

## Physician 4611

### Chapter 4611

That pair of round and elastic thighs, rubbing Ye Chen's fingers, feeling the extremely exciting touch on the fingertips, ye Chen only felt that his brain was about to be ignited!

He couldn't help but look down a little, this look, pupil instantaneous contraction!

As he poured wine, xuanxuexin was close to himself, and his fingers kept moving towards the inner thigh with xuanxuexin's movement. Almost, he was about to touch the mysterious, shadowy area!

In particular, the gauze that xuanxuexin is wearing is extremely transparent. Under the gauze, the delicate body like white jade is looming. This picture is simply forcing men to commit crimes!

When ye Chen's fingers almost touch the mysterious time, only less than a tenth of an inch away, a very soft female voice is in his ear, to be exact, close to his earlobe, and rings out: "master ye, wine, it's good."

Xuanxue heart exhaled like orchid, the warm breath, sprayed on Ye Chen's ears, and even, a pair of delicate and incomparable vermilion, slightly collided with his earlobe

Ye Chen's heart is a little confused!

But at this time, that incomparably attractive body is suddenly away from ye Chen, Xuan blood heart with a slight smile, sat back to the original position.

Ye Chen gently spits out a mouthful of turbid gas, and forcibly suppresses the fire in his heart. He drinks up the wine in his cup and stares at the beautiful woman in front of him and says, "what's the matter with xuanxianzi?"

Xuanxue heart eyes flash, she did not expect that ye Chen's mood should be so strong, so quickly recovered calm?

A little surprise flashed over her pretty face, and Light dissatisfaction.

Any woman does not like to attract a man, the other side calm too fast, especially like xuanxuexin such a unique presence.

In fact, ye Chen is pinching a sweat in his heart. If xuanxuexin gets closer to him for a breath, he may be impulsive. The woman who can force him to this state has not appeared for a long time. The woman in front of him is very terrible!

Xuanxuexin pursed her lips and said, "originally, I didn't intend to talk to Mr. Ye about business so soon. However, since Mr. Ye is in such a hurry, I'll tell you the truth. Mr. Ye, you've got the ability to transform animals. Do you want to practice it

Ye Chen nodded his head and said, "this skill is useful to me."

Xuanxuexin said with a smile: "then, did Mr. Ye ever think about what to do after taking over the monster?"

Ye Chen smell speech, slightly a Leng, some do not understand the meaning of Xuanxue heart.

Xuanxuexin continued: "Mr. ye should know that, unlike the demon clan, demon beasts only rely on instinct, while powerful demons can only be taken in when they are still in eggs or extremely young, unless there are special means."

Ye Chen looks suddenly move, seem to think of what, can't help frowning.

There have been gods in reincarnation tombs, and they are proficient in taking over monsters. But I'm afraid that the strength of the God can't take over the level of monsters they need now.

Xuanxuexin saw this and said with a smile: "even if the newly born monster has great potential, it will take time to grow up. I don't think Mr. Ye wants to spend so long waiting for the growth of the monster?"

Ye Chen stares at Xuan Xue Xin Dao: "is it possible that the blood heart fairy has a way?"

Xuanxuexin nodded his head and said: "do you know, where is the most powerful place of TIANYAO's blood?"

Ye Chen smell speech, some doubt way: "vitality?"

For ye Chen, it is vitality.

However, xuanxuexin shook his head and said: "the heavenly demon blood can indeed bring extremely strong physique, vitality and so on, but in fact, it is not so!"

With that, she turned her wrist and a red rope appeared in her hand!

Ye Chen's eyes flashed: "what is this?"

Xuanxue heart way: "this thing, is called the day demon God rope!"

"TIANYAO Shensuo"!!!! Damn it

Ye Chen smelled the speech, and her eyes trembled.

Isn't that the name of the magic power that he understood?

Xuanxuexin said strangely, "Mr. Ye, do you recognize this treasure?"

TIANYAO Shensuo only exists in the hands of Saint TIANYAO clan, and it can be regarded as a treasure, because the method of making TIANYAO Shensuo has been lost, and the remaining TIANYAO Shensuo is handed down from Archaean or Honghuang times.

Ye Chen shook his head and said: "blood heart fairy, please continue to say."

Xuanxue said: "this day, the demon God rope has two functions. One is to trap the enemy and limit the enemy and himself in the same space

However, the second is the main effect of the God rope, and only those who have the blood of the demon can use it!

That is to subdue the monster

"What?"

Ye Chen can't help but feel the shock of his face!

Ye Chen is no stranger to demons. In addition to the skills used to control the spirits of beasts, some clans of the Terran family also have means to subdue them. However, they only aim at some weak or young monsters, and then start to cultivate them! And really powerful, adult monster is very difficult to accept!

You can hear the meaning of xuanxuexin. It seems that the demon God rope can subdue any monster!

This is horrible!

Xuanxuexin said seriously: "the blood of the heavenly demon is the blood of the ancestor of the demons, and has been the king of the demons since the famine!

Whether it's the demon family with intelligence or the monster without intelligence, they should be subject to it! This is the most powerful place of the heavenly demon blood! "

Ye Chen took a deep breath and said, "is it true that there are no restrictions on this day

If so, directly subdue a powerful monster, even if there is no beast magic power is invincible!

Xuanxue said: "of course not. The God rope of the heavenly demon is also divided into different grades. There are also differences in the monsters that can be taken over by the divine rope of different grades.

Shensuo can be divided into four grades: xuanhuang and xuanhuang. Now, Tianjie Shensuo is basically extinct. Dijie Shensuo is the most precious among the treasures, and what I have in my hand is a xuanjie Shensuo.

It is said that the heaven level divine rope can take over the legendary monsters in the realm above the Huanzhen realm, while the earth level can take over the monsters at the peak of the Huanzhen realm, while the xuanjie Shensuo can only subdue the monsters from the heaven and earth realm and the origin realm. "

Ye Chen smell speech, eyes flash, staring at the God rope did not speak.

Xuanxuexin said with a smile: "if you want to subdue the monster, the demon God rope is a must-have thing on this day. Do you have any interest in it?"

Ye Chen nodded and said, "what should I pay?"

Xuanxuexin said with a smile: "don't worry first. Mr. Ye will follow me."

Say, then stand up, take ye Chen to walk toward the door.

Soon, ye Chen and Xuan blood heart then entered a small room, this small room is empty.

Ye Chen is a little puzzled. What does xuanxuexin bring him here?

Xuanxuexin suddenly made a decision, and an array lit up in the room.

There is a transmission array hidden here!

Chapter 4612

They step into the array, and when they open their eyes again, they are already in the deep underground.

Here, it's also a secret room, but it's big!

But before ye Chen's eyes, there is a small pool, the pool water is colorful, and in the pool water is placed a monster egg!

Ye Chen eyebrow tip a pick way: "this is..."

Xuanxue said: "childe ye, TIANYAO Shensuo can subdue powerful monsters, but this method of forcibly accepting them can't be refined into demons of their own life unless it's Tianjie Shensuo. Therefore, this kind of demon beasts can only be cultivated with their young or eggs."

Ye Chen's eyes flash slightly. It takes too long to cultivate monsters.

Xuanxuexin said with a smile: "I know what you think, but this pool is called the demon pool, which is used to cultivate the eggs of monsters. It can accelerate the growth of monsters. The stronger the potential of monsters, the stronger they will be when they are born! Moreover, the high-level demon pool basically has no side effects, just accelerates the growth!

Even, some monsters of unique blood, once born, can have the real environment strength!

This is why the Yanghuo Tianjiao of xuanqu can reach its true state in a short time of 100 years. However, the demon pool he uses and the grade of my demon pool are one day and one earth! "

Ye Chen smell speech, eyes big bright, heart!

Xuanxue heart sees this, stares at Ye Chen and says: "Ye childe, I can cultivate a monster egg for you, and sell you a heavenly demon magic rope, the price is 15 million demon crystal, and the black market business that xuanqu gives you."

Ye Chen smell speech, eyes flash, Xuan blood heart, this is the lion big mouth!

As soon as he opens his mouth, he will have to take all his assets from xuanqu!

However, for ye Chen, it is worth it. After all, he will not stay in the holy city. The black market business of Spirit Crystal and holy city is of no use to him.

However, ye Chen still shook his head and said, "no way."

No way?

Xuanxue heart slightly frown, she did not expect, ye Chen will refuse.

Although, she is a lion big mouth, but, in fact, she gave the price is not excessive, even can say very preferential!

If change a person, give the same price, Xuan blood heart won't agree!

But ye Chen refused?

In fact, this transaction is also a test of xuanxuexin to Ye Chen

Test what?

In xuanxuexin's opinion, ye Chen's qualifications and temperament are all the best among the best. Therefore, she has the heart to make friends with her. In fact, it seems that ye Chen is the one who takes advantage of her!

And now, what she tests is Ye Chen's vision!

A martial arts person who has a lot of talent and heart, if he has no vision, his future achievements will not be too high

If ye Chen really lacks vision, xuanxuexin may not consider continuing to make friends with Ye Chen.

For a moment, the complexion of Xuanxue heart became colder and colder.

At this time, ye Chen is open: "14 million goblin crystal, black market business, most can give you, but, to leave a shop."

Xuanxue heart hears the speech, slightly a Leng, then, poop Yi a smile to come out.

What is Ye Chen doing?

Want to bargain?

People of her level do business, but there is no bargaining.

What's more, ye Chen doesn't cut much, does he care about this little interest?

Xuanxuexin stares at Ye Chen's eyes, and is curious. Her intuition tells her that ye Chen is not a person who cares about everything.

Therefore, Xuan Xuexin asked: "this one million goblin crystal and a shop are so important to Ye Gongzi?"

Ye Chen seriously said: "in fact, I know it's me who takes advantage of it, but I still want to leave a million goblin crystal and a shop, because I want to give the Red Star holy land a foothold in the holy city!"

Ye Chen knows that the Red Star holy land can't be retained because of its current strength. A million goblin crystal, a shop, and the remaining materials of xuanqu are enough for the Red Star holy land to develop in the holy city.

Ye Chen's character has always been a drop of water's grace. The spring is reported to him. Red Star holy land has lent him the sky fire eagle. Although Gu Xuan has been rescued, there is no substantial help for him, but ye Chen will not forget.

Help if you can.

Xuan blood heart beautiful eyes move, smile way: "good, I agree."

She prefers Ye Chen's clear-cut character of gratitude and resentment rather than dealing with those who seek profits only. Even if she loses a little at the moment, Xuan Xuexin believes that in the long run, she will definitely benefit herself!

Ye Chen is worth her investment!

Ye Chen solemnly said, "thank you very much."

After that, he handed the storage bag to xuanxuexin, and left a note with his own divinity mark. With this note, xuanxuexin would collect shops from xuanqu.

In fact, if xuanxuexin really wants to grab it, it is not a problem to take over the whole black market. However, as a saint TIANYAO clan, it is impossible to do so. Therefore, it can only be obtained by proper means. Xuanxuexin, however, gave Ye Chen the root of TIANYAO God rope, and taught Ye Chen a section of Dharma!

A period of time, manipulate the God rope of the heavenly demon, subdue the law of the monster beast!

After that, a moment of ecstasy appeared!

In fact, what he really needs is not the demon God rope, but this section of Dharma!

Ye Chen can be sure that with this section of Dharma, he can subdue the monster through the supernatural power brought by his heavenly demon blood!

Just do not know, he changes with the supernatural power of the God rope is what grade.

After that, xuanxuexin seems to want to leave Ye Chen to drink, but ye Chen refuses

Drink it again, I really don't know what will happen. Although Xuanxue heart is beautiful and enchanting to the extreme, ye Chen is not so casual. Even if he is fond of xuanya at most, he risks to save her mainly to repay the Red Star demon family and a little responsibility brought by his unintentional loss.

Soon, ye Chen left the bloody heart battlefield and returned to Xuanyuan's mansion, leaving the holy city with xuanya and xuanxi.

After a flash of light, ye Chen three people appeared in the Red Star Holy Land patriarch wooden house underground.

As soon as the three returned, they heard a burst of drinking: "get out of my way. I'm going to fight with the guy in holy day city!"

A Xuanyao people advised: "patriarch, you haven't recovered completely now. Don't be impulsive..."

The three men had a look and a flash of body, and they came to the wooden house.

Xuankun, who was arguing with a young man, saw the three figures. He was stunned. Then, his turbid eyes turned red. He said happily: "ya girl, you You're back

He heard from his people that ye Chen and xuanxi went to Shengtian city to save xuanya from poverty. However, he never thought that ye Chen could succeed!

Xuankun knows better than anyone how difficult it is to do it!

Chapter 4613

Xuanya is also beautiful eyes pan red way: "grandfather, ya'er unfilial, let you worry."

Xuankun said with a smile: "just come back, just come back!"

Suddenly, he turned his head and gazed at Ye Chen, and said with great sincerity: "boy, old man..."

Ye Chen, however, interrupted with a smile: "don't say much. I remember that old Kun once said that I was already a member of Xuanyao clan."

Xuankun was stunned, then burst out laughing: "good boy, good boy!"

Originally, Xuanyao people thought that it was a great honor for foreign people to join their own clan. But now it seems that it is lucky for Red Star demon clan to let Ye Chen join!

Later, ye Chen gave a storage bag to xuankun and said, "old Kun, there are one million goblin crystals in the bag, as well as some materials. I also got a shop in the black market of holy city. After that, the Red Star demon clan has a foothold in the holy city. You can take some excellent people to the holy city for development."

Xuankun smell speech, silly, really stupid!

Originally, he thought it was a miracle that ye Chen could save xuanya, but unexpectedly, he also brought a chance to turn around for the Red Star demon clan!!!

This is the thing that xuankun has been dreaming of, but has never done!

Xuankun took a deep breath and yelled: "inform the whole village to hold a celebration!"

The Xuanyao youth, who had taken care of xuankun, came back from the shock and immediately cheered and ran out of the door to convey the good news to all the villagers!

For a time, the whole Xuanyao clan was boiling!

Ye Chen is their real hero!

This night, people around the campfire, drinking and eating meat, extremely happy!

After half of the celebration, xuankun handed a cup of wine to Ye Chen and said, "boy, follow me."

Ye Chen looks moved. He remembers that xuankun once told him that he had something to give him.

Under the leadership of xuankun, they walked toward the mountain, and soon came to a valley covered by thick fog.

Xuankun drank the wine in his cup and said, "boy, long ago, my red star demon clan was the first of the seven stars, even surpassing the existence of the sun and moon. But do you know why we ended up in this field now?"

Ye Chen slightly startled a way: "why?"

In xuankun's eyes, there was a lonely color in xuankun's eyes. Instead of answering directly, he said: "among the Red Star holy land, there has been a secret place inherited from the ancient times! And this secret place is behind the thick fog

Ye Chen hears the speech, looks at that piece of vision, in the eye God awn big Sheng!

Xuankun said: "in this secret place, there is great opportunity, but it is also extremely dangerous."

Said, he took out a black stone and handed it to Ye Chen.

Ye Chen took the stone, and his heart leaped!

In this stone, there is a kind of breath which is very similar to the sky demon!

Xuankun said: "this is what I want to give you, and it is also the proof to enter this secret place."

He looked at Ye Chen very seriously and said: "one of the missions of the clan leader is to give this certificate to the person who won the first rank of demon God column! Because only the first ranked one has the qualification to enter this secret place. As for whether to enter the secret place, it is up to you to decide... "

Ye Chen hears the speech, in the eye flashed a joyful color!

But at this time, xuankun suddenly pressed a hand on Ye Chen's shoulder and said, "Ye Chen, I know that your qualifications are against the heaven, but I still hope you can consider carefully!

The reason why my red star holy land has declined is that after the demons of all ages chose to enter this secret place, only the black stones came back. None of them survived!

This secret place, not only did not bring us the opportunity of rising red star holy land, on the contrary, it was a fierce place, and the culprit of our family's decline!

So, to tell you the truth, I don't want you to challenge this secret place! "

Ye Chen is already excellent, better than xuanqu. Give him time, he must be able to stand on the top of Xuanyao clan. He doesn't need to take any risks!

Ye Chen smell speech, silent, but after a moment, he is gently took down xuankun's hand.

Xuankun's face changed slightly.

Ye Chen said: "thank you for reminding me, but I still intend to challenge this secret place!"

There is no other reason, he is now, the most lack of time!

There are too many people waiting for him. The responsibility on his shoulder is too heavy!

He doesn't want to be oppressed by Emperor Shitian and Xuanji moon!

His enemies are not these two people, but the mysterious and invincible wanxu temple!!!

This way, too difficult!

All the reincarnation masters of previous lives should be arranged by falling down!

In this life, he is the only chance!

Xuankun gave a fierce look in his eyes, but he sighed: "boy, you must come back alive. You must remember that the whole red star demon family is waiting for you..."

Ye Chen heavy key head way: "yes!" Xuankun patted him on the shoulder, then turned and walked outside, singing the old battle song of Red Star demon clan.

The war song that praises the heroes of Xuanyao family, known as the king of Xuandi.

In this melodious song, ye Chen turned around, clenched the black stone, and walked towards the rich.

Singing, far away, and ye Chen's figure also disappeared in the eternal fog.

As soon as Fang entered the fog, ye Chen felt a repulsive force, which was extremely terrifying. Even with his strength, he could not resist!

At this time, the black light of the stone in his hand flashed. Ye Chen only felt that the blood of the heavenly demon in his body vibrated for a moment, and then, the strength dissipated.

His eyes twinkled, it seems that there are two conditions for him to enter this secret place: first, he has black stones; second, he has the blood of the heavenly demon.

Ye Chen kept walking in the thick fog, but soon, he was frowning slightly. The thick fog was endless, no matter how he went, he couldn't go out?

However, ye Chen is quite indifferent. He knows that this is the first test.

The test is his disposition.

He calmed down and went on, and straight ahead!

.....

Time, I do not know how long, in Ye Chen's consciousness, he seems to have gone through countless time, at the beginning, he was also anxious, irritable, restless

Because, he needs time!

How can I be trapped in this white fog for so long?

However, he soon came to his senses. Every time the Xuanyao people failed in the trial, the stone would return to the demon God column by itself. It was impossible. It was only once in countless years?

Therefore, the time velocity in the white fog is absolutely different from that in reality!

It sounds strange, but it is the most reasonable explanation!

Want to understand, ye Chen then abandoned miscellaneous thoughts straight forward!

If ordinary people, even thinking of this point, I am afraid that they will also be hesitant, not sure the direction of their own, in the end, will choose to turn back, turn and so on!

Chapter 4614

However, ye Chen, who has the Taoist heart of Wuzu, is very clear that for the warrior, only advance!

This is the confirmation of his heart!

Ye Chen walked forward, to the beginning to the end, the steps are along a straight line, there is no slightest deviation!

His state of mind has already reached the point of calm, and time has lost its meaning for him!

At this time, the light in front of Ye Chen is bright, after the white fog, something appears faintly!

But even so, ye Chen's mood still did not have any fluctuation, calmly walked out of this piece of white fog.

At the moment of leaving the white fog, ye Chen only felt dizzy, as if he had walked out of the alien world. He looked at his eyes, but his pupils suddenly contracted!

What appeared in front of him?

I saw, at the moment of Ye Chen, unexpectedly came to a huge blood pool before!

And at the edge of the blood pool, there are stone tablets, which look like tombstones!

On the tombstone, there are names and several names. Ye Chen has seen it on the demon God column!

Those who have set a new record of the demon God column!

Under their names, there is also a number, each of which is different, but none of them is more than 10000!

What does that mean?

At this time, a voice that can't distinguish between men and women suddenly rings out in Ye Chen's mind: "here, called Xuanyao pool, is the holy land created by our Xuanyao ancestor to enhance the blood power of future generations. The younger generation, entering the Xuanyao pool and absorbing the blood in the Xuanyao pool, can absorb the blood. How much can you absorb? It determines that you melt in the Xuanyao pool and become a part of the blood And still has the incomparable blood of the demon God. "

Ye Chen is slightly surprised, he can't feel the source of the sound, but it seems that it is not the embodiment of the spirit!

The voice ignored Ye Chen's reaction and went on: "the blood in the Xuanyao pool is 23.69 million Jin in total. If it consumes less than 10 thousand jin of blood, you will be integrated into the blood pool, and your body and spirit will be destroyed.

If you swallow up to 10000 kg of blood, if it is less than 100000 kg, your heavenly demon blood will be deprived, and even your accomplishments will be dissipated. The foundation of martial arts will be damaged and it will be difficult to practice in your whole life.

If the amount of blood consumed reaches 100000 Jin, less than one million jin, you can leave safely and get the benefits of blood and water.

If the amount of blood consumed reaches one million catties, if it is less than 10 million jin, you can not only leave safely and get the benefits brought by blood and water, but also get a treasure given by my ancestors.

If the amount of blood consumed reaches 10 million jin, if it is less than 20 million jin, you can also get an extra original blood essence reward from my ancestor

At this point, the voice died down.

When ye Chen heard the speech, his eyes flashed slightly: "Xuanyao ancestor? Who is it? "

He didn't know who the ancestor of Xuanyao was, and the value of the original blood essence was not easy to judge.

The voice was silent for a moment, and seemed speechless. Then he said, "do you know, the ancestor of the demon family was the heavenly demon? But in fact, the heavenly demon is not one person, but four people, known as heaven, earth, Xuan, Huang, I am the third largest Xuanyao ancestor! Among them, that ranked the first day demon, the most powerful blood, so, just in his name, collectively known as our four ancestors!

And I have been studying how to create a demon family blood beyond the sky demon all my life. The whole Xuanyao clan is my experiment!

Even the trace of the blood of the God demon in your body is made according to the method I used to leave unintentionally. Now, you should know who I am

Even if it was Ye Chen, after hearing the speech, he could not help but take a breath of cool air!

This is the existence that can be compared with the demon of heaven!?

What's more, the blood of the heavenly demon is imitated by the method it left behind?

Originally, ye Chen wondered how Lingwu land and Shenguo could create the heavenly demon blood? Now, he understands!

And this Xuan demon pool, I'm afraid, is the advanced version of that demon clan Holy Land!

Even to the heart of Ye Chen, are greatly impacted!

That voice some impatient way: "boy, still don't enter Xuan demon pool?"

For a moment, ye Chen was excited!

If Xuanyao is really like what he said, then the effect of its original blood essence must be against the heaven!

However, ye Chen did not immediately enter, but asked: "ancestor, if I will swallow this blood pool empty?"

Xuanyao ancestor was silent for a moment and said, "you can't do it. No one can do it."

Ye Chen smell speech, but did not give up, continued: "everything is possible."

If it's like this, you can make it with Xuanfu

"What is xuanlingzhu?" Ye Chen asked

However, this time, Xuanyao Laozu didn't pay attention to him any more, and fell silent.

Xuanhan jade, who had not opened his mouth for a long time, suddenly said, "Ye Chen, no matter what the xuanlingzhu is, what can make this blood pool must be the most precious treasure!" Ye Chen smell speech, nodded, immediately, toward that Xuan demon pool to go!

His eyes twinkled with dazzling light. He did not like to suffer losses. Since he had the opportunity to come to this secret place, he would get all the benefits!

Although, this seems almost impossible, did not see those monsters with terrifying qualifications not even absorbed 10000 kg of blood and could not bear it?

However, ye Chen is not afraid of it, the mood has not been shaken at all!

Wuzu's heart is tough and unyielding!

Soon, ye Chen will enter the blood pool, in an instant, the rolling blood will be crazy toward him!

Boom, ye Chen's body is like a bottomless abyss, constantly devouring these blood.

It has to be said that ye Chen's physique is really extraordinary and refined. For those demons of Xuanyao clan, ye Chen easily broke through 10000 kg of blood!

First of all, life is saved.

Even, he did not have the slightest worry, on the contrary, he showed great joy!

After the blood entered the body, it was instantly refined into a trace of pure heavenly demon blood. The blood of ten thousand catties made his TIANYAO blood strengthen by nearly one tenth!

Moreover, ye Chen has no pressure at all, and now the speed of blood influx is not even comparable to his refining speed!

That Xuanyao ancestor is light Yi, seems to be a little surprised, but more excited!

Half an hour later, ye Chen is already close to the edge of 100000 Jin of blood!

At this time, ye Chen finally felt the pressure, but only a trace, 100000 kg of blood is a successful breakthrough!

Now, ye Chen's blood of the heavenly demon in his body has been twice as strong!

However, his look gradually dignified up, because, although the pressure is not big now, but in accordance with this situation development, let alone all absorption, he is even difficult to adhere to the level of ten million jin!

Chapter 4615

One day and one night later, there was a roar in the Xuanyao pool. At the moment, ye Chen was swollen all over his body, and his meridians were shining with blood color. It seemed that he was going to be burst!

Now, ye Chen's refining speed has been somewhat unable to catch up with the blood vessels accumulated in the body, and began to riot!

But, under Ye Chen's roar, still suppressed this blood vein!

And ye Chen, after suppressing this blood, also successfully broke through the million jin level!

At this time, the Xuanyao pool suddenly calmed down.

Xuanyao ancestor said: "boy, you are the first person to break through the level of one million catties in so many years. I'm very surprised. Your talent is really good. Now I'll give you a choice. Do you want to continue to challenge or leave.

I can tell you clearly, continue to challenge, you will die!

Even my ancestors can't stop the operation of this blood pool before it reaches 10 million levels. Therefore, you don't even have the chance to repent. "

Ye Chen hears the speech, his eyes fluctuate violently, and the embarrassment of Tu Sheng assembly makes him hold his breath!

He hates that his strength is not enough!

After a few breaths, he said, "I'm willing to continue to challenge."

Xuanyao ancestor was silent, and Xuanyao pool continued to operate!

On the one hand, he was in severe pain, almost tearing up Ye Chen's body! The speed of the influx of blood is too fast!

Can, ye Chen has long been accustomed to pain, his eyes deep coagulation, quietly refining the influx of blood!

Two million catties, go!

Three million catties, go!

Four million catties, go!

Within 12 hours, ye Chen even exceeded 3 million jin!

However, his whole body is also full of holes!

If it wasn't for the vitality and reincarnation of incomparable adversity, it would have been unable to support, and would have been burst by the blood

To five million jin, ye Chen is extremely reluctant!

But still!

The sixth million catties is the real test of Ye Chen!

The one million catties, which were more than the five million catties in front, were unbearable to him!

Ye Chen is biting his teeth, squeezing out the last trace of vitality in his body, holding on, and finally breaking through!

However, seven million Jin has reached the limit of Ye Chen

Ye Chen seems to be really unable to hold on to it any longer. The ancestor of Xuanyao seems to have uttered a sigh. The miracle did not appear

But at this time, a very strong dragon nationality breath suddenly burst from ye Chen's body!

Ye Chen's vitality has been improved by leaps and bounds!

He has been in Xuanyao pool for so many days, Shuo Lao's strength has been restored!

Under the blessing of Shuo Lao, ye Chen is like a madman, carrying the blood and water, destroying his body, swallowing and swallowing again!

I don't know how long it passed. Three million catties of blood were finally swallowed up!

Ye Chen successfully broke through the level of ten million jin!

And the power of old Shuo also began to dissipate rapidly!

At this time, the Xuanyao pool stopped again!

Xuanyao Laozu said: "boy, you have done well and have reached the limit I expected! Now, have you run out of cards? You should also understand that it is impossible to continue to challenge. Stop it, tens of millions of levels, and you will get enough benefits! "

The ancestor of Xuanyao has been studying ways to surpass the blood of the heavenly demon, and ye Chen is a unique experimental body. He doesn't want such a good experimental body to fall away!

Who knows how many years it will take to find another one?

Even ye Chen is a light breath, ready to leave the blood pool.

Wuzu Daoxin dare to challenge, but it is not suicide.

He even used Shuo Lao's strength, only to barely reach the level of ten million. If he continues to swallow it down, he will surely die.

Ye Chen body shape move, then want to stand up, but at this time, his mind is suddenly sounded a voice!

After hearing this sound, ye Chen is a stiff body.

A moment later, ye Chen was sitting back in the blood pool again and said, "please go on, ancestor."

"What!"

This time, even Xuanyao ancestors are a little silly!

He couldn't help yelling: "boy, are you crazy? continue? This time, you really have to swallow up a pool of blood before you can leave. Before the blood runs out, my ancestors can't stop it. In this way, you still have to challenge? "

Ye Chen looks calm: "I want to challenge."

Xuanyao ancestor is silent, but he can't refuse ye Chen

Because, his original intention of designing this Xuanyao pool is to let future generations break through the limit. Only by breaking through the limit and creating the impossible possibility, can he have the chance to surpass the blood of the demon that day!

However, even in his eyes, ye Chen's breakthrough is a little too much!

After a moment, Xuanyao pool finally started to work! This time, ye Chen felt the infinite pressure in an instant. The blood of the heavenly demon that could be contained in his body was about to reach the limit!

These continued influx of blood, can only, destroy his meridians!

Seeing this scene, the ancestor of Xuanyao was almost sure that ye Chen was dead.

But, I don't know why, even so, ye Chen's face is calm!

Suddenly, ye Chen's chest, a mark of light flash!

Inexplicable breath, surging in Ye Chen's body, the voice that just appeared sounded in his mind again: "ha ha ha ha, Xuan demon this guy, still hasn't changed, unexpectedly, is still making these messy things?

With this, you can't surpass your own blood, but it's quite effective for you. "

The speaker is the demon of that day!

I don't know if it is because ye Chen's TIANYAO blood is greatly strengthened. Now, although the TIANYAO can't take over his property, it seems that he can communicate with him directly!

And the reason why Ye Chen suddenly stopped is because the demon told him that there is a way to help him absorb all the blood!

Of course, under normal circumstances, ye Chen will never trust the demon!

But xuanhanyu suddenly said: "Ye Chen, listen to him. Last time, the demon saved you. I guess his attitude towards you has changed. At least, it is better for him to live for a while than to die!

And in this blood pool, the demon can't take advantage of it. If it kills you, he can't occupy your body and so on

Ye Chen hears the speech, after pondering for a moment, still accepted the help of the day demon.

Wealth insurance in the pursuit!

Although I don't know what kind of abacus the demon plays, but when it's good, you should take it!

When the Xuanyao ancestor thought that ye Chen would surely die, the boiling blood suddenly rushed to Ye Chen's chest, which was refined at an incredible speed!

And ye Chen body's Day demon breath is also more and more powerful up!

At this time, Xuanyao ancestor seems to have found something and exclaimed: "boy, how can you have that guy's mark on you?"

Chapter 4616

When his voice dropped, the whole blood pool was also devoured by it!

Ye Chen looked down. At the moment, the sky demon mark on his chest was as red as blood, but he was still under the seal's suppression and was slightly relieved.

The blood that enters the mark is instantly refined into a pure heavenly demon blood, which is integrated into Ye Chen's body!

Ye Chen depends on his own phagocytosis, is basically the limit, because he can only do the power of blood into the blood!

However, with the help of the heavenly demon, this blood vessel has completely transformed into every cell in the body, no matter the skeleton, meridians and muscles, all have undergone qualitative changes!

This time, the demon did not pit him!

Ye Chen did not answer Xuanyao ancestor, but said with a smile: "ancestor, I passed the test, reward?"

Xuanyao ancestor suddenly had a feeling of eating shriveled!

It's like being played by the demon!

He suddenly said in a deep voice: "boy, the demon is not a good thing. Now, you have swallowed the blood pool of my side, which is also half of my ancestor's descendant. In order to ensure your safety, I also want to leave a mark on you!"

He always had a feeling that if he didn't give ye Chen a mark, he would have suffered a loss!

Moreover, no matter what the reason is, ye Chen is the only one who devours all the blood and water. He is the most hopeful person to surpass the blood of the demon. He doesn't want to see that in the end, ye Chen is eaten by the sky demon, and he makes a wedding dress for others, which is cheap for the tiandemon guy!

If you want to eat, you have to eat yourself!

Ye Chen is slightly stunned. Before he reacts, a powerful, seemingly chaotic and indescribable breath falls on him. Ye Chen only feels the elixir field, a burst of pain, and a mark marks it!

However, this mark is a little weaker than that of the demon.

Ye Chen, for a while, his face was a little ugly

It's not enough to be watched by a supreme being of the universe. Now it's two!?

As for what protects his safety, ye Chen does not believe a word!

Soon, there was another flash of light, and three objects appeared in front of him.

One is a kind of blood red, similar to gauze!

One is a continuous flow of dark blood!

The last one is a black, black, lusterless Pearl!

Xuanyao ancestor said: "the first treasure, named huaxue shensha, is a treasure of Xuantian Lingbao! After refining it, it will be completely integrated into your body. When you are hurt, you can take the initiative to defend and reduce the damage. However, its biggest feature is to increase the power with the improvement of your strength. With your current strength, it should be unstable

However, it is basically immune to the damage caused to you by warriors in the real situation!

It can also reduce part of the damage of the warrior in the real world. However, this is uncertain. Because of your strength, sometimes it will lose its effect. "

Of course, ye Chen was excited when he heard the speech!

My eyes are shining!

Even if it is accidental!

But this first treasure is the most precious among the treasures!

If he had this treasure, he would not need to rely on Shuo Lao's power to face the beast extermination of xuanqu again!

Of course, don't let it fail.

Xuanyao Laozu continued: "the second thing is, naturally, the original blood essence of my ancestor. Your little boy's constitution is very special, which seems to have something to do with reincarnation. However, don't think that my blood essence can be directly swallowed like any other non flowing treasures. Even if you have absorbed 20 million kilograms of blood, it can only be refined to one thousandth . "

Hearing this, ye Chen can't help feeling a little lost

That Xuan demon ancestor cold hum a way: "boy, don't underestimate this one thousandth of blood essence, enough to make your strength up several times."

Ye Chen looks moved!

He swallowed 23.69 million jin of blood, and his strength has been greatly improved!

Whether it is physical strength, vitality, physical strength and so on, it is a qualitative change ah!

At the same time, he has the most powerful spirit power in his body!

Now, he still has the confidence to defeat the strong one day!

If, how many times more?

Then, even if it is true that the three layers of heaven exist, it is not his opponent!

Xuanyao ancestor continued: "as for this Xuanling pearl, I can only tell you that this is the most precious treasure among the treasures. However, you can't use it now. If you want to use this Xuanling bead, your accomplishments will at least be superior to the real world."

With that, Xuanyao's ancestor seemed a little tired and said, "go out, boy, don't trust the demon that guy!"

Leave a mark on Ye Chen's body, consumed his not small strength, soon, here then is silent. Ye Chen faintly can feel that the idea of Xuanyao ancestor is no longer here.

However, he did not leave immediately, but sat down and began to refine the blood god yarn!

The reason why he immediately refined the blood god yarn was to know how much the blood god yarn could be strengthened after his strength was improved!

Three days later, a bloody light, swimming on the surface of Ye Chen, completely integrated into his skin, very strange!

Ye Chen opened his eyes, the light in his eyes was brilliant and successful!

When he turned his wrist, the evil sword appeared in his hand and cut it off with a sword!

"I don't believe it. If I use it for the first time, I'll be out of order!"

The light of the sword is sharp and the great force is galloping. This sword has at least half the strength of the real situation!

With a roar, the long sword was cut on his arm, but a strange red light flashed on Ye Chen's skin. The sword was cut on it, and there was no trace left!

Ye Chen didn't get any damage!

Even if expected the result, ye Chen's eyes or emerged a touch of shock color!

Then, he looked at the original blood essence of the mysterious demon ancestor!

Ye Chen opened his mouth, directly swallowed the original blood essence into his mouth, and carefully sent it into the elixir field. He took out one thousandth of it and began to refine it!

At the next moment, with a roar, a pure black flame transformed by the evil spirit enveloped Ye Chen. Ye Chen's face changed wildly. It was only one thousandth of the drop of blood essence. It was even more unbearable than the blood of tens of millions!

Fortunately, today's Ye Chen, vitality and other aspects are also a great progress!

With the burning of the flame, ye Chen has been refined to the extreme of the body, but there are impurities out!

Ye Chen's nearly perfect body is evolving towards a higher level!

Even reincarnation blood also strengthened a few points!!!

Chapter 4617

Shuo Lao and Xuanhan jade are both incredibly excited. The impurity from ye Chen's body is not black, but pale gold. Even this impurity is not the same concept as the impurity in ordinary warrior's body!

In the Honghuang and Archean times, the demon clan with terrible natural resources would choose the path of becoming a saint in the flesh and practice to the extreme level. Every move is accompanied by the road. Breathing can become a strong wind, roaring can be called thunder. Even heart beating can cause a big earthquake!

However, even in that era of heroes, it is rare to be able to step into this threshold! It is not comparable to today's physical training!

What is the threshold of sanctification?

Nowadays, there are almost no detailed records and have been forgotten. Only by the existence of Shuo Lao and xuanhanyu, can we have some understanding of this!

There is a description of the threshold that countless practitioners of the flesh are eager to cross.

That is, the body sloughing over Venus!

When the body is free of impurities and reaches the truly extraordinary state, there will be powder like Venus falling down!

This is the beginning of real transformation!

And ye Chen broke through to this realm in one fell swoop under the power of this mysterious demon ancestor's original blood essence!

Although, ye Chen still has a long way to go before he becomes a saint in the flesh. However, his physical state is not the same as that of ordinary human beings and demon families!

This black demon flame can not be burned out. It has been burning for 19 days!

In the past 19 days, ye Chen has been wandering on the edge of life and death from the very beginning. He is extremely painful. Several times, he is almost burned to ashes by the demonic flame of the original blood essence. Fortunately, ye Chen has survived!

Now, the breath of Ye Chen is incomparably stable, and the evil spirit is even more terrible to unimaginable!

This is not some imitation of the blood of heaven demon, but the blood of Xuan demon, one of the four real demon ancestors!

Although, only one thousandth of a drop of blood is enough terror!

The Demon power in his body surged to the extreme, which coincided with the spiritual power in the Dantian. The two kinds of energy converged into a more concise energy!

Ye Chen's spiritual power is several times stronger than that of ordinary warriors. Now it is integrated into the Demon power. The two forces compress each other, and almost all of them have to be transformed into essence in the Dantian!

And his cultivation also needs to break through to heaven and earth!

Only a tiny difference, you can break through heaven and earth!

At this time, the black flame of Ye Chen's whole body suddenly converges, and a very mysterious breath is surging out!

Ye Chen suddenly opened his eyes, and the divine awn in his eyes almost penetrated the space. At the moment when he completely absorbed the blood essence of Xuanyao, ye Chen's breath changed completely!

Before refining the blood essence, he plundered the original breath of many warriors by devouring the soul and connecting the sky. Although the original flavor was melted into the burning sky because of the change of burning the sky, ordinary people can't feel it. However, in fact, ye Chen's original breath is far superior to the ordinary origin peak existence!

Can, at the moment Ye Chen feels is completely different thing!

His eyes moved slightly, and in front of him was a black sun, a black sun suspended above the golden sky!

The sun seems to be at the beginning of all things. The primitive chaos is just a glance. Ye Chen has the illusion that all the souls have to die for and return to nothingness!

The next moment, the black sun was broken, and the golden sky was swallowed by the darkness. In the collision between the golden light and the dark, it seems that something was born in the dark

However, before ye Chen could see clearly, everything had already disappeared, and he returned to the secret place again.

At this moment, for the sake of the pure color of the eyes, it seems that in order to turn out the pure color of the eyes, only for the sake of the pure color of the eyes!

This unexpectedly and Ren extraordinary some similar!

Any extraordinary pupil is blood month circulation!

And ye Chen's pupil is more strange!

Xuanhanyu and Shuo Lao were shocked to see this scene, and they were all unstable!

The martial arts of Shiyuan can catch a glimpse of the origin of the road when they break through the source, and thus get infected with the flavor of the origin.

But ye Chen didn't step into the source at all! It's just that the limit is close to heaven and earth!

They don't know what ye Chen saw, but the original breath emanating from his eyes is so strong that he can't even contain the burning sky

Where is this contaminated with a trace of origin?

Clearly, it has brought an ocean of origin!

At this moment, ye Chen's burning sky has also undergone dramatic changes, a round of Black Sun suspended in the sky, the sky is also turned into pure gold color!

After a few breaths, the light in Ye Chen's eyes gradually dissipated and returned to normal. However, his spirit was somewhat in a trance. The scene that appeared when he saw the origin did not seem to be so strange in the eyes of ordinary people

However, it is totally different for the warrior!

Among them, the impact of the law and the road, but make ye Chen thoroughly shocked, for a long time can not be recovered! For ordinary existence, even because they can't bear the impact of the road, the spirit will die directly!

After a few hours, ye Chen regained consciousness and gasped violently. Ye Chen was full of uncertain looks.

Old Shuo couldn't help asking, "boy, what did you see?"

Xuanhanyu also said: "close to heaven and earth, but it's a glimpse of the origin. Although it's a special experience, it doesn't make you look like this."

Ye Chen some Leng Leng ground reply: "I don't understand. You can see for yourself... "

See for yourself?

Two people are somewhat puzzled, what does Ye Chen say?

The next moment, ye Chen's scenery, suddenly changed, burning sky display!

The original mountains, rivers and so on, all disappeared, leaving only a black sun, and a golden sky!

Xuanhanyu and Shuo Lao are both sluggish when they see this scene

At the next moment, they both exclaimed: "heaven and earth are beginning to open, the origin of the transformation!"

Ye Chen does not understand a way: "what is this?"

Xuanhanyu and Shuo Lao are both looking at monsters at the moment.

After a long time, old Shuo said: "according to legend, when heaven and earth first opened, the sky was like gold, and chaos was in the air. When chaos opened up and the golden sky was annihilated, the original universe was born. Boy, what you see is probably the scene of the beginning of the world. Even in ancient times, almost no one could see this picture before returning to the real world

In foreign history, there are nine people who have been recorded in the history of foreign countries. All of them have achieved great achievements. Even if they soar to the supreme world, they are invincible in the sky! "

"But ye Chen has seen all this in this realm, which does not mean that ye Chen will not fall, and he will be completely superior to those guys?"

"This It's so horrible! "

Chapter 4618

Ye Chen is slightly stunned. Those people can only get the title by pressing the archaic and Honghuang times. That is to say, it is not too much to be called the son of destiny when they can see the opening of heaven and earth when they break through!

Even with Ye Chen's heart is a little excited!

Is this not to say that it has determined the future of the universe?

Did the former self see all this?

This is the decision to reincarnate and rebuild!

He is gambling, gambling that his life will be far more than everything?

But at this time, xuanhanyu said: "boy, don't be complacent. This is only recorded in history. Seeing the beginning of heaven and earth is enough to prove that you are extremely talented, but have you ever thought about the end of those unrecorded geniuses? "

Ye Chen smell speech, in the heart one Lin, calmed the mood way: "thank the Xuan fairy to point."

He looked at the Wuyang golden sky, which contains the rules of Daoyun. Even ye Chen, as the master, felt a thrill!

With the blessing of the chaotic sun, its destructive power will be increased at least twice!

With the seal of Dao bone in the sea of knowledge, now ye Chen's destruction Shinto will play a triple power!

The powerful destruction Shinto plus three times its power?

It's no worse than extinction, isn't it?

Ye Chen stands up and looks satisfied. This trip to the secret place has a huge harvest!

Now his strength can be said to have a qualitative change!

Even without the help of Shuo Lao's power, ye Chen is confident to defeat the existence of one layer of heaven or even two layers of heaven!

It's a pity that the distance between heaven and earth is poor!

Later, he tested the strength of the huaxueshensha, which did not fail for the time being.

Finally, ye Chen tried to activate xuanlingzhu. As expected, no matter what method he used, xuanlingzhu did not respond at all.

However, ye Chen's getting the xuanlingzhu is not entirely without benefits. He finds that xuanlingzhu seems to be actively absorbing his inner Demon power and spiritual power, and then merges these two forces into a more powerful energy, and then returns it to Ye Chen!

This kind of energy is extremely sedate, and whether it is used for attack, defense, body method and so on, the effect is amazing!

Whether it's Demon power or spiritual power, it's far behind!

Ye Chen calls this spiritual power xuanlingli!

This Xuanling pearl is transformed very slowly, and it will not continue to transform until it reaches a certain amount. Unless ye Chen exhausts all the power of Xuanling, it will start to transform again.

However, this is enough to surprise Ye Chen. If necessary, attack with Xuanling power, which may produce unexpected effect!

It's time to go back after all the things that should be done. Ye Chen moves, and then goes back to the white fog again

outside the secret place, xuanya, xuanxi, xuankun and some Xuanyao people are looking at the white fog with a worried look.

Xuan Ya Mei Mou trembles to ask a way: "grandfather, ye Chen how to go so long, haven't come back yet?"

Xuankun said: "don't worry, as long as the certificate for entering the secret place does not reappear under the demon God column, it means that ye Chen has not failed yet!"

However, although the words said so, but xuankun's eyes also flashed uneasiness.

Ye Chen has been gone for a month. Is that too long?

At this time, a figure suddenly appeared in the white fog!

This time there was no long march, ye Chen saw a flower in front of her eyes, and then went back to the white fog. Seeing all the people, he said with a smile: "gentlemen, I'm back."

Soon, there was a cheer!

Xuanya finally breathed a sigh of relief.

And xuankun, is full of tears, countless ancestors long to realize the dream, finally in his generation has become a reality!

But soon, the cheering stopped abruptly

Because they feel the breath of Ye Chen

Although Ye Chen has been deliberately restrained, the awe from bone marrow has gradually spread in people's hearts

Even xuankun felt the enormous pressure at the moment

As if, in front of him is not ye Chen, but that ancient Xuandi ah!

This blood is too strong!

He couldn't help but say, "Ye Chen, your blood..."

Ye Chen smiles and says: "in the secret place obtained some benefits."

People smell speech, also did not ask, but, to Ye Chen's attitude is more and more reverent!

.....

In the Red Star holy land, after finishing a day, ye Chen found xuankun and said, "old Kun, it's a matter here. I'm going to leave for a while."

Xuankun said, "well, if you need anything, come back at any time."

He knew that it was impossible for a demon like Ye Chen to stay in the Red Star holy land all his life.

Ye Chen left the village and took out the crystal key. A burst of four colors of light flashed wildly. His body disappeared in place and returned to the hundred barren mountains. Old Shuo asked Ye Chen, "boy, what are you going to do now?"

Ye Chen's eyes flashed: "first find a place where there are many monsters. I have an idea to try it out!"

Shuo Lao Road: "you want to test that day demon God rope?"

"Not bad."

Ye Chen is more curious about the supernatural power brought by the demon blood that day and how powerful the monster can be subdued.

.....

Two days later, in a very wild and extremely primitive mountain range, a monster with golden scales all over, like a dragon rather than a dragon, like a snake but not a snake, with many bone spines on its back, is tasting the corpse of its prey.

Here, called Jueshu mountain, is the mountain with the most monsters in Yangzhen region!

Numerous monsters and beasts are stationed here, which makes this place a place of absolute danger. On weekdays, few martial arts practitioners are willing to enter here to seek opportunities.

The Golden Dragon and snake, which was originally eating fast, suddenly, in the pupil, the light flashed, and suddenly turned his head and looked behind him!

He had never seen a pair of eyes standing in front of him.

To be exact, it is a young man with a cool look, who is naturally Ye Chen.

Ye Chen looks at the Golden Dragon and snake in front of him. After refining a trace of the blood essence of the mysterious demon ancestor, he has already had a very accurate sense of the blood of the demon beast.

The blood of this dragon and snake is pretty good, and its strength has reached the peak of Shiyuan.

The dragon and snake's pupils twinkled slightly. Although the cultivation of the creature seemed to be under him, the beast's instinct made him aware of an extremely dangerous breath

And, I don't know why, he actually has a kind of desire to submit to Ye Chen in his heart!

At this time, ye Chen looked at the Golden Dragon and snake. Suddenly, he showed a smile. He raised his hand at will and hit the dragon and snake lightly.

According to xuanxuexin, it's better to beat the monster into a serious injury or dying state, otherwise the monster will resist and may break free of bondage!

The dragon and snake is also a powerful existence in the Jue beast mountain range. Although he is afraid of Ye Chen's breath, he is immediately infuriated when he sees Ye Chen's hand to himself!

Chapter 4619

It issued a dragon roar, all over the golden flash, a mouth spit out a very dazzling golden fog!

It's a golden mist, but it's deadly!

The moment of appearance, the surrounding rocks, trees began to rot, blink of an eye, it turned into fly ash!

However, in the face of the golden fog, ye Chen did not have the slightest intention of dodging, allowing the fog to submerge himself!

In the eyes of the dragon and snake, there was a glow of joy. The fog was very poisonous. Even if a powerful monster like Ye Chen was allowed to enter his body like Ye Chen, he would only die!

However, the next moment, the joy in the eyes of the dragon and snake is suddenly solidified!

A hand, to be exact, a fist, penetrated the golden mist and fell on its body!

Time, as if there is a moment of stillness

When the dragon and snake were hit, their eyes were filled with fear!

With a loud bang, its huge body flew upside down, and blood gushed from the abdomen hit by Ye Chen. On the abdomen, the seemingly hard scales were broken like flour!

Ye Chen's casual fist will easily injure a monster from the peak of the source!

The golden poisonous fog has no effect on Ye Chen, whose blood vessel has been promoted to a higher level.

Ye Chen slowly walked to the fallen snake. At the moment, the snake, which was still in his eyes, was completely afraid. Even he did not dare to see ye Chen!

Ye Chen looked down at the giant snake, and suddenly, a surge of pure evil spirit broke out. All the monsters in the whole Jueshu mountain felt a kind of shivering from the depths of their souls!

And that Golden Snake, already shivering!

"Heaven demon God rope!"

Ye Chen murmured, and a red chain shot out of his body. The color of the chain is now as deep as blood, and there are many black runes on the chain!

That day, the demon God rope twined around the Golden Snake's body, and countless black runes poured into the snake's eyebrows. The snake didn't even have a trace of resistance, so the place of knowing the sea was submerged by the black Rune!

After a long time of incense, the sky demon God rope disappeared from ye Chen's body. He stood in the same place, his face showed a thoughtful look.

And that golden dragon snake, at this moment, but extremely meekly crouched at Ye Chen's feet, without a trace of hostility.

"It seems that I can accept all the monsters in Huanzhen. Now, what I need to test is the monsters above Huanzhen..."

He took a look at the giant snake. In his mind, he gave a command and let the snake go to practice on its own.

The giant snake looked at Ye Chen with some reluctance, but still obeyed the master's order, and disappeared in the mountains.

Ye Chen, on the other hand, continues to search for the existence above the true realm in the Jue beast mountain range.

At the same time, he took out an ancient book, which xuanqu gave him!

As ye Chen walks, he realizes the magic power of transforming animals, and his eyes are full of splendor!

I don't know if it is because of the great enhancement of the blood vessels of the heavenly demon. It is extremely easy for him to understand the magic power of transforming animals. In less than one day, he stepped into the first level: melting the beast into the body!

After practicing the fusion beast into the body, you can use the celestial beast as if it were xuanzhu. If you want to use the ten thousand beast meteorite, you need to step into the second level: Meteor beast as power.

If xuanqu and xuanzhu knew the speed of Ye Chen's cultivation of animal magic, they would feel a great sense of vomiting blood

It took three years for xuanqu to break through the realm of integrating animals into the body!

It took nearly 30 years for a common genius like xuanzhu to learn it!

What about ye Chen?

One day?

Thousands of times faster

A few days later, in a dense forest, three extremely huge figures could be seen!

Above these three figures, the rolling evil spirit sent out, so that the monsters within the radius of ten thousand li all fled around like crazy!

The first of these three monsters is a red haired giant ape with two horns on its head and two wings on its back. This giant ape is a red devil ape, one of the different species between heaven and earth. It is extremely powerful and terrifying! When you are an adult, you can have half a step of real combat power!

The second one is a tiger. The whole body is white and full of golden stripes. The tiger is full of sharp gold gas. Just by breathing, it cuts the surrounding space into pieces!

This is a mixed blood true spirit white tiger, although the blood is complex, but, after all, inherited part of the strength of the true spirit white tiger, has a real level of strength!

The last one, which is also the most powerful one, is a dragon full of blue and covered with thunder!

There is a pair of Dragon Wings on the back of Jiaolong!

It is said that the monster that dominates the whole Jueshu mountain range is a flying Thunder Dragon! Generally speaking, Feilei Jiao can only grow to the peak of its origin. However, this flying Lei Jiao is far superior to its peers in terms of qualification. It has been devoured all the way, breaking through the limit and becoming the most terrifying existence in Jueshu mountain range!

In the Yangzhen area, even those who are strong in the real world dare not provoke the flying thunder Jiao!

However, at the moment, these three monsters, which can be called kings, are all in a state of incomparable fear, lying on the ground motionless.

Not only lying down, but also, each one, are scarred, extremely embarrassed appearance!

If you let the martial arts of the Yangzhen area see this scene, you will be scared out of your eyes!

What kind of existence can make these monsters look like this?

In front of them stood a young man with a cool look.

Although the spirit of the monster is not open, but also has the ability of thinking animals, ye Chen these days across the mountains of animals, can be said to have attracted the attention of many monsters.

Therefore, these three King level monsters, actually are joint hands, ambush together, besiege Ye Chen!

However, although these monsters are extremely powerful in the Yangzhen region, they are nothing to Ye Chen today. Even if the three monsters join hands, ye Chen can easily defeat them.

Now, what he has to do is display the God rope of the heavenly demon, and determine what level of monsters can be subdued by this magic power!

At the next moment, a blood red chain falls on the red devil ape. He secretly runs from the dark blood heart and controls the mind skill of the sky demon God rope. The black Rune on the chain instantly rushes into the red demon ape's sea of knowledge.

This time, it was much slower than the Golden Dragon and snake. Half an hour later, ye Chen succeeded in taking over the red devil ape.

Then he turned his eyes to the white tiger.

Under the God's command, the white giant tiger was still successfully subdued by Ye Chen. However, when he took over the white tiger, ye Chen had already felt a trace of pressure, and it took two hours.

Finally, it is the flying Thunder Dragon!

The moment when the black Rune rushes into Feilei Jiao's knowledge of the sea, it is obvious that Fei Lei Jiao is aware of something. The thunder light in his eyes explodes and resists fiercely. Ye Chen frowns and feels the obvious pressure!

Finally, it took six hours for ye Chen to conquer the flying thunder Jiao!

Chapter 4620

After ye Chen dismisses the white tiger and the red demon ape, he jumps and sits on the back of Fei Lei Jiao, who has already shown the color of deference.

In Ye Chen's eyes, there is no more powerful monster in the Jueshu mountain range. However, according to the situation of taking feileijiao, ye Chen can roughly infer that the highest limit of the monster that he can take in should be around Huanzhen two layers of heaven!

At this time, old Shuo said: "boy, according to my feeling, your heavenly demon God rope can't be simply divided by grade."

"Oh?" Ye Chen hears the speech and his eyes flash.

Shuo Lao said: "this kind of magical power has a great relationship with the strength of the user itself, that is, the stronger your strength, the stronger the monster will be subdued!"

Ye Chen nodded, in fact, he himself is also this kind of feeling!

Then, he patted the flying thunder Jiao, the king who once ruled the Jueshu mountain range, but now he has become Ye Chen's mount. With a roar of a dragon, his wings behind his back, and the wind and thunder soared toward the sky.

The escape speed of Feilei Jiao is very fast, and it can approach the sky fire eagle, and the escape speed of this flying thunder Jiao is far faster than that of its peers!

Old Shuo asked, "boy, now, where are you going?"

Ye Chen's eyes twinkle slightly, and suddenly a golden ball even rushed out of the reincarnation cemetery, around Ye Chen.

Ye Chen one Zheng, this golden bead is once dark area Gu Xuan family's extinction six islands, at this moment why suddenly flies out?

Is it a hint?

Gu Xuan's disappearance has always been a knot in Ye Chen's mind.

He didn't even think about it. He said, "go here."

At the moment, xuanhanyu also found something and asked, "is this golden bead given to you by the dragon of destruction among the six islands?"

Ye Chen nods a head way: "good."

Shuo old smell speech, but some curious, ye Chen explained for him.

At that time, ye Chen in the dark in order to learn the six true formula in the shortest time, followed Gu Xuan to Gu's place of trial, called extinction six islands!

The six extinct islands were created by the ancestors of Gu family in order to sharpen their descendants. There are six kinds of destruction animals which represent the six ways of reincarnation on the island!

Among them, on the island representing heaven and humanity, ye Chen met the Immortal Dragon who was imprisoned by Gu's ancestors and made a deal.

That is, bu Mie Zhen Long teaches Ye Chen the essentials of the six miezhen Jue, and ye Chen, with sufficient strength, goes to a place and catches a strange beast born to destroy Daoyun, instead of being trapped in the array!

Originally, ye Chen was supposed to go here after his breakthrough in strength. On the one hand, he was delayed by a lot of things. Secondly, ye Chen also wanted to be more safe. After all, according to the description of the Immortal Dragon, although the strength of the destroyed beast was not high, this place was quite dangerous, and there were many horrible animals!

Therefore, the appearance of the golden bead should be to urge Ye Chen to fulfill his promise.

After ye Chen has the strength today, he has the right to go to the place called exterminator domain.

Another reason is that it's hard to find a monster with stronger strength in Yangzhen domain. Therefore, ye Chen plans to take in a powerful monster in the field of exterminating beasts, and integrate it into his body for the time being, so as to exert his magic power of transforming animals.

In addition, not any demon beast is suitable for cultivating the magic power of transforming beast. The attribute of demon beast is more and more consistent with its own Tao rhyme. Then, after practicing the magic power of transforming beast, whether it is to improve the strength, or to use the supernatural powers such as the death of heaven and beasts, and the meteor of beasts, all can achieve twice the result with half the effort!

In the field of exterminating animals, there are many strange beasts with the charm of destruction, which is very suitable for ye Chen!

If the third level of animal blood can be achieved by cultivating the magic power of transforming animals, even if it is not the original monster, it will bring about great improvement if we integrate the powerful monster into the body. However, we can't transfer almost all of its strength to the master like the original monster.

The flying leijiao can escape very fast, but the intersection of the killing beast area is in the xingxuan area, which is very far away. Even if you take Feilei Jiao and ye Chen, it takes a long time to get to the destination.

At this moment, ye Chen is standing on a barren mountain with numerous huge stone tablets, holding the golden ball, looking for the entrance to break through the space.

His eyes are dignified, and now he has the strength to open up space. However, this kind of thing will never go wrong, otherwise, it will probably appear in an unknown place.

Soon, ye Chen locked the space in front of a stone tablet!

He gazed at the space, turned his wrist, grasped the sword, and drank a low voice. Hongmeng's ancient method and the transformation of soul and body were put into practice. The star and soul were slashed out, and the space barrier was directly broken. A space tunnel appeared in the darkness of nothingness!

Ye Chen entered the tunnel with a flash of body shape. In the space tunnel, the storm surged wildly. However, ye Chen was not afraid of the space storm with his present strength. Soon, he came to the end of the tunnel. In front of him, there was an exit flashing with white light!

Ye Chen's eyes flashed with joy. Soon, he jumped into the exit. After a burst of dizziness, ye Chen opens his eyes again, what appears in front of him is a deep purple sky!

He looked around, his eyes gradually appeared a look of surprise!

At the moment, he was standing on a lavender cliff, and what surprised him was not the environment, but the air was filled with an inexplicable breath of Shinto, in addition to the concentration of aura, which was even more intense than that of the Yangzhen region

Destroy the breath of Shinto!

It is very dangerous for ordinary martial arts to be immersed in this kind of breath all the time. The body is easy to be invaded by this breath. Over time, even the foundation of martial arts will be destroyed!

However, for ye Chen, a martial arts practitioner of destroying Shinto, this is a paradise!

Ye Chen murmured: "no wonder it's called Mie animal field..."

In this kind of place, it is not so strange to see strange animals born to exert their destructive power.

Ye Chen's mind poured into the golden bead, confirmed its position, and then murmured: "the magic power of animal transformation!"

A powerful evil spirit gushes out of his body. In the flash of thunder, a blue dragon with wings on his back appears in front of Ye Chen. It is the flying thunder Jiao.

Now ye Chen has broken through the second level. Before coming to the field of killing animals, he first integrated Feilei Jiao into his body.

Ye Chen gets on the flying Thunder Dragon. When the dragon's wings move, it turns into thunder light and moves towards the nest of the extraordinary beast with the destructive power recorded by the Immortal Dragon in the bead.
