Chapter 921 - Sword Light Dazzling All Realms

Without a doubt, Divine Dark Child, Heavenly Country's ancient assassin, Jun Dao, and others had set up a terrifying death trap for Shi Hao, waiting for him to step inside and then kill him.

A chill crept down Lu Yi's back. Before, he felt that those powers were crazy, so he didn't think about it too much, but now that he calmed down and thought about it, he immediately broke out into cold sweat.

This was done on purpose!

"Even if one only has a bit of relationship to you, they will still crazily chase after and look for us. Surrounding and attacking the Snow Phoenix and others is for the sake of setting up a death trap!"

Lu Yi realized what was happening. By involving these people, Shi Hao will definitely look around to explore his surroundings. Once he arrived at those places, he would most likely meet his end.

Those powers attacked Cao Yusheng, ambushed Qing Yi, and chased after Qin Hao, these were all people that had close relationships with Shi Hao. Once he learned of this, he definitely wouldn't be able to sit still.

Luo Dao, Lan Yichen, Lu Yi and the others felt a wave of chilliness. These ancient kings were ridiculously powerful, difficult to say who would win even if they were to fight decisively one on one, yet now, they had this type of vicious plan. Their conviction to kill Shi Hao was just too powerful!

"Cao Yusheng is okay, and Qing Yi has cultivated immortal energy. Even if they are ambushed, they should be able to protect themselves," said the Divine Striking Stone.

Currently, the only one he was worried about was Shi Hao's little brother. Before there was any horrible news, he had to directly take action and reverse the situation.

Hong!

Green Feather City. An enormous sound rang through the air. Powerful energy fluctuations rippled through this little world.

Shi Hao appeared, his fist smashing down, blowing apart the Divine Dark Palace here. Underworld Clan's people who didn't withdraw were all eliminated.

Green Spirit Realm, Great[1] Sky Palace, a place where a group of people under Jun Dao were stationed at. Smoke and dust rushed into the sky, the void caving in. Everyone was erased, this place turning into ruins.

Chi!

A streak of brilliant sword light erupted, illuminating Dustless Realm. With the Everlasting Immortal Sword in hand, Shi Hao split open a secret land that belonged to Divine Temple. Everyone was killed.

Immediately afterwards, he arrived in Scarlet Flame Realm. A race that wasn't weak, the Rock Demon Race that followed Heavenly Country were slaughtered until everything was broken and in disorder.

Shi Hao held the Everlasting Immortal Sword core in hand, sweeping through all different small worlds, unleashing a great purge. Group after group of powerful individuals fell, heads tumbling, blood splashing everywhere.

This shocked all of Immortal Ancient!

Within each little world, all creatures were shaken.

One sword dazzling all realms!

Huang appeared, moreover taking action so viciously, sweeping through Underworld Earth, Heavenly Country, Divine Temple, and all creatures related to them, not showing any mercy. Blood dyed every realm.

“Too tyrannical, sweeping through several dozen small worlds, massacring until all sides are shaken. Huang has been angered!”

“Truly never expected that he would still dare appear after those ancient freaks threatened to kill him. Killing to stop killing, this is his reply!”

Everyone was discussing this.

Heavenly Country, Underworld Earth, Divine Temple, and other large powers all had strongholds in different small worlds. They had many people under them for the sake of gathering holy medicines, half divine fruits, and other things. Their influence was spread all over.

Even after gathering their troops this time, there were still some small worlds that had people left behind. Shi Hao looked for people to take action on just like that, not showing any mercy.

Apart from this, all powers that had relations with Heavenly Country and Underworld Earth suffered ruthless attacks!

Immediately, clouds moved in all directions. Shi Hao’s killing intent swept through dozens of worlds, shaking all creatures. They all felt great alarm towards his berserk actions.

“Dealing with me is one thing, but you even chase after those related to me? Even if we occasionally interact, it was still enough of an excuse to be killed by you all. In that case, come! Let’s see who is scared of who!”

This was Shi Hao’s voice, spreading in all directions.

Heavenly Country, Underworld Earth and others took action against those at his side, so Shi Hao also chose to take action ruthlessly, cruelly giving his reply. Let’s see who it is that can’t take it first.

After all, he hadn’t established his own stronghold, nor did he try to rope in a large amount of followers. Comparatively speaking, the number of targets on his side were much fewer.

Meanwhile, the other party was different, with strongholds in quite a few small worlds. Their enormous cities had palace halls, and even though most of them were hidden, they weren’t as flexible as those by Shi Hao’s side, able to quickly escape.

This was especially the case with a few races like the Rock Demon Race, Poltergeist Race and others. They all suffered Shi Hao's merciless pursuit. These followers gathered together, so they were easily exposed.

That day, with a sword in hand, Shi Hao unleashed a great slaughter in all directions, sweeping through a total of fifty-nine small worlds, crazily taking action, his iron-blooded methods shocking everyone!

There were many small worlds in Immortal Ancient, difficult to count exactly how many. However, in just one day, a single person slaughtered in all directions, stirring up the greatest storm.

"Huang, you are too ruthless, unleashing an absolute bloodbath, massacring in all directions! We the masses are going to rise up in revolt!"

That day, Divine Temple's most powerful inheritor in the present world stood out, calling for all sides to stand out to destroy Huang, to kill this demon.

"Correct, Huang is the public enemy, absolutely unrestrained, slaughtering heroes from all sides. He has to be eliminated!" Underworld Clan parroted these words, asking all experts to take action.

Heavenly Country didn't say anything, because their reputation was too terrible. They were indiscriminate murderers to begin with, a terrifying organization. If they really did declare their position, it would instead display the opposite effects. n)(o(.v--e/)L-{b/-1--n

"Hahaha..." Shi Hao laughed, but it was a bit cold. "You all dare to say that I massacre indiscriminately? Who did I kill? Weren't they all people under you? When did Underworld Earth and Heavenly Country, these dark and cruel ancient sects represent the world? Only your people are allowed to chase those at my side murderously, I cannot retaliate?"

Shi Hao's words deemphasized the situation, but the killing intent he released seemed to be blasting them in the face, leaving all sides horrified, especially the powers that were close to Heavenly Country and Underworld Earth.

"Huang, you willfully slaughter the innocent, killing dao friend Fallen Divine Child, murdering heroes of all sides, the heavens will not forgive you!" Jun Dao stood out. As an ancient king, he now moved to suppress Shi Hao.

"Wasn't it Fallen Divine Child the one who came to kill me? Now that he was killed by me instead, why am I turning into the victim? I don't want to waste my breath. Today, I am standing here in Radiant Realm. If you have the guts, then just come at me!" This was Shi Hao's reply.

He challenged several great powers, saying that he was waiting for them right in Radiant Realm.

"Do you think that we don't know that you set up formations there, waiting for us to enter your trap? It's too obvious. Not honest at all." Jun Dao said coldly.

In reality, the conversation from long distances were all reported from the mouths of cultivators.

Shi Hao laughed coldly, not replying.

It was because in the places he walked through, there were many people who had followed him, wishing to see him fight. They didn't see him set up any formations, so there was no need to say anything more.

Soon after, the next piece of information made Shi Hao's expression change. The Snow Phoenix was found, suffering an ambush, trapped in Gold Spirit Realm. It was rumored that Qin Hao was also hiding there.

"It should be fake information, right?" Lan Yichen said, feeling uncertain.

They felt that this was likely information released by the other party to draw Shi Hao over. They had prepared a killing field for him.

The Divine Striking Stone, little rabbit and others naturally advised Shi Hao against acting rashly. It was too dangerous.

However, soon after, Luo Dao, through special channels, obtained a piece of information. The Snow Phoenix was truly trapped in Gold Spirit Realm, chased inside. As for whether or not Qin Hao was there, there was no way of confirming that. There was no evidence.

Luo Dao was an exceptional talent who came from an extremely powerful family, so he naturally had all types of connections. The information he received was truthful.

"Is there no choice but to jump into their trap?" Lu Yi's face turned pale, because he saw Shi Hao's face become cold. He might really head there.

"It is rumored the Heavenly Country and Underworld Clan's people only just chased inside, so it's unlikely of them to have set up too much." Luo Dao said.

"Is the information trustworthy?" Lan Yichen said.

"Should be." Luo Dao wasn't a hundred percent certain, only knowing that the Snow Phoenix really did run inside.

"You all wait for my information!" Shi Hao set his resolution. He was going to set out, but he was only bringing the Divine Striking Stone, not allowing others to follow him. It was because the ancient kings were tyrannical, the others not being able to help much.

Luo Dao and Lan Yichen didn't force themselves, happily staying behind. They understood deeply that they would only slow Shi Hao down.

Gold Spirit Realm. There was metal everywhere, forming mountain peaks, the surface bare. It was extremely unique.

This place lacked plant life. Shiny metals could be found everywhere.

A snow white divine bird quickly moved through the sky. As it entered a distant mountain, its plume feathers were holy and pure, but they were sticky with blood. It had suffered a serious injury. This was precisely Xue Lin.

The information Luo Dao obtained was true. Xue Lin suffered an ambush. Even though she broke out from the encirclement, she was still being chased after, blocked off from all sides.

She was extremely indignant. She never offended these people, yet in the end, she encountered this type of disaster.

She had previously been struck by a terrifying beam of light fired from Divine Dark Child's freakish body from far away. It was difficult to heal, extremely serious.

However, Xue Lin had phoenix blood, still an extraordinary creature in the end, unexpectedly escaping. Of course, she still used up several Realm Shattering Symbols, as well as a rare secret treasure.

"You cannot escape!" People chased behind her, a purple-haired youth with lightning wings on his back fast to an inconceivable level, almost catching up to the injured Xue Lin.

He was Divine Temple's most powerful inheritor, Gu Meng, someone comparable to Immortal Palace's inheritor Di Chong, known as one of the higher realms' most powerful experts in this generation.

Xue Lin clenched her teeth. If she wasn't injured, why would she run like this? The main reason was because Divine Dark Child was too terrifying, his flesh containing great divine ability symbols from the previous world. That strike made her combat strength decrease sharply, her life blood energy's exhaustion too great.

If not for the phoenix blood being heaven defying, allowing for rebirth, if it was any other exceptional talent, after suffering that unmatched divine ability, both body and spirit would be destroyed, difficult to resist.

"Huang killed my Divine Temple's holy beast Gold Marked White Tiger, so you'll have to do as compensation!" Gu Meng's cold laughter sounded continuously.

"You... are courting death!" Xue Lin was furious. As a descendant with phoenix blood, how could she tolerate this type of humiliation? If she wasn't injured, she would definitely take revenge.

"Hehehe..." Gu Meng's laughter was extremely cold, killing intent engulfing the heavens. "Don't you have friendly relations with Huang? He killed my sect's holy beast, so his friend will have to compensate for his actions, to become the temple protecting divine bird!"

Xiu!

While speaking, the lightning wings on his back erupted. A streak of golden light flew over, blasting towards Xue Lin.

Pu!

Even though Xue Lin did her best to evade, after all, her condition was terrible, injuries severe. She was brushed by the attack, immediately causing blood to splash out, dying her snow-colored feathers.

Rumbling sounds rang out from heaven and earth.

Shi Hao arrived, entering Gold Spirit Realm. He opened his Kun Peng wings, weaving through this small world. He opened his Heavenly Eyes, peering through mountains and rivers, searching for Xue Lin and Qing Hao.

Soon after, he frowned. He sensed Jun Dao's aura, and not long afterwards, he detected a wave of dark divine power that was exceptionally shocking. That was without a doubt Divine Dark Child.

Shi Hao did everything he could to move his Kun Peng wings, weaving between heaven and earth to look for those two. He was fighting time!

Finally, his Heavenly Eyes displayed their use. Symbols shot out from his pupils, scouring the mountains and ravines, gazing into the distant mountain range's scenery.

Xue Lin!

She was there, flying close to the ground, her body sticky with blood. A figure that had lightning coiling about him chased behind her, pursuing her with extreme speed.

"Kill!"

Shi Hao released a low shout. He stirred up a tempest, turning into an unmatched war god. Battle intent overflowed into the heavens as he dove over.

1. the character used here is Jun from Jun Dao. The Dao in his name is the dao you all are familiar with

Chapter 922 - Unmatched Confidence

Shi Hao turned into a divine rainbow, Kun Peng wings splitting the skies. His speed was just too fast, swooping over into the mountain range depths in an instant

Hong!

His enormous wings contained endless lightning, and right now, they completely erupted, blasting forward. This was unmatched lightning power.

"Who is this?!" Divine Temple's most powerful inheritor turned around, and then he immediately gasped. Even though he had lightning wings behind him, when he saw this sea of lightning, his expression immediately changed.

This was too powerful! Black and white colored light flew over, intertwining. Lightning radiance overflowed, as if stellar streams were falling, surrounding this place.

"Break!"

He shouted loudly. As the illustrious disciple of Divine Temple, he grasped unmatched scriptures, so he naturally had neutralizing methods.

In the void, endless metal energy surface, resonating with Gold Spirit Realm, wishing to guide the sea of lightning to the side and use it for himself to attack the enemy.

It had to be said that Gu Meng was a heaven warping genius, one that was incomparably powerful. Otherwise, how could he overlook the higher realms' three thousand provinces, someone comparable to Immortal Palace Inheritor Di Chong?

Honglonglong...

Lightning surged, guided by the metal precious technique, rushing to the side. They began to form symbols, about to be used.

Chi!

Suddenly, a strand of electricity erupted in the sea of lightning. All of the lightning that was guided exploded, producing thousands of enormous black cracks in the void.

Gu Meng's fine hair stood on end. He naturally knew who it was that came. Even from so far away, there were still this type of methods, leaving him feeling extremely shocked.

Hong!

Following an enormous sound, lightning engulfed the sky, the power great to an unbelievable degree.

Gu Meng flew out in reverse, not facing this head on. He felt an exuberant power. His face became incomparably unpleasant, quickly evading to the side.

As the holy child of Divine Temple, known as one of the most powerful individuals of the higher realms of his generation, he was actually retreating. In his world, this was unimaginable, almost never experiencing such a thing.

However, when facing Huang, he could only do this. This was the best decision!

Despite this being the case, he still seemed to be struck. He moved far into the distance, standing in the void, his hair carrying electrical arcs that released pi pa sounds. This was caused by the aftershock.

The Snow Phoenix stopped, revealing a look of shock. She originally already exhausted all of her energy, her injuries too severe, but now, when she turned around, she saw this scene.

Shi Hao arrived. The moment lightning was released, his body appeared, descending on the mountain peak, looking coldly at Divine Temple's most powerful inheritor.

Gu Meng's mind trembled. He strengthened his will and stared at Shi Hao saying, "Huang, you are just a single person. Are you going to challenge several ancient kings?!"

Shi Hao didn't say anything. Black hair scattered about, eyes deep as he stared at him. He then looked around him. Powerful battle intent surged from within him, making the void rumble.

He was sensing his surroundings for formations and traps. A moment later, he said, "Ancient kings? I already killed one!"

His voice carried domineering confidence, completely without fear. He only coldly looked at Gu Meng. With a raise of his palm, resplendent radiance erupted, illuminating the heavens.

In an instant, the clouds all around him completely scattered!

This was his battle intent. A formless domain extended. All things went into hiding, avoiding this place.

It was just a split second, yet Divine Temple's most powerful inheritor frowned, feeling a tremendous pressure, deeply understanding how terrifying his opponent was. He was even more formidable than in his imagination.

"Huang, your grudge with my Divine Temple isn't that deep. It isn't impossible to dissolve." Gu Meng said.

"Speak!" Shi Hao suddenly said, only saying this word, simple and direct.

Gu Meng's brows stood on end. The other person was so forceful, treating him with this type of attitude. Huang is clearly not attaching any importance to him! He immediately felt a type of cold killing intent.

"You killed my Divine Temple's holy beast Gold Marked White Tiger, so you have to offer compensation. If you let me bring away this Snow Phoenix, then we'll call things off." Gu Meng said.

When Xue Lin heard this, all of her snow white feathers expanded, crying out angrily. She turned into an exceptionally beautiful young lady, silver hair falling down her shoulders. Only, there was a bloody hole on her chest that continuously released blood.

"Gu Meng, your Divine Temple really is daring. Back then, it suffered a great loss under my clan ancestor's hands, so you are using this to humiliate my clan?" Xue Lin said coldly.

Shi Hao gestured with his hands, telling her that she didn't have to be angry. He said. "Gold Marked White Tiger meat quality isn't bad. Do you all have more?"

"You... are you provoking me? I offered kindly to reconcile things, yet you treat me like this!" Gu Meng said coldly.

When Shi Hao heard this, he immediately erupted into action, rushing forward murderously. "Xue Lin is my friend, yet you chased after her murderously, even daring to say to my face that you are going to capture her and turn her into some temple divine bird, who is the one being humiliated here? Cease your tricks, aren't you just stalling for time?!"

Hong!

Shi Hao's fist smashed over, making heaven and earth tremble. This type of power was too terrifying, making Gu Meng's expression immediately change. He immediately flew out in retreat, bringing out secret treasures to defend himself.

Before, he was quite confident in himself, but when he encountered Shi Hao, he felt a bit uncertain.

However, as long as he held on, it was enough. He didn't have to personally kill Shi Hao.

"Huang, you came!" A thunderous voice sounded, shaking Gold Spirit Realm.

A world shocking killing intent vaguely rose from the distance, rushing into the sky, forming a black-colored demonic image that towered at the limits of the horizon!

That was an incomparably terrifying figure. It didn't arrive here, because the distance was too great, appearing extremely far away to carry out intimidation. That was Divine Dark Child.

His display of power was too great, pressuring a part of Gold Spirit Realm.

"Kill!"

Gu Meng set his resolution, starting to attack with full force. Secret treasure appeared one after another to deal with Shi Hao, stall for time.

Divine Dark Child still hadn't truly arrived, but his very presence in this realm was enough intimidation in itself!

There were quite a few cultivators that followed into this realm. When they saw this scene, they all shuddered. That type of power, that type of might was too powerful, absolutely matchless. They felt an urge to bow down and worship him.

“If you have the guts, then just come!” Towards this, Shi Hao only had these words. His feet remained in his original location without moving, but his right arm reached out, suppressing Gu Meng, eyes merciless.

Kacha!

The sounds of secret treasures cracking could be heard. A silver spear in the void was crushed. This made Divine Temple’s most powerful inheritor’s face change. The other party was too powerful, bare-handedly destroying true deity precious artifact so easily.

“Ah...” Gu Meng released a great roar, displaying the Nine Heavens Tenth Earth Scripture, an incomparably mysterious technique. He refused to believe that this couldn’t hinder Shi Hao. Back then, Immortal Palace’s inheritor had previously exchanged several thousand moves with Shi Hao, while he himself wasn’t weaker than Di Chong, so regardless, it only made sense that he could hold on.

A hint of a cold smile appeared on the corners of Shi Hao’s lips. “Does Jun Dao have a grudge against you, never telling you the truth?”

Suddenly, resplendent scarlet multicolored light erupted, sword radiance overflowing outwards, killing intent shocking all creatures in Gold Spirit Realm. It was too terrifying, the killing dao energy here incomparable.

“Heavens, the ancient king, Heavenly Country’s most terrifying individual appeared!”

At this moment, there was no need to say anything else. All of the cultivators that followed here knew how terrifying that sword was. It could easily kill True Deities.

That type of power, the angle the sword appeared at, the timing that was used, everything was the most optimal!

This was all done to kill Shi Hao. Heavenly Country’s ancient freak arrived, already taking action.

Chi!

Suddenly, in the void, another streak of sword energy erupted, exceptionally tyrannical and accompanied by a rain of light, as if it was the light of ascension, hacking towards the center of the overflowing killing energy.

Peng!

It was as if the most dazzling fireworks blossomed. The killing energy disappeared, and everyone only saw a divine sword dripping with blood disappear with a flash, entering the void from its original position.

They were positive that that was Heavenly Country’s ancient king!

The most shocking thing was that Shi Hao now appeared on the scene, in his hands the Everlasting Immortal Sword. Just now, he hacked out with sword light, attacking Heavenly Country's assassin.

This was the true body? Everyone's minds were shaken.

Hong!

Suddenly, the void collapsed. A black figure appeared, shattering the sky with a slap, domineering and tyrannical. Heaven overflowing black mists rushed over, surrounding this place, attacking Shi Hao's true body.

Dong!

Endless symbols erupted between the two, divine force fluctuations like a tide, too ferocious. It was clear that this was an incomparably powerful exchange of attacks.

Everyone became dumbstruck again. This was Divine Dark Child! He came, but then who was the enormous figure towering in the horizon?

Everyone became shaken up. The great confrontation here happened in an instant. Shocking developments continuously took place.

Soon afterwards, everyone became clear headed. Divine Temple's most powerful inheritor was just bait, only here to put on a play. Heavenly Country's ancient king was the one to deliver the killing blow.

However, Shi Hao's true body was actually in hiding, taking action at the decisive moment.

Meanwhile, Divine Dark Child clearly did the same, the one in the horizon not his true body. His true body was here to display power at the critical moment.

Dong dong...

Heaven and earth shook violently. Divine Dark Child and Shi Hao's true body fought an intense battle, releasing resplendent divine light. Black mists surged, surrounding the great earth.

Not too far off, Gu Meng was furious. Huang was looking down on him too greatly, unexpectedly only using a spiritual body to deal with him, his true body not even meeting him face-to-face.

Soon after, his heart became cold again. His eyes widened, looking at the battlefield.

Around Huang's body, a strand of immortal energy appeared, mysterious and holy, circling about his body.

"Jun Dao, you lied to me!" He clenched his teeth. No wonder Huang said that before. This time, he was completely treated like cannon fodder, all for the sake of drawing Huang's attention.

Jun Dao had previously told him that Huang hadn't cultivated immortal energy yet. The outside world were all spreading unfounded rumors, saying that Fallen Divine Child didn't succeed yet either.

Now, he knew that those were clear lies!

"What about Heavenly Country's ancient freak? Tell him to drag himself out here too. Just attack me at the same time!" Shi Hao shouted.

This made Gu Meng even more angry. Huang's true body never gave him a single look. Only Divine Dark Child and Heavenly Country's king existed in his mind.

"He left. Since his first strike failed, he definitely won't carry out a second try from the same place," said Divine Dark Child. He towered in the underworld mist, his body pitch-black and indistinct. Only a pair of eyes were burning like flames, incomparably terrifying.

"Do you dare take action against me on your own?" Shi Hao laughed loudly.

"Why wouldn't I dare? I came here precisely to fight against you!" Divine Dark Child said incredibly coldly, his voice ringing through the sky, cracks covering the void.

Not far out, Gu Meng didn't say anything, turning around to leave.

"After saying that you will take my friend as a temple protecting divine bird in front of my face, you still want to leave?!" Shi Hao's spiritual body shouted. This time, he didn't hold back, taking action with full force.

With a qiang sound, a light sword appeared in his hands formed completely from symbols. It shone brilliantly, within it endless great dao true meaning.

Gu Meng didn't want to zealously continue fighting, wanting to immediately escape. It was because he felt an extremely cold sensation, as he had been used.

When Divine Temple's Ancient Holy Child heard that the Gold Marked White Tiger he raised was killed, he truly was angered. He was invited over, but he had some hesitation, not too willing to cooperate with those individuals.

Gu Meng understood what happened. If he died today, Jun Dao and the others will definitely be able to invite Ancient Holy Child, roping him into their group.

He was furious, unwilling to accept this. He wanted to roar out loudly.

However, Huang didn't pay this any attention. Sword light tore through heaven and earth like a rainbow, many times more powerful than before. Gu Meng couldn't hold on.

Pu!

Gu Meng's head flew out, accompanied by large amounts of blood. He was full of despair and unwillingness. To be killed just like this, it was too fast, right?

Was this the power one obtained after cultivating a strand of immortal energy? It was truly terrifying to an unimaginable level.

Before he could think any more, the primordial spirit in his head was erased by the sword energy that invaded inside, obliterating both his body and dao!

Shua!

Shi Hao's spiritual body and true body merged to fight decisively against Divine Dark Child. At the same time, he transmitted sound in all directions. "Is there anyone else? If you wish to fight, then come at me!"

Everyone became shocked. What kind of power was this? The scene of Divine Temple's most powerful inheritor's head being removed was too shocking, as if it happened right before their eyes. Now, Shi Hao transmitted sound like this, challenging enemies from all sides, not scared of being attacked by everyone at all.

"Worthy of being Huang, matchlessly powerful, someone with unrivaled confidence." Someone said with a sigh.

That type of domineeringness and confidence came from deep down, not fearing all of the enemies in the world.

Chapter 923 - Divine Dark Child

A sword moved through the sky, cold light illuminating Gold Spirit Realm, killing Divine Temple's most powerful inheritor. How tyrannical was this?!

One has to understand that this was one of the most powerful geniuses of the three thousand provinces, someone with heaven warping talent that looked down on all of his peers. However now, Huang's removed his head with a single cut.

Kacha!

Cracks filled the void. The great battle up ahead was heaven shocking. That place had long erupted into chaos.

Divine Dark Child was facing Huang!

"What is that? Why is there a strand of white energy around his body?" There were some who were suspicious as they watched the terrifying battle. Their mind was trembling, soul shaking.

Heaven and earth split apart. The metal mountains below continuously melted. Even though they were far away, there were still some whose bodies were swept through by these two's bone texts, injuring them heavily.

Those two individuals were extremely blurry, but there was one distinctive trait, and that was that both of them had a pure white strand of energy that came out from their bodies, making them look mysterious and powerful.

"Why is it that I feel like they far exceed us, as if they are heavenly deities, their power not something we can match at all?" An exceptional talent spoke, his voice trembling slightly.

Everyone became horrified, because this was a real feeling. The two people up ahead were just too terrifying, not even true deities able to stop them if they went up. They were powerful to a ridiculous degree.

"Immortal energy! They... actually took that step!"

Someone cried out with shock. Even though quite a few people had guessed at this, when someone really shouted it out, it still left them deeply shocked.

"Heavens! They cultivated a strand of immortal energy, actually succeeded, surpassing the ancients!"

This cry of alarm stirred up heaven reaching waves. Everyone found it difficult to stay calm, their eyes filled with shock and agitation. This was simply a miracle!

This was the first time they saw immortal energy, causing their hearts to rise and fall greatly, their eyes full of fanatical expressions. For them, this was simply inconceivable.

Last time when Shi Hao fought with Fallen Divine Child, the battlefield they selected was a vicious place that was surrounded by baleful energy all day, so even if there was immortal energy, they wouldn't be able to see it.

Meanwhile, that battle, even though many people had their suspicions, quite a few people suspecting that they took that step, cultivating a strand of immortal energy, in the end, they still didn't obtain any proof.

Moreover, later on, Jun Dao asserted that Shi Hao and Fallen Divine Child didn't succeed, and that was why no one continued thinking about it.

Now, they saw it with their own eyes!

"It seems like Fallen Divine Child's death was now wronged, Jun Dao also mistaken. Huang... had long taken that step!"

"Too terrifying. He actually succeeded!"

This place erupted with commotion, triggering huge waves.

Towards Divine Dark Child, everyone still had some mental preparation, because his flesh was too extraordinary, an ancient corpse that had been buried in the Archaic Era, only awakening in the present.

Needless to say, his previous life definitely had a tremendous background!

It was to the extent where people speculated that he might be an expert from the last great era! After his death, he was buried in the earth, his flesh not destroyed, existing until now.

Peng!

In the void, the two people's speeds were too fast. The space around them exploded, turning into mists as they erupted. They attacked viciously, symbols blasting apart like exploding stars.

Suddenly, someone took action secretly, Heavenly Country's most powerful assassin. Those who lived and reached this step were all the very best. This person was extraordinary, silently arriving at Shi Hao's back, only when he took action did bone texts erupt.

However, something shocking happened. That killing sword, even though the sword energy was like a rainbow, distorting the void, when it approached Shi Hao's body, it was stopped.

A hazy strand of immortal energy turned into faint mist wisps, sticking to Shi Hao's body, merging into his soul, making him look sparkling and shining.

The killing dao divine sword that was dripping with blood trembled slightly, as if it was enduring tremendous pressure.

The assassin's face changed. Originally, after the strike failed, he should have immediately withdrew into the distance. However, now that he got this close to Huang, he felt extremely unwilling to let things just end like this. He fiercely brandished the sword, thrusting it forward fiercely.

Something that made him a bit fearful happened. The true deity magical sword was a dark red color, refined for who knew how many years, but now, it released a ka cha sound, the tip breaking.

Then, the dark red true deity magical sword broke apart inch by inch. Following his vicious thrust forward, it broke apart piece by piece into metal fragments.

This was too terrifying, making this assassin indescribably shaken. Just how powerful did one become after cultivating a strand of immortal energy? There was simply no way of measuring it!

For people like him to deal with Huang, it was clearly useless. Even with Huang's back to him, standing there, he still couldn't pierce through!

Hong!

The dark red true deity magical sword's bone texts shattered, turning into an expanse of brilliant light before disappearing. Even a powerful weapon like this was destroyed!

"No!"

The assassin was horrified. The powerful pressure from that person's back made him feel suffocated. No matter how he backed up, it wasn't enough. His mouth and nose felt uncomfortable, the seven apertures of his head releasing blood.

At this moment, his consciousness became blurry, but he saw a reality. Huang didn't even turn around, from start to finish, never taking action against him.

"After cultivating a strand of immortal energy, it is just too terrifying, not something normal deities could defend against at all!" This was his final thought.

Then, with a pu sound, his entire body exploded, a bloody mist rising upwards. Nothing else remained.

Everyone was stupefied, their backs feeling ice-cold. A wave of chilliness spread through their bodies.

They clearly saw that assassin suddenly appear, piercing towards Shi Hao's back, and then he was mysterious frozen in place. During that time, Huang was fighting intensely against Divine Dark Child, trading blows fiercely, continuously changing positions. That assassin moved together with Huang, all the way until he turned into an expanse of bloody mist.

"Too terrifying, just like a scarecrow hanging from his body, suddenly exploding under the violent movement."

When everyone snapped back to reality, they felt as if their scalps were numb. Just how terrifying did one become after taking that step? Shi Hao didn't attach much importance to him at all, directly dragging him with him as he moved until he exploded.

"I finally understand why it is difficult for even ancient kings to successfully cultivate a strand of immortal energy. It is definitely incomparably difficult! But once it is cultivated, it means that they could travel unhindered through the nine heavens and tenth earth!"

Someone said with a sigh, feeling both jealousy and fear, looking at those two with complicated expressions.

Peng!

This time, Huang and Divine Dark Child both released a palm from the distance, releasing an exceptionally loud and oppressive sound. It was as if an immortal drum was playing, shaking many people until their blood and qi surged.

Wa...

A few individuals with weaker strength coughed out large amounts of blood, staggering in retreat, their faces full of horror and shock. They were already standing far away, but they were still injured by the power displayed by those two.

Shi Hao's expression became serious. This was the first time he met someone like this, with a physical body that was unimaginable, definitely exceeding all normal limits.

Divine Dark Child stood in the void, underworld mists surging around him. Only his eyes were shining like ghost flames, burning indistinctly. He was indescribably terrifying and powerful.

His physical body exceeded those at this level, and when he was attacked, it would automatically release symbols to retaliate against the enemy, the beams of light impossible to defeat, terrifying and mysterious.

Chi! nDve)(B)In

Shi Hao struck out with a fist. Bone texts interweaved like stellar streams, mysterious symbols erupting. The divine might was world shaking!

However, Divine Dark Child didn't try to block it, instead rushing forward and directly attacking. Underworld mists surged, his body automatically shining. A streak of scarlet multicolored light flew out, erupting towards Shi Hao's fist.

Shi Hao evaded to the side, moving his hand again, the five fingers on his left hand forming a dragon claw, five streaks of light flying out from them. If others were struck by these lights, their bodies would definitely become pierced through, leaving behind five bloody holes.

However, Divine Dark Child's flesh released kengqiang sounds as if metal was being struck. Sparks flew everywhere, and that area released purple light, sweeping towards Shi Hao like a great sea.

Peng!

Shi Hao moved, displaying the Earth to Inches withdrawal technique. Then, his entire body leapt up, his body spinning. His leg swept out, vaguely releasing sounds of Dragon Snake cries.

In reality, there really was a True Dragon and a Golden Snake coiling around, lashing at Divine Dark Child, the power domineering!

Shi Hao's seemingly simple movements were all the most powerful loose moves, some of them originating from Origin Sky Secret Realm, others comprehended on his own.

Weng!

Divine Dark Child's shoulder that was attacked released dark light that turned into a demonic phoenix that was incomparably terrifying

Heaven and earth split apart, the void here caving in. The scene was astonishing.

Meanwhile, below, golden mountains collapsed, several tens to over a hundred mountain peaks breaking apart. They turned into metal fragments, and then into roiling metal liquid.

This place was too sinister, the scene too terrifying.

How was one even supposed to fight against Divine Dark Child? His flesh was too terrifying, every inch of his flesh seemingly having a type of precious technique sealed within. Once attacked, it would definitely erupt with bone texts.

Even Shi Hao was startled. This was the first time he encountered this type of opponent. He unexpectedly couldn't inflict any damage!

In the past, it was always him with the unmatched flesh, able to suppress his enemies purely with his body. However, today, he unexpectedly ended up encountering this type of monster whose body was unbreakable, undecaying, and even able to automatically release precious techniques!

This wasn't controlled by the primordial spirit, but rather released instinctively by the body!

At this moment, Shi Hao understood why Divine Dark Child's terrifying body wasn't destroyed after all this time, still able to display such power. He had an astonishing background in his previous life, one that was unimaginable.

"A single sleep lasting for an eternity, only having this tattered physical body left, in the end, still too inferior... Otherwise, how could an insect like you dance about in front of me like this?" Divine Dark Child said deeply.

This made many people tremble inwardly. He was domineering as expected, so arrogant even when facing Huang, carrying an expression of contempt.

Shi Hao coldly said, "Just a corpse, yet still dares to act arrogant. What do you have? Just a newly born primordial spirit that doesn't have the slightest connection with the body you have from the previous life. His accomplishments have nothing to do with you, the only reason you can stand here because of luck, possessing a corpse shell that's not too shabby. Otherwise, you're nothing!"

While speaking, the two of them quickly flew through the air, weaving between heaven and earth. Over ten thousand moves had already been exchanged, the two of them just too fast.

"It's useless. No one in Immortal Ancient can kill me. Fighting decisively against me only signifies your death!" Divine Dark Child said coldly.

Hong!

He took action, moving extremely quickly, attacking Shi Hao. A faint strand of immortal energy moved around him, many parts of his body shining, precious techniques interweaving together. This unusual scene was heaven shocking.

"Turns out to be like this!" Shi Hao opened his Heavenly Eye, seeing the strand of immortal energy in the underworld mist. He nodded and then said, "So that's all."

"Kill!" Divine Dark Child shouted, his entire right arm turning into a black-colored divine sword, hacking downwards. His flesh turned into a sword core, dark energy surging.

"The strand of immortal energy you have on you wasn't cultivated by yourself at all, but rather produced automatically by that physical body. You dare act arrogant with this little bit of accomplishment?!" Shi Hao sneered. He spread his enormous Kun Peng wings, splitting the skies as he moved!

Chapter 924 - Beheading Divine Child

The dark sword core hacked down, formed from his right hand. It was incomparably sharp and powerful, heaven overflowing dark light surging.

Shi Hao shifted outwards, the Kun Peng wings behind him spreading, covering the sky and clouds, enormous without end. They fanned over, stirring up yin and yang energies. After colliding, wisps of chaotic mists blasted outwards!

Hong!

This strike exploded the void. When the black-colored sword core and Kun Peng wings intersected, sparks flew everywhere.

Dang!

Sword energy overflowed, ear-splitting sounds ringing through the air.

Meanwhile, golden feathers covered the sky on Shi Hao's side, neutralizing everything.

However, immediately afterwards, things became troublesome. Divine Dark Child's entire body shone, all types of precious techniques erupting and sweeping forward.

It was because this time, the power Shi Hao used was too great, the Kun Peng wings like golden clouds, covering the sky and hiding the moon, attacking the other party's entire body.

This was like poking at a hornet's nest, making his flesh instinctively release power, provoking an expanse of precious techniques. Everything linked up together, completely erupting. It was incomparably magnificent.

It was clear that Shi Hao did this intentionally. He was probing Divine Dark Child's entire body, refusing to believe that this body had terrifying symbols sealed in every part. There had to be a weakness.

Otherwise, if it was just attacks, he had other methods that haven't been used yet.

Hong!

Dark clouds surged, precious technique interweaving, unexpectedly producing scripture sounds. They originated from Divine Dark Child's body. It was extremely terrifying.

Shua!

Shi Hao shifted horizontally, continuing to use precious techniques. Light surged, completely blasting outwards, submerging Divine Dark Child, inciting him a step further, making his body resplendent, as if it was burning.

It had to be said that he was full of confidence, excited by this new opponent. What he was thinking was not how to quickly eliminate this opponent, but rather trying to understand everything about him.

An Archaic Era ancient corpse, perhaps even originating from the previous great era, this made him quite interested.

Shi Hao couldn't help but sigh. The other party's physical body was too terrifying, just its instinctive response able to obliterate groups of geniuses, automatically displaying precious techniques, sturdy and undecaying, innately undefeated.

Many people saw that even if Divine Dark Child were to just stand there and not take action, allowing all of the spectators to attack him, it would still be difficult to take him down. Instead, they would be the ones massacred.

"En, there were a few areas that didn't shine, without symbols and precious techniques rushing out. Could these be the comparatively weaker areas?" Shi Hao said.

This was the result of his comprehensive attack. When he saw that there were still a few areas that were dim on Divine Dark Child's body, not displaying any reaction, he speculated that these were the weak points.

When he thought of this, Shi Hao stopped moving. He then transferred all of his body's power, attacking viciously. With a qiang sound, it was as if he wore a layer of golden-colored armor.

Around his body, countless golden feathers could be seen, all of them suspended in the void. They were just too resplendent, as if a divine treasury appeared in the world, shaking up Gold Spirit Realm.

This was a derivation of the Kun Peng technique, a powerful embodiment of its power. All of the feathers were divine swords, a total of a hundred thousand of them. They stood in Shi Hao's surroundings.

"Kill!"

Shi Hao roared. The streak of immortal energy around his body also moved. He crazily took action.

A hundred thousand golden divine feathers quickly enlarged at this moment, all of them so large they seemed to be supporting heaven and earth, towering between this world, connecting the ground and sky!

Every single one of these feather swords were enormous. When they shot forward together, they weren't piercing, but rather smashing at the enemy!

Moreover, they were made of natural laws. They interweaved together, covering heaven and earth. With natural sword laws, they constructed a furnace!

Sword furnace!

A hundred thousand enormous swords, their radiance forming natural laws, constructing a furnace. This scene was mysterious and grand, sealing Divine Dark Child within a furnace.

Endless sword energy swirled about, entering the furnace, starting to attack. They were like sword radiance, but also like flames, burning here!

"This... is too terrifying!"

The faces of the people watching in the distance became pale. A furnace made from swords, natural laws interweaving within them, this type of scene was truly world shocking.

Who could stop this? Many exceptional talents' bodies couldn't help but go taut, continuously backing up. They felt as if they were struggling against that furnace themselves.

Dang dang dang...

Ten thousand swords were sent out. Within the enormous furnace, endless light rushed about, all of them striking Divine Dark Child's body. Sparks flew in all directions. n)-Ovel**b1n**

"What, this powerful?"

Everyone couldn't believe what they were seeing. This body was terrifying, but could it stop this much sword energy?

Without a doubt, for the Kun Peng technique to reach this level, it was enough to be called a fatal technique. Forget about any other transformations, just this sword furnace alone would shock the world.

Dong!

Dong!

...

Enormous sounds rang outwards. Everyone felt horrified. That sword furnace was transparent, so the scene inside could be seen. A figure was attacking, bombarding the sword furnace with his fists.

He was enduring the sword radiance. Even though his body shone, using endless precious techniques to defend itself, he was still forced into a passive situation.

"He withstood it?!" Someone cried out with alarm.

It was because after a moment had passed, Divine Dark Child's body was unmatched, still not cut down. His entire body shone, and his fist's power became even greater, striking the sword furnace until it rang with weng weng sounds.

The furnace was struck until it unexpectedly became bumpy, shape continuously changing. The scene was astonishing.

Outside, Shi Hao stood in the sky, a hundred thousand golden feather swords completely turning diagonally, their points pointing forward. He himself was within this forest of swords, mighty and still like a monarch.

“Kill!”

Shi Hao released a light shout. The sword furnace suddenly changed, displaying natural laws, turning into sword energy to attack at the special areas on Divine Dark Child’s body. Those areas were dim, not shining.

At the same time, Shi Hao himself moved, because the sword energy furnace further confirmed the areas where the other party’s body couldn’t release precious techniques. It was time to move.

Between heaven and earth, a roar sounded. It was as if great waves were surging. It was because as Shi Hao swooped down, the hundred thousand golden feather swords moved as well, all of them rushing at Divine Dark Child.

“You think you can see through me, able to kill me?” Divine Dark Child laughed coldly. His entire body erupted with dark light. That strand of immortal energy merged with his body, making him look like a black sun.

Shocking changes happened. On Divine Dark Child’s body, the areas that originally didn’t shine lit up, becoming more resplendent than the sun.

Chi!

One of those regions released a streak of scarlet multicolored light. Symbols shone dazzlingly, ultimately forming a small bell that quickly rushed towards Shi Hao.

So fast! This was what everyone thought, their eyes completely unable to capture its trajectory, only seeing afterimages. Then, bell sounds rang through heaven and earth.

Dang!

That was a scarlet-colored small bell, not a real item, but rather formed from natural laws. The sound it released shook the cultivators in the sky until they fell, blood trickling out from all seven apertures.

“Heavens, what kind of precious technique is this?”

Everyone became shocked, quickly escaping. This was too sinister! Even from this far away, they were still attacked indiscriminately.

Qiang!

Immediately afterwards, the scarlet-colored little bell sounded once again. However, it wasn’t bell waves that were released, but rather sword cries. The bell turned into a small sword, releasing strange ripples that frantically rushed at Shi Hao.

“This is Soulfall Technique, something that has been lost in inheritance for a long time! How terrifying... Divine Dark Child’s flesh actually has this type of symbols. Back then, what kind of person was he?” A few people with extensive knowledge and experiences cried out with alarm.

When everyone heard this, all of their expressions changed.

The Soulfall Technique was extremely strange, able to kill one’s primordial spirit. It directly rushed into the divine consciousness, one’s flesh shell unable to stop it.

Just now, it was just a ripple, yet it already injured a few comparatively weaker cultivators, so one could imagine what kind of attack Huang was facing. This type of precious technique was the most terrifying.

What was a primordial spirit? It was what supported one’s life imprint! Once it scattered, that would be the end of everything, erased from existence.

The small scarlet bell, in everyone’s eyes, became the source of terror!

“Did you think the dim areas were weaknesses? You’re wrong, those are places where I can already release precious techniques from, the places that are the most powerful!” Divine Dark Child laughed coldly, mocking Shi Hao.

Shi Hao could tell even without him saying it. Soulfall Technique and the other precious techniques were incredibly powerful, their operation unobstructed.

“The most powerful areas are just these? You want to hinder me with just a trifling Soulfall Technique?” Shi Hao said indifferently.

Everyone became shocked. Shi Hao stood there confidently. Divine Dark Child’s precious techniques were unexpectedly all stopped by a barrier of light.

Shi Hao supported his only heavenly passage, and then lightning and Kun Peng force operated, concentrating on it. Symbols appeared one after another on his only heavenly passage, shining resplendently like stars.

He had long wanted to carve symbols on his single heavenly passage. These were just the beginning of his efforts, yet it already displaying unmatched defensive power.

Hong!

Then, Heaven Calamity Light was added as well.

However, this was the extent of what he could do. This was all still in the experimental stage. Everything became unstable, his single heavenly passage becoming a bit distorted.

“Kill!”

Shi Hao shouted loudly. His single heavenly passage shone and burned, unexpectedly separating from him, flying forward. It surrounded the little bell and others, completely obliterating them.

Moreover, his single heavenly passage turned into a symbol pillar of light, and then rushed at Divine Dark Child.

Dong!

Unfortunately, this person's body was too strange, surpassing the limits of those at his level. He only released a groan. Precious techniques were released, completely erupting, stopping this attack.

Shi Hao took the initiative to attack. "I refuse to believe that you can continue to remain unbreakable!"

His eyebrows stood up vertically, now angered.

"Come then, Huang. Others might fear you, but in my eyes, you aren't anything. If not for sleeping all this time, a hundred thousand people like you would be killed with just a breath from me!"

Divine Dark Child taunted. At this moment, he revealed his true appearance, the underworld mist scattering. He wore black-golden armor, his face pale white, possessing an abnormal beauty.

"Kill!"

He released a shout, and then rushed over.

Two figures weaved through heaven and earth, clashing intensely.

"Huang, by attacking my entire body, forcing my body to instinctively display power, are you trying to exhaust my power? However, I'll have to disappoint you. My physical body is unmatched, it will never become exhausted." Divine Dark Child ridiculed.

"I was just curious about your body, wanting to see if you have any parts useful as a reference, but was disappointed, so I won't waste anymore time!" Shi Hao said coldly.

Peng peng...

Precious techniques collided, shocking to the extreme.

"I want to see what kind of methods you have." Divine Dark Child was fearless.

"Even though you have many precious techniques, they are just engraved in your flesh, so I cannot study them. Even though your physical body is extraordinary, it is still a human corpse, so I can't cook and eat it. That means that nothing is good about it, just trash. Just die!" Shi Hao shouted.

When these words sounded, not only did Divine Dark Child's eyes become cold, many spectators became stupefied as well.

Qiang!

A sword appeared in Shi Hao's hands. That was a sword body formed from a combination of the Reincarnation symbols, Heaven Calamity Light symbols, as well as the third innate supreme being technique.

When this sword emerged, winds and clouds changed, the world losing color.

Shi Hao's strand of immortal energy also wound around it, making this sword even more extraordinary.

His speed was too fast, the Kun Peng's extreme speed, Earth to Inches withdrawal technique, and lightning wings merged together, exceeding normal reasoning, surrounding him as he attacked Divine Dark Child.

Under dang dang sounds, a few parts on Divine Dark Child's body unexpectedly released blood, to the extent where two areas were pierced through!

Everyone became shocked. Even this type of powerful body was going to break apart? They didn't dare believe it.

"Your weakness is precisely those shining areas, the regions that could release precious technique, right? You can't hide it!"

Shi Hao said coldly. Those regions had been damaged over time, becoming penetrable!

Pu!

Divine Dark Child spat out a mouthful of dark blood, his body flying outwards, receiving serious injuries for the first time.

"Just a corpse, yet dares to act all arrogant in front of my face, ridiculously overconfident. Who do you even think you are?!" Shi Hao shouted.

When he swooped down again, the sword in his hand was exceptionally sharp. Following pu pu sounds, expanses of symbols were scattered out, striking at Divine Dark Child's vitals.

Hong!

Divine Dark Child was using great divine abilities, but it was still too difficult to defend himself.

Everyone trembled. What kind of precious technique was this, unexpectedly making Divine Dark Child's body become weak so quickly, finding it a bit difficult to hold on.

Shi Hao was also astonished. His precious technique contained Heaven Calamity Light, Reincarnation, and other abilities, so as long as they struck their target, they would immediately break apart. Even though the body before him couldn't hold on, it still endured several hits, truly shocking.

Ah...

Divine Dark Child released a roar, attacking viciously.

Qiang!

Shi Hao brought out the Everlasting Immortal Sword as well. "I originally wanted to take a look to see what's so special about you, if I could use your body as a reference, but I was disappointed. It's better if you just go on your way a bit sooner."

In his right hand was the sword core condensed from his own supreme being techniques, while his left held the Everlasting Immortal Sword core. The two swords moved, their power unstoppable!

"Kill!"

Divine Dark child shouted, continuously fighting.

Even after reaching this step, he still exchanged another five hundred moves with Shi Hao. His body was incomparably bizarre, releasing bone texts from time to time.

Pu!

Shi Hao hacked off his right arm. The weakness there was glaring, something he had realized for a while. The broken arm released an expanse of black color, flying outwards.

En?

Shi Hao was shocked. After that broken arm flew out, it quickly flew in retreat, wishing to heal. This body was really too strange.

“You still want to connect it? Forget it!” His swords both moved, cutting that arm into several pieces, as well as seriously injuring the main body.

Pu!

Then, Shi Hao bisected him at the waist. The upper half of his body flew outwards.

Suddenly, the sound of scriptures sounded from the void. At the ends of heaven and earth, there was a blurry figure seated there. Indistinct scripture sounds rang through this place.

At this moment, everyone’s souls trembled, all of them scared, wishing to bow down in worship.

“Divine Temple’s... Nine Heavens Tenth Earth Scripture, it’s Ancient Holy Child!” Someone said with a trembling voice, knowing who it was that came.

“You are free to come at me! Those who dare fight against me, I’ll cut down one after another!” Shi Hao shouted.

He withstood the scripture sounds, not being disturbed by it. He rushed forward again, and with a pu sound, he cut open Divine Dark Child’s chest.

Only, he frowned slightly. That body was too sinister. Even at this state, the broken limbs and other parts still wanted to gather again and reassemble.

Pu!

Shi Hao didn’t bother worrying about that much. The swords in his hands joined together, cutting into Divine Dark Child’s head, blood splashing high into the air!

Chapter 925 - Immortal Sword’s Direction

Sword energy was unstoppable, cold light illuminating all!

Shi Hao’s sword removed Divine Dark Child’s head. The headless upper half of his body flew outwards, black blood scattering outwards.

How domineering was this? Even someone as powerful as Divine Dark Child had his head removed! How could this not make others shiver with fear? The spectators felt as if they were suffocating.

Chi chi chi...

Divine light poured down like a waterfall. The battle still hadn't ended. Divine Dark Child's flesh was incomparably strange, shining even though it had been chopped up, all types of symbols erupting.

Dang, dang, dang...

Between heaven and earth, the sound of metal ringing was deafening. Large amounts of precious techniques flew everywhere, covering the sky in divine light. All of this was released by Divine Dark Child's body, and they landed on the Everlasting Immortal Sword.

Shi Hao remained fearless. He found Divine Dark Child's weakness, so he moved forward with the sword in hand. After a few cuts, black-colored blood splashed out again.

Everyone had to admit that Divine Dark Child had a world shocking flesh shell, some places even more terrifying than the Six Zhang Golden Body. Not only was it undecaying, there was strange power surging.

Deafening sounds rumbled!

A river of blood appeared, shooting out from Divine Dark Child's heart. It quickly turned a dark red, and then later, it returned to becoming black, covering heaven and earth, covering the area around Shi Hao.

Peng!

Shi Hao raised his hand. The Lightning Emperor's precious technique erupted, blasting outwards. Electrical arcs flooded out like a sea, blasting apart all of the black-colored blood, turning it into bloody mist.

In addition, he advanced with the sword in hand, hacking horizontally and cleaving vertically. Sword light fired out, shining brilliantly like starry streams.

Pu!

Divine Dark Child's ruined body was broken into pieces again. Moreover, in that instant, Shi Hao quickly attacked with his sword, making Divine Dark Child's torso and other parts continuously break apart, cutting them into chunks.

Weng!

A silver mountain crushed down, making the void cave in.

This was unexpectedly formed from a symbol, arriving from the horizon. The mysterious Ancient Holy Child stood there, his body indistinct as he chanted scriptures. The bone texts originated from that direction.

Dang!

Shi Hao moved his sword, striking the silver mountain that was formed from symbols, sending it flying outwards.

In addition, something even more terrifying happened. In the void, a row of large mountains flew over, among them including those that were golden, those that released purple energy, those with dark light that overflowed into the heavens... All of their energies surged, making it feel as if a stellar sea was crushing down!

These were a hundred and eight symbols, and when linked up together, they formed mountains. If one looked down from above, one would see what resembled a bracelet.

Ancient Holy Child chanted scriptures. He himself did not arrive, using scriptures to hinder Shi Hao, not allowing him to kill Divine Dark Child.

“That’s... the Nine Heavens Tenth Earth Scripture, known as an unmatched divine text!”

Everyone was shaken up. This ancient scripture was incomparable, obvious just from its name. Its reputation had shaken the past and present.

This was only the opening part of the scriptures, Ancient Holy Child only reading a hundred or so characters, yet it was already like this, displaying the most powerful might, making one’s soul throb and shake.

Shi Hao’s eyes became cold. He held the Everlasting Immortal Sword in his hands, not feeling any fear. Exceptional sword energy shot out, one hack one streak, making all of the scriptures scatter and explode in the void.

“Ancient Holy Child is so powerful. His true body didn’t even come, yet there are already such heaven defying methods.” Someone said with a sigh, not knowing if his true body will descend to fight a great battle against Huang.

It was clear that after Gu Meng’s death, someone sent a message to Ancient Holy Child, provoking his anger.

“Huang, incredibly domineering, facing so many enemies and even daring to take on more than a single ancient freak, how valiant and heroic is this?!” Someone said.

Everyone nodded. Regardless of the results of this battle, Huang’s name was going to shake up Immortal Ancient. This was just too tyrannical.

He stood there alone with the sword in hand, waiting for several ancient freaks to show up, what kind of courage was this? How many people dared to act like this?

Chi!

Sword radiance overflowed outwards. Shi Hao never stopped moving, scattering those scriptures and hacking Divine Dark Child’s body into even smaller pieces, preventing him from recombining.

“Heavens, how many pieces was Divine Dark Child’s body chopped up into? It’s now practically minced!”

Everyone simply couldn’t believe that Divine Dark Child, who was known for having unbreakable flesh, was actually being diced up by someone! Black blood splashed outwards, the scene so shocking everyone’s faces turned pale.

There was only a single head that continuously backed up, not being hacked apart, coldly watching the enemy.

“Great one!”

A group of Underworld Earth’s experts appeared, shouting loudly.

There were some who disregarded personal safety, rushing over to take action against Shi Hao, wishing to rescue Divine Dark Child.

Pu!

Shi Hao didn't say anything. His sword swept out, accompanied by pure white immortal energy, cleaving the group of Underworld Clan experts that rushed over at the waists. They then broke apart inch by inch, turning into bloody mists.

This was too powerful, just a single strike wiping out a group of experts!

This was precisely why those who had taken that step were terrifying. Others simply couldn't match their power. With immortal energy, it was the same as transcending above, able to overlook the crowd.

Zheng zheng...

Shi Hao shook his sword, continuously brandishing it tens of thousands of times in one go, chopping Divine Dark Child's flesh into an unrecognizable degree and in an absolute mess. Moreover, sword radiance shot straight into his head, continuously hacking about.

Dang! n(0V**EL**lIn

A terrifying sound erupted. When Shi Hao's sword landed on his frontal bone, it unexpectedly produced this type of vibrating sound.

His skull was without a doubt the most terrifying and sturdy part!

Sparks flew everywhere, sword rainbows cascading down streak after streak. After a series of clashes, Divine Dark Child's skull finally cracked as well.

"What, is Divine Dark Child going to have his body and dao erased?" Everyone was horrified.

There were some who said that there was no way his body was unbreakable, but what they saw today had long topped everyone's understanding.

"Kill!" Shi Hao shouted loudly. With the Everlasting Immortal Sword in hand, he released the most terrifying strike. With a chi sound, immortal energy curled about, sword radiance roiling. With a pu chi sound, that head was finally completely cut open!

Black blood gushed out, underworld mist pervading the air. It was incredibly strange.

"Not good!"

Shi Hao's mind trembled, feeling all of his fine hairs standing on end. His instinctive divine senses were unimaginably sharp. There was danger coming.

"That is..."

Everyone was shaken. At the limits of the horizon, the indistinct figure in the horizon was still chanting scriptures, but he also reached out a large hand, slapping it over in this direction.

It was too terrifying! The mountain range below, when compared to that enormous hand, felt too small, incomparably insignificant.

This arm stretched across the sky, originating from the horizon, surrounding everything. Ancient Holy Child took action, displaying the precious techniques recorded in the Nine Heavens Tenth Earth scriptures to suppress Shi Hao.

The sky collapsed, black cracks extending everywhere!

Shi Hao's eyes became cold. He didn't back off, continuing to press forward. A streak of sword energy rushed into the heavens, hacking towards the terrifying large hand that covered the nine heavens and tenth earth. Then, another sword hacked towards underworld mist, wishing to eliminate Divine Dark Child's primordial spirit.

Dang!

In the darkness, sparks flew about in a glaring manner. The radiance scattered all of the mist.

Shi Hao's pupils quickly contracted. Within the splitting head, there wasn't a primordial spirit, but rather a black-colored small cauldron that was incomparably ancient. Shocking fluctuations were released from it.

Immortal Gold... it was a cauldron forged from Immortal Gold.

This small cauldron wasn't large, and it had long become broken from the passage of time. It was covered in cracks and filled with an ancient aura.

However, despite this being the case, it was still intimidating, as if he was facing the most terrifying prehistoric vicious beast.

Weng!

The little cauldron flashed, sending out primordial spirit energy. In addition, this cauldron's dark light erupted, releasing heaven overflowing fluctuations, shaking the world.

"What a terrifying cauldron, its quality unimaginable. How was it brought into Immortal Ancient?"

"Something isn't quite right, it's broken, only possessing fluctuations, difficult to condense complete symbols, unable to display any power."

In the distance, everyone was greatly shaken.

This was without a doubt a cauldron from the Archaic Era, previously buried together, now reappearing in this world. It was unexpectedly cast from Dark Immortal Gold, its value inestimable. It would be hard for even immortals to find this type of unmatched 'heavenly material'.

Dong!

The large hand in the sky slapped down, smashing down towards Shi Hao again. That was divine power displayed by the Nine Heavens Tenth Earth Scripture.

At the same time, the primordial spirit in that little black cauldron shone, stirring the magical artifact as it moved, making the little cauldron smash towards Shi Hao, its aura terrifying.

Shi Hao moved his sword horizontally, first blasting aside the large hand in the void, and then hacking towards the Dark Immortal Gold little cauldron.

Pu!

Blood blossomed, incomparably bright-colored.

Shi Hao moved sideways, but his body was still struck by a sword. His lower back had been pierced, the wound coming out from his chest. Blood flowed outwards.

The one behind him shook the sword, wishing to blast him to pieces!

Killing energy entered his body. It was too terrifying, immediately eliminating quite a bit of Shi Hao's life force, originating from the sword and spreading in all directions.

Hong!

Shi Hao's body began to burn like a great furnace, releasing resplendent symbols, attacking behind him. At the same time, his entire body rushed forward like a streak of lightning, immediately disappearing.

He freed himself from that divine sword dripping with blood, standing in the distance. Bone texts and divine flames raged around his body, the blood on his chest red and glistening. It was a horrifying sight.

Heavenly Country's ancient freak!

Shi Hao's face fell. Just now, he had been misled. He had a feeling a long time ago, but he thought that the danger originated from Ancient Divine Child's large hand, and then he thought that it might be the black-colored little cauldron.

He never expected that it was Heavenly Country's king that was hiding in the darkness, delivering this fatal strike at the critical moment.

The killing energy was too terrifying. It wreaked havoc in his body, simply about to tear through all of his body's muscles and arteries, crushing all of his bones, sucking his flesh's spiritual essence dry.

"Where do you think you are going?!" Shi Hao's eyebrows stood vertically, his Martial Dao Heavenly Eyes like two small suns, releasing symbols that lit up heaven and earth.

He warped through the air, hacking towards the void, cutting off Heavenly Country king's path of retreat.

Then, that indistinct figure appeared, standing there with the bleeding divine sword. Only then did everyone understand that Heavenly Country's ancient freak took action again.

"He violated his principles! It was rumored that if he failed once, he would retreat into the distance. I never expected that he would release a second attack!"

Heavenly Country, for the sake of killing Huang, attacked a second time today.

Moreover, what was shocking was that he stood in the void, his body indistinct, fighting a great battle against Huang.

“Do you think my flesh is that easy to break? I won’t die. I was just borrowing you to refine the soul!” Divine Dark Child said coldly.

At the same time, his broken body gathered piece by piece, all of them rushing towards Shi Hao, turning into a flesh armor to cover his body.

This was a sinister power. All of Divine Dark Child’s flesh pieces flew over, about to wrap around Shi Hao and assemble around his body.

“Dark Refinement!” Divine Dark Child shouted loudly. He was going to turn himself into a furnace to seal up the other party, refine him and absorb all of his vital energy.

“Don’t try to stick gold to your face. Your flesh is indeed sturdy, but as long as one finds out its weak points, it’s easy to hack apart.” Shi Hao said.

While speaking, he fought against Heavenly Country’s ancient freak. Sword light rose into the heaven, shining endlessly.

Everyone was shaken. The supreme assassin was terrifying as expected!

“Burn!”

Shi Hao released a loud shout. A strand of immortal energy rushed out from his body, carrying the remaining flames of ten thousand daos, burning ferociously, roasting Divine Dark Child’s flesh pieces that swarmed over.

“En?!” Towards this, Divine Dark Child became fearful, quickly evading. These ten thousand remnant flames were extremely terrifying.

Dang!

Shi Hao fought against Heavenly Country’s king while releasing sword energy to hack at Divine Dark Child.

This left many people stupefied. When had Heavenly Country’s ancient freak ever confronted someone like this before? However, right now, he was intercepted, now releasing the most powerful attacks.

“How formidable, worthy of being a terrifying freak that could make even Ten Crown King and Ning Chuan vigilant.” Quite a few people’s minds were shaken.

Dang!

The black little cauldron moved, releasing a streak of exceptional radiance, suppressing towards Shi Hao.

Shi Hao’s expression changed. He hacked apart the void, quickly escaping.

Hong!

The little cauldron displayed might, crushing that place, its power unimaginable.

Kuang dang!

The cauldron descended. Divine Dark Child’s primordial spirit shook, falling out.

It was clear that this cauldron had problems, already damaged during the Archaic Era. After displaying this attack, it could no longer be controlled.

Otherwise, if this was an unmatched supreme being cauldron, it couldn't have been brought into Immortal Ancient.

"Where do you think you are going?!"

Shi Hao no longer worried about the Heavenly Country king at his side, abandoning him to chase after Divine Dark Child.

Hong!

The pieces of flesh appeared, rushing towards Divine Dark Child, surrounding his primordial spirit to recombine.

Shi Hao brandished his sword, the radiance exceptional.

Dang!

His objective wasn't a person, but rather that cauldron. The Everlasting Immortal Sword hacked out, seizing it from Divine Dark Child's side, immediately seizing it over.

Chapter 926 - Killing Ancient Freak

"Come back!" Divine Dark Child shouted, calling out to the little cauldron. His flesh had recombined, piecing itself together. This was a mysterious body that had remained since the Archaic Era, undecaying and unbreakable.

That cauldron was silent and still, not moving at all.

"Hahaha..." Shi Hao laughed loudly, the little cauldron propped up by his hand. He revealed a look of mockery. The other party couldn't command this artifact even though he was the master.

In reality, he didn't even try to suppress it, just holding it casually in his hand.

This cauldron really was quite heavy. It looked like it was the size of a fist, but it was heavy in his hands. This wasn't due to the effects of bone texts, but rather that it truly weighed several hundreds of thousands of jin.

"It has always been said that Black Immortal Gold is extremely heavy, seems like this really is the case." Shi Hao said to himself. This was a tremendous gain, this fist sized little cauldron containing unmatched Immortal Gold.

Even if it was damaged right now, its material alone was enough to make the great sects of the higher realms' three thousand provinces turn red with greed, willing to fight wars over it.

Divine Dark Child's pupils contracted. The other party was acting so calm and composed, evaluating this little cauldron as if he was completely being forgotten. This was also a type of humiliation.

His body shone. All types of precious techniques erupted, swirling with auspicious multicolored light. These lights gathered, forming an extremely terrifying sight.

Suddenly, the little cauldron trembled with weng weng sounds, wishing to return to Divine Dark Child's side, as if it had a bit of connection with him.

Shi Hao laughed loudly again. "This cauldron only recognizes that flesh, completely showing disdain towards your primordial spirit. You still have the shame to try and control it?"

This was undisguised mockery! It made Divine Dark Child look extremely bad.

"Since this is the case, I'll just accept it in your place. You aren't suitable for using it." Shi Hao's words weren't polite in the slightest as he spoke. This could be considered a reply to the other party calling him an insect earlier. His face carried a brilliant smile.

"The Archaic Era, such glorious years. Divine abilities, come!"

Divine Dark Child calmly said. He recovered his cool. The space between his brows shone, and then a strange imprint appeared, releasing dazzling radiance.

"Just bring out whatever you have so you don't feel any regret later." Shi Hao didn't seem concerned at all.

Suddenly, he frowned.

"Where do you think you are going?"

Shi Hao disappeared from his original location, rushing forward. His sword hacked out, cutting apart the void, and then he himself entered.

Within the great void cracks, keng qiang sounds ran out in a deafening manner. Symbols rumbled, pouring out like rivers.

Shi Hao fought a great battle against Heavenly Country's king. With the two being so close, his divine senses were incomparably sharp, staring at this ancient freak the entire time.

"Going? You're wrong. I'm just not used to being exposed under the glaring sun. There'll be time to play with you." Heavenly Country's ancient king said. His voice was like a ravenous wolf, exceptionally ear-piercing and terrifying.

"Kill!"

A strange streak of light flew over. The space between Divine Dark Child's brows released light, forming an indistinct little world.

Shi Hao's mind was shaken. In this little world, there were actually ancient graves everywhere, cold and lonely, a desolate place.

"Bury sky, bury earth, bury man!" Divine Dark Child shouted.

When these six words sounded, heaven and earth trembled greatly, as if a some heavenly law was touched. The void produced lightning, rumbling with noise.

In the distance, everyone became stupefied, and then they shivered coldly, a layer of fine white hair appearing on their bodies. It was because this was a legendary secret art that was sinister and terrifying.

“Three Burial Secret Technique!” Someone’s face became white, saying this softly.

This type of precious technique’s power was bizarre, powerful and terrifying, rumored to have buried immortals before, only, for some reason, it was lost in inheritance, rarely seen by people of the later world.

No one expected Divine Dark Child to display it. How could this not leave others feeling shocked?

“Even this type of precious technique appeared. Is this world going to be thrown into chaos?”

Dong!

When facing this attack, Shi Hao didn’t feel any fear, fighting against this enemy head on, stirring on his own supreme being techniques. A thunderous sound rang through the air, as if the drums of the heavens were rumbling.

Peng!

Fireworks immediately shone resplendently, enough to light up all of Gold Spirit Realm.

“This is the Three Burial Secret Method? Nothing special.” Shi Hao laughed loudly in ridicule.

That small world broke apart. All of the ancient graves cracked apart. There were creatures inside, wishing to crawl over and join the battle, but in the end, they all became dim, completely disappearing.

In reality, Shi Hao knew that this technique was terrifying, definitely domineering and tyrannical, only, the symbols weren’t complete, so Divine Dark Child couldn’t fully display it.

That was why it couldn’t display its true demonic might!

Qiang, qiang, qiang...

Suddenly, everything around them trembled. Banners appeared one after another in their surroundings, covering this place and encircling this entire battlefield, trapping Shi Hao within.

Jun Dao appeared. The corners of his lips carried cold intent. “Enough, the preparations have been finished. We can now slowly kill him.”

It was clear that he arrived a long time ago, having Divine Dark Child and the others stall Shi Hao. He distributed the formation bases, magical banners he had prepared beforehand all over the surroundings, locking down everything. The great formations were now in place.

“The world’s number one stone is here, yet you all dare act so impudently?” The Divine Striking Stone appeared, opening its mouth and spewing out all types of multicolored light. It was as if a shooting star flew across, brilliant and beautiful.

Formation banners fluttered about, opposing these great formations with equal harshness.

“Heng, even if some of the formation effects are counteracted, so what? Now that we are all here, you think we’ll let you leave?” Jun Dao sneered. He then looked into the heavens, making amends towards Ancient Holy Child. “We’ll capture Huang first. After the matter, I am willing to offer my sincere apology.”

He also took action, joining this battle, however, he didn't approach, only attacking from the distance.

It had to be said that Heavenly Country's king was too powerful. Even without relying on assassination, just his fighting prowess alone was already terrifying to the extreme.

"Ninety-nine Dao divine ability, come forth!"

Divine Dark Child shouted. He actually broke apart on his own, a bit of his flesh flew off, and after wrapping around his primordial spirit, there were still ninety-nine pieces. They shone brilliantly, all of them rushing over and surrounding Shi Hao.

"Heavens! Several dozen divine abilities were sealed in the flesh, this... what a freak! How is one even supposed to stop this?" Everyone cried out in alarm. What they were seeing was truly too shocking.

These were the sturdiest parts of Divine Dark Child that couldn't be hacked apart, the ninety-nine parts that sealed precious techniques!

Needless to say, his previous life had terrifying origins.

A type of precious technique with each piece of flesh, all of them released in a concentrated manner.

"Hm? Not too hard to deal with. They aren't overlayed on top of each other to increase their power, just using these unordinary flesh to attack the enemy. I'll let you see what true unmatched heavenly technique is like, how to combine different types of divine abilities." Shi Hao laughed coldly.

Then, he activated the Eight Ninth Heaven Art, activating all of his divine abilities to attack those pieces of flesh. This place immediately erupted, completely exploding.

The ninety-nine great divine abilities, even though great in number, they wasn't controlled by someone, but rather instinctively released by the flesh. That was why he could avoid them. n)-Ovelb1n

Even Jun Dao and Heavenly Country's ancient freak withdrew, not wishing to be caught up in this.

Ancient Divine Child didn't come over, sitting at the limits of the horizon, only continuing to chant scriptures, temporarily not taking action.

As a result, his current greatest threat was Heavenly Country's king. He appeared and disappeared unpredictably, difficult to defend against.

"Ancient Holy Child, you still aren't going to take action?" Divine Dark Child shouted.

"Fine!"

Following a rumbling sound, heaven and earth trembled. He still didn't come over, only chanting scriptures there. A mysterious aura surrounded this place.

Nine Heavens Tenth Earth Scripture!

At this time, when this unmatched heavenly technique appeared, endless symbols burned in the void, making this entire world completely different. It was extremely terrifying.

At this moment, there was a nine heavens tenth earth 'Only I am supreme' power spreading, formless and without substance as it surged towards Shi Hao.

“Kill!” Jun Dao shouted, activating precious techniques from the distance.

Silently, Heavenly Country’s ancient freak attacked once again.

“Die!” Divine Dark Child shouted. Four great experts took action at the same time to suppress and kill Shi Hao, the situation incredibly dangerous.

Shi Hao revealed a serious expression. The situation was extremely unfavorable.

His pupils flickered, and soon after, he made his decision. He was going to attack the weakest one first! With a peng sound, the void shattered. He disappeared from his original location, direction rushing at Jun Dao.

The most powerful precious techniques erupted, berserk attacks erupting. The skies began to burn, the heavens distorting, caving in!

Bo!

A snowflake blossomed. Shi Hao suffered a blow, a string of blood drawn by the Nine Heavens Tenth Earth Scripture’s symbols.

However, he suppressed Jun Dao until his expression changed. They continuously clashed, and with a pu sound, he was shaken up until his mouth coughed out blood.

Sou!

Immediately afterwards, Shi Hao disappeared once again, instantly arriving by Divine Dark Child who had reassembled his body and was attacking him, frantically attacking. This was his true target.

Blood splashed out from his shoulder, pierced by Heavenly Country ancient freak’s strange sword energy.

However, he was already in a completely berserk state, displaying all of his methods. His third type of supreme being symbols became more and more clear, engraving themselves on the Everlasting Immortal Sword, its power running rampant.

Everyone became stupefied. Shi Hao was too tyrannical! It was unknown just how many injuries he took on while fighting Divine Dark Child, completely fighting with his life.

“Ah...” Divine Dark Child had many pieces of flesh that were stripped off, forever disappearing, no longer appearing.

They were all his weak points. This time, Shi Hao ignored his unbreakable undying flesh, directly attacking at the important areas.

It was because from the start of the battle until now, he already saw through Divine Dark Child, understanding which areas had already decayed, which areas were still sturdy and unbreakable.

“Ancient Holy Child, Heavenly Country’s king, you all still aren’t going to kill him?” Jun Dao shouted. This was a rare opportunity, yet the two most powerful members weren’t doing all that much.

Heavenly Country's king was always like this, waiting for others to fight first. He only wanted to deliver a fatal blow at the critical time. Meanwhile, the Ancient Holy Child that was chanting scriptures wasn't all that interested in a joint attack.

An intense and chaotic battle erupted!

Pu!

Jun Dao lost an arm. After it was cut off, it directly exploded.

Pu!

Another streak of bloody light could be seen. Divine Dark Child received a serious blow. Right now, there were some areas where bones could even be seen, a bit frightening.

Shi Hao took a huge gamble, taking a serious blow from the Ninth Heavens Tenth Earth Scriptures. He released the final attack, his sword piercing through Divine Dark Child between the brows, and then fiercely shook the sword.

"Ah..." A miserable cry sounded. The primordial spirit between Divine Dark Child's brows shattered.

However, that physical body's instinctive reaction was too powerful, directly struggling free, falling onto the great earth.

"Primordial spirit already pierced through, just the flesh left, can you even keep living?" Shi Hao said with a soft voice.

Chi! Heavenly Country's king launched a hidden attack.

"Suppress!" At the limits of the horizon, Ancient Holy Child chanted scriptures. The Nine Heavens Tenth Earth Scripture erupted, suppressing from all sides.

"Kill!" Even the single armed Jun Dao's expression became grave and stern, frantically attacking.

Suddenly, with a hong sound, the void shattered. The surrounding formations were crushed, the endless void burning, and then splitting apart. The scene was horrifying.

"What is that?" Many people cried out in alarm.

In the void, everything was blurry, but one could still see an ancient medicinal garden. Shocking fragrance wafted out from within.

"Heavens! Immortal Medicine Garden appeared!"

"The ancient medicine garden from the last great era has taken form!"

Everyone sensed that a tremendous opportunity had arrived.

There had always been rumors that the most ancient and mysterious medicinal garden was drifting through the void, difficult to find, but would occasionally take form.

What they were now seeing definitely matched this description.

Shi Hao raised his head, appearing stupefied as well, deeply shaken. It was because he saw a strange scene.

There was no need to describe the medicines, all of them incomparably resplendent, shing incredibly brilliantly. They were densely packed, and the medicinal fragrance was rich. The most shocking thing was that he saw a snow-white tortoise carrying a white-clothed woman.

“Immortal... there’s an immortal!” The others cried out, staring at that ancient and indistinct medicine garden.

Others didn’t know, but Shi Hao knew of its existence for quite some time. He had heard the Void Sky Divine Vine talk about it, saying that this was a long life medicine that originated from the last great era, living all the way until now, hiding within the ancient medicine garden.

Xiu!

Heavenly Country’s king disappeared, entering the void’s chaotic streams to enter that ancient medicine garden.

Ancient Holy Child couldn’t stay calm either, also rushing over.

Shi Hao naturally wouldn’t let this opportunity go. He also rushed into the void chaotic stream.

Hong!

This place rumbled. Experts of all races flocked over, rushing forward together, doing everything they could to enter that ancient Immortal Medicine Garden.

Chapter 927 - Immortal Medicine Garden

“Immortal, the white turtle is carrying an immortal! This is an auspicious omen! There’s actually a living immortal in this world, truly unbelievable!”

Someone spoke while trembling with excitement and rushing forward. There were even more people who already knelt down in worship, shouting loudly towards the unmatched immortal to take them as disciples.”

What they saw made many people feel stupefied. Even the most powerful exceptional talents who previously wished to plunder from the ancient medicine garden recklessly were now a bit scared.

It was because that white clad immortal fairy released specks of light accompanied by immortal mists. Even from far away, they could still feel the immortal dao aura.

“Heavens! It’s not an illusion but real?” Those people were shocked.

In the darkness, even Jun Dao shivered inwardly, staring blankly. He couldn’t help but stop moving, not daring to act rashly.

That tortoise was snow white-like jade, sparkling and translucent, releasing holy radiance. On its back, a snow clothed woman stood tall, her white clothes fluttering about. Her appearance was exceptional, beautiful and perfect. A head of silver hair hung down, her eyes carrying watering mist. A rain of light scattered down around her, making her look extremely hazy, divine and otherworldly.

“We pay our respects to love life immortal!” A few people cried out. Even though they rushed into the great void crack, able to see that medicinal garden, they still didn’t dare approach it. All of them were bowing down to it.

A singing voice sounded, mellow and pleasant to listen to like the sounds of nature. It sounded from within that medicinal field.

The old turtle crawled about, more snow white and translucent than fine white jade, carrying the snow-clothed fairy as she moved. It was incredibly mysterious and unfathomable.

The singing voice made one’s heart feel at peace. All of the killing intent withdrew, everyone’s hearts wavering. Many people’s weapons fell onto the ground.

The voice was melodious. That woman was peaceful, her silver hair scattering about, eyes deep with spiritual essence, her entire being indescribably elegant and refined as immortal mists curled around her. It was as if she would never fall into the world of mortals.

Shi Hao couldn’t help but sigh. Long life medicines truly were astonishing. He had previously seen this type of scene, but the one produced by the Void Sky Divine Vine was far inferior to this!

This truly was like a true immortal, because long life medicine was accompanied by immortal energy, and that was why it was so lifelike, making it hard for others to differentiate.

After a short moment of being greatly moved, Shi Hao calmed down. This wasn’t the first time he saw this type of medicine; he had seen one before in the lower realm. It was known as the First Spiritual Root.

That stalk of long life medicine had three flowers, one of the flowers able to turn into a little person, sitting under the medicine body to comprehend the dao, another turn into a weapon that suspended above the little person’s head, releasing dao sounds. The last flower was mysterious, its effects unknown even now.

“This is the second stalk of long life medicine I’ve encountered. I wonder if I can get close to it.” Shi Hao’s eyes flickered with brilliance.

He knew that even if he discovered it, he still might not be able to obtain it. This type of thing was intelligent, living since the ancient times. Even though it didn’t have terrifying battle strength, its escaping methods were exceptional.

It could fly through the sky or escape through the earth, difficult to catch.

Chi!

Ancient Holy Child moved. He didn’t stop here, only watching for a moment. He then rushed into the ancient medicine garden that was left behind from a great era, wishing to break in.

It was clear that the ancient kings weren’t that affected. Their figures swayed, and then they disappeared.

“How could they be like this, not even treating an immortal with respect?” There were some who became shocked, revealing looks of confusion.

The most powerful group of exceptional talents' eyes contracted, their minds realizing something. There were some who carefully thought and observed it, and then quite a few people moved, losing their heart of reverence.

"I know what it is! This is a legendary long life medicine, a supreme spiritual root only the most powerful immortal can possess!" Suddenly, someone spoke up, revealing the truth.

In that instant, many people were stunned, feeling a bit stupefied.

Soon after, some who were knowledgeable about ancient history, understanding medicinal herbs were shaken up. They woke up, saying, "It really is a long life medicine! There was a stone tablet unearthed from the last great era that had damaged recordings regarding its existence!"

"Tortoise carrying immortal, heavens, it really is that medicine, is this world going mad? Even something out of a legend appeared?!"

"White tortoise carrying immortal, known to not fall under ten thousand disasters, eternally undecaying, possessing long life, it actually really appeared before man again!"

When this sentence sounded, the crowd who were quiet erupted into noise, swarming into the great void crack like a flood, heading towards that ancient medicinal garden.

Everyone's eyes became red. There were no immortals in the world, nothing could be undecaying. Now that an unmatched wondrous medicine that could grant one long life appeared, who wouldn't be moved?

If they truly ate this medicine, they could shine with the sun and moon, exist with heaven and earth, impervious to ten thousand disasters, from this become undying.

Forget about then, even if the giants of the higher realms obtained news about this, they would fight to the death, struggle bloodily to the end. One could imagine that if this stalk of medicine appeared, it would be enough to throw all three thousand provinces into chaos. Blood would flow like rivers, corpses piled high like mountains.

Fortunately, it was inside immortal Ancient, only those present able to fight over it.

Pu!

Suddenly, more than ten cultivators silently split apart, blood scattering outwards, the areas where their bones separated incomparably smooth, as if a blade had chopped through tofu.

"What is going on?"

This triggered huge panic. They didn't even see any enemies, yet more than ten experts died.

"Heavenly Country, is it Heavenly Country's king that is taking action?" Someone trembled, suspecting this to be a possibility.

"Heng, if you don't understand, then don't speak randomly. My family's great one has long entered inside, not even here." Someone spoke, taking form in the void, appearing behind a person's back. With a pu sound, his head tumbled down.

"If you have something to say, then just say it. Why does dao friend have to act so viciously?" There were quite a few people on the side who couldn't continue watching this. Heavenly Country was just too domineering.

"An idiot like this, even if he entered, would still die. Instead of waiting, I might as well send him on his way." That figure became indistinct, his voice indistinct. Then, he vanished from his original location.

"It is caused by the void's chaotic streams, forming chaotic blades. Everyone, be careful." The one who voiced unfairness reminded the other cultivators, but in reality, many people already became aware of this.

Chi!

Sword radiance appeared from the void, incredibly sharp as it attacked at the one who was speaking.

It was clear that the bleeding divine blade belonged to Heavenly Country, feeling quite unsatisfied towards that person's objection, wishing to kill him here.

Pu!

Bloody light flashed. That person evaded, only his arm injured. He shifted out several dozen zhang and angrily shouted, "Does your Heavenly Country really believe yourselves to be the rulers of the world?"

"At the very least, we can determine your life and death here. People like you don't have the qualifications of entering and causing inconvenience." Cold words sounded again.

Many people became angry, staring into the void, but they didn't dare voice their anger. Otherwise, it would be them who was next.

"Noisy! Even a jumping clown dares to act domineeringly, committing outrages. Get lost!"

In the void, a cold voice sounded. A youth walked over, in his hands the Everlasting Immortal Sword. He lightly swept over.

All souls trembled, because the one who appeared before them was Huang. Just now, he fought against several ancient freaks alone. Even though he was wounded, that kind of divine bravery left many people terrified.

Since he came, would he be scared of a trifling assassin? Not even their terrifying boss could kill him.

Heavenly Country's assassins weren't that many left in number. A large half of them had been killed by Shi Hao. when this person saw Shi Hao, his expression naturally changed.

He wanted to evade, but he discovered that his body couldn't even move. That sword brandished over, affecting the void, turning this area into a domain that locked everything down!

Pu!

His head flew, primordial spirit erased, his headless corpse carrying large amounts of blood as it fell.

Everyone stood there in a stupefied manner. A powerful assassin like this unexpectedly couldn't move, killed by Huang just like that. Just how terrifying and extraordinary was he?

The battle between kings earlier was something that everyone still couldn't deeply understand, but now they understood. They weren't even on the same order of magnitude as Huang, the difference too great.

After cultivating a strand of immortal energy, it meant that one would transcend above. For others, this was not a power that could be matched!

"The void here is unstable with many hidden cracks, releasing great void gaps from time to time. Even true deities would be hacked apart alive if they entered. As for whether or not to give up, it is up to you all to decide." Shi Hao reminded. Then, with a flash, he disappeared from this place.

Everyone looked at each other in dismay, feeling hesitation.

Ah...

Miserable cries sounded up ahead.

There were more than fifty people who were chopped apart at the waist. Then, another streak of great void cracks hacked down, dicing them up into pieces, not a single person able to survive.

They felt a chill run down their bodies from head to toe. Even though the Immortal Medicine Garden was right in front of them, even though their eyes were burning with greed, it was still too dangerous. Every step they took would be made in fear, hard to make it through.

"We... should still leave. Nothing is more important than our own lives!"

There were many people who backed off, rushing out without even turning around. It was because they were scared that if they hesitated, they might not be able to resist the temptation.

Of course, there were some that clenched their teeth, choosing to continue forward. It was because Immortal Medicine Garden was just too alluring. Even though they knew that they might die, they still wanted to take a gamble.

What if they managed to succeed? That would be tremendous natural luck!

The divine herbs and other things were shining brightly, just too resplendent and dazzling. In addition, there might be more than one long life medicine.

This was an island that was suspended in the middle, drifting along with the void's chaotic streams. It was unknown just how long it had existed for.

However, not even the void's great cracks could injure it, all types of symbols protecting it, not allowed inside.

The surface was verdant and lush with beautiful purples and brilliant reds, all of the unordinary plants incomparably brilliant and flowing with bright colors. They released auspicious multicolored light, exceptionally divine and dazzling.

Chi!

A silver line appeared, brushing past Shi Hao's body, hacking off a strand of his hair. This place was just too dangerous, even someone as powerful as him only narrowly avoided dangers.

He was already approaching the island, but it became more and more dangerous. The void was unstable, some of the rushing chaotic streams comparable to an attack from heavenly deities. This made his expression change!

The Divine Striking Stone said, "This is power that gushed out from different dimensions, what kind of blasted place is this? It is connected to endless dimensional spaces!"

"Definitely something arranged by a powerful individual from the last great era. How can others be allowed to easily approach a place like this? That individual must be borrowing the power released by dimensional space to obstruct others." Shi Hao said.

The Divine Striking Stone nodded, and then became overjoyed. "Yi, nothing can resist the corrosion of time. The arrangements here are all over the place, an absolute mess."

"Something's wrong. There was a battle that happened, the blastwaves entering this place, consequently destroying the arrangements here." Soon after, it came to this conclusion.

Shi Hao frowned. After arriving here and getting close to the Immortal Medicine Garden, he saw corpses float in the void one after another, drifting along with the garden.

These creatures were of all different forms, because there was nothing else in the void, only icy coldness and darkness. It could freeze these corpses, and that was why many of them were preserved until now.

"Heavenly deity?!"

Shi Hao was shocked. He saw the corpses of natives here, these bodies definitely reached the Heavenly Deity Realm.

"There are even more formidable ones!" The Divine Striking Stone said, its expression becoming grave. However, it then said, "Not much to worry about though, they've been left behind from countless years ago. The formations here have all pretty much been ruined."

Shi Hao produced a magical artifact. A bone blade flew out, but as soon as it approached, the true deity level bone blade was crushed apart, nothing left behind after experiencing the chaotic stream's attack.

"This is a dangerous place as expected..." Shi Hao's expression changed.

"There are many weak places where we can break in from. Look, there's corpses on that island as well, meaning that there were those that previously entered." The Divine Striking Stone said.

Shi Hao nodded. He began to search for a place to land together with the Divine Striking Stone.

They moved around this island. Shi Hao also opened his Martial Dao Heavenly Eye, seeing through all things fabricated, but there were still dangers several times, experiencing brief encounters with the grim reaper.

"There are several places where we can go ashore. This route is comparatively safer." The Divine Striking Stone said, hinting ahead.

It advanced carefully with Shi Hao, and in the end, they broke through the blockade of spatial chaotic streams, successfully landing on the island!

"There are so many medicinal herbs! There are so many divine ancient trees!" As soon as they arrived, even Shi Hao's eyes were about to stand up straight.

"Ten Thousand Poison Tree?" The Divine Striking Stone was shocked, staring at an ancient tree.

"No, that's an ancient Heavenly Deity Tree, rumored that its fruits would immediately allow one to become a heavenly deity!" Shi Hao was shocked.

Holy medicines covered this island. Spiritual essence wafted into the air, auspicious multicolored light surged. It was extremely brilliant.

He saw an ancient tree between the trees. There was unexpectedly heavenly deity aura here! However, it disappeared with a flash, soon after concealing itself again.

"These medicinal fields can move?" The Divine Striking Stone was stunned.

"It seems like that ancient tree can run!" Shi Hao said.

That tree was like a dragon, its ancient roots upright and strong, tree bark cracked like dragon scales. The entire tree was a greenish jade color, radiance rushing into the heavens. Only, it immediately ran.

"Be careful, dangers lurk with every step." Divine Striking Stone warned.

As for the long life medicine, it had even more so long disappeared. That type of thing was exceptionally sharp, extraordinary and refined, difficult to capture.

"Heavens, Heavenly Phoenix, the legendary Undying Phoenix!" Suddenly, the Divine Striking Stone cried out. It was the one warning Shi Hao just now, yet in the end, it was the first one to lose its cool.

"Phoenix nest?!" Shi Hao was also shocked.

An ancient nest rested right in front of them, standing tall on the stone cliffs. There were phoenix void images swirling about, phoenix blood energy rising in spirals. That place was mysterious and unfathomable.

The Divine Striking Stone immediately became excited, crying out, "There might be Phoenix Bloodstone, supreme treasure! Wait, don't tell me that there is a phoenix egg inside... otherwise, why is there this type of auspicious phenomenon? We're rich!"

Chapter 928 - Phoenix Nest

There was unexpectedly a phoenix nest in the ancient medicine garden!

Forget about them, even the most powerful individuals of the three thousand realms would be stupefied if they came here.

"Not easy to deal with. It looks close, less than a few li, but if we really try to enter, it might be nine deaths one life." The Divine Striking Stone quickly calmed down, no longer being so agitated.

They understood clearly that this medicinal garden was extremely dangerous. Even though the formations from back then have pretty much been ruined, it still wasn't a place ordinary people could carelessly enter.

Shi Hao didn't say anything, only staring forward.

Several li out, medicinal herbs gathered densely, radiance pervading the air like watery mist. There were small mountains that weren't tall, less than several hundred zhang. The stone mountains were a dark brown in color.

The ancient nest on the cliff was created from Phoenix Feather Wood. This was not some weeds birds often used to make a nest, but rather a rare spiritual wood, something that had already gone extinct.

This wood produced five colored brilliance, flickering about just like phoenix feathers. However, the passage of time erased everything. This wood became dim, but it still didn't decay.

This in itself was enough to explain how extraordinary it was! n..Ove**l**In

There were many spiritual herbs around the ancient nest, and even more holy medicines were directly rooted in the immortal nest. Radiance overflowed, pouring out like water.

Shi Hao couldn't help but sigh. Immortal Ancient was unordinary after all, the spiritual essence too rich, especially this Immortal Medicine Garden, with everything that should be here being here.

Compared to this place, the lower realm was just too barren. He had previously visited the Kun Peng's nest, a place also full of medicinal herbs, but they were all spiritual medicines. Back then, he felt incredibly shaken. However, compared to the higher realms, the spiritual essence down there was just too sparse. If it had even half of this heaven and earth's essence, all of the spiritual medicines there would probably have evolved into holy medicines.

The rumors that experts were like clouds in the higher realms was not without reason. A large portion of it was due to the environment.

"Yi, there's a stalk of divine medicine!" Shi Hao was shocked. He saw a stream of flowing light flash past; it was just within the cliff crack next to the nest.

Long life medicine, Heavenly Deity Tree, divine medicines, this medicine garden had too many good things, to the extent where Shi Hao even began to doubt if there was more than a single stalk of long life medicines. There might even be a few!

"Fight for it... catch one stalk!" He turned around to look at the Divine Striking Stone, but he discovered that it was covered in sweat.

He rubbed his eyes, making sure that he didn't see incorrectly. Beads of sweat poured down from the Divine Striking Stone's body. He reached out his hand to touch it, discovering that it was all sweet smelling stone milk, a rare precious liquid.

"Yi, you can even produce milk, in the future, fill ten gourds for me!" Shi Hao wanted to exploit it.

"Don't provoke me!" The Divine Striking Stone was furious. It was staring at the road ahead, currently trying to think of a way through, already on the verge of collapse. Even as a stone, it began to 'sweat'!

Even though the formations here were incredibly tattered, they were still terrifying. The Divine Striking Stone already felt a bit crazy after figuring out just a small bit, the mental drain severe.

“Already completely ruined, generally speaking all destroyed, quite thorough,” said the Divine Striking Stone.

“Isn’t that great then? We can just directly enter then.” Shi Hao said.

“Even though these ruined formations are pretty much completely destroyed, don’t forget what kind of place this is, who it is that arranged the formations. These are all ancient formations that exceed everything the two of us have seen....” The Divine Striking Stone said with a sigh.

It was because what previously rested here was an unmatched taboo formation, a true immortal dao ancient formation that transcended above all else. Once one entered inside, a single mistake would result in eternal damnation, even though it was already pretty much destroyed.

Shi Hao frowned. This was quite troublesome. The formations might not necessarily contain great destructive force, but trapping and erasing the two of them still shouldn’t be too difficult.

“Not a formation from this great era at all! Even I feel completely helpless.” This was the first time the Divine Striking Stone felt so helpless.

It was trying to analyze this place, but the best way it found was as dangerous as dangerous could be, while the worst one was death after just a few dozen steps.

“Let’s try to think of another way.” Shi Hao said.

“Wu, there’s an ancient method called the Formation Scout Technique.” The Divine Striking Stone said after thinking for a long time.

“And this is?”

“It is for us to leave first, and then use wondrous formation banners to trigger this ancient formation, probing around to see if the path really is safe,” it said.

Formation Scout Technique was something that only worked on damaged formations. It was completely useless before true, perfectly intact formations.

However, this wasn’t without dangers. If the one who laid this formation had a ruthless heart, it would similarly prove fatal.

When Shi Hao heard this, he directly shook his head.

“How arrogant and proud are immortals? I don’t think they would do that. As long as someone breaks through their formations, that means that one should be able to calmly enter,” said the Divine Striking Stone.

The formations here were already damaged and could be considered broken through. Even though it wasn’t the two of them who took action, the Divine Striking Stone still suspected that there shouldn’t be any nasty arrangements.

“Formation techniques rely on the heart,” said the Divine Striking Stone.

“Then that’s good, let’s be careful,” said Shi Hao. He had a serious expression on his face, bringing out the Ten Thousand Spirit Diagram, acting extremely carefully.

Ever since he entered Immortal Ancient, he had encountered quite a few dangers as well, but he rarely used this item. Only when he was dealing with the mysterious flute playing male did he use it back at the vicious nest.

“Formation Scout Technique is something I discovered from pieces of rotten stone. I never used it before, so I don’t know if it will be effective or not,” said the Divine Striking Stone.

When Shi Hao heard this, dark lines covered his forehead. This fella didn’t seem all that reliable...

The Divine Striking Stone refined formation banners. Shi Hao and itself had just too many divine materials on them, not worrying about materials at all. An hour later, several hundred small banners were refined.

Shi Hao and the Divine Striking Stone escaped, leaving the island, standing between the void chaotic stream.

These several hundred little banners seemed as if they grew legs, all of them moving. They followed a small path into the True Phoenix’s nest. Of course, the paths they walked were all routes the Divine Striking Stone had already analyzed.

Chi!

After entering just a small distance, the little banner at the very front broke. A strand of sword energy rushed into the heavens, triggering the symbols in the void. They interweaved into a web.

“As expected, even the sky is covered. This is a space restricted domain, cannot be crossed.” The Divine Striking Stone’s expression became serious.

As time went on, streak after streak of divine radiance rushed up, shining incomparably brilliantly. Even though the sound wasn’t that loud, it could definitely kill heavenly deities. Those fluctuations made others’ heart rate speed up.

Shi Hao’s expression changed. In this short amount of time, they already lost nine little banners. If it were people that went in, it would mean that there were nine deaths.

The remaining little banners changed directions, continuing forward, the distance between each of them great. From the distance, they looked like a dragon.

In the end, this place could not remain peaceful. Even chaotic mist was drawn out, lightning rumbled, as if heavenly judgment was descending. All types of symbols flickered.

The Divine Striking Stone was green in the face. They called these ruined formations, that not a single one was intact, yet it was still so terrifying.

Of the several hundred little banners, more than half had already been lost!

If it wasn’t because they had the Formation Scout Technique and entered as it had previously planned, even if it was given several hundred lives, it still wouldn’t be enough.

“Even if we had several hundred opportunities, we would still be dead...” Shi Hao sighed.

In the end, when they only had the final few formation banners, they reached the end, producing a safe path.

“Go! The opportunity has come!” The Divine Striking Stone said excitedly.

When they arrived on the island again, they suddenly discovered that there was someone waving towards them. It was precisely Xue Lin. The silver-haired young lady’s body was tall and slender, incredibly beautiful.

“This place is extremely dangerous!” Shi Hao transmitted sound.

“I know, but I feel like there is something inside that resonates with me. It makes my phoenix blood stir,” Xue Lin said.

“Let her come, she might be essential to entering the phoenix nest,” said the Divine Striking Stone.

Xue Lin had phoenix blood flowing through her, her background extraordinary. This type of species was ancient and mysterious.

Shi Hao frowned. He feared that Xue Lin might bring more dangers, but when he saw her continuously wave her hands, in the end, he agreed, bringing her with the Divine Striking Stone.

They gathered together, entering one behind the other along the path they had previously deduced. Every single one of them picked a whole basket of holy medicines, radiance surrounding them, making them all brilliant. Medicinal fragrance wafted through the air.

Soon afterwards, they arrived below the short mountain.

This mountain didn’t have formations, but they didn’t dare rashly ascend it. It was because the phoenix nest was too extraordinary, surging with multicolored clouds, producing phoenix void images that circled about.

“Silver, use a bit of blood. I am going to arrange a Blood Guidance Formation to give it a try,” said the Divine Striking Stone.

Peng!

Xue Lin’s temperament was noble, normally extremely graceful, but right now, it slapped outwards, sending it smashing into the ground.

“I was wrong! Phoenix lady Xue Lin, please provide us with your assistance! This is the nest of a True Phoenix, I need to use your blood to scout around!” The Divine Striking Stone grimaced in pain.

In the end, Xue Lin offered a bit of blood. It was smeared over a few formation banners and then sent towards that ancient nest.

Weng!

This nest lit up. All types of symbols rushed out, leaving them stupefied. They simply didn’t have time to react! They swept over along the formation symbols created from Xue Lin’s blood.

"We're finished, kicked a metal board! I don't want to die! I still have a great secret, actually, I am..." The Divine Striking Stone cried out miserably.

Suddenly, they were wrapped around by the symbols, not dying, but instead quickly brought into that ancient nest.

This nest wasn't all that enormous, only a thousand zhang or so in length, and it wasn't like how Shi Hao had expected it to be with pavilions and buildings, but just purely a bird nest.

However, there were good things inside. There was a five-colored dao stage less than three foot tall that directly moved Xue Lin over, having her sit on top. She couldn't move at all.

"I feel the blood calling out to me! I am going to enter a state of dao comprehension." Xue Lin was incredibly shaken. This didn't make any sense. Right now, her heart wasn't calm, yet she seemed to have developed new insights into the Phoenix Clan's precious technique.

She immediately closed her eyes, her entire body now shining. The inheritance in her blood, the imprint fragments that her ancestors left behind flickered about one after another like stars, making her snow-white body shine brilliantly. Then, phoenix flames surged, fiery light surrounding her.

"Phoenix Bloodstone, there really was this type of thing! Aowu..." The Divine Striking Stone cried out with joy. It saw several pieces of stone that were dark red like blood. Mists rose in spirals from them.

It was rumored that the places where phoenixes resided had this type of wondrous stone. They were originally used by young phoenixes to sharpen their beak, but over time, they became dyed with their aura. In addition, when phoenixes evolve, it would oftentimes be quite intense, the rebirth process shedding feathers and blood. When they landed on these rocks, this type of thing was formed.

There were four pieces in total, all of them scarlet red like jade.

These were, without a doubt, great treasures, things that could be refined into precious artifacts. They had immeasurable bizarre power.

The Divine Striking Stone was scared that Shi Hao would fight it over them, loudly crying out, "I want to cultivate immortal energy and take that step, don't fight with me over them!"

Then, it devoured them in one gulp, choking until its eyes began to roll back.

"You good for nothing!" Shi Hao wanted to kick his ass, feeling great disappointment in it. Who had ever heard of a stone weapon taking that step?!

With a chi liu sound, the Divine Striking Stone dodged.

Shi Hao felt helpless, in the end gathering all of the holy medicines in the phoenix nest. Then, he discovered a metallic glint shining within the nest. He quickly walked over.

Within this nest formed from Phoenix Feather Wood, between the cracks of this spiritual wood, Shi Hao discovered a feather!

This left him greatly moved. He picked this up, but he couldn't see anything special about it. Even though it was five-colored, there weren't any symbols flickering about.

However, when Shi Hao moved it, it blasted apart the void, the scene terrifying!

He gasped. Truly worthy of being from a phoenix, a single feather that came from its body like this. It truly was a bit inconceivable!

"If this was refined into a Five Bird Fan, then the power might be truly terrifying..." Shi Hao said to himself.

Xue Lin was comprehending the dao, her body motionless. One could vaguely see the phoenix void images formed from the nest's multicolored mists unexpectedly circle around her, in the end even entering her body.

Shi Hao didn't disturb her. He arrived at the entrance of the nest, standing at the top of the short mountain to survey the Immortal Ancient Garden.

"Yi?" He saw the Heavenly Deity Tree. It wasn't that far away!

Apart from this, between the cracks of this short mountain, a streak of divine light flashed. There was a stalk of divine medicine there, the one that he had caught a hurried glance at before.

Before Shi Hao had time to think about his next plan of action, it unexpectedly transmitted sound, saying, "My family's great one wishes to have a chat with you."

Shi Hao was stunned. This medicine was talking to him? There was a master behind it? Who was it that made it recognize a master?

"Who is your family's great one?" Shi Hao asked.

"Tortoise Immortal great one asked me to pass this message." This stalk of divine medicine transmitted.

"White tortoise carrying immortal?!" Shi Hao's face immediately looked like that of a ghost's. It was unexpectedly a stalk of long life medicine! It was like people, wishing to have a chat with him?!

Chapter 929 - Summon

A stalk of medicine was being referred to as 'great one', and it wished to have a chat with him. This left Shi Hao feeling completely shocked!

"Where is it? What does it wish to discuss with me?" Shi Hao asked.

Specks of dark light shone below the mountain. This 'messenger' was quite extraordinary, enough to attract sighs of astonishment. This was a world shocking divine medicine that looked like it was made of black gold. Its nine leaves were extremely long, every single one like phoenix plume feathers.

"My family's great one resides by the immortal spring, wishing to meet you face-to-face." The divine medicine transmitted sound. Of course, it was different from cultivators. It only released a strange ripple, but others could sense its meaning.

This thing was comparable to Goddess Academy's Tribulation Crossing Divine Lotus. They were both rare divine objects, enough to make all sects' eyes red, yet now, it was a 'little bro', just here to deliver a message.

Shi Hao's eyes were indistinct, thoughts running through his mind. If he could control this medicine garden, just how many good things would that be? Any stalk of medicine would be enough to trigger a commotion in the outside world!

"You... what are you thinking about?" The black golden divine medicine broke out into a cold shiver. As a heaven and earth spiritual root, it was the most sensitive type of existence. It suddenly felt a bit of chilliness.

"Nothing. Your family's great one is too far, can you have it come over here?" Shi Hao asked. He felt that the 'White tortoise carrying immortal' taking the initiative to find him might not be a good thing.

Long life medicine was extremely hard to capture, something that could move through the sun, moon and void, but its true fighting strength wasn't great, only able to escape.

"Don't tell me that you want to guide me into some dangerous place, right?" Shi Hao muttered inwardly, not becoming careless because of news of a great natural luck.

"My family's great one occasionally gets wind chills, so it cannot move or set out." The Black Prosperity divine medicine said.

Shi Hao gave it a look of disdain. A stalk of medicine getting wind chills? Who are you trying to fool?

Even the Black Prosperity divine medicine itself felt that it was a bit ridiculous. After an empty cough, it said, "Cough... it's like this, we are all medicinal herbs, so we naturally feel some fear towards outsiders, scared that we'll be picked. That is why we have to be on guard, not daring to leave the residence too far.

"What is going on?" After devouring the four Phoenix Bloodstones, the Divine Striking Stone's stomach was all round, directly rolling its way over, appearing at the entrance of the phoenix nest.

"Can we head further inside?" Shi Hao asked. His heart was itching. A long life medicine was wobbling right in front of him, inviting him to meet with it, so he really didn't want to miss out on the opportunity.

"It's a bit difficult. This island is too mysterious, with true immortal dao formations. With my skills, there's no way we can enter the innermost depths. Even these damaged formations can kill heavenly deities and others." The Divine Striking Stone said with a sigh, rarely displaying a bit of humbleness.

When Shi Hao heard this, he entered a momentary silence. Living was the most important thing. Heavenly treasure, even though they were excellent, were only good if one was alive to use them.

"Forgive me, but I cannot go with you. This island has the formations of an immortal, so I do not wish to randomly throw my life away." Shi Hao said.

"There will definitely not be anything that will happen to you. There are only benefits for you this time. My family's great one only wishes to have a chat with an outsider, the decision to choose you is a great opportunity." The Black Prosperity divine medicine said.

"Many thanks for favoring me, but I must apologize. I cannot go!" Shi Hao was quite resolute, not wishing to risk dangers out of fear of losing his life.

The Black Prosperity divine medicine immediately felt urgent when it heard this. “Do you know what is in the depths of the island? There are immortal dao magical treasures, long life things, exceptional medicines scattered about. Any one of them will bring you great benefits for the rest of your life!”

When Shi Hao heard this, he revealed a look of shock, becoming even less anxious. He was the one that wasn’t going, so why did this divine medicine become the one that became anxious instead?

“If you are worried, I am willing to become a hostage, staying by your side. There’s no need to feel worried then, right?” The Black Prosperity divine medicine said seriously.

Shi Hao was a bit speechless. It was actually going to serve as a ‘hostage’.

“What exactly is it, for it to go this far?” He asked, feeling more and more curious. A stalk of divine medicine that could make the eyes of the great sects of all three thousand provinces red unexpectedly assumed this type of stance. If the outside world knew of this, they would definitely become extremely jealous, at the same time feeling shocked. When did a divine medicine ever act this aggressively?

Shi Hao didn’t say anything. He continuously stared at it.

When the Black Prosperity divine medicine saw this, it became more and more pressed, saying, “There aren’t many opportunities! This island won’t stay here for a long time, it will return into the void’s chaotic streams!”

In addition, it added, “How about this? If you still feel misgivings, then the Heavenly Deity Tree can also be used as a hostage. There’s nothing to worry about then, right?”

This time, Shi Hao was a bit moved, and even the Divine Striking Stone was stupefied. Meanwhile, Xue Lin had just woken up from the five-colored dao platform in the phoenix nest. She was also incredibly shocked.

The fruits it produced could immediately create a heavenly deity. If a great sect watched over this tree and collected its fruits, it would definitely become extremely prosperous!

However, as soon as the Black Prosperity divine medicine’s words sounded, the distant tree swayed, an old tree scampering off frantically, shouting noisily, “It has nothing to do with me!”

The tree was a bluish green jade in color, as if it was sculpted from divine jade. Green multicolored light rushed into the sky. It was upright and strong, its roots moving about on the ground like tentacles. It was running away like a traitor.

“You... actually betraying great one, not listening to her summoning!” The Black Prosperity divine medicine was angered to the extreme.

“Little Black, don’t dirty me with your words! I am not betraying great one, I just don’t see that youngster as some good person. I fear that after we are captured, we’ll immediately be stolen. They’ll run faster than rabbits, not willing to meet great one at all!” That old tree spoke with a muffled voice.

Shi Hao was speechless. He opened his mouth, wishing to say something, but in the end, he still didn’t. He really did have those kind of thoughts inside, always feeling like there was a trap up ahead, that it wasn’t too reasonable. If he could capture a heavenly deity tree and a stalk of Black Prosperity divine medicine and then immediately run, then there was no reason to risk things here.

“Yi, it’s injured?” The Divine Striking Stone saw that despite being upright and strong, that ancient tree’s trunk had a part that had a hole bore into it, almost causing it to split apart. There were natural laws flickering.

“Correct. It had been injured before. Otherwise, the Heavenly Deity Tree will be different from other divine medicines, possessing powerful strength!” The Black Prosperity divine medicine was extremely straightforward as it spoke.

“Forgive me for leaving first.” The old tree didn’t stay here, feeling that Shi Hao was dangerous. It disappeared, stirring up multicolored lights along the way, all of them released by holy medicines.

This was almost a bit dreamlike. Stalks after stalk of divine medicines appeared, and they were able to talk to people. This didn’t seem real.

This didn’t seem like a medicine garden, but more like a sect.

This white tortoise carrying immortal was extremely unordinary. What exactly did it wish to do?

“How can it come and go from the medicine garden, walking free and unhindered?” Shi Hao wondered.

“This is due to the methods of the immortal, only dealing with outsiders. It won’t bring the spiritual plants inside any harm. It really is unimaginable.” The Divine Striking Stone said with a sigh.

Shi Hao was truly confused. He thought things over again and again, in the end deciding to agree, following the Black Prosperity divine medicine into the island.

The Black Prosperity divine medicine had intelligence. As a stalk of divine medicine, he believed that it definitely wouldn’t treat its own life as a joke. In addition, these types of divine spiritual roots normally weren’t of the malevolent sort.

“Are you really going to take the risk?” The Divine Striking Stone was confused, staring at him. It felt that Shi Hao was normally extremely slippery and lowly, someone similar to itself. Why did he suddenly act on an impulse?”

“It’s fine, wait for me to come back.” Shi Hao said.

“Whatever, I want to take a look too, see how the white tortoise carrying immortal really thinks,” said the Divine Striking Stone. It wasn’t that it didn’t fear death, but after thinking for a bit, decided that they could proceed as well. After all, Shi Hao still had some things on him, for example, the Ten Thousand Spirit Diagram and other things. If there really was danger, they might be able to display some strange effectiveness.”

Shi Hao turned around to Xue Lin and said, “Don’t come with us and wait for us here.”

She nodded and said, “Alright, if you all are in danger, I’ll ignite the phoenix nest and raze this place to the ground!”

This nest was extraordinary and exceptionally shocking. There were symbols within it. Only those with the Phoenix Race bloodline could feel at ease here. Otherwise, normal people couldn’t even go inside.

“Focus on comprehending the dao, we are leaving!” Shi Hao said.

This was definitely a wonderful place, containing immeasurable meaning for Xue Lin. To be able to appear here would affect her for the rest of her life!

"En, I'm going to go into seclusion." Xue Lin nodded.

In the end, Shi Hao didn't have the Black Prosperity divine medicine call over another stalk of divine medicine, instead following right behind it.

"You understand the formations here?" The Divine Striking Stone asked with amazement. The spiritual herb being able to come and go through this place was one thing, yet it could bring them around too.

"My family's great one understands. This is something that it had previously taught us." The Black Prosperity divine medicine said.

Along the way, aside from the great medicinal fragrance, there were all types of mists, as well as collapsed palace halls. There were even waves of immortal energy wafting about, leaving others greatly shocked!

"What a great place! This might be the only immortal historical trace left!" The Divine Striking Stone sighed with amazement.

Only, those regions were too dangerous. It actually saw some formations that were relatively intact, and that was why there was immortal dao energy pervading the air.

This trip felt like something out of a dream. From time to time, they actually had to go through gates of light, other times through void passages. This island was clearly extremely shocking.

Only after a long time had passed did they approach an ancient land.

Beast roars could vaguely be heard from the distance, shaking up that entire region until the sky cracked!

"This... what kind of strange place is this?" The Divine Striking Stone was shocked. That ancient beast really was too powerful! However, why didn't they hear its voice in the island outside?

Zheng zheng zheng...

Then, sword energy rushed into the heavens, every strand of immortal energy accompanied by another strand of immortal energy. It was incredibly terrifying, making one shiver with fear. That type of power was too great.

They vaguely saw small worlds being destroyed by the sword energy rising upwards!

"This can't be real, right?" The smile on Shi Hao's face was a bit rigid.

"Don't treat it as real, but don't treat it as fake either. Who knows what else there is inside those remains? However, back then, the sword energy was much stronger than it is now. When a streak landed, it really could hack apart a large world!" The Black Prosperity divine medicine said.

They finally arrived. Everything ahead was hazy, chaotic mists drifting over from above the flowers and plants, making this place appear incredibly mysterious. In addition, there were a few broken bluestone paths and damaged buildings, giving one a feeling of passed time.

"We've arrived. My family's great one is over there." The Black Prosperity divine medicine spoke, hinting forward.

White mists surged, as if they arrived in an immortal's home.

"If I may, why did you ask to meet?" Shi Hao asked.

"All things will wither away, the world soon to fade away. Everything will come to an end, entering eternal darkness, all the way until the reincarnation of a new great era is established." These words sounded from within the white mists, carrying an ancient aura, as well as a sorrowful sigh.

Shi Hao was stupefied. Why did the other party bemoan the state of the universe when he just came, speaking these types of words?

Chapter 930 - White Tortoise Carrying Immortal

"What exactly are you trying to say?" Shi Hao asked. He was momentarily stunned, but he didn't truly lose himself.

"This world will soon no longer exist just like the last great era, everything reaching its end like a reincarnation. Even if a new great era is opened, when the time comes, it will still reach this step, eternally sinking into darkness." A sigh sounded from within the mists.

"Why did you seek me out?" Shi Hao asked. Even though there were great waves stirring within him, he still looked calm on the surface.

"You, me, and many others wish to continue living. The reason I sought you out is nothing more than this." The long life medicine said.

"And by finding me, the problem will be solved?" Shi Hao didn't believe it.

"I merely wished to establish some good karma, as well as ask you to be magnanimous, letting a few wondrous medicines on this island go. There are some that have the opportunity to become divine medicines. It truly isn't easy to do so."

Divine medicines were too rare, their existences countable. There were extremely rare treasures.

A light breeze blew over. The chaotic mists up ahead scattered, revealing the true scene. Brilliant light surged. Shi Hao's eyes immediately stood up straight. What was that? It was a place of All Life Earth!

He had previously obtained a bit of this precious earth from within a pot inside Jun Dao's cavern, stored within was this type of unmatched precious earth. Just that little pot alone was enough to make the little rabbit roll all over the ground in excitement, saying that she was going to use that to achieve the dao.

However, it now looked like an entire area of a zhang was covered in this type of earth. They were like sand, each granule sparkling. There was chaotic energy all around, and heaven and earth foundation essence gathered over as well.

"I never never completely destroy them, always saving the seeds after picking holy medicines, the roots left unharmed as well." Shi Hao replied, his eyes not blinking as he stared at the earth.

This was definitely heaven shocking great natural luck. This All Life Earth could be used to do many heaven defying things!

It was rumored that All Life Earth could nurture everything. If an immortal lord died in battle and was buried in this earth, it would be preserved eternally, not decaying. After endless years had passed, the immortal might revive.

How heaven defying was this?

This area of a zhang in size was enough to bury several creatures. Shi Hao's heart was beating heavily as he stared at the All Life Earth. He opened his Heavenly Eyes to see things to the end.

It was because there might be creatures sleeping below!

However, he unexpectedly couldn't see through it. The chaotic mists drifted over, immortal energy swirled, making this place appear more and more holy.

"It is good that dao friend has such thoughts." That voice sounded once again.

Bo!

The sound of the earth breaking through the ground sounded. Within that earth grew a plant that was entirely snow white and accompanied by immortal mists. It scattered down a rain of light, appearing extraordinary and free from vulgarity.

White tortoise carrying immortal!

It appeared. Just now, it was beneath the earth.

What was there exactly in this All Life Earth? Was there really only a stalk of medicine with nothing else buried underneath? Shi Hao's eyes were deep, he really wanted to take a look.

However, he didn't act rashly. Since the white tortoise dared to appear so close to him, it definitely didn't fear anything.

"You only wished for me to do this much after seeking me out?" Shi Hao asked.

Multicolored light flashed, silver splendor scattering outwards. A beautiful person also broke out from the earth, stepping onto the white tortoise. White clothes fluttered about as if she was dancing. She looked at Shi Hao curiously.

Regardless of whether it was the tortoise or the beauty, they were both snow-white like jade. If not for the fact that their bodies were extremely small, others would definitely mistaken that for a true immortal on the back of a tortoise. However... it was only a stalk of medicine!

"I still wish to rescue my dao brother. This island has been imprisoned for an extremely long time, a bit over a great era, so perhaps it should see the light again. I wish for your assistance." That white tortoise spoke.

This was the first time Shi Hao saw a stalk of long life medicine under such close distance. Surprisingly, other than the wave of sweet fragrance he first smelled, all of the specks of radiance and fragrance were withdrawn into the snow-white medicine's body, not wasting the slightest bit.

"You already said that all things withered, this entire world about to be destroyed. What would leaving this place do? Wouldn't the results be the same?" Shi Hao asked in response.

"It is different. If we escape, there will at least be a chance at life." The white tortoise released a sigh. The large eyes of the beauty on its back moved about. From start to now, she never uttered a word.

"Are you really a long life medicine, or are you an immortal that had been buried here from the last great era?" Shi Hao was suspicious, asking like this.

This white tortoise immediately called him dao brother, making it seem a bit like a cultivator. He truly began to suspect if this was the result of an immortal corpse developing intelligence, turning into an undying medicine.

It was because there was this type of rumors before!

"I am just a stalk of medicine, my lifespan quite ancient," said the white tortoise.

"Tell me a bit about the last great era, what exactly happened?" Shi Hao's eyes shone. There were too many things he didn't understand inside and urgently wished to learn about.

"I am just a stalk of medicine that was trapped on the island. Dao brother, do you feel that I will know anything?" The white tortoise's eyes sparkled.

Shi Hao's gaze became indistinct, staring at it in disbelief. "You are asking me for help, yet you can't even satisfy this small wish of mine. It won't even cost you anything to talk about it."

"I really don't know anything..." The white tortoise sighed, his eyes revealing a bit of helplessness. "I've lived for quite some time, but I feel like there was disaster halfway, my body damaged, losing many memories."

"You... you really aren't a fallen immortal that later became a stalk of long life medicine?!" Shi Hao was shocked.

"Shouldn't be." The white tortoise refused. It then looked towards the beautiful fairy on its back, her white clothes purer than snow, appearance perfect. At this moment, she also shook her head.

"Dao brother, if you undo the seal on this island, I can gift you exceptional treasures," said the white tortoise.

"For example?" Shi Hao asked. He was deeply perplexed by this medicine. There were many things he didn't understand about it, too mysterious.

"I can gift you Immortal Gold." The white tortoise calmly said.

"Which type?" Shi Hao didn't change his attitude, but the Divine Striking Stone jumped out first. These were the rarest treasures of the world, yet they were going to just gift it out. Its eyes immediately shone, asking, "Can you gift me World Stone, Origin Stone?"

"We do not have. However, I have half a piece of Heavenfault Stone, something known to be able to repair the heavens, I wonder if you can chew threw it?" The white tortoise raised a claw, moving away some of the All Life Earth, producing a green-colored rock.

It was less than a foot in size, incomparably simple and unadorned. It was a faint green color.

“Gift it to you!” The white tortoise said, pushing it over.

Ao... The Divine Striking Stone screamed. It looked at the immortal treasure that flew through the air, devouring it in one bite.

Shi Hao’s eyes blinked. That really was Heavenfault Stone! He had previously seen it before in Origin Sky Secret Realm, because Origin Sky Supreme being’s battle clothes were precisely refined from this stone.

Only, no one could bring away that stone armor.

Shi Hao looked at the Divine Striking Stone. He suddenly felt like this fella might really be able to produce immortal energy. It ate Origin Stone, All Magic Stone, Heaven’s Mandate Stone... there were just too many good things.

“Dao brother, what do you think?” The white tortoise asked Shi Hao.

“I don’t lack Immortal Gold, had some for a while.” Shi Hao said.

“Then how about I gift you a long life medicine?” The white tortoise said.

When this sentence was spoken, Shi Hao’s expression changed. The Divine Striking Stone was also shocked, staring at it. What kind of sacred object was this? Who could resist this type of temptation?

It was rumored that after eating long life medicine, one could become immune to all calamities!

“You... are sure?!” Shi Hao’s voice became a bit unnatural.

“Actually, to achieve eternal life, depending on a medicine alone isn’t enough. One needs to have the corresponding cultivation. Dao brother, do not be misled.” The white tortoise shivered when it saw him stare at it, immediately shrinking its neck and speaking like this.

“Are you going to gift yourself to me?” Shi Hao asked.

“How could that be? The growth of a long life medicine is too slow. If I wish to cut my own body, only leaving the roots, how will I make it through the disaster, escape the impending word destruction?” The white tortoise shook its head.

“Then how will you gift it?”

“Dao friend, I can hand over two jade jars. I can gift you two drops of long life liquid,” said the white tortoise.

“That’s too little!” The Divine Striking Stone was the first to stomp its feet, feeling that this white tortoise was too stingy.

“It’s not that little, this is long life medicinal liquid. Forget about this era, even when Immortals were still alive, it would still be rarely seen!” The white tortoise shook its head.

Shi Hao didn’t say another word. He brought out two jumbo sized jars and placed them at his feet.

This left the old tortoise speechless.

“Dao brother, even if you put me inside of those, it wouldn’t be able to fill the jars up...” The white tortoise said.

Shi Hao didn’t say anything, exchanging it for two little containers. Multicolored light flashed. The white tortoise used special methods to seize them. The All Life Earth flickered with symbols.

The Divine Striking Stone shivered inwardly. There were immortal dao symbols and formations. As expected, one couldn’t act randomly here!

The white tortoise stuck out its head and looked around. For some reason, it made one feel as if it was a bit lowly. Then, while facing the jar, he spat out a drop of saliva that dripped inside.

Shi Hao’s forehead immediately became filled with dark lines. This white tortoise seemed like it needed its ass kicked!

Couldn’t it just produce a drop of liquid from any random place? Why did it have to spit inside?!

Even though they knew that this was a stalk of medicine, only having fragrance, not filthy, Shi Hao still wanted to smack it.

“If you spit out saliva for the second drop, then I don’t want it!” Shi Hao glared at it.

“So picky.” The white tortoise shook its head. It slowly turned its body around, aiming its bottom towards the other container.

“Get your ass over here, I promise I’ll beat you within an inch of your life!” Shi Hao said.

This white tortoise really wasn’t kind and honest. Earlier, it was still bemoaning the state of the universe, yet in the end, it behaved like this, making one go crazy, feeling like they weren’t facing the same tortoise and medicine.

“You’re thinking too much. Why would I do senseless things?” The white tortoise remained calm, but it still raised its butt.

“You...”

With a ba da sound, it laid an egg that was extremely small. It was only the size of a pigeon egg, entering the jade container.

“This is... medicinal pill, can also be considered a Tortoise Pill, something that is comparable to two drops of long life liquid,” said the white tortoise.

Shi Hao’s expression was still unpleasant. This damn tortoise truly needed a spanking!

“Sigh, I’m being misunderstood. Since that is the case, I’ll compensate dao friend with a bit of Immortal Gold,” the white tortoise said with a sigh.

A shocking scene appeared behind All Life Earth. Chaotic energy scattered, unexpectedly revealing a pond. It wasn’t that large, barely able to fit a few people.

“That’s... Unaging[1] Spring!” Shi Hao was shocked.

He had previously seen this type of spring. Back then, he obtained five drops from the lower realm's Hundred Shattered Mountains. The Divine Striking Stone also appeared back then.

Every drop of Unaging Spring could save one life, its value unimaginable.

"I cannot gift this spring to dao friend, I still need it. In addition, I need this medicine garden as well," said the white tortoise. It pointed towards the bottom of the spring. There was a chain there.

"This is an Immortal Gold Chain. If dao friend can sever it, then it is yours," said the white tortoise.

"What kind of trick are you playing? That's Immortal Gold, who can cut it?" The Divine Striking Stone cried out.

"This dao friend's sword core should be able to do it," said the white tortoise.

Shi Hao revealed a strange expression. It seems like when the void split apart during his battle against Divine Dark Child and the others, this old tortoise saw the sword in his hands.

"Asking me to sever this Immortal Gold Chain, don't tell me that you are scheming something, right?" Shi Hao said.

"Sigh, I was seen through by dao friend. Indeed, this is the main reason as to why I asked you to come over to have a chat." The old tortoise admitted calmly, no longer beating around the bush.

Shi Hao didn't say anything. If he did this, will there be any dangers?

"Dao friend, I always have this feeling that your sword is a bit strange, but I cannot think of why that is the case. Sigh, losing some old memories truly is quite the pitiful thing," the old tortoise said.

Shi Hao's mind was shaken. Could it be that this stalk of medicine had previously seen the Everlasting Immortal Sword?

This sword core... wasn't it excavated from a stone material? It was something from this great era.

"The divine chain in the Undying Spring contains Radiant Platinum. It might be useful for that sword of yours," said the old tortoise.

Shi Hao's mind was moved. He didn't try to cut it, instead placing the lightless sword on top of the precious chain. Something strange happened.

The sword core shone on its own, becoming incomparably resplendent. A humanoid creature appeared on the sword. White immortal mists pervaded the air, accompanied by seven-colored specks of light.

En?!

The precious chain in the Unaging Spring revealed streak after streak of white light as it entered the sword core, and then it condensed into the white immortal mists coiling around that humanoid creature, making it appear more real. Hazy mists wafted out, creating a white expanse.

Shi Hao wasn't the only one that gasped, even the Divine Striking Stone was stupefied.

This sword was too strange. Last time, it absorbed the essence of Fallen Divine Child's Seven-colored Immortal Gold, making the ascension light on the sword body develop a multicolored tint.

Now, it absorbed the essence of Radiant Platinum, turning into white-colored immortal energy.

“This sword core...” The white tortoise’s expression changed as well.

Meanwhile, the snow clothed woman on its back spoke for the first time. “It is a bit strange, but... why is there no impression?” Her voice was pleasant to listen to like sounds of nature.

“Let’s not worry about so much. Dao brother helped me cut the Radiant Immortal Chain, so I will gift you a great natural luck!” The white tortoise said.

“What natural luck?”

“I saw that you previously activated ten thousand remnant flames, burned an ancient corpse...”

When he heard about all of this, Shi Hao’s mind trembled. This fella had arrived a long time ago and witnessed his battle against Divine Dark Child.

“If my suspicions aren’t wrong, you wish to use the heaven’s ten thousand dao to burn the body and cultivate a second strand of immortal energy. This path is too difficult! There was someone who tried to do this in Immortal Ancient Great Era, that person shocking the world under the heavens, known as Little Immortal King. However, in the end, he was still burned to death,” said the white tortoise. It told him that this path was too tyrannical and was impossible to succeed on.

However, it said that there might be a way to remedy the situation.

“What kind of remedy?” Shi Hao asked.

“I can send you into the Human Immortal Palace. If you enter, your natural luck will be great!” said the white tortoise.
