

## Physician 4051

### Chapter 4051

At the same time, along with the gun, the gun burst out.

"Boom

In the moment, the thunderbolt, the thunderbolt, the thunderbolt, the thunderbolt.

"Bang!"

The power of the gun in the cold nether world is too terrible. At the moment of collision with the monster, the monster even has no time to howl. It explodes directly, then dissipates and is completely destroyed.

Seeing this scene, ye Chen was stunned. The explosion of the cold Youming gun was too terrible. Although the monster was not strong, if ye Chen could use aura to solve it easily, how could it be regarded as the middle stage of heaven and earth.

In the face of the explosion of the cold Youming gun, the monsters in such a state are like a layer of gauze, which is broken in an instant, as weak as a mole ant.

"This gun..."

Ye Chen holds Zhihan Youming gun with a little shock in his heart. However, at this moment, he also finds a clue. The energy inside the gun has been completely consumed by just one blow.

At this moment, the gun began to absorb the cold air between heaven and earth. The speed was not slow, but the speed of energy accumulation inside the spear was very slow, which indicated that it took a long time to accumulate enough energy.

At the moment, just after the outbreak of a gun, the luster of Zhihan Youming gun is very dim, and its power is greatly reduced. This makes Ye Chen understand that although the power of Zhihan Youming gun is powerful, it has huge limitations.

The cold ghost spear is usually used as a weapon. I'm afraid its killing effect is not as good as that of the Sha sword, but it can be used as a big killing weapon with complete energy accumulation.

This mechanism is somewhat similar to the Lich mark and Ling Feng Shen pulse.

In any case, it's a good thing to be able to get the cold Youming gun, and I don't care about its defects.

At the moment, ye Chen holds the gun to the cold and dark world, but it is a spear to the sky above, which is an endless chaotic ocean.

At this time, ye Chen's body shape is driven by the gun to the top of the vast chaos to fly.

Ye Chen can't use the aura, can't fly up to the sky, penetrate the chaotic sea and return to the barren ice field above, but to the cold Youming gun is able to mobilize part of the aura, the least flight can meet.

With the help of Zhihan Youming gun, ye Chen quickly returns to the plain. Looking at the empty plain, ye Chen shakes his head solemnly.

It is a happy event for ye Chen to obtain Zhihan Youming gun, but now the most important thing is whether Wei Ying can pass the final test of Zhihan Youming prison and walk out safely from the gate of hell.

If Wei Ying can't pass the test, even if ye Chen gets the best things here, he can't take them away at all. Instead, he has to stay here for burial.

"I believe you, you will succeed."

Ye Chen looks at Wei Ying's disappearing place, flashed in his eyes a touch of firmness, and says with absolute awe.

.....

At the same time, in the boundless darkness, Wei Ying walked in the scorching land, and her ears were full of demonic whispers and whispers, which contained the evil power of confusing people's minds, which made people's consciousness confused.

Wei Ying walks in this boundless darkness, has not known how many time, she only felt here has no end, there is no life, everything is so boring.

"The test? Is it a test to go on like this all the time? "

At the moment, Wei Ying walked in the dark a little annoyed, can not help but roar.

At this time, the scorching land under Wei Ying's feet suddenly vibrated, and then the earth split, and the heat wave hit, and the devastating slurry was exposed.

One magma bubble after another rises and explodes in the air, and the dark land is dimly illuminated.

At this time, a circular channel slowly emerged in the magma, forming in front of Wei Ying, as if inviting her to enter.

Looking at the sea of crazed magma, there are deep and incomparable channels full of unknown magma. Wei Ying looks gloomy. She doesn't know if there is any danger in it, but she has no choice.

"Well, is that the test?"

Wei Ying snorted coldly and jumped into the magma channel without hesitation.

There was red magma all around, as if to melt everything. Wei Ying was baking and sweating.

The magma channel seems to have no end. Wei Ying jumped into the channel and it has been sinking, but it has not reached the bottom for such a long time. There is only endless vast and deep darkness below.

After a long time, when Wei Ying was impatient, the scene below finally changed into a lava land.

Wei Ying's palace, which was built in front of her, was just like a burning place. The palace is extremely tall, which is the only building on the lava land. It exudes a terrifying and terrifying pressure. Wei Ying looks dignified.

At this moment, the huge door of the palace opened quietly, and then Wei Ying saw the scene inside the palace.

On a huge and magnificent throne, there sits a towering giant. This is a demon with lava skin, double horns, red eyes, flaming flames, and full of flame lines!

Around the devil, he was bound by thick chains and tied to the throne. On his head, there was a huge sword that seemed to crush the heavens and pierce the whole world.

The sword is hanging above, but it seems to fall all the time. It seems that the devil will die if there is any change.

At this moment, Wei Ying was shocked by the magnificent scene, but the devil was staring at Wei Ying, and his burning eyes could not see any clue.

All of a sudden, the voice of the devil sounded, and Wei Ying suddenly realized that she was walking in the boundless darkness. The whispering that had been lingering in her ears was the devil's words in front of her.

"You want a hell? You want to get out of this place? "

The devil's tone was full of temptation. He looked at Wei Ying and showed a strange smile: "as long as you save me, I will bless you, and you will gain my endless power. Don't talk about this hell at that time. Even the heaven and earth will sink in your hands and play with them like toys at will."

The devil's words are very simple, but they are very tempting. To be sure, what Wei Ying wants now is what the devil says. If he can obtain such powerful power, Wei Ying can easily help Ye Chen solve those enemies.

Just at the moment, looking at the eyes of the devil burning with fire, Wei Ying shook her head.

Chapter 4052

"No, there must be a reason why you are suppressed here. Maybe you are the disaster of all the heaven and earth. How can I save you?"

Wei Ying said solemnly.

"Ha ha ha ha ha!"

At the moment, the devil is looking up at the sky and laughing. When he sees Wei Ying's puzzled eyes, his tone becomes cold.

"If you don't save me, you will die here, and you will fall down completely! Are you going to give up your life? "

"Save me, even if you let the universe sink, you will not only live, but also gain my endless strength. At that time, everything you cherish and the people you care about will live the best life. Isn't all this wonderful?"

The devil's words sounded again, shaking through the lava world. In the devil's words, there is endless temptation, which can have an extremely terrible impact on consciousness.

At the moment, Wei Ying's eyes are in a trance under the attack of the devil's words. The devil seems to be able to pry into people's hearts and know what Wei Ying is worrying about and what Wei Ying is longing for.

In her mind, the devil's words constantly resound, echoing again and again. Wei Ying looks at the devil and moves involuntarily.

"What should I do if you want me to save you?"

Wei Ying looked at the devil with deep eyes, and even showed a trace of desire.

"If I save you, you must promise me that you will give me endless strength, enough for me to deal with all troubles and protect the people I care about."

"Of course, as long as you save me, I can give you whatever you want!"

The devil grinned strangely and looked at Wei Ying, who was slowly approaching. He reached out and pointed to the huge sword suspended on the top of his finger.

"It's this huge sword that oppresses me. It's a great threat to me. Just take off the talisman on the sword, and the sword will lose its effectiveness. Then I will give you endless strength to satisfy your wishes."

The devil's tone became serious. "Believe me, I pay most attention to integrity, and I work with countless Terrans, and they finally get what they want."

Listening to the devil's words, Wei Ying flew up and approached the great sword. At the hilt of the sword, there was indeed a Rune of extraordinary mystery, as if it could suppress everything in the world.

This talisman exudes the boundless power of heaven and earth. It seems to be the condensation of the will of heaven and earth, and the supernatural existence forged by the cultivation of heaven and earth.

Looking at the talisman, Wei Ying's eyes are still godless, she has lost in the demon's seductive whisper.

At this moment, Wei Ying slowly reaches out her hand to the talisman. For some reason, this great talisman which suppresses all kinds of things does not show her any power in the face of Wei Ying.

Wei Ying's delicate jade hand keeps approaching the talisman. The devil's red eyes stare at this scene. His long silent heart beats violently at the moment. He sees hope.

At this moment, just as Wei Ying was about to meet the talisman and take off the talisman, a clear light suddenly flashed in Wei Ying's eyes.

"No, I can't do it!"

Wei Ying stares at the talisman in front of her eyes and fiercely takes back her hand. A moment of fear flashed in her eyes. If she releases this terrible demon for her own selfish desire, it is against her own belief.

"What are you doing?"

At the moment, the devil's roar suddenly sounded, his angry roar, the fire in his eyes seemed to be sweeping out, covering Wei Ying with calcination.

Wei Ying was about to take off the talisman and get rid of the oppression of the endless years. However, Wei Ying suddenly gave up his hand. His hope was shattered and the devil's mood almost collapsed.

"Are you playing with me, damned Terran!"

The devil stares at Wei Ying: "do as I say right now. If you don't take off the talisman, I promise you will die here!"

Wei Ying completely angered the devil, and both sides tore their faces. The devil was so fierce that he was oppressed by endless pressure and threatened Wei Ying to do it.

But at the moment, facing the terrible pressure, Wei Ying was disdainful. Instead of listening to the devil's voice, she fell from the air, far away from the talisman.

"Kill me?"

Wei Ying's mouth curled up a radian, the next moment even step by step toward the devil.

"I will not obey your orders, a prisoner of lower rank, a wretch who has been oppressed here for so many years. What right can I command?"

Wei Ying looks at the devil coldly. At this moment, Wei Ying's words make the devil angry. The devil can't help but roar.

"You bastard, you damned mole ant, how dare you talk to the great me like this, I want you to die!"

The devil roared, and his body struggled on the throne. The heavy chains were pounding and even sparks were splashing out.

At the moment, the devil used all his strength to wave his arm, and his palm, which covered the sky and the sun, burst out with great power like destroying the heaven and earth. The vast and violent magic fire gushed out from his palm and suppressed Wei Ying.

Under such circumstances, Wei Ying was indifferent and did not have the slightest panic. She did not even act to resist, let alone step back. In this way, Wei Ying, in the face of the devil's destructive palm, even took the initiative to step forward, as if she didn't want to live and wanted to take the opportunity to commit suicide.

But at this moment, the devil's eyes flashed endless resentment. He was staring at Wei Ying, and his throat gave out an unwilling roar.

At the moment when the giant palm was about to hit Wei Ying, the huge sword of extermination suspended above the devil's head bloomed a vast bright light that frightened the sky, and made the lava world shine brightly.

The ferocious divine power that suppressed the world's myriad worlds broke out, and the huge sword of extermination was slowly pressed down, and even the devil's horns were broken. The devil was covered with crimson scales, and the crack appeared on his hard head, which was like the blood flowing from the magma.

"Ah

The devil roared up to the sky. He felt the endless crisis of death. Even if he had grown to such a terrible level, he was still full of fear of death. He did not want to die, and he was not willing to die.

The devil has survived for countless years and been suppressed for many years in order to get rid of repression and be happy. He cherishes his life most.

At the moment, faced with the suppression of the huge sword, the devil waved out. Wei Ying was about to be photographed as a huge palm with meat stuffing, but it had to be taken back.

"Hum..."

At the moment when the devil takes back his hand, the great sword of extermination also dissipates its brilliance, and its power converges. It slowly returns to its original position, but it is always hanging on the top of the devil's head.

"Damn it, damn it!"

The devil looked ferocious, and looked at Wei Ying bitterly. However, Wei Ying's face was indifferent and unaffected at this moment.

"Is this the final test? In the face of fatal temptation, I can keep my heart and not be confused

Wei Ying looks at the devil, but a glimmer of enlightenment rises in her heart.

#### Chapter 4053

This cold hell prison belongs to a part of the boundless hell left outside, but it still has the responsibility of hell to suppress crime.

The final test is to test whether Wei Ying's original intention is evil, whether she will give up kindness for the sake of strength and give up the conscience of being a human being.

At this moment, Wei Ying was almost deceived by the demons. However, it was not too late to wake up at the last moment.

At the moment when Wei Ying was enlightened, all the scenes in front of her were slowly disappearing. The lava earth and the endless dark space were all gone.

Instead, there is a cold world. In the center of the world, there stands a magnificent altar. On the altar, a dark blue Rune containing the charm of the way of God is suspended on the top of the altar, blooming with endless power.

At this time, Wei Ying felt the warmth of the rune. She could not help walking forward to the altar, reaching out to touch the mighty rune.

As soon as she touched the rune, Wei Ying's body was full of piercing blue brilliance. There were endless ice rules surging on her body, forming a gauze dress.

The rune is integrated into Wei Ying's body, and Wei Ying's heart also has a trace of understanding. This is a trace of the law of extreme cold, which also represents that Zhihan Youming prison has acknowledged her.

At this moment, Wei Ying weeps with joy and her eyes are slightly red. She immediately sits down cross legged and understands the extremely cold law of the heaven and earth and refines it to the cold hell.

After a long time, Wei Ying slowly opened her eyes. Around her was a magnificent law of extreme cold. The endless cold swept all directions. At this moment, Wei Ying seemed to be the Supreme Master of the cold, controlling all the cold forces between heaven and earth.

At this moment, Wei Ying's belief moved and a door of hell appeared.

Wei Ying has already belonged to Wei Ying, so Wei Ying can easily use all the powers of Zhihan Youming prison, including the gate of hell.

Step into the door of hell, and then Wei Ying comes to the outside world and appears in front of Ye Chen.

"I made it."

Wei Ying looks at Ye Chen with a sincere smile and a kind of free and easy.

Before stepping into the gate of hell, Wei Ying suffered too much pressure. After all, if she fails, she and ye Chen will die here. Fortunately, everything is OK.

"Wei Ying, you made it."

Looking at Wei Ying who likes to smile and smile, ye Chen can't help being a little bit stunned. He responds and quickly opens his mouth in praise.

But at this moment, Wei Ying has already reached out to the void. In the cold and dark prison, the wind and snow, which was originally howling and violent, was even more terrible. It turned into a vast and incomparable, covering the sky and the sun, making people unable to see the road ahead, and even lost in the wild wind and snow.

At the same time, in the wind and snow, there are endless murderous intentions emerging. This is the original intention of killing from the boundless hell and the grand ferocity to suppress everything.

This is exactly what Wei Ying mastered after refining to the cold Youming prison. The artistic conception is the meaning of killing by the wind and snow all over the sky. He can use the endless wind and snow to make the enemy lose in it, and use the original killing idea of the cold and dark hell prison to kill the enemy directly.

Then, Wei Ying slowly closed her eyes. What was she feeling? A moment later, the void in front of Wei Ying trembled, and then broke, and a disc was exposed to Wei Ying and ye Chen.

This is an array plate with holy Qi flowing, Hongmeng breath vast, and the power of the origin of heaven and earth. The array plate is only the size of a palm, but it contains terrifying power. It seems that it has infinite suppression power and belongs to heaven and earth.

"This is..."

Seeing this plate, ye Chen's pupil shrinks, and the magnificent appearance of the Holy Spirit should be what he guessed.

"Yes, this is the array plate of Shengyuan Tianxuan array. It has always been put in this extremely cold and dark prison."

Wei Ying nods. She has refined the hell of the cold. All the treasures that juechan emperor Zun has placed here belong to her, and she is allowed to transfer them at will. Therefore, it is only a matter of thought that she wants to find out the array plate of Shengyuan Tianxuan.

At the same time, Wei Ying discovered the current situation of her and ye Chen after refining to the cold hell.

The ruins of donghanyuan above have been turned into a place of evil and chaos, which can not be opened by her and ye Chen.

And this square million miles of space is also completely chaotic, simply unable to shuttle space, she and ye Chen are completely trapped here.

At the moment, the only way is related to the array plate of Shengyuan Tianxuan array. Wei Ying speculates that if you can use the array disk to stimulate the heart of Shengyuan, the mighty power generated may directly penetrate the boundless ice, penetrate the chaotic space, break the heaven and earth, and let her and ye Chen get out of trouble successfully.

At the moment, Wei Ying looks at Ye Chen and says what she thinks. Ye Chen nods slowly, expressing her approval.

After all, for ye Chen, he had no other better way. Even if Wei Ying was trapped in the cold hell, the two of them would eventually die.

Therefore, even if you have to use the heart of Shengyuan, you have to save your life before you can consider other things. Moreover, according to Wei Ying's guess and ye Chen's own judgment, this time using array disk to stimulate the heart of Shengyuan will not completely consume the heart of Shengyuan. Thinking in his heart, ye Chen takes out the heart of Shengyuan. As soon as the heart of Shengyuan appears, it echoes with the array plate of Shengyuan Tianxuan array. It seems that an invisible bridge has been built between the two, and the boundless mighty power trembles in the bridge.

Ye Chen originally planned to put the heart of the holy source directly into the array plate, and then run the array plate to release the endless power of the heart of the holy source to break the heaven and earth. But now he hesitated.

This is because ye Chen thought of the extremely cold Youming gun he had obtained and the performance of killing monsters before the extremely cold Youming gun.

The gun of the cold nether world has accumulated enough energy, and the violent power it produces can penetrate into the universe. Especially in response to this situation, the gun should be able to be used.

Ye Chen did not hesitate to tell Wei Ying all the information about Zhihan Youming gun and his own ideas without hesitation.

Knowing Ye Chen's idea, Wei Ying also has no doubt and nods with approval.

The only advantage is that the cold ghost gun gathers energy in this space faster than expected. If it is put outside, it may take several months.

A few days later, ye Chen noticed that the gun in his hand had become sharp again and accumulated enough energy. He immediately told Wei Ying.

Ye Chen's plan is to use the heart of Shengyuan, which is driven by the cold Youming spear and the Shengyuan Tianxuan array plate at the same time. With two extremely strong forces, they can directly break the ruins of donghanyuan and open up the heaven and earth, so that they can easily reach the outside world.

Chapter 4054

At this moment, Wei Ying looks at Ye Chen's cold and dark spear and nods with awe. She also takes out the array plate of Shengyuan Tianxuan array.

"Hum."

For a time, the holy Qi flows, as if the rules between heaven and earth have changed, and they are arranged according to the running track of the holy source Tianxuan array.

At the same time, ye Chen also appeared in the hands of the holy source of the heart, which is successfully integrated with the help of Qi Yunshu.

At the moment, the heart of the holy source contains the vast Holy Spirit and endless power to destroy the heaven and the earth. If this power is released, it will surely shake the whole world.

At the next moment, ye Chen directly throws the heart of Shengyuan to Wei Ying. Wei Ying's eyes flicker slightly, prompting the sky Xuan array plate of Shengyuan. At this moment, the array plate of palm size suddenly becomes larger and turns into a huge array plate covering the sky and the sun.

The vast Holy Spirit flowed from the sky, and constantly dropped down. The mysterious rules also flowed between the heaven and the earth.

Aura pervades the sky, and the whole heaven and earth are filled with infinite holy Qi and aura. At this moment, the heart of holy source is suspended in the air, and array runes are sweeping in.

With the heart of the holy source as the center, the array runes are arranged like a battle line. The endless rays shine on the sky, and the array runes continue to form a piece and constantly rotate.

At this moment, the heart of the holy source slowly lights up, a thrilling, icy power overflows, and the heaven and earth seem to be unable to bear this breath and become shivering.

Then, the brilliance of the heart of the holy source is more and more dazzling, and the palpitating power is more and more strong, and suddenly burst out at the next moment.

"Now!"

Wei Ying's eyes flashed a touch of fine light, suddenly looked at Ye Chen.

"To the cold and dark light!"

Without Wei Ying's warning, ye Chen also knows that the time has come. He suddenly raises his gun to the cold and nether world, and the huge energy accumulated in the gun body tilts out in an instant.

Ye Chen will be the cold ghost gun. This destructive power, which has burst out for many days, is called the extremely cold and dark light. At this moment, a destructive cold God's awn bursts out.

On the other side, the infinite power of the heart of the holy source breaks out, and the dazzling brilliance that people can't open their eyes bursts out. At this moment, the infinite holy energy condenses into the shape of a giant pillar, and suddenly stabs at the ruins of donghanyuan above.

"Boom

At this moment, Zhihan Youming light and the giant pillar burst out of the heart of the holy source go hand in hand, and burst out towards the ruins of donghanyuan at the same time.

The violent power of destroying heaven and earth breaks out, and the light and the giant pillar collide with the ruins of donghanyuan. At this moment, the time seems to be still. Only two magic powers that destroy everything can be seen touching the endless ice.

"Hum!"

As if the ice did not exist, it could not cause any obstruction to the light and the pillar, and it would melt away directly. Then we could see that the light and the pillar pierced through the infinite void, broke the heaven and earth, and suddenly shot into the universe.

At this moment, the whole region was shocked by the light and the giant pillar, especially the giant pillar. The power contained in it had the terrible power to make the world tremble.

At this moment, countless strong men looked at the direction of donghanyuan. I don't know how many old monsters in seclusion suddenly woke up, all staring at donghanyuan, staring at the giant pillar.

But at this time, ye Chen and Wei Ying's figures are running out along the light and the broken void of the giant pillar. They feel the breath of the outside world, and feel that they can't use their aura again. They can't help but smile.

At the same time, Ren extraordinary and Su Mo Han see ye Chen two people come out, is also a sigh of relief.

"He did it."

Any extraordinary looking at Ye Chen, quite a few exclamation of the mouth said.

"He's really extraordinary. I'm afraid his achievements in this life will be far better than those in the previous one. Those guys' nightmares are back."

Su Mo Han is also a nod of approval at the moment.

At the same time, her eyes are endless soft light, can't help but look at Ren extraordinary, but also aware that the other side is looking at himself gently.

Two people look at each other smile, Su Mo cold pretty face slightly red, she and Ren extraordinary look at the moment, also from each other's eyes to see what the other side wants to say.

Yes, Su Mo Han and Ren Feifan look at Ye Chen and Wei Ying at the moment, but they think of themselves at the beginning, as if to see once each other.

"Elder Ren, this elder is..." At the moment, ye Chen also brings Wei Ying to Ren Feifan and calls respectfully.

"Let her be introduced by me."

Any extraordinary smell speech, smile and shake his head, look to Su Mo cold.

"You can call me master su."

Su Mo Han hears speech indifferent open mouth to say.

"Thank you for reminding me that Wei Ying is in danger."

Ye Chen immediately said thanks.

And at Ye Chen's side, Wei Ying heard Su Mo Han's words, but also changed her pretty face slightly. She said gratefully, "thank you for protecting the little girl. If you have something, you can drive me." "I have nothing to do with it."

Su Mo Han shakes his head and looks at Wei Ying with deep eyes at the next moment and says, "however, do you want to be my disciple?"

"Ah?"

When Wei Ying heard this, she couldn't help but be stunned. Then she reacted and her eyes brightened.

Su Mo Han's training is also one of the cold, and the realm is unpredictable. It is obviously a good thing that such a strong man is willing to accept Wei Ying as his apprentice.

"I will."

Wei Ying immediately knelt down without hesitation.

Seeing this, Su Mo Han did not stop her, instead, she was calm and restrained. When Wei Ying kowtowed, she raised her hand slightly and directly lifted Wei Ying from the ground.

"Good."

Su Mo Han gazed at Wei Ying's eyes: "since you worship me as a teacher, I will not be stingy. Now follow me and I will teach you martial arts."

Su Mo Han said, pointing to the front, the void is broken, revealing a forest cold world, Su Mo Han directly steps into the forest cold world.

Seeing this, Wei Ying did not hesitate at all, and immediately followed Su Mo Han into it.

And ye Chen sees Wei Ying leave, but sees Ren extraordinary to oneself.

"The first official meeting. In that case, come with me."

Ren Feifei's sword was drawn in the air. The nine blood moons above the sky shone endless blood light. The blood light broke through the void and turned into a bloody door.

Inside the door, there is a mighty blood moon god power, ye Chen see the heart of micro shock, at this moment Ren extraordinary step into it, hands negative behind him.

Ye Chen follows Ren Feifan into the blood moon gate and sees the boundless blood light diffuse here, as if in the blood light world.

Inside the portal, there is a world of blood and moonlight, which is filled with the power of blood moon. Above the sky, nine rounds of blood moon slowly rotate, showing the supreme pressure.

"Blood moon Tu Tian Jian, you have been able to gather three rounds of blood moon. At present, your state is already the limit. If you want to further improve, you need to improve the proficiency of blood moon Tu Tian chop."

Chapter 4055

Ren Feifan looked at Ye Chen and said in a calm tone: "follow me, I will teach you the essence of the blood moon butcher day chop, but how much you can learn depends on yourself."

Such supernatural powers as blood moon butcher's beheader can only be understood but can't be explained. Even if Ren Feifan says more, ye Chen can't understand it himself, and he will never understand it.

Therefore, Ren Feifan just takes Ye Chen to perform the blood moon butcher day chop, so that ye Chen can feel his own blood moon Dao Yun between one move and one form, that kind of cutting off the sun and the moon, the supreme edge of the world.

At the moment, Ren Feifan holds a long sword, but his indifferent eyes are fierce. The endless cold and sharp breath swept out of Ren extraordinary.

At this moment, Ren Feifan seems to incarnate a long sword, a sword that cuts off the sun and the moon, breaks through the eternal world shaking sword, and blooms with endless edge.

"Watch it!"

Ren Feifan murmured and raised the sword in his hand. In this instant, the nine rounds of blood moon on the sky shook repeatedly, and the infinite blood light swept down, enveloping Ren extraordinary's body.

Ren extraordinary at this moment seems to be the embodiment of the world's most sharp sword. The cold light blooming from his body even darkens the brilliance of the sky.

The next moment, Ren Feifan's cold light suddenly swept out, all into the hands of the sword, including the vast blood moon over Ren extraordinary's body.

At this moment, Ren Feifan bursts out the divine power of destroying the world, and the endless edge disappears into the void. Ren Feifan cuts out with one sword. The heaven and earth are broken at this moment, and the whole world space-time is in two.

"Boom

This bloody world, at this moment, was suddenly split, unable to bear Ren Feifei's vast cold awn of vanishing everything and breaking the sky, and was cut in half by life.

However, this bloody world seems to be controlled by Ren Feifan's mind. When Ren Feifan faces the split heaven and earth, he holds out his palm slightly, and the two parts of the world move closer to the middle. Finally, it looks like he has never been hurt before.

"Do you understand?"

Ren extraordinary turns to look at Ye Chen, the corners of the mouth hook up a radian.

"Well."

Hearing the speech, ye Chen nodded his head in awe. How extraordinary his talent was. Even though he could not understand the magic power like blood moon and Tu Tian chop, he could not understand it once, but every time he watched any extraordinary performance, he had a new understanding.

At this moment, ye Chen imitates Ren Feifan's appearance, holding the sword of falling dust and descending dragon, gathering the power of blood and moon. But at this moment, ye Chen finds clues.

In this bloody world, ye Chen can directly mobilize the power of the first nine rounds of blood moon in the sky without condensing the blood moon. He can feel the infinite power of contempt for the heaven and earth. He feels like the incarnation of the Supreme Master, overlooking the world, trampling on the ancient and modern, and being invincible again.

At this moment, the infinite power of the nine rounds of blood moon also contains endless pressure. Ye Chen's body suddenly falls to the ground, and his mouth spits blood, as if to be pressed into meat stuffing, and his eyes are shocked.

The power contained in the nine rounds of blood moon is indeed powerful, but it also needs the state strength to master this power. Ye Chen's current state is still too low. Even if he can use this power, he can not control it.

At the moment of life and death, ye Chen hastily returns all the borrowed blood moon strength, which makes him relaxed a lot.

However, ye Chen finally left four rounds of blood moon power. He was able to condense three rounds of blood moon, but not four rounds. At the moment, with the help of the rules of the blood color world and using the power of four rounds of blood moon to perform the blood moon Tu Tian chop, it can help Ye Chen feel more deeply. After reaching the realm, he can condense the fourth round of blood moon earlier.

At this moment, ye Chen cuts out with a sword, sweeping out the vast cold light of blood moon, cutting the sky apart, and overturning the sun and moon.

The power of blood moon butcher Tian Jian is vast, but ye Chen's and Ren Feifan's are quite different. After all, the gap between the two is too big.

And in the process of using the blood moon Tu Tian Jian, ye Chen also has a trace of insight in his heart, which is the real Daoyun of XueYue Tu Tian Jian.

It is a sword that is invincible, a sword that has no retreat, and a sword that breaks down the world and overturns the ages.

In the heart rises this one silk of understanding, ye Chen to the blood month butcher the sky to cut also more a silk to be transparent, the movement is more fluent through.

Then, Ren Feifan demonstrated the blood moon Tu Tian Jian, and ye Chen followed him.

In this way, he has been gathering the power of the blood moon, wielding the sword of falling dust and descending the dragon, one sword after another. Ye Chen did not know how many times he had cut it out. He only felt his arm ache, and his whole body was soft, without a trace of strength.

"Well, you've reached the limit of your present state."

At this moment, Ren Feifan's voice rings out. He looks at Ye Chen with a satisfied smile, and then reaches out his hand. Ye Chen and Ren fan leave this bloody world at the same time and appear outside.

Ye Chen's current physical state is no longer enough to perform the blood moon Tu Tian Jian, but ye Chen's understanding of the blood moon Tu Tian Jian has reached the limit of the current state, so Ren Feifan asked him to stop.

Compared with before, ye Chen wants to use the blood moon and Tu Tian to chop. The speed of gathering blood moon and the speed of long sword in his hand are several times higher than before. In the battle, the slightest bit of speed can affect the whole situation of the war. What's more, several times the increase at the moment makes the threat power of blood moon Tu Tian chop rise to a higher level.

At the moment, they are afraid of killing the sky before they kill the moon, because they are afraid to kill the sky before they kill the moon.

Ye Chen and Ren extraordinary stand in the wind and snow, but see Su Mo Han and Wei Ying also from the broken void out.

At the moment, Wei Ying has a unique cold charm. The whole person seems to have stepped out of the endless and deep ice and cold abyss, and the rules of cold all over her body circulate around her.

Wei Ying's breath is more powerful at the moment. It is majestic and powerful. The whole person is like a sharp sword out of sheath.

It is obvious that Su Mohan's martial arts skills have greatly improved Wei Ying.

Wei Ying, like the cold and merciless God of war, gives people an extremely dangerous feeling. Even ye Chen does not feel the pressure from her face.

But at this time, Wei Ying saw Ye Chen, but endless tenderness flashed in her eyes. The senhan temperament disintegrated in an instant and showed a smile, just like the warm sun in spring, which made people feel warm when they saw it.

Seeing this scene, Ren extraordinary and Su Mo Han looked at each other, but shook his head with a smile.

"You have gained a lot."

When ye Chen sees Wei Ying's smile, he can't help but smile.

"You're not bad either."

Wei Ying looks at Ye Chen and says earnestly.

Looking at Ye Chen and Wei Ying boasting to each other, Su Mo Han picked his eyebrows, but at the moment he interrupted their conversation.

"Three days later, there will be a wonderful secret place to open. This is the most suitable place for Wei Ying. I will take Wei Ying to experience in person, which is also a gift for her to accept apprenticeship."

Hearing this, Ren extraordinary looked at Su Mo Han with some surprise. To know that Su Mo Han majored in the law of cold, he was extremely indifferent to everything, and had never been so interested in people.

"It seems that Mo Han attaches great importance to Wei Ying, a girl."

Chapter 4056

Any extraordinary smile, to Su Mo cold nodded: "you go, but where there is danger, immediately contact me."

At the moment, ye Chen also looks at Wei Ying, but she sees that Wei Ying's face has not changed. She has already discussed with Su Mohan before. What is beneficial to Wei Ying is of course not blocked by Ye Chen. At the moment, she also nods.

See two people agree, Su Mo Han also not nonsense, immediately fly up, she always do things with a strong and vigorous, never muddle, otherwise will not grow to this step today.

"In this case, I will take Wei Ying to leave first to prepare."

Su Mo Han's voice falls. Before Wei Ying says goodbye to Ye Chen, she waves her jade hand and breaks the space. She takes Wei Ying into it and disappears in front of Ye Chen.

See Su Mo cold or say so go to go of disposition, Ren extraordinary indifferent smile.

While ye Chen looks at Wei Ying leaving, he can't help looking at Ren Feifan. In fact, when he saw Ren Feifan before, ye Chen wanted to ask some questions in his heart, including the question about the whereabouts of the blood dragon.

Ye Chen, however, remembers that he was sent by the blood dragon. When he was in such a dangerous situation, the blood dragon should not leave. But now the blood dragon is not in front of him, so ye Chen is a little curious about where the blood dragon has gone.

Just at this time, ye Chen was about to open his mouth, but he saw Ren extraordinary looking over.

"I'm going to leave. The longer I get along with you, the greater the artistic conception of this world will be. The contact between you and me is not allowed by heaven and earth. At present, I'm still OK, but you should feel uncomfortable?"

Hearing Ren fan's words, ye Chen was stunned for a moment, and then he frowned. He sensed that there was a huge force of rules around him. Ren fan didn't remind him that he had not noticed it. At the moment, he found that the power of these rules completely shrouded him, and was still frantically squeezing.

In an instant, ye Chen felt that all his limbs and bodies would be crushed and crushed, and his face would not change greatly. The power of the rules of heaven and earth was too invincible to resist. He could only feel the endless danger sweeping in.

"You and I talk and get along with each other, which will make you and I become more and more implicated. This is a big trouble for you. The more contact, the more dangerous."

Ren extraordinary deeply looked at Ye Chen: "you want to improve the strength as soon as possible, I'll go first."

"Maybe, Sunmoon sea, you and I will meet again."

Said, any extraordinary palm a Yang, void broken.

Looking at Ren extraordinary is about to leave, ye Chen wants to ask about the whereabouts of the blood dragon, but the force of the rules around him makes him breathless, let alone speak.

"By the way, the little blood dragon has been sent back to eternal ferocity by me. You don't have to worry too much."

Ren extraordinary suddenly thought of this matter, casually said, body shape stepped into the void, disappeared.

Any extraordinary disappearance of the moment, ye Chen will feel the crushing force of the infinite law of the body suddenly disappeared, that kind of suffocation feeling disappeared, let Ye Chen a relaxed.

The power of the rules just now is too terrible. It is the sanction of heaven and earth, and it is a great force that can not be resisted. Just now, ye Chen felt that he was going to fall into an endless hell.

And at the moment, Ren Feifan leaves, the blood dragon also knows that ye Chen flies up, the trouble has been solved, and there is no problem with the worry. He can't help spit out a turbid breath and feel refreshed.

"It's almost time for Yuehai to go back."

"It won't be long."

What is the meaning of Ren's last words

"Will he appear in the sunken moon sea?"

No longer think about it, ye Chen flies in a direction.

He didn't know what was waiting for him.

.....

Chihai Guanghan hall.

If you don't come back for a long time, I'm worried about you

"Now you have the blood of the Xi family, and you have a natural talent against heaven. You can't do anything."

Ye Chen was suddenly concerned, a warm heart, seriously said: "thank you uncle care, some things are more difficult just, but no harm."

Xixuan can feel the breath of breakthrough on Ye Chen's body. As soon as her eyes coagulate, she says, "you come with me. You need to stabilize your chance in this period of time."

"Good."

Ye Chen is no nonsense, he can feel the sense of breakthrough.

Xiyun brings Ye Chen to a special bedroom, which is surrounded by aura.

When the door closed, ye Chen entered a special state!

Time goes by slowly

.....

On this day, countless auras swarmed over the Guanghan palace in Chihai. Suddenly, a whirlpool of aura was formed. It was like a funnel, pouring down and converging into a room. With a flash of body shape,

he appeared under the whirlpool of aura. Looking at the whirlpool of aura covering almost the whole island, Xi Yun couldn't help smiling bitterly. Who could have thought that such a shocking scene was only produced by a little boy in the holy ancestral realm?

Now, many days have passed since the end of the ancestor worship ceremony.

These days, Qin Hongyue is busy dealing with the business in Chihai. Now, she has the permission of Xiyun, and the Beihan chamber of commerce can operate in Chihai.

However, this does not mean that sitting there, the business will find its own door, need to deal with too many things.

Originally, Qin Xiaofeng should have done these things in person. However, although Qin Hongyue encountered a crisis in the fierce sea last time, Qin Xiaofeng even regretted that she would be trained as her successor. However, Qin Xiaofeng still left the original intention of Chihai to Qin Hongyue to take care of it.

For one thing, when Qin Hongyue takes over the northern Han chamber of Commerce in the future, there will be no problem with the handover of Chihai. After all, Qin Hongyue is responsible for all of them.

Second, to succeed the next president of the Beihan chamber of Commerce, it is also necessary to convince the public. Qin Hongyue personally laid down the foundation industry of Chihai, which would stop everyone's mouth.

Lin Jianqing also returned to the West Sea.

Ye Chen was not idle. After returning from donghanyuan, he spent all his time in practice.

The aura of the inner sea is more intense than that of the outer sea. Guanghan hall is built on the top of the main spirit vein of Chihai. Ye Chen lives in Guanghan hall, so it is not too much to say that he is in the sea of aura.

After this period of understanding and practice, ye Chen finally broke through the three layers of heaven in the holy ancestral realm! It's only a step away from the fourth floor!

However, when he advanced, the astronomical phenomena caused by him were a little frightening. I'm afraid that the momentum of the advanced state of ordinary martial arts is not as great as ye Chen!

Countless island residents of martial arts, are head up, incomparably surprised to see this scene, exclamation, one after another!

Half an hour later, the whirlpool of aura finally dissipated. At the same time, a strong breath rose from the sky!

Chapter 4057

Ye Chen raised his hair and let out a long roar through the clouds. After a moment, he calmed down his mood and converged his breath with a faint smile on his face.

This promotion made his aura more vigorous and more importantly, his vitality was enhanced again.

More ascension lies in perception.

These days, ye Chen has been trying to digest the swords that Ren extraordinary displays in the ninth blood moon.

Although not completely absorbed, it also had a great influence on Ye Chen's Kendo and martial arts.

In general, after the breakthrough, his strength has increased by 10%.

Ye Chen's strength is not above his accomplishments, so even if he breaks through a small realm, his promotion is not particularly great.

Can, also don't underestimate this ten percent, with Ye Chen's strength now, can promote 10 percent, already very not easy.

If ye Chen had met the five layers of heaven and earth, except for special circumstances, he could only choose to escape, but now he has a chance to win!

To be able to break through before the big match, but also for him to win the total victory, increased a point to grasp it.

Not long ago, outside the door, there was a knock on the door. Ye Chen opened the door and saw a middle-aged man standing there. It was the evening.

When he saw Ye Chen, he said with a smile, "Congratulations, you've been promoted successfully."

Ye Chen saluted: "thanks to Uncle Fu, I can make a breakthrough in such a short time."

"Well, there's not much time left for the beginning of the moon. It's time to set out for the Black Sea."

Ye Chen's eyes flash slightly. This time, the venue of the big moon contest is in the Black Sea, which is quite far away from the Red Sea. However, since it is the Guanghan palace in the Red Sea, they can naturally use the transmission array, and all they have to cross is the fierce sea.

Xi Yun said: "this time, I have allocated two places for Chihai. Besides you, there is another person to attend. You also know this person..."

As soon as he finished his speech, a cool and proud female voice rang out in the courtyard outside the door: "this time, I will surely achieve better results than you!"

Ye Chen looked at the courtyard, and saw a girl with a pure and moving face, but always with a haughty girl, walking slowly.

It was xirong'er who had been seen at the ancestor worship ceremony on that day.

For another candidate to participate in the contest is Xi rong'er, ye Chen is not surprised. As a member of the royal family, he is also a demon under the age of 500. It is a pity not to participate in the contest.

However, to his surprise, Chihai has only two places?

For the inland seas, that's a little bit less.

Xi Yun seemed to see ye Chen's mind and said with a bitter smile: "to tell you the truth, our Red Sea, among the five inland seas, should be considered the weakest sea area. Therefore, the quota allocated is only one more than that of the open sea. Ye Chen, rong'er, you can be called demons in the Chihai sea, but in this big comparison of the moon and the people in the other inland seas, we must not be very careless. "

He seemed to remember something, and his eyes even wavered.

It seems that the other several inland seas, there has been a very shocking evil!

Ye Chen and Xi rong'er can't help but stare at him!

"Well, if you have a word, we'll talk about it later. Now we'll get on the boat and get ready to go."

At the port, a very huge, breath, not under the top of Xijia's warship, shining brilliantly, has been launched.

Dozens of escape lights fell on the ship, each of which exuded a terrifying pressure. In addition to Ye Chen and Xi rong'er, the person who boarded the boat, with the lowest cultivation, was also in the seven layers of heaven and earth!

More than half of them even exist at the top of heaven and earth!

Such an array, even in the fierce sea, can also walk horizontally.

Under the leadership of Xi Yun, ye Chen quickly boarded the warship, and a formation spread out over the warship. At the next moment, the light flashed, and the warship disappeared from its original place.

When it reappeared, it was the red, black and ferocious sea between the Black Sea and the Red Sea!

With a roar, dozens of pressure broke out from the warship, and even the evil spirit in the fierce sea was dissipated by the pressure. At the next moment, the warship, the original weapon, sailed into the fierce sea at a very fast speed.

When the pirates in the fierce sea feel the pressure on the warship, their faces change greatly. Although there is a hidden rule in the fierce sea, it is not allowed that more than three strong men in the late period of heaven and earth are allowed to appear on the same ship. Otherwise, all pirates will unite and attack those who violate the rules!

However, there are also exceptions to this unspoken rule

For example, when the warships of Guanghan palace went out to sea, even these pirates did not dare to act rashly!

After all, the villains in the whole fierce sea may not be able to attack the Guanghan Temple warship!

Even if it can, it will have to pay a very heavy price. At that time, the fierce sea will no longer be a fierce sea. The black sea law enforcement hall can easily sweep out the remaining soldiers in the fierce sea!.....

At the same time, in the main hall of Guanghan hall in the West Sea, boundless sword Qi surged, and black evil spirits were swirling around, and a startling noise almost shattered the whole hall!

The strong sword light soared to the sky, but above the sword light was bound by a black chain. On that chain, the red Rune flashed, which actually crushed the sword light!

In the main hall, more than ten strong people exist, all of them are extremely horrified to watch this scene.

Among them, a young man sitting on the main seat clenched his teeth and looked gloomy.

Lin Jianqing, holding a dark iron Epee, was half kneeling and gasping heavily. His black robe was red with blood. His eyes were fixed on the figure wrapped in black air.

Obviously, that sword just now is what he cut!

However, he was instantly suppressed by the people in front of him. Not only that, but also he himself was hurt!

The young man sitting on the main seat behind Lin Jianqing is the master of the Guanghan hall in the West Sea, Ge Jia, Ge Qingyun!

The figure in the black air chuckled and said, "why, do you want to continue fighting? You said that let me take your sword to prove that I am a dark son of the moon, I have done it? Don't you get out of the way? "

Lin Jianqing glanced at GE Qingyun, whose face was heavy behind him. He turned his head and said in a deep voice: "you have proved your identity. However, your highness obviously does not mean to meet you. He is your minister and loyal to you. In this case, if you want to go to your highness, you can only step on Jianqing."

"You are loyal," he chuckled

After that, he flashed and rushed directly to Lin Jianqing!

A moment later, Lin Jianqing lost all the light in her eyes. As soon as she was loose, she fell powerlessly at the feet of the man who was surrounded by black air.

Step by step, the man walked towards Ge Qingyun, and the black spirit of his whole body gradually dissipated, revealing a young man in a black brocade shirt with black hair and red eyes. He came to Ge Qingyun and said with a smile, "Ge Dian Lord, can you give me the name of Huayue Dabi?"

The same scenes are staged in the four outer seas, as well as in the inner seas of Qinghai and the white sea.

Storm surging, doomed to sink the moon sea, to change the sky.

Chapter 4058

.....

Ye Chen is sitting in the room practicing. At this time, there is a knock on the door, sensing the breath of people outside the door. A strange color appears in his eyes, but he still stands up, walks to the door and opens the door.

Standing outside the door, is a proud and beautiful woman, it is Xi rong'er.

She looked at Ye Chen, and her eyes actually began to twinkle and said, "Ye Chen, I have a proposal about Huayue Dabi..."

"Proposal?"

Ye Chen eyebrow tip tiny pick, not long ago also said that this time must win oneself, but now also said what proposal?

He didn't understand Xi rong'er's mind.

However, he still made way for Xi rong'er to enter the room and sit down.

After all, they are now nominal relatives.

Ye Chen casually poured a cup of spirit tea for Xi rong'er and asked, "what proposal?"

Xi rong'er is staring at by Ye Chen, and her pretty face is slightly red and she says, "you and I are both competitors of Chihai, and we are also Xi family members. Above this big competition, we should cooperate."

Ye Chen smelled the speech, nodded his head and said, "yes, unless you and I decide the victory or defeat, before that, we can cooperate."

The simplest way to cooperate is not to fight each other. How to cooperate depends on the rules of each project.

He had no intention of targeting Xi rong'er.

After Xi rong'er has finished to find her own purpose, ye Chen is getting ready to see off the guests. But at this time, Xi rong'er suddenly drinks the spirit tea and makes a heavy meal of the tea cup. Her beautiful eyes twinkle at Ye Chen and says, "Ye Chen, give me your message jade symbol mark!"

When ye Chen hears the speech, he can't help being stunned. He looks at Xi rong'er strangely. Everyone's message has a unique mark. If you want to contact each other with the jade symbol, you need to know what the other party's mark is.

Xi rong'er's pretty face instantly flew a red glow, she slightly did not open her eyes and said: "you don't misunderstand me. I'm just for better cooperation between you and me!"

Ye Chen is silent for a moment, but Xi rong'er is nervous, and her heart rate is slightly accelerated.

Finally, ye Chen nodded and threw a jade amulet to Xi rong'er, which was engraved with a mark.

Xi rong'er's beautiful eyes flashed with joy. After taking the jade amulet, he quickly turned around and walked outside. Before going out, he also called out: "Ye Chen, although you and I have cooperated for a while, this time, I must win in the end!"

Ye Chen smiles helplessly, and sits back on the bed again to continue to practice. He breaks through soon, and also needs to stabilize his cultivation.

Two days later, the warship of Guanghan palace in Chihai sailed out of the fierce sea and successfully entered the Black Sea.

On this day, ye Chen also walked out of the room and stood in the bow of the boat. His face moved slightly. The aura of the black sea was more intense than that of the Red Sea!

Soon, a warship came near the Guanghan Hall of Chihai. A soldier in black armor inspected the hall and said with a smile: "welcome to the master of the Red Sea Xidian hall. Please come with me. We are going to prepare to transmit the array and send you directly to the place where the Huayue Dabi is held."

Under the leadership of this soldier, the people soon came to a small island.

The soldier said, "gentlemen, please go to the island to have a rest. This transmission is far away. It will take a day to prepare."

Looking at the island at night, he saw that the island seemed to be specially prepared for the reception of distinguished guests. There stood a magnificent restaurant and inn. But suddenly, his eyes flashed and he saw an equally huge warship. The ship was as white as jade. It was engraved with a strange rune. It was a warship from the white sea!

It seems that the people of the White Sea have arrived here not long ago. They are also waiting on the island for the transmission to be completed.

Xiyun and others boarded the island, whispered to Ye Chen and Xi rong'er: "the people of the white sea are also on this island. You should be careful not to cause trouble."

They nodded and followed the soldier towards the center of the island, a very tall and splendid restaurant.

This restaurant, named jinyuelou, is also very famous in the deep moon sea.

At the moment, a man and a woman are standing in front of the window on the high floor of Jinyue building. Their faces are not very good-looking.

The woman's face is very white and her facial features are delicate. However, she seems to be less angry in her whiteness, and she looks a little dead. At this time, she snorted coldly:

"I don't know what background the boy is, so she temporarily squeezed out Mr. Zhou and got a place to participate in the Huayue university competition? In order to get this quota from us, the Zhou family originally gave us precious treasures. Now, they have to return them. "

The man next to her was quite similar to the woman in appearance. She was also somewhat lifeless. On hearing the speech, he said calmly: "what's more, the boy's attitude towards us is extremely wanton. However, my brother asked us not to provoke him? Well, if it wasn't for the words of my elder brother, I would teach him a good lesson! "

Both of them came from the Xing family, one of the nine royal families. The man's name was Xing Bei, and the female's name was Xing Linghua!Xingbei and xinglinghua are the twins of the dragon and Phoenix. At the same time, they are also the best young generation of the Xing family in the past ten thousand years!

All of a sudden, Xing Linghua's eyes flashed: "eh, it seems that the red sea people are coming."

On hearing the words, Xing Bei sneered and said, "let's go and have a look. Since we can't take the kid out of our breath, let's let these red sea's waste take the place of it!"

When Xing Linghua heard the speech, she also laughed at the cold. The two people's whole body space fluctuated together, and then disappeared from the original place instantly.

Not long after the two disappeared, a figure of a man appeared at the place where they stood. The man looked quite young, one or two years younger than Su Zi. He had white hair, silver eyes and a very delicate appearance. He looked down on the island and murmured:

"listen to Su Zi, the boy whom old Wu liked is in Chihai? Since these two idiots want to challenge the red sea people, they can take this opportunity to feel the weight of this boy. "

Say, disappear again.

.....

After checking in, ye Chen didn't return to his room. He had been practicing for a long time. It's hard to come to this island full of restaurants and shops. It's time to relax and have a good look and taste the Black Sea cuisine.

He was about to step out of the golden moon tower with his feet moving, but at this moment, a woman's voice came from behind him.

"Where are you going?"

Ye Chen looks back, standing behind him is Xi rong'er.

He said with a smile: "stroll around and eat something. I haven't come out to breathe for a long time."

Xi rong'er heard the speech and went to Ye Chen and said, "go together, I'm hungry."

Ye Chen looks at Xi rong'er strangely. When she met on the altar, she still wanted to fight her own death. Now, how can she seem to treat herself

Chapter 4059

Xi rong'er was seen blushing, trying to maintain a cool look: "what do you see, I Can't I eat? "

Ye Chen touched his nose and said, "it's OK. Let's go."

They walked towards the temple side by side. There were many snacks on the island that exuded rich aura. They were all unheard of food, but they did not have much attraction to Ye Chen.

But all of a sudden, Xi rong'er is a footstep. Her beautiful eyes look straight at a certain place, as if she has been hooked.

Ye Chen sees form some curiously along Xi Rong er's sight to see, he slightly a Leng, immediately appeared on the face a touch of smile.

I saw that Xi rong'er is watching a string of crystal clear, emitting seven colors of light and extremely sweet flavor of food.

It seems that this food is made of some kind of red spirit fruit, which is covered with syrup made of various kinds of spirit flowers. The color of syrup solidification forms a seven color sugar coating on the surface of red fruit, which is eye-catching.

In Ye Chen's opinion, this fruit string is quite similar to the ice sugar gourd on the earth. Girls are generally unable to resist this kind of snack.

He glanced at Xi rong'er and saw that her saliva was coming from the edge of cherry lips. He could not help laughing and said, "do you want to eat? I'll buy it for you. "

Xi rong'er seems to be hesitant when she hears the speech. Although she wants to eat it, this kind of snack is usually given to very young children. When she is so old, it is not funny to eat this kind of snack

Ye Chen looks at Xi rong'er's expression, shakes his head, grabs Xi rong'er's wrist, and walks towards the fruit string stall.

Xi rong'er's beautiful eyes flashed a touch of panic, but he lowered his head slightly, without resistance, and let Ye Chen lead him.

Ye Chen said to the boss, "what is this fruit string called?"

The boss, a middle-aged woman, said with a smile: "this is a specialty of the Black Sea. Molasses are the special products of the Black Sea. I picked a hundred kinds of spirit flowers by myself, and then made syrup with nectar, which was poured on the red yuan fruit. It was sweet and delicious. Are you not from the black sea? If you come to the Black Sea, you must try this sugar gourd. "

Ye Chen nodded: "give me two strings."

This fruit string, even the name is similar to the ice sugar gourd.

The woman took two strings of sugar gourd from the plant stick and handed it to Ye Chen. She said, "young man, I have collected so many beautiful flowers, but I have never seen one of them, which is more moving than this girl."

Xi rong'er blushed more thoroughly and was full of shame, but she did not explain it. Even in her beautiful eyes, there was a flash of joy.

Ye Chen is smile way: "boss misunderstood, we are not road partner, he is my sister."

The woman heard the speech, some embarrassed way: "this, is I offended, please don't blame two."

Ye Chen waved his hand at will: "no harm." Then he handed a bunch of sugar gourd to Xi rong'er.

However, Xi rong'er, who seemed to have a happy face just now, is gloomy on her pretty face. There seems to be a storm brewing in her eyes. She looks at Ye Chen with the appearance that someone owes her hundreds of original tools.

Ye Chen's wrist trembles, and is frightened by the Xi rong'er who looks like this. He pulls out from the corner of his mouth and says: "you What's up? Don't you like this? If you don't eat, I'll eat it by myself

Xi rong'er hears the speech and snorts coldly, grabs a bunch of sugar gourd in Ye Chen's hand, and bites down a red fruit fiercely, as if to vent with the sugar gourd on the hand.

Ye Chen can't help but smile bitterly. He doesn't know what he did wrong

At this time, two figures suddenly appeared in front of Ye Chen and Xi rong'er.

Ye Chen's eyes flashed and looked at them. They were a man and a woman. Their skin was white and they were slightly dead. Their pupils contracted slightly. They were both very young. They were over 400 years old, less than 500 years old. However, their breath was not weak!

Moreover, ye Chen used the three methods to remove clouds and found that the real strength of these two people was one point higher than that of Xi rong'er!

Xi rong'er saw the two men and frowned slightly, but he didn't show much unexpected color. He said, "Xingbei, xinglinghua, what are you doing here?"

The people of the nine royal families, as well as the talents in their respective families, are naturally not too strange to each other.

Xing Linghua sneered and said, "what? We are all royal families. We can't meet and have a chat? "

She looked at Ye Chen standing beside Xi rong'er and said, "are you bothering you and your little white face? Hehe, sister rong'er really enjoys it. She is more interested in playing with men than at present. "

Xi rong'er heard the speech, and her beautiful eyes suddenly froze and said, "Xing Linghua, what are you talking about? He's from my family! "

"Xi family?"

On hearing the speech, a touch of surprise flashed in his eyes and said, "how can I not know that there is such a person in the Xijia family. You say that he is a member of the Xi family, so he also comes to participate in the Huayue Dabi?"

Xing Linghua's eyes suddenly brightened and said: "a few days ago, there was a rumor that you Xijia had a boy who came back from the outside and recognized his ancestors. Is that him?"The stone tablet also appeared suddenly and said: "so it is, is this boy?"

Xi rong'er said coldly: "since I know, then, Xing Linghua, you still don't apologize to us?"

Although she had a bit of conflict with Ye Chen on the altar, it was also the affair of their Xi family. Outside, no one could be rude to Ye Chen!

Moreover, even if she put aside her identity, she didn't want Ye Chen to be called a little white face in her heart.

Xing Linghua and Xing Bei look at each other. On her face, there is a sense of irony.

"Sorry? Xi rong'er, do you think highly of yourself? Just because you want me to apologize? Hehe, this boy is called illegitimate son in a good way, and a bastard in a difficult way, do you understand? What qualifications do you have for me to apologize? "

For a moment, the whole island seemed to be silent!

With a roar, Xi rong'er's rhyme rises in an instant. The scenery around her body changes and suddenly appears on a peak. She has a stone sword in her hand. In her beautiful eyes, she is filled with anger. She stares at Xing Linghua, and it is a sword!

She knows that Xing's brother and sister are here for provocation, but now, Xing Linghua's ridicule with Ye Chen's background is really too much!

Xing Linghua's eyes also showed a touch of surprise. She didn't expect that Xi rong'er would be so angry that she could exert her full strength without saying a word?

"She'll come with a quick smile," she said

She had come to fight, Xi rong'er took the initiative to fight with her heart!

Chapter 4060

At the next moment, the powerful Daoyun also roared out of Xingling's huati body, instantly displaying the self-reliance of the two. Their self-reliance collided with each other and turned into a very strange scenery.

I saw that the originally very high mountain suddenly lowered down, the earth was covered with countless cracks, dead trees and white bones everywhere, it looked like hell!

Xing Linghua was dead and strong in an instant. She also had a white bone whip in her hand. When her wrist shook, she waved a whip at a lightning speed!

The whip turned into a white bone dragon and roared towards Xi rong'er!

In the blink of an eye, the bone dragon and the stone sword in the hands of Xi rong'er collide with each other!

With a loud earth shaking sound, the bone dragon dissipated, and Xi rong'er's body was hit back slightly, and there was a whip mark on her pretty face!

After fighting with Xinghua, Linghua's anger disappeared again!

The stone sword in her hand danced and chopped at the bone whip swept by. Their bodies flashed rapidly. In the sky, the swords came and whipped, the fight was inseparable, and the strong waves were

constantly surging. There were cracks on the mountain peaks, and the dead wood and bones on the earth were also constantly turned into powder and dissipated.

Ye Chen stares at the battle between the two men and smiles. Xing Linghua's strength is indeed above xirong'er, but it is also limited!

Xing Linghua's fighting talent is also very good. He manipulated the bone whip to a state of instantaneous change between hardness and softness. With one move in one form, all of them are extremely appropriate, but they can only be regarded as regular!

What about Xi rong'er?

Xi rong'er's body is constantly flashing. The seemingly blunt stone sword is extremely dexterous. Xi rong'er's situation looks extremely dangerous. Every time he fights, he wanders on the edge of defeat. People who don't know think Xi rong'er is completely suppressed by Xing Linghua.

But ye Chen is very clear, now in the battle to occupy the upper hand is Xi rong'er!

Relying on her powerful fighting talent, she has exerted her strength 200% through extremely dangerous fighting methods. Most people have already been defeated by this fighting method. However, Xi rong'er has made it impossible to become possible by relying on her fighting talent!

Although Xing Linghua is better than Xi rong'er in strength, but this gap is completely made up by Xi rong'er's fighting talent!

Xing Linghua's face became more and more ugly. She was obviously stronger than Xi rong'er. Every move seemed to almost defeat Xi rong'er. However, she was perfectly resolved by Xi rong'er in a short time. Gradually, the situation turned around!

Another advantage of strong combat talent is that when the strength gap is not big, you can find out the opponent's moves with incredible speed!

This is what Xi rong'er does!

After she got familiar with Xing Linghua's fighting rhythm, she began to counterattack!

For a moment, Xing Linghua was in a hurry!

All of a sudden, Xi rong'er's eyes flashed, and a huge force burst out of her body. Suddenly, she swung the bone whip away with a sword, and her body rotated. Then she approached Xing Linghua's side with the anti shock force of bone whip and stone sword!

Xing Linghua's face changed slightly. If the giant force was too close, the bone whip would not be able to be used. Although there is no difference between the distance and the near when the martial arts cultivation reaches her level, the attack power of the bone whip will inevitably decrease by one point in the face of the existence of the same level and being approached by others.

However, without waiting for her to open the distance, Xi rong'er's stone sword has been cut in front of her!

Feeling the tremendous power contained in the stone sword, Xing Linghua's beautiful eyes also trembled. As soon as she bit her teeth, her whip shook, she took back her side, and her wrist whipped fiercely. The whip was like a cobra ready to go, aiming at the stone sword and suddenly leaping out!

There was a big bang again. The two of them were full of cracks and were about to reach the limit. But this time, it was Xing Linghua who was attacked and flew!

Xing Linghua's mouth was covered with blood, and three fingers were broken. The power of terror in that sword was transmitted to her hand holding the whip along the bone whip!

Her mouth overflowed with a wisp of blood, breath slightly disordered, barely stopped her body, looking at Xi rong'er, but this time, Xing Linghua's face changed again, her eyes were empty and she could not find Xi rong'er's trace!

Soon, Xing Linghua felt a huge force surging behind her!

There was a look of panic in her eyes!

It's too hard to resist Xi rong'er's sword in her present state!

I'm going to be defeated!

What's more, Xi rong'er didn't mean to keep his hand at the moment. With Xing Linghua's strength, although he would not be killed by this sword, I'm afraid that serious injury is inevitable!

It's also OK at other times. Now I'm injured, but it may affect Huayue Dabi!

She suddenly had some regrets. Why did she have nothing to do to find the red sea people's trouble? The stone tablet also clearly saw this point. His eyes showed a touch of anxiety, and his whole body was agitated. He was actually going to intervene in the battle between the two men!

Feeling the charm of the xinglinghua's stone tablet, Xing Linghua's eyes flashed with joy. At this time, if the stone tablet was used, she would be able to turn defeat into victory in an instant!

Xing Bei looks at Xi rong'er with his back to himself without expression. There is a curved sword in his hand. The dazzling light of the sword breaks out in an instant. When he moves his arm, he will cut the most powerful sword at Xi rong'er!

And Xing Linghua is also adjusting the body shape at the same time!

There was a grim smile on their faces, but they never said they would fight alone!

To blame, it is to blame Xi rong'er, who dare to act rashly in the face of them!

But at this time, a sudden change!

A terrible destruction of Dao Yun came to the heaven in an instant!

Xinglinghua and Xingbei are both pupil shrinking, especially the criminal stele!

Because, what destroyed Daoyun is his stone tablet!

When the stone tablet looked in the direction of Daoyun's coming, a sword light carrying half a black Rune came towards him as fast as lightning!

Not far away, a cool looking young man smiles at him and slowly takes back his hand holding a dark sword. The man who makes the sword is Ye Chen.

A moment of fear from the spirit of the stone!

"Daoyin! It's Daoyin

There was a terrible look in the eyes of Xingbei. How could he have never thought that the boy who had been neglected by himself had become a Taoist seal that should have been mastered by the strong!
