Chapter 3841

In the dark ghost eye of Chen you, a gloomy blue light appeared: "do you seem to see my origin? Don't you know that the existence between life and death, like me, has a unique sense of a person's birth, spirit and so on?"

But you, I do not know why, so that I always feel nothing, even in the face of heaven and earth, I can sense the birth of the martial arts, but why can't you? "

Ye Chen Mou Zi congeals, he was the reincarnation master in the previous life, this life has reincarnation blood, in a sense, he is above life and death, how can Chen you feel his birth and spirit?

Chen you's face appeared a seeping smile and said: "if it were you, you would also be curious about what kind of existence you would get if you were made into a corpse?"

Ye Chen turned his wrist and a dark sword appeared in his hand. He said faintly, "don't you know curiosity will kill people? It's a pity that you have already died once. You can't even die if you want to die. You can only die completely! "

When Chen you heard the speech, she said with a sharp smile: "completely disappeared? It's up to you? Even the guy who can't kill Xiaohei completely says that he wants me to die completely? "

Ye Chen's eyes flicker slightly, it seems that the black hair blood corpse was refined by Chen you.

At the next moment, he no longer speaks, and the body of the heavenly demon is displayed. A powerful evil spirit roars out of Ye Chen's body. The way of soul swallowing and the power of destroying Shinto are surging together!

At the same time, the yellow spring water melts into the Sha sword, and the blue and purple flame burns on Ye Chen's body surface. There seems to be a faint moonlight flowing over the flame!

A sword contains boundless power, the breath of destruction, the water of the netherworld and the frightening sword light of the power of the spirit. In this underground palace, it suddenly appears and rushes towards Chen you!

All of these can restrain ghosts!

It's a pity that the ancient method of Hongmeng will be suppressed in the dark area. Otherwise, it will be very effective to use the sound of Tianlong and eight gods!

Facing this sword, Chen you's smile solidified instantly, and a look of fear appeared in his eyes!

As a corpse baby, he is naturally restrained by the power of destroying Shinto, the water of the netherworld and the power of soul devouring!

However, Chen you're a gloomy and cold snort: "it seems that you are not a ghost warrior? Do you think you can defeat me with this soul eating and destroying way? Give it to me

Chen you fiercely opened his mouth, and a black blood arrow gushed out of his mouth. On the blood arrow, there was a huge amount of dead gas and resentment. At the moment of its appearance, the whole wanmie forest seemed to tremble, and countless ghosts cried!

The next moment, the black blood arrow, and ye Chen cut out of the sword, ran into each other!

The powerful impact of the spirit, accompanied by the power of destruction, burst out from the sword. Chen you uttered a painful cry. In his eyes, there was black blood, and there were sword marks on his green and black body. However, at the next moment, on the blood arrow, the stillness was overwhelming the impact and destruction of the spirit!

The sword that ye Chen cuts out is actually under the impact of the blood arrow, and the black blood arrow is also a flash, instantly hit Ye Chen!

With a loud noise, the whole underground palace was shaking. Ye Chen's body was like a broken kite. He was hit by the blood arrow and hit the wall of the corridor behind him!

This wall is made of unknown material, but it is extremely strong. It has withstood the impact of Ye Chen. It just shows the cracks and doesn't collapse completely!

Ye Chen's body fell to the ground, and his breath was slightly weakened. His face was pale. On his chest, he was blasted out of a big hole by the blood arrow. The blood ran straight, and the boundless dead gas poured into Ye Chen's body from the wound, destroying his channels and flesh wildly!

Heaven and earth, two layers of heaven and earth hit, too terrible!

Even with Ye Chen's vitality, he could not bear the blow

And this, or in the case of Chen you did not show his own!

Seeing this, Chen you laughed and said, "is that it? You want me to die? Hehe, however, your vitality is a little surprising to me. Maybe you can become a more advanced body refining body after your death? Hey, Mr. Ye, it's not necessarily a bad thing to die in my hands, isn't it? "

Ye Chen slowly gets up from the ground, and the blood hole on his chest gradually heals. Chen you looks more excited and says: "Mr. Ye, you are really going to surprise me. Even those powerful corpses in ancient times may not be able to recover from such a heavy injury like you, right?"

I can't wait to turn you into a corpse

Ye Chen wiped the blood from the corner of his mouth. Without saying a word, the sword danced again and rushed towards Chen you!

Chen Yougui laughs, and the whole body is full of stillness. Two bone spines appear in the baby's little hands and kill Ye Chen!

They collided again!

This time, it is still Ye Chen's body is severely bombed, and ye Chen's shoulder is pierced with a big hole!

Ye Chen struggled to get up from the ground!

Chen you holds the bone spur, does not pursue, but looks at Ye Chen playfully, as if like a cat playing with a mouse. He wants to see if this guy can recover?Ye Chen lightly swept his wound one eye, a hand pressed hard in the wound place!

The next moment, the flesh and blood are growing wildly, this injured arm, actually is blink of an eye, then recovered again?

Chen you looked at Ye Chen, as if he were looking at some rare treasure. He laughed and said, "Mr. Ye, are you a little too rebellious? Never let me down! I'm a little reluctant to kill you like this

Ye Chen did not say a word, again toward Chen you attack, each time is seriously injured, each time, are knocked down to the ground, but, ye Chen just rely on that terrible vitality, carry down!

At first, Chen you was still in the mood of having fun, but the more you hit Chen you, the more terrifying it was!

Even if he wants to beat Ye Chen, it seems that he can't do it easily!

Whenever he thought, ye Chen should fall, but he always in the next moment, can stand up!

As if, will never be able to knock down the War Ghost general!

Chen you coldly looked at Ye Chen, who was scarred and pale at the moment, and said with some displeasure: "Mr. Ye, why do you still want to stand up?"

I don't know. Am I tired of it? You should be down. Don't worry, I won't kill you so soon. Before you die, we have to play a lot of games. In this way, you can become a powerful corpse refiner, you know? "

Ye Chen did not seem to hear the general, the body moved, then again attack!

Chen you's look, completely gloomy down, sneered: "you don't really think I can't defeat you? Mr. Ye, I seem to have overestimated you. Up to now, you haven't put yourself into practice? Have you not touched the world yet? Or is it that you haven't trained yourself? "

Chapter 3842

When ye Chen heard the speech, he finally stopped and said, "what about you? As a corpse baby, you are born with extremely strong strength. However, the actual birth time is not long, right?

Although you have devoured the soul of the corpse Taoist warrior who refined you and inherited part of your memory, through the fight just now, I can be sure that your martial arts attainments are not very high.

After all, as a corpse refiner, you were originally just a puppet driven by living people. Although you have a sense of mind by accident, it is more difficult than a human warrior to become a self-contained one?

This is why you have to introduce me into the underground palace before you dare to do it! The stillness in this underground palace is so strong that it has almost become an alien existence. Even if the ordinary martial arts of heaven and earth exert themselves, it is not easy to change the laws in this underground palace. "

Ye Chen looked at Chen you sarcastically and said, "in the final analysis, refining corpses is refining corpses. If your father controls this body, maybe you can defeat me, you? Ha ha... "

Chen you's strength is much weaker than those who are strong in the palace of emperor yuan!

Although the breath is the heaven and earth realm, the strength of martial arts is estimated to be almost the same as that of the outer world.

However, in this area, the strength has increased a lot.

Otherwise, ye Chen could not be so embarrassed.

Chen you smell speech, the face suddenly ferocious rise, the fierce drink way: "give me shut up

At the next moment, his whole body was full of stillness, and the dark blood gushed out of his body. On his green and black skin, he turned into blood runes. The turbulent resentment almost turned into substance!

The corpse baby seems to have been stabbed by Ye Chen in the pain of his heart. He is going to make a move without reservation!

Ye Chen said with a smile, "that's right. If you don't exert all your strength, how can you improve my combat experience?"

Chen you savagely smile, this damned human, up to now still pretend?

Improve combat experience?

Exerting this blood resentment state will consume the original strength of the corpse, but it will also greatly improve its strength!

With this blood resentment state, now he even has the opportunity to break through the heaven and earth martial arts!

No matter how strong Ye Chen's vitality is, he can't resist his own attack now!

The next moment, Chen Youhua as a shadow, instantly appeared on the side of Ye Chen's body, the bone thorn in his hand, stabbed Ye Chen's head very quickly!

Ye Chen eyes a Lin, in that bone thorn is about to hit before his moment, suddenly wield a sword to cut on that bone thorn!

But!

Even if ye Chen reacts, at the moment when the sword in his hand contacts with the bone spur, an extremely frightening force bursts out in an instant. Even with Ye Chen's great strength, it is hard to resist. His sword holding arm has a burst of crack, and countless cracks have been made on his skeleton!

With a bang, ye Chen's body was bombarded to fly backward, and blood flowed across his arm. However, this is just a beginning!

Chen you Yin smile, unexpectedly is with unimaginable speed, catch up with Ye Chen again, spur crazy hit!

The huge impact sound, in this underground palace, constantly reverberates, is only three breathing time, ye Chen's whole body is full of holes, massive blood, from his body gushed, he gasped heavily!

Chen you appeared in front of Ye Chen, slowly raised the bone spurs in his hand, aimed at Ye Chen's eyebrows, and said with a sneer, "you don't mean to let me die? Now, can you still hold up your sword?"

"

Ye Chen seems to have fallen into a desperate situation. The blue and purple light of Xuanyan is gradually fading down, and even the formula of burning blood has been unable to maintain.

Ye Chen at the moment, has reached the limit!

However, strange is, ye Chen at the moment is still maintaining a calm look!

Ye Chen slowly raised his head and looked at Chen you. All of a sudden, his mouth was floating with a smile and said, "I don't seem to have said that it's me who killed you?"

"What do you say?"

Chen you smell the speech, slightly frown, the heart is actually filled with a very ominous premonition!

At this time, in the void behind Ye Chen, there are waves, and a woman's voice rings in Chen you's ear!

"Shi Ying, it seems that you want to refine my disciples into corpses?"

A woman with a veil and extremely graceful figure appeared behind Ye Chen. She looked at Chen you coldly and said, "do you know, his master will be very angry if you do this?"

This woman, of course, is the master of the underworld mansion, Gu Xuan!

Chen you has a pair of ghost eyes staring at Gu Xuan. Although he can't see through Gu Xuan's accomplishments, his heart is filled with a feeling of incomparable horror!

The next moment, Chen you suddenly screamed: "damn human, in this underground palace, I am invincible existence, since appeared in front of me, then you also go to die!"

Chen you's body shape is certain, suddenly turned into a shadow, appeared in front of Gu Xuan's body, the black blood Rune on the body surface, instantly burst out a burst of black light! Gu Xuan see form, beautiful eyes, but there is a look of disdain.

The corpse baby Chen you, seeing Gu Xuan face his own blow, has no intention of resisting it. On his horrible face, a ferocious color appears, and the bone spur in his hand stabs Gu Xuan's eyes!

The huge power erupted from the bone spurs. Even these two high-grade bone thorns could not bear the power of Chen you, and there were cracks in the road!

And in this bone spur is about to hit Gu Xuan moment, Gu Xuan finally moved!

She slowly raised her hand, stretched out a green jade finger, and pointed to the bone spur in front of her body!

Chen you sneered: "ha ha, woman, you are too big, in the face of my blow, only one finger to resist? In a moment, you will regret it! "

In a flash, Chen you's bone spur, and Gu Xuan's fingers, contact!

At this time, a strange scene appeared!

Gu Xuan in front of the body, suddenly emerged a touch of dark, the moment that the emergence of the dark, this underground palace in the infinite dead gas, seems to have begun to quickly dissipate!

Instead, it seems to be filled with the atmosphere of destruction in the whole world!

The ferocious color on Chen you's face solidified in an instant. He looked at the black awn in front of him in disbelief and let out a scream. He suddenly stopped his body and wanted to give up the attack and stay away from the black awn which was emitting a fatal threat!

Chen you has now come to realize that Gu Xuan is not the existence he can fight against!

The strength of both sides is totally different from that of the same class!

So, he wants to escape!

Gu Xuan saw this and said with a cold smile: "do you want to escape now? Can you escape? "

That dark light instantly turned into a very deep darkness, and shrouded Chen you's body like lightning!

The next moment, a shrill scream came out of the darkness. The darkness dissipated, and the terrible baby corpse disappeared from the world!

Chapter 3843

With a Ding Dong, a bloody stone fell to the ground.

Ye Chen's eyes flashed and his hand waved. He took the crystal into his hand. He asked xuanhanyu secretly, "xuanxianzi, what is this crystal stone?"

With the strength of the corpse baby's body, they all turn into dust under Gu Xuan's destructive power, but this crystal stone is intact. It must not be a simple thing!

Xuanhanyu said with a smile of joy: "this crystal stone is the blood of the corpse baby. It's called Yin and Yang blood essence. Its effect is much better than that of the ghost Buddha's sarizi. With the yin-yang blood essence of this corpse baby, I can have the real power comparable to the existence of the four layers of heaven and earth in a short time!"

At this time, Gu Xuan was a little elated and said, "disciple, who else wants to hurt you? The master will help you out

Obviously, the first time to maintain the feelings of his disciples, let Gu Xuan very enjoyable!

Kill a corpse baby, the ultimate intention is not enough!

Ye Chen smiles faintly. He is now the agent of the dark house in the Ming Dynasty. Just as Gu Xuan said, he will support his actions in the dark area as much as possible. Therefore, ye Chen asks Gu Xuan to hide in the dark and follow him to wanmie forest for an appointment.

Gu Xuan is here. No matter what kind of idea he is invited to wanmielin, he should be OK.

After all, the whole state of hell can not find a few more powerful than Gu Xuan.

The reason why Gu Xuan didn't let go at the beginning was that there were not many opportunities to fight with such a powerful existence. Ye Chen didn't want to miss any chance to improve his martial arts!

And Gu Xuan at this time, looking at Ye Chen is more and more like, ye Chen and corpse baby's war, let Gu Xuan have a more clear understanding of Ye Chen's adverse weather!

Originally, in Gu Xuan's eyes, her strength may not be the real peak in the dark region. After all, there are many old monsters that have existed since ancient times in the real big states of dark regions!

But in terms of martial arts talent, few people can surpass her!

But now, even Gu Xuan, who has always been extremely proud, feels that ye Chen's martial arts talent may still be above himself!

And such a monster is her disciple of Gu Xuan!

Thinking of this, Gu Xuan's pretty face under the veil can not help but emerge a very proud smile!

At this time, ye Chen has been along the corridor toward the depths of the underground palace.

The stillness in the underground palace is so strong that it is absolutely not simple!

Soon, ye Chen and Gu Xuan came to a very open hall, and here, the smell of blood is extremely strong, building countless blood pools!

Gu Xuan frowned and said, "the blood pool seems to be used for refining corpses. It seems that this corpse baby wants to refine some extremely powerful corpse demons. However, many warriors have been captured, but they all fail in the end."

Ye Chen nods. Before Chen you bought the sun moon Hualong pill, I'm afraid it's also an attempt to refine the corpse.

He crossed these pools of blood and went deep into the hall, and finally came to a gate.

Ye Chen faintly feels that after the gate is the source of the dead air!

Gu Xuan came here, look is also a rare serious point.

As soon as she waved her hand, the door in front of them was suddenly opened by a force!

At the moment of opening the gate, a strong breath of stillness surges out. Ye Chen and Gu Xuan are both pupils. The dead air behind the door is even more intense than in the underground palace!

What appears in Ye Chen's and Gu Xuan's eyes is a huge array, and there is a stone tablet in the center of the array!

They looked at each other, moved, and stepped into the array and looked at the stone tablet.

Ye Chen slightly frowned, the inscription on the stone tablet, but let Ye Chen have a faint sense of familiarity!

A part of his previous life, as if it had happened!

But the picture is too fuzzy, ye Chen can not be sure!

Has the reincarnation Lord ever dealt with the people behind these words?

The shape of the characters is quite strange, which exudes the meaning of antiquity!

Obviously, this is some kind of writing used in ancient times and even more!

Ye Chen asked Gu Xuan, "master Gu, do you recognize these words?"

Gu Xuan beautiful eyes flash way: "do not know, still have, I did not say to call my master!"

At this time, xuanhanyu opened his mouth and said, "I know this character."

Ye Chen looked motionless and asked xuanhanyu, "what is written on the stone tablet?"

Xuanhanyu was silent for a moment, then began to say: "it seems that the disaster that killed countless warriors was not an accident, but a man-made one!

The reason why the underground palace is so strong is that it is a place where the dead spirit can be condensed. In order to become a celestial corpse, one of the most powerful members of the Tianshi sect needs a place where the dead spirit is extremely strong. Therefore, he killed countless warriors in the wanmie forest, and then urged the array to strengthen the Jueyin place to coagulate death. Finally, at the cost of the lives of tens of thousands of living creatures, this underground palace specially prepared for refining celestial corpses was built! What is recorded on this stone tablet is his experience in refining the corpse of heaven. However, I don't know why, only half of it is written. It seems that in the end, he did not refine the celestial corpse in the legend! "

Ye Chen said: "is it possible that the corpse baby wants to refine is the corpse of this day?"

Xuanhanyu said: "it should be."

Ye Chen pondered for a moment. He suddenly reached out his hand and pulled the stone tablet out of the ground and put it into the storage bag. Although he was not interested in the way of corpse, even half of his experience in refining the corpse on that day was of infinite value. If it was left in his hand, it might have some effect. Moreover, he did not want it to be possessed by others.

If the corpse maker has been killed by hundreds of thousands of other people, who wants to die?

Later, ye Chen and Gu Xuan take out the bones in the blood pool, burn them and then leave the underground palace.

Ye Chen and Gu Xuan ride on Jinpeng, but they don't fly to the direction of Wuming city or the dark city.

The Jinpeng turned into a golden rainbow and gradually left the underworld

Three days later, ye Chen and Gu Xuan appeared in the sky above a seemingly ordinary ocean, but strangely, the divine eagle who inherited the blood of the golden winged Dapeng suddenly stopped in the air, and his feathers were constantly shaking, which seemed to be extremely afraid.

Gu Xuan snorted coldly, looked at Jinpeng with disdain, and said to Ye Chen, "next, we have to move forward by ourselves. Xiaojin dare not fly forward when he gets here."

Ye Chen nodded and looked at the front of the ocean with dignity. Even he felt a lot of pressure!

Chapter 3844

The next moment, ye Chen and Gu Xuan jump up from Jinpeng's back and continue to fly away in front.

I do not know how long the flight, ye Chen and Gu Xuan in front of the scenery suddenly a dark!

A dark cloud suddenly appeared above their heads!

And ye Chen and Gu Xuan are inexplicably feel a tight body, the top of the dark clouds, as if to bring infinite pressure to the two people, actually let them two, can not continue to advance an inch!

Even Gu Xuan is so!

And ye Chen looked at the scene in front of him, but his eyes trembled slightly!

In front of his eyes, there are six extremely huge islands!

Gu Xuan looks at the six islands. In her beautiful eyes, there is a look of reminiscence. Suddenly, she looks solemn and says to Ye Chen:

"here are the six extinct Islands I mentioned with you! It is said that this exterminating six islands was left by a great power of cultivating and destroying Shinto in ancient times. He searched all over the heavens and found six strange beasts. These six kinds of strange beasts represent the heaven and the six Taoism. Each of them has a kind of destructive power. If you want to quickly improve your own destruction Shinto in a short time, and thoroughly master the six extermination secrets that I have passed to you, this is the extinction of six islands The most suitable place for you to practice

With that, Gu Xuan took out a six color bead and handed it to Ye Chen, saying, "this is a six color pearl. Only those who hold the six color beads can enter the six extinct islands through the array set by the great power..."

Ye Chen nodded and took over the six color beads. In an instant, the power that was bound on his body quickly retreated!

At this time, Gu Xuan said again: "there is only one of these six colored beads, that is to say, only you can enter the six extinct islands. Moreover, after entering the island, unless you can defeat the six strange beasts on the island, you can't leave here!"

Ye Chen's eyes twinkle slightly, this extinction six islands, is equivalent to a test place!

It's a testing place for those who practice and destroy the Shinto!

Gu Xuan looked at Ye Chen with some worry and said: "the cultivation of these six strange beasts will be suppressed to a certain level according to the strength of the users. However, it is not an easy thing to defeat them!

Ye Shitian, even if your vitality goes against the sky, it's hard to withstand the repeated attacks of the six monsters. If you want to defeat the six monsters, you must fully understand the six extermination secrets in the process of battle, so that you can have a chance to do

I know that your martial arts talent is extremely against the heaven, but it's hard to get out of the six extinct islands alive!

Even for me, it took me a hundred years to master the six extermination secrets. Even so, in the process of challenging the extinction of the six islands, you are still dying. Your best choice is to fully understand the six extermination secrets, and then challenge the six extinction secrets... "

If Xiaorou is here at the moment, she will be startled out of her chin!

Gu Xuan, who has always had an extremely high vision and requires others' help from the standard of genius, is actually worried about Ye Chen at this moment. Moreover, he advises Ye Chen to practice the six extermination formula first?

You know, Gu Xuan has always been an advocate, in the actual combat, understand the road ah!

It can be seen that Ye Chen now challenges the six extinct islands, how difficult it is!

Even in Gu Xuan's eyes, it is almost impossible to complete

Gu Xuan looks at Ye Chen nervously. She doesn't want such a good disciple and a ghost state agent to die on the six extinct islands!

Therefore, she wants Ye Chen to retreat in the face of difficulties!

However, Ye Chen shook his head gently and said, "I have no time."

He, indeed, has no time. It is less than a month since March.

Even with his martial arts qualification, it will take months or even a year to fully understand Gu Xuan's six killing secrets in a normal way!

The only way to shorten this process within a month is to challenge the six extinct islands!

Therefore, when Ye Chen got the news of the extinction of six islands from Gu Xuankou, he had made a decision.

Gu Xuan stares at Ye Chen. In her beautiful eyes, she can't help but feel a touch of care. It seems that he is endowed with extraordinary talent. What is the future of a bright martial arts wizard?

Gu Xuan's origin is not simple. She was born in a top family in the dark region.

In fact, most of the governors of dark regions need the realm above heaven and earth and super strength to be able to serve!

Gu Xuan was able to be so young and become the governor of Ming state with the cultivation of heaven and earth. On the one hand, it is because Mingzhou is the weakest among the 19 states, and there are not many strong people who can be used widely.

On the other hand, in addition to Gu Xuan as a martial arts genius, has the destruction Shinto, the strength is far beyond the realm, but also because of the Gu family standing behind her!

Gu's family is not the family of the underworld, but the largest state in the dark region and one of the top powerful families in Jingzhou. Gu Xuan, who was born in the family, naturally has a smooth road to martial arts. In addition, she has never felt any pressure due to her rebellious martial arts talent.

At the moment, Ye Chen is inexplicably let Gu Xuan feel that the burden on his shoulder is very heavy, and the indifferent youth figure seems to be gradually tall. Sometimes, strong does not necessarily come from strength, Gu Xuan seems to see some of his lack of strength from Ye Chen.

Originally wanted to dissuade Ye Chen's words, also choked in the throat.

Ye Chen suddenly said with a smile, "the ancient great power you mentioned should have some origin with you?"

At first glance, these six extinct islands are specially prepared for those who practice the destruction of Shinto. Naturally, a strong man will not spend so much effort on arranging all these things for those who are not relatives or relatives.

Gu Xuan nodded his head and said, "the strong one is the ancestor of my family!"

Ye Chen looked at the six colored beads in his hand and suddenly said to Gu Xuan, "thank you."

These six extinct islands, even if placed in the whole dark area, can't be ordinary. For Gu family, they are also equivalent to family holy land, right?

But my cheap master brought me so easily.

At the beginning, although Ye Chen didn't like Gu Xuan, who was willing to hand it to himself, he could get along with him. He found that although the master of Gu's house was reckless and willful, his nature was not bad.

He has the reincarnation graveyard, which is against the heaven. There are many masters. Most of them are affected by cause and effect, but Gu Xuan is not the same.

Gu Xuan can treat himself like this, is more sincere and kind.

Ye Chen said with a smile: "it's not too late. I'm going to enter the island."

Ye Chen is not sure how much time it will take to break the six exterminations, so naturally, no time can be wasted.

Gu Xuan looked at Ye Chen seriously and said, "since you have made up your mind, I will not stop you. I have also received the news from Xiaorou. It seems that you have the clue of Jinwu Lianti pill that you need. However, the Dan Fang seems to be in the hands of an old guy. It is not so easy to get it. I need to see the old guy in person."

Chapter 3845

Ye Chen nodded and threw a bottle of elixir into Gu Xuan's hand and said, "if that person is interested in Dan Dao, you can show him this bottle of elixir."

Said, Ye Chen body shape move, then toward the extinction of the first island of six islands fly!

There was a strange wave around his body. Gu Xuan knew that Ye Chen had entered the array. If he had not broken six islands, he could not leave, even if he could not help.

She sighed and said to herself, "hope, when I get the Dan Fang to look for you, you have already broken through the battle..."

Soon, Ye Chen fell on a huge island full of green plants, just like a tropical rain forest.

This island is the first of the six extinct islands. It is called Animal Road. The unique animal that destroys the island is the one with the power to destroy the Tao.

If you want to defeat that strange beast, Ye Chen must fully understand the crazy word chapter!

At the moment of Ye Chen's body shape falling on the island, a roar will explode in the ear!

Ye Chen's face was awe inspiring. He saw a huge breath, which covered him in an instant. Just when the breath came, he contracted his pupils, made his muscles extremely stiff, and his blood was boiling. The blood of the heavenly demon in his body actually operated under the stimulation, and the extremely powerful demon power roared out, so that Ye Chen was not affected by the pressure!

The whole island trembled violently. Countless mountains, rocks, plants and trees collapsed quickly, and the dust and smoke were all around. It seemed that something was rushing towards Ye Chen!

Soon, a hill like figure appeared in front of Ye Chen!

But when ye Chen saw clearly the shape of the figure, his face was a little strange

This beast of destruction is a pig

Except for its huge size, it's basically no different from ordinary pig

The only thing to say is that there is a strange mark on the pig's forehead!

How could he not have thought that the strange beast of the brute way should look like this?

However, ye Chen did not dare to look down on this guy at all, and even, just looking directly at this Ling pig, he had almost done his best!

Although the pig is ugly, it is a real and powerful beast beyond the heaven and earth!

All of a sudden, the six colored beads with Ye Chen turned into red color in an instant. Among the black clouds on Ye Chen's head, it seemed that they echoed with it. A red thunder fell down and hit the pig hard!

Ling pig gave out a painful roar, a breath, rapidly reduced, together with the body size, also quickly shrunk up!

In a twinkling of an eye, the spirit pig's breath was suppressed to the level of the seven layers of heaven in the sky mending realm!

And the size of a hippopotamus.

But ye Chen looks at the spirit pig whose cultivation is suppressed, but his face is ugly!

Isn't that to say, according to the challenge to exterminate the strength of the six Island warriors, to reduce the cultivation of strange beasts?

Why, it's only down to seven. Oh, my God!

It's not the ordinary seven layer sky!

Ye Chen's current strength is about six layers of sky mending?

Originally, with his current strength and without training himself, it would be hell difficult to challenge the extinction of six islands. Now, do you want to increase the difficulty?

However, at the moment, ye Chen did not have a chance to think more, because it seems that because of being hit by lightning and extremely irascible spirit pig, has rushed to him!

Ye Chen's wrist turns over, Sha Jian falls into the palm, and her eyes stare at the rushing Ling pig!

All of a sudden, ye Chen's eyes trembled, and her pupils contracted wildly. For a time, she stayed in the same place, her face shocked and paid attention to every move of the Ling pig!

The first chapter of Iiumiezhen Jue is crazy. What is madness?

To destroy the madness in Shinto is to destroy almost instinctively!

Every move, every move, all crazy, all is crazy, just to live, will be able to turn the whole body into nothingness, very close to destruction!

This is the essence of crazy words!

Although Ye Chen has been passed down by the emperor of destruction, he has a good attainments in the process of destruction, but he has not done it until now. He has integrated the destruction of Daoyun into his actions and actions!

But now, ye Chen saw such a state in a pig!!!

Every move of the spirit pig and beast is accompanied by the charm of destruction. It is a violent and incomparable force, but under the control of the spirit pig and strange beast, it is incomparably gentle! Constantly with the movement of this strange beast and circulation, the space of its whole body, all vanish into nothing!

No!

It's not supposed to be manipulation!

This pig is not controlling the destructive power at all, but relying on instinct, as if it has been assimilated with the destruction Daoyun!

At the moment of the pig, in Ye Chen's eyes, seems to incarnate for the most violent world of Warcraft! A breath can destroy everything!

But, ye Chen not only did not fear because of this, on the contrary, in the double eyes, is full of excited color!

Just looking at the pig rushing towards him, ye Chen seems to have a glimmer of enlightenment. In the past, some uncontrollable power of destroying the Shinto suddenly began to surround Ye Chen. In a faint, ye Chen seemed to be about to grasp the essence of the six exterminations!

That kind of, will destroy the road rhyme to turn into the madness of their own action!

Can't help but, ye Chen is to see some crazy!

As long as this can be done, even a pig can be turned into a terrifying Warcraft capable of destroying heaven and earth!

Like a sponge, he is madly learning from the spirit pig and strange beast. He wants to make this strange beast born, and with instinct, integrate the ability of destroying Shinto into his own every action!

But at this time, a violent drink, suddenly sounded in Ye Chen's mind: "Ye Chen, quickly wake me up!"

That's xuanhanyu's voice!

Ye Chen suddenly awakened from the realization, which found that the Ling pig has come to his face, and, one head toward his chest!

In an instant, ye Chen's cold sweat all over his body came out!

The collision gave him an extremely dangerous breath!

No one knows better than him how great the destructive power of this collision is!

After all, the power of destroying Shinto has been integrated into every move of the pig. Its running and accumulating power are the circulation and cohesion of the destruction Shinto!

At this moment, the power of destruction that condenses for a long time, completely converges in the collision of Ling pig!

Although, the collision of the spirit pig seems extremely simple, but after integrating into the destruction Shinto, it turns out to be a terrible blow!

And now, even if ye Chen wants to hide, it's too late!

At the last moment, he had to bite his teeth at the pig!

Chapter 3846

When he wielded the sword, ye Chen tried his best to recall the feeling of watching Ling pig running just now. A breath of destruction came from the long sword in an instant. Ye Chen was happy. The strong meaning of destruction on this sword was as high as he had ever been!

The next moment, a loud bang, ye Chen's Sha Jian and Ling pig's naked pig's head collided with each other!

It seems that it's the spirit pig who is injured by the sword

However, ye Chen at the moment, in his eyes, is covered with blood. His right hand holding the sword is actually directly broken!

The Sha sword in his hand also flew out of the explosion, and his whole body was covered with blood mist. In a flash, he turned into a bloody man, just like a red bullet, and flew backward towards the rear!

Ye Chen's body, hard hit a hill, this in the pig's running, like paper paste general hill, in fact, it is very strong!

However, even so, the hill is also in the impact of Ye Chen, into powder!

It can be seen that the impact of the pig Ling contains what a huge force!

"Poof

That Ling pig issued a roar, sound shock thousands of miles, the surrounding space, all in this roar, produced countless cracks!

Ye Chen some difficult from the gravel, climbed out, he some palpitation to see that again began to run to rush to the pig one eye!

Because of his carelessness, the pig bumped into him and felt a trace of death!

If it were not for his vitality and the origin of his life, he would not have been able to get up even if he did not die

Xuanhanyu said: "boy, there are many things you can learn about the way the destruction beast controls the destruction Shinto. However, only in the battle, can you understand how the pig can do all this quickly. In the battle, distraction is the most taboo!

Next time, if you fall into the state just now, you will probably die under the attack of the spirit pig! "

However, although Xuanhan jade said so, his heart was more shocked by Ye Chen's talent!

Why can ye Chen fall into that kind of thing I two forget, even the spirit pig rushes to all stay in situ state?

That's because he realized it!

If you don't have some understanding and gain, you will never enter this state!

With just one glance, I have a higher understanding of the destruction Shinto. This is more incredible than the strange beast who can master the destruction Shinto by nature!

The life of the reincarnation Lord is too frightening.

Ye Chen nodded and took a deep breath. Relying on the reincarnation blood, the blood of the heavenly demon, and the powerful vitality brought by the rebellious body, ye Chen healed his wound. At the same time, he observed the movements of the animal Dodge, and at the same time, he began to imitate his actions and fled on the island!

The subtle destruction of Dao Yun is actually accompanied by Ye Chen's movement and rotation!

The pig's eyes seem to be widened!

It's a little confused

In front of us, how can we suddenly do the same thing as ourselves?

Although, do very bad, than oneself on 10 million times!

However, it can be seen that the human beings seem to have caught something essential

This is not what it can accept!

As a monster of destruction, it was born to communicate with the God of destruction. Such power should only belong to itself. How could it be learned by a humble human being!

For a time, the speed of the pig, more rapid several times!

Ye Chen's pupil shrinks again. He cultivates a view of the nature. This cloud removing method can not only be used to judge the strength of the martial arts, but also is extremely sensitive to the changes in the laws of heaven and earth!

At the moment, ye Chen found that the laws limiting speed, such as gravity and resistance, collapsed rapidly under the impact of the destructive force of the pig!

The more basic laws between heaven and earth are, the more powerful they are. The laws of gravity and resistance are almost fundamental to the universe!

But even such a powerful law can not resist the impact of the destructive power of the pig?

It's even more difficult to focus on the destruction of the pig's instinct!

Even if the strong breath of time, the leaves will be tense!

This pig is too powerful and dangerous!

However, in Ye Chen's eyes, more is excited!

Destroying the strange beast is like a treasure house!

Just one face-to-face, ye Chen learned a lot from the destruction of the beast way. If he could defeat it with the spirit of destruction, he would have a real qualitative change in his use of the power of destruction!

There have been six such qualitative changes!

With Gu Xuan's six extermination secrets, ye Chen's strength is enough to make earth shaking changes! At that time, he really mastered the God of destruction!

The next moment, ye Chen took a deep breath. He was motionless and stopped at the same place, but his eyes did not blink and looked at the Ling pig that was rushing at an incredible speed!

That Ling pig saw this, a glimmer of joy flashed in his eyes, and the garbage man finally gave up his resistance?

It a low head, hard toward Ye Chen to bump!

The power of destruction erupts from the top of the pig's head. Ye Chen's arm has not been fully grown up until now, and the Sha sword is not in his hand. If ye Chen eats the attack of Ling pig again, his injury will be much more serious than before!

Even xuanhanyu's heart, also mentioned up, do not know ye Chen exactly want to do!

When the head of Lingzhu was about to meet Ye Chen, ye Chen's feet suddenly moved and flashed toward his body. With the movement of Ye Chen's feet, a very pure Shinto of destruction turned out to be surging under his feet!

All of a sudden, ye Chen's figure, directly disappeared from the original place, appeared a few steps away!

And just a few steps of deviation, he successfully avoided the attack of Ling pig!

That Ling pig bumped into the empty place, slightly a Leng, it slowly turned his head, looked to Ye Chen, in the eye actually appeared slightly shocked!

This collision seems simple, but in fact it has locked Ye Chen with the God of destruction. Even if ye Chen dodges, it can hit Ye Chen like a shadow. How can this boy avoid it?

Recalling the destruction Shinto just appeared at the foot of Ye Chen, the anger in Ling pig's eyes is more vigorous!

How could this damned human being do such a thing!?

But at the moment Ye Chen, just stepped out a step, was actually a pair of exhausted appearance, all over sweat, pale face, as if to collapse in general!

Why?

Because, just now, in order to avoid the attack of the spirit pig, he wiped the distance away with the destruction of Shinto Shengsheng!

Therefore, ye Chen is really blinking!

Tearing space is something that many powerful warriors can do. Erasing space and making distance not exist at all is a matter of completely different levels!

Only Ye Chen, who has the God of destruction, can do it!

More importantly, ye Chen found himself at the moment of a fantastic breakthrough!

This trace of understanding, let it step into the heaven God realm eight layers of heaven!

This holy land opened by Gu Xuan's ancestors is simply born for him!

Chapter 3847

However, ye Chen soon calmed down for the breakthrough, and he was more concerned about the blink achieved by the destruction Shinto.

Generally speaking, a warrior wants to make a similar blink. Either he uses the space Shinto to to manipulate the space and turn around, or he tears the space, enters the void, tears the void again, and appears in another place.

And these two methods, ye Chen can not use!

The first one, ye Chen, does not know the space Shinto, while the second one is too slow to avoid the attack of the spirit pig!

Therefore, ye Chen, just like the pig bound by the law of destroying Shinto and destroying the gravitational resistance, also integrates the destruction Shinto into his own steps, and it is the law of space that destroys it!

Ye Chen's idea is right, but what he didn't think of is that the law of space is so powerful!

He just blinked a few steps, the body is a little overloaded ah!

That's him. If he is another warrior, he dares to do such a thing easily. Even if he is not killed by the pig, he will die under the influence of the force of space!

Do you really think it's so easy for the beast dodge to integrate the destruction Shinto into his every move and even to destroy the law with it?

What's more, even this strange beast doesn't dare to break the law of space easily!

Even Xuan Hanyu could not help but say: "boy, you are lucky this time. The blind cat ran into a dead mouse. In that step, 90% of you may fail. Even if you succeed, you may be seriously injured by the force of space

Now, it's the best result to make you nearly exhausted. But how can you avoid the next attack of the beast dodge in your present state? "

Ye Chen's eyes flashed slightly, and suddenly opened his mouth to the Ling pig: "dead pig, aren't you able to top it? Why the headspace? Hehe, what are you going to destroy? Can you integrate the Shinto of destruction into your every move?

If so, you should directly break the shackles of space and let me avoid it? It seems that the destruction of strange animals is nothing more than that? "

When Xuan Hanyu heard Ye Chen's words, she couldn't help being a little dull

Ye Chen is actually provoking this destruction monster???

How to motivate?

Does this strange beast understand human language?

At the next moment, as if in response to xuanhanyu's question, the pig actually let out a roar, his eyes were furious, his whole body black light flashed wildly, and the strong breath of destruction swept out like a hurricane. The pig's hooves moved, and the law of space around him collapsed rapidly!

In a flash, the pig disappeared from the spot!

Ye Chen is also full of dignified color at the moment. The spirit pig directly erases the space with the destruction Shinto. If he really rushes towards himself, then this blow is inevitable!

At this time, not far behind Ye Chen, there was a loud noise!

He looked back and saw that the pig had hit the stone mountain tens of meters away from his back!

Ye Chen sees this and smiles slightly. At the moment, the Ling pig howls miserably. The blood is dripping on its body. Obviously, it is bitten by the law of space!

Xuanhanyu is a little silly. This Ling pig not only understood what ye Chen said, but also really got such a simple challenge method?

Ye Chen said with a smile: "after all, animals can only rely on instinct. I think that elder wants to tell future generations that the destruction of madness is to integrate the destruction Shinto into every action, but it is us who control the destruction Shinto, not that we are bound by the desire to destroy!"

Taking advantage of the pig by the law of space, a time can not continue to attack the gap, ye Chen suddenly turned his hand, his palm more than a jade bottle!

Ye Chen gazed at the jade bottle, and his eyes flashed: "I didn't expect to use this one so soon..."

At the next moment, ye Chen opens the lid of the bottle, and a pill that exudes the power of the moon and the infinite power of medicine appears in front of Ye Chen. In the aura of the elixir, there is a hidden power of the road!

This pill is the sun moon dragon pill with two Dan patterns!

Ye Chen just stepped out of the void and consumed too much. At the moment, only the Hualong pill with two Dan patterns can make up for it!

Originally, ye Chen also used the two patterns of Hualong Dan as one of his backhand. Unexpectedly, it will be used so soon!

He has some regrets now. He should refine more Hualong pills before he comes here

However, pills are only auxiliary means, ye Chen does not want to rely on too much!

He looked at the pig that stood up unsteadily, then opened his mouth and swallowed the pill into his mouth without hesitation!

Now, what he has to consider is how to defeat the pig in front of him, not the others!

The sun moon Hualong pill, once in the mouth, turned into a rolling medicine, surging in Ye Chen's meridians, turning into incomparably surging Aura!

Originally some deficit of the body, again filled up!

If you are a general martial arts person, even if it is the existence of heaven and earth, in order not to be blown up by the power of the sun moon Hua Long Dan, you must immediately and fully run the skill to refine the medicine of the sun moon Hua Long Dan. However, with Ye Chen's rebellious constitution, naturally there is no need for this!Refining and chemical medicine?

While fighting and refining, it is still far from enough to burst his meridians!

At this time, it seems that the pig finally recovered from the law of space. It roared and gazed at Ye Chen with great resentment. However, this time, it did not rashly step out of space again

Even if he is a monster of destruction of the animal way, the existence of terror in the heaven and earth is unbearable when his cultivation is suppressed, and he is repeatedly attacked by the law of space

Ye Chen and the Ling pig looked at each other and laughed slightly. In an instant, both Ling pig and ye Chen moved their bodies and began to pursue and flee on the island!

Ye Chen stares at the action of Ling pig. At the moment, his arm has been fully recovered. The step of stepping out of space just now has deepened Ye Chen's understanding of the crazy words of six exterminations. At this time, his body method is unfolded, and there is already a rhyme of destruction looming between his steps!

That Ling pig sees appearance, more angry, madly toward Ye Chen to rush and come!

However, after a short fight with Lingzhu, ye Chen has found that even if the spirit pig is suppressed in the sky mending realm, its combat power is also crushing itself in all directions, but

The attack means of this Ling pig is too simple!

After all, although he is a monster, he is born with the ability to control the destruction of Shinto. But if he blindly relies on instinct, how can he know what martial arts means?

It's just like a wild animal, running on instinct!

After seeing through this point, the essence of Ye Chen's eyes twinkles, so that he may not have the strength of a war!

Chapter 3848

After seeing through the animal Dodger's attack, although Ye Chen is far behind the other party in speed, he can always dodge by in the moment when there is no time to send!

Moreover, ye Chen's spirit of destruction is becoming more and more intense

Animal Dodge, animal running, head on like a textbook!

Perfect textbook!

If the soul pig really uses its martial arts and integrates with the destruction Shinto to to attack, then the operation mode of the destruction Dao rhyme will be countless times more complicated!

Even with Ye Chen's qualification, it is difficult to understand!

But, this spirit pig can rely on instinct action, and the attack way of pig, also bump, arch this kind of simple action!

Such a simple action, it is like deliberately in front of Ye Chen, demonstrating the operation of destruction Daoyun!

Ye Chen can't help but sigh that the preparation made by the ancestors of his family was really in place. The pig is an impeccable teacher for those who understand the destruction of the Shinto!

Three days and three nights later

At this time, a figure full of black Taoist rhyme twinkles rapidly, and its whole body, the power of laws, is constantly collapsing, and the constraints of gravity, resistance and so on, seem to him no longer exist in general!

In its body side, continuously sounded a roar, a white skin Ling pig is in hot pursuit!

The master of this figure is Ye Chen!

At the moment, he glanced at the pig behind him, and with a faint smile, his steps moved, and the destruction Shinto stirred up. Ye Chen's control and understanding of the destruction Shinto was much stronger than before he entered the six extinct islands!

In only three days, he had fully understood the crazy words in the six exterminations!

Although, in the process of fighting with Lingzhu, there were many dangerous signs, and ye Chen almost fell under the animal kiss of Lingzhu several times, but in the end, he survived with his strong fighting talent, martial arts understanding and a trace of luck!

This war, the risk is very great, a bad, ye Chen may become a corpse, but the benefits are also enormous!

Now that beast dodge beast, already very difficult to catch up with Ye Chen, this is Ye Chen's strength soaring, the best proof!

All of a sudden, ye Chen's wrist turned, and a dark sword appeared in his hand. He waved his arm, and his action was very natural. He turned and chopped a sword at the Ling pig!

On the top of the evil sword, a sword light burst out!

The moment the sword light appears, there are cracks in the space!

At the beginning, it was easy to smash the sword light of Ye Chen. At the moment, there was a stir in his eyes. His fat body twisted, but he dodged to one side!

But, Rao is so, a blood light still burst out, Ling pig issued a painful howl, above the body, already had a sword mouth!

Ye Chen looked at this scene, but was not very surprised, but murmured: "so it is. Before, I only let my sword meaning taint a trace of destruction Dao rhyme. Now, after I have understood the six exterminations' crazy words, and can act like this brute Daoqi beast, I can barely really integrate the destruction Daoyun into the self In my own martial arts... "

In Ye Chen's eyes, the fine light explodes and flashes. Now his swordsmanship has undergone a qualitative change, which can't be compared in the same day!

In this sword light, there is no longer a Shinto of destruction, but a combination of thoroughness and destruction!

Although this kind of integration is still superficial, it is enough to enhance the power of Ye Chen's sword light by hundreds of times!

Ye Chen stopped his body, no longer fleeing, but looked at the beast dodge with fierce eyes.

Seeing this, the pig felt as if his dignity had been stimulated, and his eyes were full of anger and rushed madly!

Ye Chen stood still until the moment when Ling Zhu was close to him that the destruction Shinto of his whole body was surging out. The whole person was just like an illusion, broken under the impact of the spirit pig!

Ling pig growled and suddenly turned his head. It knew that what had just been smashed was the shadow of the damned human being!

But in the moment when it turned its head, it was a dark sword!

This time, Ling pig didn't dodge, but in his small eyes, he suddenly lowered his head and hit the sword!

With a roar, a strong impact, and rolling destruction, Daoyun razed a large area of the island to the ground, and the black light converged. At the moment, the blood was rolling on the pig's forehead, but it was a roar of excitement!

Because ye Chen is more injured than it is!

Ye Chen looked at his broken arm, which was full of blood, but he was staring at the pig without changing his face, showing a cold smile.

The roar of the pig stopped suddenly. Looking at the man with a cold smile in front of him, he could not help but feel his back was cold. Somehow, he remembered the guy who had caught him on the six extinct islands and imprisoned for many years

.....

Dark region, the state of hell, a snow covered mountains, a graceful figure, in the white snow looming, look carefully, but it is a veil, temperament of women. This woman, of course, is Gu Xuan.

She gazed at the snow in front of her eyes and frowned slightly. Even with her strength, walking in the snow is not so easy.

Because, this seemingly ordinary snow mountain, but it is among the dark regions, one of the ten Jedi, the eight cold devil kingdom!

The eight cold devil kingdom is divided into eight parts. This snow mountain is only the third. But she has spent three days and three nights just walking here.

Gu Xuan snorted coldly. In the beautiful eyes, the cold light flashed, and an extremely terrifying sense of the road suddenly spread from its delicate body!

The wind and snow that can freeze the ordinary martial arts of heaven and earth instantly seems to be nothing to Gu Xuan at the moment!

Gu Xuan's body is moving, flying in the wind and snow, and every step is accompanied by the God of destruction!

However, even so, Gu Xuan's face hidden under the gauze is still dignified!

She murmured: "this old guy, hiding in the deepest part of the eight cold devil Kingdom, is really not easy to see him. Even if my cultivation can not support it for too long, we must see the old monster before we can't support it!

Ye Shitian, with such accomplishments, dares to break into the six extinct islands. How can I be compared with my apprentice as a master! It's just eight cold devil's land. It's nothing

Speaking of this, Gu Xuan's beautiful eyes could not help but emerge a touch of worry and said: "my apprentice, now should still be fighting with that pig? I don't know how he is now. He should It's not dead yet, isn't it? "

Chapter 3849

.....

Ye Chen was covered with blood, panting at the "red pig" in front of him, carrying the evil sword and asking, "do you admit defeat?"

The red pig, of course, is the animal dodge beast. It only fought with Ye Chen for many times. He has been cut down with blood and stained with his own blood

The other party struggled to get up from the ground and roared at Ye Chen. It seemed that he was going to rush again. But at this time, the six color lights appeared all over Ye Chen's body. His body shape flashed and disappeared from the front of the strange beast. The breath of the strange beast also rose in an instant, and the wound on his body recovered rapidly

But this strange beast, but it is a lingering fear to see ye Chen just where

Fortunately, this human has been sent away, and if it continues to fight, it will be unbearable

At the moment, ye Chen has arrived at the second giant island. What appears in front of him is a blue boa constrictor. This green BoA's huge kiss seems to be able to swallow up the world!

And in this huge kiss, there is infinite darkness, that is, full-bodied to the extreme of destruction Shinto!

Ye Chen's eyes are once again dignified. On the second island, it's a hungry ghost. It looks like it's a boa constrictor!

It seems that he has been recognized by the six extinct islands and passed the first level!

In front of me, the six true secrets of the python are swallowing words!

What is swallowing?

Crazy words, is to let destruction Shinto, into every word and action, as instinct.

However, swallowing words is a way to turn the power of heaven and earth into nothingness and enhance the meaning of destruction!

Thunder, a blue thunder, the strength of the python, the same suppression to the limit of Ye Chen, also sounded the clarion call of battle!

Ye Chen's power of soul destruction is incomparably natural. It's almost the same as ye Chen's spirit pig!

If Gu Xuan saw it, she would be stunned. Ye Chen's practice is even higher than her master!

Of course, this is not only Ye Chen's understanding, but also the benefit of his challenge to exterminate the six islands, even though he has hardly practiced the six exterminations.

The true formula of six exterminations is created according to the talent and ability of six strange beasts. Ye Chen directly faces the original edition and cultivates the Dharma, which naturally needs to be pure!

It is estimated that the whole Gu family only had that ancestor who could surpass Ye Chen in the crazy words!

In the mouth of the blue boa constrictor, the power of the destructive breath became stronger and stronger. It was the emptiness of the whole body, and all kinds of laws disappeared together. For a time, out of the broken void, there burst out a very strong God of destruction, covering the whole island!

.....

After walking for three days, Gu Xuan finally crossed the eight cold devil Kingdom and came to a mountain forest like a fairyland on earth. In front of her, there was a lake. On the surface of the Emerald Lake, a wooden house was built!

Gu Xuan's face is quite pale at the moment, and her spiritual power is somewhat disordered. Obviously, she has crossed through the eight cold devil Kingdom and wasted a lot of her Kung Fu. However, she can live in seclusion in the depth of the eight cold devil Kingdom, and is called the existence of an old monster by Gu Xuan. Obviously, she is also a peerless strong man!

In Gu Xuan's eyes, a happy color appeared. When he was about to walk towards the wooden house, a dragon chant suddenly sounded, and the water fluctuated. A huge ice blue dragon suddenly appeared in front of Gu Xuan. The dragon's body exuded unimaginable pressure and blood force!

Gu Xuan looked at the dragon. She didn't know when she had a black iron sword in her hand. She said coldly to the Dragon: "tell your master to come out. I'm too lazy to start with you!"

In the eyes of the dragon, however, a look of disdain appeared, and the whole body of Demon power broke out. Even the snow in the eight cold devil Kingdom seemed to be one of the coagulation!

What's more, the cultivation of the dragon is also the heaven and earth realm. Moreover, it is not the ordinary heaven and earth realm. Moreover, its blood breath is extremely powerful, and it brings a trace of the Heavenly Dragon's power!

Gu Xuan looks a little ugly, but at the next moment, his face is fierce. On the seemingly plain black iron sword, a towering sword idea suddenly erupts. The destructive breath in the sword idea instantly crush all things in the mountain forest to smash!

The void breaks, and in the gale, the breath of destruction suddenly becomes strong, as if swallowing the whole world into the abyss of destruction!

.....

On the giant Island, the python coiled on the ground, its body, covered with large and small wounds, green blood, the earth dyed green, but at this time, it is not the shadow of Ye Chen!

In the Python's vertical eyes, the fierce power is surging. Is it that the python has devoured Ye Chen?

Ye Chen is dead?

At this time, the Python's vertical eyes seemed to be slightly twisted for a moment, and its mouth suddenly issued a long hiss!

A huge bang, a figure, then broke the body of the python, from the wound through!

.....

Gu Xuan's sword light sweeps across, and the overwhelming destruction Shinto surges like the sea tide. It condenses in the Dao Dao sword light, but it is always blocked by the blue light of the dragon. There is nothing to do for a moment! Gu Xuan has a gloomy look. She seldom faces the situation of heaven and earth. As usual, she will be happy and even wish to fight with the dragon for a while. But now, she wants to see the old guy and get the sorcerer Dan Fang for her apprentice!

A claw shadow with infinite dragon power falls from the sky, and Gu Xuan's veil of high grade is also broken into pieces under this anti heaven claw shadow, revealing a nearly perfect woman's face!

This veil, however, was once intact under the aftershock of the destruction of Shinto!

But now, it is broken. It can be seen how terrible the claw awn is!

However, in the face of this claw awn, Gu Xuan did not have the slightest intention to avoid it. Instead, he gazed at the falling claw shadow and said in a low voice: "coagulate the words!"

.....

In the island of hell, ye Chen devoured several high-level pills to make up for the consumption of his body. Suddenly, ye Chen's face changed, and his hair stood up. Almost subconsciously, he flashed to one side. At this time, a thick awn of hair pierced through the space where he had just been, leaving a small hole that could not be bridged for a long time!

Ye Chen suddenly turned around and saw behind him a monster like a bloody ghost.

Is this the hell Dodger?

Ye Chen glanced at the small hole and felt a chill in his heart. It was much more terrifying than xuanhanyu's method of refining and destroying the Shinto that he had taught himself when he was a beginner. The monster of hell's way is corresponding to the condensation chapter of six exterminations!

What is condensation?

Destruction and dissipation, vanishing everything, creating nothingness, and destruction cohesion, there will be hell!

.....

Chapter 3850

"Roar!" The Dragon wailed. A dragon's claw was actually cut off by the living, and the dragon's blood was sprinkled. Gu Xuan looked at the broken claw dragon coldly. The sword meaning of the iron sword in his hand became stronger again. Until now, the dragon, which seemed to be extremely proud, finally had a look of panic in his eyes.

And just then, the door finally opened.

Gu Xuan restrained a trace of sword spirit and said with a smile, "old man Tiandan, you are willing to see me at last!"

In front of Gu Xuan is a seemingly five or six-year-old child with a fair face and tender face, but his eyes are extremely vicissitudes.

He glanced at the dragon. The dragon was like a child who had been bullied outside. He pretended to complain and crawled in front of the child. He raised his broken claw and motioned to Gu Xuan with his eyes.

It's obviously saying, master, it's the witch who caused me to break a claw!

The old man of Tiandan snorted coldly, and threw a pill to the dragon. The pill was multicolored, and it was very powerful. You could see that there was a pattern on the pill!

However, although they are all Dan patterns, the Dan patterns of the old man Dan on that day look much simpler than those on the sun moon Hualong pill practiced by Ye Chen!

However, the dragon was still ecstatic, swallowing the pill, and then his broken claw, received the wound, not long before it was integrated again!

Gu Xuan looked a bit stunned. No one knows more about the strength and difficulty of the sword!

But the God of destruction on the wound was dissolved by the old man of heaven and a pill?

It seems that his Dan attainments are still above their own estimates!

Gu Xuan's face showed a glimmer of joy. As a result, the possibility of the golden witch refining body pill in the hands of the old man would be great!

The old man gazed at Gu Xuan and said with a cold hum: "girl of Gu family, do you know what a crime it is to disturb our Qingxiu? Do you think that with the care of your family, I really dare not move you? "

It looks like a child, but his voice is very old!

For a time, a terrifying and intimidating force poured into Gu Xuan's face. Even if he had been prepared in his heart for a long time, when he really faced the pressure, Gu Xuan was also shocked!

This man is a transcendent existence!

Only in this way can we raise a high-level dragon species in the later period of the heaven and earth, or even about to break through?

However, in the face of this pressure, Gu Xuan is happy and fearless. The destruction Shinto roars all over her body and relieves all the pressure. She stares at Tiandan old man and says, "I'm here to ask for something!"

Tiandan old man's eyes narrowed and said, "do you have to ask for an old man in Jingzhou? Ha ha... "

.....

The screen rotates.

Blood dyed the earth red, ye Chen's eyes have been blurred, brain dizzy, faintly heard the call of xuanhanyu, the dark, just like the waves of the general toward him, almost devour it!

His eyebrow heart, chest, Dantian three, it is open three blood holes!

Endless blood gushes out from the blood hole. Even with Ye Chen's vitality, it is impossible to heal!

Standing in front of Ye Chen's body, the hell dodge beast, which is red and like a red ape, is also chopped with one arm. There are ferocious knife wounds all over the body. At the same time, there is a blood hole similar to Ye Chen's body at the chest and abdomen!

The helldodger looked at the blood hole in his chest and abdomen, and there was a look of horror in his eyes!

If the blood hole hit his own heart, he might be the loser

At present, the potential of human beings is incredible!

But

It's almost, it's bad. It's him who wins!
