Chapter 1231

Ye chenxuan was about to leave a five grade immortal utensil and a four grade immortal utensil. He threw them to the two supreme elders and said, "break through all of them. You have broken through. Kunlun Xu is a little bit self-protection! "

"I'll have something to do later. With your inside information, it's almost ten days' time."

"Thank you The six emperor respected the top powerful people to give thanks.

Ye Chen looked at some other guys in the nine layers of heaven, including their ancestors Ye Feng and ye Wudi, and said, "I will come back in half a month, and then there will be a way to forge immortal utensils."

"Thank you

"Thank you The crowd clasped their hands to thank them.

"Ye Lingtian, pull down Wei Wucheng and his disciples. You and astronomy are responsible for it!"

Ye Chen explains all this and goes to heal ye luo'er.

Ye Luo Er's wound is not light, but fortunately the blood is strong, does not die.

Feeding ye luo'er some Daoyuan pills can only ensure that the wound does not spread, but it is difficult to cure.

Need the elixir of God level!

Can only go to wake up the God Dan monarch!

One day later, ye Chen left the city of thousand Jue and stepped into the land of Huang family.

Although the palace of light has many things to solve, but he does not have this time. It is enough for him to hand over to the Baizhan Pavilion master and Han Yun!

Originally, Huang's disciples were very large, but now they are all included in the palace of light!

Ye Chen tries to open the other two tombstones in the reincarnation cemetery according to the guidance of Nie Baijian, and comes to a mysterious place!

The array here seems to be a little strange, just like the place where Nie Baijian's former residence is located. You can't reach it from the ground. You need to go through the underground river and the underground flow to find the passage in the dark current, and then use the channel to pass through.

The channel is very long, that is, ye Chen walked out of the channel for a day.

"Boy, are these places good?"

Nie Baijian said: "at the beginning, it took us a long time to find these paradise as our own residence."

Ye Chen is a little shy. With Nie Baijian, they all like to stay in this kind of place?

When I was young, I was out fighting!

When you are old, you will come back here to support yourself and be a fisherman?

"Not bad!"

Ye Chen simply responded, and then in a mountain to see a formation around the room, just want to go up, but was stopped.

An old man stopped Ye Chen and said with righteous words: "little brother, you are estimated to be from outside. There are gods living on it. Don't disturb them. We hope they can be peaceful and don't fight with the outside world any more

This word a, ye Chen did not know how to respond.

Simply, a flash came to the mountain in an instant, just stepped into the scope of the room, then feel around dozens of strong breath.

In an instant, these 12 breath, locked Ye Chen!

It's not human breath!

It's not the smell of demon clan!

The pure smell of immortal utensils!

That's right. At least 12 immortal weapons have independently locked Ye Chen. It seems that they are the immortal tools left by the God King in those years. Once a strong man comes, they will automatically defend the old nest.

"Twelve immortals!"

"Six eight immortals, six nine immortals, one array, such a configuration, good ah!"

Ye Chen sighed, forging God King should be regarded as the level power of God King, the richest one.

It's the master who specializes in making immortal utensils and divine king's wares.

In Chinese words, this is an arms dealer. It can't be immortal.

"It's all immortal utensils!"

"What you think is too simple!" Nie Baijian dismissively said: "when he was in his old nest outside the thousand Jue City, there were not only twelve nine grade divine king's tools, but also six Hunyuan immortal's tools and three Dao's magic weapons. That's a powerful array!"

"What a pity!"

"When he went out to the war, he took all of them with him, and as a result, he broke the whole fortune realm of Xueling clan with one slap!"

Nie Baijian even has a sarcastic meaning.

, master, you make complaints about...

Ye Chen asked: "under the words, when forging God King, can you make immortal utensils?"

"That's for sure!" Nie Baijian said slowly: "the forging God King in those days threw a lot of Hunyuan immortal utensils at others as soon as the war started. He even often blew up Hunyuan immortal tools to hit people. Others rely on their strength, and they rely on immortal tools..."

Hunyuan immortals smash people?

Does Hunyuan immortal instrument explode and injure people?

Ye Chen listens to all heartache!

"In those days, we had a lot of mixed cultures."

"There are many big families, including the Ye family in ancient times and many members in the Hunyuan kingdom."

Nie Baijian recalled: "however, it took a Hunyuan Kingdom hundreds of years to get a Hunyuan immortal tool. As a result, it took three months to forge the God King. It was like wholesale, but it was very expensive to sell it out." "There are a lot of people who want to hit him."

"But he took Hunyuan immortal tools and smashed them all over the sky and ran a lot!"

"Boy, wake him up later. You'd better worship him as a master. Maybe after a period of time, your whole body, even your clothes, trousers and shoes, are Hunyuan immortal tools. Then you will learn from him to smash people with Hunyuan immortal tools."

Hit people with Hunyuan immortal tools?

Ye Chen had thought about this, which was really luxurious. But it was estimated that the refining of Hunyuan immortal utensils had to be in the Hunyuan realm. No matter how bad it was, it would have been the later period of Shenwang state.

I think there are still some days to go before I get to this level.

Ye Chen is not in words, progress into the house.

Whoosh!!

Whoosh!!

The sound of the road breaking through the sky came.

Six immortals long sword, six immortal utensils big tripod flying shuttle.

It is the immortal tool and spirit that controls and attacks Ye Chen.

With the launch of celestial instruments, the surrounding large array also twinkles with all kinds of brilliance, which is a seven pointed star array.

In an instant.

The halo of the seven five pointed stars rises from the sky and blesses them to kill them on the seven immortals.

"I'd like to try. How powerful is the immortal weapon to attack independently?"

Ye Chen is unarmed. When he hits a fist, he will have a violent air wave. He bumps into the tip of a fairy sword and bursts into bright brilliance. Fortunately, the afterwave is shrouded by the array and does not spread, otherwise the whole mountain will have to shake violently!

Bang bang bang!!

Bang!

Ye Chen twinkles in the body, a fist blows out, pure Qi and blood strength, no use of the force of extinction.

Each punch is almost Ye Chen's real strength, but he can only make many immortal weapons retrogressive and can't hurt them at all.

"Eight Immortals and nine immortals are really powerful!"

"Even if I break out with all my strength, I'm afraid I can break a handle with about ten punches!"

Ye Chen, flashing his body, wandered around the room, avoiding the immortal tools and Thinking: "it's not worth breaking them. These immortal utensils are not complete sets of immortal tools, but can be taken back to them for breakthrough!"

He didn't need these immortal tools to break through, and he didn't get to this point.

These things in the eyes of others to break through may be worth a million!

But in his eyes, it is far from enough!

He is the reincarnated tomb master!

You have to have something at the top to match!

He wants to make his own fairy ware!

Unique existence!

Crush the existence of the blood spirit clan!

Chapter 1232

Ye Chen used the weapon of the blood spirit clan all the time.

Although the weapons of Xueling clan are powerful, they are not suitable for ye Chen.

The most suitable for Ye Chen is Jiuyou sky killing spear and his hand-made chopping dragon asking sky sword.

It's a pity that with the improvement of Ye Chen's strength and the strong men he faces, the ranks of the sword and Jiuyou sky killing spear are not enough.

At present, only through the inheritance of forging God King, can we be qualified to build our own weapons!

What's more, the strong people around Ye Chen need top weapons if they want to be qualified to fight against the blood spirit clan.

These weapons have to be made by him!

Ye Wudi and Han Yun have accumulated thousands of years of old monster level existence. Once they use Jiupin immortal tools to break through, it is estimated that they will directly advance to the third or fourth level of Shenjing realm, and enhance their combat power by at least ten times!

This is the inside story, which has accumulated for thousands of years.

When they were young, they were arrogant, but they didn't dare to break through.

Once you use the nine grade immortal tools, your combat power will increase greatly. If you dare to come one year later, you will lose a lot.

Whoa, whoa, whoa!

Whoa!!

Qi mang star array is also mainly used for defense. When one of the rings hits Ye Chen's body, only a metal collision sound is heard. The aura will crack automatically, unable to shake Ye Chen's golden body.

"No more entanglement!"

"Buddhism in boxing!"

Ye Chen drinks a low, a fist sacrifice, four sides shake.

Qi and blood were surging wildly, and the fist seal was condensed and hit the center of the array at the back of the room.

Bang bang bang!!

Bang bang!

One by one, they burst out.

The seven pointed array is broken.

Ye Chen suppressed the twelve immortal weapons at a very fast speed. The immortal weapons had spirit, and it was impossible to stop because of the collapse of the array.

He took a long breath and collected the immortal utensils into the cemetery. He opened the door of the house. He looked at it very simple, but on a closer look, he felt extremely luxurious. All the single wooden stools were made of mahogany which had been burning for thousands of years.

The wooden table is actually made of the trunk of ten thousand year old star tree.

The messy wooden bed is made of top grade wood, and the quilt is also made of top grade silk.

"What a luxury

Ye Chen smacked his tongue and saw a rusty sword on the edge of the bamboo wall.

When he could take up the sword, the tomb of samsara trembled violently, and the tombstone that forged the God King was broken. The spirit was released, and then a soul stirring word came out of his ear, which was very shocking.

"Who can compare with me in all directions of the world

"I'm the first one in the world in terms of the number of immortal tools. Nine out of ten out of ten, I'll make my own hand!"

A bold words, lingering in Ye Chen's ears.

Listen to the sound is extremely shocking, but listen carefully, how feel like dazzle rich.

Nine out of ten weapons in the world come from him.

This is largely true.

In the samsara cemetery.

The figure of a white dress is revealed. It is not a long body or long hair. Instead, it is a Taoist in white robe. There is a halo floating behind his back. Under the halo, there are 18 long swords, which seem to be Hunyuan immortal tools!

Ye Chen slightly frowned, carefully looked at the forging God King, an invisible pressure shrouded.

Ye Chen is no nonsense. He immediately hugged his fist and said, "I am Ye Chen, the tomb owner of the samsara cemetery. I have met my predecessors here!"

"I hope you can give me a hand. Now Kunlun is so weak that we can't forge immortal tools any more!"

"Master, take me as a disciple, I will be strong Kunlun Xu, pacify the blood spirit clan!"

Forging God Jun was stunned. He looked at Ye Chen and Nie Baijian and said, "do you think I will take you as a disciple? I forge the king, but I'm very strict with the apprenticeship. "

"No garbage, no waste, no mediocrity."

"And now I look at you, it seems to satisfy these three."

"Even the emperor has not stepped into the realm. I really don't know where your confidence comes from."

When Nie Baijian heard the words of forging the God King, he still stood up to speak for ye Chen: "I don't agree with you for saying that. The seven layers of heaven in the Daoyuan realm are slaughtered and the five layers of heaven in the divine realm are destroyed! Not many of them can be found in ancient times

Forging God King slightly surprised: "Oh? Is this so powerful? "

"The source of Tao is seven layers of heaven. It is even qualified to face the five layers of heaven in the realm of God!"

"It's sixteen small realms."

Forging God Jun's eyes changed slightly. He naturally didn't think Nie Baijian would cheat him on this matter.

"Not bad, not bad!"

"There was no such genius in those days."

Suddenly, with a smile, he said, "is it just taking apprentices? I'll take it, I'll take it

Playing with a thin sword, he said with a smile, "now the situation of Kunlun emptiness has reached this level? Disciple, there is a sword in the outer room. It's called fishing sword. It was used by my master when I was fishing. I'll give you a salute to master! ""Don't look at me as a teacher. There are Hunyuan immortals around me!"

"But it's a simulation of the mind, not true. I can't give it to you!"

The forging God King said with a smile, "I am old Chen, in those days, there were not many things. There were so many immortal utensils, divine king utensils and Hunyuan immortal tools that my family couldn't afford. If you were my apprentice in ancient times, I'd give you a hundred and eighty Shenwang immortals. If you didn't like it, you'd just throw it over and explode yourself to kill him."

Ye Chen is some Leng, this master, seems to be extremely out of tune.

When the other masters came out, they were all more ostentatious. Later, they were convinced by themselves. However, this master did not take an ordinary way!

As for the fishing sword!

It's a luxury to fish with three kinds of Shenwang ware!

Chen Anping was the richest man in Kunlun at that time.

Shenwang utensils are used as fish forks, and Hunyuan immortal utensils are thrown everywhere.

If this spread to the present Kunlun Xu, it is estimated that Han Yun and his colleagues would be ashamed to wipe their necks and commit suicide. Over the past 1000 or 2000 years of hard accumulation, they could not even get a single piece of immortal utensil. However, this new master is so luxurious.

Ye Chen went to worship his teacher.

On the edge, Nie Baijian explained the present situation to Chen Anping, the forging God.

After a long time, Chen Anping was filled with indignation and said: "when I used Hunyuan Xianqi as a bomb, the blood spirit clan, these king eight Duzi, actually abandoned the Kunlun Xu's refining body, and also destroyed Laozi's weapon refining sect!"

"These bastards!"

"Ye Chen, you are the chief disciple of Laozi now!"

"I handed you the" ten thousand soldiers forging decision ". You remember it for me. If you meet the blood spirit people, don't spell out the Qi and blood or the flesh body, just take the immortal tools to me."

Sure enough, ye Chen sighed.

Before ye Chen reacts, Chen Anping has already used the method of soul to transmit skills to Ye Chen!

the name is not only powerful, but also the content is more powerful.

There are many methods of forging weapons, such as ordinary long sword, long sword, and big tripod. There are even methods of forging weapons, such as weapons fusion, special soul weapons, and special weapons for breaking the body.

Chapter 1233

This is an encyclopedia of weapon manufacturing.

As long as the strength is enough and the materials are enough, there are records of what weapons you want to make.

What kind of weapon, what array to depict, how to depict it, and even the forging situation before and after are recorded clearly.

At the same time, this skill is also five fold.

The second layer: the method of forging immortal utensils.

The third layer: the method of forging Immortal King's wares.

The fourth layer: forging method of Hunyuan immortal ware.

The fifth layer: the forging method of the combined Dao artifact!

Everything!

This skill alone is enough to revive the Qi refining of Kunlun deficiency.

No wonder at that time, Chen Anping was known as the forging God King. He was the nine layers of heaven in the Hunyuan realm, and his status was higher than that of many powerful people in the realm of Taoism.

.....

When ye Chen accepted the martial arts, he was the land of the blood spirit clan.

The old man with a terrible breath suddenly opened his eyes and swept around thousands of miles.

Tens of thousands of disciples of the emperor's revered realm and those who entered the divine realm spurted blood on the ground.

The old man is spit out a mouthful of blood, pupil filled with extreme anger, "these waste, dead again!"

"Wei Wucheng, the waste in the waste!"

"Quelon, come and see me quickly!"

Before that, Wei Wucheng and other people set out for Kunlun Xu, and they were all sneaked into a source by him.

Now, several of them have broken down, which means that those people are dead. Naturally, he has also been attacked. Under extreme anger, kuilong, who is specially responsible for Kunlun Xu, is ordered to come here!

A middle-aged warrior came quickly, kneeling on the ground with incomparable respect and clasping fists: "Laozu!"

"Something happened to Kunlun Xu!"

"You send someone to check immediately. Wei Wucheng is almost dead!" The old man's cold voice does not allow any doubt.

The middle-aged man kuilong was stunned. He knew something about the accident before Kunlun Xu.

What kind of spray can a low level plane turn out.

I thought Wei Wucheng could solve it in minutes!

But I didn't expect Wei Wucheng to have an accident!

It's just fantastic!

A garbage land, there is actually a suppression of those strong blood spirit clan!

Is there a strong one in Kunlun?

"I'll go now!" Kuilong said in a trembling voice.

Just as he was about to leave, the old man suddenly said, "stop!"

Kui long was stunned. He turned hard and said curiously, "ancestor What else can I do for you

The old man's cold hum, fingers pinch Jue, a drop of blood essence forced out, at the same time, a array disk is also flying out!

"Kunlun Xu, a mole ant land, has little aura. It has not changed for thousands of years. Why do things happen again and again?"

"There must be something wrong with it!"

"Now I use blood essence to induce the counter heaven array. I want to see what happened to Kunlun Xu!"

"Wait here! When the results come out, it's not too late to break through Kunlun again! "

"I want to see a group of mole ants, how to kill the strong one of my blood spirit clan three times and four times!"

Kui long was so stunned that he didn't dare to breathe. He never thought that this respected elder should use his blood essence to check the situation of a low martial level plane!

.....

Naturally, ye Chen of Kunlun Xu did not know that the crisis was approaching step by step.

He's totally immersed in the "forging of all things"!

Don't know how long after, ye Chen opened his eyes, calculate, thoroughly comprehend "all things forge decision."

He also had a lot of knowledge and methods for forging various weapons in his mind, and he could not help but ask: "master, nowadays, the virtual weapons of Kunlun are almost completely destroyed. Now, all the spiritual weapons are made by ourselves according to their own proper methods."

Make your own weapons.

However, it is also in line with their own use methods, and the spirit tools are more intimate and handy to themselves.

However, its power is certainly not as powerful as the spirit weapon forged by "the determination of forging all things". Even if it is of the same level, the power of the former is at least one level lower than that of the latter. If two martial artists who are almost the same as each other use two kinds of spiritual weapons, the latter must win!

What's more, ye Chen couldn't have been refining weapons for people all the time.

The materials of Shenwang ware and Hunyuan immortal ware have to go to the blood spirit clan.

These materials are basically wood of more than ten thousand years, and even the special tianxingsha. It will take tens of thousands of years to wait for the Kunlun void to come into being naturally, or at least it

will take tens of thousands of years to ensure that they will not be damaged. In the present situation of Kunlun Xu, it is almost impossible to accomplish.

"Pass it on to others?"

Chen Anping stroked his chin without a beard, but he was a very good man.

He said slowly, "yes, but you can only find a few trusted people and accept them as your disciples. You can pass them on to them and let them specialized in refining spiritual and immortal tools!"

"of course, you can simplify the" forging decision of all things "and spread it on a large scale" "It's just that this kind of forging method can't be understood by people without talent!"

"Enough!" Ye Chen's eyes are bright, so that Kunlun Xu can produce some martial artists who are in the state of mind.

"Master, I'll take the twelve immortals outside you!"

"Take it, these inferior goods, that is, to prevent some people from making trouble!" Chen Anping doesn't care. He is playing with the dagger. Compared with Nie Baijian and xueqiye, they have their own style.

Thank you very much

"Then I will go to the Lord of Shendan!"

Ye Chen took the fishing sword with him. He really felt that the name was not very good. When he took time to combine the sword with the sword of the God King, he would rename it again. After all, he took a fishing sword and went out to fight, and his face was not easy.

He could just walk out and see a mountain on the opposite side from a distance, which was also on the peak. However, what was on this mountain was not an ordinary house, but a magnificent palace. In the words of the villagers, this was the heavenly palace.

The next moment, ye Chen came to the palace of the elixir God.

If you look at it carefully, the appearance of the palace is made of gold-plated iron for thousands of years.

For thousands of years, it's made of a large number of fur stones.

"This fur seems to be in a state of mind!"

"Well, this is the king's land." As ye Chen walks, he looks at the carpet under the ground and feels the residual power of these monster fur carpets, so as to judge the fighting power of the monsters before they are alive.

It is surrounded by fur of hundreds of square meters in size.

The appearance looks like mink, but it can ensure that it will remain unchanged for thousands of years, and it still uses the belly of a monster.

The abdomen of a monster is extremely fragile, so most of the scales are condensed for defense, and a small part is exposed. It is the softest part of the monster and the most suitable part for carpet.

In front of you, what kind of demon clan did you kill?

Chapter 1234

Or is it bought?

After all, he was the top alchemist of Kunlun Xu in ancient times.

Martial arts can have no weapons, but they can't do without pills!

In particular, ordinary people need to understand Tao and improve themselves after entering the state of God and king.

Hunyuan state and Hedao state are the power of practicing the law.

These only rely on a long time of continuous ascetic, want to avoid hundreds of thousands of years of ascetic, OK, to buy pills.

The Shendan monarch seems to be one of the most skilled alchemists in Kunlun. Hunyuan pill, Hedao pill and rule pill should be able to refine a lot. Isn't it equivalent to being a local tyrant?

The one who is richer than forging God King!

Ye Chen swallows pharyngeal saliva, Nie Baijian also sees, then said: "boy, don't be jealous, you can also control in the future."

"If you think about it, you've got Chen Anping's unique skill in forging weapons!"

"Learned the alchemy method of the God Dan monarch again!"

"Your cultivation and strength will grow extremely terrifying!"

Nie Baijian said that he was a little envious.

Although he was a strong man in the realm of harmony, all his artifacts were made by Chen Anping.

The breakthrough pill is also related to the divine elixir.

It depends on the face of others.

It can even be said that in ancient times, the vast majority of the strong worked for forging the God King and the God Dan king.

If you get a treasure by accident, you sell it to buy materials, and then you spend money to ask the two of them, or their apprentices, to build the desired weapons or refine the elixir with excellent effect.

Ye Chen in this step, go far more than he.

.....

Luxury palace, looking up there are several floors.

On the plaque of the palace, there are several big characters of dragon flying and Phoenix dancing - Shendan palace!

Shendan palace!

Since it is such a palace, there should be many pills left.

It must be enough to recover yelol's injury.

Ye Chen came to the door of the hall and pushed it gently. Suddenly, he felt that all the fifteen war puppets in the palace were quickly activated and killed with all kinds of immortal utensils. The breath was even more than that of the twelve immortals!

Fifteen war puppets!

Seven into the three levels of God, eight into the four levels of heaven!

It's hard to find an opponent in such a lineup outside. But for the Shendan emperor, I'm afraid it's just one of his many old nests, and its role is the same as forging the God King to live in the future.

Moreover, in ancient times, who dared to attack the territory of his Shendan monarch?

Bang!!

Ye Chen's fist blows a puppet into the three layers of heaven!

Now, he's barely fighting.

This is the feedback from the devil's eye after awakening part of the blood, and the power is significantly improved.

Whoosh!!

Whoosh!!

The sound of the road breaking through the sky comes out.

The three puppets of the four layers of heaven joined hands to kill Ye Chen, who flew dozens of meters.

Other war puppets also came to Ye Chen's back and attacked fiercely. It seemed that they were a set of war puppets. They cooperated with each other in an orderly way. For a time, ye Chen was not afraid of a war puppet. However, ye Chen was not afraid of a war puppet alone. However, ye Chen was a little difficult to deal with when the fifteen war puppets were all fighting together.

Bang bang bang!!

Bang bang!!

Ye Chen has been blasted for dozens of times in a row. He is scarred and his face is a little pale.

He no longer hesitated. He quickly took the long sword from the bleeding spirit clan and cut it horizontally in the air. His Qi and blood skyrocketed. He left a dark trace in the air, which had not disappeared for a long time. He was also a war puppet who was flying in front of the seven soldiers who were in the three layers of the God state!

But it doesn't work at all!

"The war puppet is not afraid to be injured!"

"It's really troublesome if you don't retreat!"

Ye Chen dodges away from the fist of a war puppet who is in a state of God. However, a big hole is blown out of the wall.

He took advantage of the situation to split the array with a sword. He directly split the battle puppets into the carpet and kicked them off with one kick. "Two masters, how are these war puppets refined?"

"Is it relying on the spirit stone as the operating energy?"

"Or the ability to absorb the aura of the outside world independently?"

Refining war puppet!

Also divided into two kinds!

The first is consumptive. It completely destroys the enemy's soul power and destroys the elixir field. It is changed into a central area, where high-grade spirit stones, even immortal stones, are used as energy to support war puppets. As long as the power of immortal stones is exhausted, these war puppets will stop.

The other is persistent. The principle is to completely wipe out the enemy's soul power, but it will not destroy the body. A part of the soul's force is put into it, which is equivalent to the second body. It is only difficult for the war puppet to improve, but its flexibility is much higher than the first one. It has the ability to absorb external aura and generate Qi and blood independently, but it is not powerful. The green sword demon emperor belongs to the second kind!

There is a soul of Ye Chen on the body, some discerning ability.

"This thing!"

"It's from my family!"

In the samsara cemetery, the forging God King looked at it carefully and said, "it can be seen that it was made by the disciples of my line."

"In a consumptive way!"

"Their energy comes from the heart, you just take it out!"

"But pay attention to the center of the left heart. Don't take it wrong!"

When these war puppets were refined, many explosive substances were added to their bodies. Once they were to be destroyed, they could self explode to kill the enemy.

If ye Chen takes the wrong stone, the puppet will explode directly.

"I see!"

Ye Chen grabs the war puppet killed in front of him. With five fingers in his left hand, he makes a claw to his heart. He penetrates through the skin and flesh of the puppet. He grabs a white stone similar to the "heart". Then his breath goes out and becomes a dead thing.

The white stone glitters with brilliant luster, and the aura contained on it is far more than the spirit stone.

It's Fairy stone!

Generally speaking, a piece of immortal stone is enough to make the strong people in the early stage of entering the state of mind to cultivate for a period of time. It also can be divided into inferior, intermediate, high-grade, and top-grade. In the past, the purchase of pills or weapons in Kunlun's Xuzhong mixed yuan state and Hedao state was paid by immortal stone.

Fairy stone, which is called immortal stone, is actually a stone whose aura concentration is more than ten times that of Lingshi.

It is usually produced in large-scale ore veins. However, Kunlun Xu large-scale ore veins were looted by the people of the Xueling clan at the very beginning. This thing can only be obtained from the Xueling clan, which is not produced by Kunlun Xu.

Ye Chen threw down this war puppet. His body was like lightning. He swept over seven or eight war puppets and seized their immortal stones.

He took out his sword to split the two puppets and shot them quickly.

Soon, all the core immortal stones of the fifteen war puppets were in his hands!

As for these war puppets, at least they are also fighting power. Ye Chen also received his own storage ring, which increased the strength of the palace of light.

Squeak ~ ~

Chapter 1235

Ye Chen opened the gate of the palace. When he really looked inside, he was very frugal. There were only two tables and a few stools. However, they were all made of high-grade blood jade and were extremely luxurious.

When he came to the second floor, he passed a room with some fairy stones in it, but the grade was not high.

With Ye Chen's exploration, the tombstone of Shendan monarch in the samsara cemetery became more and more intense, and even several cracks appeared on the tombstone, which was about to come out soon.

"God King's state war puppet!"

Ye Chen stares at the middle-aged man standing at the entrance of the stairs and looks down carefully, and finds that the other side is not moving at all.

When he explored again, he found that the immortal stone on the chest of the war puppet had run out of energy and could not move. However, if the immortal stone was to be used, it was estimated that it would have to use a medium-sized immortal stone. If there was one in the palace, it could be used for a short time, but not for a long time.

When ye Chen stepped into the top balcony, a stone tablet suddenly exploded in the samsara cemetery.

God Dan monarch's mind was released, followed by a shocking words, appeared in Ye Chen's ear, making Ye Chen's body shake.

"The world God Dan, all out of my hand, regardless of the world, who can compare with me?"

When this sentence was introduced into Ye Chen's ear, ye Chen could not help feeling shocked. His voice was very strong, but he also had a sense of hegemony and Emperor's way. Gradually, a virtual image appeared in his mind, with a crown on his head and a lingering God Dan emperor all over his body!

God Dan king!

No!

It should be called the God Dan emperor!

This should be the peak of the Hunyuan realm. If you enter the Hedao realm, you can be called "God Dan emperor"!

World God Dan, do his hand!

What is Shendan?

Hunyuan Shendan can help you understand the law of space!

He Dao Shen Dan, can help understand the law of time!

Even ye Chen felt that the word "emperor" was not enough to compare with each other!

In ancient times, there were many alchemists in Kunlun.

But alchemy pulse, refining ability is the strongest, the largest number, the most disciples than the God Dan monarch!

God Dan king and forging God King!

One is mainly engaged in alchemy, and the other is refining weapons. No wonder the blood spirit clan took the lead in fighting against them.

They are not willing to kill them. On the contrary, they are imprisoned in the heaven prison of the blood spirit clan. They should want to accept them. Otherwise, these peerless talents may be extremely rare among the blood spirit clan.

If both of them are promoted to the peak of Hedao state, they may be able to refine pills which are of great benefit to those who are strong in the realm of nature.

Samsara cemetery!

Mo Shi, a middle-aged man, appeared slowly, wearing a Dragon Robe with nine stripes, a crown on his head, a sword on his waist, and his feet shining.

It is the king of Shendan.

"Lao Wang, your mind is coming out, too?"

Chen Anping jokingly said, "you were refining 18 Hunyuan battle puppets, and seven were fighting puppets in the same way?"

"Is there any residue in Kunlun?"

"This is the owner of the samsara cemetery."

"We need to rely on this person to get out of that place."

Emperor Qiantian of Shendan shook his head slightly and looked at all this in front of him.

Finally, the line of sight falls on Ye Chen's body.

Not every god knows the secret of samsara cemetery.

He said, "the source of Tao is to control Kunlun Xu?"

"Kunlun Xu, has it been weakened to this extent?"

"No!" Ye Chen said slowly: "now the Kunlun void, with the emperor Zunjing nine layers of heaven as the peak."

He held out his left hand slightly, his arm shook, and his skin turned red gold. A strong stream of Qi and blood bloomed and said, "although I am the source of the seven layers of heaven, but I can fight into the five layers of heaven in the divine realm. Therefore, I am the main one in Kunlun

"Qi and blood are good, but the state is too low to be enough."

"Can you take us out of that place?"

"Ridiculous!"

He looked around, closed his eyes, as if feeling something.

I think we should be getting some information about the samsara cemetery.

Don't know how long later, he opened his eyes and said to Ye Chen: "originally, my origin and divinity were cut off by this reincarnation cemetery."

"And you are the owner of the tomb."

"By right, I should help you!"

"It's just that I am good at alchemy, but I'm not good at fighting. When I was still alive, I still refined many war puppets, and I could fight at the top of the road!" The king of Shendan sighed, "it's just that the war puppets are all broken by the strong people of the blood spirit clan."

"I didn't leave any backhand in Kunlun either!"

"The only thing left is the king's state and puppets in this palace, which is the only thought of this palace." "It's just that there are only a few pieces left in the middle grade immortal stones. At most, they can play the fighting power of entering and leaving the Shenzhou border for six or seven levels."

"That's wonderful already!" Ye Chen said bluntly: "the predecessors in the samsara cemetery are all my masters. Therefore, my master is also my master. Now Kunlun is empty. One pulse of refining weapons is destroyed, and one pulse of alchemy is half broken. "

The five great danzuns in danxu town.

In fact, it was in the ruins of ancient times that he got some alchemy.

However, it was not complete, so it was extremely difficult for them to refine the ancient elixirs. They were all reluctant to say that they were alchemists in the Daoyuan realm. The most important thing was that there was no one to direct them, and there was no direction for them to move forward. They all relied on their own exploration.

If ye Chen's divine alchemy was passed on to them, they would be able to refine many pills.

"I see!"

The power of Shendan monarch explored the outside world a little, then nodded his head and said: "since the external alchemy pulse has been destroyed, I would like to see that Kunlun Xu people no longer have divine level pills to take, so I will pass on the Alchemy skill to you!"

The next moment, he erect his arms, fingers shot a aura, into Ye Chen's eyebrows.

A stream of alchemy knowledge into Ye Chen's mind!

"Wandan Jue"

the same as "the forging of all things", contains the refining method of pills from Xuwang realm to Hedao realm. It is extremely detailed, and the attainments are far more than that of Lingyi danzun and Baiwu danzun. I don't know how many times!

"Master!"

"I want to spread these skills. After all, I can't specialize in alchemy!" Ye Chen said slowly.

"Yes, the first five layers, the items under the Hunyuan God pill, can be handed down!" The king of Shendan said: "the refining methods of Hunyuan Shendan and Hedao Shendan should not be disclosed, otherwise, there will be a continuous stream of strong Hunyuan and Hedao Shendan to kill and seize the magic formula!"

It can refine the formula for understanding the laws of time and space.

There's bound to be a lot of strong men to grab.

When the king of Shendan was in power, he was the peak of the Hunyuan realm, and there were many puppets, disciples and guards under his command. Therefore, no strong man dared to beat his attention. However, if ye Chen was replaced, he would be 100% besieged.

"Thank you, master!"

Ye Chen clasped his fist and said, "in addition, please teach me how to trace thousands of miles?"

Chapter 1236

"Are you looking for someone?" The king of Shendan examined Ye Chen and nodded his head slightly: "it's easy to find someone with your blood essence."

He raised his arm slightly and directly transmitted the skill to Ye Chen with the force of Qi and blood.

After ye Chen said thanks, he took away the things of Shendan palace and returned to the thousand Jue city.

Now, the thousand Jue city has become the base camp of the palace of light, and has become the top force worthy of Kunlun!

He ordered: "ye Lingtian, go to the chief and Deputy cabinet owners of each big branch Pavilion, and the elder of the Supreme Court and so on! Especially Lingyi danzun! "

After that, he went to the room and took out a healing pill that he got in Shendan palace and gave it to ye luo'er.

After ye luo'er took the healing pill, he recovered more than half of his wounds. After all, it was a divine king level pill, and its efficacy must be very good.

"Brother Ye!"

Ye luo'er stares at Ye Chen, does not speak for a long time, his face is ruddy, and finally lowers his head, revealing a touch of shyness.

When ye Chen resists Wei Wucheng's most powerful blow, her blood awakens a part.

She knew something vaguely.

She comes from the blood spirit clan.

A want to know that he has become Ye elder brother's most annoying person, she naturally has no face to see ye Chen.

Ye Chen stroked her hair and said with a smile, "it's OK. I've known your identity for a long time. At least, it's far more powerful than Wei Wucheng. But you don't have to worry. No matter what your identity is, I don't mind."

"You will always be my lol."

"I can't treat you as an enemy."

"Brother Ye!" Ye Luo'er has some inferiority, "I am a matter of blood spirit people, do you know?"

She felt very uneasy in her heart and thought: if everyone knew that I was a member of the blood spirit clan, what should I do?

Although I didn't hurt them.

But my people are so cruel to them. They also hate the blood spirit people. Will this cause trouble for elder brother ye?

Shall I leave?

"Silly girl, what do you think?"

"The power of your blood, that is, a few antiques know that I will beat them."

"Besides, you may be my secret weapon."

Ye Chen patted ye Luo'er and said with a smile, "don't worry. Now I am the master of Kunlun void. Who dares to move you? What's more, even if you know your identity, you have never hurt them. You grew up in Kunlun, and they will not deliberately embarrass you! "

"After all, there are so many people who practice. If you can't even think of it."

"I just killed them!"

Hate the blood spirit people.

It doesn't mean that anyone who is a blood spirit must be killed.

If other blood spirit clansmen don't hurt the people of Kunlun Xu, they don't need to go to other people's trouble.

"Good..."

Yelors cableway: "brother ye, after using my blood, I have some memories in my mind, including a Book of martial arts."

"The memory is very confused, only a few dozen fragments, also incoherent."

"But that book of martial arts, it seems to be called" shenglongjue "

" can I give it to brother ye? "

The palm of her Angelica dahurica condenses the power of a group of soul, wrapped in the skill, and handed it to Ye Chen.

Ye Chen didn't answer and said, "no, this is your family martial arts. I don't have the blood of the holy dragon, so I can't practice it either."

The real skills and formulas are not kept literally.

They are passed on to others by the power of Qi and blood or the power of soul.

At the same time, he knew that the real top families could leave their own skills in the minds of their descendants, so that they could practice independently even if no one taught them.

This situation is similar to that of the dragon, Phoenix and beast groups.

The two clans of dragons and phoenixes are natural creatures. Once born, they will carry the memory of inheritance and contain all kinds of unique skills and skills to ensure that even if there is only one dragon and one phoenix left in the world, as long as there is enough time, the two demons can cultivate to the level of the top demon king.

Ye Luo'er is also in this situation. Once he is injured or uses his original blood, he will trigger the inheritance memory and get the inherited martial arts.

In the Samsara cemetery, Nie Baijian said: "the girl is not bad either."

"Shenglong family's unique knowledge is given to Ye Chen, good!"

"Originally thought, this girl will be a variable, but it seems that there is no threat to the tomb owner!"

If there's a threat, will you sacrifice your life to save the owner?

Then he handed down the unique knowledge to the tomb owner?

No way!

Nie Baijian looked at Wang Qiantian and Chen Anping and said with a smile, "haven't you seen such blood spirit people?"

"I haven't seen it. I'm so silly!" Chen Anping said slowly, "it's generous to give it to others at will."

"Yes." Wang Qiantian, however, was somewhat worried. His eyes were deep, and he said, "this girl is from the holy dragon family. Maybe you didn't see it before his blood was awakened! The family is very strong and could be dangerous to the owner of the tomb. "The Shenglong family is more powerful than the Beigong family.

Even Kunlun Xu in ancient times did not dare to provoke.

"What are you afraid of?"

"If the dragon family came to take people, it might be OK."

"If you want to hurt the owner of the tomb, I will destroy them if I try to do it!" Nie Baijian's voice is cold, and his body looks like a divine sword. Once it comes out of the sheath, it will frighten the world and cry ghosts and gods!

At the moment, ye lu'er outside thinks of something and says:

"brother Ye!"

"My blood wakes up, and I feel someone calling to me."

"It may be that my people in the blood spirit clan found me." Ye Luo'er was worried and said, "maybe, they will come and take me. I don't want to leave Ye elder brother."

Ye Chen Mou son a congealed, extremely firm way: "it's OK, if your clansman comes to pick up, without malice, you might as well follow the past, improve your strength, and come back to help me later. After all, Kunlun is empty now, and there are few that can help me."

"If there is any malice!"

"I'll kill as many as they come."

"Well, go to sleep first. I'll go out and deal with things." Ye Chen goes out of the room and prepares to combine alchemy and refining utensils. He chooses several inheritors and adjusts his state after finishing. In the evening, he uses the power of stars to urge his blood essence to find Ji Siqing and Xia Ruoxue.

After Ye Chen leaves, the gate closes, but Ye Luo'er's eyes are suffused with a trace of strange blood color.

The color of the blood was cold, even deep.

Ye Luo'er naturally saw herself in the mirror, she closed her eyes, countless pictures collided with her brain!

She is in great pain!

The face is even twisted!

I don't know how long after, her eyes suddenly opened, extremely frightened!

Because she just saw a picture!

This picture is about the life and death of brother Ye!

Brother Ye is in danger!

Chapter 1237

Ye Luo'er is frightened and no longer hesitates. He opens the door and pursues outside.

Ye Chen is not far away.

"Brother Ye! Wait a minute

Ye Chen's body was stunned. He turned around in doubt and looked at Ye Luo'er: "Luo'er, what's the matter? Is the body still a little uncomfortable?"

Ye Luo'er shakes his head like a rattle drum and quickly tells Ye Chen the intermittent picture just seen.

"Brother Ye, in the last month, you promised Luo'er to hide all the time, OK?"

"Otherwise, you are really in danger!"

"This is a danger that Luo has never seen before!"

"Top strong!"

Ye Chen's body congeals, although he does not know Ye Luo'er's basis to come from where, but think carefully, I'm afraid that Wei Wucheng seriously injured himself that day, Ye Luo'er still has a lingering fear in his heart.

His fate is out of control. What qualification does yelor have to predict?

In order not to let ye luo'er worry, ye Chen said with a smile: "OK, I promise you, when I find ruoshue and Siqing, I will hide."

With that, ye Chen touched ye luo'er's head and turned away.

Ye luo'er looked at the back of Ye Chen's departure and bit his lips: "brother Ye doesn't believe What should I do? "

The next second, she thought of something and went straight to the room.

At present, since she has awakened some things, the most important thing is to practice!

Only practice can save the disaster!

She has to be stronger!

.....

Now!

Once the thousand Jue square was gone, replaced by a huge palace of light!

The Grand Palace is like the Imperial Palace in ancient times. It is surrounded by aura. All kinds of miraculous herbs are planted here. The speed of practicing here is several times that of the outside world.

In the palace hall, there are 70 or 80 people, including the chief and vice owners of the fifteen point Pavilion, plus Shangling Yidan Zun, Baiwu danzun, Ye Feng, etc!

When they saw Ye Chen coming, they all held hands and bowed and called out, "welcome the Lord!"

Ye Chen nodded and his eyes swept by. The ancestors who took the immortal utensils seemed to have begun to break through and didn't come here!

He said, "gentlemen, I have got the higher and deeper formula for refining utensils and alchemy."

"Refining utensils can refine immortal utensils, divine king utensils and even Hunyuan immortal utensils!"

"Alchemy can refine Daoyuan level, Emperor level, immortal level, God level and God King level."

"Alchemy and alchemy, I will choose three people respectively as the inheritors, pass on the skills of the two veins, and let them refine the weapons and alchemy. Of course, they can take their disciples and restore the two veins to the peak of ancient times!"

"Thank you very much

People look very excited. The two veins of refining weapons and alchemy are handed down, which can definitely greatly improve the current situation!

At least, there will be twenty-three people entering the realm of God. Other emperors will be in the state of eighty-nine layers of heaven. The faster the speed of cultivation will be, the more prosperous times will come.

Ye Chen's eyes swept over these men in front of him, and said, "Lingyi danzun, Baiwu danzun!"

"My subordinates are here!"

"My subordinates are here!"

Two Dan Zun immediately step forward, clasping fists, pupil filled with blazing eyes!

The master of alchemy?

A long time ago, the master's alchemy was above us, even far beyond us.

Now, the hall master has found a higher level of alchemy. If it is passed on to us, I'm afraid it won't be long before we can refine the imperial level pills, right?

No! What is Empire class!

The skills given by the Lord are God level pills and King level pills. We can refine them as well!

Ye Chen held out his hands slightly, and his palms curled around and burst out with an icy blue luster. He swam around like a dragon and snake, and gradually condensed into two spirit beads, which contained the first five chapters of "ten thousand Dan Jue", including the pills for refining Xuwang, Daoyuan, Dijj, Shenwang.

The pearl is formed by the power of the soul.

The top skills are inherited by the power of the soul, which can't be literal and greatly reduce the possibility of outflow!

"This skill is" Wandan Jue "

" I am a disciple of Shendan monarch in ancient times. "

Ye Chen's eyes were full of dignity, and he said slowly, "now, I pass it on to you two. From then on, you two are the same vein of Shendan monarch. At the same time, you can be regarded as my fellow apprentices. I will teach you on behalf of my teacher!"

"The skills in this are enough for you to refine the divine king level pills!"

His eyes, glancing at many of his subordinates, said: "from now on, who dares to covet this skill, you will kill it! Of course, after they have refined the pills, they will provide them to you first, so that you can step into the state of mind! "

"I'll wait for your orders!"

"The orders of the temple master should be remembered by those who are weak in Kunlun!"

Ye Feng, ye Wudi, Xueqi and others responded with fists in succession. The blazing heat in the pupils is hard to describe!Pills!

God level pills, God King level pills, we also have!

We can also refine it!

Finally, we also have a way to rise, and get so many immortal tools. We believe that the future Temple master will lead us to attack the blood spirit clan and win!

Ye Chen's eyes fell again on the two danzuns, and then threw out the two beads.

He: "don't forget, strengthen my God danmen pulse!"

"After you understand the skill, you should not be too greedy for money, and you should not deliberately raise the price of pills!"

"Besides, you are looking for five talents with excellent and suitable talents to pass on the refining method of divine elixir!"

"Let them grow up to be God level alchemists as soon as possible, and you are specially responsible for refining King level pills!"

Kunlun is weak, not unable to move forward.

However, the way ahead was cut off. Now Ye Chen continues the way and brings back the refining method of elixir above the divine level. After that, the martial arts practitioners in the spiritual realm can take pills when they practice. They don't have to spend time to improve the realm like the emperor Zun state.

"Master of the temple!"

Two Dan Zun quickly knelt down and said, "no, master!"

"If the master of the temple passes on our skills, we are our masters. We can't afford to be the master's younger brother!"

What is the master of the temple?

The great Lord!

Pass on our skills. We should be the disciples of the temple master. We will never forget the inheritance for thousands of years!

As long as you live one day, you will do all you can for the temple master and the hall of light!

"Good!" Ye Chen nodded slightly, and saw that the two Dan zuns began to understand the ten thousand elixir, then let them go to the independent practice room to understand.

In the blood spirit secret state, if the elixir brought out by the patriarch and the holy grass hall is enough to refine several batches of divine level pills, in less than a year and a half, there will surely be a lot of martial arts practitioners in Kunlun.

"Next

"The master of this hall, choose to inherit the same vein of refining utensils!"

Ye Chen's words are plain: "I have got the ancient method of forging God and monarch," the "ten thousand soldiers forging decision"

"I will also find the right person to inherit, and everyone will refine it."

"It's just that I'm not very accomplished. Who would like to be responsible for refining the utensils?"

Chapter 1238

"Lord, I will!" The Lord of Xueqi Pavilion immediately knelt down and said, "my foundation has been damaged, and it is difficult to enter the realm of God for decades! Therefore, I apply for a special refining machine! "

On the edge, ye Lingtian also clasped his fist and said, "Lord, Lingtian's strength is hard to improve in a short time!"

He thought: "so, I want to open a new vein of refining utensils, especially for the palace of light for me, even for Kunlun Xu, to make immortal utensils!"

"Hall master..."

"Hall master..."

"Lord, I'm..."

At one time, more than ten cabinet masters and ancestors who respected the eight layers of heaven applied to refine the utensils.

Maybe they are really interested in refining tools.

Ye Chen pondered for a while and said, "ye Lingtian, Xueqi and Xuehe are the three of you who are refining the utensils."

He condensed three spirit beads in his hand, and said, "I am the disciple of forging God King. The forging of that time was destroyed. Now we have established a sect again. Ye Lingtian is the leader of the pavilion, and the other two are the deputy leader of the pavilion. Another elder of Xueye Pavilion is chosen to replace the leader of the Pavilion!"

Then he put the three beads into their minds!

Then!

He took out the twelve celestial instruments.

They were given to Han Yun, Ye Feng, ye Wudi, xueyemen ancestor, Baizhan and so on. The Baizhan elder has now stepped into the realm of emperor's respect. Ye Chen has given him a pill. The road of extinction is progressing rapidly, achieving the top of the nine layers of the emperor's realm in one day.

Twelve top strong, use twelve absolutely powerful immortal tools to break through!

The breakthrough time is between half a month and two months!

After two months, there will be at least seven or eight people in the four layers of spiritual state, and several of them will be in the five layers of spirit!

Each of them has a profound foundation. They have accumulated thousands of years. They have helped to break through the nine grade and eight grade fairies. The conditions are much better than Wei Wucheng. Naturally, once they break through, they can be comparable to Wei Wucheng, or even surpass them.

Wei Wucheng and another blood spirit clan all accepted the pain.

It's a pity that we can't get any reliable information from them.

Ye Chen killed them with one punch. At night, he came to the star watching platform at the highest place of the palace of light. "To use the power of blood, blood essence and stars to track Ji Siqing, we need the power of blood, blood essence and the power of the stars. Now the conditions are all ready!"

Why use the power of the stars?

Only in the night, when thousands of stars appear, can we use our blood essence to stimulate every star and produce a function similar to that of the Chinese satellite. By using these stars to search for the whole Kunlun void, we can find people.

"It's twelve o'clock in the evening!"

Ye Chen whispered: "when the stars are at their best, they can start!"

Ye Chen's arm is entangled with blood silk, and a blood red pupil emerges from the eyebrow, which is the devil's eye!

The reincarnation in his body is gradually awakening, although only a part of the blood force is awakened, but it is also enough.

At the next moment, with a burst of Qi and blood, the blood on his arm turned into purple silk, like a snake gathered between the palms of his left hand. A purple ball appeared, like a transparent ball, which could see the scenery in front of him.

Then, ye Chen mobilizes the Qi and blood on the body and condenses several drops of blood essence.

Seven drops of blood essence, suspended in the air, exudes a strong and powerful pressure, and trembles faintly in the void. Even if no one controls the essence blood, it is enough to shock and kill the source area of Taoism, even the weak emperor Zun state!

Blood can shock and kill the weak emperor Zun!

At present, ye Chen has not yet been promoted to Emperor Zunjing!

Such a strong combat power, if promoted to the emperor's realm, or even into the divine realm, you can fight in the face of the divine kingdom.

"Fusion!"

"Blood essence, blood vessel, fusion!"

Ye Chen murmured, as if he were an emperor. His voice was deep, but he could frighten the heaven!

He controls seven drops of blood essence with his right hand, and then takes out a long sword used by Ji Siqing and jewelry used by Xia Ruoxue to absorb the breath and smash it into the purple ball.

Make use of the pursuit of all things!

There must be several hard requirements!

First of all, you need to have something that is stained with the breath of the person being sought. Anything will do.

Second, the caster must have strong blood and essence to scan heaven and earth to find people. If the essence blood is not strong enough, it will not only fail to do this, but also be severely damaged!

Third, we need to use the stars as the medium.

Stars all over the sky, surrounded by Kunlun Xu and Huaxia, with stars as the medium, naturally easy to find!

"Search!"

Ye Chen murmured, and the purple ball burst out a very powerful Qi machine. In an instant, it rushed to the four seas and eight wastelands, and the aftershock caused the surrounding warriors to retreat one after another!

Even the blood contract and ye Lingtian, who just left the customs, were shocked to retreat.

Ye Lingtian was shocked to look at Ye Chen on the star watching platform, and whispered slightly, "Lord, what is this going to do?"

"This amazing skill has never been used by the hall master before." "Is the combination of blood essence and blood power to kill a strong enemy?"

"Is the blood spirit clan coming again?"

"No!" The owner of the blood contract Pavilion shook his head slightly, his eyes were deep, and he said: "I can feel that the next wave of blood spirit people should not come yet. Temple master, I think I want to find someone. "

He thought: "after all, it has been two days since the news of Ji Siqing and Xia Ruoxue has been passed on."

"In these two days, hundreds of emperors under our command have turned over Kunlun and Huaxia several times."

"I can't find the two ladies, and I don't know where they are!"

"Hall master, it should be to launch the counter heaven Dharma formula, look for people!"

Just now the main hall's Qi machine was to shock into the God's realm. It should be OK.

Now Kunlun void, and in addition to our temple of light outside the realm of God?

Not at all!

Therefore, the temple master should be looking for someone!

In the reincarnation cemetery, the king of Shendan nodded slightly, and his eyes were full of satisfaction. "Yes, it's very gifted. I'm so familiar with the first time I use it. This maturity is fast catching up with me."

"Yes?" Forging God said: "Ye Chen is the source of the seven layers of heaven. Will you be hurt if you use this skill?"

He stroked his chin and thought, "if your blood is strong, anyone can trace it. But if you want to scan the whole world, if you make a mistake, you will be hurt. Even if you find it in the end, you will consume a lot of life."

Forging God king knows that the pursuit of thousands of miles is indeed powerful against the sky.

However, the same reaction is absolutely not small, ye Chen has only such a situation to use, because he is the overlord of Kunlun Xu, his breath scanning the world, no one dares to resist, and no one has the strength to break his breath.

But if you change to a strong place, just come to an old monster and directly break the breath, ye Chen will be severely damaged!

"It's OK!"

"We are not still there. Which old monster dares to move our disciples?"

Chapter 1239

The king of Shendan didn't think so, and then observed Ye Chen's use of Dharma formula.

On the stargazing platform, ye Chen bursts into Qi and blood all over his body, and punches on the purple ball.

Hoo Hoo Hoo!!

Whoa!!

The purple ball burst out an afterwave, which once again lifted many strong men.

The next moment, the ball will shoot out a purple light wave, close to the sky, suddenly divided into thousands of light waves, each light wave flying toward each star, quickly turning a star into purple.

Before long, all the stars were lit up, and many of them glowed with purple light, connecting with other stars.

Soon, the stars in the sky, connected to each other, looked like a big purple net.

And a breath of breath fell down, like a curtain of rain, on every place in China and Kunlun. All the strong felt a breath of Qi sweeping in front of them. It seemed that there was an aura of wisdom and they were looking for something.

On the observatory!

Ye Chen stares at the purple ball, which shows a series of scenes, the scene changes quickly.

From the land of the Han family, the land of the Huang family, and then to the thousand Jue City, danxu Town, and so on, one scene after another was revealed in the purple ball. He said in a low voice: "what a powerful skill. Everywhere you look for the scene, you are looking for every corner. It's the place where you practice and another secret place I haven't been to. They are all exploring!"

"No wonder it's known as a long-distance pursuit!"

"It's not thousands of miles. As long as I'm strong enough, I can trace people even if they are thousands of miles away."

He is exporting Qi and blood into purple breath, scanning every place between heaven and earth.

Gradually, ye Chen frowned and said, "no, every scene has been explored twice, and it is not in."

"Masters, why can't I find their whereabouts?"

"Kunlun Xu and Huaxia, you have searched all over, obviously not in these two areas!" The king of Shendan had a deep face and said in a cold voice, "Ye Chen, I'm here to show you. I want to see who dares to move my apprentice's woman!"

After that, the king of Shendan made the same action as ye Chen just now.

The difference is that he uses Ye Chen as the medium, and finally he plays a stronger force through the purple ball in the palm of Ye Chen's hand.

Hoo Hoo Hoo!!

Whoa!!

Suddenly, the world changed color.

The purple ball burst out countless brilliant luster, hundreds of millions of light waves flew out, and even communicated with the stars in deeper places, so as to explore the position in the deeper distance.

Just now, ye Chen just hooked up and triggered a circle of stars outside Kunlun Xuhe and Huaxia to search for Ji Siqing and Xia Ruoxue.

However, the king of Shendan moved several layers of stars into the depths, with the number of stars at least ten times that of Ye Chen, and the scope of exploration was even larger, such as the spirit City, the location close to the border of the blood spirit clan, towns, etc., and so on.

When ye Chen and Shendan monarch are exploring, the people below have been completely at a loss.

Ye Lingtian widened his eyes and looked at Ye Chen, who was blooming with purple light on the star watching platform. He swallowed his throat and said, "Lord of the temple Is this the resurrection of ZIWEIXING? No, ZIWEIXING is not as strong as the hall master

"So many purple light waves, I'm afraid, is killing Wei Wucheng. Can they be pressed to death many times in an instant?"

"It must be the peak of the state of mind?"

"Is this a search for someone?" He was surprised and said, "how can I feel like I'm killing people from a long distance? This gas engine is too powerful!"

It used to be thousands of purple waves!

It is estimated that each of them can kill the king's realm or those who return to the virtual realm.

But now, there are hundreds of thousands of light waves, each of which has the Qi mechanism to kill the virtual king. How strong is this?

Is now the temple master a person to challenge all the strong Kunlun Xu, it is no problem!

Ye Feng, ye Wudi, Han Yun and other old fossil level figures are preparing to break through the realm. They have not yet started to break through. At this moment, they see the purple light all over the sky, and the source of the purple light is Ye Chen. They are so shocked that they can't close their mouths!

This breath!

It's so powerful!

Is it true that the eight or nine layers of heaven in the realm of God are not so powerful?

How powerful is the temple master?

Up to now, he has never been defeated. No matter how high he is, he has always been invincible. No matter what generation of outstanding people, even the old antiques and fossils survived in the ancient times, they are not the opponents of the temple master!

The stronger the master is, the more confident we are to deal with the blood spirit clan!

This is a great good thing!

Just as they were thinking, a bloody halo burst out of the sky, killing all the purple light.

Ye Chen spurts blood to explode to retreat three steps, the body shape swayed, the eyes slightly confused, "how?"

Poof!

In the reincarnation graveyard, the God Dan monarch is spurting blood to explode to retreat dozens of steps, slightly frightened, way: "Ye Chen, don't go to check, can't check!" "Master, what was the aperture just now?"

"I don't feel so strong Ye Chen sits with his knees crossed, healing and inquiring at the same time!

The king of Shendan wiped the blood from the corner of his lips and said: "the aperture just now should be caused by the counterattack of an old monster above the level of Tao, but it seems that there is no intention of killing. Otherwise, you and I will at least be severely damaged, and even your golden body will burst open!"

"But fortunately!"

"The man just cut off my investigation, some afterwaves flew over, just a natural aperture!"

"Old monster?" Ye Chen looked cold and said, "master, do you mean that an old monster has caught Ji Siqing and Xia Ruoxue?"

"Not necessarily catch!"

The king of Shendan sat on his chair, took a breath for a moment, and then said, "I feel a little bit that this old guy should at least create the realm, or even the astral realm, with the man who defeated us at the first time

"The old monster of this level is not enough to catch two women in the state of mind."

At this time, Nie Baijian frowned slightly and said: "Ji Siqing, I have seen him, has a high talent. Another Xia Ruoxue has a good talent. Maybe it's some old monster. When he saw them, he took them away."

"This is the best plan! Worst of all, I'm worried about the secret the man took them away for

Ji Siqing emperor respected the realm, Xia Ruoxue realm was lower.

Female warrior of this level.

For those old monsters, their status is not lower than that of their ancestors. The cultivation of creating the realm of transformation is that the blood spirit clan has a great identity and status, and how many beauties they want can not be deliberately grasped.

Otherwise!

Ji Siqing and Xia Ruoxue must have secrets worthy of his attention.

But if it's a secret, I can't see it. Can I see this old monster?

"Take in students?"

"Take away without permission, this is not the act of accepting apprentices!"

Chapter 1240

Ye Chen's double pupil gradually cold up, no matter who, even his woman dare to move, must die!

No matter who it is!

It is the Beigong family. If you dare to do this, you will be destroyed!

"Master!"

"Have you ever detected any information, where have they gone?"

"Besides, you should have been to the blood spirit clan in the past year? Do you know which old monster it is? " Ye Chen anxiously asked, did not pay attention to the outside constantly called his men, the mind is now in the reincarnation cemetery!

The king of Shendan frowned, thought for a while, and said, "I will explore again!"

Immediately, he used Ye Chen's body as a medium to launch a long-distance tracking decision, but this time he was extremely careful.

He didn't want to take it again.

Ye Chen's mind and mind are communicating with forging God King and Nie Baijian at the moment.

Forging God said: "boy, you don't have to worry about it. People who can hurt Lao Wang are very powerful."

"As far as I know, there is at least one ancestor of the blood spirit clan."

"Xingqiao state is in the blood spirit clan. At least it is a overlord. There will be no shortage of beautiful women. You don't have to worry about this!"

Nie Baijian also said: "Ji Siqing's talent is excellent, even better than Qingjian, Heiyao and Ruohan. If he is placed in the blood spirit clan, he will enter the seven or eight levels of the divine realm in a few years. If there are good resources, it is not impossible to break through to the divine kingdom!"

"Little boy, be at ease a little bit!"

"Don't worry, let me have a good exploration!"

Nie Baijian hesitated.

In those days, they did not reach this realm. Of course, they did not practice for a long time.

In Kunlun Xu, the hundred sword God King, the God Dan king, the forging God King.

All of them can be called the ancestors of a school, or even the peerless ones who climb the peak. However, in the Xueling clan, they can only be regarded as middle-aged martial artists, or young people. After all, after stepping into the spiritual realm, their longevity has increased greatly. In the Hunyuan realm, there are even 100000 years of life in the Hunyuan realm, and more than 100000 in the combined Taoist realm.

In contrast, it is understandable that they were defeated in the war.

After all, they are only a few thousand years old, and have no top-notch ability to sit in town. However, they are attacked by a group of tens of thousands of years old or even more than ten thousand years old.

"Hoo Hoo Hoo!"

"It's detected!" God Dan regained his strength, took a long breath and said, "I know who took them away!"

"She is an old female strong man, and her name is Lingyun xianzun!"

"The old witch is powerful, but she has left a trace of it!"

"Spirit charm immortal?"

"Xianzun!" Ye Chen's two pupils are burning up. Xianzun, who can be called immortal Zun, must be a very powerful generation!

After stepping into the realm of the divine king, martial artists will create their own names and act on them. They also attach great importance to their names!

Like Nie Baijian, known as the king of hundred swords!

Wang Qiantian, the king of Shendan!

Chen Anping, forging God King!

Blood seven night, seven night God King!

However, all those who have the title are the giants of one side. In this way, they only use the name of "monarch" and "God King". However, the spirit immortal Zun dares to take the name of xianzun, which is really powerful!

What is xianzun?

The respect of the immortals is superior to the immortals. It is really a strong man!

Those who dare to rob me will be killed sooner or later. She will kneel down and beg for mercy!

The king of Shendan seemed to see ye Chen's mind and said, "this immortal immortal with spiritual charm is a strong man in foreign countries. He will travel many low and medium level martial arts positions, but he comes from the high level of martial arts and comes from the Lingxian emperor palace of the blood spirit clan!"

"Once upon a time, Lingyun xianzun came to the earth once five thousand years ago!"

He recalled: "at that time, I was just in a state of mind. Fortunately, I met her once, so I remember her breath."

"Otherwise, I don't know who she is!"

"It's just that in those years, I remember the spirit of xianzun, and taught many people of Kunlun. Although he was a disciple, at least one tenth of the monarchs who participated in the war in ancient times were inspired by her."

"She doesn't look like a murderer or a Beigong family!"

"So, your two little lovers, there should be no problem!"

Lingyun xianzun should have traveled to the earth.

After all, this old man often travels around the world. It is said that the bottleneck of realm has not been broken, so it is.

In addition, Lingyun xianzun didn't hurt Kunlun Xu people at that time. There was no need to let Ye Chen offend Lingxian emperor palace!

"Lingxian palace!"

"Spirit charm immortal statue!" Ye Chen clenched his fist and said, "without saying a word, he took my people away!"

"Xueling clan, Lingxian palace, I will definitely go!"

"Where did the last breath break?"

"Spirit city!" The king of Shendan blinked his eyes and sighed: "I didn't expect that the spirit City, as a transit city, is now all over the martial arts. Ye Chen, if you want to go to the blood spirit clan, you can only go to the spirit city road!" After recovering from his injury, he got up and said:

"and the spirit city is the most mysterious place in Kunlun

"The space transmission array leading to the blood spirit clan is in the spirit city!"

"The light wave I explored was in the spirit city. I found the last traces of Xia Ruoxue and Ji Siqing. It seems that they were left a few days ago."

Ye Chen nodded and said, "the spirit city is right, I will definitely go. Take the spirit city as the transfer, I will go to the blood spirit clan again!"

Spirit city!

It is not the same as the city and the blood pool.

It is an absolutely closed city.

Ye Chen also knows this place, but it is really difficult to get into that place.

Need to enter the trump card!

It's a legacy of ancient times.

There are only three pieces in the whole Kunlun void, and there are only one or two pieces for other forces in the small plane near the Kunlun void.

It's for the use of peers!

After all, there are many aspects and forces in Kunlun.

They all want to seek opportunities in this Outland, and even enter the higher plane of the blood spirit clan or other higher planes to practice.

The opportunity to go to other planes and Outlands is extremely eager for any Tianjiao.

If you look at the people of the Huang family and ye family in the past, as long as you are out of Outland, there are treasures everywhere, high-level skills and all kinds of immortal tools. As long as you have strength, you can win Tianda's skills and wealth.

For the promotion of strength, it is simply a thoroughfare.

However, in order to prevent the vast majority of geniuses, they went to other planes. Therefore, in ancient times, many great powers combined to block the spirit city of the storage space transmission array, and made some external tokens. Only after a certain period of time could someone take the spirit card, take the space transmission array and go to other planes.

"Master!"

"Does Kunlun have a soul card?"

"It's important to me!"

"I must go to the spirit city of Kunlun Xu!"
