

Perfect WD 871

Chapter 871 - Half Paralysis

“Yi, there is a formation protecting this place, I can’t cut open the void.” Shi Hao was shocked. He wanted to use the great halberd to cut open the void, but in the end, he discovered that it failed.

The space around them distorted. Silver-colored symbols flickered about, covering everything before him densely. That Ten Thousand Poison Tree’s terrifying formation displayed its might, stopping the void passage from being opened.

“Then let’s just fly over. Even if there are true deities, they still can’t stop us.” The Divine Striking Stone said with a rather domineering tone.

It felt that this distance could be covered with a single rush. Once they reached the formation, that was its domain.

Chi!

It was the first one to move, but in the end, it moved quickly, but ran quickly as well. In the end, it was still feeling remaining fear.

That Ten Thousand Poison Tree was displaying its power, releasing tens of thousands of streaks of auspicious light. For the poisonous bugs, it was a holy substance that could nourish the body, but for others, it was a disastrous thing.

This type of poison turned into light, able to corrode divine force and weaken one’s cultivation.

Even though the Divine Striking Stone was tough and nearly unbreakable, it was still worried about its own cultivation being corroded by the poisonous light. Recently, it was close to breaking through, so it didn’t want to take the risk.

Shi Hao gave it a try, discovering that his only heavenly passage was able to hold on until the other side. However, the corrosion wasn’t light either.

Qing Yi was opposed to him doing this, because he still had to fight afterwards. He had to maintain the most optimal state, with even the slightest corrosion of divine force or the slight exhaustion of cultivation not good.

She supported her Green Lunar Flame, and as a result, the Ten Thousand Poison Tree began to sway and rumble, as if it provoked a great disaster. Many of the poisonous bugs were alarmed, about to rush over.

“As expected, this ancient divine tree, formation, and poisonous bugs are all important elements to his own protection. No wonder he chose this place.” Shi Hao said softly to himself.

He tried to hide himself in the divine cauldron and rush over while hiding inside of it, but in the end, the precious cauldron was corroded terribly.

“It seems like I can only use this. It’s a good time to test how powerful it is exactly.” Shi Hao used the Earth to Inches great divine ability to avoid the hoards of true deity level poisonous bugs, producing the pill furnace.

The pill furnace had lightning inside, as well as curse power. However, now that he cultivated the Lightning Emperor technique, it was already difficult for it to injure him.

Shi Hao placed Qing Yi and the Divine Striking Stone into the heaven and earth pouch, and then he himself hid in the pill furnace. Then, with extreme speed, he moved over, shooting into the formation like a falling star.

When he emerged, they were shocked at the pill furnace's rigidity.

It was because the Ten Thousand Poison Tree was extremely terrifying. It released streak after streak of ripples that were unexpectedly close to heavenly deity level fluctuations. The surroundings were covered densely with symbols, terrifying to the extreme.

"This thing has magical force?" The Divine Striking Stone's mouth widened, feeling incomparable shock.

Shi Hao was shaken up. This was a divine tree and could be used as a medicine. For certain creatures, it was priceless. It actually had powerful fighting strength as well! This was extremely shocking.

Normally speaking, even if an ancient divine medicine developed intelligence, it wouldn't possess great divine abilities or other methods like it.

"This thing is formidable, no wonder all of those true deity level bugs are worshiping it here, treating it like their lord. It can order all poisonous type experts." Qing Yi said.

Normally, no one could break inside, killing along the way.

They couldn't help but give this pill furnace another look. The furnace lid had an ancient phoenix that was vivid and lifelike, bright red and shining, around the furnace itself coiled a True Dragon which possessed a great grace.

This was an ancient treasure obtained from Fiend Island's Immortal Tomb river. Even though it couldn't attack others, its defensive power was still shocking.

"It might have mysterious origins." Qing Yi came to this conclusion.

They didn't waste any time, immediately rushing into the depths of the formation, heading towards a small heaven and earth.

There was no place safer than the ancient formation beside the Ten Thousand Poison Tree.

The formation was astonishing. If not for the Divine Striking Stone witnessing Willow Deity arranging one itself, it definitely wouldn't be able to guide them in. If one didn't know how to operate it, it was the same as stepping into a place of death. *novelb*)1n

A small winding path paved with divine stones led inwards, and there were all types of green jade bamboos as well. This place was extremely mysterious, the spiritual essence rich to a terrifying degree.

"Who would have expected to see this immortal realm like scene within a world of poison and bugs." Shi Hao said with a sigh.

They entered this small world and walked on the tangled and complicated road, moving past the murderous formations, directly heading into the interior. All types of multicolored light flew past, white mists coiling about; it was just like an immortal's home.

Shi Hao could clearly remember that when he had just entered Immortal Ancient, Immortal Palace's inheritor went looking for a place to cultivate, but as a result provoked a heavenly deity level Flood Dragon, and it chased him all the way out.

This place clearly didn't have the aura of a Flood Dragon, a pure land.

He couldn't help but sigh. Immortal Palace's backing truly was deep and profound, their understanding of Immortal Ancient deep, knowing about many of its precious lands.

Just up ahead, a divine spring roiled, surging with auspicious energy. White colored spiritual essence pervaded the air, making this place seem like a place detached from the mortal world.

On the side, purple-colored spiritual bamboo were everywhere and coiling with white mists. There were streaks of divine rainbows as well that connected into the sky, interweaving together, the aura exceptional, as if an immortal was overseeing this place.

Within the purple bamboo forest was a strange stone that curled with wisps of immortal mist. Tens of thousands of streaks of multicolored light swirled around its surroundings, producing an astonishing sight. One could vaguely sense waves of dao sounds.

On the strange stone sat an unmoving figure, his body releasing waves of dao sounds. He was cultivating in isolation, comprehending the great dao, unaware of the outside world.

"Don't act rashly. This purple bamboo forest contains tremendous killing intent, with Immortal Palace's ancient formation here. If one hastily rushes in, their body and dao might be erased!" Qing Yi said.

Shi Hao nodded. He naturally saw some clues.

That stone was half a zhang in size, entirely grayish brown, looking rather simple and unadorned, but over ten thousands streaks of light swirled around it, none of these lights making contact with the stone itself. There were strands of immortal energy outside as well that looked incomparably exotic.

Qing Yi said softly, "This stone looks a lot like Immortal Palace's dao comprehension stone. It is rumored that there are three of them. I never expected that one of their legendary holy objects would be brought into Immortal Ancient."

They were secretly conversing. They were still quite far, so they weren't scared of alerting Immortal Palace's inheritor.

"This thing... I think I want it!" The Divine Striking Stone began to drool.

"You can forget about this rock." Shi Hao rejected. This thing was definitely a supreme treasure. For people like them who wanted to surpass their predecessors and step on an unrivaled path, it wasn't something they could exchange for no matter what they offered.

Immortal Ancient was now open for the three thousandth time, as well as the final time. Immortal Palace desired these historical remains greatly, entrusting their hopes on their inheritor, hoping for him to rise up and bring great natural luck to Immortal Palace.

As such, even this type of divine supreme treasure was granted to him and brought into Immortal Ancient for him to comprehend the dao. One could see how great the hopes they placed onto him were.

In this great era, ever since the first Immortal Dao Flower Petal blossomed, all the way until the three thousand dao were completely used up, the so-called ultimate 'natural luck' had never been seen yet. Everyone suspected that it would definitely appear in this world.

Immortal Palace naturally wished to obtain it, and that was why they invested so much into their inheritor.

There were still many bone books inside of the nearby purple bamboo forest piled up into a heap and flowing with holy light. They were all records of predecessors' insights that provided Immortal Palace's inheritor with great help.

Apart from this, there was a crystal piece as well, inside which were wisps of bright red blood that had divine luster.

This greatly moved both Shi Hao and Qing Yi. It was absorbed by him already, and this was only the remains.

On the strange stone, Immortal Palace's inheritor's eyes were closed, as if he was sleeping, not moving a single inch. However, dao sounds continuously sounded, and within his body, a wave of scarlet red immortal light swirled about, continuously rushing at his arms and inner organs, cleansing his body. One could sense the immortal dao aura from quite far away.

"Using immortal blood to cleanse the body, it truly is extravagant!"

How could ordinary people see immortal blood? A single drop was enough to make sects go crazy, yet he used an entire sphere of it. If those of the outside world found out, it would definitely lead to a great battle between inheritances, all of them fighting over it.

It was because this was a legendary item, difficult to find a single drop throughout the entire world!

Apart from this, there were all types of other divine substances in the purple bamboo forest, such as half divine fruits, strange holy liquids, and other things, as well divine pills sealed within jade bottles that were resplendent like suns.

It could be said that there were many holy objects, and anyone's eyes would become red upon seeing them. There were quite a few things that were brought into Immortal Ancient from the outside world, which, if others obtained them, would be shocking great natural luck.

Shi Hao's eyes shone with passion, deciding to fight over those things.

"How long will it take to break through the formation?" Shi Hao asked the Divine Striking Stone.

“Even though there are similarities between this and Stone Village’s formation, there are other changes, so it will be extremely difficult to completely break through it. We can break through midway, but heading forward will require a lot of time and research.” The Divine Striking Stone said.

It was clear that if this continued, they would alert Immortal Palace’s inheritor, allowing him to make preparations.

“Then let’s not break it and just scare him until he goes mad!” He and Qing Yi discussed with each other which type of dao sounds would harm the cultivating Immortal Palace inheritor the most.

In the end, Qing Yi taught him Heaven Mending Sect’s Dragon Cry technique, while she herself prepared to use the phoenix cry sound. When these two divine sounds were used together, the power would increase drastically.

The Dragon Cry technique wasn’t too difficult. As long as one’s cultivation was high enough and they understood the secret method, it would be displayed quite smoothly, only, the consumption of magical force would be quite great.

Shi Hao thought to himself for a bit, and then he finished his preparations.

Apart from this, he also activated that pill furnace, preparing to use endless lightning to attack that great formation. The Divine Striking Stone also set up an offensive formation to assist from the side.

“Start!”

Immediately afterward, Shi Hao and Qing Yi rushed forward, immediately erupting with divine sounds, dragon and phoenix cries shook the world, hundreds of times greater than thunder as they erupted here.

Apart from this, the purple bamboo forest’s great formation was attacked as well, erupting with demonic sound that was extremely terrifying, immediately making this place chaotic.

Immortal Palace’s inheritor who was currently at the critical point of comprehension, his body and mind clear, forgetting his material self, felt as if he was struck by lightning, as if he was cursed. His body trembled violently, and with a pu sound, he spat out a large mouthful of blood carrying silver radiance.

Apart from this, in his body, the immortal blood scattered in disarray, releasing blinding scarlet multicolored light, about to shoot out through his body, causing some of his flesh to split apart. His entire body became covered in blood.

Immortal Palace’s inheritor was disturbed by ‘external demons’, immediately suffering serious injuries, his body almost dying and his dao erased.

Immortal blood wasn’t something that easy to merge with. Fortunately, Immortal Palace’s ancient ancestor neutralized the killing energy and other things. However, despite this being the case, before the symbols within were completely comprehended, they were still not something a deity could completely control.

“Ah...” Half of Immortal Palace Inheritor’s body became rotten, his hair dishevelled, looking like a malicious spirit. It was a tragic sight. He fell on his back on top of the strange stone.

Shi Hao didn't feel the slightest bit of sympathy towards this, because this person had tried to kill him several times, even offering a bounty to claim him as a battle servant, even cruelly instilling curses on his divine generals, treating them like criminals.

"You all..." Half of Immortal Palace Inheritor's body suffered from the corrosion of immortal blood, making him lose perception. His eye sockets felt like they were going to split apart. He stared at those two people with absolute fury.

"Kill!" Shi Hao shouted loudly. He indicated towards the Divine Striking Stone, having it break through the formation, pretending that it was quite easy, as if they could quickly break through it.

Sure enough, the first half was broken through easily, pulling it apart like rotten weeds and directly slaughtering into the purple bamboo forest's depths, fast to the point of leaving others stupefied.

Immortal Palace's inheritor was shocked, a wave of fear welling up within him. Right now, half his body was in tatters, receiving serious injuries while comprehending the dao. If these two closed in on him, he would undoubtedly die.

Without any hesitation, he endured the pain, and with a huala sound, collected a pile of divine objects, as well as tried to bring away the comprehending wondrous stone, but ultimately failing to do so.

"Rumor has it that this strange stone is heavier than a star, difficult to store within precious artifacts." Qing Yi said, her eyes revealing brilliance.

Hong!

As they closed in, Immortal Palace Inheritor's eyes were full of unwillingness, as well as endless fury. The light around his body overflowed into the heavens. He still had half of his body that he could move. Then, after looking back once, he activated magical force, endured the pain and flew outwards, smashing into a distant transport formation to escape.

"All of you, just wait. In four hours, I will return and kill you all!" This was what he roared with anger.

"I'll have to give you my thanks for leaving behind the dao comprehension stone, the insights of predecessors, and all of these divine objects. I really am extremely thankful!" Shi Hao laughed loudly.

Pu!

Another mouthful of blood shot out from within the transport formation. Immortal Palace's inheritor was so angry he was almost driven mad. After an angry roar, he then escaped.

Chapter 872 - Inextinguishable

Haha...

Loud laughter sounded from within the purple bamboo forest. Not only Shi Hao and the Divine Striking Stone, but even Qing Yi was laughing quietly. They unexpectedly frightened away Immortal Palace's inheritor just like that.

"Once we meet again, we should properly tell him the truth, otherwise, how insincere would we be?" The Divine Striking Stone said.

“Hehehe...” Shi Hao laughed strangely.

One could imagine what kind of expression Immortal Palace’s inheritor would have after learning the truth. The formation hadn’t been broken yet, but he ran away like a startled bird, leaving behind the dao comprehending stone and other divine treasures.

This was definitely a type of great humiliation that would likely make him vomit blood on the spot. He was actually duped like this by another, scared until he left behind everything and ran.

Qing Yi’s beautiful eyes released brilliance. She looked at these two fellas, pursing her lips and laughing quietly. This man and stone pair were too horrible. The battle didn’t even start, yet Immortal Palace Inheritor’s morale was already at rock bottom.

“Hurry and break the formation. Can you do it in four hours? We don’t want him to return and bring everything away!” Shi Hao urged.

“Alright, let me look into it!” The Divine Striking Stone calmed itself down.

In the outside world, the cultivators of all different sects had been paying attention this entire time, because this was too important. There was going to be a great confrontation between Huang and Immortal Palace Inheritor, so the effects of this battle were definitely going to be great.

From a certain perspective, this was the most intense battle between two geniuses in Immortal Ancient to date. Before this, no one on this caliber had fought a life and death battle yet.

It could be said that all eyes were on them, everyone expectant.

Only, no one expected to see this type of result. Before a bloody conflict happened, the man and stone pair obtained a pile of natural luck, frightening off Immortal Palace’s heaven warping hero.

This was simply unimaginable. A present world matchless young supreme being unexpectedly suffered a loss, almost going mad, half his body in tatters and unmovable.

The cultivators of all different sects looked like they saw ghosts, the expressions on their faces as extreme as they could be. This... was just too unexpected.

“Shameless!”

In the outside world, several old servants stood outside an ancient bronze immortal palace. All of their eyes were widened in anger, their white beards shaking. They were truly angered to the extreme.

There was even a light cold snort that sounded from within the ancient copper palace, carrying anger. This was a tremendous humiliation to Immortal Palace. He wasn’t injured due to battle, but instead running frantically, how could this be tolerated?

“Supreme Hall’s evildoer, even his ancestor has been defeated, yet he still wants to defy the heavens in this realm? He should have been killed a long time ago.”

Right at this moment, a dragon-headed crocodile appeared from the void. It was enormous like a mountain, blood energy surging into the heavens. It roared with a low voice, shaking the heavens until it began to tremble slightly.

Dragon-Blooded Ancestral Crocodile. It was too angry. After watching its heir die, and then Immortal Palace's inheritor not being able to get revenge, instead fleeing after being heavily injured, it truly wished it could immediately slaughter its way into Immortal Ancient.

Everyone trembled inwardly. This ancestral crocodile could definitely kill a heavenly deity.

However, everyone quickly shifted their attention to that small world. They all stared at that Dao Comprehension Stone, seeing whether Shi Hao's group could bring it away or not.

Many people's eyes were burning with greed. That was a supreme treasure! Immortal Palace was unexpectedly going to lose one here. This was unimaginable!

"Wasn't there a rumor that once Immortal Palace's main body and second body merge, he will be unmatched among the younger generation? Why is he in such a sorry state today, not standing there and instead running?" Someone said.

This was without a doubt a clear slap to their faces.

Everyone became shocked. Who dared to say this, actually speaking such 'nonsense' in front of Immortal Palace giants' faces? Didn't they fear incurring a great disaster onto themselves?

"Haha... indeed, even the Dao Comprehension Stone was lost. Just waiting for that inheritor to return and be killed now." Another person said cynically.

"Heng!"

A heavy cold snort sounded from within the copper palace. A silver ripple quickly moved outwards, attacking towards the distance.

Hong!

At the limits of the horizon, a powerful creature who was like a matchless demonic god appeared. It was as tall as the heavens, a pair of golden wings on its back. With a fierce shake of its wings, terrifying aura overflowed into the sky.

The ripples that swept over completely scattered, and a wave of killing intent spread into the copper palace.

Everyone broke out into a cold shiver. Who was this, to be so fearless in front of Immortal Palace, daring to take action like this?!

It was clear that those golden ripples wouldn't be able to enter the copper palace, silently breaking apart and scattering away into flowing light. The existence inside the copper palace was deep and immeasurable.

"Able to display a Stellar Reflection, a fight it will be when your true body appears." This voice sounded from within the copper palace.

At this moment, forget about normal creatures, even the great sect masters were shaken up. Immortal Palace giant's words were truly frightening.

There weren't many people who were worthy of him taking action personally, but once they did appear, it would definitely be a world changing expert!

Apart from this, the words 'Stellar Reflection' also had a type of strange demonic force that left great sect masters startled. It was because few people could accomplish it.

The so-called Stellar Reflection was that even if one was at the other end of the starry sky, they could disregard the distance and reflect themselves on this end for a short period of time.

They could even take action during this period of time!

This type of power was simply unimaginable.

"Who is this, able to display a Stellar Reflection? He is at the other end of the starry sky, yet unexpectedly... appeared to deal with Immortal Palace's giant."

Everyone was shaken up, their hearts stirring with great waves.

"The undying existence, it's him!" Finally, someone recognized who it was.

If Shi Hao was here, he would definitely recognize him as well. This was precisely the undying existence who struggled free from the lower realm. He now appeared again.

"Immortal Palace's old fellas, you all should forget about trying to flaunt your age. If you all want to harm Huang when he appears in the outside world, then just wait for the day I return from the uninhabited region. I'll wipe all of you out one by one!"

The undying existence spoke, domineering to the extreme.

Everyone was shaken up. Many people knew that he was forced into the boundless uninhabited region by a few sects, now gone for quite so time. However, today, he unexpectedly displayed the Stellar Reflection here.

"You all wish to bully the youth that I care about? All of you have disciples as well. If you don't want them to be wiped out, then all of you better play your part!" The undying existence added.

Behind him was another indistinct elderly figure. He also towered there, clearly from the uninhabited region as well.

All sects trembled. There really might be the distance of a starry sky between the undying existence and this place. Now that he displayed his reflection here in such a domineering manner, it proved that his cultivation advanced once again.

"Huang... actually has this kind of backing, an undying lord that is truly bad to provoke or trouble! Truly unexpected." Someone said softly.

"It is a bit bad. If we are talking about the lower realm, there is still a willow tree!" Someone said softly.

Soon after, everyone shut their mouths, no longer discussing this.

"When you return, I'll personally kill you!" A voice sounded from Immortal Palace, originating from an ancient existence, ringing through the air like a golden bell.

“Whoever dares to harm the youth I favor, I will unleash a great slaughter on that sect!” The undying existence said.

Then, the Stellar Reflection disappeared. No one said anything for a long time, and quite a few people felt their heads become heavy, feeling a great wave of chilliness.

Immortal Ancient, within a small world.

Immortal Place Inheritor’s entire body was covered with blood, half his body in tatters. His injuries were extremely severe. He endured the rage and calmed himself down, silently adjusting his breathing to neutralize his injuries.

A wondrous sound could be heard. Within his body, speck after speck of scarlet multicolored blood droplets flowed out, and then they were carefully stored within a jade container.

This was immortal blood, something difficult to find throughout the world. It was enough to make all sects fight crazily over it.

He was disturbed during his comprehension, unable to merge with it for now. He once again extracted it from his body and carefully sealed it within a jade container.

Only then did he begin to treat his injuries. He produced a divine level crystal, undid the seal, and then a divine pill that blossomed with radiant brilliance emerged. It was incomparably dazzling, golden light releasing in tens of thousands of streaks. n(-0V**e**l**b**1n

He swallowed it in one gulp. His body released a thunderous sound, and then his flesh began to heal at a visible speed, recovering his injuries!

Within the purple bamboo forest, the formation rumbled, dao patterns resplendent.

Two hours later, the Divine Striking Stone finally opened up a small path, breaking apart a corner of the ancient formation. They could thus enter.

“Haha... Dao Comprehension Stone!” It cried out strangely, rushing over to bite down on it.

However, Shi Hao grabbed it in one go. This thing definitely couldn’t be destroyed.

Kengqiang

The Divine Striking Stone was still unwilling to give up, giving it a bite. As a result, sparks flew everywhere.

“This damn thing is quite hard, but it doesn’t seem to have any divine substance I need. If it’s eaten, it probably can’t be used to comprehend the dao either.” The Divine Striking Stone muttered, ultimately retreating and giving up.

“It really is that rock! I never expected it to leave Immortal Palace.” Qing Yi cried out in shock, her beautiful eyes suffused with shocking brilliance.

“So heavy!”

Shi Hao was shocked. This rock was unbelievably heavy. No wonder they were saying that it was heavier than a star.

If not for the shocking formation here, it would have definitely smashed through the ground.

Shi Hao produced a spatial magical artifact to try to store it. As a result, it slowly moved, finally entering inside, but the spatial gourd was smashed apart.

Not even a divine level artifact could store it!

In the end, Shi Hao produced the pill furnace, collecting it slowly. With a putong sound, it fell into the lightning river water, this time succeeding.

He felt more and more that this pill furnace was extraordinary, unexpectedly able to do even this.

"Give me some time to take that step. Then, I'll gift the Dao Comprehension Stone to you to research and make a breakthrough." Shi Hao said to Qing Yi.

The two began to search around this place. There were a few other bone books here, all of them insights from predecessors. Immortal Palace Inheritor didn't have time to put them away. There were also other divine treasures that were scattered about, all of them now brought away by them.

"Should we wait for him to come back?" The Divine Striking Stone asked.

"There's no need. Let's leave him be to go mad for some time. Let's wait for him outside." Shi Hao said.

"Alright. Let's let him 'reflect' for a bit, haha!" The Divine Striking Stone laughed loudly.

They left just like that, returning to Green Spirit Realm.

"Boss, is my Golden Peng casserole done yet?" Shi Hao shouted outside Octadic Treasure House.

When everyone heard this, their expressions all changed. This devil king came back! Could it be that he successfully killed Immortal Palace's inheritor?

"It's... not done yet." The boss felt a bit speechless and incomparably nervous. "This type of heavenly ranked creature needs to be slow cooked for a while."

"Alright, continue then. When my battle finishes, I hope I can eat the great Golden Winged Peng." Shi Hao said.

Then, he looked towards the others and said, "That Immortal Palace fella will probably appear soon. Is there anyone here that knows about him? Give him a message for me, tell him to come here and accept death!"

Immortal Palace's inheritor appeared in the purple bamboo forest again. When he saw how everything was a mess and the Dao Comprehension Stone was lost, his face fell. He couldn't help but roar towards the sky, his head of hair flying about crazily. Heaven overflowing divine light flames surged!

Soon after, he arrived in Radiant City, standing outside the city alone, roaring, "Huang, do you dare fight against me? Today, I will remove your head!"

This world shaking roar shook all of Radiant Realm.

“Huang, get out here! If you don’t want to die, then I can take you as a servant!” Immortal Palace roared.

“Great one, there is news that he is in Green Spirit Realm.” Only after a while had passed did someone come in to quietly report.

Hong!

Immortal palace's inheritor rushed through the skies, disappearing from this place.

“Huang, hand over your life!” Soon after, he appeared in Green Spirit Realm.

Shi Hao welcomed him high in the sky. “You finally came! I was waiting for such a long time already. Is your true form humanoid? If not, I’ll turn you into a casserole just like the great Golden Winged Peng!”

Chapter 873 - Supreme Being Blood Revival

All of the cultivators nearby were stupefied. This young devil king actually said this before such a great life and death confrontation! It left everyone completely stunned.

“Hand over your life!” Immortal Palace’s inheritor shouted loudly. The great halberd in his hands brandished about, slicing open the void as he slaughtered his way over.

Dang!

Shi Hao also raised his halberd to greet him, taking this attack head on. They collided together, the sound released earsplitting, ringing through this place. Large black cracks extended in all directions.

“Stop, please listen to me!” The Divine Striking Stone shouted. He turned into a streak of light and flew towards the horizon.

Everyone’s attentions were caught by it, and not even Immortal Palace Inheritor was an exception. There was endless killing intent on his face, his eyes cold like blades as he glared at it.

“Yi, you also opened up a Martial Dao Heavenly Eye?” The Divine Striking Stone gave Immortal Palace’s inheritor a look, and then cried out strangely, “No wonder. You had so many Stone Cores. Thanks a bunch by the way. It was because we plundered your secret nest that Huang was able to quickly open up his Heavenly Eye. It really was a great help.”

Nearby, the heads of all the cultivators wanted to split open. Quite a few people knew what Stone Cores were. There was actually this type of great natural luck that appeared.

In that instant, Immortal Palace’s head of hair flew upwards, battle intent surging. He saw the mysterious symbols in Shi Hao’s pupils. That was a sign of the Martial Dao Heavenly Eye opening.

There were some who opened it between their brows, others who opened it within their two eyes, each different. However, their characteristics were the same, all of them condensed from symbols, glistening and resplendent.

“You’ve succeeded in angering me!” Symbol light erupted from his entire body, killing intent flourishing even greater.

“Forget it, you should forget about mentioning how he ran away like a startled pigeon, leaving behind that wonderful stone for us.” Shi Hao said, waving his hand to have the Divine Striking Stone back off.

“Ah...” Immortal Palace’s inheritor was going mad. His head of hair completely stood up, his battle intent risen to its peak.

“Kill!”

In that instant, he turned into a nine-headed bird, revealing nine heads, all of them releasing dark light. Black feathers covered heaven and earth as they spread outwards.

This type of aura was incomparably brutal, filled with a wave of heaven overflowing killing intent.

Hong!

Shi Hao released a roar, and then he immediately produced three heads and six arms, using the Zhuyan Race’s great divine ability to face him.

Dong!

This was a great collision. Both sides took action with full power, as if two unmatched gods and devils were competing, shaking the mountains all around them. The mountain forest immediately exploded.

Fortunately, they were fighting in the sky, or else this battle would result in even more terrifying destruction.

“Nine-headed Undying Body!” Immortal Palace Inheritor said softly. His entire body flourished with dark light, immediately surging with sky covering symbols. The nine heads chanted sutras to support himself, splitting into nine great demonic deities.

Shi Hao’s expression didn’t change. He released a short shout, “Lightning moves the nine heavens!”

In that instant, clouds gathered from all sides, connecting the heavens and moving the earth. He was gathering all lightning between heaven and earth, guiding the great lightning tribulation.

Kacha!

Lightning poured over like a sea, attacking indiscriminately. The nine great demonic deities couldn’t escape, all of them surrounded within. Only the original body could borrow the great halberd to cut apart the void and escape.

As a result, the nine great divine devils scattered.

Weng!

“Nine erased, but not dead, reappear!” Immortal Palace’s inheritor shouted loudly. The scattered demonic deities unexpectedly appeared again, recombining.

“Wu, don’t tell me that your original body is an undying nine-headed bird...” Shi Hao was shocked.

With a shua sound, he rushed forward, his palms and fingers like jade, condensing a strange symbol. Heaven Calamity Light erupted boundlessly, rushing forward, all of them attacking that body.

At the same time, Shi Hao used his Magical Immunity divine ability before slaughtering his way towards Immortal Palace's inheritor.

In that instant, the nine great undying bodies disappeared again, because they were formed from symbols, scattering under Shi Hao's abilities.

Peng!

The two collided, fists clashing. Their palms made contact in a frontal clash.

Pu!

Immortal Palace's inheritor coughed out a mouthful of blood, retreating outwards. This was not only a collision of the flesh. The other party was immune to his symbols, but the Heaven Calamity Light was still effective.

Immortal Palace Inheritor suffered greatly in this clash.

All of the spectators' expressions changed. The matchless Immortal Palace Inheritor who had merged his two bodies unexpectedly coughed out blood. Just how powerful was Huang?

Shi Hao was shocked as well. After merging together with his second body, this true body was indeed quite strong. If not for the tremendous harvest he obtained from the three thousand bluestone paths, he would have already reached his limit and would likely have trouble.

It was clear that both of them only lacked immortal energy. Right now, they already reached the absolute peak!

"Multi-arm Human Immortal!"

Immortal Palace's inheritor moved quickly. When Shi Hao's strange ability ended, he rushed forward to attack. Not only did he have nine heads, he had many more arms now too.

These arms were all forming imprints, producing the Human Immortal Imprint, a restricted precious technique of the present world, one of Immortal Palace's sect protecting arts.

He was clearly truly angered, wishing to kill Shi Hao in the shortest amount of time possible. This was incomparably terrifying, as if it could suppress everything in the world.

Weng!

Shi Hao's body moved. The three heads and six arms enlarged, and the Kun Peng wings appeared. This time, three pairs of enormous wings appeared, and they slammed over murderously together.

Meanwhile, his six arms shone as well, their palms surging with symbols, forming the Heaven's Hand!

This precious technique was still damaged at the moment, but with the passage of time, it would gradually produce a mysterious method. However, it was still a bit blurry. This time, Shi Hao also used the lightning technique with it.

He overlaid two types of precious techniques, attacking with full force!

Dong!

The collision this time was incomparably ferocious, Kun Peng wings split apart the skies, the Human Immortal Imprint suppressing everything in this world. Lightning overflowed, the nine headed undying bird roared...

This place erupted, symbols covering the sky.

Peng!

The two of them flew outwards, blood flowing from their mouths and noses.

In the distance, it was dead silent. No one dared say anything. These two people were too strong.

Qing Yi revealed a hint of worry. No one understood how extraordinary Shi Hao was than her, yet in the end, he couldn't suppress Immortal Palace's inheritor. The effects of merging both bodies together was heaven defying after all.

She believed that if it was someone else in Shi Hao's place, they would have definitely died just now, their body and soul erased.

As for the outside world, the cultivators of the outside world didn't think this way. They believed that after Immortal Palace's main and second body merged together, it should be powerful enough to sweep through all heroes of this world, never expecting that he still had an enemy capable of contending against him. Huang could still stop him!

Immortal Palace's inheritor already calmed down, his mind recovering from the Divine Striking Stone's stimulation. He believed himself to be unmatched in this world, never expecting Huang to be this powerful, still unable to kill him after merging both bodies.

His eyes were like those of a falcon's, sharp like cold electricity. Symbols flickered. He became incomparably calm, searching for Shi Hao's weaknesses to decide things in one blow.

On the other side, this was the case for Shi Hao as well, searching for the other party's weakness. The Kun Peng wings on his back covered the heavens, becoming incomparably large.

"Kill!"

The two of them shouted, rushing at each other again.

On Immortal Palace Inheritor's back, scarlet multicolored light emerged. A True Phoenix's wings appeared, its brilliant feathers like immortal swords. Keng qiang sounds rang through the skies.

This was a great divine ability!

Even though it wasn't the complete True Phoenix precious technique, it was one of the most powerful loose moves.

In addition, his hands were forming imprints, displaying the Immortal King Nine Seals, creating a cage in the void to suppress Shi Hao.

Brilliant lights covered the sky, endless natural laws appeared. Ancient trees appeared everywhere in the void, continuous and uninterrupted. All of them were created from lightning. Meanwhile, Shi Hao also displayed the Kun Peng technique, power surging from the lightning sea, with both Kun and Peng.

This type of transformations were incomparably shocking. This was a merging of precious techniques! n-
/o/)V-/e--l-(b--1.-n

Hong!

Both sides were greatly shaken, intensely trading attacks. In the end, they both retreated outwards.

From a certain standpoint, they already represented the extreme peak, both of them just lacking the final step. Right now, it was difficult to determine who was above the other.

“Even though it is a battle of the peak of the same level, both lacking the final step, there is still greater or weaker potential. Hand over your life!” Immortal Palace’s inheritor shouted.

At this moment, his body began to burn, every inch of his flesh releasing radiance. This was a sign of him opening all of his body’s potential, about to carry out the final decisive blow.

He was extremely confident, because his main and second body split up to cultivate, both of them accumulating, opening up the body’s treasury. He already accumulated endless mysterious potential.

Shi Hao remained fearless. He also released everything he had. Divine might erupted endlessly, terrifying to the extreme. Every inch of his body was shining, his entire body like a great furnace.

“En?”

Suddenly, Shi Hao felt as if his entire body was a bit strange. His flesh released a strange light. The sound of a roaring tsunami erupted.

He was shocked. This type of feeling was extremely wonderful, giving him a sense of déjà vu. Suddenly, he remembered that after passing the heavenly tribulation and entering a state of sleep, it was precisely this feeling.

“Is this supreme being blood?” He looked at the wisps and strands of shining blood hidden in various areas that released resplendent radiance to link up his entire body.

At the same time, he witnessed the complete symbols of Heaven’s Hand. In that instant, his comprehension of it became extremely deep.

“As expected!” His mind was greatly shaken up. He immediately felt like his body’s inner treasury seemed to be opening up. So it turned out to be like this! The strange supreme being blood appeared again, only, it covered every area, extremely fine, yet still truly existing.

Only now did he truly open up his potential, the supreme being blood revived. It now reappeared!

“It’s pointless even if I tell you, however, even though I haven’t condensed a strand of immortal energy, wisps of immortal mists have appeared. Just hand over your life.” Immortal Palace Inheritor roared while swooping downwards.

If he wanted these wisps of mist to appear, he had to ignite all of his potential. The consumption was tremendous.

Shi Hao was still calm. He now had the power of the supreme being blood after it revived. He released a long roar. This time, Heaven's Hand truly appeared, and it also condensed with the Reincarnation symbols, becoming flawless.

"Immortal dao mist wisps? The one that will be killed is you!" Shi Hao said coldly.

Hong!

Blood energy instantly erupted like an ocean. He was like a reborn giant that had existed since the opening of the world, towering in the world of mortals. He could strike the ninth heaven, suppress the ninth layer of the underworld, absolutely unrivaled.

In reality, his figure didn't increase, but it still gave others this type of feeling, as if he could suppress everything in this world.

The supreme being blood in his body roared, surging like a sea. It released a great rumbling sound, surging between his limbs and white bones.

Heaven's Hand and Reincarnation symbols combined together, their power increased who knew how many times. Shi Hao took a large step forward and released a palm. Heaven and earth trembled!

Peng!

Immortal Palace Inheritor's precious techniques were scattered, blasted through. In addition, the immortal dao wisps also dissipated, disappearing into the void.

Pu!

Immortal Palace's inheritor flew outwards, blood spraying out from his mouth, unknown how many of his bones were broken.

"How could this be? I cultivated with two bodies, I have endless potential. Why is it like this?!" Immortal Palace's inheritor roared towards the sky.

The supreme being blood in Shi Hao's body became more and more resplendent. Two types of innate symbols merged together, continuously transforming, becoming incomparably terrifying. With a casual move of his hand, a dong sound rang through the air. Half of Immortal Palace Inheritor's body seemed to be blasted into mush, flying out again!

Chapter 874 - Immortal Palace Death

Green Spirit Realm, a small world full of vitality.

"I am unwilling to accept this!" Immortal Palace's inheritor took steps backwards. His body was aging and crumbling apart. Shi Hao's palm was too powerful, containing two types of supreme being techniques.

Heaven's Hand made his flesh split apart, while the Reincarnation symbols made his body wither decline and deteriorate.

At first, everyone thought that he only had half his body blasted into tatters, but what happened afterwards made their fine hairs stand up one after another.

Immortal Palace's inheritor was aging, and his flesh was splitting apart like chinaware, falling off piece by piece. Even his blood was black-colored, lacking luster.

On the other side, Huang was calm and unhurried, his black hair hanging down to his waist, his eyes shining like divine rainbows. The supreme being symbols on his flesh swirled about. It was as if he was a demonic lord that had descended into this world, looking down on everyone here.

"Ah..." Immortal Palace's inheritor roared. Half his body split apart, and his flesh was ruined to a completely deformed state, losing its vitality.

"Nine Deaths Undying!"

When the Reincarnation symbols disappeared, he released a loud roar. Dark light erupted from his body, and an enormous pair of black wings appeared behind him that continuously moved about.

Hong!

The dark light covered the sun. Mysterious symbols spread outwards, surrounding him and quickly recombining his flesh.

"It really is a Nine-headed Undying Bird with nine lives?" Shi Hao was shocked. He calmly watched without stopping this process.

Xiu!

Immortal Palace's inheritor unexpectedly recovered, his flesh shining as if perfectly intact. The wings on his back moved, and black colored feathers shot out like divine arrows.

Shi Hao stood in his original location without dodging. He supported his only heavenly passage, forming a resplendent screen of light that protected him.

Pu pu sounds continuously rang out. All of the black-colored plume feathers landed on the heavenly passage, these feathers even sharper than divine arrows, able to shoot down enormous mountains. However, at this moment, they broke apart inch by inch, unable to move forward.

Outside the only heavenly passage, under Shi Hao's feet, broken arrows covered the ground, all of them surging with dark light and powerful divine force fluctuations.

"Plucking your own feathers, are you already prepared to be cooked?" Shi Hao asked.

Immortal Palace's inheritor seethed with anger. He released a loud roar. In the distance, the mountain ridges split apart one after another, collapsing one after another. One could well imagine how powerful he was.

His main and second body merged, so he should have been unmatched in this world, yet who would have expected that he would be defeated a second time, moreover so miserably?

"Even if you have nine lives, I will still kill you all the same." Shi Hao walked over. Right now, he had a conviction of being unmatched. With the revival of his supreme being blood, he became more powerful than ever before.

"Just die!" Immortal Palace's inheritor was going mad. The immortal feather armor was put on, and then his entire body shone with brilliant luster. Large amounts of pure white feathers floated about in his surroundings.

Chi!

He ignited his self, extracting all of his body's potential, once again condensing bits of immortal dao mist. They slowly released, forming a terrifying pressure!

Shi Hao opened his Martial Dao Heavenly Eye, carefully inspecting and analyzing it.

He discovered that this mist indeed couldn't be compared to true immortal mist. The mysterious individual they saw in the vicious nest covered the world with a strand of energy, with the entire heavens seemingly shrouded, powerful and unmatched.

"If that is all you have left, then you can go on your way." Shi Hao said. He didn't want to waste any more time.

When these words sounded, all sides became quiet. Everyone felt their minds being shaken. From the very start until now, heaven overflowing waves stirred within their hearts, leaving them incomparably shaken.

How stunning was Immortal Palace's inheritor? He was someone who was known as this generation's most powerful creature, someone who crushed the geniuses of three thousand provinces until they couldn't breathe, yet today, he was defeated again!

"Kill!"

Immortal Palace's inheritor rushed over, the immortal feather battle armor shining, sending out multicolored light and a rain of brilliance. All of the immortal dao mist he cultivated seemed to have become more thick and solid.

"Still not a true immortal, you weren't able to take that step. Accept death!" Shi Hao shouted loudly. He reached out his hand, covering heaven and earth, suppressing forward.

"The one who will die is you!" Symbols interweaved in Immortal Palace Inheritor's eyes. His Heavenly Eye widened, and his immortal feather battle armor broke apart, rushing towards all directions.

The battle armor unexpectedly shattered, scattering in all directions.

At the same time, a green light rushed into the heavens, spreading outwards like a ocean wave, engulfing in all directions. Shi Hao's direction was especially frightening.

"Ah..." In the horizon, there were people who cried out miserably. After being swept through by the green light, their flesh withered away, their life force wiped out.

Everyone quickly moved backwards out of great fear.

"What is this?" A few people didn't immediately die, yet they still found it hard to defend against. They immediately became weak, powerless before it.

Shi Hao's face immediately fell. He released a long roar, his head of black hair rising like dragons and snakes, dancing about. His eyes were as cold as cold could be.

His hand shone, and his palm produced symbols suppressing forward.

Kengqiang sounds rang out. That green light was stopped by Heaven's Hand, displaying its true appearance. It was unexpectedly piece after piece of green copper rust, a heart shaking green.

This was Immortal Palace's curse!

This type of copper rust was Immortal Palace's supreme treasure, something that came off of the Bronze Immortal Palace and refined through a secret method. Once it entered one's body, it was hard to remove, directly resulting in a painful death.

Bronze Immortal Palace, this was known as one of the higher realms' greatest supreme treasures.

When Shi Hao was in the lower realm, he almost died because of a piece of green copper rust, losing his supreme being bone and being buried in the earth. He only revived after struggling for more than a year.

Now that he saw this curse again today, how could he not be angry?!

Only, things were very different now. Shi Hao had already become a deity, and when facing Immortal Palace, he remained calm and unperturbed. He took action tyrannically.

Green light covered the sky as they shot over, but they were all scattered by Shi Hao, unable to approach and enter his body.

Immortal Palace's inheritor opened and closed his eyes. He chanted true sutras from his mouth, and his body had immortal light coiling about it. In addition, his hands were forming imprints, displaying the curse's fundamental power to support this attack.

"Kill!"

He released a light shout. Endless green light condensed, and one piece was especially large, sharp like sword radiance. It was the size of a fist, flying towards Shi Hao.

This was the curse after receiving the support of chants and magical imprints. It pierced through the void, the scene extremely intimidating!

Weng!

Shi Hao's only heavenly passage moved. That green copper rust pressed forward, approaching his body and almost pressing against his flesh.

Peng!

Shi Hao reached out two fingers, and then pressed the green copper rust between them!

"Is your performance finished? What other methods do you have left? You can display them all now." Shi Hao said, his voice calm.

However, it was precisely these words that made Immortal Palace's inheritor stagger, his face pale. His body swayed intensely, as if he received a heavy blow. His confidence received a great blow.

No one dared to say anything random. They all quietly watched everything. Everyone knew that something major was about to happen.

Immortal Palace's inheritor had been defeated, and was likely going to die!

Hong!

The supreme being blood in Shi Hao's body released a rumbling sound like ocean waves, rushing through his limbs and bones, making his vitality flourish to the peak.

After an intense confrontation, a rain of blood splashed outwards. Immortal Palace's inheritor was killed once again, his ruined body flying outwards. If it was a normal person they would have long had their body and dao extinguished.

However, his flesh became blurry, his body recombining, assembling together, unexpectedly reviving again.

"Nine-Headed Bird, nine lives undying body!" Everyone was now sure that he had this type of ancient bloodline, and successfully activated it.

"This is fine as well. Killing you nine times will properly allow you to understand the distance between life and death." Shi Hao said.

As such, the supreme being blood shone again. His body was shrouded in auspicious energy, becoming greater in volume and more hazy, as if he was a matchless devil king.

After repeated decisive battles, Immortal Palace's inheritor's blood dyed the Green Spirit Realm. Even though he had revived several times, he was still a lamp that had ran out of fuel. Each revival required a great price to be paid. There was no way one would become undying just because of a single bloodline, reviving endlessly.

"Let's give you a taste of the curse itself!" Shi Hao sent a piece of the green rust into his body.

"Ah..."

Immortal Palace's inheritor cried out miserably. His entire body released green light, his expression horrifying. All of the holy aura disappeared, becoming extremely sinister.

Pu!

In the end, he split apart again, his body dying.

"It seems like the nine lives is only in theory, You have only five lives at most." Shi Hao said.

When he fell for the final time, Immortal Palace's inheritor roared out angrily, doing everything he could to resist, but in the end, he was still powerless to reverse the situation, killed here, his corpse falling on the ground.

This time, he wasn't able to revive, his body and dao erased from here on forth!

Green Spirit Realm was quiet. Everyone was trembling. The insufferably arrogant Immortal Palace Inheritor, the one known to be one of the three thousand provinces' most powerful young supreme beings, he was killed just like that?

After remaining calm for a bit, everyone finally recovered. They immediately erupted with noise. This was definitely a great event that would shake up all of Immortal Ancient! It was as if a frantic storm was going to sweep through every small world!

This was also the battle that drew the most attention since entering this ancient land. Immortal Palace's inheritor died, forcefully suppressed and killed!

"Huang won, eliminating the unmatched Immortal Palace Inheritor!"

"The devil king is unmatched, the young supreme being of Immortal Palace not his match!"

This place was full of commotion, extremely noisy.

Shi Hao wiped away the blood at the corner of his lips. This was from the injuries he received before the supreme being blood's revival.

"What kind of race is this? Humanoid, but flowing with silver colored blood." Shi Hao stared at that corpse.

The blood, even though red, still had bits of silver light.

Immortal Palace Inheritor definitely had the Nine-Headed Bird's bloodline, as well as another type of lineage, an extremely powerful humanoid creature's.

Shi Hao put away this spoils of war, finding quite a few divine objects on Immortal Palace's body. The most important thing was that he found a jade container with a lump of gemlike blood.

That was -- Immortal Blood!

Chi!

Suddenly, just when Shi Hao put away the immortal blood, a streak of glaring sword light shot out through the void, piercing towards the back of his head. It was exceptionally sharp!

He shifted to a different position, fast to the extreme, his movements swift to an inconceivable degree, only leaving behind an afterimage.

This was a divine sword dripping with blood, filled with killing intent, as if it had killed tens of millions of creatures before. It made one's fine hairs stand on end.

However, immediately afterwards, the divine sword dripping with blood grew dim, entering the void. After missing, that person was going to escape.

"You from Heavenly Country, I didn't target you all, yet you all instead tried to deal with me!" Shi Hao's eyes became cold. In his hand appeared the Void Halberd.

Chi!

He hacked open the void, and then he chased after that person.

Hong!

Immediately afterwards, this area of the void continuously collapsed. Sword light surged, and a great halberd shone. Great cracks appeared in space from time to time.

Pu!

A soft sound could be heard, and then blood splashed outwards. A head tumbled out from the void, landing on the ground, as well as a broken bleeding divine sword.

Shi Hao walked over like a great demonic heavenly deity. In his hand was a great halberd, the shining blade sticky with blood, his might outstanding and beyond compare.

“There’s more? Where do you think you’re going?” Shi Hao’s divine senses were extremely sharp. The halberd in his hand hacked out towards a different direction. A figure appeared, frantically trying to escape into the distance.

Suddenly, sword energy appeared boundlessly, carrying wisps of primal chaos. It was incomparably intimidating, stopping Heavenly Country’s divine level expert.

A harmless looking little fatty unexpectedly released chaotic sword energy. He was smiling bashfully over there. It was precisely Cao Yusheng.

“Murderer, stop running and go back!” In addition, there was a little girl as well who looked like a porcelain doll. She had snow white long hair and large red eyes. With a light shout, she stopped another Heavenly Country expert that was trying to escape.

She was also someone familiar, the Lunar Jade Hare, a snow white little rabbit.

Heavenly Country’s divine level expert’s face grew dim. There was no way to leave, because in the other direction was an exceptional beauty surrounded by green moonlight currently moving in this direction.

In reality, he knew that even if there was only Huang, if he chased after him, there was no way he could escape.

“Are you going to end your own life, or should I send you on your way?” Shi Hao calmly said.

Normally, who dared to offend Heavenly Country, who dared to look down on divine level experts? However now, when he said these words, no one felt that it was surprising, because he was exuding an awe-inspiring might.

Pu!

Heavenly Country’s divine level expert unexpectedly really did end his own life, his corpse falling down. It was extremely decisive.

Shi Hao gave the little rabbit, Cao Yusheng, and Qing Yi a look, and then gazed towards the Octadic Treasure House. He shouted, “Boss, is the Golden Winged Peng casserole done yet?”

“It... has already been finished!” The Octadic Treasure House’s boss trembled, his voice shaking as he hurriedly replied.

"Then that's good. I have some guests to entertain, so think of some way to bring out a few more jars of holy wine." Shi Hao laughed loudly.

While the great Golden Winged Peng was being stewed, he powerfully took action, killing Immortal Palace's inheritor, shaking all of Green Spirit Realm.

"That's too great, we have great Peng meat to eat and holy wine to drink. What a blessed feeling." The little fatty giggled.

"But.. I don't eat meat..." The little rabbit's ruby large eyes were spinning about, incredibly quick-witted as she muttered.

"You are always fighting over food whenever you get drunk, to the point where you end up almost eating the most!" Shi Hao exposed.

"Nonsense, I don't eat meat!" The little rabbit glared outwards with her large eyes, her feet swinging over.

Peng!

Shi Hao moved out of the way, but a great mountain in the distance directly collapsed. This was the well-known 'Rabbit Step'.

Shi Hao laughed loudly, walked over to stroke this little girl's head, completely messing up her snow white shining hair.

"I'm going to fight you to the death!" The little rabbit screamed.

Chapter 875 - Comrades

The little rabbit bared her fangs and claws, her head of silver hair long and shiny like satin, dancing about in the wind. Her large eyes were intelligent, making her look pure and exceptional.

Shi Hao directly found a stalk of holy medicine from Immortal Palace Inheritor's body and threw it into her mouth. She immediately stopped, no longer 'fighting to the death'.

Kengchi

The little girl chewed on it like chinese cabbage, chewing off a piece of the old medicine sparkling with purple radiance. She immediately became all smiles again.

It was just too extravagant... Many people cursed silently when they saw this. Was there really this kind of wasteful use of holy medicines? To directly chew on it, not even refining it, and using it like food.

"Let's go. I'll invite you all to eat great Peng meat!" Shi Hao waved his hand, and then he led the way.

Of course, before leaving, he burned Immortal Palace's corpse clean to prevent any 'returning from the grave' accidents.

This place erupted with commotion. Immortal Palace's young great one died just like that, his body and soul eliminated. The genius who was known to be able to sweep through all three thousand provinces' geniuses lost his life just like that!

In the outside world, it was similarly chaotic, the disturbance even greater!

Immortal Palace, how extraordinary was this inheritance? Even though their numbers were few, never exceeding five if they excluded the servants and others, they were still above many great sects.

Their old palace master especially, how many in the higher realms could match him?

This sect overlooked many great inheritances, related to the legendary immortals, even more so burying the dazzling Supreme Hall.

It was precisely this kind of sect that had their inheritor killed in Immortal Ancient. All types of life-saving treasures were useless, dying without any suspense, moreover being killed five times in succession!

How shocking was this?

That ancient copper palace floating in the void, chaotic energy swirling around it, was silent and still. However, the servants in its surroundings were already trembling, feeling an anger and killing intent that was about to erupt like a volcano.

“Di Chong[1]... died just like that. In the past, this name was given to you in hopes that you would become an emperor, rushing through the nine heavens, never expecting you to die so soon.”

Inside the bronze palace, an aged voice sighed, carrying regret, but even more a wave of killing intent. It immediately engulfed the great earth, the mountains and valleys all rumbling and swaying.

Dead. Immortal Palace’s inheritor Di Chong died just like that, killed by Huang. This left the entire outside world shocked.

Huang, he immediately became the focal point of everyone’s discussions. No one thought that the Immortal Palace Inheritor who merged both his main and second body would have died like this, killed five times.

This was a great defeat, as well a type of humiliation. For Immortal Palace, this event didn’t bring them the slightest bit of brilliance. It tarnished the reputation of this inheritance that had been known to be undefeated!

“Truly unimaginable. Huang came from the lower realm, rising up from the great wastelands, yet so quickly able to match the most powerful geniuses of the higher realms. In the future, he might even be able to contend against ancient freaks.”

Everyone sighed. Their attention concentrated on this youth again, seeing him in a completely new light. It was because this person advanced by leaps and bounds, more powerful than what they had even imagined.

“Things are going to get rowdy now. Now that all of the geniuses have gathered with Immortal Ancient’s final opening, great waves will definitely be stirred now because of Huang!”

Soon after, this place became noisy. Everyone was frightened because of this battle. It was different from what they had imagined. All of them were discussing this excitedly.

Immortal Ancient, Green Spirit Realm.

Peach blossoms were blooming, the blossoms rich and diverse as they fell everywhere. The petals were sparkling and resplendent. This place didn't have any noise, nor were there any bloody battles. There was an exceptional beauty and tranquility to it.

"Truly fine food, Great Golden Winged Peng casserole!" Cao Yusheng directly rubbed his hands together, his small chubby face smiling happily.

On the jade table, that great Golden Winged Peng was arranged on a silver platter, the gold and silver lights mutually reflecting. It was incomparably brilliant, and there was even more so a captivating meat fragrance.

It was clear that the silver plate was a spatial precious object, or else how could it store such an enormous Peng? One had to admit that the Octadic Treasure House had some methods, all of its tableware made of magical artifacts.

There was not only a large half of Peng meat stewed into a casserole, there was even a small half roasted, the wings roasted until it was golden and shining, the oil releasing chi chi sounds as it landed on the precious furnace below.

It was clear that the furnace was also a precious artifact, or else it wouldn't have been able to roast the divine bird meat at all, nor could it hold this small half of the Peng.

The little rabbit stared at the fragrant Peng wing that was shining with golden oil, doing its best to swallow its saliva. It continuously said, "I don't eat meat, I am a vegetarian!"

"Hehehe..." Shi Hao and the little fatty all laughed.

In the silver plate's surroundings were all types of bronze plates, on them all types of food, most of them from walking beasts, vicious birds, spiritual medicine meats and other things. Of course, when compared to the great Peng, these were only 'side dishes'.

Apart from this, there were a few jars of holy wine as well. When the divine earth seals were undone, a wave of sweet fragrance wafted outwards, spreading throughout this entire restaurant, adding a wine fragrance to this peach garden.

Not long ago, Shi Hao could only buy a single pot, yet this time, the boss directly brought out the few jars left in the entire store, because this battle frightened him quite badly. Even Immortal Palace's inheritor was killed five times, so this devil king definitely couldn't be offended. He was scared that Shi Hao would display his might here and eat everyone.

As for Huang, he already created quite a few legends, for example, fighting with Ning Chuan's spiritual body and returning from the vicious nest alive. Of course, for most people, the most terrifying thing was still when he ate seven or eight exceptional talents in Silver Polish Mountain!

This truly frightened everyone. As long as one wasn't originally humanoid in shape, they all stayed far away from him out of fear of being targeted by this devil king.

"Dig in!" Shi Hao laughed and said.

Gudong gudong...

As Shi Hao, Qing Yi, and the little Fatty tore at the golden and resplendent Peng meat, the little rabbit on the side began to drink large mouthfuls of wine. Its little face immediately became rosy.

"Little sister, there are vegetables here. You don't have to only drink wine." Qing Yi said with a smile, pointing at the other 'side dishes'.

Shi Hao roared with laughter. "She doesn't like eating vegetables at all, but is instead preparing to drink herself drunk, deceiving herself so she could fight over the great Peng meat."

"Hehe..." The little fatty also began to laugh, because this wasn't the first time this type of thing happened.

"Nonsense, I don't eat meat, I eat vegetables!" The little rabbit was furious, her large red eyes widening as she angrily berated.

Of course, the angrier she became, the more she drank. A small half of the pot of holy wine disappeared just like that, making Shi Hao and the little fatty feel quite some pain.

A moment later, the powerful holy medicine wine kicked in. The little rabbit's face was completely flushed, her large eyes narrowing. She began to bare her fangs and claws to fight over the great Golden Winged Peng's meat.

Qing Yi was stupefied. When she saw how the snow white rabbit was acting, she finally seemed to have understood a bit.

As expected, no one ate more viciously than her. Her small face was full of grease, eating awfully joyously. What vegetarian, arguing noisily? Vegetarian my ass!

Of course, when she became clear-headed, everyone knew that she wouldn't admit it even if she was beaten to death.

The others in Octadic Treasure House's top floor were speechless. That was a Golden Winged Peng! Yet it was turned into a dish, and was even being crazily eaten by a pretty and delicate little girl.

"I hate you all!" The Divine Striking Stone fell onto a small silver plate, continuously smashing about with dang dang sounds as he watched them gorge on the food. It was extremely angry, bringing out a few rocks itself and chewing on them with kacha kacha sounds.

These people ate while chatting, talking about their own experiences in Immortal Ancient. Of course, there was a little rabbit drunk boxing on the side, joining in on the fun.

"I need to go into isolation cultivation and cultivate immortal energy. I have to take that step." Shi Hao said, his eyes serious, already firmly deciding to do this.

"Even Heavenly Country's assassins have appeared, so the situation doesn't look too good. These cold blooded creatures normally wouldn't take action without reward, so there is likely others who asked them to attack you." Qing Yi said.

"Correct!" The little rabbit nodded her head in a drunk manner.

"Why don't we all go into closed door cultivation and take care of one another?" The little fatty said.

"My place is a bit special... it might not be suitable for you all." Shi Hao said.

"It is the same regardless of where I am, because I've recently been focusing on finding a way to carve killing formations on my flesh, bones, and soul." Cao Yusheng said. n.)O)/p--e/)L)-B--1--n

Everyone's paths were different. This fella dared to do this, his courage quite great. They all knew that he grasped the Third Killing Formation, able to release chaotic sword energy.

"This is your path?" Shi Hao asked.

"This is just the foundation. I need to gather earth energy and heaven essence to nourish the dao core and produce a great living formation. This is the second step. What happens afterwards will be complicated." The little fatty was full of confidence.

"My dao is to gather all types of spiritual medicines and eat one of every kind, sample the essence of ten thousand grass to condense a natural divine body!" The little rabbit mumbled while belching. She glanced over towards Shi Hao, knowing that he has many old medicines on him.

She didn't necessarily need to eat them, only needing them to sense their natural dao of life.

As for Qing Yi, she was a bit special. That green moon never left, carrying a strange inheritance.

"Then let's just all go together!" Shi Hao said. They would look after each other. If anyone came to invade their territory, then they could lend each other a helping hand.

"Let's be a bit careful, don't want to be tailed." They left, about to enter isolation cultivation.

"Ah, you were cultivating in isolation here?" Those people were shocked. It was actually the starting paths, the three thousand bluestone paths.

When they understood the path Shi Hao walked, they were all shocked. The little rabbit mumbled, "No wonder you liked eating roasted Peng wings. Turns out you were cooking yourself everyday when you had nothing better to do..."

Dong!

Shi Hao directly gave her head a tap, leaving her grimacing in pain, tears almost falling out. She jumped out murderously.

...

"My isolation cultivation will be extremely dangerous this time. Last time, I encountered two ominous events, so if I enter isolation again, there might be something mysterious about. All of you should stay a certain amount of distance away from me." Shi Hao warned seriously.

"I'll set a formation this time to catch it. I want to see exactly what kind of thing it is!" The Divine Striking Stone said.

When Cao Yusheng, the little rabbit, and Qing Yi heard this, they unexpectedly unanimously nodded, expressing their agreement. They also want to find out exactly what was going on. They were extremely daring, wishing to capture the so-called 'inauspicious existences'.

Shi Hao released a sigh. Only after personally experiencing it would one know how terrifying that thing was. Last time, he seized life from near death.

"I am not joking. It is better if you all don't join in, or else you might be inviting trouble." He advised against it.

"We wish to take that step as well, so sooner or later, we'll run into it. If we work together to capture that thing now and research it, then it will be greatly beneficial in the future." Cao Yusheng said. He said that they could use his killing formation to encircle it.

That was the Third Killing Formation, born within primal chaos, enough to shock the world!

"Correct, hurry up and lay it down. With all of us joining hands, we will definitely catch one alive. Watch how I deal with it!" The little rabbit shouted noisily, not scared in the slightest.

Shi Hao was speechless. They were all serious about doing this.

"Alright, let's give it a try then, see if we can catch one of those strange things. I also want to find out what kind of background it has exactly, what kind of strangeness." In the end, Shi Hao nodded, agreeing. They began to make preparations!

1. The first character means 'emperor', and the second character 'to rush' or 'powerful'

Chapter 876 - Reappearance

Formation banners fluttered about the three thousand bluestone paths. There were several dozen of them, and once activated, large numbers of deities would die if they accidentally stepped into them.

These killing formations were assembled after working for several days, as well as using up a small mountain of heavenly materials. Their power was matchless.

If not for Shi Hao killing Immortal Palace's inheritor Di Chong, and then paying several clans a visit in Radiant City, he definitely wouldn't have been able to gather so many divine materials. Their value was impossible to assess.

"We can still use these things later. They've all been turned into magical stands and formation banners, so if we switch locations, they can still be used." The Divine Striking Stone said. It was so tired it was about to collapse. All of these things used up a lot of mental and physical effort.

At the center of the ten great formations was a simplified version of the little fatty's killing formation, because with his current cultivation realm, there was no way he could carve out all of the symbols.

He used his divine senses to carve the insides of the divine materials to prevent those outside from prying into them.

When the great formation was activated, this place immediately became different. Formation banners fluttered about, dao platforms shone, forming several tens of layers of barriers of light, protecting this place.

Shi Hao sat at the center. "Are you two reliable? Don't refine me along with everything else now."

"Relax, that region is extremely safe. It won't be affected." The Divine Striking Stone said.

"I'll use the bluestone ancient path's symbols' flame to burn my body, so will that hinder or damage the great formations?" Shi Hao asked.

"I am going to remove the central formation stand for now so that the great formation can't activate. When the irregularities truly happen, it'll immediately return to its position and activate it." The Divine Striking Stone said.

They carefully discussed and studied the situation, thinking up all types of issues that might arise. When they were sure that nothing unexpected would happen, only then did they begin to enter closed door cultivation.

Shi Hao brought out everything he had for them to take care of, because when the over a thousand great dao symbol flames burned his body, withering away his flesh, his body would be half destroyed, and even things he carried on him would be hard to protect.

He only held two Half Ginseng Fruits in his mouth so that it could preserve his life at the most crucial point.

Dong!

The Dao Comprehension Stone landed on the bluestone path, making this place tremble. However, it didn't crush this place. The strange stone was an ashy brown color, looking extremely ordinary, but actually had wondrous effects.

Shi Hao sat on it, preparing to use this to enter isolation cultivation.

"Good stuff." Outside, regardless of whether it was the Divine Striking Stone, little fatty, or Qing Yi, they were all extremely happy. There was a pile of bone books, all of them insights of those before them.

This time, Shi Hao killed Immortal Palace Inheritor, collecting all of the precious items he had on him. There was no lack of divine treasures.

Unfortunately, there weren't his sect's greatest divine abilities and other things, leaving him a bit regretful. However, if the rest of the world were to know about these spoils, it would definitely be enough to drive them crazy from jealousy.

"An entire basket of half divine fruits?" The snow white little rabbit cried out in shock. Then, it grabbed the basket while rolling around, incomparably happy. This was too astonishing.

She didn't want to eat them. Any spiritual medicine, just a single stalk was enough. She only needed to understand the life source energy within them. Now that she saw different types of fruits and old medicines, she naturally became extremely happy.

Shi Hao didn't only pick a pile of Half Ginseng Fruit, but also stole from the treasuries of all different clans. Holy medicines, and other fruits were piled up as well, naturally making her extremely happy.

Shi Hao was quite generous, telling them that if they needed them, they could use them as needed.

"Alright, I'm going to start!"

He sat down on the Dao Comprehension Stone without moving, becoming completely silent. Time flowed on. Suddenly, the surrounding bluestone paths shone, and lights shone one after another.

Divine flames surged, engulfing heaven and earth, drowning out this place. It was as if it could burn the nine heavens. The sky became incomparably brilliant, the clouds even burned away.

"Truly ridiculous..." Cao Yusheng said with a sigh.

"Is this fella crazy? Burning himself like this, does he want to cook himself alive?" The snow-white rabbit grumbled. It was still feeling resentment, blaming him for hitting its head.

After who knew how much time had passed, a thousand and five hundred streaks of fiery light appeared in Shi Hao's surroundings, surpassing the past. It slowly reached a thousand and six hundred.

"With the revival of the supreme being blood, my ability to resist the fiery light has increased by quite a bit." Shi Hao was surprised.

If it was in the past, he would have already been scorched black, burnt into a withered state, but this wasn't the case yet.

However, with the passage of time, the fiery light flourished even greater. When it reached the thousand six hundredth streak, he suffered serious injuries. His skin opened and his flesh split apart. Symbols covered his body densely, rushing into his muscles and bones.

The furnace cauldron refined from the void distorted at this time. His body within almost turned into a pile of charcoal.

"A paste, already completely cooked, meat fragrance wafting through the air, I really want to drink and get drunk again!" The little rabbit cried out.

Fortunately, Shi Hao was isolated from them, unable to hear these things, or else he would have definitely given her a beating.

Peng!

When the symbols cleansed the flesh, the bluestone paths released the sound of scriptures, Shi Hao's body trembled. He resonated with the dao, immersing himself into it.

In the end, he released a roar, the furnace breaking. He separated from the countless great dao symbols. His comprehension was deep. He sat in the void, descending onto the Dao Comprehension Stone.

The thousand six hundred streaks of fiery light retreated. That place became quiet and without any sound. He became coal, unmoving as he silently comprehended the dao.

"Too scary. This is self-torture, gambling with one's life."

Cao Yusheng couldn't help but sigh. Then, he began to comprehend his own dao.

This time, Shi Hao was faster than before, not taking up that much time, but the injuries this process created were just as serious. The half divine fruit in his mouth turned into liquid, entering his body to recover his injured body.

The Divine Striking Stone sent over a few holy medicines and half divine fruits to help him quickly recover.

Unexpectedly, the irregularity didn't occur.

Just like that, Shi Hao continued his process of isolation cultivation. After his injuries healed, he guided the great dao's symbol flames to refine his body, using heaven and earth as a furnace, the great dao as flame to refine his true self and transcend.

A thousand eight hundred streaks, a thousand nine hundred, two thousand...

"It's coming!"

When two thousand one hundred streaks were refined and Shi Hao recovered through half divine fruits, a mysterious wave of energy appeared, surrounding this place.

The Divine Striking Stone and the others entered the formation together, activating the central formation stand, creating boundless barriers of light that began to surround this place.

An ancient lamp arrived in a slow and unhurried manner. Even though it was shining, it still made one feel extremely cold, carrying an ominous aura. It... entered the formation, suspending itself a hundred zhang above Shi Hao's head!

The Divine Striking Stone cried out strangely. This was too weird! The formation it laid unexpectedly didn't serve any use! That ancient lamp disregarded everything, entering like a ghost.

"What is going on?" Cao Yusheng's expression changed.

Qing Yi directly activated the green moon, scattering out its radiance in preparation of using this ancient flame to burn away all things sinister!

"It really is strange..." The little rabbit was incomparably nervous.

That ancient lamp swayed about, and the gray mists pervaded the air, arriving from the distance, drowning out this place and spilling into this formation.

Shi Hao sighed. "You all should withdraw. This thing is looking for me. If I don't personally deal with it, there's simply no way of dispelling it."

He gradually understood. The two of them wouldn't end until the other was destroyed. This type of thing couldn't be dealt with through outside force, with not even formations being able to stop it. There was a mysterious power surrounding this place.

Under his repeated warning, those individuals withdrew.

A figure silently walked over from within the gray mist. There was no life fluctuations, completely quiet. It was like a demonic mountain.

Shi Hao had an experience last time, so this time, he didn't immediately display divine abilities. He feared that the other party would imitate him, using his own precious technique to attack him.

However, this time, he thought too much. This person used tyrannical and vicious methods right from the get go, terrifying to a shocking degree!

This creature carried a Heavenart Halberd like a human emperor, its aura overflowing, surging like a flood. It rushed forward murderously, hacking it at Shi Hao.

Gray mists surrounded it, hiding its true appearance. Only its eyes could be seen, a deathly gray in color. However, it released chilly radiance that was intimidating to the extreme.

Dang!

Shi Hao produced the Void Halberd, taking it head on. His arms immediately felt numb, great pain transmitting from his fingers.

Sparks flew in all directions like lightning!

In the distance, Qing Yi and the others' expressions all changed. This creature was too powerful, possessing a tremendous and seemingly inexhaustible strength. It was above the Divine Flame Realm, absolute and tyrannical.

Dang dang...

Symbols erupted, divine light rushing into the heavens. The great halberds collided, their sounds shaking the heavens, making people's scalps go numb.

"How could it be just as strong as Shi Hao?" Qing Yi said. She noticed some clues. Both sides' symbols and precious techniques were all extremely similar.

"Correct, evenly matched. It is the same as fighting against oneself!" Cao Yusheng's expression became grave.

"Remove the formations!" Shi Hao shouted.

When the Divine Striking Stone heard this, it quickly took action, removing all of the formation stands and banners.

"Not good, another one came!" The little rabbit cried out.

Sure enough, footsteps sounded, cold and indistinct. A pair of eyes appeared in the gray mist. It also carried a Heavenart Halberd, coldly and ruthlessly walking over murderously.

Hong!

This creature's strength was the same as the other one, just like Shi Hao's, incredibly tyrannical, immediately using the dazzling white halberd blade to slice at his torso.

This battle was too difficult, with no hope to be seen.

Qing Yi, the Divine Striking Stone, and others all felt a chill inside. The two creatures were both similar to Shi Hao. Now that they appeared one after the other, how was he supposed to even fight?

The Void Sky Divine Vine stuck out its head, breaking out into a cold shiver before hiding back into the heaven and earth pouch, not daring to come out again.

This time, Shi Hao became silent again. After a brief period of stillness, he erupted with endless symbols to fight a bloody battle!

This place erupted with chaos. Dao sounds rumbled and precious techniques rushed into the skies as he fought in a berserk manner. nove-18-1n

“They are just similar, the precious techniques aren’t the exact same as what Shi Hao uses. They only look alike.” Qing Yi said.

“What will happen if we take action?” Cao Yusheng asked.

The little rabbit thought for a bit, and then pointed out a finger. Great yin force turned into a streak of divine light, entering the battlefield. Another type of symbol appeared in the void and rushed murderously at Shi Hao.

Dang!

A streak of divine light landed on the strange creature’s great halberd, and then another streak landed on Shi Hao’s halberd. Sparks flew everywhere.

“No good, we cannot hastily take action. This is likely a type of natural law, a mysterious power that is at work here.” Qing Yi said.

Shi Hao bitterly tried to think of different methods. He used the method from last time, suddenly linking up different types of precious methods and attacking crazily, wishing to overlay them like last time to kill these two strange existences.

In the end, it was useless. They were dispelled.

The two creatures joined hands, quickly inflicting serious injuries on him. Right now, it was as if he was fighting against two of himself. This was a challenge of his limit!

“Challenging the limit... do I need to surpass myself?” Shi Hao’s entire body was covered in blood. The halberd strike just now almost hacked him into two.

Ah!!!

Shi Hao released a roar. His body shone, linking up the heavens and moving the earth. All types of divine force symbols blossomed. He stirred up all of his body’s vitality to resist these two creatures.

Peng!

However, he was still struck flying, his body in tatters and almost dying miserably.

“My limit, is also their limit. This can’t be considered a breakthrough, have to find some other path.” Shi Hao quickly thought to himself.

He fought a bloody battle against these two while carrying heavy wounds on his body. The supreme being blood in his body flowed, silently moving about, merging two types of symbols together. They continuously evolved.

“Limit... break!”

“Pu!”

One of them was struck flying by him, but the other almost severed off his right arm, the halberd blade even entering his bones.

“Evolve... resonate!”

Two types of innate precious techniques intertwined, merging together, producing a sight as if they were returning to one, becoming more and more inseparably linked. They were unexpectedly merging into one type, the power increasing sharply.

“Kill!”

Shi Hao roared angrily. His body shone, supreme being blood surging, extending towards his four limbs and hundreds of bones, merging together. The symbols that were gradually becoming one erupted with the most brilliant radiance.

One could vaguely see a strand of vague immortal energy appear around his body.

Hong!

Supreme being techniques erupted. He took large steps forward. When he traded blows with those two individuals, his divine force surged, magical force surging like a sea. His flesh also became quite a bit more powerful.

Pu pu!

Two light sounds rang through the air. He used the combined symbols to kill these two creatures. Their tattered bodies fell down onto the bluestone stairs.

At this moment, Shi Hao stood on the battlefield alone, his body and mind clear as he silently inspected himself. The two types of symbols were intertwining, transforming into one type!

He knew that he not only made it through this disaster, there was also a tremendous harvest!

In addition, a strand of immortal energy appeared around his body, indicating that he was about to break through on this path!

“I am almost near the end of my road. I am going to burn my true self with all three thousand flames!” His will was firm, his eyes brilliant.

Chapter 877 - Immortal Energy

“What kind of creature is this?” Cao Yusheng and the others ran over, staring at the two tattered bodies.

When the gray mists scattered, they could see bronze armor on their bodies, as well as halberds covered in green rust that looked incomparably ancient, as if they walked over from the endless past.

“Heavens, what kind of creature is this? How can it have this type of ancient feeling? It almost seems as if it came from the last great era.”

This type of feeling was extremely strange, making one feel as if what they were facing was a part of history and not two creatures. There was an accumulation of passed time, and even more so an indescribable type of great bleakness.

“You shouldn’t have killed us..”

Suddenly, one of them weakly opened their mouth. There was no life aura, nor any spiritual fluctuation. However, these words were spat out with difficulty.

“Aowu...” The little rabbit jumped extremely quickly, screaming outwards and immediately disappearing. She was truly given quite the fright.

“Actually still able to speak, this truly is strange.” The little fatty said. He was quite daring, squatting down to carefully study them, wishing to study through them.

Shi Hao was quite glad that these two creatures looked different from him. Otherwise, he would have felt extremely uncomfortable inside, as if he was killing himself.

That creature then stopped moving, no longer speaking.

“Road... already broken, reached its end, everything no longer exists.”

As soon as the little rabbit made its way back over, the other corpse suddenly weakly opened its mouth, giving her such a fright that she jumped straight up. With a sou sound, she scuttled behind Qing Yi’s back.

“You are scaring this rabbit to death! Can’t you two speak together? Why do you have to go one after another just to scare others?” She was extremely angry.

The gray mist scattered. The two corpses turned into fine powder. There was no flesh or blood as they scattered like smoke into thin air.

Apart from this, their bodies’ bronze armors and great halberds also split apart inch by inch, turning into bronze fragments. It was as if they had experienced tens of millions of years.

Under the endless years and the flow of time, nothing could exist forever. Everything ended in destruction.

Shi Hao rushed into the skies. The halberd in his hands hacked outwards, making that ancient lamp distort and then scatter into mist, disappearing from this place.

What exactly was this? What did those two creatures mean when they said those words? Shi Hao frowned. He could call them a type of natural law, but they clearly had true physical bodies. After the battle, after they were killed, only then did they slowly scatter away.

“They are just like corpses that have been sealed in an ancient coffin for an extremely long time. They are extremely lifelike at first, but once time goes on, they quickly decay and no longer exist, because they have long been erased along the endless river of time.” Cao Yusheng said.

“You really are nasty. Why do you understand these things? What kind of comparisons are you making?” The little rabbit said.

When Shi Hao heard this, he was startled. "Where did they come from? Are they really corpses from Immortal Ancient Great Era? Why do they always appear like this, carrying out this type of intervention with such dark power? Also, why does it only send out monsters with similar strength as myself?"

He had many questions, causing him to frown.

"They aren't corpses from underground." Qing Yi frowned. A green flame wrapped around her, and then a strand jumped out, pointing in a direction.

They followed after it, arriving outside the three thousand bluestone paths. The flame suddenly burned through the void, distorting heaven and earth. A terrifying great gap appeared there.

Their minds trembled. They looked inside, but there was nothing.

The Green Lunar Flame restrained itself, no longer appearing. Meanwhile, that crack slowly closed, disappearing.

"It came from the void and not from underground. These things are too frightening!" The Divine Striking Stone said.

Every single one was comparable to Shi Hao in strength, so if a group of them came out, wouldn't this entire world be thrown into chaos? Just the thought alone made one's scalp feel numb.

"A strand of faint immortal energy around the body, I feel like that step isn't far." Shi Hao wanted to cultivate in isolation again.

A strand of indistinct immortal energy unexpectedly appeared after this battle, swirling around his body, making him look aloof and transcendent. His fighting strength was clearly increased.

"Truly never expected that you would actually succeed!" The little rabbit puffed her cheeks and stared with her large red eyes, looking at him curiously.

"Something doesn't seem right." Cao Yusheng spoke. He clearly understood a bit more.

"It truly is inauspicious. I've seen this type of recording from rare precious bone books. This type of scene doesn't seem good at all." Qing Yi nodded, revealing a strange expression.

"Why?" Shi Hao was shocked. He unexpectedly arrived at the door, about to take that step to complete a true transformation and evolution, yet he insteads heard these words.

"Immortal energy is quite special. Once it is comprehended, it will spurt out at once and surround the body, and not be indistinct like this." Cao Yusheng said.

In this great era, the world's natural laws changed. Everyone would reach the end of their lives, no one able to live eternally.

Similarly, it was extremely difficult for one to take that step as well.

This type of recording, this type of legend, all came from the last great era, things that those of later generations learned of and understood from excavating historical ruins.

“Why is this the case? Could it be that it is saying that it will be extremely difficult for me to succeed?” Shi Hao frowned.

Based on what the bone books said, an indistinct appearance of immortal energy could only mean one thing, and that was that the path he took was too extraordinary, too difficult, impossible to reach the other end.

It was because even if they continued traveling this path, it would be extremely difficult to condense true immortal energy, most likely throwing away one’s life along the way.

When Shi Hao heard this, he remained silent for a long time. Could it be that he had already reached the end of this path, unable to proceed further?

“It is just saying that the path is too difficult, difficult to cross... That doesn’t mean that one is guaranteed to fail, right?” Shi Hao asked.

“It does!” Qing Yi sighed. From what was recorded, the chances of success were extremely small, impossible to succeed. If he continued, it would result in the death of both body and dao.

“I will succeed!” Shi Hao’s conviction was firm.

“Don’t rashly attempt at it. There might be great problems.” Qing Yi said. This was something left behind from Immortal Ancient, a conclusion of their predecessors, so there was definitely reasoning behind it.

Even if it was Immortal Ancient Great Era where the world’s environment still remained unchanged, those who could cultivate immortal energy were still few and far between, requiring one to have heaven warping talent.

The world in this great era was different, everything already changed, and as such, success was just too difficult.

“I still wanted to cultivate a few strands of immortal energy... how could it be like this? An indistinct strand of immortal energy cannot stop me! I will allow it to truly appear!” Shi Hao said.

The little fatty Cao Yusheng was speechless. He deeply understood the difficulty of this path, and even some ancient freaks had died. How could it be that easy?

“Since the ancient times, the most dazzling people, for example, the ancient freaks, studied era after era, accumulating for such a long time, but it is still difficult for them to succeed. Meanwhile, you want to cultivate many streaks of immortal energy?”

In reality, based on what he said, he already chose his path, to take that step. He had to cultivate the strand of immortal energy, as that was the reflection of his own dao fruit.

Precisely the so-called one from dao!

“You took that step, walked on your own path, that is your dao. That was why a strand of immortal energy appeared.” Cao Yusheng said.

“Regardless, I won’t give up.” Shi Hao said calmly. He insisted on continuing, deciding that he wouldn’t give up halfway.

It was because the situation was grim, and Six Crown King Ning Chuan was destined to take that step. There was also that mysterious male from the vicious nest. These were all great enemies, so he had to break through.

The Dao Comprehension Stone was an ash brown in color, appearing simple and ordinary.

Shi Hao entered isolation cultivation again to comprehend his own path, using the heaven and earth as a furnace, using the great dao as a flame to burn his true self, making himself transcend.

Fiery lights appeared. Two thousand two hundred streaks, two thousand three hundred, two thousand four hundred...

Shi Hao persevered on, adding a hundred streaks each time. His body was burnt until it was splitting apart, charred black both inside and out, his condition truly too horrible. He had to stop and take some time to recover.

Fortunately, he had enough holy medicines and half divine fruits, able to support his needs.

During this period of time, he ate quite a few divine and holy medicines, eating them casually like radishes or cabbage.

When the two thousand five hundredth streak of flame appeared, Shi Hao encountered a great tribulation, almost dying, burnt until many of his bones broke. It was a truly horrible sight.

It was also because of this that endless symbols submerged him, cleansing his body. The fiery light washed his inner organs, making his body even more sturdy. As long as he could make it through, he would naturally receive great benefits.

In reality, when the two thousand five hundredth fiery light surged, the immortal energy around Shi Hao's body became quite a bit thicker and more solid, as if it truly appeared.

Unfortunately, with a pu sound, it still scattered in the end, becoming indistinct.

"You still alright?" The little rabbit asked, handing over a Golden Ginseng, feeding it to him like a radish.

"Don't attempt any further already..." Qing Yi said. This was too dangerous. Just now, Shi Hao almost died, and even his eyes were becoming dim.

"Don't take the risk anymore! Your path is too difficult, there is a problem with it! You shouldn't have to risk your life like this." Cao Yusheng spoke up as well.

"If others can succeed, then it should be fine for me as well." Shi Hao recovered his foundational energy, and then he began to silently think about how to cross this trial.

It was clear that this path of his didn't have any quick success, only able to give everything and take one step after another. Success was success, while failure was failure. Of course, failure meant death.

"Others can succeed, but do you know how many eras they have been preparing for?" Qing Yi shook her head.

Shi Hao only had one era. All of his insights and accumulation couldn't compare to those of the ancient freaks at all.

“Several days ago, I made a trip outside. Several ancient freaks have died again, their bodies and spirits erased, all of them perishing because they wanted to take that step.” Cao Yusheng said.

“Too terrifying. You should just learn my natural dao.” The little rabbit also tried to dissuade him.

“Has anyone cultivated more than a single strand of immortal energy?” Shi Hao asked.

Those people all became speechless. His situation was dangerous, and if he continued like this, his body and dao would definitely disappear, yet he was still asking this kind of question.

“Indeed, however, one needs great natural luck rarely seen since ancient times. Increasing immortal energy is too difficult.”

Cao Yusheng told him straight up that even if he succeeded on this path of his, he would definitely only cultivate a single strand of immortal energy. If he wanted to cultivate the second strand of immortal energy, he had to find other ways.

“I have to first cultivate the first streak, or else how can I get any further?!” Shi Hao’s eyes became resolute.

The two thousand six hundredth streak of fiery light appeared, covering heaven and earth, drowning him within. The bluestone ancient paths produced sound of scriptures, all types of dao rumbling, shaking heaven and earth.

This time, Shi Hao was burnt until he was half crippled. Even though he passed a death tribulation, the immortal energy was still indistinct, not truly appearing.

It took him a long time before he finally slowly recovered.

It really was a bit strange, however. The strange and ominous existence never arrived, so it was rather peaceful.

Two thousand seven hundred streaks of fiery lights burned. Shi Hao almost melted, his flesh in tatters, bones scorched black, even his primordial spirit about to scatter.

Endless symbols surged, about to break him apart and turn him to dust.

This time, the immortal energy strengthened a bit, but still ultimately scattered.

“I am unwilling to let it end like this!”

Two thousand eight hundred streaks...

He was unconscious for half a month, his flesh about to rot away, primordial spirit dim without light.

“Luckily, he had the Supreme Being Liquid that wrapped around his primordial spirit, protecting his life, allowing him to quickly recover.” The Divine Striking Stone said with a sigh.

The Supreme Being Liquid came from Spirit Realm. Shi Hao had previously climbed to the very top, the stone bowl of sparkling liquid absorbed by him.

In the end, Shi Hao revived. After his injuries were healed, he still refused to give up.

Two thousand nine hundred streaks of fiery light surged, burning the nine heavens and illuminating the sky!

“What, this time... he succeeded?” Those individuals cried out strangely.

A strand of immortal energy spilled out, pure white and clear. That was the fruit of the great dao, an embodiment of one from dao. It truly appeared, and it wrapped around Shi Hao!

Chapter 878 - Immortal Energy Nourishing the Body

“Success, truly succeeded! This is too great! This is the ‘one from dao’ true meaning, immortal dao energy!”

The little rabbit cried out loudly, becoming extremely happy, her rubylike large eyes completely round as she looked forward. Right now, she was like a pure little girl, jumping and hopping about.

“Truly... inconceivable. I actually personally witnessed such a miracle!” Cao Yusheng was stunned. He also couldn’t help but cry out.

One had to bear in mind that there were many heaven warping creatures from the past to present, but they failed one after another, body and dao erased, unable to succeed.

Yet now, so close to them, a youth with immortal energy appeared. How could they not be shaken?

“It’s finished, finally making it through the tribulation of death. I hope everything will go smoothly and perfectly.” Qing Yi was also overjoyed, her beautiful eyes flickering with luster. This was truly an incredibly grand event.

For Immortal Ancient, whenever anyone took that step, it would signify extremely profound effects, relating to many people’s lives and deaths.

Once one succeeded, they wouldn’t need to fear group battles. No matter how great the numbers, no one could kill the one who produced immortal energy. He was now truly a king, those of this generation unable to stop him!

These types of existences’ futures were impossible to estimate!

“Haha...” The Divine Striking Stone laughed crazily, crying out, “Let’s go back and deal with all of those sects’ people, purge them one by one and steal all of their divine materials.”

It wished for the whole world to be in chaos, desiring all types of divine stones, wishing to use them to evolve.

Only the Void Sky Divine Vine said with a trembling voice, “Careful, the closer one is to success, the more dangerous it is. That thing will come again.”

It had previously experienced it, remembering the events of the past, making it feel lingering fear even now!

Shi Hao succeeded, but he suffered serious injuries, almost dying. His body was burnt black both inside and outside, all five main internal organs releasing strand after strand of light smoke. His skeleton was about to split apart.

This was an oman of being burnt to waste. His injuries were too severe. If it was anyone else, they would have definitely died, there was no way they would still be alive.

The withered body was like a skeleton, cracked skin covering his bones, all vitality gone. If not for the pure white strand of immortal energy revolving around him, it would truly be hard for one to believe that this was a hero who could overlook immortal Ancient.

His situation was utterly terrible, a lamp out of oil. If anyone attacked him now, he might be directly cut down.

An ancient lamp appeared, faint and indistinct as it moved over.

The gray-colored mists seemed to gather from beyond the three thousand bluestone paths, richer and more boundless than before. The pressure it released was suffocating.

In that instant, Qing Yi, Cao Yusheng, and the little rabbit's fine hairs stood on end, feeling chills run down their bodies from head to toe. This was a life and death trial, just like facing a god of death, as if they had fallen into the underworld.

They were all shivering in fear. This kind of feeling was too terrifying. They vaguely felt as if they had already been pulled into the depths of death, that it would be hard for them to continue living.

"All of you, back off!"

Shi Hao said. He swallowed the Half Ginseng Fruit with difficulty, surrounding his body with its brilliance to heal his injured body.

He knew that he now encountered huge trouble!

Right now, his body's state was as bad as bad could be. Would he even make it in time? Even though he ate the holy and divine precious medicines, there was still no way he would recover completely.

Dong, dong, dong...

A demonic figure walked over, tall and heroic, its footsteps ringing through one's heart like a divine drum, making one feel as if their bodies were going to explode.

This wasn't the most terrifying thing. There were still figures that appeared in other regions, releasing heaven overflowing light flames, carrying electric radiance, or descending like divine kings.

"What is going on? So many of them came at once?!" The Divine Striking Stone was horrified.

The others' expressions became pale as well. This was definitely a hopeless situation. Figures surrounded them from all sides, and a row of figures was appearing. Five, six... or even more?!

The gray mist became hazy. Those footsteps became one, sounding more and more terrifying.

Some of those figures were resplendent like rainbows, some pitch-black like ink, some indistinct, they were all different. It was quite different from last time.

One could imagine that if every single one of them were as powerful as the previous Shi Hao, with so many of them appearing at once now, it would undoubtedly result in death. There wouldn't be the slightest bit of suspense!

"Turns out to be this difficult..." Shi Hao revealed a bitter smile. Even though the Half Ginseng Fruit was quickly restoring his body and treating his injuries, even if he was at his peak, so what?

So many people who weren't weaker than him, if they took action together... it was too difficult. There was no hope to be seen.

Soon after, he calmed down. He still reached this step in the end, so regardless, he had to fight. He wouldn't shrink back.

"This immortal energy has wonderful uses, worth trying out." He said softly. He was going to display the most powerful might, face his enemy with the greatest stance.

However, immediately afterwards, Shi Hao's face paled. He staggered, almost falling onto the ground.

That immortal energy... broke apart. It originally wrapped around his body, yet now, it broke into many different parts. He lost his connection to it. It floated at his side, and even though it was still mysterious, it separated from him.

What was going on?

"Heavens! How could it be like this?" The others were all stupefied. Shocking changes took place. There was simply no way to use that streak of immortal energy, it unexpectedly scattered, turning into different parts.

"What the fuck!" The Divine Striking Stone couldn't help but curse.

The situation was critical. Shi Hao's state immediately became more unfavorable, no path of life to speak of.

Weng

Right at this moment, his body released a strange light. Blood swirled, guiding the scattered immortal energy. With a shua sound, all of it entered his body.

In the next instant, the pure white mist became one with the supreme being blood. The two merged together, thus disappearing. n-0Vεl&1n

Shi Hao was stupefied. There was actually this kind of situation that happened! He was a bit confused, but when he inspected his body, he found that it was hazy, a bit indistinct, only returning to normal after a bit of time.

It was clear that the supreme being blood became even more resplendent, not looking like blood, but instead like scarlet red metal liquid that was flowing. There was a wave of mysterious aura that surrounded him.

"How do you feel?" Those people felt extremely anxious as they loudly asked.

"I don't feel anything." Shi Hao said. He truly didn't feel anything different. It was just like in the past. However, he saw that strand of energy disappear with his own eyes, entering his body.

"Be careful, those things are closing in!" Cao Yusheng reminded.

"Yi, they stopped again." The little rabbit was shocked. The mists no longer surged, and those creatures slowly came to a stop. It was a bit strange.

Even the ancient lamp in the void swayed, and then it became indistinct.

Suddenly, the large amounts of gray mists scattered silently, and those creatures left into the distance, entering a great crack in the void, disappearing from this place.

The ancient lamp also disappeared. Peace was restored to the bluestone paths.

This left everyone stunned. There was actually something like this that happened!

"They thought you failed, feeling that you weren't worth getting rid of." The little rabbit guessed.

The others nodded, agreeing with this type of speculation. However, they truly couldn't explain it. Of course, the most shocking thing was the transformation of Shi Hao's immortal energy.

It really was difficult for them to feel happy or regretful for him. That immortal energy scattered, signifying that this was another failure. However, it was also because of this that he passed this trial of death.

However, they were still rather expectant. That wave of energy entered his body, so will there be some strange transformation?

Shi Hao sat there, carefully inspecting his body. The supreme being blood was exceptionally translucent, but there wasn't anything different about it. The mysterious aura already disappeared as well. It became just like before.

"What a waste. You clearly succeeded, so why did this kind of thing happen?" The Divine Striking Stone was upset, complaining for Shi Hao.

"It seems like... a good thing?" Suddenly, Cao Yusheng thought of something and said.

"You understand what happened? Hurry and tell us." Qing Yi said.

"I seem to have seen some type of written account..." Cao Yusheng said.

There was an engraving left behind on a damaged cauldron excavated from some Immortal Ancient ruins describing how, the path a genius walked was too difficult, and after cultivating immortal energy, his body and spirit were almost completely destroyed.

However, strange things happened. The immortal energy broke up into parts and was absorbed by the body, giving him nourishment and life.

Simply speaking, the immortal energy repaired his dying body, but it also disappeared because of it.

"Can we really just call this being unlucky?" The Divine Striking Stone said. This was just too miserable. The immortal energy cultivated so painstakingly was used up to save a life.

Shi Hao's circumstances were similar. Just now, his injuries were too severe. If not for the Supreme Being Liquid he obtained from Spirit Realm protecting him, he might have also died. The immortal energy would have scattered to repair his body.

Cao Yusheng said, "In theory, he failed, but he did absorb that type of thing after all. No one knows what kind of strange changes might happen."

"The bronze engravings didn't record what happened afterwards to that heaven warping talent?" Qing Yi asked.

"Died. Even though those circumstances appeared and he lived, he was targeted by an unmatched individual and studied, ultimately killed." The little fatty said.

Everyone became speechless. That person was too lamentable. He was originally a heaven warping genius, yet in the end, his immortal dao energy scattered, and then he was even abducted and killed.

"Had he tried to cultivate immortal energy again?" Shi Hao asked.

"His path had already been completed, nowhere further to go, so he couldn't continue cultivating. Later on, he was even captured." Cao Yusheng said.

"So it was like that." Shi Hao nodded, feeling a bit of hope inside.

It was because he had only ignited two thousand nine hundred great dao symbolized flames, not finishing this path yet. He could still forge ahead!

He calmed himself down to start healing, recovering his withered flesh and vitality, nourishing his primordial spirit, raising himself to the greatest peak.

Generally speaking, the situation couldn't be considered too bad. He still had hope, and he might still be able to cultivate a strand of immortal energy.

Once one reached this step, the only thing he feared was the road behind being cut short, falling into an abyss. Now, he still hadn't reached its end, so he was still hopeful.

This time, Shi Hao used a long time to recuperate from his injuries. Even after recovering, he didn't immediately take action, instead sitting on the Dao Comprehension Stone to think to himself.

It was because the ominous and inauspicious existences were too terrifying, far exceeding his imagination. If not for them mysteriously backing off, he would have definitely been in danger.

This time, he had to make ample preparations, or else when he cultivated a true strand of immortal energy, and then was still killed, that would be too tragic.

"I thought of something. Once you cultivate immortal energy, it will be too hard to operate for a short amount of time. That is why you shouldn't completely entrust your hopes on it." Cao Yusheng said.

Shi Hao was discussing with them. They knew his current situation, so they spoke about all of their speculations to remind him.

Shi Hao sighed. The situation was not looking good at all. How was he supposed to make it past this tribulation? How was he supposed to persevere through?

No wonder ever since the world changed, it was so hard for anyone to succeed!

"I need to transcend, transcend the self." Shi Hao said quietly to himself. He opened his Martial Dao Heavenly Eye to inspect his own body.

"Yi?!"

Suddenly, he discovered that a shocking change happened in his body. He couldn't see it before, because only the Heavenly Eye could vaguely see this scene!

"It's here! I'm going to use this to surpass myself!" Shi Hao said.

Chapter 879 - Three Thousand Road End

In the depths of his flesh, wisps of light could be seen, calm and unmoving, laying dormant within.

Even with the heavenly eye, it was still a bit blurry, but he was now sure that those were flames that were extremely familiar. He had seen these before!

"It actually ran into my body! I never noticed it all this time. It didn't injure me!"

Shi Hao was extremely shocked. He had previously seen a flame next to the nine coffins that was incomparably mysterious. It had previously forced away the Green Lunar Flame, so one could very well imagine how powerful and immeasurable it was! $n-(\mathcal{O})\nabla)/\mathbf{e}-(\ell-\mathbf{B}).l()$

He had previously heard Qi Daolin grumble indistinctly to himself that this flame could burn all evils, purge heaven and earth. From a certain perspective, it couldn't be considered a flame, because it was made out of symbols.

The only reason they called it a flame was because the mysterious symbols shone. They merged together and looked like flames.

How was he supposed to summon it and transfer it? These mysterious symbols contained tremendous secrets. If he could comprehend through them, he might have a solution to all of the auspicious and strange things.

No matter how many came, he might be able to burn through them all!

Shi Hao tried to communicate with it, but it didn't move, laying dormant.

For the next few days, Shi Hao's divine senses permeated into his body, roaming about these mysterious symbols. He wanted to have it revive so he could communicate with it.

However, he was disappointed, unable to obtain the slightest bit of progress.

Following a light sigh, Shi Hao got up. He walked down from the Dao Comprehension Stone and looked into the distance.

"Qing Yi, please burn me with your Green Lunar Flame!" He suddenly said this.

"Did you go stupid?" The little rabbit said inarticulately while nibbling on a holy medicine, looking at him with her widened eyes.

Qing Yi and Cao Yusheng were stunned as well. The origins of the green ancient flame were astonishing, born in Immortal Ancient, known as an 'immortal seed' left behind by the matchless true immortal Qing Yue.

Using it to burn oneself, there was definitely no good result from it.

The reason why Qing Yi was okay was because this flame acknowledged her. They coexisted with each other, and she had a chance of obtaining its inheritance.

"Don't worry, it'll be fine as long as it's a bit weaker. I have something inside of me that I need to test out." Shi Hao said.

When Qing Yi found out that the other flame was in Shi Hao's body, she couldn't help but feel stunned. There was actually this type of thing that happened!

A strand of green flame seeped out, slowly approaching Shi Hao's body, extremely gentle. It entered his body, pure like green moonlight.

"It hurts so much!" Shi Hao grimaced. As soon as he got closer, his flesh felt like it was being hacked by blades. He felt incomparable pain.

Qing Yi carefully controlled it, having the flame calm down, the offensive power decreased. She moved it closer to the region where the mysterious flame laid dormant.

Suddenly, multicolored light flashed, symbols shining resplendently. The Green Lunar Flame retreated on its own, not proceeding further. It was useless even if she tried to control it.

Shi Hao sighed. It seems like he can't really depend on this flame anymore. There was no way unless he acted recklessly, splitting apart his own body and defending himself with that area of his flesh.

Only... that was too miserable.

"Since there were others who were able to pass this trial, then I can as well. I have to think of a way to tread on this path." Shi Hao temporarily gave up on that thought.

The flame was the final hand he was most reluctant to play. If there was still a possibility, he wouldn't use it. It was because even if he split apart his own body, if those symbols didn't want to move, there was still a chance that it wouldn't help him.

"All those who were able to succeed since the ancient time, without exception, had to use that streak of immortal energy. As long as you can persevere on, when you can control it on your own, you can defeat everyone in your way." Cao Yusheng said.

Shi Hao nodded, not saying anything.

He entered isolation cultivation again, not to ignite dao flames, but to comprehend himself on a deeper level, to observe his own flesh and soul, unearth all potential.

"Is what you said true? The so-called ancient past is Immortal Ancient Great Era, right? Are you sure that there were ominous events even back then?" The little rabbit muttered.

"It is just something I am speculating. Right now, he needs confidence!" Cao Yusheng said.

The Lunar Jade Hair rolled its eyes, not paying him any more attention.

Right now, regardless of whether it was Qing Yi or the Divine Striking Stone, none of them could offer much help, only able to worry. However, the little fatty Cao Yusheng's inheritance was strange, and he knew quite a bit.

Shi Hao didn't act rashly. He continued to observe the supreme being blood, because he always felt like that strand of immortal energy didn't scatter and was instead absorbed inside. There was no way there were no changes at all.

He waited patiently. Half a month later, he finally discovered something different with his Martial Dao Heavenly Eye!

"A new type of symbol has started to appear, evolving, forming, and tangling together!" Shi Hao was shocked.

Apart from Heaven's Hand and Reincarnation symbols' merging, a third type of symbol appeared in his supreme being blood, only, it was still in its beginning stages, difficult to be sure what kind of ability it had exactly.

He poured all of his concentration into this, silently observing and carefully sensing the changes. For him, this was a completely new experience. He was witnessing the birth process of an extremely powerful precious technique!

He could vaguely see the origins and development of the road of cultivation. His primordial spirit was completely immersed, carefully observing and silently receiving enlightenment.

This type of development was extremely hard to obtain for cultivators!

However, how many people could accomplish this? The number of people who had Heavenly Eyes were pitifully few to begin with, and after obtaining them, how could they encounter this type of opportunity, personally witnessing the birth of an unmatched technique?!

Observing, experiencing this type of evolution, for Shi Hao, was the opening of a new world. For him, it possessed unimaginable meaning.

"The road of cultivation, the path of origins, the path of ascension, is similar as well. It is just like this, established bit by bit, and only then will it flourish like today."

After who knew how much time had passed, the supreme being blood gradually calmed down, and those symbols stopped their transformation, entering a state of hibernation.

A third unmatched technique was, without a doubt, going to take form. It only needed time!

As such, Shi Hao closed his eyes, his mind carefully thinking for an extremely long time. Only after that did he walk down from the Dao Comprehension Stone feeling incredibly enriched, his harvest great.

"There will be a day when I will establish a completely new cultivation method, one different from the Immortal Ancient Great Era, one that is different from that of the present great era as well, a completely different path that will transcend above.

Shi Hao said quietly. This type of thought emerged in his mind.

When the others heard him, they all became petrified. What kind of boldness was this? Was he going to produce an entirely different cultivation system?!

They felt that it wasn't realistic. Opening a different path was harder than climbing to heaven.

Immortal Ancient Great Era had immortal seed inheritances. This great era cultivated bone texts, so it was difficult for them to imagine what other types of paths there could be. Could other systems even appear?

"The road is long. Right now, I can only accumulate experience, only have a few vague thoughts, powerless to do anything now. However, in the future, that day will come." Shi Hao said.

Hong!

Suddenly, a streak of lightning hacked down from the heavens, blasting him until he flew outwards, his body dripping with blood. The lightning was terrifying to the extreme!

If it was anyone else, they would have definitely turned into ashes. However, Shi Hao stuck it through!

The little rabbit was stupefied, and then it shouted, "Look, you were speaking randomly. See, you were even struck by lightning!"

The Divine Striking Stone, Qing Yi, and Cao Yusheng's expressions changed. Their minds were greatly shaken!

This great era was already without lightning tribulation, disappearing with the end of the last great era. However, right now, it unexpectedly appeared again.

It was rumored that in Immortal Ancient, there were unmatched creatures who shocked the heavens with their words, consequently stirring up great lightning tribulation. However, that was something that happened in the Immortal Ancient Great Era! How could they have appeared in this era?

They looked towards Shi Hao, their expressions strange. Could it be that this type of cultivation path really might appear in the future?

If that really was the case, then the effects would definitely be tremendous, no end of achievements!

Shi Hao calmly comprehended again. He observed the changes that were happening in his supreme being blood, and only after a month had passed did he open his eyes, preparing to come out of isolation and ignite the three thousand dao flames.

"Careful, do only what you are capable of!" What else could they say? They couldn't advise him against this, so they could only wish him well.

Soon after, all three thousand bluestone paths illuminated, burning fiercely. Symbols overflowed into the heavens, immediately engulfing the heavens, as if it was going to tear apart the skies.

Without a doubt, the disturbance here already created some irregularities within a few small worlds.

Everyone could feel that a strange energy was pervading the air. Heart shaking fluctuations were extending, leaving all of them feeling shocked and confused.

The bluestone paths' dao flames burned the nine heavens, the world rumbling. A furnace was condensed, wrapping around Shi Hao. The symbols of three thousand great dao turned into flames, carrying out a refinement.

This place rumbled with dao sound, shaking heaven and earth.

This type of unrest was unprecedented, exceeding all of their predictions.

The Divine Striking Stone even set a formation to isolate this place, but boundless ripples still traveled in all directions, spreading outwards.

Hou...

After who knew how much time had passed, Shi Hao released a roar. Even though his entire body was burnt black, there was a forceful wave of vitality that surged outwards. His gaze looked even more like cold electricity.

He already got up. Even though he was seriously injured this time, his body in a terrible state, it wasn't as serious as they had imagined. The inside of his body was shining.

Soon after, a great power surged from inside outwards, recovering his injured body, the rays of light resplendent.

He felt more powerful than he had ever been before, advancing quite greatly. He didn't even use the Half Ginseng Fruit, yet his body was already roughly recovered, making it through the refinement of the flames.

A strand of immortal energy also appeared, wrapped around him like a true dragon, moving around his body, making him look aloof and transcendent. He succeeded!

Shi Hao didn't waste any time. He asked Qing Yi, the little rabbit and the others to send over the medicines. He quickly devoured them to recover his body to its optimal state.

It was because the ominous was already approaching, reaching outside the bluestone paths.

This time, it wasn't quite the same. It wasn't gray fog, but rather pitch-black, inklike streams of energy. There was a deathly stillness. It lacked life force. One could see that several figures were closing in.

The ancient lamp suspended in the sky, releasing chilly radiance.

This time, the number of figures that appeared was a bit different, unexpectedly less of them towering in the black fog.

"Did the difficulty decrease? Even heaven seems to want to help him." The Divine Striking Stone muttered, revealing a happy expression.

"Let's hope that is the case." Cao Yusheng said.

However, soon after, they closed their mouths, revealing a concentrated expression. They stared forward with disbelief.

The first figure that appeared was tall and sturdy, eyes resplendent. On his back was a pair of pitch black wings that carried golden patterns.

"Heavens, those are Kun Peng wings, only, the colors seems a bit off!" The little rabbit cried out with shock.

There was no mistaking that energy!

The second creature appeared, black-colored lightning wrapped around it, its body carrying pitch-black bloodstains, as if it had just withdrawn from the battlefield, the armor on its body full of holes.

"This... don't tell me that it is created in the Lightning Emperor's image... right?" The Divine Striking Stone stuttered.

The third creature walked out, its body curling with waves of heaven tribulation light.

The fourth creature walked out. It looked quite strange, its appeared to be changing from an elder to a child, continuously changing, as if it was undergoing reincarnation!

"Not good!"

When these people saw these four creatures, they were all horrified, because they were too powerful, all evolved to the limit!

Were there still more? They didn't know.

"It's not that bad. This time, I'll eliminate them all at once. I want to see if there will be more ominous events. If there are, then I'll wipe them all out!" Shi Hao said, his voice resounding, ringing through this world.

Right now, all three thousand bluestone paths were swaying in response.

Chapter 880 - Suppress

No matter who saw this result, all of their minds would tremble. Such a powerful group of people, clearly the result of precious techniques displayed to their limit, working together to suppress Shi Hao.

A single one of these creatures could overlook the world while moving, showing disdain towards all others at their level. Now that four of them walked together, how could they be stopped?

The black fog rushed over, spreading over the three thousand ancient paths, filling this place with coldness and killing intent. Four powerful experts walked closer step by step, all of their auras astonishing.

They revealed their true appearances. They weren't bodies covered with bronze armor, different from what they had seen in the past. One wore feathered clothes, another an armor that was full of holes, all of them vivid and lifelike.

These people's eyes were full of radiance, not stiff and inflexible like the ones before. When they opened and closed their eyes, astonishing radiance could be seen, as if they had life.

This made people tremble inwardly. The situation was not looking good.

Qing Yi, Cao Yusheng, and the little rabbit were all quite worried, but they couldn't offer any help. They backed up, only able to watch this battle.

Shi Hao didn't produce a weapon, standing there unarmed, because he knew that this was a confrontation of precious techniques, a competition of the flesh. External objects were useless. If he really did bring out a weapon, then it might very likely be destroyed.

The four great experts were too extraordinary, all of them incomparably terrifying.

Even though the enemy was extremely powerful, Shi Hao still had to fight. This was the final trial. Once he made it through, he would be like a butterfly emerging from a cocoon, becoming a king!

If he failed, then his body and dao would be erased, no longer existing in this world. A battle of life or death, whether the road ahead would be glorious, everything rested on this battle. He had no way out, so he had to have confidence.

"Kill them all!"

Shi Hao shouted, taking the initiative to attack. He leapt up into the skies. An enormous pair of Kun Peng wings appeared behind him, the golden feathers carrying black-colored stripes, covering heaven and earth.

He displayed the Kun Peng's technique to its limit. All sides were shaken, the void splitting apart. He fought against these four great experts alone.

"Fighting against me with my Kun Peng technique?"

What was frightening was that the black-colored Kun Peng winged male on the other side actually spoke. His eyes were resplendent, making others alarmed.

"Does he have intelligence? Is it a complete creature, not one controlled by a mysterious power?" In the rear, the Divine Striking Stone cried out strangely while trembling greatly.

"Kill!"

Shi Hao didn't move. A myriad of symbols appeared from the Kun Peng wings, shining with brilliance. It was as if endless stars smashed over from beyond, blasting down on the four great experts before him.

"Break!"

That person released a low roar. Black-colored Kun Peng wings appeared, moving about, smashing into his golden wings.

Dong!

This was like a collision of heaven and earth, the sounds enormous. It was as if the heavens and earth were collapsing. The feathers of these two individuals' wings flew everywhere, continuously falling, carrying traces of blood.

Honglong!

The void collapsed, releasing a powerful rumbling sound.

At the same time, the other three experts took action as well. Lightning, Reincarnation, Heaven's Hand, they all struck over. It was as if a scorching sun was exploding.

At this moment, this place became incredibly magnificent, only, this type of beauty made one's heart tremble. Countless great cracks were extending through space into all directions. No matter what cultivation realm one was at, they would still tremble upon seeing this.

To distort the void with just the flesh at that cultivation realm, directly blasting through it, it was too extraordinary.

A large hand slapped over, striking towards Shi Hao's chest. It was Heaven's Hand, releasing deafening rumbling sounds.

Peng!

An expanse of light surged from within Shi Hao's flesh, turning into a large hand, colliding with it. A white light similar to the light of ascension rushed in all directions, a confrontation at the peak of power.

"Lightning!"

After just this simple word, the Lightning Emperor creature rushed over. Lightning radiance shot in all directions, tribulation clouds covering everything densely, hacking down onto Shi Hao.

Kacha!

Shi Hao's entire body released light. Endless lightning poured out from his Kun Peng wings, sweeping forward like ocean waves, battering at that individual.

Following a peng sound, the void smashed apart. There were electrical arcs everywhere, with radiance covering every region.

Immediately afterwards, an ancient aura swept outwards. Shi Hao knew that this was Reincarnation power. That person's face was continuously changing, from an elder to a child, and then back to an elder; it was incomparably terrifying.

Now that he encountered this type of precious technique, Shi Hao had no choice but to face it head on. However, he was extremely careful as well, not allowing even the slightest bit to affect him. With a hong sound, Reincarnation symbols surged, clashing intensely with the resplendent light up ahead.

This place became completely chaotic.

Just this first exchange of attacks was already intense to the extreme, making others tremble.

In the time it took for sparks to fly off a piece of flint, the five individuals continuously collided, the sounds released deafening. Murderous energy swept out in all directions. This type of battle exceeded the imaginations of everyone at this level, absolutely world shocking.

This wasn't just a confrontation between people at the Divine Flame Realm. It already exceeded the limits of what people at this level should have.

It was too fast! This type of speed exceeded the understanding of normal people. They were all afterimages, to the extent where the speed alone already affected the stability of the space around this place, as if even time itself became distorted.

"Not creatures, but a type of embodiment of four types of profound mysteries evolved to the limit. Just what kind of things are your consciousnesses attached to?" Shi Hao was shocked and bewildered. This was too inconceivable.

He sensed it, his powerful divine senses telling him that these weren't true creatures. Even though they looked real, there were still holes in their existence.

"Can it be that I am in some type of illusion and fighting against myself?" Shi Hao developed suspicions, feeling that he was perhaps fighting against the profound mysteries that he comprehended, as if he instantly saw through everything.

Were the so-called ominous and strange events just this?

Hong!

Shi Hao took a blow, the attack originating from the Heaven's Hand individual. If it wasn't him, anyone else would have been blasted apart, turned into a bloody paste.

He was the one that had this precious technique, so he naturally knew how terrifying it was. Heaven Calamity Light appeared behind him, and then it turned into a palm, hurriedly blocking it.

Pu!

Blood splashed outwards. Shi Hao's back was injured, and his mouth coughed out a large mouthful of blood as well.

At the same time, the Lightning Emperor's secret technique appeared. Ten thousand streaks of electrical radiance interweaved, and then many stars emerged, as if this was a sea of cosmos. They surrounded him within, all of it produced by lightning.

Shi Hao suffered another attack, electrical arcs releasing pi pa sounds around him.

"Who cares what you all really are! I'll just suppress and kill you all!" He shouted, not thinking about anything more. He concentrated his attention, fighting with everything he had.

The great battle was too intense. Shi Hao was fighting four enemies, all of them not weaker than himself. It was to the extent where in terms of precious techniques, those four reached the limits of perfection.

They warped and weaved about, fighting endlessly. It had to be said that Shi Hao ignited three thousand dao flames, so his strength improved by leaps and bounds, becoming quite a bit more powerful than before.

What was even more important was that his comprehension of the dao, his analysis of his future path had already matured, filled with dao intent, symbols filling the skies.

Originally, their strength were similar, but his understanding of the dao and world was comparatively much greater, and as such, he was able to weave about these four great experts.

After all, even though these four experts were strong, their bodies still had problems, without as much experience as himself.

The fight was intense. Shi Hao continuously coughed out blood. Even though he was powerful, being attacked from all sides still put him in great danger.

“Seal, open!”

Shi Hao shouted. Within his body, supreme being blood surged. He displayed his innate secret techniques to suppress the four great experts.

Heaven’s Hand and Reincarnation merged together, and there was even a third type of strange symbols that appeared, merging together. This was a trump card that he relied on. He had previously researched and studied it, but ultimately decided to seal it.

He didn’t use this type of power before igniting the three thousand streaks of dao flames.

Sure enough, because he had sealed it, none of the enemies displayed this type of profound mystery. He displayed it fully, tearing apart the void. Brilliant lights surrounded heaven and earth.

Pu!

On the other side, the one with Kun Peng wings took on this resplendent strike, blasted outwards, flesh hacked into tatters.

Chi!

The one with Reincarnation Symbols had his head brushed by a streak of holy light. Blood surged.

“I will kill all of you!” Shi Hao roared. He charged forward, about to eliminate all of the ominous and inauspicious existences.
