

Physician 1141

Chapter 1141

Ye Chen is to smile, did not expect this Tianhu afraid of himself, afraid to this appearance.

Wanyao heaven?

But also, at the beginning, many powerful people's mounts were bred by the Royal beast clan.

It can be said that after the first World War in ancient times, the yushuzong gathered in the vast majority of high-level monsters in Kunlun. After 3000 years, these monsters have broken through to a high level without any foreign enemies. Their arrogance is normal.

But!

He Ye Chen came, this Wanyao Tianting must be changed to Ye Chen heaven court!

"Big Big My lord You said the demon plant, are those demon trees

"If so, there are 32 demon planting gods under the demon emperor, who will produce many special fruits every 100 years."

"Eating can increase a lot of soul power, and can also increase the body!" Tian Hu hesitated and finally finished these words. He also looked at Ye Chen from time to time. He was afraid that ye Chen would not be happy and give it a slap.

"Special fruit?"

"Demon plant?" Ye Chen is quite excited, did not expect that these miraculous drugs have become essence.

Generally speaking, the essence of miraculous medicine must be under a certain density of aura of heaven and earth.

For example, the holy grass hall can definitely make the miraculous medicine into essence and become the demon plant, but it will waste a lot of aura if it is used as medicine to make pills.

Of course, after listening to the story of blood seven nights, some people have cultivated a demon plant to fight, but it is not worth the cost to cultivate a demon plant.

"Special fruit!"

"Increase the power of the soul and flesh!"

"Maybe I don't have to go to the land of the soul if I come to this place."

Ye Chen thinks that if he wants to break through to the period of hegemony, he needs at least the essence and blood of demons and beasts with five layers of heaven and above. If we can kill them completely and seize their rudiments, we can cultivate our own "Tao" faster.

"Which demon king does this place belong to?"

"This demon king, how high is the realm?"

Ye Chen doesn't want to waste his time. He has to break through the physical training environment and go to Huaxia!

Monsters are not like human friars. As long as the corpses are kept intact after being killed, they may be able to capture the opponent's "rudiment of the Tao". When they digest Ye Chen's killing method of the "rudiment of the road", they can definitely advance to the perfect state!

"Yes, it is It's the destiny of the demon king. The demon king has also established the destiny King's court, which is under the Wanyao Tianting

"Lord demon king, it seems that the emperor respects the five levels of heaven, and I don't know the specific state!" Tianhu talks like toothpaste. It seems that I really don't know the situation.

Ye Chen beat the sky tiger to death, took the demon core, and put it in the reincarnation cemetery. If you want to know the situation here, you have to find another demon beast, at least daoyuanjing. Otherwise, we don't know the strength of each demon king.

He walked quickly, overlooking countless trees, left hand out, crisscross the circulation of sword Qi, stars flashing, star sword emerged!

At the moment, he has recovered to the realm of the source of Tao, and the power given by the seven nights of blood has been recovered.

"Ten thousand flying swords!"

A sword, a cloud, a wind.

Above the dark clouds, the sword Qi of destruction shot in all directions. It was like a rain curtain all over the sky and hit the trees.

Bang bang!!

Bang!

The trees burst!

A monster on the ground, no matter how high or low the realm is, still in the future and flees away, is swept away by the destruction sword, and then dies out. The body explodes, and the demon cores fly out one after another, turning into streamers and converging towards Ye Chen.

In a flash.

Under Ye Chen's sword, dozens of kilometers around it turned into a piece of waste, and many monsters and demon plants were destroyed.

He put away many demon cores, "only two can be used!"

"We have to find a chance to kill some monsters in the emperor's honor and subdue others!"

"According to Tianhu, there are at least hundreds of monsters in this place, of which five are the most respected and the four are the most respected."

"Take some to kill, some to subdue!"

Just as ye Chen is planning.

In the northwest, a column of blood God rose from the sky, and then accompanied by a turbulent road of divine power.

I saw a blood tiger demon of 100 Zhang in size, led by hundreds of demon beasts, each of which was dozens of feet in size. Its breath was comparable to that of the friars of the emperor's reverence. It was a powerful force!

The shell of the blood tiger demon is stiff, just like wearing a suit of battle armor, and the rigid bone thorns hit the destruction sword Qi around.

It rushed to Ye Chen and said in human language, "why do you kill us, the outside world?"

"I need blood essence!" Ye Chen looked at the blood tiger demon, which was comparable to the emperor's five layers of heaven. He asked, "are you the emperor's destiny demon king?"

"I'm not!"

"The demon king is holding a birthday party. I think you are not weak. Which school are you from

The cold pupil of the blood tiger demon spills blood gas and sends out a split breath all over his body, which is very terrible. It constantly looked at Ye Chen, but in his heart he said: who is this?

Kunlun sect?

Daozong?

Or Huang family?

No one has known this place since the ancient wars.

Why did this young man break in? Does the demon emperor know?

Well, I'll inform the demon king first.

"I come from the door of the God of medicine!"

"From the body Ye Chen can finish.

"Asshole!"

"Also want to use our blood essence and demon core to refine body, kill!"

Blood tiger demon heard Ye Chen refining body and directly ordered to kill.

It flew over in person. Two huge bloody claws, comparable to the seven grade spirit weapon, smashed on the star sword, and each collision caused a violent cremation.

Bang bang!!

Bang!!

The star sword collides with the giant claw. Although it is unimpeded, it makes Ye Chen's mouth ache.

Ye Chen looked at the blood tiger demon, "worthy of being a monster, the emperor respected the realm, and the flesh was comparable to the later period of human emperor's reverence."

"Since you want to kill me!"

"I'll kill you first!"

"Jianmen's appearance"

Ye Chen drinks a low voice, explodes back to open, holds the star sword in both hands, infinite blood burst out, crisscross sword Qi soars to the sky!

High in the sky, a round of bloody sword gate appeared, sacred and mighty, just like the ancient heaven re-enter the world.

One after another destroys the sword Qi, straight sword gate rushes out.

In a flash, infinite sword Qi burst out.

Whoosh!!

A monster with terrible breath was directly destroyed.

The blood tiger demon was also hit by the sword pressure, the body was split, and the blood was sprayed out of scarlet and scalding.

"Hateful human beings!"

"Anyone who enters here must die. You even want to use our blood essence to refine our body. Even if I die, I won't give you a price!"

The blood tiger demon has ferocious eyes. It uses a pair of tiger claws to protect its head against the destruction of sword Qi. The endless blood in his body is furious, and his body also expands. Soon, his body is like a ball.

Whoa!!

But I didn't expect a sword light flashed, and the fierce sword spirit seemed to tear everything! The blood tiger demon hasn't completely reacted to it. It's actually cut by the waist directly!

Chapter 1142

Ye Chen smashed its head with a sword, took out the demon core, and then refined its blood essence with secret method.

Soon, ye Chen extracted a catty of blood essence. When he turned around to look at it, he saw that dozens of them had already run away, except for the four corpses that had just been killed.

"That's it

"Just let you run for a while!"

"I take this blood essence and practice it for a period of time first."

Ye Chen collected these corpses and found a mountain peak. He slapped the fierce beast in Daoyuan territory. The dove occupied the magpie's nest!

He took out the blood essence and demon core one by one, "absorb these things first, break through the bone setting stage, and enter the dominating body stage!"

After the conggu period, the state of body refining is more powerful and divided into nine levels. For example, from the first level of the Bati period to the Ninth level of the Dabi period, and from the first level to the Ninth level of the Huagang stage, the later the body becomes stronger and even produces qualitative changes.

For example, ye Chen, before is the bone setting period, after the breakthrough, it is the first level of the hegemonic period!

At least to the fifth level of the super body period, in order to be comparable to the spirit of the body!

If you arrive at the Ninth level of Huagang period, you can resist the attack of the strong king of God with your body!

Ye Chen takes out the demon cores of these monsters one by one.

Monster core is a special storage of the power of the soul, but also the key to control the whole body, equivalent to the human brain, but the human can't use it, but the monster can use it!

In addition, the rudiments of the ways of these monsters are generally stored in the core.

Different from human friars, they are generally stored in every part of the body. Once they fight, the rudiment of the road will fall from behind and rise to the sky, and then they will be absolutely powerful!

as for the blood of the monster, it is the essence of a body, including the power of blood and the power of heaven and earth.

"Kill too much under the territory of Xu Wang."

"The source of Dao is 17 heads!"

"The emperor respects the five heads of the realm!" Ye Chen took five purple demon cores, as well as demon blood essence, "I hope these, can let me refine body breakthrough!"

"Xiao Huang, come out!" Ye Chen calls Xiaohuang out and thinks: "the rest of these are also great tonic for you, I'm afraid."

Xiao Huang turned aside and said, "the body of emperor Zun has some effect on me!"

"Under the emperor's dignity, it's useless to eat it!"

"Eh, there is no prototype of the road, no demon core."

"Did you take it all?"

"Nature!" Ye Chen looks for a place in the cave, takes out a wooden barrel to put the blood essence into it, and then puts some miraculous medicine into the liquid. Stepping into it, the essence blood flows instantly, and the violent breath permeates Ye Chen's body.

This method is taught Ye Chen by blood seven nights. Only in this way can ye Chen's body be stimulated!

It may even have a great effect on the awakening of blood vessels in Ye Chen's body!

The blood essence is full of the violent power of blood, which impacts Ye Chen's body. The body heals continuously and absorbs the blood at the same time.

As long as the body reaches a peak level, it can break through the bone setting period!

.....

Just at this moment!

In the northwest, a huge stone piled into the palace, and a white tiger demon sat on the hall.

On both sides of the same sitting a group of monsters, but now it is like humans, sitting on the mat, tasting all kinds of wine.

The high realm monster has the ability to transform itself into human beings.

However, once the monsters fight in shape, their combat power will be weakened a lot, and they are not their own body. Therefore, they are generally transformed into human limbs to facilitate action!

"I wish the demon king a long life

"Congratulations on the prince's wedding

A demon beast in the imperial realm stood up, holding a red wine cup in his hand, and said, "now, the place where I train my body is becoming stronger and stronger. Maybe in the future, the demon emperor can lead us to fight back against Kunlun Xu!"

"Yes, Kunlun used to enslave us, but we were killed by the blood spirit clan!"

"The adults of the Xueling clan, let us die. When we have recovered to a certain extent, we will also destroy the Kunlun void and repay the ancestors of the Xueling clan!"

A tiger demon also raised a cup to wish the white tiger demon in front of him.

It thought of the cableway in its heart: thousands of years!

In those days, Kunlun Xu people dare to ride on our demon clan!

In the near future, when we attack Kunlun Xu, we must rob human beings as mounts and rob some beautiful human girls!

"Lord demon!"

"At that time, the virtual human in Kunlun was extremely extreme. Fortunately, the ancestors of the blood spirit clan moved our demon beasts and demon plants to this space!"

"Even promised us that in the future, Kunlun Xu will be destroyed and let us join the Xueling clan. In that way, our future will be brilliant."

This is a demon plant. A big tree becomes essence, which forms hands and feet. The trunk part of the body is still a bronze tree, which shows the ancient bronze face. Only the top of the head is green branches and leaves.

It is a vein of demon planting. In those years, there were few demon plants, but I didn't want to be the people of the blood spirit family. They all moved to this space!"All right, gods and generals!"

"Today is my king's birthday feast, but also the wedding of Prince Maple!"

"I'll leave it to the future." A cat demon said slowly, "what's more, Kunlun Xu has contributed 100 emperors to the ancestors of the blood spirit clan every 100 years, which is not enough to fear!"

"It's the king's birthday party and the prince's wedding."

"Thank you very much In the center of the hall, a young man clasped his fist at the cat demon and said, "I'm so happy today. Please have a feast for the gods and generals. In the future, we will kill Kunlun and make human servants."

"Ha ha ha ha!"

"Maple prince said well, worthy of our destiny King court prince!"

"Maple Prince has foresight, we will not be as good as God!"

Many big demons, demon planting gods will praise one after another.

It seems that in the place of refining body, the demon emperor calls himself God, while the demon beasts and demon plants call themselves divine generals when they enter the realm of emperor's respect.

There are dozens of gods and generals in the hall. The lowest is the emperor's level one or two. It can be said that it is not weak. A top school alone is not as good as it is!

"Newspaper!"

"No, demon king, something's wrong!"

"Kui Mu will encounter the man of Kunlun void, and he has already fallen down!"

A lion God will rush into the hall. It is the one who participated in the killing of Ye Chen. His cultivation also has the emperor's three layers of heaven, and is also a strong one!

"Presumptuous!"

"Just like human beings, dare to enter my body training place!"

The God ordered demon king was furious, and suddenly left a faction, making thousands of ripples, which broke the ground. The breath was extremely terrible, even not under the ancestor of qingtianmen!

It has a pair of terrifying eyes, containing a strong blood. It sweeps through the demons and says, "this tiny human dares to kill my God General on the day of my king's birthday party and my son's wedding!"

"Who will capture this bold man?"

"My king has a lot of rewards!"

"King!" Just now the tiger demon stood up and said, "subordinate Tianmu, willing to go!"

"Such ants and human beings, I can suppress them with one fist!"

Chapter 1143

"King, my subordinates are willing to go!" The demon plant also got up, clasped his fists and said, "if this man can kill Kui mu, his strength must be not bad. It is estimated that it should be the fourth heaven of emperor's Zun state, and his subordinates are already the fifth heaven of emperor's Zun state. He is willing to go there!"

Kui mu, a God with blood tiger!

So, they were all killed!

Then this man must be good at single cutting. The essence of this general is willow, which can affect the trees around the forest and form an array!

I don't believe it. I can't kill this man!

"King, I will come!" Another man stood up and said, "my subordinates have been in the realm of emperor's respect for thousands of years. They are physically strong and can definitely take this man down!"

He secretly laughed in his heart and said: it's just the right thing to kill this man and give it to Prince Maple as a wedding gift!

I must be the heart of Prince Maple!

In the future, I will be able to break the Kunlun void and occupy it!

The king of the heavenly destiny demon glanced at the general who had asked for a tassel, and said with a disdainful smile: "tiny human beings, dare to challenge our destiny court. OK, the willow general will take the hand to kill this man and bring his head to celebrate his birthday!"

"Yes, my Lord!" The demon plant hugged his fist and said, "it's for adults to kill this human. Before killing him, I'll learn from the predecessors of the blood spirit clan to strip his skin and cramp him!"

After that, the willow God turned to the maple Prince and said, "please wait for a moment. I'll kill the human and congratulate the prince on his wedding!"

It flew out of the hall, but also with countless breath of terror!

At the beginning, the blood spirit clan didn't destroy the demon beast and the demon plant, but killed all the masters in the spirit realm of the two clans, because those masters all listen to the order of the imperial beast clan, but the monsters and beasts in the low realm can be subdued!

Blood spirit family cloth Wu everything!

They have conquered many planes, and the strong ones in these planes generally adopt the policy of killing, or half slaughtering and half conquering.

Although the blood spirit clan is powerful, how can its population base of one plane compare with that of many planes? Therefore, it is necessary to constantly accept the strong people of other planes, no matter the human demons and demons. As long as they submit to the blood spirit family and ensure their loyalty, they can join them and help them to attack other planes.

In the tomb of samsara, one hundred strong!

Thirty of them are strong men from Kunlun.

That means that the rest of the strong may come from one place or another.

"Gentlemen, generals, follow the gods and seize the human friars!"

The willow God will call out, the violent breath is like a tornado in the direction of Ye Chen.

For them, in such a large body refining land, there are monsters and demon plants everywhere, and human friars can't hide where they go!

.....

In the cave!

Ye Chen's two palms are close together. His body is absorbing the essence of blood in the barrel. He can see that his body gradually changes from yellow to red, and his channels are rapidly enlarged and his bone density is also increasing.

Congealing period!

It refers to the bone agglutination to qualitative change. Generally speaking, even if the characters in emperor Zun state don't specialize in cultivating their bodies, they can still reach the bone setting stage by washing their bodies with blood and spirit of heaven and earth day and night.

But the super sports period is different!

What is hegemony?

As soon as the body comes out, it dominates the world.

Just relying on the body is enough to kill any powerful person in the emperor's Zun state, and even drop blood to kill the monks in the source area of Taoism. Even if the Qi and blood were shocked, it would be enough to seriously damage the emperor's dignity. Compared with a great qualitative change in the bone setting stage, the strength of the body should be increased by dozens of times!

In particular, there is a gap between the ninth order of the coagulation period and the first order of the hegemonic stage!

It is comparable to the gap between man and nature. Once it enters, the combat power will be enhanced by ten times.

"This boy!"

"It's almost impossible to get the essence blood of the demon beast this time!"

In the tomb of samsara, blood seven nights is looking at Ye Chen, thinking: "Ye Chen needs at least the blood essence of five evil beasts in the emperor's Zun state to enter the first level of the hegemonic period. If he gets the essence blood of the thousand head Daoyuan state or the demon beast of the Emperor's Zun state, it's not too bad to reach the fifth level of the domineering period!"

Mo Ning'er nodded thoughtfully:

"it is too!"

"The highest here is the monster in the emperor's honor!"

"If you get the essence of a demon beast, he is likely to enter the Ninth level of the super body stage!"

She was aware of the gap between the emperor's realm of respect and the realm of entering God, whether it was human beings or monsters.

If you don't get into the divine realm, it's very difficult for a hundred emperors to fight against a person who has just entered the divine realm. As for the demon beast, the difference in the blood power in the body is bigger than that in the human beings. The effect of the spirit blood of the demon beast in the God state and the heaven is much greater than that of the nine levels of the spirit animal essence of the ten emperors.

"This time, ye Chen took a step forward at most!"

"Ah, there are monsters coming again. No, it's demon plants!"

Blood seven nights found that the willow God will be killed, then wake up is refining the body of Ye Chen. Ye Chen wakes up from practice and sighs, "it's not enough. Maybe, it's almost enough to suppress their four demon kings and demon emperors! "

As soon as he got out of the barrel, the impurities were removed by the shock of his blood, and the whole body was surrounded by bursts of blood gas.

Then, he suddenly raised his head, cold eyes like stars, the way of killing directly overflowed his body!

Extremely violent!

"My time is limited. Anyone who prevents me from going to China must die."

.....

At the same time, Huaxia, Beijing International Airport.

A girl in a cap came out of the airport.

Her cap is very low and she can't see her face clearly, but her temperament makes every tourist feel afraid.

Because it is a kind of cold, like nine days above the fairy come!

There is also a little girl beside the girl with a lollipop in her mouth and her eyes filled with excitement.

"Sister, Huaxia wants a lot of delicious food. I'll take you to eat it all over the place."

Ji Siqing took a look at Ji Lin and shook his head: "don't forget the purpose of our trip. Find Xia Ruoxue. Now, take me to Ye's house first. I want to know about the situation."

Ji Lin smile disappeared: "I know, sister."

Ji Siqing thinks that Ji Siqing's camera and doggie's hand are obviously used to shoot Ji Siqing's camera.

The next second, the camera landed directly on the ground and turned into pieces.

Countless cameras were scrapped.

Weird to the extreme.

Ji Siqing gets out of the Beijing International Airport and takes out a picture from his pocket. The photo shows a young girl in an evening dress, smiling like flowers.

Looking at the girl in the photo, Ji Siqing's icy face also showed a smile.

"Ye Chen's blood is special. His fate can't be related to mortal women, but you have become his scale. I think things are not so simple."

"Xia ruoshue, I'm looking forward to meeting you."

Chapter 1144

An abandoned factory in the west of Beijing.

The abandoned factory was deserted.

Most people don't notice it at all.

But if ye Chen is here, he will surely find that there is an array under this seemingly ordinary abandoned factory!

And the operation of this array comes from a drop of blood essence!

Blood essence from ye Chen!

This abandoned factory is the back road for ye Chen to leave the dark hall of China.

When he left China, he had imagined that something might happen to the dark hall.

Although the dark hall was not afraid of everything at that time, he still made this plan.

There is a very strong shielding array outside the abandoned factory. It is very difficult for the strong to find out!

At the same time, there is another world under the abandoned factory!

Technology and spirit stone pile up!

It's extremely hard to break through.

The abandoned factory is on the sixth floor.

Lu Lingfeng, the Dharma protector of the dark hall, paced back and forth outside a gate.

After ye Chen and ye Lingtian, the master of the hall, left, the news of the two people seemed to sink into the sea.

At first, ye Lingtian went to Kunlun Xu to find the master of the hall. He promised Lu Lingfeng that he would send letters back every month.

But after so long, there was no letter.

The key now is that everything around you has changed.

Lu Lingfeng thought that his strength, together with the guardian, even the official power, the Ye family and the dark hall, were invincible.

No one is qualified to shake.

But now, he found himself wrong.

There are people out of the sky.

A group of strong people suddenly came to China, the first few old people, the breath is extremely terrible!

Wave between will some dark hall strong person suppress!

This group of people ruthlessly occupied the entire Chinese leaf family!

Not only that, but also looking for all the news about ye Chen!

Of course, the official side has promised Ye Chen to guard the Ye family, but in the face of such a top-level strongman, they have to compromise.

Those guardians fight, the final result is turned into a blood mist!

It's not a level at all!

This is the biggest crisis he encountered since Lu Lingfeng was in charge of the dark hall.

He knew what his mission was, so he brought Xia Ruoxue and other people here at the first time, and let people take the information to Kunlun Xu.

All he can do now is wait!

But how long can this place last?

He doesn't know.

"Creak!" Suddenly, the door opened behind.

A girl who seems to come out of the painting appears in front of Lu Lingfeng.

The girl's eyebrows and eyebrows are like the most satisfactory existence of God.

"Miss Xia, what's the matter?" Lu Lingfeng was careful.

He knew the relationship between the girl in front of him and the temple master.

Xia Ruoxue's beautiful eyes flow: "I have been here for a week, do you want to continue to stay? Can you tell me what happened? I should have the right to know. "

"What's more, my accomplishments are not bad. I can protect myself."

Lu Lingfeng shook his head like a rattle drum: "Miss Xia, this time those people are likely to come to you. The key is that their strength is extremely strong. Hundreds of people have died in the dark hall. The loss of the dark hall is nothing, but Miss Xia can never have an accident."

"This is what the Lord of the temple told me at the beginning."

Hearing the two words of the hall master, Xia Ruoxue's Pink fist immediately loosened, turned and walked toward the house: "I know, but I'm not a man who is greedy for life and death. I'll wait a few days. If the storm is not over, I'll go to him in person."

"I'll go to kunlunxu to find him."

"I wish he It's still alive. "

The door closed and all was silent.

.....

At the same time, it's a place for body building.

Ye Chen has come out of the cave and appeared in front of the people.

His whole body exudes the rolling evil spirit and blood gas, and his arm is wrapped with thunder and lightning, which is extremely frightening.

He looked down at all the people in front of him and said faintly, "are you all here for death?"

Words fall, a fury!

"Asshole!"

"You are so arrogant that you dare to kill Kui Mu

"Today, I, the willow God, will personally seize you and give it to the demon king to deal with!"

Willow God will be furious, their own murderous came over, the results of the other party is actually such an attitude!

What qualification does this kind of human mole ant have!

Provocation!

Extreme provocation!

A small waste of Daoyuan state used some treasures to kill Kui mu!

You think there's no one in my destiny court?

But let willow God fear most is the little yellow around Ye Chen. After all, Xiao Huang's breath is far above the emperor's realm.

"All of you, together!"

"If you kill that beast, I will deal with this boy who knows nothing about heaven and earth."

Willow God will be all over a shock, countless branches from the body extended, connecting the surrounding trees.

All of a sudden, tens of thousands of branches flew out, connecting countless trees. These trees grew rapidly, reaching a height of 100 meters, forming a trapped formation, surrounding yechen and Xiaohuang outside the cave!

It committed suicide, barehanded, faintly hit the road empty explosion!

"Looking for death!"

Ye Chen also made a fist out of thin air, and the infinite strength of blood rushed out, as if to sweep the nine sky palace, one strong, one heavy, heavy stack, as if to cover everything around!

Along the way, ye Chen's violent fist hit three gods and generals of the emperor's Zun state, as well as many worshippers of Daoyuan realm.

Bang!!

Bang bang!!

A plant of demon plants burst out in the air, and the source of life in the body spilled out, falling outside the cave one after another.

Demon plants are different from monsters. They are all made of plants and plants. The source of life in the body is all liquid. In other words, these liquids are the source of water. A small bottle is enough to prolong the life of ordinary people for a hundred years.

For a monk, it is an excellent treasure for tempering the internal organs.

However, Kunlun emptiness is extremely rare. At this moment, ye Chen smashed the three emperors' worship environment demon plants and the ten Daoyuan realm demon plants. The original water overflowing from the single source is more than the extreme!

"Good thing!"

"If you take this thing back, you can deceive many practitioners who have little life span!"

In the sky, the fist seal is getting faster and faster, and directly collides with the fist of the willow God general.

Boom!!

A big bang!

The willow God burst his left hand, and looked at Ye Chen in awe. How could human beings in the original world break my branches?

I'm the emperor! Even under the outbreak, the strength can reach five levels of emperor Zun!

"Five layers of sky?"

"Just use your demon core to temper the power of the soul!"

Ye Chen shoots out with Jiuyou sky killing spear, and one of them shoots out. The power of origin and the power of blood burst out. It turns into two great lights, tearing everything apart, blocking the retreat path of liumu God general. Then one of them is right in the body of liumu God general.

Bang!!

Like the Wanjun hammer, the willow God will be directly pierced, leaving a green hole in his chest.

Willow God will be shocked to see all this, is still in a panic.

Does Daoyuan state destroy the emperor's realm?

This, this, this is impossible?

Chapter 1145

Since its establishment for three thousand years!

No such thing happened!

"Still in a daze?"

"Ten geniuses are not as bold as you are!"

Ye Chen joked. As soon as he got down to the willow God general, he made a fist with his left hand. The fist force was as continuous as the Yangtze River, which made the willow God General burst in many places and spurted out green water!

Five layers of heaven?

It's no different from rubbish!

Even the elder at the same level of qingtianmen can at least block my moves.

This demon plant does not even have the concept and idea to fight back!

It's no wonder that the grass and trees have become the essence of this kind of fighting consciousness.

"A shot in the sky!"

Ye Chen murmured a word, holding the Jiuyou sky killing gun. The body of the gun was full of magic light, and a destructive force broke out.

A shot pierces the neck of the willow God, and the destructive power destroys his soul in an instant!

Bang bang!!

Bursts of burst sound came out, and the hundred gun Gang broke out from the willow God's body!

heaven's destiny court!

Another God will fall!

Three moves!

Three moves are killed by Ye Chen!

"Run!"

"Run, run!"

"The great general has fallen, run quickly!"

The other seven or eight demon plants turned their heads and ran away, and all the gods and generals of emperor Zun state died.

Their cultivation of Daoyuan state is so powerful that they don't fight at all. In a blink of an eye, they have already run for tens of kilometers!

"Run?"

"Just in time, inform your demon king to come in person!"

"This time, if I kill your demon king, I will be able to enter the period of hegemony!"

Ye Chen smashed the Liu wood general's trapped array with a sword, seized the corpse and went back to the cave. The aftermath of this battle was spread directly through many monsters and demon plants nearby, and soon the other three royal courts will also know.

At that time, we will send demons!

I'd better wait for them to come!

Back in the cave, ye Chen takes out the core of these demon plants and the original water, and begins refining to enhance the power of the soul.

Now, ye Chen feels that this body refining place is a treasure land, full of monsters and demon plants, and there are a large number of demon clans in the emperor's Zun state. If you kill a few groups at random, you can quickly break through the power of your soul and the realm of body refining.

.....

There's peace over there.

In the middle of the hall, the prince and the queen stood at the edge of the maple tree and began to marry

"A bow, worship the demon emperor of the land of refining body, thank the demon emperor for governing the demons, and his achievements cover the sky!"

"Two bows, thank the blood spirit clan elders, save the demons in the fire and water!"

"Three bows, thank you for your parents' kindness

It as a wedding demon, full of blood, seems to be a God in the six layers of heaven!

It said solemnly and solemnly, "after Li Cheng, the prince and the princess should keep watch and help each other. They should take killing human beings as the main task, do their part for the place of body refining, and take the task of killing Kunlun void and even the Chinese people as their own duty."

Demons have been enslaved by humans for a long time.

"Father The maple prince took up a cup of blood wine and said, "this is the wine made from the human blood in the place where the body has been refined!"

"The son minister with this wine to the father king!"

"I also respect that in the future, we will not share the same fate with human beings. Our demon clan should take the task of destroying the human race!"

"The king is very glad to have such a heart." When Zhongsheng is also the place where human beings have been extinct for thousands of years, the blood wine made from human blood has a unique taste and is very popular with demons and beasts. There is not much left in these years. Basically, it will be taken out for drinking only when there are major events!

Just as the king of the demon of heaven and the prince of maple drink human blood wine, another God will rush into the hall.

"King, no, the human friars are too strong!"

"The willow gods will die, three gods will die, seventeen venerable men will die in battle, and ten will die!"

"Bang!" God ordered the demon king to suddenly put down his glass of wine. It was already a time of anger. Today, on his 4000 year old birthday, his son got married. The Terran monk actually killed his God generals again and again. It's disgusting!

"King! I ask for war

"King, I ask to go to war!"

The two beings, who are full of violent atmosphere, stand up one after another.

They look at each other with contempt.

The tiger demon sneered and said, "king, I am willing to lead the gods to kill the human friar!"

Willow that waste, become the emperor's five layers of heaven for thousands of years, not to step forward to be killed is normal!

I have been in emperor Zun for 1500 years, and I have already touched the threshold of six layers of heaven, which is several times stronger than liumu. It must be feasible to kill the human warrior, and even show it in front of the king!"King!"

"I'm willing to fight, too!"

"I will lead the generals to destroy this human warrior

Many gods and generals have asked for their gifts. Many of them are in the shape of five or six layers of heaven in the emperor's Zun state. The prototype of the road is almost 50-60 percent perfect.

In addition, their physical bodies are far better than Kui Mu and willow gods. Once they fight, they are even more reverent than the monks in the seven layers of heaven!

Monsters and demon plants are very large in size and contain more blood than the same level of human friars!

Moreover, the monster contains pure blood gas, as well as brain nuclei.

The demon plant will condense various kinds of strange demon fruits from time to time, which is also of great help to the completion of the prototype of the road. The demon clan of the same level and age can almost crush human beings.

In ancient times, if there were not many powerful people in Kunlun's Xuhe Taoism, who were able to suppress the demon clan, and took them as mounts and slaves, I'm afraid that the losses would be more serious after the war with the Xueling clan.

Behind it, there is an endless way to welcome the king

"The demon king shakes the sky and destroys Kunlun void..."

"The demon king is invincible..."

The images of monsters and animals are all the scenes of the people in the rudiment of the road, which is the king's way.

However, after entering the realm of emperor's respect, no matter whether people, demons and ghosts are perfect, they all depend on the degree of perfection of the rudiment of the road. Ten percent of the completion is one layer of heaven, and 30 percent is the third layer of heaven. So on, until the completion reaches 99 percent, the integration of the power of immortal utensils, with the help of which, a road can be improved, and one belongs to the direct road.

At that time, as soon as the road comes out, heaven and earth will cry, and they will enter the realm of God!

"Father

"My child is getting married today. How dare this human monk be so presumptuous?"

"Children ask to lead the heavenly army, hang this man, and then kill out of the demon world, attack Kunlun Xu, exterminate the Terran!"

The maple prince was serious and determined to say: "the wedding ceremony has been saluted. After that, I will take the destruction of the human race as my own duty. Please allow my father to lead the 200000 heavenly army to go to war!"

200000 Tianming army!

One hundred thousand monsters, one hundred thousand demons!

No matter how strong the human warrior is, he will surely die!

Chapter 1146

Every hundred demons a commander, the commander for the virtual king!

Every thousand demons have a thousand generals, and thousand generals are the source of Tao!

Every ten thousand demons will be a God, and the gods will be the emperor's place of honor!

Every 100000 demons are a great commander, and the great commander is the five layers of heaven in the emperor's honor!

Such a powerful army of destiny has a total of 200000 people. They have a joint attack with each other. I don't believe we can't kill this human warrior!

Even if he can't kill him face to face, he can be trapped and killed only by being trapped. How can such a large heaven appointed court make a human warrior powerful!

"Good!"

"My son is the realm of emperor's respect. No one of my peers can compare with you in the field of body refining."

"If we can't kill this man, we should consider carefully the role of the existence of Tianming army."

The king's majesty of the God ordered demon king came out in all directions, giving the demons a feeling of dark clouds, which made them breathless.

It is staring at the back of the demons, thick fingers, very rhythmic beating on the table, heart secretly thinking: human? Can't wait?

Hum, in ancient times, such insults would never die if we rode on them!

Now the four royal courts have trained millions of troops to attack you!

It's just around the corner!

Wang, you need to think about it.

Do you need to wait until the 5000 year deadline arrives and attack Kunlun empty again!

Five thousand years!

After the end of the ancient war, the Xueling clan moved 95% of the monsters in Kunlun to the place of refining their bodies, and ordered them to attack Kunlun Xu five thousand years later. All the other human beings except the lineage families which had already submitted to the blood spirit clan should be killed!

For five thousand years, there are 100 monks every 100 years, which means that there are 5000 friars in the emperor's honor. They are the basic number of slaughters to be given to the blood spirit clan!

In the 5000 years, there will be several emperors left in Kunlun Xu, and there are no spiritual monks. How can they block the place of body training? After killing Kunlun Xu, they will completely take down Kunlun Xu and send War soldiers and beasts to the blood spirit clan!

Destiny court!

Dispatch the troops and deploy the troops, and 200000 heavenly troops will be sent out!

More than 100 Daoyuan realm, ten emperor worshipped God generals, and some god generals attached to the animal kingdom. A total of more than 20 gods and generals joined hands to kill Ye Chen!

What's more, even if they are the top strong in the emperor's territory, they can hardly escape from the joint attack array arranged by the 200000 Tianming army!

Just when they are deploying troops, ye Chen has quickly absorbed the demon cores of various demons, as well as blood essence, to temper the power of soul and body!

.....

On the other side, in the Royal Court of Lianyuan!

The demon king of Lianyuan is entertaining many gods and generals in the hall. The place is the former site of Baijian League. In the first World War of ancient times, the whole faction of Baijian League was destroyed, and these demon kings and God generals established their own royal courts on their former sites.

As for the former site of yushuzong, it seems that the "demon emperor" occupied it.

"Gods and generals!"

"After the training of Lianyuan army is completed, we will wait another two thousand years!"

"A hundred years ago, I received a message from the blood spirit clan elders. As soon as the five thousand year period comes, the demon emperor will lead us into the Kunlun void." The demon king of Lianyuan said excitedly that it was covered with gray luster, which seemed to be the essence of a "sky full star".

Not only has this "sky star" become fine, but also under the Wanyao Tianting, Lianyuan Wangting, one of the four royal courts, has been established.

As a demon plant, one's cultivation is also extremely terrible.

The demon king of Lianyuan, together with dozens of gods and generals, welcomed a cup of human blood wine. He said slowly, "in the future, after breaking through the Kunlun void and exterminating the Terrans, Lord Kui intends to arrange for us to go to the northern region star region to participate in the battle of Beidou Protoss."

"According to Lord Kui, the Beidou Protoss stands on the Beidou continent, which can be regarded as Zhongwu level plane, and there are Hunyuan state masters in it!"

"What's more, there are many first-class immortal utensils, and there are also second-class and third-class immortal utensils!"

"In the future, it is also feasible for us to step into the realm of God and ascend to the realm of God King again. Opportunities lie ahead, and we will be brilliant in the future."

Beidou Protoss?

What's that? The blood spirit clan elders have been preparing for 3000 years, and we have millions of troops from Lianyuan Wangting to help the blood spirit clan. We still worry about attacking them!

"King!"

"There are 200000 Tianming troops mobilized in Tianming Wangting."

A general of gods went into the hall to report: "it seems that a human friar came to the place of body training. After a few moves, he killed general Kui Mu and General Liu mu. The prince of maple mobilized his army, probably to exterminate that human being!"

"Human beings?"

"Can you detect the human condition?"

The demon king of Lianyuan looks calm, but he says in his heart, "is it difficult for Kunlun to attack our body building place?"?

But that's impossible. Kunlun Xu has been beaten down by the blood spirit clan for three thousand years, and more than 2000 emperors have fallen. How can they still have the strength to attack our body training place?What does the human monk mean when he enters the place where I practice?

"Report to the king, I learned from the demon plant near the human friar!"

"The human warrior came in through the passage. As soon as he came in, he killed Kui mu."

"Then, the king of heaven sent the willow God general to revenge, but he was defeated by the three moves of the human friar again!" The general was a little uneasy and whispered, "the human beings even want to kill the demon emperor!"

"Presumptuous!"

"Arrogant!"

"Asshole!"

Immediately, several gods and generals suddenly stood up with indignation on their faces!

For so many years, it has always been our demon clan that devours human beings, eats human flesh and drinks human blood wine. If a little human race dares to speak like this, it is absolutely against the law of heaven. It will surely be destroyed by the way of heaven!

"Lord, this human dare to challenge our demon clan, I must shoot him!"

A God will be indignant. In his eyes, the human race is equal to food. How can food go back to the Lord, let alone eat the Lord!

"Lord, this man is arrogant. I will peel off his skin, make a bone cup with his head, and make his blood into blood wine!" The other rose God was equally indignant and trembled.

"What is the cultivation of the human warrior?"

"How old are you and what school do you come from?" Lianyuan demon king asked slowly, it is more calm, but there is no excitement.

It is a big demon born in ancient times. It is often seen that the big demon is skinned and cramped by human beings and made into various kinds of food. It has been used to it. It is not like the two gods and generals. They were born in the last three thousand years. They have different ideas.

"According to the reward of the venerable!"

"That human being is very young. It seems that he is only in his twenties. In terms of breath, the source of Taoism is about forty-five layers of heaven, but its combat power is at least comparable to that of emperor Zun's five layers of heaven!"

"As for which faction?" The general was a little bit difficult, and said: "from the point of view of the moves, it seems to come from the blood gate of night, but it seems to come from the broken undeniable sword school. It looks very complicated, but it is very pure and has strong fighting power."

Chapter 1147

"Night blood door?"

"Immortal sword school?" The demon king of Lianyuan looked puzzled and whispered: "a sect that has been destroyed, a sect that is about to be destroyed! Is this man the descendant of the immortal Lord and the seven night God

"Or is this man a pathfinder sent in by the xuzhu sect of Kunlun?"

"Kunlun Xu, do you want to attack my body training place?"

"According to Lord Kui, there are not many people in Kunlun. They know that there is a place for body training. They can't attack our place of body training."

"Well, meteor God, hundred flowers God

"You lead 5000 Lianyuan troops to go, accompany the Tianming army and hang the human warrior together!"

"Bear in mind that the main way to kill the enemy is to look on the sidelines, or hand it over to the destiny army."

The demon king of Lianyuan showed a smile of evil spirit and said: "the old man of destiny lost several gods and generals all of a sudden. It's enough for him to be distressed for a while. However, judging from the fighting power of the human friars, they can kill at least thirty or forty thousand heavenly soldiers! "

"It's good to weaken the fighting power of the landing heavenly destiny army!"

"moreover, meteor God general, you two should pay close attention to the situation of the passageway, so as not to lead a large army into Kunlun!"

At one point, the two gods and generals were ordered one after another.

They went out to mobilize the army, but the other ten gods and generals in the temple were puzzled. A human warrior had mobilized so many demon beasts and demon plants to kill them, which was the place of body refining.

"King!"

"In the future, we will attack Beidou mainland, or will we be the vanguard Another general slowly said, "if we are the vanguard and wait to enter the land of Beidou, we can snatch many immortal utensils and advance to the divine realm."

"You're the emperor who respects the six layers of heaven. Don't worry!" Lianyuan demon king took a long breath.

"Lord, after two thousand years, I will be almost the emperor's nine layers of heaven!"

Xu Hui, the king of blood, said: "the king of blood is incomparable!"

"Plunder the resources of the middle and low level, cultivate the strong in the middle and low level, and then cultivate the strong with war, so that these strong people can grow up to fight the higher level!"

"As far as I know, the blood spirit clan has been fighting against eight aspects at the same time and has seized a lot of resources."

"Well, let's not talk about it for a while." The demon king of Lianyuan said with a smile: "tell me about the human warrior. The four layers of heaven in the source of Tao can destroy the five layers of heaven in the emperor's honor. Even in the ancient times, this king never heard of such a rebellious human being!"

One of them thought for a moment and said, "according to the situation of the ancestors of the blood spirit clan and the place where we train our body, the four layers of heaven in the source of Tao can fight against the heaven and the emperor can respect the six layers of heaven. First, the body must be strong; second, the attack power is incomparable!"

"At least, this man's body is at the bone setting stage for the most time, which can be comparable to the gods and generals!"

"Second, the inability to attack may be due to the fact that they have inherited the seven night God King, so their attack power is extremely strong!"

Generally speaking, the blood power of ordinary emperor Zun state is about a million catties, which can tear up a strong array at most.

In Daoyuan state, it is between 100000 and 500000. If you have a million jin of blood power in the Daoyuan area, combined with the flesh body in the coagulation period, you can kill the demon beast in the emperor's Zun environment against the heaven.

Generally speaking, Kunlun empty and the place of body refining all cultivate four kinds of strength.

One is the power of the soul. After entering the divine realm, he also cultivates the secret method of the soul and attacks the enemy with the power of the soul, or uses the power of the soul to form a sword seal of heaven and earth to block the soul of the enemy and achieve the goal of control.

A kind of power of blood. The power of blood is strong enough to tear up the nine layers of void, and even can fight the monster into martial arts.

The third kind of physical force can be divided into three stages: breaking body, coagulating bone, dominating body, and transforming vigorous, empty body, spirit body, magic power, soul breaking and immortality. Each phase of the body will undergo qualitative changes.

The fourth is the rudimentary form of the road, which starts from the source of the road, until the nine layers of the road are perfect. After being promoted to the emperor's realm of honor, he changed himself into his own way, or "Kendo" or "immortal way" and so on.

There are thousands of roads, countless, and everyone has his own way.

The four forces complement each other and break the mirror. If we don't reach the time of breaking the mirror, and the strength of blood and body is very strong, it is also feasible to cross a large realm to kill the enemy, but it is very difficult for the low-level people to do so.

For example, the strength of the spirit of the willow general is weak, which can be ignored. The strength of the blood is only 700000 kg. Ye Chen, who is 1.7 million kg, will surely lose. The body of liumu God general is the Ninth level of the broken body stage, and ye Chen is the ninth stage of the bone coagulation stage. It is normal for one to be killed face to face.

"Let's see!" The demon king began to ponder.

However, on the other side, there were lots of monsters and monsters, and a large army of demons and plants began to attack.

And their target is the outsider, ye Chen!

Prince Fengmu led 200000 Tianming army and completely surrounded the cave. Beside it, there were more than ten gods and generals such as tiansu and silver carp. There were 25 gods and generals participating in the war, which meant that there were 25 monsters and beasts in the four layers of emperor's dignity!Such a lineup, if it is other human beings, will surely die.

"You rebellious human beings, dare to go against the sky and die!"

"Besides, if you dare to kill two generals of our Dynasty, you must pay the price of bleeding!"

"Come out as soon as possible. I may consider giving you a happy one!"

Maple Prince shouts, but ye Chen is both hands negative behind him, incomparably calm.

His eyes were indifferent as if he were a fool.

The maple prince saw Ye Chen did not mean to compromise at all. He burst out a fury of blood in an instant, and roared: "the heavenly order army, set up the array, trap and kill this man!"

"Yes, Prince!"

In a flash, the 200000 tianmingjun moved into three circles and surrounded the cave layer by layer.

Each monster animal and plant was arranged in accordance with the special array position. Suddenly, there were bursts of brilliance at the foot of the array. The brilliance rose from the sky and connected with each other. With each thousand people as a group, twenty groups of light rushed up to the sky, as dazzling as twenty suns!

Click!!

Click ~ ~

a road of light broke apart, and out of it came a god general with a war gun in his hand. His breath was terrible. He was the 20 war generals who gathered together 200000 demon clans. Each of them had the flavor of emperor's dignity.

Each thousand people are a team, and the team leader is just the source state of Tao. At this moment, he is the God general who condenses the emperor's dignity!

What's more, the original general of ten thousand people is also the cultivation of emperor Zunjing.

At the moment, after the formation of 200000 demon clan, plus 20 gods and generals for every 10000 people, there are 40 powerful emperors. Even daozong doesn't have so many emperors.

Moreover, this array should be from the blood spirit clan, which can better play the advantage of the number of people.

"Twenty emperors respect the realm of monsters?"

Do you really think you can surround me

The corner of Ye Chen's mouth outlines a evil smile.

But soon, the smile subsided.

The rest is cold.

Chapter 1148

Ye Chen's cold eyes swept over all the people in Tianming army and thought: "there are so many demons in the emperor's respect realm. Although there are no monsters above the six layers of heaven, they are enough to let me step into the period of dominating body!"

His eyes suddenly fell on the maple prince, and his face was cold: "do you think my appearance should not?"

"Not bad!"

"The general of God is the general of God. It is treacherous of you, a humble human being, to dare to kill him!"

"Since ancient times, the Terrans have looked down upon our demon clan. It is normal for our demon clan to kill and eat people. But if the Terrans dare to kill us, it is immoral!"

At the moment, the maple Prince is very domineering, with black hair dancing, like a madman, and his whole body is full of blood. He is a guy with six layers of heaven in the emperor's honor, but he will not be old in the next year.

Otherwise, I can't say that.

"God?"

"You mean your demon emperor?" Ye Chen is interested.

"Yes Maple prince took out a bone cup, the corner of his lips outlined the evil spirit of the smile, said:
"human, you have a good look, this is the bone cup I made with the skull of your ancestors. You lowly human beings, only deserve to be our slaves, we may not like you!"

He also took out a pot of wine and slowly poured it into the bone cup, overflowing with a strong smell of blood. "Human beings, this is the blood refined from your people's blood. How? Don't want to have such an end? Surrender quickly!"

Humph, Prince Ben's deterrence, this human dare not speak!

It seems that he is just a fledgling boy!

My bone cup is made of the skulls of the Taoist monks. It gives off the original flavor, which is enough to frighten him.

"Ah! The prince is too reckless Tiansu will sigh. The maple Prince is indeed reckless to threaten others by using the human race. If the coward is a coward, he may have surrendered, but the man in front of him is not a coward, or even a cruel stubble.

Otherwise, how can we kill the willow God in the four layers of heaven in Daoyuan?

"Surrender?"

"Well, you don't have to live!"

Ye Chen stabbed out a gun, and in an instant the world changed color.

A gun Gang stabs out and returns to the nature. The power of a million catties of blood is contained in it. It does not spread around. It goes straight to the maple prince with the breath of destruction. It comes from the immortal kendo.

"Prince, be careful!"

"This man is strong!"

The silver carp God will quickly rush to the body, and a hundred feet silver carp will appear and block in front of the maple prince.

The moment the gun Gang touched the ground, the violent force of blood directly covered the whole body of silver carp, and then a bloody cave appeared. Before hitting the maple prince, he directly shot at the five gods.

Bang bang bang!!

Bang bang!!

A series of crackles came out.

All the five gods will be pierced through the flesh and incarnate into noumenon.

Three monsters, two demon plants all destroyed, the whole body was blasted, and the soul was destroyed!

"Help, help, help me!"

"Uncle Tianshu, help me!"

Maple prince was directly locked by gun Gang breath, staring at the gun Gang flying, as if to see a mountain flying, block can not block, escape can not escape!

At the moment, it just found that they seem to have provoked people who should not be provoked!

The emperor's reverence of monsters is fundamentally different from that of human beings!

If it is the same realm, human beings will surely crush it if they have the blessing of Gongfa!

Six gods!

In an instant, all fall!

"Save the prince!"

"Turn around quickly, save the prince!"

"The transformation God will hand, resist this gun Gang!"

Many generals yelled, trying to come to the maple prince. At the same time, they shot out all kinds of sword Qi and sword spirit, trying to resist Ye Chen's gun Gang!

They don't know if they want to fight. They only know that maple Prince is the only son of the demon king. If he dies, he and others will be abandoned!

In the distance, the people in Lianyuan Wangting were so shocked that they couldn't close their mouths!

In particular, the Baihua God looked at Ye Chen, who was like a murderous God beside the cave, and murmured: "what kind of strong people have been provoked by the destiny of the royal court?"

Facing the 200000 destiny army alone, there is no fear!

Even take the initiative to attack, a gun Gang, kill six gods!

No, that gun Gang, and killed two God generals!

Is this the source of Tao?

"This human being is not only physically strong, but also has at least 1.8 million jin of blood. Otherwise, the explosive force will never be like this."

"Even, he seems to have cultivated the three unique weapons of the heaven!" The meteor God's eyes are fierce and see the way of many ye Chen.

"Three unique guns in the sky?" "What kind of martial arts is this?" he asked

"In ancient times, Kunlun Xu was the most powerful man in the clan." "When the gun Gang came out, it broke the nine void. Even if it was the combination of Taoism, it was absolutely impossible to resist it!" The meteor God has survived for thousands of years, and has seen the ancient wars in those years, so he thinks of the cableway: "it is said that there are nine Hedao realms and twenty-seven Hunyuan realms among the strong blood spirit people who fell under the three unique guns of the broken sky."

"Very strong!"

"We'd better,"

"this person is very likely to be the inheriting disciple of the most powerful!"

After hearing these words, the Baihua God general was not satisfied with it. He snorted coldly and said, "is it difficult? The strongest one can still survive?"

Just as they were talking, there were a few more crackles!

Destiny army!

There are three gods will fall, also fall in that gun Gang!

Eleven gods and generals died before and after the war, including silver carp God general, the old generation of six layer heaven in the emperor's Zun state, were all killed.

All of them were pierced in the heart by a shot, and the soul was destroyed, but the demon core was not broken.

"Did I let you go?"

"Small monster, but also to turn the guest, reverse the road theory?"

"My existence is sinful? Ridiculous Ye Chen's eyes are deep, and the light of reincarnation lingers around him, just like a demon. His eyes scan over 200000 Tianming army, one against 200000 army, step by step!

He said: "originally, I had the intention of subduing your four king's courts and even your formation of Wanyao Tianting."

"Unexpectedly, you dare to spoil the remains of our ancestors!"

"Then, you 200000 demon clans, all dead!"

"No, all the demon clans in your body refining place must die!"

Blood spirit clan, not so much, but also torture the living!

These demon clans will not let go of the dead. If they spoil the remains of their predecessors, they will die!

Even if I Ye Chen is badly hurt, I will kill the demon heaven!

"Sword gate!"

"Manifest!"

Ye Chen takes out the sword of chopping the dragon and asking the sky. With one sword, the triple void is broken. The infinite sword Qi shoots out and turns into stars all over the sky. It forms a hundred Zhang sword gate in the air. The power of the sword is so powerful that it can kill the gods and destroy the Buddha!

Chapter 1149

At the moment, ye Chen's killing intention is like a strong wind covering everything!

He held the Dragon tightly with five fingers, asked the sky sword, and pointed to the maple prince.

"No death, no death."

Light words, so fall.

Maple Prince has never been so embarrassed! How ever have you been insulted by a mole ant!

His eyes are filled with endless anger!

"Damned human beings!"

"You'd better think it out for me. I'm the prince of the court!"

"Even if I am not dignified enough, my royal court has a million heavenly troops, a total of 200 divine generals and thousands of monsters. You must dare to kill me!"

"If I die today, heaven will break through the void of Kunlun!"

Maple Prince is also Mang, see ye Chen want to kill himself, also ignore directly jump out to shout, think ye Chen must take the overall situation into account, do not kill himself!

Ye Chen shook his head helplessly and spit out a word: "chop!"

As soon as ye Chen's voice fell, it was like a rain curtain pouring down!

Innumerable sword Qi has worn out a monster. In Daoyuan's territory, if it is touched by sword Qi, it will be destroyed on the spot!

Ye Chen's face is a little pale, and the power of Qi and blood in the body is used too much. It is necessary to supplement one or two.

He took out two bottles of essence blood of the demons in the emperor's Zun realm and drank them directly to absorb the power of Qi and blood. After all, the sword movement of Jianmen manifesting consumes a lot of energy. Once can be played, it will consume most of his strength. So far, the kampi emperor respected the six layers of heaven and gave a full blow!

Bang bang!!

Boom!!

A monster's body burst open.

Even if the demon plant turned out to be noumenon, he couldn't work hard in the future. It showed that the speed of noumenon was fast, but the goal was also big.

In the twinkling of an eye, two hundred thousand swords will break through the sky.

After only 30 seconds, the mountains and forests were covered with blood red, countless pieces of meat were stained on the trees, and the dry soil on the ground had turned into blood color. Still more than 20000 demon beasts and 20000 demons were killed!

"Human beings!"

"You Ah, my destiny army

"Let go of me, I will fight him to the death!"

The maple Prince's eyes were about to split, and he personally mobilized the gods to build the army of destiny. After this war, it will be abolished if it is not destroyed!

More than 50000 demons were destroyed and 30000 monsters were severely damaged!

Even if we fight with other royal courts, even if we fight for a month, we won't lose so many demons!

This human warrior!

What a devil!

"Prince, go!"

"Prince, this man is a demon king level of existence, we can not stop, you go!" The God tiansu covered his chest and cried.

Tiansu will be pale at the moment, and his body has suffered heavy damage. The bloody hole in his chest spurts out a large amount of blood. Even his whole body is haunted with the idea of a world gun, which can not be dispersed for a long time. Even its own original foundation has been affected!

It's just a shot!

It's not the real body of the gun. It's just that the spear shot by the tip of the gun pierces the whole body. It's just that the gun's strong will sweeps over the whole body, and it can't be ruled out! It's hard to imagine how terrible this young man is!

Even if it is the king of the supreme destiny demon, there is no such terror!

"Prince, go away!"

"Report back to Lord Wang, this man is too strong. If possible, please inform him -"

a gun Gang penetrated the whole body of the demon plant, exploding countless original water and leaves flying out.

This is a willow into the demon plant, is also the God of the honor, but at this moment is a sword by Ye Chen, the soul is completely destroyed, the whole body of blood force burst out, if the waves swept away, instantly wiped out the seven or eight demon beast worshippers around!

Monster and beast worshiper!

They are all the strong people in the Daoyuan realm. They will be killed by the aftershocks of the explosion.

There are 200 thousand generals who are respected by the 200000 Tianming army. They are not qualified to fight at all!

Ye Chen, a sword and a gun!

It has wiped out the whole 15 gods and generals, which means the destruction of 15 demon families who have arrived in the imperial realm!

"Devil!"

"The devil, the devil is coming!"

"Run, don't pay attention to anything, run, this human is the devil!"

For a moment, the sound of panic spread all over the sky.

The army of destiny, which thought that it was the successor of the destiny, once swept the imperial court of destiny. At the moment, it made a sound of panic. The Ye Chen standing in front of them was like the Lord of destruction. Thousands of people would not be able to get close to it, and the aftershock alone would be killed.

The rest of the monsters, the virtual Kingdom and the holy land, could not even mention a trace of war spirit.

The man in front of me!

One man suppressed 200000 tianmingjun!

The heaven's order army, which was so arrogant, couldn't raise its head!

The key is to deal with a human being in the source of Tao. At best, he is a venerable!"Lost!"

"Defeated, ha ha ha, defeated ah, the so-called undertaking the destiny, sweeping up the Kunlun void, are what lies!" A God will stand on a giant tree and look at the scattered and fleeing army of destiny. He is filled with grief and indignation, and even has extreme emotions. "200000 of the million destiny troops are elite!"

"Not against a human being!"

"Sweep up Kunlun Xu and dominate everything? Ridiculous, ridiculous

"Kunlun Xu, a human being, is enough to suppress a great imperial court. What kind of war will we talk about after a thousand years?"

The monster talking to him, looking at Ye Chen, suddenly shivering all over.

It saw Ye Chen, just like seeing a god of death, murmured: "maybe Kui Mu and Liu Mu should not provoke you! Your strong, let us can not fight, I only ask you to let go of maple prince, because It is the only prince in the royal court

"What do you want? Maybe the king will give it to you!"

"I'm just asking for your permission..."

"Permission? Maple prince? How can I let go of wine cups and wine made from the remains of our ancestors Ye Chen's whole body was burning with fury and blood. He rushed into the sky and dyed the sky with blood. If he took a step, it was as if the mountain trembled, and in an instant he exploded thousands of monsters.

Ye Chen, the flesh body of conggu period, the blood gas in the body breaks out, it is too strong!

His eyes are flowing with another blood month.

There was an accident in Huaxia, and Xia Ruoxue was in danger. He could not go to Huaxia immediately!

It made him angry!

And these people can only bear this anger thoroughly!

No matter who it is, they will be killed on the spot!

Blood burst out, on the ground, countless monsters were broken, blood flowed everywhere, countless demon plants could not bear the blood and burst!

Once brilliant, invincible force of destiny, manly and high spirited to kill over, the result is to send demon core and blood essence to Ye Chen!

200000 Tianming army!

Just now the blood gas burst, it has fallen 30000 people!

Heaven's destiny army is not all the realm of Dao source and Xuwang. Most of the demon clan's realm is just the realm of Zhenyuan and Shenyou. With them, ye Chen is the demon God who destroys the world, and it also destroys the heaven where it trains body!

Chapter 1150

"Want to run?"

"You are not qualified yet!" Ye Chen feels that he is not strong enough, otherwise, the army of 200000 demon clan dare to attack and kill himself!

He stretched out his left hand, and his blood burst out. He was in the air and condensed a big hand. It was like a cloud of blood. He crushed the maple Prince and sprayed blood out. Even the demon core and blood essence were left for him.

"Ah

"Man, you've killed the queen of heaven's court!"

"Human beings, tell your name, I will never let you go!"

Just now, the God general, who was still trying to make things better, was completely mad. His whole body broke out like a bloody man. He swept over countless monsters and was directly hit by it into a blood mist. It seemed that he had burned his whole body's blood and soul and fought for his life!

Bang bang!!

Bang!

The disorganized army of destiny fled to the East.

It killed from the west, dare to block it, whether it is the Zun or the commander, are killed.

"Remember, my name is ye Shitian. Your body is good!"

Ye Chen saw that the God would kill hundreds of monsters, "conggu period, seven steps, interesting!"

He slightly raised his right hand, a huge invisible force directly imprisons it, grabs it out of thin air, and says plainly: "you are just a layer of heaven in the emperor's Zun territory, maple is killed, and other demon families of emperor Zun territory are running for their lives, but you are the only one who wants to explode and fight for your life!"

"A loyal minister, too!"

"It's just that you shouldn't spoil the remains of my ancestors!"

Ye Chen waved a blow, blood burst, the God will burst out.

At this time, ye Chen's body has begun to degenerate, and even has reached the ninth stage of the bone setting stage, which is twice as strong as before.

"His flesh is stronger than before."

"The rudiment of the road."

Looking at the 16 emperors who died under Ye Chen, Xiao Huang thought, "if you peel off the rudiments of their roads, maybe you can let Ye Chen quickly improve the two roads."

"But, these monster's road prototype, good weak!"

"It's too weak to help Ye Chen. It may even weaken the power of Kendo and the way of killing!"

"Forget it!" Xiaohuang flies out and grabs a head of demon beast of emperor Zun state, "I help him take out the demon core and collect blood essence! There are so many demons and beasts in the emperor's respect, enough for him to break through the period of dominating body

Every time he thinks about ye Chen's arrival at the super sports period, he unconsciously laughs. How strong is the hegemonic period? It is very clear!

Once Ye Chen reaches the first level of the hegemonic period, even if the realm is not improved, the power of flesh and blood will be enough to shock and kill the powerful emperor!

As long as ye Chen is strong enough, he is also qualified to fight against Han Yun, who is the emperor's king!

A year later, ye Chen fought against the spirit state of the blood spirit clan, mainly relying on the flesh body and the rudiment of the road!

In the future, if you deal with Shenwang state, if the other side's body is not strong, then the power of the Lord's soul will attack and kill!

The body and the road prototype are the main defense.

The power of blood and soul, Lord attack!

Bang bang!!

Bang!!

Gun gang and sword fell from the sky!

After the destruction of many monsters and beasts, many heavenly soldiers turned into archetypes and fled for their lives. For a time, many birds and monsters appeared to try to escape into the air. However, no one knew who ran fiercely. The faster they ran, the faster death would come.

Another blow to the sword gate!

If this scene is not narrated, it is a painting. Ye Chen is like a demon who slaughters the heavenly army. The corpses on the ground are almost full of the ground, and there is no soil. The scarlet blood and the demon implosions overflow with green blood. As a pigment, the main body is to destroy more than 30000 flying monsters and fall on all kinds of trees in all kinds of ways. For a time, the smell of blood soars to the sky.

It will be over soon!

Ye Chen returns to the cave. He turns around and looks at the endless flat bottom. All the trees are flattened by the demons of the Tianming army. However, the remains of the monsters everywhere, up to the end of the vision, have a strong smell of blood, as if there had been a war in ancient times!

This war!

Ye Chen a dozen 200000!

He killed a hundred thousand enemies and killed seventeen monsters and beasts in the emperor's and Zun's realms. There were more than a hundred of them in Daoyuan's territory, and there were countless in the virtual King's realm.

The 200000 Tianming army is completely disabled. Only three divine generals and no more than 30 Taoist masters can escape. Even if they fight with the other three royal courts, they can't make such achievements!

Ye Chen Mou son is cold, swept in front of all.

There was a trace of blood on the corner of his mouth.

Although strong, but he also hurt a lot.

Fortunately, he has evil Qi and blood Qi to protect his body, plus the existence of blood dragon virtual shadow, otherwise he is not qualified to stand now.

He gazed at the empty shadow of the blood dragon above the sky.

The blood dragon absorbs endless blood, and its body is constantly huge.

Not only that, the surface of the blood dragon is covered with layers of scales.

The scales even had golden streamers."Is this a blood dragon to be transformed into an entity?"

Ye Chen murmured.

Many of the great powers of the samsara cemetery have said that the samsara cemetery is not his final card.

Blood dragon is.

Blood dragon is produced from his body, which is the source of his killing.

If it is completely transformed into a nine day dragon, the biggest beneficiary must be ye Chen.

However, at present, the blood dragon has absorbed the blood gas here, but there seems to be something missing, which makes it unable to transform into an entity.

The combat effectiveness has also decreased a lot.

When ye Chen was thinking deeply, Xiao Huang came to Ye Chen's side and said:

"your body is very strong!"

"This time, 15 demon cores were harvested. Two of them were directly destroyed by you. There is no way to collect them!"

"As for the blood essence, a little blood essence that can be used is enough for you. It is all above the emperor's dignity."

"You go to shut up, I and blood dragon will protect your Dharma!"

"I'm looking forward to your body entering the period of supremacy. Maybe you can touch my body!"

Ye Chen looked at Xiao Huang and nodded: "good."

The biggest purpose of his coming to the place of physical training is to refine his body.

Break through the body, it's time to leave.

Deep in the cave!

Ye Chen is immersed in a barrel full of blood essence. He wants to use the blood essence of these demons to temper the internal organs.

His whole body has been tempered in the bone setting stage. However, to enter the dominating body stage, he must hammer his internal organs into gold, so that his internal organs will not be broken even if he is attacked again.

Human beings are not monsters. Even if the upper body or lower part of the body is smashed and turned into blood mist, it can be produced rapidly by the power of Qi and blood. Even if ye Chen is at the Ninth level of bone setting stage, it is very difficult to survive once he encounters a very strong attack and his internal organs are broken.

However, it won't be in the period of dominating body, and the internal organs are covered by a layer of golden light!

As soon as the golden body comes out, it becomes a dominating body, which has the power to press the heaven and earth. Of course, this is only possible in Kunlun.

If the strong against the blood spirit clan, a little careless, lose all the game!

Nourishing and nourishing ~ ~

with the operation of the skill, the essence and blood quickly infiltrated Ye Chen's five viscera and six Fu organs.
