Chapter 5161

"By the way, what happened to taixuan array gate and lu'er?" Ye Chen asked.

The blood dragon just wanted to answer, suddenly, there was a roar in the sky!

"Master, is there a strong one at war?" The blood dragon looked at the direction of the sound in the sky.

"I don't think so."

Ye Chen shakes his head and looks dignified. In this case, it's not like a war, it's more like an opening miracle.

In a flash, the whole sky turned into a deep dark color, and the thunder surged in the sea of clouds.

Like the fury of the sky, every ray of thunder makes Ye Chen feel creepy.

"Who is strong enough to survive?" The blood dragon guessed.

Ye Chen shakes his head. Now the whole sky is in the turning of the thunder. He can't see the specific direction.

But the endless road of destruction overflows, as if to annihilate the whole small world.

I don't know how long it took before everything stopped.

"That's it?" Blood dragon some unimaginable say, suddenly, the sky all abnormal move all disappear.

"Well..." Ye Chen looks at the sky with a dignified look.

I saw that the sky above, unexpectedly appeared swimming two fish lightning.

The two fish lightning, swimming and playing with each other, eventually turned into yin and Yang Charms at both ends!

A black and a white echo each other, a line of movement between end to end.

The black swimming fish is like a ghost from hell, mixed with the smell of darkness, each ball is dark.

It's like seeing the abyss of hell, dragging you into it.

The white swimming fish is like a fairy from the divine world. The red and golden fog covers the sky, and the wisps of light and righteousness sweep the whole sky.

The collision of black and white!

The collision between hell and fairy!

This seemingly balanced Pisces is formed.

"It's the vision of Yin Yang Pisces!"

Ye Chen Mou son a coagulation, indifference also become extreme shock, he didn't expect, this related to Yin and Yang Temple of vision unexpectedly appear at this time.

"Yin Yang Pisces?" Obviously, it's not the first time that the blood dragon has heard of this vision, "master, does that mean that the strong one in the temple of yin and Yang is nearby?"

"I don't know, but it must have something to do with it." Ye Chen's expression is very dignified.

The temple of yin and Yang was built secretly by himself in his last life, but its extraordinary secret, no one can know the real situation.

In this way, maybe the Yin Yang Temple is one of the big games he made in his previous life.

Is the appearance of miracles also the arrangement of previous life?

"There are too many things behind the legendary Temple of yin and Yang. To control the temple of yin and Yang is to control the rules."

"Control the rules?"

The blood dragon was surprised. In this way, the layout of the Yin Yang Temple was not simple.

The power of the rules may be the shackles between here and the superior. Doing against heaven will be restricted by the power of the rules.

Ye Chen takes out a Pisces jade pendant from his arms.

"The Yin and Yang Pisces formed above the sky are in the same shape as the Pisces jade pendant given to me by Qi Yunshu."

Qi Yunshu had saved him and yeluoer from the power of Shitian and xuanjiyue many times, and he was also a messenger of Yin Yang Temple.

"Is this the guide of the temple of yin and yang to us?"

"Maybe." Ye Chen said.

Pisces jade pendant is divided into a black and a white, crystal clear, exuding the supreme mysterious flavor, the black and white flow slowly, people can't help but fall into it at a glance.

"When it turns into a Pisces, it's the day when the temple meets."

This sentence is like a God's residence, repeatedly knocking on Ye Chen's heart.

At this time, the Pisces jade pendant is still in Ye Chen's hands.

But the Yin and Yang Pisces above the sky are like a replica of a jade pendant. The black and white flow seems to guide him.

"Is it chance or trap?"

Ye Chen ponders, for a long time has not spoken.

"Go or not?"

"Yes, of course." Blood dragon firmly said, "since it is the temple built by your master in your previous life, it must have been carefully designed, and Qi Yunshu has saved us many times before."

"You're right. Whether it's chance or trap, as long as you can make this Pisces, it must be related to the temple of yin and Yang. Let's go and find out."

Ye Chen made up his mind that since the temple of yin and Yang was related to the layout of his previous life, he would solve the chess game one by one.

.....

At the same time, it is a golden and magnificent heavenly palace with countless auspicious atmosphere.

A woman with cold temperament and the power of the queen is staring at the picture in front of her.

"Yin Yang Pisces?" Xuanjiyue's delicate appearance showed an incredible look.

"Who would be in the temple of yin and Yang?"

There is an old man on his knees not far away.

The old man looked at the picture and frowned: "I don't know. At the beginning, the reincarnation Lord was very secret to the temple of yin and Yang."

"You don't know But I've heard one sentence at the beginning. " Xuanjiyue said slowly.

"When it turns into a Pisces, it's the day when the temple meets."

"It? What is it? " The old man looked at xuanjiyue with some doubts.

"I don't know." Xuanjiyue shakes her head. This is what she learned from each other's memory when she killed a capable person in the Yin Yang Temple.

"Is it the vision in the sky that converges into Pisces?"

"Maybe, maybe not."

"If so, will the temple of yin and Yang return to the world?" The old man's voice was full of worry. The reincarnation Lord was dead, but his reincarnation body had returned to the world.

If his reincarnation body is allowed to inherit the temple of yin and Yang again, the consequences will be

"You don't want to see the temple of yin and Yang reappear."

Xuanjiyue nodded, "whether the other party is a person or a ghost, we all send someone to find out."

"Even if it is a trap, we should kill all the hopes of the temple of yin and Yang and the Lord of reincarnation."

"It's up to xuanxiao."

"Also, if I guess correctly, the emperor Shitian should have a reaction."

.....

The screen turns.

Ye Chen urges the Pisces jade pendant in his hand, and the whole jade pendant rotates, which echoes with the changes above the sky.

Then the jade pendant flew out and ran in one direction.

"Master, this is the direction of Yuhan city!"

The blood dragon yells, although it's not a long time since he came to heaven and man, he knows the location very well.

"Go

Against the wind, the two of them had already made a hundred miles in one step.

"How far is it?"

Ye Chen looks at the Yin and Yang Pisces in the sky, which have already faintly disappeared.

"It should be fast. It's the direction of Yuhan city!"

XUELONG reconfirmed that they were on their way, and the direction of jade pendant was always yuhancheng.

"Good!" Ye Chen nodded.

Chapter 5162

When they arrived at Yuhan City, the vision of yin and Yang Pisces on the sky had disappeared.

But the Pisces jade pendant in Ye Chen's hand is emitting Yingying green light, as if telling them that they are not going in the wrong direction.

"Where is this Yuhan city?"

"It's said that Yuhan city is the most lively city in heaven and man before. Yujianghan, the city leader, is unrestrained and unrestrained. He is a rare thoroughgoing person in daomen. However, after the first World War, he disappeared strangely. After his disappearance, yuhancheng, because no one was in charge of it, became a place for all major forces to fight for. "

The blood dragon recalled the classics he had seen before and said.

"Oh." Ye Chen nods, but vaguely feels that there seems to be something different in yuhancheng at this time.

"There seems to be no one here!" Ye Chen sensed the circumstance all around and said doubtfully.

"It's strange. Later, it was mentioned in the ancient books that it seems that the weather in Yuhan city is different from before without the protection of Yujiang cold. The original scenery of four seasons like spring has lost spring, summer and autumn, leaving only winter. "

"It doesn't matter how cold it is. There are several warriors who are afraid of cold." Ye Chen shakes his head, and the temperature is obviously not the main reason why yuhancheng is uninhabited at this time.

"Master, it's not nobody." The blood dragon pointed to an ice sculpture not far away and said.

Ye Chen came forward and looked at the ice sculpture carefully.

Where is this ice sculpture! It's clearly a warrior who is frozen.

"All the people here are frozen?" Ye Chen says inconceivably.

"Well!" The blood Dragon nodded, his arm slightly extended and touched the nearest ice sculpture.

In an instant, the ice sculpture turned into vermicelli.

Powdery pieces of ice were scattered all over the ground, but there was no sign of melting.

"Is it so cold here?" Ye Chen has reincarnation blood in his body, and he is not afraid of cold.

"I can't feel it." Blood dragon was originally extremely hot, never experienced cold, and where to know the taste of cold.

"What a catastrophe they've been through."

Ye Chen's indifferent face feels more and more wrong, but he can only lead the blood dragon to go on.

"All warriors?"

The blood dragon observed the dress of almost every frozen person. They came from different schools and had different waist accessories.

The only consensus is that almost all the warriors were frozen without knowing it.

And the freezing time should be very fast, so that some of them are drinking water, some are just about to turn around.

Freeze frame, everyone keeps the posture of that moment.

"Master, there is a strong evil spirit!" Blood dragon's eye color becomes two colors again, black and red opposite.

Since he accepted the blessing of ghosts and gods, he has a sharper sense of evil spirit.

"The evil spirit is terrible. Something should be suppressed underground!"

Ye Chen and Xue long have just entered the gate of the city, and the evil spirit they feel has already rushed past.

When the scepter in the blood dragon's hand was sacrificed, the dragon ball on the top of the scepter was shining, directly penetrating layers of evil spirit and shining into the distance.

"It should be the temple of the main city, where the evil spirit is stronger!"

Ye Chen nods, abnormal must have demon.

"Let's be careful."

The blood dragon holds the scepter and protects Ye Chen.

"The ground here is frozen, too!" The central ground of the main city is like an ice mirror at this time.

All the objects visible to the naked eye are frozen, and the evil spirit of blocking the sky fills every corner.

"This catastrophe may not be over yet."

Ye Chen looks at this kind of scene, can't help but sigh a way.

He vaguely saw the ice on the ground, and the signal to continue to extend, as if it was devouring yuhancheng inch by inch.

"Shall we go in and have a look?"

Having said that, the blood dragon's hand has been slapped on the ground, and the blood lava force flowing from the blood dragon's body wants to melt all the ice on the ground.

"The source of ice seems endless."

Ten breath, also just melted a little bit of ice.

Ye Chen knows clearly: "it seems that this ice source is from underground."

"Knock it directly!" Ye chendao.

The vision of Pisces and Pisces is so strong that many people will covet it. They don't have so much time.

We can only use the most violent method to enter the main city of Yuhan city.

"Wild dragon, thunderbolt!"

This is a magic power that he felt in refining the body of the dragon. This magic power was created by the ancient emperor of the dragon. He combined his own dragon breath with the power of thunder to form a dragon breath bead winding thunder.

Where longxizhu goes, it can trigger a torrent like blasting force, which can pierce any object.

At this time, all the ice sculptures in the main city of Yuhan city had been turned into powder and scattered in the sky under the power of longxizhu. "Master, the main tower has not been broken down."

The blood dragon is a little strange. The power of the thunder god explosion should not be so small.

"It's not that you don't have enough magic power, it's that there's something wrong with the main city."

Ye Chen can see the strangeness of the main city building with his naked eye.

Normally, the ice should have frozen everything.

But there should be a transparent boundary outside the main city, and the ice layer actually covers the boundary.

Now the blood dragon's strike will smash all the ice layers outside the border, revealing the well preserved main city hidden inside.

"Let's go into the main city building and have a look."

Ye Chen said, has stepped into the main city building.

However, ye Chen has not stepped in yet, a startling voice rings out!

"Want to go in? Did you ask me about xuanxiao

Crackle!

Just then, a thunderbolt broke through the sky.

Roar!

Then, an earth shaking roar, ferocious resounding, shaking people's mind.

I saw a huge, hairy head, huge eyes, teeth like a sword and halberd, and a ferocious beast, roaring down from the sky.

This giant beast is towering and huge. It is just like a mountain. Its momentum is amazing and shocking.

"Master!" Blood Dragon said, the whole body has entered a defensive state.

When the mandrill stepped on it, the earth burst and the earth and rock flew. All the icicles on the ground were shaken and turned into broken ice and fell on the ground.

Blood dragon's whole body Qi and blood burst out, heart, liver, spleen, lung and kidney seemed to be burning, condensing a brilliant sword, with tengtengteng killing intention, straight toward xuanxia.

"Blood thunder! Broken

At the same time, the blood dragon waved the scepter in his hand, and suddenly burst out with incomparable brilliance.

The blood dragon, who has the power of inheriting the Huanglong ancient emperor and the Taigu ancestral dragon, has no way to survive under the attack.

"The rune escapes!" Xuanxiao instantly felt something was wrong, roared and quickly tore up the talisman that xuanjiyue had given him.

"Go back and tell xuanjiyue to come in person, otherwise, my master and I will see you once and kill you once!" Roared the blood dragon.

After finishing all this, Xuelong looked at yechen and said, "master, let's continue."

However, ye Chen suddenly raised his arm to stop the blood dragon's step: "there are still people."

Finish saying, ye Chen's vision looks at the place where an icicle stands.

Chapter 5163

"Pa Pa Pa!"

There were bursts of applause.

Then, I saw an old Taoist, holding the dust, stepping like stepping on a hurricane. In an instant, he had reached Ye Chen and Xuelong.

"You made this Pisces?"

"Your Majesty is counting on these people. No wonder they let you escape again and again."

Ye Chen Mou son one coagulates, it is very obvious that the other side is not the person of Xuan Ji month, that has only one result!

"You are sent by the emperor

The old Taoist looked suddenly dignified and said in an angry voice: "the master of the temple is wise and powerful. Dare you call his name directly!"

Blood dragon step out, the meaning of the ancient sent out: "master, why talk with him, mole ant just, let me take him to sacrifice the ancient emperor."

"Quanyi four image formation!" When the Taoist priest of Quanyi swept away the dust, the cold and frosty breath of the main city of Yuhan city had all gathered together.

The four image array on the ground, from the four directions of southeast, northwest, developed into a strange beast.

"East, wind spirit beast!"

"West, fire spirit beast!"

"South, thunder spirit beast!"

"North, electrified beast!"

Four fierce beasts saw in the four directions of the array, looking at the blood dragon and ye Chen.

"Roar, roar, roar!"

The roaring sound is like thunder, knocking on the eardrum of people.

"A small skill of carving insects!" Blood dragon silk is not shaken by this simple array.

"Since you are good at using arrays, let's compare them!"

The blood dragon engulfed the spirit grabbing array of the ancient emperor Huanglong. All the power of the array was absorbed by him. By fusing the power of his own blood, he had a new understanding.

"Thundering ghost array!"

The scepter God bead in the blood dragon's hand was shining at this time, and there were bloody ghosts in the dark.

Originally, it was above the Quan Yi Taoist's array. At this time, the blood dragon's thunder ghost spirit array has a larger coverage in front of it.

The blood dragon with the blessing of ghosts and gods, the blessing pattern on the right arm, has spread a golden luster at this time.

The blood dragon suddenly raised a fist with his right hand and directly bombarded the center of Quan Yi Taoist's array.

Quanyi Taoist whisks the dust and rolls, a huge icicle has hit the blood dragon.

The blood dragon's spirit array has been turned, and the originally transparent sky, at this time, under the stimulation of the array, the dark black awn has been rising slowly.

A huge shadow rises from the array. The ghosts and gods from hell have a sense of cold vicissitudes.

The shadow of nothingness is the light of secluded yellow spring in the dark eyes.

He slowly raised his hand and fingers, pointing to the four fierce beasts.

"Roar..."

The fierce beast's face is full of timidity and fear, and the absolute strength.

The spirit beast of the four headed array has slowly entered the array and is recovering the array power by itself!

"It's impossible!" Quanyi Taoist exclaimed.

This Quanyi four image array was originally the strongest array he had mastered.

"Hum, ghosts and gods beheaded!"

Where will the blood dragon give Taoist Quanyi a chance to breathe? Almost at the same time, it has manipulated the array to kill Taoist Quanyi.

"No!" Quan Yi Taoist blocked his magic weapon in front of his chest.

In the face of the fierce ghosts and ghosts, the weak dust could not resist.

The broken floating dust, directly split into two, "Dong", fell on the ground of yuhancheng.

Quan Yi Taoist face as if dead ash, frightened looking at this ghost ghost shadow hold his throat.

And then No, then.

Quanyi Taoist, perish.

Blood dragon returns to Ye Chen's side again, quite some complacent say: "what bullshit whole instrument Taoist, weak burst!"

There is something wrong with Ye Chen's look. Why are the people sent by Emperor Shitian and xuanjiyue so weak this time?

It's not like the style of the two. Is there anything behind these two guys?

Ye Chen no longer thinks much, still way: "we hold tight."

At present, we must find the clues about the temple of yin and Yang as soon as possible, and then leave Yuhan city.

"Hum..."

The Pisces jade pendant in Ye Chen's hand is buzzing again and again.

"It's giving us directions!" Ye Chen said.

"Master! Look Sure enough, after bypassing the main city building, Xuelong saw a building, but there was a Yuhan tower written on it.

"Is this a tower?" Blood dragon incredible said.

"Maybe it is, maybe it's just the personal hobby of the Lord of Yuhan city."

Blood dragon still has some doubts, whose tower has only one floor.

The vibration of the double dragon jade pendant has stopped, and the former fluorescence has been restored.

"But I'm sure this place has something to do with the temple of yin and Yang."Ye Chen even felt a little familiar in this place.

As if he had been here before.

"Master, I'm outside."

The blood dragon looks at the jade cold Pagoda with only one floor and says.

Ye Chen nods, he can faintly feel that there should be no danger in it.

"Well, be careful." Ye Chen orders a way, "if special circumstance, you are defeated, don't resist hard, come in to look for me."

The blood Dragon nodded, hiding beside the tower gate.

Ye Chen is holding Pisces jade pendant, big square into Yuhan tower, ready to explore.

.....

Ye Chen doesn't know that when he walks into the tower, the place where emperor Shitian and xuanjiyue once sent the strongman to fight against the blood dragon sends out two extremely strange array awns!

The array became more and more dazzling, and finally formed two star charms.

Starlight charm is like Jiuyou's eyes, gazing at everything in front of you.

Taoists and the so-called xuanxiao are not against the existence of the reincarnation Lord at all! It's the back hand of the emperor Shitian and xuanjiyue who have a deep understanding of the temple of yin and Yang!

And these two starlight spells are the key!

They know that the people they send are bound to die!

But failure is what they want!

Because death, it is possible to condense the star charm!

This star charm comes from ancient times, and few people know it.

They are sure that the reincarnation master of this life does not know about it!

The two star Charms gradually fade, and finally they are like air, and then they go to Yuhan tower.

And just as the star spell was about to start, the void burst behind him, and a man with blood suddenly appeared.

The man put his hands behind him and said with a smile, "Star Charm, these two people are smart."

"But I don't like it."

Language falls, that vanishes star light charm to present the original form, is strange spontaneous combustion!

After that, everything calmed down.

And the man disappeared.

.....

Yuhan tower.

The leaf Chen complexion cautiously walks into the tower temple inside.

It's open and very large.

There are almost no furnishings in the tower, only a door, which is still painted with the pattern of yin and Yang Pisces.

Now, ye Chen almost doubts that the former leader of Yuhan city should be a member of the Yin and Yang Temple. Otherwise, no one else would have put such blatant Yin and Yang runes in their home.

On the huge stone gate, the Pisces are carved vividly. The black fish eyes are hollowed out, as if waiting for something to be embedded in them.

Chapter 5164

Ye Chen stretched out his hand and pushed the stone gate, but there was no movement.

He no longer hesitated, soul body transformation, super powerful use!

But the door still can't be opened.

He noticed that there was a strange Pisces dent on the door.

"Is it a Pisces jade pendant?" Ye Chen pondered and put the jade pendant on the stone gate.

"Click..."

The rune mark in the stone gate moves, making a sound of pushing and pulling. The stone gate slowly opens, revealing the stone ladder behind.

Ye Chen looks at this long underground stone ladder. At this time, he seems to understand that this place is called Yuhan tower.

This is not a traditional tower on the ground, but an inverted tower on the ground, like an image, upside down in the ground.

The heart reads a move, leaf Chen finger tip condenses a regiment of flame, illuminate this long stone ladder.

Just after ye Chen went into the stone gate, the jade pendant of yin and Yang Pisces fell and returned to Ye Chen. At the same time, the stone gate closed quickly, as if it had never been opened.

Ye Chen's fingers touch the winding stone wall and chisel the wall groove, which should be the light belt.

But now, there is no lamp oil in it.

"Such a long staircase leads directly to the bottom floor?" Ye Chen said to himself.

There are no obstacles and no attacks!

Now he is very suspicious, because he has a jade pendant of yin and Yang Pisces, so he took a shortcut?

"Dida, Dida..."

The sound of a drop of water is more obvious when it is dark and quiet.

"In the end?" Ye Chen quickened his pace, and the dark road ahead seemed to penetrate some light sources at this time.

But the light source is still weak, in this dark environment, still did not let Ye Chen see the situation in front.

"Hoo Hoo... "

Continuous breathing sound, very heavy.

Man or beast?

Ye Chen put away the flame in his hand, listening to the breath, the other party is obviously in a relatively weak state, the breath is like a dragon, floating, as if the next second is about to fall.

"Who is it?"

Before ye Chen came near, an old voice came from afar.

"In the lower leaves." Ye Chen speed up a few steps, a turn, saw the master of this voice.

The man had long blue hair with a Golden Topaz crown, which was a good thing at first sight.

His face was pale and bloodless, his lips were dry, and his eyebrows and eyes could vaguely see that he was also a romantic warrior when he was young.

Heroes die sooner or later, beauties die later or later, maybe the reincarnation of the world is not equal to cause and effect.

Ye Chen's vision slowly but down, the facial expression is strange, this person's lower body has already turned into ice sculpture.

And the dripping sound that ye Chen hears before, startled is the finger of his right hand, is melting icicle bit by bit.

It's just a pity that at this time, the old man only has a little bit of flesh color on his fingertips, and the last bit of flesh will be swallowed by the icicle.

"Master, you are..." Ye Chen stepped forward and squatted beside the old man.

"You're from there..."

The old man's eyes see ye Chen slightly shocked, but soon become complex and cautious.

Then his eyes have already begun to dissociate, and he looks at the place where ye Chen comes.

Ye Chen also with his line of sight to see past, but discover, what all have no.

The entrance disappeared?

It seems that the mechanism in the Yuhuan tower is not so simple. The design of such a huge mechanism doesn't make ye Chen aware of any change.

"Do you have..."

The old man's voice did not finish. His breath was like the silk of a lamp. He could not say a complete word.

"Are you from the temple of yin and Yang?"

Ye Chen asks quickly, what he cares most at this time is whether the old man has any connection with the Yin Yang Temple.

"Do you have Pisces jade pendant

The old man was not in a hurry to answer Ye Chen's question. For him, although the direction of Ye Chen's coming is enough to prove that he must be holding the keepsake of the temple of yin and Yang, after so many years of ice, the old man knew nothing about the changes of the external situation and could not believe others.

Even if some of the people in front of us are similar to the reincarnation Lord!!!

Ye Chen nodded, and then took out the Pisces jade pendant for the old man to see.

The glowing green light is obviously more shiny underground.

"Sure enough..." The old man's pale face showed a smile, and he finally arrived.

Ye Chen looked at the state of the old man, obviously the other party should have frost force into the body, it is estimated that it can't last for a moment.

He hastened to sacrifice the eight trigrams and heaven elixir, which extended the breath of the old man.

Under the eight trigrams heaven elixir, a trace of warm healing breath has passed through Ye Chen's palm to the old man's internal organs.

The Tao and Dharma are all eroded by external forces. In the face of the frost force that comes out of nowhere, and the old man has no idea how many years he has been here, the frost force has already devoured his menstrual blood. The eight trigrams heaven alchemy has no effect on the old man's state at this time.

"Three Shisanhong "Mongolian law?"

The old man watched Ye Chen's behavior and shook his head with a bitter smile.

"Don't Don't waste your efforts, "the old man said angrily," the eight trigrams heaven elixir technique is very good, but It's no use to me... "

Ye Chen at this time has also found, can only regret to pull back the palm.

The pills made by the eight trigrams heavenly elixir furnace have the same origin as the eight trigrams heavenly elixir technique. Naturally, they have no effect on the old man.

"Master, are you from the temple of yin and Yang?"

"Well I was The frost has been trapped for many years I can't stop coming in Frost in the body I sleep more and more every day... "

Ye Chen listens carefully, but does not dare to interrupt, for fear that the old man can no longer tell more secrets.

"So So today I Burning crystal source, opening the vision of yin and Yang Pisces Hope I hope that the strong of Yin Yang Temple will come here. "

Ye Chen nodded, and then shook his head: "master, I am not in the temple of yin and Yang, but I will get this pair of fish Jade Pendant by chance."

"Well Do you know The symbolic meaning of this jade pendant If you You have nothing to do with the temple of yin and Yang. Nothing can be said by you... "

It seems that this jade pendant of Yin Yang and Pisces is really very important for the Yin Yang Temple.

That Qi Yunshu entrusts this thing to himself, should also be the layout arrangement of the previous life?

In other words, when Pisces get together, it is the day when Yin and Yang temples get together. This sentence is true and credible.

"Master, who are you from the temple of yin and Yang? Do you know Master Qi Yunshu?"

Ye Chen asks a way in a hurry, for the temple of yin and Yang, he always has very obsessive.

The old man sighed: "from the beginning, there was no layout There is no way out

"We have lost reincarnation Lord of We shouldn't be like this! "

Chapter 5165

Ye Chen Mou son one coagulates, looking at the old man, the facial expression is dignified.

What is the meaning of the other party's words?

Is the temple of yin and Yang the master of reincarnation?

Is there something wrong with the layout of my previous life?

"Please tell me what happened in the temple of yin and Yang!"

The old man's body was constantly frozen. He spoke with difficulty: "once, our existence was For the mysterious supreme, wanxu temple. "

"We believe that the future belongs to reincarnation."

"I firmly believe that wanxu will be destroyed."

"However, the strength of wanxu is far beyond Our expectation

"Even some people in the temple of yin and Yang Fear! I'm shrinking

At this moment, ye Chen's look became extremely serious.

Layout is layout after all, too many changes make this game erratic.

The most important thing is that people's heart is the most uncertain in the layout!

Of course! Ye Chen still firmly believes that the people he chose in his previous life will never betray himself!

.....

Meanwhile, the Queen's palace.

Xuanjiyue's body appeared a charm with faint starlight!

It's the starlight charm!

Her angry expression disappeared long ago, but a successful smile appeared in the corner of her mouth.

Because a part of the picture of Yuhan palace appears in the star charm!

She knew that the people she sent out were bound to fail!

Since the failure has become the result, why not use the failure to explore the main layout of the reincarnation of the temple of yin and Yang!

However, her smile is gradually solidified!

Because the starlight spell in front of you suddenly broke! Dissipate completely!

Someone broke the star charm!

How could that be!

The star charm is so hidden that the reincarnation master of this life will not know!

Then who can find it and erase it in a flash!

This person's strength is not inferior to oneself absolutely, is more likely above oneself!

Is there anyone behind the Lord of reincarnation?

Who is it?

Xuanjiyue had a bleak and lonely figure in her mind!

Ren Fanfan!

"Isn't this guy not allowed to do it at will? Is it really him? "

At the thought of the star charm being destroyed, xuanjiyue's eyes were filled with anger!

"It's a bunch of crap!"

Xuanjiyue was furious, and the whole mansion trembled slightly.

"Emperor tianwu, come and see me quickly!" Xuanjiyue's cold voice sounded again, which was almost to carry out the authority of the whole heaven and human domain.

The white robed emperor tianwu appeared in front of xuanjiyue.

"Your Majesty, what can I do for you?"

It's hard to imagine that the original master of tianwu was called around by xuanjiyue like a dog.

Xuanjiyue's eyes were a little angry and said, "I want you to go to yuhancheng immediately. If you have a chance, destroy the broken dragon and what the reincarnation Lord is doing."

The emperor tianwu was shocked and murmured: "at the beginning, I was at Tiancan Niang's place. I once spied that the reincarnation Lord was in tianwu general arena. Unfortunately, when I arrived, it was empty."

"I will try my best to accomplish what her majesty has ordered this time."

Although xuanjiyue doesn't completely rely on tianwu emperor, it's enough to let the reincarnation Lord take off a layer of skin!

"Tianwu emperor, if you kill Ye Chen this time, the martial scriptures of that day will be yours."

"Thank you, your majesty!" Emperor tianwu's face was full of joy, the void was torn and disappeared in an instant.

.....

At the same time, the vision of yin and Yang Pisces naturally not only caused the idea of xuanjiyue and Emperor Shitian!

Some powerful people in Fangyuan have noticed! Including shengtianfu!

At the moment, outside the Yuhan tower, a group of people came here in a hurry.

The one who took the lead was shengtianfu strongman, shengtianbaizun, who had not successfully entered the ruins of Huanglong ancient emperor.

This time, the vision of yin and Yang Pisces was obviously mastered by the holy heaven. Tiancan Niang felt that it was very strange. She sent Shengtian baizun out again to explore.

"My Lord, there are obvious signs of fighting here."

A strong man of holy heaven picked up the dust that had been split in two by Taoist Quan Yi before and handed it to holy heaven baizun.

"Floating dust? It's a little familiar. "

Holy day white Zun some suspicious looking at this floating dust, if really that, that Pisces vision is not simple.

"All on guard, be careful!"

Holy heaven white Zun is one of the most powerful people in holy heaven.

Although the realm is powerful, only he knows that he will be defeated in the face of the same level of martial arts!

A large part of his cultivation today benefits from the pills of the holy heaven!But even so, his realm is enough to crush many strong people in heaven and man!

.....

At the same time, guarding the jade cold tower of blood dragon Mou son slightly a change, he naturally aware that someone is coming! Seeing that the other side is about to step into his attack area, he also holds his breath, and the dragon shape has been transformed from behind.

"The spirit of the barren dragon, the five dragons travel in the sky! Destroy all things

Five swords!

Wu Qi chao yuan!

Five dragons in the sky!

Blood dragon didn't choose to shoot directly! But a little bit of power from the chance of Huanglong GuDi!

And just close to the holy heaven white Zun naturally feel the crisis, face crazy change, the first time quickly retreat, completely ignore the holy heaven with his strong.

The speed of these five strange flying knives is too fast. As soon as they are killed, they crush the void and directly kill all the holy heaven strongmen who haven't had time to dodge!

Shengtian baizun can only comfort himself in his heart. Fortunately, he has only five throwing knives. Otherwise, his team of 20 people may lose its meaning completely because of this ambush.

Although Xuelong killed five of his opponents first, it also exposed his weakness of only one person.

"It's a pity that he is alone!" Holy day white Zun light way, "since so, let him dissipate in this world!"

"The light of heaven is bound!" The hands of ten holy heaven strongmen made seals at the same time. One seal after another enveloped the blood dragon's body, like a big net, tightly bound the blood dragon's hand holding the scepter.

The blood dragon saw this move, but he showed a smile. At the beginning, he had seen the killing move of the holy heaven.

But at this time, he is different from the original!

The blood dragon's two-color eyes reveal the aura, and the pressure of the ancestral dragon and the wild dragon is suddenly released. Part of his body awakens, and the power of blood is all forced on the body of the holy heaven strong.

"Holy light shield!"

Shengtian baizun naturally found that there was a connection between this and the ancient emperor of Huanglong. Instead of talking nonsense, he offered a huge shield to cover all the people of Shengtian sect.

The shield was covered with military charms, and a trace of the spirit of the dead spread.

"Bang!"

The collision of breath, the roaring sound of ghosts and gods and the battle of ancient battlefields create huge energy fluctuations.

Chapter 5166

"Thunderbolt! Give me repression The blood dragon's claw was again wielded and hit heavily on the shield.

"Holy heaven riding dragon gun!"

Shengtian baizun holds a shield and a long gun.

On the sword of the spear, a dragon appeared. The dragon's body was as fast as lightning. Under the sneaking of the dragon, the spear directly hit the blood dragon's abdominal cavity.

The blood dragon gets away and hides. The other holy heavenly warriors make a seal with their hands. The holy heavenly light has blocked all the retreat of the blood dragon!

No matter how strong the blood dragon's individual strength is, it can't be more than a dozen strong men in the middle and late stage of the true realm join hands.

What's more, there is a holy tianbaizun who has just stepped into the realm of Taizhen under countless pills!

For the blood dragon, it is impossible to digest the chance of the ancient emperor and the archaic ancestor in a short time!

He needs time!

But now, in the face of such a strong enemy, time is obviously not allowed!

The blood dragon's blood has been spewed out, and the power of blood is burning again, but it has no ability to unlock a chain!

How can the chain be so easily untied one after another!

"Thor breaks the sky!"

The blood dragon directly concentrates all his strength on the scepter, directly breaks the limit of the holy light barrier, and a flash has entered the Yuhan Tower!

"Don't let him run away!"

Shengtian baizun said coldly, but he didn't rush into the Yuhan pagoda at the first time. Instead, he let other shengtianfu strongmen step into the pagoda first.

"Yes, sir

Shengtianfu strongmen all followed up, just entered, but directly fell into a layer of darkness.

Later, the holy heaven white Zun also stepped into it and disappeared into the darkness.

At this time, the Yuhan pagoda and yechen entered as if they were two pagodas. The natural array in the pagoda had been opened, and it was no longer on the same floor!

When the blood dragon entered, it had randomly fallen into the unknown level, and the strongmen of shengtianfu were naturally randomly spread to different tower levels.

The fear of the unknown is spreading.

Meanwhile, outside the Yuhan tower.

Void tear, a white robe figure emerged, it is tianwu emperor!

"I'm late?"

Emperor tianwu's face was heavy and his heart was very depressed!

Last time he just pushed the whereabouts of the reincarnation Lord, but the other party had already taken away the tianwu Scripture.

This time, as soon as he arrived, did the other party leave again?

"This time, no matter what, let him return the Scriptures to me!"

Emperor tianwu was very angry. He stepped out one step at a time and blew up a lot of boundaries. In these boundaries, there were people, city buildings, landscape, and even the existence of the universe, as if they were small worlds.

His step is like stepping out of the universe, revealing the infinite atmosphere of the universe.

Hum!

As the boundary expands, countless visions continue to pass, which is very spectacular.

He once again used Wanjie's evasion.

This technique can connect the heaven and the world, and can insight into all the causes and effects of the world. Now emperor tianwu uses this technique to continuously deduce and capture Ye Chen's breath in the real world.

As long as ye Chen is still in the real world and hasn't jumped out, he can trace back and find out. No matter where he escapes, he can't avoid his peeping.

"Lord of reincarnation, no matter where you are, I will make you spit out tianwu scriptures!"

Emperor tianwu's face, with a solemn and solemn look, hands constantly holding the formula, in the infinite sky, infinite world, constantly searching for the trace of reincarnation of the Lord.

All of a sudden, Emperor tianwu snorted, but his face turned pale, and even a little blood flowed from the corner of his mouth. The border weather around him suddenly showed signs of collapse and destruction.

As if ready, Emperor tianwu quickly took a pill.

This elixir is white and flawless. It seems that there is an indescribable supreme breath in the middle. It was obtained by Emperor tianwu when he was in tianwu general altar. It should be made by Yan Changge when he exhausted his blood essence.

At this time, in order to track Ye Chen, Emperor tianwu could not take care of the others. He even took out this pill.

After all, the last time he spied on reincarnation, he would have been greatly attacked without the help of tiancanniang.

"It's underground!"

Emperor tianwu wiped the blood from the corner of his mouth and showed a cruel smile!

This time, I will let you spit out my things and let you understand that not everything can be coveted!

In a flash, Emperor tianwu also entered the Yuhan pagoda!

.....

At the same time, the Yuhan tower is deep.

Blood dragon Yin and Yang eyes, naturally can see things in the dark, he even appeared in front of a strange chessboard!

Although he has been inherited by ZuLong and Huanglong GuDi, many of them have not yet awakened. At present, he really knows nothing about the five elements. Seeing this chessboard crisscross, he can only stare at it. "Master, are you there?"

Blood dragon some expect of shout a way, these things are obviously difficult not to pour Ye Chen, just he doesn't know at the moment, ye Chen enters this jade cold tower, don't pass any test at all.

"Forget it! Go along as you please

Once the blood longan is closed, step directly into it.

He can't delay his time here, otherwise, if the people of shengtianfu find the master earlier, the master will be very dangerous.

"Ding..." The chessboard made a ringing sound, and then the chessmen of the blood dragon were swallowed up one by one.

"Lost?" Blood dragon expected to say, the whole person has done a good defense offensive.

"Wow

A door suddenly opened from the original position of the stone wall. Xuelong was a little confused. The door opened. Didn't he just lose, but win?

But, how can it be!

Then we can only say that this open door is a dead door?

Blood dragon looked around, very quiet, can not hear any sound, resolutely went in.

"What is this?"

Almost at the same time, the blood dragon felt that he had entered a piece of water, and the shape of the Dragon had been displayed. It was not comfortable to swim in it.

The small fish, are jumping in the water, carefree.

"Pisces." Looking at some swimming fish in the pool, Xuelong suddenly thought of these two words in his mind. Did he find the Pisces on the jade pendant?

Fortunately, along the way, he saw the jade pendant held by Ye Chen many times. Otherwise, he really couldn't remember the appearance of the two little fish.

The Dragon swims quickly in the water, carefully watching each jumping fish.

"Found it!"

among the many as like as two peas, the blood dragon finally found the two little fish that were exactly alike to the jade.

"Wow

There is a stone door open again under the ground, but it is strange that the water is still sealed here, and there is no leakage to the next layer of space.

"Pa!"

In the blood Dragon into the next layer of the moment, there has been a long gun stabbing the blood dragon's face.

This spear belongs to shengtianbaizun!

"It's just a miscellaneous dragon. It seems that your life is not good. I ran into you here!"

Chapter 5167

"If you hand over all the opportunities of Huanglong ancient emperor, I can leave you a whole corpse!"

Shengtian baizun's spear swept towards the blood dragon again. The people in Shengtian mansion should be randomly divided into several layers by this strange Yuhan tower.

He was the only one in this layer. At this time, he sensed the arrival of the blood dragon and immediately offered his own killing moves.

Obviously, the blood dragon will not be hurt by the same move any more. The dragon claw grabs it in the air and has already shot down the long gun,

"hum, you are only one person!"

XUELONG sneered that he might not be able to fight with more people, but if there are fewer people, he can still change his life.

Although Shengtian baizun is too true, because of long-term elixir piling up, the actual combat ability is not strong! I'm afraid some demons in the later stage of the real world can't resist!

"Well, I don't know if I'm dying! I can kill you alone

Shengtian baizun is full of arrogance, and his passion for war shows itself.

"Dragon blood claw, get down!"

The blood dragon's huge claw, carrying endless cold, directly slapped on the body of Shengtian baizun.

"Ignorant child! Broken

The body of Shengtian baizun suddenly burst out holy glory, and the whole person seemed to be plated with a layer of Geng gold.

"Dang!"

The fierce dragon claw, facing the protection like a golden bell jar, smashes the ground under the foot with a huge burst!

Blood dragon and holy heaven white Zun fall to the next level at the same time.

"My lord? Let's help you! "

On this level, there are several powerful people in the holy heaven. Naturally, they quickly sacrifice their own supernatural powers and try their best to assist the holy heaven white Buddha.

At this time, the blood dragon was pleasantly surprised. It seems that the Yuhan pagoda can break through with brute force!

Holy heaven's strong men are too difficult to deal with. After all, he has two fists and four hands. If he wears them down, he will give up his own life!

"Break it for me!" Blood dragon tail a throw, directly break open this layer of the ground, toward the next layer rush away.

"He's going to run!" It is obvious that Shengtian baizun will not miss this good opportunity to perform meritorious service and pursue it with all his might.

Blood dragon regardless of all the way, just use their own blood force to break through the ground, three layers later, the body is full of scars.

.....

The deepest part of Yuhan palace.

Ye Chen obviously heard the loud noise coming from the top of his head. He looked at the old man whose life was about to end in front of him and said: "elder..."

Naturally, the old man felt something. He held on and trembled: "someone is attacking the tower with brute force..."

"In the future, there will surely be those who are strong in Taizhen..."

"You, go..."

Ye Chen naturally can't walk, and the blood dragon is still on it. The key is that the old man of the Yin Yang Temple hasn't told himself the rest of the temple!

"Master, my friend is still on it. I can't go yet. Please tell me the way up

"Yin Yang Yuhan pagoda, irreversible!"

These words, the old man said very clearly.

"Then what? Master, what can you do? "

The old man shook his head slightly. There was only one finger left that could move, facing a direction.

"Get out of here..."

Ye Chen is really helpless now, he absolutely can't do the thing that abandons blood dragon oneself to run for life.

Moreover, the old man obviously can't give up. He must know a lot about the temple of yin and Yang.

Ye Chen has made a decision in the next second. He sacrifices the tablet and says, "Yan xuan'er!"

Next second, a little girl floats out!

"What can I do for you, young master?"

Naturally, the old man noticed Yan xuan'er with a dazed look!

How can the reincarnation Lord of this life master such things?

If ye Chen doesn't die young, the growth of Yan xuan'er will be terrible!

Ye Chen took a look at Yan xuan'er and said directly, "do it!"

Yan xuan'er obviously understands something. A trace of strength melts into the burning stele, and the endless flame turns into a hot stream. She starts cutting from the old man's feet, carefully bypasses the old man's body, and separates him from the ice on the ground.

"Don't Leave me alone! You go

Looking at Ye Chen's action, the old man guessed Ye Chen's plan. He could only comfort him: "don't waste your time. Even if I go out, I can't live for a few days."

"Don't talk, take a breath, when my brother comes, let's get out of this place!"

Maybe it's because of the strength of the burning tablet, or the origin of Yan xuan'er, the endless ice began to melt slowly!

.....

At the same time, above the ground!

"I'd like to see how many layers you can resist with your flesh and blood?"

Holy heaven white Zun's arrogant voice came from behind the blood dragon. Although the blood dragon has killed many strong men who are far superior to himself, it has been scarred by many violent impacts.

Holy heaven's luster shows again, holy heaven's white Zun follows, releases power again, and wants to take the opportunity to kill the blood dragon.

The blood dragon maximizes the power of the blood vessels. With the power of the ancestor dragon, he urges himself to avoid the damage of the holy heaven white Zun!

"Pa!"

The blood dragon's blood spurted out again, and this layer of ground didn't break after the impact!

"In the end? And the master

Blood dragon now almost no longer consider holy day white Zun, his heart is full of worry about ye Chen.

At this time, ye Chen is looking up at the loud noise. Is it not successful?

Could it be a blood dragon?

Ye Chen has already moved the old man to the escape transmission array that he prompts, and now he stays to meet the blood dragon.

Next second, ye Chen disappeared in place!

.....

"It seems that I have dragon blood to feed my holy gun today!"

Shengtian baizun said coldly that Yibing Youlong gun appeared again. With a flick of his finger, he had approached the blood dragon again.

"Bang!"

This one is blocked by something.

After the wind sand and thick fog dispersed, ye Chen stood in front of the blood dragon with a Sha sword.

He really can't imagine the scene that the blood dragon broke through the last layer, but was hindered and died.

So he went straight from the bottom up and broke through this layer of ground.

"Master!"

"Ye Chen?" Shengtian baizun is also very happy to see ye Chen. It seems that today there is not only one dragon sacrifice sword.

Ye Chen pushes the blood dragon directly to the underground floor and whispers the direction in his ear.

Blood dragon originally wanted to fight with Ye Chen. At this time, hearing Ye Chen's plan, he quickly jumped up and went to the half frozen old man.

"You bastards of holy heaven, let me meet you!"

For a moment, the dark source sign triggers.

The dark environment is more profound now.

Shengtianbaizun himself is a very greedy person.

At this time, the dark source symbol will not act rashly.

"Eternal night, great devil heaven!"

"The sky mourns the star sand!"

Ye Chen roars, hiding in the dark source symbol, has also returned to the last level.

"Protection array!" Holy heaven white Zun Mou son a coagulate, immediately shout a way, all holy heaven mansion strong persons, form guard big array at the same time.

Ye Chen's body shape is like electricity. In a blink of an eye, he has come to the blood dragon and the old man: "master, how can I activate the array?"

Although he perceives that shengtianbaizun is not powerful, he should not stay for a long time now!

"Jade pendant..."

Ye Chen quickly buttoned the Pisces jade pendant in the eyes, and the double brilliance burst out between the circulation of yin and Yang.

Shengtian baizun has no idea of Ye Chen's whereabouts. He thinks that the flowing luster is the miracle of Ye Chen's Tianshang Xingchen sand.

"My Lord, there seems to be no attack!" A strong man of holy heaven said strangely.

They seem to have been waiting for a long time. No matter how long the move is, it should have arrived long ago.

Holy day white Zun heard here, just after the discovery, ye Chen already no trace.

The other side is just a shot in vain, just to want to escape!

Shengtianbaizun leads a kind of shengtianfu strongman to the last layer. Here, there is only one ground of broken ice.

"Damn little beast!"

Holy heaven white Zun's angry voice penetrated the whole Yuhan tower, but it was too late!

"Shua Shua!"

A strong and powerful breath, from top to bottom, fell directly in front of shengtianbaizun.

The visitor was a man in a white robe. At this time, he was looking forward to the holy heaven.

"What about people?"

"Run away!"

"What! I spent such a precious elixir. I found him very hard. He ran away! "

At this time, Emperor tianwu had the heart to die. If he could choose, he would rather come here an hour later, otherwise he would not waste such a precious pill.

"I don't know who you are?"

Shengtian baizun sensed each other's breath and thought that ye Chen should have offended many strong people.

"I'm emperor tianwu. Go back and tell empress Tiancan. If you have any news about this son in the future, please let me know as soon as possible. I will do my best to kill it. "

"It turned out to be emperor tianwu. I've been looking up to you for a long time."

The holy heavenly white Zun complimented.

Emperor tianwu was very upset and didn't want to talk to each other.

In a flash, he had returned to the ground and was ready to go back to her majesty.....

The screen turns.

After the array dissipates, ye Chen and his party have been passed to an unknown mountain.

Ye Chen first reaction, here is very quiet.

There are many green peaks all around. There is mist between them. The flowing water and waterfall show the green in the hazy.

Under the green peak, the stream is murmuring and winding. The plants and trees along the way are all green, lingering with a faint green light.

Here, it's like a paradise.

Ye Chen stands between the green mountains and green waters, and has a rare sense of peace for a moment. He has not been as calm as this time for a long time.

In a trance, he wanted to leave behind thousands of troubles.

"Master, the elder passed out." The blood dragon has a dignified look.

Although he doesn't know what happened to Ye Chen at the bottom of the tower, he can take them away at such a critical moment. I think this elder must not be a mortal.

Chapter 5168

The blood dragon put his hand under the old man's breath, which proved that the other party was still struggling.

Ye Chen sighed. On the shimmering pool, his figure was especially bleak.

Bagua Tiandan technique has no effect on the old man's freezing damage. Is it really at a dead end, and it's missed again with the situation of the temple of yin and Yang?

"Xiao Hei, can you cure this elder?" Ye Chen suddenly thought of what, to the small underworld.

However, black is shaking his head: "the other side's problem is a little strange, I can't do it."

Ye Chen Mei Yu is full of unwilling, finally got this clue, he absolutely can't give up so easily.

XUELONG has always been a layman for curing diseases and saving people. At this time, he can only look at Ye Chen in a hurry, but he has nowhere to vent his impatience. He can only silently burn a trace of blood power, trying to slowly melt the icicle around the old man's lower body.

"Xuanxian, Shuo Lao, do you have a way?"

Ye Chen tries to communicate with xuanhanyu and shuolao, but he doesn't know why.

Next second, ye Chen thought of the God of Xinghai!

"Master Xinghai

Ye Chen's faith moves, and his mind has come to the reincarnation cemetery.

At this time, in the reincarnation cemetery, because of the awakening of luotaixu, the God of Xinghai, the original dry and yellow earth has been lingering on a stream, which is flowing like a continuous stream, making a sound like a spring.

"Boy, what can I do for you?"

On the tombstone of Xinghai, there are circles of glazed precious light, and the shadow of nothingness is already in full bloom. The whole popularity is very strict, and there is a trace of compassion of the Enlightenment on his face.

"Master!" Ye Chen sees the God of the sea of stars, and his chest is full of hope. He explains the matter quickly, and then stares at the God of the sea of stars.

"Do you mean that you have no effect even if you use the eight trigrams technique?"

The God of Xinghai looks very serious. You should know that the eight trigrams heaven elixir technique is made by the eight trigrams road. It can be refined by the eight methods of heaven, earth, water, fire, thunder, Ze, wind and mountain. The refined elixir has the wonderful implication of the nature of heaven and earth and the mystery of the eight trigrams.

Ye Chen shakes his head and sees the expression of the God of the sea of stars. He feels his heart is tight.

There was a tangle in the eyes of the God of Xinghai: "generally speaking, as long as you drive the fire method, you can try all kinds of larks. At this time, you say it's useless, isn't it..."

Ye Chen hears the voice of the God of the sea of stars, and immediately asks.

"I'll borrow your body and see this man."

The God of the sea of stars said that the empty body had fallen towards Ye Chen.

When he opened his eyes again, ye Chen's eyes turned green and reached out to explore the old man's acupoints.

Blood dragon can't help holding his breath, nervous and anxious, and vaguely looking forward to what good news.

"It's no use."

The God of Xinghai said with some regret that as a water system power, he has not encountered a disease that he can't rescue for many years. If he is still strong, he can still do it, but now, this idea

"Ah..."

I don't know whether I think of myself or sympathize with the survival of the strong man. The God of Xinghai sighs heavily and looks at Ye Chen with sympathy and regret:

"it's too late. The fire of his life has almost burned out. He could have survived for a while, but he spent a lot of spiritual energy to create the vision of heaven and earth before..."

The God of the sea of stars didn't go on, and ye Chen obviously understood each other's meaning.

Ye Chen can only nod, "thank you, master."

The old man forced himself to create a vision of heaven and earth to attract him. But at this time, he was going to die without any explanation?

Not reconciled!

Ye Chen almost made up his mind for a moment. Even if he lost Tao Yuan, he would let the old man recover and entrust him with the task.

"Master! Never

The blood dragon sees Ye Chen's movement and blocks his arm for the first time.

The source of Tao is different from cultivation. The source of Tao is the foundation of self cultivation. The width of the source can not be widened the day after tomorrow. If it is burned forcibly, it will affect the existing practice, or shake the whole mind of Tao.

"Blood dragon! You know how important the temple of yin and Yang is to me Ye Chen is not reconciled to say, the blue veins of both hands suddenly rise, if there is another way, he is not willing to lose Tao Yuan.

"Why so miserable?" Xuan Hanyu's voice suddenly rang out.

At this time for ye Chen, the voice is like rain after rain, very happy asked: "Xuan fairy? Are you awake? Do you have a way? "

Xuanhanyu said in a deep voice: "no, this person's breath has almost stopped. There is no possibility of survival."

Just like the roller coaster, ye Chen is almost a little stuffy and frowns.Xuan Hanyu sneered: "I have no way to save him, but I still have some way to make him shine back for a moment."

Ye Chen stares at the old man lying motionless on the ground. If he can't survive, it's also very important to be entrusted by the other party.

The strong of this generation, they always regard commitment as better than their own life.

Perhaps fate doomed them not to survive, that always clear and firm belief represents their tenacious original heart.

This is where ye Chen admires them most. At this time, ye Chen looks at the old man with respect and awe.

"Xuanxian, please tell me the way to return light."

Blood dragon see ye Chen took back the intention of spontaneous combustion, is also draw back the arm, the worry on the face dissipated a lot.

For him, ye Chen is the most important. No matter how important the old man is, he is far less important than ye Chen.

"Your reincarnation blood can connect Yin and Yang and run through the six realms. I will pass you a Dharma, and you can draw it back to his breath of three moments."

Ye Chen nods, frowns and studies the method that xuanhanyu gives him.

.....

Green mountain, ye Chen sit cross knee, face but hang this age should not have some deep and indifferent.

"Thank you, fairy."

Ye Chen had already understood the way to use the skill in half a incense.

"Well, I still want to remind you that after this method is used, when time comes, he has no hope of survival any more."

Xuanhanyu's tone is somewhat sad. She is the soul of the sword. She has seen countless fallen strong men. They may be reckless in their life, but they are often not allowed to be buried in their later years.

Maybe this is the cause and effect of martial arts.

Ye Chen nods heavily. Of course, he knows that this method is just to force out the last vitality, so that he can make a good explanation, but there is no possibility of turning back.

Chapter 5169

"I think he is willing, too."

The blood of reincarnation forms an array and rises around the old man. The bleak breath of reincarnation haunts the old man.

"Poof!"

The old man's mouth spits out a dark light, and the icicle on his body slowly turns into ice water and flows down slowly. His eyes, which were originally closed, have slowly opened at this time.

"The blood of reincarnation?"

The spirit of the old man is obviously far more than before. At this time, he can directly feel the reincarnation blood.

Ye Chen quickly reached out and helped the old man to sit on the ground.

"Lord of reincarnation, how can you..."

But the old man looked at Ye Chen with a shaking face and wanted to get up and kneel down to Ye Chen.

Ye Chen sighed: "master, I use the blood of reincarnation to force out all your life. If you have anything to entrust, just entrust it to me."

The old man's eyebrows were full of humility. He bowed his waist and said, "you really hurt his subordinates when you say that."

Ye Chen is no longer polite to the old man at this time: "which elder of the Yin Yang Temple are you?"

"I'm too old to be able to attend the summit, but I'm just a messenger of God."

Although this introduction can arouse the vision of yin and Yang Pisces, and be chosen as a messenger by the reincarnation Lord of the last life, it is obviously not as simple as what he said.

"Well..." Ye Chen ponders, and is not in a hurry to ask about this person's situation.

"It's not right for me to be called Chu. I'm a god envoy."

The old man continued to introduce himself. When he mentioned the envoys, his eyebrows seemed to return to the time when the temple of yin and Yang was the most prosperous. Before, they were worshipped so high.

And now

Remembering the past, the old man's expression seems to have changed. The past is gone, but he is doomed not to see the future of the temple of Yin and Yang.

"Chu God envoy, why did you appear in Yuhan city and why were you imprisoned there?"

Ye Chen carefully recalled the stone gate of Yin Yang and Pisces in Yuhan tower. If he said that the temple of Yin Yang had nothing to do with Yuhan City, he naturally didn't believe it.

"In fact, Yuhan city is a connecting place of our Yin Yang Temple." Chu shouldn't have said, "at the beginning, our God sent us to communicate with the outside world. There were many such places to prevent the world from prying."

"I see."

"It's just that because of that later..." Chu shouldn't have looked a little sad. After that, the temple of Yin and Yang began to decline, and then went to seclusion.

"What's the matter?" Ye Chen asks anxiously.

"When..." Chu shouldn't look at the distant Qingfeng, memory seems to return to that time.

Ye Chen's eyes look at his lonely, regretful look, can't bear to disturb him, can only wait for him quietly.

"At the beginning, when the temple of Yin and Yang was at its peak, we were divided into several factions. Each faction coexisted and had no connection. Our faction had many divine envoys, and there was a secret method hidden in the temple, which could see the supreme world and explore the future."

"After the fall of the reincarnation Lord, we explained part of our layout. For a long time, our school was greedy and wanted to spy on Taixu and cause and effect. Therefore, we gathered the power of the divine envoys to explore the cause and effect of the future Yin Yang Temple and the reincarnation Lord through the secret method."

"You didn't succeed?" The blood dragon couldn't help but interpose and asked, "is it because of backfire that this situation is caused?"

"No, we not only succeeded, but also learned a surprising cause and effect report."

Ye Chen can't help but hold his breath. He hopes that his guess is not true. The divination of the envoys of the Yin Yang Temple has nothing to do with the wanxu temple.

"At the beginning, we thought that as long as we were within the law of heaven and earth, the temple of yin and Yang would be the throne, but we didn't know that there were people outside and heaven outside. Many of our God envoys, instilling the power of God, see that the Tianbao is not the future of the temple of yin and Yang at all. On the contrary, it has brought about near extinction to the temple school. "

"I really should have my name, no, No."

Chu shouldn't's face is full of regret. For so many years, he has been living in the resentment against himself. The penetration of Frost's power is the pain of gouging out his heart all the time. He didn't launch the miracle at the first time, that is, he was repenting himself.

"Master, this matter may be in the layout, so don't blame yourself so much."

Ye Chenquan said that if it had been before, he would have thought that it was the God envoys who made their own decisions. Now, many things are connected together to find that it is the layout of the reincarnation Lord of the last life. Therefore, this time to spy on the fate of heaven is not necessarily the arrangement of the reincarnation Lord.

Fortunately, the layout of the remaining factions should not be affected.

The existence of Yin Yang Temple is more and more complicated.

"Lord of reincarnation, you don't have to comfort me. After our school divined the cause and effect of the future, we didn't know how much disaster it brought to the Yin Yang Temple. We were once

complacent and thought that our Yin Yang Temple was the disaster of the so-called wanxu. Even at that time, we didn't even know the people behind the wanxu. "

Ye Chen's heart is filled with a layer of sympathy for them. Compared with the death and reincarnation of the reincarnation Lord, these envoys are too sad. "We didn't know until later that the strongmen of wanxu knew that we were spying on the secret of heaven. They even ordered us to strangle the temple of yin and Yang."

At first, he thought that the hidden action of the Yin Yang Temple was due to the layout of the reincarnation Lord. Now he finally knew that it was a forced action.

After all, compared with the wanxu temple, the Yin Yang Temple really has no strength to compete. They are not on the same level at all.

"Cause and effect rotate. The strongmen of wanxu come quickly and forcefully. We have many people in their hands."

Chu shouldn't have sighed: "it's just that after we finished divination at the beginning, we had no time to tell others about this, so we were forced to flee."

"What?"

Ye Chen's expression instantly becomes a little ugly.

His fingers unconsciously curled up and rubbed each other. He wanted to calm down and think about the entanglement. If it is really like what Chu should not have said, it will be a heavy blow to the overall planning of the future.

However, why did Qi Yunshu and others not tell this at that time? Does Qi Yunshu not belong to this school?

Or is this the layout of the Lord of samsara?

After all, according to Chu shouldn't have said, the Lord of reincarnation only handed over the layout to some people. These people, with their own strength at that time, must have divined the future, and should not have this accident.

"Lord of reincarnation, with the passage of time, my life is also passing. I'm afraid that I will really fall, so I don't hesitate to send out the unique vision of the temple of yin and Yang in order to attract the disciples to come and pass on the information to you."

Chu shouldn't have put away his full face of regret. Compared with his own repentance, he was full of resentment towards the strong of wanxu temple.

Chapter 5170

"Minister of Chu, have you ever dealt with the strong man of wanxu temple?"

Chu shouldn't have shaken his head: "at the beginning, the strongman of wanxu temple made a move. In order to protect the people, the three dignitaries in the temple led him away, which gave us the hope of escape. But I was not lucky. The strongman of wanxu had a spirit beast, frost, fog and ice flower. My injury was due to him."

"Is it just a spirit beast?"

The icicle's power can't even be dispelled by the eight trigrams and heaven elixir of the thirty-three Hongmeng ancient method, but it's only a spirit beast that causes the damage. Ye Chen's face is more cold and stern, which shows that he will be more powerful than he imagined against his enemies in the future.

At this time, he also understood that no matter what kind of adverse inheritance and opportunity he had, he could never underestimate the wanxu strongman who stood on the top.

Ye Chen fists slightly clenched, not yet, must learn to be patient.

When the sound can shake the sky, they must pay for everything before!

"Reincarnation Lord, at the beginning, I showed all my powers, but I was defeated in the end, and then I was forced to escape into Yuhan tower. However, he was still schemed by it, won his magic power, and lingered at the bottom of Yuhan pagoda. " Chu shouldn't have sighed.

At the beginning, he thought that there was no match in the world, but he was cornered by a spirit beast.

"Do you know whether the three dignitaries who fought against the strongmen of wanxu escaped in the end?"

"No Chu shouldn't have shaken his head, "I hold the spirit state in my hand. After I escaped at the beginning, although I was hit by a magic power, I still have the foundation, and I am eager to know the situation of the three dignitaries. "

"The joint efforts of the three dignitaries only delayed the strong man of wanxu for a short time."

Chu shouldn't have pulled out a bronze mirror from his arms: "now I have no magic power to use, and I can't pass it on to you, so I can't activate the mirror. If the future reincarnation Lord finds a way to activate it, he can continue to use it."

Ye Chen took it over and looked back and forth. He didn't see anything unusual. At this time, he didn't care to look in the mirror. He could only hope that Chu would not be able to describe the situation of wanxu strongmen more clearly.

"The three dignitaries are not the opponents of the wanxu strongmen. Time has passed and they are all tired. They are at the mercy of the wanxu strongmen."

Friction between the teeth out of hate chewing sound, Chu shouldn't gnash his teeth said.

At the beginning, the scenes peeped through the bronze mirror were all engraved on Chu's mind like knives, axes and chisels. All the feelings of resentment, remorse, remorse and guilt were mixed

together. He was clearly the creator of all evils, but he was able to live for so many years. He was sorry for the emperor who died for them.

"God envoy of Chu, you don't need to blame yourself. What we really need to do is to seek revenge from the strong of wanxu and seek justice for the venerable." Ye Chen said that his eyes were firm and incomparable. He never wanted to let wanxu strongmen taste the taste of revenge like this.

"Lord of reincarnation, the reason why I use miracles is to tell you that you must not rashly fight against wanxu temple before you grow up completely." Chu shouldn't have sighed again.

"I really don't want to repeat what happened before. I hope you can bear the resentment and wait until you are really strong before you go to wanxu."

Ye Chen certainly understands Chu shouldn't this more heavy sigh than a, what kind of emotion is hiding behind.

"Also, please remember that in the near future, there will be an emissary from the Yin Yang Temple on the Pisces peak in the heaven and man realm to lead you back to the Yin Yang Temple."

"It may be half a year or a year soon, but it will never be more than five years!"

Ye Chen's eyes brightened when he heard this. It seems that the reincarnation Lord of the last life really has a clear layout plan for him. If he needs to wait, he can really enter the temple of yin and Yang.

Blood dragon's face also showed a trace of joy. In his opinion, the master got the most wanted information, which is the real clue of the temple of yin and Yang.

"Thank you very much

Ye Chen quickly thanks, it seems that the other party is persistent at this time to release the vision, completely relying on causality calculation, in order to catch up with his complete fall, the most important message to pass out.

Chu shouldn't have slightly shaken his head. He should have been the one who wanted to die. At this time, he just did a little thing with his remaining life.

"The God envoy of Chu, don't know where the three venerable men fell? I want to go and make them safe. "

The three worshippers of the Yin Yang Temple, who are determined by death, let Ye Chen admire them in his heart.

After so many years, the venerable still exposed their bodies in the wilderness, which really made him feel sad.

"The Lord of reincarnation has a heart!"

Chu should not have heard this sentence, almost tears in his eyes, so many years, he buried at the bottom of the bone tower, every time suffering, he can't help but sigh for their own dead elders, no one to clean up the bones, this generation of strong on such a silent fall in desolation.

At this time, ye Chen's words really came to his heart.

"They are at jimie cliff. I beg you to give them a pillar of incense to comfort their gods."Even in the face of the same fate, Chu shouldn't have been living in remorse for the rest of his life. His slightly wrinkled eyes obviously couldn't control his emotions. How reckless he was then, how yellow and powerless he was now.

Chu shouldn't sit down slowly. The whole person's breath dried up quickly with the naked eye.

There is no way to renew one's life.

Blood dragon's face is also haunted by a trace of Pathetique, so many years with secret and regret, how to despair and lonely through every day.

"Bury the God of Chu." Ye Chen softly orders a way.

The blood dragon answered quickly.

Ye Chen then cuts to a huge stone across the air, and a tombstone is formed between the flying of Sha Jian.

"The tomb of Yin Yang Chu."

"God of Chu, bury you in this beautiful place. You can rest assured that ye Chen will fulfill your old wishes one by one."

Ye Chen's whole person is emitting the lofty light, his Wu Zu Dao heart, unexpectedly at this time has degenerated and promoted.

As if the sun and the moon were shining, and as holy as an immortal, ye Chen was more independent in the green mountains and clear waters, and more graceful than the Chinese.

.....

"Master, shall we go to jimie cliff?"

XUELONG knew that Chu's words had a big impact on yechen. After all, they never thought that wanxu temple was more difficult to deal with than they imagined.

"Well."

Ye Chen's answer is simple and straightforward. He doesn't need any language to prove it. Now he just wants to grow up quickly and kill him with a shajian.

All the way speechless, long clothes dancing, but lonely and indifferent look, but shows the mood of Ye Chen at this time.
