Chapter 1481

The news of your own injury must be blocked!

Otherwise, over the past few years, the soul hall has suppressed so many forces, and it will surely take revenge!

The reason why the soul hall can suppress many forces and even control several medium-sized forces is that the number of deities in the hall is high-class, and the number of deities is high-class. Even three or five medium-sized comprehensive schools are comparable. However, the main force is taken away. Other forces know that the master is not hurt and dare not move. If they do, the general hall will not be protected!

When the dragon family was recruited, it was almost equivalent to holding a knife on the neck of the soul hall!

Ten deity elders and one real God elder came in person. How could the soul hall refuse? A large number of experts were transferred away, so that in the past ten years, the control and penetration of the soul hall on our forces gradually weakened, leading to the northern palace family no longer fear the soul hall!

Those who want to fight against the mainland will depend on their own level!

If there is no top player, you need a certain number of top experts!

It's like the soul hall!

In the peak period, ten gods and martial artists, even in the face of wanjian emperor palace and Lingxian emperor palace, can destroy each other as long as they want! Even the hundred immortals palace, which has eight or nine star orifices, is not afraid of it!

However, this time, the ten deities, including the temple master, were called away by the dragon family!

Now the soul hall headquarters!

Holding on to death is equivalent to a small half of the medium-sized sects. Even if you can inform the temple master and elders who resist the enemy in the demon kingdom to come back at the critical moment, it will take time!

When you come back, of course, you can clean up the enemy!

But all the treasures in the headquarters, and even the soul heaven and the 50 God kings of the same Taoist realm, may have fallen!

So!

Soul day injured news, never dare to expose, exposed is looking for death!

"I'll wait to understand!"

"Do you need to inform Tianbao Pavilion as a witness?"

The most powerful God King asked, he is a great commander of many Dharma protectors. He is in harmony with the nine layers of heaven in the Taoist realm. His combat power is not weaker than that of the two layers of heaven in the creation realm. He is comparable to the five elders of the northern palace family. He also knows the importance of this moment!

The enemy of ancient times has appeared!

Five elders suffered a heavy blow!

We can't attack at such a critical moment, even if the temple master wants to rush back, it will take a month!

I'm afraid the next month will be the most difficult time in soul hall!

"Notice!"

"Inform Tianbao pavilion that ye Chen, the son, covets the treasures and saints of my soul hall. He is shameless!"

"I tried to be a philanderer, but my strength was low. I disdained to do it. The saint gave orders to reward Ye Chen's life with the soldiers of time and space." Soul day to find a more perfect excuse, the heart can only recite sorry for the virgin!

Saint!

Now, the fifth floor of the king's palace!

In this case, it is reasonable for ye Chen to be a philanderer!

"Besides!"

"You send five Dharma protectors out to pursue Ye Chen in disguise

"If you want to kill Ye Chen, I'm afraid you have to create a new realm." Hun Tian's eyes flashed, thinking and saying: "I will inform the people of Linghu family to make a move. When you cooperate with them, the reward is only superficial, your main force!"

"Of course, offering a reward will also make some old things moved!"

"It's enough to attract three or five old guys in the same realm to kill Ye Chen!"

You can't kill with a reward!

Not necessarily!

Anyway, you must kill Ye Chen!

"I'll wait for your orders!"

"Yes..."

Immediately, five Dharma protectors of the later period of the Taoist realm stood up and flew to the distance to chase Ye Chen in the western regions!

.....

In the western regions!

In a huge city under the jurisdiction of the Beigong family, ye Chen bought an independent courtyard and arranged the array around it. He began to count the spoils and select the useful items to heal his wounds!

He took out dozens of rings of heaven and earth, regretted a little, and said, "it's a pity that there is no palace like immortal utensil."

"If you use them, you don't have to throw them all to the samsara cemetery!"

"Well, there are 50 top-grade Qiankun rings and more than 30000 middle-class Qiankun rings!"

More than 30000 rings of heaven and earth!

The warriors in the later period of emperor Zun's realm had the ring of heaven and earth. Now the ring of heaven and earth of the seventh branch of the whole soul clan is in their own hands!

Ye Chen spent a day to name his booty. It has to be said that it is very rich. Even the twenty or thirty lower sects in the land of heaven and earth add up, they have no deep foundation of their own!

Middle weapon!

There are 80000 spirit tools and 30000 immortal weapons. There are no limits on their grades!

Thirty thousand immortal tools, most of them belong to more than ten thousand soul clan people killed by qingjianxian. After those people were killed, the things were stored in the treasure house of the seventh branch helm. The treasure house was also robbed by Ye Chen. The other immortal utensils were collected from Qiankun ring of the warrior in the war!It's the first time ye Chen has seen so many immortal utensils. It's good to destroy the sect!

As for the God King and fairy ware - 4300 handles!

More than 3000 of them were captured by those who killed 3000 king of gods. The other 1000 were taken from the treasure house!

Hunyuan immortal ware, 190 handles!

He Dao artifact, 17 handles, three were broken by lightning and carefree God King during the battle!

Time and space soldiers, two handles!

Ye Chen was very excited about such a large amount of booty. In fact, if he didn't kill these soul people with thunder, he might have doubled the harvest. Even if it was scattered, it would have destroyed hundreds of Shenwang tools and dozens of Hunyuan immortal tools.

"So many weapons!"

"If a thousand soldiers are used, the headquarters of a medium-sized family can be destroyed!"

"Of course, you can't kill as many people as you can in a harmonious way, but how many will die in the same way!"

Ye Chen calculated some pills, such as elixirs, and so on. There were almost countless elixirs from emperor level to Hedao level. There were even thousands of bottles of fierce animal essence blood, which was enough to hammer and refine pills!

In addition, there are some special weapons in this place!

There are fifteen weapons containing xianzun's strike, including swords and swords!

"Rich after the first World War!"

"Now it's about a dozen gods and kings of the same realm coming to kill me. I can kill and maim them with my own weapons!"

Ye Chen smacks his tongue. He is rich this time. If he encounters such things as the soul clan, he can directly throw the Shenwang tool to fight against it.

Even if you throw hundreds of Shenwang utensils and detonate them, you can blow them to death!

In addition, there are two arms of time and space!

"Disciple

"Are these corpses still to be made into war puppets?"

The ice sword immortal Zun's heart is also violent vibration, ye Chen is now a person, comparable to a person's sect!

He looked at the mountain corpses piled up in the reincarnation cemetery, and then looked at the refining materials all over the ground. He was absolutely right to refine war puppets.

"Definitely refining war puppets!"

"I calculate..." Ye Chen calculated carefully that there was no corpse in the spirit state. On that day, the green sword immortal Zun killed the soul clan and went into the spirit state. After killing, the body was buried by all the soul people. There are about 1500 Shenwang realms, about 70 Hunyuan realms and four Daoist realms!

"Some masters!"

"Help me to refine war puppets, three Buddhist masters. Buddhism should also have methods to refine war puppets?"

"When these war puppets are refined, I will be promoted to Hunyuan state, and the blood spirit clan will be destroyed!"

"It's just that Ji Lin hasn't recovered, and I don't know how the girl came up from Kunlun and why she was so hurt."

"Before that, what happened?"

Chapter 1482

Ye Chen takes a look at Ji Lin, who is still in a coma.

Her complexion was ruddy.

Although the poison has been released, it is obviously not so fast to wake up.

The only thing ye Chen can do now is to wait carefully.

He has to think about the way to go.

All of them are gods, gods and spirits.

Fortunately, this time, the seventh branch of zhuhun hall has gained as much as the combination of the northern palace family's extermination of 20 or 30 lower class sects. Even if some of the small clans of the western regions in Lingwu mainland have the details, they are not much better than him!

This time!

Victory in the acquisition of a large number of Shenwang tools and Hunyuan immortal tools!

And many corpses that can be used to refine war puppets. If there is a war in the future, ye Chen can be used as a sect!

"Masters, please help me!"

"All masters can choose and use the magic tools and weapons of time and space by themselves!"

"However, in case of danger, I will use some magic tools and time and space weapons to kill the enemy!"

This is the most powerful force Ye Chen can explode at present.

The power of a thousand soldiers is just like opening up.

As long as there are enough weapons, we can form a blow to destroy the heaven and the earth!

Of course, if the master needs these weapons, ye Chen will not be stingy to give them!

He knew very well that without a few masters, he could not have walked out of the land of soul clan alive!

It's impossible to fight against the soul dragon of heaven and earth!

"Disciple, these weapons are all yours. We are very happy that you can lend them to us."

The carefree God King and the pharmacist Buddha spoke one after another, gazing at Ye Chen, with great approval in their eyes!

Nine dance God King is apologetic smile, said: "think back to that year, a combined way artifact! We all have to spend decades to get it, especially Chen Anping, a bastard, who refined and produced Hedao artifact. When we sold it to us, we asked for a lot of money! "

"We have to come to Lingwu land to earn medicine and weapons to exchange with him!"

"I didn't expect that your means of obtaining weapons are very quick and effective!"

Can it work?

The whole Horde was destroyed.

What's in the branch rudder? Can it be ye Chen's?

If you change to the three gods and Buddhas, you really don't have the courage to do it. Even if the strength allows, the courage is not allowed!

Ye Chen!

I'm afraid it's the one who can make the most of the weapon of Tao and the weapon of time and space in Kunlun for thousands of years!

"It's not only effective!"

"Think of the time Ah... "

Zhu Mie Shen covered his face and sighed. He shook his head and looked at the East. His eyes swept over the tombstones. He sighed: "in ancient times, I promoted myself to the top of the nine layers of heaven in the world of nature. I want to find a space-time soldier for breakthrough!"

"It took two thousand years, but after all, it was not!"

"Chen Anping can't refine the war of time and space, otherwise, we Kunlun Xu has already produced a dozen or so Huajing immortals, how can we make the blood spirit clan rampant?"

Think of the beginning!

Want to get the soldiers of time and space!

There are only two ways. The first way is to join a big family or a big sect, become a pawn, spend thousands of years accumulating meritorious deeds, and be extremely loyal to that force. Only then can they be rewarded with the soldiers of time and space for breakthroughs. But usually it takes no more than 10000 years to think about it!

What's more, if you can afford the power of time and space to those who have been recruited to join the kingdom of God and martial arts, I'm afraid you have to have a superior clan and a superior family!

The second way!

There may be opportunities to fight in the Jedi!

As for robbing others!

Which immortal in the land of Lingwu has no school? Robbing other people's time and space forces is no doubt tantamount to seeking death!

Generally, the strong who have a little knowledge of the Lingwu rules will not use this simple and crude way.

Except ye Chen, of course.

So, it took 2000 years to kill Shenjun, and it took him two thousand years to get the materials worth half a piece of time and space soldiers. He was preparing to continue to serve some superior sects in the eastern regions. Suddenly, he was informed that Kunlun was attacked, so he rushed back!

But I didn't expect that the strong people sent by the blood spirit clan were so terrible!

World War I, bloody.

It was suppressed in the end!

After all, there is a big gap between Kunlun and Lingwu!

Two thousand years!

To get half a piece of time and space!

But ye Chen!

It's only been a month since I came up. The soldiers of time and space, two handles!

Seventeen handles, magic tools!

There are more than 100 Hunyuan immortal weapons and thousands of Shenwang vessels. There are no such powerful figures in Kunlun Xu's history for their ability and effectiveness!

It's no wonder that the three gods have no face to Ye Chen. The disciple is too powerful, and the master's face can't hang! However, the three deities and Buddhas, although somewhat embarrassed, did not reach the level of shame. They honestly provoked the combined way artifact!

In the end, the pharmacist Buddha picked out a four level Taoist artifact with Taoist and Buddhist light on the sword! It is.

The moon Buddha and the sunlight Buddha are both selected three kinds of magic weapons. The weapons used by the green robe God King of the soul clan, one sword and one sword, are being cultivated there by the ice sword immortal statue. They used to practice Buddhism, and their martial arts skills were magic subduing pestle, Vajra pestle, Zen stick, cassock and so on. They couldn't adapt to the sword with a knife, and they didn't have the corresponding skills!

"Cough, disciple!"

"This sword looks good to me. I'll take it first and return it to you when you need it." Xiaoyao God Jun was quite ashamed to take a long sword of eight grade Hedao artifact from the ground. As he adapted, he muttered: "the power is not much worse than my Xiaoyao sword."

"Tomb owner..."

"For me, just use the ribbon..."

Jiuwu Shenjun was embarrassed to get a group of colored ribbons. It was also the artifact of Qipin Hedao. It seems to be the weapon used by a former soul goddess king. It was stored in the treasure house by the soul extinction. The nine dance God king saw it just in time for him!

"It doesn't matter, it doesn't matter!"

"Masters, you can take it yourself!" Ye Chen said with a smile, slightly bold and unconstrained, the priceless Hedao artifact, let him like selling cabbage on the ground, let a few masters choose by themselves!

This is the spirit!

That's what pride is!

Seeing that six gods and Buddhas were choosing weapons to adapt to the new weapons and techniques, he sighed, "the son of destiny! This place is full of weapons, which are more than eight adults in Lingwu mainland, and they can't earn it all their life! "

" I didn't expect Today, I am also shocked

"This is a good weapon of time and space..." Ice sword xianzun grasped five fingers, and a short sword type of soldiers of time and space appeared in his hand. He was a little surprised and sighed. He was also an elder of wanjiandi palace!

What a sight I haven't seen.

However, ye Chen, who saw only the divine king's realm today, controlled so many resources that the strong in Hunyuan could not control. His shock in his heart could not be dissipated for a long time.

Chapter 1483

That's it!

Help your disciples to refine war puppets!

There's just a handy weapon!

Just as the ice sword immortal master time and space, suddenly noticed something, his face slightly changed.

Even his body was quite indifferent. He shook his head helplessly and sighed, "disciple, I'm afraid I don't have much time..."

"It's time to come."

Bingjian xianzun felt that his mind body had begun to weaken. Even though it was the immortal warrior's, it was still weak. It could not guarantee that it would remain in the samsara cemetery for a long time, and could not actively absorb external forces to supplement it!

Is it possible to absorb external forces independently to supplement the mind body?

I'm afraid it can only be achieved by the mind body of saints in the Taixu state. At least, there is almost no such kind of mind body in the inheritance records of Lingwu continent, because it is too powerful and too rebellious!

Ye Chen also discovered the change of ice sword immortal Zun.

His expression was a little dull.

Among the many masters in Kunlun Xu, the most influential one was the killing of Daojun and Lin Qingxuan.

In Lingwu mainland, the most influential one on Ye Chen is the ice sword immortal statue.

The immortal will know that he will leave Bing Zun.

But I didn't expect so fast!

"Master!"

"How long?"

Ye Chen asked blandly. He also knew that the immortal of ice sword was not dead, but the spirit body dissipated!

Up to now, he has sent away more than ten mental bodies, so it is very difficult for him to feel sad. Instead, he feels that he should work harder to improve his strength and rescue the masters who helped him. When he has time to get along with him, he doesn't have to stick to one day and one month!

"I don't know. It should be a month or two at the latest."

"Of course, it's all without using strength to help you!"

The ice sword immortal stopped for a moment and said, "originally, I should have been resisting the thunder, and the spirit body would disappear! However, the owner of the tomb, you killed the soul dragon of heaven and earth, and absorbed a lot of strength, leading to the nourishment of the reincarnation cemetery! "

"I'll be able to survive for a while."

"Of course, even if it dissipates, I'm relieved!"

"After all, having them with you is just like what Nie Baijian said to me when his mind disappeared. Every one of us will come out and accompany the tomb owner for a long time. When our road is finished, our duty will be over."

"The rest!"

"Just waiting for you to come and save us!"

Walking in the samsara cemetery, he gazed at the six deities and Buddhas, especially the three deities. He looked like a pioneer and said with a little deep meaning: "in fact, when my mind body was first called out by you, I thought about why I wanted to help you?"

"Of course, your talent and your talent are part of the reason why I help you!"

"I cherish talents, and you are even more outstanding talents. Even in the outside world, or in other places, even if I really fall down, I will pity you when I see you as a genius. In addition, if you conduct yourself properly, I will pass on my Tao to you."

"But not all the reasons and supports!"

"On the contrary, I feel that this is more like an opportunity, even an opportunity!" he said

He held out his hand and motioned to the six deities and Buddhas, saying, "our real bodies have fallen or been imprisoned, but our spiritual bodies have revived here and helped you. You must be grateful to us and rescue our real bodies."

"For us, a helping hand of the mind body can exchange for the liberation of the real body!"

"It's a good deal!"

"Of course, the biggest reason and reason why I help you is not this, but that I have seen you for more than a month. What you have done these days makes me more sure that you can reach the height that I have never been able to reach, and we will certainly try our best to help you and protect you!"

With a spirit body!

In exchange for real liberation!

Is it worth it?

It's worth it. Without this opportunity, God knows how long their real bodies will be trapped?

Ten thousand years? 100000 years? Or a million years?

Their longevity is endless. Maybe they will be trapped to the end of time. Maybe because they are trapped for too long, their mind will collapse and the automatic soldiers will be solved!

Reincarnation cemetery, is an opportunity, a great opportunity, but also the only chance to extricate oneself from poverty!

At least, for now!

Therefore, it was a good deal. Besides, there were many talented disciples. In the eyes of Bingjian xianzun, ye Chen was the most likely to become the overlord of Lingwu mainland for thousands of years!

"So it is!"

"No reincarnation cemetery, no Ye Chen, we still disappear!"

"No, it's dead!" The three gods and Buddhas looked at each other and nodded. At the moment, the light of Buddha is overflowing, which is more peaceful and holy! Suddenly the next moment! In the three bodies of

, all kinds of sari, which sparkling seven colors of holy light, are the essence of their practice.

The original weapon body has been completely melted into the physical body. In addition, when promoted to the state of harmony, it will naturally produce sarira!

"Tomb owner!"

"These three sarira are our origin!"

"Sarira is here, we are!" The pharmacist Buddha held three Sarira in his hands and handed them to Ye Chen. He said cautiously, "from now on, you will be our host. Please keep our sarira. If one day we become demons or betray the owner of the tomb!"

"Also ask the tomb owner to destroy our relic directly!"

"At that time, we will disappear between heaven and earth, and there is no possibility of rebirth again!"

This move!

Equal to their own safety, all pinned on Ye Chen's body!

At the same time, it also shows loyalty to Ye Chen, respect and trust to Ye Chen!

Sarira!

The basic source of the Buddha root is the treasure against heaven. After absorbing it, the power will increase greatly, but the god Buddha will die!

In the same way, if you don't absorb it, you will explode and die if the Buddha is not dead!

"Good!"

"I have the right to take care of the sarira for the three."

"As long as the saripi is there, the three masters and the three gods and Buddhas, don't worry about it!"
Ye Chen solemnly received the saripi. As long as the sarira is still there, even if the three gods and Buddhas died in battle, there is still a trace of hope of resurrection!

Take care of the Serri!

Even if one day, encounter the enemy that can not resist, three masters fall!

After ye Chen escapes, he can also use the power of the serrezi to resurrect the spirit body and build the body. Just like the original, he resurrects the three gods and Buddhas again!

"Good!"

"We will be loyal to the host!"

"We must comply with the orders of the host."

The three gods and Buddhas United hands, slightly bow their heads, eyes full of respect!

Chapter 1484

The three gods looked at this scene with complicated eyes and thoughtful thoughts. Although they felt the feelings of ice sword xianzun and others, they were still silent because they didn't know ye Chen for a long time and didn't have much feeling!

"All right

"Master Bingjian, don't worry. It won't take a year or two!"

"I will surely rescue your real body Ye Chen clasped his fist, and immediately came to Ji Lin's body. He gazed at Ji Lin, who was wrapped in the light in the air. He felt a little bit and said, "it will take six days."

"Jilin, the girl, came to Lingwu land, and didn't inform me!"

"Have you suffered a lot..."

"When I am strong, I will destroy the soul hall and avenge her!"

"There are girls out there who are in the same situation as Jilin. It's time for them to get rid of the torture."

We should know that the ten girls, including Ji Lin, all exist in general as the daughters of Tianjiao!

As long as they are allowed to grow and practice, they will become a state of harmony in the past 100 years. With Ye Chen's help, it is impossible for them to be promoted to the realm of nature in the past ten years. Anyway, ye Chen rescued them, and they must be grateful to Ye Chen!

At that time, as Ji Lin's Pro guard, it would not be impossible!

Ye Chen sits on his knees to heal his wounds in the samsara cemetery. After the seven masters adapted to the weapons, they all began to help Ye Chen build war puppets!

1500 puppets in the realm of the gods!

Seventy Hunyuan battle puppets!

It is not a small number, but also needs a certain amount of time to refine. In five or six days, seven people tried their best to produce at most three or five hundred Shenwang state war puppets. However, because of the large number of corpses, they could be tempered all the time as a card for ye Chen!

Ye Chen is healing!

The great powers in the samsara graveyard are refining war puppets, and the situation is quite different in the distance and the northern region!

.....

Northern region!

Within the family of Shenglong, there is a very vast plain, and there are many palaces which can't be reached!

In one of the overall black palaces, an iron chain made of Hunyuan red iron is locked by a young girl. The girl is wearing a red fire robe, and there is a faint fire. The dragon spirit is floating out, but it is locked by the Hunyuan red iron chain and can't move!

The young girl was scarred, haggard, and her lips were cracked. She had not been drinking water or eating for decades!

However, the bodyguard on guard outside could see that her spiritual power had been consumed, her original source was damaged to such an extent that she was seriously injured, and she was trapped in a situation of half death. However, with her strong blood and body, she could not die!

And this young girl!

It was Yelo!

"Ah, dragon four!"

"Why does the little girl inside get so much attention from the owner of the house?"

"Look at the breath, look at the Mo, it seems that they are also our people..." A fire robe scarred face bodyguard said slowly, gazing at ye lu'o'er in the palace. He was surprised and sighed at the same time!

"I don't know..."

"However, it is her father's and mother's generation who offended the master of the house."

"Otherwise, the master of the house will send the 38th elder back with the seven level injunction and suppress her in our black iron palace?" Another tall and thin bodyguard said in a cold voice, "the heitiexuan palace we are guarding has always been a place where people who have been sentenced to death have stayed in their places."

Black iron palace!

The people who were detained in the past dynasties were all people who were sentenced to death by their owners or Presbyterians!

As a result, the guards of the two guards were the gods and princes of the same realm, so as to prevent the prisoners from escaping!

"A clansman of the emperor's realm!"

"Two gods and even a dozen bodyguards were arranged to guard her in shifts!"

"She has a real face The bodyguard with scar face snorted coldly, leaned against the outer wall of the palace, looked at a group of soldiers coming towards him, and asked with a smile, "ah, today's people are coming. It's still the old rule to whip her one hundred times?"

"Yes

A bodyguard at the top of the ninth layer sky of Hunyuan Kingdom nodded slightly and pinched the black dragon whip in his hand. The whip made of black dragon tendons is an immortal person. However, each whip can cause pain like bone marrow. As far as the soul is concerned, such pain, once suffered, will never be forgotten for a lifetime!

He took a long breath, looked at ye lu'o'er through the window, and said, "this dead girl, I don't know how to offend the owner of the house. Every day, a hundred black dragon whips are used. It's strange that the wound will be healed the next day."

"This healing power!"

"Only those who are in the main vein should have it!"

"Shh!" A bodyguard on the edge said in a low voice, "Captain, the forbidden words are heard by the elders. It's not good!"

"It's true!" the captain shrugged his shoulders, looked at the poor ye lo'er, pursed his lips, and said with a full smile: "it's a pity that this little girl's skin should be a place. If only we were like ordinary death penalty criminals, let's play slowly..." "What a pity!"

"The elder ordered not to touch Otherwise, I will treat her every day... "

Bang!!!

A flying sword suddenly flew!

He penetrated the Dharma protector leader directly, and his wounds were quickly lit with blue fireworks, which soon burned him to ashes!

In the sky, a blue robed middle-aged elder slowly fell down and looked at the frightened guards, and said, "what should not be thought of or done should not be done. It is better not to say that sometimes death penalty is self inflicted!"

He pointed to ye luo'er in the palace and said, "elder I tell you, this is the person that the family wants you to look after. You are not allowed to show it, let alone hit her body. If her Yin yuan is gone, the master will destroy your whole family!"

"Even the nine tribes are doomed!"

"Anyway, you're just a lowly collateral person. It doesn't matter how much you die!"

Cold words are full of murderous spirit!

Frightened, a group of bodyguards, and two of them knelt down and cried out: "elder!"

"We dare not, we must be honest!"

"We don't dare to be greedy for this girl!"

"We were wrong..."

"We should not..."

.....

"Go away!"

The thirty-eight elder shook them away with a wave of his hand. Then he walked into the dark iron palace alone, looked at ye lu'o'er, and said with a sigh of relief: "lu'o'er? Longlu'o'er, you can be regarded as the master of the family. You should know what the situation is and what situation you are in now, and you should be clear about it. "

"Your blood!"

"Of course, it was given by the former master and the three princesses of the hundred immortals palace!"

"But they have fallen. Your only chance now is to serve the master obediently and hand over your Yin yuan. I believe that the combination of your blood and the blood of the master will improve the blood of the master, and you can also earn the title of a concubine. Why suffer here?"

Chapter 1485

"Go away, old man!" Ye Luo Er used all his strength to roar: "you old things, and that dragon Hongtian, he is a beast!"

Bang!!

The thirty-eight elder slapped ye lu'o'er in the face and said, "pay attention to your words! The owner of the house is your uncle. If you want to sleep with you, it is your honor. If you can't force it, how can you still live? "

He looked cold, holding the black dragon whip, staring at ye lu'o'er, and said, "a hundred lashes a day, it's absolutely not good. With your blood, you can recover by yourself, but why suffer from this pain? I don't know how many goddesses and princesses want to climb onto the master's bed. You are a girl who doesn't know how to seize the opportunity, so you should fight! "

The black dragon whip falls down quickly, and the whip shadow automatically forms black dragons. It flies out and begins to nibble at ye Luo'er's body!

The one foot black dragon was as swift and violent as a spirit snake. Soon, ye Luo'er was covered with black and blue again, and his blood was all over the ground. He almost lost his sense of pain. He even had no strength to look at the 38 elder anymore!

However, if you observe carefully, ye Luo Er's injury is recovering bit by bit.

This is the horror of her blood!

"You girl..."

"I don't know how to seize the opportunity. You don't want to fly to the branch and become a Phoenix. You dare to refuse it!"

"What a jerk

The thirty-eight elder took a rest in his chair when he was tired. Based on his accomplishments at the peak of his natural world, he personally pumped the black dragon, which had knocked ye Luo'er unconscious several times. After the rest, he said, "I warn you, the master will come back again in a year!"

"You'd better think about it as soon as possible!"

"The sooner you agree to this whipping, the less vulnerable it will be!"

"Even if you agree immediately, I will respectfully untie the Hunyuan red iron chain for you, and then I will take you out as the master's concubine, and bow and apologize to you in person. But if you don't repent within a year, don't blame the master for killing you when he comes back!"

Elder 38 is also full of anger. He has just finished beating ye Luo'er!

Ye Luo'er was covered with black and blue wounds, but not long after, the blood vessels in his body were stimulated, and the blood light flowed out. The wound was actually healed at a very fast speed, and even in less than half an hour, it had been healed!

This scene was admired by the thirty-eight elders!

This is the main vein clansman, only has the blood ability!

Even if the body can be called two sections, it can recover in an instant!

Longlolo, no, elor!

If it wasn't for the low level, the black dragon whipped her, I'm afraid the first second just fell, the second after the wound has healed!

"I'll tell you!"

"You recover quickly, it's OK!"

"I'll beat you a hundred lashes every day. It doesn't matter if you're blocked. How long can your mind and soul endure?" Thirty eight elder shook hands and went out of the black iron palace directly!

Ye Luo'er looked at the 38 elder who left, gnashing his teeth and said: "delusion!"

"You bastards, these shameless things, and you call me my people!"

"What kind of top family are you?"

"Brother ye will come to save me!" She spent a great deal of strength to make her body lean against the wall and heal as much as possible by the blood in her body. But the pain in her mind was caused by the black dragon whip, which made it impossible to disappear, which made her hate the holy dragon family even more!

"I believe in brother Ye!" she murmured to herself

"Brother ye will come to save me!"

"As for you, it won't be long before you all die in brother Ye's hands..."

"Brother ye I miss you so much... "

"Ye..."

Gradually, ye Luo Er fainted, almost every day in a coma - hit - and then sleep again and again!

Half a month ago!

The head of the Linghu family in the northern region personally went out and spent a lot of effort to capture ye Luo'er back! Of course, the Linghu family in the northern region and the Linghu family in the western region are not one, but have the same name!

Long Hongtian has been staying in the family waiting for the news that ye Luo'er has been arrested. Regardless of the situation in the devil Kingdom, he personally interrogates ye Luo'er and determines that ye Luo'er's blood is the top blood between first-class blood and second-class blood!

This kind of blood force is very special!

With this blood, ye Luo'er can cultivate to the state of semi saint, that is, the peak of nine layers of heaven in Fengmen state, which is comparable to the oldest ancestor of three top families!

At the same time, the power of blood can also be excessive to the opposite sex by having sex with the opposite sex!

Long Hongtian, in particular, is a second-class blood. If he can have sex with ye Luo'er, he is likely to have a first-class blood relationship. However, ye Luo'er's blood is too strange. He needs ye Luo'er's self-help consent. If it is forced to hold, it will lead to excessive blood and nothing will be obtained at that time! Long Hongtian Haosheng persuades ye Luo'er to serve himself!

Unexpectedly, ye Luo'er is not willing to learn that his parents died in the hands of long Hongtian!

More than two days of entanglement!

When there was an accident in the demon Kingdom, a large group of Warcraft attacked the residence of the Shenglong family, so that 13 xianzun elders and 3 Fengshen Taishang elders fell down!

Long Hongtian had to rush back to take charge of the overall situation and dispatch his soldiers to fight back. At the same time, he was trapped in the dilemma of fighting with fierce beasts and Warcraft in the world of Warcraft. He couldn't come back for a year and a half!

So, before leaving, he told his trusted followers, the 38th elder of the inner family, the Ninth Heaven of the realm of nature, to imprison ye Luo'er in person, and to torture her all the time and force her to agree!

Of course, when the fierce beasts of the Warcraft attacked the residence of the holy dragon family, the supreme Presbyterian group, which was composed of the great power of the Fengmen area, which was called the true God, personally sent out half of the staff to help out in the battle, so that their attention was not in the family!

Otherwise, the supreme elder, who supported ye Luo'er's father as the head of the family, would not have looked at ye Luo'er's torture without saying a word!

Not without help!

Not without help!

I don't know!

The huge holy dragon family, all the attention is in the devil's land. The elders above xianzun prepare for the war respectively. Who will take charge of some small actions of dragon Hongtian in private? Who cares about a fringe elder? Thirty eight elder, who cares about him!

So!

The thirty-eight elder ordered people to torture ye luo'er, but almost no one knew the situation!

.....

In the western regions, five or six days have passed!

Among them, the other seven puppet kings are still working overtime to refine their tools!

Ye Chen also wakes up from the healing. After several days of closed door treatment, he has recovered most of his injuries, and his body has been restored to 90%!

During this period, he recovered the remaining nine girls.

Because he is the only one in the world who can save these people.

Chapter 1486

He looked at the ten light regiments in the air. The brilliance was getting weaker and weaker, but the girls among them were full of fairy spirits and spiritual charm. It seemed that 90% of the soul poison in

their bodies had disappeared, and they were using the residual strength of soul dragon grass to heal their wounds!

Two hours past!

A group of light scattered, a bright girl slowly fell down, surprised to see ye Chen, to the reincarnation cemetery, asked: "this big brother, who are you?"

"Me? Why are you here? "

"Why can't I remember?"

The girl looks very cute, just like a porcelain doll, about the size of Ji Lin!

Ye Chen smile, he erased the girls on the memory of being imprisoned by the soul clan, that is a painful memory, not to retain the good!

Ten girls, including Ji Lin, must have suffered extremely serious torture when they were in the soul clan!

In order to prevent them from having heart demons later, ye Chen learned the skill of erasing the memory from the Golden Buddha, and wiped out the memory of ten of them in the soul clan!

"My name is Ye Chen! You can also call me brother Ye. "

Ye Chen smile, slowly said: "before, you were captured by the soul clan, I saved you!"

"Thank you, brother Ye!" The girl nodded her head very cleverly, and immediately saluted Ye Chen with a very graceful clasp of hands. It seems that she came from the declining Wudao family. The 10-year-old girl actually has three layers of spiritual cultivation!

Not weak!

"What's your name?" Ye Chen inquires and looks at Ji Lin and the other eight girls at the same time.

"My name..."

"My family has fallen and my parents have been killed. As for my name, I don't want to mention it..."
The girl was very mature and continued to say, "since I was saved by elder brother ye, I will follow elder brother Ye. Please give me your name!"

Ye Chen gave a slight smile, stroked his forehead, and thought: "since you want me to give you a name, I think you are very smart. It's better to call Lingshui. Later, the other nine sisters are all healed and willing to go home. I'll send someone to escort you back! "

"If you don't want to, you can follow me!"

Ten years old, three layers of heaven!

When you are 15 or 16 years old, you will be at least two or three layers of heaven in the divine Kingdom, and you will have a complete five stream blood!

In terms of talent and blood, it's no worse than Beigong Ziyu!

It's just that you're not born very well and you're not lucky. Otherwise, you won't be caught by the soul clan as a sacrifice!

Soon, the other eight girls fell out of the light as if they were reborn. They all looked at Ye Chen curiously, and Lingshui answered them one by one. However, they were born very hard.

Or the daughter of a fallen family!

Or the family was destroyed by the enemy and left on the streets!

Or they were robbed by the family, reduced to slaves, and then captured by the soul clan, almost no home!

Ye Chen left them and gave them a new name. They took the name of "spirit" as their surname, and the nine characters of "gold, wood, water, fire, earth, wind and thunder" as their names. The nine girls, half of whom were in the heaven of eight or nine layers of heaven and earth, and half of them were three layers of heaven in the realm of God. All of them had complete blood vessels of more than six streams. They were all rare talents!

At this time, three virtual shadows floated out.

"Cough!"

"Apprentice, though these are your men!"

"However, they are very gifted. Let's take in some apprentices and become inheritors as well." Xiaoyao God said slowly!

The other two deities have the same idea. First of all, the nine girls are extremely gifted. They are almost top-notch in Kunlun. They are also at the middle and upper level in Lingwu mainland. Taught by the three gods, they will become a harmonious world within a hundred years. Their blood and talent are much better than those of the three gods!

What's more!

Although Ye Chen is their disciple, he is a common disciple after all. If we teach together, we can't show our own teaching level!

Therefore, the three gods all have the idea of accepting nine girls as apprentices. By the way, they will compete with each other in teaching level!

The nine girls with Lingshui as the main body looked at the empty shadow of the three gods and hesitated for a moment!

"Don't worry!"

"Go on, all three of them are good people!"

"Only by finding the teacher you like can you cultivate yourself."

Ye Chen asked the nine girls to go to the three gods, but he gazed at the light group that wrapped Jilin. He frowned and thought, "what's the matter? There is not much poison in Ji Lin's soul. I haven't recovered so far? "

Ji Lin, soul poison least!

It is also the first person to take Wannian soul dragon grass!

How can, up to now did not wake up, on the contrary, the light group is produced a series of toxins?

"Poison!"

"This kind of poison, it seems to be inborn poison!"

"Something's wrong. When did Ji Lin get the innate poison?"

Ye Chen can't help but take the light down and place it on the ground. He explores with the power of the spirit. The result is shocked. Ji Lin's whole body is covered with congenital poison!What is the innate poison?

It is a kind of toxin with extremely strong toxicity, even the inborn poison of Shenwang state, which can kill the Hunyuan state worshippers and the weak God King of the Hedao realm!

Ji Lin was poisoned by nature?

"What's going on?"

"My power can't be delivered in!"

"It's the inborn poison, but it doesn't erode Ji Lin's body, but nourishes Ji Lin's body?"

Ye Chen is a little puzzled. In this case, he is either attacked by a fierce beast who is good at toxin, and is caught by the poisonous beast. The human body is poisoned. He does not die immediately and is not eroded by the toxin. Instead, the toxin is nourishing the human body!

Is it accumulating for the fierce beast to devour?

When did the fierce beast start?

Why didn't I find out?

"Ha ha ha ha!"

"Tomb owner, don't worry!"

"This is a good thing." Ice sword xianzun walked slowly, his arm gently fell on Ji Lin's neck, and then three poisonous meridians appeared on his neck. Then he also showed a warm smile and said: "it's not poisoning. Ji Lin is a child who has been inspired by blood!"

"Poisonous blood?" Ye Chen a Leng, ask a way: "have poisonous blood vein?"

"It's not the poisonous blood, but her blood and body contain the power of her ancestors. Before suffering from the impact of the soul poison, some of the strength has to be released, but it is blocked by the soul poison!"

"Now, the soul poison has been removed, and that power is surging out naturally," explained the ice sword immortal

He looked at the tiny Ji Lin, took a long breath, and said, "if I read correctly, it should be a congenital poison. In other words, it is hard for others to get, and even has disappeared for thousands of years. She can use it at will!"

"Other people's innate poison is refined from thousands of toxins, including soul poison!"

"But Ji Lin's inborn poison, equal to blood, is inexhaustible!"

"What's more, Ji Lin awakened the innate poison body, and from then on, all kinds of poisons will not invade. If you cooperate with a Book of poison skills, you will become a congenital evil god and a congenital poison God, which is not impossible!"

congenital poison!

Inborn poison!

It is estimated that this is one of the most coveted deities in Lingwu continent!

With this spirit body, the world is not afraid of all kinds of poisons, and can even cross one big realm to poison and kill the enemy, and cross two great realms to poison the enemy to be seriously injured. This kind of anti heaven force is really rare!

"But

"Her body is changing qualitatively. At the same time of awakening, there seems to be some problems."
Ice sword immortal Zun frowned slightly.

Chapter 1487

Inborn poison!

Ye Chen is surprised to hear the words of ice sword immortal.

In his memory, Ji Lin was just a little girl with an ancient spirit. How could he have something to do with the rare constitution of Lingwu continent.

However, on second thought, Ji Siqing, Ji Lin's sister, was taken in by Lingyun because of his talent and blood.

Sister is so terrible, as a natural sister is not weak.

Ye Chen can't help feeling that the Xuji family in Kunlun was not a general family in ancient times.

From the meaning of ice sword xianzun!

Ji Lin's physical fitness is enough to shake the land of five regions in Lingwu. Among them, dozens of poison refining gates will come to find Ji Lin as a disciple!

Why?

Because Ji Lin is a congenital poison!

Other people can not refine the poison, she can refine, only need to cooperate with a little bit of the innate poison in her body, and the toxicity is stronger, more powerful ten times, more than a hundred times!

Ji Lin is not afraid of the poison that others fear!

Some of the most powerful poisons, such as the poison of spirit and spirit, are the experts in the field of poison refining. The venerable and the divine king don't dare to touch them!

However, Ji Lin is fearless. His innate body is not afraid of any poison in the world, and even the essence is the source of poison. The meaning is the source of all kinds of poisons. The true and true poison source and the poison skill have unique capital!

"This little girl is really a natural poison!"

"The innate poison, not to mention the congenital poison, is a little inferior to the acquired poison, which is extremely fierce!" Zhumie Shenjun found something wrong and seemed to think of something. He said: "in the past years, I worked in the Phoenix family, and once led a couple of venerable men to luochahai on the star sea to search for Kunlun sacred wood and refine the magic tools of the way of harmony."

"Think back then!"

"Luochahai has attracted thousands of worshippers and thousands of gods and princes because of the birth of the half holy demon Holy Land!"

"It happened that I met a God King who was good at poison skills. He fought against hundreds of gods with one person's strength. When the poison in his hand bloomed, it was like smoke all over the sky, and in an instant it was a hundred thousand miles away!"

"Within a hundred thousand miles, the island and cave, and the place of sectarian organization, have become a dead zone!"

"The sea area is full of fish, shrimps and monsters. The blue water of Luocho turns into black water. Thousands of corpses of sea monsters are all over the island. At the same time, the islands are full of the bodies of elite dignitaries of various schools. Even when they touch the poisons of the acquired poison, they all die of poisoning and fall down!"

"Calculate it carefully..."

Zhu Mie Shen Jun was a little frightened. He couldn't stop breathing. His eyes were a little uneasy. "Fortunately, I led the team of Phoenix family, which was not within the scope of the poison master's attack. Fortunately, I was able to escape. However, all living creatures turned into dead bones and ashes all over the sky. I will never forget it in my whole life!"

Working for the Phoenix family, one of the three top families, can save your life sometimes!

At least ordinary gods or cruel people without absolute background will not attack them!

It is precisely because of this that Zhu Zhushen Jun escaped that disaster!

The poison of the day after tomorrow

"It's more than a hundred times worse than the natural poison. But do you know how many creatures were killed by the poison of the day after tomorrow?" Zhu Mie God Jun spoke cautiously, from his eyes can still see the meaning of fear!

He Daojing jiujiertian peak of the Zhumie God King!

Since five thousand years of escape, I can still remember it in my mind, and I'm always in a state of panic!

"How much?"

Ye Chen takes a breath of cool air, and his heart is shaking. It seems that the poison skill in the world is really strong after being used well!

Zhu Mie Shen Jun held out three fingers.

"Thirty thousand?" he asked

You shake your head!

"Three hundred thousand?"

Or shake your head!

"Three million?" Xiaoyao God Jun's face has been stretched, his own reported this number, some trembling.

"It's 30 million!" Zhu Mie Shen Jun took a deep breath and said faintly: "according to the statistics of xianzun elders of Fenghuang family after the first World War, the conclusion is that there are more than 32 million demons in the sea, birds in the sky, and human warriors."

"There are twenty-five million living creatures in the central emperor's revered realm!"

"There are more than five million creatures in the realm of God!"

"There are hundreds of thousands of creatures in the kingdom of God."

"There are 18000 corpses found in Hunyuan kingdom!"

"Living beings in harmony with Tao There are about 137 corpses that can be found, which are equal to the two races of human and beast. 137 God kings have fallen within 100000 Li. Most of them are elders

of various sects, and even the young disciples of various sects who come to participate in the semi holy secret place are all dead! "

"Except for the three top families!"

"None of the other families survived!" Within a hundred thousand miles!

Thirty million smoke the day after tomorrow!

The vast majority of them are in the realm of emperor's respect and the realm of God! In fact, it's just like the ordinary people who were killed by the common gods. In fact, the two gods were killed in this movie. In fact, they were all used by the gods!

Ye Chen couldn't help swallowing and salivating, then looked at the comatose Ji Lin and said, "it's really terrible!"

Cruel!

It's cruel. 30 million creatures!

As soon as the poisonous smoke is released, all of them will fall down. Even the God King of the same level can't stop the poison!

I'm afraid you will be seriously injured!

It's just the poison of the day after tomorrow!

Now Ji Lin is a congenital poison!

If Ji Lin thoroughly awakens the innate poison body, and uses it!

Future achievements are not inferior to Aura!

Not even weaker than the existence of those Lingwu continents!

Ye Chen subconsciously hugs Ji Lin in his arms, and his mind is shaking. In his arms, this is a congenital poison. If he cultivates in the harmonious state and releases the innate poison, will he not be able to poison 30 million, no, 300 million creatures?

300 million!

300 million creatures!

This data, put in China, is absolutely shocking data, even if put in Kunlun Xu, it is enough to shock the world's martial arts!

But in the Lingwu continent, this world with hundreds of billion people, plus immortal animals, monsters and so on, I'm afraid there are hundreds of billions of creatures in the world! It seems like nothing, but if you think about it carefully, you can also make people fidgety!

"So!"

"Tomb owner, this daughter is very important to your future achievements. Although she is still young now, if she grows up, it will definitely be a great help, and she should be cultivated well!"

"The God King who released the poisonous fog seems to be named QianDu Shenjun, and he is an acquired poison. Just like Ji Lin, his body and toxin are just one level different." Zhu Mie Shen Jun seemed to recall more, and asked: "tomb owner, do you know what happened to the thousand poison God King and the semi holy secret place?"

Chapter 1488

"How is it?" Ye Chen is also interested!

Half holy!

It's equivalent to the top of the nine layers of the sky in the Xingqiao realm. No, it's even more powerful. It's equivalent to a peerless existence with half a foot on the threshold of Taixu realm!

This kind of extraordinary power secret place blooms, must have caused an incomparable storm 5000 years ago?

If the king of thousand poisons is still alive, we may not be able to find him. Let Ji Lin learn from his postnatal poison skill, and cooperate with Ji Lin's own inborn poison. I'm afraid he is the three top powers, and dare not provoke him!

Therefore, from ancient times to the present, all the martial arts practitioners of poison refining are the most destructive and least known group of martial arts. Ye Chen is extremely curious about the future of the thousand poison God King!

Such a vicious and arrogant king of thousand poisons!

With the opening of the semi divine realm, all the sects and forces of the five regions in Lingwu mainland have come. The first wave of people who have come here are only the God King, or the venerable, who leads the team and leads some disciples to see the world. No real big man has arrived!

As a result, this thousand poison God King directly poisoned!

Poison killed 30 million living creatures and killed all the martial arts of sects and aristocratic families except the three top forces!

How can such behavior not be cruel?

If you can cultivate to the realm of true God, you should also be the leader of the evil way!

"Thousand poison God King! After killing thousands of sectarian families, the semi divine secret place is filled with the poison of the day after tomorrow

"Even if xianzun enters, he will be poisoned for a long time, and even be in danger of being seriously injured and dying. Therefore, the thousand poisons God King has directly entered the secret place!"

Kill God King and Jue, only count on the cruel generation!

But on the ruthlessness of the thousand poison God King!

He can't compare with him!

Zhu Mie Shen Jun's eyes twinkled with complexity, and continued to say lightly: "after the king of thousand poisons enters, the spirits hall, the hundred immortals palace, the wanjian emperor palace, the Ouyang family in the middle region, and the long history family and so on, come one after another. After breaking through the poisonous fog the day after tomorrow, they want to kill the thousand poison God King in the sea area!"

"Unexpectedly, the king of thousand poisons has entered the Holy Land!"

"Many immortals and deities can't enter, but they stick to the secret realm. Finally, they wait for more than a hundred years. The king of thousand poisons breaks through the realm and becomes a thousand poisons evil spirit. He has the fighting power of three layers in Xingqiao state, which is obviously inherited by the half Saint demon!"

"More than seven days and seven nights have been spent fighting the thousand poisonous evil spirits and the hundred immortal gods and martial arts masters!"

"In the middle of the way, he released the semi congenital poison which he had accumulated and refined for many years!"

"Half congenital poison?" Ye Chen one Leng, ask a way: "this how to say?"

Zhu Mie Shen Jun ponders over the side, stares at Ji Lin, and says, "there is only one word difference between the innate poison and the postnatal poison, and the tomb owner can use the blood of different physical realm to scale it!"

"For example, the tomb owner, your sixth level flesh in the virtual body stage, with a drop of blood, can kill the warrior in the early stage of the divine realm!"

Ye Chen nods, and his body is tempered to the extreme, which is comparable to the God King of the primary harmony realm. A drop of blood is enough to blow up a warrior who has entered the three layers of the divine realm!

"Tomb owner, your blood is assumed to be equivalent to the innate poison."

"And the postnatal poison is like the blood of the third level of Huagang period. A drop can only kill the people in the five or six layers of heaven in the emperor's respect!"

"As for the half congenital poison!" Zhumie Shenjun thought for a moment, and then said, "it's like the blood of the Ninth level in Huagang period, which can blow up and kill the warrior at the top of the nine layers of heaven in the emperor's Zun state!"

"The gap between them, though complicated and mysterious, can be understood by using this scope!"

The whole is equivalent to this:

in the sixth stage of virtual body, a drop of blood can blow into three layers of Heaven (congenital poison)

in Huagang stage, a drop of blood can kill nine layers of Heaven (semi congenital poison)

level three of Huagang stage, and a drop of blood can kill five layers of Heaven (the poison of the day after tomorrow!)

It is equivalent to such a contrast method. It is just a drop of venom, which can not be compared completely according to the attack and kill power of blood. The venom is more toxic to different warriors, such as the God King who is good at the way of spirit and soul. The God King who is good at the way of the body is like Ye Chen, and the toxicity is weaker!

Hearing the words of killing God King, ye Chen suddenly feels that Ji Lin in his arms is a hot potato!

That thousand poison God King, with the poison of the day after tomorrow, can poison and kill more than 100 gods and princes in the same environment in he Dao realm!

If Ji Lin in his arms, if he was in the realm of harmony, would he not have killed three or five hundred gods and princes in the same realm with his inborn poison?

This is the most fundamental power gap!

Also enough to prove that Ji Lin's potential and future strength!

"That war was a half congenital poison..."

"The fear is incomparable, I also listen to the Phoenix family elder to talk about, did not personally see!" Kill God King in the eyes unexpectedly some yearning!

"You can't be here if you see it with your own eyes!" Xiaoyao God Jun slightly jokingly said: "you participate in that war, 100% is dead!" "So it is!" The ice sword immortal also can't stop nodding. The poisonous God with such strong poisonous power and toxin can't even kill the God King. Even if he is half step immortal, he will die. There is no possibility of any fluke at all!

The other two gods and three Buddhas!

Even nine girls, hearing Zhu Mie Jun talk about things thousands of years ago and Ji Lin, can't help but want to hear about the thousand poison God King and thousand poison evil spirit. What is the final result.

"In the end, the half born poison!"

"He poisoned three elders of the Changshi family in the central region, as well as all the schools and families in the central region, totaling seven deities. Of course, there are 21 immortals who died on the semi congenital poison. The other four regions were also led by the central region to hang the thousand poisonous evil spirits, so only one or two deities and a few immortals in the realm of nature were killed!"

"As for the thousand poisons and evil spirits!"

"In the end, he felt that he couldn't escape, because he was the ancestor of the real God, the name of the long history family."

"So before the explosion, he left his own poison skill and the inheritance of the half Saint demon, scattered in the endless sea area of luochahai! Of course, thousand poisons and evil spirits blew themselves up and almost killed the ancestor who was called the true God, and made him suffer a heavy blow!

the God killing king suddenly said with a smile: "the old ancestor of the long history family, it is estimated that it will not take 30 to 50 thousand years to recover. It is not good luck, and it will take 200000 years to recover after breaking the road of semi saint!"

He laughed!

Being a man and stepping on the road of martial arts should be like a thousand poisons and evil spirits!

Facing the encirclement of hundreds of schools and thousands of families, he nearly killed an old ancestor who was called the true God, and killed eight gods and martial artists in the same realm and twenty-three immortals. He should be a man like him!

"So!"

"Tomb owner, you should know that Ji Lin's inborn poison and inborn body are fierce!"

Chapter 1489

"This matter must not be publicized. Otherwise, the warriors of various schools fell into the hands of qiandusha God. Although they have killed qiandusha God, it has only been five thousand years, and it has not been forgotten by everyone. Maybe they will think that Ji Lin is the inheritor of qiandusha God and will attack you and Ji Lin!"

Ye Chen frowned slightly.

At present, the inheritance left by qiandusha God is undoubtedly the most suitable for Ji Lin.

It seems that there is an opportunity to take Ji Lin to luochahai and endless sea areas.

If by chance, Ji Lin gets the inheritance of thousand poisons and evil spirits, I'm afraid the soul hall will not dare to make Ji Lin's idea again.

Even Ji Lin can avenge himself!

All of a sudden, ye Chen thought of something and looked at the ice sword immortal Zun with burning eyes: "by the way, master, you just said that Ji Lin's body has some problems What's the matter? "

The ice sword immortal Zun shook his head and looked at Zhu Mie Shen Jun and said, "Zhu Mie Shen Jun knows Ji Lin's body better than I do. Let him talk about it."

Zhu Mie Shen Jun nodded and put his left hand gently on Ji Lin's forehead. After exploring for a long time, he said, "it's the congenital poison that has not been completely perfected, resulting in some blockage of meridians. The most important thing is that her blood and body are all the early generation,

that is, the congenital poison produced naturally. Unlike qiandusha God, it is an acquired poison. Therefore, we need to find some highly toxic drugs, or They are extremely powerful poison materials. Let's fight them with poison! "

"Fighting poison with poison?"

"Is it the blood elixir of Jilin?"

Ye Chen inquires. He releases his spiritual power and enters Ji Lin's body. He clearly feels that Ji Lin's channels are blocked, and there is poison everywhere. If he wants to change to other martial artists, he will die a long time ago!

On the contrary, Ji Lin, in addition to being unable to wake up, is getting stronger and stronger!

The realm is getting better and better!

Originally, Ji Lin was just in the early days of emperor Zun's state. At the moment, he was nourished by blood and venom. Instead, he stepped into the three levels of spiritual state step by step, and his promotion speed was much faster than ye Chen. I'm afraid that after perfecting the innate poison, his cultivation will be further improved, and it's no wonder that he will reach the later stage of entering the divine realm!

"Yes

"Because Ji Lin is an inborn poison, he is not afraid of any poisons in the world."

"But the venom in her body, let's say it, has a lot of venom. It seems that it can't be completely digested, so it's blocked in the meridians and the elixir field!" Zhu Mie Shen Jun looked at it carefully and said again, "so, we need some poisonous things to impact it."

"The venom that blocks the meridians is flushed away!"

"Then the two streams of venom can be combined to improve Ji Lin's innate poison body!"

"If we don't do this, we will have a long-term backlog, and the consequences will be unimaginable."

"The key may not wake up for a lifetime!"

Ye Chen's face changed slightly.

He promised Ji Siqing to protect Ji Lin, so he couldn't let Ji Lin have an accident.

But for now, how to fight with poison?

He began to think of a variety of poisons, some are natural growth of poison, some are full of poison!

The venom of these monsters with poison is not too strong for the warrior!

Is it necessary to synthesize some, extract the purity and give it to Ji Lin?

Ye Chen went to check all kinds of books recording poisons. Those books happened to be copied from the treasure house of the soul hall. They recorded a lot of poisons. While he was searching, he was extremely nervous.

He thought that Ji Lin would recover after breaking the array.

But unexpectedly, he awakened Ji Lin's inborn poison body!

"Wait a minute!"

"Disciple What suddenly occurred to him, and his brow was slightly frowned, and he said, "the innate poison is not perfect. You can't make up for it with ordinary poisons! I'm afraid it needs the poison of the thousand poisons and evil spirits! "

Hearing this, the book in Ye Chen's hand fell to the ground, and he frowned tightly: "that is to say, I must go to luochahai and endless sea area now?"

"If I go there, I will die."

"Is there really no way out?"

"However, if this is the only way to save Ji Lin, no matter how difficult it is, I'd like to try it!"

The ice sword immortal Zun came slowly and said faintly: "just now I talked to Zhu Mie God King!"

"It was found that although qiandusha God exploded, he did not know whether he was dead or not. He did not know whether he was dead or not. His poison skill and the poison he carried were all left in luochahai! You don't have to go to luochahai now. As far as I know, the Dugu family, the fire cult and so on, who also participated in that war, should bring back a lot of poisons! "

"Look for them!"

"Exchange some special poisons back!"

"It's best to nourish it with poisons that are particularly toxic, or even better contaminated with acquired poisons."

There is a difference between the innate poison and the postnatal poison!

Can the two powers be compared, but at least they are much more powerful than other poisons. If Ji Lin wants to improve the innate poison body, it is better to use the acquired poison to make up for it!

"Wait!""We remember!"

The moonlight Buddha walked slowly with his hands together and said, "we also know the 5000 year war!"

"It's just that at that time, we were not qualified to participate in the Golden Buddha Tantra!"

"But the northern palace family, the Dugu family and other ten middle-level forces in the western regions each had two gods in the realm of nature. Two thousand years ago, the Dugu family brought back a thousand demons ginseng from luochahai. It is said that it was used by the thousand poison evil spirit to mix the semi congenital poison!"

"Just..."

"In the past ten thousand years, we should not talk about the inborn poison and the congenital poison body!"

"There is only qiandusha God in the acquired poison and the acquired poison body. The thousand devil ginseng brought by Linghu's master is extremely toxic, so there is no martial arts person in the Dugu family. Two thousand years ago, the Dugu family, the Beigong family and Feiyu Pavilion jointly held an auction, in which they wanted to auction the thousand devil ginseng, but

Yueyue Buddha smiles helplessly and says: "the western regions are barren, not a prosperous place for evil ways. Most of them gather in the areas under the jurisdiction of the fire cult, the Baili family and the Duanmu family. Besides, those poison refining sects have not come to the auction."

"There's not even a client to take a picture of the thousand devil ginseng!"

"Maybe it's because the thousand evil ginseng is so poisonous that they can't use it!"

"Therefore, this plant of thousand demons should still be in the Dugu family. The owner of the tomb can take it and perfect the inborn poison body for Miss Ji Lin!"

Dugu family!

One of the top ten middle-sized families, by contrast, is slightly inferior to the Beigong family!

But it is also a rare big family!

What's more, the western regions are different from the other four regions. There are no superior sects or families directly under the western regions. Instead, the ten middle-sized clans have been ruling together. The ten forces have been maintaining each other for 100000 years. Although the Dugu family is at the bottom of the top ten forces, their strength is absolutely not bad!

Chapter 1490

"Dugu family!"

"Dugu FengChen!"

Ye Chen remembers the first time he went to the soul clan and killed some of his own people!

It seems that Dugu FengChen, who is 18 years old, is the fifth child of Dugu family. He is the genius of the fourth layer heaven of Shenwang state, along with six other people and two Hunyuan environment guards. It is not easy to go to the Dugu family to buy thousand devil ginseng now!

"We have to find a way to get the thousand devil ginseng from the Dugu family!"

"Ask Beigong Hongtian for help?" Ye Chen felt a little uneasy, and said to himself, "the senior Taishang elders behind the guy in Beigong Hongtian are all like human spirits. If they know I buy thousand demons ginseng!"

"Yes, of course."

"I'll even be happy to buy it for me!"

"But they must have guessed the function of the thousand devil ginseng!"

Many venerable masters and deities in the poison refining sect did not buy thousand demons ginseng!

Why?

It's not because it's expensive, it's not because you can't buy it.

It's because they can't use it. There's no master of poison skill. The thousand devil ginseng bought it, and it's a little bit worse. It may poison their own poison refining skills!

Poison!

Of course, it can poison the enemy, but if it is not used well, it can destroy itself!

Therefore, the western region's poison refining is not at all concerned about the thousand demons ginseng!

But ye Chen, suddenly went to buy thousand devil ginseng! It's bound to be discovered by some people.

After all, ye Chen came to Lingwu land, he didn't use poison at all, let alone killed other people! Suddenly, I want to buy this kind of magic thing in poison and say that I want to practice poison skill. It is estimated that few people will believe it. Even the master of poison skill dare not use it, let alone Ye Chen.

"Beigong family!"

"if you can't find it, you'd better not look for it!"

"I can't believe them! Maybe when the master of soul hall comes back, he will get my news from them!"

Ye Chen knows very well that once he finds the Beigong family to buy the thousand devil ginseng, the Beigong family will associate Ji Lin with some clues.

At that time, I'm afraid it will be a fire.

Once this news is spread, all factions have not forgotten the tragedy of 5000 years ago!

It is not a good thing to attract all factions to attack and kill him and Ji Lin at that time!

The war five thousand years ago!

Although all the schools in Lingwu mainland lost some disciples and gods, they finally killed the thousand poisons and evil spirits.

Qiandusha God also overestimated himself. Maybe he overestimated the semi holy secret place. He thought that he would poison the gods, kings and living creatures in the periphery. After entering the semi holy secret place, he could be called the true God. After he came out, no one could move him unless the top forces took action!

What a pity!

A hundred years later, he came out of the secret world, only three layers of heaven in the Xingqiao realm. He died in the early days of being a God, but not yet in the middle of being a God. Facing more than a dozen Fengshen warriors who wanted to kill him and seize the inheritance of the secret realm, he finally chose to explode himself!

Before the explosion!

They have passed on their own poison skill and a few remaining poisons, as well as the inheritance of semi holy secret place, into the endless luochahai. In recent years, all major forces have sent people to search for the relics of the thousand poisonous evil spirits in luochahai!

The Dugu family found a thousand magic ginseng!

It's a pity that the thousand evil ginseng is covered with the poison of the day after tomorrow. It's enough to kill dozens of gods and princes of hetaojing. They are the immortal of the Dugu family, the five elders of the Supreme Master, and the old monster of the five layers of heaven in the creation realm. When they find the thousand evil ginseng, they are all careful to bring them back, but they are still invaded by the acquired poison and have to cultivate for 2000 years. I heard that the poison wound is not good now!

So in those years, the Dugu family wanted to sell the thousand demons ginseng, at least for a few pieces of space-time soldiers. If it was not good, change some magic weapons!

There was an auction!

Unexpectedly, no one bid for the thousand devil ginseng!

It's a treasure that can poison the immortal in the realm of nature. The martial arts below the realm dare not think about it at all. There are few martial arts practitioners who specialize in poison cultivation. Even if they do, they are not postnatal poisons. It is difficult to use the thousand demons ginseng!

Therefore, the thousand demons ginseng has been stored in the Dugu family!

"Auction!"

"I have to find a reason to let the Dugu family hold another auction!"

"I'll shoot it myself. After I get the thousand devil ginseng, I'll run away directly!" Ye Chen's eyes twinkle, and he also knows that if the cultivation is not in place and the status is not high enough, it will definitely cause other people to covet. We don't want to create another thousand poison evil spirit to destroy the sect for them!

Fear of thousand poisons and evil spirits!

The most serious is the warrior in the realm of nature!

It is expected that when qiandusha God was still in the realm of shenjunhe, he had already poisoned 30 million living creatures. If there was another qiandusha God, there would be a lot of bloodletting. This is what many sects don't want to see. Therefore, ye Chen only had to buy the thousand demons ginseng, and there was no big background. He was bound to be attacked and killed!

Must be prepared in advance!"Wait, grave master!"

"After the thousand devil ginseng arrives, it melts into Ji Lin's body!"

"Of course, it can improve the innate body, but there are records in ancient books, and there may be some problems!" "When I was free, I would go to check the ancient books of the palace of wanjian emperor and record the events of mainland China," he recalled

"I remember vaguely!"

"Three hundred thousand years ago, it was the ancient times, before the ancient war began!"

"In ancient times, the God of war with the blood demon Dragon God existed on the same level as the God of the dragon. Once there was an enemy of life and death, known as the congenital poison God. It seems that he possessed the innate poison body, and the cultivation of sealing the five layers of heaven. Before the war in ancient times, he used his own strength to poison the demon family. Of course, the one who was not dead except the God of war of the heavenly demon was not dead!"

"Among the heavenly demons, hundreds of millions of creatures died in the hands of this inborn poison God. Before the ancient war, the inborn poison God was killed by the God of war. Before he died, the God asked him how to cultivate the creatures with congenital poison body?"

I remember the words of the ancient god

"If you want to become a congenital poison, you need to nourish it after the day after tomorrow, and then experience the disaster of thunder. This is the nature of heaven and earth, and you want to be born, unless it is allowed by heaven!"

Bingjian xianzun took a complex look at Ji Lin and continued to say: "that sentence, I understand some now! It's not what we think it's necessary to nourish after the day. It needs to be nurtured in the process of growing up the day after tomorrow. "

"After all, there were demon gods in ancient times. They wanted to cultivate a congenital poison body, but they wantonly poisoned human beings!"

"But without exception, they all failed!"

"Now I think that congenital poisons may need to be formed naturally in the early generation, and then need the blood of an acquired poison, or a large amount of acquired poison, as a tonic. First of all, it makes people with congenital poison, such as Ji Lin, unblock the meridian and elixir field, and wake up! "
