### Chapter 4011

Since ye Chen has decided to fight with all his strength, he will never release water again. At the moment, his full strength breaks out, but he makes Xia Ruoxue feel great pressure.

"It seems that you are still much better than me."

Xia Ruoxue stares at Ye Chen and purses her red lips. However, she reminds her: "in this case, I will use my strongest strike to fight against you!"

"You have to be careful!"

Xia Ruoxue looks at Ye Chen seriously.

Seeing her so solemn, ye Chen also solemnly nods. Xia Ruoxue's strength is good, even if she can't compare with herself, she can basically move vertically and horizontally under the heaven and earth. What's more, Xia Ruoxue still masters the source skill.

Therefore, Xia Ruoxue's strongest attack is certainly not simple. Ye Chen will never despise the enemy, even in the face of Xia Ruoxue, he will do his best to wait.

At this moment, in Xia Ruoxue's eyes, there is an endless bright moon flashing. Ye Chen faintly sees from her eyes that there is a waning moon gradually growing in Xia Ruoxue's eyes.

This round of the waning moon is constantly filling up, and soon turned into a full moon. At the moment of turning into a full moon, Xia Ruoxue's momentum soared again, and her breath was more powerful and powerful. Like the real ancient moon god, she looked down on the sky and was proud of the world.

"Moon and sky wheel!"

Xia Ruoxue raised her indifferent eyes, like a merciless God's residence. She looked at Ye Chen's indifference. Behind her, the vast moonlight swept over her, and the infinite and complicated runes were shining brilliantly. She even outlined the array track behind her.

"Hum..."

The power of the infinite moon interlaces with runes, and a round of bright moon like the real one is formed behind Xia Ruoxue. The bright moon slowly turns behind Xia Ruoxue, but the terrible breath of punishment emerges from the bright moon.

A chain full of the breath of punishment, suddenly poked out from the moon's wheel, waving in the void, where the space collapsed, everything disappeared.

Ye Chen is also very surprised to see the bright moon's heavenly wheel. Xia Ruoxue's strongest strike can reach such a level, which even makes him feel very dangerous.

"Good."

Ye Chen nods with satisfaction.

At the moment, Xia Ruoxue has already gazed at Ye Chen, waving his arm to Ye Chen, and rebuking him gently, "the moon's heavenly wheel, destroy all things, kill all ages, and kill all enemies!"

With the falling of the voice, the sky wheel of the bright moon behind Xia Ruoxue suddenly flies out. When it turns, it directly splits the void and escapes into it. The next moment it appears directly on Ye Chen's head.

"Boom

The chains of the moon, which exude the atmosphere of punishment, swept out from the sky wheel of the moon, and came to Ye Chen mercilessly.

Seeing this, Ye Chen's face was dignified. In his mouth, he quickly drank down: "the true formula of six exterminations, break it for me!"

The mighty power swept out, accompanied by the border, shrouded Ye Chen, blocking the chains of the moon.

At the same time, Ye Chen is in the eyes of the cold flash, Sha sword in hand, the operation of destruction Shinto.

"Soul killing sword!"

At the same time, the power of destruction and the power of the spirit rushed into the evil sword. A startling cold light was shining all over the sky. It suddenly swept out of Ye Chen's hand, tearing up the sky, cutting off the ages, breaking several chains of the moon, and directly hitting the moon's wheel.

The bright moon wheel, which is shining in the sky and oppressing the whole world, releases the chains of the bright moon filled with the breath of punishment, and collides with the sword light of destruction and spirit.

"Boom

The sky vibrated, and the black cloud ridge was swept by the vast and terrible impact. The dark mountains collapsed suddenly, and the long rivers on the earth burst and the endless rivers flowed everywhere. It was a scene of extermination.

At the same time, Ye Chen stepped back a few steps, he cut through the moon with a sword, his body was also subjected to a terrible impact, the body Qi and blood concussion endlessly.

On the other side, Xia Ruoxue is dignified, even a trace of blood spilled from the corners of her mouth, and the damage she suffered is more serious than that of Ye Chen.

Although Ye Chen has tried his best to weaken the power of soul destroying and killing heart sword, the power of spirit and destruction contained in it still made Xia Ruoxue hard to cope with. He successfully expelled his body at a high cost.

At the moment, Xia Ruoxue has lost the ability of World War I, the strongest blow is broken by Ye Chen, she also understands the gap between Ye Chen and she stops.

"You're getting stronger and stronger."

Xia Ruoxue looks at Ye Chen, with a flash of loss in her eyes. She brings Xiaobai to foreign countries. She experiences countless dangers. She thinks that she has extraordinary opportunities and talents. She can catch up with Ye Chen and even surpass her.

It's just that all these things have not come true. Xia Ruoxue can't imagine how fast Ye Chen's strength has been improved. It's just against the weather.

"But no matter what, I will not give up, I will continue to become stronger, I want to be the guardian of you!"

Xia Ruoxue stares at Ye Chen's face, as if to print this handsome face in the bottom of her heart. She whispers in her heart, "I swear, one day, you will be proud of me!"

Ye Chen doesn't know what Xia Ruoxue thinks in her heart. She just looks at the woman's pretty face. There is a trace of blood left on the cherry's small mouth. In her heart, she is extremely distressed. She can't help holding her in her arms. "Your promotion is also very fast. Maybe you will surpass me soon."

Ye Chen looks at Xia Ruoxue with a smile, softly comforts and encourages Xia Ruoxue.

After hearing the speech, Xia Ruoxue's eyes are shining with moving luster. For so long, she and Xiaobai have experienced a life of death in foreign countries. At countless dangerous moments, she is thinking of Ye Chen. Now ye Chen finally appears around

A day passes by in a hurry.

In the more secluded gullies of heiyunling, a palace with rippling blue waves and flowing Hongmeng breath stands here. This is the Bibo palace.

This Bibo palace is Ye Chen's harvest from killing enemies. In this black cloud ridge, it can be used as a place for cultivation.

In the palace of blue waves, ye Chen lies on the jade bed, remembering yesterday's night's lingering, but the corners of his mouth are a touch of radian.

Just turn around a look, ye Chen actually found that the person beside the pillow has already disappeared.

At this moment, ye Chen can't help but ring out the scene in the kingdom of God. Can Xia Ruoxue leave without saying goodbye again?

Ye Chen's face changed, and quickly stood up, wanted to go out of the palace to look for Xia Ruoxue, but suddenly heard the voice of Xia Ruoxue coming from the outside world.

"Ye Chen, Xiaobai and I are leaving. We don't have to see you off on this trip."

Xia Ruoxue's voice sounded, ye Chen faintly heard her tone of reluctant to give up, but more is firm.

"I..."

Ye Chen hears the speech not to be anxious, flies out of the blue wave palace directly, comes to the front of Xia Ruoxue and Xiaobai.

"Why go away? It's not good to stay with me?"

Ye Chen does not give up looking at the summer if snow.

## Chapter 4012

Finally, she shook her head like snow.

"Needless to say, I want to grow up and not be a drag on you."

"But you are not my drag."

Ye Chen frowned and tried to persuade something, but he found that the evil sword vibrated. Then the sword soul in the sword, and xuanhanyu's voice sounded.

"There's no need to persuade her. Even if you force her to stay, she will eventually leave. She wants to be your right arm and be able to protect you..."

When xuanhanyu said this, she sighed with deep feeling and then said, "this is a woman. Let her go."

Hearing xuanhanyu's words, ye Chen's eyes flickered, and finally decided to listen to the other party's suggestions, and his eyes did not give up convergence.

"Ruoshue, this is liudaolingling, which is the exclusive token of liudaozong. Take it and crush it in case of danger. I will arrive as soon as possible."

Ye Chen looks at Xia Ruoxue, takes out a glass token, earnestly admonishes the way.

Smell speech, Xia Ruoxue heart moved, will six Linglong make tightly in the hand, seriously nodded: "I will."

It seems that he is afraid to stay for a while, and he can't bear to leave Ye Chen. Xia Ruoxue no longer hesitates. He says don't read, and directly takes Xiaobai to turn around and run away.

Looking at the back of Xia Ruoxue's leaving, ye Chen is a little lonely in his heart and sighs with regret.

"If I guess correctly, the girl will go to the sea of sunken moon."

.....

Deep moon sea.

The largest island in the middle.

The island is called the moon.

Since ancient times.

There are several big sea areas in the sunken moon sea. If there is no strong guard, any place can be engulfed by sea water.

But the island, named Yueming, has no vitality.

There was a sense of death everywhere.

There is only one Pavilion on the island, that's all.

But in this mysterious place where no one has been around for a long time, two figures suddenly appeared.

A man of great stature, with blood flowing through his pupils, appeared in the pavilion.

With his hands behind him, he gazed at the sea with complicated and yearning eyes.

As if this sea area had happened scenes in the pupil of the blood moon playback.

"Ye Lao, how old have you been?"

Ren extraordinary suddenly opened his mouth, breaking the silence of the moon.

At this time, any extraordinary side of the void wave, an old figure appeared.

Looking at the sea, the old man hesitated for a few seconds and said, "I don't remember. Ancient times and ancient times witnessed the rise and fall of this sea area."

"There's too much blood in this area."

"The Red Sea, one of the inland seas, has the most blood flow, but it is no more than other places. It is somewhat unexpected."

Ren Fangang wanted to say something, but found the jade pendant on his waist flickered slightly.

He glanced at the jade pendant and said, "it seems that the girl of Xia family has finished the chess that belongs to her."

"She has reincarnation and the power of the moon god, which may be the next crucial link."

"There can't be any mistakes in this game."

"Otherwise, it will have a great impact on Ye Chen."

"It's time for us to see those high up in this sunken moon sea."

"I don't want to let this group of people disturb Xia wench's exclusive legacy."

Ye Lao's expression is dignified: "are you sure you want to see those people?"

"Human nature is ugly after all. If these guys disclose your and my affairs, the consequences will be unimaginable!"

Ren extraordinary Mou son tiny MI, look to that piece of sea area, smile.

"The rules of the world are like this, but if they dare to betray us, I think, the sinking moon sea will be a boundless desert!"

Words fall, the waves roll!

That's the roar of the sinking moon sea!

.....

At the same time, eternal ferocity.

The sky is covered by the vast and rich blood. The infinite fighting spirit rises in the blood, and the intention of killing sweeps around.

"Bang bang bang!"

One after another destroyed the sky and destroyed the earth like the huge earthquake continued to spread, shaking the sky, shaking the world.

This is an earth shaking war. The blood dragon alone confronts the three most powerful fierce beasts. The strength of these three fierce beasts has reached the seven layers of heaven and earth, while the blood dragon is only the peak of the six layers of heaven and earth.

Across the realm, with one enemy three, the blood dragon has exploded to the extreme. Every time it wields its claws, it will tear the void and cut through the sun and moon. The mighty blood and invincible dragon power are rampant, and all enemies must be suppressed.

However, in the face of the blood dragon's attack, its three enemies are absolutely fearless. This eternal fierce place is the place where the Eternal Clan uses to imprison the heinous people. The fierce beasts here are already extremely arrogant, and they will not bow down to anyone or be afraid. These three fierce beasts in the seven layers of heaven and earth are the strongest enemies that the blood dragon can bear at present. They can also be called a giant in this eternal fierce land. They all have their own pride. They will not be suppressed by the mighty dragon power of the blood dragon, nor will they be afraid of the blood dragon's deadly fighting mode.

Because the blood dragons do not want to fight for their lives, they are even more desperate. Like the blood dragons, they all rise in endless fighting. In this eternal fierce place, if they are timid and afraid of death, they can not grow to this stage.

"Boom

The blood dragon and the three fierce beasts constantly collide, the void of heaven and earth is constantly exploding, the surrounding mountains and rivers are collapsing, and the aftershocks of their battle are too terrible, just like the God of destruction in collision, to destroy the heaven and earth.

The fierce battle continues. The collision of destroying the heaven and the earth is like a purgatory. However, the blood dragon falls into the downwind under the siege of three fierce beasts. It seems that it will not last long, and life and death are at stake.

"If the blood dragon is dead, ye Chen will definitely suffer from the attack, and all the influence will be too great."

At the moment, the eternal King frowned and couldn't help saying that he knew the importance of blood dragon to Ye Chen. However, outsiders could not help him, otherwise he would not watch the blood dragon fall into the danger of life and death.

"What can I do?"

Yan Kun, standing beside the eternal king, was dignified and worried.

"For today's sake, we can only let Ye Chen come."

Eternal King's eyes are deep, look to Yan Kun: "immediately to inform Ye Chen to come, at present only he has the opportunity to help."

The eternal king knows that he can't help the blood dragon. He and Yan Kun have no other way to protect the blood dragon. The blood dragon was born out of Ye Chen's killing intention. Maybe Ye Chen can help.

On hearing this, Yan Kun took a deep look at the blood dragon, and at the next moment, he directly turned into a mighty fire that melted the sky and burst out towards the sky.

Chapter 4013

At the same time, heiyunling, ye Chen will be Bibo palace put away, looking at the dead land, think of just left Xia Ruoxue, heart some melancholy.

"Well, let's go back to the moon sea first."

Ye Chen shakes his head, just put down the miscellaneous thoughts in his heart, but sees the sky with a bright red, as if to melt all the terrible flame straight forward.

"Well?"

Ye Chen's eyes are slightly startled. The flame contains a burst of gas, extremely powerful and domineering, but also contains the breath of life. You can see the figure of a Terran, which is someone's special hand to himself.

"Who, why are you provoking me for no reason?"

Ye Chen's eyes are cold, and the next moment the evil sword is in his hand. Xia Ruoxue's restlessness makes his heart rise with anger. At the moment, the destruction Shinto erupts, and the violent destructive power sweeps out.

"Boom

The sword collides with the flame, but ye Chen finds that the body and strength of the man in the fire is against the sky. Even if he uses the God of destruction, he can't shake it. Even his internal organs are shaking. There is a click sound from the arm holding the sword, and his bones are almost broken.

"I have some skills, but it's not enough to see if it's just like this!"

The other party is fierce and obviously the enemy. Ye Chen is in a bad mood. At the moment, he just wants to wipe out the guy in front of him and vent his anger.

"Daoyin..."

Ye Chen holds the evil sword, and the seal of destroying Shinto looms. He drinks in his heart and is about to stab out with a sword, but is interrupted by the other party's words.

"Big brother, what are you doing?"

The other party's voice, surprise also with a little fear, the most important is extremely familiar.

Ye Chen eyebrows a pick, in the eye divine light blooms, immediately sees through the flame, recognized this is Yan Kun.

"Why are you here? How did you get into the dark? And if you come to see me, why don't you let go of the flame. "

Ye Chen is surprised in the heart, but can't help laughing and scolding. If Yan Kun meets with his true colors, he won't misunderstand.

"Big brother, I'm in a hurry to see you and forget that."

"As for how to get in, yonglao naturally has a way."

Yan Kun was happy and scratched his head. Then his face was serious. "Big brother, come with me quickly. There's something urgent."

"Yes?"

Yan Kun's impetuous appearance makes Ye Chen a little surprised. He is about to ask, but he is directly held by Yan Kun. The next moment the flame rushes into the sky. Ye Chen and ye Chen break through the void and disappear.

.....

A moment later, the eternal and fierce void is broken. Ye Chen and Yan Kun walk out together. Seeing the bloody air, murderous spirit, and the mighty war spirit, ye Chen's eyes are frozen.

At the next moment, ye Chen is touched. He immediately realizes that the blood dragon is also here. He can't help but look up. In the mountains not far away, the blood dragon is fighting with three terrifying beasts.

One of the three fierce beasts looks like a nine headed wild snake. Its scales are gorgeous and colorful. There are also a pair of wings growing behind them. The sky vibrates between the wings.

There is also a fierce beast. It seems to be a golden lion in the sun. It is a relic of ancient times. Its talent and blood are top-notch. It is full of fire and ferocious.

The last ferocious beast is actually a magic unicorn. As we all know, the unicorn is a auspicious beast, but we don't know that there are varieties in the unicorn. The magic unicorn is the strongest fighting force among the unicorn, and it is also the beast of disaster. Where it appears, it will certainly sweep away the disaster and destroy the lives of the people!

The blood dragon realm is in the six layers of heaven and earth, while the other three fierce beasts are all the existence of the seven layers of heaven and earth. The actual combat power may exceed 89 levels! Moreover, these three fierce beasts are all endowed with excellent blood and talent. At the same time, they are all fighting with high spirits. At first glance, they are fighting from endless battles.

In the face of such an opponent, even the blood dragon can not take advantage of it. When the realm is still weak, the blood dragon is extremely oppressed. At the moment, he is in danger. Ye Chen can't help being anxious.

At present, it seems to be a magic weapon. There is a barrier between the interior and the outside world. Ye Chen wants to go out, but he is blocked by this barrier. He can't help looking at the eternal king.

"Yonglao, let me out quickly. The blood dragon can't stop it!"

Ye Chen looks at the eternal holy king with a solemn look, and his eyes are extremely firm.

"Bang!"

At this moment, nine wild snakes take advantage of the sun Golden Lion and magic Qilin to encircle the blood dragon, but the nine heads gather together and suddenly emit a nine color divine light.

This light is full of endless destruction, contains the terrible power of crushing the sky, and the cold of incomparable sharpness.

The blood dragon had no time to dodge, and was directly hit by the divine light. Even his tough dragon scale like a rock was also pierced in an instant.

"Poof!"

Suffering from this heavy blow, the blood dragon fiercely spurts out a mouthful of blood, the next moment his eyes are blurred, and he falls directly on the ground.

"Yonglao, let me in!"

Seeing this scene, ye Chen's killing intention is boiling thoroughly. He looks at the eternal holy king with red eyes and shouts loudly. "No

At the moment, the eternal king is helpless to look at Ye Chen, and then said: "you can't help, the law of heaven and earth here is not allowed."

"What a law of bullshit is that I can only watch? I can only watch the blood dragon be killed by these three evil animals? "

Ye Chen said angrily.

"You can only watch."

The eternal king looked at Ye Chen seriously at the moment, and then said, "you didn't find out how fast the blood dragon's realm has improved?"

"This is the law of heaven and earth here. It can make people improve rapidly in endless battles without any side effects. It will not leave hidden dangers because the strength level is improved too fast and the foundation is unstable."

The eternal king looks at Ye Chen with awe.

"But if it's good, it's bad."

"If you want to improve quickly, you have to bear the cost behind the promotion, which is a life and death battle."

"This battle is chosen by the blood dragon himself. If you intervene, the law of heaven and earth will judge that the blood dragon has violated the rules. At that time, all the fierce beasts in the heaven and earth will rush out and crush you two directly."

"You have to know that in addition to the three fierce beasts in the seven layers of heaven and earth, there are also eight layers of heaven and earth, nine layers of heaven and earth, and even more powerful than the upper level!"

Hearing this, ye Chen can't help being stunned. He didn't expect that this place would be so dangerous.

"So, you can only watch, or if you help, you are totally harming him." The eternal king looked at Ye Chen and sighed.

"That's why I asked Yankun to find you. We can't help Xuelong, but Xuelong was born because of you. Maybe you can help him."

Smell speech, ye Chen is facial expressionless, unable to help, even if he does not know how to help the blood dragon.

At the moment, the blood dragon has been beaten by nine wild snakes and other three fierce beasts, lying on the ground in a coma. The three fierce beasts are not in a hurry to kill the blood dragon, but play with it.

The three fierce beasts grabbed the blood dragon, threw it into the air, and smashed it to the ground. They even wanted to kick the blood dragon as a ball.

Seeing this scene, ye Chen's heart is burning with anger!

Chapter 4014

The blood dragon is the result of his killing intention and anger. The blood dragon and his temperament are exactly the same. They can die, but they can't insult. The nine headed wild snake and other fierce beasts are completely touching Ye Chen's bottom line.

Ye Chen believes that if the blood dragon knew that he was experiencing all this at the moment, he would never let them insult him.

"Blood dragon, wake up for me!"

Ye Chen angrily yells. He stares at the blood dragon, but he is extremely murderous to the three fierce beasts. He would like to replace the blood dragon on the battlefield and become himself. Even if he doesn't want to die, he will make the three arrogant fierce beasts pay the price.

At the moment of Ye Chen's roaring, the blood dragon in his coma faintly hears Ye Chen's voice and hears the infinite killing intention contained in Ye Chen's words.

"Ah

The blood dragon suddenly wakes up. At this moment, the dragon blood in his body is burning violently, surging and surging, sending out the surging sound of the Yangtze River. The world is filled with the magnificent sound of blood flow of the blood dragon.

"This guy's blood is getting stronger again!"

Seeing this scene, the eternal king was also very surprised, and Yan Kun looked at each other, his eyes flashed a touch of surprise.

It seems that it is right to come to Ye Chen. In addition to Ye Chen, who can let the blood dragon have such changes and obtain such opportunities.

At the same time, ye Chen also stares at the blood dragon. He sees the blood dragon roaring up to the sky. The mighty dragon's power breaks the void and destroys everything.

At the same time, the nine head wild snake and other three fierce beasts were forced to retreat by the blood dragon, and their blood vessels strengthened and burst out. There was a violent killing in their eyes.

"This guy, he's not down yet. You can't give him another chance!"

Nine head crazy snake spits out the snake letter, the eye son is extremely cold.

"Yes, the strange blood dragon is very talented in blood, and has a lot of opportunities. He even survived several times and could not delay it any more. Otherwise, it will be you and me who are in bad luck."

The sun golden lion's bright eyes turned, catering to the nine head snake said, he also felt that the blood dragon threat was too big.

However, the devil Qilin just glanced at the blood dragon indifferently at the moment. His hooves stamped impatiently in the void, breaking the space directly.

"Well, two cowards, what's the use of him even if he is given more opportunities?"

The devil Qilin is extremely arrogant and disdains the blood dragon.

At this time, the blood dragon suddenly looked at Ye Chen's position. He could see a green mountain, but in the void on the top of the mountain, something was rippling.

The blood dragon was brought in by the eternal holy king and Yan Kun. Of course, he also knew that the eternal holy king was hidden in the magic weapon on the mountain top. Ye Chen should have arrived at the moment.

There is a very keen sense between Xuelong and ye Chen. At the moment, ye Chen is aware of the endless fighting spirit in Xuelong's heart and can't help but clench his fist for him.

"You must defeat these three guys. Only by killing them can you survive and break through your limits!"

Ye Chen stares at the blood dragon and murmurs in his heart.

At the same time, the blood dragon regained his sight to the top of the mountain. His eyes focused on the three fierce beasts, especially the nine headed wild snake. He was just attacked by the nine headed wild snake, and was directly beaten and unconscious. He was humiliated by these three guys.

"I want you dead!"

The blood dragon roared, and the Dragon scales on his body bloomed with endless blood light. The mighty dragon power swept over, as if to suppress the sky.

The moment Ye Chen is here, Xuelong wakes up from a coma. It also remembers his life and death battle with Ye Chen step by step from China to other countries.

The blood dragon's desire from the heart can help Ye Chen and help the existence that breeds him. In order to achieve this goal, he must defeat the three fierce beasts in front of him, so as to break through the limit.

"Well, you want to kill us with such a little scum like you?"

At the moment, the nine head snake looked at the blood dragon and laughed.

"We have grown from endless fighting to this stage. Even if your talent and blood are higher than us, it will not help. We have been killing for a long time, and we have been beyond all shackles. Nothing can restrain us. Only by fighting, only by real and pure invincible power can we defeat us!"

The golden lion said that the sun was magnificent, and even behind him, there was a round of golden sun, emitting endless glory and magnanimous righteousness.

"You have a lot of nonsense."

At the moment, magic Qilin looks at the blood dragon and disdains to smile. The next moment, his body suddenly disappears.

"Bang!"

The magic Qilin appears on top of the blood dragon strangely. The next moment is the mighty evil Qi sweeping. With the magic light shot from the two corners of the devil kylin's head, the blood dragon is directly hit and spits blood.

"To kill it directly is to say so much and do what?"

Evil Qi Lin said, revealing a sense of cynicism. Its strength and talent are the strongest among the three fierce beasts, so they are also the most arrogant.

Seeing the demon Qilin like this, the nine headed wild snakes and the flaming sun Golden Lion look at each other without saying much. However, they also burst out to attack the blood dragon in a destructive manner. "Hum, you can't be ashamed to say that you can kill me. Even if you three join hands and want to take me, you will have to pay the price!"

In the face of this violent attack, the blood dragon looks at the demon Qilin and sneers at him. At the next moment, his body suddenly doubles, and the three fierce beasts all look like children in front of him.

The body of the blood dragon suddenly soars, the blood of the dragon in the body surges, and the Dragon Power sweeps across the body. Suddenly, it smashes the devil Qilin with one hand.

"Die for me!"

Come on, ha ha

Magic Qilin saw the palm of the blood dragon, but it was a flash in front of his eyes. This kind of fight was interesting. The strength of the blood dragon before him was not worth mentioning, and he was not interested in it.

"Demon God Ling Luo!"

The evil Qilin laughed, and the evil Qi covered the sky and covered the sun. At the end of the silk, there seemed to be a pair of giant palms that controlled the sky. They were like the hands of the demon God. They manipulated the silk to smash the blood dragon.

"Bang!"

The blood dragon's palm collided with the demon God, but the sharp claws of the next moment were broken dragon scales and splashed with blood. The Ling Luo was powerful and could not be carried by the flesh of the blood dragon.

At the same time, the eyes of the nine headed snakes also showed cold light, and the eyes of nine heads shot out a series of divine awns, sweeping the sky, invincible.

The blood dragon looked coldly at the eighteen divine awns. The dragon's blood was surging in his body. There was an infinite blood light reflected on it. However, a blood color barrier was formed to firmly block the eighteen gods.

However, although the 18 gods were blocked off, the blood color barrier was also smashed. A trace of blood spilled from the corner of the blood dragon's mouth, but it was eaten back.

"Well, is that all?"

At this moment, the sun Golden Lion sneered. It is full of golden light, majestic, powerful and righteous, like an ancient sage, stepping on the four sides, suddenly arrived.

"The sun is dying!"

The sun lion suddenly opened its mouth, the mighty golden light swept out, even condensed a round of golden sun.

Chapter 4015

At the moment when the golden sun was formed, the mighty heat wave swept all directions, and the empty space around it collapsed and disappeared, and the infinite divine power and light reflected on the sky.

On this round of sun, there is a huge shadow similar to the Golden Lion of the sun. It is located in a huge palace above the sun, overlooking everything and full of indifference.

"Boom

This round of sun is invincible against the heaven. It is more terrible than the magic power of the magic unicorn and the nine headed snake, even reaching the level of the eight layers of heaven and earth.

In the face of this round of sun, the blood dragon is also completely dignified, and his blood and Qi flow endlessly. In his eyes, there are a lot of auras, which rotate in his eyes and merge together to form a magnificent array.

"Tiancan five swords array!"

The blood dragon roared, and the light of five magnificent swords swept out in an instant. This is Tiancan's sword. As soon as the emptiness appears, everything is in disorder.

"Bang!"

The light of the five swords collided with the sun, and the light of the sword was constantly melted by the huge heat wave. However, the remnant five swords were full of endless chaos on that day, reversing everything.

The sun was also in constant rout, just like a plague. When the light of the five swords was eliminated, the sun came to the blood dragon, but there was only a small heat wave left.

"Poof..."

The blood dragon fought against the sun, but it was eaten back again. At the moment, a dragon's blood spurted out and directly sprinkled on the sun, which made the sun emit a white smoke and then dissipated directly.

"Well, that's all."

The blood dragon resisted the internal injuries and sneered at the three fierce beasts, only to find that they had been brewing an attack again on the sky. At the moment, the three magical powers swept down at the same time.

It is a flesh and blood spirit ball, with nine snake heads on it. All kinds of auras and nine kinds of laws and spirits echo each other. It creates a terrible scene of chaos in the sky and explodes at the blood dragon.

A palace of demonic Qi suppresses everything in the world. An invincible Demon Lord is located in the palace. The endless evil Qi turns into an infinite long sword and roars like a storm.

A magic fire, sometimes dark and white, all the vitality along the way is lost. Even the space is melted into drops of space, which weigh more than 10000 Jin, and drop into the void.

This time, in the face of the joint attack of three fierce beasts, the blood dragon's face is completely dignified. He is very clear about his own strength. One on one is still possible. The other three fierce beasts join hands, and he is absolutely impossible to win.

In the face of these three terrible miracles like destroying the heaven and the earth, the blood dragon's heart was cold, and he could not resist such power. Should he be wiped out?

"I don't want to!"

The blood dragon roared in his heart. Although he knew he was defeated, the blood in his body still broke out and ran wild. The sound of roar came from the blood dragon's body.

Around the blood dragon, there are Hongmeng Qi emerging, and even a trace of source gas. The source gas of the Dragon circulates around the blood dragon.

The infinite blood light reflected on the sky, and the blood dragon looked at the three mortal magic powers that came to him. His face was ferocious, and his endless fighting spirit rose into the sky.

"I don't want to die. Even if I die, I'll die standing up!"

"Blood dragon heart roars," I am the Jiangcheng youth endless killing idea melt, never bow head! "

At this moment, watching the blood dragon encounter the terrible situation of dying, the eternal king and Yan Kun are all nervous, staring at both sides of the field.

Ye Chen, however, faintly hears the roar of the blood dragon, and the unwilling voice of the blood dragon makes Ye Chen's killing intention and anger rise violently.

"With one enemy three, you want to hurt the blood dragon of my killing intention. You are extremely arrogant and shameless. If you want to kill the blood dragon, don't even think about it!"

Ye Chen is angry in his heart. At this moment, his killing intention and anger are climbing to the extreme, and they are turned into substance. They rush out of the body and become blood gas gathering on their heads.

At this moment, there is infinite blood gas gushing out of Ye Chen's body, constantly gathering on top of his head, and finally turns into a virtual shadow of a blood dragon.

The virtual shadow of the blood dragon is much smaller than that of the blood dragon in the battle, but it contains the same dragon power and killing intention as the blood dragon.

At the moment, the virtual shadow of the blood dragon appeared in the world as if it had realized the blood dragon, came for the blood dragon, and even ignored the magic weapon of the eternal king to isolate the space, and directly penetrated through the barrier and appeared to the outside world.

"Boom

At this moment, the sky vibrated, thunder came out, the endless clouds swept, and the mighty atmosphere of punishment swept through.

"If you don't have the rules, the dragon's blood can't help each other."

At the moment, the eternal King's face changed greatly. He moved the rules of heaven and earth, and besieged all the fierce beasts in the whole eternal land. Under such a terrible attack, the blood dragon would surely die.

But at this moment, ye Chen condenses the virtual shadow of the blood dragon, but it is dim. The dragon's head is very pale, and has been extremely serious backfire.

And ye Chen listened to the words of the eternal king, but raised his head and shook his head seriously.

"This virtual shadow belongs to the blood dragon's power. It has the same origin as the blood dragon. Don't worry about it." At the same time, with Ye Chen's voice falling, the shadow of the blood dragon also penetrates the void, ignoring all obstacles, and directly rushes into the blood dragon's body.

At the moment when the blood dragon's virtual shadow rushes into the blood dragon's body, thousands of auspicious Qi and rays reflect the world. The great power of suppressing the sky sweeps out of the blood dragon's body, and the dragon power that frightens the whole world is shrouded in all directions.

For a time, the place where the blood dragon was located was shrouded in the infinite blood light. The fierce intention of killing and fighting even turned into the essence, and became a god of war with armor on his head to kill the world.

"Roar!"

At the moment, the roar of the blood dragon came from the blood light. For a time, the blood light all over the sky converged, and a revered God of war turned into smoke.

All the visions turn into pure power at the moment, and return to the blood dragon like a sea of rivers.

At the moment, the figure of blood dragon finally appeared in front of the public.

Seeing the appearance of today's blood dragon, ye Chen and the eternal holy King marveled, and even the three magic beasts, such as magic Qilin, could not help but take a breath.

At the moment, the blood dragon has bright dragon scales reflecting blood light, and its limbs are ferocious and solid, as if indestructible armor. There is also the source power of the dragon, which is

magnificent and majestic, and emits endless charm. The source power of the Dragon even condenses into two streamers, which surround the blood dragon.

At the same time, the body size of the blood dragon is soaring again, several times larger than before. At the moment, it is comparable to the mountains. Under one claw, it seems that it is going to tear and crush the heaven and earth.

"Well, I didn't expect you to explode, but I underestimated you!"

At the moment, even the arrogant devil Qilin's eyes became more cautious when he looked at the blood dragon. At the next moment, his eyes flashed a touch of fierce fighting spirit, "but this is better, it's more interesting!"

Magic Qilin laughs, and the evil Qi is surging out of his body, covering the sky and the sun in an instant, as if there is no end to it. In the sea of evil Qi, the devil Qilin breathes and puffs, and its body size gets bigger every time.

After a while, the devil Kirin became about the size of the blood dragon, and behind it grew a pair of wings full of evil spirit, with ferocious black spines growing on its body, and the evil Qi was staring at the blood dragon.

On the other side, the nine headed wild snakes and the burning sun golden lion roared and roared. They were also bigger, but compared with the blood dragon and the magic Qilin, they were both lower in talent and blood. At the moment, although they released their noumenon, they could not be compared with the blood Dragon and the blood dragon by a circle.

However, although the volume can not match, but the number, the blood dragon is suffering. At the moment, the nine head crazy snake looks at the blood dragon and sneers.

"No matter how you break out, you can't be the opponent of the three of us. Let's face it."

"Be honest and die. When I swallow your flesh and blood, I may bite less."

"To die?" Blood dragon mouth hook up a strange arc, but look at the direction of Ye Chen.

The blood dragon can sense Ye Chen's existence, and knows that the blood dragon's virtual shadow rushes into his body, which is also the help of Ye Chen.

The master has done so much for him, and Xuelong is deeply moved. At the same time, he is determined to repay Ye Chen's kindness with the victory of this battle.

"You three, come on together!"

At the moment, looking at the three magic Qilin, the blood dragon is showing a ferocious smile, and says with the utmost arrogance.

After the fusion of the blood dragon's virtual shadow, the blood dragon's injury is completely recovered, and at the same time, he feels that his body is full of infinite vigorous strength, and ordinary combat can not even satisfy him.

Although he was still in the six layers of heaven and earth, the blood dragon felt that his strength was not inferior to that of the seven layers of heaven and earth. He even felt that one-on-one was very boring, and asked the three magic Qilin to go together.

Qi Lin Yang's face is extremely arrogant, and the lion's face is extremely arrogant.

"Well, don't you pay attention to me? In that case, I will satisfy you! "

The magic Unicorn roars up, and the monstrous evil Qi follows behind it, turns into a series of magic Qi sharp blades, and directly shoots at the blood dragon.

At the same time, the two corners on the top of the devil kylin's head are also flashing a faint purple arc. Between the arc flashes, it is more and more intense to gaze.

Finally, the electric arc turned into purple water and flowed slowly between the two corners of the magic Qilin. Then, the eyes of magic Qilin were cold, and the magic air water between the two corners suddenly flew out.

"Kill thunder liquid world!"

Devil Qilin roars in his heart. On the way to kill the devil Qi and thunder liquid, he turns out to be a scene of terrifying extermination.

The next moment, the killing thunder liquid appeared in front of the blood dragon, and the blood dragon also noticed the threat of the killing thunder liquid, and his eyes narrowed slightly.

"Suck!"

The blood dragon takes a deep breath, and the endless aura between heaven and earth suddenly pours into the blood dragon. There is also a vast blood gas and killing intention. At the moment, it converges in the mouth of the blood dragon, and turns into a terrible blood color light cell that shakes the heaven and earth.

"Go!"

When the blood dragon vomited fiercely, the blood colored light ball immediately vomited out. The blood color light ball passed along the way, and the heaven and earth changed color, and the space constantly collapsed, turning into endless nothingness.

Chapter 4016

This is a move just understood by the blood dragon. It uses its own dragon blood and killing intention, combines with the spirit of heaven and earth, and creates "blood destroys the light of heaven and earth!"

At the moment, the red light ball collides with the annihilation thunder liquid, and the light ball is constantly collapsing and falling, while the thunder liquid is constantly evaporating. Neither of them can do anything but stand still.

As a result, the void was constantly collapsing at the place where the light ball collided with the thunder liquid, and the impact of destroying the heaven and earth was sweeping around, and even the endless mountains and rivers of this eternal and ferocious land were constantly collapsing.

However, in the face of the violent impact, the blood dragon did not care. It was staring at the magic Qilin not far away with its murderous eyes, and its fighting spirit soared to the sky, and it took the initiative to attack at the next moment.

"You want to kill me? I'm afraid you don't have the qualification! "

The blood dragon's mouth was full of fury. It was as if it was going to smash the heaven and earth under this claw. The mighty dragon power was accompanied by endless power, which shocked many fierce beasts in this eternal fierce land with their eyes and hearts shocked.

"Longwei heaven prison, kill me!"

The blood dragon roars in his heart, but in his claws, it is a vast blood light and killing intention, condensing a magnificent prison, forest hell, emitting the majestic dragon power of lawlessness.

Dragon Power heaven prison, to suppress all enemies between the fingers, the blood dragon this magic power is simply proud of the sky, against the sky invincible.

Facing the palm of the blood dragon, magic Qilin's face suddenly changed. He felt that he could not resist the Dragon Power heaven prison. The magnificent dragon power even made him feel a trace of fear.

"No way. I'm a demon Kirin with noble blood. I'm born for fighting. How could I be defeated by you?"

The magic Qilin is also completely crazy. The whole body is full of evil Qi. A magic light suddenly lights up from the two corners of the magic Qilin. Under the magic light, time seems to stop.

Under the shadow of the magic light, time seems to stop, and everything becomes extremely slow. Only the magic Kirin and the blood dragon are not affected at the moment.

This magic light and the sharp claws of the blood dragon collide with each other instantaneously. Under the oppression of Longwei heaven prison, the magic light is constantly worn out and suppressed in the heaven prison.

However, the magic light is also very strong, and its power is against the sky, which makes Longwei heaven prison constantly broken.

However, after the blood dragon integrates the virtual shadow of the blood dragon sent by Ye Chen, its strength is greatly increased, and the spirit of killing is endless. At this moment, it maintains the operation of the Dragon Power heaven prison. Once the Dragon claws grasp it, it directly smashes the magic light.

"Poof!"

At the moment when the magic light was broken, the magic Kirin's body trembled, but it spewed out a large mouthful of dark magic blood, and its breath became listless for a moment.

This magic light is the magic light of the devil Kirin. When the magic Kirin family was born, a magic light of their own life will be bred in their body. This magic light has the power of against the sky, and can even directly kill the enemy who surpasses his own realm.

Because of this, magic Qilin never paid attention to the blood dragon. However, he did not expect that the blood dragon would get help from ye Chen, and burst out such terrible power. Even if it used its own magic light, it could not defeat the blood dragon, and was crushed by the blood dragon, and it was also severely damaged.

The demon Kirin fell to the ground, and his huge body had shrunk by half at the moment. His strength was not enough to fight against the blood dragon.

Seeing this scene, the nine head wild snake and the burning sun golden lion are even more frightened. The magic Qilin's strength is stronger than both of them, and is beaten like this by the blood dragon.

They knew that the blood dragon was not simple. They always made breakthroughs in life and death. They were worried that the blood dragon would become stronger and stronger. In the end, they were not rivals of the blood dragon. Therefore, they wanted to kill the blood dragon as soon as possible, but it was still a step too late.

"Now, it's your turn."

At the moment, the blood dragon laughs cruelly, and the demon Qilin has temporarily lost its fighting ability. So he looks at the nine head wild snake and the burning sun Golden Lion, and his killing intention rises to the sky.

"We must join hands, or else we will die in his hands!"

Nine head crazy snake looks at the blood dragon, fierce from the sun, the golden lion said solemnly.

"I understand."

The sun lion nodded solemnly. He also knew this. After the blood dragon broke out again, its strength was too terrible. If it didn't work together, it would be defeated by the blood dragon. At that time, all three of them would surely die.

At the moment, the nine wild snakes and the sun Golden Lion look at each other. In the eyes of the two fierce beasts, there is endless ferocity.

They also came out of the sea of corpses and blood. At the moment, the infinite evil spirit swept out of their bodies, and the mighty and ferocious power awed the heaven.

The nine heads of the nine snakes were dancing in the sky, but they were talking and chanting at the same time. At the center of the eyebrows of the nine snakes, a mysterious array appeared.

There are nine mysterious arrays in total, which appear in the eyebrows of nine snakes, and then the array trembles. At the next moment, they even fly out and gather in the air. The arrays are closely linked and even superposed together.

"Hum..."

These nine arrays are of different colors. At the moment, they are turned into a huge array that blocks out the sky and the sun. They are bright and mysterious. Their charm is surging in the heaven and earth, revealing the breath of pain and horror. "Nine ways to kill the array!"

The nine headed wild snakes roared in their hearts. The great array of gods reflected the sky and covered the blood dragon. The mighty aura flowed, and the endless pressure emerged, and it was violently suppressed towards the blood dragon.

At the same time, the Golden Lion of the sun is also roaring, and its endless sun god awn erupts again, as if incarnating Shenyang, releasing endless heat waves.

"I incarnate the divine sun and melt all the heavenly realms!"

The sun roared in the golden lion's heart. It turned into a magnificent sun and rushed directly to the nine killing array of nine wild snakes, suspended in the center of the big array.

For a time, all the powers of the nine day killing array were bestowed on the scorching sun, which was transformed by the sun of the sun.

When their strength reaches the level of heaven and earth, they can awaken their own magic power. I incarnate the sun and become the real one, melting the world and reflecting the sky.

However, there are still some differences between the real sun and the sun transformed by the golden lion. After all, their strength is still insufficient compared with the real one. However, they have all the power of the real sun, which can be regarded as the newly born little Shenyang.

And it is precisely because of this magic power of the red sun golden lion that the nine head wild snake and the red sun golden lion can join hands to produce a terrible blow that the demon Qilin is extremely afraid of and can not resist.

Nine headed wild snakes are born with nine. Each snake head has different aura attributes and different law forces. Therefore, it can use nine different forces to refine nine killing arrays.

The array itself is powerful and invincible, but its strongest point is that it can increase its combat power, especially when the sun and Golden Lion incarnate into the Shenyang and enter the nine ways of killing array, it can gain the power of several times, which is just against the sky.

At this moment, the nine rules continue to sweep down, ice, fire, thunder All kinds of terrible natural disasters and tribulations.

The blood dragon is in this big array, but he is not satisfied with the natural disasters. Even if these attacks are allowed to hit the body, the blood shining Dragon scale has never left a trace.

At the moment, the blood dragon put his heart and soul on the golden lion in the middle of the array. The lion turned into the sun and was blessed by the nine extermination arrays. His power was so great that he could even crush everything in the world, giving him incomparable pressure.

"Roar!"

The blood dragon looked at the sun above the sky and couldn't help roaring.

At this moment, the sun in the sky is also a sound of shock, the next moment the mighty flame swept all directions, this round of general Shenyang burst down in an instant, the terrible power of destroying heaven and earth emerged, everything along the way was smashed, and the space was lost.

In the face of the sun, the blood dragon is dignified, with endless killing intention and fanaticism in his eyes.

"Hum, Shenyang? I really haven't had a fight with Shenyang. In this case, let's have a try! "

With a roar of blood dragon, the blood light on his body rose to the sky, and his bloody armor was shining in the light of the sun.

At the moment, the blood dragon is also the strength of the whole body, suddenly opened his mouth, endless blood light gathered in his big mouth, condensed.

"Hum..."

The earth and the earth trembled at this moment. The waves in the dark made the mountains break and collapse quietly. The earth and the sky are disappearing. The world seems to be destroyed.

"Five things do not kill, destroy all things, kill all dragon blood!"

"Kill all the dragon blood!"

The blood dragon roared in his heart, and the blood light in the air brewed to the extreme, which turned into a terrible bloody God.

At this time, the blood dragon's huge body also instantly reduced by half, even skin and bone, thin to the extreme, even the breath was extremely dispirited.

This is because all the dragon's blood has been killed. He absorbed a lot of dragon's blood in the blood dragon to gain strength, and almost drained the blood dragon directly.

The dragon blood of the blood dragon has the mighty dragon power and magnificent power. It absorbs his dragon blood, and the power of killing all the dragon blood is terrible to the extreme.

This is the most powerful blow of the blood dragon. It is a magic power that can only be used in a war of backwater. After all, in the face of the blessing of the nine killing array, the blood dragon also feels terrible pressure and can only do its best.

Seeing the light of dragon blood bred in the mouth of the blood dragon, nine killing arrays have been condensed. The nine headed wild snakes, who have already lost their breath, can't help but flash a touch of horror in their eyes.

The magic power of blood dragon brings it endless fear, as if there is a boundless hell shrouded in it. If you want to take it in and suppress it forever, it can't help worrying about whether the God Yang transformed from the sun and golden lion can win the blood dragon.

At this moment, all the dragon's blood is killed. It explodes out of the blood dragon's mouth, and it directly faces the sky. It contains endless divine power, and the sun blows down from it.

Along the way, the light of dragon blood breaks up the void and vanishes the void, but it leaves an endless blood red color, as well as a powerful killing intention.

At the next moment, the light of dragon blood collided with the sun.

"Boom

The impact of destroying the sky and the earth instantly swept the four sides, and the blood light and fire light reflected half of the sky respectively.

Chapter 4017

"Click!"

At this moment, the intersection of blood light and fire light seems to be sending out the sound of fragmentation, followed by a visible to the naked eye, the deep dark crack slowly emerged.

"Crash!"

At this moment, the crack suddenly widened, and everyone's pupils couldn't help but stare. The heaven and earth were actually split in two by the terrible collision array.

"This..."

Seeing this scene, demon Qilin could not help feeling thirsty. Although he knew that the breaking of the heaven and earth was only temporary, the power of heaven and earth was far from enough to break the eternal ferocity in half.

However, the devil Kirin was still shocked because it could not do this. In order to tear the heaven and earth apart, at least it had to have the power to burst out the peak of heaven and earth in an instant.

This also shows that the collision between the blood dragon and the flaming sun Golden Lion at this moment has broken out the power of the heaven and earth, even surpassing.

At this time, the blood light and fire light had not dissipated, and the terrible waves were still coming from the collision place, and the invisible shock swept around like water waves.

There are endless ripples between the heaven and the earth, and the endless void is broken. When the continuous mountains encounter this impact, it is as if they have encountered a long knife that cuts through the heaven and earth, and is directly cut off the top of the mountain and becomes a flat top mountain with the same height.

The impact continues, but people can see that the fire seems to fall into the downwind, and the power of the Shenyang faintly dissipates.

"Boom

The next moment, the terrible explosion was deafening, and the sky was full of fire. Everyone could see that the figure of a huge golden lion exploded in the endless fire.

The golden blood splashes everywhere, but it hasn't fallen to the ground. A terrible suction is used to suck all the golden blood from the world.

It turned out to be a blood dragon. Its eyes were ferocious at the golden blood. With its mouth wide open, it sucked all the golden blood into its mouth. The dragon body, which had used all the dragon's blood to kill all, was also recovering rapidly, restoring the shape of Shenjun again.

"Well, even if you join hands, you can't kill me!"

At the moment, the blood dragon's eyes are indifferent to the nine headed snake and the demon Kirin, and his eyes are full of killing intention.

The combination of the Red Lion and the nine headed snake is indeed extremely powerful. If the blood dragon does not dare to be cruel and does not leave any spare force, it will kill all of them directly by using the dragon's blood. I am afraid it will be killed by both of them.

If the two dragons are not destined to die, then it will be too early.

It's just that there is no regret medicine in this world. At the moment, the Golden Lion of the sun falls down, and the devil Qilin and the nine headed snake are also depressed. They can't be the opponents of the blood dragon. Their fate is doomed.

"If you want to blame, it's because you still despise me. You think your realm is higher than me and your combat experience is higher than mine."

The blood dragon gazed at the nine headed snake and approached it step by step.

"You are the most cautious, but you are not careful enough. You should use that strange array from the beginning to join hands with the sun and the lion, or you will have no chance of winning."

The blood dragon's mouth curled up a cold radian, and looked down upon the nine headed wild snake with pride, "because there is no power to crush me, I can create countless miracles and let you despair!"

When the voice dropped, the blood dragon opened its mouth and aimed at the nine headed snake.

At this moment, it is a pure animal engulfment. The scene is extremely bloody, but it also contains the charm of blood boiling. This is the most primitive way of fighting.

The nine headed snake was not a match for the blood dragon. After struggling for a few times, it swallowed its breath. It was used as food by the blood dragon hunter, and swallowed up after a few mouthfuls.

Then, the blood dragon looks at the devil Qilin. Even if the other party's breath is weak, the end is doomed to be desolate. At the moment, the blood dragon's eyes are full of pride.

"Well, I didn't expect you to be able to turn the tables. It's my fault."

Magic Qilin looks at the blood dragon, but he bursts into a rage again and rushes towards the blood dragon.

"But you don't deserve to let me die!"

The devil Kirin burst out the last trace of strength in his whole body. It roared incessantly, and the endless evil Qi condensed on the two corners of his head. It turned into two destroying long swords filled with the breath of destruction, and hit the blood dragon fiercely.

Seeing this scene, there is a flash of appreciation in the blood dragon's eye. Devil Qilin knows that he is not his opponent, but he still wants to fight hard at the last moment. This is a respectable enemy.

At this moment, the blood dragon suddenly raises the dragon claw. The dragon's claw is once again condensed into the dragon's claw. It is aimed directly at the demon Qilin, which is coming from the explosion, and takes a picture.

"Bang!"

The devil Qilin was photographed directly under the ground. The terrible dragon Wei heaven prison was suppressed. The bloody dragon claw squeezed the demon Qilin in into the Dragon Wei heaven prison. Then, endless power broke out and broke the devil Qilin's grip directly.

Blood dragon is to give magic Qilin a happy, with the most serious fighting attitude, to end the life of magic Qilin.

At the moment, the flesh and blood of the demon Qilin turns into blood mist, floating in the Dragon Weitian prison among the blood dragon claws.

But the blood dragon was moved. The flesh and blood of the demon Kirin turned into the purest nutrient, which was absorbed and refined by the blood dragon. The blood dragon devours three fierce beasts in the seven layers of heaven and earth, and its momentum is also climbing to the extreme. It is like an invincible God of war, which is proud of the whole eternal fierce land.

At the same time, the rules of heaven and earth, which are eternal and ferocious, are also quietly surging, and the shining golden awns fall from the sky and fall on the blood dragon.

The blood dragon once again won an almost impossible battle in the eternal fierce land. It not only devoured the three fierce beasts to strengthen itself, but also was blessed by the rules of heaven and earth.

At this moment, with the continuous integration of the golden light in the blood dragon, his momentum began to climb, and a sound of explosion continued to spread from the blood dragon body.

At this moment, the strength of the blood dragon is more and more powerful, and then the sound of breaking something comes out of the blood dragon's body, and the momentum of the blood dragon also breaks out in an instant, as if opening the gate of power. In an instant, he breaks through the seven layers of heaven and earth, and steps into the later stage of heaven and earth.

"Ha ha ha ha!"

The blood dragon felt the incomparable power in his body, and his eyes were full of excitement. After going through hardships, he finally defeated the three fierce beasts in heaven and earth, and finally obtained enough strength to make a breakthrough.

At this moment, ye Chen, who has been in the magic weapon of the eternal holy king, suddenly flies out and comes to the blood dragon.

"Blood dragon, congratulations on your successful breakthrough." Ye Chen looks at Xuelong with a sincere smile.

Hearing this, the blood dragon grinned, just looked at Ye Chen slightly pale face, blood dragon heart is extremely grateful.

The blood dragon knows very well that he can defeat the three fierce beasts, such as demon Qilin, because of the blood dragon virtual shadow formed by Ye Chen. The blood dragon virtual shadow contains endless power, which obviously makes Ye Chen spend a lot of money.

"Master." The blood dragon looks at Ye Chen and suddenly flies into the sky.

"Come up, I'll take you on a nine day tour."

Blood dragon laughs and shouts.

"Good!"

Ye Chen is also excited when he hears the speech. At the next moment, he flies up and falls between a pair of dragon horns on the top of the blood dragon.

Chapter 4018

Blood dragon body is huge, ye Chen fell on him is not as big as his dragon scale, but the two people have the same feeling.

"Roar!"

Ye Chen is aware of Xuelong's gratitude, and Xuelong also realizes that ye Chen is happy for himself. He can't help but roar to the sky.

The wind is howling in my ears. The blood dragon really wants to fly up to nine days and travel around the world with Ye Chen.

After countless battles of life and death, now I finally see ye Chen. Xuelong wants to indulge and release his inner emotions.

The blood dragon takes Ye Chen through the endless clouds, breaks through the cold and vigorous wind, and flies freely on the sky. Nothing can stop it.

"Boom!"

At the moment, there was thunder on the sky, and the boundless black clouds gathered together. It was the breakthrough of the blood dragon that brought thunder robbery.

"Master, I'll take you back."

Aware of the arrival of thunder robbery, the blood dragon is also slightly changed, and then looked at Ye Chen said.

Smell speech, ye Chen is indifferent smile.

"No need."

Ye Chen patted the bloody dragon's hard and sharp horn: "you and I share the same root and share the same origin to deal with the thunder robbery, and the power of thunder robbery will not become stronger."

Hearing this, the blood dragon can't help nodding. Ye Chen is right.

In this case, the blood dragon is not forced to settle down immediately and wait for the arrival of thunder robbery with Ye Chen in the sky.

At the bottom, the eternal king and Yan Kun looked at the vast clouds and the thunder breath from the sky. They could not help but look at each other, and the corners of their mouths curled up.

"Ha ha, this guy's successful breakthrough has brought thunder robbery. Ye Chen also has a great help."

The eternal King coughs twice and looks at the sky with deep eyes.

"Yes, the layout of big brother in foreign countries will be more relaxed."

Yan Kun recognizes the same way with a smile.

Nine days above, the vast clouds gathered, endless thunder emerged, boundless vision emerged.

The Thunder God's mansion, which stands in the dark cloud and stares at the blood dragon fiercely, stands upright in the dark cloud.

The thunder robbery in the seven layers of heaven and earth could trigger such a vision. There were even guillotines, soul cutting platforms and soul destroying platforms transformed by thunder.

This is sanmietai, which means that you must die. At the same time, it also appears in the thunder sea. This is the disaster that the blood dragon must experience.

Looking at this grand vision, ye Chen's mouth curls up a radian. I wonder if there will be golden thunder in the thunder robbery of blood dragon, and whether it can swallow some golden thunder liquid.

As if to hear ye Chen's idea, at the moment, there was a shock in the dark cloud, and then the endless black thunder swept out, and a golden light also bloomed from the thunder robbery.

This golden light is extremely dazzling and dazzling. It contains a chilling force of thunder. It is the golden thunder.

At the moment, the golden thunderbolt grew a vertical pupil, which was filled with indifference, and endless thunder surged in the pupil.

"Click!"

A thunderbolt suddenly shot out of the vertical eye of the golden thunder. The thunder rose in the wind. Along the way, there was a constant influx of thunder. In a flash, it turned into a terrible thunder with the thickness of mountains, as if to kill Ye Chen and ye Chen directly.

Seeing this scene, the blood dragon can't help but look shocked. What's the matter with the golden thunder? And it was such a terrible thunder robbery.

We should know that this kind of thunder robbery is equivalent to the strongest power level in the six layers of heaven and earth. Now it is the level when we meet. If the thunder robbery comes back, it will be terrible.

Where does the blood dragon know that this time's thunder robbery is so terrible, it is entirely because of Ye Chen's existence that ye Chen infuriates the golden thunder, which ushers in such an offensive.

At this time, ye Chen was looking at the golden thunder, his eyes showed a happy color, and said to the blood Dragon: "break the golden thunder, but there are good things in it."

"Good stuff?"

The blood dragon was surprised to hear this, but he saw the golden thunder on the opposite side, and the endless thunder light splashed out from its body. Every ray of thunder turned into the size of a mountain, and fell towards Ye Chen.

"Break it for me!"

In the face of the huge thunder, the blood dragon did not have the slightest fear. The dragon's body danced and its claws flew. Every time, it seemed that it would tear the sky and break the thunder.

And at the moment, ye Chen is not idle, also holding a Sha sword, to help blood dragon break a lot of thunder.

At the same time, ye Chen also explained to the blood Dragon: "this golden thunder contains treasure that can make you break through and immediately consolidate the foundation."

After hearing the words, the essence of blood dragon's eye suddenly lights up. After breaking through, it takes a long time to get familiar with the current state. The treasure that can stabilize the foundation can't be found. The golden thunder has such effect. How can we let it go.

"I see!"

The blood dragon looked at the golden thunder again, but he laughed, as if he had seen some beloved baby. His eyes were full of love, and his fighting spirit rose to the sky. "Audacious maniac, thunder robbery, dare to laugh, give me the law!"

At this moment, a statue of thunder in the sea of thunder is one after another.

They are huge, but compared with them, the blood dragon is no better than them. At this moment, hearing their anger, the blood dragon can not help sneering.

"Hum, it's just a group of empty shadows. I dare to be so arrogant. Even if the real Thor is in front of me, I can't let me lie down and die!"

The blood dragon is extremely arrogant, is simply lawless, at the moment the words are to make a revered Thunder God angry.

However, ye Chen is very appreciative of this, and Xuelong's idea is the same as his, very to his taste.

At this moment, in the face of a statue of God of thunder, holding all kinds of magic weapons, ye Chen and Xuelong are fearless, fighting with each other directly.

"Boom

Ye Chen cuts a sword on the arm of a Thunder God vision and destroys the Shinto, which directly turns into Nirvana powder.

But at this time, another vision of Thunder God is to hit Ye Chen with a hammer, but ye Chen doesn't return his head. Instead, he is a dragon claw. He directly holds the thunder hammer and holds it hard to crush it.

The thunder robbery seems terrible, and it is indeed powerful. However, ye Chen and the blood dragon work together as if they were invincible. They killed all directions in the thunder sea, and a statue of Thunder God was constantly broken by them.

At this moment, the vision of sanmietai also suddenly vibrates. At this moment, the heaven and earth fall into boundless silence. Time is suspended and the sky is full of thunder. A statue of the God of thunder is frozen in the air and can't move. Only sanmietai and ye Chen are not affected.

At this moment, the guillotine flies out first, penetrates the space, and appears directly above Ye Chen and imprisons them in the void. This guillotine contains the power of heaven and earth, forcing Ye Chen and ye Chen not to move. They must be killed by the guillotine.

Chapter 4019

"Well, you want to kill us with this?"

However, looking at the guillotine, he is very cold.

Ye Chen was indifferent, and joined hands with the blood dragon. Their strength was enough to shake the thunder robbery. Even if it was the guillotine, he was not afraid.

"Boom

At this moment, the guillotine is suddenly cut down. The guillotine is condensed by thunder, and the chopper is also shining with endless thunder. Ye Chen and ye Chen want to resist, but they feel cold in their necks. The chopper ignores the space distance and all the restrictions, and cuts them directly on their necks.

At this moment, the back neck of Ye Chen and blood dragon is also suddenly splashed with blood. The endless cold and thunder rush into the body, and the next moment is directly eliminated by endless aura.

And cut Ye Chen two people a knife, guillotine is also slowly dissipated.

"This guillotine..."

At the moment, ye Chen and Xuelong feel the scar on the neck of Bo Bo, but they are still scared. They look at each other and become extremely cautious.

The guillotine can ignore everything and cut them directly on their necks. This is obviously the power of the law of heaven and earth. It is a disaster that cannot be refused and must be endured.

The flesh of Ye Chen and Xuelong is tough enough to not be cut off directly by the guillotine. They are just splashed with blood and soon recovered.

But the three exterminators are not only guillotines, but also soul chopping and soul destroying platforms. I'm afraid these two exterminations can't be avoided, and they all affect the soul.

"I can easily block it, but I don't know you..."

Ye Chen looks at the blood dragon, and his heart is deep. His spirit is very tough, far beyond his own realm, and almost nothing can be destroyed. Even this soul chopping and soul destroying platform can be awe inspiring. However, the blood dragon is bred by him, not sharing the spirit with him. Ye Chen is not sure whether the spirit of blood dragon is tough or not.

"I..."

The blood dragon was stunned when he heard the speech, and he didn't know whether he could stop it.

But at this moment, the heaven and earth again came to shock, ye Chen and they found that they were imprisoned by inexplicable rules, and then they saw the huge soul cutting platform to suppress them.

There is a thunder gun hanging on the soul chopping stage. The thunder gun doesn't enter ye Chen's body directly, but it comes for the spirit.

Thunder spear stab in the spirit of Ye Chen, but like scratch itch general, on the contrary, burst into pieces.

On the contrary, the blood dragon was stabbed by the thunder gun, but the spirit was almost broken. Then it was covered by endless thunder, and the body was splashed with endless thunder light.

"Blood dragon!"

Seeing this scene, ye Chen can't help worrying about the blood dragon, and can't help opening his mouth to drink.

But at the moment, the blood dragon can't hear ye Chen's voice. It has been wrapped up by a thunderbolt. At the same time, the spirit feels endless pain, as if it is going to turn into Nirvana powder and be completely annihilated.

"Blood dragon, steady mind!"

At this moment, ye Chen's idea finally enters the blood dragon's mind. Hearing Ye Chen's words, the blood dragon's already faint consciousness is clear again.

In this case, the blood dragon clings to the spirit of the heart, and the spirit gradually emerges blood light. In the temper of the thunder, it becomes more and more solid, and gradually twinkles with the luster of glass.

With the continuous refining of thunder light, the blood dragon has no pain in the face of the baptism of thunder. Instead, he feels very comfortable and has a pleasant and extraordinary feeling.

But at this time, this chopping soul platform is also quietly dissipated, ye Chen sees this scene, not by eyebrow a pick.

"This is your chance. Whether it's the soul killing platform or the soul destroying platform, as long as it can hold on, it's a kind of tempering for the spirit."

Smell speech, blood dragon eye in front of a bright, ye Chen said he then understood, at the moment is also look solemn.

Then, the soul destroying platform also appeared, directly imprisoning Ye Chen and ye Chen in the void. At the next moment, a thunderbolt sword was cut off, which also fell into their bodies and directly cut on the spirit.

"Bang!"

The thunder sword that cuts Ye Chen is broken again, and the nutrients are absorbed by Ye Chen.

On the other hand, the blood dragon experienced the temper of thunder again.

However, the spirit of blood dragon has been tempered by the soul killing platform before, and it is much more tenacious. At the moment, facing the soul destroying platform, it is not dangerous and easy to spend.

Soon, the soul killing platform also dissipated, and the solidification of the heaven and earth disappeared, and time was restored.

A statue of thunder god looked at Ye Chen and ye Chen again. This time, he did not make a violent attack. Instead, he put his hands together and uttered a sentence in his mouth. At the same time, it dissipated and became a thunderbolt.

"This is..."

When the blood dragon saw this scene, he was surprised.

Ye Chen, however, is slightly frowning at the moment, thinking of the three exterminations. It seems that they have passed the test of sanmietai, and these visions of thunder god have judged that they have passed the thunder robbery, so they do not take any more actions.

At the moment, sanmie platform passed smoothly. The Thunder God vision disappeared, but the thunder robbery did not disappear. On the contrary, the thunderbolt became more violent. A golden thunderbolt pierced through the void, and the vertical pupil above the thunder was full of fury."Click!"

The sky and earth are bright and bright by the light of thunder. The thunder turns into the ocean and comes to Ye Chen and blood dragon.

"Break it!"

Ye Chen sees the golden thunderbolt and gets angry. Instead of being awe inspiring, ye Chen looks excited and shouts to the blood dragon.

Hearing the speech, the blood dragon licked his lips and laughed wildly. With Ye Chen, he directly attacked the thundering sea all over the sky and rushed to the golden thunder.

"Boom

For a moment, ye Chen and the blood dragon burst into the thunder sea, and the endless thunder beat them, refining their bodies.

Not only did ye Chen and Xuelong not feel uncomfortable at all, but they felt comfortable all over. The thunderclap was like a hot spring for them. What's more, they could refine their bodies and enhance their physique.

The golden thunder saw Ye Chen and ye Chen so arrogant that they ignored the sea of thunder released from it. At the same time, they began to change their positions. Every time ye Chen and ye Chen were going to get close to it, it disappeared out of thin air, and then appeared at the other end of the thunder sea.

In the sea of thunder, the golden thunder is invincible. It can be moved to any place at will, and ye Chen can't catch it at all.

"This guy..."

Ye Chen narrowed his eyes, so that he seemed to have some trouble to take the golden thunder.

At the same time, in the eternal fierce land, the eternal king and Yan Kun are also staring at the thunder robbery on the sky, and their eyes are somewhat shocked.

"Three destroys the Taiwan, the Thunder God vision, the towering thunder sea, this blood dragon's thunder rob is also too terrible."

Yan Kun couldn't help feeling that even when he faced the three annihilation of Taiwan, he felt a fatal crisis, which was chilling. However, ye Chen and Xuelong were easy to deal with, without any danger.

The thunder robbery on the sky is violent and magnificent. It covers the whole heaven and earth and reflects all the heaven and earth. Let alone the eternal ferocity, it will shake the whole territory. I don't know how many pairs of eyes stare at the thunder robbery on the sky in disbelief.

Chapter 4020

"Click!"

But at this moment, in the thunder sea, ye Chen and Xuelong are still chasing the golden thunder, but they hear the sound of breaking from the void around them, and then a dark and deep space crack emerges.

The terrible atmosphere of natural disasters spilled out from the space cracks, and then there were black as ink. The chains of thunder and violent punishment pierced through the cracks and killed Ye Chen.

"This guy wants to kill us."

Looking at the lightning not far away, only staring at their own two people's golden thunder, ye Chen's eyes flashed a touch of cold, and then said.

"Ha ha, it's wishful thinking to kill us!"

The blood dragon laughs and looks at all directions. The numerous space cracks around them and the dense chains of punishment that pierce through them flash in his eyes.

"Break it for me!"

The dragon body of the blood dragon dances, and the scales of the whole body are extremely tough. At the moment, the brilliant red light is shining. These chains of punishment collide with the body of the blood dragon. At the next moment, they all explode, and even the scales of the blood dragon are not injured.

"Good baby, don't struggle any more."

At the moment, the blood dragon looked at the golden thunder, and there was a flash of excitement in his eyes. The next moment, he rushed directly at the golden thunder.

"Boom!"

At this moment, the golden thunder seems to be completely infuriated by the blood dragon's attitude, which is unprecedented. At this moment, the vertical pupil actually releases a dazzling golden light and covers the sky.

In an instant, the vertical pupil burst, and the powerful atmosphere of destruction swept in. There were black thunder runes, carrying the terrible weight of the heaven and earth. They wanted to suppress Ye Chen and ye Chen in the thunder robbery and perish forever.

"Be careful, this rune is not simple!"

At this moment, ye Chen, aware of the mighty power contained in the black thunder rune, whispers to the blood dragon.

Hearing Ye Chen's words, the blood Dragon nodded cautiously and attached great importance to the rune. The next moment, it opened abruptly, and a fierce dragon breath swept out.

"Boom

Under the impact of the dragon's breath, the black runes coming from his face lit up dim thunder light, which blocked all the thunder without any damage.

"It's not easy."

Seeing this scene, the blood dragon couldn't help muttering, but the next moment it was slapped with one hand. The mighty blood and the Dragon Power swept out, and even condensed into a huge dragon claw, which directly collided with the black rune.

This time, the black Rune can't stop it. It's trembling and exploding in the next moment.

The explosion of the black Rune even broke the Dragon claws of the blood dragon, which almost broke up. This also made the blood dragon more afraid of the black rune.

It's just a black rune. The golden thunderbolt explodes, but there's a whole sky of black runes coming. When so many of them come together, what terrible power will be produced.

When the blood dragon deals with the black rune, ye Chen is not idle. He also meets a black Rune and points out a sword to destroy the Shinto.

At the moment of contact between the destructive power and the black rune, ye Chen was surprised to find that the black Rune was swallowing his destructive power. However, the power released by Ye Chen was too powerful to swallow and was directly burst.

Even so, this discovery also makes Ye Chen curious about the black rune, but this is not the time to be curious, because the black Rune has swept over the sky, and this powerful black Rune must be taken seriously.

"The light of Buddha, the sound of heaven dragon and eight gods!"

At this moment, ye Chen roars one after another, the notes of Hongmeng are swept out, the Buddha's light is bound to guard, and eight mighty heavenly dragons roar and fly toward the black runes.

At the same time, the blood dragon is also a concussion of the dragon body. Its fierce eye pupil lights up endless blood light, and suddenly whispers: "the blood world comes!"

"Wow

The blood light reflects on the sky, and even condenses a blood world. The moment the blood world appears, it sweeps through black runes, and then the runes burst. The blood color world is not damaged. Instead, it seems to devour the pure energy of the rune, which is more massive and condensed.

The coming of the blood world is also the magic skill that the blood dragon understands. It is similar to the self in the sky, but there are many strangeness.

At this moment, the black rune is constantly destroyed by Ye Chen and blood dragon, and the golden thunder is more and more shocked. It lost its vertical pupil and tried to kill Ye Chen and ye Chen, but it was difficult to succeed. This made him extremely angry.

"Boom

The black runes are constantly broken, and ye Chen and the blood dragon are relaxed. Although this rune is terrible, it has many restrictions. What can we do about them.

But at the moment, the golden thunder is completely angry, ye Chen two people are still alive feel incomparable resentment, and then unexpectedly go straight to Ye Chen two people bump over.

"This is the time!"

Seeing this, ye Chen's eyes are bright. He and the blood dragon clearly have the ability to melt and destroy all the black runes, but they have to take it slowly to anger the golden thunder. Thunder has wisdom. I'm afraid no one believes it. But ye Chen has met many golden thunder and has found it.

Moreover, the intelligence of golden thunder is very general, which is only about the level of a child of one or two years old. Such intelligence is most easily affected and the emotion is simple.

However, the golden thunder is invincible in the sea of thunder, and it can move to any position instantly, so ye Chen has this strategy.

At the moment, the golden thunder burst to the blood dragon, with a fierce look of cracking and suppressing the blood dragon, but the blood dragon showed an excited smile.

"The master has a good plan. He has already determined that you will come from touluo net!"

The blood dragon looked up at the sky and laughed. The next moment, the dragon's body was shocked. There were even blood colored lines around, which directly covered the golden thunder.

The blood color lines are continuous, even forming a square shape, and is still shrinking, just like a net in the sky.

At this moment, the golden thunder realized that the situation was not right, no longer rushed to the blood dragon, wanted to escape, but found that the surrounding space was blocked, it can no longer move away.

"Hum!"

The golden thunderbolt vibrates unceasingly, the vast thunder disaster above the sky overflows the terrible wave which destroys the heaven and the earth.

At this moment, the golden thunderbolt realized that it could not leave, and it broke out completely. It was aimed at the blood dragon. A thread of golden arc flickered and collided in the void, melting and disintegrating the space.

In the face of the terrible golden thunder, the blood dragon was not nervous at all, but showed a playful look. Then the dragon's claws lifted up to cover the sky and beat the golden thunder fiercely.

"Longwei heaven prison, kill me!"

The blood dragon's mouth is full of rage, and the world in the palm is condensed. This is the prison of the dragon power, which collides with the golden thunder.
