Chapter 3741

However, Hong Jin was smiling. He looked at his two companions and said to Ye Chen: "boy, you'd better not let me down. You must pass all the three examinations!"

Ha ha, a person suffered a loss, will be unhappy, depressed, but if the people around you and yourself also suffered losses, even worse than yourself?

Then, this person will be more happy!

After all, he's not the worst, is he?

Hong Jin is in such a mood at the moment!

Huang Quan, however, snorted coldly: "all passed? Brother Hong, are you kidding? Do you really think of this boy as a monster for hundreds of millions of years? Or do you regard the three methods of removing clouds as the secret of rotten streets?"

That kind of evil can't exist at all! The three methods of removing clouds are also very difficult to practice! So, you'd better not have any illusions

Hong Jin did not answer, but looked at Ye Chen!

At this time, ye Chen slowly walked to the painting scroll and picked up the brush placed in front of it.

In his eyes, suddenly God light explosion flash, in an instant, with ink!

Huang Quan said with a smile: "ha ha ha ha, brother Hong, if you want to disappoint you, this boy, there must be a limit to bravado, right? Instant ink? Even those gifted martial artists who have practiced martial arts for hundreds of days have to observe at least one stick of incense before they dare to write. This boy, even in less than a second, can write directly?"

Do you really regard yourself as a God? What's more, what the boy painted is totally different from what is on the scroll! "

When Hong Jin heard the speech, he snorted coldly and did not answer.

Although he was dissatisfied that only he had suffered losses, his mood was somewhat calmed down.

In one day, although rare, there are still some talents who can cultivate the Tongyuan method to the extreme. If ye Chen really passes the second examination, he will really feel suffocated!

That's crazy!

Ye Gu also laughed and said, "brother Huang, what's the pattern on this scroll?"

This picture seems to be blank, but in fact, it is not. Instead, it outlines an image based on the change of the meaning of the law of heaven and earth. This image is constantly changing. Only when the examinee starts writing, can it be determined!

Therefore, there is no possibility of cheating!

Only by using guantianhua to distinguish the images on the scroll, can they pass the examination!

Huang Quan said faintly: "the moment the boy started writing, what appeared on the painting was a pair of tiger pictures! A picture of a fierce tiger perched on a high cliff

Ha ha, this bravado boy, did not draw any tiger at all!

Ye Gu smiles and looks at what ye Chen has painted. However, his smile is a little frozen!

Although there is no tiger on this scroll, there is a high cliff!

Ye Gu blinked his eyes and said to Huang Quan, "brother Huang and Huang, although this boy's painting is not a tiger, how can it look like a high cliff?"

When Huang Quan hears the speech, he is also slightly stunned. He looks at what ye Chen has painted carefully, but in an instant, he is shocked by a cold sweat!

He had been preoccupied with the idea that ye Chen would never pass the examination of viewing nature. Therefore, when he saw that ye Chen did not draw a tiger, he decided that ye Chen was pretending!

As far as Yudu will be that high cliff, ignored ah!

After all, normally speaking, the tiger shape formed by the Qi of the law of heaven and earth is the most striking!

Although from the perspective of painting, you may draw a high cliff first, but from the perspective of the practitioners of nature, 99% of them will draw the most clear tiger first?

Of course, there are exceptions

Only when the tiger shape and the high cliff are extremely clear in the eyes of the practitioner, it is possible for the practitioner to draw the high cliff first!!!

Such warriors are all in the soul Road, with the ultimate talent!

Soon, ye Chen put down his brush.

And in front of the three old people, is a vivid, vivid tiger map!

A tiger standing on a high cliff!

Hong Jin's three people, already completely, are in a state of stupidity

They never dreamed that someone could master two of the three methods of removing clouds to such a degree in one day!!!

All of a sudden, ye Gu, who had always been a bit gloomy and harsh, said with a smile: "he has passed two examinations, so it is impossible for him to pass the method of calling life?"

When Hong Jin and Huang Quan heard the speech, their eyes flashed and they instantly looked at Ye Chen, who was already walking towards the monster statue!

Now they have forgotten the worries about whether their own secret methods will be learned by others!

They just want to deny the existence of Ye Chen!

Two kinds of extreme talent, they can bear the limit!

If there are three!

At the same time has three kinds of extremely talented warrior, appears in front of them! They could really die

Be angry to death!

These three elders have extremely high talents above the three methods of removing clouds. Otherwise, they would not have been able to cultivate to this level

This is also the capital that they are quite proud of all the time!

But, compared with Ye Chen, they can't even count dog excrement!?

What is man to man?

Hong Jin's three people have realized it thoroughly!

The assessment method of weighing life method is also very simple.

This monster statue will release an extremely dangerous breath. However, this breath is divided into three intensities. The first intensity is that the examinee needs to step back to avoid it. The second strength is two steps back, and the third one is three steps back!

Not only to be tested by the moment of the breath burst, exactly began to retreat, at the same time, steps, but also to be completely correct, can be considered to pass the examination!

Therefore, the assessment of life method is perhaps the most difficult among the three!

Ye Chen stands in front of the statue and confronts it. For a moment, the examination room is silent and silent. Hong Jin and others even hold their breath!

Ye Gu, in particular, seems to want to dig out his eyes and put them on Ye Chen!

At that moment, a very dangerous breath came from the statue!

A little frown, but no movement.

Although Hong Jin and Huang Quan didn't sense the specific level of the breath, they clearly had a dangerous smell, which spilled from the stone statue!

But the boy didn't move!

Hehe, sure enough, although the boy is extremely rebellious, he is still barely tolerable

On the ground that they wanted to learn the other two Dharma, they even started to learn the Dharma, and even let them continue to practice the Dharma.

After all, ye Chen is very proud of such a rare evil, isn't it?

Certainly, is not willing to admit defeat!

But, maybe, the boy is very poor in the method of weighing his life?

Chapter 3742

Their term of office will expire in two years. If within two years, the boy can't learn the life calling method. Then, after he is transferred, he doesn't have to teach him the secret method of his own school, right!

On the two faces with a smile, ready to discuss this matter with Ye Gu.

Ye Gu, however, was a shaking figure, almost fell on the ground!

Huang Quan quickly helped Ye Gu and asked him, "brother ye, what's the matter with you?"

Ye Gu looked at Huang Quan and looked like he was going to cry!

His lips trembled and he said, "demon The real monster

Demons?

What monster?

This boy, didn't he fail the examination?

Are you still a monster?

Hong Jin was even more anxious and yelled at Ye Gu: "old Ye! Speak clearly! This boy, why is he a monster? He didn't move just now, didn't he? "

Ye Gu took a deep breath and forced himself to calm down. Then he said to Hong Jin, "brother Hong, do you know, this is called life method assessment. The breath of the statue can be divided into three levels?"

Hong Jin nodded and said, "of course I know that!"

Ye Gu continued: "well, as long as the examinee can sense the moment when the breath breaks out, even if he is blind, he has a third chance to pass the examination, right?"

Hong Jin and Huang Quan were stunned and nodded subconsciously.

Ye Gu sighed: "but, in fact, it is not so. Few people know that the statue gives off a total of four levels of breath! This last level of breath, strong or weak, in short, is not in the three levels of breath!

At this time, if the examinee guesses randomly between the three steps, the result will be unable to pass! But if you don't move, you can pass the examination instead! "

For a moment, the three of them were shaking

That is to say, the boy in front of him, even in the face of such a situation, has successfully passed the examination of weighing method!?

This is how confident, can choose not to move ah!

But!

Ye Gu, however, continued to speak with some trembling: "I haven't finished yet! This is not the most terrifying place for this boy

He suddenly reached out and pointed to Ye Chen's slightly moving toe and said, "look! Boy, move half a step! Do you see that? "

Hong Jin two people slightly a Leng way: "move half step again how?"? In this way, he does not pass the examination? "

Ye Gu said with a smile: "don't you pass the examination? Hehe, do you remember that I said just now that the breath of this statue is strong or weak

Both of them nodded stupidly.

Ye Gu, however, suddenly appeared a pair of seeing ghost's expression way: "just now, that way of breath is extremely weak! The intensity of breath is about half of that of one step! Even me, it took me two or three breaths to reflect the intensity of this breath in ancient times. After all, three levels of breath are the most common and fixed thinking, isn't it? But this boy can be distinguished in an instant

Hong Jin two people smell speech, instantly face color one change!

As if there were 100000 thunder, in their minds, exploded in general!

This kid, not only passed the examination, even to the judgment of the special degree of breath, are perfect!!?

For a time, three people are surprised out of a cold sweat, looking at Ye Chen's eyes, constantly shaking!

Monster

This is a real monster!

Ye Chen, but the complexion is light to see to three people.

Such a result was in his expectation.

Why?

Control of psychic power?

Under the guidance of countless great powers in the samsara cemetery, ye Chen has already reached the peak in this respect!

Spirituality?

With the body of reading demons, the spirit was purified in the desperate situation of the world, not to mention it!

As for fighting instinct?

Don't forget that ye Chen, relying on his fighting instinct, bravely resisted the Zhan family's physical training for such a long time!

For him, it seems strange that he can't learn the three methods of removing clouds in one day!

.....

Seven days later, when ye Chen and Xu Shenglong left the Piyun hall, the three old men of Hong Jin were sitting in the tea room with their hair dishevelled. Their hands holding the teacups were faintly shaking

In seven days, just seven days, the boy named ye Shitian collected all the knowledge they had learned about the three methods of removing clouds!

Even, the boy's attainments in the three methods of removing clouds are likely to surpass the three of them!

This kid is not a man at all!

It's just the machine of cultivation. These seven days, they have been squeezing the knowledge of the three people!

Ye Chen is a relaxed look, and these three people, on the contrary, are exhausted!

However, although Ye Chen has completely learned what they have learned about the three methods of removing clouds, it is strange that at the moment, Hong Jin's three people are not in the least sorry and unwilling to do so. On the contrary, they feel a burst of pride!Why proud?

Teach Ye Chen such a monster that can shake the whole dark area. Can you be proud?

At the moment, Hong Jin changed his attitude when he first met Ye Chen, twisted his beard and said with a smile, "two of you, what kind of performance will this boy have at the cloud master assessment meeting three days later?"

On hearing the speech, Huang Quan's face actually appeared a burst of excitement and said: "no matter what kind of performance he has, it should be enough for those old examiners to drink a pot of wine. Ha ha, I really want to see the expressions of those old guys now!"

Since ancient times, there has never been a situation in which the examiners' attainments in the three methods of cloud plucking are higher than those of the examiners? "

His voice, suddenly increased a few minutes: "history, will soon change!"

Ye Gu also changed his gloomy temperament and lifted his chest triumphantly. He said with a smile: "ha ha ha ha, isn't this nonsense? As a disciple of Ye, it's impossible to disgrace his master! "

When Hong Jin and Huang Quan heard the speech, they immediately stared at each other and said in unison, "who said it was your disciple's?"

Ye Gu waved his hand and said: "two brothers, although we have taught this boy three methods of cloud plucking, I can assure you that the boy's talent in weighing life method is absolutely the highest among the three methods. Therefore, the name of this master should be given to Ye Mou."

But Hong Jin was in a hurry. He patted the table and said, "nonsense! Don't forget that he was the first to teach him the three methods of removing clouds, but I am

Huang Quan also snorted: "you two, why do you deceive yourself like this? As you all know, with this boy's talent, watching the nature is the one that helps him the most. I, Huang Quan, can be called his master! Others, no way

At the next moment, the pretty girl in the hall of the poyun hall suddenly changed her face and made a loud noise. It came out from the hall that the three old men were fighting with each other under endless arguments!

The terror of the pressure, swept the world, the whole puyun hall, is in an instant, turned into nothing!

The pretty girl poked her head out of a piece of rubble. Her pretty face was full of panic, and she called out to the Yufu: "come on! Three tutors, play It's a fight

When a person's talent is similar to that of you, you may want to catch up and compete, but

If a person's talent goes against the sky to a fantastic level, you will be convinced!

At this time, when you teach them what you have learned, you can even be proud, because this is a miracle you have created yourself!

Chapter 3743

.....

Hundreds of thousands of miles away from the city, there is a huge city like a black lion in the shadow. Compared with the dark city, it is obviously one or two grades higher!

Here, called the movie theater, is the largest city in the area of ten thousand miles!

Although it is not the real top city in the dark area, its status is definitely not low!

Today, there is a lot of excitement in this movie theater. From time to time, there are many dodging lights, and they are flying towards the movie theater from all directions!

On the streets of the town, people are coming and going, which are several times more prosperous than before. The vendors who set up stalls and the owners of shops, etc., are like festivals. They are working hard to manage their own business and take out some good things at the bottom of the box!

They are going to take advantage of this opportunity to make a lot of money!

What opportunities?

Today, it's the once-in-a-decade assessment meeting for cloud spotters in the dark world!

As the most advanced city in the area of thousands of miles, the movie theater has naturally been selected as one of the test sites!

All the martial arts in the dark region gathered here in order to obtain the license of the cloud master!

There are four levels of license: primary master, intermediate master, senior master and master!

The indicator of this assessment is the success rate of cloud clearing!

In other words, it is to use the three methods of removing clouds to accurately judge the probability of the other party's cultivation!

If you want to pass the examination of a junior cloud master, you need to have a success rate of more than 30%. Don't underestimate the qualification of this junior cloud master. Although this is only the threshold for becoming a cloud master, you can live a good life in the dark as long as you get the license of a junior cloud cloud master!

Even if the strength is not strong, at least, it does not have to be like the two people Ye Chen met at the beginning, relying on slaughtering pigs to make a living!

What's more, it is not a simple thing to pass the assessment of cloud master, even at the primary level!

Every year, there are more than 10 million martial artists participating in the examination of cloud master in each examination site in the dark area!

And only less than 10000 people have successfully passed the assessment of cloud division!

That's one in a thousand!

Among them, 99% of them are junior cloud spotters!

As for the intermediate cloud master, it needs more than 50% of the success rate. Although it is only two levels higher, only these two levels, then, no one can pass!

The requirements of a junior cloud master for talent are not too high. They only need one qualification from thousands of miles, plus a hundred years of hard work. As long as they are not too mediocre, they will succeed in the examination even if they fail in one time and take part in more than one time!

But, intermediate cloud division, it is not the same!

Can become intermediate cloud division, are in a certain way, gifted generation!

This, is not a thousand miles to pick one, so simple!

Senior cloud spotters need more than 70% success rate of cloud removal, which is basically the peak level of dark area cloud plucking masters!

Extremely strong talent, extremely hard practice, plus some luck, can achieve the realm!

The last one, master Piyun, is completely legendary

Master Piyun, need more than 90% success rate!

This is almost impossible to achieve!

It is not enough to be a master of Piyun only by the talent of the three methods of poyun. It also needs terrible martial arts qualification!

In such a large dark area, the number of master paiyun will not exceed 100!

Don't underestimate these 100 people. Compared with the total number of dark area warriors, this is an extremely small group!

Although the dark region is a place outside the law, most of the people who escape into it are desperate or extremely vicious in various boundaries

This kind of person, certainly won't be many, but don't forget, the dark area has existed for countless years!

Those who stay in the dark area, basically, will not go back to the living in the bright area. Then, they can only live in the dark area. Over the years, the dark area has become a boundary of its own and has a large population!

And among the many warriors, only a few!

It is enough to imagine how difficult it is to be a master of Piyun!

At the moment, two escape lights, falling from the sky, converged at the gate of the movie city, revealing the body shapes of the two men.

One of them was heroic and tall, dressed in a gold robe, while the other was dressed in a black robe, with an extremely indifferent look.

It is Xu Shenglong and ye Chen!

As soon as they entered the city, they headed for the center of the city. There was a huge palace, which was the cloud Hall of the city.

At the same time, it is also the place to hold the assessment.

Xu Shenglong's face was full of excitement. He never dreamed that elder brother Ye really learned all the three methods of removing clouds, which are extremely difficult to practice!

Xu Shenglong asked Ye Chen, "elder brother ye, you should be able to pass the examination of intermediate cloud master directly this time?" Hehe, I think, today's record of being the fastest intermediate cloud master in the history of dark region is about to be broken! "He knows that elder brother Ye has mastered all the knowledge of the three old Hongs in the mysterious city these days!

Even though they were not satisfied, they had a competition with elder brother ye on the seventh day!

No matter which door, brother Ye is on par with the three old men!

These three old people are all middle-level cloud division masters. Moreover, they are just one step away from becoming senior cloud tellers!

Since elder brother Ye is able to compete with the three people, it is a certainty that he can pass the examination of intermediate cloud master!

Hearing the speech, ye Chen said with a smile: "I don't intend to get the intermediate cloud division license. The intermediate cloud master is still too common. I want to directly obtain the senior cloud division license, so that our next step of action can be carried out smoothly."

Xu Shenglong was surprised at his speech!

Senior cloud master, who is almost standing at the peak of the whole dark area!

How many days has elder brother Ye practiced the three methods of removing clouds?

Are you going to get the license of senior cloud master directly?

This sounds fantastic, but since Ye Chen said it, Xu Shenglong is willing to believe that he can do it!

Immediately, he is incomparably excited to look at Ye Chen!

He felt more and more that the most correct thing he had done in his life was to follow elder brother Ye!

However, Xu Shenglong also has some doubts. What should brother ye do to pass the senior examination? After all, even if elder brother Ye has mastered all his life's knowledge of the three methods of cloud plucking, the success rate is only 60%?

But at this time, a sneer rang out from behind two people, and one said: "what a big tone? Intermediate cloud master license too ordinary? Do you know how many intermediate cloud spotters there are in the whole dark region?"

You know, a lot of people spend their whole lives not getting this license?

In you, it's normal? Do you want to get the license of senior cloud spotter? Hehe, do you regard the senior license as the rubbish of rotten street? Who wants to take the exam? Boy, I advise you to give up your fantasy, so as not to be disgraced in the examination field

Chapter 3744

When ye Chen heard the speech, he slowly turned his head and saw three men standing behind him. The one who opened his mouth was the young man with a horse face and small eyes standing in the middle of the three. He was shaking a folding fan and looking at Ye Chen with pride.

At his side, there were two men in blue who looked indifferent, each holding a weapon in their hands. They were murderous all over.

At this time, a man in blue with a dark purple lip and a thin sword in his arms scoffed at the horse faced youth and said, "Mr. Deng, why should we have a common understanding with such a frog in the well?"

Another man in Tsing Yi, holding a strange, crooked stick and drooping eyes, also said lightly: "boy, the registration fee for the cloud master assessment is not cheap. If you want to throw the money into the water, why don't you give it to me to keep it for you?"

At this time, the people on the street, also attracted by the noise here, cast their eyes towards this side!

At the moment, Xu Shenglong's eyes are full of killing intention. His whole body is full of Demon power, and his veins are jumping wildly. It seems that he is going to fight recklessly!

These three people dare to ridicule elder brother Ye!

This can be said to be the most intolerable thing in Xu Shenglong's life!

Even if he doesn't know the strength of the other side, Xu Shenglong will fight with them!

Even if it is death, we should let these people pay the price for their own offense!

But just before he had to act, a hand was on his shoulder.

That's Ye Chen's hand!

The anger in Xu Shenglong's eyes was instantly restrained and stood in the same place respectfully.

Although he is angry, he can be a follower. Brother Ye's will is absolute!

At this time, after seeing the faces of the three men, the people around them also sent out a cry of surprise: "it's Mr. Deng Shaofeng of the Deng family! He even came to this movie theater. Is he coming to take part in the examination

Another said: "you don't know that, do you? Besides participating in the examination, the Deng family is a family of piyunshi. In the understanding of the Tongyuan method, they are very unique. Almost every

generation of their lineage is a master with high success rate. Mr. Deng Shaofeng, as the most outstanding genius of the Deng family for thousands of years, is expected by the family!

This time, the Deng family will directly let Mr. Deng become an intermediate cloud master! "

All around, a burst of breath!

Almost no one dares to directly carry out the assessment of intermediate cloud master. This Deng family is worthy of being a famous school of cloud clearing!

Another person looked at the two men in green and whispered, "the two men in green are not the disciples of jiuqingshan, are they?"

As soon as this word came out, people around me were thrilled again!

The Deng family sent people from jiuqingshan to protect Deng Shaofeng?

It can be seen that the Deng family attaches great importance to Deng Shaofeng!

Although the Deng family is a famous family, it is not a big family with limited strength. Therefore, they have to send people from jiuqingshan to protect Deng Shaofeng.

Jiuqingshan is one of the most powerful forces in the area around the movie theater. It not only monopolizes many industries in the movie theater, but also does some killing business!

All the disciples of jiuqingshan are strong masters of killing and cutting!

It is said that there are even a lot of heaven and earth in it!

Now, the Deng family invited jiuqingshan disciples for Deng Shaofeng's sake!

The two men in green heard the speech, and the proud color on their faces was also rich.

Hearing all the people's remarks, Deng Shaofeng looked at Ye Chen with great contempt and said slowly, "boy, do you know how terrible I am now?"

Now, take back your words and apologize to me. If you quit this city, I can save your life! I didn't expect to see a God in the dark? "

After that, Deng Shaofeng burst out a burst of laughter. He was the one who wanted to take part in the intermediate examination. However, ye Chen said that the intermediate level was too rubbish?

Naturally, he can't spare Ye Chen!

Of course, Deng Wu Feng's background is less powerful than his own.

In Deng Shaofeng's opinion, this indifferent youth is just a waste of the heaven and God realm. What can be wrong with him?

Although his cloud removing method, only about 60% of the success rate, but even if there is error is not too big?

In his opinion, this boy's strength is absolutely impossible to surpass the holy ancestral realm!

Ye Chen at this time also finally opened his mouth, he to Deng Shaofeng, light way: "since you don't believe my strength so much, how about a bet with me?"

"Bet?" Deng Shaofeng frowned: "bet what?"

Ye Chen's eyes flashed: "bet, can I pass the assessment of senior cloud master?"

Hearing this, the street fell into a moment of silence, and then, laughter!

Roaring laughter!

What is this kid talking about?

This is the time to put it on?

What else should pass the examination of senior cloud spotter? Dream?

At this time, a man suddenly said with a smile, "isn't this guy who I ran into in the Piyun hall a few days ago?"

"Have you seen him?"

The man said with a smile: "not only have I seen it. At that time, I heard clearly that the boy went to the paiyun hall to practice the three methods of removing clouds! Ten days ago

People smell speech, silly, like looking at Ye Chen like an idiot!

Is this kid crazy? Only 10 days of practice, even the primary examination are 100% unable to pass, you have to directly participate in the senior assessment?

This is a big joke!

The key is, you have to take it out to gamble with Mr. Deng?

I've seen people who want to die, but I haven't seen anyone looking for death like this!

Deng Shaofeng, who had some hesitation at first, heard the speech. After thinking for a moment, he laughed and said, "OK, boy, what is the bet?"

Is this kid really in his head? After ten days of practicing the three methods of dispelling clouds, do you want to pass the advanced examination?

This kind of person, I'm afraid, is out of the dark area, proud and used to think that in this dark area, what can be done as he expected? Ha ha, too naive!

Of course, Deng Shaofeng has no intention to give up the fat!

Anyway, the other side is sure to lose, isn't it?

Ye Chen said with a smile, "didn't you like to make people apologize just now? In this case, the loser kowtows to the winner and apologizes, and can't step into the movie theater for ten thousand years. How about? "

When people heard the speech, they could not help but look shocked!

Kowtow and apologize?

Well, it's a little over the top, isn't it?

In the dark, face is even more important than in the bright!

After all, here, others can't distinguish your accomplishments. Even if there are three ways to remove clouds, they are not 100% accurate. Therefore, if you show weakness, you will become a weak person in the eyes of others!

What's more, it's not allowed to enter the movie theater in ten thousand years?

If you don't step into the movie theater, it's nothing, but it means that you can't take part in the assessment of cloud master!

Chapter 3745

Every district of the cloud division, will be in the local examination site to participate in the examination, other test sites will not allow them to enter the examination room.

After all, there is also a slight difference in the difficulty and ease of the assessment of the cloud master. According to the standards of the local dial cloud Association, some places are lower, and some places are higher. If all the candidates are crowded to the test points with lower difficulty, will they not be crowded?

In this way, the losers among them will not be able to participate in the assessment of cloud master within ten thousand years!

Ten thousand years, for martial arts, it's a very long time!

Deng Shaofeng's face changed, but for a while, he became uncertain!

This boy, why is he so confident? Is it weird?

Is he still bluffing?

But at this time, ye Chen is a little smile, wrist movement, a spiritual light, emerged in Deng Shaofeng's eyes, into an old parchment.

This is a spiritual contract!

For a moment, people on the street hold their breath!

This kid, play real!

Even at the beginning, the nine green mountain disciples, who were quite disdainful to Ye Chen, had a glimmer of color in their eyes!

Ye Chen light way: "Deng childe, you won't dare?"

Deng Shaofeng's face changed one after another. Finally, he bit his teeth and put a mark on the spirit contract. He snorted coldly: "dare you? Hehe, boy, do you think you can really bluff me? Don't underestimate my Deng family! Today, I'm going to see how you died! "

Ye Chen did not speak, just smile and put away the spirit contract, with Xu Shenglong, continue to walk toward the meeting place.

And the people on the street are whispering, with strange eyes, looking at Ye Chen.

Soon, a news spread throughout the movie theater

A boy who has only practiced the three methods of removing clouds for ten days has made a bet with Mr. Deng?

What's more, the content of the bet is whether the boy can pass the assessment of senior cloud master!!!

Such a strong news, almost the entire movie theater, all lit up!

I don't know who found out the name ye Shitian, a name that made the movie studio a sensation!

.....

At the same time.

In a quiet and elegant attic, a man and a woman step into it. The man has star eyes, sword eyebrows, thin lips and high nose. He is handsome, warm as jade, and has a pale blue stone hanging from his waist.

The woman beside him was wearing a lavender dress with a veil on her face, but even so, she could still feel the beauty of the woman.

When they sat down in the attic, a maid came up and made a pot of fragrant and extremely high spirit tea for them.

The woman took up the Baoyu teapot and filled it for the man.

They chatted as they sipped tea.

At this time, the woman suddenly said: "brother Lin, did you hear about the gambling in the movie city?"

When the man heard the speech, his eyes flashed: "Oh? That's not true. Since you are willing to mention this bet, it must not be an ordinary one, is it

The woman said with a smile: "of course not, this bet is nothing special, but this person who made the bet, some special."

The man seemed to be interested in the way: "don't sell the key, say it."

The woman said, "I knew you would be interested. This bet is about a young man named Ye Jingtian, who can pass the examination of senior cloud spotter!"

When the man heard the speech, his pupils shrank in an instant. Even the hand that had just raised the cup was coagulated in the air. After a moment, the teacup was sent to his mouth again.

Seeing this, the woman's smile in her beautiful eyes became stronger and said: "brother Lin, I haven't finished yet. Ye Shitian has made such a bet, but the most amazing thing is that he just contacted the three methods of removing clouds ten days ago."

The voice fell, the man's eyes suddenly burst out a fine awn, it was the woman wearing the veil, scared!

At this time, the man, which has the slightest previously elegant and gentle temperament?

He's like a wolf!

A wolf that can devour heaven and earth!

He got up suddenly and walked out of the attic.

"Lin Ge, where are you going?" the woman asked

The man turned back and said with a smile: "movie theater, how can I miss such an interesting thing?"

.....

Movie City, poyun hall.

The area of the puyun hall is hundreds of times the size of the puyun hall, which is enough to accommodate tens of thousands of martial arts practitioners!

At the moment, the assessment time is about to start, and there are already many people in the museum!

Ye Chen came to the registration office, compared with other assessment registration points, it was empty, no one.

A woman sitting at the table was almost asleep.

The reason why there is no one is that this is the registration point for senior cloud master assessment!Ye Chen went to the table and said, "Hello, I want to sign up for the senior cloud master assessment."

The woman was stunned and looked at Ye Chen with unbelievable eyes. After a long pause, she said, "Er, please pay the registration fee..."

Ye Chen nodded and waved his hand. A burst of precious light flashed, and all kinds of treasures appeared on the table top!

These treasures are the tuition fees paid to Hong Jin and others before ye Chen!

After discovering Ye Chen's rebellious talent, the three old slicks changed their attitude. They not only taught Ye Chen wholeheartedly, but also quietly paid back the tuition fees they had collected before!

They originally wanted to win the favor of Ye Chen, stand out among the three, and have a higher status in Ye Chen's heart

But what they didn't expect was that all three of them did the same thing!

Thinking of this, ye Chen can't help smiling.

The woman counted the treasures on the table, nodded and said, "enough."

After recording Ye Chen's information, she handed a token to Ye Chen, which is the certificate for ye Chen to enter the examination room!

However, she shook her head in secret. In her opinion, the young man could not pass the examination, and these treasures were given to the puyun Association for nothing.

After finishing all this, ye Chen then walked toward the square of the paiyun hall.

Just entered the square moment, is "Shua" sound, countless eyes, toward him!

In a flash, ye Chen became the focus of the public!

These people, or ridicule, or surprise, or disdain, or Schadenfreude, the same.

The reason why they look at Ye Chen so much is that they have heard about the gambling!

However, ye Chen is not satisfied.

Deng Shaofeng took a look at Ye Chen, and with a cold smile, he focused his attention on the examination which was about to begin.

In his opinion, ye Chen is just a clown.

Chapter 3746

At this time, a middle-aged man with a bald head and dark complexion suddenly appeared in front of the public and said slowly, "this cloud screening examination officially begins. Please enter the examination room!"

In a moment, a very dignified atmosphere, among the people, filled with open!

Those soldiers, like soldiers who rush to the battlefield, walk towards a very tall and majestic temple in front of the square!

There, is the examination room!

Soon, countless martial artists entered the examination room one after another. However, the area in which everyone lived was different.

The first area, with the largest number of people, is the examination room for junior cloud master. Xu Shenglong is here.

In the second area, there are only a few tens of thousands of people. Here, it is the examination room for intermediate Pyun masters. Deng Shaofeng is also in it!

To the third area, but only a few dozens of people!

And most of them are old people with white hair!

Among them, there is only one young man, that is Ye Chen!

Those old people look at Ye Chen with scorn on their faces.

These people, also known as the well-known old-fashioned cloud division, have become the cloud division for tens of thousands of years, right?

Some, even hundreds of thousands of years before they dare to participate in the assessment of senior cloud master!

How old is this kid?

What's more, they've heard that the boy has only learned the three methods of cloud plucking for ten days? Also dare to participate in the assessment of senior cloud master? It's just sensationalism!

If all of these can pass the examination of senior cloud dispelling masters, then these veteran cloud plucking masters who have practiced the three methods of cloud plucking for tens of thousands of years, or even hundreds of thousands of years, really want to die directly?

In the distance, Deng Shaofeng took a look at Ye Chen's direction and said with a sneer: "ha ha, when the examination starts, I'll see if you can still put on it!"

All of a sudden, a bell rang through the whole movie theater, and the assessment of the cloud master officially began!

In the senior examination room, an old man with white hair and childlike face and proud look came to the examination room like a dragon and a tiger.

When they saw the old man, they all looked awe inspiring, and saluted respectfully: "see Master Chen!"

This man, named Chen yuanbiao, can be called one of the best senior cloud removing masters in this area!

It is said that his success rate has reached 80%!

Even, in his lifetime, he had a chance to impact master puyun!

At the same time, he is also the vice president of the cloud clearing association here.

After Chen yuanbiao, there are two old people who are also senior cloud spotters.

These three people are the examiners!

Chen yuanbiao said: "well, the assessment is about to start, and the rules are very simple. Next, there will be a thousand martial artists in the examination room. What you have to do is to distinguish their accomplishments. As long as the accuracy rate is above 70%, you can pass the examination!"

The three of me are invigilating the examination. I hope you don't have any idea that you shouldn't have. If you find fraud, you will be directly deprived of the qualification of cloud cloud master, and you will never be allowed to participate in the assessment. "

Said, Chen yuanbiao also specially looked at Ye Chen one eye!

He also heard about the gambling. In his opinion, if the boy is not too stupid to describe, I'm afraid that he has something to think about carefully!

However, he will never allow this kind of thing to happen. If this boy can cheat in front of his own eyes, he will not be the vice president!

Immediately, many martial arts people swarmed into the meeting hall. All of them wore special masks and could not see their faces. Even under the cover of a black robe of the same style, they all had the same figure!

These warriors are all from the puyun Association. The masks and black robes are also specially made. It is basically impossible to cheat.

At the same time, pieces of jade crystal walls also appeared in front of a large number of examinees. First, they should lock in the objects to remove clouds with their mind, and then, on the jade crystal walls, write down their accomplishments with the power of divinity.

The information on the jade crystal wall can only be seen by yourself and the examiner, so you don't have to worry about being peeped at.

For a moment, the atmosphere of the whole examination room became serious. One examinee, without saying a word, stared at the martial arts in front of him. He used the three methods of removing clouds he had learned to distinguish the accomplishments of these black robed men!

In the intermediate examination room, a middle-aged man looked at Deng Shaofeng's judgment through the crystal wall in front of him, and could not help nodding slightly.

The Deng family is really worthy of its reputation. In this way, the young man will have no problem passing the intermediate examination!

Deng family has born such a young intermediate cloud division, it seems that the future will be more powerful!

Perhaps, thousands of years later, the Deng family will have a senior cloud master no more than 10000 years old!

In that case, even the cloud clearing Association will give the Deng family some face.

At this time, Chen yuanbiao is also observing the examination results of a large number of candidates in the senior examination room. Can't help but gently shake his head, the level of these old paiyun division, very good, basically all people's judgment accuracy, are above 60%!

Even, it reached 6.50%!

Yes!

He knows that the accuracy rate of 0.50% is just like the abyss of heaven!

It is very likely that no one can pass the examination for senior cloud spotters.

But suddenly, Chen yuanbiao is a flash of color, he found that there is a candidate, the speed of judgment is extremely rapid?

Even for those veteran cloud master with extremely rich experience, it takes about three breaths to accurately judge a martial artist's accomplishments. However, this examinee has almost one breath, so he wrote down an answer!

At the moment, most of the senior examinees have only written down one or two hundred answers, but the examinee has given more than 500 answers!

Chen yuanbiao's face showed a trace of anger, this is nonsense!

In his view, this person is a random answer, casually fill in the answer, no real judgment, discrimination!

It's just like on earth, the students in the exam are confused about the results of multiple choice questions!

It's just to make trouble!

He is the vice president of the cloud clearing Association in the dangerous Movie City area. He is not here to supervise the examination for such troublemakers!

And this person, it is Ye Chen!

When Chen yuanbiao saw the name of the examinee, a sneer immediately appeared on his face.

Ha ha, it seems that the boy's cheating method is not useful?

Now, it's all you have to do?

This, in Chen yuanbiao's view, is also a natural result.

He looked at Ye Chen's eyes, and suddenly flashed a sharp color. He secretly said, "boy, do you think you can fill it in at will and it will be ok? Ha ha, I'll take the exam attitude as an excuse, so that you can't take part in the assessment of cloud master in this lifetime! "

Chapter 3747

Originally, Chen yuanbiao didn't even bother to take a look at Ye Chen's paper. Anyway, the result of this kind of blind guess is meaningless.

Do you really think you can pass the exam by guessing?

Hehe, there is nothing to participate in the cloud master assessment.

However, just as he was about to browse the next examinee's test paper directly, his body suddenly trembled at a glance, and the whole person was frozen in place like an ice sculpture!

A drop of sweat from Chen yuanbiao's forehead, slowly sliding down!

"Master Chen, what's the matter with you?" asked a cloud removing master beside him

Chen yuanbiao did not speak, but his eyes trembled at the answers left by Ye Chen. He carefully looked at all the answers, and the trembling of his eyes became more and more intense!

For a moment, the famous senior cloud spotter was pale and breathless. He looked at the young man not far away, who was writing down the answers casually. He could not help swallowing his saliva and muttering to himself: "impossible! This is absolutely impossible

The other two examiners looked at each other and frowned.

What is it that makes master Chen so calm?

They subconsciously looked at the jade crystal wall in front of master Chen

At this point, they seemed to be struck by lightning, and the whole body was shocked!

At the moment, the answer on Ye Chen's test paper is as high as 80%!

Even, there is a trend of more than 80%!

How could that be possible?

This kid, didn't he just practice the three methods of removing clouds for ten days!

For a while, the attention of the three examiners has been completely attracted by Ye Chen's test paper, and there is no slightest concern for other candidates any more!

It's like you go to the zoo. If a dragon suddenly appears in front of you, will you go to see tigers and lions?

These people only feel that they are witnessing a miracle!

The brain is boiling!

They don't know how this indifferent young man managed to do all this!

Even if Xu Shenglong is here, he will be very surprised, because ye Chen's success rate of removing clouds at this moment is even higher than Hongjin's three elders!

How did he do it?

Ye Chen looks as usual, and his mind is locked on a warrior in black. At the next moment, a strange aura concussion comes out of his body and covers the warrior in an instant!

This is Tongyuan method!

Through the spiritual power shock, cause the other party's true element resonance, through the resonance intensity, to judge the other party's martial arts cultivation!

Tongyuan method is relatively speaking, the highest success rate of the method, unless encounter Ye Chen such as strength and cultivation gap is extremely large, otherwise, it will not be wrong.

Ye Chen uses Tongyuan method, which is reasonable!

His eyes flash, through the resonance intensity of the Tongyuan method, it seems that this person is the existence of the three layers of heaven!

But

Ye Chen did not write down the answer on the test paper!

Because, he to this person's strength judgment, has not ended!

The next moment, the huge power of the spirit poured into Ye Chen's eyes. At the same time, the darkness of his eyes spread and turned into pure black color. The body of reading demons was displayed!

In his eyes, there was a flicker of strange light, as if to see the law power of the whole body of the warrior, because of his existence, and the track of change!

This is a view of nature!

Ye Chen's eyes are slightly narrowed. From the distorted form of the power of the law, this man's cultivation should be in the four layers of the sky!

The result of these two cloud removing methods is a conflict!

At this time, the darkness in Ye Chen's eyes dissipated in an instant. Instead, it was a state of purity, a state of forgetting both things. Ye Chen, who had abandoned all his thoughts, had inspired his instinct and intuition of danger to the extreme!

After an instant, ye Chen's eyes brightened up again. He put a smile on his face and wrote down the answer on the test paper.

Mend the sky, three layers of sky!

Chen yuanbiao and other three examiners, their eyes trembled again!

Ye Chen's answer, correct again!

They're going crazy!

Today, ye Chen has answered 700 questions, and the accuracy rate is 83%!

This number, too frightening!

We are close to master Piyun!

However, what they don't know is that this is the result of Ye Chen's deliberate effort!

Ye Chen knows that in this dark area, before there is not enough strength, it is better to keep a low profile. Master Piyun is too attractive!

Wood show in the forest, the wind will destroy the truth, he will not fail to understand.

Although the cloud master has a certain position in the dark area, in the final analysis, the three methods of cloud plucking are only an auxiliary ability, not a real force! A master of Piyun who only has the realm of heaven and God?

That, just can become the tool of those big men in dark area, chess piece just!

This is not what ye Chen wants.

However, if there is no fame at all, it is difficult to rise in such an environment!

Not to mention finding Xia Ruoxue.

And senior cloud master, just right!

In this way, he also has the capital to negotiate with some forces in the dark region!

In fact, the accuracy rate of Ye Chen's judgment on the strength of the martial arts has reached more than 90%!

Even if he participated in the examination of master Piyun, he was confident that he could pass!

At the same time, the people who have thought of the five levels of cloud cultivation have thought that they can improve the rate of the five methods!

Since ancient times, few people have been able to do it!

But ye Chen did it!

Of course, it is also a way to improve the success rate to find three cloud clearing masters who practice different methods. However, the effect is far less than that of one person practicing three methods. After all, only by integrating the three methods can we discover the truth after cloud fog in the subtle differences!

Soon, ye Chen wrote down the accomplishments of a thousand martial artists. He stood up slowly and said to the three examiners, "I have finished the examination. Can I leave the examination room first?"

Chen yuanbiao three people smell speech, just stupidly nodded, at the moment, their brain has been almost unable to run!

763!

Ye Chen, have accurately judged the accomplishments of 763 martial artists!

The success rate of removing clouds is as high as 75%!

This is terrible!

The movie theater is located in the southeast corner of the dark area, which is divided into 19 states. The area of the city is the smallest among the 19 states, and it is called the hell state!

Even the president of the Mingzhou cloud clearing Association, the success rate is only 85%!

There are no more than 500 people who can reach the success rate of Ye Chen!

Chapter 3748

Chen yuanbiao three people, has not been able to distinguish whether this is reality or illusion!

Did the boy really only practice the three methods of removing clouds for ten days?

Ye Chen sees the look of three people, can't help but touch the chin, is he doing too much?

Maybe, should we lower the score a little bit?

However, ye Chen didn't get entangled too much. He turned around directly and left the examination room.

Those who are still answering the old paiyun masters are cold smile.

In their opinion, ye Chen was definitely filling in some answers at random and left. Otherwise, how could he have completed the assessment so quickly?

This is also a natural result!

Deng Shaofeng in the distance also looked at Ye Chen ironically. He could not wait to see ye Chen kowtow and apologize!

With a grim smile, he said to himself, "well, after the examination, the list of qualified candidates will be announced. At that time, countless martial arts practitioners who participate in the examination will gather together to serve as a stage for you to kowtow and apologize, which is the most appropriate stage."

Ye Chen stood outside the examination room, waiting for the end of the examination. At this time, Xu Shenglong also came out of the junior examination room.

When ye Chen saw him, he said with a smile, "how was your exam?"

Although Xu Shenglong took part in the examination only by the way, the three methods of removing clouds, even if they are not in this dark area, are quite useful as an auxiliary means. Ye Chen naturally hopes that Xu Shenglong can master one of the three methods of removing clouds.

"I'm not sure if I can pass the examination Brother ye, how are you doing there

Ye Chen patted Xu Shenglong on the shoulder and said, "don't worry, as long as you play normally, you can pass the primary examination. As for me..."

Speaking of this, he suddenly looked, turned his head, looked in a certain direction, and saw three men with sneers coming towards him.

It was Deng Shaofeng and the two disciples of jiuqingshan.

Deng Shaofeng sneered: "as for you, then? Why don't you go on? "

Ye Chen said faintly: "what are you anxious about? When you announce the results later, don't you know? Or are you afraid of losing face in front of the public, and now you want to kowtow and apologize to me? If this is the case, I can allow it. "

When Deng Shaofeng heard this, he was angry. However, he soon calmed down. He said with a contemptuous smile: "you can also take advantage of it now to pretend for a while. Ha ha, I will remember every word you said. When the results are announced, I will redouble it!"

Ye Chen shrugged his shoulders and said, "I'll wait."

Seeing ye Chen's attitude, Deng Shaofeng flashed a gloomy look in his eyes and snorted coldly. He stopped talking.

He didn't understand, how can this boy still be so calm?

I don't really think that with the help of Mongolia and luck, I can pass the examination of senior cloud cloud master, right?

This is not a multiple choice question with only four options!

The people in black prepared by the puyun Association, though the most powerful, will hardly reach heaven and earth!

But the lowest one, even the ordinary people who have no accomplishments!

How many realms are there?

If you want to rely on Mongolia and pass the assessment of senior cloud spotter, you have no chance!

However, in front of him, this indifferent youth who only practiced the three methods of cloud plucking for ten days could not pass the examination of senior cloud plucking master, but he gave Deng Shaofeng great pressure inexplicably!

As time goes by, the assessment has already ended, but it is strange that the bell for publishing the assessment results has not sounded for a long time.

Deng Shaofeng stamped his feet impatiently and said, "what's the matter? If it's always the case, it's time to announce the results."

.....

Chen yuanbiao and Chen yuanbiao are gathering in a secret room. They have examined and approved the examination papers of the senior cloud master examiners. As Chen yuanbiao expected, except ye Chen, the most successful of these old paiyun masters is only 69.7%, which is far from 70%!

That is to say, only one qualified senior cloud spotter is qualified. This person is naturally Ye Chen!

Now, they hold the jade crystal wall that ye Chen used to answer the question in their hands, and repeatedly check, as if they are looking for something

But, nothing!

Next to Chen yuanbiao, an old man named Han Lu, who had a thin face, hesitated and said, "master Chen, we have been looking for it for a long time, but we can't find the trace of this boy cheating at all!"

The reason why the three of them delayed so long and did not publish the assessment results was to find evidence of Ye Chen's cheating!

After all, in their opinion, it is absolutely impossible for them to pass the examination of senior cloud plucking masters if they have only practiced the three methods of cloud plucking for ten days!

Cheating is the only explanation!

Can, even if looked for half an hour, used all means, but still did not have any discovery! Another old man named Lin Zu said with flashing eyes: "will Can this kid rely on his strength and pass the examination? "

When Han Lu heard the speech, he glared at him and said, "brother Lin, are you stupid? Can you say that? Have you ever seen anyone in the history of dark regions passed the examination of a senior cloud spotter in only ten days? "

Among the three, there was silence, and the atmosphere of the secret room gradually became strange.

All of a sudden, Chen yuanbiao slowly opened his mouth and said, "in history, there is really one person who has done this."

Both Han Lu and Lin Shu looked at Chen yuanbiao with a shocking look.

Chen yuanbiao put down the test paper in his hand. His eyes showed a trace of reminiscence and said: "you should know that I came from the Chen family. The Chen family is in the dark area. It can be regarded as the cloud master family with some details. Since ancient times, it has existed. When I was very young, my grandfather once told me a story

In ancient times, the population in the dark region was far from comparable now. Those hiding in the dark area were the forces that were not allowed by the Ming Dynasty. They gathered here to unite as one and struggle to survive

At that time, there were countless ferocious and terrifying monsters in the dark area. However, people in the dark area would rather face these monsters than face the so-called right path in the bright area

They know that the "right way" is far more terrible than this monster!

However, even if hiding in such a difficult place to survive, those powerful forces in the Ming domain are not willing to let go of the dark domain!

Every day, people die. Every day, people in the dark world live in fear

At this time, suddenly a young man came to the dark area

Speaking of this, Chen yuanbiao's eyes gradually brightened up, flickering faintly with the color of vision: "he is like a ray of light falling into the dark area, bringing a ray of vitality to the whole dark area. He is very young, but in the dark area, he has created countless records, and rose up crazily at an incredible speed..."

Chapter 3749

"It is because of his existence and a word from him that in the years to come, the strong in the bright realm will never dare to step into the dark realm, and even never mention the existence of the dark realm!

Over time, most of the people in the bright field completely forget the dark field! Because of this, the dark region has got the chance to breathe and grow stronger and stronger!

And this person is also the founder of the three methods of removing clouds! In just ten days, he created these three miracles

Han Lu and Lin Zu were surprised when they heard the words. They not only practiced, but also created the three methods of removing clouds in ten days. If they didn't come from Chen yuanbiao's mouth and killed them, they would not believe it!

They asked the same question: "isn't the three methods of removing clouds created by three wizards respectively?"

Chen yuanbiao, smiling and shaking his head, said, "those are just three disciples of this man. They were mistaken by later generations of people in the dark region as the creators of the three methods of removing clouds."

Speaking of this, in Chen yuanbiao's eyes, shenmang Yisheng said: "therefore, the three methods should have been used together to achieve the ultimate goal."

Han Lu said in disbelief: "master Chen means that this boy has practiced the three methods of removing clouds to a high level after ten days of practice"? With each other, we have achieved this incredible success rate? "

Chen yuanbiao nodded: "only this kind of explanation, and, I think, this boy deliberately lowered his success rate of cloud cleaning!"

What!

Now, Han Lu and Lin Zui really can't breathe!

Participate in the assessment of senior cloud spotter, but also deliberately lower their success rate?

Is this still human?

If there are such evil spirits in the world, then other cloud removing masters don't have to live at all!

Chen yuanbiao said, "did you forget? At the beginning, his success rate of cloud removal almost exceeded 80% of the total, and then gradually decreased... "

There was another silence among the three people. They all felt that their world outlook and martial Taoist View were a little broken down

Because of Ye Chen's existence and collapse!

In their minds, Chen yuanbiao could not help but overlap Ye Chen with the mysterious man who suppressed the whole Ming Dynasty and did not dare to act rashly!

"Master Chen, do you have any clue about the identity of the strong man in those days?" Lin asked

If the boy named ye Shitian is the descendant of the mysterious strong man, maybe everything has a reasonable explanation

Chen yuanbiao's eyes flashed slightly: "no, at least, we can't get any clues from the position of the Chen family, but

That man, it seems, is Ren! "

Han Lu said, "master Chen, what are we going to do now?"

Chen yuanbiao said in a flash: "at all costs, let this young man named Ye Jingtian join our Mingzhou cloud removing association!"

.....

A bell rings through the whole movie theater. The candidates who have already been waiting for some anxieties will have a look after hearing the bell!

Some people, with a happy face, while some people, but a pair of incomparable nervous, uneasy appearance!

A gate, slowly opened, behind the gate, is a square, a huge enough to accommodate tens of millions of people!

In front of the square, there is a high platform. An old man with crane hair and childish face is standing on it with his hands on his back. It is Chen yuanbiao!

When all the warriors entered the square, Chen yuanbiao said with a smile: "this time, all of you have achieved very good results. Among you, a total of 14323 cloud clearing masters have been born, which is much higher than the previous one."

When they heard this, they were all excited and cheered.

As soon as Chen yuanbiao raised his hand, he motioned for the crowd to be quiet, and then continued: "among them, there are seven intermediate cloud removing masters!"

With that, he looked at Deng Shaofeng and said with a smile: "among them, some candidates have also made outstanding achievements. Let's put high hopes on the Mingzhou cloud clearing Association."

When they heard this, they all looked at Deng Shaofeng, showing an envious look. They congratulated him one after another!

Not everyone can be named and praised by master Chen!

Deng Shaofeng's face is full of joy, as well as a touch of pride, originally because of Ye Chen's irritability, also in an instant, swept away!

He cast a playful look at Ye Chen, and he has won the victory!

Master Chen has praised himself in public, that is to say, he Deng Shaofeng is probably the most outstanding examinee in this examination!

If the boy surnamed Ye has passed the examination of senior cloud master, he should be praised, isn't he?

At this time, Chen yuanbiao gently coughed and said: "next, we will publish the list of qualified personnel. Starting from the junior cloud division, those who have been called to the name will come to the stage to get the license of the cloud division!"

After that, Chen yuanbiao retreated to the stage. Another woman from the puyun Association, holding a jade crystal ball in her hand, went up to the platform and said, "junior master of cloud puyun, qualified list, Li Chun, Lin Han, Wu Yuan, Chen Shao..." Soon, the license of the primary cloud master was issued. The woman said, "all the license of the junior cloud master has been issued. Please leave the square for the candidates who take part in the examination of the junior cloud master!"

Many martial arts people are lost when they hear the words, while those who have successfully obtained the license are full of smiles and jubilant!

Xu Shenglong has also successfully passed the examination of the junior cloud spotter.

In a short period of ten days, he can pass the examination of a junior cloud master, which is quite an adverse result. However, Xu Shenglong has no pride. What is his achievement compared with elder brother ye?

Next, to the intermediate cloud division license issued!

Intermediate cloud division assessment, only seven qualified, the last name read, is Deng Shaofeng!

This woman, did not continue to speak, but slowly walked down the platform!

Seeing this scene, Deng Shaofeng's expression became more and more intense. This woman stepped down directly. Does that mean that the publication of the results is over?

There is no one who has passed the assessment of the senior cloud master!

The boy surnamed Ye is really just bluffing!

The next moment, Deng Shaofeng held his head high and got the intermediate cloud division license!

Under the stage, there was earth shaking applause. The candidates who had not left applauded one after another. Many people couldn't help but exclaimed: "Deng family, it's worthy of being a well-known cloud master family!"

Deng Shaofeng's look, more and more proud, he stepped down the platform, actually is straight toward Ye Chen.

Many people see this, are pondering a smile, showing a look of interest!

At this time, there were millions of warriors gathered in the square. The reason why they did not leave was to wait to see this scene!

Before, the boy named ye Shitian left a bet. Now, should we cash it?

Chapter 3750

Deng Shaofeng stood in front of Ye Chen, and his face became more and more contemptuous and cruel. He said, "boy, don't you think you can pass the examination of a senior cloud spotter?"

Now? Do you remember that I once told you that I would make you regret every word you said

On one side, Xu Shenglong hears the speech and gets nervous!

How could this happen? Why did the woman step down?

Isn't there a qualified list of senior cloud spotters not published!

Did ye really fail to pass the examination?

He looked at Ye Chen, but he was slightly stunned!

Ye Chen, until this time, actually is a pair of incomparably indifferent look!

Ye Chen looked at Deng Shaofeng and said, "what are you in a hurry? Now, isn't it time to issue a senior cloud spotter license? "

Deng Shaofeng laughed, as if he had heard some funny joke. He said to the crowd, "look, this boy, you have to continue to pretend! Wait until the senior cloud master issues the license? When you're dying, you start to make excuses? "

Around people, look at Ye Chen's eyes also cold up, followed by a burst of laughter!

Deng Shaofeng's expression suddenly became gloomy and said: "boy, no one has passed the examination of senior cloud master. So, do you want to wait for the senior cloud master to issue a license?

Well, I can't wait in my life! Before, weren't you very arrogant? Don't you like gambling? Now, it's time for you to honor your bets

The onlookers also coaxed: "honor the bet! Cash the bet! Honor the bet

For a moment, these millions of warriors, shouting to the sky, actually forced Ye Chen to kneel to Deng Shaofeng!

Xu Shenglong has a dignified face and fierce light in his eyes. He, as a follower of Ye Chen, can never let Ye Chen be humiliated. If necessary, even with his own life, he will kill Deng Shaofeng!

If a person is dead, what kind of bets should be fulfilled?

But ye Chen, but will hand, gently pressed on Xu Shenglong's shoulder, a smile, toward the high platform, cast a look, light way: "start."

It's on?

Deng Shaofeng is too lazy to look back, just like a fool, looking at Ye Chen, this boy is going to kneel, and as a result, he wants to pass the test by pretending to be crazy and being stupid?

What else started?

No, you still have the illusion that you can pass the examination of senior cloud spotter?

But all of a sudden, the whole square is quiet!

Deng Shaofeng frowned slightly and looked at a warrior beside him and said, "what's going on?"

At the moment, the man looked at the platform in front of him and said, "master Deng, master Chen, he On stage again... "

What!

Deng Shaofeng's face changed and he suddenly turned around. He saw that the old man with white hair and childish face was standing on the high platform again!

For a moment, Deng Shaofeng was a little flustered!

Isn't the ceremony of awarding the license of cloud master over?

Why, master Chen is back again!

His heart, suddenly filled with a very strong foreboding!

All of us are looking at Chen yuanbiao, the vice-president of the Mingzhou cloud clearing Association. It is obvious that there is no reason for this!

Chen yuanbiao said with a smile: "there are so many people who have not left? Do you have a sense of what's going to happen

With this sentence, the hearts of millions of warriors are raised!

Is

At the next moment, Chen yuanbiao said in a loud voice: "in this year's cloud division assessment, we have successfully produced a senior cloud master qualified!

This is the luck of the whole Netherland cloud clearing association! Therefore, the senior cloud master license is issued by me to this qualified person in person

When people heard the speech, they only felt that their scalp was about to explode, and Deng Shaofeng suddenly trembled slightly!

Actually, someone has successfully passed the examination of senior cloud spotter!

But at this time, an old man, who was named Song zhu, has been a cloud master for 100, 000 years with a wild laugh!

He was also the person who was originally in the opinion of the cloud removal association to become a senior cloud master in this assessment!

When they saw Song zhu walking towards the high platform, they were relieved

It turns out that the qualified person is not ye Shitian

Deng Shaofeng also had a farfetched smile. He was almost scared to death just now. Yes, a person who has only practiced three methods of cloud removing for ten days can not pass the examination

However, when song Zhu was about to ascend the platform, he saluted Chen yuanbiao and said, "master Chen..."

Chen yuanbiao, however, shook his head indifferently and said, "Song zhu, do you remember the feeling of climbing on the high platform?"

Song zhu is slightly stunned. What does Master Chen mean by this?

In his opinion, if only one person can pass the examination of a senior cloud spotter, that person can only be himself! Master Chen, shouldn't you congratulate yourself?

What's the matter?

Chen yuanbiao said with some regret: "Song zhu, your achievements this time are very good. The success rate has exceeded 69%! Unfortunately, the gap of a few tenths of a percent is fatal to the assessment of cloud spotters. I hope you can remember the feeling of getting a license on stage. Next time, make more efforts! "

When Song zhu heard the speech, he was frozen in the same place. His face was already quite old. It seemed that he was getting older in an instant!

He looked at Chen yuanbiao unwillingly and asked subconsciously, "no way! Besides me, who else can pass the examination of senior cloud spotter? "

Hearing the speech, Chen yuanbiao cast his eyes on someone.

And a warrior on the square, following Chen yuanbiao's eyes

At the end of Chen yuanbiao's sight line is a young man with a cool look

At that moment, it seemed that there was an ice wind blowing from the extremely cold place, sweeping the entire square, freezing all the millions of soldiers present!

One by one, their eyes widened, as if they were statues, motionless looking at the people in front of them

Chen yuanbiao said with a smile: "ye Shitian childe, Congratulations, you have successfully passed the examination of senior cloud spotter. Please come to the stage and get a license."

The one who passed the examination was really the one who, according to the rumors, only practiced the three methods of removing clouds for ten days, and then made a bet with Deng Shaofeng, the genius of the famous family of paiyun, Deng Shaofeng, and caused a sensation to the youth of the whole movie theater!

In the corner of the square, a man with thin eyes and gentle temperament gazed at Ye Chen, who was walking quietly towards the high platform. With a slight smile, he said to himself, "this time, there is no such a trip in vain. It seems that I have dug up the treasure."

At the moment, ye Chen is already standing on the high platform. He takes over the license of senior cloud division from Chen yuanbiao. He looks down at the millions of martial artists present and suddenly smiles.
