

## Perfect WD 761

### Chapter 761 - Criticized Harshly

You Yu is going to come?" Many people were moved, because this was the Celestial Clan's number one genius, a true exceptional talent! His talent was exceptional.

In addition, one has to understand that the Celestial Clan used to be an unmatched Emperor Clan. Just how powerful was an exceptional talent that came from this ancient sect? It was unfathomable!

The most important thing was that he merged with the heaven's mandate stone, which was equivalent to a type of transcendence. He could overlook all of his peers!

"Correct, brother You Yu should be coming," Kun Mo said. His face revealed a faint smile that was a bit aloof. After all, You Yu's name was well known in all directions. When the geniuses from these various sects heard this, their expressions all changed.

He was the descendant of an Emperor Race, merged with the heaven's mandate stone, and was even an 'exceptional talent', so many people predicted that You Yu's future accomplishments would most likely surpass that of the archaic six great celestials!

Sooner or later, this would become one of the taboo existences that ruled the higher realms!

"Brother You Yu is exceptional, and I have long heard of him. If I ever get the chance to meet him, it would truly be an honor." Someone praised, seeing the Celestial Clan's heavenly genius quite favorably.

"Right, I heard that brother You Yu already started to evolve his unique precious technique, and that it was absolutely stunning. When the time comes, I definitely have to ask him for guidance." Someone added.

The others all nodded as well, speaking praise.

"I heard that the noble lady heavenly genius Yun Xi's appearance is exceptional, her appearance like a flower. Now that she merged with the heaven's mandate stone, she powerful rose up. Celestial Clan really is a place where heroes emerge!" Another person said.

Regardless of whether it was the Nine-Headed Snake Race, Oblique Moon Ancient Cave, or the others, even though they were all top level powers, they still felt a type of reverence for this past Emperor Clan.

"Everyone, you all believe that with how outstanding senior brother You Yu is, he is enough to suppress that so-called youth Huang, right?" Kun Mo said. He had felt a lack of confidence this entire time after being questioned by Qing Yi. Now, he brought up this question again with confidence.

Quite a few people agreed, praising You Yu's name. He made quite a few people feel restraining fear.

However, there were some whose mouths revealed meaningful smiles, not expressing anything. They had heard secret information. This Huang was definitely not simple!

Yue Chan smiled faintly, graceful and pure. "I hope he is even more great than his reputation."

"Who are you?" Kun Mo asked. He was quite discontent with this woman, actually questioning him again and again.

“She is my junior sister Qing Yi.” At this moment, Feng Wu spoke. She was dressed in golden clothes that contained a type of spirituality. There was also a type of domineering confidence.

As soon as she spoke, everyone attached great importance to her words. It was because she was Goddess Academy’s number one genius, the chosen inheritor. Not only was she ridiculously powerful herself, she would also be the one controlling the academy in the future.

“Wu, junior sister Feng Wu was previously invited to enter Origin Sky Secret Realm, so you should understand a bit more about that young devil king Huang, the one that has the greatest right to speak. What is he really like? Is he strong or not?”

Someone asked. Even though it was asked rather absent-mindedly and quite casually, this was clearly calling Celestial Clan’s words into question.

When the others heard this, they also paid attention, wishing to know what happened.

“I didn’t fight with him.” Feng Wu said. She acted quite earnest here, because she had to represent the sect. Back then when she fought with Shi Hao on the Copper Sparrow Alter, she definitely didn’t act like this.

When Kun Mo heard this, he revealed a smile and said, “We already said that this person has an underserved reputation. If senior sister Feng Wu took action, she would definitely easily surpass him.”

Feng Wu gave him a look and then said, “I know about his accomplishments. He killed Underworld Child, Sun God Vine, and even cooked the Purple Golden Hou Race’s genius in a cauldron, directly eating it.”

When these words were spoken, the smile on Kun Mo’s face directly froze. This was the same as giving him a huge slap to the face.

One has to understand that all three that Feng Wu mentioned were exceptional talents, yet they all died while nursing grievances. This type of battle accomplishment was enough to prove Huang’s powerful strength.

Many people revealed looks of surprise. They looked at Kun Mo, feeling embarrassed for him. This really was hard to take.

“Senior sister Feng Wu is just telling things as it is. Also, didn’t this information spread throughout the outside world for a while already?” Yue Chan, who was currently Qing Yi, calmly said.

“Everyone, let’s just end it here. I am going to cultivate in isolation.” Feng Wu stood up. She nodded towards Qing Yi with a smile, and then she left.

Everyone stood up as well. They all knew that she was a well known exceptional talent, and right now she was comprehending the Human Immortal engravings, so time was precious. She wanted to rise up in the battle of three thousand provinces!

Even though the remaining sect elites didn’t scatter, they lacked the enthusiasm to talk further.

Suddenly, there was disorder within the academy, and even the experts in the palace could sense it. They couldn’t help but reveal looks of shock.

“What happened?”

“The disciple of that shoddy mountain gate wounded the academy’s senior brothers!”

Soon after, everyone roughly understood what happened. They were immediately interested, heading outwards to learn of the details.

“What kind of person is this, to dare provoke Goddess Academy? What is he treating this place as? Is he looking down on this ancient inheritance?” Kun Mo said.

He had a faint smile on his face. He was called into question in the palace just now, so he felt like he lost quite a bit of face. Now that something was happening, he began to sneer and take joy in the calamity of others.

Soon after, he couldn’t laugh any longer, because even though they were all injured, they could still stand. Only the Celestial Clan’s person was carried back, his bones broken and muscles severed, teeth all knocked out.

“Who dares?!” He couldn’t help but shout out.

There were countless celestial race’s people, and there were disciples that went to other great sects to cultivate, but deep down, they were of the same race. There were quite a few who, after their studies, returned to the clan.

Someone spoke up and asked a few question. Meanwhile, the Celestial Race disciple was even more sullen, telling Kun Mo that after that person found out he was of the Celestial Race, he purposely ‘took care’ of him a bit better.

“Even the disciple of a small shoddy sect dares to do this, provoking our Celestial Clan? Does he not want to live any longer?!” Kun Mo’s face fell. They were one of the higher realms’ great clans, and others normally wouldn’t dare confront them.”

“He was quite unhappy in the palace to begin with, and now he encountered this type of thing, so he was naturally angered. “Where is he? I am going to that sect to demand an explanation!”

Kun Mo had this type of confidence. After all, he did have the reputation of being one of the Celestial Race’s six heroes. If it was just a small sect, he believed that even though their sect elders would be stronger than him, they would still have second thoughts, eventually welcoming him with a smiling face. After all, he represented the Celestial Clan.

The other sects’ elites all revealed looks of surprise. They knew that Kun Mo was going to oppress others with force, and he was most likely going to ask that sect to hand over the one who injured his clansmen.

“Senior brother... that person is not simple...” The cultivator from Celestial Clan that was seriously injured had a snow white face, and his entire body was covered in cold sweat. He wanted to explain something.

However, he directly went unconscious, unable to say anything further.

Yue Chan’s expression was calm. In reality, it as her who secretly took action to make this person faint.

“Who can tell me where that small sect is? I am going to pay that sect a visit!” Kun Mo said coldly. He looked towards the other disciples from Goddess Academy who were injured.

He felt restraining fear towards Feng Wu, but he was extremely self-confident against these people. The Celestial Clan was one of the most powerful inheritances, and as one of the six great heroes, he naturally looked down on most of his peers.

Someone wanted to explain in more detail, but they secretly heard Yue Chan’s message, and as such, they closed their mouths.

It had to be said that Yue Chan’s appearance was wonderful. Even though she didn’t reveal her true perfect appearance, she was still a ranked beauty. She was highly revered in the academy, and many people supported her.

“Senior brother, let me bring you there!” Those people didn’t explain how the small sect was special and instead directly patted their chests to send Kun Mo on his way.

Even the Nine-Headed Snake Race, Yin Yang Academy, Holy Feather Race, and other great sects’ elites were interested. They wanted to see just how Kun Mo was going to display his might and suppress a small sect.

“Lead the way!” Kun Mo said. His voice was low and carried a type of domineeringness.

The injured people nodded, immediately guiding him to the distant shoddy dao rite. This was naturally due to Yue Chan’s inciting.

The amount of elites that came from Oblique Moon Ancient Cave, Divine Cliff Academy, and other sects was quite great in number. They were originally interacting with Goddess Academy, but now, they all followed along.

Apart from Goddess Academy’s people, the other sects didn’t even know what was going on with that shoddy sect.

Outside the group, Yue Chan was elegant and graceful. She revealed a faint smile, but didn’t say anything.

Along the way, Kun Mo’s eyes were malicious. He was going to directly put on the big hat and demand that sect to hand that person over, using Celestial Race’s great power to suppress it.

From his perspective, the Celestial Clan, even if not as great as before, being expelled from the ranks of Emperor Races, it was still not something ordinary sects could challenge, let alone a small sect.

“This route even has weeds growing everywhere, it really is barren. It seems like this inheritance has already declined, its backing not powerful enough.” Yin Yang Academy’s elite disciple said.

“Correct, it has already fallen for several thousand years, about to become a broken inheritance. Recently, it produced another disciple.” One of Goddess Academy’s wounded senior brothers said.

When Kun Mo heard this, he became even more filled with confidence. This place was even less than an ordinary small sect. The disciple of this poor inheritance even dared to injure Celestial Clan’s disciple? It truly filled his chest with anger.

The other great sects' people revealed shock. This sect really was ridiculously weak!

Then, everyone believed that this sect definitely declined to a serious degree, because the mountain road was rugged and covered with weeds and thorny undergrowth. Where would one find the scene of a sect? This was clearly a part of the wilderness.

"We are almost there, it is just up ahead." Goddess Academy's people led the way.

Kun Mo became more angry the longer he walked, his face sinking like water. What kind of rotten place was this? For this kind of small sect to injure his clansmen, it was simply an enormous humiliation!

They finally arrived. At the mountain gate, a tattered decorated archway still managed to stand. As for the other places, there was debris everywhere. Weeds flourished everywhere.

This was a sect? It was clearly just ruins and remains!

Everyone became speechless upon seeing this.

They naturally saw the true scene, not the magnificent place Shi Hao had seen before.

Kun Mo immediately seethed with anger. If today's matters got out, it would make them a laughing stock. This was the sect that he was going to criticize harshly?

He felt rather regretful, feeling that he really shouldn't have come. This place was too poverty-stricken, not worth him coming himself. If there is anyone here, get the fuck out here!"

The others all wanted to laugh, but felt embarrassed. They all held it in.

Only Goddess Academy's people were nervous, not feeling at ease at all. They all treated this seriously.

Behind the flourishing weeds on a large bluestone, Shi Hao's darkened face appeared. His mood was terrible, because he had just been scolded by Qi Daolin.

"What are you yelling about? Get lost!" He said with a bad tone.

When Kun Mo heard this, he was so angry he was going to explode. A random youth that came out from this tattered place unexpectedly dared to say this to him! It was truly beyond unbearable.

"Youngster, do you know who you are talking to? Call out your elders. I have things to discuss with him!" Kun Mo said coldly.

Even though he was furious and resentful, there were still people from various sects behind him, so he didn't want to act too excessive. He treated Shi Hao with great arrogance and a stance of looking down from high above, ordering him like this.

Shi Hao's face darkened even further. He was forced by that old man to carry a large mountain crazily on his back, tiring him half to death, and now that he came back, he still couldn't get any peace and quiet, meeting someone who spoke to him like this. How could he tolerate this?

In reality, he didn't notice at all that this was an expert from Celestial Clan, because they were similar to humans.

Otherwise, his face would darken even further.

Despite this being the case, Shi Hao still forced his way over.

“You still aren’t going to quickly call out your sect elder? Did you not hear me? Are you deaf? I have something to say to him!” Kun Mo berated with an attitude like a great saint that was high above.

In the rear, the other sects’ geniuses were all watching from the sidelines like they were watching a play.

Only Goddess Academy people’s faces were strange, their fine hairs standing on end. They held their breaths, feeling extremely nervous. However, they had previously received Qing Yi’s message, so they couldn’t say too much.

Hong!

The dark faced Shi Hao took action, fast to a shocking level, making others’ souls even tremble. He merged the Kun Peng technique and Earth to inches great divine technique, moving like transient light.

In addition, there was a heaven overflowing blood energy flowing out from him. It was as if a prehistoric enormous beast was going mad, ferocious and unmatched.

Kun Mo’s pupils rapidly shrunk. He was an expert, moreover an extremely powerful one, but he discovered that he had been careless and made an error. He was imprisoned by some strange domain and unable to budge.

Shi Hao used his only heavenly passage, but he hid it quite well. After locking him down, he directly put it away.

“You... let go!” Kun Mo could move again, but he couldn’t struggle free. His hands and feet moved and bone texts erupted, wanting to blast Shi Hao to death, but it was all ineffective.

Peng!

As if he was swinging a ragdoll, he grabbed his ankle and slammed him onto the ground, blasting the ground until it cracked open. Mountain rocks flew everywhere.

Kun Mo released a groan. This was just too humiliating! The other person didn’t even use any precious technique, instead using brute force to swing him about.

Peng!

Shi Hao treated him like a scarecrow, swinging him crazily about, almost making Kun Mo fall apart. The bones all over his body were cracked apart. He then picked him up again, and after his fists smashed down a few times, his mouth of teeth fell out. His eyes were blacked and his nose caved in. He continuously cried out miserably.

From the side, those sects’ geniuses were all struck dumb, all of them agape and tongue-tied. They then struggled to swallow their saliva, simply unable to believe everything they were seeing.

One has to understand that this was one of the Celestial Clan’s six heroes, but he was being toyed with like a doll, swung around until he was almost unrecognizable. Moreover, this was all done with brute force.

This truly left this group of people terrified!

“Who exactly is this fella?” Shi Hao flung this deformed Kun Mo onto the ground and asked Goddess Academy’s people.

The group of people were stupefied. This was just too violent. He was only asking now?

Kun Mo’s entire body was in intense pain, and he was so embarrassed he was going to faint. He was the glorious Celestial Race’s heroic talent, yet he wasn’t even given a second look by the disciple of a small sect, only having his identity inquired about after he was beaten up. This was just too shameful.

“Do you know who I am? What clan I came from?” He was so angry his voice was shaking. He endured the pain and shouted loudly.

“What clan did you come from?” Shi Hao’s face darkened as he asked.

Chapter 762 - Targeting Celestial Clan.

Broken walls, foundations overgrown with weeds, old-fashioned soft roof tile pieces... everything spoke about how declining this place was.

The group of people were stupefied. A youth that walked out from this kind of small sect beat one of Celestial Clan’s six heroes so miserably he wailed and howled.

“I... came from... the Celestial Clan!” Kun Mo used up all of his energy, and with a trembling voice, roared outwards.

His eyes carried a ruthless and tyrannical light as he looked at Shi Hao to see his reaction. Now that someone from such a great sect came, its significance was great. It would definitely be enough to completely terrify a small sect.

It was because he wasn’t representing just himself, but instead an entire sect.

Shi Hao’s eyes widened, and then he looked at him carefully.

Kun Mo’s anger was originally flourishing, but when he saw how Shi Hao looked, he felt that this person was scared, so he felt arrogant inwardly. Celestial Clan really had a powerful influence just like before, leaving all sides in restraining fear.

“You provoked a huge disaster! It’s too late to regret it!” Kun Mo said ruthlessly. He sat up on his own and continuously sneered at Shi Hao.

In the surroundings, the group of people also sighed softly. This small inheritance really was unlucky. They could have provoked anyone, yet they offended the Celestial Clan, making one of the six heroes come personally.

However, everyone also sighed in admiration. This small sect really was formidable, producing such an extraordinary figure who could even restrain Kun Mo. It was unbelievable.

Only Goddess Academy’s people’s faces had strange expressions. All of their lips opened and closed, wanting to say something, but unable to speak those words. They felt extremely uncomfortable.

They didn’t believe that this ‘degenerate’ was scared stiff. He dared to carry out business in Goddess Academy, saying that he could beat up talents of all grades, so would he fear the Celestial Clan?

"You are a celestial?" Shi Hao spoke, walking a circle around him. His face was strange. This really was fucking something. He hadn't even paid that sect another visit, yet someone unexpectedly came here acting cockily, looking to stir up trouble!

"Of course, who dares to pretend to be from my Celestial Clan?" Kun Mo said. He began to develop more and more confidence. From his opinion, Shi Hao was scared and carefully seeking confirmation.

He sat there, treating his injuries. His blood energy was surging, but he was staring at Shi Hao. With a callous and pleased look, he said, "Because of your ignorance, you've brought a huge disaster onto your sect! Even if you ask your elders to come out and apologize, it is already too late!"

"Is that so? Then what should I do?" Shi Hao asked.

Kun Mo stood up. It had to be said that as a well known young expert, his foundation was quite deep. Even after suffering serious injuries, he could still stand up.

Even though standing was extremely difficult and strenuous, he still put his hands behind his back. With a stance of looking down from far above, he threatened, "It's too late!"

"Dao brother, it isn't that serious, it is still better if you don't act too harshly..." On the side, others pleaded.

"If I don't get revenge, where will the Celestial Clan's dignity go?" There were others that took delight in this disaster, treating this like a play.

Only Goddess Academy's people remained silent. In reality... they pitied Kun Mo greatly. It was because they knew that this youth was not thinking this at all!

The academy's students believed that Kun Mo was out of luck. He really was... quite pitiable.

"I will give you a chance. Behave properly until I'm satisfied." When he spoke up to this point, Kun Mo gave Shi Hao's legs a look and said, "Your knees are quite hard huh?"

What was the meaning of this? Was he telling this youth to kneel down? When they heard this, Goddess Academy's people couldn't help but cover their mouths. There were even some that directly turned their heads, not willing to watch on any longer.

"Alright!" Shi Hao nodded. He didn't feel like watching this person act cockily any longer, because he found that this was precisely the head of the Celestial Clan youth, its most powerful individual.

Then, he moved his feet. Ka cha sounds rang through the air, the sounds of bones cracking extremely deafening, making people feel extremely uncomfortable. They couldn't help but shudder.

"Ah..." Kun Mo screamed loudly, his five senses distorting and cold sweat pouring outwards. He immediately knelt onto the ground, his legs unable to support his body.

It was because his knees split apart, the bones in his legs fracturing and deforming. He fell down on the rocky ground, the pain so great it felt like his heart was tearing and lungs splitting.

The elites of those great sects were all stupefied. This youth still took action, acting so powerfully even after hearing the Celestial Clan's denouncing. This was completely unexpected! n(-OveLbIn

Goddess Academy's people were comparatively more calm, because they knew that this was definitely what was going to happen. This inheritance never suffered losses, its notorious reputation widespread.

"You... are bringing disaster onto your sect!" Kun Mo shouted loudly.

He was a bit stunned. Why was it different from what he thought? Wasn't that youth scared just now? Why would he suddenly change and erupt into action now?

"My name is Kun Mo."

He was inwardly fearful. After becoming slightly clear headed, he hurriedly spoke out his identity as one of the six heroes, hoping that the other party might feel some misgivings, thus perhaps allowing him a chance to escape from this disaster.

Peng!

Shi Hao's leg swung out, blasting apart his lower jaw and making it difficult for him to speak again. Moreover, his body swung out, smashing into an enormous rock. Blood flowed out from his mouth and nose.

"Are you supposed to be well known?" Shi Hao asked with a darkened face.

Kun Mo felt fear and hatred. He felt extremely humiliated. As one of Celestial Clan's most well known experts, he was actually being looked down upon like this by someone else. It was as if the other party never heard of him before.

"He was one of the Celestial Clan's six great young experts, but now, he was forced out, ranking eighth." There was naturally some people who felt that Kun Mo was unsightly, secretly speaking.

"I can't even name the top three. You are only the eighth. Never heard of you before." Shi Hao said to himself.

This was the truth, but when his words entered everyone else's ears, they all revealed strange expressions. This fella was too vicious, looking like he didn't attach much importance to the Celestial Clan at all. Was this really the disciple of a small inheritance?

"Ao..." Immediately afterwards, Kun Mo released a scream that didn't sound like that of a person's, more like the howling of a wild beast. It was incomparably cruel.

Shi Hao didn't have the slightest good feeling towards the Celestial Clan, to the extent where it could be said that he hated them thoroughly. He escorted Yun Xi for several hundreds of thousands of li through the great Blood Plains, risking life and limb along the way, yet the other party bit the hand that fed them, imprisoning him in the black prison to seize his precious technique.

Today, there was actually a so-called 'seed' of the Celestial Clan who came to provoke him, pressuring him with the Celestial Clan's power. Wasn't he just courting death?

Shi Hao didn't waste his time with words, instead directly sending his palm down. Forget about his teeth, his entire lower jaw was about to disappear. As for his bones, they were long broken and fractured to the point where he didn't look like a person.

“Stop! Dao friend, there is no need to be so ruthless! You should know when to forgive others.” Someone spoke. This could be considered a plea for leniency, wishing to stop Shi Hao to help out the Celestial Clan.

“You are judging the situation inaccurately!” Shi Hao said. A streak of lightning directly hacked over, releasing pi pa sounds as it flew outwards. This was the Lightning Emperor’s precious technique. It immediately charred that person black, his entire body twitching after falling onto the ground.

Many people’s expression changed. This was someone from the Nine-Headed Snake Race, the ones that held grudges the greatest. Shi Hao actually acted so fiercely right off the bat towards him.

“Dao brother, it’s still better if you stop. Otherwise, your sect will most likely suffer a disaster.” Someone tactfully stepped in, fearing that if they used force, they would also be put down.

Shi Hao sneered coldly and said, “The one I am attacking is the Celestial Clan. Forget about him, even if all six heroes came, I would still beat them all up without mistake.”

When these words were spoken, everyone became shocked. This already couldn’t be described with just arrogance. Was this a declaration of war? He was going to confront the Celestial Clan!

It had to be noted that Celestial Clan’s younger generation number one was about to appear, and the outstanding beauty Yun Xi was also coming together with him. He unexpectedly dared to say this so directly!

Kun Mo was completely stupefied. He was beaten to a terrible degree, looking stupefied. Who exactly was this person? He didn’t fear the Celestial Clan at all and instead directly targeted them!

“Do you all bear hostility against me, wishing to stick out for the Celestial Clan?” Shi Hao’s expression was not good as he stared at those disciples of other great sects.

Apart from Goddess Academy, the others were still in shock. This threat from the inheritor of this shoddy sect really was a bit absurd, but they had to admit that he was strong!

Then, everyone’s hearts began to pound. This fella was too domineering, unexpectedly directly taking action against those that previously revealed hostility towards him.

“You...”

Those people were shocked and angry. Even though they interacted with each other and revealed hostility, they hadn’t taken action, yet the other party took the initiative to attack.

“Since you bear hostility, I’ll help you accomplish your goals!” There were golden spirals around his entire body, moving heaven and earth’s spiritual essence. This was the Kun Peng technique’s golden vortex ripple technique, a method that replenished his body’s true source.

Then, thunderstorms shocked the skies. Golden arcs struck out in the hundreds to thousands from his body, selectively bombarding those individuals.

How powerful was Shi Hao now? He even killed Underworld Child, cooked and ate the Purple Golden True Hou’s most powerful descendent. Dealing with these people naturally didn’t take much effort.

In that instant, the young experts from various races were all blasted. Pili pala sounds rang through the air as they were cooked like potstickers.

Kun Mo shivered inwardly, his now slight clear headedness allowing him to understand that he had provoked a devil king. This fella was too terrifying, not fearing any sect at all. He was powerful and completely unrestrained.

Everyone shivered inwardly. The experts of every sect were completely shocked. No one dared to take action, nor did anyone say anything. The scene was completely quiet.

Ka!

Then, a streak of electricity descended, entering Kun Mo's body, making his soul tremble. He cried out inwardly, every hope turning into dust.

It was because Shi Hao crippled his cultivation!

"Get lost!" Shi Hao kicked him flying into the group of people. He then strictly warned everyone to leave immediately.

Many people revealed looks of surprise. This person was too demonic. Was he truly going to challenge the Celestial Clan?

"Dao brother, doing this might bring disaster onto your clan. It is better if you plan ahead." Some people kindly reminded, inwardly transmitting.

"No matter, I'll be waiting right here. I want to see what kind of experts Celestial Clan has. The six heroes can come together. I'll be waiting!" Shi Hao said.

Everyone was stupefied at first, and then they were greatly shaken inwardly. Was this a declaration of war? Everyone sensed that a great storm was brewing. With You Yu and Yun Xi here, there would likely be a confrontation here!

Things ended here. No one dared to take action. The disciples from various sects all looked at each other in dismay, and then they went down the mountain the way they came.

Quite a few people began to doubt what kind of inheritance this really was. It was in such tatters, so why did it have such a terrifying inheritor? They suddenly realized that something wasn't quite right.

Everyone looked towards Goddess Academy's students with doubt. They were going to ask to the end.

The mountain gate now quieted down.

Shi Hao walked inside, and he saw Qi Daolin sitting on top of a large rock. He said with a soft voice, "Dao master, I have some things to tell you."

"What is it?" Qi Daolin was sitting with his eyes closed.

"I have some secrets on my body." Shi Hao said.

"Who doesn't have secrets? Can't be that important." Qi Daolin was extremely calm.

"Dao master, there are many sects looking for me." Shi Hao confessed.

Qi Daolin released a grunt, opening his eyes and expressing that he knew.

"You were aware?" Shi Hao was shocked.

"Why else would I bring you back? Not anyone can become the disciple of Supreme Being Dao Rite," Qi Daolin said. Right now, he was wearing a golden dao robe, appearing immortal and imposing. His eyes were deep, his figure exuding a type of great prestige.

Shi Hao was stupefied, and then he said, "Since you know who I am, then I won't feel anymore misgivings. Dao master, I want to flatten Celestial Clan's outer dao rite, for example, the divine mines in Fire Province. Wouldn't that stir up a disaster?"

"Go then." Qi Daolin only had these two words.

### Chapter 763 - Natural Luck

Shi Hao's eyes lit up. He didn't say anything else. This old man really was domineering, only saying those two words. However, it was just what he needed!

"Huang, this name isn't bad. You can go." Qi Daolin closed his eyes and continued to sit there.

Shi Hao originally turned around, but his body was a bit sluggish, somewhat hesitating before leaving. This old man only mentioned Huang, why didn't he mention his name Shi Hao?

"He should know that I came from the lower realm right?" He was a bit suspicious inside, but he didn't say it out loud.

It was because Qi Daolin was completely calm, directly cutting him off each time, not giving him the chance to say it. He should understand everything then.

Shi Hao left to make his preparations. The first matter was acquiring details on Celestial Clan's visit to Fire Province's mines. He had to understand this matter clearly first.

Below the mountains, the group of people were about to return. The mood was a bit heavy. They came to a small sect today, yet the events that played out were simply unbelievable.

"Goddess Academy's dao brothers, what is that person named?" Celestial Clan's people spoke, their tone not all that friendly. It was because they felt like they were tricked today. n./OvEℓbℓn

How could Goddess Academy not tell them about such a powerful individual beforehand?

Kun Mo's face was deathly gray. He was carried on someone's back. His fists were tightened and his teeth clenched. His eyes were filled with bitter resentment. Today's events were just too wretched. He was actually crippled!

This type of punishment was even worse than death. Shi Hao was using him as a written challenge of war, one made for the Celestial Clan to see!

"I don't know. He calls himself the great senior brother." Someone from Goddess Academy replied.

"Great senior brother?" The disciples from various sects all revealed looks of shock. This really was a special title. This fella's way of speaking wasn't small. However, he really was ridiculously powerful.

"Is he really the disciple of a small inheritance?" Someone asked. This was also what everyone else was wondering as well. The events that took place today were too unusual.

"He is. This inheritance has been tattered for several thousand years and should have long stopped passing down its tradition. It has only risen from the ashes recently." Someone from Goddess Academy replied, but they had to pluck up their courage.

"What kind of sect is it exactly?" One of them couldn't wait any longer and directly inquired.

"Supreme Being Dao Rite." A female disciple from Goddess Academy said with a soft voice.

"It sounds a bit familiar... Why do I feel like I heard of it before? How could a small sect leave me with this kind of impression?" Holy Feather Race's heroic talent said to himself.

Oblique Moon Ancient Cave's people cried out in alarm, seemingly realizing something.

"Supreme Being... Dao Rite?!" Kun Mo clenched his teeth, feeling incomparably resentful. He then became clear headed, because he recalled that this was a evil sect!

The master of this inheritance was previously well known in the higher realms, stealing from hundred families and clans. He entered all different inheritances to learn their secret methods, an absolutely notorious individual.

Yin Yang Academy's people were stunned as well, clearly understanding some inner details. They sighed inwardly. It was actually this type of inheritance! This really was unexpected.

"Even a sect like this has the nerve to reopen its mountain gate?" Some of them carried hostility, because this was definitely one of the higher realms' most unique inheritances. It stole from the halls and pavilions of all different sects, and later on, all sides grouped together to destroy it.

After so many years had passed, this sect unexpectedly reappeared. It really was like ashes burning once more, exceeding everyone's expectations.

"I recall that several thousand years ago, there were several disciples of this dao rite, but in the end, they were beaten up by various sects until they didn't dare come back, becoming a laughing stock. Someone actually dares to stand here again?"

When this sect was brought up, many great sects felt their teeth ache. The main reason was because Qi Daolin really was something else, stealing from hundreds of families and even bringing away various sects' symbolic buildings.

"The most notorious sect has appeared again. I feel like that place will definitely become bustling with activity."

"As soon as news gets out, many people would come to this place to recreate the scene from thousands of years ago. The disciples there would be beaten up until they are in sorry states and not dare to reappear." Someone said.

It was clear that this place was going to become lively!

However, there were others that frowned, because they knew that Qi Daolin wasn't good to provoke.

He had a notorious reputation, but when he was surrounded by various sects in the past, he ended up escaping safe and sound. So many years have now passed, so he was definitely much more terrifying now.

Fire Province, within a vast and boundless prairie.

A youth was heading along with great speed. It was precisely Shi Hao. He had secretly paid Goddess Academy a visit, obtaining a lot of information from Yue Chan. Right now, he was moving through the great earth like a streak of lightning.

He already understood many things. He carefully observed Fire Province's map, differentiating the scope of power of various great sects as he headed towards his objective.

Hong!

Up ahead, silver flames surged, surrounding an area of several li. The grass was completely unharmed, but there were creatures that were burned into ashes.

Shi Hao shivered inwardly after experiencing Fire Province's nasty environment a bit further. There were some areas where fiery light would surge, coming fast and going fast. It was extremely strange.

"It really is a strange place. What exactly is there underneath the earth? Why is there always strange flames surging?"

Even now, Shi Hao didn't know the answers to these questions.

In reality, forget about him, even Fire Province's great inheritances couldn't claim to truly understand what was going on.

The divine minesthe Celestial Clan occupied bordered Goddess Province, not situated in the depths of Fire Province. That was why Shi Hao didn't need to borrow a transport formation, only needing to fly there.

Several hours later, he arrived in that region.

This was the Celestial Clan's divine mine region. The amount of space they occupied was vast, and it was abundant with rare materials. This was an extremely well known precious land.

In this region occupied by the Celestial Clan, there were two divine mines that were the most well known. They had been mined for many years, yet divine materials came out unendingly.

Rumor had it that one of the divine ore mines even produced an Immortal gold granule, triggering a huge uproar. Many great sects came here, and there was almost a great conflict. There was great disorder raised.

Unfortunately, in the end, there was only a granule of Immortal gold with impurities, so it wasn't a true immortal mine. It was only because of this that the great chaos calmed down.

Shi Hao arrived. He gazed over from afar and silently thought about everything. He wasn't extremely nervous, because he knew that there were no Heavenly deities here. The most powerful individuals were only True deities.

After all, Heavenly deities were too extraordinary. Normally speaking, they wouldn't be assigned to protect a divine mine. They would all remain by the sect and focus on cultivation, stationed there to protect the clan.

In reality, True deities were enough. As one of the most powerful inheritances, there really weren't many people who dared to steal from them.

This was, unless Immortal gold appeared in the world!

Shi Hao was fearless. Now that he came with the Kun Peng technique and Earth to inches great withdrawal technique combined, his speed became even faster. He could escape even if he encountered True deities.

He wasn't in a rush to take action, instead moving from one place to the next. He gave both well known divine mines a look.

"Yi?!"

Suddenly, Shi Hao was shocked. With the dual pupil, he saw that one of the divine mines had a trace of dao energy seeping out that seemed quite unordinary.

When he put away the dual pupil, it immediately disappeared.

"It is a bit different..." Shi Hao used the dual pupil again and carefully looked it over. That place was completely quiet. Only after a long time had passed did he discover a wisp of white mist seep out from beneath the earth. It was extremely faint and mysterious.

What exactly did this place have?" Shi Hao was confused.

It was difficult for him to capture that mist even while holding the divine pupil. Only after a long time had passed did a wisp seep out.

He didn't take action, instead going into hiding here. He watched everything quietly, and then he discovered that this ancient mine looked ordinary, but actually guarded a secret. There were ten deities standing guard here alone.

This was still just what he saw, yet it already left him shocked. Normally speaking, even if True deities came, they would only be overseeing this place. Why were they continuously patrolling this place?

"Something might have happened here..." He said softly.

"Why haven't You Yu and the others arrived yet? This is a rare opportunity. It will be unfortunate if it is missed." Someone said. Shi Hao heard this through his powerful divine senses.

Even though this place was a savanna, there were still a few mountains scattered about.

This ancient mine was precisely at the foot of a mountain. There were a few True deities sitting on a different mountain peak, quietly discussing something.

"You Yu has just merged with the heaven's mandate stone and needs to consolidate his foundations. In addition, a few Heavenly deities went into isolation after the last incident, so they still haven't been awoken..."

From their words, it seemed like there would be Heavenly deities escorting You Yu and the others here. This made Shi Hao shocked. Celestial Clan's geniuses were coming because of something in the ancient mine?

You Yu's arrival in Fire Province to look around the divine mines and interact with Goddess Academy were all a facade. There was actually another objective!

This stirred up Shi Hao's interest. He watched closely, observing everything in detail.

Sometimes, a strand of mysterious mist would seep out after just a moment, while other times, it would take a few hours. That type of weak mist stirred Shi Hao's heart.

"This stone is quite strange. It can even make us sink into a state of dao comprehension, so its value is definitely extremely great."

"We didn't notice anything at first, but who would have anticipated that it would have such wonderful effects. If we knew earlier, we should have exaggerated the reports a bit so that the higher ups would be shaken."

"Wu, I already sent another detailed report back. I believe the clan will definitely be shaken up and a Heavenly deity will immediately descend."

Through their discussions, Shi Hao was sure that there was a treasure underground!

"Unfortunately, that strange stone is too weak. As soon as it's touched, it will blast apart. We can only make a decision after a Heavenly deity arrives."

Shi Hao was shocked. This was what he heard only after waiting for quite a few hours.

In that instant, Shi Hao changed his mind, temporarily putting aside his thoughts to attack the Celestial Clan's mine region. He was now going to think of a way to enter this ancient mine!

If nothing unexpected happened, there would be a natural opportunity here.

"Could it be an immortal seed? I heard that there were immortal essence, bone pieces, and other things sealed. Once obtained, these things can allow one to carry out a perfect evolution."

"Wu, you're correct. I heard that there were some in the ancient era that didn't ignite themselves with a divine flame but instead borrowed immortal blood to create a 'dao seed'. The effects were quite great!"

Shi Hao was shocked. He actually heard this secret rumor. He now looked forward to it even more.

In the end, he began to move. He felt that he couldn't wait any longer, because the people here already made another report. There might be Heavenly deities descending soon.

Shi Hao used the Earth withdrawal great divine ability to enter the earth, silently closing in on it bit by bit. In the end, he entered the ancient mine.

Even though he couldn't fight head on against a True deity, his movement technique had now truly become an art. There was no trace of sound as he made his way inside.

When he entered the depths of the ancient mine, he saw a strange stone from far away that was four zhang tall. There were actually strands of immortal energy seeping out from it that made one's heart tremble.

This stone had many cracks on it. It was clear that it was just like what the True deities said; upon touching it, it would crack.

The Celestial Clan's experts attached quite a bit of importance to this, purposely stopping here and not acting rashly out of fear of destroying this strange treasure.

Shi Hao's eyes flickered with radiance. He definitely wouldn't act so careful. If there was a chance, he would directly bring it away!

Only, there were True deities underground as well sitting not too far from that strange stone, moreover not just one. They were vigilantly guarding this place.

"Going to risk it all!"

Shi Hao said to himself inwardly. Now that he unexpectedly encountered this type of natural luck, he decided to take a risk. Of course, he didn't have to worry too much because he still had the Realm shattering symbol after all.

After waiting patiently for a day and night, finally, when it was time for them to change shifts, Shi Hao moved. He grabbed this only opportunity, turning into a streak of divine light as he rushed over.

Hong!

As soon as he raised this strange rock, he felt a great dao aura pervade the air. It was as if endless heaven and earth energy descended, leaving him greatly shaken!

Shi Hao immediately understood. If he truly could bring this thing away, Celestial Clan would definitely go crazy. This was definitely a great treasure.

Chapter 764 - Produced From Heaven and Earth

Kacha!

This strange rock released a brittle sound, and then streaks of cracks appeared. It began to split apart as dao energy was released, the cracks interweaving.

"Ah!!!!"

Celestial Clan's True deities cried out strangely, their eyes all standing vertically. This was stealing food from the tiger's mouth! An outsider actually appeared in Celestial Clan's number one divine mine to steal their treasure!

"The source energy!" Someone said with a trembling voice. After making sure that he wasn't seeing wrong, his entire body began to tremble and his eyes became bloodshot. He frantically rushed over.

Xiu!

In that instant, there were four people who took action. Four great True deities rushed murderously at Shi Hao. They definitely couldn't let him leave.

"Careful, don't let the strange stone be damaged!" A True deity reminded, roaring with a low voice. This sudden change was truly unexpected.

Shi Hao was quite decisive, using the strange stone to defend against their symbol light and protect himself. Since the other person was scared of breaking it, then there wasn't much to be hesitating over.

"Little evil creature!" A True deity roared. He forcefully pulled back the bone texts he fired, not forcefully striking him out of fear of damaging that mysterious stone.

Kacha!

Reality proved that this stone truly was quite fragile. Even with Shi Hao running while carrying it on his back, this type of movements still created several terrifying cracks.

"Are you trying to destroy a heaven and earth treasure? Hurry and put it down, or else you will be condemned by history! Not even a hundred lives will atone for your crime!" A True deity berated angrily as he clenched his fists.

Moreover, he spat out an expanse of symbols from his mouth. It turned into metal words, and when those characters smashed together, they flickered like clusters of stars. There were also waves of clanking sounds. When these tangible symbols connected together, they formed a divine chain, suppressing towards Shi Hao to lock him down.

A chi sounded. Shi Hao turned into a beam of light, moving several dozen zhang and making his way through the enormous underground mine to avoid this attack. His speed made the True deities feel fear.

How could he be so fast? The pupils of the four great experts rapidly contracted, now truly scared that he might escape.

"This really might be source energy, energy that is currently forming a divine substance. It cannot be lost!" The four great True deities were now nervous.

They thought that there was some wondrous matter within the stone, perhaps immortal blood or some other thing left behind, things that could be used as immortal seeds. They believed that it already developed spirituality, and after being sealed inside, now, some type of changes happened.

Hong!

The four of them took action again, only, they didn't attack him, instead trying to cut off his path of escape and interfere with his route. Bone texts filled up every inch of space.

Right at this moment, Shi Hao displayed an inconceivable movement method to evade. His flesh seemed to have distorted in the void, shrinking several hundred zhang into an inch as he made it way through the expanse of bone texts.

This was a reflection of the Earth to inches precious technique evolved to its limit. His body became blurry as well, avoiding all of those attacks. He turned into a wisp of smoke and then appeared in another place.

“Stop!”

Someone shouted. With a fierce stamp of his feet, this ancient mine shone, and a chain of order appeared, streaking towards Shi Hao’s waist, hacking at him like a sharp weapon. This was just too sudden.

There were clearly things that had been previously set up in the base. There were a few formations, and now, they displayed their effects. They were enough to kill True deities.

Shi Hao’s expression changed. A faint pair of wings appeared behind him, and they fiercely shook. He was originally like a streak of light that rushed forward, but now, he abruptly changed directions. It defied normal reasoning.

This was the Kun Peng technique, allowing the movement of space distortion!

Chi!

That streak of divine chain imprisoned the void, blasting apart a mine, hacking it into two parts. It also rushed out of the surface of the earth, blasting apart in the grassland above.

One could imagine how terrifying this strike was!

By now, all of the Celestial Clan’s experts were alerted. They swarmed over, especially the True deities. Their bodies shone one after another like a dozen or so small suns, illuminating heaven and earth.

Everyone’s heart blood began to surge, feeling great anger. Who was it that dared to do this? A single person barged into Celestial Clan’s restricted area and stole their natural luck; this was something completely unprecedented!

Not even those great sects dared to do something like this, because this was the same as a declaration of war! The two sects would fight, and there would definitely be countless that die. The result of this was extremely severe.

Chi!

Shi Hao continued to run. Another streak of holy radiance surged, a restriction from the cave. It almost surrounded him, and he only barely managed to avoid it.

Fortunately, there weren’t too many restrictions in the cave, because there were people who came every day to excavate divine materials. If there were too many terrifying formations weaving together, they might even harm their own people.

Shi Hao ran frantically the entire time. During this process, the strange stone on his back would release cracking sounds from time to time, and even more great dao energy would be released.

In the depths of the ancient mines, there were countless black caves. Some of them would reach several hundreds to thousands of roads, making it seem like a labyrinth. Shi Hao entered a fork in the road, and then he immediately charged forward.

These were all new caves that had been created over the past thousands of years. In the ancient era, there were even more numerous spider web like old caves, vast, boundless, and densely covering everything in the distance.

This naturally made it much easier for Shi Hao's escape. Meanwhile, a total of eleven True deities were still chasing after him, moving through the caves to try and stop him.

Kacha!

Suddenly, a loud cracking sound rang through the air. The strange stone on Shi Hao's back released a cracking sound. It was originally four zhang long, but now, one zhang directly came off, smashing onto the ground.

"It won't be destroyed, right?" Shi Hao was shocked. This thing was too fragile, even running while carrying it would cause it to break.

"You dare to do this? Even if you die thousands of times, it won't atone for your crime!" The True deities were becoming anxious. This situation was too terrible.

They believed that aside from there being an 'immortal seed', there might be a holy treasure inside which exceeded heavenly treasures that was currently taking form. If it was destroyed because of this, it would be too unfortunate.

Otherwise, it might have become part of the Celestial Clan's hidden power, something used to protect the sect.

There were priceless and unique things in heaven and earth. During the initial phase, it would be accompanied by source energy that nourishes its spirituality. It would only disappear when it completely formed.

However, anything that went through this process would be extraordinary objects. Its price would be invaluable, and when it appeared, it would definitely make people go crazy!

Shi Hao turned around and gave it a look. He discovered that the zhang chunk that fell off wasn't part of the main object. Its dao energy quickly disappeared, while the mists the enormous rocks on his back released became even richer.

He didn't want to put away the stone material on his back, because he was using it like a shield to stop the attacks of the people behind him, preventing them from going all out.

"Something isn't quite right. With my speed, I should have rushed out of the ancient mine a long time ago. Why am I still running in circles around these caves?"

Shi Hao discovered a few abnormalities. This was too strange, almost like he was travelling through a maze. He had long lost his sense of direction. There were formations guiding him; it was quite strange.

Hong!

Shi Hao shoved and bumped about, no longer walking along the underground palace routes, but instead directly breaking through the stone walls and smashing into the rocks. He chose a direction and began to forge his own path.

Hong!

Suddenly, a tremendous force appeared. It appeared extremely abruptly, an energy that came from underground. It was going to shake Shi Hao's legs into dust through his feet. A true deity took action without holding back at all.

Shi Hao couldn't block with the strange stone even if he wanted to. One could clearly see that bone texts were burning about, erupting in this place.

Meanwhile, the rocky walls exploded, and an enormous open space appeared. Several True deities appeared here, cutting this area off.

"Is he dead?" One of them said.

Soon after, everyone became shocked, discovering that the center of the scene was shining. It was gentle and holy, blocking all of the destructive bone texts from just now, not allowing that area to be affected by anything.

"Protection symbol, what level of an item is this?" Several True deities cried out in alarm.

At the center of it all, Shi Hao carried the enormous stone while completely unaffected. A layer of light appeared around him, surrounding him within. This was precisely one of the symbols he brought out from the Three World Coffin's ruins.

This was also one of the reason why Shi Hao dared to take a risk. When the small world within that bronze precious case exploded, it was still able to resist destruction. Not even the boundless void cracks could destroy it, so it could definitely block the attacks of True deities.

The only thing that made him worried was if this symbol would be ruined because of this, because that would be quite unfortunate.

"It wasn't even damaged!" Shi Hao was pleasantly surprised. The True deity's attack wasn't even able to make a single crack appear on that ancient symbol. It was unexpectedly completely unaffected; this meant that he could use this many times.

Xiu!

When the screen of light faded, Shi Hao's body leaned forward, and then he began to flee into the distance with his inconceivable body movement method. The True deities' faces fell, quickly chasing after him.

This person had a precious symbol on him that exceeded their expectations. Now that he displayed this type of treasure, how could he possibly be the disciple of an ordinary sect? His backing must definitely be unordinary.

Kacha!

A crisp sound rang through the air, this time even more clear. Two zhang of this strange stone broke apart, making even Shi Hao alarmed. He quickly abandoned the piece in his hands and picked up the stone material on the ground, because that was the source of the dao energy.

In the rear, Celestial Clan's True deity's eyes became dark, feeling both alarm and fear. If they were stolen from like this, they would suffer tremendous blame.

"The aura has become even more dense. It really is an unimaginable wondrous object after all, most likely containing an 'immortal seed' that can allow one to display the most shocking evolution."

A True deity trembled inwardly, feeling his blood surge. If the Celestial Clan was able to obtain it, they might be able to bring up an exceptional individual.

The ground was smashed to pieces. Shi Hao rushed out, breaking free from the ancient mines. Meanwhile, the eleven True deities appeared as well, frantically trying to stop him. They now seemed almost a bit unfearing of consequences as they attacked viciously.

"How formidable!"

Shi Hao was shocked. If he was a bit unluckier, he would have been swept through by several streaks of natural dao laws. It was clear that the Celestial Clan's True deities were going crazy. Even if the stone material was damaged, they still had to make Shi Hao stay behind.

Peng!

While breaking out from the enclosure, the Protection symbol shone again, helping him block another attack. He then disappeared into the great meadow and quickly fled.

"You won't be able to escape!"

Someone roared with a loud voice, and then he brought out a crimson curved blade. It carried fiery light, splitting apart heaven and earth as it quickly descended in this direction.

"Heavenly deity magical artifact?" Shi Hao was greatly startled. He began to run with everything he had.

However, that magical artifact was extremely terrifying, following right behind him under the True deity's control. The scarlet radiance began to flourish greater and greater like the weapon of a death god as it descended.

Even while far away, Shi Hao already felt the fine hairs on his neck stand on end one after another, producing a layer of goosebumps. This magical artifact was clearly coming after his neck to remove his head.

"I really don't want to ruin the Protection symbol though!" Shi Hao frowned. He feared that the precious symbol on his body would be destroyed under this strike.

However, strange changes took place. The strange stone on his back moved, and streak after streak of mists rushed out. Like hundreds to thousands of waterfalls, they surrounded his body.

Shi Hao was shocked. He felt that his body immediately became heavier, as if he was carrying an extremely great mountain crushing down on him. Even his shoulders began to become sore.

If not for his flesh being far greater than other supreme experts, he would have definitely collapsed under the weight and his body would be turned into bloody paste. This was an unendurable weight, and it happened too suddenly.

“Stop!”

In the rear, True deities were shouting loudly. They all put away that scarlet sickle blade out of fear of harming that strange stone.

It was because at this time, they noticed that Shi Hao’s speed was quickly slowing down under this weight, almost sinking into the great earth. Strange changes had happened to that stone.

Celestial Clan’s True deities swooped down, slaughtering over together.

Shi Hao clenched his teeth and cursed inwardly. Why did something strange happen now? It seems like he could only rely on the ancient symbols he had, only, he didn’t know if he could still bring away this stone material.

Everyone descended. Energy surged as several large hands reached out towards that wondrous stone. There were others who went to suppress Shi Hao.

Hong!

Suddenly, the strange stone on Shi Hao’s body split apart, erupting with strange and terrifying beams of dao energy. It immediately made everyone’s expressions change greatly.

Shi Hao even more so cried out with a loud voice. The Protection symbol in his hands erupted, releasing brilliant radiance and surrounding him within.

At the same time, the Celestial Clan’s True deities quickly flew in retreat, feeling that things weren’t quite right. The void was even splitting apart, and these cracks were extending towards them.

Kacha!

A crack appeared on the Protection symbol on Shi Hao’s body. It was extremely striking, unexpectedly suffering damage under this explosion. This made him greatly alarmed.

One has to understand that not even the explosion of the small world was able to destroy this symbol.

“This is a reverse devouring of heaven and earth. There is some kind of unmatched object contained within after all!” Celestial Clan’s True deities cried out loudly. They were pleasantly surprised, but fearful as well, because the great cracks of the void were spreading over. A few people were affected, their bodies splitting apart. There were others that coughed out large mouthfuls of blood, almost dying right here.

The strange stone completely split apart, and something wrapped within the source energy fell out from within. It was at times as large as a millstone, while other times shrinking to the size of an inch. It was extremely strange.

“Heavens, it won’t be destroyed, will it?” The True deities that suffered serious injuries were going crazy. If this type of thing was not properly nurtured and emerged prematurely, it would be too regretful.

Shi Hao took action, because it was within reach. With the Protection symbol around his body, it didn't move too far. When he saw that this object wasn't erupting with terrifying energy any longer, he grabbed it and then ran.

"Chase!" The True deities' faces fell. They chased after him.

In the end, Shi Hao disappeared. He used one of the Space shattering symbols he exchanged for in Fufeng City, and then together with the Earth to inches and Kun Peng techniques, he fled.

As for the Realm shattering symbol, even though he found two in the ruins, he didn't want to use them on True deities.

#### Chapter 765 - Divine Object

On the prairie, the Celestial Clan's True deities were going crazy. They searched all throughout the great earth, but they returned with nothing.

"Why are the clan's Heavenly deities not here yet?" Their eyes were already becoming red. They actually lost this type of important divine object.

If they had been careful enough, having a Heavenly deity come here ahead of time, there would definitely not be this kind of result. Regret and self blame made them feel as if wild beasts were chewing on their hearts.

"Who was that person?" The group of experts' faces were ashen. They really wanted to find that person immediately and skin him alive, using the most cruel methods to deal with him.

"With just a Space shattering symbol, he won't be able to escape that far. His coordinates can completely be determined and found. It's just that his movement techniques are a bit too strange, fast to a ridiculous degree." One of the True deities spoke with a downcast expression.

The others' expression were also unpleasant to look at. One had to keep in mind that they were all True deities, yet while chasing after a supreme expert, they were outran, thus escaping.

"As for his body technique, one is the Earth to inches technique, a human race great divine ability. The other belongs to a type of divine bird." An old True deity spoke, one that had great experience.

"I feel like it is like the golden Peng's movement technique." Another individual spoke, because he vaguely saw a pair of golden wings appear on Shi Hao's back.

"No, it should be even faster than the Golden Peng movement technique!" The old True deity spoke.

"Even faster than the Golden Peng, could it be..." Someone widened their eyes.

"Correct, it should be that brat. He is getting revenge!" The old deity's face sunk like water. His eyes flickered with cold light.

"The youngster that was captured and ultimately fled?" Another expert's eyes became treacherous, clenching his fists tightly. Someone who they had previously imprisoned stole their great natural opportunity?!

“Apart from him, who else knows the Kun Peng technique?” The old deity’s face was unpleasant to look at. Based on his suspicions, that was Huang, as well as the lower realm’s Shi Hao!

“Is he tired of living?!” Another person stood up, revealing a mouthful of snow white teeth. With an incomparably cold voice, he said, “That little bastard, my clan is still looking for him, yet he revealed himself on his own. This time, we definitely can’t let him go!”

The other True deities were furious as well. They all erupted with killing energy. The temperature of the surrounding divine mines immediately plummeted.

I reckon that he purposely exposed this, deliberately wishing for us to guess that it is him. This is an undisguised revenge! He is telling us that he came to make our Celestial Clan feel the pain.” Someone spoke.

“Just a trifling supreme expert, yet he seized my clan’s divine object. This is intolerable! My heart... feels like it is being burned by the flames of hell!” A True deity spoke softly. When he thought of the fact that it might be Shi Hao getting revenge, he simply felt like he was going mad. Fury surged within him.

“He succeeded, making our hearts feel regret and torment. Heh, you better not let us get our hands on you!” One individual’s hair was flying crazily about, eyes like blades.

They believed that the strange stone that they lost most likely contained an ‘immortal seed’ that was currently being nurtured. This loss was just too great. If any great sect learned of this, they would be driven mad.

This... was enough to create an unmatched expert!

It was because they had heard that in the great battle of three thousand provinces, there were those that became number one who used ‘immortal seeds’ to reach the divine flame realm. Those people overlooked their peers and were unrivaled under the heavens.

On the prairie, Shi Hao didn’t know how many tens of thousands of li he escaped. Even after he used the Space shattering symbol, he still continued to run, continuously changing directions as he sped along.

In the end, when the sun was about to descend behind the mountains, only then did he stop, feeling like he truly broke free from Celestial Clan’s experts.

“What kind of thing is this exactly?” He looked at the item in his hands.

It was wrapped within a sphere of multicolored light, sometimes being large and other times small, not stable at all. When it was large, it was like a millstone, while when it was small, it was like a Dragon Eye Fruit.

Moreover, its weight was changing as well, sometimes being heavier than a mountain, while other times becoming as light as rice straw.

There were bone texts all around Shi Hao’s body, circulating divine force to support this object. It was because this object was too heavy sometimes. If not for this, he might be directly crushed underground.

In the end, it finally stabilized, seemingly reaching an equilibrium with the outside world. It also became peaceful, becoming extremely light. Even if it was placed on the prairie, it wouldn’t sink.

Shi Hao sat down. He then carefully inspected it with his divine senses.

The sphere of mist surrounding the strange object was extremely dense.

“Is this heaven and earth source energy?” He was quite skeptical, because that was something out of legend. However, the Celestial Clan’s True deities had previously cried out in alarm, so that might very well be what this is.

Rumor had it that heaven and earth source energy could nurture creatures, and it could also produce unmatched treasures. It was a wonderful type of substance itself. If enough was condensed, it could be used as an immortal material itself.

Of course, its most shocking specialty laid in the fact that whenever it appeared, it was because some unmatched divine object was going to emerge in this world. It was because through it, one could absorb this world’s essence.

The reason it was called source energy was because it was just like a placenta connected to the supreme treasure that was being nurtured. This was a bridge that connected the treasure with the world’s source and great dao.

Shi Hao looked at it again and again, and in the end, he confirmed that this really was heaven and earth source energy. It was exactly the same as what was recorded in the bone texts!

When this object was heavy, a strand would be enough to crush a great mountain. When it was light, it was like nothing, able to float in the sky.

In addition, it easily harmonized with the dao, receiving the world and great dao’s engraving and ‘transporting’ it into immortal materials or supreme treasures.

“With source energy nurturing this, how precious is the object within exactly?” Shi Hao was startled. His eyes burned fervently.

From the outside world’s perspective, even source energy was a rare precious matter. If there was enough, it could be used to refine immortal materials, so just how extraordinary was the item within?

Source energy was extremely special. Even if it was the dual pupil, it was hard to see through. Shi Hao was extremely careful as he investigated within the heaven and earth source energy to see what there really was inside. n-/O**V**e**L**B1n

It had to be mentioned that heaven and earth source energy was extremely special, always pushing his hand out, separating that object from the outside world.

After many tries, he finally succeeded. He immediately revealed a strange expression.

It was because its shape was actually... an egg!

“Immortal seed?” He was a bit stupefied.

The immortal seeds others talked about were all general references, such as some immortal blood, immortal bones, and other things. They could all be used to refine oneself, planting the dao when ascending into the Divine Flame Realm to achieve the most powerful evolution.

Meanwhile, he now truly obtained a type of 'seed', unexpectedly an egg. It would most likely produce some type of creature.

Immortal egg... when he thought of this, Shi Hao's eyes revealed a thievish light. It might very well be a True Dragon egg or an Immortal Phoenix egg!

"If I were to eat this, how great of a transformation would I undergo?" He said to himself, feeling like saliva was about to drip out.

If anyone else heard this, they would definitely become stupefied and then loudly berate him for being a foodie and wastrel. This type of thinking was just too unusual.

This egg was slowly changing, changing from three feet in diameter to an inch, and then from an inch back to three feet. The size continuously changed, leaving him a bit puzzled.

Shi Hao naturally wouldn't act rashly. He began to inspect it, placing his hand on the egg and then closing his eyes to earnestly sense it.

In the end, he was stupefied, and his body trembled. He felt that this was inconceivable. A look of shock covered his face.

This egg's shell contained a type of engraving that was supported by the heaven and earth great dao. It seemed to be able to communicate with the entire world. He seemed to have been able to see all things in heaven and earth down to a single blade of grass or a single tree.

"I can't eat this egg..." He was greatly shocked inwardly. He was always thinking about how he wouldn't use something like the Great Scarlet Sky flame to ignite his body, but instead search for other methods of becoming a deity.

It was because he always felt that even though the flame left behind by a True immortal was powerful, allowing one to undergo a perfect evolution, in the end, it still became a framework. One would be walking the same path as an ancient being.

"With the entire world as the furnace, with the heavenly daos as a flame, if I refine myself like this to become a deity, it might make me more powerful."

And now, he saw a bit of hope, because this egg seemed to be interconnected to the various natural laws of heaven and earth. He could vaguely sense a few different things.

"Right, based on what was recorded in the bone books, when a few divine objects take form, they need the world to nurture it. All types of dao would irrigate it. It seems like this was what they were talking about!"

Shi Hao understood, and then his body trembled slightly from excitement. This was a rare opportunity. He held this egg while comprehending, using this to connect with all types of great dao, using this as tinder to ignite his own flame, it would become more powerful than anything else!

"No, this isn't enough. I have to go ask that old man. He knows more than me." Shi Hao didn't waste a moment, because this was related to his future.

Only, after calming down slightly, he began to feel a bit of doubt as well. Qi Daolin wasn't of the kind sort, a notorious individual. What if he decided to kill Shi Hao and take this egg for himself?

"I believe in him!" After thinking it over, Shi Hao still resolutely went on his way.

Even though he hadn't associated with him for that long, he still heard various bad rumors of Qi Daolin. However, Shi Hao's intuition told him that the old man had his own set of principles and wouldn't do that.

After all, even after learning of his identity, he never showed any intention of seizing his Lightning Emperor or Kun Peng techniques.

Shi Hao returned to that shoddy mountain gate. He began to ask for guidance.

"Wu, you said you stole from a bird nest and stole an egg?" Qi Daolin widened his eyes, and then both his eyes immediately became straight.

"Dao Lord, what kind of egg do you think this is? If we eat this, what kind of result will there be?" This had always been nagging at him at the back of his mind. If he ate this immortal egg, he could still comprehend the dao. He would rather enjoy this type of delicacy.

You wastrel, you still want to eat it? I'm going to beat the shit out of you!" Qi Daolin stood up and ran after Shi Hao with his palm raised.

"Aiyou!" Shi Hao cried out miserably as he ran for his life. He never thought the old man's reactions would be so great, not allowing him to say anything else at all and instead directly beating him out.

"You are blaming me unfairly! It's not like this!" Shi Hao cried out miserably. His joke now ended so terribly, being beaten up for some strange reason. He truly felt wronged, wanting to slap his own mouth.

He never thought that just a single sentence would make the old man chase after him in beating.

In the end, Shi Hao explained everything clearly while grimacing in pain. His entire body was sore, and he angrily said to himself, "I... who did I even provoke?!"

"You said that this was an egg?" Qi Daolin looked at him strangely.

"Is that not what it is?" Shi Hao was suspicious.

"You only know how to eat. Just because it looks like an egg it is an egg?" Qi Daolin corrected, telling him that this was definitely not some immortal egg, but rather something that developed a shell after being nurtured by heaven and earth.

"So what exactly is it?" Shi Hao asked.

"It is most likely a type of immortal gold, perhaps the seven-colored immortal gold, or void immortal gold... either way, it isn't an egg!" Qi Daolin sighed and said. This fella's luck was too good! If the Celestials knew the truth, they would most likely go mad.

"Immortal gold..." Shi Hao said to himself. He nodded to himself again and again. This type of thing would make all great sects go mad. It was something that could be encountered but not begged for.

“Even though immortal gold is enough to make people go mad, enough to make great sect masters stake it all... this is not this item’s most precious area.” Qi Daolin said.

“There are other secrets?” Shi Hao asked.

“You already sensed that there are all types of natural dao laws interweaving on the surface of this shell. This is the natural luck that is hardest to find since the ancient times!” Qi Daolin said seriously.

Based on what Qi Daolin said, regardless of what there was within, the greatest value was not the immortal gold itself, but the current ‘placenta’.

The so-called placenta was precisely the source energy, shell, and substances that have all combined together. It could connect with all types of dao in this heaven and earth, absorbing its nutrients.

Since the ancient times, just how many people could see the formation process of divine objects?

When it was being produced and taking form, the ‘placenta’ that accompanied this process was an incomparable wondrous process. It communicated and merged with tens of thousands of dao in heaven and earth; it was simply invaluable.

Neither source energy or the ‘shell’ alone had this wonderful effects. Only when it was being nurtured and all types of substances intertwined like this would there be this natural luck.

“I don’t need a divine flame anymore right? I can use this type of dao to enter the Divine Flame Realm.” Shi Hao found it hard to remain calm. He exposed all of the thoughts he were thinking before.

“I can only say it is a possibility, a trace of hope.” Qi Daolin said. He became serious and said, “There were many stunning saints since the ancient times. You were not the only one that had this type of thoughts. There were too many of them, only... they should have all failed. I reckon that not a single one of them had succeeded.”

If it was using other immortal seeds, then that was that. However, if one wanted to use all of heaven and earth as a furnace, using all types of dao as the flame, becoming a deity like this was just too difficult.

“Dao master, what should I do?” Shi Hao asked.

“Use this placenta for yourself. If you take advantage of it, there is a twenty percent chance of success. If you fail, the immortal gold inside will all be ruined, and you will, of course, also turn into ashes.” Qi Daolin seriously warned.

“Don’t say such depressing things. Can’t you just say some more auspicious things?” Shi Hao muttered.

“The best odds are that you have forty percent chance of success, and the immortal gold will also be unharmed, even resonating with you because of it, turning into a weapon that will do what your heart wishes it to. Heaven and earth will cast dao traces for it and develop its natural laws.” Qi Daolin said.

“The best odds is still only forty percent?” Shi Hao was stupefied. With chances of death being greater than life, how was he even supposed to proceed?

Chapter 766 - Different Paths

"I still want to continue." Shi Hao said softly. This path was extremely difficult, and those that had treaded on it since the ancient past had practically all died, vanishing from this world following their defeat.

He was unwilling to stop here and wished to take that crucial step to step onto a path different from everyone else. He wished to experience the scenery of a different world!

"You have to think things through. The chances of dying are high, far greater than the gleam of hope, to the extent where it can be said to be a path to death." Qi Daolin calmly reminded.

From his perspective, this type of hope was more like a type of temptation and not some true great dawn. If he insisted on continuing on, he would most likely end up like those before him, recording his defeat with blood.

"Without walking it, how can I know that it is a path I cannot take? If I slowly fumble around, I will find a different path." Shi Hao said to himself. He then stared at Qi Daolin, earnestly inquiring about this about this type of path the ancient people took.

Qi Daolin didn't say anything and just looked at him. When he saw that Shi Hao was calm and at peace, not doing this out of impetuosity, he ultimately nodded and said, "It seems like I have to start looking for another disciple."

Shi Hao was a bit speechless. This person gave up on him so quickly. Did he really think that he would definitely fail and die?

Qi Daolin moved his spacious sleeves, and with a huala sound, a large pile of bone books fell down, burying Shi Hao within. These were all ancient books left behind by predecessors.

Shi Hao was extremely shocked. Bone books piled up to a small mountain, with piece after piece of bone everywhere. Some were golden, some silvery white, some carrying purple energy... none of them were ordinary objects. They created an auspicious image.

There were bone pieces that gave off a feeling of the true self, extremely old-fashioned without a bit of luster. They carried an extremely ancient aura, and recorded within were the experiences and paths of noteworthy individuals of the past.

Shi Hao picked up a random piece from the bone books and carefully read it. He was immediately drawn in.

"Beast sea calendar, year nine hundred and thirty-six thousand eight hundred fifty-two, Kun Yu was born bearing a heavenly diagram that illuminated all..." **noVE/11b/In**

When Shi Hao read up to this point, he was extremely shocked. This was an ancient being from the Beast sea region, and there was a great irregular phenomenon during its birth. He continued reading, and he learned that this individual was unordinary after all.

"When Kun Yu took to the air, stars would grow dim. At nineteen years of age, he rose out from the sea and suppressed the exceptional talents of all three thousand provinces, becoming number one under heaven. Afterwards, he abandoned ancient flames and chose to seek other paths of dao, passing away as a result."

This individual's life was extremely short, but it was glorious and rarely seen throughout the ancient times. Unfortunately, for the sake of treading on a different path, he ultimately passed away.

There were people who recorded Kun Yu's path afterwards, leaving Shi Hao quite shocked. He carefully studied these records.

This was definitely a rare treasured book, and not even great dao inheritances had a copy of. Normally speaking, these were taboo books, because it would mislead geniuses of later generations.

Shi Hao immersed himself in this pile, reading every line of text several dozen times. He carefully thought and contemplated on what to do, analyzing the good and bad of Kun Yu's path.

He put down this bone book, remembering all of it.

Then, Shi Hao picked up another old-fashioned bone that was covered in traces of a passed time and began to read it. He found it difficult to calm down. This was another formidable figure.

"Firegold calendar, year one million two hundred forty-three thousand two hundred ninety-one, five emperors illuminated the heavens, but when they were past their prime, Huo Jinmo emerged..."

When Shi Hao finished reading this bone, he was greatly shaken.

In the past, Firegold Race was one of the ten great clans, known as an Emperor Clan. It previously had five emperors that simultaneously controlled that era. When the five emperors were nearing the end of their lives, they wanted to advance their heaven warping genius Huo Jinmo's unmatched legend to an even higher realm, but they ultimately failed.

"Five emperors invited an old friend to condense the dao as flames and forge a spirit tablet for Huo Jinmo. However, the dao seed ultimately resulted in failure, and the Emperor Clan became no more. With the rise and fall of the world, the Firegold precious vase imprint no longer resounded through the world."

Shi Hao sighed. It truly was a pity.

He quickly looked around, discovering that the other bone books were similar, all of them paths that predecessors took and later recorded. These were the most precious experiences, able to be considered secret texts.

These bone books' value were difficult to assess. If they ended up in the hands of creatures of the present world, they would definitely be considered secret historical texts. However, when someone like him saw them, these were heavenly precious books!

"These things..." Shi Hao raised his head to look towards Qi Daolin. It was difficult for a single person to have so many, because they touched upon the secrets of a few great sects.

"All things I stole." Qi Daolin was extremely calm, to the point where there was a bit of pride.

Shi Hao was speechless. He had no choice but to feel admiration. No wonder this person was surrounded and attacked by many sects, just these bone books alone he collected formed a huge pile. One could only imagine regarding the other precious techniques.

One could only say that this dao master was an 'eccentric'. He felt no qualms about his notorious reputation; this really was quite formidable.

Of course, Shi Hao wouldn't show him disdain, instead only having admiration. Perhaps in the eyes of those of the outside world, the two were birds of a feather.

"You are not the only genius in this world. Too many have wished to step on different paths. This old one was one of them." Qi Daolin said.

It was clear to see that he had failed. Fortunately, he didn't die like a few young supreme beings and managed to live.

He bluntly spoke about how he walked quite far along that route. After deducing the clear result, he decisively gave up, not foolishly struggling with his life on the line.

"Outstanding talents, this term has some meaning, but there are also things that it does not mean. If one knows that they will inevitably die but still heads for destruction, that is stupidity." Qi Daolin said, not feeling ashamed of his own retreat at all, instead believing it to be honorable.

Shi Hao knew that he had good intentions. This was to warn him not to walk down a black road, to stop before going too far.

After all, this path was too difficult, one that no one had succeeded in before. It was a place where heavenly talents often ended their journeys.

"I know!" Shi Hao nodded. In the end, he wholeheartedly immersed himself in these bone books to understand the paths and methods of those before him, amassing experience.

This was the cornerstone, as well as the soil for success. Only with the experiences accumulated through those of the past, seizing the fiery light of wisdom. would there be a chance of success.

No one could baselessly break through. Building a cart behind closed doors would never work.

The outside world was definitely not calm, especially Fire Province's divine mine region. However, it was completely unrelated to Shi Hao. He immersed himself in a brilliant world to seek his dao path.

He completely turned into a martial addict, from time to time disturbing Qi Daolin to ask the old man for guidance. He neglected sleep and food as he wholeheartedly immersed himself in his studies.

Even though Qi Daolin said that he was going to look for another disciple after seeing his chances of success, he still gave guidance, moreover seriously.

In the end, Shi Hao emerged from the path of his predecessors, temporarily calming his mind to transcend all emotional states. He began to silently contemplate and think things through.

"Truly is a road of death..." He said softly. He began to discuss with Qi Daolin, but even with divine objects, heaven and earth placenta, the probability of failure was still great to the point of making one sigh.

"I'm not going to worry about everything else, just going to walk forward first!" Shi Hao's eyes became resolute. If he cowered already now, then there really would be no need to think any more.

On the ground, that spherical ‘heavenly material’ had long stabilized. It was wrapped within source energy, continuously being nurtured by heaven and earth as it absorbed all types of natural laws.

After discussing with Qi Daolin, he always felt like the heaven and earth placenta that was nurturing the immortal gold was connected with all types of great dao. The best place to connect it to was precisely the space between the brows.

During this process, Shi Hao’s primordial spirit could observe and emulate, preparing for the day when he would use heaven and earth as a furnace and ignite the self with all types of natural dao laws. He needed to interact with it first.

Once the great battle of three thousand provinces’ geniuses started, he would have to substitute himself in the immortal gold’s place, hiding away his body like the ‘egg’ and then ignite his true self.

“En?” Even under Qi Daolin’s protection, when Shi Hao guided over the source energy that surrounded the divine object, there was still something unexpected that almost happened. It was because the source energy’s weight would change from time to time. The sudden changes almost made his forehead bone split apart, because it became heavy, with a single strand able to crush a mountain peak.

Fortunately, Qi Daolin really was formidable, passing down onto him the rough method for the Eight ninth heavens art. The Kun Peng technique, Lightning Emperor’s technique, and others appeared together, operating together to surround this object, making it calm down and isolating it.

“This is precisely the Eight ninth heavens art, a technique that supports precious techniques. It wasn’t that I didn’t want to pass it down to you before, instead fearing that you would be injured from it as a result. It is because at this cultivation realm, there is simply no way for you to display it.”

Qi Daolin seriously told him the reason. If he wanted to learn this technique, he had to reach an extremely high cultivation realm. The flesh, bone texts, spirit, and others must harmonize to an indistinguishable degree.

Shi Hao was a bit of an exception. His flesh and other areas were ridiculously powerful, so he was able to simply display the ‘rough method’.

Normally speaking, Supreme experts and Divine Flame cultivators’ bodies would collapse when displaying this method. They needed an extremely powerful physical body as the foundation; this was the most fundamental requirement.

If not for the need to suppress this divine object, Qi Daolin would not have immediately passed it down to him out of fear that something unexpected would happen.

Shi Hao felt bone symbols flicker within his skull, as well as an alarming sensation. He could feel a huge pressure.

“This is fine as well, using heaven’s method as a cage to imprison the Immortal gold. It can sharpen your precious techniques and other things.” Qi Daolin said with a smile.

Shi Hao seriously comprehended, and as expected, there were benefits. The pressure this formed forced him to operate the Eight ninth heavens art’s rough method from time to time, spurring on several precious techniques and releasing bone texts. This was a type of cultivation as well.

Apart from this, Shi Hao observed the 'placenta', seizing all types of natural laws. It was immensely beneficial towards his foundational spirit. Even though he didn't substitute himself in the Immortal gold's place and immerse himself in the placenta, he could still observe the dao and study it.

The outside world was not calm. The disciples of all sects were waiting expectantly. Rumor had it that You Yu and Yun Xi might arrive, and they might come to Supreme Being Dao Rite.

Moreover, Fire Province was in an uproar. Celestial Clan's divine mine suffered a disaster, stirring on huge waves.

Hong!

Within the small shoddy mountain gate, terrifying flames surged from Shi Hao's skull. His divine senses were fluctuating violently, causing Qi Daolin to widen his eyes and look over.

"This brat, always complaining noisily about going to the pool where the Tribulation crossing divine lotus is planted, but it seems like it was to digest a type of wondrous medicine that could nurture the divine senses. The medicinal effects seem to have now been completely refined."

What kind of individual was Qi Daolin? With a single look, he could get a rough idea of what was going on. His eyebrows immediately jumped, revealing a look of shock. "Could it be the Golden Bodhi fruit? It has that type of aura, he... was actually able to succeed!"

Even he was a bit shocked. One has to understand that many people had tried in this cultivation realm, but in the end, they all exploded. There were only defeats recorded.

However, Qi Daolin knew that there were still people who succeeded, or else this type of ancient method wouldn't be left behind, one that told later generations to explore. It was just that it had never been written down in bone books.

Shi Hao sat there without moving like an enormous boulder. His skull was shining, lighting up his entire head. Even his hair began to release divine multicolored radiance.

He always knew that the Golden Bodhi fruit could strengthen the divine senses and nurture the primordial spirit, but it had never displayed its effects after he successfully refined it. Today, there was an additional substance in his skull that, once the divine senses were affected, would produce strange changes.

His primordial spirit was strengthening, and the medicinal effects displayed all of its effects. His mental strength was quickly growing.

One could see Shi Hao's divine senses changing within his skull. The final transformation formed a small figure that radiated holy light. It was splendid and dazzling as it sat there; it was extremely powerful.

"Quite a bit stronger than before." Shi Hao could clearly feel this transformation, the transformation of his primordial spirit. It had changed into a human figure.

Meanwhile, his flesh shone. Bone texts shone layer after layer, surrounding his entire body. All of his pores released terrifying blood energy that rushed into the heavens. From the distance, it was as if a terrifying fog of blood covered the heavens.

In the end, a hong sounded. Blood essence returned, collected back in his body.

He made a breakthrough!

Shi Hao's pupils erupted with radiance, as if hundreds of zhang long sharp swords were released into the distance. He reached the later stages of the Supreme Expert Realm.

He had accumulated too much, and now, together with the strengthening of his primordial spirit, his own cultivation realm also made a breakthrough, advancing a level, making him exceptionally powerful!

Shi Hao stood up and looked towards the mountain gate.

#### Chapter 767 - Massacring the Celestial Race

Shi Hao broke through, feeling more powerful than he had ever been before. The radiance that seeped out from his eyes was like sharp swords. When they swept through cliffs, zheng zheng sounds would ring through the air, the cutting edges slicing off a piece of the stone wall!

Honglong!

Enormous boulders tumbled downwards, smoke and dust surged into the air!

At the same time, blood energy surged within his body. It continuously struggled about, unexpectedly changing shape. In the end, with an ao sound, his physical body released a cry, one that sounded like the roar of a True Dragon.

This was not something he released from his mouth, but rather a reaction of his fleshly shell. His flesh was resonating, his bones moving about to release this draconic cry!

Meanwhile, a streak of bloody light surged from his skull like smoke, rushing upwards. It ultimately formed a True Dragon that dispersed the clouds and overlooked the world!

"This is..." Even Qi Daolin was given a fright, his eyes becoming deep as he stared at Shi Hao, wishing to see through this.

Meanwhile, Shi Hao's black hair scattered about, his body shining inch after inch. A wave of exceptionally shocking fluctuations dispersed from his body. Meanwhile, the True Dragon made of blood energy rose to the air, releasing endless draconic cries.

At this moment, the heavens swayed and earth shook!

The areas around the shoddy mountain gate rumbled and trembled. Mountain peaks were shaking as well, as if they were going to collapse.

"Supreme Expert Realm, blood energy into the heavens is already shocking enough, but it can even form a True Dragon, forming above the head and overlooking all eight directions. Just how many people had produced this irregular phenomenon since the ancient times?!"

This was the reason why Qi Daolin was shocked. Of those that accomplished this, if they weren't body refining ancient ancestors, then they were eccentrics that devoured heaven and earth wondrous fruits.

He never thought that Shi Hao would also be able to reach this step!

Soon after, the blood-colored True Dragon swooped down, revolving around Shi Hao and tightly binding around him. Then, it entered his body, making the surface of his body even more brilliant like that of gemstones or Immortal gold.

“Excellent!” Qi Daolin nodded. Being able to obtain this type of praise was an unprecedented thing. Those that understood him all knew that this notorious dao master rarely praised others.

“Dao master, I want to take a look around the outside world.” Shi Hao said.

“Go then. There’s no need to feel any misgivings about anything.” Qi Daolin nodded and revealed a warm smile.

The outside world was in great commotion!

Celestial Clan’s experts had arrived because after obtaining the warning, and learning that a wondrous stone that was being nurtured by heaven and earth was found within Fire Province’s ores, the higher levels were also shocked.

Source energy revolved around it, nurturing an immortal seed. This type of supreme treasure, rarely seen since the ancient past, was something that would make any great sect’s eyes red with greed. There were naturally Heavenly deities that came out of isolation, moreover more than one. They quickly hurried over.

Unfortunately, they were too late. When they hurried over, they learned that the divine object had already been lost. They immediately went crazy.

In just two days of time, there were Heavenly deity roars that shook the moon. After leaving You Yu and Yun Xi with Goddess Academy, they rushed to Fire Province’s prairie, almost overturning that entire place. They erupted with thunderous fury!

This was a loss that was impossible to quantify, one that was difficult for even the Celestial Clan to endure. That type of ‘immortal seed’ contained too great of a natural opportunity. It was just too important for a clan.

“Celestial Clan actually moved out two Heavenly deities at once to Fire Province. What kind of divine material exactly is it that appeared for them to go mad like this?”

Fufeng City, a city adjacent to Goddess Academy and on the border of Fire Province. Many people were discussing this right now.

Shi Hao arrived in this place, silent and keeping a low profile. He listened to the disturbances that had taken place in the past two days.

There really was a huge disturbance. Two great Heavenly deities were losing their minds as they screamed through the prairie, startling great sects from all sides. Everyone speculated that they had lost a formidable object.

“Could it be that they excavated Immortal gold and had it stolen away by someone?”

Someone came to this conclusion, and then there were immediately people who were shocked. Soon after, their heart blood surged. Once that type of thing appeared, there would definitely be huge disturbances. There would be a battle between sect masters.

Even in the Immortal Ancient era, these were still exceptional precious materials, extremely rare throughout the world. If one wished to become an immortal they must have a corresponding weapon formed from immortal materials.

There was even less of a need to talk about this current era. Those 'heavenly materials' had long dried up, being almost impossible to find even just a single piece.

Fufeng City was noisy with commotion. There were people of all trades and races. Everyone was hopeful, their eyes full of passion, wishing to see that type of amazing treasure.

"Celestial Clan hasn't leaked out who it was that stole the precious material?" Shi Hao asked the creatures in the city.

An elder shook his head and said, "They are just saying that a despicable human stole the heavenly treasure and that they would make that individual regret it. If that person doesn't hand it over, they would definitely make him wish he was dead rather than alive."

When Shi Hao heard this, he couldn't help but sneer.

Ever since he left the Celestial Clan, he hadn't heard news of Huang being Shi Hao. They never unmasked his identity, so it was easy to see that they were still scheming against him.

The reason they didn't unmask his identity was because they feared that other great sects would learn that not only did he have the Lightning Emperor's technique, but also came from the lower realm with the Kun Peng technique. Celestial Clan wanted everything for themselves, wishing that they could capture him before others from the higher realms learned about this.

"Great news, the whereabouts of the treasure stealer seems to be exposed!"

Suddenly, a shouting voice sounded through Fufeng City. Someone brought over the latest news from the depths of Fire Province.

"Under the fury of two great Heavenly deities, they displayed forbidden secret methods. From the clues they found, they separately followed them, targeting a few inheritances. It is likely that they might take heavy action!"

Shi Hao was shocked. Did Celestial Clan go stupid or crazy? He clearly exposed himself while leaving, telling them who he was, so why did they end up taking their anger out on others?

"Which inheritances are they doubting and suppressing?" Someone asked.

"It is rumored that the two great Heavenly deities first visited the Peacock Clan's divine mines. They originally forcefully entered, but they ultimately stopped, not entering conflict. Later on, they went to a few comparatively weaker inheritances."

When Shi Hao heard this, he was immediately startled. Celestial Clan had previously tried to trouble the Peacock Clan, are they seizing the opportunity to stir something up? It was because Peacock Divine Lord had previously protected him in the City of Heaven.

Fortunately, the Peacock Clan were naturally powerful, an illustrious and well known distinguished race in the higher realms. Even if Celestial Clan used to be an Emperor Clan, they still couldn't lightly provoke them.

Those two Heavenly deities backed off. They likely realized that this clan was not something they could casually provoke in the present world.

However, the following news made Shi Hao furious. He immediately understood Celestial Clan's intentions.

"It really sounds weird, but the two Heavenly deities decided that Fire Clan and the other clans were suspicious, personally entering their ancient mines to demand an explanation."

"Aren't those Sin Province's inheritances? They all seemed to have come from the lower realm."

There was a Fire Clan and other clans in the higher realms, but they all came from the lower realm. How could Shi Hao not make these connections? He immediately thought of Huo Ling'er and the others!

This meant that a few of those great clans in the lower realm had foundations in the higher realms as well? He was greatly moved. Only today did he hear a bit of information about them. He found it difficult to calm down.

At the same time, Shi Hao clenched his fists tightly, feeling great fury deep inside. A wave of great anger stirred within him!

With things already reaching this state, it was already clear that Celestial Clan was doing this on purpose. This was a threat and warning. They were linking him together with Fire Clan and the others, forcing him to appear and hand over the 'immortal seed' he stole.

"There are news from deep within Fire Province. Two great Heavenly deities really did hurry to those regions, moreover acting extremely harshly, forcing those inheritances and deeming them suspicious."

The two great Heavenly deities were incredibly domineering, threatening that if those sects couldn't give them an explanation, they didn't mind unleashing a great slaughter and massacring everyone!

When Shi Hao obtained news of this, his eyes became ice cold. He was seething with anger. Soon after, he left Fufeng City for Fire Province, entering the prairie.

Then, he arrived in Celestial Clan's mines. He immediately released biting cold killing intent. Blood energy roiled, spreading outwards.

"Celestial Clan, I have returned. I am here to unleash a massacre!"

Shi Hao said softly. The place he entered first was a mid-scale mine. There were Divine Flame Realm experts overseeing this place, but no True deities.

His body shone like it was surrounded by raging flames, engulfing the heavens. From the distance, it was as if a war god had descended in this world. Golden flames swept into the skies, and rumbling noises resounded through this place.

“Who is it?”

The experts here sensed something, being alerted. They immediately rushed over.

There were two Divine Flame Realm experts here in total. When they saw Shi Hao, they were shocked, because they recognized him. Wasn't this Huang? He even revealed his real appearance without hiding anything!

“You still dare to appear?”

“Haha, you really are courting death, sending yourself to us!”

The two of them laughed, feeling alarmed and happy. They actually ran into Huang! If they caught him, they would definitely be rewarded for their great contributions.

However, soon after, they began to shiver inwardly. If Huang dared to come here, then that meant he had the confidence, not fearing them. They couldn't help but tremble and become vigilant.

Shi Hao's head of hair began to shine as it scattered downwards. His eyes shone like golden lamps. The two deities discovered with shock that there was no craftiness to be seen. Shi Hao instead directly rushed at them.

“Kill!”

The two gave each other a look, and then they produced precious artifacts to attack Shi Hao at the same time. Bone texts interweaved densely, immediately covering the grassland. They wanted to suppress him with their higher cultivation realms!

Ka!

Something shocking happened. When Shi Hao sent a fist smashing over, it penetrated the precious artifacts, blasting them apart in the void. Brilliant light shone resplently.

“What? This is a Divine Flame magical artifact, yet he was able to break it bare-handedly!”

The two's expressions immediately changed. At the same time, the other magical artifact was shattered as well, turning into an expanse of golden light that flew in all directions.

“Magical force immunity, the rumors were true!”

The two of them finally understood. The magical artifacts were being restricted, their powerful might decreased. That was why they shattered so quickly.

Individuals at their level had previously received news that Shi Hao was immune to magical force for a short period of time. Only when they experienced it for themselves did they realize how terrifying it was.

Shi Hao rushed over, bringing with him overflowing flames. He seemed to be walking out from raging flames as he charged murderously at the two great experts.

The two were furious, and at the same time, they felt that this was a bit ridiculous. This was just a Supreme expert, yet he dared to attack deities like them? Even though Huang was a heaven warping genius, his cultivation realm still wasn't high enough.

"Not good, why is his magical force immunity so long? Could it be that he successfully refined the Golden Bodhi fruit?"

The two were horrified. They were calculating the time, only taking action when they felt like Shi Hao's ability should be disappearing. However, they were still restricted, their magical force disappearing without any hope of returning.

Pu!

The face of one of the Divine Flame Realm experts immediately froze. Shi Hao's fist smashed through his body, making him quickly break apart and then explode.

A blast of blood exploded. One expert lost his life.

The other individual's face immediately became pale, immediately turning around to run. Was this still a Supreme expert? A deity was unexpectedly killed so easily!

"Where do you think you are going? Isn't the Celestial Clan oppressing everyone with their might? Today, I've come, and I am going to unleash a massacre in this place!" Shi Hao roared. His speed was just too fast, directly catching up.

"Ah..."

Together with an angry roar and an expanse of bone texts, the Divine Flame Realm expert retaliated, but he still couldn't escape his fate of destruction. He was blasted to pieces, his blood dying the grassland red, thus dying.

Only then did Shi Hao's Magical immunity's time come up, slowly fading away.

A tremendous sound rang through the air. The entire divine mine was collapsed by Shi Hao, caving in and being destroyed.

Immediately afterwards, he rushed into the distance. There was another divine mine up ahead. When his unique ability appeared again, he decisively took action.

"Who are you?" Someone shouted loudly.

"He's Huang! Don't let him get away!" It was still two Divine Flame Realm experts.

"Correct, I am Huang, as well the one that will kill you all!" Shi Hao shouted. He rushed forward, erupting with heaven overflowing radiance as he took action viciously.

Pu!

A rain of blood scattered outwards. This battle was without any suspense. Both deities were quickly killed. In addition, the entire ancient mine was collapsed, buried under rubble.

---

“Heavens, great news, the one that stole Celestial Clan’s immortal material appeared. You guys would never believe who the one that appeared is. It’s actually -- Huang!”

It was because the distance wasn’t that far from Fufeng City, which was why news immediately reached this place. It immediately produced a huge sensation.

“Huang took action again, unleashing a huge slaughter, continuously destroying eight of the Celestial Clan’s divine mines and still going! He is unstoppable, continuously killing more than ten Divine Flame Realm experts!”

When these news traveled outwards, Fufeng City began to boil with commotion. This was definitely explosive news. It was just too shocking!

After all these years, even if there were some great sects that didn’t get along with the Celestial Clan, they still didn’t dare to act out against them like this, because a great war between clans would happen. Now, there was someone that dared to shatter this pattern.

Huang had appeared again, and his actions were incredibly fierce!

This was without a doubt a type of contempt for the Celestial Clan. By daring to do this, it was the same as challenging the dignity of this clan.

At the same time, it was a ruthless mockery towards those two Heavenly deities. Huang was telling that everything was his doing, that they were stupid, finding trouble for the wrong people!

The two Heavenly deities’ ‘rashness’ would definitely be denounced by others and be turned into a laughingstock.

Of course, the most important thing was Huang’s power, actually daring to massacre the Celestial Clan’s important places. This would inevitably stir up great chaos in Fire Province, as well as spread to the rest of the higher realms, shaking all great sects.

“Good! I long thought that the Celestial Clan was unsightly!”

“Kill! Things should be done just like this!”

There were many people who were stirred on, becoming fired up as well.

Chapter 768 - Great Slaughter

“The newest information has been released! Celestial Clan’s ninth divine mine has been collapsed! Huang unleashed a slaughter himself, breaking into their important place and killing a large group of Celestial Clan’s experts!”

The news were horrifying, and it sounded unendingly!

“Just a youth, yet he dares to do this, challenging the Celestial Clan’s dignity and knocking on their doors like this. It truly is shocking!”

The creatures of all clans found it difficult to calm down. They were all shocked, because news came unendingly, brought back from the people who returned from the prairie. Huang’s battle successes were still becoming more and more glorious!

“Celestial Clan encountered trouble, being challenged by a youngster like this. If they can’t capture him and let him leave unharmed, it would definitely harm their Emperor Clan reputation.”

Everyone was extremely nervous, their emotions rising and falling. All of Fufeng City was shaken up. The news raised heaven overflowing waves.

Of course, they also knew that even though news traveled fast, there was still a time difference. They were still lagging behind.

These were already confirmed battle successes, but from the looks of things, there should be a few more shocking accomplishments that already happened, or perhaps were playing out right now.

If that information got back, it might be even more shocking.

Shi Hao was as fast as lightning as he weaved through the air. Blazing radiance covered his body, blasting all plants and mountain rocks in his way to pieces. A terrifying ravine was created on the ground surface.

Only when he travelled far into the distance would there be a deafening sound. It was because his speed was just too fast, far greater than the speed of sound. The air behind him exploded, erupting like thunder behind him.

A dazzling palace situated on the grassland had auspicious energy rising in spirals around it. It was extremely imposing in style. This was one of the Celestial Clan’s dao rites within this mining region.

Normally, there were experts overseeing this place, supervising the great ancient mines’ matters.

During these two days, the largest divine mine had problems, losing a priceless immortal treasure, which was why all of the True deities went mad, following the great Heavenly deities in searching everywhere, so this place became empty.

Shi Hao stopped here and silently adjusted his breathing. After carefully scouting around, he erupted with blinding divine light. Blood energy roiled; he took action.

Even though there weren't any experts overseeing this place, this was still, after all, a strategic location of the mining region, so there were still Divine Flame Realm experts stationed here. They were immediately alerted, rushing over.

“There are only you four?!” Shi Hao’s eyes narrowed. Kun Peng wings moved behind him, and like thunder, they exploded, propelling him through the skies.

These were truly strange words. He was a Supreme expert, yet he showed Divine Flame Realm experts such contempt. It immediately made those experts’ faces fall, killing intent seeping out of their bodies.

"Those that provoke an Emperor Clan will never live for long, especially a later generation like you who believes yourself to be infallible. You are doomed to die young!" One of them coldly said.

Those that offended the Celestial Clan, no matter what kind of geniuses they were, the celestials still dared to kill them. Their clan had Heavenly deities, guardian spirits and others that would appear to support the sky.

"I never thought that you were --- Huang!" One of these individuals' eyes erupted, recognizing him. He released a cold smile, and the symbols around his body became even more blinding.

It was clear that Shi Hao's appearance had been spread to all places. Celestial Clan had been searching for him this entire time, not willing to let him go. They wanted his precious body, wishing to extinguish his body and soul.

"Huang, do you know that you owe my clan a life? You should just stay behind." Another individual said with a cold voice, his eyes flourishing with radiance, and then he quickly started up this place's formations.

"Things that bite the hand that feeds you, I saved your clan's heavenly lady, yet you treated me in such a way. You truly have the hearts of wolves and lungs of dogs. I don't feel the slightest bit of guilt in slaughtering all of you!" Shi Hao spoke.

Ever since he was imprisoned by the Celestial Clan, later escaping, he had always been suppressing his rage. Today, he continuously killed this clan's Divine Flame Realm experts and destroyed their divine mines, venting out a bit of his frustration!

"Reporting!"

From the distance, shouting sounds rang through the air. Someone dropped down from midair, so exhausted he collapsed from weakness. With great fear, he shouted, "Huang appeared, it was him who stole my clan's immortal treasure, and now, he is getting revenge, continuously destroying fourteen divine mines and unleashing a great slaughter!"

"What?!" This dao rite's people were shocked, only now understanding what had happened.

"You came late. I already personally arrived. This place is my current target." Shi Hao said as he looked at that person. There was still a fish that escaped the net, running here to deliver a message.

It was clear that what was happening now was something Fufeng City was completely unaware of. There would inevitably be some delay.

Hong!

The prairie erupted, earth and trees rushing several dozen meters into the air like a great wave, extending out from beneath Shi Hao's feet and engulfing the palace. This was his power.

He was just a Supreme expert, yet he looked down on deities, powerful to the extreme.

"Kill him!" Roars sounded. The experts in this place all took action.

Shi Hao remained completely fearless as he slaughtered forward.

A battle unfolded again. The earth erupted, and divine radiance illuminate everything. It was as if a great sun rose from beneath the earth. Blazing heat and horror coexisted as it displayed the greatest power.

Shi Hao hurried over here, so he naturally had confidence. In the end, this place was turned into ruins, the gold and jade decorated palace collapsed. Divine blood shone all over the ground, forming a ghastly sight.

Shi Hao left, heading into the distance towards his next target!

This was a day of massacre. Shi Hao carried out a long-range raid, fighting from one place to another. The blood of the Celestial Clan flowed, raising huge waves and shaking this entire grassland.

Even Fufeng City that was not too far out received news, so the various areas the Celestial Clan controlled were naturally aware as well. They quickly rushed to offer support and encircle Shi Hao. They gave the order to eliminate Huang!

“Capture and kill him, only leave behind a strand of soul will. Do not spare any costs to make him stay behind!” A True deity seethed in anger as he roared, shaking the mining region.

The events this time were too severe. A youngster was slaughtering in all directions, continuously wiping out the Celestial Clan’s strongholds. This was a type of contempt and humiliation against them. If they couldn’t capture him, what face would they have left?

Celestial Clan only had several dozen well known divine mines left, yet a third of them were destroyed in a single day, with even their dao rite in the grassland razed to the ground, the people within completely massacred. This was a shame they had never suffered before.

“Kill him, find him even if you have to dig three feet underground!”

The True deities that obtained the news searched everywhere, moving at top speed to provide assistance and search for Shi Hao’s whereabouts.

However, what was shocking was that Huang never fled, still moving about, avoiding the True deities’ encirclement and annihilation as he looked for opportunities to take action.

Hong!

A streak of lightning tore through the pitch-black heavens. It was especially blinding.

The dark clouds were like the bottom of a black pot, as if they were going to crush the surface of the ground. Rain descended with pili pala sounds as well. The world immediately became hazy.

Shi Hao raised his head, and with a soft voice, he said, “The heavens are helping me!”

Kacha!

Lightning flourished, streaking across the sky like an enormous silver snake. Great rain poured downwards, creating great rivers along the grassland.

Only the appearance of lightning could tear apart the darkness, exposing the surrounding scenery. Otherwise, it was like a dark night, pitch-black as rain poured crazily.

Shi Hao disappeared. He was like a terrifying spirit within this curtain of rain. He was attacking while moving about!

Then, he appeared in the vicinity of various Celestial Clan divine mines, moving about and taking action, killing the experts here!

The order to kill Huang was issued, yet it achieved opposite results. They weren't able to find Shi Hao, but instead suffered a long-range raid from him, having divine mines collapsed in succession. The Celestial Clan's losses were severe.

"All of you stay still, stop the search!" There were True deities whose eyes were red and their hair standing on end. Endless killing intent seeped out from their bodies. This was a day of great shame.

Today was a day that would definitely be engraved in their memories. It was just a trifling Supreme expert, yet he slaughtered them until they were so passive. Divine Flame Realm experts died one after another; it was a humiliation and disaster, truly difficult to endure.

The great rain poured down. Shi Hao moved forward, arriving in the largest ancient mine, as well as the mining region he had previously stolen from. He raised his head and looked towards the sky.

As his lips and teeth shone, symbols surged one after another, lightning up and entering the dark clouds and curtain of rain above.

"You... came!" The spiritual senses of True deities were sharp, immediately sensing the fluctuations of bone texts. They quickly rushed out.

There were three great True deities here just in case, fearing that he would be extremely daring and attack their most important divine mine. At this moment, killing intent overflowed into the heavens.

"You truly are daring. Just a youth, yet you continuously killed my clan's experts, in the end still daring to come here. I admire your bravery!" A True deity said through gnashing teeth. His eyes were completely bloodshot, as if he was a vicious beast that was about to feast on man.

"If someone shows me a foot of respect, I will return a zhang. You all wish to kill me and obtain my precious techniques, so today, I brought myself here for you all to kill!" Shi Hao's voice was extremely cold. "However, if you aren't able to kill me, then I will send all of you on your way!"

"He's mad!" A True deity was so furious he began to laugh, showing callousness, as well as mockery. Even though he had been so angered from the previous news that he began to tremble, right now, he really began to laugh.

It was because no matter how stunning he was, there was no way he could fight against True deities who were two entire cultivation realms higher than him. This would lead to inevitable death.

"Fine, Huang, a descendant of the lower realm bearing the blood of sinners, come! Let me see what kind of ability you have for you to dare act with such insolence!" Another True deity shouted loudly before rushing over murderously.

Shi Hao didn't move out of the way, walking forward. In the end, he raised his head again. Great rain poured downwards, and dark clouds roiled, about to press down onto the ground.

“Lightning move the nine heavens!”

Right at this moment, his lips moved slightly. Bone texts immediately rushed into the heavens. He was chanting incantations, displaying an ancient and strange precious technique.

“What kind of aura is this?” At this moment, even the True deities were a bit startled. When they looked towards the heavens, they immediately turned around, avoiding the dark dangers.

Hong!

Unfortunately, it was already too late. From the dark clouds, a streak of lightning hacked down like a long river, rumbling as it descended. It didn’t hack downwards, but instead poured down in torrents!

The three great True deities all felt fear. This was not normal lightning that cultivators could display, but instead stimulated heavenly might!

This kind of lightning contained more than a billion volts, perhaps even several billion, over ten billion. It was far greater than what creatures at the Divine Flame Realm could display, and it exceeded what they could defend against.

Ah!

A True deity cried out miserably, his body trembling violently. Even though he was a deity, it still wasn’t enough. Under this strike, his entire body was charred black, becoming badly mangled.

However, he was still a deity in the end, not dying under the first strike. His eyes erupted with radiance; he wanted to flee.

Meanwhile, the other two were even more shocked until their souls were terrified. They wished to immediately disappear into the limits of the horizon.

However, there was already no time. This was just the first wave of heavenly might; there was still more waiting above. With a honglong sound, lightning poured down from the dark clouds, descending streak after streak, connecting the heavens above with the earth below.

From the distance, rain poured down between the pitch-black world, and streak after streak of thick lightning radiance that seemed to support the heavens descended, linking up heaven and earth as it occupied this entire place.

This was an incredible scene!

This was the Lightning Emperor’s precious technique, one that was known as an immortal dao divine ability. Under special conditions, it could display unfathomable heavenly might that exceeded the limit of what a cultivator could produce alone.

Of course, the conditions were quite harsh, so it couldn’t be used every time. After all, it was difficult to encounter such a great storm where dark clouds covered the vast grassland. Only with these type of conditions would the boundless lightning acquire such great power.

The clouds and rain one produced alone were not enough. Only this type of boundless heaven and earth lightning clouds would work.

“Ah...”

Even Heavenly deities couldn't withstand this type of heavenly might. They couldn't help but release miserable cries. This was not what one normally understood as lightning, but instead the heavenly tribulation incited by the Lightning Emperor's incantation.

“No! How could it be like this?!”

The three great True deities were suffering a tragedy too horrible to endure. They were hacked until their flesh separated and white bones split apart, scorched completely black. In the end, they all fell.

#### Chapter 769 - Disturbances and Attention

Great rain smashed down onto the ground, producing layers of white smoke. The thick streaks of electricity were like golden pillars that took root in the ground, supporting the heavens.

In the end, the electrical arcs disappeared, allowing absolute darkness to once again devour this place.

Shi Hao turned around, entering the dark world, and vanishing from this prairie.

It was because he knew that if he didn't leave now, he would be in danger. Two great Heavenly deities entered the depths of the prairie. Even though they were still quite far, they would still eventually receive news.

The prairie would inevitably be thrown into great disorder. Celestial Clan's number one divine mine was destroyed; this was definitely no small matter. It would greatly tarnish the Emperor Clan's reputation.

Sure enough, soon after, this place erupted into an uproar. However, none of this had anything to do with Shi Hao. he already withdrew from the grassland.

The dark clouds scattered, the dewdrops hanging from blades of grass flickering with seven-colored splendor under the sunlight. The great rain stopped.

Within Fufeng City, a place where the borders of three provinces intersected, people of all trades moved in and out. There were individuals from all different clans, making this an extremely flourishing and bustling place.

This was definitely a place where information circulated.

Regardless of whether it was Fire Province's prairie, Goddess Province, or Kun Province, whenever there was any activity, it would immediately reach this place.

“Shocking news! During the great downpour just now, Huang took action again. He is the incarnation of the death god, reaping the heads of Celestial Clan's experts. He unleashed a bloodbath, destroying half of the Celestial Clan's divine mines!”

Along with the disappearance of the dark clouds, the world became sunny and cloudless. The grassland's battle situation was revealed to the rest of the world, leaving everyone stunned. Huang was too tyrannical, his actions decisive and forceful.

“Celestial Clan's number one divine mine was also destroyed, and three True deities were slaughtered, their bodies and souls wiped out!”

When these news went out, all of Fufeng City was thrown into disorder. This was much more shocking than any of the news they received before. The crowd was completely alarmed, all of them stupefied.

“Huang killed True deities? Did I hear correctly? Moreover three of them?!”

This type of news made others feel as if it wasn’t realistic, almost a bit absurd. It was because this type of battle accomplishments exceeded normal reasoning. How did Huang accomplish this?

“It is completely true! Celestial Clan is currently in chaos. All of the True deities of that mining region have gathered, and their killing intent is rushing into the heavens. They are threatening to burn Huang to ashes!”

How could this type of battle success not shock the world? A few of Fufeng City’s transport formations immediately lit up. This type of accomplishment was too extraordinary. The disciples of a few great clans immediately went to give their reports.

A moment later, the results of this battle spread in all directions. Soon after, it appeared on the desks of many great sects, and a few important figures read it seriously.

“Huang, becoming famous through a single battle. Not only did his name shake the regions surrounding Five Elements Province, it even shocked the tens of provinces here. It is impossible for him to avoid attention even if he wanted to.”

“Celestial Clan really is in a difficult situation now, being treated as a joke by many great sects!”

“They’ve provoked a terrifying young devil king. His potential is great, and in the future, he might very well turn into their clan’s nightmare.”

That day, violent developments were taking place. All sides were shaken. Many people began to analyze and discuss these news, believing Huang to be formidable. This time, the Celestial Clan truly acted too passively.

Many great sects were paying close attention to this, this place became chaotic.

Celestial Clan had towered for so many tens of thousands of years. They had their own glorious backing, but they had many enemies as well. At this time, they naturally didn’t forget to throw stones at Celestial Clan while they were down, carrying out ridicule.

“Wu, Celestial Clan really has declined, suffering such a crushing defeat at the hands of a youth. There were three True deities alone that died, while the other party is just a Supreme expert. This sect has already declined.”

“Right, where is Huang? You can seek refuge from my sect, we will assist you and help you with your growth. We support you in your eradication of the celestials!”

Without a doubt, as long as Shi Hao appeared, there would definitely be tens of thousands of eyes on him. He became the focal point of this region. Everyone was discussing his matters.

Meanwhile, the distant great sects were analyzing and paying close attention as well.

There really were people who wished to rope him in, not speaking empty words, wishing to raise him up so that they could fight against the Celestial Clan one day, carrying out a great decisive battle.

Shi Hao's battle accomplishments could be considered glorious. His status as a loose cultivator drew the interests of many sects!

Within the depths of the grasslands, within a mining region nine million li from Fufeng City, the two great Heavenly deities of the Celestial Clan were roaring with anger, shaking this entire great earth, Even the clouds in the heavens were going to collapse.

Not long ago, they mustered large forces, bringing a few True deities with them to force Fire Clan and suppress a few great clans from the lower realm, having them hand over Huang.

This type of dignified attitude the two great Heavenly deities displayed was done clearly to stir things up, purposely threatening and oppressing the other party to force Shi Hao out.

However, how much time had passed? The other party actually brought upon them this type of disaster!

This was simply like a loud slap to their face. It was just too sharp and clear.

Half of the clan's divine mines were destroyed, and the casualty count of their experts was severe. Everything was done by Huang, and he even admitted that the 'immortal seed' was stolen by him.

How could the two great Heavenly deities endure this? Everything they did looked like blunders. They didn't make Shi Hao submit and give in, instead suffering this type of humiliation.

"Do the two great ones still wish to examine?" Within this mining region, there were experts within those great clans as well. There were a few who asked in an indifferent tone.

Even though Fire Clan didn't have any taboo figures like the Old Celestial, there were still Heavenly deities in the clan and not weak to the point where they were powerless to retaliate. Now that they were bullied by others to this extent, they naturally wouldn't act politely.

One of Celestial Clan's Heavenly deities truly felt embarrassed. With a fling of his sleeves, he turned around to leave.

"Alright, all of you dao friends can leave as well, no need to stand around. Celestial Clan's two great figures were wrong." Someone spoke.

There were quite a few inheritances that occupied great divine mines in this region, and many people came to observe what was happening. When they heard these words, they all laughed.

"What is Celestial Clan trying to do? Baselessly and wrongly accusing others. They've lost the imposing attitude an Emperor Clan should have."

"Shush, lower your voice, or else the two great Heavenly deities might go to your mining region's doors to bully your clan. When that time comes, you won't be able to cry even if you want to."

Everyone was ridiculing the Celestial Clan. There were quite a few inheritances that didn't fear them, purposely mocking them.

Celestial Clan's two Heavenly deities didn't want to stay here a moment later. Even though they were powerful, they still couldn't unbridledly act without restraint. If they truly dared to act randomly, they would be denounced by many sects.

Their actions were already being looked down by others, and the great sects that they were hostile towards were even more so throwing stones at them while they were down, carrying out mockery.

"We miscalculated. This fella was actually so bold, daring to carry out a long-range raid, unleashing a slaughter right behind us. He seems to have even become stronger."

One of the Heavenly deity's faces fell. On the way back, his eyes sunk. If Shi Hao continued to grow at this speed, he would definitely become a huge disaster.

"We have to eliminate him!" Another person said coldly.

Celestial Clan's faces were covered in grime as they withdrew from Fire Clan and the other great sects' mining regions, returning to the outer regions of the prairie.

Finally, these matters spread to Fufeng City. Everyone sighed with admiration. This time, the Celestial Clan truly fell head first, left battered and exhausted by a small Supreme expert.

Goddess Academy was similarly not calm.

It was because now that such a great matter happened, all of the students in the academy heard of it, triggering quite the uproar. It was extremely noisy, with everyone discussing this passionately.

"I heard that Celestial Clan's number one genius You Yu came, that he is in our academy. I wonder if he will come out to fight a decisive battle against Huang."

Huang, this individual already proved his boldness, as well as his divine courage. All eyes were on him, leaving many female students starry eyed and male students feeling endless admiration.

He dared to barge into Celestial Clan's important locations alone and massacre deities. What kind of boldness was this? Just how terrifying was his fighting prowess?

For the younger generation, this was a king among those their age, a war god that was worth looking up to. They felt reverence, and there were even some who began to worship him.

Shi Hao arrived. His appearance created a huge uproar. That fella from the small shoddy mountain gate came down the mountain again?!

Many people were stupefied. He actually came here.

None of them knew that this notorious fella who threatened to beat up seniors and bully juniors, was the focal point of their discussions, the true Huang.

"He entered the academy, is he... provoking us?" A group of people were shocked. This fella really was daring.

Shi Hao was quite calm. He wanted to look for Yue Chan. When he entered that garden region, he saw a few familiar people from the distance. Yun Xi, You Yu, Feng Wu, and the others were all there.

On the green grass next to the lake, the outstanding talents of great sects were seated on the ground, currently discussing the dao. Meanwhile, Yue Chan was playing a jade zither, the music pleasant to listen to. It made the surrounding flora shine, the flower buds quickly grow and blossom with multicolored radiance. It also drew a few birds that began to dance about.,

When the musical piece finished, everyone sighed in admiration.

Then, everyone began to discuss freely amongst themselves.

“Younger sister Yun Xi truly is beautiful and aloof.” Yue Chan had a smile on her face. She then shifted the topic of discussion saying, “The Huang everyone is talking about in the outside world seems to be related to younger sister. I heard that he had escorted you for several hundreds of thousands of li, fighting the War Clan with his life on the line. Is this true?”

There were rumors of this traveling about in the outside world, but Celestial Clan strictly denied it, berating others for creating false rumors.

Everyone’s expressions froze. Regardless of whether it was Divine Cliff Academy’s most powerful disciple Mu Zixiao, Zuo Xiaodi, or Goddess Academy’s Feng Wu, or the other great sects’ outstanding talents, they all revealed looks of shock. It was because few people dared to directly ask the Celestial Clan this in front of their faces.

Yun Xi sighed softly and looked towards Yue Chan.

---

Shi Hao saw this scene from the distance. He decided not to walk over and turned around to leave. He didn’t want to get involved.

As if there was some type of emotions exchanged, Yue Chan and Yun Xi gave this direction a look, seeing his rear figure.

“Yi, why are you leaving? Could it be that you are scared?”

At the entrance of the academy, many people saw him walk out. They revealed looks of surprise.

In reality, quite a few people went to send the message, warning experts that the Supreme Being Dao Rite’s inheritor took the initiative to visit them.

Shi Hao released a sneer, not minding it. He knew that his true identity would soon be exposed. When the time came, would these people still carry this type of expression?

“The Celestial Clan’s six heroes have arrived. Originally I still wanted to see them clash with this person. If he leaves like this, wouldn’t we miss out on a spectacular battle? Though it won’t be as exciting as Huang.”

“The six heroes all arrived one after another. There were a few heroes that previously said they were going to pay that mountain a visit to demand an explanation.”

Shi Hao was surprised. After inquiring about this, he revealed a faint smile and said, "Is that so? I'll be waiting for them at Supreme Being Dao Rite. I will wipe out whoever dares to challenge my mountain gate!"

After speaking, he weaved his large sleeves and then quickly left, disappearing into the distance.

This place became silent. Only when there were no sign of him left did many people cry out in alarm. That small shoddy mountain gate's individual really was arrogant, actually daring to say this out loud. It was just too domineering!

"Go, hurry and inform those individuals. Didn't they want an explanation? Supreme Being Dao Rite's 'great senior brother' already said that he is waiting for them to challenge him!"

It was clear that this place wouldn't be calm again. Quite a huge commotion was raised.

Along the way, Shi Hao's expression calmed down. He said to himself, "If the six heroes don't come, then that's that. If they do dare to come, the Celestial Clan's hearts will most likely suffer great pain!"

#### Chapter 770 - Undesirable Future

After a pitch-black thunderstorm, the extensive grasslands became more fresh and clean. It was dark green everywhere.

The depressions on the ground became great lakes, azure and resplendent. A group of pure white unicorns appeared, releasing holy radiance. There were several hundred of them that arrived in a large herd.

This was an auspicious omen. If the prairie's herdsman saw this, they would definitely be elated. However, Celestial Clan was not feeling this type of mood. The mines before their eyes were sunken, the blood of deities covering the ground. Their losses were astronomical. All of their faces were ashen.

"This is the number one divine mine, a place where large amounts of heavenly materials have been excavated from throughout the years, yet it was destroyed in a single morning, blasted by lightning into dust. There were even three True deities killed."

Celestial Clan's Heavenly deity Mo Luo's expression was ashen. As he looked at these ruins, a powerful aura spread outwards, crushing downwards like a mountain, making it difficult for others to even breathe, feeling as if they were suffocating.

"This isn't the most important point. Divine mines can still be opened! The most unendurable thing is that this was all done by Huang, a Supreme expert, yet none of you lot were able to capture him, allowing him to escape. What is there that is more absurd than this? Not even True deities could stop him! Useless!"

Mo Luo roared. He couldn't endure it any longer. Everything that happened during these past days humiliated the Celestial Clan. Even a Heavenly deity like him had his face covered in grime.

"We understand our wrongs." The group of people lowered their heads, not daring to look him in the eyes. Their bodies were trembling. Many of them kneeled under the Heavenly deity's might.

“So what if you understand your wrongs?!” The other Heavenly deity shouted. “Can you all bring back the lost ‘immortal seed’? That is a priceless item, something that might have been able to create a Celestial Emperor!”

Meanwhile, what was the most intolerable for these two Heavenly deities was that the one that did this was actually Huang, a brilliant youth that they had to kill. He actually took action in such an unbridled manner.

This was an undisguised humiliation. Shi Hao was retaliating and getting revenge. They had personally experienced the events of the past, so they clearly understood the secrets and inner details.

They had sent Shi Hao into the black prison, turning him into a prisoner, using the most strict and cruel methods, leaving his body with many bloody holes that went from one side of the body to the other.

From the day Shi Hao left, there was no way for there to be any good relations between them!

Did the revenge already start?

However, the two Heavenly deities didn’t feel regret. The Celestial Clan’s decision was made for the entire clan. If they could obtain the Kun Peng and Lightning Emperor techniques, then they could make their clan’s power increase sharply!

This would have long lasting effects. If they were given time to accumulate power, the Celestial Clan might make a recovery, reproducing their Emperor Clan’s unmatched might.

Only, an unforeseeable variable appeared, a Ye Qingxian appeared, one who reached an agreement with the Old Celestial, allowing Shi Hao to leave. This was not within their predictions.

“Just now, I received a secret report that the great dao protector will personally come. All of you better shape up!” Heavenly deity Mo Luo said with a cold voice.

“What? Dao protector great one...” Everyone became stupefied. The dao protector of the clan had an extremely terrifying background. If not for the six great celestials, he would have become the guardian spirit that the clan worshipped.

“Didn’t the great one already reach his declining years?” Someone said with a soft voice.

Everyone knew that the dao protector already had one foot in the grave, his great life about to wither up, unable to fight any more great battles. Why did he decide to personally move out this time?

“Because of the great things you all have done!” The other Heavenly deity berated.

If not for them losing the unmatched treasure that was surrounded with heaven and earth source energy, how could the dao protector have been startled, thus deciding to come out to release his final bit of power?

“Dao protector great one is going to use his final bit of life to divinate where Huang is. This is all because of you bunch’s stupidity!” Mo Luo angrily berated, his hair dancing madly about.

In that instant, the space he stood in began to distort, and streak after streak of cracks weaved about. That area of heaven and earth seemed to have become dusky.

Putong!

The group of people knelt down, including the True deities.

It was because they knew that the dao protector's intention was to use the last of his life's light to deduce Huang's real location, accurately seizing his whereabouts.

This meant that that dao protector was going to leave this world.

At the same time, they were shocked. The reason the dao protector was willing to do this was one, because he regarded that 'immortal seed' highly, and the two, because he attached too much importance to that lower realm youngster.

"That youngster is so terrifying, worth of the dao protector great one to go so far..." Someone said, his face revealing his inner emotions. He began to foresee grave consequences.

Since the ancient times, there would be stunning youth that would rise up from each province, but many of them would die prematurely, and most of them would later disappear. They wouldn't make an Emperor Clan feel so nervous.

However, it was different this time. The dao protector actually made this decision, displaying a final bit of power before death. What did he foresee? Those with heaven defying cultivations, even though their blood energy withered away from old age and their battle prowess sharply declined, they would still often have spiritual reactions, able to see some strange things.

When they thought of this, many of them broke out into a cold shiver. This was not good at all. Everyone felt like the dao protector might have grasped a fragment of time and saw an undesirable future.

That was why he wished to do this, not hesitating to use the last of his life to divinate Huang's whereabouts, and then capture him!"

"Now you all know how serious the consequences are?" Mo Luo berated. The surrounding black cracks became even more terrifying, shaking this prairie.

The other Heavenly deity loudly roared, "The only thing you all can do to salvage this situation is to find that person before the dao protector great one hurries over, and then capture him!"

This prairie became ice cold. Everyone kept quiet out of fear, because they knew that big trouble had been created.

"Mobilize all forces, have all the inheritances that are related to our clan send their people out. We need to search continuously for the next few days to look for clues!" Mo Luo ordered.

"Understood!" Everyone braced themselves and loudly replied. Whoever dared to voice any objection would undoubtedly die. No one dared to incite the anger of a Heavenly deity.

The order to wipe out Huang sounded throughout the grassland. Celestial Clan took action, asking all of the sects that they had good relations with to aid them in the search for Shi Hao.

This was a great and powerful encirclement. They did not spare any costs, only wanting results!

However, Celestial Clan still didn't publicly announce that Huang was the lower realm Shi Hao, still holding this back. It was clear that they still desired his precious techniques, wishing to have them alone.

This place became chaotic, entering turbulent times. Countless people moved about, blades flashed and swords flickered. Metal battle armor released chilly luster, filled with murderous energy.

Shi Hao heard about the news, but he didn't pay them any attention.

He was still standing by the mountain gate and looking downwards. "My identity will most likely be revealed, right?"

His heart was surprisingly calm, not feeling fear, instead seeing his own road even more clearly. His eyes were resolute. He had to become strong!

"Once I become an Emperor, who dares to humiliate me like this, daring to steal my precious techniques, imprisoning me?"

Shi Hao sighed softly. This was the boundless three thousand provinces of the higher realms where the strong preyed on the weak. It was incredibly cruel. There were times when reasoning didn't apply.

Once one rose up, every clan would hold you in reverence and many experts would pay their respects. It would be a completely different scene.

Within Goddess Academy, there were a few individuals of the six heroes who couldn't stay calm.

Apart from You Yu and Yun Xi, the others had all hurried over later after hearing that an 'immortal seed' emerged and that they could comprehend the dao through it. As such, the higher ups of the clan allowed them to come as well.

Only, who could have anticipated that this type of unusual event would take place. The grasslands were in chaos, and the clan's divine level experts were badly burned, unable to worry about other things.

"I truly want to break Huang's corpse into tens of thousands of pieces. He actually dares to humiliate my clan, truly deserving death!" Yu Lun said, clothed in white clothes with a head of purple hair, an appearance like jade.

He was one of Celestial Clan's most outstanding disciples. His cultivation was high, someone who previously dared to challenge You Yu and fought great battles against him.

He didn't obtain the heaven's mandate stone, but he was still ranked near the front of the six heroes, far greater than the Kun Mo that was squeezed out.

"It is a pity that we are not his opponent. Even if You Yu fought against him, he still might not necessarily win." Another person said. He was the last of the six heroes.

"He killed True deities, so he definitely has a secret treasure and used special methods. His true fighting prowess might not be that great." Another person deduced the truth.

In reality, this was what everyone in the outside world believed, because no matter how heaven defying a Supreme expert was, there was no way they could kill a True deity by relying on their own power.

“Let’s not talk about other matters. That small shoddy mountain’s so-called ‘great senior brother’ is provoking us like this. Do you feel like there is a need to let him continue living?” Yu Lun spoke, his eyes cold.

He had long received the report that the clansment had been defeated, and the so-called eighth hero Kun Mo even more so had his cultivation crippled. He had long wanted to pay that place a visit and cripple that person.

This was especially the case when that so-called ‘great senior brother’ had previously entered Goddess Academy, saying that he was going to wipe out whoever dared to challenge him. This made him feel a wave of anger.

Celestial Clan was experiencing bad luck already, and now, there was someone who provoked them like this. This naturally made the killing intent in his heart surge, wishing to immediately get rid of the other party.

“You cannot act careless. Rumor has it that he is quite powerful, or else he wouldn’t have been able to cripple Kun Mo. We shouldn’t act rashly either.” The sixth hero spoke, even though he also wanted to take action.

“What are you scared of? I’ve seen Kun Mo’s injuries and understand that person’s strength. He is definitely not stronger than me. Even if we take a step back and say that he can match me in strength, with the secret treasure I was bestowed by the Heavenly deity, killing him is too easy!” Yu Lun said.

“It’s still best if we don’t act too rashly. Many things happened to my clan, so it is still best if we act calmly.” The sixth hero said.

“That is precisely why I want to vent out a bit of my resentment. Even some random cat or dog can climb on top of my clan’s head. Intolerable!”

“I will ask senior brother You Yu to see how he feels.” The sixth hero said. Another person also nodded, expressing his agreement.

In the end, they split apart in somewhat bad terms.

Yu Lun was proud and arrogant, feeling that if not for You Yu being an exceptional talent, he might not be more powerful than himself. He felt the same way towards the other party obtaining the heaven’s mandate stone, attributing it all to luck.

“Brother Yu Lun, did you hear the words of that fella from the small shoddy gate? He is waiting for you all to challenge him, claiming that he’ll wipe all of you out.”

When they saw Yu Lun appear, a few people spoke, calling out to him like this.

Yu Lun was currently taking a walk. His face now fell even further. “What insignificant thing is he, even daring to provoke my Celestial Clan? I’ll conveniently wipe him out after returning from sightseeing!”

Many people in the academy looked over. After learning of his identity, they all began to discuss among themselves, revealing looks of shock.

“Celestial Clan was badly burned, humiliated by Huang. I really don’t know if they can capture him.”

“Yi, the six heroes still haven’t paid that dao rite a visit? I thought they would take action and quickly suppress that ‘great senior brother’. I never thought that they would still not go after all this time. Could it be that they’re scared?”

When he heard this discussion, Yu Lun’s face became even uglier. He was extremely handsome and dressed in white clothes, so he should be confident and at ease, yet right now, killing intent instead pervaded the air.

He received news again and again, and all of them were so terrible, it truly made him distraught with anxiety. Together with his intrinsic nature being proud and arrogant, he naturally found this unendurable.

It was because he was the disciple of an Emperor Clan, one of the six heroes, the outstanding talent of his clan. Even without the heaven’s mandate stone, he still might very well become one of the clan’s most powerful experts.

“Who knows the way? I am going to slaughter that person. Just a trifling shoddy sect, a foolish lunatic that doesn’t know how high heaven is or how deep the earth is, what does he think he is? I will kill him with a single strike!” Yu Lun coldly said.

When these words sounded, it naturally drew quite the attention. Many people said that they would lead the way.

“If my clansmen look for me, tell them to prepare a pot of alcohol for me. I will be right back to drink after taking that lunatic’s head. Also, help me tell Kun Mo to wait for news that will help him vent some resentment.” Yu Lun said.

The academy entrance immediately began to bustle with activity. It was unknown just how many people began to move after hearing the news. Many cultivators gathered over, all of them looking forward to the battle.

Yu Lun released a whistle, and then a pure white Flood dragon beast moved through the air, releasing a thunderous cry and quickly rushing over. This flood dragon had the body of a horse and the head of a Flood dragon. Its entire body was covered in pure white scales and flickering with brilliant radiance. It was a divine spirited horse, and there was even a wave of terrifying aura spreading from it. It was extremely powerful, far greater than normal young experts.

“Lead the way. I am going to cut him down!” He got on the mount.
