

## Perfect WD 811

### Chapter 811 - Supreme Being Liquid

A weng sounded. The bird beak, fish scale, beast tooth, and other items reappeared, stringing together and moving through the void, releasing divine radiance and shining towards Shi Hao.

“En?” Shi Hao wasn’t the only one that was shocked, even the others were startled. Could it be that... Six Crown King personally came?!

Soon after, Shi Hao understood. This mysterious bracelet was gathering aura, engraving his soul fluctuations within so that it could kill him when he entered Immortal Ancient.

The deities that were watching also understood the bracelet’s plans. If it could kill the sinner’s blood descendant, then that was good, but if it couldn’t, then it would still record his aura so that once Shi Hao entered, it could still find him in the shortest amount of time.

Shi Hao faced it coldly, not feeling fear. He looked at the bracelet and then said, “Just get lost. When I enter Immortal Ancient, I will definitely put an end to you!” n/-o--v--ε(-ℓ/-b--1.-n

This type of confidence, this type of domineeringness left many people tongue-tied and at a loss for words. Since the ancient times, how many creatures in the Supreme Expert Realm dared to say these words?

He actually publicly spoke these types of words, that he was going to kill Ning Chuan after entering!

Forget about the several tens of thousands of supreme experts, even the true deities, heavenly deities and others watching felt speechless. This sinner’s blood descendant was too ferocious, not fearing anything.

In this era, the Immortal Ancient was full of ancient freaks. Even though the sinner’s blood descendant was extraordinary, did he have the strength to back up his words?

“Everything will be exposed in the end. Once you enter Immortal Ancient, I want to see just how you will ‘free’ yourself from this disaster!” A deity roared out with a cold voice, carrying great hostility.

“Immortal Flower and petals will shine upon everything. I will personally watch if you will display might or if you will crawl under someone else’s feet.” There were quite a few people from the ancient sects that suffered heavy losses who had overcast faces.

Outside the battlefield, a young lady appeared. With a wave of her hand, a xiu sounded, and the bracelet then turned into a stream of flowing light before flying out. She grabbed it, and then her figure disappeared.

“Really are putting on quite a bit of extravagance.” Shi Hao released a cold snort, not chasing after it.

He ascended to the fourth floor altar, his speed not that slow either, still as fast as flying, making those supreme experts below feel powerless. This person was too much of a freak.

Could this still even be called a trial anymore? Everyone was climbing step by step, as if they were moving while carrying a huge mountain, yet he was taking large steps. This really dealt a great psychological blow to everyone, truly testing the tolerance of the other supreme experts' hearts.

With a shua sound, Shi Hao leapt up, rushing to the fifth layer. He felt pressure here, his steps slowing down a bit.

He was shocked. He noticed a few figures on the rising path who were moving forward with difficulty. While he was dallying about fighting intense battles, some people had already arrived here a while ago.

This was quite extraordinary. They were all definitely well-known supreme experts of a province!

In reality, as long as one climbed up to the third layer, it meant that they already more or less obtained the qualifications, because for just ten thousand supreme experts to reach the first layer was already not bad.

Those that climbed higher were all just individuals who wanted to see how great their own potential was, wishing to obtain the stone bowl on the ninth layer, and acquire the Supreme Being Liquid within.

On the sixth layer, the pressure Shi Hao faced was now great, his steps heavy. However, it still couldn't stop him from advancing.

In this place, he saw another two individuals, a male and female, both quite strong. However, they were now covered in sweat, feeling a tremendous pressure.

When the two people saw him close in so quickly, advancing upwards, they almost fell over right there and then. The sweat on their faces flowed down with hua hua sounds. This was just too terrible, hurting their confidence too greatly!

Outside the battlefield, all of the spectators were shocked. They had a feeling that something extraordinary might happen today!

Phantom Drake Dao Gate, Fire Cloud Cavern, Luofu True Valley, the people of these inheritances all fell, because they were completely defeated. Not a single one of their disciples were able to enter Immortal Ancient through Sin Province, all of them defeated by a single person.

"He ascended to the seventh layer!" Someone cried out in alarm.

Shi Hao's steps were extremely steady. He arrived on the altar's seventh layer, now already roughly halfway up the enormous altar. His position was extremely high, so he could overlook the scenery of all directions.

This moved many people. One has to understand that it had already been many years since something like this happened. Powerful geniuses wouldn't surpass the seventh layer, but it would still be extremely difficult for them to do so. They would only make it that far by struggling between life and death.

Meanwhile, this youth was so carefree, advancing along the upward path!

Hong!

When Shi Hao reached the eighth layer, his body trembled greatly, as if an archaic demonic cliff had smashed down on his body, making his bones release pipa sounds.

This place already reached into the sky. With his arrival, the tremendous force scattered the clouds.

When the supreme experts below found out about this, they looked like they saw a ghost. They raised their heads, unable to believe it.

As for the distant cultivators, they were stupefied as well. How many years has it been? Should be more than thirty thousand years now, right? No one could reach the eighth layer of the altar, all who tried failing to do so.

This youth, this sinner's blood descendant, he was trying to establish a record, breaking the peace of thirty thousand years!

Gasp! Someone sucked in a cold breath of air as he stared at Shi Hao's rear figure. He said softly, "Why do I feel like déjà vu? His style of doing things, as well as his great confidence, it's a bit like... Huang!"

There were some who became suspicious, but there was no proof.

Regardless, once they entered Immortal Ancient, all identities would be exposed, no secrets that could be kept hidden.

"I am looking forward to seeing who exactly he is, what kind of identity he has!" Someone said softly.

Dong!

Shi Hao was walking forward, treading on the eighth layer of the altar, causing the entirely black Supreme Being Ancient Altar that was even more massive than a mountain to tremble slightly. It was because the power it suffered was too great.

The several tens of thousands of cultivators below were horrified. Even without being able to see it, they were aware that someone climbed up to the eighth layer of the altar. It was because legend had it that only by reaching that place would they be able to move the altar.

Dong, dong...

The divine footsteps were heavy like the thunderous beating of divine drums, ringing by everyone's ears. The rhythm remained unchanging. A few supreme experts couldn't take it any longer, actually spitting out blood.

It was because the entire altar was pulsing, making their blood and qi resonate as well.

Hong!

Another trembling sound rang through the air. The Supreme Being Ancient Altar shone, and at the same time, the sound of scriptures could be heard. It also sounded like zen chanting, as well as like heaven and earth stellar universe harmonizing.

The enormous ancient altar trembled intensely, radiance pervading the air.

“Heavens, he broke an eighty thousand year old record, ascending to the ninth layer of the altar!” At this moment, everyone’s expressions froze. They were filled with shock.

Meanwhile, a sparkling ancient monument appeared, a glorious divine stele. All those who ascended to the ninth layer of the altar would be able to leave behind their name.

This heaven and earth could no longer calm down. Regardless of whether it was the several tens of thousands of supreme experts or the spectators watching the battle, they all erupted into commotion. Loud sounds of discussions erupted.

The divine stele rose into the air, appearing near Shi Hao. He thought for a bit, and then he wrote down the symbol that shone with holy light from his forehead. It appeared on the stone stele.

“Sin!”

When the great ancient sects’ people saw this scene, their faces fell tremendously. They stared at that character. They never expected him to leave behind this type of name.

“This represents honor, merits, and achievements, as well as glory! Sooner or later, the truth will be exposed!” Shi Hao spoke, his voice like thunder, resounding through the skies. Everyone could hear it clearly.

On the stone monument, there were a few names, all dazzling experts from ancient eras past. A few of them had already become giants of their respective areas, and some had been buried for more than several hundreds of thousands of years.

Shi Hao gave it a look, and then he retracted his gaze, continuing upwards. He wanted to close in on the heart of this place and obtain that bowl.

The ninth layer’s pressure was several times greater than before. Even someone with a physique as powerful as Shi Hao’s felt his bones ringing and rumbling.

At this moment, he felt as if he was supporting the sky on his back!

However, what was shocking was that he still didn’t stop walking, continuing to move upwards. The rhythm of his footsteps didn’t change, continuing upwards.

“This... has never happened before, right?”

In the past, glorious creatures had arrived here, but it was extremely bitter, full of suffering and continuous struggles, reaching the core with great difficulty. However, he was actually able to enter with this type of uniform velocity!

This was definitely a magnificent feat!

Soon after, he arrived at the core region. A stone bowl was suspended in the void, the liquid within brilliant and about to flow out.

A fragrance that penetrated one deeply into the heart wafted about, making others feel intoxicated.

Pa!

Shi Hao's hand touched the stone bowl, feeling a refreshing feeling. In addition, this place immediately surged with auspicious multicolored light, brilliant rays shining in tens of thousands of streaks, incomparably dazzling and holy.

A stone monument appeared, recording everything that happened. Shi Hao left his name behind again.

It was because even though others arrived at the ninth layer of the altar, they couldn't reach this place, ultimately collapsing here with regret and shaken off the altar.

Shi Hao succeeded, directly arriving in the core region.

"Sin, fastest speed, Sin Province two hundred thousand year record established."

It was a simple sentence, recording this type of glory. Everyone saw it clearly, all of them stupefied.

Not only was the record shocking, it was also because everyone clearly knew that this fella delayed for quite some time!

He moved around the altar, defeating the experts of eight directions, and then he fought on the third layer as well, defeating Six Crown King's people and sweeping through all enemies. This definitely took up quite some time.

"This is bad. We severely underestimated the sinner's blood descendent. He is abnormally powerful, but now, we cannot tell the disciples of the sect!" Someone said.

Right now, all provinces were being filtered out, the only difference being the checkpoints resting in different locations. However, they were all moving through Spirit Realm, and once it concluded, the qualifiers will be directly sent into the uninhabited region.

Shi Hao grabbed the bowl and fiercely moved it. The void even began to move, and then blazing radiance surged. He finally grabbed the bowl, sending it to his mouth.

A sparkling symbol appeared, engraving itself in the void, explaining the Supreme Being Liquid's history and other things.

This liquid was made up of imprints of deities, the condensed essence of Spirit Realm. It descended from the void, a bowl collecting only after many, many tens of thousands of years.

Shi Hao was greatly shaken. This liquid contained divine dao, liquid that could refine the primordial core and nurture the spirit, to the extent where it could even allow the primordial spirit to change again, shedding its shell to develop an immortal form.

"This stuff is formidable!" Shi Hao's heart trembled.

Perhaps, when igniting a divine flame, this Supreme Being Liquid would be extremely useful!

He didn't hesitate, opening his mouth to gulp it down, but he didn't refine it, instead storing it in his primordial spirit, turning it into a sphere of light. It shone with dazzling brilliance.

A line of texts appeared, telling Shi Hao that now that he obtained this liquid, he could not come back to acquire a second bowl of Supreme Being Liquid, that this was a one time opportunity.

Shi Hao didn't complain. This one time was enough!

After a brief pause, Shi Hao leapt out, jumping off the Supreme Being Ancient Altar.

Hong!

The ground trembled. Like a demon lord, he dropped onto the ground, his black hair flying about, eyes shining like lightning.

This time, the harvest was tremendous. Everything was now set; he just had to wait to enter the vast uninhabited region.

Suddenly, Shi Hao sensed an abnormal danger, as if something bad was about to happen. However, the only people around him were some defeated supreme experts shaken off the altar who refused to leave. Could it be them?

Streak after streak of light drowned out this place, dazzling to the extreme. It was dangerous to the point of leaving one horrified.

This was a magical wheel that turned into a light screen, sealing everything within a range of ten zhang. Within this limited space, all types of forbidden secret treasures danced about.

Soul Shattering Needles, Soul Suppressing Pagodas, Soul Scattering Bells...

There were several hundred of them, all of them great killing weapons that could kill people within the Spirit Realm. Back then, he had come into contact with them in the Void God Realm.

These things couldn't be touched. Once they harmed the body, the spirit would become weak and ultimately deteriorate. They would then die in the real world as well.

The most frightening thing was that in this narrow space, once these things exploded, their power would be much, much more powerful than the forbidden objects of the Void God Realm, attacking at him.

"Open!"

Shi Hao roared. The Kun Peng wings appeared, reincarnation fists shook the skies, Lightning Emperor precious techniques soaring into the sky, interweaving together. Holy radiance erupted as brilliantly as an exploding sun. No one knew what was happening in here.

Only a moment later, after a loud hong explosion, that magical wheel shattered, and countless formations refined by sect masters were broken. All types of great killing weapons in here turned into powder.

Shi Hao's hair was disheveled, but his body was without injuries. His eyes were incomparably cold. With a peng sound, he grabbed a few supreme experts that wanted to escape. Without saying anything, he directly searched their memories.

Immediately afterwards, his eyes burned with radiance, killing intent overflowing into the heavens!

Pu pu sounds rang out, blasting a few people apart. Then, he took to the skies, directly slaughtering towards the distant spectators, rushing towards those deities.

This place erupted with chaos. Everyone was struck dumb. This youth was too lively. There were heavenly deities here, yet he directly slaughtered his way over!

Suddenly, everyone realized something. Right, even heavenly deities received restrictions here.

This truly was quite the temper, about to kill deities after being angered. Everyone was greatly shaken, their eyes standing straight as they watched everything.

#### Chapter 812 - Tyrannical Ferocity

A single move of Shi Hao's body possessed tremendous power, as if a shooting star was smashing over!

Following a dong sound, large boulders flew everywhere, landing on a stone mountain. The entire mountain split apart, on the verge of collapse.

"Too fast!"

In just the blink of an eye, he already slaughtered his way forward.

He paused for a moment, scanning his eyes over the crowd, staring at a few deities. Those individuals had their inheritance's symbols on their sleeves, making them quite easy to recognize.

It was clear that he was going after Fire Cloud Cavern, Phantom Drake Dao Gate, Luofu True Valley, and other sects.

At this moment, forget about those directly involved, even the fine hairs of those unrelated stood up. This youth's eyes were too crazy, shining like little suns.

Quite a few of Fire Cloud Cavern and Phantom Drake Dao Gate's people's expressions changed. This was especially true for a few people at the Divine Flame Realm who immediately felt as if they had been locked onto by an enormous beast.

Honglong!

Shi Hao's arms moved, and like a Great Golden Winged Peng spreading its wings, crazy winds stirred about, causing sand and stones to fly everywhere. From the mountain peak that had just collapsed, boulders weighing several thousands to tens of thousands of jin smashed over like rain.

As for he himself, he also rushed over, full of murderous intent.

"What are you doing? Violating the rules, do you want to lose your qualifications in this competition?" A true deity berated, his face falling. His eyes were extremely cold.

Shi Hao didn't pay these words any attention. The crazy winds formed from enormous rocks showered down. He also sent out a palm.

"You dare?!" Someone shouted.

"Not knowing when to come or leave, you dare to act viciously here?" A few people said coldly.

More than ten individuals soared into the air, producing precious techniques and propping up a screen of light, protecting this place and at the same time attacking Shi Hao.

Dong!

Enormous boulders smashed down onto the screen of light. All of them exploded, turning into fragments.

However, Shi Hao's following palm wasn't as easy to deal with. Half of these dozen or so individuals were Divine Flame Realm experts, as well as a few true deities. They all felt a tremendous force suppressing over.

"How could he be this strong?" Someone released a low shout.

Even though they had long seen the display of heaven warping divine might on the altar, when they truly experienced it of themselves, it was a different matter. They could only display power at the supreme expert level here. All of them began to tremble.

"Ah..." Someone cried out loudly.

Many people's bodies trembled greatly. All of the precious techniques they activated scattered, and they themselves felt as if a divine mountain smashed into them, causing them to cough out large amounts of blood and to fly outwards.

The true deities also encountered a dangerous situation, because in this place, they were only supreme experts at the consummate level, unable to be any stronger. Their fighting strength were inferior to exceptional talents.

"Kill him!"

Several individuals shouted. The moment the precious technique was scattered, they brought out their own magical artifacts. Blades cried out, piercing light shining coldly, bone texts resplendent.

Gabeng!

However, the hand that descended from the void was incomparably sturdy. It destroyed the bone swords, snapped the long blades. Moreover, when that hand turned, divine radiance surged, crushing downwards.

"You!"

A deity was furious. The sinner's blood descendent was too domineering, crushing his hand down on his head, cruel and full of disdain, attacking in such a nonchalant manner.

He was forced to raise his hands to defend himself, but in the end, it was still not enough!

Kacha!

Sounds of bones fracturing rang through the air. Shi Hao's hand broke his arms, and the crown of his head was turning numb, his fine hairs all standing on end.

"No!" He did everything he could to resist, but in the end, that large earthen hand continued to crush down, making his skull crack and his body dispirited. His muscles and tendons snapped.

Pu pu...

This was not only true for one person. When Shi Hao's palm enlarged, it pressed down on this place. Several individuals were sent spinning through the air, their bodies exploding.

"You!"

The deity that rushed over first was shocked and furious, and then in the end, the expression on his face immediately froze. Shi Hao rushed over with a single step, bringing over endless golden radiance.

With a pu sound, with a point of his finger, a Soul Shattering Needle appeared, dark red and cold, entered the space between his brows, immediately making his face go rigid.

"Enough. Why are you killing others here? Could it be that you do not wish to enter Immortal Ancient? We are going to strip you of your qualification!" Someone berated from the rear. The people of a few ancient inheritances erupted with fury.

Shi Hao took action. Thunderous radiance overflowed outwards, completely sweeping through the remaining heavily wounded individuals. Bloody mist surged, wiping them all out.

Only then did he stop. His black hair was a mess, but his body was without blood or injuries. His eyes seemed to release electrical radiance, making it look like he had a wave of demonic nature.

"Is my qualification something you all can strip just by saying you will?" Shi Hao sneered coldly.

His eyes were cold and harsh as he looked around, making a few individuals' hearts feel nervous. This was an absurd feeling. This was clearly a young supreme expert, yet he was looking down on deities like this.

"Slaughtering the innocent without reason, his heart is vicious and bloodthirsty. Someone like you doesn't have the qualification to enter Immortal Ancient!" Someone from Phantom Drake Dao Gate berated.

Shi Hao stood on a mountain, staring outwards. Even though he was only a single person, he gave off the feeling of a monarch overlooking the world, as if he was the only sovereign.

"How interesting! You all are disgustingly hypocritical!" Shi Hao said. These ordinary words made the face of the true deity who spoke up turn completely red, his eyes releasing flames.

Just a youth, yet he dared to humiliate him in front of the big names of a province, leaving him furious. He truly wished to blast the other party into blood and bones with a single palm.

"What happened just now? Anyone with eyes could see that all of you ancient sects truly have no sense of shame, breaking the rules and taking action against me." Shi Hao said.

He didn't give them any face, directly speaking in front of everyone's faces.

These inheritances cared about face the most, so he naturally wouldn't let them go. He was going to tear off all of the skin on their faces.

In reality, just now, when Shi Hao was trapped by a formation and suffered a strange attack, it was quite obvious what happened. Many people guessed at what was going on.

However, no one could have expected that he would be so direct, immediately slaughtering his way over, not even rubbing the sand in his eyes. n)/Ovel**b**1n

Even those most ancient and powerful inheritances weren't enough. He directly took action!

"Little friend, your words are too excessive. Just now, you slaughtered our sects' disciples on the altar, yet we didn't say anything. Now, you are using such a low reasoning to speak out against us? This isn't too good.

An old woman spoke, an expert at the True Self Realm, a true deity.

"Get lost!"

Towards this, Shi Hao only had these words, directly berating and not saying anything else.

There were too many cultivators here. Sin Province's people occupied the majority, but there were big names from other provinces as well. When they saw this scene, they were all stupefied, truly feeling some pity for the people involved.

Glorious deities, great ancient sects, all of them were stopped by a single youth and loudly berated. This was something never heard of before.

"Youngster, you are too arrogant. Do you truly believe that no one here can deal with you? Humiliating and slandering us, there can no longer be any kindness. We demand an explanation!"

"The explanation I will give you then, is that all of you will be slaughtered!" Shi Hao spoke coldly.

"You..." A few people were so angry they began to tremble.

A group of people walked forward, all of them exuding killing intent. Their eyes were cold, bone texts coming out from their bodies. They were going to use their most powerful precious techniques.

The people of several sects moved. Even though they knew that he was extremely powerful, they could only take action. Otherwise, what dignity would these great ancient inheritances have left to speak of?

"All of you... can just come at me together!" Shi Hao's black hair danced about, his eyes resplendent, full of confidence. Just like that, he overlooked everyone.

When these types of words were released, this group's faces were completely red. A youth at the supreme expert realm was... showing such disdain towards them!

Even though many people began to press forward together, when they were berated by someone like this, domineering and with such contempt, they still felt embarrassed.

"Take action!"

From the rear, someone coldly spoke. Everyone's hearts trembled. It was a heavenly deity who spoke.

In that instant, everyone's eyes became resplendent. There were more than one heavenly deity providing support. Of those that could reach this type of cultivation realm, just how many were ordinary? This was especially true when one considered that they had terrifying secret treasures on them as well. Perhaps... they could kill this person.

“Haha...” Shi Hao roared with laughter, his thick black hair dancing about. His eyes shone resplendently like golden lamps. There was a type of domineeringness, but also a type of madness. He looked at all of them with contempt.

He knew that in these people’s hearts, there was actually great restraining fear, but in front of these great sects’ faces, they had no choice but to advance.

“Hand over your lives then!” Shi Hao rushed over.

His entire body shone, one step one illusion. As he pressed forward, golden waves roiled behind him, blasting the void.

“This is a condensation of magical projections, divine force into a sea. It is a sign of peak power!” Many people shivered inwardly.

He reached this type of stage, something only seen in ancient legends. In the present world, it was already something that no longer existed.

Shi Hao immediately entered this group like a tiger among sheep, incomparably ferocious and tyrannical, unleashing a great massacre.

His arms moved, sending golden light in tens of thousands of streaks, ocean waves reaching the skies. It was just one attack, yet the experts at the very front were all sent flying outwards before splitting apart in the void.

Bloody light could be seen everywhere. More than ten people immediately fell.

“What true self, divine flame? They only amount to this much in the Supreme Expert Realm.” Shi Hao spoke, full of contempt. This was an undisguised humiliation.

“Unbridled! Little monster, accept death!”

Someone activated a secret treasure, making the void release weng weng sounds. This was a precious arrow refined from a divine bird’s beak. Its power was great, able to slaughter deities.

In the real world, this was a heavenly deity magical artifact.

However, here, it was greatly restricted, unable to display its might.

Dang!

Shi Hao’s actions were simple and domineering. A fist smashed out, and then that precious arrow flew backwards, its owner completely unable to control it. It released bitter radiance that swept towards the crowd.

It was because the power of Shi Hao’s fist was just too great!

Pu pu sounds rang out unendingly. More than ten people immediately had their bodies pierced through, miserable cries ringing through the air. The radiance of this precious arrow was blinding. It was incomparably sharp, killing quite a few of their own people.

This left those from Fire Cloud Cavern furious. They strangely suffered losses of their own people. It was not only humiliating, but also quite a miserable loss.

Without waiting for them to think any further, Shi Hao rushed into the crowd, sweeping through all before him. A fist smashed outwards, and then a divine flame expert exploded on the spot.

Pu!

Then, he rose high up into the air, a leg moving like a Dragon Snake. As bone texts surrounded it, there was a type of terrifying flexibility as well.

This leg covered the sky. A large group of people around him collapsed, six or seven individuals having their bones broken and tendons snapped, badly mangled as they flew outwards. There were six or seven others who were struck until their bodies broke into two, their torso splitting apart.

Ferocious, tyrannical, domineering!

The countless spectators were all shocked, their fine hairs standing on end. This was simply like a human Tyrannosaurus Rex, enough to crush everything. He had an unmatched divine power here.

“Kill!”

Everyone shouted loudly, their eyes all becoming red now. They surrounded him and attacked from all sides.

Shi Hao’s body shone, beneath his feet golden lotuses covered the ground, accompanied by flames. An irregular scene appeared!

Raging flame golden lotuses were everywhere!

Chi chi sounds rang out incessantly. Golden lotuses rose up from the ground one after another, bringing with them a fiery light. Like immortal swords, they shot out, auspicious multicolored brilliance resplendent.

Pu pu...

These were terrifying sounds. With so many surrounding him and attacking from all sides, it was the perfect opportunity for Shi Hao to release a mass slaughter. Many people had the space between their brows penetrated, all of them ‘planting’ into a raging flame golden lotus. Blood flew everywhere, their expressions all freezing.

This was a mass slaughter!

Shi Hao’s courage and strength were unmatched, incomparably tyrannical.

They were all at the Supreme Expert realm, but he was unmatched. Even if those people had previously walked this path and had long ascended to a higher level, it was still not enough!

Hong!

With a raise of Shi Hao’s hand, heaven overflowing radiance surged. His arms and legs moved, unleashing a bloodbath.

Whenever a fist smashed out, there would inevitably be people ahead who exploded, turning into blood and bone. He pressed forward boldly and powerfully; no one could stop him.

The most terrifying thing was that he was using Soul Shattering Needles to hunt a few extremely powerful individuals.

Peng!

Someone used a precious wheel to fight against Shi Hao. The void distorted, purple waves striking the skies.

"You are breaking the rules!" A heavenly deity spoke, his expression cold and ruthless. He held the precious wheel in his hands.

"I passed Spirit Realm's trial, yet you all dare to secretly harm me, using Soul Suppressing Pagoda, and Soul Scattering Bells to go after my life, yet you dare to speak about breaking the rules?!" Shi Hao was powerful. A leg swept out from above, his limbs striking towards the heavenly deity's face.

"You!"

The heavenly deity was furious. This place was immediately covered in overflowing divine light. A youth actually dared to act so wildly, using his feet to trample towards his face!

The experts of a few great sects couldn't remain calm any longer, many of them rushing forward.

Peng peng...

After several dozen collisions, light erupted into the heavens. It had to be said that creatures who could become heavenly deities all possessed shocking methods, or else there wouldn't be so few of them in each inheritance after all these years.

Only, after the continuous collisions, the magical wheel artifact already became dim, about to be forcibly struck flying.

Moreover, during this process, these were more than ten experts who were killed by Shi Hao one after another, blood splashing high into the sky!

Shi Hao took action again, unexpectedly gripping the heavenly deity's forearm and fiercely tore at it. With a kacha sound, bones broke and striking red blood flew several feet into the air.

He tore off the forearm of a heavenly deity!

Chapter 813 - Passing the Trial

A loud roar sounded. This heavenly deity retreated, holding his broken arm with his hand. Glaring red blood flowed down, half his body now dyed red.

His eyes possessed blade-like sharpness as he stared at Shi Hao. Suffering a heavy injury like this was not only a complete defeat, but even more so a humiliation.

This place was dead silent.

Everyone felt as if a great flood swept over their hearts. They could not calm down at all. This youth was rarely seen since the past, powerful to a ridiculous degree!

“Old ancestor!” A group of people rushed over, protecting the heavenly deity within.

The cultivators of several sects were greatly shocked, their faces pale. They suffered a great humiliation today, unexpectedly unable to deal with a youth.

In all these years, their inheritance had towered at the peak of this world, high above all others, overlooking all directions, who dared to provoke them, let alone being swept through like this?!

Today, a youth took action domineeringly, slaughtering them to this extent!

Dong!

The sounds of footsteps rang through the air. Two individuals walked over, heavenly deities as well, their eyes chilly as they stared at Shi Hao. They stood beside the wounded heavenly deity.

Shi Hao laughed out loud, thriving with vigor. Then, he revealed a look of contempt. This was a type of brash attitude, and even more so arrogance and disdain, not attaching any importance to them.

The group of experts were immediately furious, some of their faces becoming scarlet red. Blood energy surged, making them feel a type of humiliation. A youth unexpectedly looked at them like this!

Endless cultivators were watching the battle. When they saw this scene, they were greatly shocked.

“Sin, if he doesn’t die, he will definitely rise up to the peak one day.” Someone said with a light sigh, calling Shi Hao ‘Sin’, because that was the name he left behind on the Supreme Being Ancient Altar.

“The newer generation will replace the old, a supreme being will inevitably rise up. How unfortunate it is that our disciples don’t know, and we have no way of informing them not to provoke him after entering Immortal Ancient.”

...

When those great ancient sects heard these people’s discussions and quiet conversations, they couldn’t help but reveal even more unpleasant expressions.

It was quite clear that everyone believed that they had encountered a disaster today, destined to suffer greatly. These were ancient sects we were talking about!

“You with sinner’s blood!” A true deity shouted, “Acting so unrestrained like this, challenging our ancient sects, are you going to fight to the death against us in the future?”

This was a threat, as well as an intimidation to have Shi Hao give up. After all, those were all glorious great sects. In the real world, who dared to fight against them alone?

“Your words hit the nail on the head! In the future, I will definitely pay each and every one of you a visit!” Shi Hao replied.

“Not knowing how high or deep heaven and earth are!” The true deity berated. He knew that this path wouldn’t work, the other party not going to back off.

“Why don’t you try and speak another sentence?” Shi Hao looked at him coldly.

The true deity was furious. This was an undisguised threat. Everyone could see this young supreme being threaten a true deity, moreover one that was standing right next to another heavenly deity.

“I am saying that you don’t know...” He repeated once again, berating while staring at Shi Hao.

However, before he even finished his sentence, he felt his sight blur. A golden lotus took root in the void, releasing raging flames at him, erupting with golden radiance.

“You dare!” Many people shouted loudly.

Even the three heavenly deities’ eyes became cold. This was just too arrogant, going to kill a true deity in front of their faces, clearly not putting these three great heavenly deities in his eyes.

The three individuals quickly stepped in to stand in his way!

“Why wouldn’t I dare? You three pieces of trash, get out of my sight!” Shi Hao roared. His entire body surged with burning radiance, as if it was truly fire, incomparably blinding and flourishing.

As soon as these domineering words were spoken, he continuously cut down the experts in his path, rushing towards the three great heavenly deities.

Everyone became greatly alarmed. As for those directly involved, the three heavenly deities were beyond furious. What was this youth saying? He actually dared to call them trash, it was simply outrageous.

How many years had it been? Endless years had passed since they had become heavenly deities. It was always them who looked down on other races, receiving the reverence of all sides. Who dared to talk to them like this?

Pu!

Blood splashed outwards. Shi Hao soared into the air. When his foot descended, it stamped out shocking lightning, blasting a few supreme experts until they cried out loudly. Some of them were charred black on the spot, and a few even exploded. Bloody mists surged.

He was at a level of his own!

This scene left every single person deeply shaken. What was unrivaled? This youth displayed this type of might.

All of the spectators, the big names of various sects, all of them were stupefied. How many years had it been since they saw a youth with such divine bravery? They were young in the past, their hot blood previously surging into the heavens. Right now, it was as if they returned to the era of their youth!

A youth was berating heavenly deities as three pieces of trash, slaughtering experts like they were ordinary chickens. It shocked everyone close to Supreme Being Ancient Altar!

“Ah...”

Several great ancient sects' cultivators joined hands to stop his attack. The three great heavenly deities were even more furious, and even the eyes of the one who lost his forearm were cold, erupting with the most powerful divine might and activating precious artifacts to fight.

Chi!

Shi Hao's body was in midair, moving about like a True Dragon as he passed above many people's heads. When he brandished his leg, divine light erupted, and then it directly smashed down. That leg was even more powerful than a dragon's tail, making a group of people vomit blood, crying loudly as they flew out, exploding soon after.

This type of tyrannical scene left every single person shocked!

"All who dare to stop me will die!"

From the end of his finger, strand after strand of white light flew out, holy and resplendent, auspicious, yet inwardly tyrannical. They could erupt with devastating divine might at any moment.

This was heavenly calamity radiance!

The three great heavenly deities were horrified. Their precious artifacts were all blasted until they became dull and lightless, all of them flying outwards. Moreover, this type of radiance blasted them until their chests felt oppressed, about to cough out blood.

Hong!

Shi Hao swooped down like a dragon, blasting a group of experts until they coughed out blood. Corpses and heavily wounded individuals were sent flying to both sides of him.

Even the three great heavenly deities were struck until they took steps backwards, unable to stop this power.

"You..." The face of the true deity who spoke before was now deathly pale.

Pu!

Shi Hao's palm descended, white light overflowing outwards, covering heaven and earth. This individual was directly eliminated, blasted into a bloody mist, then into smoke and dust, ultimately into a rain of light.

This great army attacked an enemy, yet no one could stop him!

With a weng sound, Shi Hao spun into the air, one foot down towards a heavenly deity's face, one palm towards the other heavenly deity's head, attacking powerfully.

His true targets were naturally the three great heavenly deities.

One individual roared, bringing out a picture scroll. This was a secret artifact. When this item was activated, it would fade away and be used up. However, its might was boundless. n)/Ovel**b**1n

He was hoping that this item could temporarily break through the limit of the Spirit Realm's suppression and eliminate Shi Hao.

Shi Hao felt surprised, but he didn't worry. With a loud shout, his body surged with holy radiance, creating a boundless expanse of light. Moreover, an imprint appeared in his palm, releasing blinding brilliance.

Then, a blurry hand struggled free from the flesh, taking form in the void. Unfortunately, it wasn't solid enough, a bit hazy and dull, incomplete.

Despite this being the case, it still released terrifying might, because this was -- Hand of Heaven.

Peng!

That painting scroll was penetrated, being scattered before it could even burn. Its energy couldn't sweep over.

"Ah..."

That heavenly deity bore the brunt of this attack, half his body being struck through. He was severely injured, blood splashing down on the battlefield.

Chi!

Shi Hao produced a Soul Shattering Needle, sending it flying at his body. This was to kill him.

Pu!

Sure enough, it landed on its target, making that heavenly deity's expression change greatly.

With a qiang sound, his palm formed a blade, decisively cutting off his shoulder. He then quickly fled towards the distance.

A heavenly deity was running!

This triggered a huge uproar. When the other experts saw this, all of their faces became white, their confidence crushed. They fled towards all directions.

"Kill!"

Shi Hao shouted loudly, chasing after those people and continuously taking action.

Dang...

Unfortunately, a few bell sounds rang out from Supreme Being Ancient Altar's direction, stating that the trial had ended. Several thousand supreme experts were sent out, everything here ending.

Shi Hao was rather regretful. He felt a tremendous force pulling at his body, about to bring him out from this battlefield.

He directed his final attack at a heavenly deity. An indistinct and incomplete Hand of Heaven smashed out, making that individual's expression change greatly. Even though he was retreating at flying speed, he was still blasted until he coughed out large amounts of blood, part of his body tattered.

The most terrifying thing was that this palm Shi Hao released had a Soul Shattering Needle clasped between the fingers.

Pu!

This time, this needle flew towards the head, accurately entering through it, making that heavenly deity release a miserable cry. His eyes erupted with miserable radiance; he was truly horrified.

“What? A heavenly deity was struck by a Soul Shattering Needle!”

“Heavens, a heavenly deity is about to fall?”

...

This triggered an uproar. The three great heavenly deities were all seriously injured, their blood splattering out onto Spirit Realm. One of them might even die!

All of the spectators erupted into an uproar, their hearts greatly shaken.

Chi!

Shi Hao disappeared from this place, sent out through Supreme Being Ancient Altar, leaving Spirit Realm.

Sin Province, within the enormous dao field.

Multicolored light flickered as figures were sent out one after another, decreasing by more than seventy thousand supreme experts. Only ten thousand remained, the ones that managed to ultimately pass!

The ones that left the dao field all felt unwillingness and despair. They entered the crowd, feeling incomparably dejected.

Of course, within these types of expressions, there was also a type of indescribable brilliance. They were all staring at that dao field, searching for a youth's figure.

Everyone knew that something major had happened!

Sin, he not only established a record, obtaining the stone bowl's Supreme being liquid at the highest point, the ninth layer of the altar, he also unexpectedly wiped out the inheritors of a few inheritances and killed some of their deities.

Immediately afterwards, the spectators returned. Endless cultivators revived. This place immediately became chaotic.

“Did the heavenly deity who suffered the Soul Shattering Needle come from Fire Cloud Cavern or Phantom Drake Dao Gate?”

“This is truly shocking! Just a trial, yet a heavenly deity is about to die?”

Clamoring sounded noisily, this place in absolute disorder. All of the cultivators revived, but they didn't look at the ten thousand cultivators who succeeded first, but were instead looking for that heavenly deity.

This was going to stir up huge waves!

After so many years had passed, this type of thing had never happened before. Spirit Realm's trial unexpectedly changed into a decisive battle against heavenly deities, with one of them possibly dying.

Finally, they found the ancient inheritances whose names shook the world. The group of people could not remain calm, all types of shouts sounding there.

It was because a group of people collapsed on the ground, unable to rise again.

Shi Hao didn't only kill one true deity with Soul Shattering Needles!

"Heavens, old ancestor, hurry and wake up!" Someone cried out mournfully.

Moreover, a heavenly deity from Phantom Drake Dao Gate laid on the ground, the corners of his lips flowing out blood, his face miserably pale. There weren't any sounds, unknown if he was dead or alive.

Apart from this, the other two heavenly deities were shaken as well, because they received serious injuries in Spirit Realm. Now that they returned, their foundational energies received great damage.

"Capture him! He is not allowed to leave!" Someone shouted loudly, staring into that dao field.

"That youth cannot be allowed to enter Immortal Ancient. We will not allow him to leave!" Fire Cloud Cavern's heavenly deity personally spoke, rising up and arriving at the border of the dao rite.

This place erupted with commotion, extremely noisy.

Many people knew something happened in Spirit Realm. These ancient sects were going to try and stop that sinner's blood descendant from leaving, going to capture and kill him here.

Everyone looked towards the inside of that dao field. They finally found that youth.

"Hahaha..." Shi Hao roared with laughter, standing up and shocking the supreme experts around him until they all stepped backwards, not daring to get close to him.

His attitude was bold and unrestrained as he looked outside this place, staring at those ancient inheritance's people. "Truly domineering, even daring to destroy this type of natural law. However, will you all be able to enter?"

"Break open for me!" There was a heavenly deity who took action, wanting to destroy the entire dao field. Unfortunately, he was stopped by a streak of divine radiance, unable to come any closer.

This formation was extremely ancient, powerful to a shocking degree. It was precisely to maintain fairness, preventing outsiders from coming in.

Even though those inheritances were powerful, they never expected this type of thing would happen. Now that they suddenly felt the urge to break the formation, it was simply impossible. It would only be doable by expending a large amount of time.

"Who exactly are you?" A heavenly deity asked.

"Who am I?" Shi Hao looked around, but he didn't say anything. Instead, he revealed a cold look of disdain. "You all will know once I enter Immortal Ancient!"

The two heavenly deities clenched their fists. They knew that this youth's backing was likely shockingly great, not only having a single identity.

"Heavens, old ancestor, you have to wake up!" Someone cried out miserably, shaking the heavenly deity who suffered a Soul Shattering Needle.

This was not something from the Void God Realm, but something Shi Hao collected after entering the deadly formation they used against him. It was a forbidden object that possessed domineering power in the higher realms.

"Our inheritances have exceptional talents, and there are even ancient freaks. They will definitely kill you in Immortal Ancient!"

There were deities who roared with endless killing intent and hatred.

"Is that so?" When Shi Hao heard this, he laughed coldly. He nodded and said, "Thank you for telling me. When the time comes, I will definitely slaughter them clean, so please don't worry!"

"You..." Those great ancient sects' people were furious, the veins on their foreheads all jumping, but they couldn't enter.

Dang...

A bell sounded. The great formation operated, and this entire dao field became blurry. Everyone knew that the transport was starting. These ten thousand supreme experts were going to be sent into the boundless uninhabited region.

#### Chapter 814 - Uninhabited Region

Sin Province wasn't the only one. All three thousand provinces were resonating in response. The bell sounds sounded simultaneously, shaking the higher realms, indicating that everyone was starting to proceed onto the next phase!

Super transport formations started up one after another, bringing the victors of each province out, heading towards that ancient earth.

"Hateful, I have to see him be killed!" In Sin Province, Fire Cloud Cavern and Phantom Drake Dao Gate's people roared, unable to accept this result.

"Let's go, we should head to that ancient place and observe the results." Someone said.

Of course, not everyone would be able to go, because the distance was too great. Moreover, even if they went there, they could only wait. Who knew how many years this great battle was going to last.

A brook murmured, plant life green and lush. This was a peaceful and beautiful world.

The ten thousand people from Sin province appeared. They weren't crammed together, but scattered throughout this vast region of mountains and rivers. However, they would still occasionally run into each other.

They looked left and right, all of them full of curiosity. Was this the boundless uninhabited region? They unexpectedly entered!

One has to understand that there were many legends related to this secret earth. Even sect master level figures would fall upon entering this place. This was the most mysterious and dangerous part of the world.

Natural Luck Academy's head was incredibly heaven defying, known as an old unmatched existence in the past, an existence comparable to the Six Great Celestials, yet in the end, he died in the uninhabited region's depths. n()o/.V(-e.)L)-b))l..n

Perhaps one could only enter in this special time, right? After all, that Immortal Flower appeared, about to blossom in this region and covering this place with 'auspicious signs'.

The smell of the earth, and the sweet scent of the plant life wafted out. Shi Hao took a deep breath. After experiencing a great battle, he ended up coming to a place like this. He was now completely relaxed.

There were more than twenty supreme experts within a range of several li. They all sensed his existence, each and every one of them horrified. They quickly retreated, staying far away from this place.

They all felt great fear and respect towards him. This was someone who even dared to kill a heavenly deity, so who wouldn't be scared?!

"Am I really that scary?" Shi Hao revealed a smile, his teeth extremely white and brilliant. However, those twenty or so supreme experts were all frightened until their scalps became numb.

One of the girls couldn't help but cry out, "Don't... kill me!"

"Truly boring. I originally wanted to stay together with you all." Shi Hao shook his head, and then he didn't pay them any attention.

When these people heard this, they were greatly moved, too late for regrets. If they traveled together with this type of young devil king, what would they be scared of? As long as they don't encounter the freaks of past generations, they would likely be unstoppable!

"Huh?"

Suddenly, Shi Hao raised his head and looked forward. He felt something strange.

A wave of gentle fluctuations appeared in the void, auspicious, pure, and holy, making others feel as if they were bathing in the winds of spring, their entire bodies comfortably warm and all fatigue washed away.

In the distant horizon, immortal radiance shone streak after streak, brilliant like morning multicolored clouds, white like silver moons. Large amounts of light scattered downwards, making that place incomparably divine.

"It appeared! Immortal Dao Flower Bud!" A supreme expert cried out in alarm, feeling incomparably moved, their bodies all trembling.

If one wanted to enter Immortal Ancient, they had to wait until the Immortal Dao Flower's Bud appeared. Only when it blossomed would that gate open, unveiling the dust covered path that leads into Immortal Ancient.

It already appeared. When was it going to blossom?

Sun Province's ten thousand supreme experts were all waiting here expectantly. However, from what they understood, the place they were currently in was also a place of natural luck.

It was to the extent where for most people, it was the only natural luck they could obtain. It was because even though they arrived here, not all of them could enter Immortal Ancient.

However, this was the uninhabited region, vast and boundless. Normally, outsiders couldn't come in. There were too many precious medicines and treasures that grew here.

Moreover, it was rumored that there was undying matter here. If one somehow obtained a drop or a casual bit, it would be enough for them to be personally welcomed by those ancient sect masters.

That was why it could be said that this was a place of natural luck.

Based on the experiences of past history, the Immortal Dao Flower Bud would blossom in several hours at the soonest, the latest not exceeding three days. The seal on Immortal Ancient would then be opened.

"Need to take advantage of this time to search for opportunities!" Over ten thousand supreme experts scattered in this region, rushing through the mountain forest to search for their own opportunities.

Shi Hao wasn't in a rush, not in a rush, but not moving too slowly either. He walked forward, staring towards the horizon the entire time.

Dong!

A drum sound rang through this heaven and earth, heavy, grand, and boundless, as if the world was resonating. The radiance at the end of the horizon becoming more resplendent.

At the same time, a great sound rang through the air, every single supreme expert hearing it clearly.

"This time, the higher realm's three thousand provinces have fifty million supreme experts that have successfully passed, entering this uninhabited region."

This was the voice of a group of sect masters, those at the peak of this world. Even though none of them dared to get close to the Immortal Dao Flower Bud up ahead, they could still come within a certain distance of this place.

At this time, they publicly announced a few circumstances to all of the supreme experts that entered the uninhabited region.

When Shi Hao heard this information, he immediately felt overwhelmed. Fifty million supreme experts... it was twenty million greater than what he had anticipated!

He thought that every province would have ten thousand people, but it seems like a few great provinces allowed more people to pass.

"Based on the past, each time, there would be several million supreme experts who would ultimately enter Immortal Ancient. When the Immortal Flower blooms, all of you have to grasp the opportunity."

Shi Hao listened carefully. Even though he knew quite a bit, he still didn't come from a great sect, so the inside information he knew naturally couldn't be compared to others.

"I believe your masters have all prepared Region Shattering Symbols for you. Should you fail, unable to enter, or encounter danger, you can immediately break through space to return. Keep in mind that only when the Immortal Dao Flower Bud appears would this uninhabited region display abnormalities. Otherwise, you all might not be able to use those precious symbols."

Shi Hao's mind shook. He truly didn't know about this stuff, because Qi Daolin always asked him to place highly, but never spoke about any of this in detail.

"All of you are currently divided into three thousand regions, all of them vast and boundless, the cultivators of each province in a specific region. There are realm walls between different regions. I advise you all not to attempt to break it to avoid conflict. All of you should enter Immortal Ancient through your respective regions in an orderly manner."

When these words were spoken, it meant that these endless mountains and rivers were divided. The supreme experts that were all quite far away from each other could not calm down, because this meant that there might be danger.

They knew clearly that those transcendent individuals from past eras would break the realm walls between regions, crossing regions to search for undying matter, carrying out great slaughter to do so.

Shi Hao proceeded forward, his expression calm and peaceful. He didn't have much to be scared of, just have to wait until Immortal Ancient opened.

"Even though the Immortal Dao Flower Bud has appeared and auspicious signs have surrounded these mountains and rivers, making it so that there are no excessively vicious creatures appearing, it is still best for all of you to be careful."

This was the warning of the higher realms' sect masters. This place wasn't really all that peaceful; there would still be dangers.

The uninhabited region was quite special, with no one able to say for sure what there was here. Stepping on a piece of yellow earth would be enough to take the life of a sect master, being infected by a drop of seven-colored dewdrop would cause powerful experts to fall.

It was because these were all things that had happened before!

Currently, auspicious radiance pervaded the air. Strange events normally wouldn't happen, but one still had to remain vigilant.

The first day went by extremely peacefully, nothing major happening.

Even though fifty million supreme experts was a huge number, when scattered throughout the boundless mountains and rivers, it couldn't be considered all that much. There was enough of a cushion between them.

The second day. Endless experts came from the surrounding regions, all of them big names from different parts of the higher realms. They all wanted to see exactly what was the situation.

They didn't dare to enter too deeply, because that Immortal Dao Flower Bud released a great repelling force. The most powerful couldn't exceed the Supreme Expert Realm if they wanted to get any closer.

"Immortal Dao Flower Bud, since the era of its birth, has already bloomed two thousand nine hundred and ninety-nine times, each time exhausting a bit of its great dao. Now, there is one last chance, as well as the most perfect chance. It will blossom with three thousand flower petals."

"Those flower petals are all extraordinary items, able to illuminate the secrets within Immortal Ancient."

This was one of the reasons why they came here. They couldn't approach closer, but they could use the three thousand great dao flower petals to observe some of the circumstances within Immortal Ancient.

Of course, any flower petal needed a sect master to activate it. The consumption was tremendous!

It was because they couldn't get any closer, needing to activate them from endless distance away. One could well imagine how difficult it was.

In reality, whenever this time came, the giants of different sects would descend. The experts of each province would then work together, each province only able to grasp a single flower petal, using it to probe the unknown.

The second day's afternoon, the outer region was already packed with people.

Carriages moved through the air one after another, releasing auspicious multicolored light. They all carried great figures, some of them accompanied by chaotic energy, making even heavenly deities feel fear, quickly moving to the side.

"That is... Heavenly Country's war chariot. Their sect master personally came!" Someone cried out in shock.

A blood-colored war chariot that released heaven overflowing murderous energy appeared. It was as if it had been soaked in the blood of ten million creatures, carrying endless baleful energy. They could almost vaguely hear the anguished cries of countless creatures.

Everyone's expressions changed. This master of killing was the most mysterious figure. Even after endless years, not many individuals had seen him. Today, his war chariot unexpectedly appeared!

The Immortal Ancient Era had passed, and this era was reaching its end soon as well. A few forbidden figures seemed to have sensed something. This might be the final opportunity, and that was why he personally appeared.

A copper palace pulled by nine flood dragons rumbled over, releasing chaotic energy.

This scene shocked everyone here!

Immortal Palace's people came, moreover the inheritance's ancient existence that had remained dormant since the Archaic Era personally came. The copper palace was where he was laying dormant!

Could it be that he woke up? This made the hearts of others tremble!

"Should still be asleep, just coming here to wait for an opportunity. When the time comes, there will be people who will wake him." A giant speculated.

Then, Heaven Mending Sect, Western Sect, and other top level inheritances came one after another.

The Emperor Clans of the present world descended as well, triggering a great commotion.

Sin Province, Fire Province, Heaven Province, Demon Province, people from all different places arrived.

From Five Elements Province, Immortal Heavenly Deity personally came while accompanied by a group of people.

“Hao’er has entered. I wonder how he is.” Shi Hao’s mother Qing Yining was also here, her face filled with worry, but at the same time a trace of regret. She said softly, “The other Hao’er, sigh!”

Shi Ziling stood by her side. He had returned from his bitter cultivation specifically to see Qin Hao off, watching as he entered Immortal Ancient to compete against the geniuses of this world and seize natural luck.

“With two supreme being bones, he will definitely reach an undefeated level. It is because the old ancestor has used undying precious liquid on him, making both of those bones undamaged!” A few people from the Qin Clan discussed, feeling extremely confident.

It was because at the latest, it would open in three days. It was clear that the time was about to be reached.

During this period of time, there were some who obtained great natural luck, discovering undying matter, triggering a great commotion and being chased after by many supreme experts. In the end, they had no choice but to leave with a Region Shattering Symbol.

Dong!

Multicolored brilliance surged from the horizon, immortal light overflowing into the heavens. That place became more and more divine and auspicious.

Everyone knew that the Immortal Dao Flower was going to blossom!

Chapter 815 - Corner of Tomorrow

Dong!

Another heavy sound rang through the air that sounded like a drum, but it shocked one to the soul. This was related to the Immortal Dao Flower Bud, the great dao sound that it contained.

Multicolored brilliance shone resplendently like smoke, mists pervading the air, dazzling and brilliant. This entire world was dyed in this holy radiance.

The Immortal Dao Flower Bud vaguely appeared there, releasing an immortal energy that flowed through the mountains and rivers.

“How comfortable!”

Many people couldn’t help but cry out. No matter how tired they were, whether they had injuries on their bodies or not, right now, they all rushed into the sky, as if they experienced a holy cleansing.

Between these mountains and rivers, all things were covered by a thin layer of multicolored mist, making it appear even more hazy.

The plant life was fresh and clean, the leaves becoming more green, releasing a radiance. Spiritual medicines shone, medicinal fragrance so rich it wouldn't scatter. A few creatures' vitality greatly surged. All things seemed to be becoming stronger, gaining a type of life force.

"Be careful, it is extremely dangerous right now. Strange creatures might appear, so protect yourselves on your own path!"

At this crucial moment, there was a loud sound resounding through this place, reminding the fifty million supreme experts that this was something those of the past had already experienced.

Immortal Dao Flower Bud blossomed, making this uninhabited region more and more auspicious and peaceful. It chased away the most vicious creatures, as well as neutralized all types of strange dangers. However, it would, at the same time, draw some inconceivable creatures. This was even more so the case when the Immortal Flower blossomed.

Originally, once the Immortal Flower blossomed, all dao would resonate, suppress everything over the Supreme Expert Realm, but it couldn't do anything to the great holy and extraordinary existences. They would always draw creatures to them like moths to a flame.

The endless participants knew about this, because their clan's seniors had already warned them repeatedly.

Shi Hao was stupefied. He didn't know about this. Cultivators like him weren't many, but this type of reminder was still extremely useful.

"There is no need to feel nervous. Those are just a small number of creatures. All of you should head on your way, just be mindful to be a bit more careful." A few giants reassured.

All of the supreme experts were moving along, heading forward while staring at the Immortal Dao Flower at the end of the horizon. However, for them, it wasn't that far. With a single weave, they traveled out like a divine rainbow, traveling quite far out.

Aohou...

Suddenly, an enormous streak of lightning roared from the distance, shaking mountains and rivers, making many supreme experts' blood and qi roil. The surrounding uninhabited region was shaken up.

"How terrifying of a creature is this?"

Shi Hao was shocked, raising his head to look into the distance.

There was an enormous figure in the heavens, its entire body covered in red hair, and blood colored radiance made it so one couldn't make out its true appearance. The blood colored hair was incomparably thick, making it hard to tell if it was a person or beast.

It was quite malevolent, its aura astonishing. He had never encountered a creature like this that gave him such an uncomfortable feeling. It was strange and ominous, making one's soul tremble.

Below it, the grass and trees became dim.

Within a large region, quite a few supreme experts were suppressed to the point where they couldn't move a single step. Their chests felt heavy, feeling extremely suffocated.

Hou...

The scarlet furred creature with ominous blood colored radiance swirling around its body roared, opening its bloody mouth towards the Immortal Dao Flower Bud, actually intending to devour it.

At this moment, forget about those participating, even the great figures in the distance couldn't help but feel shocked. This thing was so powerful, seemingly quite sinister as well.

Bo!

The flower bud released a sound, as well as a strand of auspicious light. It was as if sunlight illuminated ice and snow, scattering the strange energy.

This enormous creature released a cry, its opened mouth unexpectedly spitting out black-colored blood before retreating unwillingly, thus disappearing from this place.

Everyone released a breath of relief. This thing was too powerful. If it displayed its might, it would definitely be a great disaster!

By the horizon, a light sound rang through the air again. There were flower petals that were blossoming, auspicious radiance surging into the heavens, surrounding heaven and earth, making this place more and more magnificent and unordinary.

After a long time had passed, no one said anything, only silently staring forward vigilantly.

However, this path was quite peaceful. Many people selected good positions. They then stopped, quietly waiting for the flower to completely blossom.

Another hour passed. From time to time, sounds of the flower opening could be heard. Flower petals were appearing one after another, a total of three thousand of them, each representing a few great dao of the heavens.

At the same time, large amounts of rain scattered downwards, sparking and translucent. When one tried to reach out their hand to touch it, they unexpectedly weren't able to catch it, only feeling a bit of comfortable warmth.

Outside, all of the sect masters were incredibly envious, and a few individuals without much life left even trembled slightly, truly wishing that they could barge in and be in their place.

These fifty million supreme experts, regardless of whether they could enter Immortal Ancient or not, just being able to obtain what they received right now made all of their efforts worth it. This was a rain of light that contained immortal dao energy. At the very least, it would add a hundred years of life for every person here.

Without even doing anything, just taking a walk through this place resulted in this type of opportunity, it truly made others envious.

Towards these extremely young supreme experts, it might not be much, but for those ancient existences, it was extremely precious, worth exchanging for with divine objects.

Life would always reach its end, and when that came, the precious medicines would become useless for those sect masters. Only these types of special matter would work.

"Sigh!" A soft sigh rang through the air, sounding from within a purple golden emperor carriage. It was pulled by nine divine birds that looked like purple phoenixes. It released hazy chaotic energy. n)/Ⓢ-/v/-e)-L(/&//l.-n

Everyone's minds trembled. This was the war chariot of one of the present world's Emperor Clans!

"These young heroes have peered into a strand of heavenly secret. Perhaps the day will come when even we will roar towards the heavens for a few extra years of time, or even a few more months of time. These hundred years might not seem all that precious now, but once that day descends, things might not be the same."

This was a deep and remote voice, one that carried melancholy.

"Is that day coming soon?" Someone said softly, similarly a great sect's master, his heart feeling uneasy. So many people came this time, all because everyone sensed something.

"Did something happen by the desolate border?" A snow-white old turtle spoke, suspending in the void.

Everyone's hearts jumped. This was one of the higher realms' most ancient creatures, his vitality long lasting, his age terrifyingly great. Even it came!

There were many sect masters who weren't clear on the details regarding what it spoke about. Only a few experts from the most ancient inheritances' pupils shrunk, their hearts feeling shock.

"Some undying matter, even though sparse, can be transferred over and distributed throughout the higher realms, thus allowing all cultivators to live longer. If the day comes when those things no longer appear, what will happen?" Heavenly Country's lord was exuding a bloody energy, sitting on a bleeding war chariot as he spoke. It made everyone shiver inwardly. He then continued, "When that time comes, man will eat man, creature will eat creature. All things will wither. This will be the most common sight."

These were bloody words, making many people's fine hairs stand on end. If that day truly comes, this lord of Heavenly Country would definitely be a great disaster.

At the same time, many people shuddered. The first time they received this type of information, the lives of the cultivators of the higher realms were all quite long. Could it be that this wasn't a natural phenomenon?

There was actually... another reason!

"If this world dries up, if we sever our relationship with that place, the slight amount of undying matter unable to cross over, then even the most powerful of us wouldn't live past ten or twenty thousand years."

Western Sect's master sighed softly. He had cultivated the Six Zhang Golden Body, but he was different from ordinary creatures. He looked like he was cast from gold, his precious image dignified, one of the higher realms' most powerful individuals.

Western Sect's inheritance was related to the ancient era's cultivator 'Gu Seng'. Rumors had it that they excavated great ruins, and thus, not only was this sect strengthened, they even learned of many secrets.

"Strive to cross!"

These words sounded from Immortal Palace's direction. Within that ancient copper palace slept their sect's ferocious individual from a past era. He was powerful to an unestimatable degree.

Right now, even these sect masters were like this, let alone the others.

"How could this be? Ordinarily, is our life force extremely little? Not even the most powerful individual able to live past ten or twenty thousand years of age?" Many people refused to believe this.

Even a few heavenly deities were shaken up. They looked towards their respective sects' sect masters. These news were too shocking. At first, they were only startled, but as it went on, they felt more and more terrified.

One had to understand that there were many powerful experts in the present world, all of them from the Archaic Era, any random one over millions of years old. None of those sect masters died prematurely.

Even the worst off could live for hundreds of thousands of years!

Right now, someone suddenly told them that in the future, these higher realms' most powerful creatures might not live longer than ten or twenty thousand years. How could this not leave them terrified and shaken up?

If this was the case for the most powerful creatures, then what about heavenly deities?

Then what about the supreme experts even closer to the bottom?

This was unimaginable!

When the time came, how many years would they be able to live?!

"Immortal Dao Flower Bud, three thousand petals will all be released, exhausting everything it has. This era will reach its final stages, and that day will perhaps... not be too far off." A woman within a silver war chariot spoke with unwillingness. There was a type of great regret that seemed to contain the vicissitudes of time.

This was the war chariot of one of the present age's Emperor Clan's chariots.

These inheritances spoke one after another, proving that this was not some empty words. They were all worried.

"The future is unpredictable, but we can still see a corner of it. We need to make preparations ahead of time." Someone said.

“This shouldn’t be the case! It cannot be allowed to be like this!” Someone released a low roar, an ancient sect master. His face distorted, unable to remain calm.

Everyone quickly understood that those that had survived from the Archaic Era were the most shaken, because they had already completed most of the life cycle, not having much life left to begin with.

If that type of thing happened, then how many years would they even have left?

This wasn’t all. True deities, Divine Flame Realm experts, and others, this was true for them as well. Unless they were still young themselves, there would only be ominous things waiting for them.

One could infer that once that day arrived, quite a people wouldn’t be able to live past a few years before withering away with the era!

“This is still not the most terrifying part. The scariest thing is that when that time comes, there will be the greatest battle of history... one that will arrive from the desolate border. The flames of war will spread and engulf the three thousand provinces!”

An ancient vine spoke. It extended its branches, releasing azure radiance. However, regardless, it was too old, about to erode away.

Everyone felt chills run down their bodies, especially the younger generation experts. They all stood there in a stupor. This was the corner of the future the most powerful experts of the higher realms foresaw? It was just too terrifying.

“The future is full of variables, impossible to predict. Nothing is certain. Everyone, please do not treat everything as the truth.” Someone spoke, easing the atmosphere a bit.

“Hurry and look, what is that?!” Someone cried out loudly, his voice trembling and full of shock, finding this difficult to believe.

When everyone heard this, they all quickly turned their heads to look into the uninhabited region.

“What, that’s a...” Even the sect leader of a large sect trembled, crying out with alarm. However, he didn’t dare speak that name that left one in reverence.

“Even this type of existence has appeared?!” Sky Severing Sect Master’s black hair scattered down, feeling deeply shocked. He quickly formed an imprint, cutting a piece of heaven and earth source to acquire that aura and confirm if it was real.

## Chapter 816 - Immortal Dao Flower Blossoms

It was an enormous creature that stretched unendingly like a mountain ridge. It moved between heaven and earth, swimming through the void in a magnificent manner, bringing with it heavenly overflowing heavenly deity splendor.

The void split because of it, splitting to two sides. It was as if a great sea was surging.

“A True Dragon!”

Within the restricted land, several tens of millions of supreme experts became petrified. They stood in place, staring at the sky in a stupor. How could this type of creature appear?

One of the vicious ten, who didn't know this in the world?

However, didn't it disappear? Even if there were one or two this species left, it shouldn't be in the three thousand provinces, right?

Correct, everyone woke up. This was the vast and boundless uninhabited region. Perhaps there was a True Dragon egg left behind by the Immortal Ancient that hatched. After all, there were people from past generations who had seen it before, unfortunately unable to bring it out.

"Heavens, this is a dragon!" Everyone widened their eyes. This was a legend, a truly legendary creature!

The sky became unstable. This dragon was too long and incomparably thick. It passed over mountain ridges, its body stretching outwards as it arrived. The aura it released made all of them tremble with fear. n).o-)V((e/-ℓ-)-ℓ-)-l-(n

On its head were a pair of forked horns, sparkling and dazzling, tearing through the void as it flew over. Its eyes were like suns, the radiance they released blinding and penetrating. On the enormous body, scales glistened, flickering with gorgeous splendor, as if they were made of immortal gold. The dragon's claws were sharp, its arms thick. If this creature released an attack with those claws, a great hole might even appear between heaven and earth!

This triggered a huge uproar!

An expert like this appeared, leaving everyone shocked.

Hu...

Great winds stirred about, uprooting plants and snapping trees. This creature passed over many mountain ranges heading towards the Immortal Dao Flower Bud. The blossoming of this Immortal Flower was the main reason for its appearance. It came for Immortal Ancient.

A bit of gentle radiance rippled outwards, eventually becoming like an ocean wave, stopping this creature and pushing it out.

Holy radiance surged in this place. One could vaguely make out blood dripping down. Even though it was not much, it still shocked many people. Even this type of creature was injured?

Immediately afterwards, everyone's eyes burned, releasing radiance like torches. They stared at that region, all of them feeling a powerful urge to rush over.

"Dragon blood, heavens! A bit of True Dragon blood dropped down!" A supreme expert released a low shout. He clenched his fist, truly wanting to immediately rush over.

Unfortunately, this place was divided into a total of three thousand regions, and there was a transparent realm wall separating each region. Even if their eyes were burning with desire, they still couldn't go there, let alone the fact that there were definitely going to be the most powerful individuals there. Normal supreme experts would just be throwing their lives away.

"It truly is a place of great natural luck, making one go mad!"

A few exceptional talents roared. Even those as aloof as themselves couldn't sit still, all of them rising up to penetrate the realm wall between regions to fight over it.

Shi Hao sighed. He was too unlucky, because the distance to that place was definitely not close, with several regions between them. By the time he got there, it would already be too late.

Only those nearby were excited and stirred up. They had a chance of seizing it!

"Hahaha..." In the region where dragon blood dropped, someone laughed loudly, his behavior brash and incomparably carefree.

This was a male with blue hair and a handsome face that was bewitching and unusual. He was extremely strong. The aura he released made the supreme experts of this province tremble, not daring to approach.

"Natural luck dropped down from the sky, Dragon Blood belongs to me, Heavenly Evil Ge Qian, who dares to compete against me over it?"

His stature was tall and sturdy, his skin snow white like jade. Sinister energy shocked the heavens, his blue hair surging violently like ocean waves, releasing a wave of power that even made mountains tremble.

Heavenly Evil, Heavenly Ruler... in the Supreme Expert Realm, creatures who dared to give themselves the 'heaven' character were all outstanding talents among young supreme beings, invincible among their peers.

It was clear that this person was extremely terrifying. When he spoke, all sides were silent.

He quickly rushed towards the mountain ridge where the dragon blood fell, his eyes erupting with dazzling blue radiance, directly blasting through many mountain rocks. They weren't able to hinder his advance.

However, his excitement didn't last long before draconic cries sounded. The enormous monster that was originally flying away unexpectedly returned, circling around this place and accumulating divine force. It was going to attack that Immortal Dao Flower Bud again.

His expression immediately changed. The shadow cast down from the heavens already drowned him out. This was especially the case when the colossus gave him a cold glance.

Those cold pupils weren't much smaller than mountain peaks, leaving him so horrified that his entire body went cold, immediately stopping his steps and not daring to get any closer.

He clenched his teeth, in the end resolutely backing off, unexpectedly giving up on the dragon blood! He wasn't even that far off!

"There are things one can go for, and things one cannot. One has to understand when to advance and retreat, knowing what is fortune and what is disaster. This is the true fundamental qualities of a supreme heavenly talent." He consoled himself like this.

It was clear that this was an unordinary individual. He not only stopped himself under this kind of situation, he also directly blasted through the realm wall and left, not even turning his head around to wait for another opportunity.

It was because he had a feeling that it was still best to leave.

Ao...

A draconic cry sounded, shaking mountains and rivers. That enormous creature that was larger than a mountain ridge began to swoop down again to close in on that Immortal Dao Flower Bud. Even though it suffered a great restriction and was heavily injured, it still didn't give up.

When it left, many figures appeared in that region. The nearby experts slaughtered their way over, some of them heaven warping experts that broke through realm walls!

They were exceptional talents, these peak level figures were going to fight over the dragon blood!

"This is a natural luck that I had encountered. Are you all in that much of a rush to be reincarnated? You all can go fight over it then." Heavenly Evil Ge Qian turned around and gave that area a look, but he still didn't go back.

He moved quickly, continuously passing through several realm walls before descending.

"Are there exceptional talents here? If you all rely on me, and are powerful enough, I'll bring you into Immortal Ancient." Ge Qian shouted.

Shi Hao was speechless. The two of them weren't that far from each other. Could it be that the first battle was about to start?

It was because this individual's sinister energy surged into the heavens, clearly an individual with great self-confidence. Meanwhile, Shi Hao was definitely not someone who would bow his head to another.

Heavenly Evil Ge Qian could naturally sense that Shi Hao was powerful, his divine senses extraordinary. He wanted to take on a few subordinates with powerful strength so that it would be easier to survive after entering Immortal Ancient.

In reality, in the region he came in from, several of the most powerful individuals had already been convinced.

Hong!

Heavenly evil energy overflowed into the heavens, angry winds swept towards the clouds. Ge Qian stared at Shi Hao, the light shining from his deep blue pupils flying several li. He walked over step by step, incomparably sinister as he said, "I am someone extremely easy to associate with, so just follow me."

Shi Hao didn't display contempt. Even though he had never heard of this individual before, he was definitely powerful, definitely the young supreme being of a few provinces. He might be greater than all of his opponents!

"I am Heavenly Evil. Following me is your glory." The blue haired youth spoke rather self-importantly.

Shi Hao was moved. Heavenly Evil, Heavenly Ruler... these were definitely the greatest titles. Those that dared to call themselves like this in the Supreme Expert Realm definitely exceeded one's imagination.

Ao...

Suddenly, a dragon cried out miserably, draconic blood splashing out again. It was no match for the flower bud of three thousand great dao, once again sent flying outwards.

"Immortal Ancient, I will enter it!"

This was a boundless divine will. It roared angrily, but it didn't attack viciously, because it suffered quite a great injury. It left towards the distance.

In addition, at its body's sides, a pair of wings unexpectedly appeared that shone with brilliance, covering the sky and sun. When they moved, the sky began to split apart.

"This is not one of the vicious ten!"

Everyone was sure of it, because the True Dragon didn't have wings. It didn't have this type of form.

Everyone knew that it suffered tremendous injuries, unexpectedly needing to rely on the wings at its side to leave. One could imagine just how severe its injuries were.

The moment it ultimately left, it released a roar. Wherever it passed, all of the cultivators in its path were targeted. It was releasing draconic might, as well as releasing energy, imprisoning heaven and earth.

It was venting its anger!

Even someone as powerful as Heavenly Evil Ge Qian couldn't move, revealing a look of shock. He cursed his bad luck inwardly. He ended up suffering even after hiding all the way here.

However, the most inconceivable thing happened. A large black expanse appeared in the sky; something was going to fall down.

"What is falling down? Dragon scales? No, large amounts of dragon blood?!"

In the distance, many people were envious, shouting because they couldn't see too clearly since they were far away. Meanwhile, the experts of all regions began to cross realm borders, rushing over with great speed.

Only the creatures that were adjacent to these regions were stupefied. That was... a fucking dragon turd!

This was especially the case when Heavenly Evil Ge Qian raised his head to look outwards. When he saw what it was, his face went pale, but it was hard for his body to move right now.

This entire region was restricted by the dragon's energy.

Even Shi Hao was becoming nervous. From the sky... dragon feces were falling, dropping right at them!

"Motherfucking..." Many cultivators couldn't help but curse outwards.

A vicious dragon like this was like an unmatched expert in their eyes, yet before leaving, it did something like this, it really did whatever it wished...

"Don't!" Heavenly Evil Ge Qian cried out miserably.

"Save me!" This was the first time Shi Hao felt so terrified as well. In the end, he managed to move his fingers with difficulty, bringing out the void halberd. His face was covered with sweat as he sliced open the void.

This was the case for Heavenly Devil as well. He moved his fingers, but the weapon he wanted to produce didn't appear in his palm. He looked at Shi Hao anxiously, eyes full of tears and excitement, hoping that he would bring him out from this place.

"I'll discuss who is going to accept who when I come back." Without even turning around, Shi Hao ran.

"No!" Ge Qian screamed miserably, his sinister but handsome face full of despair and incomparable misery. He felt extremely helpless.

This dragon dung was the size of a small mountain. It smashed into the forest, filling up a large area. Many cultivators screamed miserably, many supreme experts buried underneath.

In the distance, the various sect masters' expressions were grave. That wasn't a True Dragon, but it wasn't far from it. It was definitely powerful to a heaven defying level.

"Winged Dragon!" Sky Severing Sect Master said.

However, none of them expected such a powerful creature to do such an absurd thing.

"It doesn't seem right. Did this dragon do this deliberately to leave behind a mark on a few people's bodies, using them in the future as coordinates to enter Immortal Ancient?"

...

Within the restricted region, the Winged Dragon left into the distance. A group of people rushed out from this mountain of dragon poop, the one in the lead precisely Heavenly Evil.

"Ah ah ah..." He cried out endlessly.

Shi Hao came back and looked at him, saying, "You want me to be in your care?"

"In my care my ass! With how I look now, being looked at by all of you like this day after day, what kind of face would I have left? None of you saw me here! If you say anything, I'll kill you all!" Heavenly Evil Ge Qian ran away. He was simply going mad, immediately diving into a lake.

The exceptional young supreme beings that broke through realm walls to hurry over were stupefied. They originally thought that it was some type of great natural luck, yet in the end, they saw this type of scene.

"You know, there is no need to wash it away. This dragon feces is a type of great medicine that can be refined into precious pills." A supreme expert that had just rushed over was smiling as he said to the people that were freeing themselves.

This was a medicinal master, as well as an exceptional talent!

The others were stupefied, while those that had just freed themselves were about to go mad.

“Don’t force me to kill you!” Heavenly Evil released vicious words from the distance. He directly ran, not wanting others to see him.

Dong!

The most resplendent light erupted from the horizon. Auspicious multicolored light overflowed into the heavens. In the end, the expanse of flower petals finally opened, the Immortal Dao Flower Bud finally fully blooming.

In that instant, fragrance surged into the sky. Three thousand golden streaks of light poured over, leading to three thousand regions. All of the supreme experts went mad, all of them rushing up.

Unfortunately, many geniuses were blasted flying as soon as they got closer, unable to ascend.

With a shua sound, a divine rainbow tore through the sky. Someone stepped on the golden light great dao, the first one to be surrounded by immortal mist and absorbed into the gate on the flower petal.

“It’s the one that was covered in dragon poop, that Heavenly Evil!”

Many supreme experts were upset.

At this moment, everyone’s expressions changed. This was true for those ancient freaks as well, their faces extremely gloomy. It was because the one that rushed over first would definitely have the greatest opportunities.

Hong!

In the end, roughly five million cultivators were surrounded by golden light, rushing towards the immortal dao flower, successfully entering and approaching Immortal Ancient.”

“Six Crown King, Immortal Palace’s inheritor, Gu Jianyun, Jun Dao... I saw them. They were among the first ones that entered!”

In the distance, cultivators shouted loudly.

A few sect masters’ eyes flickered. They were all carefully watching everything!

Apart from this, there was a Winged Dragon whose eyes were deep, watching the flower bud nearby in the uninhabited region. Meanwhile, at his side was a large group of terrifying creatures.

“Who is going to reign supreme? The battle of three thousand province’s geniuses has started!” Someone shouted loudly.

Chapter 817 - Immortal Ancient

“Wuwu...” The bugle horn sounded, long, drawn out, and muffled, making the entire world resonate in response. It was as if it sounded from the ancient past, sounding all the way to the present world.

This was the bugle horn of the higher realms, rumored to be a dragon horn. A few ancient sects wielded it in turn. With a single blow, it would resound through all three thousand provinces, only sounding during the greatest events.

Today was clearly a day that would be recorded in history. The Immortal Dao Flower Bud was blossoming for the last time, bringing this era to a close!

Within ancient lands, heavens above, three thousand flower petals bloomed, shining with incomparable brilliance. They were so beautiful that it left everyone's eyes dazzled. Everyone stared in that direction in a stupefied manner.

This was the evolution of the dao. The flower petals had a type of dao planted within them that, since the ancient times until now, continuously blossomed. There were two thousand nine hundred and ninety-nine flower petals that had been seen by everyone before.

Today, the three thousandth flower petal would appear for the first time, dazzling and astonishing, bright colors misty.

Forget about experts at the Divine Flame or True Self Realm, even the giants that had lived for millions of years narrowed their eyes, watching this scene carefully.

If they could comprehend through it, who knows, they might even obtain a type of rebirth!

This flower was extremely massive. Every single flower petal supported a passageway, and currently, it truly appeared, wrapping around millions of cultivators, sending them into the flower petals and bringing them through their respective immortal gates.

Everyone's expression was serious. They silently proceeded, continuously analyzing their surroundings. It was quite easy to comprehend the dao here. If they were able to gain something, they would reap its benefits for the rest of their lives.

A rain of light scattered down, each speck shining and sparkling. The radiance was brightly colored and misty; this was the rain and dew of dao!

Someone couldn't hold it in anymore, crying out loudly from shock. It was because they unexpectedly gained enlightenment here, breaking through the Supreme Expert Realm and lit a divine flame, ignited from the crown of the head down to the souls of the feet.

Peng!

As a result, more than a hundred thousand people were swept out from the path formed from holy radiance, leaving this place and falling down onto the great earth below.

"No!" These people cried out, feeling incomparably upset and full of unwillingness. They were so close to the immortal gate, about to enter Immortal Ancient, yet in the end, they were swept out due to breaking through.

This woke a few people up, reminding them that they had to be careful.

"What a pity!" In the distance, a few big names sighed lightly. There were even some of them whose faces fell when they saw their own disciples falling out, missing out on this tremendous opportunity.

The Immortal Flower bloomed, every petal able to send roughly a thousand people. One could imagine how enormous it was.

Meanwhile, on every single sparkling petal, there was a gate of light formed from the great dao suffused with a rain of light. These gates connected to an ancient secret earth.

There were a few who were luckier. As soon as they wanted to ignite a divine flame, they directly cried out and threw themselves into the gate, continuing their comprehension after entering inside.

“Hurry and go, don’t waste time here. There is a great dao inside to comprehend as well, possibly even more complete.” Someone said softly, telling his companions.

The three thousand flower petals were slender and brilliant, as if they were stellar streams. When they converged like this, not only did they give off a sense of beauty, there was a type of simple and perfect great dao.

They made this place even more dazzling. All types of radiance danced about, and divine rainbows descended like waterfalls. This was especially the case with the stamen, which poured out with even more divine radiance. The scene was extremely shocking.

Everyone hurried inside, and now, only a few people were left.

Shi Hao was included among them. He looked left and right, actually trying to head towards the stamen. In the end, he discovered that there was no door there, so he could only give up.

Later on, he focused his attention on the three thousandth flower petal, as well as the one that bloomed last. He suddenly leapt up, actually about to rush over.

Regretfully, an enormous force swept out, almost flipping him over. It brought him back, returning him to his original location.

“The newly blossomed petal should be more in harmony with this world. It is worth comprehending. I have to go over!”

Shi Hao’s entire body shone, trying once again, erupting with shocking potential to cross the void. In the end, he failed, sent falling back by another wave of great dao energy.

After trying several times, he could only give up. He wanted to take a look around the other paths, but it seemed like it wouldn’t work. He had no choice but to continue forward.

Many people saw this scene, and they all became speechless. What inheritance was this disciple from? He was always looking for trouble. Others were worried about not being able to enter, while he was bouncing about outside.

When Shi Hao entered, the three thousand gates all closed, thus disappearing.

He was, without a doubt, the last person to enter.

“This one... should be the one with the lowest amount of potential, right?” Outside, a few people spoke softly.

It was because this process was paid close attention to. The hundred thousand that entered first generally included all heavenly talents. Even if there were exceptions, they wouldn't be behind those hundred thousand places.

The remaining people were the ones with inferior talent, entering later.

"This... he purposely delayed it, or else he might not have entered last. However, whether he could enter the ranks of heavenly talents, that is hard to say."

"Definitely a disciple from some small inheritance who only barely succeeded to go up. Otherwise, how could he not know that he has to strive to be the first?" Someone shook their head.

Even though he was the last one, Shi Hao still drew the attention of quite a few people, becoming the topic of some discussions. However, they weren't words of praise.

"Fellow dao friends, please work together to produce the scene within the three thousand petals." A sect master spoke.

There was no way they could activate it every day, because the consumption would be too great. However, they had to see the action of the first day, whether there were any unforeseen events.

After all, this was the last time 'Immortal Ancient' would open. No one could say for sure if some issues might arise.

Hong!

In the distant horizon, a group of sect masters activated their magic power. Heaven and earth immediately seemed to have been ignited. Resplendent light surged, pouring into the restricted area like a sea.

The three thousand flower petals immediately flickered, absorbing the divine force. It first became brilliant, and then they illuminated with brilliance like mirrors, reflecting all types of scenes.

Within Immortal Ancient, the starting ground.

There were paths made of stone steps, every one of them filled with wisps of chaotic energy. The stone road continued to extend forward, reaching outwards, as if they were climbing a tall slope. n).o-)V((e/-  
ℓ-)ℓ-)l-(n

Without a doubt, these were still the three thousand stone step paths.

Right now, every single path had many people, all of them arduously advancing, walking forward.

Close to five million supreme experts were climbing the stone steps, none of them speaking. They all wanted to be the first ones to rush up that tall slope.

"There's no abnormalities. It is still like in the past. These three thousand stone step paths carry different great dao. While walking on them, one will be under tremendous pressure." A sect master spoke.

This path did not change since the ancient past.

Then, many sect masters worked together, operating it again to reflect the scenery at the ends of the stone stairs.

That area was brilliant, like a world of fantasy. Only, it was too blurry, and if supreme experts didn't enter, it would be difficult for them to probe around.

"When people start entering this gorgeous world, their names would immediately be written on the flower petals. Then, we can observe those people, as well as their surroundings."

The sect masters of the higher realms weren't in a rush, because they were all experienced. There might not be anyone who will make it through within ten days, because the stone stairs were hard to cross.

However, this path wouldn't cause trouble for the supreme experts. Everyone will be allowed to pass. Of course, this meant that there were those that would arrive earlier, so this was something to be paid close attention to.

"What is that fella doing?"

A flower petal reflected the scene of one of the stone paths. A supreme expert unexpectedly sat down, propped up his chin, observing everyone from the back.

"The youth that went in last." Someone said.

Even though there was chaotic energy swirling about, only able to see his back, they still wouldn't mistake him for someone else. This drew quite a few people's attention.

"He stood up. No, sat down again. He is... digging up the bluestone staircase!" A group of people were stupefied.

"Does that fella think there are some treasures there or something? What kind of joke is this?!"

Inside Immortal Ancient, on the bluestone staircase.

Mists pervaded the air here. Great dao aura was thick, and at the same time, there was a tremendous pressure. The further one went, the more difficult it would become.

Shi Hao tapped and struck here and there, squatting at the back. He was studying this blue stone, seeing if there was anything special about them, whether there were any great dao patterns.

Unfortunately, he was disappointed, unable to see any clear patterns. However, if he comprehended here, he would still touch upon some natural law fragments.

He stood up, looked at the wide bluestone staircase, and then he looked at the numerous figures. He then frowned.

"Will I be able to get onto other bluestone staircases this time?"

After silently thinking here for a moment, he decided he wanted to give it a try, see if the other paths had any clear difference.

Of course, the main thing was that he was still thinking about the immortal gate that opened on the final flower petal, as well as the final bluestone stair path.

Peng!

He took action, about to penetrate the realm walls of different paths. This time, he succeeded, because the power separating these staircases wasn't that powerful.

Shi Hao was quite satisfied. He stepped onto another path. After stopping for a bit here, he broke another realm wall, heading towards the path that was connected to the last flower petal.

Just like that, he continuously crossed over. He finally arrived.

"What is he doing?"

In the outside world, many people were suspicious. This fella was calmly doing pointless things. Why was he even bothering?

Unfortunately, chaotic energy surged. Even those as powerful as them could only see a blurry outline, unable to see his true appearance.

"If we can find out his name, we could write it on the flower petal and see the truth."

"Forget it, these bluestone paths have been the same since the ancient times. There's nothing special about them. It isn't worth it to waste so much energy on observing him." Someone shook their head.

If one wanted to observe a single person, they needed to expend a large amount of magical force to write their name on the flower petal. Only then would a clear image appear. However, the exhaustion would be tremendous.

As a result, until now, no one even wrote down Six Crown King Ning Chuan, Immortal Palace inheritor, or other ancient freaks' names, waiting until they entered that brightly colored world.

Soon after, the day was about to end. Everyone, despite working together, felt like they couldn't take it any longer. They no longer sent out magical force, and as a result, the three thousand flower petals grew dim.

In fact, no one would be infusing magical force for the next six or seven days. It was because they all knew that these supreme experts were all walking along the bluestone paths. In history, even the fastest used up ten days before walking out.

During this period of time, outside the uninhabited region, three thousand enormous jade monuments were erected. They were sparkling and translucent, glossy like a mirror.

It was clear that every single monument corresponded to a flower petal.

It was because only powerful figures could use magical force to reveal some circumstances from a flower petal. The other comparatively weaker cultivators without enough cultivation couldn't see it.

When the stone monument towered here, the sect masters and others could transfer the scenes from the flower petals over, reflecting them onto the monuments so everyone could see as well.

On the ninth day, the sect masters activated magical force again, turning the flower petals into mirrors, reflecting the situation within Immortal Ancient.

“Yi, how fast, someone already reached the end, about to enter the brightly colored world, a day faster than in the past!”

Apart from this, they saw a great battle as well. At the ends of a few bluestone paths, divine light surged, and an intense great battle was being carried out. Killing methods were released unendingly.

“That can’t be Six Crown King Ning Chuan right? Look, that is a bracelet that turned into a dragon, fighting intensely with someone. How fierce!” Everyone sighed with astonishment.;

“Correct, it’s him!”

“Hurry, write his name on the flower petal so we can see what exactly is going on!”

A sect master took action, concentrating in meditation, using magical force to carve two characters across the endless void onto the flower petal.

Then, that flower petal clearly reflected the scene there. Sure enough, it was him!

Outside the restricted area, the enormous stone monument shone. The scenes the sect masters saw were engraved there, so everyone could see them.

“Ning Chuan is fighting a great battle against a male, but I don’t recognize him at all!”

“No, that person has a name, another ancient freak named Li Fanming. Even though he only came out once before sealing himself again, rumor has it that he killed a Four Crown King in another era.”

When everyone heard this, they couldn’t help but gasp.

Then, sect masters wrote down Immortal Palace inheritor’s name on a flower petal. To their surprise, he was also fighting a great battle, moreover an extremely intense one.

“What kind of person is that?” Many people cried out in shock. They stared at the scenery on the sparkling stone monument, revealing a look of great surprise.

Immortal Palace inheritor’s opponent was a male with heaven overflowing flames. In his hands was a corner of a divine disk. It erupted with terrifying divine might!

“Reincarnation disk... a corner of it!” A few sect masters were even shocked until they widened their eyes.

“Impossible! Even though this kind of supreme treasure is damaged, it still cannot be brought inside!” Someone shook their head, not believing this.

“That disk is a bit strange, unable to display the supreme treasure’s power. Is that why it was brought inside?”

This stone monument triggered a commotion. Many people surrounded it to watch the battle.

“Where is Ten Crown King, the one known as the most powerful supreme expert? Hurry and write his name!” Someone urged.

Soon after, a figure appeared. Only that place was extremely calm, not fighting a great battle against anyone. He continued heading forward, about to enter the brightly colored world.

“Right, wasn’t there an ancient freak that had never ignited a divine flame, using the cultivation of supreme expert to miraculously obtain the first rank? Let’s see how things are going on for him.”

Soon after, a creature appeared on an enormous monument. This scene was quite calm as well, no one competing against him. It was clear that no other creatures of similar level were on his path.

“Who is that? It seems to be the Celestial Clan’s methods!”

Everyone was suspicious. The Celestial Clan’s exceptional talent You Yu was nowhere near this powerful. This person also had world shocking divine abilities, powerful to a ridiculous level, leaving others with a feeling of disbelief.

“Don’t tell me that he was the long lost Three Stone Heavenly Ruler!” A sect master spoke.

“Hurry and write down Three Stone Heavenly Ruler's name, give it a try!" As a result, as soon as the name was finished, it reflected this individual.

It was clear to see that this was the Three Stone Heavenly Ruler that had been lost in the river of history. He unexpectedly didn’t die!

At this moment, he was fighting five young supreme beings alone, every one of them extremely terrifying. However, they were all suppressed by him!

“How formidable! Worthy of being a legendary character.”

The people here wrote down names that had dazzled the past and present one after another, revealing their current situation. After seeing them, there was none who weren’t shaken, their hearts rising and falling greatly.

“What about Huang? Where is he? What is going on with him?”

“Wu, there is that sinner’s blood descendent as well. Let’s see where he has ended up and what he is doing.”

A few sect masters spoke like this.

At the same time, from Immortal Heavenly Deity Qin Changsheng’s side, someone said softly, “Old ancestor, should we try and see if that youth of the lower realm is still alive? Recently, I heard a few secret rumors.”

## Chapter 818 - Identity Revealed

Sin, where was he, what was he doing? A group of deities cared a lot about this. They stood together, their expressions unkind. noVe/IB-1n

“He unleashed a great slaughter in Spirit Realm, massacred my sect’s disciples, killed our followers. His hand is dyed with blood. I hope he doesn’t immediately die in Immortal Ancient, instead experience repeated defeats before finally being suppressed and killed!”

Someone said. When the others heard this, they all nodded, carrying bitterness.

They came from Phantom Drake Dao Gate, Fire Cloud Cavern, Luofu True Valley and other sects. They personally experienced the battle of Spirit Realm. The sinner's blood descendent unleashed a bloodbath, leaving them humiliated and resentful.

It had already been many days since that battle, but they could still feel that type of domineeringness. True deities being killed, heavenly deities encountering disaster. That youth was like a devil king as he unleashed an absolute massacre in Spirit Realm.

When some of them thought back to that day, they couldn't help but break out into a cold shiver. The impression that youth left them with was too great! It was like a nightmare!

Fire Cloud Cavern's master was a red haired elder. His stature was small, not all that imposing, but his eyes were quite bright. They were like two bloody moons as they released radiance.

He walked out from a burning war chariot, carrying chaotic energy with him. With each step that descended, fire dao symbols would appear in his surroundings, the great dao aura world shocking.

"Sin!"

He faced the uninhabited region, activating divine force, using his hand to carve a word in the void. That sparkling flower petal became resplendent, producing great dao patterns that illuminated the heavens.

"Yi, what a resplendent name, actually harmonizing with the dao!" Someone cried out with shock. A few sect masters looked over.

At the same time, many deities and others looked towards the same monument. The images of the Immortal Dao Flower's petals were reflected here. They all revealed looks of shock.

This name was indeed a bit strange. After engraving it, the flower petal became especially brilliant. Dazzling symbols interweaved, becoming as resplendent as a sun, flourishing with radiance.

It was clear that it was more sparkling and translucent than a normal flower petal. It was extremely divine and holy.

"What is going on? Could it be that this name harmonizes with the great dao?" Many deities were stupefied. They stared at that enormous monument.

"It's the character Sin!" Apart from Fire Cloud Cavern, Luofu True Valley and other sects' cultivators, even a few great sects that were not related looked over.

"How could this character be like this?" Many people frowned, a bit confused.

One had to keep in mind that this was an impure character in the higher realms. It represented blood and guiltiness, now basically pointing at the creatures of Sin Province.

"The one that appeared is.. him."

Many people were stunned.

The monument was like a river, reflecting the true scene of Immortal Ancient. They saw a youth that was rather unhurried and calm. No one was fighting against him.

It was because he was at the very back, not moving forward, instead crossing realms.

“The one that lagged in the back!”

Quite a few people knew that this was the one that entered the immortal gate and stepped on the bluestone stairs last, the youth who even wanted to pluck out a few pieces of stone.

He was quite different from the others, his arms on his back, continuously going from one realm wall to the next. He would cross over to another realm, and after stopping and taking some time to comprehend the dao there, he would then break through another realm wall.

Other people were moving forward, while he was moving horizontally.

“Sinner’s blood descendent!”

Many people clenched their teeth. Phantom Drake Dao Gate’s people displayed the most vicious expressions. This youth’s actions were tyrannical, killing many from their sect, and even a heavenly deity was ruined. He was struck by a Soul Shattering Needle, encountering an absolute disaster.

At this point, he was basically a living corpse. Even with Phantom Drake Dao Master’s personal treatment, he hadn’t woken up.

Of course, this was also a disaster they brought onto themselves. If they didn’t refine those demonic needles to be so vicious, then later on having them seized by the youth and have them thrown right back, how could this have happened?

“What is he doing?”

This fella was too strange, unexpectedly not in a hurry to move forward, instead, roaming about at the back, analyzing things step by step and silently comprehending. Could it be that he truly wanted to comprehend the three thousand stone paths?

Suddenly, that youth grinned towards everyone, releasing a smile that was especially radiant. His teeth were pure white, his eyes clear. He was like the boy next door.

“Hateful, repulsive, disgraceful!”

Phantom Drake Dao Gate, Luofu True Valley’s people couldn’t help but shout outwards. This little monster’s hands were dyed with blood, yet he was smiling so brilliantly.

“That youth is too sharp, his divine senses unimaginably powerful, not weaker than those ancient freaks.” A sect master spoke.

When Immortal Ancient was observed through the flower petals, the most talented geniuses would sense something. It was because the light the Immortal Dao Flower’s petals displayed, although weak, could still be captured by their senses.

Was this a silent provocation.

Suddenly, someone cried out in alarm. In the distance, a monument released heaven reaching light. That was biting cold sword intent, as if chaotic light was erupting. It was clearly inside Immortal Ancient, yet it was as if it seeped out from the monument and shone over here.

"Who is that little fatty? He killed Earth Demon Sect's number one young expert with a single move!"

Earth Demon Sect originally wanted to see how their own clan's hero was doing, yet in the end, he saw this kind of scene. The others naturally saw it as well, as a result calling out like this.

On that path was a chubby youth. He looked rather simple and honest, however, his body suddenly erupted with hundreds of streaks of sword energy, shocking everyone here.

"He took action again!"

Everyone discovered with shock that Earth Demon Sect wasn't the only youth that took action. There were several well known heroic experts that were there as well, but under the following sword light, heads tumbled on the ground.

"This youngster is too formidable, that's... the higher realms' Third Killing Formation!" Someone's expression changed.

Third Killing Formation! Many ancient inheritances' eyes became red. This killing formation was too well known, shocking past and present. It was unexpectedly carved within the body of that youngster!

One has to understand that the First Killing Formation had never appeared, while the Second Killing Formation was pretty much lost in inheritance. The Third Killing Formation's power was ridiculously powerful, and once it was arranged, it could kill a sect master.

It was rumored that it was a killing formation from primal chaos, one that was born when the sky first opened.

"His name is Cao Yusheng, he previously made an appearance in Origin Sky Secret Realm. He has traveled quite closely with Huang." Someone spoke, speaking his name.

Xiu!

Another streak of dazzling light flew out. Those that fought against Cao Yusheng were all wiped out, and no one else dared to take action against him. That stone staircase became 'peaceful'. He walked forward alone.

"Hurry up and see where Huang is!"

When they saw how, even though this little fatty looked harmless, his methods were so vicious, displaying his might here, they naturally wanted to know how Huang, who had previously joined hands with him was doing.

This time, it wasn't a single sect master that took action. It was because Huang had stirred up too much chaos.

"Huang!"

Underworld Earth's master took action. A truly terrifying figure began to carve a name in the void. In his surroundings were endless white bones as well as black mist.

"Yi, something's wrong. Did you write the wrong name? Why is it still him?" Everyone was stupefied, feeling shocked.

When the name Huang appeared on the flower petal, it displayed the true scene. The monuments displayed the same scene. A youth appeared, smiling like a flower as he faced everyone.

He clearly sensed something, realizing that he was being inspected, so he took the initiative to look towards the void towards everyone.

Dark lines appeared on a few people's faces. Even though other freaks might feel something, they would definitely ignore it. This fella was too irritating.

"Isn't that the sinner's blood descendant? Why did he appear on the scene?"

"Right, previously, he had slaughtered Fire Cloud Cavern and Phantom Drake Dao Gate's people. Rumor has it that he even killed a heavenly deity."

Someone uncovered this scar, making the faces of a few great sects' people fall, their hearts leak blood.

"Don't tell me that Sin is Huang, Huang is Sin!" Someone said.

After a momentary silence, discussions arose everywhere. Everyone seemed to have realized that this should be the case. He had two great identities!

"Heavens! Huang is Sin, Sin is Huang! No wonder I always felt like he came out from nowhere. He actually turned into two people!"

When the truth came out, this place could not calm down again, triggering a huge uproar. The cultivators of all sects were shocked.

"This..."

Phantom Drake Dao Gate, Fire Cloud Cavern, Luofu True Valley and other sects were seething with anger, their faces ashen. Only now did they know the true identity of their enemy.

"It truly is preposterous!" A few heavenly deities couldn't sit still, truly wishing to immediately enter Immortal Ancient to kill him.

This was especially the case when they saw that youth's brilliant smile. It was almost like a type of mockery towards them, making the root of their teeth sore!

Correct, that was definitely mockery. It was done deliberately, facing the entire crowd.

"Angering me to death!" Someone roared with fury.

Huang, Supreme Being Dao Rite's disciple, sinner's blood descendent, any one of these identities was enough to shake ten provinces. He had done too many ridiculous things, his name shaking every sect.

These... were unexpectedly all the same person!

Celestial Clan, Underworld Clan, Immortal Palace, Fire Cloud Cavern... there were too many people who couldn't calm down. This youth had two identities, both of them extremely sinister.

This place couldn't calm down for a long time. Everyone stared at that monument, wanting to see him to the end.

Only after a while had passed did a cry of surprise sound from a stone monument. Only then was this strange atmosphere dispelled.

“A powerful expert, ridiculously powerful, he... has dual-pupils!”

“What? Where?!”

Many experts swarmed over to stare at that monument. They were all shaken. That youth was too powerful, his eyes releasing two beams of light, sweeping through his enemies.

That was a heroic youth, eyes more resplendent than a sun. He didn’t take action at all, only using his eyes to kill all enemies.

The creatures that surrounding him numbered over ten, among them including powerful experts from great provinces. They were recognized by others.

“Golden Giant, Three-Headed Underworld Hound, Ifrit, Hidden Cloud Clan’s holy lady...”

When these clans were named, everyone became shaken up.

Hong!

An enormous sound rang through the air. Dual-pupils opened up heaven and earth. Those people all fell into the void, crushed to pieces. They were completely erased!

A group of experts were killed. This was incomparably shocking!

“Too powerful. Who is he?”

“If I am not mistaken, he should be the dual-pupil user from Heavenfall Academy. Rumor has it that he came from the lower realm!”

Soon after, the dual-pupiled user’s identity was revealed, shocking a group of people. Not even the great sects could remain calm, because the dual-pupil had a great reputation since the ancient past, rumored to be an undefeated legend!

“Dual-pupils are indeed ridiculously powerful. He was personally guided by Heavenfall Province’s old monster, passing down everything he knew. However, rumor has it that he was defeated once before.”

“What? Who did he lose to?” Many people’s expressions changed. They all wanted to know.

“In the lower realm, to a youth name Shi Hao. The two carried out a world shocking great confrontation. The dual-pupils was defeated. This was also his only defeat.”

This made it difficult for many people to calm down. Such powerful dual-pupils, this individual was definitely one of the most powerful young supreme beings, one that would definitely shine brilliantly in Immortal Ancient, yet he had been defeated before!

“Shi Hao, that youth...” When this name was mentioned, some people knew what he had done before in the lower realm.

“Hao’er, if you were still alive, your name would definitely shake the world under heaven, right? Shining brilliantly here...” By Qin Clan’s area, Shi Hao’s mother had tears in her eyes.

Shi Ziling clenched his teeth, not saying anything. He stared towards Immortal Palace.

“Let’s take a look at my descendant.” Immortal Heavenly Deity Qin Changsheng took action, carving down a name on the flower petal.

Qin Hao, these two words shone brilliantly, releasing brilliant radiance. Then, a youth appeared, reflecting on the monument.

“His chest...”

As soon as Qin Hao appeared, it triggered large cries of shock. At his chest, immortal light pervaded the air, nourishing his entire body. It was simply impervious to all methods!

In his surroundings, experts were swept flying one after another, not able to get closer to him at all.

“Isn’t that Yan Province’s most powerful expert? He was killed by Qin Hao!”

“Thousand Feather Race’s divine child was also defeated, penetrated by a streak of light from his chest. Too powerful! What kind of precious technique is that?”

Everyone cried out with shock.

Many Divine Flame, True Self Realm experts were moved.

Even a few sect masters revealed looks of surprise. This youth was too extraordinary.

“His name is Qin Hao, Immortal Heavenly Deity’s descendant, rumored to have two supreme being bones. Now, he has indeed grown up, becoming not simple at all.” Even a giant praised like this, so others were naturally even more shocked.

Everyone from Qin Clan revealed smiled. Qin Hao’s performance was too dazzling.

Even Qin Yining, even though her eyes carried tears, she was still quite grateful, gradually revealing a smile.

“How could he have two supreme being bones?” The higher realms were boundless, so not everyone knew the inner details, not knowing the truth.

“Should be related to his brother. One bone was bestowed onto him before his death.”

When these words were spoken, everyone became stupefied, their minds shaken. A pair of supreme beings? How unfortunate, his older brother died, only able to pass down his bone.

Even those that knew the inner details revealed looks of shock. They recalled the events of the past.

“That Shi Hao is not simple. The dual-pupiled user is related to him. Even though he died, he still created such a formidable younger brother.” Quite a few people exclaimed in admiration.

“It was granted by the heavens!” There were some people from Immortal Mountain who corrected. They did not like hearing this type of saying.

“Wu, is anyone willing to carve down the name Shi Hao?” Someone asked.

Everyone became puzzled. Why did they have to carve the name of a dead person? He didn't even come to the higher realms.

"Celestial Clan might know something."

When Celestial Clan heard this, they couldn't help but be shocked. They immediately understood that their clan's secret was leaked out, being known by some people from the higher realms.

Right at this moment, a large hand reached out from a bronze ancient palace that was surrounded by chaotic energy. It swiped out a few times in the void, writing the two characters Shi Hao.

This was someone from Immortal Palace! He took action!

The flower petals shone. The monuments produced the image, and in the end, a youth's figure appeared, still smiling as brilliantly as before.

Everyone became stupefied. This was the third time he appeared, leaving everyone petrified, all of them dumbstruck!

Chapter 819 - Returning to True Self

The third time!

He unexpectedly appeared a third time!

Everyone became stupefied, their expressions becoming rigid. They were truly seeing ghosts!

The most irritating part of it was that smiling face, each time more brilliant than the last, so dazzling not even the moon and stars could compare. He took the initiative to face everyone, smiling just like that while standing there.

"I'm seeing a ghost. Why is it him again?!" Finally, someone screamed with a voice an octave higher. This was too strange!

Over and over again, were they testing everyone's nerves? He had two great identities, and now a third one, it truly challenged the limits of what everyone could handle. A large group of people were stunned.

That kind of expression truly was like a flower bud, sparkling and brilliant, bright and resplendent as he stared towards everyone. He was in need of a spanking!

"Impossible, definitely impossible!" Some couldn't take this type of shock and cried out. They understood some inner details and knew who Shi Hao was.  $n((\partial-\{v\})/e)(L/)\mathbf{b}-(1--n$

"He died in the lower realm, and it was long verified! How can he jump back out? There is definitely some kind of problem, moreover an extremely great one!" An expert shouted loudly.

This scene was just too strange. Once or twice was one thing, but he unexpectedly appeared a third time, tormenting everyone's nerves, leaving even a group of sect masters speechless.

This was especially the case for those who had come into contact with Huang or Sin and had grudges. They felt like they had been humiliated!

This was definitely done on purpose! This youth purposely ridiculed them, using different identities again and again. It was clear from that smile alone that this brat was rotten from head to toe!

"I don't believe it is him! How can someone who many sides had already proven and many great sects personally saw die revive, moreover leaping and frisking about in the higher realms? There is some kind of conspiracy going on!"

This place could not calm down. Noise erupted, and it was unknown how many people rushed in front of this monument. They stared at the youth, discussing this loudly.

In an instant, it was as if a flood swept through this place. Rumbling sounds rang through the air. Too many people were in an uproar, all of them discussing this.

This was simply unbelievable!

"Everyone, I believe that this is definitely a conspiracy. It is all fake!" Someone refused to acknowledge this and said.

Immortal Ancient, on the bluestone path.

Shi Hao's divine senses were extraordinary, so he naturally had a feeling that someone wrote his name three times, using the Immortal Dao Flower's petals to observe his current situation.

That was why he was extremely cooperative, smiling happily and doing his best to raise his chest, lift his chin up towards the sky. His smile was pure and true. He blinked his eyes.

Apart from this, he even waved his hands in a practiced manner, as if he was greeting everyone.

In the outside world, a group of people vomited blood. This brat's face was truly thick! Was he purposely angering others?

"Sigh, I finally entered Immortal Ancient, don't have to be worried about those old shameless fellas anymore. I can return to being myself. Just wait for what I have in plan for you all when I come back."

Shi Hao said softly. Those of the outside world naturally couldn't hear him, but they saw how his mouth moved. What kind of people were these? There were many deities, so they naturally understood his intent.

A group of people's faces immediately darkened, finding it difficult to suppress their emotions.

This was especially the case for Phantom Drake Dao Gate, Fire Cloud Cavern, Luofu True Valley, and others. These inheritances were the easiest to anger. Just now, they finally knew who their enemy was, ascertaining his identity, yet soon after, they discovered that this still wasn't his real identity.

At this moment, they finally understood who that fella was. They were truly humiliated and indignant. A group of true deities' eyes surged with flame, truly wishing to devour him on the spot.

Even a few heavenly deities couldn't take it. As they watched him smile happily, everyone felt as if they were slapped in the face in an extremely loud and clear manner.

"From here on out, I will return to being me, returning to my true self!"

Shi Hao said. He rubbed his face, and then his body unfolded as well. His four limbs and white bones cracked like fried beans. His body immediately relaxed.

His appearance changed. His eyes were still clear and bright, but his appearance became much more handsome, the pretty exterior and delicateness carrying an aura of otherworldliness, able to be called divine like jade, extraordinary and transcendent.

Now, he had already grown up. Compared to his previous tender and immature appearance, he had undoubtedly grown up. He was handsome and extraordinary, giving off an immortal dao aura.

"I vow that from here on forth, I will be myself. No one can make things difficult for me any longer!" Shi Hao seriously vowed. He was going to become strong in Immortal Ancient, strengthening himself, increase his power drastically. He was the ruler of his own path, no need to change into other bodies.

"It's him... it really is him!"

In the outside world, some people cried out strangely. They completely recognized him now. This was definitely the youth from back then. He was a head taller than before, more extraordinary in appearance than in the past.

His tall body, thick black hair, fine facial features, long eyelashes, intelligent large eyes, together with his jade-like sparkling skin, formed a body that flowed with precious splendor. There was an indescribable type of style to his appearance.

"How can it be him?!" At this moment, Underworld Earth's people exploded.

"A dead person unexpectedly appeared! It was he who ruined our great plan!" A cold and cruel voice sounded from the blood dripping war chariot. It carried endless hatred.

Seven deities went down into the lower realm, yet they were all stopped by a single youth, completely slaughtered. It was precisely done by this person. He was actually still alive, moreover arriving in the higher realms.

"Hao'er!"

A heart tearing lung splitting cry sounded from Qin Clan.

Tears had long covered Qin Yining's eyes. She simply couldn't believe that figure was real. How many times had she woken up from this type of dream, only to drench her pillows in tears?

How many times had she thought back, how many times had she reminisced about the past? She was always thinking about that child from the lower realm, believing that they would never meet again, that he would never appear in this world again.

Yet today, in this place, in Immortal Ancient, that youth was alive and lively, unexpectedly smiling so brilliantly towards her. That type of liveliness, he... was still alive!

Those around her were shocked, looking over. This was Shi Hao's mother? A young supreme being's mother!

Qin Clan's people were stupefied. They never expected there would be this type of scene. That youth was living so healthily, to the extent where it could be said that he was more durable than a True Dragon!

He had stirred up too many 'major events', which one of them wasn't enough to shock all directions, shooting through the sky? In the end, he was still perfectly fine.

"The heavens finally opened their eyes, returning my child back to me..." Qin Yining was crying, but also smiling, her emotions all over the place. She stared at the monument, towards that youth.

Shi Ziling's breathing was hurried. He clenched his fists tightly, his blood surging. His eldest child was still in this world, making him feel as if the entire world became more colorful.

"Good, Hao'er, you are much, much stronger than us, relying on yourself to survive, moreover arriving in the higher realms!" Shi Ziling released a low roar. His tiger eyes were also blurry, tears sliding down.

At this moment, as the husband and wife were pleasantly surprised, they also felt endless shame and guilt. They felt like they hadn't taken good care of Shi Hao, making him suffer since childhood, endure too much bitterness.

Moreover, at the final moments, they even watched him pass away, the two of them helpless in the face of such a crisis.

What left them the most pained, what made them blame themselves the most was that before death Shi Hao unexpectedly removed his own supreme being bone, giving it to his only younger brother.

That day, they felt as if their souls left them, the entire world becoming dull. They originally wanted to see if they could use the immortal bone in Qin Hao's body to save their eldest child, yet after a moment of hesitation, they missed the opportunity. In the end, the eldest son actually removed his own bone and gave it to their second son.

Every time they thought of this, they wanted to weep greatly for Shi Hao, feeling that he was pitiful, too pitiful. He had never been properly cared for since he was young, and he even suffered that kind of wrong. He experienced endless torment, yet in the end, he was going to lay in the ice cold grave alone in the lower realm. They weren't even able to accompany him afterwards.

"This Shi Hao, Little Stone whose name shook the lower realm really is something. We all thought you were dead, yet you fumbled your way up yourself." Someone spoke, understanding the inner details.

"How could it be him? How did he manage to survive?!" Demonic Sunflower Garden's master said coldly, his voice carrying killing intent. It was to the extent where he even swept a glance over towards the Qin Clan.

Immortal Heavenly Deity's face was calm, not paying this any attention.

Roar!

From Underworld Clan, a white bone mountain appeared. Black mists curled about, and there was an enormous shadow towering above it. This was precisely Underworld Lord. His face lacked color, extremely pale. His eyes were intimidating to the extreme. He roared out, underworld energy overflowing into the skies and deathly aura pervading the air.

In the past, Underworld Earth, Beast Sea, Immortal Palace, Heavenly Country, Demonic Sunflower Garden, and more than ten great powers exhausted great amounts of resources and paid a tremendous price to challenge the heaven's will, and only then did they send down a group of people.

One has to understand that back then, Underworld Earth used up a supreme being level void beast skeleton, an unmatched treasure.

Apart from this, Heavenly Country also used a void furnace that had Void Immortal Gold mixed in.

"Just a trifling ant, yet he dares to meddle in our plans, even crawling to the higher realms. When you come out, your blood will definitely be offered as sacrifice to the demon blade!" Within the blood-colored war chariot, Heavenly Country's lord said coldly.

Everyone became stupefied. These were terrifying leaders of the higher realms who hadn't taken action for too many years. They were actually going to go so far for a youth!

"Killed my Immortal Palace's servant, there is no way this can be allowed to pass." Immortal Palace also had people who spoke.

...

This was a great storm. Everyone became certain that this was Shi Hao, the youth who came from the lower realm. There was no mistake.

Heaven overflowing waves were stirred up. Sin, Huang, Shi Hao, three identities, any one of them enough to form a legend. He had done too many shocking things.

Now, all three merged into one, fully exposed. This triggered a huge uproar. All of the great sects felt that this was inconceivable.

Inside Immortal Ancient, on the stone stairs.

Shi Hao raised his head towards the void. "I reckon that many people are looking at me right?"

He was right, but there was no way he would have imagined just how many people it was. All of the cultivators of the higher realms that were able to come were pretty much staring at him right now. 'Attention of ten thousand eyes' was far from being enough to describe this.

"A few old things are probably going mad right about now huh, venting out their hatred against me. However, what's the use? Heavenly Country's old turtle is the most vicious. Do you want to assassinate me? Don't worry. Wait for me to come out, and then I'll chop you up to get revenge for Ghost Grandpa. Also, you seem to have sent disciples in, right? Aren't you guys known to be killing dao cultivators, your assassination methods unmatched? I definitely won't fear death when I return and call you all out on your sneaky, skill-less hidden vicious methods."

Everyone couldn't hear him, but from how his lips were moving, they knew his intentions. They were all stupefied, and a few people almost laughed out loudly. He unexpectedly dared to ridicule Heavenly Country's lord.

Of course, there were those who wanted to cough out blood as well, for example, those killing dao deities. They all narrowed their eyes, their pupils flickering with cold radiance. Their finger joints were becoming pale from their clenched fists.

“The number of people who want to deal with me aren’t few right? Underworld Earth’s bunch definitely aren’t good things either. Half man half ghosts, when the time comes, I’ll settle things with you all as well. Right, I never ate creatures from the Underworld Clan. When the time comes, I’ll roast some non humanoid Underworld Clan experts to see what kind of flavor ghosts have.”

When these words were spoken, many people almost bit their own tongues, and others watched helplessly. There were even a few who wanted to laugh. Did this youngster really dare to eat anything?

“I am not joking you know?” Shi Hao muttered, then he said, “Immortal Palace is too hypocritical. Back then, they actually beat up my supreme being inheritance. Now that I am in Immortal Ancient, I am going to beat your inheritor until he splits into eight parts! Right, every time that Immortal Palace inheritor comes out, he always acts so cocky with old slaves following him, showing such a ‘grand’ style. He can’t be the bastard child of that old fart sleeping in Immortal Palace, right?”

Everyone became speechless. This brat’s mouth really was vicious. This was undisguised slandering.

At the same time, everyone felt the ancient copper palace that floated in the void tremble slightly. It was clear that the one inside was not just angered lightly!

“Did Celestial Clan come? Those scoundrels who kick their benefactors in the teeth, you all should have known about my identity a long time ago, but didn’t say anything about it all this time, wishing to steal my Kun Peng technique and other things. Truly worthless pieces of shit.” Shi Hao said.

When these words were spoken, everyone from Celestial Clan’s expression changed. This brat was too vicious, needing to be punished. He was speaking this in front of all of the sects, exposing the Celestial Clan’s secrets.

“We didn’t know before either! He is speaking nonsense!” Celestial Clan’s people hurriedly spoke up, hurriedly refuting his words.

“I believe with their nature, they would definitely do everything they can to refute it. They always showed different outwards appearances than what they truly felt, forget favors and violate justice.” Shi Hai said.

In the outside world, Celestial Clan felt huge hatred. This... was cutting off the end of the road, what else could they say?

The other inheritances looked at them, their expressions all peculiar.

“Phantom Drake Dao Gate, Fire Cloud Cavern, Luofu True Valley and others, all of you inheritances, rumored to be eternal in the world, always oppressing Sin Province, truly people without any sense of shame or virtue. My ancestors have guarded the desolate border, yet you all slander their descendents, treating them like prisoners.”

When these words were spoken, all sects of the higher realms were shaken up.

"I remember that you all threatened me that your clan has exceptional talents, have ancient freaks. I am looking forward to meeting them! They will definitely be completely slaughtered in Immortal Ancient!"

In the outside worlds Fire Cloud Cavern, Phantom Drake Dao Gate and other others were about to go mad.

This wasn't only true for them. All of the inheritances that had their names mentioned, their faces all darkened, their hearts suppressing a wave of fury.

"Right, I have another identity. Back then, when I was in the Lower Realm, I already arrived into Spirit Realm through the Void God Realm, chasing a group of people for several hundred li. The one named Haotian is also me."

When Shi Hao spoke up to here, he revealed another brilliant smile. He took the initiative to reveal this fourth insignificant identity.

This... was definitely done on purpose. This kind of smile, this type of brilliance, for many inheritances, was an undisguised mockery, a type of humiliation.

"You will definitely die in Immortal Ancient!" Someone cursed.

"I believe all those related should be gnashing their teeth in anger right?" Shi Hao said calmly, still looking towards the void. "Not even the heavens could deal with me, allowing me to crawl out from the grave and live healthily. All of you can just start praying for your disciples!"

When he spoke up to here, Shi Hao suddenly raised his head, the aura of his entire being immediately surged, becoming like a devil king!

"Those people better not provoke me, or else I'll slaughter all those that I should slaughter, eat all those I should eat, make all those that should warm the bed accompany me." He spoke ostentatiously while laughing loudly.

A few great sects, while feeling great anger, also shivered inwardly. They thought about too many things.

This youth originally had two supreme being bones, yet in the end, he lost one during childhood, then removed the other after growing up, giving it to his younger brother before his death.

Based on normal reasoning, he should have definitely died, yet he lived each time, moreover not crippled and becoming even stronger.

He relied on himself to arrive in the Higher Realm, turning into Huang and Sin, establishing a brilliant reputation. Recently, he never even used his most powerful precious techniques, so just how powerful was he exactly?

Everyone shivered inwardly. This youth... was formidable. Without a supreme being bone, he still had an unmatched manner. Immortal Ancient would most likely be thrown into chaos because of him!

"I can finally put my all into fighting, no longer having to suppress myself. I can use all of my precious techniques!" Shi Hao spoke. At the same time, a large pair of Kun Peng wings appeared behind him, as if they reached the clouds. They were accompanied by overflowing divine light.

It was clear that that kind of aura was too intense, shocking many creatures behind him. There were some who were shocked, secretly taking action.

Then, his wings shook slightly. Behind him, a loud hong sounded. All of the creatures that took action shattered, turning into bloody mists and crushed bones!

The attitude of a devil king was fully displayed!

This made everyone in the higher realms feel greatly shocked. He was going to put his all into the fight, becoming even more powerful than Huang or Sin. It really was unknown what kind of great storm was going to be raised!

## Chapter 820 - Brightly Colored Ancient World

Within Immortal Ancient, on a stone staircase accompanied by chaotic energy.

Shi Hao's back faced the remaining individuals, his figure exuding the imposing attitude of a devil king.

"Let's leave!"

The group of creatures no longer dared to provoke him, hurriedly leaving, fleeing towards the brightly colored world at the end of the bluestone path.

That youth who had his back towards them, a pair of wings that reached the clouds was releasing a heaven overflowing pressure that made every single creature tremble with fear.

Just the slight movement of those wings was enough to make a group of powerful experts shatter, blood and bones appear. Just how powerful was he exactly?

"Someone broke through, entering Immortal Ancient's secret earth!"

In the outside world, a few true deities cried out in shock as they stared at several monuments that were as smooth as a mirror. Scenes of Immortal Ancient were currently being displayed there.

Even heavenly deities were shocked. A monument reflected the scenery around a creature. Then, several monuments changed, becoming brilliant and multicolored, divine light overflowing into the heavens.

At that moment, their attention finally shifted from Huang, from Sin, from Shi Hao to a few ancient freaks.

Xiu!

Like a divine arrow that opened the sky, with great dao energy and brilliant divine multicolored light, the void distorted. Someone stepped out from the bluestone staircase, entering another heaven and earth.

As if at the same time, a few others also stepped out from their paths!

The three thousand bluestone paths trembled, shaking greatly. It was accompanied by multicolored wisps, sprinkling out a resplendent rain of light. A great dao rumbling sound rang through the air.

"Just the ninth day, yet there were some who already made it through into Immortal Ancient. This is a day faster than anyone in all of history!"

Even the heavenly deities were shocked, all of them staring at the smooth monuments, seeing those various scenes of Immortal Ancient.

“Those individuals have become stronger, all of them surpassing their previous selves. That is why they were able to reach this place a day earlier!” A sect master sighed and said.

It was precisely because these individuals walked out from the bluestone path that this entire ancient road changed. The pressure decreased, and the others’ movements became quite a bit faster as well.

In the outside world, the bronze palace floating in the void swayed. Someone pushed aside the beast bone beaded curtain and looked towards the three thousand great dao petals, staring at the scene inside Immortal Ancient.

Two streaks of purple radiance shot out from a purple golden war chariot that seemed to have existed before the opening of the world. This was the carriage of a present world Emperor Clan, and those two streaks of radiance pierced open the void, landing on the Immortal Dao Flower’s petals.

All great figures were moved, watching this closely!

On a few monuments, brilliant shadows could be seen. It was quite illusory, as if it was a world of dreams.

“Is that the scene inside Immortal Ancient?” This was the first time many Divine Flame, True Self Realm cultivators saw this. Their breathing was rapid as they watched nervously.

‘Bubbles’ appeared one after another, their appearances a mixture of different colors. Chaotic energy wrapped around them, and there was a vague but terrifying aura seeping out from them, as if they possessed undying power.

Each ‘bubble’ represented a region!

There was an area for interaction between these bubbles, which meant that different regions could be connected.

That place is extremely miraculous. Immortal Ancient would sometimes become resplendent, sometimes dim. Many of the regions were surrounded by illusions, so it was difficult to differentiate the different territories.

“It looks like it is quite small, but in reality, every region is large to an unbounded degree. A few places are divine and auspicious, while some ancient earths are full of enormous dangers.”

There were many ‘bubbles’, just like little worlds. They all gave off ancient feelings, containing an aura of passed time, accumulating secrets from the ancient to present.

Someone took action. With a great halberd in hand, this individual continuously clashed with another. Some people recognized that this was Immortal Palace’s inheritor.

“How ferocious!”

Everyone became moved. The radiance that erupted from this battle was enough to make Divine Flame and True Self Realm cultivator’s faces lose color.

His opponent was a red haired youth that was extremely sinister looking. He gave off a domineeringness, the corners of his lips carrying a cold and cruel smile as he fought against Immortal Palace's inheritor. His divine bravery was unmatched.

"I finally found you. I've refined my Great Heaven Burning Art to a level no predecessor has ever reached. I will first kill the strongest of this world, and then I'll wipe out those ancient freaks, starting with you."

The red haired youth supported an expanse of black fiery light that was like a world in itself. With every movement, it trembled the void until it became blurry. It could burn the nine heavens!

In the outside world, everyone's expressions changed.

This individual was actually going to kill Immortal Palace's inheritor! How domineering and brash was this?!

However, when they heard him say the Great Heaven Burning Art, everyone sighed, knowing that he was this type of freak. That was a heavenly art comparable to the Six Dao Reincarnations.

This bloodline might not even appear after tens of thousands of years. However, if a single person appeared, that individual would definitely be terrifying to the point of leaving others in despair.

Peng!

Magical force surged. After these two's final strike, a large crack was hacked open in the void within this mottled ancient land.

"How powerful!" Everyone's expressions changed. These were likely the world's most powerful supreme experts.

Towards Immortal Palace Inheritor, none of them were too shocked. After merging with his second body, he would definitely illuminate the past and present. There were already no opponents for him in the present world at the Supreme Expert Realm.

Meanwhile, this was the inheritor of the Great Heaven Burning Art. This also made others tremble inwardly.

Many people recalled that not too long after he appeared in the world, he already killed many of the most powerful supreme experts of several different provinces. His murderous nature was extremely strong.

Hong!

In another direction, Chang Gongyan, Gu Jianyun, and a few other ancient unmatched heroes fought. The void between them cracked, becoming distorted. This left the outside world shaken.

They were fighting over the ancient land!

The other figures that rushed out were also looking around, from time to time clashing. Meanwhile, everyone was carefully looking around, searching for their own target.

In the end, they all moved, quickly splitting up. Like lightning, they rushed into a few brightly colored secret lands, most of their paths different.

“Even though there will be a few differences each time Immortal Ancient is opened, there are a few ancient lands that are unchanged. They went to seek their own heavenly opportunities.”

A few heavenly deities sighed, filled with envy, as well as even more melancholy. There was definitely glory waiting there, but it was unfortunately unrelated to them.

This wasn't the first great battle those ancient freaks participated in, not the first time they entered Immortal Ancient to seek natural luck. As such, they understood much more, all of them having clear objectives.

“They are going to go break through. Who knows, someone might even undergo rebirth in the phoenix blood pool.”

“It is the last time one can enter this ancient land. It wouldn't be too surprising if someone is able to find the egg of a True Dragon.”

Even the higher realms' most powerful sect masters revealed looks of shock, their eyes burning fiercely, hopeful and expectant. Unfortunately, they couldn't enter themselves.

It was clear that the most powerful freaks of the ancient era all headed for the ancient realm they had long decided on before entering this place. They were going to break through there, ignite their divine flame, and then obtain even greater natural luck.

There were people who already broke through while on the bluestone stairs, but they weren't unmatched exceptional talents, nor were they the people hidden under snow. They were just ordinary supreme experts. Those at the very peak all selected their own holy land to undergo a perfect transformation.

Those that entered Immortal Ancient for the first time definitely wouldn't know about those places. Only Six Crown King Ning Chuan, Sword Calley's Gu Jianyun, and other terrifying individuals know about a few places.

In the outside world, even though there was some information about these things, there was no way they would know about the exact coordinates.

This was unless they were an inheritance like Immortal Palace whose sect had previous members who entered to refine themselves. They knew about a few miraculous precious places and clearly passed the knowledge down to their inheritor.

In that instant, the first group of people disappeared without a trace, heading towards their respective areas.

When one or two of these figures disappeared, the others would hurry and leave too. Otherwise, if someone achieved the perfect Divine Flame Realm first and came back to kill them, that would make things much more complicated.

Right now, even though some people were fighting life and death battles, they could still only give up for now, hurriedly leaving to break through.

In the rear, a few individuals were confused. They stood in front of these bubbles, staring at the chaotic light, listening to the vague great dao aura. They didn't know which region they should head towards.

"Try them one by one. I'll definitely be able to find some divine land. Either way, there's time." Someone moved.

"Immortal Ancient, a place vast and boundless. Rumor has it that someone reached its limit. There are definitely endless precious lands. Even those ancient freaks could only have explored a corner of this place. There is no need to be jealous of their targets. We can just explore ourselves."

Of course, normally speaking, they would avoid all of the areas those people entered. They didn't want to run into those ancient freaks.

On the bluestone stairs, there were people who came out one after another, and then continuously entered the different 'bubbles', heading towards those different worlds.

Since the ancient times until the present, as long as one left the bluestone path, the pressure of three thousand ancient dao would suddenly decrease. Those in the rear would be freed from the burden and be able to rush out.

As such, large amounts of people appeared at the ends of the road.

In just a few days, everyone else would come out, stepping into the mottled ancient world.

At this moment, those in the uninhabited region were startled. Shi Hao unexpectedly appeared on the first day, leaving a group of people shocked. Regardless of whether they had any enmity against him or not, they all couldn't help but sigh. This youth was formidable!

It was because he had been travelling horizontally this entire time, continuously crossing realm walls, walking many different paths.

In this process, even though he would at times walk up a bit, after all, he normally walked horizontally much more often. Based on normal reasoning, he should have been the last to come out.

However, he appeared before the absolute majority.

"Are these the Immortal Ancient depths?" Shi Hao looked forward at those 'bubbles' that contained indistinct regions.

Chi!

An exception talent moved, rushing into a 'bubble' that was relatively larger. The moment the mirage was torn open, those behind him could clearly see a corner of that world. It was a boundless great earth lush with forests. An enormous pitch-black city rested at the limits of the horizon, one that housed many creatures!

"En, there are cities and mysterious races?!" Shi Hao frowned.

"Ao..." A roar sounded. Not far out, a Dragon Mastiff surged with silver light, burning like raging flames. It also rushed into a 'bubble'.

Everyone hurriedly observed what was inside. The world within was a desert, and at the limit, water vapors were pure and holy as it rose into the air. There was even a spring of life that made all sect masters' eyes red!

Quite a few people were shocked, following him inside.

There were others that remained calm, standing outside while looking pensive.

"Within a desert, mirages are the most commonly seen things. One might not be able to obtain anything by entering."

There were many bubbles, all of them like little worlds. They were connected, so one could move between them.

Shi Hao turned around and looked outwards. The three thousand bluestone paths, for him, possessed unordinary meaning. He wanted to form a perfect divine flame, borrowing these dao.

As a result, he wasn't in a rush to hurry along, not in the first group to leave the bluestone paths.

The bubbles were illusory, the small worlds numerous, forming a mottled expanse. They all had different great opportunities, making it a difficult choice.

Suddenly, the void split apart. Several bubbles swayed, and then tore apart. Someone rushed out from within, displaying many little worlds.

"Who is this, continuously breaking the realm walls and appearing in different ancient lands, now coming back?"

An individual flew out, as if there were feathers floating down from his body. Holy light shone resplendently. In his hand was a great halberd, his attitude divine and ferocious. While rushing out, the energy waves he released sent supreme experts flying out, making them cough out large mouthfuls of blood.

It was precisely Immortal Palace Inheritor. He wore immortal feather armor, in his hands a precious halberd. It was unknown why he returned.

"En?" He saw Shi Hao with a single look. Within his eyes, his pupils formed two silver symbols. He immediately slaughtered his way over.

"It's you, what good timing!" Shi Hao was even more straightforward, bringing out the Void Halberd, holding it in his hands. He released a loud shout, and then he hacked it forward!
