

Perfect WD 841

Chapter 841 - Hotpot

Six great experts had been turned into corpses!

The Golden Barbaric Ox dripping with golden blood, the Flame Heavenly Scorpion that had its nine tails removed, Dragon Sparrow flickering with five-colored divine light, Three-Eyed Beast that had its third eye pierced through, the bold and powerful White Lion...

These experts all displayed their true bodies, some of them as large as a small mountain, one with a glistening bird beak, some whose blood flowed like a great river. Holy radiance surged, the scene terrifying.

It was precisely experts like these who were powerful and without equal that were slaughtered. No matter who saw it, they would all feel horrified. After all, these were all exceptional talent level experts.

Next to the corpses, on the golden blood, a youth stood tall with a great halberd in hand. He pointed it forward, his expression cold, killing intent rushing into the clouds.

The other two experts still wished to escape. Unfortunately, they were both locked onto already. One of them was cut off by Luo Dao and Lan Yichen, while the other one was being stared at by Shi Hao.

"Are you going to cut them all down, not letting a single one go?!" Lu Yi had long been frightened stiff, retreating far into the distance. He had never seen such a terrifying scene before.

Corpses covered the ground, golden blood flowed. He was trembling uncontrollably all over. This was just too terrifying!

One had to keep in mind that those were all exceptional talent level experts! Normally, forget about all of their corpses on the ground, just eight of them walking together was rare.

However, after the battle of Silver Polish Mountain, a single person killed six of them. Once news of this got out, it would definitely alarm Radiant City, triggering a huge uproar!

"You... are really going to kill us all?" The silver haired individual said softly. When his eyes opened and closed, many silver symbols interweaved around his body. He tried to slow down his voice as much as possible to talk to Shi Hao.

Chi!

A streak of light shone. The Divine Striking Stone was thrown out, directly hitting him between the brows.

"Ah ah ah..." While in midair, like pigs being slaughtered, screams sounded endlessly. It was extremely fast, instantly reaching that place.

The silver haired male used precious techniques to defend himself, but in the end, he found that he couldn't free himself from this stone. The other party was too fast, not stopping until it hit its target.

Dang!

The Divine Stirling Stone immediately struck a precious symbol, leaving the silver-haired male shaken. This was a Space Shattering Symbol he produced to escape.

However, he got caught in his own trap. There was a great formation locking this place down, so this symbol lost most of its effectiveness. Even after activating it for a long time, it still didn't split apart the void. Now, it was destroyed, completely crushing all hope of escape.

"Do you still want to leave?" Shi Hao held the halberd as he walked over murderously.

This time, there was no longer any suspense. The great Void Halberd shone, immediately distorting the void, producing streaks of cracks. Even this powerful silver haired male couldn't fend off this attack.

Pu!

His body was chopped up into four to five pieces, falling onto the ground. Blood flowed everywhere. It was actually a silver mastiff.

At the same time, sword radiance rushed into the heavens. The youth who held the magical sword and was curling with purple energy was about to break out, yet in the end, he was intercepted by Luo Dao's long hair.

He was the only one left. There was naturally no way for him to change this situation. While he was frantically brandishing the sword energy, Shi Hao already hurried over. A leg swept over like a dragon snake brandishing its tail. This was precisely the loose method he obtained from Origin Sky Secret Realm -- Golden Snake Leg.

A dragon snake could vaguely be seen rising up in power, crushing down on the other party. All of the sword energy was scattered, and this attack landed on that person's body.

The sword radiance thus scattered. That person released a loud cry, his body splitting into two. This dragon snake leg was alike a deity lashing whip, but also like an immortal sword that could cut down enemies.

A purple vicious bird that was surrounded by mists appeared. Its wings looked like they were forged from purple gold, brilliant and resplendent. Unfortunately, they were already broken.

"Purple Golden Swan, an archaic divine bird, rare species." Luo Dao was shocked. This type of species was rarely seen, but they were all powerful. Their bird beaks were like swords, able to pierce through all enemies.

Unfortunately, he encountered Huang, met Shi Hao. The bird beak shattered, and his body even more so broke into two pieces, thus losing his life.

"Purple Golden Swan. There were records of it in bone books. Its flesh is delicious, second only to the Phoenix Clan among bird species..." Shi Hao commented.

When those people heard him, they were all speechless.

If not for his black hair that scattered about, eyes cold, giving him a great demonic god appearance, they truly would have doubted if he truly had terrifying fighting strength.

“Alright, we can clean things up now. Lu Yi, go look for a water source so we can wash up. In a bit, we’ll mend our bodies. Wasted too much energy just now, I’m so hungry.” Shi Hao put away the halberd and walked around the mountain region to look over his spoils of war.

Lan Yichen walked over. Now that he saw Shi Hao again, his expression was complex. Both him and Luo Dao never truly sincerely followed him. If not for the ‘Seed Formation Technique’, they definitely wouldn’t ‘cooperate’.

But now, his opinion changed. Shi Hao personally came to rescue him, and he was so powerful, unleashing a great slaughter, leaving both him and Luo Dao feeling great fear and alarm. This was just too vicious.

The cultivators of all sects saw everything from start to finish. They were all stupefied. These were eight great experts! Even with such powerful exceptional talents overseeing this place, it was still their corpses that covered this place.

Everyone looked at each other silently, not saying anything for a long time. If Huang was allowed to grow up, just how powerful would he become?

He should have entered the ranks of the ancient freaks now, right? This was what everyone was thinking.

Many people felt great waves stir within them, simply unable to calm down. There was even less of a need to talk about those who had a grudge against Shi Hao. Their eyes were ice cold, truly wishing they could enter Immortal Ancient right now and kill him, not giving him the chance to grow up.

There were some who saw their own clan’s exceptional talents die, feeling great pain inside. Their vision grew dim, almost fainting on the spot. The losses were just too great.

“Once one reaches the end of the Divine Flame Realm, it will be hard to walk half a step further. For those cultivators, they could be said to have already completed the path, unable to advance further.”

A sect master sighed, speaking the truth.

“Perhaps someone can tread on that path, illuminating the past and present with glorious light, stepping onto the unmatched great dao path.” At this moment, a snow white old turtle spoke.

When it spoke like this, everyone raised their eyebrows, because many people recognized it. This was one of the higher realms’ oldest existences. Its shell was snow white and sparkling, releasing a luster of life.

“Impossible. That path cannot be travelled further, those people cannot be seen again. At the very least, in this great era, it will be too difficult for someone like that to appear.” An old Hou spoke, an authoritative figure who had survived from the Archaic Era, its age great.

“I agree... even in Immortal Ancient, those blessed by heaven and able to take that step aren’t many. Now, the world has already changed. It’s simply impossible.” Another person spoke.

Everyone became shocked. This was the Taotie Clan’s ancient ancestor. It had even eaten the sun, moon, and stars. It had killed quite a few powerful experts in the archaic war.

The number of sect masters it devoured definitely numbered more than the single digits. It was beyond terrifying.

"Everyone, we don't need to hide things any longer. Now, those people have entered Immortal Ancient, so no one can interfere. What else is there to worry about? As for who is going to take that step in this world, all of you already understand." Within a purple golden emperor carriage that was filled with chaotic energy, someone released this voice.

This was someone from an Emperor Clan of the present world. These types of words were spoken.

This left many people who didn't understand the inner details shaken. They looked towards Divine Temple, Dragon Palace, Sword Valley, and the other most ancient inheritances. They all had ancient freaks enter from their side.

"Indeed, from the past to present, everything the sect has have been passed down to them. I hope they can recreate the glory of the Immortal Ancient Great Era's most powerful experts!" Someone nodded, calmly admitting it.

The crowd was immediately shaken. They were going to step onto that path! It made many people's hearts tremble.

"Perhaps only one or two can succeed. Even though we've given them everything we could find from the Immortal Ancient era, it will definitely still be nine deaths and one chance at life."

"Ten Crown King's small tree should be that one from Immortal Ancient right? I never thought that it could reappear in this world!" Someone sighed.

If everyone understood what was said by this person, all three thousand provinces would be greatly shaken!

"I just fear that he will be killed halfway through that path by the mysterious power." Someone spoke, clearly worried, their face overcast.

Suddenly, someone revealed a look of shock when they looked at the monument. Meanwhile Underworld Clan was even more so angered until their faces became ashen.

Radiant World, Silver Polish Mountain

Shi Hao sent Underworld Clan's female corpse flying with a kick. "This clan is the most useless, ruining my appetite."

It was clearly this that made the teeth of Underworld Clan's people feel sore.

Of course, apart from them, there was also the Archaic Barbaric Ox Race, Flame Scorpion Race, White Lion Race, and Dragon Sparrow Race's people who were feeling great hatred, their eyes all becoming red.

It was because something intolerable was happening at the foot of Silver Polish Mountain.

Sure enough, Lu Yi found a source of water that flowed out from the bottom of this silver essence mountain. It rushed forth, sweet and refreshing, carrying a fragrance. This was a spiritual spring.

Only after part of the great formation was broken did they see this spring.

Shi Hao personally took action, bringing all of the prey over, having Luo Dao and the others skin them and let out the blood.

"This is all good stuff, all of it great mending medicine. A single piece equals many days of bitter cultivation! Today, we are going to properly satisfy the senses, eat joyously!" Shi Hao was truly happy as he smiled, having them prepare these 'ingredients'.

Lu Yi was about to faint. When had he ever seen prey like this? This was a pile of exceptional talents! When he saw them before, he would always hide far away, yet today, there was a pile of them waiting to be skinned.

"I'm going crazy..." His entire body was shaking uncontrollably.

It was because even though these experts had died, there was still a type of pressure that made him feel terrified. Every single one of them were the most powerful young outstanding talent of their province.

Now, they were all corpses waiting to be eaten!

As he watched them skin them, and pluck their feathers, these shining divine birds and vicious beasts arranged at the spiritual spring's side, Shi Hao felt greatly satisfied. The harvest this time was too great.

"Should I simmer fry, steam in broth, or roast them over a fire?" He propped up his chin, feeling a bit conflicted.

In the outside world, a group of people wanted to spit out blood. Some of them roared towards the sky, their lungs about to explode.

"So much... it's probably best eaten as a hotpot." Finally, Shi Hao came to this conclusion.

A cauldron was propped up. Luo Dao stirred up a dao flame, bringing the spiritual spring inside to a boil. Shi Hao, Lu Yi and the others began to put the meat inside.

"Fatty beef really is good for hotpot." Shi Hao looked at the barbaric ox that was like a small golden mountain, feeling extremely satisfied. This flesh contained a large amount of essence. The flesh was golden and surging with radiance.

Soon after, he brought out condiments and seasoning of all types. There were even many jars of good wine.

When the Golden Ox was chopped up into thin slices and placed into the water, Shi Hao had those people dig in, starting this feast.

"It truly is a delicacy, worthy of being a Mutated Barbaric Ox full of golden blood. It's almost as if I am eating ginseng, a single mouthful making my entire body relaxed, my body about to float up." Shi Hao sighed with amazement.

The meat fragrance assailed the nostrils, golden light shining brilliantly.

This type of eating was too extravagant, something not even sect masters dared to eat. It was because these were exceptional talents, all of them raised up like treasures within their respective clans. Who would dare eat them?

However, Shi Hao was eating them extremely happily, his mouth releasing fragrance, broth flowing from his lips and teeth. His large eyes became crescents, enchanted with this meal. **nOvE(L&/In**

Lu Yi was still a bit alarmed at first, because these were all great figures that he normally had to look up to. Even when they were eaten as meat, there was still a bit of a shadow over his heart.

However, when the golden beef entered his mouth and became the most powerful medicinal strength, he completely let it go.

After three pieces of golden beef entered his stomach, his seven apertures released golden radiance, and his entire body was about to float from the ground. He hadn't even started drinking, yet he was already becoming intoxicated.

"This Flame Scorpion meat you all have to be a bit careful with. Don't put any of the tail poison inside the cauldron, or else all of us will die." Shi Hao reminded.

Chapter 842 - Plundering

The scorpion was peeled, revealing the sparkling white flesh inside. It even gave one the illusion that they were looking at shrimp or crab meat.

Eating this type of thing was definitely risky, a single mishap of putting the Flame Scorpion's poison inside the cauldron and the results would be too horrible to contemplate.

It was because the Flame Scorpion's poison was too powerful, able to poison a true deity to death. It could corrode the primordial spirit and destroy one's dao.

"Delicacy. This Flame Scorpion meat even beats the golden beef." Shi Hao sighed. When the others saw him eat it without problems, they all relaxed and tried it as well.

Sure enough, the jadelike scorpion meat even made Luo Dao release a great sigh of amazement. This thing looked terrifying, but when it entered his mouth, it immediately turned into precious meat. It was juicy and fragrant.

"I say, Lan Yichen, aren't you a metal man? Why are you fighting over the food too?" Shi Hao asked.

"I am blessed by natural luck, can interchange between flesh and metal. I am able to absorb this precious flesh medicine." He didn't want to miss out on this chance either. One has to understand that what was being cooked were exceptional talents. These were great mending medicines.

"Come, try out this fragrant meat." Lu Yi no longer worried about anything, bringing the silver mastiff over. He removed several large pieces of meat and placed it inside the cauldron.

"Dog meat is the most fragrant. It definitely will taste good." Shi Hao opened several jars of fine wine, drinking while eating. They were all quite carefree.

“Hey, metal man, can you teach me how to change between stone and flesh?” The Divine Striking Stone couldn’t watch any longer, wanting to join in as well.

“Sorry, this is an innate divine ability. It’s not something I can teach.” Lan Yichen said.

The Divine Striking Stone was upset.

“Put in a stalk of holy medicine to adjust the taste.” Shi Hao said. A shining old medicine was tossed inside the cauldron. Large amounts of light immediately scattered outwards, the fragrance travelling several li outwards.

Thus, their appetites became even greater.

“Purple Golden Swan, this is a rarely seen species. This is going to be my first time trying it.” Shi Hao cut off a large piece and put it inside the cauldron. Then, when he had a taste, he was incredibly satisfied, saying, “As expected, it really is second only to phoenix type divine birds, a rare fine meat.”

The purple golden flesh was extremely tender and full of fragrance, spreading into the outside world through the great formation.

“What is this smell? So fragrant?” There were many people guarding outside. They couldn’t enter the central region, but they were all curious.

None of them would ever expect that their leaders, the most powerful exceptional talents, were being cooked right now and gorged on.

If they knew, they might vomit blood and be horrified, immediately fleeing.

“This Dragon Sparrow, I feel like roasting it is better than boiling it in the cauldron.” Shi Hao said. In the end, he ate a Dragon Sparrow wing that was roasted golden, as well as a Dragon Sparrow leg.

As for everyone else, they truly couldn’t eat any more.

Shi Hao was the only one that continued to put a part of every meat inside the cauldron, eating it all to the end. In the end, he laid on the ground in satisfaction.

He burned all of the beast skin, bird feathers clean, and he then put all of the meat away, saving them to be slowly eaten on the bluestone paths.

Of course, the Purple Golden Crane and Dragon Sparrow’s true primordial feathers were left behind, stored in his heaven and earth pouch to refine the Five Bird Fan.

In the lower realm, he had previously gathered five types of divine feathers, and he already refined them. He lacked materials, most of them being supreme expert feathers, only two of them being divine feathers, yet the result was still a Divine Flame Realm magical artifact, and its power was great.

Moreover, the most peculiar thing was that even without using magical force, just waving it slightly, the Five Bird Fan could produce powerful divine might, because there was a small word formed within it that could move the world and seize its divine force.

The Five Bird Fan was worthy of being one of the Ancient Era’s most powerful magical artifacts, worth refining.

As such, whenever Shi Hao saw suitable divine feathers, he would always gather them. This type of thing would display their power when needed. If there truly was a time when his divine force was dried up, then it might become a life saving trump card.

“This is the Octadic Treasure Unicorn.”

Lan Yichen opened a jade case, and when it was opened, it was purple and sparkling. It was a plant a foot in length. It looked like a purple Qilin[1], which was also where its name came from.

“A plant?!” Shi Hao was stunned.

He thought that the Archaic Octadic Treasures were all birds or beasts, never expecting that the one ranked the highest was a plant.

“Even though this is a plant, its texture is not much different from meat.” Lan Yichen said.

This plant stalk had strange leaves. They were like Qilin horns, sparkling and shining. It only had two leaves, and they grew in forked manners. The root was shaped like a Qilin. It looked quite strange, but as soon as it made contact with the ground, it would run, escaping into the depths of the earth. It was quite hard to catch.

Lan Yichen could merge with the metal mountain. When it entered isolation cultivation, it accidentally went underground and he just happened to see it, luckily capturing it. Otherwise, normally speaking, forget about picking it, one wouldn’t even be able to see it. **nOve(L&/In**

“What a sweet scent!” Shi Hao exclaimed in admiration.

This plant’s fragrance wasn’t that strong, but the faint sweet scent made one’s mind feel open and clear, allowing them to quickly calm down. For cultivators, it was a divine object.

“No wonder it could make holy medicines, and divine medicines’ effects increase several times. This is not an ordinary object...”

Shi Hao didn’t act too politely. He put away the Octadic Treasure Unicorn. It was all for the sake of breaking through. He wanted to forge a bridge on the broken path, pass the heavenly moat and establish his own unmatched path, exceeding all those before him.

As for all the holy medicines Lan Yichen and Luo Dao gathered, Shi Hao didn’t ask them for any of it, having them use it for their own cultivation.

Apart from this, he brought out the Cloud Marked Copper, gifting it to Lan Yichen and Luo Dao. This was a divine material he plundered from Immortal Palace, something that could be forged into an extremely powerful magical artifact.

In Radiant City, Immortal Palace had been plundered clean. This was definitely a major event. Even though they tried to conceal it, there were still some who learned that someone had barged in.

Even though they didn’t know about the losses, they knew that there was a huge problem.

Soon after, a few great powers received the report that someone broke into Silver Polish Mountain to rescue Lan Yichen and were now trapped within the formation.

“Go, let’s provide assistance and see what happened. Is there really someone this brave?” Many people didn’t believe this. Unless the most powerful Divine Flame Realm expert took action, how could that person fight so many exceptional talents?

However, when they rushed over, the place was completely deserted. Apart from a bit of meat fragrance within Silver Polish Mountain, there wasn’t anything else. Everything had been burned clean by Shi Hao.

“Truly rubbish. Even with all of you standing guard, none of you paid attention to what exactly happened inside?”

The group of people that descended were furious, making those experts guarding Silver Polish Mountain feel helpless. It was because the formation was too strong, to the point where they couldn’t enter at all.

In the outside world, the uninhabited region’s borders.

Many people released a breath of air, because they discovered that Shi Hao had left. The people who rushed over didn’t run into him, making many people in the outside world feel a sense of relief.

After calming their hearts, everyone discovered that they were now a bit fearful of Huang. They were scared of their sects’ disciples running into him, fearing that they would step on a path of death.

“Truly... unimaginable. A youth that came from the lower realm actually makes us feel so worried, fearing that our descendants would encounter him. This really is... lamentable!” An old heavenly deity said with a sigh, feeling extremely helpless.

In reality, now, aside from inheritances like Sword Valley, Dragon Palace, Divine Temple, and other inheritances with ancient freaks, who else didn't fear Huang?

Aside from them, perhaps only Immortal Palace, Divine Dark Child, and inheritor of the great Heaven Burning Art wouldn’t feel fear.

“Not good. He is heading for Radiant City!”

In the outside world, many people’s expressions changed. They discovered that Shi Hao was bringing a few people into Radiant City.

Right now, many people were afraid of him, because this fella never acted according to convention, not doing things how one would normally expect. He definitely didn’t care about the rules great powers set.

Right now, Divine Dark Child, Six Crown King, Gu Jianyun, Ancient Holy Child and others hadn't emerged from their isolation yet, so who could stop him? He was definitely unmatched!

If he just flattened everything in his way, slaughtering Radiant City clean, that... would simply be unimaginable!

In the outside world, a group of people felt anxious, worried for their disciples. It was hard for their hearts to calm down. The elders and others who were directly related to these youths inside Radiant City felt even more fear.

This was unimaginable. Ever since the opening of Immortal Ancient, no single person had ever caused so many faces to fall, their hearts shaking so greatly with worry.

Radiant City exuded a faint golden luster. Together with the flickering of bone texts, it was like an enormous golden city.

“Yi, isn’t that Luo Dao? How come he came back? He actually dares enter Radiant City!” Someone recognized Luo Dao, immediately becoming shocked.

“Lan Yichen came back as well, actually breaking free. Those powers weren’t able to capture him. Did he offer up the Octadic Treasure Unicorn?”

Many people revealed looks of shock when they saw them. This was a bit unexpected.

However, no one dared to take action rashly, because they were exceptional talents. Few people quickly left, those belonging to Divine Temple, Immortal Palace, Divine Dark Palace and other powers, to deliver messages.

Soon after, everyone discovered with shock that those people headed directly for Divine Dark Palace, paying them a visit.

“Who is it? Halt!”

“It’s you? How come you came again?” Someone recognized Shi Hao, his expression immediately changing, feeling incomparable fear.

“You... what do you want to do?” Underworld Clan’s people felt a great headache. Not long ago, this person entered their great formation, and in the end, all of their experts were swept through. When those behind hurried over, they only saw a ground covered with corpses.

“Plundering.” Shi Hao said lazily.

“You...” Underworld Clan was shocked and furious. He actually walked up to their doors just like this.

Those who saw this from the side were all stupefied. These words... could even come out of someone’s mouth? He was going to rob Divine Dark Palace!

“Not good, Radiant City’s experts had all left for Silver Polish Mountain. This is clearly the tiger away from the domain. They are using this chance to rob them!” Someone came to this conclusion.

Shi Hao didn’t feel like responding to this. He came today to sweep through all of these great powers’ treasuries.

“Those who dare steal my Octadic Treasure Unicorn, right now, I’ve come to collect interest.”

Without another word, Shi Hao released a slap. The massive Divine Dark Palace entrance and courtyard were flattened, and several individuals rushed inside.

“You dare!” Someone stood in their way.

Lan Yichen and Luo Dao directly took action. They were exceptional talent level experts, dealing with the remaining people was easy enough.

Hong!

The black treasury's entrance was blasted open by Shi Hao's palm. Those watching were all stupefied. This was a door formed from divine materials, and not even exceptional talents could easily break through.

"So poor, only these holy medicines? That bastard Divine Dark Child is too miserly. How does he even cultivate normally?" Shi Hao was discontent.

Underworld Clan dared to feel anger but didn't dare to act out on it. They had been slaughtered to a helpless state.

"Did you all hide it? Forget about divine medicine, you all don't even have half divine fruits." Shi Hao berated.

Underworld Clan's people were truly speechless. Who could pick divine medicines? How many of those were even dug up? Half divine fruits were things that could be stumbled upon but not begged for.

"We did have half divine fruits, but they were all taken away a month ago. These are the holy medicines we gathered recently." Someone explained with sullen faces.

"Speak, where is Divine Dark Child cultivating in isolation?" Shi Hao shouted. He wanted to pay his nest a visit.

"I don't know, each time, it is always the divine child who personally returns to bring away the precious medicine. No one knows where he is cultivating." Underworld Clan's people replied with lowered heads.

"Go, to the next house." After looking around with the dual-pupil and making sure there wasn't anything they overlooked, he headed to the next power.

Soon after, he plundered another sect. This time, his rewards weren't bad, much better than those from Divine Dark Palace.

"Not good, I just received news that Six Crown King Ning Chuan is going to come back!" After plundering from two places, Luo Dao spoke next to Shi Hao's ears.

This was definitely shocking news. Once Six Crown King appeared, who could compete against him? He would be unmatched under heaven.

"Is that so? He has a power in this city too? Then we'll just go there!" Shi Hao said.

1. Qi also means male unicorn, and Lin means female unicorn. Only the character Qi was used, which was why I named it Octadic Treasure Unicorn, but it might be more correct to just leave it at Octadic Treasure Qi

Chapter 843 - Hand Bone

Outside world, border of uninhabited region.

There were people carving characters. Names appeared on the flower petals one after another, yet none of them showed any reaction.

They were all hidden by the heavens, not allowed the people here to see what was going on. Those individuals were all extremely special, carrying out the deepest level of transformation. Outsiders could not see them.

“Yi, there’s was a reaction. Ning Chuan has appeared. Did he come out of isolation?” Someone cried out in shock.

A group of sect masters raised their eyebrows, all of them looking forward.

As for the group of heavenly deities and true deities, they were all shocked. Their eyes flickered with radiance as they stared at the glossy and enormous stone monument, the figure that was gradually becoming clear.

Sure enough, Ning Chuan appeared, standing there. Chaotic mists pervaded the air, exceptionally mysterious.

That was an ancient cave, and there were chaotic irregular sculptures there. One could see just how shocking this precious land was.

“There will be another life and death trial again soon. I can definitely pass it, only, half divine fruits and holy medicines aren’t enough. This time, after harmonizing everything, I should pay the outside world a visit.” Ning Chuan said to himself.

He walked out from the ancient cave, walking slowly by himself as if he was adjusting his state of mind. He had clearly emerged from isolation for a few days now, adjusting himself to an optimum state this entire time.

Soon afterwards, he returned to the ancient cave, sat down, and then the chaotic mist surrounded him.

“What is that?” In the outside world, everyone’s minds trembled. Even with Immortal Ancient separating them, they still felt a bit shaken up. Through the stone walls, they felt a mysterious type of aura.

Even sect master level figures were startled. They knew that Ning Chuan obtained something heaven defying.

Sure enough, someone recognized that ancient wooden case. A great figure cried out in alarm.

“World Tree! It is actually a precious case carved from a portion of the World Tree’s core! How extravagant!”

This type of thing could allow one to comprehend the dao. By keeping it at one’s side, it would be greatly beneficial for their cultivation. All of the sects were greatly shaken.

One has to understand that this type of thing was already impossible to find in this world. The World Tree had long been cut down, no longer in existence. It contained traces of the heavenly great dao.

Finally, the wooden case opened. A wisp of the great pressure actually seeped out from the Immortal Dao Flower’s petals, making everyone shiver inwardly.

“That is... a person’s hand bone?”

Everyone became stunned. They never expected that what was sealed within Ning Chuan's World Tree precious case was a bone that seemed extremely simple and ancient, not much luster to be seen.

That type of white looked like it had gone through the great changes of time, losing its sparkling luster, only having an ordinary whiteness.

"It can't be an ordinary person's bone." An old heavenly deity said.

Everyone knew that Six Crown King Ning Chuan was extraordinary, unmatched from past to present. How could the bone he stored in the World Tree precious case be ordinary?

"I reckon that it is most likely an immortal bone!" An old sect master said.

True immortal hand bone, when this speculation emerged, it triggered a great commotion. Everyone's expressions changed.

This was definitely a rare precious item. It had already become a legend, no longer appearing in this world, already lost in Immortal Ancient Era. In the current great era where bone texts were king, the value of that hand bone was unfathomable.

Ning Chuan bit his own finger, and then a few drops of blood dripped downwards, scattering on that dull hand bone. That hand bone immediately underwent shocking changes.

It immediately became spotlessly white and sparkling, and it contained a type of vitality. The bone texts on it interweaved, symbols covering it densely, releasing shocking fluctuations.

"Heavens, this bone is formidable. Who knows, that immortal's natural luck might all be in those bone texts. This is inconceivable. Such a thing is actually intact!"

Everyone widened their eyes, feeling incomparably shocked. Ning Chuan's natural luck was unimaginable, shockingly great.

Hand bone, an artifact of battle!

This kind of bone was actually left behind, making it hard for everyone to calm down.

Ning Chuan was extremely calm. He seemed to understand this bone deeply, keeping it by his side for who knew how many years. He then fiercely tore open his own left hand, merging this bone inside.

This was an extremely strange process. That hand bone unexpectedly merged with Ning Chuan's bones, releasing a gentle radiance. It was incomparably holy.

His flesh in that area began to move about, the injuries quickly closing.

"What is he trying to do?" Everyone became shocked.

Soon after, that hand shone. Bone texts interweaved, and then they extended along his arm, releasing holy radiance that surrounded that place.

Immediately afterwards, no one could see anything anymore. Ning Chuan's figure disappeared from the Immortal Dao Flower's petals, no longer appearing on the monument.

“Why do I feel like he is doing something he is familiar with, as if he had done this a long time ago, that this isn’t his first time? Did he completely comprehend those immortal dao symbols?”

“Formidable. Is a heaven defying figure really going to emerge from this world? Even the hand bone of an immortal exists, the bone and symbols still alive!”

“I feel like he might be able to come out after just a few more days.”

It was hard for the outside world to calm down. Everyone was shocked.

Radiant City. Shi Hao brought some people directly into Six Crown King’s official residence. There wasn’t much to be said. They directly barged in.

“Who are you? Why are you doing this?” Someone shouted.

“This old one came to demand repayment. Surrounding us and attacking us from all sides feels good huh? Today, we are going to smash apart your residence, see how smug all of you act then.” Lan Yichen said.

“What about the Octadic Treasure Unicorn?” An elder appeared like a ghost, blocking their path.

“A puppet, True Deity Realm?” Luo Dao was shocked.

There were no exceptional talents here, as all of them were out in the world looking for their own natural luck. Normally speaking, if there wasn’t anything unexpected, they would only come back every so often.

Apart from this, there were two experts who already headed for Silver Polish Mountain.

“I have arrived!” Shi Hao spoke, walking forward indifferently. The Kun Peng wings behind him moved, sending golden multicolored clouds and mist to overflow into the heavens, shocking all of Radiant City.

“And who are you?”

“The sinner’s blood descendant in your eyes.” Shi Hao said coldly.

Hong!

He brandished his fist, slaughtering his way over. This place erupted, divine force surging boundlessly.

The elder wasn’t a living creature, but he wasn’t much different. He was controlled by another, but was still capable of speech and movement. He was at the true deity level, and right now, it activated precious techniques and attacked at Shi Hao.

Peng!

Dang!

Loud sounds rang out incessantly in this place. Bone texts interweaved. They clashed intensely.

Under everyone’s shocked eyes, Shi Hao’s fist reached flesh, and his palms reached bone, blasting this true deity puppet until it split apart, and then exploded!

In the surroundings, everyone became stupefied, all of them sucking in cold breaths of air. Who was this? This was just too terrifying, a Divine Flame Realm expert destroying a true deity!

This triggered a huge commotion!

“Sinner’s blood descendant has come! Is it that person from Sin Province?! How powerful!”

Shi Hao released his Kun Peng wings, blasting all those who blocked the way until they coughed out large amounts of blood and flew outwards. Six Crown King’s people couldn’t stop his footsteps.

“This treasury isn’t ordinary, having quite a few good things.” Before he even opened it, Shi Hao smelled medicinal fragrance.

Hong!

He destroyed the entrance and directly charged in. A rain of dazzling light immediately surrounded him. Six Crown King’s treasury was astonishing after all, with spiritual medicines in piles, holy medicines in rows, and four or five resplendent fruits.

“Eleven holy medicines, five half divine fruits, how astonishing!” Even Luo Dao couldn’t help but cry out in alarm.

Holy medicines were still understandable, since one could find them if one earnestly looked through Immortal Ancient, but half divine fruits weren’t that easy to find. They were all in dangerous places, difficult to acquire.

“Rather than going through all that trouble to pick medicines, it’s better just stealing them.” said Shi Hao.

What could those people say? Who dared to plunder like this? He was the only one who dared to touch Six Crown King’s stuff! This person wasn’t scared of anything!

“When is Ning Chuan coming out?” Shi Hao asked.

“My king might appear in a few days!” An expert spoke loudly, his eyes carrying chilly radiance.

Peng!

Shi Hao directly sent him flying with a palm. “Look at how fanatical you look. When the time comes and I chop him up like vegetables, I wonder what kind of expression you’ll have then.”

He swaggered off with his people behind him, heading to their next destination.

He even dared to steal Six Crown King’s things. This triggered a huge uproar.

“Dao friend, please stop for a bit.” On the street, someone shouted from behind him, taking the initiative to ask Shi Hao to stop. This drew quite a bit of attention.

News already spread that the sinner’s blood descendant arrived, wantonly stealing from Six Crown King, and Divine Dark Child’s palace. Who dared to provoke these people normally?

“Who are you?”

"I am someone from Fallen Deity Ridge's people. My clan's great one is Fallen Divine Child." This middle aged person spoke. n-Over**l**l

When the surrounding people heard this, all of their expressions changed. This was an extremely terrifying sect. Fallen deities were demons, one of the demonic dao's four great ancestral halls, the most terrifying type of place.

Fallen Divine Child was an ancient freak. Even though he only appeared once, seizing the number one ranking of that time, he killed a Three Crown King, intimidating all three thousand provinces.

"En, the one that participated several thousand years ago in the great battle of three thousand provinces?" Shi Hao asked.

"Correct, he only participated once, but he killed a Three Crown King and a Two Crown King." The middle-aged man replied.

It could be said that Fallen Divine Child was extremely terrifying. Even though he only appeared once, he was well known among ancient freaks. One has to understand that he entered as a newcomer, yet he killed an ancient king. How shocking was this?!

From this, one could tell that great waves were stirring. Those that remained were all heavenly talents, all of them the most powerful experts. The slightly weaker freaks have all encountered disaster!

The remaining people would only be stronger!

Shi Hao's eyes became cold, because he thought about his two martial brothers who were humiliated by the one who was humiliated in the last 'number one under heaven', chased away from Supreme Being Dao Rite.

"It seems like you don't understand much about me or Fallen Divine Child." Shi Hao said rather meaningfully.

"My clan's great one likes meeting heroes. We believe that an alliance can be reached." The middle-aged man spoke.

"Where is your great one's manor? Let's go take a look." Shi Hao said.

"I have only just arrived in Radiant City, so a mansion has not been raised for great one yet. In the past, we were situated in a different city." The middle-aged man said.

"Then come look for me when you've finished building it and gathered enough good stuff." Shi Hao turned around to leave.

"Huh?" The middle-aged man was speechless.

"Run! A devil king came! The sinner's blood descendent came, the one suspected to be Huang is coming to steal from the treasures of every clan!"

Radiant City was in chaos. Everyone was running out of fear that Shi Hao would pay them a visit.

This made him feel depressed. The disturbance was just too great! He was just robbing a few clans, yet it ended up shocking the entire city. When he paid others a visit, he discovered that many of their manors were already empty.

“Don’t panic, I am settling things with those who fought over my Octadic Treasure Unicorn.” Shi Hao transmitted. In the end, a great rumbling sounded, and even more people ran.

He was speechless. He turned around to look at Luo Dao and Lan Yichen.

Luo Dao shrugged his shoulders helplessly. “Back then, during the great chaos, the entire city surrounded us.”

“These holy medicines, half divine fruits aren’t enough. I am going to set out on an unprecedented route and need divine medicines.

Shi Hao frowned. He asked Lan Yichen and the others which places produced rare precious medicines in the past few months. He was going to look around.

“There is one place that is quite special, rumored to be the nest of one of the vicious ten. Many people flocked over, and quite a few people smelled a divine medicine, but couldn’t find it. Countless people have died already.”

“What kind of nest?” Shi Hao asked.

“Seems like an ant nest, but it isn’t one. It is suspected to be the isolation ground of the most powerful of the Archaic Vicious Ten. That creature might be the existence with the greatest unmatched strength from the past to present.”

When Shi Hao heard this, he was immediately interested. “Go, let’s take a look to see if this expert really left behind any divine medicines. Who knows, it might even be a long life medicine.”

“Six Crown King is about to appear.” Lan Yichen carried a worried expression on his face.

“Who cares if he comes? I’ll chop him up!” Shi Hao said, not minding this at all.

Chapter 844 - Nest Realm

Nest Realm, within a primitive forest.

The tree leaves above the ground were extremely thick, already gathering several feet, so the ground was rather soft to walk on. The forest carried a decaying aura.

Old trees were densely packed, towering into the sky. Lush and flourishing branches formed an enormous expanse of tree shade, many places not receiving any sunlight all year round as a result. Once fruits or other things fell, they would quickly grow mold.

Nest Realm, this place obtained its name from being the nest of one of the vicious ten.

This place was quite far from Radiant Realm, a relatively larger small world. The ancient forest had many poisonous vicious beasts, making this a dangerous place.

“This is the nest of the one suspected to be one of the vicious ten?” Shi Hao asked.

“We aren’t there yet. This is just the outermost region. That place is extremely dangerous, and many people have already died, numbering at least eighty thousand. Blood has already dyed the cliff red.” Luo Dao said.

The death toll was rapidly climbing by the day. It was all because this was the nest of one of the vicious ten, a place that had astronomical natural luck. It made people crazy, all of them flocking over like moths to a flame.

Currently, they were quite deep into the mountain region. Ancient trees covered the sun, enormous vines wrapped around mountains. Beasts roared, ancient birds took to the skies. There was a wild and savage feel to this place. There were quite a few prehistoric creatures.

For example, Two-Headed Dragon Bird, Ancestral Crocodile, Sky Swallowing Snail, and others. All of them were terrifying!

Even Shi Hao felt like he had to back off. Some of these creatures’ cultivation levels were terrifyingly high.

These were the primitive creatures of Immortal Ancient. They lived in this special region, and normally speaking, wouldn’t leave their respective dwellings, but they wouldn’t tolerate the provocations of others either.

“Let’s rest up under this mountain. There might be a great battle soon.” Lu Yi said.

On a mountain that was several hundred zhang tall, not a single blade of grass grew. It was quiet, without sound. There were quite a few spiritual medicines nearby, their fragrance wafting about.

The spiritual essence within Immortal Ancient was just too rich. These medicinal herbs flourished, with medicines that were several tens of thousands of years old appearing quite frequently. This was why there were holy medicines that were produced.

Suddenly, Shi Hao’s fine hairs stood on end, his entire body shining, golden symbols extending outwards. Those that followed him quickly retreated, travelling over ten thousand zhang away.

Peng!

In their original place, an enormous head reached out. It had two flesh horns, its body an ash gray color. There was large amount of mucus as well. It looked quite terrifying.

“A Sky Devouring Snail!” Lu Yi’s face became pale. The place he chose to rest, that stone mountain, was actually a snail! It was several hundred zhang tall. The snail’s shell was a dark brown color that resembled stone.

“It’s not too bad, only at the great circle of true deity level, not advancing past it.” Lan Yichen said.

“Need to be a bit careful. This snail is poisonous. If it swallows or even makes contact with you, it will be inevitable death. Its poison can kill even powerful heavenly deities.” Luo Dao said.

That mucus couldn’t be touched, or else it would destroy one’s dao foundation. No medicine would be able to cure that person then.

Fortunately, this wasn't where Immortal Ancient's primitive creatures gathered, with ancient creature appearances rare. It couldn't be considered the most dangerous place.

"Those tribes truly have heaven defying treasures. Those extremely ancient creatures' ancestral grounds have rare divine medicines planted within them, their worth unfathomable. Unfortunately, no one dares enter those places." Luo Dao sighed and said.

The primitive creatures in those places were exceptionally powerful. Even if a higher realms' sect master personally came, it would be difficult for them to survive after barging in. Everything pointed towards disaster.

However, what people didn't understand was why they would never leave those ancient places. Unless there was a huge disturbance, they would always be content just staying inside those places.

"I've always felt like it was odd. Why don't they come out? Also, they don't communicate with anyone else, just like living dead." Lan Yichen said.

"The geniuses that entered Immortal Ancient, there were some that stayed behind due to unexpected events. Their descendents also live in Immortal Ancient, only, these people, once they reach the later stages of life, would always have strange things happen to them, dying mysteriously or going mad. Is it related to this?" Luo Dao voiced his skepticism.

"There are too many things unknown in Immortal Ancient. It is best if we act carefully." Lu Yi said.

They made a detour around this place, not clashing head on with that Sky Devouring Snail. This type of creature, unless it reached the Heavenly Deity Realm, would move rather slow. They wouldn't be able to catch up to them.

"We are getting close. It is precisely this region. Currently, no one has truly set foot into the innermost depths of the nest yet. They would all run into various types of problems." Luo Dao pointed forward.

This was a hazy region. Gray mists swirled about, not all that thick. However, the scenery in the distance all became hazy and indistinct as a result.

Stone mountains, ancient trees, streams, everything that should be there was there.

Only, this place truly had a sinister aura, making it quite unusual. It always gave one a rather uneasy feeling.

This forest wasn't that tall, all small trees there were half a person's height. It was unknown what their names were, nor could anything special be seen about them.

Only, whenever cultivators entered this forest, they would lose their way, generally wandering about for several days.

"After this forest is the vicious nest?" Shi Hao asked.

"En, we'll be able to see it after making it through this place. However, we might not be able to enter. The paths everyone takes are different. There are many strange distortions in space, extremely mysterious."

“Since so many have died, why are they still coming one after another?” Shi Hao asked.

“Who wouldn’t be moved by the nest of a vicious ten? Moreover, even if one can’t enter, there are still many areas of natural luck in these nearby regions. Quite a few people have received great harvests.” Lan Yichen said.

This forest was known as Ghost Forest.

After entering, Shi Hao immediately knew why it had this type of name. As soon as he entered, it was as if the stars moved, as if he experienced great changes, the scenery of heaven and earth transforming.

In this place, layers after layers of dense fog covered everything around them, making it easy for them to lose their way and forget themselves.

“This is strange. Just now, for an instant, I became absent-minded. I almost forgot even my own name.” Lu Yi shivered inwardly, as if he had just experienced a reincarnation.

Shi Hao nodded and said, “En, just now, there was a strange power that made my primordial spirit waver. However, it has been cut off by my heavenly passage.”

After entering this place, they immediately saw a few figures, all of them searching around for a path, wishing to enter the vicious cave.

This Ghost Forest was rumored to cover ten thousand li. It was extremely large.

Despite this being the case, they would run into experts from time to time. No one could be certain just how many people came.

Shi Hao and the others’ journey could still be considered smooth. They had only walked out half a day, yet they were already approaching the nest. That place was surrounded by primal chaos.

“Those mountains, are they all made of stone? Yi, something’s wrong. They seem to be volcanoes.” Lu Yi was fearful.

That place was extremely mysterious with an expanse of mountains. The insides were all hollow like volcanoes, all of them massive as they towered there, curling with great dao energy.

When the primal chaos mist scattered, the sky above was revealed. It made one feel even more shocked.

Above the mountains were blood moons. After closely counting them, they counted a total of thirty-three blood moons not too far away. They were especially large.

“Don’t tell me that they represent the thirty-three layers of the sky.” Shi Hao muttered.

It looked like the thirty-three blood moons weren’t too far from the mountain below, as if there was only several hundred zhang between them.

Honglonglong!

A noise sounded from the distance. Ten even larger celestial bodies appeared, moving out from within the primal chaos, shining with resplendent radiance. They were ten times larger than the blood moons.

These were actually blood colored suns!

Lu Yi was shaken up, not daring to believe what he was seeing. "This is an ancient irregular phenomenon! How could it be like this? Ten suns appear, thirty-three blood moons shining, all of them above this ancient place, looking like they are about to touch the ground surface."

"Ten blood suns, and thirty-three blood moons, rumored to all be dyed red by blood during the Immortal Ancient battle!" Luo Dao spoke. Even though it wasn't the first time he saw this, his eyes were still full of shock.

This was definitely a great event. Ten suns and thirty-three blood moons were all imprisoned in midair, illuminating the vicious nest. What could compare to it since the ancient times?

"The blood of immortals dyed these suns and divine moons red, it is terrifying after all. Just what kind of existence fought here before? It truly makes one feel a type of yearning, born at the wrong time, unable to see what happened in Immortal Ancient Great Era..." Shi Hao released a long sigh.

The others' expressions changed. This fella was strange after all, actually wishing he was born in that kind of terrifying great era. Everything had already been destroyed, and the blood of immortals even dyed the sun and moon red. He actually still wanted to look back, wishing to exist in that time!

"There has been a rumor since ancient times that sooner or later, that kind of battle will erupt. If you truly can reach that step, you might be able to personally see everything, understand all of the details and secrets." Lan Yichen said. **nOvE.lb.ln**

Suddenly, rumbling sounds could be heard. Three thousand enormous stars appeared, most of them blue colored. They emerged from the primal chaos and floated there, moving around this ancient place.

"How astonishing. Don't tell me that this is the three thousand types of ancient heavenly dao..." Lu Yi said.

Upon closer inspection, these blue colored stars carried spots of blood, some of them half dyed by blood. It was quite bizarre.

Now, Shi Hao believed that these stars were likely truly infected by immortal blood. Rumors always had a certain amount of reasoning behind their existence, not completely unfounded.

He stared for an extremely long time in that direction.

"Something's not right. It seems close, but I feel like we are still extremely far away, as if there is a void separating us." Shi Hao frowned. He had a feeling that the ancient place was still extremely far away.

Luo Dao and Lan Yichen couldn't help but sigh. This fella's spiritual senses were truly unique, able to see through its intrinsic quality. Back then, they had been at a loss for an extremely long time.

"Correct, there are many regions outside the vicious nest, all of them surrounding that piece of ancient earth. They looked extremely close, but every piece of land is actually extremely large with great natural luck within."

It was clear that there were some spatial laws here. They looked like they were almost within reach, but in reality, they had pieces of divine earth, demonic land, and holy realms surrounding it.

Shi Hao's eyes released symbols. He stared at the zone in front of him, and sure enough, changes immediately took place.

"Yi, it's a place of natural luck. The spiritual essence is just too vigorous. Spiritual liquid actually condensed into a lake in that region, and there are phoenix fish with brilliant wings. These are divine creatures that can extend life! Enough to make sect masters' eyes as red as rabbits' eyes!" Shi Hao was shocked.

That was one of the rare creatures, its life source shocking.

In another region, there was clearly a divine fruit tree that possessed divine aura. The ancient tree was upright and strong, shining with splendid multicolored clouds, its branches abundant and luxuriant. There were cultivators roaming about, wishing to approach and pick the divine fruits.

There was another holy realm where an ancient palace floated above a river of life. Dao sounds rumbled, symbols flickered, it was as if sutras were being chanted there.

"How mysterious!" Shi Hao was shocked. He was a bit impatient. Forget about the vicious nest, just these regions were worth exploring, with great natural luck to seize.

There were just too many extraordinary places, all of them having divine objects. Obtaining any one of them would be extremely shocking!

Chapter 845 - Emerging One After Another

Shi Hao and the others headed forward, proceeding towards those secret realms.

Suddenly, the road underneath those people shone brilliantly. A small silver path appeared, taking them forward. They surprisingly didn't even have to walk or control anything, and just like that, they entered one of those regions.

This was beyond their choice. They were brought in through the extension of those mysterious ancient paths themselves, bringing those who arrive here forward.

"Why did we mysteriously end up here? This is too much of a pity. Just now, I clearly saw several powerful divine fruit trees!" Shi Hao was upset and regretful.

The region they arrived at weren't those wondrous places he saw just now. There were no divine objects to be seen right now, but the spiritual essence was similarly shockingly rich.

In the void, from time to time, the spiritual essence would condense into liquid and fall onto the ground. There were a few depressions in the ground that were filled with spiritual liquid.

"No matter, these areas are all adjacent to each other. We'll search them one region after another, so sooner or later, we'll find them." Luo Dao said.

In the secret earth, one would find tens of stalks of spiritual medicines just by raising their heads. If it was in the lower realm, each spiritual mountain would only be able to grow a single stalk, yet here, they were actually so numerous.

The main reason was because the spiritual essence was too rich, able to support their growth.

Even though they were precious, Shi Hao didn't pick them, because he knew that his road was difficult and that it would be hard to make out alive. If they weren't holy or divine medicines, they couldn't save him.

These ancient trees were especially large, their leaves crisp and lush green, as if they were carved from jade, flowing with green magnificence. They reflected light like mirrors, especially rich with vitality.

Unfortunately, they weren't any divine trees and were instead just normal trees. However, their vitality far exceeded the old trees of the outside world. They stretched several hundred zhang into the air, some even reaching over a thousand.

"It is quite strange. These trees should have withered after existing for thousands to tens of thousands of years and replaced by smaller trees. Why is this not the case?"

"There should be strange natural laws in place that stops them from forming, it is quite unusual."

As they walked over, they felt a thriving vitality, as well as endless rich spiritual essence. Every single person felt their bodies become lighter. It was an extremely comfortable feeling.

"Halt."

Suddenly, more than ten creatures arrived from up ahead, some who had horns on their heads, others with three heads six arms, they were all of different shapes and forms. They were clearly all unordinary.

Upon closer inspection, these cultivators seemed to have all become deities. Their strength were quite great, and with so many of them together, they formed quite the power.

"What do you need?" Lan Yichen asked.

A humanoid creature with silver wings walked forward, saying indifferently, "Hand over all of the treasures you have on you."

They immediately looked at each other with dismay. Did they encounter others like themselves? These guys were actually trying to rob them.

"Hand over all of the holy medicines you all have!" Lu Yi walked up.

"Aiyou, there are actually others that want to steal from us?" The other group roared with laughter. With a hu la sound, they surrounded Shi Hao's group.

Peng!

Dong!

All types of sounds rang out in this place. Soon after, this place calmed down. There was a pile of people laying on the ground, all of them struck by Lan Yichen until blood came out from their mouths, many of their bones broken.

"Exceptional talent?!" One of them widened his eyes, revealing a look of horror.

In addition, they could tell that this metal individual wasn't the most powerful one. It was actually that seemingly harmless youth who was their leader.

Soon after, they were grieved to find that the few stalks of holy medicines they suffered through untold hardships to obtain were all seized. Their bodies were completely searched through.

“Robbery!” Someone cried out with a heart splitting lung tearing voice.

Shi Hao laughed from irritation. “Have you all ever thought of this result when stealing from others?”

Luo Dao added a few more kicks, sending them flying outwards. Most of their bones were broken. Then, this group of people swaggered off.

“Damn it! We’ve been robbed!”

As these people watched Shi Hao’s group leave, they howled in grief.

Shi Hao’s group proceeded forward. They saw a few corpses along the way, all of them dying after fighting intense battles. Some of them were in quite miserable states, having their corpses chopped up, blood dripping everywhere.

All of these corpses’ precious items were robbed clean, without a single thing left behind. n./OvEℓbIn

They frowned, feeling a gloomy atmosphere. This was not some kind place after all. Those who came all went mad, thus starting fights, all for the sake of obtaining heavenly treasures.

Soon afterwards, they encountered several other groups, the most powerful consisting of sixty to seventy of them moving together. They were like a wolf pack, vicious and cruel.

Every single one of them carried a bloody aura around them. They clearly killed many people already.

These people didn’t say a single word, directly taking action to kill Shi Hao and the others.

Unfortunately, their divine senses couldn’t see through how powerful this group was.

Shi Hao didn’t hold back, taking action with Luo Dao and Lan Yichen, completely wiping out this group of several dozen. Not a single one was left alive.

Along the way, Shi Hao had seen over a thousand corpses, all of them dying in battle, having their precious medicines and other things stolen. Their deaths were quite miserable.

This region was extremely large, unexpectedly not being much smaller than a small world.

They continued forward, using several days to continuously make it through six or seven similar regions, killing who knew how many who stood in their way themselves.

Meanwhile, it was precisely because of this that, even though this place didn’t have divine medicines and other things, they still had rather plentiful harvests, to the extent where it could be considered extremely shocking.

In their world pouches, cauldrons, if they were opened up, it would be dazzling and brilliant, holy medicines piled up greatly. All of them were obtained after retaliating against these types of bandits.

“This really is too shocking! In just six days, we’ve obtained the same amount that we would’ve gotten from toiling away for half a year! There are actually this many holy medicines!” Lan Yichen sighed with amazement.

As for Lu Yi, his eyes have long gone straight.

He wouldn't leave even if he was asked to. He promised that in the future, he would personally be in charge of scouting out news regarding the great sects and report them back to him. In addition, he would take care of selling everything Shi Hao, Luo Dao, and the others didn't need.

Of course, during these past few days, they encountered a few vicious stubbles, and even Luo Dao and Lan Yichen were injured. It was because those were extremely powerful exceptional talents. In the end, however, they were all killed by Shi Hao, their blood splashing out on this ancient place.

While they were obtaining great harvests, the outside world was full of chaos as well.

In an ancient cave, immortal light shone resplendently. Symbols interweaved, and supreme being scriptures sounded, as if it were unmatched true immortals who had existed forever throughout time that were chanting.

"One of the vicious ten's nest has appeared. I cannot miss out and must take a look."

A youth got up, leaving an ancient cave.

He wore shiny long life battle clothes, his figure tall and slender, appearance handsome. There was an aura of a king to his appearance, his gaze like divine lightning.

Following a roar, his chest swirled with immortal light. It then wrapped around him, forming a shocking rainbow, his figure then immediately disappearing into the limits of the horizon.

In the outside world, the edge of the uninhabited region.

The various great sect masters were all shocked, many people found it hard to believe. They looked towards Immortal Heavenly Deity Qin Changsheng.

"It's actually... an immortal bone?!"

The voices of a few sect masters were trembling, not daring to believe what they were seeing.

The higher realms had a rumor that the Qin Clan obtained a pair of supreme being bones, and this produced a huge commotion. However, who would believe that one of the bones was actually an immortal bone?!

That bone was, without a doubt, not any inferior to Six Crown King's arm bone!

"There has been a rumor that the youth had an immortal bone, but no one treated it as true back then. I never would have thought that in reality..."

Some people began to think back to the past, feeling a wave of speechlessness.

False and truth, truth and false, it was clear that Immortal Mountain purposely released a bit of smoke to confuse everyone.

Immortal Ancient, within a small world.

On a black colored mountain, primal chaos swirled about. This was a dangerous place normal cultivators couldn't step foot in at all, yet there was someone cultivating in isolation here.

Following a long roar, a male stood up. When his eyes opened and closed, dual-pupils shocked the heavens!

Those eyes released streak after streak of radiance, splitting apart the radiance. It was as if the heavens and earth were opening. Those eyes were completely formed from symbols, resplendent and world shocking!

He roared towards the heavens, shaking up the mountains and valleys until they trembled. Chaotic energy wrapped around him. He stood on the peak of the black mountain alone like a revived war god.

Soon after, he calmed down. He overlooked the mountains, rivers, and all things. "After living in seclusion for so many years, the dual-pupils will reappear in this world. I am going to reign supreme in the heavens above and earth below!"

In the outside world, everyone who saw this scene from the Immortal Dao Flower's petals gasped. Was the dual-pupils user going to emerge from isolation?

At this moment, the eyes of all of the sect masters flickered, revealing looks of surprise. They continuously looked at that individual.

Meanwhile, a few old heavenly deities even directly sighed. Many people were discussing among themselves.

Dual-pupil user, known as an undefeated legend from past to present. This type of person was nearly insurmountable. Their deaths were all because of special reasons, such as attacked from all sides or if a giant took action, ending their lives prematurely.

"The dual-pupil has appeared again after being eradicated in the Ancient Era. This will likely create a huge disturbance. There is no need to doubt his fighting prowess!" Someone said with a sigh.

For a dual-pupil user to enter Immortal Ancient, this was simply like letting a dragon into the sea.

"Even this type of dazzling and powerful figure had suffered a defeat before. He had been defeated by Huang in the lower realm, almost killed then!"

When these words were spoken, all sides began to discuss among themselves.

"When they meet again, the weak and strong will be decided. The dual-pupils is something that can awaken all innate divine abilities!"

Everyone looked forward to this, hoping that these two heroes would fight it out again.

"En, Six Crown King Ning Chuan has come out from isolation as well. This is truly a gathering of storms. Great chaos is going to erupt soon. If they meet, it will be unimaginable!"

Someone cried out with shock. It was because he discovered that Ning Chuan also came out from isolation!

Immortal Ancient, in a cave no one knew about.

Ning Chuan opened his eyes. After reviving, brilliant colors swirled about his body, immortal multicolored brilliance dazzling, making him look otherworldly and refined, just like a reincarnated immortal king.

Only, in the depths of his eyes, there was a dignified look. There was a pressure exuded even without displaying anger.

He stood up and said, "Regardless, I should go out to take a look. I am familiar with that vicious nest, and in the past six times, I haven't obtained anything from it. I hope I can obtain some type of breakthrough this time."

"Only, it is not suitable for my true body to act recklessly." He frowned, releasing a sigh.

"As expected, even Six Crown King is going to move out, also for that vicious nest. The Archaic Vicious Ten have shaken the world under heavens, and not even he could sit still and just watch."

In the outside world, many people were expectant. They wanted to see how stunning Six Crown King was, what kind of unmatched style he was going to display.

"He came out from his cave!"

"Is that his true body?"

In Immortal Ancient, a figure walked out, clothes as white as snow, even the socks and shoes like this, not tainted by the aura of the world.

Six Crown King Ning Chuan walked out. With just a few steps, he disappeared into the limits of the horizon, fast to the point of making people tremble inwardly.

"I should get rid of the sinner's blood descendant. Only a single unordinary individual has appeared after all these years, so it is worth me personally taking action."

At the limits of the horizon, when that figure disappeared, he left behind this sentence. It was world shocking!

In the outside world, border of the uninhabited region.

Everyone found it hard to calm down. Six Crown King had emerged, and not only was he going to go for the vicious ten nest, he was going to take action against Huang as well, to kill the sinner's blood descendant. This was definitely a great matter!

Chapter 846 - Divine Fruit Forest

Nest Realm, the mysterious regions around the vicious ten nest.

The mountain forest was lush with life, the road rugged. It was difficult to fly through this place, as there were restriction on space.

A decaying aura transmitted over from extremely far away, with the smell of rotting wild fruits, as well as decomposing thick leaves. This was even more so caused by the corpses of some beasts.

Only, after continuing forward, the faces of Shi Hao's party changed. The rotting smell changed, now smelling extremely foul. This was definitely much worse than that of when only one or two vicious birds or beasts died.

Soon after, a dark redness appeared on the ground. Corpses rested in sixes and sevens all over the mountain ground, numbering not less than a hundred in total. They had long died, who knew how many days ago.

Normally, after becoming a deity, only rarely would one's vitality be harmed. Even when they passed away, their flesh should be preserved for a long time. However, here, normal reasoning was broken. There was blood everywhere, and divine corpses were rotting.

The stench made one wish to vomit. It was difficult to endure.

"What happened? Why did so many die all at once? Even if they were robbed, they should've ran in all directions and not be piled up together like this."

While carrying doubt, they continued forward. Soon after, those people were horrified, because in the mountain forest, there were corpses everywhere. They found more just by walking a bit further.

"Corpses piled up like mountains... there are just too many! Did some kind of problem occur?!" Lu Yi's face was deathly white. This was just too terrifying. It was quiet without sound, because all of these creatures were dead.

They only traveled for a few li, yet they already discovered over a thousand skeletal remains. It was now more than half of what they saw in the last few days.

The most important thing was that they were all concentrated in the same area, as if it was an entrance into the underworld. There was a wave of austereness, and even more a type of cold gloominess.

The blood suns hung in the air, the ancient trees towering below. Rotting divine corpses could be seen everywhere within the thistles and thorns. This scene was just too terrifying. There were no sounds apart from their footsteps.

Even Luo Dao and Lan Yichen's faces weren't pleasant. Both of them were clenching their fists, their finger joints long turned white. It was clear that their minds were taut as well.

"This is a dangerous area. We cannot proceed any further, or else we'll follow in these people's footsteps. We haven't seen another living person after arriving in this ancient place."

They haven't seen even a bandit here. There were only divine corpses, as there was no way supreme expert bodies could exist. The rotting stench was extremely strong.

They climbed over a steep cliff. There were many corpses here, piled up like a small mountain. There were no lack of exceptional talents among these corpses. It was extremely shocking!

The cliff was scarlet, a color produced by blood. It had long dried up, and even now, the pungent bloody odor could still be smelled.

"There are even true deities here?!"

Everyone was shocked. They discovered a few unique bodies that had all already broken through into the True Self Realm, but they still died here. One could see just how dangerous it was.

Those individuals weren't exceptional talents, their bones not that outstanding. They clearly had some secret methods. They likely didn't enter Immortal Ancient hoping for anything heaven defying, only wishing for wondrous medicines to increase their cultivation realms. They came here to pick holy medicines and bring them back for their sects.

Unfortunately, they were still buried here, becoming rotting divine corpses.

The cliffs transformed, white bones everywhere, it was just too terrifying, dazzling like white snow. In addition, baleful energy overflowed into the heavens, the coldness penetrating down to the bones.

What kind of place was this? It made one's scalp a bit numb and their backs produce cold energy.

They counted them all up. From the start until now, this region had more than twenty thousand corpses already. This was definitely a demonic earth. So many deities died at once!

"I feel like it is still best to withdraw. There is no need for us to put ourselves in so much danger. I never expected there to be this type of dangerous place, with even true deities and exceptional talents' corpses everywhere." Lan Yichen said. There was a dark cloud over his heart. He felt quite uneasy.

"You all should return. I'll go and take a look up ahead." Shi Hao said. He couldn't resist the urge to investigate further. The main reason was that he had his own methods, so he could escape if there was danger.

Luo Dao and Lan Yichen gave each other a look. They clenched their teeth and decisively proceeded. People were heading here wave after wave, dying here as a result, so who knew, there might truly be some kind of natural luck.

Unfortunately, they weren't familiar with this place, never hearing about it before.

Lu Yi shivered inwardly. He wanted to withdraw, but when he saw the three others advance, he didn't dare return by himself. With a sullen face, he could only follow along.

"This is..."

Beyond the bone covered earth was another expanse of snowy whiteness, most of it a white colored powder. From time to time, a few broken bones could also be seen.

In addition, when they stepped foot into this place, the chilliness those individuals felt became heavier, as if they entered a world of malevolent spirits, the most terrifying slaughtering field. Their bodies felt as if there were blades hacking down on them.

This was all produced by the erosion of bones, all turning into powder. **nOve.lb**.In

These were definitely not bones of the present world, but rather an accumulation after endless years of time. They were all piled here, forming a world of white powder. Yin energy overflowed, the icy chilliness penetratingly cold.

Every single one of them felt uncomfortable while walking through this place. The sinister energy was too heavy, as if they were walking in the underworld.

“There is a strange natural law here that can slowly erase one’s flesh. No wonder the further we walk in here, the less flesh and more bones we see.”

“We’ve reached the end. If there are any abnormalities, it will be just up ahead.”

At the end of the bone field, the void distorted, becoming slightly indistinct. Sinister light was released from that place, clearly a mysterious and strange region. There were formations protecting this place.

“Save... me!”

Suddenly, a weak voice could be heard from up ahead in this eerie and deathly still danger spot, calling out to them.

Those individuals rushed forward. Sure enough, it was an exceptional talent, and Lan Yichen even recognized him. They had previously met.

When he saw them, he opened his mouth with difficulty. Those lips were already starting to rot, and in the end, he couldn’t speak another word. His eyes grew dim, and then the final strand of primordial spirit scattered.

“Why did he suddenly die?” Lu Yi took a few steps backwards while staring at that corpse on the ground.

Those individuals’ expressions all became grave. An extremely powerful exceptional talent even died here! This place was not ordinary after all. It was a demonic earth with great dangers.

According to Lan Yichen, this exceptional talent was already at the great circle of the Divine Flame Realm!

His flesh rotted, and the most vital areas, for example, the heart, throat, space between the brows, were all scorched black. There were bloody holes as well, previously pierced through by lightning.

His flesh was already mushy, his forehead pierced through as well. The only reason he could still transmit sound was due to his final strand of will persisting.

“Back up!” Shi Hao suddenly said. His finger then became like a sword, releasing sword radiance. With a pu sound, this person’s head was blasted open. Rotting liquid splashed outwards, its smell incomparably pungent.

Weng!

A small black point released the sound of fluttering wings. It quickly rushed at Shi Hao’s left eye with incomparably viciousness. It had a sharp metallic point, about to pierce into his head!

Duo! Shi Hao released lightning from his mouth, firing out an expanse of golden symbols. They landed on that black speck, making its body tremble greatly before falling onto the ground.

It was a sinister bug, jet black like ink, only the size of a fingernail. Its body was now in pieces. It had a pair of transparent wings, its appearance savage like a fiend’s.

"It was this that killed an exceptional talent?" Lan Yichen frowned. Just now, he felt something hiding in that exceptional talent's head. It was precisely this creature that wiped out the exceptional talent's final will. Only, they never expected it to be this type of pitch black vicious bug.

"A single bug is definitely not an exceptional talent's match." Shi Hao said.

The void became indistinct, slightly distorting. Sure enough, there was an extremely ancient formation protecting this place. It was a secret earth.

However, there was an area that had an opening they could enter from. If they weren't mistaken, all of the ominous and horrifying things originated from within.

"Wake up, help us look at this formation's changes so that we don't lose our dao because of it." Shi Hao woke up the Divine Striking Stone.

"With this master here, where wouldn't you be able to go under the heavens?" The Divine Striking Stone said cockily.

At the limits of the eerie white bone field, the great formation stretched into the sky, cutting off the road ahead. Strand after strand of radiance seeped out from the opening. Their group walked inside.

Immediately, the world changed greatly, becoming vastly different.

Those individuals stared blankly. It was completely different from what they had imagined! They originally thought that it would be dark, gloomy, and terrifying to the extreme, never expecting that the world would become so divine and peaceful. Auspicious energy descended from the void strand after strand.

This was a brilliant and radiant world. All things were bathed in holy light, and auspicious multicolored light flowed about. It was like an ancient immortal world out of a fantasy.

"Heavens, divine fruit tree, there are so many of them there!"

After being momentarily dumbstruck, Lu Yi widened his eyes with shock. He stared at the ancient earth ahead. There were several dozen ancient trees with shining leaves and branches like jade. They were surging with vitality. There were unexpectedly divine trees!

"This place... I've seen it before!"

Shi Hao was shocked. Before entering, he saw a few sacred regions, and one of them had this divine tree forest. He even wanted to enter that place, but he didn't have a choice, transported into an ancient earth by a small silver path. Turns out it was precisely where he wanted to go!

"We're rich! So many divine fruit trees! Heavens! I have never seen such a thing in my entire life! Today, my eyes have truly been opened!" Lu Yi's voice was trembling.

Forget about him, none of the others had seen such a thing either. There were several dozen of them, growing together, auspicious radiance flowing about. It was too resplendent and peaceful.

“Great natural luck! Is my dao confirmed now?” Even Shi Hao’s voice was trembling. He was still worried about a lack of great medicines, that there was no way of saving himself later, unable to enter isolation cultivation.

Now, with this divine tree forest before him, his entire body felt relieved. If he could pick divine fruits, then there will most likely be enough for him to use.

Only, while feeling excitement, he didn’t lower his vigilance. It was because the scenes he had seen along the way had just been too terrifying. Corpses were everywhere, and all of them died after arriving here.

“All of you, stand by my side!” Shi Hao said, walking forward.

The holy aura became stronger and stronger. Watching from the distance was one thing, experiencing it up close was a whole different story.

These trees were all extremely tall and incomparably ancient. Their tree trunks were spotlessly white like jade, and even the cracked bark was like this. The sparkling whiteness shone, and the leaves were lush green, releasing auspicious multicolored light.

Those multicolored lights linked up together, scattering downwards like rainbows, but also like starry streams. It was divine and astonishing.

This place contained shocking vitality, with a single breath of the air here making all of one’s pores expand, the spiritual essence pouring into their bodies.

“Those fruits are so special!”

They saw the fruits between the divine trees’ branches. They were like little shining suns. A sweet fragrance wafted outwards, seeping out from the screens of light.

The ancient trees were shining, forming a resplendent curtain of light to prevent the fragrance from leaking out. However, a bit could still be smelled, and the strands of fragrance that wafted outwards was actually enough to make one feel intoxicated.

These fruits were the size of an infant’s fist, extremely small. However, they were incomparably divine, sparkling and replete with moisture. Their colors were different, but their shapes were the same. They actually had human form.

They looked like little people, sparkling and translucent. Some were a clear golden, others scarlet red like sunrise clouds, some snow white like jade, and there were even those that flickered with purple light.

“What amazing divine fruits! The auspicious lights are endless!” Even though Lu Yi was fearful, he still couldn’t help but exclaim with astonishment.

Shi Hao’s expression became incomparably grave. He put away his smiling expression, because even after approaching so close, there still weren’t any dangers. What kind of terrifying thing was hiding here exactly?

“We’ll pick the fruits first!”

Chapter 847 - Crazy

After making this decision, Shi Hao walked out first. He warned the others again and again that they had to be careful and follow him.

“Regardless, we are also supreme beings of a province...” Luo Dao said softly, revealing great confidence. With so many divine fruits before his eyes, he couldn’t remain calm either. This was simply a tremendous opportunity and natural luck.

They didn’t recognize what type of fruits these were, but they presumed that they were definitely half divine fruits!

Divine medicine, something that could be stumbled upon but not sought after. Even if one looked throughout all of the three thousand provinces, they wouldn’t find many. Even though they existed in Immortal Ancient, they weren’t that easy to find.

Shi Hao being able to pick the Void Sky Divine Vine was a great opportunity. It would be difficult for him to find another.

Even though the trees here could be called divine trees, that was just a name of praise. To be more precise, it was better to call them half divine trees, because divine medicines were just too rare, impossible to find them in large amounts.

Divine medicines, from what they knew, mostly grew within the dwellings of Immortal Ancients’ primordial creatures. Even if a sect master came, they wouldn’t dare rashly enter, or else they might be killed.

Despite this being the case, when all of these divine trees appeared together, it was still extremely shocking. If all of the half divine fruits hanging from them were picked and added together, they really would exceed a true exceptional divine medicine. There was just too many of them!

“Going to risk it all. Today, I am going to display divine might and gather all of these half divine fruits!” In front of the divine tree forest, even Lu Yi’s eyes became green from greed, his courage immediately bolstered.

Even though he was scared, in front of such temptation, not many could hold themselves back. With these fruits almost within reach, even if they knew extreme dangers awaited them, it was still worth taking the risk.

Weng!

Shi Hao walked forward, walking through the resplendent curtain of light around the divine tree, entering a holy ancient land. The three others followed, nervous and excitedly holding their most powerful magical artifacts!

In that instant, several individuals’ feet almost left the ground. They were about to float into the air. This was all caused by the holy auspicious light.

It was too mystical. In this precious earth, divine multicolored light gathered, descending like stellar streams. The auspicious sights were world shocking, landing on everyone’s body. In that instant, it was as if they were being cleansed!

"I want to go into isolation here, comprehend the dao and study great techniques!" Luo Dao said. This type of feeling was too wonderful.

In addition, the fragrance here was rich, forming a barrier of light. It was difficult to describe with words!

"Watch yourselves!" Shi Hao was incomparably serious. As soon as he entered, he sensed the killing intent behind the holiness. He immediately straightened out his mind.

If it was a normal person, it would be extremely hard to sense this, because everything was covered by auspicious energy. It was extremely difficult to sense this terrifying danger.

Luo Dao, and Lan Yichen sensed something. They both went on their guard. Everything they saw along the way had long informed them that this was not a place that they could treat with carelessness no matter how excited they were.

Shi Hao reached out a hand, about to pick one of the exquisite human shaped fruits.

Right at this moment, a black fog appeared behind their backs. It didn't match this peaceful and auspicious pure earth at all. It quickly took form.

Shi Hao and the others felt a chill run down their backs. They quickly turned around. When faced with these sudden changes, these individuals acted calmly and cool-headedly, quickly reacting.

The black fog emerged unendingly from the round, quickly forming a humanoid creature. Its entire body was pitch-black, as if it jumped out of a puddle of ink. Only its eyes were a cold, deathly gray, appearing a bit different from the other parts.

Chi!

A streak of golden light shot out from Lu Yi's hand as soon as he raised it. This was a divine chain formed from essence gold. It landed on the shadow, directly piercing through it.

"Is that all?!" He was successful with just a single attack, making him smile and release a breath of relief. He felt like he might be able to deal with it and offer a bit of help here.

Soon after, his smile froze. After the divine chain pierced through that shadow, it didn't affect it at all. The shadow immediately reorganized itself, and then sent a fist smashing over!

This jet black fist was like a large black sun, incomparably fierce and exuding a terrifying aura. It was simply about to smash apart the void, divine force crazily surging over.

Lu Yi released a strange cry. He used the chain to resist again, wrapping it around this demonic shadow's body to restrict it.

Only, following metallic sounds, even though it wrapped around that shadow's body, that was all. It continued to charge over viciously.

It not only possessed powerful offensive strength, it was a ghostly mist itself, not being affected by tangible objects, their attacks completely ineffective on it. It directly broke free, its body recombining.

The black shadow's attacks were ferocious, its divine force terrifying. It was unexpectedly at the great circle of the Divine Flame Realm.

"I can't stop it!" Lu Yi cried out with alarm, quickly backing up.

Chi!

Then, Lan Yichen took action. A blue divine sword appeared. Sword energy emerged like rainbows, dazzling and magnificent. He angrily hacked outwards, the power he released incredibly powerful.

This sword hacked downwards, cutting the dark shadow in half, cleaving it apart.

However, a moment later, the two halves recombined. The fog condensed, forming a human form. It was still unaffected, and a fist smashed over.

Lan Yichen released a strange cry. His own attack was ineffective against the shadow, and right now, it was rushing towards him, about to injure him.

Peng!

He had no choice but to use his fist to fight against it. When the two clashed, divine force surged. Lan Yichen was shocked. He could clearly feel how powerful the other party's attack was, yet the shadow completely disregarded his attack, turning into a black mist and wrapping around his arm.

"How could this be?!" He cried out strangely. This truly was unusual, to the extent where it could be called horrifying.

This shadow disregarded all of their attacks, ever present as it attacked them.

Lan Yichen released a muffled groan. His body erupted with divine flames, and then the shadow was finally forced back. When he took a step back, he discovered that his arm had been greatly corroded.

This left one horrified. If it was a flesh body, the damage would have been even more serious. That arm likely couldn't be saved.

Blue divine light flashed. His arm melted slightly, and metal liquid flowed, quickly restoring it to its original state.

"It fears flames. Hurry and activate your dao flames!" Luo Dao spoke. After becoming a deity, one would have a divine light flame. However, this exhausted one's source energy.

Sure enough, when he gave it a try, that demonic shadow was forced back.

However, as soon as they ignited their divine flames, strand after strand of dark energy rose from all around them, turning into specters. Their cold eyes stared at them, surrounding this place.

A single one was hard enough to deal with already, yet several dozens of them appeared all at once. Moreover, there were even black shadows at the True Self Realm that were even more powerful.

"This... how do we deal with this?" This left everyone feeling dizzy. An expanse of demonic bodies appeared, a few even being true deities. Things were obviously pointing towards disaster.

Kacha!

Shi Hao took action. The space between his brows shone, releasing a streak of lightning radiance, striking a black shadow's body. It immediately released a miserable scream, its body becoming more indistinct.

"They are scared of yang energy!" Shi Hao said.

Normal precious techniques were useless against it. It could disregard material attacks, so it was difficult to injure it. Weapons in particular were ineffective.

"Yang precious techniques?" The three of them frowned. All of their bodies shone, but they discovered that the effects weren't that great. They were better off just igniting divine flames.

Only, continuously burning divine flames would quickly exhaust them. They had only done so for a moment, yet they already weren't feeling good.

Even Shi Hao was shocked. The Lightning Emperor's precious technique displayed its might, lightning interweaving. It was difficult for a single strike to wipe out a shadow, requiring several attacks to do so. No wonder the outside world was surrounded with divine corpses. These things were difficult to kill, almost inextinguishable.

"These are... ghost demons. They are a gathering of endless yin energy, gaining intelligence after obtaining divine objects." Luo Dao recalled something he saw in a bone book.

It was clear that this divine fruit forest had transformed them, condensing the yin energy. After endless years, they became ghost demons.

Normally speaking, these things were artificially made. It was extremely rare for them to form naturally.

"Not good!" Lu Yi cried out miserably. His palm was almost corroded. That black mist was too terrifying, able to refine divine bodies.

Hong!

Shi Hao fought a great battle with difficulty, yet he only killed six or seven of these ghost demons. These things were too hard to kill.

If news of this type of battle got out, it would definitely leave all sides shaken!

Hong!

A true deity level ghost demon took a lightning radiance fist head on. Dark light and electrical light erupted at the same time, making the void cave in.

Aohou...

Roars sounded continuously. The eyes of the surrounding dozens of ghost demons were ice cold. They rushed over together, and just true deity level ghost demons alone numbered eight or nine. The situation was getting incredibly dangerous.

"Die!"

Shi Hao roared loudly. Lightning was released in tens of thousands of streaks, releasing all of his potential, blasting at these ghost demons. It was as if a great sea of lightning drowned out this place, clashing fiercely with the yin energy.

“Let’s back up. It is too difficult to deal with several dozen ghost demons.” Lu Yi was terrified.

Shi Hao didn’t reply. His aura continuously surged, lightning radiance becoming even more resplendent. In addition, all of the distant clouds were gathered, drifting towards this place. He was going to use a forbidden secret method, guiding the lightning between heaven and earth.

Hong!

A streak of lightning descended, blasting a true deity to death.

Weng!

Suddenly, the sounds of wings moving could be heard. Above those tens of trees, a powerful aura of life was released. Endless specks of darkness rose, covering heaven and earth. Some of them rushed into the clouds, some at Shi Hao.

There were just too many of these bugs, the great swarm unexpectedly scattering the clouds in the sky!

The other group surrounded Shi Hao’s group. Their mouths released sharp screeches, unexpectedly able to control the ghost demons, causing them to attack frantically.

“These... ghost demons were raised by those bugs?” Lan Yichen was stunned.

These bugs were precisely those they saw along the way. Their bodies were pitch black with transparent wings. They were the size of fingernails, their appearances vicious like fiends. Their wings released a buzzing noise.

These bugs were so small, yet they were so powerful, the weakest being at the Supreme Expert Realm. There were quite a few at the Divine Flame Realm as well. They turned into streak after streak of dark light, swooping over, terrifying to the extreme.

“I know what these things are. Black Divine Bug. These divine trees are most likely Half Ginseng Fruit Trees!”

Luo Dao thought carefully to himself. He recalled a vague recalled a passage from a bone book. The Black Divine Bugs were extremely small, but they were quite heaven defying, exceptionally powerful. They liked to live together in hoards.

One shouldn’t look down on these bugs because of their size. This group could produce heavenly deities and even experts more powerful than that.

This type of ultra powerful race generally guarded all types of divine medicines and other things. The Half Ginseng Fruit Tree was a half divine medicine, so it was naturally something worthy of being surrounded by this bug race.

This was a crucial part to their evolution.

Every hundred years, they would have a chance for evolution, an innate racial characteristic. At that time, they needed to devour the Half Ginseng Fruit.

Half Ginseng Fruit, rumored to be related to the legendary long life medicine -- Ginseng Fruit Tree.

Hong!

Shi Hao erupted, blood energy overflowing outwards, frantically displaying divine might. Three True Deity Level ghost demons were destroyed one after another.

At this moment, the concentrated hoard of bugs had already slaughtered their way over. The shrieks their mouths released were extremely sharp, commanding these ghost demons to attack.

As for themselves, they also went crazy, killing energy overflowing into the heavens.

Pu!

They had just made contact when Lu Yi cried out miserably. His arm was pierced by several black lines, blood flowing outwards.

"Come here!" Shi Hao shouted, protecting him at his side. He resisted these attacks with great force.

Dang dang dang...

Lan Yichen's body trembled greatly. Several hundred bugs smashed into his body, sending him flying out. If not for his body being metal, he would have already been pierced through.

Even though these bugs were small, many of them were at the Divine Flame Realm. Only a small half were Supreme Experts. Their strength was terrifyingly great.

When so many of them gathered together and attacked a single person, that kind of power was enough to make one's scalp go numb!

"Ah..." Luo Dao cried out loudly, his head of hair erupting, sweeping towards the void. Even though he killed a few black bugs, he himself suffered from attacks as well.

These types of things were difficult to defend against. There were just too many of them! His divine magical artifact, a pagoda, had even been pierced through. Several hundred of these bugs swarmed over, half of them at the Divine Flame Realm. It was just too frightening.

Luo Dao was injured. Blood flowed continuously. A small half of his body had been pierced through by dozens of Black Divine Bugs, his current state extremely terrible.

Who would have thought that these bugs would be this terrifying? They were just too concentrated, turning into dark light and swooping over together. Not even the most powerful exceptional talents could stop these attacks.

They finally understood why there were so many rotting corpses outside. This was the result of thousands to tens of thousands of bugs and ghost demons working together. How many people could defend against this?

Shi Hao's situation wasn't too great either, because all of the ghost demons were attacking him. There were a few bugs at the True Self Realm as well. They moved their wings, rushing over, joining the assault.

It was difficult to imagine how such small bugs could erupt with such terrifying combat prowess!

The largest bug wasn't bigger than a thumb. However, it was a true deity, weaving through the void, impossible to defeat.

Shi Hao activated the Reincarnation, lightning, and Heaven Calamity Light techniques with all of his power, raining down attacks on these bugs. However, he himself was stuck in a dangerous situation as well.

His clothes were tattered, and many areas were dripping with blood. It was dangerous to the extreme.

"Come here!"

Shi Hao shouted. He opened his only heavenly passage, protecting Luo Dao, Lan Yichen, and Lu Yi who are in critical states. This heavenly passage was like a resplendent divine disk as it surrounded these people.

They were all shocked. In this place, no techniques reached them, as if it could stop all harm. Those bugs frantically rushed forward, but they were unable to get any closer.

It was to the extent where even the ghost demons were stopped.

"This is too crazy!" Lu Yi's voice was trembling.

There were countless bugs outside, smashing over like rain. They formed a black expanse that left others horrified.

"There are just too many... who can stop all of them?" Lan Yichen felt uneasy. It was because even Shi Hao's heavenly passage was starting to distort, on the verge of losing efficacy.

The pressure of the outside world was too great. Shi Hao coughed out a mouthful of blood, his face a bit pale. The situation now reached critical danger.

"Go!"

Shi Hao released a light shout. He produced a pill furnace, opened the lid. Immediately, the heavenly river poured outwards and lightning radiance surged, carrying with it an immortal dao aura. There was a terrifying curse power as well.

This was extremely effective. Regardless of whether it was the bugs or the ghost demons, they were both forced back.

This was the water obtained from Fiend Island's forbidden stream. It possessed endless lightning, and the more powerful the creature that made contact with it, the greater the curse power they were infected with.

"Too terrifying! There are so many bugs. There's no way human power can resist them! No wonder all of those people died..." Lan Yichen shivered inwardly.

Pu!

Lu Yi coughed out a mouthful of blood. He opened his mouth, spitting out two bugs. He frantically attacked to kill them. Those were the Black Divine Bugs that entered his body just now, the two of them only leaving just now.

Luo Dao was even more severe. His body shone, undoing a small half of his body's seals. Divine blood splashed outwards, and more than ten of them were forced out. Their party quickly took action to kill them.

The main reason was because Luo Dao could be considered a main power in that battle, second only to Shi Hao. He had suffered too many attacks. The Dark Divine Bugs penetrated his body and remained inside. If not for him immediately sealing his body, he would have definitely died a miserable death. n-
.O(-V)/e--l./B-.1(/n

Kacha!

This group of bugs were incomparably ferocious. After a momentary cowering, they released vicious attacks, slamming into the lightning and even colliding with that pill furnace. Bug corpses continuously fell, but they didn't die.

"These bugs are going mad! They aren't going to give up until they kill us!"

These bugs are extremely sinister, understanding how to raise ghost demons. Those corpses outside are all great nourishment for the ghost demons. We are being treated as food by them as well."

They conversed with each other, feeling that the situation was severe. They needed to immediately retreat.

"If I don't bring away a few Half Ginseng Fruits, I'll be letting myself down!" Shi Hao said. He even used his greatest trump card, the pill furnace, so if he didn't pick any divine fruits, then that would leave him feeling too sullen.

In addition, his body was covered in wounds. A True Self Realm bug was stubbornly shaken off from his back, blood covering that area.

If not for his flesh being powerful enough, he would have definitely been killed!

Hong!

Shi Hao walked out. The entire divine tree forest was swaying. With the pill furnace above him, he brought those people with him outwards. He supported the heavenly passage as well, using dual protection, and then started to pick the divine fruits.

Those small Half Ginseng Fruits were crystalline and brilliant. Divine multicolored light swirled about, their fragrance so thick it made one intoxicated.

Shi Hao frantically took action, picking eight ancient trees clean in the shortest amount of time. Even though each tree only had a limited amount of fruits, he still picked more than twenty. They released rich fragrance from within the medicinal basket, their radiance pervading the air.

Dong!

There were some bugs that were clearly cursed, as well as those scorched black by lightning. They were about to die, so they frantically rushed over to smash into Shi Hao's only heavenly passage.

If it was just one or two, then that would be that, but there was a huge swarm. There were just too many divine bugs.

One has to understand that many of them were at the Divine Flame Realm, and some even at the True Self Realm. When so many 'experts' attacked together, attacking at his heavenly passage's protection together, it would be difficult for anyone to hold on.

Shi Hao coughed out a mouthful of blood from his mouth, but he didn't stop, continuing to pick the fruits.

"Hurry and go! You are just like the bugs, becoming mad! If we wait any longer, these bugs won't even leave our bones behind!" Lu Yi screamed in fear.

Luo Dao and Lan Yichen nodded, their faces extremely pale. The situation was too dangerous. If they continued like this, they might lose their lives at any moment.

Chi!

Shi Hao rose into the air, jumping onto a treetop to pick the fruits. He was momentarily shaken, his scalp going numb. On the treetop, there was actually a foot long bug, as well as ghost demons. They weren't moving, as if they were hibernating.

Even though there weren't too many, that type of aura made one's fine hairs stand on end.

"Hurry! Let's get out of here! Are those Heavenly Deity Realm bugs and ghost demons?"

"There are even sect master level ones!"

"I knew it! After an endless accumulation of time, how could there not be world shaking experts? There's no way we are making it out of this alive..."

Lan Yichen, Luo Dao, and Lu Yi's expressions became miserably pale.

Even Shi Hao was stupefied. This was too terrifying.

However, contrary to expectations, these bugs and ghost demons didn't take action, continuing to remain dormant. In addition, those bugs and ghost demons below didn't dare approach, all of them circling about anxiously.

"Yi?" When Shi Hao saw this, he began to pick more fruits. In the blink of an eye, the medicinal basket was filled with more and more fruits, their radiance astonishing.

Weng!

Finally, a few bugs couldn't take it any longer. They rushed onto a treetop. They joined hands, raising the two foot tall Black Divine Bugs up and throwing them towards Shi Hao and the others.

Ao...

They were barely over a foot, but after reviving, those two Black Divine Bugs released roars that shook heaven and earth. They were definitely at the Heavenly Deity Realm. They were about to kill all of the creatures here.

Those Black Divine Bugs that lifted the heavenly deity all shattered with pilipala sounds, falling out from the sky.

Shi Hao's fine hairs stood on end. He quickly rushed to the ground, and then he ran frantically for his life.

It was quite strange. After those two bugs revived, they actually attacked indiscriminately, as if their minds were in disorder. Quite a few of the Black Divine Bugs and ghost demons were killed. They weren't especially targeting Shi Hao's group.

"I understand! These bugs aren't Immortal Ancient's primordial creatures and are considered outsiders as well. They have taken residence here just like the descendants of the geniuses that stayed behind in previous eras. Once they reach a certain stage, if they don't die, they all go mad!" Luo Dao said.

"Right, some of those bugs and ghost demons on the treetop are corpses, and a few are still alive, but have already gone mad. They were sleeping there." Shi Hao nodded.

Chapter 848 - Return From a Rewarding Journey

"Ah..." Lu Yi cried out miserably. The black bug army didn't fear death as they rushed over. There were still a few who made it through the pill furnace's blockade and rushed through.

There were just too many of them, to the extent where even the skies were dark. A small half were at the Divine Flame Realm, so it was the same as a group of deities chasing after them!

"We have to move faster!" Lan Yichen brandished his arm. Ding dang sounds rang out continuously. Sparks flew about from his metal body. He was like a human shield, but even though this was the case, it was still difficult for him to hold on.

They fled from the divine fruit forest, rushed through the white bone field, and then sprinted through the bloody cliffs, yet the Black Divine Bugs were relentless, continuing to pursue them without any intention of giving up.

Lightning flashed and thunder rumbled in the air. Electricity interweaved, sending lightning down endlessly!

The pill furnace shone. Even though it was only the size of a fist, it was sparkling and glowing. It poured out a silver stream of liquid. Lightning shot out in tens of thousands of streaks, the curse power astonishing.

However, these bugs persistently held on. Even though quite a few bug corpses fell, turning into charcoal, they still didn't give up, covering the sky and earth. When they spread their wings, the sounds were earsplitting. They continuously sent their bodies smashing downwards.

If they didn't have the precious furnace, Luo Dao and Lu Yi would have definitely died, and things wouldn't look good for even Shi Hao. Even though the bugs weren't that large individually, they were all 'divine level experts'. With such shocking numbers, no matter who came, they would still be killed.

“Not good, those two heavenly deities are advancing in this direction as well...” Lan Yichen’s metal eyes were about to become circles from widening. His face revealed great fright.

The foot long Black Divine Bugs were like black dragons as they moved through the air, making the void split apart. They were too terrifying, carrying heaven overflowing vicious might as they slaughtered their way over.

Along the way, they attacked indiscriminately. All those in their way were completely wiped out.

Those bug armies all moved out of the way for them. These were two bugs that had gone mad. Their bodies released dark light, distorting the skies. The Black Divine Bugs who didn’t back off in time fell out of the skies with pilipala sounds, exploding soon after.

This was completely the might of heavenly deities. The dark light that was released wiped out all those in their way!

Even those true deity level bugs didn’t dare take a single blow, immediately moving out of the way. Black blood splashed about, bug corpses falling.

Shi Hao took a deep breath. His divine force had recovered quite a bit now. His heavenly passage appeared again, wrapping around these people, and then he added speed again to free himself from the army chasing them.

The consumption just now had been too great, momentarily leaving it up to Lan Yichen, Luo Dao, and Lu Yi to stop this army. Those three entered a dangerous situation.

Kacha!

Lu Yi opened his mouth, spitting out half a piece of the bug. It had been directly bitten through.

“Vile bugs, this is already the tenth one I’ve spat out from my body. I’m already almost done for!” Lu Yi cried out miserably. At this moment, he also risked it all.

This was true for Luo Dao as well. Quite a few bugs were shaken off of his body.

“Ah ah ah...” Even the Divine Striking Stone was participating, continuously crying out strangely as it slammed into the Black Divine Bugs who approached.

Unfortunately, the Emperor Butterfly formed a cocoon and entered a dormant state. Otherwise, it might have been able to influence these Black Divine Bugs to some extent.

“Just need to hold on for a bit longer.” Shi Hao said. His recovering ability was great. Even though dealing with the divine level bugs almost dried up his magical force, after taking some time to catch his breath, his energy became as vigorous as that of a dragon or tiger again.

Luo Dao and Lan Yichen were shocked. They were holding back this army in his place for a bit, buying their group a bit of time, but they didn’t expect him to recover his powerful combat strength so quickly.

“How powerful!” There was no way they could do something like this! This type of recuperative force was just too great. They were dealing with a whole bug hoard here!

If he was fighting alone, wouldn't that mean that he would always be at his optimal state, not producing any bit of uncomfortableness? His blood energy was as exuberant as a sea!

Sou!

Shi Hao moved his Kun Peng wings, continuously changing locations to avoid the two heavenly deities, increasing his speed to the limit. He flew while sticking close to the ground, fleeing with extreme speed into the distance.

What was terrifying was that there were restrictions here, so one would be affected while flying through the air. Occasionally, magical force would suddenly disappear, and they would fall onto the ground.

They couldn't compare to those bugs. Those Black Divine Bugs were too numerous in number. Even if they didn't use magical force, they had transparent wings themselves that allowed them to fly.

Shi Hao's Kun Peng wings were formed from magical force and bone texts, not innate divine wings, so it was affected.

Hong!

A heavenly deity rushed over, this small arm length Black Divine Bug incomparably sinister. Its entire body shone. Like a black sun, it opened its mouth to spit out a streak of divine radiance. An expanse of mountains were destroyed, turned into powder.

That mountain melted, and the long river dried up. Ancient trees turned into ashes, the landscape greatly changed. n.(Ov**ε**l**b**In

Shi Hao's expression changed. A single movement covered ten thousand zhang, and after several rise and falls, they barely avoided this attack, leaving that area.

"We can't use space shattering symbols!"

There were restrictions here. They couldn't tear apart the void.

The only fortunate thing was that they fled far enough, and those two heavenly deities had gone mad, their true intelligence not awake, their spiritual senses not all that sharp either.

Chi!

The foot long black heavenly deity bugs took action again, and another streak of light swept over. The great earth split apart, magma surging out from the depths of the earth, dying half the skies red.

Finally, the world became calm again. Shi Hao and the others all laid on the ground, not even wishing to budge an inch. They breathed in and out continuously.

They were truly exhausted, blood energy about to dry up. They finally made their way out from that place, breathing heavily here, recovering their energy.

Everything that had happened just now was too dangerous. They were almost drowned out by that bug clan army.

Fortunately, Shi Hao's speed was fast enough, bringing them out, losing those heavenly deity bugs.

Those Black Divine Bugs had a set range of activity. After chasing to the horizon, they all returned. This was true for even the two heavenly deity bugs that had gone crazy.

"I feel like I'm dying..." Lu Yi was incomparably weak, his body full of holes.

Luo Dao was a part of the main battle force, so his injuries were even more severe. His entire body was covered in blood. As he laid there, he didn't even have the energy to talk.

Lan Yichen was a bit better, but his metal body was a bit dull, as if it was half crippled. He picked up a broken metal arm with difficulty, starting to recombine it.

Even though Shi Hao was exhausted, he was much better off than the others, just a bit fatigued. Apart from a true deity level bug that almost made it through the middle of his back, his other injuries weren't all that bad.

However, the harvest this time was extremely great. Shi Hao produced the medicine basket. There were sparkling Half Ginseng Fruits, human shaped and resplendent. A sweet fragrance wafted outwards, travelling several li into the distance.

Everyone's eyes became green. They almost died, but they managed to fill up most of this basket. It truly was astonishing. This type of harvest was unimaginable, definitely exceeding the value of even a true divine medicine!

"So many..." They swallowed their saliva.

Shi Hao placed the medicinal basket on the ground and said, "Let's just eat."

After saying this, he directly took one out, opening his mouth and taking a bite. Liquid flowed everywhere, releasing shocking fragrance and endless divine radiance that surrounded this place.

"This is just too extravagant!"

When those people saw him eat it like a radish, they couldn't hold themselves back either, each taking one. They carefully put it into their mouths. Sweet fragrance immediately pervaded the air, auspicious multicolored light surging.

The medicinal effects were astonishing. Lu Yi who was dying, the heavily wounded Luo Dao, and Lan Yichen with his withered body immediately released roiling radiance, quickly recovering.

Shi Hao immediately recovered to the peak, his flesh becoming sparkling, his wounds disappearing. His body was now full of vitality.

He reached out a hand. Several black bugs appeared. He released a powerful divine will, forcefully entering their heads to pry into their primordial spirits.

However, what left him shocked was that he didn't find any secrets. He only sensed vicious, murderous, and other negative emotions. They were already partly mad, their minds not normal.

"Could these bugs raise ghost demons? They even want to capture us to turn us into feed?" Shi Hao frowned.

Pu!

These bugs' heads split apart. They couldn't resist Shi Hao's divine will's pressure, all of them dying.

"These bugs should have underwent strange changes after living in Immortal Ancient for a long time, all of them abnormal now, becoming like those two crazy heavenly deities. It's just that the symptoms are a bit lighter." Luo Dao said.

"This Immortal Ancient area is too sinister. Whenever foreign races stay here for a long time, all types of problems would always occur, with strange events happening." Lan Yichen said.

Shi Hao began to sort out the divine fruits from inside the medicine basket. They were all incomparably fragrant and releasing beautiful luster. He gave these three people some of them.

"These are... for me?!" Lu Yi was stupefied. His voice was trembling, feeling greatly moved. This type of thing was just too precious.

Luo Dao and Lan Yichen were shocked as well. They never expected Shi Hao to even divide some with them. Even though they had contributed just now, they were after all, still just 'servants'.

"You all wait in the distance."

"You... don't tell me that you are going back?" Those individuals' expressions became serious.

"En, no matter what, I have to at least fill up one basket." Shi Hao nodded.

"It's too dangerous! We barely managed to escape! Don't risk it!" They advised.

"Don't worry, these types of divine fruits are extremely important to me. I am going to use them to step on my own path." Shi Hao's voice was resolute, telling them to leave this place. Then, he turned into a shadow, rushing back.

He stayed outside the formation for a long time. Only after making sure that the divine fruit forest was peaceful again did he enter through the gap in the formation. He stepped into this forest full of wondrous fruits.

Shi Hao's actions were fast. He quickly moved through this place to pick divine fruits.

Weng!

Unfortunately, no matter how fast he was, he still startled this group of Black Divine Bugs. They were furious, turning into a rain of black specks that covered the sky, swarming over.

The ghost demons also appeared, roaring towards the sky, and rushing over to attack him.

As expected, another life and death struggle broke out. Shi Hao continuously shifted locations, putting his life on the line to pick these Half Ginseng Fruits.

This time, he didn't approach those treetops. He felt waves of alarm from just below. There were at least three Black Divine Bugs that were at the heavenly deity level. There were two ghost demons that reached this level as well.

Only, they had already lost their minds and gone insane, as well as entering a strange state of sleep. If they weren't touched, they didn't move.

“Huh?”

When he risked it all and rushed into the depths of the divine fruit forest, his expression suddenly changed, because he discovered that quite a few of the fruits on the trees had disappeared, picked not too long ago.

“There was someone else like me, successfully picking these fruits?” He revealed a look of surprise.

Soon after, he discovered something strange. There was a surviving fruit that was unexpectedly avoided by the Dark Divine Bugs.

“Who is this? It understands the Dark Divine Bugs’ habits?” Shi Hao was shocked.

Soon after, he then recalled that the ghost demons only took form with human intervention. Were they truly created by the bugs?

Shi Hao shivered inwardly. He didn’t have time to think too much. He quickly took action, fiercely resisting the black and sinister bugs. He finally filled up the basket with fruits.

At this moment, he truly couldn’t hold on any longer. Many of the bugs were divine level. All of them rushed over murderously, some of them breaking through the pill furnace’s lightning barricade and smashing against his only heavenly passage.

Shi Hao coughed out a few mouthfuls of blood. He quickly left for the distance.

This process was quite difficult, nine deaths and one chance at life. Shi Hao felt that he wouldn’t come to this place again. A single mistake and he would be leaving his life here behind as well.

“I’ve picked enough now. These types of fruits will likely lose their effects after eating too many of them.” He quickly left.

Heavenly deities roared, Black Divine Bugs covered the skies. Killing energy roiled, filling this region.

Even though it was a rare great medicine, continuously eating it would still lead to it being eventually ineffective. The body would develop a type of immunity to it. He felt like he picked enough of them.

Shi Hao’s entire body was covered in blood, wounds covering his body. When he reunited with Luo Dao and the others, there were still several dozen bugs crawling all over his skin, all of them divine level. Those three were shocked until their faces changed greatly.

“Kill!”

They took action together to kill them.

“Let’s go!” The four of them quickly left this region.

“Filled up a basket with fruits!” Shi Hao was satisfied. As he looked at the resplendent and fragrant human shaped fruits, his smile became especially brilliant.

He firmly believed that he could ignite many more great dao divine flames this time, take that step the ancient people had always searched for but couldn’t take, achieving the unmatched dao result.

Just as he acquired an abundant harvest, more and more outsiders were entering the vicious nest, with no lack of unmatched experts among them!

"This is precisely the nest of one of the vicious ten. It is unordinary after all." Qin Hao had arrived. He stood outside this place, gazing forward, about to enter the ancient land.

In another area, the dual-pupil user had his hands behind his back, carried by a small silver path into a region.

"That is... Six Crown King Ning Chuan?" Within the ghost forest, mists were hazy. Someone recognized that individual.

Ning Chuan wore white clothes. He stood in the hazy forest, surveying the vicious nest. He watched as that place became hazy with primal chaos, the thirty three blood moons resting in the sky. It was unknown what he was thinking. His eyes were deep.

Chapter 849 - Advancing Into the Vicious Nest

Shi Hao had no idea that there were three great experts he knew who were entering this ancient place, all of their destinations the vicious ten's nest. They were about to run into each other.

Qin Hao's chest was shining, symbols flickering. He quickly moved about in the surrounding region, hurrying towards the inside of the nest!

Along the way, all of the mountain rocks, ancient trees, and other exploded into pieces. Even the mountains themselves split apart when they were swept through by the symbols from his chest.

The dual-pupiled user, Shi Yi, looked forward. All of the mists and natural dao became clear. He calmly walked forward, exuding unmatched confidence as he headed into the secret earth.

Within his dual pupils, the sun and moon swirled, stars shattered. This type of scene was extremely shocking. When those along the way saw this, all of their expressions became serious, coughing out blood continuously as they stepped backwards.

Six Crown King Ning Chuan's white clothes made him look as if he was from a different world. When he took a step out, it was as if the stars moved, time flowed, and the void changed. He was like a reincarnated immortal king as he entered this mysterious ancient place.

This wasn't the first time he came, only, in the past, he never received much of a harvest. This time, he was determined to succeed.

"The sinner's blood descendent is also here. I'll just get rid of him along the way." His expression was calm. He had a bracelet in hand that was gentle and beautiful. There was a scarlet translucent bird beak, a purple sparkling scale, clam pearl, beast tooth, and others, six types of divine objects in total.

This was an extremely formidable secret treasure. This bracelet had six terrifying primordial symbol bones, able to display astonishing power.

It was because regardless of whether it was the bird beak, beast tooth, clam pearl, or other things, they were all the symbol bones of the most powerful exceptional talents. They could display the most powerful divine abilities before their deaths.

This bracelet alone was enough to suppress all enemies in this world!

He previously had others bring this bracelet into Sin Province's Spirit Realm, having them use it to kill Shi Hao. However, due to those people's individual strengths being lacking, unable to activate the precious bracelet to its full potential, they were killed instead.

At this moment, a faint smile had risen from the corners of his lips, auspicious and peaceful. The bracelet released light, pointing towards the depths of the secret place. It sensed the blood energy of sinner's blood descendent, discovering some traces.

Shi Hao and the others left that strange place. Those several tens of thousands of corpses all disappeared, and the rotting aura vanished as well.

"We finally made it out! I never want to return again!" Even though Lu Yi obtained some divine fruits, he still didn't want to take a step inside of that place again.

Luo Dao and Lan Yichen felt similar feelings. That hoard of bugs were powerful and sinister, their numbers too great. There was just no way to fight against them all. No one wanted to turn back.

"Our harvest isn't small, obtaining divine fruits!" After calming down, all of them felt quite satisfied.

In the mountain region, there were many ancient trees, their branches and leaves swaying about. The blood suns hung high up in the sky, scattering down dazzling scarlet light.

Hong!

Suddenly, a great imprint suddenly slammed over. It flowed with brilliant colors and was as large as a mountain. It surrounded their group, its weight over tens of thousands of pounds!

Moreover, there were other magical artifacts that shone with divine multicolored radiance. These weapons attacked at them murderously; they were being attacked.

Shi Hao released a cold snort. He had long sensed them. He brought Lu Yi and shifted out several thousand zhang. As for Luo Dao and Lan Yichen, they had sensed something as well, directly avoiding this attack.

Peng!

Random stones tumbled about in their original location. The mountain region split apart.

"Vigilance is quite commendable." A group of people arrived from the other side of the mountain region.

There were more than ten people, all of them humanoid creatures, but most of them weren't humans. Some of them had wings, some had four ears, all of their auras were flourishing greatly.

"You all were able to pick divine fruits?" A humanoid creature with an alligator tail asked.

"Correct." Luo Dao replied.

When these people heard this, their eyes flashed with radiance. Greed and expectant looks disappeared with a flash. However, they were truly quite strong, their blood energy flourishing. All of them were extremely shocking without a single weak member.

“When we were outside, we saw a divine tree forest, feeling that it was right around here. We were just about to go pick them, but you all got there first?” The alligator tailed creature asked.

“There are still a lot left there.” Lu Yi said. Just now, they had suffered an ambush, so there was resentment in his heart. He wanted to see these people head there out of greed and get attacked by those black bugs from all sides.

“What is your intention?” Lan Yichen said coldly.

“We are willing to purchase the divine fruits from your hands!”

When this sentence was spoken, the others’ mouths carried smiles. They were looking forward to what was to come, only their looks were a bit frightening.

“Not selling!” Shi Hao walked forward. These people clearly wanted to take advantage of them and steal their divine fruits. Forget about them, even if it were ancient freaks who came, they would still have to fight to get them.

“Dao friends, aren’t you showing us too little face? We are kind heartedly offering to buy them, yet you aren’t even asking for the price, directly refusing us?” One of them spoke with a cold voice.

“And kind of thing are you? How much is your face worth? Get lost!” Shi Hao ruthlessly berated.

“Not knowing the difference between good and bad!” The humanoid creature with an alligator tail said coldly. The other creatures’ faces fell as well.

Hong!

Those people walked forward, forcing their way over. The ones in the lead were unexpectedly all the most powerful experts of a province. They erupted with astonishing fighting prowess.

“A group of savages, do you feel regret now?” Someone said coldly, using power to intimidate them.

“Even though you all are the most powerful experts of a province, there are only three or four. That’s just too few! We even ate seven or eight exceptional talents.” Lan Yichen laughed loudly.

Hong!

A battle erupted. As a result, the faces of this group of people immediately changed.

They were already quite the powerful alliance, with three or four experts that were at the top of their respective provinces. They led more than ten extremely powerful individuals, yet they ended up kicking a metal board.

Shi Hao took action, killing two of their leaders, and then he retreated to the side.

“It’s a misunderstanding!” Someone cried out loudly.

"There are no misunderstandings." Luo Dao and Lan Yichen took action, wiping them out, not leaving a single person alive.

"En? A stone inscribed diagram!" While cleaning up the battlefield, they obtained a stone inscribed diagram that was extremely ancient.

This stone inscribed diagram had a blood moon in the sky and stars flickering about. Ten suns rested side by side. It was precisely the scene of the vicious nest.

Luo Dao sent out a strand of divine will, carefully inspecting this diagram. It immediately changed, unexpectedly releasing strands of mists. It was extremely mysterious, unexpectedly revealing inscribed fragments one after another.

"Yi, is this a map of the vicious nest's interior?" Luo Dao was immediately shaken up. He never expected these people to have such an ancient diagram on them.

Lan Yichen also hurried over after hearing this, revealing a look of pleasant surprise. This ancient map had many lines on it that extended out within the vicious nest. It truly did look like a roadmap.

"There had always been a rumor that there were a few vicious nest ancient diagrams scattered throughout Immortal Ancient. By having an ancient map in hand, one could avoid many dangers and find places of natural luck.

No one knew how many ancient diagrams were scattered throughout Immortal Ancient, but whenever a stone inscribed diagram was found, a great battle would ensue.

"It truly is a great natural luck!" Lu Yi laughed loudly.

"Indeed. However, it is dangerous to even hold onto this diagram. Once others find out, there will definitely be many, many people who will rise up to seize it." Lan Yichen said.

It was to the extent where unmatched exceptional talents would stand guard outside the vicious nest to intercept those entering it, inspecting them to see if they had any ancient diagrams, and then use bloody means to acquire them.

"What is it?" Lan Yichen asked.

"Nothing, let's go." Shi Hao said. He thought back to that medicine left behind in the divine forest that could actually avoid the Black Divine Bugs.

In the following few days, they continuously searched about around the outer regions, heading from one place to another. Unfortunately, they didn't encounter any more great natural luck.

Shi Hao felt rather regretful. Before entering, he saw an ancient palace floating above a river of life. There were scripture sounds and great dao symbols moving about.

Unfortunately, no matter how he looked around or how many regions he entered, he didn't see it.

Along the way, they saw many ancient medicines.

Shi Hao had to admit that the lower realm was too different from this place. The spiritual essence was rich, and even though there were many wondrous medicines, it was difficult for them to evolve into holy medicines, etc.

“It is Immortal Ancient after all. It’s not too strange for spiritual medicines to cover the ground.”

They experienced many battles during the past few days and swept through many individuals who harbored bad intentions. They no longer wasted any time, now starting to head towards the vicious nest!

Fallen Immortal Ridge, a place they couldn’t avoid if they wanted to enter the vicious nest. What laid behind it was precisely the ancient earth permeated with chaotic energy. Shi Hao and the others arrived here.

The mountain range here rose and fell, the earth and stones all a dark red color. Rumor has it that in the last great era, an immortal died here, dying in front of this vicious nest, its blood covering the mountain range in redness.

“There was this type of rumor, unknown if it is true or false, that the immortal blood essence didn’t scatter away, but was instead absorbed by the vicious nest, retained within. That might be shocking natural luck!”

Fallen Immortal Ridge, this place wasn’t small.

There were figures everywhere. Quite a few individuals were heading towards the heart of this place.

Shi Hao and the others moved through this boundless mountain region. They didn’t rush into the vicious nest, instead moving within the mountain region where ancient trees towered into the heavens. They carefully sensed everything here.

In the distance, symbols flourished, streaking across the skies, roaring over!

Many of the mountain rocks and ancient trees on the ground collapsed. With a hong sound, a youth descended.

With him at the center, silver colored ripples moved outwards one after another. It was incomparably terrifying, forming a domain that almost made the void collapse.

Everyone in the surroundings were horrified, staring at him.

“Qin Clan’s dual bone supreme being!” Someone’s expression changed, recognizing this individual.

It was precisely Qin Hao. He had walked for a few days in the outer region, obtaining some natural luck as well. He decided that he was going to pay the vicious nest a visit.

“Qin Clan’s young supreme being. I wonder if that is just a fake reputation. Rumor has it that one of the bones in his body originally belonged to his older brother, something that was given to him.”

“I also heard that he had an older brother who gave his bone to Qin Hao. Only then did he obtain his present fame for fighting prowess.”

A few individuals spoke softly from far away. When they saw him, they revealed strange expressions.

Heng!

Qin Hao released a cold snort. He coldly looked into the distance. His divine senses were extremely sharp, hearing those individuals' words.

Immediately afterwards, with him at the center, an expanse of resplendent silver colored symbols spread outwards. With a hong sound, they landed in that region, causing those creatures to completely explode!

These types of methods, cold blooded and ruthless and extremely powerful, shocked everyone in the surroundings.

"What are you all gossiping about behind my back? If you have the skills, then say it in front of my face!" Qin Hao coldly spoke. He wore long life battle clothes that flickered with metallic luster and divine multicolored light, making him look valiant and formidable. n.(Ov**el**in

Everyone kept quiet out of fear, feeling that he was too powerful. Just a single precious technique, yet it immediately wiped out more than twenty experts. All of their hearts were trembling.

"En?" Qin Hao stared blankly, his mind sensing something. He stared towards the depths of the mountain ridge, feeling a resplendent blood energy there that surged like a sea.

"An extremely powerful king? Let me see which side's saint it is." His expression was calm as he walked forward. With a few steps, his figure disappeared into the mountain forest.

"How powerful! Too terrifying! Worthy of being a supreme being with two bones. After his older brother gave him his own bone, an unmatched monster was produced!"

A few people sighed, feeling that Qin Hao wasn't someone they could fight. He was just too strong.

Clear springs murmured, ancient pines rustled about.

Within a mountain region, Shi Hao, Luo Dao, and the others weren't walking too fast. They were observing Fallen Immortal Ridge as they proceeded, not moving too fast or too slow.

Qin Hao rushed over, appearing in the mountain forest. He saw these people under ancient trees from a plateau. His pupils rapidly shrunk, staring at a rear figure.

Why did this person seem so familiar?

That type of aura... so similar!

Shi Hao turned around. Right now, his true appearance was exposed. Qin Hao naturally recognized his original appearance with a single glance.

"What... how could it be you?!" Qin Hao released a loud cry. He took a few great steps backwards, his face full of shock, not daring to believe what he was seeing!

Chapter 850 - Brothers

In the mountain region, the ancient trees were especially tall, the roots bold and upright as they protruded from the ground.

A creek flowed between the ancient trees, the water peaceful and silent. It made this place appear even more serene.

"This... impossible!" Qin Hao's voice was trembling, as if he was seeing a living ghost. He just couldn't believe that he saw that person from the past.

Shi Hao's face was calm as he looked at him.

"What a powerful youth, such a terrifying aura. His body's blood energy is like that of a dormant True Dragon!" Lu Yi was extremely shocked as he looked at Qin Hao. His heart was feeling great concern.

"You... are still alive!" Qin Hao's chest was rising and falling greatly, his breathing a bit rushed, so one could see just how shaken up he was inside. His eyes were widened as he stared endlessly at Shi Hao.

Shi Hao looked at him for a while, and then said, "Shouldn't you call me 'big brother' after seeing me?"

When Qin Hao heard his say this, he was finally sure that it was that person from the lower realm. It was his older brother, and he was still alive in this world, not dead yet!

It was hard to imagine how someone who had lost his supreme being bone, had his essence blood exhausted, and was already buried under yellow earth could revive. This was just too outrageous.

Qin Hao was a bit stupefied as he looked at Shi Hao. This truly was strange. The figure that had already become blurry in his heart actually appeared before him again.

"This... is your brother?" Lan Yichen was shocked. He thought pensively to himself.

"Qin Clan's two bone supreme being? He seems extraordinary after all, just the naturally exuding spiritual essence alone so great, as if a divine furnace was burning." Luo Dao nodded.

They knew Shi Hao's real identity and understood quite a bit. That was why they immediately guessed who the one wearing the long life battle clothes was.

Beneath the ancient trees, the creek moved past those tree roots, but no fishes could be seen. It was a bit desolate.

"What, after all this time, you even forgot this older brother of yours?" Shi Hao looked at the other party and asked.

After several years, Qin Hao had already grown taller, his shining long life battle clothes releasing a mysterious radiance. His black hair danced about in the wind, his facial features fine. There was a heroicness to his appearance as well.

Now, his cultivation had increased, becoming the young supreme being of a clan, using his two bones to suppress all sides, sweeping through everyone before him. He had a great reputation, overlooking the crowd.

"Big brother..." Qin Hao spat out these words. His face gradually calmed down, but his mind was still truly shaken. He never would have imagined that they would reunite here.

He could sense that his own brother became even stronger, not only cultivation wise, but a type of formless potential 'power', like a dragon hiding beneath a pool.

This type of aura, that type of potential, was not something a normal person could sense. It could erupt at any moment, just like an ancient wind, a dormant wind that could immediately soar through the sky and into the nine heavens.

Now, Shi Hao was already a bit over nineteen. His figure was tall and slender, his appearance heroic. His expression was calm. The only thing unchanged were his pupils that were clear and pure. Only, occasionally, when they opened and closed, there would be sparkling light that would flow out, releasing a powerful wave of strength that would make others' hearts tremble.

Qin Hao, in front of his older brother's face, felt great emotions stirring within him.

"Not bad, you grew up, your cultivation improving greatly, now enough to overlook an area." Shi Hao nodded. He had been sizing up the younger brother of his before himself this entire time as well.

"Father and mother, if they knew you were still alive, they would definitely be happy. I never thought that we would reunite again." Qin Hao said.

He adjusted his state of mind, having himself calm down. As the dual bone supreme being, his expression would not even change before a heavenly deity, but today's events were too abnormal.

"Father, mother, are they still well? I truly wish to meet them." Shi Hao said.

"They are still well. Only... you arrived in the higher realms, so why didn't you come looking for us, to see them?" Qin Hao asked.

"Would I be able to go?" Shi Hao revealed a faint smile. Then, his gaze became forceful. He looked towards the void, through Immortal Ancient and towards those in the outside world.

"I previously learned that my grandfather had been imprisoned, and then exiled to the cursed Fiend Island to mine divine materials. If grandfather wasn't fortunate enough, luckily able to escape through a fluke, if not for father later on rushing out, something unexpected might have truly happened."

Shi Hao's voice wasn't loud, but it was forceful. He stared into the void, saying, "Qin Clan, there are some who are stopping me!"

In the outside world, many people saw his eyes through the monument. They were especially resplendent, as if they were feeling a mountainous pressure.

"Apart from mother's bloodline, there are some within Qin Clan who truly deserve to be killed. If you still remember grandfather, you cannot be lenient in the future." Shi Hao said.

"Hao'er!" In the outside world, Qin Yining's eyes were filled with tears. When she saw her sons reunite, even though she felt excited, there was sorrow as well. She glared angrily towards a group of people from the Qin Clan.

Too many things happened during these past few years, immediately causing all types of feelings to well up within her. It was difficult for her to calm down. She was experiencing joys and sorrows, her heart rising and falling violently.

Shi Ziling glanced backwards towards some people from the Qin Clan. He didn't say a single word, but his eyes were incomparably cold.

Luo Dao, Lan Yichen, and Lu Yi could feel just how many things had happened before between these two brothers. It actually involved the powerful and glorious Qin Clan. They were left momentarily speechless.

"I will get to the bottom of it." Qin Hao said.

In the outside world, it was difficult for everyone to calm down. Even though they knew Shi Hao's identity, that he came from the lower realm, the reunion of these two brothers still left them quite shocked.

A pair of supreme beings. How terrifying was this!

"The surname Shi, how formidable of a clan is this! Even though their ancient country in the higher realms has been wiped out, two formidable figures have appeared in this world!" Someone sighed softly.

Fire Cloud Cavern, Luofu True Valley, and the other inheritances' expressions all became unkind. This was not some good news for them.

Someone frowned, feeling worried for Six Crown King. He was currently hurrying over. If he met the two of them, that would not be a single sinner's blood descendent, but rather a pair!

"Big brother, it is good that you were able to survive. We can have a reunion." Qin Hao said.

Perhaps their names made it so, perhaps it had always been like this, or perhaps due to other reasons, even though he expressed his intimacy, it wasn't as enthusiastic as how it was when family members normally reunited.

"Big brother, how did you end up surviving?" Qin Hao asked.

This was not something only he was confused about, it was something many people wondered about. Back then, Shi Hao died in battle, and many people in the lower realm personally saw how weak he was, how he was heading for death.

Shi Ziling and his wife even more so buried him, protecting that grave for more than half a year. In the end, he unexpectedly arrived in the higher realms several years later, surviving.

"My fate is great, the heavens wanted to take me, but couldn't bring me away." Shi Hao laughed. There was quite a bit of bitterness in this process. He had struggled in the ice cold grave, finally making it through and ultimately reviving.

In the outside world, someone inside of a bronze palace frowned. Back then, Shi Hao suffered from their sect's tyrannical green rust curse. Normally speaking, he should have definitely died, yet he was actually able to stick it through.

"Grandfather... how is he? I've been looking for him this entire time, but there haven't been any clues." Qin Hao asked.

"He's good as well. I've reunited with him." Shi Hao said. In reality, Grandpa Fifteen also entered Origin Sky Secret Realm and saw Qin Hao. However, Qin Hao couldn't recognize him back then and stood with the Qin Clan, so the situation wasn't all that peaceful.

"Then that is good. When I come out, I will pay grandfather a visit." Qin Hao nodded.

At that moment, Shi Hao really wanted to ask about A'man. He remembered how that young lady broken-heartedly weeped for him as she took care of him, telling him not to close his eyes, not to lose his memories, wishing for him to get better.

At this moment, his heart was stirring with emotions.

Only, he was worried what kind of unforeseen events would happen if he seriously asked.

Once his strength was great enough, he could pay Qin Clan a visit himself to ask for someone.

"Let's go and head inside the vicious nest together. We'll take a look around Fallen Immortal Ridge along the way as well." Shi Hao said.

Qin Hao felt a bit of hesitation, but after a slight pause, he nodded. He then followed at Shi Hao's side, heading forward together.

Only, the atmosphere was a bit awkward as they walked together. There was an awkward silence.

After a long time, Qin Hao raised his head and said, "Big brother, many creatures have now arrived. We should hurry a bit. After looking around Fallen Immortal Ridge, we'll head for the vicious nest."

"That's fine." Shi Hao nodded.

Qin Hao's feet shone, and with a single step, he moved past the mountain ridge, his speed fast to the extreme.

Luo Dao was moved. The other person looked like he was chasing stars and overtaking the moon, moving so far so easily. He had quite the methods.

Lu Yi laughed bitterly. This was all done by just a single step. If he truly wanted to move fast, how would he be able to catch up?

Shi Hao's body shone, and then symbols were released, bringing this group forward, following along.

Qin Hao revealed a strange look. The other person brought the others with him, yet still had this type of speed, following along right by his side.

"The Kun Peng technique really is extraordinary. Big brother's speed has exceeded the limits of the Divine Flame Realm."

Qin Hao spoke. His chest shone, and bone texts swirled about, wrapping around his entire body like armor. It increased his speed, bringing him through Fallen Immortal Ridge.

Without saying anything, he similarly increased his speed, continuing to move right beside him, not staying half a step behind.

Qin Hao's mind was shaken. He gave his older brother beside him a look, feeling that the Kun Peng technique really was hard to surpass. It was worthy of being one of the world's greatest movement techniques.

He continuously increased speed, but was still unable to break free from those at his side. He found it difficult to remain calm.

“Older brother, how about we exchange some pointers?” Suddenly, Qin Hao spoke to his older brother Shi Hao. He felt complicated emotions that were hard to describe.

However, there was one thing that was clear. He truly wished to surpass his older brother!

Shi Hao was shocked. He gave him a look and said, “We’re getting close to the vicious nest, so there might be a great battle. There’s no reason to waste energy here.”

“It is just to verify what we have learned. Didn’t we come to Immortal Ancient to increase our strength?” Qin Hao persisted.

“Alright!” Shi Hao didn’t make things too hard for him. Without saying another word, his figure stopped.

Qin Hao’s eyes flourished, symbols swirling around his body, and then they erupted, forming a starry stream of radiance that moved about his body. He released astonishing battle intent.

“En?!” Suddenly, Shi Hao sensed something, and then he stopped, staring in a direction.

In the distance, a youth stepped out from the void and arrived, travelling through Fallen Immortal Ridge, powerful and confident, rushing over with extreme speed.

This aura was something that was difficult for Shi Hao to forget. Back then, he had fought a desperate struggle against this person, fighting until his spirit was weary and strength exhausted. Blood splashed throughout heaven and earth. It was the most difficult great life and death battle he had fought after emerging into the world.

Shi Hao’s eyes burned like a torch, staring into the distant mountains.

That person’s figure flourished with heroicness, overlooking the world below the heavens. There was a wave of unmatched confidence. Within his eyes, the sun was destroyed and the moon sunk, starry streams vanished. The scene was incomparably terrifying!

Shi Yi, it was unexpectedly him!

In the past, this was Shi Hao’s greatest enemy, as well as the target he cultivated so bitterly from his youth to surpass. After the Void God Realm’s life and death great battle, only after he himself was half crippled did he cut down the other party. Only after nursing his health for half a year did he recover.

At this moment, the dual-pupiled Shi Yi also discovered him!
