

Physician 1241

Chapter 1241

Seeing ye Chen's excitement and determination, the king of Shendan shook his head and said, "I know those two girls are very important to you, but the Lingpai must have been used up by all generations of Tianjiao!"

"After all, it's too important to enter the Lingpai, and most people won't give up."

Ye Chen heard this sentence, the mood immediately fell to the bottom.

However, at this time, a voice is ringing in Ye Chen's ear.

"Not necessarily."

"Kunlun Xu originally had three magic cards." Forging God King pondered: "once every thousand years, three spirit cards can take three people to leave. If three people come back alive, they can still be used next time!"

"If it is dead, it is invalid!"

"That man should have one, if he is still alive."

Hearing this, Shendan Prince's eyes were slightly narrowed. He obviously wanted to say something and said, "I know who you are talking about! There is a mountain peak near Kunlun Xu. This mountain is called blood devil mountain. The master of blood demon mountain has a soul card. At least before we are defeated by the blood spirit family, I know that the blood demon mountain master has a soul card! "

"Blood devil mountain?"

Ye Chen decided to say, "OK, I'll be ready to go right away."

"Wait a minute!"

"Do you know what level the master of blood demon mountain is?" The king of Shendan had a keen eye and gazed at Ye Chen and said: "the blood demon mountain is extremely fierce. There are all kinds of powerful demons stationed all year round, and there are also various array gathering."

"If you pass this cultivation, I'm afraid you will be directly eaten by those array monsters!"

"Even if the array can't kill you, the evil Qi on the blood demon mountain will corrode your body and even your soul power!"

"That's enough to make you die several times." He said in a cold voice: "secondly, the Lord of the blood demon mountain is even more powerful than Wei Wucheng. In the past few thousand years, he may even arrive at the divine kingdom. We will not help you casually, especially if you want to die yourself, and we will not help you!"

Ye Chen's eyes are cautious. He thought his strength was enough to crush all the people in Kunlun. Now it seems that there are people outside, and there are days outside.

After thinking for a few seconds, he still said: "master, this time you don't need your hand! With my fighting power and the king's weapon in my hand, it's enough to deal with him

"No matter how bad it is, I still have a king level war puppet. Even if the fighting power is almost the same, it is no problem to block it!"

Four layers of heaven?

I don't see it yet!

I now strength, smash into the spirit of the four layers of heaven, no matter what.

"All right

"If you want to go, I don't care if you die!" If you want to reach the four realms, you should not go to the five kingdoms for a long time.

Now ye Chen is willing to bury her future for the sake of the two women.

This let him to Ye Chen's good feeling reduced a few points.

Ye Chen, of course, is the reincarnation tomb owner. If he is not absolutely sober, he will die early.

The king of Shendan did not speak any more.

Ye Chen out of the reincarnation cemetery, opened his eyes to see many strong, around his body!

Ye Wudi asked eagerly, "what's wrong with you, master?"

"Just after such a strong attack, we all thought it was the blood spirit clan that came again!"

"What happened?"

"Master of the temple!" Ye Lingtian flashed over and said, "all the imperial palaces have been prepared, including the nine layers of heaven in the closed door. Are there any strong ones killed? Are you ready to fight like hell? "

Ye Chen a Leng, look at the square under the stargazing platform, standing dense emperor Zun Jing Wu.

These emperors stood in order, dressed in spirit armor and armed with weapons. They looked like an army ready to fight at any time.

They felt Ye Chen looking at himself, and immediately clasped his fists and said, "please show us that no matter who we are fighting against, we are ready to fight with all our might!"

They are the emperor in the palace of light!

They are the pronoun of invincible!

Their master of the temple is Ye Chen, who has created countless miracles!

No matter who attacks Kunlun Xu, they are not afraid!

Even if we are defeated!

Even if the enemy attacks our temple leader first, they will fight to the end!

"This..."

"Cough..." Ye Chen coughs up a few congestion, it is obvious that these people misunderstood!

Just now, he made great efforts to trace all things, and the master behind him also used the magic formula, which was even more powerful. When the spirit spirit immortal master erased the trace, the residual power sent out turned into an aftershock to attack himself, which obviously shocked all the emperor's realm.

However, Lingyun xianzun is really not weak!

The aftershock alone wounded himself and his master.

Aftershocks! In the past, they were the aftershocks of their own battles, which shocked many emperors and even injured them.

Unexpectedly, I was hurt by the aftershock of others today.

"Gentlemen

"Just now I was just probing a strong man!"

"Some battles broke out, but it's OK. The man has left. Let's go!"

Hearing Ye Chen's voice, many of the emperor's revered martial arts men then dispersed and went back to practice in seclusion.

Han Yun, Ye Wudi and others are somewhat surprised.

Han Yun asked: "temple master, just that attack..."

"No harm!"

"Besides, I'll probably be away for a while!"

Ye Chen thought and said, "I will go to the blood demon mountain first, and then to the spirit city! After all, only there can we find more resources for breakthrough and cultivation! "

With Ye Chen's present situation.

Kunlun Xu's resources are not enough for him to use. He has to go to the spirit city!

What's more, Ji Siqing and Xia Ruoxue were also taken away by Lingyun xianzun. They had to go to the so-called Lingxian emperor palace to ask what was going on. The immortal Zun took his own people without his consent.

"Temple master, is the spirit city in your mouth the place of space transmission array? Will it be too soon? "

"Master of the temple, you can upgrade your cultivation to the realm of emperor's respect before you go."

"Master, I'm afraid your cultivation is dangerous."

"Hall master..."

Han Yun, ye Wudi and others began to persuade Ye Chen.

After all, ye Chen's talent comes from the eight layers of heaven. Although he can fight into the realm of God, it is too obvious. I'm afraid it will attract the prying eyes of the strong.

"No problem!"

"By the time I get to the spirit city and use the space transmission array, I should be emperor's realm already!"

Ye Chen's eyes swept over the crowd and said: "in the hall of light, the master of Qingjian will take the place of the master of the hall. Ye Lingtian, Han Yun and Xueqi are the deputy heads of the hall. The other strong men all listen to their orders. Lingyi and ye Lingtian, you should develop a vein of refining weapons and alchemy as soon as possible!"

Chapter 1242

"If you meet the right talented students, you can teach some out!"

"To create a large number of immortal utensils and God level pills as soon as possible!"

"If you want to break through now, you can take them first and break through by yourself."

The emperor respected the nine layers of heaven. When they broke through, they used the level of immortal utensils to determine their fighting power after breaking through!

If you enter the realm of immortality, at most, you will have a deep understanding of heaven!

Similarly, if a warrior uses the nine level immortal tools to break through, he must be in the four or five layers of the spirit realm after the breakthrough. Therefore, ye Chen did not ask a large number of emperor Zun's nine layers of heaven to use one or two level immortal tools to break through.

But before long, Lingyi can refine divine pills.

Even if one or two immortals are used to break through and then take pills, the combat effectiveness can be improved rapidly!

At least let Kunlun Xu have part of the power of self-protection!

"Obey the orders of the temple master!"

"Please don't worry. We will manage the court well."

Three people and one demon bow at the same time!

Ye Chen also explained a sentence and left directly, turned into a shadow and disappeared in people's sight, and went straight to the blood demon mountain.

On the star watching platform, Han Yun gazed at Ye Chen's far away back and sighed: "the temple master has gone to the mysterious land and spirit city to buy time for us. We should speed up our speed and enhance our own strength! In the future, we can also try our best to help the temple master and deal with the brutes of the Renmen clan after we really fight with the blood spirit clan

This is the temple master.

There's a good chance it's going to be bad!

But when the temple master comes back, I will definitely let him see a brand-new Hall of light.

A bright palace full of countless strong men!

Only such Kunlun void can be worthy of such a powerful person as the hall master!

.....

At the same time, in a magnificent palace.

An old woman with gray hair opened her eyes.

There was a faint air of immortality in her whole body.

If there is a strong blood spirit clan here, it is bound to find that the clothes and accessories on the old woman are priceless!

What's the concept of high military position!

The terror of this person's identity can be seen!

The old woman stood up and a cold light flashed through her eyes.

Her mouth even showed a strange smile: "Kunlun Xu is just a low martial arts face, how could such a strong skill come to me."

"If I didn't have a magic weapon in my body, I would have been seen through by that one."

"But judging from the breath of the technique, I'm afraid that the man found me because of the two girls. Are these two girls not as simple as they seem?"

Lingyun xianzun thought of this place and went to a room.

The ban on the door was removed by her wave.

The door opens, and two beautiful images appear in the sight of Lingyun xianzun.

Either of these two images is a disaster to the country and the people.

If ye Chen is here, he will surely find that they are Ji Siqing and Xia Ruoxue, who he has been searching for.

Ji Siqing saw Lingyun xianzun, and his eyes flashed cold: "what are you doing here? You've imprisoned us here. I won't thank you!"

"If you want to kill us, do it as soon as possible!"

"Ji Siqing is not a man who is greedy for life and afraid of death!"

Xia Ruoxue also wants to say something, but she knows that her strength is too small. She shakes her head helplessly, turns around and no longer talks.

Lingyun xianzun looked at the stubborn appearance of the two people and shook his head helplessly: "why do you need this? I saved you at the beginning, naturally there is a reason."

"As for killing you, I'm not a killer without blinking an eye."

"My request is very simple. You two are my apprentices."

"You know, I never take rubbish from the lower level. If I didn't find your good luck and hidden blood, I wouldn't be like this!"

"Please make sure that this is your biggest chance to change your destiny! Or the only chance. "

Lingyun xianzun is extremely strong with both hands behind him.

Although there is no deliberate exertion of pressure, but still let Ji Siqing and Xia Ruoxue breathe quickly, very uncomfortable.

Ji Siqing's eyes frosted: "I said, I have a master, I don't want to worship you as a teacher! What's more, there are no forced apprentices! It's ridiculous

Xia Ruoxue may not be able to listen to it. She turns around and takes a look at Lingyun xianzun and says, "if you really want us to worship you as a teacher, giving us freedom is the best choice."

"Besides, I want to meet someone!"

This person is Ye Chen naturally.

During this period, Xia Ruoxue heard many stories about ye Chen from Ji Siqing.

She couldn't imagine what kind of pain Ye Chen suffered to reach the present situation.

She thinks of Ye Chen. Think like crazy.

"Are you talking with me about the conditions? Are you sure you have the qualification? "

Xia Ruoxue didn't lose momentum at all. She stepped out and her calm voice rang out: "I didn't intend to discuss terms with you. I just want to see one person. That's all. "

Lingyun xianzun snorted coldly: "if I'm not wrong, the guy you want to see is the one you want to see."

"It's a pity that he's out of his power. I'm afraid he's seriously injured now."

"It may even have fallen long ago!"

"Rubbish, I really don't care."

Summer if snow a Zheng, ten thousand did not expect Ye Chen unexpectedly to have an accident!

She has seen Ye Chen's art of finding people in China! It's a monster!

Now it seems that ye Chen's all used in this mysterious woman, the root does not work!

Summer if snow raised his head, eyes incomparably serious: "she won't have an accident, I know him."

"If you don't give us freedom, he will find us! And then you're going to end badly. "

"I'm sure!"

Lingyun xianzun heard Xia Ruoxue's firm words and wanted to laugh.

How strong can a garbage level be?

And maybe it's going to make her miserable?

It's ridiculous!

With a big wave of her hand, she untied the shackles of Xia Ruoxue and Ji Siqing, and ordered, "I don't want to say more nonsense. Since you can't change your mind, I'll take you to a place!"

"I believe that when you get there, all your decisions will change."

"Go

As soon as the words fall, the three figures disappear completely.

As if it never existed.

.....

Ye Chen, in accordance with the position given by the God Dan monarch, has been on his way, and faintly comes to a place full of clouds and mists in Kunlun.

Before entering, ye Chen feels the terror of the surrounding array.

The key is that there is not only one array nearby, but also numerous arrays.

It must be that the person who built this place is a top-level talent who is proficient in the array.

The outer array is not too difficult for ye Chen. It can gather the power of the blood dragon and break it directly.

Ye Chen stepped in one step.

After entering, ye Chen finds that there is another cave inside.

There are many buildings.

Let Ye Chen accident this nearby not only oneself, unexpectedly also has other people.

The key is that these people are not weak!

Chapter 1243

"Lord, you go to see the devil, too?"

"Yes, now it's less than a thousand years ago, and you can't use the spirit card. You can only find the master of blood demon mountain."

"The Lord of blood demon mountain is so strong."

"And he has a strange temper. I'm afraid it's not easy to climb his magic ladder!"

"We can only wait for tomorrow and we will climb together."

"Maybe there are more people and the pressure of magic ladder will be less."

"It's also..."

Ye Chen listened to the conversation between the two warriors, but he was a little curious about the magic ladder.

These two are also young warriors in the five or six layers of heaven in the emperor's honor. According to the truth, these warriors are Kunlun Xu, who are extremely arrogant. I didn't expect that they had no confidence in the magic ladder.

This magic ladder.

It's better to get to know something about it.

Ye Chen quickly came to an inn and packed an elegant room. He asked the waiter to order some food. Then he took out a piece of exquisite spirit stone and handed it to the bartender. He said, "I just came here. I need to know about the situation here!"

The best spirit stone!

As soon as he saw this, the bartender quickly put it away and said with a smile, "if you want to ask me any news, I'll tell you everything you want."

Ye Chen nodded slightly, but it was a little bitter smile.

At present, the bartender in front of him is also the eight layer sky of Daoyuan realm.

I didn't expect that I could only be a servant in this place, and at least be a overlord in Kunlun. It seems that this place can not be underestimated. I haven't reached the level where I can run rampant.

"You can tell us something about the blood demon mountain and its surroundings."

"Of course, there is also the situation of the blood demon mountain master!"

The bartender brewed for a while and said with a smile, "my brother should come from outside of Kunlun."

"My blood is a little special. I can feel things that can't be detected by outsiders. I found that although my brother is the source of Taoism, his combat power is at least comparable to that of emperor Zun's six or seven layers of heaven!"

"Such arrogance is really powerful. No wonder we can come here!"

He saw Ye Chen's origin at a glance, and then he said in detail: "our place is close to the spirit city and has a little light, so there are many strong people of Kunlun virtual hermit family. The key is not only Kunlun Xu martial arts, but also from other places."

"Some of them are from Zhongwu level and some from gaowu level. After being seriously injured, they have to find a quiet place nearby as a place to rest. It's just as well that we have gathered a lot of such seniors who have retired due to injuries!"

"Many of them want to enter the spirit city."

"To enter the spirit City, you need to enter the spirit card!"

The bartender swallowed his saliva and continued: "at present, there are strong ones who enter the spirit card, only the master of blood demon mountain is left. Only the master of blood demon mountain has set up a hundred step blood devil ladder to reject those young warriors who want to enter the magic card."

"There are many strong players here. Do you have a trump card?" Ye Chen asked.

"In the past, some old strong players have, but their Lingpai continued to use, the next time it will take a thousand years."

The bartender said in great detail, "there are also some powerful into the Lingpai, with the fall of the younger generation into the high level of martial arts. Therefore, most of them are staring at the blood demon mountain

"Moreover, every year, these Tianjiao warriors will organize a grand gathering by themselves, and attract a large number of young warriors to climb the magic ladder together."

"This kind of climbing will be less difficult, but it has been 1700 years since the emergence of blood demon mountain, and the highest person has only reached the 60th level!"

"Other arrogant warriors can't bear the pressure and fall down. Or in the process of climbing, they are attacked by monsters and poisonous snakes. Moreover, even if you have successfully climbed the mountain, I heard that the master of the blood demon mountain is not in a good temper, you should pay attention to it, little brother! "

Ye Chen asked: "the master of blood demon mountain, what cultivation is it?"

"I don't know!" The bartender shook his head and said, "the master of blood demon mountain has not done anything for thousands of years. I heard that he retired after he was injured. I'm afraid that the specific strength of the master will only be known by the top figures."

Thank you

Ye Chen let the bartender go out, also thinking about the matter of blood demon mountain!

The Lord of blood demon mountain has a soul card, but he has never been used by others. Is he worried that Tianjiao will be killed in Outland and lose his soul card? Or are there other concerns?

Why do you have a recessive wound?

Are there enemies?

So dare not let other people use the trump card, afraid to be found out and catch yourself?

Ye Chen didn't tangle with the problem, instead, he looked around for information near the foot of the mountain.

At the foot of the sword city.

Ye Chen is listening to Han Yun in Kunlun.

However, few Kunlun Xu people entered Jianmen city.

This place and the blood demon mountain are forbidden areas of Kunlun void.

No one is allowed to step in. Stepping in is looking for death.

The city Lord of Jianmen city is in the six layers of heaven. In addition, there are many martial artists who are in the spirit state. Their overall strength is much higher than that of Kunlun.

And the aura in the city is very rich, and the details are far more than that of Kunlun and Huaxia.

"It seems that Kunlun Xu can't be underestimated."

Ye Chen murmured, then began to cross legged practice in the room.

He has a sense of breakthrough.

I'm afraid it will not be easy to climb the blood demon mountain tomorrow.

.....

One day later, hundreds of Tianjiao collective out of the city, came outside the blood demon mountain.

Xuemo mountain is a mountain with tens of thousands of meters high. It looks like a mountain composed of magnetic mountains. From the mountain, a continuous stream of red blood flows down the mountain, and a strong sense of killing and cutting is lingering for hundreds of miles.

Other mountain peaks flow down the spring, but the blood devil mountain is blood.

It's hard to imagine how many warriors and monsters have died on this mountain!

Ye Chen gazed around the blood demon mountain and found a lot of remaining soul power, "at least falling on the 100 emperor Zun realm, thousands of monsters!"

"Draw out the blood of these people and monsters and sprinkle it on the mountain, and the blood will flow down."

"On the hillside and at the bottom of the mountain, there are remains of fierce animals and human beings, some of which are even gold bones!"

"There are also a few people who died here in the period of tyranny! The strength of the golden bone is not strong, and the dead should be in the stage one or two of the dominating period. "

No wonder the king of Shendan warned himself of danger.

The Lord of the blood demon mountain seems to be a demon. Even though he kills people, he still drains the other party's blood. His bones are removed and put on the mountain as ornaments. As for the power of killing Qi and blood around the mountain, it is enough to kill the king Xu's martial arts.

However, hundreds of arrogant warriors are not afraid!

They gradually came to the east side of the blood demon. Carrying the strong atmosphere of killing and cutting around them, they found a ladder up the mountain. The ladder made of pure black basalt rock extends from the bottom of the mountain to the mountainside, the highest and the lowest, with a drop of at least 4000 meters.

Chapter 1244

Although it is a step, the distance between them is not small.

And there are monsters, poisonous insects and snakes all around.

No wonder, 1700 years later.

No one has ever really walked a hundred steps of blood devil ladder!

We can see the horror!

"Kunlun Xu people?"

A young man in white clothes recognized Ye Chen at a glance and said with a sneer, "how dare you come to the eight layers of heaven from the source of Tao?"

He looked at Ye Chen carefully and said with disdain: "this kind of mole ant dares to come. It's estimated that the second layer of the blood devil ladder can't go up, and it's exploded by the breath, waste!"

Joke!

A waste of eight layers of heaven from the source of Taoism also wants to break through the magic ladder?

It's not death. What is it?

The young man thought that he was talented in heaven, and was a descendant of the great power of the stars. Now all of them have seven levels of cultivation in the heaven, but they dare not look down upon the ten thousand magic ladder. He knows that the ten thousand magic ladder is not so much a test as a search for death.

Emperor Zunjing three layers below the sky!

Don't get close to the magic ladder!

This is almost recognized by all around!

The power of the ten thousand magic ladder is comparable to that of the five layers of heaven in the ordinary emperor's Zun state. This is the first ten steps. The first step is the most difficult one. The Qi and blood pressure can crush the warrior in the three layers of the ordinary emperor's Zun state. Is this guy from the eight layers of the Daoist realm come here?

Want to die?

Don't want to live?

"You boy, you don't want to live!"

"This trash, really don't want to live!"

On the edge, there are two white robed men, disdain to look at Ye Chen.

As the disciples of Xingjian sect, xingjianmen is one of the most powerful forces in Lingcheng. Therefore, few disciples of the sect can successfully step the magic ladder. This Kunlun Xu man is really looking for death.

Around the gathering of hundreds of people, the vast majority of them are emperor Zunjing 567 layers of heaven.

A few of them are four layers of heaven, some of them are eighty-nine layers of heaven, and there are even two peerless talents who enter the heaven of God realm!

None of the present is lower than the emperor's four levels of heaven!

And this Kunlun Xu man is only eight layers of heaven in Daoyuan?

Kunlun is weak to this extent?

"What's your name?"

A young man in black came slowly, carving a long sword on his chest. He was a disciple of the magic sword sect, heijia.

Black Jia stares at Ye Chen, saying: "you this guy, cultivation is really too low, such a waste, or go back!"

"This is the magic ladder. It's not a lowly guy like you who can come here!"

"Go back

"Don't mind this trash!"

"Heijia, let's go up first!" One of the men in white robe said. After that, he took out his long knife, split the blood mist in the air, and opened up a road. He walked slowly to the magic ladder. He was under great pressure all over his body. He burst out a golden light and made a sonorous sound!

Many other geniuses looked terrified, and this was the eighth stage. The threat of the magic ladder made the other party's body roar!

That is a peerless genius who respects the six layers of heaven!

True disciples of xingjianmen!

Actually, they are pressed by the magic ladder, and their bodies are loud and resonant. I'm afraid it won't take long for them to crack!

"Let's go too!"

"Let's go together!"

Heijia drank a lot and ignored Ye Chen, leading dozens of young people to step on the magic ladder together!

Bang bang bang!!

Layers of Qi and blood burst out on the magic ladder, and they rolled out like waves and tides, beating many young warriors.

"Manifesting the golden body!"

"Golden body!"

"Manifest..."

Fifty young warriors, including black armour, broke out the golden body in unison. A golden body appeared, just like the Buddha's golden body. They fought against the pressure of Qi and blood with the power of righteousness.

The Qi and blood pressure of the ten thousand magic ladder is extremely crazy. It is equivalent to that of the top powerful person of 30 million jin.

It's the ordinary heaven with five or six layers of emperor's dignity, which will be crushed and exploded!

Today, fifty young Tianjiao of the middle period of emperor's reign joined hands, which only reluctantly resisted it, and then they dared to climb up one by one.

As for the others, when they were still in shock, ye Chen stepped forward slowly, his Qi and blood slightly shocked, he broke the blood mist, and easily stepped on the fifth step. Then he looked at the people on the seventh step in front of him and said, "this is the so-called genius?"

Ye Chen blows out a fist and blows up the blood mist. He steps up to the seventh level and is at the same level with 50 young people!

At this time, in addition to the sound of blood waves rolling, all Tianjiao was dull!

Step seven!

The seventh step of the magic ladder, is it so easy to climb up?

Fifty youth Tianjiao joined hands, and all of them got on. This man from Kunlun Xu climbed up on his own. He could only say that it was eight layers of heaven. How could it be!

"If you are the so-called genius!"

"That's disappointing!"

Ye Chen didn't pay attention to them or beat them down. He just walked up step by step, feeling the impact of the surrounding blood waves gradually strengthened, and every inch of skin was impacted, as if he were washing away the flesh.

At the next moment, he suddenly blows out his fist, which disperses the Qi and blood on the eighth and ninth steps of the magic ladder, and then goes up the stairs as if he were climbing the stairs.

On the ninth step is black armour, looking at all this with astonishment.

He subconsciously looked at his shining body, which was being eroded by the waves of blood. He was surprised and said, "is this the eighth heaven of the source of Tao?"

"Is there such a powerful heaven with eight layers of Tao source?"

"The flesh is much stronger than all of us!"

Heijia, alone, went out of the range of people's power. She was seriously injured by the blood wave and fell down. When she got up, she was shocked as if she had been drowning in the sea. "The pressure of this blood wave is equivalent to the power of a layer of God's state!"

"What's more, it's impossible to block this force even if you're in a state of mind."

"He is the source of eight layers of heaven?"

"How can it be stopped? Not only can it be stopped, but also there is no injury?"

Not only heijia, but also dozens of young people in the seventh stage all stare blankly at Ye Chen of the seventh stage. This is not the eighth heaven of Daoyuan, but at least the seventh heaven of emperor Zun!

No, how can it be done!

This man from Kunlun Xu must be the resurrection of some old monster.

Or it's some old monster, deliberately low cultivation!

Otherwise, how could this be!

On the 17th step, Kunwu, a young man in white, half knelt down. His whole body was covered with scars. His golden body was cracked and his blood was dripping.

When he was recuperating while resisting the pressure of the blood wave, he was shocked to see ye Chen coming up. He thought he was dazzled. He shook his head but saw that the other party was not hurt. He could not help asking, "you You, who are you? "

Chapter 1245

"I'm Ye Chen!" Ye Chen answered. He took a gentle step across hundreds of meters and climbed to the 17th step. With a fist, he burst the blood wave. He gazed at Kunwu and said, "you can't do it in your body. If you go on, you will die!"

Must die?

As a true disciple of Xingjian sect, I will die if I keep going up?

Kunwu could not help but wonder and asked, "are you the one who just came from the eight layers of heaven?"? People from Kunlun Xu? "

"My name is Ye Chen!"

"From Kunlun!" Ye Chen didn't pay much attention to him, and went on to the tenth step.

As soon as dozens of seconds passed, ye Chen had climbed to the 29th level, and the pressure of Qi and blood around him was becoming stronger and stronger. He had reached the strength of a stronger

realm. The ordinary martial artists who were in the state of mind for one or two days had to suffer a lot when they came up, but ye Chen did nothing.

Kunwu, who was in the 19th stage, has been unable to accept this situation!

My emperor respects the six layers of heaven!

Gold super body three levels.

Can't even reach the level of Kunlun?

Am I so weak?

Or Kunlun Xu people, are too against the weather?

"I don't believe it yet!"

"You can go up to twenty-nine levels in the eight layers of heaven, but I can't go there yet!"

"My disciples of xingjianmen can't be better than your Kunlun Xu people!"

"Blood secret skill!" Kun Wu murmured, moved the shaft to get up, and a stream of extreme Qi and blood burst out of his body, wrapping him up, making him like a magic sword, extremely sharp, and rushing straight up.

Bang bang bang!!

Bang!!

Dao Dao's blood wave was defeated by him.

He successfully came to the fourteenth level. Before he could stand firm, he was attacked by an extreme stream of Qi and blood. It was like a general of blood that stabbed him in the air, causing him to be scarred and fall directly.

Twenty steps.

Nineteen steps.

Eighteen steps.

.....

Third order.

Second order.

First order.

Kunwu fell directly outside the magic ladder. His body was dazzling with scars. He looked at Ye Chen, who had climbed to the 30th step, and was shocked. "Who is this person? How can he be so powerful?"

"I'm not as good as him?"

"I'm the emperor's sixth floor heaven!"

He is the eight layers of heaven of the source of Tao!

It's just eight small gaps.

Am I so bad compared with him?

He can do it, why can't I do it!

"Kunwu!"

"Elder martial brother Kunwu!"

"Quick, take the pill and recover the body!"

Several xingjianmen disciples came, one of them took out a divine pill and handed it to Kunwu.

The man examined Ye Chen on the ten thousand magic ladder with deep eyes and said, "this man came from Kunlun Xu, which is not simple. It is likely that he was a disciple of many great powers in the ancient times of Kunlun Xu, or he was inherited by those great powers!"

"Don't argue with him!"

"The strength of his body and Qi and blood is ten times stronger than yours!"

As soon as he said this, some of his eyes were staring at the disciple who was half into the divine realm.

Look at Ye Chen again, despise and disdain in the heart, turned into shock!

Ask!

Who can be in the source of Tao, shoulder to shoulder into the realm of God?

Ancient times!

In ancient times, I'm afraid there was none!

Ye Chen can't compare with him. He still goes to Lingcheng to report to his master. Kunlun has become extremely arrogant. Be more careful!

Although the spirit city belongs to the Kunlun void, because of the space transmission array, the people in the spirit city feel that they are above the Kunlun void!

Ye Chen didn't pay attention to the situation under the magic ladder. Instead, when he kept climbing up, he saw many people along the way, some of them were old-fashioned emperor Zun state, some were semi divine state, and some were one or two layers of heaven, but their bodies were extremely strong.

Like the old man on the 37th step, he is half into the realm of God, but his body is the fourth stage of dominating body.

Surrounded by a strong murderous spirit, it is definitely a strong old brand!

Whoosh! Whoosh!

Whoosh!!

There was a lot of noise around.

Ye Chen quickly dodges away, and a red corrosive liquid appears on the ground, which is a solid magic ladder, with a small hole.

Looking back, a scarlet snake, dozens of Zhang long, covered with bloody scales and short limbs, has a faint horn. It is a Jiaolong. It has practiced for more than 2000 years and is still carrying venom. Look at the breath, it seems that it is the eighth heaven of the emperor's kingdom!

The scarlet dragon is half dragon, but it still keeps the old poison.

It must be that the local monster of blood demon mountain, after years of absorbing blood, has gone from venomous snake cultivation to dragon realm. Although the blood is impure, it is much stronger than some real dragons. Even the king of Baizhan demon is not necessarily its opponent!"It's good to have come!"

"I've caught you to deal with the bastard of the blood spirit clan!"

Ye Chen did not fear, but rushed forward several briskly, dodging the venom from the dragon. He hit it with one punch. The Silent Buddha chanted the Scriptures in unison. Countless dark scriptures were wrapped around his body, which turned into two strips of silk and bound the scarlet dragon.

The next moment!

The seal arrived, and with a bang, the head of the scarlet dragon was full of flesh and blood, which eroded the surrounding scorched earth into ashes.

There is a magic ladder in the middle of the blood demon mountain. There are scorched earth mountains on both sides of the mountain. When you walk on it, you should prevent being attacked by fierce animals or poisonous monsters!

"Roar!"

"You human, damn it!"

The scarlet dragon panted and swept the tail of the snake. It was like the great wall of iron and steel, and it was easy for ye Chen to avoid it. However, the old man, who was half in the divine realm, was hit, and his body suddenly retreated and his blood flowed out.

The old man spurts blood constantly, and the breath of Taoism gradually emerges on his chest. The gold body is actually corroded by the venom of snake tail!

He was furious and yelled: "You evil animal, I have not offended you, why hurt me?"

"Old thing!"

"If you don't want to die, get away from me!"

The scarlet dragon was not a light hearted one. Most of his body was still in the mountains, and he did not fully step into the range of the magic ladder. Otherwise, he would be attacked by the pressure of Qi and blood. On the contrary, ye Chen was able to resist both its venom and the power of the magic ladder.

"Little boy!"

"If you dare to hurt me, I will take your flesh!"

"If I swallow you up, I will become a real dragon!"

The scarlet dragon raised its head and quickly spewed out several groups of venom. From time to time, its thick and short claws were also attacking Ye Chen.

"Beast!"

"I still want to subdue you. I saved my strength just now, but I didn't expect you to kill yourself!"

"Well, I'll send you back to heaven!" Ye Chen gave a violent drink, and his whole body flashed with a rolling evil spirit. With one punch, countless Buddhist texts lingered around, dazzling like the scorching sun. It was unparalleled in terror. It blocked the space and blocked the retreat of scarlet dragon!

Chapter 1246

The scarlet dragon roared, and a pale green flame came out of his mouth, which seemed to be the true flame of his life.

The dragon has counter fire, and the dragon also has some skills.

Its scarlet pupils, staring at Ye Chen, gradually feel a sense of crisis. In front of him, his cultivation is very low, but it is not simple. We can't treat him as the rubbish of Stargate!

Crack!!

Click!!

The seal made up of countless golden Buddhist scriptures broke the light green dragon flame and smashed half of the scarlet dragon's head.

Scarlet dragon gazed at the flying fist seal in a panic and yelled, "master, spare your life!"

"I am willing to follow my predecessors!"

Scarlet dragon anxiously narrates, its huge longan, staring at the flying fist seal.

At this time, it really felt the power of Ye Chen. The fist seal had already possessed the fighting power of three layers of heaven. How could he possibly withstand it!

What's more, ye Chen is the source of the eight layers of heaven!

If you can follow, it's a chance!

Whoosh!

Whoa!

The seal in the air dissipated.

Ye Chen looked at the scarlet dragon and said with a smile, "since I am willing to surrender, I will set a seal for you!"

"Willing to submit!" The scarlet dragon bowed his head and lay down on the ground obediently. His blood red scales and limbs looked like a quadruped snake. It could only be said that it was an incomplete version of the real dragon. His blood was not strong, but his fighting power was not bad. The eight layers of heaven in the Emperor's kingdom were comparable to the two layers of heaven in the spirit state!

Two thousand years of practice is also very rare.

Whoa!!

A sword mark of heaven and earth flies out, imprinted in the scarlet dragon's mind!

Has been completely sealed, as long as you dare to have a little rebellious heart, will directly explode to death!

"Master

"Master, are you from gaowu? So powerful

The scarlet dragon slowly climbed out of the mountain, came to the magic ladder, and asked, "master, your fighting power is the warrior of the four layers of heaven in the spirit realm. What can I do for you? But you only have eight layers of heaven in the Daoyuan realm, and you can fight across dozens of realms!"

"Which gaowu plane are you from?"

"I want to follow you back!"

The master's details are too deep!

I have been in the blood demon mountain for more than 1000 years, and I have never seen such young Tianjiao!

I'm afraid that even when the master of blood demon mountain is at this level, he can't be as powerful as his master!

See scarlet dragon so attitude.

The old man on the edge who was half into the divine realm was shocked. He had practiced here for decades with the help of Qi and blood, and wanted to get the magic card. However, he didn't expect to see this scene. He not only whispered: "this man's realm is not high, it's a generation's pride, and the realm may not represent his fighting power!"

Over a dozen small realms!

This is not the time of Shenyou state and Zhenyuan state. At that time, it was nothing to cross more than a dozen small realms.

But this is the realm of the source of Tao, the realm of emperor's respect and the realm of entering into God, a layer of realm and a layer of heaven!

It often takes hundreds of years to advance to a higher level. But the young man has the ability to cross dozens of small realms. What school did he learn from?

"It's not a high level plane!"

"I'm from kunlunxu nearby!" Xu Zhong, do you have a lot of bloodthirsty beasts

"Back to master, I have practiced in the blood demon mountain for more than 1000 years. There are fierce animals all around, and the situation is similar to that of small ones. " The scarlet dragon responded: "only, 1700 years later, no one has stepped into the 61st level, and there may be more powerful array beasts guarding it!"

It pauses for a moment and then says, "but even if you go up the hundred step magic ladder, you may not be able to see the blood demon mountain master!"

"The Lord of blood demon mountain encountered strong enemies in the past years, so he arranged many arrays on the top of the mountain!"

"The master wants to see the master of the blood demon mountain. I'm afraid it will take a lot of effort to get into the spirit card!"

Over the years, people have come to climb the magic ladder.

However, the higher the ten thousand magic ladder is, the more fierce beasts will guard them. The people who break through the barrier should not only resist the pressure of Qi and blood at each stage, but also resist the attacks of fierce beasts around them. Of course, there are also some people who stay in the middle of the level to find a suitable place to absorb Qi and blood to practice!

However, they dare not continue to climb up!

The more upward, the more death!

Nine hundred years ago!

Tianjiao, who has stepped into the 60th level, is confronted with an existence that has stepped into the divine realm. Under the attack of Qi and blood pressure and Horned Dragon, he has to retreat. He is still recovering from his wounds. He has stepped from a young man to a young man. I'm afraid he can't get a magic card from that man in this life.

The soul card of blood demon mountain is the only one that can be used in nearly a thousand years!

But it's also the most rare magic card! There are countless Tianjiao who died in the ten thousand magic ladder. Every time ye Chen steps up one or two steps, he sees dozens of Tianjiao's skeletons. His blood is all over the mountain. His limbs are removed and placed around, leaving only his trunk lying on the stairs!

Ye Chen went up, thinking: "this blood demon mountain master, can't be thinking some problems?"

"Crush all Tianjiao and tear down the corpses of others!"

"Is it really because of the previous injuries that led to a lack of mental clarity, so that's why?"

When he climbed to the 57th step, he looked at the scarlet dragon on the edge. He couldn't bear it. He said, "you practice here, absorb Qi and blood, and I'll keep going up!"

"I'm sorry, master!" The scarlet dragon's scales burst, and the blood flowed down the stairs. Though not attacked by fierce animals, the scarlet dragon nearly died under the pressure of Qi and blood.

It is staring at Ye Chen to continue to go up the back, gradually some feelings.

As expected, the strength is still too poor.

Can't follow the master up.

No, I'll try my best to break through. At least when the master comes down, he can look up to me and take me to Gao Wu level to practice!

Yes, the presence of the host is my great opportunity!

Opportunity, can meet not seek!

We must seize the opportunity!

Soon, the scarlet dragon also began to practice. The scales were smashed and grew again and again, so as to enhance the strength of the body and the strength of Qi and blood. Now, the main purpose of the scarlet dragon is to improve its strength and follow Ye Chen.

Ye Chen came to the 60th level, and met seven or eight old men and young people along the way. Most of his accomplishments were between the Ninth Heaven of emperor Zun and the half step into the divine realm. They all had the ability to cross the border, but they did not dare to go up.

Those who stand in the first half of the battle are looking at the monsters.

Can't help but smile: "this level of array fierce beast, want to block me?"

After that, ye Chen killed the Buddhist kingdom with several fists. He beat the fierce beast with three and a half heads into the divine realm and exhausted Shouyuan. Then he broke the pressure of Qi and blood with his body. He successfully stepped into the 61st step and continued to move up!

Chapter 1247

His seemingly lightsome and careless behavior, however, caused the shock of the people below!

Black Jia ignored the scruples of the same door and exclaimed excitedly, "the 61st step, the 61st step!"

"The record of 900 years has been broken!"

"The record has been broken. Please inform the master that there is a peerless Tianjiao in Kunlun!"

Nine hundred years!

The record of the 60th step of the magic ladder has been broken. It's a miracle!

This foreign Ye Chen is expected to succeed in climbing to the top!

This ye Chen, up to the sixty-first level, is not only undamaged, but also has gradually increased strength!

Nine hundred years ago, Tianjiao was nearly seriously injured and dying when he reached the 60th level. Finally, he was beaten down by Qi and blood. That one, but the absolute arrogance of the second layer of heaven, even the combat power is better than a few city lords!

So, they were all beaten down!

Ye Chen is still climbing.

The most important thing is, no damage!

In full view of the public, ye Chen climbed the 70th ladder.

Soon, the seventy-one level

seventy-two level!

Seventy third order

Seventy nine steps

eighty steps.

Still continue to go up, every step of the ladder, it is like walking normally.

I'm afraid that the most powerful man in the four or five layers of heaven can't do this!

"What a strong boy!"

"I have a strong sense of sword and calmness."

At the foot of the mountain, the city Lord of Jianmen city and the leader of the star sword sect also heard the news and looked at Ye Chen quietly.

"This son is too strong!" he sighed

"This flesh body is at least the fifth level of the dominating period!"

"The young warrior who has not yet reached the age of 30 has actually made this step!"

"He didn't come down from the high position, did he?"

He stroked his beard and said slowly, "a Tianjiao warrior who came out of the high martial position came to the blood demon mountain because of his serious injury and falling state, but his body was still there, but he could not enter the spirit city."

It seems that only this reason can perfectly explain the situation of Ye Chen now!

If ye Chen really only had the cultivation of the eight layers of heaven in Daoyuan state!

Kill them, they don't want to believe it!

The Tianjiao of the six or seven layers of heaven in his own emperor's respect can generally reach dozens of levels, and the peerless Tianjiao can reach about 30 levels, such as heijia and Kunwu. But it is impossible to say that 60 steps, or even 80 steps up, are impossible!

Gradually!

A large number of warriors gathered at the foot of the blood demon mountain to witness the grand event of going up the hundred steps of the ten thousand magic ladder!

1700 years old!

The strongest one is just the Tianjiao of 900 years ago, who has made it to the 60th level!

Other Tianjiao, even if the most powerful strength, but also no more than 54 levels.

Now, the hundred step magic ladder will be stepped on!

This is a grand occasion for thousands of years, and it is also a moment worth remembering.

Ye Chen, who is about to step on the ladder of ten thousand demons, will also be remembered in history and handed down from generation to generation!

Lingcheng's magic card!

CHEN Ye is estimated to belong to!

When he returns again, if he gives it back to the Lord of the blood demon mountain, I'm afraid there will be no more Tianjiao like Ye Chen in hundreds of years, let alone copy the grand occasion of Ye Chen!

The voice of blood demon mountain, ye Chen has no tube.

He stepped into the 95th step, the body was pressed clanging, but at the same time the strength of the body was gradually increasing.

Qi and blood also slowly increase, as long as the road of extinction goes forward, he can break through at any time!

"This magic ladder is not only a barrier, but also a good place to temper the body!"

"Now, I'm afraid I can reach the sixth level when I step on the fifth level of the golden body!"

"By then, my strength will be doubled again!"

Ye Chen said to himself, and then his body burst into flight. He stepped on the 96th step in a row. His flesh and blood were gradually torn apart. It seemed that he could not bear the pressure.

"One step short!"

"First order!"

"Flesh body, take off my transformation!"

Ye Chen takes out the energy liquid he got from Wei Wucheng and sprinkles it on his body. He uses the power of the energy liquid to temper his body. These energy liquid should be extracted from the body of the warrior in the spiritual realm!

The effect is much better than the essence blood of monster in the period of super body!

The next moment, ye Chen's torn body began to recover gradually.

Bang!!

Ye Chen burst out a burst of Qi and blood, the body of the body bloomed infinite golden light, into a blow, burst the pressure of Qi and blood in front of him.

He successfully stepped to the 100th level, and his physical body also changed at this moment. He really arrived at the sixth stage of the super body period. The ancient Sanskrit swam in his body, which was brilliant! If you reach the seventh level of the super body period, you can absorb vigorous Qi, temper your body, and then easily enter the vigorous phase!

"Master!"

"Have you ever been there

Ye Chen looks around the Xuemo mountain and sees a number of arrays. On the top of the mountain is a plain, covered with all kinds of arrays. There are hundreds of arrays, such as the star array, the heaven and earth separation fire array, the Erjia reverse magic array, and the dikui sky sky array. They have endless killing spirit. It is just that the martial artists in the early stage of entering the spiritual realm may fall down at any time when they arrive here!

He looked ahead. There was a small house behind the array, and he called out: "master Wanmo, younger Ye Chen, come to ask for the Lingpai, enter the spirit city and save my friend. Please give up your love and enter the Lingpai!"

Whoa, whoa!!

Whoa!!

A gust of evil wind came from all around, with scarlet blood in the wind.

Qi and blood faintly condenses into the human heart. A tall and thin man in black stands in front of Ye Chen with a mask. He can't see his face or his age. However, he gives people the feeling of an abyss, as if staring at him is staring at the abyss.

He is the master of blood demon mountain!

There is a river of blood floating behind the master of blood demon mountain. The smell of blood is all over the mountain top. It's hard to imagine how many people he killed.

However, he outlined a smile with evil charm on his lips. He looked at Ye Chen carefully and said, "your qi and blood and killing intention are very strong, which is equivalent to the combat power of ordinary spirit state!"

"But you are the eight layers of heaven in the realm of Tao source!"

"Compared with the five layers of heaven, you are 17 different from the spirit state!"

"It's hard to believe that you can actually cultivate such a strong power beyond your own realm. However, I don't think you have much understanding of the power of Tao. You should not practice for a long time, otherwise you will have a lot of understanding of the power of Tao!"

The power of Tao and the rudiment of Tao mainly determine the realm of martial arts.

The strength of Qi and blood and the power of soul determine the fighting power of a warrior!

Of course, the power of Tao and the rudimentary form of Dao can also increase the strength of Qi and blood. For example, the way of extinction can not only have extremely strong power, but also can disappear the longevity yuan of others after hitting others. This is a special ability.

The boy in front of me is a little strange.

Chapter 1248

The strength of Qi and blood is so strong that ordinary people can't cultivate such strong fighting power without entering the spirit state!

"Boy, your breath is extraordinary."

"Your inheritance should come from those big people in Kunlun Xu!" The master of the blood demon mountain said slowly, "who is your master

"Five powerful people in Hunyuan and Hedao

"They are all giants on one side. Which of them do you inherit?"

The blood demon mountain master's eyes are very sharp. He can directly see some special substances in Ye Chen, such as sword spirit, such as the way of killing. It doesn't mean that the weak people can't see these things!

Ye Chen is frightened, he even suspects that the other party knows the reincarnation cemetery.

Otherwise, how can you say so many masters in one breath!

These people have something to do with him!

That's terrible.

Ye Chen suppressed his shock and said:

"master!"

"It's not necessary to say where you learned from."

"I come here only to get into the spirit card and enter the spirit city to save people!"

"Please give up your love

"This is a five grade immortal tool. I'd like to give it to the elder in exchange for entering the spirit card of the spirit city!"

He took out a five grade immortal weapon, which was the weapon of Wei Wucheng.

He traded the magic weapon for a magic card!

After all, he didn't expect the master of blood demon mountain to give him the magic card for nothing!

As soon as the master of the blood demon mountain waved his hand, a magic Qi burst out and beat the immortal weapon to one side. He said in a fierce voice: "I don't need immortal tools. Do you want to enter the spirit card? Let's go! The 108 formation is arranged according to the stars of the week, the sun, the moon and the earth branches! "

"If you can make it, I'll give it to you for free."

"I can't make it, because you are the first person to step on the top of the mountain in 1700 years. I'll spare your life!"

"But you can't make it!"

108 array!

It is the seven or eight layers of people into the spiritual realm, the same can not break through!

In the end, it's nothing more than the killing spirit of the array. It's just a blood mist!

Read in that year, he also with these strong, had a meeting, got some benefits, he did not kill Ye Chen!

"Master!"

"Just break through the battle?" Ye Chen examines these arrays. Although they are dangerous, he must go!

Enter the spirit city card! He will get it!

"Yes

"Then you go." The master of the blood demon mountain waved his hand and condensed a bloody token with magic Qi. He threw it to Ye Chen and said, "don't want to die. Crush this token, you can transmit it out!"

"You can't break this battle!"

Ye Chen threw a bloody token and entered the first array alone!

The sky is full of stars.

Based on the 36 week sky, the formation is transformed by the power of the stars. As long as the stars are not extinguished, there will be a steady stream of power to kill.

After he entered Dafa, the scenery around him changed greatly. Instead of being a mountain peak, he saw a vast sky of stars. At his feet were stars in the red earth. They did not emit any luster, but were extremely small and could only support himself to stand on it.

In the vast starry sky!

Thirty six star array eyes, located in the southeast, northwest and four directions respectively, twinkle with dazzling golden light, like 36 suns.

Then a strong wind came out.

In the East, the nine stars shine even more brightly. They radiate Taoist luster and stir up many stars.

Each star array eye is lit up, and the star array eye turns into a handle, and the gods will be like a waterfall falling down, endless and endless!

"Golden body - Super body!"

Ye Chen murmured, his body glittered with red gold.

He protected his head with his fists. If he wanted to join the sword, he first tried the power of the sword, and then he looked for an opportunity to blow up the eyes of the star array!

If you want to break the star array around the sky, unless you blow all the eyes of the star array into silence!

You can't dodge!

Once dodging, the star array eyes of the other three parties will also explode at the same time. At that time, there will be magic swords around, so you can't hide.

Therefore, when the eye of one of the stars bursts out, we must fight hard!

Can't resist?

Die!

Whoosh, whoosh!!!

Whoosh!!

A sword with a handle is attacked and killed. It hits Ye Chen's body and breaks quickly.

Almost every second, dozens of swords collide with each other. It's extremely terrifying.

Ordinary state of mind, a layer of heaven come in!

I'm afraid it won't be long before I'll be killed on the spot!

"Almost!"

"Kill the eyes of the stars first!" Ye Chen left foot a pedal, with the help of the power of the stars at the foot, hard against a lot of magic swords, left hand suddenly burst out! Boxing in Buddhism!

Whoosh! Whoosh!

Whoosh!

The golden Buddhist scriptures are pouring out, and a golden Buddhist kingdom is gradually formed.

Tens of thousands of Buddhas chanted scriptures at the same time. Countless Buddhist texts are crisscross like ribbons, wrapping the Golden Buddha kingdom. Along the way, a magic sword was smashed. Before the nine star array eyes in the East, the Buddha Kingdom burst out dozens of power and entangled these star array eyes!

"Bang!"

With the fall of Ye Chen's voice.

Dozens of forces and countless Buddhist texts burst out.

Bang bang bang!

Bang bang!!

The eyes of the array of stars burst, turning into the force of infinite stars, floating around the array.

Ye Chen leaped out quickly, showing the way of extinction. He grasped the power of these stars to perfect the power of Tao.

Just at this moment!

Twenty seven stars of the other three sides burst out at the same time, as if to destroy heaven and earth.

Three huge swords fly out from three directions, marking traces in the starry sky, as if to follow the passing time.

Ye Chen just moved!

When absorbing the force of stars, it exceeds the limit!

The eyes of the other three stars array move together, and the strongest sword of killing and cutting breaks out.

Poof!

Blood is flying.

Ye Chen's shoulder was pierced by a magic sword. He turned around and smashed a magic sword with a fist. Then he was pierced by a magic sword behind his back. Blood poured out and fell into the eyes of the star array below, and the array eyes burst.

"No way!"

"You have to go back!" Ye Chen looks at the only three array eyes left in the East and the magic swords attacked by the three sides around him. He has to return to the place where he stood when he entered the array just now. Only there will he not be attacked by the other three star array eyes.

He pulled out two magic swords and crushed them into stars!

To temper their own way of extinction!

The power of Tao!

Not only can you practice by yourself!

It can also be practiced with the help of other forces. However, few people dare to do this, and few people can do so.

Ye Chen is the only and the most special!

Under the nourishment of the power of the stars, the road of extinction suspended behind him gradually increased from 200 meters to 2780 meters. "If I capture some more power of stars, I can break through the nine layers of heaven of Tao source."

Chapter 1249

Clang! Clang!!

Clang!

There are only three stars in the sky.

Ye Chen stopped and watched the array at the same time!

If you don't want to be killed, you will be killed. If you don't want to be killed, you will be killed.

No wonder it can be called the star array!

Such an array must have five layers of heaven's fighting power in the spirit realm, and it can't be broken!

Whoosh!!

Whoosh!

Under the starlight, the power of countless stars turned into long swords. It was like a continuous stream of water. The strong sword spirit broke through many obstacles and carried the destructive Qi to destroy Ye Chen.

"Buddhism in boxing!"

Ye Chen murmurs and punches, and countless silent Buddhist texts emerge, turning into a sea of silence, and life annihilates the star sword.

He stretched out his left hand, and the golden body was revealed again. Then he grasped the power of the stars among them and used it to temper himself!

The way of extinction!

The power of Tao!

At this moment, the sea of silence emerges, just like a sea of bitterness, where birds do not measure and their feathers do not float.

All things, including the stars and swords, will only turn into Taoist power and strengthen the sea of extinction!

What about the star array?

What about the four stars?

How can you kill me!

You want me to fight!

Then I will use this array to strengthen my way of extinction!

"Jianmen, manifest!"

"Out!"

Ye Chen takes out the ghost killing sword and lifts it to the sky with one sword. Thousands of sword Qi bursts out. It is located on the top of the head, showing a grand and magnificent sword gate. Before the sea of extinction, he shoots out countless sword Qi and kills the only three stars in the East!

Bang!

A star eye is broken!

The power of stars is caught by Ye Chen out of thin air and thrown into the sea of silence!

At the next moment, the sea of extinction boils, and a force of annihilation rushes into Ye Chen's body, which does not consume his longevity yuan. On the contrary, it is nourishing his body. After that, he immediately strikes and carries the power of extinction!

No matter the fist, the foot, the sword!

If you hit the enemy, you can kill him!

No matter what the age of the old monster, dare and ye Chen for the enemy, will in an instant, into a dead bone!

Bang!

Bang!!

Two crackles!

The remaining two star array eyes then split, the power of countless stars gushed out, all absorbed by Ye Chen, into the sea of extinction!

"The way of death!"

"The way to kill!"

"Immortal Kendo!"

"Go

Ye Chen rises from the sky, and the force of three roads is suspended behind him.

The three roads are like three Milky way across the starry sky, turning into one power to attack the other three star array eyes!

"The realm of Tao!"

"Break it for me!"

Ye Chen's whole body is haunted by a stream of evil Qi, and his body is also full of magic power!

He smashed the seven stars in the West with a fist out of thin air, seized the power of the huge stars, and merged into the sea of extinction!

At the next moment, a force of annihilation rushed around the array, and the stars burst out one after another. Countless bright brilliance flashed around the array, even though the stars around the array were shaking violently!

Obviously, it can't resist the breath!

However, ye Chen also radiates an irresistible Qi Qi, and the road of extinction behind him is as long as 300 meters. Like the way of killing and undeniable Kendo, it turns into a sea river with a width of 3000 meters. Countless dead swords, long knives and immortal generals rush out to attack and kill the three sides!

Now!

Ye Chen has broken through the nine layers of heaven in Daoyuan!

The way of extinction is completely perfect. As long as the three ways are integrated, or they are all transformed, you can enter the realm of emperor's respect!

"The stars in the sky?"

"But so!"

Ye Chen offers a sword, and the four sides are silent. The sword Qi gathers together. A sword breaks the star array in the sky!

Boom!!!

The big array of stars in the sky burst out, and countless pieces flew out, bombarding the surrounding array!

Bang bang!!

If there are two pieces, they will not bear the impact!

The three arrays burst, and the afterwaves layer upon layer will detonate the five extremely fragile arrays around!

In this way!

Ye Chen's sword destroys the star array, which is equivalent to destroying eight arrays with one sword!

"It seems that 108 formations are not all extremely strong arrays either."

"The other seven arrays shattered by aftershocks!"

"At most, it can only kill the five or six layers of heaven in emperor Zun's territory!" Ye Chen's eyes look at these arrays in front of him. He has stepped into the second layer. There are 17 arrays in front of him. Each array has a very strong luster. Among them, there is a very strong big array, which is the heaven and earth separation fire array! Heaven and earth leave fire array!

It's an array formed by the way of heaven and earth, combined with the power of Lihuo!

The way of heaven and earth is the way of heaven and earth. It is vast and boundless. It is also the most powerful force of Tao in the world. It contains the way of time, the way of space, the way of five elements, the way of mountains, rivers, trees and so on.

No one in Kunlun has ever cultivated the power of Tao.

Because it's too grand, you need to get involved in every law and thing in the world, and understand the original foundation of heaven and earth. In this way, you will be a peerless genius, and it will take thousands of years to get a preliminary understanding of it. But I'm afraid it will not take ten thousand years to figure out any specific Tao.

"The heaven and earth are separated from the fire array here!"

"But it contains the sporadic way of heaven and earth!"

"Only sporadic strength is enough to make me feel the crisis. The way of heaven and earth is really strong and powerful."

Ye Chen stepped out of the array, gazed at the brilliant brilliance in the array, and said with a smile: "the way to leave the fire is also an extremely powerful force of the Tao, but it can be broken and absorbed in it!"

"Maybe I can break all three!"

"Break and then stand, become the rudiment of the road!"

"With the prototype of three roads, my combat power is three times that of others, and the growth rate is also three times that of others!"

"As for integration!" He pauses for a moment and ponders on one side: "it may not be strong after integration. Instead, it is better to wait until the power of the three roads turns into the real road, and then merge to form an invincible road!"

The source of Tao leads the power of understanding Tao!

Emperor Zunjing makes the rudimentary transformation of the road!

After entering the realm of God, it nourishes and nourishes the road, which contains other laws and forces, and then strengthens and extends it.

The one who enters the divine realm and then becomes martial arts is based on whose road is long and whose road is wide. At the same time, the road will also increase the power of Qi and blood and the power of soul. With the help of the power of immortal tools, ye Chen is sure that when he enters the realm of emperor's respect, he will fight with his own strength against the strong one who has entered the four or five layers of heaven!

Hua ~ ~

Ye Chen enters the heaven and earth Lihuo formation, surrounded by countless red and blue flames, which is like a alchemy furnace.

Chapter 1250

On the top of the head is a tripod cover, surrounded by the body of the tripod, which is glowing red and shining with cyan luster by the flame. Below is a sea of flames gathering together. In the middle are several floating fire colored stones, and ye Chen is on one of them!

This big array is mainly about the way to leave the fire!

Supplemented by the power of the way of heaven and earth, a alchemy stove is formed. It seems that it is as high as 100 meters, but from the outside, it is just an array of tens of meters high. The power of the way of heaven and earth has the power to enlarge and reduce!

Whoosh!!

Whoosh!

Among them, the three flaming dragons fight with each other.

The fire is lifelike, like a real snake king. He opens his mouth and spews out a flame, and flies over Ye Chen's ear. In an instant, ye Chen's ear is completely black. His body can't resist such flames.

"Hiss..."

Ye Chen takes a breath of cool air and dare not underestimate this array!

He danced the ghost killing sword, released a lot of sword Qi, rushed to all directions, and resisted the attack of fire snake and fire dragon.

Samsara cemetery!

While sitting in a sitting posture, forging God looked at the situation outside and said, "it's not bad. Heaven and earth leave the fire array!"

"The blood demon who arranges the array will practice the way of leaving the fire extremely profound!"

"This array should not be arranged by him alone!"

"That's nature!" Nie Baijian shook his head slightly and said, "108 array, involving more than 200 avenues, is strong or weak. If this blood demon is serious, every avenue's strength is involved, and he is at least in Xingqiao state!"

"Those who are strong in xingqiaojing can do it with one blow and destroy Kunlun void!"

"Only such a strong man can understand many great ways."

"Obviously, the master of blood demon mountain is just the cultivation of three layers of heaven in the spirit state!"

Nie Baijian's eyes are very sharp, and he can see the situation of the blood demon mountain master.

He said slowly: "the master of blood demon mountain seems to have been seriously injured one or two thousand years ago. He fell down from the cultivation of the divine kingdom. At present, his cultivation is still falling, and his injury is very serious."

"Yes

"His way of God King is destroyed, but his spirit is still there!"

"Always mending the flesh and the way of God King!" The king of Shendan also saw this, and said, "it's just that his arrays need at least 100 people who are in the state of God or emperor's respect to arrange them."

He said, "of the 108 arrays, more than 90 of them are weak. It's OK to kill the emperor, but it's impossible to enter the divine realm."

"Do you want to help the tomb owner break the battle?"

"Not for the time being!" Nie Baijian's eyes turned bloody. It seemed that he could see through time and space. Later, he said, "the power of the Tao contained in these arrays is very inactive, even dead. It can only attack according to the fixed procedure, but it can't change!"

"Obviously, the power of the road is taken away from others!"

"You mean?" Forging God Jun's eyes twinkled, and he said: "there are skeletons all over his blood demon mountain, and there are corpses of emperor Zun state and God state everywhere. Before he died, he deprived the rudimentary form of the road, and reserved the power of the road to set up the array?"

Interesting!

Such a blood demon mountain master is cruel and ruthless. He killed so many emperors and gods.

But it can stand up for thousands of years. It's a bit of Taoism!

However, why did he kill these people and seize the rudimentary road of these people to set up battle?

Do you want to build a fortress that can't be broken by the strong at the later stage of the spiritual state?

However, his wooden house is behind the array, and then the nether sea. No one else can come from the dark sea. The only way to get to the main wooden house of blood demon mountain is the road full of 108 arrays.

"This man, a little crazy!"

"Even, some of them are bewildered Shendan monarch thought: "it may be to stop a strong enemy! We'll all pay attention to this later. Although this man is only in the three layers of heaven, he may not

be able to break out his fighting power in the middle and later periods of entering and leaving the divine realm, even though he is only in the three layers of heaven in the spirit state, and he uses the broken God King's way and the God King's Qi and blood! "

"If he wants to kill the owner of the tomb, he is in danger!"

"Then, let's do it!"

"Don't worry!" Nie Baijian's lips showed a smile and said, "how can ordinary Tianjiao be compared with the tomb owner?"

He stood with his hands down and said slowly, "the tomb owner is invincible in the rest of his life. His fighting experience is more abundant than that of the blood devil. It is impossible to kill the tomb owner!"

"Unless the grave owner wants to kill him!"

"Otherwise, I don't have to pay too much attention to it!"

Tomb owner!

People with reincarnation!

How can you be attacked and killed by a half useless guy?

Even if this guy is still in the Shenwang state, in terms of the tomb owner's life style of purple crouching dragon, this guy can't kill the tomb owner!"Look

"The tomb master broke the heaven and earth separation fire array!"

"Absorbed the power of the way of heaven and earth and the power of the way of leaving fire!" Nie Baijian was quite satisfied and said with a smile: "it's worthy of being the tomb owner of the samsara cemetery. Such an array that can kill two layers of heaven in the divine realm was broken in just a few minutes!"

"Great!" Forging God King can't stop nodding!

Dozens of minutes!

The nine layers of heaven can be divided into two layers of heaven!

It's not peerless, or what?

Sure enough, Nie Baijian didn't let us help. He knew that the tomb owner would absorb the power of the array and enhance himself.

"The way of killing the tomb owner seems to have changed to the extreme

"Has not yet undergone metamorphosis and stepped into the realm of emperor's respect?"

"Do you want the power of the three ways to transform together, as the first one to possess three roads in the realm of emperor's respect?" Nie Baijian whispered slightly, his eyes filled with a sense of horror!

It takes hundreds of years to perfect the ordinary emperor's Zun realm, a rudimentary road.

Even in that case, the increase in combat power is extremely limited!

The owner of the tomb should have the prototype of three roads at the same time. I'm afraid it will take some time to perfect the master's talent.

I'm afraid that once the spirit and the spirit of the three thousand can reach the ultimate power, I'm afraid that once the spirit can reach the ultimate power, it will be able to do so!

This is equivalent to the Qi and blood power of six layers of heaven in the spirit state!

If the emperor respects one layer of heaven, he will have the fighting power of six layers of heaven!

It's hard to imagine how terrible it would be!

If it was not for the perfection of the rudimentary form of the road, the realm of the tomb owner would have risen very quickly!

Just as the samsara cemetery is still under discussion, the sword spirit is flying on the blood demon mountain, and there are three suspensions, and there is an opportunity to destroy the world!

Bang!!

Bang!!

Many arrays have been destroyed by Ye Chen's sword one after another. These arrays do not have the power to kill and enter the divine realm. They are not worth Ye Chen to rush into the array. They are directly outside. After they are broken, they can absorb the power of the middle way and nourish the three ways!
