

Physician 1151

Chapter 1151

Ye Chen urges the skill to fill every organ with blood essence, which makes countless golden streamers all over the body.

There are many ancient runes all over his body.

Bang!!

Ye Chen clothes shake open, as if exposed gold skin, a burst of pressure rushed out, shaking the cave!

.....

In the distance, the God of flowers was pale and weak to the extreme.

The meteor God on the edge spilled blood, and his Qi and blood withered to the extreme, and his pupils were filled with fear. Just now ye Chen was so powerful that he only watched the battle. Ye Chen killed him with a fist from the air. He and the God of flowers fought hard to resist, but they were all seriously injured.

This will, it will use the blood gas to recover.

All the 5000 Lianyuan troops with him turned into blood mist under Ye Chen's fist.

The God of flowers recovered a little, and was still in a state of panic. "Human beings, never be enemies! Strong, too strong! "

A human warrior!

The martial arts of Daoyuan state have such divine power. I'm afraid it's no worse than the demon emperor!

I'm afraid the power of that blow is the king here, and it's very difficult to accept it!

"When we go back, we must report to the king. We must never attack Kunlun again!"

"The power of human beings is beyond the power of our demon plant!" It gazed at the distance to see ye Chen did not kill, just a long breath, "not a demon can resist. Come on, let's go back and report to the king! "

"Things have changed. The virtual root of Kunlun is not what we can touch in the place where we train our bodies."

Baihua God will change his attitude of scorning human beings just now, and he will run as fast as he can with the meteor. Who knows whether the human warrior will kill him or not. Once killed, the two of them will never resist each other.

Soon, they went back to the Royal Court of Lianyuan, and they staggered into the hall, attracting the attention of all the gods and wrapping the king of Lianyuan!

On the edge, a god general asked with a smile, "you two, what's the matter? Did the fateful army strike at you? "

"If so, I'll take revenge with you right away!"

"don't worry about revenge!" Another God General joked: "meteor, hundred flowers, not the two of you, deliberately to challenge Maple? I remember that the new prince and concubine have something to do with your nephew

If it wasn't for meteor and Baihua, these two guys would take the initiative to attack the destiny army.

Where can be beaten like this!

The origin almost collapsed, the strength of Qi and blood dried up, and the body collapsed.

This degree of injury, every seven or eight hundred years is not to recover!

It may be that when the Tianming army besieged and exterminated the human warrior, the meteor God General deliberately attacked the maple Prince and reported the hatred of robbing his wife to his nephew!

"Ghost talk!"

"Luyuan, what nonsense are you talking about?"

The meteor God will spit out a mouthful of blood, which is nearly exhausted. However, he still holds his fist and says, "Lord, it's not good! That human warrior is too strong

"Kill a man, 17 days!"

"Including, maple prince, was also pinched by him

"The 200000 Tianming army has been killed by it, and it has been defeated!"

As soon as this was said, many gods and generals did not respond to it. They were just like watching a play.

The king of Lianyuan, however, snorted coldly, and the meteor God general fell to his knees. "Do you think this king is easy to cheat

"200000 troops of destiny!"

"There are 20 divine generals. Besides, maple brings out 20 generals. The combined attack array can produce 20."

"So many strong hands, but still can not catch a human warrior?"

It stretched out his hand and caught the meteor God General in the air, and his face was cold. "If you don't tell the truth, I'll kill you!"

"King!"

The hundred flower god general also knelt down and called out: "the meteor God will say, it is true!"

It also spewed out a mouthful of blood, seriously injured and dying, and unconsciously said sincerely: "the human warrior really slaughtered most of the life army. It was me and meteor God who led the 5000 Lianyuan army, and they were all destroyed in one strike!"

"We are also trying to resist to survive ah!"

"Lord, please believe you

The king of Lianyuan had deep eyes and swept two generals. One lied, but not both of them!

He put down the meteor general, took out an array disk, forced out a drop of blood essence, blood essence fell on the array disk, the array disk suddenly burst out a ray of light.

Then he quickly pinched his fingers and closed his eyes.

He did not hesitate to use a drop of blood essence to check the war situation just now!

This technique is extremely exhausting. He seldom uses it!

But if the truth is as the two subordinates said, it is worth it!

If you don't know, you'll be scared.

What the two generals said is true!

Although it is impossible to completely restore the situation of the war just now, it is all explained by the corpses and the thick blood gas at that time!The key is a young man standing in endless blood!

Human youth!

At this moment, the king of Lianyuan was filled with horror!

"The king misunderstood the two generals!"

"You are lucky enough to come back alive in the face of such a demon!"

The king of Lianyuan waved two fruits and said, "these are the original fruits, which can restore the rudiments of the original road of your collapse, but you will not be able to recover your strength without a hundred years!"

"Thank you, Lord!"

"Thank you, Lord!"

The two gods took over the original fruit and sat down to one side.

Many of the deities in the temple were confused and couldn't believe it at all. The deer garden God General quickly asked, "Lord, is this true?"

"King!" Another general also got up and asked, "is there really a man who, faced with the 200000 Tianming army, not only remained invincible, but also took the initiative to defeat it?"

The king of Lianyuan nodded and admitted it.

He didn't intend to hide it, and he couldn't hide it. The destruction of more than 100000 destiny army was enough to shock the place of physical training!

And this man, listening to his subordinates, seems to be called Ye Shitian!

Why did Kunlun Xu have such a genius?

"It's very serious."

"Lord, all the gods and generals, this man's combat power is too terrible, and he must not be an enemy!"

"If you can, be sure to pull into our camp as much as possible!" Wang Ting said.

"The military master is right!"

"I'm afraid that other royal courts will also act and try their best to win over this man. As for the matter of breaking through the void of Kunlun, you should not talk about it again!" The king of Lianyuan felt that this human warrior named ye Shitian was furious when he heard the report from demon Zhi that Prince Maple used human remains to make a bone cup and slaughtered 100000 Tianming army. He must have deep feelings with the human family, and he may not have joined the blood spirit family!

The key is that the blood spirit clan let them break through the Kunlun void again!

For a time, in a dilemma!

Break through Kunlun?

I'm afraid Lianyuan Wangting has not broken through Kunlun void yet!

Ye Shitian breaks through Lianyuan royal court!

Chapter 1152

Not breaking Kunlun virtual?

Blood spirit clan may break the Lianyuan King court again!

Both sides are difficult. As the "weak" king of Lianyuan, he can only slit and seek to survive. Who knows whether behind this leaf killing the sky, is an old monster standing in the nine heaven of emperor's respect. Once the place of cultivation is killed, if the demon emperor is not an opponent, the place of training will be destroyed in a flash of time!

So, we must be careful!

All the decorations made by human remains must be destroyed immediately!

If ye kill heaven knows, I am afraid it will be killed immediately!

The Lord of Lianyuan issued an order, and sighed and said, "watch its change, fortunately, he killed the sky against the upper leaf, not my Lianyuan King court! Let the heaven heaven heaven court those guys, headache go! "

Maybe!

This time, the Tianming court was killed by Ye Tiantian!

It's an opportunity for us!

.....

At the same time, the hall of the heaven destiny court is a roar again!

"Bastard!"

"You lost the prince of maple, and dare to come back to see the king!"

The Lord of heaven was furious, and killed a God General in the second floor of the emperor's realm on the spot. He was full of fire. His eyes swept through twenty generals in the palace. "Hello, let you guard maple, but you have killed Maple!"

"You don't know, maple is the only child of the king!"

Twenty three generals, too low head, dare not speak!

In that case, I wait for the demon not to say to save the prince maple, it is their own life, all may fall in a moment!

Powerful as the God General of the sky millet, the emperor respected the six levels of heaven, were killed by Ye Jitian in a flash!

Moreover, I wait for others, but emperor Zun territory two or three layers of days.

At this time, the prince and princess heard the news rushed out, and knelt in front of the Lord of the God: "also ask the father to kill the human brute!"

"If he doesn't die, I don't make any sense to live!"

"Enough!" The Lord of heaven gave the prince and princess a slap and scolded, "you broom star, you just started to kill my prince!" His breath was reckless in the hall, a breath of extinction spread out!

"No one is qualified to move my child! Anyone! "

The Lord of heaven gradually became a little crazy, and his cloak was scattered, lingering a feeling of silence!

WOW!!

The Lord of heaven and fortune turned his head, his eyes were sharp, just like a devil. He stared at the general below. His voice was cold. "You are all you. If you go to self explosion desperately, my son, will you come back?"

"If you are reckless, 200000 troops, all together!"

"I can come back if I fear death is clean!"

"You waste!"

He hit with a sharp claw, a strong breath burst out, hitting more than 20 gods who dare not resist.

All gods will be Qi Qi blood spray, facing emperor and the Lord of the eight floors of the emperor, it is a blessing not to die!

"Lord!"

A God will stand out, wipe the blood of the lips, stare cold at the Lord of life, and say, "we burst ourselves, let your son come back? Hum, maple is the son of a father, don't you

"200000 tianmingjun, right?"

"We surrender to you because of your bravery and your tyranny 2000 years ago!"

"And you swear to take all people to the promise of glory, not because of your strength!"

"To be honest, your son died when he died. Would you like us to be buried with more than 20 demons?"

"Be wild!" The body of the God God demon king is as fast as lightning. In a moment, he comes to the demon body, grabs the general, penetrates his body with sharp claws, breaks the prototype of the God general, and destroys the origin and throws it on the ground!

Just now, the emperor respected the five-story God general!

Now, it has become a body!

The cold pupils of the Lord of heaven and death swept all the generals, and said: "gather all the gods to kill the sky! Otherwise, you all have to die, and the rest of the army will die! "

"My king has no son, what do you want!"

"You can't even protect the king's children, so you can't die all!"

The cold voice, like a poisonous snake, haunts every god general.

The chill of the whole bone directly destroyed the enthusiasm of God to serve the king court.

Twenty one generals!

Fifteen monsters, six demon plants, all look at the king of the God demon, seems to be making a decision!

The first one, named astronomical God general, is called the first under the four demon kings, and the cultivation of seven levels of heaven in emperor Zun territory!

He took the lead in taking a step, just about to hold a fist, and then he made a sharp hand, and gave a claw to directly pierce the left arm of the king of the heaven demon. Then he attacked the king of the demon, shouting: "all the gods, the king of heaven ordered the demon to see me as grass mustard, and he had forgotten his responsibility as the king"Since it wants to force us to kill heaven with Ye, that evil god will fight for our lives!"

"Why don't we kill the old king eight of Tianming today, and then give his body to ye Shitian, who may be able to kill us!"

"All the gods and generals, let's give the king's body to ye Shitian."

"Yes

"You want us to die today? It's better to kill ye Shitian first and give it to ye Shitian

Immediately, the two gods will join the battle group, each using their own strongest strike to fight together with the God ordered demon king!

For a moment, dozens of other gods and generals came to the ground and broke the king's court!

The demon clan has always been angry. Maybe it is feasible to give death orders to them?

They turn around and kill you!

What's more, ye Shitian can kill dozens of generals with his gun Gang!

Can you do it?

Can't do it!

Otherwise, he would not be beaten to pieces, his robes torn and his blood all over the place!

Moreover, they also have the wisdom to weigh the strengths and weaknesses of both sides. Especially after the first world war with ye Shitian, they clearly realized that ye Tianzu killed them in a short time. Therefore, in this dilemma, killing the king of the heavenly demon is the best choice!

Bang bang bang!!

Bang!!

The king's court exploded!

God ordered demon king looked down upon many gods and generals and said angrily, "stop now, I can ignore your hand!"

As soon as this word comes out, there are quite a few gods and generals slow down!

"Gentlemen, don't listen to the mandate of heaven!"

"The God ordered demon king is the most vindictive one. We will not kill him today. Once this pass is over, we will be defeated by it one by one."

.....

Ye Chen naturally doesn't know what happened in the place of refining body. At the moment, he has countless golden light flowing all over his body.

He could even hear a crackling sound coming from his body.

This is the body in the condensation!

It's a great feeling!

Ye Chen clenched his fist slightly, could feel the violent power spread in the five fingers!

"It looks like I'm going to be in the dominant period soon."

"Now that the body training is almost over here, I don't want to stay any longer. I have to go to Huaxia to find Xia Ruoxue. Even if Ji Siqing goes, I feel a little uneasy."

Ye Chen opened his eyes, just wanted to stand up, but found his chest unexpectedly appeared two ancient words.

The words are gold.

Ye Chen looks down at these two words. Although he doesn't know them, ye Chen feels exactly that these two words mean reincarnation!

Not only that, he even found that the blood in his body seemed to be burning!

Does the words on his chest indicate his blood - reincarnation?

Chapter 1153

Ye Chen looks at the words on his chest, no longer think about it, and communicates directly with the reincarnation cemetery.

"Master blood, what is the rune looming in my chest? Is it really related to my blood? "

Words fall, the samsara cemetery has no movement.

Ye Chen frowned slightly. He knew that these powers also had their own temper. Since they didn't answer, there was a reason.

Just as he was about to leave the samsara cemetery, a leisurely voice came slowly:

"when your blood is fully awakened, it is also the time when you can completely resist the blood spirit clan."

"Ye Chen, this time will be very long. The existence of the reincarnation cemetery and the existence of our hundred great powers is not so much a road of salvation as a road of blood awakening."

"You are born for reincarnation, your blood dragon's empty shadow, and everything you have experienced can be traced."

"However, all this is not what you care about right now. Keep practicing. The threat of the land of exercise is just beginning. If you don't break through the shackles of the body as soon as possible, you may die here. This is not a threat. "

Ye Chen heard the words from the blood seven nights, but he didn't talk nonsense. He closed his eyes and sat cross legged and began to practice.

At the moment, the destiny court is in complete disorder.

The commander of the heavenly command army, the other 80 gods and generals, one after another to resist the air!

They stare at the battle group in the air, and twenty gods will kill the king of the demon. Although they hear the voice, they are confused.

The bear demon God will take a moment to run out and shout: "everybody, destiny this old thing, want us to fight against ye Shitian!"

"To kill Kui Mu and Liu Mu is to kill heaven by Ye!"

"In our 200000 army, 40 gods and generals fought. As a result, ye Shitian killed half of them and destroyed more than ten generals!"

"However, the king of destiny demon died because of maple prince. He wants to force more than 20 demons to fight against ye Shitian!"

"It is no doubt that the king of the demon of heaven wants us to die. What's more, ye Shitian has the intention to subdue us, but God wants us to die. Instead of dying under master ye, we'd better kill our destiny and give it to master ye, and we can live! "

Although it looks like a meat mountain, it is actually a thief!

Although it is subordinate, but the master let it die, it let the master die!

Eighty gods will look around and think. They also know that the 200000 Tianming army was slaughtered by a human warrior, and more than 10 gods and generals were killed. However, they did not expect that this would happen!

"Bear demon, are you serious?"

A God will ask, its eyes are very bad to look at the destiny demon king!

At the moment, 80 gods and generals, but kill three or five gods, to help the God ordered demon king, other gods will not do it at all!

There are more than 100 gods and generals in the court of destiny king, but they are not the direct lineage of the God appointed demon king. Most of them have been incorporated. In ordinary times, the demon king mobilizes everyone and everyone obeys them, but it is impossible to accept the request of being rude and die.

Many demons will follow the fate of the demon king, but also just to glory or enhance the strength of it!

The bear demon God will continue to shout: "among you, there are also gods born before the ancient war! At the beginning, although human beings were not good to us, when we were mounted by Terrans, there were few Terrans, so they asked us to die for no reason

"But the old bastard, destiny, dares to ask us to die!"

"I can tell you that this matter happened today. Once we are killed by destiny, you can either be sent by it to fight against ye Shitian, and finally be killed by Ye Shitian, or you can kill the old man Tianming with us!"

"At least, I participated in the war, and I can definitely tell you that ye Shitian's fighting power is definitely stronger than the destiny of heaven!"

As soon as the voice fell, there were dozens of gods and generals, and all kinds of attacks hit the king of destiny demon on his back, which made his face white with pain!

Soon, other gods also quickly shot, began to kill the king of destiny demon!

Ye Chen, who is far away in the cave, I'm afraid he can't think of this scene. He didn't do anything. The demon family of the heaven's royal court got into internal strife.

More than 90 gods and generals of Tianming Dynasty attacked Tianming demon king together.

Why?

Because ye Shitian is better than Tianming demon king!

God ordered demon king violated everyone's bottom line - let everyone die!

"If you want to die, you dare to betray me!"

"OK, today I slaughtered all of you!"

The king of heaven ordered the demon king to offer a long sword. The sword in his hand bloomed with the brilliance on the top. With the rudiment of the road behind him, the sword shook the heaven and earth, and Shengsheng beat a living God General into a blood mist!

It's vertical and horizontal, at the same time to many gods under the killer!

For a while, only heard a few burst sound, several emperor Zun state three layers of demon planting gods will burst to death one after another!

However, it did not make many gods retreat, but more crazy!

Gradually, the five God generals of the king's lineage also fell down one by one under the attack of many gods and generals! This is the destiny demon king!

With many emperors, the gods of 567 layers will fight together, and they can barely make a tie, which shows the power of the king.

.....

In the cave!

Ye Chen's five viscera and six Fu organs seem to be in transformation. The power of golden Qi and blood spreads all over the world, just like a god of war with gold armor. His breath is the best in the world, and he is the only one who can control him!

There are two ways behind him: the way of killing and the way of immortal sword!

Bumie Kendo is more than 300 meters long. It is full of the atmosphere of destruction. The sword spirit of endless destruction falls down and sets off the sword like a river of sword!

The way of killing is more than 100 meters long. It is full of the breath of silence. The majestic sword spirit converges into the state of river and sea. There is a hidden Taoist God who shows the shadow. It is enough to make the world cold and have the ability to kill the sky!

He took an ancient elixir and some ancient pills!

I can see that ye Chen's whole body is full of endless Tao Yun, which turns into unknown things, and merges into the way of killing. It is expanding at a very fast speed. Soon, the road of killing will extend to 200 meters long!

A strong force of Qi and blood blooms out!

Ye Chen, advance to the sixth heaven of Daoyuan!

When his arms were shaken, his golden body appeared, and the infinite pressure was released. The trees within 100 meters were crushed!

Not only the breakthrough of the realm, but also the physical training, has officially entered the dominant period!

It's not only the first level of the hegemonic period, it's the second level of the hegemonic period!

The golden body dominates the body, the power of Qi and blood is doubled, and the power of soul is increased by 50%!

Ye Chen quickly took a few more enlightenment pills, trying to expand the killing way to 300 meters long!

Hoo Hoo Hoo!!

Between heaven and earth, there is an inexhaustible air of killing.

The weak monsters and demon plants, who were still in the future and reacted to it, were shocked by the killing gas. Even if they were the demons in the source area of Taoism, they were trembling on the ground and did not dare to look at Ye Chen at all!

Chapter 1154

Half an hour!

The way of killing reaches 300 meters. Ye Chen steps into the seven layers of heaven of the source of Tao, which can improve another new road!

At the moment, ye Chen, the evil Qi and the blood Qi, one red and one black, encircle the whole body at the same time, and the golden body is powerful enough to resist the existence of the six or seven layers of heaven in the emperor's Zun realm! Is Han Yun arrived, ye Chen can't kill Han Yun, Han Yun can't help Ye Chen!

"Ye Chen!"

"There's a monster coming!" Xiao Huang looks at a direction coldly.

Ye Chen opened his eyes and stood up and walked directly to the outside of the cave.

Even if you don't hide your breath, when you step out, you will step into a deep pit on the ground. The geology of this boundary can't bear Ye Chen's power!

His eyes fell on a monster and asked, "just now we killed and retreated your 200000 army!"

"Now, do you want to come again?"

"How many, a million, this time?"

He slightly blooms the breath, then has an invisible huge force directly presses the dog demon God to spurt blood to gush.

The monster will bow his head, his eyes full of fear!

Ye Shitian is strong again!

A breath can make me have no strength to fight back!

If just now, other gods will come to attack and kill Lord Ye. I'm afraid it will not be long before all gods will die!

"My Lord!"

"Lord Ye, how dare we attack your Lord again?"

"Well, after many of our gods will return to Tianming royal court, the king of destiny is out of control because of the pain of losing his son and falls into madness. He wants to send all the gods and generals

to attack and kill the Lord!" "However, all the gods will know that they are far from the opponents of the adults," said the monster devoutly

"So, all the gods are united together and are fighting against the king of destiny!"

"If you want to vote for Lord Ye, please allow me!"

"Permission?" Ye Chen snorted coldly, and his cold and penetrating eyes fell on the monster. He said, "you are using the remains of our ancestors to make a bone cup. Do you want me to let you go?"

Spoil the remains of our ancestors!

No matter how loyal you are, you must die!

"No, no, no!"

"My Lord, you have misunderstood me!"

The monster quickly explained: "making bone cup and human blood wine is the work of the king of heaven. Many gods and generals don't have this kind of hobby. For the Terrans, at most, our gods and generals are shooting dead. They can't insult the remains of human ancestors!"

It hastens to explain, but by Ye Chen's pressure, pressure of the five viscera chaos.

Seeing ye Chen's mood a little more stable, he can't help but feel a deep feeling: Fortunately, this God didn't have the special habit of insulting the remains at that time!

The fate of this vein is also deserved!

At that time, he insulted the human race and made a bone cup with his bones!

This is good, be punished by God, the prince was pinched into blood fog!

"You don't?" Ye Chen waves his hand to hit the golden Qi and blood force, wrapping the monster's whole body!

A moment later, the power of golden Qi and blood returns. Ye Chen nods slightly. He doesn't feel the breath of human remains on the monster. It seems that this guy is real. He says, "originally, I just came to train my body. I didn't expect it would evolve into this way."

"Tell me all the demon clans who insult the remains of our ancestors!"

"I'll kill them one by one. No matter how high or low their cultivation is, their blood essence is used to refine their bodies, and their core is used to train their souls. As for the demon clan you want to join, whether to stay in a corner or go out to fight will be discussed later!"

"Yes

"Mr. Ye, you are very strong in your contribution to nature."

"However, in fact, only the king in the four royal courts and a few gods and generals who don't want to die can do such things for the remains of human ancestors."

"Most of the gods and generals can't do such things!"

"You see, the other generals' requests for refuge..." The monster continued, "I'm by your side, but my nose can smell anyone who spoils the remains of our ancestors!"

"What do you think of it, my lord?"

Ye Chen nodded slightly, thinking that the four Wangting were involved in making bone cup.

The fifth stage of maiba's body is the fifth stage!

The physical body of a warrior in the spirit state is equivalent to the level 4 to level 7 of the overlord body. As long as ye Chen enters the sixth level of the overlord body and is combined with the power of violent Qi and blood, he will be able to protect himself!

When the time comes, we will not be in a mess to fight the blood spirit clan!

"Let's go!"

"Let's go and see the demon king first

Ye Chen is curious. He goes against the general trend and goes against the trend. The leaders of the other eight schools can mobilize their elders to fight against him.

But it was the king of destiny demon. His subordinates could not move. On the contrary, all his subordinates besieged him and wanted to kill him for himself. This demon king, I guess, is the worst.

Ye Chen with Xiaohuang, the blood Dragon into the body, straight to the king of heaven.

In fact, the place for body training is not too large. The cave where ye Chen practiced was only hundreds of thousands of miles away from the royal court. The other three royal courts gathered in the Tianming royal court, which was about the same degree.

Not for a moment!

Ye Chen and the monster came to the periphery. When he saw that the scene was miserable, all kinds of animal blood were flying and the limbs and arms were broken, they were still slightly surprised.

When the battle reached this level, all five gods and generals in the same vein of destiny were killed. The king of the heavenly destiny demon showed his real body, a bloody giant tiger, surrounded by monsters

and demon plants of various colors. The aftermath of the battle alone killed tens of thousands of Tianming army!

Ninety two generals!

At the moment, seventeen of them were killed. Most of them were monsters. The ground was full of broken meat!

The God of destiny will fight against the king of destiny demon and blast back. Suddenly, he sees Ye Chen kneeling down and shouts: "I've seen ye Shitian master!"

"Master ye, believe what we mean. You already know that I am willing to lead other demon clans and take refuge in adults!"

"I just hope you don't let us die at will."

"I don't know if you will allow me, my lord?"

Bang!!

On the edge, the Phoenix God will be caught by the king of destiny demon, tearing his upper body, trying to escape.

It mobilized the power of Qi and blood and restored the body. Seeing ye Chen, he was shocked. He knelt down and cried, "master ye, we are willing to surrender to our master. We are willing to go up and down in heaven's royal court. Tens of thousands of demon clans respect him!"

"You are ye Shitian

"Did you kill my king?"

At the moment, the God ordered demon king calmed down, but his eyes were filled with the meaning of extreme top madness!

With a single paw, it made seven or eight paw marks, broke the surrounding array, smashed two divine generals in succession, shocked all the generals, and glared at Ye Chen, "is it you who instigated these despicable things to attack and kill the king?"

"Where on earth are you from?"

"Why have you never been seen in ancient times?"

Chapter 1155

"Me?" The golden fists, like the golden fist, burst into the sky like a flash of lightning!

Target, point to the destiny demon king!

This fist has the power of destroying the world. The golden fist light burst a lot of array, and burst out a series of magnificent and bloody sword Qi, which is the best in the world!

This blow, no one can stop it, just like the stars falling into the world, crashing down!

It's like the great emperor of eternal antiquity, who has made a fist through time and space, containing the ultimate Dao Yun and transcendent Qi and blood!

Dozens of gods and generals were shocked and fled in succession. Some of them ran slowly and were touched by golden Qi and blood. Then they spewed blood and burst out. The monsters in the four layers of heaven of emperor Zun were directly injured and their lower bodies were smashed.

God's generals fled, staring at the sky covered with gold fists, are secretly feeling!

Fortunately!

Fortunately, I did not go to kill the sky on the leaf!

If not, this blow will not only shatter the ground, but also cause heavy losses!

"Seven night broken sword fist!"

"You are the disciple of seven night God King!"

The king of heaven's destiny demon was about to crack his eyes and filled his whole body with resentment. He roared up to the sky, and his whole body was red, and he quickly emerged a single line of golden light. It was the Ninth level of the body in the conggu period. It was only one step away that he could enter the period of dominating body!

It suddenly after a sound, anger boiling: "you are that bastard's disciple, good, today I will kill you!"

It gathers all the strength of the whole body, and is located in the two claws, lingering the majestic blood light. During the bone setting period, the body of the ninth stage breaks out completely. It stealthily tears the air and collapses the earth. Behind it, there is a tearing sky blood tiger with wings on its back. Under the shock of Qi and blood, the surrounding mountains are powdered, and thousands of destiny armies turn into dust!

"Ye Shitian, you must die!"

"Ten thousand claws kill fist!"

God ordered demon king exhausted his blood, into his own rudiment of kingcraft, into the two claws, hit a punch!

In the middle of the sky, a bloody fist seal appeared, which was thousands of feet in size. The blood light swept across the world, just like a sea of blood, rushing towards the golden fists!

Boom!!

Boom!!

A burst of sound came out!

Two monsters collided in the sky, the aftershock came out, tens of thousands of demon clans were smashed in an instant!

The golden fists contain the power of immortality and killing. They soon defeated the blood color fist seal, and then hit the king of heaven's destiny demon!

Bang!!

It's like a big clock hitting the sky and the earth!

The God ordered demon king flew back and forth like a broken sack and hit a mountain. The huge body was broken by inches, and the tiger blood was constantly overflowing. It seemed that he was taking in heavy damage. During the bone setting period, the nine steps of the body were all born and blasted by the golden giant fist. After thousands of years of cultivation, it was useless!

The rudiment of the main road evolved into the rudiment of the king's road, which burst out just now.

Such a scene, many gods will be shocked!

Originally thought that, the destiny demon king and ye Shitian had some fights. It was estimated that the two were quite equal, but I didn't expect it would be such a scene.

The king of the gods!

Wanyao Tianting, one of the four royal courts, the king of Tianming royal court!

The king who is next only to the demon emperor is seriously injured by Ye Chen's fist, and even the rudiments of the road are smashed!

I can't believe it!

Looking back at the many generals on the edge, the God of destiny has traces of being scratched by the king of destiny demon, and even himself has been severely damaged by the king of destiny demon, but he says: "the fighting power of Ye Shitian's elder is really incredible!"

"This body is so strong!"

"The power of Qi and blood is actually the power of golden Qi and blood!"

"Super sports period!"

In a flash, the celestial God and the Phoenix God looked at Ye Chen in horror!

Super sports!

Only the golden body can achieve the power of golden blood!

Kunlun Xu actually someone stepped into the period of hegemony?

"Astronomy, you did it right!"

"Astronomy, it's lucky that you take your hair to fight this battle. If we all go to fight ye Shitian and face the golden body, I'm afraid that most of our gods and generals will be killed by seconds without any chance to do so!"

Many gods will sigh, while healing, while gazing at the half disabled God demon king!

Lord, aren't you arrogant?

Aren't you going to kill us?

Now, let's go to the new master. You have the ability to move us. Let's have a try!

Our master can hit you with one blow, and another blow can blow you up!

"The ninth stage of conggu period!"

"2.8 million Qi and blood!" Ye Chen gazed at the God appointed demon king, "the rudimentary form of the road has been improved by 80%, and it has even evolved into the way of king. If you go on like this, once you are promoted to the nine layers of heaven, no one in Kunlun can hold you down! Fortunately, you've been hurt a long time ago. ""You are not qualified to fight back. If you're in your heyday, you may have some qualifications. "

"In fact, I don't really want to kill you, because your fighting power is not bad, but you are wrong. We should not spoil the remains of our ancestors

The king of the heavenly destiny demon spilled blood from his lips and looked at Ye Chen with a ferocious look. Suddenly, he laughed wildly and said, "ye Shitian, what if you killed me today? The demon emperor is the same as you. His flesh body is invincible. If you fight, you will surely die!"

"Besides, do you really think I lost?"

"No, I can never lose!"

The king's eyes flashed a trace of determination. He got up and took out a bloody light. He became more and more crazy. "Originally, I thought I didn't need this thing!"

"But I didn't expect that ye Shitian had arrived, and you humble traitors

"You forced me!"

It's final card or used, smashed the light, which the majestic force of Qi and blood, directly into its body.

Soon, the cracks on the surface of its body were quickly repaired. The appearance of the body was golden, and the internal organs began to be golden. A stream of golden blood rose to the sky, shaking all over the world and the eight wastelands. The pressure burst out, and in an instant, it shocked 100000 demon families!

The power of Qi and blood doubled to 5.6 million jin at one time. With one claw, it tore up the besieged array in front of him, and attracted a chaotic thunder and lightning. Countless sand and soil were flying everywhere, just like the end of the day!

Soon, the double pupils of the demon king turned golden!

Extremely ferocious!

It grabs a long sword in the light group, a long sword with a hundred Zhang long flowing immortal spirit. With a gentle wave, a piece of red haze blooms, rendering like smoke. At the next moment, the sword body splits out and cuts across the heaven and earth, sending out thousands of Zhang of light. In an instant, the sky and the earth lose color, the wind and thunder bursts, and the mountain collapses!

This sword!

It's a fairy!

A product of immortals, with the ability to tear heaven and earth, endless breath of extinction, full of the body.

Chapter 1156

The celestial God turned pale and stepped back a few steps. He was frightened and said, "immortal utensil, heaven's destiny has an immortal instrument. It must have been left by the powerful people of the blood spirit clan in those years. Damn it!"

It looked at the gods around him, and the other side was pale. He didn't expect that the God ordered demon king had the immortal tools given by the blood spirit family!

In case, ye Shitian's elder generation dies under the immortal utensil, we gods and generals will also die!

The God of destiny is looking forward to Ye Chen and yells: "master ye, the king of destiny demon colludes with the blood spirit clan. It should have a hole in its body. Its golden body is not complete. Now, quickly, kill it!"

"Otherwise, once it displays its golden body, it will cooperate with immortal tools."

"Even if it is the demon emperor, it may not be able to hold it down!"

Ye Chen nodded slightly and gazed at the God appointed demon king, but he was also expected. All the people who joined the blood spirit clan got some secret methods and power of the blood spirit family more or less. However, he didn't expect that the God appointed Demon King actually got a piece of fairy ware!

What is an immortal?

What is a spirit tool?

The weapon has spirit, the generator spirit, is the spirit tool, can kill the enemy, can trap the enemy!

The weapon spirit evolved into a fairy, with immortal level, that is, the combat power of entering the divine realm, leading to immortality of the whole weapon, and having a part of the immortal power. This is the immortal tool. Once the immortal tool is out, it can tear up the void, and the non golden body can not resist it!

Moreover, among the immortal utensils, the sword is the most respected and the most powerful!

In order to enter the realm of deity, it is necessary to carry one's soul with the spirit of the immortal utensil to transform it into the original God, and then use the immortal power of the immortal utensil to nourish the body and make the golden body dominate the body, and then use the immortal power to transform the rudiment of the Tao into a real road.

This is the monk in the state of God!

It can already be called an immortal.

A product of immortals is enough to make an emperor's fighting power increase from nine layers of heaven to half into the divine realm!

"Fairy ware!"

"Just in time, after your golden body becomes golden, the golden blood will be more powerful!"

"It's very effective for my body training. If I kill you and absorb your blood essence, I can step into the third stage of super body stage!"

Ye Chen was not afraid, even eager to try, and said: "a product of immortal can be taken over and handed to Han Yun, the old man, so that he can enter the realm of God and improve his combat power! As for me, because I am reincarnated in my body, I must find a more suitable immortal vessel to match me! "

He looked at the demon king and said, "today, your demon emperor has arrived, and you must die."

"Presumptuous!"

"Just like human beings, dare to despise this king!"

"Die!" The king of the God ordered demon blows out a fist, and the power of golden Qi and blood bursts out. It is located in the sky and forms a golden arm, which blocks the sky like a huge one. One punch blows out, tearing up layers of emptiness along the way, and goes straight to Ye Chen!

Ye Chen's hands are negative behind her, her expression is calm and motionless.

Of course, there was a trace of solemnity in his brow.

The strength of the other side, very strong.

But he has never been afraid.

He stepped out one step, the cold voice resounded through the sky!

"If you want me to die, you are not qualified!"

"Even if the blood spirit clan behind you comes, it can't change the ending!"

Ye Chen burns the whole body's blood, and the blood and evil Qi burst out. The way of killing and the immortal sword are revived at the same time, and a golden virtual shadow is formed, which is located in the sky. The golden void blows out a fist and shakes the world!

Boom!!

A startling sound, accompanied by the golden light explosion flashing!

The collision of the two golden seals was almost the same, but the aftershock had the power of destroying the world. All kinds of thunder, purple and red, burst out on the ground, and the original palace of destiny burst out.

The new princess died in the light of thunder. Along with many heavenly forces, she turned into endless fragments and drifted away!

The golden fist is so terrible!

Other gods and generals, if not far away, would have been shaken to pieces!

"How strong!"

As the most powerful general in the war, the God of destiny can see some clues, "Lord Ye is actually the second level of the hegemonic period. It's terrible to break out with all his strength."

"It's terrible to fight like this!"

Today, more than 50 gods and generals have fallen!

Unexpectedly, it was the outbreak of such a god level war, and the generals had to sigh with emotion. Ye killed heaven, and the existence of emperor Zhan's Zun state was so far away from each other. However, he gradually made up the gap with the strength of Qi and blood and the strength of flesh and blood!

In the future, ye Shitian will be promoted to eight layers of heaven!

I'm afraid it will burst out with thousands of kilograms of blood. It's not impossible to break the nine heavy days with one blow!

"Old man!"

"If you haven't entered the super sports period, you dare to fight with me

"You are not qualified yet!" Ye Chen suddenly drinks, and the thunder and lightning are all around him. His body turns into a shadow, and he turns into a thunder sword behind the king of the heavenly destiny demon. A sword runs through it, which has the power to penetrate the eternal past, and kills the king of the heavenly demon. Endless golden blood, floating between heaven and earth!

A drop of gold blood, then killed a large number of shenyoujing, Shengwang realm of monsters.

The king's Golden Arm collapsed. He was struck by the thunder sword behind his back. He retreated hundreds of feet. Then he held a long sword with his other hand, and his eyes were about to crack. "I thought I could kill you with one blow, but I still use this sword! Today, with the blood of the blood spirit, I swear to the blood spirit clan that I will kill you! "

It seized the handle of the Heavenly Sword, and a stream of immortal spirit came out of the sky. The sky and the earth roared at once. The sound of the crocodile shocked the whole world. The pure white sword body spread, and the pure sword spirit was enough to cut off the space and spread infinite killing opportunities.

It splits a sword, and the overwhelming sword Qi inclines out, like thousands of stars falling, with a breath of annihilation!

In a flash, the sword's edge, which is thousands of feet in size, is cut down like a sky sword. Before the body of the sword is reached, it will break the ground into an infinite rift valley. This sword seems to be going through the ancient and modern times, with unparalleled attack power!

Click!!

Click!!

Ye Chen's golden body is constantly ringing through, and the surface of the body seems to have been hit by hundreds of impacts. It is not long before cracks will appear!

He gazed at the immortal killing sword, which he was trying to chop down. He was excited with blood. "Is this the weapon of the blood spirit clan?"

"I'll see how powerful you are today!"

"In ancient times, there was an emperor in Kunlun who respected the nine layers of heaven, and picked up the immortal with his bare hands."

"Today, I can do it too!"

Ye Chen puts away the Jiuyou sky killing spear. Even if these Kunlun Xu weapons are taken out and touched, they are bound to be broken, and they can't resist it. It's useless to take them out. In a moment, his arms shake, his hands turn into pure gold, and his despotic spirit soars to the sky!

The Golden Shadow on his head becomes more and more horizontal, gradually integrating into the power of soul, the way of killing, the immortal sword and the power of golden Qi and blood!

In a flash, he broke out the power of violent Qi and blood, which was the limit!

If you want to pick up the immortal with your bare hands!

Chapter 1157

At the scene, everyone saw Ye Chen's action, and his eyes were full of laughable.

How to resist the strength of one hand?

No matter how strong the body is, this is the thing of the blood spirit clan!

The place where the blood spirit clan is located is not the same level as Kunlun Xugen!

If we say that Kunlun Xu is a low level of martial arts, then the blood spirit clan is in the middle level, which is the highest level!

This is also the biggest reason why Kunlun Xu practitioners and monsters fear the blood spirit clan.

But now, this human being called Ye Shitian has to contend with the immortal tools of the blood spirit clan!

Madman!

A complete madman!

Now, in the battle circle!

Ye Chen clenched his five fingers, and the rolling evil Qi flowed on his body, and endless blood gas burst out!

This is the murderous spirit he has accumulated for many years!

Go straight to that blow!

Boom!!!

A roar that shattered the earth and the earth, spread out!

The sky and the earth are awe inspiring. The trees one by one burst into pieces. The cracks on the ground extend to the size of a hundred meters. Countless demon clans turn into pieces in the sky under the aftershock!

This is no longer a simple fight between warriors!

It's the battle between the top strong in this body refining place!

Ye Chen wants to fight against the sky and pick up the immortal with his bare hands. The king of the demon of heaven wants to kill Ye Chen with a sword!

Boom!!!

The virtual shadow on the top of Ye Chen's head burst instantly, turning into a golden crystal which burst out.

Then, killing immortal sword cut through everything around, about to chop Ye Chen!

Ye Chen reached out his hands and banged against the body of the immortal weapon. The rest of his force shook and the ground around him quickly sank. In addition to his feet, the ground within 100 meters was completely smashed, showing a grand canyon. Only Ye Chen, standing in the center, showed no fear, just like God!

He runs his skills wildly to maintain the output of his blood power!

Gradually, his hands were bloodshot, but still flow gold, the gold body appeared cracks, cracks quickly throughout the body, once the body burst, although he will not die, but will suffer heavy damage, do not want to recover for thousands of years!

This is the power of immortal tools!

One sword can destroy the world!

One sword can kill Tianjiao!

Since ancient times, there are no more than ten people in Kunlun to receive the immortal utensils with their bare hands under the emperor's dignity!

Only one of them succeeded, and the other nine smashed their golden bodies!

And that person is Nie Baijian, who is known as the king of hundred swords!

"Not yet!"

"One by one, you can't beat me!"

"The way to kill, not to destroy the sword, to reverse heaven and earth!"

"Double the fighting power!" With Ye Chen's drinking, the two "Tao" faintly crack, but burst into a colorful light, into Ye Chen's body, in an instant, his golden Qi and blood power doubled, burst out nearly eight million jin of blood force!

Boom!!

A towering huge sound, resounding through the world!

A product of immortal killing sword was beaten by Ye Chen several times.

"Poof!"

"How strong!"

Ye Chen spurts blood, and his body is dangling. The golden body overlord is on the verge of collapse. Even though it is the way of killing and the immortal sword, there are cracks. If we continue to fight, these two hard to perfect Dao will collapse!

He murmured: "I've reached this level. I've hit the fairies with my bare hands. Don't the masters do it yet?"

Poof!!

Ye Chen sprayed a mouthful of blood again. Just now, the internal organs were under great pressure. Fortunately, they had been metallized, otherwise they would be directly crushed. Now, although it is OK, the meridians are broken a lot, and the blood stasis is all over the body.

The golden body overlord body is also about to collapse. Just now, the power of Qi and blood far exceeds the imagination. Even if the power of immortal weapons can destroy the golden body, its powerful Qi and blood almost destroys the golden body.

"Hoo Hoo!"

"Immortal, but so!" Ye Chen's black hair dances wildly, showing a spirit of self-respect.

Daoyuan realm, hand to hand hard to connect immortal!

From ancient times to the present, only I Ye Chen is the only one!

In the whole world, I, ye Chen, are the only one who can connect immortals in Daoyuan!

"How wonderful!"

"It's worthy of Ye Shitian. He picked up the immortal with his bare hands. It's fierce and powerful."

The astronomy God covered his chest. He was badly hurt by the concussion just now, but he was full of energy. "The outstanding people who can see the immortal hand by hand are worthy of this life." It stares at Ye Chen, and gradually has other consciousness in his heart!

Lord Ye Shitian!

Tao Yuanjing!

Then you can use your bare hands to make the immortal utensils. If you want to be promoted to the emperor's realm in the future, will it not be easy to pick up the immortal utensils?

Such a hero is worth following!

Thinking of this, the celestial God will turn around and try to win over the other gods and join Ye Chen's gate completely. He can turn his head and look at the original more than 70 gods and generals. At the moment, there are only more than 50 gods and generals left, and they have to heal in situ! It looked at the scattered flesh and blood, containing the power of the emperor's dignity, and then sighed: "this is at least a level of battle, no wonder, no wonder it can shock and kill 20 emperor Zun Jing generals!"

Just now!

When Ye Chen was hard to pick up the immortal utensils, he shocked and killed all the gods and generals under the second floor of the emperor's Zun realm!

Not only these gods and generals, but also 900000 people of Tianming army were killed by the earthquake. As for other monsters, I'm afraid they have already killed more than 340000. They have not participated in the war, and even have no time to run, they were killed by the aftershock!

This is the strongest!

For the weak, you do not want to participate in their battle, only the external aftershocks, can shock and kill you!

Whoa!!

Whoa!

God ordered the demon king to retreat for thousands of feet and stabilize his body. The tiger's mouth was torn and the golden blood flowed out.

It stares at the immortal killing sword, and the body of the sword is undamaged. The attack of Ye Chen just now just beat back the immortal sword.

It is good for the ground to hold the sword. It is majestic and irresistible like a God. "Ye Shitian, you are a personal hero. You have so much potential that even the king can't bear to kill you. Your potential is too strong!"

"Dao Yuanjing will not die if it is hard to connect immortals!"

"Not only did he not die, but also beat back the immortals. The only thing that Kunlun Xu could achieve this level was Nie Baijian, the king of hundred swords!"

"It's said that Nie Baijian offended the elder of heaven and earth and was given a sword. He tried his best to block that immortal sword, but his golden body was torn apart. But you are different. With the same sword, your golden body is not broken, but forced to retreat from the immortal weapon!"

"But this king is not the elder of heaven and earth!"

"You are not Nie Baijian. If you kill my only son, I will cherish my talent again."

"You must die, too!"

The king of heaven ordered demon raised the sword of killing immortals, and his whole body burst out with blood. 5.6 million jin of blood poured into the body of the sword and was slowly accumulating strength. After all, it was not a spiritual monk, and it would consume a lot to use the sword!

However, the body of the sword burst out colorful thunder and lightning, which flew out towards the surrounding area with a piece of thunder cloud!

Chapter 1158

The endless thunder clouds gather on the sky killing sword. The thunder and lightning linger on the sword body, and the sword Qi blooms. It's amazing that a pair of exterminating Qi machine!

"Ha ha ha, good!"

"Worthy of being the tomb owner of samsara!"

"I have the spirit of my old days!"

In the tomb of samsara, Nie Baijian was ecstatic and gazed at Ye Chen and said, "in those days, I was 137 years old, and the emperor respected nine layers of heaven. Since then, I have spent 300 years repairing the golden body!"

"And ye Chen, only in his twenties, is the cultivation of the six layers of heaven in Daoyuan state!"

"It's not only hard to connect the immortal, but also repel it!"

"I admit that you are not a lucky guy. You have great strength and potential. From then on, you are my Taoist disciple!"

Boom!!

A sword Qi of annihilation comes out of Ye Chen's body, which breaks the thunder clouds all over the sky in an instant!

This momentum even makes Ye Chen's face change greatly!

It's horrible!

Violent air waves, and even leaves Chen hard shock fly dozens of meters, at the same time a mouthful of blood spit out!

It's a mess!

Seeing this scene, the angel's smile became more and more prosperous: "garbage is garbage. No matter how hard you struggle, you can't change the fact that you are garbage!"

At this time, samsara cemetery toward a voice of anger!

From Nie Baijian!

Nie Baijian, who hasn't spoken for a long time, opened his mouth!

"I didn't admit it, but no matter how I say it, he has something to do with me. Today you touch him and mention my name. Damn it!"

"Ye Chen, I will release my strength to repair your golden body!"

"What's the immortal tool? I'll give you strength. You can break the immortal tool and kill this monster who doesn't know the height of the earth!"

In a flash, a powerful force poured into Ye Chen's body!

Roar!!!

Ye Chen roared, absorbed the strong blood, and instantly repaired the golden body. Standing on the earth, he pointed to the sky killing sword. The whole person seemed to be the world's most powerful God of war, and his fighting spirit was filled with jiuchongtian!

He adapted to this force, and the strength of Qi and blood increased from 3.2 million jin to 9.9 million jin.

The way of killing and undeniable Kendo have been repaired, and the combat power has doubled at most!

Ye Chen now!

The monk of the ninth floor!

Even more terrible!

"Destiny demon king!"

"I said, I'll take your blood essence and demon core!"

"Now, I want to see how long the power of the blood spirit clan can support you!"

"After this war, I will be able to temper the golden body to the third level of the hegemonic period, and the fourth level is expected."

Overbearing!

Arrogant!

Do not hold a product of immortals in the eyes of the demon king!

In Ye Chen's eyes, the destiny demon king is a tonic, a tonic that can make him step into the third level of the super body stage quickly!

The blood of the golden body, especially the monster!

Great tonic!

"Kill!"

"Seven night broken sword fist!"

Ye Chen roared and fought out of nothing. His body tore up the air wave in front of him. He grabbed a piece of divine thunder and turned it into a thunder whip and drew it directly to the king of the demon of heaven. Then he hit a Vajra fist of Ten Thousand Buddhas, and struck the sword of killing heaven!

Qiang!!!

The sky killing sword flies out of the demon of thousands of Li and inserts into the ground. The divine power is weakened!

Ye Chen whipped down the king of heaven's destiny demon with a whip. When he went up, he smashed his fists one by one. Every blow caused the sky to fall apart. It was so violent and so powerful!

You use the sword!

I use my fist!

Fly your sword, and beat you into meat sauce!

If you have the ability to cut my fist, if you don't, you will die!

"This is also..."

"It's terrible, isn't it?"

The celestial God's body vibrates with the vibration of the ground. If you look carefully, you can find that Ye Chen is pounding the demon king of heaven's destiny. Every blow can cause the mountain forest to shake and the ground tremble. Even the demon family gods like them can't stabilize their bodies!

The Phoenix God will swallow and saliva, looking at Ye Chen in front of his eyes, the color of fear gradually appears in his eyes!

The king of the gods!

One of the four demon Kings also used the power and immortal tools left by the blood spirit clan!

Such a near God demon king, was actually pressed in the ground crazy hammer?

To what extent has the power of elder Ye increased to?

"Ye Shitian!"

"You -- you --"

the king of heaven ordered demon three times and four times to speak. Ye Chen punched him in the mouth, blood overflowed, his tusks were smashed, his bones were broken, his fur was festering, and he had no strength to fight back! Gradually, its internal blood color strength gradually weakened, and the golden body broke apart!

Even if it successfully entered the golden body and was in the first level of the super body period, it was extremely difficult to block Ye Chen's power of nearly 10 million jin!

Its golden body dominates the virtual shadow, and ye Chen is directly torn apart!

, regardless of the monster, once the body steps into the period of hegemony, it can take the power of gold and blood to draw a golden body and shadow in the sky, which is equal to condensing the essence strength of the whole body. It can be called terror, but even so, the shadow of the King's body of the king of heaven is broken.

How could it be!

Why did the boy's breath suddenly change?

It's like a different person!

The key force Is it really from the flesh of a boy from Daoyuan?

No way!

"Ye Shitian!"

"It's seven night broken sword and fist again. You're really the disciple of the bloody seven night bastard!"

"That son of a bitch slaughtered my father, but I can't get revenge!"

"But you don't want to be crazy. You're going to die together!" Taking advantage of the gap, the God ordered the demon king to say a few harsh words, and then the broken body began to bloom with golden light. A breath of silence spread, and the flesh gradually expanded!

Blow yourself up!

God ordered demon king to kill Ye Chen!

"You want to blow yourself up?"

Bang!!!

Ye Chen smashed half of the head of the demon king with all his strength, grabbed out the red and purple demon core, and then wiped out the soul of the king. He smashed another blow, just like the star falling, directly smashed his body into pieces!

A generation of demon king!

Destiny demon king, death and this!

If the body does not exist, there will be no destiny Dynasty again!

"This demon core contains the same energy!"

"The golden blood essence is the blood essence of the first monster with golden body I got!"

Ye Chen held out his left hand slightly, and the palm of his hand bloomed with a force of suction, just like a black hole. The crazy suction absorbed all the blood of the king of the heavenly destiny demon on the ground, and purified it directly. The blood essence turned into the purest gold essence blood. The surface of the blood essence was glittering and glittering. Every drop of blood had the shadow of a reduced version of the king of destiny demon, shaking the void, filled with the spirit of killing, as if to destroy everything !

The blood of the king of beasts has been purified to such an extent that the killing Qi contained in it is enough to shock and kill the human beings in the seven or eight layers of heaven in the source region of Taoism!

Chapter 1159

The reason why Jin Shen Ba ti is called Ba ti is that it means "Rage" and "overlord's body". Its golden essence and blood, as far as emperor Zun is concerned, is a great treasure. Only Ye Chen can absorb this essence in the vast Kunlun emptiness and body refining area. Other people in the same realm should not be absorbed. They are all outstanding people who are close to each other without being oppressed and killed Yes!

Many gods will be shocked at this scene!

Soon, under the leadership of celestial generals and Phoenix generals, more than 50 divine generals and more than 500000 tianmingjun all knelt down and yelled, "see you, master Ye!"

"Please, master ye, be our king. We are willing to follow the Lord Ye and fight in all directions."

"But if there is an order, the heaven ordered army will surely kill the enemy and build meritorious deeds, and will live up to the order of King Ye!" The commander-in-chief of Tianming military university held his fist and told him that his eyes were filled with excitement and longing!

Such a big place to practice!

So big Kunlun Xu!

Only master ye, no, Lord Ye, can be our king!

Throughout the world, from ancient times to the present, who and what demon can take the immortal sword in Daoyuan and not defeat, but kill the master of the immortal sword?

Only the king Ye has achieved this!

"You

"Well, I'll check it out!"

Ye Chen grabs a general, and the blood of the golden body exudes pressure, which makes the general spewing blood more than once. He says with dignity: "go and find out who has ruined the remains of our ancestors, and point it out to me!"

He looked down on hundreds of thousands of demon clans and said, "gentlemen, you want me to kill heaven Ye as your king, OK!"

"But I, ye Shitian, will never allow those who have ruined the remains of our ancestors to live!"

"There are demons of this behavior among you, and first stand up, I will reward a whole corpse!"

"If this God will find it out, I will destroy it with one hand, and there will be no flesh and blood left!"

Ye Chen's voice, as if from the nine heaven above, is filled with endless pressure, so that the demons dare not have the slightest offense.

Gradually, out of hundreds of thousands of demon clans, thousands of demon families came out, including demon beasts and demon plants. Among them, there were three deities, twelve venerable masters, and thirty-seven Dutong. Their pupils were staring at Ye Chen in horror and kneeling down to beg for mercy!

"Die!"

Ye Chen lightly drinks a word, the golden Qi and blood force burst out, as if the sea wave swept by, kill all of them!

He threw the olfactory general out and said, "check it for me."

"Yes, Lord!"

Then ye Chen's eyes turn to the past, wave a shock, the distant sky killing sword shakes violently!

Bang!!!

The sky killing sword is pulled out automatically, which leads to falling stones. It turns into a three foot long sword and falls into Ye Chen's hand!

When ye Chen clenched the handle of the sword, he felt that there was a gentle force of Xianyuan, which could be used to heal and strengthen Qi and blood. With his fighting power, he could strike a sword and kill more than 20 generals!

A product of immortal killing sword can increase his fighting power by 30%!

It's just a product of immortals!

He looked at the body and handle of the sword, and it seemed that it was made from the skin and spine of the crocodile. "It seems that the crocodile should be one or two layers of heaven in the divine realm. Only by pulling out its skin, bone, flesh and blood can we make immortal utensils!"

"How many masters, to refine immortal utensils, you must enter the flesh and blood of monsters in the divine realm?"

"Or in other words, different materials, refined out of the immortal, the effect is also different?"

"Yes Blood seven night explained: "if you want to forge an immortal tool, there are generally two ways!"

"The first one is that the forging person is at least in the spirit realm, because the monks in the spiritual realm have the blood power instead of the immortal power. The weapons cast in this way are not real immortal weapons without Xianyuan power!"

"At most, it's a fake immortal."

"The weapons used by Han Yun, qingtianmen and other sect ancestors were fake immortal weapons. In addition, the weapon of Kunlun Xu was directly destroyed by the blood spirit clan. Except for a few characters, no one could forge more than seven spirit weapons!"

After seven nights of blood in the samsara cemetery, he pauses for a moment and then says, "the second method is to use the demons in the divine realm as the materials. In this way, the immortal utensils made in this way are more tenacious, and they also have Xianyuan power in their bodies, which is enough to ensure that there is Xianyuan power in the immortal utensils!"

Hearing the words of blood seven nights, ye Chen finally understood.

If a weapon wants to become an immortal weapon, there are only two conditions!

First of all, the artifact evolved into a fairy!

The power of the immortal can be increased by more than five times!

When a monk steps into the divine realm from the nine layers of heaven, he needs the immortal power in the immortal utensils. Without Xianyuan power, no matter how powerful Tianjiao is, he can not generate immortal power by himself. He needs Xianyuan power to change the body, and make the blood force become Xianyuan power, and let the flesh possess the ability to generate Xianyuan power, which is fundamental!"In fact, it's just a piece of fairy ware, which can be regarded as the most inferior one!"

"Apprentice, if you want to be promoted to the realm of God, you must look for an immortal tool with more than seven grades!"

Nie Baijian Si cableway: "I'll tell you something about the so-called immortal utensils."

"The so-called immortal utensils are actually just the weapons of the monks in the spiritual realm. They are divided into nine grades, just like the realm of cultivation."

"The king of God's state martial arts, the use of which is God King's tools, has the ability to affect part of the space, also divided into nine grades!"

"On top of that, there are Hunyuan Xianqi and Hedao Shenqi, which contain the power of space and time respectively!"

"But only part of it can be used to understand part of the laws of time and space, and when the laws of space are completed, we can step into the realm above the realm of harmony."

"As for the growth rate..."

Nie Baijian caresses his chin. He looks like an old man. He's like a fairyland.

He said in detail: "the immortal utensils can be divided into attack, defense, escape and soul class."

"What you have in your hand is a kind of weapon for attacking immortals. It has a special function of increasing strength by 30%."

"There are three kinds of attack immortal weapons, such as power increase, speed increase, and Xianyuan power increase. It depends on the refining way of the refining people and what road they take!"

"Thank you for your advice

Ye Chen held his fist slightly and looked at the sky killing sword in his hand. He realized: "in this way, when facing all the people of the blood spirit clan, I should be careful. I am not afraid of their flesh bodies, but the immortal tools in their hands. If there are soul attack tools, I may be in crisis!"

He is the source of Tao. Even if he is emperor's realm, he is also worried about soul attack weapons!

Because the emperor does not cultivate soul attack. In other words, the power of the soul is not enough to practice the art of soul attack. At most, it can seal some enemies in the emperor's Zun state. However, in the face of the transformation of soul power, it will be very dangerous for the other to hold the soul type attacking immortal tools again!

Chapter 1160

"Can there be a method of spiritual cultivation?"

Ye Chen asked humbly.

"One is to go to the land of the soul, and the other is to absorb a large number of monsters and demon cores!"

"Generally, the spirit power contained in the demon core is very strong, but the effect of absorbing and transforming your previous skills is too low. I will give you a soul skill!" Said, blood seven night to play a luster, into the body of Ye Chen!

"Thousand turns of soul"

Ye Chen was overjoyed. This skill is to enhance the power of the soul, while Qiankun sword seal is a skill to use the power of the soul!

He carefully experienced the skill of "thousand turns of soul". He paid attention to the transformation of the soul and the qualitative change. Every time he turned, the soul would be upgraded and transformed once!

"I have only reached 297 turns of this skill."

"You are good at thinking about it!"

After seven nights of blood, he was weak and silent, and the power of his mind was gradually passing away.

If you stay any longer, I'm afraid it will dissipate.

"Thank you, master!"

Ye Chen immediately began to practice "thousand turns of soul"

soon, the first turn was completed, and the soul changed qualitatively and doubled.

Second turn complete!

Turn three is done!

.....

Until the completion of the twelfth turn, ye Chen felt a sharp headache in his head, "it must be the strength of my soul that Zhihai can't bear for the time being. Well, after a while, I will practice. "

He checked his soul power and found that it was so much stronger than before, which met half the requirements of Dacheng in Qiankun sword seal!

Keep practicing, even if ye Chen can't use the power of soul to wipe out the enemy's soul, he can also ensure that his soul power is not destroyed!

"Lord, that's it

The God, who is proficient in olfactory techniques, points to Ye Chen respectfully to one side and many demon clans.

Ye Chen put away the demon core and blood essence of the demon king. His eyes fell in front of many gods and generals. It was a little cold, just like the cold lake in the twelfth lunar month. "Don't talk much nonsense. I'll send you on the road."

He waved it with one hand, and the power of golden Qi and blood was in the middle of the sky. A golden mountain peak was gathered and covered. It was extremely violent!

Bang!!

Only a crack was heard!

More than 3000 monsters and plants were directly crushed and exploded by the golden mountain peak. Their flesh and blood were gone, and their souls were worn away!

This blow really scared other gods and soldiers to be afraid to show disrespect to human skeletons!

"King!"

"Please forgive me

Astronomical God will be scared to kneel down again, look at Ye Chen from a distance, heart thump beating, feel Ye Chen seems to be strong a lot, give it a kind of, even if do not hand, can also erase it!

It's soul shaking!

Ye Chen's power of soul has greatly exceeded that of generals. Even if he does not use his skills, he will be able to shake everyone present!

This is the ability of the most powerful. Even if they don't, they can give people a sense of extinction and fear. Once they do, they will be shattered!

"We follow the king!"

"Never kill a man for life!"

"Please make atonement and forgive me for waiting!"

Dozens of gods and hundreds of thousands of monsters yelled in unison, but the momentum was far less than ye Chen.

"It's not the only one who doesn't kill people!"

"You can't kill villains, traitors and other human beings too much."

"But don't spoil the bones of the dead. That's my bottom line." Ye Chen turned his head and looked at the ruins of the hall and said, "next, you quickly rebuild the hall. Astronomy and Phoenix will come and discuss with me about the place of body building."

"Yes, Lord!"

"Yes..."

.....

Ye Chen, celestial general and Phoenix general can only sit on the ground temporarily to discuss. There is no way that the palace was destroyed in the battle just now.

"Report to the king!"

"There will be 110 gods in the original destiny King's court!"

"Lord king, you have killed twenty-four, the God appointed demon king has killed 17, and the aftershock of the battle has killed 21!"

"Sixty two of them were killed in the battle, and fifty-one of them remained!"

The astronomical God General Baoquan Hui reported: "the Tianming army originally had one million elite, of which 200000 had just been trained, and the rest were the hundred battle elites who had fought with the other three royal courts over the years!"

"A million heavenly troops died under the king's command, and 235000 died in the aftermath of the battle."

"A total of 340000 people were killed in the battle, and the remaining elite can attack the other three royal courts at any time, waiting for your order!"

"Tell me about the other three royal courts." Ye Chen's interest is coming. It just needs enough strength to fight against the blood spirit clan. The place of body refining is just like the number of emperors in two or three big schools!

If you take over the other three royal courts, then hundreds of emperors will kill the demons, and you can quickly take down the Huang family! As for the loyalty of these monsters, Yuuzong used the imperial beast ring to control the life and death of the demon clan. Ye Chen could also make it according to the law. Of course, he could also induce these monsters with interest. As long as they didn't go out and let them die, they would be used by Ye Chen!

Kunlun is too weak!

Now, there is a power, ye Chen must try to take over.

In the future, the main force against the blood spirit clan will be the demons and the Huangs in the body refining place.

"The other three royal courts!"

"They are Lianyuan Wangting, kungu Wangting and Baizhan Wangting respectively!"

"The strength is almost the same as ours. Each of them has a strong battle group, and almost all of them are elite soldiers in the hundred battles. They are all subject to the Wanyao heaven established by the demon emperor." Phoenix God will think of the cableway: "under the demon emperor's flag, there is also a half a million demon emperor guards!"

"There will be more than 200 gods among them!"

"They are the elite among the elite. If the king wants to accept them, his humble position suggests that he should first take over the other three royal courts, and finally join forces to subdue the people of the Wanyao heavenly court!"

With the strength of the king!

The other three royal courts are not rivals!

But we really need to pay attention to the demon emperor, but they are not good at stubbornness.

Ye Chen said slowly, "this demon emperor, how about his strength?"

"The demon emperor and the other three kings have the treasures given by the blood spirit clan."

The celestial God's eyes twinkled and said, "three hundred years ago, the demon emperor once killed the prince of the ancient court of Kun. The king of the ancient demon did not dare to come out. At that time, the strength was almost the emperor's nine layers of heaven, and it was also a golden body!"

"Guess, it should be between the third and fourth order of the dominant period!"

"If Lord Wang is going to make a move, I think the victory or defeat will be between June 4th and 4th."

"What's the character of this demon emperor?" Ye Chen thinks, in fact, the astronomical God will say "64", which should be reversed. His chance of winning is four and that of the demon emperor is six. That is based on his promotion to the third stage of the hegemonic period!

No way. Ye Chen's state is too low. His basic Qi and blood is only 3.2 million jin.

In addition to the four levels of Qi and blood, it is difficult to get close to the level of Qi and blood of the king of heaven, and it is difficult to get close to the level of Qi and blood!
