

Physician 5111

Chapter 5111

"The ruins of Huanglong ancient emperor will certainly attract many people who covet him. The hell Dragon Temple and even xuanjiyue will not stand by."

"I know." Ye Chen nodded, "with the great power of the henggu emperor, the dark dragon temple will surpass the five Heaven Temple if it gets his inheritance. But it's a pity that their wishful thinking will be lost this time, because I'm here. "

Ye Chen's words are domineering. He holds enough cards to make him so confident.

"The leader of the sect is supreme. The reply from the holy king of Chiyuan has arrived." Dunjia Xingling hands the letter to Ye Chen.

"The Huanglong Celestial Star created by Huanglong ancient emperor himself must contain great treasure. If you are in danger, you can pass my token. I will give my life to help you."

The red yuan holy King's words are short, but also tell Ye Chen that he must go.

It's just a token, but he can't use it. If it's used recklessly, it will expose the secret. It's a very troublesome thing, whether it's tiancanniang or the superior behind her.

Ye Chen thinks about his cards carefully. This time, he will make the hell Dragon Temple pay the price.

Inside the holy heaven mansion.

"Are you sure you really heard the holy king of Chiyuan say the ancient emperor of Huanglong?"

Tiancan empress seat of the holy heaven strong, staring at his eyes.

"It's true." Then the servant said, "also, the goddess sent to the Shenyang Tianfu eyeliner in Yang Zhen area. It seems to have discovered that the Lord of the rebirth might have to help him develop his power through the ruins of the ancient emperor of the barren dragon. Do you need to... "

The saint was stunned, and then his face was ferocious: "does the reincarnation Lord want to develop his own power? Ridiculous! This time, we don't just want the Lord of reincarnation to fall! Anyone who has something to do with the Lord of reincarnation can't live! "

.....

The sea of hell.

"Beyond the front, there is the sea of hell."

Blood dragon Mou son one coagulates, some rub one's fists to rub one's hands to say, he has already learned from ye Chen's biography the value of this relic to them, if can win the treasure, the strength certainly can go up a step again.

"Well. How is the sea of hell in heaven and man different from last time? "

The demon emperor looked at the calm water. He had the impression that the water in the netherworld was always surging and the waves were piling up. Now there was something wrong everywhere.

"Is there an ambush?" Yan Kun frowned, "this trip is related to the ancient emperor of Huanglong. We should be careful."

Words just fall, the sea of hell suddenly rises!

"Holy light kill!"

The originally calm sea water of the netherworld, just as the blood dragon Yankun and his party took a step, suddenly stabbed out a source gas.

This is a sneak attack and kill skill of the powerful of shengtianfu. It is extremely terrifying even when facing the enemy head-on.

The sea water in the netherworld is divided by the source gas, revealing the strong man of the holy heaven who has been hiding in the sea floor.

"Wulong you tianblade!"

"Burning wild sky crystal explosion!"

XUELONG and Yankun fight at the same time. The whole body of Xuelong's Qi and blood burst out, and the heart, liver, spleen, lung and kidney seemed to be burning. They gathered a brilliant blade, with a sense of killing, and went straight towards the source gas.

At this time, Yan Kun also condensed the blood into a blood core. In a short moment, he had already thrown himself at the strong man who just showed his body.

The flying knife breaks through the air and cuts off the source Qi, directly cutting the galloping breath into two sections.

The blood core burst at the bottom of the sea, and the water flashed into the sky.

The underwater saint is also the first time to escape, he is not the opponent of the two.

"Want to go?"

Yan Kun see his intention, another blood nuclear float out again, directly throw to his next body position must arrive.

The powerful man's magic weapon protects his body, and his body suddenly turns down and jumps directly into the sea of hell.

"Cloud thunder Emperor Dragon Ball! Break the darkness

The blood dragon worships the emperor's scepter and follows the heavenly power into the sea of hell.

Above the scepter, the bright beads, constantly burst out bright light, will be all under the water to illuminate the panoramic view.

I've been cheated!

Blood dragon to see around only after a trance found that the former Shengtian actually sent out nearly ten, they have curled up in the dark sea, a person to do bait, thus ambush themselves.

"Blood thunder! Broken

The blood dragon waved the scepter in his hand, and the Dragon Ball inlaid on the scepter immediately bloomed with great brilliance. With the help of the buoyancy of the dark sea, he wanted to break the limit and return to the water.

"The light of heaven is bound!"

The hands of ten holy heaven strongmen made seals at the same time. One seal after another enveloped the blood dragon's body, like a big net, tightly bound the blood dragon's hand holding the scepter.

"Startling magic thunder knife!"

At the critical moment, the blood dragon tried his best to wave the scepter and use the magic power of Dragon Valley. A thundering sword came out and cut the seal border around.

However, under the blessing of the ten holy heaven strongmen, the blood dragon couldn't find a gap for a moment because of the strength of the array. Yan Kun has long been aware of the blood dragon is not right, "blood dragon!" With a loud roar, one of them turned into the netherworld.

"Absolute immortal sword Qi!"

Yan Kun didn't hesitate, so he directly sacrificed the juexian sword and chopped it to the nearest saint.

"Well! Don't think too much of yourself The holy heaven strongman held it out of thin air and pulled out a two meter long gun with a crossbar in front of him.

"Heaven and earth Protoss, blood burst out!"

Yan Kun suddenly drank, the blood essence of his whole body was burning, and his two eyes turned into a red blood mist, which was very murderous.

WOW!

The long spear and juexian sword collided together, causing a turbulence in the whole underworld. The lightning strikes stirred the dilemma of the blood dragon.

"Thunderbolt!"

With a roar of blood dragon, the Dragon claws directly broke the seal border and rolled towards the array eye.

This time, the holy heaven mansion sent blood to kill Xuelong and Yankun. The strong men they sent were not only the ten who lurked underwater, but also the ten who fought with the demon emperor on the water.

"Want to go?" The nine strong men of the holy heaven are battalions, and their skills are churning.

"Yes

"Soldier

"Fight

"Who is it?"

"All!"

"Formation

"Column!"

"Before!"

"Yes

"Restrictions!" Nine strong people drink together, blood dragon just feel the blood around the body at this time as if stagnated, blue veins burst up, blood longan unexpectedly burst out without a trace of power.

Another holy heaven strongman forces Yan Kun with a long gun in his hand. The long gun in his hand is rolling, which breaks Yan Kun's attack. For a moment, Yan Kun's juexian sword can't attack him.

"Holy heaven riding dragon gun!"

On the sword of the spear, a dragon appeared. The dragon's body was as fast as lightning. Under the sneaking of the spear, the spear directly hit Yan Kun's abdominal cavity!

Chapter 5112

Yan Kun's blood had already opened, but he was still defeated by you long. He was shot into the abdominal cavity, leaving a huge blood hole.

"You dare to hurt Yan Kun!" A thunderous roar suddenly rang out.

Blood dragon instant blood surge, huge red dragon body, all over the sky, surrounded by thunder and lightning, there are many flying swords, strands of auspicious rays, constantly surging collision, showing the supreme magnificent gas.

The chain of forbidden symbols that originally bound the blood dragon broke in an instant!

Blood dragon's cultivation level suddenly rose in this short moment, and every time the rune chain broke, you could borrow all the power of the archaic ancestor dragon. Only one chance, the blood dragon did not hesitate to use it.

At this time, the Emperor Dragon Ball in front of the blood dragon's forehead burst out again with an indescribable light.

Comparable to xuanjiyue and the realm of emperor Shitian, Qi can be matched by those strong men like shengtianfu!

"Roar!" A roar of the Dragon reveals the authority of the archaic ancestor dragon.

"Heaven's rebellion!"

All the strongmen in the holy heaven have evolved a shield in front of their bodies, hiding their bodies behind the shield thoroughly.

The shield, like the shield pattern of ancient battlefields, is engraved with the traces of history. Under the pressure of archaic ancestors, it was not beaten into powder.

"Thunderbolt! Give me repression The blood dragon's claw was again wielded and hit heavily on the shield.

Yan Kun is holding juexian sword, and his blood is not enough. Obviously, he has lost his decisive power.

The demon emperor quickly rescued him and quickly fed him an extremely special pill.

"This is the divine reverse word on the ancient magic shield. They want to hold you back!"

Emperor Zhetian cried out that although the blood dragon's momentum is very strong, it only has a short incense stick in the time of archaic ancestor dragon.

Naturally, these dirty little people in shengtianfu have learned this information through investigation, so in the face of the blood dragon's soaring strength, they will not hesitate to sacrifice the ancient magic shield, but also drag him down.

The time of burning incense is fleeting, the heart of blood dragon is tight, the attack of dragon claw is more rapid, "thunder shakes heaven claw!"

This magic power of blood dragon is called thunder regret heaven claw. It is in the same line as thunder treasure skill. It was realized by the archaic ancestor dragon in the past when he understood the source of thunder.

Although it's not the source, the power of this claw can't be underestimated.

The thunderclap caused the sea water in the netherworld to suddenly turn upside down, and the dragon shape cut through the sky, leaving only a remnant shadow.

"Sheng Tian Ming Gong sound."

The strongmen of shengtianfu fight against this thunderbolt together. They held up the ancient magic shield in their hands, as if forming a larger magic shield.

There was black magic on the shield. The blood dragon even heard the roar of the ancient battlefield.

A part of the magic shield in the hands of the holy heaven strongmen instantly turned into a giant hammer, which also exudes black magic.

One of the heavenly powers, a gray haired spectator, raised a huge hammer and hit the huge shield with great force.

"Hum..."

The buzz in everyone's ears, Yan Kun originally very weak body, in this buzz under the stimulation of the mouth blood jet out.

The blood dragon's body was also shaken by the sound of the Gong, but the claw, with the breath of thunder, also hit the giant shield hard.

"Broken!"

The corners of the ancient magic shield began to crack inch by inch. Under the defeat of all the power of Taigu ZuLong, even if twenty holy heaven strongmen joined hands, they were not the opponents of Taigu ZuLong after all.

Seeing the slowly broken shield, the demon emperor revealed a smile at the corner of his mouth. The precious artifact relied on by the holy heavenly power was broken by the blood dragon!

"Ancient magic shield!" The holy heaven's strong men's faces are bitter. This ancient magic shield, however, was smashed just like this, which was given them by Tiancan Niang.

The eyes of the people looking at the blood dragon are full of anger. No matter what the price they pay today, they will let the blood dragon hide in the sea of hell.

Otherwise, let him and the Lord of reincarnation develop, it will be the disaster of their holy heaven.

The blood dragon also obviously didn't want to let such a powerful man retreat, and his imperial Scepter flashed out again.

"The source of thunder, the Pearl of light!"

The beads on the top of the scepter of the emperor are full of bright light, forming laser rays, which shoot out towards the heavenly power.

"Holy heaven is the source of twelve formations!"

At the moment when the ancient magic shield was broken, the saints smashed a white jade plate in their hands one after another, which was the life-saving thing left by the saints.

Hidden in this jade card is the charm drawn by the ancient divine power, which gives ten breath of life blessings to his descendants.

In other words, with ten breath time, the attack of blood dragon has no influence on them.

Card! Naked card tactics!The demon emperor can't help but despise these powerful men. They are besieged and intercepted by many people. Now they are still burning their cards in order to kill them all.

Evil heart, villain means!

The blood dragon's strength is declining, but he doesn't stop attacking. For a moment, the dragon's tail sweeps the holy heaven strongman, but the other side is like a piece of wood. In the face of his attack, he doesn't dodge, nor does he form damage.

"Blood dragon! Come back The demon emperor sighed and yelled to the blood dragon that the time of incense had come.

The blood dragon has changed and has been restored to human form. There are still seven forbidden chains on his body, which are like an eternal curse, firmly binding him.

"Ha ha ha! Although Taigu ZuLong is powerful, you are just a blood dragon. It's just a stubborn struggle, and it's beyond our capacity! "

The strongmen of shengtianfu came to defend the wind, as if they were going to kill them here.

"Mean!"

While feeding the blood dragon a elixir, the demon emperor said angrily to the holy heaven strongman: "holy heaven is a giant. It means to dominate in heaven and man by using such means! I will meet you

"It's just mole ants. They're looking for their own way to die!" The strongmen on both sides of the Shengtian strongman jump forward at the same time. The shengtianming lightsaber in his hand is like a flower, but the sword moves are connected to attack Xuelong and Yankun.

"Mean man!" The demon emperor quickly drove them away.

Yan Kun eyes color is still blood red, in the hands of juexian sword a mention, "I can also a war!"

The devil emperor looked at him and sighed. It would be better if ye Chen was here.

"Fantastic!" The holy heaven strongman spoke again, "the people behind come out, we won't kill you!"

The disciples of taixuan formation, who had been behind Xuelong, Yankun and Zhetian devil emperor, heard this sentence and didn't know what medicine was sold in the gourd of shengtianfu.

"We are in charge of the underworld. You can never cross the underworld by your own ability, but we are willing to give you a better choice and save your life."

Chapter 5113

Although the disciples of taixuan array were so despised, they were angry, but they had to admit that what they said was right. They were always protected by others.

"I'll give you a chance to go back to the Lord of samsara. Let the reincarnation Lord save the three

Shengtian strongmen show a ferocious smile. They just want to tell the reincarnation Lord that this is a trap to see if he has seed.

The emperor looked at the crowd and thought a little. He said, "go back to the gate of taixuan array and tell Ye Chen what happened today."

"The devil emperor, in this way, the treacherous plan of the holy heaven will succeed!" There is anger difficult to hide of too Xuan array door person anxiously say.

"Don't you believe Ye Chen! How dare you get in his way

The demon emperor knew that ye Chen had many cards. At this time, he sent someone to ask him for help. Although he was in danger, Xuelong and Yankun could not be saved by themselves.

So, even if you know it's a trick to catch a turtle in a jar, you'll have to make a breakthrough.

"He's right. Go back to Ye Chen and ask for help. Otherwise, when these two people fall, will the reincarnation Lord become angry?"

Shengtianqiang obviously doesn't intend to kill the three people by force, and even wants to see them fight back intentionally or unintentionally.

"Don't be impulsive!" The demon emperor held Yan Kun, who lifted the juexian sword. "Ye Chen will surely come. Seize the time to adjust his breath. When he arrives, kill him with him

Although Yan Kun is emotional, he doesn't want to give his life in vain. He can only hum and sit cross knee.

Shengtianqiang obviously didn't plan to attack these three people immediately. For them, nothing is more pleasant than killing them in front of Ye Chen.

.....

Half an hour later, taixuan array gate.

"What

The disciples who came back from taixuan array gate told ye Chen the story of Ming sea from the beginning to the end, and ye Chen's heart lit up a fire!

He clenched his fingers tightly, and his violent killing intention was like a sword to the sky!

It seems that it's because he communicated with the holy king of Chiyuan that the informers of Tiancan Niang in shengtianfu got the news!

Ye Chen steps into the void and rushes to the netherworld.

Dare to move his Ye Chen's brother, let them pay unforgettable price!

No matter Yan Kun or blood dragon, or even the demon emperor, it's too important for ye Chen!

.....

The dark sea at night is quiet and there are hidden murders. I don't know how many unknown dangers lie in the unfathomable bottom of the sea. Ye Chen comes here with his sword. He knows that the strong of shengtianfu must lie in ambush on his way.

These filthy little people like ants can only live like rats in the dark.

As night fell, the vast sea water was filled with layers of fog. Behind the fog, it seemed that something huge was coming slowly.

"The bastards of holy heaven come out to die!"

In a flash, ye Chen's roar fell on the endless sea of the underworld, and the rolling waves collided and echoed.

"Hum!"

At this time, Yankun, who was forced to hide in the bottom of the hell sea, snorted heavily: "my elder brother is here. You villains who can only play Yin moves, let's die."

"I'm a prisoner, but I'm still talking fast!" One of the most powerful in Shengtian, a record of Shengtian's floating palm, directly clapped on Yankun's chest.

"Since the Lord of reincarnation has come, take away your life." It is obvious that the saint is not satisfied with a small move, ready to sacrifice.

"Don't beat the grass to scare the snake!" Another heavenly power whispered.

At this time, if you try your best to kill Yan Kun, it is bound to cause their counterattack, which will certainly disturb Ye Chen. Then their intention of ambushing here will be lost.

Yan Kun sees this, sneer: "as expected is mean person."

"Aren't you waiting for me? How long will it be! "

The underworld is still quiet, there is no response.

Ye Chen saw that it was useless to talk, and he was eager to find someone. He stopped talking nonsense, and stepped on the big star directly.

The vast starry sky rises from behind the leaves in an instant. Countless stars burst out and become a river.

The long river is like a dragon, directly bombarding to the sea of hell, shaking out the strong of the holy heaven.

Ye Chen's this Hongmeng big starry sky, but one of his trump cards, fierce and unusual, at this time for the sake of blood dragon they, also don't care so much.

"Heaven and hell light array!" The waiting time of the strongman of the holy heaven mansion has already been arranged in the netherworld.

Although Ye Chen found their position in the Hongmeng starry sky at this time, they also entered the attack range of the dark light array.

The light energy array on the outermost side of the dark light array is split into a square inch short gun, wrapped in the faint cold light, and cuts through the sky to reach Ye Chen."Well, I haven't used this gun for a long time. I'll try it today! It's so cold and dark! "

Fight with guns! Between the lightning and flint, the gun containing a trace of reincarnation is already in Ye Chen's hands. A gun in hand, the mountains and rivers change color, ye Chen hands a long gun wave, will those square inch Ming light gun all shot down.

For a moment, it was extremely powerful.

Shengtianming light array is a unique magic skill of shengtianfu. The reason for its fame lies in its repeated magic skills.

The second layer of dark light array has been quietly opened. As the wheel turns, the heaven and earth change color. Originally, the dark sea is full of darkness, but now it is like day, and then ye Chen is completely covered in the holy luster.

"Endless day?" Ye Chen has a sneer on his lips.

"Eternal night! Go Ye Chen puts away his long gun, grabs it in the void at the same time, and the evil sword appears in his hand.

The dark source symbol on the sword is exploding.

The breath of black ink quickly covers the world. In an instant, between heaven and the sea of Hades, they fell into absolute darkness, and no light could be seen.

"A small skill of carving insects!" Shengtianfu strongmen, turn their palms and seal again.

"Holy heaven vs. God!"

Under the effect of the dark source symbol, all the light that originally illuminated the heaven and earth gathered together to form a huge sculpture like black stone statue.

In this absolutely dark environment, there was no sign of them. Obviously, they came prepared.

"Lord of reincarnation! Since we are here, can your dark source avoid our eyes and ears? "

Ye Chen's eyes suddenly understand that the other party has grasped the gap of the dark source symbol. Under the absolute darkness, his whereabouts are hidden. However, light and darkness are opposite, and will not be suppressed. On the contrary, with the help of darkness as the shadow, he wants to attack them unprepared.

"Ye Chen, be careful!" Obviously, the demon emperor also saw through the attack and quickly reminded him.

"Dark beast!"

Ye Chen drinks a light, the heart reads a move, that forever night big devil sky, immediately gushed out numerous phantom beasts, ferocious roar, swarm of bees, toward that stone statue and go.

Chapter 5114

"Bang!" The phantom's attack does not cause any damage to the stone statue.

Shengtian zhantianzun is one of Shengtian's veins. It's a kind of battle clothes used by the great power in the archaic times. Its defense is so strong that even xuanjiyue needs at least two breath to cut it off.

And now it's just a mirage, and it's delusional to hurt him.

At this critical moment, ye Chen waves his hand, and the bright yellow light floats in his hand.

Then, an old picture scroll floated out of his body and suspended above his head.

This picture is a picture of mountains, rivers, sun, moon, stars, city and palace.

It's a picture of the yellow spring.

As soon as the picture of the yellow spring comes out, it seems that the great power of heaven and earth envelops Ye Chen.

Bang!

"The secret of vanishing heaven in the yellow spring!"

Ye Chen's eyes are full of murderous spirit, and the evil sword is waving out. The holy water of the yellow spring flies out of the picture and pours into his sword body.

WOW!

All of a sudden, the whole shajian burst out with dazzling light, showing the terrible power of vanishing the sky.

In the 33 Tianhong Mongolian Dharma, this formula of "vanishing heaven in the yellow spring" ranks the last. However, as long as enough holy water is poured into the yellow spring, it can exert its destructive power.

At this moment, a large number of holy water burning, ye Chen sword light surge, a sword into the sky, straight cut stone.

Shengtian Zhan Tianzun was cut off by Ye Chen.

The heart of the holy heaven and the dark light has also started, and a shining eye rises from the heart of the formation.

That eye seems to be able to penetrate everything in the world, which is one of the magic weapons of Tiancan Niang. At this time, it is hidden in the holy heaven and hell array to give ye Chen a fatal blow.

When the eyes of the colorful streamer looked at Ye Chen, the strongman of shengtianfu sacrificed the shengtianyunhai sword and chopped Ye Chen at the same time.

Ye Chen only felt that when he looked at himself, all his defenses were out of order, just like the fish on the chopping board.

In a twinkling, ye Chen's body has been pierced by the cloud sea sword, and his blood is not enough. He leans back and falls to the water.

Fortunately, the vitality of terror erupts at this moment, and the wound is healing in a way visible to the naked eye.

Taking advantage of this gap, the demon emperor takes Yankun and Xuelong to ye Chen.

However, at this time, the sudden change!

Ye Chen's body front suddenly floats a strange black stone!

The black stone is ugly, but it gives everyone a sense of panic!

Only Ye Chen knows that this is the bearing of reincarnation cemetery!

"What is it?" Shengtian strong are surprised, ye Chenming has been hit by them, at this time, he is so strong breath fluctuation.

For a moment, they dare not do it again!

At this time, ye Chen's consciousness has returned to the reincarnation cemetery.

The cemetery, which used to be the same color as scorched earth, has turned into a deep blue like the ocean. Ye Chen can even see stars twinkling inside.

There were three tombstones that could be moved!

One is the emperor of taixuan formation. Now it seems that the second reincarnation tombstone has come out?

Ye Chen hurried to the center of reincarnation cemetery, and sure enough, he saw that beside the original tombstone of emperor taixuan, there was another one that had changed.

The altered tombstone is no longer the body of a stone, but like an icicle. In the middle of the dark blue body, there is a bead hidden in it.

"Young Ye Chen, I have seen you!"

Words fall, the tombstone swept into a dragon, flying towards the sky, the huge water column, the waves are like a Bing Bing blade, cut through the void and go.

This tremendous momentum, mixed with the power of God, this is from the absolute mastery of water skills!

"Who is calling the Lord?" The sound came slowly from the water.

Ye Chen floated in the air, but looked at the great power hidden in the monument.

"Master, my name is Ye Chen."

The water gradually divided, turned into a ladder, from far and near, in the shape of hydration, put in front of Ye Chen, as if to lead him into.

Square inch world in water? This power is obviously more magical. As soon as you wake up, you can connect your own space.

Ye Chen knows that he doesn't have time to think. He has stepped up the water ladder, and the flowing water on both sides is cheering, as if to meet him. But he knows that if he has any changes, the water will strangle him for the first time.

This is an ancient hall, the dome is close to the stars, the dazzling light, illuminate every inch of the hall space.

Unexpectedly, there is no ground in the hall, where you can see is full of water, which refracts the divine light of the dome, sparkling, just like a temple of enlightenment.

A solitary boat is floating on the current. A man is lying on his side. Ye Chen can't see his face clearly for a moment.

"The God of Xinghai, luotaixu!"

That person finger a turn, blinked to leaf Chen in front of, "Oh? The reincarnation Lord of the last life, but this life is too weak. "The God of the sea of stars?

Ye Chen didn't feel disgusted with his contemptuous tone. He knew that since he was hiding in reincarnation cemetery, he would help himself.

Moreover, since the other party chooses to wake up at this moment, it may be that he is aware that he is in danger.

"This water is the water of the mysterious sea of stars, which can wash the meridians and lack marrow. Come and have a bubble. " Luo Taixu looks handsome, with silver hair, carefully combed in the back of his head, and his body is silver white gauze, which also reveals a little starlight.

"Master, I was ambushed. Now I am in a critical situation with my companions." Although Ye Chen also wants to enjoy the water of the mysterious sea of stars, it is not the time to wash the meridians and lack marrow.

"It's so unbearable!"

Luo Taixu shakes off his long sleeves. He has always been lonely and arrogant outside the country. He doesn't want to be exchanged with other people for a handful of Xinghai water. Now he takes the initiative to give ye Chen a big chance, but he didn't expect that the other party refused.

At the moment, he changed his face and waved out to beat Ye Chen down in the water: "you're here for a day, and you're only breathing outside!"

At this time, ye Chen suddenly realized that the love of the God of the sea of stars is for his good, not for the sake of death.

This mysterious Xinghai water has remarkable effect. I just entered. The wound that was pierced by the cloud sea sword has been quietly healing, which is even more terrifying than his vitality!

"Thank you, master."

With Ye Chen's physical quality, of course, he didn't need to soak for a day. Soon, he got up from the water.

"It's just a group of ants outside, which can make you so embarrassed. In this life, you really need a lot of efforts." Fall too empty to shake a head, light way.

"That's all. I'll show you how powerful I am!"

"In the field of the sea, I respect you!"

The God of the sea of stars points his finger towards Ye Chen's eyebrow. When ye Chen opens his eyes again, his divine consciousness has returned to the sea of hell.

Luo Taixu takes over the control of Ye Chen's body and locks Ye Chen's divine consciousness in his right eye.

"Look carefully! "The sea of stars!"

The God of Xinghai's robe was raised with the wind. The palm of his hand was very light and gently pressed on the surface of the sea of hell. The whole sea of hell seemed to recognize the Lord at this time. The huge waves of ten thousand feet high were turning with the direction of Luo Taixu's fingers.

Shengtianfu strongmen look at each other face to face. It's clear that they have the chance to win. How suddenly Ye Chen seems to change his momentum!

Endless fear spread!

Chapter 5115

"The light of heaven is bound!"

Ten holy heaven strongmen seal seals at the same time, one by one, and the boundary is shrouded in front of the people of holy heaven mansion. In the face of this unknown risk, they choose to protect themselves first.

"A piece of paper? Will protect you? " Luo Taixu said faintly, in his eyes, as long as it is the realm of the sea, this holy sky light border, is simply childish to ridiculous.

The starlight between his fingers twinkled, and a small starlight like a pearl floated on the border of light.

It's like touching the light barrier. The barrier is broken, even a star can't resist. It's ridiculous.

"Xinghai long hit the stream!"

Luotaixu manipulated the sea water, the huge water column, the extreme offensive, and the indomitable speed to bombard the strongmen of shengtianfu.

Under one move, although the powerful of shengtianfu will not be destroyed directly, most of them still lose their fighting power, their internal breathing is in disorder, and their mouth spits blood!

Just one move!

Win or lose!

This is the dominant position of Xinghai God in the field of sea!

However, the God of Xinghai and ye Chen don't know that this powerful move has shocked them!

"Who stirred the netherworld?"

Thousands of miles away, the holy king of Chiyuan sensed the change of the underworld sea. His face was frozen and he said in secret: is it Ye Chen?

"Fool!"

Tiancan Niang, also through the eyes of the third generation mirror, has already known the situation of the netherworld, and her heart is constantly burning with anger!

"This ye Chen is really a hundred legged insects dead but not stiff, the secret of his body one by one."

"Damn it

The screen turns.

The sea of hell.

"Run away!"

Seeing this scene, the strong men of shengtianfu looked at each other and fled in different directions.

After all, human beings are full of fear of the unknown!

And now ye Chen is their source of fear!

Attached to Ye Chen, Luo Taixu's cold eyes swept, and a faint smile appeared on his face. On the sea of hell, there was no place to escape from his control!

"Although I am the power of my mind, here I am, a hand covering the sky! Back

In a flash, the sudden change!

"Dong Dong Dong!"

The underworld seemed to have a long tentacle, which pulled those powerful men from the holy heaven into their hands, and there was a bloody splash.

"I'll give you Xinghai Shayi for the time being. Don't bully me any more." Luo Taixu came back to the reincarnation cemetery. After all, he was divine and could not use too much power.

Ye Chen hears his last words, also some can't laugh or cry, oneself when became good bully.

Anyway, take the blood dragon with them and go back to taixuan array gate to recover.

"It is estimated that the remains of the so-called Huanglong ancient emperor will be opened soon..."

"There is not much time left for me and Xuelong..."

.....

At the same time, the earth, China, the capital, Ye's house.

In autumn, red maple leaves fall to the ground.

After ye Chen left Huaxia, the single family villa was protected by the dragon spirit. After all, ye Chen was too important to Huaxia.

However, the man who once stood on the top of Huaxia mountain can only be spread in the legend of martial arts and Taoism.

Because, in recent years, it has not appeared.

Even in China, a large number of people forget the figure of that man.

Once upon a time, it was like the figure of a nine day dragon lying in this land of China.

Ye's house had not been opened a long time ago, but today, somehow, the dusty door has been opened.

In the courtyard, a man with a little beard looked at the building in front of him with a dignified look.

He held a jade pendant tightly in his hand. The jade pendant was dim and even had a crack.

Just at this time, a woman in camouflage clothes appeared behind the man. She looked like a man and said, "master ye, can't you contact Mr. Ye?"

Ye Lingtian was stunned. He took a look at Jin Lengyan beside him and nodded: "I don't know why, this jade pendant has lost its spirit. This month, I used all possibilities, but I still can't activate the power of the jade pendant, let alone contact the temple master."

Speaking of this, ye Lingtian took a look at the sky and said: "the abnormal change of Chinese aura is becoming more and more serious. It's different from virus. It does great harm to ordinary people. More importantly, the abnormal aura is a great tonic for some practitioners."

"If it goes on like this, there will be big problems in China and Kunlun."

"If I can't get in touch with the Lord, I'll have to go back in person."

Jinleng Yanxiu eyebrow micro frown, looking at the sky like rosy clouds, do not know what to say.

The change of aura can't be felt by non practitioners, even some people in the martial arts world. But the change of aura will be expressed in the celestial phenomena. And this bright red and strange red haze will eventually be discovered by those so-called experts. At that time, it may cause panic.

There's not much time left for Dragon spirits and them.

What's more, now Kunlun virtual city has been occupied by yuan Daofeng, who is advancing by leaps and bounds!

Although ye Lingtian was powerful before, he was eventually suppressed by the rules of heaven in China. However, yuan Daofeng practiced in China and Kunlun from the beginning to the end, and would not be suppressed by the rules at all! On the contrary, yuan Daofeng's accomplishments improved by leaps and bounds!

Now, the Dragon Spirit and the official power have been driven out of Kunlun! Only in China!

How ridiculous it is!

Since being driven out, ye Lingtian has been trying to get in touch with his jade pendant through Ye Chen, but I don't know whether it's a change of aura or because ye Chen has an accident, the jade pendant has lost its function! Let alone contact Ye Chen!

This month, ye Lingtian was quite frustrated. He stopped in Jiangcheng, Jiangnan Province, capital, and even the places Ye Chen had been to, hoping that a trace of cause and effect could restore the strength of the jade pendant.

However, at this last stop, ye Chen built the capital Ye family by himself, and the jade pendant didn't work.

Suddenly, the wind blows in the capital, blowing the red maple leaves on the ground. Looking at the fallen leaves on the ground, ye Lingtian murmurs: "the relationship between yuan Daofeng and Diyuan hall is clear, otherwise this person can't grow so fast."

"I've seen the reincarnation stele that the Lord told me, but I used the eye of heaven to search, but I never found it again. It's obviously hiding from us."

"In Huaxia, I, ye Lingtian, failed the Lord of the temple. The only way is to ask him to do it."

"Since the jade pendant is useless, I'll take a risk to set out once!"

Jin Lengyan was stunned and looked at ye Lingtian in surprise. He sighed for a long time and said, "master ye, are you going to Kunlun? Now, Kunlun void is the power of yuan Daofeng. Even the whole Kunlun void has a big array from outside. You said that the big array may come from Diyuan hall. Although I don't know what this Diyuan hall stands for, from your attitude, it is definitely a big mountain.

Your decision will even kill you! I hope you can think twice before you leap! "

Chapter 5116

Ye Lingtian's eyes coagulated and his hands were behind him. He said, "Huaxia is the place where the Lord of the temple guards. I, ye Lingtian, don't regret my death for this."

"But I'm not stupid enough to start at this juncture. You arrange a plane and I'm going to the north pole to meet someone."

"The house Lord's parents are closing the gate there. After calculating the time, they are almost out of the gate."

"Maybe there's a chance to get in touch with the Lord."

Jin Lengyan's eyes lit up, picked up a walkie talkie from his waist and said: "Bruce Lee, prepare a dragon soul plane, the location is the capital airport twenty miles away from Ye's home! At once

With that, Jin Lengyan put the walkie talkie back to his waist and said, "master ye, ready!"

Ye Lingtian nodded, five fingers a grip, hanging on the side of a coat flew to his hand, put on the coat, two figures disappeared in the maple leaves.

"I hope this trip has some results."

.....

Time goes by, a few days later.

Heaven and man, Taixu cave.

Tonight, a round of blood moon is floating in the sky. The red sky is like the color of lava hanging in the sky of Taixu cave. Under the cover of night, Taixu cave is so quiet that it doesn't even have the sound of insects. It seems that the whole world is asleep.

Taixu cave, I do not know when has gathered a group of strong, eyes are staring at Taixu cave, breathing are held, as if expecting something in general.

"Roar Roar... "

The dragon's singing broke the sky, and the howling broke the tranquility of Taixu cave. Then a gorgeous pillar of fire burst into the sky. It was too obvious in the dark, and it was very eye-catching.

With the deafening roar of the dragon, many people offered their magic weapons to protect them. With the sound of a dragon chant, the power is already so powerful. How can the power of the ancient emperor of the wild dragon shake the ancient and modern times?

Inspired by the sound of dragon chant, XueYue's red light, like blood fog, converges in the sky and forms a red beam. The beam turns to Taixu cave, where it goes, the stone gate of Taixu cave slowly opens, and the towering mountain is like a stone in the hands of a child. Driven by the red light, it obeys orders,

"the door is open!"

He was impatient. Seeing this, he flew to the entrance of Taixu cave.

"Why are you the first to enter the treasure of Huanglong GuDi?"

Those who are not willing to be outdone offer magic weapons one after another and rush to sneak into the ruins.

Not far away, however, the two figures of Yi Rong didn't move.

"Master?"

The blood dragon saw the eye leaf Chen, the eyes have some impatient, he is really worried about others a step late.

Ye Chen slightly shook his head, hands behind: "the people of the hell Dragon Temple and the holy heaven haven't gone in yet."

Only then did Xuelong notice that the strongmen of shengtianfu had also arrived, and that such a unique dress was particularly prominent among the people.

"Master, are you worried that they are not good for us?"

The blood dragon is puzzled and says that in his opinion, it is better to seize the relics before them. If we can use the power of the ancient emperor Huanglong to cut them down, it's the best.

"I suspect there is a limit to the entrance to the site." Ye Chen looked at the entrance of the red light, "let those guys try the water."

"Limited?" Blood dragon this just understand Ye Chen's worry, know this waste dragon ancient emperor's strength upper limit, or to the future may face the war situation to predict.

"Holy heaven baizun, you lead your disciples into the entrance of Taixu cave. Once you see the reincarnation Lord, you will be killed!"

In the battle of the netherworld sea, the holy heaven occupied all the time, the place and the people, but it still lost to Ye Chen, and also lost more than ten holy heaven strongmen, which really made tiancanniang very angry.

This time, they just sent out the strong of taizhenjing to destroy Ye Chen.

"Yes Shengtian baizun agrees that he is the only one who is strong in Taizhen. In the face of Ye Chen, he is confident to kill absolutely.

But when Shengtian and his party quickly passed through the entrance, Shengtian baizun could not enter.

When the entrance of the cave faced him, it formed a transparent boundary and was unable to enter.

"This treasure of the ancient emperor Huanglong is only allowed to be entered by those who are armed under the Taizhen realm. You holy heaven mansion don't even know the information. What's the matter with you?"

Yuwenji's face shows a trace of irony, and takes countless dark dragon warriors from the dark dragon temple to cross the cave.

Ye Chen mouth corner peeps out a smile, this still really want to thank Yu text machine of answer a question to solve a perplexity.

Taizhenjing is the realm after huanzhenjing. In the ancient times, taizhenjing has a resounding name, chengdaojing!

Stepping into Taizhen is the real way to success!

Although Ye Chen is puzzled, if you want to get inheritance, isn't the higher the realm, the better? Is there any Scripture suitable for cultivation in the treasure? That's why we need to be in the true world?

"Master, let's go in! Yuwenji seems to know a lot! We catch up with him secretly

Blood dragon apparently also heard the words of Yu Wenji."Good!"

Ye Chen will be buried in the heart of doubt, with the blood dragon far behind the yuwenji and others.

Yuwenji in the distance obviously knew that this trip would meet the reincarnation master, so he told him, "if you see that boy, you know what to do!"

Chen cangsheng can't enter the place of treasure, but he personally selects the dark dragon warrior for yuwenji to help yuwenji win the treasure of Huanglong GuDi.

After hearing Yu Wenji's words, the strong Ming dragon burst out: "little Lord, we must kill him in the ruins of the wild dragon."

Yuwenji nods. Although Chen Cangsheng has said to him many times that treasure must be the first, this time Yuwenji has so many cards that it is inevitable that he wants to kill Ye Chen.

Suddenly, Yuwen machine seems to find something, cold eyes staring at a direction behind, can not find.

"Strange, am I wrong?"

.....

"Master, the magic beads of the demon emperor are really effective. They really can't recognize us." Blood dragon showed a smile, this kind of Mantis chasing cicadas and yellow sparrow feeling, let him feel very cool.

"This relic belongs to Huanglong ancient emperor. He is the same realm as Henggu holy emperor. Although he failed in his ascent to the world, his power is enough to kill us hundreds of times. We should be careful."

Ye Chen told them that from the time they stepped into the treasure land of the ancient emperor Huanglong, the treasure land showed strange places everywhere.

Suddenly, Xuelong's expression changed, and he found that Yuwenji was gone!

"What's the matter?" Blood dragon surprised way, they only in Yuwen machine behind less than 100 meters, how can lose each other's figure.

Ye Chen grabbed the blood dragon he wanted to catch up with: "the terrain has changed. You can understand that the place where we were just located has been changed randomly."

Chapter 5117

The treasure area is endless, with layers of sand dunes and no landmarks. No matter how much you go, you can almost see the same scenery.

But ye Chen knew that from the first step, every step under their feet was different.

"Shasha, Shasha..."

It's the sound of friction as the wind blows through the gravel on the ground.

"Master?" At this time, the blood dragon did not directly sacrifice the emperor's scepter to avoid exposing his identity. Instead, he put a knife in front of Ye Chen's body.

Ye Chen squats down and picks up the gravel. The gravel is like a kilo of boulders, directing to the ground.

"Gulu..." Where the gravel was picked up, a round hole appeared. The gravel at the hole flowed down, from which a skeleton warrior emerged.

His ragged clothes seemed to have been buried in gravel for a long time. At this time, he came out and didn't know if he wanted to change a graveyard for himself.

"Ah The blood dragon's long sword had been cut across the skeleton warrior. The slender white skeleton arm was broken by the awn and fell on the gravel.

"Gulu..."

"Gulu..."

"Gulu..."

At the same time, the sand and gravel on the ground show the round cave entrance one after another, from which skeletons come out, some holding swords, some unarmed, but it is the first time to attack the blood dragon.

Ye Chen is not in a hurry. He carefully observes these skeleton warriors. All the settings of this treasure place are different from those he met before.

"Do you see the problem?" Ye Chen asked Xuelong about the place of treasure.

"I think it's strange that the guardians of these treasure lands are weak." The blood dragon was puzzled.

"We're still out there." Ye Chen sighed. Now it seems that Yu Wenji is the first to find the way to enter the treasure center.

"We, as well as the creatures or warriors we meet today, are still on the outside of the land of treasure, so we can easily kill them without exposing our strength."

"How can we get into the core of the ancient emperor Huanglong?" XUELONG has a headache.

"Gengjin light seeking array!"

All of a sudden, ye Chen thought of an array that emperor taixuan had learned by chance!

The next second, ye Chen fingers pinch Jue, array and move!

That array of falton turned into a streamer, light and fast stretching to a sand dune.

Ye Chen's heart is very happy, and he also temporarily remembers that there is a way to connect heaven and earth in this array. Generally, there is no place to escape in front of him.

"Go

Ye Chen step on the void, has followed the light, into the sand dune.

Originally ubiquitous sand dunes, but at this time like a paper curtain, let Ye Chen and blood dragon burst in.

"The soil under my feet has changed."

Ye Chen noticed that this ubiquitous sand dune is actually the access to the hinterland of the treasure? There is a real illusion of being hidden in the market.

However, ye Chen admired the ancient emperor Huanglong for his wisdom, brute force, magic weapon and luck. The old master really didn't choose people for inheritance.

All of a sudden, ye Chen's face changed, and he felt the power of mingyueyuanshu nearby!

Is it Xia Ruoxue?

"Master? Is it Miss Xia The blood dragon apparently sensed something, too.

And now, not far away.

"Bound by the holy light!"

The three holy heaven strongmen are forming a battle. Obviously, they are not together with the great forces of holy heaven mansion. They don't know whether they are acting separately or separated for some reason.

"The bright moon, the heavenly book, the Wanyan sword!"

Xia Ruoxue's long sword leaves a bright luster after each cut. The seemingly continuous sword actually points to the key and destroys the cooperation of the three.

"Heavenly dove

The three saints hold a long spear with a little pearl on the tip of the spear.

Xia Ruoxue has no fear at all. She goes up with her sword. As the master of the bright moon, she always has the breath of the bright moon: "bright moon great mercy curse!"

Sanskrit scriptures are the general words, each word is clear and audible, and is attached to the sword.

Every time Xia Ruoxue said a word, her sword was sharp. Until the last word was finished, her sword was already unstoppable.

In the face of this burst sword platform, the holy heaven strongman can only give way quickly. They don't want to risk their lives.

"Holy heaven's soul lock!"

There is a chain in the void, and the whole body is twined with a turquoise luster, just like a man's wide chain colliding together, making the sound of metal collision.

"Entanglement!" Roared the mighty one.

"The moon breaks through the sky!" Xia ruoxuehao is not flustered. He directly records the moon breaking through the sky, and the streamer is rampant.

The sword was tightly entangled by the chain, and each side held it for a while, but for a while, it turned into a deadlock."The moon pursues dreams!"

Seeing this, Xia Ruoxue snorts coldly. She just reveals that she has a letter from the moon. The strongman of shengtianfu chases her all the way. It's extremely treacherous.

At this time, the original night even rose a curved moon, and the osmanthus tree could still be seen in the moon. The petals of the osmanthus tree fell in the treasure land, and some of them fell on the chain. The chain was broken by the touch of the osmanthus.

"Just a girl with a big chance!"

One of them said that, he took out five Bing transparent throwing knife from his arms. It's easy to hide the gun, but it's hard to defend the hidden weapon. He bet that the girl couldn't see the hidden weapon.

Xia Ruoxue doesn't see the thin flying dagger at this time. Her sword moves are very fast, and she is going to kill the three men in one go.

hidden in the dark, ye Chen finds the hidden flying dagger for the first time. When it comes to Ruoxue's safety, ye Chen doesn't hesitate to pull out the evil sword and wave it with one sword, which is like heaven falling apart, As soon as the sword Qi rolled, he immediately shot down the five Bing Throwing Knife.

Xia Ruoxue sees others approaching at this time, but she doesn't know them.

Ye Chen is not in a hurry to prove his identity to Xia Ruoxue, so he uses his sword to run through the ground.

"This is Shajian? Is Ye Chen you

Xia Ruoxue joyfully shouts, the human already quickly walks to the leaf Chen side: "how are you here?"

Ye Chen is also a tiny smile, rare show tender side: "this words should I ask you, how can you be in heaven and man domain, and why can appear here?"

Xia Ruoxue showed an enigmatic smile: "because I have a big chance, my master instructed me to come."

"Master?"

Ye Chen doesn't understand. It seems that Xia Ruoxue has a chance to be apart from him.

"Well, my master is the goddess of the moon." Xia Ruoxue's face appeared a trace of blush, "she is the master of the moon source technique who survived in the ancient times."

Hearing this, ye Chen is also happy for Xia Ruoxue. The master of mingyueyuanshu can obviously guide Xia Ruoxue's future cultivation.

"However, because of the Taigu war, her injury was not healed for a long time. I came here to find an old thing owned by the ancient emperor Huanglong to heal her injury."

Chapter 5118

"Good Let's help you find it together. " Ye Chen said, "by the way, what's your master's guide?"

Xia Ruoxue shakes her head. On the side of the goddess of mercy, she just heard that huanglonggudi had mastered a strange medicine, which was beneficial to her injury, but she didn't get accurate information.

"Don't come this time, but I want to take a chance."

Ye Chen nodded and comforted: "don't worry. Xuelong and I will help you find it together. If there is any medicine to consolidate the essence and cultivate the yuan, we will take it back together and give it to your master."

Ye Chen doesn't know it at all. At the moment, he hides a divine idea of the goddess of mercy on Xia Ruoxue. When he hears Ye Chen say this, he is also deeply gratified.

It seems that this little apprentice, who has a deep attachment to Ye Chen, is not single Acacia. But the goddess of mercy faintly felt that something was wrong. The breath of the treasure land of huanglonggudi was a little disordered, and it didn't look like a treasure land at all.

.....

Little chance hall.

Ye Chen and his party finally found a palace after several twists and turns according to the map in the hands of the strongman of shengtianfu.

"Ye Chen, you see, this palace is called the small chance hall!" Xia Ruoxue said excitedly.

"Master, I'll go first." The blood dragon takes the lead and says that as a servant, he will take the lead.

"Be careful." Ye Chen exhorts a way.

The blood dragon offered a scepter to the emperor. The jewels on the scepter gave off a soft light, illuminating everything in the hall of chance.

"Murals on the wall?" Xia Ruoxue said that she had seen it from the first one.

The scene of the ancient flood and famine is engraved on the wall, but it's not a battlefield, and it's also the process of exploring treasure by the ancient dragon emperor.

The dragon scale under the top of the deep sea.

Snow lotus on the ice for ages.

The precious herbal medicine of the queen of WanMu.

There are many other treasures.

"Are all these things buried in the treasure land of Huanglong ancient emperor?" Xia Ruoxue exclaimed, "no wonder the master thinks there will be something she needs here."

The palace was built very early. The corners of the palace have been weathered. I think it's because the owner is no longer there. There is no aura to moisten it. The spirit of the palace has already dissipated.

"Look around. What's in this palace."

Ye Chen said that he had taken the lead in walking towards the back hall.

Obviously, they were not the first to come to the palace. There were many boxes that might have been used to store treasures. By this time, there were only boxes left.

"It's the only secret room that can't open the door." Blood dragon obviously found something, ready to break in at any time.

"Well." Ye Chen nodded slightly.

"Wu long you Tian Dao!"

The blood dragon's whole body was full of Qi and blood, and it seemed that his heart, liver, spleen, lung and kidney were burning. He broke out a brilliant flying sword, and with the dragon's murderous Qi, he cut into the secret room.

But there was no response.

The blood dragon is about to attack again, but is stopped by Ye Chen.

Ye Chen slowly looked at all the objects beside him. There were several incense sticks on his left side. He took them in his hand, injected aura, and then inserted them on the censer.

"Who will burn incense and pray?"

An old voice sounded out of thin air, and the sky hanging above the heads of the people seemed to show a huge figure, looking down on them like a giant.

"Master, we entered the ruins of Huanglong GuDi this time to find medicine for our teacher." Xia Ruoxue said.

"Now that you have entered the hall of small chance, it is also my chance. If you pass my test, you can get a satisfactory chance in my hall of small chance."

Ye Chen and Xia Ruoxue look at each other. What's the test?

"Thank you, master. I don't know what your test is?"

"There are many magic weapons in my little chance hall. You must have seen every one on the wall where you came in. It's very helpful to practice with you. However, I can only send out two magic weapons at a time. "

Ye Chen eyebrow a pick, this meaning is to let us kill each other?

"But there are only three of you, only two of them. Well, you two join hands to kill the other, and I'll give you the magic weapon, OK? "

Ye Chen hasn't waited for the other party to finish saying the last words, the evil spirit sword has already chopped toward the low wall beside the secret room in the hand.

The bright syllables of Hongmeng burst up on Ye Chen's sword, and countless Buddhist lights surged. Even the Runes of the dark source symbol turned into hollow gold, which was brilliant and dazzling.

In the void, there is also the chanting of the temple of heavenly Buddha, which shows the magnificent atmosphere.

At this time, a fluffy paw is against Ye Chen's evil sword. It has the sword power of chanting blessing in the holy hall, and is completely resisted by this thing.

"Who are you?"

Xia Ruoxue walks in a little bit and finds that it's a little medicine spirit. The whole body is still full of water lines. It's obvious that it hasn't been cultivated into a human shape.

"Hum!" Xiaoyaoling was obviously torn down and didn't pretend at all. She looked like a child's grievance. "You little thing, you just wanted to cheat us into killing each other!"

Blood dragon emerged a bloody claw to frighten the little medicine spirit.

"What's the matter with scaring you? Anyway, if you come to this place, you'll be dead in the end!"

Xiaoyaoling said impolitely.

Xia Ruoxue didn't put xiaoyaoling's words in her heart. With five fingers, a lotus seed appeared in her hand and handed it to xiaoyaoling.

"Here you are. Tell your sister where there are high-grade pills in this treasure land."

Ye Chen sees to blood dragon however, the latter a flash body, already left small chance temple.

"Why do we die?" Ye Chen toward small medicine spirit, suddenly ask a way.

Xiaoyaoling's paw has just touched Xia Ruoxue's lotus seed. Hearing Ye Chen's question, Xiaoyaoling rushes back.

"How do I know? I'm not a dragon." Xiaoyaoling holds his hands in front of his chest, turns his head and doesn't want to see Ye Chen.

"Is there something wrong with this treasure land?" Ye Chen inducts of say, "still say, waste dragon ancient emperor has a problem?"

This speech a, summer if snow all startled.

"You know? How do you know?" Xiaoyaoling quickly covered his mouth, "I didn't say anything."

Ye Chen two fingers raised small medicine spirit, "if snow, it seems that if the goddess of mercy took this pill, it should be able to recover as before."

"I'm a water system elixir. Now I've gradually developed a sense of God. I can be a Lingbao in the future. It's not very useful to take it." Xiaoyaoling struggles quickly.

Ye Chen a Zheng, murmur a way: "water system Dan Yao?"? No wonder you can take the Sha sword. "

"No matter what your origin is, I tell you that my patience is limited. I'll tell you the secret of this relic, or I don't mind feeding you to Xiao Hei. He's going to love your little potion

Although Xiaoyaoling doesn't know Xiaohei, he instinctively feels the chaotic things sleeping in Ye Chen's body. He swallows his saliva and is dead, so choose to die later.

Chapter 5119

He hesitated for a moment, and then said: "in fact, the whole relic is actually the conspiracy of the ancient emperor Huanglong. He did not die completely, but buried himself in the ground. By opening the treasure land, he lured more warriors into the treasure land to become his nourishment."

"He's right." The blood dragon didn't know when he had come back. He was holding a piece of sand with blood in his hand.

"The heavenly strongman we killed yesterday has disappeared. It should have been inhaled into the earth. This is the only one I found."

Ye Chen nodded. No wonder he felt that there were many strange things since he entered the treasure land. Now it seems that the skeleton warriors they faced were not the guardians of the treasure land at all, but a group of treasure seekers. They were changed after they were killed. This also explains why they were all warriors, but they never used aura.

"What shall we do next?"

Xia Ruoxue comes forward and rescues the little medicine spirit from ye Chen. The medicine spirit is obviously frightened by Ye Chen's divine power. She curls up in Xia Ruoxue's hands and turns into a crystal clear pill.

Ye Chen looked at the elixir in Xia Ruoxue's hand: "although this place is the plot of the ancient emperor Huanglong, the natural materials and local treasures engraved on the stone wall may not be false. This little chance hall still has this elixir."

The blood Dragon nodded, and the Huanglong ancient emperor and the Taigu ancestor's Dragon source art still have the same trend. When he stepped into the treasure land of Huanglong ancient emperor, the chain that originally wound around him was faintly shaking.

"My chains of confinement are also changing in this land of treasure, as if something is attracting me."

"Oh?" Ye Chen nods. It seems that the secret of the treasure land is not so simple.

"Ye Chen, my master's idea of guarding me also sensed the location of the spirit thing. I have to go."

Xia Ruoxue stretched out her hand and pointed to the south.

"And you?" Ye Chen looks at the blood dragon.

The blood dragon feels his nose awkwardly, but the guidance of Taigu ZuLong is opposite to Ruo Xue.

"I can go there myself. I don't know when this treasure land will break. I have a trace of my master's mind. No matter what happens? Master can protect my life. "

Hear Xia Ruoxue say like this, ye Chen also no longer many words: "after you take spirit thing, immediately leave here, then you can go to taixuan array door to find me."

Xia Ruoxue showed a smile and raised the sword in her handle. Her long hair curled up and her royal sword flew south.

"Master, I..." XUELONG's mood is a little complicated. He can find it by himself and let his master accompany Xia Ruoxue.

"Blood dragon, if Snow's chance is bigger, don't worry." Ye Chen said.

After all, the goddess of mercy is the source of the moon, and there are not many people who can compete with her.

The land of treasure is very vast. The wind and sand of the ancient times swept across the land. Every time the hurricane surged, there would be a bunch of winding deep ditches in the land of treasure, which would let countless relatively weak warriors into the deep ground.

"Master, they are all gathered at the door."

Blood dragon eyes blood red, eyes are staring at the empty space in front of the hall.

This hall is different from other halls. No matter it's sandstorm or hurricane, it can't enter the palace within ten miles.

"The people of the hell Dragon Temple and the holy heaven are there." Ye Chen said, reaching out to point to a large number of teams.

"They don't dare to enter easily. It's obviously weird." The blood dragon only felt that his chains were shaking more frequently. "Master, I can feel the influence of the ancient emperor Huanglong. The closer I get to the hall, the stronger it is."

"Well, let's see first."

Ye Chen with blood dragon slowly close to a relatively scattered crowd, their weapons are still not revealed, just ordinary taixuan array disciples dressed.

.....

It's not far away.

"Yuwenji, don't you claim that you must have the ambition of the ancient emperor of the barren dragon? Why don't you go in and grab it?"

A strong man in shengtianfu said sarcastically that yuwenji's sarcasm at the entrance made them quite unhappy.

"Hum, how do you know the secret of the Huanglong hall, you saints who don't even know the entrance restrictions?"

"Master, this Yuwen machine seems to know something." The blood dragon deliberately lowered his voice.

Ye Chen nodded slightly and made a careful mouth.

"Roar, roar..."

Once again, the sound of the dragon's chant sounded from the hall of the wild dragon, just like the sound of the dragon's chant before the opening of Taixu cave, but the power was more powerful.

The sound of the dragon's chanting turns into dragon shapes. The Dragon shapes soar up into the sky. The original sandstorm turns into dragon head, dragon body, dragon tail and dragon claw. Every detail of the dragon shape is incisively and vividly depicted. Even the dragon beard shows the power of the dragon.

All the dragon shaped sandstorms, facing the crowd standing ten miles away from the main hall, opened their huge mouths as if they were trying to devour all these human beings.

All the warriors almost immediately launched their own defense techniques to resist the sandstorm and desert dragons in the land of desert dragon treasure. Ye Chen's back hand didn't start any protection, but it was the shape of wind and sand. Yuwenji didn't dodge, so his strength should be the attack range of the dragon.

The blood dragon is really gathering strength, ready to compete with the sandstorm dragon.

"False?"

The warrior found that he had not been attacked in imagination, so he found out later.

"Well, ignorance." With a wave of his sleeve, Yu Wenji has led the people in the hell dragon temple to jump forward and prepare to enter the Huanglong hall.

"Let's keep up." Ye Chen greets the blood dragon, and follows Yu Wenji and his party, and goes to the Huanglong hall.

"The dragon of the dark flows to chop!" Yuwen machine holding double knives, directly hit the Dragon skeleton suddenly appeared from the ground.

"This skeleton appears very strange," Ye Chen said, not like before, there is a buffer period, but directly from the ground, with a clear target.

And the power is much more powerful than what they saw before.

However, this Yuwen machine is obviously well prepared. It seems that he already knows how to open the hall, and he is very familiar with the Huanglong hall.

"Hundred chop meteor sword!"

"Subdue the dragon and control Wen Zhang!"

"Wanfu Linglong gun!"

"Shengtianmingyi gun!"

All the warriors sacrificed their powers to avoid the skeleton.

At the gate of Huanglong hall for a moment, all kinds of magical powers were shining. Swords, spears, swords, halberds and skeletons collided with each other, making a thundering sound, surging in the treasure land.

"Source of darkness!" Ye Chen sees the right time and directly urges the dark source symbol.

With Ye Chen as the center, darkness gradually invades, shielding all the luster.

"What is it?"

"Is it the miracle of these skeletons of huanglonggudi?"

There is no day, all people's vision at this time into the dark, can no longer see what next.

But the skeleton army is still indifferent to continue to attack!

Chapter 5120

"This is not the ancient method of the ancient emperor Huanglong! This is the dark source of reincarnation. The strongmen of shengtianfu have participated in the battle of netherworld, and have already seen the power of Ye Chen's dark source.

"The Lord of reincarnation?" Yuwen machine Hear ye Chen, heart kill read already.

"All the people in the hell Dragon Temple, follow me to kill the reincarnation Lord!"

Yuwen machine toward the direction of the hall before the dark, since Ye Chen came, he must kill Ye Chen thoroughly in this wasteland of dragon treasure!

"Dark beast!" Ye Chen roars again, a head of dark phantom beast, has been through the dark toward the Dark Dragon Temple of people galloping away.

Darkness is the best cover for the phantoms. They roar and rush in. The people in the hell dragon temple only feel that there are countless spirit beasts tearing at them from all directions.

"Dark dragon, Red Sky Pearl!"

Yuwenji can't manage so much at this time. Dark dragon and red dragon ball is an important magic weapon of dark dragon temple, which can create a glimmer of life in the absolute gap.

At this time, just trapped in the dark source, in fact, far from the time to use this bead, but yuwenji has already killed red eyes.

For ye Luo'er, he and ye Chen have fought each other several times, but the losses are more and more serious.

This time, in order to win the inheritance of Huanglong ancient emperor, he sought many magic weapons from the hell dragon temple.

At this moment, he absolutely can't let Ye Chen go into the Huanglong hall first.

"Bang!"

The dark dragon and the red dragon ball are carved with dragon runes. Under the copper shell, the whole bead strikes the gate of Huanglong hall like a streamer, and bursts into bright fire.

The light of the fire caused a huge sound of explosion, and the tongue of fire almost rolled the people around far away.

"Blood Thunder Wind armor!"

The blood dragon summons the skill of blood thunder light to cover him and ye Chen together and protect them from the power of the Dark Dragon Red Dragon ball.

"Hum!"

The power of dark dragon and red dragon ball opened the door of the hall of the wild dragon, and also stepped out of the shadow of the dark source symbol.

"Ye Chen! Come out and die

Yuwen's body turned into a dark dragon in a flash. Every scale of his body showed the darkness of eternal night, as if there was a dark world in every scale, and the breath flew toward the location of yechen and Xuelong.

That originally followed behind him in the dark dragon temple strongman, at this time also one after another into the dragon shape, follow Yuwen machine behind, toward Ye Chen they attack.

"The world is vast, the road is alone! The Supreme Master said, "rise!"

Ye Chen suddenly drinks, and the purple ribbon thousand machine seal appears, which directly opens the way of the Supreme Master.

Yuwenji's accomplishments are extremely powerful, so we must use the Heavenly Master's way to improve our strength, so that we can have the opportunity to compete.

As soon as the master of heaven's way comes out, ye Chen turns into the Supreme Master of heaven. The dragon and tiger roar. The sword in his hand is as sharp as electricity. The rolling stars burst, and the sword kills wildly. He shouts:

"star soul chop, break it for me!"

With a wave of the long sword, the light of the rolling sword comes out like a river of stars, and the star soul chopper bursts out in an instant with the atmosphere of dragons and tigers roaring.

Whoa!

Yuwenji's dragon claw was attacked by Xinghun chop, but it was instantly marked with a bloodstain, dripping with blood.

With the blessing of Tianshi Daofa and ye Chen's previous understanding of tianwu scriptures, the Xinghun chop at this time is different from the previous Xinghun chop.

"Dark dragon forces heaven to strike!"

All of a sudden, yuwenji played ten million holy lights, as if to run through the eternal time and space, vast and hegemonic.

"Young master! What matters is the remains of the ancient emperor Huanglong

A strong man in the hell Dragon Temple quickly grabbed the angry Yuwen machine.

Yu text machine turns into human form, mercilessly stares at Ye Chen one eye, tightly clenched the map in the hand: "go!"

Ye Chen sees Yu Wen Ji and others walking towards the palace, and looks at the blood dragon.

Blood dragon's strength gradually weakened from the beginning of entering the hall. He needed to divert part of his blood to suppress the chains in his body.

"Master, Taigu ZuLong felt a threat."

The rest of the chain is actually the source of strength that seals Taigu ZuLong. At the beginning, Taigu ZuLong worried that the blood dragon's body could not bear such pressure, so for protection, he set the chain on his body.

At this time, when he stepped into the hall of the wild dragon, the breath of the blood dragon was strong, and the chain of the prison was shaking abnormally, which made him have to be awed by the power of his blood.

"Do you even want to be afraid of the threat of Taigu ZuLong?" Ye Chen thought, "then you are here. I'll go in and find out!"

Blood dragon shook his head, "I can suppress, this archaic ancestor dragon should know what this is, I think if I get closer, maybe I can get enlightenment."

Ye Chen doesn't insist any more. Bagua Tiandan technique has refined countless elixirs and turned them into Taoist breath, which infiltrates into the eyes, ears, mouth and nose of Xuelong and helps him suppress the restlessness of the chain. At the moment, those who broke into the hall of martial arts, almost all crazy, the same grab the Lingbao things.

"Xiaoyuanshu!"

"Bagua Xuanmiao pill!"

"Huanglong GuDi is really a big hand!"

"This is mine!"

With the roar of the voice, after entering the martial arts to see the former to get the baby, have killed red eyes.

No company, no family, no brothers.

There is only dripping blood on the sword, and the venomous eyes.

"Master, are they crazy?"

Blood dragon watching this scene, human greed, under the influence of these powers, is particularly prominent.

Ye Chen shook his head: "in their hearts, this is their chance."

"Master, look there!"

All of a sudden, the blood dragon pointed to a stone platform. The box on it had already been overturned, and the things in it had not been known by which warrior.

"Array?"

Ye Chen looks at the ancient Wenluo. Standing on the stone platform at this time, he finds that the whole Huanglong hall was built according to the five elements. At each node of the five elements, there are warriors fighting for treasure.

Their blood soaked the ground under their feet, layer by layer watering the array with blood.

"It's the Dragon taking the spirit array!"

The blood dragon suddenly said that the archaic ancestor dragon in his body had just sent a voice to him with a chain. This dragon's spirit grabbing array was a secret method of archaic times. At first, it could even be side by side with the supreme way, but later, because this method was too vicious, the powers were no longer inherited.

"Do you know how to crack it, master ZuLong?" Ye Chen hurriedly asks a way.

XUELONG shakes his head. He has just opened the chain of confinement. Although his realm has been improved, he can't use it any more for a short time because he borrows all the power of Taigu ZuLong. The words Taigu ZuLong gave him through the chain are what he did his best for.

Ye Chen Mou son one coagulates, the affair appears more difficult.
