He looked serious, but he was walking shoulder to shoulder with her, holding her sparkling waist. Her body was trembling, and her beautiful eyes were widened in anger.

"There's no way I will allow you to be in danger. With me here, you won't be harmed in the slightest!" Shi Hao's expression remained unchanged as he said loudly. He also tightened that arm, wrapping it around her small waist. The two were almost sticking together.

"You scoundrel, thick-faced black hearted person, hurry up and let go!" Yue Chan berated. A layer of goosebumps appeared on her body and her cheeks became red. This situation really left others embarrassed.

"Who needs your protection?!" Yue Chan felt like her face was definitely completely red now, because she felt a hot sensation. These two were incredibly close and just too intimate right now.

She could feel the heat of his arm around her waist, as well as how dishonest that hand was. It held her pure white waist, and it even pinched down.

With a xiu sound, Yue Chan was like a holy arrow that went off course, causing even the void to distort. She moved out several hundred zhang to free herself from that arm and stay as far away from Shi Hao as she could.

However, what left her shocked was that Shi Hao's speed exceeded the past, reaching an inconceivable level. He continued to stay right beside her.

Yue Chan's eyes were greatly widened. That arm... was still there, continuing to wrap around her waist and not letting go. She was unable to free herself from him.

If the actual Kun Peng knew about this, it might even be startled and sigh so greatly, becoming extremely speechless. Its method was actually cultivated by an outsider to such an extreme, reaching such an unimaginable speed.

"Did you learn techniques just to show off right now?!" Yue Chan was ashamed and resentful as she berated.

"It is to protect you!" Shi Hao shouted loudly, putting on a face of righteousness.

"Go die!" Yue Chan was going mad. She truly couldn't take it anymore. Her entire body erupted with multicolored radiance, and all types of symbols covered her body. Meanwhile, her body shone and metallic sounds rang through the air. A layer of divine armor appeared on her body.

She felt that she was truly angered beyond belief. She should have put on this divine armor a long time ago.

However, right at this moment, the light of the green moon shone down from above, becoming more and more brilliant. There was a strange aura that pervaded the air.

Shi Hao raised his head. This time, he truly became serious, and his brows frowned as he stared at that green moonlight. He was trying to figure out why this was happening, becoming dangerous.

Chi!

Suddenly, a streak of moonlight hacked over like a green chain. It wasn't that brilliant, but it condensed into a beam of light that was extremely unordinary.

"En?" Shi Hao was startled. This beam of light was rushing at Yue Chan. He became serious and put away his mischievous heart, taking out a divine magical artifact to block it.

Chi!

Something alarming happened. A second streak of light appeared, rushing down towards each person respectively to attack them!

Dang!

In that instant, the magical artifact in Shi Hao's hands snapped, turning into metal liquid. One has to understand that this was the divine whip he seized from the roaming bandits of Fire Province, a divine level precious artifact.

However, it couldn't even take a single hit, quickly being refined and falling onto the ground, turning into waste material. All of its bone texts were wiped out.

Meanwhile, Yue Chan was shocked as well. The magical clothes on her body distorted and changed shape. If not for her reaction speed being extremely fast, her entire body would have been refined as well. She freed herself from the armor, separating from it.

This time, Shi Hao was serious and not teasing. He blocked in front of Yue Chan with a serious expression with his back towards her, facing that green moon alone.

However, after the two beams of light disappeared, the green moon became peaceful again, not releasing any dangerous aura. It really was confusing.

"What is going on?" Shi Hao said to himself.

Yue Chan was incredibly shocked as well. Currently, her body was absolutely perfect without a trace of silk on her, snow white and sparkling. It made her feel extremely uncomfortable.

"Could it be that the green moon is helping us become one?" Shi Hao turned around to look at Yue Chan.

"What are you randomly spouting?!" Yue Chan rolled her eyes and stared hatefully at him.

The green moon hung high above, gentle and hazy. There really was nothing unexpected that happened again. The two were almost within reach, producing a type of ambiguous and charming scene.

Shi Hao raised his head and carefully sensed around. Then, he began to chant in the Immortal Ancient era's sacrificial language.

In that instant, he was shaken. He unexpectedly felt a wave of fluctuations, a type of emotion. There seemed to be some kind of connection. This Immortal Ancient language was indeed extraordinary!

Then, Shi Hao sensed a bit of abnormalities.

"Burning our clothes was a warning, telling us that we cannot act randomly here."

“Wearing divine armor, holding divine level weapon, from its opinion, is a type of provocation, and that was why it destroyed it.”

This was what Shi Hao obtained after thinking it over, the message he obtained from that will. He spoke it without holding anything back, sharing it with Yue Chan.

“It was actually this type of situation.” Yue Chan understood clearly. She quickly fetched an ordinary set of clothes to wear on her body.

Shi Hao was quite regretful, mumbling to himself. His emotions were also written all over his eyes and face.

“You... what are you trying to imply? Hurry up and put on your clothes!” Yue Chan glared at him.

When the two faced each other again, they finally put on all of their clothes. Shi Hao didn’t try to stir up Heaven Mending Sect’s fairy and instead began to carefully discuss with her how they were going to acquire the Green Lunar flame.

“The ancient language you used just now was quite effective,” Yue Chan said. She also understood a bit. As an inheritor of Heaven Mending Sect, one of the higher realms’ most ancient and powerful inheritances, she naturally had her own secret methods.

Along the way, the two of them had long exchanged what they knew, and now, they even began to earnestly exchange the dao of flame sacrifice, as well as the ancient sacrificial language. They didn’t hold anything back from each other.

It was because they discovered, especially with that Immortal Ancient language, what the two grasped wasn’t quite the same. They could complement each other and perfect it a bit further.

“Even though dao master Qi’s name is notorious, he truly has quite the methods. After stealing from hundreds of clans, he obtained even more of the ancient language than Heaven Mending Sect!” Yue Chan sighed lightly. She couldn’t help but praise in admiration.

Both of them had terrifyingly great natural aptitudes, and because they both grasped the dao of sacrificial flames, as well as a portion of the ancient language, the exchange went extremely smoothly. They both comprehended things by analogy, and as such, they understood it well quickly.

They then tried to communicate with that green moon several times. It was quite effective!

“Watch the surroundings for me, I am going to start,” Yue Chan said.

Immediately, her precious projection appeared, majestic and dignified. Her fine black hair scattered down, and her eyes were intelligent. Her entire being was otherworldly and immortal as she stood there, staring upwards towards the green moon.

Segments of the mysterious sacrificial language sounded from her red lips one after another high into the sky.

Shi Hao watched over her from the side. He was also speaking softly, using the ancient sacrificial language to communicate with the green moon, helping Yue Chan establish her foundation with it and truly become connected.

This... was strangely effective!

That green moon slowly descended. It was soft and brilliant like a gemstone, appearing not too far out.

This type of language was originally a sacrificial language of the ancient generation. It was originally used precisely for communicating with rare flames and to establish a vague connection, so right now, it naturally displayed a great use.

The green moon was brilliant and beautiful to the extreme. From up close, it looked sparkling and resplendent, not like an ancient flame at all. $n/.o-)\mathcal{V}--E))\ell).b-/l(/n$

It approached closer and closer until it was before them, suspended above. The distance between them was less than several zhang.

Chi!

Moonlight scattered downwards. The two individuals' clothes became ashes again, but this was because the fiery light's temperature itself was too great and not intentionally done.

The two didn't dare act rashly, not deciding to cover their bodies, because this was an extremely crucial moment right now. They began to chant the ancient language again to carry out an offering and communication.

Then, the green moon got closer and closer, becoming more and more peaceful. However, even though this was the case, it still burned the two until their skin were shining and they produced divine patterns for self-protection.

At this moment, both of them released a breath of relief. If nothing unexpected happened, they should be successful. They could have already be considered to have formed a type of connection with the green moon.

Once they relaxed, Shi Hao's eyes naturally roamed about to appreciate the scene before his eyes.

The green moon floated in the air, scattering down its moonlight.

A tall and slender figure appeared above the ruins. A female, spotlessly white like jade, towered there, her hair shining strand after strand, untainted by a speck of dust. Her eyes were brilliant and her red lips bright. Her neck was snow white like a swan's.

As for her wonderful body, it was even more curvaceous and close to perfection. Her chest was tall and full, her waist small and elegant, her legs perfectly straight and long. Her body was snow white.

This was an alarming scene without any flaws. It was close to perfection, one that would easily make one absentminded.

Yue Chan glared at him. This was just too unrestrained, actually staring at her body without end, making her humiliated and angry. However, there was nothing she could do, because this was the critical moment of acquiring that flame.

In addition, right at this moment, what was the most unbearable for her was that this fella even went in for another blow.

"This is sexual harassment! Don't just look at me, hurry and acquire the Immortal Ancient precious flame!" Shi Hao spoke with a deadly earnest expression.

"Who is looking at you?!" Yue Chan was indignant, appearing quite different from her usual pure and untainted fairy style. It was as if an immortal fell into the world of mortals.

With a cough, Shi Hao began to move out his tall and robust body, saying to himself, "It can't be helped. My style is exceptional, so not even Heaven Mending Sect's fairy can hold herself back. She can only be drawn in."

At this moment, divine multicolored light seeped out from Yue Chan's eyes, and the roots of her teeth felt sore. She truly wanted to put him down and viciously beat him up.

"It's coming!" Shi Hao reminded. The green moon fell, gradually approaching Yue Chan's sparkling white body, illuminating her brilliantly. It suspended above her head and released a gentle feeling. She was going to succeed soon.

Yue Chan focused her attention. Her red lips gently opened, starting to chant the sacrificial language to communicate with the green moon and establish a close connection.

What left her helpless was that Shi Hao who was now idle and didn't have to take any action unexpectedly began to walk back and forth, evaluating every part of her. It made her snow white body immediately flush with redness.

"Can you stay a bit farther away from me?!" She said through clenched teeth, because she didn't feel at ease, fearing that she would be disturbed and there will be some problems.

"Fine, but you have to take responsibility for looking at me indecently. You've already seen everything I have." Shi Hao said.

Yue Chan's bright red lips opened slightly. She was so angry she almost vomited blood. Her pearly white teeth clenched inwardly, but in the end, she could only stare hatefully at him.

"It was effective. Yue Chan is about to succeed. Will I be able to acquire that extremely mysterious ancient flame as well?" Shi Hao said to himself, feeling rather expectant.

Of course, the beautiful scene in front of him was similarly something to look forward to. He wasn't willing to pass up on this chance.

Chapter 758 - Immortal Projection

Ten feet, nine feet, eight feet...

The green moon descended, appearing like a colored glaze sphere that illuminated the world. It radiated resplendent splendor as it slowly approached the two individuals below.

At this moment, Shi Hao became serious, no longer playing around. There was even less of a need to talk about Yue Chan.

At first, they could feel a sense of warmth, but later on, there was a burning pain that tore at their flesh and bones. Right now, it felt as if one's blood was burning and spilling out from their pores!

Yue Chan's body was originally spotlessly white like ivory, but currently, there was a faint layer of blood energy that was quickly spreading, burning like innate essence.

This was extremely dangerous, with a single mishap resulting in becoming a lump of flame, one that would leave nothing but ashes behind!

It was because this was the Green Lunar flame, one that powerful individuals knew about since the ancient times! It was rumored to be an exceptional ancient flame that was left behind by a True immortal, something not even the Heavenly deities of the ancient past could stop. It was unknown just how many of them were burned to death by these flames.

One couldn't forcefully face it head on, as it was impossible to resist. One had to communicate with it and establish a stable and contractual relationship, or else they would undoubtedly die.

Yue Chan was divine and perfect. Her lips were rosy, releasing symbols. She was chanting the Immortal Ancient sacrificial language and resonating with that Green Lunar flame to become one with it.

Unfortunately, even though she was enduring and not going against it, she still used up a large amount of her innate essence. It seeped out along with her blood energy out from her pores, burning up in the void.

It was because the Green Lunar flame was too terrifying. Even though it didn't release its heavenly might, the light it normally released already reached a nearly unbearable level.

Yue Chan's spotlessly white body had a layer of sweat in the beginning, but it quickly evaporated as well into white mist, burning together with her essence blood.

Her situation was not looking well, tottering and on the verge of collapse. It was just too strenuous. If she continued like this, she wouldn't be able to hold on much longer.

Shi Hao frowned. His body shone and released a wave of innate essence. They turned into chains, entering Yue Chan's pure white body to help replenish her true source.

Yue Chan's figure stabilized. Her eyes regained their brilliance, and her tongue began to move. Symbols left her mouth one after another, interacting with that flame.

"En, is it about to succeed?" Shi Hao revealed a look of joy. He saw that the green moon had become quite a bit gentler, and the temperature also decreased. The flame seemed like it could sense the strain Yue Chan was facing.

The green moon descended, now less than five feet from Yue Chan's head. This distance was just too close! Meanwhile, she was not injured further by this, and on the contrary, her condition improved much better.

Shi Hao couldn't help but sigh. One truly couldn't compare themselves to another. The first ancient flame he saw was precisely the Green Lunar flame, yet he was almost drowned in fiery light, forcing him to leave.

Yet now, Yue Chan was about to succeed! If news of this got out, it would definitely shake the world under the heavens!

One has to understand that this type of ancient flame was related to true flames. It was the most precious and rarely seen type. If one used it to achieve divinity, it would display the most shocking transformation, granting one limitless potential.

Four feet, three feet, two feet...

The green moon approached, becoming more and more gentle and peaceful. Everything seemed to have already been settled and on the verge of succeeding.

Hong!

Suddenly, Yue Chan's body trembled. When the green moon was only a foot away from her, the flame produced a sudden change. There was a void figure that could vaguely be seen, and then it began to flourish with brilliance again.

"Not good!"

Without any hesitation, Shi Hao's entire body surged. He used his innate essence to form tens of thousands of strands of auspicious energy, sending them into her body and doing everything he could to assist her.

In addition, he continuously chanted the sacrificial language as well to communicate with the flame.

The green lunar splendor was brilliant. It poured outwards, wrapping Yue Chan within and releasing a heart shaking aura. Even Shi Hao, who wasn't directly involved, felt that it was terrifying.

If this type of radiance erupted, it was enough to turn a Heavenly deity into ashes!

At this moment, Yue Chan was completely unmoving; only her mouth was releasing sound. The green lunar splendor surrounded her body. She looked extremely calm and peaceful without joy or worry.

Shi Hao was extremely nervous. If an accident happened, then the result wouldn't be merely a failure to obtain the flame, but rather destruction of both mind and body, turning into nothingness!

He didn't know how to help her right now. He didn't dare rashly take action out of fear of affecting that lunar brilliance.

Suddenly, Shi Hao's expression froze. He saw a figure within the green moon, an elegant and tall woman that stood within the moonlight. It was as if a True immortal had reincarnated!

"This is... goddess Qing Yue?" Shi Hao was shocked, finding it hard to believe. How could this kind of figure appear?

He had previously asked Qi Daolin, inquiring if anything strange would happen upon facing these rare ancient flames. Back then, he received the reply that he didn't need to worry, that it had long become unrelated to the past True immortal.

However, how did a human figure appear before his eyes? This ancient flame was not normal!

Suddenly, Yue Chan released a light groan. She was enduring tremendous pain! Her body was trembling, almost unable to hold on any longer.

“Yue Chan!”

Shi Hao’s expression changed. The green lunar splendor closed in on the surface of her body, making contact. The temperature was so high it would make deities shudder in fear.

“How could this be? Didn’t it restrain its heat, becoming peaceful? Why did it become so terrifying now?!” Shi Hao clenched his fists tightly.

“I can’t hold on. This might be a failure.” Yue Chan spoke. This most terrifying temperature was enough to burn any deity into ashes, let alone a supreme expert.

While speaking these words, her body already became blurry. Her vitality was severely damaged.

This was a sudden transformation. When moonlight approached her body earlier, it didn’t injure her, but now, it became like a wild horse that threw off its reins as it rushed into her flesh to set her aflame.

“No!”

Shi Hao shouted loudly. He chanted the sacrificial language, communicating with the green moon to guide it over. He wanted to stop this disaster.

“I never expected there would be this kind of conclusion...” Yue Chan felt regret. She had already endured tremendous pain, and her spotlessly white body was badly burned. It was hard for her to hold on.

For her to be able to speak right now was already something purely done out of her powerful willpower. Otherwise, she would have long collapsed.

“I am still here! I won’t let you die!” Shi Hao used his divine senses to incite the flame, adopting the most severe methods. He was inciting this flame, hoping for it to come over so that Yue Chan could struggle free.

Peng!

A streak of light descended, one that was incomparably hot. It blasted Shi Hao flying, and it also turned his entire body scorched black. There was an intense feeling of pain.

He was horrified. That was just a streak of multicolored light, yet it already left him like this, so one could well imagine what kind of disaster Yue Chan was currently facing. She was on the verge of turning into scattered ashes.

“What kind of True immortal aura does a rotten flame like you have? What are you bothering a young girl like this for? If you have the guts, then come at me!” Shi Hao gave up on the ancient sacrificial language.

It was because he knew that this flame was strange. The moonlight unexpectedly had an immortal projection. It was not quite the same as other rare precious flames.

A kengqiang sounded. He put on that tattered armor, because it came from the uninhabited region, seemingly having some kind of extraordinary background.

At this moment, Shi Hao couldn't be bothered with so much. Even though the ancient flame couldn't be resisted and only communicated with to establish a connection, now that it was useless, he could only use force.

Chi!

He no longer worried about his own safety as he directly grabbed Yue Chan's indistinct figure to get her out.

Seeing him risk his life to save her, Yue Chan opened her mouth. With an incomparably weak voice, she said, "Don't give your life away... hurry and leave!"

"Open!"

Shi Hao shouted, using his arm to shake off the flames and scatter the moonlight. He wanted to pull Yue Chan out and free her from this disastrous situation.

Yue Chan's figure was blurry, already suffering severe damage. Her eyes had long grown dim. However, when she saw Shi Hao try to save her at this moment, there was still a bit of brilliance. She said quietly, "You should hurry and leave, don't be foolish..."

This was the flame of a True immortal. Forget about a supreme expert, even if a group of the most powerful deities were here, they would only die. They weren't its opponent at all.

Peng!

Shi Hao didn't bother speaking too much to her. His arm penetrated the barrier of light, dragged her out with one movement, and then he quickly retreated.

However, that green moon followed, continuing to scatter its green holy splendor around Yue Chan, not retreating at all. It was about to completely refine her flesh. $n./o/(v-(e))\mathcal{L}(-b./1)/n$

At this moment, Shi Hao's arm was under intense pain, feeling as if his bones had been burned through. At the very least, his flesh was withering away.

However, if anyone else were here, they would definitely be shocked. What was this shoddy looking armor? It unexpectedly stopped the fire's power, not allowing it to immediately burn him away.

"The flame left behind by a True immortal... cannot be contended against..." Yue Chan's eyes carried radiance as she looked at Shi Hao. It seemed like she wanted to say something, but only this sentence came out in the end. She forcefully pushed him away.

At this moment, even her soul was being set aflame. Forget about her fine skin and sparkling bones, even her life was already reaching its limit.

Meanwhile, this was because the green moon hadn't truly gone berserk yet, the result of only scattering down moonlight. Otherwise, she would have directly been burned into ashes!

"What are you trying to do? Do you need to slowly torment someone if you wanted them dead?!" Shi Hao berated the green moon. Then, he fiercely swung outwards. The armor struggled free from his arm and quickly covered Yue Chan's body.

Then, he displayed divine abilities, directly sending Yue Chan out. He himself also quickly evaded.

Even though the armor was covered in holes, it still had some uses.

After Yue Chan's blurry figure was surrounded, it was temporarily separated from the green moon. Meanwhile, all of the dangers immediately shifted over to Shi Hao. The green divine moon seemed to have become angered.

Hong!

A streak of fiery light descended, blasting Shi Hao flying. If it was anyone else, they would have definitely been burned into ashes. He was blasted into the ruin's depths. His entire body was in intense pain, and great flames raged about him.

Shi Hao grimaced. He was able to block this strike.

"Motherfucker!" Shi Hao cursed. He went for a gamble to save Yue Chan, yet he still failed in the end.

That green moon wrapped around her, following her relentlessly. This time, it was even more complete, surrounding her head. Both of them linked up together.

In addition, keng qiang sounds rang out continuously. That tattered armor was blasted loose, separating from Yue Chan's indistinct figure and falling out. It couldn't protect her.

Shi Hao decisively brought out the pill furnace, deciding he was going to risk it all. Otherwise, Yue Chan wouldn't have any chance left and would have both her body and spirit wiped out.

"You... don't come over!" These were the last words Yue Chan's willpower could squeeze out.

Her emotions were complex as she watched Shi Hao in the distance. She raised her indistinct arm and gently waved.

"Absolute nonsense. You are my wife, so I naturally have to save you!" Shi Hao tossed out the pill furnace to releasing the lightning with immortal dao aura as well as that yellow earth. He was using everything he had.

Moreover, he rushed over himself to guide the green moon away.

Yue Chan opened her mouth, but she couldn't utter any words. Her divine senses weren't working as she wished.

Hong!

A streak of light scattered downwards, divine and matchless. It smashed Shi Hao flying.

Unexpectedly, he wasn't killed, nor was he even injured. This moonlight was quite special, only pushing him away.

Meanwhile, the green moon became resplendent, and that female immortal projection became a bit clearer. It seemed to have almost released a sigh.

Moreover, the fiery light that surrounded Yue Chan no longer throbbed, instead immediately becoming gentle. Everything immediately changed in reverse.

Yue Chan's weak aura became stronger. Her blurry body reappeared, and like a phoenix undergoing rebirth while bathed in flames, an exuberant wave of vitality swept outwards.

Within that gentle sphere of brilliance, a spotlessly white and sparkling immortal body gradually appeared. Yue Chan reappeared, her body reconstructed. She was reborn.

"This is..." Shi Hao was shocked.

The space between Yue Chan's brows was shining. The imprint that was suspected to be 'immortal dao divine projection' formed a void figure. It was as if a girl was dancing about, unexpectedly communicating with the woman within the green moon.

Chapter 759 - Fire as Dao Seed

Yue Chan stood there, the space between her brows shining brilliantly. A woman was dancing about there. Even though it was small and was just a projection, it was vivid and lifelike.

This was quite strange. The area between her brows was actually this special!

Regardless, she was unharmed. This made Shi Hao release a breath of relief. They finally made it through this disaster.

Yue Chan's figure was tall, pure white and sparkling. It was unexpectedly just as good as before, and even her fine black hair became more brilliant. Her entire being exuded a type of life force.

Above her head, that green moon was still changing, gradually becoming larger. The immortal projection within became more and more clear, as if it towered above the clouds. It was as if a True immortal was about to descend.

Bo!

She scattered apart like an illusion, turning into a multicolored haze and merging with the green moon. In the end, the entire green moon turned into a lump of flame that surrounded Yue Chan. It was exceptionally peaceful without any blazing heat.

The Green Lunar flame changed, no longer injuring Yue Chan and instead surrounding her.

Shi Hao was shocked. This flame left behind by the True immortal unexpectedly became so gentle, turning into female clothing that covered Yue Chan's body, protecting her within.

Yue Chan was calm, her eyes bright and clear, flickering with an intelligent radiance. She completely calmed down. She chanted sacrificial language from her mouth, establishing a mysterious contractual relationship.

She then succeeded!

There seemed to be green precious clothes flickering about her body. The ancient flame became a long dress, beautiful and divine, but also a type of metallic feeling as it flickered with sparkling radiance. It gave Yue Chan a unique type of beautiful aesthetic.

"It can even turn into battle armor?" Shi Hao was shocked. He always felt like the Green Lunar flame was a bit different. It seemed to agree especially well with Yue Chan!

Chi!

Immediately afterwards, green moonlight flickered. The dress disappeared, and Yue Chan's ivory-like body appeared again. Meanwhile, that flame turned into a multicolored haze, appearing between her brows.

A light cry sounded. It unexpectedly merged with that dancing figure, permanently becoming one with it!

"It is a bit different from the other ancient flames like the Ten thousand evil flame, Great Scarlet Sky flame, and others." Shi Hao said softly.

At this moment, the ruins became quiet. The green moon disappeared, becoming one with the engraving between Yue Chan's brows. It wouldn't appear unless summoned.

Yue Chan stood there quietly, silently sensing and studying the changes that were taking place. A smile gradually appeared on her face. She could feel the tremendous benefits she received. She succeeded.

Suddenly, she seemed to have thought of something and turned around. She saw Shi Hao's eyes that were flickering brightly, currently looking at her pure white naked body. They immediately released blazing radiance.

Her jade-like body that undulated with curves became blinding like a sun. That was actually the green moonlight's illumination, originating from the space between her brows, surrounding her entire body.

At the same time, a long dress appeared that surrounded her body. Yue Chan immediately became dressed. Only then did she restrain the divine radiance from her forehead.

"Did you see enough?" Yue Chan's voice was extremely pleasant to listen to, as if untainted by worldly emotions. It was extremely calm and peaceful.

"No!" Shi Hao decisively replied.

Yue Chan gathered her beautiful hair and smiled faintly. It was as if a divine moon was releasing its splendor, making her appear even more sacred and otherworldly than before, granting her a sense of spirituality. "I meant what I said, while your dao heart has to be steady as well." ~~no~~ ~~re~~ ~~18~~-In

Shi Hao was shocked. Then, he laughed and said, "Are you talking about that agreement?"

"Yes!" Yue Chan nodded.

"When did you become so generous and carefree?" Shi Hao was shocked.

Yue Chan said softly, "After experiencing the great battle of three thousand provinces, even if you fail, if you calm down your heart and gradually accumulate wisdom, there will definitely be a day when you will rise up and achieve great things."

When Shi Hao heard this, the expression on his face immediately became wide. Turns out the so-called agreement was made because she thought he would definitely fail, telling him that he should earnestly comprehend the dao instead.

"Yue Chan, I just saved you, yet you are now looking down on me so much?"

Yue Chan shook her head and said, "I feel that with your natural talents, you will definitely become a glorious figure in this world. You shouldn't divide your attention and should instead focus on cultivation."

"The reason why we are what we are is because of all types of emotions. If one did what you said and focused on cultivation while neglecting other things, they will miss out on many things along the way." Shi Hao didn't agree with her.

Yue Chan said softly, "Those that enjoy worldly things, even if their appearances are exceptional, there will still be a day when they will return to the great earth. There should be some greater pursuit, one that transcends this mortal world."

"I am always transcending, resolutely forging ahead in my path. It doesn't conflict with the ordinary emotions and desires of normal people." Shi Hao said. Then, he became suspicious and said, "What is with you? After obtaining this rare ancient flame, you seem to be a bit aloof? It's almost as if you are about to leave this world of mortals."

"After truly obtaining the flame left behind by the True immortal, I seem to have mysteriously obtained the insights from just now. I suddenly had the feeling that worldly affairs were like smoke covering my eyes, now finally scattered. Only transcending, that is the sole path." Yue Chan said. Her head of black hair fell like silk fabric. Her entire body carried a faint white mist, making her look hazy and otherworldly, as if she didn't belong to the world of mortals.

"Hey, Yue Chan, don't tell me you are becoming world-weary? Hurry up and turn around so you can give birth to a child. It won't be good if you continue like this!" Shi Hao really wasn't someone who would stop until he said some alarming things.

Even though the aloof and intelligent Yue Chan was extremely calm, she was still shocked. Then, an expression appeared on her beautiful face. She was angered badly enough.

"You weren't beyond saving after all..." Shi Hao said to himself.

"The world of mortals has a limit. The thousands of mountains and tens of thousands of lakes are fated to become nothing. They all have a day when they will become lonely and desolate, with nothing in existence. A single person is insignificant, yet there are endless desires and aspirations, all fated to become nothing. Why should one bother staying here and stop moving? There is actually only one path below our feet..." As Yue Chan spoke, she gazed into the heavens.

"You've gone crazy. Let me pull you back." Shi Hao immediately took action on his words, grabbing one of Yue Chan's hands and roaring like a lion, "You still aren't going to wake up?!"

Green holy radiance flashed. Yue Chan struggled free from Shi Hao's hand and gave him a look of disdain, her eyes saying 'don't try to take advantage of others with a strange face'!

"If I become number one in the end within the great battle of three thousand provinces, rising above everyone else, I will personally carry you back and have you experience the wonders of the mortal world, for example, the traditional roles of a good wife and other matters." Shi Hao laughed and said.

"Sure, if you are able to become number one under the heavens." Yue Chan smiled and said absentmindedly.

“Then it’s set in stone!” When Shi Hao saw her absent minded expression, he unexpectedly felt motivation, as well as a competitiveness. He looked forward to rising up in the great battle of three thousand provinces.

He then asked about the Green Lunar flame’s mysteries, exactly what was different after she acquired this rare precious flame.

Yue Chan told him things as they were without concealing anything. She told him that it was like gaining a moment of enlightenment. She comprehended a few things, and up ahead, it was as if there was a lighthouse shining, allowing her to see the road ahead.

Generally speaking, once one became a deity and ignited the self, the rare precious flames would leave.

The moment one became a deity, all cultivators would gain tremendous amounts of insights, allowing one to peer into the distance in an instant, seeing the road ahead. This was a moment cultivators looked forwards to in their lives!

Meanwhile, Yue Chan hadn’t turned into a deity, yet there was still a great flash of realization.

Geniuses with great potential formed a faint connection with these rare precious flames precisely for that moment.

“The road ahead, realization, great dao, these are the things the rare precious flame created, right? Comprehending the dao from the foundation and stepping onto one’s own path?” Shi Hao said to himself.

“I’m not sure. The ancient flames are suspected to have been left behind by True immortals. If one uses it as a dao seed, as tinder, one will naturally be able to reach greater heights.” Yue Chan said.

“Why do you have to use them as a tinder? Can’t one use themselves as the dao seed?” At this moment, Shi Hao seemed to have thought of something. He became a bit unsure about the so-called igniting a divine flame.

Yue Chan was shocked. “The rare ancient flames are left behind by the True immortals after they pass away, and can also be called immortal seeds. With them as the dao seed, it will naturally pave the way ahead, bringing transcendence and hope.”

“Rather than doing it like this, I would rather use a single grain of sand, a stalk of grass, a tree, a mountain, and other tangible objects to use as reference, using the entire mountains, rivers, heaven, earth, sun, moon, and stars as my tinder. I would rather plant my dao that way.” Shi Hao said.

Yue Chan revealed a look of shock and said, “What are you trying to do then?”

“Not going to use an ancient flame and directly ignite the self. Is that not okay?” Shi Hao asked.

Yue Chan said, “Many people couldn’t find rare precious flames and use other divine flames to ignite themselves, and there are even more who cannot even obtain any divine flames so they could only rely on themselves.”

“Then that is to say, the most ordinary people are like me, and only they would do this?” Shi Hao asked.

"Correct!" Yue Chan nodded.

"Why do I feel like this is the correct path then?" Shi Hao said softly. Then, he said, "Then should I acquire an ancient flame first, study it thoroughly, and then do it that way?"

Hong!

A streak of heavenly lightning hacked down, directly blasting Shi Hao's flesh, making his head release smoke. His entire body was scorched black, and he flew outwards.

If it was an ordinary supreme expert, they would have definitely had both mind and spirit wiped out! Meanwhile, his hair stood on end, and when he opened his mouth, electrical arcs flowed outwards, but he didn't die. His injuries weren't severe either, just startled a bit. He raised his head in confusion, staring at the heavens.

"Fuck! Who is blasting me with lightning?!" Shi Hao was furious. Someone actually dared to attack him.

Yue Chan was stupefied as well. She saw clearly that the lightning was born in the void. No one took action. It came directly from the heavens.

Shi Hao brought out the dual-pupil and carefully searched around. In the end, he didn't find anything unusual.

"During the Immortal Ancient era, when one speaks about natural laws, discusses the dao, if there are shocking things, there would occasionally be heavenly lightning that would descend. In the present world, there is already no longer any heavenly tribulation. Just now, how could it have..." Yue Chan said to herself. There was divine multicolored light in her eyes as she looked at Shi Hao.

Shi Hao was truly depressed. He was blasted by lightning for no reason, making him quite pissed.

"We're leaving!" He hung his head and said. This was just too embarrassing, being blasted by the heavens for no reason. It really was weird.

Yue Chan wanted to laugh, but she endured it, treating it like nothing happened. Of course, she didn't forget to philosophically add that only by acting properly will the heavens protect us.

Shi Hao's face went red. He didn't want to stay here a second later.

Then, they returned to where Goddess Academy was.

Dang!

A large bell was ringing. It rang throughout heaven and earth.

It's the academy's dao bell. What happened for it to be sounded?" Yue Chan revealed a look of shock. Normally, only major events would trigger this bell sound.

At the same time, bell sounds rang from the distance as well, shaking heaven and earth. It was remote and drawn out.

"It seems to be coming from Kun Province!" Yue Chan discovered.

This place bordered on Goddess, Fire, and Kun Provinces. Its location was quite special.

Immediately after, a larger bell resounded through the air, sounding extremely ancient. It transmitted extremely far into the distance. It came from Fire Province's direction!

"Could it be..." Even though Yue Chan was aloof and otherworldly, right now, her beautiful eyes were flourishing with radiance. It was hard for her to calm down.

"What happened?" Shi Hao asked.

Yue Chan said, "Hundred rivers gather in the ocean, the three thousand provinces great battle should be approaching. Perhaps it is about to start! It is just like how it is in legends, with ten thousand bells ringing through heaven and earth. All the large ancient sects and inheritances, upon receiving information, will deliver the message through bells!"

Chapter 760 - Setting Out

"All sects will consult with each other, and ten thousand bells will sound. The distinguished meeting is about to start, the world about to become glorious... the fight between young supreme beings is about to commence. Hundred rivers will converge, tens of thousands will compete. It is about to arrive!"

On the grassland, an elder was leaning on a walking stick while pulling along a golden wolf. He released a long and drawn out sigh.

"It won't be long before this day will finally arrive. The Immortal Ancient era's natural luck that had been left behind until this day, perhaps this might be the last opportunity."

By the edge of the large lake, a boulder that had existed for a long time shook off the dust covering it, saying these words.

That day, long and drawn out bell sounds tore through the thousands of mountains and tens of thousands of waters, reaching from the mountains to flourishing great cities, from the arid great deserts to the boundless ocean shores. The world under the heavens was shaken up.

Many people knew that the battle of the higher realms' geniuses was about to begin. A time of great glory was about to descend.

This was the result of tens of thousands of sects conversing with each other, the greatest gathering of great sects. They all participated in this matter, and their sects' great bells sounded. It was the same as informing the entire world.

From that day forth, everyone could begin to look forward to the great competition.

The dao bells were long and drawn out as they resounded through heaven and earth, reminding geniuses in isolation that they needed to make their preparations. They couldn't miss out on this great battle and opportunity that the entire world was keeping their eyes on.

Goddess Academy was naturally bustling with activity as well.

Many people cried out in alarm, and sounds of discussion could be heard everywhere.

"You should go back. If there is something, I will look for you." Shi Hao said, and then he didn't enter the academy. Otherwise, he might be surrounded from all sides.

The moment Yue Chan glanced backwards, her beauty was unmatched. She turned back into Qing Yi, waved towards Shi Hao, and then entered the academy.

The two could be considered to both be facing trials and tribulations together, so there wasn't much thanks that needed to be said between them.

From that day forth, all young supreme beings under the heavens all began to make preparations. The road ahead would definitely be difficult. Shi Hao needed to carefully think about how he was going to win in the great battle.

"You returned. From your dejected and depressed looks, you definitely failed." Outside the mountain gate, Qi Daolin opened his eyes and gave him a look.

"Succeeded, but gave it to someone else." Shi Hao didn't hide this, saying it as it was.

Qi Daolin's mouth opened. What exactly was this youngster thinking? He even gave the Green Lunar flame away. Was this extreme generosity or stupidity?

"You idiot, for the sake of a woman, you even gifted away a world shaking ancient flame. What do you treat it as? That is one of the world's greatest treasures, known as an immortal seed! How many sect masters have looked for them throughout the eras yet were unable to find any?!"

Qi Daolin battered him with criticism.

Shi Hao retorted. "Who am I? Do I need to chase after a girl?"

"Once the three thousand provinces' genius great battle begins, you will definitely suffer greatly. Forget about those 'number ones' that are sealed under ice mountain restrictions, even the young geniuses of the present world will all find rare precious flames. When they enter, they will ignite their divine flames and become a deity. How will you deal with them then?"

"What is there to be scared of? I already said that those 'historical number ones' are my food. When the time comes, all the girls will be brought back to warm the bed!" Shi Hao boasted shamelessly.

"You have to find an ancient flame, or in other words, an 'immortal seed'. Otherwise, you won't have the slightest bit of chance. You won't even enter the top hundred names." Qi Daolin was extremely serious.

He seriously warned that only those that had perfect 'immortal seeds' could undergo the most thorough evolution, becoming perfect. Only then would they have a level road ahead.

"It seems like I need to seize the Great Scarlet Sky flame for you." It could be seen that Qi Daolin had great hopes for him, not hesitating to add fuel to his 'notorious reputation'.

Shi Hao refused. He made a solemn vow that there was no need for this, saying that he would still rise up.

He really wanted to talk about the nine dragon skeletons and bronze coffin matters, as well as the mysterious flame, but he feared that the elder would become so stirred up he would open the coffin without fearing the consequences. He felt that he should wait a bit longer.

“Go cultivate the Eight ninth heavens art!” Qi Daolin shouted, feeling upset that Shi Hao didn’t meet his expectations. He didn’t want to see him act so careless, so he had him run around with the great mountain.

“Dao master, why don’t you teach me your techniques? Carrying the mountain on my back and running all day, when others see this, it’s just too humiliating!” Shi Hao grumbled, feeling extremely discontent.

“You haven’t met the requirements yet. Only when your flesh, bone texts, and spirit all become one with no distinctions between will it be enough.” Qi Daolin spoke with a downcast face, and then he blasted Shi Hao flying. He also grabbed a large mountain with a single movement, tossing it onto his back.

Honglonglong!

The earth quaked and mountains shook. Shi Hao left into the distance with the great mountain on his back. Even though he was extremely discontent, he couldn’t contradict this elder in front of his face. He truly feared that this infamous old man might kick him out due to a foul mood.

The great bells of sects all over the three thousand province sounded. From this day forth, all geniuses would move out in preparation of joining the great battle.

During these final days of preparation, some people sat quietly in meditation, some refined precious artifacts, while others came out of isolation to exchange pointers with others, using this to adjust their own vital energies.

Goddess Academy was well know, a place almost everyone in the higher realms knew about. They naturally had many dealings with other great sects, so in the following days, there were many guests that arrived.

“Yi, Nine-Headed Snake Clan, Yin Yang Academy, Oblique Moon Ancient Cave, and Holy Feather Clan’s elites have arrived!” There were students that cried in surprise. These were all great sects or enormous clans.

During these days, all sects’ outstanding disciples came and went, discussing the dao with each other and exchanging pointers. They were all adjusting their condition.

In addition, because they were bordering the Fire Province, a chaotic place where divine materials emerged, the young disciples of various sects were sent over to protect the mines. It was a mix of fish and dragons. There were many geniuses, with visitors coming from everywhere.

“You all don’t know this, but the Academy might have Emperor Clans that will come to pay a visit, wishing to see our Human Immortal engravings. They bring with them bone books with similarly shocking value in exchange.”

Everyone sucked in a cold breath of air, feeling that a great storm was about to arrive.

The geniuses of the sects under the heavens all moved out. A great storm stirred about, and all of them were preparing for battle. One could imagine how unordinary the gathering soon after will be. Great battles will go on without end. It was definitely going to be a world shocking event.

“Right, did that little shoddy monastery’s fella appear? With so many elites from great sects coming to visit, if we oppress him together, we will definitely beat him so bad he’ll be looking for his own teeth all over the floor!”

“That good-for-nothing withered away as soon as we appeared and never dared to appear again. A group of senior brothers from the academy looked for him many times, yet they never found a clue. He already ran away a long time ago, no longer here.”

When they brought up Shi Hao, they couldn’t help but feel discontent. As a prestigious sect, they carried a type of live high and look down attitude. They felt great contempt for that notorious inheritance.

Of course, these people still felt restraining fear in their hearts, because even though that place’s name wasn’t great, the people that came out from it were quite unordinary.

“Did you guys hear? A mountain deity has appeared on the grassland. It runs extremely quickly, and many people chased after it, yet they all failed, unable to capture it.”

“Wu, I’ve heard about it. Perhaps it might contain a mountain treasure! Shall we go and take a look too?”

“Okay!”

In the past few days, Shi Hao suffered without being able to complain, forced by Qi Daolin to carry the mountain on his back. This mountain had a seal stuck on it that made it ten times heavier.

“What exactly is the ‘dao seed’?” He was thinking about his own path while running frantically. Now that he was close to the Divine Flame Realm, he needed to cross the crucial step.

During these past few days, he was always bitterly cultivating in Fire Province’s savanna, because this place was extremely vast. He ran while carrying the great mountain with no obstacles in his way.

It was also precisely because of this that he was able to think about other matters.

“Yi, our luck really is good. Look, that divine mountain appeared again!” A group of people appeared on the horizon. They looked at the moving enormous mountain, all of them revealing looks of shock.

“It doesn’t seem quite right. This shouldn’t be some expert’s magical treasure, right? For example, an earth overturning imprint that turned into a mountain form, running about crazily.” Some people were doubtful.

On the mountain, ancient trees towered into the skies. There were symbols flickering about as well. The atmosphere was extremely unordinary.

“If it truly is a precious artifact, it is an ownerless object. It developed intelligence, and that’s why it’s running about crazily.”

Everyone discussed this among themselves as they quickly chased after it. They were going to observe it in more detail, because many of them were curious.

“Yi, it’s going berserk, going to smash into a mountain ridge!”

Right at this moment, someone cried out in alarm.

There were mountains on the savanna as well, for example, there was a mountain ridge before them. That enormous peak was still running crazily, smashing its way over.

In reality, Shi Hao had become distracted. He was thinking about how to plant his dao, how he was going to rise up when achieving divinity and step onto his own path.

The result of this was that he smashed into the mountain ridge ahead of him while carrying the enormous mountain. The earth quaked and mountains shook, causing him to be buried underneath.

With a hu la sound, Goddess Academy’s people surrounded it. They were all excited as they stared at the great mountain covered in smoke and dust.

“Cough...” Shi Hao coughed. He climbed out with his head and face covered with grime. He complained inwardly about his bad luck.

His appearance left everyone shocked! They looked like they had seen a ghost, not understanding why he was here.

“He is... that little shoddy monastery’s person!” Someone cried out in alarm, recognizing him.

“You’re right, it was precisely him who was boasting shamelessly, doing business at my academy’s entrance, saying he could beat up higher grade seniors for a fee and bully lower grade juniors!” Someone cried out strangely.

“It’s actually that degenerate!”

“He was carrying a mountain while running around, is there something wrong with his head?”

When the group of people awoke, they were all a bit puzzled, but there was also mockery in their alarm.

“Who is a degenerate?” Shi Hao was pissed off to begin with from being forced to carry the mountain. When he saw this group of people, his face darkened even further. He directly rushed up.

“Your inheritance is notorious and ridiculed by the entire world, not appearing for several thousand years, yet you even dare to provoke my Goddess Academy? Today, we will show you your place!”

None of these people were weak, all fierce individuals of the higher grade, or else they wouldn’t dare to try and subdue the mountain deity. Now that they saw him take the initiative to attack them, they were naturally all angered.

Unfortunately, they truly didn’t know about Shi Hao, not understanding his sect’s doctrine. Otherwise, they definitely wouldn’t have been willing to rush over.

One has to understand that Shi Hao had even killed exceptional talents before.

As soon as they exchanged blows, someone was slapped flying like nothing. His entire body was covered in cracks and dripping with blood. Fortunately, Shi Hao still didn't take his life.

This result made everyone's expressions change. They swarmed over, all of their precious artifacts shining. Bone texts appeared in large amounts.

What left them fearful was that this person was just too terrifying! He broke their bone artifacts with his bare hands. With kengqiang sounds, a large pile of precious artifacts were crushed, and everyone was even more so struck until blood sprayed out from their mouths, flying outwards.

"You are from the Celestial Clan?" Shi Hao saw a youth.

"Correct, I am the descendant of an Emperor Clan." That person stood up, shouting loudly after thinking that Shi Hao felt fear.

Peng!

Without saying another word, he kicked outwards, blasting him until his mouthful of teeth flew out. He then added another kick, sending him flying into the air until he disappeared.

The group of people looked completely stupefied. They then dispersed in confusion. This fella was a devil king! There was no way to fight against him.

The elites of various sects were gathering at Goddess Academy, and even Feng Wu came out from isolation. She was discussing techniques and dao in the palace.

"This one should be brother Kun Mo, one of Celestial Clan's six heroes?" Someone spoke, politely cupping fists towards this individual.

Those nearby were all shocked. There were even people from the Celestial Clan that came to pay their respects. It really was bustling with activity.

"I do not deserve your praise." Kun Mo said humbly. In reality, he was no longer within the six heroes because of the heaven's mandate stone matter. Now that Yun Xi and the others were being raised up, he was squeezed out.

"I heard that some changes happened to the Celestial Clan not too long ago, and many giants arrived. Was there such an event?" Someone asked.

"There was!" Kun Mo nodded, but he wasn't willing to speak too much. It was because the matters back then were messy and complicated. It was difficult to say clearly.

"Wu, rumor has it that the young devil king Huang stirred up quite the chaos there. I wonder if that is true or false."

When these words were spoken, everyone revealed looks of shock. They all gazed over out of interest.

"Correct, he has appeared. Only, he does not live up to his reputation, just a trifling younger generation who isn't much at all. If not for someone pleading for leniency, my clan's heroes would have directly killed him." Mo Kun said.

“That can’t be... Huang’s name shakes dozens of provinces, a young hero that is terrifying to the extreme. In Origin Sky Secret Realm, he fought against experts from all different places and has an illustrious reputation. How could he be so unsightly?” Someone became doubtful.

“It was just others’ bragging on purpose. What does he amount to? If you all truly meet him, you’ll understand if you just fight him. It was just a few great sects adding fuel to the fire, purposely creating his demonic reputation. He was disciplined by my sect until he was completely obedient and submissive.” Kun Mo said coldly.

Everyone became shocked, not believing this too much. It was because they heard a few secret rumors.

“I heard that Celestial Clan lusted after his precious technique and as a result bit the hand that fed them.” Right at this moment, Qing Yi spoke. Her expression was quiet and indifferent, her eyes clear.

“Just a rumor. This is slandering my clan! You’ll understand if you just ask around in Devil or Heaven Province.” Kun Mo said. Then, he added, “My clan’s number one expert You Yu, as well the later risen up heavenly talent Yun Xi will be looking around in Fire Province’s ancient mines soon. If you all don’t believe me, you can ask them.”

In reality, Celestial Clan was extremely dishonorable. Kun Mo didn’t want to speak too much on this issue, and as such changed the topic.

“Is that so? Then I’m looking forward to it.” Qing Yi spoke, or in other words, Yue Chan did. She seemed to be implying something.
