

## Physician 4031

### Chapter 4031

"No, I'm not strong enough, I'm not at the limit yet!"

The mighty power is still pouring into the sword in his hand. Ye Chen's mouth is bleeding, but his eyes are full of crazy flashes. He roars in his heart and insists on holding on to the falling dust and falling dragon sword.

And at this time, the ghost engulfed everything along the way into nothingness, completely swallowed up, completely eliminated, toward Ye Chen two people shrouded.

"Now!"

Ye Chen's eyes suddenly brightened, and the strength of the falling dust and dragon sword accumulated to the limit. He suddenly mobilized his whole body strength, carried the falling dust and subduing dragon sword, and resolutely devoured and chopped to the nether world.

"Hiss!"

At this moment, when the sword of falling dust and falling dragon is waving, the cold light on the sword edge is blooming endlessly. Under this cold light, a gully suddenly appears in the valley of dragon.

Even the space between the heaven and the earth is suddenly split, a dark and deep space crack appears in front of you, and there is an endless cold breath in the crack.

Then, the cold awn on the sword's edge meets the nether world, and flies out suddenly. The mighty cold awn will cut everything along the way, and it will be unstoppable and will destroy the withered and decayed!

On the other side, the nether world devours and erupts endless power of swallowing, vanishing everything and eliminating everything. It is incomparable. The profound and strange dark law touches us to turn everything into nothingness and be completely swallowed up.

At this moment, Han Mang and Youming devour collide together. The law of the nether world, which devours everything, and kendo, which cuts off everything, fight against each other at this moment and have a decisive victory.

"Hum!"

The dark light and the cold light were frozen together, and the terrible impact of the dead star sky swept through. Everything along the way exploded like thunder. Even the sky was covered with dark clouds and thunder.

This is the collision of the two magic arts. It is too terrible to make the laws of heaven and earth react. Even there is blood rain on the sky. It is believed that this collision will make heaven and earth suffer, cause great calamity to the living beings in the world and grieve for all living beings.

But at this time, no one paid attention to the vision of the sky. All the people's eyes were attracted by the dark light and cold light, and could not be moved away.

The dark light and the cold light are still at a standoff, but the impact of the overflow is more and more powerful, full of endless destructive power, which makes people panic and despair.

"Hiss!"

Just then, between the black light and the cold light, a light sound came.

Black light and cold light stalemate, a light ring suddenly spread out.

At this moment, everyone's eyes widened, but they saw an extremely frightening scene. The black light even appeared with fine cracks. The next moment, it suddenly broke, and the cold light suddenly burst out. It took the head of the supreme Dragon Statue.

"Looking for death!"

Seeing this scene, Taishang dragon Zun can't help roaring and roaring. The ghost swallowing is his most powerful magic power. At the moment, he was broken by the joint efforts of Ye Chen and blood dragon. This is absolutely a shame to him.

At the moment, the cold light breaks the nether world and swallows it. Although it consumes a lot, the sharp breath of cutting the heaven and earth becomes weak, it still contains terrible power, which makes taishanglongzun look solemn.

"Hiss!"

The cold light of blood moon cuts through the space, and the next moment comes directly to Taishang dragon Zun. At the moment, Taishang dragon Zun is in front of his body with two claws. The vast and dark light surging in the Dragon claws turns into a huge black light shield.

At the moment, Han mang cuts on the shield, but it cuts the shield in two, and then cuts it on the two claws of taishanglong Zun.

For a moment, the blood splashed, and the dragon claw was broken in two. The cold light even cut the blood on the chest of Taishang dragon Zun through the dragon claw. The power was terrible to the extreme.

Looking at the broken dragon scales, he was almost touched by the terrible wound of his heart. Taishang Longzun's pupils shrank and took a breath of cold air. His eyes were horrified to lock Ye Chen and Xuelong.

"You two, how could you hurt me! Good! Good

At the moment, looking at the taishanglongzun, ye Chen and Xuelong are helpless.

The strength of Taishang Longzun is too strong. Although Ye Chen joins hands with blood dragon, it is extremely difficult for ye Chen to kill Taishang Longzun. It is the limit to hurt Taishang Longzun to this extent. After all, the gap between their strength and each other is too large to be overstepped.

Seeing the emperor's Dragon Zun's murderous intention, he opened his mouth to brew the dragon's breath. After using the blood moon to kill the sky, he had exhausted the last trace of strength of his whole body and fell from the sky. Ye Chen and the blood dragon, who were bathed in blood and could not move, had a firm and stubborn light flashing in their eyes.

At this moment, even if they have no combat power, and even can not even stand up, ye Chen and Xuelong still don't admit defeat. They have endless fighting intention in their eyes. They overdraw their vitality and want to gather their final strength to fight Taishang Longzun.

Before death, even if they fall down, ye Chen and blood dragon will not give up hope and stop fighting!

Seeing the performance of Ye Chen and blood dragon, even a group of dragon families in Dragon Valley showed admiration.

Although Ye Chen is a Terran, his belief of never giving up and his determination to fight to the end also make many dragon people express their recognition and admiration.

At this critical moment, Taishang Longzun was about to spit out the ghost dragon breath. A vast, incomparable and magnificent dragon power swept through the sky, making Taishang dragon Zun and even the dragon family in the whole dragon valley look stagnant and shocking."Poop

For a while, I don't know how many dragon people kneel down on the ground. The Dragon Power swept by represents the noble and most noble blood of the dragon family. It is far beyond them, and makes them unable to resist. At the moment, they just want to submit to each other's feet and bow down to worship.

Taishang Longzun didn't kneel down. He was a strong man who survived in ancient times. He was able to resist the mighty dragon power. He just scattered the dragon breath in his mouth and turned his head respectfully to the horizon.

At this moment, the figure of a group of people appeared in front of the people in the Dragon Valley. The first one was a girl with a red veil. The overwhelming pressure was just from this group of people. Among them, the most noble dragon power was the girl who was released.

The head of the group, the chest is painted with an ancient totem!

This is ZuLong totem!

ZuLong temple, unexpectedly came!

Chapter 4032

"I don't know how many adults from ZuLong temple came here. If you lose your welcome, please don't blame me."

At the moment, Taishang Longzun gazed at the passers-by and said in a respectful voice.

The thirteen people in this line are the people from the ancestral dragon temple. Their breath is very powerful, and most of them even surpass the taishanglongzun. It can be said that their strength has reached an alarming level.

The ancestral Dragon Temple is the highest Hall of the dragon people in foreign countries. It is the place that all dragon families respect most. Even the Dragon Valley is under the control of ZuLong temple.

It is for this reason that the supreme dragon Zun is so respectful and polite to the visitors of the ancestral dragon temple.

At the same time, Taishang Longzun looked at the red gauze girl who was walking in the front. His eyes flashed and he thought of some news that had spread abroad.

It is said that the goddess of ZuLong temple, who has been living outside for many years, has been found recently. These days, the temple has specially arranged for the goddess to walk around, and even to take the sacred objects from various dragon clan forces. It seems that the ancestral Dragon Temple is planning something behind its back.

However, ye Chen heard that Taishang Longzun called the thirteen people in this line, but his pupils shrank. This is the place where ye Luo'er is. Before he could find the place of the ancestral temple, someone who belonged to the ancestral temple appeared in front of him. This is also a coincidence.

However, ye Chen's state at the moment is at the critical moment of life and death. Therefore, people who see the ancestral temple are not so happy.

However, ye Chen looked at the red gauze girl who was the leader of the group, but always felt that it was wrong. The girl gave him a very familiar feeling, but he could not remember where he had seen this person, as if there was something on the other side that covered all his perception.

At this time, ye Chen's mind but came to the blood dragon slightly surprised voice.

"Master, the first girl is ye Luo'er."

"LoL?"

Ye Chen's pupils shrink and his eyes suddenly look at the blood dragon. He looks very serious. He is very familiar with ye Luo'er. If he sees the other party, even if he is wearing a veil, he can recognize him. How can he not notice it at the moment.

"Are you sure you didn't admit it?"

Ye Chen looked at the blood dragon and could not help but preach.

"Of course not."

The blood dragon shook his head positively, and his eyes were very confident. "Master, ye luo'er seems to have some hidden breath treasure. You can't recognize her. It's normal for me to recognize her special dragon flavor, so I can confirm her identity."

Seeing that Xuelong is so confident, ye Chen also chooses to believe his words. At the moment, he can't help staring at ye luo'er, and his thoughts are flying in his heart.

Ye luo'er's memory has been sealed, and it has not been lifted. However, he wants to help her to remove the seal, but the key holy source Tianxuan array disk has not been found. It is useless to have the heart of holy source alone.

After losing his memory, ye luo'er has been full of malice towards Ye Chen. I'm afraid it is the same at the moment. Now, at the critical moment of life and death, ye luo'er appears here with a number of powerful people in the ancestral dragon temple. For ye Chen, I'm afraid it's not a blessing, but a disaster.

Looking at ye luo'er and a group of strong ZuLong temple, they fell from the sky without delay and fell in front of the supreme dragon.

Not only are the dragons in Dragon Valley holding their breath, but ye Chen and Xuelong are also looking at ye luo'er, worried about the worst.

Maybe Ye Chen and Xuelong can still have the power to fight in the hands of the supreme emperor Longzun, and they can escape from the heaven. But if ye luo'er is in a dilemma at the moment, ye Chen and the twelve strong men standing behind her can't compete at all.

At the moment, ye luo'er stands in front of the supreme Dragon Statue and looks at the respectful Taishang dragon Zun, but his eyes are indifferent.

"The sacred things in the forbidden area of Dragon Valley are under your care?"

At the moment, ye luo'er asked in a cold voice. However, the Dragon Zun of Taishang county was slightly changed. He said respectfully: "it's my guard."

"In this case, if you don't guard the sacred things in the forbidden area, but you run out, it's a fight and dereliction of duty. What do you mean?"

Ye Luo'er glances at Ye Chen and the blood dragon. His eyes are slightly stagnant, but he doesn't have much to say. He just waits for the explanation of the supreme dragon.

Hearing this obvious accountability words, Taishang Longzun's forehead exudes a cold sweat. He is very clear that as the keeper of the sacred objects, the most important duty is to guard the sacred objects. At the moment, he runs out to fight with Ye Chen and is caught by the people of ZuLong temple, but it is bad.

"Your Highness, this..."

Taishang Longzun's eyes flashed, thinking about how to put all the responsibility on Ye Chen and let himself get rid of the crime of dereliction of duty.

At this time, a middle-aged man in black robe behind Ye Luo'er, who is also a strong dragon clan with no inferior strength to Taishang dragon Zun, has locked the Dragon Zun of Taishang with his vertical pupil flashing seven colored glass light.

"The saint's questions should be answered truthfully. If there is any concealment and deception, you should know the end."

Hearing this tone Sen Han words, Taishang long Zun's face changed slightly, and he could not help looking at the middle-aged man.

Seeing the middle-aged man's colorful glass light flashing dragon pupil, the emperor's heart sank. This is the legendary seven color holy pupil, which is the wisdom pupil of dragon people who can see through all lies. According to the legend of the dragon clan, there are only two dragon families with seven color holy tongs in the world. At first, the two dragon families with seven color Shengtong are lovers. They have swallowed the colorful fruits of the Dragon God's colorful lotus trees, so they have the ability to see through the false lies.

The colorful sacred fruit is forbidden fruit. The Dragon God knew the news of the Dragon couple's swallowing, so they were killed and cursed by the Dragon God.

The content of the curse is that when the owner of the colorful pupil is born, it must be the day when another owner of the colorful pupil is about to fall. The time they can contact each other is only one year.

For the long life of the dragon people, a year is just like a human's day, so the punishment of this curse is extremely cruel.

As for whether the legend is true or not, Taishang Longzun is not clear. However, whether the owner of the colorful holy pupil can see through the false lies is certain. When he is watched by the other party, he feels as if all the secrets in his heart have been peeped into, so that he can know how terrible the other party's ability is.

Because of this, the supreme emperor Longzun knew that he could not lie in front of the dragon family. He was helpless and told the whole story of the matter.

Without any partiality, he also showed that he wanted to kill Ye Chen two people, that is, he wanted to revenge for Mingyang Longzun.

In this regard, the middle-aged man of ZuLong Temple nodded his head slightly after listening to it, looked at the supreme dragon Zun, and said in a deep tone: "it's still honest. What I'm saying is true."

On hearing this, the people in the ancestral temple are indifferent and have no reaction. For them, as long as the struggle within the dragon clan is not a major event related to the life and death of the power, they do not care.

What's more, Taishang Longzun has such high qualifications as an elder. Ye Chen and Xuelong dare to challenge his majesty. Taishang Longzun wants to kill Ye Chen and ye Chen. In the eyes of the ZuLong temple, there is nothing wrong.

Therefore, although the strong of ZuLong Temple understood the process of the matter, they did not have any interest in intervening, just nodded calmly.

"In that case, let's solve it quickly and don't delay our time."

Chapter 4033

The middle-aged man glanced at Ye Chen with his colorful dragon pupil. He looked indifferent: "we have got the sacred things, and we have other important things to do, but we don't have time to waste time with you here."

Hearing this, Taishang Longzun couldn't help but show his joy. Since the strongman of ZuLong Temple didn't intend to stop him, it was quite easy for him to kill Ye Chen and Xuelong, who were at the end of their strength.

At this moment, the supreme emperor Longzun looked at Ye Chen and said, "hum, you two bastards, a traitor and a madman, go to die for me!"

The supreme Dragon Master mobilized his whole body's strength, and the nether world's law surged in the void and converged into the dragon's claws. The violent fluctuation of power overflowed and scattered, as if to suppress all the heaven and earth with one claw.

Looking at the taishanglongzun brewing an attack, ye Chen and Xuelong's eyes immediately become dignified. Although it is a good thing for them that the people in the ancestral Dragon Temple do not intervene, they do not have the confidence to survive from each other's hands in the face of Taishang Longzun, and they must do their best.

At this moment, the power of Taishang Longzun gathered madly and reached the extreme. He was about to clap Ye Chen and ye Chen into meat mud to vent their hatred. However, he suddenly heard ye lu'er stop.

"Wait a minute!"

Ye Luo'er's light drink made the Taishang dragon Zun look ugly. As a saint, Ye Luo'er did not dare to disobey her orders. However, his attack was brewing to the extreme. At the moment, he was forced to disperse, but he was bitten back and spewed out a mouthful of blood.

Taishang Longzun and Ye Chen just collided. They have been hurt by the blood moon Tu Tian beheading. At the moment, they are attacked again. For a time, their breath is also withered. The whole dragon seems to be aged for endless years in an instant. They look at Ye Luo'er helplessly.

"What's the matter, your highness?"

Ye Luo'er didn't feel sorry when he saw the picture of Taishang Longzun. On the contrary, Ye Luo'er had a strange smile in his eyes, just like other powerful people in the ancestral dragon temple.

Obviously, Taishang Longzun was so unlucky that it was a very funny thing for everyone.

At the same time, a group of strong people in ZuLong temple, including the middle-aged man with colorful dragon pupil, also looked at Ye Luo'er curiously.

Ye Luo'er, the holy daughter, has always been known for her indifference in ZuLong temple, and she is lazy to pay attention to anyone. At the moment, she seems to be interested in what happened in Dragon Valley, which makes them curious.

"What's the matter, saint?"

The middle-aged man with colorful pupil also looks at Ye Luo'er at the moment, and inquires curiously.

Hearing the speech, Ye Luo'er has no words. Instead, he focuses his eyes on Ye Chen.

When Ye Chen detects Ye Luo'er's eyes, he can't help looking at her, but his pupils are frozen. In her eyes, Ye Luo'er has endless cold killing intention.

Ye Luo'er recognizes Ye Chen. This face, the name engraved in the palm of her hand, has always been unforgettable to her. Ye Chen is the most boring person in her life. She just wants to get rid of Ye Chen and solve this annoying guy who appears from time to time and disrupts her plans.

\* at this moment, Ye Luo's mouth corners up a strange arc. She wants to let the people of the Dragon Temple play a trick, and play a good role in playing with the leaves and blood dragon.

"Uncle Tianhao."

Ye Luo'er looked at the colorful pupil beside him and cried out.

"My subordinates are here." Smell speech, this middle-aged man immediately bent over, respectfully answer way.

"These two guys..."

Ye Luo'er's eyes flashed with evil light and held out his finger, "I want to..."

Ye Luo'er wants to say that he wants to let Tian Hao seize Ye Chen and their accomplishments in public, and then let them kneel down in the ancestral temple forever and wipe the floor tiles with their knees. But at the moment, there is a voice in his heart, which suddenly rings.

"You can't do that!"

The voice was full of anger, and even made Ye Luo'er's mind blurred, with a kind of trance feeling.

"This is Ye Chen's brother. I will never allow you to hurt him!"

At the moment, the voice filled his mind, an idea to break through everything, suddenly broke the seal, occupied Ye Luo'er's body.

This idea is the sealed memory of Ye Luo'er. Looking at Ye Chen, she has endless tenderness in her eyes.

At this moment, Ye Chen is also aware of the emotional transformation in her eyes. Not only does the gaze coagulate, he realizes that Ye Luo'er's consciousness has returned.

"Lol!"

Ye Chen is suddenly excited. He can't help but stretch out his hand and want to say something to Ye Luo'er. He just sees Ye Luo'er's eyes, but he closes his mouth.

Because Ye Luo'er's eyes are restrained, in telling Ye Chen that it is not the time to say this, Ye Chen guesses that Ye Luo'er has recovered his memory at the moment, but it is only temporary. Now is not the time to reminisce about the past, and Ye Luo'er still has more important things to do.

Ye Chen's guess is right. Ye Luo'er just takes a nostalgic look at Ye Chen, and anxiously looks at the middle-aged man with colorful pupil, known as Uncle Tianhao.

"Uncle Tianhao, I want these two people to be safe and sound."

Ye Luo'er said coldly. At the moment, her attitude and tone are very different from those before. Even Tian Hao's eyebrows can't help frowning. She looks at Ye Luo'er deeply and seems to notice something, but she doesn't say much. She just nods slightly to show her understanding. "If you can't see the two dragon fall into the world, then you can't see the two people."

Hearing the speech, Taishang Longzun's expression suddenly solidified, and his face was like the color of pig's liver for a time. When he told the story before, Ye Luo'er didn't express anything.

As a result, when the supreme emperor Longzun wanted to kill Ye Chen and Ye Chen, Ye Luo'er started to stop him. He was bitten back and his injury was aggravated. At the moment, he said frankly that he couldn't hurt Ye Chen and Ye Luo'er. Even if Ye Luo'er was the holy daughter of the ancestral Dragon Temple, even if the supreme emperor Longzun was a clay figurine, he couldn't help getting angry at the moment.

"Saint, this

Taishang Longzun couldn't help but feel his anger. At the moment, he felt the mighty dragon power released by the twelve strong men around ye Luo'er, and his face suddenly turned pale.

"I see."

For a moment, the emperor's Longzun was decadent. Ye Luo'er's status was too noble. With so many people around him, he was not qualified to be angry with ye Luo'er. To do so was to seek death.

"I can listen to you, but I have one condition, that is, let this defiant and disobedient blood dragon kneel in front of me, kowtow and apologize, and that's the end of the matter."

Taishang Longzun's eyes were firm and incomparable, but he still felt very subdued. He didn't want any apology. What he really wanted was the life of Ye Chen and Xuelong.

After all, the supreme emperor Longzun could see clearly that ye Chen was involved in the tremendous cause and effect behind him. If this man Yilong offended today, it must be endless trouble. Only by killing can we minimize the danger, but now there is no chance.

Chapter 4034

Hearing the words of Taishang Longzun, ye Luo'er just wanted to refuse, but he saw that all the strong men in the ancestral Dragon Temple looked at him. Uncle Tianhao also said softly, "holy daughter, this condition should be satisfied."

"If you don't agree with the old man's terms, I'm afraid it will lose people's hearts. After all, his conditions are very reasonable."

Tian Hao then passed on the voice to ye Luo'er, expressing to her the power of this one.

Smell speech, ye Luo Er also can't help nodding, is agree to come down.

For the dragon clan, the status is very clear. Even if the blood dragon is a genius against heaven, you should not be so rude to the elder taishanglong Zun.

What's more, Taishang Longzun, as a strong man in ancient times, is also regarded as a good combat power. If he can't accept such conditions, his dignity will be humiliated, and I'm afraid that he will lose respect for ZuLong temple. If he is a traitor, it will be a loss to ZuLong temple.

Seeing ye lu'er nodding, the anger in the eyes of the supreme dragon Zun also dissipated a little, and then he looked at Ye Chen and blood dragon.

In everyone's opinion, this condition is very reasonable. If you just kneel down and apologize, you can save your life. Moreover, because of the life and death of the Mingyang dragon, the blood dragon will naturally unify the valley of the dragon. This is the perfect result of the appearance of the saint. The blood dragon can not refuse.

Only Ye Chen is shaking his head secretly at the moment. The blood dragon is bred by him, and his temperament must be the same as him.

At this moment, the blood dragon also suddenly looked up at the Taishang dragon Zun, not only did not kneel down, but broke out the idea of war.

At the next moment, the blood dragon directly dismisses all the things related to the valley of the dragon, whether it is weapons or keepsakes, and does not hesitate to drop them on the ground.

"No one can make me kneel down in the sky and on the earth. It can't be done by heaven and earth, and not by the most powerful. You shameless old thing can't do it!"

The blood dragon looked at the supreme dragon, and said angrily: "if you want me to kneel down, no one in this world can do it. There will not be in the past, there will not be now, and there will be no possibility in the future."

The blood dragon's momentum broke out, and his endless fighting spirit soared into the sky. "I'll make a clean break with Dragon Valley today, and have nothing to do with it any more!"

Blood Dragon said all this, regardless of everyone's reaction, directly looked at Ye Chen, eyes are endless firmness, "master, let's go!"

For the blood dragon, he was born with Ye Chen's killing intention. He was born for fighting. His bones were full of indomitable and fearless. He could not kneel down to anyone!

Looking at Xuelong's firm eyes, ye Chen showed a cool smile and directly patted him on the shoulder: "your choice is right, let's go."

After that, ye Chen and the blood dragon soared to the sky, ignoring the people with different looks at the moment, and flew directly from the valley of dragon.

Looking at a man and a dragon leaving, Taishang dragon Zun is ferocious, his eyes are endless, and his lungs are even going to explode.

If ye Luo'er and others were not here, Taishang Longzun would definitely kill Ye Chen and ye Chen at all costs. This time, he had given in to ye Luo'er's face, and the blood dragon even refuted his face. It was totally putting his face on the ground.

"Damn it, damn it!"

Taishang Longzun roared ferociously in his heart, but he didn't dare to stop Ye Chen and Xuelong from leaving. After all, the blood dragon had abandoned everything that belonged to the valley of the dragon. He had already abandoned everything and had no reason to do it again.

Different from the rage of Taishang dragon Zun, ye Luo'er looks at Ye Chen and Xuelong leaving, but there is a flash of worry and nostalgia in his eyes. How long has it been and how long has he not seen Ye Chen again.

It's just a pity that I can't say anything more with Ye Chen. It's just a flash of eye contact. Nevertheless, ye Luo'er is satisfied.

Tian Hao and others are also staring at Ye Chen and Xuelong's leaving body. There are twelve strong men in a line, but their eyes are full of light.

Blood dragon's words raised respect for the strong men of dragon clan, especially Tian Hao, who was able to distinguish the truth from the false. He knew that what Xuelong said was true. He was also impressed in his heart. He was a tough and unyielding little dragon.

Tian Hao and others didn't care about the two ends of the sword. Anyway, the dragon people in the world are controlled by the ancestral dragon temple. It doesn't matter whether it's the Dragon Valley or not, because they are all from the ancestral dragon temple.

Even more, they will not have any idea about the dragon and ye.

At the same time, many dragon families in Dragon Valley are looking at each other. They think of countless endings. Blood dragon and ye Chen's body fall, or there are miracles. Taishang Longzun is defeated, or Xuelong kneels down to unify the valley of dragon and become the true emperor.

However, all their conjectures were wrong at the moment. The blood dragon chose the road that they least expected, broke up with the valley of dragon, gave up the power and status of the heaven and left.

At the moment, many dragon people are flashing their eyes, looking at the direction of the departure of blood dragon and ye Chen, with endless reverence in their eyes.

"Bang!"

At this time, a blast came out. You Yue broke her elder's token and threw everything related to dragon's Valley on the ground like a blood dragon."I secluded the moon from the valley of the dragon. From then on, I only followed emperor Zun and vowed to follow him to death."

Youyue's move stunned all the people on the scene. It also made Taishang dragon Zun explode with endless killing intention. The fierce dragon power swept over her, which almost made youyue fall to the ground. However, she looked up at the supreme dragon Zun stubbornly, and her eyes were endless firmness.

"Bang bang bang!"

At this moment, one after another, he heard the sound coming into the ears of Taishang Longzun. He saw one dragon clan after another from the Dragon Valley, leaving everything related to the Dragon Valley one after another, swearing to be loyal to the blood dragon and vowing to follow it to the death.

There are not many dragon families among them, but there are many. Not only the magic dragon clan, but also other ethnic groups. They are all moved by the unyielding and unyielding belief of blood dragon, and worship the blood dragon thoroughly.

And at this moment, a line of dragon body flying up, they gathered together, turned into a group of dragons, a total of tens of thousands of people, toward the position of the blood dragon to chase.

Looking at this scene, Taishang dragon Zun was so angry that his body trembled, and suddenly a mouthful of dragon blood spurted out, and he was stunned by the gas.

Seeing this, ye Luo'er looks stunned. However, the strong men of Tianhao and ZuLong Temple shake their heads and laugh.

"Well, this old guy is a pity. Tianyun, please wake up this guy and don't delay the process of taking holy things."

Tian Hao laughs playfully, but he looks at the person behind him. His tone becomes gentle and says softly.

"Yes."

Hearing the speech, the Dragon woman standing behind Tianhao is nodding her head. With a smile on her beautiful face, she steps towards the supreme dragon Zun.

Chapter 4035

At the same time, a thousand miles away from the valley of the dragon, ye Chen and the human shaped blood dragon stand on the top of the mountain. They originally wanted to return to the eternal and fierce place. However, the blood dragon sensed the belief fluctuation from the dark moon and could not help waiting.

At the moment, ye Chen and Xuelong look behind, and their eyes are puzzled. I don't know why youyue asked them to wait.

But in the next second, ye Chen and Xuelong realized that they were suddenly shining with endless brilliance in their eyes. They saw tens of thousands of dragon people sweeping across the sky and blocking the sun.

Before they got close, the dragon clan saw the blood dragon, and then they looked reverent. When they came near, they all turned into human beings and knelt down on the ground.

"Emperor Zun, how can you leave by yourself? You have to take us with you."

You Yue kneels on the ground, but looks up to the blood dragon and says, between the words, there are eyebrows and eyes, are full of respect.

Hearing this, the blood dragon's heart was shocked. He broke away from the valley of the dragon. In an instant, the powerful emperor of the dragon family turned into a guy who had nothing. These people were willing to follow themselves, which touched his heart.

"Emperor Zun?"

The blood dragon shook his head, "I'm no longer emperor Zun, don't call me that again."

Although the blood dragon is moved, he also knows that he is alone at present. Youyue and others follow him, but he is not as good as staying in the valley of the dragon.

At this time, youyue looks at the blood dragon firmly and shakes her head fiercely.

"Emperor Zun! You are always the emperor in our heart! We follow you and recognize you as emperor because of your actions, your indomitable and unyielding faith. This is the Dragon worth following! "

You Yue looked at a group of dragon families kneeling beside her, and said in a loud voice: "do you think so! The name of emperor Zun is not because of the valley of dragon, but because of emperor Zun itself. We believe in emperor Zun, a self-confident and unyielding dragon! "

As soon as the words came out, all the dragon's emotions were ignited, and they roared up to the sky and drank furiously.

"Yes! Yes! Yes

"What we believe in is a real dragon with self-confidence, unyielding faith and perseverance."

At the moment, listening to Wan Long's words, the blood dragon's heart was stirred up, and his eyes also had surging fighting spirit. The endless blood light rushed into the sky and reflected the sky.

"We will follow the real dragon emperor to death, and hope that the emperor can accept us!"

Wan Long cheered again, and the blood dragon also looked concussion and nodded fiercely.

"Good!"

"Thanks to all of you, you are willing to follow me. My blood dragon will never fail to live up to your expectations."

"My blood dragon changed its name to wandaolongzun from today."

As soon as the blood Dragon said this, heaven and earth vibrated, mountains and rivers shook, and endless rivers flowed in the world. It seems that this sentence of blood dragon involves a tremendous cause and effect. Even on the sky, there are inexplicable forces converging.

But at this time, the blood dragon suddenly looked up at the sky, majestic and overbearing, and said in a loud voice: "I wandaolong Zun has set a great ambition today. In this life, I will lead you to surpass the Dragon Valley, even above the ancestral Dragon Temple!"

As soon as this was said, all the dragons were shocked and looked at the blood dragon with unbelievable eyes. This is a great ambition. If you fail to make such a terrible oath, you will encounter endless repercussions.

At the next moment, Wan Long reacted, but he was more excited. They didn't think that the blood dragon could not do it, or they didn't care whether the blood dragon could do it.

Wanlong follows Xuelong for the belief that Xuelong is invincible and indomitable, and the great ambition of Xuelong at the moment makes them convinced that this is the existence of Xuelong.

With such a belief, it is not impossible for Xuelong to accomplish what he says. Wanlong is determined to do his best to make great achievements together with Xuelong.

And at this moment, there are clouds gathering in the sky, and the thunder is exploding. This is the great ambition of the blood dragon. It is so terrible that even the laws of heaven and earth are shaken.

But in the face of the vast thunder sea above the sky, a little impatience appeared in the blood dragon's eye. He was extremely arrogant and said, "get out of here!"

Hearing the blood dragon's words, the sky was suddenly angry, and the endless thunder burst, and even the sky was shattered. Huge pieces of space debris fell down, and a statue of Thunder God's virtual shadow also showed its body shape, and stormed at the blood dragon fiercely.

Seeing this scene, there was endless fighting spirit in the blood dragon's eye. At the next moment, he even rose to the sky and took the initiative to meet a statue of Thunder God on the sky, which was a huge thunder robbery.

In this regard, ye Chen has always been indifferent to see that all the blood dragon's choices are right in Ye Chen's eyes, even let him appreciate, so he has not interfered.

At this time, because of the invasion of the blood dragon, the thunder robbery suddenly vibrated, like a dough, a drum, a flat, changing shape, and then exploded.

"Bang!"

The blood dragon rushed out of the thunder disaster, and its whole body reflected the sky with blood light, which was more brilliant than the thunder robbery. At this moment, the blood dragon was like the supreme god of war, frightening the heaven and the world, and making the Dragon look at his eyes and become more revered. However, at this moment, the blood dragon, ye Chen, and WAN long are not clear. When the blood dragon made a great wish to surpass the Dragon Valley and even the ancestral Dragon Temple, Tianhao and others in the Dragon Valley just came to the forbidden area in front of the Dragon Valley.

At this moment, Tianhao and others also noticed the strange fluctuation between heaven and earth, and even saw the vision above the sky in the distance. Twelve strong people of ZuLong temple, including Tianhao, looked at each other, and their eyes were full of fun.

Tianhao and others have already realized from the fluctuation between heaven and earth that the blood dragon has made great ambition and threatened to surpass the ancestral dragon temple.

However, Tianhao and others didn't care about it, and even wanted to laugh. In their opinion, it was completely because the blood dragon did not know the height of the earth.

The power of ZuLong temple is not what these people can understand. Do you want to surpass it? This is just a dream. It can't be done at all.

They don't care about the arrogance of the blood dragon. At the moment, Tianhao and others are looking forward to the dark abyss inside the Dragon Valley, which is really worthy of their attention.

This is the forbidden area of the Dragon Valley, and also the place where the sacred objects of the dragon clan are placed. This is the abyss of the nether world, which is filled with endless ghost breath. If the ordinary dragon people stay here for a long time, they will only become the nourishment of the nether world.

Because of this, the ancestral Dragon Temple arranged the Taishang dragon Zun with certain dark blood to guard the sacred objects here.

At this moment, ye Luo'er is walking in the front, and she is still thinking about ye Chen. However, her consciousness is suddenly in pain. She feels the endless force of prohibition sweeping over her. She wants to drag her into the prison that cannot be escaped and suppress forever!

"No!"

Ye Luo'er's unwilling voice resounds in her mind, but she has no resistance in the face of the force of prohibition. She is sealed again at the next moment.

Chapter 4036

At this moment, another consciousness regained control of the body, and ye Luo'er's eyes also turned into endless indifference, mixed with a little bewilderment.

"Where is this, and where are the two men?"

Ye Luo'er looks around and thinks of Ye Chen and his pupils suddenly.

"Damn it, it's like this again. Every time I meet that annoying guy, it's like this!"

Ye Luo'er's eyes are full of killing intention, but now she has realized that she has appeared in the forbidden area of Dragon Valley. She can't remember what happened before. At the moment, it's not easy to ask Tian Hao and others. Otherwise, it's too troublesome to explain and easily expose her own problems.

Immediately, Ye Luo'er looked at the Dragon King and said, "since you are in the forbidden area, take out the sacred things and give them to me."

On hearing this, the supreme dragon reverence showed a puzzled look. "Holy daughter, this holy thing I want to take out is not what I can do. Only the purest ancestral dragon blood can summon the holy thing out of the endless abyss."

Hearing this, Ye Luo'er's eyes narrowed slightly, but she didn't expect such a situation. However, it was not a trouble for her, because as a saint of the ancestral Dragon Temple, one of the criteria was to have the most pure ancestral blood.

"In that case, you should step down."

Ye Luo'er waved his hand impatiently to Taishang Longzun. The next moment he stepped to the abyss of the nether world and stood at the edge.

Ye Luo'er looks at the dark and deep abyss, but her eyes are far deeper than this abyss, full of indifference.

At the next moment, Ye Luo'er's silver teeth bit the tip of his tongue and directly forced out a drop of pure dragon blood.

As soon as this drop of pure dragon blood appeared, Taishang Longzun and Tianhao, who were in the forbidden area at the moment, were shocked and trembled. They could not help falling to their knees.

Ye Luo'er has the purest ancestral dragon blood. This drop of blood essence is almost comparable to the blood of the ancestor dragon. For those who are also dragon people, they have endless pressure. Even when they arrive at the origin, they are a little unbearable.

At the moment, this drop of blood essence is blooming with endless golden brilliance, which reflects the bright and splendid world.

At the same time, the blood essence also fell into the abyss of the nether world, which was full of weird dark rules and devoured everything.

But in the face of this drop of blood essence, the law of the nether world is just like snow meets the scorching sun, which melts in succession and even takes the initiative to avoid it.

However, the golden light from the blood essence is too vast. The whole abyss of the nether world is reflected like the day, and the law of the nether world is nowhere to hide and melt.

In this case, the scene at the bottom of the abyss also appeared in front of the public.

I saw there was a huge ceremony, and the altar was carved with incomparably complicated array runes. Everything looked ancient and full of grand and magnificent divine power.

Seeing this magnificent array, the faces of all the people present were frozen. Even the Taishang dragon Zun, who has been guarding the abyss of the nether world, was shocked.

He had been guarding the sacred objects for many years, but he could not go deep into the bottom of the abyss, so he did not see such a magnificent scene. The altar was just as brilliant as a myth.

At this moment, yelor's brilliant blood essence drops in the center of the altar. For a moment, the altar is full of dazzling brilliance. Not only the abyss is illuminated, but also the whole valley of the Dragon falls into a vast expanse of white.

All the dragons could not help but close their eyes in the light of this brilliance, but ye luo'er was looking directly at the dazzling white light and looking deep at the bottom of the abyss.

I can see that the magnificent altar is slowly turning at the moment, just like a wind up precision instrument. Every key node is turning like a gear, and wave after wave of incomparable impact also spreads out, reverberating between heaven and earth, making the deep abyss tremble.

At the same time, the altar slowly split into two parts, and the suppressed objects under the altar slowly revealed their true features.

This is actually a lamp, colorful glass color, the light is a piece of gold, the fire as if there is a dragon in the flying.

"Dragon god lamp!"

Seeing this lamp, all the people present were excited. The dragon god lamp, one of the sacred objects around the Dragon God, contains tremendous power.

It is said that the lamp of the holy lamp is the Immortal Dragon, while the lamp oil is the eternal dragon blood. The lamp reflects the sky, and the fire flickers between them, which can make the sky shake and suppress the world, with infinite power.

At the moment, looking at the dragon god lamp, ye luo'er's eyes twinkled. She could feel the inside of the lamp. The flying dragon not only contains tremendous power, but also seems to have wisdom.

At this time, the dragon in the light was just looking at ye luo'er, with four eyes facing each other. Ye luo'er seemed to see the infinite world. In the eyes of the dragon, there was an endless and deep space, which contained an endless power.

"Hum!"

At this time, the Dragon God's lamp burst into dazzling brilliance, and the lights were raging, scorching and hissing the whole nether abyss. At the next moment, the vast abyss heard the sound of cracking and then collapsed. "The abyss of the nether world has been destroyed!"

Seeing this scene, Taishang Longzun's eyes were full of disbelief. He was in the abyss of the nether world, guarding the Dragon God's lamp for so many years. He knew the vastness and greatness of the abyss, which was no different from that of one side of the world. At the moment, he was destroyed in the hands of the Dragon God's lamp. What kind of invincible power is this.

The God of the dragon is not surprised by the God of the dragon.

Tian Hao and others followed ye Luo'er to collect sacred objects everywhere. During this period, they also saw the mighty power of several sacred objects, each of which contained endless power.

Moreover, every place where sacred objects are placed will be destroyed by their own great power after they come out. Therefore, Tian Hao and others have long known the destruction of the abyss of the nether world.

At the moment, the dragon god lamp burst out of the abyss of doomsday collapse. At the next moment, all the brilliance and divine power were scattered. It turned into a bronze lamp with no characteristics and fell into the hands of Ye Luo'er.

"Since the Dragon God's lamp has been obtained, there is no need to stay here. Let's go."

Ye Luo'er put away the Dragon God's lamp coldly, and then looked into the distance, where there was the breath of Ye Chen and blood dragon.

"Well, this troublesome fellow, let you go for the time being, and let me encounter it next time. No matter where you go, I will make you go to the top of your head!"

At the same time, Ye Chen and the blood dragon left the valley of the dragon. After accepting the loyalty of the dragon, the blood dragon took them to the eternal evil place.

At the moment, looking at the arrival of ten thousand dragons, the eternal holy king and Yan Kun are also a little surprised. After listening to Ye Chen and blood dragon, the eternal holy King smiles and shakes his head.

Chapter 4037

Originally, the eternal holy king hoped that the blood dragon could unify the northern and southern schools of the Dragon Valley, and become a worthy emperor. With the help of the power of the Dragon Valley, ye Chen was arranged.

The eternal king did not expect that things would develop like this. The blood dragon and the Dragon Valley were cut off, and they could not rely on the huge power and influence of Dragon Valley.

However, it is also a good thing to have ten thousand dragons follow. The cultivation of these dragon people is also a good force, which can be used to drive.

At the moment, the blood dragon troubles Yankun to arrange a residence for Wanlong in the eternal fierce place, and then he looks for the eternal holy king with a solemn face.

Ye Chen is discussing things with the eternal holy king. Seeing the blood dragon coming over with a look of awe, he smiles calmly, "have your followers arranged?"

"Yes, master."

XUELONG nodded, and then his eyes showed hesitation, "in fact, I came here to ask elder yonglao about something."

"Oh?" Hearing this, the eternal king raised his eyebrows and looked at the blood dragon with great interest.

"You can tell me what you have to do. There is no need to be so hesitant."

"Elder yonglao, if I break away from Dragon Valley, I can't enhance my strength with the help of Dragon Valley..."

XUELONG was a little upset and shook his head. Then he said, "I want to improve my strength as soon as possible. You must know the answer. Please tell me."

Smell speech, the eternal holy king did not immediately agree, but for the first time showed a puzzled look, and even couldn't help looking at Ye Chen.

Seeing the hesitation in the eyes of the eternal king, ye Chen frowned. It seems that the eternal king really knows how to make the blood dragon stronger, but this method may be very dangerous, and even dead.

Therefore, ye Chen and the eternal holy King look at each other, but they can't help shaking their heads. It's important to enhance the strength, but the life of the blood dragon is more precious. If this way to enhance the strength is too dangerous, it's better not to try.

At the moment, seeing ye Chen shaking his head, the eternal King nodded slowly, and then looked at the blood Dragon: "I do know the method, but it is too dangerous, you still don't try."

"This..."

The blood dragon heard the speech, but his eyes were firm. He looked at Ye Chen and the eternal King: "I want to be stronger. This is my mission. No matter how dangerous this method is, at least let me decide whether to try it or not."

Hearing this, the eternal King shook his head, but ye Chen looked at the eternal king and nodded to him: "tell him, just I want to know."

Hearing this, the eternal King's eyes flashed a deep light, and then said, "this place I want to talk about really contains infinite opportunities, especially if you go there, you may get great benefits."

The words of the eternal king let the blood dragon eye shine in front of him, but then it extinguished his inner flame.

"This place is called mielong cliff. You should have heard of it, too?"

The eternal king looked at the blood dragon with interest.

"Mielong Cliff..."

Blood dragon's eyes trembled. As the emperor of dragon's Valley, he heard the name from the dragon people. Mielong cliff is called the dragon's death land by the dragon people outside the country. It is a forbidden area that no dragon family can enter.

In addition, there are strong people in the ancestral Dragon Temple stationed on mielong cliff. It is almost impossible for ordinary people to sneak in through hiding and hiding.

According to foreign legends, there is an Archaean ancestor dragon hidden in the deepest part of the mielong cliff, which is the most pure and powerful ancestor dragon.

Because of the power struggle, this archaic ancestor dragon was forever suppressed in the mielong cliff. He held the great secret of the dragon clan. The ancestral Dragon Temple sent strong men into the deepest part of the Dragon cliff many times, but no one survived.

"This place, do you want to go?"

At the moment, the eternal king looked at the blood dragon, and asked with a smile.

For the dragon people, they are full of endless fear of mielong cliff, and the blood dragon is no exception. They are very afraid of mielong cliff, so they can't help hesitating at the moment.

Mielong cliff is called the dead land of the dragon clan, which is not a false name. Today, Xuelong, the strongman of the ancestral Dragon Temple, has seen that the people around ye luo'er are basically no inferior to the Taishang dragon Zun, and many of them are far superior to the Taishang dragon Zun, and their strength is unfathomable.

The existence of this kind of existence, into the mielong cliff has no life to return, this mielong cliff is really too dangerous, the blood dragon is not afraid of difficulties and dangers, dare to challenge, but it is not a desperate person, if it must die, there is no vitality, blood dragon can not try.

"I need to think about it."

The blood dragon hesitated and finally said.

Smell speech, the eternal holy king and ye Chen looked at each other, nodded with a smile.

.....

And at this moment, in another extremely cold world, this is the East cold abyss, and in the deepest cold abyss, there is a supernatural world, to the cold hell prison.

Now, Wei Ying is sitting here in the most cold and dark prison. She is doing her best to gather all the spirits to understand the cold heart formula of wanxu.

But in such an extreme environment, Wei Ying could not understand the secret of wanxu. On the contrary, Wei Ying feels that her consciousness is constantly lost. This endless dark and cold hell is full of endless death crisis. Her body is now completely covered with ice and snow and has become an ice sculpture.

Su Mohan maintains the formation above the donghanyuan and guards Wei Ying here. At the moment, she looks at the dark donghanyuan under her feet, her eyes become extremely deep and her brows slightly wrinkled.

Su Mohan is keenly aware that Wei Ying's vitality is gradually fading away. If this pass does not survive, Wei Ying will surely die.

"No way!"

Su Mo cold eyes, this period of time she has been paying attention to Wei Ying's situation, looking at Wei Ying's vitality more and more weak, she can't help it.

Compared with Wei Ying's ability to pass this test, Wei Ying's life is obviously more important. Su Mohan is not a conventional person. At the moment, when her hand turns, a long sword appears in her hand.

She intends to break the rules and make Wei Ying feel the mystery of her moves. She may be able to pass this test.

If Su Mo Han does something, Wei Ying can't understand the secret of wanxu's cold heart. Su Mo Han won't sit back and ignore it. She will directly rescue Wei Ying. However, such a Wei Ying will lose the opportunity to become her disciple.

When Su Mo Han condenses the extremely cold and strong sharp sword spirit and prepares to stab into the East cold abyss and into the cold and dark prison, the space suddenly comes to fluctuate.

"Stab!"

At this moment, the space is abruptly torn, and the emperor's power is awe inspiring to the sky. The figure of male and female, together with an old man, steps out of the torn void.

The emperor is powerful and powerful. He looks extremely beautiful. He is the real body of emperor Shitian. At the moment, he is staring at Su Mo Han, with endless killing intention in his eyes.

Chapter 4038

At the side of emperor Shitian, however, was an old man. The old man was in a blue shirt, his eyes were cloudy, and there were strange gray runes swimming in each pupil.

The old man's breath was a little stronger than that of emperor Shitian. The whole man was shrouded in endless murderous spirit, like a madman. At the moment, he pointed to Su Mohan and his fingers trembled.

"It's you!"

At the moment, Su Mo Han is not satisfied with the emperor's interpretation of heaven, but he is extremely cautious about the old man, and his eyes are full of cold.

The old man's name was Wang Wufeng, and the emperor Shitian disappeared from the palace of emperor yuan in the first time. In fact, he wanted to invite Wang Wufeng, who came from the heaven and man realm.

At the moment, Wang Wufeng is holding a bead full of destruction, which is full of destruction. Inside, there is an endless wave of gray beads. Seeing this bead, Su Mo Han's eyes suddenly coagulate.

This bead, called Jueshan broken pearl, has a strong suppression force on the strong of cold attribute, which is the absolute killer of Su Mo Han.

"You are indeed

At the moment, Wang Wufeng looks at Su Mo Han, her turbid eyes are blooming with endless cold light, and the weird gray runes in her pupils are surging wildly, and she even differentiates numerous identical runes.

These runes swam in Wang Wufeng's eyes and constantly differentiated. In a twinkling of an eye, they filled the whole eye, and then spread to her body. A moment later, Wang Wufeng was covered with such strange gray runes.

However, the evil spirit is still in chaos in the source.

At this moment, Wang Wufeng suddenly tore off his blue shirt and exposed his chest. However, he saw a long scar, which almost cut him in half. The scar looked very fresh, as if it had just been cut out.

"This scar, which you gave me three thousand years ago, can never be cured. On the night of the full moon, the wound will crack again, and the endless cold will fill me. It makes me very sad."

Wang Wufeng looked at Su Mohan's hysterical roar, and endless anger swept out of him. The fresh wound was actually caused by Su Mohan thousands of years ago, and it has not been healed.

"What a torment! You know what? I want to kill you every day and night. Now I finally find a chance

Wang Wufeng stares at Su Mo Han and grins strangely. His state is so weird that he looks like an absolutely chaotic madman, which makes people feel creepy.

At the moment, Su Mo Han looks at Wang Wufeng, but he smiles coldly.

This is because Wang Wufeng is practicing evil skills, which leads to his mental disorder. The reason why Su Mohan attacked Wang Wufeng 3000 years ago is because Wang Wufeng committed a monstrous crime in order to cultivate his evil skills.

Wang Wufeng was also a beautiful man. He was not inferior to the emperor Shitian, who could not tell the difference between male and female. Now she looks like a bad old man because of Su Mohan's hand.

Su Mo Han made a heavy blow to Wang Wufeng, but he didn't kill him completely. He just left his intention of Jue Han sword on Wang Wufeng, and broke out every full moon night just to make Wang Wufeng correct his evil. When Wang Wufeng stopped doing evil, the wound would naturally be better.

Three thousand years later, the sword wound was still alive, and Wang Wufeng had never intended to change it. Therefore, he was extremely old.

At the moment, Wang Wufeng wants to kill Su Mohan and completely solve the terrible wound that has tormented him for thousands of years. Therefore, after being invited by the emperor Shitian, Wang Wufeng finds out that the enemy may be su Mohan. Wang Wufeng specially goes to find the Pearl to kill Su Mohan.

Staring at Su Mo Han, Wang Wufeng opens his mouth and reveals his pale teeth. He laughs, but his palm suddenly grabs it. The vanishing cold bead suddenly explodes, and endless gray and strange fog flows out.

Seeing this scene, Su Mo Han's face changed slightly. This extinction broken cold bead is extremely precious, but Wang Wufeng uses it directly. You can imagine how much he hates himself.

At the moment, Wang Wufeng and Emperor Shitian join hands to use the extinction broken cold bead. She may not be able to deal with these two guys. This is bad.

"Destroy the cold array!"

At this moment, Wang Wufeng did not wait for Wei Ying to react, and then she reached out and threw out an array plate. The array plate burst out in the sky with endless pale light. The next moment, the vast and boundless gray defeat runes swept out and spread between heaven and earth, and then covered Su Mo's cold cage.

"Damn it!"

At the moment, the endless force of repression swept over, Su Mohan felt that his own strength was suppressed by 50%, and for a time he could not help but scold in his heart.

In order to deal with her, Wang Wufeng took out the extremely cold and smashed beads. Unexpectedly, she also used the matching array. This preparation is really complete. If she did not hate her to the extreme, Wang Wufeng would not be willing to pay such a price and waste so much effort.

"Su Mo Han, what is this?"

At this time, Wang Wufeng suddenly took out a string of bracelets, looked at Su Mo Han Nu and said.

On hearing this, Su Mo Han frowned slightly and looked at the bracelet, but her face changed slightly. This is the bracelet of her most important person. However, in an absolutely safe place, how could the bracelet run to Wang Wufeng's hand."No way. It's fake."

Su Mo Han looks at Wang Wufeng and says coldly.

"Fake? In that case, let's see for yourself, it's true or false! "

Wang Wufeng laughed and threw the bracelet to Su Mo Han at the next moment, with a proud look on her face.

Seeing Wang Wufeng like this, Su Mo Han's heart can't help but thump. If it is the man's bracelet, the man will definitely die if he falls into Wang Wufeng's hand.

Panic, Su Mo Han also has no time to think more, a grasp of this bracelet, it is necessary to identify the true and false.

However, when Su Mohan holds the bracelet for a moment, she is aware of an overwhelming evil spirit sweeping over her. Su Mohan's face suddenly changes. The aura in her body is surging, sweeping and covering the bracelet. At the same time, she also throws her hand and wants to discard the bracelet.

But at the moment, the bracelet suddenly turned into a ferocious skeleton with empty eyes and a strange green flame burning.

The skeleton was pale and surrounded by the monstrous evil spirit. It was attached to Su Mohan's hand and could not be thrown off at all.

Even, the monstrous evil spirit also follows Su Mohan's palm, directly clings to Su Mohan's body, and penetrates into Su Mohan's body along his pores, and collides with Su Mohan's aura.

"Gaga, gaga!"

At this time, the skull also opened its mouth ferociously, and gave out a strange laugh. The next moment, he bit Su Mo Han's arm.

"Get out of here!"

Su Mo Han's eyes were filled with rage, and he suddenly cut it out with a sword. Sen Han's sword cut through everything, but it didn't cause any damage. He just beat the skull out.

Chapter 4039

"Oh, how can you treat my baby like that?"

The skeleton was beaten out, but Wang Wufeng's face changed. He quickly flew out, grabbed the skull and held it in his arms. Then he looked at Su Mohan with a look of resentment.

But Su Mo Han looks at Wang Wufeng, but his heart is full of anger. Wang Wufeng is so shameless that he uses despicable means to plot against her.

Seeing the moment that the bracelet turns into a skeleton, Su Mohan feels bad in her heart. She has already made a judgment about what the skeleton is.

"I didn't expect that you even used the most evil things such as ecstasy and soul biting bones. You are really incurable and have been completely eroded by evil!"

Su Mo Han looked at Wang Wufeng and said in a cold voice that the skull is a soul devouring bone. It is a kind of extremely evil thing, which can bewitch people's mind and soul, and can also devour people's soul.

It is not only bewitching and swallowing the enemy's soul, but also the users. The more times they use them, the more they will be lost. Finally, they will be completely bewildered by the bewitching soul biting bones, and will willingly become the nourishment of the enchanting soul biting bones.

Hearing Su Mo Han's words, Wang Wufeng was disdainful to sneer, "hum, as long as I can kill you, don't use this baby, even if I pay any price, I'm willing to do it!"

When the voice falls, Wang Wufeng does not wait for Su Mohan to react. With a move of his hand and the array, he is driven by the endless gray defeat. He wants to suppress Su Mohan directly.

Seeing this scene, Su Mohan's face changed slightly. Under Wang Wufeng's conspiracy, she was bewitched by the spirit and bones, and she had been hurt. Now, facing this array, the situation was even worse.

The array of grey light has swept through. Su Mohan has no time to think about it. He resists the injury in his body and stabs it with a sharp sword. The chilling light shines all over the sky, which makes the incomparable donghanyuan look inferior. The endless cold and the gray Guanghua collide together, and for a time, he can't stand down.

At this time, Wang Wufeng suddenly turned to look at the emperor Shitian, and said in a sinister voice, "you asked me to help in the battle, not to kill the disciples of juechan emperor Zun? That woman is now in the East cold abyss, you quickly hand

"Solve that mole ant, join hands with me, and completely suppress this damned woman!"

Wang Wufeng's tone contains endless hate.

Seeing this, the emperor Shitian was expressionless, but he ignored Wang Wufeng. However, he looked into the depth of donghanyuan. He also knew that Wei Ying was in the donghanyuan.

"Hehe, descendants of emperor juehan? No matter what you want to do, everything is just in vain. Today I will erase your trouble! "

The emperor thought coldly in his mind. The next moment, he suddenly took his hand, and all kinds of swords were suddenly cut out. At this moment, Su Mohan's array to protect Wei Ying emerged. All the way to the cold spirit circulation, to the source of cold emerged, senhan's Rune floated around the heaven and earth, blocking the emperor's sword.

"Well, you are going to die. Are you still in charge of other people?"

At the moment, Su's cold and Mo cold are fighting each other.

"Hum!"

Su Mo Han's all means are cold, but the extinction and breaking cold array is absolutely restrained against the cold attribute, and the array is the same. At the moment, the array under Su Mo's cold cloth can't help but make a sound of rubbing, and then it suddenly breaks down.

"Poof!" When the array is broken, Su Mohan suddenly spurts out a mouthful of blood, which is seriously backfired. At the moment, plus being injured by the soul biting bone, Su Mohan's breath is disordered, and his state is very poor.

But in this case, Su Mo Han's killing intention became more and more violent, even converged on the sky and turned into a ring of killing intention, which locked Wang Wufeng from a distance.

"You bastard

Seeing Wang Wufeng's actions, Su Mo Han's eyes are full of murderous intention. Emperor Shitian's hand is not so terrible for her, but it is absolutely a fatal blow to Wei Ying. What's more, Wei Ying is sinking in the cold and dark prison at the moment, and her consciousness has not recovered. How can she resist the emperor's attack.

Wei Ying fell into a crisis, so that Su Mo Han broke out completely. For a time, the chilling effect swept through the sky, and even made the extinction and breaking cold array tremble and almost break.

Su Mo Han chopped up the grey and defeated Guanghua in front of him with a sword, and then he directly killed Wang Wufeng.

"I'll make you pay for it!"

Seeing Su Mohan completely angry, Wang Wufeng is always elated, and Wang Wufeng, who is sure of winning, does not change his face slightly. At first, he was hurt by Su Mohan and tortured by sword wound for thousands of years, which made him fear Su Mohan instinctively.

What's more, Wang Wufeng is not su Mohan's opponent. At the moment, Su's strength is suppressed by the extinction breaking cold beads and the extinction breaking cold array, but it is still terrible. He doesn't confront Su Mohan, but he dodges in the formation.

At the moment when Su Mo Han broke out completely and fought Wang Wufeng, Emperor Shitian also gazed at donghanyuan.

All the swords and cold awns cut by the emperor Shitian have now been shot into the donghanyuan, which makes the whole donghanyuan tremble. However, all the swords have broken the deepest ice layer of donghanyuan and have been cut into the cold Youming prison. Wei Ying, who was trying to understand the cold heart formula of wanxu in the cold and dark hell prison, had already lost her consciousness completely, but she was awakened from the sinking by the emperor Shitian's attack, and felt the meaning of endless death.

But at this moment, Wei Ying has become an ice sculpture. Although her consciousness is no longer sinking, her body has already frozen and she can't move at all. Even if she can, she can't even face the bullying attack of emperor Shitian.

Wei Ying only had time to notice that Ba Dao had cut through the endless ice, tearing the sky and the earth, but had no time to make any response. She could only feel the fierce attack of Ba Dao.

At the next moment, the ice layer on Wei Ying's body suddenly broke, and her body fell out in an instant. In the cold and dark prison, she stumbled like duckweed in the wind.

At the same time, the whole donghanyuan was shaking violently at the moment. The emperor Shitian's strike broke the ice between donghanyuan and Zhihan Youming prison, and also injured the foundation of the whole donghanyuan.

At the moment, the donghanyuan was shaking violently, and an earthquake happened. The whole donghanyuan began to collapse, and the huge ice that had frozen for countless years broke, and countless huge ice blocks that blocked the sky and the sun fell into the abyss one after another.

At this moment, the extremely deep donghanyuan was just like a broken world, filled with endless huge ice blocks, and its interior was constantly collapsing, and the roaring sound was endless. There was a deafening and terrible roar between heaven and earth, and the whole region was shocked.

Under such circumstances, donghanyuan, once known as the place of absolute cold, has been completely turned into ruins and history.

As for Wei Ying, she was also pressed under the ice of endless ruins.

Just for this, all the people present basically understood that the East hanyuandu earthquake collapsed and destroyed. Wei Ying was in the extremely cold hell prison under the East Hanyuan, and there was absolutely no possibility of survival.

Not to mention Wei Ying, even if Su Mo Han exists like this, in the face of such a collapse of the whole donghanyuan, if it is hard to bear down, even if it is not dead, it is still dying.

Chapter 4040

"Ha ha, she's settled. It's your turn next!"

Wei Ying's breath has dissipated from this place. She can't feel it. Wang Wufeng can't help but show a senhan smile, and looks at Wei Ying's grin.

"Well, if she is dead, I want you to bury her with her!"

Su Mo Han heard this, kill the meaning of the cold mouth said, but the eyes are dim to see the collapse of the East cold yuan.

Su Mo Han's eyes seem to be able to cross the endless broken ice, block by piece of huge ice blocks, to see the bottom of the Zhihan Youming prison, from here to see Wei Ying's whereabouts.

At the moment, Wei Ying is in a coma in the ruins of the prison, while a rune with endless cold light is suspended above Wei Ying, condensing a barrier to protect Wei Ying.

This is Su Mo Han left behind Wei Ying. When Wei Ying entered donghanyuan, Su Mohan left behind.

This Rune protection was originally intended to help Wei Ying cope with the possible crisis in Zhihan Youming prison, but she did not expect that she would be attacked by Emperor Shitian and Wang Wufeng. Now, it can be used.

Wang Wufeng didn't notice all this, but the emperor Shitian frowned slightly and seemed to see some clues. At the moment, he flew directly to the East cold abyss which had been turned into ruins.

"Hello! If you don't help me take her down, the woman is dead! "

Wang Wufeng, seeing the emperor's action, frowned discontentedly and began to shout angrily.

However, Su Mo Han saw that emperor Shitian was close to donghanyuan, but his face changed slightly, and he directly killed the emperor.

"What else do you want to do?"

Su Mo Han killed the emperor with a sword, and the endless chill swept through the sky.

"Hum!"

At the moment when Su Mohan was about to stab the emperor Shitian, the power suddenly broke out in the cold breaking array, and the endless gray glory gathered together to completely cover Su Mohan, and let her just accumulated violent power collapse directly.

But Su Mo Han's strength breaks down, and Emperor Shitian looks back at her coldly, but seizes this opportunity to rush directly into the broken donghanyuan, smashing through the ice and going deep into it.

"You shameless fellow

Su Mo Han is furious and looks at Wang Wufeng. It is obvious that this guy made a move, which made her unable to stop the emperor Shitian.

"Hey, hey."

Wang Wufeng was not annoyed, but showed a very proud smile. It seemed that as long as he could destroy Su Mo Han's good deeds, he would feel extremely happy.

And Wang Wufeng's psychology is really like this, as long as can let Su Mo cold uncomfortable, he will feel incomparably comfortable.

Originally, Wang Wufeng saw that the emperor Shitian had collapsed the capital of donghanyuan and decided that Wei Ying would surely die. Therefore, he hoped that emperor Shitian would help him solve Su Mo Han.

However, the emperor Shitian rushes into the donghanyuan, and Su Mohan is so nervous that he wants to stop him. However, Wang Wufeng knows that his judgment is wrong and Wei Ying may not be dead.

Under such circumstances, Wang Wufeng is not in a hurry to kill Su Mohan. Instead, he wants to help emperor Shitian block Su Mohan. He comes to drag Su Mohan and asks emperor Shitian to wipe out Wei Ying.

The reason why he did this was that Wang Wufeng felt that the victory was in hand. He used the extermination of cold breaking beads and the extermination of cold breaking array, which he paid a huge price for, which could guarantee Su Mo Han's death.

Under such circumstances, Wang Wufeng thought of the scar that tortured him for thousands of years, which was left by Su Mohan, and he also wanted to torture Su Mohan. At the moment, he entangled Su Mohan and let Su Mohan watch Wei Ying die in the hands of emperor Shitian, which is obviously a good thing.

"Su Mo Han, I will let you live more than death, and then cut off the head of you, a bitch, and give it to the rotten dog in the wilderness!"

Wang Wufeng looks at Su Mo Han, in the eyes endless crazy turbulent flow.

At the moment, Su Mohan is really nervous about Wei Ying's safety. Seeing that emperor Shitian has gone deep into the collapsed donghanyuan ice layer, Su Mohan looks at Wang Wufeng's complete explosion. She knows very well that if she doesn't kill this disgusting guy, she will be held back. She has no chance to stop emperor Shitian and save Wei Ying.

"I want you to die!"

Su Mo Han's endless killing intention surges up, and the killing ring suspended above his head erupts with endless coldness. Inside the circle, there is boundless world birth and death, endless dead air flows, and turns into a shocking cold light. With the cold light on the edge of Su Mo Han's sword, They stab out together!

"To kill Han min sword!"

Su Mo cold drink in the mouth, condense the whole body strength, a hand is the most powerful blow, no hand left.

But at the moment, looking at Su Mohan's sword, which breaks through the heaven and earth, penetrates the heaven and earth, and kills himself, Wang Wufeng's look is even more crazy.

"Another move, another move!"

Wang Wufeng's face was ferocious and hysterical. His gray Rune was like a tadpole. He was crazy and evil, and the atmosphere of chaos was extremely diffuse.

Wang Wufeng's eyes were filled with madness. The scar on his chest that had tormented him for thousands of years was caused by Su Mohan's sword. He didn't expect that after 3000 years, Su Mohan would use this move against him again. It was a shame."You've tortured me with this sword for thousands of years. Do you think I'll be defeated again?"

Wang Wufeng roars wildly. He can't resist Su Mohan's attack on him, leaving behind the erosion of the sword's meaning, and can't expel it. But it doesn't mean that he can't block Su Mohan's sword at the moment.

"The pupil of evil god!"

Wang Wufeng suddenly took a sharp drink. At this moment, the heaven and earth suddenly collapsed, and the endless sky was broken. Pieces of space that covered the sky and the sun fell down. In the endless void, the magnificent and boundless evil spirit swept out.

At this moment, the heaven and earth are in a dark, wrapped by endless nothingness, but in the endless nothingness, there are boundless and incomparable evil spirits sweeping over.

These evil spirits flowed into the gray runes circulating on Wang Wufeng. These runes, which were originally the size of tadpoles, swam on Wang Wufeng's body. Now, with the continuous influx of evil spirits, they gradually enriched and grew bigger.

"Bang bang bang!"

At the moment, the whole heaven and earth are gathering evil spirits to Wang Wufeng. Such a large amount of evil spirits also lead to the runes which were originally only the size of tadpoles. In a flash, they turned into fist size, and then they continued to grow, and then they exploded.

When the runes exploded, Wang Wufeng's skin and flesh were constantly smashed, and the flesh and blood splashed like a waterfall. However, out of the exploded runes, there were many evil spirits, full of endless chaos and madness.

As soon as these eyeballs appear, they are flying and converging in the air, and they are constantly stitched together. Countless eyeballs converge together in the void and turn into a huge and incomparable eyeball.
