Chapter 3101

If the strength is not enough, stepping on the LiuYao mountain is bound to die.

And in Ye Chen ready to close his eyes, he suddenly noticed what! Eyes suddenly shrink.

And then, in an instant, he showed his extreme martial arts and came to a dark place.

Ye Chen holds the evil sword in his hand and cuts it out with one sword! Kill the sky sword formula to the extreme!

"Who sent you after staring at me for so long?"

Seeing that a sword is about to break open, ye Chen's pupil suddenly shrinks and takes back the sword!

Because it is not other people who have been staring at him in the dark, it is the servant girl beside the mysterious woman.

If ye Chen remembers correctly, it should be called Bai'er!

"How could it be you?"

In the air, the afterwave of evil spirit rippled, two eyes staring.

White son secretly frightened, she knows Ye Chen is very strong, but never thought so strong!

I'm still found out that I'm hiding by such means!

The key just a sword, let her heart produce shake.

However, Bai'er, after all, followed Wei Ying to see the world. He was sober and said, "Mr. Ye, it's the Lord of the palace who came to me."

Ye Chen Mou son tiny Mi: "come to do what?"

Bai'er hesitated for a few seconds and then said, "the palace master asked me to tell you that Xiao Huang is still alive and there is no accident."

"As for other things, I can't disclose them."

Ye Chen hears this sentence, Mou son one joy!

He knows the secret of the mysterious woman!

Training speed is extremely terrible!

No one can do this in the whole kingdom of God!

In addition to Tianji daoren, this mysterious woman may indeed know!

Since the other side said that Xiaohuang was ok, it was really OK!

This has to be said to be good news!

"Miss Bai'er, do you know where Xiaohuang is now?" Ye Chen said politely.

White son shakes his head: "the palace Lord let me convey this sentence, as for the whereabouts of Xiao Huang, I do not know."

"The second thing is, if Mr. Ye wants to go to LiuYao mountain, it's better not now."

"Bai'er has a channel information network in the whole kingdom of God. Not long ago, the Taoist of Tianji was ready to break the heavenly mechanism. Even if you go, you can't see the Taoist Tianji."

"It's better to improve our strength with peace of mind."

"Bai Er really doesn't want the palace master to run for you day and night."

The last sentence is indeed Bai'er's heart.

She hopes Ye Chen is strong in the bottom of her heart!

Strong enough not to need the protection of the palace master!

Otherwise, it is not a good thing that the palace master's Revenge road is mixed with the love between men and women.

"Mr. Ye, I will bring it here, and I will leave."

With that, Bai Er did not wait for ye Chen to react, and then turned into a light and dissipated between heaven and earth.

She is very clear, if you want to help the palace master stare at Ye Chen, the distance is still too close.

Ye Chen looks at the direction of Bai'er's going away and murmurs: "what kind of person is the palace master in Bai'er's mouth? Why do you want to help yourself?"

"There are people who are selfless and dedicated in the kingdom of God

"The road of martial arts should be extremely dangerous?"

Ye Chen shakes his head, no longer think much, return to the original place.

.....

In the next few days, ye Chen chose to close down.

He's understanding the secret of killing Heaven Sword!

At present, this is the best way for ye Chen to enhance his strength!

Although Tianlong eight gods sound is also strong, but the difficulty of upgrading is too big!

Now, the blue dragon has come out, and the palace of emperor yuan has come to the surface. Although he has defeated Yu Sheng for the time being, who knows whether the cold family will send a stronger warrior?

He has to prepare for the worst, so time is precious and can't be wasted!

At this time, in a chamber of secrets, ye Chen's eyes are closed, and his body is surrounded by sword!

The spirit of sword is accompanied by the breath of destroying Shinto!

All of a sudden, ye Chen opened his eyes. In his eyes, the cold light flashed. The next moment, his body flashed, and he appeared at the end of the sky. Only here, could ye Chen exert his sword formula to his heart's content without worrying about spreading it around.

He turned his wrist and held the sword. With blood and light, he waved the sword with endless weight like wind!

Ye Chen learned the formula of killing the Heaven Sword in the battle with Zhao Tian. Although he was a successful beginner by virtue of his martial arts talent and savvy against the heaven, he did not calm down to study it carefully, but there were still many shortcomings.

What ye Chen has done these days is to speculate!

He repeated the details of the battle with Zhao Tian, the guardian, for countless times!

Now, he is confirming his conjecture and fusing mietian sword formula with master fengqingyang's six Dao sword!

Rolling sword meaning, whistling out, the sword light is like a galaxy of stars all over the sky, winding around Ye Chen, shuttling in the void! The sword light flows faster and faster. Ye Chen, who is trapped in the selflessness, has not found out that his emptiness has already completely disappeared into darkness. At this time, in the darkness, there are wisps of brilliance!

Where does the light come from?

That is the brilliance leaked from the outside world and the upper world!

In other words, ye Chen's sword skill is not only beyond the limit of the kingdom of God, but also has the sign that he can touch the outer space barrier!

Why is there hardly any existence beyond the level of God Emperor in the kingdom of God?

Naturally, it's hard to produce such a top-level warrior because of the martial arts level of the plane. However, the most important thing is that this kind of existence will be forced to fly up to the upper bound and beyond by the force of plane.

At present, ye Chen's attack is getting closer and closer to the upper bound and the foreign level! What's more, there are more and more lights in the dark, and ye Chen's swordsmanship is becoming stronger and stronger!

I don't know how long it took before ye Chen finally stopped waving his sword. He was wet with sweat and panted for breath. He used the formula of mietian sword one after another. Even with Ye Chen's constitution, he felt that he couldn't bear it.

But at this time, ye Chen's face is full of ecstasy!

It's a success!

He has taken the field of mietian sword formula to a further step!

Now, even if he faces xuanjiyue's separation again, he is confident that he will defeat him without the help of three reincarnation xuanbei forces!

Moreover, as the spirit of the sword said, his understanding of the God of destruction also improved a lot.

This time, ye Chen is more curious about the origin of the sword soul. The formula of mietian sword gives him the feeling that it is complementary to the destruction Shinto, as if it is tailored for the destruction Shinto!

A sword formula specially completed for the destruction Shinto, one of the original three ways?

Its value can be imagined!

Even in the outer world and the upper boundary, it is not something that ordinary people can take out!

With his accomplishments in destroying the Shinto, when the sword soul wakes up, he can try to untie the second chain.

Ye Chen took a breath. This time, he waved his sword for a million times. He didn't stop for a moment. He felt tired both physically and mentally.

Chapter 3102

Practice, pay attention to the combination of work and rest. Although there are still threats from qingzhulong, Mingdian, Tiandao palace and even the cold family, if you force yourself too much, it will backfire. Now you should have a rest.

Ye Chen returns to the samsara cemetery.

Now the samsara cemetery seems a little quiet.

It looks lonely.

Ye Chen looks at a piece of stone steles with endless vicissitudes, quite feeling.

If he guessed correctly, Tiandao Palace should be at least trapped in the forty-nine great powers to remove the king of ice sword.

In other words, half of the kingdom of God interface can be trapped.

Is the rest of the power in the heavenly palace, or in other words, the upper realm and beyond?

This is the unknown.

At the time of Ye Chen's feeling, the whole samsara cemetery suddenly vibrated!

Moreover, two of them are shining with dazzling light!

Flash at the same time!

This feeling, ye Chen is very familiar with!

It represents the state of quick qualification to trigger!

Are there two great powers waking up?

This is a great good thing for ye Chen!

And ye Chen found a very different existence.

There is a red light between the two stone tablets!

Can these two great powers wake up at the same time and have a great connection?

Husband and wife?

Or father and son?

Ye Chen looks forward to it.

But at this time, a strong uneasiness swept through the whole body! Ye Chen's smile suddenly became stiff, and his face changed!

Hurry back to the outside world!

Because, a terrible evil Qi, startled the sky, even in different gods, can feel the discomfort brought by this evil Qi!

Among them, the palest one is the warrior of the seventh kingdom!

Because, this demon breath, it is from somewhere in the seventh kingdom, ah!

.....

All of a sudden, there was a huge wave in the sea, like the seventh day!

A figure, from the dark deep sea, slowly floating, in the sky, lightning and thunder, with the appearance of this figure, as if the end of the world!

A man with purple eyes, coldly suspended above the sea, his mouth, with a trace of if there is no sneer, but in the purple eyes, but there is a complex color.

"Finally, we have recovered our strength..."

The purple eyed man whispered to himself, and then he said with a smile: "I thought that as long as you recover your strength as soon as possible, you must be the boy named Ye. It's a pity that your progress is faster than your own recovery."

"But..."

In the man's purple eyes, a cold light suddenly appeared: "even so, ye Chen, you still can't stop me, my demon family will conquer the whole Seven Kingdoms!"

Ye Chen did not hesitate to tear open the space crack, toward the evil gas to send out the place to go!

Ye Chen, who flies through the void, is full of dignified color. The evil Qi gives him a feeling, even more terrifying than kongchi in the heaven and God realm!

That is not only the power of cultivation, but also the power of blood!

Kongchi itself is a high-level demon family transformed by the demons and insects. It is even more powerful than kongchi. Among the seven divine kingdoms, there is only the ghost Ye Chen met!

At the same time, ye Chen can't help feeling helpless. It seems that even if he wants to relax, even heaven seems to be forcing him to fight and become stronger!

In a flash, ye Chen came to the sea and saw the figure standing on the sea.

On his face, can't help but show a trace of unexpected color: "is it you?"

The man in front of him was Jinchang, the seventh God genius he had seen in Shenyuan secret land!

Of course, Jinchang was no longer himself.

On that day, after witnessing Ye Chen's killing Kong Xian in the Shenyuan secret state, Jinchang was afraid to return to the seventh divine Kingdom and be revenged by Ye Chen. Under his bewilderment, he chose to take refuge in the spirit of the ancient devil and become a demon worshiper!

In fact, he is totally a villain's heart to measure gentleman's belly, he is not worth Ye Chen to target.

However, he took refuge in the ghost, which made his spirit disappear and was occupied by the ancient devil.

This "Jinchang" smell speech, unexpectedly is to Ye Chen cold smile way: "Ye childe, long time no see."

Ye Chen said faintly: "yes, long time no see. I almost died in your hands that day in the Zhenshen tower. Yes? I've been hiding for so long, and I'm not hiding now? "

Ye Chen's tone, although indifferent, but the eyes are not relaxed.

This demon soul is a real God state existence, and, to him, it is even more dangerous than Zhao Tian!

Today's Ye Chen, although his strength has been improved, he can't guarantee that he will certainly be able to kill this ancient demon without the inspiration of the sword soul's deep sleep and reincarnation. "Hide?"

The evil spirit said with a smile: "now, I have recovered a lot of strength, why hide?"

His eyes suddenly became cold and said, "it's not easy to wait for a rabbit to wait for a tree."? Now, you're on your own, aren't you? Ye Chen, kill you, no one has a chance to stop my demon invasion!

Boy, I advise you to be smart, don't do meaningless struggle any more. With your talent, join me in the demon clan, and even get the blood of the royal family! "

Ye Chen turned his wrist and held the evil sword. The blade pointed at the demon and said calmly, "have you ever thought that if you are waiting for a lion or a dragon instead of a rabbit?"

A strong evil spirit, such as a tornado swept the world, ye Chen did not hesitate to use the body of the demon!

In his eyes, the killing machine surged: "then you will find that you are not a hunter, but a prey! As for joining the demon family? Ha ha, I have no interest in being prey to others

The demon spirit hears the speech, the complexion is completely cool down, what a proud, ungrateful boy!

The blood of the demon clan is more powerful than human beings!

How could he be refused by this boy? What's more, they insult the demon clan to prey?

They are extraterritorial demons!

Born to stand in the position of predator, devour hundreds of millions of creatures and destroy the existence of terror on many planes!

He also wanted to say something, but ye Chen did not give him this opportunity! All of a sudden!

Ye Chen knew for a long time that there would be a war between him and the ancient devil!

What's more, this war almost determines the fate of Terrans! In that case, what else can be said?

It is impossible for ye Chen to betray human beings!

At the next moment, ye Chen was surrounded by seven blood lights. His power of breaking the sky was surging in his body. His figure flashed, and he came to the body of the demon soul. On the long sword, the concise God of destruction flowed over the blade!

Endless wind swept!

Cut it out with one sword!

Chapter 3103

The whole seventh kingdom of God was trembling with Ye Chen's sword. The wind and cloud changed, and the sky broke!

Ye Chen under the body of the ocean, there is a huge whirlpool, as if there is an invisible hand, will stir the world!

One sword will shake the whole world, which is no longer a metaphor, but a reality!

Originally, the ghost with a sneer on his face, after seeing ye Chen's hand, the smile solidified!

This sword, gave him an extremely dangerous feeling!

This is a sword that can kill the existence of heaven and God!

His hands were holding a dark purple sword, one crossed, and he blocked the black sword falling from his head, just like a huge mountain that could collapse the earth!

A bang, space fragmentation, powerful energy crazy collision, it seems, almost boundless ocean, actually in the aftershock, instantly evaporated!

The body of the demon soul flew back and forth in an instant. It hit the bottom of the sea and hit the bottom of the sea with a very deep hole!

Ye Chen eyebrow micro Cu, swept his sword arm, his arm is a deep visible bone scar!

Ye Chen exerts a blow of mietian Jian Jue, but he doesn't crush the ghost completely?

In that cave, suddenly came out an inhuman roar, a dark purple shadow, suddenly flashed, rushed to Ye Chen, at this time, he has become the body, a pair of arms, at this time has been broken, at the same time, the body's bones, viscera, there are a lot of broken!

However, it is worthy of a high rank demon clan, so wounded, the demon was not too much affected!

Behind it, there are three tentacles holding three different weapons, namely Epee, spear and shield!

The demon opened his mouth full of sharp teeth and said angrily, "damn human beings, do you know what kind of status is my God? How dare you hurt me with your dirty hands? My Lord, I must tear you to pieces

At the next moment, the evil spirit was so overwhelming that it almost dyed the sky with a piece of ink. The sun's brilliance covered the sky. The warriors of the seventh kingdom seemed to fall into the night!

"Three treasures of evil spirit!"

A bloody, primitive, cruel martial spirit, from behind the demon soul, above the three tentacles entangled weapons, surging surging, that is the martial arts of the demon clan!

The soul of the ancient devil has the ability to use three different weapons at the same time. Moreover, no matter the sword, gun or shield, they all tend to be perfect. With Ye Chen's level of martial arts, it is impossible to find the flaw in the opponent's hand for a while!

The spear is like black lightning that breaks through the sky. The Epee is like a collapsed pillar of heaven. The last shield is the essence of the attack of the three treasures of evil spirit!

This shield, when it hits Ye Chen, actually blocks the route of Ye Chen's counterattack at the same time!

And each of these three attacks has the terror power to kill the warriors in the heaven God realm!

The more the tentacles of the demon clan, the better, because the tentacles can be fused. After fusion, the strength will be superimposed!

The real powerful demons have only a few tentacles to cultivate, and the strength, speed and other aspects of these tentacles are beyond imagination!

Low level demons, even want to refine tentacles, can not do it!

This ancient demon clan, too strong! Combat experience, too rich!

He didn't get upset by Ye Chen's terrible sword. Instead, he immediately launched a fierce counterattack!

The old devil's mouth raised a trace of sarcastic smile. The three treasures combo was his famous skill in the war between man and devil. Countless strong men of human race died under his move. Moreover, during the seal years, he constantly polished this martial art!

Now he has confidence, relying on this blow, hit Ye Chen hard!

Ye Chen didn't even have the chance to escape!

But, the next moment, the amazing scene, appeared!

Ye Chen, in the face of the most powerful attack, he didn't mean to dodge at all. Instead, he held the evil sword in his hands and drank a lot. His whole body almost surpassed all the great power. He rushed out and slashed down the big shield in front of him!

The demon soul purple eyes shrink, he knows Ye Chen's nearly immortal vitality, but the battle has just begun, so he has to eat his three most powerful attacks?

Ha ha

On the contrary, it's a matter of mind!

Although his vitality is not as rebellious as ye Chen, he has a certain degree of self-confidence!

The demons are famous for their strong body!

And he is a very noble existence in the blood of the demons! The power of blood is even more rebellious!

However, what he didn't expect was that ye Chen's sword was too fast!

As soon as his epee and spear did not fall on Ye Chen, his sword fell on his shield!

The breath of destruction is surging. This extremely heavy sword actually cuts the shield out of a deep crack. The powerful force penetrates the shield and impacts the body of the demon soul!"Poof!"

The demon soul spat out a big mouthful of blood again. The attack of three consecutive attacks was actually because of Ye Chen's sword, which disintegrated!

How could this happen?

In the heart of the demon soul, there is a trace of ominous premonition!

Ye Chen said faintly, "are you very strange now? Hehe, from the first sword I cut, it has been arranged. In the first sword, your arms are broken. Not only that, but also the three ribs on your left side and some viscera are smashed. Even if you are strong enough, I still catch a flaw in the big shield used by your left tentacle! "

He suddenly chuckled and said: "and this second sword, it is pushing you into my layout, the ghost into my game, you have been defeated!"

In the purple eyes of the demon soul, although it is a crazy flash, it is hard to bite his teeth and say:
"bluff, before long, I will completely recover!"

"Recovery?"

Ye Chen sneered: "ridiculous, do you still think that you have a chance to recover?"

Voice a fall, ye Chen again hand!

And this time, the target of this shot is also the weakest point after the damage caused by the last sword!

The spirit of a bite of teeth, again display the three magic evil spirit to resist, but after a block, ushered in is countless times of resistance!

This time, ye Chen's attack completely suppressed the trembling demons, which made countless powerful people fear and tremble in ancient times!

This is the rhythm of the battle!

Belong to the rhythm of Ye Chen!

A little bit of adverse, will be under the control of Ye Chen, rolling snowball general, continue to enlarge!

The face of the demon soul is totally ugly. If you can't break the rhythm, you will be suppressed to death by Ye Chen!

Chapter 3104

He didn't think that even in ancient times, when people and demons were fighting each other, the fighting realm that few people could really control was understood by the young people in their twenties?

Is this still human?

They are more monstrous than the demons!

The sword light flashed, and the purple blood rain sprinkled. Ye Chen's long sword gouged out a hole in the demon's abdomen, and his intestines would flow out. The most painful thing for the demon soul is that ye Chen's attack contains a sense of destruction. Any injury caused by Ye Chen's attack is extremely slow!

What about ye Chen?

Under the condition of the body of the demon and the reincarnation blood, the most terrible injuries are almost instantly recovered!

How do you do it?

It's hopeless!

The two sides keep fighting each other. It's a hundred moves, a thousand moves, ten thousand moves!

At this time, the demon soul was in a mess. The big shield was completely chopped by Ye Chen, and the three tentacles of the demon soul were also broken two times, and the whole body was full of ferocious wounds!

He gasped heavily, purple eyes staring at Ye Chen, full of incredible color, and a trace of fear!

As a god state being, he was completely suppressed by Ye Chen?

No one will believe it, right?

Ye Chen coldly looks at the demon soul in front of him. The body of the heavenly demon is about to be unable to maintain, but ye Chen knows that the winner is himself!

But suddenly, ye Chen's eyes, slightly changed.

The ghost in a desperate situation suddenly calmed down.

He looked at Ye Chen and said with a smile, "you are really strong. I lost."

"Why, you ask for mercy?"

Ye Chen eyebrow tip a pick way: "you won't think, I will let you go?"

Human beings and demons are irreconcilable!

The ghost light way: "ha ha, ye Chen, do you think you are not afraid of death in the world?"

In this moment, it seems that the devil's head and soul have died, and some of them are aware of it!

Do you know how to look at the ghost land? Do you know how eager I am for a land to live safely?

Originally, the emperor yuan hall told us that this would become our home, but... "

On his face, he suddenly appeared madness and anger, and growled: "but you, the high-ranking human beings, have robbed our home from our hands! You think I'm afraid of death? In order to recapture this once home, death is nothing

"Ye Chen, I didn't want to defeat you from the beginning."

He said with a strange smile, "all I have to do is to hold you back."

As soon as the voice fell, the spirit of the devil was all over the body, and its blood was burning fast!

"Take away your home?"

Ye Chen said expressionless: "maybe you demons came to this land first, but this represents that you are the master of this land?"

"But we human beings have never been aggressors, but what about the heavenly demons? It's just that we treat human beings as food, and we have no intention to live together in this land. To blame, we blame you demons who started the war! "

The demon's face showed a ferocious smile and roared wildly at Ye Chen: "ha ha ha ha, you lowly and inferior race, still want to be equal with us and other foreign demons?"

In a moment, you will be swallowed up by us! Heaven demons turn into blood

At the next moment, his whole body burst into pieces, rolling purple blood, turning into a huge whirlpool of blood, which surrounded Ye Chen.

In the whirlpool of blood, a face outlined by blood looms. The face smiles at Ye Chen and says: "Ye Chen, you are really strong. Even I am not your opponent. However, do you think that you can save the whole kingdom of God only by your strength? Do you think you are the reincarnation master who once saved countless creatures? "

"You are not!"

Ye Chen looked at the bloody whirlpool around him and could not help but change his complexion. The demon had sacrificed himself directly with his own flesh and displayed this secret method!

There's something strange about the smell here.

Because some of them are like the numerous altars related to the emperor yuan hall that I saw not long ago!

This big array of demons turning into blood is obviously a method to trap the enemy, and it is also a very special secret method. Even if he has the spirit of destroying God and the sound of the eight gods of Tianlong, he may not be able to break through the array in a short time. However, what makes Ye Chen most concerned is why does the demon do this?

Why is he willing to sacrifice his life rather than to trap himself here?

Contact the devil's action before!

The more you think about it, the more gloomy Ye Chen looks.

He murmured, and the power to destroy Shinto was gathered on the long sword. He used the formula of mietian sword, and cut the bloody whirlpool with a fierce sword! Sword light is rampant, huge force is surging, sharp and sharp!

This sword can be called the acme. Even the average warrior in the middle of the heaven God realm can't exert such a powerful attack!

However, the sword, which was smashed by the void, fell on the bloody whirlpool, but only cut out a tiny crack, and, in the next moment, it quickly closed!

"Damn it!"

Ye Chen's eyes coagulate. If he goes on like this, it will take him about half an hour to get out. However, ye Chen has a very bad premonition. This half hour is related to life and death!

Not his life and death alone, but the life and death of the whole seventh kingdom!

After ye Chen's eyes flickered for a while, the next moment, he lifted the body of the heavenly demon, drank violently, facing the bloody whirlpool, he successively put out his sword, and the loud noise was ceaseless, and the purple blood was flowing. The ferocious face of the demon loomed in the whirlpool.

Burst out bursts of laughter, even as if they are about to die, do not care, not only that, but also extremely happy appearance!

What is this ghost going to do?

At this moment, an extremely strong spatial fluctuation swept across the seven kingdoms!

Ye Chen pupil shrinks, what is this?

An extreme sense of crisis came to mind.

.....

At the same time, the dark sea.

Wei Ying, recovering from her injury, suddenly opened her eyes.

Her face was still a little pale, but she was much better.

The reason why she stopped practicing was because she found that the spatial fluctuation here was extremely strong.

The dark sea was rolling with waves after waves, the smell of chaos, and the threat made her extremely uncomfortable.

Key, she found that the surrounding came one after another shouts.

It seems to be welcoming something.

"Is there something big going on?"

"At this special time, I don't know where Xiaohuang is in the dark sea area?"

Chapter 3106

However, what makes Ye Chen feel a little uncomfortable is that the demon seems to be the same as the ghost. After seeing him, he has no fear at all, and the color of chaos?

"Naturally, I want to avenge him, but..."

On the face of the demon spirit, a strange, palpitating smile appeared: "revenge, do you have to kill? Ha ha, ye Chen, you should care more about your woman than you do, friend? "

This demon soul, the color of resentment in his eyes, ran up endlessly and said, "Ye Chen! I will take revenge for my father, but let your woman, your school, all the people you care about die under my demon!

Soon, all this will come true. Ha ha, ye Chen, I can't wait to enjoy your heartbreaking scene? "

Suddenly, he shrugged helplessly and said, "unfortunately, I can't wait for that day."

The next moment, an extremely irascible breath roared out of the demon's body!

This demon, unexpectedly, wants to explode, moreover, is a trace of hesitation, does not have the self explosion!

Naturally, the target of his self explosion is not ye Chen. Although the power of the self explosion of the heaven God realm is extremely terrifying, the demon knows that it is far from enough to kill Ye Chen.

So, why did he blow himself up?

Because, this demon self explodes, the target of attack is not ye Chen, but the foreign seal at the end of the dome that day!

This seal is on the verge of collapse. It's hard to bear the power of the self explosion of the five layers of heaven in the heaven God realm!

"Self explosion?"

Ye Chen's face sank. In front of him, he wants to blow himself up?

Die!

The next moment, a cold sword light, whistling out, towards the foreign demons, swept away!

That day, the devil looked at Ye Chen, and there was a sarcastic smile in the corner of his mouth. At this moment, a purple light flew out of his body and turned into a Amethyst skeleton.

Ye Chen's eyes fluctuate violently. This Amethyst skeleton is a magic weapon comparable to a Taoist weapon!

It exudes a strong atmosphere of ancient times. It must be the treasure that the ghost possessed since ancient times?

Yes!

The most shocking thing for ye Chen is that the ghost who owns this powerful magic weapon has not left it around to deal with himself. Instead, he gives the magic weapon to the demon?

Its purpose, unexpectedly, is only to block an attack before its self explosion!!!

For a while, even ye Chen was shocked by the courage of the demons

This is a kind of death at home, a kind of spirit that will not hesitate for the sake of race.

No wonder, in ancient times, even with the help of the protoss, human beings still paid such a heavy price to drive the demons out of this world.

This is absolutely not an existence that can be easily overcome!

Amethyst skeleton light is big, block Ye Chen's sword, but, ye Chen has only one sword?

In a twinkling of an eye, ye Chen's arm was dancing wildly and chopped out dozens of swords!!!

Even if this ancient magic weapon is strong enough to resist the attack of Ye Chen's hundreds of warriors comparable to the heaven God realm, it can't be done!

On the Amethyst skeleton, there are many cracks. The hundreds of sword lights break through the purple light's defense. In an instant, the figure of the demon is submerged.

But

At this moment, the terrifying and irritable energy wave, but first sword light step, from the devil's body, whistling out, instantly smashed the demon's flesh and blood body, even the spirit, all for it.

And that strong explosive energy, instantly swept the whole world!

The green Rune in the sky flashed wildly, and countless cracks filled it. In the strong light caused by the explosion, ye Chen was extremely ugly.

The next moment, boom, the whole seventh kingdom sounded a huge sound!

Countless people in the kingdom of God, even the warriors in the land of Lingwu, all looked at the direction of the sound with horror.

At this time, under the impact of the power of the self explosion of demons, ye Chen, whose body is covered with bloodstains, does not care about his injuries. Instead, he stares at a dark and huge crack in the sky with incomparably deep eyes!

In the crevice, came countless tyrannical roars, the breath of extraterritorial demons, in which quickly turn over and surge!

At this time, two huge purple claws suddenly stretched out the crack and grasped the edge of the crack. It seemed that they were trying to expand the crack!

All of a sudden, a powerful spirit breath suddenly roars out of Ye Chen's body, and behind it, a kylin shadow suddenly emerges!

Ye Chen has the spirit blood of Qilin, and the Kirin clan, in the world of heaven and earth, is regarded as the existence of benevolent beast. The most powerful one is the power to seal the town. It has a strong restraining power against the demons and evil spirits!

Ye Chen has been rarely used, but it does not mean that he is weak!

At the next moment, ye Chen forced a drop of blood essence to shoot out. Three tablets of reincarnation xuanbei swirled around his body, and he suddenly whispered: "kylin blood, reincarnation

blood, three stele suppression, open it to me!" Burning stele, wind stele and dust stele send out three rays of light to the kylin shadow!

Kylin virtual shadow body expanded a little bit!

The breath is amazing!

Ye Chen is generally not qualified to use the three samsara xuanbei, but the three samsara xuanbei is obviously conscious!

Know when they should abandon everything, for ye Chen used!

The kylin shadow behind him roars, and bursts of green light roar out of the shadow. Under the control of Ye Chen, it condenses into a huge Rune and goes towards the crack in the sky!

With the green light, the powerful unicorn's power has temporarily sealed this broken sky!

"Roar

Originally was struggling to tear up the cracks of the demon clan, issued a unwilling and angry roar, but had to return to the deep and dark after the crack.

At this time, ye Chen breathed a sigh of relief. The seal was not completely broken, so he was able to make up for the damage with the strength of the Kirin. However, he knew that his Kirin power was not strong enough. At most, he could only maintain the seal for a period of time.

But what can we do during this period?

His face is extremely heavy. Today's land of Lingwu and Shenguo are far from ready to fight against foreign demons!

But at this time, an old voice sounded in his ear!

The appearance of this voice makes Ye Chen burst into tears in an instant!

Because it's not someone else!

It's his dead grandfather!

Although separated by more than ten years, but for ye Chen, still so familiar!

"How could How could that be possible. "

Ye Chen thought it was his own auditory hallucination!

But the sound kept ringing!

"Ye Chen, it doesn't matter whether I am alive or not. Now is not the time to investigate. If you want to delay the breaking of this seal, there is only one way."

Ye Chen was stunned when he heard the speech. Although he wanted to ask many questions, he still suppressed the shock in his heart and said, "grandfather, what can I do?"

Old voice, with a trace of deep coagulation: "move mountains and fill the sea!"

Chapter 3107

"Moving mountains and reclaiming the sea?"

Ye Chen is a little puzzled. What's the relationship between moving mountains and filling the sea and delaying the seal breaking?

The voice of the old man continued: "do you know why the border between the seven kingdoms of God and the outside world is this Wuwei sea?"

Ye Chen's eyes flicker slightly. It's really a little strange. The Seven Sacred kingdoms are in seven spaces, which should not be connected?

The voice continued: "that's because the so-called Wuwang sea, in fact, flows out of the dark sea. The existence of the Wuwang sea itself is a kind of thing that strengthens the connection between the outside world and the kingdom of God. If you fill in the Wuwang sea, it will be more difficult for extraterritorial demons to invade."

"What's more, the mountains used for sea reclamation are not ordinary rocks. Ordinary rocks can't resist the erosion of Wuwei sea at all!"

Ye Chen said, "what mountain do you want to use?"

The voice continued: "there is a special mountain in the kingdom of God, which is called Wuxing Fumo mountain. There, there is a kind of natural array formed by the huge mountains with five attributes, which has a very strong restraining effect on the evil Qi. If you can move the whole mountain range of five elements to this place and fill up the Wuwu sea, you must be able to win a lot of time for the kingdom of God and the people!"

Ye Chen hears the speech, in the eye divine light is big!

The five elements Fu Mo mountain, as long as ten thousand li, moves the whole mountain range to the Wuwu sea at the end of the heaven and earth. It sounds fantastic. It is impossible to achieve the existence of the heaven God realm, right?

If it is true, someone can complete this feat, then, it is absolutely enough to be recorded in the history books. There is no one before, no one after!

Now, ye Chen has made up his mind to move mountains and fill the sea!

He is not confident, but he knows that he has to do it!

Otherwise, the only thing waiting for the Kingdom and the Terran is to perish!

At the next moment, ye Chen's figure flashed, and he appeared in front of a mountain range. This mountain range, said to be a mountain range, is actually five giant mountains in one!

These five huge mountains are enough to be called mountains, because they are too big!

Single seat, are in the seven kingdoms, are enough to row on the number of behemoths!

What's more, ye Chen can feel that the five elements Fu Mo mountain is not only big, but also the rocks on it are extremely heavy!

Don't say it's five, it's just one. If you want to carry it, it's very difficult!

Not to mention moving it to the Wuwei sea at the end of heaven and earth

These five mountains will fill up the sea. It looks like a fable in the sky. If this is not from my grandfather's mouth, I'm afraid even ye Chen would not believe it.

Ye Chen takes a deep breath, the evil sword in his hand, the blood light is turbulent, and the destruction Shinto surges out!

If you want to move mountains, the first step is to cut off the five mountains together!

I'm afraid Ye Chen is the only one who can do this in a short time.

At the next moment, a strong sword light appeared between heaven and earth, just like a thunderbolt. In an instant, it cut through the roots of the five huge mountains!

A frightening scene appeared!

At the bottom of the mountain, which stretches for thousands of miles, there is a neat and smooth fracture trace at the same time!

In front of Ye Chen's sword light, this extremely hard rock is just like tofu

All of a sudden, the earth is a concussion, ye Chen is directly with extremely fast speed, fell from the air, smashed into the earth's surface.

He's on the surface of the earth, and he's going through it very quickly, and he's coming to the center of the bottom of the five elements mountain range.

These five mountains, together into one, ye Chen is actually to carry the five mountains together!

Now, even his grandfather was shocked

Even if ordinary people want to move mountains, they will first cut off these five mountains and move them one by one?

What about ye Chen?

Five giant mountains, move together!

It's the hell difficulty of Hell difficulty!

However, ye Chen knows that the force of suppression is the most powerful when the five elements of Fumo mountain are linked together. However, if a mountain has to be moved, even with his speed, he may not be able to move the five element mountain to the wuwuwuhai sea in a short time!

If ye Chen is forced to lift five huge mountains, even if ye Chen's physique and strength are extremely dangerous, a bad one may be crushed by the weight of the huge mountain, crushing the whole body's bones and meridians. With Ye Chen's vitality, although he will not die, he will also be seriously injured!

In the case of demon invasion, seriously injured?

That's no different from death.

But! Ye Chen would rather risk his life than take the whole kingdom of God, the land of Lingwu, and the future of the Terrans!

"Red dust pulse, Lingfeng pulse, open!"

"Tianlong eight gods sound! Oh

His arm muscles and bones vibrated, an ancient syllable, with a Hongmeng breath, immediately from his bones to convey.

Under the shock of Hongmeng ancient sound, ye Chen's whole body exudes a very strong force!

Each body resonates with the ancient Hongmeng sound, which resonates and enlivens thoroughly. At the next moment, ye Chen held his hands at the bottom of the mountain and exhaled!

It can't be lifted at all!

The strong God can move mountains and destroy mountains, but ye Chen's mountain is not so easy now!

"Heaven demon body, open!"

When the body of the demon is launched, it is extremely powerful and powerful. Its muscles are bulging like iron and steel. The blue veins are surging. The power of breaking the sky is surging in the blood. The formula of burning blood turns to the extreme. Seven blood lights shine on the body surface!

"Ah, ah, ah, ah

Ye Chen roared, struggling to support the five elements of Fu Mo mountain, to the high altitude!

Earth shaking scene, appeared!

Between heaven and earth, a man, carrying five huge mountains, stood in the sky, step by step, toward the end of the world!

Every step, in the void, leaving a very clear footprint!

Countless warriors of the kingdom of God witnessed this scene.

I don't know why they have tears on their faces.

Miracle, is this a miracle?

However, what moved them was not ye Chen's incomparable power.

However, they know that ye Chen is carrying not only five giant mountains, but also the future of all the Terrans!!!

How can we not be moved when we shoulder the future of the masses with our own strength?

Iron heart, all want to melt for it!

Originally, countless warriors felt the breath of seal breaking, and the foreign demons were about to invade. They were already in great confusion. The whole kingdom of God was in chaos!

However, when they saw the figure of the man who carried the five elements mountain and set foot on the sky, the hearts of the people all calmed down.

No matter what danger, crisis, Terran, there are still people standing in front of them, right!

As once the reincarnation Lord!

Ye Chen is the pillar of the whole human race and soul!

As long as ye Chen doesn't fall, Terrans will never give up and never bow down!!!

For a moment, all the warriors of the whole kingdom knelt down to the figure who moved away from the mountain in the sky, and knelt down with incomparable piety.

Ye Chen's posture, under the five elements Fu Magic Mountain, seems to be extremely small, but in the eyes of the world, ye Chen is a giant.

The mighty giant!

This scene of moving mountains and setting foot on the sky will be remembered forever!

Not only they, but also their children and grandchildren, will be remembered forever!

Chapter 3108

At this time, ye Chen every step, seems to have to fight to the strength of the whole body, his arms, slightly trembling, the whole body's meridians, flesh and blood, under the heavy pressure, constantly burst!

The five elements mount Fumo is too heavy!

If it is not for yourself, activate the physical state to the extreme!

There is no doubt that you will die!

Ye Chen is biting his teeth. At this time, he is burning the blood essence in his body. The whole person is on the edge of being unable to support!

Can, ye Chen's eyes have never wavered!

His whole mind is focused on moving mountains!

In his mind, there is only one idea. No matter what, he wants to move the five elements to Wuwei sea!

Obviously, ye Chen is about to fall, but ye Chen is going farther and farther, the faster and faster.

As if invisible, there is a pair of hands behind Ye Chen pushing him forward!

His hands are bleeding!

The whole body seems to be dyed red with blood!

Shocking to the extreme!

At the same time, the samsara cemetery.

Two stone tablets with stars twinkled.

Brilliant.

In a flash, the two figures actually condensed from the front of the stone tablet.

One man and one woman.

The man is a big man with a thick beard and a huge box behind him.

There are runes on the box.

The light of the runes is around.

There is a faint ring of thunder and lightning.

As if What terrible existence is sealed in the box!

And a woman appeared beside the man.

The woman is dressed in red, tall and tall. If her shoulders are cut into waistline, she is extremely restrained. Although she has some vicissitudes on her face, she still gives a sense of charm.

Even with a hint of nobility.

The woman holds the disc in her hand. On the disc, there are Ancient Runes, which are extremely mysterious.

With a gentle wave of the woman's hand, the picture of Ye Chen carrying the mountain appeared in front of them.

The shock of the picture, let the woman's eyes slightly surprised.

"This kid, it seems, is not bad."

The man with a beard snorted coldly, his hands were behind him, and his dignity was distributed: "what's good about it? It's just chaos. I can seal the heaven God state and the devil at his age."

The beautiful eyes of a woman in red: "I think he's good, it's good. Do you have any objection?"

At the next moment, the man with a beard dissipated his dignity, and a smile appeared at the corner of his mouth. He changed a magic fan in his hand and incited the girl in red: "madam, you are right. I suddenly feel that this boy is also very good. He has the style of my time."

"Look at his posture of carrying the mountain. This is a man of great fortitude. There must be great achievements in the future."

"Sure enough, what the ancients said is right. Listening to his wife's words is better than reading ten years of books."

"Madam, you are so far sighted. I am..."

The words have not finished, the woman in red then white one eye Beard Man: "you this divine idea, and your real body a temper."

"Don't you fear that your friends who kill demons will laugh at you, madam?"

The facial expression of the man with whiskers is dignified in an instant. Stepping out, he turns the ancient Rune all over his body, and his momentum breaks out! Word by word: "I am not afraid of my wife, but I respect my wife! How dare they speak more

The woman in red shook her head and looked at Ye Chen with a little deep meaning, and then said, "well, let's go back first, and this boy will also observe."

Soon, the two figures returned to the stone tablet.

And two lines of characters appeared on the two steles.

It's unfair to break the world.

Kill evil spirits in the world.

.....

At the same time, outside the tomb of samsara.

Finally, under the gaze of countless pairs of eyes, ye Chen carried five huge mountains and came to the end of this world!

He looked down at the fog and the cold sea under his feet!

It has been nearly half an hour since Ye Chen carried the mountain and set foot on the sky to reach the Wuwang sea. The seal made up by the power of the unicorn began to break quickly again, and the roar of the demons rang through the world!

The purple claws began to tear the edge of the crack again.

Ye Chen coldly glanced at the huge claw. At the next moment, he pushed his hands and pushed down the five elements of Fu Mo mountain on his shoulder towards the Wuwei sea!

I saw, the five color giant mountain, actually is blooming out the gorgeous light, mercilessly toward the gray white vain sea suppression and go, a roar, earth shaking bang!

Endless shock, surging in the world.

The seven kingdoms of God, even the land of Lingwu, are shaking in this shock!

An incredible scene appeared

In the seventh kingdom of God, this boundless sea has existed for thousands of years, and seems to have no end. At this time, it has been filled up and leveled out. It was filled up by the five elements Fumo mountain, which stretches for thousands of miles!!!

For a moment, time and space seemed to be static. They were still in ecstasy and frantically attacked the outer seal of the heaven demons. They all stopped their actions.

On their ferocious faces, they are full of puzzled color.

Just now, what happened?

Why do they feel that the kingdom of God is more and more resistant to itself?

The huge claws tearing the crack were directly pressed into a burst of blood mist by the suddenly enhanced repulsive force!

After the crack of the demon clan, issued a huge pain call!

On the mountain of five elements, the light is shining, and the power of subduing demons is roaring out. After the crack, countless demons make a roar of surprise and anger. However, it is of no help

Under the blessing of the power of subduing demons, the cracks in the sky slowly closed.

Until now, all over the blood, exhausted Ye Chen, just really relieved.

He did it!!!

However, ye Chen's spirit was not completely relaxed, because he knew that although he had temporarily stopped the invasion of foreign demons by moving mountains and filling the sea, he did not change the fact that the foreign seal was in danger.

How long will the seal last?

A year?

Or not even a year?

If the seal completely dissipates, even if there are the five elements of Fumo mountain, it can not stop the invasion of the demons.

The Terran must make good use of the time ye Chen has won for them, otherwise, they will still be doomed to extinction!

No matter how strong Ye Chen is, he can not completely reverse the situation of war.

even if he can kill tens of millions, even hundreds of billions of demons, what can he do?

At that time, it is estimated that the whole Terran was wiped out by the demons, right?

A person's power is limited, even if ye Chen is a god!

Therefore, the whole kingdom of God must be strong!

At the next moment, ye Chen's figure flashed and stood at the top of the five elements mountain. He said in a loud voice, "I am Ye Chen, the warrior of the seven kingdoms of gods. If you want to live, follow me and follow my orders!"

"From today on, wuwanghai will be renamed Fumo hall, and I will set up a base camp to fight against the invasion of demons in the five elements of Fumo mountain!"

"All the martial arts above the chaos state, come to the demon subduing hall. The demons will invade the hall soon. It may be a year or even shorter. The Fumo hall is the first front to stop the invasion of demons."

"We will guard the hall of demon subduing to the death, and will not allow the foreign demons to step into the kingdom of God and spirit and martial arts!"

Chapter 3109

For a while, the warriors in the vicinity and the seventh divine kingdom were full of blood. Regardless of their status, status and strength, they were all accompanied by Ye Chen's orders and yelled:

"we will swear to defend the demon subduing hall, and forbid the foreign demons to step into the kingdom of gods and spiritual weapons one step!"

This sound, resounding through heaven and earth, represents the determination of the human race!

One after another, one after another to escape light, toward the direction of the Fumo hall, quickly away, these are the martial arts above the chaos!

The rest of the fighters clenched their fists one by one. They did not have the slightest ease to avoid fighting. On the contrary, their faces were full of unwilling color!

As a warrior, you can't defend your home with your own hands. Instead, your relatives and friends want others to protect you?

They, of course, are unwilling!

They secretly determined that they must become strong before the invasion of demons, strong enough to become combat power!

Ye Chen took a deep breath and looked at the end of the dome that day.

The war is about to begin!

And he, before the invasion of the demons, do his best to improve the strength of the Terran!

But before that, there are a few things to do.

First, he had to wait for Tianji Taoist to go out of the pass and ask about Xiao Huang's whereabouts.

Second, strong own strength!

Ye Chen's wrist turned and two purple cloud stones appeared in his hand.

One of them is extremely crystal clear, obviously of high quality. This is the Zixiao stone obtained by Ye Chen after the death of the ancient ghost.

This demon soul has extremely strong strength, moreover, still only remains the soul, took away the body under the circumstance.

Its ontology should be more powerful!

In the extraterritorial demon clan, it should also be the existence of the top strength.

If the two purple cloud stone swallow, ye Chen's strength can be further!

At that time, even in the face of the middle of the heaven God realm, maybe they had the power of the first World War, right?

At the next moment, ye Chen directly swallows two Zixiao stones into the mouth and sits on the top of the five element Fu Mo mountain and begins to refine them rapidly.

On the other hand, there was also a way of escaping light. They fell in front of the demon subduing mountain. They were warriors who came at the command of Ye Chen. They looked at the figures on the top of the mountain one by one, and their eyes showed incomparable admiration.

Many people, even extremely excited, just like seeing the idol, seeing the God in the heart!

Ye Chen's feat of carrying mountains and reclaiming the sea has moved countless people.

One by one, they waited quietly for ye Chen to wake up and exchange their experience in martial arts from time to time. Because of Ye Chen's existence, these aggressive warriors get along with each other incomparably.

One day later, ye Chen opened his eyes, but in the moment he saw the scene in front of him, he was slightly shocked.

In front of him, there are so many warriors!

This is the seven kingdoms of gods. Under the moon ring vision, the martial arts practitioners who have cultivated beyond the chaotic state and those who are lower than the chaotic state have no significance even if they participate in the war. They are not even called cannon fodder.

After all, the overall strength of the extraterritorial demons is much stronger than that of the Terrans.

The only thing Terrans have an advantage over is probably the number.

At this time, these warriors were waiting for ye Chen to wake up in an orderly manner. Many of them spontaneously built their buildings and arranged a Taoist array on the five element Fumo mountain.

Everyone, in order to resist the demons, spare no effort!

There is no longer any idea of privacy, intrigue and so on.

On Ye Chen's face, a smile appeared and nodded.

At the next moment, he stood up and said to the tens of millions of Warriors: "presumably, we have already known that the invasion of the extraterritorial demons is imminent."

When they heard the speech, they were all facial features. For a while, the atmosphere on the five elements Fu Mo mountain became somewhat heavy.

Ye Chen continued: "to tell you the truth, most of you will probably die in this war."

As soon as his voice fell, his eyes swept over the faces of these warriors. He saw that they all had concise eyes. After hearing Ye Chen's words, his eyes did not waver at all!

Obviously, they are ready to die now that they are here!!!

Ye Chen moved in the heart, looking at the eyes of people more gratified.

It should be!

Sometimes the greatest test of war is not the strength of the two armies, but momentum!

In this way, even in the face of extraterritorial demons, the Terrans may not be unable to fight!

Ye Chen said: "it seems that you have come to realize that, yes, the most terrible thing is not to sacrifice in the war, even I may die in the war, but what is more terrible than death is that the foreign demons successfully invade and kill our relatives and our friends!"

"In the next few days, I will try my best to improve your strength. I know that all of you here may come from hostile forces or even have grudges with each other, but!""In front of the common enemy, we can't fight against each other. You must put aside your gratitude and resentment for a while. Before the end of this war, you are all comrades in arms, not enemies!

You are not only your personal gratitude and resentment, but also shoulder the future of the whole human race. Do you understand? "

When they heard the words, all of them were boiling with blood, and they cried out in a loud voice: "I understand!"

Ye Chen nodded. At the next moment, his figure flashed and disappeared from the peak.

At the time when people wonder where ye Chen has gone, ye Chen reappears on the top of the mountain.

In his hand, he held a huge black stone.

This stone is the same as the giant stone in Taiyuan sword sect. It is a divine stone!

Ye Chen puts the huge stone on the top of the Wuxing Fumo mountain. At the next moment, a strong martial arts spirit is poured out. Ye Chen dances the sword in his hand, leaving a sword mark on the God's stone!

This sword, he has no reservation!

Kill the sky sword formula, destroy the Shinto, the meaning of Zhenwu, the sword of the six ways, etc., all display!

This sword is the essence of Ye Chenwu's cultivation!

The extremely strong martial spirit permeates the world. Countless warriors, even those demon clans, stare at the sword mark and feel the martial arts charm emanating from it. They are infatuated with it!!!

Ye Chen's martial art is too powerful!

It's worth them to understand!

Ye Chen looked at him and seemed to be immersed in the sword. He said, "Qingdi, I know that the demon clan always fights with instinct and talent. He doesn't pay attention to martial arts, but!

If the demon clan wants to improve its strength as soon as possible, martial arts is absolutely the only choice! And the limit of martial arts is far more powerful than the talent of his blood! "

Hearing the speech, the green emperor nodded heavily. He also thought so.

Today, we can't do our best to repel all the soldiers from the next moment

Chapter 3110

These demon clans, who have always regarded blood as their respect, actually did not have any objection and nodded one after another!

As early as the battle between Ye Chen and the Qing emperor, they realized that the power of martial arts was not just the small skills of human beings in their imagination!

But now, the invasion of extraterritorial demons is imminent. In front of such a terrible enemy, what is the pride they had insisted on?

As long as you can learn how to fight against the enemy and protect your relatives, let alone practicing martial arts, it's just a small matter to ask for advice from the Terrans!

Ye Chen saw the attitude of the demons, the smile on the face, more thick a point, to fight against extraterritorial demons, the power of the demon family, indispensable!

In the following time, in this newly built house of subduing demons, the elite of Terran and demon clan all madly devoted themselves to cultivation.

Ye Chen also formally ordered the numerous sects in the kingdom of God and the land of Lingwu to contribute most of the reserved martial arts resources to the Fumo hall. He devoted the collected martial arts resources to these soldiers who fought against the demons and did everything possible to improve their strength!

At present, it is not a time for privacy. The whole Terran must unite to get through the difficulties!

That is to say, ye Chen can do this kind of thing, otherwise, how could these sects be so obedient?

Ye Chen himself often lectured in the Fumo hall. His martial arts had already exceeded the limit of the kingdom of God, which naturally benefited everyone.

On this day, ye Chen was sitting in the main hall of the demon subduing hall, frowning slightly. All the people sitting next to him were the top leaders of various forces.

There are three kings of the human race, the green emperor, the people, the demon family, and so on.

At this time, the green emperor saw that ye Chen's look was not right. He could not help but say, "Ye Chen, what's the matter?"

Ye Chen's eyes flashed: "at present, in the face of extraterritorial invasion of demons, we still have a problem that needs to be solved."

"What's the problem?" asked situ Xin

Ye Chen said in a deep voice, "weapons!"

When they heard the speech, they all frowned.

Indeed, weapons are a big problem!

The martial arts of the kingdom of God have been weak for a long time. Those ancient warriors, or the top powerful ones, may have several weapons in their hands, but what about other ordinary warriors?

Those ordinary weapons are likely to be easily broken in the face of demons.

In this way, the overall strength of the Terran will be greatly reduced in front of the demons!

Don't say that he is an ordinary warrior. If his weapons are destroyed, ye Chen's strength will drop suddenly!

On the contrary, if every soldier can be equipped with shangjue weapon, Taoist weapon, or ancient weapon, they may explode several times the combat effectiveness!

The human race is respected by the martial arts, which naturally requires the assistance of various weapons.

But where to find so many top weapons?

Tiandao palace?

No way!

The demons treat the Kingdom like this. What did the Tiandao palace, which controls the seven kingdoms, do?

Up to now, it seems indifferent!

Ye Chen even doubted whether there was any shady business between Tiandao palace and Tianmo!

Why is Xuanyuan ink evil indifferent?

Is this the attitude of the controller to this kind of thing?

At this time, the war King Xing qianhan said: "Ye Chen, I have mastered the ancient forging method, and can forge a good weapon!"

"What!" Ye Chen heard the speech and said happily: "why didn't you say it earlier? I'm going to call up the best forgers in the whole kingdom of God. You can pass on the forging method to them, and strive to have a tool in hand before the invasion of demons! "

But Xing qianhan is to stop: "wait a minute."

Ye Chen slightly frowned and said, "what's the matter? Is this forging method your family's secret, and you don't want to contribute it? " Now, it's not the time to pay attention to family traditions

Xing qianhan said with a wry smile: "this forging method is indeed derived from the ancient warlords, and it can't be spread out easily. But now the whole kingdom of God is in danger. Am I the kind of person who doesn't understand the general situation?"

When people heard this, they nodded in secret. In addition to their amazing fighting power, the ancient warlords were also famous for their forging methods!

Xing qianhan continued: "the reason why I stop you is not because of anything else, but because of the material problem!"

"Materials?"

Ye Chen said with a smile: "you don't have to worry. Even if you dig the whole kingdom of God three feet, I will make up enough materials you need."

Xing qianhan's face suddenly became dignified and said: "the key is here. It's just the forging method of the God of war. There is an essential material called deep-sea dark crystal iron!"

Hearing this, the green emperor flashed a little startled and said, "are you talking about the deep-sea dark crystal iron produced only in the sea people's territory on the border of the kingdom of God?"

Xing qianhan showed helpless color and nodded: "it is."

Haizu, deep sea dark crystal iron?

Ye Chen frowned slightly.

What are these? Why has he never heard of it? Dongfang Sheng, the soul king, sighed: "if it's only in the Hai nationality's territory, it's hard to do it..."

Ye Chen asked, "what is this sea tribe and deep sea dark crystal iron?"

The Qing emperor said: "the sea people are special in the kingdom of God. They are different from the demon people. They live in the deep sea and are basically isolated from the world. Even if we exist in ancient times, few people know their existence. It's normal if you don't know."

Ye Chen nodded his head and said, "in this case, why are you all looking like this? Whether it's a primitive race or not, the sea people are also part of us. The invasion of extraterritorial demons is imminent, and the sea people should not be spared. They should be friends rather than enemies with the Terrans. Is this deep-sea dark crystal iron so hard to get? "

The green emperor could not help shaking his head and said, "speaking of it, the sea people are really spared. There is basically no connection between the invasion of demons and them."

"What?"

This time, ye Chen is really shocked. The nature of the demon clan is to devour everything. How can we let go of this sea clan?

The Qing emperor said: "it's not the demons who want to let go of the sea people, but the sea people. They have been living in the deep and deep sea all the time. There, even the demons' strength will be limited to a certain extent. However, the sea clan is like a fish in the water. Under the ebb and flow, it is not easy for the demon clan to swallow up the sea clan."

"Therefore, in the war between man and devil in ancient times, the Hai people were basically not affected. Therefore, the invasion of the demons did not invade, and they could be said to be completely out of the way..."

Ye Chen smell speech, frown deeper, this can be difficult to do.

The Qing emperor continued: "moreover, this deep-sea dark crystal iron is also a sacred thing for the sea people. Long, long ago, the ancestors of the Hai people and Xing qianhan provided deep-sea dark crystal iron for their close friends. Xing qianhan's ancestors made sharp weapons for the sea people, but..."

"Now the sea people are quite disgusted with the Terrans, and I'm afraid they won't be willing to cooperate with the Terrans. So it's extremely difficult to get deep-sea dark crystal iron from the hands of the sea people!"
