

Permit Me 1441

Chapter 1441-greed

Rong Yan didn't seem to be talking to him, but rather mumbled to herself, " "Did you really think that my husband didn't notice? He's just too lazy to care about you. In his eyes, the money you embezzled is not enough. He's waiting, waiting for the time when he can't tolerate the money you embezzled and embezzled. Your good days will come to an end."

Rong Yan said emotionally, " actually, you should thank me. I don't have any good points, just that I'm kind. At least if I call you to the police now, you can still keep your life. If you fall into our Yazhi's hands, it's really hard to say how your life will be.

Director Xie, who had been called out by Rong Yan, was now shaking like a sieve. f * ck you! Do you have any evidence? "

Rong Yan smiled and said very gently, " "Don't worry, you don't have to worry about that. Just follow the police to investigate and wait for your property to be sealed!"

after rong yan finished speaking, two police officers stood up. one of them took out an arrest warrant and said very coldly, " "Mr. Xie, we're under orders to arrest you, please come with us to the police station for investigation."

director xie's entire body was shaking uncontrollably. the overly frightened expression on his face made his facial features look especially ferocious.

The two officers kept the arrest warrant and drove him out of his seat.

However, director Xie suddenly knelt on the ground and kowtowed to Rong Yan. "Madam, I beg you, I beg you to spare me. I beg you, Yingluo. I still have a family waiting for me to take care of, Yingluo."

rong yan was expressionless and didn't even look at him. she was completely unmoved and only said one sentence, " "Why didn't you think about your family when you embezzled the company's funds? From the day you did this, you should have expected this day to come."

Greed was one of the original sins. This kind of greed would erode people's hearts. If it was not stopped, it would lead to a great disaster sooner or later.

Rong Yan didn't even feel much sympathy for Fang Wenjuan's child. How could she expect her to pity director Xie?

Director Xie had been arrested and embezzled so much money. With the Liancheng family around, he would definitely be able to survive for 20 years.

In the end, director Xie was still taken away. When he was dragged out of the room, he shouted, " Rong Yan, you're so vicious. You'll get your retribution. You'll definitely suffer the consequences of what happened to us today, hehe.

The corners of Rong Yan's lips curled up as she smiled. Only incompetent people would place their hopes on curses.

She had never cursed anyone, but the person who cursed her was now crying somewhere. It could be heaven, it could be hell, or it could even be in prison.

Another seat on the main stage was empty. Including Hu Mingde, two seats had already left.

Looking at the empty seats, the shareholders were going through the longest and cruelest torture of their lives. They were waiting for the verdict, waiting for death, waiting for their brother.

Rong nuo took the opportunity and quickly took out another cup to pour a glass of water for Rong Yan."Sister, come and drink some water! fortunately, i brought an extra cup in preparation."

"good zhenzhen." rong yan smiled as she picked up her teacup and slowly sipped it. her eyes were fixed on the information as she said unhurriedly, " "who's next?"

Rong Yan's words made the remaining shareholders 'hearts clench. She was the god of death in their eyes now. Whoever was pointed at would die!

Chapter 1442 The best punishment

after rong yan finished drinking the thick lemon water, she put down the cup and stopped what she was doing. she said, "I didn't expect there to be something fun here."

Rong Yan took out the documents and looked up at the dozen or so shareholders who were trembling one by one. Finally, her eyes fell on one person.

She observed him for a while and found that this person's face really looked sallow, as if he was seriously ill.

Rong Yan's gaze made the man shiver and shiver. Was it his turn?

Rong Yan looked at it for a while and slowly said, " "Director Zhao, if I were you, I'd honestly find a place with beautiful scenery and no one to disturb me and enjoy the last moments of my life. Then, I'd obediently wait for death. Why are you taking this so seriously? You don't have long to live, what's the point of fighting for this? Money and power, what can you take away?"

Director Zhao's body trembled violently. His pupils contracted, and his hands on the table suddenly clenched. He screamed, " "you, you're talking nonsense. you should be dead, yingluo!"

Rong Yan shrugged and said indifferently, " I guess there are a lot of people who want me to die now, but I'm healthy. They want to kill me. The time is still uncertain, but you're different. With that kind of illness, how long do you want to live? "

Director Zhao waved his arms and swept the name cards, call, and bottles of mineral water on the table to the ground. He pointed at Rong Yan and shouted, " "Shut up! Shut up! I'm not sick! I'm not sick!"

director zhao seemed to have gone mad in an instant. his eyes were red and he was extremely agitated.

The other directors looked at each other. What illness?

Rong Yan took out a hospital diagnosis report from his information. really? You were diagnosed with HIV positive last September, which means that you are now an AIDS patient."

Rong Yan's words immediately set off a great uproar among the people looking for her!

The few people who were originally sitting very close to director Zhao screamed and ran away. The shareholders on the main stage looked at director Zhao as if they were looking at a monster.

Aids, commonly known as aids.

this was an illness that caused everyone's expression to change.

After being infected by this virus, one's entire body would be like a large virus bank. His blood, hair, skin, and his entire body would be poisonous. Once the patient was infected, there was only one outcome-death!

Therefore, when people heard these two words, they immediately fell into a panic. Many of them wanted to run out and run far away.

No one wanted to die, and no one wanted to be infected with HIV. Everyone kept their distance from director Zhao.

Under everyone's strange gazes, director Zhao's spirit finally collapsed. He sat on the ground and cried, "yes, i did get that disease, so what? Do you think I want to? Do I want to?"

Rong Yan looked at the director's information. He was a homosexual and was very open-minded. He often participated in some illicit parties. It was not surprising that he had this illness now. In the end, it was all because of his lust!

Rong Yan's fingers tapped on the table. I'm still more sympathetic. You're infected with this disease. I won't talk about your other sins. To you, this 'disease' is the best punishment for you. You're on your own.

Chapter 1443 Who will be the next one to die?

Everyone thought that Rong Yan was going to let director Zhao go, but her tone changed. "however, just because you're terminally ill doesn't mean that what you've done in the past can be forgiven. officer cha, you've all seen this kind of person, it's very likely that he will take revenge on society. if he's like before, having an unruly private life, or if a little bit of blood is enough to infect others, then it'll be a huge threat to the whole society. so, i think it's better to hand him over to the relevant authorities for supervision."

The police officer was a little hesitant. Contracting aids was not illegal, so there was no reason to keep him in custody.

"This bi an ..."

"i think everyone here has the same thought as me," rong yan said.

Someone immediately agreed with Rong Yan. yes, yes, yes, officer Cha. You must lock him up and don't let him out. This is a mobile virus bank. If he has any evil thoughts, how big of a threat is he? tell me, who knows if we'll be the next ones? "

you're right. This isn't/small matter. Look at how he's going to go crazy at any moment. Isn't it threatening society to let a person like him run around outside? "

At this moment, everyone was united. They all told the police to lock up director Zhao and not let him run around.

Humans cherished their lives, and at the same time, humans were selfish. With such a threat by their side, anyone would be afraid.

even the police officers were no exception. of course, they were also afraid of being infected.

While everyone was discussing, the police leader nodded. take him away.

But it was already like this, who would dare to touch him? if he opened his mouth and bit you, then you'd be in trouble.

Therefore, no one dared to do so. In the end, it was a tall, black-faced man who looked silent who stepped forward and said, "I'm sorry, Yingluo"

Then, he used his hand to chop at the back of director Zhao's neck, knocking him out. He said, "As long as there are no wounds, aids will not be infected through physical contact."

Then, he called someone over, and the two of them dragged director Zhao away.

As for where he was going, everyone was well aware.

It must be a special hospital for aids. Moreover, the hospital was closed and the management was said to be stricter than a prison.

Rong Yan handed director Zhao's information and his diagnosis to Secretary Zhou. "Send someone to bring these things to his house and show them to his family."

"Okay, young Madam." Secretary Zhou took the phone from her.

he clicked his tongue and sighed as he watched from the side. their young madam's methods of dealing with people were really ruthless! Moreover, it was very convenient.

After director Zhao left, the crowd gradually quieted down. However, what followed was a deeper sense of fear.

especially those directors whose names hadn't been called yet, they were so scared that they almost peed their pants.

This was already the third one, and there were already three empty chairs. Who would be Wanwan next?

"Do well. Our business is not over yet!" Rong Yan continued to pick people from the pile of information. The people she picked were generally quite representative, and each of them had a different sin!

Rong Yan looked at him for a while, then raised her head and asked very gently, "madam lin, how has your son been recently?"

Rong Yan seemed to be asking casually, as if she wanted to chat with the other party.

Chapter 1444 Why should a woman make things difficult for another woman?

However, everyone knew that this was definitely not a casual conversation. This was a life and death situation!

The moment Rong Yan spoke, it was equivalent to the voice of the dead.

Those whose names were called were so scared that their bodies turned cold. Those who were not called felt lucky, but at the same time, they felt a deeper fear!

The MS. Lin that Rong Yan was talking about was the only woman on the company's Board of Directors before she came. She was 53 years old this year and had an only son. She was 25 years

old this year. Because she was the only son in the family, she had been pampered since she was young. She was a dandy who ate, drank, womaned, and was good at everything. She was completely useless and had no need to educate the rich second generation.

Madam Lin's face turned pale and beads of sweat rolled down her forehead. She gritted her teeth and said, "Yingluo, What do you mean Yingluo?"

Rong Yan leaned back and adjusted into a more comfortable position. we're all smart people. There are some things that don't need to be said clearly. It'll lower your IQ!

Madam Lin gritted her teeth and turned around. I don't know what you're talking about!

Her hands were holding her knees and shaking.

She was very thin, and the veins on the back of her hands were bulging.

Her eyes kept moving, not daring to look at Rong Yan.

Rong Yan smiled and said,"you really don't know?" For the sake of your woman, I don't want to make things difficult for you. But Yingluo, do you really want me to remind you in front of so many people?"

Indeed, she did not want to make things difficult for this woman. Wasn't there a saying that went,'why should a woman make things difficult for another woman?'

Moreover, this woman herself didn't do much wrong. Yingluo, forget it. With a son like her, no matter how good this woman was, it was all over.

rong yan gave madam lin time to think, but after five minutes, she still did not speak.

Rong Yan's patience was also running out. She said, " "It seems like you don't believe me. I have something here that can prove something. Tang Zong, read it out to her."

This time, Rong Yan didn't want to say it out loud, because she really felt a little bit of sympathy for this woman.

She didn't want to attack Madam li personally.

Tang Zong nodded excitedly. Today, he had always felt that Rong Yan's trick of killing whoever she wanted to kill was especially cool. He also wanted to give it a try, and now he finally had the chance.

Tang Zong cleared his throat. now, I'll give Ms. Lin a reminder. Lin xianchao is Ms. Lin's only son. He's 25 years old today. Last year, during the new year, he and a few others were taking turns to rape a woman who had entered the wrong room at a nightclub. Later, they were afraid that the woman would call the police, so they took him out of the nightclub and buried him in a forest in the suburbs. A month later, the woman's body was found. When his family found out, they strongly requested the police to find out the truth. At the same time, the woman's brother was also investigating himself. Later, he found some evidence and planned to hand it over to the police, but coincidentally, he got into a car accident on the road and died on the spot. His father also died at the same time, and of course, the evidence he found was gone!"

after tang zong finished reciting, the entire audience fell silent. to be honest, such news appeared quite frequently. however, a man under the banner had killed a family of three. wasn't this man a little too inhumane? he simply didn't take human lives seriously.

“is madam lin familiar with these?” tang zong asked after he finished speaking.

—

Chapter 1445 You're the one who harmed my son

Madam Lin's face turned from pale to ashen. She suddenly raised her head and said, "I don't know what you're talking about. My son has never done such things."

Rong Yan yawned. She was a little tired after being busy for so long. She said lightly, "since you're so stubborn, there's no need for us to continue, Qianqian. After your son deliberately ran someone over, the murder was classified as a traffic accident. I think it was all your doing, Madam Lin.

Madam Lin clenched her fist and stood up. Madam President, please don't slander me. What evidence do you have to prove that my son killed her? even if my son really did do it, you said it yourself. The evidence that the person found has disappeared. The police have no evidence. They can't accuse a good person, right? "

Perhaps it was because the mother was stronger than the daughter, so even at this time, she was much calmer and more composed than others for her son.

however, these were all useless. since rong yan had said it, it meant that she already had solid evidence.

Rong Yan yawned again, and tears were about to fall from the corners of her eyes. She sighed and said, "Sigh, you really won't shed tears until you see the coffin. That person didn't keep the evidence, but we can't find out? I don't think our Liancheng family is that useless, right?"

“Officer Li, you tell her, Yingluo.”

Tang Zong was the one who found the evidence, but Rong Yan said that it was the Liancheng family. She said this because she had her own concerns. She didn't want to cause any more trouble and cause trouble. After all, Tang Zong was not a member of the Liancheng family. If he helped Rong Yan when Liancheng Yazhi was not at home, it would inevitably cause people who didn't know the truth to overthink. Therefore, Rong Yan said this to save herself some trouble.

However, Tang Zong would not mind!

One of the officers who was sitting in a row below the stage stood up and said, "Madam Lin, the people who committed the crime with your son have already turned themselves in at the police station. They have confessed to your son. There is another group of people at the police station who have arrested your son. Now, Madam Lin, please come with us to the police station to assist in the investigation.

Madam Lin's vision turned black and her legs gave way as she fell to the ground.

his son had been captured? His son had been reported?

Would Yingluo die in the future?

Lin xianchao was Madam Lin's only child. He had grown up in her hands. No matter what his son had done, she would help him solve it. She had never blamed him.

Now that her son was in trouble, it was equivalent to taking her life!

Madam Lin had never expected that the person who had committed the crime with her son would report her son. They were in the same boat. Why did he turn himself in? why?

Madam Lin suddenly raised her head, her listless eyes filled with anger and hatred. She screamed, "It's you, Yingluo, you b*tch! You harmed my son Yingluo! I'm going to kill you!"

Madam Lin got up from the ground and pounced on Rong Yan like she had gone crazy.

However, this time, Rong Nuo and Tang Zong were very close to Rong Yan. Of course, they would not let anything happen to her.

Rong Nuo immediately stepped forward, unscrewed the thermos, and poured out all the hot water inside, splashing it on Madam Lin's face.

Madam Lin screamed in pain. The skin on her face instantly turned red.

—

Chapter 1446-what do you have to fight me?

Tang Zong's kick was fast, accurate and ruthless. It landed on Madam Lin's stomach, and Madam Lin's body flew out uncontrollably.

Rong Yan's eyes widened. Madam Lin's body drew a beautiful arc in the air and then fell to the ground with a loud bang. After landing, she bounced twice on the ground and only stopped when she rolled one meter away. From this, it could be seen how strong Tang Zong's kick was.

At this moment, Madam Lin was lying on the ground and vomiting. Her hair, which had been tied up neatly, was now a mess. Her clothes were also dirty. After being kicked by Tang Zong, she felt as if her internal organs had been smashed. It was so painful that she almost couldn't feel the pain anymore. She looked like a completely different person now!

Oh, by the way, the tea that Rong Nuo had poured out had now scalded Madam Lin's face red, and it seemed to have begun to bubble. It looked very funny and scary.

Even Rong Nuo didn't expect that the quality of the bottle would be so good after leaving home for so long.

Tang Zong looked at Madam Lin coldly. "Madam Lin, don't make any unwise moves. You're being irrational in front of so many people. You're the only one who's going to be in trouble. Even if I accidentally kill you today, it's only self-defense."

Rong Nuo nodded and said to Rong Yan, "Big sister, don't worry. I will protect you."

Rong Yan sighed. "Don't do this next time. Look at you. You spilled the tea. What am I supposed to drink?" "You should learn from Tang Zong and see how powerful his fists and legs are."

At the thought that she had no tea to drink, Rong Yan pouted. She was a little thirsty!

"Sure, sis. I'll teach her some martial arts moves when we get back," Tang Zong walked back and said, trying to please her.

Rong Yan looked at him with a smile, making Tang Zong's heart turn cold. After a while, Rong Yan turned around.

Rong Yan held her chin and said to Ms. Lin, "Ms. Lin, if I were you, I wouldn't do anything. The police should leave quickly. If you go, you can still see your son. If you give up your life here to take revenge on me, who can protect your precious son? Since you dote on your son so much, shouldn't you think for him?"

Madam Lin raised her head when she heard Rong Yan's words. "Yingluo, you ridiculed me. I won't let you off. I won't let off anyone who harmed my son, Yingluo!"

Rong Yan pouted and said disdainfully, "You'd better save your son first. Otherwise, what are you going to use to fight me? don't say that I look down on you. What do you have? Do you have the right to do so?"

madam lin was rendered speechless by rong yan's words."F * ck me f * ck me"

Rong Yan didn't want to continue talking to her. It was too boring. Rong Yan said loudly, "alright, I'm too lazy to talk nonsense with you. Officer Cha, hurry up and take her away. Don't waste my time here.

The two police officers left with Ms. Lin.

madam lin was being pushed forward. as she walked, she turned around and said, "Rong Yan, you have a child too. You should understand my heart. Why can't you understand a mother's feelings of protecting her son? "

"I can understand." Rong Yan nodded. "But, I can't let him go," she added.

Madam Lin was taken away after all. There was an empty chair in the ghostwriter seat for the shareholders. Rong Yan said, "come, everyone, let's continue walking."

Chapter 1447 Should I call you father or grandfather?

Rong Yan's nonchalant words made the shareholders' hearts tremble, and they all looked at Rong Yan with pleading eyes.

They didn't want their dirty laundry to be exposed in public. It was like being stripped and strolled around in front of hundreds of pairs of eyes, standing naked on the stage and being attacked!

They were used to being flattered and were all people of status. Such people all wanted face, and none of them were willing to do this. However, Xuanji Rong Yan was not someone who liked to give face to others.

Rong Yan yawned. this meeting has been going on for quite a long time. Everyone must be tired. Let's speed up the process. I don't want to say it one by one. I'll give you all a chance. If you're born to take the blame, or if there's something in your family that you can't tell others, just say it yourself. If you say it yourself, maybe you can win a lenient punishment or something.

After Rong Yan finished speaking, the shareholders looked at each other. No one moved, letting them take the initiative to come forward and say that this Wanwan was really too difficult.

At the same time that they were afraid, there was also a trace of hope in their hearts. They were all thinking that perhaps Wanwan or Rong Yan's information didn't include their own, or perhaps she hadn't found out what crime she had committed?

If Rong Yan didn't find out at all and he turned himself in, wouldn't it be a pity for Wanwan?

It was this kind of thought that made them look at each other and lose their own opportunity.

They had a good impression of Rong Yan. According to what Rong Yan had said to Tang Zong yesterday, it could be explained in this way: no matter if the other party had committed a crime or had any weaknesses, he had to find them. if there were any, he would pin them down. if there were none, he would create crimes for them.

in short, he had to get rid of them.

Rong Yan waited for a while, and when she saw that they did not speak, she laughed angrily. “Alright, you’re not going to say anything? I’m giving you a chance. Since you don’t take my words to heart, just pretend I didn’t say anything.”

“Since all of you like names so much, then let’s order as much as we want today.”

rong yan sneered and stopped looking at the information. she said, director Chen, should the children in the villa in the western suburbs call you father or grandfather? ”

In the midst of the uproar, Rong Yan did not stop and continued, ” “Director Zhang, have you felt the price of icy poison surge recently? Do you feel that it’s too much of a waste of money to have a few more people in the family to take drugs, and that you can’t afford it yourself?”

Director Zhang fell from his chair with a clang, and his body began to Twitch.

It looked like his drug addiction was acting up. He didn’t even remember to say a word and was quickly taken away by the police.

The reason wasn’t just drug abuse. Twenty minutes ago, another group of police had found a large amount of ice drugs in his house. It was a large amount, and it was no longer as simple as drug abuse. The police now suspected that he was hiding drugs and selling them, so they wanted to arrest him.

The police acted quickly and drove away with the twitching director Zhang.

Director Chen was trembling. He didn’t dare to raise his head or face anyone. His son was not at home all year round. In the end, he had an affair with his daughter-in-law. Not only that, but he also had a affair with his son.

Rong Yan glanced at him and decided to ignore him for the time being. She turned to ask another person, ” “Director Wang, Wan Wan, do you want to say it yourself, or should I?”

Director Wang stood up shakily, ”I’ll make up for myself, I’ll make up for myself, I’ll say it”

Chapter 1448 Surrender yourself

Director Wang hesitated for a moment and said, ” I’m Qianqian’s wife. Can I just follow the police? no matter how many years I’ll be sentenced to, I won’t appeal. I beg you, please leave me some face. I’ve let young master ya and the company down. I’ll admit my mistake now. Please!

Director Wang was already an old man in his sixties. He stood there helplessly with a repentant look on his face. He looked very pitiful. If she didn’t know what crime he had committed, Rong Yan might have been soft-hearted, but this old man was a pervert who had tortured many children under the age of 10 to death. He had a lot of blood on his hands and his actions were unforgivable.

However, all the evidence of his crimes had been handed over to the police. The most conclusive evidence was estimated that within a month, the judicial process would be completed, and he would be sentenced!

Director Wang saw that Rong Yan's expression was serious and didn't know what she was thinking. He was very worried and afraid. In the end, he said, " Mrs. CEO, I'm sincerely guilty. I've let those children down. Now that things have come to this, I deserve to die. I'm unforgivable. I'm willing to transfer all my shares to you for free. I just hope that you can let me, at least for now, not let me be reviled by others. Can you tell everyone after I'm taken away? "

After a while, Rong Yan nodded. Forget it. At least this director Wang was the one who was willing to step forward and confess to his crimes. He could give the rest a good start.

Rong Yan said to the police in the audience, officer Cha, his evidence is in your hands. You can take him away. I hope you can enforce the law impartially and seek justice for those children so that they can rest in peace.

A police officer stood up. thank you for your report, Mrs. Liancheng. We will definitely follow the law.

"take him away." He said to the two people beside him.

Two police officers stepped forward and handcuffed director Wang before taking him away.

After director Wang left, Rong Yan didn't say much.

However, the way director Wang was taken away was not embarrassing at all. It was a good start, and the other directors started to feel tempted. If he really couldn't escape, they would confess to the crime and save themselves from embarrassment.

Rong Yan picked up a stack of documents and said to the directors, " i still have 9 left, what should i do? It's all up to you guys now."

Finally, after a brief silence, someone stood up. Mrs. President, I'm sorry. I'm guilty. I'll leave with the police. I hope you won't do it. I hope you won't tell anyone about me.

"Sure!" Rong Yan nodded.

Hence, it didn't take long for the police to take him away. They left smoothly without any trouble.

Then, the second person stood up. "I'm Yingluo, me too, I'm leaving with the police, Yingluo."

"Sure, please." Rong Yan still nodded.

After the second person left, the third, fourth, and fifth shareholders of ran ran all left, leaving only director Chen, who had been called out by Rong Yan previously.

This scene shocked the surrounding executives. If these people followed the police, didn't that prove that they were all guilty?

Rong Yan glanced at the exquisite lady's watch on her wrist and said, " " director chen, your son and wife will be here to pick you up. you can leave with them. "

Chapter 1449-never seeing each other

Director Chen's eyes widened in shock. What do you mean they're coming? No, no, Yingluo, I can't see them Yingluo, I can't see them Yingluo!"

"Police, please take Yingluo with you!"

Before director Chen could finish his sentence, he realized that all the police officers had left. Those who should be arrested had all been arrested, leaving only director Chen who had an affair with his daughter-in-law.

Director Chen was dumbfounded. The police were gone, what was he to do?

Director Chen was so anxious that he was sweating profusely. He hadn't done anything wrong. The only important thing was that he had hooked up with his daughter-in-law. This was a scandal. If it was revealed, it would become a scandal that people would talk about at tea and meals.

Director Chen didn't want to be afraid of going out because of this matter, so he begged Rong Yan for mercy. "Mrs. President, please don't let me see the mother and son. I beg you, can I give you my shares? I'm a bit lecherous, but I really haven't committed any serious crimes. please, I can't see mu azi flirting with her!"

Rong Yan sighed. If she had known this would happen, she wouldn't have done what she did. How could such a thing be hidden for a lifetime? it would be exposed sooner or later.

"I also want to help you, but it's too late, Yingluo," Rong Yan said.

Director Chen was confused. What was too late?

Just as he was thinking, a cold female voice came from behind him, "Why didn't you think about us when you were sleeping with your daughter-in-law in the same bed?"

Director Chen was so scared that his legs went soft. He knelt on the ground and turned around. He saw a woman in her fifties in a gray professional suit. Her hair was neatly tied up and she looked like a strong woman. Her eyes were sharp and her expression was cold. She raised her chin slightly and looked at director Chen with extreme contempt. Her eyes were like she was looking at trash!

This woman was director Chen's wife, and beside her stood a young man of average height and height. He looked lazy, as if he didn't care that his father had slept with his wife.

After seeing director Chen's wife, Rong Yan suddenly understood why director Chen would get together with his daughter-in-law. It was because his wife was too strong, too high and mighty, and too unapproachable. As a husband, he couldn't find the feeling of being needed and protected from her. Therefore, he could only turn to other women to find a sense of existence.

Speaking of which, a marriage between a strong woman and a weak man seemed really sad!

A strong woman had to find a man who was as strong as her or even stronger. Otherwise, she would definitely end up in a tragedy.

Director Chen struggled to stand up. He was taller than his wife, but with his head lowered, he looked so small and insignificant in front of his wife. He said timidly, "wifey, I teased me, I really didn't mean to tease wifey, wifey, wifey, wifey, I was wrong, Wanwan.

Director Chen's wife took out two pieces of paper from her purse and handed them to director Chen. you don't have to say anything. Just sign this. From now on, we'll go our separate ways and never see each other again.

Rong Yan could not read the words clearly from a distance, but she saw the first two words of the headline-divorce!

Chapter 1450 My wife is begging you not to divorce

rong yan smiled. it made sense. how could a strong woman like director chen's wife tolerate her husband cheating on her? the key was that the person she was cheating on was her daughter-in-law. tsk, tsk. the relationship between this family was really lively.

Rong Yan glanced at the young man who had been standing beside director Chen's wife. Unexpectedly, their eyes met in the air.

Logically speaking, Rong Yan should have quickly shifted her gaze away, but ... However, she was not that kind of person. She just stared at the other party until the other party turned his head away before she retracted her gaze.

Rong Yan realized that director Chen's son was an interesting person. His wife and father had joined forces to make him a cuckold, but he didn't seem to care at all. Not only did he not care, but he also acted as if it had nothing to do with him.

This kind of mentality inevitably made people curious. Even if he didn't like his wife, as her husband, he didn't have any face when such a thing happened. Anyone would be angry, right?

However, he didn't. His nonchalant look wasn't an act. He really didn't care.

this family was indeed quite odd.

Director Chen took the divorce agreement and saw the words on it. His hands trembled. The two thin pieces of paper were so heavy that he couldn't move them.

he cried in front of so many people at his age, ” “Honey, I'm sorry, I'm sorry, I'm sorry, son. I'm not human, can you not divorce me? I don't want a divorce, Yingluo!”

Director Chen's cries were of no use. His wife didn't even blink. it's useless no matter what you say. If you don't want to see me in court, you can sign it now.

“i came here today to inform you of this. it doesn't matter if you agree or not.”

Director Chen was obviously used to being pressured by his wife. No matter how much he didn't want to, he signed his name on the divorce agreement under his wife's pressure.

Director Chen's wife took the agreement back and nodded at Rong Yan. Then, she turned around and left with her son.

She left as quickly as she came, not wasting any time in between.

Her son did not say a word from the beginning to the end.

“Secretary Zhou, please get someone to send director Chen back,” Rong Yan said to Secretary Zhou.

” okay, yingluo. ” secretary zhou waved his hand, and two bodyguards immediately stepped forward and drove the ashen-faced director chen out of the auditorium.

As director Chen left, the shareholders ‘seats on the main stage were all empty. Only Rong Yan was sitting in the middle, and the empty space on both sides highlighted her position.

the higher-ups below had witnessed the entire process of rong yan getting rid of more than a dozen shareholders one by one. at this moment, they were very afraid of rong yan, but they were more in awe and glad.

they were glad that they didn’t seek death and go against such a powerful woman like rong yan.

On and off the stage, there was a dead silence. At this moment, everyone’s thoughts might be different, but they might also be the same.

rong yan propped herself up on the table and wanted to stand up. rong nuo wanted to help her up, but she refused. next, it was time for the latter part of the meeting-stabilizing the people’s hearts!

She said in a clear voice, “I’m not letting you see this today to use this opportunity to knock down and deter everyone. I just want you to know that if our company wants to develop steadily, these people must be cut off. Once the company falls into their hands, what awaits you will only be the loss of this job in the near future.
